Same as Ancient History and Classical Civilization 319 (Topic 1: The Ancient Mediterranean World) and History 319D. Survey of the ancient Mediterranean from ca. 3000 BC to AD 476. Focus on the development of ideas and institutions in the Greek and Roman worlds and on the active cultural exchange among the diverse civilizations of the broader region that shaped Greek and Roman history and cultural identity. Three lecture hours or two lecture hours and one discussion hour a week for one semester.

### **C C 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Classical Civilization.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Classics. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

## **Upper-Division Courses**

### **C C 322. Classical Literature in Translation.**

Survey of Greek and Latin philosophical, literary, and historical classics, in translation. No knowledge of Greek or Latin is required. Three class hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

#### **Topic 3: Wit and Humor in Antiquity.**

**Topic 4: Ancient Epic.** Classical Civilization 322 (Topic 4) and 322 (Topic: Epic Tradition: From Homer to Tennyson) may not both be counted.

### **C C 327. Parageography.**

Survey of the classical and medieval roots of speculative literature, especially those fantasies that involve the creation and presentation of imaginary places, lands, and worlds. No knowledge of Greek or Latin is required. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **C C 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Classical Civilization.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Classics. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **C C 330K. Ancient Philosophy after Aristotle.**

Same as Philosophy 330K. Epicureans, Stoics, Skeptics, Plotinus and the Neoplatonist tradition. No knowledge of Greek is required. Three class hours a week for one semester. Prerequisite: Six semester hours of coursework in philosophy.

### **C C 336M. Medical and Scientific Terminology.**

A systematic study of medical and scientific terminology based on Greek and Latin roots. No knowledge of Greek or Latin is required. Three lecture hours a week for one semester. Classical Civilization 306M and 336M may not both be counted. Prerequisite: Upper-division standing.

### **C C 340. Advanced Topics in Classical Archaeology.**

Detailed study of a single topic such as architecture, sculpture, or topography of sites. No knowledge of Greek or Latin is required. Three lecture hours a week for one semester. Classical Civilization 307K and 340 may not both be counted unless the topics vary. Classical Civilization 340 and 375 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Greek Archaeology.** Study of the artifacts, monuments, and sites of classical Greece; and their value for documenting ancient Greek religious, social, and cultural history. Prerequisite: Upper-division standing.

**Topic 2: Roman Imperial Art.** Same as Art History 327N. Public art of the Roman Empire from Augustus to late antiquity, ca. 31 BC to AD 350.

**Topic 3: Greek Architecture.** The architecture of mainland Greece, Asia Minor, and Sicily from the Dark Ages to the end of the Hellenistic period (ca. 1000 to 30 BC), with emphasis on public buildings, both religious and secular. Prerequisite: For art history and visual art studies majors, Art History 302 and 303; for others, at least one of the following is advisable but not required: Art History 301, 302, 303.

**Topic 4: Roman Architecture.** Prerequisite: For art history and visual art studies majors, Art History 302 and 303; for others, at least one of the following is advisable but not required: Art History 301, 302, 303.

**Topic 5: Hellenistic Art and Architecture.** Art of the Hellenistic period from the reign of Alexander the Great to the beginning of the Roman Empire, ca. 336 to 31 BC. Prerequisite: For art history and visual art studies majors, Art History 302 and 303; for others, at least one of the following is advisable but not required: Art History 301, 302, 303.

### **C C 348. Topics in Ancient Civilization.**

The development and progress of ancient civilization, including history, philosophy, literature, and culture. No knowledge of Greek or Latin is required. Three lecture hours a week for one semester; additional hours may be required for some topics. Classical Civilization 304C and 348 may not both be counted unless the topics vary. Classical Civilization 348 and 375 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 4: History of Ancient Philosophy.** Same as Philosophy 329K. Development of Western philosophy from the pre-Socratics to the early Christian era; emphasis on Plato and Aristotle. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Classical Civilization 342 (Topic: History of Ancient Philosophy), 348 (Topic 4), Philosophy 329K. Prerequisite: Six semester hours of coursework in philosophy.

**Topic 5: Homosexuality in Antiquity.** Prerequisite: Upper-division standing.

**Topic 7: Women in Classical Antiquity.** Same as Women's and Gender Studies 345 (Topic 9: Women in Classical Antiquity).

**Topic 8: German and English: Historical Perspectives.** Same as Anthropology 320L (Topic 8: German and English: Historical Perspectives), Germanic Civilization 327E (Topic 9: German and English: Historical Perspectives), and Linguistics 373 (Topic 8: German and English: Historical Perspectives). Only one of the following may be counted: Anthropology 320L (Topic 8), 320L (Topic 9: The German Language: Historical Perspectives), Classical Civilization 348 (Topic 8), 348 (Topic 9: The German Language: Historical Perspectives), German 369 (Topic 4: The German Language: Historical Perspectives), Germanic Civilization 327E (Topic 9), Linguistics 373 (Topic 8), 373 (Topic 9: The German Language: Historical Perspectives). Prerequisite: For English majors, completion of at least thirty semester hours of coursework, including English 316K or the equivalent; for others, upper-division standing.

**Topic 9: The German Language: Historical Perspectives.** Same as Anthropology 320L (Topic 9: The German Language: Historical Perspectives), German 369 (Topic 4: The German Language: Historical Perspectives), and Linguistics 373 (Topic 9: The German Language: Historical Perspectives). Only one of the following may be counted: Anthropology 320L (Topic 8: German and English: Historical Perspectives), 320L (Topic 9), Classical Civilization 348 (Topic 8: German and English: Historical Perspectives), 348 (Topic 9), German 369 (Topic 4), Germanic Civilization 327E (Topic 9: German and English: Historical Perspectives), Linguistics 373 (Topic 8: German and English: Historical Perspectives), 373 (Topic 9). Prerequisite: Six semester hours of upper-division coursework in German, or fourteen hours of coursework in German and six hours of coursework in linguistics.

**Topic 10: Jesus in History and Tradition.** Same as Religious Studies 335. Critical issues, scholarly debates, and historical methods in studying the development of the Christian tradition regarding the figure of Jesus. Prerequisite: Upper-division standing.

**Topic 11: Ancient Egypt.** Discussion of Egypt's culture, language, and history from the prehistorical period (13,000 BC) to the New Kingdom (1069 BC). Classical Civilization 304C (Topic 3: Introduction to Ancient Egypt) and 348 (Topic 11) may not both be counted. Prerequisite: Upper-division standing.

### **C C 351D. The Hellenistic Age: Alexander to Actium.**

Same as Ancient History and Classical Civilization 325 (Topic 6: The Hellenistic Age: Alexander to Actium) and History 351D. History of Asia, Egypt, and the Mediterranean world from Alexander's expedition to Asia to Rome's defeat of the last of the Hellenistic monarchs at Actium (ca. 334 to 31 BC). Two lecture hours and one discussion hour a week for one semester. Prerequisite: Upper-division standing.

### **C C 352. Classical Mythology.**

Survey of major Greek and Roman myths and their influence on literature, art, and music. Three lecture hours a week for one semester. Classical Civilization 303 and 352 may not both be counted. Prerequisite: Upper-division standing.

### **C C 354C. History of Greece to the End of the Peloponnesian War.**

Same as Ancient History and Classical Civilization 325 (Topic 4: History of Greece to the End of the Peloponnesian War) and History 354C. Survey of Greek history from the emergence of the city-states through the end of the Peloponnesian War (ca. 700 to 404 BC). Two

lecture hours and one discussion hour a week for one semester. Prerequisite: Upper-division standing.

### **C C 354D. History of Greece to 146 BC.**

Same as Ancient History and Classical Civilization 325 (Topic 5: History of Greece to 146 BC) and History 354D. Survey of Greek history from the end of the Peloponnesian War to the defeat of Greece by Rome (404 to 146 BC). Two lecture hours and one discussion hour a week for one semester. Prerequisite: Upper-division standing.

### **C C 362. Conference Course in Classical Archaeology.**

Advanced archaeological instruction and research in classical archaeology. No knowledge of Greek is required. Conference course. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

### **C C 363. Conference Course in Classical Civilization.**

Supervised work in various specialized aspects of classical civilization. No knowledge of Greek or Latin is required. Conference course. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

### **C C 375. Seminar in Classical Studies.**

Restricted to students in the Department of Classics. Study of selected topics in classical studies. Some knowledge of Greek or Latin is expected. Three lecture hours a week for one semester. Classical Civilization 340 and 375 may not both be counted unless the topics vary. Classical Civilization 348 and 375 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing; additional prerequisites may vary with the topic.

### **C C 679H. Honors Tutorial Course.**

Supervised conference course for honors candidates in classics. Three conference hours a week for two semesters. Prerequisite: For 679HA, upper-division standing and admission to the Classics Honors Program; for 679HB, Classical Civilization 679HA.

## **Greek: GK**

### **Lower-Division Courses**

#### **GK 601C. Beginning Greek.**

Studies the fundamentals of grammar and reading in ancient Greek. Six lecture hours a week for one semester. Only one of the following may be counted: Greek 601C; 804; 506 and 507; 606Q.

#### **GK 502. First-Year Modern Greek I.**

Introduction to grammar and reading. Five lecture hours a week for one semester. Greek 502 and 602C may not both be counted.

#### **GK 602C. Beginning Modern Greek.**

Six lecture hours a week for one semester. Greek 502 and 602C may not both be counted. Greek 602C and 503 may not both be counted.

#### **GK 503. First-Year Modern Greek II.**

Continuation of Greek 502. Five lecture hours a week for one semester. Greek 602C and 503 may not both be counted. Prerequisite: Greek 502 with a grade of at least C.

### **GK 804. Intensive Beginning Greek.**

An accelerated course for highly motivated students that combines the material covered in Greek 506 with that covered in the first part of Greek 507. Offered in the summer session as part of the Intensive Greek Program. The Intensive Greek Program meets for five hours each weekday during the summer session. Only one of the following may be counted: Greek 601C; 804; 506 and 507; 606Q. The student must complete both Greek 804 and 412 in order to earn credit for either; the same grade will be awarded for both courses. Prerequisite: Concurrent enrollment in Greek 412. Students who enroll in 804 must take Greek 412 in the same summer session.

### **GK 506 (TCCN: GREE 1511). First-Year Greek I.**

Studies the fundamentals of grammar and reading in ancient Greek. Five lecture hours a week for one semester. Only one of the following may be counted: Greek 601C; 804; 506 and 507; 606Q.

### **GK 507 (TCCN: GREE 1512). First-Year Greek II.**

Continuation of Greek 506. Five lecture hours a week for one semester. Only one of the following may be counted: Greek 601C; 804; 506 and 507; 606Q. Greek 507 and 412 may not both be counted. Prerequisite: Greek 506 with a grade of at least C.

### **GK 309K. Conference Course.**

Supervised individual instruction in second-year ancient or modern Greek reading. Conference course. May be repeated for credit. Prerequisite: Consent of instructor.

### **GK 310. Second-Year Modern Greek I.**

Culture, language, and literature of present-day Greece. Three lecture hours a week for one semester. Greek 310 and 610C may not both be counted. Prerequisite: Greek 602C or 503 with a grade of at least C.

### **GK 610C. Intermediate Modern Greek.**

Continuation of Greek 602C. Six lecture hours a week for one semester. Greek 310 and 610C may not both be counted. Greek 610C and 310K may not both be counted. Prerequisite: Greek 602C or 503 with a grade of at least C.

### **GK 310K. Second-Year Modern Greek II.**

Continuation of Greek 310. Three lecture hours a week for one semester. Greek 610C and 310K may not both be counted. Prerequisite: Greek 310 with a grade of at least C.

### **GK 311 (TCCN: GREE 2311). Intermediate Greek I.**

Continuation of Greek 601C or 507. Introductory readings from classical authors such as Lysias, Plato, and Xenophon. Includes grammar review. Three lecture hours a week for one semester. Prerequisite: Greek 601C or 507 with a grade of at least C, or Greek 804 and 412 with a grade of at least C in each.

### **GK 412. Intensive Greek.**

An accelerated course for highly motivated students. Completion of this course is equivalent to completion of Greek 506 and 507. Students who enroll in 412 must take Greek 804 in the same summer session. A grade of A may allow the student to advance to Greek 324 with consent of the Greek 324 instructor. The Intensive Greek Program meets for five hours each weekday during the summer session. Greek 507 and 412 may not both be counted. Prerequisite: Concurrent enrollment in Greek 804.

### **GK 312K. Intermediate Greek II.**

Continuation of Greek 311. Selected readings from classical and biblical authors. Three lecture hours a week for one semester. Greek 312K and 312L may not both be counted. Prerequisite: Greek 311 with a grade of at least C.

### **GK 312L. Intermediate Greek II: Biblical Greek.**

Continuation of Greek 311. A parallel to Greek 312K with a focus on biblical Greek. Three class hours a week for one semester. Greek 312K and 312L may not both be counted. Prerequisite: Greek 311 with a grade of at least C.

### **GK 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Greek.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Classics. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **Upper-Division Courses**

#### **GK 324. Advanced Greek.**

Reading and analysis of classical authors such as Homer, Herodotus, Euripides, and Plato. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Greek 312K or 312L (or 322) with a grade of at least C; or Greek 412 with a grade of at least A-, and consent of the undergraduate adviser.

**Topic 1: Euripides.**

**Topic 2: Herodotus.**

**Topic 3: Homer's Iliad.**

**Topic 4: Plato.**

#### **GK 326. Advanced Greek Grammar and Composition.**

Study of syntax, style, and principles of written composition. Three lecture hours a week for one semester. Prerequisite: Credit or registration for Greek 324.

#### **GK 328. Advanced Biblical Greek.**

Reading and analysis of selections from the New Testament, the Septuagint, and related writings. Three lecture hours a week for one semester. Greek 328 and 362 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Greek 312K or 312L (or 322) with a grade of at least C; or Greek 412 with a grade of at least A-, and consent of the undergraduate adviser.

**Topic 1: Pauline Epistles.**

**Topic 2: The Gospel of John.**

#### **GK 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Greek.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Classics. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **GK 362. Seminar in Biblical Greek.**

Critical study of biblical texts and related writings. Three lecture hours a week for one semester. Greek 328 and 362 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Greek 324 or 328.

### **GK 365. Seminar in Greek.**

Critical study of authors such as Thucydides, Demosthenes, and Aeschylus. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Greek 324 or 328.

- Topic 1: Aeschylus.**
- Topic 2: Sophocles.**
- Topic 3: Thucydides.**
- Topic 4: Aristophanes.**

### **GK 370. Advanced Conference Course.**

Supervised reading. Conference course. May be repeated for credit. Prerequisite: Greek 310K or 324, and consent of instructor.

### **GK 679H. Honors Tutorial Course.**

Supervised conference course for honors candidates in Greek. Three conference hours a week for two semesters. Prerequisite: For 679HA, upper-division standing and admission to the honors program in Greek; for 679HB, Greek 679HA.

## **Latin: LAT**

### **Lower-Division Courses**

#### **LAT 601C. Beginning Latin.**

Fundamentals of grammar and reading. Six lecture hours a week for one semester. Only one of the following may be counted: Latin 601C; 506 and 507; 506Q; 508.

#### **LAT 506 (TCCN: LATI 1511). First-Year Latin I.**

Fundamentals of grammar and reading. Five lecture hours a week for one semester. Only one of the following may be counted: Latin 601C; 506 and 507; 506Q; 508.

#### **LAT 507 (TCCN: LATI 1512). First-Year Latin II.**

Continuation of Latin 506. Five lecture hours a week for one semester. Only one of the following may be counted: Latin 601C; 506 and 507; 506Q; 508. Prerequisite: Latin 506 with a grade of at least C.

#### **LAT 309K. Conference Course.**

Supervised individual instruction in second-year Latin reading. Conference course. May be repeated for credit. Prerequisite: Consent of instructor.

#### **LAT 311 (TCCN: LATI 2311). Intermediate Latin I.**

Continuation of Latin 601C and 507. Introduction to reading classical authors in their cultural context. Includes grammar review. Three lecture hours a week for one semester. Latin 311 and 511K may not both be counted. Prerequisite: Latin 601C or 507 (or 506Q or 508) with a grade of at least C.

#### **LAT 511K. Accelerated Intermediate Latin.**

Designed primarily for students of high academic ability and motivation. Comparable to Latin 311 and 312K together. Five lecture hours a week for one semester. Only one of the following may be

counted: Latin 511K, 312K, 312M, 316. Latin 311 and 511K may not both be counted. Prerequisite: Latin 601C or 507 (or 506Q or 508) with a grade of at least A-.

#### **LAT 312K. Intermediate Latin II.**

Continuation of Latin 311. Selected readings from classical authors. Three lecture hours a week for one semester. Only one of the following may be counted: Latin 511K, 312K, 312M, 316. Prerequisite: Latin 311 with a grade of at least C.

#### **LAT 316. Intermediate Latin II: Poetry.**

Continuation of Latin 311. Selected readings from classical and medieval poets. Three lecture hours a week for one semester. Only one of the following may be counted: Latin 511K, 312K, 312M, 316. Prerequisite: Latin 311 with a grade of at least C.

#### **LAT 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Latin.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Classics. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **Upper-Division Courses**

#### **LAT 322. Advanced Latin I.**

Reading and analysis of selected classical authors. Three lecture hours a week for one semester. Prerequisite: Latin 511K, 312K, or 316 (or 312M) with a grade of at least C.

#### **LAT 323. Advanced Latin II.**

Reading and interpretation of authors such as Caesar, Catullus, Cicero, and Ovid. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Latin 322 with a grade of at least C.

#### **LAT 324. Advanced Latin Grammar and Composition.**

Study of syntax, style, and principles of written composition. Three lecture hours a week for one semester. Required of all Latin majors and students seeking a secondary school teaching certificate with Latin as a teaching field. Prerequisite: Latin 322 with a grade of at least C, or consent of the undergraduate adviser.

#### **LAT 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Latin.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Classics. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

#### **LAT 365. Seminar in Latin.**

Critical study of authors such as Horace, Livy, Lucretius, and Tacitus. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Latin 323 with a grade of at least C.

- Topic 1: Horace.**

**Topic 2: Lucretius.**

**Topic 4: Tacitus.**

### **LAT 370. Advanced Conference Course.**

Supervised reading. Conference course. May be repeated for credit. Prerequisite: Consent of instructor.

### **LAT 679H. Honors Tutorial Course.**

Supervised conference course for honors candidates in Latin. Three conference hours a week for two semesters. Prerequisite: For 679HA, upper-division standing and admission to the Latin Honors Program; for 679HB, Latin 679HA.

## **Cognitive Science**

### **Cognitive Science: CGS**

#### **Upper-Division Courses**

##### **CGS 360. Cognitive Science: The Study of Mind.**

An introduction to the study of mind known as cognitive science, focusing on key areas such as vision and language, cognition and problem solving, artificial intelligence. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

**Topic 1: Introduction to Cognitive Science.** Same as Linguistics 373 (Topic 7: Introduction to Cognitive Science) and Philosophy 365 (Topic 2: Introduction to Cognitive Science).

## **Comparative Literature**

### **Comparative Literature: C L**

#### **Lower-Division Courses**

##### **C L 301. Introduction to Comparative Literature.**

Reading and interpretation of literary texts in translation drawn from cultures around the world, focusing on methods of criticism and analysis. Three lecture hours a week for one semester.

##### **C L 305. Topics in Comparative Literature.**

Study of masterpieces of world literature; of different literary genres; and the relationship between literature and other disciplines such as psychology, philosophy, and film. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

##### **C L 315. Masterworks of World Literature.**

Introduction to masterpieces of the world's literary traditions, emphasizing historical, generic, and thematic connections. Three lecture hours a week for one semester. Some sections require an additional discussion hour a week. Only one of the following may be counted: Comparative Literature 315, English 603B, 316K, Tutorial Course 603B. Prerequisite: Completion of at least thirty semester hours of coursework, including English 603A, Rhetoric and Writing 306, 306Q, or Tutorial Course 603A; and a passing score on the reading section of the Texas Higher Education Assessment (THEA) test.

##### **C L 318Q. Supervised Research.**

Individual instruction.

### **Upper-Division Courses**

##### **C L 320. Conference Course in Comparative Literature.**

Independent study of literary projects under supervision of professors in comparative literature. Conference course. Prerequisite: Six semester hours of upper-division coursework in literature, of which three hours must be in a classical or foreign language.

##### **C L 323. Topics in Comparative Literature.**

Study of masterpieces of world literature; of different literary genres; of the relationship between literature and other disciplines, such as psychology, philosophy, and film; and of special topics of a comparative nature. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 3: Autobiography: A Modern Literary Species.** Same as African and African Diaspora Studies 374 (Topic 25: Autobiography: A Modern Literary Species) and Middle Eastern Studies 342 (Topic 20: Autobiography: A Modern Literary Species). Only one of the following may be counted: African and African Diaspora Studies 374 (Topic 25), Comparative Literature 323 (Topic 3), English 379N (Topic 5: Autobiography: A Modern Literary Species), Middle Eastern Studies 322K (Topic 25: Autobiography: A Modern Literary Species), 342 (Topic 20), Women's and Gender Studies 340 (Topic: Autobiography: A Modern Literary Species). Prerequisite: Upper-division standing.

**Topic 4: Self-Revelation in Women's Writing.** Same as African and African Diaspora Studies 374 (Topic 26: Self-Revelation in Women's Writing), Middle Eastern Studies 342 (Topic 19: Self-Revelation in Women's Writing), and Women's and Gender Studies 340 (Topic 14: Self-Revelation in Women's Writing). Only one of the following may be counted: African and African Diaspora Studies 374 (Topic 26), Comparative Literature 323 (Topic 4), English 376L (Topic 9: Self-Revelation in Women's Writing), Middle Eastern Studies 322K (Topic 26: Self-Revelation in Women's Writing), 342 (Topic 19), Persian 361 (Topic: Self-Revelation in Women's Writing). Prerequisite: Upper-division standing.

**Topic 6: Caribbean Literature.** Same as English 360L (Topic 2: Caribbean Literature) and African and African Diaspora Studies 374F (Topic 7: Caribbean Literature). Only one of the following may be counted: African and African Diaspora Studies 374F (Topic 4), Comparative Literature 323 (Topic 6), English 379N (Topic: Caribbean Literature), 360L (Topic 2). Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

##### **C L 324. The History of Fantastic Literature.**

Open to all University students. The history of fantastic and fantasy literature.

##### **C L 358Q. Supervised Research.**

Individual instruction. Prerequisite: Upper-division standing.

# Thomas Jefferson Center for the Study of Core Texts and Ideas

## Core Texts and Ideas: CTI

### Lower-Division Courses

#### CTI 301. Ancient Philosophy and Literature.

Studies classical philosophy and literature, primarily from ancient Greece, to explore fundamental questions about human nature, justice, ethics, and humanity's place in the cosmos. Readings include one or more masterpieces of epic or tragedy and one or more dialogues of Plato. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Core Texts and Ideas 301 and Western Civilization 301 may not both be counted.

#### CTI 302. Classics of Social and Political Thought.

Explores the origins of social scientific thought in the history of political philosophy and traces the development of one or more of the social sciences in modern times. Focuses on fundamental ideas about human nature, civil society, and politics, explored through reading such authors as Aristotle, Aquinas, Locke, Rousseau, Marx, Weber, Durkheim, and Freud. Three lecture hours or two lecture hours and one discussion hour a week for one semester.

#### CTI 303. Competing Visions of the Good Life.

Same as Government 314 (Topic 6: Competing Visions of the Good Life). Introduces the great rival conceptions of the moral basis and goals of political life as elaborated by revolutionary thinkers throughout the history of political philosophy, including Aristotle, Aquinas, Locke, late modern critics of the Enlightenment, and others. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 303, Government 314 (Topic 6), Western Civilization 303 (Topic: Competing Visions of the Good Life).

#### CTI 304. World Religions: Traditions and Texts.

A study of basic religious texts, including both the Hebrew Bible and New Testament, examined from various perspectives (including comparative, historical, philosophical, and literary), with emphasis on the fundamental questions and ideas raised in those texts. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Core Texts and Ideas 304 and Western Civilization 303 may not both be counted unless the topics vary. May be repeated for credit when the topics vary.

**Topic 1: The Bible and Its Interpreters.** Seeks to develop a wide-ranging familiarity with the Jewish and Christian Bibles and with the dominant modes of ancient, medieval, and early modern biblical interpretation. Readings include an extensive range of primary sources, including both the Scriptures themselves and some of their most influential exegetes.

#### CTI 310. Topics in Core Texts and Ideas.

Introduction to fundamental texts and questions that have helped shape the world. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Core Texts and Ideas 310 and Western Civilization 303 may not both be counted unless the topics vary. May be repeated for credit when the topics vary.

#### CTI 111. Core Texts Seminar.

Close reading and discussion of primary sources, normally pursued in conjunction with another three-hour course in a field of study such as

history or government. One discussion hour a week for one semester. May be repeated for credit when the topics vary.

### Upper-Division Courses

#### CTI 320. The Classical Quest for Justice.

Same as Government 351C. Introduces students to classical political thought through a study of seminal works of antiquity, focusing on those of Plato and Aristotle. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 320, 335 (Topic: Classical Quest for Justice), Government 335M (Topic: Classical Quest for Justice), 351C, Western Civilization 320 (Topic: Classical Quest for Justice). Prerequisite: Completion of at least thirty semester hours of coursework.

#### CTI 321. The Theoretical Foundations of Modern Politics.

Same as Government 351D. Examines competing foundations of the ongoing development of political and social modernity. Examines a selection of major authors from Machiavelli to Nietzsche. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 321, 335 (Topic: The Theoretical Foundations of Modern Politics), Government 335M (Topic: The Theoretical Foundations of Modern Politics), 351D Western Civilization 320 (Topic: The Theoretical Foundations of Modern Politics). Prerequisite: Completion of at least thirty semester hours of coursework.

#### CTI 322. Critics of Modern Liberalism.

Same as Government 351G. Selected critics of the philosophy of the Enlightenment from both the Left and the Right, and from the time of Rousseau to the present. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Core Texts and Ideas 322, Government 335M (Topic: Liberalism and its Critics), 351G. Prerequisite: Upper-division standing.

#### CTI 323. Might and Right among Nations.

Same as Government 351J. Major alternative approaches to the question of the moral character of international relations, as elaborated by some of the greatest political thinkers. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Core Texts and Ideas 323, 335 (Topic: Might and Right among Nations), Government 335M (Topic: Might and Right among Nations), 351J, Western Civilization 320 (Topic: Might and Right among Nations). Prerequisite: Upper-division standing and six semester hours of lower-division coursework in government.

#### CTI 324. Politics and Literature.

Explores the "old battle between the poets and philosophers," in which the two sides battle for recognition as the deepest source of wisdom about politics and ethics. Includes readings from great works of political philosophy and literature. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Prerequisite: Upper-division standing.

#### CTI 325. Morality and Politics.

Same as Government 351L. Interdisciplinary readings from major works exploring issues of ethics and leadership. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Core Texts and Ideas 325, Government 335M (Topic: Morality and Politics), 351L. Prerequisite: Upper-division standing.

### **CTI 326. Core Texts on American Democracy.**

A close study of major texts and documents that shed light on fundamental issues in American democracy such as rights, equality, individual liberty, and the proper ends and limits of government. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Core Texts and Ideas 326 and Western Civilization 320 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

### **CTI 335. Core Texts in Philosophy.**

Three lecture hours or two lecture hours and one discussion hour a week for one semester. Core Texts and Ideas 335 and Western Civilization 320 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

### **CTI 345. Core Texts in Literature.**

Major works of literature from one or more cultures, studied with special attention to questions of universal human concern. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Core Texts and Ideas 345 and Western Civilization 320 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

### **CTI 350. Masterworks of World Drama.**

Studies major tragedies, comedies, and historical plays from various epochs, including at least one of Shakespeare's plays. Explores themes related to ethics, politics, and human nature, as well as the craft of the playwright. Students attend and discuss at least one play performance. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Prerequisite: Upper-division standing.

### **CTI 351. The Idea of the Beautiful.**

Classical philosophical discussions of the idea of the beautiful (or noble or sublime), illustrated through selected works of art, drama, and literature. Explores the human perception of and response to beauty and its relation to such ideas as happiness and the promise of happiness, moral nobility or selflessness, and the divine. Philosophical works are studied in connection with examples drawn from the arts and are considered in their historical contexts. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Prerequisite: Upper-division standing.

### **CTI 365. Classics of Social Scientific Thought.**

Studies a selection of foundational modern classics in economics, psychology, sociology, political science, and anthropology, drawn mainly from the nineteenth and twentieth centuries. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Prerequisite: Upper-division standing.

### **CTI 366. Topics in Economic and Social Thought.**

Three lecture hours or two lecture hours and one discussion hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

### **CTI 370. Core Texts of Science and Mathematics.**

Studies works of major scientists, mathematicians, and philosophers, and explores the fundamental ideas from one discipline or time period and the nature and grounds of human knowledge. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Core Texts and Ideas 370 and Western Civilization 320 may not both

be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

### **CTI 371. Einstein in the Age of Conflict.**

Same as History 350L (Topic 64: Einstein in the Age of Conflict). Following the life and work of Albert Einstein, course examines the rise of the theories of relativity and quantum mechanics upon the stage of international political upheaval. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 370 (Topic: Einstein in the Age of Conflicts), 371, History 350L (Topic 64). Prerequisite: Upper-division standing.

### **CTI 372. Darwin and the Politics of Evolution.**

Same as Government 353D. A careful reading of Darwin's influential *Origin of the Species by Means of Natural Selection*, together with an examination of the religious, political, and scientific controversies the book has inspired from its first publication to the present day. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Core Texts and Ideas 370 (Topic: The Politics of Evolution), 372, Government 335M (Topic: The Politics of Evolution), 353D. Prerequisite: Upper-division standing and six semester hours of lower-division coursework in government.

### **CTI 375. Topics in Core Texts and Ideas.**

Study of classic texts, connected historically or thematically. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Core Texts and Ideas 375 and Western Civilization 320 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

### **CTI 379. Conference Course.**

Intensive tutorial study of selected major texts. Individual instruction. May be repeated for credit. Prerequisite: Upper-division standing and consent of the director of the Jefferson Center and instructor.

## **Américo Paredes Center for Cultural Studies**

### **Cultural Studies: CLS**

#### **Lower-Division Courses**

#### **CLS 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Folklore and Cultural Studies.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in cultural studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

#### **Upper-Division Courses**

#### **CLS 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Folklore and Cultural Studies.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in cultural studies. University credit is awarded for work

in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **CLS 340. Conference Course in Folklore and Cultural Studies.**

Supervised reading and research on a folklore or cultural studies subject, including the writing of an original paper. Conference course. Prerequisite: Upper-division standing and a concentration in cultural studies.

## **Department of Economics**

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 627).

### **Economics: ECO**

#### **Lower-Division Courses**

##### **ECO 301. Introduction to Economics.**

Explores how economists describe and measure the economy in the aggregate and in specific markets, such as the labor market, the housing market, financial markets, and international trade. Studies concepts for measurement and data, as well as methods, approaches, and technologies used in social and behavioral science. Three lecture hours a week for one semester. May not be counted toward a major in economics.

##### **ECO 304K (TCCN: ECON 2302). Introduction to Microeconomics.**

Analysis of the economic behavior of individual consumers, firms, and workers; special attention to the role of markets. Three lecture hours a week for one semester. Some sections require an additional discussion hour a week.

##### **ECO 304L (TCCN: ECON 2301). Introduction to Macroeconomics.**

Analysis of the economy as a whole (its organization and the basic forces influencing its growth and development); money and banking, national income, public finance, and international linkages. Three lecture hours a week for one semester. Some sections require an additional discussion hour a week. Prerequisite: Economics 304K with a grade of at least C-.

##### **ECO 305. Introductory Topics in Economics.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

##### **ECO 318Q. Supervised Research.**

Individual instruction. May be repeated once for credit when the research topics vary. Prerequisite: Economics 304K and 304L with a grade of at least C- in each.

##### **ECO 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Economics.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study

Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Economics. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

#### **Upper-Division Courses**

##### **ECO 420K. Microeconomic Theory.**

A survey of neoclassical and contemporary theories of the principal determinants of prices and of the role of prices in economic organization. Four lecture hours a week for one semester. Required of students majoring in economics. Students may not attempt Economics 420K more than twice. Prerequisite: Economics 304K and 304L with a grade of at least C- in each; and Mathematics 408C and 408D, or 408K and 408L, or 408N and 408S, with a grade of at least C- in each.

##### **ECO 320L. Macroeconomic Theory.**

Theory of the determination of national income, employment, and the price level, with policy implications. Three lecture hours a week for one semester. Required of students majoring in economics. Prerequisite: Economics 420K with a grade of at least C-.

##### **ECO 321. Public Economics.**

Study of appropriate allocations of economic activity between government (federal, state, and local) and the private sector. The workings of social security, welfare, education, pollution control, deregulation, taxation; and proposals for reform. Three lecture hours a week for one semester. Prerequisite: Economics 420K with a grade of at least C-.

##### **ECO 322. Money and Banking.**

The role of money and depository institutions in the economy; introduction to financial and monetary theory and policy. Three lecture hours a week for one semester. Only one of the following may be counted: Economics 322, Finance 354, 354H. Prerequisite: Economics 420K and 320L with a grade of at least C- in each.

##### **ECO 323T. Studies in Economic History.**

Study of economic development, emphasizing more recent periods; causal factors, emerging problems, and major policy issues. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Economics 304K and 304L with a grade of at least C- in each.

**Topic 1: Economic History of the United States.** Economic history of the United States from colonial times to the present. Includes some aspects of labor history, industrial organization, financial history, and socioeconomic perspectives.

**Topic 2: World Economic History.** Economic history of the world from the Industrial Revolution to the present, with emphasis on technology as the engine of change.

##### **ECO 324. Introduction to Labor Economics.**

Study of labor in industrial societies, with emphasis on principles, institutions, and policies for understanding labor and personnel problems. Three lecture hours a week for one semester. Prerequisite: Economics 420K with a grade of at least C-.

##### **ECO 327. Comparative Economic Systems.**

Theories of and practices in the principal types of economic systems. Three lecture hours a week for one semester. Prerequisite: Economics 304K and 304L with a grade of at least C- in each.

### **ECO 328. Industrial Organization.**

The organization of industries and markets: competition, monopoly, and oligopoly; antitrust policy and its alternatives. Three lecture hours a week for one semester. Prerequisite: Economics 420K with a grade of at least C-.

### **ECO 329. Economic Statistics.**

Methods of statistical analysis and interpretation of quantitative data in the field of economics. Three lecture hours a week for one semester. Prerequisite: Economics 304K and 304L with a grade of at least C- in each; and Mathematics 408C and 408D, or 408K and 408L, or 408N and 408S, with a grade of at least C- in each.

### **ECO 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Economics.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Economics. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **ECO 330T. Topics in Economics.**

Open to nonmajors. Topics may include economic theory, applications, and policy. Three lecture hours a week for one semester. Economics 330T and 350K may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

### **ECO 333K. Development Economics.**

Introduction to theories of economic development; discussion of leading issues. Three lecture hours a week for one semester. Prerequisite: Economics 420K with a grade of at least C-.

### **ECO 334K. Urban Economics.**

Same as Urban Studies 351 (Topic 2: Urban Economics). Economic analysis of urban areas; emphasis on the nature of current urban problems--slums, transportation, finance--and an evaluation of current policy. Three lecture hours a week for one semester. Prerequisite: Economics 420K with a grade of at least C-.

### **ECO 334L. Regional Economics.**

Same as Urban Studies 351 (Topic 3: Regional Economics). Spatial aspects of economics, including concepts, theories, and policy applications. Three lecture hours a week for one semester. Prerequisite: Economics 420K with a grade of at least C-.

### **ECO 339K. International Trade and Investment.**

Topics addressed include patterns and theories in the international trade of goods and services between Organisation for Economic Co-operation and Development (OECD) member countries, and between OECD countries and emerging markets; questions facing firms of where to locate production facilities; implications of international trade for per capita income, growth, and inequality. Three lecture hours a week for one semester. Economics 339K and International Business 350 may not both be counted. Prerequisite: Economics 420K with a grade of at least C-.

### **ECO 339L. International Finance.**

Exchange rates and foreign exchange markets; reasons for financial globalization; open-economy macro; exchange rate regimes (fixed and

floating exchange rates, currency boards, and currency areas such the eurozone); central bank accumulation of foreign exchange reserves; and sovereign debt crises and currency crashes. Reasons for different exchange rate arrangements and other policies are also explored. Three lecture hours a week for one semester. Prerequisite: Economics 420K and 320L with a grade of at least C- in each.

### **ECO 341K. Introduction to Econometrics.**

Introduces the student to standard regression procedures of parameter estimation and hypothesis testing in economics. Three lecture hours a week for one semester. Prerequisite: Economics 420K and 329 with a grade of at least C- in each.

### **ECO 346K. Russian Economic Development since 1917.**

The growth of the planned economy in industry, agriculture, and labor. Three lecture hours a week for one semester. Economics 346K and Russian, East European, and Eurasian Studies 335 (Topic 13: Russian Economic Development since 1917) may not both be counted. Prerequisite: Economics 304K and 304L with a grade of at least C- in each.

### **ECO 350K. Advanced Topics in Economics.**

Designed primarily for economics majors. Topics may include in-depth analysis of problems in economic theory, applications, and economic policy. Three lecture hours a week for one semester. Economics 330T and 350K may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Economics 420K with a grade of at least C-. Additional prerequisites may vary with the topic and are given in the Course Schedule.

**Topic 4: Advanced Econometrics.** Theory of the linear regression model used widely in economic applications, including model specification, least squares and maximum likelihood estimation, hypothesis testing, multicollinearity, dummy variables, heteroskedasticity, and discrete choice models. Additional prerequisite: Economics 341K with a grade of at least C-.

**Topic 6: Advanced Microeconomic Theory.** Modern theory of the consumer and the firm. Topics include an analysis of consumer choice and demand functions, the theory of supply, cost and profit functions, duality theory, consumer surplus, choice under uncertainty, and partial equilibrium analysis. Emphasis on both economic principles and quantitative methods, especially static and dynamic optimization models. Additional prerequisite: Economics 329 with a grade of at least C-.

**Topic 7: Applied Economic Analysis.** Major issues in applied economics, including relevant theoretical and empirical models. Additional prerequisite: Economics 341K with a grade of at least a C-; Mathematics 408D or 408M; and Mathematics 340L or 341.

### **ECO 351K. Current Issues in Business Economics.**

Newly emerging problems in business and the approaches used for structuring, analyzing, and treating them. Three lecture hours a week for one semester. Prerequisite: Economics 420K with a grade of at least C-.

### **ECO 351L. Business Trends and the Operational Environment in the United States Economy.**

The technological basis of the United States economy; conditions, such as regulations, that define the macroenvironment. Three lecture hours a week for one semester. Prerequisite: Economics 420K, 320L, and 329 with a grade of at least C- in each.

**ECO 351M. Managerial Economics.**

The use of economic analysis optimizing techniques as tools for improving managerial decision making in business. Three lecture hours a week for one semester. Prerequisite: Economics 420K, and Economics 329 or Mathematics 362K, with a grade of at least C- in each.

**ECO 354K. Introductory Game Theory.**

Introduction to the formal study of interdependent decision making. Applications of game theory include pricing and advertising strategies, labor-management bargaining, and tariff negotiations. Three lecture hours a week for one semester. Prerequisite: Economics 420K and 329 with a grade of at least C- in each.

**ECO 355. Development Problems and Policies in Latin America.**

Same as Latin American Studies 355 (Topic 1: Development Problems and Policies in Latin America) and Urban Studies 351 (Topic 1: Development Problems and Policies in Latin America). Description of the Latin American economy; business and market organization; problem of growth (involving credit, public finance, trade, investment aspects). Three lecture hours a week for one semester. Prerequisite: Economics 304K and 304L with a grade of at least C- in each.

**ECO 357K. Marxist Economics.**

An introduction to the Marxian economic theory of capitalism through the study of Karl Marx's Capital, volume I, and of its contemporary relevance. Three lecture hours a week for one semester. Economics 357K and Russian, East European, and Eurasian Studies 335 (Topic 1: Marxist Economics) may not both be counted. Prerequisite: Upper-division standing.

**ECO 357L. Political Economy of International Crises.**

Examines several dimensions of the ongoing crises in the world economic order and the interrelationships among them. Problem areas covered are neoliberalism, international money, debt, famine, immigration, and energy shocks. Three lecture hours a week for one semester. Economics 357L and Russian, East European, and Eurasian Studies 335 (Topic 14: Political Economy of International Crises) may not both be counted. Prerequisite: Economics 304K and 304L with a grade of at least C- in each.

**ECO 358Q. Supervised Research.**

Individual instruction. May be repeated once for credit when the research topics vary. May not be counted toward the twenty-five semester hours in economics required for the major in economics. Prerequisite: Economics 420K and 329 with a grade of at least C- in each.

**ECO 359M. Environmental and Natural Resource Economics.**

Optimal use of exhaustible and renewable resources, including fuels, minerals, fisheries, forests, and water; resource scarcity and economic growth; valuation of nonmarketed environmental amenities; the economics of pollution control instruments, including taxes, permits, direct regulation, and negotiation; environmental quality and international trade; the economics of global climate change; pollution control policy in practice. Three lecture hours a week for one semester. Prerequisite: Economics 420K and 329 with a grade of at least C- in each.

**ECO 361. Studies in Public Economics.**

Studies in the principal problem areas of governmental revenues and expenditures. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Economics 420K with a grade of at least C-.

**ECO 361N. Informational Society.**

The social impact of the current technological changes in electronics, communications, and automation; focus on efficient institutions given the technological possibilities. Three lecture hours a week for one semester. Prerequisite: Economics 304K and 304L with a grade of at least C- in each.

**ECO 362M. Mathematics for Economists.**

Application of mathematics in economic analysis. Three lecture hours a week for one semester. Prerequisite: Economics 420K, and Mathematics 408D or 408M, with a grade of at least C- in each.

**ECO 363C. Computational Economics.**

Three lecture hours a week for one semester. Prerequisite: Economics 420K or 320L with a grade of at least C-.

**ECO 367R. Monetary Economics.**

Major issues in the monetary field. Three lecture hours a week for one semester. Prerequisite: Economics 430K and 320L with a grade of at least C- in each.

**ECO 368. Survey of the History of Economic Thought.**

Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**ECO 369F. Financial Economics.**

Economic analysis of the operation of financial markets, including arbitrage theory, asset pricing, and corporate finance. Three lecture hours a week for one semester. Prerequisite: Economics 420K, 320L, and 329 with a grade of at least C- in each.

**ECO 372M. Studies in Developing Economies.**

An introductory analysis of the structure, functioning, and problems of developing economies. Specific geographical areas to be studied will vary each semester. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Economics 420K with a grade of at least C-.

**ECO 376M. Studies in Labor Economics.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Economics 420K with a grade of at least C-.

**ECO 377R. Selected Topics in Economics Research.**

Designed to teach undergraduate students how to conduct research. Focus on four fundamentals of economic research: the economic theory that underlies the research question, the research methods used, conducting research, and writing the research report. Three lecture hours a week for one semester; some topics may require field trips. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing, and Economics 420K, 320L, and 329 with a grade of at least C- in each.

**ECO 378H. Honors Tutorial Course I.**

Supervised individual reading, research, and writing of a substantial paper on a special topic in the field of economics. Conference course.

Prerequisite: Upper-division standing, admission to the Economics Honors Program, and consent of the honors adviser.

### **ECO 379C. Individual Conference Course.**

Supervised individual study of selected problems in economics. Conference course. May not be counted toward the twenty-four semester hours in economics required for the major in economics. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor. Students should ordinarily have completed six semester hours of upper-division coursework in economics and coursework with supervising instructor.

### **ECO 379D. Internship in Economics.**

Students conduct research while working in an appropriate government agency or private business. Ten hours of fieldwork a week for one semester. May be repeated once for credit when the internships vary. Offered on the pass/fail basis only. Prerequisite: Economics 420K with a grade of at least C-.

### **ECO 379H. Honors Tutorial Course II.**

Supervised individual reading, research, and writing of a substantial paper on a special topic in the field of economics. Conference course. Prerequisite: Economics 378H.

## **Department of English**

Students are discouraged from taking more than six semester hours of coursework in English in a semester or summer term. No student may take more than nine semester hours of coursework in English in a semester.

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 627).

## **English: E**

### **Lower-Division Courses**

#### **E 603. Composition and Reading in World Literature.**

Reading of masterpieces of world literature and intensive training in writing and in critical analysis of literature. Three lecture hours a week for two semesters. Only one of the following may be counted: English 603A, Rhetoric and Writing 306, 306Q, Tutorial Course 603A; only one of the following may be counted: Comparative Literature 315, English 603B, 316K, Tutorial Course 603B. Prerequisite: For 603A, admission to the Plan II Honors Program; for 603B, English 603A.

#### **E 314J. Literature across the Curriculum.**

Readings selected to highlight the connections between literary study and other fields of inquiry. Three lecture hours a week for one semester. May not be substituted for English 316K. May be repeated for credit when the topics vary. Prerequisite: English 603A, Rhetoric and Writing 306, 306Q, or Tutorial Course 603A.

#### **E 314L. Introduction to Literary Studies.**

Emphasis on skills and methods used in upper-division English courses; intensive practice in writing; and an introduction to field-specific research. Three lecture hours a week for one semester. May not be substituted for English 316K. May be repeated for credit when

the topics vary. Prerequisite: English 603A, Rhetoric and Writing 306, 306Q, or Tutorial Course 603A.

**Topic 3: Banned Books and Novel Ideas.**

**Topic 4: Reading Literature in Context.**

**Topic 5: Reading Poetry.**

**Topic 6: Reading Women Writers.**

**Topic 7: Women's Popular Genres.**

### **E 314V (TCCN: ENGL 2351). Introduction to Literature and Culture.**

Readings in minority and ethnic American literatures in their cultural contexts. Three lecture hours a week for one semester. May not be substituted for English 316K. May be repeated for credit when the topics vary. Prerequisite: English 603A, Rhetoric and Writing 306, 306Q, or Tutorial Course 603A.

**Topic 1: African American Literature and Culture.** Same as African and African Diaspora Studies 317F (Topic 1: African American Literature and Culture). Introduces key tools of literary analysis through the study of African American literature. Drawn from a variety of genres and periods, the texts indicate the range of African American experiences and how those experiences are influenced by issues such as class, ethnicity, gender, sexuality, and race. Only one of the following may be counted: English 314V (Topic 1), African and African Diaspora Studies 317 (Topic 1: African American Literature and Culture), 317F (Topic 1).

**Topic 2: Asian American Literature and Culture.** Same as Asian American Studies 314. Explores how authors and artists over the course of the past century have imagined what it means to be Asian American. Covers a diverse range of Asian immigrant histories and the formation of Asian American identities according to ethnicity, gender, sexuality, class, and citizenship.

**Topic 3: Mexican American Literature and Culture.** Same as Mexican American Studies 314. Introductory course concerned with representative contemporary Chicano writers and genres, such as poetry, prose fiction, and theatre. May not be substituted for English 316K.

**Topic 4: Gay and Lesbian Literature and Culture.** Same as Women's and Gender Studies 301 (Topic 12: Gay and Lesbian Literature and Culture).

**Topic 5: Native American Literature and Culture.** Same as American Studies 315F. Studies Native American literature from different regions and cultures and considers this literary tradition in tribal national and United States national contexts. Only one of the following may be counted: American Studies 315 (Topic: Native American Literature and Culture), 315F, English 314V (Topic 5).

### **E 315F. Introduction to Writing Fiction.**

Three lecture hours a week for one semester. Large sections require an additional discussion hour a week. English 315F and 318L (Topic 1: Fiction) may not both be counted. Prerequisite: English 603A, Rhetoric and Writing 306, 306Q, or Tutorial Course 603A.

### **E 315P. Introduction to Writing Poetry.**

Three lecture hours a week for one semester. Large sections require an additional discussion hour a week. English 315P and 318L (Topic 2: Poetry) may not both be counted. Prerequisite: English 603A, Rhetoric and Writing 306, 306Q, or Tutorial Course 603A.

**E 316K (TCN: ENGL 2321, ENGL 2322, ENGL 2323, ENGL 2326, ENGL 2327, ENGL 2328, ENGL 2331, ENGL 2332, ENGL 2333). Masterworks of Literature.**

Three versions: World, British, American. Introduction to masterpieces of the literary tradition, emphasizing historical, generic, thematic connections. Three lecture hours a week for one semester. Large sections require an additional discussion hour a week. Only one of the following may be counted: Comparative Literature 315, English 603B, 316K, Tutorial Course 603B. Only one version of 316K may be taken for credit. Prerequisite: English 603A, Rhetoric and Writing 306, 306Q, or Tutorial Course 603A; and a passing score on the reading section of the Texas Higher Education Assessment (THEA) test.

**E 318M. Introduction to the English Language.**

Basic linguistic concepts; phonology, syntax, and vocabulary of English; historical, regional, and social variation; applications of linguistics in educational and social action. Three lecture hours a week for one semester. Prerequisite: English 603A, Rhetoric and Writing 306, 306Q, or Tutorial Course 603A.

**E 318Q. Supervised Research.**

Student-initiated research conducted with instructor supervision. Three conference hours a week for one semester. May be repeated once for credit. Prerequisite: Approval of written application by supervising instructor and the undergraduate faculty adviser.

**E 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in English.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of English. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**Upper-Division Courses**

**E 320L. Major Writers of the Restoration and Eighteenth Century.**

A study of the principal writers: Dryden, Pope, Swift, Johnson, Boswell, Burns, and others. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**E 321. Shakespeare: Selected Plays.**

A representative selection of Shakespeare's best comedies, tragedies, and histories. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**E 321K. Introduction to Criticism.**

Introduction to major terms, issues, and approaches in literary criticism, and their application to the reasoned discussion of poetry, fiction, and drama. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**E 321L. American English.**

Same as Linguistics 321L. An overview of the historical development of English in the Americas. Attention to regional, social, and ethnic differences, and their implications for public education. Three lecture

hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**E 321P. Shakespeare through Performance.**

An intensive study of the plays of William Shakespeare, with emphasis on performance as a means of interpretation and an aid to comprehension. Three lecture hours a week for one semester, with additional laboratory hours as required. English 321P and 379M (Topic 4: Shakespeare through Performance) may not both be counted. Prerequisites: Nine semester hours of coursework in English or rhetoric and writing, and consent of instructor.

**E 322. Literature in Translation.**

World literatures in English translation. Three lecture hours a week for one semester. English 322 and 324 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

**Topic 17: Social Dramas of Henrik Ibsen.** Same as Scandinavian 323 (Topic 2: Social Dramas of Henrik Ibsen) and Women's and Gender Studies 345 (Topic 14: Social Dramas of Henrik Ibsen). Men and women in their public and private lives.

**Topic 23: Dante.** Same as Italian Civilization 349 (Topic 2: Dante).

**Topic 37: The Russian Novel.** Same as Russian 356 (Topic 1: The Russian Novel) and Russian, East European, and Eurasian Studies 325 (Topic 9: The Russian Novel). Only one of the following may be counted: English 322 (Topic 37), European Studies 361 (Topic: The Russian Novel), Russian 356 (Topic 1), Russian, East European, and Eurasian Studies 325 (Topic 9).

**E 323L. English as a World Language.**

Same as Linguistics 323L. An account of the spread of English around the world; national, social, and regional varieties. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**E 324. Topics in Language and Literature.**

Three lecture hours a week for one semester. English 322 and 324 may not both be counted unless the topics vary. Only one of the following may be counted unless the topics vary: English 320M, 324, 376L, 379M, 379N. May be repeated for credit when the topics vary. Prerequisite: Comparative Literature 315, English 603B, 316K, or Tutorial Course 603B.

**E 325. Creative Writing.**

Detailed study and practice of the techniques of creative writing; includes reading and analysis of contemporary models. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Comparative Literature 315, English 603B, 316K, or Tutorial Course 603B.

**E 325F. Fiction Writing.**

Detailed study and practice of the techniques of fiction writing; includes reading and analysis of contemporary models. Three lecture hours a week for one semester. English 325 (Topic 1: Creative Writing: Fiction) and 325F may not both be counted. Prerequisite: Comparative Literature 315, English 603B, 316K, or Tutorial Course 603B.

**E 325P. Poetry Writing.**

Detailed study and practice of the techniques of poetry writing; includes reading and analysis of contemporary models. Three lecture hours a week for one semester. English 325 (Topic 2: Creative Writing:

Poetry) and 325P may not both be counted. Prerequisite: Comparative Literature 315, English 603B, 316K, or Tutorial Course 603B.

### **E 326K. The Literature of the Middle Ages in Translation.**

Romances, chronicles, legends, tales, and plays by English, Celtic, and Continental writers. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

### **E 326L. Survey of Middle English Language and Literature.**

Language and literature from 1100 to 1500. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

### **E 327. The English Novel in the Eighteenth Century.**

Representative novels and novelists from 1700 to 1832, including typical works of Defoe, Richardson, Fielding, Sterne, Austen, and Scott. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

### **E 328. The English Novel in the Nineteenth Century.**

Representative works by such writers as Dickens, Thackeray, the Brontës, George Eliot, Meredith, and Hardy. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

### **E 329R. The Romantic Period.**

The prose and poetry of writers such as Blake, Wordsworth, Coleridge, Byron, Keats, Shelley, and others. Three lecture hours a week for one semester. English 329K and 329R may not both be counted. English 329L and 329R may not both be counted. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

### **E 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in English.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of English. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **E 336E. British Literature: Beginnings through the Renaissance.**

A survey of major writers, poetry, and prose. Three lecture hours a week for one semester. English 336E and 379N (Topic: British Literature: Beginnings to the Renaissance) may not both be counted. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

### **E 337. American Literature: From the Beginnings to 1865.**

A survey of major writers, poetry, and prose. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

### **E 337E. British Literature: The Restoration through the Romantic Era.**

A survey of major writers, poetry, and prose. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

### **E 338. American Literature: From 1865 to the Present.**

A survey of major writers, poetry, and prose. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

### **E 338E. British Literature: The Victorian Era through World War II.**

A survey of major writers, poetry, and prose. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

### **E 340. The American Novel before 1920.**

Representative novels by such writers as Brown, Melville, Fern, Hawthorne, Twain, Crane, James, Wharton, and Dreiser. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

### **E 341. Short Story Workshop.**

Practice in writing the short story, with study of contemporary models. Three lecture hours a week for one semester. Prerequisite: English 325F.

### **E 341L. Poetry Workshop.**

Practice in writing poetry, with study of contemporary models. Three lecture hours a week for one semester. Prerequisite: English 325P.

### **E 342. Life and Literature of the Southwest.**

Verse, fiction, travels, and memoirs, to acquaint students with the literature reflecting the social inheritance of Texas and the neighboring territory. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**Topic 1: Life and Literature of the Southwest--Mexican American.** Same as Mexican American Studies 374 (Topic 2: Life and Literature of the Southwest--Mexican American).

### **E 343L. Modernism and Literature.**

Strands of thought and literature that form the network of modernist writing. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

### **E 343P. Postmodern Literature.**

Survey of postmodern writing. As a period, the postmodern extends roughly from the era after World War II, and follows the modern, a term often applied to literature produced since the start of World War I. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

### **E 344L. Twentieth-Century Literature and Other Media.**

A study of the relationship between literary forms and other media (film, television, music, the visual arts). Three lecture hours a week for one semester; additional hours may be required for some topics. May be repeated for credit when the topics vary. Prerequisite: Comparative Literature 315, English 603B, 316K, or Tutorial Course 603B.

**Topic 4: Australian Literature and Film.**

### **E 348. The Twentieth-Century Short Story.**

Extensive readings and analyses of stories by major modern writers such as Faulkner, Hemingway, Joyce, Chekhov, and Kafka, as well as contemporary writers. Three lecture hours a week for one semester.

Prerequisite: Comparative Literature 315, English 603B, 316K, or Tutorial Course 603B.

### **E 349S. Topics on Major Authors.**

Intensive study of the works of a single major author or two major authors. Three lecture hours a week for one semester. Only one of the following may be counted unless the topics vary: English 320M, 349S, 370W, 376L, 376M, 379M, 379N. May be repeated for credit when the topics vary. Prerequisite: Six semester hours of upper-division coursework in English.

**Topic 1: Jane Austen.**

**Topic 2: The Brontës.** English 349S (Topic 2) and 370W (Topic: Brontës: Self and Society) may not both be counted.

**Topic 3: James and Wharton.**

**Topic 4: James Joyce.**

**Topic 5: Toni Morrison.** Same as African and African Diaspora Studies 372E (Topic 1: Toni Morrison) and Women's and Gender Studies 345 (Topic 46: Toni Morrison). An examination of select novels by the Nobel Laureate and Pulitzer Prize-winning novelist focuses on the positional uniqueness that womanism shares with a predominant feminism, which surfaces in historicized familial relationships. Only one of the following may be counted: African and African Diaspora Studies 372E (Topic 1), 374F (Topic: Toni Morrison), English 349S (Topic 5), Women's and Gender Studies 340 (Topic: Toni Morrison), 345 (Topic 46).

**Topic 6: Walt Whitman.**

**Topic 7: Oscar Wilde.**

**Topic 8: Virginia Woolf.** Same as Women's and Gender Studies 345 (Topic 40: Virginia Woolf). Examines critical and fictional works of Virginia Woolf and the author's continuing legacy and influence. Explores the value and limitations of high modernism; English literary heritage and tradition; feminism; creative and critical definitions of gender and sexuality; intellectual activism, including Woolf's critiques of patriarchy, war, and fascism; and Woolf and imperialism and colonialism. Only one of the following may be counted: English 349S (Topic 8), 370W (Topic 10: Virginia Woolf), Women's and Gender Studies 345 (Topic 40).

### **E 350E. Topics in Language and Literature: Beginnings to 1630.**

Three lecture hours a week for one semester. Only one of the following may be counted unless the topics vary: English 320M, 350E, 376L, 379M, 379N. May be repeated for credit when the topics vary. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**Topic 1: Classical and Scriptural Backgrounds of Literature.**

**Topic 2: Saracens in Medieval Literature.** Same as Middle Eastern Studies 342 (Topic 18: Saracens in Medieval Literature). Muslims, Arabs, Turks, Persians, Berbers, and Moors were often identified in literature and historical texts under the invented group name Saracens. Course explores who, and what, a Saracen is. Includes selected readings of literature, historical documents, and critical scholarship on Saracens in European medieval romances and epics, crusade literature, travel narratives, maps, and polemical treatises. For critical contrast, readings also include Islamic texts on, or by some of the most famous (or infamous) Saracens known to medieval Europe. Only one of the following may be counted: English 350E (Topic 2), 379N (Topic: Saracens in Medieval Literature), Middle Eastern Studies 321K (Topic: Saracens in Medieval Literature), Middle Eastern Studies 342 (Topic 18).

### **E 350M. Topics in Language and Literature: 1630 to 1830.**

Three lecture hours a week for one semester. Only one of the following may be counted unless the topics vary: English 320M, 350M, 376L, 379M, 379N. May be repeated for credit when the topics vary.

Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**Topic 1: Eighteenth-Century Women Writers.** Same as Women's and Gender Studies 345 (Topic 7: Eighteenth-Century Women Writers). Women writers in the early 18th-century canon. Argues for a historical perspective that demonstrates the centrality of early 18th-century women writers to the western canon. Only one of the following may be counted: English 350M (Topic 1), 376L (Topic: Aphra Behn and 18th Century Women Writers), Women's and Gender Studies 345 (Topic 7).

### **E 350R. Topics in Language and Literature: 1830 to 1940.**

Three lecture hours a week for one semester. Only one of the following may be counted unless the topics vary: English 320M, 350R, 376L, 379M, 379N. May be repeated for credit when the topics vary.

Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**Topic 1: Law, Society, and the Novel in Nineteenth-Century Britain.**

### **E 355K. Advanced Creative Writing.**

A third-semester seminar-style workshop in poetry and/or fiction for experienced creative writers. Three lecture hours a week for one semester. Prerequisite: English 341 or 341L.

### **E 356. The European Novel.**

Same as European Studies 347 (Topic 7: The European Novel). Selected masterpieces of Continental fiction in English translation: representative novelists of the nineteenth and twentieth centuries. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

### **E 358J. The Bible as Literature.**

Same as Religious Studies 355. In-depth literary study of the Bible, with emphasis on the formal features of narrative, hymn, prophecy, apocalypse, gospel, and epistle. Three lecture hours a week for one semester. Prerequisite: Comparative Literature 315, English 603B, 316K, or Tutorial Course 603B.

### **E 358K. The Bible in British and American Literature.**

Same as Religious Studies 355K. The reading of biblical masterpieces as literature; consideration of different versions of the Bible and their influence on English and American literature. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

### **E 358Q. Supervised Research.**

Student-initiated research conducted with instructor supervision. Three conference hours a week for one semester. May be repeated once for credit. Prerequisite: Completion of at least sixty semester hours of coursework, including at least six semester hours of upper-division coursework in English or rhetoric and writing; a University grade point average of at least 3.00; and approval of written application by supervising instructor and the undergraduate faculty adviser.

**E 359. English Drama from 1660 to 1900.**

Representative drama texts from the Restoration to the beginnings of modern theatre, including Behn, Sheridan, Wilde, and Shaw. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**E 360K. English Grammar.**

The study of traditional and transformational grammar. Attention to social differences in language relevant to the teaching of English. Three lecture hours a week for one semester. English 360K and Linguistics 360K may not both be counted. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**E 360L. English as a World Literature.**

English literature from around the world, including Canada, Australasia, Africa, and India. Three lecture hours a week for one semester. Only one of the following may be counted unless the topics vary: English 320M, 360L, 360S, 376L, 379M, 379N. May be repeated for credit when the topics vary. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**Topic 2: Caribbean Literature.** Same as Comparative Literature 323 (Topic 6: Caribbean Literature) and African and African Diaspora Studies 374F (Topic 7: Caribbean Literature).

**E 360R. Literary Studies for High School Teachers of English.**

Intended for students seeking a secondary school teaching certificate. The principles and practices of teaching literature in secondary schools. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**E 360S. Literature and Global Society.**

Contexts for the study of literature, and for the study of pressing issues through literature, in an age of globalization. Three lecture hours a week for one semester. Only one of the following may be counted unless the topics vary: English 320M, 360S, 376L, 379M, 379N. May be repeated for credit when the topics vary. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**Topic 1: Literature and Social Justice.** English 360L (Topic 1: Literature and Social Justice) and 360S (Topic 1) may not both be counted.

**Topic 2: Literature of AIDS in Africa.** Same as African and African Diaspora Studies 372G (Topic 1: Literature of AIDS in Africa). Examines the emerging cultural representations of AIDS in sub-Saharan Africa through journalistic, social science, and historical accounts. Examines the difficulty of representing the various aspects of a public-health crisis. Only one of the following may be counted: African and African Diaspora Studies 372G (Topic 1), 374C (Topic: Literature of African AIDS), English 360S (Topic 2), 376L (Topic: Literature of African AIDS).

**Topic 3: Envisioning Muslims: The Middle Ages and Today.** Same as Middle Eastern Studies 342 (Topic 17: Envisioning Muslims: The Middle Ages and Today). Covers the representation of Muslims in the dominant cultural media of the European Middle Ages and in the contemporary world of the twentieth and twenty-first centuries. Modern cultural media includes film and digital visual media. Readings are selected to show how Europeans envisioned Muslims, and how Muslims envisioned themselves. Only one of the following may be counted: English 360S (Topic 3), 379N (Topic: Envisioning Muslims), Islamic Studies 372 (Topic: Envisioning

Muslims), Middle Eastern Studies 321K (Topic: Envisioning Muslims), 342 (Topic 17).

**E 361K. English Drama to 1642.**

A survey of early English drama, usually including works by Marlowe, Kyd, Shakespeare, Jonson, Webster, and Middleton. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**E 362L. The British Novel in the Twentieth Century.**

Representative novels, including those of Joyce, Lawrence, and Woolf. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**E 363. The Poetry of Milton.**

All the poetry of Milton, with particular attention to *Comus*, *Samson Agonistes*, and *Paradise Lost*. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**E 363K. Classic to Romantic.**

The theory and practice of Classicism in literature and other arts; the rise of the Romantics in the eighteenth century. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**E 364D. Topics in Diverse Perspectives on Language and Culture.**

Studies in English with particular attention to linguistic and cultural diversity. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**E 364M. History of the English Language.**

Same as Linguistics 364M. Development of sounds, forms, and vocabulary of the English language from its origins to the present. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**E 364P. Old English.**

An introduction to Old English with sufficient grammar for a reading knowledge of Old English texts. A course in language, not in linguistics. Three lecture hours a week for one semester. English 364P and 395N (Topic 1: Old English) may not both be counted. May be counted as the equivalent to English 364M in fulfilling the requirements for a Bachelor of Arts degree with a major in linguistics. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**E 364S. Language and Gender.**

Same as Women's and Gender Studies 345 (Topic 17: Language and Gender). Linguistic, social, and political dimensions of gender-related speech differences. Three lecture hours a week for one semester. Only one of the following may be counted: English 346S, Linguistics 373 (Topic: Language and the Sexes), Women's and Gender Studies 345 (Topic 17). Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**E 364T. The English Language and Its Social Context.**

English language history, theory, and research for students of literature and rhetoric. May include such topics as language diversity and variation, linguistic attitudes, language variety and education, and language and public policy. Three lecture hours a week for one

semester. Only one of the following may be counted: English 364T, 376L (Topic: The English Language and Its Social Context), 376L (Topic: The English Language in Its Social Context). Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

### **E 366K. Shakespeare: Selected Tragedies.**

A representative selection of Shakespeare's tragedies. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

### **E 367C. Conference Course in Literature and Language.**

For students who wish to work under supervision on specific projects in literature or language. Three conference hours a week for one semester. May be repeated once for credit. Prerequisite: Completion of at least sixty semester hours of coursework, including at least six semester hours of upper-division coursework in English or rhetoric and writing; a University grade point average of at least 3.00; and approval of written application by supervising instructor and the undergraduate faculty adviser.

### **E 367E. English Internship.**

Research and staff experience working in an appropriate agency or private business. At least twelve hours of fieldwork a week for one semester. May not be counted toward the thirty-three hours of English and rhetoric and writing required for the English major. May not be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Completion of at least sixty semester hours of coursework, including at least six semester hours of upper-division coursework in English or rhetoric and writing; a University grade point average of at least 3.00; and approval of written application by the undergraduate faculty adviser.

### **E 367K. Conference Course in Creative Writing.**

For advanced students already proficient in writing who wish to work under supervision on specific and fairly extensive projects. Three conference hours a week for one semester. May be repeated once for credit. Prerequisite: English 325 with a grade of A; completion of at least sixty semester hours of coursework, including at least six semester hours of upper-division coursework in English or rhetoric and writing; a University grade point average of at least 3.00; and approval of written application by supervising instructor and the undergraduate faculty adviser.

### **E 369. Twentieth-Century Drama.**

Ibsen and other major dramatists; tradition and innovation in the substance and form of selected modern plays. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

### **E 370. Victorian Prose: Essays and Ideas.**

The prose writer as artist and sage in the cultural, political, religious, and scientific controversies that influence the modern tradition. Representative writers: Carlyle, Mill, Newman, Arnold, Darwin. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

### **E 370W. Literature, Culture, and Gender.**

Gender as a category of literary and cultural analysis. Texts may include literature, film, popular culture, and other forms. Three lecture hours a week for one semester. Only one of the following may be counted unless the topics vary: English 320M, 349S, 370W, 376L, 376M, 379M, 379N. May be repeated for credit when the topics vary.

Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**Topic 2: Contemporary Women Authors.** Same as African and African Diaspora Studies 374F (Topic 4: Contemporary Women Authors) and Women's and Gender Studies 345 (Topic 15: Contemporary Women Authors).

**Topic 8: Gay and Lesbian Literature and Culture.** Same as Women's and Gender Studies 345 (Topic 30: Gay and Lesbian Literature and Culture).

**Topic 9: Gender, Sexuality, and Migration.** Same as Women's and Gender Studies 345 (Topic 39: Gender, Sexuality, and Migration). Only one of the following may be counted: Asian American Studies 320 (Topic: Gender, Sexuality, and Migration), English 370W (Topic 9), 370W (Topic: Cultures of Immigration and Dislocation), Women's and Gender Studies 345 (Topic 39).

### **E 371K. Twentieth-Century Poetry.**

Poets studied include Eliot, Auden, Stevens, Thomas, Bishop, Rich, and Merwin. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

### **E 372L. The American Renaissance.**

Selected writers of the pre-Civil War Romantic movement, including Emerson, Douglass, Fuller, Hawthorne, Melville, Thoreau, Whitman, and others. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

### **E 372M. American Realism.**

Selected writers of the post-Civil War realistic movement: Howells, Twain, James, Jewett, Freeman, Crane, and others. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

### **E 374G. Beowulf.**

A word-by-word, line-by-line translation, with special attention to language and context. Three lecture hours a week for one semester. English 374G and 379N (Topic: Beowulf) may not both be counted. Prerequisite: English 364P.

### **E 374K. Elizabethan Poetry and Prose.**

Renaissance thought and culture as revealed in the lyric and narrative poetry and in the prose masterpieces. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

### **E 374L. The Earlier Seventeenth Century: Donne, Jonson, and Their Contemporaries.**

Poetry and prose, 1600 to 1660: the metaphysical and other leading traditions in poetry; the early poems of Milton; the essay, the character, and other prose forms. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

### **E 375K. English and American Satire.**

Theory of satire, with readings in the works of such representative figures as Chaucer, Dryden, Pope, Byron, Twain, and Thurber. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**E 375L. Victorian Literature.**

Poetry and prose, 1832 to 1901; parallel reading in the novel and drama, and attention to the social and intellectual background of the period. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**E 376. Chaucer.**

Introduction to Chaucer's narrative and poetic art, as shown in a selection from the dream poems, *Troilus and Criseyde*, and the *Canterbury Tales*. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**E 376M. Studies in Ethnic American Literature.**

Approaches to the literatures of the ethnic American cultural experience, including topics related to African American, Asian American, Mexican American, and Native American literature. Three lecture hours a week for one semester. Only one of the following may be counted unless the topics vary: English 320M, 349S, 370W, 376L, 376M, 379M, 379N. May be repeated for credit when the topics vary. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**Topic 3: Writing Slavery.** Same as African and African Diaspora Studies 374F (Topic 6: Writing Slavery).

**Topic 4: Mexican American Modernism.**

**Topic 5: Contemporary Asian American Novels.** Same as Asian American Studies 320 (Topic 3: Contemporary Asian American Novels). Only one of the following may be counted: Asian American Studies 320 (Topic 3), English 376M (Topic 5), 379N (Topic: Contemporary Asian American Novels).

**Topic 6: Contemporary Native American Literature.** English 376M (Topic 6) and 379N (Topic: 20th-Century Native American Literature) may not both be counted.

**E 376R. African American Literature through the Harlem Renaissance.**

Same as African and African Diaspora Studies 372E (Topic 4: African American Literature through the Harlem Renaissance). A survey of African American writing, including autobiography, poetry, fiction, and drama. Authors may include Douglass, Jacobs, Frances E. W. Harper, Chestnutt, Du Bois, Hurston, and Hughes. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 372E (Topic 4), 374 (Topic 2: African American Literature through the Harlem Renaissance), 374F (Topic 1: African American Literature through the Harlem Renaissance), English 376R. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**E 376S. African American Literature since the Harlem Renaissance.**

Same as African and African Diaspora Studies 372E (Topic 5: African American Literature since the Harlem Renaissance). The development of African American poetry, drama, fiction, and nonfiction since the Harlem Renaissance. Authors may include Wright, Ellison, Baldwin, Malcolm X, Baraka, Morrison, Shange, and Charles Johnson. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 372E (Topic 5), Studies 374 (Topic 3: African American Literature since the Harlem Renaissance), 374F (Topic 2: African American Literature since the Harlem Renaissance), English 376S. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**E 377K. The American Novel after 1920.**

Representative works by such writers as Faulkner, Hemingway, Fitzgerald, Larsen, Hurston, Morrison, Bellow, Erdrich, and Tan. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**E 678S. Shakespeare at Winedale.**

Study and readings of selected works and criticism, culminating in public performance of the plays. For English 678SB, students are required to be in residence at Winedale near Round Top, Texas. For 678SA, the equivalent of five lecture hours a week for one semester; for 678SB, fifteen to eighteen hours of work a day, including weekends. Offered in the summer session only. English 678S and 379M (Topic 2: Shakespeare at Winedale) may not both be counted. Prerequisite: For 678SA, consent of instructor; for 678SB, English 678SA and consent of instructor.

**E 379. American Literature and Thought: 1600-1840.**

Early American literature as an embodiment of American thought and experience. Such topics as European ideas in the New World; the political ideas of Hamilton, Jefferson, and Jackson; nationalism; industrialism. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**E 679H. Honors Tutorial Course.**

Research into and development of a thesis topic and proposal followed by the writing and defense of a thesis. The equivalent of three lecture hours a week for two semesters. Prerequisite: For 679HA, enrollment in or completion of at least one honors section of an English course, admission to the English Honors Program, and consent of the honors adviser; for 679HB, English 679HA.

**E 379K. American Literature and Thought: 1840-1920.**

Such topics as transcendentalism, manifest destiny, Utopian thought, and the impact of the theory of organic evolution. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**E 379L. Contemporary Drama.**

Major playwrights since 1950, such as Williams, Shepard, Beckett, Stoppard, Churchill, Fugard, and Pinter. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**E 379P. Drama in Performance.**

Intensive study of drama through active performance as a means of interpretation and an aid to comprehension. Three lecture hours a week for one semester. English 379M (Topic 6: Modern Drama in Performance) and 379P may not both be counted. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**E 379R. Research Seminar.**

Intensive study of selected topics in English. Three lecture hours a week for one semester. Some sections require additional time for film screenings. Only one of the following may be counted unless the topics vary: English 320M, 376L, 379M, 379N, 379R, 379S. May be repeated for credit when the topics vary. Prerequisite: Six semester hours of upper-division coursework in English.

# Center for Asian American Studies

## Asian American Studies: AAS

### Lower-Division Courses

#### AAS 301. Introduction to Asian American Studies.

Introduces the interdisciplinary study of Asian immigrants and Asian Americans in the United States. Explores key concepts, including immigration history, identity and community formation, cultural representation, and the intersections of race, class, gender, and sexuality. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 315 (Topic: Introduction to Asian American Studies), Asian American Studies 301, Sociology 308 (Topic: Introduction to Asian American Studies).

#### AAS 310. Introductory Topics in Asian American Studies.

An introduction to Asian American studies through a variety of disciplines. Three lecture hours a week for one semester. Some topics partially fulfill legislative requirement for American history; these are identified in the Course Schedule. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

#### AAS 312. Introduction to Asian American History.

Same as History 317L (Topic 4: Introduction to Asian American History). Introduces students to the national and transnational histories of Asian Americans in the United States. Explores a wide range of themes related to the Asian American experience. Three lecture hours a week for one semester. Partially fulfills legislative requirement for American history.

#### AAS 314. Asian American Literature and Culture.

Same as English 314V (Topic 2: Asian American Literature and Culture). Explores how authors and artists over the course of the past century have imagined what it means to be Asian American. Covers a diverse range of Asian immigrant histories and the formation of Asian American identities according to ethnicity, gender, sexuality, class, and citizenship. Three lecture hours a week for one semester. Prerequisite: English 603A, Rhetoric and Writing 306, 306Q, or Tutorial Course 603A.

#### AAS 318Q. Supervised Research.

For Asian American studies majors only. Supervised, student-derived research in Asian American studies. Individual instruction. May be repeated for credit when the research projects vary. Prerequisite: Rhetoric and Writing 306 and consent of the director of the Center for Asian American Studies.

### Upper-Division Courses

#### AAS 320. Topics in Asian American Culture, Literature, and Media Studies.

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

##### Topic 1: Immigrants, Amusements, and Consumer Culture.

Same as American Studies 370 (Topic 25: Immigrants, Amusements, and Consumer Culture). Studies the growth of consumer capitalism as it coincides with the migration and integration of immigrants into American society. Examines the

emergence of consumer culture as a force that defines modern American society and traces its developments and current manifestations throughout the world. Prerequisite: Upper-division standing.

**Topic 2: Comparative Cultures of Beauty.** Same as American Studies 370 (Topic 24: Comparative Cultures of Beauty) and Women's and Gender Studies 345 (Topic 45: Comparative Cultures of Beauty). Examines fashion and beauty as discourses, and cultural practices affecting identity, body politics, race, gender, sexuality, and class. Prerequisite: Upper-division standing.

**Topic 3: Contemporary Asian American Novels.** Same as English 376M (Topic 5: Contemporary Asian American Novels). Only one of the following may be counted: Asian American Studies 320 (Topic 3), English 376M (Topic 5), 379N (Topic: Contemporary Asian American Novels). Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

#### AAS 325. Topics in Asian American Economics, History, and Government.

Three lecture hours a week for one semester. Some topics partially fulfill legislative requirement for American history; these are identified in the Course Schedule. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Filipinos in the United States.** Same as History 357F. Only one of the following may be counted: Asian American Studies 325 (Topic 1), History 357F, 365G (Topic: Filipinos in the United States), 366N (Topic: Filipinos in the United States). Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing.

**Topic 2: The Chinese in Diaspora.** Same as History 350L (Topic 65: The Chinese in Diaspora). Explores narratives of migration, race, ethnicity, and a wide range of experiences of acculturation and assimilation from the perspective of a sending society--China--which has one of the longest and most diverse histories of sending people overseas. Over the last millennia, Chinese have migrated around the world and made homes under a great range of adversity and opportunity, producing many stories of human differences and commonalities. Only one of the following may be counted: Asian American Studies 325 (Topic: Chinese in Diaspora), 325 (Topic 2: The Chinese in Diaspora), Asian Studies 361 (Topic: Chinese in Diaspora), 361, 461 (Topic 28), History 350L (Topic: The Chinese in Diaspora), 350L (Topic 65: The Chinese Diaspora). Prerequisite: Upper-division standing.

**Topic 3: The Chinese in the United States.** Same as Asian Studies 340S and History 340S. A lecture and discussion course on the history of the Chinese in the United States from their first arrival in significant numbers during the California Gold Rush of the mid-nineteenth century to the present. Only one of the following may be counted: Asian American Studies 325 (Topic: Chinese in the United States), 325 (Topic 3), Asian Studies 340S, History 340S. Partially fulfills the legislative requirement for American history. Prerequisite: Upper-division standing.

**Topic 4: Taiwan: Colonization, Migration, and Identity.** Same as Asian Studies 340T and History 340T. Explores issues of ethnicity, empire, and modernization in East Asia from the sixteenth century to the present, as seen through encounters between Taiwan and aborigines, Han Chinese, Dutch, Portuguese, the imperial Qing, Japanese, mainland Chinese Nationalist Party (KMT), and the United States. Only one of the following may be counted: Asian American Studies 325 (Topic 4), Asian Studies 340T, 361 (Topic: Taiwan: Colonization, Migration, and Identity), History 340T, 364G

(Topic: Taiwan: Colonization, Migration, and Identity). Prerequisite: Upper-division standing.

**Topic 5: Asian American Jurisprudence.** Same as American Studies 321 (Topic 5: Asian American Jurisprudence) and Government 357M (Topic 9: Asian American Jurisprudence). Introduction to the study of Asian Americans and the law. Examines the historical development of United States law and its relationship to Asian Americans, and of Asian American jurisprudence as an independent field of legal scholarship. Additional prerequisite: Upper-division standing.

### **AAS 330. Topics in Asian American Anthropology, Geography, and Sociology.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 2: Racism and Anti-Racism.** Same as African and African Diaspora Studies 374D (Topic 10: Racism and Anti-Racism). Course examines the few theories/definitions of racism across several fields: anthropology, sociology, psychology, cultural studies, postcolonial studies, gender/sexuality studies. The second half of the course, focuses on anti-racist activism, particularly within people of color and immigrant communities. Prerequisite: Upper-division standing.

### **AAS 335. Topics in Asian American Studies.**

Three lecture hours a week for one semester. Some topics partially fulfill legislative requirement for American history; these are identified in the Course Schedule. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

### **AAS 358Q. Supervised Research.**

For Asian American studies majors only. Supervised, student-derived research in Asian American studies. Individual instruction. May be repeated for credit when the research projects vary. Prerequisite: Upper-division standing, Rhetoric and Writing 306, and consent of the director of the Center for Asian American Studies.

### **AAS 379. Conference Course in Asian American Studies.**

Supervised individual study of selected problems in Asian American studies. Conference course. May be repeated for credit. Prerequisite: Upper-division standing and consent of the director of the Center for Asian American Studies.

### **AAS 679H. Honors Tutorial Course.**

Supervised individual reading for one semester, followed by a semester of research and writing to produce a substantial paper on a specific topic in Asian American studies. Conference course for two semesters. Prerequisite: For 679HA, upper-division standing and admission to the Asian American Studies Honors Program; for 679HB, Asian American Studies 679HA.

## **Center for Mexican American Studies**

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University

courses are listed here. Additional TCCN information is given in Appendix A (p. 627).

## **Mexican American Studies: MAS**

### **Lower-Division Courses**

#### **MAS 307. Introduction to Mexican American Cultural Studies.**

An introduction to the theoretical and substantive issues covered under the interdisciplinary rubric of cultural studies. Explores the Mexican American cultural experience through the methodological approaches of historical analysis, cultural critique, and literary production. Three lecture hours a week for one semester.

#### **MAS 308. Introduction to Mexican American Policy Studies.**

An introduction to the basics of policy analysis, employing demographic and empirical information on the Mexican American and Latino populations in the United States. Current policy issues such as bilingual education, affirmative action, the English-only movement, immigration, Latino consumers, Latino entrepreneurship, and NAFTA. Three lecture hours a week for one semester.

#### **MAS 310 (TCCN: HUMA 1305). Chicanos in American Society.**

Same as Sociology 309. Introduction to the study of American character and its bearing on the Chicano experience. Three lecture hours a week for one semester.

#### **MAS 312 (TCCN: GOVT 2311). Mexican American Politics.**

Mexican American political life from 1848 to the present; focuses on Mexican American institutions, values, and political groups. Three lecture hours a week for one semester. Mexican American Studies 312 and 313 may not both be counted. Prerequisite: Three semester hours of lower-division coursework in government.

#### **MAS 313. Latino Politics.**

Analysis of issues involving political institutions and policies, with emphasis on Latino politics. Three lecture hours a week for one semester. Mexican American Studies 312 and 313 may not both be counted. Prerequisite: Three semester hours of lower-division coursework in government.

#### **MAS 314. Mexican American Literature and Culture.**

Same as English 314V (Topic 3: Mexican American Literature and Culture). Introductory course concerned with representative contemporary Chicano writers and genres, such as poetry, prose fiction, and theatre. Three lecture hours a week for one semester. May not be substituted for English 316K. Prerequisite: English 603A, Rhetoric and Writing 306, 306Q, or Tutorial Course 603A.

#### **MAS 316. History of Mexican Americans in the United States.**

Same as History 314K. Examines the origin and growth of the Mexican American community in the United States. Three lecture hours a week for one semester. Partially fulfills legislative requirement for American history.

#### **MAS 318. Mexican American Culture.**

Same as Anthropology 318L. Mexican American cultural distinctiveness in the areas of social organization, child rearing, food

culture, folklore, language, and religion. Three lecture hours a week for one semester.

### **MAS 319. Special Topics.**

Three lecture hours a week for one semester. Some topics partially fulfill legislative requirement for American history. May be repeated for credit when the topics vary.

**Topic 1: Ethnicity and Gender: La Chicana.** Same as Sociology 308D and Women's and Gender Studies 301 (Topic 6: Ethnicity and Gender: La Chicana).

### **MAS 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Mexican American Studies.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Center for Mexican American Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

## **Upper-Division Courses**

### **MAS 320L. Texas until 1845.**

Same as History 320L. A study of Texas from before the European discovery through the exploration and mission periods to status as a Mexican colony and an independent republic. Three lecture hours a week for one semester. Only one of the following may be counted: History 320L, Mexican American Studies 320L, 374 (Topic: Texas until 1845). Three semester hours of Texas history may be substituted for half of the legislative requirement for American history. Prerequisite: Upper-division standing.

### **MAS 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Mexican American Studies.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Center for Mexican American Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer work is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **MAS 350. Advanced Grammar and Composition for Bilingual/Bicultural Speakers.**

Designed for Hispanic bilingual students whose home language is Spanish, but whose dominant language is English. The principal objective is to learn to write correctly and proficiently and to gain a strong cultural perspective on Latin America. The main focus of the course is on writing discourse, but oral language development is also addressed. Three lecture hours a week for one semester. International Business 372 (Topic 8: Business Spanish) and Mexican American Studies 350 may not both be counted. Prerequisite: Spanish 612 or 312L.

### **MAS 361. Mexican American Cultural Studies Seminar.**

Explores cultural studies literature as read through the experience of the Mexican-origin community in the United States. Discussions include race, class, and feminism. Students write a research paper and deliver a scholarly presentation. Three lecture hours a week for one

semester. Prerequisite: Upper-division standing and Mexican American Studies 307.

### **MAS 362. Mexican American Policy Studies Seminar.**

Profiles the current economic status of Mexican Americans in the United States. Examines two dimensions of public policy: historical trends and comparisons with other ethnic groups. Students write a policy report and deliver a professional presentation. Three lecture hours a week for one semester. Mexican American Studies 362 and 374 (Topic: Mexican American Public Policy Issues) may not both be counted. Prerequisite: Upper-division standing and Mexican American Studies 308.

### **MAS 371. Readings in Mexican American Studies.**

Supervised readings with parallel work in relevant non-Chicano materials; preparation for Mexican American Studies 372. Individual instruction. Prerequisite: Mexican American Studies 310, 318, and 374; or consent of the director.

### **MAS 372. Research Seminar in Mexican American Studies.**

Supervised research on a Mexican American topic chosen in consultation with adviser and leading to a full-length essay. Individual instruction. Prerequisite: Mexican American Studies 310, 318, and 374; or consent of the director.

### **MAS 373. Independent Research.**

Individual instruction. May be repeated for credit. Prerequisite: Mexican American Studies 310, 318, and 374; or consent of the director.

### **MAS 374. Special Topics.**

Three lecture hours a week for one semester. Additional hours are required for some topics; these topics are identified in the Course Schedule. Some topics partially fulfill legislative requirement for American history. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

#### **Topic 2: Life and Literature of the Southwest--Mexican**

**American.** Same as English 342 (Topic 1: Life and Literature of the Southwest--Mexican American). Verse, fiction, travels, and memoirs, to acquaint students with the literature reflecting the social inheritance of Texas and the neighboring territory. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**Topic 3: Chicanos: Sociological Perspectives.** Anglo-American and Mexican American contacts and relations in the southwestern United States from colonial times to the present; emphasis on social and cultural differences and problems of assimilation. Prerequisite: Upper-division standing.

**Topic 4: Narrative Journalism.** Three lecture hours and three laboratory hours a week for one semester. Only one of the following may be counted: Journalism 335, Latin American Studies 322 (Topic 11: Latino Community Journalism), 322 (Topic 11: Narrative Journalism), Mexican American Studies 374 (Topic 4: Latino Community Journalism), 374 (Topic 4: Narrative Journalism). Prerequisite: Upper-division standing and consent of instructor.

**Topic 6: Feature Writing.** Same as Latin American Studies 322 (Topic 4: Feature Writing). Procedures in gathering material for feature stories, with stress on newspaper articles; analysis of reader appeal; study of feature story structure; development of style by practice in writing feature stories. Only one of the following may be counted: Journalism 327, Latin American Studies 322 (Topic 4), Mexican American Studies 374 (Topic 6). Prerequisite: Consent of instructor and a passing score on the College of Communication Grammar, Spelling and Punctuation Test.

**Topic 8: Mexican Americans in the Schooling Process.** Same as Educational Psychology 362 (Topic 4: Mexican Americans in the Schooling Process). Prerequisite: Upper-division standing.

**Topic 9: Hispanic Images and Counterimages.** Same as Latin American Studies 322 (Topic 1: Hispanic Images and Counterimages) and Radio-Television-Film 359S (Topic 1: Hispanic Images and Counterimages). The critical analysis of Hispanic images in media. Three lecture hours and one two-hour film screening a week for one semester. Prerequisite: For radio-television-film majors, upper-division standing and the following coursework, with a grade of at least C in each course: Radio-Television-Film 305, either 314 or 316, and six additional semester hours of lower-division coursework in radio-television-film; for others, upper-division standing and consent of instructor.

**Topic 10: Latino Audiences.** Same as Latin American Studies 322 (Topic 2: Latino Audiences) and Radio-Television-Film 365 (Topic 2: Latino Audiences). Prerequisite: For radio-television-film majors: upper-division standing and the following coursework, with a grade of at least C in each course: Radio-Television-Film 305 and nine additional semester hours of lower-division coursework in radio-television-film; for others, upper-division standing and consent of instructor.

**Topic 11: Mass Media and Ethnic Groups.** Same as Latin American Studies 322 (Topic 3: Mass Media and Ethnic Groups) and Radio-Television-Film 365 (Topic 3: Mass Media and Ethnic Groups). Prerequisite: For radio-television-film majors: upper-division standing and the following coursework, with a grade of at least C in each course: Radio-Television-Film 305 and nine additional semester hours of lower-division coursework in radio-television-film; for others, upper-division standing and consent of instructor.

**Topic 14: United States-Mexican Border Relations.** Same as Government 337M (Topic 4: United States-Mexican Border Relations) and Latin American Studies 337M (Topic 4: United States-Mexican Border Relations). Prerequisite: Six semester hours of lower-division coursework in government.

**Topic 15: Latino Politics.** Same as Latin American Studies 337M (Topic 8: Latino Politics) and Government 370K (Topic 2: Latino Politics). Prerequisite: Six semester hours of lower-division coursework in government.

**Topic 16: Texas, 1914 to the Present.** Same as History 320R and Urban Studies 353 (Topic 2: Texas, 1914 to the Present). The steady dissociation of Texas from its Old South status to a transitional state and a power in national politics. Three semester hours of Texas history may be substituted for half of the legislative requirement for American history. Prerequisite: Upper-division standing.

**Topic 17: International Communication: Third World Issues.** Same as Latin American Studies 322 (Topic 7: International Communication: Third World Issues) and Radio-Television-Film 342 (Topic 3: Third World Issues). Prerequisite: For radio-television-film majors, upper-division standing; consent of instructor; and the following coursework, with a grade of at least C in each course: Radio-Television-Film 305 and nine additional semester hours of lower-division coursework in radio-television-film; for others, upper-division standing and consent of instructor.

**Topic 22: Minorities and the Media.** Issues concerning minority or nondominant groups within the United States. Survey of minority communication problems: alienation, fragmentation, media and Internet access; criticism and feedback for minority groups based on racial/ethnic background, age, sex, disability, social or economic class, and sexual orientation. Only one of the following may be counted: Journalism 340C (Topic 1: Mass Media and Minorities), 341H, Latin American Studies 322 (Topic 10: Minorities and the

Media), Mexican American Studies 374 (Topic 22), Urban Studies 354 (Topic: Mass Media and Minorities), Women's and Gender Studies 340 (Topic 21: Minorities and the Media). Prerequisite: Upper-division standing.

**Topic 23: Mexican American Indigenous Heritage.** Same as Anthropology 322M (Topic 10: Mexican American Indigenous Heritage). The prehistory, history, and contemporary racial understanding of Mexican Americans. Prerequisite: Upper-division standing.

**Topic 24: Latinos and Media.** Same as Latin American Studies 322 (Topic 12: Latinos and Media) and Radio-Television-Film 365 (Topic 6: Latinos and Media). Prerequisite: For radio-television-film majors, upper-division standing and the following coursework, with a grade of at least C in each course: Radio-Television-Film 305 and nine additional semester hours of lower-division coursework in radio-television-film; for others, upper-division standing and consent of instructor.

**Topic 25: Chicano Educational Struggles.** Same as Educational Psychology 362 (Topic 5: Chicano Educational Struggles). Prerequisite: Upper-division standing.

**Topic 28: Politics and Culture of Contemporary Mexico.** Same as Government 337M (Topic 5: Politics and Culture of Contemporary Mexico), Latin American Studies 325 (Topic 3: Politics and Culture of Contemporary Mexico), and Sociology 338M. Introduction to the contemporary Mexican political system and the ways in which political change and democratization are recasting the political and civic culture of contemporary Mexico. Prerequisite: Upper-division standing and six semester hours of lower-division coursework in government.

**Topic 29: Mexican and Mexican American Ballads.** Same as Latin American Studies 370S (Topic 20: Mexican and Mexican American Ballads) and Spanish 350 (Topic 11: Mexican and Mexican American Ballads). Examines the corrido genre in the nineteenth and twentieth centuries, with special focus on its pivotal role in the Mexican Revolution and in the collision between cultures in the border zone. Prerequisite: Spanish 322K or 328.

**Topic 32: Radical Latinos.** Same as American Studies 370 (Topic 39: Radical Latinos). Examines the social positioning and history of Latinas/os in the United States. Analyzes the histories of Latinas/os who have gone against mainstream expectations, or who have challenged or critiqued the status quo in provocative and unexpected ways. Only one of the following may be counted: American Studies 370 (Topic Radical Latinos), 370 (Topic 39), Mexican American Studies 374 (Topic: Radical Latinos), 374 (Topic 32). Prerequisite: Upper-division standing.

### **MAS 375. Internship.**

Restricted to Mexican American studies majors. Students participate in a nonpartisan, direct-service capacity in a community, civic, or government organization or program that facilitates the economic, political, and social development of the Mexican American community. Under the supervision of a faculty member, students write a report based on the internship project. The equivalent of three lecture hours a week for one semester. Additional weekly meeting times are sometimes required. With consent of the director or academic adviser, may be repeated for credit. Prerequisite: Mexican American Studies 310, 318, and 374; or consent of the director.

### **MAS 679H. Honors Tutorial Course.**

Restricted to Mexican American studies majors. Supervised research, readings, and writing of a substantial paper on a Mexican American studies topic. The equivalent of three lecture hours a week for two semesters. Prerequisite: For 679HA, Mexican American Studies 361, 362, or 372 with a grade of A; admission to the Mexican American

Studies Honors Program no later than two semesters before expected graduation; a University grade point average of at least 3.00; and a grade point average in Mexican American studies of at least 3.50; for 679HB, Mexican American Studies 679HA.

## Center for European Studies

### European Studies: EUS

#### Lower-Division Courses

##### **EUS 302. Introductory Interdisciplinary Topics in European Studies.**

Analysis of various aspects of European culture, science, and technology. Three lecture hours a week for one semester. Only one of the following may be counted unless the topics vary: European Studies 301, 302, 306, 307, 308. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

##### **EUS 305. Introduction to European Studies.**

The myths, ideas, and sociopolitical realities that underpin the intellectual and cultural construction of Europe. Core course. Three lecture hours a week for one semester. European Studies 301 (Topic: Introduction to European Studies) and 305 may not both be counted.

##### **EUS 306. Introductory Topics in European Anthropology, Geography, History, and Sociology.**

Three lecture hours a week for one semester. Only one of the following may be counted unless the topics vary: European Studies 301, 302, 306, 307, 308. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

##### **EUS 307. Introductory Topics in European Culture, Literature, Art, Music, and Media.**

Three lecture hours a week for one semester. Only one of the following may be counted unless the topics vary: European Studies 301, 302, 306, 307, 308. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

##### **EUS 308. Introductory Topics in European Economics, Government, Business, and Policy.**

Three lecture hours a week for one semester. Only one of the following may be counted unless the topics vary: European Studies 301, 302, 306, 307, 308. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

##### **EUS 113. Preparation for Study Abroad in Europe.**

One lecture hour a week for one semester. May not be counted by students who have previously taken an international learning seminar. Offered on the pass/fail basis only.

##### **EUS 318Q. Supervised Research.**

Individual instruction.

##### **EUS 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in European Studies.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Center for European Studies. University credit

is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

#### Upper-Division Courses

##### **EUS 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in European Studies.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Center for European Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

##### **EUS 340M. Continuity and Change in Modern France.**

Same as French Civilization 340M. Focuses on various social, political, and cultural crises in France from the revolution of 1789 to the present time. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 340M, 361 (Topic: Continuity and Change in Modern France), French 340T, French Civilization 340M. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. Prerequisite: Upper-division standing.

##### **EUS 346. Topics in European Anthropology, Geography, History, and Sociology.**

Three lecture hours a week for one semester. Only one of the following may be counted unless the topics vary: European Studies 346, 347, 348, 361, 363. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

##### **Topic 1: History of Britain from 1783 through World War I.**

Same as History 358M. Surveys the political, social, economic, and intellectual history of Great Britain from the years preceding the outbreak of the French Revolution to the conclusion of World War I. Only one of the following may be counted: European Studies 346 (Topic 1), 361 (Topic 4: England in the Nineteenth Century), History 358M. Prerequisite: Upper-division standing.

##### **Topic 2: Great Discoveries in Archaeology.**

Same as Anthropology 326F. The stories, myths, and people behind some of the great archaeological discoveries. Only one of the following may be counted: Anthropology 324L (Topic: Great Discoveries in Archaeology), Anthropology 326F, European Studies 346 (Topic 2). Prerequisite: Upper-division standing.

**Topic 3: Witches, Workers, and Wives.** Same as History 343W and Women's and Gender Studies 345 (Topic 29: Witches, Workers, and Wives). Explores the role of families and concepts of gender as expressed in key economic, social, political, and cultural patterns in early modern Europe. Prerequisite: Upper-division standing.

**Topic 4: Law and Society in Early Modern Europe.** Same as History 350L (Topic 57: Law and Society in Early Modern Europe) and Women's and Gender Studies 340 (Topic 13: Law and Society in Early Modern Europe). Research seminar on how historians have explored the significance of law, criminal and civil, in the lives of early modern Europeans. Topics include infanticide, fornication, drunkenness, theft, debt, slander, and family disputes. Only one of the following may be counted: European Studies 346 (Topic 4), 361 (Topic: Law and Society in Early Modern Europe), History

350L (Topic 57), Women's and Gender Studies 340 (Topic 13). Prerequisite: Upper-division standing.

**Topic 5: Vienna: Memory and the City.** American Studies 370 (Topic 41: Vienna: Memory and the City), History 362G (Topic 2: Vienna: Memory and the City), and Urban Studies 354 (Topic 7: Vienna: Memory and the City). Examines the ways in which cultural memory has shaped, and continues to shape, urban life in Vienna, Austria. Only one of the following may be counted: American Studies 315 (Topic: Vienna: Memory and the City), 370 (Topic 41), European Studies 301 (Topic: Vienna: Memory and the City), 306 (Topic: Vienna: Memory and the City), 346 (Topic 5), Geography 309 (Topic: Vienna: Memory and the City), Germanic Civilization 311(Topic: Vienna: Memory and the City), History 306N (Topic: Vienna: Memory and the City), 362G (Topic 2), Urban Studies 305 (Topic: Vienna: Memory and the City), 354 (Topic 7). Prerequisite: Upper-division standing.

### **EUS 347. Topics in European Culture, Literature, Art, Music, and Media.**

Three lecture hours a week for one semester. Only one of the following may be counted unless the topics vary: European Studies 346, 347, 348, 361, 363. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Italian Civilization.** Same as Italian Civilization 360. Survey of the social, political, and cultural history of Italy. Taught in English. Only one of the following may be counted: European Studies 347 (Topic 1), 361 (Topic 7: Italian Civilization), Italian Civilization 360. With consent of the undergraduate adviser in the Department of French and Italian, may be counted toward a major in Italian. Prerequisite: Upper-division standing.

**Topic 2: German Cinema since 1933.** Same as Germanic Civilization 361E (Topic 2: German Cinema since 1933). Only one of the following may be counted: English 322 (Topic 12: German Cinema since 1933), European Studies 347 (Topic 2), 361 (Topic 17: German Cinema since 1933), Germanic Civilization 361E (Topic 2). Prerequisite: Upper-division standing.

**Topic 3: Introduction to Germanic Religion and Myth.** Same as Germanic Civilization 340E (Topic 1: Introduction to Germanic Religion and Myth) and Religious Studies 365 (Topic 2: Introduction to Germanic Religion and Myth). Only one of the following may be counted: English 322 (Topic 2: Introduction to Germanic Religion and Myth), European Studies 347 (Topic 3), 361 (Topic 6: Introduction to Germanic Religion and Myth), Germanic Civilization 340E (Topic 1), Religious Studies 365 (Topic 2). Prerequisite: Upper-division standing.

**Topic 4: Literature in the New German Cinema.** Same as Germanic Civilization 361E (Topic 4: Literature in the New German Cinema). Only one of the following may be counted: European Studies 347 (Topic 4), 361 (Topic 1: Literature in the New German Cinema), Germanic Civilization 361E (Topic 3). Prerequisite: Upper-division standing.

**Topic 5: Genres, Structure, and Trends in German Cinema.** Same as Germanic Civilization 361E (Topic 3: Genres, Structure, and Trends in German Cinema). Only one of the following may be counted: English 322 (Topic 13: Genres, Structure, and Trends in German Cinema), European Studies 347 (Topic 5), 361 (Topic 2: Genres, Structure, and Trends in German Cinema), Germanic Civilization 361E (Topic 3), Germanic Civilization 362E (Topic 3). Prerequisite: Upper-division standing.

**Topic 6: The German Folktale and Fantasy Tale.** Same as Germanic Civilization 362E (Topic 3: The German Folktale and Fantasy Tale). Only one of the following may be counted: English 322 (Topic 30: The German Folktale and Fantasy Tale), European

Studies 347 (Topic 6), 361 (Topic 16: The German Folktale and Fantasy Tale), Germanic Civilization 362E (Topic 3). Prerequisite: Upper-division standing.

**Topic 7: The European Novel.** Same as English 356. Selected masterpieces of Continental fiction in English translation: representative novelists of the nineteenth and twentieth centuries. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

### **EUS 348. Topics in European Economics, Government, Business, and Policy.**

Three lecture hours a week for one semester. Only one of the following may be counted unless the topics vary: European Studies 346, 347, 348, 361, 363. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Governments and Politics of Eastern Europe.** Same as Government 324J and Russian, East European, and Eurasian Studies 335 (Topic 2: Governments and Politics of Eastern Europe). Only one of the following may be counted: European Studies 348 (Topic 1), 361 (Topic 14: Governments and Politics of Eastern Europe), Government 324J, Russian, East European, and Eurasian Studies 335 (Topic 2). Prerequisite: Six semester hours of lower-division coursework in government.

### **EUS 350. Governments and Politics of Western Europe.**

Same as Government 324L. Comparative study of peoples, institutions, parties, interest groups, and bureaucracy in the countries of Western Europe, concentrating on the major political systems of Britain, France, Germany, and Italy. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 350, 361 (Topic 14: Governments and Politics of Western Europe), Government 324L. Prerequisite: Six semester hours of lower-division coursework in government.

### **EUS 356. Germany and Europe since 1945.**

Restricted to students participating in the summer program in Wuerzburg, Germany. The equivalent of three lecture hours a week for one semester. European Studies 356 and 361 (Topic: Germany and Europe since 1945) may not both be counted. Prerequisite: Upper-division standing and consent of instructor.

### **EUS 358Q. Supervised Research.**

Individual instruction. Prerequisite: Upper-division standing.

### **EUS 362. Independent Research in European Studies.**

Tutorially directed research on a modern European topic. Conference course. Required for the concentration in European studies. May be repeated for credit. Prerequisite: Upper-division standing, admission to the European studies program, and consent of instructor.

### **EUS 363. Interdisciplinary Topics in European Studies.**

An analysis of various aspects of European culture, science, and technology. Three lecture hours a week for one semester. Only one of the following may be counted unless the topics vary: European Studies 346, 347, 348, 361, 363. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

### **EUS 375. Capstone Research in European Studies.**

Supervised research on a modern European topic chosen in consultation with the student's adviser and culminating in a full-length

thesis. Individual instruction. Prerequisite: Upper-division standing, admission to the European studies major, and consent of instructor.

## Department of French and Italian

In all French civilization and Italian civilization courses, both lectures and readings are in English. In French 301, lectures are in English and readings are in French. All other courses are conducted primarily in the foreign language.

Students with knowledge of either language must take appropriate steps to determine at which level they may begin work at the University. Students with transfer credit for college work done at another institution may start at the next higher level here. All other students with knowledge of either language are required to take the placement test administered by the Center for Teaching and Learning for placement in French or the departmentally administered classification test for placement in Italian.

Students are urged to consult departmental advisers about any problem either with placement or with credit by examination.

Students who wish to continue their study of French or Italian may consult departmental advisers about appropriate upper-division courses and prerequisites.

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 627).

### French: FR

#### Lower-Division Courses

##### FR 301. French for Graduate Students in Other Departments.

No auditors permitted. Intensive reading course for graduate students, emphasizing basic grammar and vocabulary with translation practice. Three lecture hours a week for one semester. The symbol CR fulfills the foreign language requirement for the Doctor of Philosophy degree in some departments. May not be used to fulfill the foreign language requirement for any bachelor's degree. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

##### FR 601C. Beginning French.

An intensive beginning course with an emphasis on basic skills: listening, speaking, reading, and writing. Six lecture hours a week for one semester. Only one of the following may be counted: French 601C, 604, 506. Only one of the following may be counted: French 601C, 604, 507, 508K.

##### FR 604. Accelerated First-Year French.

Designed for students of high motivation. A six-hour course comparable to French 506 and 507. Six lecture hours a week for one semester. Only one of the following may be counted: French 601C, 604, 506. Only one of the following may be counted: French 601C, 604, 507, 508K.

##### FR 506 (TCCN: FREN 1511). First-Year French I.

Emphasis on basic skills: listening, speaking, reading, and writing. Designed for students with no previous coursework in French. Five

lecture hours a week for one semester. Only one of the following may be counted: French 601C, 604, 506.

##### FR 507 (TCCN: FREN 1512). First-Year French II.

Five lecture hours a week for one semester. Only one of the following may be counted: French 601C, 604, 507, 508K. Prerequisite: French 506 completed at the University with a grade of at least C.

##### FR 508K. Alternate First-Year French II.

An accelerated review of material covered in French 506, followed by study of new material covered in French 507. Five lecture hours a week for one semester. Only one of the following may be counted: French 601C, 604, 507, 508K. Prerequisite: Transfer credit or credit by examination for French 506; or credit for French 506 earned at the University more than one calendar year prior to registering, with a grade of at least C.

##### FR 611C. Intermediate French.

An intensive intermediate course with emphasis on basic skills: listening, speaking, reading, and writing. Does not meet the prerequisite requirements for French 320E or 324L. Six lecture hours a week for one semester. Only one of the following may be counted: French 611C, 612, 312K. French 310L and 611C may not both be counted. French 611C and 612 may not both be counted. French 611C and 312L may not both be counted. Prerequisite: French 601C, 604, 507, or 508K with a grade of at least C.

##### FR 612. Accelerated Second-Year French: Four Skills.

Designed for students of high motivation. A six-hour course comparable to French 312K and 312L combined. Six lecture hours a week for one semester. Only one of the following may be counted: French 310L, 612, 312L, 312N. Only one of the following may be counted: French 611C, 612, 312K. French 611C and 612 may not both be counted. Prerequisite: French 604, 507, or 508K with a grade of at least C.

##### FR 312K (TCCN: FREN 2311). Second-Year French I: Four Skills.

Listening, speaking, reading, and writing at the second-year level. Three lecture hours a week for one semester. Only one of the following may be counted: French 611C, 612, 312K. Prerequisite: French 604, 507, or 508K with a grade of at least C.

##### FR 312L (TCCN: FREN 2312). Second-Year French II: Four Skills.

Listening, speaking, reading, and writing at the advanced, second-year level. Three lecture hours a week for one semester. Only one of the following may be counted: French 310L, 612, 312L, 312N. French 611C and 312L may not both be counted. Prerequisite: French 312K with a grade of at least C.

##### FR 317C. Enhancing French Skills.

Listening, speaking, reading, and writing course designed to provide students who have credit for French 611C with additional preparation for upper-division French courses. Three lecture hours a week for one semester. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. Prerequisite: French 611C with a grade of at least C.

##### FR 118L. Practice in Spoken French.

Designed to be taken concurrently with French 317C. Two lecture hours a week for one semester. May not be counted toward fulfillment

of the foreign language requirement for any bachelor's degree.  
Prerequisite: French 611C or 312K with a grade of at least C.

**FR 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S.**  
**Topics in French.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of French and Italian. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**Upper-Division Courses**

**FR 320E. Advanced French I.**

Designed to develop the listening, speaking, reading, and writing skills needed for the analysis of literary and cultural readings in the French-speaking world. Three lecture hours a week for one semester. Prerequisite: French 612, 312L, (312N), or 317C with a grade of at least C.

**FR 120M. Advanced Practice in Spoken French I.**

Two lecture hours a week for one semester. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. Prerequisite: French 612, 312L, (312N), or 317C with a grade of at least C.

**FR 120N. Advanced Practice in Spoken French II.**

Two lecture hours a week for one semester. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. Prerequisite: Completion of at least one upper-division French course, or equivalent proficiency.

**FR 322E. Advanced French II.**

Continuation of French 320E. Designed to develop the listening, speaking, reading, and writing skills needed to analyze literary and cultural readings in the French-speaking world. Three lecture hours a week for one semester. Prerequisite: French 320E.

**FR 324L. Practical Phonetics.**

A thorough review of French phonetics, with emphasis on improving production and understanding of spoken French. Three lecture hours a week for one semester. Prerequisite: French 612, 312L, (312N), or 317C with a grade of at least C.

**FR 326K. Introduction to French Literature I: From the Middle Ages through the Eighteenth Century.**

Introduction to the reading and analysis of representative texts, with some attention to cultural and historical background. Three lecture hours a week for one semester. Prerequisite: French 320E.

**FR 326L. Introduction to French Literature II: From the French Revolution to the Present.**

Introduction to the reading and analysis of representative texts, with some attention to cultural and historical background. Three lecture hours a week for one semester. Prerequisite: French 320E.

**FR 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S.**  
**Topics in French.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's

Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of French and Italian. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**FR 130D. French across Disciplines.**

Students read and discuss French language materials related to the subject matter of another designated course. One lecture hour a week for one semester. Prerequisite: Upper-division standing and three semester hours of upper-division coursework in French.

**FR 330K. Studies in French Language and Cultures.**

Topics with a focus on language or culture. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: French 320E.

**Topic 1: Scientific French.**

**FR 340C. The Arts in France.**

A survey of the major artistic styles, modes, and currents in painting, architecture, sculpture, the decorative arts, and costume, from the medieval through the contemporary periods. Three lecture hours a week for one semester. Prerequisite: French 320E.

**FR 340P. The Making and Identity of France.**

The general political history of France, from the nation's inception to its current existence as part of the European Community. Three lecture hours a week for one semester. Prerequisite: French 320E.

**FR 340T. France and the Francophone World Today.**

An introduction to life in France and francophone regions through the study of contemporary society and culture. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 340M, 361 (Topic: Continuity and Change in Modern France), French 340T, French Civilization 340M. Prerequisite: French 320E.

**FR 342C. French for Business.**

Development of the ability to function in French in business-related situations, both orally and in writing. Three lecture hours a week for one semester. Prerequisite: French 320E.

**FR 348. French Drama Workshop.**

Intensive analysis of one or several plays or short literary texts, with emphasis on diction, delivery of lines, acting and staging; public performance of one play. The equivalent of three lecture hours a week for one semester. Prerequisite: French 320E.

**FR 355. Topics in Medieval and Renaissance French Literature.**

Study of literary texts from the Middle Ages and the Renaissance. Topics may focus on a specific writer or period, a genre, or a theme. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Six semester hours of upper-division coursework in French.

**FR 356. Topics in French Literature of the Baroque, Classicism, and the Enlightenment.**

Study of literary texts of the seventeenth-century baroque and classical periods and the eighteenth-century Enlightenment. Topics may focus on a specific writer or period, a literary mode or movement, a genre, or a theme. Three lecture hours a week for one semester. May be

repeated for credit when the topics vary. Prerequisite: Six semester hours of upper-division coursework in French.

### **FR 357. Topics in French Literature from the Nineteenth Century to the Present.**

Study of literary texts since the French revolution. Topics may focus on a specific writer or period, a literary mode or movement, a genre, or a theme. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Six semester hours of upper-division coursework in French.

### **FR 358. Seminar in French and Francophone Studies.**

Topics in literature or culture, with a focus on study in depth or on synthesis. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Six semester hours of upper-division coursework in French.

### **FR 359. Topics in French Linguistics.**

Advanced introduction to linguistic analysis of French. Topics may include analysis of contemporary French, introduction to French linguistics, contrastive analysis of French and English, and advanced French grammar. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Six semester hours of upper-division coursework in French.

### **FR 364L. Introduction to French Linguistics.**

Introduction to the syntactic, phonological, morphological, lexical, historical, and applied aspects of French linguistics. Three lecture hours a week for one semester. Prerequisite: Six semester hours of upper-division coursework in French.

### **FR 165K, 265K, 365K. Conference Course.**

Supervised individual study of selected problems in French language and literature. Prerequisite: French 612, 312L, (312N), or 317C; and consent of instructor.

### **FR 371L. Advanced Written and Oral Composition.**

Designed to guide students toward smooth and effective written and oral expression; weekly compositions on assigned topics; periodic oral presentations. Three lecture hours a week for one semester. Prerequisite: French 320E and 322E.

### **FR 372. Comparative Stylistics.**

Comparison of contemporary French and English syntax and style; study and practice in the technical difficulties of English-to-French and French-to-English translation. Three lecture hours a week for one semester. Prerequisite: French 320E and 322E.

### **FR 379H. Honors Tutorial Course.**

Supervised individual research on a literary, linguistic, or cultural topic, and writing and defense of a thesis under the direction of a committee of two faculty members. Conference course. Prerequisite: Admission to the French Honors Program.

## **French Civilization: F C**

### **Lower-Division Courses**

#### **F C 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in French Civilization.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's

Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of French and Italian. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated study program. May be repeated for credit when the topics vary.

### **Upper-Division Courses**

#### **F C 320. The French Heritage.**

Introduction to French civilization: architecture, painting, music, and social and political history. Given in English; requires no knowledge of French. Three lecture hours a week for one semester. May not be counted toward a major or minor in French. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. Prerequisite: Upper-division standing.

#### **F C 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in French Civilization.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of French and Italian. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

#### **F C 339. The Development of the French Film.**

Films in French, with subtitles in English; lectures in English. Three lecture hours a week for one semester. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. English 322 (Topic 20: The Development of the French Film) and French Civilization 339 may not both be counted. Prerequisite: Upper-division standing.

#### **F C 340M. Continuity and Change in Modern France.**

Same as European Studies 340M. Focuses on various social, political, and cultural crises in France from the revolution of 1789 to the present time. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 340M, 361 (Topic: Continuity and Change in Modern France), French 340T, French Civilization 340M. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. Prerequisite: Upper-division standing.

#### **F C 345. Studies in the Cultures of French-Speaking Peoples.**

Lectures and readings in English. Three lecture hours a week for one semester. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

##### **Topic 1: The Cultural and Intellectual History of France and Germany, 1870 to 1945.**

#### **F C 349. French Literature in Translation.**

Three lecture hours a week for one semester. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

## Italian: ITL

### Lower-Division Courses

#### ITL 601C. Beginning Italian.

An intensive beginning course with an emphasis on basic skills: listening, speaking, reading, and writing. Six lecture hours a week for one semester. Only one of the following may be counted: Italian 601C, 604, 506. Only one of the following may be counted: Italian 601C, 604, 507.

#### ITL 604. Accelerated First-Year Italian.

Designed for students of high motivation. A six-hour course comparable to Italian 506 and 507. Six lecture hours a week for one semester. Only one of the following may be counted: Italian 601C, 604, 506. Only one of the following may be counted: Italian 601C, 604, 507.

#### ITL 305. Introduction to Italian Language and Culture.

An introductory course in Italian language and culture taught in Castiglion-Fiorentino, Italy. Three lecture hours a week for one semester. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. Designed for students studying abroad who wish to receive University credit.

#### ITL 506 (TCCN: ITAL 1511). First-Year Italian I: Language and Culture.

Grounding in the basic skills: listening, speaking, reading, and writing; one class hour a week devoted to Italian cultural topics. Five lecture hours a week for one semester. Only one of the following may be counted: Italian 601C, 604, 506.

#### ITL 507 (TCCN: ITAL 1512). First-Year Italian II: Language and Culture.

Emphasis on basic skills: listening, speaking, reading, and writing; one class hour a week devoted to Italian cultural topics. Five lecture hours a week for one semester. Only one of the following may be counted: Italian 601C, 604, 507. Prerequisite: Italian 506 with a grade of at least C.

#### ITL 611C. Intermediate Italian.

An intensive intermediate course with an emphasis on basic skills: listening, speaking, reading, and writing. Does not meet the prerequisite requirements for Italian 328, 326K, or 326L. Six lecture hours a week for one semester. Only one of the following may be counted: Italian 611C, 612, 312K. Only one of the following may be counted: Italian 611C, 612, 312L. Prerequisite: Italian 601C, 604, or 507 with a grade of at least C.

#### ITL 612. Accelerated Second-Year Italian.

Comparable to Italian 312K and 312L combined. Intensive work in writing, reading, and speaking at the second-year level. Six lecture hours a week for one semester. Only one of the following may be counted: Italian 611C, 612, 312K. Only one of the following may be counted: Italian 611C, 612, 312L. Prerequisite: Italian 604 or 507 with a grade of at least C.

#### ITL 312K (TCCN: ITAL 2311). Second-Year Italian I.

Listening, speaking, reading, and writing at the second-year level. Three lecture hours a week for one semester. Only one of the following may be counted: Italian 611C, 612, 312K. Prerequisite: Italian 604 or 507 with a grade of at least C.

#### ITL 312L (TCCN: ITAL 2312). Second-Year Italian II.

Listening, speaking, reading, and writing at the advanced second-year level. Three lecture hours a week for one semester. Only one of the following may be counted: Italian 611C, 612, 312L. Prerequisite: Italian 312K with a grade of at least C.

#### ITL 317C. Enhancing Italian Skills.

Listening, speaking, reading, and writing course designed to provide students who have credit for Italian 611C with additional preparation for upper-division Italian courses. Three lecture hours a week for one semester. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. Prerequisite: Italian 611C with a grade of at least C.

#### ITL 118K. Practice in Spoken Italian I.

Designed to be taken concurrently with Italian 312K. Two lecture hours a week for one semester. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. Prerequisite: Italian 604 or 507 with a grade of at least C.

#### ITL 118L. Practice in Spoken Italian II.

Designed to be taken concurrently with Italian 312L. Two lecture hours a week for one semester. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. Prerequisite: Italian 611C or 312K with a grade of at least C.

#### ITL 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Italian.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of French and Italian. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### Upper-Division Courses

#### ITL 321. Introduction to Italian Literature.

Reading and analysis of literature, literary criticism, textual analysis. Three lecture hours a week for one semester. Italian 321 and 326K may not both be counted; Italian 321 and 326L may not both be counted. Prerequisite: Credit or registration for Italian 328.

#### ITL 322L. Tradition and Change in Contemporary Italy.

An analysis of Italy's trends and of conflicting values in its political, economic, and social development. Three lecture hours a week for one semester. Prerequisite: Three semester hours of upper-division coursework in Italian.

#### ITL 326K. Introduction to Italian Literature I: From the Middle Ages to the Eighteenth Century.

Introduction to the reading and analysis of representative texts, with some attention to cultural and historical background. Three lecture hours a week for one semester. Italian 321 and 326K may not both be counted. Prerequisite: Credit or registration for Italian 328.

#### ITL 326L. Introduction to Italian Literature II: From the Eighteenth Century to the Present.

Introduction to the reading and analysis of representative texts, with some attention to cultural and historical background. Three lecture

hours a week for one semester. Italian 321 and 326L may not both be counted. Prerequisite: Credit or registration for Italian 328.

### **ITL 328. Composition and Conversation.**

Focuses on idioms, grammar, syntax, and style. Three lecture hours a week for one semester. Prerequisite: Italian 611C, 612, or 312L with a grade of at least C.

### **ITL 329. Advanced Composition and Conversation.**

Advanced work in writing and speech, based on current events and contemporary readings. Three lecture hours a week for one semester. Prerequisite: Italian 328.

### **ITL 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Italian.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of French and Italian. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **ITL 130D. Italian across Disciplines.**

Students read and discuss Italian language materials related to the subject matter of another designated course. One lecture hour a week for one semester. Prerequisite: Upper-division standing, three semester hours of upper-division coursework in Italian, and consent of instructor.

### **ITL 330K. Studies in Italian Language.**

Study in specific areas of Italian language. Topics may include history of the Italian language, applied Italian linguistics. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Italian 328.

### **ITL 331. Topics in Italian Culture.**

Analysis of Italian culture. Texts include literature, film, popular culture, and other forms. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Italian 328.

### **ITL 348. Italian Drama Workshop.**

Intensive analysis of one or several plays or short literary texts, with emphasis on diction, delivery of lines, and acting and staging. Three lecture hours a week for one semester, with additional rehearsal hours to be arranged. Prerequisite: The following coursework with a grade of at least C in each: Italian 321 and 328, or Italian 326K and 326L.

### **ITL 365. Conference Course in Italian Language and Literature.**

Course content varies according to needs of students; designed to fill in gaps and give students a good overall picture of the development of Italian literature. Conference course. Prerequisite: Upper-division standing and consent of the undergraduate adviser or the chair. Italian majors may take conference courses only in exceptional cases.

### **ITL 375. Studies in Italian Literature.**

Intensive examination of a period or a major writer. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: The following coursework with a grade of at least C in each: Italian 321 and 328, or Italian 326K and 326L.

### **ITL 379H. Honors Tutorial Course.**

Supervised individual research on a literary, linguistic, or cultural topic, and writing and defense of a thesis under the direction of a committee of two faculty members. Conference course. Prerequisite: Admission to the Italian Honors Program.

## **Italian Civilization: ITC**

### **Lower-Division Courses**

#### **ITC 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Italian Civilization.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of French and Italian. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **Upper-Division Courses**

#### **ITC 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Italian Civilization.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of French and Italian. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

#### **ITC 349. Italian Literature in Translation.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

**Topic 1: Italian Cinema.** English 322 (Topic 22: Italian Cinema) and Italian Civilization 349 (Topic 1) may not both be counted.

**Topic 2: Dante.** Same as English 322 (Topic 23: Dante).

**Topic 3: Great Italian Novels and Plays.**

**Topic 5: Italian Women Writers.** Same as Women's and Gender Studies 340 (Topic 17: Italian Women Writers). Only one of the following may be counted: English 322 (Topic 38: Italian Women Writers), Italian Civilization 349 (Topic 5), Women's and Gender Studies 340 (Topic 17).

#### **ITC 360. Italian Civilization.**

Same as European Studies 347 (Topic 1: Italian Civilization). Survey of the social, political, and cultural history of Italy. Taught in English. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 347 (Topic 1), 361 (Topic 7: Italian Civilization), Italian Civilization 360. With consent of the undergraduate adviser in the Department of French and Italian, may be counted toward a major in Italian. Prerequisite: Upper-division standing.

# Department of Geography and the Environment

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 627).

## Geography: GRG

### Lower-Division Courses

#### **GRG 301C (TCCN: GEOG 1301). The Natural Environment.**

Geomorphic processes that shape the earth's surface; origin and evolution of landforms. Groundwater and water resources. Pedogenesis and soil properties. Three lecture hours and one and one-half laboratory hours a week for one semester, and a one-day field trip.

#### **GRG 301K (TCCN: GEOL 1347). Weather and Climate.**

A survey of meteorological phenomena and climatological processes of the earth. Three lecture hours a week for one semester.

#### **GRG 302P. Topics in Cultural Geography.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

#### **GRG 303P. Topics in Physical Geography.**

Three lecture hours or two lecture hours and one discussion hour a week for one semester. Additional hours may be required for some topics. Only one of the following may be counted unless the topics vary: Geography 303P, 304P, 309. May be repeated for credit when the topics vary.

#### **GRG 304E. Environmental Science: A Changing World.**

Surveys the major global environmental concerns affecting the Earth and its residents from the perspectives of the environmental sciences. Three lecture hours and one and one-half laboratory hours a week for one semester.

#### **GRG 304P. Topics in Geographical Methods.**

Three lecture hours or two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted unless the topics vary: Geography 303P, 304P, 309. May be repeated for credit when the topics vary.

#### **GRG 305 (TCCN: GEOG 1303). This Human World: An Introduction to Geography.**

Introductory survey of human geography, including human-environment relations, cultural patterns and processes, and geography's relation to other fields of study. Three lecture hours and one laboratory hour a week for one semester.

#### **GRG 306C. Conservation.**

Introduction to environmental management, with emphasis on the major causes and consequences of environmental degradation. The course is organized around the premise that people cannot solve environmental problems unless they know how and why they occur; a major objective is to identify and understand the sociocultural forces

that drive environmental degradation. Three lecture hours a week for one semester.

#### **GRG 307C. Introduction to Urban Studies.**

Same as Urban Studies 301. A multidisciplinary study of cities and complex urban environments; historical and contemporary issues from both national and international perspectives. Three lecture hours a week for one semester.

#### **GRG 308. Computer Cartography.**

An introduction to the computer languages, equipment, and techniques employed in modern automated cartography. Three lecture hours a week for one semester.

#### **GRG 309. Topics in Human Geography.**

Three lecture hours a week for one semester. Only one of the following may be counted unless the topics vary: Geography 303P, 304P, 309. May be repeated for credit when the topics vary.

#### **GRG 310C. Spatial Data and Analysis.**

Fundamental concepts in spatial data acquisition, analysis, and presentation, with emphasis on the needs of professionals in cartography, geographic information systems (GIS), and remote sensing. Three lecture hours a week for one semester.

#### **GRG 312. Maps and Map Interpretation.**

History of maps and mapping; types and uses; chief sources; reading and interpretation. Three lecture hours a week for one semester.

#### **GRG 319. Geography of Latin America.**

Same as Latin American Studies 319. Adaptations to population growth and spatial integration in cultural landscapes of great natural and ethnic diversity; problems of frontiers and cities. Three lecture hours a week for one semester.

#### **GRG 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Geography.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Geography and the Environment. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### Upper-Division Courses

#### **GRG 320K. Land and Life: The American Southwest.**

Historical geography of the southwestern United States, emphasizing the ways of life of American Indian, Spanish, mestizo, and Anglo cultures. Three lecture hours a week for one semester, with one field trip to be arranged. Prerequisite: Upper-division standing.

#### **GRG 323K. Geography of South America.**

Same as Latin American Studies 330 (Topic 3: Geography of South America). Ecological, cultural, and political challenges of the densely populated margins and sparsely populated interior frontier of South America; appropriate development and conservation pathways. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**GRG 325. Geography of Texas.**

Texas as an environmental and cultural borderland: as a transition zone between plains and mountains, humid and arid, South and West, Anglo-America and Latin America. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**GRG 326. Regions and Cultures of Europe.**

Spatial patterns in Europe, with emphasis on cultural, historical, and political geography. Three lecture hours a week for one semester. Only one of the following may be counted: Geography 326; 385 (Topic: Regions and Cultures of Europe); Russian, East European, and Eurasian Studies 345 (Topic 2: Regions and Cultures of Europe). Prerequisite: Upper-division standing.

**GRG 327. Geography of the Former Soviet Union.**

Same as Russian, East European, and Eurasian Studies 345 (Topic 4: Geography of the Former Soviet Union). A systematic introduction to cultural, physical, political, and economic geography of the former Soviet Union. Focus on the fundamental transformation that the former Socialist Union Republics, now sovereign states, have undergone since 1991. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**GRG 328. Geography of the Middle East.**

Same as Middle Eastern Studies 341 (Topic 1: Geography of the Middle East). Major elements of physical and social environment in the region extending from Egypt to Afghanistan. Three lecture hours a week for one semester. Only one of the following may be counted: Geography 328, Middle Eastern Studies 322K (Topic 3: Geography of the Middle East), 341 (Topic 1). Prerequisite: Upper-division standing.

**GRG 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Geography.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Geography and the Environment. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**GRG 331. Geography of Asia.**

Natural regions and cultural landscapes of Asia, excluding the former Soviet Union. Three lecture hours a week for one semester. Asian Studies 331 and Geography 331 may not both be counted. Prerequisite: Upper-division standing.

**GRG 331K. Cultural Ecology.**

Same as Anthropology 324L (Topic 17: Cultural Ecology). Long-term patterns and processes of conversion of planet Earth to the human home, including the emergence of humans, the achievement of control over the food supply, the emergence of civilizations, and globalization. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**GRG 333C. Severe and Unusual Weather.**

In-depth discussion of inclement weather phenomena (tornadoes, tropical cyclones, floods, drought) and their effects on human beings, as well as the climatology of those types of weather events. Three lecture hours a week for one semester, with additional field hours to be arranged. Prerequisite: Geography 301K.

**GRG 333K. Climate Change.**

Examines changes in climatic systems over both short and long time periods in relation to impacts on physical and ecological systems. Discusses past, present, and future changes in climatic conditions and the methods used to make those evaluations. Three lecture hours a week for one semester. Geography 333K and 356T (Topic: Climate Change) may not both be counted. Prerequisite: Upper-division standing and Geography 301C or 301K.

**GRG 334. Conservation, Resources, and Technology.**

Analysis of the relationship between the human population and its resource base, with particular emphasis on current problems in environmental resource management. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**GRG 334C. Environmental Hazards.**

Earth science processes that affect human activities: soil, erosion, flooding, slope stability, earthquakes, volcanism, and water resources and quality. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**GRG 334K. Soils.**

Morphology, genesis, properties, and distribution of world soils. Factors of soil formation. Three lecture hours a week for one semester. Prerequisite: Upper-division standing; and six semester hours of coursework in physical geography or one or more of the geological or natural sciences, or the equivalent.

**GRG 335C. Quaternary Landscapes.**

Changing physical and biotic landscapes on the Ice Age earth during the last two million years. Reconstruction of Quaternary geomorphic landscapes based on principles and applications of geochronology and paleoclimatology. Three lecture hours a week for one semester. Geography 335C and 385C may not both be counted. Prerequisite: Upper-division standing and Geography 301C.

**GRG 335K. Mountain Geocology.**

Geological evolution of mountains. Physical geography of mountains: climates, soils, vegetation, landforms and geomorphic processes. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and six semester hours of coursework in physical geography or one or more of the geological or natural sciences.

**GRG 335N. Landscape Ecology.**

The study of spatial patterns in the earth's biosphere found within landscapes, typically areas measured in square kilometers. Examines the processes that create those patterns, drawing from ecology, biogeography, and many other disciplines. Also explores the practical applications of landscape ecology to the study of natural environments and those managed or altered by human activities. Three lecture hours a week for one semester. Geography 335N and 356T (Topic: Landscape Ecology) may not both be counted. Prerequisite: Upper-division standing and three semester hours of coursework in physical geography or one of the geological or natural sciences.

**GRG 336. Contemporary Cultural Geography.**

Recent theoretical developments in cultural geography, with a focus on landscapes and the everyday practices that imbue them with meaning; the ways those meanings are contested and are the foci of struggle; and how the relationship between culture and space plays a central role in the social construction of identity. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **GRG 336C. National Parks and Protected Areas.**

The history, purpose, and meaning of national parks (and preserves, refuges, and other publicly protected natural areas), from their inception at Yellowstone in 1872 to their present global distribution. Emphasis is on key management issues and dilemmas in the parks today; and the adoption and modification of Western notions of nature preservation within non-Western cultural settings. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **GRG 337. The Modern American City.**

Same as Architecture 350R (Topic 1: The Modern American City) and Urban Studies 352 (Topic 1: The Modern American City). Issues facing residents of United States cities, such as transportation and housing, poverty and crime, metropolitan finance, environmental and architectural design; historical/comparative urban evolution. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **GRG 338C. Rivers and Landscapes: Fluvial Geomorphology.**

Drainage basin evolution and channel adjustment, variability of river systems in differing geomorphic regimes, relationships between fluvial systems and other components of physical geography, and the role of humans as geomorphic agents. Three lecture hours a week for one semester, with additional field hours to be arranged. Prerequisite: Upper-division standing; and Geography 301C or Geological Sciences 401, or the equivalent.

### **GRG 339. Process Geomorphology.**

Analysis of geomorphic processes and their effects on landform development. Three lecture hours a week for one semester. Prerequisite: Upper-division standing, and credit or registration for Geography 301C or Geological Sciences 401.

### **GRG 339C. Principles of Environmental Conservation.**

Environmental conservation issues, focusing on the factors that control the production and consumption of environment-based resources. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **GRG 339K. Environment, Development, and Food Production.**

Assessment of various types of agriculture with regard to environmental factors and management techniques. Three lecture hours a week for one semester. Geography 339K and 390S may not both be counted. Prerequisite: Upper-division standing.

### **GRG 340D. Political Ecology of Globalization and Environmental Degradation.**

Study of current environmental problems from the perspective of political ecology, which critically examines political, economic, and social relations between humans and the natural world. Uses case studies from Africa, Latin America, Asia, and the Middle East to address climate change, deforestation, desertification, biodiversity, and environmental justice. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **GRG 341K. Landscapes of Mexico and Caribbean America.**

Same as Latin American Studies 330 (Topic 2: Landscapes of Mexico and Caribbean America). The natural regions and cultural landscapes

of Mexico, Central America, and the West Indies. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **GRG 342C. Sustainable Development.**

Historical and contemporary analysis of international development with a focus on the prospects for environmental sustainability. Three lecture hours a week for one semester. Asian Studies 342C and Geography 342C may not both be counted. Prerequisite: Upper-division standing.

### **GRG 344K. Global Food, Farming, and Hunger.**

Examination of contemporary transformations in global agro-food systems, with emphasis on the current paradox of epidemic obesity in some parts of the world and enduring hunger in others. Three lecture hours a week for one semester. Geography 344K and 356T (Topic: Farming, Food, and Global Hunger) may not both be counted. Prerequisite: Upper-division standing.

### **GRG 346. The Human Use of the Earth.**

The state of the world from an ecological perspective. Case studies are drawn from a wide range of ecological settings and involve both traditional and modern societies. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **GRG 348C. Geography of South Asia.**

Same as Asian Studies 348C. Natural regions and cultural landscapes of South Asia. Agriculture, urban structure, issues of environment and development. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **GRG 350K. Geographies of Globalization.**

Examines the process of globalization by theoretically and empirically analyzing the rise of capitalism and industrial modernity, its evolution into a global system through methods such as colonization and free-trade imperialism, and its metamorphosis into the postmodern cultural, economic and political process known as globalization. Three lecture hours a week for one semester. Geography 350K and 356T (Topic: Introduction to Globalization) may not both be counted.

### **GRG 356. Topics in Environmental Geography.**

Topics include environmental assessment methods and techniques, the conservation movement, and climate and people. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

### **GRG 356C. Geo-Archaeology and Environmental History.**

Long-term ecology as reconstructed from settlement and land-use histories. Empirical case studies in environmental history from the Mediterranean region, the Near East, and Mesoamerica. Applications to degradation, desertification, sustainability, and global change. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 382N, Geography 356C, 382K. Prerequisite: Upper-division standing.

### **GRG 356T, 456T. Topics in Geography.**

Three or four lecture hours a week for one semester. Some topics may require additional field trips; these are identified in the Course Schedule. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: The Culture of Cities.** Geography 356T (Topic 1) is same as American Studies 370 (Topic 13: The Culture of Cities) and Urban Studies 354 (Topic 4: The Culture of Cities). Examines the social, geographical, and cultural evolution of the United States from

a rural and small-town society to an urban and suburban nation. Subjects may include the segregation of public and private space; the formation of urban subcultures organized by gender, work, race, religion, and sexuality; social and spatial divisions between rich and poor and native-born and immigrant; and the increasing importance of "cultural capital" in reshaping urban politics and in conflicts over revitalization and gentrification. Prerequisite: Upper-division standing.

**Topic 2: Memory and Place.** Geography 356T (Topic 2) is same as American Studies 370 (Topic 23: Memory and Place). Explores how cultural memory is produced in its various forms, from memorials, public art, and commodities to popular culture, rituals, and museums, and how public remembering is inevitably anchored in specific geographic places. Prerequisite: Upper-division standing.

**Topic 3: Geographical Information Systems and Remote Sensing for Archaeology and Paleontology.** Geography 356T (Topic 3) is same as Anthropology 324L (Topic 33: Geographical Information Systems and Remote Sensing for Archaeology and Paleontology). Designed to give students interested in the fields of archaeology, physical anthropology, and paleontology a foundation in the use of geographical information systems (GIS) and the analysis of remotely sensed data from satellites and aerial photographs. Prerequisite: Upper-division standing.

### **GRG 357. Medical Geography.**

The geographic distribution, expansion, and contraction of the infectious diseases that have the greatest influence in shaping human societies today: malaria, AIDS, and others. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **GRG 358. Cities in Developing Countries.**

Comparative analysis of demographic, social, economic, and political features of cities in Latin America, the Middle East, Asia, and Africa; emphasis on regional imbalance, migration, occupational and social stratification, housing the poor, and suburbanization. Possibilities for individual research. Three lecture hours a week for one semester. Asian Studies 358 and Geography 358 may not both be counted. Prerequisite: Upper-division standing.

### **GRG 358E. Geography and Religion.**

Same as Humanities 350 (Topic 3: Geography and Religion). Ideas about the relationships among the natural world, myth, and ritual; principal focus on Christianity, Islam, and Judaism and their offshoots and antagonists in the Western world. Three lecture hours a week for one semester. Only one of the following may be counted: Geography 358E, Humanities 350 (Topic 3), Middle Eastern Studies 322K (Topic 15: Geography and Religion). Prerequisite: Upper-division standing.

### **GRG 460C. The Geographer's Craft.**

A comprehensive introductory survey of research techniques used in contemporary geography. The course uses the problem-solving approach to teach technical skills and concepts drawn from cartography, remote sensing, geographical information systems, spatial statistics, and maps and map interpretation. Three lecture hours and one and one-half laboratory hours a week for one semester.

### **GRG 360G. Environmental Geographic Information Systems.**

An introduction to the creation and use of geographic information systems. Three lecture hours and two discussion hours a week for one semester. Prerequisite: Geography 310C.

### **GRG 360L. Spatial Analysis.**

Application of statistical techniques to spatial problems: research and experimental design, hypothesis testing and sampling, with reference to spatial patterns and areal associations. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **GRG 462K. Introduction to Remote Sensing of the Environment.**

The use of electromagnetic energy to sense objects in the natural environment; interpretation and recognition of patterns detected by sensors. Three lecture hours and one and one-half laboratory hours a week for one semester. Prerequisite: Upper-division standing.

### **GRG 464K. Advanced Remote Sensing and Pattern Analysis.**

Advanced classification techniques for satellite image processing and landscape pattern analysis. Three lecture hours and one and one-half discussion hours a week for one semester. Geography 356 (Topic: Advanced Remote Sensing and Pattern Analysis) and 464K may not both be counted. Prerequisite: Upper-division standing, and Geography 462K or the equivalent or consent of instructor.

### **GRG 366C. Comparative Ecosystems.**

The important ecosystem processes that affect the distributions, characteristics, and management of natural environments at landscape, regional, and continental scales. Ecosystem functions, including nutrient cycling, water balance, and the role of natural disturbances in a wide range of ecosystems, from the tundra to the rain forests and grasslands of the tropics. Three lecture hours a week for one semester. Geography 356T (Topic: Comparative Ecosystems) and 366C may not both be counted. Prerequisite: Upper-division standing and three semester hours of coursework in physical geography or one of the geological or natural sciences.

### **GRG 366K. Biogeography.**

Contemporary patterns of plant and animal distribution, and the environmental and historical processes affecting them. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and three semester hours of coursework in physical geography or one of the geological or natural sciences.

### **GRG 367K. Vegetation Ecology.**

Plant autecology and synecology. Ecological factors and processes of plant communities. Vegetation geocology, succession, and dynamics. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and six semester hours of coursework in physical geography or one or more of the geological or natural sciences.

### **GRG 368C. Spatial Analysis and Geographic Information Systems.**

Addresses spatial problem solving by focusing on both the theoretical/conceptual and practical aspects of geographic information systems modeling. Describes geographic information systems techniques and spatial statistics used to quantify and measure spatial patterns. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and credit or registration for Geography 360G.

### **GRG 470C. Advanced Geographic Information Systems.**

Study of methods of spatial analysis, design and implementation of a geographic information system, vector and raster modeling, and advanced applications of geographic information systems. Three

lecture hours and one and one-half laboratory hours a week for one semester. Prerequisite: Geography 360G and consent of instructor.

### **GRG 373F. Field Techniques.**

Introduction to the collection and mapping of environmental and cultural data, involving both classroom lectures and outdoor exercises. Three lecture hours a week for one semester. Prerequisite: Upper-division standing, a major in geography, and consent of instructor.

### **GRG 373K. Field Methods for Landscape Characterization.**

The design of research questions and the acquisition of data for the characterization of landscapes. Utilizes geographical and ecological field-based methods. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and Geography 301C or the equivalent.

### **GRG 374. Frontiers in Geography.**

Restricted to geography majors and students seeking a secondary school teaching certificate with geography as the second teaching field. Current concerns and methodology in the field of geography; an introduction to theory and research in geography. The equivalent of three lecture hours a week for one semester, with one field trip to be arranged. Prerequisite: Upper-division standing and consent of the undergraduate adviser.

### **GRG 476T. Topics in Geography.**

Three lecture hours and one and one-half laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

### **GRG 679H. Honors Tutorial Course.**

For honors candidates in geography. Individual reading of selected works for one semester, followed in the second semester by the writing of an honors thesis. Regular conferences with the faculty supervisor are also required. Conference course for two semesters. Prerequisite: For 679HA, admission to the Geography Honors Program no later than two semesters before expected graduation; for 679HB, Geography 679HA. A University grade point average of at least 3.00 and a grade point average in geography of at least 3.50 are required for admission to the Geography Honors Program.

### **GRG 379K. Conference Course.**

Supervised individual study of selected problems in geography. Conference course. May be repeated for credit. Prerequisite: Six semester hours of upper-division coursework in one or more of the social, geological, or natural sciences; and consent of instructor.

### **GRG 379L. Practicum: Internships in Applied Geography.**

Research and staff experience working in an appropriate government agency or private business. At least six but no more than nine hours of work a week for one semester. Prerequisite: Completion of at least seventy semester hours of coursework, including twelve semester hours of geography, and consent of the undergraduate adviser.

## **Urban Studies: URB**

### **Lower-Division Courses**

#### **URB 301. Introduction to Urban Studies.**

Same as Geography 307C. A multidisciplinary study of cities and complex urban environments; historical and contemporary issues from

both national and international perspectives. Three lecture hours a week for one semester.

#### **URB 305. Introductory Topics in Urban Studies.**

An introduction to urban studies within the framework of different disciplines. Topics include urban history, urban education, politics and governance, economics, design and planning, and society and culture. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

#### **URB 315. Urban Studies Research Methods.**

An introduction to urban studies research methodologies. Includes sources of urban data, the use of the library in urban research, formulating research questions, research design, methods commonly used in urban research, the use of computers to store and manipulate quantitative urban data, and an introduction to data analysis and theoretical and practical applications of urban research. Three lecture hours a week for one semester. Prerequisite: Mathematics 408C or 408K with a grade of at least C-; Mathematics 316 or Statistics and Scientific Computation 305 with a grade of at least C-; and Urban Studies 301.

### **Upper-Division Courses**

#### **URB 325. Special Topics in Urban Studies.**

Three lecture hours a week for one semester. Additional hours may be required for some topics; these are identified in the Course Schedule. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

#### **URB 350. Topics in Urban Politics and Governance.**

The basic political and administrative structures of cities and metropolitan regions, including problems associated with local and regional government. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Urban Politics.** Same as Government 370L (Topic 11: Urban Politics). Prerequisite: Six semester hours of lower-division coursework in government.

#### **URB 351. Topics in Urban Economics.**

Urban economics and the application of economic analysis to urban concerns, including economic development, urbanization, urban form, public finance, and competition. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Development Problems and Policies in Latin America.** Same as Economics 355 and Latin American Studies 355 (Topic 1: Development Problems and Policies in Latin America). Description of the Latin American economy; business and market organization; problem of growth (involving credit, public finance, trade, investment aspects). Prerequisite: Economics 304K and 304L with a grade of at least C- in each.

**Topic 2: Urban Economics.** Same as Economics 334K. Economic analysis of urban areas; emphasis on the nature of current urban problems--slums, transportation, finance--and an evaluation of current policy. Prerequisite: Economics 420K with a grade of at least C-.

**Topic 3: Regional Economics.** Same as Economics 334L. Spatial aspects of economics, including concepts, theories, and policy

applications. Prerequisite: Economics 420K with a grade of at least C-.

### **URB 352. Topics in Urban Design and Planning.**

Issues concerning the built environment and urban infrastructure, environmental sustainability, and the public policy framework designed to manage the challenges presented by these issues. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: The Modern American City.** Same as Architecture 350R (Topic 1: The Modern American City) and Geography 337. Issues facing residents of United States cities, such as transportation and housing, poverty and crime, metropolitan finance, environmental and architectural design; historical/comparative urban evolution. Prerequisite: Upper-division standing.

**Topic 2: American Dream: Status Quo and Alternatives.** Same as Architecture 350R (Topic 2: American Dream: Status Quo and Alternatives).

**Topic 3: Urban Design Practice.** Same as Architecture 350R (Topic 3: Urban Design Practice).

**Topic 4: Economy/Value/Quality of Life.** Same as Architecture 350R (Topic 4: Economy/Value/Quality of Life).

**Topic 5: Modernism in American Design and Architecture.** Same as American Studies 330 and Art History 367 (Topic 3: Modernism in American Design and Architecture). A historical survey of artifacts, buildings, and urban environments, focusing on responses to machine-age civilization. Prerequisite: Upper-division standing.

### **URB 353. Topics in Urban History.**

The historical evolution of cities, contemporary urban development trends, and the links between social development and physical form. Three lecture hours a week for one semester. Some topics partially fulfill legislative requirement for American history. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: African American History since 1860.** Same as American Studies 321F, African and African Diaspora Studies 357D, and History 357D. Survey of the history of African Americans in the United States from 1860 to the present: Emancipation, Reconstruction politics, migration and urbanization, and the evolution of African American culture; kinds of sources and methods valuable for analyzing African American life and culture. Only one of the following may be counted: African and African Diaspora Studies 357D, American Studies 321 (Topic: African American History since 1860), 321F, History 357D, Urban Studies 353 (Topic 1). Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing.

**Topic 2: Texas, 1914 to the Present.** Same as History 320R and Mexican American Studies 374 (Topic 16: Texas, 1914 to the Present). The steady dissociation of Texas from its Old South status to a transitional state and a power in national politics. Three semester hours of Texas history may be substituted for half of the legislative requirement for American history. Prerequisite: Upper-division standing.

**Topic 5: Environmental History of North America.** Same as American Studies 329 and History 350R (Topic 7: Environmental History of North America). The history of humanity's influence on the plants, animals, microlife, soils, water, and air of North America, and vice versa, from the arrival of the proto-Indians to the contemporary environmental crisis. Only one of the following may be counted:

American Studies 329, History 350L (Topic 4: Environmental History of North America), 350R (Topic 7), Urban Studies 353 (Topic 5). Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing and six semester hours of coursework in history.

### **URB 354. Topics in Urban Society and Culture.**

Topics on the social and cultural diversity within cities; social policies; and the sociocultural impact of the media and other institutions on urban development. Three lecture hours a week for one semester. Some topics partially fulfill legislative requirement for American history. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 2: Society of Modern Mexico.** Same as Latin American Studies 325 (Topic 1: Society of Modern Mexico) and Sociology 335. Family, community, industrialization, and urbanization in modern Mexico.

**Topic 4: The Culture of Cities.** Same as American Studies 370 (Topic 13: The Culture of Cities) and Geography 356T (Topic 1: The Culture of Cities). Examines the social, geographical, and cultural evolution of the United States from a rural and small-town society to an urban and suburban nation. Subjects may include the segregation of public and private space; the formation of urban subcultures organized by gender, work, race, religion, and sexuality; social and spatial divisions between rich and poor and native-born and immigrant; and the increasing importance of "cultural capital" in reshaping urban politics and in conflicts over revitalization and gentrification. Prerequisite: Upper-division standing.

**Topic 6: The City and Urbanization.** Same as Sociology 346. Examination of urbanization from a cross-national perspective: discrimination and racial inequality in urban labor markets. Prerequisite: Upper-division standing.

**Topic 7: Vienna: Memory and the City.** Same as American Studies 370 (Topic 41: Vienna: Memory and the City), European Studies 346 (Topic 5: Vienna: Memory and the City), and History 362G (Topic 2: Vienna: Memory and the City). Examines the ways in which cultural memory has shaped, and continues to shape, urban life in Vienna, Austria. Only one of the following may be counted: American Studies 315 (Topic: Vienna: Memory and the City), 370 (Topic 41), European Studies 301 (Topic: Vienna: Memory and the City), 306 (Topic: Vienna: Memory and the City), 346 (Topic 5), Geography 309 (Topic: Vienna: Memory and the City), Germanic Civilization 311 (Topic: Vienna: Memory and the City), History 306N (Topic: Vienna: Memory and the City), 362G (Topic 2), Urban Studies 305 (Topic: Vienna: Memory and the City), 354 (Topic 7). Prerequisite: Upper-division standing.

### **URB 360. Internship and Service Learning.**

Internship experience in an urban studies-related public or nonprofit agency. Students have the opportunity to apply the knowledge, theory, and understanding gained from courses in their areas of specialization to urban issues in a professional setting. Includes an academic service-learning component. Approximately five to ten hours a week for one semester. Prerequisite: Urban Studies 301 and 315, and upper-division standing or consent of instructor.

### **URB 370. Senior Project.**

Students identify an urban issue, develop a position paper, and work closely with a faculty adviser on a project. Students may use text or other media (such as video or portfolio) to present their arguments. The equivalent of three lecture hours a week for one semester.

Prerequisite: Upper-division standing, and Urban Studies 301, 315, and 360 with a grade of at least C in each.

### **URB 379. Conference Course.**

Supervised individual study of selected problems in urban studies. Conference course. Prerequisite: Upper-division standing and consent of instructor and the undergraduate adviser.

### **URB 679H. Honors Tutorial Course.**

Directed reading and research or creation of an honors project, followed by the writing of a thesis. Conference course for two semesters. Prerequisite: For 679HA, admission to the Urban Studies Honors Program and consent of the urban studies adviser; for 679HB, Urban Studies 679HA.

## **Department of Germanic Studies**

Students with knowledge of German must take a placement test before registering for a German course. Students with transfer credit are strongly encouraged to take a placement test. The lower-division placement test consists of the SAT Subject Test in German with a listening component, with additional questions from the Department of Germanic Studies. The student may earn credit through this examination for any German language course currently offered; the examination also helps the student and the adviser determine with which course the student should begin the study of German at the University. Credit for German 328, and 330C or 331L, may also be earned by special examination. Information about these tests is available from the departmental undergraduate adviser and from the Center for Teaching and Learning, 2616 Wichita.

A student with no knowledge of German may take any beginning German language course. Graduate students preparing for the doctoral reading examination may take German 301.

Before enrolling for the first time in any other language offered in the Department of Germanic Studies, all students with knowledge of that language, however acquired, must be tested to determine the course for which they should register. Information about placement tests is available from the departmental undergraduate adviser.

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 627).

## **Danish: DAN**

### **Lower-Division Courses**

#### **DAN 604. Accelerated First-Year Danish.**

Six lecture hours a week for one semester, with optional laboratory available. Prerequisite: Two high school units or the equivalent in another foreign language, or consent of instructor.

#### **DAN 612. Accelerated Second-Year Danish.**

Six lecture hours a week for one semester, with optional laboratory available. Prerequisite: Danish 604 or an appropriate score on the placement test.

#### **DAN 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Danish.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Germanic Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded in an affiliated studies program. May be repeated for credit when the topics vary.

### **Upper-Division Courses**

#### **DAN 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Danish.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Germanic Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

## **Dutch: DCH**

### **Lower-Division Courses**

#### **DCH 604. Accelerated First-Year Dutch.**

Six lecture hours a week for one semester, with optional laboratory available. Prerequisite: Two high school units or the equivalent in another foreign language, or consent of instructor.

#### **DCH 612. Accelerated Second-Year Dutch.**

Six lecture hours a week for one semester, with optional laboratory available. Prerequisite: Dutch 604 or an appropriate score on the placement test.

#### **DCH 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Dutch.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Germanic Studies. University credit is awarded for work in an exchange program; may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **Upper-Division Courses**

#### **DCH 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Dutch.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Germanic Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **DCH 375. Studies in Dutch Literature.**

Selected topics in Dutch and Flemish literature. Conducted in Dutch. Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Dutch 612 or the equivalent, and consent of instructor.

### **DCH 379. Conference Course in Dutch Language or Literature.**

Supervised individual study of selected problems in Dutch language or literature. Conference course. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

## **German: GER**

### **Lower-Division Courses**

#### **GER 301. German for Graduate Students in Other Departments.**

No auditors. Beginning reading course for students preparing to fulfill language requirement for advanced degrees. Emphasis on grammar, vocabulary, and translation. Three lecture hours a week for one semester. May not be used to fulfill the undergraduate foreign language requirement. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

#### **GER 601C. Beginning German.**

Not open to native speakers of German. An introduction to the German language and the cultures of the German-speaking countries. Focuses on development of vocabulary, grammatical knowledge, reading, writing, listening, and speaking abilities in a contemporary cultural context. Six lecture hours a week for one semester. Only one of the following may be counted: German 601C, 604, 506. Only one of the following may be counted: German 601C, 604, 507, 507R, 508K.

#### **GER 604. Accelerated First-Year German.**

Covers the same material as German 506 and 507. Six lecture hours a week for one semester, with optional laboratory available. Only one of the following may be counted: German 601C, 604, 506. Only one of the following may be counted: German 601C, 604, 507, 507R, 508K. Prerequisite: Two high school units or the equivalent in another foreign language, or consent of instructor.

#### **GER 305. German for Graduate Students in Other Departments.**

No auditors. Advanced reading. Emphasis on grammar, vocabulary, and translation. Three lecture hours a week for one semester. Fulfills the foreign language requirement for the Doctor of Philosophy degree in some departments. May not be used to fulfill the undergraduate foreign language requirement. Offered on the credit/no credit basis only. Prerequisite: Graduate standing, and German 301 or equivalent knowledge.

#### **GER 506 (TCCN: GERM 1511). First-Year German I.**

Basic training in grammatical patterns and usage of modern German. Five lecture hours a week for one semester. Only one of the following may be counted: German 601C, 604, 506.

#### **GER 507 (TCCN: GERM 1512). First-Year German II.**

Advanced training in grammatical patterns and usage of modern German. Five lecture hours a week for one semester. Only one of

the following may be counted: German 601C, 604, 507, 507R, 508K. Prerequisite: German 506 with a grade of at least C.

#### **GER 507R. Intensive First-Year German II.**

German 507R covers the same material as 507 but is offered only in the spring as part of the Intensive German Program. Students in this program must take German 507R, 312R, and 312S during the same spring semester; they must register for all three courses at or before the beginning of the semester and must earn a grade of at least C in each course to take the next course in the sequence. Credit is given for each course in the sequence only if the student completes the entire sequence. The Intensive German Program meets for eleven hours a week for one semester. Only one of the following may be counted: German 601C, 604, 507, 507R, 508K. Prerequisite: Completion in residence of German 506 and consent of the undergraduate adviser.

#### **GER 508K. Alternate First-Year German II.**

Reviews grammar, pronunciation, and reading skills; for students with beginning preparation below the average provided by German 506. Five lecture hours a week for one semester. Only one of the following may be counted: German 601C, 604, 507, 507R, 508K. Prerequisite: Two high school units of German or transfer credit for German 506, and appropriate score on the placement test.

#### **GER 310. Conversation and Composition.**

Conducted in German. Intended to develop the ability to use German correctly and idiomatically in conversation and in compositions of gradually increasing difficulty. Three class hours a week for one semester. Fulfills fourth-semester language proficiency requirement. Prerequisite: German 312K or 312V with a grade of at least C. With consent of the German undergraduate adviser, may be taken concurrently with German 312K or 312V.

#### **GER 611C. Intermediate German.**

Not open to native speakers of German. Continuation of German 601C. Development of vocabulary, grammatical knowledge, and reading, writing, listening, and speaking abilities in a contemporary cultural context. Six lecture hours a week for one semester. Only one of the following may be counted: German 611C, 612, 312K, 312R, 312V. Only one of the following may be counted: German 611C, 612, 312L, 312S, 312W. Prerequisite: German 601C, 604, 507, or 508K with a grade of at least C.

#### **GER 612. Accelerated Second-Year German: Readings in Modern German.**

Grammar review, composition, readings and recitation, discussion of literary works, and German culture. Six lecture hours a week for one semester. Only one of the following may be counted: German 611C, 612, 312K, 312R, 312V. Only one of the following may be counted: German 611C, 612, 312L, 312S, 312W. Prerequisite: German 604, 507, or 508K with a grade of at least C.

#### **GER 312K (TCCN: GERM 2311). Second-Year German I: Readings in Humanities and Social Sciences.**

Three lecture hours a week for one semester. Only one of the following may be counted: German 611C, 612, 312K, 312R, 312V. Prerequisite: German 604, 507, or 508K with a grade of at least C.

**GER 312L (TCCN: GERM 2312). Second-Year German II: Readings in Humanities and Social Sciences.**

Three lecture hours a week for one semester. Only one of the following may be counted: German 611C, 612, 312L, 312S, 312W. Prerequisite: German 312K or 312V with a grade of at least C.

**GER 312R. Intensive Second-Year German: Oral and Written Expression and Reading Skill.**

German 312R covers the same material as 312K but is offered only in the spring as part of the Intensive German Program. Students in this program must take German 507R, 312R, and 312S during the same spring semester; they must register for all three courses at or before the beginning of the semester and must earn a grade of at least C in each course to take the next course in the sequence. Credit is given for each course in the sequence only if the student completes the entire sequence. The Intensive German Program meets for eleven hours a week for one semester. Only one of the following may be counted: German 611C, 612, 312K, 312R, 312V. Prerequisite: Completion in residence of German 506 and consent of the undergraduate adviser.

**GER 312S. Intensive Second-Year German II: Readings in Humanities and Social Sciences.**

German 312S covers the same material as 312L but is offered only in the spring as part of the Intensive German Program. Students in this program must take German 507R, 312R, and 312S during the same spring semester; they must register for all three courses at or before the beginning of the semester and must earn a grade of at least C in each course to take the next course in the sequence. Credit is given for each course in the sequence only if the student completes the entire sequence. The Intensive German Program meets for eleven hours a week for one semester. Only one of the following may be counted: German 611C, 612, 312L, 312S, 312W. Prerequisite: Completion in residence of German 506 and consent of the undergraduate adviser.

**GER 312V. Second-Year German I: Business German.**

German 312V covers the same material as 312K, but with readings, discussions, and exercises that focus on the business world. Emphasis on practical, career-oriented competence. Three lecture hours a week for one semester. Only one of the following may be counted: German 611C, 612, 312K, 312R, 312V. Prerequisite: German 604, 507, or 508K with a grade of at least C.

**GER 312W. Second-Year German II: Business German.**

German 312W covers the same material as 312L, but with readings, discussions, and exercises that focus on the business world. Emphasis on practical, career-oriented competence. Three lecture hours a week for one semester. Only one of the following may be counted: German 611C, 612, 312L, 312S, 312W. Prerequisite: German 312K or 312V with a grade of at least C.

**GER 317C. Advanced Intermediate German.**

Not open to native speakers of German. Designed to prepare students with credit for German 611C for upper-division German language courses. Special focus on text and media literacy, advanced oral language practice, debate and writing, and accuracy. Three lecture hours a week for one semester. Prerequisite: German 611C with a grade of at least C.

**GER 118C, 218C. Practice in Spoken German.**

Conducted in German. Recommended for all German majors. For each semester hour of credit earned, one class hour a week for one semester. May not be counted toward a German major or minor. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. May be repeated for credit. Prerequisite: German 310, 312L, 612, or the equivalent with a grade of at least C.

**GER 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in German.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Germanic Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**Upper-Division Courses**

**GER 328. Advanced German Grammar.**

Description of German sounds, grammatical structures, pronunciation, word formation. Three lecture hours a week for one semester. Prerequisite: German 310, 612, 312L, 312S, 312W, or 317C with a grade of at least C.

**GER 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in German.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Germanic Studies. University credit is awarded to work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**GER 330C. Advanced Conversation and Composition: Culture.**

German cultural material from print and visual media provides the basis for advanced conversation and composition, with considerable practice in the writing of short essays in German. Three lecture hours a week for one semester. Only one of the following may be counted: German 330C or 331L. Prerequisite: German 310, 612, 312L, 312S, 312W, or 317C with a grade of at least C.

**GER 130D. German across Disciplines.**

Students read and discuss German language materials related to the subject matter of another designated course. One lecture hour a week for one semester. May be repeated for credit. Prerequisite: Three semester hours of upper-division coursework in German with a grade of at least C.

**GER 331L. Advanced Conversation and Composition: Literature.**

German literary material from print and visual media provides the basis for advanced conversation and composition, with considerable practice in the writing of short essays in German. Three lecture hours a week for one semester. Only one of the following may be counted: German 330C or 331L. Prerequisite: German 310, 612, 312L, 312S, 312W, or 317C with a grade of at least C.

### **GER 336W. Advanced Business German I.**

Development of proficiency through readings, discussions, and assignments based on materials dealing with the German economic system and Germany's role in international trade. Emphasis on practical, job-related competence in business German. Taught in German. Three lecture hours a week for one semester. Normally meets with International Business 372 (Topic 7: Advanced Business German). Only one of the following may be counted: German 336W, or International Business 372 (Topic 7: Advanced Business German). Prerequisite: German 310, 612, 312L, 312S, 312W, or 317C with a grade of at least C.

### **GER 340C. Historical Backgrounds of German Civilization.**

Cultural, social, and literary history of German-speaking Europe of the Middle Ages. Studies humanism, the Reformation, absolutism, and the early Enlightenment (between 1200 and 1750). Taught in German. Three lecture hours a week for one semester. Prerequisite: Three semester hours of upper-division coursework in German with a grade of at least C.

### **GER 343C. Contemporary German Civilization.**

Cultural, social, and literary history of Germany between 1900 and reunification. Taught in German. Three lecture hours a week for one semester. Prerequisite: Three semester hours of upper-division coursework in German with a grade of at least C.

### **GER 345L. German Literature between the Beginnings and the Baroque.**

Three lecture hours a week for one semester. Prerequisite: Six semester hours of upper-division coursework in German.

### **GER 346L. German Literature between the Enlightenment and the Present.**

Cultural, social, and literary history of German-speaking Europe between 1750 and 1900. Taught in German. Three lecture hours a week for one semester. Prerequisite: Three semester hours of upper-division coursework in German with a grade of at least C.

### **GER 347L. Language and Society in the German-speaking Countries.**

Uses language and linguistics to study the culture and society of the German-speaking countries. Taught in German. Three lecture hours a week for one semester. Prerequisite: Three semester hours of upper-division coursework in German with a grade of at least C.

### **GER 348D. German Play: Student Production.**

Discussion, staging, and production of a German play. Three hours of lecture or laboratory a week for one semester. Prerequisite: German 310, 612, 312L, or the equivalent with a grade of at least C.

### **GER 149T, 249T, 349T. Introduction to Teaching German.**

Supervised individual instruction designed to offer students an introduction to principles of foreign language education and the opportunity to teach German in local elementary schools. Weekly class meetings for four weeks, followed by one, two, or three student teaching hours a week for eight weeks. Additional class meetings may also be required. May be repeated for credit, but no more than three semester hours may be counted toward a degree in the College of Liberal Arts. May not be counted toward a major in German. Prerequisite: Credit or registration for German 312L or the equivalent.

### **GER 356W. Advanced Business German II.**

Readings, discussions, and assignments based on material dealing with key areas of German business such as management and corporate hierarchies. Preparation for the German Certificate for Professional Purposes. Recommended for students planning a career in international business. Taught in German. Three lecture hours a week for one semester. German 356W and International Business 372 (Topic 6: Business German) may not both be counted. Prerequisite: Three semester hours of upper-division coursework in German with a grade of at least C.

### **GER 363K. Topics in German Culture.**

Study of selected aspects of Germanic civilization, such as science and philosophy, fine arts, film, history, social institutions. Conducted in German. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Six semester hours of upper-division coursework in German.

### **GER 366K. Practicum in German Stylistics.**

Three lecture hours a week for one semester. Prerequisite: German 328 (or 356), and three additional semester hours of upper-division coursework in German.

### **GER 369. Topics in Germanic Languages.**

Introduction to the phonology, morphology, syntax, dialectology, or lexicography of individual Germanic languages. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Six semester hours of upper-division coursework in German, or fourteen hours of coursework in German and six hours of coursework in linguistics

**Topic 1: The Structure of the German Language.** German 369 (Topic 1) and Linguistics 373 (Topic 6: The Structure of the German Language) may not both be counted.

**Topic 4: The German Language: Historical Perspectives.** Same as Anthropology 320L (Topic 9: The German Language: Historical Perspectives), Classical Civilization 348 (Topic 9: The German Language: Historical Perspectives), and Linguistics 373 (Topic 9: The German Language: Historical Perspectives). Only one of the following may be counted: Anthropology 320L (Topic 8: German and English: Historical Perspectives), 320L (Topic 9), Classical Civilization 348 (Topic 8: German and English: Historical Perspectives), 348 (Topic 9), German 369 (Topic 4), Germanic Civilization 327E (Topic 9: German and English: Historical Perspectives), Linguistics 373 (Topic 8: German and English: Historical Perspectives), 373 (Topic 9). Prerequisite: Six semester hours of upper-division coursework in German, or fourteen hours of coursework in German and six hours of coursework in linguistics.

**Topic 7: Translation I.**

**Topic 8: Translation II.**

### **GER 373. Topics in Germanic Literature.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Six semester hours of upper-division coursework in German.

**Topic 1: German Short Prose.** The linguistic, stylistic, and thematic varieties of short prose (anecdotes, meditations, fables, parables, reports, impressions, and sketches) seen through translation, critical discussion, and literary-historical contextualization.

**Topic 2: German Folktale and Fantasy Tale.**

### **GER 179, 279, 379. Conference Course in Germanic Language or Literature.**

Supervised individual instruction course in which students engage in special studies necessary to expand their acquaintance with any subject in Germanic languages or literature. Conference course. May be repeated for credit. Prerequisite: Six semester hours of upper-division coursework in German.

### **GER 679H. Honors Tutorial Course.**

Supervised individual research on a literary or linguistic problem, culminating in an honors paper of some length. Conference course for two semesters. Prerequisite: For 679HA, upper-division standing, six semester hours of upper-division German, a University grade point average of at least 3.00, a grade point average in German of at least 3.50, and admission to the Germanic Studies Honors Program; for 679HB, German 679HA.

## **Germanic Civilization: GRC**

### **Lower-Division Courses**

#### **GRC 301. Introductory Topics in Germanic Civilization.**

Introduction to Germanic literary and cultural history. Conducted in English. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

#### **GRC 311. Topics in Germanic Literature and Culture.**

Conducted in English. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

##### **Topic 2: Movies Go To War, from World War I to Vietnam.**

Same as American Studies 315C. Only one of the following may be counted: American Studies 315 (Topic: Movies Go To War, World War I to Vietnam), 315C, Germanic Civilization 311 (Topic 2), Science, Technology, and Society 311 (Topic: Movies Go To War, World War I to Vietnam).

#### **GRC 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Germanic Civilization.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Germanic Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies course. May be repeated for credit when the topics vary.

Prerequisite: For English majors, Rhetoric and Writing 306 and English 316K or their equivalents, and three additional semester hours of lower-division coursework in either English or rhetoric and writing; for others, upper-division standing.

**Topic 7: German Cultural History.** Restricted to students enrolled in the University of Wuerzburg Summer Program. Excursions, library research, and exposure to a German viewpoint on contemporary European affairs. The equivalent of four lecture hours a week for one semester. Taught in Wuerzburg, Germany.

**Topic 9: German and English: Historical Perspectives.** Same as Anthropology 320L (Topic 8: German and English: Historical Perspectives), Classical Civilization 348 (Topic 8: German and English: Historical Perspectives), and Linguistics 373 (Topic 8: German and English: Historical Perspectives). Only one of the following may be counted: Anthropology 320L (Topic 8), 320L (Topic 9: The German Language: Historical Perspectives), Classical Civilization 348 (Topic 8), 348 (Topic 9: The German Language: Historical Perspectives), German 369 (Topic 4: The German

Language: Historical Perspectives), Germanic Civilization 327E (Topic 9), Linguistics 373 (Topic 8), 373 (Topic 9: The German Language: Historical Perspectives). Prerequisite: For English majors, completion of at least thirty semester hours of coursework, including English 316K or the equivalent; for others, upper-division standing.

**Topic 10: Birgitta, Hildegard, and Margery.** Same as Scandinavian 373 (Topic 8: Birgitta, Hildegard, and Margery). Only one of the following may be counted: English 322 (Topic: Birgitta, Hildegard, and Margery), European Studies 361 (Topic: Birgitta, Hildegard, and Margery), Germanic Civilization 327E (Topic 10), Religious Studies 357 (Topic: Birgitta, Hildegard, and Margery), Scandinavian 373 (Topic 4), Women's and Gender Studies 340 (Topic: Birgitta, Hildegard, and Margery).

**Topic 11: Language, Culture, and the Texas German**

**Experience.** Only one of the following may be counted: American Studies 370 (Topic: Language, Culture, and the Texas German Experience), Anthropology 324L (Topic: Language, Culture, and the Texas German Experience), Germanic Civilization 327E (Topic 11), Linguistics 350 (Topic: Language, Culture, and the Texas German Experience). Prerequisite: Upper-division standing.

**Topic 12: Midnight Sun People: The Sami.** Same as Religious Studies 357 (Topic 4: Midnight Sun People: The Sami) and Scandinavian 327 (Topic 10: Midnight Sun People: The Sami). Only one of the following may be counted: Anthropology 324L (Topic: Midnight Sun People), English 322 (Topic: Midnight Sun People), Germanic Civilization 327E (Topic 12), Religious Studies 357 (Topic 4), Scandinavian 327 (Topic 10).

**GRC 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Germanic Civilization.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Germanic Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**GRC 332. Preparation for Work and Study Abroad.**

Open to students of all languages who are interested in working or studying abroad. Preparation for the cross-cultural experience of international exchange and the problems that may occur in adjusting to a new culture, host family, or work or study abroad situation. Taught in English. Three lecture hours a week for one semester. May not be counted toward a German major or minor. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. Prerequisite: Consent of instructor.

**GRC 340E. Introduction to Germanic Civilization.**

Examination of the early Germanic peoples, their myths, religions, migrations, from a cultural and historical perspective. Taught in English. Three lecture hours a week for one semester. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. May not be counted toward a major in German. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Introduction to Germanic Religion and Myth.** Same as European Studies 347 (Topic 3: Introduction to Germanic Religion and Myth) and Religious Studies 365 (Topic 2: Introduction to Germanic Religion and Myth). Only one of the following may be counted: English 322 (Topic 2: Introduction to Germanic

Religion and Myth), European Studies 347 (Topic 3), 361 (Topic 6: Introduction to Germanic Religion and Myth), Germanic Civilization 340E (Topic 1). Prerequisite: Upper-division standing.

**GRC 360E. Seminar in Politics and Culture.**

Analysis of specific aspects of German, Swiss, Austrian, Netherlandic, and/or Scandinavian historical, political, sociological, and intellectual development. Taught in English. Three lecture hours a week for one semester. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. May not be counted toward a major in German. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Reformation Theology.** Same as History 362G (Topic 1: Reformation Theology) and Religious Studies 355D. Prerequisite: Upper-division standing.

**Topic 2: Cultural Politics of Kant and Hegel.** Same as Philosophy 365 (Topic 3: Cultural Politics of Kant and Hegel). Prerequisite: For English majors, Rhetoric and Writing 306 and English 316K or their equivalents, and three additional semester hours of lower-division coursework in either English or rhetoric and writing; for others, upper-division standing.

**Topic 3: German Nationalisms.** Same as Government 365N (Topic 6: German Nationalisms). German national movements within their historical context, and the present-day implications of nationalism. Prerequisite: For government majors, six semester hours of lower-division coursework in government; for others, upper-division standing.

**Topic 5: Switzerland and Europe: Integration or Isolation.** Same as Government 365N (Topic 8: Switzerland and Europe: Integration or Isolation). Culture, society, history, economics, and politics in historical and contemporary Switzerland. Only one of the following may be counted: Germanic Civilization 360E (Topic: Switzerland: Seven Hundred Years), 360E (Topic 5), Government 365N (Topic: Switzerland: Seven Hundred Years), 365N (Topic 8). Prerequisite: For government majors, six semester hours of lower-division coursework in government; for others, upper-division standing.

**GRC 361E. Cinema and Society.**

History and aesthetics of Germanic-language films related to Germanic and world cultural movements. Selected films shown and discussed. Taught in English. Three lecture hours a week for one semester. May be repeated once for credit when the topics vary. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. May not be counted toward a major in German. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: German Cinema through 1932.** Prerequisite: For English majors, Rhetoric and Writing 306 and English 316K or their equivalents, and three additional semester hours of lower-division coursework in either English or rhetoric and writing; for others, upper-division standing.

**Topic 2: German Cinema since 1933.** Same as European Studies 347 (Topic 2: German Cinema since 1933). Only one of the following may be counted: English 322 (Topic 12: German Cinema since 1933), European Studies 347 (Topic 2), 361 (Topic 17: German Cinema since 1933), Germanic Civilization 361E (Topic 2). Prerequisite: Upper-division standing.

**Topic 3: Genres, Structure, and Trends in German Cinema.** Same as European Studies 347 (Topic 5: Genres, Structure, and Trends in German Cinema). Only one of the following may be counted: English 322 (Topic 13: Genres, Structure, and Trends

in German Cinema), European Studies 347 (Topic 5), 361 (Topic 2: Genres, Structure, and Trends in German Cinema), Germanic Civilization 361E (Topic 3). Prerequisite: Upper-division standing.

**Topic 4: Literature in the New German Cinema.** Same as European Studies 347 (Topic 4: Literature in the New German Cinema). Only one of the following may be counted: European Studies 347 (Topic 4), 361 (Topic 1: Literature in the New German Cinema), Germanic Civilization 361E (Topic 3). Prerequisite: Upper-division standing.

**Topic 5: German Women Filmmakers.** Same as Women's and Gender Studies 340 (Topic 5: German Women Filmmakers). Only one of the following may be counted: English 322 (Topic 14: German Women Filmmakers), European Studies 361 (Topic 15: German Women Filmmakers), Germanic Civilization 361E (Topic 5), Women's and Gender Studies 340 (Topic 5). Prerequisite: Upper-division standing.

### **GRC 362E. Topics in Germanic Studies.**

Introduction to methodologies and area concentrations, such as feminist criticism and literary criticism, in the field of Germanic studies. Taught in English. Three lecture hours a week for one semester. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. May not be counted toward a major in German. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Freudians and Feminisms.** Same as Philosophy 365 (Topic 1: Freudians and Feminisms) and Women's and Gender Studies 345 (Topic 10: Freudians and Feminisms). ### SCA 327. Topics in Scandinavian Culture.

Various aspects of political and cultural development of Scandinavian countries. Conducted in English. Three lecture hours a week for one semester. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree or toward a German major or minor. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 9: Films of Ingmar Bergman.** English 322 (Topic 18: Films of Ingmar Bergman) and Scandinavian 327 (Topic 9) may not both be counted. Prerequisite: Upper-division standing.

**Topic 10: Midnight Sun People: The Sami.** Same as Germanic Civilization 327E (Topic 12: Midnight Sun People: The Sami) and Religious Studies 357 (Topic 4: Midnight Sun People: The Sami). Only one of the following may be counted: Anthropology 324L (Topic: Midnight Sun People), English 322 (Topic: Midnight Sun People), Germanic Civilization 327E (Topic 12), Religious Studies 357 (Topic 4), Scandinavian 327 (Topic 10).

### SCA 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Scandinavian.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Germanic Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### SCA 335. Topics in Scandinavian Society.

Conducted in English. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

### SCA 358. Forms and Genres of Scandinavian Literature.

Topics include Scandinavian prose, Scandinavian drama, and Scandinavian poetry. Three lecture hours a week for one semester.

May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

### SCA 369. Topics in Scandinavian Languages.

Introduction to the phonology, morphology, syntax, dialectology, or lexicography of the Danish, Norwegian, and Swedish languages. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Consent of instructor.

### SCA 373. Topics in Scandinavian Literature.

Study of selected writers and topics in Scandinavian literature. Three lecture hours a week for one semester. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree or toward a German major or minor. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 4: Hans Christian Andersen.** Same as Germanic Civilization 323E (Topic 4: Hans Christian Andersen). Only one of the following may be counted: English 322 (Topic 19: Hans Christian Andersen), Germanic Civilization 323E (Topic 4), Scandinavian 373 (Topic 4). Prerequisite: Upper-division standing.

**Topic 6: Isak Dinesen/Karen Blixen.** Same as Germanic Civilization 323E (Topic 1: Isak Dinesen/Karen Blixen) and Women's and Gender Studies 345 (Topic 13: Isak Dinesen/Karen Blixen). Prerequisite: Upper-division standing.

**Topic 8: Birgitta, Hildegard, and Margery.** Same as Germanic Civilization 327E (Topic 10: Birgitta, Hildegard, and Margery). Only one of the following may be counted: English 322 (Topic: Birgitta, Hildegard, and Margery), European Studies 361 (Topic: Birgitta, Hildegard, and Margery), Germanic Civilization 327E (Topic 10), Religious Studies 357 (Topic: Birgitta, Hildegard, and Margery), Scandinavian 373 (Topic 4), Women's and Gender Studies 340 (Topic: Birgitta, Hildegard, and Margery).

### SCA 179, 279, 379. Conference Course in Scandinavian Languages or Literature.

Supervised individual instruction course in which students engage in special studies necessary to expand their acquaintance with any subject in Scandinavian language or literature. Conference course. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

### SCA 679H. Honors Tutorial Course.

Supervised individual research on a literary or linguistic problem, culminating in an honors paper of some length. Must be taken for special honors in addition to the major requirement. Conference course for two semesters. Prerequisite: For 679HA, upper-division standing, six semester hours of upper-division coursework in Scandinavian or consent of instructor, a University grade point average of at least 3.00, and a grade point average in Scandinavian of at least 3.50; for 679HB, Scandinavian 679HA.

## Swedish: SWE

### Lower-Division Courses

#### SWE 604. Accelerated First-Year Swedish.

Six lecture hours a week for one semester, with optional laboratory available. Prerequisite: Two high school units or the equivalent in another foreign language, or consent of instructor.

### **SWE 612. Accelerated Second-Year Swedish.**

Six lecture hours a week for one semester, with optional laboratory available. Prerequisite: Swedish 604 or an appropriate score on the placement test.

### **SWE 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Swedish.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Germanic Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer work is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **Upper-Division Courses**

#### **SWE 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Swedish.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Germanic Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **Yiddish: YID**

#### **Lower-Division Courses**

##### **YID 604. Accelerated First-Year Yiddish.**

Six lecture hours a week for one semester, with optional laboratory available. Prerequisite: Two high school units or the equivalent in another foreign language, or consent of instructor.

##### **YID 612. Accelerated Second-Year Yiddish.**

Six lecture hours a week for one semester, with optional laboratory available. Prerequisite: Yiddish 604 or an appropriate score on the placement test.

##### **YID 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Yiddish.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Germanic Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

#### **Upper-Division Courses**

##### **YID 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Yiddish.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Germanic Studies. University credit is awarded for work in an exchange program; it may be counted

as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **YID 179, 279, 379. Conference Course in Yiddish Language or Literature.**

Supervised individual instruction course in which students engage in special studies necessary to expand their acquaintance with any subject in Yiddish language or literature. Conference course. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

## **Department of Government**

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 627).

### **Government: GOV**

#### **Lower-Division Courses**

##### **GOV 105. Texas Government.**

A brief survey of the organization and process of Texas government. Topics include the Constitution, political parties, interest groups, elections, branches of government, taxing and spending. The equivalent of one lecture hour a week for one semester.

##### **GOV 310L (TCCN: GOVT 2301). American Government.**

A basic survey of American government, including fundamental political institutions, federal, state, and local; special attention to the United States and Texas Constitutions. Part of a six-semester-hour integrated sequence, the second half of which is Government 312L. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Fulfills first half of legislative requirement for government. Prerequisite: Twelve semester hours of college coursework and a passing score on the reading section of the Texas Higher Education Assessment (THEA) test (or an appropriate assessment test).

##### **GOV 312L (TCCN: GOVT 2302). Issues and Policies in American Government.**

Analysis of varying topics concerned with American political institutions and policies, including the United States Constitution. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Fulfills second half of legislative requirement for government. May be taken for credit only once. Offered on the letter-grade basis only. Prerequisite: Twenty-four semester hours of college coursework, including Government 310L, and a passing score on the reading section of the Texas Higher Education Assessment (THEA) test (or an appropriate assessment test).

##### **GOV 312P. Constitutional Principles: Core Texts.**

Close readings from primary texts that have shaped or that reflect deeply upon American democracy, including the Declaration of Independence, The Federalist Papers, and Tocqueville's Democracy in America. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Fulfills second half of legislative requirement for government. Government 312P and 312R may not both be counted. Offered on the letter-grade basis only. Prerequisite:

Twenty-four semester hours of college coursework, including Government 310L, and a passing score on the reading section of the Texas Higher Education Assessment (THEA) test.

### **GOV 312R. Constitutional Principles: Equality.**

Close readings from primary texts that have shaped or that reflect deeply upon American democracy, including the Declaration of Independence, The Federalist Papers, and Tocqueville's Democracy in America. Special emphasis is given to the issue of equality and the experience or perspectives of one or more underrepresented cultural groups in the United States. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Fulfills second half of legislative requirement for government. Government 312P and 312R may not both be counted. Offered on the letter-grade basis only. Prerequisite: Twenty-four semester hours of college coursework, including Government 310L, and a passing score on the reading section of the Texas Higher Education Assessment (THEA) test.

### **GOV 314. Introductory Topics in Political Science.**

Introduction to varying topics in government and politics. Three lecture hours a week for one semester. Does not fulfill any part of the legislative requirement for government. May be repeated for credit when the topics vary.

#### **Topic 2: American Policy toward Eastern Europe.**

**Topic 3: Introduction to the Middle East: Adjustment and Change in Modern Times.** Same as History 306N (Topic 5: Introduction to the Middle East: Adjustment and Change in Modern Times) and Middle Eastern Studies 301L. The responses of the societies of the Middle East and North Africa (Turkey, Iran, Afghanistan, Israel, and the Arab world) to Western cultural and political challenges, primarily since about 1800.

**Topic 4: Introduction to Russian, East European, and Eurasian Studies: Political Science.** Government 314 (Topic 4) and Russian, East European, and Eurasian Studies 301 may not both be counted.

**Topic 5: Asia's Futures.** Same as Asian Studies 301M (Topic 6: Asia's Futures). Current issues, visible trends, and projections for Asia's future.

**Topic 6: Competing Visions of the Good Life.** Same as Core Texts and Ideas 303. Introduces the great rival conceptions of the moral basis and goals of political life as elaborated by revolutionary thinkers throughout the history of political philosophy, including Aristotle, Aquinas, Locke, late modern critics of the Enlightenment, and others. Only one of the following may be counted: Core Texts and Ideas 303, Government 314 (Topic 6), Western Civilization 303 (Topic: Competing Visions of the Good Life).

### **GOV 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Government.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Government. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

## **Upper-Division Courses**

### **GOV 320K. American Constitutional Development I.**

Primarily for prelaw students and government majors. A survey of the origin and growth of the American constitutional system, with emphasis on the political and economic background. Three lecture hours a week

for one semester. Prerequisite: Six semester hours of lower-division coursework in government.

### **GOV 320L. Arab-Israeli Politics.**

Same as Middle Eastern Studies 341 (Topic 5: Arab-Israeli Politics). In-depth study of domestic, regional, and international factors involved in politics in the Middle East, including simulation of diplomatic interaction in the Arab-Israeli conflict. Three lecture hours a week for one semester. Only one of the following may be counted: Government 320L, Middle Eastern Studies 322K (Topic 30: Arab-Israeli Politics), 323K (Topic 1: Arab-Israeli Politics), 341 (Topic 5). Prerequisite: Upper-division standing.

### **GOV 320N. American Constitutional Development II.**

Primarily for prelaw students and government majors. Government 320N and 357M (Topic: American Constitutional Development II) may not both be counted. Prerequisite: Six semester hours of lower-division coursework in government.

### **GOV 321. American State Politics.**

The states as subsystems of the American political system; state political cultures, social-economic environments, federalism, political participation, interest groups, parties, legislatures, executives, courts, and selected public policies. Three lecture hours a week for one semester. Prerequisite: Six semester hours of lower-division coursework in government.

### **GOV 321M. Politics in Japan.**

Same as Asian Studies 321M. Survey of postwar Japanese politics; the occupation, governmental institutions, interest groups, protest movements, industrial policy, the government-business relationship, and political and economic reform. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 321M, 361 (Topic: Politics in Japan), Government 321M. Prerequisite: Six semester hours of lower-division coursework in government.

### **GOV 322M. Politics in China.**

Same as Asian Studies 322M. Survey of twentieth-century China: historical trends; 1911 revolution; Warlord-Nationalist period; Communist revolution; post-1949 issues; new social and political institutions. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 322M, 361 (Topic: Politics in China), Government 322M. Prerequisite: Six semester hours of lower-division coursework in government.

### **GOV 324J. Governments and Politics of Eastern Europe.**

Same as European Studies 348 (Topic 1: Governments and Politics of Eastern Europe) and Russian, East European, and Eurasian Studies 335 (Topic 2: Governments and Politics of Eastern Europe). Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 348 (Topic 1), 361 (Topic 14: Governments and Politics of Eastern Europe), Government 324J, Russian, East European, and Eurasian Studies 335 (Topic 2). Prerequisite: Six semester hours of lower-division coursework in government.

### **GOV 324L. Governments and Politics of Western Europe.**

Same as European Studies 350. Comparative study of peoples, institutions, parties, interest groups, and bureaucracy in the countries of Western Europe, concentrating on the major political systems of Britain, France, Germany, and Italy. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 350, 361 (Topic 14: Governments and Politics of Western

Europe), Government 324L. Prerequisite: Six semester hours of lower-division coursework in government.

### **GOV 325. Political Parties.**

Character of the American party system, organization and leadership; pressure politics; the nominating process, campaigns, suffrage, elections, and the expression of public opinion. Three lecture hours a week for one semester. Prerequisite: Six semester hours of lower-division coursework in government.

### **GOV 327L. Public Opinion and American Politics.**

The nature of and major influences on public attitudes, the measurement of public opinion, and the role of public opinion in government. Three lecture hours a week for one semester. Prerequisite: Six semester hours of lower-division coursework in government.

### **GOV 328L. Introduction to Latin American Government and Politics.**

Same as Latin American Studies 337M (Topic 5: Introduction to Latin American Government and Politics). An introductory survey of Latin American political systems: governmental organization, political processes, and current problems. Three lecture hours a week for one semester. Prerequisite: Six semester hours of lower-division coursework in government.

### **GOV 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Government.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Government. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **GOV 330K. The American President.**

Development of the power and influence of the president; nomination, election, and responsibility; case studies of presidential problems; comparison of president and other executives. Three lecture hours a week for one semester. Prerequisite: Six semester hours of lower-division coursework in government.

### **GOV 331L. Law and Society.**

Designed primarily for prelaw students. The role of law in the context of major social issues; legal research and oral argument. Three lecture hours a week for one semester. Prerequisite: Six semester hours of lower-division coursework in government.

### **GOV 335M. Topics in Political Thought.**

Intensive examination of selected issues in political thought. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and six semester hours of lower-division coursework in government.

#### **Topic 3: Politics and Reality.**

**Topic 5: Religion in American Political Thought.** Same as Religious Studies 346 (Topic 2: Religion in American Political Thought).

**Topic 7: Feminist Theory.** Government 335M (Topic 7) and Women's and Gender Studies 322 (Topic 4: Feminist Theory) may not both be counted.

**Topic 8: Contemporary European Social Theory.** Same as Philosophy 365 (Topic 4: Contemporary European Social Theory) and Sociology 352M (Topic 7: Contemporary European Social Theory).

**Topic 9: Contemporary American Social Theory.** Same as Philosophy 365 (Topic 5: Contemporary American Social Theory) and Sociology 352M (Topic 8: Contemporary American Social Theory). Only one of the following may be counted: Government 335M (Topic: Social Theory), 335M (Topic 9), Philosophy 365 (Topic 5), Sociology 352M (Topic 8).

### **GOV 335N. Topics in American State Government and Politics.**

Analysis of varying topics in the study of American state government and politics. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Six semester hours of lower-division coursework in government.

#### **Topic 1: American State Constitutions.**

#### **Topic 2: American State Legislatures.**

#### **Topic 3: Texas Political History.**

**Topic 4: Texas Political Parties and Elections.** An examination of the nature of Texas electoral politics.

**Topic 5: State Politics and Public Policy.** Survey of the revitalization of political institutions in the American states and the implications for the making of public policy.

**Topic 6: American State Politics.** Examination of the political power, policy responsibilities, and institutional capacities of state governments.

**Topic 7: Southern Political History.** Covers the colonial period to the present and includes topics such as progressive nationalism, defensive sectionalism, reconstruction, the civil rights movement, and partisan realignment. Government 335N (Topic 7) and 335N (Topic: Texas and the New Southern Politics) may not both be counted.

### **GOV 336M. Governments and Politics of Russia.**

Issues of nationalism and state-building facing Russia and its neighbors. Evaluation of the post-Soviet experience from the perspectives of both domestic and foreign policy. Three lecture hours a week for one semester. Government 336M and Russian, East European, and Eurasian Studies 335 (Topic 3: Governments and Politics of Russia) may not both be counted. Prerequisite: Six semester hours of lower-division coursework in government.

### **GOV 337M. Topics in Latin American Government and Politics.**

In-depth analysis of the governmental process in Latin American countries, and topical treatment of political and administrative patterns across the region. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Six semester hours of lower-division coursework in government.

#### **Topic 2: Parties, Elections, and Democracy in Latin America.**

Same as Latin American Studies 337M (Topic 2: Parties, Elections, and Democracy in Latin America).

**Topic 3: Politics in South America.** Same as Latin American Studies 337M (Topic 3: Politics in South America).

**Topic 4: United States-Mexican Border Relations.** Same as Mexican American Studies 374 (Topic 14: United States-Mexican Border Relations) and Latin American Studies 337M (Topic 4: United States-Mexican Border Relations).

**Topic 5: Politics and Culture of Contemporary Mexico.** Same as Mexican American Studies 374 (Topic 28: Politics and Culture

of Contemporary Mexico), Latin American Studies 325 (Topic 3: Politics and Culture of Contemporary Mexico), and Sociology 338M. Introduction to the contemporary Mexican political system and the ways in which political change and democratization are recasting the political and civic culture of contemporary Mexico. Additional prerequisite: Upper-division standing six semester hours of lower-division coursework in government.

#### **GOV 338L. East Asian International Relations.**

Same as Asian Studies 338L. Survey of Russian/Soviet, Japanese, Chinese, and American foreign policies of the twentieth century, emphasizing Pacific-region interests; historical policies; intermittent conflicts, such as China versus Japan, Korean War, Indochina Wars; China's emergence as a nuclear power. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 338L, 361 (Topic: East Asian International Relations), Government 338L. Prerequisite: Upper-division standing and six semester hours of lower-division coursework in government.

#### **GOV 339L. Research Methods in Government.**

An introduction to research design, data collection and analysis, and the use of the computer and related equipment. Three lecture hours a week for one semester. Prerequisite: Six semester hours of lower-division coursework in government.

#### **GOV 340M. Readings in Government.**

Individually guided and supervised readings and research in selected topics in government. Schedule and topic of study determined by student in consultation with instructor. Three lecture hours a week for one semester. Prerequisite: Upper-division standing, six semester hours of lower-division coursework in government, and written consent of instructor and the undergraduate adviser.

#### **GOV 341M. Decision Theory.**

An introduction to the basic concepts and models using decision theory in political science, with particular emphasis on utility analysis, game theory, coalition formation, and voting behavior. Three lecture hours a week for one semester. Prerequisite: Six semester hours of lower-division coursework in government.

#### **GOV 342N. Public Choice.**

The political-economic models that have developed in this area of social science. Three lecture hours a week for one semester. Prerequisite: Six semester hours of lower-division coursework in government.

#### **GOV 344. American Foreign Relations.**

The aims, methods, and accomplishments of United States foreign policy since World War II, by geographic areas and by special problems. Three lecture hours a week for one semester. Prerequisite: Six semester hours of lower-division coursework in government.

#### **GOV 344L. Introduction to Comparative Politics.**

Introductory survey of basic concepts, perspectives, approaches, and trends in comparative politics, with emphasis on the formal-legal, group, class, elite, political culture, structural-functional, and systems approaches. Three lecture hours a week for one semester. Prerequisite: Six semester hours of lower-division coursework in government.

#### **GOV 347K. Governments and Politics of South Asia.**

Same as Asian Studies 347K. A survey of political developments, governmental organization, and economic and social problems in

South Asia. Three lecture hours a week for one semester. Prerequisite: Six semester hours of lower-division coursework in government.

#### **GOV 347L. Introduction to Political Theory.**

Study of political theory: what it is; its origins; tradition; political theory today. Three lecture hours a week for one semester. Prerequisite: Six semester hours of lower-division coursework in government.

#### **GOV 348. Government and the American Economy.**

Relationship of government to the economic system; past trends and present problems in government policy in the United States. Three lecture hours a week for one semester. Prerequisite: Economics 304L and six semester hours of lower-division coursework in government.

#### **GOV 350K. Statistical Analysis in Political Science.**

Elementary statistical techniques and their applications to problems in political science. Three lecture hours a week for one semester. Prerequisite: Six semester hours of lower-division coursework in government.

#### **GOV 351C. The Classical Quest for Justice.**

Same as Core Texts and Ideas 320. Introduces students to classical political thought through a study of seminal works of antiquity, focusing on those of Plato and Aristotle. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 320, 335 (Topic: Classical Quest for Justice), Government 335M (Topic: Classical Quest for Justice), 351C, Western Civilization 320 (Topic: Classical Quest for Justice). Prerequisite: Completion of at least thirty semester hours of coursework.

#### **GOV 351D. The Theoretical Foundations of Modern Politics.**

Same as Core Texts and Ideas 321. Examines competing foundations of the ongoing development of political and social modernity. Examines a selection of major authors from Machiavelli to Nietzsche. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 321, 335 (Topic: The Theoretical Foundations of Modern Politics), Government 335M (Topic: The Theoretical Foundations of Modern Politics), 351D, Western Civilization 320 (Topic: The Theoretical Foundations of Modern Politics). Prerequisite: Completion of at least thirty semester hours of coursework.

#### **GOV 351E. Contemporary Political Theory.**

Introduces ongoing debates about identity, power, justice, rights, and democracy that are central to the theories of contemporary thinkers from Arendt to Habermas. Three lecture hours a week for one semester. Government 335M (Topic: Contemporary Political Theory) and 351E may not both be counted. Prerequisite: Completion of at least thirty semester hours of coursework.

#### **GOV 351G. Critics of Modern Liberalism.**

Same as Core Texts and Ideas 322. Selected critics of the philosophy of the Enlightenment from both the Left and the Right, and from the time of Rousseau to the present. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Core Texts and Ideas 322, Government 335M (Topic: Liberalism and its Critics), 351G. Prerequisite: Upper-division standing.

#### **GOV 351J. Might and Right among Nations.**

Same as Core Texts and Ideas 323. Major alternative approaches to the question of the moral character of international relations, as

elaborated by some of the greatest political thinkers. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Core Texts and Ideas 323, 335 (Topic: Might and Right among Nations), Government 335M (Topic: Might and Right among Nations), 351J, Western Civilization 320 (Topic: Might and Right among Nations). Prerequisite: Upper-division standing and six semester hours of lower-division coursework in government.

### **GOV 351L. Morality and Politics.**

Same as Core Texts and Ideas 325. Interdisciplinary readings from major works exploring issues of ethics and leadership. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Core Texts and Ideas 325, Government 335M (Topic: Morality and Politics), 351L. Prerequisite: Upper-division standing.

### **GOV 353D. Darwin and the Politics of Evolution.**

Same as Core Texts and Ideas 372. A careful reading of Darwin's influential *Origin of the Species by Means of Natural Selection*, together with an examination of the religious, political, and scientific controversies the book has inspired from its first publication to the present day. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Core Texts and Ideas 370 (Topic: The Politics of Evolution), 372, Government 335M (Topic: The Politics of Evolution), 353D. Prerequisite: Upper-division standing and six semester hours of lower-division coursework in government.

### **GOV 355M. Topics in Political Science.**

Emphasis on varying topics in government and politics of contemporary interest and concern. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Six semester hours of lower-division coursework in government.

#### **Topic 1: Human Behavior as Rational Action.**

### **GOV 357L. Judicial Process and Behavior.**

Introduction to traditional and modern approaches to the study of the judicial process, with emphasis on the nature and origin of judicial decisions and the factors that affect judicial decision making. Three lecture hours a week for one semester. Prerequisite: Six semester hours of lower-division coursework in government.

### **GOV 357M. Topics in Public Law.**

Intensive study of various aspects of law and the legal system. Three lecture hours or two lecture hours and one discussion hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Six semester hours of lower-division coursework in government.

**Topic 1: Gender-Based Discrimination.** Same as American Studies 370 (Topic 6: Gender-Based Discrimination) and Women's and Gender Studies 345 (Topic 8: Gender-Based Discrimination). Studies the substance of laws that relate to gender-based roles, and the participation of women in the legal process. Three lecture hours a week for one semester. Additional prerequisite: Upper-division standing, six semester hours of lower-division coursework in government, a University grade point average of at least 3.50, and consent of department received prior to registering.

**Topic 3: Supreme Court and Public Policy.** Two lecture hours and one discussion hour a week for one semester.

**Topic 4: Civil Liberties.** Three lecture hours a week for one semester.

**Topic 5: Constitutional Interpretation.** Three lecture hours a week for one semester.

#### **Topic 6: Constitutional Politics, Law, and Citizenship.**

Examination of the development of constitutional order and the debates over citizenship and civic membership. Three lecture hours a week for one semester. Asian American Studies 325 (Topic: Constitutional Politics, Law, and Citizenship) and Government 357M (Topic 6) may not both be counted.

**Topic 7: Constitutional Structure of Power.** Examination of the power of federal and state governments, the emergency power of the executive branch, and the authority of the Supreme Court. Three lecture hours a week for one semester.

**Topic 8: Structure of Individual Liberties.** Study of individual rights protected by the Constitution, with an emphasis on the United States Supreme Court. Three lecture hours a week for one semester.

**Topic 9: Asian American Jurisprudence.** Same as American Studies 321 (Topic 5: Asian American Jurisprudence) and Asian American Studies 325 (Topic 5: Asian American Jurisprudence). Introduction to the study of Asian Americans and the law. Examines the historical development of United States law and its relationship to Asian Americans, and of Asian American jurisprudence as an independent field of legal scholarship. Three lecture hours a week for one semester. Additional prerequisite: Upper-division standing.

### **GOV 358. Introduction to Public Policy.**

A survey of American public policy, with emphasis on modern problems and trends. Three lecture hours a week for one semester. Prerequisite: Six semester hours of lower-division coursework in government.

### **GOV 360N, 460N. Topics in International Relations.**

Special studies stressing the theoretical aspects or the substantive policy problems of international politics. Three or four lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and six semester hours of lower-division coursework in government.

#### **Topic 1: America in Decline?.**

#### **Topic 2: Causes of War.**

**Topic 4: Understanding the Cold War.** Government 360N (Topic 4) is same as Russian, East European, and Eurasian Studies 335 (Topic 15: Understanding the Cold War).

#### **Topic 8: Democracy, War, and Peace.**

#### **Topic 9: Force and Politics.**

**Topic 10: Introduction to International Relations.** Asian Studies 361 (Topic: Introduction to International Relations Theory) and Government 360N (Topic 10) may not both be counted.

**Topic 11: International Political Economy.** Study of the changing relationship between political and economic power in international relations.

**Topic 12: International Security.** Comprehensive survey of conventional security issues, including causes of war, ethnic conflict, and terrorism.

### **GOV 362L, 662L. Government Research Internship.**

Fieldwork in research and analysis on governmental and political problems. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Only six semester hours of an internship course in government may be counted toward a major

in government. Prerequisite: Six semester hours of lower-division coursework in government and consent of instructor.

### **GOV 365L. Studies in Asian Politics.**

Special studies of political behavior and institutions, problems, or developments in individual countries or in the region. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Six semester hours of lower-division coursework in government.

**Topic 1: Politics of Economic Development in East Asia.** Same as Asian Studies 361 (Topic 12: Politics of Economic Development in East Asia).

**Topic 2: Japanese Foreign Policy.** Same as Asian Studies 361 (Topic 22: Japanese Foreign Policy). An introduction to the foreign and domestic determinants of Japanese foreign policy.

**Topic 3: International Relations of East and Southeast Asia.** Same as Asian Studies 361 (Topic 23: International Relations of East and Southeast Asia). An introduction to the international relations of East and Southeast Asia, with particular attention to postwar economic and security issues, the changing political landscape of the post-Cold War period, and the development and functions of regional institutions.

### **GOV 365N, 465N. Topics in Comparative Politics.**

Analysis of varying topics in the comparative study of political processes. Three or four lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Politics in Contemporary Africa.** Government 365N (Topic 1) is same as African and African Diaspora Studies 365. Prerequisite: Six semester hours of lower-division coursework in government.

