13. Enough additional coursework to make a total of 120 semester hours.

Option VII: Mathematics

5. Eight semester hours of majors-level coursework in one of the following areas: astronomy, biology, chemistry, geological sciences, and physics
6. Computer Science 303E
7. One of the following sequences:
   a. Mathematics 408C* and 408D
   b. Mathematics 408N and 408S
   c. Mathematics 408K and 408L
   *Mathematics 408N and 408S, or 408K and 408L, may substitute for 408C
8. Three of the following: Mathematics 408M or 427L, 427J, 341, 362K. Mathematics 340L may be substituted for 341 if the course was taken prior to entry into the mathematics entry-level major
9. Mathematics 325K or 328K. Mathematics 328K is recommended for students with substantial experience in writing proofs
10. One of the following: Mathematics 343K, 361K, 365C, 367K, 373K.
12. One upper-division mathematics course identified as taught in the inquiry based learning (IBL) format or with an independent inquiry flag. IBL courses are identified each semester through a notation under the unique number in the Course Schedule and through a list maintained in the mathematics advising office in Robert Lee Moore Hall, room 4.101. Courses with an independent inquiry flag are identified in the Course Schedule. Courses counted toward requirements 8, 9, 10, and 11 may also count toward this requirement.
13. Mathematics in context. One course chosen from:
   a. Mathematics 374M
   b. Chemistry 353, 354
   c. Computer Science 341, 342, 345, 346, 353, 367
   d. Electrical Engineering 411, 325, 360C, 362K
   e. Physics 329, 336K, 352K
Courses in requirements 13b through 13e may require additional prerequisites. Mathematics 374M may not count toward both requirement 11 and 13.
14. At least six semester hours of upper-division coursework must be outside both mathematics and the fields of study listed in requirement 5. Philosophy courses in logic, computer science courses in discrete mathematics, engineering, and actuarial foundation courses may not be used to fulfill this requirement.
15. Enough additional coursework to make a total of 120 semester hours.

Special Requirements

Students in all Options must fulfill both the University’s General Requirements (p. 20) for graduation and the college requirements (p. 648). They must also earn a grade of at least C- in each mathematics and science course required for the degree, and a grade point average in these courses of at least 2.00. More information about grades and the grade point average is given in the General Information Catalog (http://catalog.utexas.edu/general-information).

To graduate and be recommended for certification, students who follow the Teaching Option must have a University grade point average of at least 2.50. They must earn a grade of at least C- in the supporting course in requirement 5 and 8 and in each of the professional development courses listed in requirement 10 and must pass the final teaching portfolio review; those seeking middle grades certification must also earn a grade of at least C- in each of the courses listed in requirement 11. For information about the portfolio review and additional teacher certification requirements, students should consult the UTeach-Natural Sciences academic adviser.

To graduate under Option VI, students must remain in good standing in the Dean’s Scholars Honors Program, must submit an honors thesis approved by the departmental honors adviser, and must present their research in an approved public forum, such as the college’s annual Undergraduate Research Forum (http://cns.utexas.edu/research-experience/undergraduate-research/undergraduate-research-forum).

Bachelor of Science in Medical Laboratory Science

The student preparing for a career in medical laboratory science completes at least 100 hours of academic work at the University. After this work is completed, the student enters an accredited school of medical laboratory science (or clinical laboratory science) for an additional 12 to 16 months of clinical education. After completion of this education, the student is awarded the Bachelor of Science in Medical Laboratory Science and is eligible to take the national certification examination administered by the American Society for Clinical Pathology (ASCP) Board of Certification (BOC). Successful completion of this exam results in national certification as a Medical Laboratory Scientist.

The purpose of this degree program is to meet the increasing demand for laboratory professionals in hospital and clinic laboratories, research, industry, public health, education, and laboratory management. Medical laboratory science is also an excellent foundation for graduate study in medicine, dentistry, management, education, and other disciplines.

Prescribed Work

In the process of fulfilling degree requirements, all students must complete:

1. Core curriculum
2. Skills and experience flags:
   a. Writing: two flagged courses beyond Rhetoric and Writing 306 or its equivalent, including one at the upper-division level
   b. Quantitative reasoning: one flagged course
   c. Global cultures: one flagged course
   d. Cultural diversity in the United States: one flagged course
   e. Ethics: one flagged course
   f. Independent inquiry: one flagged course
Courses that may be used to fulfill flag requirements are identified in the Course Schedule (http://registrar.utexas.edu/schedules). They may be used simultaneously to fulfill other requirements, unless otherwise
specify. Please note, students may not earn the cultural diversity in
the United States and the global cultures flags from the same course.
Students are encouraged to discuss options with their academic
advisers.

3. One of the following foreign language/culture choices:
   a. Beginning level proficiency coursework, or the equivalent, in a
      foreign language.
   b. First course in a foreign language and a three-semester-hour
      course in the culture of the same language area.
   c. Two three-semester-hour courses in one foreign culture area; the
      courses must be chosen from an approved list available in the
      dean's office and the college advising centers.

4. Mathematics 408C or 408N, and Statistics and Data Sciences 304 or
   328M
5. Either Biology 311C, 311D, and 325, or Biology 315H and 325H
   and 365S
7. Chemistry 301 or 301H, 302 or 302H, 204, 220C, 320M, 320N, and
   Biochemistry 369
8. Computer Science 303E, Management Information Systems 302F,
   or Public Health 323
9. Enough additional elective coursework, if necessary, to make a total
   of at least 100 semester hours of academic work completed at the
   University before the clinical education program.

10. Twelve to 16 months of clinical education in a program of medical
    laboratory science (or clinical laboratory science) accredited by
    the National Accrediting Agency for Clinical Laboratory Sciences
    (NAACLS). The student must apply to and be accepted into a
    clinical education program. The clinical education program director
    works closely with each student to ensure his or her success in the
    program. Upon completion of the clinical education program, the
    student must submit a letter from the program director verifying
    completion of coursework and a transcript showing grades in all
    courses in the program to The University of Texas at Austin, Office
    of the Dean, College of Natural Sciences, 1 University Station G2500,
    Austin TX 78712. To be counted toward the degree, the coursework
    must be approved by the faculty adviser for medical laboratory
    science and the dean. None of the coursework completed in the
    clinical education program may be used to fulfill in-residence degree
    requirements, requirements 1 through 9 of the prescribed work
    above, or the requirements for a second bachelor's degree.

Special Requirements

Students must fulfill both the University's General Requirements (p. 20)
for graduation and the college requirements (p. 648). They must also
earn a grade of at least C- in each mathematics and science course
required for the degree, and a grade point average in these courses of at
least 2.00. Students must also earn a grade of at least C- in each course
taken in the 12 to 16-month clinical education in a program of medical
laboratory science (or clinical laboratory science) accredited by the
National Accrediting Agency for Clinical Laboratory Sciences (NAACLS).
More information about grades and the grade point average is given in the
General Information Catalog (http://catalog.utexas.edu/general-
information/academic-policies-and-procedures/computation-of-the-
grade-point-average).

Order and Choice of Work

The student should consult with his or her academic and faculty advisers
each semester regarding order and choice of work and balancing the
laboratory load. To complete the program within four years, it may be
necessary for the student to take some courses during the summer.

Bachelor of Science in Neuroscience

The Bachelor of Science degree in Neuroscience provides a strong
foundation in the core sciences and related mathematical disciplines,
along with the opportunity for training in biology, chemistry, computer
science, mathematics, physics, or psychology. Distinctive features of the
program include an emphasis on developing the quantitative, statistical,
mathematical, and computational skills required in neuroscience, and
meaningful hands-on laboratory experience.

Prescribed Work Common to All Options

In the process of fulfilling degree requirements, all students must complete:

1. Core curriculum
2. Skills and experience flags:
   a. Writing: two flagged courses beyond Rhetoric and Writing 306 or
      its equivalent, including one at the upper-division level
   b. Quantitative reasoning: one flagged course
   c. Global cultures: one flagged course
   d. Cultural diversity in the United States: one flagged course
   e. Ethics: one flagged course
   f. Independent inquiry: one flagged course

Courses that may be used to fulfill flag requirements are identified in the
Course Schedule (http://registrar.utexas.edu/schedules). They may be
used simultaneously to fulfill other requirements, unless otherwise
specified. Please note, students may not earn the cultural diversity in
the United States and the global cultures flags from the same course.
Students are encouraged to discuss options with their academic
advisers.

3. At least 21 semester hours of upper-division coursework, including
   18 semester hours in biology and neuroscience, must be completed
   in residence at the University. All students must complete at least 36
   semester hours of upper-division coursework.

Option I: Neuroscience Scholars

4. Mathematics 408C, or 408N and 408S; Statistics and Data Sciences
   328M
5. An eight hour physics sequence chosen from the following:
   b. Physics 303K, 103M, 303L, and 103N
   c. Physics 301, 101L, 316, and 116L
6. Chemistry 301 or 301H, 302 or 302H, and 204
7. Biology 311C and 311D, or 315H and 325H, and 206L
8. Three additional majors-level courses selected from one of the
   following sequences:
   a. Biology: Biology 325 or 325H, 320, 344, 349, and 370
   b. Chemistry: Chemistry 328M and 128K, 328N and 128L, 353 or
      353M, and Biochemistry 369
   c. Computer Science: Computer Science 312, 314, Statistics and
      Data Sciences 335, 374E
   d. Mathematics: Mathematics 427J or 427K, 427L, 340L or 341, 362K, 378K, Statistics and Data Sciences 321 or
      329C, Mathematics 362K and Statistics and Data Sciences 321
      may not both count.
   e. Physics: Physics 345, 338K, 355
   f. Psychology: Psychology 301, 323, 353K, 355
9. Neuroscience 330
10. Neuroscience 335
13. Three semester hours of Neuroscience 379H, Honors Tutorial Course.
14. Enough additional coursework to make a total of 120 semester hours.

Option II: Neuroscience Honors

4. Breadth requirement: An honors mathematics course; Biology 315H and 325H; Chemistry 301H and 302H; and one of the following: Physics 301 and 101L; or Physics 316 and 116L; credit earned by examination may not be counted toward this requirement.
5. Three hours of statistics chosen from the following: Statistics and Data Sciences 321, 325H, or 328M; other statistics courses may be approved by the departmental honors adviser.
6. One of the following:
   a. Physics 315 and 115L
   b. Physics 316 and 116L
   c. Physics 338K, 345, 355

Courses counted toward requirement 4 may not also be counted toward requirement 6.
7. Biology 206L and Chemistry 204
8. Chemistry 128K, 128L, 328M, and 328N
9. Biology 320 or 344
10. Biology 349 and 370
11. Neuroscience 330
12. Neuroscience 335
15. A section of Undergraduate Studies 302 or 303 that is approved by the departmental honors adviser.
16. A section of Rhetoric and Writing 309S that is restricted to students in the Dean's Scholars Honors Program.
17. Two semesters of Neuroscience 379H.
18. Seven additional semester hours of coursework approved by the departmental honors adviser.
19. Six semester hours of coursework from the College of Liberal Arts and/or the College of Fine Arts.
20. Enough additional coursework to make a total of 120 semester hours.

Option III: Neuroscience

4. Mathematics 408C, or 408N and 408S; and Statistics and Data Sciences 328M
5. An eight-hour physics sequence chosen from the following:
   b. Physics 303K, 103M, 303L, and 103N
   c. Physics 301, 101L, 316, and 116L
6. Chemistry 301 or 301H, 302 or 302H, and 204
7. Biology 311C, 311D, and 325 or 315H and 325H
8. Biology 206L
9. Neuroscience 330 and 335
12. Enough additional coursework to make a total of 120 semester hours.

Special Requirements

Students must fulfill both the University's General Requirements (p. 20) for graduation and the college requirements (p. 648). They must also earn a grade of at least C- in each mathematics and science course required for the degree, and a grade point average in these courses of at least 2.00. More information about grades and the grade point average is given in General Information (http://catalog.utexas.edu/general-information/academic-policies-and-procedures/computation-of-the-grade-point-average).

To graduate under Option II, students must remain in good standing in the Dean's Scholars Honors Program, must submit an honors thesis approved by the departmental honors adviser, and must present their research in an approved public forum, such as the college's annual Undergraduate Research Forum. More information about the Undergraduate Research Forum is available at https://cns.utexas.edu/innovative-education/undergraduate-research/undergraduate-research-forum.

Bachelor of Science in Nutrition

Nutrition is an integrative science with the overall objective of improving the health and well-being of individuals and groups. Nutritional inquiry encompasses not only the roles of electrons, atoms, molecules, genes, cells, organs, and complex organisms in biological life processes but also the links between life science and health, behavior, education, population, culture, and economics. The Bachelor of Science in Nutrition degree program includes six options, described below.

For students pursuing careers in dietetics, courses in behavioral and clinical nutrition and food systems management provide the academic preparation required for dietetics practice. The Didactic Program in Dietetics (DPD) meets the coursework requirements that qualify graduates to apply to a dietetic internship, which leads to the Registered Dietitian credential. Completion of the Didactic Program in Dietetics requirements qualifies a graduate to apply for the exam to become a Dietetic Technician, Registered. To be eligible to apply for a dietetic internship or to practice as a Registered Dietetic Technician, additional coursework would be required for students earning a degree in Options II-VI. The Coordinated Program in Dietetics (CPD) includes both the coursework and the supervised practice necessary to be eligible to write the examination to become a registered dietitian. The DPD and CPD are accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (AND) 120 S. Riverside Plaza, Suite 2000, Chicago IL 60606, (800) 877-1600.

The Nutritional Sciences Option requires courses in science and research in order to prepare students for graduate study or professional school. Graduates may seek employment in private or publicly funded research programs or, upon completion of graduate study, may engage in college or university teaching or nutrition research. This option also allows students to fulfill requirements for postgraduate study in medicine, dentistry, and other health professions. Additional coursework is needed.
to be eligible to apply for a dietetic internship or to practice as a Dietetic Technician, Registered.

The Nutrition and Public Health Option III is designed to prepare students for entry-level positions in public health and nutrition at state and other health departments, in research, and in industry. It will equip them for entry into graduate programs in nutrition or other public health disciplines at schools of public health, at graduate schools in the biomedical sciences, and for entry into medical or other health professional schools as well as for those who pursue health and research careers.

Students who plan to follow Option IV must be admitted into the Honors in Advanced Nutritional Sciences Program (p. 646). Students in this option take honors courses in nutrition, research methodology, and writing. In addition, students are encouraged to take honors courses in disciplines outside of nutrition, such as biology, chemistry, and mathematics. Students consult with the departmental honors adviser to develop an individualized and challenging program of study that meets their goals and interests.

Students who plan to follow Option V must be admitted to the Dean's Scholars Honors Program (p. 645). In addition to taking a core of research, writing, and seminar courses in the College of Natural Sciences, students in this option consult with the departmental honors adviser to develop a coherent individual program of rigorous and challenging courses from across the University.

Students in the international nutrition Option gain firsthand knowledge of nutrition issues in other countries through a study abroad experience. Students combine the study of nutrition with a broad range of courses to prepare for experience studying and practicing nutrition in another culture.

Prescribed Work Common to All Options

In the process of fulfilling degree requirements, all students must complete:

1. Core curriculum
2. Skills and experience flags:
   a. Writing: two flagged courses beyond Rhetoric and Writing 306 or its equivalent, including one at the upper-division level
   b. Quantitative reasoning: one flagged course
   c. Global cultures: one flagged course
   d. Cultural diversity in the United States: one flagged course
   e. Ethics: one flagged course
   f. Independent inquiry: one flagged course

Courses that may be used to fulfill flag requirements are identified in the Course Schedule (http://registrar.utexas.edu/schedules). They may be used simultaneously to fulfill other requirements, unless otherwise specified. Please note, students may not earn the cultural diversity in the United States and the global cultures flags from the same course. Students are encouraged to discuss options with their academic advisers.

3. At least 36 semester hours of upper-division coursework, of which at least 24 must be in nutrition. At least 21 semester hours of upper-division coursework, including 18 semester hours in nutrition, must be completed in residence at the University.

Additional Prescribed Work for Each Option

Option I: Dietetics

Students in dietetics may select either the Didactic Program in Dietetics (DPD) or the Coordinated Program in Dietetics (CPD). Students who complete the DPD with at least four upper-division nutrition courses completed in residence will receive a verification statement that qualifies them to apply for an accredited supervised practice program. DPD graduates who complete an accredited supervised practice program may become active members of the Academy of Nutrition and Dietetics (AND) and are eligible to write the examination to become a registered dietitian.

Students who are admitted to the CPD should consult the faculty adviser each semester regarding order and choice of work. During the fourth year, the following courses must be taken in the indicated term: fall semester: Nutrition 245C; spring semester: Nutrition 345M, 372C, 372F, 373S; summer session: Nutrition 374C and 374P. Because these courses are taught only once a year, a student who does not take them at the indicated time may be unable to complete the program.

4. At least three semester hours chosen from Psychology 301, Sociology 302, Anthropology 302, Economics 304K, 304L, and Human Development and Family Sciences 313 or 313H and 113L
5. Mathematics 408C, 408N, or Statistics and Data Sciences 332
6. Three semester hours of statistics chosen from Statistics and Data Sciences 302, 304, 306, 325H, and 328M
7. Chemistry 301 or 301H, 302 or 302H, 204, 320M, and Biochemistry 369
8. Biology 311C or 315H, 325 or 325H, and 365S
9. Accounting 310F or 311
10. The following core nutrition coursework:
   a. Nutrition 312 or 312H, 112L or 312R, 326, and 126L; students who complete Nutrition 312H and 312R or Biology 315H and 325H are exempt from Nutrition 326 and 126L; students must complete each course with a grade of at least C before progressing to other upper-division nutrition courses
   b. Nutrition 307, 107L, 338W or 338H, 342, and 343

11. Coursework in nutrition, consisting of the following:
   a. Behavioral and clinical nutrition:
      i. CPD: Nutrition 315, 218, 118L, 330, 332, 370, and 371
      ii. DPD: Nutrition 315, 218, 118L, 330, 332, 370, 371, and either Nutrition 337 or 365 (Topic 2: Nutrition and Genes; or Topic 4: Obesity and Metabolic Health)
   b. Food systems management: Nutrition 334, 234L, and 355M
   c. Research:
      i. CPD: Nutrition 373S
      ii. DPD: One of the following: Nutrition 324 and 124L, 353, 355 or 355H, 366L, 379H, Statistics and Data Sciences 318, 321, 325H, or 352; with the approval of the faculty undergraduate adviser, DPD students may count Nutrition 352 toward this requirement; Statistics and Data Sciences 325H may not be counted toward both requirement 6 and requirement 11cii.
   d. Professional development:
      i. CPD: Nutrition 245C
      ii. DPD: Nutrition 162

12. Students in the CPD must complete an additional 15 semester hours of supervised practice: Nutrition 345M, 372C, 372F, 374C, and 374P
13. Enough additional coursework to make a total of 126 semester hours
Option II: Nutritional Sciences

4. At least six semester hours chosen from Psychology 301, Sociology 302, Anthropology 302, Economics 304K, 304L, and Human Development and Family Sciences 313 or 313H, and 113L
5. Mathematics 408C, 408N, or Statistics and Data Sciences 332
6. Three semester hours of statistics chosen from Statistics and Data Sciences 302, 304, 306, 325H, and 328M
7. Chemistry 301 or 301H, 302 or 302H, 204, 220C, 320M, 320N, and Biochemistry 369
8. Either Biology 311C, 311D, and 325 or Biology 315H and 325H; Biology 446L and 365S
9. Complete one of the following:
   a. Physics 301 and 101L
   b. Physics 302K and 102M
   c. Physics 303K and 103M or
   d. Physics 317K and 117M
10. The following core nutrition coursework:
   a. Nutrition 312 or 312H, 112L or 312R, 326, and 126L: students who complete Nutrition 312H and 312R or Biology 315H and 325H are exempt from Nutrition 326 and 126L: students must complete each course with a grade of at least C- before progressing to other upper-division nutrition courses.
   b. One of the following: Nutrition 307 and 107L; Biology 326M and 226L; 326R and 226L; Chemistry 455
   c. Nutrition 337, 338W or 338H, 342, 343; and 365 (Topic 2: Nutrition and Genes; or Topic 4: Obesity and Metabolic Health)
11. Nine additional semester hours of nutrition, including three hours each from the following areas:
   a. Nutritional sciences: Nutrition 365 or 370 or 371; the same topic of Nutrition 365 may not be counted both toward this requirement and toward requirement 10c.
   b. Behavioral and clinical nutrition: Nutrition 315, 218 and 118L, 321, 330, 331, 332, or 370 or 371
   c. Research: Three semester hours of coursework chosen from Nutrition 355 or 355H, 366L, Biology 325L, 331L, and Biochemistry 369L
12. Enough additional coursework to make a total of 126 semester hours

Option III: Nutrition and Public Health

4. Six semester hours chosen from Anthropology 322M (Topic 12: Mexican Immigration Cultural History), Sociology 319, 354K, and 368D
5. Three semester hours of Statistics and Data Sciences 302, 304, 306, 325H, and 328M
6. One of the following courses: Mathematics 408C, 408N, or Statistics and Data Sciences 332
7. Chemistry 301 or 301H, 302 or 302H, 204, 320M, and Biochemistry 369
8. Biology 311C or 315H, 325 or 325H, and 365S
9. The following core nutrition coursework:
   a. Nutrition 312 or 312H, 112L or 312R, 326, and 126L; students who complete Nutrition 312H and 312R or Biology 315H and 325H are exempt from Nutrition 326 and 126L; students must complete each course with a grade of at least C- before progressing to other upper-division nutrition courses.
   b. Nutrition 337, 338W or 338H, 342, 343, and 365 (Topic 2: Nutrition and Genes; or Topic 4: Obesity and Metabolic Health)
10. Three semester hours of research chosen from Nutrition 324 and 124L, 352, 353, 355, 366L, 379H, and Statistics and Data Sciences 318, 321, 325H, or 352; Statistics and Data Sciences 325H may not count toward both requirement 5 and 10.

Option IV: Honors in Advanced Nutritional Sciences

4. At least three semester hours chosen from Psychology 301, Sociology 302, Anthropology 302, Economics 304K, 304L, and Human Development and Family Sciences 313 or 313H and 113L
5. Mathematics 408C, 408N, Mathematics 408D-AP-H, or Statistics and Data Sciences 332
6. Three semester hours of statistics chosen from Statistics and Data Sciences 302, 304, 306, 325H, and 328M
7. Chemistry 301 or 301H, 302 or 302H, 204, 320M, 320N, 220C, and Biochemistry 369
8. Biology 311C, 311D, and 325 or Biology 315H and 325H; and Biology 365S
9. Nutrition 312H, 312R, 338H, 342, 343, and 365 (Topic 2: Nutrition and Genes; or Topic 4: Obesity and Metabolic Health), and 12 additional semester hours of nutrition or related coursework approved by the departmental honors adviser
10. A section of Undergraduate Studies 302 or 303 that is approved by the departmental honors adviser
11. Nutrition 355H and 379H
12. Nine semester hours of additional coursework approved by the departmental honors adviser
13. Enough additional coursework to make a total of 120 semester hours

Option V: Nutrition Honors

4. Breadth requirement: A calculus course and a statistics course, one of which must be a designated honors course; Biology 315H and 325H; Chemistry 301H and 302H; and three additional hours of honors-designated or approved coursework in biology, chemistry, computer science, mathematics, statistics and data sciences, or physics; credit earned by examination may not be counted toward this requirement.
5. At least three semester hours chosen from Psychology 301, Sociology 302, Anthropology 302, Economics 304K, 304L, and Human Development and Family Sciences 313 or 313H and 113L
6. Chemistry 204, 320M, and 320N, and Biochemistry 369
7. Neuroscience 330 and Biology 365S
9. A section of Undergraduate Studies 302 or 303 that is approved by the departmental honors adviser
10. A section of Rhetoric and Writing 309S that is restricted to students in the Dean’s Scholars Honors Program
11. Nutrition 355H and 379H
12. Six semester hours of additional coursework in nutrition or related area approved by the departmental honors adviser
13. Six semester hours of coursework from the College of Liberal Arts and/or the College of Fine Arts
14. Enough additional coursework to make a total of 120 semester hours

Option VI: International Nutrition

Students in this option must participate for one semester or summer session in a study abroad program in nutrition offered by the University. Students must submit a study abroad application. During the study
abroad experience, students complete Nutrition 353, Field Experience in International Nutrition. Additional coursework in nutrition or in the language, culture, or history of the country may be available during the international study experience. All study abroad programs in nutrition must be approved in advance by the international nutrition faculty adviser. A list of other study abroad opportunities in nutrition is maintained in the main office of the School of Human Ecology.

4. Economics 304K or 304L, and at least three semester hours chosen from Psychology 301, Sociology 302, and Anthropology 302
5. Three semester hours chosen from the following: Geography 339K, 357, Mexican American Studies 307, 318, Sociology 335, 354K
6. Second-semester proficiency in a single foreign language
7. Mathematics 408C, 408N, or Statistics and Data Sciences 332
8. Three semester hours of statistics chosen from Statistics and Data Sciences 302, 304, 306, 325H, and 328M
9. Chemistry 301 or 301H, 302 or 302H, 204, 320M, and Biochemistry 369
10. Biology 311C or 315H, 325 or 325H, and 365S

11. The following core nutrition coursework:
   a. Nutrition 312 or 312H, 112L or 312R, 326, and 126L. Students who complete Nutrition 312H and 312R or Biology 315H and 325H are exempt from Nutrition 326 and 126L; students must complete each course with a grade of at least C- before progressing to other upper-division nutrition courses.
   b. One of the following four-semester-hour sequences: Nutrition 307 and 107L; Biology 326M and 226L; 326R and 226L
   c. Nutrition 338W or 338H, 342, and 343
12. Nutrition 316, 218, 118L, 321, 331, and 353
13. At least nine semester hours, three of which must be upper-division, chosen from one of the following areas:
14. Enough additional coursework to make a total of 126 semester hours

Special Requirements
Students in all options must fulfill both the University’s General Requirements (p. 20) for graduation and the college requirements (p. 648). They must also earn a grade of at least C- in each mathematics and science course required for the degree, and a grade point average in these courses of at least 2.00. More information about grades and the grade point average is given in the General Information Catalog (http://catalog.utexas.edu/general-information/academic-policies-and-procedures/computation-of-the-grade-point-average).

To graduate under Option IV, students must remain in good standing with an overall grade point average of at least 3.30 and an overall grade point average of 3.50 in all nutritional sciences courses. In addition, student research conducted in courses described in requirement 10 must be presented in an approved public forum, such as the college’s annual Undergraduate Research Forum (http://cns.utexas.edu/research-experience/undergraduate-research/undergraduate-research-forum). Students who fail to maintain the required grade point average may be subject to dismissal from the program. Under special circumstances and at the discretion of the nutritional sciences honors adviser, a student may be allowed to continue under academic review.

To graduate under Option V, students must remain in good standing in the Dean’s Scholars Honors Program, must submit an honors thesis approved by the departmental honors adviser, and present their research in an approved public forum, such as the college’s annual Undergraduate Research Forum. More information about the Undergraduate Research Forum is available at https://cns.utexas.edu/innovative-education/undergraduate-research/undergraduate-research-forum.

Note:
Nutritional Sciences courses with numbers ending in H are intended for students in Option IV, Honors in Advanced Nutritional Sciences and in Option V, Nutrition Honors. Students outside these majors may enroll in these courses with the consent of the nutritional sciences honors adviser.

To be eligible to apply for a dietetic internship or to practice as a Registered Dietetic Technician, additional coursework would be required for students earning a degree in Options II-VI.

Bachelor of Science in Physics
All aspects of the physical universe are of interest to the physicist, who seeks to understand not only the smallest forms of matter and the rich phenomena present in our everyday lives but also the universe itself. Physics has played a critical role in human technological and intellectual development during the twentieth century. The tools of the physicist—observation, imagination, model building, prediction, and deduction—will enable physics to continue this influence into the new century. The Bachelor of Science in Physics degree program is designed to provide the skills, understanding, and outlook required for participation in the discovery of new knowledge about nature.

The Bachelor of Science in Physics program is balanced and broad. It is designed to give the student a strong foundation for graduate study or work in physics and, with additional training, for work in a variety of other areas, such as astronomy, astrophysics, biophysics, chemical physics, computer science, engineering, geophysics, mathematics, medicine, physics teaching, and space sciences. Students who end their formal training with the bachelor's degree may seek employment in industry, in national laboratories, or in teaching; they should consider the options in computation, radiation physics, space sciences, biophysics, and teaching, which augment the broad instruction provided by the basic Bachelor of Science in Physics. For those who plan to teach physics in secondary school, the teaching option provides the courses needed for certification.

Students who plan to follow Option VI, Physics Honors, must be admitted to the Dean’s Scholars Honors Program (p. 645).

Prescribed Work Common to All Options
In the process of fulfilling degree requirements, all students must complete:

1. Core curriculum
2. Skills and experience flags:
   a. Writing: two flagged courses beyond Rhetoric and Writing 306 or its equivalent, including one at the upper-division level
   b. Quantitative reasoning: one flagged course
   c. Global cultures: one flagged course
   d. Cultural diversity in the United States: one flagged course
   e. Ethics: one flagged course
   f. Independent inquiry: one flagged course
Courses with flags are identified in the Course Schedule (http://registrar.utexas.edu/schedules). They may be used simultaneously to fulfill other requirements, unless otherwise specified.

3. Options I–IV and VII: one of the following foreign language/culture choices: (Students in Options V and VI are exempt from this requirement)
   a. Beginning level proficiency coursework, or the equivalent, in a foreign language
   b. First course in a foreign language and a three-semester-hour course in the culture of the same language area
   c. Two three-semester-hour courses in one foreign culture area; the courses must be chosen from an approved list available in the dean's office and the college advising centers

4. Thirty-six semester hours of upper-division coursework
5. At least 21 semester hours of upper-division coursework in physics, must be completed in residence at the University

**Prescribed Work Common to All Options for Each**

**Option I: Physics**

This option is designed to give the student a strong foundation for graduate study or work in physics and for further study or work in a variety of other areas.

6. Chemistry 301 or 301H, and 302 or 302H
7. Six semester hours in biology, geological sciences, or astronomy; a course may not be used to fulfill this requirement if it cannot be counted toward major requirements in the department that offers it
8. Physics 301, 101L, 316, 116L, 315, and 115L
9. Mathematics 408C and 408D or the equivalent, 427J or 427K and 427L, and six additional semester hours of upper-division coursework in mathematics; the following courses are recommended: Mathematics 340L, 361, and 362K; only courses at the level of calculus and above may be counted toward the total number of hours required for the degree
11. Enough additional coursework to make a total of 126 semester hours

**Option II: Computation**

This Option is designed to provide the necessary foundation and hands-on skill in computation for the student who plans a career or further study in computational physics or computer science. Students who complete this option may simultaneously fulfill some of the requirements of the Scientific Computation and Data Sciences Certificate (p. 692).

6. Chemistry 301 or 301H, and 302 or 302H
7. Six semester hours in biology, geological sciences, or astronomy; a course may not be used to fulfill this requirement if it cannot be counted toward major requirements in the department that offers it
8. Physics 301, 101L, 316, 116L, 315, and 115L
9. Mathematics 408C and 408D or the equivalent, 427J or 427K and 427L, and six additional semester hours of upper-division coursework in mathematics or statistics and data sciences; Statistics and Data Sciences 329C and Mathematics 362K are recommended; only courses at the level of calculus and above may be counted toward the total number of hours required for the degree
10. Physics 329, 336K, 338K, 352K, 353L, 355, 369, and 373, or their equivalents
11. One of the following scientific computation options:
   a. Computer Science 303E; Computer Science 313E or Statistics and Data Sciences 322; and two courses from two of the areas listed below:
      i. Numerical methods: Chemical Engineering 348, Computer Science 323E, 323H, 367, Mathematics 348, Statistics and Data Sciences 335
      ii. Statistical methods: Biomedical Engineering 335, Mathematics 358K, 378K
   b. Twelve semester hours chosen from Electrical Engineering 306, 312, 316, 319K, and 422C
12. Enough additional coursework to make a total of 126 semester hours

**Option III: Radiation Physics**

This Option is designed to provide the necessary foundation for the student who plans a career or further study in nuclear engineering, radiation engineering, or health physics.

6. Chemistry 301 or 301H, and 302 or 302H
7. Six semester hours in biology, geological sciences, or astronomy; a course may not be used to fulfill this requirement if it cannot be counted toward major requirements in the department that offers it
8. Physics 301, 101L, 316, 116L, 315, and 115L
9. Mathematics 408C and 408D or the equivalent, 427J or 427K and 427L, and six additional semester hours of upper-division coursework in mathematics; the following courses are recommended: Mathematics 340L, 361, and 362K; only courses at the level of calculus and above may be counted toward the total number of hours required for the degree
10. Twenty-four semester hours of upper-division coursework in physics, including Physics 336K, 352K, 353L, 355, 362L, 369, and 373, or their equivalents
12. Enough additional coursework to make a total of 126 semester hours

**Option IV: Space Sciences**

This Option is designed to provide the necessary foundation for the student who plans a career or further study in space sciences.

6. Chemistry 301 or 301H, and 302 or 302H
7. Six semester hours in biology, geological sciences, or astronomy; a course may not be used to fulfill this requirement if it cannot be counted toward major requirements in the department that offers it
8. Physics 301, 101L, 316, 116L, 315, and 115L
9. Mathematics 408C and 408D or the equivalent, 427J or 427K and 427L, and six additional semester hours of upper-division coursework in mathematics; the following courses are recommended: Mathematics 340L, 361, and 362K; only courses at the level of calculus and above may be counted toward the total number of hours required for the degree
11. Either 15 semester hours of upper-division coursework in aerospace engineering or 12 hours in aerospace engineering and three additional hours of upper-division coursework in physics
12. Enough additional coursework to make a total of 126 semester hours
Option V: Teaching

This Option is designed to fulfill the course requirements for certification as a middle grades or secondary school science teacher in Texas; the student chooses composite science certification with physics as the primary teaching field, physical sciences certification, physics/mathematics certification, or mathematics, physical science, and engineering certification. However, completion of the course requirements does not guarantee the student's certification. For information about additional requirements, students should consult the UTeach-Natural Sciences academic adviser.

6. Physics 301, 101L, 316, 116L, 315, and 115L
7. Mathematics 408C and 408D or the equivalent, 427J or 427K, and 427L
8. At least 18 semester hours of upper-division coursework in physics, consisting of Physics 341 (Topic 7: Research Methods: UTeach), 353L, 355, and three of the following courses: Physics 329, 333, 336K, 338K, 352K, 373, Science 365, with the consent of the UTeach-Natural Sciences undergraduate adviser, an upper-division physics course that includes a substantial research component may be substituted for Physics 341
9. History 329U or Philosophy 329U
10. The requirements of one of the following certification areas:
   a. For composite science certification:
      i. Biology 311C and 311D
      ii. Chemistry 301 or 301H and 302 or 302H
      iii. Six hours of coursework in geological sciences; courses intended for non-science majors may not be counted toward this requirement
      iv. Enough additional approved coursework in biology, chemistry, or geological sciences to provide the required 12 hours in a second field
   b. For physical sciences certification:
      i. Chemistry 301 or 301H, 302 or 302H, 204 or 317, 353, 153K, 154K, 354L, and 455 or 456
      ii. Three additional hours of upper-division coursework in physics
   c. For physics/mathematics certification: Mathematics 315C, 325K, 333L, 341 or 340L, 358K, 362K, 360M or 375D
   d. For mathematics, physical science, and engineering certification:
      i. Mathematics 315C, 325K, 333L, 358K, and 362K
      ii. Chemistry 301 or 301H, 302 or 302H, and 204
      iii. Engineering Studies 301; and Mechanical Engineering 377K upon approval of the project by the UTeach Program
11. Eighteen semester hours of professional development coursework consisting of:
   a. Curriculum and Instruction 651S
   b. Curriculum and Instruction 365C or UTeach-Natural Sciences 350
   c. Curriculum and Instruction 365D or UTeach-Natural Sciences 355
   d. Curriculum and Instruction 365E or UTeach-Natural Sciences 360
   e. UTeach-Natural Sciences 101, 110, and 170
12. Students seeking middle grades certification must complete the following courses: Educational Psychology 350G, or Psychology 301 and 304; and Curriculum and Instruction 339E
13. Enough additional coursework to make a total of at least 126 semester hours

Option VI: Physics Honors

6. Breadth requirement: Biology 315H and 325H, Chemistry 301H and 302H, and Mathematics 427J and 427L; at least one of the math courses must be a designated honors section; credit earned by examination may not be counted toward this requirement
7. Mathematics 340L and 361
8. Physics 301, 101L, 316, 116L, 315, and 115L
10. A section of Undergraduate Studies 302 or 303 that is approved by the departmental honors adviser
11. A section of Rhetoric and Writing 309S that is restricted to students in the Dean's Scholars Honors Program
12. Physics 379H and a three-semester-hour upper-division research course approved by the departmental honors adviser
13. Ten additional semester hours of coursework approved by the departmental honors adviser
14. Six semester hours of coursework from the College of Liberal Arts and/or the College of Fine Arts
15. Enough additional coursework to make a total of 120 semester hours

Option VII: Biophysics

6. Chemistry 301 or 301H and 302 or 302H
7. Either Biology 311C, 311D, and 325 or Biology 315H and 325H; Biology 206L
8. Physics 301, 101L, 316, 116L, 315, and 115L
9. Mathematics 408C and 408D or the equivalent, 427J or 427K and 427L, and six additional semester hours of upper-division coursework in mathematics; the following courses are recommended: Mathematics 340L, 361, and 362K
10. Physics 336K, 345, 352K, 353L, 355, 369, and 373 or their equivalents
11. Either Chemistry 320M or 328M, and Biochemistry 369
12. Complete one of the following areas:
   a. Cell Biology: Biology 320
   b. Microbiology: Biology 326R
   c. Developmental Biology: Biology 349
   d. Neurobiology: Neuroscience 371M
   e. Virology: Biology 330
   f. Computation: Statistics and Data Sciences 335 and Biology 337J

A list of recommended biology laboratory courses that complement the lecture courses listed in 12a through 12e are available in the advising center and the dean's office.
13. Enough additional coursework to make a total of 126 semester hours

Special Requirements

Students in all options must fulfill both the University's General Requirements (p. 20) for graduation and the college requirements (p. 648). They must also earn a grade of at least C- in each mathematics and science course required for the degree, and a grade point average in these courses of at least 2.00. More information about grades and the grade point average is given in the General Information Catalog (http://catalog.utexas.edu/general-information/academic-policies-and-procedures/computation-of-the-grade-point-average).

To graduate and be recommended for certification, students who follow the Teaching Option must have a University grade point average of at least 2.50. They must earn a grade of at least C- in the supporting course in requirement 9 and in each of the professional development courses listed in requirement 11 and must pass the final teaching portfolio review; those seeking middle grades certification must also earn a grade of at least C- in each of the courses listed in requirement 12. Information about the portfolio review and additional teacher
Bachelor of Science in Public Health

The Bachelor of Science in Public Health prepares graduates for entry-level positions in public health and equips them to pursue certificate and graduate degrees in the field. All of the options offer broad-based training in the five core areas of public health. Option I offers a choice of six areas of specialization.

Students for whom the degree is appropriate include those interested in health careers and in dual graduate degree programs in medicine and public health. The degree is administered by the School of Human Ecology.

Option I students who plan to follow Option III must apply for admission. Admission requirements for Option III are given in The Bachelor of Science in Public Health, Option III. Students who plan to follow Option II must be admitted to the Dean’s Scholars Honors Program (p. 645).

Prescribed Work Common to All Options

In the process of fulfilling degree requirements, all students must complete:

1. Foundation courses:
   a. Public health: Public Health 317
   b. Microbiology: Biology 326M and 226L
   c. Nutrition and physiology: Nutrition 312 or 312H, 112L, and Biology 365S
   d. Social and behavioral sciences: One of the following: Economics 304K, 304L, Psychology 301, Sociology 319, 354K
   e. Political science/government: Government 358 or Management 320F

2. Public health core:
   a. Biostatistics: Statistics and Data Sciences 328M
   b. Environmental health sciences: Public Health 338
   c. Epidemiology: Public Health 354
   d. Global health: Public Health 334
   e. Health policy and health systems: Public Health 358D
   f. Health behavior theory and practice: Public Health 356

3. Core curriculum

4. Skills and experience flags:
   a. Writing: two flagged courses beyond Rhetoric and Writing 306 or its equivalent, including one at the upper-division level
   b. Quantitative reasoning: one flagged course
   c. Global cultures: one flagged course
   d. Cultural diversity in the United States: one flagged course
   e. Ethics: one flagged course
   f. Independent inquiry: one flagged course

Courses that may be used to fulfill flag requirements are identified in the Course Schedule (http://registrar.utexas.edu/schedules). They may be used simultaneously to fulfill other requirements, unless otherwise specified. Please note, students may not earn the cultural diversity in the United States and the global cultures flag from the same course. Students are encouraged to discuss options with their academic advisers.

5. At least 21 semester hours of upper-division coursework must be completed in residence at the University. All students must complete at least 36 semester hours of upper-division coursework.

Additional Prescribed Work for Each Option

Option I: Public Health

6. Mathematics 408C, 408N, or 408R.

7. Biology 311C, 311D, and 325 or Biology 315H and 325H. These courses must be completed before the student progresses to other upper-division biology and upper-division public health courses.

8. Chemistry 301 or 301H, 302 or 302H, 204, 320M, and Biochemistry 369.

9. At least nine hours from one of the following areas of specialization; courses counted toward requirement 1 may not be used to fulfill this requirement.