**Topic 2: Immigration and Comparative Politics.** Prerequisite: Six semester hours of lower-division coursework in government.

**Topic 3: The Military in Politics.** Only one of the following may be counted: Government 365N (Topic 3); Latin American Studies 337M (Topic 9: The Military in Politics); Russian, East European, and Eurasian Studies 335 (Topic 10: The Military in Politics). Prerequisite: Six semester hours of lower-division coursework in government.

**Topic 4: Political Development in Eastern Europe and Latin America.** Government 365N (Topic 4) is same as Latin American Studies 337M (Topic 6: Political Development in Eastern Europe and Latin America). Only one of the following may be counted: Government 365N (Topic 4), Latin American Studies 337M (Topic 6), Russian, East European, and Eurasian Studies 335 (Topic 7: Political Development in Eastern Europe and Latin America). Prerequisite: Six semester hours of lower-division coursework in government.

**Topic 5: States and Peasants.** Government 365N (Topic 5) is same as African and African Diaspora Studies 372F (Topic 3: States and Peasants). African and African Diaspora Studies 374 (Topic 5: States and Peasants) and Government 365N (Topic 5) may not both be counted. Prerequisite: Six semester hours of lower-division coursework in government.

**Topic 6: German Nationalisms.** Government 365N (Topic 6) is same as Germanic Civilization 360E (Topic 3: German Nationalisms). German national movements within their historical context, and the present-day implications of nationalism. Prerequisite: For government majors, six semester hours of lower-division coursework in government; for others, upper-division standing.

**Topic 8: Switzerland and Europe: Integration or Isolation.** Government 365N (Topic 8) is same as Germanic Civilization 360E (Topic 5: Switzerland and Europe: Integration or Isolation). Culture, society, history, economics, and politics in historical and contemporary Switzerland. Only one of the following may be counted: Germanic Civilization 360E (Topic: Switzerland: Seven Hundred Years), 360E (Topic 5), Government 365N (Topic: Switzerland: Seven Hundred Years), 365N (Topic 8). Prerequisite: For government majors, six semester hours of lower-division coursework in government; for others, upper-division standing.

**Topic 9: International Environmental Policy.** Government 365N (Topic 9) is same as Asian Studies 361 (Topic 20: International Environmental Policy). Prerequisite: Six semester hours of lower-division coursework in government.

**Topic 10: Australian Society and Politics.** Government 365N (Topic 10) is same as Sociology 352M (Topic 12: Australian Society and Politics). Prerequisite: Six semester hours of lower-division coursework in government.

**Topic 11: Political Transition in Europe and Latin America.** Government 365N (Topic 11) is same as Latin American Studies 337M (Topic 10: Political Transition in Europe and Latin America). Only one of the following may be counted: European Studies 361 (Topic 21: Political Transition in Europe and Latin America), Government 365N (Topic 11), Latin American Studies 337M (Topic 10). Prerequisite: Six semester hours of lower-division coursework in government.

**Topic 12: Globalization in the Middle East and North Africa.** A comparison of economic and political development strategies in the countries of the Middle East and North Africa. Government 365N (Topic 12), and Middle Eastern Studies 323K (Topic: Globalization in the Middle East and North Africa) may not both be counted. Prerequisite: Six semester hours of lower-division coursework in government.

**Topic 13: Politics of New Democracies.** Examination of the process of democratization and factors related to its success. Government 365N (Topic 13) and Russian, East European, and Eurasian Studies 335 (Topic: Politics of New Democracies) may not both be counted.

**Topic 14: Politics of the Welfare State.** Introductory survey of trends in welfare state development in North America, Western Europe, and Australia.

### **GOV 365P. The Politics of Oil.**

The national and international political complexities of petroleum; relationship of trends in petroleum economics to international political alignments. Three lecture hours a week for one semester. Government 365P and Middle Eastern Studies 322K (Topic 7: The Politics of Oil) may not both be counted. Prerequisite: Six semester hours of lower-division coursework in government.

### **GOV 370K. Racial and Ethnic Politics.**

An examination of the role of racial and ethnic minorities in politics and of the impact of politics on these minorities. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Six semester hours of lower-division coursework in government.

**Topic 2: Latino Politics.** Same as Mexican American Studies 374 (Topic 15: Latino Politics) and Latin American Studies 337M (Topic 8: Latino Politics).

**Topic 3: African American Politics.** The evolution and role of African American politics within the American political system. African and African Diaspora Studies 374D (Topic: African American Politics) and Government 370K (Topic 3) may not both be counted.

**Topic 4: The Black Church in African American Politics.**

Examination of the political role of the black church and its leaders in the development of African American political behavior. Only one of the following may be counted: African and African Diaspora Studies 374 (Topic: Black Church in African American Politics), 374D (Topic: Black Church in African American Politics), Government 370K (Topic 4), Religious Studies 346 (Topic: Black Church in African American Politics).

**Topic 5: Race and Democracy.** Examination of multicultural and multiracial influences on democratic societies. Only one of the following may be counted: African and African Diaspora Studies 374 (Topic: Race and Democracy), 374D (Topic: Race and Democracy), Government 370K (Topic 5).

**GOV 370L. Topics in American Government and Politics.**

Analysis of varying topics in the study of American government and politics. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Six semester hours of lower-division coursework in government.

**Topic 1: Election Campaigns.**

**Topic 2: Leadership in America.** Same as American Studies 370 (Topic 10: Leadership in America) and Women's and Gender Studies 345 (Topic 34: Leadership in America). Introduction to the concepts of leadership and the application of those concepts in public and political leadership. Additional prerequisite: Upper-division standing, six semester hours of lower-division coursework in government, a University grade point average of at least 3.50, and consent of department received prior to registering.

**Topic 3: Bureaucracy in America.****Topic 5: Parties and Electoral Politics in the United States.****Topic 6: Politics of Hollywood.****Topic 7: The United States Congress.****Topic 8: Congress and the Executive Branch.****Topic 9: Social Movements: Theory and Practice.****Topic 10: Congress and the Presidency.**

**Topic 11: Urban Politics.** Same as Urban Studies 350 (Topic 1: Urban Politics).

**Topic 12: Congressional Elections.** Examination of congressional campaigns and election outcomes from both historical and contemporary perspectives.

**Topic 13: Leaders and Followers in American Politics.**

Examination of the relationship between elected officials and voters.

**Topic 14: The News Media as a Political Institution.** Analysis of the role of the news media in American politics and the operation of national government. Government 370L (Topic 14) and Urban Studies 350 (Topic: News Media as a Political Institution) may not both be counted.

**Topic 15: Political Communication.** Introduction to the impact of modern forms of communication on American governance.

**Topic 16: Political Psychology.** Study of the role of psychological theories in understanding politics and forming political views.

**Topic 17: Money in United States Politics.** Study of the nature and consequences of campaign finance on American politics. Government 370L (Topic 17) and 379S (Topic: Money in Politics--Honors) may not both be counted.

**Topic 18: Politics and the Economy.** Survey of the relationship between politics and market behavior in democracies.

**Topic 19: The United States as a Territorial Nation.** Examination of the history, public policy, law, and political philosophy behind United States territories and land acquisitions.

**GOV 370M. Research on the United States Congress.**

Independent research on lawmaking in the modern United States Congress. Individual instruction. Prerequisite: Six semester hours of lower-division coursework in government.

**GOV 371N, 671N. Administrative Internship.**

Students perform research and related activities in a national, state, or local administrative agency. Written reports required. The equivalent of three or six lecture hours a week for one semester. Only six semester hours of an internship course in government may be counted toward a major in government. Prerequisite: Twelve semester hours of coursework in government and consent of instructor.

**GOV 372N, 672N. Campaigns and Elections Internship.**

Students perform research and related activities in political campaigns and polling. Written reports required. The equivalent of three or six lecture hours a week for one semester. Only six semester hours of an internship course in government may be counted toward a major in government. Prerequisite: Twelve semester hours of coursework in government and consent of instructor.

**GOV 373N, 673N. Legislative Internship.**

Students perform research and related activities in a national, state, or local legislature. Written reports required. The equivalent of three or six lecture hours a week for one semester. Only six semester hours of an internship course in government may be counted toward a major in government. Prerequisite: Twelve semester hours of coursework in government and consent of instructor.

**GOV 374N. Political Internship.**

Students perform research and related activities for an entity directly related to government and politics. Written reports required. The equivalent of three lecture hours a week for one semester. Only six semester hours of an internship course in government may be counted toward a major in government. Prerequisite: Twelve semester hours of coursework in government.

**GOV 679H. Honors Tutorial Course.**

Lectures and supervised individual research and the writing of a substantial paper on a special topic in the field of government. No grade is awarded until the student has completed the two-semester sequence. Three lecture hours a week for two semesters. Prerequisite: For 679HA, upper-division standing, admission to the Government Honors Program, and written consent of the Government Honors Program adviser; for 679HB, Government 679HA.

**GOV 379S. Honors Seminar.**

Substantive focus varies each semester. Topics include but are not limited to constitutional interpretation, political thought, the evolution of American politics, and comparative politics. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Completion of thirty semester hours of coursework, including at least six hours of government.

## Department of History

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University

courses are listed here. Additional TCCN information is given in Appendix A (p. 627).

## History: HIS

### Lower-Division Courses

#### HIS 301F. The Premodern World.

Survey of world history from human origins to the sixteenth century. Three lecture hours or two lecture hours and one discussion hour a week for one semester. History 301F and 306N (Topic: Premodern World) may not both be counted.

#### HIS 302C. Introduction to China.

Same as Asian Studies 302C. Introduction to Chinese civilization, past and present, including religion, literature, arts, philosophy, and history. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 302C, History 302C, 306N (Topic: Introduction to China).

#### HIS 304K (TCCN: HIST 2313). English Civilization before 1603.

Survey of English civilization from Roman times to the death of Queen Elizabeth I. Three lecture hours a week for one semester.

#### HIS 304L (TCCN: HIST 2314). English Civilization since 1603.

Survey of English history from the seventeenth century to the present. Three lecture hours a week for one semester.

#### HIS 304R. Judaism, Christianity, and Islam: An Introduction.

Same as Islamic Studies 311 (Topic 2: Judaism, Christianity, and Islam: An Introduction), Jewish Studies 311 (Topic 2: Judaism, Christianity, and Islam: An Introduction), and Religious Studies 304. Examines the intertwined historical developments of the religions of Judaism, Christianity, and Islam, and explores the principal beliefs and practices of Jews, Christians, and Muslims. Three lecture hours a week for one semester.

#### HIS 305K. History of East Asia to 1800.

Same as Asian Studies 301M (Topic 3: History of East Asia to 1800). A survey of the traditional history and culture of China, Japan, Korea, and Vietnam. Three lecture hours a week for one semester.

#### HIS 305L. History of East Asia since 1800.

Same as Asian Studies 301M (Topic 4: History of East Asia since 1800). A survey of the modern history of China, Japan, Korea, and Vietnam. Three lecture hours a week for one semester.

#### HIS 306K. Introduction to the Middle East: Religious, Cultural, and Historical Foundations.

Same as Middle Eastern Studies 301K. A survey of the history and civilization of the Middle East from the sixth to the fourteenth century. Three lecture hours a week for one semester.

#### HIS 306N. Topics in History.

Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

**Topic 3: Key Ideas and Issues in Latin America.** Same as Latin American Studies 301. Broad introductory course to acquaint students with the main areas of interest in Latin American studies.

**Topic 4: Introduction to Russian, East European, and Eurasian Studies: History.** History 306N (Topic 4) and Russian, East European, and Eurasian Studies 301 may not both be counted.

**Topic 5: Introduction to the Middle East: Adjustment and Change in Modern Times.** Same as Government 314 (Topic 3: Introduction to the Middle East: Adjustment and Change in Modern Times) and Middle Eastern Studies 301L. The responses of the societies of the Middle East and North Africa (Turkey, Iran, Afghanistan, Israel, and the Arab world) to Western cultural and political challenges, primarily since about 1800.

**Topic 7: Introduction to Islam.** Same as Islamic Studies 310 and Religious Studies 319. The beliefs, theology, history, and main social and legal institutions of Islam, including the concept of God and society, the role of women, and Islamic government and movements. Only one of the following may be counted: History 306N (Topic 7), Islamic Studies 310, Middle Eastern Studies 310 (Topic 1: Introduction to Islam), Religious Studies 319.

**Topic 8: Africa: A Visual Journey.** Same as African and African Diaspora Studies 317 (Topic 5: Africa: A Visual Journey). A broad introduction to key themes in African history and culture, from earliest times to the postindependence era. Designed around the video series *The Africans*.

**Topic 10: Jewish Civilization: Beginnings to 1492.** Same as Jewish Studies 304M and Religious Studies 313M. Introduction to the history, culture, and religion of the Jewish people from around 1000 BC to the end of the medieval period. Subjects may include ancient Israel, late Second Temple sectarianism, the rise of Christianity, rabbinic Judaism, medieval Jewish philosophy, Jewish mysticism, and Hebrew poetry. Only one of the following may be counted: History 306N (Topic: Jewish Civilization I), 306N (Topic 10), Jewish Studies 304M, 311 (Topic: Jewish Civilization I), Religious Studies 313 (Topic: Jewish Civilization I), 313M.

**Topic 11: Jewish Civilization: 1492 to the Present.** Same as Jewish Studies 304N and Religious Studies 313N. Subjects may include trends toward secularization, the emancipation of European Jewry, the emergence of American Jewry, the Holocaust, the establishment of the State of Israel, and the Arab-Israeli conflict. Only one of the following may be counted: History 306N (Topic 11), Jewish Studies 304N, 311 (Topic: Jewish Civilization: 1492 to the Present), Religious Studies 313 (Topic: Jewish Civilization: 1492 to the Present), 313N.

#### HIS 307C. Introduction to the History of India.

Same as Asian Studies 307C. Survey of the history of the Indian subcontinent from prehistoric times to the present. Three lecture hours a week for one semester.

#### HIS 309K (TCCN: HIST 2311). Western Civilization in Medieval Times.

Survey of medieval Europe from late antiquity to the fifteenth century. Three lecture hours a week for one semester.

#### HIS 309L (TCCN: HIST 2312). Western Civilization in Modern Times.

Survey of European civilization since the fifteenth century. Three lecture hours a week for one semester.

#### HIS 310. Introduction to Modern Africa.

Same as African and African Diaspora Studies 310K. Introduction to modern Africa, with focus on colonial and postcolonial development in political organization, economics, sociolinguistics, and literature. Three lecture hours a week for one semester.

### **HIS 310K. Latin American Civilization: The Colonial Experience.**

Same as Latin American Studies 310 (Topic 1: Latin American Civilization: The Colonial Experience). A broad survey of the political, economic, social, and cultural aspects of the Latin American past, stressing both that area's achievements and its enduring problems. Three lecture hours a week for one semester. Only one of the following may be counted: History 310K, 346K, Latin American Studies 310 (Topic 1), 366 (Topic 2: Latin America before 1810).

### **HIS 310L. Latin American Civilization: The National Experience.**

Same as Latin American Studies 310 (Topic 2: Latin American Civilization: The National Experience). A broad survey of the political, social, and cultural aspects of the Latin American past. Three lecture hours a week for one semester. Only one of the following may be counted: History 310L, 346L, Latin American Studies 310 (Topic 2), 366 (Topic 3: Latin America since 1810).

### **HIS 311K. Introduction to Traditional Africa.**

Same as African and African Diaspora Studies 310L. Introductory, interdisciplinary course on the peoples and cultures of Africa. Three lecture hours a week for one semester.

### **HIS 314K (TCCN: HIST 2328). History of Mexican Americans in the United States.**

Same as Mexican American Studies 316. Examines the origin and growth of the Mexican American community in the United States. Three lecture hours a week for one semester. Partially fulfills legislative requirement for American history.

### **HIS 315G. Introduction to American Studies.**

Same as American Studies 310. An interdisciplinary introduction to the historical exploration of American culture. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 310, History 306N (Topic 2: Introduction to American Studies), 315G. Partially fulfills legislative requirement for American history.

### **HIS 315K (TCCN: HIST 1301). The United States, 1492-1865.**

Survey of United States history from the colonial period through the Civil War. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Partially fulfills legislative requirement for American history.

### **HIS 315L (TCCN: HIST 1302). The United States since 1865.**

Survey of United States history since the Civil War. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Partially fulfills legislative requirement for American history.

### **HIS 317L (TCCN: HIST 2381). Topics in United States History.**

Three lecture hours a week for one semester. Partially fulfills legislative requirement for American history. May be repeated for credit when the topics vary.

**Topic 1: Colonial America.**

**Topic 2: The Era of the American Revolution.**

**Topic 3: Introduction to African American History.** Same as African and African Diaspora Studies 317D (Topic 1: Introduction to African American History). Only one of the following may be counted: African and African Diaspora Studies 317 (Topic:

Introduction to African American History) and 317D (Topic 1), History 317L (Topic 3). Partially fulfills legislative requirement for American history.

**Topic 4: Introduction to Asian American History.** Same as Asian American Studies 312. Introduces students to the national and transnational histories of Asian Americans in the United States. Explores a wide range of themes related to the Asian American experience. Partially fulfills legislative requirement for American history.

**Topic 5: United States Women, Sexuality, and Gender to 1865.** Same as Women's and Gender Studies 301 (Topic 11: United States Women, Sexuality, and Gender to 1865). Partially fulfills legislative requirement for American history.

**Topic 6: The United States in the 17th-Century Atlantic World.** The United States during a period marked by the spread of knowledge and experience of the world through conflict, economic exchange, cultural creativity, exploration, New World colonization, technological innovation, and religious reformation and counter-reformation.

**Topic 7: The United States and Africa.** Same as African and African Diaspora Studies 317C (Topic 1: The United States and Africa). History of political, economic, and cultural relations between the United States and Africa from the early origins of the slave trade to the present. Only one of the following may be counted: African and African Diaspora Studies 317 (Topic: United States and Africa) and 317C (Topic 1), History 317L (Topic 7). Partially fulfills legislative requirement for American history.

**Topic 8: Introduction to American Indian History.**

**Topic 9: The Black Power Movement.** Same as African and African Diaspora Studies 317D (Topic 3: The Black Power Movement). Examines the major organizations, key figures, and ideologies of the Black Power movement from the late 1960s and early 1970s. Partially fulfills legislative requirement for American history.

### **HIS 317N. Topics in History.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Completion of at least thirty semester hours of coursework.

### **HIS 318Q. Supervised Research.**

Individual instruction.

### **HIS 319D. The Ancient Mediterranean World.**

Same as Ancient History and Classical Civilization 319 (Topic 1: The Ancient Mediterranean World) and Classical Civilization 319D. Survey of the ancient Mediterranean from ca. 3000 BC to AD 476. Focus on the development of ideas and institutions in the Greek and Roman worlds and on the active cultural exchange among the diverse civilizations of the broader region that shaped Greek and Roman history and cultural identity. Three lecture hours or two lecture hours and one discussion hour a week for one semester.

### **HIS 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in History.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of History. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

## Upper-Division Courses

### HIS 320L. Texas until 1845.

Same as Mexican American Studies 320L. A study of Texas from before the European discovery through the exploration and mission periods to status as a Mexican colony and an independent republic. Three lecture hours a week for one semester. Only one of the following may be counted: History 320L, Mexican American Studies 320L, 374 (Topic: Texas until 1845). Three semester hours of Texas history may be substituted for half of the legislative requirement for American history. Prerequisite: Upper-division standing.

### HIS 320P. Texas, 1845-1914.

A study of Texas through early statehood, the Civil War and Reconstruction, and its expansion from a dependent state to a beginning industrial entity. Three lecture hours a week for one semester. Three semester hours of Texas history may be substituted for half of the legislative requirement for American history. Prerequisite: Upper-division standing.

### HIS 320R. Texas, 1914 to the Present.

Same as Mexican American Studies 374 (Topic 16: Texas, 1914 to the Present) and Urban Studies 353 (Topic 2: Texas, 1914 to the Present). The steady dissociation of Texas from its Old South status to a transitional state and a power in national politics. Three lecture hours a week for one semester. Three semester hours of Texas history may be substituted for half of the legislative requirement for American history. Prerequisite: Upper-division standing.

### HIS 321. The History of Rome: The Empire.

Same as Ancient History and Classical Civilization 325 (Topic 2: The History of Rome: The Empire). A survey of the Roman world from Augustus to Constantine the Great. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### HIS 321G. Rome and Jerusalem.

Same as Ancient History and Classical Civilization 325 (Topic 3: Rome and Jerusalem), Jewish Studies 365 (Topic 7: Rome and Jerusalem), Middle Eastern Studies 342 (Topic 21: Rome and Jerusalem), and Religious Studies 365 (Topic 1: Rome and Jerusalem). A study of daily life in Israel during the Roman period, focusing on Jerusalem, ancient Palestinian synagogues and churches, Jewish and Christian symbolism, agriculture, warfare, and burial practices. Three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 325 (Topic 3), Classical Civilization 348 (Topic: Rome and Jerusalem), History 321G, Jewish Studies 365 (Topic 7), Middle Eastern Studies 320 (Topic 2: Rome and Jerusalem), 342 (Topic 21), Religious Studies 365 (Topic 1), Urban Studies 353 (Topic: Rome and Jerusalem). Prerequisite: Upper-division standing.

### HIS 321M. The History of Rome: The Republic.

Same as Ancient History and Classical Civilization 325 (Topic 1: The History of Rome: The Republic). A survey of Roman history from the founding of Rome to the death of Julius Caesar. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### HIS 322C. Cultural History of World Science to 1650.

Cultural history of science from ancient times to the seventeenth century. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### HIS 322D. The Scientific Revolution of the Seventeenth Century.

The history of science and its place in society from the mid-sixteenth century to the time of Isaac Newton. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### HIS 322G. History of the Modern Life Sciences.

History of the life sciences from the eighteenth century to the present. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### HIS 322M. History of Modern Science.

The history of science and its place in society from the time of Newton to the present. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### HIS 323L. Europe since 1919.

Survey course emphasizing the impact of the two world wars on European social, political, and cultural life in the twentieth century. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### HIS 328M. Modern Brazil.

Same as Latin American Studies 366 (Topic 12: Modern Brazil). The social, economic, political, and cultural forces that have shaped modern Brazil. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### HIS 329P. History of the Atomic Bomb.

The development, use, and influence of nuclear weapons from the 1930s to 1954. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### HIS 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in History.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of History. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### HIS 329U. Perspectives on Science and Mathematics.

An examination of five notable episodes in the history of science: Galileo's conflict with the Catholic Church, Isaac Newton's formulation of the laws of motion, Charles Darwin's proposal of the theory of evolution by natural selection, the development of the atomic bomb, and the discovery of the double helix structure of DNA. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: History 329U, 366N (Topic: Perspectives on Science and Mathematics), Philosophy 329U. Prerequisite: Upper-division standing and consent of instructor.

### HIS 331C. History of the Ottoman Empire.

Same as Middle Eastern Studies 331C. A survey of Ottoman society and culture and of the empire's place on the world scene. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **HIS 331G. History of Iran to 1800.**

Same as Middle Eastern Studies 343 (Topic 3: History of Iran to 1800). A survey of the social, economic, and religious components unique to Iran from the pre-Islamic empire of the Achaemenids through the development of Iran as a medieval and premodern Islamic state. Three lecture hours a week for one semester. Only one of the following may be counted: History 331G, Middle Eastern Studies 321K (Topic 3 History of Iran to 1800), 343 (Topic 3). Prerequisite: Upper-division standing.

### **HIS 331J. History of the Arab World.**

A general survey of the origins and development of Arabic civilization. Three lecture hours a week for one semester. History 331J and Middle Eastern Studies 321K (Topic 2: History of the Arab World) may not both be counted. Prerequisite: Upper-division standing.

### **HIS 331L. Modern Iran.**

Same as Middle Eastern Studies 343 (Topic 6: Modern Iran). The development of modern Iran; special attention is given to the impact of the West, the constitutional movement, nationalism, the oil crisis, and the Islamic Revolution of 1979. Three lecture hours a week for one semester. Only one of the following may be counted: History 331L, Middle Eastern Studies 323L, 324K (Topic 5: Modern Iran), 343 (Topic 6). Prerequisite: Upper-division standing.

### **HIS 331R. Re-forming the Arab East, 1914-Present.**

Same as Middle Eastern Studies 343 (Topic 2: Re-forming the Arab East, 1914-Present). Introduction to the history of the Middle East in the twentieth century. Examines forces that transformed the area from a relatively peaceful region to a radicalized environment. Explores colonialism, nationalism, secular modernism, impact of Zionism, rise of political Islam, status of women, and the oil revolution. Three lecture hours a week for one semester. Only one of the following may be counted: History 331R, History 364G (Topic: Re-forming the Arab East), Middle Eastern Studies 322K (Topic: Re-forming the Arab East), 343 (Topic 2). Prerequisite: Upper-division standing.

### **HIS 332G. European Intellectual History from the Enlightenment to Nietzsche.**

Explores significant intellectual developments in Europe throughout the nineteenth century. Themes include romanticism, positivism, socialism, and nihilism. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **HIS 332J. Twentieth-Century European Intellectual History.**

Explores significant intellectual developments in Europe in the twentieth century. Topics include psychoanalysis, sociology, existentialism, and poststructuralism. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **HIS 333L. United States Foreign Relations, 1776-1914.**

The history of United States foreign policy and diplomacy from the founding of the United States to the outbreak of the First World War. Three lecture hours a week for one semester. Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing.

### **HIS 333M. United States Foreign Relations, 1914 to the Present.**

The history of United States foreign policy and diplomacy from the First World War to the present. Three lecture hours a week for one

semester. Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing.

### **HIS 334C. Music Cultures of the Middle East, Past and Present.**

Same as Middle Eastern Studies 334C. A historical and ethnomusicological survey of the Arab, Turkish, and Persian music cultures. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **HIS 334E. Modern Egypt: A History.**

Same as Islamic Studies 373 (Topic 5: Modern Egypt: A History) and Middle Eastern Studies 343 (Topic 1: Modern Egypt: A History). Critically examines the social, political, and intellectual dynamics that shaped the different forms of political community, economic organization, and public culture over the past century. Covers colonialism, liberalism, Arab socialism, authoritarian capitalism, and Islamic republicanism. Three lecture hours a week for one semester. Only one of the following may be counted: Arabic 372 (Topic: Modern Egypt: A History), History 334E, History 364G (Topic: Modern Egypt: A History), Islamic Studies 372 (Topic: Modern Egypt: A History), 373 (Topic 5), Middle Eastern Studies 322K (Topic: Modern Egypt: A History), 343 (Topic 1). Prerequisite: Upper-division standing.

### **HIS 334J. History of Britain from the Restoration to 1783.**

Surveys the political, social, economic, and intellectual history of England and Great Britain from the restoration of the Stuart monarchy in 1660 to the conclusion of the War for American Independence in 1783. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **HIS 334L. The American Revolution and the Founding of the United States, 1763-1800.**

The Revolutionary transformation of America between 1763 and 1800. Three lecture hours a week for one semester. Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing.

### **HIS 336L. The Old South.**

Southern institutions and the role of the South in American history. Three lecture hours a week for one semester. Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing.

### **HIS 337N. Germany in the Twentieth Century.**

Same as Russian, East European, and Eurasian Studies 335 (Topic 11: Germany in the Twentieth Century). Survey of German political and military institutions, economic development, culture, and society. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **HIS 340K. Traditional China.**

Same as Asian Studies 340K. History of China from its beginnings to 1800. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 340K, 361 (Topic: Traditional China), History 340K. Prerequisite: Upper-division standing.

### **HIS 340L. Post-Mao China: Change and Transformation.**

Same as Asian Studies 340L. Examines in a historical context the Chinese economy, society, politics, and culture during the reform era that began in the late 1970s. Explores the transformation of rural and urban economies and related social consequences; government systems, political ideologies, and popular values; and China's

integration into the global system and its impact on China's role in world politics. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 340L, 361 (Topic: Post-Mao China: Change and Transformation), History 340L, 364G (Topic: Post-Mao China: Change and Transformation). Prerequisite: Upper-division standing.

#### **HIS 340M. Modern China.**

Same as Asian Studies 340M. History of China from the intrusion of the West circa 1500 to the Communist revolution. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

#### **HIS 340N. Communist China.**

Same as Asian Studies 340N. The history of China from the Communist takeover in 1949 to the present. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

#### **HIS 340P. European Expansion in Asia.**

Same as Asian Studies 340P. European exploration, the commerce of the East India Companies, and the beginnings of empire in South and Southeast Asia from the fifteenth to the early nineteenth century. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

#### **HIS 340R. European Empires in Asia.**

Same as Asian Studies 340R. The British in India and Malaya, the Dutch in Indonesia, and the French in Indochina since 1800. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

#### **HIS 340S. The Chinese in the United States.**

Same as Asian American Studies 325 (Topic 3: The Chinese in the United States) and Asian Studies 340S. A lecture and discussion course on the history of the Chinese in the United States from their first arrival in significant numbers during the California Gold Rush of the mid-nineteenth century to the present. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 325 (Topic: Chinese in the United States), 325 (Topic 3), Asian Studies 340S, History 340S. Partially fulfills the legislative requirement for American history. Prerequisite: Upper-division standing.

#### **HIS 340T. Taiwan: Colonization, Migration, and Identity.**

Same as Asian American Studies 325 (Topic 4: Taiwan: Colonization, Migration, and Identity) and Asian Studies 340T. Explores issues of ethnicity, empire, and modernization in East Asia from the sixteenth century to the present, as seen through encounters between Taiwan and aborigines, Han Chinese, Dutch, Portuguese, the imperial Qing, Japanese, mainland Chinese Nationalist Party (KMT), and the United States. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 325 (Topic 4), Asian Studies 340T, 361 (Topic: Taiwan: Colonization, Migration, and Identity), History 340T, 364G (Topic: Taiwan: Colonization, Migration, and Identity). Prerequisite: Upper-division standing.

#### **HIS 341K. Origins of Modern Japan.**

Same as Asian Studies 341K. Japan to the beginnings of the Industrial Revolution, with a focus on the culminating age of samurai rule, the Tokugawa period (1600-1867). Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

#### **HIS 341M. Imperial Japan.**

Same as Asian Studies 341M. Japan from the Meiji transformation through war, defeat, and occupation. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

#### **HIS 342C. Postwar Japan.**

Same as Asian Studies 341N. Japan since the war and occupation. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

#### **HIS 342D. Political Economy of Japan.**

Same as Asian Studies 342D. Historical development of the Japanese economy since early modern times. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

#### **HIS 343. The Age of Reformation.**

Same as Religious Studies 344. Examines late medieval religion, the rise of Protestant movements, and the Catholic response in their cultural, political, and social contexts. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

#### **HIS 343G. Italian Renaissance, 1350-1550.**

Survey of political, socioeconomic, religious, and intellectual trends during the Italian Renaissance. Three lecture hours a week for one semester. History 343G and 362K (Topic: Italian Renaissance, 1350-1550) may not both be counted. Prerequisite: Upper-division standing.

#### **HIS 343L. History of Russia to 1917.**

Same as Russian, East European, and Eurasian Studies 335 (Topic 5: History of Russia to 1917). Survey of Russian history from seventeenth-century Muscovy to the fall of the Romanovs in 1917. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

#### **HIS 343M. History of Russia since 1917.**

Same as Russian, East European, and Eurasian Studies 335 (Topic 6: History of Russia since 1917). A survey of Russian history from the revolution of 1917 to the collapse of the Soviet Union. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

#### **HIS 343P. History of Witchcraft.**

A study of witch beliefs and witchcraft prosecutions in western Europe and colonial America, mainly between 1100 and 1700. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

#### **HIS 343W. Witches, Workers, and Wives.**

Same as European Studies 346 (Topic 3: Witches, Workers, and Wives) and Women's and Gender Studies 345 (Topic 29: Witches, Workers, and Wives). Explores the role of families and concepts of gender as expressed in key economic, social, political, and cultural patterns in early modern Europe. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

#### **HIS 344E. France in the Middle Ages.**

Social, cultural, political, and economic history of France from the fall of the Roman Empire to the fifteenth century; emphasis on the development of feudalism and nationalism. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**HIS 344F. Anglo-Saxon England.**

The political, social, cultural, and legal history of England from about 410 to 1154. Lectures and discussion of primary sources. Three lecture hours a week for one semester. History 344F and 362K (Topic: Anglo-Saxon England) may not both be counted. Prerequisite: Upper-division standing.

**HIS 344G. Twelfth-Century Renaissance: 1050-1200.**

An examination of social, cultural, and intellectual developments in eleventh- and twelfth-century Europe. Three lecture hours a week for one semester. History 344G and 362K (Topic: Twelfth-Century Renaissance: 1050-1200) may not both be counted. Prerequisite: Upper-division standing.

**HIS 344J. Norman and Angevin England.**

Political, social, and legal history of England from the Norman conquest in 1066 to the end of the reign of Richard III in 1485. Three lecture hours a week for one semester. History 344J and 362K (Topic: Norman and Angevin England) may not both be counted.

**HIS 344M. Everyday Life in Early Modern Europe.**

Social history of early modern Europe (1400-1700), with emphasis on material conditions of social existence. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**HIS 345J. The Coming of the Civil War, 1829-1861.**

Lecture and discussion course dealing with the historical conditions that led to the American Civil War. Three lecture hours a week for one semester. Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing.

**HIS 345L. The American Civil War and Reconstruction, 1861-1877.**

Lecture and discussion course on the Civil War and Reconstruction period. Three lecture hours a week for one semester. Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing.

**HIS 345M. The South since 1865.**

The history of the South after the Civil War through the civil rights movement. Three lecture hours a week for one semester. Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing.

**HIS 346C. Ancient India.**

Same as Asian Studies 346C. History and culture of South Asia from its protohistoric beginnings in the Indus Valley through the period of the early empires of the Mauryas and Guptas. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**HIS 346D. Medieval India.**

Same as Asian Studies 346D. History and culture of South Asia from approximately 500 to 1500, with emphasis on religious and political institutions and the emergence of regional cultures. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**HIS 346J. Colonial Latin America through Objects.**

Same as Latin American Studies 366 (Topic 20). Examines objects, such as paintings, reliquaries, monstrosities, and churches from colonial Latin America in order to understand colonial culture. Includes critical reading of original texts. Three lecture hours a week for one semester. Only one of the following may be counted: History 346J,

363K (Topic: Colonial Latin America through Objects), Latin American Studies 366 (Topic 20). Prerequisite: Upper-division standing.

**HIS 346K. Colonial Latin America.**

Same as Latin American Studies 366 (Topic 2: Colonial Latin America). Basic survey course, designed as an introduction to Latin American history in the colonial period. Three lecture hours a week for one semester. Only one of the following may be counted: History 310K, 346K, Latin American Studies 310 (Topic 1: Latin American Civilization: The Colonial Experience), 366 (Topic 2). Prerequisite: Upper-division standing.

**HIS 346L. Modern Latin America.**

Same as Latin American Studies 366 (Topic 3: Modern Latin America). Continuation of History 346K and Latin American Studies 366 (Topic 2). Three lecture hours a week for one semester. Only one of the following may be counted: History 310L, 346L, Latin American Studies 310 (Topic 2: Latin American Civilization: The National Experience), 366 (Topic 3). Prerequisite: Upper-division standing.

**HIS 346M. Muslim India before 1750.**

Same as Asian Studies 346M and Religious Studies 341 (Topic 6: Muslim India before 1750). The history, art and architecture, and religions of India during the period of Muslim rule from the tenth to the eighteenth century. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**HIS 346N. History and Culture of India since 1750.**

Same as Asian Studies 346N. The period of British rule, the nationalist movement, and independence, with emphasis on the impact of the West on Indian society. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**HIS 346R. Revolution in Modern Latin America.**

Same as Latin American Studies 366 (Topic 13: Revolution in Modern Latin America). Comparison of the Mexican and Cuban revolutions and of their challenges to inter-American relations. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**HIS 346S. Revolution in Twentieth-Century Latin America.**

Same as Latin American Studies 366 (Topic 9: Revolution in Twentieth-Century Latin America). An introduction to recent Latin American history, with emphasis on phenomena that explain the apparent social unrest and political instability of the region. Three lecture hours a week for one semester. Only one of the following may be counted: History 346L, 366N (Topic: Revolution in Twentieth-Century Latin America), Latin American Studies 366 (Topic 9). Prerequisite: Upper-division standing.

**HIS 346T. The Cuban Revolution and the United States.**

Same as Latin American Studies 366 (Topic 17: The Cuban Revolution and the United States). The special economic and political relationship between the United States and Cuba from 1898 to 1967; and how the 1959 revolution affected the Cold War relationships between East and West, North and South. Three lecture hours a week for one semester. Only one of the following may be counted: History 346T, 366N (Topic: The Cuban Revolution and the US), Latin American Studies 366 (Topic: The Cuban Revolution and the US), 366 (Topic 17). Prerequisite: Upper-division standing.

**HIS 346V. Twentieth-Century Rural Latin America.**

Same as Latin American Studies 366 (Topic 19: Twentieth-Century Rural Latin America). Examines causes of some of the unresolved

conflicts affecting Latin America today, including the social-agrarian relationships linking landlords and campesinos; the role of the state and the impact of official ideologies involving indigenous people; religion and the Catholic Church; the history of rural institutions; and the success or failure of land reforms. Three lecture hours a week for one semester. Only one of the following may be counted: History 346V, 363K (Topic: Twentieth-Century Rural Latin America), Latin American Studies 366 (Topic 19). Prerequisite: Upper-division standing.

### **HIS 346W. Church and State in Latin America.**

Same as Latin American Studies 366 (Topic 21: Church and State in Latin America) and Religious Studies 368 (Topic 1: Church and State in Latin America). History of Church-state relations and religious politics in modern Latin America, with emphasis on the nineteenth to early twentieth-century periods. Three lecture hours a week for one semester. Only one of the following may be counted: History 346W, 363K (Topic: Church and State in Latin America), Latin American Studies 366 (Topic 21), Religious Studies 368 (Topic 1). Prerequisite: Upper-division standing.

### **HIS 347C. Reimagining Cuba, 1868-Present.**

Same as Latin American Studies 366 (Topic 22: Reimagining Cuba, 1868-Present). Explores Cuban-United States relations from the nineteenth century to the present, including issues of empire and transnationalism, and social change engagements between Cuba and the United States before and after the Cuban Revolution. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 374 (Topic: Reimagining Cuba, 1868-Present), 374E (Topic: Reimagining Cuba, 1868-Present), History 347C, 363K (Topic: Reimagining Cuba, 1868-Present), Latin American Studies 366 (Topic 22). Prerequisite: Upper-division standing.

### **HIS 347L. Seminar in Historiography.**

Restricted to students in the History Honors Program. Designed to familiarize students in the honors program with general problems of historiography, historical interpretation, and the philosophy of history. Three lecture hours a week for one semester. Prerequisite: Consent of instructor.

### **HIS 349R. Military History to 1640.**

A broad survey of world military systems from ancient times to about 1640. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **HIS 349S. Survey of Military History, 1640 to 1900.**

An investigation of world military systems and of the evolution of military technology from about the time of the Thirty Years' War to the end of the nineteenth century. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **HIS 350L. Undergraduate Seminar in History.**

Lectures, discussion, reading, and research on selected topics in the field of history. Three lecture hours a week for one semester. History 350L and 350R may not both be counted unless the topics vary. Some sections are offered on the letter-grade basis only. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

**Topic 5: Gandhi and Gandhism.** Same as Asian Studies 361 (Topic 6: Gandhi and Gandhism) and Religious Studies 341 (Topic 5: Gandhi and Gandhism).

**Topic 19: Resistance, Rebellion, and Revolution in Colonial Spanish America.** Same as Latin American Studies 366 (Topic 7: Resistance, Rebellion, and Revolution in Colonial Spanish America). Only one of the following may be counted: History 350L (Topic 19), Latin American Studies 366 (Topic: Resistance, Rebellion, and Revolution in Colonial Spanish America), 366 (Topic 7).

**Topic 25: Women in Asian Societies.** Same as Asian Studies 361 (Topic 14: Women in Asian Societies) and Women's and Gender Studies 340 (Topic 8: Women in Asian Societies).

**Topic 32: The Galileo Affair.**

**Topic 33: Heresy and the Inquisition.** Same as Religious Studies 357 (Topic 1: Heresy and the Inquisition).

**Topic 34: Medieval Islam: Faith and History.** Same as Middle Eastern Studies 343 (Topic 5: Medieval Islam: Faith and History) and Religious Studies 358 (Topic 2: Medieval Islam: Faith and History). Only one of the following may be counted: History 350L (Topic 34), Middle Eastern Studies 321K (Topic 7: Medieval Islam: faith and History), 343 (Topic 5), Religious Studies 358 (Topic 2).

**Topic 35: Nigeria: A History of Nation-Building.** Same as African and African Diaspora Studies 372G (Topic 2: Nigeria: A History of Nation-Building). Only one of the following may be counted: African and African Diaspora Studies 372G (Topic 2), 374 (Topic 18: Nigeria: A History of Nation-Building), 374C (Topic 1: Nigeria: A History of Nation-Building), History 350L (Topic 35).

**Topic 41: Stalinist Russia.** Same as Russian, East European, and Eurasian Studies 335 (Topic 12: Stalinist Russia).

**Topic 42: History of Modern Central America.** Same as Latin American Studies 366 (Topic 15: History of Modern Central America). Only one of the following may be counted: History 350L (Topic 42), 363K (Topic: History of Modern Central America), Latin American Studies 366 (Topic 15).

**Topic 44: Culture and Identity in Colonial Mexico.** Same as Latin American Studies 366 (Topic 16: Culture and Identity in Colonial Mexico).

**Topic 46: Women and Gender in China.** Same as Asian Studies 372 (Topic 21: Women and Gender in China) and Women's and Gender Studies 340 (Topic 18: Women and Gender in China).

**Topic 49: History of Imperialism.**

**Topic 50: Imperialism: Empire to Globalization.**

**Topic 54: Epics and Heroes of India.**

**Topic 56: Germany since Hitler.**

**Topic 57: Law and Society in Early Modern Europe.** Same as European Studies 346 (Topic 4: Law and Society in Early Modern Europe) and Women's and Gender Studies 340 (Topic 13: Law and Society in Early Modern Europe). Research seminar on how historians have explored the significance of law, criminal and civil, in the lives of early modern Europeans. Topics include infanticide, fornication, drunkenness, theft, debt, slander, and family disputes. Only one of the following may be counted: European Studies 346 (Topic 4), 361 (Topic: Law and Society in Early Modern Europe), History 350L (Topic 57), Women's and Gender Studies 340 (Topic 13).

**Topic 59: Stalin's Russia at War.** Only one of the following may be counted: History 350L (Topic 59), 362G (Topic: Stalin's Russia at War), 366N (Topic: Stalin's Russia at War).

**Topic 62: History of the Caribbean.** Same as Latin American Studies 366 (Topic 18: History of the Caribbean). Overview of Caribbean history from 1492 to the present. Topics include contact between European and native cultures, piracy, slavery, colonialism and decolonization, and revolutions.

**Topic 64: Einstein in the Age of Conflict.** Same as Core Texts and Ideas 371. Following the life and work of Albert Einstein, course examines the rise of the theories of relativity and quantum

mechanics upon the stage of international political upheaval. Only one of the following may be counted: Core Texts and Ideas 370 (Topic: Einstein in the Age of Conflicts), History 350L (Topic: Einstein in the Age of Conflicts), 350L (Topic: 64).

**Topic 65: The Chinese in Diaspora.** Same as Asian American Studies 325 (Topic 2: The Chinese in Diaspora). Explores narratives of migration, race, ethnicity, and a wide range of experiences of acculturation and assimilation from the perspective of a sending society--China--which has one of the longest and most diverse histories of sending people overseas. Over the last millennia, Chinese have migrated around the world and made homes under a great range of adversity and opportunity, producing many stories of human differences and commonalities. Only one of the following may be counted: Asian American Studies 325 (Topic: Chinese in Diaspora), 325 (Topic 2: The Chinese in Diaspora), Asian Studies 361 (Topic: Chinese in Diaspora), 361, 461 (Topic 28), History 350L (Topic: The Chinese in Diaspora), 350L (Topic 65: The Chinese Diaspora).

### **HIS 350R. Undergraduate Seminar in United States History.**

Lectures, discussion, reading, and research on selected topics in the field of United States history. Three lecture hours a week for one semester. History 350L and 350R may not both be counted unless the topics vary. Partially fulfills legislative requirement for American history. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and six semester hours of coursework in history.

**Topic 1: Coastal Communities in Early America.**

**Topic 2: Lyndon Johnson and His Times.**

**Topic 3: Myth and Construction of American Identity.**

**Topic 4: Constitutional Issues in the Twentieth-Century United States.**

**Topic 5: American Cultural History of Alcohol and Drugs.** Same as American Studies 370 (Topic 1: American Cultural History of Alcohol and Drugs). Study of the American use and perception of drugs, including alcohol, and how they have changed over time. Examines significant shifts in American attitudes toward individualism and social control. Only one of the following may be counted: American Studies 370 (Topic 1), History 350L (Topic 2: American Cultural History of Alcohol and Drugs), 350R (Topic 5). Partially fulfills legislative requirement for American history.

**Topic 6: Deviance in America: An Alternative History.** Same as American Studies 370 (Topic 22: Deviance in America: An Alternative History). Examines movements and individuals outside the conventional mainstream and how they reflect American ideals and dilemmas. Only one of the following may be counted: American Studies 370 (Topic 22), History 350L (Topic 61: Deviance in America: An Alternative History), 350R (Topic 6). Partially fulfills legislative requirement for American history.

**Topic 7: Environmental History of North America.** Same as American Studies 329 and Urban Studies 353 (Topic 5: Environmental History of North America). The history of humanity's influence on the plants, animals, microlife, soils, water, and air of North America, and vice versa, from the arrival of the proto-Indians to the contemporary environmental crisis. Only one of the following may be counted: American Studies 329, History 350L (Topic 4: Environmental History of North America), 350R (Topic 7), Urban Studies 353 (Topic 5). Partially fulfills legislative requirement for American history.

**Topic 8: Women in Postwar America.** Same as American Studies 370 (Topic 30: Women in Postwar America) and Women's and Gender Studies 345 (Topic 37: Women in Postwar America). Only one of the following may be counted: American Studies 370 (Topic

30), History 350L (Topic 58: Women in Postwar America), 350R (Topic 8), Women's and Gender Studies 345 (Topic 37). Partially fulfills legislative requirement for American history.

**Topic 9: Animals and American Culture.** Same as American Studies 370 (Topic 28: Animals and American Culture) and Women's and Gender Studies 345 (Topic 43: Animals and American Culture). Explores the role of animals in American history, culture, and society. Only one of the following may be counted: American Studies 370 (Topic 28), History 350L (Topic 60: Animals and American Culture), 350R (Topic 9), Women's and Gender Studies 345 (Topic 43). Partially fulfills legislative requirement for American history.

**Topic 10: Slavery in the United States.** Same as African and African Diaspora Studies 374D (Topic 3: Slavery in the United States). Only one of the following may be counted: African and African Diaspora Studies 374 (Topic 21: Slavery in the United States), 374D (Topic 3), History 350L (Topic 39: Slavery in the United States), 350R (Topic 10). Partially fulfills legislative requirement for American history.

**Topic 11: Race and Beauty in American Culture.** Same as African and African Diaspora Studies 372C (Topic 2: Race and Beauty in American Culture). Only one of the following may be counted: African and African Diaspora Studies 372C (Topic 2), 374D (Topic 1: Race and Beauty in American Culture), History 350L (Topic 52: Race and Beauty in American Culture), 350R (Topic 11). Partially fulfills legislative requirement for American history.

**Topic 12: History of Black Entrepreneurship in the United States.** Same as African and African Diaspora Studies 374D (Topic 2: History of Black Entrepreneurship in the United States). Only one of the following may be counted: African and African Diaspora Studies (Topic 2), History 350L (Topic 53: History of Black Entrepreneurship in the United States), 350R (Topic 12). Partially fulfills legislative requirement for American history.

**Topic 13: History of Sexuality in America.** Same as Women's and Gender Studies 345 (Topic 38: History of Sexuality in America). Only one of the following may be counted: History 350L (Topic 55: History of Sexuality in America), 350R (Topic 13), Women's and Gender Studies 345 (Topic 38). Partially fulfills legislative requirement for American history.

**Topic 14: Gender and Slavery in the United States.** Same as African and African Diaspora Studies 372C (Topic 4: Gender and Slavery in the United States) and Women and Gender Studies 345, (Topic 31: Gender and Slavery in the United States). Examines the gendered experience of chattel slavery in the United States. Includes critical analysis of classic and contemporary texts, films, and songs that focus on slave labor, family, community, sexuality, and the economy. Only one of the following may be counted: African and African Diaspora Studies 372C (Topic 4), 374D (Topic: Gender and Slavery in the United States), History 350L (Topic: Gender and Slavery in the United States), 350R (Topic 14), Women's and Gender Studies 340 (Topic: Gender and Slavery in the United States), 345 (Topic 31). Partially fulfills legislative requirement for American history.

**Topic 15: Thomas Jefferson and His World.** Examination of the public and private Jefferson: author of the Declaration of Independence, governor of Virginia, secretary of state during the Washington administration, third president of the United States, master of Monticello, and owner of nearly three hundred people.

**Topic 16: Innovation in the United States Economy.** Examines creativity in the United States' economy, primarily since 1865. Includes major innovations associated with the evolution of the economy, such as the development of branding and the coming of the computer industry.

**Topic 17: Black Women in America.** Same as African and African Diaspora Studies 374D (Topic 9: Black Women in America) and Women's and Gender Studies 340 (Topic 9: Black Women in America). Uses primary sources, historical monographs, and essays to provide a chronological and thematic overview of the experiences of black women in America from their African roots to the circumstances they face in the present era. Only one of the following may be counted: African and African Diaspora Studies 374D (Topic 9) History 350L (Topic: Black Women in America), 350R (Topic 17), Women's and Gender Studies 340 (Topic 9). Partially fulfills legislative requirement for American history.

**Topic 18: Women in Sickness and Health.** Same as Women's and Gender Studies 345 (Topic 3: Women in Sickness and Health). Explores medical and biological views throughout the nineteenth and twentieth centuries of women and women's health, the social context of those views, the development of medical practices, and the treatment of illness and debility. Only one of the following may be counted: History 350L (Topic: Women in Sickness and Health), 350R (Topic 18), Women's and Gender Studies 345 (Topic 3). Partially fulfills legislative requirement for American history.

**Topic 19: American Popular Culture, 1682-Present.** Same as American Studies 370 (Topic 35: American Popular Culture, 1682-Present) and Women's and Gender Studies 340 (Topic 26: American Popular Culture, 1682-Present). Explores the evolution of American popular culture and its relationship to national consolidation, and at times, disunion, over the last 330 years. Partially fulfills legislative requirement for American history.

#### **HIS 351D. The Hellenistic Age: Alexander to Actium.**

Same as Ancient History and Classical Civilization 325 (Topic 6: The Hellenistic Age: Alexander to Actium) and Classical Civilization 351D. History of Asia, Egypt, and the Mediterranean world from Alexander's expedition to Asia to Rome's defeat of the last of the Hellenistic monarchs at Actium (ca. 334 to 31 BC). Two lecture hours and one discussion hour a week for one semester. Prerequisite: Upper-division standing.

#### **HIS 351N. The History of Religion in America to 1800.**

Same as Religious Studies 327. Survey of religious thought, practices, and institutions in the colonies and early republic. Three lecture hours a week for one semester. Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing.

#### **HIS 351P. History of Religion in America since 1800.**

Same as Religious Studies 326. Introduction to the history of religion in the United States of America from the nineteenth century to the present. Focuses on how diverse peoples imagined and transformed the landscape, interacted with one another at different sites, and moved within and across national borders. Three lecture hours a week for one semester. Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing.

#### **HIS 352L. The Mexican Revolution, 1910-1920.**

Same as Latin American Studies 366 (Topic 8: The Mexican Revolution, 1910-1920). An analytical examination of the initial decade of the Mexican Revolution, the first of the twentieth-century nationalist social revolutions; examines through lectures and discussion the historical antecedents and the political, economic, social, and intellectual elements of the upheaval. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

#### **HIS 353. The French Revolution and Napoleon.**

Analysis of the social, political, and economic origins and outcomes of the French Revolution and Napoleon's empire. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

#### **HIS 354C. History of Greece to the End of the Peloponnesian War.**

Same as Ancient History and Classical Civilization 325 (Topic 4: History of Greece to the End of the Peloponnesian War) and Classical Civilization 354C. Survey of Greek history from the emergence of the city-states through the end of the Peloponnesian War (ca. 700 to 404 BC). Two lecture hours and one discussion hour a week for one semester. Prerequisite: Upper-division standing.

#### **HIS 354D. History of Greece to 146 BC.**

Same as Ancient History and Classical Civilization 325 (Topic 5: History of Greece to 146 BC) and Classical Civilization 354D. Survey of Greek history from the end of the Peloponnesian War to the defeat of Greece by Rome (404 to 146 BC). Two lecture hours and one discussion hour a week for one semester. Prerequisite: Upper-division standing.

#### **HIS 354N. France in Modern Times.**

The impact of revolution on French political, economic, and social development in the nineteenth and twentieth centuries. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

#### **HIS 355F. The United States, 1877-1920.**

Examines the Gilded Age and Progressive Era to depict the rise of modern America. Three lecture hours a week for one semester. Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing.

#### **HIS 355M. The United States, 1920-1941.**

Same as American Studies 358. A history of political, economic, diplomatic, military, social, and cultural developments in the United States between the two world wars. Three lecture hours a week for one semester. Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing.

#### **HIS 355N. Main Currents of American Culture to 1865.**

Same as American Studies 355. Traces the development of American culture and society from the colonial era until the end of the Civil War. Major themes include racial conflict, religion, slavery, the development of democracy, and cultural reform. Three lecture hours a week for one semester. Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing.

#### **HIS 355P. The United States since 1941.**

A history of political, economic, diplomatic, social, and cultural developments in the United States since the nation's entry into World War II. Three lecture hours a week for one semester. Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing.

#### **HIS 355S. United States Constitutional History.**

A lecture and discussion course dealing with the history of the development of the American constitutional tradition from colonial times to the present. Three lecture hours a week for one semester. History 355S and 366N (Topic: United States Constitutional History)

may not both be counted. Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing.

### **HIS 356G. History of the United States West.**

Examines the history of the trans-Mississippi West with a special focus on the concepts of conquest, resistance, and region from the nineteenth to the twentieth century. Three lecture hours a week for one semester. History 356G and 365G (Topic: History of the United States West) may not both be counted. Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing.

### **HIS 356K. Main Currents of American Culture since 1865.**

Same as American Studies 356. Traces the development of American culture and society from the end of the Civil War to the present. Major themes include racial conflict, pluralism, religion, urban development and reform, modernism, government centralization, cultural radicalism, and the rebirth of conservatism. Three lecture hours a week for one semester. Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing.

### **HIS 356N. American Culture and Social Life since 1945.**

Same as American Studies 328. Study of postwar American culture and society, using novels, plays, movies, music, television, journalism, political thought, and social criticism; special attention to the 1950s. Three lecture hours a week for one semester. Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing.

### **HIS 356P. The United States in the Civil Rights Era.**

Examines United States history in the post-World War II era, including how civil rights and other racial issues helped shape the politics, popular culture, and social life of this period. Three lecture hours a week for one semester. History 356P and 365G (Topic: United States in the Civil Rights Era) may not both be counted. Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing.

### **HIS 356R. America and the Holocaust.**

Same as American Studies 321 (Topic 4: America and the Holocaust) and Jewish Studies 365 (Topic 1: America and the Holocaust). Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic 4), 370 (Topic: America and the Holocaust), History 350L (Topic: America and the Holocaust), 356R, 365G (Topic: America and the Holocaust), Jewish Studies 361 (Topic: America and the Holocaust), 365 (Topic 1), Liberal Arts Honors 350 (Topic: America and the Holocaust). Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing.

### **HIS 357C. African American History to 1860.**

Same as African and African Diaspora Studies 357C and American Studies 321E. Review of West African origins; New World settlement patterns, social life, and culture; discussion of the Atlantic slave trade, the development of capitalism and plantation slavery, and the origins of racism. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 357C, American Studies 321 (Topic: African American History to 1860), 321E, History 357C. Partially fulfills legislative requirement for American History. Prerequisite: Upper-division standing.

### **HIS 357D. African American History since 1860.**

Same as American Studies 321F, African and African Diaspora Studies 357D, and Urban Studies 353 (Topic 1: African American

History since 1860). Survey of the history of African Americans in the United States from 1860 to the present: Emancipation, Reconstruction politics, migration and urbanization, and the evolution of African American culture; kinds of sources and methods valuable for analyzing African American life and culture. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 357D, American Studies 321 (Topic: African American History since 1860), 321F, History 357D, Urban Studies 353 (Topic 1). Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing.

### **HIS 357F. Filipinos in the United States.**

Same as Asian American Studies 325 (Topic 1: Filipinos in the United States). Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 325 (Topic 1), History 357F, 365G (Topic: Filipinos in the United States), 366N (Topic: Filipinos in the United States). Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing.

### **HIS 357P. Twentieth-Century American Indian History.**

Studies American Indian life and culture in the twentieth century through the use of historical and anthropological texts, autobiographies, films, and fiction. Three lecture hours a week for one semester. Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing.

### **HIS 358M. History of Britain from 1783 through World War I.**

Same as European Studies 346 (Topic 1: History of Britain from 1783 through World War I). Surveys the political, social, economic, and intellectual history of Great Britain from the years preceding the outbreak of the French Revolution to the conclusion of World War I. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 346 (Topic 1), 361 (Topic 4: England in the Nineteenth Century), History 358M. Prerequisite: Upper-division standing.

### **HIS 358Q. Supervised Research.**

Individual instruction. Prerequisite: Upper-division standing.

### **HIS 359N. History of Africa since 1800.**

Same as African and African Diaspora Studies 359N. Development of sub-Saharan Africa from the end of the slave trade to independence. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **HIS 359P. History of East Africa.**

Same as African and African Diaspora Studies 345. A survey of the history of Kenya, Tanzania, and Uganda from prehistoric times to the postindependence era. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **HIS 359R. History of West Africa.**

Same as African and African Diaspora Studies 345C. A history of the West Africa region: the rise and fall of kingdoms, relations with Europe and Asia, the great revolutions of the nineteenth century, colonial administration, decolonization, and the search for economic development and political stability since independence. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **HIS 362G. Topics in European History.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

**Topic 1: Reformation Theology.** Same as Germanic Civilization 360E (Topic 1: Reformation Theology) and Religious Studies 355D. Prerequisite: Upper-division standing.

**Topic 2: Vienna: Memory and the City.** Same as American Studies 370 (Topic 41: Vienna: Memory and the City), European Studies 346 (Topic 5: Vienna: Memory and the City), and Urban Studies 354 (Topic 7: Vienna: Memory and the City). Examines the ways in which cultural memory has shaped, and continues to shape, urban life in Vienna, Austria. Only one of the following may be counted: American Studies 315 (Topic: Vienna: Memory and the City), 370 (Topic 41), European Studies 301 (Topic: Vienna: Memory and the City), 306 (Topic: Vienna: Memory and the City), 346 (Topic 5), Geography 309 (Topic: Vienna: Memory and the City), Germanic Civilization 311 (Topic: Vienna: Memory and the City), History 306N (Topic: Vienna: Memory and the City), 362G (Topic 2), Urban Studies 305 (Topic: Vienna: Memory and the City), 354 (Topic 7).

### **HIS 362K. Medieval Civilization.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

### **HIS 363K. Topics in Latin American History.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

### **HIS 364G. Topics in African, Asian, and Middle Eastern History.**

May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

**Topic 1: History of Hindu Religious Traditions.** Same as Anthropology 324L (Topic 23: History of Hindu Religious Traditions), Asian Studies 340 (Topic 4: History of Hindu Religious Traditions), and Religious Studies 321. History of major doctrines, practices, and institutions that shaped the development of Hinduism; how religions adapt to social and cultural change and often provide the catalyst for change.

**Topic 2: Prophet of Islam: His Life and Times.** Same as Islamic Studies 340 (Topic 1: Prophet of Islam: His Life and Times) and Religious Studies 325. A detailed study of the prophet Muhammad's life and message, and of the means by which his life was recorded and popularized. Only one of the following may be counted: History 364G (Topic 2), Islamic Studies 340 (Topic 1), Middle Eastern Studies 321K (Topic 6: Prophet of Islam: His Life and Times), Religious Studies 325.

**Topic 3: The Dead Sea Scrolls.** Same as Jewish Studies 364 (Topic 4: The Dead Sea Scrolls), Middle Eastern Studies 342 (Topic 23: The Dead Sea Scrolls), and Religious Studies 353D. Only one of the following may be counted: History 364G (Topic 3), Jewish Studies 361 (Topic 4: The Dead Sea Scrolls), 364 (Topic 4), Middle Eastern Studies 320 (Topic 13: The Dead Sea Scrolls), 342 (Topic 23), Religious Studies 353D.

### **HIS 365G. Topics in United States History.**

Three lecture hours a week for one semester. Partially fulfills legislative requirement for American history. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

### **HIS 366N. Topics in History.**

Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

### **HIS 372L. Proseminar in Historical Source Readings.**

Individual instruction in reading history and historiography. The equivalent of three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing and written consent of instructor; consent forms are available in the departmental advising office.

### **HIS 372M. Proseminar in Historical Writing.**

Individual instruction in historical research and writing. The equivalent of three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing and written consent of instructor; consent forms are available in the departmental advising office.

### **HIS 373C. History of the Hip-Hop Generation.**

Same as African and African Diaspora Studies 372E (Topic 3: History of the Hip-Hop Generation). Explores the evolution of the hip-hop generation through the lens of music, culture, and politics of black America after the civil rights movement. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 372E (Topic 3), 374F (Topic 5: History of the Hip-Hop Generation), History 365G (Topic: History of the Hip-Hop Generation), 373C. Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing.

### **HIS 375D. Islamic Spain and North Africa to 1492.**

Same as Middle Eastern Studies 343 (Topic 4: Islamic Spain and North Africa to 1492) and Religious Studies 345. An introduction to the impact of Islam on Spain and North Africa, with emphasis on social, economic, and cultural development. Three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 330 (Topic: Islamic Spain and North Africa to 1492), History 375D, Islamic Studies 373 (Topic: Islamic Spain and North Africa to 1492), Middle Eastern Studies 321K (Topic 4: Islamic Spain and North Africa to 1492), 343 (Topic 4), Religious Studies 345, 363 (Topic: Islamic Spain and North Africa to 1492). Prerequisite: Upper-division standing.

### **HIS 375K. Tudor England, 1485-1603.**

Exploration of the most important political, religious, social, economic, and intellectual changes that occurred in England between the accession of Henry VII and the death of Elizabeth I. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **HIS 375L. Stuart England, 1603-1689.**

Topical lecture course focusing on the most significant political, religious, social, economic, and cultural developments in seventeenth-century England. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **HIS 375M. Modern Spain, 1800 to the Present.**

Political, social, and economic changes in the nineteenth century: the Second Republic; the Spanish Civil War; the Franco Era and the transition to democracy after 1975. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **HIS 376F. The United States and the Second World War.**

Restricted to students in the Normandy Scholars Program. Three lecture hours a week for one semester, and approximately three weeks of study in France. Partially fulfills legislative requirement for American history.

### **HIS 376G. Hitler, Nazism, and World War II.**

Restricted to students in the Normandy Scholars Program. Three lecture hours a week for one semester, and approximately three weeks of study in France.

### **HIS 679H. Honors Tutorial Course.**

An individual instruction course to provide training in the methods and teaching of historical research and writing. The equivalent of three semester hours a week for two semesters. May not be included in the thirty semester hours of coursework required for the major. Prerequisite: For 679HA, upper-division standing and admission to the History Honors Program; for 679HB, History 679HA.

## **Humanities Program**

### **Humanities: HMN**

#### **Lower-Division Courses**

##### **HMN 101. Community Service.**

Tutorial course, in which the student submits a report based on a community service project and appropriate supplementary reading. Conference course. Prerequisite: Consent of the humanities adviser.

##### **HMN 305. Freshman Seminar.**

Reading, discussion, writing, and oral reporting on various humanities topics. Three lecture hours a week for one semester. Humanities 305 and Liberal Arts Honors 305 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Advanced placement credit for Rhetoric and Writing 306 or the equivalent.

**Topic 1: Epic Journeys.** Offered on the pass/fail basis only.

##### **HMN 110, 210, 310. Internship.**

Students work in a professional environment, applying analytical, communication, and other academic skills to practical work. For each semester hour of credit earned, one lecture hour and ten hours of fieldwork a week for one semester. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Consent of the humanities director.

##### **HMN 116, 216, 316. Topics in the Humanities.**

Intensive lecture or seminar course addressing topics in various disciplines in the humanities. One, two, or three lecture hours a week for one semester. Some topics are offered on the pass/fail basis only; these are identified in the Course Schedule. May be repeated for credit when the topics vary. Prerequisite: Consent of the humanities adviser.

##### **HMN 318Q. Supervised Research.**

Individual instruction. Prerequisite: Consent of the humanities adviser.

## **Upper-Division Courses**

### **HMN 321. Humanism and Western Civilization: The Ancient World.**

A history of humanism in ancient Greece and Rome. The contributions of humanism to the values we place on the individual and human potential, democratic government, the arts, religion, and the family. Three lecture hours a week for one semester. Prerequisite: Upper-division standing or consent of instructor.

### **HMN 322. Humanism and Western Civilization: The Renaissance.**

A history of humanism during the European Renaissance, the thirteenth through the sixteenth century. The contributions of humanism to the values we place on the individual and human potential, democratic government, the arts, religion, and the family. Three lecture hours a week for one semester. Prerequisite: Upper-division standing or consent of instructor.

### **HMN 323. Humanism and Western Civilization: The Enlightenment.**

A history of humanism during the Enlightenment. The contributions of humanism to the values we place on the individual and human potential, democratic government, the arts, religion, and the family. Three lecture hours a week for one semester. Prerequisite: Upper-division standing or consent of instructor.

### **HMN 125K. The Arts, Sciences, and Social Sciences.**

Analysis of topics in the arts, sciences, and social sciences through reading, discussion, and lectures. One lecture hour a week for one semester. May be repeated for credit. Prerequisite: Consent of the humanities adviser.

### **HMN 350. Topics in the Humanities.**

Study of the values underlying humanistic disciplines. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: A University grade point average of at least 3.50.

#### **Topic 2: Daily Life in Northern Europe.**

#### **Topic 3: Geography and Religion.** Same as Geography 358E.

Ideas about the relationships among the natural world, myth, and ritual; principal focus on Christianity, Islam, and Judaism and their offshoots and antagonists in the Western world. Only one of the following may be counted: Geography 358E, Humanities 350 (Topic 3), Middle Eastern Studies 322K (Topic 15: Geography and Religion). Additional prerequisite: Upper-division standing.

**Topic 4: Reading Images: Icons and Beliefs.** The content (not the aesthetics or the technical, compositional features) of selected Renaissance paintings, sculptures, and prints. Additional prerequisite: Upper-division standing.

**Topic 5: Great Trials in Western History.** The intellectual and historical importance of a variety of significant trials in Western history. Humanities 350 (Topic 5) and Liberal Arts Honors 350 (Topic: Great Trials in Western History) may not both be counted. Offered on the letter-grade basis only.

**Topic 6: In Search of Meaning.** Humanities 350 (Topic: The Quest for Meaning) and 350 (Topic 6) may not both be counted.

**Topic 7: The Enlightenment.** Offered on the letter-grade basis only.

**Topic 8: Sites, Structures, and Images of Italy.** Examination of the historical factors of religion, politics, economics, and local culture that define the significance of selected late medieval and

Renaissance (twelfth through fifteenth century) buildings and the visual art they formerly housed and displayed. Taught in Italy.  
Additional prerequisite: Upper-division standing and consent of instructor.

### **HMN 358Q. Supervised Research.**

Individual instruction. May be repeated for credit. Prerequisite: Consent of the humanities adviser.

### **HMN 370. Senior Tutorial Course.**

A tutorial program of supervised reading and writing, including an individual paper or papers in which the student draws together the central directions and discoveries of his or her studies in the humanities. Three lecture hours a week for one semester. Humanities 370 and 679HB may not both be counted. Prerequisite: Consent of the humanities adviser.

### **HMN 379. Conference Course.**

Individual instruction in a topic approved by the instructor and the humanities adviser. Conference course. May be repeated for credit. Prerequisite: Upper-division standing and consent of the humanities adviser.

### **HMN 679H. Honors Tutorial Course.**

Directed reading and research, followed by the writing of a report or the creation of a project. Conference course for two semesters. Humanities 370 and 679HB may not both be counted. Prerequisite: For 679HA, admission to the Humanities Honors Program and consent of the humanities adviser; for 679HB, Humanities 679HA.

## **International Relations and Global Studies Program**

### **International Relations and Global Studies: IRG**

#### **Lower-Division Courses**

#### **IRG 301. Introduction to International Relations and Global Studies.**

Introduction to the areas related to international relations. Three lecture hours a week for one semester.

#### **Upper-Division Courses**

#### **IRG 320F. Foundations of International Relations and Global Studies.**

Survey of the international relations and global studies major tracks to introduce distinctive concepts and central themes. The equivalent of three lecture hours a week for one semester. Prerequisite: Upper-division standing and International Relations and Global Studies 301.

#### **IRG 378. Capstone Research in International Relations and Global Studies.**

Restricted to international relations and global studies majors. Three lecture hours a week for one semester. Prerequisite: Completion of at least seventy-five semester hours of coursework, and International Relations and Global Studies 301.

### **IRG 678H. Honors Tutorial Course.**

Supervised individual research on an international relations and global studies topic. The equivalent of three lecture hours a week for two semesters. Prerequisite: For 678HA, upper-division standing, International Relations and Global Studies 301 with a grade of at least B, and admission to the International Relations and Global Studies Honors Program; for 678HB, International Relations and Global Studies 678HA.

## **Schusterman Center for Jewish Studies**

### **Jewish Studies: J S**

#### **Lower-Division Courses**

#### **J S 301. Introduction to Jewish Studies.**

Jewish literature and Jewish thought, comprising a general introduction to biblical, rabbinic, philosophic, and literary Jewish texts from the sixth century BC to the twenty-first century CE. Emphasis on hermeneutics (interpretation). Three lecture hours a week for one semester.

#### **J S 304M. Jewish Civilization: Beginnings to 1492.**

Same as History 306N (Topic 10: Jewish Civilization: Beginnings to 1492) and Religious Studies 313M. Introduction to the history, culture, and religion of the Jewish people from around 1000 BC to the end of the medieval period. Subjects may include ancient Israel, late Second Temple sectarianism, the rise of Christianity, rabbinic Judaism, medieval Jewish philosophy, Jewish mysticism, and Hebrew poetry. Three lecture hours a week for one semester. Only one of the following may be counted: History 306N (Topic: Jewish Civilization I), 306N (Topic 10), Jewish Studies 304M, 311 (Topic: Jewish Civilization I), Religious Studies 313 (Topic: Jewish Civilization I), 313M.

#### **J S 304N. Jewish Civilization: 1492 to the Present.**

Same as History 306N (Topic 11: Jewish Civilization: 1492 to the Present) and Religious Studies 313N. Subjects may include trends toward secularization, the emancipation of European Jewry, the emergence of American Jewry, the Holocaust, the establishment of the State of Israel, and the Arab-Israeli conflict. Three lecture hours a week for one semester. Only one of the following may be counted: History 306N (Topic 11), Jewish Studies 304N, 311 (Topic: Jewish Civilization: 1492 to the Present), Religious Studies 313 (Topic: Jewish Civilization: 1492 to the Present), 313N.

#### **J S 311. Topics in Jewish Studies.**

Three lecture hours a week for one semester. Some topics partially fulfill legislative requirement for American history. May be repeated for credit when the topics vary.

#### **Topic 2: Judaism, Christianity, and Islam: An Introduction.**

Same as History 304R, Islamic Studies 311 (Topic 2: Judaism, Christianity, and Islam: An Introduction), and Religious Studies 304. Examines the intertwined historical developments of the religions of Judaism, Christianity, and Islam, and explores the principal beliefs and practices of Jews, Christians, and Muslims.

**Topic 3: The Rise of Christianity.** Introduction to the origins and development of Christianity.

## Upper-Division Courses

### J S 361. Topics in Jewish Studies.

Three lecture hours a week for one semester; additional hours may be required for some topics. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

### J S 362. Independent Research in Jewish Studies.

Tutorially directed research in Jewish studies. Conference course. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

### J S 363. Topics in the Humanities and Arts.

Three lecture hours a week for one semester; additional hours may be required for some topics. Jewish Studies 361 and 363 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Anne Frank and Beyond.** Prerequisite: Upper-division standing.

**Topic 3: Film Adaptations of Israeli Literature.** Prerequisite: Upper-division standing.

**Topic 4: Israeli and American Jewish Fiction.** Prerequisite: Upper-division standing.

**Topic 6: Key Yiddish Novels.** Prerequisite: Upper-division standing.

**Topic 7: Love and the State in Contemporary Israeli Literature.** Same as Middle Eastern Languages and Cultures 321 (Topic 6: Love and the State in Contemporary Israeli Literature), and Middle Eastern Studies 342 (Topic 6: Love and the State in Contemporary Israeli Literature). Only one of the following may be counted: Comparative Literature 323 (Topic: Love and State in Contemporary Israeli Literature), English 322 (Topic: Love and State in Contemporary Israeli Literature), Hebrew 374 (Topic 9: Love and the State in Contemporary Israeli Literature), Jewish Studies 363 (Topic 7), Middle Eastern Languages and Cultures 321 (Topic 6), Middle Eastern Studies 322K (Topic 27: Love and the State in Contemporary Israeli Literature), 342 (Topic 6), Women's and Gender Studies 340 (Topic: Love and State in Contemporary Israeli Literature). Prerequisite: Upper-division standing.

**Topic 8: Mizrahi Writing in Israel.** Same as Hebrew 346 (Topic 9: Mizrahi Writing in Israel) and Middle Eastern Studies 342 (Topic 9: Mizrahi Writing in Israel). Only one of the following may be counted: Hebrew 346 (Topic 9), Jewish Studies 363 (Topic 8), Middle Eastern Studies 325 (Topic 6: Mizrahi Writing in Israel), 342 (Topic 9). Prerequisite: Upper-division standing, and Hebrew 412L (or 312L) or 320L with a grade of at least C.

**Topic 10: The Sacred and the Secular in Contemporary Jewish Literature.** Same as Middle Eastern Languages and Cultures 321 (Topic 8: The Sacred and the Secular in Contemporary Jewish Literature) and Middle Eastern Studies 342 (Topic 8: The Sacred and the Secular in Contemporary Jewish Literature). Only one of the following may be counted: Comparative Literature 323 (Topic: The Sacred and the Secular in Contemporary Jewish Literature), English 322 (Topic: The Sacred and the Secular in Contemporary Jewish Literature), Hebrew 374 (Topic 11: The Sacred and the Secular in Contemporary Jewish Literature), Jewish Studies 363 (Topic 10), Middle Eastern Languages and Cultures 321 (Topic 8), Middle Eastern Studies 322K (Topic 28: The Sacred and the Secular in Contemporary Jewish Literature), 342 (Topic 8), Religious Studies 353 (Topic: The Sacred and the Secular in Contemporary Jewish Literature). Prerequisite: Upper-division standing.

**Topic 11: Women's Narratives of the Holocaust and World War II.** Prerequisite: Upper-division standing.

**Topic 12: Yiddish Literature.** Prerequisite: Upper-division standing.

**Topic 13: Jewish-American-European Fiction: The Case of Roth, Roth, and Roth.** Prerequisite: Upper-division standing.

**Topic 17: Introduction to Israeli Literature.** Same as Middle Eastern Languages and Cultures 321 (Topic 5: Introduction to Israeli Literature) and Middle Eastern Studies 342 (Topic 5: Introduction to Israeli Literature). Only one of the following may be counted: Comparative Literature 323 (Topic: Introduction to Israeli Literature), English 322 (Topic: Introduction to Israeli Literature), Hebrew 374 (Topic 10: Introduction to Israeli Literature), Jewish Studies 363 (Topic 17), Middle Eastern Languages and Cultures 321 (Topic 5), Middle Eastern Studies 325 (Topic 7: Introduction to Israeli Literature), 342 (Topic 5). Prerequisite: Upper-division standing.

**Topic 18: Jerusalem in Israeli Literature.** Same as Hebrew 346 (Topic 8: Jerusalem in Israeli Literature). Prerequisite: Upper-division standing and Hebrew 412L (or 312L).

**Topic 19: Postmodernist Israeli Literature.** Same as Middle Eastern Languages and Cultures 321 (Topic 7: Postmodernist Israeli Literature) and Middle Eastern Studies 342 (Topic 7: Postmodernist Israeli Literature). Study of the first decades of Israeli literature. Themes include the establishment of a new state in the aftermath of the Holocaust, conflict between Israel and Arab nations, and conflict between Israelis and Palestinians. Only one of the following may be counted: Comparative Literature 323 (Topic: Postmodernist Israeli Literature), English 322 (Topic: Postmodernist Israeli Literature), Hebrew 374 (Topic 8: Postmodernist Israeli Literature), Jewish Studies 363 (Topic 19), Middle Eastern Languages and Cultures 321 (Topic 7), Middle Eastern Studies 325 (Topic: Postmodernist Israeli Literature), 342 (Topic 7). Prerequisite: Upper-division standing.

### J S 364. Topics in History.

Three lecture hours a week for one semester. Some topics partially fulfill legislative requirement for American history. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Anti-Semitism in History and Literature.** Jewish Studies 361 (Topic: Anti-Semitism in History and Literature) and 364 (Topic 1) may not both be counted. Prerequisite: Upper-division standing.

**Topic 2: The Jewish Experience in the Greco-Roman World.** Prerequisite: Upper-division standing.

**Topic 3: The Bible and History.** Same as Religious Studies 354D. The critical uses of biblical and extrabiblical data in the reconstruction of the history of the biblical period. Only one of the following may be counted: Ancient History and Classical Civilization 330 (Topic: The Bible and History), History 372P, Jewish Studies 364 (Topic 3), Middle Eastern Studies 320 (Topic 3: The Bible and History), Religious Studies 354D. Prerequisite: Upper-division standing.

**Topic 4: The Dead Sea Scrolls.** Same as History 364G (Topic 3: The Dead Sea Scrolls), Middle Eastern Studies 342 (Topic 23: The Dead Sea Scrolls), and Religious Studies 353D. Only one of the following may be counted: History 364G (Topic 3), Jewish Studies 361 (Topic 4: The Dead Sea Scrolls), 364 (Topic 4), Middle Eastern Studies 320 (Topic 13: The Dead Sea Scrolls), 342 (Topic 23), Religious Studies 353D. Prerequisite: Upper-division standing.

### **J S 365. Topics in the Social Sciences.**

Three lecture hours a week for one semester; additional hours may be required for some topics. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: America and the Holocaust.** Same as American Studies 321 (Topic 4: America and the Holocaust) and History 356R. Only one of the following may be counted: American Studies 321 (Topic 4), 370 (Topic: America and the Holocaust), History 350L (Topic: America and the Holocaust), 356R, 365G (Topic: America and the Holocaust), Jewish Studies 361 (Topic: America and the Holocaust), 365 (Topic 1), Liberal Arts Honors 350 (Topic: America and the Holocaust). Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing.

**Topic 2: Concepts in Judaic Culture.** Prerequisite: Upper-division standing.

**Topic 3: Jewish Communities in the Middle East and North Africa.** Prerequisite: Upper-division standing.

**Topic 4: Jewish Immigrant Culture in America.** Prerequisite: Upper-division standing.

**Topic 5: Jewish Ethics.** Prerequisite: Upper-division standing.

**Topic 7: Rome and Jerusalem.** Same as Ancient History and Classical Civilization 325 (Topic 3: Rome and Jerusalem), History 321G, Middle Eastern Studies 342 (Topic 21: Rome and Jerusalem), and Religious Studies 365 (Topic 1: Rome and Jerusalem). A study of daily life in Israel during the Roman period, focusing on Jerusalem, ancient Palestinian synagogues and churches, Jewish and Christian symbolism, agriculture, warfare, and burial practices. Only one of the following may be counted: Ancient History and Classical Civilization 325 (Topic 3), Classical Civilization 348 (Topic: Rome and Jerusalem), History 321G, Jewish Studies 365 (Topic 7), Middle Eastern Studies 320 (Topic 2: Rome and Jerusalem), 342 (Topic 21), Religious Studies 365 (Topic 1), Urban Studies 353 (Topic: Rome and Jerusalem). Prerequisite: Upper-division standing.

### **J S 375. Senior Seminar.**

Intensive study and research on selected topics in Jewish studies, with on-going, in-class presentations for critique by fellow students and the instructor. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and consent of the Jewish studies adviser.

### **J S 679H. Honors Tutorial Course.**

Restricted to Jewish studies majors. Supervised individual reading and research for one semester, followed by writing a substantial honors thesis during the second semester. Conference course for two semesters. Prerequisite: For 679HA, admission to the Jewish Studies Honors Program; for 679HB, Jewish Studies 679HA.

## **Teresa Lozano Long Institute of Latin American Studies**

### **Latin American Studies: LAS**

#### **Lower-Division Courses**

#### **LAS 301. Key Ideas and Issues in Latin America.**

Same as History 306N (Topic 3: Key Ideas and Issues in Latin America). Broad introductory course to acquaint students with the main

areas of interest in Latin American studies. Three lecture hours a week for one semester.

#### **LAS 310. General Topics in Latin American Studies.**

Topics that serve as an introduction to Latin America within the framework of different disciplines. Three lecture hours or two lecture hours and one discussion hour a week for one semester. May be repeated for credit when the topics vary.

**Topic 1: Latin American Civilization: The Colonial Experience.** Same as History 310K. A broad survey of the political, economic, social, and cultural aspects of the Latin American past, stressing both that area's achievements and its enduring problems. Only one of the following may be counted: History 310K, 346K, Latin American Studies 310 (Topic 1), 366 (Topic 2: Latin America before 1810).

**Topic 2: Latin American Civilization: The National Experience.** Same as History 310L. A broad survey of the political, social, and cultural aspects of the Latin American past. Only one of the following may be counted: History 310L, 346L, Latin American Studies 310 (Topic 2), 366 (Topic 3: Latin America since 1810).

**Topic 3: Introduction to Mesoamerican Archaeology.** Same as Anthropology 314C. Introduction to ancient Mesoamerica from the time of emerging social inequality in the formative period until the Spanish conquest of Mexico-Tenochtitlan in the sixteenth century. Only one of the following may be counted: Anthropology 310L (Topic 1: Introduction to Mesoamerican Archaeology), 314C, Latin American Studies 310 (Topic 3).

**Topic 4: Anthropology of Latin America.** Same as Anthropology 310L (Topic 3: Anthropology of Latin America). Provides a framework for understanding contemporary concerns in Latin America.

#### **LAS 319. Geography of Latin America.**

Same as Geography 319. Adaptations to population growth and spatial integration in cultural landscapes of great natural and ethnic diversity; problems of frontiers and cities. Three lecture hours a week for one semester.

#### **LAS 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Latin American Studies.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in Latin American studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **Upper-Division Courses**

#### **LAS 322. Topics in Latin American Studies.**

Topics vary each semester to allow curriculum flexibility for faculty members and visiting scholars. Three lecture hours a week for one semester. Additional hours are required for some topics; these topics are identified in the Course Schedule. Latin American Studies 322 and 330 may not both be counted unless the topics vary; Latin American Studies 322 and 370P may not both be counted unless the topics vary; Latin American Studies 322 and 370S may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Hispanic Images and Counterimages.** Same as Mexican American Studies 374 (Topic 9: Hispanic Images and Counterimages) and Radio-Television-Film 359S (Topic 1: Hispanic Images and Counterimages). The critical analysis of Hispanic images in media. Three lecture hours and one two-hour film screening a week for one semester. Prerequisite: For radio-television-film majors, upper-division standing and the following coursework, with a grade of at least C in each course: Radio-Television-Film 305, either 314 or 316, and six additional semester hours of lower-division coursework in radio-television-film; for others, upper-division standing and consent of instructor.

**Topic 2: Latino Audiences.** Same as Mexican American Studies 374 (Topic 10: Latino Audiences) and Radio-Television-Film 365 (Topic 2: Latino Audiences). Prerequisite: For radio-television-film majors: upper-division standing and the following coursework, with a grade of at least C in each course: Radio-Television-Film 305 and nine additional semester hours of lower-division coursework in radio-television-film; for others, upper-division standing and consent of instructor.

**Topic 3: Mass Media and Ethnic Groups.** Same as Mexican American Studies 374 (Topic 11: Mass Media and Ethnic Groups) and Radio-Television-Film 365 (Topic 3: Mass Media and Ethnic Groups). Prerequisite: For radio-television-film majors: upper-division standing and the following coursework, with a grade of at least C in each course: Radio-Television-Film 305 and nine additional semester hours of lower-division coursework in radio-television-film; for others, upper-division standing and consent of instructor.

**Topic 4: Feature Writing.** Same as Mexican American Studies 374 (Topic 6: Feature Writing). Procedures in gathering material for feature stories, with stress on newspaper articles; analysis of reader appeal; study of feature story structure; development of style by practice in writing feature stories. Only one of the following may be counted: Journalism 327, Latin American Studies 322 (Topic 4), Mexican American Studies 374 (Topic 6). Prerequisite: Consent of instructor and a passing score on the College of Communication Grammar, Spelling and Punctuation Test.

**Topic 7: International Communication: Third World Issues.** Same as Mexican American Studies 374 (Topic 17: International Communication: Third World Issues) and Radio-Television-Film 342 (Topic 3: Third World Issues). Prerequisite: For radio-television-film majors, upper-division standing; consent of instructor; and the following coursework, with a grade of at least C in each course: Radio-Television-Film 305 and nine additional semester hours of lower-division coursework in radio-television-film; for others, upper-division standing and consent of instructor.

**Topic 9: Business in Emerging Markets.** Same as International Business 372 (Topic 2: Business in Emerging Markets) and Middle Eastern Studies 341 (Topic 2: Business in Emerging Markets). Only one of the following may be counted: International Business 372 (Topic 2), Latin American Studies 322 (Topic 9), Middle Eastern Studies 322K (Topic 4: Business in Emerging Markets), 341 (Topic 2). Prerequisite: Upper-division standing.

**Topic 10: Minorities and the Media.** Issues concerning minority or nondominant groups within the United States. Survey of minority communication problems: alienation, fragmentation, media and Internet access; criticism and feedback for minority groups based on racial/ethnic background, age, sex, disability, social or economic class, and sexual orientation. Only one of the following may be counted: Journalism 341H, Journalism 340C (Topic 1: Mass Media and Minorities), Latin American Studies 322 (Topic 10), Mexican American Studies 374 (Topic 22: Minorities and the Media), Urban Studies 354 (Topic: Mass Media and Minorities), Women's

and Gender Studies 340 (Topic 21: Minorities and the Media). Prerequisite: Upper-division standing.

**Topic 11: Narrative Journalism.** Three lecture hours and three laboratory hours a week for one semester. Only one of the following may be counted: Journalism 335, Latin American Studies 322 (Topic 11: Latino Community Journalism), 322 (Topic 11: Narrative Journalism), Mexican American Studies 374 (Topic 4: Latino Community Journalism), 374 (Topic 4: Narrative Journalism). Prerequisite: Upper-division standing and consent of instructor.

**Topic 12: Latinos and Media.** Same as Mexican American Studies 374 (Topic 24: Latinos and Media) and Radio-Television-Film 365 (Topic 6: Latinos and Media). Prerequisite: For radio-television-film majors, upper-division standing and the following coursework, with a grade of at least C in each course: Radio-Television-Film 305 and nine additional semester hours of lower-division coursework in radio-television-film; for others, upper-division standing and consent of instructor.

**Topic 13: Latin American Theatre and Drama.** Same as Theatre and Dance 357T (Topic 1: Latin American Theatre and Drama). Prerequisite: Upper-division standing and consent of instructor.

**Topic 14: Journalism in Latin America.** Same as Journalism 367E. Study of the practice of journalism in Latin America. Survey of the region, including historical, political, economic, cultural, ethnic, and geographical aspects. Prerequisite: Upper-division standing and a major in journalism, or consent of instructor.

**Topic 15: Indigenous Languages of the Americas.** Same as Linguistics 350 (Topic 6: Indigenous Languages of the Americas). Examines various aspects of languages in the Americas, including their linguistic structures, the cultural domains in which they exist, and their histories of language contact and change. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

#### **LAS 324L. Topics in Latin American Anthropology.**

Topics vary each semester to allow curriculum flexibility for faculty members and visiting scholars. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 2: Indians of Mexico and Guatemala.** Same as Anthropology 322M (Topic 5: Indians of Mexico and Guatemala). Prerequisite: Upper-division standing.

**Topic 10: The Civilization of the Maya.** Same as Anthropology 360K. Maya prehistory and history: the archaeological record, codices and inscriptions, and Spanish conquest writings. Prerequisite: Upper-division standing.

**Topic 11: The Civilizations of Ancient Mexico.** Same as Anthropology 361K. Mexican cultures from earliest prehistory to the European conquest. Prerequisite: Anthropology 302 and six semester hours of upper-division coursework in social science.

**Topic 13: Colonial Latin American Archaeology.** Same as Anthropology 327D. Focuses on the Spanish colonies in Latin America. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Colonial Latin American Archaeology), 327D, Latin American Studies 324L (Topic 13).

**Topic 14: The Politics of Race and Violence in Brazil.** Same as Anthropology 324L (Topic 37: The Politics of Race and Violence in Brazil) and African and African Diaspora Studies 374E (Topic 2: The Politics of Race and Violence in Brazil). Prerequisite: Upper-division standing.

### LAS 325. Topics in Latin American Sociology.

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Society of Modern Mexico.** Same as Sociology 335 and Urban Studies 354 (Topic 2: Society of Modern Mexico). Family, community, industrialization, and urbanization in modern Mexico.

**Topic 2: Social Change in Developing Nations.** Overview of changing social structure in the Third World. Latin American Studies 325 (Topic 2) and Sociology 324K may not both be counted. Prerequisite: Upper-division standing.

**Topic 3: Politics and Culture of Contemporary Mexico.** Same as Mexican American Studies 374 (Topic 28: Politics and Culture of Contemporary Mexico), Government 337M (Topic 5: Politics and Culture of Contemporary Mexico), and Sociology 338M. Introduction to the contemporary Mexican political system and the ways in which political change and democratization are recasting the political and civic culture of contemporary Mexico. Prerequisite: Upper-division standing and six semester hours of lower-division coursework in government.

### LAS 326. Topics in Latin American Music.

Three lecture hours a week for one semester, with one laboratory hour a week if required. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Music of Mexico and the Caribbean.** Same as Music 334 (Topic 1: Music of Mexico and the Caribbean). Only one of the following may be counted: Latin American Studies 322 (Topic: Music of Mexico and the Caribbean), 326 (Topic 1), Music 334 (Topic 1). Prerequisite: Upper-division standing.

**Topic 2: Music of Latin America.** Same as Music 334 (Topic 2: Music of Latin America). Only one of the following may be counted: Latin American Studies 322 (Topic: Music of Latin America), 326 (Topic 2), Music 334 (Topic 2). Prerequisite: Upper-division standing.

**Topic 3: Music of Brazil and Argentina.** Same as Music 334 (Topic 3: Music of Brazil and Argentina). Only one of the following may be counted: Latin American Studies 322 (Topic: Music of Brazil and Argentina), 326 (Topic 3), Music 334 (Topic 3). Prerequisite: Upper-division standing.

**Topic 4: Music of the Andean Countries.** Same as Music 334 (Topic 4: Music of Andean Countries). Only one of the following may be counted: Latin American Studies 322 (Topic: Music of the Andean Countries), 326 (Topic 4), Music 334 (Topic 4). Prerequisite: Upper-division standing.

### LAS 327. Topics in Latin American Art History.

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Modern Latin American Art.** Same as Art History 341L. Development and sources of twentieth-century art in the Caribbean and Central and South America.

**Topic 2: Modern Art of Mexico.** Same as Art History 341K. Art of the nineteenth and twentieth centuries, particularly muralism and its sources, surrealism, and later movements.

**Topic 3: Mesoamerican Art.** Same as Art History 347L. Mesoamerican art and architectural styles, with emphasis on the function of art in culture.

**Topic 4: Contemporary Latin American Art, 1960 to the Present.** Same as Art History 366N (Topic 1: Contemporary Latin American

Art, 1960 to the Present). Painting, sculpture, media art, and environments.

**Topic 5: Maya Art and Architecture.** Same as Art History 347M. The development and function of art and architectural form in the classic Maya culture.

**Topic 6: Art and Archaeology of Ancient Peru.** Same as Art History 347K. The growth of civilization in South America from the earliest decorated textiles, pottery, and ceremonial buildings to the imperial Inca style.

### LAS 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Latin American Studies.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in Latin American studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### LAS 330. Topics in Latin American Geography.

Three lecture hours a week for one semester. Latin American Studies 322 and 330 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 2: Landscapes of Mexico and Caribbean America.** Same as Geography 341K. The natural regions and cultural landscapes of Mexico, Central America, and the West Indies. Prerequisite: Upper-division standing.

**Topic 3: Geography of South America.** Same as Geography 323K. Ecological, cultural, and political challenges of the densely populated margins and sparsely populated interior frontier of South America; appropriate development and conservation pathways. Prerequisite: Upper-division standing.

### LAS 337M. Topics in Latin American Politics.

Topics vary each semester to allow curriculum flexibility for faculty members and visiting scholars. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 2: Parties, Elections, and Democracy in Latin America.** Same as Government 337M (Topic 2: Parties, Elections, and Democracy in Latin America). Prerequisite: Six semester hours of lower-division coursework in government.

**Topic 3: Politics in South America.** Same as Government 337M (Topic 3: Politics in South America). Prerequisite: Six semester hours of lower-division coursework in government.

**Topic 4: United States-Mexican Border Relations.** Same as Mexican American Studies 374 (Topic 14: United States-Mexican Border Relations) and Government 337M (Topic 4: United States-Mexican Border Relations). Prerequisite: Six semester hours of lower-division coursework in government.

**Topic 5: Introduction to Latin American Government and Politics.** Same as Government 328L. An introductory survey of Latin American political systems: governmental organization, political processes, and current problems. Prerequisite: Six semester hours of lower-division coursework in government.

**Topic 6: Political Development in Eastern Europe and Latin America.** Same as Government 365N (Topic 4: Political Development in Eastern Europe and Latin America). Only one of the following may be counted: Government 365N (Topic 4), Latin American Studies 337M (Topic 6), Russian, East European, and

Eurasian Studies 335 (Topic 7: Political Development in Eastern Europe and Latin America). Prerequisite: Six semester hours of lower-division coursework in government.

**Topic 8: Latino Politics.** Same as Mexican American Studies 374 (Topic 15: Latino Politics) and Government 370K (Topic 2: Latino Politics). Prerequisite: Six semester hours of lower-division coursework in government.

**Topic 9: The Military in Politics.** Only one of the following may be counted: Government 365N (Topic 3: The Military in Politics); Latin American Studies 337M (Topic 9); Russian, East European, and Eurasian Studies 335 (Topic 10: The Military in Politics). Prerequisite: Six semester hours of lower-division coursework in government.

**Topic 10: Political Transition in Europe and Latin America.** Same as Government 365N (Topic 11: Political Transition in Europe and Latin America). Only one of the following may be counted: European Studies 361 (Topic 21: Political Transition in Europe and Latin America), Government 365N (Topic 11), Latin American Studies 337M (Topic 10). Prerequisite: Six semester hours of lower-division coursework in government.

### **LAS 350. Epic of Latin America.**

Introduction to Latin American culture; main topics and debates in Latin American studies. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **LAS 351C. Quechua Language and Society in the Andes I.**

Same as Anthropology 351C. Beginning spoken Quechua; Quechua folklore. Taught in English. Only one of the following may be counted: Anthropology 351C, 381C, Latin American Studies 351C, 381C. Prerequisite: Upper-division standing.

### **LAS 351D. Quechua Language and Society in the Andes II.**

Same as Anthropology 351D. Intermediate spoken Quechua; Quechua folklore. Taught in English. Only one of the following may be counted: Anthropology 351D, 381D, Latin American Studies 351D, 381D. Prerequisite: Upper-division standing.

### **LAS 355. Topics in Latin American Economics.**

Topics vary each semester to allow curriculum flexibility for faculty members and visiting scholars. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

#### **Topic 1: Development Problems and Policies in Latin America.**

Same as Economics 355 and Urban Studies 351 (Topic 1: Development Problems and Policies in Latin America). Description of the Latin American economy; business and market organization; problem of growth (involving credit, public finance, trade, investment aspects). Prerequisite: Economics 304K and 304L with a grade of at least C- in each.

### **LAS 359H. Honors Seminar.**

An interdisciplinary discussion and writing seminar. Lectures and supervised individual research and writing of a substantial paper on a special topic. Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing, and consent of instructor and the Latin American studies honors adviser.

### **LAS 366. Topics in Latin American History.**

Topics vary each semester to allow curriculum flexibility for faculty members and visiting scholars. Three lecture hours a week for

one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 2: Colonial Latin America.** Same as History 346K. Basic survey course, designed as an introduction to Latin American history in the colonial period. Only one of the following may be counted: History 310K, 346K, Latin American Studies 310 (Topic 1: Latin American Civilization: The Colonial Experience), 366 (Topic 2). Prerequisite: Upper-division standing.

**Topic 3: Modern Latin America.** Same as History 346L. Continuation of History 346K and Latin American Studies 366 (Topic 2). Only one of the following may be counted: History 310L, 346L, Latin American Studies 310 (Topic 2: Latin American Civilization: The National Experience), 366 (Topic 3). Prerequisite: Upper-division standing.

**Topic 7: Resistance, Rebellion, and Revolution in Colonial Spanish America.** Same as History 350L (Topic 19: Resistance, Rebellion, and Revolution in Colonial Spanish America). Only one of the following may be counted: History 350L (Topic 19), Latin American Studies 366 (Topic: Resistance, Rebellion, and Revolution in Colonial Spanish America), 366 (Topic 7). Prerequisite: Upper-division standing.

**Topic 8: The Mexican Revolution, 1910-1920.** Same as History 352L. An analytical examination of the initial decade of the Mexican Revolution, the first of the twentieth-century nationalist social revolutions; examines through lectures and discussion the historical antecedents and the political, economic, social, and intellectual elements of the upheaval. Prerequisite: Upper-division standing.

**Topic 9: Revolution in Twentieth-Century Latin America.** Same as History 346S. An introduction to recent Latin American history, with emphasis on phenomena that explain the apparent social unrest and political instability of the region. Only one of the following may be counted: History 346L, 366N (Topic: Revolution in Twentieth-Century Latin America), Latin American Studies 366 (Topic 9). Prerequisite: Upper-division standing.

**Topic 12: Modern Brazil.** Same as History 328M. The social, economic, political, and cultural forces that have shaped modern Brazil. Prerequisite: Upper-division standing.

**Topic 13: Revolution in Modern Latin America.** Same as History 346R. Comparison of the Mexican and Cuban revolutions and of their challenges to inter-American relations. Prerequisite: Upper-division standing.

**Topic 15: History of Modern Central America.** Same as History 350L (Topic 42: History of Modern Central America). Only one of the following may be counted: History 350L (Topic 42), 363K (Topic: History of Modern Central America), Latin American Studies 366 (Topic 15). Prerequisite: Upper-division standing.

**Topic 16: Culture and Identity in Colonial Mexico.** Same as History 350L (Topic 44: Culture and Identity in Colonial Mexico). Prerequisite: Upper-division standing.

**Topic 17: The Cuban Revolution and the United States.** Same as History 346T. The special economic and political relationship between the United States and Cuba from 1898 to 1967; and how the 1959 revolution affected the Cold War relationships between East and West, North and South. Only one of the following may be counted: History 346T, 366N (Topic: The Cuban Revolution and the US), Latin American Studies 366 (Topic: The Cuban Revolution and the US), 366 (Topic 17). Prerequisite: Upper-division standing.

**Topic 18: History of the Caribbean.** Same as History 350L (Topic 62: History of the Caribbean). Overview of Caribbean history from 1492 to the present. Topics include contact between European and native cultures, piracy, slavery, colonialism and decolonization, and revolutions. Prerequisite: Upper-division standing.

**Topic 19: Twentieth-Century Rural Latin America.** Same as History 346V. Examines causes of some of the unresolved

conflicts affecting Latin America today, including the social-agrarian relationships linking landlords and campesinos; the role of the state and the impact of official ideologies involving indigenous people; religion and the Catholic Church; the history of rural institutions; and the success or failure of land reforms. Only one of the following may be counted: History 346V, 363K (Topic: Twentieth-Century Rural Latin America), Latin American Studies 366 (Topic 19). Prerequisite: Upper-division standing.

**Topic 20: Colonial Latin America through Objects.** Same as History 346J. Examines objects, such as paintings, reliquaries, monstrosities, and churches from colonial Latin America in order to understand colonial culture. Includes critical reading of original texts. Only one of the following may be counted: History 346J, 363K (Topic: Colonial Latin America through Objects), Latin American Studies 366 (Topic 20). Prerequisite: Upper-division standing.

**Topic 21: Church and State in Latin America.** Same as History 346W and Religious Studies 368 (Topic 1: Church and State in Latin America). History of Church-state relations and religious politics in modern Latin America, with emphasis on the nineteenth to early twentieth-century periods. Only one of the following may be counted: History 346W, 363K (Topic: Church and State in Latin America), Latin American Studies 366 (Topic 21), Religious Studies 368 (Topic 1). Prerequisite: Upper-division standing.

**Topic 22: Reimagining Cuba, 1868-Present.** Same as History 347C. Explores Cuban-United States relations from the nineteenth century to the present, including issues of empire and transnationalism, and social change engagements between Cuba and the United States before and after the Cuban Revolution. Only one of the following may be counted: African and African Diaspora Studies 374 (Topic: Reimagining Cuba, 1868-Present), 374E (Topic: Reimagining Cuba, 1868-Present), History 347C, 363K (Topic: Reimagining Cuba, 1868-Present), Latin American Studies 366 (Topic 22). Prerequisite: Upper-division standing.

### **LAS 370P. Topics in Luso-Brazilian Literature, Culture, Civilization, and Linguistics.**

Three lecture hours a week for one semester. Latin American Studies 322 and 370P may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Brazil: An Introduction.** Same as Portuguese 375 (Topic 5: Brazil: An Introduction). Prerequisite: Six semester hours of upper-division coursework in Portuguese.

### **LAS 370S. Topics in Hispanic Literature, Culture, Civilization, and Linguistics.**

Three lecture hours a week for one semester, or as required by the topic. Latin American Studies 322 and 370S may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 3: Civilization of Spanish America.** Same as Spanish 322K. Survey of the social and cultural evolution of the Spanish American countries. Conducted in Spanish. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Spanish 611D, 612, or 312L.

**Topic 4: Introduction to Spanish American Literature through Modernism.** Same as Spanish 325K. Main literary trends and principal writers in Spanish America from the sixteenth century through Modernism. Conducted in Spanish. Prerequisite: Spanish 611D, 612, or 312L.

**Topic 5: Introduction to Spanish American Literature since Modernism.** Same as Spanish 325L. Main literary trends and principal writers in Spanish America since Modernism. Conducted in Spanish. Prerequisite: Spanish 611D, 612, or 312L.

**Topic 9: Contemporary Spanish American Poetry.** Same as Spanish 364K (Topic 2: Contemporary Spanish American Poetry). Taught in Spanish. Prerequisite: Spanish 325K, 325L, 326K, or 326L.

**Topic 10: Contemporary Spanish American Prose.** Same as Spanish 365K. Novels, short stories, and essays from different regions of Hispanic America. Taught in Spanish. Prerequisite: Spanish 325K, 325L, 326K, or 326L.

**Topic 11: Comparative Structure of English and Spanish.** Same as Spanish 367K (Topic 2: Comparative Structure of English and Spanish). Conducted in Spanish. Prerequisite: Spanish 327G, 345L and three additional semester hours of upper-division coursework in Spanish.

**Topic 12: Translation Principles and Practice.** Same as Spanish 367K (Topic 4: Translation Principles and Practice). Conducted in Spanish. Prerequisite: Spanish 327G, 345L, and three additional semester hours of upper-division coursework in Spanish.

**Topic 14: Interpretation Principles and Practice.** Same as Spanish 367K (Topic 5: Interpretation Principles and Practice). Conducted in Spanish. Prerequisite: Spanish 327G, 345L, and three additional semester hours of upper-division coursework in Spanish.

**Topic 15: Literary Translation: Analysis and Criticism.** Same as Spanish 367K (Topic 6: Literary Translation: Analysis and Criticism). Conducted in Spanish. Prerequisite: Spanish 327G, 345L, and three additional semester hours of upper-division coursework in Spanish.

**Topic 16: Writing the Conquest.** Same as Spanish 374K (Topic 1: Writing the Conquest). The forging of Spanish-American civilization and many of its persistent dilemmas seen through the examination of an exuberant and original body of narrative texts. Only one of the following may be counted: Latin American Studies 370S (Topic 16), Spanish 350 (Topic: Writing the Conquest), 374K (Topic 1). Prerequisite: Spanish 325K, 325L, 326K, or 326L.

**Topic 17: Indigenous Voices in Latin American Literature.** Same as Spanish 350 (Topic 4: Indigenous Voices in Latin American Literature). Prerequisite: Spanish 322K or 328.

**Topic 19: Business in Hispanic Life and Culture.** Same as Spanish 350 (Topic 10: Business in Hispanic Life and Culture). Prerequisite: Spanish 322K or 328.

**Topic 20: Mexican and Mexican American Ballads.** Same as Mexican American Studies 374 (Topic 29: Mexican and Mexican American Ballads) and Spanish 350 (Topic 11: Mexican and Mexican American Ballads). Examines the corrido genre in the nineteenth and twentieth centuries, with special focus on its pivotal role in the Mexican Revolution and in the collision between cultures in the border zone. Prerequisite: Spanish 322K or 328.

**Topic 22: The Imagined Andes.** Same as Spanish 350 (Topic 12: The Imagined Andes). Overview of literature and culture of the Andean regions. Three lecture hours a week for one semester. Prerequisite: Spanish 322K or 328.

**Topic 23: Violence in Contemporary Mexican Culture.** Same as Spanish 350 (Topic 13: Violence in Contemporary Mexican Culture) and Women's and Gender Studies 340 (Topic 20: Violence in Contemporary Mexican Culture). Studies the representation of violence in contemporary literary and cultural production in Mexico in order to understand social, political, and cultural implications of current violence in that country. Taught in Spanish. Three lecture hours a week for one semester. Prerequisite: Spanish 611D, 612, or 312L.

**Topic 24: Gender Issues in Contemporary Latin American Cinema.** Same as Spanish 350K (Topic 1: Gender Issues in

Contemporary Latin American Cinema). Studies Latin American cinema as a device of gender system formation and reinforcement, and as criticism of patriarchal hegemony; discusses questions related to sexuality depicted in Latin American films. Subjects covered include: maternity, prostitution, machismo, children's sexuality, homosexuality, heterosexuality, and gender violence in films from the 1930s to present. Conducted in Spanish. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic 24), Spanish 350 (Topic: Gender in Contemporary Latin American Cinema), 350K (Topic 1). Prerequisite: Spanish 325K, 325L, 326K, or 326L.

**Topic 25: Latin American Film and Culture.** Same as Spanish 350K (Topic 3: Latin American Film and Culture). Overview of Latin American cinema from the silent era to present, with an emphasis on the last forty years. Subjects covered include: the development of the film industry (particularly in Argentina and Mexico in the 1930s and 1940s); the "New Wave" of Latin American cinema in the 1960s; and contemporary trends. Taught in Spanish. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic 25), Spanish 350 (Topic: Latin American Film and Culture), 350K (Topic 3). Prerequisite: Spanish 325K, 325L, 326K, or 326L.

**Topic 26: Latin American Literature and Film.** Same as Spanish 350K (Topic 4: Latin American Literature and Film). Studies, in a broad sense, the connections between Latin American cinema and literature, through extensive readings and in-class movie exhibitions. A number of renowned literary works by Latin American authors and their film versions will be analyzed with a comparative approach. Only one of the following may be counted: Latin American Studies 370S (Topic 26), Spanish 350 (Topic: Latin American Literature and Film), 350K (Topic 4), 352 (Topic: Literature and Cinema in Spanish America). Prerequisite: Spanish 325K, 325L, 326K, or 326L.

#### **LAS 379. Conference Course in Latin American Studies.**

Supervised individual study of selected problems in Latin American studies. Conference course. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor and the undergraduate adviser in Latin American studies.

#### **LAS 679H. Honors Tutorial Course.**

For honors candidates in Latin American studies. Individual reading of selected works for one semester, followed in the second semester by the writing of an honors thesis. Conference course for two semesters. Prerequisite: For Latin American Studies 679HA, Latin American Studies 359H, admission to the Latin American Studies Honors Program, and written consent of the Latin American Studies Honors Program adviser; for 679HB, Latin American Studies 679HA.

## **Department of Linguistics**

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 627).

## **American Sign Language: ASL**

### **Lower-Division Courses**

#### **ASL 601C. Accelerated First-Year American Sign Language.**

Introduction to American Sign Language and its vocabulary and sentence structure. A six-hour course comparable to American Sign Language 506 and 507. Six lecture hours a week for one semester. American Sign Language 601C and 506 may not both be counted. American Sign Language 601C and 507 may not both be counted. Offered on the letter-grade basis only.

#### **ASL 506 (TCCN: SGNL 1501). First-Year American Sign Language I.**

Introduction to American Sign Language. Five lecture hours a week for one semester. American Sign Language 601C and 506 may not both be counted. Offered on the letter-grade basis only.

#### **ASL 507 (TCCN: SGNL 1502). First-Year American Sign Language II.**

American Sign Language vocabulary and basic sentence structure. Five lecture hours a week for one semester. American Sign Language 601C and 507 may not both be counted. Offered on the letter-grade basis only. Prerequisite: American Sign Language 506 with a grade of at least C-.

#### **ASL 611C. Accelerated Second-Year American Sign Language.**

Focuses on developing conversational skills in American Sign Language and introduces American Sign Language literature and folklore. A six-hour course comparable to American Sign Language 312K and 312L. Six lecture hours a week for one semester. American Sign Language 611C and 312K may not both be counted. American Sign Language 611C and 312L may not both be counted. Offered on the letter-grade basis only. Prerequisite: American Sign Language 601C or 507 with a grade of at least C-.

#### **ASL 312K (TCCN: SGNL 2301). Second-Year American Sign Language I.**

Development of conversational skills in American Sign Language. Three lecture hours a week for one semester. American Sign Language 611C and 312K may not both be counted. Offered on the letter-grade basis only. Prerequisite: American Sign Language 601C or 507 with a grade of at least C-.

#### **ASL 312L (TCCN: SGNL 2302). Second-Year American Sign Language II.**

Further development of conversational skills in American Sign Language; introduction to American Sign Language literature and folklore. Three lecture hours a week for one semester. American Sign Language 611C and 312L may not both be counted. Offered on the letter-grade basis only. Prerequisite: American Sign Language 312K with a grade of at least C-.

### **Upper-Division Courses**

#### **ASL 320. Advanced American Sign Language Conversation.**

Advanced development of conversational skills in American Sign Language, with a focus on sophisticated linguistic structures and important issues in deaf studies. Three lecture hours a week for

one semester. Offered on the letter-grade basis only. Prerequisite: American Sign Language 611C or 312L with a grade of at least C-.

### **ASL 326. Sign Languages and Signing Communities.**

Same as Linguistics 350 (Topic 3: Sign Languages and Signing Communities). Examines the grammar of signed languages, their use in signing communities, and the acquisition of signed languages as first languages. No knowledge of American Sign Language is required. Three lecture hours a week for one semester. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. Prerequisite: Upper-division standing.

### **ASL 336. Introduction to Sign Interpreting.**

Introduction to sign interpreting from American Sign Language into English and from English into American Sign Language. Topics include the ethics of interpreting and the problems that arise in interpreting in different social and professional situations. Three lecture hours a week for one semester. Prerequisite: American Sign Language 611C, or credit or registration for American Sign Language 312L.

### **ASL 350. Topics in American Sign Language, Deaf Studies, and Interpreting.**

Three lecture hours a week for one semester. Additional hours may be required for some topics; these are identified in the Course Schedule. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

### **ASL 357. Undergraduate Research.**

Supervised research experience. Individual instruction. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Upper-division standing and American Sign Language 506 with a grade of at least C-.

## **Linguistics: LIN**

### **Lower-Division Courses**

#### **LIN 306. Introduction to the Study of Language.**

Survey of major areas of linguistics: sound systems, grammatical structures, historical development of languages, language families and linguistic universals, dialect differences and their social significance. Three lecture hours a week for one semester.

#### **LIN 312. Interdisciplinary Approaches to Language.**

An interdisciplinary and multidisciplinary introduction to the manifold aspects of language. Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

#### **LIN 313. Language and Computers.**

Natural language processing, including spam filtering, dialogue systems, spelling and grammar correction, forensic linguistics, cryptography, and machine translation. Studies how these systems function, the difficulties in implementing them, and implications of such technologies for society. Three lecture hours a week for one semester. Linguistics 312 (Topic: Language and Computers) and 313 may not both be counted.

#### **LIN 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Linguistics.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad

adviser in the Department of Linguistics. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

## **Upper-Division Courses**

### **LIN 321L. American English.**

Same as English 321L. An overview of the historical development of English in the Americas. Attention to regional, social, and ethnic differences, and their implications for public education. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

### **LIN 322. Gypsy Language and Culture.**

Linguistic introduction to Romani; relationship to languages of India; history from 280 BC; modern dialects and international standard language; history and culture as reflected in the language. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 372 (Topic 13: Gypsy Language and Culture); Linguistics 322; Russian, East European, and Eurasian Studies 325 (Topic 1: Gypsy Language and Culture).

### **LIN 323L. English as a World Language.**

Same as English 323L. An account of the spread of English around the world; national, social, and regional varieties. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

### **LIN 325. Introduction to the Study of African American English.**

Same as African and African Diaspora Studies 320 (Topic 1: Introduction to the Study of African American English). African American English: evolution, contemporary styles, comparison with other ethnic dialects; attitudes toward African American English, effects in education, controversy about dialect differences and intellectual abilities. Three lecture hours a week for one semester.

### **LIN 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Linguistics.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Linguistics. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **LIN 340. Automata Theory.**

Introduction to the formal study of automata and of related formal languages. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 341, 341H, Linguistics 340. Prerequisite: Computer Science 336 or consent of instructor.

### **LIN 344K. Phonetics: The Production and Perception of Speech Sounds.**

Articulation and transcription of speech sounds; distinctive feature systems; physiological and acoustical aspects of phonetics; common phonological processes. Three lecture hours a week for one semester. Prerequisite: Linguistics 306.

### **LIN 345. Language Change and Language Variation.**

Three lecture hours a week for one semester. Prerequisite: Linguistics 344K.

### **LIN 350. Special Topics in the Study of Language.**

Nontechnical examination of social, educational, and political problems to which current linguistic knowledge is relevant. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Language and the Brain.** Same as Communication Sciences and Disorders 350. Prerequisite: Upper-division standing.

**Topic 2: Language and Thought.** Study of the relation between language and thought, using a cognitive science approach. Examines the words people use and how people think; whether language structure affects thought; and some cognitive aspects of language. Prerequisite: Upper-division standing.

**Topic 3: Sign Languages and Signing Communities.** Same as American Sign Language 326. Examines the grammar of signed languages, their use in signing communities, and the acquisition of signed languages as first languages. No knowledge of American Sign Language is required. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. Prerequisite: Upper-division standing.

**Topic 4: Language and People.** Areas in language and linguistics that most directly impact people, such as language and ethnicity, language and nation-building, and language politics. Prerequisite: Upper-division standing.

**Topic 5: Bilingual Language Acquisition.** Examines various aspects of bilingual first language acquisition including phonology, morphology, and syntax, as well as the child's use of his/her languages. Prerequisite: Upper-division standing.

**Topic 6: Indigenous Languages of the Americas.** Same as Latin American Studies 322 (Topic 15: Indigenous Languages of the Americas). Examines various aspects of languages in the Americas, including their linguistic structures, the cultural domains in which they exist, and their histories of language contact and change. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**Topic 9: Psycholinguistics.** Examines the psychological mechanisms that people use in learning, comprehending, and producing language. Prerequisite: Upper-division standing.

### **LIN 353C. Introduction to Computational Linguistics.**

Introduction to key representations and algorithms used in computational linguistics and the main natural language processing applications. Three lecture hours a week for one semester. Linguistics 350 (Topic: Introduction to Computational Linguistics) and 353C may not both be counted.

### **LIN 353N. Natural Language Processing.**

Introduces theoretical and applied topics relating to natural language processing, including machine translation, search, automatic summarization, and dialog systems. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 378 (Topic: Natural Language Processing), Linguistics 350 (Topic: Natural Language Processing), 353N.

### **LIN 357. Undergraduate Research.**

Supervised research experience. Individual instruction. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Upper-division standing and Linguistics 306 with a grade of at least C-.

### **LIN 358Q. Supervised Research.**

Supervised student-initiated research. Individual instruction. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Upper-division standing and Linguistics 306 with a grade of at least C-.

### **LIN 358S. Fundamentals of Speech Science.**

Same as Communication Sciences and Disorders 358S. Neurophysiological mechanisms underlying the encoding and decoding of speech. Three lecture hours a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 315S, 358S, 396N, Linguistics 315, 358S. Prerequisite: Upper-division standing and a University grade point average of at least 2.25; for Communication Sciences and Disorders majors, Communication Sciences and Disorders 313L and 358 with a grade of at least C in each.

### **LIN 360K. Introduction to English Grammar.**

Introduction to the study of the syntactic structure of modern English from the viewpoint of generative grammar. Three lecture hours a week for one semester. English 360K and Linguistics 360K may not both be counted. Prerequisite: Upper-division standing.

### **LIN 364M. History of the English Language.**

Same as English 364M. Development of sounds, forms, and vocabulary of the English language from its origins to the present. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

### **LIN 372K. Sound Patterns: From Sound to Word.**

Methods and principles of analyzing the sound systems of languages. Three lecture hours a week for one semester. Prerequisite: Linguistics 344K.

### **LIN 372L. Syntax and Semantics: The Structure and Meaning of Utterances.**

Methods and principles of describing the syntactic systems of languages. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and Linguistics 306.

### **LIN 373. Topics in Linguistics and Related Disciplines.**

Introduction to the study of the areas of linguistics that involve other disciplines, such as sociolinguistics, psycholinguistics, mathematical methods in linguistics. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Child Language.** Examination of theory and research concerning the development of language in the child. Linguistics 373 (Topic 1) and Psychology 333P may not both be counted. Prerequisite: Upper-division standing.

**Topic 2: Language and Speech in American Society.** Same as American Studies 321 (Topic 2: Language and Speech in American Society), Anthropology 325N, and Sociology 352M (Topic 3: Language and Speech in American Society). Prerequisite: Upper-division standing, and Anthropology 302, 305, 307, or Linguistics 306.

**Topic 3: Language in Culture and Society.** Same as Anthropology 325M and Sociology 352M (Topic 4: Language in Culture and Society). Language as a cultural resource; functions of language in society; survey of language communities. Prerequisite: Anthropology 302, 305, 307, or Linguistics 306; or consent of instructor.

**Topic 5: Sociolinguistics of German-Speaking Society.** Same as Germanic Civilization 327E (Topic 3: Sociolinguistics of German-Speaking Society). Prerequisite: Upper-division standing or consent of instructor.

**Topic 7: Introduction to Cognitive Science.** Same as Cognitive Science 360 (Topic 1: Introduction to Cognitive Science) and Philosophy 365 (Topic 2: Introduction to Cognitive Science). Prerequisite: Upper-division standing.

**Topic 8: German and English: Historical Perspectives.** Same as Anthropology 320L (Topic 8: German and English: Historical Perspectives), Classical Civilization 348 (Topic 8: German and English: Historical Perspectives), and Germanic Civilization 327E (Topic 9: German and English: Historical Perspectives). Only one of the following may be counted: Anthropology 320L (Topic 8), 320L (Topic 9: The German Language: Historical Perspectives), Classical Civilization 348 (Topic 8), 348 (Topic 9: The German Language: Historical Perspectives), German 369 (Topic 4: The German Language: Historical Perspectives), Germanic Civilization 327E (Topic 9), Linguistics 373 (Topic 8), 373 (Topic 9: The German Language: Historical Perspectives). Prerequisite: For English majors, completion of at least thirty semester hours of coursework, including English 316K or the equivalent; for others, upper-division standing.

**Topic 9: The German Language: Historical Perspectives.** Same as Anthropology 320L (Topic 9: The German Language: Historical Perspectives), Classical Civilization 348 (Topic 9: The German Language: Historical Perspectives), and German 369 (Topic 4: The German Language: Historical Perspectives). Only one of the following may be counted: Anthropology 320L (Topic 8: German and English: Historical Perspectives), 320L (Topic 9), Classical Civilization 348 (Topic 8: German and English: Historical Perspectives), 348 (Topic 9), German 369 (Topic 4), Germanic Civilization 327E (Topic 9: German and English: Historical Perspectives), Linguistics 373 (Topic 8: German and English: Historical Perspectives), 373 (Topic 9). Prerequisite: Six semester hours of upper-division coursework in German, or fourteen hours of coursework in German and six hours of coursework in linguistics.

### **LIN 374M. Sociolinguistics.**

Same as Anthropology 374M. An in-depth treatment of current interests in sociolinguistic research literature. Subjects include language and gender; social, regional, and ethnic dialects of American English; language use in African American communities; language and identity in a pluralistic society; and language, literacy, and education. Three lecture hours a week for one semester. Prerequisite: Anthropology 302 or Linguistics 306.

### **LIN 379. Conference Course in Linguistics.**

Supervised individual study of selected problems in linguistics. Conference course. May be repeated for credit. Prerequisite: Six semester hours of upper-division coursework in linguistics.

### **LIN 679H. Honors Tutorial Course.**

Supervised individual reading for one semester, followed by research and writing to produce a substantial paper. Conference course for two semesters. May be repeated for credit. Prerequisite: For 679HA, admission to the Linguistics Honors Program; for 679HB, Linguistics 679HA.

## **Department of Middle Eastern Studies**

Before enrolling for the first time in any language offered by the Department of Middle Eastern Studies, all students with knowledge of the language, however acquired, must be tested to determine the course for which they should register. Information about the tests is available from the departmental undergraduate adviser. The Department of Middle Eastern Studies considers students educated in a Middle Eastern language beyond the elementary school level to be native speakers of that language.

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 627).

### **Arabic: ARA**

#### **Lower-Division Courses**

##### **ARA 601C. Intensive Arabic I.**

Not open to native speakers of Arabic. First semester of intensive Arabic language instruction. Six lecture hours a week for one semester. Only one of the following may be counted: Arabic 601C, 506, 508. Arabic 601C and 106C may not both be counted.

##### **ARA 305. Arabic Tutorial.**

The basics of the Arabic language. Individual instruction. May not be used to fulfill the foreign language requirement for any bachelor's degree. Prerequisite: Consent of the faculty coordinator.

##### **ARA 506 (TCCN: ARAB 1511). First-Year Arabic I.**

Not open to native speakers of Arabic. First semester of Arabic language instruction. Five lecture hours a week for one semester. Only one of the following may be counted: Arabic 601C, 506, 508. Prerequisite: Credit or registration for Arabic 106C.

##### **ARA 106C. Conversation for First-Year Arabic I.**

Not open to native speakers of Arabic. One lecture hour a week for one semester. Arabic 601C and 106C may not both be counted. Prerequisite: Credit or registration for Arabic 506.

##### **ARA 507 (TCCN: ARAB 1512). First-Year Arabic II.**

Not open to native speakers of Arabic. Continuation of Arabic 506. Five lecture hours a week for one semester. Only one of the following may be counted: Arabic 507, 509, 611C. Prerequisite: Arabic 506 and 106C with a grade of at least C in each, and credit or registration for Arabic 107C.

##### **ARA 107C. Conversation for First-Year Arabic II.**

Not open to native speakers of Arabic. One lecture hour a week for one semester. Arabic 107C and 611C may not both be counted. Prerequisite: Arabic 506 and 106C with a grade of at least C in each, and credit or registration for Arabic 507.

##### **ARA 508. Modern Standard Arabic I.**

Designed to provide students with basic competence in Modern Standard Arabic, targeting the skills of speaking, reading, writing, and listening. Five lecture hours a week for one semester. Only one of the following may be counted: Arabic 601C, 506, 508.

### **ARA 509. Modern Standard Arabic II.**

Continuation of Arabic 508. Five lecture hours a week for one semester. Only one of the following may be counted: Arabic 507, 509, 611C. Prerequisite: Arabic 508 with a grade of at least C.

### **ARA 611C. Intensive Arabic II.**

Not open to native speakers of Arabic. Second semester of intensive Arabic language instruction. Six lecture hours a week for one semester. Only one of the following may be counted: Arabic 507, 509, 611C. Arabic 107C and 611C may not both be counted. Prerequisite: Arabic 506 and 106C with a grade of at least C in each, or Arabic 601C with a grade of at least C.

### **ARA 112C. Conversation for Second-Year Arabic I.**

Not open to native speakers of Arabic. One lecture hour a week for one semester. Arabic 112C and 621K may not both be counted. Prerequisite: Arabic 507 and 107C with a grade of at least C in each, and credit or registration for Arabic 512K.

### **ARA 112D. Conversation for Second-Year Arabic II.**

Not open to native speakers of Arabic. One lecture hour a week for one semester. Arabic 112D and 621L may not both be counted. Prerequisite: Arabic 112C and 512K (or 412K) with a grade of at least C in each, and credit or registration for Arabic 512L.

### **ARA 512K. Second-Year Arabic I.**

Not open to native speakers of Arabic. Five lecture hours a week for one semester. Only one of the following may be counted: Arabic 412K, 512K, 413, 621K. Prerequisite: Arabic 507 and 107C with a grade of at least C in each, and credit or registration for Arabic 112C.

### **ARA 512L. Second-Year Arabic II.**

Not open to native speakers of Arabic. Continuation of Arabic 512K. Five lecture hours a week for one semester. Only one of the following may be counted: Arabic 412L, 512L, 414, 621L. Prerequisite: Arabic 112C and 512K (or 412K) with a grade of at least C in each, and credit or registration for Arabic 112D.

### **ARA 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Arabic.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Middle Eastern Studies. University credit is awarded for work in an exchange program; it may be counted as coursework counted in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

## **Upper-Division Courses**

### **ARA 321. Introduction to Arabic Dialects.**

Introduction to Arabic as spoken throughout the Arab world. Three lecture hours a week for one semester. Prerequisite: Arabic 420K (or 320K) with a grade of at least C.

### **ARA 621K. Intensive Arabic III.**

Not open to native speakers of Arabic. Third semester of intensive Arabic language instruction. Six lecture hours a week for one semester. Only one of the following may be counted: Arabic 412K, 512K, 413, 621K. Arabic 112C and 621K may not both be counted.

Prerequisite: Arabic 507 and 107C with a grade of at least C in each, or Arabic 611C with a grade of at least C.

### **ARA 621L. Intensive Arabic IV.**

Not open to native speakers of Arabic. Fourth semester of intensive Arabic language instruction. Six lecture hours a week for one semester. Only one of the following may be counted: Arabic 412L, 512L, 414, 621L. Arabic 112D and 621L may not both be counted. Prerequisite: Arabic 112C and 512K (or 412K) with a grade of at least C in each, or 621K with a grade of at least C.

### **ARA 322K. Levantine Arabic.**

Not open to native speakers of Arabic. Three lecture hours a week for one semester. Prerequisite: Arabic 512L (or 412L) or 621L with a grade of at least C.

### **ARA 325K. Egyptian Arabic.**

Not open to native speakers of Arabic. Introduction to the Egyptian dialect of Arabic. Three lecture hours a week for one semester. Prerequisite: Arabic 512L (or 412L) or 621L with a grade of at least C.

### **ARA 327K. Advanced Spoken Media Arabic I.**

Development of the specialized vocabulary and skills needed in the media or public policy sectors of the Arab-speaking world. Three lecture hours a week for one semester. Prerequisite: Arabic 420L or 531L with a grade of at least B-.

### **ARA 327L. Advanced Spoken Media Arabic II.**

Development of the specialized vocabulary and skills needed in the media or public policy sectors of the Arab-speaking world. Three lecture hours a week for one semester. Prerequisite: Arabic 327K with a grade of at least B-.

### **ARA 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Arabic.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Middle Eastern Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **ARA 130D. Arabic across Disciplines.**

Students read and discuss Arabic language materials related to the subject matter of another designated course. One lecture hour a week for one semester. No more than three semester hours may be counted toward the major in either Middle Eastern Studies or Middle Eastern Languages and Culture. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

### **ARA 531K. Intensive Arabic V.**

Not open to native speakers of Arabic. Five lecture hours a week for one semester. Arabic 320K, 420K and 531K may not both be counted. Arabic 120C and 531K may not both be counted. Prerequisite: Arabic 112D and 512L (or 412L) with a grade of at least C in each, or Arabic 621L with a grade of at least C.

### **ARA 531L. Intensive Arabic VI.**

Not open to native speakers of Arabic. Sixth semester of intensive Arabic language instruction. Five lecture hours a week for one

semester. Arabic 320L, 420L and 531L may not both be counted. Arabic 120D and 531L may not both be counted. Prerequisite: Arabic 120C and 420K (or 320K) with a grade of at least C in each, or Arabic 531K with a grade of at least C.

### **ARA 360L. Topics in Arabic Language, Literature, and Culture.**

Close textual study of prose or poetry in Arabic. Some topics may focus on the cultural impact of literature and language. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing, and Arabic 120D and 420L with a grade of at least C in each, or Arabic 531L with a grade of at least C.

**Topic 2: Arab Women Poets.** Same as Islamic Studies 373 (Topic 7: Arab Women Poets) and Middle Eastern Studies 342 (Topic 26: Arab Women Poets). Only one of the following may be counted: Arabic 360L (Topic 2), Comparative Literature 323 (Topic: Arab Women Poets), Islamic Studies 372 (Topic 14: Arab Women Poets), 373 (Topic 7), Middle Eastern Studies 323K (Topic 4: Arab Women Poets), 342 (Topic 26).

**Topic 3: Politics of Court Literature.** Same as Islamic Studies 373 (Topic 6: Politics of Court Literature) and Middle Eastern Studies 342 (Topic 25: Politics of Court Literature). Only one of the following may be counted: Arabic 360L (Topic 3), Comparative Literature 323 (Topic: Politics of Court Literature), Islamic Studies 372 (Topic 19: Politics of Court Literature), 373 (Topic 6), Middle Eastern Studies 321K (Topic 14: Politics of Court Literature), 342 (Topic 25).

**Topic 4: Translating Arabic Texts.** Only one of the following may be counted: Arabic 360L (Topic 4), 380C (Topic 8: Translating Arabic Texts), Middle Eastern Studies 381 (Topic 39: Translating Arabic Texts).

### **ARA 679H. Honors Tutorial Course.**

Supervised individual reading for one semester, followed by research and writing to produce a substantial paper. Conference course for two semesters. Prerequisite: For 679HA, admission to the Arabic Language and Literature Honors Program; for 679HB, Arabic 679HA.

## **Hebrew: HEB**

### **Lower-Division Courses**

#### **HEB 601C. Intensive Hebrew I.**

First semester of intensive Hebrew language instruction. Six lecture hours a week for one semester. Hebrew 601C and 506 may not both be counted. Hebrew 601C and 507 may not both be counted.

#### **HEB 506. First-Year Hebrew I.**

Not open to native speakers of Hebrew. Modern Israeli Hebrew, including the writing system, basic sentence structure, vocabulary, and simple conversation. Five lecture hours a week for one semester. Hebrew 601C and 506 may not both be counted.

#### **HEB 507. First-Year Hebrew II.**

Not open to native speakers of Hebrew. Continuation of Hebrew 506. Five lecture hours a week for one semester. Hebrew 601C and 507 may not both be counted. Prerequisite: Hebrew 506 with a grade of at least C.

#### **HEB 508. First-Year Biblical Hebrew I.**

Introduction to biblical Hebrew, including basic lexicon and grammar. Emphasis on reading the Hebrew Bible; selected texts may include the

Creation, the Tower of Babel, the binding of Isaac, the Joseph story, and the David and Goliath story. Five lecture hours a week for one semester.

#### **HEB 509. First-Year Biblical Hebrew II.**

Builds on material covered in Hebrew 508. A thorough study of biblical Hebrew grammar, with emphasis on the verb system and the rules of sentence structure. Selected texts include biblical chapters of poetic, legal, and prophetic nature, such as the Ten Commandments, chapters from the Book of Leviticus, Psalms 23, 27, and 121, Proverbs 8 and 10, Isaiah 53, and Jeremiah 31. Five lecture hours a week for one semester. Prerequisite: Hebrew 508 with a grade of at least C.

#### **HEB 611C. Intensive Hebrew II.**

Second semester of intensive Hebrew language instruction. Six lecture hours a week for one semester. Hebrew 611C and 312K, 412K may not both be counted. Hebrew 611C and 312L, 412L may not both be counted. Prerequisite: Hebrew 601C or 507 with a grade of at least C.

#### **HEB 412K. Second-Year Hebrew I.**

Not open to native speakers of Hebrew. Modern Israeli Hebrew. Continuation of Hebrew 507 with expanded grammar and conversation. Four lecture hours a week for one semester. Hebrew 611C and 312K, 412K may not both be counted. Prerequisite: Hebrew 507 with a grade of at least C.

#### **HEB 412L. Second-Year Hebrew II.**

Not open to native speakers of Hebrew. Continuation of Hebrew 412K, with emphasis on conversation and composition. Four lecture hours a week for one semester. Hebrew 611C and 312L, 412L may not both be counted. Prerequisite: Hebrew 412K (or 312K) with a grade of at least C.

#### **HEB 313K. Second-Year Biblical Hebrew I.**

Builds on material covered in Hebrew 508 and 509. A thorough study of biblical Hebrew grammar, with emphasis on nominal structures and complex sentence structures. Students are introduced to the historical development of biblical Hebrew phonology and to the commonly used reference works. Selected texts include large sections from Genesis, the Book of Judges, the Book of Job, and the Scroll of Ruth. Three lecture hours a week for one semester. Prerequisite: Hebrew 509 with a grade of at least C.

#### **HEB 313L. Second-Year Biblical Hebrew II.**

Builds on material covered in Hebrew 313K. A study of biblical Hebrew, with an introduction to Mishnaic and Modern Hebrew. Focus on the historical development of the Hebrew language. The texts studied are taken from the Hebrew Bible and the Mishnah, and include poems from the Golden Age in Spain and Modern Hebrew poetry and prose. Three lecture hours a week for one semester. Prerequisite: Hebrew 313K with a grade of at least C.

#### **HEB 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Hebrew.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Middle Eastern Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

## Upper-Division Courses

### HEB 320K. Hebrew via Popular Culture.

Three lecture hours a week for one semester. Hebrew 320K and 346 (Topic 7: Hebrew via Popular Culture) may not both be counted. Prerequisite: Hebrew 611C or 412I (or 312L) with a grade of at least C.

### HEB 320L. Hebrew through the Media.

Three lecture hours a week for one semester. Hebrew 346 (Topic: Hebrew through the Media) and 320L may not both be counted. Prerequisite: Hebrew 320K (or 346, Topic 7: Hebrew through Popular Culture) with a grade of at least C.

### HEB 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Hebrew.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Middle Eastern Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### HEB 130D. Hebrew across Disciplines.

Students read and discuss Hebrew language materials related to the subject matter of another designated course. One lecture hour a week for one semester. No more than three semester hours may be counted toward the major in either Middle Eastern Studies or Middle Eastern Languages and Culture. May be repeated for credit. Prerequisite: Upper-division standing, Hebrew 611C or 412L (or 312L), and consent of instructor.

### HEB 346. Topics in Hebrew Language, Literature, and Culture.

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and Hebrew 412L (or 312L).

**Topic 8: Jerusalem in Israeli Literature.** Same as Jewish Studies 363 (Topic 18: Jerusalem in Israeli Literature).

**Topic 9: Mizrahi Writing in Israel.** Same as Jewish Studies 363 (Topic 8: Mizrahi Writing in Israel) and Middle Eastern Studies 342 (Topic 9: Mizrahi Writing in Israel). Only one of the following may be counted: Hebrew 346 (Topic 9), Jewish 363 (Topic 8), Middle Eastern Studies 325 (Topic 6: Mizrahi Writing in Israel), 342 (Topic 9). Additional prerequisite: Hebrew 412L (or 312L) or 320L with a grade of at least C.

### HEB 679H. Honors Tutorial Course.

Supervised individual reading for one semester, followed by research and writing to produce a substantial paper. Conference course for two semesters. Must be taken for special honors in addition to the major requirement. Prerequisite: For 679HA, upper-division standing and admission to the Hebrew Language and Literature Honors Program; for 679HB, Hebrew 679HA with a grade of A.

## Islamic Studies: ISL

### Lower-Division Courses

#### ISL 310. Introduction to Islam.

Same as History 306N (Topic 7: Introduction to Islam) and Religious Studies 319. The beliefs, theology, history, and main social and legal institutions of Islam, including the concept of God and society, the role of women, and Islamic government and movements. Three lecture hours a week for one semester. Only one of the following may be counted: History 306N (Topic 7), Islamic Studies 310, Middle Eastern Studies 310 (Topic 1: Introduction to Islam), Religious Studies 319.

#### ISL 311. Topics in Islamic Studies.

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Introduction to the Middle East: Religious, Cultural, and Historical Foundations.** A survey of the history and civilization of the Middle East from the sixth to the fourteenth century.

**Topic 2: Judaism, Christianity, and Islam: An Introduction.**

Same as History 304R, Jewish Studies 311 (Topic 2: Judaism, Christianity, and Islam: An Introduction), and Religious Studies 304. Examines the intertwined historical developments of the religions of Judaism, Christianity, and Islam, and explores the principal beliefs and practices of Jews, Christians, and Muslims.

### Upper-Division Courses

#### ISL 340. Topics in Islam.

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Prophet of Islam: His Life and Times.** Same as History 364G (Topic 2: Prophet of Islam: His Life and Times) and Religious Studies 325. A detailed study of the prophet Muhammad's life and message, and of the means by which his life was recorded and popularized. Only one of the following may be counted: History 364G (Topic 2), Islamic Studies 340 (Topic 1), Middle Eastern Studies 321K (Topic 6: Prophet of Islam: His Life and Times), Religious Studies 325. Prerequisite: Upper-division standing.

**Topic 2: The Qur'an.** Same as Middle Eastern Languages and Cultures 321 (Topic 9: The Qur'an), Middle Eastern Studies 342 (Topic 16: The Qur'an), and Religious Studies 325G. The history, language and style, and themes of the Qur'an. Only one of the following may be counted: Arabic 372 (Topic 2: The Qur'an), Islamic Studies 340 (Topic 2), Middle Eastern Languages and Cultures 321 (Topic 9), Middle Eastern Studies 320 (Topic 14: The Qur'an), 342 (Topic 16), Religious Studies 325G. Prerequisite: Upper-division standing.

**Topic 3: Classical Islamic Studies.** Same as Middle Eastern Languages and Cultures 321 (Topic 15: Classical Islamic Studies) and Middle Eastern Studies 342 (Topic 15: Classical Islamic Studies). Only one of the following may be counted: Arabic 372 (Topic 1: Classical Islamic Studies), Islamic Studies 340 (Topic 3), Middle Eastern Languages and Cultures 321 (Topic 15), Middle Eastern Studies 321K (Topic 11: Classical Islamic Studies), 342 (Topic 15). Prerequisite: Upper-division standing.

**Topic 4: Sufism and Islamic Mysticism.** Same as Middle Eastern Studies 342 (Topic 24: Sufism and Islamic Mysticism) and Religious Studies 358 (Topic 4: Sufism and Islamic Mysticism). Muslim debates of Sufism; the historical development of Sufi beliefs regarding theology, religious laws, expression, and popular social

practices. Only one of the following may be counted: Asian Studies 340 (Topic: Sufism and Islamic Mysticism), History 364G (Topic: Sufism and Islamic Mysticism), Islamic Studies 340 (Topic 4), 372 (Topic 10: Sufism: Islamic Mysticism and Spirituality), Middle Eastern Studies 320 (Topic 16: Sufism: Islamic Mysticism and Spirituality), 321K (Topic: Sufism and Islamic Mysticism), 342 (Topic 24), Religious Studies 341 (Topic: Sufism and Islamic Mysticism), 358 (Topic 4). Prerequisite: Upper-division standing.

### ISL 369. Conference Course in Islamic Studies.

Supervised individual study of selected problems in Islamic studies. Conference course. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

### ISL 372. Topics in Islamic Cultures.

Three lecture hours a week for one semester; additional hours may be required for some topics. Islamic Studies 372 and 373 may not both be counted unless the topics vary. Some topics partially fulfill legislative requirement for American history. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 2: Veiling in the Muslim World.** Same as Asian Studies 372 (Topic 14: Veiling in the Muslim World), Religious Studies 358 (Topic 5: Veiling in the Muslim World), and Women's and Gender Studies 340 (Topic 11: Veiling in the Muslim World). Only one of the following may be counted: Asian Studies 372 (Topic 14), Islamic Studies 372 (Topic 2), Middle Eastern Studies 322K (Topic 17: Veiling in the Muslim World), Religious Studies 358 (Topic 5), Women's and Gender Studies 340 (Topic 11). Prerequisite: Upper-division standing.

**Topic 11: Sacred and Ceremonial Textiles.** Same as Anthropology 324L (Topic 29: Sacred and Ceremonial Textiles). Textiles and material objects indigenous to the Islamic world, and what they reveal about the culture of various Islamic societies. Only one of the following may be counted: Anthropology 324L (Topic 29), Islamic Studies 372 (Topic 11), Middle Eastern Studies 322K (Topic 24: Sacred and Ceremonial Textiles). Prerequisite: Upper-division standing.

**Topic 12: Muslim Women: Past and Present I.** Survey of the role of women in Islamic societies from the Middle Ages to the eighteenth century, with a glimpse into modern times. Islamic Studies 372 (Topic 12) and Middle Eastern Studies 321K (Topic 9: Muslim Women: Past and Present I) may not both be counted. Prerequisite: Upper-division standing.

**Topic 13: Muslim Women: Past and Present II.** Survey of the role of women in the modern Muslim world, with a glimpse into historical developments within Islamic societies. Islamic Studies 372 (Topic 13) and Middle Eastern Studies 321K (Topic 10: Muslim Women: Past and Present II) may not both be counted. Prerequisite: Upper-division standing.

### ISL 373. Topics in Middle Eastern Islamic Cultures.

Three lecture hours a week for one semester; additional hours may be required for some topics. Islamic Studies 372 and 373 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 1: Introduction to Arabic Literature.** Same as Middle Eastern Languages and Cultures 321 (Topic 1: Introduction to Arabic Literature) and Middle Eastern Studies 342 (Topic 1: Introduction to Arabic Literature). General survey of major themes, genres, and artists in the Arabic literary tradition from the sixth century to the modern era. Only one of the following may be counted: Arabic 322, Islamic Studies 372 (Topic 15: Introduction

to Arabic Literature), 373 (Topic 1), Middle Eastern Languages and Cultures 321 (Topic 1), Middle Eastern Studies 3232K (Topic 5: Introduction to Arabic Literature), 328 (Topic: Introduction to Arabic Literature), 342 (Topic 1), Religious Studies 358 (Topic 1: Introduction to Arabic Literature). Prerequisite: Upper-division standing.

**Topic 2: Loyalty and Rebellion in Arabic Literature.** Same as Middle Eastern Languages and Cultures 321 (Topic 2: Loyalty and Rebellion in Arabic Literature) and Middle Eastern Studies 342 (Topic 2: Loyalty and Rebellion in Arabic Literature). Only one of the following may be counted: Arabic 360K (Topic 4: Loyalty and Rebellion in Arabic Literature), Islamic Studies 372 (Topic 16: Loyalty and Rebellion in Arabic Literature), 373 (Topic 2), Middle Eastern Languages and Cultures 321 (Topic 2), Middle Eastern Studies 321K (Topic 12: Loyalty and Rebellion in Arabic Literature), 342 (Topic 2). Prerequisite: Upper-division standing.

**Topic 3: Memory and Identity in Ancient Arabia.** Same as Middle Eastern Languages and Cultures 321 (Topic 3: Memory and Identity in Ancient Arabia) and Middle Eastern Studies 342 (Topic 3: Memory and Identity in Ancient Arabia). Only one of the following may be counted: Arabic 360K (Topic 5: Memory and Identity in Ancient Arabia), Islamic Studies 372 (Topic 17: Memory and Identity in Ancient Arabia), Islamic Studies 373 (Topic 3), Middle Eastern Languages and Cultures 321 (Topic 3), Middle Eastern Studies 321K (Topic 13: Memory and Identity in Ancient Arabia), 342 (Topic 3). Prerequisite: Upper-division standing.

**Topic 4: The Arabian Nights.** Same as Middle Eastern Languages and Cultures 321 (Topic 4: The Arabian Nights) and Middle Eastern Studies 342 (Topic 4: The Arabian Nights). Only one of the following may be counted: Arabic 360K (Topic 6: The Arabian Nights), Comparative Literature 323 (Topic: The Arabian Nights), Islamic Studies 372 (Topic 18: The Arabian Nights), Islamic Studies 373 (Topic 4), Middle Eastern Languages and Cultures 321 (Topic 4), Middle Eastern Studies 323K (Topic 6: The Arabian Nights), 328 (Topic: The Arabian Nights), 342 (Topic 4), Religious Studies 358 (Topic: The Arabian Nights), Women's and Gender Studies 340 (Topic: The Arabian Nights). Prerequisite: Upper-division standing.

**Topic 5: Modern Egypt: A History.** Same as History 334E and Middle Eastern Studies 343 (Topic 1: Modern Egypt: A History). Critically examines the social, political, and intellectual dynamics that shaped the different forms of political community, economic organization, and public culture over the past century. Covers colonialism, liberalism, Arab socialism, authoritarian capitalism, and Islamic republicanism. Only one of the following may be counted: Arabic 372 (Topic: Modern Egypt: A History), History 334E, History 364G (Topic: Modern Egypt: A History), Islamic Studies 372 (Topic: Modern Egypt: A History), 373 (Topic 5), Middle Eastern Studies 322K (Topic: Modern Egypt: A History), 343 (Topic 1). Prerequisite: Upper-division standing.

**Topic 6: Politics of Court Literature.** Same as Arabic 360L (Topic 3: Politics of Court Literature) and Middle Eastern Studies 342 (Topic 25: Politics of Court Literature). Only one of the following may be counted: Arabic 360L (Topic 3), Comparative Literature 323 (Topic: Politics of Court Literature), Islamic Studies 372 (Topic 19: Politics of Court Literature), 373 (Topic 6), Middle Eastern Studies 321K (Topic 14: Politics of Court Literature), 342 (Topic 25). Prerequisite: Upper-division standing; Arabic 120D and 420L with a grade of at least C in each, or Arabic 531L with a grade of at least C.

**Topic 7: Arab Women Poets.** Same as Arabic 360L (Topic 2: Arab Women Poets) and Middle Eastern Studies 342 (Topic 26: Arab Women Poets). Only one of the following may be counted: Arabic 360L (Topic 2), Comparative Literature 323 (Topic: Arab Women Poets), Islamic Studies 372 (Topic 14: Arab Women Poets), 373

(Topic 7), Middle Eastern Studies 323K (Topic 4: Arab Women Poets), 342 (Topic 26). Prerequisite: Upper-division standing, and Arabic 120D and 420L with a grade of at least C in each, or Arabic 531L with a grade of at least C.

### **ISL 679H. Honors Tutorial Course.**

Supervised individual reading for one semester, following by research and writing to produce a substantial paper on a specific topic in Islamic studies to be completed during the second semester. Conference course for two semesters. Prerequisite: For 679HA, upper-division standing and admission to the Islamic Studies Honors Program; for 679HB, Islamic Studies 679HA.

## **Middle Eastern Languages and Cultures: MEL**

### **Lower-Division Courses**

#### **MEL 301. Gateway to the Middle East.**

Three lecture hours a week for one semester.

### **Upper-Division Courses**

#### **MEL 321. Topics in Middle Eastern Languages and Cultures.**

Three lecture hours a week for one semester. Only one of the following may be counted unless the topics vary: Arabic 322, 360K, 372; Hebrew 372, 374; Islamic Studies 372; Persian 361, 372; Turkish 361, 372; Middle Eastern Languages and Cultures 321; Middle Eastern Studies 342. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 1: Introduction to Arabic Literature.** Same as Islamic Studies 373 (Topic 1: Introduction to Arabic Literature) and Middle Eastern Studies 342 (Topic 1: Introduction to Arabic Literature). General survey of major themes, genres, and artists in the Arabic literary tradition from the sixth century to the modern era. Only one of the following may be counted: Arabic 322, Islamic Studies 372 (Topic 15: Introduction to Arabic Literature), 373 (Topic 1), Middle Eastern Languages and Cultures 321 (Topic 1), Middle Eastern Studies 3232K (Topic 5: Introduction to Arabic Literature), 328 (Topic: Introduction to Arabic Literature), 342 (Topic 1), Religious Studies 358 (Topic 1: Introduction to Arabic Literature). Prerequisite: Upper-division standing.

**Topic 2: Loyalty and Rebellion in Arabic Literature.** Same as Islamic Studies 373 (Topic 2: Loyalty and Rebellion in Arabic Literature) and Middle Eastern Studies 342 (Topic 2: Loyalty and Rebellion in Arabic Literature). Only one of the following may be counted: Arabic 360K (Topic 4: Loyalty and Rebellion in Arabic Literature), Islamic Studies 372 (Topic 16: Loyalty and Rebellion in Arabic Literature), 373 (Topic 2), Middle Eastern Languages and Cultures 321 (Topic 2), Middle Eastern Studies 321K (Topic 12: Loyalty and Rebellion in Arabic Literature), 342 (Topic 2). Prerequisite: Upper-division standing.

**Topic 3: Memory and Identity in Ancient Arabia.** Same as Islamic Studies 373 (Topic 3: Memory and Identity in Ancient Arabia) and Middle Eastern Studies 342 (Topic 3: Memory and Identity in Ancient Arabia). Only one of the following may be counted: Arabic 360K (Topic 5: Memory and Identity in Ancient Arabia), Islamic Studies 372 (Topic 17: Memory and Identity in Ancient Arabia), Islamic Studies 373 (Topic 3), Middle Eastern Languages and Cultures 321 (Topic 3), Middle Eastern Studies 321K (Topic 13: Memory and Identity in Ancient Arabia), 342 (Topic 3). Prerequisite: Upper-division standing.

**Topic 4: The Arabian Nights.** Same as Islamic Studies 373 (Topic 4: The Arabian Nights) and Middle Eastern Studies 342 (Topic 4: The Arabian Nights). Only one of the following may be counted: Comparative Literature 323 (Topic: The Arabian Nights), Middle Eastern Languages and Cultures 321 (Topic 4), Middle Eastern Studies 323K (Topic 6: The Arabian Nights), Religious Studies 358 (Topic: The Arabian Nights), Women's and Gender Studies 340 (Topic: The Arabian Nights). Prerequisite: Upper-division standing.

**Topic 5: Introduction to Israeli Literature.** Same as Jewish Studies 363 (Topic 17: Introduction to Israeli Literature) and Middle Eastern Studies 342 (Topic 5: Introduction to Israeli Literature). Only one of the following may be counted: Comparative Literature 323 (Topic: Introduction to Israeli Literature), English 322 (Topic: Introduction to Israeli Literature), Middle Eastern Studies 325 (Topic 7: Introduction to Israeli Literature). Prerequisite: Upper-division standing.

**Topic 6: Love and the State in Contemporary Israeli Literature.** Same as Jewish Studies 363 (Topic 7: Love and the State in Contemporary Israeli Literature) and Middle Eastern Studies 342 (Topic 6: Love and the State in Contemporary Israeli Literature). Only one of the following may be counted: Comparative Literature 323 (Topic: Love and State in Contemporary Israeli Literature), English 322 (Topic: Love and State in Contemporary Israeli Literature), Hebrew 374 (Topic 9: Love and the State in Contemporary Israeli Literature), Jewish Studies 363 (Topic 7), Middle Eastern Languages and Cultures 321 (Topic 6), Middle Eastern Studies 322K (Topic 27: Love and the State in Contemporary Israeli Literature), 342 (Topic 6), Women's and Gender Studies 340 (Topic: Love and State in Contemporary Israeli Literature). Prerequisite: Upper-division standing.

**Topic 7: Postmodernist Israeli Literature.** Same as Jewish Studies 363 (Topic 19: Postmodernist Israeli Literature) and Middle Eastern Studies 342 (Topic 7: Postmodernist Israeli Literature). Study of the first decades of Israeli literature. Themes include the establishment of a new state in the aftermath of the Holocaust, conflict between Israel and Arab nations, and conflict between Israelis and Palestinians. Only one of the following may be counted: Comparative Literature 323 (Topic: Postmodernist Israeli Literature), English 322 (Topic: Postmodernist Israeli Literature), Hebrew 374 (Topic 8: Postmodernist Israeli Literature), Jewish Studies 363 (Topic 19), Middle Eastern Languages and Cultures 321 (Topic 7), Middle Eastern Studies 325 (Topic: Postmodernist Israeli Literature), 342 (Topic 7). Prerequisite: Upper-division standing.

**Topic 8: The Sacred and the Secular in Contemporary Jewish Literature.** Same as Jewish Studies 363 (Topic 10: The Sacred and the Secular in Contemporary Jewish Literature) and Middle Eastern Studies 342 (Topic 8: The Sacred and the Secular in Contemporary Jewish Literature). Only one of the following may be counted: Comparative Literature 323 (Topic: The Sacred and the Secular in Contemporary Jewish Literature), English 322 (Topic: The Sacred and the Secular in Contemporary Jewish Literature), Hebrew 374 (Topic 11: The Sacred and the Secular in Contemporary Jewish Literature), Jewish Studies 363 (Topic 10), Middle Eastern Languages and Cultures 321 (Topic 8), Middle Eastern Studies 322K (Topic 28: The Sacred and the Secular in Contemporary Jewish Literature), 342 (Topic 8), Religious Studies 353 (Topic: The Sacred and the Secular in Contemporary Jewish Literature). Prerequisite: Upper-division standing.

**Topic 9: The Qur'an.** Same as Islamic Studies 340 (Topic 2: The Qur'an), Middle Eastern Studies 342 (Topic 16: The Qur'an), and Religious Studies 325G. The history, language and style, and themes of the Qur'an. Only one of the following may be counted: Arabic 372 (Topic 2: The Qur'an), Islamic Studies 340 (Topic 2), Middle Eastern Languages and Cultures 321 (Topic 9), Middle

Eastern Studies 320 (Topic 14: The Qur'an), 342 (Topic 16), Religious Studies 325G. Prerequisite: Upper-division standing.

**Topic 10: Persian Literature, Past and Present.** Same as Middle Eastern Studies 342 (Topic 10: Persian Literature, Past and Present). Only one of the following may be counted: Middle Eastern Languages and Cultures 321 (Topic 10), Middle Eastern Studies 322K (Topic 9: Persian Literature, Past and Present), 342 (Topic 10), Persian 361 (Topic 2: Persian Literature, Past and Present). Prerequisite: Upper-division standing.

**Topic 11: Iranian Women Writers.** Same as Middle Eastern Studies 342 (Topic 11: Iranian Women Writers) and Women's and Gender Studies 340 (Topic 10: Iranian Women Writers). Only one of the following may be counted: Middle Eastern Languages and Cultures 321 (Topic 11), Middle Eastern Studies 324K (Topic 1: Iranian Women Writers), 342 (Topic 11), Persian 361 (Topic 3: Iranian Women Writers), WGS 340 (Topic 10). Prerequisite: Upper-division standing or consent of instructor.

**Topic 12: Images of the West and Westerners in Persian Fiction.** Same as Middle Eastern Studies 342 (Topic 12: Images of the West and Westerners in Persian Fiction). Only one of the following may be counted: Middle Eastern Languages and Cultures 321 (Topic 12), Middle Eastern Studies 324K (Topic 3: Images of the West and Westerners in Persian Fiction), 342 (Topic 12), Persian 361 (Topic 1: Images of the West and Westerners in Persian Fiction). Prerequisite: Upper-division standing.

**Topic 13: Iranian Literature in Exile.** Same as Middle Eastern Studies 342 (Topic 13: Iranian Literature in Exile). Only one of the following may be counted: Middle Eastern Languages and Cultures 321 (Topic 13), Middle Eastern Studies 324K (Topic 2: Iranian Literature in Exile), 342 (Topic 13), Persian 361 (Topic 4: Iranian Literature in Exile). Prerequisite: Upper-division standing.

**Topic 14: Iranian Film and Fiction.** Same as Middle Eastern Studies 342 (Topic 14: Iranian Film and Fiction). Only one of the following may be counted: Middle Eastern Languages and Cultures 321 (Topic 14), Middle Eastern Studies 324K (Topic 4: Iranian Film and Fiction), 342 (Topic 14), Persian 361 (Topic 5: Iranian Film and Fiction). Prerequisite: Upper-division standing.

**Topic 15: Classical Islamic Studies.** Same as Islamic Studies 340 (Topic 3: Classical Islamic Studies) and Middle Eastern Studies 342 (Topic 15: Classical Islamic Studies). Only one of the following may be counted: Arabic 372 (Topic 1: Classical Islamic Studies), Islamic Studies 340 (Topic 3), Middle Eastern Languages and Cultures 321 (Topic 15), Middle Eastern Studies 321K (Topic 11: Classical Islamic Studies), 342 (Topic 15). Prerequisite: Upper-division standing.

### **MEL 323. Engaging the Middle East.**

Three lecture hours a week for one semester. Prerequisite: Upper-division standing and Middle Eastern Languages and Cultures 301.

### **MEL 379. Conference Course.**

Supervised individual study of selected problems in Middle Eastern languages and cultures. Conference course. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

### **MEL 679H. Honors Tutorial Course.**

Supervised individual reading for one semester, followed by research and writing to produce a substantial paper on a literary or linguistic problem. Conference course for two semesters. Prerequisite: For 679HA, admission to the Middle Eastern Languages and Cultures Honors Program; for 679HB, Middle Eastern Languages and Cultures 679HA.

## **Middle Eastern Studies: MES**

### **Lower-Division Courses**

#### **MES 301K. Introduction to the Middle East: Religious, Cultural, and Historical Foundations.**

Same as History 306K. A survey of the history and civilization of the Middle East from the sixth to the fourteenth century. Three lecture hours a week for one semester.

#### **MES 301L. Introduction to the Middle East: Adjustment and Change in Modern Times.**

Same as Government 314 (Topic 3: Introduction to the Middle East: Adjustment and Change in Modern Times) and History 306N (Topic 5: Introduction to the Middle East: Adjustment and Change in Modern Times). The responses of the societies of the Middle East and North Africa (Turkey, Iran, Afghanistan, Israel, and the Arab world) to Western cultural and political challenges, primarily since about 1800. Three lecture hours a week for one semester.

#### **MES 106, 206, 306. Introduction to Middle Eastern Languages and Cultures.**

One, two, or three lecture hours a week for one semester.

#### **MES 310. Topics in Middle Eastern Studies.**

Studies of areas and issues in the Middle East and North Africa. Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

#### **MES 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Middle Eastern Studies.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Middle Eastern Studies. University credit is awarded to work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **Upper-Division Courses**

#### **MES 127. Middle Eastern Cultural Exchange.**

Provides an opportunity for students to interact with peer groups in Middle Eastern countries in which Arabic, Hebrew, Persian, and Turkish are spoken. Students engage in a variety of cultural activities and correspond with peer groups via blogs and Internet discussion forums. One lecture hour a week for one semester. Offered on the pass/fail basis only. Prerequisite: Upper-division standing.

#### **MES 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Middle Eastern Studies.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Middle Eastern Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **MES 331C. History of the Ottoman Empire.**

Same as History 331C. A survey of Ottoman society and culture and of the empire's place on the world scene. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **MES 334C. Music Cultures of the Middle East, Past and Present.**

Same as History 334C. A historical and ethnomusicological survey of the Arab, Turkish, and Persian music cultures. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **MES 341. Topics in the Middle East: Social Science.**

Three lecture hours a week for one semester. Only one of the following may be counted unless the topics vary: Middle Eastern Studies 320, 321K, 322K, 323K, 324K, 325, 326, 328, 341. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 1: Geography of the Middle East.** Same as Geography 328. Major elements of physical and social environment in the region extending from Egypt to Afghanistan. Only one of the following may be counted: Geography 328, Middle Eastern Studies 322K (Topic 3: Geography of the Middle East), 341 (Topic 1). Prerequisite: Upper-division standing.

**Topic 2: Business in Emerging Markets.** Same as International Business 372 (Topic 2: Business in Emerging Markets) and Latin American Studies 322 (Topic 9: Business in Emerging Markets). Only one of the following may be counted: International Business 372 (Topic 2), Latin American Studies 322 (Topic 9), Middle Eastern Studies 322K (Topic 4: Business in Emerging Markets), 341 (Topic 2). Prerequisite: Upper-division standing.

**Topic 4: Development Communication.** Same as Radio-Television-Film 342 (Topic 6: Development Communication). Only one of the following may be counted: Middle Eastern Studies 322K (Topic 14: Development Communication), 341 (Topic 4), Radio-Television-Film 342 (Topic 6). Prerequisite: For radio-television-film majors, upper-division standing and the following coursework, with a grade of at least C in each course: Radio-Television-Film 305 and nine additional semester hours of lower-division coursework in radio-television-film; for others, upper-division standing and consent of instructor.

**Topic 5: Arab-Israeli Politics.** Same as Government 320L. In-depth study of domestic, regional, and international factors involved in politics in the Middle East, including simulation of diplomatic interaction in the Arab-Israeli conflict. Only one of the following may be counted: Government 320L, Middle Eastern Studies 322K (Topic 30: Arab-Israeli Politics), 323K (Topic 1: Arab-Israeli Politics), 341 (Topic 5). Prerequisite: Upper-division standing.

### **MES 342. Topics in the Middle East: Arts and Humanities.**

Three lecture hours a week for one semester. Only one of the following may be counted unless the topics vary: Middle Eastern Studies 320, 321K, 322K, 323K, 324K, 325, 326, 328, 342. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 1: Introduction to Arabic Literature.** Same as Islamic Studies 373 (Topic 1: Introduction to Arabic Literature) and Middle Eastern Languages and Cultures 321 (Topic 1: Introduction to Arabic Literature). General survey of major themes, genres, and artists in the Arabic literary tradition from the sixth century to the modern era. Only one of the following may be counted: Arabic 322, Islamic Studies 372 (Topic 15: Introduction to Arabic Literature), 373 (Topic 1), Middle Eastern Languages and Cultures 321 (Topic 1), Middle Eastern Studies 3232K (Topic 5: Introduction to Arabic Literature), 328 (Topic: Introduction to Arabic Literature), 342 (Topic

1), Religious Studies 358 (Topic 1: Introduction to Arabic Literature). Prerequisite: Upper-division standing.

**Topic 2: Loyalty and Rebellion in Arabic Literature.** Same as Islamic Studies 373 (Topic 2: Loyalty and Rebellion in Arabic Literature) and Middle Eastern Languages and Cultures 321 (Topic 2: Loyalty and Rebellion in Arabic Literature). Only one of the following may be counted: Arabic 360K (Topic 4: Loyalty and Rebellion in Arabic Literature), Islamic Studies 372 (Topic 16: Loyalty and Rebellion in Arabic Literature), Middle Eastern Studies 342 (Topic 2). Prerequisite: Upper-division standing.

**Topic 3: Memory and Identity in Ancient Arabia.** Same as Islamic Studies 373 (Topic 3: Memory and Identity in Ancient Arabia) and Middle Eastern Languages and Cultures 321 (Topic 3: Memory and Identity in Ancient Arabia). Only one of the following may be counted: Arabic 360K (Topic 5: Memory and Identity in Ancient Arabia), Islamic Studies 372 (Topic 17: Memory and Identity in Ancient Arabia), Islamic Studies 373 (Topic 3), Middle Eastern Languages and Cultures 321 (Topic 3), Middle Eastern Studies 321K (Topic 13: Memory and Identity in Ancient Arabia), 342 (Topic 3). Prerequisite: Upper-division standing.

**Topic 4: The Arabian Nights.** Same as Islamic Studies 373 (Topic 4: The Arabian Nights) and Middle Eastern Languages and Cultures 321 (Topic 4: The Arabian Nights). Only one of the following may be counted: Arabic 360K (Topic 6: The Arabian Nights), Comparative Literature 323 (Topic: The Arabian Nights), Islamic Studies 372 (Topic 18: The Arabian Nights), Middle Eastern Studies 342 (Topic 4), Religious Studies 358 (Topic: The Arabian Nights), Women's and Gender Studies 340 (Topic: The Arabian Nights). Prerequisite: Upper-division standing.

**Topic 5: Introduction to Israeli Literature.** Same as Jewish Studies 363 (Topic 17: Introduction to Israeli Literature) and Middle Eastern Languages and Cultures 321 (Topic 5: Introduction to Israeli Literature). Only one of the following may be counted: English 322 (Topic: Introduction to Israeli Literature), Comparative Literature 323 (Topic: Introduction to Israeli Literature), Hebrew 374 (Topic 10: Introduction to Israeli Literature), Middle Eastern Studies 342 (Topic 5). Prerequisite: Upper-division standing.

**Topic 6: Love and the State in Contemporary Israeli Literature.** Same as Jewish Studies 363 (Topic 7: Love and the State in Contemporary Israeli Literature) and Middle Eastern Languages and Cultures 321 (Topic 6: Love and the State in Contemporary Israeli Literature). Only one of the following may be counted: Comparative Literature Only one of the following may be counted: Comparative Literature Only one of the following may be counted: Comparative Literature Only one of the following may be counted: Comparative Literature 323 (Topic: Love and State in Contemporary Israeli Literature), English 322 (Topic: Love and State in Contemporary Israeli Literature), Hebrew 374 (Topic 9: Love and the State in Contemporary Israeli Literature), Jewish Studies 363 (Topic 7), Middle Eastern Languages and Cultures 321 (Topic 6), Middle Eastern Studies 322K (Topic 27: Love and the State in Contemporary Israeli Literature), 342 (Topic 6), Women's and Gender Studies 340 (Topic: Love and State in Contemporary Israeli Literature). Prerequisite: Upper-division standing.

**Topic 7: Postmodernist Israeli Literature.** Same as Jewish Studies 363 (Topic 19: Postmodernist Israeli Literature) and Middle Eastern Languages and Cultures 321 (Topic 7: Postmodernist Israeli Literature). Study of the first decades of Israeli literature. Themes include the establishment of a new state in the aftermath of the Holocaust, conflict between Israel and Arab nations, and conflict between Israelis and Palestinians. Only one of the following may be counted: Comparative Literature 323 (Topic: Postmodernist Israeli Literature), English 322 (Topic: Postmodernist Israeli Literature), Hebrew 374 (Topic 8: Postmodernist Israeli Literature), Jewish

Studies 363 (Topic 19), Middle Eastern Languages and Cultures 321 (Topic 7), Middle Eastern Studies 325 (Topic: Postmodernist Israeli Literature), 342 (Topic 7). Prerequisite: Upper-division standing.

**Topic 8: The Sacred and the Secular in Contemporary Jewish Literature.** Same as Jewish Studies 363 (Topic 10: The Sacred and the Secular in Contemporary Jewish Literature) and Middle Eastern Languages and Cultures 321 (Topic 8: The Sacred and the Secular in Contemporary Jewish Literature). Only one of the following may be counted: Comparative Literature 323 (Topic: The Sacred and the Secular in Contemporary Jewish Literature), English 322 (Topic: The Sacred and the Secular in Contemporary Jewish Literature), Hebrew 374 (Topic 11: The Sacred and the Secular in Contemporary Jewish Literature), Jewish Studies 363 (Topic 10), Middle Eastern Languages and Cultures 321 (Topic 8), Middle Eastern Studies 322K (Topic 28: The Sacred and the Secular in Contemporary Jewish Literature), 342 (Topic 8), Religious Studies 353 (Topic: The Sacred and the Secular in Contemporary Jewish Literature). Prerequisite: Upper-division standing.

**Topic 9: Mizrahi Writing in Israel.** Same as Hebrew 346 (Topic 9: Mizrahi Writing in Israel) and Jewish Studies 363 (Topic 8: Mizrahi Writing in Israel). Only one of the following may be counted: Hebrew 346 (Topic 9), Jewish 363 (Topic 8), Middle Eastern Studies 325 (Topic 6: Mizrahi Writing in Israel), 342 (Topic 9). Prerequisite: Upper-division standing, and Hebrew 412L (or 312L) or 320L with a grade of at least C.

**Topic 10: Persian Literature, Past and Present.** Same as Middle Eastern Languages and Cultures 321 (Topic 10: Persian Literature, Past and Present). Only one of the following may be counted: Middle Eastern Languages and Cultures 321 (Topic 10), Middle Eastern Studies 322K (Topic 9: Persian Literature, Past and Present), 342 (Topic 10), Persian 361 (Topic 2: Persian Literature, Past and Present). Prerequisite: Upper-division standing.

**Topic 11: Iranian Women Writers.** Same as Middle Eastern Languages and Cultures 321 (Topic 11: Iranian Women Writers) and Women's and Gender Studies 340 (Topic 10: Iranian Women Writers). Only one of the following may be counted: Middle Eastern Languages and Cultures 321 (Topic 11), Middle Eastern Studies 324K (Topic 1: Iranian Women Writers), 342 (Topic 11), Persian 361 (Topic 3: Iranian Women Writers), WGS 340 (Topic 10). Prerequisite: Upper-division standing.

**Topic 12: Images of the West and Westerners in Persian Fiction.** Same as Middle Eastern Languages and Cultures 321 (Topic 12: Images of the West and Westerners in Persian Fiction). Only one of the following may be counted: Middle Eastern Languages and Cultures 321 (Topic 12), Middle Eastern Studies 324K (Topic 3: Images of the West and Westerners in Persian Fiction), 342 (Topic 12), Persian 361 (Topic 1: Images of the West and Westerners in Persian Fiction). Prerequisite: Upper-division standing.

**Topic 13: Iranian Literature in Exile.** Same as Middle Eastern Languages and Cultures 321 (Topic 13: Iranian Literature in Exile). Only one of the following may be counted: Middle Eastern Languages and Cultures 321 (Topic 13), Middle Eastern Studies 324K (Topic 2: Iranian Literature in Exile), 342 (Topic 13), Persian 361 (Topic 4: Iranian Literature in Exile). Prerequisite: Upper-division standing.

**Topic 14: Iranian Film and Fiction.** Middle Eastern Languages and Cultures 321 (Topic 14: Iranian Film and Fiction). Only one of the following may be counted: Middle Eastern Languages and Cultures 321 (Topic 14), Middle Eastern Studies 324K (Topic 4: Iranian Film and Fiction), 342 (Topic 14), Persian 361 (Topic 5: Iranian Film and Fiction). Prerequisite: Upper-division standing.

**Topic 15: Classical Islamic Studies.** Same as Islamic Studies 340 (Topic 3: Classical Islamic Studies) and Middle Eastern Languages and Cultures 321 (Topic 15: Classical Islamic Studies). Only one of the following may be counted: Arabic 372 (Topic 1: Classical Islamic Studies), Islamic Studies 340 (Topic 3), Middle Eastern Languages and Cultures 321 (Topic 15), Middle Eastern Studies 321K (Topic 11: Classical Islamic Studies), 342 (Topic 15). Prerequisite: Upper-division standing.

**Topic 16: The Qur'an.** Same as Islamic Studies 340 (Topic 2: The Qur'an), Middle Eastern Languages and Cultures 321 (Topic 9: The Qur'an), and Religious Studies 325G. The history, language and style, and themes of the Qur'an. Only one of the following may be counted: Arabic 372 (Topic 2: The Qur'an), Islamic Studies 340 (Topic 2), Middle Eastern Languages and Cultures 321 (Topic 9), Middle Eastern Studies 320 (Topic 14: The Qur'an), 342 (Topic 16), Religious Studies 325G. Prerequisite: Upper-division standing.

**Topic 17: Envisioning Muslims: The Middle Ages and Today.** Same as English 360S (Topic 3: Envisioning Muslims: The Middle Ages and Today). Covers the representation of Muslims in the dominant cultural media of the European Middle Ages and in the contemporary world of the twentieth and twenty-first centuries. Modern cultural media includes film and digital visual media. Readings are selected to show how Europeans envisioned Muslims, and how Muslims envisioned themselves. Only one of the following may be counted: English 360S (Topic 3), 379N (Topic: Envisioning Muslims), Islamic Studies 372 (Topic: Envisioning Muslims), Middle Eastern Studies 321K (Topic: Envisioning Muslims), 342 (Topic 17). Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**Topic 18: Saracens in Medieval Literature.** Same as English 350E (Topic 2: Saracens in Medieval Literature). Muslims, Arabs, Turks, Persians, Berbers, and Moors were often identified in literature and historical texts under the invented group name Saracens. Course explores who, and what, a Saracen is. Includes selected readings of literature, historical documents, and critical scholarship on Saracens in European medieval romances and epics, crusade literature, travel narratives, maps, and polemical treatises. For critical contrast, readings also include Islamic texts on, or by some of the most famous (or infamous) Saracens known to medieval Europe. Only one of the following may be counted: English 350E (Topic 2), 379N (Topic: Saracens in Medieval Literature), Middle Eastern Studies 321K (Topic: Saracens in Medieval Literature), Middle Eastern Studies 342 (Topic 18). Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**Topic 19: Self-Revelation in Women's Writing.** Same as African and African Diaspora Studies 374 (Topic 26: Self-Revelation in Women's Writing), Comparative Literature 323 (Topic 4: Self-Revelation in Women's Writing), and Women's and Gender Studies 340 (Topic 14: Self-Revelation in Women's Writing). Only one of the following may be counted: African and African Diaspora Studies 374 (Topic 26), Comparative Literature 323 (Topic 4), English 376L (Topic 9: Self-Revelation in Women's Writing), Middle Eastern Studies 322K (Topic 26: Self-Revelation in Women's Writing), 342 (Topic 19), Persian 361 (Topic: Self-Revelation in Women's Writing). Prerequisite: Upper-division standing.

**Topic 20: Autobiography: A Modern Literary Species.** Same as African and African Diaspora Studies 374 (Topic 25: Autobiography: A Modern Literary Species) and Comparative Literature 323 (Topic 3: Autobiography: A Modern Literary Species). Only one of the following may be counted: African and African Diaspora Studies 374 (Topic 25), Comparative Literature 323 (Topic 3), English 379N (Topic 5: Autobiography: A Modern Literary Species), Middle Eastern Studies 322K (Topic 25: Autobiography: A Modern Literary

Species), 342 (Topic 20), Women's and Gender Studies 340 (Topic: Autobiography: A Modern Literary Species). Prerequisite: Upper-division standing.

**Topic 21: Rome and Jerusalem.** Same as Ancient History and Classical Civilization 325 (Topic 3: Rome and Jerusalem), History 321G, Jewish Studies 365 (Topic 7: Rome and Jerusalem), and Religious Studies 365 (Topic 1: Rome and Jerusalem). A study of daily life in Israel during the Roman period, focusing on Jerusalem, ancient Palestinian synagogues and churches, Jewish and Christian symbolism, agriculture, warfare, and burial practices. Only one of the following may be counted: Ancient History and Classical Civilization 325 (Topic 3), Classical Civilization 348 (Topic: Rome and Jerusalem), History 321G, Jewish Studies 365 (Topic 7), Middle Eastern Studies 320 (Topic 2: Rome and Jerusalem), 342 (Topic 21), Religious Studies 365 (Topic 1), Urban Studies 353 (Topic: Rome and Jerusalem). Prerequisite: Upper-division standing.

**Topic 22: Biblical Archaeology.** Only one of the following may be counted: Anthropology 324L (Topic: Biblical Archaeology), History 364G (Topic: Biblical Archaeology), Jewish Studies 361 (Topic: Biblical Archaeology), Middle Eastern Studies 342 (Topic 22), Religious Studies 353 (Topic: Biblical Archaeology). Prerequisite: Upper-division standing.

**Topic 23: The Dead Sea Scrolls.** Same as History 364G (Topic 3: The Dead Sea Scrolls), Jewish Studies 364 (Topic 4: The Dead Sea Scrolls), and Religious Studies 353D. Only one of the following may be counted: History 364G (Topic 3), Jewish Studies 361 (Topic 4: The Dead Sea Scrolls), 364 (Topic 4), Middle Eastern Studies 320 (Topic 13: The Dead Sea Scrolls), 342 (Topic 23), Religious Studies 353D. Prerequisite: Upper-division standing.

**Topic 24: Sufism and Islamic Mysticism.** Same as Islamic Studies 340 (Topic 4: Sufism and Islamic Mysticism) and Religious Studies 358 (Topic 4: Sufism and Islamic Mysticism). Muslim debates of Sufism; the historical development of Sufi beliefs regarding theology, religious laws, expression, and popular social practices. Only one of the following may be counted: Asian Studies 340 (Topic: Sufism and Islamic Mysticism), History 364G (Topic: Sufism and Islamic Mysticism), Islamic Studies 340 (Topic 4), 372 (Topic 10: Sufism: Islamic Mysticism and Spirituality), Middle Eastern Studies 320 (Topic 16: Sufism: Islamic Mysticism and Spirituality), 321K (Topic: Sufism and Islamic Mysticism), 342 (Topic 24), Religious Studies 341 (Topic: Sufism and Islamic Mysticism), 358 (Topic 4). Prerequisite: Upper-division standing.

**Topic 25: Politics of Court Literature.** Same as Arabic 360L (Topic 3: Politics of Court Literature) and Islamic Studies 373 (Topic 6: Politics of Court Literature). Only one of the following may be counted: Arabic 360L (Topic 3), Comparative Literature 323 (Topic: Politics of Court Literature), Islamic Studies 372 (Topic 19: Politics of Court Literature), 373 (Topic 6), Middle Eastern Studies 321K (Topic 14: Politics of Court Literature), 342 (Topic 25). Prerequisite: Upper-division standing; Arabic 120D and 420L with a grade of at least C in each, or Arabic 531L with a grade of at least C.

**Topic 26: Arab Women Poets.** Same as Arabic 360L (Topic 2: Arab Women Poets) and Islamic Studies 373 (Topic 7: Arab Women Poets). Only one of the following may be counted: Arabic 360L (Topic 2), Comparative Literature 323 (Topic: Arab Women Poets), Islamic Studies 372 (Topic 14: Arab Women Poets), 373 (Topic 7), Middle Eastern Studies 323K (Topic 4: Arab Women Poets), 342 (Topic 26). Prerequisite: Upper-division standing; Arabic 120D and 420L with a grade of at least C in each, or Arabic 531L with a grade of at least C.

### MES 343. Topics in the Middle East: History.

Three lecture hours a week for one semester. Only one of the following may be counted unless the topics vary: Middle Eastern Studies 320,

321K, 322K, 323K, 324K, 325, 326, 328, 343. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 1: Modern Egypt: A History.** Same as History 334E and Islamic Studies 373 (Topic 5: Modern Egypt: A History). Critically examines the social, political, and intellectual dynamics that shaped the different forms of political community, economic organization, and public culture over the past century. Covers colonialism, liberalism, Arab socialism, authoritarian capitalism, and Islamic republicanism. Only one of the following may be counted: Arabic 372 (Topic: Modern Egypt: A History), History 334E, History 364G (Topic: Modern Egypt: A History), Islamic Studies 372 (Topic: Modern Egypt: A History), 373 (Topic 5), Middle Eastern Studies 322K (Topic: Modern Egypt: A History), 343 (Topic 1). Prerequisite: Upper-division standing.

**Topic 2: Re-forming the Arab East, 1914-Present.** Same as History 331R. Introduction to the history of the Middle East in the twentieth century. Examines forces that transformed the area from a relatively peaceful region to a radicalized environment. Explores colonialism, nationalism, secular modernism, impact of Zionism, rise of political Islam, status of women, and the oil revolution. Only one of the following may be counted: History 331R, History 364G (Topic: Re-forming the Arab East), Middle Eastern Studies 322K (Topic: Re-forming the Arab East), 343 (Topic 2). Prerequisite: Upper-division standing.

**Topic 3: History of Iran to 1800.** Same as History 331G. A survey of the social, economic, and religious components unique to Iran from the pre-Islamic empire of the Achaemenids through the development of Iran as a medieval and premodern Islamic state. Only one of the following may be counted: History 331G, Middle Eastern Studies 321K (Topic 3 History of Iran to 1800), 343 (Topic 3). Prerequisite: Upper-division standing.

**Topic 4: Islamic Spain and North Africa to 1492.** Same as History 375D and Religious Studies 345. An introduction to the impact of Islam on Spain and North Africa, with emphasis on social, economic, and cultural development. Only one of the following may be counted: Ancient History and Classical Civilization 330 (Topic: Islamic Spain and North Africa to 1492), History 375D, Islamic Studies 373 (Topic: Islamic Spain and North Africa to 1492), Middle Eastern Studies 321K (Topic 4: Islamic Spain and North Africa to 1492), 343 (Topic 4), Religious Studies 345, 363 (Topic: Islamic Spain and North Africa to 1492). Prerequisite: Upper-division standing.

**Topic 5: Medieval Islam: Faith and History.** Same as History 350L (Topic 34: Medieval Islam: Faith and History) and Religious Studies 358 (Topic 2: Medieval Islam: Faith and History). Only one of the following may be counted: History 350L (Topic 34), Middle Eastern Studies 321K (Topic 7: Medieval Islam: faith and History), 343 (Topic 5), Religious Studies 358 (Topic 2). Prerequisite: Upper-division standing.

**Topic 6: Modern Iran.** Same as History 331L. The development of modern Iran; special attention is given to the impact of the West, the constitutional movement, nationalism, the oil crisis, and the Islamic Revolution of 1979. Only one of the following may be counted: History 331L, Middle Eastern Studies 323L, 324K (Topic 5: Modern Iran), 343 (Topic 6). Prerequisite: Upper-division standing.

### MES 351. Mediterranean Crossroads Seminar.

Reading and discussion about the lands, cultures, and societies of the eastern Mediterranean from a variety of disciplinary perspectives. Students prepare to study in the Middle East (in Middle Eastern Studies 352) and begin work on their individual research projects. Three lecture hours a week for one semester. Offered in the spring semester only. Middle Eastern Studies 322K (Topic: Mediterranean

Crossroads Seminar) and 351 may not both be counted. Prerequisite: Upper-division standing and consent of instructor.

### **MES 352. Mediterranean Crossroads Study Abroad Seminar.**

Students study and conduct research in the Middle East. The equivalent of three lecture hours a week for one semester. Offered in the summer session only. Middle Eastern Studies 322K (Topic: Mediterranean Crossroads Study Abroad Seminar) and 352 may not both be counted. Prerequisite: Middle Eastern Studies 351.

### **MES 353. Mediterranean Crossroads Conference Course.**

Under supervision of a faculty member, students complete their research projects following participation in Middle Eastern Studies 352. Conference course. Offered in the fall semester only. Prerequisite: Middle Eastern Studies 352.

### **MES 360. Conference Course.**

Supervised individual research, discussion, and writing of papers about various general and specialized Middle Eastern subjects. Conference course. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

### **MES 370. Practicum: Internships in Applied Middle Eastern Studies.**

Research and staff experience working in an appropriate agency or business. At least six but no more than nine hours of work a week for one semester. May not be repeated for credit. Prerequisite: Completion of at least seventy semester hours of coursework, including twelve hours of Middle Eastern studies, and consent of the undergraduate adviser.

### **MES 679H. Honors Tutorial Course.**

Supervised individual reading for one semester, followed by research and writing to produce a substantial paper on a special topic in middle eastern studies, to be completed during the second semester. Conference course for two semesters. Prerequisite: For 679HA, admission to the Middle Eastern Studies Honors Program; for 679HB, Middle Eastern Studies 679HA.

## **Persian: PRS**

### **Lower-Division Courses**

#### **PRS 601C. Intensive Persian I.**

First semester of intensive Persian language instruction. Six lecture hours a week for one semester. Persian 601C and 506 may not both be counted. Persian 601C and 507 may not both be counted.

#### **PRS 506. First-Year Persian I.**

Elementary colloquial Persian. Five lecture hours a week for one semester. Persian 601C and 506 may not both be counted.

#### **PRS 507. First-Year Persian II.**

Continuation of Persian 506. Elementary literary Persian. Five lecture hours a week for one semester. Persian 601C and 507 may not both be counted. Prerequisite: Persian 506 with a grade of at least C.

#### **PRS 611C. Intensive Persian II.**

Second semester of intensive Persian language instruction. Six lecture hours a week for one semester. Only one of the following may be counted: Persian 611C, 612C, 312K, 512K. Only one of the following

may be counted: Persian 611C, 612C, 312L, 512L. Prerequisite: Persian 601C or 507 with a grade of at least C.

#### **PRS 612C. Intensive Persian for Heritage Speakers.**

Designed for heritage Persian language speakers who have had little or no formal instruction in the language. Six lecture hours a week for one semester. Only one of the following may be counted: Persian 611C, 612C, 312K, 512K. Only one of the following may be counted: Persian 611C, 612C, 312L, 512L.

#### **PRS 512K. Second-Year Persian I.**

Not open to native speakers of Persian. Five lecture hours a week for one semester. Only one of the following may be counted: Persian 611C, 612C, 312K, 512K. Prerequisite: Persian 507 with a grade of at least C.

#### **PRS 512L. Second-Year Persian II.**

Not open to native speakers of Persian. Continuation of Persian 512K. Five lecture hours a week for one semester. Only one of the following may be counted: Persian 611C, 612C, 312L, 512L. Prerequisite: Persian 512K (or 312K) with a grade of at least C.

#### **PRS 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Persian.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Middle Eastern Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

## **Upper-Division Courses**

#### **PRS 322K. Intermediate Persian I.**

Not open to native speakers of Persian. First semester of intermediate Persian language instruction. Three lecture hours a week for one semester. Prerequisite: Persian 611C, 612C, or 512L (or 312L) with a grade of at least C.

#### **PRS 322L. Intermediate Persian II.**

Not open to native speakers of Persian. Second semester of intermediate Persian language instruction. Three lecture hours a week for one semester. Prerequisite: Persian 322K with a grade of at least C.

#### **PRS 329. Topics in Persian Language, Literature, and Culture.**

Study of various aspects of Persian linguistics, literature, and culture. Conducted in Persian. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

**Topic 1: Ferdowsi's Shahnameh.**

**Topic 2: Sa'di's Golestan.** Additional prerequisite: Persian 512L (or 312L).

**Topic 3: Hafez's Ghazals.**

**Topic 4: Sadeq Hedayat and Twentieth-Century Persian Fiction.**

**Topic 5: Forugh Farrokhzad and Modernist Persian Poetry.**

**Topic 6: Persian Prose Nonfiction.**

**PRS 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Persian.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Middle Eastern Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**PRS 130D. Persian across Disciplines.**

Students read and discuss Persian language materials related to the subject matter of another designated course. One lecture hour a week for one semester. No more than three semester hours may be counted toward the major in either Middle Eastern Studies or Middle Eastern Languages and Culture. May be repeated for credit. Prerequisite: Upper-division standing, Persian 322L, and consent of instructor.

**PRS 679H. Honors Tutorial Course.**

Supervised individual reading for one semester, followed by research and writing to produce a substantial paper. Conference course for two semesters. Prerequisite: For 679HA, upper-division standing and admission to the Persian Language and Literature Honors Program; for 679HB, Persian 679HA.

## **Turkish: TUR**

### **Lower-Division Courses**

**TUR 601C. Intensive Turkish I.**

First semester of intensive Turkish language instruction. Six lecture hours a week for one semester. Turkish 601C and 506 may not both be counted. Turkish 601C and 507 may not both be counted.

**TUR 506. First-Year Turkish I.**

Modern Standard Turkish. Five lecture hours a week for one semester. Turkish 601C and 506 may not both be counted.

**TUR 507. First-Year Turkish II.**

Modern Standard Turkish. Continuation of Turkish 506. Five lecture hours a week for one semester. Turkish 601C and 507 may not both be counted. Prerequisite: Turkish 506 with a grade of at least C.

**TUR 611C. Intensive Turkish II.**

Second semester of intensive Turkish language instruction. Six lecture hours a week for one semester. Turkish 611C and 412K may not both be counted. Turkish 611C and 412L may not both be counted. Prerequisite: Turkish 601C or 507 with a grade of at least C.

**TUR 412K. Second-Year Turkish I.**

Conversational Turkish and readings in contemporary Turkish literature and newspapers. Review of the grammar covered in Turkish 506 and 507, and introduction of more complex grammatical patterns. Four lecture hours a week for one semester. Turkish 611C and 412K may not both be counted. Prerequisite: Turkish 601C or 507 with a grade of at least C.

**TUR 412L. Second-Year Turkish II.**

Continuation of Turkish 412K. Four lecture hours a week for one semester. Turkish 611C and 412L may not both be counted. Prerequisite: Turkish 412K with a grade of at least C.

**TUR 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Turkish.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Middle Eastern Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **Upper-Division Courses**

**TUR 320K. Intermediate Turkish I.**

Not open to native speakers of Turkish. Intermediate to high-level Turkish in four basic language skills: speaking, listening, reading, and writing. Turkish culture. Three lecture hours a week for one semester. Prerequisite: Turkish 611C or 412L with a grade of at least C.

**TUR 320L. Intermediate Turkish II.**

Not open to native speakers of Turkish. Continuation of Turkish 320K. Three lecture hours a week for one semester. Prerequisite: Turkish 320K with a grade of at least C.

**TUR 329. Topics in Turkish Language, Literature, and Culture.**

Conducted in Turkish. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and Turkish 611C or 412L with a grade of at least C.

**TUR 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Turkish.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Middle Eastern Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**TUR 130D. Turkish across Disciplines.**

Students read and discuss Turkish language materials related to the subject matter of another designated course. One lecture hour a week for one semester. No more than three semester hours may be counted toward the major in either Middle Eastern Studies or Middle Eastern Languages and Culture. May be repeated for credit. Prerequisite: Upper-division standing, Turkish 320L, and consent of instructor.

**TUR 679H. Honors Tutorial Course.**

Supervised individual reading for one semester, followed by research and writing to produce a substantial paper. Conference course for two semesters. Prerequisite: For 679HA, admission to the Turkish Language and Literature Honors Program; for 679HB, Turkish 679HA.

# Department of Philosophy

There are several courses offered each year in philosophy that should be of interest to undergraduates who have strong interests outside philosophy. In addition to the introductory courses (Philosophy 301, 304, 305, and 310) and the basic sequence in the history of philosophy (Philosophy 329K and 329L), the courses listed below are of particular relevance to students who are interested in the indicated areas.

- Business: Philosophy 312, 322, and 325L
- Communications: Philosophy 311, 312, 313, and 332
- Computer science: Philosophy 313K, 344K, 358, 363, and 363L
- Law: Philosophy 311, 312, 313, 318, 325K, 342, and 347
- Linguistics: Philosophy 313K, 332, 344K, and 358
- Literature: Philosophy 346, 348, 349, 356, 361K, and 366K
- Mathematics: Philosophy 313K, 344K, 344M, and 358
- Natural sciences: Philosophy 322, 363, and 363L
- Premedicine and pre dentistry: Philosophy 312, 318, 322, 325M, and 363
- Social sciences: Philosophy 322, 363, and 363L

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 627).

## Philosophy: PHL

### Lower-Division Courses

#### **PHL 301 (TCCN: PHIL 1301). Introduction to Philosophy.**

Primarily for lower-division students. A survey of principal topics and problems in areas such as ethics, theory of knowledge, and philosophy of religion. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester. Philosophy 301 and 610QA may not both be counted.

#### **PHL 301K (TCCN: PHIL 2316). Ancient Philosophy.**

Primarily for lower-division students. An introduction to the philosophical achievements of the ancient world, concentrating on Plato and Aristotle. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester.

#### **PHL 301L. Early Modern Philosophy.**

Primarily for lower-division students. An introduction to the philosophical achievements of the seventeenth and eighteenth centuries, concentrating on such figures as Descartes, Hume, and Kant. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester.

#### **PHL 302. World Philosophy.**

Primarily for lower-division students. Basic issues of philosophy in Western and non-Western traditions, such as the nature of philosophy, its relation to religion and science, the self, knowledge, and virtue. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester. Asian Studies 301M (Topic 7: World Philosophy) and Philosophy 302 may not both be counted.

#### **PHL 302C. Ethics and Enlightenment.**

Primarily for lower-division students. A study of non-Western ethics, especially in Hindu and Buddhist traditions. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester.

#### **PHL 303. Human Nature.**

Primarily for lower-division students. Theories of human nature, such as those of Plato, Christianity, Marxism, and existentialism. Modern psychological and biological theories are included, as the interplay of nature and nurture in determining human conduct is explored. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester.

#### **PHL 303M. Mind and Body.**

Primarily for lower-division students. Introduction to philosophical issues about the nature of mind and its relation to body: What is mind? Do people have free will? How does psychology relate to neuroscience? Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester.

#### **PHL 304. Contemporary Moral Problems.**

Primarily for lower-division students. Philosophical examination of selected moral problems arising out of contemporary society and culture. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester.

#### **PHL 305 (TCCN: PHIL 2321). Introduction to the Philosophy of Religion.**

Same as Religious Studies 305. Primarily for lower-division students. A critical examination of various conceptions of God and of the relationship of the human and the divine. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester.

#### **PHL 306. Philosophical Thinkers.**

Primarily for lower-division students. An introduction to major areas of philosophy through the study of selected philosophical thinkers. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester. May be repeated for credit when the topics vary.

#### **PHL 310. Knowledge and Reality.**

An introduction to basic issues in epistemology and metaphysics. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester. Philosophy 310 and 610QA may not both be counted. Prerequisite: Some sections are restricted to philosophy majors, some to students with a University grade point average of at least 3.00 or consent of instructor; these sections are identified in the Course Schedule.

#### **PHL 610Q. Problems of Knowledge and Valuation.**

Restricted to students in the Plan II Honors Program. Methods and aims of selected sciences, arts, and philosophy in the attainment of knowledge and in providing the basis for valuation. Three lecture hours and one discussion hour a week for two semesters. Philosophy 301 and 610QA may not both be counted; Philosophy 310 and 610QA may not both be counted; Philosophy 610QB and 318 may not both be counted. Prerequisite: For 610QA, admission to the Plan II Honors Program; for 610QB, Philosophy 610QA.

**PHL 311. Argument.**

Argument as a kind of discourse: deductive and inductive arguments; principles of reasoning; fallacies; practical applications. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester.

**PHL 312 (TCCN: PHIL 2303). Introduction to Logic.**

Logical structure of sentences and arguments; elementary symbolic methods; applications. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester. May not be counted by students with prior credit for Philosophy 313, 313K, 313Q, or 344K.

**PHL 313. Introductory Symbolic Logic.**

Introduction to symbolic logic (through first-order predicate logic); interpretations; formal proofs, consistency; some practical applications. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Computer Science 313H, 313K, Philosophy 313, 313K, 313Q.

**PHL 313K. Logic, Sets, and Functions.**

Sets, relations, functions, sentential and predicate logic, proof techniques, algorithms, and elementary metatheory. Mathematically oriented. Three lecture hours and one laboratory hour a week for one semester. Only one of the following may be counted: Computer Science 313H, 313K, Philosophy 313, 313K, 313Q. Prerequisite: Three years of high school mathematics.

**PHL 313Q. Logic and Scientific Reasoning.**

Introduction to formal proofs, semantics, quantifiers, inductive methods, decision theory, and scientific reasoning. Three lecture hours and one laboratory hour a week for one semester. Only one of the following may be counted: Computer Science 313H, 313K, Philosophy 313, 313K, 313Q. Philosophy 313Q and Tutorial Course 310 may not both be counted. Prerequisite: Admission to the Plan II Honors Program.

**PHL 316K. Science and Philosophy.**

Introduction to scientific method, including discussion of the nature and goals of science. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester. May not be counted by students with credit for Philosophy 363.

**PHL 317K. Introduction to the Philosophy of the Arts.**

Classic issues in the philosophy of art and beauty, illustrated from the fine arts and contemporary media: literature, drama, music, painting, film, and television. Three lecture hours or two lecture hours and one discussion hour a week for one semester.

**PHL 318 (TCCN: PHIL 2306). Introduction to Ethics.**

Study of basic principles of the moral life, with critical examination of traditional and contemporary theories of the nature of goodness, happiness, duty, and freedom. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester. Philosophy 610QB and 318 may not both be counted.

**PHL 318K (TCCN: PHIL 2307). Introduction to Political Philosophy.**

Views of major political philosophers on humanity, nature, and society; discussions of contemporary political ideologies. Three lecture hours or

two lecture hours and one laboratory/discussion hour a week for one semester.

**PHL 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Philosophy.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Philosophy. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**Upper-Division Courses****PHL 321K. Theory of Knowledge.**

Systematic and detailed study of major issues in the theory of knowledge, such as the distinction between knowledge and belief, the criteria of knowledge, the justification of knowledge-claims, and perception. Three lecture hours a week for one semester. Prerequisite: Six semester hours of coursework in philosophy.

**PHL 322. Science and the Modern World.**

The historical development and impact of scientific ideas through the modern period to the present. Three lecture hours a week for one semester.

**PHL 322K. History of Ethics.**

Survey of ethical theories from ancient times through the nineteenth century. Three lecture hours a week for one semester.

**PHL 323K. Metaphysics.**

Problems of substance, change, categories of being, mind, body, space and time, approached either systematically or historically. Three lecture hours a week for one semester. Prerequisite: Six semester hours of coursework in philosophy.

**PHL 323M. Philosophy of Mind.**

Problems concerning the nature of mind and mental phenomena: the relation between mind and body, knowledge of other minds, the computational model of mind, mental causation, intentionality, and consciousness. Three lecture hours a week for one semester. Prerequisite: Six semester hours of coursework in philosophy.

**PHL 325C. Environmental Ethics.**

Moral issues concerning the relation of human beings to the environment, including biodiversity, resource depletion, and animal rights. Three lecture hours and one discussion hour a week for one semester.

**PHL 325K. Ethical Theories.**

Major traditional and contemporary ethical theories discussed and critically examined. Three lecture hours a week for one semester. Prerequisite: Six semester hours of coursework in philosophy.

**PHL 325L. Business, Ethics, and Public Policy.**

Issues in ethics and politics that are relevant to the organization of business and industry and the distribution of power in society; topics include the role of industry; concepts of profit, property, and moral responsibility. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester.

**PHL 325M. Medicine, Ethics, and Society.**

Moral, legal, religious, and political implications of developments in medicine; topics include abortion, euthanasia, sterilization, psychosurgery, genetic engineering; concepts of health, cure, insanity, and death. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester.

**PHL 327. Contemporary Philosophy.**

Currents of contemporary thought; past topics include feminism, philosophy, and science; ideas of the twentieth century; twentieth-century philosophy of mind. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**PHL 328. Nineteenth-Century Philosophy.**

Major figures in nineteenth-century European philosophy, including Hegel, Schopenhauer, Kierkegaard, Nietzsche, and Mill. Three lecture hours a week for one semester. Prerequisite: Three semester hours of coursework in philosophy.

**PHL 329K. History of Ancient Philosophy.**

Same as Classical Civilization 348 (Topic 4: History of Ancient Philosophy). Development of Western philosophy from the pre-Socratics to the early Christian era; emphasis on Plato and Aristotle. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Classical Civilization 342 (Topic: History of Ancient Philosophy), 348 (Topic 4), Philosophy 329K. Prerequisite: Six semester hours of coursework in philosophy.

**PHL 329L. Early Modern Philosophy: Descartes to Kant.**

Three lecture hours and one discussion hour a week for one semester. Prerequisite: Six semester hours of coursework in philosophy.

**PHL 329M. Philosophical Classics.**

Intensive study of one or two important philosophers or philosophical works from the eighteenth century or earlier. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Three semester hours of coursework in philosophy.

**Topic 1: Kant's Critique of Pure Reason.** An intensive study of Kant's Critique of Pure Reason, focusing especially on his "Copernican revolution," his theories of categories and concepts, and his rejection of metaphysics.

**PHL 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Philosophy.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Philosophy. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**PHL 329U. Perspectives on Science and Mathematics.**

An examination of five notable episodes in the history of science: Galileo's conflict with the Catholic Church, Isaac Newton's formulation of the laws of motion, Charles Darwin's proposal of the theory of evolution by natural selection, the development of the atomic bomb, and the discovery of the double helix structure of DNA. Three lecture hours a week for one semester. Only one of the following may be counted: History 329U, 366N (Topic: Perspectives on Science and

Mathematics), Philosophy 329U. Prerequisite: Upper-division standing and consent of instructor.

**PHL 330K. Ancient Philosophy after Aristotle.**

Same as Classical Civilization 330K. Epicureans, Stoics, Skeptics, Plotinus and the Neoplatonist tradition. No knowledge of Greek is required. Three class hours a week for one semester. Prerequisite: Six semester hours of coursework in philosophy.

**PHL 332. Philosophy of Language.**

Contemporary theories of meaning and linguistic structure, and their relationships to epistemology, metaphysics, and ethics. Three lecture hours a week for one semester. Prerequisite: Six semester hours of coursework in philosophy.

**PHL 334K. Modern Thinkers.**

Critical study of the philosophical implications of the works of selected modern thinkers; for example, Nietzsche, Sartre, Camus, and Freud. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Three semester hours of coursework in philosophy.

**Topic 1: Modernity and Postmodernity.** Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester.

**PHL 342. Political Philosophy.**

Critical examination of leading theories of the state, including analysis of such concepts as sovereignty, obligation, rights, and freedom. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester. May be repeated for credit when the topics vary.

**PHL 344K. Intermediate Symbolic Logic.**

Same as Mathematics 344K. A second-semester course in symbolic logic: formal syntax and semantics, basic metatheory (soundness, completeness, compactness, and Loewenheim-Skolem theorems), and further topics in logic. Three lecture hours a week for one semester. Prerequisite: Philosophy 313, 313K, or 313Q.

**PHL 344M. Philosophy of Mathematics.**

Philosophical issues concerning mathematics and its foundations, such as the correlation of mathematics to logic, mathematical truth, and mathematical knowledge. Three lecture hours a week for one semester.

**PHL 346. Aesthetics.**

Study of selected topics in the philosophy of art; may be restricted to one or several specific art forms or media: literature, painting, music, film, television, or theatre. Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

**PHL 347. Philosophy of Law.**

The significance and function of law in political and ethical contexts; comparison of common and statutory to scientific and moral law; readings from among Plato, Kant, Hegel, Bentham, Austin, Hart, Dworkin, Feinberg, and others. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester.

**PHL 348. Asian Philosophy.**

Comparative and historical studies in the philosophical and religious traditions of the East, with emphasis on India and China. Three lecture

hours or two lecture hours and one laboratory/discussion hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 2: Indian Philosophies.** Same as Asian Studies 372 (Topic 2: Indian Philosophies) and Religious Studies 341 (Topic 1: Indian Philosophies).

### **PHL 349. History of Medieval and Renaissance Philosophy.**

Philosophical thought from Augustine through Cusanus and Vico, with emphasis on its cultural bearing. Three lecture hours a week for one semester. Prerequisite: Three semester hours of coursework in philosophy.

### **PHL 354. Philosophy in Context.**

Philosophical texts and arguments in a broad intellectual and cultural context, or other texts studied for their philosophical content. Typical topics include Locke and the Glorious Revolution; materialism and modern science; Thucydides on power and justice. Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

### **PHL 356. Philosophy of Religion.**

Meaning and function of religion; religious belief and its validity; religious values in the modern world. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester. May be repeated for credit when the topics vary.

**Topic 2: Yoga as Philosophy and Practice.** Only one of the following may be counted: Philosophy 356 (Topic 2), 356 (Topic: Yoga as Philosophy and Practice), Religious Studies 341G.

### **PHL 358. Philosophical Logic.**

Issues in philosophical logic and its applications, such as theories of meaning, logical paradoxes, epistemic logic, deontic logic, modal logic, existence, and identity. Three lecture hours a week for one semester. Prerequisite: Philosophy 313, 313K, or 313Q.

### **PHL 361K. Philosophy in Literature.**

Formulation, analysis, and criticism of philosophical ideas in selected literary works. Three lecture hours a week for one semester.

### **PHL 363. Scientific Method.**

History, exposition, and analysis of such fundamental concepts in the natural and social sciences as explanation, prediction, discovery, confirmation, laws, hypotheses, theories. Three lecture hours a week for one semester.

### **PHL 363L. Topics in Philosophy of Science.**

Past topics include philosophy of biology; scientific hypotheses and evidence; philosophical consequences of quantum mechanics. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Additional hours may be required for some topics. May be repeated for credit when the topics vary.

**Topic 1: The Philosophy of Biology.** Philosophy 363L (Topic 1) and 363L (Topic: Philosophy of Biology) may not both be counted.

### **PHL 365. Selected Problems in Philosophy.**

Past topics include Jewish ethics; change, truth, and justice. The equivalent of three lecture hours a week for one semester. May be

repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Freudians and Feminisms.** Same as Germanic Civilization 362E (Topic 1: Freudians and Feminisms) and Women's and Gender Studies 345 (Topic 10: Freudians and Feminisms). Prerequisite: For English majors, Rhetoric and Writing 306 and English 316K or their equivalents, and three additional semester hours of lower-division coursework in either English or rhetoric and writing; for others, upper-division standing.

**Topic 2: Introduction to Cognitive Science.** Same as Cognitive Science 360 (Topic 1: Introduction to Cognitive Science) and Linguistics 373 (Topic 7: Introduction to Cognitive Science).

**Topic 3: Cultural Politics of Kant and Hegel.** Same as Germanic Civilization 360E (Topic 2: Cultural Politics of Kant and Hegel). Prerequisite: For English majors, Rhetoric and Writing 306 and English 316K or their equivalents, and three additional semester hours of lower-division coursework in either English or rhetoric and writing; for others, upper-division standing.

**Topic 4: Contemporary European Social Theory.** Same as Government 335M (Topic 8: Contemporary European Social Theory) and Sociology 352M (Topic 7: Contemporary European Social Theory). Prerequisite: Upper-division standing and six semester hours of lower-division coursework in government.

**Topic 5: Contemporary American Social Theory.** Same as Government 335M (Topic 9: Contemporary American Social Theory) and Sociology 352M (Topic 8: Contemporary American Social Theory). Only one of the following may be counted: Government 335M (Topic: Social Theory), 335M (Topic 9), Philosophy 365 (Topic 5), Sociology 352M (Topic 8). Prerequisite: Upper-division standing and six semester hours of lower-division coursework in government.

### **PHL 366K. Existentialism.**

Existentialism and its relationship to literature, psychoanalysis, and Marxism. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester. Philosophy 366K and Religious Studies 356E may not both be counted.

### **PHL 371H. Philosophy Honors.**

Close study of major works of philosophy. Three lecture hours and one discussion hour a week for one semester. May be repeated for credit. Prerequisite: Six semester hours of coursework in philosophy and a University grade point average of at least 3.50.

### **PHL 375M. Major Seminar.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Nine semester hours of coursework in philosophy.

### **PHL 679H. Honors Tutorial Course.**

Supervised individual reading for one semester, followed by research and writing to produce a substantial paper on a special topic in philosophy, to be completed during the second semester. Conference course for two semesters. Prerequisite: For 679HA, admission to the Philosophy Honors Program; for 679HB, Philosophy 679HA.

### **PHL 379K. Conference Course.**

Intensive tutorial study of selected problems in philosophy. Conference course. May be repeated for credit. Prerequisite: Nine semester hours

of upper-division coursework in philosophy and consent of instructor and the undergraduate adviser in philosophy.

## Plan II Honors Program

### Social Science: S S

#### Lower-Division Courses

##### S S 301. Honors Social Science.

An introduction to the study of the individual, society, or culture using the methods of one of the social sciences. Three lecture hours a week for one semester. With consent of the director of Plan II, may be repeated once for elective credit. Prerequisite: Admission to the Plan II Honors Program.

### Tutorial Course: T C

#### Lower-Division Courses

##### T C 302. First-Year Signature Course: Plan II.

Restricted to first-year Plan II students. Small-group seminar involving reading, discussion, writing, and oral reporting around a central interdisciplinary topic. Designed to introduce undergraduates to scholarly analysis from an interdisciplinary perspective. Includes an introduction to University resources, such as research facilities, museums, and attendance at University lectures or performances as assigned. Multiple sections may be offered in the fall and spring with various topics and instructors. Three lecture hours a week for one semester. Some sections may require additional meeting times; these are identified in the Course Schedule. Only one of the following may be counted: Tutorial Course 301, 302, Undergraduate Studies 302, 303.

##### T C 603. Composition and Reading in World Literature.

Reading of masterpieces of world literature and intensive training in writing and in critical analysis of literature. Three lecture hours a week for two semesters. Only one of the following may be counted: English 603A, Rhetoric and Writing 306, 306Q, Tutorial Course 603A; only one of the following may be counted: Comparative Literature 315, English 603B, 316K, Tutorial Course 603B. Prerequisite: For 603A, admission to the Plan II Honors Program; for 603B, Tutorial Course 603A.

##### T C 310. Modes of Reasoning.

Introduction to forms of quantitative reasoning: computer science, game theory, operations research, or statistics and probability. Three lecture hours a week for one semester. Philosophy 313Q and Tutorial Course 310 may not both be counted. Prerequisite: Admission to the Plan II Honors Program.

#### Upper-Division Courses

##### T C 325. Topics in the Arts and Sciences.

Analysis of various topics within the arts and sciences through reading, research, written reports, and discussion. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing in the Plan II Honors Program or consent of instructor; additional prerequisites vary with the topic.

##### T C 125K. Topics in the Arts and Sciences.

Analysis of topics in the arts, sciences, and social sciences through reading, discussion, and lectures. The equivalent of one lecture hour a week for one semester. Some topics are offered on the pass/fail basis

only; these are identified in the Course Schedule. May be repeated for credit. Prerequisite: Upper-division standing in the Plan II Honors Program or consent of instructor.

##### T C 126. Plan II/Knowledge Is Power Program Charter Schools Partnership.

Restricted to students in the Plan II Honors Program. Mentorship of younger students attending an Austin-area Knowledge Is Power Program (KIPP) school. Through mentoring and class meetings, students will be deeply immersed in issues related to education reform, (in)equality of educational opportunity, and in promising strategies, such as those used by KIPP, for addressing such issues. The equivalent of one lecture hour and two hours of service a week for one semester. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Consent of instructor.

##### T C 330. Special Topics in Plan II.

Restricted to Plan II majors. Three lecture hours a week for one semester, with additional hours to be arranged. May be repeated for credit when the topics vary. Prerequisite: Consent of instructor.

##### T C 357. The Junior Seminar.

Seminar sections of about fifteen students. The subjects vary, but in each the attempt is made through careful reading, discussion, and written work to analyze and compare varied approaches to topics of lasting importance. Three lecture hours a week for one semester. Students must take this course twice with different topics to fulfill degree requirements; with consent of the director of Plan II, a third topic may be taken as an elective. Prerequisite: Upper-division standing in Plan II.

##### T C 359T. Essay Course.

Directed reading followed by the writing of an essay. Conference course. Prerequisite: Two semesters of Tutorial Course 357 and consent of the director.

##### T C 660H. Thesis Course.

Directed reading followed by the writing of a substantial essay. Conference course for two semesters. Prerequisite: For 660HA, two semesters of Tutorial Course 357 and consent of the director; for 660HB, Tutorial Course 660HA.

## Department of Psychology

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 627).

### Psychology: PSY

#### Lower-Division Courses

##### PSY 301 (TCCN: PSYC 2301). Introduction to Psychology.

Basic problems and principles of human experience and behavior. Three lecture hours a week for one semester, or the equivalent in independent study.

**PSY 304 (TCCN: PSYC 2308). Introduction to Child Psychology.**

General introduction to physical, social, and cognitive development from conception onward. Three lecture hours a week for one semester. Psychology 304 and 333D may not both be counted. Prerequisite: Psychology 301 with a grade of at least C.

**PSY 305. Introduction to Cognitive Psychology.**

Introduction to the study of how people perceive, act, communicate, and reason. Three lecture hours a week for one semester. Prerequisite: Psychology 301 with a grade of at least C.

**PSY 308. Biopsychology.**

Introduction to the biological bases of psychological processes and behavior. Overview of the physiology and anatomy of the nervous system, followed by a survey of brain mechanisms of perception, cognition, learning, and emotion; biological perspectives on drug action and mental disease. Three lecture hours a week for one semester. Prerequisite: Psychology 301 with a grade of at least C.

**PSY 309 (TCCN: PSYC 2316). Personality.**

Research and theory concerning personality structure, dynamics, development, and assessment. Three lecture hours a week for one semester. Prerequisite: Psychology 301 with a grade of at least C.

**PSY 317 (TCCN: PSYC 2317). Statistical Methods in Psychology.**

Recommended for majors who plan to do graduate work in psychology or related fields. Measures of central tendency and variability; statistical inference; correlation and regression. Three lecture hours a week for one semester. Prerequisite: Psychology 301 with a grade of at least C.

**PSY 418. Statistics and Research Design.**

Students may not enroll in Psychology 418 more than twice. Survey of statistics, including central tendency, variability and inference, and scientific methodology used in psychological research. Three lecture hours and two discussion hours a week for one semester. Prerequisite: Psychology 301 with a grade of at least C and credit for one of the following: Mathematics 302, 303D, 403K, 305G, 408C, 408K, 316; or Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

**PSY 319K (TCCN: PSYC 2319). Social Psychology.**

Theory and research on the analysis of human conduct in social settings. Three lecture hours a week for one semester. Prerequisite: Psychology 301 with a grade of at least C.

**PSY 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Psychology.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Psychology. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**Upper-Division Courses**

**PSY 323. Perception.**

Theory and research in the ways we extract information from the environment. Three lecture hours a week for one semester.

Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

**PSY 323P. Perceptual Systems: Neurons, Behavior, and Evolution.**

An introduction to perceptual systems, with an emphasis on perception in human and nonhuman primates. Topics include the physics of perceptual stimuli, the neural processing of perceptual information, the performance of human and other primates in perceptual tasks, and the evolution of perceptual systems. Three lecture hours a week for one semester. Psychology 323P and 341K (Topic: Perceptual Systems: Neurons/Behavior/Evolution) may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

**PSY 323S. Sex Differences in Cognition and Perception.**

Examination of facts, theories, and implications of sex differences in human cognition and perception. Topics include genetic and hormonal origins of sex differences, structural differences in the body and brain, verbal abilities, spatial abilities, learning, memory, sensory-motor abilities, and the auditory, olfactory, visual, and other sensory systems. Three lecture hours a week for one semester. Psychology 323S and 341K (Topic: Sex Differences in Cognition and Perception) may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

**PSY 325K. Advanced Statistics.**

Advanced statistical theory and methods for analysis of behavioral sciences data; topics include analysis of variance and covariance, regression, and nonparametric techniques. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 326K. Principles of Conditioning and Learning.**

Laws of animal and human learning, and the underlying mechanisms. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Psychology.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Psychology. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **PSY 332. Behavioral Neuroscience.**

Neuroscientific study of behavioral functions: fundamental structure and function of the human nervous system, sensory systems and perception, motor systems and behavior, motivation and learning, brain disorders and maladaptive behavior. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 332C. Hormones and Behavior.**

Neuroscientific study of hormones and behavior in animals and humans. Includes sexual behavior, sexual differentiation, parental behavior, aggressive behavior, feeding and drinking, stress, learning, and memory. Three lecture hours a week for one semester. Psychology 332C and 341K (Topic: Hormones and Behavior) may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 333C. Controversial Issues in Development.**

An exploration of questions in developmental psychology that are currently in dispute. Topics may include stem cell research, treatment of juveniles in the legal system, physician-assisted suicide, and methods of sex education. Three lecture hours a week for one semester. Psychology 333C and 341K (Topic: Controversial Issues in Development) may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing,

Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 333D. Introduction to Developmental Psychology.**

Physical, social, and cognitive development in humans. Three lecture hours a week for one semester. Psychology 304 and 333D may not both be counted. Psychology 333D and Women's and Gender Studies 345 (Topic 6: Introduction to Developmental Psychology) may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 333E. Identity Formation.**

An introduction to historical theories of and current research on identity, with particular focus on identity development in the domains of occupation, religion, politics and morality, gender, ethnicity, and adoption. Three lecture hours a week for one semester. Psychology 333E and 341K (Topic: Identity Formation) may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 333F. Fantasy and Reality.**

Examination of how children and adults decide what is real and what is not. Topics include the fantasy-reality distinction, magical thinking, and religious cognition. Three lecture hours a week for one semester. Psychology 333F and 341K (Topic: Fantasy and Reality) may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 333M. Infant Development.**

Examination of genetic and environmental determinants of social, perceptual, and cognitive development in infants from theoretical and research perspectives. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K,

Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 333N. Cognitive Development.**

Overview of the development of thinking from infancy through childhood. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 333P. Child Language.**

Examination of theory and research concerning the development of language in the child. Three lecture hours a week for one semester. Only one of the following may be counted: Linguistics 373 (Topic 1: Child Language), 373 (Topic: Language Acquisition), Psychology 333P. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 333R. Social Development in Children.**

Development of social behavior (for example, sex typing and aggression) and social relationships. Three lecture hours a week for one semester. Psychology 333R and Women's and Gender Studies 345 (Topic 19: Social Development in Children) may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 333T. Adolescent Development.**

Physical, cognitive, social, and personality development during adolescence. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 333W. Moral Development.**

An introduction to theory and research on morality. Topics include culture and morality, Freudian and social learning perspectives

on moral development, Kohlberg's theory of morality, challenge to Kohlberg's theory, and cognitive, familial, and emotional influence on morality. Three lecture hours a week for one semester. Psychology 333W and 341K (Topic: Moral Development) may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 334D. Psychology of Human Mating.**

Mate selection, sources of conflict, and mating over the life span, studied in the context of evolutionary psychology and sexual selection theory. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 334E. Evolutionary Psychology.**

Fundamentals of evolutionary psychology, including issues of natural and sexual selection, adaptation, and domain-specific psychological mechanisms. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 337. Psychology of Language.**

Consideration of approaches to the study of language, its development in children, and its functioning; important research from psychology and linguistics. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 338K. Psychology of Reading.**

Theory and research on the reading process and its acquisition. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering

351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 339. Behavior Problems of Children.**

Adjustment difficulties during childhood and adolescence; causation and treatment. Three lecture hours a week for one semester.

Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 341K. Selected Topics in Psychology.**

Topics of contemporary interest that may vary from semester to semester. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

#### **Topic 4: Health Psychology.**

#### **Topic 7: Epidemiology.**

#### **Topic 8: Learning and the Brain.**

**Topic 12: Personality Assessment.** Theoretical and methodological issues involved in trying to understand and measure personality.

#### **Topic 14: Robot Cognition.**

**Topic 15: History of Modern Psychology.** A survey of the diverse roots of modern psychology, the competing schools that influenced psychology's development, and the perspectives that guide scholarship in present-day psychology. Psychology 341K (Topic 15) and 341K (Topic: History and Systems of Psychology) may not both be counted.

**Topic 16: Psychology of Fundamentalism.** Psychological research and theory on religious fundamentalism. Considers the nature of different forms of religious fundamentalism, and possible psychological mechanisms that motivate fundamentalism. Includes topics such as the development of fundamentalism, the movement from fundamentalism to terrorism, and fundamentalism and the family.

**Topic 17: Psychology and Religion.** An exploration of the psychological processes involved in religion. Discusses seminal psychological theories of religion, such as the work of James, Freud, Jung, and Maslow. Discussion of empirical work includes topics such as the development of religion across the life span, religious experience, conversion, and the effects of religion on mental and physical health.

#### **Topic 18: Language and Thought.**

### **PSY 343K. Substance Abuse.**

Causes of substance abuse: the evolutionary perspective, sex differences, predisposition, biological and cognitive theories; emphasis

on food and alcohol. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 345. Individual Differences.**

Study of person-to-person variation in intelligence, personality, and interests, with an emphasis on genetic and environmental determinants, developmental processes, and their relation to real-world outcomes. Three lecture hours a week for one semester. Psychology 341K (Topic: Individual Differences) and 345 may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 346K. Psychology of Sex.**

Development of sex from genes to human behavior. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 350. Motivation.**

Theory and research on motivation; biological and social determinants. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 352. Abnormal Psychology.**

Biological and social factors in the development and treatment of psychopathology. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 353K. Psychopharmacology.**

The pharmacology and the neurochemical, neurophysiological, and psychological effects of psychoactive drugs, with regard to their use as therapeutic and behavioral research tools. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 355. Cognition.**

Theoretical and critical analysis of the development, nature, and function of the thought process. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 355D. Animal Cognition.**

An introduction to animal intelligence and the evolution of mind. Examines what is known about intelligence in other animals, how intelligence is revealed in social and problem-solving behavior, and the ways in which human intelligence is structured by its evolutionary past. Three lecture hours a week for one semester. Psychology 341K (Topic: Animal Cognition) and 355D may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 355R. Reasoning and Decision Making.**

Survey of psychological research on how people reason and make decisions. Topics include mental models, causality, analogy, heuristics, emotion, motivation, culture, and decision making. Three lecture hours a week for one semester. Psychology 341K (Topic: Reasoning and Decision Making) and 355R may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 357. Undergraduate Research.**

Supervised research experience. Individual instruction. May not be counted toward a major in psychology. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: At least thirty semester hours of college coursework, Psychology 301 with a grade of at least C, and consent of instructor.

### **PSY 458. Experimental Psychology.**

Techniques of psychological research illustrated in a series of laboratory experiments. Two lecture hours and four laboratory hours a week for one semester. Prerequisite: Upper-division standing, Psychology 301 and 418 with a grade of at least C in each, and a University grade point average of at least 3.25.

### **PSY 158H. Honors Research Tutorial.**

Enrollment restricted to students in the Psychology Honors Program. Individual instruction. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Upper-division standing, Psychology 301 and 418 with a grade of at least C in each, and consent of the honors adviser.

### **PSY 359. Selected Topics: Readings: Tutorial.**

Supervised reading in selected topics of significance; area of intensive study is chosen by the student in consultation with the instructor. Individual instruction. May not be counted toward a major in psychology. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Upper-division standing, Psychology 301 with a grade of at least C, and consent of instructor.

### **PSY 359H. Honors Research I.**

Three lecture hours a week for one semester. Prerequisite: Upper-division standing, Psychology 301 and 418 with a grade of at least C in each, six semester hours of upper-division coursework in psychology, a grade point average of at least 3.50 in psychology courses taken at the University, a University grade point average of at least 3.25, and consent of the honors adviser.

### **PSY 364. Introduction to Clinical Psychology.**

Introduction to techniques of assessment and treatment of psychopathology. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 364P. Positive Psychology and the Good Life.**

A survey of the emerging field of positive psychology, including assessment and determinants of well-being; human strengths and virtues; the good life considered from evolutionary, economic, sociological, and cross-cultural perspectives; and applications to issues such as social change. Three lecture hours a week for one semester. Psychology 341K (Topic: Positive Psychology and the Good Life) and 364P may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering

351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 365G. Gender and Racial Attitudes.**

Advanced introduction to the psychological study of gender and racial attitudes in children and adults, with emphasis on the causes, consequences, and revision of an individual's gender and racial stereotypes. Three lecture hours a week for one semester. Psychology 341K (Topic: Gender and Racial Attitudes) and 365G may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 365L. Advanced Social Psychology.**

Experimental research in social psychology, social influence, decision making, affiliation, risk taking, stress, and other topics. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 371. Learning and Memory.**

Analysis of theory and research in learning. Three lecture hours a week for one semester. Psychology 341K (Topic: Brain Mechanisms of Learning and Memory) and 371 may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 with a grade of at least C in each; for nonmajors, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Biology 318M, Civil Engineering 311S, Economics 329, Educational Psychology 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, Sociology 317L, Social Work 318, Statistics 309, Statistics and Scientific Computation 302, 303, 304, 305, 306, 318.

### **PSY 377P, 677P. Undergraduate Practicum.**

Field experience in applied psychology. Students are supervised by faculty members and by practitioners in community agencies. One lecture hour and ten or twenty hours of fieldwork a week for one semester. May not be counted toward a major in psychology. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Upper-division standing and consent of the practicum supervisor.

### **PSY 379H. Honors Research II.**

Three lecture hours a week for one semester. Prerequisite: Upper-division standing, Psychology 301 and 418 with a grade of at least C in each, Psychology 458 and 359H, and consent of the honors adviser.

## **Department of Religious Studies**

### **Religious Studies: R S**

#### **Lower-Division Courses**

#### **R S 302. History of the Religions of Asia.**

Same as Asian Studies 301R. Eastern religions: an introduction to the basic forms and the historical development of the religious traditions of India, China, and Japan. Three lecture hours a week for one semester.

#### **R S 304. Judaism, Christianity, and Islam: An Introduction.**

Same as History 304R, Islamic Studies 311 (Topic 2: Judaism, Christianity, and Islam: An Introduction), and Jewish Studies 311 (Topic 2: Judaism, Christianity, and Islam: An Introduction). Examines the intertwined historical development of the religions of Judaism, Christianity, and Islam, and explores the principal beliefs and practices of Jews, Christians, and Muslims. Three lecture hours a week for one semester.

#### **R S 305. Introduction to the Philosophy of Religion.**

Same as Philosophy 305. Primarily for lower-division students. A critical examination of various conceptions of God and of the relationship of the human and the divine. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester.

#### **R S 306. Topics in Comparative Religion.**

Three lecture hours a week for one semester. Additional hours are required for some topics; these topics are identified in the Course Schedule. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

#### **R S 310. Introduction to the Study of Religion.**

Introduction to scholarly methods in the study of religion. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 301M (Topic 5: Introduction to the Study of Religion), Religious Studies 310, Sociology 313K.

#### **R S 312. Topics in the Religions of Asia.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

#### **R S 312C. Introduction to Buddhism.**

Same as Asian Studies 301M (Topic 11: Introduction to Buddhism). A structural and historical overview of Buddhism through the examination of various schools, doctrines, biographical narratives, and contemporary ethical issues. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 301M (Topic 11), Religious Studies 312 (Topic: Introduction to Buddhism), 312C.

#### **R S 312D. Introduction to Hinduism.**

Same as Asian Studies 301M (Topic 12: Introduction to Hinduism). Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 301M (Topic 12), Religious Studies 312 (Topic: Introduction to Hinduism), 312D.

**R S 313. Topics in Judaism.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**R S 313M. Jewish Civilization: Beginnings to 1492.**

Same as History 306N (Topic 10: Jewish Civilization: Beginnings to 1492) and Jewish Studies 304M. Introduction to the history, culture, and religion of the Jewish people from around 1000 BC to the end of the medieval period. Subjects may include ancient Israel, late Second Temple sectarianism, the rise of Christianity, rabbinic Judaism, medieval Jewish philosophy, Jewish mysticism, and Hebrew poetry. Three lecture hours a week for one semester. Only one of the following may be counted: History 306N (Topic: Jewish Civilization I), 306N (Topic 10), Jewish Studies 304M, 311 (Topic: Jewish Civilization I), Religious Studies 313 (Topic: Jewish Civilization I), 313M.

**R S 313N. Jewish Civilization: 1492 to the Present.**

Same as History 306N (Topic 11: Jewish Civilization: 1492 to the Present) and Jewish Studies 304N. Subjects may include trends toward secularization, the emancipation of European Jewry, the emergence of American Jewry, the Holocaust, the establishment of the State of Israel, and the Arab-Israeli conflict. Three lecture hours a week for one semester. Only one of the following may be counted: History 306N (Topic 11), Jewish Studies 304N, 311 (Topic: Jewish Civilization: 1492 to the Present), Religious Studies 313 (Topic: Jewish Civilization: 1492 to the Present), 313N.

**R S 314. Topics in Islam.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**R S 315. Topics in Christian History.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**R S 315N. Introduction to the New Testament.**

Examines representative examples of the texts found in the Christian New Testament and selected noncanonical writings. Focuses on historical setting and systematic methods of interpretation. Three lecture hours a week for one semester. Only one of the following may be counted: Classical Civilization 304C (Topic: Introduction to the New Testament), Religious Studies 315 (Topic: Introduction to the New Testament), 315N.

**R S 316K. Topics in Religions of the Americas.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**R S 316U. Topics in Religions of the United States.**

Three lecture hours a week for one semester. Some topics partially fulfill legislative requirement for American history. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**R S 317. Topics in the Religions of Africa.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**R S 318. The Rise of Christianity.**

Same as Classical Civilization 318. Introduction to the origins and development of Christianity. Three lecture hours a week for one semester.

**R S 319. Introduction to Islam.**

Same as History 306N (Topic 7: Introduction to Islam) and Islamic Studies 310. The beliefs, theology, history, and main social and legal institutions of Islam, including the concept of God and society, the role of women, and Islamic government and movements. Three lecture hours a week for one semester. Only one of the following may be counted: History 306N (Topic 7), Islamic Studies 310, Middle Eastern Studies 310 (Topic 1: Introduction to Islam), Religious Studies 319.

**R S 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Religious Studies.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Religious Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**Upper-Division Courses****R S 321. History of Hindu Religious Traditions.**

Same as Anthropology 324L (Topic 23: History of Hindu Religious Traditions), Asian Studies 340 (Topic 4: History of Hindu Religious Traditions), and History 364G (Topic 1: History of Hindu Religious Traditions). History of major doctrines, practices, and institutions that shaped the development of Hinduism; how religions adapt to social and cultural change and often provide the catalyst for change. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**R S 322. History of Indian Buddhism.**

Same as Asian Studies 340 (Topic 5: History of Indian Buddhism). The institutional, social, economic, and doctrinal history of Buddhism in India. Three lecture hours a week for one semester. Prerequisite: Upper-division standing or consent of instructor.

**R S 325. Prophet of Islam: His Life and Times.**

Same as History 364G (Topic 2: Prophet of Islam: His Life and Times) and Islamic Studies 340 (Topic 1: Prophet of Islam: His Life and Times). A detailed study of the prophet Muhammad's life and message, and of the means by which his life was recorded and popularized. Three lecture hours a week for one semester. Only one of the following may be counted: History 364G (Topic 2), Islamic Studies 340 (Topic 1), Middle Eastern Studies 321K (Topic 6: Prophet of Islam: His Life and Times), Religious Studies 325. Prerequisite: Upper-division standing.

**R S 325G. The Qur'an.**

Same as Islamic Studies 340 (Topic 2: The Qur'an), Middle Eastern Languages and Cultures 321 (Topic 9: The Qur'an), and Middle Eastern Studies 342 (Topic 16: The Qur'an). The history, language and style, and themes of the Qur'an. Three lecture hours a week for one semester. Only one of the following may be counted: Arabic 372 (Topic 2: The Qur'an), Islamic Studies 340 (Topic 2), Middle Eastern Languages and Cultures 321 (Topic 9), Middle Eastern Studies 320

(Topic 14: The Qur'an), 342 (Topic 16), Religious Studies 325G.  
Prerequisite: Upper-division standing.

### **R S 326. History of Religion in America since 1800.**

Same as History 351P. Introduction to the history of religion in the United States of America from the nineteenth century to the present. Focuses on how diverse peoples imagined and transformed the landscape, interacted with one another at different sites, and moved within and across national borders. Three lecture hours a week for one semester. Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing.

### **R S 327. The History of Religion in America to 1800.**

Same as History 351N. Survey of religious thought, practices, and institutions in the colonies and early republic. Three lecture hours a week for one semester. Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing.

### **R S 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Religious Studies.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Religious Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated program. May be repeated for credit when the topics vary.

### **R S 335. Jesus in History and Tradition.**

Same as Classical Civilization 348 (Topic 10: Jesus in History and Tradition). Critical issues, scholarly debates, and historical methods in studying the development of the Christian tradition regarding the figure of Jesus. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **R S 337. Religion and Society.**

Same as Sociology 343. The growth and decline of religious groups and traditions; "cults" and new religions; comparative sociology of religion; the United States religious landscape; religion and individual health and well-being; spirituality and other aspects of social life. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **R S 341. Topics in Religions of South Asia.**

Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Indian Philosophies.** Same as Asian Studies 372 (Topic 2: Indian Philosophies) and Philosophy 348 (Topic 2: Indian Philosophies).

**Topic 2: Diversity of Indian Traditions.** Same as Asian Studies 372 (Topic 19: Diversity of Indian Traditions). Art and architecture of South Asia from 1200 to 1900 CE, within the context of Indian culture. Three lecture hours a week for one semester. Prerequisite: For art history and visual art studies majors, Art History 302 and 303; for others, at least one of the following is advisable but not required: Art History 301, 302, 303.

**Topic 3: Gender, Sexuality, and the Family in Indian Religions and Cultures.** Same as Anthropology 324L (Topic 40: Gender, Sexuality, and the Family in Indian Religions and Cultures), Asian Studies 372 (Topic 25: Gender, Sexuality, and the Family in Indian

Religions and Cultures), and Women's and Gender Studies 340 (Topic 25: Gender, Sexuality, and the Family in Indian Religions and Cultures). A comprehensive historical overview of gender issues as they are represented in the textual traditions of South Asia.

**Topic 5: Gandhi and Gandhism.** Same as Asian Studies 361 (Topic 6: Gandhi and Gandhism) and History 350L (Topic 5: Gandhi and Gandhism). Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**Topic 6: Muslim India before 1750.** Same as Asian Studies 346M and History 346M. History, art and architecture, and religions of India during the period of Muslim rule from the tenth to the eighteenth century. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**Topic 7: Formation of Indian Art.** Same as Asian Studies 372 (Topic 18: Formation of Indian Art). The major artistic achievements of South Asia up to 500 CE, within the context of Indian culture. Three lecture hours a week for one semester. Prerequisite: For art history and visual art studies majors, Art History 302 and 303; for others, at least one of the following is advisable but not required: Art History 301, 302, 303.

**Topic 8: Buddhist Art.** Same as Asian Studies 372 (Topic 24: Buddhist Art). Three lecture hours a week for one semester. Only one of the following may be counted: Art History 372 (Topic: Buddhist Art), Asian Studies 372 (Topic 24), Religious Studies 341 (Topic 8). Prerequisite: For art history and visual art studies majors, Art History 302 and 303; for others, at least one of the following is advisable but not required: Art History 301, 302, 303.

**Topic 9: The Taj Mahal and the Diversity of Indian Art.** Three lecture hours a week for one semester. Only one of the following may be counted: Art History 372 (Topic: The Taj Mahal and the Diversity of Indian Art), Asian Studies 372 (Topic: The Taj Mahal and the Diversity of Indian Art), Religious Studies 341 (Topic 9).

**Topic 10: Early Art of India.** Same as Asian Studies 372 (Topic 15: Early Art of India). Artistic achievements of South Asia up to 1000 CE, with a focus on the function and meaning of works of art within the context of Indian culture. Three lecture hours a week for one semester. Prerequisite: For art history and visual art studies majors, Art History 302 and 303; for others, at least one of the following is advisable but not required: Art History 301, 302, 303.

### **R S 341G. Yoga as Philosophy and Practice.**

Three lecture hours a week for one semester. Philosophy 356 (Topic: Yoga as Philosophy and Practice) and Religious Studies 341G (Topic: Yoga as Philosophy and Practice) may not both be counted. Prerequisite: Upper-division standing.

### **R S 342. Topics in Religions of Central Asia.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

### **R S 344. The Age of Reformation.**

Same as History 343. Examines late medieval religion, the rise of Protestant movements, and the Catholic response in their cultural, political, and social contexts. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **R S 345. Islamic Spain and North Africa to 1492.**

Same as History 375D and Middle Eastern Studies 343 (Topic 4: Islamic Spain and North Africa to 1492). An introduction to the impact of Islam on Spain and North Africa, with emphasis on social, economic, and cultural development. Three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 330 (Topic: Islamic Spain and North

Africa to 1492), History 375D, Islamic Studies 373 (Topic: Islamic Spain and North Africa to 1492), Middle Eastern Studies 321K (Topic 4: Islamic Spain and North Africa to 1492), 343 (Topic 4), Religious Studies 345, 363 (Topic: Islamic Spain and North Africa to 1492). Prerequisite: Upper-division standing.

### **R S 346. Topics in the Religions of the United States.**

Three lecture hours a week for one semester. Some topics partially fulfill legislative requirement for American history. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 2: Religion in American Political Thought.** Same as Government 335M (Topic 5: Religion in American Political Thought). Prerequisite: Upper-division standing and six semester hours of lower-division coursework in government.

### **R S 346C. Religion and Visual Culture in the United States.**

Focuses on artifacts or "visual culture," and considers how religion mediates artifacts and how artifacts mediate religion. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: American Studies 325 (Topic: Religion and Visual Culture in the United States), Religious Studies 346 (Topic: Religion and Visual Culture in the United States), 346C.

### **R S 352. Topics in Religions of East Asia.**

Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 2: Japanese Religion and Society.** Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Japanese Religion and Society), Asian Studies 372 (Topic: Japanese Religion and Society), Religious Studies 352 (Topic 2). Prerequisite: Upper-division standing.

**Topic 3: Religion and Rebellion in Modern East Asia.** Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**Topic 4: Ritual and Religion in Korea.** Same as Asian Studies 340 (Topic 10: Ritual and Religion in Korea). Examination of the major religious traditions of Korea. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Ritual and Religion in Korea), Asian Studies 340 (Topic 10), Religious Studies 352 (Topic 4). Prerequisite: Upper-division standing.

**Topic 5: Ritual and Religion in Chinese Society.** Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Ritual and Religion in Chinese Society), Asian Studies 361 (Topic: Ritual and Religion in Chinese Society), Religious Studies 352 (Topic 5). Prerequisite: Upper-division standing.

**Topic 6: The Asian Perspective on Death and Dying.** Only one of the following may be counted: Anthropology 324L (Topic: The Asian Perspective on Death and Dying), Asian Studies 361 (Topic: The Asian Perspective on Death and Dying), Religious Studies 352 (Topic 6). Prerequisite: Upper-division standing.

**Topic 7: Religion in Japanese History.** Same as Asian Studies 340 (Topic 9: Religion in Japanese History). Examines religious concepts and practices in wider contexts of modern Japanese culture and society. Focuses on the critical understanding of the

individual and collective aspects of Japanese spiritual life. Three lecture hours a week for one semester.

### **R S 353. Topics in Religion and Culture of the Biblical World.**

Three lecture hours a week for one semester; additional hours may be required by some topics. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

### **R S 353D. The Dead Sea Scrolls.**

Same as History 364G (Topic 3: The Dead Sea Scrolls), Jewish Studies 364 (Topic 4: The Dead Sea Scrolls), and Middle Eastern Studies 342 (Topic 23: The Dead Sea Scrolls). Three lecture hours a week for one semester. Only one of the following may be counted: History 364G (Topic 3), Jewish Studies 361 (Topic 4: The Dead Sea Scrolls), 364 (Topic 4), Middle Eastern Studies 320 (Topic 13: The Dead Sea Scrolls), 342 (Topic 23), Religious Studies 353D. Prerequisite: Upper-division standing.

### **R S 354D. The Bible and History.**

Same as Jewish Studies 364 (Topic 3: The Bible and History). The critical uses of biblical and extrabiblical data in the reconstruction of the history of the biblical period. Three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 330 (Topic: The Bible and History), History 372P, Jewish Studies 364 (Topic 3), Middle Eastern Studies 320 (Topic 3: The Bible and History), Religious Studies 354D. Prerequisite: Upper-division standing.

### **R S 355. The Bible as Literature.**

Same as English 358J. In-depth literary study of the Bible, with emphasis on the formal features of narrative, hymn, prophecy, apocalypse, gospel, and epistle. Three lecture hours a week for one semester. Prerequisite: Comparative Literature 315, English 603B, 316K, or Tutorial Course 603B.

### **R S 355D. Reformation Theology.**

Same as Germanic Civilization 360E (Topic 1: Reformation Theology) and History 362G (Topic 1: Reformation Theology). Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **R S 355K. The Bible in British and American Literature.**

Same as English 358K. The reading of biblical masterpieces as literature; consideration of different versions of the Bible and their influence on English and American literature. Three lecture hours a week for one semester. Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

### **R S 357. Topics in the Religions of Europe.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Heresy and the Inquisition.** Same as History 350L (Topic 33: Heresy and the Inquisition). Prerequisite: Upper-division standing.

**Topic 2: Byzantine Art.** Same as Art History 329J. Examination of early Christian and medieval art and architecture in the eastern Roman empire, including related traditions (Coptic, Armenian, Georgian, Crusader, Norman).

**Topic 4: Midnight Sun People: The Sami.** Same as Germanic Civilization 327E (Topic 12: Midnight Sun People: The Sami) and

Scandinavian 327 (Topic 10: Midnight Sun People: The Sami). Only one of the following may be counted: Anthropology 324L (Topic: Midnight Sun People), English 322 (Topic: Midnight Sun People), Germanic Civilization 327E (Topic 12), Religious Studies 357 (Topic 4), Scandinavian 327 (Topic 10).

### **R S 358. Topics in the Religions of the Middle East.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 2: Medieval Islam: Faith and History.** Same as History 350L (Topic 34: Medieval Islam: Faith and History) and Middle Eastern Studies 343 (Topic 5: Medieval Islam: Faith and History). Only one of the following may be counted: History 350L (Topic 34), Middle Eastern Studies 321K (Topic 7: Medieval Islam: Faith and History), 343 (Topic 5), Religious Studies 358 (Topic 2). Prerequisite: Upper-division standing.

**Topic 4: Sufism and Islamic Mysticism.** Same as Islamic Studies 340 (Topic 4: Sufism and Islamic Mysticism) and Middle Eastern Studies 342 (Topic 24: Sufism and Islamic Mysticism). Muslim debates of Sufism; the historical development of Sufi beliefs regarding theology, religious laws, expression, and popular social practices. Only one of the following may be counted: Asian Studies 340 (Topic: Sufism and Islamic Mysticism), History 364G (Topic: Sufism and Islamic Mysticism), Islamic Studies 340 (Topic 4), 372 (Topic 10: Sufism: Islamic Mysticism and Spirituality), Middle Eastern Studies 320 (Topic 16: Sufism: Islamic Mysticism and Spirituality), 321K (Topic: Sufism and Islamic Mysticism), 342 (Topic 24), Religious Studies 341 (Topic: Sufism and Islamic Mysticism), 358 (Topic 4). Prerequisite: Upper-division standing.

**Topic 5: Veiling in the Muslim World.** Same as Asian Studies 372 (Topic 14: Veiling in the Muslim World), Islamic Studies 372 (Topic 2: Veiling in the Muslim World), and Women's and Gender Studies 340 (Topic 11: Veiling in the Muslim World). Only one of the following may be counted: Asian Studies 372 (Topic 14), Islamic Studies 372 (Topic 2), Middle Eastern Studies 322K (Topic 17: Veiling in the Muslim World), Religious Studies 358 (Topic 5), Women's and Gender Studies 340 (Topic 11). Prerequisite: Upper-division standing.

### **R S 358Q. Supervised Research.**

Individual instruction. Prerequisite: Upper-division standing.

### **R S 360. Topics in Religions of Sub-Saharan Africa.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

### **R S 362. Independent Research in Religious Studies.**

Faculty-directed research. Conference course. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

### **R S 365. Topics in Ancient Religion.**

Three lecture hours a week for one semester; additional hours may be required by some topics. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Rome and Jerusalem.** Same as Ancient History and Classical Civilization 325 (Topic 3: Rome and Jerusalem), History 321G, Jewish Studies 365 (Topic 7: Rome and Jerusalem), and Middle Eastern Studies 342 (Topic 21: Rome and Jerusalem). A study of daily life in Israel during the Roman period, focusing on Jerusalem, ancient Palestinian synagogues and churches, Jewish

and Christian symbolism, agriculture, warfare, and burial practices. Only one of the following may be counted: Ancient History and Classical Civilization 325 (Topic 3), Classical Civilization 348 (Topic: Rome and Jerusalem), History 321G, Jewish Studies 365 (Topic 7), Middle Eastern Studies 320 (Topic 2: Rome and Jerusalem), 342 (Topic 21), Religious Studies 365 (Topic 1), Urban Studies 353 (Topic: Rome and Jerusalem). Prerequisite: Upper-division standing.

**Topic 2: Introduction to Germanic Religion and Myth.** Same as European Studies 347 (Topic 3: Introduction to Germanic Religion and Myth) and Germanic Civilization 340E (Topic 1: Introduction to Germanic Religion and Myth). Only one of the following may be counted: English 322 (Topic 2: Introduction to Germanic Religion and Myth), European Studies 347 (Topic 3), 361 (Topic 6: Introduction to Germanic Religion and Myth), Germanic Civilization 340E (Topic 1), Religious Studies 365 (Topic 2). Prerequisite: Upper-division standing.

### **R S 366. Topics in Religions of the Americas.**

Three lecture hours a week for one semester. Some topics partially fulfill legislative requirement for American history. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

### **R S 368. Topics in Religions of Latin America.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Church and State in Latin America.** Same as History 346W and Latin American Studies 366 (Topic 21: Church and State in Latin America). History of Church-state relations and religious politics in modern Latin America, with emphasis on the nineteenth to early twentieth-century periods. Only one of the following may be counted: History 346W, 363K (Topic Church and State in Latin America), Latin American Studies 366 (Topic 21), Religious Studies 368 (Topic 1). Prerequisite: Upper-division standing.

### **R S 373. Topics in Comparative Religion.**

Three lecture hours a week for one semester. Religious Studies 373 and 375S may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

### **R S 373M. Biomedicine, Ethics, and Culture.**

Same as Asian Studies 361 (Topic 29: Biomedicine, Ethics, and Culture). Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Biomedicine, Ethics, and Culture), Asian Studies 361 (Topic: Biomedicine, Ethics, and Culture), 361 (Topic 29), Religious Studies 373 (Topic: Biomedicine, Ethics, and Culture), 373M. Prerequisite: Upper-division standing.

### **R S 375S. Advanced Seminars in Religious Studies.**

Discussion and research-based study of topics in religious studies. Includes theoretical approaches to the study of religion. Three lecture hours a week for one semester. Religious Studies 373 and 375S may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and at least six semester hours of coursework in religious studies.

**Topic 1: What is Religion?.** Only one of the following may be counted: Religious Studies 373 (Topic: What is Religion?), 373R, 375S (Topic 1).

## Topic 2: Introduction to Comparative Religion.

### R S 679H. Honors Tutorial Course.

Supervised individual reading for one semester, followed by research and writing to produce a substantial paper on a specific topic in religious studies, to be completed during the second semester. The equivalent of three lecture hours a week for two semesters. Prerequisite: For 679HA, upper-division standing and admission to the Religious Studies Honors Program; for 679HB, Religious Studies 679HA.

## Department of Rhetoric and Writing

The Department of Rhetoric and Writing offers the required core course, Rhetoric and Writing 306, as well as lower-division and upper-division courses in rhetoric and writing, and a number of Writing Flag courses. The department also administers the Undergraduate Writing Center, which supports writing instruction in all undergraduate courses and the Digital Writing and Research Lab, which offers innovative approaches to writing in digital environments.

If a student has received either a passing or a failing grade or the symbol Q in Rhetoric and Writing 306, he or she may not earn credit by examination for the course.

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 627).

## Rhetoric and Writing: RHE

### Lower-Division Courses

#### RHE 306 (TCCN: ENGL 1301). Rhetoric and Writing.

An introductory writing course that includes instruction in practical reasoning and the principles of rhetoric. Three lecture hours a week for one semester. Only one of the following may be counted: English 603A, Rhetoric and Writing 306, 306Q, Tutorial Course 603A. Prerequisite: A passing score on the writing section of the Texas Higher Education Assessment (THEA) test (or an appropriate assessment test).

#### RHE 306Q. Rhetoric and Writing for Nonnative Speakers of English.

Enrollment limited to nonnative speakers of English. An introductory writing course that includes instruction in practical reasoning and the principles of rhetoric, as well as grammar and mechanics of standard American English. Five lecture hours a week for one semester. Only one of the following may be counted: English 603A, Rhetoric and Writing 306, 306Q, Tutorial Course 603A. Prerequisite: Students must present their scores on the Test of English as a Foreign Language (TOEFL) to the Rhetoric and Writing Office prior to registering.

#### RHE 309K, 409K. Topics in Writing.

A writing course focused on studying and practicing methods of rhetorical analysis within the contexts of disputed issues of academic, political, or cultural significance. Three or four lecture hours a week for

one semester. May be repeated once for credit when the topics vary. Prerequisite: Rhetoric and Writing 306 or 306Q.

#### RHE 309S. Critical Reading and Persuasive Writing.

A writing course designed to teach advanced rhetorical analysis and advocacy on public issues. Three lecture hours a week for one semester. Prerequisite: Rhetoric and Writing 306 or 306Q.

#### RHE 310. Intermediate Expository Writing.

An intensive writing workshop, focusing on style and readability. Three lecture hours a week for one semester. Prerequisite: English 603A, Rhetoric and Writing 306, 306Q, or Tutorial Course 603A.

#### RHE 312. Writing in Digital Environments.

A writing course focused on using, interpreting, and analyzing traditional and emerging technologies. Taught using networked computers. Three lecture hours a week for one semester. Prerequisite: Rhetoric and Writing 306.

#### RHE 315. Introduction to Visual Rhetoric.

A writing course designed to teach students to analyze and produce visual and nonverbal forms of rhetoric. Three lecture hours a week for one semester. Prerequisite: Rhetoric and Writing 306.

#### RHE 317 (TCCN: ENGL 2311). Technical Writing.

Reading and writing in professional and technological environments. Three lecture hours a week for one semester. Prerequisite: English 603A, Rhetoric and Writing 306, 306Q, or Tutorial Course 603A.

#### RHE 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Rhetoric and Writing.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Rhetoric and Writing. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### Upper-Division Courses

#### RHE 321. Principles of Rhetoric.

Examines major terms, issues, and approaches in the theory and practice of rhetoric and writing. Three lecture hours a week for one semester. Prerequisite: Completion of at least thirty semester hours of coursework, and English 316K.

#### RHE 325M. Advanced Writing.

An advanced course designed to improve and refine writing. Three lecture hours a week for one semester. Prerequisite: Completion of at least thirty semester hours of coursework, and English 316K.

#### RHE 328. Topics in Professional and Technical Writing for Liberal Arts Majors.

For liberal arts majors only. A professional and technical writing course exploring topics such as writing for nonprofit organizations, writing for government, and writing for industry. Designed for students in nontechnical fields. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Completion of at least thirty semester hours of coursework, and English 316K.

**Topic 1: Magazine Writing and Publishing.** Introduction to magazine writing, editing, and publishing, with an emphasis on the nonfiction article.

**Topic 2: Writing for Nonprofits.** Studies the writing genres and rhetorical strategies that are routinely used in nonprofit organizations. Covers business reports, grant writing, and feature writing.

**Topic 3: Principles of Technical Writing.** Writing practical documents that help readers follow procedures, make informed choices, and understand complex information.

### **RHE 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Rhetoric and Writing.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Rhetoric and Writing. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **RHE 330C. Advanced Studies in Digital Rhetoric.**

An advanced course that examines the role of information technologies in communication. Taught using networked computers. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Completion of at least thirty semester hours of coursework, and English 316K.

**Topic 1: Rhetorics of Cyberculture.** Examines the ways cyberspace is represented, critiqued, and employed in writing and film. Explores the social, ethical, and political implications of networked culture.

**Topic 2: Designing Text Ecologies.** Explores the function and interaction of texts in the workplace. Emphasis on research, analysis, and design of the strategic, tactical, and operational aspects of texts.

### **RHE 330D. History of Rhetoric.**

An advanced survey of figures and movements in the history of rhetoric, from classical to contemporary. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Completion of at least thirty semester hours of coursework, and English 316K.

**Topic 1: Sophistry and the Invention of Rhetoric.** Examines the role of sophists and sophistry in the development and practice of rhetoric as an art, from antiquity to modern times.

**Topic 2: Kairos and the Rhetorical Situation.** Introduction to kairos, a key concept in rhetorical theory from ancient to modern times, that focuses attention on making a text appropriate for its historical situation. Explores why some writing succeeds at attracting attention and inspiring action, while some writing fails.

**Topic 3: Deliberating War.** Studies the recurrent means of making arguments for and against war, and the role of rhetoric in public deliberation. Rhetoric and Writing 330D (Topic: Pro- and Anti-War Rhetoric) and 330D (Topic 3) may not both be counted.

**Topic 4: Rhetoric and Racism.** Explores theories of rhetoric by examining arguments about group identity, from Athenian discussions of "barbarism" in the fourth century BC to nineteenth-century arguments about citizenship.

**Topic 5: History of Public Argument.** A survey of the practice and theory of argumentation, with particular attention to its civic and political uses and implications.

**Topic 6: Classical to Modern Rhetoric.** Surveys the works of major rhetorical theorists and practitioners in the Western tradition from the ancient Greeks to the present.

### **RHE 330E. Rhetorical Theory and Analysis.**

An advanced examination of rhetorical theories and their applications. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Completion of at least thirty semester hours of coursework, and English 316K.

**Topic 1: Rhetoric of Science in Popular Media.** Rhetorical analysis of scientific discourse and how it is represented in popular media, including news reports, magazines, and popular nonfiction.

**Topic 2: Demagoguery.** Examines material produced by rhetors commonly considered demagogues and assesses the scholarly discussions of these individuals.

**Topic 3: Democracy and the Media.** Rhetorical analysis, with particular attention to the effects of technologies and journalistic institutions on public deliberation.

### **RHE 360M. Rhetoric and Writing for Teachers of English.**

Designed for students seeking a secondary school teaching certificate or those in the UTeach-Liberal Arts program. An advanced course that examines theories of writing and writing pedagogy. Three lecture hours a week for one semester. Prerequisite: Completion of at least thirty semester hours of coursework, and English 316K.

### **RHE 366. Internship in Rhetoric and Writing.**

Research and staff experience working in an appropriate nonprofit, public-, or private-sector entity. Ten to twelve hours a week for one semester. May be repeated once for credit when the internships vary. Offered on the pass/fail basis only. Prerequisite: Upper-division standing, twelve semester hours of coursework in rhetoric and writing, and consent of instructor.

### **RHE 367R. Conference Course in Rhetoric and Writing.**

Supervised work on specific projects in rhetoric and writing. Three conference hours a week for one semester. May be repeated for credit. Prerequisite: Completion of at least thirty-six semester hours of coursework; English 316K; and approval of written application by the supervising instructor.

### **RHE 368C. Writing Center Internship.**

Intensive reading, writing, and discussion in writing center theory and philosophy, tutoring methods, and writing pedagogy, as well as a review of standard American English usage and mechanics; followed by a supervised apprenticeship as a peer consultant in the Undergraduate Writing Center. Two lecture hours and two apprenticeship hours a week for one semester. Prerequisite: Completion of at least thirty semester hours of coursework; English 316K; and approval of written application by instructor.

### **RHE 368E. Editing for Publication.**

Advanced instruction in revising and editing for publication. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Completion of at least thirty semester hours of coursework, and English 316K.

**Topic 1: The Book: Prospectus to Proofs.** Designed to make students better writers and more careful editors, the course includes creation of a simulated book from proposal stage to editing of final page proofs.

### **RHE 375. Capstone Seminars in Rhetoric.**

Allows the student to integrate the knowledge gained in rhetoric and writing through a major independent project. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing, and Rhetoric and Writing 321, 330C, 330D, and 330E.

### **RHE 379C. Advanced Topics in Rhetoric and Writing.**

An advanced course focused on specific theories or practices of rhetoric and writing. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Completion of at least thirty semester hours of coursework, and English 316K.

## **Department of Air Force Science**

The Air Force Reserve Officer Training Corps (AFROTC) was activated at the University of Texas in September, 1947. The program is designed to commission career-oriented officers who meet specific Air Force requirements. The AFROTC objective is to place on active duty lieutenants who demonstrate dedication to their assignments, willing acceptance of responsibility, critical and creative thinking, and the ability to speak and write effectively.

AFROTC courses are taught by Air Force officers and are approved for college credit toward the cadet's degree program in amounts determined by the college concerned.

AFROTC scholarships are available to selected cadets. Scholarships are awarded on the basis of overall merit, with particular attention paid to academic achievement. Recipients must maintain academic standards in order to retain the scholarships. Other scholarships are also available for upper-division cadets. Additional information is available from the chair of the department.

Extracurricular activities available through AFROTC include; intramural athletics, parades, ceremonies, formal military functions, field trips to Air Force installations, and membership in national military societies.

Air force science courses are designed to prepare selected students for a commission in the United States Air Force through the AFROTC program. Students who do not hold AFROTC scholarships may take lower-division courses with no military obligation. Scholarship students and selected students who elect to take upper-division courses are on contract. Upon graduation and commissioning he/she will enter active duty in the United States Air Force.

## **Air Force Science: AFS**

### **Lower-Division Courses**

#### **AFS 100. Leadership Laboratory.**

Various leadership techniques, including drill and ceremonies, customs and courtesies, and uniform standards. Two laboratory hours a week for one semester. Offered on the pass/fail basis only.

#### **AFS 102K. The Foundations of the United States Air Force I.**

Introductory course exploring the overall roles and missions of the United States Air Force and career fields available in the Air Force. Emphasis on military customs and courtesies, appearance standards, Air Force core values, and written communication. One lecture hour a

week for one semester. Offered in the fall semester only. Prerequisite: Concurrent enrollment in Air Force Science 100.

#### **AFS 102L. The Foundations of the United States Air Force II.**

Continuation of Air Force Science 102K, with an introduction to American military history and emphasis on personal communication. One lecture hour a week for one semester. Offered in the spring semester only. Prerequisite: Concurrent enrollment in Air Force Science 100.

#### **AFS 111K. The Evolution of USAF Air and Space Power I.**

Key historical events and milestones in the development of air power as a primary instrument of United States national security. One lecture hour a week for one semester. Offered in the fall semester only. Prerequisite: Concurrent enrollment in Air Force Science 100.

#### **AFS 111L. The Evolution of USAF Air and Space Power II.**

Continuation of Air Force Science 111K. One lecture hour a week for one semester. Offered in the spring semester only. Prerequisite: Concurrent enrollment in Air Force Science 100.

### **Upper-Division Courses**

#### **AFS 120L. Leadership Laboratory.**

Leadership laboratory course for upper-division students. Further development of leadership skills through leadership positions within the cadet corps. Includes training of freshman and sophomore students as well as a practicum in Air Force unit operation. Two laboratory hours a week for one semester. Offered on the pass/fail basis only.

#### **AFS 321. Air Force Leadership Studies I.**

Study of leadership, management fundamentals, professional knowledge, Air Force personnel and evaluation systems, leadership ethics, and communication skills required of an Air Force junior officer. Case studies are used to examine Air Force leadership and management situations as a means of demonstrating and exercising practical application of the concepts being studied. Three lecture hours a week for one semester. Offered in the fall semester only. Prerequisite: Air Force Science 102K, 102L, 111K, and 111L; concurrent enrollment in Air Force Science 120L; and a four- or five-week field training course or equivalent ROTC or military training.

#### **AFS 322. Air Force Leadership Studies II.**

Continuation of Air Force Science 321. Three lecture hours a week for one semester. Offered in the spring semester only. Prerequisite: Air Force Science 321 and concurrent enrollment in Air Force Science 120L.

#### **AFS 331. National Security Affairs.**

Evolution of the role of national security in a democratic society, with emphasis on policy formulation, competing values, and organizations. Area studies and the impact of developing nations on United States national security. Three lecture hours a week for one semester. Offered in the fall semester only. Prerequisite: Air Force Science 322 and concurrent enrollment in Air Force Science 120L.

#### **AFS 332. Current Issues and Preparation for Active Duty.**

Acculturation to active duty. Includes study of the evolution and jurisdiction of military law, officership, and current Air Force issues. Three lecture hours a week for one semester. Offered in the spring semester only. Prerequisite: Air Force Science 331, and concurrent

enrollment in Air Force Science 120L or consent of the department chair.

## Department of Military Science

The Army Reserve Officers' Training Corps (ROTC) was established at the University of Texas in September, 1947. As a senior division unit, it is designed to provide a course of military instruction that will permit qualified students to prepare themselves for commissions as second lieutenants while they pursue other academic courses leading to baccalaureate or advanced degrees from the University.

Upon being commissioned a second lieutenant, each student has the opportunity to serve in the active Army, Army Reserve, or National Guard.

The Army ROTC program, in addition to providing a basic foundation in military subjects, is designed to develop the highest qualities of leadership, character, and citizenship through the wide variety of extracurricular activities it sponsors. Such activities include parades, ceremonies, social events, a Ranger detachment, and intramural athletic teams.

The Army ROTC program is normally a four-year program divided into a basic course and an advanced course. The basic course is conducted during the first two years and the advanced course during the last two years. Certain students may qualify for advanced placement in the program based on previous military training in Junior ROTC, a service academy, active duty in a military service, credit for other college courses, or completion of a special four-week summer camp, normally between the sophomore and junior year.

The Department of the Army has determined that a need exists for all Army ROTC cadets to have a demonstrated proficiency in selected disciplines. These courses are called Professional Military Education (PME) and must be completed prior to graduation. A list of courses that fulfill PME requirements is available from the chair of the Department of Military Science.

Two-, three-, and four-year scholarship programs are offered to selected cadets. The four-year scholarship program is administered by the Department of the Army, but selection is based on the Professor of Military Science Order of Merit List (OML). Applicants must apply while in high school. The remaining programs are administered directly through the Department of Military Science.

Scholarship students receive \$300 to \$500 a month for up to ten months for each year of their scholarship. The scholarship pays for required tuition and mandatory fees, laboratory expenses, and books. Nonscholarship students receive \$450 to \$500 a month during the advanced course. For additional information, contact the scholarship and enrollment officer at [arotc@uts.cc.utexas.edu](mailto:arotc@uts.cc.utexas.edu) or <http://www.utexas.edu/cola/depts/arotc>.

## Military Science: M S

### Lower-Division Courses

#### M S 000. Leadership Laboratory.

Open only to students in associated military science courses. Leadership responsibilities for planning, coordination, execution, and evaluation of training and other activities. Self-confidence and team-building leadership skills that can be applied throughout life. One and one-half laboratory hours a week for one semester. Required of

all military science students. Prerequisite: Concurrent enrollment in another military science course.

#### M S 101. Basic Military Science I-A.

Designed to increase self-confidence through team study and activities in basic drill, physical fitness, rappelling, leadership reaction course, first aid, making presentations, and basic marksmanship. Fundamental concepts of leadership in a profession. One one-hour lecture/practice session a week for one semester. Prerequisite: Concurrent enrollment in Military Science 000.

#### M S 103. Basic Military Science I-B.

Principles of effective leading. Designed to reinforce self-confidence through participation in physically and mentally challenging exercises with upper-division ROTC students. Communication skills that improve individual performance and group interaction. Relationship of organizational ethical values to the effectiveness of a leader. One one-hour lecture/practice session a week for one semester. Prerequisite: Concurrent enrollment in Military Science 000.

#### M S 210. Basic Military Science II-A.

Ethics-based leadership skills designed to develop individual abilities and contribute to effective team-building. Focus on oral presentations, writing concisely, planning of events, coordination of group efforts, advanced first aid, land navigation, and basic military tactics. Fundamentals of ROTC's Leadership Assessment Program. Two lecture/practice hours a week for one semester, and a weekend field training exercise. Prerequisite: Concurrent enrollment in Military Science 000.

#### M S 212. Basic Military Science II-B.

Introduction to individual and team aspects of military tactics in small-unit operations. Includes use of radio communications, making safety assessments, movement techniques, planning for team safety/security, and methods of pre-execution checks. Practical exercises with upper-division ROTC students. Techniques for training others as an aspect of continued leadership development. Two lecture/practice hours a week for one semester, and a weekend field training exercise. Prerequisite: Concurrent enrollment in Military Science 000.

## Upper-Division Courses

#### M S 320. Advanced Military Science III-A.

Series of practical opportunities to lead small groups, receive personal assessments and encouragement, and lead again in situations of increasing complexity. Use of small-unit defensive tactics and opportunities to plan and conduct training for lower-division students. Three lecture hours a week for one semester. Prerequisite: Concurrent enrollment in Military Science 000 and approval of departmental representative.

#### M S 320K. Advanced Military Science III-B.

Continued study of methods covered in Military Science 320. Students analyze tasks; prepare written or oral guidance for team members to accomplish tasks; delegate tasks and supervise; plan for and adapt to the unexpected in organizations under stress; examine and apply lessons from leadership case studies; examine the importance of ethical decision making in enhancing team performance. Three lecture/practice hours a week for one semester. Prerequisite: Concurrent enrollment in Military Science 000 and approval of departmental representative.

### **M S 375. Leadership and Ethics (IV-A).**

Military leadership and professional ethics; post and installation support system; introduction to the military justice system. Three lecture hours a week for one semester. Prerequisite: Concurrent enrollment in Military Science 000 and approval of departmental representative.

### **M S 375K. Transition to Lieutenant (IV-B).**

Fundamentals of the military justice system; training and logistical management systems; military social functions; role of the second lieutenant. Three lecture hours a week for one semester. Prerequisite: Concurrent enrollment in Military Science 000 and approval of departmental representative.

### **M S 379. Advanced Military Science V-A.**

Advanced study and research on historic and contemporary military subjects and events. Three lecture hours a week for one semester. Prerequisite: Concurrent enrollment in Military Science 000.

### **M S 379K. Advanced Military Science V-B.**

Advanced study and research on historic and contemporary military subjects and events. Three lecture hours a week for one semester. Prerequisite: Concurrent enrollment in Military Science 000.

## **Department of Naval Science**

The Naval Reserve Officers Training Corps (NROTC) was established at the University of Texas in September, 1940, to offer the naval science courses necessary to qualify University students for commissions in the United States Navy or Marine Corps.

Qualified students may apply for the four-year or two-year Navy-Marine Scholarship Program or college program (nonscholarship) and earn a commission in the Navy or Marine Corps.

NROTC scholarship students are appointed midshipmen, United States Naval Reserve, by the Secretary of the Navy, and granted the compensation and benefits authorized by law. While students attend the University, the Navy pays tuition, the cost of textbooks, fees of an instructional nature, and a subsistence allowance of \$250 to \$450 a month during the academic year. During drill periods and summer training periods, midshipmen wear government-furnished uniforms. Students should submit scholarship applications to a naval recruiting station before December 1 of each year or to the Department of Naval Science after the first semester of enrollment in the college program. Additional information is available from the chair of the department.

### **Naval Science: N S**

#### **Lower-Division Courses**

##### **N S 000. Drill.**

Three laboratory hours a week for one semester.

##### **N S 302. Introduction to Naval Science.**

A general introduction to sea power and the naval service, including the mission, organization, regulations, warfare components, and personnel programs. Three lecture hours a week for one semester.

### **N S 603. Naval Ships Systems I and II.**

Introduction to types, structures, and purposes of naval ships and weapons systems. Three lecture hours a week for two semesters.

### **N S 312. Sea Power and Maritime Affairs.**

A consideration of the influence of sea power, naval history, and maritime affairs on current events and national policy. Three lecture hours a week for one semester. Prerequisite: Consent of instructor.

## **Upper-Division Courses**

### **N S 326. Evolution of Warfare.**

Explores the forms of warfare employed by great leaders in history as they relate to the evolution of warfare. Three lecture hours a week for one semester. Prerequisite: Consent of instructor.

### **N S 329. Navigation and Naval Operations I.**

An introduction to piloting, a survey of navigational aids, and a study of the Rules of the Nautical Road. Three lecture hours a week for one semester.

### **N S 330. Leadership and Ethics.**

Principles of leadership and ethics reinforced through seminar discussion and case studies. Discussion of the duties and responsibilities of a naval officer. Three lecture hours a week for one semester. Prerequisite: Naval Science 335 and consent of instructor.

### **N S 335. Leadership and Management.**

Study of leadership and management theory in organizations, with emphasis on examining the leadership process in the context of the dynamic interaction of the leader, the followers, and the situation. Three lecture hours a week for one semester. Prerequisite: Consent of instructor.

### **N S 362. Amphibious Warfare.**

Defines the concept of amphibious warfare, explores its doctrinal origins, and traces its evolution as an element of naval policy during the twentieth century. Three lecture hours a week for one semester.

### **N S 369. Navigation and Naval Operations II.**

Study of the celestial sphere and nautical astronomy to determine positions on the earth by mathematical analysis, and an introduction to relative motion and the maneuvering board. Three lecture hours a week for one semester.

## **Center for Russian, East European, and Eurasian Studies**

### **Russian, East European, and Eurasian Studies: REE**

#### **Lower-Division Courses**

##### **REE 301. Introduction to Russian, East European, and Eurasian Studies.**

An introduction to the former Soviet Union and Eastern Europe through each of the major disciplines represented in the program: language, literature, anthropology, geography, history, government, sociology, and economics. Three lecture hours a week for one semester. History 306N (Topic 4: Introduction to Russian, East European, and Eurasian

Studies: History) and Russian, East European, and Eurasian Studies 301 may not both be counted. Government 314 (Topic 4: Introduction to Russian, East European, and Eurasian Studies: Political Science) and Russian, East European, and Eurasian Studies 301 may not both be counted.

### **REE 302. Topics in Russian, East European, and Eurasian Studies.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: The Vampire in Slavic Cultures.** Same as Slavic 301 (Topic 1: Vampire in Slavic Cultures). Examines the vampire in the cultures of Russia and Eastern Europe, including manifestations in literature, religion, art, film, and common practices from its origins to present. Only one of the following may be counted: Comparative Literature 305 (Topic: Vampire in Slavic Cultures), European Studies 307 (Topic: Vampire in Slavic Cultures), Russian, East European, and Eurasian Studies 302 (Topic: The Vampire in Slavic Cultures), 302 (Topic 1), Slavic 301 (Topic: The Vampire in Slavic Cultures), 301 (Topic 1).

### **REE 318Q. Supervised Research.**

Individual instruction.

### **REE 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Russian, East European, and Eurasian Studies.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Center for Russian, East European, and Eurasian Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

## **Upper-Division Courses**

### **REE 320. Introduction to an East European Language.**

An overview of the structure and vocabulary of an East European language necessary for a reading knowledge of the language. Three lecture hours a week for one semester. May not be used to fulfill the foreign language requirement for any degree. May be repeated for credit when the topics vary.

### **REE 325. Topics in Language, Literature, and Culture.**

Three lecture hours a week for one semester. Fulfills the basic Russian, East European, and Eurasian studies requirement in language, literature, and culture. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Gypsy Language and Culture.** Linguistic introduction to Romani; relationship to languages of India; history from 280 BC; modern dialects and international standard language; history and culture as reflected in the language. Only one of the following may be counted: Asian Studies 372 (Topic 13: Gypsy Language and Culture); Linguistics 322; Russian, East European, and Eurasian Studies 325 (Topic 1).

**Topic 9: The Russian Novel.** Same as English 322 (Topic 37: The Russian Novel) and Russian 356 (Topic 1: The Russian Novel). Only one of the following may be counted: English 322 (Topic 37),

European Studies 361 (Topic: The Russian Novel), Russian 356 (Topic 1), Russian, East European, and Eurasian Studies 325 (Topic 9). Prerequisite: Upper-division standing.

**Topic 10: The Major Works of Dostoevsky.** Russian 360 (Topic 1: The Major Works of Dostoevsky). Explores the dilemmas of homicide, suicide, patricide, and redemption in the novels of Fyodor Dostoevsky. Only one of the following may be counted: Core Texts and Ideas 345 (Topic: Major Works of Dostoevsky), Russian 360 (Topic: Major Works of Dostoevsky), 360 (Topic 1), Russian, East European and Eurasian Studies 325 (Topic: Major Works of Dostoevsky), 325 (Topic 10). Prerequisite: Upper-division standing.

**Topic 11: Contemporary Russian Cinema.** Same as Russian 330 (Topic 4: Contemporary Russian Cinema). Uses contemporary Russian film both as a means of exploring the confusion that resulted from the demise of the Soviet Union in 1991 and the search for a new sense of identity in Russia throughout the 1990s and early 2000s. Only one of the following may be counted: Russian 330 (Topic: Contemporary Russian Cinema), 330 (Topic 4), Russian, East European, and Eurasian Studies 325 (Topic 11). Prerequisite: Upper-division standing.

**Topic 12: The Apocalypse in Russian Literature and Culture.** Russian 330 (Topic 5: The Apocalypse in Russian Literature and Culture). Explores and analyzes apocalyptic consciousness in Russian literature and culture from the Middle Ages to the present. Emphasis will be on such themes as the expectation of the end of the world, identification of the Antichrist, messianic prophecy, and visions of an afterlife. Only one of the following may be counted: Russian 330 (Topic: The Apocalypse in Russian Literature and Culture), 330 (Topic 5), Russian, East European and Eurasian Studies 325 (Topic: The Apocalypse in Russian Literature and Culture), 325 (Topic 12). Prerequisite: Upper-division standing.

**Topic 13: Introduction to Old Russian Literature and Culture.** Same as Russian 330 (Topic 6: Introduction to Old Russian Literature and Culture). Medieval and early modern Russian literature and culture, including literary texts from Kievan and Muscovite Rus. Only one of the following may be counted: Russian, East European, and Eurasian Studies 325 (Topic: The Icon and the Sword: An Introduction to Old Russian Literature and Culture), 325 (Topic 13), Russian 330 (Topic: The Icon and the Sword: An Introduction to Old Russian Literature and Culture), 330 (Topic 6). Prerequisite: Upper-division standing.

**Topic 14: Twentieth-Century Russian Culture.** Same as Russian 330 (Topic 7: Twentieth-Century Russian Culture). Survey of the political, social, and cultural history of Russia during the Soviet period, from the revolutionary events of 1917 until the dissolution of the Soviet government and political system in December 1991. Only one of the following may be counted: Russian, East European, and Eurasian Studies 325 (Topic: Twentieth-Century Russian Culture), 325 (Topic 14), Russian 330 (Topic: Twentieth-Century Russian Culture), 330 (Topic 7). Prerequisite: Upper-division standing.

**Topic 15: Slavs in the Western Imagination.** Slavic 324 (Topic 4: Slavs in the Western Imagination). Examines representations of Eastern, Western, and Southern Slavs in Western Europe and North America. Only one of the following may be counted: Russian, East European, and Eurasian Studies, 325 (Topic: Slavs in the Western Imagination), 325 (Topic 15), Slavic 324 (Topic: Slavs in the Western Imagination), 324 (Topic 4). Prerequisite: Upper-division standing.

**Topic 16: The Major Works of Tolstoy.** Same as Russian 360 (Topic 2: The Major Works of Tolstoy). Explores Russian writer Lev Nikolaevich Tolstoy, particularly his progression from idealizing family life and the Russian state to renouncing sexual love and national allegiances. Only one of the following may be counted: Russian, East European, and Eurasian Studies 325 (Topic: The

Major Works of Tolstoy), 325 (Topic 16), Russian 360 (Topic: Majors Works of Tolstoy), 360 (Topic 2). Prerequisite: Upper-division standing.

**Topic 17: Political Terror in Russian Literature.** Same as Russian 356 (Topic 2: Political Terror in Russian Literature). Explores works dealing with political terror and oppression by Dostoevsky, Bely, Babel, Akhmatova, and Solzhenitsyn. Only one of the following may be counted: Russian, East European, and Eurasian Studies 325 (Topic: Terror in Russia: Method, Madness, Murder), 325 (Topic 17), Russian 356 (Topic: Terror in Russia: Method, Madness, Murder), 356 (Topic 2). Prerequisite: Upper-division standing.

**Topic 18: War and Revolution in Russian Literature and Culture.** Same as Russian 356 (Topic 3: War and Revolution) in Russian Literature and Culture). Examines Russian narratives of war and revolution as represented in fiction, cinema, and journalism. Only one of the following may be counted: Russian, East European, and Eurasian Studies 325 (Topic: War and Peace in Russian Literature and Culture), 325 (Topic 18), Russian 356 (Topic: War and Peace in Russian Literature and Culture), 356 (Topic 3). Prerequisite: Upper-division standing.

**Topic 19: Russian Youth Culture, Late Soviet to Present.** Same as Russian 330 (Topic 8: Russian Youth Culture, Late Soviet to Present). Examines the history and cultural products (films, music, writings) of Russia's youth, and their impact on contemporary society and politics. Only one of the following may be counted: Russian, East European, and Eurasian Studies 325 (Topic: Russian Youth Culture, Gorbachev to Present), 325 (Topic 19), Russian 330 (Topic: Russian Youth Culture, Gorbachev to Present), 330 (Topic 8). Prerequisite: Upper-division standing.

**Topic 20: Historical Survey of Russian Music.** Same as Russian 330 (Topic 3: Historical Survey of Russian Music). Focus on the role of Russian Music in its social and historical context. Only one of the following may be counted: Russian, East European, and Eurasian Studies 325 (Topic: Historical Survey of Russian Music), 325 (Topic 20), Russian 330 (Topic: Historical Survey of Russian Music), 330 (Topic 3). Prerequisite: Upper-division standing.

### **REE 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Russian, East European, and Eurasian Studies.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Center for Russian, East European, and Eurasian Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **REE 335. Topics in History, Economics, and Government.**

Three lecture hours a week for one semester. Fulfills the basic Russian, East European, and Eurasian studies requirement in history, economics, and government. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Marxist Economics.** An introduction to the Marxian economic theory of capitalism through the study of Karl Marx's *Capital*, volume I, and of its contemporary relevance. Economics 357K and Russian, East European, and Eurasian Studies 335 (Topic 1) may not both be counted. Prerequisite: Upper-division standing, and Economics 304K and 304L with a grade of at least C in each; or consent of instructor.

### **Topic 2: Governments and Politics of Eastern Europe.**

Same as Government 324J and European Studies 348 (Topic 1: Governments and Politics of Eastern Europe). Only one of the following may be counted: European Studies 348 (Topic 1), 361 (Topic 14: Governments and Politics of Eastern Europe), Government 324J, Russian, East European, and Eurasian Studies 335 (Topic 2). Prerequisite: Six semester hours of lower-division coursework in government.

**Topic 3: Governments and Politics of Russia.** Issues of nationalism and state-building facing Russia and its neighbors. Evaluation of the post-Soviet experience from the perspectives of both domestic and foreign policy. Government 336M and Russian, East European, and Eurasian Studies 335 (Topic 3) may not both be counted. Prerequisite: Six semester hours of lower-division coursework in government.

**Topic 5: History of Russia to 1917.** Same as History 343L. Survey of Russian history from seventeenth-century Muscovy to the fall of the Romanovs in 1917. Prerequisite: Upper-division standing.

**Topic 6: History of Russia since 1917.** Same as History 343M. A survey of Russian history from the revolution of 1917 to the collapse of the Soviet Union. Prerequisite: Upper-division standing.

**Topic 10: The Military in Politics.** Only one of the following may be counted: Government 365N (Topic 3: The Military in Politics); Latin American Studies 337M (Topic 9: The Military in Politics); Russian, East European, and Eurasian Studies 335 (Topic 10). Prerequisite: Six semester hours of lower-division coursework in government.

**Topic 11: Germany in the Twentieth Century.** Same as History 337N. Survey of German political and military institutions, economic development, culture, and society. Prerequisite: Upper-division standing.

**Topic 12: Stalinist Russia.** Same as History 350L (Topic 41: Stalinist Russia). Prerequisite: Upper-division standing.

**Topic 13: Russian Economic Development since 1917.** The growth of the planned economy in industry, agriculture, and labor. Economics 346K and Russian, East European, and Eurasian Studies 335 (Topic 13) may not both be counted. Prerequisite: Economics 304K and 304L with a grade of at least C in each, and six additional semester hours of coursework in social science; or consent of instructor.

**Topic 14: Political Economy of International Crises.** Examines several dimensions of the ongoing crises in the world economic order and the interrelationships among them. Problem areas covered are neoliberalism, international money, debt, famine, immigration, and energy shocks. Economics 357L and Russian, East European, and Eurasian Studies 335 (Topic 14) may not both be counted. Prerequisite: Economics 304K and 304L with a grade of at least C in each, and six additional semester hours of coursework in social science.

**Topic 15: Understanding the Cold War.** Same as Government 360N (Topic 4: Understanding the Cold War). Prerequisite: Upper-division standing and six semester hours of lower-division coursework in government.

### **REE 345. Topics in Sociology, Geography, and Anthropology.**

Three lecture hours a week for one semester. Fulfills the basic Russian, East European, and Eurasian studies requirement in sociology, geography, and anthropology. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 2: Regions and Cultures of Europe.** Spatial patterns in Europe, with emphasis on cultural, historical, and political

geography. Only one of the following may be counted: Geography 326; 385 (Topic: Regions and Cultures of Europe); Russian, East European, and Eurasian Studies 345 (Topic 2). Prerequisite: Upper-division standing.

**Topic 4: Geography of the Former Soviet Union.** Same as Geography 327. A systematic introduction to cultural, physical, political, and economic geography of the former Soviet Union. Focus on the fundamental transformation that the former Socialist Union Republics, now sovereign states, have undergone since 1991. Prerequisite: Upper-division standing.

**Topic 5: Chechnya: the Politics, Power, and People.** Same as Slavic 324 (Topic 3: Chechnya: the Politics, Power, and the People). Considers the history, culture, religions and recent upheaval of the region of the northern Caucasus called Chechnya. Only one of the following may be counted: Russian, East European, and Eurasian Studies 345 (Topic: Chechnya: the Politics, Power, and the People), 345 (Topic 5: Chechnya: the Politics, Power, and the People), Slavic 324 (Topic: Chechnya: the Politics, Power, and the People), 324 (Topic 3). Prerequisite: Upper-division standing.

**Topic 6: Northern Lands and Cultures.** Develops geographical understanding of the Circumpolar region of the North, an ancient human habitat, home to distinct, millennia old, civilizations. Only one of the following may be counted: European Studies 346 (Topic: Northern Lands and Cultures), Geography 356T (Topic: Northern Lands and Cultures), Russian, East European, and Eurasian Studies 345 (Topic 6). Prerequisite: Upper-division standing.

#### **REE 358Q. Supervised Research.**

Individual instruction. Prerequisite: Upper-division standing.

#### **REE 379C. Conference Course.**

Conference course. May be repeated for credit. Prerequisite: Consent of the undergraduate adviser in Russian, East European, and Eurasian studies.

#### **REE 679H. Honors Tutorial Course.**

Intensive reading and research planned with and approved by the honors adviser, followed by completion of a thesis. Conference course for two semesters. Required of Russian, East European, and Eurasian studies majors who plan to seek special honors in Russian, East European, and Eurasian studies. Prerequisite: For 679HA, upper-division standing, admission to the Russian, East European, and Eurasian Studies Honors Program, and consent of the honors adviser; for 679HB, Russian, East European, and Eurasian Studies 679HA.

## **Department of Slavic and Eurasian Studies**

Before enrolling for the first time in any language offered by the Department of Slavic and Eurasian Studies, all students with any knowledge of the language, however acquired, must take a placement test to determine the course for which they should register. Information on placement tests for Polish and Russian is available from the Center for Teaching and Learning, 2616 Wichita (471-3032). Information about testing in other languages is available from the Department of Slavic and Eurasian Studies office, Calhoun Hall 415 (471-3607).

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University

courses are listed here. Additional TCCN information is given in Appendix A (p. 627).

## **Czech: CZ**

### **Lower-Division Courses**

#### **CZ 601C. Intensive Czech I.**

Not open to native or heritage speakers of Czech. Emphasis on developing oral proficiency in Czech using intensive methods of instruction. Six lecture hours a week for one semester. Czech 601C and 506 may not both be counted. Czech 601C and 507 may not both be counted.

#### **CZ 301K. Introduction to Czech Civilization.**

Introduction to selected topics in the culture of the Czech and Slavic people. Conducted in English. Three lecture hours a week for one semester. May not be used to fulfill the foreign language requirement for any bachelor's degree. May be repeated for credit when the topics vary.

#### **CZ 506 (TCCN: CZEC 1511). First-Year Czech I.**

Emphasis on four-skills proficiency: listening, speaking, reading, and writing. Five lecture hours a week for one semester. Czech 601C and 506 may not both be counted.

#### **CZ 507 (TCCN: CZEC 1512). First-Year Czech II.**

Emphasis on four-skills proficiency: listening, speaking, reading, and writing. Five lecture hours a week for one semester. Czech 601C and 507 may not both be counted. Prerequisite: Czech 506.

#### **CZ 611C. Intensive Czech II.**

Not open to native or heritage speakers of Czech. Continuing intensive development of proficiency in Czech, with a focus on speaking and the reading of authentic texts. Six lecture hours a week for one semester. Czech 611C and 312K, 412K may not both be counted. Czech 611C and 312L, 412L may not both be counted. Prerequisite: Czech 601C or 507.

#### **CZ 312K, 412K. Second-Year Czech I.**

Listening, speaking, reading, and writing at the second-year level. For each semester hour of credit earned, one lecture hour a week for one semester. Czech 611C and 312K, 412K may not both be counted. Prerequisite: Czech 601C or 507.

#### **CZ 312L, 412L. Second-Year Czech II.**

Listening, speaking, reading, and writing at the advanced, second-year level. For each semester hour of credit earned, one lecture hour a week for one semester. Czech 611C and 312L, 412L may not both be counted. Prerequisite: Czech 312K or 412K.

#### **CZ 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Czech.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Slavic and Eurasian Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

## Upper-Division Courses

### CZ 324. Topics in Czech Studies.

Study of a selected aspect or aspects of Czech culture: literature, theatre, film, visual arts, folklore. Readings and lectures in English. Three lecture hours a week for one semester. May not be used to fulfill the foreign language requirement for any degree. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 2: Twentieth-Century Czech Fiction.** A survey of twentieth-century Czech prose fiction.

### CZ 325. Third-Year Czech I.

Oral expression, reading, and composition. Three lecture hours a week for one semester. Prerequisite: Czech 611C or 312L.

### CZ 326. Third-Year Czech II.

Continuation of Czech 325: Oral expression, reading, and composition. Three lecture hours a week for one semester. Prerequisite: Czech 325.

### CZ 328. Topics in Advanced Czech.

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Czech 312L or 412L. Additional prerequisites may vary with the topic and are given in the Course Schedule.

### CZ 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Czech.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Slavic and Eurasian Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### CZ 330. Modern Czech Literature.

A study of Czech literature from the 1860s to the present. The course is conducted in English; Czech majors are required to complete additional coursework in Czech. Three lecture hours a week for one semester. Czech 330 and Russian, East European, and Eurasian Studies 325 (Topic: Modern Czech Literature) may not both be counted. Prerequisite: Upper-division standing or consent of instructor.

### CZ 379. Conference Course in Czech Language or Literature.

Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Six semester hours of upper-division coursework in Czech, or upper-division standing and consent of instructor.

### CZ 679H. Honors Tutorial Course.

Supervised individual research on a literary honors paper of some length. Conference course for two semesters. Must be taken for special honors in addition to the major requirement. Prerequisite: For 679HA, upper-division standing, a University grade point average of at least 3.00, and a grade point average in Czech of at least 3.50; for 679HB, Czech 679HA.

## Polish: POL

### Lower-Division Courses

#### POL 601C. Intensive Polish I.

Not open to native or heritage speakers of Polish. Emphasis on developing oral proficiency in Polish using intensive methods of instruction. Six lecture hours a week for one semester. Polish 601C and 506 may not both be counted. Polish 601C and 507 may not both be counted.

#### POL 506. First-Year Polish I.

Emphasis on four-skills proficiency. Five lecture hours a week for one semester. Polish 601C and 506 may not both be counted.

#### POL 507. First-Year Polish II.

Emphasis on four-skills proficiency. Five lecture hours a week for one semester. Polish 601C and 507 may not both be counted. Prerequisite: Polish 506.

#### POL 611C. Intensive Polish II.

Not open to native or heritage speakers of Polish. Continuing intensive development of proficiency in Polish, with a focus on speaking and the reading of authentic texts. Six lecture hours a week for one semester. Polish 611C and 312K may not both be counted. Polish 611C and 312L may not both be counted. Prerequisite: Polish 601C or 507.

#### POL 312K. Second-Year Polish I.

Emphasis on four-skills proficiency. Three lecture hours a week for one semester. Polish 611C and 312K may not both be counted. Prerequisite: Polish 601C or 507.

#### POL 312L. Second-Year Polish II.

Emphasis on four-skills proficiency. Three lecture hours a week for one semester. Polish 611C and 312L may not both be counted. Prerequisite: Polish 312K.

## Upper-Division Courses

### POL 321. Introduction to the Polish Language I.

Designed to give students a rapid introduction to fundamentals of the language. Three lecture hours a week for one semester. May not be used to fulfill the foreign language requirement for any bachelor's degree.

### POL 322. Introduction to the Polish Language II.

Continuation of Polish 321. Three lecture hours a week for one semester. May not be used to fulfill the foreign language requirement for any bachelor's degree. Prerequisite: Polish 321 or consent of instructor.

### POL 324. Topics in Polish Studies.

Selected aspects of Polish history or culture. Readings and lectures in English. Three lecture hours a week for one semester. May not be used to fulfill the foreign language requirement for any degree. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

### POL 325. Third-Year Polish I.

Oral expression, reading, and composition. Three lecture hours a week for one semester. Polish 325 and Russian, East European, and

Eurasian Studies 325 (Topic: Third-Year Polish I) may not both be counted. Prerequisite: Polish 611C or 312L.

### **POL 326. Third-Year Polish II.**

Continuation of Polish 325: Oral expression, reading, and composition. Three lecture hours a week for one semester. Polish 326 and Russian, East European, and Eurasian Studies 325 (Topic: Third-Year Polish II) may not both be counted. Prerequisite: Polish 325.

### **POL 379. Conference Course in Polish Language or Literature.**

Conference course. May be repeated for credit. Prerequisite: Six semester hours of upper-division coursework in Polish or consent of instructor.

## **Russian: RUS**

### **Lower-Division Courses**

#### **RUS 601C. Intensive Russian I.**

Not open to native or heritage speakers of Russian. Emphasis on developing oral proficiency in Russian using intensive methods of instruction. Six lecture hours a week for one semester. May not be counted by students with credit for Russian 804, 506, 506T, 507, or 507T.

#### **RUS 506 (TCCN: RUSS 1511). First-Year Russian I.**

Emphasis on four-skills proficiency: listening, speaking, reading, and writing. Five lecture hours a week for one semester. Russian 601C and 506 may not both be counted.

#### **RUS 507 (TCCN: RUSS 1512). First-Year Russian II.**

Emphasis on four-skills proficiency: listening, speaking, reading, and writing. Five lecture hours a week for one semester. Russian 601C and 507 may not both be counted. Prerequisite: Russian 506.

#### **RUS 611C. Intensive Russian II.**

Not open to native or heritage speakers of Russian. Continuing intensive development of proficiency in Russian, with a focus on speaking and the reading of authentic texts. Six lecture hours a week for one semester. Only one of the following may be counted: Russian 611C, 612, 312K, 412K, 312M, 515S. Only one of the following may be counted: Russian 611C, 612, 312L, 412L. Prerequisite: Russian 601C, 804, 507, or 507T.

#### **RUS 412K. Second-Year Russian I.**

Listening, speaking, reading, and writing at the second-year level. Four lecture hours a week for one semester. Russian 611C and 412K may not both be counted. Prerequisite: Russian 601C or 507.

#### **RUS 412L. Second-Year Russian II.**

Listening, speaking, reading, and writing at the advanced, second-year level. Four lecture hours a week for one semester. Russian 611C and 412L may not both be counted. Prerequisite: Russian 412K.

#### **RUS 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Russian.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Slavic and Eurasian Studies. University credit is awarded for work in an exchange program; it may be counted

as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **Upper-Division Courses**

#### **RUS 324. Third-Year Russian I.**

Oral expression, reading, and composition. Three lecture hours a week for one semester. Prerequisite: Russian 611C or 412L.

#### **RUS 325. Third-Year Russian II.**

Oral expression, reading, and composition. Three lecture hours a week for one semester. Prerequisite: Russian 324 or appropriate score on Russian placement examination.

#### **RUS 326. Topics in Fourth-Year Russian I.**

A fourth-year course designed to enhance the student's skills in a variety of functional areas. Topics may include advanced oral communication, stylistics, Russian for business, literary translation of legal and business documents, scientific and technical translation. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

#### **RUS 327. Fourth-Year Russian II.**

Continuation of Russian 326. Three lecture hours a week for one semester. Prerequisite: Russian 326.

#### **RUS 328C. Russian for Heritage Speakers I.**

Designed for heritage Russian language speakers who have had little or no formal training in the language. Focuses on reading, writing, grammar, and communication skills for formal and professional situations. Three lecture hours a week for one semester. Russian 326 (Topic: Russian for Russians) and 328C may not both be counted. Prerequisite: Russian 412L, or an appropriate score on the Russian Placement Test and consent of instructor.

#### **RUS 328D. Russian for Heritage Speakers II.**

Continuation of Russian 328C. Three lecture hours a week for one semester. Russian 326 (Topic: Russian for Russians) and 328D may not both be counted. Prerequisite: Russian 328C.

#### **RUS 329. Survey of Original Texts in Russian Literature.**

Introduction to the reading and analysis of original literary texts representing prose, poetry, and drama, with emphasis on each work's cultural and historical background. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Two years of coursework in Russian, or the equivalent.

#### **RUS 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Russian.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Slavic and Eurasian Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

#### **RUS 330. Topics in Russian Culture.**

Study of a selected aspect or aspects of Russian culture, including theatre, film, visual arts, folklore. Readings and lectures in English.

Three lecture hours a week for one semester. May not be used to fulfill the foreign language requirement for any bachelor's degree. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 3: Historical Survey of Russian Music.** Same as Russian, East European, and Eurasian Studies 325 (Topic 20: Historical Survey of Russian Music). Focus on the role of Russian Music in its social and historical context. Only one of the following may be counted: Russian, East European, and Eurasian Studies 325 (Topic: Historical Survey of Russian Music), 325 (Topic 20), Russian 330 (Topic: Historical Survey of Russian Music), 330 (Topic 3). Prerequisite: Upper-division standing.

**Topic 4: Contemporary Russian Cinema.** Same as Russian, East European and Eurasian Studies 325 (Topic 11: Contemporary Russian Cinema). Uses contemporary Russian film both as a means of exploring the confusion that resulted from the demise of the Soviet Union in 1991 and the search for a new sense of identity in Russia throughout the 1990s and early 2000s. Only one of the following may be counted: Russian 330 (Topic: Contemporary Russian Cinema), 330 (Topic 4), Russian, East European, and Eurasian Studies 325 (Topic 11). Prerequisite: Upper-division standing.

**Topic 5: The Apocalypse in Russian Literature and Culture.** Russian, East European and Eurasian Studies 325 (Topic 12: The Apocalypse in Russian Literature and Culture). Explores and analyzes apocalyptic consciousness in Russian literature and culture from the Middle Ages to the present. Emphasis will be on such themes as the expectation of the end of the world, identification of the Antichrist, messianic prophecy, and visions of an afterlife. Only one of the following may be counted: Russian 330 (Topic: The Apocalypse in Russian Literature and Culture), 330 (Topic 5), Russian, East European and Eurasian Studies 325 (Topic: The Apocalypse in Russian Literature and Culture), 325 (Topic 12). Prerequisite: Upper-division standing.

**Topic 6: Introduction to Old Russian Literature and Culture.** Same as Russian, East European and Eurasian Studies 325 (Topic 13: Introduction to Old Russian Literature and Culture). Medieval and early modern Russian literature and culture, including literary texts from Kievan and Muscovite Rus. Only one of the following may be counted: Russian, East European, and Eurasian Studies 325 (Topic: The Icon and the Sword: An Introduction to Old Russian Literature and Culture), 325 (Topic 13), Russian 330 (Topic: The Icon and the Sword: An Introduction to Old Russian Literature and Culture), 330 (Topic 6). Prerequisite: Upper-division standing.

**Topic 7: Twentieth-Century Russian Culture.** Same as Russian, East European and Eurasian Studies 325 (Topic 14: Twentieth-Century Russian Culture). Survey of the political, social, and cultural history of Russia during the Soviet period, from the revolutionary events of 1917 until the dissolution of the Soviet government and political system in December 1991. Only one of the following may be counted: Russian, East European, and Eurasian Studies 325 (Topic: Twentieth-Century Russian Culture), 325 (Topic 14), Russian 330 (Topic: Twentieth-Century Russian Culture), 330 (Topic 7). Prerequisite: Upper-division standing.

**Topic 8: Russian Youth Culture, Late Soviet to Present.** Same as Russian, East European, and Eurasian Studies 325 (Topic 19: Russian Youth Culture, Late Soviet to Present). Examines the history and cultural products (films, music, writings) of Russia's youth, and their impact on contemporary society and politics. Only one of the following may be counted: Russian, East European, and Eurasian Studies 325 (Topic: Russian Youth Culture, Gorbachev to Present), 325 (Topic 19), Russian 330 (Topic: Russian Youth

Culture, Gorbachev to Present), 330 (Topic 8). Prerequisite: Upper-division standing.

### RUS 356. Russian Literature in Translation.

A survey of nineteenth- and/or twentieth-century Russian literature. Lectures and readings in English. Three lecture hours a week for one semester. May not be used to fulfill the foreign language requirement for any bachelor's degree. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: The Russian Novel.** Same as English 322 (Topic 37: The Russian Novel) and Russian, East European, and Eurasian Studies 325 (Topic 9: The Russian Novel). Only one of the following may be counted: English 322 (Topic 37), European Studies 361 (Topic: The Russian Novel), Russian 356 (Topic 1), Russian, East European, and Eurasian Studies 325 (Topic 9). Prerequisite: Upper-division standing.

**Topic 2: Political Terror in Russian Literature.** Same as Russian, East European, and Eurasian Studies 325 (Topic 17: Political Terror in Russian Literature). Explores works dealing with political terror and oppression by Dostoevsky, Bely, Babel, Akhmatova, and Solzhenitsyn. Only one of the following may be counted: Russian, East European, and Eurasian Studies 325 (Topic: Terror in Russia: Method, Madness, Murder), 325 (Topic 17), Russian 356 (Topic: Terror in Russia: Method, Madness, Murder), 356 (Topic 2). Prerequisite: Upper-division standing.

**Topic 3: War and Revolution in Russian Literature and Culture.** Same as Russian, East European, and Eurasian Studies 325 (Topic 18: War and Revolution in Russian Literature and Culture). Examines Russian narratives of war and revolution as represented in fiction, cinema, and journalism. Only one of the following may be counted: Russian, East European, and Eurasian Studies 325 (Topic: War and Peace in Russian Literature and Culture), 325 (Topic 18), Russian 356 (Topic: War and Peace in Russian Literature and Culture), 356 (Topic 3). Prerequisite: Upper-division standing.

### RUS 360. Study of an Individual Writer.

Readings in translation of selected works of one major Russian writer. Conducted in English. Three lecture hours a week for one semester. May not be used to fulfill the foreign language requirement for any bachelor's degree. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 1: The Major Works of Dostoevsky.** Same as Russian, East European and Eurasian Studies 325 (Topic 10: The Major Works of Dostoevsky). Explores the dilemmas of homicide, suicide, patricide, and redemption in the novels of Fyodor Dostoevsky. Only one of the following may be counted: Core Texts and Ideas 345 (Topic: Major Works of Dostoevsky), Russian 360 (Topic: Major Works of Dostoevsky), 360 (Topic 1), Russian, East European and Eurasian Studies 325 (Topic: Major Works of Dostoevsky), 325 (Topic 10). Prerequisite: Upper-division standing.

**Topic 2: The Major Works of Tolstoy.** Same as Russian, East European, and Eurasian Studies 325 (Topic 16: The Major Works of Tolstoy). Explores Russian writer Lev Nikolaevich Tolstoy, particularly his progression from idealizing family life and the Russian state to renouncing sexual love and national allegiances. Only one of the following may be counted: Russian, East European, and Eurasian Studies 325 (Topic: The Major Works of Tolstoy), 325 (Topic 16), Russian 360 (Topic: Major Works of Tolstoy), 360 (Topic 2). Prerequisite: Upper-division standing.

**Topic 3: Bulgakov's Master and Margarita.** Explores the novel in the context of other literary works by Bulgakov and its varied

sources in world literature, music, and the visual arts. Prerequisite: Upper-division standing.

### **RUS 369. Topics in Russian Linguistics.**

Introduction to selected topics in the structure or history of Russian. Conducted in English. Three lecture hours a week for one semester. May not be used to fulfill the foreign language requirement for any bachelor's degree. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 1: Structure of Russian.** Structure of contemporary Russian: phonology (sound structure), morphology (word structure), and syntax (sentence structure). Prerequisite: Credit or registration for Russian 325.

### **RUS 379. Conference Course in Russian Language or Literature.**

Conference course. May be repeated for credit. Prerequisite: Six semester hours of upper-division coursework in Russian or consent of instructor and the chair of the department.

### **RUS 679H. Honors Tutorial Course.**

Supervised individual research on a literary or linguistic problem, which culminates in an honors paper of some length. Conference course for two semesters. Must be taken for special honors in addition to the major requirement. Prerequisite: For 679HA, upper-division standing, a University grade point average of at least 3.00, and a grade point average in Russian of at least 3.50; for 679HB, Russian 679HA.

## **Serbian/Croatian: S C**

### **Lower-Division Courses**

#### **S C 601C. Intensive Serbian/Croatian I.**

Not open to native or heritage speakers of Serbian/Croatian. Emphasis on developing oral proficiency in Serbian/Croatian using intensive methods of instruction. Six lecture hours a week for one semester. Serbian/Croatian 601C and 506 may not both be counted. Serbian/Croatian 601C and 507 may not both be counted.

#### **S C 506. First-Year Serbian/Croatian I.**

Emphasis on proficiency in four skills: listening, speaking, reading, and writing. Five lecture hours a week for one semester. Serbian/Croatian 601C and 506 may not both be counted.

#### **S C 507. First-Year Serbian/Croatian II.**

Emphasis on proficiency in four skills: listening, speaking, reading, and writing. Five lecture hours a week for one semester. Serbian/Croatian 601C and 507 may not both be counted. Prerequisite: Serbian/Croatian 506.

#### **S C 611C. Intensive Serbian/Croatian II.**

Not open to native or heritage speakers of Serbian/Croatian. Continuing intensive development of proficiency in Serbian/Croatian, with a focus on speaking and the reading of authentic texts. Six lecture hours a week for one semester. Serbian/Croatian 611C and 312K may not both be counted. Serbian/Croatian 611C and 312L may not both be counted. Prerequisite: Serbian/Croatian 601C or 507.

#### **S C 312K. Second-Year Serbian/Croatian I.**

Listening, speaking, reading, and writing at the second-year level. Three lecture hours a week for one semester. Serbian/Croatian 611C

and 312K may not both be counted. Prerequisite: Serbian/Croatian 601C or 507.

#### **S C 312L. Second-Year Serbian/Croatian II.**

Listening, speaking, reading, and writing at the advanced, second-year level. Three lecture hours a week for one semester. Serbian/Croatian 611C and 312L may not both be counted. Prerequisite: Serbian/Croatian 312K.

## **Upper-Division Courses**

#### **S C 324. Topics in Serbian/Croatian Studies.**

Selected aspects of Serbian/Croatian history and culture. Conducted in English. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

#### **S C 325. Third-Year Serbian/Croatian I.**

Oral expression, reading, and composition. Three lecture hours a week for one semester. Prerequisite: Serbian/Croatian 611C or 312L.

#### **S C 326. Third-Year Serbian/Croatian II.**

Oral expression, reading, and composition. Three lecture hours a week for one semester. Prerequisite: Serbian/Croatian 325.

#### **S C 379. Conference Course in Serbian/Croatian.**

Conference course. May be repeated for credit. Prerequisite: Serbian/Croatian 312K and 312L and consent of instructor.

## **Slavic: SLA**

### **Lower-Division Courses**

#### **SLA 301. Introduction to Slavic Civilization.**

Introduction to selected topics in the cultures of the Slavic peoples. Conducted in English. Three lecture hours a week for one semester. May not be used to fulfill the foreign language requirement for any bachelor's degree. May be repeated for credit when the topics vary.

**Topic 1: The Vampire in Slavic Cultures.** Same as Russian, East European and Eurasian Studies 302 (Topic 1: Vampire in Slavic Cultures). Examines the vampire in the cultures of Russia and Eastern Europe, including manifestations in literature, religion, art, film, and common practices from its origins to present. Only one of the following may be counted: Comparative Literature 305 (Topic: Vampire in Slavic Cultures), European Studies 307 (Topic: Vampire in Slavic Cultures), Russian, East European, and Eurasian Studies 302 (Topic: The Vampire in Slavic Cultures), 302 (Topic 1), Slavic 301 (Topic: The Vampire in Slavic Cultures), 301 (Topic 1).

#### **SLA 318Q. Supervised Research.**

Individual instruction.

#### **SLA 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Slavic.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Slavic and Eurasian Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work

in an affiliated studies program. May be repeated for credit when the topics vary.

## Upper-Division Courses

### SLA 324. Seminar on Slavic and East European Studies.

Examination of selected topics in the cultures and societies of Central and Eastern Europe. Conducted in English. Three lecture hours a week for one semester. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 3: Chechnya: the Politics, Power, and People.** Same as Russian, East European, and Eurasian Studies 345 (Topic 5: Chechnya: the Politics, Power, and People). Considers the history, culture, religions and recent upheaval of the region of the northern Caucasus called Chechnya. Only one of the following may be counted: Russian, East European, and Eurasian Studies 345 (Topic: Chechnya: the Politics, Power, and People), 345 (Topic 5: Chechnya: the Politics, Power, and the People), Slavic 324 (Topic: Chechnya: the Politics, Power, and People), 324 (Topic 3). Prerequisite: Upper-division standing.

**Topic 4: Slavs in the Western Imagination.** Same as Russian, East European, and Eurasian Studies 325 (Topic 15: Slavs in the Western Imagination). Examines representations of Eastern, Western, and Southern Slavs in Western Europe and North America. Only one of the following may be counted: Russian, East European, and Eurasian Studies, 325 (Topic: Slavs in the Western Imagination), 325 (Topic 15), Slavic 324 (Topic: Slavs in the Western Imagination), 324 (Topic 4). Prerequisite: Upper-division standing.

**Topic 6: Russian Fairy Tales.** Explores Russia's folk and fairy tales, from the early collections of short morality tales, to the complex productions of fairy tales in classical and contemporary ballet and opera. Prerequisite: Upper-division standing.

### SLA 325. Topics in Jewish Life and Culture in Eastern Europe.

Study of a selected aspect or aspects of Jewish life in Eastern Europe--literature, theatre, visual arts, folklore, religious movements--with emphasis on relationships with Slavic and other East European cultures. Readings and lectures in English. Three lecture hours a week for one semester. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

### SLA 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Slavic.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Slavic and Eurasian Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### SLA 358Q. Supervised Research.

Individual instruction. Prerequisite: Upper-division standing.

### SLA 379. Conference Course in Slavic and East European Languages and Literatures.

Conference course. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

## Slavic and Eurasian Languages: SEL

### Lower-Division Courses

#### SEL 601C. Intensive Slavic and Eurasian Languages I.

Emphasis on basic communication skills in Slavic and Eurasian languages: listening, speaking, reading, and writing. Includes introduction to Slavic and Eurasian cultures. Six lecture hours a week for one semester. Slavic and Eurasian Languages 601C and 506 may not both be counted unless the languages vary. Slavic and Eurasian Languages 601C and 507 may not both be counted unless the languages vary. May be repeated for credit when the topics vary.

#### SEL 506. First-Year Slavic and Eurasian Languages I.

Emphasis on four-skills proficiency: listening, speaking, reading, and writing. Five lecture hours a week for one semester. Slavic and Eurasian Studies 601C and 506 may not both be counted unless the languages vary. May be repeated for credit when the topics vary.

#### SEL 507. First-Year Slavic and Eurasian Languages II.

Emphasis on four-skills proficiency: listening, speaking, reading, and writing. Five lecture hours a week for one semester. Slavic and Eurasian Languages 601C and 507 may not both be counted unless the languages vary. May be repeated for credit when the topics vary. Prerequisite: Slavic and Eurasian Languages 506 in the same language.

#### SEL 611C. Intensive Slavic and Eurasian Languages II.

Continuing intensive development of communication abilities in Slavic and Eurasian languages with emphasis on the four basic skills: listening, speaking, reading, and writing. Includes an introduction to Slavic and Eurasian cultures. Six lecture hours a week for one semester. Slavic and Eurasian Languages 611C and 312K may not both be counted unless the languages vary. Slavic and Eurasian Languages 611C and 312L may not both be counted unless the languages vary. May be repeated for credit when the topics vary. Prerequisite: Slavic and Eurasian Languages 601C or 507 in the same language.

#### SEL 312K. Second-Year Slavic and Eurasian Languages I.

Listening, speaking, reading, and writing at the second-year level. Three lecture hours a week for one semester. Slavic and Eurasian Studies 611C and 312K may not both be counted unless the languages vary. May be repeated for credit when the topics vary. Prerequisite: Slavic and Eurasian Languages 601C or 507 in the same language.

#### SEL 312L. Second-Year Slavic and Eurasian Languages II.

Listening, speaking, reading, and writing at the advanced, second-year level. Three lecture hours a week for one semester. Slavic and Eurasian Languages 611C and 312L may not both be counted unless the languages vary. May be repeated for credit when the topics vary. Prerequisite: Slavic and Eurasian Languages 312K in the same language.

# Department of Sociology

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 627).

## Sociology: SOC

### Lower-Division Courses

#### **SOC 101C. Introduction to the Department of Sociology.**

The discipline of sociology as taught at the University. One lecture hour a week for one semester. Recommended for all sociology majors within one year of declaring the major.

#### **SOC 302 (TCCN: SOCI 1301). Introduction to the Study of Society.**

The nature of human societies, social processes, social interaction, and the sociological approach. Three lecture hours or two lecture hours and one discussion hour a week for one semester.

#### **SOC 308 (TCCN: SOCI 1306). Topics in Introductory Sociology.**

A review of contemporary social topics from a sociological perspective, with the instructor selecting one topic for emphasis. Three lecture hours a week for one semester. Sociology 308 (Topic: Ethnicity and Gender: La Chicana) and 308D may not both be counted. May be repeated for credit when the topics vary.

##### **Topic 2: Women's Reproductive Health for Nonscience Majors.**

Same as Nursing 307 (Topic 1: Women's Reproductive Health for Nonscience Majors) and Women's and Gender Studies 301 (Topic 7: Women's Reproductive Health for Nonscience Majors). Overview of contemporary women's reproductive health issues, with emphasis on historical, physiological, psychosocial, and cultural influences that affect the reproductive health of women during adolescence, the childbearing years, and midlife. Only one of the following may be counted: Pharmacy 318W, Nursing 307 (Topic 1), Sociology 308 (Topic 2), Women's and Gender Studies 301 (Topic 7). Prerequisite: One year of high school biology, or Biology 301L or 309D or the equivalent.

**Topic 3: Life-and-Death Decisions.** Covers a range of ethical questions related to issues of life and death, with emphasis on four main areas: general value and definitional issues, issues of creation, issues of termination, and a comparative summary.

#### **SOC 308C. Peace and Conflict.**

Theories of conflict, violence, and war; nonviolence and peace movements; arms control and conflict resolution; alternative security systems. Three lecture hours a week for one semester.

#### **SOC 308D. Ethnicity and Gender: La Chicana.**

Same as Mexican American Studies 319 (Topic 1: Ethnicity and Gender: La Chicana) and Women's and Gender Studies 301 (Topic 6: Ethnicity and Gender: La Chicana). Three lecture hours a week for one semester.

#### **SOC 309. Chicanos in American Society.**

Same as Mexican American Studies 310. Introduction to the study of American character and its bearing on the Chicano experience. Three lecture hours a week for one semester.

#### **SOC 313K. Introduction to the Sociology of Religion.**

Introduction to sociological methods in the study of religion. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 301M (Topic 5: Introduction to the Study of Religion), Religious Studies 310, Sociology 313K.

#### **SOC 317L. Introduction to Social Statistics.**

Restricted to sociology majors. Measures of central tendency and dispersion, the binomial and chi-square distributions, tests of hypotheses and parameter estimation, and simple correlation and regression. Three lecture hours and one laboratory hour a week for one semester. Required of all sociology majors.

#### **SOC 317M. Introduction to Social Research.**

Students may not enroll in Sociology 317M more than twice. To enroll for the second time, students must receive consent of the undergraduate adviser. The logic of scientific research, general methods of data collection and analysis, and computer applications. Two lecture hours and two laboratory hours a week for one semester. Required of all sociology majors. Prerequisite: Sociology 317L.

#### **SOC 318 (TCCN: SOCI 2339). Juvenile Delinquency.**

Environments in which juvenile delinquency develops; delinquent subcultures and peer groups; societal reactions in schools, courts, and other agencies. Three lecture hours a week for one semester.

#### **SOC 319. Introduction to Social Demography.**

Social consequences of changes in fertility, mortality, migration, population growth and composition. Three lecture hours a week for one semester.

#### **SOC 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Sociology.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Sociology. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### Upper-Division Courses

#### **SOC 320K. Political Sociology.**

A survey of approaches to the study of the state as a social structure; political power and power systems; ideology; political parties and elites. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

#### **SOC 321J. Religion, Violence, and Nonviolence.**

Historical examination of religious beliefs and practices regarding warfare and violence. Three lecture hours a week for one semester. Religious Studies 373 (Topic 1: Religion, Violence and Nonviolence) and Sociology 321J may not both be counted. Prerequisite: Upper-division standing.

### **SOC 321K. Contemporary Issues in Sociology: Special Topics.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Post-Soviet Societies.** Only one of the following may be counted: Russian, East European, and Eurasian Studies 345 (Topic 1: Post-Soviet Societies); Sociology 321K (Topic 1); Women's and Gender Studies 345 (Topic: Post-Soviet Societies).

**Topic 4: Women and Socialism.** Same as Women's and Gender Studies 345 (Topic 25: Women and Socialism). The origins of socialism, its relationship to gender issues, and the role women have played in existing socialist states as revolutionaries and citizens. Prerequisite: Upper-division standing.

**Topic 5: Sociology of Intentional Community.** Literary, historical, and contemporary records of utopian ventures to create the perfect society, and how these attempts shed light on the nature of the less-than-perfect human societies in which we live. Prerequisite: Upper-division standing.

**Topic 9: Race, Gender, and Social Movements.** Exploration of social movements related to racial minorities in the United States. Focuses on Asian Americans, with comparisons drawn between them and African Americans and Latinos. Only one of the following may be counted: Asian American Studies 330 (Topic: South Asian American Experience), Sociology 321K (Topic 9), 321K (Topic: South Asian American Experience), Women's and Gender Studies 340 (Topic: South Asian American Experience). Prerequisite: Upper-division standing.

**Topic 10: Gender, Work, and the Labor Force.** Critical issues pertaining to workplaces and labor markets in industrial societies. Includes gender inequality in the labor market, social organization of work, types of work and employment, and changes in the labor force in industrial societies. Uses examples from East Asian countries to illustrate how the institutional context shapes women's employment behavior and economic conditions. Only one of the following may be counted: Asian Studies 361 (Topic: Work and Labor Markets), Sociology 321K (Topic 10), 321K (Topic: Work and Labor Markets), Women's and Gender Studies 322 (Topic: Work and Labor Markets). Prerequisite: Upper-division standing.

### **SOC 321L. Sociology of Education.**

Same as African and African Diaspora Studies 321L and Women's and Gender Studies 345 (Topic 23: Sociology of Education). Education as a societal institution, with emphasis on the United States educational system: how the system works; the effects of the system; recent changes. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **SOC 321M. Race and Popular American Culture.**

Same as African and African Diaspora Studies 321M and Radio-Television-Film 359 (Topic 2: Race and Popular American Culture). The intersection of African American racial politics and the changing popular media industry, especially film, music, and television. Three lecture hours a week for one semester. Prerequisite: For radio-television-film majors, upper-division standing and the following coursework, with a grade of at least C in each course: Radio-Television-Film 305, either 314 or 316, and six additional semester hours of lower-division coursework in radio-television-film; for others, upper-division standing.

### **SOC 322R. Race, Sport, and Identity.**

Same as African and African Diaspora Studies 374D (Topic 5: Race, Sport, and Identity). Explores the sociological significance of sport in relation to the construction of racialized identities. Focuses primarily but not exclusively on the black experience in sport, and examines the changing meanings given to sport throughout the twentieth century. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 374 (Topic: Race, Sport, and Identity), 374D (Topic 5), Sociology 321K (Topic 8: Race, Sport, and Identity), 322R. Prerequisite: Upper-division standing and Sociology 302.

### **SOC 322S. The Sociology of Sport.**

Examines the place of sport within social theory, with particular emphasis on the understanding of sport and society found in functionalist, Weberian, Marxist, figurational, feminist, and postmodernist accounts. This theoretical framework is used to explore key social issues in sport, including gender and representation, violence and deviancy, commercialization and college sport, race and inequality, and nationalism and identity. Three lecture hours a week for one semester. Sociology 321K (Topic 7: The Sociology of Sport) and 322S and may not both be counted. Prerequisite: Upper-division standing and Sociology 302.

### **SOC 322V. Race, Gender, and Surveillance.**

Provides an overview of theories in the sociology of social control, with a focus on risk, power, ethics, and surveillance. Examines historical transformations in social control and the distributions of power in U.S. and global contexts, with attention to race, gender, and class. Topics include: the transatlantic slave trade; prisons and punishment; the gaze, voyeurism and reality television watching; the Internet; travel and state borders; privacy; biometrics and the body. Three lecture hours a week for one semester. Sociology 321K (Topic: Surveillance and Social Control) and 322V may not both be counted. Prerequisite: Upper-division standing.

### **SOC 323. The Family.**

The American family in historical and comparative perspective; emphasis on recent changes and prospects for the future. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **SOC 324K. Social Change in Developing Nations.**

Overview of changing social structure in the Third World. Three lecture hours a week for one semester. Latin American Studies 325 (Topic 2: Social Change in Developing Nations) and Sociology 324K may not both be counted. Prerequisite: Upper-division standing.

### **SOC 325K. Criminology.**

An investigation into the nature of criminal events, including homicide, rape, robbery, property crimes, and white-collar crimes. Also examines the United States criminal justice system. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and completion of six semester hours of coursework in sociology.

### **SOC 325L. Sociology of Criminal Justice.**

Police, courts, and prisons: how they work; their impact on those who pass through them. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **SOC 329. Social Stratification.**

The types and levels of social inequality; the institutional and group processes that generate inequality; the interplay of social,

organizational, economic, and political forces that affect the degree of differential opportunities and rewards in society. Three lecture hours a week for one semester. Prerequisite: Upper-division standing. Completion of Sociology 317L or another statistics course is recommended, but not required.

**SOC 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Sociology.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Sociology. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

**SOC 330C. Death and Dying: Sociological Perspectives.**

Sociological perspectives on definitions of death; group differences in mortality rates and causes of death; social meanings of death and dying; treatment of the dying and the dead; and grief and bereavement. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**SOC 330P. Sociology and Social Psychology.**

Examines how individuals perceive, interact with, and affect other individuals from the perspectives of both psychology and sociology. Three lecture hours a week for one semester. Sociology 321K (Topic: Sociology and Social Psychology) and 330P may not both be counted. Prerequisite: Upper-division standing.

**SOC 333K. Sociology of Gender.**

Same as Women's and Gender Studies 322 (Topic 1: Sociology of Gender). Inequality between the sexes; men's and women's changing roles in society. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**SOC 335. Society of Modern Mexico.**

Same as Latin American Studies 325 (Topic 1: Society of Modern Mexico) and Urban Studies 354 (Topic 2: Society of Modern Mexico). Family, community, industrialization, and urbanization in modern Mexico. Three lecture hours a week for one semester.

**SOC 336C. American Dilemmas.**

Examines a variety of critical American social problems, including problems in the economic, political, and health care systems, as well as inequities based on income, gender, and race. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**SOC 336D. Race, Class, and Health.**

Designed to introduce students to the complex relationships among race, class, gender, and health status. Investigates how health is linked to individual behaviors and to the interaction between people and their social, cultural, and physical environments. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 374 (Topic: Race, Class, and Health), Sociology 321K (Topic: Race, Class, and Health), 336D. Prerequisite: Upper-division standing.

**SOC 336G. Gender Politics in the Islamic World.**

Study of the Islamic world and major sociological concepts such as gender, social organizations, culture, and politics. Examines how culture is mediated by politics, resulting in diverse interpretations of

Islam and in different policies with respect to women's rights. Three lecture hours a week for one semester. Sociology 321K (Topic: Gender Politics in the Islamic World) and 336G may not both be counted. Prerequisite: Upper-division standing.

**SOC 336L. Global Gender Inequality.**

Patterns of gender inequality and women's movements in different cultural contexts, with emphasis on the interface between gender and social organization, and between culture and politics. Includes the legacy of colonialism, the effect of globalization, and the interaction between local and national movements and the international discourse on women's rights. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 361 (Topic: Global Gender Inequality), Middle Eastern Studies 322K (Topic: Global Gender Inequality), Sociology 321K (Topic: Global Gender Inequality), 336L, Women's and Gender Studies 345 (Topic: Global Gender Inequality). Prerequisite: Upper-division standing.

**SOC 336P. Social Psychology and the Law.**

How courts make use of social science, as well as how social scientists study the legal system. Considers the uses of social science across multiple types of legal domains, such as eyewitnesses to crime, jury trials, punishment, children in the courts, and a variety of public policy issues. Three lecture hours a week for one semester. Sociology 321K (Topic: Social Psychology and the Law) and 336P may not both be counted. Prerequisite: Upper-division standing.

**SOC 338M. Politics and Culture of Contemporary Mexico.**

Same as Mexican American Studies 374 (Topic 28: Politics and Culture of Contemporary Mexico), Government 337M (Topic 5: Politics and Culture of Contemporary Mexico), and Latin American Studies 325 (Topic 3: Politics and Culture of Contemporary Mexico). Introduction to the contemporary Mexican political system and the ways in which political change and democratization are recasting the political and civic culture of contemporary Mexico. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and six semester hours of lower-division coursework in government.

**SOC 340C. Globalization.**

A sociological analysis of the interrelated economic, political, and cultural aspects of globalization. Examines the consequences of globalization for nations around the world and for groups within these nations. Three lecture hours a week for one semester. Sociology 321K (Topic: Globalization) and 340C may not both be counted. Prerequisite: Upper-division standing.

**SOC 340D. Violence.**

An overview of the different theories of interpersonal and group violence. Includes criminological theories of violent crime, as well as feuding, ethnic and nationalist violence, political violence, and aggression in intimate relations. Three lecture hours a week for one semester. Sociology 321K (Topic: Violence) and 340D may not both be counted. Prerequisite: Upper-division standing.

**SOC 340G. Sociology of Sexualities.**

Review of sociological perspectives on sexuality. Examines how social institutions in U.S. society shape sexual values, beliefs, and practices. Topics include changing cultural images of sexuality, sexual identities, and social movements. Three lecture hours a week for one semester. Sociology 321K (Topic: Sociology of Sexuality) and 340G may not both be counted. Prerequisite: Sociology 302, and either Sociology 333K or three semester hours of coursework in women's and gender studies.

### **SOC 340L. Aging and the Life Course.**

The biological, social, and psychological aspects of human aging from adolescence until death, with special emphasis on cultural norms and the social and demographic context in which aging occurs. Includes the challenges and problems of adjustment at each life stage, and the social, political, and economic consequences of increased longevity and changes in the age structure of the populations of modern societies. Three lecture hours a week for one semester. Sociology 321K (Topic: Aging and the Life Course) and 340L may not both be counted. Prerequisite: Upper-division standing.

### **SOC 340R. Religion and Global Change.**

The global spread and transformations of the major world religions, the interactions between them, and the different social impacts these traditions have on society. Focuses mainly on Christian traditions, but includes various schools of Hinduism, Buddhism, Judaism, and Islam. Three lecture hours a week for one semester. Sociology 321K (Topic: Religion and Global Change) and 340R may not both be counted. Prerequisite: Upper-division standing.

### **SOC 343. Religion and Society.**

Same as Religious Studies 337. The growth and decline of religious groups and traditions; "cults" and new religions; comparative sociology of religion; the United States religious landscape; religion and individual health and well-being; spirituality and other aspects of social life. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **SOC 344. Racial and Ethnic Relations.**

Contemporary racial and ethnic problems; emphasis on minority groups in the United States. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **SOC 346. The City and Urbanization.**

Same as Urban Studies 354 (Topic 6: The City and Urbanization). Examination of urbanization from a cross-national perspective: discrimination and racial inequality in urban labor markets. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **SOC 350M. Sociology Internship Seminar.**

Restricted to students in the College of Liberal Arts. Students serve as supervised, unpaid interns in an agency, organization, or business. Provides an opportunity for students to apply the knowledge and skills acquired in sociology and other liberal arts courses. Three lecture hours and at least nine hours of fieldwork a week for one semester. Prerequisite: Upper-division standing and credit or registration for six semester hours of coursework in sociology.

### **SOC 350N. Research Internship.**

Fieldwork in research and analysis on sociological problems and institutions. About ten hours of fieldwork a week for one semester. Additional lecture hours may be required. May be repeated for credit. Prerequisite: Nine semester hours of coursework in sociology, a University grade point average of at least 3.00, upper-division standing, and consent of the faculty undergraduate adviser.

### **SOC 352. Social Movements.**

Characteristics of crowds, publics, and social movements; their role in social organization and social change. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **SOC 352M. Topics in Interdisciplinary Social Science.**

An interdisciplinary analysis of significant social, economic, and political issues. Three lecture hours a week for one semester. Some topics are offered on the letter-grade basis only. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 3: Language and Speech in American Society.** Same as American Studies 321 (Topic 2: Language and Speech in American Society), Anthropology 325N, and Linguistics 373 (Topic 2: Language and Speech in American Society). Prerequisite: Upper-division standing, and Anthropology 302, 305, 307, or Linguistics 306.

**Topic 4: Language in Culture and Society.** Same as Anthropology 325M and Linguistics 373 (Topic 3: Language in Culture and Society). Language as a cultural resource; functions of language in society; survey of language communities. Prerequisite: Anthropology 302, 305, 307, or Linguistics 306; or consent of instructor.

**Topic 5: Family Policy Issues.** Same as Women's and Gender Studies 345 (Topic 12: Family Policy Issues). Consideration of liberal, conservative, and centrist views concerning the major family policy issues facing the United States and other advanced industrial societies.

**Topic 7: Contemporary European Social Theory.** Same as Government 335M (Topic 8: Contemporary European Social Theory) and Philosophy 365 (Topic 4: Contemporary European Social Theory). Prerequisite: Upper-division standing and six semester hours of lower-division coursework in government.

**Topic 8: Contemporary American Social Theory.** Same as Government 335M (Topic 9: Contemporary American Social Theory) and Philosophy 365 (Topic 5: Contemporary American Social Theory). Only one of the following may be counted: Government 335M (Topic: Social Theory), 335M (Topic 9), Philosophy 365 (Topic 5), Sociology 352M (Topic 8). Prerequisite: Upper-division standing and six semester hours of lower-division coursework in government.

**Topic 10: Sociology of South Asia.** Same as Asian Studies 361 (Topic 19: Sociology of South Asia). A broad overview of South Asian society and culture from a sociological perspective. Prerequisite: Upper-division standing.

**Topic 12: Australian Society and Politics.** Same as Government 365N (Topic 10: Australian Society and Politics). Prerequisite: Six semester hours of lower-division coursework in government.

### **SOC 353. Industrial Sociology.**

The work setting; the formal organization of work; individual and collective adaptation in industrial organizations; bureaucracy as a social problem. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **SOC 354K. Sociology of Health and Illness.**

Application of sociological concepts and principles to the study of health professions, medical institutions, community medical organization, and the distribution of illness. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **SOC 358C. Sociology of Entrepreneurship.**

Same as African and African Diaspora Studies 358C and Management 337 (Topic 16: Sociology of Entrepreneurship). Examines the creation of entrepreneurial activities in the United States, including those of all racial and ethnic groups. Three lecture hours a week for one semester. Prerequisite: For management majors, one of the following courses with a grade of at least C, or two of the following courses with

a grade of at least C in each: Management 336, 336H, Operations Management 335, 335H; for others, sixty semester hours of college coursework.

### **SOC 358D. Health Policy and Health Systems.**

Covers the essentials of health policy and law, including the ways that policy and legal issues impact health care and public health systems. Three lecture hours a week for one semester. Public Health 358D and Sociology 358D may not both be counted. Prerequisite: Upper-division standing.

### **SOC 359. Labor and Labor Movements.**

Overview of work organizations in the United States, with emphasis on globalization, inequality, and labor movements. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **SOC 362. Social Change.**

Theories of how and why society changes, with special emphasis on technological innovations, social movements, and demographic transitions. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **SOC 366. Deviance.**

Analysis of social norms, conformity, and reactions to norm violations. Topics include behavioral forms of deviance such as suicide and drug abuse and nonbehavioral forms of deviance such as physical abnormality. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **SOC 368D. Social Context of Public Health.**

An introduction to the social and behavioral theories that inform the discipline of public health, including practical examples of the ways that these theories are used to understand health-related behaviors and health promotion. Includes data on population distributions of mortality and morbidity, health inequalities, and how underlying social structures impact the health of individuals and communities. Three lecture hours a week for one semester. Public Health 368D and Sociology 368D may not both be counted. Prerequisite: Upper-division standing.

### **SOC 369K. Population and Society.**

The study of populations, including their growth, age structure, and patterns of fertility, mortality, and migration; the social causes and consequences of these phenomena. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **SOC 369L. Analytical Demography.**

Formal demography; stable population theory; life tables and techniques of mortality estimation; estimates and projections. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and college algebra or the equivalent.

### **SOC 679H. Honors Tutorial Course.**

An individual conference course to provide training in sociological research and writing. Conference course for two semesters, with additional meeting times to be arranged. Prerequisite: For 679HA, upper-division standing and admission to the Sociology Honors Program; for 679HB, Sociology 679HA.

### **SOC 379M. Sociological Theory.**

Restricted to sociology majors. Critical examination of major sociological theories and their relevance to current research and social conditions. Three lecture hours a week for one semester. Prerequisite:

Upper-division standing, and six semester hours of coursework in sociology or consent of instructor.

### **SOC 379N. Conference Course.**

Supervised individual study of selected problems in sociology. Conference course. May be repeated for credit. Prerequisite: Upper-division standing, Sociology 302 or the equivalent, nine semester hours of upper-division coursework in sociology or related fields, a University grade point average of at least 3.00, and consent of the faculty undergraduate adviser.

### **SOC 379P. Undergraduate Research Opportunity.**

Restricted to sociology majors. Students participate in research-related activities with faculty members in the Department of Sociology. Activities may include collecting interview or survey data, analyzing statistics, synthesizing research literature, and coding qualitative data. Five to seven hours a week for one semester. May be repeated for credit but may only be taken once on the letter-grade basis. Prerequisite: Upper-division standing, Sociology 302 or the equivalent, nine semester hours of upper-division coursework in sociology or related fields, a University grade point average of at least 3.00, and consent of the faculty undergraduate adviser.

## **Department of Spanish and Portuguese**

Unless otherwise noted below or in the *Course Schedule*, registrar.utexas.edu/schedules/, all upper-division Portuguese courses are conducted in Portuguese, and all upper-division Spanish courses except Spanish 347L and 349 are conducted in Spanish.

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 627).

## **Portuguese: POR**

### **Lower-Division Courses**

#### **POR 601D. Introductory Portuguese.**

Development of speaking, listening, reading, and writing skills; building vocabulary, learning basic rules and terminology of grammar; and gaining a better understanding of Portuguese-speaking cultures, with focus on Brazil, in order to communicate in an accurate, effective, and informed manner within a variety of socio-cultural situations. Six lecture hours a week for one semester. Only one of the following may be counted: Portuguese 601D and 610D; 604; 406 and 407; 508; 610S.

#### **POR 303S. Portuguese for Professional Purposes.**

Designed for students in a variety of disciplines who require basic Portuguese language skills while studying abroad. Three lecture hours a week for one semester. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. May not be counted toward a major in Portuguese.

#### **POR 604. Accelerated First-Year Portuguese.**

Designed primarily for language majors and students who demonstrate exceptional language ability or scholarship. Six lecture hours a week for one semester. Only one of the following may be counted:

Portuguese 601D and 610D; 604; 406 and 407; 508; 610S.  
Prerequisite: Consent of the lower-division coordinator for Portuguese.

**POR 406 (TCCN: PORT 1411). First-Year Portuguese I.**

Four lecture hours a week for one semester. Only one of the following may be counted: Portuguese 601D and 610D; 604; 406 and 407; 508; 610S.

**POR 407 (TCCN: PORT 1412). First-Year Portuguese II.**

Four lecture hours a week for one semester. Only one of the following may be counted: Portuguese 601D and 610D; 604; 406 and 407; 508; 610S. Prerequisite: Portuguese 406 with a grade of at least C.

**POR 508. Alternate First-Year Portuguese for Spanish Students.**

Designed to provide qualified Spanish students a rapid introduction to the Portuguese language; emphasis on grammar, vocabulary, and translation in the context of Brazilian culture. Five lecture hours a week for one semester. Only one of the following may be counted: Portuguese 601D and 610D; 604; 406 and 407; 508; 610S. Prerequisite: Spanish 312L with a grade of at least B.

**POR 610D. Intermediate Portuguese I.**

Development of speaking, listening, reading, and writing skills; building vocabulary, learning basic rules and terminology of grammar; and gaining a better understanding of Portuguese-speaking cultures, with focus on Brazil, in order to communicate in an accurate, effective, and informed manner within a variety of socio-cultural situations. Six lecture hours a week for one semester. Only one of the following may be counted: 604, 610D, 610S. Only one of the following may be counted: Portuguese 610D, 612, 312K, 516. Prerequisite: Portuguese 601D or 407 with a grade of at least C.

**POR 610S. Portuguese for Spanish Speakers I.**

Designed to provide qualified Spanish-speaking students a rapid introduction to Portuguese language. Development of speaking, listening, reading, and writing skills; building vocabulary, learning basic rules and terminology of grammar; and gaining a better understanding of Portuguese-speaking cultures, with a focus on Brazil, in order to communicate in an accurate, effective, and informed manner within a variety of socio-cultural situations. Six lecture hours a week for one semester. Only one of the following may be counted: Portuguese 601D and 610D; 604; 406 and 407; 508; 610S. Prerequisite: Spanish 611D or 312L with a grade of at least B.

**POR 611D. Intermediate Portuguese II.**

Continuation of Portuguese 610D, with an introduction to more complex grammatical structures. Six lecture hours a week for one semester. Only one of the following may be counted: Portuguese 611D; 611S; 612; 312K and 312L; 516. Prerequisite: Portuguese 508, 610D, 610S, or 312K with a grade of at least C.

**POR 611S. Portuguese for Spanish Speakers II.**

Continuation of Portuguese 610S. Six lecture hours a week for one semester. Only one of the following may be counted: Portuguese 611S, 312K and 312L, 516 or 612. Portuguese 611S and 610D and 611D may not both be counted. Prerequisite: Portuguese 604, 508, or 610S with a grade of at least B.

**POR 612. Accelerated Second-Year Portuguese: Oral Expression, Reading, and Composition.**

Covers the same material as Portuguese 312K and 312L, but in one semester. Six lecture hours a week for one semester. Only one of the

following may be counted: Portuguese 610D and 611D; 611S; 612; 312K and 312L; 516. Prerequisite: Portuguese 604 or 508 with a grade of at least B, or Portuguese 407 with a grade of A; and consent of the lower-division coordinator for Portuguese.

**POR 312K (TCCN: PORT 2311). Second-Year Portuguese I: Oral Expression, Reading, and Composition.**

Three lecture hours a week for one semester. Only one of the following may be counted: Portuguese 610D and 611D; 611S; 612; 312K and 312L; 516. Prerequisite: Portuguese 604, 407, or 508 with a grade of at least C.

**POR 312L (TCCN: PORT 2312). Second-Year Portuguese II: Oral Expression, Reading, and Composition.**

Three lecture hours a week for one semester. Only one of the following may be counted: Portuguese 610D and 611D; 611S; 612; 312K and 312L; 516. Prerequisite: Portuguese 312K with a grade of at least C.

**POR 516. Alternate Second-Year Portuguese for Spanish Speakers.**

For qualified Spanish-speaking students, continued practice in the Portuguese language; emphasis on oral expression, vocabulary expansion, writing, and review of grammar in the context of cultural and literary readings. Five class hours a week for one semester. Only one of the following may be counted: Portuguese 610D and 611D; 611S; 612; 312K and 312L; 516. Prerequisite: Portuguese 508 with a grade of at least B.

**POR 318. Conversation and Composition.**

Intensive practice in oral expression, based on cultural readings, with some writing. Three lecture hours a week for one semester. Prerequisite: Portuguese 312L. With consent of the lower-division coordinator for Portuguese, Portuguese 312L may be taken concurrently.

**POR 319C. Culture and Conversation.**

Designed to improve oral skills and speaking strategies in different discourse genres including informal, formal, academic, and travel. Analysis and discussion of videos, films, short stories, and news articles highlighting Portuguese-speaking culture, with a focus on Brazil. Three lecture hours a week for one semester. Prerequisite: Portuguese 611D, 611S, 612, 312L, or 516.

**POR 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Portuguese.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Spanish and Portuguese. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**Upper-Division Courses**

**POR 321. Practical Phonetics.**

Recommended for Portuguese majors, especially for those preparing to teach. A thorough review of Portuguese pronunciation, phonetics, and oral reading. Three lecture hours a week for one semester. Prerequisite: Portuguese 611D, 611S, 612, or 312L.

**POR 322C. Conference Course in Luso-Brazilian Civilization.**

Conference course. Prerequisite: Portuguese 611D, 611S, 612, or 312L, and written consent of the department chair.

**POR 322L. Conference Course in Luso-Brazilian Literature.**

Conference course. Portuguese 611D, 611S, 612 or 312L, and written consent of the department chair.

**POR 326K. Advanced Conversation and Composition.**

Advanced, intensive practice in both oral and written expression based on cultural readings. Three lecture hours a week for one semester. Prerequisite: Portuguese 611D, 611S, 612, 312L, or 516.

**POR 327K. Brazilian Culture and Literature of the Colonial Period.**

Survey of Brazilian literature and culture from the sixteenth century through the late eighteenth century. Three lecture hours a week for one semester. Prerequisite: Portuguese 611D, 611S, 612, 312L, or 516.

**POR 327L. Brazilian Culture and Literature of the Nineteenth Century.**

Survey of Brazilian prose, poetry, and drama. Includes the broad literary and cultural movements of the nineteenth century. Three lecture hours a week for one semester. Prerequisite: Portuguese 611D, 611S, 612, 312L, or 516.

**POR 327M. Brazilian Culture and Literature of the Twentieth Century and Later.**

Survey of Brazilian prose, poetry, and drama. Includes the broad literary and cultural movements of the twentieth century and later. Three lecture hours a week for one semester. Prerequisite: Portuguese 611D, 611S, 612, 312L, or 516.

**POR 328. Introduction to Portuguese Literature.**

Main literary trends and principal writers of Portugal. Three lecture hours a week for one semester. Prerequisite: Portuguese 611D, 611S, 612, 312L, or 516.

**POR 329. Lusophone African Literatures and Cultures.**

Introduction to Lusophone African literatures and cultures from the colonial era through independence and postindependence. Three lecture hours a week for one semester. Prerequisite: Portuguese 611D, 611S, 612, 312L, or 516.

**POR 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Portuguese.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Spanish and Portuguese. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**POR 130D. Portuguese across Disciplines.**

Students read and discuss Portuguese language materials related to the subject matter of another designated course. One lecture hour a week for one semester. May not be counted towards fulfillment of the

foreign language requirement for any bachelor's degree. Prerequisite: One upper-division Portuguese course or consent of instructor.

**POR 341. Luso-Brazilian Civilization and Culture.**

Analysis of social, political, and cultural aspects of Portugal and/or Brazil. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Portuguese 611D, 611S, 612, 312L, or 516.

**POR 350K. Luso-Brazilian Film.**

A study of film from the Lusophone world, including Portugal, Brazil, and Africa. Three lecture hours a week for one semester. Prerequisite: Portuguese 611D, 611S, 612, 312L, or 516.

**POR 352. Brazilian and Spanish American Literature.**

Brazilian and Latin American literature and culture from the twentieth century and later. Studies the literary trends and social roles in the region while comparing and contrasting the culture and history from both Spanish America and Brazil. Three lecture hours a week for one semester. Prerequisite: Portuguese 611D, 611S, 612, 312L, or 516.

**POR 362. Advanced Composition.**

Translation of English texts into Portuguese and free composition; special attention to idiomatic expressions and to grammatical and syntactical features. Three lecture hours a week for one semester. Prerequisite: Portuguese 611D, 611S, 612, 312L, or 516.

**POR 364L. Applied Linguistics.**

Introduction to the linguistic structure of Portuguese; application of linguistic principles to the teaching of Portuguese. Three lecture hours a week for one semester. Prerequisite: Portuguese 611D, 611S, 612, 312L, or 516.

**POR 375. Luso-Brazilian Literature.**

Representative writers and significant periods of Luso-Brazilian literature. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Six semester hours of upper-division coursework in Portuguese.

**Topic 5: Brazil: An Introduction.** Same as Latin American Studies 370P (Topic 1: Brazil: An Introduction).

**POR 378H. Honors Seminar.**

Honors seminar on a special topic in literature, linguistics, or civilization. The equivalent of three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing, admission to the Portuguese Honors Program, and consent of the honors adviser.

**POR 379H. Honors Thesis.**

Supervised individual research on a topic in literature, linguistics, or civilization. The equivalent of three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing, admission to the Portuguese Honors Program, and consent of the honors adviser.

## Portuguese Civilization: PRC

### Lower-Division Courses

#### **PRC 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Portuguese Civilization.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Spanish and Portuguese. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### Upper-Division Courses

#### **PRC 320E. Portuguese and Brazilian Civilization.**

Social, literary, and cultural topics of Portugal, Brazil, Portuguese Africa, and Portuguese Asia. Conducted in English. Three lecture hours a week for one semester. May be counted toward a major or a minor in Portuguese. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

#### **PRC 325E. Brazilian Studies.**

Studies Brazil from several interdisciplinary perspectives. Focuses on diverse aspects of Brazilian history, social issues, literature, and culture. Taught in English. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

#### **PRC 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Portuguese Civilization.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Spanish and Portuguese. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

## Spanish: SPN

### Lower-Division Courses

#### **SPN 301. Spanish for Graduate Students in Other Departments.**

For graduate students in other departments seeking to fulfill degree language requirements. No auditors. Purpose: To introduce fundamentals of grammar and lexicon to enable students to read texts in their areas of specialization. Primary aim: To allow students to acquire reading proficiency. Also presents audio-aural aspect. Three class hours a week for one semester. Offered every fall semester. May not be used to fulfill the undergraduate foreign language requirement. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

#### **SPN 601D. Introductory Spanish.**

Six-hour course focused on the development of multilingual literacy through the analysis and use of Spanish to achieve linguistic competence (basic verb tenses, pronouns, adjectives, conditional statements), communication and interactional competence

(complimenting, thanking, requesting, giving opinions), and metalinguistic competence (parts of speech, sociolinguistic cues). Six lecture hours a week for one semester. Only one of the following may be counted: Spanish 601D, 604, 506. Only one of the following may be counted: Spanish 601D, 604, 507, 508K.

#### **SPN 303S. Spanish for Professional Purposes.**

Designed for students in a variety of disciplines who require basic Spanish language skills while studying abroad. Three lecture hours a week for one semester. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. May not be counted toward a major in Spanish.

#### **SPN 604. Accelerated Beginners' Spanish.**

Designed primarily for language majors and students who demonstrate exceptional language ability or scholarship. A six-hour course comparable to Spanish 506 and 507. Six lecture hours a week for one semester. Offered in the fall semester only. Only one of the following may be counted: Spanish 601D, 604, 506. Only one of the following may be counted: Spanish 601D, 604, 507, 508K. Prerequisite: Written consent of the lower-division coordinator for Spanish.

#### **SPN 305. Spanish for Graduate Students in Other Departments.**

No auditors. Continuation of Spanish 301. Vocabulary and grammar expansion through intense practice in reading texts according to class interests; increased emphasis on the audio-aural aspect. Three lecture hours a week for one semester. Offered every spring semester. May not be used to fulfill the undergraduate foreign language requirement. Offered on the letter-grade basis only. Prerequisite: Graduate standing, and Spanish 301 or consent of instructor.

#### **SPN 506 (TCCN: SPAN 1511). First-Year Spanish I.**

Designed for students who have not previously studied any Spanish. Five lecture hours a week for one semester. Only one of the following may be counted: Spanish 601D, 604, 506.

#### **SPN 507 (TCCN: SPAN 1512). First-Year Spanish II.**

Five lecture hours a week for one semester. Only one of the following may be counted: Spanish 601D, 604, 507, 508K. Prerequisite: Spanish 506 with a grade of at least C.

#### **SPN 508K. Alternate First-Year Spanish II.**

An accelerated review of grammatical structures covered in Spanish 506, followed by study of the new material covered in Spanish 507. Five lecture hours a week for one semester. Only one of the following may be counted: Spanish 601D, 604, 507, 508K. Prerequisite: Transfer credit or credit by examination for Spanish 506, or high school coursework in Spanish, or credit for Spanish 506 earned at the University of Texas at Austin more than one calendar year ago, with a grade of at least C.

#### **SPN 610D. Intermediate Spanish I.**

Six-hour course focused on the development of multilingual literacy through the analysis and use of Spanish to achieve linguistic competence (aspect, subjunctive, hypotheticals, passive voice), communication and interactional competence (apologizing, requesting, circumlocution), and metalinguistic competence (critical analysis of oral and written texts). Six lecture hours a week for one semester. Only one of the following may be counted: Spanish 610D, 612, 312K. Prerequisite: Spanish 601D, 604, 507, or 508K with a grade of at least C.

### **SPN 611D. Intermediate Spanish II.**

Six-hour course focused on the development of multilingual literacy through the analysis and use of Spanish to achieve linguistic competence (aspect, subjunctive, passive voice), communication and interactional competence (pragmatics, cultural perspectives), and metalinguistic competence (dialectal differences). Six lecture hours a week for one semester. Only one of the following may be counted: Spanish 611D, 612, 312L. Prerequisite: Spanish 610D or 312K with a grade of at least C.

### **SPN 612. Accelerated Second-Year Spanish: Oral Expression, Reading, and Composition.**

A six-semester-hour course comparable to Spanish 312K and 312L combined. Six lecture hours a week for one semester. Offered in the spring semester only. Only one of the following may be counted: Spanish 610D, 612, 312K. Only one of the following may be counted: Spanish 611D, 612, 312L. Prerequisite: Spanish 604 with a grade of at least B, or Spanish 507 or 508K with a grade of A.

### **SPN 312K (TCCN: SPAN 2311). Second-Year Spanish I.**

Three lecture hours a week for one semester. Only one of the following may be counted: Spanish 610D, 612, 312K. Prerequisite: Spanish 604, 507, or 508K with a grade of at least C.

### **SPN 312L (TCCN: SPAN 2312). Second-Year Spanish II.**

Three lecture hours a week for one semester. Only one of the following may be counted: Spanish 611D, 612, 312L. Prerequisite: Spanish 312K with a grade of at least C.

### **SPN 315N. Readings in Hispanic Literature.**

Readings in various literary genres and in the literatures of the Spanish-speaking countries. Development of skills needed to read and to discuss literary texts in Spanish. Three lecture hours a week for one semester. Spanish 315N and 318 may not both be counted. May not be counted toward a major in Spanish. Prerequisite: Spanish 612 or 312L.

### **SPN 318. Conversation and Composition.**

Designed to give intensive practice in oral expression, based on cultural readings, with some writing. Three lecture hours a week for one semester. Spanish 315N and 318 may not both be counted. May not be counted toward a major in Spanish. This course or the equivalent is recommended but not required for all majors in Spanish. Prerequisite: Spanish 612 or 312L.

### **SPN 319. Advanced Oral Expression.**

Designed to develop listening comprehension and oral skill to an advanced level. Three lecture hours a week for one semester. May not be counted toward a major in Spanish. Recommended for all Spanish majors. Prerequisite: Consent of instructor.

### **SPN 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Spanish.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Spanish and Portuguese. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May not be counted toward a major in Spanish. May be repeated for credit when the topics vary.

## **Upper-Division Courses**

### **SPN 322K. Civilization of Spanish America.**

Same as Latin American Studies 370S (Topic 3: Civilization of Spanish America). Survey of the social and cultural evolution of the Spanish American countries. Conducted in Spanish. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Spanish 611D, 612, or 312L.

### **SPN 325K. Introduction to Spanish American Literature through Modernism.**

Same as Latin American Studies 370S (Topic 4: Introduction to Spanish American Literature through Modernism). Main literary trends and principal writers in Spanish America from the sixteenth century through Modernism. Conducted in Spanish. Three lecture hours a week for one semester. Prerequisite: Spanish 611D, 612, or 312L.

### **SPN 325L. Introduction to Spanish American Literature since Modernism.**

Same as Latin American Studies 370S (Topic 5: Introduction to Spanish American Literature since Modernism). Main literary trends and principal writers in Spanish America since Modernism. Conducted in Spanish. Three lecture hours a week for one semester. Prerequisite: Spanish 611D, 612, or 312L.

### **SPN 326K. Introduction to Spanish Literature before 1700.**

Main literary trends and principal writers from the Middle Ages through the Golden Age. Three lecture hours a week for one semester. Prerequisite: Spanish 611D, 612, or 312L.

### **SPN 326L. Introduction to Spanish Literature since 1700.**

Main trends and principal writers, with emphasis on the Romantics, the Realists of the nineteenth century, the Generation of '98, and contemporary figures. Three lecture hours a week for one semester. Prerequisite: Spanish 611D, 612, or 312L.

### **SPN 327G. Advanced Grammar and Composition I.**

Study and practice of Spanish grammar, focusing on grammar points of particular concern to English speakers. Includes oral exercises and guided composition. Three lecture hours a week for one semester. Prerequisite: Spanish 611D, 612, or 312L.

### **SPN 327W. Advanced Grammar and Composition II.**

Designed to develop writing skills needed for upper-division coursework in Spanish. Emphasizes grammar using various topics in Spanish language, literature, and culture. Explores different compositional styles. Three lecture hours a week for one semester. Prerequisite: Spanish 327G with a grade of at least C.

### **SPN 328. Spanish Civilization.**

A survey of the social, political, and cultural history of Spain. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Spanish 611D, 612, or 312L.

### **SPN 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Spanish.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Spanish and Portuguese. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in

an affiliated studies program. May not be counted toward a major in Spanish. May be repeated for credit when the topics vary.

### **SPN 130D. Spanish across Disciplines.**

Students read and discuss Spanish language materials related to the subject matter of another designated course. One lecture hour a week for one semester. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. Prerequisite: One upper-division Spanish course or consent of instructor.

### **SPN 345L. Introduction to Hispanic Linguistics.**

Introduction to the study of the Spanish language through different areas of linguistics such as phonology, morphology, syntax, semantics, sociolinguistics, and second-language acquisition. Three lecture hours a week for one semester. Prerequisite: Spanish 327G.

### **SPN 346. Practical Phonetics.**

Recommended for Spanish majors, especially for those preparing to teach. A thorough review of Spanish pronunciation, phonetics, and oral reading. Three lecture hours a week for one semester. Prerequisite: Spanish 327G.

### **SPN 347L. Linguistics in Translation.**

Conducted in English. Three lecture hours a week for one semester. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. May not be counted toward a major in Spanish. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

#### **Topic 1: Language, Culture, and Society in Latin America.**

### **SPN 349. Literature in Translation.**

Conducted in English. Three lecture hours a week for one semester. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. May not be counted toward a major in Spanish. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

### **SPN 350. Studies in Hispanic Life and Culture.**

Sequel to Spanish 322K and 328, approaching in a more specialized way the study of important currents in Hispanic civilization. Three lecture hours a week for one semester. Spanish 350 and 350K may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 4: Indigenous Voices in Latin American Literature.** Same as Latin American Studies 370S (Topic 17: Indigenous Voices in Latin American Literature). Prerequisite: Spanish 322K or 328.

**Topic 6: Tracking Cultures: Literary and Cultural Points of Contact.** Prerequisite: Upper-division standing and consent of instructor.

**Topic 7: Tracking Cultures: Cultural Itineraries in Spain and Morocco.** Prerequisite: Upper-division standing and consent of instructor.

**Topic 8: Cultures in Contact in Medieval Spain.** Jewish Studies 361 (Topic: Cultures in Contact in Medieval Spain) and Spanish 350 (Topic 8) may not both be counted. Prerequisite: Spanish 322K or 328.

**Topic 9: History of the Spanish Civil War.** Prerequisite: Spanish 322K or 328.

**Topic 10: Business in Hispanic Life and Culture.** Same as Latin American Studies 370S (Topic 19: Business in Hispanic Life and Culture). Prerequisite: Spanish 322K or 328.

**Topic 11: Mexican and Mexican American Ballads.** Same as Latin American Studies 370S (Topic 20: Mexican and Mexican American Ballads) and Mexican American Studies 374 (Topic 29: Mexican and Mexican American Ballads). Examines the corrido genre in the nineteenth and twentieth centuries, with special focus on its pivotal role in the Mexican Revolution and in the collision between cultures in the border zone. Prerequisite: Spanish 322K or 328.

**Topic 12: The Imagined Andes.** Same as Latin American Studies 370S (Topic 22: The Imagined Andes). Overview of literature and culture of the Andean regions. Three lecture hours a week for one semester. Prerequisite: Spanish 322K or 328.

**Topic 13: Violence in Contemporary Mexican Culture.** Same as Latin American Studies 370S (Topic 23: Violence in Contemporary Mexican Culture) and Women's and Gender Studies 340 (Topic 20: Violence in Contemporary Mexican Culture). Studies the representation of violence in contemporary literary and cultural production in Mexico in order to understand social, political, and cultural implications of current violence in that country. Taught in Spanish. Prerequisite: Spanish 611D, 612, or 312L.

### **SPN 350K. Topics in Hispanic Film.**

A study of film from the Hispanic world, including Spain and Latin America. Three lecture hours a week for one semester. Spanish 350 and 350K may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Spanish 325K, 325L, 326K, or 326L.

**Topic 1: Gender Issues in Contemporary Latin American Cinema.** Same as Latin American Studies 370S (Topic 24: Gender Issues in Latin American Cinema). Studies Latin American cinema as a device of gender system formation and reinforcement, and as criticism of patriarchal hegemony; discusses questions related to sexuality depicted in Latin American films. Subjects covered include: maternity, prostitution, machismo, children's sexuality, homosexuality, heterosexuality, and gender violence in films from the 1930s to present. Conducted in Spanish. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic 24), Spanish 350 (Topic: Gender in Contemporary Latin American Cinema), 350K (Topic 1).

**Topic 2: Violence in Spanish Film.** Focus on representations of violence in film from and about Spain since the 1920s to present. Includes the Spanish Civil War, torture, and other state-sanctioned violence; children and violence; violence against women; homophobic violence; terrorism; and ethnic and racist violence.

**Topic 3: Latin American Film and Culture.** Same as Latin American Studies 370S (Topic 25: Latin American Film and Culture). Overview of Latin American cinema from the silent era to present, with an emphasis on the last forty years. Subjects covered include: the development of the film industry (particularly in Argentina and Mexico in the 1930s and 1940s); the "New Wave" of Latin American cinema in the 1960s; and contemporary trends. Taught in Spanish. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic 25), Spanish 350 (Topic: Latin American Film and Culture), 350K (Topic 3).

**Topic 4: Latin American Literature and Film.** Same as Latin American Studies 370S (Topic 26: Latin American Literature and Film). Studies, in a broad sense, the connections between Latin American cinema and literature, through extensive readings and in-class movie exhibitions. A number of renowned literary works by Latin American authors and their film versions will be analyzed with a comparative approach. Only one of the following may be counted: Latin American Studies 370S (Topic 26), Spanish 350

(Topic: Latin American Literature and Film), 350K (Topic 4), 352 (Topic: Literature and Cinema in Spanish America).

### **SPN 351. Don Quijote.**

Intensive analysis of Cervantes' novel. Three lecture hours a week for one semester. Prerequisite: Spanish 325K, 325L, 326K, or 326L.

### **SPN 352. Topics in Spanish and Spanish American Literature.**

Major writers and works of Spanish and Spanish American literature. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Spain in 1492.** Spanish 350 (Topic: Spain in 1492) and 352 (Topic 1) may not both be counted. Prerequisite: Spanish 325K, 325L, 326K, or 326L.

**Topic 2: Literature of the Spanish Civil War.** Prerequisite: Spanish 325K, 325L, 326K, or 326L.

**Topic 3: The Latin American Short Story.** Examination of the most representative Latin American authors as a course of study in the art of storytelling, literary history, individual poetics, and narrative theories. Prerequisite: Spanish 325K, 325L, 326K, or 326L.

### **SPN 353. Introduction to Hispanic Sociolinguistics.**

Studies different aspects of Hispanic sociolinguistics, including concepts such as language contact and variation, bilingualism and multilingualism, the intersection of societal factors with linguistic expression, and linguistic identity. Three lecture hours a week for one semester. Prerequisite: Spanish 345L.

### **SPN 354. Topics in the Literatures of the United States.**

Study of literary texts written in Spanish in the United States, including but not limited to authors of Mexican, Puerto Rican, Cuban, and Dominican origin. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic 6: Spanish-Language Literature of the Southwest), Mexican American Studies 374 (Topic 13: Spanish-Language Literature of the Southwest), Spanish 341K, 354. May be repeated for credit when the topics vary. Prerequisite: Spanish 327G (or 327).

### **SPN 362K. Spanish Drama and Poetry.**

Topics may focus on drama, poetry, a combination of the two, and themes expressed in one or both genres. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Spanish 325K, 325L, 326K, or 326L.

### **SPN 364K. Spanish American Drama and Poetry.**

Main trends and principal writers, with emphasis on poetry. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Spanish 325K, 325L, 326K, or 326L.

**Topic 2: Contemporary Spanish American Poetry.** Same as Latin American Studies 370S (Topic 9: Contemporary Spanish American Poetry). Taught in Spanish.

### **SPN 364L. Applied Linguistics.**

Practical application of linguistic principles to the teaching of Spanish. Three lecture hours a week for one semester. Prerequisite: Spanish 327G and 345L.

### **SPN 365C. Conference Course in Hispanic Civilization.**

Conference course. Prerequisite: Spanish 612 or 312L; and written consent of the department chair.

### **SPN 365G. Conference Course in Hispanic Linguistics.**

Conference course. Prerequisite: Spanish 612 or 312L; and written consent of the department chair.

### **SPN 365K. Contemporary Spanish American Prose.**

Same as Latin American Studies 370S (Topic 10: Contemporary Spanish American Prose). Novels, short stories, and essays from different regions of Hispanic America. Taught in Spanish. Three lecture hours a week for one semester. Prerequisite: Spanish 325K, 325L, 326K, or 326L.

### **SPN 365L. Conference Course in Hispanic Literature.**

Conference course. Prerequisite: Spanish 612 or 312L; and written consent of the department chair.

### **SPN 366K. Nineteenth-Century Spanish Literature.**

Literary trends, with intensive and extensive reading of representative works. Three lecture hours a week for one semester. Prerequisite: Spanish 325K, 325L, 326K, or 326L.

### **SPN 367K. Syntax and Stylistics.**

Examination of Spanish syntax and style: the study of literary language and style, translation of idiomatic English, free composition, oral expression, rhetoric, and style. Three lecture hours a week for one semester. May be taught in English or Spanish, depending on the topic. Topics taught in English may not be counted toward fulfillment of the foreign language requirement for any degree; they may not be counted toward a major in Spanish without the consent of the chair of the Department of Spanish and Portuguese. May be repeated for credit when the topics vary. Prerequisite: Spanish 327G; additional prerequisites vary with the topic.

**Topic 1: Advanced Oral Expression for Teachers.** Restricted to students in the language teaching concentration. Conducted in Spanish.

**Topic 2: Comparative Structure of English and Spanish.** Same as Latin American Studies 370S (Topic 11: Comparative Structure of English and Spanish). Conducted in Spanish. Additional prerequisite: Spanish 327G, 345L and three additional semester hours of upper-division coursework in Spanish.

**Topic 3: Spanish Grammar.** Conducted in Spanish. Additional prerequisite: Spanish 345L and three additional semester hours of upper-division coursework in Spanish.

**Topic 4: Translation Principles and Practice.** Same as Latin American Studies 370S (Topic 12: Translation Principles and Practice). Conducted in Spanish. Additional prerequisite: Spanish 327G, 345L and three additional semester hours of upper-division coursework in Spanish.

**Topic 5: Interpretation Principles and Practice.** Same as Latin American Studies 370S (Topic 14: Interpretation Principles and Practice). Conducted in Spanish. Additional prerequisite: Spanish 327G, 345L and three additional semester hours of upper-division coursework in Spanish.

**Topic 6: Literary Translation: Analysis and Criticism.** Same as Latin American Studies 370S (Topic 15: Literary Translation: Analysis and Criticism). Conducted in Spanish. Additional prerequisite: Spanish 327G, 345L and three additional semester hours of upper-division coursework in Spanish.

**Topic 7: Spanish for Health Care Professionals.** Designed to build fluency in both spoken and written Spanish that will enable the health care professional to communicate effectively with monolingual patients, to attend conferences or classes in Spanish, and to explain medical literature to patients. Conducted in Spanish. Mexican American Studies 374 (Topic 30: Spanish for Health Care Professionals) and Spanish 367K (Topic 7) may not both be counted. Additional prerequisite: Spanish 345L and three additional semester hours of upper-division coursework in Spanish.

**Topic 8: Rhetoric and Composition for Native Speakers.** Writing and oral expression for use in academic and professional settings. Conducted in Spanish. Mexican American Studies 374 (Topic 31: Rhetoric and Composition for Native Speakers) and Spanish 367K (Topic 8) may not both be counted. Additional prerequisite: Spanish 345L and three additional semester hours of upper-division coursework in Spanish.

### **SPN 368L. Spanish Language Structure.**

Advanced treatment of the syntax and morphology of the Spanish language for Spanish majors concentrating in Hispanic linguistics. Three lecture hours a week for one semester. Spanish 367K (Topic: Structure of the Spanish Language) and 368L may not both be counted. Prerequisite: Spanish 345L.

### **SPN 372. Topics in Spanish Literature Since 1900.**

Intensive study of significant works and themes, and well as their literary and cultural contexts. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Spanish 325K, 325L, 326K, or 326L.

### **SPN 373. Early Spanish Literature.**

Writers and texts from the medieval and/or the Renaissance period of Spanish literature. Three lecture hours a week for one semester. Prerequisite: Spanish 325K, 325L, 326K, or 326L.

### **SPN 374K. Colonial Spanish American Literature.**

Main trends and principal writers of the colonial period in Spanish America. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Spanish 325K, 325L, 326K, or 326L.

**Topic 1: Writing the Conquest.** Same as Latin American Studies 370S (Topic 16: Writing the Conquest). The forging of Spanish-American civilization and many of its persistent dilemmas seen through the examination of an exuberant and original body of narrative texts. Only one of the following may be counted: Latin American Studies 370S (Topic 16), Spanish 350 (Topic: Writing the Conquest), 374K (Topic 1).

### **SPN 375. National Literatures of Spanish America.**

Selected representative works from the national literatures of Spanish America. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Spanish 325K, 325L, 326K, or 326L.

### **SPN 376. Topics in Golden Age Literature.**

Critical study of significant Golden Age works. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Spanish 325K, 325L, 326K, or 326L.

**Topic 1: Golden Age Drama.**

**Topic 2: Prose and Drama of Golden Age Spain.** Only one of the following may be counted: Spanish 376 (Topic 2), 376 (Topic: Prose

and Drama of the Golden Age), 376 (Topic: Golden Age Prose and Drama).

**Topic 3: Cervantes.**

### **SPN 679H. Honors Tutorial Course.**

Supervised individual research on a literary, linguistic, or cultural problem, culminating in a written thesis of fifty to eighty typewritten pages. Conference course for two semesters. Prerequisite: For 679HA, upper-division standing, admission to the Spanish Honors Program, and consent of the honors adviser; for 679HB, Spanish 679HA.

## **UTeach-Liberal Arts**

### **UTeach-Liberal-Arts: UTL**

#### **Lower-Division Courses**

#### **UTL 101. Introduction to the Teaching Profession.**

Weekly seminar with a University faculty member plus a field experience in an area elementary school under the supervision of a cooperating teacher. Course readings and instruction complement the field experience. Seminar topics include basic classroom management, lesson design, assessment, technology, diversity, and special student populations. One class hour a week for one semester; at least ten hours of fieldwork a semester are also required. Offered on the letter-grade basis only. Prerequisite: Successful admission into the UTeach-Liberal Arts program and consent of the UTeach adviser in the College of Liberal Arts.

#### **UTL 202. Introduction to Teaching in the Middle School.**

Weekly seminar with a University faculty member plus a field experience in an area middle school under the supervision of a cooperating teacher. Course readings and instruction complement field experience. Seminar topics include classroom management, lesson design, assessment, technology, diversity, special student populations, conferencing techniques, and school organization. Two class hours a week for one semester; at least twenty hours of fieldwork a semester are also required. Offered on the letter-grade basis only. Prerequisite: UTeach-Liberal Arts 101 with a grade of at least B, and consent of the UTeach adviser in the College of Liberal Arts.

#### **UTL 303E. Teaching English in the High School.**

Weekly seminar with a University faculty member, plus field experience in an area high school under the supervision of a cooperating teacher. Course readings and instruction complement field experience. Seminar topics include state and national standards, curriculum design and implementation, the role of technology in education, and teaching strategies with a special focus on innovative strategies for teaching literature and writing. Three lecture hours a week for one semester; at least forty-five hours of fieldwork a semester are also required. Offered on the letter-grade basis only. Prerequisite: UTeach-Liberal Arts 101 and 202 with a grade of at least B in each; concurrent enrollment in Curriculum and Instruction 370S (Topic 1: Advanced Methods in English, Language Arts, and Reading); and consent of the UTeach adviser in the College of Liberal Arts.

#### **UTL 303L. Teaching Languages Other Than English in the High School.**

Weekly seminar with a University faculty member, plus field experience in an area high school under the supervision of a cooperating teacher. Course readings and instruction complement the field experience. Seminar topics include state and national standards and

their implementation, teaching for proficiency, curriculum design, assessment, best practices, the instructional environment, and the role of technology in teaching languages other than English. Three lecture hours a week for one semester; at least forty-five hours of fieldwork a semester are also required. Offered on the letter-grade basis only. Prerequisite: UTeach-Liberal Arts 101 and 202 with a grade of at least B in each; concurrent enrollment in Curriculum and Instruction 370S (Topic 5: Advanced Methods in Foreign Language); and consent of the UTeach adviser in the College of Liberal Arts.

### **UTL 303S. Teaching Social Studies in the High School.**

Weekly seminar with a University faculty member, plus field experience in an area high school under the supervision of a cooperating teacher. Course readings and instruction complement the field experience. Seminar topics include social studies topics, standards, curriculum design and implementation, teaching strategies, technology, and vertical and horizontal teaming in social studies. Three lecture hours a week for one semester; at least forty-five hours of fieldwork a semester are also required. Offered on the letter-grade basis only. Prerequisite: UTeach-Liberal Arts 101 and 202 with a grade of at least B in each; concurrent enrollment in Curriculum and Instruction 370S (Topic 3: Advanced Methods in Social Studies); and consent of the UTeach adviser in the College of Liberal Arts.

### **UTL 304. Middle School Teaching for Postbaccalaureate Certification.**

Designed for college graduates seeking teacher certification. Students observe and teach in a middle school under the supervision of a mentor teacher, and participate in a weekly seminar. Seminar topics may include classroom management, lesson design, assessment, technology, diversity, special student populations, conference techniques, and professional development. Three lecture hours and two hours of fieldwork a week for one semester. May not be counted toward any degree. Prerequisite: Consent of the UTeach adviser in the College of Liberal Arts.

## **Upper-Division Courses**

### **UTL 320. Topics in Teaching the Liberal Arts.**

Introduction to various topics related to middle grades, secondary, and all-level teaching certification. Topics may include history, social studies, English language arts, and languages other than English. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Consent of the UTeach adviser in the College of Liberal Arts.

### **UTL 640. Teaching in Secondary Schools.**

Restricted to students entering the professional development sequence of the UTeach-Liberal Arts program. Course readings and instruction complement the field experience. Seminar topics include theoretical foundations for subject-specific methods, state and national standards and their implementation, teaching for proficiency, curriculum design, assessment, best practices, the instructional environment, and the role of technology in teaching. The equivalent of six lecture hours and four fieldwork hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: UTeach-Liberal Arts 101 and 202 with a grade of at least B in each, and consent of the UTeach adviser in the College of Liberal Arts.

### **UTL 341R. Overcoming Reading Difficulties.**

Restricted to UTeach-Liberal Arts students. Subjects may include the basic terminology related to special needs students, recognizing differences in learning disabilities, evaluating teaching methods and materials, and teaching strategies that address the needs of special

needs students, with a special focus on reading strategies. Three lecture hours a week for one semester. Rhetoric and Writing 379C (Topic: Overcoming Reading Difficulties) and UTeach-Liberal Arts 341R may not both be counted. Offered on the letter-grade basis only. Prerequisite: Applied Learning and Development 322 and consent of instructor.

### **UTL 360. Problems and Principles of Secondary Education.**

Restricted to students in the final student teaching semester of the UTeach-Liberal Arts program. Draws upon resources found in the directed-teaching environment; considers problems and issues in four broad areas: students in the school, the teacher's professional responsibilities, curriculum understandings, and administrative and organizational problems. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Concurrent enrollment in UTeach-Liberal Arts 670, and consent of the UTeach adviser in the College of Liberal Arts.

### **UTL 670. Directed Teaching in Secondary Schools.**

Restricted to students in the final student teaching semester of the UTeach-Liberal Arts program. Observation and teaching in secondary school classrooms as well as an exploration of other roles of the secondary school teacher, under the joint supervision of University and public school personnel. The equivalent of two lecture hours and forty fieldwork hours a week for one semester. Offered on the pass/fail basis only. Prerequisite: Concurrent enrollment in UTeach-Liberal Arts 360, and consent of the UTeach adviser in the College of Liberal Arts.

# **Center for Women's and Gender Studies**

## **Women's and Gender Studies: WGS**

### **Lower-Division Courses**

#### **WGS 301. Introductory Topics in Women's and Gender Studies.**

Three lecture hours a week for one semester, or as required for the topic. Some topics partially fulfill legislative requirement for American history. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 2: Introduction to Child Psychology.** General introduction to physical, social, and cognitive development from conception onward. Prerequisite: Psychology 301 with a grade of at least C.

**Topic 4: Family Relationships.** Same as Human Development and Family Sciences 304. The process of family interaction over the life cycle. Application of research findings to the understanding of relationships.

**Topic 5: Child Development.** Same as Human Development and Family Sciences 313. Motor, language, cognitive, social, and emotional development in the family context. Only one of the following may be counted: Human Development and Family Sciences 313, 313H, Women's and Gender Studies 301 (Topic 5). Prerequisite: Psychology 301 with grade of at least C-, and credit or registration for Human Development and Family Sciences 113L.

**Topic 6: Ethnicity and Gender: La Chicana.** Same as Mexican American Studies 319 (Topic 1: Ethnicity and Gender: La Chicana) and Sociology 308D.

**Topic 7: Women's Reproductive Health for Nonscience**

**Majors.** Same as Nursing 307 (Topic 1: Women's Reproductive Health for Nonscience Majors) and Sociology 308 (Topic 2: Women's Reproductive Health for Nonscience Majors). Overview of contemporary women's reproductive health issues, with emphasis on historical, physiological, psychosocial, and cultural influences that affect the reproductive health of women during adolescence, the childbearing years, and midlife. Only one of the following may be counted: Pharmacy 318W, Nursing 307 (Topic 1), Sociology 308 (Topic 2), Women's and Gender Studies 301 (Topic 7). Prerequisite: One year of high school biology, or Biology 301L or 309D or the equivalent.

**Topic 11: United States Women, Sexuality, and Gender to 1865.**

Same as History 317L (Topic 5: United States Women, Sexuality, and Gender to 1865). Partially fulfills legislative requirement for American history.

**Topic 12: Gay and Lesbian Literature and Culture.** Same as English 314V (Topic 4: Gay and Lesbian Literature and Culture).

Prerequisite: English 603A, Rhetoric and Writing 306, 306Q, or Tutorial Course 603A.

**Topic 1: Sociology of Gender.** Same as Sociology 333K.

Inequality between the sexes; men's and women's changing roles in society. Prerequisite: Upper-division standing.

**WGS 323. Introduction to Women's and Gender Studies in the Natural Sciences.**

Examination of gender constructs and male and female roles and differences and similarities, using approaches from the natural sciences. Three lecture hours a week for one semester, or as required for the topic. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 2: Human Physical Growth and Development.****WGS 324. Introduction to Women's and Gender Studies in Communication.**

Multidisciplinary course examining issues of women, gender, and sexuality in media industries, texts, and audiences. Three lecture hours a week for one semester, or as required for the topic. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Gender and Communication.** Prerequisite: Upper-division standing.

**Topic 2: Women and Media Culture.** Introduction to the study of women's relations to media culture. Three lecture hours and two and one-half screening hours a week for one semester. Prerequisite: For radio-television-film majors: upper-division standing and the following coursework, with a grade of at least C in each course: Radio-Television-Film 305, either 314 or 316, and six additional semester hours of lower-division coursework in radio-television-film; for others, upper-division standing and consent of instructor.

**WGS 305. Introduction to Women's and Gender Studies.**

Introduction to the role of gender identity and representation in key social institutions and processes, including borders, displacements, and diasporas. Analysis of the social narratives of gender, race, and sexuality. Three lecture hours a week for one semester. Women's and Gender Studies 301 (Topic: Introduction to Women's and Gender Studies) and 305 may not both be counted.

**WGS 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Women's and Gender Studies.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Center for Women's and Gender Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**Upper-Division Courses****WGS 321. Introduction to Women's and Gender Studies in the Humanities.**

Multidisciplinary course examining the creative work of women and the image of women in history and art. Topics in addition to the following may be offered; these are listed in the Course Schedule. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 4: Women and Literature: European Tradition.** Same as Scandinavian 323 (Topic 3: Women and Literature: European Tradition). Prerequisite: Upper-division standing.

**WGS 322. Introduction to Women's and Gender Studies in the Social Sciences.**

Multidisciplinary course using approaches from the social sciences to examine gender constructs and male/female roles. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**WGS 125. Special Topics in Women's and Gender Studies.**

Analysis of special topics in women's and gender studies through reading, discussion, and lectures. One lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**WGS 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Women's and Gender Studies.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Center for Women's and Gender Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**WGS 340, 440. Cross-Cultural Topics in Women's and Gender Studies.**

Women's experiences in different cultures. Three or four lecture hours a week for one semester. Some topics partially fulfill legislative requirement for American history. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 2: Women and Family in Asia.** Women's and Gender Studies 340 (Topic 2) is same as Asian Studies 372 (Topic 5: Women and Family in Asia). Prerequisite: Upper-division standing or consent of instructor.

**Topic 3: African American Family.** Women's and Gender Studies 340 (Topic 3) is same as African and African Diaspora Studies 374

(Topic 1: African American Family) and Social Work 360K (Topic 2: African American Family).

**Topic 5: German Women Filmmakers.** Women's and Gender Studies 340 (Topic 5) is same as Germanic Civilization 361E (Topic 5: German Women Filmmakers). Only one of the following may be counted: English 322 (Topic 14: German Women Filmmakers), European Studies 361 (Topic 15: German Women Filmmakers), Germanic Civilization 361E (Topic 5), Women's and Gender Studies 340 (Topic 5). Prerequisite: Upper-division standing.

**Topic 8: Women in Asian Societies.** Women's and Gender Studies 340 (Topic 8) is same as Asian Studies 361 (Topic 14: Women in Asian Societies) and History 350L (Topic 25: Women in Asian Societies). Prerequisite: Upper-division standing.

**Topic 9: Black Women in America.** Women's and Gender Studies 340 (Topic 9) is same as African and African Diaspora Studies 374D (Topic 9: Black Women in America) and History 350R (Topic 17: Black Women in America). Uses primary sources, historical monographs, and essays to provide a chronological and thematic overview of the experiences of black women in America from their African roots to the circumstances they face in the present era. Only one of the following may be counted: African and African Diaspora Studies 374D (Topic 9) History 350L (Topic: Black Women in America), 350R (Topic 17), Women's and Gender Studies 340 (Topic 9). Partially fulfills legislative requirement for American History. Prerequisite: Upper-division standing and six semester hours of coursework in history.

**Topic 10: Iranian Women Writers.** Women's and Gender Studies 340 (Topic 10) is same as Middle Eastern Languages and Cultures 321 (Topic 11: Iranian Women Writers) and Middle Eastern Studies 342 (Topic 11: Iranian Women Writers). Only one of the following may be counted: Middle Eastern Languages and Cultures 321 (Topic 11), Middle Eastern Studies 324K (Topic 1: Iranian Women Writers), 342 (Topic 11), Persian 361 (Topic 3: Iranian Women Writers), WGS 340 (Topic 10). Prerequisite: Upper-division standing.

**Topic 11: Veiling in the Muslim World.** Women's and Gender Studies 340 (Topic 11) is same as Asian Studies 372 (Topic 14: Veiling in the Muslim World), Islamic Studies 372 (Topic 2: Veiling in the Muslim World), and Religious Studies 358 (Topic 5: Veiling in the Muslim World). Only one of the following may be counted: Asian Studies 372 (Topic 14), Islamic Studies 372 (Topic 2), Middle Eastern Studies 322K (Topic 17: Veiling in the Muslim World), Religious Studies 358 (Topic 5), Women's and Gender Studies 340 (Topic 11). Prerequisite: Upper-division standing.

**Topic 12: Women in Modern Japanese Fiction.** Women's and Gender Studies 340 (Topic 12) is same as Asian Studies 372 (Topic 17: Women in Modern Japanese Fiction). Prerequisite: Upper-division standing or consent of instructor.

**Topic 13: Law and Society in Early Modern Europe.** Women's and Gender Studies 340 (Topic 13) is same as European Studies 346 (Topic 4: Law and Society in Early Modern Europe) and History 350L (Topic 57: Law and Society in Early Modern Europe). Research seminar on how historians have explored the significance of law, criminal and civil, in the lives of early modern Europeans. Topics include infanticide, fornication, drunkenness, theft, debt, slander, and family disputes. Only one of the following may be counted: European Studies 346 (Topic 4), 361 (Topic: Law and Society in Early Modern Europe), History 350L (Topic 57), Women's and Gender Studies 340 (Topic 13). Prerequisite: Upper-division standing.

**Topic 14: Self-Revelation in Women's Writing.** Women's and Gender Studies 340 (Topic 14) is same as African and African Diaspora Studies 374 (Topic 26: Self-Revelation in Women's Writing), Comparative Literature 323 (Topic 4: Self-Revelation in

Women's Writing), and Middle Eastern Studies 342 (Topic 19: Self-Revelation in Women's Writing). Only one of the following may be counted: African and African Diaspora Studies 374 (Topic 26), Comparative Literature 323 (Topic 4), English 376L (Topic 9: Self-Revelation in Women's Writing), Middle Eastern Studies 322K (Topic 26: Self-Revelation in Women's Writing), 342 (Topic 19), Persian 361 (Topic: Self-Revelation in Women's Writing). Prerequisite: Upper-division standing.

**Topic 17: Italian Women Writers.** Women's and Gender Studies 340 (Topic 17) is same as Italian Civilization 349 (Topic 5: Italian Women Writers). Only one of the following may be counted: English 322 (Topic 38: Italian Women Writers), Italian Civilization 349 (Topic 5), Women's and Gender Studies 340 (Topic 17). Prerequisite: Upper-division standing.

**Topic 18: Women and Gender in China.** Women's and Gender Studies 340 (Topic 18) is same as Asian Studies 372 (Topic 21: Women and Gender in China) and History 350L (Topic 46: Women and Gender in China). Prerequisite: Upper-division standing.

**Topic 19: Contemporary India.** Exploration of urban and rural inequality through classic and contemporary novels, ethnographies, and films that highlight gender relations. Prerequisite: Upper-division standing.

**Topic 20: Violence in Contemporary Mexican Culture.** Women's and Gender Studies 340 (Topic 20) is same as Latin American Studies 370S (Topic 23: Violence in Contemporary Mexican Culture) and Spanish 350 (Topic 13: Violence in Contemporary Mexican Culture). Studies the representation of violence in contemporary literary and cultural production in Mexico in order to understand social, political, and cultural implications of current violence in that country. Taught in Spanish. Three lecture hours a week for one semester. Prerequisite: Spanish 611D, 612, or 312L.

**Topic 21: Minorities and the Media.** Discussion of issues concerning minority or nondominant groups in the United States. Survey of minority communication problems, including alienation; fragmentation; media and Internet access; and criticism and feedback for minority groups based on racial/ethnic background, age, sex, disability, social or economic class, and sexual orientation. Only one of the following may be counted: Journalism 340C (Topic 1: Mass Media and Minorities), 341H, Latin American Studies 322 (Topic 10: Minorities and the Media), Mexican American Studies 374 (Topic 22: Minorities and the Media), Urban Studies 354 (Topic: Minorities and the Media), Women's and Gender Studies 340 (Topic 21). Prerequisite: Upper-division standing.

**Topic 22: Muslim Women: Past and Present I.** Prerequisite: Upper-division standing.

**Topic 23: Muslim Women: Past and Present II.** Prerequisite: Upper-division standing.

**Topic 24: Nationalism and Gender in South Asia.** Women's and Gender Studies 340 (Topic 24) is same as Anthropology 324L (Topic 36: Nationalism and Gender in South Asia) and Asian Studies 361 (Topic 26: Nationalism and Gender in South Asia). Explores why nationalist movements often make the reform of women's roles central to their political projects.

**Topic 25: Gender, Sexuality, and the Family in Indian Religions and Cultures.** Women's and Gender Studies 340 (Topic 25) is same as Anthropology 324L (Topic 40: Gender, Sexuality, and the Family in Indian Religions and Cultures), Asian Studies 372 (Topic 25: Gender, Sexuality, and the Family in Indian Religions and Cultures), and Religious Studies 341 (Topic 3: Gender, Sexuality, and the Family in Indian Religions and A comprehensive historical overview of gender issues as they are represented in the textual traditions of South Asia.

**Topic 26: American Popular Culture, 1682-Present.** Women's and Gender Studies 340 (Topic 26) is same as American Studies

370 (Topic 35: American Popular Culture, 1682-Present) and History 350R (Topic 19: American Popular Culture, 1682-Present). Explores the evolution of American popular culture and its relationship to national consolidation, and at times, disunion, over the last 330 years. Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing and six semester hours of coursework in history.

### **WGS 345. Topics in Women's and Gender Studies.**

Three lecture hours a week for one semester, or as required for the topic. Some topics partially fulfill legislative requirement for American history. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

#### **Topic 1: Child Development.**

**Topic 2: The Family.** Family history and origins; comparative family systems; the American family; social antecedents of family structure and process; family formation and dissolution; family and society.

**Topic 3: Women in Sickness and Health.** Same as History 350R (Topic 18: Women in Sickness and Health). Explores medical and biological views throughout the nineteenth and twentieth centuries of women and women's health, the social context of those views, the development of medical practices, and the treatment of illness and debility. Only one of the following may be counted: History 350L (Topic: Women in Sickness and Health), 350R (Topic 18), Women's and Gender Studies 345 (Topic 3). Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing and six semester hours of coursework in history.

**Topic 4: Guidance in Adult-Child Relationships.** Same as Human Development and Family Sciences 366. Theory and implementation of positive child and adult interactions, communication, and guidance strategies. Two lecture hours a week for one semester, and four laboratory hours a week to be arranged as a four-hour block between 8:30 AM and 4:45 PM, Monday through Thursday. Prerequisite: Human Development and Family Sciences 313 and 113L, and three semester hours of upper-division coursework in human development and family sciences, education, psychology, or sociology.

**Topic 5: Women and Sport.** Same as Kinesiology 352K (Topic 3: Women and Sport).

**Topic 6: Introduction to Developmental Psychology.** Physical, social, and cognitive development in humans. Psychology 333D and Women's and Gender Studies 345 (Topic 6) may not both be counted.

**Topic 7: Eighteenth-Century Women Writers.** Same as English 350M (Topic 1: Eighteenth-Century Women Writers). Women writers in the early 18th-century canon. Argues for a historical perspective that demonstrates the centrality of early 18th-century women writers to the western canon. Only one of the following may be counted: English 350M (Topic 1), 376L (Topic: Aphra Behn and 18th Century Women Writers), Women's and Gender Studies 345 (Topic 7). Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**Topic 8: Gender-Based Discrimination.** Same as American Studies 370 (Topic 6: Gender-Based Discrimination) and Government 357M (Topic 1: Gender-Based Discrimination). Studies the substance of laws that relate to gender-based roles, and the participation of women in the legal process. Additional prerequisite: Upper-division standing, six semester hours of lower-division coursework in government, a University grade point average of at least 3.50, and consent of department received prior to registering.

**Topic 9: Women in Classical Antiquity.** Same as Classical Civilization 348 (Topic 7: Women in Classical Antiquity).

**Topic 10: Freudians and Feminisms.** Same as Germanic Civilization 362E (Topic 1: Freudians and Feminisms) and Philosophy 365 (Topic 1: Freudians and Feminisms). Prerequisite: For English majors, Rhetoric and Writing 306 and English 316K or their equivalents, and three additional semester hours of lower-division coursework in either English or rhetoric and writing; for others, upper-division standing.

**Topic 12: Family Policy Issues.** Same as Sociology 352M (Topic 5: Family Policy Issues). Consideration of liberal, conservative, and centrist views concerning the major family policy issues facing the United States and other advanced industrial societies.

**Topic 13: Isak Dinesen/Karen Blixen.** Same as Germanic Civilization 323E (Topic 1: Isak Dinesen/Karen Blixen) and Scandinavian 373 (Topic 6: Isak Dinesen/Karen Blixen).

Prerequisite: Upper-division standing.

**Topic 14: Social Dramas of Henrik Ibsen.** Same as English 322 (Topic 17: Social Dramas of Henrik Ibsen) and Scandinavian 323 (Topic 2: Social Dramas of Henrik Ibsen). Men and women in their public and private lives. Prerequisite: Upper-division standing.

**Topic 15: Contemporary Women Authors.** Same as African and African Diaspora Studies 374F (Topic 4: Contemporary Women Authors) and English 370W (Topic 2: Contemporary Women Authors). Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**Topic 17: Language and Gender.** Same as English 364S. Linguistic, social, and political dimensions of gender-related speech differences. Only one of the following may be counted: English 346S, Linguistics 373 (Topic: Language and the Sexes), Women's and Gender Studies 345 (Topic 17). Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**Topic 19: Social Development in Children.** Development of social behavior (for example, sex typing and aggression) and social relationships. Psychology 333R and Women's and Gender Studies 345 (Topic 19) may not both be counted. Prerequisite: Upper-division standing, Psychology 301 with a grade of at least C, Psychology 304 or 333D, and Psychology 418 or an equivalent statistics course with a grade of at least C.

**Topic 21: Male-Female Communication.** Same as Communication Studies 365K. Studies of speech patterns related to the concepts of male and female, including sexism in speaking, patterns of male and female speaking, patterns of listening to males and females, speech in courtship and family, speech and sexual discrimination in careers. Prerequisite: Upper-division standing.

**Topic 23: Sociology of Education.** Same as African and African Diaspora Studies 321L and Sociology 321L. Education as a societal institution, with emphasis on the United States educational system: how the system works; the effects of the system; recent changes. Prerequisite: Upper-division standing.

**Topic 25: Women and Socialism.** Same as Sociology 321K (Topic 4: Women and Socialism). The origins of socialism, its relationship to gender issues, and the role women have played in existing socialist states as revolutionaries and citizens. Prerequisite: Upper-division standing.

**Topic 26: American Dilemmas.** Examination of critical American social problems and how these problems are a natural outgrowth of the existing social structure. Prerequisite: Upper-division standing.

**Topic 27: Southern Cultures.** Same as American Studies 370 (Topic 40: Southern Cultures). Investigation of multiple, fluid, and diverse southern cultures through topics such as NASCAR, biscuits and cornbread, mega-churches, beauty pageants, jazz, country music, southern hip hop, migrant farm cultures, matzo ball soup with collards, the Trail of Tears, Gullah, Tara, Graceland, and more. Includes discussion of stereotypes and the individual truths

about women, men, and southern in the context of this discussion. Prerequisite: Upper-division standing.

**Topic 28: Cult Movies and Gender Issues.** Three lecture hours and two and one-half screening hours a week for one semester. Prerequisite: Upper-division standing.

**Topic 29: Witches, Workers, and Wives.** Same as European Studies 346 (Topic 3: Witches, Workers, and Wives) and History 343W. Explores the role of families and concepts of gender as expressed in key economic, social, political, and cultural patterns in early modern Europe. Prerequisite: Upper-division standing.

**Topic 30: Gay and Lesbian Literature and Culture.** Same as English 370W (Topic 8: Gay and Lesbian Literature and Culture). Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**Topic 31: Gender and Slavery in the United States.** Same as African And African Diaspora Studies 372C (Topic 4: Gender and Slavery in the United States) and History 350R (Topic 14: Gender and Slavery in the United States). Examines the gendered experience of chattel slavery in the United States. Includes critical analysis of classic and contemporary texts, films, and songs that focus on slave labor, family, community, sexuality, and the economy. Only one of the following may be counted: African and African Diaspora Studies 372C (Topic 4), 374D (Topic: Gender and Slavery in the United States), History 350L (Topic: Gender and Slavery in the United States), 350R (Topic 14), Women's and Gender Studies 340 (Topic: Gender and Slavery in the United States), 345 (Topic 31). Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing and six semester hours of coursework in history.

**Topic 33: The History of Witchcraft.** Study of the prosecution of people, most of them women, for the crime of witchcraft in Europe and colonial America between 1450 and 1750. Prerequisite: Upper-division standing.

**Topic 34: Leadership in America.** Same as American Studies 370 (Topic 10: Leadership in America) and Government 370L (Topic 2: Leadership in America). Introduction to the concepts of leadership and the application of those concepts in public and political leadership. Additional prerequisite: Upper-division standing, six semester hours of lower-division coursework in government, a University grade point average of at least 3.50, and consent of department received prior to registering.

**Topic 35: Psychosocial Issues in Women's Health.** Psychosocial issues in women's physical and mental health. Includes a broad definition of women's health that considers traditional reproductive issues, disorders that are more common in women than in men, and the leading causes of death in women. Covers gender influences on health risk behaviors, and societal influences on women's health through a consideration of social norms and roles. Prerequisite: Upper-division standing.

**Topic 36: Feminist Media Theory.** Survey of basic theories related to the structure and process of film and video communication. Three lecture hours and two and one-half screening hours a week for one semester.

**Topic 37: Women in Postwar America.** Same as American Studies 370 (Topic 30: Women in Postwar America) and History 350R (Topic 8: Women in Postwar America). Only one of the following may be counted: American Studies 370 (Topic 30), History 350L (Topic 58: Women in Postwar America), 350R (Topic 8), Women's and Gender Studies 345 (Topic 37). Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing and six semester hours of coursework in history.

**Topic 38: History of Sexuality in America.** Same as History 350R (Topic 13: History of Sexuality in America). Only one of the following may be counted: History 350L (Topic 55: History of Sexuality in

America), 350R (Topic 13), Women's and Gender Studies 345 (Topic 38). Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing and six semester hours of coursework in history.

**Topic 39: Gender, Sexuality, and Migration.** Same as English 370W (Topic 9: Gender, Sexuality, and Migration). Only one of the following may be counted: Asian American Studies 320 (Topic: Gender, Sexuality, and Migration), English 370W (Topic 9), 370W (Topic: Cultures of Immigration and Dislocation), Women's and Gender Studies 345 (Topic 39). Prerequisite: Nine semester hours of coursework in English or rhetoric and writing.

**Topic 40: Virginia Woolf.** Same as English 349S (Topic 8: Virginia Woolf). Examines critical and fictional works of Virginia Woolf and the author's continuing legacy and influence. Explores the value and limitations of high modernism; English literary heritage and tradition; feminism; creative and critical definitions of gender and sexuality; intellectual activism, including Woolf's critiques of patriarchy, war, and fascism; and Woolf and imperialism and colonialism. Only one of the following may be counted: English 349S (Topic 8), 370W (Topic 10: Virginia Woolf), Women's and Gender Studies 345 (Topic 40). Prerequisite: Six semester hours of upper-division coursework in English.

**Topic 41: American Food.** Same as American Studies 370 (Topic 26: American Food). Studies diverse American food cultures from a humanities perspective, exploring connections between global, national, and local communities. Uses scholarship in the field of food studies as well as cookbooks, novels, poetry, photographs, songs, documentaries, and oral histories to investigate the past and present of American food communities. Prerequisite: Upper-division standing.

**Topic 42: Nature and Gender in America.** Same as American Studies 370 (Topic 27: Nature and Gender in America). Study of the connections between nature and gender in American national narratives. Explores how Americans of differing classes, races, genders, sexual orientations, and ages have shaped and experienced changing ideas of America, wilderness, domestication, and society over time and in different regions of the country. Prerequisite: Upper-division standing.

**Topic 43: Animals and American Culture.** Same as American Studies 370 (Topic 28: Animals and American Culture) and History 350R (Topic 9: Animals and American Culture). Explores the role of animals in American history, culture, and society. History 350L (Topic 60: Animals and American Culture) and Women's and Gender Studies 28, History 350L (Topic 60: Animals and American Culture), 350R (Topic 9), Women's and Gender Studies 345 (Topic 43). Partially fulfills legislative requirement for American history. Prerequisite: Upper-division standing and six semester hours of coursework in history.

**Topic 44: Women Radicals and Reformers.** Same as American Studies 370 (Topic 29: Women Radicals and Reformers). Traces traditions of women's radical activism and reform beginning with the Enlightenment and the American Revolution and continuing to the present, with concentration on the twentieth century. Prerequisite: Upper-division standing.

**Topic 45: Comparative Cultures of Beauty.** Same as American Studies 370 (Topic 24: Comparative Cultures of Beauty) and Asian American Studies 320 (Topic 2: Comparative Cultures of Beauty). Examines fashion and beauty as discourses, and cultural practices affecting identity, body politics, race, gender, sexuality, and class. Prerequisite: Upper-division standing.

**Topic 46: Toni Morrison.** Same as African and African Diaspora Studies 372E (Topic 1: Toni Morrison) and English 349S (Topic 5: Toni Morrison). An examination of select novels by the Nobel Laureate and Pulitzer Prize-winning novelist focuses on the

positional uniqueness that womanism shares with a predominant feminism, which surfaces in historicized familial relationships. Only one of the following may be counted: African and African Diaspora Studies 372E (Topic 1), 374F (Topic: Toni Morrison), English 349S (Topic 5), Women's and Gender Studies 340 (Topic: Toni Morrison), 345 (Topic 46). Prerequisite: Six semester hours of upper-division coursework in English.

### **WGS 350. Feminist Theory.**

Feminist theory with selections from women's and gender studies scholars. Recommended feminist theory course for women's and gender studies majors. Three lecture hours a week for one semester. Women's and Gender Studies 322 (Topic 4: Feminist Theory) and 350 may not both be counted. Prerequisite: Upper-division standing and consent of instructor.

### **WGS 356. Introduction to Feminist Research Methods.**

Introduction to feminist research methods across a range of traditional disciplines. Designed to prepare students to analyze research within gender studies and to develop their own research skills. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **WGS 358Q. Supervised Research.**

Supervised individual research on an issue in women's and gender studies. Individual instruction. Prerequisite: Upper-division standing and written consent of the supervising faculty member; consent forms are available in the Center for Women's and Gender Studies.

### **WGS 360. Research and Thesis in Women's and Gender Studies.**

Individual project or paper to be completed under the direction of a women's and gender studies faculty member. Conference course. Prerequisite: Upper-division standing and written consent of the supervising faculty member; consent forms are available in the Center for Women's and Gender Studies.

### **WGS 679H. Honors Tutorial Course.**

Restricted to honors candidates majoring in women's and gender studies. Individual reading of selected works for one semester, followed in the second semester by the writing of an honors thesis. The equivalent of three lectures hours a week for two semesters. Prerequisite: For 679HA, twelve semester hours of coursework in women's and gender studies and consent of supervising faculty; for 679HB, Women's and Gender Studies 679HA.

### **WGS 379L. Internship in Women's and Gender Studies.**

Experience working in the community or for a nonprofit agency. Six to nine hours of work a week for one semester. Prerequisite: At least twelve semester hours of coursework in women's and gender studies and written consent of the supervising faculty member; consent forms are available in the Center for Women's and Gender Studies.

### **WGS 379S. Senior Seminar.**

Intensive study of selected topics in women's and gender studies. Three lecture hours a week for one semester. May not be repeated for credit. Prerequisite: Completion of at least ninety semester hours of coursework, including nine hours in women's and gender studies.

## General Information

### Arts and Sciences Education

The academic program offered cooperatively by the College of Natural Sciences and the College of Liberal Arts provides what is sometimes referred to as a “liberal arts” or an “arts and sciences” education. No matter what area of knowledge a student intends to specialize in, the program of study will require courses in both colleges. The colleges work together to ensure that the individual interests and needs of the students pursuing an arts and sciences program are met.

Guidelines for developing a coherent plan of study are provided by major requirements, by sequential prerequisites, and by optional patterns of emphasis. Departmental majors, areas of specialization, and interdepartmental programs are designed to enable every student to study at least one field in depth. These programs are sufficiently broad in scope to allow students in the same major to develop quite different plans of study in pursuit of their individual interests and goals. Each student should choose courses that are intellectually challenging and that contribute to his or her long-term objectives.

Arts and sciences students are required to take a certain number of courses in the natural sciences, the social and behavioral sciences, and the humanities. Consequently, whatever their fields of study, they have the opportunity to learn something about the basic differences in the ways questions are raised and answered in several fields of inquiry, and about the techniques for validating the answers and putting the results to use. At the same time, they may gain some of the philosophical and historical perspectives that illuminate and give form to general or specialized knowledge and help to reveal its relevance.

Both teachers and students sometimes make the assumption that independent and creative study is exclusively for the gifted. In fact, the primary requirement is that the student be highly motivated, although he or she must also demonstrate ability. The departments that make up the two arts and sciences colleges encourage all qualified students to work independently in special honors courses and seminars and in conference, studio, or laboratory work. The student is free to define a major, to determine whether a given assignment will be an adventure or a chore, free to develop its latent possibilities or merely satisfy its explicit demands. True creativity presupposes more than a gift

for innovation; it requires an unceasing commitment to thinking and working at one's highest level.

As competence is gained in a chosen field, the mind should be progressively sharpened, disciplined, and enriched. The student who leaves arts and sciences studies with an enhanced understanding of self and humankind, of cultural and historical heritage, of the world and the universe, and of the moral values that make it possible to live a meaningful life, will have made the most of education, having gained something over and above the objective of vocational preparedness.

## Financial Assistance Available through the College

A number of scholarship funds established by individuals, foundations, and industrial or research organizations are available to students in the college. Awards are made for reasons ranging from academic promise to financial need. More information about scholarships is given at <http://cns.utexas.edu/honors/59-scholarships-fellowships>.

## Student Services

### Academic Advising

Academic advising is a responsibility shared by advisers and students. Advisers help students clarify their values and goals, assist with the selection of courses, and monitor and evaluate students' progress toward their degrees. Each student is assigned an academic adviser in his or her proposed field of study; students are expected to communicate with their advisers before registration each semester.

### Career Design Center

The Career Design Center is a multidisciplinary hub for students to explore the next phase of their professional or educational career. Whether going to graduate school, health professions school, or finding that perfect job, the Career Design Center is here to provide you with the guidance and coaching that you need.

### Study Abroad

Students are encouraged to incorporate an international experience into their course of study. In addition to the traditional study abroad programs, students may take advantage of programs specifically designed for science study, including faculty-led courses, Maymester courses, and research abroad. The Office for Honors, Research, and International Study provides information sessions, one-on-one advising, and resources for science students interested in these programs.

### Student Programs

The College of Natural Sciences offers additional programs to supplement the degree plans. Additional information is given at <http://cns.utexas.edu/>.

### Biology Scholars Program

The Biology Scholars Program (BSP) is designed to provide lower-division biology students with a broader understanding of the study of biology and a strong sense of community as they begin their academic careers. Throughout the two-year program, BSP provides academic support, resources for peer-led study, and community service opportunities. Each semester, BSP students take a specialized critical thinking seminar on topics that range from the study of biological

sciences to graduate and professional careers in biology. These classes emphasize working in small groups and help BSP students develop strong problem-solving and study skills.

## Emerging Scholars Program

The Emerging Scholars Program (ESP) is designed to help highly motivated mathematics, science, and engineering students toward continued academic success in essential first-year math and science courses. ESP students work closely with faculty members and with other high-achieving students in a supplemental workshop designed to enrich their course experience and intensify their understanding of the course material. The ESP experience is currently available in calculus and chemistry. Students are invited to participate during the spring of their senior year of high school on the basis of strong academic credentials and history of achievement in mathematics and sciences.

## Freshman Research Initiative

The Freshman Research Initiative introduces undergraduate students to the world of scientific research at the beginning of their academic careers by integrating a three-semester research experience into coursework required for the degree. All students begin with an introductory research methods course in the first semester, followed by two semesters of work on real, cutting-edge research projects in fields like biology, biochemistry, nanotechnology, molecular biology, astronomy, physics, mathematics, and computer science. After finishing the course sequence, interested students are assisted in joining faculty or other research laboratories for further work.

## Texas Interdisciplinary Plan

The Texas Interdisciplinary Plan (TIP) transforms the learning experience for its students by creating small academic communities that promote academic excellence and leadership. TIP offers a collection of selective academic programs that serve about nine hundred students each year, including TIP Scholars, TIP Fellows, Getting Ready for Advanced Degrees (grad), and the TIP Mentor Academy. While each program is unique, all incorporate assisted registration for courses, mentoring, tutoring, and academic and social connections. Admission criteria differ for each program. More information is available from the TIP office.

The Texas IP Fellows Certificate (p. 485) is described in Degrees and Programs.

## Undergraduate Research

One advantage that the University offers undergraduates is the opportunity to participate in state-of-the-art research with some of the world's most respected scientists. Each department in the College of Natural Sciences supports undergraduate research programs in which students may earn University credit. Students may also earn special departmental honors for exceptional research. The college holds an annual Undergraduate Research Forum to recognize and reward students who participate in research. Additional opportunities vary from department to department; information is available in the Office for Honors, Research, and International Study.

## UTeach-Natural Sciences

UTeach-Natural Sciences is an innovative teacher preparation program that allows students to pursue middle grades and secondary school teacher certification within a four-year mathematics, science, or computer science degree program. While learning the subject matter of their majors, students also learn how to teach. Upon completing

the program, students graduate with a bachelor's degree and are recommended for a middle grades or secondary school teaching certificate. The UTeach-Natural Sciences program invites students to explore their interest in teaching as early as the freshman year. Through courses taught by some of Texas's most respected secondary school math and science teachers, students learn quickly whether they are suited to the profession. More information about teacher certification requirements is given in the UTeach Teacher Certification (p. 486) of Degrees and Programs.