Economics 304K and 304L may not count toward both requirement 1d and requirement 9c. Government 358 may not count toward both requirement 1e and requirement 9c. Management 320F may not count toward both requirement 1e and requirement 9c. Sociology 354K may not count toward both requirement 1d and 9c.

Sociology 319 and 354K may not count toward both requirement 1d and requirement 8f.

10. One of the following foreign language/culture choices:
   a. Beginning level proficiency coursework, or the equivalent, in a foreign language
   b. First course in a foreign language and a three-semester-hour course in the culture of the same language area
   c. Two three-semester-hour courses in one foreign culture area; the courses must be chosen from an approved list available in the dean's office and the college advising centers

11. Enough additional coursework to make a total of 120 semester hours

**Option II: Public Health Honors**

6. Breadth requirement: An honors mathematics course; Biology 315H and 325H; Chemistry 301H and 302H; credit by examination may not count toward this requirement

7. In fulfilling requirement 2a, students must complete an honors statistics course

8. Chemistry 204, 320M, and Biochemistry 369

9. A section of Undergraduate Studies 302 or 303 that is approved by the program honors adviser

10. A section of Rhetoric and Writing 309S that is restricted to students in the Dean’s Scholars Honors Program

11. Two semesters of Public Health 379H

12. Nine additional hours of coursework approved by the departmental honors adviser

13. Six semester hours of coursework from the College of Liberal Arts and/or the College of Fine Arts

14. Enough additional coursework to make a total of 120 semester hours

**Option III: Advanced Program**

This program provides students with a foundation in the natural sciences applied to public health and advanced specialist training in preparation for a leadership position in public health practice. This program leads to the completion of the Bachelor of Science in Public Health and the Master of Public Health, awarded by the School of Public Health at The University of Texas Health Sciences Center at Houston. During the senior year, students complete the first year of the Master of Public Health at the Austin Regional Campus. The second year of the Master of Public Health is completed at one of the five regional campuses in Austin, Brownsville, Dallas, El Paso, Houston, and San Antonio. Upon completion of the first year of the Master of Public Health, coursework may be applied toward Option III requirements. Option III students may apply to graduate upon completion of the undergraduate degree requirements and prior to the completion of the Master of Public Health.

6. Mathematics 408C, 408N, or 408R.

7. Biology 311C, 311D, and 325; or 315H and 325H; these courses must be completed before the student progresses to other upper-division biology and upper-division public health courses

8. Chemistry 301 or 301H, 302 or 302H, 204, 320M, and Biochemistry 369

9. One of the following foreign language/culture choices:
   a. Beginning level proficiency coursework, or the equivalent, in a foreign language
   b. First course in a foreign language and a three-semester-hour course in the culture of the same language area
   c. Two three-semester-hour courses in one foreign culture area; the courses must be chosen from an approved list available in the dean's office and the college advising centers

10. Enough additional coursework to make a total of 120 semester hours; a maximum of 18 hours of graduate coursework completed at the School of Public Health at the University of Texas Health Sciences Center may be applied as elective hours toward the Bachelor of Science in Public Health, Option III: Advanced Program, if needed to reach a total of 120 hours.

* Graduate coursework may not be applied toward the public health core requirements 2a through 2f.

**Special Requirements**

Students must fulfill both the University’s General Requirements (p. 20) for graduation and the college requirements (p. 648). They must also earn a grade of at least C- in each foundation course, public health core course, and mathematics and science course required by the degree, and a grade point average in these courses of at least 2.00. More information about grades and the grade point average is given in the General Information Catalog.

**Additional Requirements for Option II**

To graduate under Option II, students must remain in good academic standing in the Dean's Scholars Program, must submit an honors thesis approved by the departmental honors adviser, and present their research in an approved public forum, such as the college’s annual Undergraduate Research Forum.

**Additional Requirements for Option III**

Students admitted to Option III are required to follow the admission schedule and policies of Master of Public Health program at the School of Public Health at The University of Texas Health Sciences Center at Houston. Students are expected to make continuous progress toward the undergraduate and graduate degrees by completing required undergraduate and graduate public health coursework each semester of the fourth year. Students who fail to complete graduate coursework two long-session semesters in a row will be removed from the program and must re-enroll at the University of Texas at Austin to complete the Bachelor of Science in Public Health Option I. Students will be notified prior to removal from the graduate program. Students must earn the Bachelor of Science in Public Health in their fourth year to be eligible to continue in the Master of Public Health program in their fifth year.

**Bachelor of Science in Textiles and Apparel**

The Division of Textiles and Apparel is a place to get a broad-based education, well suited for career opportunities. Students in the Division of Textiles and Apparel enjoy a wide range of academic programs and career opportunities. They study the art of design, the science of chemistry and physics, and the application of retail and management principles, through the lens of history. Majors come in three packages: merchandising and consumer sciences; apparel, functional, and technical design; and textile conservation and museum studies. Each program provides hands-on experience with rapidly evolving retail environments, intercultural practices and customs, consumer behavior, apparel and fashion design, computer-aided design, fashion show production and event organization, garment conservation and museum management, and fiber and fabric testing. Capstone retail merchandising and apparel design programs take students to high-profile venues and provide rich opportunities in honors programs. Internships are available to enhance the educational experience and ensure strong career opportunities. Basic research is being conducted in bio-based fibers and specialized fabrics, and 3D technology to address basic human needs.
Research is also conducted involving the effects of change and new technologies on the development and distribution of creative textile products. The Division of Textiles and Apparel is a marvelous place to get a broad-based education, well suited for rewarding career opportunities.

Prescribed Work Common to All Options

In the process of fulfilling degree requirements, all students must complete:

1. Core curriculum
2. Skills and experience flags:
   a. Writing: two flagged courses beyond Rhetoric and Writing 306 or its equivalent, including one at the upper-division level
   b. Quantitative reasoning: one flagged course
   c. Global cultures: one flagged course
   d. Cultural diversity in the United States: one flagged course
   e. Ethics: one flagged course
   f. Independent inquiry: one flagged course

Courses that may be used to fulfill flag requirements are identified in the Course Schedule (http://registrar.utexas.edu/schedules). They may be used simultaneously to fulfill other requirements, unless otherwise specified. Please note, students may not earn the cultural diversity in the United States and the global cultures flags from the same course. Students are encouraged to discuss options with their academic advisers.

Prescribed Work for Each Option

Option I: Apparel, Functional, and Technical Design

3. Mathematics 408C, 408N or Statistics and Data Sciences 332
4. One of the following Statistics and Data Sciences 301, 302, 303, 304, 305, 306, or Educational Psychology 371
5. Chemistry 301 or 301H, 302 or 302H, and 204; and Biology 311C
6. The following textiles and apparel courses:
   a. Core Courses: Textiles and Apparel 301, 205, 105L, 313, 214K, 214L, 328, 331, 260L, and 260M; and two of the following courses: Textiles and Apparel 325L, 325M, and 327
   c. Global cultures: one flagged course
   d. Cultural diversity in the United States: one flagged course
   e. Ethics: one flagged course
   f. Independent inquiry: one flagged course
7. Thirty-six semester hours of upper-division coursework, of which at least 18 must be within and at least nine must be outside the School of Human Ecology. At least 21 semester hours of upper-division coursework must be taken in residence at the University
8. Enough additional coursework to make a total of 120 semester hours

Option II: Merchandising and Consumer Sciences

In addition, students following the merchandising option must complete the following degree-level requirements. In some cases, courses that fulfill degree-level requirements also meet the requirements of the core.

3. Mathematics 408C, 408N, or Statistics and Data Sciences 332
4. One of the following: Statistics and Data Sciences 301, 302, 303, 304, 305, 306, or Educational Psychology 371
5. Chemistry 301 or 301H, 302 or 302H, and 204; and Biology 311C
6. Economics 301 or 304K
7. The following textiles and apparel courses:
   a. Core courses: Textiles and Apparel 301, 205, 105L, 313, 214K, 214L, 328, 331, 260L, and 260M; and two of the following courses: Textiles and Apparel 325L, 325M, and 327
8. Thirty-six semester hours of upper-division coursework, of which at least 18 must be within and at least nine must be outside the School of Human Ecology. At least 21 semester hours of upper-division coursework must be taken in residence at the University
9. Enough additional coursework to make a total of 120 semester hours

Option III: Textiles and Apparel Honors

3. Mathematics 408C, 408N, or Statistics and Data Sciences 332
4. Breadth Requirement: An approved calculus course and an approved statistics course (one of these must be honors); Chemistry 301H and 302H; Biology 315H and 325H. Credit earned by examination may not be counted toward this requirement.
5. A section of Undergraduate Studies 302 or 303 that is approved by the departmental honors adviser
6. A section of Rhetoric and Writing 309S that is restricted to students in the Dean’s Scholars Honors Program
7. Textiles and Apparel 105L, 205, 327, 328, 260L, and 260M
8. Twenty-two semester hours selected from the three streams of textiles and apparel courses with at least three semester hours in each of the streams: apparel, technical, and functional design; merchandising and consumer science; and textile conservation and museum studies, as well as Human Development and Family Sciences 322 with consent of the honors adviser
9. Six hours of textiles and apparel, including Textiles and Apparel 379H. In all cases, students will be required to conduct research and write a thesis. In some cases, this thesis will be accompanied by a portfolio of work
10. Six additional semester hours from biology, chemistry, computer science, engineering, mathematics or physics. Courses designed for non-science majors may not be counted toward this requirement
11. Six semester hours of coursework from the College of Liberal Arts and/or the College of Fine Arts
12. Thirty-six semester hours of upper-division coursework. At least 21 semester hours of upper-division coursework must be taken in residence at the University
13. Twelve additional semester hours of coursework approved by the departmental honors adviser
14. Enough additional coursework to make a total of 120 semester hours

Option IV: Textile Conservation and Museum Studies

3. Mathematics 408C, 408N, or Statistics and Data Sciences 332
4. One of the following: Statistics and Data Sciences 301, 302, 303, 304, 305, 306, or Educational Psychology 371
5. Chemistry 301 or 301H, 302 or 302H, 204, and 320M
6. Anthropology 302 and 304
7. The following textiles and apparel courses:
   a. Core courses: Textiles and Apparel 301, 205, 105L, 313, 214K, 214L, 328, 331, 260L, and 260M; and two of the following courses: Textiles and Apparel 325L, 325M, and 327

8. Thirty-six semester hours of upper-division coursework, of which at least 18 must be within and at least nine must be outside the School of Human Ecology. At least 21 semester hours of upper-division coursework must be taken in residence at the University
9. Enough additional coursework to make a total of 120 semester hours
8. Thirty-six semester hours of upper-division coursework, of which at least 18 must be within and at least 12 must be outside the School of Human Ecology
9. Enough additional coursework to make a total of 126 semester hours

Special Requirements

Students must fulfill both the University’s General Requirements (p. 20) for graduation and the college requirements (p. 648). They must also earn a grade of at least C- in each mathematics and science course required for the degree, and a grade point average in these courses of at least 2.00. More information about grades and the grade point average is given in the General Information Catalog (http://catalog.utexas.edu/general-information/academic-policies-and-procedures/computation-of-the-grade-point-average).

To graduate under Option III, students must remain in good standing in the Dean’s Scholars Honors Program (p. 645), must submit an honors thesis approved by the departmental honors adviser, and must present their research in an approved public forum, such as the college’s annual Undergraduate Research Forum. More information about the Undergraduate Research Forum is available at https://cns.utexas.edu/innovative-education/undergraduate-research/undergraduate-research-forum.

Order and Choice of Work

The student should consult the faculty adviser each semester about order and choice of work and balancing the laboratory load. Students should also check prerequisite requirements carefully.

Minor and Certificate Programs

In the College of Natural Sciences, only one transcript-recognized minor or transcript-recognized certificate may be declared per major.

A student who wishes to pursue more than one transcript-recognized minor or transcript-recognized certificate per major must consult with his or her academic adviser to get permission from the College. When considering whether to grant an exception and allow pursuit of another transcript-recognized credential, the academic adviser will take into account the student’s long-term education/professional goals and the student’s ability to graduate within four years of entering the university.

Students admitted to transcript-recognized certificate and transcript-recognized minor programs must contact their academic advisers to have approved programs added to their degree audit profiles. This allows progress toward the programs to be tracked and ensures that certificates and minors are added to official transcripts upon graduation, if all requirements are met.

Minor

The transcript-recognized undergraduate academic minor must be completed in conjunction with an undergraduate degree at The University of Texas at Austin. For more information regarding the requirements for achieving a minor, including a comprehensive list of minors, please visit the Minors and Certificate Programs (p. 13) section of the Undergraduate Catalog.

Certificate Programs

Undergraduate certificate programs encourage students to explore academic areas that support and extend their degree plans. The following certificates require at least 18 semester hours of coursework, some of which may also be used to fulfill degree requirements. Undergraduates who complete the certificate requirements in conjunction with their degree requirements or within one year after earning the degree will receive a certificate and recognition on their University transcript. A maximum of nine hours in the certificate program may be taken after completion of the undergraduate degree. At least half of the required coursework in the certificate program must be completed in residence at the University.

Applied Statistical Modeling Certificate

The certificate in Applied Statistical Modeling equips undergraduate students with the tools necessary to understand how to apply statistics to their primary field of study. This certificate program is designed to complement diverse degree programs and to appeal to students across the University in engineering, science, economics, mathematics, and many other disciplines. Certificate students will complete one course in the mathematical foundations of statistics, a two-course sequence in applied statistics, and nine additional hours in statistics, machine learning, econometrics, and other relevant courses from the approved list below.

Admission to the certificate is by application only. Students may download an application from the Department of Statistics and Data Sciences webpage. Students seeking the certificate must also complete the prerequisite course Mathematics 408C, 408L, 408N, 408R, or 408S with a grade of at least C.

The certificate consists of 18 hours. Students must receive a grade of at least C in each course applied toward the certificate and have a cumulative grade point average of at least 3.0 in the courses presented to fulfill the certificate. Courses that appear in multiple approved course lists may be used to satisfy only one requirement. Students must contact the Department of Statistics and Data Sciences to apply for the certificate in the semester in which they are completing the requirements and graduating.

---

1. Students are encouraged to select courses within their own majors or colleges as appropriate. The Statistics and Data Sciences courses listed are available to students in all majors.

### The Elements of Computing Program Certificate

The Elements of Computing Program, administered by the Department of Computer Science, is designed to support computational work in disciplines other than computer science and to provide students with skills in the use of computer applications. Any non-computer science major may take any elements of computing course for which he or she meets the prerequisite. No application process is required.

To earn the Elements of Computing Certificate, students must complete 18 semester hours of coursework with a grade of at least C- in each course.

The following coursework is required:

<table>
<thead>
<tr>

Please Note:

With the approval of the certificate program faculty committee, other appropriate courses may be counted toward the elective requirement.

### Evidence and Inquiry Certificate

The Evidence and Inquiry Certificate, pursued by students in the Polymathic Scholars Program and open by application to others, allows students to design an area of study shaped by questions that require evidence and methodologies outside their major. Students work with faculty to identify interests, map them onto academic disciplines at the University, and determine questions related to those interests that might be answerable by research that combines expertise from at least two disciplines. Students describe their area of study, identify primary questions, name two University of Texas at Austin faculty members with research experience relevant to their field, and justify the courses they would take in a written proposal that must be reviewed by three members of the program's faculty steering committee. Students complete an original research thesis in their final year. Those who plan to pursue the certificate must apply no later than the end of their third long semester.

More information about the Evidence and Inquiry Certificate is available on the College of Natural Sciences website (http://cns.utexas.edu/students/degrees-majors-advising/graduation).

The certificate program requires 22 semester hours of coursework, including at least 11 hours completed in residence. Students must meet the following requirements:

---

**Computational Science and Engineering Certificate**

The Computational Science and Engineering Certificate program is sponsored by the Cockrell School of Engineering, the Jackson School of Geosciences, the College of Liberal Arts, and the College of Natural Sciences; it is administered by the Institute for Computational Engineering and Sciences (ICES). Information regarding the specific requirements of the Certificate can be found in the Cockrell School of Engineering's Minor and Certificates section (p. 227) of the Undergraduate Catalog.
In the College of Natural Sciences, the Evidence and Inquiry Certificate may be used to complement any major. Some certificate courses will also fulfill degree requirements established by the student’s major department and are given later in this section; however, some of the 22 hours required for the certificate may be in addition to the number of hours required for the degree.

**Food and Society Certificate**

Though food-related issues vary widely in focus, they are all linked by their complexity and are deeply interdisciplinary nature, each relating to topics of health and nutrition, genetics, politics, culture, the environment, economics, and business. Students will be able to appreciate the full range of these interdisciplinary ties and apply new perspectives to their primary academic majors and careers.

Students completing the certificate will be able to apply a more comprehensive understanding of the implications of their food-related actions and decisions; find better solutions to today’s complex problems; formulate more effective public policy; become better informed and active citizens; and make healthier choices for themselves and their families.

No admission to the certificate is required. Students must contact the advising office in the School of Human Ecology to apply for the certificate the semester before the certificate requirements are met.

The certificate consists of 18 hours, of which nine hours must be in upper-division coursework. Courses must be completed with minimum grades of at least C- unless the course is offered only on the pass/fail basis. Students also seeking the Bachelor of Science in Nutrition may count a maximum of six hours in nutrition toward the food and society certificate.

Some of the courses may contain prerequisites that are in addition to the coursework for the certificate.

Forensic Science Certificate

The Forensic Science Certificate provides an interdisciplinary perspective for students interested in careers in forensic science.

Students seeking employment in forensic science laboratories upon graduation are encouraged to select biology and chemistry courses. Some of these courses may require introductory biology and chemistry courses as prerequisites.

Students must apply online for admission to the certificate through the university-wide portal for transcript-recognized certificates as soon as they decide to pursue the certificate. The certificate consists of 18 hours, including six upper-division hours, with grades of at least C-:

<table>

- SDS 301 Elementary Statistical Methods
- SDS 302 Data Analysis for the Health Sciences
- SDS 304 Statistics in Health Care
- SDS 306 Statistics in Market Analysis
- SDS 328M Biostatistics

Additional coursework from the criminalistics, behavioral science and forensic science sections above. 1

1. A course may not count toward both the six-hour requirement and the 9-hour requirement

Marine Science Certificate

The Marine Science transcript-recognized certificate enables students to explore the field of marine science. The certificate provides a foundation of basic competency in the fundamentals of marine science, along with specialized upper-division coursework in aquatic science. The knowledge of aquatic science that students gain through the certificate will help them to be competitive for employment or graduate study in this field.

The certificate consists of a minimum of 19 hours with grades of at least C-. Most of the courses in the certificate contain prerequisites of one year of general biology and one year of general chemistry.

Marine and Freshwater Biology and Marine and Freshwater Science majors are not eligible to earn the certificate. Environmental Science majors may count no more than nine hours of degree requirements toward the Marine Science certificate.

- CH 301 Principles of Chemistry I
- CH 301H Principles of Chemistry I: Honors
- CH 302 Principles of Chemistry II
- CH 302H Principles of Chemistry II: Honors

Nine hours from the following, including at least six hours at the Marine Science Institute in Port Aransas, Texas:
- MNS 440 Limnology and Oceanography
- MNS 152L Principles of Marine Science: Laboratory Studies
- MNS 252L Principles of Marine Science: Laboratory Studies
- MNS 152S Principles of Marine Science: Undergraduate Seminar
- MNS 252S Principles of Marine Science: Undergraduate Seminar
- MNS 152T Principles of Marine Science: Special Topics
Pre-Health Professions Certificate

The Pre-Health Professions Certificate assists students in preparing for post-baccalaureate, healthcare professional programs. The certificate consists of a minimum of 18 hours, including nine hours in residence. Each course presented for the certificate must be completed with a grade of at least C-. The certificate is composed of two separate tracks: a track for majors in the College of Natural Sciences, and a track for majors in other colleges across the university. Students must apply online for admission to the certificate through the university-wide portal for transcript recognized certificates.

Students are encouraged to work closely with the Health Professions Office to select healthcare themes relevant to their professional career goals. Some of the courses may contain prerequisites that are in addition to the coursework for the certificate.

Majors in the College of Natural Sciences must seek the Science Major Track.

Majors outside of the College of Natural Sciences must seek the Non-Science Major Track. The composition of the non-science major track is science coursework necessary for admission to post-baccalaureate, healthcare professional programs. Non-science majors may apply to the certificate program upon completion of the following courses with grades of at least B: Chemistry 301 or 302, and one of the following: Statistics and Data Sciences 302, Mathematics 408C, 408K, 408N, or 408R. Upon admission, the ability to progress in the certificate is dependent on completion of the certificate courses with satisfactory grades.

- SDS 304 Statistics in Health Care
- SDS 306 Statistics in Market Analysis
- SDS 328M Biostatistics

Additional upper-division coursework in biochemistry, biology, and chemistry by approval of the undergraduate certificate adviser

### Non-science Major Track

**Requirements**
- Complete 18 hours chosen from one of the health professions preparation sequences. The 18 hours may be composed of introductory coursework, advanced coursework, or a mixture of the two

#### Pre-dental Preparation

**Introductory Coursework:**
- BIO 206L Introductory Laboratory Experiments in Biology
- BIO 311C Introductory Biology I
- BIO 311D Introductory Biology II
- CH 204 Introduction to Chemical Practice
- PHY 302K General Physics Technical Course: Mechanics, Heat, and Sound
- PHY 302L General Physics Technical Course: Electricity and Magnetism, Light, Atomic and Nuclear Physics
- PHY 102M Laboratory for Physics 302K
- PHY 102N Laboratory for Physics 302L

**Advanced Coursework:**
- BCH 369 Fundamentals of Biochemistry
- BIO 320 Cell Biology
- BIO 325 Genetics
- BIO 326R General Microbiology
- CH 220C Organic Chemistry Laboratory
- CH 320M Organic Chemistry I
- CH 320N Organic Chemistry II

#### Pre-optometry Preparation

**Introductory Coursework:**
- BIO 206L Introductory Laboratory Experiments in Biology
- BIO 311C Introductory Biology I
- BIO 311D Introductory Biology II
- CH 204 Introduction to Chemical Practice
- PHY 302K General Physics Technical Course: Mechanics, Heat, and Sound
- PHY 302L General Physics Technical Course: Electricity and Magnetism, Light, Atomic and Nuclear Physics
- PHY 102M Laboratory for Physics 302K
- PHY 102N Laboratory for Physics 302L

**Advanced Coursework:**
- BCH 369 Fundamentals of Biochemistry
- BIO 325 Genetics
- BIO 326R General Microbiology
- BIO 326R General Microbiology
- BIO 446L Human Microscopic and Gross Anatomy
- BIO 365S Human Systems Physiology
- BIO 165U Human Systems Physiology Laboratory
- BIO 320M Organic Chemistry I
- BIO 320N Organic Chemistry II
- CH 220C Organic Chemistry Laboratory

#### Pre-physical Therapy Preparation

**Introductory Coursework:**
- BIO 206L Introductory Laboratory Experiments in Biology
- BIO 311C Introductory Biology I
- BIO 311D Introductory Biology II
- CH 204 Introduction to Chemical Practice
- PHY 302K General Physics Technical Course: Mechanics, Heat, and Sound
- PHY 302L General Physics Technical Course: Electricity and Magnetism, Light, Atomic and Nuclear Physics
- PHY 102M Laboratory for Physics 302K
- PHY 102N Laboratory for Physics 302L

**Advanced Coursework:**
- BCH 369 Fundamentals of Biochemistry
- BIO 325 Genetics
- BIO 326R General Microbiology
- BIO 326R General Microbiology
- BIO 446L Human Microscopic and Gross Anatomy
- BIO 365S Human Systems Physiology
- BIO 165U Human Systems Physiology Laboratory
- CH 320M Organic Chemistry I
- CH 320N Organic Chemistry II
- CH 220C Organic Chemistry Laboratory

1. A completed calculus-based physics sequence may substitute for the purpose of earning the certificate.
2. Previously completed Biology 326M may substitute.

**Scientific Computation and Data Sciences Certificate**

The Certificate in Scientific Computation and Data Sciences helps undergraduates equip themselves with the mathematical, statistical, and computer-based tools necessary to investigate complex systems in a variety of applications. It is designed to appeal to students across the University in science, engineering, economics, premedicine, sociology, and many other disciplines. The program is administered by the Department of Statistics and Data Sciences. To be admitted, a student must be in good standing in an approved undergraduate degree program and must have earned a grade of at least C- in each certificate course he or she has completed. Students may apply for admission to the program at any point in their undergraduate study; they are encouraged to apply as early as possible so that they can be advised throughout the program.
The following coursework is required. Students must also complete Mathematics 408D or 408M as a prerequisite. No single course or topic may be used to meet more than one of these requirements.

Textile Conservation and Museum Studies Certificate

The Certificate in Textile Conservation and Museum Studies helps undergraduates equip themselves with the fiber science, exhibition planning, textile conservation, and museum management skills necessary to conserve textiles in various settings. It is designed to appeal to students across the University in science, history, information science, computational science, merchandising, fiber science and apparel design, and many other disciplines. The program is administered by the Division of Textiles and Apparel in the School of Human Ecology. To be admitted, a student must be in good standing in an approved undergraduate degree program and must have earned a grade of at least C- in each certificate course he or she has completed. Students may apply for admission to the program at any point in their undergraduate study; they are encouraged to apply as early as possible so that they can be advised throughout the program.

The following coursework is required:

<table>
<thead>
<tr>
<th>Requirements</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>INF 304D Introduction to Information Studies</td>
<td>3</td>
</tr>
<tr>
<td>INF 335C Information in Cyberspace</td>
<td>3</td>
</tr>
<tr>
<td>TXA 205 Textiles and Textiles Laboratory</td>
<td>3</td>
</tr>
</tbody>
</table>
**UTeach Natural Sciences Secondary Teaching Option Certificate**

The UTeach Natural Sciences program offers a secondary teaching option certificate to students who intend to teach at the middle or high school level.

The following coursework is required, with grades of at least C:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIO 337</td>
<td>3</td>
</tr>
<tr>
<td>CH 368</td>
<td>3</td>
</tr>
<tr>
<td>PHY 341</td>
<td>3</td>
</tr>
<tr>
<td>HIS 329U or PHL 329U</td>
<td>3</td>
</tr>
</tbody>
</table>

Eighteen hours of professional development coursework consisting of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>EDC 651S</td>
<td>3</td>
</tr>
<tr>
<td>EDC 365C or UTS 350</td>
<td>3</td>
</tr>
<tr>
<td>EDC 365D or UTS 355</td>
<td>3</td>
</tr>
<tr>
<td>EDC 365E or UTS 360</td>
<td>3</td>
</tr>
<tr>
<td>UTS 101</td>
<td>3</td>
</tr>
</tbody>
</table>

In addition, students must meet the following requirements to graduate and be recommended for certification:

1. University grade point average of at least 2.50
2. Successful completion of secondary teacher certification and identified discipline specific content courses
3. Successful passing of final teaching portfolio review, conducted by the UTeach Program in Natural Sciences

**Courses**

The faculty has approval to offer the following courses in the academic years 2018-2019 and 2019-2020; however, not all courses are taught each semester or summer session. Students should consult the Course Schedule (http://registrar.utexas.edu/schedules) to determine which courses and topics will be offered during a particular semester or summer session. The Course Schedule may also reflect changes made to the course inventory after the publication of this catalog.

A full explanation of course numbers is given in the General Information Catalog. In brief, the first digit of a course number indicates the semester hour value of the course. The second and third digits indicate the rank of the course: if they are 01 through 19, the course is of lower-division rank; if 20 through 79, of upper-division rank; if 80 through 99, of graduate rank.

**Natural Sciences**

**Natural Sciences: NSC**

**Lower-Division Courses**

**NSC 301C. Freshman Seminar.**

Restricted to first-semester freshmen. Small-group seminar involving reading, discussion, writing, and oral reports. Introduction to University resources, including libraries, computer and research facilities, and museums. Several sections are offered each semester, with various topics and instructors. Two lecture hours and one discussion hour a week for one semester.

**NSC 001D. Practicum in Medical Laboratory Science.**

Restricted to medical laboratory science majors; contact the department for permission to register for this class. Students participate in a twelve- to sixteen-month off-campus education program. Forty laboratory hours a week for one semester. Offered on the pass/fail basis only. Prerequisite: Completion of all organized coursework for the Bachelor of Science in Medical Laboratory Science degree and consent of the program director.

**NSC 001S. Natural Sciences Seminar.**

Restricted to students in special programs in the College of Natural Sciences. Seminars may include study sessions, career and networking events, student and community speakers, and other subjects related to issues for students in science. Emphasis on student participation. May be repeated for credit.

**NSC 302. Texas Interdisciplinary Plan: Critical Thinking Seminar.**

Restricted to students in the Texas Interdisciplinary Plan or in the Gateway Program. An examination of fundamental concepts in critical thinking, including the role of intellectual virtues, an analysis of the elements of thought, Socratic thinking, and the application of universal intellectual standards. Three lecture hours a week for one semester, with
additional hours to be arranged. Liberal Arts 302 and Natural Sciences 302 may not both be counted. May not be repeated for credit.

**NSC 303. Creative Communication of Scientific Research.**
Same as Communication 308. Learn to communicate about science, technology, and medicine to broad audiences in order to increase understanding of the impact these fields have on human lives. Three lecture hours a week for one semester. Communication 308 and Natural Sciences 303 may not both be counted.

**NSC 306J. Hands-On Science I.**
Restricted to applied learning and development majors. The first of an integrated sequence of laboratory-based courses. Subjects include energy and motion, electrical circuits, atomic theory, waves, and sound. Two lecture hours and three laboratory hours a week for one semester. Natural Sciences 306J and 309 (Topic: Science for the Twenty-First Century I) may not both be counted. May not be counted toward a degree in the College of Natural Sciences.

**NSC 306K. Hands-On Science II.**
Restricted to applied learning and development majors. The second of an integrated sequence of laboratory-based courses. Subjects include physical and chemical properties of matter, Earth's building blocks, plate tectonics, landforms, and weathering. Two lecture hours and three laboratory hours a week for one semester. Natural Sciences 306K and 309 (Topic: Science for the Twenty-First Century II) may not both be counted. May not be counted toward a degree in the College of Natural Sciences. Prerequisite: Natural Sciences 306J with a grade of at least C-.

**NSC 306L. Hands-On Science III.**
Restricted to applied learning and development majors. The third of an integrated sequence of laboratory-based courses. Subjects include properties of life, compartments of living organisms, inheritance, adaptations, variations, and disease. Two lecture hours and three laboratory hours a week for one semester. Natural Sciences 306L and 309 (Topic: Science for the Twenty-First Century III) may not both be counted. May not be counted toward a degree in the College of Natural Sciences. Prerequisite: Natural Sciences 306J and 306K with a grade of at least C- in each.

**NSC 306M. Hands-On Science IV.**
The fourth of an integrated sequence of laboratory-based courses. Subjects include astronomy and the earth's climate. Two lecture hours and three laboratory hours a week for one semester. Natural Sciences 306M and 309 (Topic: Science for the Twenty-First Century IV) may not both be counted. May not be counted toward a degree in the College of Natural Sciences. Prerequisite: Natural Sciences 306J and 306K with a grade of at least C- in each.

**NSC 108, 208, 308, 408, 508, 608, 708, 808, 908. Topics in Natural Sciences.**
Restrictions vary with the topic. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Offered on the pass/fail basis only. Prerequisite: Varies with the topic.

**Topic 1: Capstone Prospectus Seminar.** Restricted to students enrolled in the Evidence and Inquiry Certificate program or in the Health Science Honors Program. Seminar to prepare students for their capstone project by helping them develop a research prospectus, identify faculty mentors, and develop a target list of journals for publication of a report on their research. For each semester hour of credit earned, one lecture hour a week for one semester. Offered on the pass/fail basis only.

**Topic 2: Evidence and Inquiry Proposal Seminar.** Enrollment restricted to the Evidence and Inquiry Certificate program. Development of compelling, cross-disciplinary, and academically feasible questions of interest outside student's major area of study; design a field of study around those questions; and write a field proposal for faculty review. For each semester hour of credit earned, one lecture hour a week for one semester. Offered on the pass/fail basis only.

**NSC 109, 209, 309. Topics in Natural Science.**
Restrictions vary with the topic. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 3: Natural Sciences Ethics Seminar.**
**Topic 4: Polymathic Capstone Field Invention.** Restricted to students pursuing the Evidence and Inquiry Certificate. Guidance in developing a feasible interdisciplinary field of study and consulting with faculty who are familiar with the field. Substantive writing instruction to develop a proposal that describes and justifies the interdisciplinary field of study.

**Topic 5: Introduction to Applied Problem Solving.** Restricted to first-year students in the TIP Scholars program. Introduction to applied problem-solving with a focus on critical thinking and ethical reasoning on issues relevant to college students.

**NSC 209P. Topics in Calculus for Emerging Scholars.**
Restricted to students in the Texas Interdisciplinary Plan Scholars Program. A workshop focusing on ideas more than computation and procedures, where students work in small groups on sets of problems designed to encourage advanced thinking about calculus. Three lecture hours a week for one semester. Mathematics 210T (Topic: Topics for Emerging Scholars) and Natural Sciences 209P may not both be counted. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Concurrent enrollment in an approved calculus course.

**NSC 110E. Internship in the Sciences.**
Restricted to students in the College of Natural Sciences. Practical work experience related to the student's area of interest in natural sciences. Internships may be on or off campus, paid or unpaid, and may include work with nonprofit agencies, government offices, or private corporations. Students work in a professional environment and apply analysis, communication, and other academic skills to practical work. Individual instruction conducted on the Web. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Completion of fifteen semester hours of coursework and consent of instructor.

**NSC 110H. Topics in Natural Sciences Honors Seminar.**
Restricted to students in honors programs in the College of Natural Sciences. Emphasis on student participation. Format may include student speakers, outside speakers, discussions, visits to laboratories, or other enrichment activities. The equivalent of one lecture hour a week for one semester. May be repeated for credit when the topics vary. Offered on the pass/fail basis only.

**Topic 1: Dean's Scholars First-Year Seminar.** Restricted to students in the Dean's Scholars Program. The equivalent of one lecture hour a week for one semester. Offered on the pass/fail basis only.

**Topic 2: Health Science Scholars First-Year Seminar.** Restricted to students in the Health Science Scholars Program. The equivalent of one lecture hour a week for one semester. Offered on the pass/fail basis only.

**Topic 3: Polymathic Scholars First-Year Seminar.** Restricted to students in the Polymathic Scholars Program. The equivalent of one lecture hour a week for one semester. Offered on the pass/fail basis only.
NSC 311. Critical Reasoning.
Restricted to students in the Texas Interdisciplinary Plan program. An examination of the fundamental concepts in critical reasoning, including the analysis of argument, application of intellectual standards, and the role of intellectual virtues. Three lecture hours a week for one semester, with additional hours to be arranged.

NSC 115. Women in Natural Sciences Seminar.
The work and lives of women scientists in a sociocultural context. One lecture hour a week for one semester.

Restricted to freshmen and sophomores. Lectures and discussions on various contemporary issues. Emphasis on multidisciplinary perspectives and critical discourse. For 118C, two lecture hours a week for eight weeks; for 218C, two lecture hours a week for one semester; for 318C, three lecture hours a week for one semester, or two lecture hours and one hour of supervised research a week for one semester. May be repeated for credit when the topics vary.

Restricted to students participating in a Maymester Abroad course. Discussion of various issues related to academic, cultural, and personal aspects of completing academic work in international locations. For each semester hour of credit earned, one lecture hour a week for one semester. Natural Sciences 119, 219, 319, 419, 519, 619 and Undergraduate Studies 119 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Varies with the topic.

Upper-Division Courses

NSC 120E. Internship in the Sciences.
Restricted to students in the College of Natural Sciences. Practical work experience related to the student's area of interest in Natural Sciences. Internships may be on or off campus, paid or unpaid, and may include work with nonprofit agencies, government offices, or private corporations. Students work in a professional environment and apply analysis, communication, and other academic skills to practical work. Individual instruction conducted on the Web. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Upper-division standing and consent of instructor.

NSC 321. Introduction to Peer Mentoring and Leadership.
Restricted to students in the College of Natural Sciences. Explores current theory and research related to peer mentoring and leadership within higher education. Includes interactive lectures; and the opportunity for students to identify and work through ethical choices as peer leaders; to study leadership concepts such as conflict resolution, diversity, and group dynamics; to work collaboratively; and to conduct independent research. Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Consent of instructor.

Restrictions vary with the topic. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Offered on the pass/fail basis only. Prerequisite: Upper-division standing; additional prerequisites vary with the topic.

NSC 123, 223, 323, 423, 523, 623, 723, 823, 923. Natural Sciences Topics.
Restrictions vary with the topic. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing; additional prerequisites vary with the topic.

Topic 1: Polymathic Capstone Thesis Preparation Seminar. Restricted to students pursuing the Evidence and Inquiry Certificate. Supports the research process to identify a faculty mentor, define appropriate thesis topics, develop an annotated bibliography, draft a thesis proposal, and develop an initial plan for drafting thesis. Additional prerequisite: Natural Sciences 109 (Topic 4).

NSC 124, 224, 324, 424, 524, 624, 724, 824, 924. Natural Sciences Topics.
Restrictions vary with the topic. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

Restricted to students participating in a Maymester Abroad course. Discussion of various issues related to academic, cultural, and personal aspects of completing academic work in international locations. For each semester hour of credit earned, one lecture hour a week for one semester. Natural Sciences 129, 229, 329, 429, 529, 629 and Undergraduate Studies 119 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Varies with the topic.

Restricted course; contact the College of Natural Sciences Honors Center for permission to register. Directed reading, research, and discussion followed by the writing of a substantial thesis. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

Department of Astronomy

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 793).

Astronomy: AST

Lower-Division Courses

AST 301 (TCCN: ASTR 1303). Introduction to Astronomy.
General introduction to astronomy for nonscience majors. The solar system, stars, galaxies, and cosmology. Three lecture hours a week for one semester. Only one of the following may be counted: Astronomy 301, 302, 303, 307. May not be counted toward a degree in the College of Natural Sciences.

AST 101L. Astronomy Discovery Laboratory.
For nonscience majors. Hands-on projects in observational astronomy and related laboratory disciplines. Students work in small groups. Three laboratory hours a week for one semester. May not be counted by students with credit for Astronomy 103L. Prerequisite: Credit or registration for Astronomy 301.

AST 302. Self-Paced Introduction to Astronomy.
General, self-paced introduction to astronomy for nonscience majors. The solar system, stars, galaxies, and cosmology. Self-paced. Only one of the following may be counted: Astronomy 301, 302, 303, 307. May not be counted toward a degree in the College of Natural Sciences.
AST 303. Introduction to Astronomy with Celestial Observations.
General introduction to astronomy for nonscience majors. The solar system, stars, galaxies, and cosmology. Introduces students to the night sky and includes some observational activities. Three lecture hours a week for one semester. Only one of the following may be counted: Astronomy 301, 302, 303, 307. May not be counted toward a degree in the College of Natural Sciences.

For nonscience majors. Observations of the night sky with the naked eye and small telescopes; indoor laboratory activities. Two laboratory hours a week for one semester. May not be counted by students with credit for Astronomy 101L, 302, or 303. Prerequisite: Credit or registration for Astronomy 301 or 307.

AST 104. Undergraduate Astronomy Seminar.
Designed for astronomy majors. Discussions about current astronomical research, with different topics emphasized each semester. One lecture hour a week for one semester. May be repeated twice for credit when the topics vary. Offered on the pass/fail basis only.

AST 307. Introductory Astronomy.
Introduction to astronomy for science and engineering students. The solar system, stars, galaxies, and cosmology. Three lecture hours a week for one semester. Only one of the following may be counted: Astronomy 301, 302, 303, 307. Prerequisite: Mathematics 305G or the equivalent or consent of instructor; high school trigonometry and physics are recommended.

Selected topics in modern astronomy: solar system, galaxies, peculiar stars, cosmology, and others. Three lecture hours a week for one semester. May not be counted toward a degree in the College of Natural Sciences. May be repeated for credit when the topics vary. Prerequisite: Astronomy 301, 302, or 303.

Topic 1: Popular Astronomy. Survey of topics of greatest interest to the public and the media, including new planets, black holes, dark matter, dark energy, and the origin of the Universe.

AST 309C. Birth of Stars and Planets.
Study of how stars and planets form, including discussions on the implications for the formation of our own solar system. Designed for non-College of Natural Sciences majors. Three lecture hours a week for one semester. Astronomy 309 (Topic: Birth of Stars and Planets) and 309C may not both be counted. May not be counted toward a degree in the College of Natural Sciences. Prerequisite: Astronomy 301 or 307.

AST 309G. Popular Astronomy for Nonscience Students.
Subjects include new planets, neutron stars, supernovae, gamma-ray bursts, black holes, dark matter, dark energy, and the origin of the universe. Designed for non-College of Natural Sciences majors. Three lecture hours a week for one semester. Astronomy 309 (Topic 1: Popular Astronomy) and 309G may not both be counted. May not be counted toward a degree in the College of Natural Sciences. Prerequisite: Astronomy 301 or 307.

AST 309L. Search for Extraterrestrial Life.
Origin of life in the solar system, existence of other planetary systems, possibilities and techniques for detection of and communication with other intelligences. Designed for non-College of Natural Sciences majors. Three lecture hours a week for one semester. May not be counted toward a degree in the College of Natural Sciences. Prerequisite: Astronomy 301 or 307.