## Women in Natural Sciences

The Women in Natural Sciences (WINS) Honors Residential Program is designed to promote the involvement and success of women in the sciences. Students live together in an honors dormitory during their first year and participate in socially and educationally enriching activities. In their first semester they take an innovative small seminar class in which they are introduced to faculty members in their areas of interest. Through the seminar and a wide range of academic, cultural, and social events, WINS students are connected with other students and faculty members who share their interest in science.

# Admission and Registration

## Admission Policies of the College

Admission and readmission of undergraduate students to the University is the responsibility of the director of admissions. Information about admission to the University is given in *General Information*, available at <http://registrar.utexas.edu/catalogs/>.

## The Entry-Level Major

All new freshman and transfer students are admitted into the College of Natural Sciences in an entry-level major. After completing a specified set of entry-level mathematics and science courses required for the degree with a grade of at least C- in each course, students are admitted to the major and option they plan to pursue.

## Admission-to-Major Requirements

### The Major in Computer Science

Several programs are available to undergraduates who wish to major in computer science. Each program involves an admission process in addition to the student's application for admission to the University. All students may apply to the University as entry-level computer science majors and later seek admission to one of the computer science programs as described in this chapter; those seeking admission to the Turing Scholars program may also apply to that program when they apply for admission to the University.

Admission requirements for the Bachelor of Arts with a major in computer science, the Bachelor of Science in Computer Science, option I, and the Integrated Program are given below. Those for the Bachelor of Science in Computer Science, option II, Turing Scholars honors, and option III, computer science honors, are given in Bachelor of Science in Computer Science (p. 500).

### Bachelor of Arts and Bachelor of Science in Computer Science, Option I and Option V

To apply for admission to either the Bachelor of Arts or the Bachelor of Science in Computer Science, option I or option V degree programs, the student must earn a grade of at least C in each of four entry-level courses: Computer Science 312 or 312H, 313K, 314 or 314H, and

Mathematics 408D or 408S or 408L. Students must complete at least three of these courses in residence at the University, and must earn a grade point average of at least 2.5 in the four entry-level courses taken in residence and a grade point average of at least 2.0 in all courses taken in residence. These requirements apply to entry-level computer science students seeking admission to one of these two computer science programs.

Students are evaluated after the end of each fall semester, spring semester, and summer session by the Department of Computer Science Admission Committee. Students should consult advisers in the College of Natural Sciences Department of Computer Science for information about admission to the major.

### **The Integrated Program in Computer Science**

The Integrated Program is a curriculum of undergraduate and graduate coursework that allows the student to earn the Bachelor of Science in Computer Science and the Master of Science in Computer Science degrees at the same time. The curriculum includes the same coursework as the traditional master's degree program, as well as the opportunity for research.

Students in the Integrated Program are expected to become leaders in the profession. Highly motivated students with the personal qualities and intellectual capacity to establish successful careers in higher education and industry are encouraged to apply.

Undergraduates typically follow option I, II, or III for their first three years, then enter the Integrated Program in their fourth year. Admission is granted only for the fall semester; January 2 is the application deadline for those who wish to begin the program the following fall. By the end of the spring semester in which they apply, students must have completed at least sixty semester hours of coursework, including Computer Science 345 or 345H, 429 or 429H, and 353 or 357 or 357H.

Admission is based on the applicant's grade point average, letters of recommendation, statement of purpose, and SAT Reasoning Test or ACT scores, as well as other relevant examples of academic ability and leadership. An applicant with a University grade point average of less than 3.50 is unlikely to be admitted. Admission may be restricted by the availability of instructional resources. Application materials and information about deadlines are published by the Department of Computer Science, available at <http://www.cs.utexas.edu/>.

Before beginning the fifth year, students in the Integrated Program must be admitted to the Graduate School. Application forms must be completed by January 2 of the student's fourth year. Before the application deadline, students must have completed the prescribed work common to all Bachelor of Science in Computer Science options. They must earn an acceptable score on the Graduate Record Examinations General Test (GRE) and must have their test scores reported to the University. Students usually take the GRE in the fall semester of their fourth year.

### **The Coordinated Program in Dietetics**

Freshman and transfer applicants to the University who plan to enter the Coordinated Program in Dietetics (CPD) should begin in the entry-level major in nutrition. When they have met the requirements described below, students may apply for admission to the CPD.

Prior to applying for admission to the CPD, students must complete at least sixty semester hours of the coursework required for the Bachelor of Science in Nutrition, option I, including Biology 325

or 325H, and 365S; Chemistry 369 or both 339K and 339L; and Nutrition 307, 107L, 312 or 312H, 112L or 312R, 315, and 326. A list of other recommended courses is available from the School of Human Ecology. Students must have a grade point average of at least 2.70 in coursework taken in residence at the University. Students should consult advisers in the School of Human Ecology for information about the application process and deadlines. Application materials are available from the school.

The number of applicants to the CPD may exceed the number that can be adequately instructed by the faculty and accommodated within available facilities. Admission decisions are based on the student's biology, chemistry, and nutrition grade point average, his or her University grade point average, and other factors. These factors include, but are not limited to, the difficulty of the student's coursework, work or volunteer experience, leadership, commitment to the profession of dietetics, and personal interview. Students whose applications are denied may reapply.

### **The Bachelor of Science in Environmental Science**

Students must be admitted to the Bachelor of Science in Environmental Science degree program; they may apply for admission after completing the following requirements:

The student must earn a grade of at least C- in Biology 311C, Chemistry 301, Mathematics 408C or 408N; and a grade of at least B- in Geological Sciences 401 or 303. To be competitive for admission, the student must have a grade point average of at least 2.75 in these four courses.

Applications are evaluated after the end of each fall and spring semester. Students whose applications are denied may reapply through the supplemental admission process the following semester. Admission decisions are based on the student's grade point average in the basic sequence courses, his or her University grade point average, and other factors; these factors include, but are not limited to, the difficulty of the student's course load, course repetitions, and proven mathematical ability. Students should consult advisers in the College of Natural Sciences Transitional Advising Center (TRAC) for information about the application process and application deadlines.

More information about the degree program is given in Bachelor of Science in Environmental Science (p. 479).

### **The Major in Public Health**

To apply for admission to the public health degree program, the student must have earned a grade of at least C- in Biology 311C and 311D or 315H; Chemistry 301 or 301H and 302 or 302H; and Mathematics 408C or 408N; and a grade of at least B- in Public Health 317. To be competitive for admission, the student must have a grade point average of at least 2.75 in these six courses.

Applications are evaluated after the end of each fall and spring semester. Students whose applications are denied may reapply through the supplemental admission process the following semester. Admission decisions are based on the student's grade point average in the basic sequence courses, his or her University grade point average, and other factors; these factors include, but are not limited to, the difficulty of the student's course load, course repetitions, and proven mathematical ability. Students should consult advisers in the College of Natural Sciences Transitional Advising Center (TRAC) for information about the application process and application deadlines.

Students who plan to follow option II, public health honors, must be admitted to the Dean's Scholars Honors Program (p. 481).

To apply for admission to option III, the student must already be admitted to option I. The option I student may apply for admission to option III upon completion of the fourth semester with a grade point average of at least 3.4. The eligible option I student may apply to option III and the Master of Public Health program following the admission schedule and policies of the School of Public Health at the University of Texas Health Sciences Center at Houston. The application is typically completed during the fifth semester of the Bachelor of Science in Public Health, Option I. Admission to option III requires approval by the School of Biological Sciences at the University of Texas at Austin and the School of Public Health at the University of Texas Health Sciences Center at Houston at the Austin Regional campus.

## The Major in Textiles and Apparel

Admission to the Field Experience Programs

All textiles and apparel students must complete a field experience. Admission to the field experience programs is subject to the approval of the faculty admission panel. Option I, apparel design and conservation, includes a three-semester-hour field experience, the Apparel Design or Conservation Internship Program, offered as Textiles and Apparel 352D; students usually complete the internship during the senior year. The student must apply for admission to the internship program the semester before he or she plans to enter it. Application forms are available from the School of Human Ecology. Before they apply, students must complete the following courses with a grade of at least C- in each: Textiles and Apparel 205, 105L, 212K, 212L, 316L, 219C, 119L, 126, 226L, 164K (Topic 1: *Flat Pattern*), and 264L (Topic 1: *Flat Pattern*).

Option II, retail merchandising, includes a nine-semester-hour field experience program, the Retail Merchandising Internship Program, offered as Textiles and Apparel 315K, 352M, and 355P; students normally complete the internship during the senior year. The student must apply for admission to the program the semester before he or she plans to enter it; materials, information about deadlines, and directions for application are available from the School of Human Ecology. Before they apply, students must complete the following courses with a grade of at least C- in each: Textiles and Apparel 205, 105L, 212K, 212L, 316Q, 219C, 119L, and 376; Marketing 320F or Advertising 318J; Accounting 310F; Mathematics 408C, 408N, or the equivalent; Mathematics 316, Statistics and Scientific Computation 302, 303, 304, 305, or 306 or Educational Psychology 371; and Communication Studies 306M. Before beginning the internship, students must successfully complete competitive interviews with representatives from participating retail establishments.

## Academic Policies and Procedures

### Academic Standards

### Calculus Placement

Calculus is a required course for all natural sciences degrees. To enroll in a calculus course in the college, students must first take the mathematics placement exam. Scores necessary for placement into specific mathematics and statistics courses are posted by the Student

Division at <http://cns.utexas.edu/academics/college-readiness/>. More information about scores and course placement is available from academic advisers.

## Repetition of a Course

No student may enroll in any course in the College of Natural Sciences more than twice, even if the course is needed to meet degree requirements, without first obtaining the written consent of his or her major adviser and of the department that offers the course; students in colleges other than the College of Natural Sciences need only departmental approval. A symbol of Q or W counts as an enrollment unless it has been approved by the dean's office for nonacademic reasons.

A student in the College of Natural Sciences may not repeat any course in which he or she has earned a grade of C- or better.

Departments in the college may have additional requirements for students who repeat courses.

## Concurrent Enrollment

Concurrent enrollment is enrollment simultaneously at the University and at another educational institution or in University Extension. Math and science courses may not be taken concurrently during fall and spring semesters and will not be counted toward a degree unless they are specifically approved in advance by the College of Natural Sciences. The college permits concurrent enrollment during summers without prior approval and during fall and spring semesters with certain restrictions. Students must see their academic advisers to petition for approval. No more than 30 percent of the semester hours required for any degree in the college may be completed online with University Extension.

## Undergraduates in a Graduate Course

The College of Natural Sciences encourages undergraduates who excel academically and would benefit from further challenges to enroll in graduate courses. With permission, undergraduates may count graduate courses toward their undergraduate degrees or may reserve them for graduate credit. To enroll in a graduate course, undergraduates must meet the University's eligibility requirements and must receive permission from the course instructor, the graduate adviser for the field in which the course is offered, and the college. Undergraduates reserving courses for graduate credit must also receive permission from the graduate dean. More information is given in Coursework in the Graduate School and the School of Law (p. 17).

## Petitions for Degree Requirements

Petitions for exceptions to degree requirements, other than the University-wide core curriculum, are handled through an online petition system. Academic advisers initiate petitions on the student's behalf and route them through departmental faculty advisers. The most common reason for petitioning is to request the substitution of transfer coursework for a specific degree requirement. Final decisions on all petitions are made by the dean's office. Degree requirements are very rarely waived outright.

## Honors

Information relating to University-wide Honors (p. 17) can be found in *General Information* available at <http://registrar.utexas.edu/catalogs/>. In addition, the College of Natural Sciences encourages academic excellence through programs such as the Dean's Scholars Honors

Program and Turing Scholars in Computer Science. Students may also graduate with departmental honors as described below and may earn membership in one or more of the honorary scholastic societies open to undergraduates.

## Graduation with University Honors

The University recognizes no more than the top 20 per cent of each college's graduating class as graduating with University Honors. To be eligible, an undergraduate must have completed at least sixty semester hours of coursework in residence at the University. Graduation with University Honors is based on the average of all grades earned in courses taken in residence at the University, whether the courses were passed, failed, or repeated. Courses taken pass/fail are counted in the sixty-hour minimum, but only letter grades (including *F* in pass/fail courses) are used to determine the grade point average.

Detailed requirements for graduation from the College of Natural Sciences with University Honors are given in *General Information*.

## Dean's Scholars Honors Program

The Dean's Scholars Honors Program is a comprehensive honors degree program for highly motivated and talented students. The key features of the program are a first-semester research methods course; a breadth requirement, usually completed during the first four semesters, that exposes students to various forms of scientific inquiry; and at least two semesters of supervised research and writing that culminate in an honors thesis. Students in good standing in the Dean's Scholars Honors Program may follow the honors option for the appropriate bachelor of science degree. The honors degree option is available in most fields in the college.

Application to the Dean's Scholars Honors Program is separate from, and in addition to, application to the University. Application materials and information about deadlines are available at <http://cns.utexas.edu/ds/> and in the program office. Students may enter the program as freshmen, as transfer students, or after they have enrolled at the University. In general, students who have completed more than fifty semester hours of college coursework are not considered for admission.

Factors in the admission decision are the student's high school and/or University grades, class rank, the rigor of the courses the student has taken, the quality of the required application essays, faculty recommendations, and the student's interest and aptitude in math and science as demonstrated by relevant extracurricular activities.

To remain in good standing in the Dean's Scholars Honors Program, students must maintain an in-residence grade point average of at least 3.25 after thirty hours in residence, of at least 3.40 after sixty hours in residence, and of at least 3.50 after ninety hours in residence. Students who fail to maintain the required grade point average will usually be dismissed from the program. Under special circumstances and at the discretion of the departmental honors adviser, a student may be allowed to continue under academic review.

## Turing Scholars in Computer Science

The Department of Computer Science offers a comprehensive honors degree program for highly motivated and talented students. The key features of the program are an intensive, accelerated freshman- and sophomore-year program; special Turing Scholars sections of many advanced computer science courses; a second-semester freshman-year course that introduces students to the research activities of

the department; and at least two semesters of supervised research and writing. Upon completion of both a sequence of Turing Scholars courses, approved by the program director, and an approved thesis, students graduate as Turing Scholars in Computer Science.

Students in the Turing Scholars program pursue the Bachelor of Science in Computer Science, option II. Application to the program is separate from, and in addition to, application to the University. Application materials and information about deadlines are available in the Department of Computer Science and online. Students may enter the program either as freshmen or after they have enrolled at the University. Factors in the admission decision are the student's high school grades and class rank, the rigor of the courses the student has taken, the quality of the required application essays, and the student's interest and aptitude in math, science, and computing as demonstrated by extracurricular activities.

More information about the degree program is given later in this chapter.

## Honors In Advanced Human Development and Family Sciences Program

The Department of Human Development and Family Sciences offers a comprehensive honors degree program for highly motivated and talented students. The key features of the program are a core of small, select Human Development and Family Sciences courses that expose students to the research activities of the department, and at least two semesters of supervised research and writing that culminates in an honors thesis and presentation of student research in an approved public forum. Application to the Human Development and Family Sciences Honors Program is separate from, and in addition to, application to the University. Application materials and information about deadlines are available in the Department of Human Development and Family Sciences and online. Students may enter the program as freshmen, as transfer students, or after they have enrolled at the University. Factors in the admission decision are the student's high school and/or University grades, class rank, the rigor of the courses the student has taken, faculty recommendations, standardized test scores and the student's interest and aptitude in math and science as demonstrated by relevant extracurricular activities. More information about the degree program is given in the Degrees and Programs (p. 484) section.

## Honors In Advanced Nutritional Sciences Program

The Department of Nutritional Sciences offers a comprehensive honors degree program for highly motivated and talented students. The key features of the program are a core of select nutrition courses that expose students to the research activities of the department; and at least two semesters of supervised research and writing that culminates in an honors thesis and presentation of student research in an approved public forum. Application to the Honors in Advanced Nutritional Sciences Program is separate from, and in addition to, application to the University. Application materials and information about deadlines are available in the Department of Nutritional Sciences and online. Students may enter the program as freshmen, as transfer students, or after they have enrolled at the University. Factors in the admission decision are the student's high school and/or University grades, class rank, the rigor of the courses the student has taken, the quality of the required application essays, faculty recommendations, and the student's interest and aptitude in math and science as demonstrated by relevant extracurricular activities. More information

about the degree program is given in the Degrees and Programs (p. 484) section.

## College Honors Programs

### Departmental Honorary Societies

Several departments within the College of Natural Sciences sponsor honorary scholastic and professional societies. For information about eligibility criteria and activities, the student should consult the appropriate department office or the faculty adviser for the society.

The University sponsors chapters of the following national organizations of interest to students in natural sciences: Alpha Chi Sigma, professional chemical fraternity; Alpha Epsilon Delta, honorary fraternity for students who have completed at least three semesters of premedical coursework; Beta Beta Beta, honorary biological society; Omicron Nu, honorary human ecology society; Pi Mu Epsilon, honorary mathematical society; Sigma Pi Sigma, honorary physics society; Upsilon Pi Epsilon, honorary computer science society.

### Departmental Honors Programs

Most departments in the College of Natural Sciences offer departmental honors programs to their majors. Minimum requirements for the completion of all such programs include (1) a University grade point average of at least 3.00; (2) a three-semester-hour thesis or research project, or a reasonable equivalent, with a grade of at least B-; some programs may require a higher grade; (3) completion, with a grade point average of at least 3.50, of the coursework required for a major in the field in which the student seeks honors; and (4) completion at the University of at least sixty semester hours of coursework counted toward the degree.

The statement "Special Honors in (name of field)" appears on the transcript of each graduate certified as having completed the honors program.

### Astronomy Departmental Honors Program

Majors who plan to seek special departmental honors in astronomy should apply to the honors adviser for admission to the honors program no later than the beginning of the fourth year; application by the end of the third year is recommended. A University grade point average of at least 3.00 and a combined University grade point average in physics and astronomy of at least 3.50 are required for admission. The requirements for graduation with special departmental honors are (1) Astronomy 379H, *Honors Tutorial Course*, in which the student completes a supervised research project; the student may take a second semester of Astronomy 379H if necessary to complete the project; two semesters in this course may be counted toward the major requirement; (2) a written report and oral presentation on the research project, approved by the research supervisor and the honors adviser; (3) a University grade point average of at least 3.00 and a combined University grade point average in physics and astronomy of at least 3.50; and (4) completion at the University of at least sixty semester hours of coursework counted toward the degree.

### Biochemistry Departmental Honors Program

Majors who plan to seek special departmental honors in biochemistry should apply to the honors adviser for admission to the honors program no later than the beginning of the senior year. A University grade point average of at least 3.00 and a grade point average in biochemistry and chemistry of at least 3.50 are required for admission.

The requirements for graduation with special departmental honors are (1) all requirements for the degree of Bachelor of Science in Biochemistry; (2) two semesters of Chemistry 379H, *Chemistry Honors Tutorial Course*; (3) a thesis and a presentation based on research; the research topic and the thesis must be approved by the supervising faculty member and the undergraduate faculty adviser; (4) a University grade point average of at least 3.00 and a grade point average in biochemistry and chemistry of at least 3.50; (5) completion at the University of at least sixty semester hours of coursework counted toward the degree; and (6) approval of the honors adviser.

### Biology Departmental Honors Program

Majors who plan to seek special departmental honors in biology should apply to the honors adviser for admission to the honors program no later than the beginning of the senior year. A University grade point average of at least 3.00 and a grade point average in biology of at least 3.50 are required for admission. The requirements for graduation with special departmental honors, which are in addition to the requirements of the major, are (1) two semesters of Biology 379H, *Honors Tutorial Course*; (2) a thesis based on original research and approved by the supervising faculty member and the honors adviser; honors students in the human biology option must select both a thesis supervisor and a second reader, one of whom must be a tenure-track faculty member or senior lecturer in the School of Biological Sciences; (3) a University grade point average of at least 3.00 and a grade point average in biology of at least 3.50; and (4) completion at the University of at least sixty semester hours of coursework counted toward the degree.

### Chemistry Departmental Honors Program

Majors who plan to seek special departmental honors in chemistry should apply to the honors adviser for admission to the honors program no later than the beginning of the senior year. A University grade point average of at least 3.00 and a grade point average in chemistry of at least 3.50 are required for admission. The requirements for graduation with special departmental honors are (1) all requirements for the degree of Bachelor of Science in Chemistry; (2) two semesters of Chemistry 379H, *Chemistry Honors Tutorial Course*; (3) a thesis and a presentation based on research; the research topic and the thesis must be approved by the supervising faculty member and the undergraduate faculty adviser; (4) a University grade point average of at least 3.00 and a grade point average in chemistry of at least 3.50; (5) completion at the University of at least sixty semester hours of coursework counted toward the degree; and (6) approval of the honors adviser.

### Computer Science Departmental Honors Program

Students seeking special departmental honors must meet with a faculty adviser at least two semesters before they plan to graduate to discuss potential research topics and the requirements for receiving special departmental honors. The requirements for graduation with special departmental honors are (1) Computer Science 379H, *Computer Science Honors Thesis*, with a grade of at least B-; (2) a University grade point average of at least 3.00 and a grade point average in computer science of at least 3.50; (3) a thesis, written on the subject of the student's research and approved in comprehensive examination by a committee consisting of at least three faculty members, including the honors adviser; and (4) completion at the University of at least sixty semester hours of coursework counted toward the degree.

### **Human Development and Family Sciences Departmental Honors Program**

Majors who plan to seek special departmental honors in human development and family sciences should apply to the Departmental Honors Committee for admission to the honors program no later than the beginning of the senior year. The requirements for admission are a University grade point average of at least 3.00 and a grade point average of at least 3.50 in coursework in the School of Human Ecology that is required for the degree. The requirements for graduation with special departmental honors are (1) all requirements for the degree of Bachelor of Science in Human Development and Family Sciences; (2) Human Development and Family Sciences 379H, *Honors Tutorial Course*; (3) completion of an honors thesis and an accompanying presentation, both of which must be approved by a committee consisting of the research supervisor and another faculty member; (4) a University grade point average of at least 3.00, a grade point average in Human Development and Family Sciences 379H of at least 3.00, and a grade point average of at least 3.50 in coursework in the School of Human Ecology that is required for the degree and for honors; and (5) completion at the University of at least sixty semester hours of coursework counted toward the degree.

### **Human Ecology Departmental Honors Program**

Majors who plan to seek special departmental honors in human ecology must follow the requirements of the departmental honors program in human development and family sciences, nutrition, or textiles and apparel.

### **Mathematics Departmental Honors Program**

Majors who plan to seek special departmental honors in mathematics should apply to the honors adviser for admission to the honors program at least two semesters before their expected graduation. A University grade point average of at least 3.00 and a grade point average in mathematics of at least 3.50 are required for admission. The requirements for graduation with special departmental honors are (1) Mathematics 379H, *Honors Tutorial Course*; (2) a thesis on the subject of the student's research or project approved in comprehensive examination by a committee consisting of at least three faculty members; (3) a University grade point average of at least 3.00 and a grade point average in mathematics of at least 3.50; and (4) completion at the University of at least sixty semester hours of coursework counted toward the degree. In order to fulfill the first requirement, students must meet the prerequisite of Mathematics 379H—Mathematics 365C, 367K, 373K, or 374G with a grade of at least A-, and another of these courses with a grade of at least B-; and consent of the honors adviser.

### **Nutrition Departmental Honors Program**

Majors who plan to seek special departmental honors in nutrition should apply to the Departmental Honors Committee for admission to the honors program no later than the beginning of the senior year. The requirements for admission are a University grade point average of at least 3.00 and a grade point average of at least 3.50 in coursework in the School of Human Ecology that is required for the degree. The requirements for graduation with special departmental honors are (1) all requirements for the degree of Bachelor of Science in Nutrition; (2) Nutrition 379H, *Honors Tutorial Course*; this course may be repeated once for credit; (3) completion of an honors thesis and an accompanying presentation, both of which must be approved by a committee consisting of the research supervisor and another faculty member; (4) a University grade point average of at least 3.00, a grade point average in Nutrition 379H of at least 3.00, and a grade point average of at least 3.50 in coursework in the School of Human Ecology

that is required for the degree and for honors; and (5) completion at the University of at least sixty semester hours of coursework counted toward the degree.

### **Physics Departmental Honors Program**

Majors who plan to seek special departmental honors in physics should apply to the honors adviser for admission to the honors program near the end of the third year. A University grade point average of at least 3.00 and a grade point average in physics of at least 3.50 are required for admission. The requirements for graduation with special departmental honors are (1) Physics 379H, *Honors Tutorial Course*; (2) a written honors thesis approved by faculty readers assigned by the department; (3) a University grade point average of at least 3.00 and a grade point average in physics of at least 3.50; and (4) completion at the University of at least sixty semester hours of coursework counted toward the degree.

### **Textiles and Apparel Departmental Honors Program**

Majors who plan to seek special departmental honors in textiles and apparel should apply to the Departmental Honors Committee for admission to the honors program no later than the beginning of the senior year. The requirements for admission are a University grade point average of at least 3.00 and a grade point average of at least 3.50 in coursework in the School of Human Ecology that is required for the degree. The requirements for graduation with special departmental honors are (1) all requirements for the degree of Bachelor of Science in Textiles and Apparel; (2) Textiles and Apparel 379H, *Honors Tutorial Course*; this course may be repeated once for credit; (3) completion of an honors thesis and an accompanying presentation, both of which must be approved by a committee consisting of the research supervisor and another faculty member; (4) a University grade point average of at least 3.00, a grade point average in Textiles and Apparel 379H of at least 3.00, and a grade point average of at least 3.50 in coursework in the School of Human Ecology that is required for the degree and for honors; and (5) completion at the University of at least sixty semester hours of coursework counted toward the degree.

## **Graduation**

### **Special Requirements of the College**

All students must fulfill the general requirements (p. 18) for graduation. Students in the College of Natural Sciences must also fulfill the following requirements.

1. The University requires that the student complete in residence at least sixty semester hours of the coursework counted toward the degree. For the Bachelor of Arts, Plan I, these sixty hours must include at least eighteen hours in the major. For all other degrees offered by the College of Natural Sciences, thirty of these sixty hours must be taken in the College of Natural Sciences or the College of Liberal Arts.
2. All University students must complete in residence at least twenty-four of the last thirty semester hours counted toward the degree. For students seeking the Bachelor of Science in Medical Laboratory Science, this rule applies to the academic work completed at the University.
3. The University requires that at least six semester hours of advanced coursework in the major be completed in residence. Additional hours in the professional or major sequence in many cases are required by individual natural sciences degree programs.

4. A candidate for a degree must be registered in the College of Natural Sciences either in residence or in absentia the semester or summer session the degree is to be awarded. Graduation applications must be submitted no later than the date given in the academic calendar. The application and supplemental in absentia instructions are available via the college's academics Web page, <http://cns.utexas.edu/academics/>.

## Applying for Graduation

An electronic degree audit is created for each student each semester. The student should view the audit through IDA, the University's Interactive Degree Audit system. The degree audit tells the student the courses he or she must take and the requirements he or she must fulfill to receive the degree. The degree audit normally provides an accurate statement of requirements, but the student is responsible for knowing the requirements for the degree as stated in a catalog under which he or she is eligible to graduate and for registering so as to fulfill all these requirements. The student should speak with his or her assigned academic adviser before registering if in doubt about any requirement.

In the semester or summer session in which the degree is to be conferred, the candidate must be registered at the University and must file an online graduation application form via the academics section of the college's Web site, <http://cns.utexas.edu/academics/>. This should be done during the first week of classes, if possible, but in no event later than the deadline to apply for an undergraduate degree; this date is given in the official academic calendar. No degree will be conferred unless the graduation application form has been filed on time.

## Degrees and Programs

The College of Natural Sciences offers the Bachelor of Arts, Plan I, and several bachelor of science degrees. The requirements of the Bachelor of Arts, Plan I, begin in Bachelor of Arts, Plan I (p. 486). The Bachelor of Arts, Plan II, a broad liberal arts honors program for outstanding students, is described in Bachelor of Arts, Plan II (p. 309). Plan II emphasizes the humanities but also permits a concentration equivalent to a major in science.

The bachelor of science degrees and degree requirements are listed in College of Natural Sciences (p. 13).

A student may not earn more than one Bachelor of Arts degree or more than one Bachelor of Science in Environmental Science degree from the University. A student who holds a Bachelor of Arts degree from the university may earn a second major designation that will appear on the University transcript. Likewise, a student who holds a Bachelor of Science degree from the university may earn a second major option designation that will appear on the University transcript.

The title of a graduate's degree appears on his or her diploma, but the major does not. Both the degree and the major appear on the graduate's University transcript.

## Applicability of Certain Courses

### Physical Activity Courses

Physical activity (PED) courses and Kinesiology 119 may not be counted toward a degree in the College of Natural Sciences. However,

they are counted as courses for which the student is enrolled, and the grades are included in the grade point average.

## ROTC Courses

ROTC units are maintained on campus by the Departments of Air Force Science, Military Science, and Naval Science. Information about each program is available from the chair of the department.

Nine semester hours of designated University of Texas at Austin coursework in air force science, military science, or naval science may be counted toward any degree in the College of Natural Sciences.

## Courses Taken on the Pass/Fail Basis

No more than sixteen semester hours taken on the pass/fail basis may be counted toward the Bachelor of Arts, Plan I. In general, only electives may be taken on the pass/fail basis. Complete rules on registration on the pass/fail basis are given in *General Information* available at <http://registrar.utexas.edu/catalogs/>.

## Courses in a Single Field

No more than thirty-nine hours may be counted in any one field of study, including the major, unless major requirements state otherwise. No more than thirty-nine hours may be counted in any one college or school other than the College of Liberal Arts or the College of Natural Sciences.

## College Algebra

Algebra courses at the level of Mathematics 301 or the equivalent may not be counted toward a degree in the College of Natural Sciences.

## Transcript-Recognized Certificate Programs

Undergraduate certificate programs encourage students to explore academic areas that support and extend their degree plans. The following certificates require at least eighteen semester hours of coursework, some of which may also be used to fulfill degree requirements. Undergraduates who complete the certificate requirements in conjunction with their degree requirements or within one year after earning the degree will receive a certificate and recognition on their University transcript. A maximum of nine hours in the certificate program may be taken after completion of the undergraduate degree. At least half of the required coursework in the certificate program must be completed in residence at the University.

## Certificate in Computational Science and Engineering

Information relating to the Certificate in Computational Science and Engineering (p. 15) can be found in The University section.

## The Elements of Computing Program

The Elements of Computing Program, administered by the Department of Computer Science, is designed to support computational work in disciplines other than computer science and to provide students with skills in the use of computer applications. Any non-computer science major may take any elements of computing course for which he or she meets the prerequisite. No application process is required.

To earn the Elements of Computing Certificate, students must complete eighteen semester hours of coursework with a grade of at least C- in each course. The following courses are required:

- One core course: Computer Science 303E, *Elements of Computers and Programming*, or the equivalent
- Five of the following courses, including at least three upper-division courses:
  - Computer Science 301K, *Foundations of Logical Thought*
  - Computer Science 302, *Computer Fluency*
  - Computer Science 313E, *Elements of Software Design*
  - Computer Science 320N, *Topics in Computer Science for Nonmajors*
  - Computer Science 324E, *Elements of Graphics and Visualization*
  - Computer Science 326E, *Elements of Networking*
  - Computer Science 327E, *Elements of Databases*
  - Computer Science 329E, *Topics in Elements of Computing*

With the approval of the certificate program faculty committee, other appropriate courses may be counted toward the elective requirement.

## Certificate in Scientific Computation

The Certificate in Scientific Computation helps undergraduates equip themselves with the mathematical, statistical, and computer-based tools necessary to investigate complex systems in a variety of applications. It is designed to appeal to students across the University in science, engineering, economics, premedicine, sociology, and many other disciplines. The program is administered by the Division of Statistics and Scientific Computation. To be admitted, a student must be in good standing in an approved undergraduate degree program and must have earned a grade of at least C- in each certificate course he or she has completed. Students may apply for admission to the program at any point in their undergraduate study; they are encouraged to apply as early as possible so that they can be advised throughout the program.

The following coursework is required. Students must also complete Mathematics 408D or 408M as a prerequisite. No single course or topic may be used to meet more than one of these requirements.

1. Statistics and Scientific Computation 222
2. One course in linear algebra, discrete mathematics, or differential equations chosen from the following: Mathematics 340L, 341, 362M, 372K, Statistics and Scientific Computation 329C
3. Two courses in scientific computing, chosen from two of the following areas:
  - A. *Numerical methods*: Aerospace Engineering 311, Chemical Engineering 348, Computer Science 323E, 323H, 367, Mathematics 348, Petroleum and Geosystems Engineering 310, Statistics and Scientific Computation 335
  - B. *Statistical methods*: Biomedical Engineering 335, Electrical Engineering 351K, Mathematics 358K, 378K
  - C. *Other computing topics*: Computer Science 324E, 327E, 329E (approved topics), 377, Mathematics 346, 362M, 368K, 372K, 375T (approved topics), 376C, Mechanical Engineering 367S, Statistics and Scientific Computation 329D, 374C, 374D, 374E
4. One of the following courses in applied computational science: Aerospace Engineering 347, Biology 321G, Biomedical Engineering 341, 342, 346, 377T (approved topics), Chemistry

368 (approved topics), Computer Science 324E, 329E (approved topics), Economics 363C, Electrical Engineering 379K (approved topics), Geological Sciences 325K, Mathematics 375T (approved topics), 374M, Physics 329

5. An independent research course: Statistics and Scientific Computation 479R

## Texas IP Certificate

The Texas Interdisciplinary Plan (Texas IP) Certificate allows students to pursue an integrated course of study with a focus on the development and application of critical thinking skills. The curriculum is designed to complement the student's major with an interdisciplinary sequence of courses that may encompass the humanities, the social sciences, the natural sciences, and the arts. Students have the opportunity to present an original work in a capstone seminar. Those who plan to pursue the certificate should apply to the program adviser for admission no later than the end of their sophomore year. More information about the Texas IP Certificate is given at <http://www.utexas.edu/tip/TexasIP/>.

Students must meet the following requirements:

1. *Critical Thinking Seminar*: One of the following courses: Liberal Arts 302, Philosophy 311, Natural Sciences 301C (Topic: *Research Methods*), 302, 311, Undergraduate Studies 303 (Topic: *Thinking About Thinking Across the Disciplines*)
2. *Critical Writing Seminar*: Rhetoric and Writing 309K or 309S. Selected courses in the Department of Rhetoric and Writing may be substituted on a petition basis
3. Three additional courses, including at least three semester hours of upper-division coursework, from an interdisciplinary topic area prescribed by the Texas Interdisciplinary Plan; or, with approval of the Texas IP Faculty Advisory Panel, a three-course interdisciplinary topic area designed by the student
4. *Senior Capstone Seminar*: Liberal Arts 371 or Natural Sciences 371

In the College of Liberal Arts, a student whose major includes a minor may use the Texas IP curriculum as the minor if he or she completes the Texas IP coursework and if the minor is not specified by the major department. Final approval of the Texas IP minor coursework rests with the College of Liberal Arts associate dean for academic affairs or the associate dean's authorized representative.

In the College of Natural Sciences, the Texas IP Certificate may be used to complement any major. Some certificate courses will also fulfill degree requirements established by the student's major department and given later in this section; however, some of the eighteen hours required for the certificate may be in addition to the number of hours required for the degree.

## Certificate in Textile Conservation

The Certificate in Textile Conservation helps undergraduates equip themselves with the fiber science, exhibition planning, textile conservation and museum management skills necessary to conserve textiles in various settings. It is designed to appeal to students across the University in science, history, information science, computational science, merchandising, fiber science and apparel design and many other disciplines. The program is administered by the Division of Textiles and Apparel in the School of Human Ecology. To be admitted, a student must be in good standing in an approved undergraduate

degree program and must have earned a grade of at least C- in each certificate course he or she has completed. Students may apply for admission to the program at any point in their undergraduate study; they are encouraged to apply as early as possible so that they can be advised throughout the program.

The following coursework is required.

1. Textiles and Apparel 205 and 105L
2. Textiles and Apparel 219C and 119L
3. Textiles and Apparel 325L
4. Textiles and Apparel 325M
5. Textiles and Apparel 355D
6. Textiles and Apparel 352C
7. Information Studies 304D or 304W
8. Information Studies 335W

## UTeach Teacher Certification

UTeach-Natural Sciences prepares students in the College of Natural Sciences and the Jackson School of Geosciences for single-field teacher certification in mathematics or computer science or for composite certification with biology, chemistry, geological sciences, or physics as the primary teaching field. Composite certification that includes engineering is also available through UTeach-Engineering, in collaboration with the Cockrell School of Engineering. Composite certification requires forty-eight semester hours of coursework, consisting of twenty-four hours in one science, twelve in a second science, and six each in two additional sciences.

Students can complete the courses for certification as electives within a standard bachelor's degree program; lists of the required content courses and additional certification requirements are available in the UTeach-Natural Sciences office. However, students are strongly encouraged to consider the teaching options in biology, chemistry, geological sciences, mathematics, nutrition, and physics. These incorporate not only the required coursework in the major but also the professional development courses, supporting courses, and courses in other sciences that are required for certification.

To graduate and be recommended for certification, the student must have a University grade point average of at least 2.50. He or she must have earned a grade of at least C- in each of the professional development courses and supporting courses listed below and must pass the final teaching portfolio review. Information about the portfolio review and additional certification requirements is available from the UTeach-Natural Sciences academic adviser.

Students must adhere to current certification requirements, even if they differ from those listed in a University catalog.

## Professional Development Sequence

All students seeking teacher certification must complete the following courses:

1. UTeach-Natural Sciences 101, *Secondary Teacher Education Preparation: STEP 1*
2. UTeach-Natural Sciences 110, *Secondary Teacher Education Preparation: STEP 2*
3. UTeach-Natural Sciences 170, *Student Teaching Seminar*

4. Curriculum and Instruction 650S, *Secondary School Teaching Practicum*
5. Curriculum and Instruction 365C, *Knowing and Learning in Math and Science*
6. Curriculum and Instruction 365D, *Classroom Interactions*
7. Curriculum and Instruction 365E, *Project-Based Instruction*

Students seeking middle grades certification must also complete the following courses. To be recommended for certification, the student must earn a grade of at least C- in each course.

Curriculum and Instruction 339E, *Secondary School Literacy across the Disciplines*,  
Educational Psychology 363M, Topic 3: *Adolescent Development*; or both Psychology 301, *Introduction to Psychology*, and Psychology 304, *Introduction to Child Psychology*

## Supporting Courses

Biology 337, (Topic 2: *Research Methods: UTeach*); Chemistry 368, (Topic 1: *Research Methods—UTeach*); or Physics 341, (Topic 7: *Research Methods: UTeach*)  
History 329U, *Perspectives on Science and Mathematics*, or  
Philosophy 329U, *Perspectives on Science and Mathematics*

Interested students are encouraged to start the program at any time during their undergraduate careers. Students must be considering a teaching career in middle grades or secondary school science, computer science, mathematics and/or engineering, and must meet grade point average requirements. Students who are interested in teaching earlier grades should consult the College of Education.

## Bachelor of Arts, Plan I

The requirements for the Bachelor of Arts under Plan I are designed to give each student flexibility in the selection of courses to meet individual needs.

A total of 120 semester hours is required. Thirty-six hours must be in upper-division courses. At least sixty hours, including twenty-one hours of upper-division coursework, must be completed in residence at the University; at least twenty-four of the last thirty hours must be completed in residence at the University. Provided residence rules are met, credit may be earned by examination, by extension, by correspondence (up to 30 percent of the hours required for the degree), or, with the approval of the dean, by work transferred from another institution. Up to sixteen semester hours of classroom and/or correspondence coursework may be taken on the pass/fail basis; this coursework may be counted only as electives.

All students must complete the University's Core Curriculum (p. 22). The specific requirements for the Bachelor of Arts, Plan I, consist of prescribed work, major and minor requirements, and electives. In some cases, a course that fulfills one of these requirements may also be counted toward the core curriculum.

Courses in the major and minor may also be used to fulfill prescribed work requirements unless expressly prohibited. A course in one prescribed work area may not also be used to fulfill the requirements of another prescribed work area; the only exception to this rule is that

a course that fulfills another requirement may also be used to fulfill the writing requirement if the course carries a writing flag.

The student must fulfill both the University general requirements (p. 18) for graduation and the requirements of the College of Natural Sciences (p. 483). University graduation requirements include a grade point average of at least 2.00 in all courses taken at the University (including credit by examination, correspondence, and extension) for which a grade or symbol other than Q, W, X, or CR is recorded; for the BA, Plan I, the student must also earn a grade point average of at least 2.00 in courses taken at the University and counted toward the major requirement. The student should also refer to the description of his or her major in the section "Majors and Minors" below, since some majors include higher minimum scholastic requirements.

More information about grades and the grade point average is given in *General Information* available at <http://registrar.utexas.edu/catalogs/>.

## Prescribed Work

1. *Writing*: Two courses beyond Rhetoric and Writing 306 or the equivalent that carry a writing flag. One of these courses must be upper-division. Courses with a writing flag are identified in the *Course Schedule* available at <http://registrar.utexas.edu/schedules>. They may be used simultaneously to fulfill other requirements, unless otherwise specified.
2. *Foreign language*: Four semesters or the equivalent in a single foreign language.  
The foreign language requirement is the attainment of a certain proficiency, as well as the completion of a specified number of courses; however, the courses taken to gain proficiency are not electives and may not be taken on the pass/fail basis. Any part of the requirement may be fulfilled by credit by examination.

To achieve proficiency in a foreign language as rapidly as possible, qualified students are urged to take intensive foreign language courses. Information about these courses is available from the departments that offer them.

Courses used to fulfill the foreign language requirement must be language courses; literature-in-translation courses, for example, may not be counted.

3. *Social science*: Three semester hours chosen from a list of approved courses, in addition to the course used to fulfill the social and behavioral sciences requirement of the core curriculum. The course(s) must be in a field of study taught in the College of Liberal Arts and must be in a different field of study from the course used to fulfill the social and behavioral sciences requirement of the core.

Courses on the approved list are primarily in anthropology, economics, geography, linguistics, psychology, and sociology, but not every course in these fields is approved. Courses that are approved to count toward any core curriculum area other than social and behavioral sciences may not be counted toward this requirement.

The list is available each semester in the Student Division and at <http://www.utexas.edu/cola/student-affairs/Academic-Planning/Majors-and-Degrees/Course-Lists.php>.

4. *Mathematics*: Three semester hours in mathematics, excluding Mathematics 301, 316K, and 316L.

5. *Natural science*: Six semester hours in natural sciences, in addition to the courses counted toward the science and technology requirements of the core curriculum. Courses used to fulfill this requirement must be chosen from the fields of study listed below; no more than three hours may be in either the history of science or the philosophy of science.

To satisfy the mathematics and science and technology requirements of the core curriculum and the natural science requirement of the BA, Plan I, a student may count (1) no more than twelve hours in mathematics, computer science, and statistics and scientific computation combined; and (2) no more than nine hours in any single field of study.

- A. Astronomy
- B. Biology
- C. Chemistry
- D. Geological sciences
- E. Marine science
- F. Nutrition
- G. Physical science
- H. Physics
  - I. Mathematics (excluding Mathematics 301), computer science, statistics and scientific computation
  - J. Other alternative science courses approved by the dean
  - K. Approved alternative courses in history of science and philosophy of science

6. *Cultural expression, human experience, and thought*: Three semester hours chosen from a list of approved courses. The course(s) must be in a field of study taught in the College of Liberal Arts. A course counted toward any requirement of the core curriculum may not also be counted toward this requirement.

A list of approved courses is available each semester in the Student Division and at <http://www.utexas.edu/cola/student-affairs/Academic-Planning/Majors-and-Degrees/Course-Lists.php>.

## Electives

In addition to the core curriculum, prescribed work, and major and minor, the student must complete enough elective coursework to provide the 120 semester hours required for the degree. These 120 hours may include no more than twelve semester hour of Bible; nine hours of designated coursework in air force science, military science, or naval science; sixteen hours completed on the pass/fail basis; thirty-nine hours in any one field of study offered in the College of Liberal Arts or the College of Natural Sciences, unless major requirements state otherwise; and thirty-nine hours in any other single college or school of the University.

## Majors and Minors

### Major Requirements

The Bachelor of Arts, Plan I, requires the completion of all requirements for one major.

The number of semester hours required in the major varies with the field selected. Unless the requirements of the major state otherwise, a major consists of at least twenty-four but no more than thirty-nine semester hours, with at least fifteen hours in upper-division courses. Of these fifteen hours, six must be completed in residence. At least eighteen hours of coursework in the major, including six hours of upper-division coursework, must be completed in residence at the University.

## Minors

Students in most majors must also fulfill the requirements of a minor. The requirements of the minor are established by the major department and are given with the major requirements below. Additional restrictions may be imposed by the academic department(s) in which the student takes the courses used to fulfill the requirements of the minor; before planning to use a course to fulfill the minor requirement, the student should consult the department that offers the course.

## Astronomy

*Major:* Physics 301, 101L, 315, 115L, 316, and 116L; nine semester hours of upper-division coursework in astronomy, including at least two of the following courses: Astronomy 352K, 352L, 353, 358, and 364; and six additional upper-division hours in astronomy and/or physics.

*Minor for astronomy majors:* Six semester hours of coursework (other than astronomy, lower-division physics, lower-division mathematics, and Mathematics 427K) approved by the undergraduate adviser; and either six semester hours of upper-division physics in addition to the courses used to fulfill the major requirement or six semester hours of upper-division coursework approved by the undergraduate adviser.

Students must earn a grade of at least C- in each mathematics and science course required for the degree, and a grade point average in these courses of at least 2.00.

All astronomy majors should consult the astronomy undergraduate adviser regularly about the choice of appropriate courses in both the major and the minor. Qualified students are encouraged to carry out a supervised research project by taking a conference course, such as Astronomy 375 or 379H. No more than six of the hours counted toward the major requirement may be earned in conference courses.

## Biochemistry

Biochemistry majors must take either Mathematics 408C and 408D or Mathematics 408N, 408S, and 408M; and eight semester hours of physics: either Physics 301, 101L, 316, and 116L; 303K, 103M, 303L, and 103N; or 317K, 117M, 317L, and 117N.

*Major:* Chemistry 301 or 301H, 302 or 302H, 204 or 317; either 128K, 128L, 328M, and 328N, or 220C, 320M, and 320N; 339K, 339L, 353 or 353M, 455, 369L, and 370.

*Minor for biochemistry majors:* Either Biology 311C, 311D, and 325 or Biology 315H and 325H; six additional semester hours in biology, three of which are chosen from Biology 328, 339, 345, 361T, 365R or 371M, and 365S; and three additional hours chosen from the preceding list or

from Biology 320, 226L and either 326M or 326R, 330, 331L, 335, 344, 346, 347, 349, 360K, 361 and 365W.

Students must earn a grade of at least C- in each mathematics and science course required for the degree, and a grade point average in these courses of at least 2.00.

## Biology

In addition to the requirements below, biology majors must complete Mathematics 408C or 408N, Chemistry 301 or 301H, 302 or 302H, and 204; and one of the following: (1) Chemistry 220C, 320M, and 320N; (2) eight hours of coursework in physics, including laboratory work; or (3) six hours of coursework in computer science, including at least three hours of upper-division work.

*Major:* The following coursework:

1. Either Biology 311C, 311D, and 325 or Biology 315H and 325H.
2. Biology 206L or 208L.
3. Six semester hours in core biology courses, consisting of three hours in each of the following areas.
  - A. Cellular, developmental, and molecular biology: Biology 320, 344, 349.
  - B. Ecology and evolution: Biology 357, 370, 373.
4. Eighteen additional semester hours of coursework, consisting of three hours in each of the following six areas. No course may be counted toward more than one of the six areas in requirement 4. No course may be counted toward both requirement 3 and requirement 4. The courses counted toward requirement 4 must include at least three laboratory courses.
  - A. Cellular, developmental, and molecular biology: Biology 320, 320L, 323L, 325L, 325T, 226L, 326R, 328D, 330, 230L, 331L, 332, 333, 335, 336, 339, 339M, 344, 347, 349, 349L, 350M, 360K, 160L, 366, 366L, 366R, 366S, 368L, Chemistry 369.
  - B. Physiology and neurobiology: Biology 322, 122L, 328, 329, 129L, 336, 339, 345, 345E, 359K, 359R, 360K, 160L, 361, 361L, 361T, 365D, 365L, 365N, 365P, 365R, 365S, 365T, 165U, 365W, 366C, 371L, 371M.
  - C. Ecology and evolution: Biology 328M, 321L, 340L, 448L, 351, 352, 453L, 354L, 455L, 456L, 357, 458L, 359J, 262, 262L, 363, 364, 369L, 370, 471G, 373, 373L, 375, Marine Science 352C, 354Q.
  - D. Animal biology: Biology 321L, 438L, 340L, 346, 446L, 448L, 453L, 354L, 455L, 359J, 359K, 359R, 361T, 365S, 369L, 371L, 478L, Marine Science 354, 354C.
  - E. Plant biology: Biology 322, 122L, 324 and 124L, 327 and 127L, 328, 328D, 350M, 351, 352, 262, 262L, 363, 374 and 174L, Marine Science 352D.
  - F. Microbiology: Biology 226L, 326R, 329, 129L, 330, 230L, 333, 339, 364, Marine Science 354E.

Students must earn a grade of at least C- in each mathematics and science course required for the degree, and a grade point average in these courses of at least 2.00.

## Chemistry

Chemistry majors must take Mathematics 408C and 408D or Mathematics 408N, 408S, and 408M; and eight semester hours of physics: either Physics 301, 101L, 316, and 116L; 303K, 103M, 303L, and 103N; or 317K, 117M, 317L, and 117N.

*Major:* Chemistry 301 or 301H, 302 or 302H, 204 or 317; either 220C, 320M, and 320N, or 128K, 128L, 328M, and 328N; 353, 153K, 354 or 354L, 154K, 456, and 376K.

*Minor for chemistry majors:* Either (1) twelve semester hours of biology, geological sciences, mathematics, physics, or, with written consent of the department chair and approval of the dean, a field of study outside the College of Natural Sciences or the Jackson School of Geosciences; or (2) Computer Science 303E, 313E, and six hours chosen from Computer Science 323E, 324E, 326E, 327E, and 329E. Students who complete the second option may simultaneously fulfill some of the requirements of the Elements of Computing Certificate (p. 484).

Students must earn a grade of at least C- in each mathematics and science course required for the degree, and a grade point average in these courses of at least 2.00.

## Computer Science

An undergraduate may not enroll in any computer science course more than once without written consent of an undergraduate adviser in computer science. No student may enroll in any computer science course more than twice. No student may take more than three upper-division computer science courses in a semester without written consent of an undergraduate adviser in computer science.

*Major:* Computer Science 312 or 312H, 313K or 313H, 314 or 314H, 429 or 429H, 336 or 336H, 337 or 337H, 439 or 439H, 341 or 341H or 357 or 357H, and at least twelve additional semester hours of approved upper-division coursework in computer science. Computer Science 370 may be counted toward the degree only once. Note: Computer science courses with numbers ending in *H* are intended for students pursuing the Bachelor of Science in Computer Science, option II, the Turing Scholars program, and option III, computer science honors. Students outside these options may enroll in these courses only with the special consent of the honors director.

*Minor for computer science majors:* Mathematics 408C, 408D, and Statistics and Scientific Computation 321.

Students must earn a grade of at least C- in each mathematics and science course required for the degree, and a grade point average in these courses of at least 2.00.

With the exception of Computer Science 312 or 312H, 313K or 313H, and 314 or 314H, all computer science courses that may be counted toward a degree in computer science are restricted to students who have been admitted to the computer science major or have the consent of the undergraduate faculty adviser.

## Human Ecology

Human ecology majors must complete the following, with a grade of at least C- in each course: Mathematics 408N or the equivalent; Statistics and Scientific Computation 302, 303, 304, 305, 306 or 325H; either

(a) Chemistry 301 or 301H, 302 or 302H, and Biology 311C, or (b) Chemistry 301 or 301H and Biology 311C and 311D; and two to four additional hours in astronomy, biology, chemistry, computer science, geological sciences, mathematics, and/or physics. Courses designed for non-science majors may not be counted toward this requirement. This coursework also meets the core curriculum mathematics and science and technology requirements.

*Major:* Thirty semester hours of coursework in the School of Human Ecology, including at least fifteen hours of upper-division coursework and at least six hours chosen from each of the following areas: (a) Human Development and Family Sciences 304, 312, 313, 113L, 315L, 322, and 337; (b) Nutrition 306, 307, 107L, 312 or 312H, 112L, 315, 316, 218, 118L, 326 and 126L, 321, 331, 332, and 338W or 338H; and (c) Textiles and Apparel 205, 105L, 316Q, 219C and 119L, 325L, and 325M.

Students must earn a grade of at least C- in each mathematics and science course required for the degree, and a grade point average in these courses of at least 2.00.

To develop a meaningful and coherent degree program, the student should select courses with the assistance of faculty and academic advisers.

## Mathematics

Undergraduates seeking a Bachelor of Arts degree with a major in mathematics must choose either the standard option or the middle grades or secondary school teaching option.

*Major, standard option:* At least twenty-four semester hours of upper-division coursework in mathematics. Students must earn a grade of at least C- in each mathematics and science course required for the degree, and a grade point average in these courses of at least 2.00.

The student must complete the following:

1. Mathematics 408C and 408D
2. Mathematics 340L or 341
3. Mathematics 328K, 343K, or 373K
4. Mathematics 361K or 365C
5. Mathematics 362K
6. To broaden the student's training, at least one course chosen from the following: Mathematics 333L, 339J, 339U, 343L, 343M, 344K, 348, 358K, 361, 367K, 368K, 372K, 374M, 376C, 378K

*Major, options in mathematics for middle grades and secondary school teaching:* At least twenty-four semester hours of upper-division coursework in mathematics. Students must earn a grade of at least C- in each mathematics and science course required for the degree, and a grade point average in these courses of at least 2.00.

The teaching options are designed to give students the mathematical background appropriate for teaching middle grades and secondary school mathematics, but students must meet additional requirements, including grade point average requirements, to obtain certification. Lists of the combined requirements of the UTeach-Natural Sciences certification programs and these options are available from the UTeach-Natural Sciences (p. 486) academic adviser.

All students must complete the following:

1. Mathematics 408C and 408D
2. Mathematics 340L or 341
3. Mathematics 315C, 325K, 333L, 358K, and 362K
4. Mathematics 360M or 375D
5. Mathematics 361K or 365C
6. Mathematics 328K, 343K, or 373K

Students pursuing teacher certification through the UTeach-Natural Sciences program must also complete the following:

7. Biology 337 (Topic 2: *Research Methods: UTeach*), Chemistry 368 (Topic: *Research Methods—UTeach*), or Physics 341 (Topic: *Research Methods—UTeach*)
8. History 329U or Philosophy 329U
9. Eighteen semester hours of professional development coursework consisting of:
  - A. Curriculum and Instruction 650S
  - B. Curriculum and Instruction 365C or UTeach-Natural Sciences 350
  - C. Curriculum and Instruction 365D or UTeach-Natural Sciences 355
  - D. Curriculum and Instruction 365E or UTeach-Natural Sciences 360
  - E. UTeach-Natural Sciences 101, 110, and 170
10. For students seeking middle grades certification, the following courses: Educational Psychology 363M (Topic 3: Adolescent Development), or Psychology 301 and 304; and Curriculum and Instruction 339E

To graduate and be recommended for certification, students who follow the teaching option must have a University grade point average of at least 2.50. They must earn a grade of at least C- in the supporting course in requirement 8 and in each of the professional development courses listed in requirement 9 and must pass the final teaching portfolio review; those seeking middle grades certification must also earn a grade of at least C- in each of the courses listed in requirement 10. For information about the portfolio review and additional teacher certification requirements, students should consult the UTeach-Natural Sciences academic adviser.

## Physics

Students majoring in physics must complete Chemistry 301 or 301H, 302 or 302H, and 204.

*Major:* Physics 315, 115L, 355, and at least fifteen semester hours of upper-division coursework in physics, including Physics 336K, 352K, and 353L.

*First minor for physics majors:* Twelve semester hours of mathematics, of which six must be in upper-division coursework; the upper-division coursework must include three hours in differential equations.

*Second minor for physics majors:* Six semester hours, of which three must be in upper-division coursework, in any one of the following: biology, chemistry, geological sciences, philosophy, psychology; or in courses offered in the College of Education or the Cockrell School of Engineering. Courses used to fulfill specific degree requirements

other than the writing requirement may not also be used to fulfill this requirement.

Students must earn a grade of at least C- in each mathematics and science course required for the degree, and a grade point average in these courses of at least 2.00.

## Bachelor of Science in Astronomy

Astronomy tells us about the place of humankind in the universe: how Earth was created, how the Sun was formed, how galaxies form and evolve. It tells us where the universe is going and where it came from. Astronomers address these questions at a fundamental level. Their goal is to determine the basic and controlling properties of the universe and to transmit that knowledge to society. The Bachelor of Science in Astronomy is designed to give students an understanding of the universe and to prepare them to participate in the advancement of this exciting search.

Two options are available: astronomy and astronomy honors. Students who plan to follow option II, astronomy honors, must be admitted to the Dean's Scholars Honors Program (p. 481).

### Prescribed Work Common to all Options

All students pursuing an undergraduate degree must complete the University's Core Curriculum (p. 22). The core includes courses in language, literature, social sciences, natural sciences, and fine arts.

In addition, students seeking the Bachelor of Science in Astronomy must complete the following degree-level requirements. In some cases, courses that fulfill degree-level requirements also meet the requirements of the core.

1. Two courses with a writing flag. One of these courses must be upper-division. Courses with a writing flag are identified in the *Course Schedule* available at <http://registrar.utexas.edu/schedules>. They may be used simultaneously to fulfill other requirements, unless otherwise specified.
2. One of the following foreign language/culture choices. Students in option II are exempt from this requirement.
  - A. Second-semester-level proficiency, or the equivalent, in a foreign language.
  - B. First-semester-level proficiency, or the equivalent, in a foreign language and a three-semester-hour course in the culture of the same language area.
  - C. Two three-semester-hour courses in one foreign culture area. The courses must be chosen from an approved list available in the dean's office and the college advising centers.
3. At least thirty-six semester hours of upper-division coursework.
4. At least twenty-one hours of upper-division coursework, including at least twelve semester hours in physics and astronomy, must be completed in residence at the University.

## Additional Prescribed Work for Each Option

### Option I: Astronomy

5. Six semester hours in biology, chemistry, computer science, and/or geological sciences. Chemistry 301 or 301H and the courses in the Elements of Computing Certificate program may be counted toward this requirement; any other course to be counted must meet major requirements in the department that offers it.
6. Mathematics 408C and 408D, or the equivalent; and 427K, 427L, and 340L.
7. Physics 301, 101L, 315, 115L, 316, 116L, 336K, 352K, 353L, 355, 362K, 369, and 373.
8. Twelve semester hours of upper-division coursework in astronomy, including Astronomy 352K, 353, and 358. Astronomy 351 is recommended.
9. Nine additional semester hours of upper-division coursework in physics and/or astronomy.
10. Enough additional coursework to make a total of 123 semester hours.

### Option II: Astronomy Honors

5. Breadth requirement: An honors mathematics course, Chemistry 301H, and nine additional hours of coursework chosen from honors courses in the college. Credit earned by examination may not be counted toward this requirement.
6. Physics 301, 101L, 315, 115L, 316, and 116L.
7. Twelve semester hours of upper-division coursework in astronomy approved by the departmental honors adviser.
8. Nineteen semester hours of upper-division coursework in physics approved by the departmental honors adviser.
9. Three additional semester hours of upper-division coursework in astronomy or physics.
10. A section of Undergraduate Studies 302 or 303 that is approved by the departmental honors adviser.
11. A section of Rhetoric and Writing 309S that is restricted to Dean's Scholars.
12. Astronomy 379H and either a three-semester-hour upper-division research course approved by the departmental honors adviser or a second section of Astronomy 379H.
13. Fifteen additional hours of coursework approved by the departmental honors adviser.
14. Six semester hours of coursework in the College of Liberal Arts or the College of Fine Arts.
15. Enough additional coursework to make a total of 120 semester hours.

## Special Requirements

Students in both options must fulfill both the University's General Requirements (p. 18) for graduation and the college requirements (p. 483). They must also earn a grade of at least C- in each mathematics and science course required for the degree, and a grade point average in these courses of at least 2.00. More information about grades and the grade point average is given in *General Information* available at <http://registrar.utexas.edu/catalogs/>.

To graduate under option II, students must remain in good standing in the Dean's Scholars Honors Program, must earn grades of at least A- in the departmental research and thesis courses described in requirement 12 above, and must present their research in an approved public forum, such as the college's annual Undergraduate Research Forum.

## Bachelor of Science in Biochemistry

The degree of Bachelor of Science in Biochemistry is intended to prepare students for professional careers as chemists, either upon graduation or after graduate study in chemistry or related fields. In addition, it may serve as the basis for work in many areas outside pure chemistry, such as materials science, medicine and other health-related fields, pharmacology, patent law, business, and environmental science. The systems and synthetic biology option is intended to prepare students for professional and graduate programs by providing the quantitative and interdisciplinary skill sets necessary to understand biology from the level of molecules to the level of the organism. The honors option is intended to prepare students for academic or research careers.

Students who plan to follow option III, biochemistry honors, must be admitted to the Dean's Scholars Honors Program (p. 481).

## Prescribed Work Common to all Options

All students pursuing an undergraduate degree must complete the University's Core Curriculum (p. 22). The core includes courses in language, literature, social sciences, natural sciences, and fine arts.

In addition, students seeking the Bachelor of Science in Biochemistry must complete the following degree-level requirements. In some cases, courses that fulfill degree-level requirements also meet the requirements of the core.

1. Two courses with a writing flag. One of these courses must be upper-division. Courses with a writing flag are identified in the *Course Schedule* available at <http://registrar.utexas.edu/schedules>. They may be used simultaneously to fulfill other requirements, unless otherwise specified.
2. At least thirty-six semester hours of upper-division coursework.
3. At least twenty-one semester hours of upper-division coursework, including at least twelve semester hours of upper-division coursework in chemistry, must be completed in residence at the University.

## Additional Prescribed Work for Each Option

### Option I: Biochemistry

4. One of the following foreign language/culture choices:
  - A. Second-semester-level proficiency, or the equivalent, in a foreign language.
  - B. First-semester-level proficiency, or the equivalent, in a foreign language and a three-semester-hour course in the culture of the same language area.

- C. Two three-semester-hour courses in one foreign culture area. The courses must be chosen from an approved list available in the dean's office and the college advising centers.
5. Mathematics 408C and 408D, or 408N, 408S, and 408M; and at least three semester hours of upper-division coursework in mathematics or computer science.
  6. One of the following sequences: Physics 301, 101L, 316, and 116L; 303K, 103M, 303L, and 103N; 317K, 117M, 317L, and 117N.
  7. The following chemistry courses:
    - A. General chemistry: Chemistry 301 or 301H, 302 or 302H, and 204 or 317.
    - B. Organic chemistry: Chemistry 128K, 128L, 328M, and 328N; or 220C, 320M, and 320N.
    - C. Biochemistry: Chemistry 339K, 339L, 369L, and 370.
    - D. Physical chemistry: Chemistry 353 or 353M.
    - E. Analytical chemistry: Chemistry 455.
  8. Either Biology 311C, 311D, and 325 or Biology 315H and 325H; and nine additional semester hours in biology, chosen from the following courses. These nine hours must include at least three hours in each of the following areas; a single course may not fulfill this requirement in more than one area. A course may not count toward both requirement 8 and requirement 9.
    - A. Cellular and developmental biology: Biology 320, 226L and either 326M or 326R, 330, 331L, 335, 344, 346, 347, 349, 360K, 361, 365W
    - B. Physiology: Biology 328, 339, 345, 361T, 365R or 371M, 365S.
  9. At least six semester hours chosen from the following courses: Chemistry 431\*, 339J, 341\*, 354, 354L, 354S, 364C, 364D, 364E, 364F, 365D, 367C, 367L, 369K\*, 369T\*, 371K\*, 372C\*, 375K or 475K, and 376K\*. At least three of these hours must be in a laboratory course; courses marked with an asterisk fulfill this laboratory requirement. Three of these hours may come from the biology courses listed above in 8a. A course may not count toward both requirement 8 and requirement 9. No more than three semester hours in Chemistry 369K may be counted toward this requirement; three additional hours may be counted as electives. No more than three semester hours in Chemistry 371K may be counted toward this requirement; three additional hours may be counted as electives. No more than three semester hours of Chemistry 372C may be counted toward this requirement; three additional hours may be counted as electives.
  10. Enough additional coursework to make a total of 127 semester hours.
  5. Mathematics 408C and 408D, or 408N, 408S, and 408M; Statistics and Scientific Computation 321; and either Statistics and Scientific Computation 329C or Mathematics 340L or 341.
  6. One of the following sequences: Physics 301, 101L, 316, and 116L; 303K, 103M, 303L, and 103N; 317K, 117M, 317L, and 117N.
  7. Biology 311C, 311D, and 325, or Biology 315H and 325H.
  8. Six additional hours of upper-division biology chosen from the following: Biology 320, 226L\* and 326R, 330, 331L\*, 337, 344, 347, 349, and 360K\*. Courses marked with an asterisk (\*) may count toward the laboratory hours in requirement 10.
  9. Six additional hours of upper-division chemistry chosen from the following: Chemistry 128L\* and 328N, 341\*, 353 or 353M, 153K\*, 455\*, 369L\*, and 369T\*. Courses marked with an asterisk (\*) may count toward the laboratory hours in requirement 10.
  10. Of the twelve upper-division hours used to satisfy requirement 8 and requirement 9, at least six hours must be laboratory-based courses.
  11. Systems and Synthetic Biology 339J, 339Q, and 364C.
  12. One of the following sequences:
    - A. Computer Science 303E and nine hours chosen from: Computer Science 313E, 320N, 324E, 326E, 327E, and 329E.
    - B. Computer Science 312 and nine hours chosen from: Computer Science 313K, 314, and an upper-division computer science course. (Note: Students seeking a more rigorous foundation in computer science are encouraged to choose sequence b.)
  13. Six hours of Biology 377 or Chemistry 369K or another approved independent research course.
  14. Enough additional coursework to make a total of 127 semester hours.

### Option III: Biochemistry Honors

4. Breadth requirement: An honors mathematics course, Biology 315H and 325H, Chemistry 301H and 302H, and three additional semester hours of coursework chosen from honors courses in the college. Credit earned by examination may not be counted toward this requirement.
5. The following chemistry courses:
  - A. General chemistry: Chemistry 204 or 317.
  - B. Organic chemistry: Chemistry 128K, 128L, 328M, and 328N; or 220C, 320M, and 320N.
  - C. Biochemistry: Chemistry 339K, 339L, 369L, and 370.
  - D. Physical chemistry: Chemistry 353 or 353M.
  - E. Analytical chemistry: Chemistry 455.
6. A section of Undergraduate Studies 302 or 303 that is approved by the departmental honors adviser.
7. A section of Rhetoric and Writing 309S that is restricted to Dean's Scholars.
8. Chemistry 379H and either a three-semester-hour upper-division research course approved by the departmental honors adviser or a second section of Chemistry 379H.

### Option II: Systems and Synthetic Biology

4. The following chemistry courses:
  - A. General chemistry: Chemistry 301 or 301H, 302 or 302H, and 204 or 317.
  - B. Organic chemistry: Chemistry 128K and 328M.
  - C. Biochemistry: Chemistry 339K and 370.

9. Twenty-eight additional semester hours of coursework approved by the departmental honors adviser.
10. Six semester hours of coursework in the College of Liberal Arts or the College of Fine Arts.
11. Enough additional coursework to make a total of 120 semester hours.

## Special Requirements

Students in all options must fulfill both the University's General Requirements (p. 18) for graduation and the college requirements (p. 483). They must also earn a grade of at least C- in each mathematics and science course required for the degree, and a grade point average in these courses of at least 2.00. More information about grades and the grade point average is given in *General Information* available at <http://registrar.utexas.edu/catalogs/>.

To graduate under option III, students must remain in good standing in the Dean's Scholars Honors Program, must earn grades of at least A- in the departmental research and thesis courses described in requirement 8 above, and must present their research in an approved public forum, such as the college's annual Undergraduate Research Forum.

## Order and Choice of Work

The student must consult the undergraduate adviser each semester regarding order and choice of work.

## Bachelor of Science in Biology

The Bachelor of Science in Biology degree program offers ten options. The options have certain prescribed work in common, and each option has additional requirements. Many fields in the study of biological systems require broadly based training that transcends the classical boundaries of biology. In planning a program of work to meet his or her degree requirements, a student interested in specializing in these interdisciplinary areas should choose courses both in biology and in sciences that complement biology. Students who plan to complete the program within four years will have little flexibility in course selection unless they plan a schedule in advance. More information is given in Order and Choice of Work (p. 497) below.

Students who plan to follow option IX, biology honors, must be admitted to the Dean's Scholars Honors Program (p. 481).

## Prescribed Work Common to All Options

All students pursuing an undergraduate degree must complete the University's Core Curriculum (p. 22). The core includes courses in language, literature, social sciences, natural sciences, and fine arts.

In addition, students seeking the Bachelor of Science in Biology must complete the following degree-level requirements. In some cases, courses that fulfill degree-level requirements also meet the requirements of the core.

1. Two courses with a writing flag. One of these courses must be upper-division. Courses with a writing flag are identified in the *Course Schedule*. They may be used simultaneously to fulfill other requirements, unless otherwise specified.

2. Options I–VII and X: One of the following foreign language/culture choices. Students in options VIII and IX are exempt from this requirement.
  - A. Second-semester-level proficiency, or the equivalent, in a foreign language.
  - B. First-semester-level proficiency, or the equivalent, in a foreign language and a three-semester-hour course in the culture of the same language area.
  - C. Two three-semester-hour courses in one foreign culture area. The courses must be chosen from an approved list available in the dean's office and the college advising centers.
3. At least twenty-four semester hours of upper-division coursework beyond Biology 325 in biology and approved related fields, including at least one course from each of the following areas. In most options, the student must use specific courses to meet this requirement; these courses are listed in Additional Prescribed Work for Each Option (p. 493).
  - A. Cellular, developmental, and molecular biology: Biology 320, 326R, 344, 349.
  - B. Physiology and neurobiology: Biology 328, 361T, 365R, 365S.
  - C. Ecology, evolution, and behavior: Biology 357, 359K, 370, 373.
4. At least twenty-one semester hours of upper-division coursework in biology must be completed in residence at the University. All students must complete at least thirty-six semester hours of upper-division coursework.

## Additional Prescribed Work for Each Option

### Option I: Ecology, Evolution, and Behavior

5. Mathematics 408C and 408D, or 408N and 408S.
6. An eight-semester-hour sequence of coursework in physics chosen from the following: Physics 301, 101L, 316, and 116L; 317K, 117M, 317L, and 117N; 303K, 103M, 303L, and 103N; 302K, 102M, 302L, and 102N.
7. Chemistry 301 or 301H, 302 or 302H, and 204.
8. Either Biology 311C, 311D, and 325 or Biology 315H and 325H. These courses must be completed before the student progresses to other upper-division biology courses.
9. At least four laboratory courses in biology. Three of these courses must be upper-division. One of the four courses must have a field component; the following courses may be used to meet this requirement: Biology 321L, 340L, 453L, 354L, 455L, 456L, 369L, 373L, Marine Science 352D, 354, 354C.
10. Biology 328M and three hours of coursework chosen from the following: Chemistry 320M, computer science courses at the level of Computer Science 303E or 313E, Geological Sciences 401 or 303, and upper-division mathematics courses.
11. In fulfilling requirement 3 above, the student must complete the following courses. No single course may be used to meet more than one of these requirements.
  - A. Ecology: Biology 357, 373, or Marine Science 320.
  - B. Evolution: Biology 370.

- C. Behavior and comparative physiology: Biology 322 and 122L, 359K, or 361T.
  - D. One of the following taxon-based diversity courses or pairs of courses: Biology 321L, 324 and 124L, 327 and 127L, 340L, 342L, 448L, 352, 353F, 453L, 354L, 455L, 262, 262L, 369L, Marine Science 352D, 354, 354C, 354E.
  - E. Six additional hours chosen from the following:
    - i Evolution: Biology 458L, 363, 472L, 374 and 174L, 478L.
    - ii Ecology: Biology 456L, 364, 364E, 373L, Marine Science 120L, 352C.
    - iii Behavior: Biology 438L, 359J, 359R.
    - iv Conservation biology: Biology 359, 375, Marine Science 354Q.
12. Enough additional coursework to make a total of 126 semester hours.

## Option II: Human Biology

- 5. Mathematics 408C and 408D, or 408N and 408S.
  - 6. An eight-semester-hour sequence of coursework in physics chosen from the following: Physics 301, 101L, 316, and 116L; 317K, 117M, 317L, and 117N; 303K, 103M, 303L, and 103N; 302K, 102M, 302L, and 102N.
  - 7. Chemistry 301 or 301H, 302 or 302H, and 204.
  - 8. Either Biology 311C, 311D, and 325 or Biology 315H and 325H. These courses must be completed before the student progresses to other upper-division biology courses.
  - 9. At least four laboratory courses in biology and related fields. Three of these courses must be upper-division. The student must complete Biology 206L or 208L. Anthropology 432L, Kinesiology 324K and Marine Science 120L may be counted toward this requirement, but the student must complete at least one upper-division laboratory course in biology.
  - 10. Biology 328M and Chemistry 220C, 320M, and 320N.
  - 11. In fulfilling requirement 3 above, the student must complete Biology 346, at least six semester hours in area a below, and at least three hours each in areas b through e.
    - A. Cellular and molecular biology: Biology 320, 320L, 323L, 325L, 325T, 226L and 326R, 344.
    - B. Anatomy: Anthropology 432L, Biology 446L, 478L, Kinesiology 324K.
    - C. Physiology: Biology 361T, 365R, 365S.
    - D. Behavior and psychology: Biology 359K, 359R, Psychology 332.
    - E. Evolution and ecology: Biology 357, 364, 370, 373.
  - 12. In fulfilling requirement 3 above, the student must complete at least fifteen semester hours of coursework, including at least nine hours of upper-division work, in one of the following concentrations. A course counted toward requirement 11 may not also be counted toward requirement 12.
    - A. Cellular, molecular, and developmental biology: Chemistry 369 and twelve hours chosen from the following courses: Biology 320L, 323L, 325T, 226L, 326R, 328D, 330, 230L, 331L, 332, 337 (Topic: *Genomics*), 337 (Topic: *Epigenetics*), 339M, 345, 349, 349L, 365N, 366R, 379J.
    - B. Genetics and biotechnology: Chemistry 369 and twelve hours chosen from the following courses: Biology 325L, 325T, 226L, 326R, 335, 337 (Topic: *Genomics*), 337 (Topic: *Emerging Infectious Disease*), 337 (Topic: *Epigenetics*), 347, 366, 366R, Philosophy 325M.
    - C. Pathogenesis and immunity: Chemistry 369 and twelve hours chosen from the following courses: Biology 226L, 326R, 330, 230L, 332, 336, 337 (Topic: *Emerging Infectious Disease*), 339M, 347, 360K, 160L, 360M, 361, 361L, 365T.
    - D. Social aspects of health and disease: Chemistry 369, Geography 357, Pharmacy 350K, Philosophy 325M, Sociology 319, 330C, 336C, 336D, 354K, 358D, 369K (Sociology 319 and 369K may not both be counted in the concentration).
    - E. Problems of developing countries: Biology 351, Geography 340D, 342C, 346, 356, 356T (Topic: *Global Societies*), 357, 358, Sociology 319, 324K, 340C, 346, 369K, 369L. (Sociology 319 and 369K may not both be counted in the concentration).
    - F. Human impact on the environment: Biology 359, 373, 373L, 375, 478T, Geography 334, 335N, 336C, 346, 356T (Topic: *Environment, Development, and Food Production*), 366K, 367K, Marine Science 320, 120L, 354Q, Philosophy 325C, Sociology 319.
13. Biology 137 (Topic 1: *Senior Seminar in Human Biology*), completed on the pass/fail basis in the student's senior year.
14. Enough additional coursework to make a total of 126 semester hours.

## Option III: Marine and Freshwater Biology

- 5. Mathematics 408C and 408D, or 408N and 408S.
- 6. An eight-semester-hour sequence of coursework in physics chosen from the following: Physics 301, 101L, 316, and 116L; 317K, 117M, 317L, and 117N; 303K, 103M, 303L, and 103N; 302K, 102M, 302L, and 102N.
- 7. Chemistry 301 or 301H, 302 or 302H, 204, 220C, 320M, and 320N.
- 8. Either Biology 311C, 311D, and 325 or Biology 315H and 325H. These courses must be completed before the student progresses to other upper-division biology courses.
- 9. At least four laboratory courses in biology. Three of these courses must be upper-division. The student must complete Biology 206L or 208L.
- 10. Biology 328M.
- 11. Geological Sciences 307 or Marine Science 307; Biology 101C (Topic: *Marine Science Seminar*); and three semester hours in geological sciences, chosen from courses that may be counted toward the requirements for a major in geological sciences.
- 12. In fulfilling requirement 3 above, the student must complete the following courses.
  - A. Biology 226L and 326R.

- B. Marine Science 320 and 120L.
- C. At least twenty-one semester hours of coursework chosen from the following: Biology 321L, 327, 127L, 328, 128L, 354L, 361T, 370, 375, Geological Sciences 422K, Marine Science 440, 352C, 352D, 353 (Topic 17: *Marine Fish Physiology*), 354C, 354Q, 354T, 354U, 367K, 170, 270, 370, Biology 448L or Marine Science 354, Biology 364 or Marine Science 354E. Six hours of this coursework must be completed at the Marine Science Institute at Port Aransas.

- 13. Enough additional coursework to make a total of 126 semester hours.

### Option IV: Microbiology and Infectious Diseases

- 5. Mathematics 408C and 408D, or 408N and 408S.
- 6. An eight-semester-hour sequence of coursework in physics chosen from the following: Physics 301, 101L, 316, and 116L; 317K, 117M, 317L, and 117N; 303K, 103M, 303L, and 103N; 302K, 102M, 302L, and 102N.
- 7. Chemistry 301 or 301H, 302 or 302H, 204, and an organic chemistry/biochemistry series chosen from the following: Chemistry 220C, 320M, 320N, and 369; or 320M, 320N, 339K and 339L.
- 8. Biology 311C, 311D, and 325 or Biology 315H and 325H. These courses must be completed before the student progresses to other upper-division biology courses.
- 9. Biology 206L.
- 10. Two upper division biology laboratory courses, one of which must be chosen from Biology 230L, 160L, and 361L. Biology 377/379H may be used for the second course if approved in advance by the microbiology faculty adviser. Biology 226L may not be counted toward requirement 10.
- 11. In fulfilling requirement 3 above, the student must complete the following courses: Biology 226L, 326R or 326M, 328M, 330, 339, 360K, 366, 370, and 320 or 332 or 344.
- 12. Enough additional coursework to make a total of 126 semester hours.

### Option V: Cell and Molecular Biology

- 5. Mathematics 408C and 408D, or 408N and 408S.
- 6. An eight-semester-hour sequence of coursework in physics chosen from the following: Physics 301, 101L, 316, and 116L; 317K, 117M, 317L, and 117N; 303K, 103M, 303L, and 103N.
- 7. Chemistry 301 or 301H, 302 or 302H, 204, 220C, 320M, 320N, and either 339K and 339L or 369 and 353M.
- 8. Either Biology 311C, 311D, and 325 or Biology 315H and 325H. These courses must be completed before the student progresses to other upper-division biology courses.
- 9. At least four laboratory courses in biology. Three of these courses must be upper-division.
- 10. In fulfilling requirement 3 above, the student must complete the following courses.
  - A. Biology 320 and 344.
  - B. Biology 226L, 326R, 349, 370, and one of the following: 320L, 331L, 349L.

- C. Biology 328, 365R, or 365S.
- D. At least six semester hours chosen from the following: Biology 328M, 323L, 325L, 329, 129L, 330, 230L, 332, 333, 335, 336, 337J, 339, 339M, 343M, 345, 347, 349L, 350M, 360K, 160L, 360M, 365D, 365L, 365N, 365T, 365W, 366, 366R.

- 11. Enough additional coursework to make a total of 126 semester hours.

### Option VI: Neurobiology

- 5. Mathematics 408C and 408D, or 408N and 408S.
- 6. An eight-semester-hour sequence of coursework in physics chosen from the following: Physics 301, 101L, 316, and 116L; 317K, 117M, 317L, and 117N; 303K, 103M, 303L, and 103N; 302K, 102M, 302L, and 102N.
- 7. Chemistry 301 or 301H, 302 or 302H, 204, 220C, 320M, and 320N.
- 8. Either Biology 311C, 311D, and 325 or Biology 315H and 325H. These courses must be completed before the student progresses to other upper-division biology courses.
- 9. At least four laboratory courses in biology. The student must complete Biology 206L, and at least nine semester hours chosen from the following courses: Biology 320L, 325L, 331L, 365L, 366L, 366P, 366S, 371L, 478L, Electrical Engineering 374L.
- 10. In fulfilling requirement 3 above, the student must complete the following courses.
  - A. Biology 320, 344, 349, 370, and 365R.
  - B. Six semester hours chosen from the following courses: Biology 359K, 365D, 365N, 365T, 365W, 366C, 366D, 366F, Psychology 353K.
  - C. Six semester hours chosen from the following courses: Biology 328M, 321G, 337J, 465M, Chemistry 353 or 353M, 354, 369 or both 339K and 339L, 370, Computer Science 313E, 323E, 324E, 326E, 327E, Electrical Engineering 411, 313, 325, 438, 338K, 351K, 374K.
  - D. Three additional semester hours chosen from the following courses: Computer Science 303E, Psychology 308, 332, 353K.

- 11. Enough additional coursework to make a total of 126 semester hours.

### Option VII: Plant Biology

- 5. Mathematics 408C and 408D, or 408N and 408S.
- 6. An eight-semester-hour sequence of coursework in physics chosen from the following: Physics 301, 101L, 316, and 116L; 317K, 117M, 317L, and 117N; 303K, 103M, 303L, and 103N; Physics 302K, 102M, 302L, and 102N.
- 7. Chemistry 301 or 301H, 302 or 302H, 204, 220C, 320M, and 320N.
- 8. Either Biology 311C, 311D, and 325 or Biology 315H and 325H. These courses must be completed before the student progresses to other upper-division biology courses.

9. At least four laboratory courses in biology. Three of these courses must be upper-division. The student must complete Biology 206L or 208L. Biology 177, 277, or 377 may be counted only once toward the laboratory requirement.
10. In fulfilling requirement 3 above, the student must complete at least twenty-four hours of coursework chosen from the following: Biology 320, 320L, 322 and 122L, 323L, 324 and 124L, 327 and 127L, 328, 128L, 331L, 343M, 350M, 351, 262 and 262L, 363, 370, 472L, 373, 373L, 374 and 174L, 375.
11. Eleven additional semester hours of upper-division coursework in the College of Natural Sciences or the Jackson School of Geosciences. A course may not be counted toward this requirement if it does not fulfill major requirements in the department that offers it.
12. Enough additional coursework to make a total of 126 semester hours.

## Option VIII: Teaching

This option is designed to fulfill the course requirements for certification as a middle grades or secondary school science teacher in Texas; the student chooses either composite science certification with biology as the primary teaching field or life science certification. However, completion of the course requirements does not guarantee the student's certification. Information about additional certification requirements is available from the UTeach-Natural Sciences academic adviser.

5. Mathematics 408C and 408D, or 408N and 408S.
6. An eight-semester-hour sequence of coursework in physics chosen from the following: Physics 301, 101L, 316, and 116L; 317K, 117M, 317L, and 117N; 303K, 103M, 303L, and 103N; 302K, 102M, 302L, and 102N.
7. Chemistry 301 or 301H, 302 or 302H, 204, and either Chemistry 320M, 320N, and 220C or 320M and 369.
8. Either Biology 311C, 311D, and 325 or Biology 315H and 325H. These courses must be completed before the student progresses to other upper-division biology courses.
9. At least four laboratory courses in biology. Three of these courses must be upper-division. The student must complete Biology 206L or 208L.
10. In fulfilling requirement 3 above, the student must complete the following courses:
  - A. Biology 320, 226L, 326R, 370, and either 324 and 124L or 322 and 122L.
  - B. At least three semester hours chosen from the following courses in physiology, neurobiology, and behavior: Biology 322, 122L, 328, 328D, 128L, 329, 129L, 438L, 339, 345, 359J, 359K, 359R, 360K, 160L, 361, 361L, 361T, 365L, 465M, 365N, 365R, 365S, 371L.
  - C. One of the following courses with a substantial field component: Biology 321L, 340L, 342L, 453L, 455L, 456L, 373L, Marine Science 352D, 354, 354C.
11. One of the following research methods courses: Biology 328D, 337 (Topic 2: *Research Methods: UTeach*), Chemistry 368 (Topic 1: *Research Methods: UTeach*), Physics 341 (Topic 7: *Research Methods: UTeach*).
12. History 329U or Philosophy 329U.
13. One of the following:

- A. For composite science certification: Six semester hours of coursework in geological sciences. Courses intended for nonscience majors may not be counted toward this requirement. The remaining composite certification content requirements are met by the chemistry and physics courses used to fulfill requirements 6 and 7.
  - B. For life science certification: Biology 373, and three additional semester hours of biology chosen from the courses listed in requirement 10b.
14. Eighteen semester hours of professional development coursework consisting of:
    - A. Curriculum and Instruction 650S.
    - B. Curriculum and Instruction 365C or UTeach-Natural Sciences 350.
    - C. Curriculum and Instruction 365D or UTeach-Natural Sciences 355.
    - D. Curriculum and Instruction 365E or UTeach-Natural Sciences 360.
    - E. UTeach-Natural Sciences 101, 110, and 170.
  15. Students seeking middle grades certification must complete the following courses: Educational Psychology 363M (Topic 3: Adolescent Development), or Psychology 301 and 304; and Curriculum and Instruction 339E.
  16. Enough additional coursework to make a total of 126 semester hours.

## Option IX: Biology Honors

5. Breadth requirement: An honors mathematics course; Biology 315H and 325H; Chemistry 301H and 302H; and one of the following: a three-hour honors-designated computer science course; a three-hour honors-designated statistics course; Physics 301 and 101L; Physics 315 and 115L; or Physics 316 and 116L. Credit earned by examination may not be counted toward this requirement.
6. An eight-semester-hour sequence of coursework in physics chosen from the following: Physics 301, 101L, 316, and 116L; 317K, 117M, 317L, and 117N; 303K, 103M, 303L, and 103N. Courses used to satisfy this requirement may also be counted toward requirement 5.
7. Chemistry 204, 128K, 128L, 328M, and 328N.
8. In fulfilling requirement 3 above, the student must complete Biology 320 or 344, 349, 365R, 370, and at least twelve additional semester hours of upper-division coursework in biology chosen from a list available in the student's advising office. Six semester hours of thesis coursework may be counted toward the twelve semester hours of upper-division biology.
9. Three upper-division laboratory courses in biology. Biology 377 or 379H may be used as only one of the three required upper-division laboratory courses. Courses used to fulfill this requirement may also be counted toward requirement 8.
10. A section of Undergraduate Studies 302 or 303 that is approved by the departmental honors adviser.
11. A section of Rhetoric and Writing 309S that is restricted to Dean's Scholars.
12. Two semesters of Biology 379H.

13. Fifteen additional semester hours of coursework approved by the departmental honors adviser.
14. Six semester hours of coursework in the College of Liberal Arts or the College of Fine Arts.
15. Enough additional coursework to make a total of 120 semester hours.

### Option X: Computational Biology

5. Mathematics 408C and 408D, or 408N, 408S, and 408M; Statistics and Scientific Computation 329C or Mathematics 340L or 341; Mathematics 362K; and Mathematics 358K or 378K or Statistics and Scientific Computation 321 or 325H or 328M, or Biology 328M.
6. Computer Science 303E; Computer Science 313E or Statistics and Scientific Computation 222; and one of the following courses: Computer Science 323E, 323H, 324E, 327E, 329E, 337, 367, Statistics and Scientific Computation 329D, 335, 374D, 374E, Mathematics 348, 372K, 376C.
7. An eight-semester-hour sequence of coursework in physics chosen from the following: Physics 301, 101L, 316, and 116L; 317K, 117M, 317L, and 117N; 303K, 103M, 303L, and 103N.
8. Chemistry 301 or 301H, 302 or 302H, and 204.
9. Either Biology 311C, 311D, and 325 or Biology 315H and 325H. These courses must be completed before the student progresses to other upper-division biology courses.
10. In fulfilling requirement 3 above, the student must complete Biology 321G, 370, and six additional hours of upper-division coursework in biology.
11. At least four laboratory courses in biology. Three of these courses must be upper-division. Biology 321G fulfills one of these upper-division requirements.
12. Enough additional coursework to make a total of 126 semester hours.

### Special Requirements

Students in all options must fulfill both the University's General Requirements (p. 18) for graduation and the college requirements (p. 483). They must also earn a grade of at least C- in each mathematics and science course required for the degree, and a grade point average in these courses of at least 2.00. More information about grades and the grade point average is given in *General Information*.

To graduate and be recommended for certification, students who follow the teaching option must have a University grade point average of at least 2.50. They must earn a grade of at least C- in the supporting course in requirement 12, and in each of the professional development courses listed in requirement 14 and must pass the final teaching portfolio review; those seeking middle grades certification must also earn a grade of at least C- in each of the courses listed in requirement 15. For information about the portfolio review and additional teacher certification requirements, students should consult the UTeach-Natural Sciences academic adviser.

To graduate under the honors option, students must remain in good standing in the Dean's Scholars Honors Program, must submit an honors thesis approved by the departmental honors adviser, and

must present their research in an approved public forum, such as the college's annual Undergraduate Research Forum.

### Order and Choice of Work

Students begin the Bachelor of Science in Biology degree program with six hours of introductory biology for science majors (Biology 311C and 311D), as well as Chemistry 301 or 301H and 302 or 302H and Mathematics 408C and 408D or 408N and 408S. The genetics course, Biology 325, is prerequisite to other upper-division biology courses. Students should consult with academic advisers about specific concentrations within biology, about appropriate courses in mathematics and physical sciences, and about course load and the balance between laboratory and nonlaboratory work. Most students select an option by the end of the second year and take at least twenty-one hours of upper-division coursework in the major in the third and fourth years.

### Bachelor of Science in Chemistry

Four degree plans lead to the Bachelor of Science in Chemistry. Option I, chemistry, is intended to prepare students for professional careers as chemists, either upon graduation or after graduate study in chemistry or related fields. Option II, computation, is intended to prepare students for the workplace by giving them opportunities to develop hands-on computation skills. Option III, teaching, is intended to prepare students to enter the teaching profession. Option IV, chemistry honors, is intended to prepare students for academic or research careers. Students who plan to follow option IV must be admitted to the Dean's Scholars Honors Program (p. 481).

The four degree plans may also serve as the basis for work in many areas outside pure chemistry, such as materials science, medicine and other health-related fields, pharmacology, patent law, business, computation, or environmental science. After general chemistry courses, depending on his or her background, the student makes an intensive core study of some of the major areas of chemistry—organic, physical, inorganic, and analytical chemistry. The chemistry coursework in these degree plans culminates in approximately three semesters of advanced work, allowing each student to study more broadly by taking courses in some areas of chemistry not covered in the core courses, such as macromolecular chemistry, biochemistry, or other areas of physical chemistry, or more deeply by taking advanced special topics courses in areas of special interest and by undertaking research projects. Throughout the curricula, emphasis is placed on laboratory experience—synthesis, separations and analysis, structure identification and determination, measurement of rates of reactions, determinations of energy changes accompanying reactions. Supporting work in mathematics and physics is an integral part of the degree programs. Compared to the program leading to the Bachelor of Arts degree, the Bachelor of Science in Chemistry degree programs are more thorough and demanding and potentially more rewarding to the student planning a career in chemistry.

### Prescribed Work Common to All Options

All students pursuing an undergraduate degree must complete the University's Core Curriculum (p. 22). The core includes courses in language, literature, social sciences, natural sciences, and fine arts.

In addition, students seeking the Bachelor of Science in Chemistry must complete the following degree-level requirements. In some cases, courses that fulfill degree-level requirements also meet the requirements of the core.

- Two courses with a writing flag. One of these courses must be upper-division. Courses with a writing flag are identified in the *Course Schedule* available at <http://registrar.utexas.edu/schedules>. They may be used simultaneously to fulfill other requirements, unless otherwise specified.
- Options I and II: One of the following foreign language/culture choices. Students in options III and IV are exempt from this requirement.
  - Second-semester-level proficiency, or the equivalent, in a foreign language.
  - First-semester-level proficiency, or the equivalent, in a foreign language and a three-semester-hour course in the culture of the same language area.
  - Two three-semester-hour courses in one foreign culture area. The courses must be chosen from an approved list available in the dean's office and the college advising centers.
- The following courses:
  - General chemistry: Chemistry 301 or 301H, 302 or 302H, and 317.
  - Organic chemistry: Chemistry 128K, 128L, 328M, and 328N; or 220C, 320M, and 320N.
  - Biochemistry: Chemistry 339K or 369.
  - Physical chemistry: Chemistry 353, 153K, 154K, and either 354 or 354L.
  - Inorganic chemistry: Chemistry 431.
  - Analytical chemistry: Chemistry 456 and 376K.
- Thirty-six semester hours of upper-division coursework.
- At least twenty-one semester hours of upper-division coursework, including at least twelve semester hours of upper-division coursework in chemistry, must be completed in residence at the University.

## Additional Prescribed Work for Each Option

### Option I: Chemistry

- Mathematics 408C and 408D, or 408N, 408S, and 408M; and at least three semester hours of upper-division coursework in mathematics or computer science.
- One of the following sequences: Physics 301, 101L, 316, and 116L; 303K, 103M, 303L, and 103N; 317K, 117M, 317L, and 117N.
- Six semester hours chosen from the following courses: Chemistry 339J, 339L, 341, \* 354, 354L, 354S, 364C, 364D, 364E, 364F, 365D, 367C, 367L, 368, 369K, \* 369L, \* 370, 371K, \* 372C, \* 375K, and 475K. At least three of these six hours must be in a laboratory course; courses marked with an asterisk (\*) may be used to fulfill this laboratory requirement. Chemistry 341 and 368 may be repeated for credit toward this requirement when the topics vary. No more than three semester hours in Chemistry 369K may be counted toward this requirement; three additional hours may be counted as electives. No more than

three semester hours in Chemistry 371K may be counted toward this requirement; three additional hours may be counted as electives. No more than three hours in Chemistry 372C may be counted toward this requirement; three additional hours may be counted as electives.

- Nine semester hours of coursework in the College of Natural Sciences (excluding chemistry), the Cockrell School of Engineering, and the Jackson School of Geosciences. Any course designed for science or engineering majors may be counted. With the exception of courses in the Elements of Computing Certificate program, a course may not be used to fulfill this requirement if it cannot be counted toward major requirements in the department that offers it. No more than six hours of laboratory or field research from the Jackson School or any department in the College of Natural Sciences or the Cockrell School may be counted.
- Enough additional coursework to make a total of 127 semester hours.

### Option II: Computation

Students who complete option II may simultaneously fulfill some of the requirements of the Certificate in Scientific Computation (p. 485).

- Mathematics 408C and 408D, or 408N, 408S, and 408M; and Statistics and Scientific Computation 329C or Mathematics 340L or 341.
- One of the following sequences: Physics 301, 101L, 316, and 116L; 303K, 103M, 303L, and 103N; 317K, 117M, 317L, and 117N.
- Chemistry 368 (Topic: *Computational Chemistry*).
- At least three semester hours chosen from the following laboratory courses: Chemistry 341, 369K, 369T, and 371K.
- Statistics and Scientific Computation 222 and three of the following courses. The student must complete coursework from at least two of the following areas.
  - Numerical methods: Chemical Engineering 348, Computer Science 323E, 323H, 367, Mathematics 348, Statistics and Scientific Computation 335.
  - Statistical methods: Biomedical Engineering 335, Mathematics 358K, 378K.
  - Other computing topics: Computer Science 324E, 327E, 329E (approved topics), 377, Mathematics 346, 362M, 368K, 372K, 376C, Mechanical Engineering 367S, Statistics and Scientific Computation 329D, 374C, 374D, 374E.
- Enough additional coursework to make a total of 127 semester hours.

### Option III: Teaching

This option is designed to fulfill the course requirements for certification as a middle grades or secondary school science teacher in Texas; the student chooses one of the following areas: composite science certification with chemistry as the primary teaching field; physical sciences certification; or physical science, mathematics, and engineering certification. However, completion of the course requirements does not guarantee the student's certification.

Information about additional teacher certification requirements is available from the UTeach-Natural Sciences academic adviser.

6. Mathematics 408C and 408D, or 408N, 408S, and 408M.
7. History 329U or Philosophy 329U.
8. One of the following sequences:
  - A. For students seeking composition science certification: Physics 301, 101L, 316, and 116L; or 303K, 103M, 303L, and 103N; or 317K, 117M, 317L, and 117N.
  - B. For students seeking either physical sciences certification or, mathematics, physical science, and engineering certification: Physics 301, 101L, 316, 116L, 315, and 115L; or 303K, 103M, 303L, 103N, 315, and 115L.
9. The requirements of one of the following certification areas:
  - A. For composite science certification:
    - i Biology 311C and 311D.
    - ii Six hours of coursework in geological sciences; courses intended for non-science majors may not be counted toward this requirement.
    - iii Enough additional approved coursework in biology, geological sciences, or physics to provide the required twelve hours in a second field.
    - iv Chemistry 368 (Topic 1: *Research Methods: UTeach*) or, with the consent of the UTeach-Natural Sciences academic adviser, an upper-division chemistry course that includes a substantial research component.
    - v In place of requirements 3c through 3f of the prescribed work above, the following courses, for a total of at least thirty-four semester hours of chemistry: Chemistry 339K and 339L, or 369; 353; and 455 or 456.
  - B. For physical sciences certification:
    - i Mathematics 427K and 427L.
    - ii Chemistry 153K, 354L, and 154K.
    - iii Chemistry 354 and three hours of upper-division coursework in physics.
    - iv Chemistry 368 (Topic 1: *Research Methods: UTeach*) or, with the consent of the UTeach-Natural Sciences academic adviser, an upper-division chemistry course that includes a substantial research component.
    - v In place of requirements 3c through 3f of the prescribed work above, the following courses, for a total of at least thirty-four semester hours of chemistry: Chemistry 339K and 339L, or 369; 353, and 455 or 456.
  - C. For mathematics, physical science, and engineering certification:
    - i Mathematics 315C, 360M or 375D (Topic: *Discovery: Introduction to Advanced Study in Mathematics*), 427K, and 333L.
    - ii Chemical Engineering 379 (Topic: *Fundamentals of Engineering and Design*), 379 (Topic: *Engineering Energy Systems*), and Mechanical Engineering 379M (Topic: *Design of Machines and Systems*).

- iii Chemistry 368 (Topic 1: *Research Methods: UTeach*) or, with the consent of the UTeach-Natural Sciences academic adviser, an upper-division chemistry course that includes a substantial research component.
- iv In place of requirements 3c through 3f of the prescribed work above, the following courses, for a total of at least thirty semester hours in chemistry: Chemistry 353 and 153K, 455, and 369.

10. Eighteen semester hours of professional development coursework consisting of:
  - a. Curriculum and Instruction 650S.
  - b. Curriculum and Instruction 365C or UTeach-Natural Sciences 350.
  - c. Curriculum and Instruction 365D or UTeach-Natural Sciences 355.
  - d. Curriculum and Instruction 365E or UTeach-Natural Sciences 360.
  - e. UTeach-Natural Sciences 101, 110, and 170.
11. Students seeking middle grades certification must complete the following courses: Educational Psychology 363M (Topic 3: *Adolescent Development*), or Psychology 301 and 304; and Curriculum and Instruction 339E.
12. Enough additional coursework, if needed, to make a total of 126 semester hours.

## Option IV: Chemistry Honors

6. Breadth requirement: An honors mathematics course, Chemistry 301H and 302H, Physics 301, 101L, 316, and 116L, and a three-semester-hour honors course in biology or computer science. Credit earned by examination may not be counted toward this requirement.
7. Chemistry 317.
8. A section of Undergraduate Studies 302 or 303 that is approved by the departmental honors adviser.
9. A section of Rhetoric and Writing 309S that is restricted to Dean's Scholars.
10. Chemistry 379H and a three-semester-hour upper-division research course approved by the departmental honors adviser, or six hours of Chemistry 379H.
11. Twenty-two additional hours of coursework approved by the departmental honors adviser.
12. Six semester hours of coursework in the College of Liberal Arts or the College of Fine Arts.
13. Enough additional coursework to make a total of 120 semester hours.

## Special Requirements

Students in all options must fulfill both the University's General Requirements (p. 18) for graduation and the college requirements (p. 483). They must also earn a grade of at least C- in each mathematics and science course required for the degree, and a grade point average in these courses of at least 2.00. More information about grades and the grade point average is given in *General Information* (<http://catalog.utexas.edu/general-information>).

To graduate and be recommended for certification, students who follow the teaching option must have a University grade point average of at least 2.50. They must earn a grade of at least C- in the supporting course in requirement 7, and each of the professional development courses listed in requirement 10 and must pass the final teaching portfolio review; those seeking middle grades certification must also earn a grade of at least C- in each of the courses listed in requirement 11. For information about the portfolio review and additional teacher certification requirements, consult the UTeach-Natural Sciences academic adviser.

To graduate under option IV, students must remain in good standing in the Dean's Scholars Honors Program, must earn grades of at least A- in the departmental research and thesis courses described in requirement 10 above, and must present their research in an approved public forum, such as the college's annual Undergraduate Research Forum.

## Order and Choice of Work

Students are strongly recommended to take the chemistry/biochemistry—major sections of the following courses: Chemistry 301 or 301H (if taken), 302 or 302H, 128K, 128L, 328M, and 328N. Students planning a graduate program are strongly recommended to take Physics 301, 101L, 316, 116L, 315, and 115L.

Students in option II should consult the undergraduate adviser each semester regarding order and choice of work; those in option III should consult the UTeach-Natural Sciences academic adviser.

The following order of work is recommended as a typical minimum program for option I. It assumes that the student has high school credit in trigonometry, college algebra, and the first semester of general chemistry; is able to earn credit by examination for Chemistry 301; and is able to score well enough on the ALEKS placement examination to take Mathematics 408C or 408N in the first semester of the freshman year. Many students meet some of the following course requirements by credit by examination.

**First year:** Chemistry 302 or 302H, and 317; Mathematics 408C and 408D, or 408N, 408S, and 408M; Physics 301 and 101L, or 303K and 103M, or 317K and 117M (to be taken after Mathematics 408C or 408N); Rhetoric and Writing 306; six semester hours to fulfill core curriculum requirements.

**Second year:** Chemistry 128K, 128L, 328M, and 328N, or 220C, 320M, and 320N; any coursework needed to meet a core curriculum requirement; three semester hours to be counted toward requirement 4 of the prescribed work; English 316K; Physics 316 and 116L, or 303L and 103N, or 317L and 117N; an upper-division mathematics course (such as Mathematics 427K) or an upper-division computer science course.

**Third year:** Chemistry 339K or 369, 353, 153K, 354L, 456; six semester hours of American and Texas government; six semester hours of American history; three semester hours of electives; a three-semester-hour course to fulfill a core curriculum requirement; three semester hours to be counted toward requirement 4 of the prescribed work.

**Fourth year:** Chemistry 431, 154K, 376K, and courses to fulfill requirement 3 of the prescribed work. The student must also take enough additional coursework to fulfill requirements 4, 5, 9, and 10 of the prescribed work. It is recommended that the majority of the elective courses taken to fulfill requirements 4 and 9 be chosen from

upper-division courses in biology, chemistry, chemical engineering, mathematics, and physics.

## Bachelor of Science in Computer Science

The Bachelor of Science in Computer Science degree program provides a strong technical background for students planning to begin careers upon graduation and for those interested in graduate study in computer science. This program allows students to take more coursework in computer science and related technical areas than does the Bachelor of Arts degree program.

In addition to three options leading to the Bachelor of Science in Computer Science, students may apply to option IV, the Integrated Program, which leads to simultaneous completion of the Bachelor of Science in Computer Science and the Master of Science in Computer Science. The requirements for the Bachelor of Science in Computer Science, option IV, are given below. The requirements for the Master of Science in Computer Science are described in the *Graduate Catalog* at <http://registrar.utexas.edu/catalogs/>. In brief, they are nine semester hours of graduate-level diversity coursework in computer science, consisting of three hours in each of three areas; fifteen additional hours of graduate coursework in computer science; and six hours of approved graduate coursework in a supporting area. The student must complete two semesters in residence in the Graduate School.

Students who would like to pursue any of the following options must first be admitted to the degree program. The admission processes for options I, II, and IV are described in The Major in Computer Science (p. 478); the admission process for option III is described in the section Dean's Scholars Honors Program (p. 481).

## Prescribed Work Common to All Options

All students pursuing an undergraduate degree must complete the University's Core Curriculum (p. 22). The core includes courses in language, literature, social sciences, natural sciences, and fine arts.

In addition, students seeking the Bachelor of Science in Computer Science must complete the following degree-level requirements. In some cases, courses that fulfill degree-level requirements also meet the requirements of the core.

1. Two courses with a writing flag. One of these courses must be upper-division. Courses with a writing flag are identified in the *Course Schedule* at <http://registrar.utexas.edu/schedules>. They may be used simultaneously to fulfill other requirements, unless otherwise specified.
2. Options I, II, and IV: One of the following foreign language/culture choices. Students in option III and V are exempt from this requirement.
  - A. Second-semester-level proficiency, or the equivalent, in a foreign language.
  - B. First-semester-level proficiency, or the equivalent, in a foreign language and a three-semester-hour course in the culture of the same language area.

- C. Two three-semester-hour courses in one foreign culture area. The courses must be chosen from an approved list available in the dean's office and the college advising centers.
3. At least forty-two semester hours of upper-division coursework.
  4. At least twenty-one semester hours of upper-division coursework in computer science must be completed in residence at the University.

## Additional Prescribed Work for Each Option

### Option I: Computer Science

5. Mathematics 408C and 408D, or 408N, 408S, and 408M; either 340L or 341 or Statistics and Scientific Computation 329C; and Statistics and Scientific Computation 321.
6. One of the following sequences of coursework:
  - A. Either Biology 311C, 311D, and 325 or Biology 315H and 325H, and Biology 206L or 208L.
  - B. Chemistry 301 or 301H, 302 or 302H, and 204.
  - C. Geological Sciences 401 and either 404C or 405.
  - D. Physics 303K, 303L, 103M, and 103N.
7. An additional sequence chosen from those in requirement 6 above, or one of the following:
  - A. At least three hours of upper-division coursework in biology approved by the undergraduate adviser.
  - B. Chemistry 128K, 128L, 328M, and 328N, or Chemistry 220C, 320M, and 320N, or at least six hours of upper-division coursework in chemistry approved by the undergraduate adviser.
  - C. Geological Sciences 416K and 426P, or at least six hours of upper-division coursework in geological sciences approved by the undergraduate adviser.
  - D. Physics 315 and at least three hours of upper-division coursework in physics approved by the undergraduate adviser.
  - E. At least six hours of upper-division coursework in mathematics approved by the undergraduate adviser. A course may not be counted toward both requirement 5 and requirement 7.
  - F. Electrical Engineering 313 and 331.
8. Computer Science 312 or 312H, 313K or 313H, 314 or 314H, 429 or 429H, 336 or 336H, 337, 439 or 439H, 341 or 341H or 357 or 357H, 345 or 345H, and fifteen additional hours of approved upper-division coursework.
9. Enough additional coursework to make a total of 127 semester hours.

### Option II: Turing Scholars Honors

5. Mathematics 408C and 408D, or 408N, 408S, and 408M; either 340L or 341 or Statistics and Scientific Computation 329C; and Statistics and Scientific Computation 321.
6. One of the following sequences of coursework:

- A. Either Biology 311C, 311D, and 325 or Biology 315H and 325H; and Biology 206L, or 208L.
  - B. Chemistry 301 or 301H, 302 or 302H, and 204.
  - C. Geological Sciences 401 and either 404C or 405.
  - D. Physics 303K, 303L, 103M, and 103N.
7. An additional sequence chosen from those in requirement 6 above, or one of the following:
    - A. At least three hours of upper-division coursework in biology approved by the undergraduate adviser.
    - B. Chemistry 128K, 128L, 328M, and 328N, or Chemistry 220C, 320M, and 320N, or at least six hours of upper-division coursework in chemistry approved by the undergraduate adviser.
    - C. Geological Sciences 416K and 426P, or at least six hours of upper-division coursework in geological sciences approved by the undergraduate adviser.
    - D. Physics 315 and at least three hours of upper-division coursework in physics approved by the undergraduate adviser.
    - E. At least six hours of upper-division coursework in mathematics approved by the undergraduate adviser. A course may not be counted toward both requirement 5 and requirement 7.
    - F. Electrical Engineering 313 and 331.
  8. Computer Science 313K or 313H, and 314 or 314H.
  9. Computer Science 429 or 429H, 336 or 336H, 337 or 337H, 439 or 439H, 341 or 341H or 357 or 357H, 345 or 345H, 178H, and 379H. The courses the student chooses to fulfill this requirement must be approved by the Turing Scholars program director; at least five of them, in addition to Computer Science 178H and 379H, must be honors courses. The honors thesis the student completes in Computer Science 379H must be approved by the program director.
  10. Enough additional coursework to make a total of 127 semester hours.

### Option III: Computer Science Honors

5. Breadth requirement: An honors mathematics course; Computer Science 313H and 314H; one of the following two-semester sequences: Biology 315H and 325H, Chemistry 301H and 302H, Physics 301, 101L, 316, and 116L; and either an additional three hours chosen from these courses or Physics 315 and 115L. Credit earned by examination may not be counted toward this requirement.
6. At least six semester hours of upper-division coursework in mathematics.
7. Computer Science 429H, 336H, 439H, and twelve additional hours of upper-division coursework in computer science.
8. A section of Undergraduate Studies 302 or 303 that is approved by the departmental honors adviser.
9. A section of Rhetoric and Writing 309S that is restricted to Dean's Scholars.
10. Computer Science 379H and a three-semester-hour upper-division research course approved by the departmental honors adviser.

11. Twenty-five additional semester hours of coursework approved by the departmental honors adviser.
12. Six semester hours of coursework in the College of Liberal Arts or the College of Fine Arts.
13. Enough additional coursework to make a total of 120 semester hours.

### Option IV: Integrated Program

5. Mathematics 408C and 408D, or 408N, 408S, and 408M; either 340L or 341 or Statistics and Scientific Computation 329C; and Statistics and Scientific Computation 321.
6. One of the following sequences of coursework:
  - A. Either Biology 311C, 311D, and 325 or Biology 315H and 325H; and Biology 206L or 208L.
  - B. Chemistry 301 or 301H, 302 or 302H, and 204.
  - C. Geological Sciences 401 and either 404C or 405.
  - D. Physics 303K, 303L, 103M, and 103N.
7. An additional sequence chosen from those in requirement 6 above, or one of the following:
  - A. At least three hours of upper-division coursework in biology approved by the undergraduate adviser.
  - B. Chemistry 128K, 128L, 328M, and 328N, or Chemistry 220C, 320M, and 320N, or at least six hours of upper-division coursework in chemistry approved by the undergraduate adviser.
  - C. Geological Sciences 416K and 426P, or at least six hours of upper-division coursework in geological sciences approved by the undergraduate adviser.
  - D. Physics 315 and at least three hours of upper-division coursework in physics approved by the undergraduate adviser.
  - E. At least six hours of upper-division coursework in mathematics approved by the undergraduate adviser. A course may not be counted toward both requirement 5 and requirement 7.
  - F. Electrical Engineering 313 and 331.
8. Computer Science 312 or 312H, 313K or 313H, 314 or 314H, 429 or 429H, 336 or 336H, 337 or 337H, 439 or 439H, 345 or 345H, 353 or 357 or 357H, and nine additional hours of approved upper-division coursework.
9. Enough additional coursework to make a total of 120 semester hours

### Option V: Teaching (Senior grades)

5. History 329U or Philosophy 329U.
6. Mathematics 408C and 408D, or 408N, 408S, and 408M; either 340L or 341 or Statistics and Scientific Computation 329C.
7. One of the following sequences of coursework:
  - A. Biology 311C and 311D; and Biology 206L or 208L.
  - B. Chemistry 301 or 301H, 302 or 302H, and 204.
  - C. Geological Sciences 401 and either 404C or 405.
  - D. Physics 303K, 303L, 103M, and 103N.

8. Computer Science 312 or 312H, 313H 313K, 314 or 314H, 429 or 429H, 336 or 336H, 337 or 337H, 439 or 439H, 341 or 341H or 357 or 357H, and 345 or 345H.
9. The requirements of one of the following certification areas:
  - A. For Computer Science Certification:
    - i Statistics and Scientific Computation 321.
    - ii An additional sequence chosen from the following:
      - a. Biology 325 and 337 (Topic 2: *Research Methods: UTeach*).
      - b. At least three hours of upper-division coursework in chemistry approved by the undergraduate adviser; and Chemistry 368 (Topic 1: *Research Methods: UTeach*).
      - c. Physics 315 and 341 (Topic 7: *Research Method: UTeach*).
    - iii Fifteen additional hours of approved computer science upper-division coursework.
  - B. For Computer Science and Mathematics Certification:
    - i Mathematics 315C, 333L, 362K, either 360M or 375D, and Statistics and Scientific Computation 321.
    - ii Twelve additional hours of approved computer science upper-division coursework.
    - iii Biology 337 (Topic 2: *Research Methods: UTeach*), or Chemistry 368 (Topic 1: *Research Methods: UTeach*), or Physics 341 (Topic 7: *Research Methods: UTeach*).
10. Eighteen semester hours of professional development coursework consisting of:
  - A. Curriculum and Instruction 650S.
  - B. Curriculum and Instruction 365C or UTeach-Natural Sciences 350.
  - C. Curriculum and Instruction 365D or UTeach-Natural Sciences 355.
  - D. Curriculum and Instruction 365E or UTeach-Natural Sciences 360.
  - E. UTeach-Natural Sciences 101, 110, and 170.
11. Enough additional coursework to make a total of 127 semester hours.

### Special Requirements

Students in all options must fulfill both the University's General Requirements (p. 18) for graduation and the college requirements (p. 483). They must also earn a grade of at least C- in each mathematics and science course required for the degree, and a grade point average in these courses of at least 2.00. More information about grades and the grade point average is given in *General Information* (<http://catalog.utexas.edu/general-information>).

To graduate and be recommended for certification students who follow the teaching option must have a University grade point average of at least 2.50. They must earn a grade of at least C- in the supporting course in requirement 5, and in each of the professional development courses listed in requirement 10 and must pass the final teaching portfolio review. For information about the portfolio review and

additional teacher certification requirements, students should consult the UTeach-Natural Sciences academic adviser.

With the exception of Computer Science 312 or 312H, 313K or 313H, and 314 or 314H, all computer science courses that may be counted toward a degree in computer science are restricted to students who have been admitted to the computer science major or have the consent of the undergraduate faculty adviser.

An undergraduate may not enroll in any computer science course more than once without written consent of an undergraduate adviser in computer science. No student may enroll in any computer science course more than twice. No student may take more than three upper-division computer science courses in a semester without written consent of an undergraduate adviser in computer science.

## Additional Requirements for Option II

Students in option II, the Turing Scholars program, must maintain a University grade point average of at least 3.30 and a grade point average in computer science of at least 3.30; in rare circumstances, this grade point average requirement will be waived for students whose honors thesis has been judged by the Department of Computer Science Undergraduate Thesis Committee to be truly outstanding. In addition to this grade point average requirement, students in option II must know and abide by the academic and disciplinary policies given in this catalog and in *General Information*. Those who fail to do so will be considered for academic dismissal from the Turing Scholars program. Under special circumstances and at the discretion of the director, a student will be allowed to continue in the program under academic review. A student who is academically dismissed from the program may enter another computer science program if he or she fulfills the scholastic standards for continuance in the University given in *General Information*. Students in scholastic difficulty should discuss their problems with a Turing Scholars program academic adviser and the director.

## Additional Requirements for Option III

To graduate under option III, students must remain in good standing in the Dean's Scholars Honors Program, must earn grades of at least A- in the departmental research and thesis courses described in requirement 10 above, and must present their research in an approved public forum, such as the college's annual Undergraduate Research Forum.

## Additional Requirements for Option IV

### Satisfactory Progress

Students are expected to make continuous progress toward the degree by completing required computer science coursework each semester. Those who fail to take program coursework two long-session semesters in a row will be removed from the program and re-enrolled in the Bachelor of Science in Computer Science option (I, II, or III) that they were following before admission to the Integrated Program. Students will be notified before this action is taken; they must meet with their academic adviser upon being notified.

### Probation

The student is placed on probation if his or her grade point average in required undergraduate computer science courses falls below 3.00. Except with the consent of the undergraduate adviser or the graduate

adviser, a student on probation may not take graduate computer science courses.

## Dismissal

The student is dismissed from the Integrated Program if (1) he or she fails to improve his or her academic performance significantly while on probation, or (2) he or she will not achieve a grade point average of 3.00 even by earning grades of A in all remaining required undergraduate and graduate computer science courses.

Like all students, those in the Integrated Program must know and abide by the academic and disciplinary policies given in this catalog and in *General Information*. Those who fail to do so will be considered for academic dismissal from the program. Under special circumstances and at the discretion of the director, a student may be allowed to continue in the program under academic review. A student who is academically dismissed from the program may enter another computer science program if he or she fulfills the scholastic standards for continuance in the University given in *General Information*. Students in scholastic difficulty should discuss their problems with an academic adviser and the undergraduate faculty adviser.

## Graduation

To receive the Bachelor of Science in Computer Science and Master of Science in Computer Science degrees through the Integrated Program, a student must have a grade point average of at least 3.00 in the coursework in the Master of Science in Computer Science Program of Work. He or she must also have a grade point average in graduate computer science coursework of at least 3.00.

## Order and Choice of Work

The student must consult the faculty adviser each semester regarding order and choice of work.

Note: Computer science courses with numbers ending in *H* are intended for students in option II, the Turing Scholars program, and option III, computer science honors. Students outside these options may enroll in these courses only with the special consent of the honors director.

## Bachelor of Science in Environmental Science

The Bachelor of Science in Environmental Science degree program is designed for students interested in an interdisciplinary scientific perspective on environmental and sustainability issues, analysis, and management. The degree program provides the broad foundation in physical, life, and social sciences needed for a career or graduate study in environmental science and related fields such as climate change, ecology, and conservation. Students who complete the program successfully will be able to assess environmental issues critically from multiple perspectives; to perform field, laboratory, and computer analyses; and to conduct original research. The program is designed to prepare graduates for careers in local, state, and federal government laboratories and nonprofit agencies, environmental consulting firms, environmental education and outreach agencies, and universities and other research settings. The degree is offered by the Jackson School of Geosciences with a major in geological sciences, by the College of Liberal Arts with a major in geographical sciences, and by the College of Natural Sciences with a major in biological sciences. The degree programs share common prescribed work, but

each major has its own specific requirements. Students may earn only one Bachelor of Science in Environmental Science degree from the University.

Students must apply for admission to the degree program after completing prerequisite coursework. To be competitive for admission, students should have a grade point average of at least 2.75. More information about admission requirements is given in The Bachelor of Science in Environmental Science (p. 479).

The Bachelor of Science in Environmental Science curriculum consists of 126 semester hours of coursework. All students must complete the University's Core Curriculum (p. 22). The specific degree requirements consist of prescribed work and major requirements. In some cases, a course that is required for the degree may also be counted toward the core curriculum.

A course in one prescribed work area may not also be used to fulfill the requirements of another prescribed work area; the only exception to this rule is that a course that fulfills another requirement may also be used to fulfill the writing requirement if the course carries a writing flag.

## Prescribed Work Common to All Options

1. Ecology: Biology 373 and 373L, or Marine Science 320 and either 120L or 152T (Topic: *Marine Ecology*).
2. Geological sciences: Geological Sciences 302P, 401 or 303, and 346C.
3. Geography: Geography 335N.
4. Field experience: One course from each of the following lists:
  - A. Introductory field seminar: Environmental Science 311.
  - B. Senior field/research experience: Environmental Science 371 or Biology 478T or 377 (with prior approval of the faculty adviser).
5. Research methods: Environmental Science 331.
6. Environmental and sustainability themes: One course in each of the following thematic areas:
  - A. Environmental and sustainability policy, ethics, and history: Geography 334, 336C, 340D, 342C, 356C, 356T (approved topics only), Philosophy 325C.
  - B. Geographic information systems: Geography 360G, 462K, Geological Sciences 327G.
  - C. Climates and oceans: Biology 456L, Geography 333K, 356T (approved topics only), Geological Sciences 371C (approved topics only), 377P, Marine Science 320, 440, 354Q, 354T, 367K. Marine Science 320 may not be used to satisfy both requirement 1 and requirement 6.
  - D. Environmental economics, sustainability, and business: Economics 304K, 330T.
7. Environmental Science 141 and 151.
8. Two courses with a writing flag. One of these courses must be upper-division. Courses that meet this requirement are identified in the *Course Schedule* available at <http://registrar.utexas.edu/schedules>. They may be used simultaneously to fulfill other requirements, unless otherwise specified.

## Additional Prescribed Work for Each Option

All students must complete at least fifteen semester hours of upper-division coursework, including one upper-division laboratory/field course in addition to the laboratory/field courses in the prescribed work for the degree. The student must complete Biology 311C, 311D, and 325, or 315H and 325H, with a grade of at least C- in each before progressing to other upper-division biology courses.

### Option I: Biological Sciences

9. Mathematics: Mathematics 408C, or 408N and 408S.
10. Chemistry: Chemistry 301 or 301H; 302 or 302H; and 204.
11. Physics: Physics 317K and 117M, or four hours of another calculus-based physics sequence.
12. Biological Sciences: Biology 311C and 311D, or 315H.
13. One of the following foreign language/culture choices.
  - A. Second-semester-level proficiency, or the equivalent, in a foreign language.
  - B. First-semester-level proficiency, or the equivalent, in a foreign language and a three-semester-hour course in the culture of the same language area.
  - C. Two three-semester-hour courses in one foreign culture area. The courses must be chosen from an approved list available in the dean's office and the college advising centers.
14. Three hours in statistics chosen from Biology 328M and Statistics and Scientific Computation 328M and 321; with the consent of the undergraduate adviser, an upper-division statistics or probability course may be used to fulfill this requirement.
15. Three hours in conservation and environmental biology chosen from Biology 351, 359, 375, and Marine Science 352 (Topic: *Concepts in Marine Conservation Biology*).
16. Biology 325 or 325H (for students completing Biology 315H), and 370.
17. One of the following taxon/systems-based diversity courses or pairs of courses: Biology 321L, 324 and 124L, 327 and 127L, 337 (Topic: *Natural History of the Protists*), 340L, 342L, 448L, 353F, 453L, 354L, 455L, 262 and 262L, 364, 369L, 471G, Marine Science 352 (Topic: *Principles of Estuarine Ecology*), 352 (Topic: *Marine Invertebrates*), 352D, 354C, 354E, 354U, Geological Sciences 479M.
18. One of the following physiology, neurobiology, and behavior courses or pairs of courses: Biology 322 and 122L, 328 and 128L, 438L, 339, 345E, 346, 359J, 359K, 359R, 361, 361T, 465M, 365R, 365S, 371L, Marine Science 355C.
19. Enough additional coursework to make a total of 126 hours.

### Option II: Biological Sciences Honors

9. Breadth Requirement: An honors mathematics course; Biology 315H and 325H; Chemistry 301H and 302H; Physics 301 and 101L; and a designated honors statistics course. Credit earned by examination may not be counted toward this requirement.
10. Chemistry 204.
11. A section of Undergraduate Studies 302 or 303 that is approved by the program adviser or Environmental Science 331.
12. A section of Rhetoric and Writing 309S that is restricted to Dean's Scholars.

13. Two semesters of Biology 379H. One semester may be used to fulfill requirement 4b.
14. Biology 370.
15. Three semester hours in conservation and environmental biology chosen from Biology 375, 351, 359, or Marine Science 352 (Topic: *Concepts in Marine Conservation Biology*).
16. One of the following taxon/systems-based diversity courses or pairs of courses: Biology 321L, 324 and 124L, 327 and 127L, 337 (Topic: *Natural History of the Protists*), 340L, 342L, 448L, 353F, 453L, 354L, 455L, 262 and 262L, 364, 369L, 471G; Marine Science 352 (Topic: *Principles of Estuarine Ecology*), or 352 (Topic: *Marine Invertebrates*), 352D, 354C, 354E, 354U; or Geological Sciences 479M.
17. Six semester hours of coursework in the College of Liberal Arts or the College of Fine Arts.
18. Enough additional coursework approved by the honors adviser to make a total of 126 semester hours.

## Special Requirements

Students must fulfill both the University's General Requirements (p. 18) for graduation and the college requirements (p. 483). They must also earn a grade of at least C- in each mathematics and science course required for the degree, and a grade point average in these courses of at least 2.00. More information about grades and the grade point average is given in *General Information* available at <http://registrar.utexas.edu/catalog/>.

To graduate under the honors option, students must remain in good standing in the Dean's Scholars Honors Program, must submit an honors thesis approved by the program honors adviser, and must present their research in an approved public forum, such as the college's annual Undergraduate Research Forum.

## Bachelor of Science in Human Development and Family Sciences

The Bachelor of Science in Human Development and Family Sciences focuses on the study of human development, individuals in a family context, relationships, and well-being within the family and the broader social, economic, community, and governmental environment. Students in the program are expected to develop knowledge and understanding about human development and family dynamics through classroom experiences, observation of children and families, and research. They have opportunities to apply their knowledge through practicum experiences in research and placements in the field. The program is designed to give students excellent preparation for graduate training that leads to careers in academia, research, medicine, and other health professions, as well as for employment in a field involving work with children, families, and adults.

Students seeking the Bachelor of Science in Human Development and Family Sciences must choose one of the six options described below. Those who plan to follow option V must be admitted to the Dean's Scholars Honors Program (p. 481) and those who plan to follow option VI must be admitted to the Honors in Advanced Human Development and Family Sciences Program (p. 481).

## Prescribed Work Common to All Options

All students pursuing an undergraduate degree must complete the University's Core Curriculum (p. 22). The core includes courses in language, literature, social sciences, natural sciences, and fine arts.

In addition, students seeking the Bachelor of Science in Human Development and Family Sciences must complete the following degree-level requirements. In some cases, courses that fulfill degree-level requirements also meet the requirements of the core.

1. Two courses with a writing flag. One of these courses must be upper-division. Courses with a writing flag are identified in the *Course Schedule* available at <http://registrar.utexas.edu/schedules>. They may be used simultaneously to fulfill other requirements, unless otherwise specified.
2. Psychology 301; and six semester hours, at least three of which must be upper-division, chosen from courses in economics, social or cultural anthropology, and psychology. Neither Psychology 304 nor 333D may be counted toward this degree.
3. At least thirty-six semester hours of upper-division coursework. At least twenty-one semester hours must be completed in residence at the University.
4. Eighteen semester hours in the School of Human Ecology must be completed in residence at the University.

## Additional Prescribed Work for Each Option

### Option I: Early Childhood

This option is designed to provide the necessary foundation for further study or a career in working with children in applied settings.

5. Statistics and Scientific Computation 302; Mathematics 408C or 408N.
6. Chemistry 301 or 301H; Biology 311C; Biology 311D or Chemistry 302 or 302H; and three additional semester hours of coursework in astronomy, biology, chemistry, computer science, geological sciences, mathematics, nutrition (other than Nutrition 306), or physics. Courses designed for non-science majors may not be counted toward this requirement; students should consult the School of Human Ecology for a list of courses that may be counted.
7. Nine semester hours from an approved list of supporting courses available from the School of Human Ecology. Students should confer with their advisers about courses appropriate to their career goals.
8. Nutrition 306; Human Development and Family Sciences 304, 312, 313, 113L, 315L, and 340; six hours chosen from Human Development and Family Sciences 352, 652F, 352L, 652P, and 355; and three additional hours of coursework in human development and family sciences. Registration for Human Development and Family Sciences 352, 652F, 352L, 652P, and 355 is restricted to students whose practicum applications have been approved. Practicum applications are available in the School of Human Ecology advising office; application deadlines are May 1 for enrollment the following spring semester and December 1 for enrollment the following fall semester.

9. Human Development and Family Sciences 338 and 378L; and six additional semester hours chosen from Human Development and Family Sciences 342, 345, 351, 358, 362, 366, and 378K (Topic 6: *Introduction to Early Childhood Intervention*).
10. Enough additional coursework to make a total of 120 semester hours.

## Option II: Human Development

This option involves the study of development across the life span.

5. Statistics and Scientific Computation 302; Mathematics 408C or 408N.
6. Chemistry 301 or 301H; Biology 311C; Biology 311D or Chemistry 302 or 302H; and three additional semester hours of coursework in astronomy, biology, chemistry, computer science, geological sciences, mathematics, nutrition (other than Nutrition 306), or physics. Courses designed for non-science majors may not be counted toward this requirement; students should consult the School of Human Ecology for a list of courses that may be counted.
7. Nine semester hours from an approved list of supporting courses available from the School of Human Ecology. Students should confer with their advisers about courses appropriate to their career goals.
8. Nutrition 306; Human Development and Family Sciences 304, 312, 313, 113L, 315L, and 340; six hours chosen from Human Development and Family Sciences 352, 652F, 352L, 652P, and 355; and three additional hours of coursework in human development and family sciences. Registration for Human Development and Family Sciences 352, 652F, 352L, 652P, and 355 is restricted to students whose applications have been approved. Applications are available in the School of Human Ecology advising office; application deadlines are May 1 for enrollment the following spring semester and December 1 for enrollment the following fall semester.
9. Human Development and Family Sciences 378L; six semester hours chosen from Human Development and Family Sciences 335, 351, and 371; and three additional semester hours chosen from Human Development and Family Sciences 335, 342, 343, 345, 351, 358, 371, and 372K.
10. Enough additional coursework to make a total of 120 semester hours.

## Option III: Families and Personal Relationships

This option involves the study of the formation and maintenance of close relationships, especially couple and family relationships.

5. Statistics and Scientific Computation 302; Mathematics 408C or 408N.
6. Chemistry 301 or 301H; Biology 311C; Biology 311D or Chemistry 302 or 302H; and three additional semester hours of coursework in astronomy, biology, chemistry, computer science, geological sciences, mathematics, nutrition (other than Nutrition 306), or physics. Courses designed for non-science majors may not be counted toward this requirement; students should consult the School of Human Ecology for a list of courses that may be counted.
7. Nine semester hours from an approved list of supporting courses available from the School of Human Ecology. Students should confer with their advisers about courses appropriate to their career goals.

8. Nutrition 306; Human Development and Family Sciences 304, 312, 313, 113L, 315L, and 340; six hours chosen from Human Development and Family Sciences 352, 652F, 352L, 652P, and 355; and three additional hours of coursework in human development and family sciences. Registration for Human Development and Family Sciences 352, 652F, 352L, 652P, and 355 is restricted to students whose applications have been approved. Applications are available in the School of Human Ecology advising office; application deadlines are May 1 for enrollment the following spring semester and December 1 for enrollment the following fall semester.
9. Human Development and Family Sciences 337, and either 356 or 372K.
10. Six additional semester hours chosen from Human Development and Family Sciences 322, 335, 345, 347, 356, 358, 360, 371, and 372K.
11. Enough additional coursework to make a total of 120 semester hours.

## Option IV: Families and Society

This option involves the study of the family and its interactions with larger socioeconomic systems, such as the economy, work, the media, public policy, and government.

5. Statistics and Scientific Computation 302; Mathematics 408C or 408N.
6. Chemistry 301 or 301H; Biology 311C; Biology 311D or Chemistry 302 or 302H; and three additional semester hours of coursework in astronomy, biology, chemistry, computer science, geological sciences, mathematics, nutrition (other than Nutrition 306), or physics. Courses designed for non-science majors may not be counted toward this requirement; students should consult the School of Human Ecology for a list of courses that may be counted.
7. Nine semester hours from an approved list of supporting courses available from the School of Human Ecology. Students should confer with their advisers about courses appropriate to their career goals.
8. Nutrition 306; Human Development and Family Sciences 304, 312, 313, 113L, 315L, and 340; six hours chosen from Human Development and Family Sciences 352, 652F, 352L, 652P, and 355; and three additional hours of coursework in human development and family sciences. Registration for Human Development and Family Sciences 352, 652F, 352L, 652P, and 355 is restricted to students whose applications have been approved. Applications are available in the School of Human Ecology advising office; application deadlines are May 1 for enrollment the following spring semester and December 1 for enrollment the following fall semester.
9. Human Development and Family Sciences 347 and 362; and six additional semester hours chosen from Human Development and Family Sciences 322, 342, 343, 360, 366, and 378K (Topic 6: *Introduction to Early Childhood Intervention*).
10. Enough additional coursework to make a total of 120 semester hours.

## Option V: Human Development and Family Sciences Honors

This option is designed to prepare students who have been admitted to the Dean's Scholars program for academic or research careers.

5. Breadth requirement: A calculus course and a statistics course, one of which must be a designated honors course; Biology 315H and 325H; Chemistry 301H and 302H; and three additional hours of honors-designated or approved coursework in biology, chemistry, computer science, mathematics, statistics and scientific computation, or physics. Credit earned by examination may not be counted toward this requirement.
6. Human Ecology 115H and 225H.
7. Human Development and Family Sciences 304H, 312, 313H, 113L, 315L, and fifteen semester hours chosen from the following: Human Development and Family Sciences 335, 337, 342, 343, 345, 347, 351, 356, 358, 362, 371, 372K, 378L, and approved social science courses.
8. A section of Undergraduate Studies 302 or 302 that is approved by the departmental honors adviser.
9. A section of Rhetoric and Writing 309S that is restricted to Dean's Scholars.
10. Human Development and Family Sciences 355H and 379H.
11. Twenty-one additional semester hours of coursework approved by the departmental honors adviser.
12. Six hours of coursework in the College of Liberal Arts or the College of Fine Arts.
13. Enough additional coursework to make a total of 120 semester hours.

### Option VI: Honors in Advanced Human Development and Family Sciences

This option is designed for highly motivated and talented students who are interested in research experience and training.

1. A calculus course and a statistics course, one of which must be a designated honors course.
2. Chemistry 301 or 301H; Biology 311C; and Biology 311D or Chemistry 302 or 302H.
3. Three additional semester hours of coursework in astronomy, biology, chemistry, computer science, geological sciences, mathematics, nutrition (other than Nutrition 306), or physics. Courses designed for nonscience majors may not be counted toward this requirement; students should consult the School of Human Ecology for a list of courses that may be counted.
4. Human Development and Family Sciences 304H, 312, 313H, 113L, and 315L; fifteen semester hours chosen from: Human Development and Family Sciences 335, 337, 342, 343, 345, 347, 351, 356, 358, 362, 371, 372K, 378L, and approved social science courses.
5. Human Development and Family Sciences 355H and 379H.
6. Twenty-one semester hours of additional upper-division coursework approved by the departmental honors adviser.
7. Enough additional coursework to make a total of 120 semester hours.

### Special Requirements

Students in all options must fulfill both the University's General Requirements (p. 18) for graduation and the college requirements (p. 483). They must also earn a grade of at least C- in each mathematics and science course required for the degree, and grade point average in these courses of at least 2.00. More information about

grades and the grade point average is given in *General Information* available at <http://registrar.utexas.edu/catalogs/>.

To graduate under option V, students must remain in good standing in the Dean's Scholars Honors Program, must earn grades of at least A- in the departmental research and thesis courses described in requirement 10 above, and must present their research in an approved public forum, such as the college's annual Undergraduate Research Forum.

To graduate under option VI, students must remain in good standing with an overall in-residence grade point average of at least 3.30 and an overall grade point average of 3.50 in all Human Development and Family Sciences courses. In addition, student research conducted in Human Development and Family Sciences 355H and 379H must be presented in an approved public forum, such as the college's annual Undergraduate Research Forum. Students who fail to maintain the required grade point average may be subject to dismissal from the program. Under special circumstances and at the discretion of the human development and family sciences honors adviser, a student may be allowed to continue under academic review.

## Bachelor of Science in Interdisciplinary Science

### Prescribed Work

All students pursuing an undergraduate degree must complete the University's Core Curriculum (p. 22). The core includes courses in language, literature, social sciences, natural sciences, and fine arts.

In addition, students seeking the Bachelor of Science in Interdisciplinary Science must complete the following degree-level requirements. In some cases, courses that fulfill degree-level requirements also meet the requirements of the core.

This degree is designed to fulfill the course requirements for certification in Texas as a middle grades teacher in the composite teaching field of mathematics/science. However, completion of the course requirements does not guarantee the student's certification. For information about additional certification requirements, students should consult the UTeach-Natural Sciences academic adviser.

1. Two courses with a writing flag. One of these courses must be upper-division. Courses with a writing flag are identified in the *Course Schedule* available at <http://registrar.utexas.edu/schedules>. They may be used simultaneously to fulfill other requirements, unless otherwise specified.
2. History 329U or Philosophy 329U.
3. Eighteen semester hours of professional development coursework consisting of:
  - A. Curriculum and Instruction 650S.
  - B. Curriculum and Instruction 365C or UTeach-Natural Sciences 350.
  - C. Curriculum and Instruction 365D or UTeach-Natural Sciences 355.

- D. Curriculum and Instruction 365E or UTeach-Natural Sciences 360.
- E. UTeach-Natural Sciences 101, 110, and 170.

## Major Requirements

### Middle Grades Teaching in Mathematics and Science

4. Curriculum and Instruction 339E.
5. Educational Psychology 363M (Topic 3: *Adolescent Development*), or Psychology 301 and 304.
6. The following foundation courses:
  - A. Mathematics 408C and 408D, or 408N, 408S, and 408M; and Mathematics 315C, 427K, 333L, and 362K. Students who plan to take physics courses to fulfill requirement 8 must also complete Mathematics 340L or 341.
  - B. Chemistry 301 or 301H, 302 or 302H, and 204.
  - C. Students who plan to use biology or geological sciences courses to fulfill requirement 7 must complete Physics 302K, 102M, 302L, and 102N or an equivalent sequence; those who plan to use chemistry or physics must complete Physics 301, 101L, 316, and 116L.
  - D. Computer Science 303E or the equivalent.
  - E. Biology 311C and 311D, and 206L or 208L.
  - F. Three semester hours of coursework in geological sciences.
  - G. Three semester hours of coursework in astronomy or marine science.
  - H. Biology 337 (Topic 2: *Research Methods: UTeach*), Chemistry 368 (Topic: 1 *Research Methods: UTeach*), or Physics 341 (Topic: 7 *Research Methods: UTeach*).
7. One of the following concentrations:
  - A. Mathematics: Twelve semester hours of coursework chosen from Mathematics 325K or 328K; 341 or 340L; 358K; and either 360M or 375D (Topic: *Discovery: Introduction to Advanced Study in Mathematics*).
  - B. Biology: Twelve hours of coursework chosen from Biology 320, 325, 226L, 326R, 365R, 370, 373, and either 324 and 124L or 322 and 122L.
  - C. Chemistry: Twelve hours of coursework chosen from Chemistry 220C, 320M, 320N, 353, 455, and either 339K and 339L or 369.
  - D. Geological sciences: Twelve hours of coursework chosen from Geological Sciences 404C or 405, 416K, 416M, 420K or 320L, and 335.
  - E. Physics: Twelve hours of coursework chosen from Physics 315, 115L, 329, 333, 336K, 338K, 352K, 355, and 373.
8. Enough additional coursework to make a total of at least 126 semester hours.

## Special Requirements

Students must fulfill both the University's General Requirements (p. 18) for graduation and the college requirements (p. 483). They must also earn a grade of at least C- in the supporting course in

requirement 2 and in each of the professional development courses listed in requirement 3, 4, and 5. More information about grades and the grade point average is given in *General Information* available at <http://registrar.utexas.edu/catalogs/>.

To graduate and be recommended for certification, students must have a University grade point average of at least 2.50 and must pass the final teaching portfolio review. Information about the portfolio review and additional teacher certification requirements is available from the UTeach-Natural Sciences academic adviser.

## Bachelor of Science in Mathematics

As an alternative to the Bachelor of Arts degree, the Bachelor of Science in Mathematics is designed with a twofold purpose: to offer students a more extensive scientific program that may better prepare them for graduate study or employment, and to recognize students who choose to pursue a more demanding program. Students are given the opportunity to develop greater breadth and depth in their mathematical programs as well as to combine mathematics with a concentration in another scientific discipline.

To accomplish these goals, the minimum number of semester hours is increased and the maximum limit is removed. Specialization in one additional scientific area is encouraged, and the foreign language requirement is shortened by one semester.

Students seeking the Bachelor of Science in Mathematics must select one of six options: actuarial science, applied mathematics, mathematical sciences, pure mathematics, mathematics for secondary teaching, and mathematics honors. Students who choose the option in mathematical sciences must also select a specialization in either scientific computation or statistics, probability, and data analysis. Students who plan to follow option VI, mathematics honors, must be admitted to the Dean's Scholars Honors Program (p. 481).

## Prescribed Work Common to All Options

All students pursuing an undergraduate degree must complete the University's Core Curriculum (p. 22). The core includes courses in language, literature, social sciences, natural sciences, and fine arts.

In addition, students seeking the Bachelor of Science in Mathematics must complete the following degree-level requirements. In some cases, courses that fulfill degree-level requirements also meet the requirements of the core.

1. Two courses with a writing flag. One of these courses must be upper-division. Courses with a writing flag are identified in the *Course Schedule* available at <http://registrar.utexas.edu/schedules>. They may be used simultaneously to fulfill other requirements, unless otherwise specified.
2. Options I–IV: One of the following foreign language/culture choices:
  - A. Second-semester-level proficiency in a foreign language course.
  - B. First-semester-level proficiency in a foreign language and a three-semester-hour course in the culture of the same language area.

- C. Two three-semester-hour culture courses chosen from one foreign culture category from an approved list in the dean's office and college advising centers. Students in options V and VI are exempt from this requirement.
- 3. Forty-two semester hours of upper-division coursework. At least twenty-one semester hours of upper-division coursework must be completed in residence at the University.
- 4. Eighteen semester hours in mathematics must be completed in residence at the University.

- 8. Thirty-two semester hours of upper-division coursework in mathematics, consisting of the following courses. The student should consult the applied mathematics adviser for information on other courses that may be counted toward this requirement.
  - A. Mathematics 340L or 341.
  - B. Mathematics 427K, 348, 362K, and 374M.
  - C. Mathematics 361 and 365C.
  - D. Mathematics 343K or 373K.
  - E. Enough of the following coursework to provide a total of at least thirty-two hours: Mathematics 346, 365D, 368K, 372K, 376C.
- 9. At least six semester hours of upper-division coursework must be outside both mathematics and the fields of study listed in requirement 5. Philosophy courses in logic, computer science courses in discrete mathematics, and engineering courses may not be used to fulfill this requirement.
- 10. Enough additional coursework to make a total of 126 semester hours.

## Additional Prescribed Work for Each Option

### Option I: Actuarial Science

- 5. Eight semester hours in one of the following areas: astronomy, biology, chemistry, geological sciences, and physics.
- 6. Mathematics 408C and 408D, or 408N, 408S, and 408M.
- 7. Actuarial Foundations 329.
- 8. Economics 304K and 304L.
- 9. Accounting 310F or both 311 and 312.
- 10. Finance 357.
- 11. At least thirty-two semester hours of upper-division coursework in mathematics and supporting areas, consisting of
  - A. One of the following courses: Mathematics 328K, 343K, 361, 361K, 365C, 367K, 373K.
  - B. Mathematics 340L or 341.
  - C. Mathematics 362K and either 358K or 378K.
  - D. Mathematics 339J, 339U, and two courses chosen from Mathematics 339V, 339W, 349P, and 349R.
  - E. Enough additional coursework to provide a total of at least thirty-two hours. In addition to upper-division mathematics courses, the following courses in supporting areas may be counted toward this requirement: Economics 420K, Finance 354, 367, 377 (Topic 2: *Financial Risk Management*), Legal Environment of Business 320F, 323, Management Information Systems 325, Risk Management 357E, 369K, 377. Courses used to satisfy this requirement may not be counted toward requirement 12.
- 12. At least six semester hours of upper-division coursework must be outside both mathematics and the fields of study listed in requirement 5. Philosophy courses in logic, computer science courses in discrete mathematics, engineering courses, and courses counted toward requirement 11e may not be used to fulfill this requirement.
- 13. Enough additional coursework to make a total of 126 semester hours.

### Option II: Applied Mathematics

- 5. Eight semester hours in one of the following areas: astronomy, biology, chemistry, geological sciences, and physics.
- 6. Mathematics 408C and 408D, or 408N, 408S, and 408M.
- 7. Computer Science 303E or the equivalent.

### Option III: Mathematical Sciences

#### Specialization in Statistics, Probability, and Data Analysis

- 5. Eight semester hours in one of the following areas: astronomy, biology, chemistry, geological sciences, and physics.
- 6. Mathematics 408C and 408D, or 408N, 408S, and 408M.
- 7. Computer Science 303E or the equivalent.
- 8. At least thirty-two semester hours of upper-division coursework in mathematics and related areas, consisting of
  - A. Mathematics 325K or Computer Science 336.
  - B. Mathematics 427K and 362K.
  - C. Mathematics 340L or 341.
  - D. Mathematics 361K or 365C.
  - E. Mathematics 358K and 378K.
  - F. Mathematics 328K, 343K, 346, or 373K.
- G. Additional coursework chosen from the following: Computer Science 327E or 347, Economics 341K, 350K (Topic 4: *Advanced Econometrics*), 350K (Topic 6: *Advanced Microeconomic Theory*), 350K (Topic 7: *Applied Economic Analysis*), 354K, Electrical Engineering 366L, 379K (Topic 15: *Information Theory*), Geography 360G, 360L, Mathematics 339J, 339U, 339V, 343L, 343M, 346, 348, 349P, 349R, 365D, 368K, 373L, 374G, 374M, Mechanical Engineering 366L, 366Q, 366R, 367S, Psychology 325K, Risk Management 357E. Courses used to satisfy this requirement may not be counted toward requirement 9. Most of these courses have substantial prerequisites, sometimes including courses in other departments. Some have restricted enrollment. The student is responsible for meeting prerequisites and other requirements for enrollment in the courses selected to fulfill this requirement. Courses should be chosen in consultation with the specialization adviser to form a coherent program consistent with the student's background and goals.

Educational Psychology 371 may not be counted toward this degree if it is taken after Mathematics 358K or 378K.

9. At least six semester hours of upper-division coursework must be outside both mathematics and the fields of study listed in requirement 5. Philosophy courses in logic, computer science courses in discrete mathematics, engineering courses, and courses counted toward requirement 8g may not be used to fulfill this requirement.
10. Enough additional coursework to make a total of 126 semester hours.

### Specialization in Scientific Computation

Students who complete this specialization may simultaneously fulfill some of the requirements of the Elements of Computing Certificate or the Certificate in Scientific Computation. These certificate programs are described in Transcript-Recognized Certificate Programs (p. 484).

5. Eight semester hours in one of the following areas: astronomy, biology, chemistry, geological sciences, and physics.
6. Mathematics 408C and 408D, or 408N, 408S, and 408M.
7. One of the following sequences: Statistics and Scientific Computation 318 and 222; Computer Science 312 and 314; or Computer Science 303E and 313E.
8. At least thirty-two semester hours of upper-division coursework in mathematics and related areas, consisting of
  - A. Mathematics 340L or 341.
  - B. Mathematics 427K, 348, 362K, and 368K.
  - C. Mathematics 361K or 365C.
  - D. Students who fulfill the requirements of the Elements of Computing Certificate or the Certificate in Scientific Computation may count up to six hours of upper-division certificate coursework toward this requirement. Computer Science 323E may not be counted toward this requirement. Courses used to satisfy this requirement may not be counted toward requirement 9.
  - E. Additional coursework chosen from the following: Mathematics 325K or 328K (but not both), 427L, 343K or 373K (but not both), 343L, 346, 358K, 361, 365D, 372K, 374M, 376C, 378K.
9. At least six semester hours of upper-division coursework must be outside both mathematics and the fields of study listed in requirement 5. Philosophy courses in logic, computer science courses in discrete mathematics, engineering courses, and courses counted toward requirement 8e may not be used to fulfill this requirement.
10. Enough additional coursework to make a total of 126 semester hours.

### Option IV: Pure Mathematics

5. Eight semester hours in one of the following areas: astronomy, biology, chemistry, geological sciences, and physics.
6. Mathematics 408C and 408D, or 408N, 408S, and 408M.
7. At least thirty-two semester hours of upper-division coursework in mathematics, consisting of
  - A. Mathematics 340L or 341.
  - B. Mathematics 427K, 361, 362K, 365C, and 373K.

- C. One of the following two-course sequences: Mathematics 427K and 372K, 358K and 378K, 362K and 339J, 348 and 368K, 365C and 365D, 367K and 365G, 367K and 367L, 373K and 373L.
- D. Additional hours of upper-division coursework in mathematics chosen with the approval of the mathematics adviser. Either Mathematics 343K or 361K may be counted toward this requirement, but not both.

8. At least six semester hours of upper-division coursework must be outside both mathematics and the fields of study listed in requirement 5. Philosophy courses in logic, computer science courses in discrete mathematics, and engineering courses may not be used to fulfill this requirement.
9. Enough additional coursework to make a total of 126 semester hours.

### Option V: Teaching

This option is designed to fulfill the course requirements for certification as a middle grades or secondary school mathematics teacher in Texas; the student chooses mathematics certification or mathematics, physical science, and engineering certification. However, completion of the course requirements does not guarantee the student's certification. For information about additional certification requirements, students should consult the UTeach-Natural Sciences academic adviser.

Students are encouraged to become familiar with a variety of mathematical software relevant to middle grades or secondary teaching, such as computer geometry systems, spreadsheets, and statistical software. Whenever possible, the student should take courses and sections of courses that use these types of software.

5. History 329U or Philosophy 329U.
6. Mathematics 408C and 408D, or 408N, 408S, and 408M.
7. At least six semester hours of upper-division coursework must be outside mathematics. Philosophy courses in logic, computer science courses in discrete mathematics, and engineering courses may not be used to fulfill this requirement.
8. Mathematics 315C.
9. Biology 337 (Topic 2: *Research Methods: UTeach*), Chemistry 368 (Topic 1: *Research Methods: UTeach*) or Physics 341 (Topic 7: *Research Methods: UTeach*).
10. The requirements of one of the following certification areas:
  - A. For mathematics certification: At least thirty-two semester hours of upper-division coursework in mathematics consisting of:
    - i. Mathematics 340L or 341.
    - ii. Mathematics 325K or 328K, 333L, 358K, and 362K.
    - iii. Mathematics 360M or 375D (Topic: *Discovery: Introduction to Advanced Study in Mathematics*).
    - iv. Mathematics 361K or 365C.
    - v. Mathematics 343K or 373K.
    - vi. Mathematics 427K or 378K.
    - vii. Enough of the following coursework to provide a total of at least thirty-two semester hours: Mathematics 427K, 328K, 339J, 339U, 343K, 343L, 348, 360M, 361, 365C, 365D, 368K, 373K, 373L, 175T (Topic: *Seminar for Prospective Teachers*), 375D (Topic: *Discovery: Introduction to Advanced*

*Study in Mathematics*), 378K. A course used to fulfill requirements 10i through 10vi may not also be counted toward requirement 10vii.

- viii A three-semester-hour supporting course that uses mathematics but is in a field other than mathematics. The following courses may be used to fulfill this requirement: Accounting 310F or 311, Architectural Engineering 323K, Astronomy 307, 352K, 352L, 358, 367M, Chemistry 301 or 301H, 303, Civil Engineering 321, 341, Computer Science 303E and 313E, Economics 420K, Electrical Engineering 302, 366, 366L, Geological Sciences 346C, 354, 476K, Geography 360L, Government 341M, Human Development and Family Sciences 322, Mechanical Engineering 320, 326, 366L, 366Q, 366R, Petroleum and Geosystems Engineering 310, Physics 301, 303K, 303L, Psychology 325K, 332, Sociology 369L. The supporting course may not also be counted toward other requirements in the prescribed work.

B. For mathematics, physical science, and engineering certification:

- i Mathematics 325K, 427K, 328K, 333L, 341, 358K, and 362K.
- ii Mathematics 361K or 365C.
- iii Mathematics 360M or 375D (Topic: *Discovery: Introduction to Advanced Study in Mathematics*).
- iv Physics 301, 101L, 316, 116L, 315, and 115L.
- v Chemistry 301 or 301H, 302 or 302H, and 204.
- vi Chemical Engineering 379 (Topic: *Fundamentals of Engineering and Design*), 379 (Topic: *Engineering Energy Systems*), and Mechanical Engineering 379M (Topic: *Design of Machines and Systems*).

11. Eighteen semester hours of professional development coursework consisting of:
  - a. Curriculum and Instruction 650S.
  - b. Curriculum and Instruction 365C or UTeach-Natural Sciences 350.
  - c. Curriculum and Instruction 365D or UTeach-Natural Sciences 355.
  - d. Curriculum and Instruction 365E or UTeach-Natural Sciences 360.
  - e. UTeach-Natural Sciences 101, 110, and 170.
12. Students seeking middle grades certification must complete the following courses: Educational Psychology 363M (Topic 3: *Adolescent Development*), or Psychology 301 and 304; and Curriculum and Instruction 339E.
13. Enough additional coursework to make a total of at least 126 semester hours.

## Option VI: Mathematics Honors

5. Breadth requirement: An honors mathematics course; one of the following two-semester sequences: Biology 315H and 325H, Chemistry 301H and 302H, or Physics 301, 101L, 316, and 116L; and nine additional semester hours chosen from the preceding

courses, Computer Science 315H, and Physics 315 and 115L. Credit earned by examination may not be counted toward this requirement.

6. An honors section of Mathematics 427K, and six semester hours of coursework chosen from Mathematics 365C, 367K, and 373K.
7. Twenty additional semester hours of upper-division coursework in mathematics approved by the departmental faculty adviser.
8. A section of Undergraduate Studies 302 or 303 that is approved by the departmental honors adviser.
9. A section of Rhetoric and Writing 309S that is restricted to Dean's Scholars.
10. Mathematics 379H.
11. Thirty additional semester hours of coursework approved by the departmental honors adviser.
12. Six semester hours of coursework in the College of Liberal Arts or the College of Fine Arts.
13. Enough additional coursework to make a total of 120 semester hours.

## Special Requirements

Students in all options must fulfill both the University's General Requirements (p. 18) for graduation and the college requirements (p. 483). They must also earn a grade of at least C- in each mathematics and science course required for the degree, and a grade point average in these courses of at least 2.00. More information about grades and the grade point average is given in *General Information* available at <http://registrar.utexas.edu/catalogs/>.

To graduate and be recommended for certification, students who follow the teaching option must have a University grade point average of at least 2.50. They must earn a grade of at least C- in the supporting course in requirement 5 and in each of the professional development courses listed in requirement 11 and must pass the final teaching portfolio review; those seeking middle grades certification must also earn a grade of at least C- in each of the courses listed in requirement 12. For information about the portfolio review and additional teacher certification requirements, students should consult the UTeach-Natural Sciences academic adviser.

To graduate under option VI, students must remain in good standing in the Dean's Scholars Honors Program, must submit an honors thesis approved by the departmental honors adviser, and must present their research in an approved public forum, such as the college's annual Undergraduate Research Forum.

## Bachelor of Science in Medical Laboratory Science

The student preparing for a career in medical laboratory science completes at least one hundred hours of academic work at the University. After this work is completed, the student enters an accredited school of medical laboratory science (or clinical laboratory science) for an additional twelve to sixteen months of clinical education. After completion of this education, the student is awarded the Bachelor of Science in Medical Laboratory Science and is eligible for national certifying examinations administered by the American Society for Clinical Pathology (ASCP). Successful completion of these

exams results in national certification as a medical laboratory scientist or medical technologist.

The purpose of this degree program is to meet the increasing demand for laboratory professionals in hospital and clinic laboratories, research, industry, public health, education, and laboratory management. Medical laboratory science is also an excellent foundation for graduate study in medicine, dentistry, management, education, and other disciplines.

## Prescribed Work

All students pursuing an undergraduate degree must complete the University's Core Curriculum (p. 22). The core includes courses in language, literature, social sciences, natural sciences, and fine arts.

In addition, students seeking the Bachelor of Science in Medical Laboratory Science must complete the following degree-level requirements. In some cases, courses that fulfill degree-level requirements also meet the requirements of the core.

1. Two courses with a writing flag. One of these courses must be upper-division. Courses with a writing flag are identified in the *Course Schedule*, available at <http://registrar.utexas.edu/schedules>. They may be used simultaneously to fulfill other requirements, unless otherwise specified.
2. One of the following foreign language/culture choices.
  - A. Second-semester-level proficiency, or the equivalent, in a foreign language.
  - B. First-semester-level proficiency, or the equivalent, in a foreign language and a three-semester-hour course in the culture of the same language area.
  - C. Two three-semester-hour courses in one foreign culture area. The courses must be chosen from an approved list available in the dean's office and the college advising centers.
3. Mathematics 408C or 408N.
4. Either Biology 311C, 311D, and 325 or Biology 315H and 325H; and Biology 328M or Mathematics 316 or Statistics and Scientific Computation 304; Biology 330 or 446L, 226L, 326M, 337 (Topic: Introduction to Health Informatics), 337 (Topic: Fundamentals of Health Information Technology), 344 or 366R, 360K, 160L, 361, 361L, and 365S.
5. Chemistry 301 or 301H, 302 or 302H, 204, 220C, 320M, 320N, and 369.
6. Enough additional elective coursework, if necessary, to make a total of at least one hundred semester hours of academic work completed at the University before the clinical education program.
7. Twelve to sixteen months of clinical education in a program of medical laboratory science (or clinical laboratory science) accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS). The student must apply to and be accepted into a clinical education program. The faculty adviser in the School of Biological Sciences and the clinical education program director work closely with each student to ensure his or her success in the program. Upon completion of the clinical education program, the student must submit a letter from the program director verifying completion of coursework and a transcript showing grades in all courses in the program to The University of Texas at Austin, Office of the Dean, College of Natural Sciences, 1 University Station G2500, Austin TX

78712. To be counted toward the degree, the coursework must be approved by the faculty adviser for medical laboratory science in the School of Biological Sciences and the dean. None of the coursework completed in the clinical education program may be used to fulfill in-residence degree requirements, requirements 1 through 6 of the prescribed work above, or the requirements for a second bachelor's degree.

## Special Requirements

Students must fulfill both the University's General Requirements (p. 18) for graduation and the college requirements (p. 483). They must also earn a grade of at least C- in each mathematics and science course required for the degree, and a grade point average in these courses of at least 2.00. More information about grades and the grade point average is given in *General Information* available at <http://registrar.utexas.edu/catalogs/>.

## Order and Choice of Work

The student should consult with his or her academic and faculty advisers each semester regarding order and choice of work and balancing the laboratory load. To complete the program within four years, it may be necessary for the student to take some courses during the summer.

## Bachelor of Science in Neuroscience

The Bachelor of Science degree in Neuroscience provides a strong foundation in the core sciences and related mathematical disciplines, along with a three-course specialization in one of six areas: biology, chemistry, computer science, mathematics, physics, or psychology. Distinctive features of the program include an emphasis on developing the quantitative, statistical, mathematical, and computational skills required in neuroscience, and meaningful hands-on laboratory experience.

## PRESCRIBED WORK

All students pursuing an undergraduate degree must complete the University's Core Curriculum (p. 22). The core includes courses in language, literature, social sciences, natural sciences, and fine arts.

In addition, students seeking the Bachelor of Science in Neuroscience must complete the following degree-level requirements. In some cases, courses that fulfill degree-level requirements also meet the requirements of the core.

1. Two courses with a writing flag. One of these courses must be upper-division. Courses with a writing flag are identified in the *Course Schedule* available at <http://registrar.utexas.edu/schedules>. They may be used simultaneously to fulfill other requirements, unless otherwise specified.
2. Mathematics 408C and 408D, or 408N, 408S, and 408M; Mathematics 362K or Statistics and Scientific Computation 321.
3. An eight-semester-hour sequence of coursework in physics chosen from the following: Physics 301, 101L, 316, and 116L; 303K, 103M, 303L, and 103N; 317K, 117M, 317L, and 117N.
4. Chemistry 301 or 301H, 302 or 302H, and 204.

5. Biology 311C and 311D, or Biology 315H and 325H, and Biology 206L.
6. Three additional majors-level courses selected from one of the following supporting disciplines:
  - A. Biology: Biology 325 or 325H, 320, 344, and 349.
  - B. Chemistry: Chemistry 328M and 128K, 328N and 128L, 339K or 369, 353 or 353M.
  - C. Computer Science: Computer Science 312, 314, Statistics and Scientific Computation 335, 374E.
  - D. Mathematics: Mathematics 427K, 340L or 341, 358K or 378K, Statistics and Scientific Computation 329C. Students who chose Statistics and Scientific Computation 321 for requirement 2, may not also count Mathematics 358K.
  - E. Physics: Physics 345, 338K, 355.
  - F. Psychology: Psychology 301, 323, 353K, 355.
7. Neuroscience 330 or Biology 365R, and Neuroscience 335.
8. Neuroscience 366M and 366N.
9. Twelve-semester-hours of laboratory courses chosen from the following: Biology 365L, 366L, 366P, 366S, and 377. The same section of Biology 377, *Undergraduate Research* may not count toward requirement 11 if used to fulfill this requirement.
10. Six-semester-hours of upper-division neuroscience to be chosen from: Biology 337 (Topic: *Evolutionary Neuroscience*), 337 (Topic: *Sensory Neuroscience*), 337 (Topic: *Genetic Analysis of Behavior and Disease*), 337 (Topic: *Computational Neuroscience*), 337 (Topic: *Foundations of Neuroimaging*), 337 (Topic: *Visual Neuroscience*), 359K, 365N, 365T, 365W, 366C, 366D, 366F.
11. Three additional semester hours of either Biology 377 (Undergraduate Research) or 379H (Honors Tutorial Course). The research topic in Biology 377 or 379H must relate to neuroscience and be approved in advance by the faculty adviser.
12. At least twenty-one semester hours of upper-division coursework, including eighteen semester hours in biology and neuroscience, must be completed in residence at the University. All students must complete at least thirty-six semester hours of upper-division coursework.
13. Enough additional coursework to make a total of 120 semester hours.

life processes but also the links between life science and health, behavior, education, population, culture, and economics. The Bachelor of Science in Nutrition degree program includes six options, described below.

For students pursuing careers in dietetics, courses in behavioral and clinical nutrition and food systems management provide the academic preparation required for dietetics practice. The Didactic Program in Dietetics (DPD) meets the coursework requirements that qualify graduates to apply to a dietetic internship, which leads to the Registered Dietitian credential. Completion of the Didactic Program in Dietetics requirements qualifies a graduate to apply for the exam to become a Dietetic Technician, Registered. To be eligible to apply for a dietetic internship or to practice as a Registered Dietetic Technician, additional coursework would be required for students earning a degree in Options II-VI. The Coordinated Program in Dietetics (CPD) includes both the coursework and the supervised practice necessary to be eligible to write the examination to become a registered dietitian. The DPD and CPD are accredited by the Commission on Accreditation of Dietetics Education of the American Dietetic Association (ADA), 120 S. Riverside Plaza, Suite 2000, Chicago IL 60606, (800) 877-1600.

The nutritional sciences option requires courses in science and research in order to prepare students for graduate study or professional school. Graduates may seek employment in private or publicly funded research programs or, upon completion of graduate study, may engage in college or university teaching or nutrition research. This option also allows students to fulfill requirements for postgraduate study in medicine, dentistry, and other health professions. Additional coursework is needed to be eligible to apply for a dietetic internship or to practice as a Dietetic Technician, Registered.

Students who select the nutrition in business option may earn a Business Foundations Certificate and seek employment in areas such as sales and customer support in the food industry.

Students who plan to follow option IV must be admitted into the Honors in Advanced Nutritional Sciences Program (p. 481). Students in this option take honors courses in nutrition, research methodology, and writing. In addition, students are encouraged to take honors courses in disciplines outside of nutrition, such as biology, chemistry, and mathematics. Students consult with the departmental honors adviser to develop an individualized and challenging program of study that meets their goals and interests.

Students who plan to follow option V must be admitted to the Dean's Scholars Honors Program (p. 481). In addition to taking a core of research, writing, and seminar courses in the College of Natural Sciences, students in this option consult with the departmental honors adviser to develop a coherent individual program of rigorous and challenging courses from across the University.

Students in the international nutrition option gain firsthand knowledge of nutrition issues in other countries through a study abroad experience. Students combine the study of nutrition with a broad range of courses to prepare for experience studying and practicing nutrition in another culture.

## Prescribed Work Common to All Options

All students pursuing an undergraduate degree must complete the University's Core Curriculum (p. 22). The core includes courses in language, literature, social sciences, natural sciences, and fine arts.

## Special Requirements

Students must fulfill both the University's General Requirements (p. 18) for graduation and the college requirements (p. 483). They must also earn a grade of at least C- in each mathematics and science course required for the degree, and a grade point average in these courses of at least 2.00. More information about grades and the grade point average is given in *General Information* (<http://catalog.utexas.edu/undergraduate/natural-sciences/degrees-and-programs/bs-neuroscience/>) available at <http://registrar.utexas.edu/catalogs/>.

## Bachelor of Science in Nutrition

Nutrition is an integrative science with the overall objective of improving the health and well-being of individuals and groups. Nutritional inquiry encompasses not only the roles of electrons, atoms, molecules, genes, cells, organs, and complex organisms in biological

In addition, students seeking the Bachelor of Science in Nutrition must complete the following degree-level requirements. In some cases, courses that fulfill degree-level requirements also meet the requirements of the core.

1. Two courses with a writing flag. One of these courses must be upper-division. Courses with a writing flag are identified in the *Course Schedule* available at <http://registrar.utexas.edu/schedules>. They may be used simultaneously to fulfill other requirements, unless otherwise specified.
2. At least thirty-six semester hours of upper-division coursework, of which at least twenty-four must be in nutrition. At least twenty-one semester hours of upper-division coursework, including eighteen semester hours in nutrition, must be completed in residence at the University.

## Additional Prescribed Work for Each Option

### Option I: Dietetics

Students in dietetics may select either the Didactic Program in Dietetics (DPD) or the Coordinated Program in Dietetics (CPD). Students who complete the DPD with at least four upper-division nutrition courses completed in residence will receive a Verification Statement that qualifies them to apply for an accredited dietetic internship. DPD graduates who complete a dietetic internship may become active members of the American Dietetic Association (ADA) and are eligible to write the examination to become a registered dietitian.

Students interested in the Coordinated Program in Dietetics (p. 479) must apply for admission after completing sixty semester hours of prerequisite coursework. Upon completing the CPD, which includes approximately twelve hundred hours of supervised practice, graduates immediately qualify for active membership in the ADA and to write the examination to become a registered dietitian.

Students who are admitted to the CPD should consult the faculty adviser each semester regarding order and choice of work. During the fourth year, the following courses must be taken in the indicated term: *fall semester*: Nutrition 245C; *spring semester*: Nutrition 372C, 372F, 373S; *summer session*: Nutrition 374C and 374P. Because these courses are taught only once a year, a student who does not take them at the indicated time may be unable to complete the program.

3. At least three semester hours chosen from Psychology 301, Sociology 302, Anthropology 302, Economics 304K, 304L, and Human Development and Family Sciences 313 or 313H and 113L.
4. One of the following calculus courses: Mathematics 408C, 408N, or the equivalent.
5. Three semester hours of statistics chosen from Statistics and Scientific Computation 302, 303, 304, 305, 306, and 325H.
6. Chemistry 301 or 301H, 302 or 302H, 204, 320M, and either 369 or both 339K and 339L.
7. Biology 311C or 315H, 325 or 325H, and 365S.
8. Accounting 310F or 311.
9. The following core nutrition coursework:

- A. Nutrition 312 or 312H, 112L or 312R, 326, and 126L. Students who complete Biology 315H and 325H are exempt from Nutrition 326 and 126L. The student must complete each course with a grade of at least C- before progressing to other upper-division nutrition courses.
- B. Nutrition 307, 107L, 338W or 338H, 342, and 365 (Topic 1: *Vitamins and Minerals*; Topic 2: *Nutrition and Genes*; or Topic 3: *Epidemiological and Statistical Methods in Nutrition*). Students in the CPD must complete Nutrition 371 instead of 365.

10. Coursework in nutrition, consisting of the following:
  - A. Behavioral and clinical nutrition:
    - i CPD: Nutrition 315, 218, 118L, 330, 332, and 370.
    - ii DPD: Nutrition 315, 218, 118L, 332, 370, 371, and either Nutrition 330 or 365 (Topic 2: *Nutrition and Genes*).
  - B. Food systems management: Nutrition 334, 234L, and 355M.
  - C. Research:
    - i CPD: Nutrition 373S.
    - ii DPD: One of the following: Nutrition 324 and 124L, 353, 355 or 355H, 366L, 379H, Statistics and Scientific Computation 318, 321, 325H, or 352. With the approval of the faculty undergraduate adviser, DPD students may count Nutrition 352 toward this requirement. Statistics and Scientific Computation 325H may not be counted toward both requirement 5 and requirement 10cii.
  - D. Professional development:
    - i CPD: Nutrition 245C.
    - ii DPD: Nutrition 162.

11. Students in the CPD must complete an additional fifteen semester hours of supervised practice: Nutrition 345M, 372C, 372F, 374C, and 374P.
12. Enough additional coursework to make a total of 126 semester hours.

### Option II: Nutritional Sciences

3. At least six semester hours chosen from Psychology 301, Sociology 302, Anthropology 302, Economics 304K, 304L, and Human Development and Family Sciences 313 or 313H, and 113L.
4. One of the following calculus courses: Mathematics 408C, 408N, or the equivalent.
5. Three semester hours of statistics chosen from Statistics and Scientific Computation 302, 303, 304, 305, 306, and 325H.
6. Chemistry 301 or 301H, 302 or 302H, 204, 220C, 320M, 320N, and either 369 or both 339K and 339L.
7. Either Biology 311C, 311D, and 325 or Biology 315H and 325H; and Biology 365R and 365S.
8. One of the following four-semester-hour sequences: Physics 301 and 101L, 302K and 102M, 303K and 103M, or 317K and 117M.
9. The following core nutrition coursework:

- A. Nutrition 312 or 312H, 112L or 312R, 326, and 126L. Students who complete Biology 315H and 325H are exempt from Nutrition 326 and 126L. The student must complete each course with a grade of at least C- before progressing to other upper-division nutrition courses.
  - B. One of the following four-semester-hour sequences: Nutrition 307 and 107L; Biology 326M and 226L; 326R and 226L; Chemistry 455.
  - C. Nutrition 338W or 338H, 342, and 365 (Topic 1: *Vitamins and Minerals*; Topic 2: *Nutrition and Genes*; or Topic 3: *Epidemiological and Statistical Methods in Nutrition*).
10. Twelve additional semester hours of nutrition, including the following:
- A. Nutritional sciences: Nutrition 365 or 371. The same topic of Nutrition 365 may not be counted both toward this requirement and toward requirement 9c.
  - B. Behavioral and clinical nutrition: Nutrition 315, 218 and 118L, 330, 332, 360, or 370.
  - C. Research: Three semester hours of coursework chosen from Nutrition 355H, 366L, Biology 325L, 331L, and Chemistry 369L.
11. Enough additional coursework to make a total of 126 semester hours.

### Option III: Nutrition in Business

- 3. At least six semester hours chosen from Psychology 301, Sociology 302, Anthropology 302, Economics 304K, 304L, and Human Development and Family Sciences 313 or 313H, and 113L.
- 4. One of the following calculus courses: Mathematics 408C, 408N, or the equivalent.
- 5. Three semester hours of statistics chosen from Statistics and Scientific Computation 302, 303, 304, 305, 306, and 325H.
- 6. Chemistry 301 or 301H, 302 or 302H, 204, 320M, and either 369 or both 339K and 339L.
- 7. Biology 311C or 315H, 325 or 325H, and 365S.
- 8. The following core nutrition coursework:
  - A. Nutrition 312 or 312H, 112L or 312R, 326, and 126L. Students who complete Biology 315H and 325H are exempt from Nutrition 326 and 126L. The student must complete each course with a grade of at least C- before progressing to other upper-division nutrition courses.
  - B. One of the following four-semester-hour sequences: Nutrition 307 and 107L; Biology 326M and 226L; 326R and 226L.
  - C. Nutrition 338W or 338H, 342, and 365 (Topic 1: *Vitamins and Minerals*; Topic 2: *Nutrition and Genes*; or Topic 3: *Epidemiological and Statistical Methods in Nutrition*).
- 9. At least seventeen additional semester hours of nutrition, including the following:
  - A. Behavioral and clinical nutrition: Six hours chosen from Nutrition 315, 218 and 118L, 330, 332, 370, and 371.
  - B. Food systems management: Nutrition 334 and 234L.

- C. Research: Nutrition 324 and 124L, 353, 355 or 355H, 366L, or 379H. With departmental approval, students in option III may substitute Nutrition 352.

- 10. Fifteen semester hours chosen from Accounting 310F or 311, Advertising 305 or 318J, Communication Studies 316L, Finance 320F, Human Development and Family Sciences 322, Legal Environment of Business 320F, Management 320F, 325, Management Information Systems 302F, Marketing 320F, and Nutrition 355M.
- 11. Enough additional coursework to make a total of 126 semester hours.

### Option IV: Honors in Advanced Nutritional Sciences

- 3. At least three semester hours chosen from Psychology 301, Sociology 302, Anthropology 302, Economics 304K, 304L, and Human Development and Family Sciences 313 or 313H and 113L.
- 4. One of the following calculus courses: Mathematics 408C, 408N, Mathematics 408D-AP-H, or the equivalent.
- 5. Three semester hours of statistics chosen from Statistics and Scientific Computation 302, 303, 304, 305, 306, and 325H.
- 6. Chemistry 301 or 301H, 302 or 302H, 204, 320M, 320N, 220C, and either 369 or both 339K and 339L.
- 7. Biology 311C, 311D, and 325 or Biology 315H and 325H; and Biology 365S.
- 8. Nutrition 312H, 312R, 338H, 342, 365 (Topic 1: *Vitamins and Minerals*), and fourteen additional semester hours of nutrition or related coursework approved by the departmental honors adviser.
- 9. A section of Undergraduate Studies 302 or 303 that is approved by the departmental honors adviser.
- 10. Nutrition 355H and 379H.
- 11. Ten semester hours of additional coursework approved by the departmental honors adviser.
- 12. Enough additional coursework to make a total of 120 semester hours.

### Option V: Nutrition Honors

- 3. Breadth requirement: A calculus course and a statistics course, one of which must be a designated honors course; Biology 315H and 325H; Chemistry 301H and 302H; and three additional hours of honors-designated or approved coursework in biology, chemistry, computer science, mathematics, statistics and scientific computation, or physics. Credit earned by examination may not be counted toward this requirement.
- 4. At least three semester hours chosen from Psychology 301, Sociology 302, Anthropology 302, Economics 304K, 304L, and Human Development and Family Sciences 313 or 313H and 113L.
- 5. Chemistry 204, 320M, and 320N, and either 369 or both 339K and 339L.
- 6. Biology 365R and 365S.
- 7. Nutrition 312H, 312R, 338H, 342, and 365 (Topic 1: *Vitamins and Minerals*).

8. A section of Undergraduate Studies 302 or 303 that is approved by the departmental honors adviser.
9. A section of Rhetoric and Writing 309S that is restricted to Dean's Scholars.
10. Nutrition 355H and 379H.
11. Ten semester hours of additional coursework in nutrition or related area approved by the departmental honors adviser.
12. Six semester hours of coursework in the College of Liberal Arts or the College of Fine Arts.
13. Enough additional coursework to make a total of 120 semester hours.

## Option VI: International Nutrition

Students in this option must participate for one semester or summer session in a study abroad program in nutrition offered by the University. Students must submit a study abroad application. During the study abroad experience, students complete Nutrition 353, Field Experience in International Nutrition. Additional coursework in nutrition or in the language, culture, or history of the country may be available during the international study experience. All study abroad programs in nutrition must be approved in advance by the international nutrition faculty adviser. A list of other study abroad opportunities in nutrition is maintained in the main office of the School of Human Ecology.

3. Economics 304K or 304L, and at least three semester hours chosen from Psychology 301, Sociology 302, and Anthropology 302.
4. Six semester hours chosen from the following: Geography 339K, 357, Mexican American Studies 307, 318, Sociology 335, 354K.
5. Second-semester proficiency in a single foreign language.
6. One of the following calculus courses: Mathematics 408C, 408N, or the equivalent.
7. Three semester hours of statistics chosen from Statistics and Scientific Computation 302, 303, 304, 305, 306, and 325H.
8. Chemistry 301 or 301H, 302 or 302H, 204, 320M, and 369.
9. Biology 311C or 315H, 325 or 325H, and 365S.
10. The following core nutrition coursework:
  - A. Nutrition 312 or 312H, 112L or 312R, 326, and 126L. Students who complete Biology 315H and 325H are exempt from Nutrition 326 and 126L. The student must complete each course with a grade of at least C- before progressing to other upper-division nutrition courses.
  - B. One of the following four-semester-hour sequences: Nutrition 307 and 107L; Biology 326M and 226L; 326R and 226L.
  - C. Nutrition 338W or 338H, and 342.
11. Nutrition 316, 218, 118L, 321, 331, and 353.
12. At least nine semester hours, three of which must be upper-division, chosen from one of the following areas:
  - A. Health professions: Chemistry 220C, 320N, Biology 206L, 311D, 326M, 346, Nutrition 365 (Topic 1: Vitamins and Minerals). Biology 326M may not be counted toward both requirement 10b and requirement 12a.
  - B. Dietetics: Nutrition 315, 330, 332, 370, 371.

- C. Behavioral science: Human Development and Family Sciences 304 or 304H, 313 or 313H, 113L, Psychology 308, 319K, Sociology 308D, 319, 320K, 324K .

13. Enough additional coursework to make a total of 126 semester hours.

## Special Requirements

Students in all options must fulfill both the University's General Requirements (p. 18) for graduation and the college requirements (p. 483). They must also earn a grade of at least C- in each mathematics and science course required for the degree, and a grade point average in these courses of at least 2.00. More information about grades and the grade point average is given in *General Information* available at <http://registrar.utexas.edu/catalogs/>.

To graduate under option IV, students must remain in good standing with an overall grade point average of at least 3.30 and an overall grade point average of 3.50 in all nutritional sciences courses. In addition, student research conducted in courses described in requirement 10 must be presented in an approved public forum, such as the college's annual Undergraduate Research Forum. Students who fail to maintain the required grade point average may be subject to dismissal from the program. Under special circumstances and at the discretion of the nutritional sciences honors adviser, a student may be allowed to continue under academic review.

To graduate under option V, students must remain in good standing in the Dean's Scholars Honors Program, must earn grades of at least A- in the departmental research and thesis courses described in requirement 10, and must present their research in an approved public forum, such as the college's annual Undergraduate Research Forum.

### Note:

Nutritional Sciences courses with numbers ending in H are intended for students in option IV, Honors in Advanced Nutritional Sciences and in option V, Nutrition Honors. Students outside these options may enroll in these courses with the consent of the nutritional sciences honors adviser.

To be eligible to apply for a dietetic internship or to practice as a Registered Dietetic Technician, additional coursework would be required for students earning a degree in options II-VI.

## Bachelor of Science in Physics

All aspects of the physical universe are of interest to the physicist, who seeks to understand not only the smallest forms of matter and the rich phenomena present in our everyday lives but also the universe itself. Physics has played a critical role in human technological and intellectual development during the twentieth century. The tools of the physicist—observation, imagination, model building, prediction, and deduction—will enable physics to continue this influence into the new century. The Bachelor of Science in Physics degree program is designed to provide the skills, understanding, and outlook required for participation in the discovery of new knowledge about nature.

The Bachelor of Science in Physics program is balanced and broad. It is designed to give the student a strong foundation for graduate study or work in physics and, with additional training, for work in a variety of other areas, such as astronomy, astrophysics, biophysics, chemical physics, computer science, engineering, geophysics,

mathematics, medicine, physics teaching, and space sciences. Students who end their formal training with the bachelor's degree may seek employment in industry, in national laboratories, or in teaching; they should consider the options in computation, radiation physics, space sciences, biophysics, and teaching, which augment the broad instruction provided by the basic Bachelor of Science in Physics. For those who plan to teach physics in secondary school, the teaching option provides the courses needed for certification.

Students who plan to follow option VI, physics honors, must be admitted to the Dean's Scholars Honors Program (p. 481).

## Prescribed Work Common to All Options

All students pursuing an undergraduate degree must complete the University's Core Curriculum, described in chapter 2. The core includes courses in language, literature, social sciences, natural sciences, and fine arts.

In addition, students seeking the Bachelor of Science in Physics must complete the following degree-level requirements. In some cases, courses that fulfill degree-level requirements also meet the requirements of the core.

1. Two courses with a writing flag. One of these courses must be upper-division. Courses with a writing flag are identified in the Course Schedule (<http://registrar.utexas.edu/schedules>). They may be used simultaneously to fulfill other requirements, unless otherwise specified.
2. Options I–IV and VII: One of the following foreign language/culture choices. Students in options V and VI are exempt from this requirement.
  - A. Second-semester-level proficiency, or the equivalent, in a foreign language.
  - B. First-semester-level proficiency, or the equivalent, in a foreign language and a three-semester-hour course in the culture of the same language area.
  - C. Two three-semester-hour courses in one foreign culture area. The courses must be chosen from an approved list available in the dean's office and the college advising centers.
3. Thirty-six semester hours of upper-division coursework.
4. At least twenty-one semester hours of upper-division coursework, including at least twelve semester hours of upper-division coursework in physics, must be completed in residence at the University.
5. Chemistry 302 or 302H.
6. Six semester hours in biology, geological sciences, or astronomy. A course may not be used to fulfill this requirement if it cannot be counted toward major requirements in the department that offers it.
7. Physics 301, 101L, 316, 116L, 315, and 115L.
8. Mathematics 408C and 408D or the equivalent, 427K and 427L, and six additional semester hours of upper-division coursework in mathematics. The following courses are recommended: Mathematics 340L, 361, and 362K. Only courses at the level of calculus and above may be counted toward the total number of hours required for the degree.
9. Physics 336K, 352K, 353L, 355, 362K, 362L, 369, 373, and 474, or their equivalents.
10. Enough additional coursework to make a total of 126 semester hours.

## Prescribed Work Common to All Options for Each

### Option I: Physics

This option is designed to give the student a strong foundation for graduate study or work in physics and for further study or work in a variety of other areas.

5. Chemistry 302 or 302H.
6. Six semester hours in biology, geological sciences, or astronomy. A course may not be used to fulfill this requirement if it cannot be counted toward major requirements in the department that offers it.

### Option II: Computation

This option is designed to provide the necessary foundation and hands-on skill in computation for the student who plans a career or further study in computational physics or computer science. Students who complete this option may simultaneously fulfill some of the requirements of the Certificate in Scientific Computation (p. 485).

5. Chemistry 302 or 302H.
6. Six semester hours in biology, geological sciences, or astronomy. A course may not be used to fulfill this requirement if it cannot be counted toward major requirements in the department that offers it.
7. Physics 301, 101L, 316, 116L, 315, and 115L.
8. Mathematics 408C and 408D or the equivalent, 427K and 427L, and six additional semester hours of upper-division coursework in mathematics or statistics and scientific computation. Statistics and Scientific Computation 329C and Mathematics 362K are recommended. Only courses at the level of calculus and above may be counted toward the total number of hours required for the degree.
9. Physics 329, 336K, 338K, 352K, 353L, 355, 369, and 373, or their equivalents.
10. One of the following scientific computation options:
  - A. Statistics and Scientific Computation 222, Computer Science 303E, and two of the following courses. The student must complete coursework from at least two of the following areas.
    - i Numerical methods: Chemical Engineering 348, Computer Science 323E, 323H, 367, Mathematics 348, Statistics and Scientific Computation 335.
    - ii Statistical methods: Biomedical Engineering 335, Mathematics 358K, 378K.
    - iii Other computing topics: Computer Science 324E, 327E, 329E, 377, Mathematics 346, 362M, 368K, 372K, 376C, Mechanical Engineering 367S, Statistics and Scientific Computation 329D, 374C, 374D, 374E.
  - B. Twelve semester hours chosen from Electrical Engineering 306, 312, 316, 319K, and 422C.
11. Enough additional coursework to make a total of 126 semester hours.

### Option III: Radiation Physics

This option is designed to provide the necessary foundation for the student who plans a career or further study in nuclear engineering, radiation engineering, or health physics.

5. Chemistry 302 or 302H.
6. Six semester hours in biology, geological sciences, or astronomy. A course may not be used to fulfill this requirement if it cannot be counted toward major requirements in the department that offers it.
7. Physics 301, 101L, 316, 116L, 315, and 115L.
8. Mathematics 408C and 408D or the equivalent, 427K and 427L, and six additional semester hours of upper-division coursework in mathematics. The following courses are recommended: Mathematics 340L, 361, and 362K. Only courses at the level of calculus and above may be counted toward the total number of hours required for the degree.
9. Twenty-four semester hours of upper-division coursework in physics, including Physics 336K, 352K, 353L, 355, 362L, 369, and 373, or their equivalents.
10. Sixteen semester hours of upper-division coursework in mechanical engineering, consisting of Mechanical Engineering 136N, 337C, 337F, 337G, 361E, and 361F.
11. Enough additional coursework to make a total of 126 semester hours.

### Option IV: Space Sciences

This option is designed to provide the necessary foundation for the student who plans a career or further study in space sciences.

5. Chemistry 302 or 302H.
6. Six semester hours in biology, geological sciences, or astronomy. A course may not be used to fulfill this requirement if it cannot be counted toward major requirements in the department that offers it.
7. Physics 301, 101L, 316, 116L, 315, and 115L.
8. Mathematics 408C and 408D or the equivalent, 427K and 427L, and six additional semester hours of upper-division coursework in mathematics. The following courses are recommended: Mathematics 340L, 361, and 362K. Only courses at the level of calculus and above may be counted toward the total number of hours required for the degree.
9. Physics 329, 336K, 352K, 353L, 355, 362K, 369, and 373, or their equivalents.
10. Either fifteen semester hours of upper-division coursework in aerospace engineering or thirteen hours in aerospace engineering and three additional hours of upper-division coursework in physics.
11. Enough additional coursework to make a total of 126 semester hours.

### Option V: Teaching

This option is designed to fulfill the course requirements for certification as a middle grades or secondary school science teacher in Texas; the student chooses composite science certification with physics as the primary teaching field, physical sciences certification, physics/mathematics certification, or mathematics, physical science, and engineering certification. However, completion of the course

requirements does not guarantee the student's certification. For information about additional requirements, students should consult the UTeach-Natural Sciences academic adviser.

5. Physics 301, 101L, 316, 116L, 315, and 115L.
6. Mathematics 408C and 408D or the equivalent, 427K, and 427L.
7. At least eighteen semester hours of upper-division coursework in physics, consisting of Physics 341 (Topic 7: *Research Methods: UTeach*), 353L, 355, and three of the following courses: Physics 329, 333, 336K, 338K, 352K, 373, Science 360 (Topic 4: *Physics by Inquiry*). With the consent of the UTeach-Natural Sciences undergraduate adviser, an upper-division physics course that includes a substantial research component may be substituted for Physics 341.
8. History 329U or Philosophy 329U.
9. The requirements of one of the following certification areas:
  - A. For composite science certification:
    - i. Biology 311C and 311D.
    - ii. Chemistry 301 or 301H and 302 or 302H.
    - iii. Six hours of coursework in geological sciences; courses intended for non-science majors may not be counted toward this requirement.
    - iv. Enough additional approved coursework in biology, chemistry, or geological sciences to provide the required twelve hours in a second field.
  - B. For physical sciences certification:
    - i. Chemistry 301 or 301H, 302 or 302H, 204 or 317, 353, 153K, 154K, 354L, and 455 or 456.
    - ii. Three additional hours of upper-division coursework in physics.
  - C. For physics/mathematics certification: Mathematics 315C, 325K, 333L, 341 or 340L, 358K, 362K, 360M or 375D.
  - D. For mathematics, physical science, and engineering certification:
    - i. Mathematics 315C, 325K, 333L, 358K, and 362K.
    - ii. Chemistry 301 or 301H, 302 or 302H, and 204.
    - iii. Chemical Engineering 379 (Topic: *Fundamentals of Engineering and Design*), 379 (Topic: *Engineering Energy Systems*), and Mechanical Engineering 379M (Topic: *Design of Machines and Systems*).
10. Eighteen semester hours of professional development coursework consisting of:
  - A. Curriculum and Instruction 650S
  - B. Curriculum and Instruction 365C or UTeach-Natural Sciences 350.
  - C. Curriculum and Instruction 365D or UTeach-Natural Sciences 355.
  - D. Curriculum and Instruction 365E or UTeach-Natural Sciences 360.
  - E. UTeach-Natural Sciences 101, 110, and 170.

11. Students seeking middle grades certification must complete the following courses: Educational Psychology 363M (Topic 3: *Adolescent Development*), or Psychology 301 and 304; and Curriculum and Instruction 339E.
12. Enough additional coursework to make a total of at least 126 semester hours.

A list of recommended biology laboratory courses that complement the lecture courses listed in 11a through 11e are available in the advising center and the dean's office.

12. Enough additional coursework to make a total of 126 semester hours.

## Option VI: Physics Honors

5. Breadth requirement: Biology 315H and 325H, Chemistry 301H and 302H, and Mathematics 427K and 427L; at least one of the math courses must be a designated honors section. Credit earned by examination may not be counted toward this requirement.
6. Mathematics 340L and 361.
7. Physics 301, 101L, 316, 116L, 315, and 115L.
8. Physics 336K, 352K, 353L, 355, 362K, 362L, 369, 373, and 474.
9. A section of Undergraduate Studies 302 or 303 that is approved by the departmental honors adviser.
10. A section of Rhetoric and Writing 309S that is restricted to Dean's Scholars.
11. Physics 379H and a three-semester-hour upper-division research course approved by the departmental honors adviser.
12. Ten additional semester hours of coursework approved by the departmental honors adviser.
13. Six semester hours of coursework in the College of Liberal Arts or the College of Fine Arts.
14. Enough additional coursework to make a total of 120 semester hours.

## Option VII: Biophysics

5. Chemistry 301 or 301H and 302 or 302H.
6. Either Biology 311C, 311D, and 325 or Biology 315H and 325H; Biology 206L.
7. Physics 301, 101L, 316, 116L, 315, and 115L.
8. Mathematics 408C and 408D or the equivalent, 427K and 427L, and six additional semester hours of upper-division coursework in mathematics. The following courses are recommended: Mathematics 340L, 361, and 362K.
9. Physics 336K, 345, 352K, 353L, 355, 369, and 373 or their equivalents.
10. Either Chemistry 320M or 328M, and either Chemistry 339K or 369. Students choosing to take Chemistry 339K must also take 339L.
11. Complete one of the following areas:
  - A. Cell Biology: Biology 320.
  - B. Microbiology: Biology 326R.
  - C. Developmental Biology: Biology 349.
  - D. Neurobiology: Either Biology 365R or 371M.
  - E. Virology: Biology 330.
  - F. Computation: Statistics and Scientific Computation 335 and Biology 337J or Statistics and Scientific Computation 339 (Topic: *Computational Biology*) or (Topic: *Computational Chemistry*).

## Special Requirements

Students in all options must fulfill both the University's General Requirements (p. 18) for graduation and the college requirements (p. 483). They must also earn a grade of at least C- in each mathematics and science course required for the degree, and a grade point average in these courses of at least 2.00. More information about grades and the grade point average is given in *General Information* available at <http://registrar.utexas.edu/catalogs/>.

To graduate and be recommended for certification, students who follow the teaching option must have a University grade point average of at least 2.50. They must earn a grade of at least C- in the supporting course in requirement 8 and in each of the professional development courses listed in requirement 10 and must pass the final teaching portfolio review; those seeking middle grades certification must also earn a grade of at least C- in each of the courses listed in requirement 11. Information about the portfolio review and additional teacher certification requirements is available from the UTeach-Natural Sciences academic adviser.

To graduate under option VI, students must remain in good standing in the Dean's Scholars Honors Program, must earn grades of at least A- in the departmental research and thesis courses described in requirement 7 above, and must present their research in an approved public forum, such as the college's annual Undergraduate Research Forum.

## Bachelor of Science in Public Health

The Bachelor of Science in Public Health prepares graduates for entry-level positions in public health and equips them to pursue certificate and graduate degrees in the field. The degree offers broad-based training in the five core areas of public health, with a choice of six areas of specialization.

Students for whom the degree is appropriate include those interested in health careers and in dual graduate degree programs in medicine and public health. The degree is administered by the School of Biological Sciences.

Students who plan to follow option I must be admitted. Students who plan to follow option III must first gain admission to option I, and then apply for admission to option III. Students who plan to follow option II must be admitted to the Dean's Scholars Honors Program (p. 481). Admission requirements for option I and II are given in The Major in Public Health (p. 479).

## Prescribed Work Common to All Options

All students pursuing an undergraduate degree must complete the University's Core Curriculum (p. 22). The core includes courses in language, literature, social sciences, natural sciences, and fine arts.

In addition, students seeking the Bachelor of Science in Public Health must complete the following degree-level requirements. In some cases, courses that fulfill degree-level requirements also meet the requirements of the core.

1. Foundation courses:
  - A. Public health: Public Health 317.
  - B. Microbiology: Biology 326M and 226L.
  - C. Nutrition and physiology: Nutrition 312 or 312H and Biology 365S.
  - D. Social and behavioral sciences: One of the following: Economics 304K, 304L, Psychology 301, Sociology 319, 354K.
  - E. Political science/government: Government 358 or Management 320F.
2. Public health core:
  - A. Biostatistics: Biology 328M or Statistics and Scientific Computation 328M.
  - B. Environmental health sciences: Public Health 338.
  - C. Epidemiology: Public Health 354.
  - D. Global health: Public Health 334.
  - E. Health policy and management: Public Health 358D.
  - F. Social and behavioral sciences: Public Health 368D.
3. Two courses with a writing flag. One of these courses must be upper-division. Courses with a writing flag are identified in the *Course Schedule*. They may be used simultaneously to fulfill other requirements, unless otherwise specified.
4. At least twenty-one semester hours of upper-division coursework must be completed in residence at the University. All students must complete at least thirty-six semester hours of upper-division coursework.

## Additional Prescribed Work for Each Option

### Option I: Public Health

5. Mathematics 408C or 408N.
6. Biology 311C, 311D, and 325 or Biology 315H and 325H. These courses must be completed before the student progresses to other upper-division biology and upper-division public health courses.
7. Chemistry 301 or 301H, 302 or 302H, 204, 320M, and 369.
8. At least nine hours from one of the following areas of specialization; courses counted toward requirement 1 may not be used to fulfill this requirement.
  - A. Biostatistics and public health informatics: Biology 321G, 337 (Topic: *Introduction to Health Informatics*), 337 (Topic: *Fundamentals of Health Information Technology*), Computer Science 303E, 329E (approved topics only), Geography 360G, Mathematics 408D or 408S, 340L, 358K, 362K, 362M, Public Health 341R.

- B. Environmental health sciences: Biology 337 (Topic: *Emerging Infectious Disease*), 375, 478T, Biomedical Engineering 301, Civil Engineering 341, 342, 346, 369L, Geological Sciences 302C, 307, 346C, 476K, 476M, Geography 334C, 339K, 356T (approved topics only), 357, 360G, Marine Science 307, 354Q, Public Health 341R.
- C. Health policy and management: Bridging Disciplines 329, Economics 304K, 304L, 330T (approved topics only), Government 335N (approved topics only), 357M (approved topics only), 358, 360N (Topic 10: *Introduction to International Relations*), 365N (Topic 9: *International Environmental Policy*), 370L (approved topics only), Human Development and Family Sciences 362, Management 320F, Philosophy 325L, 325M, 347, Public Affairs 310S (approved topics only), 325 (approved topics only), 330C, 330S (approved topics only), Public Health 341R, Sociology 354K.
- D. Infectious diseases and public health microbiology: Biology 329, 129L, 330, 230L, 336, 337 (Topic: *Genomics and Proteomics in Human Infectious Disease Research*), 337 (Topic: *Virulence Mechanisms of Bacterial Pathogens*), 347, 360K, 160L, 361, 361L, 361P, Public Health 341R.
- E. Nutrition: Nutrition 312R, 315 or 331, 321, 338W or 338H, 342, 365 (approved topics only), 355H, Public Health 341R.
- F. Social and behavioral sciences: Only one advertising or communication course may be counted. Advertising 305, 319, 334, Communication Studies 306M, 332, 332K, 342K, 355K, 367, Geography 356T (Topic: *Gender and Health*), Health Education 329K, 335, 352K (approved topics only), 370K (approved topics only), 371K, 373, Marketing 320F, Pharmacy 350K, Public Health 341R, Social Work 310, 311, Sociology 319, 321K (approved topics only), 329, 336D, 354K, 369K, 369L, Women's and Gender Studies 345 (Topic 35: *Psychosocial Issues in Women's Health*).

9. One of the following foreign language/culture choices.
  - A. Second-semester-level proficiency, or the equivalent, in a foreign language.
  - B. First-semester-level proficiency, or the equivalent, in a foreign language and a three-semester-hour course in the culture of the same language area.
  - C. Two three-semester-hour courses in one foreign culture area. The courses must be chosen from an approved list available in the dean's office and the college advising centers.

10. Enough additional coursework to make a total of 126 semester hours.

### Option II: Public Health Honors

5. Breadth requirement: An honors mathematics course; Biology 315H and 325H; Chemistry 301H and 302H. Credit by examination may not count toward this requirement.
6. In fulfilling requirement 2a, students must complete an honors statistics course.
7. Chemistry 204, 320M, and 369.
8. A section of Undergraduate Studies 302 or 303 that is approved by the program honors adviser.
9. A section of Rhetoric and Writing 309S that is restricted to Dean's Scholars.

10. Two semesters of Biology 379H.
11. Nine additional hours of coursework approved by the departmental honors adviser.
12. Six semester hours of coursework in the College of Liberal Arts or the College of Fine Arts.
13. Enough additional coursework to make a total of 120 semester hours.

### Option III: Advanced Program

This program provides students with a foundation in the natural sciences applied to public health and advanced specialist training in preparation for a leadership position in public health practice. This program leads to the completion of the Bachelor of Science in Public Health and the Master of Public Health, awarded by the School of Public Health at the University of Texas Health Sciences Center at Houston. During the senior year, students complete the first year of the Master of Public Health at the Austin Regional Campus. The second year of the Master of Public Health is completed at one of the five regional campuses in Austin, Brownsville, Dallas, El Paso, Houston, and San Antonio. Upon completion of the first year of the Master of Public Health, coursework is applied toward option III requirements. Option III students may apply to graduate upon completion of the undergraduate degree requirements and prior to the completion of the Master of Public Health, or may apply to graduate to receive both degrees in the same semester.

5. Mathematics 408C or 408N.
6. Biology 311C, 311D, and 325; or 315H and 325H. These courses must be completed before the student progresses to other upper-division biology and upper-division public health courses.
7. Chemistry 301 or 301H, 302 or 302H, 204, 320M, and 369.
8. Eighteen hours of approved upper-division elective coursework in public health or a supporting area. Graduate coursework completed at the School of Public Health at the University of Texas Health Sciences Center may be applied toward this requirement.
9. One of the following foreign language/culture choices.
  - A. Second-semester-level proficiency, or the equivalent, in a foreign language
  - B. First-semester-level proficiency, or the equivalent, in a foreign language and a three-semester-hour course in the culture of the same language area.
  - C. Two three-semester-hour courses in one foreign culture area. The courses must be chosen from an approved list available in the dean's office and the college advising centers.
10. Enough additional coursework to make a total of 126 semester hours.

### Special Requirements

Students must fulfill both the University's General Requirements (p. 18) for graduation and the college requirements (p. 483). They must also earn a grade of at least C- in each foundation course, public health core course, and mathematics and science course required by the degree, and a grade point average in these courses of at least 2.00.

More information about grades and the grade point average is given in *General Information* available at <http://registrar.utexas.edu/catalogs/>.

## Bachelor of Science in Textiles and Apparel

The Division of Textiles and Apparel is a place to get a broad-based education, well suited for career opportunities. Students in the Division of Textiles and Apparel enjoy a wide range of academic programs and career opportunities. They study the art of design, the science of chemistry and physics, and the application of retail and management principles, through the lens of history. Majors come in three packages: Retail Merchandising, Apparel Design with Conservation, and Fiber Science. Each program provides hands-on experience with rapidly evolving retail environments, intercultural practices and customs, consumer behavior, apparel and fashion design, computer-aided design, fashion show production and event organization, garment conservation and museum management, and fiber and fabric testing. Capstone retail merchandising and apparel design programs take students to high-profile venues and provide rich opportunities in honors programs. Internships are available to enhance the educational experience and ensure strong career opportunities. Basic research is being conducted in bio-based fibers and specialized fabrics, and 3D technology to address basic human needs. Research is also conducted involving the effects of change and new technologies on the development and distribution of creative textile products. The Division of Textiles and Apparel is a marvelous place to get a broad-based education, well suited for rewarding career opportunities.