AST 309N. Lives and Deaths of Stars.
How stars live and die; extremes of stars and their life cycles. Exotic objects such as white dwarfs, supernovae, neutron stars, pulsars, and black holes. Specific subjects may vary with instructor. Designed for non-College of Natural Sciences majors. Three lecture hours a week for one semester. May not be counted toward a degree in the College of Natural Sciences. Prerequisite: Astronomy 301 or 307.

AST 309P. Astronomy in Science Fiction.
The use of astronomy and other sciences in science fiction literature. Critical analysis of selected novels as to the validity of the astronomy used. Designed for non-College of Natural Sciences majors. Three lecture hours a week for one semester. Prerequisite: Astronomy 301, 302, or 303.

AST 309Q. Time and the Cosmos.
From the beginning of time in the Big Bang to the end of time in the black hole. Includes the early universe, the formation and evolution of single and double stars, and the supercompact objects they eventually become: white dwarfs, pulsars, and black holes. Designed for non-College of Natural Sciences majors. Three lecture hours a week for one semester. May not be counted toward a degree in the College of Natural Sciences. Prerequisite: Astronomy 301 or 307.

AST 309R. Galaxies, Quasars, and the Universe.
Galaxies, quasars, giant black holes; cosmic evolution; the origin and future of the universe. Designed for non-College of Natural Sciences majors. Three lecture hours a week for one semester. May not be counted toward a degree in the College of Natural Sciences. Prerequisite: Astronomy 301 or 307.

AST 309S. The Solar System.
The nature, origin, and evolution of our solar system, including planets, moons, and other bodies. Designed for non-College of Natural Sciences majors. Three lecture hours a week for one semester. May not be counted toward a degree in the College of Natural Sciences. Prerequisite: Astronomy 301 or 307.

AST 309T. The Milky Way Galaxy.
Our spiral system of stars, gas, and dust; star formation. Designed for non-College of Natural Sciences majors. Three lecture hours a week for one semester. Prerequisite: Astronomy 301 or 307.

AST 309U. Conference Course in Astronomy.
Restricted enrollment; contact the department for permission to register. Offers a variety of topics each semester. Designed for non-College of Natural Sciences majors. Three lecture hours a week for one semester. May not be counted toward a degree in the College of Natural Sciences. Prerequisite: Astronomy 301 or 307.

AST 309V. Independent Study in Astronomy.
Independent study program for advanced undergraduate students supervised by an astronomy faculty member or research scientist. May be repeated for credit. Prerequisite: Consent of instructor or adviser.

AST 110C, 210C, 310C. Conference Course in Astronomy.
Independent research course with supervision by astronomy faculty member or research scientist. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester; hours to be arranged. May be repeated for credit.

AST 110K, 210K, 310K. Topics in Astronomy Research.
Designed for science and engineering majors. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester; hours to be arranged. May be repeated for credit when the topics vary. Prerequisite: Consent of instructor or adviser.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Astronomy. University credit is awarded for work in an exchange program; it may be counted as coursework taken in
residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**Upper-Division Courses**

**AST 321. Current Problems in Astronomy.**
For nonscience majors. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing, and Astronomy 301, 302, 303, or consent of instructor.

**AST 324. Origins: The Universe, Stars, Planets, and Life.**
For nonscience majors. Cosmic origins from the Big Bang to life, and the connections among the origins of stars, planets, and life. Three lecture hours a week for one semester. Prerequisite: Upper-division standing; and Astronomy 301, 302, 303, or consent of instructor.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Astronomy. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**AST 350L. History and Philosophy of Astronomy.**
Historical influence of astronomical concepts on social, economic, literary, and scientific life; the place of astronomy in society. Three lecture hours a week for one semester. Prerequisite: Upper-division standing; and Astronomy 301, 302, 303, or consent of instructor.

**AST 351. Astronomical Instrumentation.**
A hands-on course in computer-controlled optical instrumentation. Intended for natural science and engineering students interested in the practical aspects of instrument design and construction. Includes optics and optical design, electronics, machining and mechanical design, and computer interfacing. Students work in groups and as teams to design a computer-controlled optical instrument. The equivalent of three lecture hours a week for one semester. Prerequisite: Upper-division standing in the College of Natural Sciences or the Cockrell School of Engineering, or consent of instructor.

**AST 352K. Stellar Astronomy.**
Properties of stars and starlight: principles of radiation; interpretation of stellar spectra. Observational techniques such as photometry, spectroscopy, and telescopes and detectors; variable stars; binary stars. Three lecture hours a week for one semester. Prerequisite: Upper-division standing, and one of the following: Physics 301 and 303L; 301 and 316; 303K and 303L; or 303K and 316.

**AST 352L. Positional, Dynamical, and Kinematical Astronomy.**
Coordinate systems and time; stellar positions and motions; the kinematics and dynamics of star clusters and galaxies. Three lecture hours a week for one semester. Prerequisite: Credit or registration for Mathematics 427K.

**AST 152M. Stellar Astronomy Laboratory.**
An introduction to practical observational techniques in astronomy, designed for astronomy majors or advanced students in a physical science. Exercises on the spectroscopy, photometry, and positions of stars using a sixteen-inch telescope on campus. Three laboratory hours a week for one semester. With consent of instructor, may be repeated for credit. Prerequisite: Physics 316 and 116L; credit or registration for Astronomy 352K is recommended.

**AST 353. Astrophysics.**
Survey of the physics of stellar and nonstellar radiation laws, stellar atmospheres and interiors; high-energy astrophysics. Designed for science and engineering majors. Three lecture hours a week for one semester. Prerequisite: One of the following: Physics 301 and 303L; 301 and 316; 303K and 303L; or 303K and 316.

**AST 358. Galaxies and the Universe.**
Our galaxy and its constituents; stars and interstellar matter. Properties of other galaxies; galaxy interactions and mergers; expansion and evolution of the universe. Designed for science and engineering majors. Three lecture hours a week for one semester. Prerequisite: Upper-division standing, and one of the following: Physics 301 and 303L; 301 and 316; 303K and 303L; or 303K and 316.

**AST 364P. Planetary Systems.**
Modern studies of the solar system, including properties of the planets and smaller bodies, and the origin of planetary systems. Three lecture hours a week for one semester. Astronomy 364 and 364P may not both be counted. Prerequisite: Upper-division standing; Physics 316 or 303L; and Astronomy 307, 352k, or 353.

**AST 367M. Physical Science: Methods of Astronomy.**
Same as Physical Science 367M. An introductory, self-paced course in the methods of astronomy that emphasizes learning astronomical principles through observations. Six laboratory hours a week for one semester. May not be counted toward the Bachelor of Arts, Plan I, degree with a major in astronomy. Prerequisite: Upper-division standing and nine semester hours of coursework in mathematics and science, including one of the following: Physical Science 303, 304, Astronomy 301, 302, 303. Equivalent preparation in mathematics, physics, chemistry, or earth sciences may be substituted with written approval of the instructor.

**AST 175, 275, 375. Topics in Astronomy Research.**
Designed for science and engineering majors. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester; hours to be arranged. May be repeated for credit when the topics vary. Prerequisite: Consent of instructor or adviser.

**AST 175C, 275C, 375C. Conference Course in Astronomy.**
Restricted enrollment; contact the department for permission to register. Independent research course with astronomy faculty member or research scientist. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester; hours to be arranged. May be repeated for credit.

**AST 376. Special Topics in Advanced Astronomy.**
Designed for science majors. Three lecture hours a week for one semester. Up to six semester hours may be counted toward the major requirement for the Bachelor of Arts with a major in astronomy. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and consent of instructor.

Topic 1: Observational Methods in Astronomy. A hands-on course in astronomical observations and data analysis. Explores astronomical observing techniques, data reduction and analysis, and interpretation of results. The coursework will include regular exercises in obtaining and analyzing data to solve currently relevant astronomical problems. Additional prerequisite: Astronomy 376R with a grade of at least C.
AST 376C. Cosmology.
The laws of physics applied to the Universe at large: its featureless beginning in the Big Bang, its fundamental constituents including radiation, atoms, and dark matter; the discoveries of universal expansion and dark energy, and a structure reflected in the web of galaxies. Designed for science and engineering majors. Three lecture hours a week for one semester. Astronomy 376 (Topic: Cosmology) and 376C may not both be counted. Prerequisite: Upper-division standing, and one of the following: Physics 301 and 303L; 301 and 316; 303K and 303L; or 303K and 316.

AST 376R. A Practical Introduction to Research Methods.
Restricted to science and engineering majors. Practical exercises including analysis of imaging data, visualization, programming exercises with Python, IDL or other languages, statistical analyses, and training for papers and oral presentations. Three lecture hours a week for one semester. Astronomy 376 (Topic: Practical Intro to Research) and 376R may not both be counted. Prerequisite: Mathematics 305G or the equivalent; prior computing experience and an introductory astronomy course are recommended.

AST 379H. Honors Tutorial Course.
Restricted to science majors approved to graduate with honors. Research project and thesis for students electing to take the honors program in astronomy. Conference course. May be repeated once for credit. Prerequisite: Consent of the departmental honors adviser.

Biology
The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 793).

Biology: BIO

Lower-Division Courses
Topics in biology that are especially relevant to current issues and problems in modern society. For each semester hour of credit earned, one lecture hour a week for one semester. Some topics require one additional discussion hour or three or four additional laboratory hours a week. May not be counted toward a degree in biology. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

Topic 1: The Biology of Being Human. Introductory biology course that covers human evolution, genetics and genomics, behavior, population growth and environmental issues. May not be counted toward a degree in the College of Natural Sciences.

BIO 301D. Biology for Business, Law, and Liberal Arts.
Designed for non-science majors. The scientific method and the social uses of scientific information. Topics include diet and chronic disease, radiation biology, DNA fingerprinting, the biology of learning, conservation of biotic diversity, and the biology of reproduction. Three lecture hours a week for one semester. May not be counted toward a degree in the College of Natural Sciences.

BIO 301E. Problems in Modern Biology.
An introduction to major concepts in biology, with emphasis on topics, such as genetics, that are relevant to current issues in the field. Three lecture hours and one discussion hour a week for one semester. Biology 301E and 301L may not both be counted; Biology 301E and 301M may not both be counted. May not be counted toward a degree in biology. Prerequisite: Admission to the Plan II Honors Program.

BIO 301G. Genetics in the 21st Century.
Designed for non-science majors. An elementary course in human genetics and its social impact. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Biology 301G, 309F, 346. May not be counted toward a degree in the College of Natural Sciences, except for the Bachelor of Science in Human Development and Family Sciences.

BIO 301L (TCCN: BIOL 1308). Molecules to Organisms.
Designed for non-science majors. Introduction to the structure and function of organisms from the molecular to the organ system level, an integrated approach to cell and molecular biology, genetics, development, and physiology of organisms. Three lecture hours and one discussion hour a week for one semester. Biology 301L and 311C may not both be counted; Biology 301L and 311D may not both be counted. Biology 301E and 301L may not both be counted. May not be counted toward a degree in the College of Natural Sciences.

Designed for non-science majors. Introduction to environmental adaptations, diversity of organisms, species interactions, organization and processes of communities, population growth and limitations, evolution and population genetics, origin of life, and human impact on the environment. Three lecture hours and one discussion hour a week for one semester. Biology 301M and 311D may not both be counted. Biology 301E and 301M may not both be counted. May not be counted toward a degree in the College of Natural Sciences, except for the Bachelor of Science in Human Development and Family Sciences.

Supervised study of selected subjects in biology, by individual arrangement with the instructor. Conference course. May be repeated for credit. Prerequisite: Varies with instructor.

BIO 305F. How Plants Sense and Respond to Stimuli.
Designed for non-science majors. Exploration of the ways plants sense information about their environment and adapt their growth accordingly; similarities between plant and animal sensory physiology. Three lecture hours a week for one semester. May not be counted toward a degree in the College of Natural Sciences.

BIO 206L (TCCN: BIOL 1106, BIOL 1107). Introductory Laboratory Experiments in Biology.
The organizing principles of biology (such as molecular and cellular functions, reproduction, development, homeostatic mechanisms, and organismal physiology and behavior) are used within a comparative and evolutionary framework to train students in modern laboratory techniques, bioinformatics, experimental design, and interpretation of results. One lecture hour and four laboratory hours a week for one semester. Prerequisite: Credit or registration for Biology 311C or 311D.

BIO 208L. Field Biology.
Field projects, laboratory exercises, field trips, and computer simulation exercises to acquaint students with the principles and applications of ecology and some of the experimental and descriptive methods of ecological investigations. One lecture hour and four laboratory hours a week for one semester. Prerequisite: Credit or registration for Biology 311D.
**BIO 309D. The Human Body.**

Designed for nonscience majors. Introduction to the anatomical systems of the human body, their physiological functions and interrelationships. Three lecture hours and one discussion hour a week for one semester. Biology 309D and 365R may not both be counted. May not be counted by students with credit for Biology 365S. May not be counted toward a degree in the College of Natural Sciences, except for the Bachelor of Science in Human Development and Family Sciences.

**BIO 311C (TCCN: BIOL 1306). Introductory Biology I.**

Introduction to biological energy transformation, cell structure and physiology, and gene expression. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Biology 301L, 211, 311C. Biology 311C and 212 may not both be counted. Prerequisite: Credit or registration for Chemistry 301 or 301H.

**BIO 311D (TCCN: BIOL 1307). Introductory Biology II.**

Introduction to mechanisms of inheritance, evolution, physiology, and species interactions. Three lecture hours and one discussion hour a week for one semester. Biology 301L and 311D may not both be counted. Biology 301M and 311D may not both be counted. Prerequisite: Biology 311C with a grade of at least C-

**BIO 315H. Advanced Introduction to Genetics: Honors.**

Basic principles of genetics and cell biology. Emphasis on gene structure and regulation; transmission of heritable traits; structure and function of cells; bacterial and viral genetics; and recombinant DNA technology. Three lecture hours and one discussion hour a week for one semester. Prerequisite: A score of 5 on the College Board Advanced Placement Examination in Biology and credit or registration for Chemistry 301 or 301H.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the School of Biological Sciences. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**Upper-Division Courses**

**BIO 320. Cell Biology.**

Principles of eukaryotic cell structure and function; macromolecules, membranes, organelles, cytoskeleton, signaling, cell division, differentiation, motility, and experimental methodologies. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-

**BIO 320L. Cell Biology Laboratory.**

Explores the complex structures and functions of cells through direct observation and experimentation. Subjects may include regulation of gene transcription and translation, protein sorting, organelles and membrane trafficking, cytoskeletal dynamics, and cell division. Use a combination of modern molecular biology, biochemistry, and microscopy techniques, with a strong emphasis placed on hypothesis-driven approaches, proper experimental design, and clear scientific writing and presentation. One lecture hour and five laboratory hours a week for one semester. Prerequisite: The following with a grade of at least C-: Biology 325 or 325H, and Biology 206L, 208L, 226L, or Environmental Sciences 311.

**BIO 321G. Principles of Computational Biology.**

Introduces computational methods for the analysis of nucleic acid and protein sequences, with applications towards biological problems. Performance assessment will be based on experiential learning methods. Three lecture hours and two computer laboratory hours a week for one semester. Prerequisite: The following with a grade of at least C-: Biology 325 or 325H; Statistics and Data Sciences 328M (or Statistics and Scientific Computation 328M); and Mathematics 408C, 408S, or 408R.

**BIO 321L. Aquatic Entomology.**

The taxonomy of aquatic insects; the use of aquatic insects in biomonitoring. Two lecture hours and three laboratory hours a week for one semester. Only one of the following may be counted: Biology 321L, 370C (Topic: Applied Aquatic Entomology), 384K (Topic 13). Prerequisite: The following with a grade of at least C-: Biology 325 or 325H, and Biology 206L, 208L, 226L, or Environmental Science 311.

**BIO 322. Structure, Physiology, and Reproduction of Seed Plants.**

The principles of structure and functioning of higher plants; special attention to the dynamics of growth and development and reproduction. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-; Chemistry 302 or 302H, and concurrent enrollment in Biology 122L.

**BIO 122L. Structure, Physiology, and Reproduction of Seed Plants Laboratory.**

Observation of structure and reproduction in seed plants and employment of experimental techniques that demonstrate physiological processes, especially processes of growth and development. Two laboratory hours a week for one semester. Prerequisite: Concurrent enrollment in Biology 322; and the following with a grade of at least C-: Biology 206L, 208L, 226L or Environmental Sciences 311.

**BIO 323L. Laboratory Studies in Cell Biology.**

Research exercises involving light/electron microscopy, image processing, autoradiography, chromatography, fractionation, flow cytometry, spectroscopy, diffraction, antibody labeling, cell growth, and kinetics. One lecture hour and four laboratory hours a week for one semester. Prerequisite: The following with a grade of at least C-: Biology 325 or 325H, and Biology 206L, 208L, 226L, or Environmental Sciences 311; and credit or registration for Biology 320.

**BIO 324. Survey of the Plant Kingdom.**

Survey of the groups of living and fossil plants, comparing organization and reproduction to understand major shifts in the evolution of plant life. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and concurrent enrollment in Biology 124L.

**BIO 124L. Survey of the Plant Kingdom Laboratory.**

Hands-on exploration of major plant groups emphasizing organization, reproduction and evolution. Cultures, prepared and living material examined. Local field trips. Designed to pair with Biology 324 lectures. Two laboratory hours a week for one semester. Prerequisite: Concurrent enrollment in Biology 324; and the following with a grade of at least C-: Biology 206L, 208L, 226L or Environmental Sciences 311.

**BIO 325. Genetics.**

Basic principles of Mendelism, molecular genetics, structure and function of genes and chromosomes, populations and evolution. Three lecture hours and one discussion hour a week for one semester. Biology 325 and 325H may not both be counted. Prerequisite: Biology 311C and 311D with a grade of at least C- in each.
BIO 325H. Genetics: Honors.
Basic principles of genetics and evolution. Emphasis on population genetics and natural selection; structure and function of organ systems; behavioral ecology; and mutational analysis of organismal development. Three lecture hours and one discussion hour a week for one semester. Biology 325 and 325H may not both be counted. Prerequisite: Biology 315H with a grade of at least C-.

BIO 325L. Laboratory Experience in Genetics.
Experimentation and direct observation in fundamental aspects of transmission genetics. One lecture hour and four laboratory hours a week for one semester. Prerequisite: The following with a grade of at least C: Biology 325 or 325H, and Biology 206L, 208L, 226L, or Environmental Sciences 311.

BIO 325T. Human Genetics.
Genomics, cancer genetics, identification and analysis of human disease genes, and monogenetic and multifactorial traits in humans. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

BIO 226L. General Microbiology Laboratory.
Introduction to microbiology laboratory techniques and experimental demonstration of principles of microbiology. One lecture and three laboratory hours a week for one semester. Prerequisite: Credit with a grade of at least C- or registration for Biology 326M or 326R.

BIO 326M. Introductory Medical Microbiology and Immunology.
Designed primarily for nursing and prepharmacy students. Overview of the structure, function, and genetics of bacteria, viruses, and fungi, with emphasis on the interactions between micro-organisms and the human host. Includes principles of microbial pathogenesis, the host's innate and adaptive immune responses to infection, epidemiology, laboratory diagnosis, and antimicrobial chemotherapy and vaccines. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 311C; Biology 325 or 325H with a grade of at least C; Chemistry 301 with a grade of at least C; and one of the following with a grade of at least C: Mathematics 408C, 408K, 408N, 408R, Statistics and Scientific Computation 302.

BIO 326R. General Microbiology.
Overview of the major areas of microbiological study, including cell structure and function, genetics, host-microbe interactions, physiology, ecology, diversity, and virology. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Credit with a grade of at least C- or registration for Biology 325 or 325H, and Chemistry 302 or 302H with a grade of at least C.

BIO 327. General Microbiology.
A general survey of the algae and of their biology. Three lecture hours a week for one semester. Biology 327 and 388J may not both be counted. Prerequisite: Biology 324, 124L, and 325 or 325H, with a grade of at least C in each, and concurrent enrollment in Biology 127L.

BIO 327D. Emerging Infectious Diseases.
Genomic and proteomic tools used to understand the causes of human infectious diseases. Covers genome sequencing, community sequencing, proteomics, microarrays, and human polymorphism analysis; and how these technologies have been applied to the study of important human viral diseases. Also includes extensive coverage of the molecular and clinical biology of these diseases. Three lecture hours a week for one semester. Biology 327D and 337 (Topic: Emerging Infectious Diseases) may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C.

BIO 327E. Epigenetics.
A study of epigenetic modifications, the covalent modifications of DNA or histones that cause changes in gene expression. Particular attention is given to how experience or environmental factors epigenetically modify health or behavior in animals. Three lecture hours a week for one semester. Biology 327E and 337 (Topic: Epigenetics) may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-.

BIO 327G. Genomics.
Genome structure, organization, and function of model organisms; theory and methodology of genetic and physical mapping; sequencing analysis and annotation; genome duplication and evolution; and ethics for biotechnology and cloning. Three lecture hours a week for one semester. Biology 327G and 337 (Topic: Genomics) may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-.

BIO 127L. Laboratory in General Phycology.
Survey of various algal groups, including direct observations of their biology, exposure to research techniques, and instruction in culture procedures. Three laboratory hours a week for one semester. Prerequisite: Credit with a grade of at least C- or registration for Biology 327; and the following with a grade of at least C: Biology 206L, 208L, 226L, or Environmental Sciences 311.

BIO 328. Introductory Plant Physiology.
General principles of the mineral nutrition, water relations, metabolic activities, growth and development of green plants. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C, and Chemistry 302 or 302H.

BIO 328D. Discovery Laboratory in Plant Biology.
Learning methods of experimental design, data gathering, data interpretation, and data presentation, including original experiments relating to questions of current interest in plant physiology. Five laboratory hours a week for one semester. Biology 328D and 337 (Topic: Discovery Laboratory in Plant Biology) may not both be counted. Prerequisite: The following with a grade of at least C: Biology 325 or 325H, and Biology 206L, 208L, 226L, or Environmental Sciences 311.

BIO 128L. Laboratory Experiments in Plant Physiology.
Introduction to experimental techniques used in the study of the mineral nutrition, water relations, metabolic activities, growth, and development of green plants. Three laboratory hours a week for one semester. Prerequisite: Credit with a grade of at least C- or registration for Biology 328; and the following with a grade of at least C: Biology 325 or 325H, and Biology 206L, 208L, 226L, or Environmental Sciences 311.

BIO 329. Medical Mycology.
A basic introduction to medical mycology and an overview of research involving both the fungal zoopathogen and its host. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C, and Biology 326R with a grade of at least C.

BIO 129L. Medical Mycology Laboratory.
Basic techniques for the identification and manipulation of fungi of medical importance. Three laboratory hours a week for one semester. Prerequisite: Biology 226L with a grade of at least C-; and credit with a grade of at least C- or registration for Biology 329.
This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the student abroad advisor in the School of Biological Sciences. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Mechanisms by which viruses replicate and kill or transform cells. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H, and 326M or 326R with a grade of at least C- in each.

BIO 230L. Virology Laboratory.
Basic experimental techniques applied to selected bacteriophages and animal viruses. Four laboratory hours and one discussion hour a week for one semester. Prerequisite: Biology 226L with a grade of at least C-, and credit with a grade of at least C- or registration for Biology 330.

BIO 331L. Laboratory Studies in Molecular Biology.
The methods and principles of molecular biology in a research laboratory context. Students conduct a research project directed by a faculty member. One lecture hour and four and one-half laboratory hours a week for one semester. Prerequisite: The following with a grade of at least C-: Biology 325 or 325H, and Biology 206L, 208L, 226L, or Environmental Sciences 311.

BIO 335. Introduction to Biochemical Engineering.
Microorganisms in chemical and biochemical synthesis; genetic manipulation of cells by classical and recombinant DNA techniques. Enzyme technology; design of bioreactors and microbial fermentations; separations of biological products. Three lecture hours a week for one semester. Only one of the following may be counted: Biology 335, Biomedical Engineering 339, Chemical Engineering 339, 379 (Topic: Introduction to Biochemical Engineering). Prerequisite: Biochemistry 339F (or Chemistry 339K) or 369 (or Chemistry 369), and Biology 311C with a grade of at least C-.

BIO 336. Tumor Biology.
Covers core aspects of cancer pathology, treatment, epidemiology, the discovery of oncogenes and tumor suppressors, and the molecular genetics underlying the characteristic features of malignant tumors (including metastatic behavior, genotypic instability, angiogenesis, cell cycle regulation, and apoptosis). Strong emphasis on the biochemical functions of cancer-related proteins and enzymes and therapeutic approaches based on our understanding of these proteins. Important experimental approaches that have influenced our current understanding of cancer will also be stressed. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-; and one of the following with a grade of at least C-: Biochemistry 339F, 369, Biology 330, 360K.

BIO 137, 237, 337, 437. Selected Topics in Biology.
Recent developments and research methods in the biological sciences. For each semester hour of credit earned, one lecture hour a week for one semester. Some topics may require additional hours. May be repeated for credit when the topics vary. Prerequisite: Biology 325 or 325H with a grade of at least C-; additional prerequisites vary with the topic.

Topic 1: Seminar in Human Biology. One lecture hour a week for one semester. Only offered as Biology 137. Prerequisite: Biology 346 with a grade of at least C-.

Topic 2: Research Methods: UTeach. Restricted to students in the UTeach-Natural Sciences program. Students perform independent inquiries and use skills from mathematics and science to solve research problems.

Topic 3: Natural History of Protists. A study of protista, a wide variety of eukaryotic organisms which are either unicellular or phylogenetically closely allied to unicellular organisms. Description of the basic taxonomic and ecological groups, and description of the natural history of the major groups of organisms.

Topic 4: Computational Neuroscience and Neural Networks.

Topic 5: Grant Writing and Research Skills. Explores skills required of research scientists, and specifically prepares students to submit a NSF Graduate Research Fellowship Proposal (NSF-GRFP) grant proposal during the semester (deadline for GRFP submission is typically during the last week of October). There are weekly writing milestones to complete an NSF-GRFP proposal by the submission deadline. Additional prerequisite: Upper-division standing and Statistics and Data Sciences 328M with a grade of at least C-.

Topic 6: Practical Ethics for Biologists. Incorporates weekly case studies to introduce common ethical issues faced by biologists in the field and the lab. Explores the Systematic Moral Analysis framework to critically examine ethical issues in scientific inquiry in general (data integrity, who pays for science) as well as issues specific to biologists in the field and laboratory (questionable research practices, conflicts of interest, expertise vs advocacy). Explores issues of personal values, implicit bias and environmental justice.

Topic 7: Sleep Science. Explores the basics of sleep science, current research questions and novel approaches, and the range of sleep disorders and their diagnoses. Additional prerequisite: Neuroscience 330 with at least a grade of C-.

BIO 337J. Computational Biology Laboratory.
Overview of computational biology, with emphasis on nucleic acid sequence analysis and databases. Class projects and self-learning exercises. Two lecture hours and three computer laboratory hours a week for one semester. Prerequisite: Biology 325 or 325H, and Statistics and Data Sciences 328M (or Statistics and Scientific Computation 328M) with a grade of at least C- in each.

BIO 438L. Animal Communication.
Animal communication from a multidisciplinary perspective, with emphasis on quantitative analysis, sensory processing, and evolution of signals. Three lecture hours and three laboratory hours a week for one semester; with computer laboratory hours as required. Prerequisite: Biology 325 or 325H with a grade of at least C-; and Biology 359K or 370 with a grade of at least C-.

BIO 339. Metabolism and Biochemistry of Microorganisms.
A study of the metabolic processes of microorganisms, using a biochemical approach. Three lecture hours a week for one semester. Biology 339 and 391R may not both be counted. Prerequisite: Biology 325 or 325H, and Statistics 330 with at least a grade of C-.

BIO 339M. Bacterial Behavior and Signaling Mechanisms.
Advanced studies in how bacteria perceive their environment and communicate with each other. Subjects may include chemotaxis and motility, morphogenesis and development, and secretion and virulence. Taught entirely through reading and discussion of original articles. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Biology 326R with a grade of at least C-.

BIO 340L. Biology of Birds.
Anatomy, physiology, classification, and ecology of birds. Two lecture hours and three laboratory hours a week for one semester. Prerequisite:
The following with a grade of at least C-: Biology 325 or 325H, and Biology 206L, 208L, 226L, or Environmental Sciences 311.

**BIO 344. Molecular Biology.**
Molecular basis of cellular processes: gene structure and function, DNA replication, RNA and protein synthesis, viruses, molecular aspects of immunology and cancer, and recombinant DNA. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 325 or 325H, and Biochemistry 369 or 339F with a grade of at least a C-.

**BIO 345E. Endocrinology.**
Vertebrate endocrinology (primarily mammalian), with a focus on human pathophysiology. Three lecture hours and one discussion hour a week for one semester. Biology 337 (Topic: Endocrinology) and 345E may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-.

**BIO 346. Human Biology.**
Introduction to human evolution, genetics, sexuality, senescence, and population growth. Three lecture hours and one laboratory hour a week for one semester. Only one of the following may be counted: Biology 301G, 309F, 346. Prerequisite: Biology 325 or 325H with a grade of at least C-.

**BIO 446L. Human Microscopic and Gross Anatomy.**
Designed for students preparing for biomedical research and the health professions. Focuses on microscopic and gross anatomy of human tissues and organs, with an emphasis on structure function relationships. Subjects include the effects of disease and aging in addition to normal human anatomy. Three lecture hours and four laboratory hours a week for one semester. Prerequisite: The following courses with a grade of at least C-: Biology 325 or 325H; Chemistry 301; and Mathematics 408C, 408K, 408N, 408R, Statistics and Data Sciences 302 (or Statistics and Scientific Computation 302), or 328M (or Statistics and Scientific Computation 328M).

**BIO 448L. Invertebrate Biology.**
A study of the diversity and evolution of multicellular invertebrate animals, with emphasis on common themes in animal body construction and function. Three lecture hours and three laboratory hours a week for one semester. Prerequisite: The following with a grade of at least C-: Biology 325 or 325H, and Biology 206L, 208L, 226L, or Environmental Science 311.

**BIO 349. Developmental Biology.**
Principles of animal development, with emphasis on developmental mechanisms. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

**BIO 349L. Experiments in Developmental Biology.**
An investigation of methods and principles of developmental biology in a laboratory context, with emphasis on animal embryology using molecular techniques and microscopy. One lecture hour and six laboratory hours a week for one semester. Prerequisite: The following with a grade of at least C-: Biology 325 or 325H, and Biology 206L, 208L, 226L, or Environmental Science 311.

**BIO 350M. Plant Molecular Biology.**
Fundamentals of plant molecular biology, including structure and expression of the chloroplast and mitochondrial genomes. Three lecture hours a week for one semester. Biology 350M and 388M may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-.

**BIO 351. Economic Botany.**
An in-depth analysis of the origin of domesticated plant species, the role in nature of plant products, and the ways natural products have been altered through artificial selection. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

**BIO 352. Reproductive Biology of Flowering Plants.**
Pollination biology, breeding systems, reproductive strategies, and fruit and seed dispersal from evolutionary and ecological vantage points. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

**BIO 353F. Field Entomology.**
A field course on insects, with emphasis on field study techniques, visual identification of species, collecting techniques, and curation in the field. Meets five days a week for one hour a day during a summer-semester term; additional fieldwork to be arranged, including extended field trips. Biology 337 (Topic: Field Entomology) and 353F may not both be counted. Prerequisite: The following with a grade of at least C-: Biology 325 or 325H, and Biology 206L, 208L, 226L, or Environmental Science 311.

**BIO 453L. Entomology.**
Characteristics, importance, and biology of the major groups of insects. Two lecture hours and three laboratory hours a week for one semester, with additional fieldwork hours to be arranged. Prerequisite: The following with a grade of at least C-: Biology 325 or 325H, and Biology 206L, 208L, 226L, or Environmental Science 311.

**BIO 354C. Cell Biology of Human Birth Defects.**
Explores the link between basic cell biology, human genetics, and human birth defects using current scientific literature exposing students to critical thinking and the scientific method, as well as the application of these tools to the study of biology. Three lecture hours a week for one semester. Biology 337 (Topic: Developing Biology) and Biology 354C may not both be counted. Prerequisite: Biology 349 with a grade of at least C-.

**BIO 354L. Ichthyology.**
Overview of the evolution, biology, and ecology of fishes, emphasizing freshwater fishes. Three lecture hours and three hours of laboratory or fieldwork a week for one semester, with field trips to be arranged. Prerequisite: The following with a grade of at least C-: Biology 325 or 325H, and Biology 206L, 208L, 226L, or Environmental Science 311.

**BIO 455L. Vertebrate Natural History.**
Phylogeny, taxonomy, life histories, habits, and distribution. Two lecture hours and three hours of laboratory or fieldwork a week for one semester, with field trips to be arranged. Prerequisite: The following with a grade of at least C-: Biology 325 or 325H, and Biology 206L, 208L, 226L, or Environmental Science 311.

**BIO 456L. Limnology and Oceanography.**
Same as Marine Science 440. An introduction to the study of the interactions between aquatic organisms and their environments. Two lecture hours and six laboratory hours a week for one semester. Prerequisite: Chemistry 302 or 302H; and the following with a grade of at least C-: Biology 325 or 325H, and Biology 206L, 208L, 226L, or Environmental Science 311.

**BIO 357. Evolutionary Ecology.**
Principles of modern ecology, particularly as they relate to natural selection and evolutionary theory. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.
BIO 359J. Behavioral Ecology.
Advanced topics in behavioral ecology, with detailed consideration of animal communication, altruism, sexual selection, plant-animal interactions. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Biology 359K or 370 with a grade of at least C-.

An introduction to the study of animal behavior: descriptive analysis of behavior; physiological basis of behavior; development of behavior; adaptive significance and evolution of behavior; communication and social behavior. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

BIO 359R. Animal Sexuality.
The biology of sexuality, including genetics, morphology, physiology, and psychology of sex. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

BIO 360K. Immunology.
The basic concepts of humoral and cell-associated immune phenomena. Three lecture hours a week for one semester. Prerequisite: The following with a grade of at least C-: Biology 325 or 325H, and Biology 326R or 326M.

BIO 360L. Immunology Laboratory.
Current techniques in experimental cellular and humoral immunology. One hour lecture and four laboratory hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-; Biology 206L, 208L, 226L, or Environmental Science 311 with a grade of at least C-; and credit or registration for Biology 360K.

BIO 360M. Molecular Immunology.
An advanced immunology course with an emphasis on molecular models and medical relevance. Three lecture hours a week for one semester. Biology 337 (Topic: Molecular Immunology) and 360M may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Biology 360K with a grade of at least B-.

BIO 361. Human Infectious Diseases.
Etiology, pathogenesis, diagnosis, and immunobiology of the major microbial diseases, with emphasis on their prevention. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H, and Biology 326M or 326R with a grade of at least C- in each.

BIO 361L. Clinical Bacteriology Laboratory.
Training in techniques required for independent work in diagnostic and epidemiological bacteriology. Two lecture hours and five laboratory hours a week for one semester. Prerequisite: The following with a grade of at least C- in each: Biology 325 or 325H; 226L; and 326R or 326M.

BIO 361T. Comparative Animal Physiology.
Physiology of organ systems in animal phyla, with special emphasis on physiological adaptations of organisms to their environment. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

BIO 463L. Plant Systematics.
Principles of plant classification, phylogeny, and diversity as exemplified by families and species of flowering plants found seasonally in Texas with an emphasis on the local flora. Two lecture hours and three laboratory hours a week for one semester, with additional field trips to be arranged. Biology 262 and 262L, and 463L may not both be counted.

BIO 364. Microbial Ecology.
Population, community, and ecosystem ecology of microbes and microbiomes. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

BIO 365S. Human Systems Physiology.
Overview of human physiology, including the cardiovascular, respiratory, and renal systems, with an emphasis on critical thinking, integration, and application. Additional subjects include membrane movement, osmolarity and toxicity, endocrinology, and neurophysiology. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 311C; Biology 325 or 325H, and Chemistry 301 or 301H with a grade of at least C- in each; and one of the following with a grade of at least C-: Mathematics 408C, 408K, 408N, 408R, or Statistics and Data Sciences 302 (or Statistics and Scientific Computation 302).

BIO 165U. Human Systems Physiology Laboratory.
Offers hands-on experience in human physiology and encourages critical thinking via case study application. Explores the scientific method through the reading of scientific journal articles; writing protocols for basic physiological experiments; and collecting, analyzing, and presenting data. Three laboratory hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and credit or registration for Biology 365S.

BIO 366. Microbial Genetics.
Molecular biology of nucleic acids; biosynthesis of macromolecules, transfer of genetic material from cell to cell, recombination, mutagenesis, and regulatory mechanisms. Three lecture hours a week for one semester. Biology 366 and 391S may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Biology 326R with a grade of at least C-.

BIO 366R. Molecular Genetics and Medicine.
Implementation of molecular genetics techniques in medicine. Includes application of diagnostic and therapeutic techniques for several genetic disorders and infectious diseases. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

BIO 367C. Cellular and Molecular Bases of Neural Development.
An introduction to the principles by which the neural tube (brain and spinal cord) forms during embryonic development. Subjects include the cellular and molecular mechanisms underlying the formation of a three-dimensional neural tube and its division into forebrain, midbrain, hindbrain, and spinal cord. Three lecture hours a week for one semester. Biology 365N and BIO 367C may not both be counted. Prerequisite: One of the following with a grade of at least C-: Biology 325, Neuroscience 330, 365R.

BIO 369F. Field Herpetology.
Species identification by sight and sound, and research techniques such as sampling populations, data collection, and analysis. One lecture hour and five laboratory hours a week for one semester, with additional field hours to be arranged. Prerequisite: The following with a grade of at least C-: Biology 325 or 325H, and Biology 206L, 208L, 226L, or Environmental Science 311.

BIO 369L. Herpetology.
Biology of amphibians and reptiles, including evolution, ecology, behavior, physiology, life history, and identification. Three lecture hours and three laboratory hours a week for one semester. Prerequisite: The following
with a grade of at least C-: Biology 325 or 325H, and Biology 206L, 208L, 226L, or Environmental Science 311.

**BIO 370. Evolution.**
Introduction to modern evolutionary biology, focusing on the evolution of molecular, developmental, morphological, and behavioral traits. Genetic and ecological bases of evolutionary changes within populations and of evolutionary divergence in animals and plants. Three lecture hours and one discussion hour a week for one semester. Biology 370 and 385K (Topic 2: Evolution) may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-; additional prerequisites vary with the topic.

**BIO 170C, 270C, 370C, 470C. Conference Course.**
Supervised study of selected topics in biology, by individual arrangement with the instructor. Conference course. May be repeated for credit when the topics vary. Prerequisite: Biology 325 or 325H with a grade of at least C-; additional prerequisites vary with the topic.

**BIO 471. Introduction to Systematics.**
Study of diversification of living and fossil organisms, including speciation, biogeography, taxonomy, and phylogeny of genes, species, and higher taxa. The lecture and laboratory include a significant amount of computational molecular phylogenetics. Three lecture hours and three laboratory hours a week for one semester. Biology 458L and 471 may not both be counted. Prerequisite: Biology 325 or 325H, and 370 with a grade of at least C-.

**BIO 471G. Natural History Museum Science.**
An introduction to curatorial practices in natural history museums. Three lecture hours and one discussion hour a week for one semester; students also complete a twenty- to thirty-hour curatorial project. Prerequisite: Biology 325 or 325H with a grade of at least C-.

**BIO 371L. Experimental Physiology.**
Experimental approach to physiological mechanisms by which animals adapt to their environment. One lecture hour, four laboratory hours, and two hours of computer work a week for one semester. Prerequisite: The following with a grade of at least C-: Biology 325 or 325H, and Biology 206L, 208L, 226L, or Environmental Science 311.

**BIO 372C. Biology Peer Mentors in Research/Teaching.**
Students work as peer mentors and assistants in the teaching of biology, with emphasis on developing instructional materials that teach fundamental biology with real world data. Students mentor students for at least three hours a week in addition to other weekly meetings. Biology 372C and Chemistry 372C may not both be counted. Prerequisite: Biology 311C, 311D, and 325, or Biology 315H and 325H, with a grade of at least B in each; and consent of the undergraduate adviser.

**BIO 373. Ecology.**
An introduction to ecology, the study of relationships among organisms and between organisms and their environment; adaptations, population, communities, and ecosystems. Includes both plants and animals and both terrestrial and aquatic ecosystems. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

**BIO 373L. Ecology Laboratory.**
Intensive field ecology. Includes group field experiment and observation, independent projects, and field trips to other vegetation zones. Students complete weekly write-ups of observation and data analysis, reports of independent projects, and an oral presentation on an independent project. Four laboratory hours and two workshop/lecture hours a week for one semester. Prerequisite: Credit with a grade of at least C- or registration for Biology 373; and the following with a grade of at least C-: Biology 206L, 208L, 226L, or Environmental Science 311.

**BIO 374. Plant Anatomy with Histological Techniques.**
Tissue organization and cellular details of stems, roots, and leaves of seed plants, with emphasis on development and function. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-; and concurrent enrollment in Biology 174L.

**BIO 174L. Laboratory in Plant Anatomy and Histological Techniques.**
Demonstration of cellular details and tissue systems of plant organs; instruction in the preparation of plant materials for histological examination. Three laboratory hours a week for one semester. Prerequisite: Credit with a grade of at least C- or registration for Biology 374; and the following with a grade of at least C-: 206L, 208L, 226L, or Environmental Sciences 311.

**BIO 375. Conservation Biology.**
Application of principles of ecology to the preservation of wild plant and animal species and to the preservation, management, and restoration of natural and seminatural ecosystems. Emphasis on scientific, biological aspects of issues such as endangered species protection, preserve design, and forest management. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-; and Biology 357, 359J, or 373 with a grade of at least C-.

**BIO 177, 277, 377. Undergraduate Research.**
Laboratory or field research in the various fields of biological science under the supervision of one or more faculty members. Supervised individual research. Up to three semester hours may be counted toward the major requirement for the Bachelor of Arts degree with a major in biology. May be repeated for credit. Prerequisite: Biology 325 or 325H with a grade of at least C-; and written consent of instructor.

**BIO 478L. Comparative Vertebrate Anatomy.**
Study of vertebrate morphology from developmental anatomy to the function, biomechanics, and phylogenetic relationships of living and fossil taxa. Three lecture hours and four laboratory hours a week for one semester. Biology 478L and Kinesiology 324K, 424K may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-.

**BIO 379H, 679H. Honors Tutorial Course.**
Original laboratory or field research project under the direction of a faculty mentor, leading to a thesis or research presentation for students in the honors program in biology. The equivalent of three or six lecture hours a week for one semester. May be repeated for credit, but no more than six hours may be counted toward a degree in biology. Prerequisite: Consent of the student’s research supervisor and the departmental honors adviser.

**Department of Chemistry**

Students seeking the degree of Bachelor of Science in Chemical Engineering, Bachelor of Science in Chemistry, or Bachelor of Science in Physics must take The University of Texas at Austin Test for Credit in Chemistry 301 if they were admitted to the University with high school credit in chemistry. Engineering majors in areas other than chemical engineering are also encouraged to take the test. Students with three semesters or more of high school chemistry that included laboratory experience, or credit for Chemistry 301 or 301H, are encouraged to take The University of Texas at Austin Test for Credit in Chemistry 302. These tests are offered only in Austin. Information about them is available at https://testingservices.utexas.edu/sts.
Each student planning to register for a chemistry course should consult an adviser in his or her major area to determine whether specific courses are required.

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 793).

**Chemistry: CH**

**Lower-Division Courses**

**CH 301 (TCCN: CHEM 1311). Principles of Chemistry I.**
Three lecture hours a week for one semester; some sections may also require one enrichment/discussion hour a week. Only one of the following may be counted: Chemistry 301, 301H, 304K. Prerequisite: An appropriate score on the Department of Chemistry placement examination.

**CH 301H. Principles of Chemistry I: Honors.**
Three lecture hours a week for one semester. Only one of the following may be counted: Chemistry 301, 301H, 304K. Prerequisite: Credit with a grade of at least C- or registration for one of the following: Mathematics 408C, 408D, 408K, 308L, 408L, 408M, 408N, 408R, 408S.

**CH 302 (TCCN: CHEM 1312). Principles of Chemistry II.**
Development and application of concepts, theories, and laws underlying chemistry. Three lecture hours a week for one semester. Some sections also require one enrichment/discussion hour a week. Only one of the following may be counted: Chemistry 302, 302H, 305. Prerequisite: Chemistry 301 or 301H with a grade of at least C-.

**CH 302H. Principles of Chemistry II: Honors.**
Three lecture hours a week for one semester. Only one of the following may be counted: Chemistry 302, 302H, 305. Prerequisite: Chemistry 301H with a grade of at least C-; credit with a grade of at least C- or registration for one of the following: Mathematics 408C, 408D, 408K (or 308K), 308L, 408L, 408M, 408N, 408R, or 408S.

**CH 303. Mathematical Introduction to Theories of Matter.**
Introduction to the quantum theoretic description of atoms, molecules, solids, nuclei, elementary particles, and cosmology. Matrix mechanics and group theory. Three lecture hours a week for one semester.
Chemistry 303 may be used instead of either Chemistry 302 or Chemistry 301 and 302 in fulfilling the prerequisites of other chemistry courses, except by students seeking the Bachelor of Science in Chemistry degree. Chemistry 303 may be counted in addition to Chemistry 301 and 302. Not recommended by the Health Professions Office for Medical College Admission Test preparation.

**CH 204 (TCCN: CHEM 1111, CHEM 1112). Introduction to Chemical Practice.**
Introduction to the techniques of modern experimental chemistry. Designed to provide basic laboratory and analytical skills. May include organic, analytical, and physical chemistry, as well as materials science. Four laboratory hours and one hour of discussion a week for one semester. Some sections may also require one hour of computer laboratory a week. Only one of the following may be counted: Chemistry 204, 317, or 104M and 104N. Prerequisite: Credit with a grade of at least C- or registration for Chemistry 302 or 302H.

**CH 304K. Chemistry in Context I.**
Designed for nonscience majors. Chemistry 304K and 305 form a two-semester sequence designed to fulfill the science requirement for students not majoring in science or engineering. Issues of contemporary interest and importance, such as ozone depletion and global warming, motivate the discussion; the underlying chemistry is developed as needed. Social, political, economic, and ethical implications of scientific developments and science policy are considered. Chemistry 304K addresses the nature of matter, energy, chemical reactions, and chemical thermodynamics. Not intended as preparation for Chemistry 301. Three lecture hours a week for one semester. May not be counted toward a degree in the College of Natural Sciences. Only one of the following may be counted: Chemistry 301, 301H, 304K.

**CH 104M. Introduction to Chemical Practice I.**
Introduction to the techniques of modern experimental chemistry. Designed to provide basic laboratory and analytical skills. May include organic, analytical, and physical chemistry, as well as materials science. One lecture hour and three laboratory hours a week for one semester. Only one of the following may be counted: Chemistry 204, 317, or 104M and 104N. Prerequisite: Credit with a grade of at least C- or registration for Chemistry 301 or 301H.

**CH 104N. Introduction to Chemical Practice II.**
Introduction to the techniques of modern experimental chemistry. Designed to provide basic laboratory and analytical skills. May include organic, analytical, and physical chemistry, as well as materials science. One lecture hour and three laboratory hours a week for one semester. Only one of the following may be counted: Chemistry 204, 317, or 104M and 104N. Prerequisite: Credit with a grade of at least C- or registration for Chemistry 302 or 302H; and credit with a grade of at least C- in the following coursework: Chemistry 104M, and Chemistry 301 or 301H.

**CH 305. Chemistry in Context II.**
Designed for nonscience majors. Chemistry 304K and 305 form a two-semester sequence designed to fulfill the science requirement for students not majoring in science or engineering. Chemistry 305 addresses water chemistry, acids and bases, elementary organic chemistry, polymers, pharmaceuticals, nutrition, and genetics. Three lecture hours a week for one semester. May not be counted toward a degree in the College of Natural Sciences. Only one of the following may be counted: Chemistry 302, 302H, 305. Prerequisite: Chemistry 301 or 304K.

**CH 206K. Undergraduate Research.**
Introduction to research practices; supervised individual undergraduate research in chemistry. Six to ten laboratory hours a week for one semester. May be repeated for credit, but no more than four semester hours may be counted toward a degree in chemistry. Hours beyond four must be taken on the pass/fail basis. May be repeated for credit. Prerequisite: Consent of the undergraduate adviser in chemistry.

**CH 107, 207. Conference Course.**
Supervised study in chemistry. One discussion hour a week for one semester, with additional hours to be arranged. May not be counted toward a major or minor in chemistry. May be repeated for credit when the topics vary. Offered on the pass/fail basis only.

**CH 207K. Introduction to Science Outreach in Elementary Schools.**
Developing and presenting level-appropriate science laboratories to students in local elementary schools. A hands-on, discovery learning approach to science is emphasized. The equivalent of five lecture hours a week for one semester, with field hours to be arranged. May be counted as an elective only.
CH 207L. Peer Teaching.
Students act as peer teaching assistants in other University chemistry courses, mainly large general chemistry lecture sections. Two hours of lecture and training a week for one semester, and two to three hours a week leading student group discussions. May not be counted toward any degree in chemistry. Prerequisite: Chemistry 301 and consent of the coordinator of the Peer Teaching Assistant Program.

CH 108, 208, 308, 408. Topics in Chemistry.
For each semester hour of credit earned, one lecture hour a week for one semester; some topics may require additional discussion hours. May not be counted toward a major or minor in chemistry. May be repeated for credit when the topics vary. Offered on the pass/fail basis only.

CH 110K (TCCN: CHEM 2123). Organic Chemistry Laboratory.
Primarily for premedical, predental, life sciences, and pharmacy majors. One lecture hour and three laboratory hours a week for one semester. Prerequisite: Credit with a grade of at least C- in the following coursework: Chemistry 302 or 302H, 204, 317, or 104M and 104N; and credit or registration for one of the following: Chemistry 320M or 328M.

CH 110L (TCCN: CHEM 2125). Organic Chemistry Laboratory.
Primarily for premedical, predental, life sciences, and pharmacy majors. One lecture hour and three laboratory hours a week for one semester. Prerequisite: Chemistry 110K.

CH 317. Descriptive Inorganic Chemistry.
Synthesis and properties of inorganic, bioinorganic, and organometallic compounds. One lecture hour and six laboratory hours a week for one semester. Only one of the following may be counted: Chemistry 204, 317, or 104M and 104N. Prerequisite: Credit with a grade of at least C- or registration for Chemistry 302 or 302H.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Chemistry. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses
CH 220C. Organic Chemistry Laboratory.
One lecture hour and five laboratory hours a week for one semester. Only one of the following may be counted: Chemistry 110L, 220C, 128L. Prerequisite: Credit with a grade of at least C- or registration for Chemistry 320N; and the following coursework with a grade of at least C- in each: Chemistry 204, 317, or 104M and 104N; and 320M or 328M.

CH 320M. Organic Chemistry I.
Primarily for premedical, predental, life sciences, and pharmacy majors. Development of organic chemical structure, nomenclature, and reactivity. Three lecture hours a week for one semester. Chemistry 320M and 328M may not both be counted. Prerequisite: Chemistry 302 or 302H with a grade of at least C-.

CH 320N. Organic Chemistry II.
Primarily for premedical, predental, life sciences, and pharmacy majors. The development of organic chemical functional group reactivity, reaction mechanics, with analogous aqueous transformations in biochemical settings. Three lecture hours a week for one semester. Chemistry 320N and 328N may not both be counted. Prerequisite: The following coursework with a grade of at least C-: Chemistry 320M, or 328M.

CH 128K. Organic Chemistry Laboratory.
One lecture hour and three laboratory hours a week for one semester. May not be counted by students with credit for Chemistry 210C or 220C. Only one of the following may be counted: Chemistry 110L, 118L, 128L. Prerequisite: Credit or registration for Chemistry 318N or 328N; and the following coursework with a grade of at least C- in each: Chemistry 118K or 128K; and 318M or 328M.

CH 328M. Organic Chemistry I.
Primarily for chemistry and chemical engineering majors. The development of organic chemical structure, nomenclature, and reactivity. Three lecture hours a week for one semester. Chemistry 320M and 328M may not both be counted. Prerequisite: The following coursework with a grade of at least C-: Chemistry 302 or 302H; and 204, 317, or 104M and 104N.

CH 328N. Organic Chemistry II.
Primarily for chemistry and chemical engineering majors. The development of organic chemical reactivity, with an emphasis on synthesis and polymers. Three lecture hours a week for one semester. Chemistry 320N and 328N may not both be counted. Prerequisite: The following coursework with a grade of at least C- in each: Chemistry 328M and 128K.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Chemistry. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

CH 329W. Cooperative Chemistry/Biochemistry.
This course covers the work period of chemistry and biochemistry students in the Cooperative Education program, which provides supervised work experience by arrangement with the employer and the supervising instructor. Forty laboratory hours a week for one semester. The student must repeat the course each work period and must take it twice to receive credit toward the degree; at least one of these registrations must be during a long-session semester. No more than three semester hours may be counted toward the major requirement; no more than six semester hours may be counted toward the degree. The student’s first registration must be on the pass/fail basis. Prerequisite: Application to become a member of the Cooperative Chemistry/Biochemistry Program, and consent of the Department of Chemistry and Biochemistry undergraduate adviser.

CH 431. Inorganic Chemistry.
Survey of the chemistry of the elements, incorporating both descriptive and theoretical aspects. Open-ended experiments designed to illustrate a variety of synthetic techniques. Three lecture hours and three laboratory hours a week for one semester. Prerequisite: The following coursework
CH 341. Special Topics in Laboratory Chemistry.
Examples of topics are physical measurement techniques; electronics for scientists; advanced synthetic chemistry (organic or inorganic); separation techniques. One lecture hour and six laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Eight semester hours of coursework in organic chemistry and consent of the undergraduate adviser.

Issues and techniques in secondary school teaching of chemical sciences. Three lecture hours a week for two semesters. For students seeking the Bachelor of Science in Chemistry: Teaching Option degree. May not be counted toward any other degree in chemistry or biochemistry. Prerequisite: For 644A, eight semester hours of coursework in organic chemistry and credit or registration for Chemistry 144K; for 644B, Chemistry 644A, 144K, and credit or registration for Chemistry 144L.

CH 144K. Chemical Education Laboratory I.
Development of classroom demonstrations, laboratory experiments, and teaching aids for secondary school teaching of the chemical sciences. Two laboratory hours a week for one semester. For students seeking the Bachelor of Science in Chemistry: Teaching Option degree. May not be counted toward any other degree in chemistry. Prerequisite: Credit or registration for Chemistry 644A.

CH 144L. Chemical Education Laboratory II.
Development of classroom demonstrations, laboratory experiments, and teaching aids for secondary school teaching of the chemical sciences. Two laboratory hours a week for one semester. For students seeking the Bachelor of Science in Chemistry: Teaching Option degree. May not be counted toward any other degree in chemistry. Prerequisite: Credit or registration for Chemistry 644B.

CH 353. Physical Chemistry I.
For chemistry and chemical engineering majors. Equations of state, laws of thermodynamics, ideal and nonideal solutions, phase equilibria, thermodynamics of chemical reactions. Three lecture hours a week for one semester. Chemistry 353 and 353M may not both be counted. Prerequisite: Mathematics 408C and 408D, or two of the following: Mathematics 408C and 408D; Chemistry 302 or 302H with a grade of at least C.; and Physics 316 and 116L, 303L and 103N, or 317L and 117N.

CH 153K. Physical Chemistry Laboratory.
Three laboratory hours a week for one semester. Prerequisite: Chemistry 353 or 353M with a grade of at least C-.

CH 353M. Physical Chemistry I for Life Sciences.
For biochemistry and biology majors. Thermochemistry and kinetics of reactions in cells, enzyme catalysis, electrical and transport properties of membranes. Three lecture hours a week for one semester. Chemistry 353 and 353M may not both be counted. Prerequisite: Mathematics 408C and 408D, or two of the following: Mathematics 408C and 408D; 408L, 408M, 408N, 408S; Chemistry 302 or 302H with a grade of at least C.; and Physics 316 and 116L, 303L and 103N, or 317L and 117N.

CH 354. Quantum Chemistry and Spectroscopy.
Fundamental principles of quantum mechanics, exactly soluble model problems, electronic structure of atoms and molecules, spectroscopy. Three lecture hours a week for one semester. Prerequisite: Mathematics 408C and 408D, or two of the following: Mathematics 408K, 408L, 408M, 408N, 408S; and Physics 316 and 116L.

CH 154K. Physical Chemistry Laboratory.
Three laboratory hours a week for one semester. Prerequisite: Chemistry 153K, and 353 or 353M with a grade of at least C-; and credit or registration for Chemistry 354 or 354L.

CH 354L. Physical Chemistry II.
Molecular energy levels, statistical thermodynamics (macroscopic thermodynamic functions from molecular input), and physical and chemical kinetics, with emphasis on the molecular viewpoint. Three lecture hours a week for one semester. May be counted toward a degree in chemistry. Chemistry 354, rather than this course, is recommended for students planning graduate study in chemistry. Prerequisite: Chemistry 353 or 353M with a grade of at least C-.

CH 354M. Introduction to Computational Methods in Chemistry.
Construction and implementation of numerical algorithms for solving differential equations which are common in chemistry. Subjects include chemical reaction rates, quantum mechanics, molecular dynamics, normal modes of vibration, and Monte Carlo methods. Three lecture hours a week for one semester. Only one of the following may be counted: Chemistry 354M, 368 (Topic: Applied Math and Computation in Chemistry), 368 (Topic: Computational Chemistry), 368 (Topic: Intro to Computational Methods in Chemistry). Prerequisite: The following coursework with a grade of at least C- in each: Chemistry 302 or 302H, and Chemistry 353 or 353M.

CH 354S. Elements of Spectroscopy.
Primarily for chemistry and biochemistry majors. Fundamentals of spectroscopy, with knowledge of elementary quantum mechanics. Separation of electronic, vibrational, rotational and spin quantum states; interaction of radiation and matter; theory and application of different types of spectroscopy including photoelectron, electronic absorption and emission, vibrational (infrared and Raman), rotational and magnetic resonance. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each: Chemistry 353 or 353M, and 354 or 354L.

CH 455. Fundamentals of Analytical Chemistry.
For biochemistry, engineering, and clinical laboratory science majors. Chemical and instrumental methods in analytical chemistry. Three lecture hours and three laboratory hours a week for one semester. Chemistry 455 and 456 may not both be counted. Prerequisite: The following coursework with a grade of at least C- in each: Chemistry 302 or 302H; and Chemistry 204, 317, or 104M and 104N.

CH 456. Analytical Chemistry.
For chemistry majors. Three lecture hours and three laboratory hours a week for one semester. Chemistry 455 and 456 may not both be counted. Prerequisite: The following coursework with a grade of at least C- in each: Chemistry 302 or 302H; and Chemistry 204, 317, or 104M and 104N.

CH 366C. Advanced Inorganic Chemistry: Organometallic Catalysis.
An in-depth and mostly chronological study of the evolution of organometallic and inorganic coordination chemistry, and its continued critical importance in a range of industrial processes. Covers a range of topical catalytic processes, paying particular attention to how chemical bonding and kinetics can be exploited to affect the relative rates of reaction. Three lecture hours a week for one semester. Chemistry 366C and 368 (Topic: Advanced Inorganic Chemistry: Organometallic
Chemistry and Catalysis) may not both be counted. Prerequisite: Credit with a grade of at least C- in Chemistry 431.

**CH 366D. Bio-inorganic Chemistry and Spectroscopy.**
Covers the roles of transition metals in biology, mostly with respect to protein structure, function, and catalysis. Also covers methods of spectroscopy that are used to probe the geometrical and electronic structure of metal ions in proteins. Exposure to modern areas of study in bio-inorganic chemistry. Explores the principles of transition metal chemistry in the context of biological systems. Three lecture hours a week for one semester. Chemistry 366D and 368 (Topic: Bio-inorganic Chemistry) may not both be counted. Prerequisite: Chemistry 431 with a grade of at least C-.

**CH 366E. Chemistry of the s-, p-, d-, and f-Block Elements.**
Focuses on the electronic structure of molecules and complexes, and how such information can predict important properties such as chemical reactivity, spectroscopy, and magnetism. Intended for upper-division chemistry majors with a basic understanding of concepts in inorganic chemistry. Three lecture hours a week for one semester. Chemistry 366E and 368 (Topic: Inorganic Reactions and Structures) may not both be counted. Prerequisite: Credit with a grade of at least C- for Chemistry 431.

**CH 367C. Materials Chemistry.**
Restricted to chemistry majors. Introduction to structural and physical properties of materials and synthetic strategies for making new materials in the nanoscale and mesoscale regimes, in addition to covering instrumental methods used to probe materials properties. Some aspects of applications (semiconductor devices, solar and fuel cells, smart and responsive materials) will be covered to illustrate the kinds of material properties that need to be considered in designing novel materials of specific function. Three lecture hours a week for one semester. Prerequisite: Upper-division standing, and Chemistry 302 and 353 with a grade of at least C- in each. Chemistry 431 or 354L with a grade of at least C- is recommended.

**CH 367L. Macromolecular Chemistry.**
Designed for chemistry and chemical engineering students. Occurrence, preparation, structure, and properties of macromolecular substances. Three lecture hours a week for one semester. Prerequisite: Credit with a grade of at least C- in the following coursework: Chemistry 320M and 320N, or 322M and 322N; Chemistry 220C, or 128K and 128L; and Chemistry 353 or 353M.

**CH 368. Advanced Topics in Chemistry.**
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: The following coursework with a grade of at least C- in each: Chemistry 320M and 320N, or Chemistry 328M and 328N; credit with a grade of at least C- or registration for Chemistry 353 or 353M.

**Topic 1: Research Methods: UTeach.** Restricted to students in the UTeach-Natural Sciences program. Students use mathematics and science skills to solve research problems.

**Topic 2: Advanced Topic in Analytical Chemistry.**

**Topic 3: Advanced Topic in Inorganic Chemistry.**

**Topic 4: Advanced Topic in Organic Chemistry.**

**Topic 5: Advanced Topic in Physical Chemistry.**

**CH 368L. Peer Teaching.**
Equivalent of three lecture hours a week for one semester. Chemistry 368 (Topic: Peer Teaching) and 368L may not both be counted.

**CH 369K. Techniques of Research.**
Advanced laboratory practice and introduction to research. One lecture hour and six laboratory hours a week for one semester. May be taken for a letter grade no more than twice. No more than six semester hours may be counted toward a degree in chemistry or biochemistry. May be repeated for credit. Prerequisite: Eight semester hours of coursework in organic chemistry; and six semester hours of upper-division chemistry courses approved by the undergraduate adviser’s office, or consent of the undergraduate adviser in chemistry.

**CH 371K. Science Outreach in Elementary Schools.**
Students develop and present level-appropriate science laboratories to students in local elementary schools. Students also plan and create the infrastructure needed to administer the science program in concert with the science curriculum at a specific elementary school. A hands-on, discovery learning approach to science is emphasized. One class hour and six hours of fieldwork a week for one semester. May be taken for a letter grade no more than twice. No more than six semester hours may be counted toward a degree in chemistry. May be repeated for credit. Prerequisite: Upper-division standing, at least six hours of upper-division coursework in the College of Natural Sciences, and consent of the UTeach adviser in the College of Natural Sciences.

**CH 372C. Chemistry Peer Mentors in Research and Teaching.**
Students work as peer mentors and assistants in the teaching of chemistry, with emphasis on developing instructional materials and laboratories that teach fundamental chemistry with real world data. Students mentor students for at least six hours a week in addition to other weekly meetings. Hours to be arranged. May be taken for a letter grade no more than twice. No more than six semester hours may be counted toward a degree in chemistry. Biology 372C and Chemistry 372C may not both be counted. May be repeated for credit. Prerequisite: Chemistry 301 or 301H, and 302 or 302H with a grade of at least B in each; and consent of the undergraduate adviser.

**CH 372S. Study and Research Abroad: Austin International Framework.**
Designed specifically for students participating in the AIF program. Facilitates student-led mini-seminars and video conference call discussions. Explores student research and wider learning and cultural experiences in Austin and abroad. Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Enrollment in the Austin International Framework (AIF) program and consent of the instructor.

**CH 375K, 475K. Individual Study in Chemistry.**
Supervised reading or individual tutorial sessions on advanced topics in chemistry. Three or four class hours a week for one semester. No more than six semester hours may be counted toward a degree in chemistry. May be repeated for credit. Prerequisite: Eight semester hours of coursework in organic chemistry, Chemistry 353, and consent of the undergraduate adviser.

**CH 376K. Advanced Analytical Chemistry.**
Two lecture hours and three laboratory hours a week for one semester. Prerequisite: Chemistry 353 and 456 with a grade of at least C- in each.

**CH 379H. Chemistry Honors Tutorial Course.**
Laboratory research project in a specific field of chemistry under the supervision of one or more faculty members. Conference course. May be taken twice for credit. Must be taken in addition to the required hours for the Bachelor of Science in Chemistry degree. Students must enter no later than the first semester of the year of graduation. May be repeated...
for credit. Prerequisite: Consent of the student’s research supervisor and the departmental honors adviser.

Department of Computer Science

An undergraduate may not enroll in any computer science course more than once without written consent of an undergraduate adviser in computer science. No student may enroll in any computer science course more than twice. No student may take more than three upper-division computer science courses in a semester without written consent of an undergraduate adviser in computer science.

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 793).

Computer Science: C S

Lower-Division Courses

C S 301K. Foundations of Logical Thought.
Introductory logic in the context of computing; introduction to formal notations; basic proof techniques; sets, relations, and functions. Three lecture hours a week for one semester. Some sections require one discussion hour a week.

An introduction to the fundamental concepts of computing: how computers work, what they can do, and how they can be used effectively. Some programming is required. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Credit for Computer Science 302 may not be earned after a student has received credit for Computer Science 303E, 305J, 307, 312, 312H, 314, or 314H. May not be counted toward a degree in computer science.

C S 303E. Elements of Computers and Programming.
Problem solving and fundamental algorithms for various applications in science, business, and on the World Wide Web, and introductory programming in a modern object-oriented programming language. The equivalent of three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 303E, 305J, 312, 312H. Credit for Computer Science 303E may not be earned after a student has received credit for Computer Science 307, 314, or 314H. May not be counted toward a degree in computer science.

An introduction to reasoning about the effects of the technology created by computer scientists and understanding the ethical and real-world consequences of that technology. Emphasizes direct participation and discussion using case studies to illustrate ethical topics. One lecture hour a week for one semester. Computer Science 103E and 109 (Topic: Ethical Foundations of Computer Science) may not both be counted.

C S 311H. Discrete Mathematics for Computer Science: Honors.
Restricted to honors computer science majors. A focus on discrete mathematical tools of fundamental importance to the working computer scientist. An emphasis is placed on using logical notation to express rigorous mathematical arguments. Subjects include proof by induction, graph theory, number theory, combinatorics, recurrences, sets, functions, an introduction to program correctness, and discrete probability. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 311, 311H, 313H, 313K, 336, 336H. Prerequisite: The following coursework with a grade of at least C- in each: Computer Science 312 or 312H; and Mathematics 408C, 408K, or 408N, or registration for Mathematics 408C.

Explores the syntax and concepts needed to program in C++. One lecture hour a week for one semester. Prerequisite: Computer Science 307, 313E, 314, 314H, or Electrical Engineering 422C, with a grade of at least C-.

Explores the syntax and concepts needed to program in C++. One lecture hour a week for one semester. Prerequisite: Computer Science 307, 313E, 314, 314H, or Electrical Engineering 422C, with a grade of at least C-.

C S 315T. Topics In Computer Programming Languages.
An introduction to programming in a particular computer language. Includes designing and implementing programs. One lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Computer Science 307, 313E, 314, 314H, or Electrical Engineering 422C, with a grade of at least C-.

C S 315T. Topics In Computer Programming Languages.
An introduction to programming in a particular computer language. Includes designing and implementing programs. One lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Computer Science 307, 313E, 314, 314H, or Electrical Engineering 422C, with a grade of at least C-.

C S 316. Database Systems.
Introduction to database systems and modern relational database management systems. Includes conceptual and logical database modeling, normalization, and data modeling and manipulation. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Computer Science 311, 314, or 314H.

C S 317. Introduction to Artificial Intelligence.
First part of a two-part sequence in artificial intelligence. Fundamental concepts of artificial intelligence: knowledge representation, search, planning, decision theory, agent models, and adversarial search. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Computer Science 317, 317H.

C S 321. Topics in Computer Science.
For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

C S 322. Database Systems.
Introduction to database systems and modern relational database management systems. Includes conceptual and logical database modeling, normalization, and data modeling and manipulation. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Computer Science 311, 314, or 314H.

C S 323. Topics in Computer Science.
For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

C S 324. Introduction to Artificial Intelligence.
First part of a two-part sequence in artificial intelligence. Fundamental concepts of artificial intelligence: knowledge representation, search, planning, decision theory, agent models, and adversarial search. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Computer Science 323, 323H.

C S 325. Topics in Computer Science.
For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

C S 326. Database Systems.
Introduction to database systems and modern relational database management systems. Includes conceptual and logical database modeling, normalization, and data modeling and manipulation. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Computer Science 321, 321H.

C S 327. Topics in Computer Science.
For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

C S 328. Introduction to Artificial Intelligence.
First part of a two-part sequence in artificial intelligence. Fundamental concepts of artificial intelligence: knowledge representation, search, planning, decision theory, agent models, and adversarial search. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Computer Science 328, 328H.

C S 329. Topics in Computer Science.
For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

C S 330. Introduction to Artificial Intelligence.
First part of a two-part sequence in artificial intelligence. Fundamental concepts of artificial intelligence: knowledge representation, search, planning, decision theory, agent models, and adversarial search. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Computer Science 330, 330H.

Restricted to computer science majors. A focus on discrete mathematical tools of fundamental importance to the working computer scientist. An emphasis is placed on using logical notation to express rigorous mathematical arguments. Subjects include proof by induction, graph theory, number theory, combinatorics, recurrences, sets, functions, an introduction to program correctness, and discrete probability. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 331, 331H, 331H, 331K, 336, 336H. Prerequisite: The following coursework with a grade of at least C- in each: Computer Science 312 or 312H; and Mathematics 408C, 408K, or 408N, or registration for Mathematics 408C.

C S 331H. Discrete Mathematics for Computer Science: Honors.
Restricted to honors computer science majors. A focus on discrete mathematical tools of fundamental importance to the working computer scientist. An emphasis is placed on using logical notation to express rigorous mathematical arguments. Subjects include proof by induction, graph theory, number theory, combinatorics, recurrences, sets, functions, an introduction to program correctness, and discrete probability. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 331, 331H, 331H, 331K, 336, 336H. Prerequisite: Mathematics 408K or 408N with a grade of at least C-; or registration or credit with at least C- in M 408C.

C S 332. Introduction to Programming.
First part of a two-part sequence in programming. Fundamental concepts of structured programming: procedures and data structures with a focus on problem solving strategies and implementation; introduction to concepts of informal specification, informal reasoning about program behavior, debugging, and ad hoc testing. Three lecture hours and one discussion hour a week for one semester. Only one of the following courses may be counted: Computer Science 332, 332H.

Restricted to computer science majors. A focus on discrete mathematical tools of fundamental importance to the working computer scientist. An emphasis is placed on using logical notation to express rigorous mathematical arguments. Subjects include proof by induction, graph theory, number theory, combinatorics, recurrences, sets, functions, an introduction to program correctness, and discrete probability. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 333, 333H, 333K, 336, 336H. Prerequisite: The following coursework with a grade of at least C- in each: Computer Science 312 or 312H; and Mathematics 408C, 408K, or 408N, or registration for Mathematics 408C.

Restricted to honors computer science majors. A focus on discrete mathematical tools of fundamental importance to the working computer scientist. An emphasis is placed on using logical notation to express rigorous mathematical arguments. Subjects include proof by induction, graph theory, number theory, combinatorics, recurrences, sets, functions, an introduction to program correctness, and discrete probability. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 333, 333H, 333K, 336, 336H. Prerequisite: Mathematics 408K or 408N with a grade of at least C-; or registration or credit with at least C- in M 408C.
314H. Prerequisite: Credit with a grade of at least C- or registration for Mathematics 408C, 408K, or 408N.

**C S 312H. Introduction to Programming: Honors.**

Restricted to computer science majors. First part of a two-part sequence in programming. Fundamental concepts of structured programming; procedures and data structures with a focus on problem solving strategies and implementation; introduction to concepts of informal specification, informal reasoning about program behavior, debugging, and ad hoc testing. Three lecture hours and one discussion hour a week for one semester. Only one of the following courses may be counted: Computer Science 303E, 305J, 312, 312H. Credit for Computer Science 312H may not be earned after a student has received credit for Computer Science 314 or 314H. Prerequisite: Credit with a grade of at least C- or registration for Mathematics 305G, or a passing score on the College of Natural Sciences mathematics placement examination; and consent of the honors director.

**C S 313E. Elements of Software Design.**

Object-oriented design of software using Python, a modern high-level language. Introduction to abstract data types, fundamental algorithms, and basics of complexity analysis. Three lecture hours and one discussion hour a week for one semester. May not be counted toward a degree in computer science. Prerequisite: Computer Science 303E, 305J, 312, or 312H with a grade of at least C-.

**C S 314. Data Structures.**

Second part of a two-part sequence in programming. Introduction to specifications, simple unit testing, and debugging; building and using canonical data structures; algorithm analysis and reasoning techniques such as assertions and invariants. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Computer Science 307, 314, 314H, 315, 315H. Prerequisite: Computer Science 312 or 312H with a grade of at least C-.

**C S 314H. Data Structures: Honors.**

Second part of a two-part sequence in programming. Introduction to specifications, simple unit testing, and debugging; building and using canonical data structures; algorithm analysis and reasoning techniques such as assertions and invariants. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Computer Science 307, 314, 314H, 315, and 315H. Prerequisite: Computer Science 312 or 312H with a grade of at least C-.

**C S 119S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Computer Science.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Computer Science. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**Upper-Division Courses**

**C S 120N, 220N, 320N. Topics in Computer Science for Nonmajors.**

For each semester hour of credit earned, one lecture hour a week for one semester. May not be counted toward a degree in computer science. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**C S 323E. Elements of Scientific Computing.**

Fundamentals of software issues related to scientific computing. Subjects include floating-point computations, numerical computation errors, interpolation, integration, solution of linear systems of equations, optimization, and initial value problems of ordinary differential equations. Implementation of algorithms are investigated using MATLAB for matrix and vector computations. Examples are drawn from a variety of science and mathematics areas. Three lecture hours a week for one semester. May not be counted toward a degree in computer science. Computer Science 323E and 323H may not both be counted. Prerequisite: The following coursework with a grade of at least C-: Computer Science 303E and 313E, or Computer Science 307, 312, 312H, 314, 314H, 315, or 315H; Electrical Engineering 422C; Mathematics 408D, 408M, or 427L; and credit with a grade of at least C- or registration for Mathematics 340L, 341, or Statistics and Scientific Computation 329C.

**C S 323H. Elements of Scientific Computing: Honors.**

Fundamentals of software issues related to scientific computing. Subjects include floating-point computations, numerical computation errors, interpolation, integration, solution of linear systems of equations, optimization, and initial value problems of ordinary differential equations. Implementation of algorithms are investigated using MATLAB for matrix and vector computations. Examples are drawn from a variety of science and mathematics areas. Three lecture hours a week for one semester. May not be counted toward a degree in computer science. Computer Science 323E and 323H may not both be counted. Prerequisite: The following coursework with a grade of at least C-: Computer Science 303E and 313E, or Computer Science 307, 312, 312H, 314, 314H, 315, or 315H; Electrical Engineering 422C; Mathematics 408D, 408M, or 427L; and credit with a grade of at least C- or registration for Mathematics 340L, 341, or Statistics and Scientific Computation 329C; and consent of the honors director.

**C S 324E. Elements of Graphics and Visualization.**

Basics of two- and three-dimensional computer graphics systems, modeling and rendering, and selected graphics software APIs. Other topics may include interactive graphics, animation, graphical user interfaces, and the graphical presentation of information. Three lecture hours a week for one semester. May not be counted toward a degree in computer science. Prerequisite: One of the following with a grade of at least C-: Computer Science 303E, 305J, 307, 312, 312H, 315, or 315H with a grade of at least C-; credit with a grade of at least C- or registration for Mathematics 340L, 341, or Statistics and Scientific Computation 329C; and consent of the honors director.

**C S 326E. Elements of Networking.**

Introduction to the principles and basic concepts of the Internet, networking applications and protocols, and simple client/server applications. Other topics may include network technologies and topologies, packet and circuit switching, LANS and WANS, Internet security, and network management. Three lecture hours a week for one semester. May not be counted toward a degree in computer science. Prerequisite: One of the following with a grade of at least C-: Computer Science 303E, 305J, 307, 312, 312H, 314, 314H, 315, 315H, Electrical Engineering 422C.

**C S 327E. Elements of Databases.**

A practical introduction to database management systems, with discussion of database administration and management. Survey of logical modeling, database design with a focus on relational databases, SQL query language, and current applications. Subjects may include data integrity, performance, concurrency, transaction processing, recovery, security, and Web applications. Three lecture hours a week for one semester. May not be counted toward a degree in computer science. Prerequisite: One of the following with a grade of at least C-: Computer Science 303E, 305J, 307, 312, 312H, 314, 314H, 315, 315H, Electrical Engineering 422C.

**C S 328E. Topics in Elements of Computing.**

Three lecture hours a week for one semester. May not be counted toward a degree in computer science. May be repeated for credit when the
topics vary. Prerequisite: Computer Science 303E, 312, or 312H with a
grade of at least C-.

Restricted to computer science majors. An introduction to low-level
computer design ranging from the basics of digital design to the
hardware/software interface for application programs. Includes basic
systems principles of pipelining and caching, and requires writing and
understanding programs at multiple levels. Four lecture hours and two
discussion hours a week for one semester: Only one of the following may
be counted: Computer Science 310, 310H, 429, 429H. Prerequisite: The
following courses with a grade of at least C: Computer Science 311 (or
313K) or 311H (or 313H); and Computer Science 314 (or 315) or 314H (or
315H).

C S 329E. Advanced Topics in Elements of Computing.
Three lecture hours a week for one semester. May not be counted toward
a degree in computer science. May be repeated for credit when the
topics vary. Prerequisite: Computer Science 313E, 314, or 314H with a
grade of at least C-.

Restricted to computer science majors. An introduction to low-level
computer design ranging from the basics of digital design to the
hardware/software interface for application programs. Includes basic
systems principles of pipelining and caching, and requires writing and
understanding programs at multiple levels. Four lecture hours and two
discussion hours a week for one semester: Only one of the following may
be counted: Computer Science 310, 310H, 429, 429H. Prerequisite: The
following course with a grade of at least C- in each: Computer
Science 311, 311H, 313H, or 313K; Computer Science 314, 314H, 315, or
315H.

Topics in Computer Science.
This course is used to record credit the student earns while enrolled at
another institution in a program administered by the University's Study
Abroad Office. Credit is recorded as assigned by the study abroad adviser
in the Department of Computer Science. University credit is awarded for
work in an exchange program; it may be counted as coursework taken
in residence. Transfer credit is awarded for work in an affiliated studies
program. May be repeated for credit when the topics vary.

C S 329W. Cooperative Computer Science.
This course covers the work period of computer science students in the
Cooperative Education program, which provides supervised work
experience by arrangement with the employer and the supervising
instructor. Forty laboratory hours a week for one semester. The student
must repeat the course each work period and must take it twice to
receive credit toward the degree; at least one of these registrations
must be during a long-session semester. However, no more than three
semester hours may be counted toward the major requirement. The
student's first registration must be on the pass/fail basis; the second
must be on the letter-grade basis. Prerequisite: The following coursework
with a grade of at least C- in each: Computer Science 311, 311H, 313H,
or 313K; 307, 314, 314H, 315, or 315H; 310, 310H, 429, or 429H; and
consent of the undergraduate adviser.

An investigation of algorithmic paradigms: divide and conquer, dynamic
programming, greedy algorithms, graph algorithms, randomized
algorithms, undecidability, NP-completeness, and approximation
algorithms. Three lecture hours and one discussion hour a week for
one semester. Only one of the following may be counted: Computer

Prerequisite: The following coursework with a grade of at least C-:
Computer Science 429 (or 310) or 429H (or 310H); Mathematics
362K or Statistics and Data Sciences 321 (or Statistics and Scientific
Computation 321); and credit with a grade of at least C- or registration
for: Mathematics 340L, 341, or Statistics and Data Sciences 329C (or
Statistics and Scientific Computation 329C).

An investigation of algorithmic paradigms: divide and conquer, dynamic
programming, greedy algorithms, graph algorithms, randomized
algorithms, undecidability, NP-completeness, approximation algorithm,
sorting lower bound, selected topics from amortized analysis, network
flow, and linear programming. Three lecture hours and one hour of
discussion a week for one semester. Only one of the following may
be counted: Computer Science 331, 331H, 357, 357H, 378 (Topic:
Algorithms and Complexity). Prerequisite: The following coursework with
a grade of at least C-: Computer Science 429 (or 310) or 429H (or 310H);
Mathematics 362K or Statistics and Data Sciences 321 (or Statistics and
Scientific Computation 321); and credit with a grade of at least C- or
registration for: Mathematics 340L, 341, or Statistics and Data Sciences
329C (or Statistics and Scientific Computation 329C).

C S 234. Technical Writing.
Application of techniques and strategies of effective technical writing,
and of conventions used in documents such as letters, memos,
proposals, abstracts, and reports. Two lecture hours a week for one
semester. Computer Science 234 and 178 (Topic: Technical Writing) may
not both be counted. May not be counted toward the number of hours
in computer science required for the Bachelor of Science in Computer
Science degree. Prerequisite: Computer Science 310, 310H, 429, or 429H
with a grade of at least C-.

C S 337. Theory in Programming Practice.
Application of program-analysis theory to program design.
Methodologies for large-scale program design. Designed to help
students bring together theoretical and programming skills. Three lecture
hours and one discussion hour a week for one semester. Computer
Science 337 and 337H may not both be counted. Prerequisite: The
following coursework with a grade of at least C-: Computer Science 429
(or 310) or 429H (or 310H); and 331 (or 357), 331H (or 357H), 341, or
341H.

C S 337H. Theory in Programming Practice: Honors.
Application of program-analysis theory to program design.
Methodologies for large-scale program design. Designed to help
students bring together theoretical and programming skills. Three lecture
hours and one discussion hour a week for one semester. Computer
Science 337 and 337H may not both be counted. Prerequisite: The
following coursework with a grade of at least C-: Computer Science 429
(or 310) or 429H (or 310H); and 331 (or 357), 331H (or 357H), 341, or
341H.