### Prescribed Work Common to All Options

1. All students pursuing an undergraduate degree must complete the University's Core Curriculum (p. 22). The core includes courses in language, literature, social sciences, natural sciences, and fine arts.
2. Two courses with a writing flag. One of these courses must be upper-division. Courses that carry a writing flag are identified in the Course Schedule available at <http://registrar.utexas.edu/schedules>. They may be used simultaneously to fulfill other requirements, unless otherwise specified.

### Prescribed Work for Each Option

#### Option I: Apparel Design and Conservation

In addition, students following the apparel design and conservation option must complete the following degree-level requirements. In some cases, courses that fulfill degree-level requirements also meet the requirements of the core.

3. Three hours of lower-division coursework in anthropology, economics, psychology, or sociology; and six hours of upper-division coursework in American studies, anthropology, cultural studies, psychology, or sociology.
4. Mathematics 408C or 408N; and one of the following: Mathematics 316, Statistics and Scientific Computation 302, 303, 304, 305, 306, or Educational Psychology 371.
5. Chemistry 301 or 301H, 302 or 302H, and 204; and either Biology 311C (for the apparel design specialization) or Chemistry 320M (for the conservation specialization).

6. Accounting 310F, Management 320F, and Marketing 320F.
7. Either (a) for the apparel design specialization, three semester hours of studio art, or (b) for the conservation specialization, Art History 303; and nine semester hours of upper-division coursework in art history or studio art.
8. Textiles and Apparel 205, 105L, 219C and 119L, 325L, 325M, 352D, 260L, and 260M; Human Development and Family Sciences 322; and one of the following sequences:
  - A. Apparel design specialization: Textiles and Apparel 212K, 212L, 316L, 126, 226L, 355C, 164K (Topics 1: *Flat Pattern*, 2: *Draping*, and 3: *Advanced Apparel Design*), 264L (Topics 1: *Flat Pattern*, 2: *Draping*, and 3: *Advanced Apparel Design*), and three semester hours chosen from Textiles and Apparel 303, 327, 328, 355D, 355N, 359H, 365, 376, 378H, and 379H.
  - B. Conservation specialization: Textiles and Apparel 355D; three semester hours chosen from Textiles and Apparel 303, 327, 328, 355N, and 376; twelve semester hours chosen from Textiles and Apparel 126 and 226L, 352C, 355C, 359H, and topics of 164K and 264L, 365, 378H, and 379H; and six or seven semester hours chosen from Textiles and Apparel 212K, 212L, 316L, and 316Q.
9. Thirty-six semester hours of upper-division coursework, of which at least eighteen must be within and at least twelve must be outside the School of Human Ecology. At least twenty-one semester hours of upper-division coursework must be taken in residence at the University.
10. Enough additional coursework to make a total of 126 semester hours.

## Option II: Retail Merchandising

In addition, students following the retail merchandising option must complete the following degree-level requirements. In some cases, courses that fulfill degree-level requirements also meet the requirements of the core.

3. Six semester hours of economics and three semester hours of psychology, sociology, or anthropology.
4. Mathematics 408C or 408N; and one of the following: Mathematics 316, Statistics and Scientific Computation 302, 303, 304, 305, 306, or Educational Psychology 371.
5. Chemistry 301 or 301H, 302 or 302H, and 204; and Biology 311C and 311D.
6. Art History 301.
7. Communication Studies 306M, Accounting 310F, Marketing 320F, and Advertising 318J; and six semester hours chosen from Management 320F, Management Information Systems 302F, and Legal Environment of Business 320F.
8. Forty-seven semester hours in the School of Human Ecology, including the following coursework:
  - A. Textiles and Apparel 205, 105L, 212K, 212L, 315K, 316Q, 219C and 119L, 352M, 355P, 260L, 260M, 361, and 376; and nine hours chosen from Textiles and Apparel 303, 325L, 325M, 327, 328, 355D, 355K, 355N, 164K and 264L, 365, 378H, and 379H.

- B. Human Development and Family Sciences 322; Textiles and Apparel 361; and three additional hours in human development and family sciences or nutrition.

9. Thirty-six semester hours of upper-division coursework, of which at least eighteen must be within and at least twelve must be outside the School of Human Ecology. At least twenty-one semester hours of upper-division coursework must be taken in residence at the University.
10. Enough additional coursework to make a total of 126 semester hours.

## Option III: Textiles and Apparel Honors

3. Breadth Requirement: An approved calculus course and an approved statistics course (one of these must be honors); Chemistry 301H and 302H; Biology 315H and 325H. Credit earned by examination may not be counted toward this requirement.
4. A section of Undergraduate Studies 302 or 303 that is approved by the departmental honors adviser.
5. A section of Rhetoric and Writing 309S that is restricted to Dean's Scholars.
6. Textiles and Apparel 105L, 205, 327, 328, 260L, and 260M.
7. Twenty-two semester hours selected from the three streams of Textiles and Apparel courses with at least three semester hours in each of the streams: Apparel Design, History and Conservation, Retailing and Merchandising, as well as Human Development and Family Sciences 322 with consent of the honors adviser.
8. Six hours of Textiles and Apparel, including Textiles and Apparel 379H. In all cases, students will be required to conduct research and write a thesis. In some cases, this thesis will be accompanied by a portfolio of work.
9. Six additional semester hours from biology, chemistry, computer science, engineering, mathematics or physics. Courses designed for non-science majors may not be counted toward this requirement.
10. Six semester hours of coursework in the College of Liberal Arts or the College of Fine Arts.
11. Thirty-six semester hours of upper-division coursework. At least twenty-one semester hours of upper-division coursework must be taken in residence at the University.
12. Twelve additional semester hours of coursework approved by the departmental honors adviser.
13. Enough additional coursework to make a total of 120 semester hours.

## Special Requirements

Students must fulfill both the University's General Requirements (p. 18) for graduation and the college requirements (p. 483). They must also earn a grade of at least C- in each mathematics and science course required for the degree, and a grade point average in these courses of at least 2.00. More information about grades and the grade point average is given in *General Information*.

To graduate under option III, students must remain in good standing in the Dean's Scholars Honors Program (p. 481) must earn grades of at least A- in the departmental research and thesis courses described in requirement 8 above, and must present their research in an approved

public forum, such as the college's annual Undergraduate Research Forum.

## Order and Choice of Work

The student should consult the faculty adviser each semester about order and choice of work and balancing the laboratory load. Students should also check prerequisite requirements carefully.

## Courses

The faculty has approval to offer the following courses in the academic years 2012–2013 and 2013–2014; however, not all courses are taught each semester or summer session. Students should consult the *Course Schedule* (<http://registrar.utexas.edu/schedules>) to determine which courses and topics will be offered during a particular semester or summer session. The *Course Schedule* may also reflect changes made to the course inventory after the publication of this catalog.

A full explanation of course numbers is given in *General Information* (<http://registrar.utexas.edu/catalogs>). In brief, the first digit of a course number indicates the semester hour value of the course. The second and third digits indicate the rank of the course: if they are 01 through 19, the course is of lower-division rank; if 20 through 79, of upper-division rank; if 80 through 99, of graduate rank.

## Natural Sciences

### Natural Sciences: NSC

#### Lower-Division Courses

##### NSC 301C. Freshman Seminar.

Restricted to first-semester freshmen. Small-group seminar involving reading, discussion, writing, and oral reports. Introduction to University resources, including libraries, computer and research facilities, and museums. Several sections are offered each semester, with various topics and instructors. Two lecture hours and one discussion hour a week for one semester.

##### NSC 001D. Practicum in Clinical Laboratory Science.

Restricted to clinical laboratory science majors. Students participate in a twelve- to fifteen-month off-campus training program. Forty laboratory hours a week for one semester. Offered on the pass/fail basis only. Prerequisite: Completion of all organized coursework for the Bachelor of Science in Clinical Laboratory Science degree and consent of the program director.

##### NSC 302. Texas Interdisciplinary Plan: Critical Thinking Seminar.

Restricted to students in the Texas Interdisciplinary Plan or in the Gateway Program. An examination of fundamental concepts in critical thinking, including the role of intellectual virtues, an analysis of the elements of thought, Socratic thinking, and the application of universal intellectual standards. Three lecture hours a week for one semester, with additional hours to be arranged. Liberal Arts 302 and Natural Sciences 302 may not both be counted. May not be repeated for credit.

##### NSC 306J. Science for the Twenty-First Century I.

Restricted to applied learning and development majors. The first of an integrated sequence of laboratory-based courses. Subjects include

energy and motion, electrical circuits, atomic theory, waves, and sound. Two lecture hours and four laboratory hours a week for one semester. Natural Sciences 306J and 309 (Topic: Science for the Twenty-First Century I) may not both be counted. May not be counted toward a degree in the College of Natural Sciences.

##### NSC 306K. Science for the Twenty-First Century II.

Restricted to applied learning and development majors. The second of an integrated sequence of laboratory-based courses. Subjects include physical and chemical properties of matter, Earth's building blocks, plate tectonics, landforms, and weathering. Two lecture hours and four laboratory hours a week for one semester. Natural Sciences 306K and 309 (Topic: Science for the Twenty-First Century II) may not both be counted. May not be counted toward a degree in the College of Natural Sciences. Prerequisite: Natural Sciences 306J with a grade of at least C-.

##### NSC 306L. Science for the Twenty-First Century III.

Restricted to applied learning and development majors. The third of an integrated sequence of laboratory-based courses. Subjects include properties of life, compartments of living organisms, inheritance, adaptations, variations, and disease. Two lecture hours and four laboratory hours a week for one semester. Natural Sciences 306L and 309 (Topic: Science for the Twenty-First Century III) may not both be counted. May not be counted toward a degree in the College of Natural Sciences. Prerequisite: Natural Sciences 306J and 306K with a grade of at least C- in each.

##### NSC 306M. Science for the Twenty-First Century IV.

The fourth of an integrated sequence of laboratory-based courses. Subjects include astronomy and the earth's climate. Two lecture hours and four laboratory hours a week for one semester. Natural Sciences 306M and 309 (Topic: Science for the Twenty-First Century IV) may not both be counted. May not be counted toward a degree in the College of Natural Sciences. Prerequisite: Natural Sciences 306J and 306K with a grade of at least C- in each.

##### NSC 109, 209, 309. Topics in Natural Sciences.

For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary.

##### NSC 209P. Topics in Calculus for Emerging Scholars.

Restricted to students in the Emerging Scholars Program. A workshop focusing on ideas more than computation and procedures, where students work in small groups on sets of problems designed to encourage advanced thinking about calculus. Three lecture hours a week for one semester. Mathematics 210T (Topic: Topics for Emerging Scholars) and Natural Sciences 209P may not both be counted. Offered on the pass/fail basis only. Prerequisite: Concurrent enrollment in an approved calculus course.

##### NSC 110. Dean's Scholars Seminar.

Restricted to students in the Dean's Scholars Program. Emphasis on student participation. Format may include student speakers, outside speakers, discussions, visits to laboratories, or other projects. The equivalent of one lecture hour a week for one semester. May be repeated for credit. Offered on the pass/fail basis only.

##### NSC 110E. Internship in the Sciences.

Restricted to students in the College of Natural Sciences. Practical work experience related to the student's area of interest in natural sciences. Internships may be on or off campus, paid or unpaid, and may include work with nonprofit agencies, government offices, or

private corporations. Students work in a professional environment and apply analysis, communication, and other academic skills to practical work. Individual instruction conducted on the Web. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Completion of fifteen semester hours of coursework and consent of instructor.

### **NSC 311. Critical Reasoning.**

Restricted to students in the Texas Interdisciplinary Plan program. An examination of the fundamental concepts in critical reasoning, including the analysis of argument, application of intellectual standards, and the role of intellectual virtues. Three lecture hours a week for one semester, with additional hours to be arranged.

### **NSC 115. Women in Natural Sciences Seminar.**

The work and lives of women scientists in a sociocultural context. One lecture hour a week for one semester.

### **NSC 118C, 218C, 318C. Forum Seminar Series.**

Restricted to freshmen and sophomores. Lectures and discussions on various contemporary issues. Emphasis on multidisciplinary perspectives and critical discourse. For 118C, two lecture hours a week for eight weeks; for 218C, two lecture hours a week for one semester; for 318C, three lecture hours a week for one semester, or two lecture hours and one hour of supervised research a week for one semester. May be repeated for credit when the topics vary.

### **NSC 119, 219, 319, 419, 519, 619. International Learning Seminars.**

Restricted to students participating in a Maymester Abroad course. Discussion of various issues related to the academic, cultural, and personal aspects of completing academic work in international locations. For each semester hour of credit earned, one lecture hour a week for one semester. Natural Sciences 119, 219, 319, 419, 519, 619 and Undergraduate Studies 119 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Varies with the topic.

## **Upper-Division Courses**

### **NSC 120E. Internship in the Sciences.**

Restricted to students in the College of Natural Sciences. Practical work experience related to the student's area of interest in Natural Sciences. Internships may be on or off campus, paid or unpaid, and may include work with nonprofit agencies, government offices, or private corporations. Students work in a professional environment and apply analysis, communication, and other academic skills to practical work. Individual instruction conducted on the Web. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Upper-division standing and consent of instructor.

### **NSC 321. Introduction to Peer Mentoring and Leadership.**

Restricted to students in the College of Natural Sciences. Explores current theory and research related to peer mentoring and leadership within higher education. Includes interactive lectures; and the opportunity for students to identify and work through ethical choices as peer leaders; to study leadership concepts such as conflict resolution, diversity, and group dynamics; to work collaboratively; and to conduct independent research. Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Consent of instructor.

### **NSC 129, 229, 329, 429, 529, 629. International Learning Seminars.**

Restricted to students participating in a Maymester Abroad course. Discussion of various issues related to the academic, cultural, and personal aspects of completing academic work in international locations. For each semester hour of credit earned, one lecture hour a week for one semester. Natural Sciences 129, 229, 329, 429, 529, 629 and Undergraduate Studies 119 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Varies with the topic.

### **NSC 371. Texas Interdisciplinary Plan Seminar.**

Restricted to students in the Texas Interdisciplinary Plan. An analysis of interdisciplinary themes within the arts and sciences through reading, research, discussion, and writing. Three lecture hours a week for one semester, with additional hours to be arranged. Liberal Arts 371 and Natural Sciences 371 may not both be counted. May not be repeated for credit. Prerequisite: Upper-division standing and consent of the Texas Interdisciplinary Plan adviser.

## **Department of Astronomy**

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 627).

## **Astronomy: AST**

### **Lower-Division Courses**

#### **AST 301 (TCCN: ASTR 1303). Introduction to Astronomy.**

General introduction to astronomy for nonscience majors. The solar system, stars, galaxies, and cosmology. Three lecture hours a week for one semester. Only one of the following may be counted: Astronomy 301, 302, 303, 307. May not be counted toward a degree in the College of Natural Sciences.

#### **AST 101L. Astronomy Discovery Laboratory.**

For nonscience majors. Hands-on projects in observational astronomy and related laboratory disciplines. Students work in small groups. Three laboratory hours a week for one semester. May not be counted by students with credit for Astronomy 103L. Prerequisite: Credit or registration for Astronomy 301.

#### **AST 302. Self-Paced Introduction to Astronomy.**

General, self-paced introduction to astronomy for nonscience majors. The solar system, stars, galaxies, and cosmology. Self-paced. Only one of the following may be counted: Astronomy 301, 302, 303, 307. May not be counted toward a degree in the College of Natural Sciences.

#### **AST 303. Introduction to Astronomy with Celestial Observations.**

General introduction to astronomy for nonscience majors. The solar system, stars, galaxies, and cosmology. Introduces students to the night sky and includes some observational activities. Three lecture hours a week for one semester. Only one of the following may be counted: Astronomy 301, 302, 303, 307. May not be counted toward a degree in the College of Natural Sciences.

**AST 103L (TCCN: ASTR 1103). Astronomical Observations.**

For nonscience majors. Observations of the night sky with the naked eye and small telescopes; indoor laboratory activities. Two laboratory hours a week for one semester. May not be counted by students with credit for Astronomy 101L, 302, or 303. Prerequisite: Credit or registration for Astronomy 301 or 307.

**AST 104. Undergraduate Astronomy Seminar.**

Designed for astronomy majors. Discussions about current astronomical research, with different topics emphasized each semester. One lecture hour a week for one semester. May be repeated twice for credit when the topics vary. Offered on the pass/fail basis only.

**AST 307. Introductory Astronomy.**

Introduction to astronomy for science and engineering students. The solar system, stars, galaxies, and cosmology. Three lecture hours a week for one semester. Only one of the following may be counted: Astronomy 301, 302, 303, 307. Prerequisite: Mathematics 305G or the equivalent or consent of instructor; high school trigonometry and physics are recommended.

**AST 309 (TCCN: ASTR 1304). Topics in Astronomy for Nonscience Students.**

Selected topics in modern astronomy: solar system, galaxies, peculiar stars, cosmology, and others. Three lecture hours a week for one semester. May not be counted toward a degree in the College of Natural Sciences. May be repeated for credit when the topics vary. Prerequisite: Astronomy 301, 302, 303, or consent of instructor.

**AST 309L. Search for Extraterrestrial Life.**

For nonscience majors. Origin of life in the solar system, existence of other planetary systems, possibilities and techniques for detection of and communication with other intelligences. Three lecture hours a week for one semester. May not be counted toward a degree in the College of Natural Sciences. Prerequisite: Astronomy 301, 302, 303, or consent of instructor. Students must register for this course with the coordinator in the department's Student Office.

**AST 309N. Lives and Deaths of Stars.**

For nonscience majors. How stars live and die; extremes of stars and their life cycles. Exotic objects such as white dwarfs, supernovae, neutron stars, pulsars, and black holes. Specific topics may vary with instructor. Three lecture hours a week for one semester. Astronomy 309N and 309Q may not both be counted. May not be counted toward a degree in the College of Natural Sciences. Prerequisite: Astronomy 301, 302, 303, or consent of instructor.

**AST 309P. Astronomy in Science Fiction.**

The use of astronomy and other sciences in science fiction literature. Critical analysis of selected novels as to the validity of the astronomy used. Three lecture hours a week for one semester. Prerequisite: Astronomy 301, 302, 303, or consent of instructor.

**AST 309Q. Time and the Cosmos.**

For nonscience majors. From the beginning of time in the Big Bang to the end of time in the black hole. Includes the early universe, the formation and evolution of single and double stars, and the supercompact objects they eventually become: white dwarfs, pulsars, and black holes. Three lecture hours a week for one semester. Astronomy 309N and 309Q may not both be counted; Astronomy 309Q

and 309R may both be counted. May not be counted toward a degree in the College of Natural Sciences. Prerequisite: Astronomy 301, 302, 303, or consent of instructor.

**AST 309R. Galaxies, Quasars, and the Universe.**

For nonscience majors. Galaxies, quasars, giant black holes; cosmic evolution; the origin and future of the universe. Three lecture hours a week for one semester. Astronomy 309Q and 309R may not both be counted. May not be counted toward a degree in the College of Natural Sciences. Prerequisite: Astronomy 301, 302, 303, or consent of instructor.

**AST 309S. The Solar System.**

For nonscience majors. The nature, origin, and evolution of our solar system, including planets, moons, and other bodies. Three lecture hours a week for one semester. May not be counted toward a degree in the College of Natural Sciences. Prerequisite: Astronomy 301, 302, 303, or consent of instructor.

**AST 309T. The Milky Way Galaxy.**

Our spiral system of stars, gas, and dust; star formation. Three lecture hours a week for one semester. Prerequisite: Astronomy 301, 302, 303, or consent of instructor.

**AST 110K, 210K, 310K. Conference Course.**

Supervised study of selected areas of astronomy, by arrangement with a faculty member. Conference course. Some sections are offered on the pass/fail basis only; these are identified in the Course Schedule. May be repeated for credit when the topics vary. Prerequisite: Written consent of instructor.

**AST 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Astronomy.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Astronomy. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**Upper-Division Courses**

**AST 321. Current Problems in Astronomy.**

For nonscience majors. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing; and Astronomy 301, 302, 303, or consent of instructor.

**AST 324. Origins: The Universe, Stars, Planets, and Life.**

For nonscience majors. Cosmic origins from the Big Bang to life, and the connections among the origins of stars, planets, and life. Three lecture hours a week for one semester. Prerequisite: Upper-division standing; and Astronomy 301, 302, 303, or consent of instructor.

**AST 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Astronomy.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Astronomy. University credit is awarded for work in an exchange program; it may be counted as coursework

taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

#### **AST 350L. History and Philosophy of Astronomy.**

Historical influence of astronomical concepts on social, economic, literary, and scientific life; the place of astronomy in society. Three lecture hours a week for one semester. Prerequisite: Upper-division standing; and Astronomy 301, 302, 303, or consent of instructor.

#### **AST 351. Astronomical Instrumentation.**

A hands-on course in computer-controlled optical instrumentation. Intended for natural science and engineering students interested in the practical aspects of instrument design and construction. Includes optics and optical design, electronics, machining and mechanical design, and computer interfacing. Students work in groups and as teams to design a computer-controlled optical instrument. The equivalent of three lecture hours a week for one semester. Prerequisite: Upper-division standing in the College of Natural Sciences or the Cockrell School of Engineering, or consent of instructor.

#### **AST 352K. Stellar Astronomy.**

Properties of stars and starlight: principles of radiation; interpretation of stellar spectra. Observational techniques such as photometry, spectroscopy, and telescopes and detectors; variable stars; binary stars. Three lecture hours a week for one semester. Prerequisite: Physics 316 and 116L.

#### **AST 352L. Positional, Dynamical, and Kinematical Astronomy.**

Coordinate systems and time; stellar positions and motions; the kinematics and dynamics of star clusters and galaxies. Three lecture hours a week for one semester. Prerequisite: Credit or registration for Mathematics 427K.

#### **AST 152M. Stellar Astronomy Laboratory.**

An introduction to practical observational techniques in astronomy, designed for astronomy majors or advanced students in a physical science. Exercises on the spectroscopy, photometry, and positions of stars using a sixteen-inch telescope on campus. Three laboratory hours a week for one semester. With consent of instructor, may be repeated for credit. Prerequisite: Physics 316 and 116L; credit or registration for Astronomy 352K is recommended.

#### **AST 353. Astrophysics.**

Survey of the physics of stellar and nonstellar radiation laws, stellar atmospheres and interiors; high-energy astrophysics. Three lecture hours a week for one semester. Prerequisite: Physics 316 and 116L.

#### **AST 358. Galaxies and the Universe.**

Our galaxy and its constituents; stars and interstellar matter. Properties of other galaxies; galaxy interactions and mergers; expansion and evolution of the universe. Three lecture hours a week for one semester. Prerequisite: A major in science or engineering, or consent of instructor; and Physics 316 or the equivalent. Astronomy 307 or 352K is recommended.

#### **AST 364. Solar System Astronomy.**

Modern studies of the solar system, including properties of the planets and smaller bodies, and the origin of planetary systems. Three lecture hours a week for one semester. Prerequisite: Physics 316 and 116L.

#### **AST 367M. Physical Science: Methods of Astronomy.**

Same as Physical Science 367M. An introductory, self-paced course in the methods of astronomy that emphasizes learning astronomical principles through observations. Six laboratory hours a week for one semester. May not be counted toward the Bachelor of Arts, Plan I, degree with a major in astronomy. Prerequisite: Upper-division standing and nine semester hours of coursework in mathematics and/or science, including one of the following: Physical Science 303, 304, Astronomy 301, 302, 303. Equivalent preparation in mathematics, physics, chemistry, or earth sciences may be substituted with written approval of the instructor.

#### **AST 175, 275, 375. Conference Course.**

Conference course. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and consent of instructor.

#### **AST 376. Special Topics in Advanced Astronomy.**

Designed for science majors. Three lecture hours a week for one semester. Up to six semester hours may be counted toward the major requirement for the Bachelor of Arts with a major in astronomy. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and consent of instructor. Additional prerequisites vary with the topic.

#### **AST 379H. Honors Tutorial Course.**

Research project and thesis for students electing to take the honors program in astronomy. Conference course. May be repeated once for credit. Prerequisite: Consent of the student's research supervisor and the departmental honors adviser.

## **School of Biological Sciences**

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 627).

### **Biology: BIO**

#### **Lower-Division Courses**

##### **BIO 101C, 301C, 401C, 601C. Topics in Biology.**

Topics in biology that are especially relevant to current issues and problems in modern society. For each semester hour of credit earned, one lecture hour a week for one semester. Some topics require one additional discussion hour or three or four additional laboratory hours a week; these are identified in the Course Schedule. May not be counted toward a degree in biology. Some sections are offered on the pass/fail basis only; these are identified in the Course Schedule. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: The Biology of Being Human.** Introductory biology course that covers human evolution, genetics and genomics, behavior, population growth and environmental issues. May not be counted toward a degree in the College of Natural Sciences.

##### **BIO 301D. Biology for Business, Law, and Liberal Arts.**

Designed for nonscience majors. The scientific method and the social uses of scientific information. Topics include diet and chronic disease, radiation biology, DNA fingerprinting, the biology of learning,

conservation of biotic diversity, and the biology of reproduction. Three lecture hours a week for one semester. May not be counted toward a degree in the College of Natural Sciences.

#### **BIO 301E. Problems in Modern Biology.**

An introduction to major concepts in biology, with emphasis on topics, such as genetics, that are relevant to current issues in the field. Three lecture hours and one discussion hour a week for one semester. Biology 301E and 301L may not both be counted; Biology 301E and 301M may not both be counted. May not be counted toward a degree in biology. Prerequisite: Admission to the Plan II Honors Program.

#### **BIO 301L (TCCN: BIOL 1308). Molecules to Organisms.**

Designed for nonscience majors. Introduction to the structure and function of organisms from the molecular to the organ system level; an integrated approach to cell and molecular biology, genetics, development, and physiology of organisms. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Biology 301L, 211, 311C; only one of the following may be counted: Biology 301L, 311D, 214. Biology 301E and 301L may not both be counted. May not be counted toward a degree in the College of Natural Sciences.

#### **BIO 301M (TCCN: BIOL 1309). Ecology, Evolution, and Society.**

Designed for nonscience majors. Introduction to environmental adaptations, diversity of organisms, species interactions, organization and processes of communities, population growth and limitations, evolution and population genetics, origin of life, and human impact on the environment. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Biology 301M, 311D, 213. Biology 301E and 301M may not both be counted. May not be counted toward a degree in the College of Natural Sciences, except for the Bachelor of Science in Human Development and Family Sciences.

#### **BIO 102C, 202C, 302C, 402C. Conference Course.**

Supervised study of selected topics in biology, by individual arrangement with the School of Biological Sciences and instructor. Conference course. Some sections are offered on the pass/fail basis only; these are identified in the Course Schedule. May be repeated for credit. Prerequisite: Varies with the topic and is given in the Course Schedule.

#### **BIO 305E. Plants, Environment, and Human Affairs.**

Designed for nonscience majors. Plants and the environment, including basic ecological principles and major issues such as global warming and the biodiversity crisis; plants and society, including foods, beverages, medicines, drugs, and other plant products. Three lecture hours a week for one semester. May not be counted toward a degree in the College of Natural Sciences.

#### **BIO 305F. How Plants Sense and Respond to Stimuli.**

Designed for nonscience majors. Exploration of the ways plants sense information about their environment and adapt their growth accordingly; similarities between plant and animal sensory physiology. Three lecture hours a week for one semester. May not be counted toward a degree in the College of Natural Sciences.

#### **BIO 406D. Native Plants.**

Designed for nonscience majors. Introduction to the flora of central Texas. Involves plant identification, distribution, and consideration of edible and useful wild plants. Two lecture hours and six laboratory

hours a week for one semester, including field trips. May not be counted toward a degree in the College of Natural Sciences.

#### **BIO 206L (TCCN: BIOL 1106, BIOL 1107). Introductory Laboratory Experiments in Biology.**

The organizing principles of biology (such as molecular and cellular functions, reproduction, development, homeostatic mechanisms, and organismal physiology and behavior) are used within a comparative and evolutionary framework to train students in modern laboratory techniques, bioinformatics, experimental design, and interpretation of results. One lecture hour and four laboratory hours a week for one semester. Prerequisite: Credit or registration for Biology 311C or 311D (or credit for Biology 211 or 214).

#### **BIO 307D. Biology of AIDS.**

Designed for nonscience majors. Introduction to organs, cells, genes, viruses, infectious diseases, and the immune system. Basic biology of HIV, AIDS, and epidemiology. Three lecture hours and one discussion hour a week for one semester. May not be counted toward a degree in the College of Natural Sciences.

#### **BIO 208L. Field Biology.**

Field projects, laboratory exercises, field trips, and computer simulation exercises to acquaint students with the principles and applications of ecology and some of the experimental and descriptive methods of ecological investigations. One lecture hour and four laboratory hours a week for one semester. Prerequisite: Credit or registration for Biology 311D (or credit for 213).

#### **BIO 309D. The Human Body.**

Designed for nonscience majors. Introduction to the anatomical systems of the human body, their physiological functions and interrelationships. Three lecture hours and one discussion hour a week for one semester. Biology 309D and 365R may not both be counted. May not be counted by students with credit for Biology 365S. May not be counted toward a degree in the College of Natural Sciences, except for the Bachelor of Science in Human Development and Family Sciences.

#### **BIO 309F. Heredity, Evolution, and Society.**

Designed for nonscience majors. An elementary course in human genetics and its social impact. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Biology 309F, 346. May not be counted toward a degree in the College of Natural Sciences, except for the Bachelor of Science in Human Development and Family Sciences.

#### **BIO 311C (TCCN: BIOL 1306). Introductory Biology I.**

Introduction to biological energy transformation, cell structure and physiology, and gene expression. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Biology 301L, 211, 311C. Biology 311C and 212 may not both be counted. Prerequisite: Credit or registration for Chemistry 301 or 301H.

#### **BIO 311D (TCCN: BIOL 1307). Introductory Biology II.**

Introduction to mechanisms of inheritance, evolution, physiology, and species interactions. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Biology 301L, 311D, 214. Only one of the following may be counted: Biology 301M, 311D, 213. Prerequisite: Biology 311C with a grade of at least C- (or 211 and 212 with a grade of at least C- in each).

### **BIO 315H. Advanced Introduction to Genetics: Honors.**

Basic principles of genetics and cell biology. Emphasis on gene structure and regulation; transmission of heritable traits; structure and function of cells; bacterial and viral genetics; and recombinant DNA technology. Three lecture hours and one discussion hour a week for one semester. Prerequisite: A score of 5 on the College Board Advanced Placement Examination in Biology and credit or registration for Chemistry 301 or 301H.

### **BIO 317. Introduction to Public Health.**

Same as Public Health 317. Overview and basic principles of public health, including the public health system, concepts and tools for measuring health in populations, the relationship between public health and the medical care system, and the role of law and government in public health. Three lecture hours a week for one semester.

### **BIO 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Biology.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the School of Biological Sciences. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

## **Upper-Division Courses**

### **BIO 320. Cell Biology.**

Principles of eukaryotic cell structure and function; macromolecules, energetics, membranes, organelles, cytoskeleton, gene expression, signaling, division, differentiation, motility, and experimental methodologies. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 320L. Cell Biology Laboratory.**

Explores the complex structures and functions of cells through direct observation and experimentation. Subjects may include regulation of gene transcription and translation, protein sorting, organelles and membrane trafficking, cytoskeletal dynamics, and cell division. Students use a combination of modern molecular biology, biochemistry, and microscopy techniques, with a strong emphasis placed on hypothesis-driven approaches, proper experimental design, and clear scientific writing and presentation. One lecture hour and five laboratory hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and credit with a grade of at least C- or registration for Biology 320.

### **BIO 321G. Introduction to Computational Biology.**

Introduces computational methods used in molecular, cellular, organismal, and population biology. Subjects include molecular bioinformatics, modeling and simulation, and network analysis. Three lecture hours and two computer lab hours a week for one semester. Prerequisite: Biology 325 or 325H; Computer Science 303E, 305J, 307, or Statistics and Scientific Computation 222; and Mathematics 408C, or 408K and 408L, or 408N and 408S, with a grade of at least C- in each.

### **BIO 321L. Aquatic Entomology.**

The taxonomy of aquatic insects; the use of aquatic insects in biomonitoring. Two lecture hours and three laboratory hours a week

for one semester. Only one of the following may be counted: Biology 321L, 370C (Topic: Applied Aquatic Entomology), 384K (Topic 13: Aquatic Entomology). Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 322. Structure, Physiology, and Reproduction of Seed Plants.**

The principles of structure and functioning of higher plants; special attention to the dynamics of growth and development and reproduction. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, Chemistry 302 or 302H, and concurrent enrollment in Biology 122L.

### **BIO 122L. Structure, Physiology, and Reproduction of Seed Plants Laboratory.**

Observation of structure and reproduction in seed plants and employment of experimental techniques that demonstrate physiological processes, especially processes of growth and development. Two laboratory hours a week for one semester. Prerequisite: Concurrent enrollment in Biology 322.

### **BIO 323L. Laboratory Studies in Cell Biology.**

Research exercises involving light/electron microscopy, image processing, autoradiography, chromatography, fractionation, flow cytometry, spectroscopy, diffraction, antibody labeling, cell growth, and kinetics. One lecture hour and four laboratory hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and credit or registration for Biology 320.

### **BIO 324. Survey of the Plant Kingdom.**

Review of the groups of living and fossil plants, emphasizing their organization, reproduction, and evolution. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and concurrent enrollment in Biology 124L.

### **BIO 124L. Survey of the Plant Kingdom Laboratory.**

Demonstration of members of various plant groups, using cultures and prepared materials, to emphasize organization, reproduction, and evolution. Two laboratory hours a week for one semester. Prerequisite: Concurrent enrollment in Biology 324.

### **BIO 325. Genetics.**

Basic principles of Mendelism, molecular genetics, structure and function of genes and chromosomes, populations and evolution. Three lecture hours and one discussion hour a week for one semester. Biology 325 and 325H may not both be counted. Prerequisite: Biology 311C (or 211) and 311D (or 214), with a grade of at least C- in each.

### **BIO 325H. Genetics: Honors.**

Basic principles of genetics and evolution. Emphasis on population genetics and natural selection; structure and function of organ systems; behavioral ecology; and mutational analysis of organismal development. Three lecture hours and one discussion hour a week for one semester. Biology 325 and 325H may not both be counted. Prerequisite: Biology 315H with a grade of at least C-.

### **BIO 325L. Laboratory Experience in Genetics.**

Experimentation and direct observation in fundamental aspects of transmission genetics. One lecture hour, four laboratory hours, and two hours of computing work a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 325T. Human Genetics.**

Genomics, cancer genetics, identification and analysis of human disease genes, and monogenic and multifactorial traits in humans. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 226L. General Microbiology Laboratory.**

Introduction to microbiology laboratory techniques and experimental demonstration of principles of microbiology. One lecture and three laboratory hours a week for one semester. Prerequisite: Credit with a grade of at least C- or registration for Biology 326M or 326R (or 226R).

### **BIO 326M. Introductory Medical Microbiology and Immunology.**

Designed primarily for nursing and prepharmacy students. Overview of the structure, function, and genetics of bacteria, viruses, and fungi, with emphasis on the interactions between micro-organisms and the human host. Includes principles of microbial pathogenesis, the host's innate and adaptive immune responses to infection, epidemiology, laboratory diagnosis, and antimicrobial chemotherapy and vaccines. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 311C; Biology 325 or 325H with a grade of at least C-; Chemistry 301 with a grade of at least C-; and one of the following with a grade of at least C-: Mathematics 408C, 408K, 408N, 408R, Statistics and Scientific Computation 302.

### **BIO 326R. General Microbiology.**

Overview of the major areas of microbiological study, including cell structure and function, genetics, host-microbe interactions, physiology, ecology, diversity, and virology. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Chemistry 302 or 302H with a grade of at least C-.

### **BIO 327. General Phycology.**

A general survey of the algae and of their biology. Three lecture hours a week for one semester. Biology 327 and 388J may not both be counted. Prerequisite: Biology 324, 124L, and 325 or 325H, with a grade of at least C- in each, and concurrent enrollment in Biology 127L.

### **BIO 327D. Emerging Infectious Diseases.**

Genomic and proteomic tools used to understand the causes of human infectious diseases. Covers genome sequencing, community sequencing, proteomics, microarrays, and human polymorphism analysis; and how these technologies have been applied to the study of important human viral diseases. Also includes extensive coverage of the molecular and clinical biology of these diseases. Three lecture hours a week for one semester. Biology 327D and 337 (Topic: Emerging Infectious Diseases) may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 327E. Epigenetics.**

A study of epigenetic modifications, the covalent modifications of DNA or histones that cause changes in gene expression. Particular attention is given to how experience or environmental factors epigenetically modify health or behavior in animals. Three lecture hours a week for one semester. Biology 327E and 337 (Topic: Epigenetics) may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 327G. Genomics.**

Genome structure, organization, and function of model organisms; theory and methodology of genetic and physical mapping; sequencing analysis and annotation; genome duplication and evolution; and ethics for biotechnology and cloning. Three lecture hours a week for one semester. Biology 327G and 337 (Topic: Genomics) may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 127L. Laboratory in General Phycology.**

Survey of various algal groups, including direct observations of their biology, exposure to research techniques, and instruction in culture procedures. Three laboratory hours a week for one semester. Prerequisite: Credit with a grade of at least C- or registration for Biology 327.

### **BIO 328. Introductory Plant Physiology.**

General principles of the mineral nutrition, water relations, metabolic activities, growth and development of green plants. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Chemistry 302 or 302H.

### **BIO 328D. Discovery Laboratory in Plant Biology.**

Learning methods of experimental design, data gathering, data interpretation, and data presentation, including original experiments relating to questions of current interest in plant physiology. Five lab hours a week for one semester. Biology 328D and 337 (Topic: Discovery Laboratory in Plant Biology) may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 128L. Laboratory Experiments in Plant Physiology.**

Introduction to experimental techniques used in the study of the mineral nutrition, water relations, metabolic activities, growth and development of green plants. Three laboratory hours a week for one semester. Prerequisite: Credit with a grade of at least C- or registration for Biology 328.

### **BIO 328M. Biostatistics.**

Introduction to methods of statistical analysis of biological data. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Biology 318M, 328M, Statistics and Scientific Computation 318M, 328M. Prerequisite: Mathematics 408D, 408L, or 408S with a grade of at least C-, and four semester hours of coursework in biology.

### **BIO 329. Medical Mycology.**

A basic introduction to medical mycology and an overview of research involving both the fungal zoopathogen and its host. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Biology 326R (or 226R) with a grade of at least C-.

### **BIO 129L. Medical Mycology Laboratory.**

Basic techniques for the identification and manipulation of fungi of medical importance. Three laboratory hours a week for one semester. Prerequisite: Biology 126L with a grade of at least C-, and credit with a grade of at least C- or registration for Biology 329.

### **BIO 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Biology.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the student

abroad adviser in the School of Biological Sciences. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **BIO 329W. Cooperative Biological Sciences.**

This course covers the work period of biological sciences students in the Cooperative Education program, which provides supervised work experience by arrangement with the employer and the supervising instructor. Forty laboratory hours a week for one semester. The student must repeat the course each work period and must take it twice to receive credit toward the degree; at least one of these registrations must be during a long-session semester. No more than three semester hours may be counted toward the major requirement; no more than six semester hours may be counted toward the degree. The student's first registration must be on the pass/fail basis. Prerequisite: Application through the College of Natural Sciences Career Services Office; and Biology 325 or 325H, and six additional semester hours of upper-division coursework in biology, with a grade of at least B- in each.

### **BIO 330. Animal Virology.**

Mechanisms by which viruses replicate and kill or transform cells. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Biology 326R (or 226R) with a grade of at least C-.

### **BIO 230L. Virology Laboratory.**

Basic experimental techniques applied to selected bacteriophages and animal viruses. Four laboratory hours and one discussion hour a week for one semester. Prerequisite: Biology 325 or 325H, and 126L with a grade of at least C- in each, and credit with a grade of at least C- or registration for Biology 330 or 333.

### **BIO 331L. Laboratory Studies in Molecular Biology.**

The methods and principles of molecular biology in a research laboratory context. Students conduct a research project directed by a faculty member. One lecture hour and four and one-half laboratory hours a week for one semester. Prerequisite: Biology 205L, 206L, 208L, or 126L; and Biology 325 or 325H with a grade of at least C-.

### **BIO 332. Yeast Cell Biology.**

Yeast is used as a model to teach some of the more actively researched areas of cell biology, such as chromosome structure, mating type, cell-cell interaction, DNA replication, mitosis, cytoskeletal motors, cell polarity, signal transduction, cell cycle, checkpoints, secretion, protein modification, yeast genetics, and yeast technology. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Biology 126L and 326R (or 226R) with a grade of at least C- in each.

### **BIO 333. Molecular Genetics of Bacteriophages and Plasmids.**

Mechanisms of the phage infection cycle and of plasmid replication and gene expression; transposons and transposition. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Biology 326R (or 226R) with a grade of at least C-.

### **BIO 334. Global Health.**

Same as Public Health 334. Global health issues, including the principles of global health, the burden of morbidity and mortality, health

determinants, health care and public health systems, socioeconomic development, and human rights. Three lecture hours a week for one semester. Prerequisite: Biology 317 or Public Health 317 with a grade of at least C-, and Biology 325 or 325H with a grade of at least C-.

### **BIO 335. Introduction to Biochemical Engineering.**

Microorganisms in chemical and biochemical synthesis; genetic manipulation of cells by classical and recombinant DNA techniques. Enzyme technology; design of bioreactors and microbial fermentations; separations of biological products. Three lecture hours a week for one semester. Only one of the following may be counted: Biology 335, Biomedical Engineering 339, Chemical Engineering 339, 379 (Topic: Introduction to Biochemical Engineering). Prerequisite: Biology 311C with a grade of at least C-, and either Chemistry 339K and 339L, or 369.

### **BIO 336. Tumor Biology.**

Natural history and causal mechanisms of cancer; viral and chemical carcinogens. Three lecture hours a week for one semester. Biology 336 and 391M may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Biology 330 or 360K with a grade of at least C-.

### **BIO 137, 237, 337, 437. Selected Topics in Biology.**

Recent developments and research methods in the biological sciences. For each semester hour of credit earned, one lecture hour a week for one semester. Some topics may require additional hours; these are identified in the Course Schedule. Some topics are offered on the pass/fail basis only; these are identified in the Course Schedule. May be repeated for credit when the topics vary. Prerequisite: Biology 325 or 325H with a grade of at least C-. Additional prerequisites vary with the topic and are given in the Course Schedule.

**Topic 1: Senior Seminar in Human Biology.** Restricted to human biology majors in their final semester. This topic is offered as 137 only. Offered on the pass/fail basis only. Additional prerequisite: Biology 346 with a grade of at least C-.

**Topic 2: Research Methods: UTeach.** Restricted to students in the UTeach-Natural Sciences program. Students perform independent inquiries and use skills from mathematics and science to solve research problems.

**Topic 3: Natural History of Protists.** A study of protista, a wide variety of eukaryotic organisms which are either unicellular or phylogenetically closely allied to unicellular organisms. Description of the basic taxonomic and ecological groups, and description of the natural history of the major groups of organisms.

**Topic 4: Computational Neuroscience and Neural Networks.**

### **BIO 337J. Computational Biology Laboratory.**

Overview of computational biology, with emphasis on nucleic acid sequence analysis and databases. Class projects and self-learning exercises. Two lecture hours and three computer laboratory hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 338. Environmental Health.**

Same as Public Health 338. Introduction to the major areas of environmental health, including hazards in the environment, the effects of environmental contaminants, and various approaches to addressing major environmental health problems. Three lecture hours a week for one semester. Prerequisite: Biology 317 or Public Health 317 with a grade of at least C-, and Biology 325 or 325H with a grade of at least C-.

### **BIO 438L. Animal Communication.**

Animal communication from a multidisciplinary perspective, with emphasis on quantitative analysis, sensory processing, and evolution of signals. Three lecture hours and three laboratory hours a week for one semester, with computer laboratory hours as required.

Prerequisite: Biology 325 or 325H with a grade of at least C-, and Biology 359K or 370 with a grade of at least C-.

### **BIO 339. Metabolism and Biochemistry of Microorganisms.**

A study of the metabolic processes of microorganisms, using a biochemical approach. Three lecture hours a week for one semester. Biology 339 and 391R may not both be counted. Prerequisite: Biology 326R (or 226R) with a grade of at least C-, and Chemistry 310M and 310N.

### **BIO 339M. Bacterial Behavior and Signaling Mechanisms.**

Advanced studies in how bacteria perceive their environment and communicate with each other. Subjects may include chemotaxis and motility, morphogenesis and development, and secretion and virulence. Taught entirely through reading and discussion of original articles. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Biology 326R (or 226R) with a grade of at least C-.

### **BIO 340L. Biology of Birds.**

Anatomy, physiology, classification, and ecology of birds. Two lecture hours and three laboratory hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 341R. Public Health Research.**

Same as Public Health 341R. Students conduct public health research, mentored by professionals at public health practice agencies or faculty at graduate schools of public health throughout Texas. An average of twelve hours of fieldwork a week for a total of at least 180 hours. May be repeated for credit. Prerequisite: Biology 325 or 325H with a grade of at least C-; students must also submit a proposal to the instructor.

### **BIO 342L. Field Ornithology.**

Field course with emphasis on field study techniques, species identification by sight and sound, mist netting and banding, censusing techniques, and territory mapping. Two lecture hours and six hours of weekend fieldwork a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and credit with a grade of at least C- or registration for Biology 340L.

### **BIO 343M. Transmembrane Signaling Mechanisms.**

Mechanisms by which hormones, light, and other stimuli trigger changes in plant and animal cell metabolism. Three lecture hours a week for one semester. Biology 343M and 388C may not both be counted. Prerequisite: Biology 325 or 325H, and Chemistry 339K with a grade of at least C- in each.

### **BIO 344. Molecular Biology.**

Molecular basis of cellular processes: gene structure and function, DNA replication, RNA and protein synthesis, viruses, molecular aspects of immunology and cancer, and recombinant DNA. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 345. Cell Physiology.**

An integrated approach to basic processes in physiology: metabolism, transport, energetics, molecular and cellular control mechanisms.

Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Chemistry 310M.

### **BIO 345E. Endocrinology.**

Vertebrate endocrinology (primarily mammalian), with a focus on human pathophysiology. Three lecture hours and one discussion hour a week for one semester. Biology 337 (Topic: Endocrinology) and 345E may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 346. Human Biology.**

Introduction to human evolution, genetics, sexuality, senescence, and population growth. Three lecture hours and one discussion hour a week for one semester. Biology 309F and 346 may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 446L. Human Microscopic and Gross Anatomy.**

Designed for students preparing for biomedical research and the health professions. Focuses on microscopic and gross anatomy of human tissues and organs, with an emphasis on structure function relationships. Subjects include the effects of disease and aging in addition to normal human anatomy. Three lecture hours and four laboratory hours a week for one semester. Biology 416K and 446L may not both be counted. Prerequisite: Biology 311C; Biology 325 or 325H with a grade of at least C-; Chemistry 301 with a grade of at least C-; and one of the following courses with a grade of at least C-: Mathematics 408C, 408K, 408N, 408R, Statistics and Scientific Computation 302.

### **BIO 347. Biology and Genetics of Immune Disorders.**

Immune disorders in mammals, including humans, used as models for examining basic immunological and immunogenetic principles; emphasis on immune disorders of vertebrates. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 148, 248, 348. Training Cruise(s): Research in Biological Oceanography.**

Biology 148 and 348 are same as Marine Sciences 148 and 348 (Topic 1: Research in Biological Oceanography). One or more cruises of one to several days each to collect physical, chemical, oceanographic, and biological data relevant to biological processes in the sea. Preparatory instruction and postcruise sample processing and analysis. May be repeated for credit when the topics vary. Prerequisite: Biology 325 and Chemistry 302 with a grade of at least C- in each, and consent of instructor.

### **BIO 448L. Invertebrate Biology.**

A study of the diversity and evolution of multicellular invertebrate animals, with emphasis on common themes in animal body construction and function. Three lecture hours and three laboratory hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 349. Developmental Biology.**

Principles of animal development, with emphasis on developmental mechanisms. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 349L. Experiments in Animal Developmental Biology.**

Methods and principles of developmental biology in a laboratory context, with emphasis on animal embryology using molecular

techniques and microscopy. One lecture hour and six laboratory hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and credit with a grade of at least C- or registration for Biology 349.

### **BIO 350M. Plant Molecular Biology.**

Fundamentals of plant molecular biology, including structure and expression of the chloroplast and mitochondrial genomes. Three lecture hours a week for one semester. Biology 350M and 388M may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 351. Economic Botany.**

An in-depth analysis of the origin of domesticated plant species, the role in nature of plant products, and the ways natural products have been altered through artificial selection. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 352. Reproductive Biology of Flowering Plants.**

Pollination biology, breeding systems, reproductive strategies, and fruit and seed dispersal from evolutionary and ecological vantage points. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 353F. Field Entomology.**

A field course on insects, with emphasis on field study techniques, visual identification of species, collecting techniques, and curation in the field. Meets five days a week for one hour a day during a summer-session term; additional fieldwork to be arranged, including extended field trips. Biology 353F and Biology 337 (Topic: Field Entomology) may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 453L. Entomology.**

Characteristics, importance, and biology of the major groups of insects. Two lecture hours and three laboratory hours a week for one semester, with additional fieldwork hours to be arranged. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 354. Epidemiology.**

Same as Public Health 354. Introduction to basic principles and concepts in epidemiology, including descriptive epidemiology, association and causation, basic epidemiological study design, evidence-based decision analysis, and applications of epidemiology methods to basic and clinical science. Three lecture hours a week for one semester. Prerequisite: Biology 317 or Public Health 317 with a grade of at least C-, and Biology 325 or 325H with a grade of at least C-.

### **BIO 354L. Ichthyology.**

Overview of the evolution, biology, and ecology of fishes, emphasizing freshwater fishes. Three lecture hours and three hours of laboratory or fieldwork a week for one semester, with field trips to be arranged. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 455L. Vertebrate Natural History.**

Phylogeny, taxonomy, life histories, habits, and distribution. Two lecture hours and three hours of laboratory or fieldwork a week for one semester, with field trips to be arranged. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 456L. Limnology and Oceanography.**

Same as Marine Sciences 440. An introduction to the study of the interactions between aquatic organisms and their environments. Two lecture hours and six laboratory hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Chemistry 302 or 302H.

### **BIO 357. Evolutionary Ecology.**

Principles of modern ecology, particularly as they relate to natural selection and evolutionary theory. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 458L. Systematics.**

Comparative study of biological variation of living and fossil organisms, including speciation, biogeography, taxonomy, and phylogeny of genes, populations, species, and higher taxa. Three lecture hours and four laboratory hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 359. Global Environmental Change.**

Global change as it affects terrestrial ecosystems, including feedback between ecosystems and the atmosphere. Greenhouse gases and global warming, ozone, biological invasions, and land-use change. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Biology 322 or 324 with a grade of at least C-.

### **BIO 359J. Behavioral Ecology.**

Advanced topics in behavioral ecology, with detailed consideration of animal communication, altruism, sexual selection, plant-animal interactions. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Biology 359K or 370 with a grade of at least C-.

### **BIO 359K. Principles of Animal Behavior.**

An introduction to the study of animal behavior: descriptive analysis of behavior; physiological basis of behavior; development of behavior; adaptive significance and evolution of behavior; communication and social behavior. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 359R. Animal Sexuality.**

The biology of sexuality, including genetics, morphology, physiology, and psychology of sex. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 360K. Immunology.**

The basic concepts of humoral and cell-associated immune phenomena. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Biology 326R (or 226R) with a grade of at least C-.

### **BIO 160L. Immunology Laboratory.**

Current techniques in experimental cellular and humoral immunology. Three laboratory hours a week for one semester. Prerequisite: Credit with a grade of at least C- or registration for Biology 360K.

**BIO 360M. Molecular Immunology.**

An advanced immunology course with an emphasis on molecular models and medical relevance. Three lecture hours a week for one semester. Biology 337 (Topic: Molecular Immunology) and 360M may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Biology 360K with a grade of at least B-.

**BIO 361. Human Infectious Diseases.**

Etiology, pathogenesis, diagnosis, and immunobiology of the major microbial diseases, with emphasis on their prevention. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Biology 326R (or 226R) with a grade of at least C-.

**BIO 361L. Public Health Bacteriology Laboratory.**

Training in techniques required for independent work in diagnostic and epidemiological bacteriology. Two lecture hours and five laboratory hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Biology 126L and 326R (or 226R) with a grade of at least C- in each.

**BIO 361P. Public Health Internship.**

Students conduct goal-oriented research projects at the Texas Department of State Health Services and other sites. An average of twelve hours of fieldwork a week for a total of 180 hours of fieldwork for one semester. May be repeated for credit. Prerequisite: Biology 126L with a grade of at least B-, and Biology 326M or 326R with a grade of at least B-; students must also complete an application available at the Natural Sciences Career Services office.

**BIO 361T. Comparative Animal Physiology.**

Physiology of organ systems in animal phyla, with special emphasis on physiological adaptations of organisms to their environment. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

**BIO 262. Plant Systematics.**

Elementary principles of plant taxonomy as exemplified by families of flowering plants found seasonally around Austin. Two lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and concurrent enrollment in Biology 262L.

**BIO 262L. Angiosperm Diversity Laboratory.**

Practical experience in recognizing, identifying, and classifying families of flowering plants. Four laboratory hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and concurrent enrollment in Biology 262.

**BIO 363. Plant Speciation.**

Nature of species in higher plants, speciation phenomena in plants, natural hybridization, polyploidy, agamospermy, evolutionary mechanisms. Lectures, readings, discussions, demonstrations. Three lecture hours a week for one semester. Biology 363 and 387E may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-.

**BIO 364. Microbial Ecology.**

The ability of microbes to adapt to and change their environment. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Biology 326R (or 226R) with a grade of at least C-.

**BIO 364E. Current Topics in Advanced Microbial Ecology.**

Development and structure of microbial communities, microbial phylogeny, endosymbiont and symbiont relationships, biogeochemistry, elemental cycling by microbes, and the microbial ecology of disease. Emphasis on active research areas in these topics. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H, and 364 with a grade of at least C- in each.

**BIO 365D. Principles of Drug Action.**

Introduction to the basic principles of pharmacology, including how drugs get into the body, exert their actions, and are metabolized and excreted. Three lecture hours a week for one semester. Biology 337 (Topic: Principles of Drug Action) and 365D may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-.

**BIO 365L. Neurobiology Laboratory.**

An introduction to physiological, morphological, and molecular techniques used for analysis of the nervous system. Experiments and computer simulations illustrate basics of information processing by the nervous system. Student exercises are supplemented with demonstrations in faculty laboratories. Four laboratory hours and one discussion hour a week for one semester. Prerequisite: Biology 205L, 206L, or 126L with a grade of at least C-; Biology 325 or 325H with a grade of at least C-; and Biology 365R or 371M with a grade of at least C-.

**BIO 465M. Experimental Methods in Physiology.**

A lecture-laboratory course that emphasizes an experimental approach to physiological problems. One lecture hour and seven laboratory hour a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Biology 345, 361T, 365R, or 371M with a grade of at least C-.

**BIO 365N. Development and Plasticity of the Nervous System.**

An introduction to the principles by which the neural tube (brain and spinal cord) develops during embryogenesis, including regionalization of the brain into forebrain, midbrain, hindbrain, and spinal cord. Particular emphasis will be given to the mechanisms that govern how neurons acquire their identity and form neuronal circuits and synapses. Developmental and congenital diseases and possible therapies, including stem cell based therapy or gene therapy. Three lecture hours a week for one semester. Prerequisite: Biology 349 with a grade of at least C-, and Biology 365R or 371M with a grade of at least C-.

**BIO 365P. Laboratory in Integrative Physiology.**

Study of human physiology using an inquiry-based approach. Students read primary scientific literature; collect, analyze, and present data; write detailed explanations of laboratory activities; and work in groups to design, execute, and present an experiment. One lecture hour and three laboratory hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and credit with a grade of at least C- or registration for Biology 361T or 365S.

**BIO 365R. Vertebrate Neurobiology.**

Introduction to the nervous system and other excitable tissues. Subjects may include membrane potentials, ion channels, synaptic transmission, learning and memory, skeletal and cardiac muscle, and how systems of neurons lead to sensation and motor output. Human diseases are used to illustrate perturbation of normal function. Three lecture hours and one discussion hour a week for one semester. Biology 309D and 365R may not both be counted; Biology 365R and 371M may not both be counted. Biology 365R may not be counted

by students with credit for Biology 416K with a grade of at least C-. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 365S. Systems Physiology.**

Overview of body fluids, the cardiovascular system, respiration, digestion, metabolism, and endocrinology. Three lecture hours and one discussion hour a week for one semester. Credit for Biology 365S may not be earned after a student has received credit for Biology 416L. Prerequisite: Biology 311C; Biology 325 or 325H with a grade of at least C-; Chemistry 301 with a grade of at least C-; and one of the following with a grade of at least C-: Mathematics 408C, 408K, 408N, 408R, Statistics and Scientific Computation 302.

### **BIO 365T. Neurobiology of Disease.**

The neurobiological basis of disorders of the brain, with the main focus on mental illness. Emphasizes the neural circuitries and neurochemical events that underlie specific mental processes and behaviors. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Biology 365R or 371M with a grade of at least C-.

### **BIO 165U. Systems Physiology Laboratory.**

Using an inquiry-based approach, provides students with an opportunity for hands-on experience in human physiology. Students read primary scientific literature; collect, analyze, and present data; and write detailed reports on laboratory activities. Four laboratory hours a week for one semester. May not be counted by students with credit for Biology 416L. Prerequisite: Biology 325 or 325H with a grade of at least C-, and credit or registration for Biology 365S.

### **BIO 365W. Neurobiology of Addiction.**

Study of the neurobiology of neurotransmitters, and the influence of alcohol and drugs of abuse on neurotransmitters. Three lecture hours a week for one semester. Prerequisite: Biology 365R or 371M with a grade of at least C-.

### **BIO 366. Microbial Genetics.**

Molecular biology of nucleic acids; biosynthesis of macromolecules, transfer of genetic material from cell to cell, recombination, mutagenesis, and regulatory mechanisms. Three lecture hours a week for one semester. Biology 366 and 391S may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Biology 326R (or 226R) with a grade of at least C-.

### **BIO 366C. Ion Channels and the Molecular Physiology of Neuronal Signaling.**

Explores the role of molecular conformational changes in higher-level neuronal function and sensory transduction, including the generation and regulation of diverse types of neuronal signaling characteristics. Emphasizes a quantitative approach and the use of models to study function. Three lecture hours a week for one semester. Biology 337 (Topic: Ion Channels and the Molecular Physiology of Neuronal Signaling) and 366C may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 366D. Synaptic Physiology and Plasticity.**

Detailed study of the physiology of synaptic transmission in the mammalian central nervous system. Covers dendritic integration and various forms and mechanisms of synaptic plasticity. Three lecture hours a week for one semester. Biology 337 (Topic: Synaptic Physiology and Plasticity in the Central Nervous System) and Biology 366D may not both be counted. Prerequisite: The following courses,

with a grade of at least C- in each: Biology 366C; Mathematics 408D, 408L, or 408S; and Physics 303L, 316, or 317L.

### **BIO 366E. Visual Neuroscience.**

Physiology of the eye, the retina, and the visual pathways; prospects for nutritional prevention of blinding eye diseases; functional and ecological adaptations of primate vision. Three lecture hours and one laboratory hour a week for one semester. Biology 337 (Topic: Visual Neuroscience) and Biology 366E may not both be counted. Prerequisite: Biology 365R with a grade of at least C-.

### **BIO 366F. Infrastructure of Synaptic Connections in the Brain.**

Synaptic basis of learning and memory, normal development of synaptic circuits and impact of mental retardation, sleep, stress, recovery from brain trauma, Alzheimer's disease, and related topics. Three lecture hours a week for one semester. Biology 337 (Topic: Neurobiology of Synaptic Circuits) and 366F may not both be counted. Prerequisite: Biology 365R with a grade of at least C-.

### **BIO 366L. Neuroimaging Laboratory.**

Basic principles of image formation and techniques of fluorescent imaging and confocal laser-scanning microscopy. Includes image processing and analysis to extract quantitative information from digital images. Survey of imaging techniques, including electron microscopy and functional MRI. One lecture hour and four laboratory hours a week for one semester. Biology 337 (Topic: Microscopy and Fluorescence Imaging Laboratory) and 366L may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least a C-.

### **BIO 366M. Mathematical and Computational Neuroscience I.**

Same as Neuroscience 366M. First course in a two-semester sequence on mathematical and computational neuroscience. Exploration of linear systems, including linear algebra, differential equations, Fourier analysis, convolution, and related areas, with an emphasis on applications to neuroscience. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-; and credit or registration for Neuroscience 335 and Mathematics 408D or 408M.

### **BIO 366N. Mathematical and Computational Neuroscience II.**

Same as Neuroscience 366N. Continuation of Biology 366M or Neuroscience 366M. Topics include various mathematical and computational areas that are common in neuroscience research, with emphasis on nonlinear systems, probability, random processes, information theory, and their applications in neuroscience. Three lecture hours a week for one semester. Prerequisite: Biology 366M or Neuroscience 366M.

### **BIO 366P. Laboratory in Psychophysics.**

Studies the principles of experimental design, execution, and interpretation by having students measure their own perceptual and behavioral responses to visual and auditory tests. Includes data analysis, statistical significance, and interpretation. Five laboratory hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 366R. Molecular Genetics.**

Techniques used for studying molecular biology and transgenic organisms. Includes advanced genetics and the molecular genetics used in clinical applications. Three lecture hours a week for one

semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 366S. Laboratory in Neuromolecular and Developmental Biology.**

Practice with modern techniques used to study the molecular basis for nervous system development, function, and disease in vertebrate and invertebrate model systems. Subjects may include the cellular localization of neural proteins and how mutation of neural genes affects behaviors. Six laboratory hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 367F. Foundations of Human Neuroimaging.**

Survey of neuroimaging methods and results with particular emphasis on vision science. Describes the physical and physiological mechanisms of image formation. Three lecture hours a week for one semester. Biology 337 (Topic: Foundations of Human Neuroimaging) and 367F may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 367V. Evolutionary Neurobiology.**

Examination of the nervous system in an evolutionary context. Three lecture hours a week for one semester. Biology 337 (Topic: Evolutionary Neurobiology) and 367V may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 368L. Techniques in Molecular Genetics.**

Laboratory experience in mutagenesis, transformation, transduction, isolation of plasmid and bacteriophage DNA, in vitro recombinant DNA procedures, and DNA base sequencing. One lecture hour and seven laboratory hours a week for one semester. Biology 368L and 390P may not both be counted. Prerequisite: Biology 325 or 325H, and 126L with a grade of at least C- in each.

### **BIO 369L. Herpetology.**

Biology of amphibians and reptiles, including evolution, ecology, behavior, physiology, life history, and field identification. Three lecture hours and three laboratory hours a week for one semester, with weekend field trips to be arranged. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Biology 455L, 357, 359K, or 478L with a grade of at least C-.

### **BIO 370. Evolution.**

Introduction to modern evolutionary biology, focusing on the evolution of molecular, developmental, morphological, and behavioral traits. Genetic and ecological bases of evolutionary changes within populations and of evolutionary divergence in animals and plants. Three lecture hours and one discussion hour a week for one semester. Biology 370 and 385K (Topic 2: Evolution) may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 170C, 270C, 370C, 470C. Conference Course.**

Supervised study of selected topics in biology, by individual arrangement with the instructor. Conference course. Some sections are offered on the pass/fail basis only; these are identified in the Course Schedule. May be repeated for credit when the topics vary. Prerequisite: Biology 325 or 325H with a grade of at least C-. Additional prerequisites vary with the topic and are given in the Course Schedule.

### **BIO 471G. Natural History Museum Science.**

An introduction to curatorial practices in natural history museums. Three lecture hours and one discussion hour a week for one semester;

students also complete a twenty- to thirty-hour curatorial project. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 371L. Experimental Physiology.**

Experimental approach to physiological mechanisms by which animals adapt to their environment. One lecture hour, four laboratory hours, and two hours of computer work a week for one semester. Prerequisite: Biology 205L, 206L, 208L, or 126L with a grade of at least C-; and Biology 325 or 325H with a grade of at least C-.

### **BIO 371M. Neuronal Basis of Brain and Behavior.**

The nervous system, with emphasis on vertebrate neurobiology. Three lecture hours and one discussion hour a week for one semester. Biology 365R and 371M may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 472L. Taxonomic Plant Anatomy.**

An advanced course emphasizing those aspects of plant anatomy that are most reliable and useful for systematic purposes. Three lecture hours and two laboratory hours a week for one semester. Biology 472L and 487G may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Biology 374 and 174L with a grade of at least C- in each.

### **BIO 373. Ecology.**

An introduction to ecology, the study of relationships among organisms and between organisms and their environment; adaptations, population, communities, and ecosystems. Includes both plants and animals and both terrestrial and aquatic ecosystems. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 373L. Ecology Laboratory.**

Intensive field ecology. Includes group field experiment and observation, independent projects, and field trips to other vegetation zones. Students complete weekly write-ups of observation and data analysis, reports of independent projects, and an oral presentation on an independent project. Four laboratory hours and two workshop/lecture hours a week for one semester. Prerequisite: Credit or registration for Biology 373.

### **BIO 374. Plant Anatomy with Histological Techniques.**

Tissue organization and cellular details of stems, roots, and leaves of seed plants, with emphasis on development and function. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and concurrent enrollment in Biology 174L.

### **BIO 174L. Laboratory in Plant Anatomy and Histological Techniques.**

Demonstration of cellular details and tissue systems of plant organs; instruction in the preparation of plant materials for histological examination. Three laboratory hours a week for one semester. Prerequisite: Credit with a grade of at least C- or registration for Biology 374.

### **BIO 375. Conservation Biology.**

Application of principles of ecology to the preservation of wild plant and animal species and to the preservation, management, and restoration of natural and seminatural ecosystems. Emphasis on scientific, biological aspects of issues such as endangered species protection, preserve design, and forest management. Three lecture hours a week

for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Biology 357, 359J, or 373 with a grade of at least C-.

### **BIO 177, 277, 377. Undergraduate Research.**

Laboratory or field research in the various fields of biological science under the supervision of one or more faculty members. Supervised individual research. Up to three semester hours may be counted toward the major requirement for the Bachelor of Arts degree with a major in biology. May be repeated for credit. Prerequisite: Biology 325 or 325H with a grade of at least C-, and written consent of instructor.

### **BIO 478L. Comparative Vertebrate Anatomy.**

Study of vertebrate morphology from developmental anatomy to the function, biomechanics, and phylogenetic relationships of living and fossil taxa. Three lecture hours and four laboratory hours a week for one semester. Biology 478L and Kinesiology 324K may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-.

### **BIO 478T. Natural Resource Management.**

Land management, policy and regulation development, and ecological "footprint" evaluation. Students have the opportunity for practical application of these subjects through off-campus field projects. Three lecture hours and two hours of discussion or fieldwork a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-; and one of the following courses or consent of instructor: Biology 351, 357, 373, 375, Geography 334, 346.

### **BIO 379G. Advanced Mammalian Genetics.**

Molecular developmental genetics and review of classical genetics. Possible topics include but are not limited to cancer, AIDS, forensic genetics, genomics, and gene therapy. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least B-.

### **BIO 379H, 679H. Honors Tutorial Course.**

Original laboratory or field research project under the direction of a faculty mentor, leading to a thesis or research presentation for students in the honors program in biology. The equivalent of three or six lecture hours a week for one semester. May be repeated for credit, but no more than six hours may be counted toward a degree in biology. Prerequisite: Consent of the student's research supervisor and the departmental honors adviser.

### **BIO 379J. Regulation of Eukaryotic Gene Expression.**

Enrollment is limited to upper-division undergraduates. Study of gene expression and its regulation in eukaryotes at the transcriptional and post-transcriptional levels. Includes transcription, RNA splicing, polyadenylation, RNA and RNA-protein interactions. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-; and Chemistry 339K and 339L, or Chemistry 369.

## **Public Health: PBH**

### **Lower-Division Courses**

#### **PBH 317. Introduction to Public Health.**

Same as Biology 317. Overview and basic principles of public health, including the public health system, concepts and tools for measuring health in populations, the relationship between public health and the medical care system, and the role of law and government in public health. Three lecture hours a week for one semester.

## **Upper-Division Courses**

#### **PBH 334. Global Health.**

Same as Biology 334. Global health issues, including the principles of global health, the burden of morbidity and mortality, health determinants, health care and public health systems, socioeconomic development, and human rights. Three lecture hours a week for one semester. Prerequisite: Biology 317 or Public Health 317 with a grade of at least C-, and Biology 325 or 325H with a grade of at least C-.

#### **PBH 338. Environmental Health.**

Same as Biology 338. Introduction to the major areas of environmental health, including hazards in the environment, the effects of environmental contaminants, and various approaches to addressing major environmental health problems. Three lecture hours a week for one semester. Prerequisite: Biology 317 or Public Health 317 with a grade of at least C-, and Biology 325 or 325H with a grade of at least C-.

#### **PBH 341R. Public Health Research.**

Same as Biology 341R. Students conduct public health research, mentored by professionals at public health practice agencies or faculty at graduate schools of public health throughout Texas. An average of twelve hours of fieldwork a week for a total of at least 180 hours. May be repeated for credit. Prerequisite: Biology 325 or 325H with a grade of at least C-; students must also submit a proposal to the instructor.

#### **PBH 354. Epidemiology.**

Same as Biology 354. Introduction to basic principles and concepts in epidemiology, including descriptive epidemiology, association and causation, basic epidemiological study design, evidence-based decision analysis, and applications of epidemiology methods to basic and clinical science. Three lecture hours a week for one semester. Prerequisite: Biology 317 or Public Health 317 with a grade of at least C-, and Biology 325 or 325H with a grade of at least C-.

#### **PBH 358D. Health Policy and Health Systems.**

Covers the essentials of health policy and law, including the ways that policy and legal issues impact health care and public health systems. Three lecture hours a week for one semester. Public Health 358D and Sociology 358D may not both be counted. Prerequisite: Upper-division standing, and Biology 317 or Public Health 317 with a grade of at least B-.

#### **PBH 368D. Social Context of Public Health.**

An introduction to the social and behavioral theories that inform the discipline of public health, including practical examples of the ways that these theories are used to understand health-related behaviors and health promotion. Includes data on population distributions of mortality and morbidity, health inequalities, and how underlying social structures impact the health of individuals and communities. Three lecture hours a week for one semester. Public Health 368D and Sociology 368D may not both be counted. Prerequisite: Upper-division standing, and Biology 317 or Public Health 317 with a grade of at least B-.

## **Department of Chemistry and Biochemistry**

Students seeking the degree of Bachelor of Science in Chemical Engineering, Bachelor of Science in Chemistry, or Bachelor of Science in Physics must take the University of Texas at Austin Test for Credit in

Chemistry 301 if they were admitted to the University with high school credit in chemistry. Engineering majors in areas other than chemical engineering are also encouraged to take the test. Students with three semesters or more of high school chemistry that included laboratory experience, or credit for Chemistry 301 or 301H, are encouraged to take the University of Texas at Austin Test for Credit in Chemistry 302. These tests are offered only in Austin. Information about them is available at <http://ctl.utexas.edu/programs-and-services/student-testing-services>.

Each student planning to register for a chemistry course should consult an adviser in his or her major area to determine whether specific courses are required.

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 627).

## Biochemistry: BCH

### Lower-Division Courses

#### **BCH 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Biochemistry.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Chemistry and Biochemistry. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### Upper-Division Courses

#### **BCH 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Biochemistry.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Chemistry and Biochemistry. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

## Chemistry: CH

### Lower-Division Courses

#### **CH 301 (TCCN: CHEM 1311). Principles of Chemistry I.**

Three lecture hours a week for one semester. Some sections also require one enrichment/discussion hour a week; these are identified in the Course Schedule. Chemistry 301 and 301H may not both be counted. Prerequisite: Credit with a grade of at least C- or registration for one of the following: Mathematics 305G, 408C, 408D, 408K, 408L, 408M, 408N, 408S, Statistics and Scientific Computation 302; and an appropriate score on the ALEKS chemistry placement examination.

#### **CH 301H. Principles of Chemistry I: Honors.**

Three lecture hours a week for one semester. Chemistry 301 and 301H may not both be counted. Prerequisite: Credit with a grade of at least C- or registration for one of the following: Mathematics

408C, 408D, 408K, 408L, 408M, 408N, 408S; an appropriate score on the ALEKS chemistry placement examination; and consent of the departmental honors adviser.

#### **CH 302 (TCCN: CHEM 1312). Principles of Chemistry II.**

Development and application of concepts, theories, and laws underlying chemistry. Three lecture hours a week for one semester. Some sections also require one enrichment/discussion hour a week; these are identified in the Course Schedule. Chemistry 302 and 302H may not both be counted. Prerequisite: Chemistry 301 or 301H with a grade of at least C-; and credit with a grade of at least C- or registration for one of the following: Mathematics 408C, 408D, 408K, 408L, 408M, 408N, 408S.

#### **CH 302H. Principles of Chemistry II: Honors.**

Three lecture hours a week for one semester. Chemistry 302 and 302H may not both be counted. Prerequisite: Chemistry 301 or 301H with a grade of at least C-; credit with a grade of at least C- or registration for one of the following: Mathematics 408C, 408D, 408K, 408L, 408M, 408N, 408S; and consent of the departmental honors adviser.

#### **CH 303. Mathematical Introduction to Theories of Matter.**

Introduction to the quantum theoretic description of atoms, molecules, solids, nuclei, elementary particles, and cosmology. Matrix mechanics and group theory. Three lecture hours a week for one semester. Chemistry 303 may be used instead of either Chemistry 302 or Chemistry 301 and 302 in fulfilling the prerequisites of other chemistry courses, except by students seeking the Bachelor of Science in Chemistry degree. Chemistry 303 may be counted in addition to Chemistry 301 and 302. Not recommended by the Health Professions Office for Medical College Admission Test preparation.

#### **CH 204 (TCCN: CHEM 1111, CHEM 1112). Introduction to Chemical Practice.**

Introduction to the techniques of modern experimental chemistry. Designed to provide basic laboratory and analytical skills. May include organic, analytical, and physical chemistry, as well as materials science. Four laboratory hours and one hour of discussion a week for one semester. Some sections may also require one hour of computer laboratory a week. Chemistry 204 and 317 may not both be counted. Prerequisite: Credit or registration for Chemistry 302.

#### **CH 304K. Chemistry in Context I.**

Designed for nonscience majors. Chemistry 304K and 305 form a two-semester sequence designed to fulfill the science requirement for students not majoring in science or engineering. Issues of contemporary interest and importance, such as ozone depletion and global warming, motivate the discussion; the underlying chemistry is developed as needed. Social, political, economic, and ethical implications of scientific developments and science policy are considered. Chemistry 304K addresses the nature of matter, energy, chemical reactions, and chemical thermodynamics. Not intended as preparation for Chemistry 301. Three lecture hours a week for one semester. May not be counted toward a degree in the College of Natural Sciences. May not be counted by students with credit for Chemistry 301 with a grade of at least C-.

#### **CH 305. Chemistry in Context II.**

Designed for nonscience majors. Chemistry 304K and 305 form a two-semester sequence designed to fulfill the science requirement for students not majoring in science or engineering. Chemistry 305 addresses water chemistry, acids and bases, elementary organic

chemistry, polymers, pharmaceuticals, nutrition, and genetics. Three lecture hours a week for one semester. May not be counted toward a degree in the College of Natural Sciences. May not be counted by students with credit for Chemistry 302 with a grade of at least C-. Prerequisite: Chemistry 301 or 304K.

#### **CH 206K. Undergraduate Research.**

Introduction to research practices; supervised individual undergraduate research in chemistry. Six to ten laboratory hours a week for one semester. May be repeated for credit, but no more than four semester hours may be counted toward a degree in chemistry or biochemistry. Hours beyond four must be taken on the pass/fail basis. May be repeated for credit. Prerequisite: Consent of the undergraduate adviser in chemistry.

#### **CH 107, 207. Conference Course.**

Supervised study in chemistry. One discussion hour a week for one semester, with additional hours to be arranged. Some sections are offered on the pass/fail basis only; these are identified in the Course Schedule. May not be counted toward a major or minor in chemistry or biochemistry. May be repeated for credit when the topics vary. Prerequisite: Written consent of instructor.

#### **CH 207K. Introduction to Science Outreach in Elementary Schools.**

Students develop and present level-appropriate science laboratories to students in local elementary schools. A hands-on, discovery learning approach to science is emphasized. One class hour and four hours of fieldwork a week for one semester. May be counted as an elective only. Prerequisite: Consent of the UTeach adviser in the College of Natural Sciences.

#### **CH 207L. Peer Teaching.**

Students act as peer teaching assistants in other University chemistry courses, mainly large general chemistry lecture sections. Two hours of lecture and training a week for one semester, and two to three hours a week leading student group discussions. May not be counted toward any degree in chemistry or biochemistry. Prerequisite: Chemistry 301 and consent of the coordinator of the Peer Teaching Assistant Program.

#### **CH 108, 208, 308, 408. Topics in Chemistry.**

For each semester hour of credit earned, one lecture hour a week for one semester; some topics may require additional discussion hours. Some sections are offered on the pass/fail basis only. May not be counted toward a major or minor in chemistry or biochemistry. May be repeated for credit when the topics vary.

#### **CH 110K (TCCN: CHEM 2123). Organic Chemistry Laboratory.**

Primarily for premedical, predoctoral, life sciences, and pharmacy majors. One lecture hour and three laboratory hours a week for one semester. May not be counted by students with credit for Chemistry 210C. Chemistry 110K and 118K may not both be counted. Prerequisite: Chemistry 302 and 204 with a grade of at least C- in each, and credit or registration for Chemistry 310M.

#### **CH 110L (TCCN: CHEM 2125). Organic Chemistry Laboratory.**

Primarily for premedical, predoctoral, life sciences, and pharmacy majors. One lecture hour and three laboratory hours a week for one semester. Only one of the following may be counted: Chemistry 210C,

110L, 118L. Prerequisite: Chemistry 310M with a grade of at least C-, 110K, and credit or registration for Chemistry 310N.

#### **CH 317. Descriptive Inorganic Chemistry for Chemistry and Biochemistry Majors.**

Synthesis and properties of inorganic, bioinorganic, and organometallic compounds. One lecture hour and six laboratory hours a week for one semester. Chemistry 204 and 317 may not both be counted. Prerequisite: Credit or registration for Chemistry 302.

#### **CH 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Chemistry.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Chemistry and Biochemistry. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **Upper-Division Courses**

#### **CH 220C. Organic Chemistry Laboratory.**

One lecture hour and five laboratory hours a week for one semester. Only one of the following may be counted: Chemistry 210C, 110L, 118L, 220C, 128L. Prerequisite: Credit or registration for Chemistry 310N or 320N; and the following coursework with a grade of at least C- in each: Chemistry 204 or 317; and 310M, 318M, 320M, or 328M.

#### **CH 320M. Organic Chemistry I.**

Primarily for premedical, predoctoral, life sciences, and pharmacy majors. Development of organic chemical structure, nomenclature, and reactivity. Three lecture hours a week for one semester. Only one of the following may be counted: Chemistry 610A, 310M, 618A, 318M, 320M, 328M. Prerequisite: Chemistry 302 or 302H with a grade of at least C-, and credit or registration for Chemistry 204 or 317.

#### **CH 320N. Organic Chemistry II.**

Primarily for premedical, predoctoral, life sciences, and pharmacy majors. The development of organic chemical functional group reactivity, reaction mechanics, with analogous aqueous transformations in biochemical settings. Three lecture hours a week for one semester. Only one of the following may be counted: Chemistry 610B, 310N, 618B, 318N, 320N, 328N. Prerequisite: Credit or registration for Chemistry 210C or 220C; and the following coursework with a grade of at least C- in each: Chemistry 204 or 317; and 310M, 318M, 320M, or 328M.

#### **CH 128K. Organic Chemistry Laboratory.**

One lecture hour and three laboratory hours a week for one semester. May not be counted by students with credit for Chemistry 210C or 220C. Only one of the following may be counted: Chemistry 110K, 118K, 128K. Prerequisite: Credit or registration for Chemistry 318M or 328M; and the following coursework with a grade of at least C-: Chemistry 302 or 302H; and 204 or 317.

#### **CH 128L. Organic Chemistry Laboratory.**

One lecture hour and three laboratory hours a week for one semester. May not be counted by students with credit for Chemistry 210C or 220C. Only one of the following may be counted: Chemistry 110L, 118L, 128L. Prerequisite: Credit or registration for Chemistry 318N or

328N; and the following coursework with a grade of at least C- in each: Chemistry 118K or 128K; and 318M or 328M.

### **CH 328M. Organic Chemistry I.**

Primarily for chemistry and chemical engineering majors. The development of organic chemical structure, nomenclature, and reactivity. Three lecture hours a week for one semester. Only one of the following may be counted: Chemistry 610A, 310M, 618A, 318M, 320M, 328M. Prerequisite: Credit or registration for Chemistry 118K or 128K; and the following coursework with a grade of at least C- in each: Chemistry 302 or 302H; and 204 or 317.

### **CH 328N. Organic Chemistry II.**

Primarily for chemistry and chemical engineering majors. The development of organic chemical reactivity, with an emphasis on synthesis and polymers. Three lecture hours a week for one semester. Only one of the following may be counted: Chemistry 610B, 310N, 618B, 318N, 320N, 328N. Prerequisite: Credit or registration for Chemistry 118L or 128L; and the following coursework with a grade of at least C- in each: Chemistry 318M or 328M, and 118K or 128K.

### **CH 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Chemistry.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Chemistry and Biochemistry. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **CH 329W. Cooperative Chemistry/Biochemistry.**

This course covers the work period of chemistry and biochemistry students in the Cooperative Education program, which provides supervised work experience by arrangement with the employer and the supervising instructor. Forty laboratory hours a week for one semester. The student must repeat the course each work period and must take it twice to receive credit toward the degree; at least one of these registrations must be during a long-session semester. No more than three semester hours may be counted toward the major requirement; no more than six semester hours may be counted toward the degree. The student's first registration must be on the pass/fail basis. Prerequisite: Chemistry 310N or 318N with a grade of at least C-, application to become a member of the Cooperative Chemistry/Biochemistry Program, and consent of the Department of Chemistry and Biochemistry undergraduate adviser.

### **CH 431. Inorganic Chemistry.**

Survey of the chemistry of the elements, incorporating both descriptive and theoretical aspects. Open-ended experiments designed to illustrate a variety of synthetic techniques. Three lecture hours and three laboratory hours a week for one semester. Prerequisite: Chemistry 302, and either Chemistry 204 or 317 with a grade of at least C-.

### **CH 339J. Chemical and Synthetic Biology.**

Same as Systems and Synthetic Biology 339J. Covers enzymatic reaction mechanisms and how they can be manipulated using tools both from chemistry and molecular biology. Includes the study of enzymatic reaction mechanisms and the engineering of metabolic pathways and organisms. Course is designed for students pursuing careers in pharmaceutical and biotechnology careers. Three lecture

hours a week for one semester. Prerequisite: Chemistry 310M, 318M, 320M, or 328M with a grade of at least C-.

### **CH 339K. Biochemistry I.**

Chemistry 339K and 339L should be taken as a two-semester sequence. Students who do not plan to take Chemistry 339L should register for Chemistry 369 rather than 339K. Structure and function of amino acids, proteins, carbohydrates, lipids, and nucleic acids. Three lecture hours a week for one semester. Chemistry 339K and 369 may not both be counted. Prerequisite: Chemistry 310M, 318M, 320M, or 328M with a grade of at least C-.

### **CH 339L. Biochemistry II.**

A second-semester biochemistry course designed for chemistry, premedical, pre dental, and life sciences majors. Biosynthesis of nucleic acids and proteins. Three lecture hours a week for one semester. Prerequisite: Chemistry 339K with a grade of at least C-.

### **CH 341. Special Topics in Laboratory Chemistry.**

Examples of topics are physical measurements techniques; electronics for scientists; advanced synthetic chemistry (organic or inorganic); separation techniques. One lecture hour and six laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Eight semester hours of coursework in organic chemistry and consent of the undergraduate adviser.

### **CH 644. Chemical Education: Secondary School.**

Issues and techniques in secondary school teaching of chemical sciences. Three lecture hours a week for two semesters. For students seeking the Bachelor of Science in Chemistry: Teaching Option degree. May not be counted toward any other degree in chemistry or biochemistry. Prerequisite: For 644A, eight semester hours of coursework in organic chemistry and credit or registration for Chemistry 144K; for 644B, Chemistry 644A, 144K, and credit or registration for Chemistry 144L.

### **CH 144K. Chemical Education Laboratory I.**

Development of classroom demonstrations, laboratory experiments, and teaching aids for secondary school teaching of the chemical sciences. Two laboratory hours a week for one semester. For students seeking the Bachelor of Science in Chemistry: Teaching Option degree. May not be counted toward any other degree in chemistry or biochemistry. Prerequisite: Credit or registration for Chemistry 644A.

### **CH 144L. Chemical Education Laboratory II.**

Development of classroom demonstrations, laboratory experiments, and teaching aids for secondary school teaching of the chemical sciences. Two laboratory hours a week for one semester. For students seeking the Bachelor of Science in Chemistry: Teaching Option degree. May not be counted toward any other degree in chemistry or biochemistry. Prerequisite: Credit or registration for Chemistry 644B.

### **CH 353. Physical Chemistry I.**

For chemistry and chemical engineering majors. Equations of state, laws of thermodynamics, ideal and nonideal solutions, phase equilibria, thermodynamics of chemical reactions. Three lecture hours a week for one semester. Chemistry 353 and 353M may not both be counted. Prerequisite: Mathematics 408C and 408D, or two of the following: Mathematics 408K, 408L, 408M, 408N, 408S; Chemistry 302 or 302H with a grade of at least C-; and Physics 316 and 116L, 303L and 103N, or 317L and 117N.

### **CH 153K. Physical Chemistry Laboratory.**

Three laboratory hours a week for one semester. Prerequisite: Chemistry 353 or 353M with a grade of at least C-.

### **CH 353M. Physical Chemistry I for Life Sciences.**

For biochemistry and biology majors. Thermochemistry and kinetics of reactions in cells, enzyme catalysis, electrical and transport properties of membranes. Three lecture hours a week for one semester.

Chemistry 353 and 353M may not both be counted. Prerequisite: Mathematics 408C and 408D, or two of the following: Mathematics 408K, 408L, 408M, 408N, 408S; Chemistry 302 or 302H with a grade of at least C-; and Physics 316 and 116L, 303L and 103N, or 317L and 117N.

### **CH 354. Quantum Chemistry and Spectroscopy.**

Fundamental principles of quantum mechanics, exactly soluble model problems, electronic structure of atoms and molecules, spectroscopy. Three lecture hours a week for one semester.

Prerequisite: Mathematics 408C and 408D, or two of the following: Mathematics 408K, 408L, 408M, 408N, 408S; and Physics 316 and 116L.

### **CH 154K. Physical Chemistry Laboratory.**

Three laboratory hours a week for one semester. Prerequisite: Chemistry 353 or 353M with a grade of at least C-, and credit or registration for Chemistry 354 or 354L.

### **CH 354L. Physical Chemistry II.**

Molecular energy levels, statistical thermodynamics (macroscopic thermodynamic functions from molecular input), and physical and chemical kinetics, with emphasis on the molecular viewpoint. Three lecture hours a week for one semester. May be counted toward a biochemistry or chemistry degree. Chemistry 354, rather than this course, is recommended for students planning graduate study in chemistry. Prerequisite: Chemistry 353 or 353M with a grade of at least C-.

### **CH 354S. Elements of Spectroscopy.**

Primarily for chemistry and biochemistry majors. Fundamentals of spectroscopy, with knowledge of elementary quantum mechanics. Separation of electronic, vibrational, rotational and spin quantum states; interaction of radiation and matter; theory and application of different types of spectroscopy including photoelectron, electronic absorption and emission, vibrational (infrared and Raman), rotational and magnetic resonance. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each: Chemistry 353 or 353M, and 354 or 354L.

### **CH 455. Fundamentals of Analytical Chemistry.**

For biochemistry, engineering, and clinical laboratory science majors. Chemical and instrumental methods in analytical chemistry. Three lecture hours and three laboratory hours a week for one semester. Chemistry 455 and 456 may not both be counted. Prerequisite: Chemistry 302 and either 204 or 317, with a grade of at least C- in each.

### **CH 456. Analytical Chemistry.**

For chemistry majors. Three lecture hours and three laboratory hours a week for one semester. Chemistry 455 and 456 may not both be counted. Prerequisite: Chemistry 302 or 302H with a grade of at least C-, and Chemistry 204 or 317 with a grade of at least C-.

### **CH 364C. Bioinformatics.**

Same as Systems and Synthetic Biology 364C. Restricted to biochemistry majors. Topics include physical methods for the study of macromolecules; chemistry of proteins; enzyme chemistry; regulatory mechanisms for gene expression; protein-nucleic acid interactions.

Three lecture hours a week for one semester. Prerequisite: Chemistry 339K with a grade of at least B, Computer Science 303E or 312 with a grade of at least C-, and Statistics and Scientific Computation 321 with a grade of at least C-.

### **CH 364D. Macromolecular Structure Determination.**

Restricted to biochemistry majors. Emphasis on X-ray crystallography and nuclear magnetic resonance (NMR) spectroscopy of proteins.

Investigation of theories and practices of the most relevant techniques in macromolecular structure determination. Use of the X-ray and NMR facilities to collect data that is used to solve protein structures. Three lecture hours a week for one semester. Prerequisite: Chemistry 339K and 339L with a grade of at least B in each, and consent of instructor.

### **CH 364E. Systems Biology.**

Restricted to biochemistry majors. Survey of current high-throughput technologies and computational methods for generating data and integrating information at all levels of biological organization. Emphasis on how hypotheses can be generated and tested with these techniques to better understand how model organisms function and evolve. Three lecture hours a week for one semester. Prerequisite: Chemistry 339K and 339L with a grade of at least B in each, and consent of instructor.

### **CH 364F. Astrobiology.**

Restricted to biochemistry majors. An overview of the science being used in the search for extraterrestrial life; life origins, earth history, evolution, metabolism of extremophiles, biochemistry, and astronomy. Three lecture hours a week for one semester. Prerequisite: Chemistry 339K and 339L with a grade of at least B in each, and consent of instructor.

### **CH 365D. Structure and Function of Proteins and Nucleic Acids.**

Restricted to biochemistry majors. Exploration of the structures and functions of proteins and nucleic acids, utilizing quantitative methods to evaluate the roles of structural features in function and in developing new ways of thinking about the dynamics of macromolecules. Three lecture hours a week for one semester. Prerequisite: Chemistry 339K, 339L, and 370 with a grade of at least B in each, and consent of instructor.

### **CH 367C. Materials Chemistry.**

Restricted to chemistry majors. Introduction to structural and physical properties of materials and synthetic strategies for making new materials in the nanoscale and mesoscale regimes, in addition to covering instrumental methods used to probe materials properties. Some aspects of applications (semiconductor devices, solar and fuel cells, smart and responsive materials) will be covered to illustrate the kinds of material properties that need to be considered in designing novel materials of specific function. Three lecture hours a week for one semester. Prerequisite: Upper-division standing, and Chemistry 302 and 353 with a grade of at least C- in each. Chemistry 431 or 354L with a grade of at least C- is recommended.

### **CH 367L. Macromolecular Chemistry.**

Designed for chemistry and chemical engineering students. Occurrence, preparation, structure, and properties of macromolecular

substances. Three lecture hours a week for one semester. Prerequisite: Chemistry 310M and 310N or Chemistry 318M and 318N; Chemistry 210C, or 118K and 118L; and Chemistry 353 or 353M with a grade of at least C-.

### **CH 368. Advanced Topics in Chemistry.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: 310M and 310N or Chemistry 318M and 318N; Chemistry 353 or 353M with a grade of at least C-; and Chemistry 354 or 354L with a grade of at least C-.

**Topic 1: Research Methods: UTeach.** Restricted to students in the UTeach-Natural Sciences program. Students use mathematics and science skills to solve research problems.

### **CH 369. Fundamentals of Biochemistry.**

A survey course covering the basics of protein structure and function, carbon and nitrogen metabolism, and molecular biology of macromolecules. Three lecture hours a week for one semester. Chemistry 339K and 369 may not both be counted. May not be counted by biochemistry majors. Prerequisite: Chemistry 310M or 318M with a grade of at least C-.

### **CH 369K. Techniques of Research.**

Advanced laboratory practice and introduction to research. One lecture hour and six laboratory hours a week for one semester. May be taken for a letter grade no more than twice. No more than six semester hours may be counted toward a degree in chemistry or biochemistry. May be repeated for credit. Prerequisite: Eight semester hours of coursework in organic chemistry; and six semester hours of upper-division chemistry courses approved by the undergraduate adviser's office, or consent of the undergraduate adviser in chemistry.

### **CH 369L. Biochemistry Laboratory.**

An introduction to modern fundamental techniques of biochemistry. Two lecture hours and seven laboratory hours a week for one semester. Prerequisite: Chemistry 339K and credit or registration for 339L.

### **CH 369T. Biotechnology Laboratory.**

Advanced techniques in biotechnology. Nine laboratory hours a week for one semester. Prerequisite: Consent of instructor.

### **CH 370. Physical Methods for Biochemistry.**

Theory of electrophoresis, ultracentrifugation, spectroscopy, electron microscopy, and diffraction as applied to biological macromolecules. Three lecture hours a week for one semester. Prerequisite: Chemistry 339K with a grade of at least C-.

### **CH 371K. Science Outreach in Elementary Schools.**

Students develop and present level-appropriate science laboratories to students in local elementary schools. Students also plan and create the infrastructure needed to administer the science program in concert with the science curriculum at a specific elementary school. A hands-on, discovery learning approach to science is emphasized. One class hour and six hours of fieldwork a week for one semester. May be taken for a letter grade no more than twice. No more than six semester hours may be counted toward a degree in chemistry or biochemistry. May be repeated for credit. Prerequisite: Upper-division standing, at least six hours of upper-division coursework in the College of Natural Sciences, and consent of the UTeach adviser in the College of Natural Sciences.

### **CH 372C. Chemistry Peer Mentors in Research and Teaching.**

Students work as peer mentors and assistants in the teaching of chemistry, with emphasis on developing instructional materials and laboratories that teach fundamental chemistry with real world data. Students mentor students for at least six hours a week in addition to other weekly meetings. May be taken for a letter grade no more than twice. No more than six semester hours may be counted toward a degree in chemistry or biochemistry. May be repeated for credit. Prerequisite: Chemistry 301 or 301H and 302 or 302H with a grade of at least B in each, and consent of the undergraduate adviser.

### **CH 375K, 475K. Individual Study in Chemistry and Biochemistry.**

Supervised reading or individual tutorial sessions on advanced topics in chemistry and biochemistry. Three or four class hours a week for one semester. No more than six semester hours may be counted toward a degree in chemistry or biochemistry. May be repeated for credit. Prerequisite: Eight semester hours of coursework in organic chemistry, Chemistry 353, and consent of the undergraduate adviser.

### **CH 376K. Advanced Analytical Chemistry.**

Two lecture hours and three laboratory hours a week for one semester. Prerequisite: Chemistry 353 and 456 with a grade of at least C- in each.

### **CH 379H. Chemistry Honors Tutorial Course.**

Laboratory research project in a specific field of chemistry under the supervision of one or more faculty members. Conference course. May be repeated once for credit. Must be taken in addition to the required hours for the Bachelor of Science in Chemistry degree. Students must enter no later than the first semester of the year of graduation. Prerequisite: Consent of the student's research supervisor and the departmental honors adviser.

## **Systems and Synthetic Biology: SSB**

### **Upper-Division Courses**

#### **SSB 339J. Chemical and Synthetic Biology.**

Same as Chemistry 339J. Covers enzymatic reaction mechanisms and how they can be manipulated using tools both from chemistry and molecular biology. Includes the study of enzymatic reaction mechanisms and the engineering of metabolic pathways and organisms. Course is designed for students pursuing careers in pharmaceutical and biotechnology careers. Three lecture hours a week for one semester. Prerequisite: Chemistry 310M, 318M, 320M, or 328M with a grade of at least C-.

#### **SSB 339Q. Systems Biology: Methods and Networks.**

Emphasis on understanding the methods used to gather and analyze a variety of systems level data, including genomics, proteomics, and metabolomics. Developing and testing network models of systems level data. Three lecture hours a week for one semester. Prerequisite: Chemistry 339K with a grade of at least B; Computer Science 303E or 312 with a grade of at least C-; and Statistics and Scientific Computation 321 with a grade of at least C-.

#### **SSB 364C. Bioinformatics.**

Same as Chemistry 364C. Restricted to biochemistry majors. Topics include physical methods for the study of macromolecules; chemistry of proteins; enzyme chemistry; regulatory mechanisms for gene

expression; protein-nucleic acid interactions. Three lecture hours a week for one semester. Prerequisite: Chemistry 339K with a grade of at least B, Computer Science 303E or 312 with a grade of at least C-, and Statistics and Scientific Computation 321 with a grade of at least C-.

## Department of Computer Science

An undergraduate may not enroll in any computer science course more than once without written consent of an undergraduate adviser in computer science. No student may enroll in any computer science course more than twice. No student may take more than three upper-division computer science courses in a semester without written consent of an undergraduate adviser in computer science.

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 627).

### Computer Science: C S

#### Lower-Division Courses

##### **C S 301K. Foundations of Logical Thought.**

Introductory logic in the context of computing; introduction to formal notations; basic proof techniques; sets, relations, and functions. Three lecture hours a week for one semester. Some sections also require one discussion hour a week; these are identified in the Course Schedule.

##### **C S 302. Computer Fluency.**

An introduction to the fundamental concepts of computing: how computers work, what they can do, and how they can be used effectively. Some programming is required. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Credit for Computer Science 302 may not be earned after a student has received credit for Computer Science 303E, 305J, 307, 312, 312H, 314, or 314H. May not be counted toward a degree in computer science.

##### **C S 303E. Elements of Computers and Programming.**

Problem solving and fundamental algorithms for various applications in science and business and on the World Wide Web. Introductory programming in a modern object-oriented programming language. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Computer Science 303E, 305J, 312, 312H. Credit for Computer Science 303E may not be earned after a student has received credit for Computer Science 307, 314, or 314H.

##### **C S 105. Computer Programming.**

An introduction to programming in a particular computer language. Students design and implement programs. One lecture hour a week for one semester. May be repeated for credit when the languages vary. Prerequisite: Computer Sciences 307, 313E, 314, 314H, or Electrical Engineering 422C (or 322C), with a grade of at least C-.

##### **C S 305J. Introduction to Computing.**

Introduction to computer science concepts. Programming in a modern object-oriented programming language. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Computer Science 303E, 305J, 312, 312H. Credit for Computer Science 305J may not be earned after a student has received credit for Computer Science 307, 314, or 314H. Prerequisite: Some knowledge of and experience in computer programming; and credit with a grade of at least C- or registration for Mathematics 305G, or equivalent score on the SAT Mathematics Level 1 or Level 2 test.

##### **C S 307. Foundations of Computer Science.**

Fundamental computer science concepts: data types, data structures, algorithms, and programming; functions and recursion; abstraction and encapsulation. Correctness: specification, testing, and proving. Simple sorting and searching algorithms. Introduction to analysis of algorithms. Three lecture hours and one laboratory hour a week for one semester. Only one of the following may be counted: Computer Science 307, 314, 314H. Prerequisite: Credit or registration for Mathematics 408C, 408K, or 408N, or a score of at least 520 on the SAT Mathematics Level 1 or Level 2 test; and one of the following: one year of programming in high school, Computer Science 303E or 305J with a grade of at least C-, consent of instructor.

##### **C S 108. Software Systems.**

Introduction to the use of a particular software system. Students build applications that exploit the system being studied. One lecture hour a week for one semester. May be repeated for credit when the topics vary. Offered on the pass/fail basis only. Prerequisite: Computer Science 307, 313E, 314, 314H, or Electrical Engineering 422C (or 322C), with a grade of at least C-.

##### **C S 109, 209, 309. Topics in Computer Science.**

For each semester hour of credit earned, one lecture hour a week for one semester. Some sections are offered on the pass/fail basis only. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

##### **C S 310. Computer Organization and Programming.**

Basic computer organization; machine representation of instructions and data; hardware/software interface. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Computer Science 310, 310H, 429, 429H. Prerequisite: Computer Science 307 with a grade of at least C-.

##### **C S 310H. Computer Organization and Programming: Honors.**

Basic computer organization; machine representation of instructions and data; hardware/software interface. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Computer Science 310, 310H, 429, 429H. Prerequisite: Computer Science 315 or 315H with a grade of at least C-, and consent of the honors director.

##### **C S 312. Introduction to Programming.**

First part of a two-part sequence in Java programming. Fundamental concepts of structured programming; procedures and data structures with a focus on problem solving strategies and implementation; introduction to concepts of informal specification, informal reasoning about program behavior, debugging, and ad hoc testing. Three lecture hours and one discussion hour a week for one semester. Only one of the following courses may be counted: Computer Science 303E, 305J, 312, 312H. Credit for Computer Science 312 may not be earned

after a student has received credit for Computer Science 314 or 314H. Prerequisite: Credit with a grade of at least C- or registration for Mathematics 305G, or a score of 70 on the ALEKS placement examination.

### **C S 312H. Introduction to Programming: Honors.**

Restricted to computer science majors. First part of a two-part sequence in Java programming. Fundamental concepts of structured programming; procedures and data structures with a focus on problem solving strategies and implementation; introduction to concepts of informal specification, informal reasoning about program behavior, debugging, and ad hoc testing. Three lecture hours and one discussion hour a week for one semester. Only one of the following courses may be counted: Computer Science 303E, 305J, 312, 312H. Credit for Computer Science 312H may not be earned after a student has received credit for Computer Science 314 or 314H. Prerequisite: Credit with a grade of at least C- or registration for Mathematics 305G, or a score of 70 on the ALEKS placement examination; and consent of the honors director.

### **C S 313E. Elements of Software Design.**

Object-oriented design of software in a modern high-level language, using software library packages. Introduction to elementary data structures and complexity of algorithms. Three lecture hours a week for one semester. May not be counted toward a degree in computer science. Prerequisite: Computer Science 303E, 305J, 312, or 312H with a grade of at least C-.

### **C S 313H. Logic, Sets, and Functions: Honors.**

Propositional and predicate logic; proof techniques, including induction, sets, relations, and functions. Introduction to the analysis of algorithms and techniques for proving properties of programs. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Computer Science 313H, 313K, Philosophy 313, 313K, 313Q. Prerequisite: Consent of the honors director.

### **C S 313K. Logic, Sets, and Functions.**

Propositional and predicate logic; proof techniques, including induction, sets, relations, and functions. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Computer Science 313H, 313K, Philosophy 313, 313K, 313Q. Prerequisite: Credit or registration for Mathematics 408C, 408K, or 408N.

### **C S 314. Data Structures.**

Second part of a two-part sequence in Java programming. Introduction to specifications, simple unity testing, and debugging; building and using canonical data structures; algorithm analysis and reasoning techniques such as assertions and invariants. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Computer Science 307, 314, 314H. Only one of the following may be counted: Computer Science 314, 314H, 315, 315H. Prerequisite: Computer Science 312 or 312H with a grade of at least C-.

### **C S 314H. Data Structures: Honors.**

Second part of a two-part sequence in Java programming. Introduction to specifications, simple unity testing, and debugging; building and using canonical data structures; algorithm analysis and reasoning techniques such as assertions and invariants. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Computer Science 307, 314, 314H. Only one of the following may be counted: Computer Science 314, 314H,

315, 315H. Prerequisite: Computer Science 312 or 312H with a grade of at least C-, and consent of the honors director.

### **C S 315. Algorithms and Data Structures.**

Implementation of basic data structures, including stacks, queues, lists, priority queues, trees, binary search trees, graphs, and sets; recursion; efficient sorting and searching algorithms; hashing; and multithreaded programs. Three lecture hours and one laboratory hour a week for one semester. Only one of the following may be counted: Computer Science 314, 314H, 315, 315H. Prerequisite: Computer Science 307 with a grade of at least C-, and credit or registration for Computer Science 313K.

### **C S 315H. Algorithms and Data Structures: Honors.**

Data types, data structures, algorithms, and programming; functions and recursion; abstraction and encapsulation. Correctness: specification, testing, proving. Introduction to analysis of algorithms. Implementation and use of basic data structures, including stacks, queues, lists, priority queues, trees, binary search trees, graphs, sets. Efficient sorting and searching algorithms; hashing; and multithreaded programs. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Computer Science 314, 314H, 315, 315H. Prerequisite: Consent of the honors director.

### **C S 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Computer Science.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Computer Science. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

## **Upper-Division Courses**

### **C S 120N, 220N, 320N. Topics in Computer Science for Nonmajors.**

For each semester hour of credit earned, one lecture hour a week for one semester. May not be counted toward a degree in computer science. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

### **C S 321H. Functional and Symbolic Programming: Honors.**

Introduction to functional and symbolic programming and to the use of these concepts throughout computer science. Three lecture hours a week for one semester. Prerequisite: Credit with a grade of at least C- or registration for Computer Science 337 or 337H, and consent of the honors director.

### **C S 323E. Elements of Scientific Computing.**

Fundamentals of software issues related to scientific computing. Topics include floating-point computations, numerical computation errors, interpolation, integration, solution of linear systems of equations, optimization, and initial value problems of ordinary differential equations. Implementation of algorithms are investigated using MATLAB for matrix and vector computations. Examples are drawn from a variety of science and mathematics areas. Three lecture hours a week for one semester. May not be counted toward a degree in computer science. Computer Science 323E and 323H may not both be counted. Prerequisite: Computer Science 303E or the

equivalent; Mathematics 408C, 408K, or 408N; Mathematics 408D, 408M, or 427L; and credit with a grade of at least C- or registration for Mathematics 341 or 340L.

### **C S 323H. Elements of Scientific Computing: Honors.**

Fundamentals of software issues related to scientific computing. Topics include floating-point computations, numerical computation errors, interpolation, integration, solution of linear systems of equations, optimization, and initial value problems of ordinary differential equations. Implementation of algorithms are investigated using MATLAB for matrix and vector computations. Examples are drawn from a variety of science and mathematics areas. Three lecture hours a week for one semester. May not be counted toward a degree in computer science. Computer Science 323E and 323H may not both be counted. Prerequisite: Computer Science 303E, 305J, or 307; Mathematics 408D, 408M, or 427L; credit with a grade of at least C- or registration for Mathematics 341 or 340L; and consent of the honors director.

### **C S 324E. Elements of Graphics and Visualization.**

Basics of two- and three-dimensional computer graphics systems, modeling and rendering, and selected graphics software APIs. Other topics may include interactive graphics, animation, graphical user interfaces, and the graphical presentation of information. Three lecture hours a week for one semester. May not be counted toward a degree in computer science. Prerequisite: Computer Science 307, 313E, 314, 314H, or Electrical Engineering 422C (or 322C) with a grade of at least C-.

### **C S 326E. Elements of Networking.**

Introduction to the principles and basic concepts of the Internet. Networking applications and protocols. Simple client/server applications. Other topics may include network technologies and topologies, packet and circuit switching, LANS and WANS, Internet security, and network management. Three lecture hours a week for one semester. May not be counted toward a degree in computer science. Prerequisite: Computer Science 307, 313E, 314, 314H, or Electrical Engineering 422C (or 322C) with a grade of at least C-.

### **C S 327E. Elements of Databases.**

A practical introduction to database management systems, with discussion of database administration and management. Survey of logical modeling, database design with a focus on relational databases, SQL query language, and current applications. Topics may include data integrity, performance, concurrency, transaction processing, recovery, security, and Web applications. Three lecture hours a week for one semester. May not be counted toward a degree in computer science. Prerequisite: Computer Science 307, 313E, 314, 314H, or Electrical Engineering 422C (or 322C) with a grade of at least C-.

### **C S 429. Computer Organization and Architecture.**

Restricted to computer science majors. An introduction to low-level computer design ranging from the basics of digital design to the hardware/software interface for application programs. Includes basic systems principles of pipelining and caching, and requires writing and understanding programs at multiple levels. Four lecture hours and two laboratory hours a week for one semester. Only one of the following may be counted: Computer Science 310, 310H, 429, 429H. Prerequisite: Computer Science 314 or 314H with a grade of at least C-.

### **C S 329E. Topics in Elements of Computing.**

Three lecture hours a week for one semester. May not be counted toward a degree in computer science. May be repeated for credit when the topics vary. Prerequisite: Computer Science 303E or the equivalent with a grade of at least C-.

### **C S 429H. Computer Organization and Architecture: Honors.**

Restricted to computer science majors. An introduction to low-level computer design ranging from the basics of digital design to the hardware/software interface for application programs. Includes basic systems principles of pipelining and caching, and requires writing and understanding programs at multiple levels. Four lecture hours and two laboratory hours a week for one semester. Only one of the following may be counted: Computer Science 310, 310H, 429, 429H. Prerequisite: Computer Science 314 or 314H with a grade of at least C-, and consent of the honors director.

### **C S 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Computer Science.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Computer Science. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **C S 329W. Cooperative Computer Science.**

This course covers the work period of computer science students in the Cooperative Education program, which provides supervised work experience by arrangement with the employer and the supervising instructor. Forty laboratory hours a week for one semester. The student must repeat the course each work period and must take it twice to receive credit toward the degree; at least one of these registrations must be during a long-session semester. However, no more than three semester hours may be counted toward the major requirement. The student's first registration must be on the pass/fail basis; the second must be on the letter-grade basis. Prerequisite: Computer Science 336 or 336H with a grade of at least C-, and consent of the undergraduate adviser.

### **C S 234. Technical Writing.**

Application of techniques and strategies of effective technical writing, and of conventions used in documents such as letters, memos, proposals, abstracts, and reports. Two lecture hours a week for one semester. Computer Science 234 and 178 (Topic: Technical Writing) may not both be counted. May not be counted toward the number of hours in computer science required for the Bachelor of Science in Computer Science degree. Prerequisite: Computer Science 310, 310H, 429, or 429H with a grade of at least C-.

### **C S 336. Analysis of Programs.**

Proofs of program correctness and a survey of mathematical techniques useful in the analysis and verification of programs. Three lecture hours a week for one semester. Computer Science 336 and 336H may not both be counted. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 313H or 313K; 314, 314H, 315, or 315H; and Mathematics 408C, 408L, or 408S.

### **C S 336H. Analysis of Programs: Honors.**

A survey of mathematical techniques useful in the analysis and verification of programs. Three lecture hours a week for one semester. Computer Science 336 and 336H may not both be counted. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 313H or 313K; 314, 314H, 315, or 315H; Mathematics 408C, 408L, or 408S; and consent of the honors director.

### **C S 337. Theory in Programming Practice.**

Application of program-analysis theory to program design. Methodologies for large-scale program design. Designed to help students bring together theoretical and programming skills. Three lecture hours and one discussion hour a week for one semester. Computer Science 337 and 337H may not both be counted. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 314, 314H, 315, or 315H; 336 or 336H; and Mathematics 408C, 408L, or 408S.

### **C S 337H. Theory in Programming Practice: Honors.**

Application of program-analysis theory to program design. Methodologies for large-scale program design. Designed to help students bring together theoretical and programming skills. Three lecture hours and one discussion hour a week for one semester. Computer Science 337 and 337H may not both be counted. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 314, 314H, 315, or 315H; 336 or 336H; Mathematics 408C, 408L, or 408S; and consent of the honors director.

### **C S 439. Principles of Computer Systems.**

Restricted to computer science majors. An introduction to low-level software abstractions with an emphasis on the connection of these abstractions to underlying computer hardware. Key abstractions include threads, dynamic memory allocation, protection, and IO. Requires writing of synchronized multithreaded programs. Four lecture hours and two laboratory hours a week for one semester. Only one of the following may be counted: Computer Science 439, 439H, 352, 352H. Only one of the following may be counted: Computer Science 439, 439H, 372, 372H. Prerequisite: Computer Science 429 or 429H with a grade of at least C-.

### **C S 439H. Principles of Computer Systems: Honors.**

Restricted to computer science majors. An introduction to low-level software abstractions with an emphasis on the connection of these abstractions to underlying computer hardware. Key abstractions include threads, dynamic memory allocation, protection, and IO. Requires writing of synchronized multi-threaded programs. Four lecture hours and two laboratory hours a week for one semester. Only one of the following may be counted: Computer Science 439, 439H, 352, 352H. Only one of the following may be counted: Computer Science 439, 439H, 372, 372H. Prerequisite: Computer Science 429 or 429H with a grade of at least C-, and consent of the honors director.

### **C S 341. Automata Theory.**

Introduction to the formal study of automata and of related formal languages with applications in computer science. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 341, 341H, Linguistics 340. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 310, 310H, 429 or 429H; 336 or 336H; 337 or 337H; and Mathematics 408D, 408M, or 427L.

### **C S 341H. Automata Theory: Honors.**

Introduction to the formal study of automata and of related formal languages with applications in computer science. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 341, 341H, Linguistics 340. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 310, 310H, 429, or 429H; 336 or 336H; 337 or 337H; Mathematics 408D, 408M, or 427L; and consent of the honors director.

### **C S 342. Neural Networks.**

Biological information processing; architectures and algorithms for supervised learning, self-organization, reinforcement learning, and neuro-evolution; hardware implementations and simulators; applications in engineering, artificial intelligence, and cognitive science. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 310, 310H, 429, or 429H; 336 or 336H; and Mathematics 408D, 408M, or 427L.

### **C S 343. Artificial Intelligence.**

A survey of current artificial intelligence issues, including search, production systems, knowledge representation, knowledge-based systems, planning, natural language processing, and machine learning. Artificial intelligence programming projects are required. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 310, 310H, 429, or 429H; 336 or 336H; and Mathematics 408D, 408M, or 427L.

### **C S 344M. Autonomous Multiagent Systems.**

Introduction to autonomous agents, with an emphasis on multiagent systems. Students use a robotics simulator. Emphasis on computer science research activities, including speaking, writing, programming, and working in groups. Three lecture hours a week for one semester. Computer Science 344M and 378 (Topic: Autonomous Multiagent Systems) may not both be counted. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 310, 310H, 429, or 429H; 336 or 336H; and Mathematics 408D, 408M, or 427L.

### **C S 344R. Robotics.**

A survey of methods and techniques important for intelligent robotics. Students work in teams, applying these methods to get intelligent behavior from physical robots. Three lecture hours a week for one semester. Computer Science 344R and 378 (Topic: Robotics) may not both be counted. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 310, 310H, 429, or 429H; 336 or 336H; and Mathematics 408D, 408M, or 427L.

### **C S 345. Programming Languages.**

Survey of significant concepts underlying modern programming languages, including syntax, functions, expressions, types, polymorphism, assignment, procedures, pointers, encapsulation, classes, and inheritance, with some discussion of implementation issues. Prominent programming paradigms, such as sequential, concurrent, object-oriented, functional, and logic programming. Illustrative examples drawn from a variety of current languages. Three lecture hours a week for one semester. Computer Science 345 and 345H may not both be counted. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 310,

310H, 429, or 429H; 336 or 336H; and Mathematics 408D, 408M, or 427L.

### **C S 345H. Programming Languages: Honors.**

Survey of significant concepts underlying modern programming languages, including syntax, functions, expressions, types, polymorphism, assignment, procedures, pointers, encapsulation, classes, and inheritance, with some discussion of implementation issues. Prominent programming paradigms, such as sequential, concurrent, object-oriented, functional, and logic programming. Illustrative examples drawn from a variety of current languages. Three lecture hours a week for one semester. Computer Science 345 and 345H may not both be counted. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 310, 310H, 429, or 429H; 336 or 336H; Mathematics 408D, 408M, or 427L; and consent of the honors director.

### **C S 346. Cryptography.**

A theoretical introduction to cryptography. Topics include private key cryptosystems, public key cryptosystems, digital signatures, secret sharing schemes, and the necessary mathematical background. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 310, 310H, 429, or 429H; 336 or 336H; 337 or 337H; and Mathematics 408D, 408M, or 427L.

### **C S 347. Data Management.**

Concepts of database design and database system implementation. Data models, query processing, database design theory, crash recovery, concurrent control, and distributed databases. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 310, 310H, 429, or 429H; 336 or 336H; and Mathematics 408D, 408M, or 427L.

### **C S 349. Contemporary Issues in Computer Science.**

Social, professional, and ethical issues involved in the use of computer technology. Topics may include software engineering ethics, computer safety and reliability, constitutional issues, intellectual property, computer crime, societal impact, emerging technologies, and philosophical issues. Three lecture hours a week for one semester. Computer Science 349 and 378 (Topic: Contemporary Issues in Computer Science) may not both be counted. Prerequisite: Computer Science 336 or 336H with a grade of at least C-.

### **C S 351. LISP and Symbolic Computation.**

Symbolic computation for artificial intelligence, such as pattern-matching, unification, frames, flavors, semantic networks, deductive retrieval, rule-based and constraint-based inference. Substantial programming projects in LISP. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 310, 310H, 429, or 429H; 336 or 336H; and Mathematics 408D, 408M, or 427L.

### **C S 352. Computer Systems Architecture.**

Computer architecture and organizational issues; structural and behavioral characteristics of system components; processor, memory hierarchy, and input/output issues; evaluation of design alternatives; the relationship between hardware and software. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 439, 439H, 352, 352H. Prerequisite: The following coursework with the grade of at least C- in each course: Computer

Science 310 or 310H; 336 or 336H; Electrical Engineering 316; and Mathematics 408D, 408M, or 427L.

### **C S 352H. Computer Systems Architecture: Honors.**

Computer architecture and organizational issues; structural and behavioral characteristics of system components; processor, memory hierarchy, and input/output issues; evaluation of design alternatives; the relationship between hardware and software. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 439, 439H, 352, 352H. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 310 or 310H; 336 or 336H; Electrical Engineering 316; Mathematics 408D, 408M, or 427L; and consent of the honors director.

### **C S 353. Theory of Computation.**

A survey of the theoretical bases of computation: computational complexity (including the classes P and NP) and formal models of the semantics of programming languages. Three lecture hours a week for one semester. Prerequisite: Computer Science 341 or 341H with a grade of at least C-.

### **C S 354. Computer Graphics.**

Introduction to techniques for human-machine communication through imagery. Topics include display hardware, transformations, interactive techniques, geometric modeling, two- and three-dimensional display algorithms, graphics software systems architecture, and hidden-line and surface elimination. Projects are assigned and in-depth exploration is encouraged. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 310, 310H, 429, or 429H; 336 or 336H; Mathematics 408D, 408M, or 427L; and 340L or 341.

### **C S 356. Computer Networks.**

Introduction to computer networks, including common terminology, basic design issues, and types of networks and protocols. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 310, 310H, 429, or 429H; 336 or 336H; Mathematics 408D, 408M, or 427L; and credit with a grade of at least C- or registration for Computer Science 352 or 352H.

### **C S 357. Algorithms.**

Algorithmic paradigms: divide and conquer, greedy algorithms, dynamic programming, branch and bound. NP-completeness and topics selected from the following: cryptography algorithms, approximation algorithms, randomized algorithms, parallel algorithms, lower bounds. Three lecture hours a week for one semester. Computer Science 357 and 357H may not both be counted. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 310, 310H, 429, or 429H; 336 or 336H; 337 or 337H; and Mathematics 408D, 408M, or 427L.

### **C S 357H. Algorithms: Honors.**

Algorithmic paradigms: divide and conquer, greedy algorithms, dynamic programming, branch and bound. NP-completeness and topics selected from the following: cryptography algorithms, approximation algorithms, randomized algorithms, parallel algorithms, lower bounds. Three lecture hours a week for one semester. Computer Science 357 and 357H may not both be counted. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 310, 310H, 429, or 429H; 336 or 336H; 337 or

337H; Mathematics 408D, 408M, or 427L; and consent of the honors director.

### **C S 361. Introduction to Computer Security.**

Computer security, both in the abstract and in the context of real systems, including recognizing potential threats to confidentiality, integrity and availability, and developing familiarity with current security-related issues in computer science. Three lecture hours a week for one semester. Computer Science 361 and 378 (Topic: Introduction to Security) may not both be counted. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 310, 310H, 429, or 429H; 336 or 336H; and Mathematics 408D, 408M, or 427L.

### **C S 367. Numerical Methods.**

Topics include systems of linear equations, numerical integration, ordinary differential equations, and nonlinear equations. Construction and use of large numerical systems. Influence of data representation and computer architecture on algorithm choice and development. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 367, Mathematics 368K, Physics 329. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 310, 310H, 429, or 429H; 336 or 336H; Mathematics 408D, 408M, or 427L; and 340L or 341.

### **C S 369. Systems Modeling.**

Introduction to performance modeling, with emphasis on computer systems. Modeling methodology, queueing network models, simulation, analysis of results. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 310, 310H, 429, or 429H; 336 or 336H; and Mathematics 362K.

### **C S 370. Undergraduate Reading and Research.**

Supervised study of selected problems in computer science, by individual arrangement with supervising instructor. The equivalent of three lecture hours a week for one semester. No more than three semester hours may be counted toward a degree in computer science. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 310, 310H, 429, 429H; 336 or 336H; Mathematics 408D, 408M, or 427L; and consent of the undergraduate adviser.

### **C S 371D. Distributed Computing.**

Models, principles, and fundamental protocols, including event ordering and global predicate detection, atomic commit, state-machine replication, rollback recovery, primary backup, consensus for synchronous and asynchronous systems, and byzantine fault-tolerance. Three lecture hours a week for one semester. Prerequisite: Computer Science 372 or 372H with a grade of at least C-, or consent of instructor.

### **C S 371P. Object-Oriented Programming.**

Programming using class derivation, inheritance, and dynamic polymorphism. Application of a simple object-oriented design methodology to several software development problems. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 310, 310H, 429, or 429H; 336 or 336H; 337 or 337H; and Mathematics 408D, 408M, or 427L.

### **C S 371R. Information Retrieval and Web Search.**

Introduction to traditional and recent methodologies for indexing, processing, querying, and classifying unstructured and semistructured textual data, including hypertext and World-Wide Web documents. Three lecture hours a week for one semester. Computer Sciences 371R and 378 (Topic: Intelligent Information Retrieval and Web Search) may not both be counted. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 310, 310H, 429, or 429H; 336 or 336H; and Mathematics 408D, 408M, or 427L.

### **C S 371S. Object-Oriented Software Engineering.**

Object-oriented formulations of software systems as executable specifications, object-oriented analysis, design of software architectures, translation of high-level specification systems. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 310, 310H, 429, or 429H; 336 or 336H; and Mathematics 408D, 408M, or 427L.

### **C S 372. Introduction to Operating Systems.**

Basic concepts of operating systems: concurrent process management, virtual memory, file systems, scheduling, and protection. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 439, 439H, 372, 372H. Prerequisite: Computer Science 337 or 337H, and 352 or 352H, with a grade of at least C- in each.

### **C S 372H. Introduction to Operating Systems: Honors.**

Basic concepts of operating systems: concurrent process management, virtual memory, file systems, scheduling, and protection. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 439, 439H, 372, 372H. Prerequisite: Computer Science 337 or 337H, and 352 or 352H, with a grade of at least C- in each; and consent of the honors director.

### **C S 373. Software Engineering.**

Introduction to current knowledge, techniques, and theories in large software system design and development. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 310, 310H, 429, or 429H; 336 or 336H; and Mathematics 408D, 408M, or 427L.

### **C S 375. Compilers.**

Formal description of languages, lexical analysis, syntax analysis, syntax-directed translation, run-time system management, code generation, code optimization, compiler-building tools. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 310, 310H, 429, or 429H; 336 or 336H; and Mathematics 408D, 408M, or 427L. Computer Science 341 or 341H, and 345 or 345H are recommended.

### **C S 376. Computer Vision.**

Explores computer vision, a discipline that develops methods that enable machines to interpret or analyze images and videos. Includes the study of image formation, feature detection, segmentation, multiple-view geometry, recognition and learning, and motion and tracking. Three lecture hours a week for one semester. Computer Science 376 and 378 (Topic: Computer Vision) may not both be counted. Prerequisite: The following coursework with a grade of at

least C- in each course: Mathematics 408D or 408M; 340L; and 362K or Statistics and Scientific Computation 321.

### **C S 377. Principles and Applications of Parallel Programming.**

Models of parallel computation, fundamental concepts for representation of parallel computation structures, study of representative parallel programming systems, programming of parallel algorithms and computations. Three lecture hours a week for one semester. Prerequisite: Computer Science 345 or 345H with a grade of at least C-.

### **C S 178, 378. Undergraduate Topics in Computer Science.**

One or three lecture hours a week for one semester. Only one of the following may be counted unless the topics vary: Computer Science 178, 378, 178H, 378H. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing. Additional prerequisites vary with the topic and are given in the Course Schedule.

### **C S 178H, 378H. Undergraduate Topics in Computer Science: Honors.**

One or three lecture hours a week for one semester. Only one of the following may be counted unless the topics vary: Computer Science 178, 378, 178H, 378H. May be repeated for credit when the topics vary. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 310, 310H, 429, or 429H; 336 or 336H; Mathematics 408D, 408M, or 427L; and consent of the honors director.

### **C S 379H. Computer Science Honors Thesis.**

Directed reading, research, and/or projects in areas of computer science, under supervision of a faculty member, leading to an honors thesis. The thesis must be approved by a committee of three readers. The equivalent of three lecture hours a week for one semester, by arrangement with a faculty member. Prerequisite: The following coursework with a grade of at least C- in each course: Computer Science 310, 310H, 429, or 429H; 336 or 336H; Mathematics 408D, 408M, or 427L; nine additional semester hours of upper-division coursework in computer science; and consent of the student's research supervisor and the departmental honors adviser.

## **School of Human Ecology**

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 627).

## **Human Development and Family Sciences: HDF**

### **Lower-Division Courses**

#### **HDF 304 (TCCN: TECA 1303). Family Relationships.**

Same as Women's and Gender Studies 301 (Topic 4: Family Relationships). The process of family interaction over the life cycle. Application of research findings to the understanding of relationships. Three lecture hours a week for one semester.

#### **HDF 304H. Family Relationships: Honors.**

The process of family interaction over the life cycle. Application of research findings to the understanding of relationships. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Consent of the department.

#### **HDF 312. Family Resource Management.**

Management concepts and theory in resource allocation used to meet family and life demands. Three lecture hours a week for one semester. Prerequisite: Credit or registration for Human Development and Family Sciences 304.

#### **HDF 313 (TCCN: TECA 1354). Child Development.**

Same as Women's and Gender Studies 301 (Topic 5: Child Development). Motor, language, cognitive, social, and emotional development in the family context. Three lecture hours a week for one semester. Only one of the following may be counted: Human Development and Family Sciences 313, 313H, Women's and Gender Studies 301 (Topic 5). Prerequisite: Psychology 301 with grade of at least C-, and credit or registration for Human Development and Family Sciences 113L.

#### **HDF 313H. Child Development: Honors.**

Motor, language, social, and emotional development of children in the family context, with an emphasis on research findings and evaluations. Three lecture hours a week for one semester. Only one of the following may be counted: Human Development and Family Sciences 313, 313H, Women's and Gender Studies 301 (Topic 5: Child Development). Offered on the letter-grade basis only. Prerequisite: Psychology 301 with a grade of at least B-, credit or registration for Human Development and Family Sciences 113L, and consent of the department.

#### **HDF 113L. Child Development Laboratory.**

Students observe children at the University Child and Family Laboratory and relate their observations to the issues discussed in Human Development and Family Sciences 313 and 313H. One and one-half laboratory hours a week for one semester. Prerequisite: Psychology 301 with a grade of at least C- and credit or registration for Human Development and Family Sciences 313 or 313H.

#### **HDF 315L. Research Methods in Human Development and Family Sciences.**

Survey of research methods, including observational and experimental techniques. Three lecture hours a week for one semester. Prerequisite: Credit or registration for Human Development and Family Sciences 304, 313, 113L, and Statistics and Scientific Computation 302.

#### **HDF 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Human Development and Family Sciences.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the School of Human Ecology. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **Upper-Division Courses**

#### **HDF 322. Personal and Family Finance.**

Overview from the individual and family perspectives of financial planning tools, cash management, consumer credit, basic tax

preparation, and insurance selection. Includes application of knowledge to hypothetical situations and case studies. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **HDF 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Human Development and Family Sciences.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the School of Human Ecology. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **HDF 335. Adult Development.**

Adulthood and the development, changes, and maturation that occurs, including the impact of relationships in adulthood. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and Human Development and Family Sciences 313 and 113L.

### **HDF 337. Personal Relationships.**

Studies intimate relationships, including dating, cohabitation, marriage, and gay and lesbian relationships, as well as situational factors that may influence basic relationship processes. Three lecture hours a week for one semester. Prerequisite: Upper-division standing, and Human Development and Family Sciences 304 and 315L with a grade of at least C- in each.

### **HDF 338. Developmentally Appropriate Practices with Young Children.**

Developmentally appropriate practices, the importance of play, arranging environments, material selection, and a basic understanding about centers and activities for young children. Three lecture hours a week for one semester, with an additional three to six hours of fieldwork sometime during the semester. Prerequisite: Upper-division standing; and Human Development and Family Sciences 313 and 113L, or Psychology 304.

### **HDF 340. Ethical, Philosophical, and Professional Development Issues.**

Restricted to human development and family sciences majors. Explores ethical and philosophical issues; personal values and choices; professional development and leadership; and career goals, opportunities, and challenges as they relate to human development and family sciences. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and Human Development and Family Sciences 312 with a grade of at least C-.

### **HDF 342. Development of Psychopathology from Infancy through Adolescence.**

A developmental approach to the study of emotional and behavioral disorders from infancy through adolescence, including attachment disorders, autism, attention deficit disorder, conduct disorder, phobias, obsessive-compulsive disorder, depression, eating disorders, and schizophrenia. Also includes contrasting theories of psychopathology; epidemiology and outcomes of childhood disorders; therapeutic approaches and their efficacy, and developmental resilience. Three lecture hours a week for one semester. Human Development and Family Sciences 339 and 342 may not both be counted. Prerequisite: Upper-division standing, Human Development and Family Sciences 313, and 113L.

### **HDF 343. Human Development in Minority and Immigrant Families.**

Examines the theories of human development and cultural psychology as they apply to the developmental issues of minority and immigrant children and families. Three lecture hours a week for one semester. Human Development and Family Sciences 343 and 378K (Topic: Child Development in Minority and Immigrant Families) may not both be counted. Prerequisite: Upper-division standing and Human Development and Family Sciences 313, 113L, and 315L with a grade of at least C- in each.

### **HDF 345. Peer Relationships.**

Children's peer relationships from toddlerhood to adolescence. Three lecture hours a week for one semester. Human Development and Family Sciences 345 and 378K (Topic: Peer Relationships) may not both be counted. Prerequisite: Upper-division standing; and Human Development and Family Sciences 313, 113L, and 315L with a grade of at least C- in each.

### **HDF 347. Socioeconomic Problems of Families.**

An analysis of socioeconomic factors affecting the economic well-being of families and individuals. Three lecture hours a week for one semester. Prerequisite: Upper-division standing, and six semester hours of coursework in anthropology, economics, education, human development and family sciences, psychology, social work, or sociology.

### **HDF 351. Infant Development and Attachment Relationships.**

The development of emerging social language and cognitive capacities during infancy and toddlerhood and the development and consequences in infant-caregiver attachment security. Three lecture hours a week for one semester. Prerequisite: Upper-division standing; and Human Development and Family Sciences 313, 113L, and 315L with a grade of at least C- in each.

### **HDF 352. Field Experience: Community.**

Practicum in applied settings concerning human development and family sciences. One lecture hour and ten to twelve hours of fieldwork a week for one semester. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Upper-division standing; a University grade point average of at least 2.00; the following coursework with a grade of at least C- in each course: Human Development and Family Sciences 304, 313, 113L, and 315L, Mathematics 408C or 408N, Psychology 301, and Statistics and Scientific Computation 302; Human Development and Family Sciences 312 and 340; nine additional semester hours of upper-division coursework in human development and family sciences; six semester hours of coursework from the list of approved supporting courses available from the School of Human Ecology; and consent of instructor. Admission by application only, filed with the Department of Human Development and Family Sciences by May 1 for enrollment in the following spring semester, or by December 1 for enrollment in the following fall semester.

### **HDF 652F. Field Practicum: Community.**

Designed for students in their last semester. Practicum in settings concerning human development and family sciences. One lecture hour and at least twenty laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing; a University grade point average of at least 2.00; the following coursework with a grade of at least C- in each course: Human Development and Family Sciences 304, 313, 113L, and

315L, Mathematics 408C or 408N, Psychology 301, and Statistics and Scientific Computation 302; Human Development and Family Sciences 312 and 340; nine additional semester hours of upper-division coursework in human development and family sciences; six semester hours of coursework from the list of approved supporting courses available from the School of Human Ecology; and consent of instructor. Admission by application only, filed with the Department of Human Development and Family Sciences by May 1 for enrollment in the following spring semester, or by December 1 for enrollment in the following fall semester.

#### **HDF 352L. Field Experience: Early Childhood.**

Study and implementation of skills necessary for planning, guiding, and interacting with young children and their families, and for the management of facilities that provide services for young children. One lecture hour and ten to twelve hours of fieldwork a week for one semester. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Upper-division standing; a University grade point average of at least 2.00; the following coursework with a grade of at least C- in each course: Human Development and Family Sciences 304, 313, 113L, and 315L, Mathematics 408C or 408N, Psychology 301, and Statistics and Scientific Computation 302; Human Development and Family Sciences 312, 338, 340, and 366; three additional semester hours of upper-division coursework in human development and family sciences; six semester hours of coursework from the list of approved supporting courses available from the School of Human Ecology; and consent of instructor. Admission by application only, filed with the Department of Human Development and Family Sciences by May 1 for enrollment in the following spring semester, or by December 1 for enrollment in the following fall semester.

#### **HDF 652P. Field Practicum: Early Childhood.**

Designed for students in their last semester. Study and implementation of skills necessary for planning, guiding, and interacting with young children and their families; and for the management of facilities that provide services for young children. One lecture hour and at least twenty laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing; a University grade point average of at least 2.00; the following coursework with a grade of at least C- in each course: Human Development and Family Sciences 304, 313, 113L, and 315L, Mathematics 408C or 408N, Psychology 301, and Statistics and Scientific Computation 302; Human Development and Family Sciences 312, 338, 340, and 366; three additional semester hours of upper-division coursework in human development and family sciences; six semester hours of coursework from the list of approved supporting courses available from the School of Human Ecology; and consent of instructor. Admission by application only, filed with the Department of Human Development and Family Sciences by May 1 for enrollment in the following spring semester, or by December 1 for enrollment in the following fall semester.

#### **HDF 354. Advanced Personal Financial Planning.**

Overview from the individual and family perspectives of financial planning and decision-making with regard to home ownership, tax planning, investment alternatives, retirement planning, and estate transfer. Includes application of knowledge to hypothetical situations and case studies. Three lecture hours a week for one semester. Prerequisite: Human Development and Family Sciences 322 with a grade of at least C-.

#### **HDF 355. Problems Course: Research Practicum.**

Intensive study of selected problems of a transdisciplinary nature. One lecture hour and nine research hours a week for one semester. May be repeated for credit. Offered on the letter-grade basis only.

Prerequisite: Upper-division standing; a University grade point average of at least 2.00; the following coursework with a grade of at least C- in each course: Human Development and Family Sciences 304, 313, 113L, and 315L, Mathematics 408C or 408N, Psychology 301, and Statistics and Scientific Computation 302; and consent of instructor. Admission by application only, filed with the Department of Human Development and Family Sciences by May 1 for enrollment in the following spring semester, or by December 1 for enrollment in the following fall semester; or consent of instructor. For nonmajors, the application process and prerequisites may be waived by consent of instructor.

**Topic 1: Research in Human Development and Family Sciences.** Offered on the letter-grade basis only.

#### **HDF 355H. Problems Course: Honors.**

Intensive study of selected research problems. One lecture hour and nine research hours a week for one semester. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Upper-division standing; a University grade-point average of at least 3.00; Human Development and Family Sciences 315L with a grade of at least B-; Mathematics 316, Statistics and Scientific Computation 303, 304, 305, or 306 with a grade of at least B-; and consent of the department.

#### **HDF 356. The Development and Deterioration of Relationships.**

Studies the formation and development of marital relationships and the changes in these relationships. Explores courtship, the early years of marriage, the impact of parenthood on relationships, divorce, and remarriage. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and the following courses with a grade of at least C- in each: Human Development and Family Sciences 304 or 304H, and 315L and 337.

#### **HDF 358. Parent-Child Relationships.**

The determinants of parenting attitudes and behavior and the effects on children of variations in sensitivity, discipline, and other aspects of parenting. Three lecture hours a week for one semester. Prerequisite: Upper-division standing; and Human Development and Family Sciences 313, 113L, and 315L with a grade of at least C- in each.

#### **HDF 360. Methods of Family Life Education.**

An examination, integrating theory and applied knowledge, of the best practices for working with families. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and Human Development and Family Sciences 304 and 315L with a grade of at least C- in each.

#### **HDF 362. Children and Public Policy.**

The positive and negative effects of policy on children and the policy landscape in several major domains of child and family life in the United States and in other countries. Three lecture hours a week for one semester. Prerequisite: Six semester hours of upper-division coursework in human development and family sciences, anthropology, education, psychology, sociology, or social work.

#### **HDF 366. Guidance in Adult-Child Relationships.**

Same as Women's and Gender Studies 345 (Topic 4: Guidance in Adult-Child Relationships). Theory and implementation of positive child and adult interactions, communication, and guidance strategies. Two lecture hours a week for one semester, and four laboratory hours a week to be arranged as a four-hour block between 8:30 AM and 4:45

PM, Monday through Thursday. Prerequisite: Human Development and Family Sciences 313 and 113L, and three semester hours of upper-division coursework in human development and family sciences, education, psychology, or sociology.

#### **HDF 371. Adolescent Development in Context.**

The biological, cognitive, and social changes that occur during the second decade of life, including the developmental issues faced by adolescents. Three lecture hours a week for one semester. Prerequisite: Upper-division standing; and Human Development and Family Sciences 313, 113L, and 315L with a grade of at least C- in each.

#### **HDF 372K. Families in Transition.**

Analysis of interaction, transitions, and crises over the family life span. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and the following courses with a grade of at least C- in each: Human Development and Family Sciences 304 or 304H, and 315L and 337.

#### **HDF 375. Economic Issues of the Family.**

Economic issues experienced by families through the various stages of the life span. Three lecture hours a week for one semester. Prerequisite: Human Development and Family Sciences 304, and 312 or 322.

#### **HDF 378K. Advanced Child and Family Development.**

Concepts, theories, and issues in human development and family sciences. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Six semester hours of upper-division coursework in human development and family sciences (or child development), anthropology, education, psychology, sociology, or social work, and consent of instructor.

**Topic 5: Media and the Family.**

**Topic 6: Introduction to Early Childhood Intervention.**

**Topic 8: Advanced Early Childhood Intervention.** Additional prerequisite: Human Development and Family Sciences 378K (Topic 6).

#### **HDF 378L. Theories of Child and Family Development.**

Study and analysis of major theories in human and family development. Three lecture hours a week for one semester. Prerequisite: Upper-division standing; Human Development and Family Sciences 313, 113L, and 315L with a grade of at least C- in each; and three additional semester hours of upper-division coursework in human development and family sciences with a grade of at least C- in each course.

#### **HDF 379H. Honors Tutorial Course.**

Supervised individual research on a special topic in human development and family sciences; oral presentation and preparation of a scholarly paper covering the research. May be based on laboratory, library, or field research. Conference course. May be repeated once for credit. Prerequisite: Upper-division standing, a University grade point average of at least 3.00, admission to the human development and family sciences honors program, and consent of the honors adviser. Name of honors adviser and application procedure are available in the division office.

## **Human Ecology: H E**

### **Lower-Division Courses**

#### **H E 115H. Freshman Honors Seminar.**

Research presentations by students, faculty, and invited scientists on current issues in human ecology, human development and family sciences, and nutrition. One lecture hour a week for one semester. Prerequisite: Admission to the honors degree option in human development and family sciences or nutrition; three semester hours of honors-designated coursework in chemistry, biology, or mathematics with a grade of at least B-; and Human Development and Family Sciences 313 and 113L, or Nutrition 312 and 112L (or 311 and 111L), with a grade of at least B- in each course.

### **Upper-Division Courses**

#### **H E 225H. Sophomore Honors Seminar.**

Students plan, conduct, write, and present research on a current topic in human ecology. Two lecture hours a week for one semester. Prerequisite: Six semester hours of honors-designated coursework in chemistry, biology, or mathematics; concurrent enrollment in a course chosen from a list maintained in the departmental office; and consent of instructor and the departmental honors adviser.

#### **H E 355. Problems Course.**

Intensive study of selected problems of a transdisciplinary nature. The equivalent of three lecture hours a week for one semester. Some sections are offered on the pass/fail basis only; these are identified in the Course Schedule. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Research in Family Economics.**

## **Nutrition: NTR**

### **Lower-Division Courses**

#### **NTR 306 (TCCN: BIOL 1322, HECO 1322). Fundamentals of Nutrition.**

Essential food components and their functions in life processes. Three lecture hours a week for one semester. Only one of the following may be counted: Nutrition 306, 311, 312, 312H. Nutrition 306 may not be counted toward a nutritional sciences degree.

#### **NTR 307. Introductory Food Science.**

Application of the principles of food chemistry to processing and preparation techniques. Three lecture hours a week for one semester. Prerequisite: Nutrition 312 (or 311) or 312H with a grade of at least C-, and credit or registration for Nutrition 107L.

#### **NTR 107L. Introductory Food Science Laboratory.**

Three laboratory hours a week for one semester. Prerequisite: Credit or registration for Nutrition 307.

#### **NTR 312. Introduction to Nutritional Sciences.**

Designed for science majors. Biochemical, physiological, and cellular functions of energy macronutrients, vitamins and minerals, and the scientific basis for current dietary and nutrient recommendations. Three lecture hours a week for one semester. Only one of the following may be counted: Nutrition 306, 311, 312, 312H. Prerequisite: Chemistry 301 with a grade of at least C-; Mathematics 408C, 408K, or

408N with a grade of at least C-; and credit or registration for Biology 311C and Chemistry 302.

#### **NTR 312H. Introduction to Nutritional Sciences: Honors.**

Restricted to honors eligible majors in nutritional sciences, biology, biochemistry, and students in the Dean's Scholars Honors Program. Biochemical, molecular, and cellular functions of nutrients with emphasis on primary scientific literature and current methodology. Three lecture hours a week for one semester. Only one of the following may be counted: Nutrition 306, 311, 312, 312H. Prerequisite: The following coursework with a grade of at least C- in each: Chemistry 301 or 301H; and Mathematics 408C or 408n, or the equivalent; and credit or registration for Biology 311C or 315H, and Chemistry 302 or 302H.

#### **NTR 112L. Introduction to Nutritional Science Laboratory.**

Collection and evaluation of dietary intake data, nutrient composition of food, and survey of dietetic practice. Three laboratory hours a week for one semester. Nutrition 111L and 112L may not both be counted. Prerequisite: Credit or registration for Nutrition 312 (or credit for Nutrition 311).

#### **NTR 312R. Research in Nutritional Sciences.**

Restricted to honors eligible majors in nutritional sciences, biology, biochemistry, and students in the Dean's Scholars Honors Program. Introduction to biochemical and molecular biological techniques, enzyme and coenzyme assays, dietary analysis and assessment protocols, and statistical methods in nutritional sciences. Preparation of a scholarly paper and oral presentation of research findings. One lecture hour and six laboratory hours a week for one semester. Nutrition 112L and 312R may not both be counted. Prerequisite: The following coursework with a grade of at least C- in each: Chemistry 301 or 301H; and Mathematics 408C or 408N, or the equivalent; and credit or registration for Biology 311C or 315H, Chemistry 302 or 302H, and Nutrition 312H.

#### **NTR 315. Nutrition through the Life Cycle.**

Adapting nutrition recommendations to physiological changes throughout the life span. Three lecture hours a week for one semester. Prerequisite: Nutrition 306 (or 311), 312, or 312H with a grade of at least C-.

#### **NTR 316. Culture and Food.**

Influence of culture on foodways around the world. Three lecture hours a week for one semester. Prerequisite: Nutrition 306 (or 311), 312, or 312H with a grade of at least C-.

#### **NTR 218. Assessment of Nutritional Status.**

Assessment of nutritional status using anthropometric, biochemical, clinical, and dietary intake data, and development and implementation of effective care for individuals. Two lecture hours a week for one semester. Nutrition 218, 318 and 170L may not both be counted. Prerequisite: Nutrition (311 and 111L), 312 and 112L, or 312H and 312R with a grade of at least C- in each; and credit or registration for Nutrition 118L.

#### **NTR 118L. Assessment of Nutritional Status Laboratory.**

Three laboratory hours a week for one semester. Prerequisite: Credit or registration for Nutrition 218.

#### **NTR 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Nutrition.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study

Abroad Office. Credit is recorded as assigned by the study abroad adviser in the School of Human Ecology. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **Upper-Division Courses**

#### **NTR 321. International Nutrition: The Developing World.**

Nutrition-related issues in the developing world, including nutrient deficiency and disease, concerns in vulnerable populations (pregnancy, infancy, childhood, and old age), and food aid. Three lecture hours a week for one semester. Nutrition 321 and 360 (Topic 2: International Nutrition) may not both be counted. Prerequisite: Nutrition 306 (or 311), 312, or 312H with a grade of at least C-.

#### **NTR 324. Advanced Food Science.**

Application of the principles of food chemistry to the development of food products. Three lecture hours a week for one semester. Offered in the spring semester only. Prerequisite: Chemistry 320M, Nutrition 307, 107L, and 326 with a grade of at least C- in each; and credit or registration for Nutrition 124L.

#### **NTR 124L. Advanced Food Science Laboratory.**

Individual research project on food product development and evaluation. Three laboratory hours a week for one semester. Offered in the spring semester only. Prerequisite: Credit or registration for Nutrition 324.

#### **NTR 326. Cellular and Molecular Nutrition.**

Integration of nutrition, genetics, cell biology, and molecular biology. Focuses on the cellular and molecular basis of nutrition-related diseases and nutrient-gene interactions. Three lecture hours and one discussion hour a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each course: Biology 311C, and Nutrition 312 (or 311) or 312H; and credit or registration for Chemistry 320M, and Nutrition 112L or 312R.

#### **NTR 126L. Nutritional Sciences Laboratory.**

Basic laboratory techniques in nutritional sciences. Three laboratory hours a week for one semester. Prerequisite: Credit or registration for Nutrition 326.

#### **NTR 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Nutrition.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the School of Human Ecology. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

#### **NTR 330. Nutrition Education and Counseling.**

Application of counseling and learning theories to the care of individuals and groups in community and clinical settings. Three lecture hours and one additional class hour a week for one semester. Prerequisite: Nutrition 315 and 326 with a grade of at least C- in each.

#### **NTR 331. International Nutrition: Social and Environmental Policies.**

Explores the nutritional concerns of different countries, environmental aspects of food supply, and social policies needed to balance

supply with demand in a sustainable manner. Three lecture hours a week for one semester. Nutrition 331 and 360 (Topic: International Nutrition: Social and Environmental Policies) may not both be counted. Prerequisite: Upper-division standing, and Nutrition 306 (or 311), 312, or 312H with a grade of at least C-.

### **NTR 332. Community Nutrition.**

National and international issues in public health and nutrition programs. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each course: Nutrition 312 (or 311) or 312H; 315; and 326.

### **NTR 334. Foodservice Systems Management.**

Procurement, production, and service delivery in foodservice systems. Three lecture hours a week for one semester. Prerequisite: Nutrition 307, 107L, and 326 with a grade of at least C- in each, and credit or registration for Nutrition 234L.

### **NTR 234L. Laboratory in Foodservice Systems.**

Six laboratory hours a week for one semester. Prerequisite: Credit or registration for Nutrition 334.

### **NTR 338H. Issues in Nutrition and Health: Honors.**

Restricted to honors eligible majors in nutritional sciences, biology, biochemistry, and students in the Dean's Scholars Honors Program. Identifying, reading, analyzing, writing, and presenting scientific research on selected topics in nutrition and human health. Detailed literature review as preparation for an honors research thesis. Three lecture hours and one discussion hour a week for one semester. Nutrition 338H and 338W may not both be counted. Prerequisite: Biology 325 or 325H; Nutrition 312H and 312R; Statistics and Scientific Computation 302, 303, 304, 305, or 325H; and credit or registration for Biology 365S, and Chemistry 369, or 339K and 339L.

### **NTR 338W. Issues in Nutrition and Health.**

Identifying, reading, analyzing, writing, and presenting scientific research on selected topics in nutrition and human health. Three lecture hours and one discussion hour a week for one semester. Nutrition 338W and 338H may not both be counted. Prerequisite: The following coursework with a grade of at least C- in each course: Biology 325 and 365S (or 416L); Chemistry 369, or 339K and 339L; Nutrition 326; and Statistics and Scientific Computation 303, 304, or 305.

### **NTR 342. Advanced Nutritional Sciences.**

Biochemical and molecular biological aspects of carbohydrate, fat, and amino acid metabolism. Three lecture hours and one discussion hour a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each course: Biology 325 and 365S (or 416L), Chemistry 369, or 339K and 339L, and Nutrition 326.

### **NTR 144M. Advanced Nutrition II Laboratory.**

Advanced laboratory techniques in nutrition assessment and research. Three laboratory hours a week for one semester. Offered in the spring semester only. Prerequisite: Concurrent enrollment in Nutrition 344 or consent of instructor.

### **NTR 245C. Clinical Practice in Medical Nutrition Therapy I.**

Application of principles of medical nutrition therapy to the care of clients in the practice setting. Nine hours of supervised practice a week for one semester. Prerequisite: Nutrition 370 with a grade of at

least C-, credit or registration for Nutrition 371, and admission to the Coordinated Program in Dietetics.

### **NTR 345M. Clinical Practice in Medical Nutrition Therapy II.**

Application of principles of medical nutrition therapy to the care of patients in health care facilities. Forty hours of supervised practice a week for four weeks. Prerequisite: Nutrition 245C and 371 with a grade of at least C- in each. Students must register for Nutrition 372C in the same semester.

### **NTR 152, 252, 352. Field Experience in Nutrition.**

For each semester hour of credit earned, three field placement hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Approval of application for field experience. Applications are available in the department office.

### **NTR 353. Field Experience in International Nutrition.**

Supervised study abroad experience designed to help students understand nutrition science issues, applications, related health care practices in a global environment, and other cultures. Students work in schools, hospitals, or similar settings to gain professional experience with food science and dietetics. Five lecture hours and ten field hours a week for five weeks. Prerequisite: Nutrition 306 (or 311), 312, or 312H with a grade of at least C-; and approval of an application to study abroad.

### **NTR 155, 255, 355, 455. Undergraduate Research in Nutrition.**

Supervised individual undergraduate research in nutrition. For each semester hour of credit earned, at least three laboratory hours a week for one semester. May be repeated for credit, but no more than four semester hours may be counted toward a degree in nutrition. Any additional hours must be taken on the pass/fail basis. Nutrition 355 and 355H may not both be counted. Prerequisite: Consent of instructor.

### **NTR 355H. Honors Research.**

Restricted to honors eligible majors in nutritional sciences, biology, biochemistry, and students in the Dean's Scholars Honors Program. Research in biological, biochemical, or nutritional science, coordinated with readings of scientific literature, and a written research report for each semester in which credit is sought. Nutrition 355 and 355H may not both be counted. May be repeated for credit, but no more than nine semester hours may be counted toward the major in nutrition. Any additional hours must be taken on the pass/fail basis. Prerequisite: Biology 325 or 325H; Nutrition 312H and 312R; and approval of research supervisor.

### **NTR 355M. Advanced Food Systems Management.**

Financial control, quality assurance, personnel administration, foodservice equipment, layout and design in foodservice operations. Analysis and evaluation of an organized foodservice operation. Three lecture hours and four hours of supervised practice a week for one semester. Prerequisite: Accounting 310F or 311, and Nutrition 334 and 234L, with a grade of at least C- in each.

### **NTR 360. Selected Topics in Applied Nutrition.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

### **NTR 162. Standards, Ethics, and Credentialing for Dietetic Practice.**

Identification of standards and discussion of current issues in ethics and credentialing for dietetics practice. One lecture hour a week for one semester. Prerequisite: Credit or registration for Nutrition 218 and 118L (or credit for Nutrition 318).

### **NTR 365. Selected Topics in Nutritional Sciences.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Vitamins and Minerals.** Biomedical, cellular and molecular, and clinical aspects of vitamins, minerals, and water. Nutrition 344 and 365 (Topic 1) may not both be counted. Prerequisite: Biology 325, 365S (or 416L), and Nutrition 342, with a grade of at least C- in each.

**Topic 2: Nutrition and Genes.** Interactions between nutrients and gene expression, including heredity, gene regulation, metabolic disease, developmental abnormalities, and molecular techniques. Prerequisite: Biology 325, 365S (or 416L), and Nutrition 342, with a grade of at least C- in each.

**Topic 3: Epidemiological and Statistical Methods in Nutrition.** Basic principles and concepts of epidemiology and statistics in nutritional sciences. Prerequisite: Nutrition 342 with a grade of at least C-.

### **NTR 366L. Research Methods in Nutritional Sciences.**

Focuses on state-of-the-art research in nutrition, including biochemistry and molecular biological techniques for nutrient-gene interactions, enzyme and coenzyme functions, and nutrient analysis of biologic materials. Includes data analysis and statistical methods. One lecture hour and six laboratory hours a week for one semester. Prerequisite: Nutrition 126L with a grade of at least C-.

### **NTR 167. Undergraduate Seminar in Nutritional Sciences.**

One lecture hour a week for one semester. Prerequisite: Upper-division standing.

### **NTR 370. Medical Nutrition Therapy I.**

The role of nutrition in prevention and treatment of chronic disease such as diabetes and heart disease. Three lecture hours a week for one semester. Nutrition 668A and 370 may not both be counted. Prerequisite: The following coursework with a grade of at least C- in each course: Nutrition 326, Biology 325 or Nutrition 218 (or 318) and 118L; and credit with a grade of at least C- or registration for Biology 365S (or credit for 416L) and Chemistry 369.

### **NTR 371. Medical Nutrition Therapy II.**

Nutritional care of critically ill patients, including techniques of nutrition support. Three lecture hours a week for one semester. Nutrition 668B and 371 may not both be counted. Prerequisite: The following coursework with a grade of at least C- in each course: Nutrition 326, Biology 325 or Nutrition 218 (or 318) and 118L; and credit with a grade of at least C- or registration for Biology 365S (or credit for 416L) and Chemistry 369.

### **NTR 372C. Practicum in Clinical Dietetics.**

Supervised practice in health care facilities. Forty hours of supervised practice a week for four weeks. Prerequisite: Admission to the Coordinated Program in Dietetics. Students must register for Nutrition 345M in the same semester.

### **NTR 372F. Practicum in Food Services Systems Management.**

Supervised practice in food service facilities. Forty hours of supervised practice a week for four weeks. Prerequisite: Nutrition 245C and 355M with a grade of at least C- in each, and admission to the Coordinated Program in Dietetics. Students must register for Nutrition 373S in the same semester.

### **NTR 373S. Practicum in Dietetic Administration.**

Supervised practice in the administration of food and nutrition programs. Forty hours of supervised practice a week for three weeks. Nutrition 355L and 373S may not both be counted. Prerequisite: Admission to the Coordinated Program in Dietetics. Students must register for Nutrition 372F in the same semester.

### **NTR 374C. Practicum in Community Dietetics.**

Supervised practice in one or more community-based nutrition programs. Forty hours of supervised practice a week for five weeks. Nutrition 352C and 274C may not both be counted. Prerequisite: Nutrition 345M, 372C, 372F, and 373S with a grade of at least C- in each; and admission to the Coordinated Program in Dietetics.

### **NTR 374P. Advanced Practicum in Dietetics.**

Culminating experience in the practice of administrative, clinical, or community dietetics. Forty hours of supervised practice a week for five weeks. Prerequisite: Nutrition 345M, 372C, 372F, and 373S with a grade of at least C- in each; and admission to the Coordinated Program in Dietetics.

### **NTR 379H. Honors Tutorial Course.**

Supervised individual research on a special topic in nutrition; oral presentation and preparation of a scholarly paper covering the research. May be based on laboratory, library, or field research. Conference course. May be repeated once for credit. Prerequisite: Consent of the student's research supervisor and the departmental honors adviser.

## **Textiles and Apparel: TXA**

### **Lower-Division Courses**

#### **TXA 103, 203, 303. Topics in Textiles and Apparel.**

For each semester hour of credit earned, the equivalent of one hour a week for one semester. May be repeated for credit when the topics vary.

#### **TXA 205. Textiles.**

Chemical and physical properties of fibers and yarns, fabric construction, and finishes. Two lecture hours a week for one semester. Prerequisite: Credit or registration for Textiles and Apparel 105L.

#### **TXA 105L. Textiles Laboratory.**

Three laboratory hours a week for one semester. Prerequisite: Credit or registration for Textiles and Apparel 205.

#### **TXA 212K. Apparel Industry.**

Introduction to the integrated apparel design industry from the creative and merchandising perspective. Two lecture hours a week for one semester. Prerequisite: Credit with a grade of at least C- or registration for Textiles and Apparel 212L; and the following coursework with a

grade of at least C- in each course: Textiles and Apparel 316L or 316Q; and 319, or 219C and 119L.

### **TXA 212L. Apparel Product Development and Design Laboratory.**

Six laboratory hours a week for one semester. Prerequisite: Credit or registration for Textiles and Apparel 212K.

### **TXA 315K. Field Experience I.**

Application of merchandising strategic planning in a professional environment with faculty and site director supervision. At least 154 hours of supervised fieldwork for one semester. Prerequisite: Admission to the Retail Merchandising Internship Program.

### **TXA 316L. Apparel I.**

Industrial techniques of pattern design and garment construction. One lecture hour and six laboratory hours a week for one semester. Prerequisite: Credit with a grade of at least C- or registration for Textiles and Apparel 319, or 219C and 119L.

### **TXA 316Q. Sewn Products Analysis.**

Evaluation of soft goods, including materials, quality of work, and costs. Three lecture hours a week for one semester. Prerequisite: Textiles and Apparel 205 and 105L with a grade of at least C- in each.

### **TXA 319. Visual Merchandising and Display Techniques.**

Techniques of merchandise presentation, including principles and practice in display planning, execution, and coordination. Three lecture hours a week for one semester. Students with credit for Textiles and Apparel 319 may not earn credit for Textiles and Apparel 219C or 119L. Prerequisite: Textiles and Apparel 205 and 105L with a grade of at least C- in each.

### **TXA 219C. Applied Art in Visual Presentation.**

Introduction to the principles and elements of design as related to merchandising presentation, display planning, execution, and coordination. Two lecture hours a week for one semester. Students with credit for Textiles and Apparel 319 may not earn credit for Textiles and Apparel 219C or 119L.

### **TXA 119L. Applied Art in Visual Presentation Laboratory.**

Application of the principles and elements of design as related to merchandise presentation, display planning, execution, and coordination. Three laboratory hours a week for one semester. Students with credit for Textiles and Apparel 319 may not earn credit for Textiles and Apparel 119L. Prerequisite: Credit with a grade of at least C- or registration for Textiles and Apparel 219C.

### **TXA 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Textiles and Apparel.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the School of Human Ecology. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

## **Upper-Division Courses**

### **TXA 325K. Culture, Gender, and Appearance.**

Social, economic, aesthetic, and political aspects of historic costume and of the evolution of modern dress. Three lecture hours a week for

one semester. Prerequisite: Textiles and Apparel 319 with a grade of at least C-, or Art History 301.

### **TXA 325L. History of Dress and Cultural Change I.**

Social, economic, aesthetic, and political aspects of costume evolution from ancient times through the Renaissance. Three lecture hours a week for one semester. Textiles and Apparel 325K and 325L may not both be counted. Prerequisite: Upper-division standing.

### **TXA 325M. History of Dress and Cultural Change II.**

Social, economic, aesthetic, and political aspects of costume evolution from the Baroque period through modern times. Three lecture hours a week for one semester. Textiles and Apparel 325K and 325M may not both be counted. Prerequisite: Upper-division standing.

### **TXA 126. Apparel II.**

Advanced apparel construction techniques using industry standards and portfolio development. One lecture hour a week for one semester. Prerequisite: Textiles and Apparel 316L with a grade of at least C- and credit or registration for Textiles and Apparel 226L.

### **TXA 226L. Apparel II Laboratory.**

Advanced apparel construction techniques using industry standards and portfolio development. Six laboratory hours a week for one semester. Prerequisite: Credit or registration for Textiles and Apparel 126.

### **TXA 327. Clothing and Human Behavior.**

The social, psychological, and nonverbal significance of clothing and the influence of clothing on behavior. Three lecture hours a week for one semester. Prerequisite: Six semester hours of coursework in psychology, sociology, or the School of Human Ecology.

### **TXA 328. Research Methods in Textiles and Apparel.**

Basic research methodology and academic writing. Three lecture hours a week for one semester. Prerequisite: Upper-division standing, completion of an introductory statistics course, and Textiles and Apparel 205 and 105L with a grade of at least C- in each.

### **TXA 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Textiles and Apparel.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the School of Human Ecology. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **TXA 352C. Field Experience in Textile Conservation.**

Application of textile conservation, museum management, and exhibition techniques in a professional environment. A minimum of 154 hours of supervised fieldwork for one semester. Prerequisite: Admission to the Conservation Certificate Program or to Textiles and Apparel, Option I with a conservation concentration, or consent of the instructor.

### **TXA 352D. Field Experience in Apparel Design.**

Application of apparel design techniques and principles in a professional environment. At least 154 hours of fieldwork for one semester. Prerequisite: Admission to the Apparel Design Internship

Program, and Textiles and Apparel 164K (Topic 1: Flat Pattern) and 264L (Topic 1: Flat Pattern) with a grade of at least C- in each.

#### **TXA 352M. Field Experience in Retail Merchandising.**

Application of merchandising techniques and principles in a professional environment. At least 154 hours of supervised fieldwork for one semester. Prerequisite: Admission to the Retail Merchandising Internship Program.

#### **TXA 155, 355. Problems Course.**

Intensive study of selected problems of an interdisciplinary nature. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Some sections are offered on the pass/fail basis only; these are identified in the Course Schedule. May be repeated for credit when the topics vary. Prerequisite: Consent of instructor.

#### **TXA 355C. Computer-Aided Design for Apparel.**

Computer technology used to create textile prints, weaves, illustrations, flat patterns, promotional pieces, and pattern markers. One lecture hour and six laboratory hours a week for one semester. Prerequisite: Textiles and Apparel 205 and 105L with a grade of at least C- in each; and credit with a grade of at least C- or registration for Textiles and Apparel 164K (Topic 1: Flat Pattern) and 264L (Topic 1: Flat Pattern).

#### **TXA 355D. Textiles Artifact Management and Conservation.**

Principles and techniques in the identification, documentation, conservation, and exhibition of textile-based artifacts. Six laboratory hours a week for one semester. Prerequisite: Textiles and Apparel 325M.

#### **TXA 355K. Textile and Apparel Economics.**

Economic and regulatory aspects of the textile and apparel industries. Three lecture hours a week for one semester. Prerequisite: Textiles and Apparel 205 and 105L with a grade of at least C- in each, and Economics 304K and 304L with a grade of at least C- in each.

#### **TXA 355N. History of Textiles.**

Role of textiles in the social, economic, aesthetic, and technological development of society; including production and design of textiles throughout history. Three lecture hours a week for one semester. Prerequisite: Textiles and Apparel 205 and 105L and three semester hours of coursework in art history, with a grade of at least C- in each course.

#### **TXA 355P. Problems in Retail Merchandising.**

Intensive study of selected problems related to field experience; development of analytical and problem-solving skills for retailing. At least 154 hours of supervised fieldwork for one semester. Prerequisite: Admission to the Retail Merchandising Internship Program.

#### **TXA 359H. Honors Reading Course.**

Supervised individual reading on special subjects. Conference course. Prerequisite: Upper-division standing, a University grade point average of at least 3.00, and consent of the undergraduate adviser.

#### **TXA 260L. Advanced Textiles.**

Composition, structure, and properties of textile products; contributions of textile research. Two lecture hours a week for one semester. Prerequisite: Textiles and Apparel 205 and 105L; Chemistry 301, 302,

and 204; six semester hours of upper-division coursework in textiles and apparel with a grade of at least C- in each course; and credit with a grade of at least C- or registration for Textiles and Apparel 260M.

#### **TXA 260M. Advanced Textiles Laboratory.**

Analysis and evaluation of textile performance. Six laboratory hours a week for one semester. Prerequisite: Credit or registration for Textiles and Apparel 260L.

#### **TXA 361. Consumer Behavior in the Marketplace.**

Internal and external factors that influence consumer behavior in the marketplace. Application of concepts and theories from the social sciences to the areas of textiles, clothing, and appearance; experience in conducting market and consumer research. Three lecture hours a week for one semester. Human Ecology 361 and Textiles and Apparel 361 may not both be counted. Prerequisite: Upper-division standing and three semester hours of coursework in economics.

#### **TXA 164K. Advanced Problems in Clothing.**

Creative application of flat pattern or draping processes. One lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Textiles and Apparel 212K, 212L, 316L, 126, and 226L, with a grade of at least C- in each; and credit with a grade of at least C- or registration for the same topic of Textiles and Apparel 264L.

**Topic 1: Flat Pattern.**

**Topic 2: Draping.**

**Topic 3: Advanced Apparel Design.**

#### **TXA 264L. Advanced Problems in Apparel Laboratory.**

Six laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Credit with a grade of at least C- or registration for the same topic of Textiles and Apparel 164K.

**Topic 1: Flat Pattern.**

**Topic 2: Draping.**

**Topic 3: Advanced Apparel Design.**

#### **TXA 165, 265, 365. Advanced Topics in Textiles and Apparel.**

For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing. Additional prerequisites vary with the topic.

#### **TXA 376. Principles of Retail Merchandising.**

Retail strategic planning and implementation for soft goods and apparel. Three lecture hours a week for one semester. Prerequisite: Marketing 320F and six semester hours of upper-division coursework in textiles and apparel, business, studio art, or journalism.

#### **TXA 378H. Honors Seminar in Textiles and Apparel.**

The equivalent of three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing, a University grade point average of at least 3.00, and consent of the honors adviser.

#### **TXA 379H. Honors Tutorial Course.**

Supervised individual research on a special topic in textiles and apparel; oral presentation and preparation of a scholarly paper covering the research. May be based on laboratory, library, or field research. Conference course. May be repeated once for credit.

Prerequisite: Upper-division standing, admission to the Textiles and Apparel Honors Program, Textiles and Apparel 359H with a grade of at least B-, and consent of the honors adviser.

## Department of Marine Science

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 627).

### Marine Science: MNS

#### Lower-Division Courses

##### **MNS 307 (TCCN: GEOL 1345). Introduction to Oceanography.**

Same as Geological Sciences 307. Introduction to the sciences of oceanography: geological, physical, and biological. Two lecture hours and two laboratory hours a week for one semester. May not be counted toward the Bachelor of Arts degree with a major in geological sciences, the Bachelor of Science in Geological Sciences (Option I), the Bachelor of Science in Geological Sciences (Option II), or the Bachelor of Science in Geological Sciences (Option III).

##### **MNS 308. Humans and a Changing Ocean.**

The consequences of human-induced alteration of the marine environment including the impact on fisheries, marine mammals, food-web changes, and changes in species composition and ecological function. Designed for non-science majors. Three lecture hours a week for one semester. Marine Sciences 309 (Topic: Humans and a Changing Ocean) and 308 may not both be counted. Prerequisite: Marine Sciences 307 or consent of instructor.

##### **MNS 309. Topics in Marine Science.**

Designed for nonscience majors. Selected topics in marine science, including marine biology, marine chemistry, and physical oceanography. Two lecture hours and one and one-half laboratory hours a week for one semester. May not be counted toward a degree in marine science. May be repeated for credit when the topics vary. Prerequisite: Marine Sciences 307.

#### Upper-Division Courses

##### **MNS 320. Marine Ecology.**

Study of ecological processes at different levels of integration in marine ecosystems. Three lecture hours a week for one semester. Prerequisite: Biology 311D, and Chemistry 302 or 302H.

##### **MNS 120L. Laboratory Studies in Marine Ecology.**

A laboratory course with two weekend field trips to the Marine Science Institute at Port Aransas to perform ecological studies in the Texas coastal zone. Two weekend field trips, with pre- and post-field trip laboratory hours required. Prerequisite: Credit or registration for Marine Sciences 320.

##### **MNS 440. Limnology and Oceanography.**

Same as Biology 456L. An introduction to the study of the interactions between aquatic organisms and their environments. Two lecture hours and six laboratory hours a week for one semester. Prerequisite:

Biology 325 or 325H with a grade of at least C-, and Chemistry 302 or 302H.

##### **MNS 344K. Marine Mining and Minerals.**

Same as Geological Sciences 344K. Overview of seafloor mineral deposits, their exploration and mining. Three lecture hours a week for one semester. May not be counted toward the Bachelor of Science in Geological Sciences degree. Prerequisite: Geological Sciences 401 or 303, 416K, and 416M.

##### **MNS 148, 348. Training Cruise(s).**

May be repeated for credit when the topics vary.

###### **Topic 1: Training Cruise(s): Research in Biological**

**Oceanography.** Same as Biology 148, 348. One or more cruises of one to several days each to collect physical, chemical, oceanographic, and biological data relevant to biological processes in the sea. Preparatory instruction and postcruise sample processing and analysis. Prerequisite: Biology 325 and Chemistry 302 with a grade of at least C- in each, and consent of instructor.

**Topic 2: Marine Geology and Geophysics Field Course.** Marine Science 348 (Topic 2) is same as Geological Sciences 348K.

Hands-on, team-based instruction in the collection and processing of marine geological and geophysical data along the Gulf of Mexico coast. Includes classroom, laboratory, and field components in Austin and at sea. Offered between the spring semester and the summer session; limited class meetings may begin in the spring semester. Geological Sciences 397F and Marine Science 348 (Topic 2) may not both be counted. Fulfills the field experience requirement for some geological sciences degree programs.

Students should contact the Department of Geological Sciences before registering. Prerequisite: For geological sciences majors, Geological Sciences 420K or 320L with a grade of at least C-, and consent of instructor; Geological Sciences 416M and 465K are recommended; for others, Marine Science 307 and 354F with a grade of at least C- in each, and consent of instructor.

##### **MNS 352. Principles of Marine Science.**

Lectures, laboratory, and fieldwork. The equivalent of three lecture hours a week for one semester. May be repeated for credit when the topics vary.

**Topic 9: Endocrinology.** Endocrinology, with special reference to lower vertebrates and evolution of control systems. Marine Science 352 (Topic 9) and 382 (Topic 9: Endocrinology) may not both be counted. May count as zoology. Prerequisite: Previous courses in physiology and consent of instructor.

**Topic 12: Adaptive Physiology of Marine Organisms.** Selected topics in the comparative physiology of marine organisms and their environmental adaptations. Prerequisite: Previous course in cell physiology or consent of instructor.

**Topic 13: Microclimatology.** Physical and thermal characteristics of the atmospheric surface layer, with particular reference to coastal environments.

**Topic 16: Ocean Engineering.** Description of ocean waves and tides, methods of wave forecasting, classroom and field exercises. Prerequisite: Consent of instructor.

**Topic 18: Marine Atmospheric Chemistry.** Atmospheric particle chemistry; sea-surface films, atmospheric organic matter; air-sea chemical fractionation; carbon, nitrogen, sulfur cycles. Prerequisite: Consent of instructor.

**Topic 20: General Marine Phycology.** Survey of benthic algae and phytoplankton of the Texas coast; systematics, morphology, life history and culturing techniques.

**Topic 21: Ecology of Marine Fungi.** Biology of the fungi with emphasis on ecological, morphological, and developmental aspects and culturing techniques.

**Topic 22: Oceanography.** Consideration of current understanding of the chemistry and biology of the oceans.

### **MNS 352C. Estuarine Ecology.**

General ecological principles of estuarine environments in Texas, including physiography, hydrography, and plant and animal community structure and productivity. Requires several field trips in addition to lecture hours, including one weekend trip. Marine Sciences 352 (Topic 8: Estuarine Ecology) and 352C may not both be counted. Offered on the letter-grade basis only. Prerequisite: Upper-division standing and six semester hours of coursework in biology, chemistry, geological sciences, or physics.

### **MNS 352D. Marine Botany.**

Exploration of the marine algae and seagrasses of the south Texas coast, with emphasis on their taxonomy, physiology, and ecology; field trips to representative coastal habitats. Requires several field trips in addition to lecture hours, including one weekend trip. Offered on the letter-grade basis only. Prerequisite: Upper-division standing; one of the following courses: Biology 322, 324, 325 or 325H, 328, Marine Sciences 352C; and three additional semester hours of coursework in biology.

### **MNS 152L, 252L. Principles of Marine Science: Laboratory Studies.**

A laboratory course with one-day field trips (which may include weekends) to local estuarine and coastal habitats. Includes pre- and post-field trip laboratory hours. For each semester hour of credit earned, three or four field/laboratory sessions, scheduled throughout the semester. May be counted toward the Bachelor of Science in Biology (Option III: Marine and Freshwater Biology) and toward other undergraduate degrees in biology. May be repeated for credit when the topics vary. Prerequisite: Credit or registration for Marine Sciences 352.

### **MNS 152S, 252S. Principles of Marine Science: Undergraduate Seminar.**

Guest lectures by local and visiting research scientists on a variety of topics in marine and environmental science. Each seminar is followed by a separate one-hour discussion to give students an opportunity to meet directly with the scientist. For each semester hour of credit earned, one lecture/discussion a week for one semester. May be counted toward the Bachelor of Science in Biology (Option III: Marine and Freshwater Biology) and toward other undergraduate degrees in biology. May be repeated for credit when the topics vary.

### **MNS 152T, 252T. Principles of Marine Science: Special Topics.**

Advanced research topics in marine science relevant to critical habitats, organisms, or processes. A field oriented course with weekend field trips on the Texas coast, including pre- and post-field trip laboratory hours. For each semester hour of credit earned, two weekend field trips, scheduled throughout the semester. May be counted toward the Bachelor of Science in Biology (Option III: Marine and Freshwater Biology) and toward other undergraduate degrees in biology. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and six semester hours of coursework in biology, chemistry, geological sciences, and/or physics.

### **MNS 353. Topics in Marine Science.**

Two lecture hours and one laboratory hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and consent of instructor.

**Topic 2: Fish Adaptations to Coastal Ecosystems.** Quantitative ecological comparisons of zoogeographical abundance and distribution with population, metabolic, and growth parameters. Additional prerequisite: Fifteen semester hours of coursework in biology and/or zoology.

**Topic 4: Current Research.** Research instruction/participation in marine science. Laboratory and field activity with emphasis on faculty contact.

**Topic 5: Seafloor Mining.** Study of seafloor mineral resources, including problems and policies related to exploration, mining, environmental concerns, assessment, and industrial development.

**Topic 6: Marine Ecology.** Independent study in marine ecology, literature research, and comprehensive writing. Report required. Additional prerequisite: Upper-division standing in a natural science, engineering, or education.

**Topic 7: Marine Sedimentology.** Selected topics and problems concerning the depositional processes, controls, and distribution of marine sediments.

**Topic 8: Marine Chemistry.** Study of the processes controlling the chemistry of natural waters, the oceans as a chemical system, and the impact of human activities on these systems.

**Topic 14: Marine Isotope Geochemistry.** The use of isotopes (stable, radiogenic, uranium series, and anthropogenic) in the study of marine science.

**Topic 15: Interdisciplinary Classroom Field Methods.** Uses the interdisciplinary nature of marine science to focus on inquiry-based instruction, constructivist-oriented teaching strategies, and field explorations.

**Topic 17: Marine Fish Physiology.** Physiology of major organ systems of marine fishes, with emphasis on adaptations to marine environments. Includes osmoregulation, nutrition, circulation, excretion, reproduction, sensory physiology, and endocrine control. Additional prerequisite: Biology 311D, and Chemistry 302 or 302H.

### **MNS 354. Marine Invertebrates.**

Study of invertebrate taxonomy, structure, behavior, and ecology, with emphasis on field sampling and laboratory studies of invertebrate habitats of the Texas coast. Three lecture hours a week for one semester. Prerequisite: Six semester hours of biology or consent of instructor.

### **MNS 354C. Biology of Fishes.**

Anatomy, physiology, behavior, life history, taxonomy, and distribution of fishes, with emphasis on field sampling and laboratory studies of the coastal biota. Requires several field trips in addition to lecture hours, including one weekend trip. Prerequisite: Upper-division standing, six semester hours of coursework in biological sciences, or consent of instructor.

### **MNS 354E. Aquatic Microbiology.**

Ecology, physiology, distribution, and growth of heterotrophic and autotrophic bacteria and fungi in waters and sediments. Three lecture hours a week for one semester. Marine Sciences 354E and 384E may not both be counted. Prerequisite: Biology 311D, Chemistry 302 or 302H, and consent of instructor.

### **MNS 354F. Marine Geology.**

Survey of the origin, structure, stratigraphy, and sedimentology of marine basins and continental margins. Three lecture hours a week for one semester. Marine Sciences 354F and 384F may not both be counted. Prerequisite: Upper-division standing; and six semester hours of coursework in chemistry, marine science, or geological sciences, or consent of instructor.

### **MNS 354J. Marine Chemistry.**

Introduction to marine and environmental chemistry, including the distribution of elements in seawater, the geochemical and oceanographic processes controlling and affected by these distributions, and the effects of human activities on marine chemical processes. Three lecture hours a week for one semester. Prerequisite: Upper-division standing, and Chemistry 301 and 302; or consent of instructor.

### **MNS 354Q. Marine Environmental Science.**

Application of the principles of marine science to the study of environmental issues: toxicology, biogeochemical cycles, and biological and ecological impacts of xenobiotic materials in the coastal zone. The equivalent of three lecture hours a week for one semester with field trips to the Marine Science Institute in Port Aransas, Texas, to be arranged. Prerequisite: Biology 311D, and Chemistry 302 or 302H.

### **MNS 354T. Biological Oceanography.**

Introduction to the organisms in the sea, their adaptations to the environment, and the factors that control their distribution and abundance. The course emphasizes laboratory and field work with organisms found in the coastal waters of Texas. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and Biology 311D.

### **MNS 354U. Biology of Sharks, Skates, and Rays.**

Ecology, anatomy, and physiology of elasmobranch fishes. Three lecture hours a week for one semester. Prerequisite: Upper-division standing; and Biology 354L, 361T, or Marine Sciences 354C and three additional upper-division biology or marine science hours or consent of instructor.

### **MNS 355C. Physiology of Fishes.**

Physiology of major organ systems of both marine and freshwater fishes. Three lecture hours a week for one semester. Prerequisite: Upper-division standing; and Biology 311D, and Chemistry 302 or 302H, or consent of instructor.

### **MNS 367K. Human Exploration and Exploitation of the Sea.**

Review of the history of ocean exploration including major oceanographic expeditions. Discussion of current topics in ocean exploration and exploitation of marine resources, the impact of resource exploitation on biological systems, and the development of marine policy. An oral presentation is required. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and Marine Sciences 307 with a grade of at least B-.

### **MNS 170, 270, 370. Special Studies in Marine Science.**

Supervised individual instruction and research in marine science field and laboratory techniques. The equivalent of one, two, or three class hours a week for one semester, at the Marine Science Institute at Port Aransas. May be repeated for credit. Prerequisite: Six semester

hours of upper-division coursework in science, a University grade point average of at least 3.00, and written consent of instructor.

## **Department of Mathematics**

The Department of Mathematics offers a wide variety of courses both for math majors and for non-majors. Students interested in mathematics as a first or second major should consult the advisers in the Mathematics, Physics, and Astronomy Advising Center, in RLM 4.101.

Course prerequisites are enforced. Most entry-level mathematics courses have an appropriate score on the mathematics placement exam as a prerequisite. In such courses, students must be prepared to present proof of their score immediately after classes have begun; those unable to meet the score will be dropped.

Students may check the current *Course Schedule* available at <http://registrar.utexas.edu/schedules> or go to the math web page at <http://www.ma.utexas.edu> for details about the prerequisite required for their course.

Students who plan to use transfer credit to meet the prerequisite of a mathematics course must submit an official transcript to the Office of Admissions so that the credit may be added to their official university record. In addition to sending a transcript, students are encouraged to retain hard copies of their grade reports for proof of prerequisite until their transcripts are processed.

Students who wish to enroll in conference courses in the Department of Mathematics must submit consent of instructor forms to the department before registering. Forms are available in the Advising Center.

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 627).

### **Actuarial Foundations: ACF**

#### **Lower-Division Courses**

#### **ACF 110, 210, 310, 410. Conference Course.**

Supervised study of selected topics, by individual arrangement with department and instructor. Conference course. Some sections are offered on the pass/fail basis only; these are identified in the Course Schedule. May be repeated for credit when the topics vary. Prerequisite: Written consent of instructor.

#### **ACF 110T. Conference Course: Texas Department of Insurance Internship.**

Supervised internship at the Texas Department of Insurance. Conference course. May be repeated for credit. Admission by application only. Students must apply to the director of the concentration in actuarial studies the semester before they take the course.

#### **ACF 112M. Actuarial Laboratory on Probability and Statistics.**

Problems and supplementary instruction in probability and statistics, especially as required for the Society of Actuaries and Casualty

Actuarial Society Exam 110. Three laboratory hours a week for one semester. Prerequisite: Mathematics 362K, credit or registration for Mathematics 378K, and consent of the director of the concentration in actuarial studies.

## Upper-Division Courses

### ACF 329. Theory of Interest.

Measurement of interest, present and accumulated value, amortization, sinking funds, bonds, duration, and immunization. Covers the interest-theory portion of an exam of the Society of Actuaries and the Casualty Actuarial Society. Three lecture hours a week for one semester. Actuarial Foundations 329 and Mathematics 389F may not both be counted. Prerequisite: Mathematics 408D, 308L, 408L, or 408S with a grade of at least C-.

### ACF 129D. Introductory Actuarial Financial Mathematics.

Introductory analysis of financial derivatives. Covers the financial derivatives portion of the syllabus for the professional actuarial exam on financial mathematics. One lecture hour a week for one semester. Offered on the pass/fail basis only. Prerequisite: Credit with a grade of at least C- or registration for Actuarial Foundations 329.

## Mathematics: M

### Lower-Division Courses

#### M 301 (TCCN: MATH 1314). College Algebra.

Topics include a brief review of elementary algebra; linear, quadratic, exponential, and logarithmic functions; polynomials; systems of linear equations; applications. Three lecture hours a week for one semester. Usually offered only in the summer session. May not be counted toward the major requirement for the Bachelor of Arts, Plan I, degree with a major in mathematics or toward the Bachelor of Science in Mathematics degree. Credit for Mathematics 301 may not be earned after a student has received credit for any calculus course with a grade of C- or better. Prerequisite: A passing score on the mathematics section of the Texas Higher Education Assessment (THEA) test (or an appropriate assessment test).

#### M 302 (TCCN: MATH 1332). Introduction to Mathematics.

Intended primarily for general liberal arts students seeking knowledge of the nature of mathematics as well as training in mathematical thinking and problem solving. Topics include number theory and probability; additional topics are chosen by the instructor. Three lecture hours a week for one semester. Mathematics 302 and 303F may not both be counted. A student may not earn credit for Mathematics 302 after having received credit for any calculus course. May not be counted toward a degree in the College of Natural Sciences. Prerequisite: Three units of high school mathematics at the level of Algebra I or higher, and a passing score on the mathematics section of the Texas Higher Education Assessment (THEA) test (or an appropriate assessment test).

#### M 303D (TCCN: MATH 1324). Applicable Mathematics.

An entry-level course for the nontechnical student, dealing with some of the techniques that allow mathematics to be applied to a variety of problems. Topics include linear and quadratic equations, systems of linear equations, matrices, probability, statistics, exponential and logarithmic functions, and mathematics of finance. Three lecture hours a week for one semester. Mathematics 303D and 303F may not both be counted. A student may not earn credit for Mathematics 303D after having received credit for Mathematics 305G or any calculus course. May not be counted toward a degree in the College of Natural

Sciences. Prerequisite: An appropriate score on the mathematics placement exam.

#### M 303F. Mathematics of Investment.

Simple and compound interest, equivalent rates, equivalent values, annuities, amortization, sinking funds, bonds, depreciation. Three lecture hours a week for one semester. Mathematics 302 and 303F may not both be counted; Mathematics 303D and 303F may not both be counted. May not be counted toward the major requirement for the Bachelor of Arts, Plan I, degree with a major in mathematics or toward the Bachelor of Science in Mathematics degree. Prerequisite: Three units of high school mathematics at the level of Algebra I or higher.

#### M 403K (TCCN: MATH 1425). Calculus I for Business and Economics.

Differential and integral calculus of algebraic, logarithmic, and exponential functions with applications. Three lecture hours and two discussion sessions a week for one semester. Only one of the following may be counted: Mathematics 403K, 408C, 408K, 408N. May not be counted toward a degree in the College of Natural Sciences. Prerequisite: An appropriate score on the mathematics placement exam.

#### M 403L. Calculus II for Business and Economics.

Differential and integral calculus of functions of several variables with applications, infinite series, improper integrals; introductions to probability, differential equations, matrices, systems of linear equations, and linear programming. Three lecture hours and two discussion sessions a week for one semester. Mathematics 403L and 408L (or 308L) may not both be counted. May not be counted toward the major requirement for the Bachelor of Arts, Plan I, degree with a major in mathematics or toward the Bachelor of Science in Mathematics degree. Prerequisite: Mathematics 403K, 408C, 308L, or 408N with a grade of at least C-.

#### M 305E. Analytic Geometry.

Combines development of methods (including adequate treatment of theory) and acquisition of skills with applications. Three lecture hours a week for one semester. Mathematics 305E and 305K may not both be counted. Mathematics 305E and 305G may not both be counted toward the major requirement for the Bachelor of Arts, Plan I, degree with a major in Mathematics or towards the Bachelor of Science in Mathematics degree. Prerequisite: Mathematics 301.

#### M 305G (TCCN: MATH 2312). Preparation for Calculus.

Study of advanced functions and their graphs and applications, including exponential, logarithmic, and trigonometric functions. Introduction to rates, slopes, and derivatives. Three lecture hours a week for one semester. Mathematics 305G (or 505G) and any college-level trigonometry course may not both be counted. A student may not earn credit for Mathematics 305G (or 505G) after having received credit for any calculus course with a grade of at least C-. Mathematics 301, 305G (or 505G), and equivalent courses may not be counted toward a degree in mathematics. Prerequisite: An appropriate score on the mathematics placement exam.

#### M 408C (TCCN: MATH 2417). Differential and Integral Calculus.

Introduction to the theory and applications of differential and integral calculus of functions of one variable; topics include limits, continuity, differentiation, the mean value theorem and its applications, integration, the fundamental theorem of calculus, and transcendental functions. Three lecture hours and two discussion hours a week for

one semester. Only one of the following may be counted: Mathematics 403K, 408C, 408K, 408N. Prerequisite: An appropriate score on the mathematics placement exam.

#### **M 408D (TCCN: MATH 2419). Sequences, Series, and Multivariable Calculus.**

Certain sections of this course are designated as advanced placement or honors sections; they are restricted to students who have scored well on the AP/BC exam, are in the Engineering Honors Program, or have the consent of the mathematics adviser. Such sections and their restrictions are identified in the Course Schedule. Introduction to the theory and applications of sequences and infinite series, including those involving functions of one variable, and to the theory and applications of differential and integral calculus of functions of several variables; topics include parametric equations, sequences, infinite series, power series, vectors, vector calculus, functions of several variables, partial derivatives, gradients, and multiple integrals. Three lecture hours and two discussion hours a week for one semester. Only one of the following may be counted: Mathematics 403L, 408D, 408M (or 308M). Prerequisite: Mathematics 408C, 408L, or 408S with a grade of at least C-.

#### **M 408K (TCCN: MATH 2413). Differential Calculus.**

Introduction to the theory and applications of differential calculus of functions of one variable; topics include limits, continuity, differentiation, and the mean value theorem and its applications. Three lecture hours and two discussion hours a week for one semester. Only one of the following may be counted: Mathematics 403K, 408C, 408K, 408N. Prerequisite: An appropriate score on the mathematics placement exam.

#### **M 308L, 408L. Integral Calculus.**

Introduction to the theory and applications of integral calculus of functions of one variable; topics include integration, the fundamental theorem of calculus, transcendental functions, sequences, and infinite series. For Mathematics 308L, three lecture hours a week for one semester; for 408L, three lecture hours and two discussion hours a week for one semester. Only one of the following may be counted: Mathematics 403L, 408L (or 308L), 408S. Prerequisite: Mathematics 408C, 408K, or 408N with a grade of at least C-.

#### **M 308M, 408M. Multivariable Calculus.**

Introduction to the theory and applications of differential and integral calculus of functions of several variables. Includes parametric equations, polar coordinates, vectors, vector calculus, functions of several variables, partial derivatives, gradients, and multiple integrals. For Mathematics 308M, three lecture hours a week for one semester; for 408M, three lecture hours and two discussion hours a week for one semester. Only one of the following may be counted: Mathematics 403L, 408D, 408M (or 308M). Prerequisite: Mathematics 408L or 408S with a grade of at least C-.

#### **M 408N (TCCN: MATH 2413). Differential Calculus for Science.**

Restricted to students in the College of Natural Sciences. Introduction to the theory of differential calculus of functions of one variable, and its application to the natural sciences. Subjects may include limits and differentiation, with applications to rates of change, extremes, graphing, and exponential growth and decay. Three lecture hours and two discussion hours a week for one semester. Only one of the following may be counted: Mathematics 403K, 408C, 408K, 408N.

Prerequisite: An appropriate score on the mathematics placement exam.

#### **M 408R. Differential and Integral Calculus for the Sciences.**

A calculus course for students in the life sciences. Emphasizes representations and analysis of data. Subjects include functions, rates, and derivatives and their applications to problems in biology; differential equations; Riemann integrals; the Euler method; and fundamental theorems of calculus. Three lecture hours and two discussion hours a week for one semester. May not be counted by students with credit for Mathematics 408C, 408K, or 408N. Prerequisite: An appropriate score on the mathematics placement exam.

#### **M 408S (TCCN: MATH 2414). Integral Calculus for Science.**

Restricted to students in the College of Natural Sciences. Introduction to the theory of integral calculus of functions of one variable, and its applications to the natural sciences. Subjects may include integration and its application to area and volume, and transcendental functions, sequences, and series and their application to numerical methods. Three lecture hours and two discussion hours a week for one semester. Only one of the following may be counted: Mathematics 403L, 408L (or 308L), 408S. Prerequisite: Mathematics 408C, 408K, or 408N with a grade of at least C-.

#### **M 110, 210, 310, 410. Conference Course.**

Supervised study in mathematics, with hours to be arranged. Some sections are offered on the pass/fail basis only; these are identified in the Course Schedule. Some sections may not be counted toward any mathematics or science degree requirement; these are identified in the Course Schedule. May be repeated for credit when the topics vary. Prerequisite: Written consent of instructor. Forms are available in the department office or in the Mathematics, Physics, and Astronomy Advising Center.

#### **M 210E. Emerging Scholars Seminar.**

Restricted to students in the Emerging Scholars Program. Supplemental problem-solving laboratory for precalculus, calculus, or advanced calculus courses for students in the Emerging Scholars Program. Three or four laboratory hours a week for one semester. May be repeated for credit. Offered on the pass/fail basis only.

#### **M 310P. Modern Mathematics: Plan II.**

Restricted to Plan II students. Significant developments in modern mathematics. Topics may include fractals, the fourth dimension, statistics and society, and techniques for thinking about quantitative problems. Three lecture hours a week for one semester. May not be counted toward a degree in mathematics.

#### **M 110T, 210T, 310T, 410T. Topics in Mathematics.**

One, two, three, or four lecture hours a week for one semester. May be repeated for credit when the topics vary.

#### **M 315C. Foundations, Functions, and Regression Models.**

In-depth study of topics from secondary school mathematics. Emphasizes the development of the concept of function, exploring function patterns in data sets, and the connections between the main topics of mathematics associated with a secondary school curriculum. Use of appropriate technology is explored. Three lecture hours a week for one semester. Prerequisite: Credit or registration for Mathematics 408C and enrollment in a teaching preparation program, or consent of instructor.

**M 316 (TCCN: MATH 1342, MATH 2342). Elementary Statistical Methods.**

Graphical presentation, frequency functions, distribution functions, averages, standard deviation, variance, curve-fitting, and related topics. Three lecture hours a week for one semester. Only one of the following may be counted: Mathematics 316, Statistics and Scientific Computation 303, 304, 305, 306. Prerequisite: An appropriate score on the mathematics placement exam.

**M 316K (TCCN: MATH 1350). Foundations of Arithmetic.**

Restricted to students in a teacher preparation program. An analysis, from an advanced perspective, of the concepts and algorithms of arithmetic, including sets; numbers; numeration systems; definitions, properties, and algorithms of arithmetic operations; and percents, ratios, and proportions. Problem solving is stressed. Three lecture hours a week for one semester. May not be counted toward the major requirement for the Bachelor of Arts, Plan I, degree with a major in mathematics or toward the Bachelor of Science in Mathematics degree. Credit for Mathematics 316K may not be earned after the student has received credit for any calculus course with a grade of C- or better, unless the student is registered in the College of Education. Prerequisite: Mathematics 302, 303D, 305G (or 505G), or 316 with a grade of at least C-.

**M 316L (TCCN: MATH 1351). Foundations of Geometry, Statistics, and Probability.**

Restricted to students in a teacher preparation program. An analysis, from an advanced perspective, of the basic concepts and methods of geometry, statistics, and probability, including representation and analysis of data; discrete probability, random events, and conditional probability; measurement; and geometry as approached through similarity and congruence, through coordinates, and through transformations. Problem solving is stressed. Three lecture hours a week for one semester. May not be counted toward the major requirement for the Bachelor of Arts, Plan I, degree with a major in mathematics or toward the Bachelor of Science in Mathematics degree. Credit for Mathematics 316L may not be earned after the student has received credit for any calculus course with a grade of C- or better, unless the student is registered in the College of Education. Prerequisite: Mathematics 316K with a grade of at least C-.

**M 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Mathematics.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Mathematics. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

## Upper-Division Courses

**M 325K. Discrete Mathematics.**

Provides a transition from the problem-solving approach of Mathematics 408C and 408D to the rigorous approach of advanced courses. Topics include logic, set theory, relations and functions, combinatorics, and graph theory and graph algorithms. Three lecture hours a week for one semester. Prerequisite: Mathematics 408D, 408L, or 408S with a grade of at least C-; or consent of instructor.

**M 326K. Foundations of Number Systems.**

Restricted to students in a teacher preparation program or who have consent of instructor. Study of number-related topics in middle-grade and secondary school mathematics. Topics include place value; meanings of arithmetic operations; analysis of computation methods; historical development of number concepts and notation; and rational, irrational, algebraic, transcendental, and complex numbers. Emphasis is on communicating mathematics, developing pedagogical understanding of concepts and notation, and using both informal reasoning and proof. Three lecture hours a week for one semester. Prerequisite: Mathematics 408D, 408L, or 408S with a grade of at least C-.

**M 427K. Advanced Calculus for Applications I.**

Ordinary and partial differential equations and Fourier series. Five class hours a week for one semester. Prerequisite: Mathematics 408D, 408L, or 408S with a grade of at least C-.

**M 427L. Advanced Calculus for Applications II.**

Matrices, elements of vector analysis and calculus of functions of several variables, including gradient, divergence, and curl of a vector field, multiple integrals and chain rules, length and area, line and surface integrals, Green's theorems in the plane and space, and, if time permits, complex analysis. Five class hours a week for one semester. Prerequisite: Mathematics 408D or 408M with a grade of at least C-.

**M 328K. Introduction to Number Theory.**

Provides a transition from the problem-solving approach of Mathematics 408C and 408D to the rigorous approach of advanced courses. Properties of the integers, divisibility, linear and quadratic forms, prime numbers, congruences and residues, quadratic reciprocity, number theoretic functions. Three lecture hours a week for one semester. Prerequisite: Mathematics 341 with a grade of at least C-.

**M 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Mathematics.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Mathematics. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**M 329W. Cooperative Mathematics.**

This course covers the work period of mathematics students in the Cooperative Education program, which provides supervised work experience by arrangement with the employer and the supervising instructor. Forty laboratory hours a week for one semester. The student must repeat the course each work period and must take it twice to receive credit toward the degree; at least one of these registrations must be during a long-session semester. No more than three semester hours may be counted toward the major requirement; no more than six semester hours may be counted toward the degree. The student's first registration must be on the pass/fail basis. Prerequisite: Application through the College of Natural Sciences Career Services Office; Mathematics 408D, 408L, or 408S with a grade of at least C-; a grade of at least C- in two of the following courses: Mathematics 325K, 427K, 341, 362K, or 378K; and consent of the undergraduate adviser.

### **M 333L. Structure of Modern Geometry.**

Axiom systems, transformational geometry, introduction to non-Euclidean geometries, and other topics in geometry; use of these ideas in teaching geometry. Three lecture hours a week for one semester. Prerequisite: Mathematics 408D, 408L, or 408S with a grade of at least C-; or upper-division standing and consent of instructor.

### **M 339J. Probability Models with Actuarial Applications.**

Introductory actuarial models for life insurance, property insurance, and annuities. With Mathematics 349P, covers the syllabus for the professional actuarial exam on model construction. Three lecture hours a week for one semester. Prerequisite: Mathematics 358K or 378K with a grade of at least C-.

### **M 139S. Seminar on Actuarial Practice.**

Presentations by working actuaries on current issues in actuarial practice. One lecture hour a week for one semester. Offered on the pass/fail basis only. Prerequisite: Actuarial Foundations 329; Mathematics 339J or 339U with a grade of at least C-; and credit with a grade of at least C- or registration for Actuarial Foundations 329; and credit with a grade of at least C- or registration for Mathematics 339J, 339U, 339V, 349P (or 449P).

### **M 339U. Actuarial Contingent Payments I.**

Intermediate actuarial models for life insurance, property insurance, and annuities. Three lecture hours a week for one semester. Prerequisite: Mathematics 362K with a grade of at least C-; credit with a grade of at least C- or registration for Actuarial Foundations 329; and credit with a grade of at least C- or registration for Mathematics 340L or 341.

### **M 339V. Actuarial Contingent Payments II.**

Advanced actuarial models for life insurance, property insurance, and annuities. Three lecture hours a week for one semester. Prerequisite: Actuarial Foundations 329 and Mathematics 339U with a grade of at least C- in each.

### **M 339W. Financial Mathematics for Actuarial Applications.**

Options and other financial derivatives, pricing models, stock price models, and interest-rate models for actuarial applications. Three lecture hours a week for one semester. Prerequisite: Actuarial Foundations 329 with a grade of at least C-; Actuarial Foundations 129D, or Finance 377 (Topic 2: Financial Risk Management) with a grade of at least C-; and Mathematics 362K with a grade of at least C-.

### **M 340L. Matrices and Matrix Calculations.**

Restricted to nonmathematics majors. Techniques of matrix calculations and applications of linear algebra. Three lecture hours a week for one semester. Mathematics 340L and 341 may not both be counted. Prerequisite: Mathematics 408C, 408K, or 408N with a grade of at least C-.

### **M 341. Linear Algebra and Matrix Theory.**

Restricted to mathematics majors. Vector spaces, linear transformations, matrices, linear equations, determinants. Some emphasis on rigor and proofs. Mathematics 340L and 341 may not both be counted. Prerequisite: Mathematics 408D or 408M with a grade of at least C-.

### **M 343K. Introduction to Algebraic Structures.**

Elementary properties of groups and rings, including symmetric groups, properties of the integers, polynomial rings, elementary field theory. Three lecture hours a week for one semester. Students who

have received a grade of C- or better in Mathematics 373K may not take Mathematics 343K. Prerequisite: Consent of the undergraduate adviser, or two of the following courses with a grade of at least C- in each: Mathematics 325K or Philosophy 313K, Mathematics 328K, Mathematics 341.

### **M 343L. Applied Number Theory.**

Basic properties of integers, including properties of prime numbers, congruences, and primitive roots. Introduction to finite fields and their vector spaces with applications to encryption systems and coding theory. Three lecture hours a week for one semester. Prerequisite: Mathematics 328K or 343K with a grade of at least C-.

### **M 343M. Error-Correcting Codes.**

Introduction to applications of algebra and number theory to error-correcting codes, including finite fields, error-correcting codes, vector spaces over finite fields, Hamming norm, coding, and decoding. Three lecture hours a week for one semester. Prerequisite: Mathematics 328K or 341 with a grade of at least C-.

### **M 344K. Intermediate Symbolic Logic.**

Same as Philosophy 344K. A second-semester course in symbolic logic: formal syntax and semantics, basic metatheory (soundness, completeness, compactness, and Loewenheim-Skolem theorems), and further topics in logic. Three lecture hours a week for one semester. Prerequisite: Philosophy 313, 313K, or 313Q.

### **M 346. Applied Linear Algebra.**

Emphasis on diagonalization of linear operators and applications to dynamical systems and ordinary differential equations. Other subjects include inner products and orthogonality, normal mode expansions, vibrating strings and the wave equation, and Fourier series. Three lecture hours a week for one semester. Prerequisite: Mathematics 341 or 340L with a grade of at least C-.