Restricted to computer science majors. An introduction to computer
systems software abstractions with an emphasis on the connection of
these abstractions to underlying computer hardware. Key abstractions
include threads, virtual memory, protection, and I/O. Requires writing
of synchronized multithreaded programs and pieces of an operating
system. Four lecture hours and two discussion hours a week for one
semester. Only one of the following may be counted: Computer Science
439, 439H, 352, 352H, 372, and 372H. Prerequisite: Computer Science
310, 310H, 429, or 429H with a grade of at least C-.
Restricted to computer science majors. An introduction to computer systems software abstractions with an emphasis on the connection of these abstractions to underlying computer hardware. Key abstractions include threads, virtual memory, protection, and I/O. Requires writing of synchronized multithreaded programs and pieces of an operating system. Four lecture hours and two discussion hours a week for one semester. Only one of the following may be counted: Computer Science 439, 439H, 352, 352H, 372, and 372H. Prerequisite: Computer Science 310, 310H, 429, or 429H with a grade of at least C-.

C S 340D. Debugging Verifying Programs.
Basic concepts of formal methods with emphasis on using and applying mathematical logic plus finite state systems theory to program verification and debugging. Three lecture hours a week for one semester. Computer Science 340D and 378 (Topic: Debugging and Verifying Programs) may not both be counted. Prerequisite: Computer Science 429 (or 310) or 429H (or 310H) with a grade of at least C-.

C S 341. Automata Theory.
An introduction to the formal study of automata and of related formal languages with applications in computer science. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 341, 341H, Linguistics 340. Prerequisite: Computer Science 429 (or 310) or 429H (or 310H) with a grade of at least C-.

C S 341H. Automata Theory: Honors.
An introduction to the formal study of automata and of related formal languages with applications in computer science. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 341, 341H, Linguistics 340. Prerequisite: Computer Science 429 (or 310) or 429H (or 310H) with a grade of at least C-; and consent of the honors director.

C S 342. Biological Neural Networks.
Biological information processing: architectures and algorithms for supervised learning, self-organization, reinforcement learning, and neuromodulation; deep learning, recurrent, and memory networks; hardware implementations and simulators; applications in engineering, artificial intelligence, and cognitive science. Three lecture hours a week for one semester. Prerequisite: Computer Science 429 (or 310) or 429H (or 310H) with a grade of at least C-.

C S 342C. Computational Brain.
An examination of the brain as a computational system composed of different layers of abstraction. Focus on scientific writing, with weekly reviews of relevant scientific papers. Three lecture hours a week for one semester. Computer Science 342C and 378 (Topic: Computational Brain) may not both be counted. Prerequisite: The following coursework with a grade of at least C- in each: Computer Science 429 (or 310) or 429H (or 310H); and Mathematics 362K or Statistics and Data Sciences 321 (or Statistics and Scientific Computation 321).

C S 343. Artificial Intelligence.
An introduction to the field of artificial intelligence (AI), starting from foundations in search and knowledge representation, and then sampling from major AI topics such as probabilistic reasoning, intelligent agents (including for games), machine learning, planning, natural language processing, robotics, computer vision, and philosophical foundations. Programming projects are required. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 343, 343H, 378H (Topic: Artificial Intelligence: Honors). Prerequisite: The following coursework with a grade of at least C- in each: Computer Science 429 (or 310) or 429H (or 310H); and Mathematics 362K or Statistics and Data Sciences 321 (or Statistics and Scientific Computation 321).

C S 343H. Artificial Intelligence: Honors.
An introduction to the field of artificial intelligence (AI), starting from foundations in search and knowledge representation, and then sampling from major AI topics such as probabilistic reasoning, intelligent agents (including for games), machine learning, planning, natural language processing, robotics, computer vision, and philosophical foundations. Programming projects are required. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 343, 343H, 378H (Topic: Artificial Intelligence: Honors). Prerequisite: The following coursework with a grade of at least C- in each: Computer Science 429 (or 310) or 429H (or 310H); and Mathematics 362K or Statistics and Data Sciences 321 (or Statistics and Scientific Computation 321).

C S 344M. Autonomous Multiagent Systems.
An introduction to autonomous agents, with an emphasis on multiagent systems. Students use a robotics simulator. Emphasis on computer science research activities, including speaking, writing, programming, and working in groups. Three lecture hours a week for one semester. Computer Science 344M and 378 (Topic: Autonomous Multiagent Systems) may not both be counted. Prerequisite: The following coursework with a grade of at least C- in each: Computer Science 429 (or 310) or 429H (or 310H); and Mathematics 362K or Statistics and Data Sciences 321 (or Statistics and Scientific Computation 321).

C S 344R. Robotics.
A survey of methods and techniques important for intelligent robotics. Students work in teams, applying these methods to get intelligent behavior from physical robots. Three lecture hours a week for one semester. Computer Science 344R and 378 (Topic: Robotics) may not both be counted. Prerequisite: The following coursework with a grade of at least C- in each: Computer Science 429 (or 310) or 429H (or 310H); and Mathematics 362K or Statistics and Data Sciences 321 (or Statistics and Scientific Computation 321).

C S 345. Programming Languages.
Survey of significant concepts underlying modern programming languages, including syntax, functions, expressions, types, polymorphism, assignment, procedures, pointers, encapsulation, classes, and inheritance, with some discussion of implementation issues. Prominent programming paradigms, such as sequential, concurrent, object-oriented, functional, and logic programming. Illustrative examples drawn from a variety of current languages. Three lecture hours a week for one semester. Computer Science 345 and 345H may not both be counted. Prerequisite: Computer Science 429 (or 310) or 429H (or 310H) with a grade of at least C-.

C S 345H. Programming Languages: Honors.
A survey of significant concepts underlying modern programming languages, including syntax, functions, expressions, types, polymorphism, assignment, procedures, pointers, encapsulation, classes, and inheritance, with some discussion of implementation issues. Prominent programming paradigms, such as sequential, concurrent, object-oriented, functional, and logic programming. Illustrative examples drawn from a variety of current languages. Three lecture hours a week for one semester. Computer Science 345 and 345H may not both be counted. Prerequisite: Computer Science 429 (or 310) or 429H (or 310H) with a grade of at least C-.

C S 346. Cryptography.
A theoretical introduction to cryptography. Subjects include private key cryptosystems, public key cryptosystems, digital signatures, secret
sharing schemes, and the necessary mathematical background. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C-: Computer Science 429 (or 310) or 429H (310H); 331 (or 357), 331H (or 357H), 341, or 341H; and credit with a grade of at least C- or registration for: Mathematics 340L, 341, or Statistics and Data Sciences 329C (or Statistics and Scientific Computation 329C).

C S 347. Data Management.
Concepts of database design and database system implementation. Data models, query processing, database design theory, crash recovery, concurrent control, and distributed databases. Three lecture hours a week for one semester. Prerequisite: Computer Science 429 (or 310) or 429H (or 310H) with a grade of at least C-.

An examination of social, professional, and ethical issues involved in the use of computer technology. Subjects may include software engineering ethics, computer safety and reliability, constitutional issues, intellectual property, computer crime, societal impact, emerging technologies, and philosophical issues. Three lecture hours a week for one semester. Computer Science 349 and 378 (Topic: Contemporary Issues in Computer Science) may not both be counted. Prerequisite: Computer Science 429 (or 310) or 429H (or 310H) with a grade of at least C-.

C S 350C. Advanced Computer Architecture.
Relationships between programming and hardware design, high performance and low power microarchitectures, memory system design, technology and workload constraints on design, special techniques for coding, addressing, and control, and evaluation of design alternatives will be explored. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 350C, 352, or 352H. Prerequisite: Computer Science 429 (or 310) or 429H (or 310H) with a grade of at least C-.

C S 350F. Operating Systems.
Advanced coverage of core operating systems (virtual memory, file systems, scheduling), and intermediate and advanced operating systems concepts: multiprocessing, multi-core computing, linking, kernel design, virtual machines, and security. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 350F, 372, or 372H. Prerequisite: Computer Science 439 (or 352 or 372) or 439H (or 352H or 372H) with a grade of at least C-.

An introduction to computability theory and computational complexity, focusing on the limits of computation. Subjects include undecidability, NP-completeness, time and space complexity, circuit complexity, and randomized complexity. Three lecture hours a week for one semester. Prerequisite: One of the following with a grade of at least C-: Computer Science 331 (or 357), 331H (or 357H), 341, or 341H.

Introduction to techniques for human-machine communication through imagery. Subjects include display hardware, transformations, interactive techniques, geometric modeling, two- and three-dimensional display algorithms, graphics software systems architecture, and hidden-line and surface elimination. Projects are assigned and in-depth exploration is encouraged. Three lecture hours a week for one semester. Prerequisite: The following courses with a grade of at least C-: Computer Science 429 (or 310) or 429H (or 310H); Computer Science 105C, 371G or 371P; Mathematics 408D, 408M, or 427L; and Mathematics 340L, 341, or Statistics and Data Sciences 329C.

C S 354R. Game Technology.
An examination of major technological components of computer games and their integration, modeling and animation, physics simulation, networking for games, interface and interaction techniques, and special effects. Three lecture hours a week for one semester. Computer Science 354R and 378 (Topic: Game Technology) may not both be counted. Prerequisite: The following coursework with a grade of at least C-: Computer Science 105C, 371G or 371P; and Computer Science 429 (or 310) or 429H (or 310H).

C S 354S. Game Development Capstone: Two-Dimensional Games.
Same as Music 354S and Theatre and Dance 354T (Topic 17). Participation in an interdisciplinary team to gain a thorough understanding of the two-dimensional game development process, through modeling of the environment and practices that are used in game studios. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 354S, 378 (Topic: Game Development Capstone: 2D Games), Music 354S, 376J (Topic: Game Development Capstone: 2D Games), Theatre and Dance 354T (Topic 17). Prerequisite: For computer science majors, Computer Science 429 or 429H with a grade of at least C- and consent of instructor; for others, consent of instructor.

C S 354T. Game Development Capstone: Three-Dimensional Games.
Same as Music 354T and Theatre and Dance 354T (Topic 18). Participation in interdisciplinary teams to gain a thorough understanding of the three-dimensional game development process, through modeling of the environment and practices that are used in game studios. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 354T, Music 354T, 376J (Topic: Game Development Capstone: 3D Games), Theatre and Dance 354T (Topic 18). Prerequisite: For computer science majors, Computer Science 429 or 429H with a grade of at least C- and consent of instructor; for others, consent of instructor.

Introduction to computer networks with emphasis on the Internet. Three lecture hours a week for one semester. Prerequisite: Computer Science 439 (or 372) or 439H (or 372H) with a grade of at least C-.

C S 356R. Introduction to Wireless Networks.
An introduction to basic knowledge in wireless networks ranging from the physical layer to the application layer, and across different types of wireless networks such as WiFi, cellular, and multi-hop networks. Three lecture hours a week for one semester. Computer Science 356R and 378 (Topic: Introduction to Wireless Networks) may not both be counted. Prerequisite: Computer Science 429 (or 310) or 429H (or 310H) with a grade of at least C-.

An introduction to computer security, both in the abstract and in the context of real systems, including recognizing potential threats to confidentiality, integrity and availability, and developing familiarity with current security-related issues in computer science. Three lecture hours a week for one semester. Computer Science 361 and 378 (Topic: Introduction to Security) may not both be counted. Prerequisite: Computer Science 429 (or 310) or 429H (or 310H) with a grade of at least C-.

C S 361C. Information Assurance and Security.
Selected subjects from the broad area of information assurance, including computer security, communications security, operations security, and risk assessment. Three lecture hours a week for one
semester. Computer Science 361C and 378 (Topic: Information Assurance and Security) may not both be counted. Prerequisite: Computer Science 429 (or 310) or 429H (or 310H) with a grade of at least C-.

C S 361S. Network Security and Privacy.
An examination of common computer security threats; fundamental techniques for implementing secure software systems and networks; practical experience in attacking and defending networks. Three lecture hours a week for one semester. Computer Science 361S and 378 (Topic: Network Security and Privacy) may not both be counted. Prerequisite: Computer Science 439 (or 352 or 372) or 439H (or 352H or 372H) with a grade of at least C-.

C S 363D. Introduction to Data Mining.
Introduction to the topic of data mining: data preprocessing regression, classification, clustering, dimensionality reduction, association analysis, and anomaly detection. Three lecture hours a week for one semester. Computer Science 363D and 378 (Topic: Introduction to Data Mining) may not both be counted. Prerequisite: The following coursework with a grade of at least C-: Computer Science 429 (or 310) or 429H (or 310H); Mathematics 362K or Statistics and Data Sciences 321 (or Statistics and Scientific Computation 321); and Mathematics 340L, 341, or Statistics and Data Sciences 329C (or Statistics and Scientific Computation 329C).

Subjects include systems of linear equations, numerical integration, ordinary differential equations, and nonlinear equations. Construction and use of large numerical systems. Influence of data representation and computer architecture on algorithm choice and development. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 367, Mathematics 368K, Physics 329. Prerequisite: The following coursework with a grade of at least C-: Computer Science 429 (or 310) or 429H (or 310H); Mathematics 408D, 408M, or 427L; and Mathematics 340L, 341, or Statistics and Data Sciences 329C (or Statistics and Scientific Computation 329C).

C S 369. Systems Modeling.
Introduction to performance modeling, with emphasis on computer systems. Modeling methodology, queueing network models, simulation, analysis of results. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C-: Computer Science 429 (or 310) or 429H (or 310H); Mathematics 362K or Statistics and Data Sciences 321 (or Statistics Scientific Computation 321).

C S 370. Undergraduate Reading and Research.
Supervised study of selected problems in computer science, by individual arrangement with supervising instructor. The equivalent of three lecture hours a week for one semester. Computer Science 370 and 370F may not both be counted. No more than three semester hours may be counted toward a degree in computer science. Prerequisite: Computer Science 429 (or 310) or 429H (or 310H) with a grade of at least C, and consent of the undergraduate adviser.

C S 370F. Undergraduate Reading and Research: Writing.
Supervised study of selected problems in computer science, by individual arrangement with supervising instructor. The equivalent of three lecture hours a week for one semester. Computer Science 370 and 370F may not both be counted. No more than three semester hours may be counted toward a degree in computer science. Prerequisite: Computer Science 429 (or 310) or 429H (or 310H) with a grade of at least C, and consent of the undergraduate adviser.

C S 371D. Distributed Computing.
Investigation of models, principles, and fundamental protocols, including event ordering and global predicate detection, atomic commit, state-machine replication, rollback recovery, primary backup, consensus for synchronous and asynchronous systems, and Byzantine fault-tolerance. Three lecture hours a week for one semester. Prerequisite: Computer Science 439 (or 372) or 439H (or 372H) with a grade of at least C-.

C S 371G. Generic Programming and the STL.
Three lecture hours a week for one semester. Computer Science 371G and 378 (Topic: Generic Programming and the STL) may not both be counted. Prerequisite: Computer Science 429 (or 310) or 429H (or 310H) with a grade of at least C-.

C S 371L. iOS Mobile Computing.
Overview of mobile computing with an emphasis on developing applications for the iOS operating system. Three lecture hours a week for one semester. Computer Science 371L and 378 (Topic: iOS Mobile Computing) may not both be counted. Prerequisite: Credit with a grade of at least C- or registration in Computer Science 439 (or 352 or 372) or 439H (or 352H or 372H).

C S 371M. Mobile Computing.
Overview of mobile computing. Emphasis on mobile application development. Use of mobile capabilities: sensors, location, telephony, and multimedia. Three lecture hours a week for one semester Computer Science 371M and 378 (Topic: Mobile Computing) may not both be counted. Prerequisite: Computer Science 429 (or 310) or 429H (or 310H) with a grade of at least C-; and credit with a grade of at least C- or registration for Computer Science 439 (or 352 or 372) or 439H (or 352H or 372H).

C S 371P. Object-Oriented Programming.
Programming using class derivation, inheritance, and dynamic polymorphism. Application of a simple object-oriented design methodology to several software development problems. Three lecture hours a week for one semester. Prerequisite: Computer Science 429 (or 310) or 429H (or 310H) with a grade of at least C-.

C S 371R. Information Retrieval and Web Search.
Introduction to traditional and recent methodologies for indexing, processing, querying, and classifying unstructured and semi-structured textual data, including hypertext and World Wide Web documents. Three lecture hours a week for one semester. Computer Sciences 371R and 378 (Topic: Intelligent Information Retrieval and Web Search) may not both be counted. Prerequisite: Computer Science 429 (or 310) or 429H (or 310H) with a grade of at least C-.

C S 371S. Object-Oriented Software Engineering.
Object-oriented formulations of software systems as executable specifications, object-oriented analysis, design of software architectures, translation of high-level specification systems. Three lecture hours a week for one semester. Prerequisite: Computer Science 429 (or 310) or 429H (or 310H) with a grade of at least C-.

C S 373. Software Engineering.
Introduction to current knowledge, techniques, and theories in large software system design and development. Three lecture hours a week for one semester. Prerequisite: Computer Science 429 (or 310) or 429H (or 310H) with a grade of at least C-.

C S 373S. Software Design.
Model-driven engineering, UML metamodels and constraints, model transformations, object-oriented refactorings, design patterns, object-oriented frameworks and plug-ins, layered and dataflow architectural
styles, map-reduce parallel software architectures, and service-oriented architectures. Three lecture hours a week for one semester. Prerequisite: Computer Science 373S and 378 (Topic: Software Design) may not both be counted. Prerequisite: Computer Science 429 (or 310) or 429H (or 310H) with a grade of at least C-

**C S 374L. Longhorn Startup.**
Focus on skill development and mentoring in startup formation, technology development, market validation, marketing, sales, operations, human resources, program management, and finance. Emphasis on written and oral presentation of startup activities. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 374L, 378 (Topic: Longhorn Startup), Electrical Engineering 377E, Engineering Studies 377E, Management 337 (Topic: Interdisciplinary Entrepreneurship), 337 (Topic 2). Prerequisite: Upper-division standing, Computer Science 329 (or 310) or 429H (or 310H) with a grade of at least C-, and consent of instructor.

**C S 375. Compilers.**
An examination of formal description of languages, lexical analysis, syntax analysis, syntax-directed translation, run-time system management, code generation, code optimization, compiler-building tools. Three lecture hours a week for one semester. Prerequisite: Computer Science 429 (or 310) or 429H (or 310H) with a grade of at least C-

**C S 376. Computer Vision.**
Explores computer vision, a discipline that develops methods that enable machines to interpret or analyze images and videos. Includes the study of image formation, feature detection, segmentation, multiple-view geometry, recognition and learning, and motion and tracking. Three lecture hours a week for one semester. Computer Science 376 and 378 (Topic: Computer Vision) may not both be counted. Prerequisite: The following coursework with a grade of at least C-. Computer Science 429 (or 310) or 429H (or 310H); Mathematics 340L, 341, or Statistics and Data Sciences 329C (or Statistics and Scientific Computation 329C); Computer Science 329H, or Statistics and Data Sciences 321 (or Statistics and Scientific Computation 321).

**C S 377. Principles and Applications of Parallel Programming.**
Models of parallel computation, fundamental concepts for representation of parallel computation structures, study of representative parallel programming systems, and programming of parallel algorithms and computations. Three lecture hours a week for one semester. Prerequisite: Computer Science 439 (or 372) or 439H (or 372H) with a grade of at least C-

**C S 377P. Programming for Performance.**
Investigation on the performance-critical features of modern computer architectures and how applications can take advantage of them to obtain high performance. Three lecture hours a week for one semester. Computer Science 377P and 378 (Topic: Programming for Performance) may not both be counted. Prerequisite: Computer Science 429 (or 310) or 429H (or 310H) with a grade of at least C-

**C S 178, 378. Undergraduate Topics in Computer Science.**
One or three lecture hours a week for one semester. Only one of the following may be counted unless the topics vary: Computer Science 178, 378, 178H, 378H. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing; additional prerequisites vary with the topic.

**C S 178H, 378H. Undergraduate Topics in Computer Science: Honors.**
For each semester hour of credit earned, one lecture hour a week for one semester. Only one of the following may be counted unless the topics vary: Computer Science 178, 378, 178H, 378H. May be repeated for credit when the topics vary. Prerequisite: Computer Science 429 (or 310) or 429H (or 310H) with a grade of at least C-

**C S 379H. Computer Science Honors Thesis.**
Directed reading, research, and/or projects in areas of computer science, under supervision of a faculty member, leading to an honors thesis. The thesis must be approved by a committee of three readers. The equivalent of three lecture hours a week for one semester, by arrangement with a faculty member. Prerequisite: The following coursework with a grade of at least C- in each: Computer Science 311, 311H, 313H, or 313K; Computer Science 314, 314H, 315, or 315H; Computer Science 310, 310H, 429, or 429H; Mathematics 408C, 408K, or 408N; nine additional semester hours of upper-division coursework in computer science; and consent of the student’s research supervisor and the departmental honors adviser.

**School of Human Ecology**

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 793).

**Human Development and Family Sciences: HDF**

**Lower-Division Courses**

**HDF 304 (TCCN: TECA 1303). Family Relationships.**
Same as Women's and Gender Studies 301 (Topic 4). The process of family interaction over the life cycle. Application of research findings to the understanding of relationships. Only one of the following may be counted: Human Development and Family Sciences 304, 304H, Women's and Gender Studies 301 (Topic 4).

**HDF 304H. Family Relationships: Honors.**
The process of family interaction over the life cycle. Application of research findings to the understanding of relationships. Three lecture hours a week for one semester. Only one of the following may be counted: Human Development and Family Sciences 304, 304H, Women's and Gender Studies 301 (Topic 4). Offered on the letter-grade basis only. Prerequisite: Consent of the department.

**HDF 312. Family Resource Management.**
Management concepts and theory in resource allocation used to meet family and life demands. Three lecture hours a week for one semester. Prerequisite: Credit or registration for Human Development and Family Sciences 304.

**HDF 313 (TCCN: TECA 1354). Child Development.**
Same as Women's and Gender Studies 313. Motor, language, cognitive, social, and emotional development in the family context. Three lecture hours a week for one semester. Only one of the following may be counted: Human Development and Family Sciences 313, 313H, Women’s and Gender Studies 301 (Topic 5), 313. Prerequisite: Credit or registration for Human Development and Family Sciences 113L, and Psychology 301 with grade of at least C-.
HDF 313H. Child Development: Honors.
Motor, language, social, and emotional development of children in the family context, with an emphasis on research findings and evaluations. Three lecture hours a week for one semester. Only one of the following may be counted: Human Development and Family Sciences 313, 313H, Women’s and Gender Studies 301 (Topic 5: Child Development). Offered on the letter-grade basis only. Prerequisite: Psychology 301 with a grade of at least B-, credit or registration for Human Development and Family Sciences 113L, and consent of the department.

HDF 113L. Child Development Laboratory.
Students observe children at the University Child and Family Laboratory and relate their observations to the issues discussed in Human Development and Family Sciences 313 and 313H. One and one-half laboratory hours a week for one semester. Prerequisite: Psychology 301 with a grade of at least C- and credit or registration for Human Development and Family Sciences 313 or 313H.

Survey of research methods, including observational and experimental techniques. Three lecture hours a week for one semester. Prerequisite: Statistics and Data Sciences 302 (or Statistics and Scientific Computation 302); credit with a grade of at least C- or registration for Human Development and Family Sciences 304 or 304H, 313 or 313H, and 113L.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the School of Human Ecology. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses
HDF 322. Personal and Family Finance.
Overview from the individual and family perspectives of financial planning tools, cash management, consumer credit, basic tax preparation, and insurance selection. Includes application of knowledge to hypothetical situations and case studies. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the School of Human Ecology. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

HDF 335. Adult Development.
Adulthood and the development, changes, and maturation that occurs, including the impact of relationships in adulthood. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and Human Development and Family Sciences 313 and 113L.

HDF 337. Personal Relationships.
Studies intimate relationships, including dating, cohabitation, marriage, and gay and lesbian relationships, as well as situational factors that may influence basic relationship processes. Three lecture hours a week for one semester. Prerequisite: Upper-division standing; Human Development and Family Sciences 304 or 304H, and 315L with a grade of at least C- in each.

HDF 338. Developmentally Appropriate Practices with Young Children.
Developmentally appropriate practices, the importance of play, arranging environments, material selection, and a basic understanding about centers and activities for young children. Three lecture hours a week for one semester; with an additional three to six hours of fieldwork sometime during the semester. Prerequisite: Upper-division standing; and a grade of at least C- in one of the following: Human Development and Family Sciences 313 and 113L, 313H and 113L, or Psychology 304.

HDF 340. Ethical, Philosophical, and Professional Development Issues.
Explores ethical and philosophical issues; personal values and choices; professional development and leadership; and career goals, opportunities, and challenges as they relate to human development and family sciences. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

HDF 342. Development of Psychopathology from Infancy through Adolescence.
A developmental approach to the study of emotional and behavioral disorders from infancy through adolescence, including attachment disorders, autism, attention deficit disorder, conduct disorder, phobias, obsessive-compulsive disorder, depression, eating disorders, and schizophrenia. Also includes contrasting theories of psychopathology, epidemiology and outcomes of childhood disorders, therapeutic approaches and their efficacy, and developmental resilience. Three lecture hours a week for one semester. Human Development and Family Sciences 342 and Psychology 339 may not both be counted. Prerequisite: Upper-division standing; Human Development and Family Sciences 313 or 313H, and 113L with a grade of at least C- in each.

HDF 343. Human Development in Minority and Immigrant Families.
Examines the theories of human development and cultural psychology as they apply to the developmental issues of minority and immigrant children and families. Three lecture hours a week for one semester. Human Development and Family Sciences 343 and 378K (Topic: Child Development in Minority and Immigrant Families) may not both be counted. Prerequisite: Upper-division standing and Human Development and Family Sciences 313 or 313H, 113L, and 315L with a grade of at least C- in each.

HDF 345. Peer Relationships.
Children’s peer relationships from toddlerhood to adolescence. Three lecture hours a week for one semester. Human Development and Family Sciences 345 and 378K (Topic: Peer Relationships) may not both be counted. Prerequisite: Upper-division standing; Human Development and Family Sciences 313 or 313H, 113L, and 315L with a grade of at least C- in each.

HDF 347. Socioeconomic Problems of Families.
An analysis of how socioeconomic factors, including income, education, employment, and their intersection with race and gender affect child development and family functioning. Three lecture hours a week for one semester. Prerequisite: Upper-division standing, and six semester hours of coursework in anthropology, economics, education, human development and family sciences, psychology, social work, or sociology.
HDF 351. Infant Development and Attachment Relationships.
The development of emerging social language and cognitive capacities during infancy and toddlerhood and the development and consequences in infant-caregiver attachment security. Three lecture hours a week for one semester. Prerequisite: Upper-division standing; and Human Development and Family Sciences 313 or 313H, 113L, and 315L, with a grade of at least C- in each.

HDF 352. Field Experience: Community.
Practicum in applied settings concerning human development and family sciences. One lecture hour and ten to twelve hours of fieldwork a week for one semester. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Upper-division standing; a University grade point average of at least 2.00; the following coursework with a grade of at least C- in each course: Human Development and Family Sciences 304 or 304H, 313 or 313H, 113L, 315L, and 340; Statistics and Data Sciences 302 (or Statistics and Scientific Computation 302); Mathematics 408C, 408N, 408R, or Statistics and Data Sciences 332; and nine additional semester hours of upper-division coursework in human development and family sciences. Admission by application only, filed with the Department of Human Development and Family Sciences by May 1 for enrollment in the following spring semester, or by December 1 for enrollment in the following fall semester.

HDF 352L. Field Experience: Early Childhood.
Study and implementation of skills necessary for planning, guiding, and interacting with young children and their families, and for the management of facilities that provide services for young children. One lecture hour and ten to twelve hours of fieldwork a week for one semester. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Upper-division standing; a University grade point average of at least 2.00; the following coursework with a grade of at least C- in each course: Human Development and Family Sciences 304 or 304H, 313 or 313H, 113L, 315L, and 340; Statistics and Data Sciences 302 (or Statistics and Scientific Computation 302); Mathematics 408C, 408N, 408R, or Statistics and Data Sciences 332; and nine additional semester hours of upper-division coursework in human development and family sciences. Admission by application only, filed with the Department of Human Development and Family Sciences by May 1 for enrollment in the following spring semester, or by December 1 for enrollment in the following fall semester.

HDF 352P. Field Practicum: Early Childhood.
Designed for students in their last semester. Study and implementation of skills necessary for planning, guiding, and interacting with young children and their families; and for the management of facilities that provide services for young children. One lecture hour and at least twenty laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing; a University grade point average of at least 2.00; the following coursework with a grade of at least C- in each course: Human Development and Family Sciences 304 or 304H, 313 or 313H, 113L, and 315L, Statistics and Data Sciences 302 (or Statistics and Scientific Computation 302); Mathematics 408C, 408N, 408R, or Statistics and Data Sciences 332; Human Development and Family Sciences 338, 340, and 466; three additional semester hours of upper-division coursework in human development and family sciences; and consent of instructor. Admission by application only, filed with the Department of Human Development and Family Sciences by May 1 for enrollment in the following spring semester, or by December 1 for enrollment in the following fall semester.

Explores questions concerning the rapidly changing world in which people routinely live into old age. Focus on challenges adults face at the individual, familial, and societal level due to a prolonged adulthood. Three lecture hours a week for one semester. Human Development and Family Sciences 353 and 378K (Topic: Longevity in the 21st Century) may not both be counted. Prerequisite: Upper-division standing; and Human Development and Family Sciences 304 or 304H, and 315L with a grade of at least C- in each.

Intensive study of selected research problems. For each semester hour of credit earned, at least three laboratory hours a week for one semester. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Upper-division standing; Human Development and Family Sciences 315L with a grade of at least B; Mathematics 316, Statistics and Data Sciences 303 (or Statistics and Scientific Computation 303), 304 (or Statistics and Scientific Computation 304), 305 (or Statistics and Scientific Computation 305), or 306 (or Statistics and Scientific Computation 306) with a grade of at least B; a University grade-point average of at least 3.00; and consent of the department.

Intensive study of selected problems of a transdisciplinary nature. For each semester hour of credit earned, the equivalent of three lecture hours a week for one semester. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Upper-division standing; a University grade point average of at least 2.00; the following coursework with a grade of at least C- in each course: Human Development and Family Sciences 304 or 304H, 313 or 313H, 113L, and 315L; Mathematics 408C, 408N, 408R, Statistics and Data Sciences 302 (or Statistics and Scientific Computation 302), or 332; and consent of instructor. Admission by application only, filed with the Department of Human Development and Family Sciences by May 1 for enrollment in the following spring semester, or by December 1 for enrollment in the following fall semester; or consent of instructor. For nonmajors, the application process and prerequisites may be waived by consent of instructor.

HDF 356. The Evolution of Relationships.
Reviews the scientific literature on the evolution and function of adult romantic relationships. Three lecture hours a week for one semester. Prerequisite: Human Development and Family Sciences 304 or 304H.

The determinants of parenting attitudes and behavior and the effects on children of variations in sensitivity, discipline, and other aspects of parenting. Three lecture hours a week for one semester. Prerequisite: Upper-division standing; and Human Development and Family Sciences 313, 113L, and 315L with a grade of at least C- in each.
HDF 360. Methods of Family Life Education.
An examination, integrating theory and applied knowledge, of the best practices for working with families. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and Human Development and Family Sciences 304 or 304H, and 315L with a grade of at least C- in each.

HDF 362. Children and Public Policy.
The positive and negative effects of policy on children and the policy landscape in several major domains of child and family life in the United States and in other countries. Three lecture hours a week for one semester. Prerequisite: Six semester hours of upper-division coursework in human development and family sciences, anthropology, education, psychology, sociology, or social work.

Same as Women’s and Gender Studies 466. Theory and implementation of positive child and adult interactions, communication, and guidance strategies. Two lecture hours and four laboratory hours a week for one semester. Only one of the following may be counted: Human Development and Family Sciences 466, Women’s and Gender Studies 345 (Topic 4: Guidance in Adult-Child Relationships), 466. Prerequisite: Human Development and Family Sciences 313 or 313H, 113L, and three semester hours of upper-division coursework in human development and family sciences, education, psychology, or sociology, with a grade of at least C- in each.

The biological, cognitive, and social changes that occur during the second decade of life, including the developmental issues faced by adolescents. Three lecture hours a week for one semester. Prerequisite: Upper-division standing; and Human Development and Family Sciences 313 or 313H, 113L, and 315L, with a grade of at least C- in each.

HDF 372K. Families in Transition.
Analysis of interaction, transitions, and crises over the family life span. Three lecture hours a week for one semester. Prerequisite: Upper-division standing; and Human Development and Family Sciences 313 or 313H, 113L, and 315L, with a grade of at least C- in each.

HDF 378K. Advanced Child and Family Development.
Concepts, theories, and issues in human development and family sciences. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Six semester hours of upper-division coursework in human development and family sciences (or child development), anthropology, education, psychology, sociology, or social work, and consent of instructor.

Topic 5: Media and the Family.
Topic 6: Introduction to Early Childhood Intervention.
Topic 9: Introduction to Child Life. Introduction to the role of child life specialists in health care settings and the application of general human development principles to the care of hospitalized children and adolescents. Human Development and Family Sciences 378K (Topic: Introduction to Child Life) and 378K (Topic 9) may not both be counted.
Introduction to contemporary understandings of sexuality in the context of human development and families, organized around major subjects in the field of sexuality studies. Human Development and Family Sciences 378K (Topic: Sexuality in Human Development and Family Sciences) and 378K (Topic 10) may not both be counted.

HDF 378L. Theories of Child and Family Development.
Study and analysis of major theories in human and family development. Three lecture hours a week for one semester. Prerequisite: The following with a grade of at least C- in each: Human Development and Family Sciences 313 or 313H, 113L, 315L, and three additional semester hours of upper-division coursework in human development and family sciences.

HDF 379H. Honors Tutorial Course.
Supervised individual research on a special topic in human development and family sciences; oral presentation and preparation of a scholarly paper covering the research. May be based on laboratory, library, or field research. Conference course. May be repeated once for credit. Prerequisite: Upper-division standing, a University grade point average of at least 3.00, admission to the human development and family sciences honors program, and consent of the honors adviser. Name of honors adviser and application procedure are available in the division office.

Human Ecology: H E
Lower-Division Courses
H E 115H. Freshman Honors Seminar.
Research presentations by students, faculty, and invited scientists on current issues in human ecology, human development and family sciences, and nutrition. One lecture hour a week for one semester. Prerequisite: Admission to the honors degree option in human development and family sciences or nutrition; three semester hours of honors-designated coursework in chemistry, biology, or mathematics with a grade of at least B-; and Human Development and Family Sciences 313 and 113L, or Nutrition 312 and 112L, with a grade of at least B- in each course.

Upper-Division Courses
H E 225H. Sophomore Honors Seminar.
Students plan, conduct, write, and present research on a current topic in human ecology. Two lecture hours a week for one semester. Prerequisite: Six semester hours of honors-designated coursework in chemistry, biology, or mathematics; concurrent enrollment in a course chosen from a list maintained in the departmental office; and consent of instructor and the departmental honors adviser.

H E 355. Problems Course.
Intensive study of selected problems of a transdisciplinary nature. The equivalent of three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Consent of instructor; additional prerequisites vary with the topic.

Topic 1: Research in Family Economics.

Nutrition: NTR
Lower-Division Courses
Essential food components and their functions in life processes. Three lecture hours a week for one semester. Only one of the following may be counted: Nutrition 306, 312, 312H. Nutrition 306 may not be counted toward a nutritional sciences degree.

NTR 307. Introductory Food Science.
Application of the principles of food chemistry to processing and preparation techniques. Three lecture hours a week for one semester.
NTR 107L. Introductory Food Science Laboratory.
Three laboratory hours a week for one semester. Prerequisite: Credit or registration for Nutrition 307.

NTR 312. Introduction to Nutritional Sciences.
Biochemical, physiological, and cellular functions of energy macronutrients, vitamins and minerals, and the scientific basis for current dietary and nutrient recommendations. Designed for science majors. Three lecture hours a week for one semester. Prerequisite: Nutrition 306, 312, or 312H with a grade of at least C-.

NTR 312H. Introduction to Nutritional Sciences: Honors.
Restricted to honors eligible majors in nutritional sciences, biochemistry, and students in the Dean's Scholars Honors Program. Biochemical, molecular, and cellular functions of nutrients with emphasis on primary scientific literature and current methodology. Three lecture hours a week for one semester. Prerequisite: Nutrition 306, 311, 312, 312H. Credit with a grade of at least C- or registration for Nutrition 112L.

NTR 112L. Introduction to Nutritional Science Laboratory.
Collection and evaluation of dietary intake data, nutrient composition of food, and survey of dietetic practice. Three laboratory hours a week for one semester. Prerequisite: Chemistry 301 or 301H, and Mathematics 408C or 408N, or the equivalent; and credit or registration for Biology 311C or 315H, and Chemistry 302 or 302H.

NTR 312R. Research in Nutritional Sciences.
Restricted to honors eligible majors in nutritional sciences, biochemistry, and students in the Dean's Scholars Honors Program. Introduction to biochemical and molecular biological techniques, enzyme and coenzyme assays, dietary analysis and assessment protocols, and statistical methods in nutritional sciences. Preparation of a scholarly paper and oral presentation of research findings. One lecture hour and six laboratory hours a week for one semester. Prerequisite: Chemistry 301 with a grade of at least C-; credit or registration for Biology 311C, Chemistry 302, and Nutrition 312; and one of the following with a grade of at least C-: Mathematics 408C, 408D, 408N, Statistics and Data Sciences 302, 304, 306, 325H, 328M, (Statistics and Scientific Computation 302, 304, 306, 325H, 328M).

NTR 312R. Research in Nutritional Sciences.
Introduction to biochemical and molecular biological techniques, enzyme and coenzyme assays, dietary analysis and assessment protocols, and statistical methods in nutritional sciences. Preparation of a scholarly paper and oral presentation of research findings. One lecture hour and six laboratory hours a week for one semester. Prerequisite: Chemistry 301 with a grade of at least C-; credit or registration for Biology 311C, Chemistry 302, and Nutrition 312; and one of the following with a grade of at least C-: Mathematics 408C, 408D, 408N, Statistics and Data Sciences 302, 304, 306, 325H, 328M, (Statistics and Scientific Computation 302, 304, 306, 325H, 328M).

NTR 315. Nutrition through the Life Cycle.
Adapting nutrition recommendations to physiological changes throughout the life span. Three lecture hours a week for one semester. Prerequisite: Nutrition 306, 312, or 312H with a grade of at least C-.

NTR 316. Culture and Food.
Influence of culture on foodways around the world. Three lecture hours a week for one semester. Prerequisite: Nutrition 306, 312, or 312H with a grade of at least C-.

NTR 218. Assessment of Nutritional Status.
Assessment of nutritional status using anthropometric, biochemical, clinical, and dietary intake data, and development and implementation of effective care for individuals. Two lecture hours a week for one semester. Prerequisite: Nutrition 312 and 112L, or 312H and 312R with a grade of at least C- in each; and credit or registration for Nutrition 118L.

NTR 118L. Assessment of Nutritional Status Laboratory.
Three laboratory hours a week for one semester. Prerequisite: Credit or registration for Nutrition 218.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the School of Human Ecology. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

Nutrition-related issues in the developing world, including nutrient deficiency and disease, concerns in vulnerable populations (pregnancy, infancy, childhood, and old age), and food aid. Three lecture hours a week for one semester. Prerequisite: Nutrition 306, 312, or 312H with a grade of at least C-.

NTR 324. Advanced Food Science.
Application of the principles of food chemistry to the development of food products. Three lecture hours a week for one semester. Offered in the spring semester only. Prerequisite: Chemistry 320M, Nutrition 307, 107L, and 326 with a grade of at least C- in each; and credit or registration for Nutrition 124L.

NTR 124L. Advanced Food Science Laboratory.
Individual research project on food product development and evaluation. Three laboratory hours a week for one semester. Offered in the spring semester only. Prerequisite: Credit or registration for Nutrition 324.

NTR 326. Intermediate Nutrition and Metabolism.
Integration of nutrition, genetics, cell biology, and molecular biology. Focuses on the cellular and molecular basis of nutrition-related diseases and nutrient-gene interactions. Three lecture hours and one discussion hour a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each course: Biology 311C, and Nutrition 312 or 312H; and credit or registration for Chemistry 320M, and Nutrition 112L or 312R.

NTR 126L. Nutritional Sciences Laboratory.
Basic laboratory techniques in nutritional sciences. Three laboratory hours a week for one semester. Prerequisite: Credit or registration for Nutrition 326.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the School of Human Ecology. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Application of counseling and learning theories to the care of individuals and groups in community and clinical settings. Three lecture hours and

Explores the nutritional concerns of different countries, environmental aspects of food supply, and social policies needed to balance supply with demand in a sustainable manner. Three lecture hours a week for one semester. Nutrition 331 and 360 (Topic: International Nutrition: Social and Environmental Policies) may not both be counted. Prerequisite: Upper-division standing, and Nutrition 306, 312, or 312H with a grade of at least C-.

NTR 332. Community Nutrition.

National and international issues in public health and nutrition programs. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each course: Nutrition 312 or 312H; 315; and 326.

NTR 334. Foodservice Systems Management.

Procurement, production, and service delivery in foodservice systems. Three lecture hours a week for one semester. Prerequisite: For nutrition majors: Nutrition 307, 107L, and 326 with a grade of at least C- in each, and credit or registration for Nutrition 234L; for others: Nutrition 307 with a grade of at least C-, and one of the following with a grade of at least C: Nutrition 306, 312, or 312H.

NTR 234L. Laboratory in Foodservice Systems.

Six laboratory hours a week for one semester. Prerequisite: Credit or registration for Nutrition 334.

NTR 337. Principles of Epidemiology in Nutritional Sciences.

Introduction the role of epidemiology methods as the basis for selection of study design and data collection tools in nutrition research such as dietary tools, biomarkers of diet or disease, and anthropometric measurements like obesity. Emphasis on interpretation of study results in nutrition research. Three lecture hours per week for one semester. Offered on the letter-grade basis only. Prerequisite: Credit with a grade of at least C- or registration for Nutrition 312H or 326, and one of the following with a grade of at least C-: Statistics and Data Sciences 302 (or Statistics and Scientific Computation 302), 304 (or Statistics and Scientific Computation 304), 306 (or Statistics and Scientific Computation 306), 325H (or Statistics and Scientific Computation 325H), or 328M (or Statistics and Scientific Computation 328M).

NTR 338H. Issues in Nutrition and Health: Honors.

Restricted to honors majors in biology, biochemistry, and nutritional sciences, and students in the Dean's Scholars honors program. Identifying, reading, analyzing, writing, and presenting scientific research on selected subjects in nutrition and human health. Detailed literature review as preparation for an honors research thesis. Three lecture hours a week for one semester. Nutrition 338H and 338W may not both be counted. Prerequisite: Biology 325 or 325H; Nutrition 312H and 312R; one of the following: Statistics and Data Sciences 302 (or Statistics and Scientific Computation 302), 303 (or Statistics and Scientific Computation 303), 304 (or Statistics and Scientific Computation 304), 305 (or Statistics and Scientific Computation 305), or 325H (or Statistics and Scientific Computation 325H); and credit or registration for Biology 365S and Chemistry 369, or Chemistry 339K and 339L.

NTR 338W. Issues in Nutrition and Health.

Identifying, reading, analyzing, writing, and presenting scientific research on selected topics in nutrition and human health. Three lecture hours a week for one semester. Nutrition 338H and 338W may not both be counted. Prerequisite: The following with a grade of at least C-: Biochemistry 369 (or Chemistry 369), or Biochemistry 339F (or Chemistry 339K and 339L); Biology 325 and 365S (or 416L); Nutrition 312H or 326; and one of the following with a grade of at least C-: Statistics and Data Sciences 302 (or Statistics and Scientific Computation 302), 304 (or Statistics and Scientific Computation 304), 306 (or Statistics and Scientific Computation 306), 325H (or Statistics and Scientific Computation 325H), or 328M (or Statistics and Scientific Computation 328M).

NTR 342. Advanced Nutritional Sciences.

Biochemical and molecular biological aspects of carbohydrate, fat, and amino acid metabolism. Three lecture hours and one discussion hour a week for one semester. Prerequisite: The following coursework with a grade of at least C-: Nutrition 326; and Biology 325 or Nutrition 218 and 118L; and credit with a grade of at least C- or registration for Biochemistry 369 (or Chemistry 369) and Biology 365S.

NTR 343. Vitamins and Minerals.

Biomedical, cellular and molecular, and clinical aspects of vitamins, minerals, and water. Three lecture hours a week for one semester. Only one of the following may be counted: Nutrition 343, 344, 365 (Topic 1). Prerequisite: Biology 325, 365S, and Nutrition 342, with a grade of at least C- in each.

NTR 144M. Advanced Nutrition II Laboratory.

Advanced laboratory techniques in nutrition assessment and research. Three laboratory hours a week for one semester. Offered in the spring semester only. Prerequisite: Consent of instructor.

NTR 245C. Clinical Practice in Medical Nutrition Therapy I.

Application of principles of medical nutrition therapy to the care of clients in the practice setting. Nine hours of supervised practice a week for one semester. Prerequisite: Nutrition 370 with a grade of at least C-, credit or registration for Nutrition 371, and admission to the Coordinated Program in Dietetics.

NTR 345M. Clinical Practice in Medical Nutrition Therapy II.

Application of principles of medical nutrition therapy to the care of patients in health care facilities. Forty hours of supervised practice a week for four weeks. Prerequisite: Nutrition 245C and 371 with a grade of at least C- in each. Students must register for Nutrition 372C in the same semester.

NTR 152, 252, 352. Field Experience in Nutrition.

For each semester hour of credit earned, three field placement hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Approval of application for field experience. Applications are available in the department office.

NTR 353. Field Experience in International Nutrition.

Supervised study abroad experience designed to help students understand nutrition science issues, applications, related health care practices in a global environment, and other cultures. Students work in schools, hospitals, or similar settings to gain professional experience with food science and dietetics. Five lecture hours and ten field hours a week for five weeks. Prerequisite: Nutrition 306, 312, or 312H with a grade of at least C-; and approval of an application to study abroad.

Supervised individual undergraduate research in nutrition. For each semester hour of credit earned, at least three laboratory hours a week for one semester. May be repeated for credit, but no more than four semester hours may be counted toward a degree in nutrition. Any
additional hours must be taken on the pass/fail basis. Nutrition 355 and 355H may not both be counted. Prerequisite: Consent of instructor.

NTR 355H. Honors Research.
Restricted to honors eligible majors in nutritional sciences, biology, biochemistry, and students in the Dean's Scholars Honors Program. Research in biological, biochemical, or nutritional science, coordinated with readings of scientific literature, and a written research report for each semester in which credit is sought. Nutrition 355 and 355H may not both be counted. May be repeated for credit, but no more than nine semester hours may be counted toward the major in nutrition. Any additional hours must be taken on the pass/fail basis. Prerequisite: Biology 325 or 325H; Nutrition 312H and 312R; and approval of research supervisor.

NTR 355M. Advanced Food Systems Management.
Financial control, quality assurance, personnel administration, foodservice equipment, layout and design in foodservice operations. Analysis and evaluation of an organized foodservice operation. Three lecture hours and four hours of supervised practice a week for one semester. Prerequisite: Accounting 310F or 311, and Nutrition 334 and 234L, with a grade of at least C- in each.

NTR 360. Selected Topics in Applied Nutrition.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

NTR 162. Standards, Ethics, and Credentialing for Dietetic Practice.
Identification of standards and discussion of current issues in ethics and credentialing for dietetics practice. One lecture hour a week for one semester. Prerequisite: Credit or registration for Nutrition 218 and 118L.

NTR 365. Selected Topics in Nutritional Sciences.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

Topic 2: Nutrition and Genes. Interactions between nutrients and gene expression, including heredity, gene regulation, metabolic disease, developmental abnormalities, and molecular techniques. Additional prerequisite: Biology 325, 365S, and Nutrition 342, with a grade of at least C- in each.

Topic 4: Obesity and Metabolic Health. Examines the prevalence, prevention, and treatment of adult and childhood obesity, and the metabolic disorders related to obesity. Prerequisite: Biology 365S, and Nutrition 312 or 312H with a grade of at least C-.

NTR 366L. Research Methods in Nutritional Sciences.
Focuses on state-of-the-art research in nutrition, including biochemistry and molecular biological techniques for nutrient-gene interactions, enzyme and coenzyme functions, and nutrient analysis of biologic materials. Includes data analysis and statistical methods. One lecture hour and six laboratory hours a week for one semester. Prerequisite: Nutrition 126L with a grade of at least C-.

NTR 167. Undergraduate Seminar in Nutritional Sciences.
One lecture hour a week for one semester. Prerequisite: Upper-division standing.

NTR 370. Medical Nutrition Therapy I.
The role of nutrition in prevention and treatment of chronic disease such as diabetes and heart disease. Three lecture hours a week for one semester. Prerequisite: Nutrition 326 with a grade of at least a C; and credit with a grade of at least C- or registration for the following: Biology 365S, Biochemistry 369 (or credit for Chemistry 369), and Nutrition 218 and 118L.

NTR 371. Medical Nutrition Therapy II.
Nutritional care of critically ill patients, including techniques of nutrition support. Three lecture hours a week for one semester. Prerequisite: Nutrition 326 with a grade of at least a C; and credit with a grade of at least C- or registration for the following: Biology 365S, Biochemistry 369 (or credit for Chemistry 369), and Nutrition 218 and 118L.

NTR 372C. Practicum in Clinical Dietetics.
Supervised practice in health care facilities. Forty hours of supervised practice a week for four weeks. Prerequisite: Admission to the Coordinated Program in Dietetics. Students must register for Nutrition 345M in the same semester.

NTR 372F. Practicum in Food Services Systems Management.
Supervised practice in food service facilities. Forty hours of supervised practice a week for four weeks. Prerequisite: Nutrition 245C and 355M with a grade of at least C- in each, and admission to the Coordinated Program in Dietetics. Students must register for Nutrition 373S in the same semester.

NTR 373S. Practicum in Dietetic Administration.
Supervised practice in the administration of food and nutrition programs. Forty hours of supervised practice a week for three weeks. Prerequisite: Admission to the Coordinated Program in Dietetics. Students must register for Nutrition 372F in the same semester.

NTR 374C. Practicum in Community Dietetics.
Supervised practice in one or more community-based nutrition programs. Forty hours of supervised practice a week for five weeks. Prerequisite: Nutrition 345M, 372C, 372F, and 373S with a grade of at least C- in each; and admission to the Coordinated Program in Dietetics.

NTR 374P. Advanced Practicum in Dietetics.
Culminating experience in the practice of administrative, clinical, or community dietetics. Forty hours of supervised practice a week for five weeks. Prerequisite: Nutrition 345M, 372C, 372F, and 373S with a grade of at least C- in each; and admission to the Coordinated Program in Dietetics.

NTR 379H. Honors Tutorial Course.
Supervised individual research on a special topic in nutrition; oral presentation and preparation of a scholarly paper covering the research. May be based on laboratory, library, or field research. Conference course. May be taken twice for credit. May be repeated for credit. Prerequisite: Consent of the student's research supervisor and the departmental honors adviser.

Public Health: PBH

Lower-Division Courses

PBH 317. Introduction to Public Health.
Overview and basic principles of public health, including the public health system, concepts and tools for measuring health in populations, the relationship between public health and the medical care system, and the role of law and government in public health. Three lecture hours a week for one semester. Biology 317 and Public Health 317 may not both be counted.
Upper-Division Courses

PBH 320. Topics in Health Informatics and Health Information Technology.

Concepts, theories, and issues in health informatics and health information technology. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Biology 325 or 325H with a grade of C-.

Topic 1: Introduction to Health Informatics and Healthcare Analytics.
Restricted to students enrolled in the Health Informatics and Health Information Technology Professional Education Program. Consists of didactic lectures about the theoretical foundations of health informatics, database theory and management, healthcare standards, medical decision making, and healthcare analytics. Includes four hands-on workshops that relate to subjects taught in this course: HL7, SQL, Microsoft Excel, Microsoft Access, and Tableau. Also includes a research project over a six-eight week time period, production of a professional poster, and a presentation in a research poster forum judged by faculty, industry representatives, healthcare professionals, and policy makers.

PBH 330. Topics in Public Health.
Concepts, theories, and issues in public health. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Biology 325 or 325H with a grade of at least C-.

An investigation of global health issues, including the principles of global health, the burden of morbidity and mortality, health determinants, health care and public health systems, socioeconomic development, and human rights. Three lecture hours a week for one semester. Biology 334 and Public Health 334 may not both be counted. Prerequisite: Public Health 358D and 368D with a grade of at least C- in each.

Recent developments and research methods in the field of public health will be explored. For each semester hour of credit earned, one lecture hour a week for one semester. Some topics may require additional hours. May be repeated for credit when the topics vary. Prerequisite: Bio 325 or 325H with a grade of at least C-.

PBH 338. Environmental Health.
Introduction to the major areas of environmental health presented in the context of epidemiology, toxicology, and health effects. Subjects include water and air quality, solid and liquid waste, hazardous chemicals, radiation, infectious agents, food safety, and occupational health. Three lecture hours a week for one semester; several field trips to be arranged outside of the lecture. Prerequisite: Public Health 358D and 368D with a grade of at least C- in each.

PBH 341R. Public Health Research.
Students conduct public health research, mentored by professionals at public health practice agencies or faculty at graduate schools of public health throughout Texas. An average of twelve hours of fieldwork a week for a total of at least 180 hours. May be repeated for credit. Prerequisite: Biology 325 or 325H with a grade of at least C-; students must also submit a proposal to the instructor.

PBH 354. Epidemiology.
Restricted to public health majors. Introduction to basic principles and concepts in epidemiology, including descriptive epidemiology, association and causation, basic epidemiological study design, evidence-based decision analysis, and applications of epidemiology methods to basic and clinical science. Three lecture hours a week for one semester. Prerequisite: Public Health 317 with a grade of at least C-; and credit or registration for Biology 325 or 325H, and Statistics and Data Sciences 328M (or credit for Statistics and Scientific Computation 328M).

Restricted to public health majors. An introduction to social and behavioral theories that inform the discipline of public health and applied public health practice, including practical examples of how these theories inform and influence health promotion to understand and modify health-related behaviors. Focus on health inequities and inequalities of populations living in the United States and how underlying cultures and social structures impact the health of individuals and communities. Three lecture hours a week for one semester. Only one
of the following may be counted: Public Health 356, 368D, or Sociology 368D. Prerequisite: The following coursework with a grade of at least C- in each: Public Health 354, Biology 325, Statistics and Data Sciences 328M.

**PBH 358D. Health Policy and Health Systems.**
Covers the essentials of health policy and law, including the ways that policy and legal issues impact health care and public health systems. Three lecture hours a week for one semester. Only one of the following may be counted: Health and Society 330, Public Health 358D, Sociology 358D. Prerequisite: The following coursework with a grade of at least C- in each: Public Health 354, and Statistics and Data Sciences 328M (or Statistics and Scientific Computation 328M).

**PBH 361P. Public Health Internship.**
Includes a public health research project off campus at a public health practice agency or a graduate school of public health. The equivalent of twelve lecture hours a week for one semester, with additional hours to be arranged. May be repeated once for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Biology 325 or 325H and Statistics and Data Sciences 328M (or Statistics and Scientific Computation 328M) with a grade of at least C- in each; and completion and approval of an internship application, available online at the Public Health website.

**PBH 379H. Honors Tutorial Course.**
Supervised individual research on a special topic in public health, leading to an honors thesis and an oral presentation. May be based on laboratory, library, or field research. Three lecture hours a week for one semester. May be repeated once for credit. May be repeated for credit. Prerequisite: Upper-division standing; a university grade point average of at least 3.0; admission to the public health honors program; and consent of the honors adviser.

**Textiles and Apparel: TXA**

**Lower-Division Courses**

**TXA 301. Clothing the Planet.**
Study of the role textiles and apparel play in human lives. Introduction to the textile and apparel industries, and the broad perspective and core skill sets that characterize the field. Subjects include terminology, fibers and fabrics, textile technology, product development through fashion design and retail merchandising, global sourcing and manufacturing, international promotion and marketing, and textile conservation, exhibition, and collection management. Three lecture hours a week for one semester.

**TXA 103, 203, 303. Topics in Textiles and Apparel.**
For each semester hour of credit earned, the equivalent of one hour a week for one semester. May be repeated for credit when the topics vary.

**TXA 205. Textiles.**
Chemical and physical properties of fibers and yarns, fabric construction, and finishes. Two lecture hours a week for one semester. Prerequisite: Credit or registration for Textiles and Apparel 105L.

**TXA 105L. Textiles Laboratory.**
Three laboratory hours a week for one semester. Prerequisite: Credit or registration for Textiles and Apparel 205.

**TXA 212K. Apparel Industry.**
Introduction to the integrated apparel design industry from the creative and merchandising perspective. Two lecture hours a week for one semester. Prerequisite: Credit with a grade of at least C- or registration for Textiles and Apparel 212L; and the following coursework with a grade of at least C- in each course: Textiles and Apparel 316L or 316Q; and 319, or 219C and 119L.

**TXA 212L. Apparel Product Development and Design Laboratory.**
Six laboratory hours a week for one semester. Prerequisite: Credit or registration for Textiles and Apparel 212K.

**TXA 313. Aesthetics: Theory and Practice.**
Introduction to the theoretical and practical aspects of the principles of design and visual literacy in the field of textiles and apparel. Introduction to the principles and theories that define what is aesthetically pleasing and the vocabulary necessary to identify, describe, and critique them. Three lecture hours a week for one semester.

**TXA 214K. Product Development.**
Introduction to all stages of product development involved in fashion and functional design. Emphasis on target market identification, cost analysis, material selection, and the organization of product development within the industry structure. Two lecture hours a week for one semester. Prerequisite: Concurrent registration for Textiles and Apparel 214L.

**TXA 214L. Product Development Laboratory.**
Application of product development skills and strategies involved in fashion and functional design. Emphasis on target market identification, cost analysis, material selection, and the position of product development within the industry structure. Six laboratory hours a week for one semester. Prerequisite: Concurrent registration for Textiles and Apparel 214K.

**TXA 316L. Apparel I.**
Industrial techniques of pattern design and garment construction. One lecture hour and six laboratory hours a week for one semester.

**TXA 316Q. Sewn Products Analysis.**
Evaluation of soft goods, including materials, quality of work, and costs. Three lecture hours a week for one semester. Prerequisite: Credit with a grade of at least C- or registration in Textiles and Apparel 205 and 105L.

**TXA 219C. Applied Art in Visual Presentation.**
Applied principles and elements of design as related to merchandise presentation, visual display, store layout, and space planning. Two lecture hours a week for one semester. Students with credit for Textiles and Apparel 319 may not earn credit for Textiles and Apparel 219C or 119L. Prerequisite: Textiles and Apparel 313 with a grade of at least C-.

**TXA 119L. Applied Art in Visual Presentation Laboratory.**
Application of the principles and elements of design as related to merchandise presentation, visual display, store layout, and space planning. Three lecture hours a week for one semester. Students with credit for Textiles and Apparel 319 may not earn credit for Textiles and Apparel 119L. Prerequisite: Credit with a grade of at least C- or registration in Textiles and Apparel 219C.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the School of Human Ecology. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.
Upper-Division Courses

TXA 325K. Culture, Gender, and Appearance.
Social, economic, aesthetic, and political aspects of historic costume and of the evolution of modern dress. Three lecture hours a week for one semester. Prerequisite: Textiles and Apparel 219C and 119L with a grade of at least C- in each, or Art History 301.

TXA 325L. History of Dress and Cultural Change I.
Social, economic, aesthetic, and political aspects of costume evolution from ancient times through the Renaissance. Three lecture hours a week for one semester. Textiles and Apparel 325K and 325L may not both be counted. Prerequisite: Upper-division standing.

TXA 325M. History of Dress and Cultural Change II.
Social, economic, aesthetic, and political aspects of costume evolution from the Baroque period through modern times. Three lecture hours a week for one semester. Textiles and Apparel 325K and 325M may not both be counted. Prerequisite: Upper-division standing.

TXA 126. Apparel II.
Advanced apparel construction techniques using industry standards and portfolio development. One lecture hour a week for one semester. Prerequisite: Textiles and Apparel 316L with a grade of at least C- and credit or registration for Textiles and Apparel 226L.

TXA 226L. Apparel II Laboratory.
Advanced apparel construction techniques using industry standards and portfolio development. Six laboratory hours a week for one semester. Prerequisite: Credit or registration for Textiles and Apparel 126.

TXA 327. Clothing and Human Behavior.
The social, psychological, and nonverbal significance of clothing and the influence of clothing on behavior. Three lecture hours a week for one semester. Prerequisite: Three semester hours of coursework in psychology, sociology, or the School of Human Ecology.

Basic research methodology and academic writing. Three lecture hours a week for one semester. Prerequisite: Upper-division standing, completion of an introductory statistics course, and Textiles and Apparel 205 and 105L with a grade of at least C- in each.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the School of Human Ecology. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Overview of the textiles and apparel industry including apparel industry standards, labor costs, economics, distribution, and structure in the modern global marketplace. Subjects include the analysis of consumption patterns and retailing systems to inform product development; exploring cross-cultural comparisons between global consumer markets; understanding importing and exporting systems and other procedures involved in modern supply chain activities; and grasping the collaborative nature of innovation and design, manufacturing and distribution, retailing, and customer satisfaction leading to sales in the global market. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

TXA 350. Advanced Apparel Design Portfolio.
Extensive sociological, cultural, and historic visual research for apparel design. Through a range of projects that incorporate computer-aided design, product illustration, technical packets, proposed production plans, and target market identification, students will produce a professional level, hard copy and online, portfolio that will help prepare them for a career in the apparel industry. The equivalent of three lecture hours a week for one semester. Prerequisite: Upper-division standing; Textiles and Apparel 164K (Topic 1) and 264L (Topic 1); and admission to the Apparel Design Internship Program.

TXA 151. Pre-Internship Seminar.
Preparation course for students seeking internships. Subjects include application, internship interview process, effective professional communication, ethical decision making, leadership development, site expectations, and the impact of business environments on personal and career effectiveness in the field of textiles and apparel. One lecture hour a week for one semester. Prerequisite: Upper-division standing, Textiles and Apparel 301, 205, 105L, 214K, 214L, 316Q, 219C, 119L, and 376.

Participation in an approved internship after completion of all conservation science stream coursework. Students will be placed in an appropriate site under the supervision of an available professional such that students may experience collection management, artifact storage and conservation, exhibit planning/installation, environmental monitoring, and/or other museum or conservation activities. A formal agreement between the faculty supervisor and internship sponsor will govern activities and be monitored throughout the experience through assignments, regular electronic communication, and a site visit. For Textiles and Apparel 352C, a minimum of 150 hours of supervised fieldwork for one semester. For Textiles and Apparel 652C, a minimum of 225 hours of supervised fieldwork for one semester. Prerequisite: Upper-division standing; and Admission to the Conservation Certificate Program, or Textiles and Apparel 219C, 119L, 354C, 354D, 354E, 354F, and 355D, and admission to the Conservation Internship Program for Conservation Science, Option IV major.

TXA 352D. Field Experience in Apparel Design.
Application of apparel design techniques and principles in a professional environment. At least 154 hours of fieldwork for one semester. Prerequisite: Admission to the Apparel Design Internship Program, and Textiles and Apparel 164K (Topic 1: Flat Pattern) and 264L (Topic 1: Flat Pattern) with a grade of at least C- in each.

TXA 352M. Field Experience in Retail Merchandising.
Application of merchandising techniques and principles in a professional environment. At least 154 hours of supervised fieldwork for one semester. Prerequisite: Admission to the Retail Merchandising Internship Program.

TXA 353. Field Experience I.
Application of merchandising strategic planning in a professional environment with faculty and site director supervision. At least 150 hours of supervised fieldwork for one semester. Textiles and Apparel 315K and Textiles and Apparel 353 may not both be counted. Prerequisite: Admission to the Retail Merchandising Internship Program.

TXA 354C. Material Properties and Deterioration.
Overview of the major mechanisms of textile deterioration from a variety of sources including light, dirt, various insects and microorganisms, as well as mechanical wear and tear. Examination of the peculiarities of these deterioration phenomena through the study of the basic chemical and physical properties of the fibers constituting the textiles. Three
TXA 354D. Instrumental Methods for Conservation Assessment.
Overview of primary instrumental methods for evaluating historical textiles in terms of physical characteristics, chemical content, strength loss, structural deterioration, color change, and overall structural integrity and status of impact of environmental factors. Focus on instrumental features, measuring procedures, and interpretation of instrumental data. Three lecture hours a week for one semester. Prerequisite: Textiles and Apparel 354E with a grade of at least C-.

TXA 354E. Conservation Planning and Preventive Treatments.
Implementation and management of textile conservation. Subjects include general requirements for preserving historical textiles, procedures for planning textile conservation projects, and major physical and chemical methods of preventive and postdamage treatments for historical textiles. One lecture hour and four laboratory hours a week for one semester. Prerequisite: The following with a grade of at least C-: Chemistry 320M, Textiles and Apparel 260L, and 260M.

TXA 354F. Advanced Exhibit Planning and Installation.
Planning and implementation of a full museum exhibit including budget, selection and preparation of artifacts, prop construction, signage, educational and promotional materials, donor/supporter communication, and opening event. Serves as a pre-internship/capstone course for conservation science majors. Six laboratory hours a week for one semester. Prerequisite: Textiles and Apparel 325L, 325M, and 355D.

TXA 155, 355. Problems Course.
Intensive study of selected problems of an interdisciplinary nature. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Consent of instructor.

Computer technology used to create textile prints, weaves, illustrations, flat patterns, promotional pieces, and pattern markers. One lecture hour and six laboratory hours a week for one semester. Prerequisite: Textiles and Apparel 205 and 105L with a grade of at least C- in each; and credit with a grade of at least C- or registration for Textiles and Apparel 164K (Topic 1: Flat Pattern) and 264L (Topic 1: Flat Pattern).

Principles and techniques in the identification, documentation, conservation, and exhibition of textile-based artifacts. Six laboratory hours a week for one semester. Prerequisite: Textiles and Apparel 325M.

TXA 355K. Textile and Apparel Economics.
Economic and regulatory aspects of the textile and apparel industries. Three lecture hours a week for one semester. Prerequisite: Textiles and Apparel 205 and 105L with a grade of at least C- in each, and Economics 304K and 304L with a grade of at least C- in each.

TXA 355N. History of Textiles.
Role of textiles in the social, economic, aesthetic, and technological development of society; including production and design of textiles throughout history. Three lecture hours a week for one semester. Prerequisite: Textiles and Apparel 205 and 105L and three semester hours of coursework in art history, with a grade of at least C- in each course.

TXA 355P. Problems in Retail Merchandising.
Intensive study of selected problems related to field experience; development of analytical and problem-solving skills for retailing. At least 154 hours of supervised fieldwork for one semester. Prerequisite: Admission to the Retail Merchandising Internship Program.

TXA 359H. Honors Reading Course.
Supervised individual reading on special subjects. Conference course. Prerequisite: Upper-division standing, a University grade point average of at least 3.00, and consent of the undergraduate adviser.

TXA 260L. Advanced Textiles.
Composition, structure, and properties of textile products; contributions of textile research. Two lecture hours a week for one semester. Prerequisite: Textiles and Apparel 205 and 105L, Chemistry 301, 302, and 204; six semester hours of upper-division coursework in textiles and apparel with a grade of at least C- in each course; and credit with a grade of at least C- or registration for Textiles and Apparel 260M.

TXA 260M. Advanced Textiles Laboratory.
Analysis and evaluation of textile performance. Six laboratory hours a week for one semester. Prerequisite: Credit or registration for Textiles and Apparel 260L.

TXA 361. Consumer Behavior in the Marketplace.
Internal and external factors that influence consumer behavior in the marketplace. Application of concepts and theories from the social sciences to the areas of textiles, clothing, and appearance; experience in conducting market and consumer research. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and three semester hours of coursework in economics.

TXA 164K. Advanced Problems in Clothing.
Creative application of flat pattern or draping processes. One lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Textiles and Apparel 212K, 212L, 316L, 126, and 226L, with a grade of at least C- in each; and credit with a grade of at least C- or registration for the same topic of Textiles and Apparel 264L.

Topic 1: Flat Pattern.
Topic 2: Draping.
Topic 3: Advanced Apparel Design.

TXA 264L. Advanced Problems in Apparel Laboratory.
Six laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Credit with a grade of at least C- or registration for the same topic of Textiles and Apparel 164K.

Topic 1: Flat Pattern.
Topic 2: Draping.
Topic 3: Advanced Apparel Design.

For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing. Additional prerequisites vary with the topic.

TXA 376. Principles of Retail Merchandising.
Retail strategic planning and implementation for soft goods and apparel. Three lecture hours a week for one semester. Prerequisite: Marketing 320F and six semester hours of upper-division coursework in textiles and apparel, business, studio art, or journalism.
**TXA 377. Merchandising Systems.**
Application course focusing on the calculation and analysis of the selling price, profitability, assortment planning, purchasing, and inventory control. Includes spreadsheet application and exercises. Prerequisite: Upper-division standing; Textiles and Apparel 301, 205, 105L, 214K, 214L, 316Q, 219C, 119L, 151, and 376; and admission to the Retail Merchandising Internship Program.

**TXA 378H. Honors Seminar in Textiles and Apparel.**
The equivalent of three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing, a University grade point average of at least 3.00, and consent of the honors adviser.

**TXA 379H. Honors Tutorial Course.**
Supervised individual research on a special topic in textiles and apparel; oral presentation and preparation of a scholarly paper covering the research. May be based on laboratory, library, or field research. Conference course. May be taken twice for credit. May be repeated for credit. Prerequisite: Upper-division standing, admission to the Textiles and Apparel Honors Program, Textiles and Apparel 359H with a grade of at least B+, and consent of the honors adviser.

**Department of Marine Science**
The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 793).

**Marine Science: MNS**

**Lower-Division Courses**

**MNS 101. Seminar in Marine Science.**
Overview of the depth and breadth of marine and freshwater science. Introduction to research opportunities at the university. One lecture hour a week for one semester. Biology 101C (Topic: Seminar in Marine Science) and Marine Science 101 may not both be counted. Prerequisite: None

**MNS 307 (TCCN: GEOL 1345). Introduction to Oceanography.**
Introduction to the sciences of oceanography: geological, physical, and biological. Two lecture hours and two laboratory hours a week for one semester. Marine Science 307 and Geological Sciences 307 may not both be counted.

**MNS 308. Humans and a Changing Ocean.**
The consequences of human-induced alteration of the marine environment including the impact on fisheries, marine mammals, food-web changes, and changes in species composition and ecological function will be explored. Designed for non-science majors. Two lecture hours and two laboratory hours a week for one semester. Marine Science 309 (Topic: Humans and a Changing Ocean) and 308 may not both be counted. Prerequisite: Marine Science 307 (or Geological Sciences 307).

**MNS 309. Topics in Marine Science.**
Designed for nonscience majors. Selected topics in marine science, including marine biology, marine chemistry, and physical oceanography. Two lecture hours and one and one-half laboratory hours a week for one semester. May not be counted toward a degree in marine science. May be repeated for credit when the topics vary. Prerequisite: Marine Science 307.

**MNS 310. Fundamentals of Marine Science.**
Designed for students pursuing a degree option in Marine and Freshwater Science. In-depth introduction to physical, chemical, geological, and biological processes in marine systems. Three lecture hours a week for one semester. Prerequisite: The following with a grade of at least a C- in each: Biology 311D or 315H, or 301L and 301M; and Chemistry 302 or 302H, or Chemistry 304K and 305.

**Upper-Division Courses**

**MNS 320. Marine Ecology.**
Study of ecological processes at different levels of integration in marine ecosystems. Three lecture hours a week for one semester. Prerequisite: Biology 311D, and Chemistry 302 or 302H.

**MNS 120L. Laboratory Studies in Marine Ecology.**
A laboratory course with two weekend field trips to the Marine Science Institute at Port Aransas to perform ecological studies in the Texas coastal zone. Two weekend field trips, with pre- and post-field trip laboratory hours required. Prerequisite: Credit or registration for Marine Science 320.

**MNS 440. Limnology and Oceanography.**
Same as Biology 456L. An introduction to the study of the interactions between aquatic organisms and their environments. Two lecture hours and six laboratory hours a week for one semester. Prerequisite: Chemistry 302 or 302H; and the following with a grade of at least C-: Biology 325 or 325H, and Biology 206L, 208L, 226L, or Environmental Science 311.

**MNS 344K. Marine Mining and Minerals.**
Same as Geological Sciences 344K. Overview of seafloor mineral deposits, their exploration, and mining. Three lecture hours a week for one semester. May not be counted toward the Bachelor of Science in Geological Sciences or the Bachelor of Science in Environmental Sciences degrees. Prerequisite: Geological Sciences 401 or 303, 416K, and 416M.

**MNS 148, 348. Training Cruise(s).**
May be repeated for credit when the topics vary.

**Topic 1: Training Cruise(s): Research in Biological Oceanography.**
One or more cruises of one to several days each to collect physical, chemical, oceanographic, and biological data relevant to biological processes in the sea. Preparatory instruction and post-cruise sample processing and analysis. Marine Science 148, 348 (Topic 1) and 152R may not both be counted. Additional prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302H.

**Topic 2: Marine Geology and Geophysics Field Course.** Hands-on, team-based instruction in the collection and processing of marine geological and geophysical data along the Gulf of Mexico coast. For Marine Science 148, one lecture hour and one laboratory hour a week for one semester. For Geological Sciences 348K and Marine Science 348, one lecture hour and four laboratory hours a week for one semester with additional hours to be arranged. Only one of the following may be counted: Geological Sciences 348K, 397F, Marine Science 348 (Topic 2). Fulfills the field experience requirement for some geological sciences degree programs. Students should contact the Department of Geological Sciences before registering. Additional prerequisite: For geological sciences majors, Geological Sciences 420K or 320L with a grade of at least C-, and consent of instructor; Geological Sciences 416M and 465K are recommended; for others, Marine Science 307 and 354F with a grade of at least C- in each, and consent of instructor.
Lectures, laboratory, and fieldwork. The equivalent of three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302H.

Topic 9: Endocrinology. Endocrinology, with special reference to lower vertebrates and evolution of control systems. Marine Science 352 (Topic 9) and 382 (Topic 9: Endocrinology) may not both be counted. May count as zoology. Prerequisite: Previous courses in physiology and consent of instructor.

Topic 12: Adaptive Physiology of Marine Organisms. Selected topics in the comparative physiology of marine organisms and their environmental adaptations. Prerequisite: Previous course in cell physiology or consent of instructor.

Topic 13: Microclimatology. Physical and thermal characteristics of the atmospheric surface layer, with particular reference to coastal environments.

Topic 16: Ocean Engineering. Description of ocean waves and tides, methods of wave forecasting, classroom and field exercises. Prerequisite: Consent of instructor.

Topic 18: Marine Atmospheric Chemistry. Atmospheric particle chemistry, sea-surface films, atmospheric organic matter; air-sea chemical fractionation; carbon, nitrogen, sulfur cycles. Prerequisite: Consent of instructor.

Topic 20: General Marine Phycology. Survey of benthic algae and phytoplankton of the Texas coast; systematics, morphology, life history and culturing techniques.

MNS 352C. Estuarine Ecology.
Explores general ecological principles of estuarine environments in Texas including physiography, hydrography, and plant and animal community structure and productivity. The equivalent of three lecture hours a week for one semester; additional lecture and field/lab hours may be required. Marine Science 352 (Topic 8) and 352C may not both be counted. Prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302H.

MNS 352D. Marine Botany.
Exploration of the marine algae and seagrasses of the south Texas coast, with emphasis on their taxonomy, physiology, and ecology; may include field trips to representative coastal habitats. The equivalent of three lecture hours a week for one semester; additional lecture and field/labatory hours may be required. Prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302H.

MNS 352E. Marine Conservation Biology.
Explores how human activities influence the natural functioning and diversity of marine ecosystems and examines conservation efforts aimed to promote the sustainability of coastal habitats; may include several field excursions to local/regional marine ecosystems including sensitive coastal marshes and seagrass communities. Encourages the development of creative and critical thinking skills through numerous classroom activities focused on developing holistic understandings of marine ecosystems and the complexities of conservation science. The equivalent of three lecture hours a week for one semester; additional lecture and field/labatory hours may be required. Marine Science 353 (Topic: Marine Conservation Biology) and 352E may not both be counted. Prerequisite: Biology 311D and Chemistry 302 or 302H with a grade of at least C- in each.

MNS 152L, 252L. Principles of Marine Science: Laboratory Studies.
A laboratory course with one-day field trips (which may include weekends) to local estuarine and coastal habitats. Includes pre- and post-field trip laboratory hours. For each semester hour of credit earned, three or four field/laboratory sessions, scheduled throughout the semester. May be counted toward the Bachelor of Science in Biology (Option III: Marine and Freshwater Biology) and toward other undergraduate degrees in biology. May be repeated for credit when the topics vary. Prerequisite: Credit or registration for Marine Science 352.

MNS 152R. Marine Science Research and Reporting.
Reviews the planning, conduct, and communication of marine science research, including hypothesis generation, experimental design, data analysis, and scientific writing and presentation. The equivalent of one lecture hour a week for one semester. Marine Science 148, 348 (Topic 1) and 152R may not both be counted. Prerequisite: Upper-division standing and concurrent enrollment in Marine Science 170, 270, or 370.

MNS 152S, 252S. Principles of Marine Science: Undergraduate Seminar.
Guest lectures by local and visiting research scientists on a variety of topics in marine and environmental science. Each seminar is followed by a separate one-hour discussion to give students an opportunity to meet directly with the scientist. For each semester hour of credit earned, one lecture/discussion a week for one semester. May be counted toward the Bachelor of Science in Biology (Option III: Marine and Freshwater Biology) and toward other undergraduate degrees in biology. May be repeated for credit when the topics vary.

MNS 152T, 252T. Principles of Marine Science: Special Topics.
Advanced research topics in marine science relevant to critical habitats, organisms, or processes. The equivalent of one or two lecture hours a week for one semester; additional lecture and field/lab hours may be required. May be counted toward the Bachelor of Science in Biology (Option III: Marine and Freshwater Biology) and toward other undergraduate degrees in biology. May be repeated for credit when the topics vary. Prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302H.

MNS 353. Topics in Marine Science.
The equivalent of three lecture hours a week for one semester; additional lecture and field/laboratory hours may be required. May be repeated for credit when the topics vary. Prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302H.

Topic 2: Fish Adaptations to Coastal Ecosystems. Quantitative ecological comparisons of zoogeographical abundance and distribution with population, metabolic, and growth parameters. Additional prerequisite: Fifteen semester hours of coursework in biology and/or zoology.

Topic 4: Current Research. Research instruction/participation in marine science. Laboratory and field activity with emphasis on faculty contact.

Topic 5: Seafloor Mining. Study of seafloor mineral resources, including problems and policies related to exploration, mining, environmental concerns, assessment, and industrial development.

Topic 7: Marine Sedimentology. Selected topics and problems concerning the depositional processes, controls, and distribution of marine sediments.

Topic 8: Marine Chemistry. Study of the processes controlling the chemistry of natural waters, the oceans as a chemical system, and the impact of human activities on these systems.

Topic 15: Interdisciplinary Classroom Field Methods. Uses the interdisciplinary nature of marine science to focus on inquiry-based instruction, constructivist-oriented teaching strategies, and field explorations.

Topic 17: Marine Fish Physiology. Physiology of major organ systems of marine fishes, with emphasis on adaptations to marine environments. Includes osmoregulation, nutrition, circulation, excretion, reproduction, sensory physiology, and endocrine control. Additional prerequisite: Biology 311D, and Chemistry 302 or 302H.

MNS 354. Marine Invertebrates.

Study of invertebrate taxonomy, structure, behavior, and ecology; may include field sampling and laboratory studies of invertebrate habitats of the Texas coast. The equivalent of three lecture hours a week for one semester; additional lecture and field/laboratory hours may be required. Prerequisite: The following with a grade of least C- in each: Biology 311D or 315H, and Chemistry 302 or 302H.

MNS 354C. Biology of Fishes.

Anatomy, physiology, behavior, life history, taxonomy, and distribution of fishes; may include field sampling and laboratory studies of the coastal biota. The equivalent of three lecture hours a week for one semester; additional lecture and field/laboratory hours may be required. Prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302H.

MNS 354E. Aquatic Microbiology.

Ecology, physiology, distribution, and growth of heterotrophic and autotrophic bacteria and fungi in waters and sediments. The equivalent of three lecture hours a week for one semester; additional lecture and field/laboratory hours may be required. Marine Science 354E and 384E may not both be counted. Prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302H.

MNS 354F. Marine Geology.

Survey of the origin, structure, stratigraphy, and sedimentology of marine basins and continental margins. Three lecture hours a week for one semester. Marine Science 354F and 384F may not both be counted. Prerequisite: Upper-division standing; and six semester hours of coursework in chemistry, marine science, or geological sciences, or consent of instructor.

MNS 354J. Marine Chemistry.

Introduction to marine and environmental chemistry, including the distribution of elements in seawater, the geochemical and oceanographic processes controlling and affected by these distributions, and the effects of human activities on marine chemical processes. The equivalent of three lecture hours a week for one semester; additional lecture and field/laboratory hours may be required. Prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302H.

MNS 354Q. Marine Environmental Science.

Application of the principles of marine science to the study of environmental issues: toxicology, biogeochemical cycles, and the biological and ecological impacts of xenobiotic materials in the coastal zone. The equivalent of two lecture hours and one laboratory hour a week for one semester; additional lecture and field/laboratory hours may be required. Prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302H.

MNS 354T. Biological Oceanography.

Introduction to the organisms in the sea, their adaptations to the environment, and the factors that control their distribution and abundance; may include laboratory and field work with organisms found in the coastal waters of Texas. The equivalent of three lecture hours a week for one semester; additional lecture and field/laboratory hours may be required. Prerequisite: The following with a grade of at least C-: Biology 311D or 315H, and Chemistry 302 or 302H.

MNS 354U. Biology of Sharks, Skates, and Rays.

Ecology, anatomy, and physiology of elasmobranch fishes. The equivalent of three lecture hours a week for one semester; additional lecture and field/laboratory hours may be required. Prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302H.

MNS 355C. Physiology of Fishes.

Physiology of major organ systems of both marine and freshwater fishes. The equivalent of three lecture hours a week for one semester; additional lecture and field/laboratory hours may be required. Prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302H.

MNS 356. Ecosystem Oceanography.

An exploration of interconnections within and among marine ecosystems, as well as their linkages to climate, human activity, and adjacent freshwater and terrestrial environments. Emphasis will be placed on Gulf of Mexico ecosystems; may include hands-on field and laboratory activities. The equivalent of three lecture hours a week for one semester; additional lecture and field/laboratory hours may be required. Marine Science 352 (Topic: Ecosystem Oceanography) and 356 may not both be counted. Prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302H.

MNS 357. Marine Phytoplankton Diversity.