### **M 348. Scientific Computation in Numerical Analysis.**

Introduction to mathematical properties of numerical methods and their applications in computational science and engineering. Introduction to object-oriented programming in an advanced language. Study and use of numerical methods for solutions of linear systems of equations; nonlinear least-squares data fitting; numerical integration; and solutions of multidimensional nonlinear equations and systems of initial value ordinary differential equations. Three lecture hours a week for one semester. Prerequisite: Computer Science 303E or 307, and Mathematics 341 or 340L with a grade of at least C-.

### **M 349P. Actuarial Statistical Estimates.**

Statistical estimation procedures for random variables and related quantities in actuarial models. With Mathematics 339J, covers the syllabus for the professional actuarial exam on model construction. Three lecture hours a week for one semester. Prerequisite: Mathematics 339J, and 341 or 340L, with a grade of at least C- in each.

### **M 349R. Applied Regression and Time Series.**

Introduction to simple and multiple linear regression and to elementary time-series models, including auto-regressive and moving-average models. Emphasizes fitting models to data, evaluating models, and interpreting results. Three lecture hours a week for one semester. Prerequisite: Mathematics 358K or 378K with a grade of at least C-, or an introductory statistics course and consent of the director of the concentration in actuarial studies.

**M 349T. Time Series and Survival-Model Estimation.**

Introduction to the probabilistic and statistical properties of time series; parameter estimation and hypothesis testing for survival models. Covers 30 percent of the syllabus for exam #4 of the Society of Actuaries and the Casualty Actuarial Society. Three lecture hours a week for one semester. Prerequisite: Mathematics 339U, 341 or 340L, and 358K or 378K.

**M 358K. Applied Statistics.**

Exploratory data analysis, correlation and regression, data collection, sampling distributions, confidence intervals, and hypothesis testing. Three lecture hours a week for one semester. Mathematics 358K and Statistics and Scientific Computation 321 may not both be counted. Prerequisite: Mathematics 362K with a grade of at least C-.

**M 360M. Mathematics as Problem Solving.**

Discussion of heuristics, strategies, and methods of evaluating problem solving, and extensive practice in both group and individual problem solving. Communicating mathematics, reasoning, and connections among topics in mathematics are emphasized. Three lecture hours a week for one semester. Prerequisite: Mathematics 408D, 408L, or 408S with a grade of at least C-; and written consent of instructor.

**M 361. Theory of Functions of a Complex Variable.**

Elementary theory and applications of analytic functions, series, contour integration, and conformal mappings. Three lecture hours a week for one semester. Prerequisite: Mathematics 427K or 427L with a grade of at least C- or consent of instructor.

**M 361K. Introduction to Real Analysis.**

A rigorous treatment of the real number system, of real sequences, and of limits, continuity, derivatives, and integrals of real-valued functions of one real variable. Three lecture hours a week for one semester. Students who have received a grade of C- or better in Mathematics 365C may not take Mathematics 361K. Prerequisite: Consent of the undergraduate adviser, or two of the following courses with a grade of at least C- in each: Mathematics 325K or Philosophy 313K, Mathematics 328K, Mathematics 341.

**M 362K. Probability I.**

An introductory course in the mathematical theory of probability, fundamental to further work in probability and statistics, includes basic probability properties, conditional probability and independence, various discrete and continuous random variables, expectation and variance, central limit theorem, and joint probability distributions. Three lecture hours a week for one semester. Prerequisite: Mathematics 408D, 408L, or 408S with a grade of at least C-.

**M 362M. Introduction to Stochastic Processes.**

Introduction to Markov chains, birth and death processes, and other topics. Three lecture hours a week for one semester. Prerequisite: Mathematics 362K with a grade of at least C-.

**M 364K. Vector and Tensor Analysis I.**

Invariance, vector algebra and calculus, integral theorems, general coordinates, introductory differential geometry and tensor analysis, applications. Three lecture hours a week for one semester. Prerequisite: Mathematics 427K or 427L with a grade of at least C-.

**M 364L. Vector and Tensor Analysis II.**

Continuation of Mathematics 364K, with emphasis on tensor and extensor analysis. Riemannian geometry and invariance. Three lecture hours a week for one semester. Prerequisite: Mathematics 364K with a grade of at least C-.

**M 365C. Real Analysis I.**

A rigorous treatment of the real number system, Euclidean spaces, metric spaces, continuity of functions in metric spaces, differentiation and Riemann integration of real-valued functions of one real variable, and uniform convergence of sequences and series of functions. Three lecture hours a week for one semester. Students who have received a grade of C- or better in Mathematics 365C may not take Mathematics 361K. Prerequisite: Consent of the undergraduate adviser, or two of the following courses with a grade of at least C- in each: Mathematics 325K or Philosophy 313K, Mathematics 328K, Mathematics 341. Students who receive a grade of C- in one of the prerequisite courses are advised to take Mathematics 361K before attempting 365C. Students planning to take Mathematics 365C and 373K concurrently should consult a mathematics adviser.

**M 365D. Real Analysis II.**

Recommended for students planning to undertake graduate work in mathematics. A rigorous treatment of selected topics in real analysis, such as Lebesgue integration, or multivariate integration and differential forms. Three lecture hours a week for one semester. Prerequisite: Mathematics 365C with a grade of at least C-.

**M 365G. Curves and Surfaces.**

Calculus applied to curves and surfaces in three dimensions: curvature and torsion of space curves, Gauss map and curvature of surfaces, Gauss theorem, geodesics, and the Gauss-Bonnet theorem. Three lecture hours a week for one semester. Prerequisite: Credit with a grade of at least C- or registration for Mathematics 365C.

**M 367K. Topology I.**

An introduction to topology, including sets, functions, cardinal numbers, and the topology of metric spaces. Three lecture hours a week for one semester. Prerequisite: Mathematics 361K or 365C or consent of instructor.

**M 367L. Topology II.**

Various topics in topology, primarily of a geometric nature. Three lecture hours a week for one semester. Prerequisite: Mathematics 367K with a grade of at least C- or consent of instructor.

**M 368K. Numerical Methods for Applications.**

Continuation of Mathematics 348. Topics include splines, orthogonal polynomials and smoothing of data, iterative solution of systems of linear equations, approximation of eigenvalues, two-point-boundary value problems, numerical approximation of partial differential equations, signal processing, optimization, and Monte Carlo methods. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 367, Mathematics 368K, Physics 329. Prerequisite: Mathematics 348 with a grade of at least C-.

**M 372. Fourier Series and Boundary Value Problems.**

Discussion of differential equations of mathematical physics and representation of solutions by Green's functions and eigenfunction expansions. Three lecture hours a week for one semester. Prerequisite: Mathematics 427K with a grade of at least C-.

### **M 372K. Partial Differential Equations and Applications.**

Partial differential equations as basic models of flows, diffusion, dispersion, and vibrations. Topics include first- and second-order partial differential equations and classification (particularly the wave, diffusion, and potential equations), and their origins in applications and properties of solutions. Includes the study of characteristics, maximum principles, Green's functions, eigenvalue problems, and Fourier expansion methods. Three lecture hours a week for one semester. Prerequisite: Mathematics 427K with a grade of at least C-.

### **M 373K. Algebraic Structures I.**

A study of groups, rings, and fields, including structure theory of finite groups, isomorphism theorems, polynomial rings, and principal ideal domains. Three lecture hours a week for one semester. Students who have received a grade of C- or better in Mathematics 373K may not take Mathematics 343K. Prerequisite: Consent of the undergraduate adviser, or two of the following courses with a grade of at least C- in each: Mathematics 325K or Philosophy 313K, Mathematics 328K, Mathematics 341. Students who receive a grade of C- in one of the prerequisite courses are advised to take Mathematics 343K before attempting 373K. Students planning to take Mathematics 365C and 373K concurrently should consult a mathematics adviser.

### **M 373L. Algebraic Structures II.**

Recommended for students planning to undertake graduate work in mathematics. Topics from vector spaces and modules, including direct sum decompositions, dual spaces, canonical forms, and multilinear algebra. Three lecture hours a week for one semester. Prerequisite: Mathematics 373K with a grade of at least C-.

### **M 374. Fourier and Laplace Transforms.**

Operational properties and application of Laplace transforms; some properties of Fourier transforms. Three lecture hours a week for one semester. Prerequisite: Mathematics 427K with a grade of at least C-.

### **M 374G. Linear Regression Analysis.**

Fitting of linear models to data by the method of least squares, choosing best subsets of predictors, and related materials. Three lecture hours a week for one semester. Prerequisite: Mathematics 358K or 378K with grade of at least C-, Mathematics 341 or 340L, and consent of instructor.

### **M 374K. Fourier and Laplace Transforms.**

Continuation of Mathematics 374. Introduction to other integral transforms, such as Hankel, Laguerre, Mellin, Z. Three lecture hours a week for one semester. Prerequisite: Mathematics 374 with a grade of at least C-.

### **M 374M. Mathematical Modeling in Science and Engineering.**

Tools for studying differential equations and optimization problems that arise in the engineering and physical sciences. Includes dimensional analysis and scaling, regular and singular perturbation methods, optimization and calculus of variations, and stability. Three lecture hours a week for one semester. Prerequisite: Mathematics 427K, and 340L or 341, with a grade of at least C- in each; and some basic programming skills.

### **M 175, 275, 375, 475. Conference Course.**

Supervised study in mathematics, with hours to be arranged. May be repeated for credit. Prerequisite: Upper-division standing.

### **M 375C. Conference Course (Computer-Assisted).**

Supervised study in mathematics on material requiring use of computing resources, with hours to be arranged. Conference course. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

### **M 375D. Discovery: An Introduction to Advanced Study in Mathematics.**

Capstone course designed primarily for UTeach pre-service mathematics majors considering discovery teaching methodology and/or graduate work in mathematics or mathematics education. Ties together foundational topics in the primary strands of mathematics present in a typical graduate mathematics program; included are selected topics from analysis, algebra, number theory, and topology. Three lecture hours a week for one semester. Mathematics 375D and 375T (Topic: Discovery: An Introduction to Advanced Study in Mathematics) may not both be counted. Prerequisite: Two proof-based mathematics courses with a grade of at least C-, or consent of instructor.

### **M 175T, 275T, 375T, 475T. Topics in Mathematics.**

One, two, three, or four lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing; additional prerequisites may vary with the topic and are given in the Course Schedule.

### **M 376C. Methods of Applied Mathematics.**

Variational methods and related concepts from classical and modern applied mathematics. Models of conduction and vibration that lead to systems of linear equations and ordinary differential equations, eigenvalue problems, initial and boundary value problems for partial differential equations. Topics may include a selection from diagonalization of matrices, eigenfunctions and minimization, asymptotics of eigenvalues, separation of variables, generalized solutions, and approximation methods. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Mathematics 427K, and Mathematics 341 or 340L, with a grade of at least C- in each.

### **M 378K. Introduction to Mathematical Statistics.**

Same as Statistics and Scientific Computation 378. Sampling distributions of statistics, estimation of parameters (confidence intervals, method of moments, maximum likelihood, comparison of estimators using mean square error and efficiency, sufficient statistics), hypothesis tests (p-values, power, likelihood ratio tests), and other topics. Three lecture hours a week for one semester. Prerequisite: Mathematics 362K with a grade of at least C-.

### **M 379H. Honors Tutorial Course.**

Directed reading, research, and/or projects, under the supervision of a faculty member, leading to an honors thesis. Conference course. Prerequisite: Admission to the Mathematics Honors Program; Mathematics 365C, 367K, 373K, or 374G with a grade of at least A-, and another of these courses with a grade of at least B-; and consent of the honors adviser.

# Neuroscience Program

## Neuroscience: NEU

### Upper-Division Courses

#### NEU 330. Neural Systems I.

Introduction to the nervous system with an emphasis on brain organization, neuron physiology, perceptual systems, and motor systems. Intended for neuroscience majors and those considering neuroscience as a major. Three lecture hours a week for one semester. Biology 337 (Topic: Neural Systems I) and Neuroscience 330 may not both be counted.

#### NEU 335. Neural Systems II.

Introduction to the nervous system with an emphasis on neural development and on the neural mechanisms of memory, emotions, and other higher cognitive functions. Intended for neuroscience majors and those considering neuroscience as a major. Three lecture hours a week for one semester. Biology 337 (Topic: Neural Systems II) and Neuroscience 335 may not both be counted. Prerequisite: Neuroscience 330 with a grade of at least B-, or consent of instructor.

#### NEU 366M. Mathematical and Computational Neuroscience I.

Same as Biology 366M. First course in a two-semester sequence on mathematical and computational neuroscience. Exploration of linear systems, including linear algebra, differential equations, Fourier analysis, convolution, and related areas, with an emphasis on applications to neuroscience. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-; and credit or registration for Neuroscience 335 and Mathematics 408D or 408m.

#### NEU 366N. Mathematical and Computational Neuroscience II.

Same as Biology 366N. Continuation of Biology 366M or Neuroscience 366M. Topics include various mathematical and computational areas that are common in neuroscience research, with emphasis on nonlinear systems, probability, random processes, information theory, and their applications in neuroscience. Three lecture hours a week for one semester. Prerequisite: Biology 366M or Neuroscience 366M.

# Department of Physics

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 627).

## Physical Science: P S

### Lower-Division Courses

#### P S 303. Introductory Physical Science I: Mechanics and Heat.

Designed for students with minimum prior preparation in mathematics and physics. Especially appropriate for prospective elementary school teachers. Inquiry laboratory approach to basic concepts of measurement, forces, motion, energy, temperature, and heat. Four hours of integrated laboratory and lecture a week for one semester.

May not be counted toward a degree in the College of Natural Sciences.

#### P S 304. Introductory Physical Science II: Electricity, Light, and Optics.

Inquiry laboratory approach to electricity, magnetism, waves, light, and optical instruments. Four hours of integrated laboratory and lecture a week for one semester. May not be counted toward a degree in the College of Natural Sciences. Prerequisite: Physical Science 303.

### Upper-Division Courses

#### P S 350. Physical Science for Elementary and Middle School Teachers.

Designed for kindergarten through sixth grade teachers with minimal preparation in mathematics (college algebra) and no preparation in physics. An inquiry laboratory in the basic concepts of light, electricity, and magnetism. Three hours of integrated laboratory and lecture a day for three weeks.

#### P S 367M. Physical Science: Methods of Astronomy.

Same as Astronomy 367M. An introductory, self-paced course in the methods of astronomy that emphasizes learning astronomical principles through observations. Six laboratory hours a week for one semester. May not be counted toward the Bachelor of Arts, Plan I, degree with a major in astronomy. Prerequisite: Upper-division standing and nine semester hours of coursework in mathematics and/or science, including one of the following: Physical Science 303, 304, Astronomy 301, 302, 303. Equivalent preparation in mathematics, physics, chemistry, or earth sciences may be substituted with written approval of the instructor.

#### P S 375. Individual Study in Physical Science.

Intended primarily for preservice and in-service teachers. Guided inquiry reading or laboratory research in physical science. Meets three times a week for one semester, for one hour each meeting. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and written consent of instructor.

## Physics: PHY

### Lower-Division Courses

#### PHY 301. Mechanics.

Designed for students who intend to major in science or mathematics. Three lecture hours a week for one semester. Only one of the following may be counted without prior approval of the department: Physics 301, 302K, 303K, 309K, 317K. Prerequisite: High school physics or consent of the undergraduate adviser; credit or registration for Physics 101L; and one of the following: Mathematics 408C, Mathematics 408K and concurrent enrollment in 408L, or Mathematics 408N and concurrent enrollment in 408S.

#### PHY 101L. Laboratory for Physics 301.

Three laboratory hours a week for one semester. Only one of the following may be counted without prior approval of the department: Physics 101L, 102M, 103M, 117M. May not be counted toward a degree unless prerequisite is observed. Prerequisite: Credit or registration for Physics 301.

**PHY 302K (TCCN: PHYS 1301). General Physics--Technical Course: Mechanics, Heat, and Sound.**

Noncalculus technical course in physics. Three lecture hours a week for one semester. Only one of the following may be counted without prior approval of the department: Physics 301, 302K, 303K, 309K, 317K. Prerequisite: High school trigonometry or Mathematics 305G; and credit or registration for Physics 102M.

**PHY 302L (TCCN: PHYS 1302). General Physics--Technical Course: Electricity and Magnetism, Light, Atomic and Nuclear Physics.**

Noncalculus technical course in physics. Three lecture hours a week for one semester. Only one of the following may be counted without prior approval of the department: Physics 302L, 303L, 309L, 316, 317L. Prerequisite: Physics 302K and 102M and credit or registration for Physics 102N.

**PHY 102M (TCCN: PHYS 1101). Laboratory for Physics 302K.**

Two laboratory hours a week for one semester. Only one of the following may be counted without prior approval of the department: Physics 101L, 102M, 103M, 117M. May not be counted toward a degree unless prerequisite is observed. Prerequisite: Credit or registration for Physics 302K.

**PHY 102N (TCCN: PHYS 1102). Laboratory for Physics 302L.**

Two laboratory hours a week for one semester. Only one of the following may be counted without prior approval of the department: Physics 102N, 103N, 116L, 117N. May not be counted toward a degree unless prerequisite is observed. Prerequisite: Credit or registration for Physics 302L.

**PHY 303K (TCCN: PHYS 2325). Engineering Physics I.**

A general survey of physics; primarily laws of motion, heat, and wave phenomena. Three lecture hours and one discussion hour a week for one semester. In most sections, examinations are given on Wednesday nights; see the Course Schedule for more information. Only one of the following may be counted without prior approval of the department: Physics 301, 302K, 303K, 309K, 317K. Prerequisite: High school physics or consent of the undergraduate adviser; Mathematics 408C, Mathematics 408K and concurrent enrollment in 408L, or Mathematics 408N and concurrent enrollment in 408S; and credit or registration for Physics 103M.

**PHY 303L (TCCN: PHYS 2326). Engineering Physics II.**

Electricity and magnetism, optics, and atomic phenomena. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted without prior approval of the department: Physics 302L, 303L, 309L, 316, 317L. Prerequisite: Physics 303K and 103M; Mathematics 408D, Mathematics 408L and concurrent enrollment in 408M, or Mathematics 408S and concurrent enrollment in 408M; and credit or registration for Physics 103N.

**PHY 103M (TCCN: PHYS 2125). Laboratory for Physics 303K.**

Two laboratory hours a week for one semester. Only one of the following may be counted: Physics 101L, 102M, 103M, 117M. May not be counted toward a degree unless prerequisite is observed. Prerequisite: Credit or registration for Physics 303K.

**PHY 103N (TCCN: PHYS 2126). Laboratory for Physics 303L.**

Two laboratory hours and one discussion hour a week for one semester. Only one of the following may be counted: Physics 102N, 103N, 116L, 117N. May not be counted toward a degree unless prerequisite is observed. Prerequisite: Credit or registration for Physics 303L.

**PHY 104. Introductory Physics Seminar.**

Suggested for beginning physics majors. Discussion of the development of important ideas in physics, with emphasis on their relevance to contemporary research. One lecture hour a week for one semester. Offered on the pass/fail basis only.

**PHY 306. Elementary Physics Methods.**

Designed for students who have not had high school physics, have weak problem-solving skills, and need preparation for Physics 301 or 303K. Three lecture hours a week for one semester. May not be counted toward any degree. Prerequisite: High school trigonometry or Mathematics 305G.

**PHY 108. Introduction to Research.**

Introductory laboratory experience; use of tools and test equipment; beginning apprenticeship in active physics research. One class hour a week for one semester. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Consent of instructor and approval of an undergraduate adviser.

**PHY 308F. Introduction to Research.**

Introductory laboratory experience; use of tools and test equipment; beginning apprenticeship in active physics research. One lecture hour and eight laboratory hours a week for one semester. Prerequisite: Consent of instructor and the undergraduate adviser.

**PHY 309K (TCCN: PHYS 1305). Elementary Physics for Nontechnical Students.**

Designed for students who do not intend to do further work in natural sciences, engineering, mathematics, or medicine. Mechanics, heat, and sound. Three lecture hours a week for one semester. Only one of the following may be counted without prior approval of the department: Physics 301, 302K, 303K, 309K, 317K. May not be counted toward a degree in the College of Natural Sciences.

**PHY 309L (TCCN: PHYS 1307). Elementary Physics for Nontechnical Students.**

Designed for students who do not intend to do further work in natural sciences, engineering, mathematics, or medicine. Electricity and magnetism, light, atomic and nuclear physics. Three lecture hours a week for one semester. Only one of the following may be counted without prior approval of the department: Physics 302L, 303L, 309L, 316, 317L. May not be counted toward a degree in the College of Natural Sciences. Prerequisite: Physics 309K.

**PHY 110C. Conference Course.**

Supervised study of selected topics in physics, by individual arrangement with department and instructor. Conference course. Some sections are offered on the pass/fail basis only; these are identified in the Course Schedule. May be repeated for credit when the topics vary. Prerequisite: Written consent of instructor.

### **PHY 315. Wave Motion and Optics.**

Study of general properties of waves; examples include sound, electromagnetic, and mechanical waves; special emphasis on light and optics. Three lecture hours a week for one semester. Prerequisite: Mathematics 427K, Physics 316 and 116L, and credit or registration for Physics 115L.

### **PHY 115L. Laboratory for Physics 315.**

Three laboratory hours a week for one semester. May not be counted toward a degree unless prerequisite is observed. Prerequisite: Credit or registration for Physics 315.

### **PHY 316. Electricity and Magnetism.**

Three lecture hours a week for one semester. Only one of the following may be counted without prior approval of the department: Physics 302L, 303L, 309L, 316, 317L. Prerequisite: Physics 301 and 101L; Mathematics 408D, Mathematics 408L and concurrent enrollment in 408M, or Mathematics 408S and concurrent enrollment in 408M; and credit or registration for Physics 116L.

### **PHY 116L. Laboratory for Physics 316.**

Three laboratory hours a week for one semester. Only one of the following may be counted without prior approval of the department: Physics 102N, 103N, 116L, 117N. May not be counted toward a degree unless prerequisite is observed. Prerequisite: Credit or registration for Physics 316.

### **PHY 317K. General Physics I.**

An introductory course designed and recommended primarily for premedical students and others in the biomedical sciences whose professional or preprofessional training includes an introductory course in calculus. Mechanics, heat, and sound, with biomedical applications. Three lecture hours a week for one semester. Only one of the following may be counted without prior approval of the department: Physics 301, 302K, 303K, 309K, 317K. May not be counted toward the Bachelor of Science in Astronomy or Bachelor of Science in Physics. Satisfies most medical and dental school requirements for physics. Prerequisite: High school physics or consent of the undergraduate adviser; Mathematics 408C, Mathematics 408K and concurrent enrollment in 408L, or Mathematics 408N and concurrent enrollment in 408S; and credit or registration for Physics 117M.

### **PHY 317L. General Physics II.**

Designed and recommended primarily for premedical students and others in the biomedical sciences whose professional or preprofessional training includes an introductory course in calculus. Electricity and magnetism, light, atomic and molecular physics, nuclear physics, and their biomedical applications. Three lecture hours a week for one semester. Only one of the following may be counted without prior approval of the department: Physics 302L, 303L, 309L, 316, 317L. May not be counted toward the Bachelor of Science in Astronomy or the Bachelor of Science in Physics. Satisfies most medical and dental school requirements for physics. Prerequisite: Physics 317K and 117M and credit or registration for Physics 117N.

### **PHY 117M. Laboratory for Physics 317K.**

Three laboratory hours a week for one semester. Only one of the following may be counted without prior approval of the department: Physics 101L, 102M, 103M, 117M. Prerequisite: Credit or registration for Physics 317K.

### **PHY 117N. Laboratory for Physics 317L.**

Three laboratory hours a week for one semester. Only one of the following may be counted without prior approval of the department: Physics 102N, 103N, 116L, 117N. Prerequisite: Credit or registration for Physics 317L.

### **PHY 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Physics.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Physics. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

## **Upper-Division Courses**

### **PHY 321. Modern Physics: Plan II.**

Restricted to Plan II students. Conceptual foundations of modern physics. Examines quantum mechanics, quantum field theory, relativity, and general relativity, including large-scale structure and cosmology; and the development of analytic problem-solving skills, including estimation. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **PHY 329. Introduction to Computational Physics.**

Computational methods for problem solving and research in physics; numerical analysis and computer simulation methods for physics applications using different types of computers. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 367, Mathematics 368K, Physics 329. Prerequisite: Physics 315 and 115L, a programming course at the level of Computer Science 303E or consent of instructor, and credit or registration for Mathematics 341 or 340L.

### **PHY 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Physics.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Physics. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

### **PHY 329W. Cooperative Physics.**

This course covers the work period of physics students in the Cooperative Education Program, which provides supervised work experience by arrangement with the employer and the supervising instructor. Forty laboratory hours a week for one semester. The student must repeat the course each work period and must take it twice to receive credit toward the degree; at least one of these registrations must be during a long-session semester. No more than three semester hours may be counted toward the major requirement; no more than six semester hours may be counted toward the degree. The student's first registration must be on the pass/fail basis. Prerequisite: Application to become a member of the Cooperative Physics Program, Physics 316, and consent of the undergraduate adviser.

### **PHY 333. Modern Optics.**

Review of geometrical optics, polarization, interference, and optical instruments. Topics include Fourier optics, light propagation in fibers, quantum optics, and coherence. Three lecture hours a week for one semester. Prerequisite: Physics 315, 115L, and Mathematics 427K.

### **PHY 133L. Laboratory for Physics 333.**

Three laboratory hours a week for one semester. Prerequisite: Credit or registration for Physics 333.

### **PHY 336K. Classical Dynamics.**

Elementary linear vector algebra, Newtonian mechanics, Lagrangian mechanics, central force motion, dynamics of rigid bodies, and theory of small oscillations. Three lecture hours a week for one semester. Prerequisite: Physics 315 and 115L, and Mathematics 427L or 364K.

### **PHY 336L. Fluid Dynamics.**

Fundamental concepts of fluid mechanics developed and applied to laminar and turbulent flows. Topics include the Navier-Stokes equations, pipe and channel flow, drag, boundary layers, convection, and rotating fluids. Three lecture hours a week for one semester. Prerequisite: Physics 336K.

### **PHY 338K. Electronic Techniques.**

Elementary circuit theory, amplifiers, feedback, pulse and digital techniques, signal processing, and microprocessors as applied to physics instrumentation. One and one-half lecture hours and three laboratory hours a week for one semester. Prerequisite: Physics 316 and 116L and Mathematics 427K.

### **PHY 341. Selected Topics in Physics.**

Three lecture hours a week for one semester. An additional one-hour problem session is required for some sections; these are identified in the Course Schedule. May not be counted toward the Bachelor of Science in Physics degree without prior approval of the department. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing, three semester hours of coursework in a natural science, and three semester hours of coursework in mathematics.

**Topic 1: Energy Production.** The various means that exist or have been suggested for generating energy; comparison in terms of efficiency, safety, and effects on the environment.

**Topic 2: Great Men, Moments, and Ideas.** How our views of matter, energy, and the universe developed.

**Topic 3: Musical Acoustics.** Study of the production, transmission, and perception of the special kind of sound called music, based on the application of elementary principles of physics.

**Topic 4: The Nature of Things.** A qualitative survey of all of physics, from falling bodies to quarks, making heavy use of classroom demonstrations.

**Topic 5: Pseudoscience.** Study of a variety of ideas treated very seriously by the communications media but having no basis in fact, including astrology, extrasensory perception, and flying saucers; why such areas are not part of science.

**Topic 6: Writing.**

**Topic 7: Research Methods: UTeach.**

### **PHY 345. Biophysics.**

Basic concepts of physics developed and applied to biological systems. Topics include energy in living systems, entropic interactions, molecular forces and self-assembly, biopolymers, bio-membranes, cell-cell interactions, pattern formation, collective behavior, higher order systems, population dynamics and evolution. Three lecture

hours a week for one semester. Prerequisite: Upper-division standing, Biology 311D, Chemistry 302, and Physics 355.

### **PHY 352K. Classical Electrodynamics.**

Electrostatic fields, magnetostatic fields, derivation of Green's theorems and functions and of Maxwell's equations. Three lecture hours a week for one semester. Prerequisite: Physics 315 and 115L, and Mathematics 427L or 364K.

### **PHY 353L. Modern Physics Laboratory.**

Laboratory experiments investigating the breakdown of classical physics for microscopic phenomena. Includes absorption and emission spectra, the photoelectric effect, blackbody radiation, the Compton effect, X-ray diffraction, and other experiments in modern physics. Four and one-half laboratory hours a week for one semester. Prerequisite: Physics 315 and 115L.

### **PHY 355. Modern Physics and Thermodynamics.**

Introduction to modern physics and thermodynamics: photons (spectra, photoelectric effect, blackbody radiation, Compton effect), atoms (Rutherford, Bohr), matter waves (Planck, deBroglie, probability interpretation, Schroedinger), nuclei, particles, special relativity, the laws of thermodynamics, and statistical physics. Three lecture hours a week for one semester. Physics 319 and 355 may not both be counted. Prerequisite: Physics 303L, 316, or consent of instructor.

### **PHY 362K. Quantum Physics II: Atoms and Molecules.**

The two-electron atom; spin and statistics; coupling schemes for many-electron atoms; atoms and the radiation field; perturbation methods for decay and collisions; thermal, electrical, and magnetic properties of solids; and free-electron metal and band theory. May include subjects such as superconductivity, Josephson tunneling, and others. Three lecture hours a week for one semester. Prerequisite: Physics 373.

### **PHY 362L. Quantum Physics III: Particles and Nuclei.**

Nuclei and nucleons, their gross properties; the hadrons; symmetries and conservation laws; nuclear stability; electromagnetic, weak, and hadronic interactions; nuclear reactions at low, medium, and high energies; nucleon structure; tools of experimental nuclear physics; models of theoretical nuclear physics; nuclear technology. Three lecture hours a week for one semester. Prerequisite: Physics 373; Physics 362K is recommended.

### **PHY 369. Thermodynamics and Statistical Mechanics.**

Basic concepts of thermal physics; entropy, enthalpy, free energy, phase transitions, equilibrium distribution functions, applications. Three lecture hours a week for one semester. Prerequisite: Credit or registration for Physics 373.

### **PHY 370C. Individual Study in Physics.**

Supervised reading or research in physics. Hours to be arranged. Some sections are offered on the pass/fail basis only; these are identified in the Course Schedule. May be repeated for credit when the topics vary. Prerequisite: Physics 336K, credit or registration for Physics 352K, and consent of the undergraduate adviser.

### **PHY 670T. Senior Thesis.**

Individual research with faculty supervision. First half involves preparation of proposal; second involves completion of written thesis. Six hours of work a week for one semester, or three hours of work a week for two semesters. Only three semester hours may be counted toward the Bachelor of Science in Physics degree. Prerequisite:

Upper-division standing and nine semester hours of upper-division coursework in physics.

### **PHY 373. Quantum Physics I: Foundations.**

Postulates of quantum mechanics, the bound states of the finite square well, the harmonic oscillator, operator-eigenvalue formalism and selected examples, the hydrogen atom, angular momentum, rigid rotor, and spin. May include simple scattering theory. Three lecture hours a week for one semester. Prerequisite: Physics 336K, and 353L and 355 (or 453); or consent of instructor.

### **PHY 474. Advanced Laboratory I.**

Modern experimental techniques, theory of error, and analysis of experiments; both modern and classical experiments in atomic and nuclear physics, electricity and magnetism, optics and heat. Three lecture hours and eight laboratory hours a week for one semester, with additional laboratory hours to be arranged. With consent of instructor, may be repeated for credit. Prerequisite: Physics 352K, 353L, and 355 (or 453); or consent of the undergraduate adviser. Physics 338K is recommended.

### **PHY 375P. Introductory Plasma Physics.**

Orbit theory and drifts, introduction to plasma stability and waves, applications to plasma confinement and heating. Three lecture hours a week for one semester. Prerequisite: Physics 352K and 369.

### **PHY 375R. Introduction to Relativity.**

Overview of the special and general theories of relativity, with emphasis on recent developments in gravitation. Three lecture hours a week for one semester. Prerequisite: Physics 352K.

### **PHY 375S. Introductory Solid-State Physics.**

Crystal structure, classification of solids, cohesion, thermal and electrical properties of solids, magnetic properties of solids, imperfections. Three lecture hours a week for one semester. Prerequisite: Physics 369 and 373.

### **PHY 379H. Honors Tutorial Course.**

Research project, resulting in a thesis, for outstanding students electing to take the honors program in physics. Conference course. Prerequisite: A University grade point average of at least 3.00, a grade point average in physics of at least 3.50, twelve semester hours of upper-division coursework in physics, and consent of the student's research supervisor and the departmental honors adviser.

## **Division of Statistics and Scientific Computation**

### **Statistics and Scientific Computation: SSC**

#### **Lower-Division Courses**

#### **SSC 302. Data Analysis for the Health Sciences.**

Basic probability and data analysis for the sciences. Subjects include randomness, sampling, distributions, probability models, inference, regression, and nonlinear curve fitting. Three lecture hours and one discussion hour a week for one semester. May not be counted by students with credit for Educational Psychology 371, Mathematics 316, Statistics and Scientific Computation 303, 304, 305,

or 306. Prerequisite: A score of at least 30 on the ALEKS placement examination.

#### **SSC 303. Statistics in Experimental Research.**

An introduction to the fundamental concepts and methods of statistics, with emphasis on applications in experimental science. Includes exploratory data analysis, correlation and regression, descriptive statistics, sampling distributions, confidence intervals, and hypothesis testing. Three lecture hours a week for one semester. Only one of the following may be counted: Mathematics 316, Statistics and Scientific Computation 303, 304, 305, 306. Prerequisite: A score of at least 30 on the ALEKS placement examination.

#### **SSC 304. Statistics in Health Care.**

An introduction to the fundamental concepts and methods of statistics, with emphasis on applications in the health sciences. Includes exploratory data analysis, correlation and regression, descriptive statistics, sampling distributions, confidence intervals, and hypothesis testing. Three lecture hours a week for one semester. Only one of the following may be counted: Mathematics 316, Statistics and Scientific Computation 303, 304, 305, 306. Prerequisite: A score of at least 30 on the ALEKS placement examination.

#### **SSC 305. Statistics in Policy Design.**

An introduction to the fundamental concepts and methods of statistics, with emphasis on applications in policy evaluation and design. Includes exploratory data analysis, correlation and regression, descriptive statistics, sampling distributions, confidence intervals, and hypothesis testing. Three lecture hours a week for one semester. Only one of the following may be counted: Mathematics 316, Statistics and Scientific Computation 303, 304, 305, 306. Prerequisite: A score of at least 30 on the ALEKS placement examination.

#### **SSC 306. Statistics in Market Analysis.**

An introduction to the fundamental concepts and methods of statistics, with emphasis on applications in the analysis of personal and group behaviors. Includes exploratory data analysis, correlation and regression, descriptive statistics, sampling distributions, confidence intervals, and hypothesis testing. Three lecture hours a week for one semester. Only one of the following may be counted: Mathematics 316, Statistics and Scientific Computation 303, 304, 305, 306. Prerequisite: A score of at least 30 on the ALEKS placement examination.

#### **SSC 110T, 210T, 310T, 410T. Topics in Statistics and Computation.**

For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary.

#### **SSC 318. Introduction to Statistical and Scientific Computation.**

An introduction to quantitative analysis using fundamental concepts in statistics and scientific computation. Includes probability, distributions, sampling, interpolation, iteration, recursion, and visualization. Three lecture hours and one laboratory hour a week for one semester.

#### **Upper-Division Courses**

#### **SSC 321. Introduction to Probability and Statistics.**

The basic theory of probability and statistics, with practical applications. Includes fundamentals of probability, distribution theory, sampling models, data analysis, experimental design, statistical inference, interval estimation, and hypothesis testing. Three lecture hours and one discussion hour a week for one semester. Mathematics

358K and Statistics and Scientific Computation 321 may not both be counted. Prerequisite: Mathematics 408D, 408L, or 408S with a grade of at least C-.

### **SSC 222. Introduction to Scientific Programming.**

Introduction to programming using both the C and Fortran (95/2003) languages, with applications to basic scientific problems. Covers common data types and structures, control structures, algorithms, performance measurement, and interoperability. Two lecture hours a week for one semester. Statistics and Scientific Computation 222 and 292 may not both be counted. Prerequisite: Credit or registration for Mathematics 408C, 408K, or 408N.

### **SSC 325H. Honors Statistics.**

An introduction to the fundamental theories, concepts, and methods of statistics. Emphasizes probability models, exploratory data analysis, sampling distributions, confidence intervals, hypothesis testing, correlation and regression, and the use of statistical software. Three lecture hours a week for one semester. Prerequisite: Admission to the Dean's Scholars Honors Program in the College of Natural Sciences, or consent of instructor.

### **SSC 328M. Biostatistics.**

Introduction to methods of statistical analysis of biological data. Includes data analysis, basics of experimental design, statistical inference, interval estimation, and hypothesis testing. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Biology 318M, Biology 328M, Statistics and Scientific Computation 318M, 328M. Prerequisite: Mathematics 408D, 408L, or 408S with a grade of at least C-, and four semester hours of coursework in biology.

### **SSC 329C. Practical Linear Algebra I.**

Matrix representations and properties of matrices; linear equations, eigenvalue problems and their physical interpretation; and linear least squares and elementary numerical analysis. Emphasis on physical interpretation, practical numerical algorithms, and proofs of fundamental principles. Three lecture hours a week for one semester. Prerequisite: Credit or registration for Mathematics 408C, 408K, or 408N.

### **SSC 329D. Practical Linear Algebra II.**

Iterative solutions to linear equations and eigenvalue problems; properties of symmetric and nonsymmetric matrices, exploitation of sparsity and diagonal dominance; introduction to multivariate nonlinear equations; numerical analysis; and selected applications and topics in the physical sciences. Three lecture hours a week for one semester. Prerequisite: Mathematics 340L, 341, or Statistics and Scientific Computation 329C.

### **SSC 335. Scientific and Technical Computing.**

A comprehensive introduction to computing techniques and methods applicable to many scientific disciplines and technical applications. Covers computer hardware and operating systems, systems software and tools, code development, numerical methods and math libraries, and basic visualization and data analysis tools. Three lecture hours a week for one semester. Prerequisite: Mathematics 408D or 408M, and prior programming experience.

### **SSC 339. Applied Computational Science.**

Concentrated study in a specific area or areas of application, with an emphasis on modeling and visualization. Areas may include computational biology, computational chemistry, computational applied

mathematics, computational economics, computational physics, or computational geology. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

### **SSC 150K. Data Analysis Applications.**

Introduction to the use of statistical or mathematical applications for data analysis. Two lecture hours a week for eight weeks. Offered on the pass/fail basis only. May be repeated for credit when the topics vary. Offered on the pass/fail basis only. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: SPSS Software.** Offered on the pass/fail basis only.

Prerequisite: Upper-division standing.

**Topic 2: SAS Software.** Offered on the pass/fail basis only.

Prerequisite: Upper-division standing.

**Topic 3: Stata Software.** Offered on the pass/fail basis only.

Prerequisite: Upper-division standing.

**Topic 4: The R Software Environment.** Offered on the pass/fail basis only. Prerequisite: Upper-division standing.

### **SSC 352. Statistical Methods.**

Study of simple and multiple regression, fundamentals of experimental design, and analysis of variance methods. May include logistic regression, Poisson regression, resampling methods, introduction to Bayesian methods, and probability models. Includes substantial use of statistical software. Three lecture hours and one laboratory hour a week for one semester. Prerequisite: Mathematics 316, Statistics and Scientific Computation 303, 304, 305, or 306.

### **SSC 358. Special Topics in Statistics.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing. Additional prerequisites may vary with the topic and are given in the Course Schedule.

### **SSC 367S. Simulation Modeling.**

Basic concepts of discrete-event simulation. Statistical input and output analysis; application of simulation software; modeling of systems under uncertainty. Three lecture hours a week for one semester. Statistics and Scientific Computation 358 (Topic: Simulation Modeling) and 367S may not both be counted. Prerequisite: Upper-division standing; Statistics and Scientific Computation 321 or an equivalent introductory statistics course, with a grade of at least C-; and Mathematics 408C or 408K, with a grade of at least C-.

### **SSC 374C. Parallel Computing for Science and Engineering.**

Study of parallel computing principles, architectures, and technologies; and parallel application development, performance, and scalability. Designed to help prepare students to formulate and develop parallel algorithms to implement effective applications for parallel computing systems. Three lecture hours a week for one semester. Prerequisite: Mathematics 408D or 408M; Mathematics 340L; and prior programming experience using C or Fortran on Linux or Unix systems.

### **SSC 374D. Distributed and Grid Computing for Science and Engineering.**

Distributed and grid computing principles and technologies. Covers common modes of grid computing for scientific applications, development of grid-enabled applications, and future trends in grid computing. Three lecture hours a week for one semester.

Prerequisite: Mathematics 408D or 408M; Mathematics 340L; and prior programming experience using C or Fortran on Linux or Unix systems.

### **SSC 374E. Visualization and Data Analysis for Science and Engineering.**

Scientific visualization principles, practices, and technologies, including remote and collaborative visualization. Introduces statistical analysis, data mining, and feature detection. Three lecture hours a week for one semester. Prerequisite: Mathematics 408D or 408M; Mathematics 340L; and prior programming experience using C or Fortran on Linux or Unix systems.

### **SSC 375. Special Topics in Scientific Computation.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing. Additional prerequisites may vary with the topic and are given in the Course Schedule.

### **SSC 378. Introduction to Mathematical Statistics.**

Same as Mathematics 378K. Sampling distributions of statistics, estimation of parameters (confidence intervals, method of moments, maximum likelihood, comparison of estimators using mean square error and efficiency, sufficient statistics), hypothesis tests (p-values, power, likelihood ratio tests), and other topics. Three lecture hours a week for one semester. Prerequisite: Mathematics 362K with a grade of at least C-.

### **SSC 179R, 279R, 379R, 479R. Undergraduate Research.**

Students work on an individual research project under the supervision of one or more faculty members. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

## **UTeach-Natural Sciences**

### **UTeach-Natural Sciences: UTS**

#### **Lower-Division Courses**

#### **UTS 101. Secondary Teacher Education Preparation: STEP 1.**

Introduction to mathematics, computer science, and science teaching as a career. Discussions include standards-based lesson design and various teaching and behavior management strategies. Fieldwork consists of planning and teaching four inquiry-based lessons to students in grades three to six in local elementary schools. One and one-half class hours a week for one semester; at least ten hours of fieldwork a semester are also required. Chemistry 107 (Topic: STEP 1--UTeach) and UTeach-Natural Sciences 101 may not both be counted. Prerequisite: A University grade point average of at least 2.20.

#### **UTS 110. Secondary Teacher Education Preparation: STEP 2.**

Topics may include routes to teacher certification in mathematics, computer science, and science teaching; various teaching methods that are designed to meet instructional goals; and learner outcomes. Students develop and teach three inquiry-based lessons in their field in a middle school, and participate in peer coaching. One and one-half class hours a week for one semester; at least twenty hours of

fieldwork a semester are also required. Biology 101C (Topic: STEP 2) and UTeach-Natural Sciences 110 may not both be counted. Prerequisite: UTeach-Natural Sciences 101 with a grade of at least C-, and a University grade point average of at least 2.20.

### **Upper-Division Courses**

#### **UTS 350. Knowing and Learning in Math and Science.**

Same as Curriculum and Instruction 365C. Restricted to students in the UTeach-Natural Sciences program. Psychological foundations of learning; problem solving in mathematics and science education utilizing technology; principles of expertise and novice understanding of subject matter; implications of high-stakes testing; and foundations of formative and summative assessment. Three lecture hours a week for one semester; additional hours may be required. Only one of the following may be counted: Curriculum and Instruction 365C, 371 (Topic 21: Knowing and Learning in Math and Science), UTeach-Natural Sciences 350. Prerequisite: Credit with a grade of at least C- or registration for UTeach-Natural Sciences 101.

#### **UTS 355. Classroom Interactions.**

Same as Curriculum and Instruction 365D. Restricted to students in the UTeach-Natural Sciences program. Principles of delivering effective instruction in various formats (lecture, lab activity, collaborative settings); examination of gender, class, race, and culture in mathematics and science education; overview of policy related to mathematics and science education. Three lecture hours a week for one semester; additional hours may be required. Only one of the following may be counted: Curriculum and Instruction 365D, 371 (Topic 20: Classroom Interactions), UTeach-Natural Sciences 355. Prerequisite: A University grade point average of at least 2.50, Curriculum and Instruction 365C or UTeach-Natural Sciences 350 with a grade of at least C-, and UTeach-Natural Sciences 110 with a grade of at least C-.

#### **UTS 360. Project-Based Instruction.**

Same as Curriculum and Instruction 365E. Restricted to students in the UTeach-Natural Sciences program who have earned a passing score on the preliminary portfolio. Foundations of project-based, case-based, and problem-based learning environments; principles of project-based curriculum development in mathematics and science education; classroom management and organization of project-based learning classrooms. Three lecture hours a week for one semester with additional fieldwork hours to be arranged. Only one of the following may be counted: Curriculum and Instruction 365E, 371 (Topic 22: Project-Based Instruction), UTeach-Natural Sciences 360. Prerequisite: A University grade point average of at least 2.50, and Curriculum and Instruction 365D or UTeach-Natural Sciences 355 with a grade of at least C-.

#### **UTS 170. Student Teaching Seminar.**

Restricted to students in the UTeach-Natural Sciences program who have earned a passing score on the preliminary portfolio. Discussions include student teaching experiences, contemporary critical issues in education, and preparation for the state certification exam. One class hour a week for one semester. Chemistry 107 (Topic: Special Topics Seminar) and UTeach-Natural Sciences 170 may not both be counted. Prerequisite: A University grade point average of at least 2.50, and credit or registration for Curriculum and Instruction 650S.

#### **UTS 675. Student Teaching for Secondary and Middle Grades.**

Closely supervised field coursework in a cooperating school. Experience includes carrying out the duties of a secondary or middle

grades teacher. Twenty hours of fieldwork a week for one semester. Offered on the pass/fail basis only. Prerequisite: A University grade point average of at least 2.50, approval of the preliminary portfolio by the College of Natural Sciences UTeach Program, consent of the UTeach adviser in the College of Natural Sciences, and concurrent enrollment in UTeach-Natural Sciences 170.

# School of Nursing

## General Information

### Mission

The purpose of the School of Nursing is to achieve excellence in undergraduate and graduate education, research, public service, and to advance the missions of the University of Texas at Austin through

1. Preparing students at the baccalaureate level to assume roles in professional nursing practice.
2. Preparing students at the graduate level to assume roles in advanced nursing practice, public health, administration, education, and research.
3. Promoting excellence in nursing scholarship.
4. Advancing the health of the public through developing and disseminating new knowledge about health, health care, and health care delivery through scholarly inquiry.
5. Providing consultation, health care programs, and health care services in response to emerging and urgent public health needs.

### History

The University of Texas School of Nursing, established in Galveston in 1890 as the John Sealy Hospital Training School for Nurses, is one of the oldest schools of nursing in the Southwest. In 1896 it was transferred to the University of Texas and became the School of Nursing, a division of the Medical Branch, with the diploma granted by the University. In addition to the diploma course, a curriculum leading to the degree of Bachelor of Science in Nursing was established in 1923 in cooperation with the College of Arts and Sciences of the Main University in Austin. In 1932 the School of Nursing was renamed the John Sealy College of Nursing. The degree program was transferred to the college in 1943.

With the financial support of the Texas Graduate Nursing Association, graduate courses in nursing were first offered in 1930 in the Department of Physical and Health Education at the Main University. In 1940 a complete curriculum was established leading to the degree of Bachelor of Science in Nursing Education. In 1945 the curriculum was transferred to the Medical Branch administration, bringing the John Sealy College of Nursing and the new Department of Nursing Education together to form the School of Nursing with its own dean. In 1949, a curriculum leading to the degree of Bachelor of Science in Nursing was established for graduates of diploma programs. The last class of students enrolled in the diploma program was admitted to the School of Nursing in 1957; since that time the school has offered a single program leading to the Bachelor of Science in Nursing.

Funding from the W. K. Kellogg Foundation provided for a program leading to the Master of Science in Nursing with a major in nursing administration, first offered in 1952. Participating in the program of the

Southern Regional Education Board for graduate education in nursing, the School of Nursing offered additional specialization in 1955. At that time the name of the school was changed to the University of Texas Medical Branch School of Nursing.

In the fall of 1960, the University of Texas at Austin became an extension campus of the School of Nursing, which was still located in Galveston, and nursing courses were offered on the Austin campus for the first time. The School of Nursing was reorganized in 1967 as The University of Texas Nursing School (System-wide) and administrative offices were moved to Austin. The school was renamed The University of Texas System School of Nursing in 1972. Junior- and senior-level nursing courses were offered in Austin, El Paso, Fort Worth, Galveston, Houston, and San Antonio.

On March 26, 1976, the Board of Regents of The University of Texas System voted to reorganize the schools of nursing in the system and to place each school under the administration of the president of the health science center or academic institution nearest it. On September 1, 1976, the School of Nursing at Austin became a part of the University of Texas at Austin.

A program leading to the Doctor of Philosophy degree in nursing was initiated in 1974. Nursing faculty members conduct research on a wide variety of topics. Since 2002, the School of Nursing has been ranked among the top institutions in research funding received from the National Institutes of Health.

### Facilities

The 110,008-square-foot, five-story Nursing School building houses administrative, faculty, staff, and research offices, as well as large and small classrooms and seminar and conference rooms. Also located in the building are the Cain Center for Nursing Research, the St. David's Center for Health Promotion and Disease Prevention Research in Underserved Populations, and the School of Nursing Learning Center, with an audiovisual library and a staff who provide technical assistance for clinical simulation, instructional design, and production.

Learning experiences in the health field are numerous and varied. The School of Nursing has ongoing clinical placement agreements with more than two hundred agencies. These include the Austin State Hospital, University Medical Center at Brackenridge, St. David's Medical Center, Seton Medical Center Austin, and Seton Shoal Creek Hospital. Other community settings used for student field experiences include nursing homes, neighborhood health centers, day-care centers, state and local health departments, physicians' offices, and clinics, including our Family Wellness Center, located in the University's Development Building, and our Children's Wellness Center, located in Del Valle.

### Financial Assistance Available through the School

Application forms for the following scholarships are available from the University Office of Student Financial Services and from the School of Nursing, 1700 Red River Street, Austin TX 78701-1499. The School of Nursing Scholarship Committee selects the recipients for nursing scholarships.

### Endowed Scholarships

The **Rita Willner Atlas Endowed Presidential Scholarship** provides support for undergraduate and graduate students. At the donor's

request, recipients of the awards are designated Rita Willner Atlas Scholars or Rita Willner Atlas Fellows.

The **Jerry N. Blaylock, RN, EdD, FAAN, Endowed Scholarship in Nursing** provides support to an upper division undergraduate student with a GPA of at least 3.5, who is a U.S. citizen or permanent resident. Donor's strong preference is that the recipient be a graduate of a Texas high school or has resided in Texas.

The **Betty J. Bomar Endowed Presidential Scholarship in Nursing** provides scholarship support to an outstanding student pursuing a degree in nursing and a career in providing quality health care. Financial need is a priority in selecting the recipient.

The **Boudreaux Endowed Scholarship in Nursing** provides support for undergraduate students with financial need.

The **Dr. Louis Edward and Virginia Steele Brenz Scholarship** provides support to graduate and undergraduate students.

The **Edith Blanche Jennings Burns, RN, Endowed Scholarship in Nursing** provides support to a full-time or part-time undergraduate or graduate student. The recipient must show excellent promise for a career in nursing and must have a grade point average of at least 2.50 if he or she has been a college or university student. Preference is given first to graduates of Moran High School, Shackelford County, Texas, and then to South Carolina residents, with preference to residents of Lancaster County. If such a recipient cannot be found, a resident of Travis County, Texas, who also graduated from a Travis County high school, is preferred. Financial need is considered.

The **Carol Diane Cave Memorial Endowed Presidential Scholarship in Nursing** is awarded annually to an undergraduate student pursuing a career in nursing. The student must be a Texas resident in the professional nursing sequence and must maintain a grade point average of at least 3.30.

The **Hilda B. Cavell Memorial Endowed Scholarship in Nursing** provides support for undergraduate and graduate nursing students who commit to the service of public health and who demonstrate financial need.

The **Joe and Tana Christie Endowed Presidential Scholarship in Nursing** is awarded annually to an outstanding upper-division or graduate student pursuing a degree in nursing and a career in providing quality health care outside a hospital setting for people with AIDS or other terminal illnesses. The recipient must have a grade point average of at least 3.50.

The **Steven and Alexandra Cocavessis Endowed Scholarship in Nursing** provides support for undergraduate students in the School of Nursing. Preference is given to students who exhibit financial need and demonstrate academic merit.

The **Fred J. and Jann Curry Endowed Scholarship** provides awards to deserving nursing students.

The **Mitzi I. Nuhn Dreher Endowed Presidential Scholarship** provides an award to a full-time undergraduate or graduate student. Preference is given to students who participate in a broad range of extracurricular activities or professional nursing organizations.

The **Endowment for Excellence** provides scholarship support to graduate nursing students, with preference given to those planning to pursue a career in cardiovascular study and research.

The **School of Nursing Faculty-Staff Endowed Presidential Scholarship** is awarded to a full-time undergraduate or graduate student. Preference is given to residents of Texas. The award is made to a nursing student who has shown academic achievement by maintaining a 3.00 or better grade point average, who has shown interest in the community through a record of community involvement, and who has shown a special dedication to nursing by participating in nursing organizations.

The **Eugene R. Fant Endowed Scholarship Fund** provides scholarships to nursing and pre-nursing students with financial need.

The **Girling Health Care Undergraduate Scholarship in Nursing** is awarded to undergraduate students in the RN-BSN program with an interest in home health nursing.

The **Kathryn Gurley Scholarship Endowment** provides scholarships for students at all levels. There is no grade point average requirement.

The **Jewel R. Hagan Endowed Scholarship in Nursing** provides undergraduate scholarships for students in the School of Nursing, with priority given to those students enrolled in the ADN to BSN program with high academic achievement. It is the donor's preference that the recipients be U.S. military veterans who are parents of dependent children.

The **Alda R. Hilliard, RN, Memorial Endowed Presidential Scholarship in Nursing** is awarded to an undergraduate or graduate student pursuing a degree in nursing and a career in providing quality health care.

The **Jens Jacobsen Memorial Endowed Scholarship in Nursing** provides support for nursing students. Financial need and merit are strong considerations in the selection of recipients; preference is given to students from disadvantaged backgrounds.

The **Lee Hage and Joseph D. Jamail Endowed Scholarship in Nursing** provides support to students of average academic merit who show promise of success in their chosen field and who demonstrate evidence of financial need.

The **Mary Gibbs Jones Endowed Presidential Scholarship in Nursing** provides awards to full-time nursing students. Financial need is emphasized in the selection of recipients.

The **Kristi Kana Endowed Presidential Scholarship in Nursing** is awarded to a full-time undergraduate or graduate nursing student in good academic standing with demonstrated financial need. Preference is given to students involved in community activities for the good of others.

The **Dorothy C. Luther Scholarship in Nursing** provides support to deserving graduate students in the School of Nursing.

The **Lillie S. Matthews Endowed Scholarship** provides scholarships for students in the School of Nursing.

The **Lucy May Maxey Scholarship Fund in Nursing** provides scholarships to nursing students with an interest in the treatment of cancer.

The **Nancy Francis and William Arnold McMinn Endowed Presidential Scholarship** is awarded to an undergraduate or graduate student pursuing a degree in nursing and a career in providing quality health care. The student must be a Texas resident in the professional

nursing sequence and must maintain a grade point average of at least 3.30.

The **Rose M. Morris Memorial Endowed Scholarship in Nursing** provides scholarships to undergraduate, graduate, or doctoral students in the School of Nursing.

The **Florence Nightingale Memorial Scholarship** provides scholarships to deserving undergraduate students in the School of Nursing.

The **Carol Miller Norwood Endowed Presidential Scholarship** is awarded to a full-time undergraduate or graduate student pursuing a degree in nursing. The recipient must demonstrate financial need, participation in extracurricular activities, and academic motivation.

The **Endowed Fellowship in Nursing Systems** awards fellowships to deserving graduate students enrolled in the nursing systems concentration.

The **PCA Health Plans Endowed Presidential Scholarship** provides awards to incoming freshmen on the basis of academic merit. Preference is given to students who are graduates of the Austin Independent School District and then to students from the counties served by PCA Health Plans. Extracurricular activities and interests are also considered.

The **S. Allison Starr Pendergras Endowed Memorial Scholarship in Nursing** is awarded to an undergraduate and a graduate student with a grade point average of at least 2.50. Financial need is a priority in selecting the recipients.

The **Ella Kate and Wallace Ralston Nursing Students Scholarship Fund** provides assistance for a number of students each year.

The **Louis W. Rase and Sophie Braun Rase Nursing Scholarship Fund** provides an award annually to a nursing student who demonstrates outstanding scholarship. The recipient is chosen on the basis of grade point average and must rank in the top 10 percent of his or her class.

The **Alice R. Redland Endowed Presidential Scholarship in Nursing** is awarded to a full-time undergraduate or graduate student planning to pursue a career in gerontological nursing.

The **Cynthia Lubocki Riley Memorial Scholarship in Nursing** provides scholarships to deserving undergraduate students who demonstrate the greatest financial need.

The **Dolores and Arthur Sands Endowed Presidential Scholarship in Nursing** provides scholarship support for promising graduate students pursuing a degree in nursing and a career in providing quality health care. Financial need is a priority in the selection of the recipient.

The **M. Elizabeth Sands, MD, and Arthur T. Sands, MD, PhD, Endowed Scholarship in Nursing** provides an award to a graduate or undergraduate nursing student planning to pursue a career in oncology.

The **Santa Rosa Children's Hospital Scholarship Fund in Memory of Taylor Andrew Marceau** provides an award to a nursing student who has demonstrated financial need, exemplary moral character, and good academic standing. Preference is given to students who intend to practice in the field of pediatric nursing. At the donor's request, recipients are designated Santa Rosa Scholars.

The **Shivers Cancer Foundation Endowed Excellence Fund in Oncology Nursing** provides awards to students focused on the care of cancer patients.

The **Susanne Spencer Skaggs Endowed Scholarship in Nursing** provides support to graduate and undergraduate nursing students.

The **Leila Tannous Memorial Endowed Scholarship** recognizes and supports outstanding graduate or undergraduate students pursuing a degree in nursing and a career in providing quality health care.

The **Texas Graduate Nurses Association Scholarship** provides awards to registered nurses, either undergraduates in public health nursing or graduate students.

The **Travis County Medical Auxiliary and Society Endowed Presidential Scholarship in Nursing** is awarded to a full-time junior or senior with a grade point average of at least 3.30 and with excellent promise for a career in nursing. Preference is given to Travis County high school graduates.

The **Margaretta Turpin Endowed Scholarship in Nursing** provides scholarship assistance to outstanding undergraduate students pursuing a degree in nursing and a career providing quality health care. Special consideration is given to students pursuing the study of geriatric care.

The **Carlo and Angeline Visco Endowed Scholarship** is awarded to a promising student pursuing a degree in nursing and a career in providing quality health care. The recipient must be a full-time student with a grade point average of at least 3.00.

The **Dusky Chionsini Waters Endowed Scholarship in Nursing** provides support for junior- and senior-level nursing students who do not already hold a professional licensure in nursing. Preference is given to students from educationally and financially disadvantaged backgrounds.

The **Marlene H. Weitzel, PhD, RN, Endowed Student Scholarship in Nursing** recognizes and supports promising students pursuing a degree in nursing and a career in providing quality health care. Financial need is a priority in the selection of the recipient.

The **Norma White, RN, Endowed Scholarship** provides support to a full-time undergraduate or graduate student who has a grade point average of at least 2.50. Financial need is a priority in selecting the recipient.

The **Lola B. Wright Foundation Centennial Scholarship** enables the School of Nursing to assist several students each year with individual financial aid.

The **Carolyn J. and John H. Young Endowed Presidential Fellowship in Nursing** provides support to an outstanding graduate student identified by the School of Nursing as having outstanding potential to contribute to the field of nursing.

## Nonendowed Scholarships

Other scholarships are frequently available through the generosity of groups such as the University of Texas at Austin School of Nursing Alumni Network, area civic organizations, and several nursing student organizations. Information is available in the Student Affairs Office each semester.

## Other Financial Aid Programs

### ROTC Nursing Scholarships

To be eligible for an ROTC scholarship, an applicant must be a United States citizen and must be less than twenty-five years old on June 30 of the calendar year during which commissioning is scheduled.

**Air Force ROTC Nursing Scholarships.** These scholarships provide for payment of tuition and fees and for textbooks and a monthly allowance during the school year. For additional information, contact The University of Texas at Austin, Department of Air Force Science, 1 University Station C3600, Austin TX 78712.

**Army ROTC Nursing Scholarships.** These scholarships provide for payment of tuition and fees, a flat rate for textbooks, and a monthly allowance during the school year. Students must attend the Nursing Advanced Camp during the summer between the junior and senior years and work individually with a licensed BSN preceptor. Students may apply to the dean for independent study credit; applications are considered on a case-by-case basis. For additional information, contact The University of Texas at Austin, Department of Military Science, 1 University Station C3606, Austin TX 78712.

**Navy ROTC Nursing Scholarships.** These scholarships provide for payment of tuition and fees and for textbooks and a monthly allowance during the school year. For additional information, contact The University of Texas at Austin, Department of Naval Science, 1 University Station C3604, Austin TX 78712.

### Vocational Rehabilitation

The Texas Department of Assistive and Rehabilitative Services (DARS) offers assistance in payment of tuition to students who have certain disabling conditions, provided their vocational objectives are approved by a DARS counselor. Services are also available to help students with disabilities find or keep employment. More information is available at <http://www.dars.state.tx.us/drs/vr.shtml>.

### Academic Advising

All prenursing and nursing students must come to the School of Nursing before registration each semester for academic advising. Prenursing students are assigned to academic advisers on staff in the Office of Student Affairs. Appointments are recommended and available through an on-line appointment system. Nursing students in the professional sequence are provided group academic advising and one-on-one career advising by nursing faculty members.

### Student Organizations

Undergraduate students, including prenursing students, are eligible for membership in the University of Texas Nursing Students Association. Through the association, nursing students are represented on campus committees and in campus activities involving all students. The local association is affiliated with the Texas Nursing Students' Association and the National Student Nurse Association.

Qualified students in the School of Nursing are also eligible for membership in Epsilon Theta Chapter of Sigma Theta Tau International Honor Society of Nursing.

## Admission and Registration

### Admission

#### Admission to the University

Admission and readmission of undergraduate students to the University is the responsibility of the director of admissions. Information about admission to the University is given in *General Information* (<http://registrar.utexas.edu/catalogs>).

#### Preprofessional Sequence

Students who wish to major in nursing begin their studies by taking prerequisite course requirements as prenursing majors. In order for students at the University from other majors to change their major to prenursing, they must have a minimum cumulative and science grade point average of 2.75 and be on track towards a timely graduation. During their final semester of preprofessional sequence coursework, they may apply for admission to the professional sequence in nursing.

#### Admission to the Professional Sequence in Nursing

Admission to the School of Nursing upper-division professional sequence is competitive. Students may apply for admission when they are enrolled in the last semester of required prerequisite coursework. The student must have a grade of at least C- in each prerequisite course and a minimum cumulative grade point average of at least 2.75 for courses taken at the University, prerequisite courses, and science courses. Students admitted to the professional sequence usually exceed this minimum requirement significantly, with higher grade point averages in all University courses, in prerequisite courses, and in the science and pharmacology courses in the preprofessional sequence. Students are expected to complete their bachelor's degree in nursing within four years.

The application includes the application form and personal statement, three letters of reference, a transcript from every other college or university the student has attended, and a high school transcript. Admission decisions are based on (1) the strength of the student's academic background, with special consideration given to his or her grade point average in the required natural science courses and in courses taken at the University; (2) the number of hours the student has taken at the University; (3) the number of repeated courses; (4) the student's achievements and accomplishments, with emphasis on volunteer work and activities in health care; and (5) being on track towards a timely graduation.

### External Transfer

All students who wish to transfer to the University from another institution must apply to the University Office of Admissions as described in *General Information* (<http://registrar.utexas.edu/catalogs>).

#### Preprofessional Sequence

A transfer student who plans to enter the preprofessional sequence in nursing should consult an academic adviser in the School of Nursing as early as possible for advising and transcript review. Students are encouraged to consult an adviser before applying for admission to the University.

## Professional Sequence

A student who wishes to transfer into the sequence from another nursing school must make an appointment with the School of Nursing Office of Student Affairs for academic advising and transcript review. Students are encouraged to consult an adviser in the School of Nursing before applying for admission to the University. In addition to meeting the regular University admission requirements, the student must apply for admission to the School of Nursing. He or she must submit an official transcript from each institution attended, letters of recommendation from faculty members at the previous nursing school, and course information for all completed nursing courses.

Transfer students must meet the same requirements as University students seeking admission to the professional sequence; however, they are considered for admission to the School of Nursing only if they are admitted to the University.

## Registration

*General Information* gives information about registration, adding and dropping courses, transfer from one division of the University to another, and auditing a course. The *Course Schedule* (<http://registrar.utexas.edu/schedules>), published at <http://registrar.utexas.edu/schedules/> before registration each semester and summer session, includes registration instructions, advising locations, and the times, places, and instructors of classes. The *Course Schedule* and *General Information* are published on the registrar's Web site, <http://registrar.utexas.edu/>.

## Academic Policies and Procedures

### Student Responsibility

1. It is the student's responsibility to be informed of general and special notices posted in the School of Nursing building and on the listserv.
2. The student must make arrangements for the completion of all work, including makeup examinations and requirements for removal of conditional and incomplete grades.
3. Because the curriculum is demanding, students are urged to limit work hours while in the program. A student's combined employment and semester-hour load (including clinical laboratory hours) should not exceed forty hours a week in either a long-session semester or a summer term. During the final month of the last semester of the program, students are enrolled in a full-time preceptorship and are unable to have outside employment.
4. Students may be employed in area hospitals and clinics as nursing assistants, performing functions for which they have been trained by the employing institution and for which the institution has a clearly discernible policy, either in writing or by precedent, defining the scope of these functions. It is illegal for unlicensed students to practice as professional nurses.

Students should be aware that (1) the School of Nursing assumes no responsibility for their activities as employees of an agency; (2) they are personally responsible and liable for any activity they participate in while employed; (3) professional liability insurance purchased by students is valid only in their student role, not in their employment role; (4) individuals who practice illegally may jeopardize their future careers, since those

who are convicted of violating the Nurse Practice Act may not be eligible to write state board examinations and subsequently to be licensed.

Students employed in an agency are personally and professionally responsible for engaging only in those activities that fall within their job descriptions as nonlicensed workers (such as aides). They have a responsibility to refuse to participate in activities that they have not been legally licensed to perform, such as giving medications and assuming total responsibility for a nursing unit.

5. Students should be familiar with the Student Standards of Conduct given in subchapter 11–800, Appendix C, “Institutional Rules on Student Services and Activities,” *General Information* (<http://registrar.utexas.edu/catalogs>), as well as the University's Honor Code and the School of Nursing's Code of Honor. Upon admission to the professional sequence, students are expected to read and sign a pledge to abide by the Code of Honor.

## School of Nursing Honor Code

The profession of nursing has a legacy of public respect and trust. We provide specialized care for the health needs of individuals and the community with integrity, honesty, compassion, and state-of-the-art knowledge and skills. Learning and practicing responsible and ethical professional behavior is a vital part of professional education.

As a student in the University of Texas at Austin's School of Nursing, I pledge myself to be honest in all of my student activities including, but not limited to, all of my scholastic work and interactions with patients, members of the community, faculty, and peers. Furthermore, I will not use any substance prior to or during my interaction with patients that could alter my judgment or ability to render safe care: this includes but is not limited to any use of alcohol, illegal drugs, and prescription or over-the-counter drugs that may impair my mental and/or physical abilities required to perform safe patient care. I will disclose to my instructor any violations of the above standards of conduct.

## Standards of Nursing Performance and Progress

Patient safety is a critical element in every clinical course. Clinical errors related to patient care, including those intercepted by the faculty, may interfere with a student's progression in the course and in the program. The standards of performance are described in course syllabi and clinical evaluation tools for clinical practicum courses.

A student must earn a grade of at least C in each nursing course for the course to be counted toward degree requirements. Concurrent or sequential enrollment is required as stated in each course description.

If the student is not on scholastic probation at the University, permission may be granted to repeat a required nursing course in which he or she failed to earn a grade of C or better. To receive credit, the student must repeat the course at the University of Texas at Austin School of Nursing. The semester in which a course is repeated is at the discretion of the dean and is dependent on the space available.

A student may repeat a nursing course only once. If the student does not earn a grade of at least C upon repeating the course, he or she cannot continue in the School of Nursing. If, while repeating the course, the student drops the course or withdraws from the University

at a time when the student's performance in the course is considered to be inferior to that required for a grade of C, he or she may not reenroll in the course or continue in the School of Nursing.

No more than two nursing courses may be repeated.

A student may not repeat for credit a course in which a grade of C or better was awarded.

As a prerequisite to medication administration in clinical nursing courses, students are required to pass a medications and calculations test with a grade of at least 90.

## Compliance Requirements for Clinical Courses

Students must provide documentation confirming completion of compliance requirements prior to participating in clinical nursing courses. Log in to the School of Nursing Intranet Site (<http://www.utexas.edu/nursing/current>) for more information.

## Medical Clearance Requirements

Clinical experiences for nursing students are provided in hospitals and other health care agencies with which the School of Nursing is affiliated. A number of these facilities require that nursing students assigned to them have evidence of immunity to certain diseases. Students must provide the School of Nursing with evidence of compliance with immunization requirements before they begin upper-division coursework.

## Criminal Background Checks

Students are required to submit to criminal background checks before enrolling in the upper-division sequence. Information about the process is available on the School of Nursing Web site. Students with concerns about eligibility are urged to seek official determination from the Texas Board of Nursing at <http://www.bon.state.tx.us/>. Further, we urge students with concerns to seek the background check six months in advance of beginning clinical courses to allow sufficient time for investigation and Texas Board of Nursing approval.

## Employment Background Check

Agencies in which nursing students are placed for clinical work may require an employment background check. Directions to complete this requirement are on the School of Nursing Web site.

## Drug Screen

Clinical agencies may require a drug screen to be completed prior to participating in patient care. Students will be notified during advising of this additional compliance requirement.

## CPR and First Aid Requirements

Current certification in cardiopulmonary resuscitation and first aid are required for participation in clinical nursing courses. The CPR course must include training in infant, child, adult, one-person, two-person, and obstructed airway resuscitation. The basic first aid certification must be acquired from the American Heart Association (Heartsaver First Aid) or from a local emergency medical services agency (National Safety Council First Aid). Students must provide the School of Nursing with evidence of current certification before they begin upper-division coursework. Students who are registered nurses are not required

to provide evidence of first aid certification before beginning upper-division coursework.

## Professional Liability Insurance

Professional liability insurance is required of all students enrolled in the professional sequence in the School of Nursing. Each student must pay the insurance premium at the Office of Student Affairs before he or she begins upper-division coursework. All student policies expire on the date of graduation.

## Training Modules

All students must complete the following modules on the School of Nursing Intranet Site (<http://www.utexas.edu/nursing/current>) before participating in clinical nursing coursework: online orientation, facilities training, and training on the Health Insurance Portability and Accountability Act (HIPAA).

## Health and Hospitalization Insurance

Students are strongly encouraged to purchase health insurance. The cost of personal health care, including care required as the result of clinical practicum experiences, is not covered by either the University, the School of Nursing, or clinical agencies. Information about low-cost group health insurance is available through University Health Services. The liability insurance students buy as a part of compliance for participating in clinical courses does not cover health care expenses.

## Uniforms and Other Expenses

Students must purchase uniforms, shoes, name badges, and other supplies before taking the first clinical nursing course. Specific requirements and information about suggested equipment are distributed before the beginning of the first semester of the professional sequence.

## Transportation

Upper-division clinical courses require students to go to various clinical facilities and community sites at varied hours. Students must have their own transportation.

## Honors

### University Honors

The designation University Honors, awarded at the end of each long-session semester, gives official recognition and commendation to students whose grades for the semester indicate distinguished academic accomplishment. Both the quality and the quantity of work done are considered. Criteria for University Honors are given in *General Information*.

### Graduation with University Honors

Students who, upon graduation, have demonstrated outstanding academic achievement are eligible to graduate with University Honors. Criteria for graduation with University Honors are given in *General Information*.

### Nursing Honors Program

The Nursing Honors Program is designed to enhance the educational experience of high-achieving undergraduate nursing majors by focusing on the development of scholarship. Students must apply to this competitive honors program, which begins in the sophomore year. Admission to the program requires approval of the Honors Program

Committee. Acceptance into the honors program confers automatic acceptance into the nursing professional sequence, if the student maintains competitive overall and science grade point averages.

Students in the program must complete Nursing 321H, 117H, 264H, and 377H. These courses provide students with enhanced mentorship experiences. Students must complete an honors project with a focus on research, ethics, or leadership. Students are also required to take Nursing 337 Independent Study with their mentor with the focus on their honors project. Nursing 337 may be substituted for Nursing 347, *Specialized Topics in Nursing*, in the degree plan. The statement "Special Honors in Nursing" appears on the transcript of each student who completes the honors program.

## Sigma Theta Tau International

Epsilon Theta Chapter of Sigma Theta Tau International Honor Society of Nursing, was chartered at the University on May 16, 1980. Epsilon Theta Chapter presents scholarly programs each semester; program meetings are open to anyone interested in the program topic. An annual meeting, at which new members are inducted, is held in May.

Membership in Sigma Theta Tau is an honor conferred by active chapters on students who demonstrate academic excellence and on nursing leaders who advance the scientific base of the profession. The society recognizes superior achievement in many areas, facilitates the development of leadership qualities, fosters high professional standards, encourages creative work, and strengthens commitment to the ideals of nursing.

Each year qualified students in the undergraduate and graduate programs may apply for consideration for membership. Invitations to membership are extended to students who are in the top 35 percent of their graduating class. Undergraduates must have a grade point average of at least 3.00; graduate students must have a grade point average of at least 3.50. Qualified community nursing leaders may also be invited to membership. Applications for membership in Epsilon Theta Chapter are available from the Office of Student Affairs in the School of Nursing.

At the induction ceremony each spring, Epsilon Theta Chapter announces its awards, grants, and scholarship recipients. A scholarship is awarded to an upper-division nursing student who has demonstrated leadership potential and outstanding scholastic achievement. The chapter also awards start-up grants annually to Epsilon Theta Chapter members and/or students to fund research projects.

Sigma Theta Tau International, with active chapters on more than four hundred campuses in the United States and in several other countries, offers opportunities for involvement at the chapter, regional, national, and international levels. Programs are offered each year in different parts of the United States under joint sponsorship of chapters and Sigma Theta Tau International. International research congresses are held in cooperation with scholarly nursing organizations in other countries; these programs focus on scholarly topics of relevance to the advancement of nursing knowledge and to the improvement of public health. Research grants are awarded annually by Sigma Theta Tau International as well as by Epsilon Theta and other chapters.

## Credit by Examination

The faculty believes that each educational experience should build on previous achievements to encourage fulfillment of each student's

potential. Therefore, all students and registered nurses are urged to seek advice on arranging a logical sequence of work. The faculty subscribes to the principle that a candidate's competence should be validated and that credit should be awarded on the basis of satisfactory achievement on examinations as well as in the classroom. Twenty-four of the last thirty semester hours of credit presented for the degree must be earned in residence, rather than by examination, correspondence, or transfer.

An examination for credit may not be taken in a course in which the student is enrolled, which the student has completed, or which the student has dropped with either a passing or a failing grade.

University policies regarding credit by examination are given in *General Information* (<http://registrar.utexas.edu/catalogs>).

## Graduation

### Special Requirements of the School

All students must fulfill the General Requirements (p. 18) for graduation. Students in the School of Nursing must also fulfill the following requirements:

1. All University students must have a grade point average of at least 2.00 to graduate. In the School of Nursing, students must also have a grade point average of at least 2.00 in the coursework used to fulfill the upper-division requirement.
2. A candidate must complete the prescribed curriculum and must meet all other requirements of the School of Nursing.
3. A student must supply the School of Nursing with transcripts of courses taken outside the school as the courses are completed.

### Degree Audit

A degree audit is prepared when the student begins the junior year of nursing courses. The student is then notified of the courses he or she must take and the requirements he or she must fulfill to receive the degree. The degree audit is normally done according to the catalog in effect when the student was admitted to the School of Nursing, but the student may choose to have it done according to any catalog under which he or she is eligible to graduate. Rules on graduation under a particular catalog are given in Graduation Under a Particular Catalog (p. 19).

In advising and in registering students, the dean and advisers try to prevent errors. Avoidance of errors is the main purpose of the degree audit, but it remains the responsibility of the student to fulfill all catalog requirements.

### Graduation Application Form

In the long-session semester or summer session in which the degree is to be awarded, the candidate must be registered at the University and must file a Graduation Application Form in the School of Nursing Office of Student Affairs. The form must be filed by the deadline to apply for an undergraduate degree, which is given in the official academic calendar.

## Licensure as a Professional Nurse

Each student seeking licensure as a professional nurse must pass the National Council Licensure Examination (NCLEX). The Texas Board of Nursing, which determines eligibility to take the NCLEX, has identified certain circumstances that may render a candidate ineligible for state licensure as a registered nurse. A student's answers to the following questions may determine eligibility.

1. Have you been convicted, adjudged guilty by a court, plead guilty, no contest or nolo contendere to any crime in any state, territory, or country, whether or not a sentence was imposed, including any pending criminal charges or unresolved arrests (excluding minor traffic violations)? This includes expunged offenses and deferred adjudications with or without prejudice of guilt. Please note that DUIs, DWIs, and PIs must be reported and are not considered minor traffic violations. (One-time minor in possession (MIP) or minor in consumption (MIC) violations do not need to be disclosed. However, if you have two or more MIPs or MICs, you must answer "yes" to this question.)
2. Do you have any criminal charges pending, including unresolved arrests?
3. Has any licensing authority refused to issue you a license or ever revoked, annulled, canceled, accepted surrender of, suspended, placed on probation, or refused to renew a professional license, certificate, or multistate privilege held by you now or previously, or ever fined, censured, reprimanded, or otherwise disciplined you?
4. Within the past five years have you been addicted to and/or treated for use of alcohol or any other drug?
5. Within the past five years have you been diagnosed with, treated, or hospitalized for schizophrenia and/or psychotic disorders, bipolar disorder, paranoid personality disorder, antisocial personality disorder, or borderline personality disorder?

Criminal background checks, including fingerprinting, are a required part of the application process for licensure in Texas. Students who have concerns about this requirement are encouraged to seek confirmation of their eligibility for licensure prior to considering a career in nursing. Consult the Texas Board of Nursing Web site at <http://www.bon.state.tx.us/> or call (512) 305-7400 for further information.

## Degrees and Programs

### Programs in the School of Nursing

The School of Nursing offers an undergraduate program leading to the degree of Bachelor of Science in Nursing and graduate programs leading to the Master of Science in Nursing degree and the Doctor of Philosophy degree with a major in nursing. The undergraduate program is designed for students who wish to enter the profession of nursing. Students who have earned an associate's degree or a diploma in nursing and wish to obtain the baccalaureate degree may apply to the accelerated track, the RN-BSN program. The master's and doctoral degree programs are designed to prepare professionals for advanced nursing practice and research in nursing.

The baccalaureate program is accredited by the Commission on Collegiate Nursing Education (CCNE) and the Texas Board of Nursing.

## Objectives of the Bachelor's Degree Program

The graduate of the baccalaureate program in nursing is expected to

1. Use critical thinking to integrate knowledge from nursing, biological and behavioral sciences, and the humanities in planning, implementing, and evaluating nursing care.
2. Use critical thinking and clinical judgment within a problem-solving process to meet the health care needs of individuals, families, aggregates, and communities in a variety of settings.
3. Accept responsibility and accountability for one's own actions as a health care professional.
4. Participate in the delivery of health care through case management, interdisciplinary collaboration, delegation, supervision, coordination, and consultation.
5. Participate in nursing and interdisciplinary efforts to improve the delivery of safe, high-quality health care to diverse individuals, families, aggregates, and communities.
6. Demonstrate core professional values to complement continued personal and professional growth.
7. Practice nursing according to professional and ethical standards.
8. Critically appraise and apply research findings to demonstrate evidence-based nursing practice.
9. Examine health policy and its effects on individuals, families, aggregates, communities, and health agencies.
10. Integrate the appropriate use of information and health care technology in nursing practice, administration, education, and research.
11. Utilize leadership skills to advance the profession of nursing and promote continuous improvement of the health care delivery system.

## Applicability of Certain Courses

### ROTC Courses

The dean has the authority to substitute an equivalent air force science, military science, or naval science course or courses for a course or courses prescribed by the School of Nursing; core curriculum courses cannot be substituted. The dean can also make adjustments to compensate for any differences in semester hour value. The total number of semester hours required for the degree remains unchanged.

### Correspondence and Extension Courses

Credit earned by correspondence or extension from the University or elsewhere will be counted toward a Bachelor of Science in Nursing degree if approved by either the assistant dean for student affairs or the assistant dean for undergraduate programs. A student planning to meet preprofessional course requirements with correspondence or extension courses should consult the Office of Student Affairs to ensure enrollment in appropriate courses. Credit for professional sequence courses may not be earned by correspondence or extension.

## Bachelor of Science in Nursing

This program consists of 126 to 127 semester hours of coursework: sixty-five to sixty-six hours of prerequisite courses (the preprofessional

sequence) taken at the University of Texas at Austin or another accredited college or university, followed by sixty-one hours of upper-division nursing courses (the professional sequence) taken at the University of Texas at Austin School of Nursing. Upon completion of the program, students are awarded the Bachelor of Science in Nursing degree and have fulfilled the prescribed course of study and clinical practice required to take the National Council Licensure Examination (NCLEX) for licensure as a registered nurse.

## Foreign Language Requirement

Students may fulfill the foreign language component of the University's basic education requirements by completing two years of a single foreign language in high school, by earning an appropriate score on one of the placement examinations administered by the University, or by completing two semesters of college coursework in a single foreign language in addition to the degree requirements given below. If the foreign language requirement will be fulfilled by transfer credit, credit by examination, or extension or correspondence courses, it must be fulfilled before the first semester of the student's senior year. Nursing 354 may not be counted toward the foreign language requirement. For students who take college coursework to complete the foreign language requirement, Spanish is recommended.

## Flag Requirements

In the process of fulfilling the requirements of the preprofessional sequence (including the core curriculum) and the professional sequence, students must earn credit for one flag in ethics and leadership, one flag in global cultures, one flag in independent inquiry, one flag in quantitative reasoning, and three flags in writing. Courses used to fulfill the writing flag requirement may be used simultaneously to fulfill other requirements.

Students are also required to earn one flag in cultural diversity in the United States and are advised to earn credit for this flag as part of the coursework used to satisfy the first-year signature course, American history, or visual and performing arts requirements of the core curriculum. Courses with flags are identified in the *Course Schedule*, published at <http://registrar.utexas.edu/schedules/>.

## Preprofessional Sequence

Students must complete the sixty-five or sixty-six semester hours of coursework (preprofessional sequence) listed below. Completion usually requires two and one-half academic years (or four semesters and one summer session). All courses must be completed before the student enrolls in upper-division courses in nursing.

All students must complete the University's Core Curriculum (p. 22). In some cases, a course that is required for the Bachelor of Science in Nursing may also be used to fulfill a requirement of the core curriculum; these courses are identified below.

Course	Sem Hrs
<b>Core Curriculum</b>	
Elements of the Core Curriculum (p. 22) not satisfied by other requirements of the Bachelor of Science in Nursing	24
<b>Natural Sciences</b>	
Physiology and functional anatomy: Biology 446L, 365S, 165U	8

Biology: Biology 311C, 326M (together may be used to fulfill the science and technology, part I, requirement of the core curriculum)	6
Chemistry: Chemistry 301 (may also be used to fulfill the science and technology, part II, requirement of the core curriculum)	3
Introductory statistics: Statistics and Scientific Computation 302 (may also be used to fulfill the mathematics requirement of the core curriculum; carries a quantitative reasoning flag)	3
Nutrition 306	3
<b>Liberal Arts</b>	
Introductory psychology: Psychology 301 (may also be used to fulfill the social and behavioral sciences requirement of the core curriculum)	3
<b>Nursing</b>	
Nursing 309, <i>Global Health</i> (carries a global cultures flag)	3
Nursing 310, <i>Communication in Health Care Settings</i>	3
Nursing 321, <i>Ethics of Health Care</i> (carries both a writing flag and an ethics and leadership flag)	3
<b>Other Courses</b>	
Growth and development: Human Development and Family Sciences 313 and 113L, or Psychology 304	3 or 4
Introductory pharmacology: Pharmacy 338	3
<b>Total 65 or 66</b>	

## Professional Sequence

The final sixty-one semester hours of coursework in nursing are completed after the student has achieved upper-division standing and has been admitted into the School of Nursing professional sequence. These hours consist of the courses listed below and Nursing 347, *Specialized Topics in Nursing*, which many students choose to take in the summer. In order to meet prerequisites, students must take most of the courses in the professional sequence in the indicated semester. Courses that may be taken at any point in the professional sequence are Nursing 323, *Genetics in Health Care*, Nursing 347, *Specialized Topics in Nursing*, and Nursing 354, *Spanish for Health Care Professionals*.

Courses	Sem Hrs
<b>First Semester</b>	
Nursing 224, <i>Health Assessment Skills</i>	2
Nursing 325, <i>Adult Health Nursing I</i>	3
Nursing 325P, <i>Adult Health Nursing I (Practicum)</i>	3
Nursing 264, <i>Nursing Research</i>	2
Nursing 227, <i>Conceptual Bases of Aging</i>	2
Nursing 127P, <i>Clinical Nursing Skills I (Practicum)</i>	1
Nursing 354, <i>Spanish for Health Care Professionals</i>	3
<b>Total 16</b>	
<b>Second Semester</b>	
Nursing 455, <i>Adult Health Nursing II</i>	4
Nursing 355P, <i>Adult Health Nursing II (Practicum)</i>	3
Nursing 356, <i>Mental Health Nursing across the Life Span</i>	3
Nursing 356P, <i>Problems in Mental Health Nursing (Practicum)</i>	3
Nursing 157P, <i>Clinical Nursing Skills II Practicum</i>	1

	<b>Total 14</b>
<b>Third Semester</b>	
Nursing 323, <i>Genetics in Health Care</i>	3
Nursing 265, <i>Nursing Care of Childbearing Families</i>	2
Nursing 365P, <i>Nursing Care of Childbearing Families Practicum</i>	3
Nursing 266, <i>Nursing Care of Children and Their Families</i>	2
Nursing 366P, <i>Nursing Care of Children and Their Families Practicum</i>	3
Nursing 278, <i>Contemporary Nursing Practice</i>	2
	<b>Total 15</b>
<b>Fourth Semester</b>	
Nursing 275, <i>Public Health Nursing</i>	2
Nursing 375P, <i>Public Health Nursing Practicum</i>	3
Nursing 377P, <i>Clinical Care Management Practicum</i>	3
Nursing 377, <i>Leadership and Management of Nursing Care</i>	3
Nursing 279P, <i>Capstone Preceptorship</i>	2
	<b>Total 13</b>

## BSN for Registered Nurses

The Accelerated Track, designed for registered nurses with associate's degrees or diplomas in nursing, builds on individuals' backgrounds while offering preparation in areas such as public health nursing, genetics, decision making, leadership, and management. The BSN degree provides the basis for graduate preparation at the MSN and PhD levels.

Students should call the RN-BSN/MSN adviser at (512) 471-8246 for an appointment before registering for prerequisite courses and for help in planning a program of study.

## Courses

The faculty has approval to offer the following courses in the academic years 2012–2013 and 2013–2014; however, not all courses are taught each semester or summer session. Students should consult the *Course Schedule* to determine which courses and topics will be offered during a particular semester or summer session. The *Course Schedule* may also reflect changes made to the course inventory after the publication of this catalog.

A full explanation of course numbers is given in *General Information* (<http://catalog.utexas.edu/general-information>). In brief, the first digit of a course number indicates the semester hour value of the course. The second and third digits indicate the rank of the course: if they are 01 through 19, the course is of lower-division rank; if 20 through 79, of upper-division rank; if 80 through 99, of graduate rank.

## Nursing: N

### Lower-Division Courses

#### N 107, 207, 307. Topics in Nursing.

One, two, or three lecture hours a week for one semester, with one discussion hour a week if required by the topic. May be repeated for

credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

#### Topic 1: Women's Reproductive Health for Nonscience

**Majors.** Nursing 307 (Topic 1) is same as Sociology 308 (Topic 2: Women's Reproductive Health for Nonscience Majors) and Women's and Gender Studies 301 (Topic 7: Women's Reproductive Health for Nonscience Majors). Overview of contemporary women's reproductive health issues, with emphasis on historical, physiological, psychosocial, and cultural influences that affect the reproductive health of women during adolescence, the childbearing years, and midlife. Topic 1 is offered as Nursing 307 only. Only one of the following may be counted: Pharmacy 318W, Nursing 307 (Topic 1), Sociology 308 (Topic 2), Women's and Gender Studies 301 (Topic 7). Prerequisite: One year of high school biology, or Biology 301L or 309D or the equivalent.

#### N 309. Global Health.

Overview of global health, with emphasis on the determinants of health, health indicators, human rights, globalization, current socioeconomic factors, health care systems, and public health systems. Three lecture hours a week for one semester.

#### N 310. Communication in Health Care Settings.

Introduction to theories and models of communication in relation to health care; basic factors affecting interpersonal communication in health care settings. Three lecture hours a week for one semester. Required for nursing majors.

#### N 117H. Introduction to Nursing Scholarship: Honors Seminar.

Introduction to the nature of nursing scholarship, along with related research and clinical and educational career opportunities. Topics include leadership, research, and ethics as they relate to nursing. One lecture hour a week for one semester. Prerequisite: Admission to the School of Nursing Honors Program.

#### N 119, 219, 319, 419, 519, 619. International Learning Seminars.

Restricted to students participating in a Maymester Abroad course. Discussion of various issues related to the academic, cultural, and personal aspects of completing academic work in international locations. For each semester hour of credit earned, one lecture hour a week for one semester. Nursing 119, 219, 319, 419, 519, 619 and Undergraduate Studies 119 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Offered on the letter-grade basis only.

## Upper-Division Courses

#### N 321. Ethics of Health Care.

Examination of ethical issues of health care and related legal concerns; contradictions, inconsistencies, and competing views that lead to dilemmas in health care. Three lecture hours a week for one semester. Only one of the following may be counted: Nursing 311, 311H, 321, 321H. Prerequisite: Rhetoric and Writing 306.

#### N 321H. Ethics of Health Care: Honors.

Ethical issues in health care and related legal concerns; contradictions, inconsistencies, and competing views that lead to dilemmas in health care. Emphasis on resolving ethical dilemmas through ethical reasoning and ethical obligations in health professional-patient relationships; and just allocation of scarce health care resources. Three lecture hours a week for one semester. Only one of the following

may be counted: Nursing 311, 311H, 321, 321H. Prerequisite: Admission to the School of Nursing Honors Program, or consent of instructor.

### **N 322. Transition to Professional Nursing.**

Restricted to students in the RN-BSN accelerated track. Designed to provide the RN student with a transition into the baccalaureate and professional nursing roles. Explores professional socialization in the work and education settings; develops professional career goals and career plans; and includes discussion of role transition in nursing practice, with attention to expanded and advanced nursing practice roles. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **N 323. Genetics in Health Care.**

The integration of genetic information into nursing practice, including ethical, legal, psychological, and social issues. Three lecture hours a week for one semester. Prerequisite: Upper-division standing or consent of instructor.

### **N 224. Health Assessment Skills.**

Discussion, application, and documentation of health assessment skills needed to provide data for health promotion and nursing interventions. One and one-half lecture hours and one laboratory hour a week for one semester. Prerequisite: Upper-division standing.

### **N 325. Adult Health Nursing I.**

For nursing majors admitted to the professional sequence. Discussion of the concepts and theories necessary to promote and restore the health of adults with biological problems; related physiological and psychological responses. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

### **N 325P. Adult Health Nursing I (Practicum).**

For nursing majors admitted to the professional sequence. Application of the concepts and theories necessary to promote and restore health of adults with biological problems; related physiological and psychological responses. Nine laboratory hours a week for one semester. Prerequisite: Upper-division standing and credit or registration for Nursing 325.

### **N 227. Conceptual Bases of Aging.**

An examination of the theories of aging, the developmental tasks of families, and the physical, psychological, social, economic, ethical, legal, and spiritual needs of aging persons. Responsibilities and needs of caregivers. Two lecture hours a week for one semester. Prerequisite: Upper-division standing or consent of instructor.

### **N 127P. Clinical Nursing Skills I (Practicum).**

Laboratory instruction and practice in clinical nursing skills. Two laboratory hours a week for one semester. Offered on the pass/fail basis only. Prerequisite: Concurrent enrollment in Nursing 325P.

### **N 129M, 229M, 329M, 429M, 529M, 629M. International Learning Seminars.**

Restricted to students participating in a Maymester Abroad course. Discussion of various issues related to the academic, cultural, and personal aspects of completing academic work in international locations. For each semester hour of credit earned, one lecture hour a week for one semester. Nursing 129M, 229M, 329M, 429M, 529M, 629M and Undergraduate Studies 119 may not both be counted unless the topics vary. May be repeated for credit when the topics vary.

Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

### **N 137, 237, 337. Independent Study.**

Study in a specific area; topic and mode of study are agreed upon by student(s) and instructor. The equivalent of one, two, or three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: A University grade point average of at least 2.80 and consent of instructor.

### **N 147, 247, 347. Specialized Topics in Nursing.**

The equivalent of one, two, or three lecture hours a week for one semester; some topics require up to thirty-nine hours of fieldwork a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Enrollment in the upper-division sequence. Some topics also require consent of instructor; these are identified in the Course Schedule.

**Topic 1: Informatics in Health Care and Nursing.**

**Topic 2: Acute Care Pediatrics.**

**Topic 3: Cardiovascular Nursing.**

**Topic 4: Childbearing Nursing Elective.**

**Topic 5: Critical Care Nursing.**

**Topic 6: High-Risk Maternity.**

**Topic 7: Pediatrics.**

**Topic 8: Perioperative Nursing.**

**Topic 9: Special Topics in Pediatrics.**

**Topic 10: Child Wellness Center (Practicum).**

**Topic 11: Children with Chronic Illness in the Community.**

**Topic 12: Clinical Nursing Preceptorship.**

**Topic 13: Community-Oriented Ambulatory Nursing.**

**Topic 14: Genetics in Clinical Nursing (Practicum).**

**Topic 15: Home Health Nursing.**

**Topic 16: Pediatrics in the Community.**

**Topic 17: Well Children in the Community.**

### **N 354. Spanish for Health Care Professionals.**

Basic Spanish language skills and phrases related to nursing activities. Three lecture hours a week for one semester. Prerequisite: Upper-division standing or consent of instructor.

### **N 455. Adult Health Nursing II.**

Advanced concepts and theories to promote and restore health of adults with biological problems and related physiological and psychological responses. Four lecture hours a week for one semester. Prerequisite: Nursing 325 and 325P.

### **N 355P. Adult Health Nursing II (Practicum).**

Application of advanced concepts and theories to promote and restore health of adults with biological problems and their related physiological and psychological responses. Nine laboratory hours a week for one semester. Prerequisite: Credit or registration for Nursing 455.

### **N 356. Mental Health Nursing across the Life Span.**

Biological, environmental, cultural, and interpersonal factors predisposing individuals across the life span to mental health problems. The course is organized around the nursing process, as well as multidisciplinary therapeutic modalities, that assist the individual and family to adapt, recover, and grow through these problems. Current relevant research, and the sociocultural, legal, and ethical implications of providing nursing care to the mentally ill. Three lecture hours a week for one semester. Prerequisite: Nursing 224 and 325.

**N 356P. Problems in Mental Health Nursing (Practicum).**

Application of strategies for the care of individuals, groups, and families experiencing mental health problems. Nine laboratory hours a week for one semester. Prerequisite: Credit or registration for Nursing 356.

**N 157P. Clinical Nursing Skills II Practicum.**

Laboratory instruction and practice in clinical nursing skills. Two laboratory hours a week for one semester. Offered on the pass/fail basis only. Prerequisite: Concurrent enrollment in Nursing 355P.

**N 264. Nursing Research.**

Basic components of the research process; interpreting descriptive and inferential statistics in research. Critical examination of research studies in nursing. Two lecture hours a week for one semester. Nursing 264 and 264H may not both be counted. Prerequisite: Upper-division standing.

**N 264H. Nursing Research: Honors.**

Examination of the research process and methods, along with interpretation of descriptive and inferential statistics in research. Critical examination of research studies in nursing and research skills through participation in a research project. One and one-half lecture hours and one laboratory hour a week for one semester. Nursing 264 and 264H may not both be counted. Prerequisite: Admission to the School of Nursing Honors Program and an introductory statistics course, or consent of instructor.

**N 265. Nursing Care of Childbearing Families.**

Concepts, theories, and processes essential to understanding the health concerns and problems of women and their families during the childbearing years. Two lecture hours a week for one semester. Prerequisite: Nursing 455, 355P, 356, 356P, and 157P.

**N 365P. Nursing Care of Childbearing Families Practicum.**

The application of concepts, theories, and processes pertinent to care of women and their families during the childbearing years. Nine laboratory hours a week for one semester. Prerequisite: Credit or registration for Nursing 265.

**N 266. Nursing Care of Children and Their Families.**

Two lecture hours a week for one semester. Prerequisite: Nursing 455, 355P, 356, 356P, and 157P.

**N 366P. Nursing Care of Children and Their Families Practicum.**

Application of concepts, theories, and developmental processes essential to the health concerns and problems of children, adolescents, and their families. Nine laboratory hours a week for one semester. Prerequisite: Credit or registration for Nursing 266.

**N 275. Public Health Nursing.**

Public health nursing models and the nursing process as they are used to plan for the health of aggregates and communities. Description and analysis of formal and informal community systems and health care delivery systems. Major emphasis on the concepts of community building and collaboration. Two lecture hours a week for one semester. Prerequisite: Nursing 455, 355P, 356, and 356P; or consent of instructor.

**N 375P. Public Health Nursing Practicum.**

Provides opportunities for students to apply public health nursing concepts, theories, and processes to the care of aggregates and the total community. Assigned clinical experiences are designed to develop student skills in the practice of public health nursing. Emphasis is on interdisciplinary health care with at-risk aggregates in the community, and high-risk families and aggregates in the community. Nine laboratory hours a week for one semester. Prerequisite: Credit or registration for Nursing 275.

**N 377. Leadership and Management of Nursing Care.**

Selected concepts and theories of management in the context of the delivery of dynamic nursing care. Use of management concepts in working with a health care team to provide high-quality patient care. Historical development of the health care system, current issues, contemporary trends, standards of professional practice, management and leadership roles, political and cultural influences on health care, and professional career development. Three lecture hours a week for one semester. Nursing 377 and 377H may not both be counted. Prerequisite: Nursing 325 or consent of instructor.

**N 377H. Leadership and Management of Nursing Care: Honors.**

Examination of selected concepts and theories of management and leadership in the context of the delivery of dynamic nursing care. The use of management concepts in working with a health care team to provide high-quality patient care. Current economic, social, and political factors that influence health care. Three lecture hours a week for one semester. Nursing 377 and 377H may not both be counted. Prerequisite: Admission to the School of Nursing Honors Program or consent of instructor.

**N 377P. Clinical Care Management Practicum.**

Application of selected concepts and theories of management in the planning and delivery of health care. Nine laboratory hours a week for one semester. Prerequisite: Nursing 265, 365P, 266, and 366P; and credit or registration for Nursing 377.

**N 278. Contemporary Nursing Practice.**

Designed to evolve the student's professional nursing practice and expand its application in the clinical setting. Provides opportunities for analysis and synthesis of theoretical, evidence-based, and clinical knowledge with emphasis on the awareness and knowledge of contemporary nursing practice. Two lecture hours a week for one semester. Prerequisite: Nursing 264 or consent of instructor.

**N 279P. Capstone Preceptorship.**

Designed to provide students with clinical experiences similar to those that confront newly employed registered nurses. Focuses on the role transformation of students and on clinical competence in communication, collaboration, negotiation, delegation, coordination, and evaluation of interdisciplinary work. Thirty to forty hours a week for three to four weeks for a total of 120 clinical hours. Additional preparation time to assure clinical competence may be required. Offered on the pass/fail basis only. Prerequisite: Nursing 377 and 377P.

# College of Pharmacy

---

M. Lynn Crismon, PharmD, *Dean*  
Patrick J. Davis, PhD, *Senior Associate Dean*  
Carlton K. Erickson, PhD, *Associate Dean*  
William McIntyre, PharmD, *Associate Dean*  
Diane B. Ginsburg, MS, *Assistant Dean*  
Jennifer L. Ridings-Myhra, BSPHr, *Assistant Dean*  
Richard E. Wilcox, PhD, *Assistant Dean*

## General Information

### Accreditation

The College of Pharmacy has been a member of the American Association of Colleges of Pharmacy since 1927. The Doctor of Pharmacy degree program is accredited by the Accreditation Council for Pharmacy Education (ACPE); ACPE does not accredit master's and PhD degrees in pharmacy.

### Mission

The University offers the six-year program leading to the Doctor of Pharmacy (PharmD) as the sole entry-level practice degree. This program offers a course of study in the pharmaceutical and clinical sciences designed to provide the state and the nation with pharmacists who are scientifically trained and clinically competent to deliver a full spectrum of pharmaceutical services in all areas of practice. In meeting its teaching obligation, the college provides a curriculum and faculty that offer students an educational experience beyond training solely for the practice of pharmacy.

The profession of pharmacy is evolving rapidly from a role primarily in distribution of medication toward a patient-oriented, pharmaceutical care model. Pharmaceutical care is a process through which a pharmacist interacts with the patient and other health care professionals in the design, implementation, and monitoring of a patient-specific therapeutic plan that will produce the desired therapeutic outcomes. To ensure that graduates have the necessary tools to practice in this complex, patient-oriented environment, the pharmacy curriculum has evolved from traditional discipline-specific coursework to a discipline-integrated approach of disease state management and a case-based, team approach to the design of the patient-specific therapeutic plan.

The professional curriculum is designed to prepare pharmacy graduates to provide patient-oriented pharmaceutical care in a contemporary setting, whether a community pharmacy, an ambulatory clinic, a hospital, or a long-term care facility, as well as to work in the pharmaceutical industry. In addition, the curriculum aims to inculcate an understanding of the basic sciences sufficient to prepare the student for graduate study in the pharmaceutical sciences. These objectives are pursued through a balanced program of study in pharmaceutics, medicinal chemistry, pharmacology, therapeutics, pharmacy administration, social and behavioral sciences, and the humanities, as well as a structured clinical and professional practice experiential program. The holder of a professional degree from the University of Texas at Austin has received an education and training as sophisticated as any available in the health professions.

The College of Pharmacy has conducted a joint PharmD degree program with the University of Texas Health Science Center at San Antonio since 1974. Students who complete their internship courses

at the Health Science Center are considered part of this program and receive a degree awarded jointly by the two institutions.

The college has cooperative programs with the University of Texas at El Paso and the University of Texas - Pan American, and educational affiliations with several other academic health institutions, including Scott & White Hospital in Temple, the University of Texas M. D. Anderson Cancer Center in Houston, the University of Texas Medical Branch at Galveston, and the University of Texas Southwestern Medical Center at Dallas; and with other University of Texas System academic components. The college also has cooperative practice arrangements with medical centers and other health care facilities throughout the state as part of the experiential program.

The college seeks to encourage the belief that education is ongoing and lifelong and that all levels of professional education must form a continuum with professional practice and patient care. To meet this objective, the college provides postgraduate educational programs and develops innovative programs of training through continuing education for the roles pharmacists may be called on to fill as a result of changes in the patterns of delivery of pharmaceutical services.

In addition to the PharmD degree, the University offers the Master of Science in Pharmacy and the Doctor of Philosophy with a major in pharmacy. Both graduate programs offer qualified students the opportunity to complete specialty practice residencies. These programs are described in the *Graduate Catalog*.

### History

For more than a century, the University's College of Pharmacy has provided education and training for men and women as pharmacy practitioners, scientists, professional leaders, and responsible citizens. Eleven students constituted the first class when a school of pharmacy was created in the fall of 1893 at the University of Texas Medical Branch at Galveston. In 1927, the program was reorganized as the College of Pharmacy and moved to the Austin campus. The college shared quarters with other University programs until 1952, when the first pharmacy building was opened. Instruction now takes place in facilities designed for the pharmacy program and located near the center of the Austin campus, and on the campuses of the University of Texas Health Science Center at San Antonio, the University of Texas at El Paso, and the University of Texas - Pan American in Edinburg.

The first undergraduate program consisted of two sessions, each seven months in length. The current PharmD degree program requires six years in preprofessional subjects, biomedical and pharmaceutical sciences, and professional experience courses. Graduate study became available in 1948 with the institution of a Master of Science in Pharmacy degree program. Today programs are also available that lead to the Doctor of Philosophy in the pharmaceutical, administrative, and clinical sciences. More than eight thousand students have graduated from the programs offered by the college; many have achieved state, national, and international prominence in pharmacy or in related health fields.

Academic leadership for pharmaceutical education at the University has been provided by eleven prominent educators, beginning with James Kennedy of San Antonio, who was appointed as a pharmacy professor and director of the Galveston program in 1893. He was succeeded by R. R. D. Cline, who for almost thirty years guided pharmaceutical education in Texas. When the school was moved to Austin in 1927, W. F. Gidley was named the first dean of the college. In 1947, Henry M. Burlage succeeded Professor Gidley as dean. He was succeeded in 1962 by Lee F. Worrell, who served until 1966. Carl C. Albers was acting dean until Joseph B. Sprowls was appointed dean

in 1967. William J. Sheffield became acting dean upon the death of Professor Sprowls in 1971. He was succeeded in 1973 by James T. Doluisio, who served the college for twenty-five years. Steven Leslie served as dean from 1998 until 2007, when M. Lynn Crismon assumed the leadership of the college.

University pharmacy students receive instruction in the basic biomedical sciences, the pharmaceutical sciences, pharmacy administration, and pharmacy practice in state-of-the-art academic and health care facilities. Pharmacy interns expand their professional practice knowledge and skills at clinical education sites in the Austin/Temple/Waco area, El Paso, and the Lower Rio Grande Valley, and at the University of Texas Health Science Center at San Antonio, the University of Texas Southwestern Medical Center at Dallas, the Texas Medical Center in Houston, and the University of Texas Medical Branch at Galveston.

## Facilities

### The Pharmacy Building

In addition to well-equipped classrooms, laboratories, and offices, the Pharmacy Building provides a learning resource computer center and laboratory, a television production laboratory and classrooms, and pharmaceutical technology laboratories with facilities for product development, pilot manufacturing, sterile production and quality control, and stability testing. The University Health Services Pharmacy also serves as a teaching laboratory for second-year pharmacy students while providing comprehensive pharmaceutical services to the student community. Space assigned to the college in the Biomedical Engineering Building and the Dell Pediatric Research Institute expands pharmacology, medicinal chemistry, and pharmaceuticals research space.

### Pharmacy Facilities in San Antonio

The University of Texas Health Science Center at San Antonio has provided facilities for the education and training of pharmacy students, residents, and fellows since 1972. The McDermott Clinical Sciences Building on the Health Science Center campus, which houses the pharmacotherapy division of the college and the Pharmacotherapy Education and Research Center, provides a state-of-the-art distance education classroom, a student computer laboratory, research laboratories, and offices for faculty and staff members. The Division of Pharmacotherapy maintains a broad range of affiliation agreements with institutions in San Antonio that provide extensive training opportunities in a variety of practice settings. Research opportunities exist in the areas of infectious disease, oncology, anticoagulation, stroke prevention, and psychiatry.

### Pharmacy Facilities in El Paso

The Cooperative Pharmacy Program with UT El Paso provides classrooms and conference rooms equipped for high-quality interactive telecommunications and satellite reception, as well as a complex of offices for faculty and staff members. Facilities can also accommodate intravenous admixture, patient assessment, and drug information. These accommodations supplement the physical facilities, student computer laboratories, libraries, and other services available on the University of Texas at El Paso campus.

### Pharmacy Facilities in Edinburg

The Cooperative Pharmacy Program with UT Pan American is located within the Edinburg Regional Academic Health Center (ERAHC), an educational and biomedical research facility. The building provides

research laboratories, computer and library facilities, staff and faculty offices, and conference rooms. The classrooms are equipped for both on-site and distance education and can accommodate instruction for intravenous admixture and patient assessment courses. The library, computer facilities, and health services on the UT Pan American campus are also available to students in the cooperative program.

## Office of Pharmacy Continuing Education

As part of a state university, the College of Pharmacy recognizes obligations to the profession of pharmacy on a state, national, and international level. The college began providing continuing education to pharmacists in 1953 in cooperation with the University's Division of Extension. Today, the college is an ACPE-approved provider of continuing pharmaceutical education. A primary goal of the Office of Pharmacy Continuing Education is to advance the pharmacist's knowledge and provide the skills necessary to adapt to a changing practice. Toward this end, the office offers a variety of programs, including home-study courses, seminars, multiday conferences, and certificate programs addressing the most current practice issues. Programs are conducted both on and off campus and by correspondence and distance learning. Annually, the office provides about 350 contact hours of continuing education programming to more than sixty-five hundred pharmacists across the United States.

## Learning Resource Center

The college's Learning Resource Center (LRC) offers a variety of instructional resources to students and faculty members. The LRC provides state-of-the-art digital video teleconferencing transmission of courses among the Austin campus, the Health Science Center at San Antonio, UT El Paso, UT Pan American, and other sites in The University of Texas System, so that faculty members can teach students at two or more locations simultaneously. Most courses are recorded and made available by videostreaming. The LRC also operates the Delgado Library, a multipurpose, nontraditional facility with computer support, individual and small-group study spaces, and seminar rooms.

The staff of the LRC provides faculty members and students with computer hardware and software consulting as well as advice on the use of media in the classroom. Facilities and equipment are available for video and data projection. The college's Web site (<http://www.utexas.edu/pharmacy/>) provides additional information and curriculum support for students and faculty members.

In the Delgado Library, students have access to desktop computers with removable media and CD drives, professional business software, and Internet client software. The electronic classrooms feature desktop computers with projection equipment and a full suite of software. The large distance-learning classroom supports notebook computer ports. Wireless high-speed Internet is available throughout the Pharmacy Building.

The goal of the Learning Resource Center is to provide the highest quality learning technology infrastructure and support services to students and faculty members.

## Libraries

The Life Science Library supports the teaching and research missions of the College of Pharmacy by providing access to an extensive array of print and electronic information resources. The library maintains extensive holdings in pharmacology, pharmaceuticals, pharmacy administration, and medicinal chemistry, with supporting materials in

medicine and nutrition. Biochemistry and medicinal chemistry material is complemented by the collections of the Mallet Chemistry Library. Medical material is supplemented by additional material in nursing, pediatrics, and psychiatry at the Perry-Castañeda Library.

The online Clinical Information Center (ClinIC), sponsored by the Life Science Library, provides electronic access to the complete resources of a drug information center. The center gives users access to significant electronic resources such as Micromedex, Access Pharmacy, AHFS Drug Information, Clinical Pharmacology Online, Facts & Comparisons, LexiComp online, and the Cochrane Library of evidence-based reviews, in addition to databases such as Medline, International Pharmaceutical Abstracts, Web of Science, and SciFinder Scholar. These electronic resources are available for remote access through the University Libraries Web site, which offers a full range of databases, access to electronic journals, and links to other digital information sources. Access to print information resources for students on rotation and at College of Pharmacy Cooperative Program campuses is provided through the University's D-Doc distance learning library service.

All units of the University Libraries offer reference service, circulation and reserve services, and interlibrary loan. Instruction in the use of information resources is provided in required pharmacy classes and by individual consultation.

## Financial Assistance Available through the College

Students entering the first year of the professional curriculum may be eligible to apply for certain college-based scholarships, and information is provided to students concerning these scholarships upon matriculation. Students who have completed the first year of the professional curriculum are eligible to apply for all scholarships and loans offered through the College of Pharmacy. Eligibility and application information is available at <http://www.utexas.edu/pharmacy/students/finaid/scholarship.html> and in the Office of Student Affairs, Pharmacy Building 5.112.

## Endowed Presidential Scholarship

To be eligible to receive an Endowed Presidential Scholarship, students must meet the college's eligibility requirements and must have maintained a 3.75 grade point average in required pharmacy courses. Students must also show evidence of active involvement in college, University, and other extracurricular activities. The minimum Endowed Presidential Scholarship is \$2,500.

## Other Endowed Scholarships

To be eligible to receive an endowed scholarship, students must meet the college's eligibility requirements. For some awards, students must meet additional criteria. The minimum endowed scholarship is \$1,500.

## Other Scholarships

Additional College scholarships are funded by various pharmacy associations, individuals, employers, and organizations. These scholarships are awarded, as they become available, through The University of Texas Pharmaceutical Foundation and at the direction of the Undergraduate Financial Aid Committee.

## Loan Funds

### The Klinck Family Loan Funds

These loan funds were established by the Klinck family of McAllen, Texas, to benefit students in need of financial assistance. Emergency loans, for a maximum of \$1000 are available; they normally are repayable within ninety days. Long-term loans of up to \$2,500 are available to pharmacy students who demonstrate financial need. The interest rate for these loans is six percent. Repayment begins three months after the student's graduation from pharmacy school, or once the student is no longer enrolled in the Pharmacy Program. Students may apply for more than one loan, but except in unusual circumstances the loans will total no more than \$5,000. Additional information is available in the Office of Student Affairs, Pharmacy Building 5.112.

### Other Loan Funds

Other loan funds may be available to pharmacy students. Information about these loans is available from the Office of Student Affairs, Pharmacy Building 5.112.

## Student Services

### Academic Advising

Academic and career advising are ongoing activities of the Office of Student Affairs, Pharmacy Building 5.112. Because advising is not restricted to the time just before registration, all students are strongly encouraged to seek advice whenever they need it about degree requirements, the availability of course offerings each semester, and taking courses in proper sequence.

Advising for University prepharmacy students is provided by assigned academic advisers in their colleges and by Health Professions Advising in the College of Natural Sciences. University students interested in the profession of pharmacy should contact that office early in their college careers. Prepharmacy students from outside the University should seek advice from the Office of Student Affairs of the College of Pharmacy.

### Career Services

The college provides career counseling to students in the professional sequence of courses. Throughout the year, career counselors are available in the Office of Student Affairs to assist students in examining the career options available to them upon graduation.

In addition, a systematic exploration of professional career options is conducted as part of the professional development convocation series of courses. Guest lecturers include successful pharmacists representing a variety of pharmacy practice models, other health care and regulatory settings, and careers in professional organizations, education, research, and the pharmaceutical industry.

The College of Pharmacy, under the supervision of the assistant dean for experiential and professional affairs, conducts a Placement Conference for graduating seniors. The conference gives seniors an opportunity to interview for professional practice positions with major employers of pharmacists in Texas and throughout the nation. A career workshop to prepare students for interviews is held prior to the Placement Conference as a part of Senior Conference. A college-wide Career Day each spring, featuring displays by major employers,

allows students in all years of the curriculum to interact with numerous pharmacist employers.

The college also facilitates interaction between employers and professional students interested in obtaining internships. More information on this process is provided to all students during the first professional year.

A limited number of competitive internships both in and outside of Texas are available by application only. Information is available in the Office of Student Affairs, Pharmacy Building 5.112; from individual faculty members; and via the student's own internship search.

As a complement to the assistance available from the college, the University's Sanger Learning Center and the Center for Strategic Advising and Career Counseling in the School of Undergraduate Studies provide comprehensive career services to all students. The centers offer professional assistance to students in choosing or changing their majors or careers, seeking an internship, and planning for a job search or graduate study.

The University makes no promise to secure employment for each graduate.

## **Student Organizations**

### **American Association of Pharmaceutical Sciences (AAPS)**

The University of Texas at Austin Student Chapter of AAPS was initiated in 2003 with the primary goal of increasing awareness of educational and career opportunities in the pharmaceutical sciences among UT College of Pharmacy students. The organization fosters participation at the national AAPS Annual Meeting and Exposition.

### **American Pharmaceutical Association Academy of Students of Pharmacy (UT-ASP)**

In December, 1951, the Longhorn Pharmaceutical Association was organized as an association jointly representing the student branches of the American Pharmaceutical Association and the Texas Pharmaceutical Association. Renamed in 1998, the association sponsors service projects and social events and serves to develop professionalism in pharmacy students.

### **Asian Pharmacy Students Association (APSA)**

The mission of the Asian Pharmacy Students Association, established at the University in 1999, is to promote unity among pharmacy students who have common interests, values, and backgrounds, in order to help them achieve educational, professional, and personal excellence.

### **Christian Pharmacists Fellowship International (CPFI)**

This group seeks to identify and enroll all Christian pharmacists, wherever they practice, and to assist them in creating opportunities for fellowship. CPFI is the first international organization of evangelical Christian pharmacists established with a focus on integrating the spiritual and vocational dimensions of the pharmacist's role.

### **Kappa Epsilon (KE)**

Kappa Epsilon is a national professional fraternity established to promote careers for women in pharmacy, but membership is open to women and men. Xi chapter, established in 1943, sponsors service

and professional projects, including a city-wide Poison Prevention program in elementary schools each March, as well as social events and other extracurricular activities.

### **Mexican American Association of Pharmacy Students (MAAPS)**

The primary goals of the Mexican American Association of Pharmacy Students are to assist in the recruitment and retention of qualified students in the College of Pharmacy, to provide health care education to the community, and to maintain open communication channels between students and the college. Membership is open to prepharmacy and professional students.

### **Pharmacy Council**

The Pharmacy Council is composed of officers and representatives of the recognized student organizations in the College of Pharmacy and elected student representatives from each of the professional pharmacy classes. The president, financial director, and Senate representative of the council are also members of the Senate of College Councils, and a member of the council serves as the college's representative to Student Government. Acting as liaison between the student body and the Office of the Dean, the Pharmacy Council works to ensure the equitable consideration of student concerns and problems. The council sponsors orientation programs for new pharmacy students, college and University-wide programs, and events that promote student-faculty interaction.

### **Pharmacy Graduate Students' Association (PGSA)**

This association conducts activities that promote the general welfare of pharmacy graduate students. Its chief purposes are to encourage and facilitate graduate student communication and interaction; to gather and disseminate information important to pharmacy graduate students; to represent pharmacy graduate students to the University community; and to promote pharmaceutical education at the undergraduate level.

### **Phi Delta Chi (PDC)**

Lambda chapter of Phi Delta Chi, established at the University in 1905, was reactivated in 1956. Phi Delta Chi is a professional pharmaceutical fraternity of national standing. Membership is open to qualified professional students who are interested in promoting leadership, scholarship, and professional ethics in the field of pharmacy.

### **Phi Lambda Sigma (PLS)**

Psi chapter of Phi Lambda Sigma, the national pharmacy leadership society, was established at the University in 1989. Students selected for membership must be of high moral and ethical character, must have demonstrated dedication, service, and leadership in the advancement of pharmacy, must have completed at least ninety semester hours of scholastic work, and must be in good academic standing as defined by the College of Pharmacy.

### **Rho Chi**

Nu chapter of Rho Chi, the national pharmaceutical honor society, was established at the University in 1930. Charters for chapters of this organization are granted only to groups in colleges that are members in good standing of the American Association of Colleges of Pharmacy. Eligibility for membership in the society is based on scholarship, character, personality, and leadership. Students selected for membership must have a pharmacy grade point average of at least 3.20, must be in the top 20 percent of their class, and must have

completed the first professional year of the pharmacy curriculum. All candidates must be approved by the dean of the College of Pharmacy.

### **UT Chapter, International Society of Pharmacoeconomics and Outcomes Research (UT-ISPOR)**

This group's mission is to provide an environment in which students can share knowledge in pharmacoeconomics and health outcomes research. It brings together students of pharmacoeconomics and outcomes research and members of the pharmaceutical industry, health-related organizations, and academia; acts as a resource for students interested in pharmacoeconomics and outcomes research; and provides an opportunity for students to become familiar with the work of ISPOR and to be represented in its affairs.

### **UT Chapter, National Community Pharmacists Association (NCPA)**

NCPA is a national professional organization representing the interests of independent community pharmacists. The student chapter sponsors projects and events designed to foster the entrepreneurial spirit among future practitioners. The national association has a loan program available to student members, as well as several competitive scholarships and research grants.

### **UT Chapter, National Pharmaceutical Association (SNPhA)**

The purpose of the SNPhA is to plan, organize, coordinate, and execute programs geared toward the improvement of the health, educational, and social environment of the minority community.

### **University of Texas Student Society of Health-System Pharmacists (UTSSHP)**

The student chapter of the Texas Society of Health-System Pharmacists is an organization for students interested in institutional or health-system pharmacy practice. An affiliate of the American and Texas Societies of Health-System Pharmacists, the organization considers a wide range of topics of interest to health professionals and encourages the broadest possible educational introduction to institutional pharmacy and pharmaceutical care. This introduction includes presentation of programs and seminars, tours of pharmacy practice sites, and distribution of literature. The chapter publicizes job openings in hospital pharmacies across the state.

### **Longhorn Prepharmacy Association (LPPA)**

LPPA comprises all prepharmacy students at UT Austin. The group's chief objectives are to function as a small community of students within a large institution; to provide current information on the preprofessional and professional curricula; and to provide information about the pharmacy profession.

## **Legal Requirements for Professional Practice**

Upon matriculation to the first professional year in the College of Pharmacy, each student must apply to become an intern trainee with the Texas State Board of Pharmacy (<http://www.tsbp.state.tx.us/>). Each student must be registered as an intern trainee, and subsequently as a student-intern, in order to acquire, through pharmacy courses, the internship hours necessary for licensure upon graduation as a pharmacist in Texas. Only after completion of the first

professional year (at least thirty semester hours) as certified by the College of Pharmacy may the intern-trainee become a student-intern with the Texas State Board of Pharmacy.

Students should be aware that the process of registration as an intern includes a criminal history and fingerprint check. The existence of a criminal record may preclude the student from registration as an intern, completion of experiential courses in the curriculum, and/or from subsequent licensure as a pharmacist in Texas. However, the Texas State Board of Pharmacy may grant limited internship status under certain conditions to those with prior convictions. It is possible that health care facilities in which students are placed for internship may mandate an additional background check and/or drug screen. Students assigned to these facilities must comply with all such requirements. If a student cannot be placed in internship facilities because of prior convictions that appear on any background check, or because of a positive drug screen, his or her graduation may not be possible or may be significantly delayed.

After completing the first professional year (at least thirty semester hours), students registered as student-interns may earn internship hours toward licensure not only through professional sequence pharmacy courses but also outside the academic program through employment in certain practice settings. Internship hours gained outside the College of Pharmacy curriculum, however, may not replace any portion of the experiential program required for graduation.

Graduates of the College of Pharmacy are eligible to apply to the Texas State Board of Pharmacy for licensure as pharmacists. Licensure exams may be taken shortly after graduation. Postgraduate internship experience is not currently required for Texas licensure but may be required for licensure in other states.

Additional information about requirements for pharmacy licensure in Texas is available from the Texas State Board of Pharmacy, William P. Hobby Building, 333 Guadalupe Street. The mailing address is PO Box 21, Austin TX 78701-3942. The URL is <http://www.tsbp.state.tx.us/>, and the telephone number is (512) 305-8000.

Intern registration and pharmacist licensure requirements are subject to change by the Texas State Board of Pharmacy. Students and graduates must meet current requirements, even if they differ from those described above.

## **Graduate Degrees**

Graduate programs leading to the Master of Science in Pharmacy and the Doctor of Philosophy are offered through the Graduate School and described in the *Graduate Catalog* (<http://registrar.utexas.edu/catalogs>). The graduate student may specialize in medicinal chemistry, pharmacology and toxicology, pharmaceuticals, pharmacotherapy, pharmacy administration, or translational science. Faculty members in each area work closely with students and engage in research in such fields as drug synthesis, pharmacokinetics, drug mechanisms and toxicity, and clinical research.

# Admission and Registration

## Admission

### Admission to the University

For the College of Pharmacy's PharmD program, admission and readmission are the responsibility of the dean of the College as delegated by the University's director of admissions. Students accepted to the PharmD Program will be processed for admission to the University (if not already enrolled at the University of Texas at Austin).

### Admission to the Professional Curriculum

Admission to the University in no way implies or guarantees admission to the professional curriculum. No student may begin the professional curriculum until he or she has been admitted to the professional curriculum in pharmacy by the dean, following recommendation by the Admissions Committee of the College of Pharmacy, according to the procedures outlined in this section regarding admission. All students must meet the admission requirements given in the catalog in effect at the time of application. If the number of eligible applicants to the professional curriculum exceeds the number that available facilities can accommodate, final selection is made by the college Admissions Committee and the dean.

Beginning with the admission cycle for fall 2013, which opens June, 2012, the College will use PharmCAS, the national PharmD application system. All student applications will go through PharmCAS, and those accepted for enrollment in the college will be processed for direct admission to the University.

Students who are enrolled in a pharmacy program at another institution and wish to transfer to the University should follow the normal application process. Upon admission to the University and the professional curriculum, the student may request advanced standing in the pharmacy curriculum. Placement is contingent on availability of space and on transcript evaluation to determine University equivalencies for the student's coursework.

As a condition of admission to the college, each student must sign a statement that he or she agrees to accept assignment to any one of the college's internship regions throughout the state. Cooperative arrangements for pharmacy education exist with academic units and health care institutions in the following internship regions: Austin/Temple/Waco, Dallas/Fort Worth, El Paso, Galveston/Houston, the Rio Grande Valley, and San Antonio. Internship regions may be added or deleted at any time based on the availability of resources. Elective regions, which provide limited internship experiences for a specified period of time (less than four months), may also be available.

Students assigned to San Antonio and students from UT El Paso and UT Pan American in Edinburg who are in the Cooperative Pharmacy Program must spend the last two years of the professional program in those regions. Students assigned to the other regions spend only the final year of the program (the fourth professional internship year) in their assigned region.

Students are assigned to internship regions through a computer-generated random assignment system that takes students' ranked preferences into account. Since most students relocate to internship regions outside the Austin area, region assignment occurs during the latter part of the first professional year to allow students adequate time to make personal and financial arrangements. There are no exceptions

to the region assignment process. If a student fails to agree to accept assignment to any region, he or she will not be admitted to the college.

The Cooperative Pharmacy Program is available to highly qualified high school seniors entering the University of Texas at El Paso or the University of Texas - Pan American. The program offers these students an alternate pathway for admission to the University of Texas at Austin College of Pharmacy once they complete the requirements of the program at the Cooperative Pharmacy Program campus. Additional information is available from UT El Paso at (915) 747-8535 or <http://chs.utep.edu/cpp/>, and from UT Pan American at (956) 318-5255 or [http://portal.utpa.edu/utpa\\_main/daa\\_home/hshs\\_home/pharmacy\\_home/](http://portal.utpa.edu/utpa_main/daa_home/hshs_home/pharmacy_home/).

### Admission to the First Professional Year

Admission to the professional curriculum is competitive. The application process is conducted via the national PharmD admissions program, PharmCAS, as specified on the PharmCAS website ([www.pharmacas.org](http://www.pharmacas.org) (<http://catalog.utexas.edu/undergraduate/pharmacy/admission-and-registration/http://www.pharmacas.org>)) and linked via the College of Pharmacy at <http://www.utexas.edu/pharmacy/admissions/pharmd.html>.

#### Basic Admission Criteria

1. Scholarship, as indicated by grade point average and Pharmacy College Admission Test (PCAT) scores, including writing sample scores, submitted via PharmCAS. Scores more than three years old are not accepted.

In evaluating the applicant's academic record, the Admissions Committee pays particular attention to the courses required for admission. Ideally, the applicant will have a grade point average of at least 2.80 in prerequisite coursework. Typically, more than 90 percent of successful applicants have grade point averages greater than 3.00, and more than 50 percent of successful applicants have grade point averages greater than 3.60. The applicant typically will have a PCAT composite score in at least the 70th percentile, a score in at least the 70th percentile in each area, and writing scores of at least 3.00. Typically, more than 75 percent of successful applicants have a composite score in the 70th percentile or better, and more than 50 percent of successful applicants have a composite score in the 85th percentile or better, as specified in the PharmCAS application process.

2. Essays as specified in the PharmCAS application process.
3. Letters of recommendation submitted via PharmCAS from people who know the applicant well professionally, especially pharmacist employers.
4. Transcripts of all academic work submitted via PharmCAS.
5. A résumé submitted via PharmCAS that provides details about the applicant's professional, organizational, volunteer, and service experience.

#### Additional Personal Factors

The information specified below is submitted either via PharmCAS or through the college's supplemental application.

1. Pharmacy and other related work experience
2. Organizational, service, and volunteer activities that demonstrate community involvement and leadership potential
3. Teaching, tutoring, and mentoring experience

4. Research experience
5. Honors and awards
6. Interview. Applicants are screened for interviews based on academic record, direct work experience in the profession, special life circumstances, and any other compelling factors. If the applicant is invited for an interview, then other factors are considered; these include but are not limited to the following:
  - A. Knowledge of and motivation for pharmacy as a career
  - B. Lifelong learning strategies
  - C. Critical thinking skills
7. Special life circumstances; these include but are not limited to the following:
  - A. Single parent
  - B. Socioeconomic status of family
  - C. First generation attending college
  - D. Overcoming adversity
  - E. Resident of an underserved area of the state or an area of Texas with a health professions shortage
  - F. Race and ethnicity
  - G. Cultural background

Because the University is a public institution, preference is given to applicants who are legal residents of Texas and to applicants from states without colleges of pharmacy. Applicants are strongly encouraged to examine the admission statistics published by the college on its admissions Web site, [http://www.utexas.edu/pharmacy/admissions/ad\\_stats.html](http://www.utexas.edu/pharmacy/admissions/ad_stats.html).

## Application Deadlines

The deadline to apply for admission to the college is specified on the PharmCAS website ([www.pharmcas.org](http://www.pharmcas.org) (<http://catalog.utexas.edu/undergraduate/pharmacy/admission-and-registration/http://www.pharmcas.org>)) and linked via the College of Pharmacy at <http://www.utexas.edu/pharmacy/admissions/>.

## Admission Requirements

1. The applicant must have completed at least sixty-six semester hours in total, and must have completed the following forty-five hours in prerequisite courses prior to enrolling in the professional pharmacy curriculum:
  - A. Nine hours of biology, including cellular and molecular biology, structure and function of organisms, and genetics
  - B. Eight hours of general chemistry with laboratory
  - C. Three hours of freshman-level rhetoric and writing
  - D. Three hours of sophomore-level survey of American, British, or world literature
  - E. Three to six hours of calculus (to include both differential and integral calculus)
  - F. Three hours of statistics
  - G. Eight hours of organic chemistry with laboratory
  - H. Four to five hours of microbiology with laboratory
  - I. Four hours of physics with laboratory

The remaining twenty-one semester hours should be the Core Curriculum (p. 22).

2. The applicant must remove all deficiencies in high school units by the means prescribed in *General Information* before seeking admission to the professional curriculum.

## Admission Procedures

1. All applications for the PharmD Program will be handled through the national PharmD admissions system, PharmCAS ([www.pharmcas.org](http://www.pharmcas.org) (<http://www.pharmcas.org>)). Students must adhere to the deadlines for admission specified. The PharmCAS application process will include a supplementary application to the college (with a nonrefundable supplementary application fee) necessary to acquire additional academic information for University admission. Candidates will be notified if additional information is required.
2. Selected applicants will be asked to appear for a personal interview.
3. The applicant is considered on the basis of overall academic performance, with emphasis on grades in the required PharmD prerequisite courses. In accordance with University policy, courses in which the applicant earned a grade of *D+*, *D*, *D-*, or *F* at another institution are not transferable and may not be used to fulfill any degree requirements. However, courses in which the student earned a grade of *D+*, *D*, or *D-* are considered when the student's admissibility to the professional curriculum is determined.
4. Applicants who have been offered admission to the University and to the PharmD program will be asked to pay a nonrefundable enrollment deposit to the University. If the student does enroll in the program that fall, the deposit will be applied to the semester's tuition bill.
5. All students accepted for admission in the PharmD Program will be processed for admission to the University of Texas using the information in the PharmCAS application. Additional materials for University admission may be required:
  - A. A high school transcript, if the applicant's foreign language requirement was completed in high school. Official transcripts must be sent to the University's Office of Admissions.
  - B. Scores on the Texas Higher Education Assessment (THEA) test (or an appropriate assessment test), if and only if the student is required by state law to take this test.
  - C. Credit earned by examination. These reports should be sent directly to the Center for Teaching and Learning—Student Testing Services at the University.
  - D. Official transcripts for all colleges/universities attended.
6. An applicant who has been admitted to the University and to the professional curriculum but fails to enroll in either, and who wishes to enter the professional curriculum in a subsequent fall semester, must reapply both to the University and to the College of Pharmacy and must meet all requirements in force at the time of reapplication.
7. An applicant who has been admitted to and enrolls in the professional curriculum but subsequently withdraws, and who wishes to reenter in a subsequent fall semester, must apply for readmission to the professional curriculum and must meet all

requirements in force at the time of reapplication. A student who has been out of the University for a semester or more must also apply for readmission to the University.

Although not a College of Pharmacy requirement, students may be subject to other health clearance requirements mandated by health care facilities for practicum.

## Technical Standards

"Technical standards" are the observational, communication, sensory/motor, and intellectual skills, the behavioral and social attributes, and the ethical values required for the completion of the professional curriculum and for the practice of pharmacy. These standards are described on the college's Web site at <http://www.utexas.edu/pharmacy/edutrain/technicalstandards.html>. Each applicant should review the technical standards. Any applicant who believes he or she may have difficulty meeting them should contact the college's director of admission.

## Registration

*General Information* gives information about registration, adding and dropping courses, transfer from one division of the University to another, and auditing a course. The *Course Schedule*, [registrar.utexas.edu/schedules/](http://registrar.utexas.edu/schedules/), published before registration each semester and summer session, includes registration instructions, advising locations, and the times, places, and instructors of classes. The *Course Schedule* and *General Information* are published on the registrar's Web site, <http://registrar.utexas.edu/>.

## Registration as a Student Pharmacist-Intern

Upon matriculation to the first professional year, each student must register as an intern-trainee with the Texas State Board of Pharmacy. This is accomplished through completion of the Application for Student-Intern Registration. Each student must be registered first as an intern-trainee and subsequently as a student-intern in order to complete the academic requirements for the degree.

Additional information regarding intern registration and pharmacist licensure is given in the section Legal Requirements for Professional Practice (p. 590). This regulation is subject to change by the Texas State Board of Pharmacy. Every attempt is made to inform students of changes as they occur.

## Professional Liability Insurance

Professional liability insurance is required of all students each year of the professional pharmacy curriculum. Coverage in the amount of two million dollars for each claim and four million dollars in the aggregate per year is provided through the insurance policy. The approximate annual premium is \$17.00, payable by the student. The policy covers the period September 1 through August 31.

## Medical Clearance Requirements

In addition to the University's immunization requirements, students must meet additional immunization requirements for students in healthcare programs as articulated in Title 25 of the Texas Administrative Code, Rule 97.64, and as mandated by the practice sites in which students participate in practicum experiences.

Immunization requirements are subject to change. Every effort is made to notify students promptly of any changes. A current list of vaccination requirements can be found online at <http://www.utexas.edu/pharmacy/general/experiential/student/immunization.html>.

## Student Health Insurance

Students must procure health insurance to cover treatment for injuries or illness, and must provide proof of insurance each year of the curriculum. This is especially important for the experiential components of the curriculum, spanning all four professional years, when students have frequent contact with patients in a number of different health care facilities.

The Student Health Insurance Plan, operated under the auspices of University Health Services, offers optional low-cost insurance for students who are not covered by other programs. Information about this plan is available through University Health Services.

## Academic Policies and Procedures

### Academic Standards

University regulations on scholastic probation and dismissal are given in *General Information* (<http://registrar.utexas.edu/catalogs/>). In addition, the following academic standards are in effect in the College of Pharmacy.

### Academic Progress

1. The student must repeat a required pharmacy course in which he or she earns a grade of *F*. The student who earns a grade of *D+*, *D*, or *D-* in a required pharmacy course becomes subject to the policies on academic probation and dismissal described below.
2. The student must earn a grade of at least *C-* in each elective pharmacy course. If the student fails to earn a grade of at least *C-* in an elective pharmacy course, he or she may repeat the course or may take another elective course in its place, but only courses in which the student has earned a grade of at least *C-* may be counted toward the professional elective requirement.
3. The student must earn an average of at least two grade points (2.00) a semester hour on all courses undertaken at the University, whether passed or failed in order to graduate. The student must also earn an average of at least two grade points (2.00) a semester hour on all required pharmacy courses undertaken, whether passed or failed.
4. The student may not repeat for credit a course in which he or she has earned a grade of *C-* or better, except under circumstances approved by the dean.
5. Pharmacy elective courses & and laboratory problems courses can be taken on the letter-grade or pass/fail basis, unless otherwise stated in the *Course Schedule*, [registrar.utexas.edu/schedules/](http://registrar.utexas.edu/schedules/). However, the student must complete the Professional Electives Course Requirement (p. 597) for elective courses taken for a letter grade.

## Academic Probation and Dismissal

A student is placed on academic probation in the College of Pharmacy if he or she receives a grade of *D+*, *D*, *D-*, or *F* in any required pharmacy course. If the grade received is an *F*, the student must repeat the course and may not progress to courses for which it is a prerequisite until he or she has earned a grade of at least *C-* in the failed course. If the initial grade received is a *D+*, *D*, or *D-*, the student may progress to courses for which the course is a prerequisite. The student may choose to repeat a course in which he or she received a *D+*, *D*, or *D-*, if the course does not conflict with other courses the student would normally take in the same semester; however, this choice affects the student's release from academic probation as described in the following section.

If the student receives more than two incompletes in required pharmacy courses, regardless of the grades ultimately awarded, he or she is subject to review by the Academic Performance Committee. The committee may choose to place the student on academic probation.

A student is subject to dismissal from the college if he or she receives more than one *D+*, *D*, *D-*, or *F* in required pharmacy courses in one semester. The student is also subject to dismissal if he or she receives an additional *D+*, *D*, *D-*, or *F* while on academic probation or conditional academic probation.

Students on academic probation are expected to focus on academic improvement and thus are not allowed to hold student offices (elected or appointed) or to receive college stipends for travel to professional meetings or other college-sponsored events.

### Release from Academic Probation

After receiving a grade of *F*, the student must repeat the course and earn a grade of at least *C-*. If the failed course is a prerequisite for another course, the student must repeat the course and earn a grade of at least *C-* before taking the course for which the failed course is a prerequisite. In the semester or summer session in which he or she repeats the course, the student must complete a full academic load, including at least five hours in required pharmacy courses and/or other courses recommended by the academic adviser. A full academic load is defined for this purpose as twelve hours in a long-session semester and six hours in the summer. The new grade is averaged with the grade of *F* when the student's pharmacy grade point average is calculated. If the new grade is *C-* or better, the student is released from academic probation if and only if he or she has earned no further grades of *D+*, *D*, *D-*, or *F* while on academic probation or conditional academic probation. If the student does not earn a grade of at least *C-* upon repeating the course, he or she is subject to academic dismissal.

After receiving a grade of *D+*, *D*, or *D-*, the student chooses whether or not to repeat the course, if the course does not conflict with other courses the student would normally take in the same semester. He or she may progress to courses for which the course in question is a prerequisite. If the student chooses to repeat the course, he or she must earn a grade of at least *C-*. If the new grade is a *C-* or better, the student is released from academic probation only if he or she has earned no further grades of *D+*, *D*, *D-*, or *F* while on academic probation or conditional academic probation. If the student does not earn a grade of at least *C-* upon repeating the course, he or she is subject to academic dismissal. The new grade is averaged with the grade of *D+*, *D*, or *D-* when the student's pharmacy grade point average is calculated.

If the student chooses not to repeat the course, he or she remains on academic probation (or conditional academic probation, described

below) through completion of the P4 advanced pharmacy practice experiential courses in the final semester. To take the P4 experiential courses, the student must have a grade point average of at least 2.00 in required pharmacy courses. If the student earns the symbol *CR* in each P4 advanced pharmacy practice course, he or she is released from probation and graduates in good academic standing with the college.

### Conditional Academic Probation

If a student on academic probation receives no grade lower than *C-* in required pharmacy courses during the following semester or summer session in which he or she takes a full academic load, the student may be placed on conditional academic probation. This status allows the student to hold student office (elected or appointed) and to receive college stipends for travel to professional meetings or other college-sponsored events. The student remains on conditional academic probation until graduation and is subject to dismissal if he or she receives a second grade of *D+*, *D*, *D-*, or *F*.

### Calculation of the Grade Point Average

1. The student's University grade point average includes all courses taken at the University for which a grade or symbol other than *Q*, *W*, *X*, or *CR* is recorded. If the student has repeated a course, including those courses for which he or she earned a grade of *D+*, *D*, *D-*, or *F*, all grades earned are included in the University grade point average.
2. The student's College of Pharmacy grade point average includes all required professional courses (excluding ALL elective courses) taken at the University for which a grade or symbol other than *Q*, *W*, *X*, or *CR* is recorded. When a student repeats a required pharmacy course, the second grade in the repeated course is averaged with the previous grade when the student's College of Pharmacy grade point average is calculated.

### The Academic Performance Committee

The College of Pharmacy Academic Performance Committee monitors the academic progress of students in the professional program. The committee makes recommendations to the dean regarding students' academic progress and academic probation and dismissal. The committee also makes recommendations to assist students who may be in academic difficulty. Any student in academic difficulty may be asked to appear before the committee for guidance. The committee hears all student appeals regarding academic progress and academic probation and dismissal. The committee aids the Admissions Committee in the evaluation of students who wish to return to the college after having been dismissed.

### Course Load and Sequence of Work

1. To progress to the final-year experiential courses, the student must have successfully completed all basic education requirements and all required and elective pharmacy courses except those in the internship year.
2. Because final-year experiential courses are offered on the pass/fail basis only, students must have attained both the University and the College of Pharmacy grade point average of at least 2.00 required for graduation before they begin the P4 advanced pharmacy practice experiential year.

3. If a conflict arises between University requirements and a student's employment, the student must resolve the conflict in favor of the University requirements.
4. A student who is not on academic probation must take at least twelve semester hours during any long-session semester, at least six hours of which must be for a letter grade (not pass/fail).
5. A student on academic probation must take at least twelve semester hours during any long-session semester or at least six semester hours during the summer session in order to clear academic probation.
6. Students may not take courses for degree credit at another institution without prior approval from the dean of the College of Pharmacy.
7. All students seeking to reenter the College of Pharmacy after having been placed on academic dismissal must make formal application through the Admissions Committee. The application is processed through the Admissions Committee with recommendations from the Academic Performance Committee and the approval of the dean.

## Early Practice Experience

All students must participate in an early practice experience, which consists of at least two hundred hours in either a community pharmacy or a hospital pharmacy practice setting. Since the student must be registered with the Texas State Board of Pharmacy as a student-intern before gaining these hours, and since that registration requires that students have completed the first year of the professional sequence, students may not begin accruing these hours until after the first professional year. The early practice experience must be completed before the student begins the fourth professional year.

Additional information is provided to students during the first professional year.

## Standards of Ethical Conduct

Pharmacy practitioners enjoy a special trust and authority based on the profession's commitment to a code of ethical behavior in its management of client affairs. The inculcation of a sense of responsible professional behavior is a critical component of professional education, and high standards of ethical conduct are expected of pharmacy students.

Toward that end, the faculty and students of the College of Pharmacy have pledged their support to the Policy Statement on Ethical Conduct and Scholastic Integrity and the Code of Ethics that implements this Policy Statement. Upon entering the College of Pharmacy, and each academic year thereafter, students are asked to recite and sign the following pledge:

"As a student of the University of Texas College of Pharmacy, I have reviewed and hereby pledge my full support to the Honor Code. I pledge to be honest myself, and in order that the spirit and integrity of the Honor Code may endure, I pledge that I will make known to the appropriate authorities cases of dishonesty which I observe in the College of Pharmacy."

In addition, the following oath, which students will be asked to sign, is included at the end of all class examinations: "I have neither participated in nor witnessed any acts of academic dishonesty pertaining to this assignment." At the discretion of the instructor, the

oath may also be included for other assignments such as quizzes, written reports, or papers.

The entire text of the Policy Statement on Ethical Conduct and Scholastic Integrity and the Honor Code are available at <http://www.utexas.edu/pharmacy/students/handbook98/3code.html>.

Students who violate University rules on scholastic dishonesty are subject to disciplinary penalties, including failure of the course involved and dismissal from the college and/or the University. Since dishonesty harms the individual, fellow students, and the integrity of the University and the College of Pharmacy, policies on scholastic dishonesty are strictly enforced.

## Attendance in Class and Laboratories

Students in the College of Pharmacy are expected to attend all scheduled class and laboratory sessions in courses for which they are registered. If attendance is a course requirement that can impact the student's grade, the criteria for assessing attendance and consequences for nonattendance must be specified in the syllabus.

## Honors

University-wide honors are described in *General Information*. In addition, the College of Pharmacy encourages academic excellence through Rho Chi, the national pharmaceutical honor society, described in *Student Organizations* (p. 589), and through the Pharmacy Honors Program.

### University Honors

The designation University Honors, awarded at the end of each long-session semester, gives official recognition and commendation to students whose grades for the semester indicate distinguished academic accomplishment. Both the quality and the quantity of work done are considered. Criteria for University Honors are given in *General Information*.

## Graduation with University Honors

Students who, upon graduation, have demonstrated outstanding academic achievement are eligible to graduate with University Honors. Criteria for graduation with University Honors are given in *General Information*.

## Pharmacy Honors Program

### Criteria for Admission

Students who plan to seek special honors in pharmacy should apply to the chair of the Honors Program Committee after they have completed the fall semester of the first professional year; they must apply before they begin the second professional year. Students interested in the Pharmacy Honors Program are strongly encouraged to enroll in Pharmacy 151R, *Research Opportunities in the Pharmaceutical Sciences* in the spring semester of their first professional year. The criteria for admission to the program are (1) admission to the professional curriculum; (2) a grade point average of at least 3.00 in all required professional coursework completed at the time of application to the program; and (3) approval of the Honors Program Committee.

### Requirements for Completion

Requirements for the completion of the honors program are (1) a grade point average of at least 3.00 in all required professional courses; (2) a grade point average of at least 3.00 in all professional courses,

including required professional elective coursework; (3) completion of Pharmacy 167H at least twice; (4) completion of at least one honors elective; (5) completion of Pharmacy 278H and 479H; and (6) completion of the regular curriculum for the degree.

The statement "Research Honors in Pharmacy" appears on the transcript of each graduate certified to have completed the honors program.

## College of Pharmacy Recognition Awards

**The Highest GPA Award** is given to the graduate(s) with the highest grade point average in required PharmD courses.

**The Second Highest GPA Award** is given to the graduate(s) with the second highest grade point average in required PharmD courses.

**The College of Pharmacy Award for Outstanding Research** is given to a graduate who has demonstrated outstanding ability in areas of pharmacy research.

**The College of Pharmacy Award for Excellence in Patient Care** is presented to a graduate who has demonstrated excellence in patient care while pursuing the PharmD degree.

**The College of Pharmacy Award for Dedicated Service** is presented to a graduate who has shown a commitment to service above and beyond the norm.

**The College of Pharmacy Award for Exemplary Leadership** is presented to a graduate who has excelled in leadership while pursuing the PharmD degree.

**The College of Pharmacy Alumni Association Mortar and Pestle Award for Leadership, Service, and Patient Care** recognizes an exceptional graduate who has demonstrated outstanding leadership, service, and patient care in the college, the University, and the community while pursuing the PharmD degree. The award is a hand-carved mortar and pestle.

**College of Pharmacy Class Officers** are elected by their classmates and serve as permanent officers of their class.

Students' scholarly accomplishments are also recognized through election to Rho Chi, the national pharmaceutical honor society, and through admission to the Pharmacy Honors Program. Students' leadership accomplishments are recognized through election to Phi Lambda Sigma, the national pharmacy leadership society.

## Graduation

All students must fulfill the General Requirements (p. 18) for graduation. In addition, students seeking the Doctor of Pharmacy (PharmD) must complete in residence the courses prescribed for the third and fourth professional years.

## Degrees and Programs

The University offers the PharmD as the sole entry-level pharmacy practice degree. As described in the mission (p. 586), this program emphasizes an integrated and problem-based approach to disease

management as the core of the didactic, laboratory, and experiential program of study.

The capstone of the PharmD program is a series of seven six-week rotations known as the advanced pharmacy practice experiences (APPE). Each APPE course requires between forty and fifty on-site, practitioner-faculty-supervised hours of internship experience a week for six weeks.

The college expects but cannot guarantee that experiential sites will include Austin/Temple/Waco, Dallas/Fort Worth (the University of Texas Southwestern Medical Center and other area health care facilities), El Paso (the University of Texas at El Paso and area health care facilities), Galveston/Houston (the University of Texas Medical Branch at Galveston, the University of Texas M. D. Anderson Cancer Center, and other area health care facilities), the Rio Grande Valley (the University of Texas - Pan American and health care facilities primarily in Harlingen and McAllen), and San Antonio (the University of Texas Health Science Center and other area health care facilities). Students in the UT El Paso and UT Pan American cooperative programs and students assigned to San Antonio spend two years in these regions, while students assigned to other regions spend only the final year in the APPE region.

College of Pharmacy students who complete their experiential courses at the University of Texas Health Science Center at San Antonio are considered part of a joint PharmD degree program and receive a degree awarded jointly by the two institutions. The joint nature of this program is reflected on the student's diploma. Students who complete the UT El Paso or UT Pan American cooperative program receive a diploma reflecting the cooperative nature of their programs of study.

In completing the Doctor of Pharmacy degree, students also fulfill the internship requirements of the Texas State Board of Pharmacy. The final year of APPE courses and several other practice-based experiential courses, beginning in the first professional year, make up the experiential program. The professional experience courses are currently approved by the Texas State Board of Pharmacy to meet its standards for completion of the professional internship licensure requirement. The board reassesses all programs annually.

## The Minor

While a minor is not required as part of the PharmD degree program, the student may choose to complete additional coursework in a field outside of the College of Pharmacy. The minor consists of at least twelve semester hours of coursework in a single field of study or in closely related fields, including at least nine hours of upper-division work. The upper-division coursework must be completed in residence; coursework the student takes on a cooperative program campus in the third professional year may be counted. A course to be counted toward the minor may not be taken on the pass/fail basis, unless it is offered only on that basis. A course may not be counted both toward the minor and toward the 213 hours of work required for the PharmD degree.

Students are encouraged to use health-care-related courses to make up the minor; lists of such courses in a variety of fields are available in the Student Affairs Office. While the College of Pharmacy allows students to minor in any field in which the University offers a major, prerequisites and other enrollment restrictions may prevent the student from minoring in some fields. Before planning to take specific courses, the student should consult a pharmacy adviser and the department that offers the courses.

Written verification that a student completed the minor is available from the dean's office.

## Applicability of Certain Courses

### Physical Activity Courses

Physical activity (PED) courses are offered by the Department of Kinesiology and Health Education. They may not be counted toward a degree in the College of Pharmacy. However, they are counted among courses for which the student is enrolled, and the grades are included in the University grade point average.

### ROTC Courses

Courses in air force science, military science, and naval science may be substituted for a total of nine semester hours of nonpharmacy electives by students who complete the sixteen to twenty semester hours of required air force science, military science, or naval science coursework and accept a commission in one of the services. These courses may not be counted toward the professional elective requirement.

### Correspondence and Extension Courses

Credit that a University student in residence earns simultaneously by correspondence or extension from the University or elsewhere or in residence at another school will not be counted toward a degree unless it is specifically approved in advance by the dean. No more than 30 percent of the semester hours required for any degree may be completed by correspondence, and no pharmacy courses taken by correspondence or extension may be counted toward a pharmacy degree.

### Prescribed Work

Students who enter the Doctor of Pharmacy degree program must complete a minimum of 213 semester hours of coursework in the areas described below—the core curriculum, additional basic education requirements, professional electives, and preprofessional and professional coursework.

### Core Curriculum

Each student must complete the University's Core Curriculum (p. 22). Because of the intensity and structure of the professional pharmacy curriculum, and because admission to the professional curriculum is highly competitive, the College of Pharmacy strongly recommends that students complete all of the core courses before they enter the college

The following core requirements are met by the preprofessional and professional coursework described below: English composition, mathematics, science and technology (parts I and II), and humanities. Students must complete additional coursework to meet the core requirements listed below; the courses in each core area are listed in Core Curriculum (p. 22).

Courses	Sem Hrs
First-year signature course	3
For students who enter the professional curriculum in fall 2010 or fall 2011, an approved course in the College of Natural Sciences will meet this requirement; students who enter the professional curriculum in fall 2012 or later must meet this requirement as directed by the School of Undergraduate Studies.	
American and Texas government	6
American history	6
Social and behavioral sciences	3
Visual and performing arts	3
<b>Total</b>	<b>21</b>

Transfer students who complete the core curriculum at another public Texas institution of higher education with core completion specified on their transcript and who are then admitted to the PharmD program are considered "core complete" by the University. Core curriculum requirements are waived for students admitted to the PharmD program who have previously earned a bachelor's degree.

### Additional Basic Education Requirements

All students must also earn the following skills and experiences flags: writing, quantitative reasoning, cultural diversity in the United States, ethics and leadership, and independent inquiry. See skills and experiences for more information; courses that carry these flags are identified in the *Course Schedule*, <http://registrar.utexas.edu/schedules/>.

Students who enter the professional curriculum in fall 2012 or later must also earn a global cultures flag as directed by the School of Undergraduate Studies. The global cultures flag is not required of students who enter the professional curriculum in fall 2010 or fall 2011.

Flag requirements are waived for students admitted to the professional curriculum who have already earned a bachelor's degree.

All students must complete the foreign language (p. 24) requirement before they enter the professional curriculum.

### Professional Electives Course Requirement

The student must complete at least two professional elective courses, for a total of at least six semester hours, on the letter-grade basis. The student must take the courses used to fulfill the professional electives requirement after admission to the professional curriculum.

### Preprofessional and Professional Coursework

The following courses are required. The course sequence given here shows the usual order in which courses are taken to fulfill prerequisite requirements and illustrates the feasibility of completing requirements for the degree within six calendar years. Students who depart significantly from this sequence may need more time to complete their coursework, because most courses are taught only once a year and because in a given semester the scheduled meeting

time of a preprofessional or professional course may conflict with the times of core courses or professional electives.

Courses Sem Hrs

**First Preprofessional Year**

Fall	
Biology 311C, <i>Introductory Biology I</i>	3
Chemistry 301, <i>Principles of Chemistry I</i>	3

## Courses

The faculty has approval to offer the following courses in the academic years 2012–2013 and 2013–2014; however, not all courses are taught each semester or summer session. Students should consult the *Course Schedule* (<http://registrar.utexas.edu/schedules>) to determine which courses and topics will be offered during a particular semester or summer session. The *Course Schedule* (<http://registrar.utexas.edu/schedules>) may also reflect changes made to the course inventory after the publication of this catalog.

### Pharmacy: PHR

#### University Courses

##### PHR 310K. Drugs in Our Society.

Survey of drug development, distribution, and safety, including therapeutic categories of drugs, their actions and abuse potential, and the sociological aspects of drug use. Three lecture hours a week for one semester. Pharmacy 310K and 350K may not both be counted. Not open to students in the professional pharmacy curriculum and may not be counted toward the professional elective requirement in pharmacy.

##### PHR 119L, 219L, 319L, 419L, 519L, 619L. International Learning Seminars.

Restricted to students participating in a Maymester Abroad course. Discussion of various issues related to the academic, cultural, and personal aspects of completing academic work in international locations. For each semester hour of credit earned, one lecture hour a week for one semester. Pharmacy 119L, 219L, 319L, 419L, 519L, 619L and Undergraduate Studies 119 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Offered on the letter-grade basis only.

##### PHR 129L, 229L, 329L, 429L, 529L, 629L. International Learning Seminars.

Restricted to students participating in a Maymester Abroad course. For each semester hour of credit earned, one lecture hour a week for one semester. Pharmacy 129L, 229L, 329L, 429L, 529L, 629L and Undergraduate Studies 119 may not both be counted unless the topics

vary. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

### **PHR 338. Introduction to Pharmacology.**

Survey of basic concepts and principles in pharmacology. Three lecture hours a week for one semester. Required for all preprofessional students in the School of Nursing. May not be counted toward the professional elective requirement in pharmacy. Prerequisite: Credit or registration for Biology 365S, 446L (or 416K), or Kinesiology 324K.

### **PHR 350K. Drugs in Our Society.**

Survey of drug development, drug actions and abuse potential, and sociological aspects of drug use. Three lecture hours a week for one semester. Pharmacy 310K and 350K may not both be counted. Not open to students in the professional pharmacy curriculum and may not be counted toward the professional elective requirement in pharmacy. Prerequisite: Upper-division standing.

### **PHR 160J, 260J, 360J. Basic Study in Pharmaceutical Research for Nonmajors.**

Original investigation in any area of the pharmaceutical sciences. For each semester hour of credit earned, three laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Consent of instructor and the dean.

### **PHR 361C. Introduction to Complementary and Alternative Medicine.**

Representative practices in four domains of complementary and alternative medicine (CAM): mind-body medicine, biologically based practices, manipulative and body-based practices, and energy medicine. The use of evidence-based criteria to evaluate the risks and benefits of selected complementary therapies and the challenges of building an evidence base as illustrated by landmark research studies. Also includes an experiential component to familiarize the student with fundamental CAM concepts. Three lecture hours a week for one semester. May not be counted toward the professional elective requirement. Offered on the letter-grade basis only. Prerequisite: Upper-division standing in a health-related major or consent of instructor.

## **Professional Courses**

### **PHR 320M. Pharmaceutical Marketing.**

Concepts of marketing as they apply to the pharmaceutical industry, pharmaceutical products, and the health care environment. Three lecture hours a week for one semester. Prerequisite: Pharmacy 244C and 144P.

### **PHR 321K. Introduction to Pharmaceutical Chemistry.**

Current concepts and principles fundamental to the study of the structure of matter and of its relationship to pharmaceutically significant properties. Three lecture hours a week for one semester. May not be counted toward the professional elective requirement. Prerequisite: Chemistry 310M or the equivalent.

### **PHR 322H. Research Design and Methodology.**

Concepts and procedures involved in designing and carrying out a research project. Three lecture hours a week for one semester. Prerequisite: Admission to the Pharmacy Honors Program or consent of instructor.

### **PHR 322P. New Concepts, Topics, and Issues in Pharmacy Practice.**

New concerns, topics, and issues in pharmacy practice. Three lecture hours a week for one semester. Prerequisite: Credit or registration for Pharmacy 364D.

### **PHR 326C. Community Pharmacy Management.**

Advanced concepts in community pharmacy management for the student who plans to become a pharmacy owner or manager. Topics include operational, personnel, and financial management; marketing; layout and design; and the delivery of pharmaceutical care in a community pharmacy setting. Three lecture hours a week for one semester. Prerequisite: Pharmacy 244C.

### **PHR 326M. Applied Pharmacy Management.**

Organizational structure of the hospital pharmacy; principles of financial systems and personnel management. Three lecture hours a week for one semester. Prerequisite: Pharmacy 244C and 144P.

### **PHR 329C. Pharmacy Association Management.**

An introduction to the principles involved in managing pharmacy associations. Students gain practical experience in a community pharmacy. Nine hours of fieldwork a week for one semester. Pharmacy 329C and 389C may not both be counted. Prerequisite: Pharmacy 244C and 144P and consent of instructor.

### **PHR 629D. Pharmacy Association Management Residency.**

Experience working in a pharmacy association, including active involvement in some managerial aspect of the association. Eighteen hours of fieldwork a week for one semester. Pharmacy 629D and 689D may not both be counted. Prerequisite: Pharmacy 364D and consent of instructor.

### **PHR 139H. Pharmacy Administration for Honors Students.**

Each student conducts an in-depth examination of a selected issue in pharmacy administration. Three laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Admission to the Pharmacy Honors Program and Pharmacy 244C and 144P.

### **PHR 340D. Structure-Activity Relationships and Mechanisms of Action.**

Study of structure-activity relationships as the basis for investigation of mechanisms of drug-receptor interactions. Model compounds are selected from enkephalins, morphine-like analgesics, cholinergics, and adrenergics. Three lecture hours a week for one semester. Pharmacy 340D and 380D may not both be counted. Prerequisite: Admission to the Pharmacy Honors Program, Pharmacy 675E and 175P with a grade of at least B- in each, or consent of instructor.

### **PHR 341C. Pharmaceutical Biochemistry I.**

Basic principles of intermediary metabolism, with emphasis on defects in pathways that result in disease and on identification of molecular targets for therapeutic control. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum.

### **PHR 342C. Physical and Chemical Principles of Drugs.**

Fundamental, introductory principles of pharmaceuticals, including thermodynamics, kinetics, and other basic chemical principles related to drugs. Three lecture hours a week for one semester. Offered on

the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum, and credit or registration for Pharmacy 142P.

#### **PHR 242D. Introduction to Patient Care.**

Introduction to the profession of pharmacy, including the principle of service. Includes fieldwork in a local eldercare facility. One lecture hour and up to three laboratory hours a week for two semesters; and a minimum of twelve additional hours of fieldwork to be arranged over two semesters. Pharmacy 242D and 249 may not both be counted. Offered on the letter-grade basis only. Prerequisite: For 242DA, admission to the professional pharmacy curriculum; for 242DB, Pharmacy 242DA.

#### **PHR 142H. Professional Development Convocation I.**

Professional development issues and assessments for PharmD students in the first professional year. Includes students' professional and program-specific responsibilities, such as program evaluations, portfolios, and administrative requirements; practice opportunities in pharmacy; and expected areas and levels of professional growth as the student advances through the curriculum. One lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum.

#### **PHR 142P. Physical and Chemical Principles of Drugs Laboratory.**

Problem-based learning exercises to reinforce the material presented in Pharmacy 342C. One lecture hour and three laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum, and credit or registration for Pharmacy 342C.

#### **PHR 343C. Function and Anatomy of Human Systems I.**

Basic principles of human physiology and anatomy in relation to drug action. Includes cellular and subcellular physiology, membrane transport, electrophysiology, synaptic transmission, and autonomic, neurological, and cardiovascular physiology and anatomy. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum.

#### **PHR 143M. Medicinal Chemistry Principles.**

Introduction to medicinal chemistry principles. Topics include drug metabolism and the transition from organic to medicinal chemistry. One lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum, and credit or registration for Pharmacy 143P.

#### **PHR 143P. Basic Pharmaceutical Sciences Laboratory.**

Laboratory exercises to support the basic pharmaceutical sciences courses. One hour of prelaboratory lecture and three laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum, and credit or registration for Pharmacy 143M.

#### **PHR 244C. Pharmacy Administration.**

Concepts and principles of management, and social and behavioral aspects of pharmacy practice. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum and credit or registration for Pharmacy 144P.

#### **PHR 144P. Pharmacy Administration Laboratory.**

Issues in pharmacy practice. Students discuss case studies, participate in group presentations, and work in small groups to enhance their communication and teamwork skills. Three laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum and credit or registration for Pharmacy 244C.

#### **PHR 345L. Clinical Pharmacokinetics.**

Application of pharmacokinetic principles to the determination of proper dosing regimens. Three lecture hours a week for one semester. Prerequisite: Pharmacy 171P and 371S.

#### **PHR 149H. Pharmaceutics for Honors Students.**

Expanded study of the way principles covered in the pharmaceutical curriculum affect drug design, formulation, dosing, and pharmacokinetics/pharmacodynamics. Three laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Admission to the Pharmacy Honors Program and Pharmacy 252C (or 352C), 356C, and 156P.

#### **PHR 251C. Pharmaceutical Biochemistry II.**

The biosynthesis and function of macromolecules (nucleic acids, lipids, proteins, and carbohydrates); sites of drug action, immunology, and applications of biotechnology and molecular biology to the pharmaceutical sciences. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy 341C.

#### **PHR 151R. Research Opportunities in the Pharmaceutical Sciences.**

An introduction to research in all divisions of the College of Pharmacy. Includes ethical issues in research, career paths in research, and topics such as choosing a research mentor or project. One lecture hour and three laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum.

#### **PHR 252C. Biopharmaceutics.**

Complements the basic pharmaceutics principles covered in Pharmacy 342C. Subjects include core concepts in biopharmaceutics of drugs. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum.

#### **PHR 152H. Professional Development Convocation II.**

Professional development issues and assessments for PharmD students in the first professional year. Student fulfillment of professional and program-specific responsibilities (program evaluations, portfolios, administrative requirements), practice opportunities in pharmacy, and addressing the expected areas and levels of professional growth as the student advances through the curriculum. One lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy 142H.

#### **PHR 253C. Function and Anatomy of Human Systems II.**

Continuation of Pharmacy 343C, with emphasis on blood pressure regulation, renal function, digestion, respiration, endocrinology, and reproduction. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy 343C.

### **PHR 253D. Principles of General Pathology.**

An overview of most aspects of general pathology, including cell adaptation and injury, inflammation and tissue healing, immunopathology, neoplasia, infectious disease, cardiovascular and pulmonary diseases, and metabolic disorders. Taught via television and on-site lectures, supplemented by case presentation and specimen demonstrations in cooperation with faculty members of the University of Texas Health Science Center at San Antonio. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy 343C and credit or registration for Pharmacy 253C.

### **PHR 153M. Pharmacology Principles.**

Introduction to pharmacology principles. Topics include pharmacology at the cellular and subcellular/receptor levels. One lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum.

### **PHR 356C. Pharmaceutics.**

General introduction to dosage forms; the technology and pharmaceutical rationale fundamental to their development. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy 342C and 142P, and credit or registration for Pharmacy 156P.

### **PHR 156P. Pharmaceutics Laboratory.**

Laboratory course supporting the subjects discussed in Pharmacy 356C. One hour of prelaboratory lecture and three laboratory hours a week for one semester. Prerequisite: Credit or registration for Pharmacy 356C.

### **PHR 356R. Advanced Pharmaceutical Compounding.**

Continuation of related subjects in pharmaceutical dosage forms covered in Pharmacy 356C and 156P, with emphasis on the compounding of drugs into stable delivery systems for oral and topical applications. Two lecture hours and four laboratory hours a week for one semester. Prerequisite: Pharmacy 356C and 156P.

### **PHR 358. Geriatric Pharmacy Practice.**

Social, demographic, ethical, and therapeutic issues concerning pharmaceutical products and care of the elderly. Three lecture hours a week for one semester. Prerequisite: Pharmacy 665E.

### **PHR 160K, 260K, 360K. Basic Study in Pharmaceutical Research.**

Basic exploration in any area of the pharmaceutical sciences. For each semester hour of credit earned, three laboratory hours a week for one semester. No more than three semester hours may be counted toward the professional pharmacy elective requirement. May be repeated for credit. Prerequisite: Admission to the PharmD program and consent of instructor and the dean.

### **PHR 161H. Professional Development Convocation III.**

Professional development issues and assessments for PharmD students in the second professional year. Student fulfillment of professional and program-specific responsibilities (program evaluations, portfolios, administrative requirements), practice opportunities in pharmacy, and addressing the expected areas and levels of professional growth as the student advances through the curriculum. One lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy 152H.

### **PHR 161J, 261J, 361J. Basic Studies in the Pharmaceutical Sciences.**

Basic exploration in any area of the pharmaceutical and clinical sciences. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum.

### **PHR 262D. Nonprescription Pharmacotherapeutics I.**

Study of nonprescription drugs, with emphasis on the pharmacist's consultant role in product selection. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Completion of the first professional year in the College of Pharmacy, or consent of instructor.

### **PHR 362L. Clinical Toxicology.**

A course in toxicology that focuses on common poisons and their management; designed for pharmacy students planning to enter general practice. Three lecture hours a week for one semester. Pharmacy 362L and 362M may not both be counted. Prerequisite: Admission to the professional pharmacy curriculum.

### **PHR 163C. Drug Information and Evidence-Based Practice.**

Knowledge and skills needed to retrieve and interpret drug information. Interpretation of biomedical literature and an introduction to concepts of evidence-based practice. One lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy 242D, and credit or registration for Pharmacy 262D, 163P, and 665E.

### **PHR 263K. Veterinary Pharmacy.**

Treatment of selected disease states of domestic and exotic animals; veterinary appliances and products, including proprietary pharmaceuticals and biologicals, with their therapeutic indications and uses. Two lecture hours a week for one semester. Prerequisite: Admission to the professional pharmacy curriculum.

### **PHR 163P. Drug Information and Evidence-Based Practice Laboratory.**

Practical application of the concepts presented in Pharmacy 163C. Includes assignments, projects, and oral presentations. Three laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy 262D, 163C, and 665E.

### **PHR 364D. Pharmacy and the Health Care System.**

The health care system in the United States; principles of managed care; application of pricing policies; and an overview of pharmacy services. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy 244C and 144P.

### **PHR 665E. Pharmacotherapeutics I.**

An integrated approach (pathophysiology, medicinal chemistry, pharmacology, and therapeutics) to the etiology and treatment of adrenergic-based diseases; cholinergic-based diseases; inflammatory diseases; hypertension; acute and chronic renal disease; and cardiovascular disease, including hyperlipidemia, circulatory problems, thromboembolic disease, myocardial ischemia, myocardial infarction, congestive heart failure, and arrhythmias. Six lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy 262D, 163C, 163P, and 392S.

### **PHR 165P. Pharmacotherapeutics I Laboratory.**

Problem-based laboratory course that integrates the pathophysiology, medicinal chemistry, pharmacology, and therapeutic aspects of various diseases in order to prepare students to make sound therapeutic decisions. Subjects introduced in Pharmacy 665E. Three laboratory hours a week for one semester. Prerequisite: Credit or registration for Pharmacy 665E.

### **PHR 166H. Pharmacotherapeutic Case Studies for Honors Students.**

Students participate in ongoing pharmacy practice, clinical, pharmacy association, and research activities. Three laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Admission to the Pharmacy Honors Program, and Pharmacy 665E or consent of instructor.

### **PHR 266P. Pharmacy Professional Communications.**

Professional communication skills in interacting with patients and other health care professionals. One lecture hour and three laboratory hours a week for one semester, with additional hours to be arranged. Offered on the letter-grade basis only. Prerequisite: Pharmacy 242D (or 249).

### **PHR 167H. Exploratory Research in Pharmacy.**

The student participates in ongoing in-depth research activities in pharmaceuticals, medicinal chemistry, toxicology, pharmacology, pharmacy administration, pharmacy practice, or pharmacotherapy. At least seven research hours a week for one semester. May be repeated for credit. Prerequisite: Pharmacy 051R and admission to the Pharmacy Honors Program, or consent of the dean.

### **PHR 168H. Medicinal Chemistry for Honors Students.**

Expanded study of principles covered in the medicinal chemistry curriculum that concern synthetic, semisynthetic, and naturally occurring therapeutic agents. Three laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Admission to the Pharmacy Honors Program, and credit or registration for Pharmacy 665E or consent of instructor.

### **PHR 368T. Supervised Teaching in Pharmacy.**

Teaching under close supervision of the faculty; weekly group meetings with the appropriate instructor; individual consultations; semester reports. Three lecture hours a week for one semester. Pharmacy 368T and 398T may not both be counted. Offered on the letter-grade basis only. Prerequisite: Completion of the second professional year in the College of Pharmacy, or consent of instructor.

### **PHR 269S. Community Service Learning.**

Community-based participatory projects designed to connect coursework and community service experiences. Past and present health issues on the US-Mexico border and in Texas, regional and national health initiatives, service challenges and opportunities, as well as personal/professional identities and responsibilities to the community. Projects developed in consultation with a faculty mentor and a selected community site. Includes an academic service-learning component. One lecture hour and a minimum of two fieldwork hours a week at a service-learning site for one semester. Pharmacy 269S and 289 may not both be counted. Prerequisite: Completion of the second professional year in the College of Pharmacy.

### **PHR 270C. Communication Skills for Health Professionals.**

Designed for pharmacy, premedical, pre dental, and nursing students. Oral communication skills used by health professionals. Emphasis on

developing personal and professional confidence through improving oral communication skills. Small and large group presentations. Two lecture hours a week for one semester.

### **PHR 270D. Nutritional Aspects of Clinical Pharmacy.**

Explores the interrelationships of nutrition, disease, and drug therapy, including aspects of both normal and clinical nutrition, nutritional deficiencies, and the metabolic consequences or diseases associated with malnutrition. Patient case studies examine both the effects of drug therapy on nutrition and the effects of nutrition on drug therapy. Disease states covered include cardiovascular disease, diabetes, hepatic and renal failure, and anemia. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Completion of the first professional year in the College of Pharmacy.

### **PHR 270M. Inpatient Adult Medicine.**

Clinical therapeutic management of adult patients in an inpatient, institutional (primarily hospital) setting. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Completion of the second professional year in the College of Pharmacy.

### **PHR 270N. Introduction to Nuclear Pharmacy.**

An overview of nuclear pharmacy, a recognized specialty area of pharmacy practice focusing on the compounding and dispensing of radioactive materials for use in nuclear medicine procedures (therapeutic, diagnostic, and imaging). Two lecture hours a week for one semester. Prerequisite: Pharmacy 252C, 171P, and 371S; or consent of instructor.

### **PHR 270R. Leadership Skills.**

Development of leadership skills associated with team-based therapeutic approaches to healthcare. Designed to enhance skill sets associated with interdisciplinary and interprofessional healthcare teams. Two lecture hours a week for one semester. Prerequisite: Completion of the second professional year in the College of Pharmacy.

### **PHR 370S. Interprofessional Community Service Learning.**

Integration of community service with contemporary pharmacy practice, with a focus on social justice and social determinants of health care. Weekly online didactic modules, a minimum of fifty hours of service learning practicum with a community partner, and twice monthly group meetings. Offered on the letter-grade basis only. Prerequisite: Completion of the second professional year in the College of Pharmacy.

### **PHR 271C. Drug Interactions.**

Mechanisms, types, examples, and significance of drug interactions in pharmacy practice. Two lecture hours a week for one semester. Prerequisite: Pharmacy 665E, and credit or registration for Pharmacy 266P (or credit for 366P) or consent of instructor.

### **PHR 171L. Leadership in Community Service Learning.**

Designed for students enrolled in Pharmacy 370S and 381H who elect to serve in a leadership role for the community service-learning project. Involves coordination and organization of responsibilities at each phase of the project, communication with community partners, and additional outreach based on the needs of the community partner. Includes development of a plan and disseminate of the project outcomes. A minimum of six in-person meetings with the instructor, with additional meetings scheduled as needed, including online and by

telephone. Prerequisite: Credit or registration for Pharmacy 370S or 381H.

#### **PHR 171P. Integrated Basic and Applied Pharmacokinetics Laboratory.**

Problem-based and case-based application of pharmacokinetic principles to specific drugs and patient situations. One lecture hour and three laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy 371S.

#### **PHR 371S. Integrated Basic and Applied Pharmacokinetics.**

Introduction to pharmacokinetic principles; and the application of principles to specific drugs and patient situations. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy 342C, 142p, 252c, 356C, 156P, and credit or registration for Pharmacy 171P, 675E, and 175P.

#### **PHR 172E. Nonprescription Pharmacotherapeutics II.**

Study of nonprescription drugs, with emphasis on the pharmacist's consultant role in product selection. One lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy 262D, 392S, and credit or registration for Pharmacy 172P.

#### **PHR 172H. Professional Development Convocation IV.**

Professional development issues and assessments for PharmD students in the second professional year. Student fulfillment of professional and program-specific responsibilities (program evaluations, portfolios, administrative requirements), practice opportunities in pharmacy, and addressing the expected areas and levels of professional growth as the student advances through the curriculum. One lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy 161H.

#### **PHR 372K. Hospital Pharmacy.**

Basic principles, standards, and procedures involved in providing professional pharmaceutical services in hospitals. Three lecture hours a week for one semester. Prerequisite: Admission to the professional pharmacy curriculum.

#### **PHR 172P. Nonprescription Pharmacotherapeutics II Laboratory.**

Laboratory practice related to the pharmacist's consultant role in over-the-counter product selection; includes fieldwork in a community pharmacy. One lecture hour and three laboratory or fieldwork hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy 172E, and current intern registration with the Texas State Board of Pharmacy.

#### **PHR 173H. Pharmacology and Toxicology for Honors Students.**

Expanded study of principles covered in the pharmacology curriculum that concern mechanisms of action and toxicity of pharmacologic agents on body systems. Three laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Admission to the Pharmacy Honors Program, and credit or registration for Pharmacy 665E or consent of instructor.

#### **PHR 274S. Quality and Patient Safety Interprofessional Education.**

Concepts of patient safety and quality improvement. Current and past quality improvement projects are used to demonstrate the model of clinical safety and effectiveness. Reducing and preventing medical errors using the TeamSTEPPS approach; working in interprofessional teams on a quality improvement project. The equivalent of two lecture hours a week for one semester. Prerequisite: Completion of the second professional year in the College of Pharmacy.

#### **PHR 675E. Pharmacotherapeutics II.**

An integrated approach (pathophysiology, medicinal chemistry, pharmacology, and therapeutics) to the pathogenesis and treatment of bacterial, viral, and fungal infections; immunizations against bacterial and viral diseases; and allergies, asthma, and chronic obstructive pulmonary disease. Six lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy 665E and credit or registration for Pharmacy 175P.

#### **PHR 175P. Pharmacotherapeutics II Laboratory.**

Problem-based laboratory that integrates the pathophysiology, medicinal chemistry, pharmacology, and therapeutic aspects of various diseases in order to prepare students to make sound therapeutic decisions. Subjects introduced in Pharmacy 665E and 675E. Three laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy 675E.

#### **PHR 176E. Interprofessional Ethics.**

Explores ethical issues in pharmacy practice and health care, with a focus on the perspectives of professionals in the fields of nursing, law, social work, and medicine. One lecture hour a week for one semester. May include five additional discussion hours. Offered on the letter-grade basis only. Prerequisite: Pharmacy 244C, 144P, 364D, and credit or registration for Pharmacy 172H, 675E, and 175P.

#### **PHR 176P. Experiential Pharmacy Practice and Patient Counseling.**

Medication use and dispensing in a practice environment. Counseling skills and techniques for a better understanding of disease states and positive medication outcomes. Three laboratory hours a week for one semester. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy, and credit or registration for Pharmacy 665E and 266P.

#### **PHR 377H. Institutional Clinical Skills.**

Hands-on experience in an institutional practice care facility; examines pharmacy services, hospital management, staff interaction, and the flow of information from laboratory to bedside. Forty hours a week for two weeks. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy, and Pharmacy 242D, 244C, 144P, 163C, 163P, 364D, 266P, 171P, 371S, 172H, 675E, 175P, 176E, and 277P (or 177G and 177P).

#### **PHR 177K, 277K, 377K. Advanced Study in Pharmaceutical Research.**

For each semester hour of credit earned, three laboratory hours a week for one semester. No more than three semester hours may be counted toward the professional pharmacy elective requirement. May be repeated for credit. Prerequisite: Second-professional-year standing and consent of instructor and the dean.

### **PHR 277P. Introduction to Clinical Skills Laboratory.**

Designed to develop the practical skills necessary in a pharmacy setting, with a focus on patient histories, how to read and interpret patient charts, adult immunizations (including APhA certification), and training and certification in CPR from American Heart Association facilitators. Laboratory includes practical application of pharmacy clinical skills. One lecture hour and three laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy; Pharmacy 266P and 392S; and credit or registration for Pharmacy 675E and 175P.

### **PHR 278H. Pharmacy Honors Proposal and Tutorial Course.**

Honors seminar; development of laboratory research proposal for approval by the Honors Program Committee. One lecture hour and three hours of independent research a week for one semester. Prerequisite: Admission to the Pharmacy Honors Program.

### **PHR 479H. Pharmacy Honors Thesis and Tutorial Course.**

Honors seminar; laboratory research project conducted under the supervision of one or more faculty members. One lecture hour and nine laboratory hours a week for one semester. Prerequisite: Pharmacy 278H.

### **PHR 280H. Landmark Studies in Cardiovascular Disease.**

Evidence-based clinical studies in support of drug therapy recommendations in the treatment of cardiovascular diseases. Two lecture hours a week for one semester. Prerequisite: Second-professional-year standing in pharmacy.

### **PHR 280U. Case Studies in Emerging Infections.**

Case studies in the analysis and therapeutic control of recurring, cycling, and newly emerging infectious diseases. Two lecture hours a week for one semester. Prerequisite: Completion of the first professional year in the College of Pharmacy.

### **PHR 280W. Psychiatric Pharmacy Practice and Drug Treatment of Mental Disorders.**

Advanced study in the pathophysiology of selected psychiatric disease states and the clinical presentation, phenomenology, diagnosis, and treatment of these disease states. Two lecture hours a week for one semester. Prerequisite: Credit or registration for Pharmacy 695F or consent of instructor.

### **PHR 381H. Interprofessional Health Care for HIV Patient Management.**

Interprofessional teamwork, health literacy, treatment guidelines, patient safety, and medication reconciliation in the care of patients with the human immunodeficiency virus. Conducted at an HIV clinic in Texas. Students complete six hours of required Web-based instruction before beginning the clinical component. Six hours of online lecture and a minimum of fifty hours of fieldwork in one semester. Offered on the letter-grade basis only. Prerequisite: Completion of the second professional year in the College of Pharmacy.

### **PHR 281U. Case Studies in Diabetes Management.**

Designed to provide students with the skills and knowledge to serve as primary care providers in the area of diabetes management. Use of a case approach to discuss the management of patients with diabetes mellitus. Specific treatment modalities and management issues for the child, adolescent, adult, and elderly diabetic patient. Two lecture

hours a week for one semester. Prerequisite: Credit or registration for Pharmacy 395G and consent of instructor.

### **PHR 182H. Professional Development Convocation V.**

Professional development issues and assessments for PharmD students in the third professional year. Student fulfillment of professional and program-specific responsibilities (program evaluations, portfolios, administrative requirements), practice opportunities in pharmacy, and addressing the expected areas and levels of professional growth as the student advances through the curriculum. One lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy 172H.

### **PHR 282Q. Pediatric Pharmacotherapy.**

Pathophysiology and pharmacotherapy of selected pediatric diseases. Designed to expose students to pediatric pharmacy as a potential area of focus, and to prepare them for a potential residency or practice in providing pharmaceutical care in a pediatric setting. Two lecture hours a week for one semester. Prerequisite: Completion of the first professional year in the College of Pharmacy.

### **PHR 382U. Medicinal Herbs and Phytomedicine.**

The emerging role of medicinal natural products in pharmacy; the role of the pharmacist in the therapeutic use of herbs as controlled products and for self-medication. Three lecture hours a week for one semester. Prerequisite: Credit or registration for Pharmacy 185P, 695F, and 395G.

### **PHR 183F. Basic Intravenous Admixtures.**

Basic principles of injectable and other sterile dosage forms; methods of preparation and evaluation that meet current pharmacy practice standards. One lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy 356C, 156P, and credit or registration for Pharmacy 183G.

### **PHR 183G. Basic Intravenous Admixtures Laboratory.**

Basic laboratory principles in the preparation and evaluation of injectable and other sterile dosage forms. One lecture hour and three laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy 356C, 156P, and credit or registration for Pharmacy 183F.

### **PHR 283H. Advanced Pharmacotherapeutics.**

Advanced study of organ systems; pharmacotherapy and clinical pharmacokinetics. Two lecture hours a week for one semester. May be counted as a pharmacy honors elective. Prerequisite: Admission to the PharmD program.

### **PHR 283U. Multidisciplinary Pain Management.**

Problem-based instruction to help health professions students acquire knowledge and skills in the care of patients with acute and chronic pain. Taught by faculty members in medicine, pharmacy, and nursing. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Consent of instructor.

### **PHR 384D. Antimicrobics: Mechanism of Action and Clinical Use.**

Mechanisms of antimicrobial activity and the development of bacterial resistance, and their relationship to clinical therapy. Three lecture hours a week for one semester. Pharmacy 384D and 484H may not both be counted. Prerequisite: Pharmacy 675E and 175P.

### **PHR 284E. Pharmacy Law.**

State and federal pharmacy laws. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Completion of the second professional year in the College of Pharmacy.

### **PHR 484H. Antimicrobics: Mechanism of Action and Clinical Use for Honors Students.**

Bacteriostatic and bacteriocidal mechanisms of antimicrobial agents, bacterial mechanisms of resistance, and the critical evaluation of drug therapy in various clinical settings. Designed to give students additional insight into the development of antimicrobial agents and the interactions of these agents with each other, the pathogen, and the patient. Three lecture hours a week for one semester, with at least fifteen additional hours to be arranged. Pharmacy 384D and 484H may not both be counted. Prerequisite: Admission to the Pharmacy Honors Program and Pharmacy 675E and 175P.

### **PHR 185P. Pharmacotherapeutics III Laboratory.**

Problem-based laboratory that integrates the pathology, medicinal chemistry, pharmacology, and therapeutic aspects of various diseases in order to prepare students to make sound therapeutic decisions. Subjects introduced in Pharmacy 665E, 675E, 695F, and 395G. Three laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy 675E and 175P, and credit or registration for Pharmacy 695F and 395G.

### **PHR 285Q. Fluid and Electrolyte Therapy.**

Clinical management of disorders of fluid, electrolytes, and acid-base balance in patients with normal and abnormal homeostatic mechanisms; includes basic concepts of parenteral nutrition support. Two lecture hours a week for one semester. Prerequisite: Credit or registration for Pharmacy 185P, 695F, and 395G.

### **PHR 285V. Mexican Drugs and Products.**

Analysis of Mexican pharmacy practice, drugs, and products; implications for the pharmacist in the United States. Two lecture hours a week for one semester. Prerequisite: Credit or registration for Pharmacy 185P, 695F, and 395G.

### **PHR 286C. Treatment of Cardiovascular Disease.**

Further development of topics covered in Pharmacy 665E; discussion of such additional topics as assessment of cardiac function and nonmedical management of cardiovascular diseases. Two lecture hours a week for one semester. Prerequisite: Credit or registration for Pharmacy 185P, 695F, and 395G.

### **PHR 386G. Spanish for the Pharmacy Professional.**

Intermediate communication skills in Spanish. Three lecture hours a week for one semester. Prerequisite: Completion of the second professional year in the College of Pharmacy, and one year of college-level Spanish or consent of instructor.

### **PHR 187D. Case Studies in Cardiovascular Disease.**

Review of case studies of patients with cardiovascular diseases, with emphasis on development of appropriate treatment and monitoring plans. One lecture hour a week for one semester. Prerequisite: Completion of the second professional year in the College of Pharmacy.

### **PHR 287H. Community Care Clinical Skills.**

Clinical work in a community-based pharmacy practice setting. Students receive medication therapy management training, participate in the development of patient care plans, and write an essay about the clinical experience. Five hours of fieldwork a week for one semester. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy, and Pharmacy 163C, 163P, 364D, 266P, 172E, 172P, 176E, 277P (or 177G and 177P), and 392S.

### **PHR 187J, 287J, 387J. Advanced Problems in Pharmacy Education.**

Laboratory course examining professional education issues and techniques for students exploring an academic career. At least three, six, or nine laboratory hours a week for one semester. Prerequisite: Completion of all first-year professional coursework and consent of the dean.

### **PHR 390T. Pharmacy International Exchange.**

Work in an exchange program with international colleges and schools of pharmacy as partners. Examination of similarities and differences between pharmacy education, professional practice, and/or research in the hosting country and in the United States. Forty hours of fieldwork a week for one semester. Prerequisite: Completion of the first professional year in the College of Pharmacy and consent of instructor.

### **PHR 292G. Introduction to Botanicals and Nutraceuticals.**

An introduction to the framework of biologically based complementary and alternative medicine practices. Examines the most commonly used botanicals and nutritional supplements; includes popular uses, clinical indications, pharmacological effects, mechanisms of action, side effects, contraindications, and common dosage guidelines. Emphasis on how to access and interpret continuously emerging evidence in this field and how to use this information to guide and monitor patients within the context of a pharmacy practice. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy 185P, 695F, 395G.

### **PHR 192H. Professional Development Convocation VI.**

Professional development issues and assessments for PharmD students in the third professional year. Student fulfillment of professional and program-specific responsibilities (program evaluations, portfolios, administrative requirements), practice opportunities in pharmacy, and addressing the expected areas and levels of professional growth as the student advances through the curriculum. One lecture hour a week for a semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy 182H.

### **PHR 392S. Patient Assessment Skills Laboratory.**

Introduction to patient assessment techniques and to the skills needed to provide pharmaceutical care. Two lecture hours and three laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy, and Pharmacy 253C and 253D.

### **PHR 693C. Ambulatory Care Pharmacy Practice.**

Analysis of pharmacotherapy, evaluation of drug use, and synthesis of rational drug regimens in the context of ambulatory patient care. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and

completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy.

#### **PHR 693E. Elective in Pharmacy Practice I.**

Experience in pharmacy practice, research, or administration. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy.

#### **PHR 693N. Advanced Hospital Pharmacy Practice.**

Analysis of pharmacotherapy, evaluation of drug use, synthesis of rational drug regimens, and dispensing of medications in the context of institutional patient care. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy.

#### **PHR 693P. Advanced Community Pharmacy Practice.**

Analysis of pharmacotherapy, evaluation of drug use, synthesis of rational drug regimens, and dispensing of medications in the context of community-based patient care. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy.

#### **PHR 693S. Selective in Pharmacy Practice I.**

Analysis of pharmacotherapy, evaluation of drug use, and synthesis of rational drug regimens in a selected pharmacy practice environment. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy.

#### **PHR 693W. Elective International Pharmacy Experience.**

Competitive placement for an international advanced pharmacy experience. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy.

#### **PHR 694C. Acute Care Pharmacy Practice.**

Analysis of pharmacotherapy, evaluation of drug use, and synthesis of rational drug regimens in the context of acute patient care. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy.

#### **PHR 694E. Elective in Pharmacy Practice II.**

Experience in pharmacy practice, research, or administration. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and

completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy.

#### **PHR 394F. Pharmacoeconomics.**

Terms, concepts, procedures, methods, problems, and strengths associated with pharmacoeconomics. Three lecture hours a week for one semester. Pharmacy 393T and 394F may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy 364D or consent of instructor.

#### **PHR 194P. Advanced Pharmacotherapeutics Laboratory.**

Using classroom simulations, provides students with opportunities to practice their skills in interacting with patients and other healthcare professionals and communicating information regarding contemporary therapeutic regimens. One lecture hour and three laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy 185P, 695F, and 395G.

#### **PHR 694S. Selective in Pharmacy Practice II.**

Analysis of pharmacotherapy, evaluation of drug use, and synthesis of rational drug regimens in selected pharmacy practice environments. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy.

#### **PHR 695E. Elective in Pharmacy Practice III.**

Experience in pharmacy practice, research, or administration. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy.

#### **PHR 695F. Pharmacotherapeutics III.**

An integrated approach (pathophysiology, medicinal chemistry, pharmacology, and therapeutics) to the etiology and treatment of neurological, psychiatric, and developmental disorders. Also includes therapeutics of pain management, anesthesia, chemical dependence, and oncology. Six lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy 675E and 175P, and credit or registration for Pharmacy 185P and 395G.

#### **PHR 395G. Pharmacotherapeutics IV.**

An integrated approach (pathophysiology, medicinal chemistry, pharmacology, and therapeutics) to the etiology and treatment of hormonal disorders and gastrointestinal disorders. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy 675E and 175P, and credit or registration for Pharmacy 185P and 695F.

#### **PHR 295R. Advanced Evidence-Based Practice.**

Research methodology and biostatistical concepts as they relate to the interpretation and critical evaluation of biomedical literature. Designed to build upon the material covered in Pharmacy 163C. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy 163C, 163P, 185P, 695F, and 395G.

#### **PHR 396D. Pharmacotherapeutics of Special Populations.**

Topics include geriatrics, pediatrics, pharmacogenomics, transplant patients, and under-served populations. Three lecture hours a week

for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy 371S, 171P, 172E, 172P, 185P, 695F, and 395G.

## Graduate Courses

### PHR 480F. Biomedical Pharmacology I.

Basic neurotransmission and pharmacological principles. Physiological effects of drugs used in disease states including neurological, cardiovascular, psychiatric disorders, and pain relief. Four lecture hours a week for one semester. Neuroscience 380F and Pharmacy 380F, 480F may not both be counted. Offered on the letter-grade basis only. Prerequisite: Graduate standing, and experience or prior coursework in physiology, biochemistry, or organic chemistry.

### PHR 180J, 280J, 380J. Advanced Pharmaceutics: Laboratory Research.

Three, six, or nine laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

### PHR 180M, 280M, 380M. Advanced Pharmaceutics.

The equivalent of one, two, or three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

### PHR 480N. Biomedical Pharmacology II.

Fundamental concepts of pharmacology, including molecular mechanisms of drug action, absorption, distribution and elimination, tolerance, dependence, mutagenesis, teratogenesis, and carcinogenesis. Four lecture hours a week for one semester. Neuroscience 380N and Pharmacy 380N, 480N may not both be counted. Offered on the letter-grade basis only. Prerequisite: Graduate standing, and Pharmacy 480F (or 380F) or consent of instructor.

### PHR 380Q. Advanced Pharmaceutical Processing.

Didactic and laboratory exposure to pharmaceutical processes used in the design, development, and optimization of drug delivery systems. Emphasis on equipment and machinery used in pharmaceutical manufacturing of these dosage forms, with discussion of other issues, such as technology transfer and scale-up. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing in pharmacy.

### PHR 381D. Product Development.

Applications of physical-chemical principles to the formulation and development of stable and bioavailable drug delivery systems. Three lecture hours a week for one semester. Prerequisite: Graduate standing in the College of Pharmacy.

### PHR 381E. Advanced Hospital Pharmacy.

An in-depth analysis of the operation and administration of the institutional pharmacy and its relationship to the total functioning of the hospital. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

### PHR 381G. Advanced Manufacturing Pharmacy.

Physical-mechanical properties of compacts, drugs, and polymers. Properties of biodegradable and nonbiodegradable polymers in pharmaceutical formulations. Process validation and pilot plant scale-up. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

### PHR 181J, 281J, 381J. Advanced Pharmacy Administration: Laboratory Research.

Three, six, or nine laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

### PHR 181M, 281M, 381M. Advanced Pharmacy Administration.

One, two, or three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

### PHR 381N. Managed Health Care Systems.

Overview of the health care system in the United States and examination of the classic and contemporary literature on managed health care systems, with emphasis on pharmacy-related issues. Studies the advantages, disadvantages, and effects of these systems on patients, providers, and payers. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

### PHR 381P. Health Care Administration.

Introduction to the United States health care system and its relationship to pharmacy; comparison with health care in other countries. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

### PHR 381V. Communication Skills for Translational Scientists.

Oral and written communication skills for scientists conducting translational research at the interface of basic and clinical science. Subjects include effective interaction on multidisciplinary research teams and the preparation of translational research proposals. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

### PHR 381W. Molecular Biology in Translational Research.

Molecular biology methods at the interface of clinical and basic pharmaceutical sciences, especially those used in translational research in drug discovery and development, including clinical trials. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

### PHR 382C. Chemistry of Natural Products.

Chemical, biochemical, and stereochemical relationships among polyketide, terpenoid, shikimate, and alkaloid natural products and medically important analogs. Three lecture hours a week for one semester. Pharmacy 332C and 382C may not both be counted. Prerequisite: Graduate standing, and undergraduate courses in organic chemistry and biochemistry or consent of instructor.

### PHR 282J. Advanced Pharmacotherapy Seminar.

Discussion of advanced pharmacotherapeutics topics, case presentations, and journal clubs at the advanced practitioner level. Two lecture hours a week for two semesters. Prerequisite: Graduate standing and consent of instructor.

### PHR 382L. Drug Literature Evaluation.

Prepares the student for efficient utilization, critical evaluation, and clinical application of the current drug literature. Two lecture hours and

three laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

#### **PHR 382N. Computer-Assisted Kinetics.**

Quantitative and simulation treatment of kinetics through computer technology. Topics include protein binding and utilization of program packages such as NONLIN, RSSL, CSMP, SAAM 23, and AUTOAN. Three lecture hours a week for one semester. Prerequisite: Graduate standing, and Pharmacy 252C (or 352C) or the equivalent.

#### **PHR 382R. Recent Advances in Pharmaceutics.**

Presentation of topics of current research interest in physical pharmacy, biopharmaceutics, and pharmacokinetics. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

#### **PHR 382S. Advanced Biopharmaceutics.**

Provides the student with a more comprehensive background in biopharmaceutics and mathematical techniques used in pharmacokinetics. Three lecture hours a week for one semester. Prerequisite: Graduate standing, and Pharmacy 252C (or 352C) or the equivalent.

#### **PHR 382V. Pharmaceutical Biotechnology.**

Applications of protein, oligonucleotide, and related molecules as therapeutic agents: stability, formulation, kinetics, dynamics. Three lecture hours a week for one semester. Prerequisite: Graduate standing; and the following coursework: Chemistry 339K, and Pharmacy 342C, 142P, and 252C (or 352C); or the equivalent; or consent of instructor.

#### **PHR 182W. Ethics in Science and Clinical Practice.**

Ethical considerations in the conduct of clinical research, including institutional review boards, adherence to protocol, Food and Drug Administration and related site reviews, protection of human subjects through informed consent and confidentiality, and the use of genetic banks in research. One lecture hour a week for one semester. Prerequisite: Graduate standing and consent of instructor.

#### **PHR 183C. Basic Pharmacology Concepts.**

A systematic presentation of pharmacologic agents based on drug-group classification; emphasis on pharmacological mechanisms of action and toxicity. Covers basic pharmacological principles. One lecture hour a week for one semester. Prerequisite: Graduate standing.

#### **PHR 383D. Neuropharmacology.**

An advanced survey of neurotransmitters and systems in the brain. Covers experimental approaches and pharmacological analysis at behavioral, neurochemical, and neuroanatomical levels to determine mechanisms of actions of drugs that act on the brain. Three lecture hours a week for one semester. Neuroscience 383D and Pharmacy 383D may not both be counted. Prerequisite: Graduate standing and consent of instructor.

#### **PHR 283L. Clinical Skills Laboratory.**

Introduction to patient assessment techniques and to the skills needed to provide innovative patient care services. One lecture hour and three laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

#### **PHR 383M. Pharmacogenetics.**

The study of those combined genetic and pharmacological factors that give rise to many unexpected, untoward, and idiosyncratic drug

reactions. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

#### **PHR 383N. Solution Theory and Disperse Systems.**

The theory and technology of solutions and heterogeneous systems; applications of scientific principles to the design of pharmaceutical products; a study of factors influencing physical chemical characteristics, stability, and biopharmaceutical activity of solutions and coarse dispersions; review of recent literature. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

#### **PHR 383P. Advanced Pharmacokinetics.**

Study of the kinetics of absorption, distribution, metabolism, and excretion of drugs in the intact organism. Three lecture hours a week for one semester. Prerequisite: Graduate standing, and Pharmacy 252C (or 352C) or an equivalent pharmacokinetics course.

#### **PHR 383Q. Statistics in Translational Science.**

Pharmaceutical statistical analysis with a focus on choosing the appropriate statistical test to address both basic science and clinical research hypotheses. Students use the JMP 7 software package to execute statistical analysis on their own pharmaceutical research projects. Two lecture hours and one and one-half laboratory hours a week for one semester. Pharmacy 383Q and 284V may not both be counted. Prerequisite: Graduate standing in the College of Pharmacy, and an introductory statistics course or consent of instructor.

#### **PHR 383R. Rate Processes in Pharmaceutical Systems.**

A study of decomposition and stabilization of drug molecules in solutions and in solid dosage forms; principles of kinetics and diffusion as applied to pharmaceutical systems. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

#### **PHR 283S. Clinical Toxicology.**

An advanced study of toxicological, pharmaceutical, and pharmacological principles underlying the management of chemical poisoning. Includes analysis of selected cases. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

#### **PHR 383V. Research Design and Methods.**

A practical approach to classical and experimental design. Hypothesis generation, experimental design that uses translational research methods (such as incorporating basic and clinical science), grantsmanship, and protocol development. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

#### **PHR 383W. Biopharmaceutical Analysis.**

Analytical methods for the isolation and identification of drugs and their metabolites, specific genes, and proteins in biological fluids. Three lecture hours a week for one semester. Prerequisite: Graduate standing in pharmacy, completion of a PharmD degree, and concurrent enrollment in Pharmacy 184U.

#### **PHR 384K. Fundamentals of Toxicology.**

An organ system approach to advanced topics in general toxicology. Three lecture hours a week for one semester. Required of pharmacology and toxicology graduate students specializing in

toxicology. Prerequisite: Graduate standing, and some background in pharmacology or consent of instructor.

#### **PHR 384N. Social Issues in Pharmacy.**

In-depth analysis of the social and behavioral issues that affect medication use, using the content, theories, and methodologies associated with patient compliance research. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

#### **PHR 284R. Advances in Molecular Pharmacology.**

A molecular pharmacological perspective on recent advances in cloning, sequencing, expression, function, and regulation of cell surface receptors. Two lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, and Pharmacy 183C or consent of instructor.

#### **PHR 384S. Introduction to Epidemiology and Pharmacoepidemiology.**

Principles of epidemiology; descriptive, analytic, and clinical epidemiology; epidemiologic perspective for health care management; epidemiology and the public policy process; pharmacoepidemiology. Three lecture hours a week for one semester. Prerequisite: Graduate standing; with consent of instructor, may be taken by students in the professional pharmacy curriculum.

#### **PHR 184U. Biopharmaceutical Analysis Laboratory.**

Analytical methods for the isolation and identification of drugs and their metabolites, specific genes, and proteins in biological fluids. One hour of prelaboratory lecture and three laboratory hours a week for one semester. Prerequisite: Graduate standing in pharmacy, completion of a PharmD degree, and concurrent enrollment in Pharmacy 383W.

#### **PHR 184W. Behavioral and Neurochemical Analyses of Drug Self-Administration.**

Behavioral and neurochemical changes associated with the intake of alcohol, cocaine, and other abused substances. Uses classic studies and recent published articles. One lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

#### **PHR 185D. Responsible Conduct of Science.**

Ethical considerations in the conduct of science, including issues of animal welfare, data analysis, fraud, publications, misconduct, intellectual property, grants, peer review, and mentor responsibility. One lecture hour a week for one semester. Neuroscience 185D and Pharmacy 185D may not both be counted. Offered on the credit/no credit basis only. Prerequisite: Graduate standing, and admission to the doctoral program in pharmacy or consent of instructor.

#### **PHR 185J, 285J, 385J. Advanced Pharmacotherapy Laboratory Research.**

Three, six, or nine laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

#### **PHR 385L. Clinical Pharmacokinetics.**

In-depth analysis of pharmacotherapeutic regimens, using complex mathematical models. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

#### **PHR 385M. Advanced Pharmacokinetics and Pharmacodynamics.**

Continuation of Pharmacy 385L. Advanced pharmacokinetic and pharmacodynamic concepts and their application. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing, Pharmacy 385L, and consent of instructor.

#### **PHR 185W, 285W, 385W. Advanced Topics in Pharmacotherapy.**

The equivalent of one, two, or three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor; additional prerequisites vary with the topic.

#### **PHR 186J, 286J, 386J. Advanced Medicinal Chemistry: Laboratory Research.**

Modern laboratory techniques used in medicinal and natural products chemistry. Three, six, or nine laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

#### **PHR 186K, 286K, 386K. Advanced Medicinal Chemistry.**

The equivalent of one, two, or three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing.

#### **PHR 386M. Pharmaceutical Distribution.**

An introduction to the discipline of marketing as it applies to the practice of pharmacy and the pharmaceutical industry. Designed to help students develop analytical skills, strategic thinking, and creativity that can be used to accomplish marketing objectives. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

#### **PHR 186N, 286N, 386N, 486N. Topics in Pharmacy.**

Current issues in translational science. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and admission to the Doctor of Philosophy in Translational Science degree program.

#### **PHR 386Q. Preclinical and Clinical Drug Development.**

Principles of preclinical research, including animal handling and experimental design, and clinical considerations for the Food and Drug Administration (FDA) drug approval process. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

#### **PHR 387C. Advanced Institutional Pharmacy Management.**

Management principles, practices, and problems as they apply to the provision of pharmacy products and services within a health care organization. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

#### **PHR 287F. Advanced Pharmaceutical Literature Review and Interpretation.**

Evaluation and critical review of current literature in the pharmaceutical sciences and other relevant fields. Students give presentations and participate in discussions. Two lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

**PHR 487Q. Communication Skills for Scientists.**

Designed to enhance written and oral communication skills through lectures and practice. Covers grant writing, journal paper writing, poster presentation writing, and delivery. Four lecture hours a week for one semester. May not be counted by students with credit for Pharmacy 280E and 287G. Offered on the letter-grade basis only. Prerequisite: Graduate standing in pharmacy, neuroscience, or a biological science. Additional prerequisite for international students: Completion of the University's English Certification Program or consent of instructor.

**PHR 388C. Introductory Bioorganic Chemistry.**

Survey of enzyme-catalyzed reactions, with emphasis on mechanism, experimental design, and applications in natural products biosynthesis. Three lecture hours a week for one semester. Prerequisite: Graduate standing, and undergraduate courses in organic chemistry and biochemistry or consent of instructor.

**PHR 388D. Advanced Bioorganic Chemistry.**

The chemical biology of signaling pathways, protein-protein interactions, and DNA-small molecule interactions. Three lecture hours a week for one semester. Prerequisite: Graduate standing, and undergraduate courses in organic chemistry and biochemistry or consent of instructor.

**PHR 188J, 288J, 388J. Advanced Pharmacology: Laboratory Research.**

Three, six, or nine laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

**PHR 188K, 288K, 388K. Advanced Pharmacology.**

The equivalent of one, two, or three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor; additional prerequisites vary with the topic.

**PHR 389C. Pharmacy Association Management.**

An introduction to the principles involved in managing pharmacy associations. Nine hours of fieldwork a week for one semester. Pharmacy 329C and 389C may not both be counted. Prerequisite: Graduate standing and consent of instructor.

**PHR 689D. Pharmacy Association Management Residency.**

Experience working in a pharmacy association, including active involvement in some managerial aspect of the association. Twenty hours of fieldwork a week for one semester. Pharmacy 629D and 689D may not both be counted. Prerequisite: Graduate standing and consent of instructor.

**PHR 389J. Advanced Pharmacotherapeutics of Cardiovascular Disorders.**

Provides the student with a sound knowledge and comprehension of contemporary pharmacotherapeutic regimens used in treating cardiovascular diseases. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

**PHR 389P. Advanced Pharmacotherapeutics of Infectious Diseases.**

Provides the student with a sound knowledge and comprehension of contemporary therapeutic principles used in treating infectious diseases. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

**PHR 189Q. Seminar in Alcohol Studies.**

Presentations and discussion of current research topics in alcohol studies. One lecture hour a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

**PHR 389S. Advanced Pharmacotherapeutics of Hematology/Oncology.**

Provides the student with a sound knowledge and comprehension of contemporary therapeutic principles used in treating hematologic and malignant diseases. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

**PHR 190G, 290G, 390G, 490G. Advanced Pharmacotherapeutics of Human Diseases and Illnesses.**

A comprehensive analysis of disease processes and a determination of appropriate therapeutic interventions for the treatment of those diseases. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**PHR 190H. Advanced Pharmaceutics Research Conference.**

One lecture hour a week for one semester. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

**PHR 390J. Pharmacy Administration Data Analysis.**

Statistical analysis of research data using the computer and various statistical software programs. Three lecture hours a week for one semester. Prerequisite: Graduate standing, and an introductory course in statistics or consent of instructor.

**PHR 390K. Experimental Design and Research Methodology in Pharmacy Administration.**

Principles and procedures of experimental, quasi-experimental, and non-experimental research designs; includes reliability, validity, data collection methods, qualitative study designs, and survey methodologies. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

**PHR 390N. Biochemical and Molecular Toxicology.**

Discussion of the mechanisms of selected drugs and toxicants. Three lecture hours a week for one semester. Prerequisite: Graduate standing and Pharmacy 384K.

**PHR 190R, 290R, 390R. Special Problems in Pharmacotherapy.**

Individual supervision of research problems in the clinical pharmacy sciences, including pharmacokinetics, pharmacodynamics, efficacy, safety, and pharmaceutical care. For 190R, three laboratory hours a week for one semester; for 290R, five laboratory hours a week for one semester; for 390R, nine laboratory hours a week for one semester.

May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

### **PHR 390U. Advanced Research Methods in Pharmacy Administration.**

Advanced methodologies used in pharmacy administration research; designed to build upon the skills covered in Pharmacy 390K. Explores data management issues and statistical procedures, with emphasis on the application of research methodology concepts and principles. Three lecture hours a week for one semester. Prerequisite: Graduate standing and Pharmacy 390K.

### **PHR 491G. Advanced Hematology and Oncology Seminar.**

In-depth discussion of the contemporary pharmacotherapy and patient care relating to hematology, oncology, and bone marrow transplantation. Two lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 491GA, graduate standing and consent of instructor; for 491GB, Pharmacy 491GA.

### **PHR 191H. Advanced Pharmacy Administration Research Conference.**

One lecture hour a week for one semester. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

### **PHR 391J. Methods in Clinical Psychopharmacology and Mental Health Outcomes Research.**

Principles of research methodology in clinical psychopharmacology and mental health outcomes research, including both prospective and retrospective research design for effectiveness and outcomes studies. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

### **PHR 191Q. Pharmacy and Its Disciplines.**

An overview of pharmacy and its primary disciplines of pharmaceuticals, medicinal chemistry, pharmacy administration and practice, pharmacotherapy, and pharmacology/toxicology. One lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

### **PHR 292E. Clinical Research Methods I.**

Defining a research question, general study design issues, cross-sectional and case-control studies, and diagnostic test evaluation. Two lecture hours a week for a semester. Prerequisite: Graduate standing.

### **PHR 292F. Clinical Research Methods II.**

Prospective observational studies; randomized controlled trials; nonrandomized intervention studies; meta-analysis; and data synthesis, evaluation, and application. Two lecture hours a week for a semester. Prerequisite: Graduate standing, and Pharmacy 292E or consent of instructor.

### **PHR 092T. Joint PhD Program with Partner Institutions.**

Translational Science study at partner Institutions. May not be taken concurrently with another course at the University of Texas at Austin. Prerequisite: Graduate standing and admission to the Doctor of Philosophy in Translational Science degree program.

### **PHR 693. Research in Pharmacy.**

The equivalent of three lecture hours a week for two semesters. May not be counted toward the master's degree. May be repeated for credit

when the topics vary. Prerequisite: For 693A, graduate standing; for 693B, Pharmacy 693A.

**Topic 1: Research in Medicinal Chemistry.**

**Topic 2: Research in Pharmaceuticals.**

**Topic 3: Research in Pharmacology.**

**Topic 4: Research in Pharmacy.**

**Topic 5: Research in Pharmacy Administration.**

**Topic 6: Research in Toxicology.**

### **PHR 493D. Computer-Assisted Drug Design.**

Overview of theory and application of methods useful for computer-assisted drug design, such as molecular orbital calculations, molecular mechanics and dynamics, conformational search, CoMFA, and three-dimensional searching. Hands-on experience with professional-level software and hardware. Two lecture hours and three laboratory hours a week for one semester. Prerequisite: Graduate standing, consent of instructor, and an undergraduate course in physical chemistry.

### **PHR 393Q. Health-Related Quality of Life Measurement.**

Terms, concepts, procedures, methods, problems, and strengths associated with health-related quality of life (HRQOL) research. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

### **PHR 693R, 993R. Postdoctoral Residency Internship.**

Pharmacy practice, research, and/or administration. At least forty hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing, admission to the College of Pharmacy Residency Training Program, and completion of a PharmD degree.

### **PHR 393T. Pharmacoeconomics.**

Terms, concepts, procedures, methods, problems, and strengths associated with pharmacoeconomics. Three lecture hours a week for one semester. Pharmacy 393T and 394F may not both be counted. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

### **PHR 193U, 293U, 393U, 693U, 993U. Pharmacotherapy Master's Mentorship.**

Experience in pharmacy practice, research, and/or administration. For each semester hour of credit earned, three hours of fieldwork a week for one semester. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

### **PHR 394D. Interfacial Phenomena in Pharmaceuticals.**

Phase interfaces, monolayers, bilayers, and nonlamellar surfactant assemblies in terms of thermodynamics, dynamic properties, stability, permeability, and measurement methods. Three lecture hours a week for one semester. Prerequisite: Graduate standing and a course in physical chemistry.

### **PHR 395D. Pathophysiology.**

Structure, function, and mechanisms of disease production in human organ systems. Three lecture hours a week for one semester. Nursing 396C and Pharmacy 395D may not both be counted. Prerequisite: Graduate standing.

**PHR 195H. Advanced Pharmacotherapy Research Conference.**

One lecture hour a week for one semester. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

**PHR 196H. Advanced Medicinal Chemistry Research Conference.**

One lecture hour a week for one semester. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

**PHR 396M. Medicinal Chemistry: General Principles, Pharmacological Classification, and Mechanism of Action.**

Introduction to medicinal chemistry, covering drug classes according to their pharmacological classification, structural class, and mechanism of action. Three lecture hours a week for one semester. Prerequisite: Graduate standing and undergraduate coursework in organic chemistry and biochemistry.

**PHR 196S. Seminar in Pharmacy.**

The equivalent of one lecture hour a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in pharmacy.

**PHR 196T. Seminar in Toxicology.**

Presentations and discussion of current research topics in toxicology. One lecture hour a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing, and admission to the Toxicology Training Program or consent of instructor.

**PHR 697. Hospital Pharmacy Residency.**

Not less than 1,920 hours of satisfactorily supervised work in an approved hospital pharmacy. A report of the activities of the internship must meet the approval of the student's supervisory committee. The equivalent of three lecture hours a week for two semesters. Prerequisite: For 697A, graduate standing in pharmacy and a Bachelor of Science in Pharmacy; for 697B, Pharmacy 697A.

**PHR 397C. Pharmacy and Health Care Economics.**

The economist's approach to pharmacy and health care issues, its insights and disadvantages. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

**PHR 397D. Human Resource Management.**

The elements of supervising pharmacists and technicians in pharmacy environments. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

**PHR 397E. Financial Management for Pharmacy Managers.**

Concepts, principles, and theoretical foundations of financial statements, with emphasis on the pharmacy manager's understanding of accounting procedures and the use of financial statements. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

**PHR 397F. Analytical Methods in Pharmacy Management.**

How computers are used to establish a database, analyze the data, and develop managerial projections based on the data analyses. Emphasis on developing budgets, managing inventory, monitoring productivity and workload, and managing the development of projects and systems. Three lecture hours and three laboratory hours a week

for one semester. Prerequisite: Graduate standing and consent of instructor.

**PHR 397G. Advanced Community Pharmacy Management.**

Management principles, practices, and problems as they apply to the provision of pharmacy products and services in the community pharmacy setting. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

**PHR 197H. Advanced Pharmacology Research Conference.**

One lecture hour a week for one semester. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

**PHR 397J. Advanced Problems in Pharmacy Management.**

The application of problem-solving techniques to a current problem in community or institutional pharmacy management. Students develop a proposal and a report addressing an identified problem. Twelve laboratory hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

**PHR 397K. Communication Skills for Pharmacy Managers.**

Written and oral communication skills and techniques for pharmacists at the managerial level. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

**PHR 397M. Drug Design and Synthetic Strategy.**

A multiperspective approach to modern concepts in drug design and synthetic strategy. Three lecture hours a week for one semester. Prerequisite: Graduate standing, and undergraduate courses in organic chemistry and biochemistry or consent of instructor.

**PHR 197S. Seminar in Pharmacotherapy: Advanced Topics.**

The equivalent of one lecture hour a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

**PHR 698. Thesis.**

The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in pharmacy and consent of the graduate adviser; for 698B, Pharmacy 698A.

**PHR 398R. Master's Report.**

Preparation of a report to fulfill the requirement for the master's degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in pharmacy, admission to the Option II program for the Master of Science in Pharmacy degree, and consent of the graduate adviser.

**PHR 398T. Supervised Teaching in Pharmacy.**

Teaching under close supervision of the faculty; weekly group meetings with the appropriate instructor; individual consultations; semester reports. Three lecture hours a week for one semester. Pharmacy 368T and 398T may not both be counted. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

**PHR 399R, 699R, 799R, 899R, 999R. .**

Offered on the credit/no credit basis only.

**PHR 399W, 699W, 799W, 899W, 999W. .**

Offered on the credit/no credit basis only.

# Lyndon B. Johnson School of Public Affairs

---

Robert Hutchings, PhD, *Dean*  
Chandler Stolp, PhD, *Associate Dean*  
<http://www.utexas.edu/lbj/>

The Lyndon B. Johnson School of Public Affairs offers the Master of Global Policy Studies, the Master of Public Affairs, and the Doctor of Philosophy with a major in public policy. Information is given in the *Graduate Catalog* about these programs and about the requirements for admission to graduate study.

In addition to the graduate courses described in the *Graduate Catalog* (<http://registrar.utexas.edu/catalogs>), the faculty has approval to offer the following courses in the academic years 2012–2013 and 2013–2014; however, not all courses are taught each semester or summer session. Students should consult the *Course Schedule* (<http://registrar.utexas.edu/schedules>) to determine which courses and topics will be offered during a particular semester or summer session. The *Course Schedule* (<http://registrar.utexas.edu/schedules>) may also reflect changes made to the course inventory after the publication of this catalog.

A full explanation of course numbers is given in *General Information* (<http://registrar.utexas.edu/catalogs>). In brief, the first digit of a course number indicates the semester hour value of the course. The second and third digits indicate the rank of the course; if they are 01 through 19, the course is of lower-division rank; if 20 through 79, of upper-division rank; if 80 through 99, of graduate rank.

## Public Affairs: P A

### Lower-Division Courses

#### P A 310C. Public Policy.

Skill topics, including economics, quantitative methods, public financial management, policy development, and public administration. Three lecture hours a week for one semester. Public Affairs 310C and 330C may not both be counted unless the topics vary. May be repeated for credit when the topics vary.

#### P A 310S. Public Policy Seminar.

Seminar with topics related to domestic or international public policy. Three lecture hours a week for one semester. Public Affairs 310S and 330S may not both be counted unless the topics vary. May be repeated for credit when the topics vary.

### Upper-Division Courses

#### P A 325. Topics in Policy.

Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

#### P A 330C. Public Policy.

Skill topics, including economics, quantitative methods, public financial management, policy development, and public administration. Three lecture hours a week for one semester. Public Affairs 310C and 330C may not both be counted unless the topics vary. May be repeated for credit when the topics vary.

#### P A 330S. Public Policy Seminar.

Seminar with topics related to domestic or international public policy. Three lecture hours a week for one semester. Public Affairs 310S and 330S may not both be counted unless the topics vary. May be repeated for credit when the topics vary.

## General Information

### Accreditation

The Bachelor of Social Work degree program is accredited by the Council on Social Work Education.

### Mission

The School of Social Work provides professional education and leadership in social work practice, research, and service to promote social and economic justice, enhance social welfare, and build strong community-University partnerships.

The mission of the Bachelor of Social Work program is to prepare students as beginning level generalist professional social work practitioners who are committed to the provision of services that further the well-being of people and who promote social and economic justice. Building on a broad liberal arts framework, the BSW curriculum is designed to develop generalist practitioners who have an understanding of social work knowledge and values and are able to select different methods and resources to meet identified client needs, while recognizing and engaging the strengths of the client in the process. The curriculum offers students the opportunity to learn to promote, restore, maintain, and enhance the social functioning of multiple levels of systems in the environment, including individuals, families, small groups, organizations, and communities; to recognize worker and client limitations; and to know when to refer clients to other resources.

The BSW student is given the opportunity to learn to work collaboratively in a variety of settings using an ecosystems/developmental perspective; to recognize the relationships between client needs and public issues; to work toward the development of social policies, resources, and programs that meet basic human needs and empower at-risk groups; and to be sensitive to the diversities among individuals, including ethnicity, gender, age, sexual orientation, religion, and ability. The program is intended to prepare reflective, self-evaluating practitioners who have a strong identification with the social work profession and work to alleviate poverty, oppression, and discrimination.

Graduates of the program are expected to be able to enhance the problem-solving, coping, and developmental capacities of individuals, especially those from at-risk populations. They also are expected to contribute to the effective and humane operation of the systems within the environment that provide individuals with resources, services, and opportunities; to link individuals in need with the appropriate systems; and to contribute to the development and improvement of social policies that have an impact on people and their social environments, especially by empowering at-risk groups and by promoting social and economic justice.

The BSW program is integrated with and builds upon a liberal arts base that includes knowledge in language arts, the humanities, and the social, behavioral, and natural sciences. The curriculum includes

content in social work values, diversity and at-risk populations, social and economic justice, human behavior and the social environment, research, social welfare policy and services, and social work intervention.

## Program Objectives

Students graduating from the BSW program are expected to demonstrate the following characteristics:

1. A professional identity that incorporates the values and ethics of the social work profession and the professional development of self.
2. The ability to work with diverse populations with an understanding of, and respect for, the positive value of diversity, including ethnicity, gender, sexual orientation, age, ability, and religion, and to use communication skills differentially with diverse groups.
3. An understanding of the forms and mechanisms of oppression and discrimination.
4. The ability to apply strategies and skills that advance social and economic justice and to address the oppression of at-risk populations.
5. An understanding of the biological, psychological, social, and cultural contexts of changing client systems, including individuals, families, groups, organizations, communities, and the broader society, and their effects on development and behavior.
6. Beginning level competencies in research and evaluation, including the ability to evaluate research studies and apply their findings to practice, and, under supervision, evaluate their own practice interventions and those of other relevant systems.
7. An understanding of how social policy develops and differentially affects various client systems, workers, and agencies.
8. An understanding of the role the social work profession has played in promoting social change, historically and currently.
9. The attainment of knowledge and skills that demonstrate the ability to practice effectively with individuals, families, groups, organizations, and communities, in a manner that empowers client systems and uses their strengths in order to maximize their health and well-being.
10. An ability to apply critical thinking skills within the context of professional social work roles and practice.
11. An awareness of their responsibility to continue their professional growth and development, including the use of supervision appropriate to generalist practice.

## History

The School of Social Work was established as a graduate program in 1949 and began classes in the fall of 1950 with twenty-four students enrolled in the MSSW program. Undergraduate courses in social work were first offered in 1958. These were incorporated into a full Bachelor of Social Work (BSW) program in the fall of 1974.

The first BSW degree was awarded in December, 1977. Since that time, the program has been strengthened by curriculum modifications reflecting changes in the profession and in society that have implications for beginning social work practice. Since the program was established, more than eleven hundred students have received BSW degrees.

The School of Social Work also offers programs leading to the Master of Science in Social Work and the Doctor of Philosophy. These are described in the *Graduate Catalog* (<http://registrar.utexas.edu/catalogs/grad11-13>).

## Facilities

The School of Social Work Building (1925 San Jacinto Boulevard) provides space for social work classes, including classrooms equipped for distance learning and an instructional technology classroom; offices for the faculty and staff; an advising center and student services area; and a student lounge. The building also houses the school's Learning Resource Center (LRC), which has an extensive collection of social work related books, journals, and other publications partially funded by the Josleen Lockhart Memorial Book Fund. The LRC includes a large computer laboratory for student use and provides space, equipment, and technical assistance for studying, meetings of small groups of students, viewing audiovisual materials, videotaping, and completing other skills-based learning assignments. The School of Social Work Building also houses the Center for Social Work Research, the DiNitto Center for Career Services, Con Mi Madre, and the Center for Students in Recovery.

## Financial Assistance Available through the School

Although many University scholarships are awarded through the Office of Student Financial Services, a limited number are awarded by the School of Social Work to undergraduate social work students. Awards are made for reasons ranging from academic promise to financial need. All social work majors who meet the eligibility requirements for the scholarships listed below are encouraged to apply. Additional information is available from the Academic Affairs Office.

The **Francis Crockett Memorial Scholarship** was established in memory of Francis Crockett. The scholarships provide support for undergraduate students in the School of Social Work who are planning a career in the mental health field. Preference will be given to applicants with demonstrated financial need, academic merit, and demonstrated involvement in their communities.

The **Vincent J. DiNitto Endowed Scholarship** was endowed in 2011 by Diana M. DiNitto, Ph.D., in memory of her father, Vincent J. DiNitto. Funds are distributed from the endowment and shall be used to award scholarship to social work students with financial need, with additional consideration given to academic achievement and professional potential. Dr. DiNitto is the Cullen Trust Centennial Professor in Alcohol Studies and Education and a University Distinguished Teaching Professor at the School of Social Work.

The **Bonny Gardner Social Justice Award** was established in 2006 through the generosity of Bonny Gardner, Ph.D. The award is given to a student who has shown an exemplary commitment to social justice through dissemination of knowledge, activism/advocacy, or leadership through class projects, field activities, and/or work within the community. Dr. Gardner received her doctorate and undergraduate degree from UT Austin.

The **George K. Herbert Endowed Scholarship** was created in 1989 through gifts from colleagues, faculty members, and alumni, the Wolens Foundation, the Social Work Advisory Council, and other friends in recognition of Dr. Herbert's dedication to high standards of professional service and contributions to social work education. Dr. Herbert served on the faculty and as dean of the School of Social

Work. Students are nominated for the award on the basis of academic excellence and potential contribution to professional social work. The endowment provides scholarships to undergraduate or graduate students in the School of Social Work, selected at the discretion of the dean, based on merit or need, on the recommendation of the School of Social Work Scholarship Committee.

The **Ami Lunsford Memorial Scholarship in Victim Services** was initiated by the Social Work Student Council in memory of Ami Lunsford, a May 1996 graduate of the School of Social Work. The scholarship was endowed in 1997 through gifts from family and friends. It is awarded on the basis of academic achievement and professional potential to social work students with a special interest in victim services.

The **Victor and Myra Ravel Scholarship in Children's Rights** was endowed in 1989 by Mr. and Mrs. Victor Ravel of Austin and the University Regents' Endowed Student Fellowship and Scholarship Program. The endowment is administered through the Austin Community Foundation; the income is used for scholarships to social work students interested in children's rights or child advocacy. Students are nominated on the basis of academic excellence and potential contribution to professional social work in the area of child advocacy.

The **Sylvia Shapiro Scholarship** was established in 1985 by Sidney S. Smith of Austin, in memory of his cousin, Sylvia Shapiro. Students are nominated on the basis of academic excellence, need, and potential contribution to professional social work with emphasis on work with the frail elderly.

The **King S. Stephens II Memorial Endowed Scholarship** was established in 1995 through the generosity of faculty members, family members, and friends in loving memory of this respected faculty member, whose fierce intellect and commitment to social justice challenged our ideas and inspired our sense of responsibility. Students are nominated on the basis of academic excellence and commitment to social justice.

The **August N. "Gus" Swain Endowed Scholarship** was established in 1993 in honor of Gus Swain, the first African American student to receive an MSSW degree from the School of Social Work. Students are selected on the basis of academic excellence, financial need, and potential contribution to the social work profession.

The **Melanie Walter-Mahoney Endowed Scholarship in Social Work Established by the Charles and Betti Saunders Foundation** was endowed in 2003 by the Charles and Betti Saunders Foundation to provide scholarship support for social work students. Mr. and Mrs. Saunders are both graduates of UT Austin. Their daughter, Melanie Walter-Mahoney, received her MSSW from the School of Social Work and a bachelor's degree in sociology from UT Austin.

The **Louis A. Zurcher Memorial Scholarship** was established by gifts in memory of Dr. Louis A. Zurcher, collected since his death in 1987. The scholarship is awarded to provide support to social work students.

## Other Scholarships

Additional scholarships funded by contributions to the School of Social Work are awarded to undergraduate social work majors each year. Students are nominated on the basis of academic excellence, financial need, and potential contribution to professional social work.

## Student Services

### Academic Advising

The Office of Academic Affairs in the School of Social Work seeks to assist the student in exploring social work as a career choice, in planning an academic program suited to the student's interests and talents, in seeking help with academic or personal problems, and in postgraduation planning, whether for employment or for further study. The Office of Academic Affairs also provides administrative support and student services, including maintenance of academic records, provision of official degree audits, and graduation certification for social work majors. Faculty and staff members are also available to assist students with questions about scholarship programs, degree requirements, rules and regulations, and other available campus services. Students who declare an interest in completing the social work program are required to meet with a social work adviser at least once each semester for academic advising. To arrange an appointment with an adviser, students should contact the Office of Academic Affairs.

During the student's first and second academic years, the student and the adviser discuss the student's career choice, the selection of a major, degree requirements, and requirements for admission to the major and to upper-division courses in social work; during the third year, the work required for the major and the student's preparation for entry into the field practicum; and during the fourth year, the field practicum and the student's postgraduation plans.

### Career Choice Information

Students interested in social work as a career are encouraged to discuss this interest at any time with a social work adviser. Advisers are available in the school's Office of Academic Affairs to help students explore social work practice and settings and the development of interest in social work through academic and volunteer experiences. Students may also seek the assistance of the DiNitto Center for Career Services, described in Career Services.

Members of the social work faculty are also available to assist the student in choosing a career, as are the staff and resources of the University's Sanger Learning Center, the Volunteer and Service Learning Center, and the Center for Strategic Advising and Career Counseling in the School of Undergraduate Studies. Since the social work program requires admission to the major and completion of 125 semester hours, students are encouraged to discuss their interest in social work as a career early in their studies.

### Career Services

Career development services are provided to students preparing to enter the professional job market. Students should inquire in the DiNitto Center for Career Services, School of Social Work Building 2.214. The office maintains a listserv of employment opportunities and provides information about social work careers, graduate programs, online resources, and other opportunities for professional development, volunteer placement, and social work licensure. Workshops and other programs are offered on the fields of social work practice, résumé preparation, and job search and interview skills.

Professional social workers may seek employment in a number of areas. The Texas Department of Aging and Disability Services has established quality control standards that mandate the hiring of holders of BSW degrees in designated positions. The Texas Department of Family and Protective Services hires social workers for its child

protective services programs, and the Texas Health and Human Services Commission hires BSW graduates for its client support services programs. Large nursing home facilities are also required to have a social work staff. Substance abuse treatment programs, psychiatric hospitals, health care programs, school social work and dropout prevention programs, criminal justice programs, and programs for the elderly also employ social workers. More than a third of the program's graduates go on to graduate schools throughout the country.

As a complement to the assistance available from the school, the University's Sanger Learning Center in Jester Center and the Center for Strategic Advising and Career Counseling in the School of Undergraduate Studies provide comprehensive career services to all students. The centers offer professional assistance to students in choosing or changing their majors or careers, seeking an internship, and planning for the job search or for graduate study.

The University makes no promise to secure employment for each graduate.

## Social Work Council

The Social Work Council is an organization open to all students pursuing a social work degree or interested in the social work profession. The purposes of the council are to help students acquire a better understanding of the profession of social work, to provide a mechanism for student input on issues related to the social work curriculum and the school, and to organize and support social work related programs and projects that will benefit students, the school, the University, and the community.

Council activities are often conducted in collaboration with the Office of Academic Affairs. They include orientations to the BSW and MSSW programs, a career night, forums with guest speakers from community agencies and the University, community service projects, special interest groups that meet to discuss social work related topics, and social gatherings. Members of the council represent student concerns as voting members of the school's curriculum committees, the Senate of College Councils, and the Student Government.

## Professional Liability Insurance

Students must purchase professional liability insurance while they are enrolled in the field practicum. The cost is about fifteen dollars a semester. Payment is made to the Field Office of the School of Social Work. A criminal background check may be required as well.

## Admission and Registration

### Admission

#### Admission to the University

Admission and readmission of undergraduate students to the University is the responsibility of the director of admissions. Information about admission to the University is given in *General Information*.

#### Admission Policies of the School

The School of Social Work maintains two classifications of undergraduate students: pre-social work majors and social work majors. Pre-social work majors are usually freshmen and sophomores. After completing the requirements below, a student may apply for

admission to the professional curriculum as a social work major. Students who are admitted into the major complete at least three semesters of social work coursework and any other remaining degree requirements. Students who fulfill all degree requirements receive a Bachelor of Social Work degree.

The professional practice of social work requires people who are above average in academic ability and performance, sufficiently emotionally mature to assume a helping role with people under stress, and committed to the ethical standards and performance demands of social work practice. Students are encouraged to use the advising services in the School of Social Work early in their college careers in anticipation of meeting requirements for admission to the major. A student who is interested in seeking a social work degree must discuss his or her intentions with a social work adviser before applying for admission to the program.

## Admission to the School as a Pre-Social Work Major

A student may transfer from another division of the University to the School of Social Work in accordance with the regulations given in *General Information* (<http://registrar.utexas.edu/catalogs>).

A University student who wants to transfer as a pre-social work major must meet the following requirements:

1. Completion of at least twelve semester hours of coursework in residence at the University. Credit earned by exam, correspondence, and extension may not be counted toward this requirement.
2. A cumulative in-residence grade point average of at least 2.00.
3. If social work coursework has been completed prior to the application, a grade point of at least 2.50 in those courses is required, and all social work courses must have been completed with a grade of at least C.

Only currently enrolled students may apply. Forms to apply for internal transfer are available through the School of Social Work Office of Academic Affairs.

Admission to the School of Social Work is offered on a space-available basis to the students who are best qualified.

Students with over 90 semester hours of coursework or a completed degree are encouraged to consider other options, such as completing a degree in their current college/school or alternate institution with the option of pursuing a MSSW degree at a later date.

## Admission to the Major in Social Work

No student may enter the professional curriculum (the required upper-division social work courses) unless he or she has been admitted to the University as described in *General Information* and has been admitted to the major in social work by the assistant dean for undergraduate programs, following recommendation by the BSW Program Committee, according to the procedures below. All students are considered according to the policies given in the editions of *General Information* and the undergraduate catalog that are in effect at the time of the application.

The School of Social Work considers students for admission to the major twice a year, during the fall and spring semesters. A student who enters the University as a freshman in a fall semester will usually apply for admission to the professional curriculum in the spring semester of

the sophomore year or the fall semester of the junior year. Admission applications are distributed during mandatory information sessions held by the Office of Academic Affairs. The application allows the student to outline his or her background and motivation to enter the social work profession as well as any special experiences that enhance his or her application.

The School of Social Work limits admission to the major to the number of students to whom a professional education of high quality can be provided. Because of enrollment restrictions dictated by the availability of faculty members and facilities, some applicants may be denied admission even though they meet the following minimum requirements.

1. The applicant must have completed at least forty-five semester hours of coursework, including at least thirty hours chosen from the following requirements:
  - a. All requirements of the University's core curriculum (p. 21)
  - b. Sociology 302
  - c. Psychology 301
  - d. One three-semester-hour course in human biology: Biology 301L, 301M, 309D, 309F, or 311C
  - e. Second-semester-level proficiency, or the equivalent, in a single foreign language
  - f. A three-semester-hour course in economics
2. The applicant must have completed the following courses with a grade of at least C in each course: Social Work 310, 312, 313, 318, and either Human Development and Family Sciences 313 or Psychology 304. He or she must also have a grade point average of at least 2.50 in courses that are part of the social work major requirements
3. The applicant must have a University grade point average of at least 2.00
4. Application for admission must be made on forms available from the Office of Academic Affairs in the School of Social Work
5. The following must be submitted to the BSW Program by the application deadline:
  - A. The completed application for admission to the professional curriculum
  - B. A personal statement as explained on the application
  - C. At least two recommendation forms completed by appropriate individuals who can attest to the applicant's academic and professional readiness to enter the program
  - D. Documentation of successful completion of at least forty-five hours of supervised volunteer experience involving direct contact with clients in a human services organization
  - E. Official transcripts from all colleges attended, if the coursework has not been transferred to the student's University record
  - F. Score reports for any credit earned by examination, if the scores are not on the student's University record
6. The applicant may be asked to appear for a personal interview

The applicant is considered on the basis of academic performance and his or her commitment to and suitability for generalist social work practice. The committee also assesses the applicant's emotional and professional readiness to work with clients on the basis of such factors as his or her work in courses already taken, previous meetings

with social work advisers, personal statement, and the interview, if any, that is part of the application process. As a general guide, the committee also uses the *Student Standards for Social Work Education*, available at [www.utexas.edu/ssw/current/forms/](http://www.utexas.edu/ssw/current/forms/), which delineates expectations for social work students in four areas: basic abilities to acquire professional skills, mental and emotional abilities, professional performance skills, and scholastic performance. The *Standards* can be found in the appendix of the *BSW Handbook*, available at [www.utexas.edu/ssw/current/forms/](http://www.utexas.edu/ssw/current/forms/).

A student who is unable to attend in the semester for which he or she is admitted must reapply for admission in order to enroll at a later time. A student who has been admitted to and enrolls in the professional curriculum, withdraws, and then wishes to return must apply for readmission on the basis of the curriculum in effect at the time of the return. A student who has been out of the University for a semester or more must also submit an application for readmission to the University.

## Transfer Credit

As part of the application for admission to the University, students must submit transcripts from all other colleges and universities they have attended to the University's Office of Admissions. Students seeking readmission must submit transcripts from all schools they have attended since leaving the University. The Office of Admissions evaluates all transcripts and grants the student transfer credit when possible for coursework completed at the other schools.

Although the University's Office of Admissions may grant the student a certain number of semester hours of transfer credit for work completed in another social work program, the assistant dean for undergraduate programs in the School of Social Work determines whether this coursework may be counted toward fulfillment of the Bachelor of Social Work degree requirements. Students who wish to use transfer credit to meet degree requirements should submit a course syllabus, assignments, and the titles and names of authors of textbooks to the assistant dean for undergraduate programs for evaluation.

Students may also seek transfer credit for coursework they complete at another institution after enrolling at the University. In this case also the student should submit a transcript from the other institution to the University's Office of Admissions and a syllabus, course assignments, and information about textbooks to the School of Social Work's assistant dean for undergraduate programs.

## Registration

*General Information* gives information about registration, adding and dropping courses, transfer from one division of the University to another, and auditing a course. The *Course Schedule*, published at [registrar.utexas.edu/schedules/before](http://registrar.utexas.edu/schedules/before) registration each semester and summer session, includes registration instructions, advising locations, and the times, places, and instructors of classes. The *Course Schedule* and *General Information* are published on the registrar's Web site, <http://registrar.utexas.edu/>.

# Academic Policies and Procedures

## Honors

### University Honors

The designation University Honors, awarded at the end of each long-session semester, gives official recognition and commendation to students whose grades for the semester indicate distinguished academic accomplishment. Both the quality and the quantity of work done are considered. Criteria for University Honors are given in *General Information*.

### Graduation with University Honors

Students who, upon graduation, have demonstrated outstanding academic achievement are eligible to graduate with University Honors. Criteria for graduation with University Honors are given in *General Information*.

### School Honors Program

The Social Work Honors Program is available to outstanding students who have distinguished themselves by superior performance during their time at the University.

Majors who plan to seek special honors in social work should apply to the Honors Program Subcommittee of the BSW Program Committee for admission to the honors program at least one full year before they expect to graduate. A University grade point average of at least 3.50 is required for admission, as is a grade point average of at least 3.50 in all of the coursework required for the major that the student has completed. The requirements for graduation with special honors, which are in addition to the requirements for the major, are (1) a six-hour, two-semester honors tutorial course with a grade of at least B- in each half; (2) oral presentation of the honors thesis in a research colloquium open to the School of Social Work community and the public; (3) a University grade point average of at least 3.50 and a grade point average of at least 3.50 in the courses required for the major and for honors; and (4) completion in residence at the University of at least sixty hours of coursework counted toward the degree.

## Review and Grievance Procedures

The School of Social Work document *Student Standards for Social Work Education* delineates standards for professional education that apply to students enrolled in the School of Social Work. Because of the nature of professional social work practice, the School of Social Work has different expectations of students than do nonprofessional programs. All social work students are expected to abide by the *Standards* and by the National Association of Social Workers (NASW) Code of Ethics. When a student's performance does not meet expectations according to these established guidelines, a review may be called to bring the problem to the student's attention and to develop a plan to address the problem. Usually, the issue is resolved and the student is continued in the program with additional support provided to the student and/or conditions established for the student's continuance in the program. In some instances, depending on the nature of the problem, the student may be referred to the University's Office of the Dean of Students, counseled to change majors, or dismissed from the program.

Students enrolled in the social work program have the right to appeal decisions made by the social work program, including scholastic dismissal. Students are assured freedom from reprisals for filing appeals. Students who wish to appeal a decision made during a school review process should consult the *Standards* for information on grievance procedures, located in the BSW Handbook at [www.utexas.edu/ssw/current/forms/](http://www.utexas.edu/ssw/current/forms/).

## Graduation

### Special Requirements of the School

All students must fulfill the General Requirements (p. 18) for graduation. Students in the School of Social Work must also fulfill the following requirements.

1. All University students must have a grade point average of at least 2.00 to graduate. In the School of Social Work, students must also have a grade point average of at least 2.50 in required social work courses.
2. To receive an undergraduate degree from the University, every student must fulfill the following requirements on coursework taken in residence:
  - A. All University students must complete in residence at least sixty semester hours of coursework counted toward the degree. For the Bachelor of Social Work degree, these sixty hours must include at least twenty-four hours in the major and must include the required field practicum courses.
  - B. The University requires that at least six semester hours of advanced coursework in the major be completed in residence. The School of Social Work further requires that twenty-four of the forty-six hours of upper-division coursework for the Bachelor of Social Work be completed in residence.
3. An Air Force, Army, or Naval Reserve Officer Training Corps student who elects the basic and/or advanced program in air force science, military science, or naval science will not be approved for graduation until the government contract is completed, unless the student is released from the ROTC.

### Applying for Graduation

The Office of Academic Affairs provides each student with a computer-generated degree audit during each long-session semester. The degree audit notifies the student of the courses he or she must take and the requirements he or she must fulfill to receive the degree. The degree audit normally provides an accurate statement of requirements, but the student is responsible for knowing the exact requirements for the degree as stated in a catalog under which he or she is eligible to graduate and for registering so as to fulfill those requirements. The student should seek an official ruling in the Office of Academic Affairs before registering if in doubt about any requirement.

In the semester or summer session in which the degree is to be conferred, the candidate must be registered at the University and must apply for the degree in the Office of Academic Affairs. This should be done at the time of registration for the last semester, if possible, but in no event later than the deadline given in the official academic calendar.

No degree will be conferred unless the graduation application form has been filed on time.

### Advanced Standing in Master's Degree Programs

A number of graduate schools of social work grant advanced standing to students who have completed all the requirements of an accredited undergraduate social work program. Many programs allow up to one year of credit toward the master's degree in social work. Information about programs offering advanced standing is available in the Office of Academic Affairs.

## Degrees and Programs

### Applicability of Certain Courses

No more than thirty-six semester hours in any one field of study other than social work may be counted toward the Bachelor of Social Work degree. No more than sixty semester hours of social work may be counted toward the degree.

### Physical Activity Courses

Physical activity courses (PED) are offered by the Department of Kinesiology and Health Education. Six semester hours of this coursework may be counted toward the Bachelor of Social Work degree. All physical activity courses are counted among courses for which the student is enrolled, and the grades are included in the grade point average.

### ROTC Courses

No more than six semester hours of credit for air force science, military science, or naval science courses may be counted toward the Bachelor of Social Work. Such credit may be used only as lower-division electives in degree programs that have room for such electives and only by students who have completed the third and fourth years of the ROTC program.

### Correspondence and Extension Courses

Credit that a University student in residence earns simultaneously by correspondence or extension from the University or elsewhere or in residence at another school will not be counted toward a degree in the School of Social Work unless specifically approved in advance by the dean. No more than 30 percent of the semester hours required for the Bachelor of Social Work may be taken by correspondence. More information is available from the assistant dean for undergraduate programs.

### Courses Taken on the Pass/Fail Basis

Undergraduate students who have received at least thirty semester hours of college credit may take no more than five one-semester courses in elective subjects outside their major area on the pass/fail basis. Students must state their intention to register on this basis by the deadline given in the official academic calendar; they may not change the basis of registration in a course more than once; and they may not take more than two courses a semester on this basis.

## Other Courses

Music 101G may not be counted toward any degree in the School of Social Work. Other introductory courses, such as Music 201J, 201M, and 201N, may be counted toward degrees in the school.

No more than six semester hours of Bible courses may be counted toward the Bachelor of Social Work degree.

## The Minor

Plans for a minor in psychology, sociology, or another approved area may be developed with advising assistance from the Office of Academic Affairs. A minor requires completion of at least twelve semester hours, six of which must be upper-division.

## Bachelor of Social Work

The requirements for the Bachelor of Social Work degree are designed to give the student an opportunity for integrated, nonrepetitive learning. A total of 125 semester hours is required. These may include credit by examination and a maximum of five one-semester elective courses taken on the pass/fail basis. All students must complete the requirements for the major and must complete at least sixty semester hours in residence at the University. These sixty hours must include at least twenty-four semester hours in social work. A completed degree program must include at least forty-six semester hours of upper-division coursework, of which twenty-four semester hours must have been taken in residence. No more than sixty semester hours in social work may be counted toward the degree.

Each student must complete a sequence of prescribed work; major requirements, which include the field practicum; and special requirements, which include electives.

## Prescribed Work

The prescribed work provides the liberal arts base for the social work curriculum. Interdepartmental courses and credit by examination may be used to meet these requirements. Unless otherwise indicated, a course taken to meet the requirements of one area may not also be used to fulfill the requirements of another area; however, a single course may be used, unless otherwise indicated, to fulfill both an area requirement and a major requirement. No course used to fulfill area or major requirements, other than the field practicum, may be taken on the pass/fail basis.

## Core Curriculum

All students must complete the University's Core Curriculum (p. 22). A single course may not be counted toward more than one core area, but in some cases a course that is required for the Bachelor of Social Work may also be counted toward the core curriculum; these courses are identified below.

## Skills and Experience Flags

In the process of fulfilling the core curriculum and other degree requirements, all students pursuing the Bachelor of Social Work must complete courses that carry flags in the following areas:

1. Writing: Three courses beyond Rhetoric and Writing 306 or the equivalent that carry a writing flag; one of these courses must be upper-division. Social Work 323K and 327 count toward this

requirement; students must complete the third writing course outside the School of Social Work. Courses used to fulfill the writing requirement may be used to fulfill other requirements.

2. Cultural diversity in the United States: One flagged course. Social Work 310 and 325 carry the cultural diversity flag.
3. Ethics and leadership: One flagged course. Social Work 332 and 333 carry the ethics and leadership flag.
4. Quantitative reasoning: One flagged course. Social Work 318 carries the quantitative reasoning flag.
5. Global cultures: One flagged course chosen from approved list.

## Foreign Language

In addition to the core curriculum requirements above, undergraduates must earn credit for the second college-level course, or the equivalent, in a foreign language. American Sign Language may be used to fulfill this requirement.

## Major Requirements

The Bachelor of Social Work program offers basic courses designed to provide students with concentrated and in-depth educational experience combining social work knowledge and practice skills. No course used to fulfill major requirements, except Social Work 640 and 641, may be taken on the pass/fail basis. Students are advised to complete the core curriculum, the skills and experiences flags, the foreign language requirement, and all lower-division major requirements before taking upper-division courses. In developing their degree plans, students must also pay careful attention to the sequencing of social work courses to ensure that prerequisite requirements are met.

Academic credit cannot be granted for life experience or previous work experience, and such experience cannot be substituted for any of the courses in the professional foundation areas or the field practicum. Students who believe they have the qualifications to receive credit by examination for a social work course other than the practice sequence coursework (Social Work 312, 332, 333, and 334) and the field practicum may submit a written request to the assistant dean for undergraduate programs. The assistant dean will review the request and determine whether or not the student should be permitted to take the examination.

1. The following courses are required:
  - A. Social welfare policy: Social Work 310, 323K.
  - B. Research: Social Work 313, 318.
  - C. Human behavior: Social Work 325, 327.
  - D. Practice: Social Work 312, 332, 333, 334.
  - E. Field practicum: Social Work 640, 641, 444.
2. Students must complete a three-semester-hour introductory course in psychology. Psychology 301 fulfills this requirement and may also be counted toward the social and behavioral science requirement of the core curriculum.
3. Students must complete a three-semester-hour introductory course in sociology. Sociology 302 fulfills this requirement and may also be counted toward the social and behavioral science requirement of the core curriculum.
4. Students must complete either Human Development and Family Sciences 313 or Psychology 304.

5. Students must complete a three-semester-hour course in human/environmental biology: Biology 301L, 301M, 309D, 309F, 311C, or the equivalent. Biology 301L and 301M or Biology 311C and 301M may be used together to complete the science and technology part I requirement. If biology coursework is not used for science and technology part I, any of these courses may be used to fulfill the science and technology part II requirement.
6. Students must complete three semester hours in economics. Certain economics courses may also be used to fulfill the social and behavioral sciences requirement of the core curriculum.
7. Students must complete at least nine semester hours of upper-division coursework in the social and behavioral sciences (applied learning and development, anthropology, economics, educational psychology, government, history, kinesiology, psychology, sociology, Social Work 360K topics) in addition to other major requirements. Six of these nine hours may be upper-division social work electives.

## Field Sequence Requirements

The social work program requires that students complete 45 clock hours of supervised volunteer experience related to social work to be admitted to the major, to upper-division courses in social work, and to the field practicum. These volunteer hours may be used to meet course requirements in Social Work 310 and 312. Students must also complete 480 clock hours of fieldwork as part of the course requirements in Social Work 640 and 641. Students have the opportunity in the field practicum to develop the professional skills needed for entry-level social work positions as generalist practitioners. Adequate laboratory time through the field practicum is built into this professional program to provide students with an opportunity to test their developing skills in a real-life environment. At the same time, faculty members evaluate the student's professional development within the context of the educational objectives established for the experience. The goals are for the student to learn real-life practice, to develop skills, to relate concepts to skill development, to remain motivated to continue to learn, and to evaluate personal performance.

To enroll in the field practicum, students must meet the following requirements: (1) admission to the major in social work; (2) a University grade point average of at least 2.00; (3) completion of the core curriculum, the skills and experiences flags, and the foreign language requirement; and (4) both a grade point average of at least 2.50 for the following group of courses and a grade of at least C in each course in the group: Social Work 310, 312, 313, 318, 323K, 325, 327, 332, 333, and 334.

Following the student's admission to the field practicum, his or her work is reviewed periodically by the student, the field faculty, and the agency supervisor. Should the student have trouble meeting the professional or academic requirements of the program, the review process will bring the difficulty to the student's attention and assist the student in seeking appropriate resolution. The student may make use of counseling and advising services at any time. If difficulties cannot be resolved, the field director may conduct an administrative review, which may result in a decision to terminate the student's field placement. The student is notified of this decision in writing.

All social work students enrolling in the field practicum are required to show evidence of professional liability insurance coverage paid for the duration of the course. The effective date of the policy must be on or before the first regular class period of the field practicum course for

which the student is enrolling. Failure to provide evidence of insurance may result in the student being dropped from the field practicum.

## Special Requirements

### Elective Requirements and Limitations

In addition to the area and major requirements given above, the student must take elective coursework to complete the 125 semester hours required for the Bachelor of Social Work. No more than five one-semester courses taken on the pass/fail basis, thirty-six hours in any one field of study other than social work, and fifty-four hours in social work may be counted toward the 125-hour requirement.

### Minimum Scholastic Requirements

1. The student must fulfill the University-wide graduation (p. 18) requirements and the requirements of the School of Social Work given earlier in this section.
2. To apply for admission to the social work major, a student must have earned a grade of at least C in each of the following courses: Social Work 310, 312, 313, 318, and Psychology 304 or Human Development and Family Sciences 313. The student must also have a University grade point average of at least 2.00 and a grade point average of at least 2.50 in all the courses he or she has completed that are part of the social work major requirements. Additional requirements are given in the section Admission to the Major in Social Work (p. 619).
3. Following the student's admission to the major, the student's coursework is reviewed periodically by the student and the academic adviser. Students must maintain a University grade point average of at least 2.00; they must also earn a grade of at least C in each course listed as a social work major requirement and must maintain a grade point average of at least 2.50 in these courses. If the student has trouble meeting the professional or academic requirements of the major, the review process delineated in *Student Standards for Social Work Education*, available at [www.utexas.edu/ssw/current/forms/](http://www.utexas.edu/ssw/current/forms/), will bring the difficulty to the student's attention and assist the student in making appropriate resolution. The student may make use of counseling and advising services at any time.
4. If the student's grade point average in social work courses falls below 2.50, the student is placed on academic probation in social work. If the grade point average remains below 2.50 for two consecutive semesters, including the summer session, the student is subject to academic dismissal from the School of Social Work.
5. All students who seek to reenter the School of Social Work after having been placed on enforced withdrawal or academic dismissal must have the approval of the assistant dean for undergraduate programs.
6. Any student who has a grade of C or higher in a course may not repeat the course and use the second grade to improve his or her grade point average without special permission of the assistant dean for undergraduate programs. If a student repeats a course, all grades received for the course are included in the grade point average.

## Order and Choice of Work

A pre-social work major may fulfill the requirements for application to the major in four or five long-session semesters, depending on the number of hours completed each semester. After admission to the

major, students complete a three-semester professional sequence and additional requirements needed for the BSW degree.

#### Suggested Schedule for Pre–Social Work Majors

### First Year

Thirty semester hours:

- Rhetoric and Writing 306, *Rhetoric and Writing*
- Social Work 310, *Introduction to Social Work and Social Welfare*
- Psychology 301, *Introduction to Psychology*
- Biology 301M, *Ecology, Evolution, and Society*
- Undergraduate Studies 302, *First-Year Signature Course* or Undergraduate Studies 303, *First-Year Signature Course*
- A three-hour course to be counted toward the core curriculum mathematics requirement
- Sociology 302, *Introduction to the Study of Society*
- A three-hour course to be counted toward the American history requirement of the core curriculum
- A three-hour course to be counted toward the visual and performing arts requirement of the core curriculum
- Government 310L, *American Government*

### Second Year

Thirty-one semester hours:

- English 316K, *Masterworks of Literature*
- Government 312L, *Issues and Policies in American Government*
- Social Work 318, *Social Work Statistics*
- Social Work 312, *Generalist Social Work Practice: Knowledge, Values, and Skills*
- Social Work 313, *Social Work Research Methods*
- Psychology 304, *Introduction to Child Psychology*, or Human Development and Family Sciences 313, *Child Development*
- A three-hour course to be counted toward the American history requirement of the core curriculum
- Foreign language 506 and 507, or an equivalent sequence; or American Sign Language 506 and 507

### Third Year

Thirty-six semester hours:

- Six hours of coursework that, with Biology 301M, fulfill both parts of the core curriculum science and technology requirement
- A three-hour non–social work course that carries a writing flag
- A three-hour economics course
- Six hours of upper-division social and behavioral science coursework
- Six hours of elective coursework
- A three-hour global cultures flag course
- Social Work 325, *Foundations of Social Justice*
- Social Work 327, *Human Behavior and Social Environment*
- Social Work 334, *Social Work Practice in Organizations and Communities*

### Fourth Year

Thirty-one semester hours:

- Social Work 323K, *Social Welfare Programs, Policies, and Issues*
- Social Work 332, *Social Work Practice with Individuals and Families*
- Social Work 333, *Social Work Practice with Groups*
- Social Work 640, *Social Work Practicum I*
- Social Work 641, *Social Work Practicum II*
- Social Work 444, *Integrative Seminar*
- Three hours of upper-division coursework in social and behavioral science
- A three-hour upper-division elective if needed to provide the required forty-six hours of upper-division credit

The student must also complete all other remaining required coursework before the field practicum, including electives needed to provide the total of 125 semester hours required for the degree. No other courses may be taken concurrently with the field practicum courses.

## Courses

The faculty has approval to offer the following courses in the academic years 2012–2013 and 2013–2014; however, not all courses are taught each semester or summer session. Students should consult the *Course Schedule* to determine which courses and topics will be offered during a particular semester or summer session. The *Course Schedule* may also reflect changes made to the course inventory after the publication of this catalog.

A full explanation of course numbers is given in *General Information* (<http://catalog.utexas.edu/general-information>). In brief, the first digit of a course number indicates the semester hour value of the course. The second and third digits indicate the rank of the course: if they are 01 through 19, the course is of lower-division rank; if 20 through 79, of upper-division rank; if 80 through 99, of graduate rank.

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 627).

## Social Work: S W

### Lower-Division Courses

#### S W 301C. Freshman Seminar.

Restricted to first-semester freshmen. Small-group seminar involving reading, discussion, writing, and oral reports. Introduction to University resources, including libraries, computer and research facilities, and museums. Several sections are offered each semester, with various topics and instructors. Two lecture hours and one discussion hour a week for one semester.

#### S W 301D. Connecting Research Experience.

Restricted to freshmen and sophomores. Supervised research associated with the Connexus Bridging Disciplines Program. The equivalent of three lecture hours a week for one semester. With consent of the Connexus Bridging Disciplines Program, may be

repeated for credit. Prerequisite: Admission to the Connexus Bridging Disciplines Program.

### **S W 102D, 202D, 302D. Connecting Internship Experience.**

Supervised internship experience related to interdisciplinary themes of a Bridging Disciplines Program. Internships may be on or off campus, be paid or unpaid, and may include work with nonprofit agencies, government offices, or private corporations. For 102D, three hours of fieldwork a week for one semester; for 202D, six hours of fieldwork a week for one semester; for 302D, ten hours of fieldwork a week for one semester. With consent of the Bridging Disciplines Programs research coordinator, may be repeated once for credit. Prerequisite: Admission to the Bridging Disciplines Programs.

### **S W 310 (TCCN: SOCW 2361). Introduction to Social Work and Social Welfare.**

Introduction to the profession of social work and its roles in the social welfare system, with emphasis on social problems, society's historical response, and contemporary proposed solutions. Three lecture hours a week for one semester, and forty-five clock hours of volunteer experience.

### **S W 311. Selected Topics in Social Welfare.**

Analysis of selected policy and program implications in the human services. Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

### **S W 312. Generalist Social Work Practice: Knowledge, Values, and Skills.**

Introduction to generalist social work practice, with emphasis on the knowledge, values, and skills used in intervention. Three lecture hours a week for one semester, and forty-five clock hours of volunteer experience. Prerequisite: Social Work 310.

### **S W 313. Social Work Research Methods.**

Introduction to the logic, design, and use of research, with emphasis on research designs appropriate to social work. Three lecture hours a week for one semester. Prerequisite: Social Work 318.

### **S W 318. Social Work Statistics.**

Introduction to statistics commonly used in social work research, including the critical analysis of the findings and inferential processes of existing research studies. Three lecture hours a week for one semester. Prerequisite: Completion of the Area C mathematics requirement for the Bachelor of Social Work.

### **S W 118C, 218C, 318C. Forum Seminar Series.**

Restricted to freshmen and sophomores. Lectures and discussion on various contemporary issues. Emphasis on multidisciplinary perspectives and critical discourse. For 118C, two lecture hours a week for eight weeks; for 218C, two lecture hours a week for one semester; for 318C, three lecture hours a week for one semester, or two lecture hours and one hour of supervised research a week for one semester. May be repeated for credit when the topics vary.

## **Upper-Division Courses**

### **S W 320C. Connecting Research Experience.**

Supervised research associated with the Connexus Bridging Disciplines Program. The equivalent of three lecture hours a week for one semester. With consent of the Connexus Bridging Disciplines

Program, may be repeated for credit. Prerequisite: Upper-division standing and admission to the Connexus Bridging Disciplines Program.

### **S W 323K. Social Welfare Programs, Policies, and Issues.**

Study of structure and function of service delivery systems, policy analysis, and effects and influences of policy on practice and planning decisions. Three lecture hours a week for one semester. Prerequisite: Government 310L, 312L, History 315K, 315L, three semester hours of coursework in economics, and admission to the major in social work.

### **S W 325. Foundations of Social Justice.**

History and demographics of culturally diverse groups in the United States, including family and community diversity. Emphasis on principles of knowledge acquisition about cultural diversity and ethnic-sensitive social work practice. Three lecture hours a week for one semester. Social Work 325 and 360K (Topic: Cultural Diversity in a Changing Society) may not both be counted. Prerequisite: Admission to the major in social work.

### **S W 327. Human Behavior and Social Environment.**

Survey of selected theories of human behavior, including a systems/ecological perspective, ego psychology, and social learning theory, with emphasis on the life cycle from adolescence through adulthood. Three lecture hours and one laboratory hour a week for one semester. Prerequisite: Admission to the major in social work.

### **S W 128C, 228C, 328C. Advanced Connexus Forum Seminar Series.**

Discussion of contemporary issues related to the topics of a Bridging Disciplines Program, with an emphasis on multidisciplinary perspectives, research, and critical discourse. For 128C, two lecture hours a week for eight weeks; for 228C, two lecture hours a week for one semester; for 328C, three lecture hours or two lecture hours and one hour of supervised research a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Upper-division standing. Additional prerequisites may vary with the topic and are given in the Course Schedule.

### **S W 332. Social Work Practice with Individuals and Families.**

Theory and knowledge of effecting change in individuals and families, with emphasis on analytical and interactional processes and skills. Three lecture hours and one laboratory hour a week for one semester. Prerequisite: Social Work 325 and 327.

### **S W 333. Social Work Practice with Groups.**

Theory and knowledge of group dynamics and the development of effective group work skills, with an emphasis on analytical and interactional processes. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Social Work 325 and 327.

### **S W 334. Social Work Practice in Organizations and Communities.**

Theory and knowledge of effecting change in organizations and communities, with an emphasis on analytical and interactional processes and skills. Three lecture hours and one laboratory hour a week for one semester. Prerequisite: Social Work 325 and 327.

### **S W 640. Social Work Practicum I.**

Field practicum providing supervised experience in which students apply knowledge and develop skills of social work practice.

Educational supervision by faculty and by social workers in community agencies. Sixteen laboratory hours a week for one semester. Offered on the pass/fail basis only. Prerequisite: Admission to the field sequence and concurrent enrollment in Social Work 641 and 444.

**S W 641. Social Work Practicum II.**

Knowledge and skill in social work, building on objectives emphasized in Social Work 640. Educational supervision by faculty and by social workers in community agencies. Sixteen laboratory hours a week for one semester. Offered on the pass/fail basis only. Prerequisite: Admission to the field sequence and concurrent enrollment in Social Work 640 and 444.

**S W 444. Integrative Seminar.**

Integration of theory and practice on the basis of field practicum experiences. Four lecture hours a week for one semester. Prerequisite: Completion of all requirements for the Bachelor of Social Work degree except Social Work 640 and 641, and concurrent enrollment in Social Work 640 and 641.

**S W 350. Special Topics in Generalist Social Work.**

Conference course. May be repeated for credit. Prerequisite: Upper-division standing.

**S W 360K, 460K. Current Welfare Issues.**

A tutorial and seminar course designed to enable each student to undertake intensive study of selected aspects of social welfare practice. Topics include child abuse and neglect, chemical dependency, African American family, gerontology, and social work and the law. Three or four lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic and is given in the Course Schedule.

**Topic 1: Computer Applications in Direct Services.**

**Topic 2: African American Family.** Social Work 360K (Topic 2) is same as African and African Diaspora Studies 374 (Topic 1: African American Family) and Women's and Gender Studies 340 (Topic 3: African American Family).

**S W 679H. Honors Tutorial Course.**

Individual conference course in social work research and writing. The equivalent of three lecture hours a week for two semesters. Prerequisite: Upper-division standing and admission to the Social Work Honors Program.

## Appendix A: Texas Common Course Numbering System

To help students transfer credit from one institution to another, Texas community colleges employ a statewide numbering system for their courses. The Texas Common Course Numbering system (TCCN) is a standard set of four-character abbreviations for academic disciplines and four-digit course numbers. The first digit of the number represents the academic level of the course (0 for subfreshman, 1 for freshman, and 2 for sophomore); the second represents the semester credit hour value of the course. Texas public universities, and some private ones, cross-reference their courses with TCCN.

Listed below are TCCN course designations and their University transfer credit evaluations. In the University's three-digit numbering system, the first digit indicates the semester credit hour value of the course. The suffixes *A* and *B* indicate the first and second parts of a course; credit for each part is half the value indicated by the first digit.

Notes are given below the table.

MUAP	Applied music performance courses transfer as generic semester hour credit in an appropriate instrument. Degree and prerequisite applicability for music majors is determined by the Butler School of Music.
MUEN	Music ensemble courses transfer with appropriate University course numbers where applicable, otherwise as generic semester hour credit in ensemble (ENS).

(or 2326 and 2126), which transfer as indicated. However, a few community colleges add a third course, PHYS 2427. In such cases, PHYS 2425 may transfer as Physics 301 and 101L; PHYS 2426 may transfer as Physics 316 and 116L; and PHYS 2427 may transfer either as Physics 315 and 115L or as generic physics credit.

7. For School of Architecture students, ARCH 1311 transfers as generic architecture credit and Architecture 308 must be taken in residence.

1. This is a modified course number with a higher credit value than is normally offered at the University. The higher value does not affect the course's applicability toward degree requirements.

2. Lower-division biology courses may transfer as generic credit, without a specific University course number. The terms "FLAB" and "SLAB" identify freshman- and sophomore-level combined lecture and laboratory credit; "FRMN" and "SOPH," freshman- and sophomore-level lecture credit; and "LAB," lower-division laboratory credit. For students in the School of Biological Sciences, such credit is applicable toward degrees only with department approval. For students in other degree plans that require specific biology courses, such credit is applicable toward degrees only with the approval of the student's academic dean. Introductory major-track lecture credit (TCCN BIOL 1406, 1407, 1306, or 1307) generally transfers as Biology 311C and 311D. Major-track laboratory credit (TCCN BIOL 1106, 1107, or the lab components of 1406 and 1407) generally transfers with the modified course numbers BIO 206LA and 206LB to reflect a lower credit value than is normally offered at the University.

Nonmajor lecture credit (TCCN BIOL 1408, 1409, 1308, or 1309) generally transfers as Biology 301L and 301M. Nonmajor laboratory credit (TCCN BIOL 1108, 1109, or the lab components of 1408 and 1409) transfers generically, because the University does not offer nonmajor lab courses.

3. This is a modified course number with a lower credit value than is normally offered at the University. In many cases, such transfer credit may be counted toward degree requirements in place of the higher-value University course; however, such substitution is at the discretion of the student's academic dean.

4. This is a course no longer offered at the University but still used in awarding transfer credit and still applicable toward certain degree requirements. For students in the School of Nursing, BIOL 2420, 2421, 2320, 2321, 2120, and 2121 transfer as retired microbiology courses.

5. Courses offered to fulfill the legislative requirement in government are not uniform in content and sequencing among schools. GOVT 2301 and 2302 transfer as Government 310L and 312L; GOVT 2305 and 2306 transfer as generic credit. It is strongly recommended that students complete the required two-course sequence, either GOVT 2301 and 2302 or GOVT 2305 and 2306, at one institution.

6. At most Texas community colleges, calculus-based physics is offered in a two-semester sequence represented by the TCCN designations PHYS 2425 (or 2325 and 2125) and 2426

## Appendix B: Course Abbreviations

The University offers courses in the following fields of study. The abbreviations in the second column are used in catalogs, course schedules, and student records. Some of the fields listed are offered only at the graduate level.

Field of Study	Abbreviation
Accounting	ACC
Actuarial foundations	ACF
Advertising	ADV
Aerospace engineering	ASE
African and African diaspora studies	AFR

# School of Architecture Faculty

Dean J Almy, Associate Professor  
School of Architecture  
MArch, University of Texas at Austin, 1989

Anthony Alofsin, Professor  
Roland Gommel Roessner Centennial Professorship in Architecture  
School of Architecture  
PhD, Columbia University in the City of New York, 1987

Kevin S Alter, Professor  
The Sid W. Richardson Centennial Professorship in Architecture  
School of Architecture  
MArch, Harvard University, 1990

John H Asher, Lecturer  
School of Architecture  
MLA, University of Texas at Austin, 2007

Simon D Atkinson, Professor  
Mike Hogg Professorship in Community and Regional Planning  
School of Architecture  
PhD, University of Sheffield, 1989

Karen O Banks, Lecturer  
School of Architecture  
MSCRP, University of Texas at Austin, 2011

Michael L Beaman, Assistant Professor  
School of Architecture  
MArch, Harvard University, 2003

M W Bell, Professor Emeritus  
School of Architecture  
BArch, University of Texas at Austin, 1960

Michael L Benedikt, Professor  
Hal Box Endowed Chair in Urbanism  
School of Architecture  
MEnvironD, Yale University, 1975

Miroslava Benes, Associate Professor  
School of Architecture  
PhD, Yale University, 1989

Judith C Birdsong, Lecturer  
School of Architecture  
MArch, University of Florida, 1992

James S Black, Professor  
Roberta P. Crenshaw Centennial Professorship in Urban Design and  
Environmental Planning  
School of Architecture  
MArch, University of California-Berkeley, 1970

John P Blood, Senior Lecturer  
School of Architecture  
MArch, Yale University, 1987

Jon A Bowman, Professor Emeritus  
School of Architecture  
MArch, University of Texas at Austin, 1962

Danelle Irene Briscoe, Assistant Professor  
School of Architecture

MArch, Yale University, 2002

Barbara B Brown Wilson, Assistant Professor  
School of Architecture  
PhD, University of Texas at Austin, 2010

David Bucek, Adjunct Associate Professor  
School of Architecture  
MArch, Harvard University, 1992

Charles O Cappleman, Associate Professor Emeritus  
School of Architecture  
MFA, University of Texas at Austin, 1966

Richard L Cleary, Professor  
School of Architecture  
PhD, Columbia University in the City of New York, 1986

Coleman Coker, Adjunct Professor  
School of Architecture  
MFA, Memphis College of Art, 1994

Peter O Coltman, Associate Professor Emeritus  
School of Architecture  
MS, University of Texas at Austin, 1965

Robert J Coote, Professor Emeritus  
School of Architecture  
MA, Harvard University, 1959

Ernesto Cragolino, Lecturer  
School of Architecture  
BArch, University of Texas at Austin, 1997

Ulrich C Dangel, Associate Professor  
School of Architecture  
MArch, University of Oregon, 1999

Elizabeth A Danze, Associate Professor  
School of Architecture  
MArch, Yale University, 1990

Derek Stephen Dellekamp, Visiting Professor  
School of Architecture  
BArch, Ibero-American University, 1997

Charles H Di Piazza, Lecturer  
School of Architecture  
MArch, University of Texas at Austin, 1996

Larry A Doll, Associate Professor  
School of Architecture  
MArch, Cornell University, 1974

Sarah Eileen Dooling, Assistant Professor  
School of Architecture  
PhD, University of Washington - Seattle, 2008

Lee Einsweiler, Lecturer  
School of Architecture  
MS, University of North Carolina at Chapel Hill, 1985

Matthew L Fajkus, Assistant Professor  
School of Architecture  
MArch, Harvard University, 2005

Frances Rogers Gale, Senior Lecturer  
School of Architecture

MS, Columbia University in the City of New York, 1982

Sarah Gamble, Lecturer  
School of Architecture  
MArch, University of Texas at Austin, 2005

Michael L Garrison, Professor  
School of Architecture  
MArch, Rice University, 1971

Carmen M Garufo, Lecturer  
School of Architecture  
BArch, Pratt Institute, 1966

Allison H Gaskins, Lecturer  
School of Architecture  
MArch, University of Texas at Austin, 2007

Robert E Gay, Lecturer  
School of Architecture  
MArch, University of Texas at Austin, 2005

Tamie Michele Glass, Assistant Professor  
School of Architecture  
MArch, University of Oregon, 2001

Francisco Henning Gomes, Assistant Professor  
School of Architecture  
MArch, Harvard University, 1995

Hope Hasbrouck, Associate Professor  
School of Architecture  
MLArch, Harvard University, 1996

David D Heymann, Professor  
Harwell Hamilton Harris Regents Professorship in Architecture  
School of Architecture  
MArch, Harvard University, 1988

Barbara Hoidn, Adjunct Associate Professor  
School of Architecture  
MArchE, Universitat Friedericiana Karlsruhe, 1988

Michael Holleran, Associate Professor  
School of Architecture  
PhD, Massachusetts Institute of Technology, 1991

Richard Wayne Jennings, Adjunct Professor  
School of Architecture  
PhD, Harvard University, 2008

Terry D Kahn, Professor  
David Bruton, Jr. Centennial Professorship in Urban Design  
School of Architecture  
PhD, University of California-Berkeley, 1970

Brian J Kelsey, Lecturer  
School of Architecture  
MPAff, University of Texas at Austin, 2004

Nancy P Kwallek, Professor  
Gene Edward Mikeska Endowed Chair for Interior Design  
School of Architecture  
PhD, Purdue University Main Campus, 1978

Christopher Paul Lalich, Lecturer  
School of Architecture

MLA, Texas Tech University, 2000

Fernando Luiz Lara, Assistant Professor  
School of Architecture  
PhD, University of Michigan-Ann Arbor, 2001

Daniel E Leary, Associate Professor Emeritus  
School of Architecture  
MArch, University of Pennsylvania, 1966

Ming-Chun Lee, Assistant Professor  
School of Architecture  
PhD, University of Washington - Seattle, 2008

Robert M Legge, Lecturer  
School of Architecture  
BArch, Cooper Union, 1990

Gerlinde Leiding, Professor Emeritus  
School of Architecture  
MArch, Yale University, 1966

Charlton N Lewis, Specialist  
School of Architecture  
BArch, University of Texas at Austin, 1995

Christopher A Long, Professor  
School of Architecture  
PhD, University of Texas at Austin, 1993

Sarah L Lopez, Assistant Professor  
School of Architecture  
PhD, University of California-Berkeley, 2011

Mark Macek, Specialist  
School of Architecture  
BArch, University of Texas at Austin, 1990

Deborah Mary Mann, Lecturer  
School of Architecture  
MS, University of Cape Town, 1996

Carl Matthews, Associate Professor  
School of Architecture  
MS, Pratt Institute, 1993

Talia Melanie McCray, Assistant Professor  
School of Architecture  
PhD, University of Michigan-Ann Arbor, 2001

Robert J Mezquiti, Lecturer  
School of Architecture  
MArch, Columbia University in the City of New York, 2006

S Milovanovic-Bertram, Associate Professor  
School of Architecture  
MArch, Harvard University, 1974

Juan Miro, Professor  
School of Architecture  
MArch, Yale University, 1991

Steven A Moore, Professor  
Bartlett Cocke Regents Professorship in Architecture  
School of Architecture  
PhD, Texas A & M University, 1996

Adrian Moreno, Visiting Associate Professor

Eugene McDermott Centennial Visiting Professorship  
School of Architecture  
BArch, Universidad Central del Ecuador, 1999

Elizabeth Mueller, Associate Professor  
School of Architecture  
PhD, University of California-Berkeley, 1992

Catherine Morris O'Connor, Lecturer  
School of Architecture  
MLA, Harvard University, 1994

Mark A Oberholzer, Lecturer  
School of Architecture  
MArch, Rice University, 1994

Michael Oden, Associate Professor  
School of Architecture  
PhD, New Sch for Soc Research, 1992

Clay D Odom, Lecturer  
School of Architecture  
MS, Columbia University in the City of New York, 2003

Robert G Paterson, Associate Professor  
School of Architecture  
PhD, University of North Carolina at Chapel Hill, 1993

Monica Penick, Lecturer  
School of Architecture  
PhD, University of Texas at Austin, 2007

Adam Aleksander Pyrek, Lecturer  
School of Architecture  
MA, Architectural Association School of Architecture, 2005

Peter S Raab, Lecturer  
School of Architecture  
MArch, University of Texas at Austin, 2007

Rachael Rawlins, Senior Lecturer  
School of Architecture  
JD, University of Texas at Austin, 1993

Edward Emile Richardson, Lecturer  
School of Architecture  
MArch, Yale University, 2004

Joyce Rosner, Senior Lecturer  
School of Architecture  
MArch, University of Houston, 1981

Stephen L Ross, Senior Lecturer  
School of Architecture  
MA, University of Texas at Austin, 1990

Jose Maria Saez Vaquero, Visiting Associate Professor  
Eugene McDermott Centennial Visiting Professorship  
School of Architecture  
BArch, Universidad Politecnica de Madrid (UPM), 1990

Jack D Sanders, Lecturer  
School of Architecture  
MArch, University of Texas at Austin, 2005

Stefan K Schuster, Lecturer  
School of Architecture

MS, University of Texas at Austin, 1996

Allan W Shearer, Assistant Professor  
School of Architecture  
PhD, Harvard University, 2003

Thomas C Shortall, Lecturer  
School of Architecture  
MArch, Washington University in St Louis, 2004

Keith A Shuley, Lecturer  
School of Architecture  
JD, University of Houston, 1981

Igor P Siddiqui, Assistant Professor  
School of Architecture  
MArch, Yale University, 2003

Mark T Simmons, Lecturer  
School of Architecture  
PhD, Texas A & M University, 2003

Keith Simon, Lecturer  
School of Architecture  
MArch, University of Oregon, 2004

Bjorn Ingmann Sletto, Assistant Professor  
School of Architecture  
PhD, Cornell University, 2006

Gregory W Smith, Lecturer  
School of Architecture  
MA, University of Delaware, 1991

Marla Smith, Lecturer  
School of Architecture  
MArch, University of Texas at Austin, 1996

Vincent L Snyder, Associate Professor  
School of Architecture  
MArch, Princeton University, 1988

Stephen M Sonnenberg, Adjunct Professor  
School of Architecture  
MD, Yeshiva University, 1965

Jason Spencer Sowell, Assistant Professor  
School of Architecture  
MArch, Harvard University, 2004

Lawrence W Speck, Professor  
The W. L. Moody, Jr. Centennial Professorship in Architecture  
School of Architecture  
MArch, Massachusetts Institute of Technology, 1972

Frederick R Steiner, Professor  
Henry M. Rockwell Chair in Architecture  
School of Architecture  
PhD, University of Pennsylvania, 1986

William F Stern, Adjunct Associate Professor  
School of Architecture  
MArch, Harvard University, 1973

Richard P Swallow, Professor Emeritus  
School of Architecture  
MArch, Massachusetts Institute of Technology, 1957

Rabun M Taylor, Assistant Professor  
School of Architecture  
PhD, University of Minnesota-Twin Cities, 1997

Charles Kevin Thompson, Specialist  
School of Architecture  
BArch, University of Texas at Austin, 1981

Danilo F Udovicki, Associate Professor  
School of Architecture  
PhD, Massachusetts Institute of Technology, 1995

Gary Wang, Lecturer  
School of Architecture  
MArch, University of Michigan-Ann Arbor, 1998

Wilfried Wang, Professor  
O'Neil Ford Centennial Chair in Architecture  
School of Architecture  
MS, University College London, 1981

Lois Weinthal, Associate Professor  
School of Architecture  
MArch, Cranbrook Academy of Art, 1998

Dason M Whitsett, Lecturer  
School of Architecture  
MS, University of Texas at Austin, 2005

Nichole Wiedemann, Associate Professor  
School of Architecture  
MA, Princeton University, 1992

Roxanne K Williamson, Professor Emeritus  
School of Architecture  
MA, University of Texas at Austin, 1965

Patricia A Wilson, Professor  
School of Architecture  
PhD, Cornell University, 1975

Chen Ching D Yang, Lecturer  
School of Architecture  
PhD, Texas A & M University, 2001

Ming Zhang, Associate Professor  
School of Architecture  
PhD, Massachusetts Institute of Technology, 2002

## Red McCombs School of Business Faculty

Robert J Adams, Lecturer  
Department of Management  
PhD, Capella University, 2007

Ashish Agarwal, Assistant Professor  
Department of Information, Risk, and Operations Management  
PhD, Carnegie Mellon University, 2009

James William Albrecht, Lecturer  
Department of Accounting  
BBA, University of Texas at Austin, 1975

Joshua D Alexander, Lecturer  
Department of Finance  
MBA, University of Pennsylvania, 2009

John R Allison, Professor  
Mary John and Ralph Spence Centennial Professorship  
Business, Government and Society  
JD, Baylor University, 1972

Andres Almazan, Professor  
Department of Finance  
PhD, Massachusetts Institute of Technology, 1996

Mark I Alpert, Professor  
Foley's Professorship in Retailing  
Department of Marketing  
DBA, University of Southern California, 1968

Aydogan Altı, Associate Professor  
Department of Finance  
PhD, Carnegie Mellon University, 2002

Emily Tara Amanatullah, Assistant Professor  
Department of Management  
PhD, Columbia University in the City of New York, 2007

Edward G Anderson, Associate Professor  
Department of Information, Risk, and Operations Management  
Department of Management  
PhD, Massachusetts Institute of Technology, 1997

Mary A Anderson, Lecturer  
Department of Information, Risk, and Operations Management  
MS, Massachusetts Institute of Technology, 1997

Urton L Anderson, Professor  
Clark W. Thompson, Jr. Professorship in Accounting Education  
Department of Accounting  
PhD, University of Minnesota-Twin Cities, 1985

Jeffrey S Andrien, Lecturer  
Department of Marketing  
MBA, University of Texas at Austin, 2005

Fernando Antonio Nunes Dionisio Anjos, Assistant Professor  
Department of Finance  
PhD, Carnegie Mellon University, 2008

Patricia M Arnold, Lecturer  
Department of Information, Risk, and Operations Management  
BA, University of Texas at Austin, 1970

Victor L Arnold, Professor Emeritus  
Department of Management  
PhD, University of Wisconsin-Madison, 1971

Mihran A Aroian, Lecturer  
Department of Management  
MBA, University of Texas at Austin, 1988

Florence J Atiase, Lecturer  
Department of Accounting  
MAcc, University of Florida, 1983

Rowland Atiase, Professor  
Department of Accounting  
PhD, University of California-Berkeley, 1980

Patrick G Badolato, Clinical Assistant Professor  
Department of Accounting  
PhD, Duke University, 2010

Uttarayan Bagchi, Professor  
Department of Information, Risk, and Operations Management  
PhD, Pennsylvania State University Main Campus, 1985

Mark B Baker, Associate Professor Emeritus  
Department of Information, Risk, and Operations Management  
JD, Southern Methodist University, 1974

Anantaram Balakrishnan, Professor  
Kenneth M. and Susan T. Jastrow II Chair in Business  
Department of Information, Risk, and Operations Management  
PhD, Massachusetts Institute of Technology, 1985

Michael J Barrett, Lecturer  
Department of Management  
PhD, University of Texas at Austin, 1994

Caroline A Bartel, Associate Professor  
Department of Management  
PhD, University of Michigan-Ann Arbor, 1998

Anitesh Barua, Professor  
Mr. and Mrs. William F. Wright, Jr. Centennial Professorship for  
Management of Innovative Technology  
Department of Information, Risk, and Operations Management  
PhD, Carnegie Mellon University, 1990

Cynthia M Beath, Professor Emeritus  
Department of Information, Risk, and Operations Management  
PhD, University of California-Los Angeles, 1986

Ben Bentzin, Lecturer  
Department of Marketing  
MBA, University of Pennsylvania, 1992

Y Sekou Bermiss, Assistant Professor  
Department of Management  
PhD, Northwestern University, 2009

Calvin P Blair, Professor Emeritus  
Department of Marketing  
PhD, University of Texas at Austin, 1957

Jason S Boulette, Lecturer  
Business, Government and Society  
JD, University of Texas at Austin, 1997

Mark L Bradshaw, Lecturer  
Department of Accounting  
JD, University of Texas at Austin, 1988

Floyd S Brandt, Professor Emeritus  
Department of Management  
DBA, Harvard University, 1960

Dean A Bredeson, Senior Lecturer  
Business, Government and Society  
JD, University of Texas at Austin, 1995

Patrick L Brockett, Professor  
Gus Wortham Memorial Chair in Risk Management and Insurance  
Department of Information, Risk, and Operations Management  
Department of Finance  
PhD, University of California-Irvine, 1975

AuD, A T Still University of Health Sciences, School of Health  
Sciences, 2006

## College of Education Faculty

Lawrence D Abraham, Professor  
Department of Kinesiology and Health Education  
EdD, Teachers College, Columbia University, 1975

Jennifer Keys Adair, Assistant Professor  
Department of Curriculum and Instruction  
PhD, Arizona State University Main, 2009

Ricardo C Ainslie, Professor  
Department of Educational Psychology  
PhD, University of Michigan-Ann Arbor, 1979

Funsho M Akingbala, Lecturer  
Department of Curriculum and Instruction  
PhD, University of Texas at Austin, 1978

Steven R Aleman, Lecturer  
Department of Special Education  
JD, George Washington University, 1996

Douglas G Allen, Associate Professor  
Department of Educational Psychology  
PhD, San Diego State University, 2000

Cassandre G Alvarado, Lecturer  
Department of Educational Administration  
PhD, University of Texas at Austin, 2004

Margarita M Arellano, Lecturer  
Department of Educational Psychology  
PhD, University of Texas at Austin, 1987

Robin D Atwood, Research Assistant Professor (Affiliated)  
Department of Kinesiology and Health Education  
EdD, University of Texas at Austin, 1999

Germine H Awad, Assistant Professor  
Department of Educational Psychology  
PhD, Southern Illinois University Carbondale, 2005

Natalie C Barraga, Professor Emeritus  
Department of Special Education  
PHD-EDD, George Peabody C Teachers, 1963

John Bartholomew, Professor  
Department of Kinesiology and Health Education  
PhD, Arizona State University Main, 1996

James P Barufaldi, Professor  
Ruben E. Hinojosa Regents Professorship in Education  
Department of Curriculum and Instruction  
PhD, University of Maryland College Park, 1972

Department of Curriculum and Instruction  
PhD, Northwestern University, 2008

Edgar W Bessent, Professor Emeritus  
Department of Educational Administration  
PhD, University of Texas at Austin, 1961

George M Blanco, Associate Professor Emeritus  
Department of Curriculum and Instruction  
PhD, University of Texas at Austin, 1971

Whitney G Blankenship, Clinical Assistant Professor  
Department of Curriculum and Instruction  
PhD, University of Texas at Austin, 2010

Katherine Bomer, Lecturer  
Department of Curriculum and Instruction  
MA, Teachers College, Columbia University, 1990

Randy Bomer, Associate Professor  
Department of Curriculum and Instruction  
PhD, Teachers College, Columbia University, 1996

John G Bordie, Professor Emeritus  
Department of Curriculum and Instruction  
PhD, University of Texas at Austin, 1958

Gary D Borich, Professor  
Department of Educational Psychology  
EdD, Indiana University at Bloomington, 1970

Matthew Bowers, Lecturer  
Department of Kinesiology and Health Education  
PhD, University of Texas at Austin, 2011

Gene I Brooks, Lecturer  
Department of Special Education  
PhD, University of Texas at Austin, 2000

Robert Matthew Brothers, Assistant Professor  
Department of Kinesiology and Health Education  
PhD, University of North Texas, 2007

Anthony L Brown, Assistant Professor  
Department of Curriculum and Instruction  
PhD, University of Wisconsin-Madison, 2006

Christopher P Brown, Associate Professor  
Department of Curriculum and Instruction

PhD, University of Wisconsin-Madison, 2004

Keffrelyn D Brown, Assistant Professor  
Department of Curriculum and Instruction  
PhD, University of Wisconsin-Madison, 2006

Chris B Brownson, Clinical Associate Professor  
Department of Educational Psychology  
PhD, University of Texas at Austin, 2001

Lawrence A Brownstein, Senior Lecturer  
Department of Educational Psychology  
PhD, University of Texas at Austin, 1977

Brian R Bryant, Research Professor (Affiliated)  
Department of Special Education  
PhD, University of Texas at Austin, 1984

Diane P Bryant, Professor  
Department of Special Education  
PhD, University of New Mexico Main Campus, 1986

Pamela S Buchanan, Lecturer  
Department of Kinesiology and Health Education  
MA, Sam Houston State University, 1988

Brenda G Bush, Lecturer  
Department of Special Education  
MEd, University of Texas at Austin, 2001

Jesse J Butler, Adjunct Professor  
Department of Educational Administration  
EdD, Oklahoma State University Main Campus, 1983

Ralph W Cain, Associate Professor Emeritus  
Department of Curriculum and Instruction  
PhD, University of Texas at Austin, 1964

Rebecca Marie Callahan, Assistant Professor  
Department of Curriculum and Instruction  
PhD, University of California-Davis, 2003

Jessica Duncan Cance, Assistant Professor  
Department of Kinesiology and Health Education  
PhD, University of North Carolina at Chapel Hill, 2010

Norma V Cantu, Professor  
Ken McIntyre Professorship for Excellence in School Leadership  
Department of Educational Administration  
JD, Harvard University, 1977

V R Cardozier, Professor Emeritus  
Department of Educational Administration  
PhD, Ohio State U Main Campus, 1952

Margie Gurley Seay Centennial Professorship in Education  
Department of Educational Psychology  
PhD, Indiana University at Bloomington, 1982

Guadalupe D Carmona-Dominguez, Assistant Professor  
Department of Curriculum and Instruction  
PhD, Purdue University Main Campus, 2004

Laroy R Carry, Professor Emeritus  
Department of Curriculum and Instruction  
PhD, Stanford University, 1968

Heather L Carter, Professor Emeritus  
Department of Curriculum and Instruction  
PhD, University of Maryland College Park, 1969

Jennifer L Carter, Lecturer  
Department of Educational Psychology  
PhD, University of Texas at Austin, 2004

Darla Marie Castelli, Associate Professor  
Department of Kinesiology and Health Education  
PhD, University of South Carolina - Columbia, 2002

Stephanie Washbourn Cawthon, Assistant Professor  
Department of Educational Psychology  
PhD, University of Wisconsin-Madison, 2000

Laurence H Chalip, Professor  
Department of Kinesiology and Health Education  
PhD, University of Chicago, 1988

Stephen Paul Ciullo, Lecturer  
Department of Special Education  
PhD, University of Texas at Austin, 2011

Kevin O Cokley, Associate Professor  
Department of Educational Psychology  
PhD, Georgia State University, 1998

Denise Collier, Adjunct Professor  
Department of Educational Administration  
EdD, University of Texas at Austin, 2001

Nelson W Coulter, Adjunct Assistant Professor  
Department of Educational Administration  
EdD, Texas Tech University, 2006

Edward F Coyle, Professor  
Department of Kinesiology and Health Education  
PhD, University of Arizona, 1979

Charles W Craven, Associate Professor Emeritus  
Department of Kinesiology and Health Education  
MEd, University of Texas at Austin, 1968

Sheri L Crossett, Lecturer  
Department of Curriculum and Instruction  
MEd, Texas State University-San Marcos, 2003

Don S Crowley, Specialist  
Department of Kinesiology and Health Education  
BS, University of Texas at Austin, 1990

Nancy P Daley, Adjunct Assistant Professor  
Department of Educational Psychology  
PhD, University of Texas at Austin, 1991

Ozro L Davis, Professor Emeritus  
Department of Curriculum and Instruction  
PhD, Vanderbilt University, 1958

Noah De Lissovoy, Assistant Professor  
Department of Curriculum and Instruction  
PhD, University of California-Los Angeles, 2005

Rosario C Deleon, Clinical Assistant Professor  
Department of Educational Psychology  
PhD, University of Houston, 2005

Cesar Delgado, Assistant Professor  
Department of Curriculum and Instruction  
PhD, University of Michigan-Ann Arbor, 2009

Mark David Dietz, Lecturer  
Department of Educational Administration  
PhD, University of Texas at Austin, 2008

Jonathan B Dingwell, Associate Professor  
Department of Kinesiology and Health Education  
PhD, Pennsylvania State University Main Campus, 1998

Marlene A Dixon, Associate Professor  
Department of Kinesiology and Health Education  
PhD, Ohio State U Main Campus, 2002

Barbara G Dodd, Professor  
Department of Educational Psychology  
PhD, University of Texas at Austin, 1984

Pamela S Dougherty, Clinical Assistant Professor  
Department of Curriculum and Instruction  
PhD, University of North Texas, 1997

David J Drum, Professor  
Department of Educational Psychology  
PhD, American University, 1969

Susan K Dubois, Adjunct Assistant Professor  
Department of Kinesiology and Health Education  
MD, University of Texas Health Science Center at Houston, 1988

Cynthia H Edwards, Lecturer  
Department of Special Education  
MEd, University of Texas at Austin, 2007

Bonnie M Elliott, Clinical Assistant Professor  
Department of Curriculum and Instruction  
PhD, University of Texas at Austin, 1999

Edmund T Emmer, Professor  
Department of Educational Psychology  
Department of Educational Psychology  
PhD, University of Michigan-Ann Arbor, 1967

Susan B Empson, Associate Professor  
Department of Curriculum and Instruction  
PhD, University of Wisconsin-Madison, 1994

Nolan Estes, Professor Emeritus  
Department of Educational Administration  
EdD, Harvard University, 1959

Gulielma Leonard Fager, Lecturer  
Department of Kinesiology and Health Education  
MPH, Columbia University in the City of New York, 2007

John D Fair, Adjunct Professor  
Department of Kinesiology and Health Education  
PhD, Duke University, 1970

Toni L Falbo, Professor  
Department of Educational Psychology  
PhD, University of California-Los Angeles, 1973

Terry S Falcomata, Assistant Professor  
Department of Special Education

PhD, University of Iowa, 2008

Brian K Farr, Lecturer  
Department of Kinesiology and Health Education  
MA, Ohio State U Main Campus, 1996

Roger P Farrar, Professor  
Department of Kinesiology and Health Education  
PhD, University of Massachusetts, 1976

Department of Curriculum and Instruction  
Department of Curriculum and Instruction  
PhD, University of Texas at Austin, 2010

Elaine K Horwitz, Professor  
Department of Curriculum and Instruction  
PhD, University of Illinois at Urbana-Champaign, 1980

Philip P Huang, Adjunct Assistant Professor  
Department of Kinesiology and Health Education  
MD, University of Texas Southwestern Medical Center at Dallas, 1986

Joan Hughes, Associate Professor  
Department of Curriculum and Instruction  
PhD, Michigan State University, East Lansing, 2000

Thomas M Hunt, Assistant Professor  
Department of Kinesiology and Health Education

PhD, University of Texas at Austin, 2007

Michael G Hydak, Specialist  
Department of Curriculum and Instruction  
PhD, University of Texas at Austin, 1977

John L Ivy, Professor  
Teresa Lozano Long Endowed Chair in Kinesiology and Health Education  
Department of Kinesiology and Health Education  
PhD, University of Maryland College Park, 1976

Earl Jennings, Professor Emeritus  
Department of Educational Psychology  
PhD, University of Texas at Austin, 1963

Jody Jensen, Professor  
Department of Kinesiology and Health Education  
PhD, University of Maryland College Park, 1989

Julie M Jensen, Professor Emeritus  
Department of Curriculum and Instruction  
PhD, University of Minnesota-Twin Cities, 1970

Melody A Johnson, Adjunct Professor  
Department of Educational Administration  
PhD, University of Texas at Austin, 1990

Esbelle M Jowers, Lecturer  
Department of Kinesiology and Health Education  
PhD, University of Texas at Austin, 1999

Sharon H Justice, Lecturer  
Department of Educational Administration  
PhD, Southern Illinois University Carbondale, 1974

Manuel J Justiz, Professor  
Lee Hage Jmail Regents Chair in Education  
Department of Educational Administration  
PhD, Southern Illinois University Carbondale, 1977

Marilyn C Kameen, Professor  
Oscar and Anne Mauzy Regents Professorship for Educational Research and Development  
Department of Educational Administration  
EdD, University of Virginia (Old Code), 1974

Michael Kamen, Lecturer  
Department of Curriculum and Instruction  
PhD, University of Texas at Austin, 1991

Soyeon Kang, Lecturer  
Department of Special Education  
PhD, University of Texas at Austin, 2011

Xiaofen Keating, Associate Professor  
Department of Curriculum and Instruction  
PhD, University of Illinois at Urbana-Champaign, 2000

Timothy Z Keith, Professor  
Department of Educational Psychology  
PhD, Duke University, 1982

Harrison Keller, Senior Lecturer  
Department of Educational Administration  
PhD, Georgetown University, 2002

Deborah C Kelt, Lecturer

Department of Curriculum and Instruction  
MA, University of Texas at Austin, 2008

Craig M Kemper, Adjunct Assistant Professor  
Department of Kinesiology and Health Education  
MD, University of Texas Medical Branch, 1988

John D King, Professor Emeritus  
Department of Special Education  
EdD, University of Nebraska - Lincoln, 1964

William R Koch, Professor Emeritus  
Department of Educational Psychology  
PhD, University of Missouri - Columbia, 1980

Harold Willis Kohl, Research Professor (Affiliated)  
Department of Kinesiology and Health Education  
PhD, University of Texas Health Science Center at Houston, 1993

Earl A Koile, Professor Emeritus  
Department of Educational Psychology  
EdD, Harvard University, 1953

Benjamin Kramer, Clinical Assistant Professor  
Department of Curriculum and Instruction  
PhD, University of Texas at Austin, 2007

Dorothy D Lambdin, Clinical Professor  
Department of Kinesiology and Health Education  
EdD, University of Massachusetts, 1992

Sherry L Langston, Lecturer  
Department of Curriculum and Instruction  
MS, Texas A & M University - Commerce, 1997

Clarena Larrotta, Lecturer  
Department of Curriculum and Instruction  
PhD, University of Texas at Austin, 2005

Lisa M Lasater, Lecturer  
Department of Educational Psychology  
PhD, Texas A & M University, 1992

William F Lasher, Professor Emeritus  
Department of Educational Administration  
PhD, University of Michigan-Ann Arbor, 1974

Malia M Lemond, Lecturer  
Department of Curriculum and Instruction  
PhD, University of Texas at Austin, 2004

Tad D Leusch, Lecturer  
Department of Kinesiology and Health Education  
MS, Michigan State University, East Lansing, 2000

Ann Sherry Levine, Clinical Associate Professor  
Department of Educational Psychology  
PhD, University of Denver, 1993

Judith W Lindfors, Professor Emeritus  
Department of Curriculum and Instruction  
PhD, University of Texas at Austin, 1972

Amanda L Little, Assistant Professor  
Department of Special Education  
PhD, University of Kansas Main Campus, 2009

Deborah L Little, Lecturer

Department of Curriculum and Instruction  
PhD, University of Texas at Austin, 1997

Min Liu, Professor  
Department of Curriculum and Instruction  
EdD, West Virginia University, 1992

Alexandra Loukas, Associate Professor  
Department of Kinesiology and Health Education  
PhD, Michigan State University, East Lansing, 1997

Jennifer W Maedgen, Clinical Associate Professor  
Department of Educational Psychology  
PhD, University of Texas at Austin, 1998

Robert M Malina, Professor Emeritus  
Department of Kinesiology and Health Education  
PhD, University of Pennsylvania, 1968

Anna E Maloch, Associate Professor  
Department of Curriculum and Instruction  
PhD, Vanderbilt University, 2000

Guy J Manaster, Professor Emeritus  
Department of Educational Psychology  
PhD, University of Chicago, 1969

Stephen T Marble, Lecturer  
Department of Curriculum and Instruction  
PhD, University of Texas at Austin, 1992

Jill A Marshall, Associate Professor  
Department of Curriculum and Instruction  
PhD, University of Texas at Austin, 1984

Helen Taylor Martin, Associate Professor  
Department of Curriculum and Instruction  
PhD, Stanford University, 2003

Ramon Antonio Martinez, Assistant Professor  
Department of Curriculum and Instruction  
PhD, University of California-Los Angeles, 2009

Katherine T McCalister, Adjunct Assistant Professor  
Department of Kinesiology and Health Education  
EdD, University of Texas at Austin, 2003

Christopher J McCarthy, Professor  
Department of Educational Psychology  
PhD, Georgia State University, 1995

Danny P McCoy, Lecturer  
Department of Educational Administration  
PhD, University of Texas at Austin, 2003

Elizabeth Guillory Medina, Lecturer  
Department of Educational Psychology  
PhD, University of California-Los Angeles, 2003

Mary E Mercatoris, Specialist  
Department of Educational Psychology  
PhD, University of Texas at Austin, 2006

Campbell Lynne Miller, Specialist  
Department of Kinesiology and Health Education  
BS, Stanford University, 2002

Terri L Mitchell, Specialist

Department of Kinesiology and Health Education  
BA, University of Houston, 1979

Leslie A Moore, Senior Lecturer  
Department of Educational Psychology  
PhD, University of Texas at Austin, 1987

Betsy Morales, Lecturer  
Department of Curriculum and Instruction  
PhD, University of Texas at Austin, 1999

Gareth Philip Morgan, Lecturer  
Department of Special Education  
PhD, Arizona State University Main, 2010

Rosemary Morrow, Clinical Assistant Professor  
Department of Curriculum and Instruction  
PhD, University of Texas at Austin, 1999

Richard Mowsesian, Associate Professor Emeritus  
Department of Educational Psychology  
PhD, University of Wisconsin-Madison, 1965

Gloria R Munguia, Specialist  
Department of Curriculum and Instruction  
BSSecEd, Texas A & M University - Kingsville, 1966

Sheri Mycue, Clinical Assistant Professor  
Department of Curriculum and Instruction  
PhD, University of New Orleans, 2000

William A Myers, Associate Professor  
Department of Special Education  
EdD, University of Southern California, 1969

Deborah D Nance, Lecturer  
Department of Educational Administration  
PhD, University of Texas at Austin, 1985

Kristin Neff, Associate Professor  
Department of Educational Psychology  
PhD, University of California-Berkeley, 1997

Wanda L Nelson, Lecturer  
Department of Educational Psychology  
EdD, Northern Illinois University, 1989

Glenn L Nolly, Lecturer  
Department of Educational Administration  
PhD, University of Texas at Austin, 1997

Norvell W Northcutt, Senior Lecturer  
Department of Educational Administration  
PhD, University of Texas at Austin, 1968

Nancy L Nussbaum, Lecturer  
Department of Educational Psychology  
PhD, University of Texas at Austin, 1986

Ann O'Doherty, Clinical Assistant Professor  
Department of Educational Administration  
EdD, University of Texas at Austin, 2007

Mark F O'Reilly, Professor  
Mollie Villeret Davis Professorship in Learning Disabilities  
Department of Special Education  
PhD, University of Illinois at Urbana-Champaign, 1992

Randy R Oehrlein, Lecturer  
Department of Kinesiology and Health Education  
MEd, Texas A & M University, 1990

Ruben D Olivarez, Professor  
L. D. Haskeew Centennial Professorship in Public School Administration  
Department of Educational Administration  
PhD, University of Texas at Austin, 1976

Alba A Ortiz, Professor  
Department of Special Education  
PhD, University of Texas at Austin, 1976

Martha N Ovando, Professor  
Department of Educational Administration  
PhD, University of Utah, 1981

Deborah K Palmer, Assistant Professor  
Department of Curriculum and Instruction  
PhD, University of California-Berkeley, 2004

Guy S Parcel, Adjunct Professor  
Department of Kinesiology and Health Education  
PhD, Penn State University Park, 1974

Randall M Parker, Professor  
Melissa Elizabeth Stuart Centennial Professorship in Education  
Department of Special Education  
PhD, University of Missouri - Columbia, 1970

Keryn Elizabeth Pasch, Assistant Professor  
Department of Kinesiology and Health Education  
PhD, University of Minnesota-Twin Cities, 2007

Erika Alisha Patall, Assistant Professor  
Department of Educational Psychology  
PhD, Duke University, 2009

Dimpi Patel, Adjunct Assistant Professor  
Department of Kinesiology and Health Education  
MD, Kansas City University of Medicine & Biosciences, 2004

James R Patton, Adjunct Associate Professor  
Department of Special Education  
EdD, University of Virginia (Old Code), 1980

Barbara L Pazez, Assistant Professor  
Department of Special Education  
Department of Educational Administration  
PhD, University of Texas at Austin, 1996

Bertha A Pedroza, Adjunct Professor  
Department of Educational Administration  
PhD, University of Texas at Austin, 1997

Jose Sylvester Perez, Adjunct Professor  
Department of Educational Administration  
EdD, Texas A & M University, 1995

April L Peters, Lecturer  
Department of Educational Administration  
PhD, The Ohio State University Main Campus, 2003

Fred L Peterson, Associate Professor  
Department of Kinesiology and Health Education  
PhD, University of Illinois at Urbana-Champaign, 1981

Anthony J Petrosino, Associate Professor

Department of Curriculum and Instruction  
PhD, Vanderbilt University, 1998

Kathleen Lynn Pfannenstiel, Lecturer  
Department of Special Education  
PhD, University of Texas at Austin, 2011

Beeman N Phillips, Professor Emeritus  
Department of Educational Psychology  
EdD, Indiana University at Bloomington, 1954

Keenan A Pituch, Associate Professor  
Department of Educational Psychology  
PhD, Florida State University, 1997

Nihat Polat, Clinical Assistant Professor  
Department of Curriculum and Instruction  
PhD, University of Texas at Austin, 2007

Detra Price-Dennis, Assistant Professor  
Department of Curriculum and Instruction  
PhD, Ohio State U Main Campus, 2009

Kevin Prince, Lecturer  
Department of Kinesiology and Health Education  
PhD, University of Georgia, 2003

Diana Christine Pulido, Assistant Professor  
Department of Curriculum and Instruction  
PhD, University of Illinois at Urbana-Champaign, 2000

Martha I Pyron, Adjunct Assistant Professor  
Department of Kinesiology and Health Education  
MD, University of Texas at San Antonio, 1996

Teresita B Ramirez, Lecturer  
Department of Kinesiology and Health Education  
MEd, University of Texas at Austin, 1981

Soncia Reagins-Lilly, Clinical Assistant Professor  
Department of Educational Administration  
EdD, University of Southern California, 1999

Richard J Reddick, Assistant Professor  
Department of Educational Administration  
EdD, Harvard University, 2007

Shanna R Reeves, Clinical Assistant Professor  
Department of Educational Psychology  
PhD, University of Texas at Austin, 2008

Stuart Reifel, Professor  
Department of Curriculum and Instruction  
EdD, University of California-Los Angeles, 1981

Paul E Resta, Professor  
Ruth Knight Millikan Centennial Professorship  
Department of Curriculum and Instruction  
PhD, Arizona State University Main, 1968

Pedro Reyes, Professor  
Department of Educational Administration  
PhD, University of Wisconsin-Madison, 1985

Geoff B Rich, Specialist  
Department of Kinesiology and Health Education  
MA, Southwestern Baptist Theological Seminary, 1995

John M Rich, Professor Emeritus  
Department of Curriculum and Instruction  
PhD, Ohio State U Main Campus, 1958

Frank C Richardson, Professor Emeritus  
Department of Educational Psychology  
PhD, Colorado State University, 1971

Catherine Riegler-Crumb, Assistant Professor  
Department of Curriculum and Instruction  
PhD, University of Chicago, 2000

Herbert J Rieth, Professor  
Audrey Rogers Myers Centennial Professorship in Education  
Department of Special Education  
EdD, University of Kansas Main Campus, 1971

K G Ripperger-Suhler, Lecturer  
Department of Kinesiology and Health Education  
PhD, University of Texas at Austin, 2010

Donald T Rippey, Professor Emeritus  
Department of Educational Administration  
EdD, University of Northern Colorado, 1963

Phyllis M Robertson, Clinical Associate Professor  
Department of Special Education  
PhD, University of Texas at Austin, 1989

Rachel Robillard, Adjunct Assistant Professor  
Department of Educational Psychology  
PhD, University of Texas at Austin, 2002

Daniel H Robinson, Professor  
Department of Educational Psychology  
PhD, University of Nebraska - Lincoln, 1993

Aaron B Rochlen, Associate Professor  
Department of Educational Psychology  
PhD, University of Maryland College Park, 2000

Haydee M Rodriguez, Clinical Assistant Professor  
Department of Curriculum and Instruction  
PhD, University of Texas at Austin, 2000

Rodrigo J Rodriguez, Lecturer  
Department of Curriculum and Instruction  
PhD, University of Connecticut, 2001

Charles N Roper, Lecturer  
Department of Kinesiology and Health Education  
PhD, University of Texas at Austin, 1983

Nancy L Roser, Professor  
Priscilla Pond Flawn Regents Professorship in Early Childhood  
Education  
Department of Curriculum and Instruction  
EdD, Indiana University at Bloomington, 1970

John E Roueche, Professor  
Sid W. Richardson Regents Chair in Community College Leadership  
Department of Educational Administration  
PhD, Florida State University, 1964

Darrell K Royal, Professor  
Department of Kinesiology and Health Education  
BS, University of Oklahoma Norman Campus, 1950

Stephanie S Rude, Professor  
Department of Educational Psychology  
PhD, Stanford University, 1983

Frances M Rush, Lecturer  
Department of Kinesiology and Health Education  
MEd, University of Texas at Austin, 1978

Smita S Ruzicka, Lecturer  
Department of Educational Psychology  
PhD, University of Texas at Austin, 2011

Victor Saenz, Assistant Professor  
Department of Educational Administration  
PhD, University of California-Los Angeles, 2005

Cynthia S Salinas, Associate Professor  
Department of Curriculum and Instruction  
PhD, University of Texas at Austin, 1999

Delida Sanchez, Assistant Professor  
Department of Educational Psychology  
PhD, Columbia University in the City of New York, 2002

Janay B Sander, Assistant Professor  
Department of Educational Psychology  
PhD, University of Texas at Austin, 2001

Michael T Sanders, Lecturer  
Department of Kinesiology and Health Education  
EdD, University of Tennessee, 1985

Veronica G Sardegna, Assistant Professor  
Department of Curriculum and Instruction  
PhD, University of Illinois at Urbana-Champaign, 2009

James L Schaller, Associate Professor  
Department of Special Education  
PhD, University of Wisconsin-Madison, 1991

Diane L Schallert, Professor  
Department of Educational Psychology  
PhD, Arizona State University Main, 1975

Paul D Schimelman, Lecturer  
Department of Kinesiology and Health Education  
BS, Southwest Texas Junior College, 1995

Jay D Scribner, Professor Emeritus  
Department of Educational Administration  
EdD, Stanford University, 1965

Edwin R Sharpe, Clinical Professor  
Department of Educational Administration  
PhD, University of Texas at Austin, 1980

Alissa R Sherry, Associate Professor  
Department of Educational Psychology  
PhD, University of Southern Mississippi, 2001

Joan M Shiring, Clinical Professor  
Department of Curriculum and Instruction  
PhD, University of Texas at Austin, 1986

Allison Skerrett, Assistant Professor  
Department of Curriculum and Instruction  
PhD, Boston College, 2007

Elizabeth A Smith, Clinical Assistant Professor  
Department of Curriculum and Instruction  
PhD, University of Texas at Austin, 2009

Patricia Ann Somers, Associate Professor  
Department of Educational Administration  
PhD, University of New Orleans, 1992

Audrey M Sorrells, Associate Professor  
Department of Special Education  
PhD, University of Florida, 1996

Ted D Spears, Adjunct Associate Professor  
Department of Kinesiology and Health Education  
PhD, University of Texas Medical Branch, 1980

Janet T Spence, Professor Emeritus  
Department of Educational Psychology  
PhD, University of Iowa, 1949

Waneen W Spirduso, Professor Emeritus  
Department of Kinesiology and Health Education  
EdD, University of Texas at Austin, 1966

M Dixie Stanforth, Lecturer  
Department of Kinesiology and Health Education  
PhD, University of Texas at Austin, 2010

Philip R Stanforth, Lecturer  
Department of Kinesiology and Health Education  
MS, University of Arizona, 1978

Kevin D Stark, Professor  
Department of Educational Psychology  
PhD, University of Wisconsin-Madison, 1985

Kathryn E Starkes, Clinical Assistant Professor  
Department of Curriculum and Instruction  
PhD, University of Texas at Austin, 2009

Mary A Steinhardt, Professor  
Department of Kinesiology and Health Education  
EdD, University of Houston, 1985

Walter M Stroup, Associate Professor  
Department of Curriculum and Instruction  
EdD, Harvard University, 1996

Marie-Anne P Suizzo, Associate Professor  
Department of Educational Psychology  
EdD, Harvard University, 1997

Marilla D Svinicki, Professor  
Department of Educational Psychology  
Department of Educational Administration  
PhD, University of Colorado at Boulder, 1972

Elizabeth Swanson, Research Assistant Professor (Affiliated)  
Department of Special Education  
PhD, University of Texas at Austin, 2008

Hirofumi Tanaka, Associate Professor  
Department of Kinesiology and Health Education  
PhD, University of Tennessee, 1995

Deborah J Tharinger, Professor  
Department of Educational Psychology  
PhD, University of California-Berkeley, 1981

Sylvia F Thompson, Associate Professor  
Department of Special Education  
PhD, University of Texas at Austin, 1999

Janice S Todd, Professor  
Department of Kinesiology and Health Education  
PhD, University of Texas at Austin, 1995

Martin L Tombari, Senior Lecturer  
Department of Educational Psychology  
PhD, University of Arizona, 1975

Ramona S Trevino, Clinical Assistant Professor  
Department of Educational Administration  
PhD, University of Texas at Austin, 2006

Keith D Turner, Professor Emeritus  
Department of Special Education  
PhD, University of Washington - Seattle, 1974

Edward P Tyson, Adjunct Assistant Professor  
Department of Kinesiology and Health Education  
MD, Tex Medl Sch Houston, U, 1982

Kenneth W Tyson, Associate Professor  
Department of Kinesiology and Health Education  
MEd, University of Texas at Austin, 1970

Kim W Tyson, Lecturer  
Department of Kinesiology and Health Education  
MS, Indiana University of Pennsylvania, 1982

Luis Urrieta, Associate Professor  
Department of Curriculum and Instruction  
PhD, University of North Carolina at Chapel Hill, 2003

Richard Valencia, Professor  
Department of Educational Psychology  
PhD, University of California-Santa Barbara, 1977

Angela Valenzuela, Professor  
Department of Curriculum and Instruction  
Department of Educational Administration  
PhD, Stanford University, 1990

Sharon Vaughn, Professor  
H. E. Hartfelder/The Southland Corporation Regents Chair in Human  
Resource Development  
Department of Special Education  
PhD, University of Arizona, 1981

Georghios Veletsianos, Assistant Professor  
Department of Curriculum and Instruction  
PhD, University of Minnesota-Twin Cities, 2008

Gregory J Vincent, Professor  
W. K. Kellogg Professorship of Community College Leadership  
Department of Educational Administration  
EdD, University of Pennsylvania, 2004

Linda K Voges, Lecturer  
Department of Curriculum and Instruction  
EdD, Baylor University, 1998

Lonnie H Wagstaff, Professor Emeritus  
Department of Educational Administration

EdD, University of Oklahoma Norman Campus, 1969

Thomas J Walters, Adjunct Associate Professor  
Department of Kinesiology and Health Education  
PhD, University of Texas at Austin, 1989

Rodney E Watson, Adjunct Professor  
Department of Educational Administration  
PhD, University of Missouri - Kansas City, 2007

Jeffrey C Wayman, Assistant Professor  
Department of Educational Administration  
PhD, Colorado State University, 2000

Claire E Weinstein, Professor  
Department of Educational Psychology  
PhD, University of Texas at Austin, 1975

Melissa R Wetzell, Assistant Professor  
Department of Curriculum and Instruction  
PhD, Washington University in St Louis, 2007

Tiffany A Whittaker, Assistant Professor  
Department of Educational Psychology  
PhD, University of Texas at Austin, 2003

Frank W Wicker, Professor Emeritus  
Department of Educational Psychology  
PhD, Princeton University, 1966

Cheryl Y Wilkinson, Lecturer  
Department of Special Education  
PhD, University of Texas at Austin, 1983

Jack H Wilmore, Professor Emeritus  
Department of Kinesiology and Health Education

Mary J Worthy, Professor  
Department of Curriculum and Instruction  
PhD, University of Virginia (Old Code), 1989

James R Yates, Professor  
John L. and Elizabeth G. Hill Centennial Professorship  
Department of Educational Administration  
Department of Special Education  
PhD, University of Texas at Austin, 1971

San Yoon, Specialist  
Department of Kinesiology and Health Education  
EdD, United States Sports Academy, 1992

Dawn M Zimmaro, Lecturer  
Department of Educational Psychology  
PhD, Pennsylvania State University Park, 2003

Nina Isabel Zuna, Assistant Professor  
Department of Special Education  
PhD, University of Kansas Main Campus, 2007

## Cockrell School of Engineering Faculty

Jacob A Abraham, Professor  
Cockrell Family Regents Chair in Engineering #8

Department of Electrical and Computer Engineering  
PhD, Stanford University, 1974

P A Abusali, Lecturer  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, University of Texas at Austin, 1983

J K Aggarwal, Professor  
Cullen Trust for Higher Education Endowed Professorship in  
Engineering #2  
Department of Electrical and Computer Engineering  
PhD, University of Illinois at Urbana-Champaign, 1964

Maruthi R Akella, Associate Professor  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, Texas A & M University, 1998

Deji Akinwande, Assistant Professor  
Department of Electrical and Computer Engineering  
PhD, Stanford University, 2010

Richard A Alexander, Lecturer  
Department of Petroleum and Geosystems Engineering  
MS, University of Texas at Austin, 1985

David T Allen, Professor  
Melvin H. Gertz Regents Chair in Chemical Engineering  
Department of Chemical Engineering  
PhD, California Institute of Technology, 1983

Jerrold S Allen, Specialist  
Department of Mechanical Engineering  
BSME, University of Texas at Austin, 1998

Hal S Alper, Assistant Professor  
Department of Chemical Engineering  
PhD, Massachusetts Institute of Technology, 2006

Andrea Alu, Assistant Professor  
Department of Electrical and Computer Engineering  
PhD, Università degli Studi Roma Tre, 2007

Catherine G Ambrose, Adjoint Associate Professor  
Department of Biomedical Engineering  
PhD, University of Texas at Austin, 1992

Billy H Amstead, Professor Emeritus  
Department of Mechanical Engineering  
PhD, University of Texas at Austin, 1955

Jeffrey G Andrews, Associate Professor  
Department of Electrical and Computer Engineering  
PhD, Stanford University, 2002

Aristotle Arapostathis, Professor  
Department of Electrical and Computer Engineering  
PhD, University of California-Berkeley, 1982

Neal E Armstrong, Professor  
Zarrow Centennial Professorship in Engineering  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Texas at Austin, 1968

Adnan Aziz, Associate Professor  
Department of Electrical and Computer Engineering  
PhD, University of California-Berkeley, 1996

Ivo M Babuska, Professor

Robert B. Trull Chair in Engineering  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, Academy of Sciences, 1955

Aaron Blair Baker, Assistant Professor  
Department of Biomedical Engineering  
PhD, Harvard University, 2006

Lee E Baker, Professor Emeritus  
Department of Electrical and Computer Engineering  
PhD, Baylor College of Medicine, 1965

Michael Baldea, Assistant Professor  
Department of Chemical Engineering  
PhD, University of Minnesota-Twin Cities, 2006

Ross Baldick, Professor  
Department of Electrical and Computer Engineering  
PhD, University of California-Berkeley, 1990

Matthew Thomas Balhoff, Assistant Professor  
Department of Petroleum and Geosystems Engineering  
PhD, Louisiana State University and Agricultural and Mechanical College, 2005

Sanjay K Banerjee, Professor  
Cockrell Family Regents Chair in Engineering #4  
Department of Electrical and Computer Engineering  
PhD, University of Illinois at Urbana-Champaign, 1983

Seth Robert Bank, Assistant Professor  
Department of Electrical and Computer Engineering  
PhD, Stanford University, 2006

James Andrew Bankson, Adjoint Associate Professor  
Department of Biomedical Engineering  
PhD, Texas A & M University, 2001

Kathleen S Barber, Professor  
AT&T Foundation Endowed Professorship in Engineering  
Department of Electrical and Computer Engineering  
PhD, University of Texas at Arlington, 1992

Jonathan F Bard, Professor  
Department of Mechanical Engineering  
DSc, George Washington University, 1979

William C Bard, Senior Lecturer  
Department of Electrical and Computer Engineering  
MS, University of Texas at Austin, 1976

John W Barnes, Professor  
Cullen Trust for Higher Education Endowed Professorship in Engineering #6  
Department of Mechanical Engineering  
PhD, University of Arkansas Main Campus, 1971

Ronald E Barr, Professor  
Department of Mechanical Engineering  
PhD, Marquette University, 1975

Michael E Barrett, Research Associate Professor (Affiliated)  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Texas at Austin, 1996

Don S Batory, Professor  
David Bruton, Jr. Centennial Professorship in Computer Sciences #1

Department of Electrical and Computer Engineering  
PhD, University of Toronto, 1981

Martin L Baughman, Professor Emeritus  
Department of Electrical and Computer Engineering  
PhD, Massachusetts Institute of Technology, 1972

Oguzhan Bayrak, Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Toronto, 1999

Joseph J Beaman, Professor  
Earnest F. Gloyne Regents Chair in Engineering, Cockrell Family Chair for Departmental Leadership #4  
Department of Mechanical Engineering  
ScD, Massachusetts Institute of Technology, 1979

H Kent Beasley, Clinical Professor  
Department of Mechanical Engineering  
MD, Tulane University, 1962

Eric B Becker, Professor Emeritus  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, University of California-Berkeley, 1966

Michael F Becker, Professor  
Department of Electrical and Computer Engineering  
PhD, Stanford University, 1974

Anthony Bedford, Professor Emeritus  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, Rice University, 1967

Mikhail A Belkin, Assistant Professor  
Department of Electrical and Computer Engineering  
PhD, University of California-Berkeley, 2004

Adela Ben-Yakar, Associate Professor  
Department of Mechanical Engineering  
PhD, Stanford University, 2001

Jeffrey K Bennighof, Professor  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, Virginia Polytechnic Institute and State University, 1986

Halil Berberoglu, Assistant Professor  
Department of Mechanical Engineering  
PhD, University of California-Los Angeles, 2008

Don T Berry, Lecturer  
Department of Mechanical Engineering  
PhD, University of Texas at Austin, 1989

Srinivas V Bettadpur, Research Professor (Affiliated)  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, University of Texas at Austin, 1993

Jayanta Bhadra, Adjunct Associate Professor  
Department of Electrical and Computer Engineering  
PhD, University of Texas at Austin, 2001

Amit Bhasin, Assistant Professor  
Department of Civil, Architectural, and Environmental Engineering  
DPhil, Texas A & M University, 2006

Chandra R Bhat, Professor  
Adnan Abou-Ayyash Centennial Professorship in Transportation Engineering

Department of Civil, Architectural, and Environmental Engineering  
PhD, Northwestern University, 1991

James Eric Bickel, Assistant Professor  
Department of Mechanical Engineering  
Department of Petroleum and Geosystems Engineering  
PhD, Stanford University, 1999

Kendra M Foltz Biegalski, Lecturer  
Department of Mechanical Engineering  
PhD, University of Illinois at Urbana-Champaign, 1998

Steven R Biegalski, Associate Professor  
Department of Mechanical Engineering  
PhD, University of Illinois at Urbana-Champaign, 1996

George Biros, Professor  
W. A. "Tex" Moncrief, Jr. Endowment in Simulation-Based Engineering  
and Sciences - Endowed Chair No. 2  
Department of Mechanical Engineering  
PhD, Carnegie Mellon University, 2000

Michael F Blackhurst, Assistant Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, Carnegie Mellon University, 2011

David T Blackstock, Professor Emeritus  
Department of Mechanical Engineering  
PhD, Harvard University, 1960

David G Bogard, Professor  
Department of Mechanical Engineering  
PhD, Purdue University Main Campus, 1982

Paul M Bommer, Senior Lecturer  
Department of Petroleum and Geosystems Engineering  
PhD, University of Texas at Austin, 1979

Roger T Bonnecaze, Professor  
Bill L. Stanley Endowed Leadership Chair in Chemical Engineering, T.  
Brockett Hudson Professorship in Chemical Engineering  
Department of Chemical Engineering  
PhD, California Institute of Technology, 1991

John D Borcharding, Adjunct Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, Stanford University, 1972

Francis X Bostick, Professor Emeritus  
Department of Electrical and Computer Engineering  
PhD, University of Texas at Austin, 1964

David L Bourell, Professor  
Temple Foundation Endowed Professorship No. 2  
Department of Mechanical Engineering  
PhD, Stanford University, 1979

Alan C Bovik, Professor  
Keys and Joan Curry/Cullen Trust Endowed Chair  
Department of Electrical and Computer Engineering  
PhD, University of Illinois at Urbana-Champaign, 1984

Stephen Boyles, Assistant Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Texas at Austin, 2009

John E Breen, Professor Emeritus

Department of Civil, Architectural, and Environmental Engineering  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Texas at Austin, 1962

Gregory L Brooks, Senior Lecturer  
Department of Civil, Architectural, and Environmental Engineering  
MArch, University of Texas at Austin, 1996

Michael D Brown, Lecturer  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Texas at Austin, 2005

Michael D Bryant, Professor  
Accenture Endowed Professorship in Manufacturing Systems  
Engineering  
Department of Mechanical Engineering  
PhD, Northwestern University, 1981

Steven L Bryant, Associate Professor  
Department of Petroleum and Geosystems Engineering  
PhD, University of Texas at Austin, 1986

John F Burgin, Lecturer  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Texas at Austin, 1995

Ned H Burns, Professor Emeritus  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Illinois at Urbana-Champaign, 1962

Troy D Butler, Lecturer  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, Colorado State University, 2009

John H Byrne, Adjoint Professor  
Department of Biomedical Engineering  
PhD, Polytechnic University, 1973

Carlos H Caldas, Associate Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Illinois at Urbana-Champaign, 2003

Matthew I Campbell, Associate Professor  
Department of Mechanical Engineering  
PhD, Carnegie Mellon University, 2000

Constantine Caramanis, Assistant Professor  
Department of Electrical and Computer Engineering  
PhD, Massachusetts Institute of Technology, 2006

George L Cardwell, Senior Lecturer  
Department of Electrical and Computer Engineering  
PhD, University of Texas at Austin, 1970

Ben H Caudle, Professor Emeritus  
Department of Petroleum and Geosystems Engineering  
PhD, University of Texas at Austin, 1963

Armand J Chaput, Senior Lecturer  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, Texas A & M University, 1966

Randall J Charbeneau, Professor  
Jewel McAlister Smith Professorship in Engineering  
Department of Civil, Architectural, and Environmental Engineering  
PhD, Stanford University, 1978

Craig M Chase, Associate Professor

Department of Electrical and Computer Engineering  
PhD, Cornell University, 1993

James R Chelikowsky, Professor  
W. A. "Tex" Moncrief, Jr. Chair in Computational Materials  
Department of Chemical Engineering  
PhD, University of California-Berkeley, 1975

Dongmei Chen, Assistant Professor  
Department of Mechanical Engineering  
PhD, University of Michigan-Ann Arbor, 2006

Ray T Chen, Professor  
Cullen Trust for Higher Education Endowed Professorship in  
Engineering #3  
Department of Electrical and Computer Engineering  
PhD, University of California-Irvine, 1991

Julian Cheng, Professor  
Cockrell Family Regents Chair in Engineering #3  
Department of Electrical and Computer Engineering  
PhD, Harvard University, 1973

Derek Chiou, Associate Professor  
Department of Electrical and Computer Engineering  
PhD, Massachusetts Institute of Technology, 1999

Noel T Clemens, Professor  
Bob R. Dorsey Professorship in Engineering  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, Stanford University, 1991

Richard L Corsi, Professor  
E. C. H. Bantel Professorship for Professional Practice  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of California-Davis, 1989

Brady R Cox, Assistant Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Texas at Austin, 2006

Harvey G Cragon, Professor Emeritus  
Department of Electrical and Computer Engineering  
BSEE, Louisiana Tech University, 1950

Roy R Craig, Professor Emeritus  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, University of Illinois at Urbana-Champaign, 1960

Michael E Crawford, Professor Emeritus  
Department of Mechanical Engineering  
PhD, Stanford University, 1976

Richard H Crawford, Professor  
Department of Mechanical Engineering  
PhD, Purdue University Main Campus, 1989

Alexandre K Da Silva, Assistant Professor  
Department of Mechanical Engineering  
PhD, Duke University, 2005

Adriana Costa Da Silveira, Adjunct Assistant Professor  
Department of Biomedical Engineering  
PhD, University of Florida, 1998

Jiukun Dai, Lecturer  
Department of Civil, Architectural, and Environmental Engineering

PhD, University of Kentucky, 2006

Clinton N Dawson, Professor  
Edward S. Hyman Endowed Chair in Engineering  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, Rice University, 1988

Ghislaine Maria De Regge, Senior Lecturer  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Texas at Austin, 1986

Gustavo A De Veciana, Professor  
Department of Electrical and Computer Engineering  
PhD, University of California-Berkeley, 1993

Neil E Deeds, Lecturer  
Department of Petroleum and Geosystems Engineering  
PhD, University of Texas at Austin, 1999

Mark Deinert, Assistant Professor  
Department of Mechanical Engineering  
PhD, Cornell University, 2003

Mojdeh Delshad, Research Professor (Affiliated)  
Department of Petroleum and Geosystems Engineering  
PhD, University of Texas at Austin, 1986

Leszek F Demkowicz, Professor  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, Cracow Univ of Technology, 1982

Ashish Deshpande, Assistant Professor  
Department of Mechanical Engineering  
PhD, University of Michigan-Ann Arbor, 2007

Luigi DiBiase, Adjunct Assistant Professor  
Department of Biomedical Engineering  
MD, University of Bari, 2000

David DiCarlo, Assistant Professor  
Department of Petroleum and Geosystems Engineering  
PhD, Cornell University, 1994

Kenneth R Diller, Professor  
Robert M. and Prudie Leibrock Endowed Professorship in Engineering  
Department of Biomedical Engineering  
ScD, Massachusetts Institute of Technology, 1972

Dragan Djurdjanovic, Assistant Professor  
Department of Mechanical Engineering  
PhD, University of Michigan-Ann Arbor, 2002

Ananth Dodabalapur, Professor  
Ashley H. Priddy Centennial Professorship in Engineering  
Department of Electrical and Computer Engineering  
PhD, University of Texas at Austin, 1990

Arwin A Dougal, Professor Emeritus  
Department of Electrical and Computer Engineering  
PhD, University of Illinois at Urbana-Champaign, 1957

Mircea D Driga, Professor  
Department of Electrical and Computer Engineering  
PhD, University of Kentucky, 1990

Raynor L Duncombe, Professor Emeritus  
Department of Aerospace Engineering and Engineering Mechanics  
Department of Aerospace Engineering and Engineering Mechanics

PhD, Yale University, 1956

Andrew K Dunn, Associate Professor  
Department of Biomedical Engineering  
PhD, University of Texas at Austin, 1997

Cyril J Durrenberger, Senior Lecturer  
Department of Chemical Engineering  
MS, University of Texas at Austin, 1977

Gretchen Edelson, Clinical Assistant Professor  
UTeach-Engineering  
MS, Texas Tech University, 1991

Thomas F Edgar, Professor  
George T. and Gladys H. Abell Endowed Chair of Engineering  
Department of Chemical Engineering  
PhD, Princeton University, 1971

Thomas A Edison, Lecturer  
Department of Chemical Engineering  
PhD, University of Maryland College Park, 1998

John G Ekerdt, Professor  
Dick Rothwell Endowed Chair in Chemical Engineering  
Department of Chemical Engineering  
Department of Petroleum and Geosystems Engineering  
PhD, University of California-Berkeley, 1979

Chadi Said El Mohtar, Assistant Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, Purdue University Main Campus, 2008

Robert B Eldridge, Distinguished Senior Lecturer  
Department of Chemical Engineering  
PhD, University of Texas at Austin, 1986

Zwy Eliezer, Professor Emeritus  
Department of Mechanical Engineering  
D SC, Israel Inst Of Tech, 1972

Christopher John Ellison, Assistant Professor  
Department of Chemical Engineering  
PhD, Northwestern University, 2005

Janet L Ellzey, Professor  
Department of Mechanical Engineering  
PhD, University of California-Berkeley, 1985

Stanislav Emelianov, Associate Professor  
Department of Biomedical Engineering  
PhD, University of Moscow, 1992

Michael D Engelhardt, Professor  
DeWitt C. Greer Centennial Professorship in Transportation  
Engineering  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of California-Berkeley, 1989

Mattan Erez, Assistant Professor  
Department of Electrical and Computer Engineering  
PhD, Stanford University, 2007

Thomas P Erlinger, Clinical Assistant Professor  
Department of Mechanical Engineering  
MD, University of Texas Health Science Center at San Antonio, 1993

Brian L Evans, Professor

Engineering Foundation Professorship  
Department of Electrical and Computer Engineering  
PhD, Georgia Institute of Technology, 1993

Ofodike A Ezekoye, Professor  
Department of Mechanical Engineering  
PhD, University of California-Berkeley, 1991

William F Fagelson, Lecturer  
Department of Electrical and Computer Engineering  
PhD, University of Texas at Austin, 2004

Eric P Fahrenthold, Professor  
Department of Mechanical Engineering  
PhD, Rice University, 1984

Jeanne Sullivan Falcon, Lecturer  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, Massachusetts Institute of Technology, 1994

Donglei Fan, Assistant Professor  
Department of Mechanical Engineering  
PhD, Johns Hopkins University, 2007

Marc D Feldman, Adjunct Professor  
Department of Biomedical Engineering  
MD, University of Pennsylvania, 1981

Gregory L Fenves, Professor  
Dean's Chair for Excellence in Engineering, Cockrell Family Dean's  
Chair in Engineering Excellence, Jack and Beverly Randall Dean's  
Chair for Excellence in Engineering  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of California-Berkeley, 1984

Benito Fernandez, Associate Professor  
Department of Mechanical Engineering  
PhD, Massachusetts Institute of Technology, 1988

Paulo J Ferreira, Associate Professor  
Department of Mechanical Engineering  
PhD, University of Illinois at Urbana-Champaign, 1996

Raissa Patricia Ferron, Assistant Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, Northwestern University, 2008

Robert H Flake, Professor  
Department of Electrical and Computer Engineering  
DSc, Washington University in St Louis, 1962

Kevin J Folliard, Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of California-Berkeley, 1995

Davis L Ford, Adjunct Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Texas at Austin, 1966

David W Fowler, Professor  
Joe J. King Chair of Engineering No. 2, T. U. Taylor Professorship in  
Engineering  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Colorado at Boulder, 1965

Wallace T Fowler, Professor

Paul D. and Betty Robertson Meek Centennial Professorship in Engineering  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, University of Texas at Austin, 1965

Douglas J Fox, Adjunct Assistant Professor  
Department of Biomedical Engineering  
MD, Washington University in St Louis, 1999

Karl H Frank, Professor Emeritus  
Department of Civil, Architectural, and Environmental Engineering  
PhD, Lehigh University, 1972

Benny D Freeman, Professor  
Kenneth A. Kobe Professorship in Chemical Engineering  
Department of Chemical Engineering  
PhD, University of California-Berkeley, 1988

Keith A Friedman, Lecturer  
Department of Chemical Engineering  
PhD, University of Texas at Austin, 2003

Richard W Furlong, Professor Emeritus  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Texas at Austin, 1963

Donald S Fussell, Professor  
Trammell Crow Regents Professorship in Computer Science  
Department of Electrical and Computer Engineering  
PhD, University of Texas at Dallas, 1980

Alexander Yurievich Galenko, Lecturer  
Department of Mechanical Engineering  
PhD, University of Texas at Austin, 2008

Venkat Ganesan, Professor  
Department of Chemical Engineering  
PhD, Massachusetts Institute of Technology, 1999

Vijay K Garg, Professor  
Cullen Trust for Higher Education Endowed Professorship in Engineering #5  
Department of Electrical and Computer Engineering  
PhD, University of California-Berkeley, 1988

Peter R Gascoyne, Adjunct Professor  
Department of Biomedical Engineering  
PhD, Bangor University, 1979

George Georgiou, Professor  
Cockrell Family Regents Chair in Engineering #9  
Department of Chemical Engineering  
Department of Biomedical Engineering  
PhD, Cornell University, 1987

Andreas M Gerstlauer, Assistant Professor  
Department of Electrical and Computer Engineering  
PhD, University of California-Irvine, 2004

Ali Ghahremaninezhad, Lecturer  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, University of Texas at Austin, 2011

Wassim Michael Ghannoum, Assistant Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of California-Berkeley, 2007

Ranjit Gharpurey, Associate Professor  
Department of Electrical and Computer Engineering  
PhD, University of California-Berkeley, 1995

Omar Nabih Ghattas, Professor  
John A. and Katherine G. Jackson Chair in Computational Geosciences  
Department of Mechanical Engineering  
Department of Biomedical Engineering  
PhD, Duke University, 1988

Joydeep Ghosh, Professor  
Schlumberger Centennial Chair in Electrical Engineering  
Department of Electrical and Computer Engineering  
PhD, University of Southern California, 1988

Robert B Gilbert, Professor  
Brunswick-Abernathy Regents Professorship in Soil Dynamics and Geotechnical Engineering  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Illinois at Urbana-Champaign, 1993

Brijesh S Gill, Adjoint Assistant Professor  
Department of Biomedical Engineering  
MD, University of Alabama at Birmingham, 1997

Earnest F Gloyna, Professor Emeritus  
Department of Civil, Architectural, and Environmental Engineering  
DR ENGR, , 1953

David B Goldstein, Professor  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, California Institute of Technology, 1990

Mario J Gonzalez, Professor Emeritus  
Department of Electrical and Computer Engineering  
PhD, University of Texas at Austin, 1971

John B Goodenough, Professor  
Virginia H. Cockrell Centennial Chair in Engineering  
Department of Mechanical Engineering  
Department of Electrical and Computer Engineering  
PhD, University of Chicago, 1952

William M Grady, Professor  
Josey Centennial Professorship in Energy Resources  
Department of Electrical and Computer Engineering  
PhD, Purdue University Main Campus, 1983

Kenneth E Gray, Professor  
Department of Petroleum and Geosystems Engineering  
PhD, University of Texas at Austin, 1963

Charles G Groat, Professor  
John A. and Katherine G. Jackson Chair in Energy and Mineral Resources  
Department of Petroleum and Geosystems Engineering  
PhD, University of Texas at Austin, 1970

Michael Richard Haberman, Lecturer  
Department of Mechanical Engineering  
PhD, Georgia Institute of Technology, 2007

John Steven Haglund, Lecturer  
Department of Mechanical Engineering  
PhD, Texas A & M University, 2003

Matthew J Hall, Professor  
Department of Mechanical Engineering  
PhD, Princeton University, 1987

Neal Hall, Assistant Professor  
Department of Electrical and Computer Engineering  
PhD, Georgia Institute of Technology, 2004

Gary A Hallock, Professor  
Department of Electrical and Computer Engineering  
PhD, Rensselaer Polytechnic Institute, 1982

Mark F Hamilton, Professor  
Harry L. Kent, Jr. Professorship in Mechanical Engineering  
Department of Mechanical Engineering  
PhD, Pennsylvania State University Main Campus, 1983

Raymond Jackson Harshbarger, Adjunct Professor  
Department of Biomedical Engineering  
PhD, University of Rochester, 1994

Hillary Hart, Distinguished Senior Lecturer  
Department of Civil, Architectural, and Environmental Engineering  
PhD, Bryn Mawr College, 1981

John J Hasenbein, Associate Professor  
Department of Mechanical Engineering  
PhD, Georgia Institute of Technology, 1999

Arjang Hassibi, Assistant Professor  
Department of Electrical and Computer Engineering  
PhD, Stanford University, 2005

Linda J Hayes, Professor  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, University of Texas at Austin, 1977

Robert W Heath, Associate Professor  
Department of Electrical and Computer Engineering  
PhD, Stanford University, 2002

Robert E Hebner, Research Professor (Affiliated)  
Department of Mechanical Engineering  
PhD, University of Missouri - Rolla, 1971

Adam Heller, Professor Emeritus  
Department of Chemical Engineering  
PhD, The Hebrew University of Jerusalem, 1961

Todd A Helwig, Associate Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Texas at Austin, 1994

Carlos H Hidrovo Chavez, Assistant Professor  
Department of Mechanical Engineering  
PhD, Massachusetts Institute of Technology, 2001

Lea Hildebrandt Ruiz, Assistant Professor  
Department of Chemical Engineering  
PhD, Carnegie Mellon University, 2011

Paul S Ho, Professor  
Cockrell Family Regents Chair in Engineering #5  
Department of Mechanical Engineering  
PhD, Rensselaer Polytechnic Institute, 1965

Ben R Hodges, Associate Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, Stanford University, 1997

Edward R Holley, Professor Emeritus  
Department of Civil, Architectural, and Environmental Engineering  
ScD, Massachusetts Institute of Technology, 1965

Rodney Horton, Adjunct Professor  
Department of Biomedical Engineering  
MD, University of Texas Southwestern Medical Center at Dallas, 1988

John R Howell, Professor Emeritus  
Department of Mechanical Engineering  
Department of Mechanical Engineering  
PhD, Case Western Reserve University, 1962

Rui Huang, Associate Professor  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, Princeton University, 2001

William R Hudson, Professor Emeritus  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Texas at Austin, 1965

Thomas J Hughes, Professor  
CAM Chair III  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, University of California-Berkeley, 1974

Chun Huh, Research Professor (Affiliated)  
Department of Petroleum and Geosystems Engineering  
PhD, University of Minnesota-Duluth, 1965

David G Hull, Professor  
M. J. Thompson Regents Professorship in Aerospace Engineering and Engineering Mechanics  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, Rice University, 1967

Todd E Humphreys, Assistant Professor  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, Cornell University, 2008

Gyeong S Hwang, Professor  
Department of Chemical Engineering  
PhD, California Institute of Technology, 1999

Jang-Hi Im, Research Professor (Affiliated)  
Department of Mechanical Engineering  
ScD, Massachusetts Institute of Technology, 1976

Marcia Isakson, Lecturer  
Department of Mechanical Engineering  
PhD, University of Texas at Austin, 2002

Vijay Janapa Reddi, Assistant Professor  
Department of Electrical and Computer Engineering  
PhD, Harvard University, 2010

Jennifer E Jefferson, Lecturer  
Department of Electrical and Computer Engineering  
PhD, University of Texas at Austin, 2011

Ning Jiang, Assistant Professor  
Department of Biomedical Engineering  
PhD, Georgia Institute of Technology, 2005

James O Jirsa, Professor  
Janet S. Cockrell Centennial Chair in Engineering

Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Illinois at Urbana-Champaign, 1963

Lizy K John, Professor  
B. N. Gafford Professorship in Electrical Engineering  
Department of Electrical and Computer Engineering  
PhD, Pennsylvania State University Main Campus, 1993

Keith P Johnston, Professor  
M. C. (Bud) and Mary Beth Baird Endowed Chair  
Department of Chemical Engineering  
PhD, University of Illinois at Urbana-Champaign, 1981

Jerold W Jones, Professor Emeritus  
Department of Mechanical Engineering  
PhD, University of Utah, 1970

Miguel Jose-Yacamán, Adjunct Professor  
Department of Chemical Engineering  
PhD, Nat University of Mexico, 1973

Maria G Juenger, Associate Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, Northwestern University, 1999

Christine L Julien, Associate Professor  
Department of Electrical and Computer Engineering  
DSc, Washington University in St Louis, 2004

Davor Juricic, Professor Emeritus  
Department of Mechanical Engineering  
D SC, Foreign Institution, 1964

Loukas F Kallivokas, Associate Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, Carnegie Mellon University, 1995

Lynn E Katz, Professor  
Bettie Margaret Smith Professorship in Engineering  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Michigan-Ann Arbor, 1993

Fayez S Kazi, Lecturer  
Department of Civil, Architectural, and Environmental Engineering  
MSE, University of Texas at Austin, 2001

Stephen W Keckler, Professor  
Department of Electrical and Computer Engineering  
PhD, Massachusetts Institute of Technology, 1998

Patrick Kevin Kelley, Adjunct Associate Professor  
Department of Biomedical Engineering  
MD, Baylor College of Medicine, 1998

Thomas W Kennedy, Professor Emeritus  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Illinois at Urbana-Champaign, 1965

Alireza Khademhosseini, Harrington Faculty Fellow  
Department of Biomedical Engineering  
PhD, Massachusetts Institute of Technology, 2005

Sarfraz Khurshid, Associate Professor  
Department of Electrical and Computer Engineering  
PhD, Massachusetts Institute of Technology, 2004

Thomas M Kiehne, Senior Lecturer  
Department of Mechanical Engineering

PhD, University of Texas at Austin, 1985

Miryung Kim, Assistant Professor  
Department of Electrical and Computer Engineering  
PhD, University of Washington - Seattle, 2008

David R Kincaid, Senior Lecturer  
Department of Petroleum and Geosystems Engineering  
PhD, University of Texas at Austin, 1971

Spyridon A Kinnas, Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, Massachusetts Institute of Technology, 1985

Kerry A Kinney, Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of California-Davis, 1996

Mary Jo Kirisits, Assistant Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Illinois at Urbana-Champaign, 2000

Dale E Klein, Professor  
Reese Endowed Professorship in Engineering  
Department of Mechanical Engineering  
PhD, University of Missouri - Columbia, 1977

Richard E Klingner, Professor  
L. P. Gilvin Centennial Professorship in Civil Engineering  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of California-Berkeley, 1977

Kara Kockelman, Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of California-Berkeley, 1998

Billy V Koen, Professor Emeritus  
Department of Mechanical Engineering  
ScD, Massachusetts Institute of Technology, 1968

Joseph Hong Yui Koo, Lecturer  
Department of Mechanical Engineering  
ScD, George Washington University, 1987

Brian A Korgel, Professor  
Matthew Van Winkle Regents Professorship in Chemical Engineering  
Department of Chemical Engineering  
PhD, University of California-Los Angeles, 1997

Lothar E Koschmieder, Professor Emeritus  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Bonn, 1963

Desiderio Kovar, Professor  
Department of Mechanical Engineering  
PhD, Carnegie Mellon University, 1995

Herbert C Krasner, Senior Lecturer  
Department of Electrical and Computer Engineering  
PhD, University of Missouri - Rolla, 1979

Thomas J Krueger, Senior Lecturer  
Department of Mechanical Engineering  
PhD, Texas A & M University, 1975

Kirby A Kuntz, Lecturer  
Department of Civil, Architectural, and Environmental Engineering

PhD, Pennsylvania State University Main Campus, 1994

Erhan Kutanoglu, Associate Professor  
Department of Mechanical Engineering  
PhD, Lehigh University, 1999

Alexis Kwasinski, Assistant Professor  
Department of Electrical and Computer Engineering  
PhD, University of Illinois at Urbana-Champaign, 2007

Stelios Kyriakides, Professor  
Cockrell Family Chair in Engineering No. 10  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, California Institute of Technology, 1980

Larry W Lake, Professor  
W. A. "Monty" Moncrief Centennial Chair in Petroleum Engineering  
Department of Petroleum and Geosystems Engineering  
PhD, Rice University, 1973

Simon S Lam, Professor  
Regents Chair in Computer Sciences #1  
Department of Electrical and Computer Engineering  
PhD, University of California-Los Angeles, 1974

Jamie P Lamb, Professor Emeritus  
Department of Mechanical Engineering  
PhD, University of Illinois at Urbana-Champaign, 1961

Chad Matthew Landis, Associate Professor  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, University of California-Santa Barbara, 1999

Sheldon Landsberger, Professor  
Hayden Head Centennial Professorship  
Department of Mechanical Engineering  
PhD, University of Toronto, 1982

Hon Chung Lau, Adjunct Professor  
Department of Petroleum and Geosystems Engineering  
PhD, Princeton University, 1982

Desmond F Lawler, Professor  
Nasser I. Al-Rashid Chair in Civil Engineering  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of North Carolina at Chapel Hill, 1980

Clyde E Lee, Professor Emeritus  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of California-Berkeley, 1962

Jack C Lee, Professor  
Cullen Trust for Higher Education Endowed Professorship in  
Engineering #4  
Department of Electrical and Computer Engineering  
PhD, University of California-Berkeley, 1988

Fernanda Lustosa Leite, Assistant Professor  
Department of Civil, Architectural, and Environmental Engineering  
DPhil, Carnegie Mellon University, 2009

William G Lesso, Professor Emeritus  
Department of Mechanical Engineering  
PhD, Case Western Reserve University, 1967

Wei Li, Associate Professor  
Department of Mechanical Engineering

PhD, University of Michigan-Ann Arbor, 1999

Kenneth M Liechti, Professor  
E. P. Schoch Professorship in Engineering  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, California Institute of Technology, 1980

Glenn Lightsey, Professor  
William David Blunk Memorial Professorship  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, Stanford University, 1997

Howard M Liljestrand, Professor  
Gerard A. Rohlich Regents Professorship in Civil Engineering  
Department of Civil, Architectural, and Environmental Engineering  
PhD, California Institute of Technology, 1980

Frederick F Ling, Professor Emeritus  
Department of Mechanical Engineering  
DSc, Carnegie Mellon University, 1954

Hao Ling, Professor  
L. B. (Preach) Meaders Professorship in Engineering  
Department of Electrical and Computer Engineering  
PhD, University of Illinois at Urbana-Champaign, 1986

Gerald J Lipovski, Professor Emeritus  
Department of Electrical and Computer Engineering  
PhD, University of Illinois at Urbana-Champaign, 1969

Xuewu Liu, Adjunct Associate Professor  
Department of Biomedical Engineering  
PhD, Kent State University Main Campus, 2002

Douglas R Lloyd, Professor  
Henry Beckman Professorship in Chemical Engineering  
Department of Chemical Engineering  
PhD, University of Waterloo, 1977

Raymond C Loehr, Professor Emeritus  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Wisconsin-Madison, 1961

Raul G Longoria, Professor  
Department of Mechanical Engineering  
PhD, University of Texas at Austin, 1989

Nanshu Lu, Assistant Professor  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, Harvard University, 2009

Randy B Machemehl, Professor  
Nasser I. Al-Rashid Centennial Professorship in Transportation  
Engineering  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Texas at Austin, 1975

Chris A Mack, Adjunct Assistant Professor  
Department of Chemical Engineering  
PhD, University of Texas at Austin, 1998

Lori A Magruder, Research Assistant Professor (Affiliated)  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, University of Texas at Austin, 2001

David R Maidment, Professor  
Hussein M. Alharthy Centennial Chair in Civil Engineering

Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Illinois at Urbana-Champaign, 1976

Krishan A Malik, Adjunct Professor  
Department of Petroleum and Geosystems Engineering  
PhD, University of Texas at Austin, 1987

Joseph F Malina, Professor  
C. W. Cook Professorship in Environmental Engineering  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Wisconsin-Madison, 1961

Arumugam Manthiram, Professor  
Joe C. Walter, Jr. Chair in Engineering  
Department of Mechanical Engineering  
PhD, Indian Institute of Technology, 1980

Lance Manuel, Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, Stanford University, 1993

Belinda Marchand, Adjunct Assistant Professor  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, Purdue University Main Campus, 2004

Harris L Marcus, Professor Emeritus  
Department of Mechanical Engineering  
PhD, Northwestern University, 1966

Stephen Richard Marek, Lecturer  
Department of Biomedical Engineering  
PhD, University of Texas at Austin, 2009

Hans M Mark, Professor  
John J. McKetta Centennial Energy Chair in Engineering  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, Massachusetts Institute of Technology, 1954

Mia K Markey, Associate Professor  
Department of Biomedical Engineering  
PhD, Duke University, 2001

Kurt M Marshek, Professor Emeritus  
Department of Mechanical Engineering  
, Ohio State U Main Campus,

Lealon L Martin, Lecturer  
Department of Chemical Engineering  
PhD, University of California-Los Angeles, 2002

Lydia M Martin, Assistant Professor  
Department of Chemical Engineering  
PhD, Cornell University, 2008

Glenn Y Masada, Professor  
Department of Mechanical Engineering  
ScD, Massachusetts Institute of Technology, 1980

Lee H Matlock, Professor Emeritus  
Department of Civil, Architectural, and Environmental Engineering  
MS, University of Texas at Austin, 1950

Ronald D Matthews, Professor  
Department of Mechanical Engineering  
PhD, University of California-Berkeley, 1977

Jennifer A Maynard, Assistant Professor  
Department of Chemical Engineering

PhD, University of Texas at Austin, 2002

Robert B McCann, Adjunct Professor  
Department of Electrical and Computer Engineering  
PhD, University of Texas at Austin, 1975

Talia Melanie McCray, Assistant Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Michigan-Ann Arbor, 2001

Benj F McCullough, Professor Emeritus  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of California-Berkeley, 1969

Elena C McDonald-Buller, Research Associate Professor (Affiliated)  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Texas at Austin, 1996

John J McKetta, Professor Emeritus  
Department of Chemical Engineering  
PhD, University of Michigan-Ann Arbor, 1946

Daene C McKinney, Professor  
W.A. (Bill) Cunningham Professorship  
Department of Civil, Architectural, and Environmental Engineering  
PhD, Cornell University, 1990

John S McLeod, Lecturer  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Texas at Austin, 2000

Mark E Mear, Professor  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, Harvard University, 1986

Fatima A Merchant, Adjunct Assistant Professor  
Department of Biomedical Engineering  
PhD, University of Texas at Austin, 1995

Robert Melancton Metcalfe, Professor  
Department of Electrical and Computer Engineering  
PhD, Harvard University, 1973

Jeremy P Meyers, Assistant Professor  
Department of Mechanical Engineering  
PhD, University of California-Berkeley, 1998

Thomas E Milner, Professor  
Marion E. Forsman Centennial Professorship in Engineering  
Department of Biomedical Engineering  
Department of Electrical and Computer Engineering  
PhD, University of Arizona, 1991

Kishore Mohanty, Professor  
H. B. (Burt) Harkins, Jr. Professorship of Petroleum Engineering  
Department of Petroleum and Geosystems Engineering  
PhD, University of Minnesota-Duluth, 1981

Tessie J Moon, Professor  
Department of Mechanical Engineering  
PhD, University of Illinois at Urbana-Champaign, 1989

J S Moore, Professor  
Admiral B. R. Inman Centennial Chair in Computing Theory  
Department of Electrical and Computer Engineering  
PhD, University of Edinburgh, 1973

Ora C Moore, Senior Lecturer

Department of Mechanical Engineering  
MA, University of Texas at Austin, 1990

David P Morton, Professor  
Engineering Foundation Endowed Professorship #1  
Department of Mechanical Engineering  
PhD, Stanford University, 1993

Robert D Moser, Professor  
Department of Mechanical Engineering  
PhD, Stanford University, 1984

Charles B Mullins, Professor  
Z. D. Bonner Professorship of Chemical Engineering  
Department of Chemical Engineering  
PhD, California Institute of Technology, 1990

Stephen P Mulva, Lecturer  
Department of Civil, Architectural, and Environmental Engineering  
PhD, Georgia Institute of Technology, 2004

Jayathi Murthy, Professor  
Ernest Cockrell, Jr., Memorial Chair in Engineering, Cockrell Family  
Chair for Departmental Leadership #4  
Department of Mechanical Engineering  
PhD, University of Minnesota-Twin Cities, 1984

Mohsen Nakhaeinejad, Lecturer  
Department of Mechanical Engineering  
PhD, University of Texas at Austin, 2010

Andrea Natale, Adjunct Professor  
Department of Biomedical Engineering  
MD, University of Florence, 1985

Dean P Neikirk, Professor  
Cullen Trust for Higher Education Endowed Professorship in  
Engineering #7  
Department of Electrical and Computer Engineering  
PhD, California Institute of Technology, 1984

Steven D Nelson, Senior Lecturer  
Department of Civil, Architectural, and Environmental Engineering  
JD, Southern Methodist University, 1976

Richard R Neptune, Professor  
Department of Mechanical Engineering  
PhD, University of California-Davis, 1996

Scott Nettles, Associate Professor  
Department of Electrical and Computer Engineering  
PhD, Carnegie Mellon University, 1996

Quoc Phuc Nguyen, Associate Professor  
Department of Petroleum and Geosystems Engineering  
PhD, Delft University of Technology, 2004

Steven P Nichols, Professor  
Annis and Jack Bowen Endowed Professorship in Engineering  
Department of Mechanical Engineering  
PhD, University of Texas at Austin, 1975

Atila Novoselac, Associate Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, Pennsylvania State University Main Campus, 2004

William J O'Brien, Associate Professor

Department of Civil, Architectural, and Environmental Engineering  
PhD, Stanford University, 1998

James T O'Connor, Professor  
C. T. Wells Professorship in Project Management  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Texas at Austin, 1983

Cesar A Ocampo, Associate Professor  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, University of Colorado at Boulder, 1996

J T Oden, Professor  
Cockrell Family Regents Chair in Engineering #2, Peter O'Donnell, Jr.  
Centennial Chair in Computing Systems  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, Oklahoma State University Main Campus, 1962

Jon E Olson, Associate Professor  
Department of Petroleum and Geosystems Engineering  
PhD, Stanford University, 1991

Roy E Olson, Professor Emeritus  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Illinois at Urbana-Champaign, 1960

Raymond Lee Orbach, Professor  
Cockrell Family Chair in Engineering No. 12  
Department of Mechanical Engineering  
PhD, University of California-Berkeley, 1960

Michael E Orshansky, Associate Professor  
Department of Electrical and Computer Engineering  
PhD, University of California-Berkeley, 2001

Andrew G Osborne, Lecturer  
Department of Mechanical Engineering  
PhD, University of Glasgow, 2006

Zhigang Pan, Associate Professor  
Department of Electrical and Computer Engineering  
PhD, University of California-Los Angeles, 2000

Ronald L Panton, Professor Emeritus  
Department of Mechanical Engineering  
PhD, University of California-Berkeley, 1966

Michael P Pappas, Lecturer  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Texas at Austin, 2004

Paola Passalacqua, Assistant Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Minnesota-Twin Cities, 2009

Yale N Patt, Professor  
Ernest Cockrell, Jr. Centennial Chair in Engineering  
Department of Electrical and Computer Engineering  
PhD, Stanford University, 1966

Tadeusz W Patzek, Professor  
Cockrell Family Chair in Engineering No. 11, Lois K. and Richard D.  
Folger Leadership Chair in Petroleum and Geosystems Engineering  
Department of Petroleum and Geosystems Engineering  
PhD, Silesian University of Technology, 1979

Donald R Paul, Professor

Ernest Cockrell, Sr. Chair in Engineering  
Department of Chemical Engineering  
PhD, University of Wisconsin-Madison, 1965

John A Pearce, Professor  
Temple Foundation Endowed Professorship No. 3  
Department of Electrical and Computer Engineering  
PhD, Purdue University Main Campus, 1980

Lisa Peppas, Adjunct Professor  
Department of Biomedical Engineering  
PhD, Purdue University Main Campus, 1988

Nikolaos A Peppas, Professor  
Fletcher Stuckey Pratt Chair in Engineering, Cockrell Family Chair for  
Departmental Leadership #1  
Department of Biomedical Engineering  
Department of Chemical Engineering  
ScD, Massachusetts Institute of Technology, 1973

Dewayne E Perry, Professor  
Motorola Regents Chair in Electrical and Computer Engineering  
Department of Electrical and Computer Engineering  
PhD, Stevens Institute of Technology, 1978

Chadee Persad, Senior Lecturer  
Department of Mechanical Engineering  
PhD, University of Texas at Austin, 1983

Daniel L Peterson, Adjunct Professor  
Department of Biomedical Engineering  
MD, University of Colorado at Boulder, 1988

Mostafa Pirnia, Senior Lecturer  
Department of Mechanical Engineering  
MS, University of Tehran, 1965

Michael E Poehl, Lecturer  
Department of Chemical Engineering  
MBA, University of Houston, 1988

Steven R Poole, Lecturer  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, University of Texas at Austin, 1991

Gary A Pope, Professor  
Texaco Centennial Chair in Petroleum Engineering  
Department of Petroleum and Geosystems Engineering  
PhD, Rice University, 1972

Elmira Popova, Professor  
Department of Mechanical Engineering  
PhD, Case Western Reserve University, 1995

Edward J Powers, Professor  
Department of Electrical and Computer Engineering  
PhD, Stanford University, 1965

Masa Prodanovic, Assistant Professor  
Department of Petroleum and Geosystems Engineering  
PhD, New York University, 2005

Jorge A Prozzi, Associate Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of California-Berkeley, 2001

Mitchell W Pryor, Lecturer

Department of Mechanical Engineering  
PhD, University of Texas at Austin, 2002

Llewellyn K Rabenberg, Associate Professor  
Department of Mechanical Engineering  
PhD, University of California-Berkeley, 1983

Varun Rai, Assistant Professor  
Department of Mechanical Engineering  
PhD, Stanford University, 2008

L L Raja, Associate Professor  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, University of Texas at Austin, 1996

Kenneth M Ralls, Professor  
Department of Mechanical Engineering  
ScD, Massachusetts Institute of Technology, 1964

Venkatramanan Raman, Associate Professor  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, Iowa State University, 2003

D'Arcy C Randall, Senior Lecturer  
Department of Chemical Engineering  
PhD, University of Texas at Austin, 2001

Theodore S Rappaport, Professor  
William and Bettye Nowlin Chair in Engineering  
Department of Electrical and Computer Engineering  
PhD, Purdue University Main Campus, 1987

Howard F Rase, Professor Emeritus  
Department of Chemical Engineering  
PhD, University of Wisconsin-Madison, 1952

Ellen M Rathje, Professor  
Warren S. Bellows Centennial Professorship in Civil Engineering  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of California-Berkeley, 1997

Krishnaswa Ravi-Chandar, Professor  
Temple Foundation Endowed Professorship No. 1  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, California Institute of Technology, 1982

Leonard F Register, Professor  
Department of Electrical and Computer Engineering  
PhD, North Carolina State University, 1990

Danny D Reible, Professor  
Bettie Margaret Smith Chair in Environmental Health Engineering  
Department of Civil, Architectural, and Environmental Engineering  
PhD, California Institute of Technology, 1982

Pengyu Ren, Associate Professor  
Department of Biomedical Engineering  
PhD, University of Cincinnati Main Campus, 1999

John A Rickard, Senior Lecturer  
Department of Civil, Architectural, and Environmental Engineering  
MS, University of Texas at Austin, 1982

Eugene A Ripperger, Professor Emeritus  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, Stanford University, 1952

Gary T Rochelle, Professor

Carol and Henry Groppe Professorship in Chemical Engineering  
Department of Chemical Engineering  
PhD, University of California-Berkeley, 1977

Gregory J Rodin, Professor  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, Massachusetts Institute of Technology, 1986

Peter J Rossky, Professor  
Marvin K. Collie-Welch Regents Chair in Chemistry  
Department of Chemical Engineering  
PhD, Harvard University, 1978

Charles H Roth, Professor Emeritus  
Department of Electrical and Computer Engineering  
PhD, Stanford University, 1962

Krishnendu Roy, Associate Professor  
Department of Biomedical Engineering  
PhD, Johns Hopkins University, 2000

Nestor Rubiano-Benavides, Lecturer  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Texas at Austin, 1998

Rodney S Ruoff, Professor  
Cockrell Family Regents Chair in Engineering #7  
Department of Mechanical Engineering  
PhD, University of Illinois at Urbana-Champaign, 1988

Ryan P Russell, Assistant Professor  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, University of Texas at Austin, 2004

Henry G Rylander, Professor  
Harry H. Power Professorship in Engineering  
Department of Biomedical Engineering  
Department of Electrical and Computer Engineering  
MD, University of Texas Health Science Center at San Antonio, 1974

Michael S Sacks, Professor  
W.A. "Tex" Moncrief, Jr. Endowment in Simulation-Based Engineering  
and Sciences - Endowed Chair No. 1  
Department of Biomedical Engineering  
PhD, University of Texas at Arlington, 1992

Isaac C Sanchez, Professor  
William J. (Bill) Murray, Jr. Endowed Chair of Engineering  
Department of Chemical Engineering  
PhD, University of Delaware, 1969

Juan M Sanchez, Professor  
Temple Foundation Endowed Professorship No. 4  
Department of Mechanical Engineering  
PhD, University of California-Los Angeles, 1977

Irwin W Sandberg, Professor Emeritus  
Department of Electrical and Computer Engineering  
DEE, Polytechnic University, 1958

Sujay Sanghavi, Assistant Professor  
Department of Electrical and Computer Engineering  
PhD, University of Illinois at Urbana-Champaign, 2006

Surya Santoso, Associate Professor  
Department of Electrical and Computer Engineering

PhD, University of Texas at Austin, 1996

Sripadma Satyanarayana, Lecturer  
Department of Chemical Engineering  
PhD, University of Texas at Arlington, 1999

Richard A Schapery, Professor Emeritus  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, California Institute of Technology, 1962

Robert S Schechter, Professor Emeritus  
Department of Petroleum and Geosystems Engineering  
Department of Chemical Engineering  
PhD, University of Minnesota-Twin Cities, 1956

Christine E Schmidt, Professor  
The BFGoodrich Endowed Professorship in Materials Engineering  
Department of Biomedical Engineering  
Department of Chemical Engineering  
PhD, University of Illinois at Urbana-Champaign, 1995

Philip S Schmidt, Professor  
Donald J. Douglass Centennial Professorship in Engineering  
Department of Mechanical Engineering  
PhD, Stanford University, 1969

Erich A Schneider, Associate Professor  
Department of Mechanical Engineering  
PhD, Cornell University, 2002

Bob E Schutz, Professor  
Joe J. King Chair of Engineering, The FSX Professorship in Space  
Applications and Exploration  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, University of Texas at Austin, 1969

Carroll T Science, Senior Lecturer  
Department of Chemical Engineering  
PhD, University of Oklahoma Norman Campus, 1966

Carolyn Conner Seepersad, Assistant Professor  
Department of Mechanical Engineering  
PhD, Georgia Institute of Technology, 2004

Pablo David Seleson, Lecturer  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, Florida State University, 2010

Luis Sentis, Assistant Professor  
Department of Mechanical Engineering  
PhD, Stanford University, 2007

Kamy Sepehrnoori, Professor  
Bank of America Centennial Professorship in Petroleum Engineering  
Department of Petroleum and Geosystems Engineering  
PhD, University of Texas at Austin, 1977

Sanjay Shakkottai, Associate Professor  
Department of Electrical and Computer Engineering  
PhD, University of Illinois at Urbana-Champaign, 2002

Mukul M Sharma, Professor  
W. A. "Tex" Moncrief, Jr. Centennial Chair in Petroleum Engineering  
Department of Petroleum and Geosystems Engineering  
PhD, University of Southern California, 1985

Li Shi, Professor

Department of Mechanical Engineering  
PhD, University of California-Berkeley, 2000

Jeffrey A Siegel, Associate Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of California-Berkeley, 2002

Jayant Sirohi, Assistant Professor  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, University of Maryland College Park, 2002

Richard W Smalling, Adjoint Professor  
Department of Biomedical Engineering  
PhD, University of Texas Health Science Center at Houston, 1977

Michael H Smolensky, Adjunct Professor  
Department of Biomedical Engineering  
PhD, University of Illinois at Urbana-Champaign, 1971

Konstantin V Sokolov, Adjunct Associate Professor  
Department of Biomedical Engineering  
PhD, Moscow State University, 1992

Charles A Sorber, Professor Emeritus  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Texas at Austin, 1971

Gerald E Speitel, Professor  
John J. McKetta Energy Professorship in Engineering  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of North Carolina at Chapel Hill, 1985

S V Sreenivasan, Professor  
Department of Mechanical Engineering  
PhD, Ohio State U Main Campus, 1994

Sanjay Srinivasan, Associate Professor  
Department of Petroleum and Geosystems Engineering  
PhD, Stanford University, 2000

Jeanne Casstevens Stachowiak, Assistant Professor  
Department of Biomedical Engineering  
PhD, University of California-Berkeley, 2008

John P Stark, Professor Emeritus  
Department of Mechanical Engineering  
PhD, University of Oklahoma Norman Campus, 1963

Hugo Steinfink, Professor Emeritus  
Department of Chemical Engineering  
PhD, Polytechnic University, 1954

Karl D Stephan, Adjunct Associate Professor  
Department of Electrical and Computer Engineering  
PhD, University of Texas at Austin, 1983

Morris Stern, Professor Emeritus  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, University of Illinois at Urbana-Champaign, 1962

James E Stice, Professor Emeritus  
Department of Chemical Engineering  
PhD, Illinois Institute of Technology, 1963

Kenneth H Stokoe, Professor  
Jennie C. and Milton T. Graves Chair in Engineering  
Department of Civil, Architectural, and Environmental Engineering

PhD, University of Michigan-Ann Arbor, 1972

Ben G Streetman, Professor Emeritus  
Department of Electrical and Computer Engineering  
PhD, University of Texas at Austin, 1966

Laura J Suggs, Associate Professor  
Department of Biomedical Engineering  
PhD, Rice University, 1998

Nan Sun, Assistant Professor  
Department of Electrical and Computer Engineering  
PhD, Harvard University, 2011

Eric J Swanson, Adjunct Professor  
Department of Electrical and Computer Engineering  
MSEE, California Institute of Technology, 1980

Earl E Swartzlander, Professor  
Department of Electrical and Computer Engineering  
PhD, University of Southern California, 1972

John S Swinnea, Lecturer  
Department of Chemical Engineering  
PhD, University of Texas at Austin, 1981

Eric M Taleff, Professor  
Department of Mechanical Engineering  
PhD, Stanford University, 1995

Byron D Tapley, Professor  
Clare Cockrell Williams Centennial Chair in Engineering  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, University of Texas at Austin, 1960

John L Tassoulas, Professor  
Phil M. Ferguson Professorship in Civil Engineering  
Department of Civil, Architectural, and Environmental Engineering  
PhD, Massachusetts Institute of Technology, 1981

Nina K Telang, Lecturer  
Department of Electrical and Computer Engineering  
PhD, University of Notre Dame, 1995

David W Terreson, Adjunct Associate Professor  
Department of Biomedical Engineering  
MD, University of Mississippi Medical Center, 1986

Delbert Tesar, Professor  
Carol Cockrell Curran Chair in Engineering  
Department of Mechanical Engineering  
PhD, Georgia Institute of Technology, 1964

Ahmed Hossam Tewfik, Professor  
Cockrell Family Regents Chair in Engineering #1  
Department of Electrical and Computer Engineering  
ScD, Massachusetts Institute of Technology, 1987

Stephen R Thomas, Research Associate Professor (Affiliated)  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Texas at Austin, 1996

George B Thurston, Professor Emeritus  
Department of Mechanical Engineering  
PhD, University of Texas at Austin, 1952

Charles E Tinney, Assistant Professor  
Department of Aerospace Engineering and Engineering Mechanics

PhD, Syracuse University Main Campus, 2005

Fulvio Tonon, Assistant Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Colorado at Boulder, 2000

Carlos Torres-Verdin, Professor  
Zarrow Centennial Professorship in Petroleum Engineering  
Department of Petroleum and Geosystems Engineering  
PhD, University of California-Berkeley, 1991

Nur A Toubia, Professor  
Department of Electrical and Computer Engineering  
PhD, Stanford University, 1996

Thomas M Truskett, Professor  
Paul D. and Betty Robertson Meek Centennial Professorship in  
Chemical Engineering  
Department of Chemical Engineering  
PhD, Princeton University, 2001

Richard L Tucker, Professor Emeritus  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Texas at Austin, 1963

James W Tunnell, Associate Professor  
Department of Biomedical Engineering  
PhD, Rice University, 2002

Emanuel Tutuc, Assistant Professor  
Department of Electrical and Computer Engineering  
PhD, Princeton University, 2004

Jonathan W Valvano, Professor  
Department of Electrical and Computer Engineering  
PhD, Massachusetts Institute of Technology, 1981

Eric Van Oort, Professor  
Department of Petroleum and Geosystems Engineering  
PhD, University of Amsterdam, 1990

Philip L Varghese, Professor  
Cockrell Family Chair for Departmental Leadership #2, Stanley P.  
Finch Centennial Professorship in Engineering  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, Stanford University, 1983

Haris Vikalo, Assistant Professor  
Department of Electrical and Computer Engineering  
PhD, Stanford University, 2003

Sriram Vishwanath, Associate Professor  
Department of Electrical and Computer Engineering  
PhD, Stanford University, 2004

T R Viswanathan, Research Professor (Affiliated)  
Department of Electrical and Computer Engineering  
PhD, University of Saskatchewan, 1964

Gary C Vliet, Professor Emeritus  
Department of Mechanical Engineering  
PhD, Stanford University, 1962

Randi G Voss, Lecturer  
Department of Biomedical Engineering  
PhD, University of Texas at Austin, 1995

Norman K Wagner, Associate Professor Emeritus

Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Hawaii at Manoa, 1966

Steven T Waller, Adjunct Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, Northwestern University, 2000

Charles M Walton, Professor  
Ernest H. Cockrell Centennial Chair in Engineering  
Department of Civil, Architectural, and Environmental Engineering  
PhD, North Carolina State University, 1971

Zheng Wang, Assistant Professor  
Department of Electrical and Computer Engineering  
PhD, Stanford University, 2006

Trevor J Watt, Lecturer  
Department of Mechanical Engineering  
PhD, University of Texas at Austin, 2011

Michael Webber, Assistant Professor  
Department of Mechanical Engineering  
PhD, Stanford University, 2001

Sunshine Webster, Lecturer  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, University of Texas at Austin, 2009

Ashley J Welch, Professor Emeritus  
Department of Biomedical Engineering  
PhD, Rice University, 1964

William F Weldon, Professor Emeritus  
Department of Mechanical Engineering  
MS-ME, University of Texas at Austin, 1970

John C Westkaemper, Professor Emeritus  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, University of Texas at Austin, 1967

Dan L Wheat, Associate Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, Colorado State University, 1980

Harovel G Wheat, Associate Professor  
Department of Mechanical Engineering  
PhD, University of Texas at Austin, 1985

Mary F Wheeler, Professor  
Ernest and Virginia Cockrell Chair in Engineering  
Department of Aerospace Engineering and Engineering Mechanics  
Department of Petroleum and Geosystems Engineering  
PhD, Rice University, 1971

Max L Williams, Adjunct Professor  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, California Institute of Technology, 1950

Eric B Williamson, Associate Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Illinois at Urbana-Champaign, 1996

Carlton G Willson, Professor  
Rashid Engineering Regents Chair  
Department of Chemical Engineering  
PhD, University of California-Berkeley, 1974

Preston S Wilson, Associate Professor

Department of Mechanical Engineering  
PhD, Boston University, 2002

Brian C Winkelmann, Lecturer  
Department of Aerospace Engineering and Engineering Mechanics  
MSE, University of Texas at Austin, 1997

Eugene H Wissler, Professor Emeritus  
Department of Chemical Engineering  
PhD, University of Minnesota-Twin Cities, 1955

Billy H Wood, Senior Lecturer  
Department of Mechanical Engineering  
MArch, Texas A & M University, 1977

Kristin L Wood, Professor  
Cullen Trust for Higher Education Endowed Professorship in  
Engineering #1  
Department of Mechanical Engineering  
PhD, California Institute of Technology, 1989

Sharon L Wood, Professor  
Cockrell Family Chair for Departmental Leadership #3, Robert L.  
Parker, Sr. Centennial Professorship in Engineering  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Illinois at Urbana-Champaign, 1986

Charles M Woodruff, Senior Lecturer  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Texas at Austin, 1973

Herbert H Woodson, Professor Emeritus  
Department of Electrical and Computer Engineering  
DSc, Massachusetts Institute of Technology, 1956

Stephen G Wright, Professor Emeritus  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of California-Berkeley, 1969

Ying Xu, Assistant Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, Virginia Polytechnic Institute and State University, 2009

Ramesh Yerraballi, Senior Lecturer  
Department of Electrical and Computer Engineering  
Department of Biomedical Engineering  
PhD, Old Dominion University, 1996

Ching-Hsie Yew, Professor Emeritus  
Department of Aerospace Engineering and Engineering Mechanics  
PhD, University of California-Berkeley, 1962

Yetkin Yildirim, Research Assistant Professor (Affiliated)  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Texas at Austin, 2000

Ali E Yilmaz, Assistant Professor  
Department of Electrical and Computer Engineering  
PhD, University of Illinois at Urbana-Champaign, 2005

Edward T Yu, Professor  
Judson S. Swearingen Regents Chair in Engineering  
Department of Electrical and Computer Engineering  
PhD, California Institute of Technology, 1991

Joseph A Yura, Professor Emeritus  
Department of Civil, Architectural, and Environmental Engineering

PhD, Lehigh University, 1965

Muhammad H Zaman, Adjunct Assistant Professor  
Department of Biomedical Engineering  
PhD, University of Chicago, 2003

Xiaojing Zhang, Associate Professor  
Department of Biomedical Engineering  
PhD, Stanford University, 2004

Zhanmin Zhang, Associate Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Texas at Austin, 1996

Jianshi Zhou, Research Professor (Affiliated)  
Department of Mechanical Engineering  
PhD, Jilin University, 1991

Jinying Zhu, Assistant Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of Illinois at Urbana-Champaign, 2006

Jorge G Zornberg, Professor  
Department of Civil, Architectural, and Environmental Engineering  
PhD, University of California-Berkeley, 1994

## College of Fine Arts Faculty

Lee E Abraham, Associate Professor  
Department of Theatre and Dance  
MFA, California Institute of the Arts, 1977

Christopher O Adejumo, Associate Professor  
Department of Art and Art History  
PhD, Ohio State U Main Campus, 1997

Amrita P Adhikary, Lecturer  
Department of Art and Art History  
MFA, University of Texas at Austin, 2011

Shirley M Alexander, Professor Emeritus  
Department of Art and Art History  
PhD, New York University, 1967

Gregory D Allen, Professor  
Sarah and Ernest Butler School of Music  
MM, Peabody Institute of Johns Hopkins University, 1972

Byron P Almen, Associate Professor  
Sarah and Ernest Butler School of Music  
PhD, Indiana University at Bloomington, 1998

Anthony Alofsin, Professor  
Roland Gommel Roessner Centennial Professorship in Architecture  
Department of Art and Art History  
PhD, Columbia University in the City of New York, 1987

Megan Alrutz, Assistant Professor  
Department of Theatre and Dance  
PhD, Arizona State University Main, 2004

Charles Odell Anderson, Associate Professor  
Department of Theatre and Dance  
MFA, Temple University, 2002

Elliott M Antokoletz, Professor  
Sarah and Ernest Butler School of Music  
PhD, City University of New York Graduate Center, 1975

Christina Bain, Associate Professor  
Department of Art and Art History  
PhD, University of Georgia, 2001

Charles K Ball, Specialist  
Sarah and Ernest Butler School of Music  
BA, Maryville College, 1972

Rebecca A Baltzer, Professor Emeritus  
Sarah and Ernest Butler School of Music  
PhD, Boston University, 1974

Jacqueline E Barnitz, Professor Emeritus  
Department of Art and Art History  
PhD, City University of New York Graduate Center, 1986

Jean J Barrera, Specialist  
Sarah and Ernest Butler School of Music  
HS/GED, , 1970

Michelle E Bayer, Lecturer  
Department of Art and Art History  
MFA, University of Texas at Austin, 2006

Andrea P Beckham, Senior Lecturer  
Department of Theatre and Dance  
BA, University of Texas at Austin, 1986

William Bloodgood, Lecturer  
Department of Theatre and Dance  
MFA, Penn State University Park, 1990

Robert Michael Boland, Lecturer  
Department of Art and Art History  
MFA, University of Texas at Austin, 2007

Paul E Bolin, Professor  
Department of Art and Art History  
PhD, University of Oregon, 1986

Paul A Bonin, Assistant Professor  
Department of Theatre and Dance  
PhD, University of Texas at Austin, 2006

Troy D Brauntuch, Professor  
Department of Art and Art History  
BFA, California Institute of the Arts, 1975

Nathaniel O Brickens, Professor  
Sarah and Ernest Butler School of Music  
DMA, University of Texas at Austin, 1989

John W Brokaw, Professor Emeritus  
Department of Theatre and Dance  
PhD, Indiana University at Bloomington, 1970

Rebecca L Brooks, Professor Emeritus  
Department of Art and Art History  
PhD, University of Texas at Austin, 1974

Steven L Bryant, Associate Professor  
Sarah and Ernest Butler School of Music  
MM, Wichita State University, 1971

James W Buhler, Associate Professor  
Sarah and Ernest Butler School of Music  
PhD, University of Pennsylvania, 1996

Thomas A Burritt, Associate Professor  
Sarah and Ernest Butler School of Music  
DMA, Northwestern University, 2000

William S Bussey, Lecturer  
Department of Theatre and Dance  
BFA, University of Wisconsin-Milwaukee, 1983

Lorenzo F Candelaria, Associate Professor  
Sarah and Ernest Butler School of Music  
PhD, Yale University, 2001

Charlotte Canning, Professor  
Frank C. Erwin, Jr. Centennial Professorship in Drama  
Department of Theatre and Dance  
PhD, University of Washington - Seattle, 1991

Sarah A Canright, Senior Lecturer  
Department of Art and Art History  
BFA, School of the Art Institute of Chicago, 1964

Annette D Carlozzi, Senior Lecturer  
Department of Art and Art History  
BA, Brandeis University, 1975

Andrew I Carlson, Lecturer  
Department of Theatre and Dance  
PhD, University of Illinois at Urbana-Champaign, 2011

Robert M Carnochan, Associate Professor  
Sarah and Ernest Butler School of Music  
DMA, University of Texas at Austin, 1999

Laquetta L Carpenter, Lecturer  
Department of Theatre and Dance  
MFA, Pennsylvania State University Park, 2007

Charles Daniel Carson, Assistant Professor  
Sarah and Ernest Butler School of Music  
PhD, University of Pennsylvania, 2008

Ezekiel R Castro, Lecturer  
Sarah and Ernest Butler School of Music  
BM, University of Texas at Austin, 1961

Kate Catterall, Associate Professor  
Department of Art and Art History  
MA, Glasgow School of Art, 1992

Edward Chambers, Assistant Professor  
Department of Art and Art History  
PhD, University of London, 1998

B G Chandler, Professor  
Florence Thelma Hall Centennial Chair in Music  
Sarah and Ernest Butler School of Music  
PhD, Indiana University at Bloomington, 1975

Michael R Charles, Professor  
Department of Art and Art History  
MFA, University of Houston, 1993

Michael J Charlesworth, Professor  
Department of Art and Art History

PhD, The University of Kent, 1990

Lee R Chesney, Associate Professor  
Department of Art and Art History  
MFA, Indiana University at Bloomington, 1972

Elizabeth J Chiles, Lecturer  
Department of Art and Art History  
MFA, San Francisco Art Institute, 2005

Daniel Ching, Senior Lecturer  
Sarah and Ernest Butler School of Music  
MMus, Cleveland Institute of Music, 1998

Pamela D Christian, Associate Professor  
Department of Theatre and Dance  
PhD, Southern Illinois University., 2000

John R Clarke, Professor  
Annie Laurie Howard Regents Professorship in Fine Arts  
Department of Art and Art History  
PhD, Yale University, 1973

Rusty Cloyes, Lecturer  
Department of Theatre and Dance  
MFA, University of Texas at Austin, 2005

Z. T. Scott Family Chair in Drama  
Department of Theatre and Dance  
PhD, Michigan State University, East Lansing, 2003

Kenneth W Prescott, Professor Emeritus  
Department of Art and Art History  
PhD, University of Michigan-Ann Arbor, 1950

Brenda I Preyer, Professor Emeritus  
Department of Art and Art History  
PhD, Harvard University, 1976

Risa A Puleo, Lecturer  
Department of Art and Art History  
MA, Bard College, 2006

Rasito Rasito, Specialist  
Sarah and Ernest Butler School of Music  
None, ,

Susan W Rather, Associate Professor  
Department of Art and Art History  
PhD, University of Delaware, 1986

A D Renner, Associate Professor  
Sarah and Ernest Butler School of Music  
MM, University of Rochester, 1965

Ann M Reynolds, Associate Professor  
Department of Art and Art History  
PhD, City University of New York Graduate Center, 1993

Clark W Reynolds, Lecturer

Sarah and Ernest Butler School of Music  
PhD, Indiana University at Bloomington, 2000

Glenn A Richter, Professor  
Sarah and Ernest Butler School of Music  
MM, University of Texas at Austin, 1975

Edwin L Rifkin, Professor  
Department of Art and Art History  
PhD, University of Michigan-Ann Arbor, 1977

Andrew M Riggsby, Professor  
Department of Art and Art History  
PhD, University of California-Berkeley, 1993

Patricia M Risser, Lecturer  
Department of Theatre and Dance  
BFA, Western Illinois University, 1975

Charles A Roeckle, Senior Lecturer  
Sarah and Ernest Butler School of Music  
PhD, University of Texas at Austin, 1978

Rebecca Rossen Pavkovic, Assistant Professor  
Department of Theatre and Dance  
PhD, Northwestern University, 2006

Rick E Rowley, Senior Lecturer  
Sarah and Ernest Butler School of Music  
HS/GED, , 1973

Wayne W Salzmann, Specialist  
Sarah and Ernest Butler School of Music  
MM, University of Texas at Austin, 2010

Alejandro Sanchez, Lecturer  
Department of Art and Art History  
MFA, University of Texas at Austin, 2011

Ray K Sasaki, Professor  
Frank C. Erwin, Jr. Centennial Professorship in Fine Arts  
Sarah and Ernest Butler School of Music  
MMus, University of North Texas, 1975

Peter A Saul, Professor Emeritus  
Department of Art and Art History  
BFA, Washington University in St Louis, 1956

Margo L Sawyer, Professor  
Department of Art and Art History  
MFA, Yale University, 1982

D Schmandt-Besserat, Professor Emeritus  
Department of Art and Art History  
MA, Ecole Du Louvre, 1965

Robert N Schmidt, Professor Emeritus  
Department of Theatre and Dance  
MFA, University of Wisconsin-Madison, 1979

Roxanne Schroeder, Assistant Professor  
Department of Theatre and Dance  
MFA, University of Texas at Austin, 2000

Sonia T Seeman, Assistant Professor  
Sarah and Ernest Butler School of Music  
PhD, University of California-Los Angeles, 2002

YunChiahn C Sena, Assistant Professor  
 Department of Art and Art History  
 PhD, University of Chicago, 2007

Yacov Sharir, Professor  
 Department of Theatre and Dance  
 BFA, Bezalel Academy of Art & Design, 1966

Yevgeniy Sharlat, Assistant Professor  
 Sarah and Ernest Butler School of Music  
 MM, Yale University, 2004

David Shields, Associate Professor  
 Department of Art and Art History  
 MFA, Cranbrook Academy of Art, 1994

Richard A Shiff, Professor  
 Effie Marie Cain Regents Chair in Art  
 Department of Art and Art History  
 PhD, Yale University, 1973

Stephen M Slawek, Professor  
 Sarah and Ernest Butler School of Music  
 PhD, University of Illinois at Urbana-Champaign, 1986

David A Small, Associate Professor  
 Sarah and Ernest Butler School of Music  
 MM, University of Cincinnati Main Campus, 1987

Cameron Smith, Lecturer  
 Sarah and Ernest Butler School of Music  
 BS, Ohio University Main Campus, 1988

Cherise Smith, Associate Professor  
 Department of Art and Art History  
 PhD, Stanford University, 2004

Jeffrey C Smith, Professor  
 Kay Fortson Chair in European Art  
 Department of Art and Art History  
 PhD, Columbia University in the City of New York, 1979

Michael Smith, Associate Professor  
 Department of Art and Art History  
 BA, Colorado College, 1974

Frank N Speller, Associate Professor Emeritus  
 Sarah and Ernest Butler School of Music  
 DMA, University of Colorado at Boulder, 1968

Jeffrey C Stanley, Lecturer  
 Department of Art and Art History  
 MFA, University of Texas at Austin, 2011

John S Stoney, Associate Professor  
 Department of Art and Art History  
 MFA, Cranbrook Academy of Art, 1998

Nikita Storojev, Associate Professor  
 Sarah and Ernest Butler School of Music  
 MFA, Moscow P.I. Tchaikovsky Conservatory, 1979

David S Stuart, Professor  
 Linda and David Schele Chair in the Art and Writing of Mesoamerica  
 Department of Art and Art History  
 PhD, Vanderbilt University, 1995

Daniel D Sutherland, Associate Professor  
 Department of Art and Art History  
 MFA, Syracuse University Main Campus, 1991

Rebecca Switzer, Lecturer  
 Department of Theatre and Dance  
 MFA, University of Arizona, 1987

Rose A Taylor, Professor  
 Sarah and Ernest Butler School of Music  
 BM, University of Southern California, 1968

Riley G Triggs, Lecturer  
 Department of Art and Art History  
 MArch, Rice University, 2006

Bion Tsang, Associate Professor  
 Sarah and Ernest Butler School of Music  
 MM, Yale University, 1993

Michael C Tusa, Professor  
 Sarah and Ernest Butler School of Music  
 PhD, Princeton University, 1983

Jarvis W Ulbricht, Professor Emeritus  
 Department of Art and Art History  
 PhD, University of Iowa, 1976

Jason Paul Urban, Lecturer  
 Department of Art and Art History  
 MFA, University of Iowa, 2002

Colette T Valentine, Lecturer  
 Sarah and Ernest Butler School of Music  
 DMA, State University of New York at Stony Brook, 2005

Theresa Veit, Lecturer  
 Department of Art and Art History  
 MFA, Rhode Island School of Design, 2005

Robert K Verf, Lecturer  
 Department of Art and Art History  
 BFA, Utrecht University, 1991

Charles W Villarrubia, Senior Lecturer  
 Sarah and Ernest Butler School of Music  
 MM, Boston University, 1988

James F Vollentine, Lecturer  
 Sarah and Ernest Butler School of Music  
 HS/GED, , 1990

Johnathon Vought, Lecturer  
 Department of Art and Art History  
 BFA, University of North Texas, 1996

Louis A Waldman, Associate Professor  
 Department of Art and Art History  
 PhD, New York University, 1999

Mitch Watkins, Specialist  
 Sarah and Ernest Butler School of Music  
 HS diploma, , 1970

Dan E Welcher, Professor  
 The Lee Hage Jamail Regents Professorship in Fine Arts  
 Sarah and Ernest Butler School of Music  
 MM, Manhattan School of Music, 1972

Marianne Wheeldon, Associate Professor  
Sarah and Ernest Butler School of Music  
PhD, Yale University, 1997

Susan D Whyne, Associate Professor  
Department of Art and Art History  
MA, University of San Francisco, 1974

Darlene C Wiley, Professor  
Sarah and Ernest Butler School of Music  
MM, University of Illinois at Urbana-Champaign, 1969

Holly A Williams, Professor  
Department of Theatre and Dance  
MFA, Texas Woman's University, 1994

Jeff Williams, Assistant Professor  
Department of Art and Art History  
MFA, Syracuse University Main Campus, 2002

Nathan L Williams, Assistant Professor  
Sarah and Ernest Butler School of Music  
DMA, The Juilliard School, 1992

Lyn C Wiltshire, Professor  
Department of Theatre and Dance  
, , 1969

Lewis R Wiman, Professor Emeritus  
Department of Art and Art History  
MFA, University of Florida, 1966

Satoko S Yamamoto, Senior Lecturer  
Sarah and Ernest Butler School of Music  
MMus, Cleveland Institute of Music, 1998

John A Yancey, Professor  
John D. Murchison Regents Professorship in Art  
Department of Art and Art History  
MFA, Georgia Southern University, 1993

Laurie S Young, Associate Professor  
Sarah and Ernest Butler School of Music  
PhD, University of Texas at Austin, 1987

Phyllis C Young, Professor Emeritus  
Sarah and Ernest Butler School of Music  
MM, University of Texas at Austin, 1950

Suzan L Zeder, Professor  
Theater for Youth Chair  
Department of Theatre and Dance  
PhD, Florida State University, 1978

Daxun Zhang, Assistant Professor  
Sarah and Ernest Butler School of Music  
BM, Indiana University at Bloomington, 2005

Gerhardt Zimmermann, Professor  
Jack G. Taylor Regents Professorship in Fine Arts  
Sarah and Ernest Butler School of Music  
MFA, University of Iowa, 1971

## John A. and Katherine G. Jackson School of Geosciences Faculty

Mead A Allison, Lecturer  
Department of Geological Sciences  
PhD, State University of New York at Stony Brook, 1993

Milo M Backus, Professor Emeritus  
Department of Geological Sciences  
PhD, Massachusetts Institute of Technology, 1956

Nathan L Bangs, Lecturer  
Department of Geological Sciences  
PhD, Columbia University in the City of New York, 1991

Jay L Banner, Professor  
Department of Geological Sciences  
PhD, State University of New York at Stony Brook, 1986

Daniel S Barker, Professor Emeritus  
Department of Geological Sciences  
PhD, Princeton University, 1961

Jaime D Barnes, Assistant Professor  
Department of Geological Sciences  
PhD, University of New Mexico Main Campus, 2006

Christopher J Bell, Professor  
Department of Geological Sciences  
PhD, University of California-Berkeley, 1997

Philip C Bennett, Professor  
Department of Geological Sciences  
PhD, Syracuse University Main Campus, 1989

Robert E Boyer, Professor Emeritus  
Department of Geological Sciences  
PhD, University of Michigan-Ann Arbor, 1959

Daniel O Breecker, Assistant Professor  
Department of Geological Sciences  
PhD, University of New Mexico Main Campus, 2008

Leonard F Brown, Professor Emeritus  
Department of Geological Sciences  
PhD, University of Wisconsin-Madison, 1955

Meinhard Bayani Cardenas, Associate Professor  
Department of Geological Sciences  
PhD, New Mexico Institute of Mining and Technology, 2006

William D Carlson, Professor  
Peter T. Flawn Centennial Chair in Geology  
Department of Geological Sciences  
PhD, University of California-Los Angeles, 1980

Ginny A Catania, Assistant Professor  
Department of Geological Sciences  
Institute for Geophysics  
PhD, University of Washington - Seattle, 2004

Elizabeth Jacqueline Catlos, Associate Professor  
Department of Geological Sciences

PhD, University of California-Los Angeles, 2000

Gail L Christeson, Lecturer  
Department of Geological Sciences  
PhD, Massachusetts Institute of Technology, 1993

Julia Allison Clarke, Associate Professor  
Department of Geological Sciences  
PhD, Yale University, 2002

Mark P Cloos, Professor  
Getty Oil Company Centennial Chair in Geological Sciences  
Department of Geological Sciences  
PhD, University of California-Los Angeles, 1981

Kerry Harrison Cook, Professor  
Department of Geological Sciences  
PhD, North Carolina State University, 1984

Ian W Dalziel, Professor  
Department of Geological Sciences  
PhD, University of Edinburgh, 1963

Robert Earl Dickinson, Professor  
Department of Geological Sciences  
PhD, Massachusetts Institute of Technology, 1966

Catherine S Duncan, Adjunct Assistant Professor  
Department of Geological Sciences  
PhD, University of Texas at Austin, 2001

Peter Eichhubl, Lecturer  
Edwin Allday Lectureship in Geological Sciences  
Department of Geological Sciences  
PhD, University of California-Santa Barbara, 1997

William L Fisher, Professor  
Leonidas T. Barrow Centennial Chair in Mineral Resources  
Department of Geological Sciences  
Bureau of Economic Geology  
PhD, University of Kansas Main Campus, 1980

Peter T Flawn, Professor Emeritus  
Department of Geological Sciences  
PhD, Yale University, 1951

Peter Barry Flemings, Professor  
John A. and Katherine G. Jackson Chair in Geosystems  
Department of Geological Sciences  
Bureau of Economic Geology  
Institute for Geophysics  
PhD, Cornell University, 1990

Robert L Folk, Professor Emeritus  
Department of Geological Sciences  
PhD, Pennsylvania State University Main Campus, 1952

Sergey B Fomel, Associate Professor  
Department of Geological Sciences  
PhD, Stanford University, 2001

Rong Fu, Professor  
Department of Geological Sciences  
PhD, Columbia University in the City of New York, 1991

William E Galloway, Professor Emeritus  
Department of Geological Sciences

PhD, University of Texas at Austin, 1971

James E Gardner, Professor  
Department of Geological Sciences  
PhD, University of Rhode Island, 1993

Marcus O Gary, Adjunct Assistant Professor  
Department of Geological Sciences  
PhD, University of Texas at Austin, 2009

Omar Nabih Ghattas, Professor  
John A. and Katherine G. Jackson Chair in Computational  
Geosciences  
Department of Geological Sciences  
PhD, Duke University, 1988

John A Goff, Lecturer  
Department of Geological Sciences  
PhD, Massachusetts Institute of Technology, 1990

Stephen P Grand, Professor  
Dave P. Carlton Centennial Professorship in Geophysics  
Department of Geological Sciences  
Institute for Geophysics  
PhD, California Institute of Technology, 1986

Charles G Groat, Professor  
John A. and Katherine G. Jackson Chair in Energy and Mineral  
Resources  
Department of Geological Sciences  
PhD, University of Texas at Austin, 1970

Sean S Gulick, Lecturer  
Department of Geological Sciences  
PhD, Lehigh University, 2000

Nicholas W Hayman, Lecturer  
Department of Geological Sciences  
PhD, University of Washington - Seattle, 2003

Mark A Helper, Distinguished Senior Lecturer  
Department of Geological Sciences  
PhD, University of Texas at Austin, 1985

Marc Andre Hesse, Assistant Professor  
Department of Geological Sciences  
PhD, Stanford University, 2008

John W Holt, Lecturer  
Department of Geological Sciences  
PhD, California Institute of Technology, 1997

Brian K Horton, Associate Professor  
Department of Geological Sciences  
Institute for Geophysics  
PhD, University of Arizona, 1998

Susan D Hovorka, Lecturer  
Edwin Allday Lectureship in Geological Sciences  
Department of Geological Sciences  
PhD, University of Texas at Austin, 1990

Charles S Jackson, Lecturer  
Department of Geological Sciences  
PhD, University of Chicago, 1998

Xavier Janson, Lecturer

Department of Geological Sciences  
PhD, University of Miami, 2002

Farzam Javadpour, Lecturer  
Department of Geological Sciences  
PhD, University of Calgary, 2006

Joel Peterson Johnson, Assistant Professor  
Department of Geological Sciences  
PhD, Massachusetts Institute of Technology, 2007

Edward C Jonas, Professor Emeritus  
Department of Geological Sciences  
PhD, University of Illinois at Urbana-Champaign, 1954

Charles Kerans, Professor  
Department of Geological Sciences  
Bureau of Economic Geology  
PhD, Carleton University, 1982

Richard A Ketcham, Associate Professor  
Department of Geological Sciences  
PhD, University of Texas at Austin, 1995

Wonsuck Kim, Assistant Professor  
Department of Geological Sciences  
PhD, University of Minnesota-Twin Cities, 2007

Gary A Kocurek, Professor  
J. Nalle Gregory Chair in Sedimentary Geology  
Department of Geological Sciences  
PhD, University of Wisconsin-Madison, 1980

Charles W Kreitler, Lecturer  
Department of Geological Sciences  
PhD, University of Texas at Austin, 1974

James R Kyle, Professor  
The Third Mr. and Mrs. Charles E. Yager Professorship  
Department of Geological Sciences  
Bureau of Economic Geology  
PhD, University of Western Ontario, 1977

Lynton S Land, Professor Emeritus  
Department of Geological Sciences  
PhD, Lehigh University, 1966

Wann Langston, Professor Emeritus  
Department of Geological Sciences  
PhD, University of California-Berkeley, 1952

John C Lassiter, Associate Professor  
Department of Geological Sciences  
PhD, University of California-Berkeley, 1995

Luc L Lavier, Assistant Professor  
Department of Geological Sciences  
Institute for Geophysics  
PhD, Columbia University in the City of New York, 1999

Jung-Fu Lin, Assistant Professor  
Department of Geological Sciences  
PhD, University of Chicago, 2002

Leon E Long, Professor  
The Second Mr. and Mrs. Charles E. Yager Professorship  
Department of Geological Sciences  
PhD, Columbia University in the City of New York, 1959

E L Lundelius, Professor Emeritus  
Department of Geological Sciences  
PhD, University of Chicago, 1954

Randall A Marrett, Professor  
Department of Geological Sciences  
Bureau of Economic Geology  
PhD, Cornell University, 1990

Arthur E Maxwell, Professor Emeritus  
Department of Geological Sciences  
PhD, University of California-San Diego, 1959

Earle F McBride, Professor Emeritus  
Department of Geological Sciences  
PhD, Johns Hopkins University, 1960

Kirk D McIntosh, Lecturer  
Department of Geological Sciences  
PhD, University of California-Santa Cruz, 1992

Timothy A Meckel, Lecturer  
Department of Geological Sciences  
PhD, University of Texas at Austin, 2003

Nathaniel Ross Miller, Lecturer  
Department of Geological Sciences  
PhD, University of Texas at Dallas, 1995

Kitty L Milliken, Lecturer  
Department of Geological Sciences  
PhD, University of Texas at Austin, 1985

David Mohrig, Professor  
Department of Geological Sciences  
PhD, University of Washington - Seattle, 1994

Lorena G Moscardelli, Lecturer  
Department of Geological Sciences  
PhD, University of Texas at Austin, 2007

Sharon Mosher, Professor  
William Stamps Farish Chair in Geology, John A. and Katherine G. Jackson Decanal Chair in the Geosciences  
Department of Geological Sciences  
PhD, University of Illinois at Urbana-Champaign, 1978

Yosio Nakamura, Professor Emeritus  
Department of Geological Sciences  
Department of Geological Sciences  
PhD, Pennsylvania State University Main Campus, 1963

Jean P Nicot, Lecturer  
Edwin Allday Lectureship in Geological Sciences  
Department of Geological Sciences  
PhD, University of Texas at Austin, 1998

Cornel Olariu, Lecturer  
Department of Geological Sciences  
PhD, University of Texas at Dallas, 2005

Hilary C Olson, Lecturer  
Department of Geological Sciences  
PhD, Stanford University, 1988

Jon E Olson, Associate Professor

Bureau of Economic Geology  
PhD, Stanford University, 1991

Christopher Ross Omelon, Lecturer  
Department of Geological Sciences  
PhD, University of Toronto, 2006

Raymond Lee Orbach, Professor  
Cockrell Family Chair in Engineering No. 12  
Department of Geological Sciences  
PhD, University of California-Berkeley, 1960

Jeffrey G Paine, Lecturer  
Department of Geological Sciences  
PhD, University of Texas at Austin, 1991

Suzanne A Pierce, Research Assistant Professor (Affiliated)  
Department of Geological Sciences  
PhD, University of Texas at Austin, 2006

Mary F Poteet, Lecturer  
Department of Geological Sciences  
PhD, University of California-Berkeley, 2001

David B Prior, Professor  
Department of Geological Sciences  
PhD, Queen's University, 1968

Terrence M Quinn, Professor  
Albert W. and Alice M. Weeks Centennial Professorship in Geological Sciences  
Department of Geological Sciences  
PhD, Brown University, 1989

Timothy B Rowe, Professor  
J. Nalle Gregory Regents Professorship in Geological Sciences  
Department of Geological Sciences  
PhD, University of California-Berkeley, 1986

Stephen C Ruppel, Lecturer  
Department of Geological Sciences  
PhD, University of Illinois at Urbana-Champaign, 1979

Joel Edward Saylor, Lecturer  
Department of Geological Sciences  
PhD, University of Arizona, 2008

Mrinal K Sen, Professor  
John A. and Katherine G. Jackson Chair in Applied Seismology  
Department of Geological Sciences  
Institute for Geophysics  
PhD, University of Hawaii at Manoa, 1987

Timothy Michael Shanahan, Assistant Professor  
Department of Geological Sciences  
PhD, University of Arizona, 2006