The taxonomy of the major phytoplankton groups, their physiology, and their role in marine ecosystem; may include field and/or laboratory hours. The equivalent of three lecture hours a week for one semester; additional lecture and field/laboratory hours may be required. Marine Science 353 (Topic: Diversity Marine Phytoplankton) and 357 may not both be counted. Prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302H.

MNS 367K. Human Exploration and Exploitation of the Sea.

Review of the history of ocean exploration including major oceanographic expeditions. Discussion of current topics in ocean exploration and exploitation of marine resources, the impact of resource exploitation on biological systems, and the development of marine policy. An oral presentation is required. The equivalent of three lecture hours a week for one semester; additional lecture and field/laboratory hours may be required. Prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302H.

Supervised individual instruction and research in marine science field and laboratory techniques. The equivalent of one, two, or three class hours a week for one semester, at the Marine Science Institute at Port Aransas. May be repeated for credit. Prerequisite: Six semester hours
Department of Mathematics

The Department of Mathematics offers a wide variety of courses both for math majors and for non-majors. Students interested in mathematics as a first or second major should consult the advisers in the Mathematics, Physics, and Astronomy Advising Center, in RLM 4.101.

Course prerequisites are enforced. Most entry-level mathematics courses have an appropriate score on the mathematics placement exam as a prerequisite. In such courses, students must be prepared to present proof of their score immediately after classes have begun; those unable to meet the score will be dropped.

Students may check the current Course Schedule or go to the Department of Mathematics website (http://www.ma.utexas.edu) for details about the prerequisite required for their course.

Students who plan to use transfer credit to meet the prerequisite of a mathematics course must submit an official transcript to the Office of Admissions so that the credit may be added to their official university record. In addition to sending a transcript, students are encouraged to retain hard copies of their grade reports for proof of prerequisite until their transcripts are processed.

Students who wish to enroll in conference courses in the Department of Mathematics must submit consent of instructor forms to the department before registering. Forms are available in the Advising Center.

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 793).

Actuarial Foundations: ACF

Lower-Division Courses

ACF 110C, 210C, 310C, 410C. Conference Course.
Supervised study of selected subjects by individual arrangement with department and instructor. Conference course. May be repeated for credit. Prerequisite: Written consent of instructor.

ACF 110T. Conference Course: Texas Department of Insurance Internship.
Supervised internship at the Texas Department of Insurance. Conference course. May be repeated for credit. Admission by application only. Students must apply to the director of the concentration in actuarial studies the semester before they take the course.

ACF 112M. Actuarial Laboratory on Probability and Statistics.
Problems and supplementary instruction in probability and statistics, especially as required for the Society of Actuaries and Casualty Actuarial Society Exam 110. Three laboratory hours a week for one semester. Prerequisite: Mathematics 362K, credit or registration for Mathematics 378K, and consent of the director of the concentration in actuarial studies.

Upper-Division Courses

ACF 329. Theory of Interest.
Same as Mathematics 329F: Measurement of interest, present and accumulated value, amortization, sinking funds, bonds, duration, and immunization. Covers the interest-theory portion of an exam of the Society of Actuaries and the Casualty Actuarial Society. Three lecture hours a week for one semester. Only one of the following may be counted: Actuarial Foundations 329, Mathematics 329F, 389F. Prerequisite: Mathematics 408D, 308L, 408L, or 408S with a grade of at least C.

ACF 129D. Introductory Actuarial Financial Mathematics.
Introductory analysis of financial derivatives. Covers the financial derivatives portion of the syllabus for the professional actuarial exam on financial mathematics. One lecture hour a week for one semester. Offered on the pass/fail basis only. Prerequisite: Credit with a grade of at least C or registration for Actuarial Foundations 329 or Mathematics 329F.

Mathematics: M

Lower-Division Courses

M 301 (TCCN: MATH 1314). College Algebra.
Subjects include a brief review of elementary algebra; linear, quadratic, exponential, and logarithmic functions; polynomials; systems of linear equations; applications. Three lecture hours a week for one semester. Usually offered only in the summer session. May not be counted toward a degree in mathematics. Credit for Mathematics 301 may not be earned after a student has received credit for any calculus course with a grade of C- or better. Prerequisite: A passing score on the mathematics section of the Texas Higher Education Assessment (THEA) test (or an appropriate assessment test).

Intended primarily for general liberal arts students seeking knowledge of the nature of mathematics as well as training in mathematical thinking and problem solving. Topics include number theory and probability; additional topics are chosen by the instructor. Three lecture hours a week for one semester. Mathematics 302 and 303F may not both be counted. A student may not earn credit for Mathematics 302 after having received credit for any calculus course. May not be counted toward a degree in the College of Natural Sciences. Prerequisite: Texas Success Initiative (TSI) exemption or a TSI Mathematics Assessment score of 350 or higher.

An entry-level course for the nontechnical student, dealing with some of the techniques that allow mathematics to be applied to a variety of problems. Topics include linear and quadratic equations, systems of linear equations, matrices, probability, statistics, exponential and logarithmic functions, and mathematics of finance. Three lecture hours a week for one semester. Mathematics 303D and 303F may not both be counted. A student may not earn credit for Mathematics 303D after having received credit for Mathematics 305G or any calculus course. May not be counted toward a degree in the College of Natural Sciences. Prerequisite: An appropriate score on the mathematics placement exam.

M 303F. Mathematics of Investment.
Simple and compound interest, equivalent rates, equivalent values, annuities, amortization, sinking funds, bonds, depreciation. Three lecture hours a week for one semester. Mathematics 302 and 303F may not both be counted; Mathematics 303D and 303F may not both be counted. May not be counted toward the major requirement for the Bachelor of Arts, Plan I, degree with a major in mathematics or toward the Bachelor of Science in Mathematics degree. Prerequisite: Three units of high school mathematics at the level of Algebra I or higher.

M 403K (TCCN: MATH 1425). Calculus I for Business and Economics.
Differential and integral calculus of algebraic, logarithmic, and exponential functions with applications. Three lecture hours and two
discussion sessions a week for one semester. Only one of the following may be counted: Mathematics 403K, 408C, 408K, 408N. May not be counted toward a degree in the College of Natural Sciences. Prerequisite: An appropriate score on the mathematics placement exam.

M 403L. Calculus II for Business and Economics.
Differential and integral calculus of functions of several variables with applications, infinite series, improper integrals; introductions to probability, differential equations, matrices, systems of linear equations, and linear programming. Three lecture hours and two discussion sessions a week for one semester. Mathematics 403L and 408L (or 308L) may not both be counted. May not be counted toward the major requirement for the Bachelor of Arts, Plan I, degree with a major in mathematics or toward the Bachelor of Science in Mathematics degree. Prerequisite: Mathematics 403K, 408C, 308L, or 408N with a grade of at least C-.

M 305E. Analytic Geometry.
Combines development of methods (including adequate treatment of theory) and acquisition of skills with applications. Three lecture hours a week for one semester. Mathematics 305E and 305K may not both be counted. Mathematics 305E and 305G may not both be counted toward the major requirement for the Bachelor of Arts, Plan I, degree with a major in Mathematics or towards the Bachelor of Science in Mathematics degree. Prerequisite: Mathematics 301.

M 305G (TCCN: MATH 2312). Preparation for Calculus.
Study of advanced functions and their graphs and applications, including exponential, logarithmic, and trigonometric functions. Introduction to rates, slopes, and derivatives. Three lecture hours a week for one semester. Mathematics 305G and any college-level trigonometry course may not both be counted. A student may not earn credit for Mathematics 305G after having received credit for any calculus course with a grade of at least C-. Mathematics 301, 305G, and equivalent courses may not be counted toward a degree in mathematics. Prerequisite: An appropriate score on the mathematics placement exam.

M 408C (TCCN: MATH 2417). Differential and Integral Calculus.
Introduction to the theory and applications of differential and integral calculus of functions of one variable; topics include limits, continuity, differentiation, the mean value theorem and its applications, integration, the fundamental theorem of calculus, and transcendental functions. Three lecture hours and two discussion hours a week for one semester. Only one of the following may be counted: Mathematics 403K, 408C, 408K, 408N. Prerequisite: An appropriate score on the mathematics placement exam or Mathematics 305G with a grade of at least B-.

Certain sections of this course are designated as advanced placement or honors sections; they are restricted to students who have scored well on the Advanced Placement Calculus BC exam or have the consent of the mathematics adviser. This is the second semester of the accelerated calculus sequence. The theory and applications of sequences and infinite series, including those involving functions of one variable, and an introduction to the theory and applications of differential and integral calculus of functions of several variables; subjects include methods of integration, parametric equations, sequences, infinite series, power series, functions of several variables, partial derivatives, and multiple integrals. Three lecture hours and two discussion hours a week for one semester. Only one of the following may be counted: Mathematics 403K, 408D, 408M (or 308M). Prerequisite: Mathematics 408C, 408L, or 408S with a grade of at least C-.

Introduction to the theory and applications of differential calculus of functions of one variable; topics include limits, continuity, differentiation, and the mean value theorem and its applications. Three lecture hours and two discussion hours a week for one semester. Only one of the following may be counted: Mathematics 403K, 408C, 408K, 408N. Prerequisite: An appropriate score on the mathematics placement exam or Mathematics 305G with a grade of at least B-.

M 308L, 408L. Integral Calculus.
Introduction to the theory and applications of integral calculus of functions of one variable; topics include integration, the fundamental theorem of calculus, transcendental functions, sequences, and infinite series. For Mathematics 308L, three lecture hours a week for one semester; for 408L, three lecture hours and two discussion hours a week for one semester. Only one of the following may be counted: Mathematics 403L, 408L (or 308L), 408S. Prerequisite: Mathematics 408C, 408K, or 408N with a grade of at least C-, or Mathematics 408R with a grade of at least B.

M 308M, 408M. Multivariable Calculus.
Introduction to the theory and applications of differential and integral calculus of functions of several variables. Includes parametric equations, polar coordinates, vectors, vector calculus, functions of several variables, partial derivatives, gradients, and multiple integrals. For Mathematics 308M, three lecture hours a week for one semester; for 408M, three lecture hours and two discussion hours a week for one semester. Only one of the following may be counted: Mathematics 403L, 408D, 408M (or 308M). Prerequisite: Mathematics 408L or 408S with a grade of at least C-.

Restricted to students in the College of Natural Sciences. Introduction to the theory of differential calculus of functions of one variable, and its application to the natural sciences. Subjects may include limits and differentiation, with applications to rates of change, extremes, graphing, and exponential growth and decay. Three lecture hours and two discussion hours a week for one semester. Only one of the following may be counted: Mathematics 403K, 408C, 408K, 408N. Prerequisite: An appropriate score on the mathematics placement exam or Mathematics 305G with a grade of at least B-.

M 408R. Differential and Integral Calculus for the Sciences.
A calculus course for students in the life sciences. Emphasizes representations and analysis of data. Subjects include functions, rates, and derivatives and their applications to problems in biology; differential equations; Riemann integrals; the Euler method; and fundamental theorems of calculus. Three lecture hours and two discussion hours a week for one semester. May not be counted by students with credit for Mathematics 408C, 408K, or 408N. Prerequisite: An appropriate score on the mathematics placement exam or Mathematics 305G with a grade of at least B-.

Restricted to students in the College of Natural Sciences. Introduction to the theory of integral calculus of functions of one variable, and its applications to the natural sciences. Subjects may include integration and its application to area and volume, and transcendental functions, sequences, and series and their application to numerical methods. Three lecture hours and two discussion hours a week for one semester. Only one of the following may be counted: Mathematics 403L, 408L (or 308L), 408S. Prerequisite: Mathematics 408C, 408K, or 408N with a grade of at least C-, or Mathematics 408R with a grade of at least B.
Supervised study in mathematics, with hours to be arranged. May be repeated for credit. Prerequisite: Written consent of instructor; forms are available in the department office or in the Mathematics, Physics, and Astronomy Advising Center.

M 210E. Emerging Scholars Seminar.
Restricted to students in the Emerging Scholars Program. Supplemental problem-solving laboratory for precalculus, calculus, or advanced calculus courses for students in the Emerging Scholars Program. Three or four laboratory hours a week for one semester. May be repeated for credit. Offered on the pass/fail basis only.

M 310P. Modern Mathematics: Plan II.
Restricted to Plan II students. Significant developments in modern mathematics. Topics may include fractals, the fourth dimension, statistics and society, and techniques for thinking about quantitative problems. Three lecture hours a week for one semester. May not be counted toward a degree in mathematics.

M 311T, 211T, 311T, 411T. Topics in Mathematics.
One, two, three, or four lecture hours a week for one semester. May be repeated for credit when the topics vary.

In-depth study of topics from secondary school mathematics. Emphasizes the development of the concept of function, exploring function patterns in data sets, and the connections between the main topics of mathematics associated with a secondary school curriculum. Use of appropriate technology is explored. Three lecture hours a week for one semester. Prerequisite: Credit or registration for Mathematics 408C and enrollment in a teaching preparation program, or consent of instructor.

Restricted to students in a teacher preparation program. An analysis, from an advanced perspective, of the concepts and algorithms of arithmetic, including sets; numbers; numeration systems; definitions, properties, and algorithms of arithmetic operations; and percents, ratios, and proportions. Problem solving is stressed. Three lecture hours a week for one semester. May not be counted toward the major requirement for the Bachelor of Arts, Plan I, degree with a major in mathematics or toward the Bachelor of Science in Mathematics degree. Credit for Mathematics 316K may be earned by the student after the student has received credit for any calculus course with a grade of C- or better, unless the student is registered in the College of Education. Prerequisite: Mathematics 316K with a grade of at least C.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Mathematics. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

M 325K. Discrete Mathematics.
Provides a transition from the problem-solving approach of Mathematics 408C and 408D to the rigorous approach of advanced courses. Subjects include logic, set theory, relations and functions, combinatorics, and graph theory and graph algorithms. Three lecture hours a week for one semester. Prerequisite: Mathematics 408D, 408L, or 408S with a grade of at least C.

M 326K. Foundations of Number Systems.
Restricted to students in a teacher preparation program or who have consent of instructor. Study of number-related topics in middle-grade and secondary school mathematics. Topics include place value; meanings of arithmetic operations; analysis of computation methods; historical development of number concepts and notation; and rational, irrational, algebraic, transcendental, and complex numbers. Emphasis is on communicating mathematics, developing pedagogical understanding of concepts and notation, and using both informal reasoning and proof. Three lecture hours a week for one semester. Prerequisite: Mathematics 408D, 408L, or 408S with a grade of at least C.

M 427J. Differential Equations with Linear Algebra.
Ordinary differential equations, introduction to vector spaces, linear operators and eigenvalues, systems of linear differential equations, introduction to partial differential equations and Fourier series. Five lecture hours a week for one semester. Mathematics 427J and 427K may not both be counted. Prerequisite: Mathematics 408D, 408L, or 408S with a grade of at least C.

M 427K. Advanced Calculus for Applications I.
Ordinary and partial differential equations and Fourier series. Five lecture hours a week for one semester. Mathematics 427J and 427K may not both be counted. Prerequisite: Mathematics 408D, 408L, or 408S with a grade of at least C.

M 427L. Advanced Calculus for Applications II.
Matrices, elements of vector analysis and calculus of functions of several variables, including gradient, divergence, and curl of a vector field, multiple integrals and chain rules, length and area, line and surface integrals, Green's theorems in the plane and space, and, if time permits, complex analysis. Five class hours a week for one semester. Prerequisite: Mathematics 408D, 408L, or 408S with a grade of at least C.

M 328K. Introduction to Number Theory.
Provides a transition from the problem-solving approach of Mathematics 408C and 408D to the rigorous approach of advanced courses. Properties of the integers, divisibility, linear and quadratic forms, prime numbers, congruences and residues, quadratic reciprocity, number theoretic functions. Three lecture hours a week for one semester. Prerequisite: Mathematics 325K or 341 with a grade of at least C.
M 329F. Theory of Interest.
Same as Actuarial Foundations 329. Measurement of interest, present and accumulated value, amortization, sinking funds, bonds, duration, and immunization. Covers the interest-theory portion of an exam of the Society of Actuaries and the Casualty Actuarial Society. Three lecture hours a week for one semester. Only one of the following may be counted: Actuarial Foundations 329, Mathematics 329F, 389F. Prerequisite: Mathematics 408D, 308L, 408L, or 408S with a grade of at least C-.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Mathematics. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

M 329W. Cooperative Mathematics.
This course covers the work period of mathematics students in the Cooperative Education program, which provides supervised work experience by arrangement with the employer and the supervising instructor. Forty laboratory hours a week for one semester. The student must repeat the course each work period and must take it twice to receive credit toward the degree; at least one of these registrations must be during a long-session semester. No more than three semester hours may be counted toward the major requirement; no more than six semester hours may be counted toward the degree. The student's first registration must be on the pass/fail basis. Prerequisite: Application through the College of Natural Sciences Career Design Center; Mathematics 408D, 408L, or 408S with a grade of at least C; a grade of at least C- in two of the following courses: Mathematics 325K, 427J or 427K, 341, 362K, or 378K; and consent of the undergraduate adviser.

M 333L. Structure of Modern Geometry.
Axiom systems, transformational geometry, introduction to non-Euclidean geometries, and other topics in geometry; use of these ideas in teaching geometry. Three lecture hours a week for one semester. Prerequisite: Mathematics 408D, 408L, or 408S with a grade of at least C-; or upper-division standing and consent of instructor.

M 339C. Actuarial Case Studies.
Introduces aspects of basic ratemaking, reserving, catastrophe modeling, and rate classification in a property & casualty actuarial context. Explores loss & premium trending, loss triangles, loss development, loss ratios, on-level premium, and accident year vs. calendar year vs. policy year data. Three lecture hours a week for one semester. Prerequisite: Actuarial Foundations 329 or Mathematics 329F with a grade of at least C; and M339J or M339U with a grade of at least C-.

Covers the financial derivative subjects on the Society of Actuaries’ FM2 exam: general derivatives, options, hedging, investment strategies, forwards, futures, and swaps. Covers option pricing techniques in the MFE/3FM exam: binomial option pricing, Monte Carlo Valuation using risk neutral probabilities, and Black-Scholes. Three lecture hours a week for one semester. Prerequisite: Actuarial Foundations 329 or Mathematics 329F; and Mathematics 362K with a grade of at least C-.

Introductory actuarial models for life insurance, property insurance, and annuities. With Mathematics 349P, covers the syllabus for the professional actuarial exam on model construction. Three lecture hours a week for one semester. Prerequisite: Mathematics 358K or 378K with a grade of at least C.

M 139S. Seminar on Actuarial Practice.
Presentations by working actuaries on current issues in actuarial practice. One lecture hour a week for one semester. Offered on the pass/fail basis only. Prerequisite: Actuarial Foundations 329 or Mathematics 329F; Mathematics 339J or 339U with a grade of at least C; and credit with a grade of at least C- or registration for one of the following: Mathematics 339J, 339U, 339V, 349P.

M 339U. Actuarial Contingent Payments I.
Intermediate actuarial models for life insurance, property insurance, and annuities. Three lecture hours a week for one semester. Prerequisite: Mathematics 362K with a grade of at least C; credit with a grade of at least C- or registration for Actuarial Foundations 329 or Mathematics 329F; and credit with a grade of at least C- or registration for Mathematics 340L or 341.

M 339V. Actuarial Contingent Payments II.
Advanced actuarial models for life insurance, property insurance, and annuities. Three lecture hours a week for one semester. Prerequisite: Actuarial Foundations 329 or Mathematics 329F, and M 339U with a grade of at least C- in each.

Pricing, stock price, and interest rate models for actuarial applications. Tools include lognormal distribution, Brownian motion, Black-Scholes, and delta hedging. Three lecture hours a week for one semester. Prerequisite: Mathematics 339D with a grade of at least C-.

M 340L. Matrices and Matrix Calculations.
Restricted to non-mathematics majors. Techniques of matrix calculations and applications of linear algebra. Three lecture hours a week for one semester. Only one of the following may count: Mathematics 340L, 341, Statistics and Data Sciences 329C, or Statistics and Scientific Computation 329C. Prerequisite: Mathematics 408C, 408K, or 408N with a grade of at least C.

M 341. Linear Algebra and Matrix Theory.
Restricted to mathematics majors. Vector spaces, linear transformations, matrices, linear equations, determinants. Some emphasis on rigor and proofs. Three lecture hours a week for one semester. Only one of the following may count: Mathematics 340L, 341, Statistics and Data Sciences 329C, or Statistics and Scientific Computation 329C. Prerequisite: Mathematics 408D, 408L, or 408S with a grade of at least C-.

M 343K. Introduction to Algebraic Structures.
Elementary properties of groups and rings, including symmetric groups, properties of the integers, polynomial rings, elementary field theory. Three lecture hours a week for one semester. Students who have received a grade of C- or better in Mathematics 373K may not take Mathematics 343K. Prerequisite: Consent of the undergraduate adviser, or two of the following courses with a grade of at least C- in each: Mathematics 325K or Philosophy 313K, Mathematics 328K, Mathematics 341.

M 343L. Applied Number Theory.
Basic properties of integers, including properties of prime numbers, congruences, and primitive roots. Introduction to finite fields and their vector spaces with applications to encryption systems and coding.
theory. Three lecture hours a week for one semester. Prerequisite: Mathematics 328K or 343K with a grade of at least C-

M 343M. Error-Correcting Codes.
Introduction to applications of algebra and number theory to error-correcting codes, including finite fields, error-correcting codes, vector spaces over finite fields, Hamming norm, coding, and decoding. Three lecture hours a week for one semester. Prerequisite: Mathematics 328K or 341 with a grade of at least C-

Same as Philosophy 344K. A second-semester course in symbolic logic: formal syntax and semantics, basic metatheory (soundness, completeness, compactness, and Loewenheim-Skolem theorems), and further topics in logic. Three lecture hours a week for one semester. Prerequisite: Philosophy 313, 313K, or 313Q.

Emphasis on diagonalization of linear operators and applications to dynamical systems and ordinary differential equations. Other subjects include inner products and orthogonality, normal mode expansions, vibrating strings and the wave equation, and Fourier series. Three lecture hours a week for one semester. Prerequisite: Mathematics 339J, 341 or 340L, with a grade of at least C-

Introduction to mathematical properties of numerical methods and their applications in computational science and engineering. Introduction to object-oriented programming in an advanced language. Study and use of numerical methods for solutions of linear systems of equations; nonlinear least-squares data fitting; numerical integration; and solutions of multidimensional nonlinear equations and systems of initial value ordinary differential equations. Three lecture hours a week for one semester. Prerequisite: Computer Science 303E or 307, and Mathematics 340L with a grade of at least C-

M 349P. Actuarial Statistical Estimates.
Statistical estimation procedures for random variables and related quantities in actuarial models. With Mathematics 339J, covers the syllabus for the professional actuarial exam on model construction. Three lecture hours a week for one semester. Prerequisite: Mathematics 339J, and 341 or 340L, with a grade of at least C- in each.

Introduction to simple and multiple linear regression and to elementary time-series models, including auto-regressive and moving-average models. Emphasizes fitting models to data, evaluating models, and interpreting results. Three lecture hours a week for one semester. Prerequisite: Mathematics 339J or 339U, and 358K or 378K, with a grade of at least C- in each.

Introduction to the probabilistic and statistical properties of time series; parameter estimation and hypothesis testing for survival models. Covers 30 percent of the syllabus for exam #4 of the Society of Actuaries and the Casualty Actuarial Society. Three lecture hours a week for one semester. Prerequisite: Mathematics 339U, 341 or 340L, and 358K or 378K.

Exploratory data analysis, correlation and regression, data collection, sampling distributions, confidence intervals, and hypothesis testing. Three lecture hours a week for one semester. Prerequisite: Mathematics 362K with a grade of at least C-

M 360M. Mathematics as Problem Solving.
Discussion of heuristics, strategies, and methods of evaluating problem solving, and extensive practice in both group and individual problem solving. Communicating mathematics, reasoning, and connections among topics in mathematics are emphasized. Three lecture hours a week for one semester. Prerequisite: Mathematics 408D, 408L, or 408S with a grade of at least C-; and written consent of instructor.

M 361. Theory of Functions of a Complex Variable.
Elementary theory and applications of analytic functions, series, contour integration, and conformal mappings. Three lecture hours a week for one semester. Prerequisite: Mathematics 427J, 427K, or 427L with a grade of at least C-

M 361K. Introduction to Real Analysis.
A rigorous treatment of the real number system, of real sequences, and of limits, continuity, derivatives, and integrals of real-valued functions of one real variable. Three lecture hours a week for one semester. Students who have received a grade of C- or better in Mathematics 365C may not take Mathematics 361K. Prerequisite: Consent of the undergraduate adviser, or two of the following courses with a grade of at least C- in each: Mathematics 325K or Philosophy 313K, Mathematics 328K, Mathematics 341.

M 362K. Probability I.
An introduction to the mathematical theory of probability, fundamental to further work in probability and statistics, includes basic probability properties, conditional probability and independence, various discrete and continuous random variables, expectation and variance, central limit theorem, and joint probability distributions. Three lecture hours a week for one semester. Mathematics 362K and Statistics and Scientific Computation 321 may not both be counted. Prerequisite: Mathematics 408D, 408L, or 408S with a grade of at least C-

M 362M. Introduction to Stochastic Processes.
Introduction to Markov chains, birth and death processes, and other topics. Three lecture hours a week for one semester. Prerequisite: Mathematics 362K with a grade of at least C-

M 364K. Vector and Tensor Analysis I.
Invariance, vector algebra and calculus, integral theorems, general coordinates, introductory differential geometry and tensor analysis, applications. Three lecture hours a week for one semester. Prerequisite: Mathematics 427J, 427K, or 427L with a grade of at least C-

M 364L. Vector and Tensor Analysis II.
Continuation of Mathematics 364K, with emphasis on tensor and extensor analysis. Riemannian geometry and invariance. Three lecture hours a week for one semester. Prerequisite: Mathematics 364K with a grade of at least C-

M 365C. Real Analysis I.
A rigorous treatment of the real number system, Euclidean spaces, metric spaces, continuity of functions in metric spaces, differentiation and Riemann integration of real-valued functions of one real variable, and uniform convergence of sequences and series of functions. Three lecture hours a week for one semester. Students who have received a grade of C- or better in Mathematics 365C may not take Mathematics 361K. Prerequisite: Consent of the undergraduate adviser, or two of the following courses with a grade of at least C- in each: Mathematics 325K or Philosophy 313K, Mathematics 328K, Mathematics 341. Students who receive a grade of C- in one of the prerequisite courses are advised to take Mathematics 361K before attempting 365C. Students planning
M 365D. Real Analysis II.
Recommended for students planning to undertake graduate work in mathematics. A rigorous treatment of selected topics in real analysis, such as Lebesgue integration, or multivariate integration and differential forms. Three lecture hours a week for one semester. Prerequisite: Mathematics 365C with a grade of at least C-.

M 365G. Curves and Surfaces.
Calculus applied to curves and surfaces in three dimensions: curvature and torsion of space curves, Gauss map and curvature of surfaces, Gauss theorem, geodesics, and the Gauss-Bonnet theorem. Three lecture hours a week for one semester. Prerequisite: Credit with a grade of at least C- or registration for Mathematics 365C.

M 367K. Topology I.
An introduction to topology, including sets, functions, cardinal numbers, and the topology of metric spaces. Three lecture hours a week for one semester. Prerequisite: Mathematics 361K or 365C or consent of instructor.

M 367L. Topology II.
Various topics in topology, primarily of a geometric nature. Three lecture hours a week for one semester. Prerequisite: Mathematics 367K with a grade of at least C- or consent of instructor.

M 368K. Numerical Methods for Applications.
Continuation of Mathematics 348. Topics include splines, orthogonal polynomials and smoothing of data, iterative solution of systems of linear equations, approximation of eigenvalues, two-point-boundary value problems, numerical approximation of partial differential equations, signal processing, optimization, and Monte Carlo methods. Three lecture hours a week for one semester. Prerequisite: Mathematics 348 with a grade of at least C-.

M 371E. Learning Assistant Experience in Mathematics.
Students assist instructors and TAs in mathematics courses. This is a hands-on experience in what it is like to teach and support students in the learning of mathematics in undergraduate courses. Students must attend classroom training and discussions and work in Calculus discussion sections or undergraduate classrooms where mathematics is being taught. One class hour and three hours of fieldwork in an undergraduate mathematics course a week for one semester. Prerequisite: Mathematics 408C, 408K, 408N, 408R, or equivalent, and consent of instructor.

M 372. Fourier Series and Boundary Value Problems.
Discussion of differential equations of mathematical physics and representation of solutions by Green's functions and eigenfunction expansions. Three lecture hours a week for one semester. Prerequisite: Mathematics 427J or 427K with a grade of at least C-.

Partial differential equations as basic models of flows, diffusion, dispersion, and vibrations. Topics include first- and second-order partial differential equations and classification (particularly the wave, diffusion, and potential equations), and their origins in applications and properties of solutions. Includes the study of characteristics, maximum principles, Green's functions, eigenvalue problems, and Fourier expansion methods. Three lecture hours a week for one semester. Prerequisite: Mathematics 427J or 427K with a grade of at least C-.

M 373K. Algebraic Structures I.
A study of groups, rings, and fields, including structure theory of finite groups, isomorphism theorems, polynomial rings, and principal ideal domains. Three lecture hours a week for one semester. Students who have received a grade of C- or better in Mathematics 373K may not take Mathematics 343K. Prerequisite: Consent of the undergraduate adviser, or two of the following courses with a grade of at least C- in each: Mathematics 325K or Philosophy 313K, Mathematics 328K, Mathematics 341. Students who receive a grade of C- in one of the prerequisite courses are advised to take Mathematics 343K before attempting 373K. Students planning to take Mathematics 365C and 373K concurrently should consult a mathematics adviser.

M 373L. Algebraic Structures II.
Recommended for students planning to undertake graduate work in mathematics. Topics from vector spaces and modules, including direct sum decompositions, dual spaces, canonical forms, and multilinear algebra. Three lecture hours a week for one semester. Prerequisite: Mathematics 373K with a grade of at least C-.

M 374. Fourier and Laplace Transforms.
Operational properties and application of Laplace transforms; some properties of Fourier transforms. Three lecture hours a week for one semester. Prerequisite: Mathematics 427J or 427K with a grade of at least C-.

M 374G. Linear Regression Analysis.
Fitting of linear models to data by the method of least squares, choosing best subsets of predictors, and related materials. Three lecture hours a week for one semester. Prerequisite: Mathematics 358K or 378K with grade of at least C-, Mathematics 341 or 340L, and consent of instructor.

M 374K. Fourier and Laplace Transforms.
Continuation of Mathematics 374. Introduction to other integral transforms, such as Hankel, Laguerre, Mellin, Z. Three lecture hours a week for one semester. Prerequisite: Mathematics 374 with a grade of at least C-.

M 374M. Mathematical Modeling in Science and Engineering.
Tools for studying differential equations and optimization problems that arise in the engineering and physical sciences. Includes dimensional analysis and scaling, regular and singular perturbation methods, optimization and calculus of variations, and stability. Three lecture hours a week for one semester. Prerequisite: Mathematics 427J or 427K, and 340L or 341, with a grade of at least C- in each; and some basic programming skills.

M 175, 275, 375, 475. Conference Course.
Supervised study in mathematics, with hours to be arranged. May be repeated for credit. Prerequisite: Upper-division standing.

M 375C. Conference Course (Computer-Assisted).
Supervised study in mathematics on material requiring use of computing resources, with hours to be arranged. Conference course. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

M 375D. Discovery: An Introduction to Advanced Study in Mathematics.
Capstone course designed primarily for UTeach pre-service mathematics majors considering discovery teaching methodology and/or graduate work in mathematics or mathematics education. Ties together foundational topics in the primary strands of mathematics present in a typical graduate mathematics program; included are selected topics from analysis, algebra, number theory, and topology. Three lecture hours
a week for one semester. Mathematics 375D and 375T (Topic: Discovery: An Introduction to Advanced Study in Mathematics) may not both be counted. Prerequisite: Two proof-based mathematics courses with a grade of at least C-, or consent of instructor.

M 175S. Seminar in Instruction of Mathematics.
An exploration of subjects in mathematics instruction as taught at the secondary educational level. Practice learning and teaching through use of proofs, explorations, and connections. Subjects include foundational mathematics concepts, numbers, constructibility, and development of key mathematics topics. One lecture hour a week for one semester. Mathematics 175S and 175T may not both be counted. Offered on the letter-grade basis only. Prerequisite: Upper-division standing and consent of instructor.

M 175T, 275T, 375T, 475T. Topics in Mathematics.
One, two, three, or four lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing; additional prerequisites vary with the topic.

M 376C. Methods of Applied Mathematics.
Variational methods and related concepts from classical and modern applied mathematics. Models of conduction and vibration that lead to systems of linear equations and ordinary differential equations, eigenvalue problems, initial and boundary value problems for partial differential equations. Topics may include a selection from diagonalization of matrices, eigenfunctions and minimization, asymptotics of eigenvalues, separation of variables, generalized solutions, and approximation methods. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Mathematics 427J or 427K, and 340L or 341, with a grade of at least C- in each.

Same as Statistics and Data Sciences 378. Sampling distributions of statistics, estimation of parameters (confidence intervals, method of moments, maximum likelihood, comparison of estimators using mean square error and efficiency, sufficient statistics), hypothesis tests (p-values, power, likelihood ratio tests), and other topics. Three lecture hours a week for one semester. Only one the following may be counted: Mathematics 378K, Statistics and Data Sciences 378, Statistics and Scientific Computation 378. Prerequisite: Mathematics 362K with a grade of at least C-.

M 378N. Generalized Linear Models.
Extensions to ordinary least-squares regression, including Poisson regression, the lasso, mixed models, and ridge regression. Three lecture hours a week for one semester. Mathematics 375T (Topic: Generalized Linear Models) and 378N may not both be counted. Prerequisite: Mathematics 378K with a grade of at least C- or consent of instructor.

M 379H. Honors Tutorial Course.
Directed reading, research, and/or projects, under the supervision of a faculty member, leading to an honors thesis. Conference course. Prerequisite: Admission to the Mathematics Honors Program; Mathematics 365C, 367K, 373K, or 374G with a grade of at least A-, and another of these courses with a grade of at least B-; and consent of the honors adviser.

Department of Molecular Biosciences

Biochemistry: BCH

Lower-Division Courses

BCH 206K. Undergraduate Research.
Introduction to research practices; supervised individual undergraduate research in biochemistry. Six to ten laboratory hours a week for one semester. May be taken for a letter grade no more than twice. No more than six semester hours may be counted toward a degree in biochemistry. May be repeated for credit.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Chemistry and Biochemistry. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Chemistry and Biochemistry. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

BCH 339F. Foundations of Biochemistry.
Restricted to biochemistry majors. Metabolism of carbohydrates, lipids, amino acids, and nucleotides; structure and function of proteins. Three lecture hours a week for one semester. Only one of the following may be counted: Biochemistry 339F, 369, Biology 337 (Topic: Foundations of Biochemistry), Chemistry 339K, 369. Prerequisite: One of the following with a grade of at least C-: Chemistry 310M, 318M, 320M, or 328M.

BCH 339J. Chemical and Synthetic Biology.
Designed for students pursuing pharmaceutical and biotechnology careers. Topics include enzymatic reaction mechanisms and how they can be manipulated using tools from both chemistry and molecular biology. Three lecture hours a week for one semester. Only one of the following may be counted: Biochemistry 339J, Chemistry 339J, Systems and Synthetic Biology 339J. Prerequisite: Biochemistry 339F with a grade of at least C-.

BCH 339M. Structure and Function of Molecular Machines.
Function of proteins and protein complexes as machines in the cell, including the interaction of proteins with nucleic acids, synthesis of proteins, and degradation of proteins. Three lecture hours per week for one semester. Prerequisite: Biochemistry 339F with a grade of at least C-.

BCH 339N. Systems Biology and Bioinformatics.
Restricted to biochemistry majors. Understanding how the cell works as a system with emphasis on the methods used to gather and analyze data and develop/test models of systems level data. Three lecture hours
a week for one semester. Only one of the following may be counted: Biochemistry 339N, 350, Biology 337 (Topic: Quantitative Analysis of Cellular and Molecular Biology), Chemical Engineering 337, 379 (Topic: Quantitative Analysis of Cellular and Molecular Biology), 381Q. Prerequisite: Biochemistry 339F, Computer Science 303E, and Statistics and Data Sciences 328M (or Statistics and Scientific Computation 318M, 328M) with a grade of at least C-.

**BCH 350. Quantitative Analysis of Cellular and Molecular Biology.**

Study of biological fundamentals using quantitative chemical engineering approaches for students with an engineering or life sciences background. Analysis of biological systems from stoichiometric, thermodynamic, and kinetic perspectives. Investigation of how these principles are used to understand disease, control cellular behavior, and design protein-based therapeutics through case studies. Three lecture hours a week for one semester. Only one of the following may be counted: Biochemistry 350, 359N, Biology 337 (Topic: Quantitative Analysis of Cellular and Molecular Biology), Chemical Engineering 337, 379 (Topic: Quantitative Analysis of Cellular and Molecular Biology), 381Q. Prerequisite: Biochemistry 339F or 369 with a grade of C- or better.

**BCH 364C. Bioinformatics.**

Restricted to biochemistry majors. Subjects include physical methods for the study of macromolecules, chemistry of proteins, enzyme chemistry, regulatory mechanisms for gene expression, and protein-nucleic acid interactions. Three lecture hours a week for one semester. Only one of the following may be counted: Biochemistry 364C, Chemistry 364C, Systems and Synthetic Biology 364C. Prerequisite: Biochemistry 339F with a grade of at least B; Statistics and Data Sciences 328M (or Statistics and Scientific Computation 318M, 328M) with a grade of at least C-; and consent of the instructor.

**BCH 364D. Macromolecular Structure Determination.**

Restricted to biochemistry majors. Emphasis on X-ray crystallography and nuclear magnetic resonance (NMR) spectroscopy of proteins. Investigation of theories and practices of the most relevant techniques in macromolecular structure determination. Use of the X-ray and NMR facilities to collect data that is used to solve protein structures. Three lecture hours a week for one semester. Biochemistry 364D and Chemistry 364D may not both be counted. Prerequisite: Biochemistry 339F and 370 with a grade of at least B.

**BCH 364E. Systems Biology.**

Restricted to biochemistry majors. Survey of current high-throughput technologies and computational methods for generating data and integrating information at all levels of biological organization. Emphasis on how hypotheses can be generated and tested with these techniques to better understand how model organisms function and evolve. Three lecture hours a week for one semester. Biochemistry 364E and Chemistry 364E may not both be counted. Prerequisite: Biochemistry 339F with a grade of at least B and consent of instructor.

**BCH 364F. Astrobiology.**

Restricted to biochemistry majors. An overview of the science used in the search for extraterrestrial life, life origins, earth history, evolution, metabolism of extremophiles, biochemistry, and astronomy. Three lecture hours a week for one semester. Biochemistry 364F and Chemistry 364F may not both be counted. Prerequisite: Biochemistry 339F with a grade of at least B and consent of instructor.

**BCH 365D. Structure and Function of Proteins and Nucleic Acids.**

Restricted to biochemistry majors. Exploration of the structures and functions of proteins and nucleic acids, utilizing quantitative methods to evaluate the roles of structural features in function, and developing new ways of thinking about the dynamics of macromolecules. Three lecture hours a week for one semester. Biochemistry 365D and Chemistry 365D may not both be counted. Prerequisite: Biochemistry 339F and 370 with a grade of at least B.

**BCH 369. Fundamentals of Biochemistry.**

The basics of protein structure and function, carbon and nitrogen metabolism, and molecular biology of macromolecules. Three lecture hours a week for one semester. Only one of the following may be counted: Biochemistry 339F, 369, Biology 337 (Topic: Foundations of Biochemistry), Chemistry 339K, 369. May not be counted toward a degree in biochemistry. Prerequisite: One of the following with a grade of at least C-: Chemistry 310M, 318M, 320M, or 328M.

**BCH 369K. Techniques of Research.**

Advanced laboratory practice and introduction to research. One lecture hour and six laboratory hours a week for one semester. May be taken for a letter grade no more than twice. No more than six semester hours may be counted toward a degree in biochemistry. May be repeated for credit. Prerequisite: Six semester hours of upper-division coursework in biochemistry or chemistry, or five semester hours of coursework in organic chemistry, or consent of the undergraduate faculty adviser in biochemistry.

**BCH 369L. Biochemistry Laboratory.**

An introduction to modern fundamental techniques of biochemistry. Two lecture hours and seven laboratory hours a week for one semester. Biochemistry 369L and Chemistry 369L may not both be counted. Prerequisite: Biochemistry 339F with a grade of at least C-.

**BCH 369T. Biotechnology Laboratory.**

Advanced techniques in biotechnology. Nine laboratory hours a week for one semester. Biochemistry 369T and Chemistry 369T may not both be counted. Prerequisite: Consent of instructor.

**BCH 370. Physical Methods of Biochemistry.**

Theory of electrophoresis, ultracentrifugation, spectroscopy, electron microscopy, and diffraction as applied to biological macromolecules. Three lecture hours a week for one semester. Biochemistry 370 and Chemistry 370 may not both be counted. Prerequisite: Biochemistry 339F with a grade of at least C-.

**BCH 379H, 679H. Biochemistry Honors Tutorial Course.**

Laboratory research project in a specific field of biochemistry under the supervision of one or more faculty members. Conference course. May be repeated once for credit. Must be taken in addition to the required hours for a degree in biochemistry. Students must enroll no later than the first semester of the year of graduation. May be repeated for credit. Prerequisite: Consent of the research supervisor and the departmental honors adviser.