John M Sharp, Professor  
Dave P. Carlton Centennial Professorship in Geology  
Department of Geological Sciences  
PhD, University of Illinois at Urbana-Champaign, 1974

Douglas Smith, Professor Emeritus  
Department of Geological Sciences  
PhD, California Institute of Technology, 1969

Kyle Thomas Spikes, Assistant Professor

Department of Geological Sciences  
PhD, Stanford University, 2008

James T Sprinkle, Professor  
The First Mr. and Mrs. Charles E. Yager Professorship  
Department of Geological Sciences  
PhD, Harvard University, 1971

Ronald J Steel, Professor  
Morgan J. Davis Centennial Chair in Petroleum Geology  
Department of Geological Sciences  
PhD, University of Glasgow, 1972

Daniel Stockli, Professor  
Department of Geological Sciences  
PhD, Stanford University, 2000

Paul L Stoffa, Professor  
Shell Companies Foundation Distinguished Chair in Geophysics  
Department of Geological Sciences  
PhD, Columbia University in the City of New York, 1974

Robert H Tatham, Professor  
Shell Companies Foundation Centennial Chair in Geophysics  
Department of Geological Sciences  
PhD, Columbia University in the City of New York, 1975

Scott W Tinker, Professor  
Edwin Allday Centennial Chair in Subsurface Geology  
Department of Geological Sciences  
PhD, University of Colorado at Boulder, 1996

Edward K Vizey, Lecturer  
Department of Geological Sciences  
PhD, Cornell University, 2003

Clark R Wilson, Professor  
Wallace E. Pratt Professorship in Geophysics  
Department of Geological Sciences  
PhD, University of California-San Diego, 1975

Lesli J Wood, Lecturer  
Department of Geological Sciences  
PhD, Colorado State University, 1992

Zong-Liang Yang, Professor  
John A. and Katherine G. Jackson Chair in Earth System Sciences  
Department of Geological Sciences  
PhD, Macquarie University, 1992

Christopher K Zahm, Lecturer  
Department of Geological Sciences  
PhD, Colorado School of Mines, 2002

Donggao Zhao, Lecturer  
Department of Geological Sciences  
PhD, University of Michigan-Ann Arbor, 1998

## School of Information Faculty

Suellen S Adams, Adjunct Assistant Professor  
School of Information  
PhD, University of Texas at Austin, 2006

William L Anderson, Adjunct Assistant Professor

School of Information  
PhD, Rensselaer Polytechnic Institute, 1971

William Franklin Aspray, Professor  
Bill and Lewis Suit Professorship  
School of Information  
PhD, University of Wisconsin Colleges, 1980

Diane Elizabeth Bailey, Assistant Professor  
School of Information  
PhD, University of California-Berkeley, 1994

Lecia Jane Barker, Research Associate Professor (Affiliated)  
School of Information  
PhD, University of Colorado at Boulder, 1998

Randolph G Bias, Associate Professor  
School of Information  
PhD, University of Texas at Austin, 1978

Barbara Ann Bintliff, Professor  
School of Information  
JD, University of Washington - Seattle, 1978

John R Boisseau, Lecturer  
School of Information  
PhD, University of Texas at Austin, 1996

Claudia F Chidester, Adjunct Assistant Professor  
School of Information  
MLIS, University of Texas at Austin, 1986

Tanya Elizabeth Clement, Assistant Professor  
School of Information  
PhD, University of Maryland College Park, 2009

Veronica P Covington, Adjunct Assistant Professor  
School of Information  
PhD, Texas A & M University, 1996

Mary C Criner, Lecturer  
School of Information  
PhD, Louisiana State University and Agricultural and Mechanical  
College, 2000

Sarah H Cunningham, Lecturer  
School of Information  
MS, University of Texas at Austin, 2003

Donald G Davis, Professor Emeritus  
School of Information  
PhD, University of Illinois at Urbana-Champaign, 1972

Andrew P Dillon, Professor  
Louis T. Yule Regents Professorship in Library and Information  
Science  
School of Information  
PhD, Loughborough University, 1991

Philip Doty, Associate Professor  
School of Information  
PhD, Syracuse University Main Campus, 1995

Lori K Eichelberger, Lecturer  
School of Information  
MLIS, University of Texas at Austin, 1997

Rebecca K Elder, Adjunct Assistant Professor

School of Information  
MSLS, University of Texas at Austin, 2003

Nathan Ensmenger, Assistant Professor  
School of Information  
PhD, University of Pennsylvania, 2001

Melanie Diane Feinberg, Assistant Professor  
School of Information  
PhD, University of Washington - Seattle, 2008

Luis Francisco-Revilla, Assistant Professor  
School of Information  
PhD, Texas A & M University, 2004

Patricia K Galloway, Associate Professor  
School of Information  
PhD, University of North Carolina at Chapel Hill, 2004

David B Gracy, Professor Emeritus  
School of Information  
PhD, Texas Tech University, 1971

Stanley T Gunn, Adjunct Assistant Professor  
School of Information  
MLS, University of Texas at Austin, 1998

Julie Hallmark, Professor Emeritus  
School of Information  
PhD, University of Texas at Austin, 1973

Elmer G Harmon, Professor  
School of Information  
PhD, Case Western Reserve University, 1970

Lance A Hayden, Adjunct Assistant Professor  
School of Information  
PhD, University of Texas at Austin, 2009

Dorothy E Haynes, Adjunct Assistant Professor  
School of Information  
PhD, University of Texas at Austin, 1999

Fred M Heath, Professor  
School of Information  
EdD, Virginia Polytechnic Institute and State University, 1980

Margaret E Hermesmeyer, Adjunct Assistant Professor  
School of Information  
MLS, University of Texas at Austin, 1992

Billie G Herring, Professor Emeritus  
School of Information  
PhD, University of Texas at Austin, 1974

James L Howison, Assistant Professor  
School of Information  
PhD, Syracuse University Main Campus, 2009

Barbara F Immroth, Professor  
School of Information  
PhD, University of Pittsburgh, Pittsburgh Campus, 1980

William V Jackson, Professor Emeritus  
School of Information  
PhD, Harvard University, 1952

Unmil P Karadkar, Lecturer

School of Information  
School of Information  
PhD, Texas A & M University, 2011

Michael S Laird, Adjunct Assistant Professor  
School of Information  
MLIS, University of Texas at Austin, 1989

Matthew Alan Lease, Assistant Professor  
School of Information  
PhD, Brown University, 2009

Shirley H Lukenbill, Lecturer  
School of Information  
MS, Louisiana State University and Agricultural and Mechanical  
College, 1962

Willis B Lukenbill, Professor Emeritus  
School of Information  
PhD, Indiana University at Bloomington, 1973

Harry S Martin, Adjunct Professor  
School of Information  
JD, University of Minnesota-Twin Cities, 1968

Francis L Miksa, Professor Emeritus  
School of Information  
PhD, University of Chicago, 1974

Karen L Pavelka, Lecturer  
School of Information  
MS, Columbia University in the City of New York, 1988

Mary L Rice-Lively, Lecturer  
School of Information  
PhD, University of Texas at Austin, 1996

Linda R Rivera, Lecturer  
School of Information  
MLS, Texas Woman's University, 1981

Loriene Roy, Professor  
School of Information  
PhD, University of Illinois at Urbana-Champaign, 1987

Richard H Schneeman, Adjunct Assistant Professor  
School of Information  
BS, Georgia Institute of Technology, 2008

Alonzo Fleming Seay, Adjunct Assistant Professor  
School of Information  
PhD, Carnegie Mellon University, 2006

Brooke E Sheldon, Professor Emeritus  
School of Information  
PhD, University of Pittsburgh, Pittsburgh Campus, 1977

Kim Clifton Smith, Adjunct Assistant Professor  
School of Information  
PhD, Brown University, 1983

Clay Spinuzzi, Associate Professor  
School of Information  
PhD, Iowa State University, 1999

Shawn Q Stewart, Lecturer  
School of Information

MLIS, University of Texas at Austin, 1999

Stephanie D Swenson, Adjunct Assistant Professor  
School of Information  
JD, University of Texas at Austin, 1994

Ciaran Trace, Assistant Professor  
School of Information  
PhD, University of California-Los Angeles, 2004

Jo Lynn Westbrook, Associate Professor  
School of Information  
PhD, University of Michigan-Ann Arbor, 1995

Andrew B Whinston, Professor  
Hugh Roy Cullen Centennial Chair in Business Administration  
School of Information  
PhD, Carnegie Mellon University, 1962

Amanda J Williams, Adjunct Assistant Professor  
John P. Commons and Alice McCarthy Commons Centennial  
Lectureship in Children's Librarianship  
School of Information  
PhD, University of Texas at Austin, 1998

Megan A Winget, Assistant Professor  
School of Information  
PhD, University of North Carolina at Chapel Hill, 2006

Michael B Winship, Professor  
Iris Howard Regents Professorship in English Literature #2  
School of Information  
DPhil, University of Oxford, 1990

Ronald E Wyllys, Professor Emeritus  
School of Information  
PhD, University of Wisconsin-Madison, 1974

Yan Zhang, Assistant Professor  
School of Information  
PhD, University of North Carolina at Chapel Hill, 2009

## College of Liberal Arts Faculty

Itty Abraham, Associate Professor  
Department of Asian Studies  
Department of Government  
PhD, University of Illinois at Urbana-Champaign, 1993

Jeffrey Bruce Abramson, Professor  
Department of Government  
PhD, Harvard University, 1977

Jason Ira Abrevaya, Professor  
Fred Hofheinz Regents Professorship in Economics  
Department of Economics  
PhD, Massachusetts Institute of Technology, 1996

Robert H Abzug, Professor  
Audre and Bernard Rapoport Regents Chair of Jewish Studies  
Department of History  
Department of American Studies  
PhD, University of California-Berkeley, 1977

Michael W Adams, Associate Professor

Department of English  
PhD, University of Texas at Austin, 1973

Paul C Adams, Associate Professor  
Department of Geography and the Environment  
PhD, University of Wisconsin-Madison, 1993

Richard N Adams, Professor Emeritus  
Department of Anthropology  
PhD, Yale University, 1951

Christopher O Adejumo, Associate Professor  
John L Warfield Center for African and African American Studies  
PhD, Ohio State U Main Campus, 1997

Deanna L Adkins, Research Assistant Professor (Affiliated)  
Department of Psychology  
Department of Psychology  
PhD, University of Texas at Austin, 2005

Ari Adut, Associate Professor  
Department of Sociology  
PhD, University of Chicago, 2004

Omoniyi Afolabi, Associate Professor  
Department of Spanish and Portuguese  
Department of African and African Diaspora Studies  
PhD, University of Wisconsin-Madison, 1997

Kamran S Aghaie, Associate Professor  
Department of Middle Eastern Studies  
Center for Women's and Gender Studies  
Center for Middle Eastern Studies  
Department of History  
PhD, University of California-Los Angeles, 1999

Yukie Aida, Senior Lecturer  
Department of Asian Studies  
PhD, University of Texas at Austin, 1988

Erick Akins, Lecturer  
Department of Geography and the Environment  
MA, Trinity University, 1988

Mahmoud M Al-Batal, Associate Professor  
Department of Middle Eastern Studies  
Center for Middle Eastern Studies  
PhD, University of Michigan-Ann Arbor, 1985

Ilana Albanese, Clinical Assistant Professor  
Department of Psychology  
PhD, University of Florida, 1994

Bethany L Albertson, Assistant Professor  
Department of Government  
PhD, University of Chicago, 2006

Duane G Albrecht, Professor Emeritus  
Department of Psychology  
PhD, University of California-Berkeley, 1978

Adriana A Alcantara, Adjunct Assistant Professor  
Department of Psychology  
PhD, University of Illinois at Urbana-Champaign, 1993

Kamran Ali, Associate Professor  
Marlene and Morton Meyerson Centennial Chair

Department of Anthropology  
Department of Asian Studies  
Center for Middle Eastern Studies  
Department of Middle Eastern Studies  
PhD, Johns Hopkins University, 1998

Samer M Ali, Associate Professor  
Department of Middle Eastern Studies  
Center for Middle Eastern Studies  
PhD, Indiana University at Bloomington, 2002

Edwin B Allaire, Professor Emeritus  
Department of Philosophy  
PhD, University of Iowa, 1960

Heather Jayne Allen, Assistant Professor  
Department of Spanish and Portuguese  
PhD, University of Chicago, 2011

Andres Almazan, Professor  
Department of Economics  
PhD, Massachusetts Institute of Technology, 1996

Michael R Anderson, Lecturer  
Department of Government  
PhD, University of Texas at Austin, 2009

Jacqueline L Angel, Professor  
Department of Sociology  
PhD, Rutgers the State University of New Jersey New Brunswick  
Campus, 1989

Ronald J Angel, Professor  
Department of Sociology  
PhD, University of Wisconsin-Madison, 1981

Sarah K Angulo, Lecturer  
Department of Psychology  
PhD, University of Texas at Austin, 2008

Jamie D Aprile, Lecturer  
Department of Classics  
MA, University of California-Los Angeles, 2005

Emilia Arce, Lecturer  
Department of Spanish and Portuguese  
PhD, University of Texas at Austin, 2009

Katherine M Arens, Professor  
Department of Germanic Studies  
Center for Women's and Gender Studies  
PhD, Stanford University, 1981

Michael A Arguello, Assistant Professor ROTC  
Department of Air Force Science  
MBA, Webster University, 2008

Arturo Arias, Professor  
Department of Spanish and Portuguese  
PhD, L'Ecole des Hautes Etudes en Sciences Sociales, 1978

Eugenio Yatsuda Arima, Assistant Professor  
Department of Geography and the Environment  
PhD, Michigan State University, East Lansing, 2005

David Armstrong, Professor Emeritus  
Department of Classics

PhD, University of Texas at Austin, 1968

Jossianna Arroyo Martinez, Associate Professor  
Department of Spanish and Portuguese  
Department of African and African Diaspora Studies  
John L Warfield Center for African and African American Studies  
PhD, University of California-Berkeley, 1998

Wade L Aubin, Assistant Professor ROTC  
Department of Military Science  
MS, Washington State University, 2000

Javier Auyero, Professor  
Joe R. & Teresa Lozano Long Endowed Professorship #3  
Department of Sociology  
PhD, New Sch for Soc Research, 1998

Germine H Awad, Assistant Professor  
Center for Middle Eastern Studies  
Department of African and African Diaspora Studies  
John L Warfield Center for African and African American Studies  
PhD, Southern Illinois University Carbondale, 2005

James B Ayres, Professor Emeritus  
Department of English  
PhD, Ohio University Main Campus, 1964

Jennifer Lyn Ayres, Clinical Assistant Professor  
Department of Psychology  
PhD, University of Texas Southwestern Medical Center at Dallas, 2000

Hina Azam, Assistant Professor  
Department of Middle Eastern Studies  
Center for Middle Eastern Studies  
PhD, Duke University, 2007

Mary-Farr J Baker, Professor Emeritus  
Department of French and Italian  
PhD, Harvard University, 1969

Samuel Baker, Associate Professor  
Department of English  
PhD, University of Chicago, 2001

Jason M Baldrige, Associate Professor  
Department of Linguistics  
PhD, University of Edinburgh, 2002

Dana Harry Ballard, Professor  
Department of Psychology  
PhD, University of California-Irvine, 1974

Cecilia Balli, Assistant Professor  
Department of Anthropology  
PhD, Rice University, 2009

Colin James Bannard, Assistant Professor  
Department of Linguistics  
PhD, University of Edinburgh, 2006

Aaron Bar-Adon, Professor  
Department of Middle Eastern Studies  
Department of Linguistics  
Center for Middle Eastern Studies  
PhD, The Hebrew University of Jerusalem, 1959

Zoltan D Barany, Professor

Frank C. Erwin, Jr. Centennial Professorship in Government  
Department of Government  
Department of Slavic and Eurasian Studies  
PhD, University of Virginia (Old Code), 1991

Janine Barchas, Associate Professor  
Department of English  
PhD, University of Chicago, 1995

Jeffrey Barnouw, Professor Emeritus  
Department of English  
PhD, Yale University, 1969

Francisco Javier Barrenechea, Lecturer  
Department of Classics  
PhD, Columbia University in the City of New York, 2005

Jennifer-Kate Barret, Assistant Professor  
Department of English  
PhD, Princeton University, 2008

Phillip J Barrish, Associate Professor  
Department of English  
PhD, Cornell University, 1991

Alice L Batt, Lecturer  
Department of Rhetoric and Writing  
PhD, University of Texas at Austin, 1996

Thomas A Bay, Adjunct Professor  
Plan II Honors Program  
PhD, Columbia University in the City of New York, 1987

David I Beaver, Professor  
Department of Linguistics  
PhD, University of Edinburgh, 1995

John T Beavers, Assistant Professor  
Department of Linguistics  
PhD, Stanford University, 2006

Deborah Beck, Assistant Professor  
Department of Classics  
PhD, Harvard University, 1997

Jennifer S Beer, Associate Professor  
Department of Psychology  
PhD, University of California-Berkeley, 2002

Christopher G Beevers, Associate Professor  
Department of Psychology  
PhD, University of Miami, 2002

Kirsten L Belgum, Associate Professor  
Department of Germanic Studies  
PhD, University of Wisconsin-Madison, 1989

Mary C Beltran, Assistant Professor  
Center for Mexican American Studies  
PhD, University of Texas at Austin, 2002

Valerie R Bencivenga, Senior Lecturer  
Department of Economics  
PhD, University of Toronto, 1985

Chad J Bennett, Lecturer  
Department of English

PhD, Cornell University, 2011

Keisha L Bentley-Edwards, Assistant Professor  
John L Warfield Center for African and African American Studies  
Department of African and African Diaspora Studies  
PhD, University of Pennsylvania, 2009

Charles E Berg, Professor  
Joe M. Dealey, Sr. Professorship in Media Studies  
Center for Mexican American Studies  
PhD, University of Texas at Austin, 1987

Mitchell N Berman, Professor  
Richard Dale Endowed Chair in Law  
Department of Philosophy  
JD, University of Michigan-Ann Arbor, 1993

Betsy A Berry, Senior Lecturer  
Department of English  
PhD, University of Texas at Austin, 1994

Daina R Berry, Associate Professor  
Department of History  
John L Warfield Center for African and African American Studies  
PhD, University of California-Los Angeles, 1998

Lance Bertelsen, Professor  
Iris Howard Regents Professorship in English Literature  
Department of English  
PhD, University of Washington - Seattle, 1979

John Allen Bertelson, Clinical Assistant Professor  
Department of Psychology  
MD, University of Texas Medical Branch, 1998

Rebecca Bigler, Professor  
Department of Psychology  
Center for Women's and Gender Studies  
PhD, Penn State University Park, 1991

Daniela Bini, Professor  
David Bruton, Jr. Centennial Professorship in Modern Languages  
Department of French and Italian  
PhD, University of Texas at Austin, 1970

Department of Middle Eastern Studies  
PhD, Columbia University in the City of New York, 2009

Walt N Mercer, Lecturer  
Department of Psychology  
PhD, University of North Texas, 1994

Cindy M Meston, Professor  
Department of Psychology  
PhD, University of British Columbia, 1995

Mark Metzler, Associate Professor  
Department of History  
Department of Asian Studies  
PhD, University of California-Berkeley, 1998

Vagdevi V Meunier, Clinical Assistant Professor  
Department of Psychology  
PsyD, Antioch New England Graduate School, 1997

Thoralf Meyer, Lecturer  
Department of Geography and the Environment  
MS, Anhalt University of Applied Sciences, 1999

Julia L Mickenberg, Associate Professor  
Department of American Studies  
PhD, University of Minnesota-Twin Cities, 2000

Harry J Middleton, Senior Lecturer  
Humanities Program  
BA, Louisiana State University and Agricultural and Mechanical  
College, 1947

John C Middleton, Professor Emeritus  
Department of Germanic Studies  
PhD, University of Oxford, 1954

Aragorn S Miller, Lecturer  
Department of History  
PhD, University of Texas at Austin, 2012

Guy H Miller, Associate Professor Emeritus  
Department of History  
PhD, University of Michigan-Ann Arbor, 1970

Jennifer A Miller, Assistant Professor  
Department of Geography and the Environment

PhD, San Diego State University, 2003

Karl H Miller, Associate Professor  
Department of History  
PhD, New York University, 2002

Gail Minault, Professor  
Department of History  
Department of Asian Studies  
Center for Women's and Gender Studies  
Center for Middle Eastern Studies  
PhD, University of Pennsylvania, 1972

Jessica L Miner, Lecturer  
Department of Classics  
PhD, University of Texas at Austin, 2006

Eugenio Javier Miravete, Associate Professor  
Department of Economics  
PhD, Northwestern University, 1996

John Mirowsky, Professor  
Department of Sociology  
PhD, Yale University, 1981

Rodney Moag, Associate Professor Emeritus  
Department of Asian Studies  
PhD, University of Wisconsin-Madison, 1973

Hans-Bernhard Moeller, Associate Professor Emeritus  
Department of Germanic Studies  
PhD, University of Southern California, 1964

Mahboob Ali Mohammad, Lecturer  
Department of Asian Studies  
PhD, University of Wisconsin-Madison, 2006

Mohammad A Mohammad, Associate Professor  
Department of Middle Eastern Studies  
Center for Middle Eastern Studies  
PhD, University of Southern California, 1989

Joseph J Moldenhauer, Professor Emeritus  
Department of English  
PhD, Columbia University in the City of New York, 1964

Robert R Mollenauer, Associate Professor Emeritus  
Department of Germanic Studies  
PhD, Indiana University at Bloomington, 1960

Sidney Monas, Professor Emeritus  
Department of History  
PhD, Harvard University, 1955

Marie Helene Monfils, Assistant Professor  
Department of Psychology  
PhD, University of Lethbridge, 2005

Delia L Montesinos, Senior Lecturer  
Department of Spanish and Portuguese  
PhD, University of Texas at Austin, 2000

Jean-Pierre Montreuil, Professor  
Department of French and Italian  
PhD, University of Texas at Austin, 1977

Leonard Nathaniel Moore, Professor  
Department of History

John L Warfield Center for African and African American Studies

Department of Psychology  
PhD, University of Michigan-Ann Arbor, 2006

Gretchen Murphy, Associate Professor  
Department of English  
Center for Women's and Gender Studies  
PhD, University of Washington - Seattle, 1999

Melissa D Murphy, Lecturer  
Department of Spanish and Portuguese  
PhD, University of Texas at Austin, 2008

Jan Musekamp, Assistant Professor  
Department of Germanic Studies  
PhD, Europa-Universitat Viadrina Frankfurt (Oder), 2008

Marc A Musick, Professor  
Department of Sociology  
PhD, Duke University, 1997

Scott P Myers, Professor  
Department of Linguistics  
PhD, University of Massachusetts, 1987

Zoltan Nadasdy, Adjunct Assistant Professor  
Department of Psychology  
PhD, Rutgers the State University of New Jersey Newark Campus,  
1999

A Rebecca Neal-Beevers, Assistant Professor  
Department of Psychology  
PhD, University of Miami, 2002

James A Neely, Professor Emeritus  
Department of Anthropology  
PhD, University of Arizona, 1974

Neil R Nehring, Associate Professor  
Department of English  
PhD, University of Michigan-Ann Arbor, 1985

William R Nethercut, Professor  
Department of Classics  
Center for Middle Eastern Studies  
PhD, Columbia University in the City of New York, 1963

Joan H Neuberger, Professor  
Department of History  
Department of Slavic and Eurasian Studies  
PhD, Stanford University, 1985

Mary C Neuburger, Associate Professor  
Department of History  
Center for Middle Eastern Studies  
Department of Slavic and Eurasian Studies  
PhD, University of Washington - Seattle, 1997

Vernon E Neuenschwander, Associate Professor ROTC  
Department of Naval Science  
MS, Troy State University, 1997

Irma Celina Nevarez, Lecturer  
Department of Spanish and Portuguese  
MAEd, Instituto Tecnológico y de Estudios Superiores de Monterrey,  
1998

Martha G Newman, Associate Professor  
Department of History  
Department of Religious Studies  
PhD, Stanford University, 1988

Muoi Van Nguyen, Senior Lecturer  
Department of Asian Studies  
PhD, Vietnam National University, 1997

Son Thanh Nguyen, Associate Professor ROTC  
Department of Air Force Science  
MS, Georgia Military College, 1997

Chiyo Nishida, Associate Professor  
Department of Spanish and Portuguese  
PhD, University of Arizona, 1987

Angela Miyuki Nonaka, Assistant Professor  
Department of Anthropology  
PhD, University of California-Los Angeles, 2007

Alfred L Norman, Professor  
Department of Economics  
PhD, University of Minnesota-Twin Cities, 1971

Robert P O'Brien, Adjunct Assistant Professor  
Department of Psychology  
PhD, University of Florida, 1976

Shannon B O'Brien, Lecturer  
Department of Government  
MA, University of Louisville, 2000

Thomas J O'Hare, Associate Professor Emeritus  
Department of Germanic Studies  
PhD, University of Texas at Austin, 1964

Gerald S Oettinger, Associate Professor  
Department of Economics  
PhD, Massachusetts Institute of Technology, 1993

Guillermina Ogando Lavin, Lecturer  
Department of Spanish and Portuguese  
MA, Universidad Antonio de Nebrija, 2002

Moyosore Benjamin Okediji, Associate Professor  
Department of African and African Diaspora Studies  
John L Warfield Center for African and African American Studies  
PhD, University of Wisconsin Colleges, 1995

PhD, University of Colorado at Boulder, 1990

Michael P Young, Associate Professor  
Department of Sociology  
PhD, New York University, 2000

Wei-Hsin Yu, Associate Professor  
Department of Sociology  
PhD, University of Chicago, 1999

Janie Zackin, Lecturer  
Department of Spanish and Portuguese  
PhD, University of Texas at Austin, 2008

Emilio Zamora, Professor  
Department of History  
Center for Mexican American Studies  
PhD, University of Texas at Austin, 1983

Abraham Zilkha, Associate Professor Emeritus  
Department of Middle Eastern Studies  
PhD, University of Texas at Austin, 1970

Stanislav Zimic, Professor  
Department of Spanish and Portuguese  
PhD, Duke University, 1964

Larisa Zlatic, Lecturer  
Department of Slavic and Eurasian Studies  
PhD, University of Texas at Austin, 1997

Leo Edward Zonn, Professor  
Department of Geography and the Environment  
PhD, University of Wisconsin-Milwaukee, 1975

## College of Natural Sciences Faculty

John Abbott, Senior Lecturer  
School of Biological Sciences  
PhD, University of North Texas, 1999

Meena D Adhikary, Specialist  
Department of Human Development and Family Sciences  
MEd, University of Texas at Austin, 1990

Seema Agarwala, Associate Professor  
Section of Molecular Cell and Developmental Biology  
PhD, State University of New York at Stony Brook, 1990

J K Aggarwal, Professor  
Cullen Trust for Higher Education Endowed Professorship in  
Engineering #2  
Department of Computer Science  
PhD, University of Illinois at Urbana-Champaign, 1964

Karin L Akre, Lecturer  
School of Biological Sciences  
PhD, University of Texas at Austin, 2010

Teri J Albrecht, Lecturer  
College of Natural Sciences  
PhD, University of Texas at Austin, 2007

Richard W Aldrich, Professor  
Karl Folkers Chair in Interdisciplinary Biomedical Research II  
Section of Neurobiology  
PhD, Stanford University, 1980

Daniel J Allcock, Professor  
Department of Mathematics  
PhD, University of California-Berkeley, 1996

Arthur W Allen, Lecturer  
School of Biological Sciences  
PhD, University of Texas at Austin, 1998

Kelli Rae Allen, Clinical Assistant Professor  
UTeach-Natural Sciences  
MS, Pittsburg State University, 1998

Orly Alter, Adjunct Associate Professor  
Department of Mathematics  
PhD, Stanford University, 1999

Lorenzo Alvisi, Professor  
Department of Computer Science  
PhD, Cornell University, 1996

Natalie Younok Ammon, Specialist  
Department of Human Development and Family Sciences  
PhD, University of Texas at Austin, 2011

Edward R Anderson, Associate Professor  
Department of Human Development and Family Sciences  
PhD, University of Virginia, 1989

Susan E Anderson, Specialist  
Department of Chemistry and Biochemistry  
MA, University of Texas at Austin, 2009

Eric V Anslyn, Professor  
Norman Hackerman Professorship in Chemistry  
Department of Chemistry and Biochemistry  
PhD, California Institute of Technology, 1988

Peter R Antoniewicz, Professor  
Department of Physics  
PhD, Purdue University Main Campus, 1965

Dean R Appling, Professor  
Lester J. Reed Professorship in Biochemistry  
Department of Chemistry and Biochemistry  
PhD, Vanderbilt University, 1981

Todd J Arbogast, Professor  
Department of Mathematics  
PhD, University of Chicago, 1987

Alexander Michael Arispe, Specialist  
Department of Chemistry and Biochemistry  
BS, University of Texas at Austin, 2010

Jane Arledge, Lecturer  
Department of Mathematics  
PhD, University of Colorado at Boulder, 1995

Efraim P Armendariz, Professor  
Department of Mathematics  
PhD, University of Nebraska - Lincoln, 1966

Connie R Arnold, Professor Emeritus  
Department of Marine Science  
PhD, Texas A & M University, 1968

Karen J Artzt, Professor Emeritus  
Section of Molecular Genetics and Microbiology  
PhD, Weill Medical College of Cornell University, 1972

William Franklin Aspray, Professor  
Bill and Lewis Suit Professorship  
Department of Computer Science  
PhD, University of Wisconsin Colleges, 1980

Nigel S Atkinson, Professor  
Section of Neurobiology  
PhD, Pennsylvania State University Main Campus, 1986

Jennifer Katherine Mann Austin, Lecturer  
Department of Mathematics  
MS, Florida State University, 2002

Ivo M Babuska, Professor  
Robert B. Trull Chair in Engineering  
Department of Mathematics  
PhD, Academy of Sciences, 1955

Joshua Dana Baer, Specialist  
Department of Computer Science  
BS, Carnegie Mellon University, 1999

Chandrajit L Bajaj, Professor  
CAM Chair in Visualization  
Department of Computer Science  
PhD, Cornell University, 1984

Dana Harry Ballard, Professor  
Department of Computer Science

PhD, University of California-Irvine, 1974

Gerard Barbanson, Adjunct Professor  
Department of Mathematics  
PhD, Universite Louis Pasteur, Strasbourg I, 1975

Allen J Bard, Professor  
Norman Hackerman - Welch Regents Chair in Chemistry  
Department of Chemistry and Biochemistry  
PhD, Harvard University, 1958

Alexander M Barr, Lecturer  
College of Natural Sciences  
BS, University of Illinois at Urbana-Champaign, 2003

Jeffrey E Barrick, Assistant Professor  
Department of Chemistry and Biochemistry  
PhD, Yale University, 2006

Suzanne S Barth, Adjunct Associate Professor  
School of Biological Sciences  
PhD, University of Texas at Austin, 1983

Frank N Bash, Professor Emeritus  
Department of Astronomy  
PhD, University of Virginia (Old Code), 1967

Don S Batory, Professor  
David Bruton, Jr. Centennial Professorship in Computer Sciences #1  
Department of Computer Science  
PhD, University of Toronto, 1981

John C Batterton, Lecturer  
School of Biological Sciences  
PhD, University of Texas at Austin, 1970

Nathan L Bauld, Professor Emeritus  
Department of Chemistry and Biochemistry  
PhD, University of Illinois at Urbana-Champaign, 1959

Mark C Baumann, Lecturer  
College of Natural Sciences  
PhD, University of Texas at Austin, 2011

Josh T Beckham, Specialist  
College of Natural Sciences  
PhD, Vanderbilt University, 2008

Mary R Beckham, Adjunct Assistant Professor  
Section of Molecular Genetics and Microbiology  
MEd, University of Mary Hardin-Baylor, 1998

William Beckner, Professor  
Paul V. Montgomery Centennial Memorial Professorship in  
Mathematics  
Department of Mathematics  
PhD, Princeton University, 1975

Ockhee Bego, Lecturer  
Division of Textiles and Apparel  
MFA, Academy of Art University, 2010

David D Ben-Zvi, Associate Professor  
Department of Mathematics  
PhD, Harvard University, 1999

George F Benedict, Senior Lecturer  
Department of Astronomy

PhD, Northwestern University, 1972

Roger D Bengtson, Professor  
Department of Physics  
PhD, University of Maryland College Park, 1968

Aprile D Benner, Assistant Professor  
Department of Human Development and Family Sciences  
PhD, University of California-Los Angeles, 2007

Sterling K Berberian, Professor Emeritus  
Department of Mathematics  
PhD, University of Chicago, 1955

Gary D Berg, Lecturer  
Department of Mathematics  
PhD, University of Texas at Austin, 1996

Herbert L Berk, Professor  
Department of Physics  
PhD, Princeton University, 1964

Vertica Bhardwaj, Lecturer  
Division of Textiles and Apparel  
PhD, University of Tennessee, 2010

Klaus R Bichteler, Professor  
Department of Mathematics  
PhD, University of Hamburg, 1965

Christopher W Bielawski, Professor  
Department of Chemistry and Biochemistry  
PhD, California Institute of Technology, 2003

Mark W Bierner, Senior Lecturer  
School of Biological Sciences  
PhD, University of Texas at Austin, 1971

Adam J Billman, Specialist  
Department of Chemistry and Biochemistry  
BS, University of Texas at Austin, 2010

George Biros, Professor  
W. A. "Tex" Moncrief, Jr. Endowment in Simulation-Based Engineering  
and Sciences - Endowed Chair No. 2  
Department of Computer Science  
PhD, Carnegie Mellon University, 2000

George D Bittner, Professor  
Section of Neurobiology  
PhD, Stanford University, 1967

Andrew Justin Blumberg, Assistant Professor  
Department of Mathematics  
PhD, University of Chicago, 2005

Olena Blumberg, Lecturer  
Department of Mathematics  
PhD, Stanford University, 2011

James E Boggs, Professor Emeritus  
Department of Chemistry and Biochemistry  
PhD, University of Michigan-Ann Arbor, 1953

Arno R Bohm, Professor  
Department of Physics  
PhD, Philipps-University of Marburg, 1966

John R Boisseau, Lecturer  
Division of Statistics and Scientific Computation  
PhD, University of Texas at Austin, 1996

Daniel I Bolnick, Associate Professor  
Section of Integrative Biology  
PhD, University of California-Davis, 2003

Haran Boral, Adjunct Associate Professor  
Department of Computer Science  
PhD, University of Wisconsin-Madison, 1981

Erika Borden, Lecturer  
School of Biological Sciences  
PhD, North Carolina State University, 2005

Jacek I Borysow, Adjunct Professor  
Department of Physics  
PhD, University of Texas at Austin, 1986

Henry R Bose, Professor  
Mary M. Betzner Morrow Centennial Chair in Microbiology  
Section of Molecular Genetics and Microbiology  
PhD, Indiana University at Bloomington, 1967

Lisa Diane Boucher, Lecturer  
School of Biological Sciences  
PhD, Ohio State U Main Campus, 1995

Robert S Boyer, Professor Emeritus  
Department of Computer Science  
PhD, University of Texas at Austin, 1971

Jerry J Brand, Professor  
Jack S. Josey Professorship in Energy Studies  
Section of Molecular Cell and Developmental Biology  
PhD, Purdue University Main Campus, 1971

Karen Marie Bravo, Lecturer  
Division of Textiles and Apparel  
MA, Central Saint Martins College of Art and Design, 2004

Michel Breger, Adjunct Professor  
Department of Astronomy  
PhD, University of California-Berkeley, 1969

Boris Breizman, Research Professor (Affiliated)  
Department of Physics  
PhD, Budker Institute of Nuclear Physics, 1971

Margaret E Briley, Professor  
Department of Nutritional Sciences  
PhD, Texas Tech University, 1973

Patrick L Brockett, Professor  
Gus Wortham Memorial Chair in Risk Management and Insurance  
Department of Mathematics  
PhD, University of California-Irvine, 1975

Jennifer S Brodbelt, Professor  
William H. Wade Endowed Professorship in Chemistry  
Department of Chemistry and Biochemistry  
PhD, Purdue University Main Campus, 1988

Volker Bromm, Associate Professor  
Department of Astronomy  
PhD, Yale University, 2000

Franklin H Bronson, Professor  
Section of Integrative Biology  
PhD, Pennsylvania State University Main Campus, 1961

Richard M Brown, Professor  
Johnson & Johnson Centennial Chair in Plant Cell Biology  
Section of Molecular Genetics and Microbiology  
PhD, University of Texas at Austin, 1964

James C Browne, Professor Emeritus  
Department of Computer Science  
PhD, University of Texas at Austin, 1960

Karen S Browning, Associate Professor  
Department of Chemistry and Biochemistry  
PhD, University of Illinois at Urbana-Champaign, 1980

Amy E Bryan, Lecturer  
Department of Human Development and Family Sciences  
MSSW, University of Texas at Austin, 2000

James T Bryant, Lecturer  
School of Biological Sciences  
PhD, Tex Hlth Sci C Dallas, U, 2000

James J Bull, Professor  
Johann Friedrich Miescher Regents Professorship in Molecular Biology  
Section of Integrative Biology  
PhD, University of Utah, 1977

Mary J Burson-Polston, Lecturer  
Department of Human Development and Family Sciences  
MS, Colorado State University, 1979

Thomas J Bushart, Lecturer  
School of Biological Sciences  
PhD, University of Texas at Austin, 2007

Edward J Buskey, Professor  
Department of Marine Science  
PhD, University of Rhode Island, 1983

Ruth E Buskirk, Distinguished Senior Lecturer  
School of Biological Sciences  
PhD, University of California-Davis, 1972

Elena Caceres, Adjunct Professor  
Department of Physics  
PhD, University of Texas at Austin, 1996

Luis A Caffarelli, Professor  
Sid W. Richardson Foundation Regents Chair in Mathematics #1  
Department of Mathematics  
PhD, University of Buenos Aires, 1972

Prudence Marie Cain, Clinical Assistant Professor  
UTeach-Natural Sciences  
MS, West Texas A&M University, 1983

Alan Campion, Professor  
Dow Chemical Company Endowed Professorship in Chemistry  
Department of Chemistry and Biochemistry  
PhD, University of California-Los Angeles, 1977

Marion Moore Campisi, Instructor  
Department of Mathematics  
PhD, University of California-Davis, 2010

Phillip E Cannata, Adjunct Professor  
Department of Computer Science  
PhD, University of Notre Dame, 1980

David Cannatella, Professor  
Section of Integrative Biology  
PhD, University of Kansas Main Campus, 1986

Maria-Cristina Caputo, Lecturer  
Department of Mathematics  
PhD, Columbia University in the City of New York, 2006

Gustavo E Cepparo, Lecturer  
Department of Mathematics  
MS, Kansas State University, 1999

Clarence S Chan, Associate Professor  
Section of Molecular Genetics and Microbiology  
Section of Molecular Cell and Developmental Biology  
PhD, Cornell University, 1985

James R Chelikowsky, Professor  
W. A. "Tex" Moncrief, Jr. Chair in Computational Materials  
Department of Physics  
Department of Chemistry and Biochemistry  
PhD, University of California-Berkeley, 1975

Jonathan Yan Chen, Professor  
Division of Textiles and Apparel  
School of Human Ecology  
PhD, University of Leeds, 1995

Thomas Chen, Assistant Professor  
Department of Mathematics  
PhD, Swiss Federal Institute of Technology, 2001

Zengjian J Chen, Professor  
D. J. Sibley Centennial Professorship in Plant Molecular Genetics  
Section of Molecular Cell and Developmental Biology  
PhD, Texas A & M University, 1993

Elliott W Cheney, Professor Emeritus  
Department of Mathematics  
PhD, University of Kansas Main Campus, 1957

Sheree D Cherry, Lecturer  
School of Biological Sciences  
PhD, University of Tennessee Health Science Center, 2009

Antonia Chimonidou, Lecturer  
Department of Physics  
PhD, University of Texas at Austin, 2009

Brenda J Chinnery-Allgeier, Lecturer  
School of Biological Sciences  
PhD, Johns Hopkins University, 2002

Raymond A Chitwood, Lecturer  
School of Biological Sciences  
PhD, University of Texas at San Antonio, 2000

Charles B Chiu, Professor  
Department of Physics  
PhD, University of California-Berkeley, 1966

Grace Choy, Lecturer  
College of Natural Sciences

PhD, Carnegie Mellon University, 2003

Chia-Chieh Chu, Instructor  
Department of Mathematics  
PhD, California Institute of Technology, 2010

Mirela Ciperiani, Assistant Professor  
Department of Mathematics  
PhD, Princeton University, 2006

Gregory B Clark, Senior Lecturer  
College of Natural Sciences  
PhD, University of Texas at Austin, 1992

Alan K Cline, Professor  
David Bruton, Jr. Centennial Professorship in Computer Sciences #2  
Department of Computer Science  
Department of Mathematics  
PhD, University of Michigan-Ann Arbor, 1970

William R Coker, Professor  
Department of Physics  
PhD, University of Georgia, 1966

John A Colapret, Lecturer  
Department of Chemistry and Biochemistry  
PhD, University of Texas at Austin, 1983

Laura Lee Colgin, Assistant Professor  
Section of Neurobiology  
PhD, University of California-Irvine, 2003

Sarah M Collins, Lecturer  
Division of Statistics and Scientific Computation  
PhD, University of Texas at Austin, 2010

Maxwell Colonna, Specialist  
School of Biological Sciences  
BSBio, University of Texas at Austin, 2011

William R Cook, Associate Professor  
Department of Computer Science  
PhD, Brown University, 1989

Arthur Wesley Covert, Specialist  
College of Natural Sciences  
PhD, Michigan State University, East Lansing, 2010

Alan H Cowley, Professor  
The Robert A. Welch Chair in Chemistry  
Department of Chemistry and Biochemistry  
PhD, University of Manchester, 1958

Matthew C Cowperthwaite, Lecturer  
School of Biological Sciences  
PhD, University of Texas at Austin, 2008

Jane S Craig, Senior Lecturer  
Division of Textiles and Apparel  
PhD, Texas Tech University, 1993

David P Crews, Professor  
Section of Integrative Biology  
PhD, Rutgers the State University of New Jersey Newark Campus,  
1973

Richard M Crooks, Professor  
The Robert A. Welch Chair in Chemistry (Materials Chemistry)

Department of Chemistry and Biochemistry  
PhD, University of Texas at Austin, 1987

Milica Cudina, Clinical Assistant Professor  
Department of Mathematics  
PhD, Carnegie Mellon University, 2006

Molly E Cummings, Associate Professor  
Section of Integrative Biology  
PhD, University of California-Santa Barbara, 2001

Suzanne R Curtis, Lecturer  
Department of Nutritional Sciences  
PhD, Oregon State University, 2001

Anson D'Aloisio, Specialist  
College of Natural Sciences  
PhD, Yale University, 2011

Michael D Dahlin, Professor  
Department of Computer Science  
PhD, University of California-Berkeley, 1995

Jeffrey E Danciger, Instructor  
Department of Mathematics  
PhD, Stanford University, 2011

James W Daniel, Professor Emeritus  
Department of Mathematics  
PhD, Stanford University, 1965

Mark L Daniels, Clinical Associate Professor  
UTeach-Natural Sciences  
EdD, Walden University, 2007

Michael Zachary Darnell, Lecturer  
Department of Marine Science  
PhD, Duke University, 2009

Nicola M Davies, Lecturer  
School of Biological Sciences  
PhD, University of Texas at Austin, 2006

Jaimie N Davis, Assistant Professor  
Department of Nutritional Sciences  
PhD, University of Texas at Austin, 2004

Katherine M Davis, Associate Professor  
Department of Mathematics  
PhD, Cornell University, 1974

Leah Davis, Specialist  
College of Natural Sciences  
MA, University of Texas at Austin, 2006

Raymond E Davis, Professor Emeritus  
Department of Chemistry and Biochemistry  
PhD, Yale University, 1965

Mary E Dawson, Lecturer  
School of Biological Sciences  
PhD, University of Texas at Austin, 2007

Alejandro L De Lozanne, Professor  
Department of Physics  
PhD, Stanford University, 1982

Arturo De Lozanne, Associate Professor

Section of Molecular Cell and Developmental Biology  
PhD, Stanford University, 1988

Scott J Dee, Lecturer  
Department of Chemistry and Biochemistry  
PhD, Baylor University, 2010

Linda Ann deGraffenried, Associate Professor  
Department of Nutritional Sciences  
PhD, University of Texas Health Science Center at San Antonio, 2001

Theodore Delevoryas, Professor Emeritus  
Section of Integrative Biology  
PhD, University of Illinois at Urbana-Champaign, 1954

Cassandra Veronica Delgado-Reyes, Specialist  
College of Natural Sciences  
PhD, University of Illinois at Urbana-Champaign, 2003

Alexander A Demkov, Associate Professor  
Department of Physics  
PhD, Arizona State University Main, 1995

Leszek F Demkowicz, Professor  
Department of Mathematics  
PhD, Cracow Univ of Technology, 1982

F W Dewette, Professor Emeritus  
Department of Physics  
PhD, Utrecht University, 1959

Cecile M Dewitt, Professor Emeritus  
Department of Physics  
PhD, University of Paris IV, Sorbonne, 1947

Inderjit S Dhillon, Professor  
Department of Computer Science  
PhD, University of California-Berkeley, 1997

Duane A Dicus, Professor  
Department of Physics  
PhD, University of California-Los Angeles, 1968

John Digiovanni, Professor  
Department of Nutritional Sciences  
PhD, University of Washington - Seattle, 1978

Sandra J Dillon, Specialist  
Department of Human Development and Family Sciences  
MA, University of Texas at Austin, 1987

Harriet L Dinerstein, Professor  
Department of Astronomy  
PhD, University of California-Santa Cruz, 1980

Jacques Distler, Professor  
Department of Physics  
PhD, Harvard University, 1987

Todd Ditmire, Professor  
Department of Physics  
PhD, University of California-Davis, 1995

Theodore H Dix, Associate Professor  
Department of Human Development and Family Sciences  
PhD, Northwestern University, 1980

Sarah E Dodson-Robinson, Assistant Professor

Department of Astronomy  
MS, University of California-Santa Cruz, 2005

John D Dollard, Professor  
Department of Mathematics  
PhD, Princeton University, 1963

Kirstin Danielle Doney, Specialist  
Department of Chemistry and Biochemistry  
BSCh, University of Texas at Austin, 2011

Guangbin Dong, Assistant Professor  
Department of Chemistry and Biochemistry  
PhD, Stanford University, 2009

Michael W Downer, Professor  
Department of Physics  
PhD, Harvard University, 1983

Glenn P Downing, Lecturer  
Department of Computer Science  
MS, Massachusetts Institute of Technology, 1977

Justin Michael Dragna, Lecturer  
Department of Chemistry and Biochemistry  
PhD, University of Texas at Austin, 2011

Moon Draper, Lecturer  
School of Biological Sciences  
PhD, University of Texas at Austin, 2005

Michael Drew, Assistant Professor  
Section of Neurobiology  
PhD, Columbia University in the City of New York, 2004

Jaquelin P Dudley, Professor  
Section of Molecular Genetics and Microbiology  
PhD, Baylor College of Medicine, 1978

Dennis P Dunn, Lecturer  
College of Natural Sciences  
PhD, University of Texas at Austin, 2002

Kenneth H Dunton, Professor  
Department of Marine Science  
PhD, University of Alaska Fairbanks, 1985

John R Durbin, Professor Emeritus  
Department of Mathematics  
PhD, University of Kansas Main Campus, 1964

Charles F Earhart, Professor Emeritus  
Section of Molecular Genetics and Microbiology  
PhD, Purdue University Main Campus, 1967

Paul Eastwick, Assistant Professor  
Department of Human Development and Family Sciences  
PhD, Northwestern University, 2009

David J Eaton, Professor  
Bess Harris Jones Centennial Professorship in Natural Resource  
Policy Studies  
Section of Integrative Biology  
PhD, Johns Hopkins University, 1977

Johann K Eberhart, Assistant Professor  
Section of Molecular Cell and Developmental Biology

PhD, University of Missouri - Columbia, 2002

Mary V Eberlein, Lecturer  
Department of Computer Science  
PhD, University of Tennessee, 1996

Don E Edmondson, Professor Emeritus  
Department of Mathematics  
PhD, California Institute of Technology, 1954

Lauren Ilyse richie Ehrlich, Assistant Professor  
Section of Molecular Genetics and Microbiology  
PhD, Stanford University, 2002

Victor L Eijkhout, Lecturer  
Division of Statistics and Scientific Computation  
PhD, Radboud Universiteit Nijmegen, 1990

Denise Diane Ekberg, Clinical Assistant Professor  
UTeach-Natural Sciences  
MS, University of Illinois at Urbana-Champaign, 1989

Sheldon Ekland-Olson, Professor  
Amy Johnson McLaughlin Administrative Chair in Human Ecology,  
Rapoport Centennial Professorship of Liberal Arts  
School of Human Ecology  
PhD, University of Washington - Seattle, 1971

Ron Elber, Professor  
W. A. "Tex" Moncrief, Jr. Chair in Computational Life Sciences and  
Biology  
Department of Chemistry and Biochemistry  
PhD, Hebrew University, 1985

Andrew Ellington, Professor  
Wilson M. and Kathryn Fraser Research Professorship in Biochemistry  
Department of Chemistry and Biochemistry  
PhD, Harvard University, 1988

Ernest A Emerson, Professor  
Regents Chair in Computer Sciences #2  
Department of Computer Science  
PhD, Harvard University, 1981

Michael Endl, Lecturer  
Department of Astronomy  
PhD, University of Vienna, 2001

Peter H English, Lecturer  
School of Biological Sciences  
PhD, University of Texas at Austin, 1998

Bjorn Engquist, Professor  
CAM Chair I  
Department of Mathematics  
PhD, Uppsala University, 1969

Deana L Erdner, Assistant Professor  
Department of Marine Science  
PhD, Massachusetts Institute of Technology, 1997

Nathan W Erickson, Lecturer  
Department of Physics  
PhD, University of Texas at Austin, 2011

Jason L Ermer, Clinical Assistant Professor  
UTeach-Natural Sciences

MEd, University of Texas at Austin, 2001

James L Erskine, Professor  
Trull Centennial Professorship in Physics #2  
Department of Physics  
PhD, University of Washington - Seattle, 1972

Liliana Espinosa De jaloudi, Specialist  
Department of Chemistry and Biochemistry  
BSCh, University of Texas at Austin, 2011

Neal J Evans, Professor  
Edward Randall, Jr., M.D. Centennial Professorship in Astronomy  
Department of Astronomy  
PhD, University of California-Berkeley, 1973

Fatima H Fakhreddine, Senior Lecturer  
Department of Chemistry and Biochemistry  
PhD, University of Texas at Austin, 1999

Tatia S Feltman, Adjunct Assistant Professor  
Section of Molecular Genetics and Microbiology  
EdM, University of Houston - Downtown, 1994

Leanne H Field, Distinguished Senior Lecturer  
School of Biological Sciences  
PhD, University of Texas at Austin, 1987

Gregory A Fiete, Assistant Professor  
Department of Physics  
PhD, Harvard University, 2003

Ila P Fiete, Assistant Professor  
Section of Neurobiology  
PhD, Harvard University, 2004

Alessio Figalli, Professor  
Department of Mathematics  
PhD, Scuola Normale of Pisa, 2007

Karen L Fingerman, Professor  
Department of Human Development and Family Sciences  
PhD, University of Michigan-Ann Arbor, 1993

Manfred Fink, Professor  
Department of Physics  
PhD, University Fridericiana Karlsruhe, 1966

Ilya Finkelstein, Assistant Professor  
Department of Chemistry and Biochemistry  
PhD, Stanford University, 2007

Beverly J Finklea, Lecturer  
School of Biological Sciences  
PhD, Texas A & M University, 2000

Richard H Finnell, Professor  
Department of Nutritional Sciences  
Department of Chemistry and Biochemistry  
PhD, Oregon Health and Science University, 1980

Janice A Fischer, Professor  
Section of Molecular Cell and Developmental Biology  
PhD, Harvard University, 1988

Willy Fischler, Professor  
Jane and Roland Blumberg Centennial Professorship in Physics  
Department of Physics

PhD, Vrije Universiteit Brussel, 1976

Richard Fitzpatrick, Professor  
Department of Physics  
PhD, University of Sussex, 1988

Conrad R Fjetland, Lecturer  
Department of Chemistry and Biochemistry  
PhD, New Mexico Institute of Mining and Technology, 1998

Ernst-Ludwig Florin, Associate Professor  
Department of Physics  
Center for Nonlinear Dynamics  
PhD, Technischen Universitat Munchen/Munich, 1995

Zachary T Fondren, Specialist  
Department of Chemistry and Biochemistry  
BS, University of Texas at Austin, 2008

David W Fonken, Lecturer  
Department of Mathematics  
PhD, University of Texas at Austin, 1983

Gerhard J Fonken, Professor Emeritus  
Department of Chemistry and Biochemistry  
PhD, University of California-Berkeley, 1957

Michele Forman, Professor  
David Bruton, Jr. Centennial Professorship in Nutrition  
Department of Nutritional Sciences  
PhD, University of North Carolina at Chapel Hill, 1977

Hugh S Forrest, Professor Emeritus  
Section of Neurobiology  
DSc, University of London, 1970

Brian S Fortney, Clinical Assistant Professor  
UTeach-Natural Sciences  
PhD, University of Texas at Austin, 2009

Norma L Fowler, Professor  
Section of Integrative Biology  
PhD, Duke University, 1978

Ruth A Franks, Senior Lecturer  
School of Biological Sciences  
PhD, University of Texas at Austin, 2000

Daniel S Freed, Professor  
Department of Mathematics  
PhD, University of California-Berkeley, 1985

Jeanne H Freeland, Professor  
Bess Heflin Centennial Professorship in Nutritional Sciences  
Department of Nutritional Sciences  
PhD, Rutgers the State University of New Jersey New Brunswick  
Campus, 1975

Daniel Becker Freeman, Instructor  
Department of Mathematics  
PhD, Texas A & M University, 2009

Gary L Freeman, Professor Emeritus  
Section of Integrative Biology  
PhD, University of Chicago, 1964

Jennifer H Fritz, Lecturer  
School of Biological Sciences

PhD, University of Texas at Austin, 1997

Lothar W Frommhold, Professor Emeritus  
Department of Physics  
DRHABIL, University of Hamburg, 1961

Lee A Fuiman, Professor  
Perry R. Bass Chair in Fisheries and Mariculture  
Department of Marine Science  
Section of Integrative Biology  
PhD, University of Michigan-Ann Arbor, 1983

Robert Fulginiti, Lecturer  
School of Biological Sciences  
PhD, University of Texas at Austin, 1990

Donald S Fussell, Professor  
Trammell Crow Regents Professorship in Computer Science  
Department of Computer Science  
PhD, University of Texas at Dallas, 1980

Kelly P Gaither, Lecturer  
Division of Statistics and Scientific Computation  
PhD, Mississippi State University, 2000

Anna Gal, Associate Professor  
Department of Computer Science  
PhD, University of Chicago, 1995

Irene M Gamba, Professor  
Department of Mathematics  
PhD, University of Chicago, 1989

Clifford S Gardner, Professor Emeritus  
Department of Mathematics  
PhD, New York University, 1954

Wayne S Gardner, Professor  
Department of Marine Science  
PhD, University of Wisconsin Colleges, 1972

J D Gavenda, Professor Emeritus  
Department of Physics  
PhD, Brown University, 1959

Karl Gebhardt, Professor  
Herman and Joan Suit Professorship in Astrophysics  
Department of Astronomy  
PhD, Rutgers the State University of New Jersey New Brunswick  
Campus, 1994

Kenneth W Gentle, Professor  
Department of Physics  
PhD, Massachusetts Institute of Technology, 1966

George Georgiou, Professor  
Cockrell Family Regents Chair in Engineering #9  
Section of Molecular Genetics and Microbiology  
PhD, Cornell University, 1987

Elizabeth Thompson Gershoff, Associate Professor  
Department of Human Development and Family Sciences  
PhD, University of Texas at Austin, 1998

Mary C Gerwels, Senior Lecturer  
College of Natural Sciences  
PhD, University of Texas at Austin, 1994

Eman Ghanem, Specialist  
College of Natural Sciences  
PhD, Texas A & M University, 2006

Omar Nabih Ghattas, Professor  
John A. and Katherine G. Jackson Chair in Computational  
Geosciences  
Department of Computer Science  
PhD, Duke University, 1988

Ahmed Gheith, Adjunct Assistant Professor  
Department of Computer Science  
PhD, Georgia Institute of Technology, 1990

John C Gilbert, Professor Emeritus  
Department of Chemistry and Biochemistry  
PhD, Yale University, 1965

John E Gilbert, Professor  
Department of Mathematics  
PhD, University of Oxford, 1963

Lawrence E Gilbert, Professor  
Section of Integrative Biology  
PhD, Stanford University, 1971

Ryan Reed Gillespie, Specialist  
School of Biological Sciences  
BS, Westminster College, 2002

Martha B Gillham, Associate Professor Emeritus  
Department of Nutritional Sciences  
PhD, Iowa State University, 1975

Youme Gim, Specialist  
School of Biological Sciences  
MA, University of Texas at Austin, 2011

Marci Elizabeth Joy Gleason, Assistant Professor  
Department of Human Development and Family Sciences  
PhD, New York University, 2004

Austin M Gleeson, Professor  
Department of Physics  
PhD, University of Pennsylvania, 1965

Bartley E Goddard, Lecturer  
Department of Mathematics  
PhD, University of Nebraska - Lincoln, 1989

Patrick G Goetz, Lecturer  
Department of Mathematics  
MS, University of Chicago, 1983

Randall Goldblum, Adjunct Professor  
Section of Molecular Genetics and Microbiology  
MD, University of Texas Medical Branch, 1969

Nace L Golding, Associate Professor  
Section of Neurobiology  
PhD, University of Wisconsin-Madison, 1996

Robert E Gompf, Professor  
Jane and Roland Blumberg Centennial Professorship in Mathematics  
Department of Mathematics  
PhD, University of California-Berkeley, 1984

Antonio Gonzalez, Specialist

College of Natural Sciences  
PhD, University of Texas at Austin, 2008

Oscar Gonzalez, Associate Professor  
Department of Mathematics  
PhD, Stanford University, 1996

Cameron M Gordon, Professor  
Sid W. Richardson Foundation Regents Chair in Mathematics #2  
Department of Mathematics  
PhD, University of Cambridge, 1971

Vernita Gordon, Assistant Professor  
Department of Physics  
PhD, Harvard University, 2003

Ellen Gottlieb, Assistant Professor  
Section of Molecular Genetics and Microbiology  
PhD, Yale University, 1987

Mohamed G Gouda, Professor  
Mike A. Myers Centennial Professorship in Computer Sciences  
Department of Computer Science  
PhD, Foreign Institution, 1977

Gail Grabner, Lecturer  
Department of Chemistry and Biochemistry  
PhD, University of Illinois at Urbana-Champaign, 2002

David E Graham, Adjunct Assistant Professor  
Department of Chemistry and Biochemistry  
PhD, University of Illinois at Urbana-Champaign, 2000

Hans Ulrich Grasemann, Specialist  
College of Natural Sciences  
PhD, University of Texas at Austin, 2010

Kristen L Grauman, Assistant Professor  
Department of Computer Science  
PhD, Massachusetts Institute of Technology, 2006

Christine Gray, Lecturer  
Department of Human Development and Family Sciences  
PhD, University of Texas at Austin, 2007

Sue A Greninger, Associate Professor  
Department of Human Development and Family Sciences  
PhD, University of Illinois at Urbana-Champaign, 1973

Thomas A Griffy, Professor Emeritus  
Department of Physics  
PhD, Rice University, 1961

Jeffrey Martin Gross, Associate Professor  
Section of Molecular Cell and Developmental Biology  
PhD, Duke University, 2002

Maria Pia Gualdani, Research Assistant Professor (Affiliated)  
Department of Mathematics  
PhD, Johannes Gutenberg Universitat Mainz, 2005

Brandy J Guntel, Lecturer  
Department of Mathematics  
PhD, University of Texas at Austin, 2011

Robin Gutell, Professor  
Section of Integrative Biology

PhD, University of California-Santa Cruz, 1985

Jeffrey Robert Haack, Instructor  
Department of Mathematics  
PhD, University of Wisconsin-Madison, 2009

Marvin L Hackert, Professor  
William Shive Centennial Professorship in Biochemistry  
Department of Chemistry and Biochemistry  
PhD, Iowa State University, 1970

Ronny Hadani, Assistant Professor  
Department of Mathematics  
PhD, Tel Aviv University, 2006

Amanda Hager, Lecturer  
Department of Mathematics  
PhD, University of Iowa, 2010

Matthew T Haley, Lecturer  
Department of Physics  
PhD, University of Texas at Austin, 2011

Gary C Hamrick, Professor  
Department of Mathematics  
PhD, University of Virginia, 1971

Boyd A Hardesty, Professor Emeritus  
Department of Chemistry and Biochemistry  
PhD, California Institute of Technology, 1960

Susan C Harkins, Lecturer  
College of Natural Sciences  
EdD, University of Pittsburgh, Pittsburgh Campus, 1998

Shinko K Harper, Lecturer  
Department of Mathematics  
PhD, University of Texas at Austin, 1997

Kristen M Harris, Professor  
Section of Neurobiology  
PhD, Northeastern Ohio Universities College of Medicine, 1982

R A Harris, Professor  
M. June and J. Virgil Waggoner Chair in Molecular Biology  
Section of Neurobiology  
PhD, University of North Carolina at Chapel Hill, 1973

Rasika M Harshey, Professor  
Section of Molecular Genetics and Microbiology  
PhD, Indian Institute of Science, 1977

Rachel N Hartnett, Specialist  
School of Biological Sciences  
BS, University of Texas at Austin, 2011

Jessica Hartos, Lecturer  
Division of Statistics and Scientific Computation  
PhD, University of Houston, 1998

Rhonda K Hauser, Lecturer  
Department of Human Development and Family Sciences  
MA, University of Texas at Austin, 1986

Alisa N Havens, Lecturer  
Department of Mathematics  
MA, University of Texas at Austin, 2008

Christine Veronica Hawkes, Associate Professor  
Section of Integrative Biology  
PhD, University of Pennsylvania, 2000

Richard D Hazeltine, Professor  
Department of Physics  
PhD, University of Michigan-Ann Arbor, 1968

Nancy L Hazen-Swann, Associate Professor  
Department of Human Development and Family Sciences  
PhD, University of Minnesota-Twin Cities, 1979

Yuan He, Lecturer  
Department of Mathematics  
PhD, Columbia University in the City of New York, 2010

Daniel J Heinzen, Professor  
The Fondren Foundation Centennial Chair in Physics  
Department of Physics  
PhD, Massachusetts Institute of Technology, 1988

Raymond C Heitmann, Professor  
Department of Mathematics  
PhD, University of Wisconsin-Madison, 1974

David Frederick Helm, Assistant Professor  
Department of Mathematics  
PhD, University of California-Berkeley, 2003

Mary M Hemenway, Senior Lecturer  
Department of Astronomy  
PhD, University of Virginia, 1971

Graeme Andrew Henkelman, Associate Professor  
Department of Chemistry and Biochemistry  
PhD, University of Washington - Seattle, 2001

David L Herrin, Professor  
Section of Molecular Cell and Developmental Biology  
PhD, University of South Florida, 1986

Matthew A Hersh, Specialist  
Division of Statistics and Scientific Computation  
PhD, University of Kentucky, 2007

Charlotte Herzele, Lecturer  
Department of Nutritional Sciences  
PhD, University of Texas at Austin, 1997

Linda A Hicke, Professor  
Section of Molecular Genetics and Microbiology  
PhD, University of California-Berkeley, 1990

Gary J Hill, Research Professor (Affiliated)  
Department of Astronomy  
PhD, University of Hawaii at Hilo, 1988

David M Hillis, Professor  
Alfred W. Roark Centennial Professorship in Natural Sciences  
Section of Integrative Biology  
PhD, University of Kansas Main Campus, 1985

Mary C Hines, Lecturer  
School of Biological Sciences  
PhD, University of Louisville, 1989

Deanna M Hoelscher, Adjunct Professor  
Department of Nutritional Sciences

PhD, University of Texas at Austin, 1991

David W Hoffman, Associate Professor  
Department of Chemistry and Biochemistry  
PhD, Duke University, 1986

Gerald W Hoffmann, Professor  
Department of Physics  
PhD, University of California-Los Angeles, 1971

Johann Hofmann, Associate Professor  
Section of Integrative Biology  
PhD, Universitat Leipzig, 1997

James A Holcombe, Professor  
Department of Chemistry and Biochemistry  
PhD, University of Michigan-Ann Arbor, 1974

Bradley J Holliday, Associate Professor  
Department of Chemistry and Biochemistry  
PhD, Northwestern University, 2003

Gloria J Holt, Professor Emeritus  
Department of Marine Science  
Department of Marine Science  
PhD, Texas A & M University, 1976

Claude W Horton, Professor Emeritus  
Department of Physics  
PhD, University of California-San Diego, 1967

David C Huang, Specialist  
Department of Chemistry and Biochemistry  
BSCh, University of Texas at Austin, 2011

Jon M Huibregtse, Professor  
Section of Molecular Genetics and Microbiology  
PhD, University of Michigan-Ann Arbor, 1989

Alexander C Huk, Associate Professor  
Section of Neurobiology  
PhD, Stanford University, 2001

Jane M Huk, Specialist  
College of Natural Sciences  
PhD, Stanford University, 2000

Simon M Humphrey, Assistant Professor  
Department of Chemistry and Biochemistry  
PhD, University of Cambridge, 2006

Warren A Hunt, Professor  
Department of Computer Science  
PhD, University of Texas at Austin, 1985

Enamul Huq, Associate Professor  
Section of Molecular Cell and Developmental Biology  
PhD, Purdue University Main Campus, 1997

Patricia Denise Hurn, Research Professor (Affiliated)  
Section of Neurobiology  
PhD, Johns Hopkins University, 1990

Stephen D Hursting, Professor  
Margaret McKean Love Chair in Nutrition, Cellular and Molecular  
Sciences  
Department of Nutritional Sciences

PhD, University of North Carolina at Chapel Hill, 1992

Aletha C Huston, Professor Emeritus  
Department of Human Development and Family Sciences  
PhD, University of Minnesota-Twin Cities, 1965

Ted L Huston, Professor  
Amy Johnson McLaughlin Centennial Professorship in Home  
Economics  
Department of Human Development and Family Sciences  
PhD, State University of New York at Albany, 1972

Amy Elizabeth Imes, Lecturer  
Department of Human Development and Family Sciences  
PhD, University of Texas at Austin, 2008

Corinne Irwin, Senior Lecturer  
Department of Mathematics  
MA, University of Texas at Austin, 1979

Samuel Baruch Isaacson, Instructor  
Department of Mathematics  
PhD, Harvard University, 2009

Brent L Iverson, Professor  
Warren J. and Viola Mae Raymer Professorship  
Department of Chemistry and Biochemistry  
PhD, California Institute of Technology, 1988

Sujit S Iyer, Lecturer  
Division of Statistics and Scientific Computation  
MD, Baylor College of Medicine, 2002

Vishwanath R Iyer, Associate Professor  
Section of Molecular Genetics and Microbiology  
PhD, Harvard University, 1996

Antone G Jacobson, Professor Emeritus  
Section of Molecular Cell and Developmental Biology  
PhD, Stanford University, 1955

Deborah B Jacobvitz, Professor  
Department of Human Development and Family Sciences  
PhD, University of Minnesota-Twin Cities, 1987

Daniel T Jaffe, Professor  
Department of Astronomy  
PhD, Harvard University, 1981

Mary K Jamsek, Specialist  
Department of Human Development and Family Sciences  
MS, Syracuse University Main Campus, 1990

Robert K Jansen, Professor  
Sidney F. and Doris Blake Centennial Professorship in Systematic  
Botany and the Blake Collection  
Section of Integrative Biology  
PhD, Ohio State U Main Campus, 1982

Sharon K Jasper, Lecturer  
School of Biological Sciences  
PhD, Texas A & M University, 1996

Cynthia K Jay, Lecturer  
Division of Textiles and Apparel  
PhD, University of Texas at Austin, 1999

Makkuni Jayaram, Professor

Section of Molecular Genetics and Microbiology  
PhD, Indian Institute of Science, 1977

William H Jefferys, Professor Emeritus  
Department of Astronomy  
PhD, Yale University, 1965

Shalene Jha, Assistant Professor  
Section of Integrative Biology  
PhD, University of Michigan-Ann Arbor, 2009

Shardha Jogee, Associate Professor  
Department of Astronomy  
PhD, Yale University, 1999

Peter W John, Professor Emeritus  
Department of Mathematics  
PhD, University of Oklahoma Norman Campus, 1955

Arlen W Johnson, Professor  
Section of Molecular Genetics and Microbiology  
PhD, Harvard University, 1988

Kenneth Johnson, Professor  
Roger J. Williams Centennial Professorship in Biochemistry  
Department of Chemistry and Biochemistry  
PhD, University of Wisconsin-Madison, 1975

Travis H Johnson, Specialist  
Department of Chemistry and Biochemistry  
MS, University of Texas at Austin, 2007

Daniel Johnston, Professor  
Karl Folkers Chair in Interdisciplinary Biomedical Research  
Section of Neurobiology  
PhD, Duke University, 1974

Marshall C Johnston, Professor Emeritus  
Section of Integrative Biology  
PhD, University of Texas at Austin, 1955

Patricia D Jolley, Specialist  
Department of Human Development and Family Sciences  
MA, University of Texas at Austin, 1991

Christopher A Jolly, Associate Professor  
Department of Nutritional Sciences  
PhD, Texas A & M University, 1996

Richard A Jones, Professor  
Department of Chemistry and Biochemistry  
PhD, University of London, 1978

David Jordan, Instructor  
Department of Mathematics  
PhD, Massachusetts Institute of Technology, 2011

Thomas E Juenger, Associate Professor  
Section of Integrative Biology  
PhD, University of Chicago, 1999

Jeil Jung, Lecturer  
Department of Physics  
PhD, Universidad Nacional de Educaci?n a Distancia, 2005

William Patrick Kalahurka, Lecturer  
Department of Mathematics

PhD, University of Texas at Austin, 2010

Klaus O Kalthoff, Professor Emeritus  
Section of Molecular Cell and Developmental Biology  
Section of Molecular Cell and Developmental Biology  
PhD, Albert Ludwig University Freiburg im Breisgau, 1971

Vadim Kaplunovsky, Professor  
Department of Physics  
PhD, Tel Aviv University, 1984

Cagri Karakurt, Instructor  
Department of Mathematics  
PhD, Michigan State University, East Lansing, 2010

Adrian T Keatinge-Clay, Assistant Professor  
Department of Chemistry and Biochemistry  
PhD, University of California-San Francisco, 2004

Stephen W Keckler, Professor  
Department of Computer Science  
PhD, Massachusetts Institute of Technology, 1998

Sean M Keel, Professor  
Department of Mathematics  
PhD, University of Chicago, 1989

Timothy H Keitt, Associate Professor  
Section of Integrative Biology  
PhD, University of New Mexico Main Campus, 1995

John W Keto, Professor  
Department of Physics  
PhD, University of Wisconsin-Madison, 1972

Mark J Kilgard, Specialist  
Department of Computer Science  
BA, Rice University, 1991

Can Kilic, Assistant Professor  
Department of Physics  
PhD, Harvard University, 2006

Jonghwan Kim, Assistant Professor  
Section of Molecular Cell and Developmental Biology  
PhD, University of Texas at Austin, 2005

Su Yeong Kim, Assistant Professor  
Department of Human Development and Family Sciences  
PhD, University of California-Davis, 2003

Lynn E Kirby, Clinical Assistant Professor  
UTeach-Natural Sciences  
MLibArts, St Edward's University, 2007

Mark A Kirkpatrick, Professor  
T. S. Painter Centennial Professorship in Genetics  
Section of Integrative Biology  
PhD, University of Washington - Seattle, 1983

Karrol A Kitt, Associate Professor  
Department of Human Development and Family Sciences  
PhD, Purdue University Main Campus, 1978

George B Kitto, Professor  
Department of Chemistry and Biochemistry  
PhD, Brandeis University, 1966

Leonard Kleinman, Professor Emeritus  
Department of Physics  
PhD, University of California-Berkeley, 1960

Kimberly Kline, Professor  
Julian C. Barton Professorship in Nutrition  
Department of Nutritional Sciences  
PhD, University of Texas at Austin, 1985

Adam Richard Klivans, Associate Professor  
Department of Computer Science  
PhD, Massachusetts Institute of Technology, 2002

Diane M Kneeland, Lecturer  
School of Biological Sciences  
PhD, University of Victoria, 1991

Jeffrey T Knight, Specialist  
Department of Chemistry and Biochemistry  
MEd, University of Texas at Austin, 2011

Daniel F Knopf, Associate Professor  
Department of Mathematics  
PhD, University of Wisconsin-Milwaukee, 1999

Hans A Koch, Professor  
Department of Mathematics  
PhD, University of Geneva, 1979

Deanna Nicole Koenig, Specialist  
School of Biological Sciences  
BS, Michigan State University, East Lansing, 2011

Helmut J Koester, Assistant Professor  
Section of Neurobiology  
PhD, Ruprecht-Karls-Universität Heidelberg, 1999

Lars Koesterke, Lecturer  
Division of Statistics and Scientific Computation  
PhD, Christian Albrecht University of Kiel, 1994

Leah Anna Kolar, Specialist  
Department of Chemistry and Biochemistry  
BS, University of Texas at Austin, 2011

Eiichiro Komatsu, Professor  
Department of Astronomy  
Department of Physics  
PhD, Tohoku University, 2001

Sacha E Kopp, Associate Professor  
Department of Physics  
PhD, University of Chicago, 1994

John Kormendy, Professor  
Curtis T. Vaughan, Jr. Centennial Chair in Astronomy  
Department of Astronomy  
PhD, California Institute of Technology, 1976

Mourad Krifa, Assistant Professor  
Division of Textiles and Apparel  
School of Human Ecology  
PhD, Université de Haute Alsace, Mulhouse-Colmar, 2001

Michael J Krische, Professor  
The Robert A. Welch Chair in Science  
Department of Chemistry and Biochemistry

PhD, Stanford University, 1997

Robert M Krug, Professor  
Section of Molecular Genetics and Microbiology  
PhD, Rockefeller University, 1966

Colin J Kubarych, Specialist  
Department of Chemistry and Biochemistry  
MA, University of Texas at Austin, 2010

Catherine Mareva Kublik, Instructor  
Department of Mathematics  
PhD, University of Michigan-Ann Arbor, 2010

Benjamin J Kuipers, Professor Emeritus  
Department of Computer Science  
PhD, Massachusetts Institute of Technology, 1977

Pawan Kumar, Professor  
Department of Astronomy  
PhD, California Institute of Technology, 1988

John W La Claire, Professor  
Section of Molecular Cell and Developmental Biology  
PhD, University of California-Berkeley, 1979

Cynthia A Labrake, Senior Lecturer  
Department of Chemistry and Biochemistry  
PhD, Loyola University Chicago, 1992

John H Lacy, Professor  
Department of Astronomy  
PhD, University of California-Berkeley, 1979

Travis J Laduc, Lecturer  
School of Biological Sciences  
PhD, University of Texas at Austin, 2003

Jeanne M Lagowski, Professor Emeritus  
Section of Neurobiology  
PhD, University of Michigan-Ann Arbor, 1957

Joseph J Lagowski, Professor Emeritus  
Department of Chemistry and Biochemistry  
PhD, Michigan State University, East Lansing, 1957

Simon S Lam, Professor  
Regents Chair in Computer Sciences #1  
Department of Computer Science  
PhD, University of California-Los Angeles, 1974

David L Lambert, Professor  
Isabel McCutcheon Harte Centennial Chair in Astronomy  
Department of Astronomy  
DPhil, University of Oxford, 1965

Alan Lambowitz, Professor  
Mr. and Mrs. A. Frank Smith, Jr. Regents Chair in Molecular Biology,  
Nancy Lee and Perry R. Bass Regents Chair in Molecular Biology  
Section of Molecular Genetics and Microbiology  
Department of Chemistry and Biochemistry  
PhD, Yale University, 1972

Michelle A Lane, Adjunct Associate Professor  
Department of Nutritional Sciences  
PhD, Rutgers the State University of New Jersey New Brunswick  
Campus, 1996

Karol Lang, Professor  
Department of Physics  
PhD, University of Rochester, 1985

Judith H Langlois, Professor  
Charles and Sarah Seay Regents Professorship in Developmental Psychology  
Department of Human Development and Family Sciences  
PhD, Louisiana State University and Agricultural and Mechanical College, 1973

Laura M Lashinger, Lecturer  
Department of Nutritional Sciences  
PhD, University of Texas Health Science Center at Houston, 2005

Anita G Latham, Lecturer  
School of Biological Sciences  
PhD, University of Alabama at Birmingham, 1999

David A Laude, Professor  
Department of Chemistry and Biochemistry  
PhD, University of California-Riverside, 1984

Sam H Le, Specialist  
Department of Chemistry and Biochemistry  
BS, University of Texas at Austin, 2008

Thai Hoang Le, Instructor  
Department of Mathematics  
PhD, University of California-Los Angeles, 2010

Stefanie West Leacock, Lecturer  
School of Biological Sciences  
PhD, Yale University, 2006

Matthew Alan Lease, Assistant Professor  
Department of Computer Science  
PhD, Brown University, 2009

Doris Lefkowitz, Adjunct Professor  
Section of Molecular Genetics and Microbiology  
PhD, Texas Tech University Health Sciences Center, 1986

Stanley Lefkowitz, Adjunct Professor  
Section of Molecular Genetics and Microbiology  
PhD, University of Maryland Baltimore, 1961

Mathew A Leibold, Professor  
Harold C. and Mary D. Bold Regents Professorship of Cryptogamic Botany (Phycology)  
Section of Integrative Biology  
PhD, Michigan State University, East Lansing, 1988

Richard Leu, Specialist  
Division of Statistics and Scientific Computation  
PhD, University of Texas at Austin, 2011

Christophe Leveque, Adjunct Assistant Professor  
Section of Molecular Genetics and Microbiology  
MD, Louisiana State University Health Sciences Center, 1981

Donald A Levin, Professor  
Section of Integrative Biology  
PhD, University of Illinois at Urbana-Champaign, 1964

Marsha J Lewis, Specialist  
College of Natural Sciences

PhD, University of Texas at Austin, 2010

Xiaoqin Li, Assistant Professor  
Department of Physics  
PhD, University of Michigan-Ann Arbor, 2003

Vladimir Lifschitz, Professor  
Professorship in Computer Sciences #2  
Department of Computer Science  
PhD, Steklov Mathematical Institute, 1969

Robert W Ligon, Lecturer  
School of Biological Sciences  
MA, University of Missouri - Kansas City, 1987

Sang-Hyun Lim, Assistant Professor  
Department of Chemistry and Biochemistry  
PhD, University of Illinois at Urbana-Champaign, 2003

Calvin Lin, Professor  
Department of Computer Science  
PhD, University of Washington - Seattle, 1992

Cristal L Lindell, Specialist  
Department of Chemistry and Biochemistry  
BS, University of Texas at San Antonio, 2008

Craig R Linder, Associate Professor  
Section of Integrative Biology  
PhD, Brown University, 1984

Hung-Wen Liu, Professor  
George H. Hitchings Regents Chair in Drug Design  
Department of Chemistry and Biochemistry  
PhD, Columbia University in the City of New York, 1981

Zhanfei Liu, Assistant Professor  
Department of Marine Science  
PhD, State University of New York at Stony Brook, 2006

Alan M Lloyd, Professor  
Section of Molecular Cell and Developmental Biology  
PhD, Stanford University, 1993

John C Loehlin, Professor Emeritus  
Department of Computer Science  
PhD, University of California-Berkeley, 1957

Roseann Loop, Professor  
Department of Nutritional Sciences  
PhD, University of Texas at Austin, 1968

Timothy J Loving, Associate Professor  
Department of Human Development and Family Sciences  
PhD, Purdue University Main Campus, 2001

Jeffrey James Luci, Research Assistant Professor (Affiliated)  
Section of Neurobiology  
PhD, University of Iowa, 2002

John E Luecke, Professor  
Department of Mathematics  
PhD, University of Texas at Austin, 1985

Donna C Lyon, Lecturer  
Department of Chemistry and Biochemistry  
PhD, University of Texas at Austin, 2002

Martha M Maas, Lecturer  
School of Biological Sciences  
PhD, University of Texas at Austin, 2005

Tom J Mabry, Professor Emeritus  
Section of Molecular Cell and Developmental Biology  
PhD, Rice University, 1960

Allan H Macdonald, Professor  
Sid W. Richardson Foundation Regents Chair in Physics #1  
Department of Physics  
PhD, University of Toronto, 1978

Paul M Macdonald, Professor  
Mr. and Mrs. Robert P. Doherty, Jr. Regents Chair in Molecular Biology  
Section of Molecular Cell and Developmental Biology  
PhD, Vanderbilt University, 1983

Jan M Machart, Lecturer  
School of Biological Sciences  
PhD, University of Texas at Austin, 2001

Albert James MacKrell, Specialist  
College of Natural Sciences  
PhD, University of California-Los Angeles, 1992

Philip D Magnus, Professor  
R. P. Doherty, Jr. - Welch Regents Chair in Chemistry  
Department of Chemistry and Biochemistry  
PhD, University of London, 1968

Bassett Maguire, Professor Emeritus  
Section of Integrative Biology  
Department of Marine Science  
PhD, Cornell University, 1957

Swadesh M Mahajan, Research Professor (Affiliated)  
Department of Physics  
PhD, University of Maryland College Park, 1973

Lara K Mahal, Adjunct Professor  
Department of Chemistry and Biochemistry  
PhD, University of California-Berkeley, 2000

Michael J Mahometa, Lecturer  
Division of Statistics and Scientific Computation  
PhD, University of Texas at Austin, 2006

Dmitrii E Makarov, Associate Professor  
Department of Chemistry and Biochemistry  
PhD, Inst. Of Chem. Physics, Moscow, 1992

Jerry M Manheimer, Lecturer  
Department of Human Development and Family Sciences  
PhD, University of New Mexico Main Campus, 1983

Edward M Marcotte, Professor  
Mr. and Mrs. Corbin J. Robertson, Sr. Regents Chair in Molecular Biology  
Department of Chemistry and Biochemistry  
PhD, University of Texas at Austin, 1995

Michael P Marder, Professor  
Department of Physics  
PhD, University of California-Santa Barbara, 1986

Christina Markert, Assistant Professor  
Department of Physics  
PhD, Johann Wolfgang Goethe University, 2001

John T Markert, Professor  
Department of Physics  
PhD, Cornell University, 1987

Carl N Marti, Lecturer  
Division of Statistics and Scientific Computation  
PhD, University of Texas at Austin, 2001

Norman M Martin, Professor Emeritus  
Department of Computer Science  
PhD, University of California-Los Angeles, 1952

Stephen F Martin, Professor  
M. June and J. Virgil Waggoner Regents Chair in Chemistry  
Department of Chemistry and Biochemistry  
PhD, Princeton University, 1972

Seena Mathew, Lecturer  
School of Biological Sciences  
PhD, University of Alabama at Birmingham, 2007

Mikhail V Matz, Assistant Professor  
Section of Integrative Biology  
PhD, Shemyakin-Ovchinnikov Institute of Bioorganic Chemistry, 1999

Richard A Matzner, Professor  
Department of Physics  
PhD, University of Maryland College Park, 1967

Michael Mauk, Professor  
Section of Neurobiology  
PhD, Stanford University, 1985

James D Mauseth, Professor  
Section of Integrative Biology  
PhD, University of Washington - Seattle, 1975

Mark M Maxwell, Clinical Professor  
Department of Mathematics  
PhD, Oregon State University, 1994

Mary L McAnelly, Lecturer  
School of Biological Sciences  
PhD, University of Texas at Austin, 1984

Blinda E McClelland, Lecturer  
School of Biological Sciences  
PhD, University of Texas at Austin, 1994

James W McClelland, Assistant Professor  
Department of Marine Science  
PhD, Boston University, 1998

Stephen P McCord, Lecturer  
Department of Chemistry and Biochemistry  
PhD, University of Texas at Austin, 1992

William D McCormick, Professor Emeritus  
Department of Physics  
PhD, Duke University, 1959

John T McDevitt, Adjunct Professor  
Department of Chemistry and Biochemistry  
PhD, Stanford University, 1987

Gene D McDonald, Lecturer  
Department of Chemistry and Biochemistry  
PhD, University of Texas at Austin, 1990

Kathryn S McKinley, Professor  
Professorship in Computer Sciences #5  
Department of Computer Science  
PhD, Rice University, 1992

Cynthia K McMurry, Lecturer  
School of Biological Sciences  
PhD, University of Texas at Austin, 1996

Monica R Meadows, Lecturer  
Department of Nutritional Sciences  
PhD, University of Texas at Austin, 2003

Mona Mehdy, Associate Professor  
Section of Molecular Cell and Developmental Biology  
PhD, University of California-San Diego, 1984

John C Meth, Lecturer  
Department of Mathematics  
PhD, University of Texas at Austin, 2010

Richard J Meyer, Professor  
Section of Molecular Genetics and Microbiology  
PhD, University of Pennsylvania, 1972

Lauren A Meyers, Professor  
Section of Integrative Biology  
PhD, Stanford University, 2000

Greg A Mihailoff, Adjunct Professor  
School of Biological Sciences  
PhD, Ohio State U Main Campus, 1974

S J Mihic, Associate Professor  
Section of Neurobiology  
PhD, University of Toronto, 1992

Risto P Miikkulainen, Professor  
Department of Computer Science  
PhD, University of California-Los Angeles, 1990

Brett Allan Milburn, Lecturer  
Department of Mathematics  
PhD, University of Massachusetts, 2008

Kent F Milfeld, Lecturer  
Division of Statistics and Scientific Computation  
PhD, University of Texas at Austin, 1983

Jesse E Miller, Lecturer  
Department of Mathematics  
PhD, University of Illinois at Urbana-Champaign, 2011

Kyle M Miller, Assistant Professor  
Section of Molecular Genetics and Microbiology  
PhD, University College London, 2004

Mary Evelyn Miller, Specialist  
Department of Chemistry and Biochemistry  
BS, Texas State University-San Marcos, 1989

Milos Milosavljevic, Associate Professor  
Department of Astronomy  
PhD, Rutgers the State University of New Jersey New Brunswick Campus, 2002

Dong-Ha Min, Assistant Professor  
Department of Marine Science  
PhD, University of California-San Diego, 1999

Zachary L Miner, Lecturer  
Department of Mathematics  
PhD, University of Texas at Austin, 2011

Daniel P Miranker, Professor  
Department of Computer Science  
PhD, Columbia University in the City of New York, 1987

Jayadev Misra, Professor  
Schlumberger Centennial Chair in Computer Sciences  
Department of Computer Science  
PhD, Johns Hopkins University, 1973

Callie D Mitchell, Specialist  
Department of Chemistry and Biochemistry  
BSCh, University of Texas at Austin, 2011

Shyamal K Mitra, Lecturer  
Department of Computer Science  
PhD, University of Texas at Austin, 1988

Amir Mohammadi, Assistant Professor  
Department of Mathematics  
PhD, Yale University, 2009

Sanghamitra Mohanty, Lecturer  
School of Biological Sciences  
MD, Utkal University, 1982

Aloysius K Mok, Professor  
Quincy Lee Centennial Professorship in Computer Science  
Department of Computer Science  
PhD, Massachusetts Institute of Technology, 1983

Ian J Molineux, Professor  
Section of Molecular Genetics and Microbiology  
DPhil, University of Oxford, 1969

Michael H Montgomery, Specialist  
Department of Astronomy  
Department of Astronomy  
PhD, University of Texas at Austin, 1998

Stephen A Monti, Professor Emeritus  
Department of Chemistry and Biochemistry  
PhD, Massachusetts Institute of Technology, 1964

Jennifer Moon, Lecturer  
School of Biological Sciences  
PhD, Indiana University at Bloomington, 2004

Raymond J Mooney, Professor  
Professorship in Computer Sciences #3  
Department of Computer Science  
PhD, University of Illinois at Urbana-Champaign, 1987

Barbara E Moore, Lecturer  
School of Biological Sciences  
PhD, University of Texas at Austin, 1988

C F Moore, Professor Emeritus

Department of Physics  
PhD, Florida State University, 1964

J S Moore, Professor  
Admiral B. R. Inman Centennial Chair in Computing Theory  
Department of Computer Science  
Department of Mathematics  
PhD, University of Edinburgh, 1973

Jennifer Rebecca Morgan, Assistant Professor  
Section of Molecular Cell and Developmental Biology  
Section of Neurobiology  
PhD, Duke University, 2001

Hitoshi Morikawa, Associate Professor  
Section of Neurobiology  
Waggoner Center for Alcohol and Addiction Research  
PhD, Kyoto University, 1999

Philip J Morrison, Professor  
Department of Physics  
PhD, University of California-San Diego, 1979

Peter Mueller, Professor  
Department of Mathematics  
PhD, Purdue University Main Campus, 1991

Ulrich G Mueller, Professor  
William Morton Wheeler-Lost Pines Professorship  
Section of Integrative Biology  
PhD, Cornell University, 1993

Charles B Mullins, Professor  
Z. D. Bonner Professorship of Chemical Engineering  
Department of Chemistry and Biochemistry  
PhD, California Institute of Technology, 1990

Pablo Munguia, Assistant Professor  
Department of Marine Science  
PhD, Florida State University, 2006

Petr Munk, Professor Emeritus  
Department of Chemistry and Biochemistry  
PhD, In of Macromole Chem, 1961

Margaret E Myers, Lecturer  
Division of Statistics and Scientific Computation  
Department of Computer Science  
PhD, University of Maryland College Park, 1988

Hossein Namazi, Assistant Professor  
Department of Mathematics  
PhD, State University of New York at Stony Brook, 2005

R E Nather, Professor Emeritus  
Department of Astronomy  
PhD, University of Cape Town, 1972

Richard F Nauert, Adjunct Associate Professor  
School of Biological Sciences  
PhD, University of Texas at Austin, 2002

Paul A Navratil, Lecturer  
Division of Statistics and Scientific Computation  
PhD, University of Texas at Austin, 2010

Lisa Ann Neff, Assistant Professor

Department of Human Development and Family Sciences  
PhD, University of Florida, 2002

Andrew M Neitzke, Assistant Professor  
Department of Mathematics  
PhD, Harvard University, 2005

Raymond L Neubauer, Senior Lecturer  
School of Biological Sciences  
PhD, University of Texas at Austin, 1993

David Minh Nguyen, Specialist  
Department of Chemistry and Biochemistry  
BSCh, University of Texas at Austin, 2011

Carol A Nicols, Senior Lecturer  
Division of Textiles and Apparel  
MA, Central Saint Martins College of Art and Design, 1981

Karen Ann Niederreither, Research Associate Professor (Affiliated)  
Department of Nutritional Sciences  
PhD, University of Texas Health Science Center at Houston, 1993

Hiroshi Nishiyama, Assistant Professor  
Section of Neurobiology  
PhD, Kyoto University, 2002

Qian Niu, Professor  
Trull Centennial Professorship in Physics #1  
Department of Physics  
PhD, University of Washington - Seattle, 1985

A W Nolle, Professor Emeritus  
Department of Physics  
PhD, Massachusetts Institute of Technology, 1947

Alison N Norman, Lecturer  
Department of Computer Science  
PhD, University of Texas at Austin, 2010

Gordon S Novak, Professor  
Department of Computer Science  
PhD, University of Texas at Austin, 1976

Nomeli P Nunez, Assistant Professor  
Department of Nutritional Sciences  
PhD, Washington State University, 1999

Theresa J O'Halloran, Associate Professor  
Section of Molecular Cell and Developmental Biology  
PhD, University of North Carolina at Chapel Hill, 1986

Melvin E Oakes, Professor Emeritus  
Department of Physics  
PhD, Florida State University, 1964

Edward W Odell, Professor  
John T. Stuart III Centennial Professorship in Mathematics  
Department of Mathematics  
PhD, Massachusetts Institute of Technology, 1975

J T Oden, Professor  
Cockrell Family Regents Chair in Engineering #2, Peter O'Donnell, Jr.  
Centennial Chair in Computing Systems  
Department of Mathematics  
Department of Computer Science  
PhD, Oklahoma State University Main Campus, 1962

Raymond Lee Orbach, Professor  
Cockrell Family Chair in Engineering No. 12  
Department of Physics  
PhD, University of California-Berkeley, 1960

Christopher B Orf, Specialist  
Department of Chemistry and Biochemistry  
MS, Oregon State University, 1993

Roger C Osborn, Professor Emeritus  
Department of Mathematics  
PhD, University of Texas at Austin, 1954

Glen Otto, Clinical Professor  
Section of Molecular Genetics and Microbiology  
DVM, University of Minnesota-Twin Cities, 1987

Ekin Ozman, Instructor  
Department of Mathematics  
PhD, University of Wisconsin-Madison, 2007

Sonia Paban, Associate Professor  
Department of Physics  
PhD, University of Barcelona, 1988

Susan J Pacinda, Adjunct Assistant Professor  
Section of Molecular Genetics and Microbiology  
MD, University of Texas Health Science Center at Houston, 1992

Bruce P Palka, Professor Emeritus  
Department of Mathematics  
PhD, University of Michigan-Ann Arbor, 1972

Jose L Panero, Associate Professor  
Section of Integrative Biology  
PhD, University of Tennessee, 1990

Jelena H Pantel, Specialist  
School of Biological Sciences  
PhD, University of Texas at Austin, 2009

Diane Papillion, Lecturer  
Department of Nutritional Sciences  
MPH, University of North Carolina at Chapel Hill, 2001

Mary R Parker, Senior Lecturer  
Division of Statistics and Scientific Computation  
PhD, University of Texas at Austin, 1988

Camille Parmesan, Professor  
Section of Integrative Biology  
PhD, University of Texas at Austin, 1995

James T Pascaleff, Instructor  
Department of Mathematics  
PhD, Massachusetts Institute of Technology, 2011

Yale N Patt, Professor  
Ernest Cockrell, Jr. Centennial Chair in Engineering  
Department of Computer Science  
PhD, Stanford University, 1966

Kristin D Patterson, Lecturer  
School of Biological Sciences  
PhD, University of Texas at Austin, 1998

Tanya T Paull, Professor  
Mr. and Mrs. Isaac Arnold, Sr. Regents Chair in Molecular Biology

Section of Molecular Genetics and Microbiology  
PhD, University of California-Los Angeles, 1996

Natasa Pavlovic, Associate Professor  
Department of Mathematics  
PhD, University of Illinois at Chicago, 2002

Shelley M Payne, Professor  
Section of Molecular Genetics and Microbiology  
PhD, Tex Hlth Sci C Dallas, U, 1977

Timothy Perutz, Assistant Professor  
Department of Mathematics  
PhD, University of London, 2005

Steven M Phelps, Associate Professor  
Section of Integrative Biology  
PhD, University of Texas at Austin, 1999

Eric R Pianka, Professor  
Denton A. Cooley Centennial Professorship in Zoology  
Section of Integrative Biology  
PhD, University of Washington - Seattle, 1990

Jonathan T Pierce-Shimomura, Assistant Professor  
Section of Neurobiology  
Waggoner Center for Alcohol and Addiction Research  
PhD, University of Oregon, 2000

Jonathan William Pillow, Assistant Professor  
Section of Neurobiology  
PhD, New York University, 2005

Keshav K Pingali, Professor  
W. A. "Tex" Moncrief, Jr. Chair in Distributed and Grid Computing  
Department of Computer Science  
ScD, Massachusetts Institute of Technology, 1986

C Greg Plaxton, Professor  
Department of Computer Science  
PhD, Stanford University, 1989

Martin Poenie, Associate Professor  
Section of Molecular Cell and Developmental Biology  
PhD, Stanford University, 1986

Russell A Poldrack, Professor  
Section of Neurobiology  
PhD, University of Illinois at Urbana-Champaign, 1995

George D Pollak, Professor  
Section of Neurobiology  
PhD, University of Maryland College Park, 1970

Mark Todd Pope, Lecturer  
Department of Human Development and Family Sciences  
PhD, University of Texas at Austin, 2011

Bruce W Porter, Professor  
Department of Computer Science  
PhD, University of California-Irvine, 1984

Wilbur A Porter, Research Professor (Affiliated)  
Department of Marine Science  
PhD, Texas A & M University, 1970

Mary F Poteet, Lecturer  
College of Natural Sciences

PhD, University of California-Berkeley, 2001

Pamela G Powell, Clinical Assistant Professor  
UTeach-Natural Sciences  
MEd, University of Texas at Austin, 1993

William H Press, Professor  
Warren J. and Viola Mae Raymer Chair  
Department of Computer Science  
Section of Integrative Biology  
PhD, California Institute of Technology, 1972

Alison Renee Preston, Assistant Professor  
Section of Neurobiology  
PhD, Stanford University, 2004

Nancy B Prideaux, Lecturer  
Division of Textiles and Apparel  
MS, Houston Baptist University, 1985

Nicholas J Priebe, Assistant Professor  
Section of Neurobiology  
PhD, University of California-San Francisco, 2001

Kristen J Procko, Specialist  
College of Natural Sciences  
PhD, University of Texas at Austin, 2009

Lili Qiu, Associate Professor  
Department of Computer Science  
PhD, Cornell University, 2001

Richard B Quay, Lecturer  
Department of Chemistry and Biochemistry  
PhD, Rice University, 1979

Kimberly Raab-Graham, Assistant Professor  
Section of Neurobiology  
PhD, University of California-Santa Barbara, 1998

Jonathan David Radcliffe, Specialist  
Department of Chemistry and Biochemistry  
BS, University of Wisconsin-Eau Claire, 2009

Charles L Radin, Professor  
Department of Mathematics  
PhD, University of Rochester, 1971

Diane S Radin, Senior Lecturer  
Department of Mathematics  
MA, University of Rochester, 1968

Mark G Raizen, Professor  
Sid W. Richardson Foundation Regents Chair in Physics #2  
Department of Physics  
PhD, University of Texas at Austin, 1989

Vijaya Ramachandran, Professor  
William B. Blakemore II Regents Professorship in Computer Sciences  
Department of Computer Science  
PhD, Princeton University, 1983

Alexander P Rand, Lecturer  
Department of Mathematics  
PhD, Carnegie Mellon University, 2009

Michael W Raney, Lecturer  
College of Natural Sciences

PhD, University of Texas at Austin, 1991

Mary A Rankin, Professor  
Section of Integrative Biology  
PhD, University of Iowa, 1972

Joanne M Ravel, Professor Emeritus  
Department of Chemistry and Biochemistry  
PhD, University of Texas at Austin, 1954

Pradeep Ravikumar, Assistant Professor  
Department of Computer Science  
Division of Statistics and Scientific Computation  
PhD, Carnegie Mellon University, 2007

Julia A Reed, Associate Professor  
Division of Textiles and Apparel  
PhD, Purdue University Main Campus, 1973

Lester J Reed, Professor Emeritus  
Department of Chemistry and Biochemistry  
PhD, University of Illinois at Urbana-Champaign, 1946

Linda E Reichl, Professor  
Department of Physics  
PhD, University of Denver, 1969

Stuart A Reichler, Lecturer  
School of Biological Sciences  
PhD, University of Texas at Austin, 1999

Alan W Reid, Professor  
Pennzoil Company Regents Professorship in Mathematics  
Department of Mathematics  
PhD, University of Aberdeen, 1988

Kui Ren, Assistant Professor  
Department of Mathematics  
PhD, Columbia University in the City of New York, 2006

David Bruce Ress, Research Associate Professor (Affiliated)  
Section of Neurobiology  
PhD, Stanford University, 1988

Benjamin T Rhodes, Lecturer  
Department of Mathematics  
PhD, Oklahoma State University Main Campus, 1961

Elaine A Rich, Senior Lecturer  
Department of Computer Science  
PhD, Carnegie Mellon University, 1979

Phyllis L Richards, Professor Emeritus  
Department of Human Development and Family Sciences  
PhD, Florida State University, 1964

Richard H Richardson, Professor Emeritus  
Section of Integrative Biology  
PhD, North Carolina State University, 1965

Austen F Riggs, Professor Emeritus  
Section of Neurobiology  
PhD, Harvard University, 1951

Peter J Riley, Professor  
Department of Physics  
PhD, University of Alberta, 1962

Jack L Ritchie, Professor  
Department of Physics  
PhD, University of Rochester, 1984

Ritu Ritu, Lecturer  
Division of Statistics and Scientific Computation  
PhD, , 2010

Michael T Roberts, Lecturer  
School of Biological Sciences  
PhD, University of Texas at Austin, 2005

Jon D Robertus, Professor  
Benjamin Clayton Centennial Professorship in Biochemistry  
Department of Chemistry and Biochemistry  
PhD, University of California-San Diego, 1972

Edward L Robinson, Professor  
William B. Blakemore II Regents Professorship in Astronomy  
Department of Astronomy  
PhD, University of Texas at Austin, 1973

Bruce E Rodenborn, Lecturer  
Department of Physics  
PhD, University of Texas at Austin, 2011

Stacia E Rodenbusch, Specialist  
College of Natural Sciences  
PhD, University of California-Berkeley, 2009

Altha B Rodin, Senior Lecturer  
Department of Mathematics  
PhD, University of Texas at Austin, 1988

Shelly R Rodriguez, Clinical Assistant Professor  
UTeach-Natural Sciences  
MA, University of Texas at Austin, 2003

F Rodriguez-Villegas, Professor  
Department of Mathematics  
PhD, The Ohio State University Main Campus, 1990

Michael Rose, Assistant Professor  
Department of Chemistry and Biochemistry  
PhD, University of California-Santa Cruz, 2009

Haskell P Rosenthal, Professor Emeritus  
Department of Mathematics  
PhD, Stanford University, 1965

Peter J Rossky, Professor  
Marvin K. Collie-Welch Regents Chair in Chemistry  
Department of Chemistry and Biochemistry  
PhD, Harvard University, 1978

Stanley J Roux, Professor  
Section of Molecular Cell and Developmental Biology  
PhD, Yale University, 1971

Bradley A Rowland, Specialist  
Department of Chemistry and Biochemistry  
PhD, University of Texas at Austin, 2007

David Rusin, Lecturer  
Department of Mathematics  
PhD, University of Chicago, 1984

Rick Russell, Associate Professor

Department of Chemistry and Biochemistry  
PhD, Johns Hopkins University, 1998

Michael J Ryan, Professor  
Clark Hubbs Regents Professorship in Zoology  
Section of Integrative Biology  
PhD, Cornell University, 1982

Lorenzo A Sadun, Professor  
Department of Mathematics  
PhD, University of California-Berkeley, 1987

David J Saltman, Professor Emeritus  
Department of Mathematics  
PhD, Yale University, 1976

Bob G Sanders, Professor  
Section of Molecular Genetics and Microbiology  
Department of Nutritional Sciences  
PhD, Penn State University Park, 1961

Sahotra Sarkar, Professor  
Section of Integrative Biology  
PhD, University of Chicago, 1989

K Sathasivan, Senior Lecturer  
School of Biological Sciences  
PhD, Louisiana State University and Agricultural and Mechanical College, 1991

Kanthimathi Sathasivan, Lecturer  
Department of Mathematics  
PhD, University of Texas at Austin, 2011

Sara Lea Sawyer, Assistant Professor  
Section of Molecular Genetics and Microbiology  
PhD, Cornell University, 2003

Inder M Saxena, Lecturer  
School of Biological Sciences  
PhD, Jawaharlal Nehru University, 1984

Pratibha Saxena, Lecturer  
School of Biological Sciences  
PhD, Jawaharlal Nehru University, 1983

John M Scalo, Professor  
Josey Centennial Professorship in Astronomy  
Department of Astronomy  
PhD, University of California-Los Angeles, 1973

William C Schieve, Professor Emeritus  
Department of Physics  
PhD, Lehigh University, 1959

Evelyn M Schultz, Lecturer  
Department of Mathematics  
MA, Duke University, 1972

Arlo W Schurle, Lecturer  
Department of Mathematics  
PhD, University of Kansas Main Campus, 1967

Matthew Russell Schwausch, Specialist  
School of Biological Sciences  
BSBio, University of Texas at Austin, 2007

Roy F Schwitters, Professor

Sid W. Richardson Foundation Regents Chair in Physics #4  
Department of Physics  
PhD, Massachusetts Institute of Technology, 1971

Michael D Scott, Senior Lecturer  
Department of Computer Science  
MS, Rensselaer Polytechnic Institute, 1998

Jon N Seal, Lecturer  
School of Biological Sciences  
PhD, Florida State University, 2006

Donn M Searle, Lecturer  
College of Natural Sciences  
MA, University of Virginia, 1990

Leonard L Seelig, Lecturer  
School of Biological Sciences  
PhD, University of Texas Health Science Center at San Antonio, 1975

Sue E Seely, Lecturer  
Department of Human Development and Family Sciences  
PhD, University of Texas at Austin, 2006

Eyal Seidemann, Associate Professor  
Section of Neurobiology  
PhD, Stanford University, 1998

Jonathan L Sessler, Professor  
Rowland Pettit Centennial Chair in Chemistry  
Department of Chemistry and Biochemistry  
PhD, Stanford University, 1982

Gerald Christopher Shank, Assistant Professor  
Department of Marine Science  
PhD, University of North Carolina at Chapel Hill, 2003

S M Shankland, Professor  
Section of Molecular Cell and Developmental Biology  
PhD, University of California-Berkeley, 1982

Paul R Shapiro, Professor  
Frank N. Edmonds, Jr. Regents Professorship in Astronomy  
Department of Astronomy  
PhD, Harvard University, 1978

Jason B Shear, Professor  
Department of Chemistry and Biochemistry  
PhD, Stanford University, 1994

Ruth I Shear, Senior Lecturer  
College of Natural Sciences  
PhD, Griffith University, 1991

Gregory A Shields, Professor  
Jane and Roland Blumberg Centennial Professorship in Astronomy  
Department of Astronomy  
PhD, California Institute of Technology, 1973

Chih-Kang Shih, Professor  
Jane and Roland Blumberg Professorship in Physics  
Department of Physics  
PhD, Stanford University, 1988

Frank T Shirley, Lecturer  
Department of Mathematics  
PhD, University of Texas at Austin, 1984

Vitaly Shmatikov, Associate Professor  
Department of Computer Science  
PhD, Stanford University, 2000

Ben A Shoulders, Lecturer  
Department of Chemistry and Biochemistry  
PhD, University of Texas at Austin, 1964

Ralph E Showalter, Professor Emeritus  
Department of Mathematics  
PhD, University of Illinois at Urbana-Champaign, 1968

George T Shubeita, Assistant Professor  
Department of Physics  
PhD, Universite de Lausanne, 2002

Gennady Shvets, Professor  
Department of Physics  
PhD, Massachusetts Institute of Technology, 1995

Dionicio Rhodes Siegel, Assistant Professor  
Department of Chemistry and Biochemistry  
PhD, Harvard University, 2003

Karen K Silcox, Lecturer  
Department of Human Development and Family Sciences  
PhD, University of Texas at Austin, 2011

Dee U Silverthorn, Senior Lecturer  
School of Biological Sciences  
PhD, University of South Carolina - Columbia, 1973

Sarah L Simmons, Lecturer  
College of Natural Sciences  
PhD, University of Texas at Austin, 2002

Beryl B Simpson, Professor  
C. L. Lundell Chair of Systematic Botany  
Section of Integrative Biology  
School of Biological Sciences  
PhD, Harvard University, 1968

Michael C Singer, Professor  
Section of Integrative Biology  
PhD, University of Oxford, 1971

Mihai Sirbu, Assistant Professor  
Department of Mathematics  
PhD, Carnegie Mellon University, 2004

Greg O Sitz, Professor  
Department of Physics  
PhD, Stanford University, 1987

Jennifer L Smith, Lecturer  
College of Natural Sciences  
MEd, University of Texas at Austin, 2009

Kimberly Ann Smith, Lecturer  
School of Biological Sciences  
PhD, University of Texas Health Science Center at Houston, 2010

Christopher A Sneden, Professor  
Rex G. Baker, Jr. and McDonald Observatory Centennial Research  
Professorship in Astronomy  
Department of Astronomy  
PhD, University of Texas at Austin, 1974

D Max Snodderly, Professor  
Section of Neurobiology  
Department of Nutritional Sciences  
PhD, Rockefeller University, 1969

Adriana Sofer, Lecturer  
Department of Mathematics  
PhD, The Ohio State University Main Campus, 1993

William Howard Sofer, Adjunct Professor  
Section of Molecular Genetics and Microbiology  
PhD, University of Miami, 1967

Stephanie J Somersille, Instructor  
Department of Mathematics  
PhD, University of California-Berkeley, 2009

Katherine Y Southworth, Senior Lecturer  
Department of Nutritional Sciences  
MS, University of Kentucky, 1968

Stacy C Sparks, Senior Lecturer  
Department of Chemistry and Biochemistry  
PhD, University of Texas at Austin, 1999

Hallie G Speranza, Lecturer  
Department of Human Development and Family Sciences  
MA, University of Texas at Austin, 1991

Ravi Srinivasan, Instructor  
Department of Mathematics  
PhD, Brown University, 2009

Catherine A Stacy, Lecturer  
Division of Statistics and Scientific Computation  
PhD, University of Texas at Austin, 2001

John F Stanton, Professor  
George W. Watt Centennial Professorship  
Department of Chemistry and Biochemistry  
PhD, Harvard University, 1989

Michael P Starbird, Professor  
Department of Mathematics  
PhD, University of Wisconsin-Madison, 1974

Eric J Staron, Lecturer  
Department of Mathematics  
PhD, University of Texas at Austin, 2012

Deanna M Staskel, Lecturer  
Department of Nutritional Sciences  
PhD, University of Texas at Austin, 2006

David S Stein, Professor  
Section of Molecular Cell and Developmental Biology  
PhD, Stanford University, 1989

Lydia C Steinman, Senior Lecturer  
Department of Nutritional Sciences  
MA, University of Texas at Austin, 1987

Elizabeth F Stepp, Lecturer  
Department of Mathematics  
PhD, University of Kentucky, 2005

Leslie Stevens, Research Assistant Professor (Affiliated)  
Section of Molecular Cell and Developmental Biology

PhD, Harvard University, 1987

Scott W Stevens, Associate Professor  
Section of Molecular Genetics and Microbiology  
PhD, University of North Carolina at Chapel Hill, 1996

Keith J Stevenson, Professor  
Department of Chemistry and Biochemistry  
PhD, University of Utah, 1997

Peter H Stone, Associate Professor  
Department of Computer Science  
PhD, Carnegie Mellon University, 1998

Gwendolyn M Stovall, Specialist  
College of Natural Sciences  
PhD, University of Texas at Austin, 2011

George Sudarshan, Professor  
Department of Physics  
PhD, University of Rochester, 1958

Christopher S Sullivan, Assistant Professor  
Section of Molecular Genetics and Microbiology  
PhD, University of Pittsburgh, Pittsburgh Campus, 2000

Hsiang-Yuan Sung, Specialist  
Department of Chemistry and Biochemistry  
MA, University of Texas at Austin, 2011

Sibum Sung, Assistant Professor  
Section of Molecular Cell and Developmental Biology  
PhD, University of Wisconsin-Madison, 2004

Catherine A Surra, Professor Emeritus  
Department of Human Development and Family Sciences  
PhD, Pennsylvania State University Main Campus, 1980

Sara J Sutcliffe, Lecturer  
Department of Chemistry and Biochemistry  
PhD, University of Texas at Austin, 2000

Harry E Sutton, Professor Emeritus  
Section of Molecular Genetics and Microbiology  
PhD, University of Texas at Austin, 1953

Michael Scott Sweet, Lecturer  
College of Natural Sciences  
PhD, University of Texas at Austin, 2008

Sara Johnson Sweitzer, Lecturer  
Department of Nutritional Sciences  
PhD, University of Texas at Austin, 2009

Jack B Swift, Professor Emeritus  
Department of Physics  
PhD, University of Illinois at Urbana-Champaign, 1968

Harry L Swinney, Professor  
Sid W. Richardson Foundation Regents Chair in Physics #3  
Department of Physics  
PhD, Johns Hopkins University, 1968

Paul J Szaniszlo, Professor Emeritus  
Section of Molecular Genetics and Microbiology  
PhD, University of North Carolina at Chapel Hill, 1967

Steve Takata, Lecturer

School of Biological Sciences  
PhD, University of California-Berkeley, 2002

Jeffrey J Tarrand, Adjunct Assistant Professor  
Section of Molecular Genetics and Microbiology  
MD, University of Virginia, 1981

John T Tate, Professor Emeritus  
Department of Mathematics  
PhD, Princeton University, 1950

Richard A Taylor, Lecturer  
School of Biological Sciences  
PhD, University of South Florida, 2003

Samuel H Taylor, Specialist  
College of Natural Sciences  
PhD, University of York, 2006

Edward C Theriot, Professor  
Jane and Roland Blumberg Centennial Professorship in Molecular  
Evolution  
Section of Integrative Biology  
PhD, University of Michigan-Ann Arbor, 1983

Peter Thomas, Professor  
H-E-B Endowed Chair in Marine Science  
Department of Marine Science  
Section of Integrative Biology  
PhD, University of Leicester, 1978

Guy Thompson, Professor Emeritus  
Section of Molecular Cell and Developmental Biology  
PhD, California Institute of Technology, 1959

James C Thompson, Professor Emeritus  
Department of Physics  
PhD, Rice University, 1956

Wesley J Thompson, Professor  
Section of Molecular Cell and Developmental Biology  
PhD, University of California-Berkeley, 1975

Anne M Tibbetts, Specialist  
College of Natural Sciences  
PhD, University of Texas at Austin, 1999

Jane F Tillman, Lecturer  
Department of Nutritional Sciences  
MS, Texas Woman's University, 1977

Philip U Treisman, Professor  
Department of Mathematics  
PhD, University of California-Berkeley, 1985

Michael Stephen Trent, Associate Professor  
Section of Molecular Genetics and Microbiology  
PhD, East Tennessee State University, 1998

Yen-Hsi Tsai, Associate Professor  
Department of Mathematics  
PhD, University of California-Los Angeles, 2002

Maxim Tsoi, Associate Professor  
Department of Physics  
PhD, Universitat Konstanz, 1998

Philip W Tucker, Professor

Marie Betzner Morrow Centennial Chair  
Section of Molecular Genetics and Microbiology  
PhD, Texas A & M University, 1975

Billie L Turner, Professor Emeritus  
Section of Integrative Biology  
PhD, Washington State University, 1953

Jack S Turner, Associate Professor  
Department of Physics  
PhD, Indiana University at Bloomington, 1969

Takeshi Udagawa, Professor Emeritus  
Department of Physics  
PhD, Univ of Tsukuba, 1962

Karen Uhlenbeck, Professor  
Sid W. Richardson Foundation Regents Chair in Mathematics #3  
Department of Mathematics  
PhD, Brandeis University, 1968

Emin T Ulug, Senior Lecturer  
School of Biological Sciences  
PhD, University of Texas at Austin, 1984

Ko Um, Lecturer  
Department of Mathematics  
PhD, University of Iowa, 2010

Jason Upton, Assistant Professor  
Section of Molecular Genetics and Microbiology  
PhD, Washington University in St Louis, 2006

Jeffrey D Vaaler, Professor  
Department of Mathematics  
PhD, University of Illinois at Urbana-Champaign, 1974

Leslie J Vaaler, Senior Lecturer  
Department of Mathematics  
PhD, Princeton University, 1982

Robert A Van De Geijn, Professor  
Department of Computer Science  
PhD, University of Maryland University College, 1987

David A Vandebout, Associate Professor  
Department of Chemistry and Biochemistry  
PhD, University of Texas at Austin, 1995

Alexis F Vasseur, Professor  
Department of Mathematics  
PhD, Université de Paris VI, Pierre et Marie Curie, 1999

James W Vick, Professor  
Department of Mathematics  
PhD, University of Virginia, 1968

Itamar Villanueva, Specialist  
School of Biological Sciences  
PhD, Texas A & M University, 2010

Tracy A Villareal, Professor  
Department of Marine Science  
PhD, University of Rhode Island, 1989

Mikhail M Vishik, Professor  
Department of Mathematics

PhD, University of Moscow, 1980

Bindu Viswanathan, Lecturer  
Division of Statistics and Scientific Computation  
PhD, Emory University, 1999

Steven A Vokes, Assistant Professor  
Section of Molecular Cell and Developmental Biology  
PhD, University of Texas at Austin, 2002

Jose F Voloch, Professor  
Department of Mathematics  
PhD, University of Cambridge, 1985

Francois Waelbroeck, Research Professor (Affiliated)  
Department of Physics  
PhD, University of Texas at Austin, 1988

Michael H Walfish, Assistant Professor  
Department of Computer Science  
SM, Massachusetts Institute of Technology, 2004

Deborah R Walker, Lecturer  
Department of Chemistry and Biochemistry  
PhD, University of Texas at Austin, 2005

James R Walker, Professor  
Section of Molecular Genetics and Microbiology  
PhD, University of Texas at Austin, 1963

Mary H Walker, Clinical Associate Professor  
UTeach-Natural Sciences  
PhD, University of Texas at Austin, 1979

John B Wallingford, Associate Professor  
Section of Molecular Cell and Developmental Biology  
PhD, University of Texas at Austin, 1998

Dale E Walston, Associate Professor Emeritus  
Department of Mathematics  
PhD, University of Texas at Austin, 1961

Benjamin Walther, Assistant Professor  
Department of Marine Science  
PhD, Woods Hole Oceanographic Institution, 2007

Jessica E Wandelt, Lecturer  
School of Biological Sciences  
PhD, University of Arizona, 2005

Rachel A Ward, Assistant Professor  
Department of Mathematics  
Department of Mathematics  
PhD, Princeton University, 2009

Tandy Warnow, Professor  
David Bruton, Jr. Centennial Professorship in Computer Sciences #3  
Department of Computer Science  
PhD, University of California-Berkeley, 1991

Brent R Waters, Assistant Professor  
Department of Computer Science  
PhD, Princeton University, 2004

Pamela J Way, Lecturer  
College of Natural Sciences  
PhD, University of Texas at Austin, 2002

Lauren J Webb, Assistant Professor  
Department of Chemistry and Biochemistry  
PhD, California Institute of Technology, 2005

Stephen E Webber, Professor Emeritus  
Department of Chemistry and Biochemistry  
PhD, University of Chicago, 1965

Steven Weinberg, Professor  
Jack S. Josey - Welch Foundation Chair in Science  
Department of Physics  
Department of Astronomy  
PhD, Princeton University, 1957

John C Wheeler, Professor  
Samuel T. and Fern Yanagisawa Regents Professorship in Astronomy  
Department of Astronomy  
PhD, University of Colorado at Boulder, 1969

Mary F Wheeler, Professor  
Ernest and Virginia Cockrell Chair in Engineering  
Department of Mathematics  
PhD, Rice University, 1971

Andrew B Whinston, Professor  
Hugh Roy Cullen Centennial Chair in Business Administration  
Department of Computer Science  
PhD, Carnegie Mellon University, 1962

Travis White, Specialist  
College of Natural Sciences  
PhD, University of Texas at Austin, 2011

Marvin Whiteley, Associate Professor  
Section of Molecular Genetics and Microbiology  
PhD, University of Iowa, 2001

Jacob T Whitt, Specialist  
School of Biological Sciences  
PhD, University of Texas at Austin, 2011

Claus O Wilke, Associate Professor  
Section of Integrative Biology  
PhD, Ruhr-Universitat Bochum, 1999

Katherine A Willets, Assistant Professor  
Department of Chemistry and Biochemistry  
PhD, Stanford University, 2005

Robert F Williams, Professor Emeritus  
Department of Mathematics  
PhD, University of Virginia (Old Code), 1954

Richard A Willis, Professor Emeritus  
Department of Nutritional Sciences  
PhD, University of Oklahoma Health Sciences Center, 1979

Frank Willmore, Lecturer  
Division of Statistics and Scientific Computation  
PhD, , 2006

Derek Wills, Professor  
Department of Astronomy  
PhD, University of Cambridge, 1966

Carlton G Willson, Professor  
Rashid Engineering Regents Chair

Department of Chemistry and Biochemistry  
PhD, University of California-Berkeley, 1974

Robb J Wilson, Lecturer  
Department of Chemistry and Biochemistry  
PhD, University of Michigan-Ann Arbor, 1998

Donald E Winget, Professor  
Harlan J. Smith Centennial Professorship in Astronomy  
Department of Astronomy  
PhD, University of Rochester, 1982

Emmett Witchel, Associate Professor  
Department of Computer Science  
PhD, Massachusetts Institute of Technology, 2004

Michael David Wittig, Specialist  
School of Biological Sciences  
MA, University of Texas at Austin, 2011

Bogdan J Wlodarczyk, Research Assistant Professor (Affiliated)  
Department of Nutritional Sciences  
DSc, National Veterinary Research Institute, 2002

Brenda D Wolff, Specialist  
School of Biological Sciences  
PhD, University of Texas at Austin, 2011

Jian Wu, Lecturer  
School of Biological Sciences  
PhD, University of Texas at Austin, 2007

Robert E Wyatt, Professor  
W. T. Doherty Professorship in Chemistry  
Department of Chemistry and Biochemistry  
Department of Physics  
PhD, Johns Hopkins University, 1965

Bugao Xu, Professor  
Division of Textiles and Apparel  
PhD, University of Maryland College Park, 1992

Weijia Xu, Lecturer  
Division of Statistics and Scientific Computation  
PhD, University of Texas at Austin, 2006

Jianhong Xue, Lecturer  
Department of Marine Science  
PhD, State University of New York at Stony Brook, 2008

Xiaoping Yang, Specialist  
College of Natural Sciences  
PhD, Sun Yat-Sen University, 2001

Zhen Yao, Associate Professor  
Department of Physics  
PhD, Harvard University, 1997

Mei Yin, Instructor  
Department of Mathematics  
PhD, University of Arizona, 2010

Lexing Ying, Associate Professor  
Department of Mathematics  
PhD, New York University, 2004

William D Young, Lecturer  
Department of Computer Science

PhD, University of Texas at Austin, 1988

Harold H Zakon, Professor  
Section of Neurobiology  
PhD, Cornell University, 1981

Thaleia Zariphopoulou, Professor  
V. F. Neuhaus Centennial Professorship in Finance  
Department of Mathematics  
PhD, Brown University, 1989

Jay W Zarnikau, Adjunct Professor  
Division of Statistics and Scientific Computation  
PhD, University of Texas at Austin, 1990

Boris Zemelman, Assistant Professor  
Section of Neurobiology  
PhD, Stanford University, 1997

Yan Zhang, Assistant Professor  
Department of Chemistry and Biochemistry  
PhD, The Scripps Research Institute, 2004

Yin Zhang, Associate Professor  
Department of Computer Science  
PhD, Cornell University, 2001

Zhenyu Zhang, Adjunct Professor  
Department of Physics  
PhD, Rutgers the State University of New Jersey Camden Campus,  
1989

Zaiming Zhao, Lecturer  
School of Biological Sciences  
PhD, University of Texas at Austin, 1999

Huiping Zhu, Research Assistant Professor (Affiliated)  
Department of Nutritional Sciences  
PhD, Peking University, 1997

Xiao Y Zhu, Professor  
Louis Nicolas Vauquelin Regents Professorship in Inorganic Chemistry  
Department of Chemistry and Biochemistry  
PhD, University of Texas at Austin, 1989

Gordan Zitkovic, Associate Professor  
Department of Mathematics  
PhD, Columbia University in the City of New York, 2003

David I Zuckerman, Professor  
Professorship in Computer Sciences #1  
Department of Computer Science  
PhD, University of California-Berkeley, 1991

## School of Nursing Faculty

Gayle J Acton, Associate Professor  
School of Nursing  
PhD, University of Texas at Austin, 1993

Mary L Adams, Associate Professor of Clinical Nursing  
School of Nursing  
PhD, University of Texas at Austin, 1990

Marta L Anderson, Instructor in Clinical Nursing

School of Nursing  
MSN, University of Phoenix, 2005

Heather A Becker, Lecturer  
School of Nursing  
PhD, University of Texas at Austin, 1981

Karen L Borich, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas at Austin, 1999

Billye J Brown, Professor Emeritus  
School of Nursing  
EdD, Baylor University, 1975

Sharon A Brown, Professor  
Joseph H. Blades Centennial Memorial Professorship in Nursing  
School of Nursing  
PhD, University of Texas at Austin, 1987

Janis L Carelock, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas at Austin, 1986

Linda J Carpenter, Associate Professor of Clinical Nursing  
School of Nursing  
PhD, University of Arizona, 1993

Patricia A Carter, Associate Professor  
School of Nursing  
PhD, University of California-Los Angeles, 1999

Sharon L Carter, Instructor in Clinical Nursing  
School of Nursing  
MS, Ball State University, 2011

Angela P Clark, Associate Professor Emeritus  
School of Nursing  
PhD, Texas Woman's University, 1983

Evelyn M Clingerman, Assistant Professor  
School of Nursing  
PhD, The Catholic University of America, 2001

Nola E Cottom, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas at Austin, 1977

Jessica Cowen, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Iowa, 2010

Mary A Dale, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas at Austin, 1982

Allie De beer, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas - Pan American, 2002

Carol L Delville, Assistant Professor in Clinical Nursing  
School of Nursing  
PhD, University of Texas at Austin, 2008

Lisa Doggett, Clinical Associate Professor  
School of Nursing  
MD, Baylor College of Medicine, 1999

Carly E Edgar, Instructor in Clinical Nursing  
School of Nursing  
MSN, Texas Woman's University, 2006

Helen L Erickson, Professor Emeritus  
School of Nursing  
PhD, University of Michigan-Ann Arbor, 1984

Lisa Farrens, Instructor in Clinical Nursing  
School of Nursing  
MSN, Loyola University New Orleans, 2006

Judith L Flanagan, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas Health Science Center at San Antonio, 2002

Eileen Ruth Fowles, Assistant Professor  
School of Nursing  
PhD, Loyola University Chicago, 1994

Jan T Fox, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas at Austin, 1971

Nina Marie Fredland, Assistant Professor  
School of Nursing  
PhD, Johns Hopkins University, 2006

Sarah A Fry, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas at Austin, 2011

Ruth L Gallman, Professor Emeritus  
School of Nursing  
PhD, , 1970

Alexandra A Garcia, Associate Professor  
School of Nursing  
PhD, University of Texas at Austin, 2002

Carol D Gaskamp, Assistant Professor in Clinical Nursing  
School of Nursing  
PhD, University of Kansas Main Campus, 2000

Kelly S Gettig, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas at Austin, 2003

Lisa Gonzales, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas at Austin, 2009

Corinne E Grimes, Assistant Professor in Clinical Nursing  
School of Nursing  
PhD, The Catholic University of America, 1997

Susan J Grobe, Professor Emeritus  
School of Nursing  
PhD, University of Texas at Austin, 1977

Nancy M Guillet de Gutierrez, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas at Austin, 2011

Lorraine C Haertel, Assistant Professor in Clinical Nursing  
School of Nursing  
PhD, University of Texas at Austin, 1985

Beverly A Hall, Professor Emeritus  
School of Nursing  
PhD, University of Colorado at Boulder, 1974

Patricia L Hamilton-Solum, Assistant Professor in Clinical Nursing  
School of Nursing  
PhD, University of Texas at Austin, 2011

Dana H Hannah, Assistant Professor in Clinical Nursing  
School of Nursing  
DNS, Florida Atlantic University, 2010

Tracie C Harrison, Associate Professor  
School of Nursing  
PhD, University of Texas at Austin, 2004

Sakre D Heinze, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas at Austin, 2009

Sherry G Hendrickson, Associate Professor of Clinical Nursing  
School of Nursing  
PhD, University of Texas at Austin, 2000

Amy E Holland, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas at Austin, 2007

Sharon D Horner, Professor  
Dolores V. Sands Chair in Nursing Research  
School of Nursing  
PhD, Medical College of Georgia, 1992

Gretchen M Inman, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas at Austin, 2004

Sheryl A Innerarity, Associate Professor of Clinical Nursing  
School of Nursing  
PhD, Texas Woman's University, 1987

Regina Johnson, Associate Professor  
School of Nursing  
DPH, University of Texas Health Science Center at Houston, 2002

Glenda L Joiner-Rogers, Assistant Professor in Clinical Nursing  
School of Nursing  
PhD, University of Texas at Austin, 1988

Barbara A Jones, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas at Austin, 1997

Terry L Jones, Assistant Professor  
School of Nursing  
PhD, University of Texas at Austin, 2004

Heather S Keizman, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Florida, 2001

Stephanie M Key, Instructor in Clinical Nursing  
School of Nursing  
MA, University of Texas at Austin, 1999

Eileen K Kintner, Associate Professor  
School of Nursing

PhD, University of Arizona, 1996

Martha M Kowalak-Perez, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas Health Science Center at San Antonio, 1996

Li-Chen Lin, Assistant Professor in Clinical Nursing  
School of Nursing  
PhD, University of Texas at Austin, 2009

Stella J Logan, Instructor in Clinical Nursing  
School of Nursing  
MS, Case Western Reserve University, 1976

Reuben R McDaniel, Professor  
Charles and Elizabeth Prothro Regents Chair in Health Care  
Management  
School of Nursing  
EdD, Indiana University at Bloomington, 1971

Martha G Meraviglia, Associate Professor of Clinical Nursing  
School of Nursing  
PhD, University of Texas at Austin, 2001

Cynthia K Milstone, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Phoenix, 1999

Sybil Bowers Momii, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas Medical Branch, 1995

Janice Elaine Moore, Instructor in Clinical Nursing  
School of Nursing  
MS, Texas Woman's University, 1981

Sarah Jane Moore, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas at Austin, 2007

Carolyn R Mueller, Assistant Professor in Clinical Nursing  
School of Nursing  
PhD, University of Texas at Austin, 1997

Christina L Murphey, Assistant Professor in Clinical Nursing  
School of Nursing  
PhD, University of Texas at Austin, 2010

Linda S Murphy, Instructor in Clinical Nursing  
School of Nursing  
MS, Whitworth College, 1987

Donna Nichols, Lecturer  
School of Nursing  
MSEd, James Madison University, 1980

Mary Patricia O'Day, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas at Austin, 1985

James J O'Neill, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas at Austin, 2008

Robin L Page, Assistant Professor in Clinical Nursing  
School of Nursing  
PhD, University of Texas at Austin, 2006

Marilyn M Pattillo, Associate Professor of Clinical Nursing  
School of Nursing  
PhD, University of Texas at Austin, 1983

Shannon H Patton, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas at Austin, 1989

Valerie Isham Pellegrino, Instructor in Clinical Nursing  
School of Nursing  
MS, Texas A & M University - Corpus Christi, 1979

Kelley Elaine Pennell, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas at Austin, 2007

Joy H Penticuff, Professor Emeritus  
School of Nursing  
PhD, Case Western Reserve University, 1976

Dennis M Perrotta, Adjunct Associate Professor  
School of Nursing  
PhD, University of Texas Health Science Center at Houston, 1982

Sarah C Peters, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas at Austin, 1985

Megan E Pfitzinger, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas at Austin, 2011

Donna L Rew, Professor  
Denton and Louise Cooley and Family Centennial Professorship in  
Nursing  
School of Nursing  
EdD, Northern Illinois University, 1979

Roberta J Ruiz, Associate Professor  
School of Nursing  
PhD, University of Texas Health Science Center at San Antonio, 1999

Dolores Sands, Professor Emeritus  
School of Nursing  
PhD, Arizona State University Main, 1979

Kendall L Sharp, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas at Austin, 2002

Cherie E Simpson, Assistant Professor  
School of Nursing  
PhD, University of Texas at Austin, 2010

Sheila M Smith, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas Health Science Center at San Antonio, 2002

Frances C Sonstein, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas at Austin, 1976

Bobbie S Sterling, Assistant Professor in Clinical Nursing  
School of Nursing  
PhD, University of Texas at Austin, 2001

Regina Elaine Stokes, Instructor in Clinical Nursing  
School of Nursing

MSN, University of Texas at Tyler, 2007

Alexa M Stuijbergen, Professor  
Laura Lee Blanton Chair in Nursing, James R. Dougherty, Jr.  
Centennial Professorship in Nursing  
School of Nursing  
PhD, University of Texas at Austin, 1988

Danica Fulbright Sumpster, Assistant Professor in Clinical Nursing  
School of Nursing  
PhD, University of Pennsylvania, 2009

Jean C Taxis, Associate Professor of Clinical Nursing  
School of Nursing  
PhD, University of Texas at Austin, 2003

Valerie B Thomas, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas at Austin, 2002

Whitney A Thurman, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas at Austin, 2007

Gayle M Timmerman, Associate Professor  
School of Nursing  
PhD, Ohio State U Main Campus, 1994

Diane O Tyler, Professor of Clinical Nursing  
School of Nursing  
PhD, University of Texas at Austin, 1994

Deborah L Volker, Associate Professor  
School of Nursing  
PhD, University of Texas at Austin, 1999

Marlene Walden, Professor of Clinical Nursing  
School of Nursing  
PhD, University of Texas at Austin, 1997

Lorraine O Walker, Professor  
Luci B. Johnson Centennial Professorship in Nursing  
School of Nursing  
EdD, Indiana University at Bloomington, 1971

Stacey Lea Ward, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas at Austin, 2006

Christina Cardenas Wei, Assistant Professor in Clinical Nursing  
School of Nursing  
PhD, University of Texas Health Science Center at San Antonio, 2009

Elizabeth Ann White, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas at Austin, 2006

Charlotte K Wilson, Instructor in Clinical Nursing  
School of Nursing  
MSN, Texas Woman's University, 1988

Paula J Worley, Instructor in Clinical Nursing  
School of Nursing  
MSN, University of Texas Health Science Center at San Antonio, 2008

Linda H Yoder, Associate Professor  
School of Nursing

PhD, University of Pennsylvania, 1992

## College of Pharmacy Faculty

Creed W Abell, Professor Emeritus

College of Pharmacy

PhD, University of Wisconsin-Madison, 1962

Wyanza R Acosta, Clinical Associate Professor

College of Pharmacy

MS, University of Texas at Austin, 1998

Esosa E Adun, Instructor in Clinical Pharmacy

College of Pharmacy

PharmD, University of Texas at Austin, 2011

Selina M Aguilar, Clinical Assistant Professor

College of Pharmacy

PharmD, University of Texas at Austin, 2008

Lydia Aguilera, Adjunct Assistant Professor

College of Pharmacy

PharmD, University of Florida, 2008

Jon T Albrecht, Clinical Assistant Professor

College of Pharmacy

BS, Auburn University, 1982

Linda S Albrecht, Clinical Assistant Professor

College of Pharmacy

MBA, University of Texas at Arlington, 1990

Angela A Allerman, Clinical Assistant Professor

College of Pharmacy

PharmD, University of Texas at Austin, 1991

Analiza Amaya, Clinical Assistant Professor

College of Pharmacy

PharmD, Texas Southern University, 1994

Jaime P Anaya, Clinical Assistant Professor

College of Pharmacy

PharmD, University of New Mexico Main Campus, 1999

Megan E Anderson, Instructor in Clinical Pharmacy

College of Pharmacy

PharmD, Lake Erie College of Osteopathic Medicine, 2010

Joe M Angel, Research Associate Professor (Affiliated)

College of Pharmacy

PhD, University of Texas Health Science Center at Houston, 1982

Grant Watson Armstrong, Adjunct Assistant Professor

College of Pharmacy

PharmD, University of Texas at Austin, 2007

Bernadette D Asias, Instructor in Clinical Pharmacy

College of Pharmacy

PharmD, University of Houston, 2011

Kristen M Bader, Clinical Instructor

College of Pharmacy

BS, Drake University, 1983

Alexis Leigh Balko, Clinical Instructor

College of Pharmacy

PharmD, University of Texas at Austin, 2006

Jamie C Barner, Professor

College of Pharmacy

PhD, Purdue University Main Campus, 1998

James N Barnes, Clinical Assistant Professor

College of Pharmacy

PharmD, University of Texas at Austin, 2005

Colleen A Barthol, Adjunct Assistant Professor

College of Pharmacy

PharmD, University of Missouri - Kansas City, 1998

Rachel Leah Basinger, Instructor in Clinical Pharmacy

College of Pharmacy

PharmD, University of Texas at Austin, 2011

Maryam Bayat, Clinical Assistant Professor

College of Pharmacy

PharmD, Texas Southern University, 1994

Oralia V Bazaldua, Clinical Assistant Professor

College of Pharmacy

PharmD, University of Oklahoma Health Sciences Center, 1996

William Benefield, Clinical Assistant Professor

College of Pharmacy

PharmD, University of Texas at Austin, 1991

Tawny L Bettinger, Adjunct Assistant Professor

College of Pharmacy

PharmD, University of Illinois at Chicago, 1998

Roland A Bodmeier, Adjunct Associate Professor

College of Pharmacy

PhD, University of Texas at Austin, 1986

Douglas J Borys, Clinical Assistant Professor

College of Pharmacy

PharmD, Shenandoah University, 2004

Phillip D Bowman, Adjunct Assistant Professor

College of Pharmacy

PhD, University of California-Santa Cruz, 1975

Rebecca L Brady, Clinical Instructor

College of Pharmacy

PharmD, University of Texas at Austin, 2006

Fred S Brinkley, Lecturer

College of Pharmacy

MBA, University of Texas at Austin, 1983

Carolyn M Brown, Professor

College of Pharmacy

PhD, University of Florida, 1994

Barry A Browne, Clinical Associate Professor

College of Pharmacy

PharmD, University of Texas at Austin, 1987

Aaron R Buchan, Adjunct Assistant Professor

College of Pharmacy

PharmD, University of Texas at Austin, 2001

David S Burgess, Clinical Professor

College of Pharmacy  
PharmD, Medical University of South Carolina, 1990

Donna R Burgess, Adjunct Assistant Professor  
College of Pharmacy  
BS, Medical University of South Carolina, 1989

Donna M Burkett, Clinical Associate Professor  
College of Pharmacy  
MS, University of Texas at Austin, 2000

Gloria C Caballero, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, University of the Incarnate Word, 2010

Cris Cabello De Martinez, Senior Lecturer  
College of Pharmacy  
PhD, University of Texas at Austin, 1993

Richard M Cadle, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of the Pacific, 1983

Angela Hughes Campbell, Clinical Instructor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2005

Todd W Canada, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 1993

Patricia L Canales, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 1995

Chi-Yim J Chan-Lam, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of California-San Francisco, 1986

Charlene A Church, Clinical Instructor  
College of Pharmacy  
PharmD, University of Texas at Austin, 1996

Andrea L Coffee, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 1994

Claudia S Colombo, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, Saint Louis College of Pharmacy, 2002

Alan B Combs, Professor  
College of Pharmacy  
PhD, University of California-Davis, 1970

Claudio J Conti, Adjunct Professor  
College of Pharmacy  
PhD, University of Buenos Aires, 1983

Toby L Cooper, Clinical Assistant Professor  
College of Pharmacy  
PharmD, Texas Tech University, 2001

Vicki S Crane, Clinical Assistant Professor  
College of Pharmacy  
MBA, University of Dallas, 1989

David P Crews, Professor

College of Pharmacy  
PhD, Rutgers the State University of New Jersey Newark Campus,  
1973

Miles L Crismon, Professor  
James T. Doluisio Regents Chair in Pharmacy, Behrens Inc.  
Centennial Professorship in Pharmacy  
College of Pharmacy  
PharmD, University of Texas at Austin, 1979

Barrett R Crowther, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Wisconsin-Madison, 2009

Maria A Croyle, Associate Professor  
College of Pharmacy  
PhD, University of Michigan-Ann Arbor, 1997

Zhengrong Cui, Associate Professor  
College of Pharmacy  
PhD, University of Kentucky, 2002

Nicole L Cupples, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, The University of Findlay, 2010

Kevin N Dalby, Associate Professor  
College of Pharmacy  
PhD, University of Cambridge, 1992

James A Dasher, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Arkansas for Medical Sciences, 1996

Joseph F Dasta, Adjunct Professor  
College of Pharmacy  
MS, Ohio State U Main Campus, 1976

Patrick J Davis, Professor  
Eckerd Centennial Professorship in Pharmacy  
College of Pharmacy  
PhD, University of Iowa, 1976

Taniyah N Dawson, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, Florida Agricultural and Mechanical University, 2011

Mike De Luna, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, Texas A & M University - Kingsville, 2011

Jennifer L Defilippi, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, Rutgers the State University of New Jersey New Brunswick  
Campus, 1997

John Digiovanni, Professor  
College of Pharmacy  
PhD, University of Washington - Seattle, 1978

Brian C Dinh, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, University of Houston, 2011

Heather H Dobie, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of North Carolina at Chapel Hill, 1997

James T Doluisio, Professor Emeritus  
College of Pharmacy  
PhD, Purdue University Main Campus, 1962

Eric C Dougherty, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2004

Staci Lynn Dufrene, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, Albany College of Pharmacy of Union University, 2007

Bryson M Duhon, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, University of Texas at Austin, 2011

James R Dunlap, Clinical Assistant Professor  
College of Pharmacy  
PhD, Texas A & M University, 1977

Christine L Duvauchoelle, Associate Professor  
College of Pharmacy  
PhD, University of California-Santa Barbara, 1991

Kathryn E Dzintars, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Pittsburgh, Pittsburgh Campus, 2003

Kelly L Echevarria, Clinical Assistant Professor  
College of Pharmacy  
PharmD, Creighton University, 1997

George A Edwards, Clinical Associate Professor  
College of Pharmacy  
MD, Baylor University, 1972

Elizabeth J Engel, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, University of Houston, 2011

Carlton K Erickson, Professor  
Pfizer Centennial Professorship in Pharmacy  
College of Pharmacy  
PhD, Purdue University Main Campus, 1965

Richard R Espinosa, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2001

Lisa E Farnett, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Texas Health Science Center at San Antonio, 1988

Roger P Farrar, Professor  
College of Pharmacy  
PhD, University of Massachusetts, 1976

Walter L Fast, Associate Professor  
College of Pharmacy  
PhD, Northwestern University, 1998

Kristin R Fiebelkorn, Adjunct Associate Professor  
College of Pharmacy  
MD, Johns Hopkins University, 1996

Jerry Fineg, Professor Emeritus  
College of Pharmacy

DVM, Texas A & M University, 1953

Susan M Fischer, Adjunct Professor  
College of Pharmacy  
PhD, University of Wyoming, 1974

Kentya C Ford, Assistant Professor  
College of Pharmacy  
DPH, University of Texas Health Science Center at Houston, 2005

Cynthia A Foslien, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Nebraska Medical Center, 1985

Ana Crystal Franco, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2007

Alan Frazer, Adjunct Professor  
College of Pharmacy  
PhD, Peninsula College, 1969

Christopher R Frei, Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2001

Conrado D Gamboa, Adjunct Assistant Professor  
College of Pharmacy  
BS, University of Texas at Austin, 1985

Anita A Garcia, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2002

David B Garcia, Adjunct Professor  
College of Pharmacy  
PhD, University of Texas at Austin, 1977

Stephanie Garrett, Clinical Assistant Professor  
College of Pharmacy  
PharmD, West Virginia University, 1997

Gavino A Garza, Clinical Instructor  
College of Pharmacy  
BS, University of Houston, 1981

Jodie S Gee, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Houston, 2009

Theresa M Gerst, Clinical Assistant Professor  
College of Pharmacy  
PharmD, Texas Tech University Health Sciences Center, 2007

Diane B Ginsburg, Clinical Professor  
College of Pharmacy  
MS, University of Houston, 1990

Paul J Godley, Clinical Associate Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 1984

Nishi S Goel, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2008

Cristina Gonzales, Instructor in Clinical Pharmacy  
College of Pharmacy

PharmD, Texas A & M University - Kingsville, 2011

Rueben A Gonzales, Professor  
Jacques P. Servier Regents Professorship in Pharmacy  
College of Pharmacy  
PhD, University of Texas at Austin, 1983

F Gonzalez-Lima, Professor  
George I. Sanchez Centennial Professorship in Liberal Arts  
College of Pharmacy  
PhD, University of Pr Medical Sciences, 1980

Andrea C Gore, Professor  
College of Pharmacy  
PhD, University of Wisconsin-Madison, 1990

Stephen J Gore, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Oklahoma Norman Campus, 1996

Roberta L Grant, Adjunct Assistant Professor  
College of Pharmacy  
PhD, University of Texas at Austin, 1995

Belinda K Green, Adjunct Assistant Professor  
College of Pharmacy  
BS, University of Texas at Austin, 1990

Veronica I Guerra, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2011

Thomas D Guidry, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 1982

Catherine S Hall, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 1999

Reed C Hall, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, Midwestern University, 2007

R A Harris, Professor  
M. June and J. Virgil Waggoner Chair in Molecular Biology  
College of Pharmacy  
PhD, University of North Carolina at Chapel Hill, 1973

Daniel R Hernandez, Clinical Instructor  
College of Pharmacy  
BS, University of Texas at Austin, 1992

Jon D Herrington, Adjunct Associate Professor  
College of Pharmacy  
PharmD, Saint Louis College of Pharmacy, 1992

Russell A Higgins, Adjunct Assistant Professor  
College of Pharmacy  
MD, University of New Mexico Main Campus, 2002

Tuyen K Ho, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2002

Prudence O Hofmann, Adjunct Assistant Professor  
College of Pharmacy

PharmD, University of Texas at Austin, 2008

Eugene P Holder, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 1994

Collin A Hovinga, Clinical Associate Professor  
College of Pharmacy  
PharmD, Creighton University, 1997

John K Huang, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2003

Darrel W Hughes, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2006

Barry L Hull, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Southern California, 1983

Stephen D Hursting, Professor  
Margaret McKean Love Chair in Nutrition, Cellular and Molecular  
Sciences  
College of Pharmacy  
PhD, University of North Carolina at Chapel Hill, 1992

Robert G Huth, Clinical Assistant Professor  
College of Pharmacy  
MD, George Washington University, 1986

Kandi K Icenhower, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, University of Houston, 2010

Delaney R Ivy, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, University of Texas at Austin, 2010

John L Ivy, Professor  
Teresa Lozano Long Endowed Chair in Kinesiology and Health  
Education  
College of Pharmacy  
PhD, University of Maryland College Park, 1976

Susana James, Adjunct Assistant Professor  
College of Pharmacy  
MFA, University of Texas at El Paso, 1998

Julia A Janich, Clinical Instructor  
College of Pharmacy  
PhD, University of Texas at Austin, 2002

Theresa C Jaso, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2001

David G Johnson, Adjunct Associate Professor  
College of Pharmacy  
PhD, University of Texas Southwestern Medical Center at Dallas, 1991

Melissa A Johnson, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 1997

Vivian B Johnson, Clinical Assistant Professor  
College of Pharmacy

PhD, Mercer U Sthn School Phar, 1983

Jason R Jokerst, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Nebraska Medical Center, 2005

Sharon A Jung, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Texas Health Science Center at San Antonio, 1995

James A Karboski, Clinical Associate Professor  
College of Pharmacy  
PharmD, University of Texas at San Antonio, 1988

Nicole R Keller, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Tennessee, 2005

Dean L Kellogg, Adjunct Professor  
College of Pharmacy  
PhD, University of Texas Health Science Center at San Antonio, 1989

Jackson M Kelly, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, University of New Mexico Main Campus, 2011

Monte A Kenaston, Adjunct Assistant Professor  
College of Pharmacy  
PhD, University of Texas at Austin, 2010

Sean M Kerwin, Associate Professor  
College of Pharmacy  
PhD, University of California-Berkeley, 1989

Marcia L Kiger, Clinical Instructor  
College of Pharmacy  
BS, University of Texas at Austin, 1982

Kaoru Kiguchi, Research Professor (Affiliated)  
College of Pharmacy  
MD, Jikei University School of Medicine, 1974

Christine K Kim, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, University of Houston, 2011

Lisa H Kim, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, University of North Carolina at Chapel Hill, 2011

William A Klein, Clinical Instructor  
College of Pharmacy  
BS, University of Louisiana at Monroe, 1970

Kristina J Klein-Bradham, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2004

Kimberly Kline, Professor  
Julian C. Barton Professorship in Nutrition  
College of Pharmacy  
PhD, University of Texas at Austin, 1985

Jodi M Klocek, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Mississippi, 1996

William A Kloesel, Distinguished Senior Lecturer  
College of Pharmacy  
BS, University of Texas at Austin, 1962

Leroy C Knodel, Clinical Professor  
College of Pharmacy  
PharmD, University of Kentucky, 1980

Jim M Koeller, Professor  
College of Pharmacy  
MS, University of Wisconsin-Madison, 1980

John J Koleng, Adjunct Assistant Professor  
College of Pharmacy  
PhD, University of Texas at Austin, 2002

Lori Krustchinsky, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, University of Houston, 2011

John G Kuhn, Professor Emeritus  
College of Pharmacy  
PharmD, University of Texas Health Science Center at San Antonio, 1977

Phillip H Lai, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2007

Yui-Wing F Lam, Clinical Associate Professor  
College of Pharmacy  
PharmD, University of Minnesota-Twin Cities, 1984

Kenneth A Lawson, Professor  
College of Pharmacy  
PhD, University of Texas at Austin, 1992

Leon Lee, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Kentucky, 1996

Seongmin Lee, Assistant Professor  
College of Pharmacy  
PhD, Purdue University Main Campus, 2004

Yunkyung Lee, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, University of Rhode Island, 2011

Steven W Leslie, Professor  
James E. Bauerle Centennial Professorship in Drug Dynamics  
College of Pharmacy  
PhD, Purdue University Main Campus, 1974

Mitchell R Lestico, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Wisconsin-Madison, 1992

James S Lewis, Clinical Assistant Professor  
College of Pharmacy  
PhD, Washington State University, 1997

John H Littlefield, Clinical Assistant Professor  
College of Pharmacy  
PhD, University of Texas at Austin, 1975

Louis C Littlefield, Professor Emeritus  
College of Pharmacy

PharmD, University of Southern California, 1967

Hung-Wen Liu, Professor  
George H. Hitchings Regents Chair in Drug Design  
College of Pharmacy  
PhD, Columbia University in the City of New York, 1981

Debra A Lopez, Clinical Associate Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 1999

Amanda M Loya, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2003

Stephen Philip Lozano, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, University of Texas at Austin, 2011

Charlotte A Luebbert, Clinical Assistant Professor  
College of Pharmacy  
PharmD, Creighton University, 1995

Cindy Luu, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2008

Michael C Macleod, Adjunct Professor  
College of Pharmacy  
PhD, University of Oregon, 1974

Christopher P Martin, Clinical Assistant Professor  
College of Pharmacy  
PharmD, Texas Tech University Health Sciences Center, 2003

Emory S Martin, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of California-San Francisco, 1984

Brigetta R Martinez, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Houston, 2007

Cynthia A Mascarenas, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2001

Brian Masek, Adjunct Professor  
College of Pharmacy  
PhD, California Institute of Technology, 1987

Pamela R Maxwell, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 1994

Theresa A Mays Hutchings, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Oklahoma Health Sciences Center, 1994

Jason T McConville, Assistant Professor  
College of Pharmacy  
PhD, University of Strathclyde, 2002

James W McGinity, Professor  
Johnson & Johnson Centennial Chair in Pharmacy  
College of Pharmacy  
PhD, University of Iowa, 1972

William J McIntyre, Clinical Professor  
College of Pharmacy  
PharmD, Wayne State University, 1988

Megan A McKee, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Arizona, 2008

Nicole L McMaster, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Missouri - Kansas City, 2002

Mina Mehvar, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, University of Texas at Austin, 2010

April Ann Messett, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2007

Lisa M Mican, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2000

S J Mihic, Associate Professor  
College of Pharmacy  
PhD, University of Toronto, 1992

Lysbeth W Miller, Clinical Assistant Professor  
College of Pharmacy  
MD, University of Texas Health Science Center at San Antonio, 1979

Edward M Mills, Associate Professor  
College of Pharmacy  
PhD, Purdue University Main Campus, 1997

Deirdre M Monroe, Clinical Assistant Professor  
College of Pharmacy  
PhD, University of Texas at Austin, 2003

Karen E Moody, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2000

Eugene Moore, Clinical Assistant Professor  
College of Pharmacy  
PharmD, Southeastern University, 1992

Tera D Moore, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of New Mexico Main Campus, 2003

Troy A Moore, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of New Mexico Main Campus, 2003

Vanessa K Morales, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2004

Clarissa Moreno, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, Texas Tech University Health Sciences Center, 2003

Richard A Morrisett, Professor  
College of Pharmacy  
PhD, University of Alabama at Birmingham, 1986

Jacquelyn Padilla Navarrete, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2009

Jenny S Ngo, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2008

Thanh hao T Ngo, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Oklahoma Health Sciences Center, 2003

Suzanne Novak, Clinical Assistant Professor  
College of Pharmacy  
PhD, University of Texas at Austin, 2005

Dannielle C O'Donnell, Clinical Assistant Professor  
College of Pharmacy  
PharmD, Rutgers the State University of New Jersey Camden Campus, 1993

John T O'Neill, Adjunct Assistant Professor  
College of Pharmacy  
Diploma (High School), , 1951

Elizabeth A Oates, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, University of Texas at Austin, 2010

Theresa Onukaogu, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, Roseman University of Health Sciences, 2011

Ian W Pace, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 1999

Margie E Padilla, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2005

Neil C Pan, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2005

Deepali S Parikh, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Pittsburgh, Pittsburgh Campus, 1999

Wayne R Patterson, Adjunct Associate Professor  
College of Pharmacy  
PhD, Michigan State University, East Lansing, 1986

Liza J Paul, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Florida, 2004

Heather A Payton, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, Saint Louis College of Pharmacy, 2010

Robert Pearlman, Professor Emeritus  
College of Pharmacy  
PhD, University of Michigan-Ann Arbor, 1975

Jodie L Pepin, Clinical Assistant Professor  
College of Pharmacy

PharmD, University of Texas at Austin, 2001

Nikolaos A Peppas, Professor  
Fletcher Stuckey Pratt Chair in Engineering, Cockrell Family Chair for Departmental Leadership #1  
College of Pharmacy  
ScD, Massachusetts Institute of Technology, 1973

Elizabeth F Perz, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 1995

Jay I Peters, Adjunct Professor  
College of Pharmacy  
MD, Baylor College of Medicine, 1977

Patrick S Pevoto, Clinical Assistant Professor  
College of Pharmacy  
MD, University of Texas Medical Branch, 1983

Robert N Pinckard, Adjunct Professor  
College of Pharmacy  
PhD, University of Edinburgh, 1967

Gloria Sosa Pinto, Adjunct Assistant Professor  
College of Pharmacy  
MA, University of Texas - Pan American, 1996

Igor Ponomarev, Research Assistant Professor (Affiliated)  
College of Pharmacy  
PhD, Oregon Health and Science University, 2002

Nathan D Pope, Clinical Assistant Professor  
College of Pharmacy  
PharmD, Rutgers the State University of New Jersey New Brunswick Campus, 2002

Roger P Potyk, Clinical Assistant Professor  
College of Pharmacy  
PhD, University of Texas at Austin, 1989

Tiffany A Putsche, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, University of Texas at Austin, 2011

Gabriel J Quintanilla, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2002

Joelle E Radosevich, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, Midwestern University, 2011

Debra D Ramirez, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, University of Texas at Austin, 2011

Isidro Ramirez, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2003

Karen L Rascati, Professor  
Stewart Turley/Eckerd Corporation Centennial Endowed Professorship in Pharmacy  
College of Pharmacy  
PhD, University of Florida, 1986

Kristin C Reed, Adjunct Assistant Professor

College of Pharmacy  
PharmD, Auburn University, 2007

Robert T Reilly, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Utah, 1984

Ann L Richards, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Nebraska Medical Center, 1981

Joanne F Richards, Senior Lecturer  
College of Pharmacy  
PhD, Iowa State University, 1975

John H Richburg, Professor  
College of Pharmacy  
PhD, Rutgers the State University of New Jersey Camden Campus,  
1993

Anne E Rider, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, The University of Montana, 2011

Jennifer L Ridings-Myhra, Clinical Associate Professor  
College of Pharmacy  
BS, University of Texas at Austin, 1978

Jose O Rivera, Clinical Professor  
College of Pharmacy  
PharmD, University of Kentucky, 1979

Rochelle Mendiola Roberts, Lecturer  
College of Pharmacy  
PhD, University of Texas at Austin, 2008

Carrie E Rogers, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2008

Susan J Rogers, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Michigan-Ann Arbor, 1975

Rebecca A Rottman, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Southern California, 2003

John W Rudder, Clinical Instructor  
College of Pharmacy  
BS, University of Texas at Austin, 1983

Veronica C Rudder, Clinical Instructor  
College of Pharmacy  
BD, University of Texas at Austin, 1983

Andres D Ruiz, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2008

Augustus J Rush, Adjunct Professor  
College of Pharmacy  
MD, Columbia University in the City of New York, 1968

Sharon K Rush, Clinical Assistant Professor  
College of Pharmacy  
BS, University of Texas at Austin, 1986

Laurajo Ryan, Clinical Associate Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2000

Paula G Rychlik, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2005

Stephen R Saklad, Clinical Associate Professor  
College of Pharmacy  
PharmD, University of Southern California, 1978

Amista L Salcido, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Arizona, 1998

Bob G Sanders, Professor  
College of Pharmacy  
PhD, Penn State University Park, 1961

Rosa N Schnyer, Clinical Assistant Professor  
College of Pharmacy  
DAOM, Oregon College of Oriental Medicine, 2008

Jennifer K Seltzer, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Texas Health Science Center at San Antonio,  
1984

Thomas C Shank, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Tennessee Health Science Center, 1983

William P Sharp, Adjunct Assistant Professor  
College of Pharmacy  
BS, University of Texas at Austin, 1976

Marvin D Shepherd, Professor  
Clifford L. Klinck, Jr. Centennial Professorship in Pharmacy  
Administration  
College of Pharmacy  
PhD, Purdue University Main Campus, 1980

Jeri J Sias, Clinical Associate Professor  
College of Pharmacy  
PharmD, University of Kansas Main Campus, 1998

Leslie R Simien, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, University of California-San Francisco, 2011

Adam Steven Smith, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, University of Nebraska at Omaha, 2011

Ashley G Smith, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Louisiana at Monroe, 2008

Hugh D Smyth, Associate Professor  
College of Pharmacy  
PhD, University of Otago, 2000

Morgan Camille Tunnell Snyder, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, University of Kentucky, 2010

Rose Sohraby, Instructor in Clinical Pharmacy

College of Pharmacy  
PharmD, University of Missouri - Kansas City, 2011

Sara L Solis, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, University of Texas at Austin, 2011

Jasmine N Spittles, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, University of Kansas Main Campus, 2011

Maaya Srinivasa, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, Texas A & M University - Kingsville, 2011

Salomon A Stavchansky, Professor  
Alcon Centennial Professorship in Pharmacy  
College of Pharmacy  
PhD, University of Kentucky, 1974

Daniel J Still, Clinical Assistant Professor  
College of Pharmacy  
PharmD, Creighton University, 1993

Scott A Strassels, Assistant Professor  
College of Pharmacy  
PhD, University of Washington - Seattle, 2005

Kimberly K Summers, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Missouri - Kansas City, 1995

Patricia A Tabor, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 1983

Sharla K Tajchman, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, Rutgers the State University of New Jersey Camden  
Campus, 2007

Robert L Talbert, Professor  
Smithkline Centennial Professorship in Pharmacy  
College of Pharmacy  
PharmD, University of Kentucky, 1974

Dean G Tang, Adjunct Associate Professor  
College of Pharmacy  
PhD, Wayne State University, 1994

Jodi L Taraba, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, Drake University, 2001

Yasar O Tasnif, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2002

Holli L Temple, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 1999

Derek Justin Templet, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, University of Texas at Austin, 2011

Diamond I Thomas, Instructor in Clinical Pharmacy  
College of Pharmacy

PharmD, Xavier University of Louisiana, 2011

Shana K Trice, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 1997

Curtis L Triplitt, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 1995

Rebecca G Twombly, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of North Carolina at Chapel Hill, 2001

Brandon G Utter, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, University of Kansas Main Campus, 2011

Kenneth J Utz, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Oklahoma Health Sciences Center, 2006

Carla L Vandenberg, Associate Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 1991

Karen Marie Vasquez, Professor  
College of Pharmacy  
PhD, Baylor College of Medicine, 1996

Susie A Vasquez, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 1997

Rene A Verduzco, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, University of Texas at Austin, 2011

John F Villanacci, Adjunct Associate Professor  
College of Pharmacy  
PhD, University of Michigan-Ann Arbor, 1983

Sarah M Villarreal, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, Texas Tech University Health Sciences Center, 2010

Leticia R Villela, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2003

Kristie A Vinklerek, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2001

Cheryl L Walker, Adjunct Professor  
College of Pharmacy  
PhD, Tex Hlth Sci C Dallas, U, 1984

Janet C Walkow, Clinical Associate Professor  
College of Pharmacy  
PhD, University of Texas at Austin, 1982

Charles A Walton, Professor Emeritus  
College of Pharmacy  
PhD, Purdue University Main Campus, 1956

Guliang Wang, Research Assistant Professor (Affiliated)  
College of Pharmacy

PhD, Zhejiang University, 2002

Katherine K Wang, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, Texas A & M University - Kingsville, 2011

Alan Bayard Watts, Adjunct Assistant Professor  
College of Pharmacy  
PhD, University of Texas at Austin, 2009

Christian P Whitman, Professor  
Romeo T. Bachand, Jr. Regents Professorship in Pharmacy  
College of Pharmacy  
PhD, University of California-San Francisco, 1984

Nathan P Wiederhold, Associate Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2000

Richard E Wilcox, Professor  
College of Pharmacy  
PhD, Southern Illinois University Carbondale, 1976

Robert O Williams, Professor  
Johnson & Johnson Centennial Professorship in Pharmacy  
College of Pharmacy  
PhD, University of Texas at Austin, 1986

James P Wilson, Associate Professor  
College of Pharmacy  
PhD, Purdue University Main Campus, 1986

Holly N Winkler, Clinical Instructor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2006

Stewart R Wirebaugh, Clinical Assistant Professor  
College of Pharmacy  
PharmD, University of Illinois at Urbana-Champaign, 1987

Mark J Wong, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2004

Billy W Woodward, Clinical Associate Professor  
College of Pharmacy  
BS, University of Texas at Austin, 1963

Consuelo M Worley, Clinical Assistant Professor  
College of Pharmacy  
MS, University of Texas at Austin, 2002

Casey W Wright, Assistant Professor  
College of Pharmacy  
PhD, Kansas State University, 2003

Chanin C Wright, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2001

Robert Wright, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 1996

Bin Xiao, Instructor in Clinical Pharmacy  
College of Pharmacy  
PharmD, University of Texas at Austin, 2011

Weiling Yin, Clinical Instructor  
College of Pharmacy  
PhD, University of Texas at Austin, 2008

Veronica S Young, Clinical Assistant Professor  
College of Pharmacy  
PharmD, Creighton University, 1993

Stephanie Rose Younts, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Texas at Austin, 2005

Edward M Zastawny, Adjunct Assistant Professor  
College of Pharmacy  
PharmD, University of Texas Health Science Center at San Antonio,  
1991

## Lyndon B. Johnson School of Public Affairs Faculty

Jacqueline L Angel, Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, Rutgers the State University of New Jersey New Brunswick  
Campus, 1989

Robert D Auerbach, Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, University of Chicago, 1969

Kevin M Bacon, Adjunct Professor  
Lyndon B. Johnson School of Public Affairs  
MS, London School of Economics and Political Science, 1978

Terrell Blodgett, Professor Emeritus  
Lyndon B. Johnson School of Public Affairs  
MS, Syracuse University Main Campus, 1947

Leigh B Boske, Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, University of Pittsburgh, Pittsburgh Campus, 1973

Joshua W Busby, Assistant Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, Georgetown University, 2004

Jennifer Lynne Bussell, Assistant Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, University of California-Berkeley, 2009

Benedicte Callan, Lecturer  
Lyndon B. Johnson School of Public Affairs  
PhD, University of California-Berkeley, 1995

Katherine Canales, Adjunct Assistant Professor  
Lyndon B. Johnson School of Public Affairs  
BS, Stanford University, 2001

Michael E Conroy, Adjunct Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, University of Illinois at Urbana-Champaign, 1972

Michele Y Deitch, Senior Lecturer  
Lyndon B. Johnson School of Public Affairs

JD, Harvard University, 1986

Edwin Dorn, Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, Yale University, 1978

David J Eaton, Professor  
Bess Harris Jones Centennial Professorship in Natural Resource  
Policy Studies  
Lyndon B. Johnson School of Public Affairs  
PhD, Johns Hopkins University, 1977

Sarah Eckhardt, Adjunct Professor  
Lyndon B. Johnson School of Public Affairs  
JD, University of Texas at Austin, 1998

Sheldon Ekland-Olson, Professor  
Amy Johnson McLaughlin Administrative Chair in Human Ecology,  
Rapoport Centennial Professorship of Liberal Arts  
Lyndon B. Johnson School of Public Affairs  
PhD, University of Washington - Seattle, 1971

Angela Maria Evans, Clinical Professor  
Lyndon B. Johnson School of Public Affairs  
MA, University of Wisconsin-Madison, 1971

Kenneth Flamm, Professor  
Dean Rusk Chair in the Lyndon Baines Johnson School of Public  
Affairs  
Lyndon B. Johnson School of Public Affairs  
PhD, Massachusetts Institute of Technology, 1979

Matthew Flynn, Lecturer  
Lyndon B. Johnson School of Public Affairs  
PhD, University of Texas at Austin, 2010

Peter J Frumkin, Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, University of Chicago, 1997

James K Galbraith, Professor  
Lloyd M. Bentsen, Jr. Chair in Government/Business Relations  
Lyndon B. Johnson School of Public Affairs  
PhD, Yale University, 1981

Shama Gamkhar, Associate Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, University of Maryland College Park, 1996

Francis J Gavin, Associate Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, University of Pennsylvania, 1997

Charles E Gholz, Associate Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, Massachusetts Institute of Technology, 2000

Kenneth L Gladish, Adjunct Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, University of Virginia, 1985

Michael H Granof, Professor  
Ernst & Young Distinguished Centennial Professorship of Accounting  
Lyndon B. Johnson School of Public Affairs  
PhD, University of Michigan-Ann Arbor, 1972

Sherri R Greenberg, Lecturer

Lyndon B. Johnson School of Public Affairs  
MSc, University of London, 1981

Charles G Groat, Professor  
John A. and Katherine G. Jackson Chair in Energy and Mineral  
Resources  
Lyndon B. Johnson School of Public Affairs  
PhD, University of Texas at Austin, 1970

Dagmar S Hamilton, Professor Emeritus  
Lyndon B. Johnson School of Public Affairs  
JD, American University in Cairo, 1961

Carolyn Heinrich, Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, University of Chicago, 1995

Jefferson D Howell, Adjunct Professor  
Lyndon B. Johnson School of Public Affairs  
MA, University of Texas at Austin, 1970

Robert L Hutchings, Professor  
J. J. "Jake" Pickle Regents Chair in Public Affairs  
Lyndon B. Johnson School of Public Affairs  
PhD, University of Virginia, 1979

Alejandro Ibarra, Visiting Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, Instituto Tecnológico y de Estudios Superiores de Monterrey,  
1998

William Inboden, Assistant Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, Yale University, 2003

Bobby R Inman, Professor  
Lyndon B. Johnson Centennial Chair in National Policy  
Lyndon B. Johnson School of Public Affairs  
BA, University of Texas at Austin, 1950

Bryan Davidson Jones, Professor  
J. J. "Jake" Pickle Regents Chair in Congressional Studies  
Lyndon B. Johnson School of Public Affairs  
PhD, University of Texas at Austin, 1970

Ethan B Kapstein, Professor  
Dennis O'Connor Regents Professorship in Business  
Lyndon B. Johnson School of Public Affairs  
PhD, Tufts University, 1986

Christopher T King, Lecturer  
Lyndon B. Johnson School of Public Affairs  
PhD, Michigan State University, East Lansing, 1976

Meeta Kothare, Adjunct Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, University of Rochester, 1992

Alan J Kuperman, Associate Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, Massachusetts Institute of Technology, 2002

Jane Lincove, Assistant Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, University of Southern California, 2005

Leigh L Linden, Assistant Professor

Lyndon B. Johnson School of Public Affairs  
PhD, Massachusetts Institute of Technology, 2004

Laurence E Lynn, Research Professor (Affiliated)  
Lyndon B. Johnson School of Public Affairs  
PhD, Yale University, 1966

Hans M Mark, Professor  
John J. McKetta Centennial Energy Chair in Engineering  
Lyndon B. Johnson School of Public Affairs  
PhD, Massachusetts Institute of Technology, 1954

F R Marshall, Professor Emeritus  
Audre and Bernard Rapoport Centennial Chair in Economics and  
Public Affairs  
Lyndon B. Johnson School of Public Affairs  
PhD, University of California-Berkeley, 1954

Kenneth M Matwiczak, Senior Lecturer  
Lyndon B. Johnson School of Public Affairs  
PhD, Texas A & M University, 1990

Mary K McCaston, Adjunct Assistant Professor  
Lyndon B. Johnson School of Public Affairs  
MA, University of Arizona, 1991

Ronald Keith McMullen, Visiting Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, University of Iowa, 1985

Cynthia Osborne Blaha, Associate Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, Princeton University, 2003

Francie Ostrower, Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, Yale University, 1991

Miguel A Pavon, Adjunct Professor  
Lyndon B. Johnson School of Public Affairs  
MS, Instituto Tecnológico y de Estudios Superiores de Monterrey,  
1995

Howard T Prince, Clinical Professor  
Loyd Hackler Endowed Chair in Ethical Leadership  
Lyndon B. Johnson School of Public Affairs  
PhD, University of Texas at Austin, 1975

Varun Rai, Assistant Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, Stanford University, 2008

Lorinc Redei, Adjunct Assistant Professor  
Lyndon B. Johnson School of Public Affairs  
MA, Georgetown University, 2003

Sarah Jane Rehnberg, Lecturer  
Lyndon B. Johnson School of Public Affairs  
PhD, University of Pittsburgh, Pittsburgh Campus, 1983

Lodis Rhodes, Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, University of Nebraska - Lincoln, 1972

Victoria Rodriguez, Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, University of California-Berkeley, 1987

William Paul Ruger, Adjunct Assistant Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, Brandeis University, 2003

Jurgen Schmandt, Professor Emeritus  
Lyndon B. Johnson School of Public Affairs  
PhD, University of Bonn, 1956

Richard L Schott, Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, Syracuse University Main Campus, 1972

Max Sherman, Professor Emeritus  
Lyndon B. Johnson School of Public Affairs  
JD, University of Texas at Austin, 1960

Evan A Smith, Lecturer  
Lyndon B. Johnson School of Public Affairs  
MA, Northwestern University, 1988

Niyanta P Spelman, Adjunct Assistant Professor  
Lyndon B. Johnson School of Public Affairs  
MPAff, University of Texas at Austin, 1994

William G Spelman, Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, Harvard University, 1988

Paul J Stekler, Professor  
Wofford Denius Chair in Entertainment Studies  
Lyndon B. Johnson School of Public Affairs  
PhD, Harvard University, 1983

Chandler W Stolp, Associate Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, Carnegie Mellon University, 1982

Jeremi Suri, Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, Yale University, 2001

Kenneth W Tolo, Professor Emeritus  
Lyndon B. Johnson School of Public Affairs  
PhD, University of Nebraska - Lincoln, 1968

Philip U Treisman, Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, University of California-Berkeley, 1985

Paul Von hippel, Assistant Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, The Ohio State University Main Campus, 2010

Charles M Walton, Professor  
Ernest H. Cockrell Centennial Chair in Engineering  
Lyndon B. Johnson School of Public Affairs  
PhD, North Carolina State University, 1971

Peter Ward, Professor  
C. B. Smith, Sr. Centennial Chair in United States-Mexico Relations #4  
Lyndon B. Johnson School of Public Affairs  
PhD, University of Liverpool, 1976

David C Warner, Professor  
Wilbur J. Cohen Professorship in Health and Social Policy  
Lyndon B. Johnson School of Public Affairs  
PhD, Syracuse University Main Campus, 1969

Ruth Ellen Wasem, Adjunct Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, University of Michigan-Ann Arbor, 1990

Catherine Elizabeth Weaver, Associate Professor  
Tom Slick Memorial Trust for the University of Texas at Austin  
Lyndon B. Johnson School of Public Affairs  
PhD, University of Wisconsin-Madison, 2003

Sidney Weintraub, Professor Emeritus  
Lyndon B. Johnson School of Public Affairs  
PhD, American University, 1966

Robert H Wilson, Professor  
Mike Hogg Professorship of Urban Policy  
Lyndon B. Johnson School of Public Affairs  
PhD, University of Pennsylvania, 1979

Patrick P Wong, Associate Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, University of Wisconsin-Madison, 1988

Jay W Zarnikau, Adjunct Professor  
Lyndon B. Johnson School of Public Affairs  
PhD, University of Texas at Austin, 1990

## School of Social Work Faculty

Marian A Aguilar, Lecturer  
School of Social Work  
PhD, University of Illinois at Urbana-Champaign, 1983

Barbara S Anderson, Clinical Associate Professor  
School of Social Work  
MSSW, University of Texas at Austin, 1974

Kathleen F Armenta, Clinical Associate Professor  
School of Social Work  
MSW, University of Arizona, 1973

Marilyn Armour, Associate Professor  
School of Social Work  
PhD, University of Minnesota-Twin Cities, 2000

Norton L Armour, Lecturer  
School of Social Work  
JD, University of Michigan-Ann Arbor, 1955

Margaret M Bassett, Lecturer  
School of Social Work  
MS, Northern Illinois University, 1990

Holly J Bell, Lecturer  
School of Social Work  
PhD, University of Texas at Austin, 1999

## A

ABET Criteria in the Cockrell School of Engineering .....	156
Academic Advising .....	17
Academic Advising, Cockrell School of Engineering .....	147
Academic Advising, College of Communication .....	75
Academic Advising, College of Education .....	120
Academic Advising, College of Fine Arts .....	221
Academic Advising, College of Liberal Arts .....	283
Academic Advising, College of Natural Sciences .....	477
Academic Advising, College of Pharmacy .....	588
Academic Advising, for the Health Professions .....	16
Academic Advising, John A. and Katherine G. Jackson School of Geosciences .....	265
Academic Advising, Red McCombs School of Business .....	46
Academic Advising, School of Architecture .....	31
Academic Advising, School of Nursing .....	577
Academic Advising, School of Social Work .....	618
Academic Affairs .....	10
Academic Policies and Procedures, Cockrell School of Engineering .	151
Academic Policies and Procedures, College of Communication .....	76
Academic Policies and Procedures, College of Education .....	121
Academic Policies and Procedures, College of Fine Arts .....	223
Academic Policies and Procedures, College of Liberal Arts .....	284
Academic Policies and Procedures, College of Natural Sciences ....	480
Academic Policies and Procedures, College of Pharmacy .....	593
Academic Policies and Procedures, John A. and Katherine G. Jackson School of Geosciences .....	266
Academic Policies and Procedures, Red McCombs School of Business .....	49
Academic Policies and Procedures, School of Architecture .....	33
Academic Policies and Procedures, School of Nursing .....	578
Academic Policies and Procedures, School of Social Work .....	620
Academic Policies and Procedures, School of Undergraduate Studies	21
Academic Standards in the Cockrell School of Engineering .....	152
Academic Standards in the College of Fine Arts .....	223
Academic Standards in the College of Natural Sciences .....	480
Academic Standards in the College of Pharmacy .....	593
Academic Standards in the School of Architecture .....	33
Accounting, Bachelor of Business Administration in .....	53
Accounting, Courses in .....	60
Accreditation in the College of Pharmacy .....	586
Accreditation in the School of Architecture .....	30
Accreditation in the School of Social Work .....	616
Accreditation of the Bachelor of Science in Nursing .....	581
Accreditation of the Didactic and Coordinated Programs in Dietetics .	513
Accreditation, of the University .....	10
Actuarial Science Option (BSMath) .....	509
Admission and Registration, College of Natural Sciences .....	478
Admission and Registration, School of Undergraduate Studies .....	21
Admission in the Cockrell School of Engineering .....	149
Admission in the College of Communication .....	76
Admission in the College of Education .....	121
Admission in the College of Fine Arts .....	221
Admission in the College of Liberal Arts .....	284
Admission in the College of Pharmacy .....	591
Admission in the John A. and Katherine G. Jackson School of Geosciences .....	265
Admission in the Red McCombs School of Business .....	48
Admission in the School of Architecture .....	32
Admission in the School of Nursing .....	577
Admission in the School of Social Work .....	618
Admission Policies of the College in the College of Natural Sciences	478
Admission to the BBA/MPA Program .....	53
Advertising, Bachelor of Science in .....	81
Advertising, Courses in .....	93
Aerospace Engineering and Engineering Mechanics, Courses in ....	189
Aerospace Engineering, Bachelor of Science in .....	158
African and African Diaspora Studies, Bachelor of Arts (Plan I) in ....	297
African and African Diaspora Studies, Courses in .....	317
Air Force Science ROTC, Courses in .....	448
All-Level Teacher Certification .....	128
American Sign Language, Courses in .....	416
American Studies, Bachelor of Arts (Plan I) in .....	298
American Studies, Courses in .....	323
Américo Paredes Center for Cultural Studies .....	354
Ancient History and Classical Civilization, Bachelor of Arts (Plan I) in	298
Anthropology, Bachelor of Arts (Plan I) in .....	298
Anthropology, Courses in .....	326
Apparel Design and Conservation Option (BSTA) .....	521

Applied Learning and Development, Bachelor of Science in .....	122
Applied Learning and Development, Courses in .....	129
Applied Mathematics Option (BSMath) .....	509
Applied Movement Science Major (BSKin&Health) .....	127
Applying for Graduation in the Cockrell School of Engineering .....	154
Applying for Graduation in the College of Communication .....	79
Applying for Graduation in the College of Education .....	121
Applying for Graduation in the College of Fine Arts .....	225
Applying for Graduation in the College of Natural Sciences .....	484
Applying for Graduation in the John A. and Katherine G. Jackson School of Geosciences .....	267
Applying for Graduation in the Red McCombs School of Business ....	50
Applying for Graduation in the School of Social Work .....	621
Applying to Professional School .....	16
Architectural Engineering, Bachelor of Science in .....	160
Architectural Studies, Bachelor of Science in .....	40
Architecture, Bachelor of .....	35
Architecture, School of .....	30
Architecture/Bachelor of Arts, Plan II Dual Degree Program, Bachelor of .....	38
Architecture/Bachelor of Science in Architectural Engineering Dual Degree Program, Bachelor of .....	37
Army ROTC .....	449
Art and Art History, Courses in .....	238
Art History Major .....	234
Art, Bachelor of Arts in .....	234
Arts and Sciences Education in the College of Liberal Arts .....	283
Arts and Sciences Education in the College of Natural Sciences ....	477
Asian American Studies, Bachelor of Arts (Plan I) in .....	298
Asian American Studies, Courses in .....	365
Asian Cultures and Languages, Bachelor of Arts (Plan I) in .....	299
Asian Studies, Bachelor of Arts (Plan I) in .....	299
Asian Studies, Courses in .....	332
Astronomy, Bachelor of Arts (Plan I) in .....	488
Astronomy, Bachelor of Science in .....	490
Astronomy, Courses in .....	524
Athletic Training, Bachelor of Science in .....	124
Attendance in Class and Laboratories in the College of Pharmacy ...	595
Attendance in the Cockrell School of Engineering .....	152
<b>B</b>	
Bachelor of Architecture .....	36

Bachelor of Architecture/Bachelor of Arts, Plan II Dual Degree Program, Suggested Arrangement of Courses .....	39
Bachelor of Architecture/Bachelor of Science in Architectural Engineering Dual Degree Program, Suggested Arrangement of Courses .....	37
Bachelor of Arts in Art .....	234
Bachelor of Arts in Music .....	236
Bachelor of Arts in Theatre and Dance .....	235
Bachelor of Arts, Plan I, College of Liberal Arts .....	296
Bachelor of Arts, Plan I, College of Natural Sciences .....	486
Bachelor of Arts, Plan II .....	309
Bachelor of Business Administration .....	53
Bachelor of Fine Arts .....	227
Bachelor of Journalism .....	86
Bachelor of Music .....	230
Basic Education Requirements in the School of Undergraduate Studies .....	21
BBA Degree Requirements in the Red McCombs School of Business ..	52
BBA in Science and Technology Management, Bachelor of Business Administration in .....	55
Biochemistry, Bachelor of Arts (Plan I) in .....	488
Biochemistry, Bachelor of Science in .....	491
Biological Sciences, Courses in .....	526
Biology, Bachelor of Arts (Plan I) in .....	488
Biology, Bachelor of Science in .....	493
Biomedical Engineering, Bachelor of Science in .....	163
Biomedical Engineering, Courses in .....	192
Board of Regents .....	7
Bridges to the Future Certificate Program .....	182
Bridging Disciplines Programs in the School of Undergraduate Studies .....	25
BSN for Registered Nurses .....	583
Business Administration .....	59
Business Administration, Courses in .....	59
Business Foundations Program .....	51
Business Honors Program, Bachelor of Business Administration in ...	54
Business, Government and Society, Courses in .....	64
<b>C</b>	
Career Services in the Cockrell School of Engineering .....	148
Career Services in the College of Communication .....	75
Career Services in the College of Education .....	120
Career Services in the College of Fine Arts .....	221

Career Services in the College of Liberal Arts .....	283
Career Services in the College of Natural Sciences .....	477
Career Services in the College of Pharmacy .....	588
Career Services in the Jackson School of Geosciences .....	265
Career Services in the McCombs School of Business .....	46
Career Services in the School of Social Work .....	618
Career Services in the School of Undergraduate Studies .....	24
Catalog Choice .....	20
Certificate in Computational Science and Engineering .....	15
Certificate in Computational Science and Engineering in the Cockrell School of Engineering .....	153
Certificate in Textile Conservation .....	485
Certificate Programs in the Red McCombs School of Business .....	50
Certification Requirements .....	128
Chemical Engineering, Bachelor of Science in .....	167
Chemical Engineering, Courses in .....	196
Chemistry and Biochemistry, Courses in .....	536
Chemistry, Bachelor of Arts (Plan I) in .....	489
Chemistry, Bachelor of Science in .....	497
Civil Engineering, Bachelor of Science in .....	171
Civil, Architectural, and Environmental Engineering, Courses in .....	199
Classical Archaeology, Bachelor of Arts (Plan I) in .....	300
Classics, Bachelor of Arts (Plan I) in .....	300
Classics, Courses in .....	346
Cockrell School of Engineering .....	146
Cockrell School of Engineering, Degree Programs in the .....	12
Cognitive Science, Courses in .....	352
College of Communication, Degree Programs in the .....	11
College of Education, Degree Programs in the .....	11
College of Fine Arts, Degree Programs in the .....	12
College of Liberal Arts, Degree Programs in the .....	12
College of Natural Sciences, Degree Programs in the .....	13
College of Pharmacy, Degree Programs in the .....	14
Communication Sciences and Disorders, Bachelor of Science in .....	83
Communication Sciences and Disorders, Courses in .....	99
Communication Studies, Bachelor of Science in .....	85
Communication Studies, Courses in .....	101
Communication, College of .....	75
Communication, Courses in .....	91
Comparative Literature, Courses in .....	352

Compliance Requirements for Clinical Courses in the School of Nursing .....	579
Composition Major .....	232
Computer Science, Bachelor of Arts (Plan I) in .....	489
Computer Science, Bachelor of Science in .....	500
Computer Science, Courses in .....	542
Concentrations and Certificates in the College of Communication .....	77
Concentrations in the College of Liberal Arts .....	295
Cooperative Engineering Education Program .....	149
Core Curriculum .....	22
Core Texts and Ideas, Courses in .....	353
Course Abbreviations .....	633
Courses in the School of Law .....	17
Courses, Cockrell School of Engineering .....	187
Courses, College of Communication .....	91
Courses, College of Education .....	128
Courses, College of Fine Arts .....	237
Courses, College of Liberal Arts .....	314
Courses, College of Natural Sciences .....	523
Courses, College of Pharmacy .....	599
Courses, John A. and Katherine G. Jackson School of Geosciences .....	273
Courses, Red McCombs School of Business .....	58
Courses, School of Architecture .....	41
Courses, School of Nursing .....	583
Courses, School of Social Work .....	624
Courses, School of Undergraduate Studies .....	27
Coursework in the Graduate School and the School of Law .....	17
Cultural Studies, Courses in .....	354
Curriculum and Instruction, Courses in .....	130

## D

Dance Major .....	229
Degree Audit in the Cockrell School of Engineering .....	154
Degree Audit in the College of Communication .....	79
Degree Audit in the College of Education .....	121
Degree Audit in the College of Fine Arts .....	225
Degree Audit in the College of Liberal Arts .....	292
Degree Audit in the College of Natural Sciences .....	483
Degree Audit in the Jackson School of Geosciences .....	266
Degree Audit in the Red McCombs School of Business .....	49
Degree Audit in the School of Architecture .....	34

Degree Audit in the School of Nursing .....	580
Degree Audit in the School of Social Work .....	621
Degrees and Programs , College of Fine Arts .....	226
Degrees and Programs, Cockrell School of Engineering .....	155
Degrees and Programs, College of Communication .....	80
Degrees and Programs, College of Liberal Arts .....	292
Degrees and Programs, College of Natural Sciences .....	484
Degrees and Programs, College of Pharmacy .....	596
Degrees and Programs, Red McCombs School of Business .....	50
Degrees and Programs, School of Architecture .....	34
Degrees and Programs, School of Nursing .....	581
Degrees and Programs, School of Social Work .....	621
Degrees in the John A. and Katherine G. Jackson School of Geosciences .....	267
Design Major .....	228
Directory of Offices .....	7
Division of Statistics and Scientific Computation .....	570
Doctor of Pharmacy .....	596

## E

Economics, Bachelor of Arts (Plan I) in .....	300
Economics, Courses in .....	355
Education, College of .....	120
Educational Psychology, Courses in .....	133
Electrical and Computer Engineering, Courses in .....	203
Electrical Engineering, Bachelor of Science in .....	173
Elements of Computing Program .....	484
Engineering Studies, Courses in .....	187
English, Bachelor of Arts (Plan I) in .....	301
English, Courses in .....	358
Environmental Science, Bachelor of Science in (Biological Sciences) 503 .....	503
Environmental Science, Bachelor of Science in (Geographical Sciences) .....	311
Environmental Science, Bachelor of Science in (Geological Sciences) .....	269
Equal Educational Opportunity Statement .....	10
Equipment and Supplies in the School of Architecture .....	33
Ethnic Studies, Bachelor of Arts (Plan I) in .....	301
European Studies, Bachelor of Arts (Plan I) in .....	301
European Studies, Courses in .....	369
Exercise Science Major (BSKin&Health) .....	126

## F

Facilities in the Cockrell School of Engineering .....	146
Facilities in the College of Communication .....	75
Facilities in the College of Education .....	120
Facilities in the College of Fine Arts .....	220
Facilities in the College of Pharmacy .....	587
Facilities in the Red McCombs School of Business .....	46
Facilities in the School of Architecture .....	30
Facilities in the School of Nursing .....	574
Facilities in the School of Social Work .....	617
Faculty, Cockrell School of Engineering .....	664
Faculty, College of Communication .....	648
Faculty, College of Education .....	655
Faculty, College of Fine Arts .....	679
Faculty, College of Liberal Arts .....	693
Faculty, College of Natural Sciences .....	729
Faculty, College of Pharmacy .....	757
Faculty, John A. and Katherine G. Jackson School of Geosciences ..	688
Faculty, Red McCombs School of Business .....	639
Faculty, School of Architecture .....	636
Faculty, School of Social Work .....	769
Finance, Bachelor of Business Administration in .....	55
Finance, Courses in .....	62
Financial Assistance Available through the College in the College of Communication .....	75
Financial Assistance Available through the College in the College of Education .....	120
Financial Assistance Available through the College in the College of Fine Arts .....	221
Financial Assistance Available through the College in the College of Liberal Arts .....	283
Financial Assistance Available through the College in the College of Natural Sciences .....	477
Financial Assistance Available through the College in the College of Pharmacy .....	588
Financial Assistance Available through the School in the Cockrell School of Engineering .....	147
Financial Assistance Available through the School in the John A. and Katherine G. Jackson School of Geosciences .....	265
Financial Assistance Available through the School in the Red McCombs School of Business .....	46
Financial Assistance Available through the School in the School of Architecture .....	31

Financial Assistance Available through the School in the School of Nursing .....	574
Financial Assistance Available through the School in the School of Social Work .....	617
Fine Arts, Bachelor of .....	227
Fine Arts, College of .....	220
Fine Arts, Courses in .....	237
First-Year Interest Groups in the School of Undergraduate Studies ...	25
Flag Requirements .....	24
French and Italian, Courses in .....	371
French, Bachelor of Arts (Plan I) in .....	302
<b>G</b>	
General Engineering, Courses In .....	188
General Geology Option (BSGeoSci) .....	270
General Information, Cockrell School of Engineering .....	146
General Information, College of Communication .....	75
General Information, College of Education .....	120
General Information, College of Fine Arts .....	220
General Information, College of Liberal Arts .....	283
General Information, College of Natural Sciences .....	477
General Information, College of Pharmacy .....	586
General Information, John A. and Katherine G. Jackson School of Geosciences .....	265
General Information, Red McCombs School of Business .....	46
General Information, School of Architecture .....	30
General Information, School of Nursing .....	574
General Information, School of Social Work .....	616
General Information, School of Undergraduate Studies .....	21
General Requirements in the College of Education .....	121
General Requirements, of the University .....	18
Geography and the Environment, Courses in .....	376
Geography, Bachelor of Arts (Plan I) in .....	302
Geological Sciences, Bachelor of Arts in .....	268
Geological Sciences, Bachelor of Science in .....	270
Geophysics Option (BSGeoSci) .....	271
Geosystems Engineering and Hydrogeology, Bachelor of Science in	272
Geosystems Engineering and Hydrogeology, Bachelor of Science in	179
German, Bachelor of Arts (Plan I) in .....	302
Germanic Studies, Courses in .....	382
Government, Bachelor of Arts (Plan I) in .....	303
Government, Courses in .....	390

Graduate Degrees in the College of Pharmacy .....	590
Graduate Work for Undergraduate Credit .....	17
Graduation Application Form in the School of Nursing .....	580
Graduation Ceremony .....	18
Graduation under a Particular Catalog .....	19
Graduation, Cockrell School of Engineering .....	154
Graduation, College of Communication .....	79
Graduation, College of Education .....	121
Graduation, College of Fine Arts .....	224
Graduation, College of Liberal Arts .....	292
Graduation, College of Natural Sciences .....	483
Graduation, College of Pharmacy .....	596
Graduation, John A. and Katherine G. Jackson School of Geosciences .....	266
Graduation, Red McCombs School of Business .....	49
Graduation, School of Architecture .....	33
Graduation, School of Nursing .....	580
Graduation, School of Social Work .....	621
<b>H</b>	
Harp Performance Major .....	231
History in the Cockrell School of Engineering .....	146
History in the College of Pharmacy .....	586
History in the Red McCombs School of Business .....	46
History in the School of Architecture .....	30
History in the School of Nursing .....	574
History in the School of Social Work .....	616
History, Bachelor of Arts (Plan I) in .....	303
History, Courses in .....	396
Honor Code .....	6
Honors .....	17
Honors in the Cockrell School of Engineering .....	153
Honors in the College of Communication .....	76
Honors in the College of Education .....	121
Honors in the College of Fine Arts .....	223
Honors in the College of Liberal Arts .....	284
Honors in the College of Natural Sciences .....	480
Honors in the College of Pharmacy .....	595
Honors in the John A. and Katherine G. Jackson School of Geosciences .....	266
Honors in the Red McCombs School of Business .....	49
Honors in the School of Architecture .....	33

Honors in the School of Nursing .....	579
Honors in the School of Social Work .....	620
Human Development and Family Sciences, Bachelor of Science in ..	505
Human Ecology, Bachelor of Arts (Plan I) in .....	489
Human Ecology, Courses in .....	548
Humanities, Bachelor of Arts (Plan I) in .....	303
Humanities, Courses in .....	408
Hydrogeology Option (BSGeoSci) .....	271

## I

Information Studies, Courses in .....	281
Information, Risk, and Operations Management, Courses in .....	66
Information, School of .....	281
Interdisciplinary Opportunities .....	14
Interdisciplinary Science, Bachelor of Science in .....	507
Interior Design, Bachelor of Science in .....	34
International Business, Bachelor of Business Administration in .....	57
International Relations and Global Studies, Bachelor of Arts (Plan I) in .....	304
International Relations and Global Studies, Courses in .....	409
Islamic Studies, Bachelor of Arts (Plan I) in .....	304
Italian, Bachelor of Arts (Plan I) in .....	304

## J

Jazz Composition Major .....	233
Jazz Performance Major .....	232
Jewish Studies, Bachelor of Arts (Plan I) in .....	305
Jewish Studies, Courses in .....	409
John A. and Katherine G. Jackson School of Geosciences .....	265
John A. and Katherine G. Jackson School of Geosciences, Degree Programs in the .....	12
Journalism, Bachelor of .....	86
Journalism, Courses in .....	105

## K

Kinesiology and Health Education, Courses in .....	135
Kinesiology and Health, Bachelor of Science in .....	125

## L

Latin American Studies, Bachelor of Arts (Plan I) in .....	305
Latin, Bachelor of Arts (Plan I) in .....	305
Leadership Development Program in the Red McCombs School of Business .....	47
Legal Requirements for Professional Practice in the College of Pharmacy .....	590
Liberal Arts Honors, Courses in .....	316

Liberal Arts, College of .....	283
Liberal Arts, Courses in .....	315
Liberal Education of Engineers in the Cockrell School of Engineering	156
Licensure as a Professional Nurse in the School of Nursing .....	581
Linguistics, Bachelor of Arts (Plan I) in .....	305
Linguistics, Courses in .....	416
Longhorn Scholars Program in the School of Undergraduate Studies	26
Lyndon B. Johnson School of Public Affairs .....	615

## M

Management Information Systems, Bachelor of Business Administration in .....	58
Management, Bachelor of Business Administration in .....	57
Management, Courses in .....	71
Marine Science, Courses in .....	557
Marketing, Bachelor of Business Administration in .....	58
Marketing, Courses in .....	72
Mathematical Sciences Option (BSMath) .....	509
Mathematics, Bachelor of Arts (Plan I) in .....	489
Mathematics, Bachelor of Science in .....	508
Mathematics, Courses in .....	559
Mechanical Engineering, Bachelor of Science in .....	181
Mechanical Engineering, Courses in .....	210
Medical Clearance Requirements in the College of Pharmacy .....	593
Medical Clearance Requirements in the School of Nursing .....	579
Medical Laboratory Science, Bachelor of Science in .....	511
Mexican American Studies, Bachelor of Arts (Plan I) in .....	305
Mexican American Studies, Courses in .....	366
Middle Eastern Languages and Cultures, Bachelor of Arts (Plan I) in	306
Middle Eastern Studies, Bachelor of Arts (Plan I) in .....	306
Middle Eastern Studies, Courses in .....	419
Middle Grades, Secondary, and All-Level Teacher Certification .....	128
Military Science, Courses in .....	449
Minor for American Studies Majors .....	298
Minor for Anthropology Majors .....	298
Minor for Asian Cultures and Languages Majors .....	299
Minor for Asian Studies Majors .....	300
Minor for Classics Majors .....	300
Minor for Economics Majors .....	301
Minor for English Majors .....	301
Minor for European Studies Majors .....	302

Minor for French Majors .....	302	Music Performance, Courses in .....	248
Minor for Geography Majors .....	302	Music Studies Major .....	233
Minor for German Majors .....	303	Music Studies, Courses in .....	249
Minor for Government Majors .....	303	Music Theory .....	249
Minor for History Majors .....	303	Music, Bachelor of .....	230
Minor for International Relations and Global Studies Majors .....	304	Music, Bachelor of Arts in .....	236
Minor for Islamic Studies Majors .....	304	<b>N</b>	
Minor for Italian Majors .....	305	Natural Sciences, College of .....	477
Minor for Jewish Studies Majors .....	305	Natural Sciences, Courses in .....	523
Minor for Latin Majors .....	305	Naval Science, Courses in .....	450
Minor for Linguistics Majors .....	305	Neuroscience, Bachelor of Science in .....	512
Minor for Middle Eastern Languages and Cultures Majors .....	306	Neuroscience, Courses in .....	566
Minor for Middle Eastern Studies Majors .....	306	Nursing, Bachelor of Science in .....	581
Minor for Philosophy Majors .....	306	Nursing, Courses in .....	583
Minor for Portuguese Majors .....	307	Nursing, School of .....	574
Minor for Psychology Majors .....	307	Nutrition, Bachelor of Science in .....	513
Minor for Religious Studies Majors .....	307	<b>O</b>	
Minor for Rhetoric and Writing Majors .....	307	Officers of the Administration .....	6
Minor for Russian, East European, and Eurasian Studies Majors .....	308	Orchestral Instrument Performance Major .....	231
Minor for Scandinavian Studies Majors .....	308	Organ or Harpsichord Performance Major .....	231
Minor for Sociology Majors .....	308	Organization of the University .....	10
Minor for Spanish Majors .....	308	<b>P</b>	
Minor for Urban Studies Majors .....	309	Petroleum and Geosystems Engineering, Courses in .....	217
Minor for Women's and Gender Studies Majors .....	309	Petroleum Engineering, Bachelor of Science in .....	185
Minor, in the School of Music .....	236	Pharmacy, College of .....	586
Mission in the Cockrell School of Engineering .....	146	Pharmacy, Courses in .....	599
Mission in the College of Communication .....	75	Philosophy, Bachelor of Arts (Plan I) in .....	306
Mission in the College of Education .....	120	Philosophy, Courses in .....	431
Mission in the College of Fine Arts .....	220	Physics, Bachelor of Arts (Plan I) in .....	490
Mission in the College of Pharmacy .....	586	Physics, Bachelor of Science in .....	516
Mission in the John A. and Katherine G. Jackson School of Geosciences .....	265	Physics, Courses in .....	566
Mission in the Red McCombs School of Business .....	46	Piano Performance Major .....	230
Mission in the School of Architecture .....	30	Plan II Honors Program .....	435
Mission in the School of Nursing .....	574	Portuguese, Bachelor of Arts (Plan I) in .....	306
Mission in the School of Social Work .....	616	Preparation for Health Professions .....	16
Mission in the School of Undergraduate Studies .....	21	Preparation for Law .....	16
Mission of the University .....	6	Preparation for Teacher Certification .....	16
Multiple Degrees .....	19	PROCEED (Project-Centered Education) .....	181
Music Literature, Courses in .....	249	Professional Liability Insurance in the College of Pharmacy .....	593
		Professional Liability Insurance in the School of Social Work .....	618

Programs and Centers, School of Undergraduate Studies .....	24
Programs in the John A. and Katherine G. Jackson School of Geosciences .....	267
Programs in the School of Nursing in the School of Nursing .....	581
Psychology, Bachelor of Arts (Plan I) in .....	307
Psychology, Bachelor of Science in .....	313
Psychology, Courses in .....	435
Public Affairs, Courses in .....	615
Public Health, Bachelor of Science in .....	519
Public Relations, Bachelor of Science in .....	88
Pure Mathematics Option (BSMath) .....	510

## R

Radio-Television-Film, Bachelor of Science in .....	90
Radio-Television-Film, Courses in .....	112
Red McCombs School of Business .....	46
Red McCombs School of Business, Degree Programs in the .....	11
Registration as a Professional Engineer in the Cockrell School of Engineering .....	154
Registration in the Cockrell School of Engineering .....	151
Registration in the College of Communication .....	76
Registration in the College of Education .....	121
Registration in the College of Fine Arts .....	222
Registration in the College of Liberal Arts .....	284
Registration in the College of Pharmacy .....	593
Registration in the John A. and Katherine G. Jackson School of Geosciences .....	266
Registration in the Red McCombs School of Business .....	49
Registration in the School of Nursing .....	578
Registration in the School of Social Work .....	620
Registration in the School of Architecture .....	32
Religious Studies, Bachelor of Arts (Plan I) in .....	307
Religious Studies, Courses in .....	441
Repetition of a Course in the Cockrell School of Engineering .....	152
Repetition of a Course in the College of Liberal Arts .....	284
Repetition of a Course in the John A. and Katherine G. Jackson School of Geosciences .....	266
Reservation of Work by Undergraduates for Graduate Credit .....	17
Retail Merchandising option (BSTA) .....	521
Rhetoric and Writing, Bachelor of Arts (Plan I) in .....	307
Rhetoric and Writing, Courses in .....	446
ROTC courses .....	449

Russian, East European, and Eurasian Studies, Bachelor of Arts (Plan I) in .....	307
Russian, East European, and Eurasian Studies, Courses in .....	450

## S

Sanger Learning Center in the School of Undergraduate Studies .....	25
Sarah and Ernest Butler School of Music .....	248
Scandinavian Studies, Bachelor of Arts (Plan I) in .....	308
School of Architecture, Degree Programs in the .....	11
School of Nursing Honor Code in the School of Nursing .....	578
School of Nursing, Degree Programs in the .....	14
School of Social Work, Degree Programs in the .....	14
Schusterman Center for Jewish Studies .....	409
Science, Courses in .....	143
Signature Courses in the School of Undergraduate Studies .....	24
Simultaneous Majors .....	14
Slavic and Eurasian Studies, Courses in .....	453
Social Science, Courses in .....	435
Social Work, Bachelor of .....	622
Social Work, Courses in .....	624
Social Work, School of .....	616
Sociology, Bachelor of Arts (Plan I) in .....	308
Sociology, Courses in .....	459
Spanish and Portuguese, Courses in .....	463
Spanish, Bachelor of Arts (Plan I) in .....	308
Special Education, Courses in .....	144