**Neuroscience Program**

**Neuroscience: NEU**

**Lower-Division Courses**

**Upper-Division Courses**

**NEU 330. Neural Systems I.**

Introduction to the nervous system with an emphasis on brain organization, neuron physiology, perceptual systems, and motor systems. Intended for neuroscience majors and those considering neuroscience as a major. Three lecture hours a week for one semester.
Only one of the following may be counted: Biology 337 (Topic: Neural Systems I), 365R, 371M, Neuroscience 330, 365R, 371M.

**NEU 335. Neural Systems II.**

Introduction to the nervous system with an emphasis on neural development and on the neural mechanisms of memory, emotions, and other higher cognitive functions. Intended for neuroscience majors and those considering neuroscience as a major. Three lecture hours a week for one semester. Biology 337 (Topic: Neural Systems II) and Neuroscience 335 may not both be counted. Prerequisite: Credit or registration in Physics 303L, 316, or 317L; and a grade of at least C- in the following: Biology 206L, and 311D or 325H, and Mathematics 408C or 408S, and Neuroscience 330.

**NEU 137, 237, 337, 437. Selected Topics in Neuroscience.**
Topics include recent developments and research methods in the field of neuroscience. For each semester hour of credit earned, one lecture hour a week for one semester. Some topics may require additional hours. May be repeated for credit when the topics vary. Neuroscience 335 with a grade of at least B-; additional prerequisites vary with the topic.

**NEU 365D. Principles of Drug Action.**

Introduction to the basic principles of pharmacology; including how drugs get into the body, exert their actions, and are metabolized and excreted. Three lecture hours a week for one semester. Biology 365D (Topic: Principles of Drug Action) and Neuroscience 365D may not both be counted. Prerequisite: Neuroscience 335 with a grade of at least C-.

**NEU 365L. Neurobiology Laboratory.**

An introduction to physiological, morphological, and molecular techniques used for analysis of the nervous system. Experiments and computer simulations illustrate basics of information processing by the nervous system. Four laboratory hours and one discussion hour a week for one semester. Biology 365L (Topic: Neurobiology Laboratory) and Neuroscience 365L may not both be counted. Prerequisite: Neuroscience 335 with a grade of at least C-.

**NEU 365T. Neurobiology of Disease.**

The neurobiological basis of disorders of the brain, with the main focus on mental illness. Emphasizes the neural circuitries and neurochemical events that underlie specific mental processes and behaviors. Three lecture hours a week for one semester. Biology 365T and Neuroscience 365T may not both be counted. Prerequisite: Neuroscience 335 with a grade of at least C-.

**NEU 365W. Neurobiology of Addiction.**

Study of the neurobiology of neurotransmitters, and the influence of alcohol and drugs of abuse on neurotransmitters. Three lecture hours a week for one semester. Biology 365W and Neuroscience 365W may not both be counted. Prerequisite: Neuroscience 335 with a grade of at least C-.

**NEU 366C. Ion Channels and the Molecular Physiology of Neuronal Signaling.**

Explores the role of molecular conformational changes in higher-level neuronal function and sensory transduction, including the generation and regulation of diverse types of neuronal signaling characteristics. Emphasizes a quantitative approach and the use of models to study function. Three lecture hours a week for one semester. Only one of the following may be counted: Biology 337 (Topic: Ion Channels and the Molecular Physiology of Neuronal Signaling), 366C, Neuroscience 366C. Prerequisite: Neuroscience 335 with a grade of at least C-.

**NEU 366D. Synaptic Physiology and Plasticity.**

Detailed study of the physiology of synaptic transmission in the mammalian central nervous system. Covers dendritic integration and various forms and mechanisms of synaptic plasticity. Three lecture hours a week for one semester. Only one of the following may be counted: Biology 337 (Topic: Synaptic Physiology and Plasticity in the Central Nervous System), 366D, Neuroscience 366D. Prerequisite: Neuroscience 335 with a grade of at least C-.

**NEU 366E. Visual Neuroscience.**

Physiology of the visual pathway and its relationship to visual perception; prospects for prevention of blinding eye diseases; functional and ecological adaptations of primate vision. Laboratory experiments and demonstrations illustrate and extend lecture topics and include measurement of several aspects of students' own visual and sensorimotor function. One and one-half lecture hours and three laboratory hours a week for one semester. Only one of the following may be counted: Biology 337 (Topic: Visual Neuroscience), 366E, 366P, Neuroscience 366E, 366P Prerequisite: Biomedical Engineering 365R or Neuroscience 335 with a grade of at least C-.

**NEU 466G. Functional and Synaptic Neuroanatomy.**

Neuroanatomy and function of synapses as a basis for brain function and behavior. Examine the ultrastructure and function of synapses, dendrites and axons underlying basic synaptic transmission and plasticity. Laboratory projects involve three-dimensional reconstructions from serial section electron microscopy. Three lecture hours and one-and-one-half laboratory hours a week for one semester. Only one of the following may be counted: Biology 337 (Topic: Neurobiology of Synaptic Circuits), 337 (Topic: Human Neuroanatomy), 366F; Neuroscience 466G. Prerequisite: Neuroscience 335 with a grade of at least C-.

**NEU 366L. Neuroimaging Laboratory.**

Basic principles of image formation and techniques of fluorescent imaging and confocal laser-scanning microscopy. Includes image processing and analysis to extract quantitative information from digital images. Survey of imaging techniques, including electron microscopy and functional MRI. One lecture hour and four laboratory hours a week for one semester. Only one of the following may be counted: Biology 337 (Topic: Microscopy and Fluorescence Imaging Laboratory), 366L, Neuroscience 366L. Prerequisite: Neuroscience 335 with a grade of at least C-.

**NEU 466M. Quantitative Methods In Neuroscience I.**

Overview of the basic mathematical and computational tools central to the analysis of neural systems in a laboratory setting. Subjects include linear algebra, differential equations, filtering, correlation, probability, and inference, with an emphasis on quantitative methodology and applications to neuroscience. Three lecture hours and one and one-half laboratory hours a week for one semester. Prerequisite: Mathematics 408D or 408M, and Neuroscience 335 with a grade of at least C- in each.

**NEU 366N. Quantitative Methods in Neuroscience II.**

Continuation of Neuroscience 466M. Introduction to basic mathematical and computational tools for the analysis of neural systems. Subjects include computational and quantitative methods, with an emphasis on their applications to neuroscience. Three lecture hours and one laboratory hour a week for one semester. Biology 366N and Neuroscience 366N may not both be counted. Prerequisite: Neuroscience 466M with a grade of at least C-.

**NEU 366P. Laboratory in Psychophysics.**

Studies the principles of experimental design, execution, and interpretation by having students measure their own perceptual and behavioral responses to visual and auditory tests. Includes data analysis,
statistical significance, and interpretation. Five laboratory hours a week for one semester. Only one of the following may be counted: Biology 337 (Topic: Visual Neuroscience), 366E, 366P. Prerequisite: Neuroscience 335 with a grade of at least C.

NEU 366S. Neuromolecular Genetics and Disease Laboratory.
Explores techniques used to study the molecular genetic basis for nervous system function and disease with a powerful invertebrate model system. Subjects will range from studying the conserved molecular basis for our senses and male/female-specific behaviors, to exploring how mutations of conserved neural genes cause neurological disorders, such as Parkinson’s disease and Alzheimer’s disease. Six laboratory hours a week for one semester Biology 366S and Neuroscience 366S may not both be counted. Prerequisite: Neuroscience 335 with a grade of at least C.

NEU 367F. Foundations of Human Neuroimaging.
Survey of methods for neuroimaging research. Describes the physics of MRI image acquisition, the physiology of neural responses, and the design and analysis of MR studies. Three lecture hours a week for one semester. Only one of the following may be counted: Biology 337 (Topic: Foundations of Human Neuroimaging), 367F; Neuroscience 367F. Prerequisite: Neuroscience 330 or 365R (or Biology 365R) with a grade of at least C.

NEU 367V. Evolutionary Neurobiology.
Examination of the nervous system in an evolutionary context. Three lecture hours a week for one semester. Only one of the following may be counted: Biology 337 (Topic: Evolutionary Neurobiology), 367V; Neuroscience 367V. Prerequisite: Biology 325 or 325H with a grade of at least C.

NEU 367W. Laboratory in Behavioral Neuroscience.
Behavioral experiments with rodents aimed at elucidating the neural mechanisms of psychological processes such as memory, anxiety, and incentive motivation. One lecture hour and five laboratory hours a week for one semester. Biology 367W and Neuroscience 367W may not both be counted. Prerequisite: Neuroscience 335 with a grade of at least C.

NEU 371M. Comparative Neuroscience.
The nervous system, with emphasis on vertebrate neurobiology. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Biology 337 (Topic: Neural Systems I), 365R, 371M, Neuroscience 330, 365R, 371M. Prerequisite: Neuroscience 335 with a grade of at least C.

Laboratory or research in the various fields of neuroscience under the supervision of one or more faculty members. Supervised individual research. Up to three semester hours may be counted toward the major requirement for the Bachelor of Science in Neuroscience. May be repeated for credit. Prerequisite: Neuroscience 335 with a grade of at least C.

NEU 177, 279H, 377H. Honors Tutorial Course.
Restricted to students in the honors program in neuroscience. Original laboratory research project under the direction of a faculty mentor leading to a thesis or research presentation. The equivalent of one, two, or three lecture hours a week for one semester. May be repeated for credit, but no more than six hours may be counted toward a degree in neuroscience. Prerequisite: Consent of student’s research supervisor and the departmental honors adviser.

Department of Physics
The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 793).

Physical Science: P S
Lower-Division Courses
Restricted to students outside the College of Natural Sciences. Inquiry laboratory approach to basic concepts of measurement, forces, motion, energy, temperature, and heat. Designed for students with minimum prior preparation in mathematics and physics. Especially appropriate for prospective elementary school teachers. Four hours of integrated laboratory and lecture a week for one semester. Only one of the following may be counted: Physical Science 303, Physics 301, 302K, 303K, 309K, 317K.

P S 304. Introductory Physical Science II: Electricity, Light, and Optics.
Restricted to students outside the College of Natural Sciences. Inquiry laboratory approach to electricity, magnetism, waves, light, and optical instruments. Four hours of integrated laboratory and lecture a week for one semester. Only one of the following may be counted: Physical Science 304, Physics 302L, 303L, 309L, 316, 317L. Prerequisite: Physical Science 303.

Upper-Division Courses
P S 350. Physical Science for Elementary and Middle School Teachers.
Designed for kindergarten through sixth grade teachers with minimal preparation in mathematics (college algebra) and no preparation in physics. An inquiry laboratory in the basic concepts of light, electricity, and magnetism. Three hours of integrated laboratory and lecture a day for three weeks.

P S 367M. Physical Science: Methods of Astronomy.
Same as Astronomy 367M. An introductory, self-paced course in the methods of astronomy that emphasizes learning astronomical principles through observations. Six laboratory hours a week for one semester. May not be counted toward the Bachelor of Arts, Plan I, degree with a major in astronomy. Prerequisite: Upper-division standing and nine semester hours of coursework in mathematics and/or science, including one of the following: Physical Science 303, 304, Astronomy 301, 302, 303. Equivalent preparation in mathematics, physics, chemistry, or earth sciences may be substituted with written approval of the instructor.

P S 375. Individual Study in Physical Science.
Intended primarily for preservice and in-service teachers. Guided inquiry reading or laboratory research in physical science. Meets three times a week for one semester, for one hour each meeting. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and written consent of instructor.

Physics: PHY
Lower-Division Courses
PHY 301. Mechanics.
Designed for students who intend to major in science or mathematics. Three lecture hours a week for one semester. Only one of the following
may be counted: Physical Science 303, Physics 301, 302K, 303K, 309K, 317K. Prerequisite: Credit with a grade of at least C- or registration in Mathematics 408D, 408L, or 408S, and Physics 101L; and an appropriate score on the physics assessment exam.

PHY 101L. Laboratory for Physics 301.
Three laboratory hours a week for one semester. Only one of the following may be counted without prior approval of the department: Physics 101L, 102M, 103M, 117M. May not be counted toward a degree unless prerequisite is observed. Prerequisite: Credit with a grade of at least C- or registration for Physics 301.

Noncalculus technical course in physics. Completion of high school trigonometry or Mathematics 305G is highly recommended. Three lecture hours a week for one semester. Only one of the following may be counted: Physical Science 303, Physics 301, 302K, 303K, 309K, 317K. Prerequisite: Credit with a grade of at least C- or registration in Physics 102M.

Noncalculus technical course in physics. Three lecture hours a week for one semester. Only one of the following may be counted: Physical Science 304, Physics 302L, 303L, 309L, 316, 317L. Prerequisite: Credit with a grade of at least C- in Physics 302K and 102M; credit with a grade of at least C- or registration in Physics 102N.

PHY 102M (TCCN: PHYS 1101). Laboratory for Physics 302K.
Two laboratory hours a week for one semester. Only one of the following may be counted without prior approval of the department: Physics 101L, 102M, 103M, 117M. May not be counted toward a degree unless prerequisite is observed. Prerequisite: Credit with a grade of at least C- or registration for Physics 302K.

PHY 102N (TCCN: PHYS 1102). Laboratory for Physics 302L.
Two laboratory hours a week for one semester. Only one of the following may be counted without prior approval of the department: Physics 102N, 103N, 116L, 117N. May not be counted toward a degree unless prerequisite is observed. Prerequisite: Credit with a grade of at least C- or registration for Physics 302L.

PHY 303K (TCCN: PHYS 2325). Engineering Physics I.
A general survey of physics; primarily laws of motion, heat, and wave phenomena. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Physical Science 303, Physics 301, 302K, 303K, 309K, 317K. Prerequisite: Credit with a grade of at least C- or registration in Mathematics 408D, 408L, or 408S, and Physics 103M; and an appropriate score on the physics assessment exam.

PHY 303L (TCCN: PHYS 2326). Engineering Physics II.
Electricity and magnetism, optics, and atomic phenomena. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Physical Science 304, Physics 302L, 303L, 309L, 316, 317L. Prerequisite: Physics 303K and 103M with a grade of at least C- in each; credit with a grade of at least C- or registration in Mathematics 408D or 408M, and Physics 103N.

PHY 103M (TCCN: PHYS 2125). Laboratory for Physics 303K.
Two laboratory hours a week for one semester. Only one of the following may be counted: Physics 101L, 102M, 103M, 117M. May not be counted toward a degree unless prerequisite is observed. Prerequisite: Credit with a grade of at least C- or registration for Physics 303K.

PHY 103N (TCCN: PHYS 2126). Laboratory for Physics 303L.
Two laboratory hours and one discussion hour a week for one semester. Only one of the following may be counted: Physics 102N, 103N, 116L, 117N. May not be counted toward a degree unless prerequisite is observed. Prerequisite: Credit with a grade of at least C- or registration for Physics 303L.

PHY 104. Introductory Physics Seminar.
Suggested for beginning physics majors. Discussion of the development of important ideas in physics, with emphasis on their relevance to contemporary research. One lecture hour a week for one semester. Offered on the pass/fail basis only.

Designed for students who have not had high school physics, have weak problem-solving skills, and need preparation for Physics 301 or 303K. Three lecture hours a week for one semester. May not be counted toward any degree. Prerequisite: High school trigonometry or Mathematics 305G.

PHY 108. Introduction to Research.
Introductory laboratory experience; use of tools and test equipment; beginning apprenticeship in active physics research. One class hour a week for one semester. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Consent of instructor and approval of an undergraduate adviser.

PHY 308F. Introduction to Research.
Introductory laboratory experience; use of tools and test equipment; beginning apprenticeship in active physics research. One lecture hour and eight laboratory hours a week for one semester. Prerequisite: Consent of instructor and the undergraduate adviser.

Mechanics, heat, and sound. Designed for students who do not intend to do further work in natural sciences, engineering, mathematics, or medicine. Three lecture hours a week for one semester. Only one of the following may be counted: Physical Science 303, Physics 301, 302K, 303K, 309K, 317K. May not be counted toward a degree in the College of Natural Sciences.

Electricity and magnetism, light, atomic and nuclear physics. Designed for students who do not intend to do further work in natural sciences, engineering, mathematics, or medicine. Three lecture hours a week for one semester. Only one of the following may be counted: Physical Science 304, Physics 302L, 303L, 309L, 316, 317L. May not be counted toward a degree in the College of Natural Sciences. Prerequisite: Physics 309K with a grade of at least C-.

PHY 110C. Conference Course.
Supervised study of selected topics in physics, by individual arrangement with department and instructor. Conference course. May be repeated for credit when the topics vary. Offered on the pass/fail basis only. Prerequisite: Written consent of instructor.

PHY 315. Wave Motion and Optics.
Study of general properties of waves; examples include sound, electromagnetic, and mechanical waves; special emphasis on light and optics. Three lecture hours a week for one semester. Prerequisite: The
following coursework with a grade of at least C- in each: Mathematics 427J or 427K; Physics 316 and 116L; and credit with a grade of at least C- or registration for Physics 115L.

**PHY 115L. Laboratory for Physics 315.**
Three laboratory hours a week for one semester. May not be counted toward a degree unless prerequisite is observed. Prerequisite: Credit with a grade of at least C- or registration for Physics 315.

**PHY 316. Electricity and Magnetism.**
Three lecture hours a week for one semester. Only one of the following may be counted without prior approval of the department: Physical Science 304, Physics 302L, 303L, 309L, 316, 317L. Prerequisite: Physics 301 and 101L with a grade of at least C- in each; credit with a grade of at least C- or registration in Mathematics 408D or 408M, and Physics 116L.

**PHY 116L. Laboratory for Physics 316.**
Three laboratory hours a week for one semester. Only one of the following may be counted without prior approval of the department: Physics 102N, 103N, 116L, 117N. May not be counted toward a degree unless prerequisite is observed. Prerequisite: Credit with a grade of at least C- or registration for Physics 316.

**PHY 317K. General Physics I.**
Mechanics, heat, and sound, with biomedical applications. An introductory course designed and recommended primarily for premedical students and others in the biomedical sciences whose professional or preprofessional training includes an introductory course in calculus. Satisfies most medical and dental school requirements for physics. Three lecture hours a week for one semester. Only one of the following may be counted: Physical Science 303, Physics 301, 302K, 303K, 309K, 317K. May not be counted toward the Bachelor of Science in Astronomy or Bachelor of Science in Physics. Prerequisite: Credit with a grade of at least C- in Mathematics 408C or 408R; or credit with a grade of at least C- in 408K or 408N and registration for 408L or 408S; and credit with a grade of at least C- or registration for Physics 117M.

**PHY 317L. General Physics II.**
Electricity and magnetism, light, atomic and molecular physics, nuclear physics, and their biomedical applications. Designed and recommended primarily for premedical students and others in the biomedical sciences whose professional or preprofessional training includes an introductory course in calculus. Satisfies most medical and dental school requirements for physics. Three lecture hours a week for one semester. Only one of the following may be counted: Physical Science 304, Physics 302L, 303L, 309L, 316, 317L. May not be counted toward the Bachelor of Science in Astronomy or Bachelor of Science in Physics. Prerequisite: Physics 317K and 117M with a grade of at least C-; and credit with a grade of at least C- or registration in Physics 117N.

**PHY 117M. Laboratory for Physics 317K.**
Three laboratory hours a week for one semester. Only one of the following may be counted without prior approval of the department: Physics 101L, 102M, 103M, 117M. Prerequisite: Credit with a grade of at least C- or registration for Physics 317K.

**PHY 117N. Laboratory for Physics 317L.**
Three laboratory hours a week for one semester. Only one of the following may be counted without prior approval of the department: Physics 102N, 103N, 116L, 117N. Prerequisite: Credit with a grade of at least C- or registration for Physics 317L.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad advisor in the Department of Physics. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**Upper-Division Courses**

**PHY 321. Modern Physics: Plan II.**
Restricted to Plan II students. Conceptual foundations of modern physics. Examines quantum mechanics, quantum field theory, relativity, and general relativity, including large-scale structure and cosmology; and the development of analytic problem-solving skills, including estimation. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**PHY 329. Introduction to Computational Physics.**
Computational methods for problem solving and research in physics; numerical analysis and computer simulation methods for physics applications using different types of computers. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 367, Mathematics 368K, Physics 329. Prerequisite: The following coursework with a grade of at least C- in each: Physics 315 and 115L; a programming course at the level of Computer Science 303E with a grade of at least C- or consent of instructor; and credit with a grade of at least C- or registration for Mathematics 341 or 340L.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad advisor in the Department of Physics. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**PHY 329W. Cooperative Physics.**
Covers the work period of physics students in the Cooperative Education Program, which provides supervised work experience by arrangement with the employer and the supervising instructor. Forty laboratory hours a week for one semester. The student must repeat the course each work period and must take it twice to receive credit toward the degree; at least one of these registrations must be during a long-session semester. No more than three semester hours may be counted toward the major requirement; no more than six semester hours may be counted toward the degree. The student’s first registration must be on the pass/fail basis. Prerequisite: Membership application to the Cooperative Physics Program, Physics 316 with a grade of at least C-, and consent of the undergraduate adviser.

**PHY 333. Modern Optics.**
Review of geometrical optics, polarization, interference, and optical instruments. Subjects include Fourier optics, light propagation in fibers, quantum optics, and coherence. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each: Mathematics 427J or 427K, Physics 315, and 115L.

**PHY 133L. Laboratory for Physics 333.**
Three laboratory hours a week for one semester. Prerequisite: Credit with a grade of at least C- or registration for Physics 333.
PHY 336K. Classical Dynamics.
Elementary linear vector algebra, Newtonian mechanics, Lagrangian mechanics, central force motion, dynamics of rigid bodies, and theory of small oscillations. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each: Mathematics 427L or 364K, Physics 315, and 115L.

PHY 336L. Fluid Dynamics.
Fundamental concepts of fluid mechanics developed and applied to laminar and turbulent flows. Subjects include the Navier-Stokes equations, pipe and channel flow, drag, boundary layers, convection, and rotating fluids. Three lecture hours a week for one semester. Prerequisite: Physics 336K with a grade of at least C-.

PHY 338K. Electronic Techniques.
Elementary circuit theory, amplifiers, feedback, pulse and digital techniques, signal processing, and microprocessors as applied to physics instrumentation. One and one-half lecture hours and three laboratory hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each: Mathematics 427J or 427K, Physics 316, and 116L.

PHY 341. Selected Topics in Physics.
Three lecture hours a week for one semester. An additional one-hour problem session is required for some sections. May not be counted toward the Bachelor of Science in Physics degree without prior approval of the department. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing, three semester hours of coursework in a natural science, and three semester hours of coursework in mathematics.

**Topic 1: Energy Production.** The various means that exist or have been suggested for generating energy; comparison in terms of efficiency, safety, and effects on the environment.

**Topic 2: Great Men, Moments, and Ideas.** How our views of matter, energy, and the universe developed.

**Topic 3: Musical Acoustics.** Study of the production, transmission, and perception of the special kind of sound called music, based on the application of elementary principles of physics.

**Topic 4: The Nature of Things.** A qualitative survey of all of physics, from falling bodies to quarks, making heavy use of classroom demonstrations.

**Topic 5: Pseudoscience.** Study of a variety of ideas treated very seriously by the communications media but having no basis in fact, including astrology, extrasensory perception, and flying saucers; why such areas are not part of science.

**Topic 6: Writing.**

**Topic 7: Research Methods: UTeach.**

PHY 345. Biophysics.
Basic concepts of physics developed and applied to biological systems. Subjects include energy in living systems, entropic interactions, molecular forces and self-assembly, biopolymers, bio-membranes, cell-cell interactions, pattern formation, collective behavior, higher order systems, population dynamics and evolution. Three lecture hours a week for one semester. Prerequisite: Upper-division standing, and the following coursework with a grade of at least C- in each: Biology 311D, Chemistry 302, and Physics 355.

PHY 352K. Classical Electrodynamics I.
Electrostatic fields, magnetostatic fields, derivation of Green's theorems and functions and of Maxwell's equations. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each: Mathematics 427L or 364K, Physics 315, and 115L.

PHY 352L. Classical Electrodynamics II.
A continuation of Physics 352K, emphasis is placed on conservation laws, electromagnetic waves, potentials and fields, radiation, and Lorentz invariance. One or more special subjects, such as Rayleigh scattering and energy loss by relativistic charged particles in matter will be developed. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Physics 352K with a grade of at least C-.

PHY 353L. Modern Physics Laboratory.
Laboratory experiments investigating the breakdown of classical physics for microscopic phenomena. Includes absorption and emission spectra, the photoelectric effect, blackbody radiation, the Compton effect, X-ray diffraction, and other experiments in modern physics. Four and one-half laboratory hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each: Physics 315 and 115L.

Introduction to modern physics and thermodynamics: photons (spectra, photoelectric effect, blackbody radiation, Compton effect), atoms (Rutherford, Bohr), matter waves (Planck, deBroglie, probability interpretation, Schrödinger), nuclei, particles, special relativity, the laws of thermodynamics, and statistical physics. Three lecture hours a week for one semester. Prerequisite: Physics 303L or 316 with a grade of at least C-.

PHY 362K. Quantum Physics II: Atoms and Molecules.
The two-electron atom; spin and statistics; coupling schemes for many-electron atoms; atoms and the radiation field; perturbation methods for decay and collisions; thermal, electrical, and magnetic properties of solids; and free-electron metal and band theory. May include subjects such as superconductivity, Josephson tunneling, and others. Three lecture hours a week for one semester. Prerequisite: Physics 373 with a grade of at least C-.

PHY 362L. Quantum Physics III: Particles and Nuclei.
Nuclei and nucleons, their gross properties; the hadrons; symmetries and conservation laws; nuclear stability; electromagnetic, weak, and hadronic interactions; nuclear reactions at low, medium, and high energies; nucleon structure; tools of experimental nuclear physics; models of theoretical nuclear physics; nuclear technology. Three lecture hours a week for one semester. Prerequisite: Physics 373 with a grade of at least C-; Physics 362K is recommended.

PHY 369. Thermodynamics and Statistical Mechanics.
Basic concepts of thermal physics; entropy, enthalpy, free energy, phase transitions, equilibrium distribution functions, applications. Three lecture hours a week for one semester. Prerequisite: Credit with a grade of at least C- or registration for Physics 373.

PHY 670T. Senior Thesis.
Individual research with faculty supervision. First half involves preparation of proposal; second involves completion of written thesis. Six hours of work a week for one semester, or three hours of work a week for two semesters. Only three semester hours may be counted toward the Bachelor of Science in Physics degree. Prerequisite: Upper-division standing. Individual research with faculty supervision. First half involves preparation of proposal; second involves completion of written thesis. Six hours of work a week for one semester, or three hours of work a week for two semesters. Only three semester hours may be counted toward the Bachelor of Science in Physics degree. Prerequisite: Upper-division standing.

PHY 371C. Individual Study in Physics.
Supervised reading or research in physics. Hours to be arranged. May be repeated for credit. Prerequisite: Upper-division standing. Physics 336K with a grade of at least C-; credit with a grade of at least C- or registration for Physics 352K; and consent of the undergraduate adviser.
Postulates of quantum mechanics, the bound states of the finite square well, the harmonic oscillator, operator-eigenvalue formulism and selected examples, the hydrogen atom, angular momentum, rigid rotor, and spin. May include simple scattering theory. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each: Physics 336K, 353L, and 355.

PHY 474. Advanced Laboratory I.
Modern experimental techniques, theory of error, and analysis of experiments; both modern and classical experiments in atomic and nuclear physics, electricity and magnetism, optics and heat. Three lecture hours and eight laboratory hours a week for one semester, with additional laboratory hours to be arranged. With consent of instructor, may be repeated for credit. Prerequisite: Physics 352K, 353L, and 355; or consent of the undergraduate adviser. Physics 338K is recommended.

PHY 375P. Introductory Plasma Physics.
Orbit theory and drifts, introduction to plasma stability and waves, applications to plasma confinement and heating. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each: Physics 352K and 369.

PHY 375R. Introduction to Relativity.
Overview of the special and general theories of relativity, with emphasis on recent developments in gravitation. Three lecture hours a week for one semester. Prerequisite: Physics 352K with a grade of at least C-.

PHY 375S. Introductory Solid-State Physics.
Crystal structure, classification of solids, cohesion, thermal and electrical properties of solids, magnetic properties of solids, imperfections. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each: Physics 369 and 373.

PHY 379H. Honors Tutorial Course.
Research project, resulting in a thesis, for outstanding students electing to take the honors program in physics. Conference course. Prerequisite: A University grade point average of at least 3.00, a grade point average in physics of at least 3.50, twelve semester hours of upper-division coursework in physics, and consent of the student’s research supervisor and the departmental honors adviser.

Division of Statistics and Data Sciences

Statistics and Data Sciences: SDS
Lower-Division Courses
SDS 301. Elementary Statistical Methods.
Covers the fundamental procedures for data organization and analysis. Subjects include frequency distributions, graphical presentation, sampling, experimental design, inference, and regression. Three lecture hours a week for one semester. Only one of the following may be counted: Educational Psychology 371, Mathematics 316, Statistics 309 or Statistics and Data Sciences 301. A student may not earn credit for Educational Psychology 371, Mathematics 316, Statistics 309 or Statistics and Data Sciences 301 after having received credit for any of the following with a grade of at least C-: Statistics and Data Sciences 302, 303, 304, 305, 306, 328M, Statistics and Scientific Computation 302, 303, 304, 305, 306, or 328M.

SDS 302. Data Analysis for the Health Sciences.
Basic probability and data analysis for the sciences. Subjects include randomness, sampling, distributions, probability models, inference, regression, and nonlinear curve fitting. Three lecture hours and one laboratory hour a week for one semester. Only one of the following may be counted: Statistics and Data Sciences 302, 303, 304, 305, 306, 328M, Statistics and Scientific Computation 302, 303, 304, 305, 306, 328M.

SDS 303. Statistics in Experimental Research.
An introduction to the fundamental concepts and methods of statistics, with emphasis on applications in experimental science. Includes exploratory data analysis, correlation and regression, descriptive statistics, sampling distributions, confidence intervals, and hypothesis testing. Three lecture hours a week for one semester. Only one of the following may be counted: Statistics and Data Sciences 302, 303, 304, 305, 306, 328M, Statistics and Scientific Computation 302, 303, 304, 305, 306, or 328M. Prerequisite: An appropriate score on the College of Natural Sciences mathematics placement examination.

SDS 304. Statistics in Health Care.
Introduction to the fundamental concepts and methods of statistics, with emphasis on applications in the health sciences. Includes exploratory data analysis, correlation and regression, descriptive statistics, sampling distributions, confidence intervals, and hypothesis testing. Three lecture hours a week for one semester. Only one of the following may be counted: Statistics and Data Sciences 302, 303, 304, 305, 306, 328M, Statistics and Scientific Computation 302, 303, 304, 305, 306, or 328M.

SDS 305. Statistics in Policy Design.
An introduction to the fundamental concepts and methods of statistics, with emphasis on applications in policy evaluation and design. Includes exploratory data analysis, correlation and regression, descriptive statistics, sampling distributions, confidence intervals, and hypothesis testing. Three lecture hours a week for one semester. Only one of the following may be counted: Statistics and Data Sciences 302, 303, 304, 305, 306, 328M, Statistics and Scientific Computation 302, 303, 304, 305, 306, or 328M. Prerequisite: An appropriate score on the College of Natural Sciences mathematics placement examination.

SDS 306. Statistics in Market Analysis.
Introduction to the fundamental concepts and methods of statistics, with emphasis on applications in the analysis of personal and group behaviors. Includes exploratory data analysis, correlation and regression, descriptive statistics, sampling distributions, confidence intervals, and hypothesis testing. Three lecture hours a week for one semester. Only one of the following may be counted: Statistics and Data Sciences 302, 303, 304, 305, 306, 328M, Statistics and Scientific Computation 302, 303, 304, 305, 306, or 328M.

For each semester hour of credit earned, one lecture hour a week for one semester. Statistics and Data Sciences 110T and Statistics and Scientific Computation 110T may not both be counted. May be repeated for credit when the topics vary.

SDS 318. Introduction to Statistical and Scientific Computation.
An introduction to quantitative analysis using fundamental concepts in statistics and scientific computation. Includes probability, distributions, sampling, interpolation, iteration, recursion, and visualization. Three lecture hours and one laboratory hour a week for one semester. Statistics and Data Sciences 318 and Statistics and Scientific Computation 318 may not both be counted.
Upper-Division Courses

SDS 321. Introduction to Probability and Statistics.
Covers fundamentals of probability, combinatorics, discrete and continuous random variables, jointly distributed random variables, and limit theorems. Using probability to introduce fundamentals of statistics, including Bayesian and classical inference. The equivalent of four lectures hours a week. Only one of the following may be counted: Mathematics 362K, Statistics and Data Sciences 321, Statistics and Scientific Computation 321. Prerequisite: Mathematics 408C, 408L, 408R, or 408S with a grade of at least C-.

SDS 222, 322. Introduction to Scientific Programming.
Introduction to programming using both the C and Fortran (95/2003) languages, with applications to basic scientific problems. Covers common data types and structures, control structures, algorithms, performance measurement, and interoperability. For each semester hour of credit earned, one lecture hour a week for one semester. Only one of the following may be counted: Statistics and Data Sciences 222, 322, 292, 392, Statistics and Scientific Computation 222, 322, 292, 392. Prerequisite: Credit or registration for Mathematics 408C, 408K, or 408N.

SDS 323. Statistical Learning and Inference.
An introduction to statistical influence, broadly construed as the process of drawing conclusions from data, and to quantifying uncertainty about said conclusions. Covers the major schools of thought that influence modern scientific practice, including classical frequentist methods, machine learning, and Bayesian inference. Three lecture hours a week for one semester. Statistics and Data Sciences 323 and Statistics and Scientific Computation 323 may not both be counted. Prerequisite: Statistics and Data Sciences 321 (or Statistical and Scientific Computation 321) or the equivalent.

SDS 325H. Honors Statistics.
An introduction to the fundamental theories, concepts, and methods of statistics. Emphasizes probability models, exploratory data analysis, sampling distributions, confidence intervals, hypothesis testing, correlation and regression, and the use of statistical software. Three lecture hours a week for one semester. Statistics and Data Sciences 325H and Statistics and Scientific Computation 325H may not both be counted. Prerequisite: Admission to the Dean's Scholars Honors Program in the College of Natural Sciences or consent of instructor.

SDS 328M. Biostatistics.
Introduction to methods of statistical analysis of biological data. Includes data analysis, basics of experimental design, statistical inference, interval estimation, and hypothesis testing. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Biology 328M, Statistics and Data Sciences 328M, Statistics and Scientific Computation 328M. Only one of the following may be counted: Statistics and Data Sciences 302, 303, 304, 305, 306, 328M, Statistics and Scientific Computation 302, 303, 304, 305, 306, or 328M. Prerequisite: Six semester hours of coursework in biology.

SDS 329C. Practical Linear Algebra I.
Matrix representations and properties of matrices; linear equations, eigenvalue problems and their physical interpretation; and linear least squares and elementary numerical analysis. Emphasis on physical interpretation, practical numerical algorithms, and proofs of fundamental principles. Three lecture hours a week for one semester. Only one of the following may be counted: Mathematics 340L, 341, Statistics and Data Sciences 329C, or Statistics and Scientific Computation 329C. Prerequisite: Credit or registration for Mathematics 408C, 408K, 408N, or 408R.

SDS 329D. Practical Linear Algebra II.
Iterative solutions to linear equations and eigenvalue problems; properties of symmetric and nonsymmetric matrices, exploitation of sparsity and diagonal dominance; introduction to multivariate nonlinear equations; numerical analysis; and selected applications and topics in the physical sciences. Three lecture hours a week for one semester. Statistics and Data Sciences 329D and Statistics and Scientific Computation 329D may both be counted. Prerequisite: Mathematics 340L, 341, or Statistics and Data Sciences 329C (or Statistics and Scientific Computation 329C).

Follow up to introductory statistics with an overview of advanced statistical modeling topic. Subjects may include multiple regression, ANOVA, logistic regression, random and mixed effects models including longitudinal data, time series analysis, survival analysis, factor analysis, and SEM. Use of statistical software is emphasized. Three lecture hours a week for one semester. Prerequisite: Statistics and Data Sciences 302 (or Statistics and Scientific Computation 302), 304 (or Statistics and Scientific Computation 304), 306 (or Statistics and Scientific Computation 306), 328M (or Statistics and Scientific Computation 328M), or the equivalent.

A comprehensive introduction to computing techniques and methods applicable to many scientific disciplines and technical applications. Covers computer hardware and operating systems, systems software and tools, code development, numerical methods and math libraries, and basic visualization and data analysis tools. Three lecture hours a week for one semester. Statistics and Data Sciences 335 and Statistics and Scientific Computation 335 may not both be counted. Prerequisite: Mathematics 408D or 408M, and prior programming experience.

Concentrated study in a specific area or areas of application, with an emphasis on modeling and visualization. Areas may include computational biology, computational chemistry, computational applied mathematics, computational economics, computational physics, or computational geology. Three lecture hours a week for one semester. Statistics and Data Sciences 339 and Statistics and Scientific Computation 339 may not both be counted unless topics vary. May be repeated for credit when the topics vary.

SDS 348. Computational Biology and Bioinformatics.
Computational-based data sorting, data transformation, and data analysis; programming in Python and R. Three lecture hours and one laboratory hour per week. Prerequisite: Statistics and Data Sciences 328M (or Statistics and Scientific Computation 328M) with a grade of at least C-.

SDS 150K. Data Analysis Applications.
Introduction to the use of statistical mathematical applications for data analysis. Two lecture hours a week for eight weeks. Statistics and Data Sciences 150K and Statistics and Scientific Computation 150K may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Offered on the pass/fail basis only. Prerequisite: Varies with the topic.

Topic 1: SPSS Software. Statistics and Data Sciences 150K (Topic 1) and Statistics and Scientific Computation 150K (Topic 1) may both be counted. Offered on the pass/fail basis only. Additional prerequisite: Upper-division standing.

Topic 2: SAS Software. Statistics and Data Sciences 150K (Topic 2) and Statistics and Scientific Computation 150K (Topic 2) may
not both be counted. Offered on the pass/fail basis only. Additional prerequisite: Upper-division standing.

**Topic 3: Stata Software.** Statistics and Data Sciences 150K (Topic 3) and Statistics and Scientific Computation 150K (Topic 3) may not both be counted. Offered on the pass/fail basis only. Additional prerequisite: Upper-division standing.

**Topic 4: The R Software Environment.** Statistics and Data Sciences 150K (Topic 4) and Statistics and Scientific Computation 150K (Topic 4) may not both be counted. Offered on the pass/fail basis only. Additional prerequisite: Upper-division standing.

**SDS 352. Statistical Methods.**
Study of simple and multiple regression, fundamentals of experimental design, and analysis of variance methods. May include logistic regression, Poisson regression, resampling methods, introduction to Bayesian methods, and probability models. Includes substantial use of statistical software. Three lecture hours and one laboratory hour a week for one semester. Statistics and Data Sciences 352 and Statistics and Scientific Computation 352 may not both be counted. Prerequisite: One of the following: Mathematics 316, Statistics and Data Sciences 303 (or Statistics and Scientific Computation 303), 304 (or Statistics and Scientific Computation 304), 305 (or Statistics and Scientific Computation 305), or 306 (or Statistics and Scientific Computation 306).

**SDS 353. Advanced Multivariate Modeling.**
Advanced topics in statistical modeling, including models for categorical and count data; spatial and time-series data; and survival, hazard, and hierarchical models. Extensive use of statistical software to build on knowledge of introductory probability and statistics, as well as multiple regression. Three lecture hours a week for one semester Statistics and Data Sciences 353 and Statistics and Scientific Computation 353 may not both be counted. Prerequisite: Mathematics 408D or 408M; and Statistics and Data Sciences 325H (or Statistics and Scientific Computation 305), or 352 (Statistics and Scientific Computation 352).

**SDS 358. Special Topics in Statistics.**
Three lecture hours a week for one semester. Statistics and Data Sciences 358 and Statistics and Scientific Computation 358 may not both be counted unless topics vary. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing; additional prerequisites may vary with the topic.

**Topic 1: Applied Regression Analysis.** Through software application, discussion, and guided instruction, explores simple linear regression - what data is appropriate, how to run analysis, and how to interpret the output. Examines multiple regression with combinations of predictor variables, both continuous and categorical. There will be a discussion/application of ANOVA, prior to preceding on to logistic regression: the prediction of discrete events. Only one of the following may be counted: Statistics and Data Sciences 358 (Topic: Applied Regression Analysis), 358 (Topic: 1), Statistics and Scientific Computation 358 (Topic: Applied Regression Analysis) Additional prerequisite: One of the following with a grade of at least C-: Statistics and Data Sciences 302, 304, 306, 328M (or Statistics and Scientific Computation 302, 304, 306, 328M).

**SDS 367S. Simulation Modeling.**
Basic concepts of discrete-event simulation. Statistical input and output analysis; application of simulation software; modeling of systems under uncertainty. Three lecture hours a week for one semester. Only one of the following may be counted: Statistics and Data Sciences 367S, Statistics and Scientific Computation 358 (Topic: Simulation Modeling), 367S. Prerequisite: Upper-division standing and the following with a grade of at least C-: Mathematics 408C, 408K, or 408N; and Statistics and Data Sciences 321 (or Scientific Computation 321) or an equivalent introductory statistics course.

**SDS 374C. Parallel Computing for Science and Engineering.**
Study of parallel computing principles, architectures, and technologies; and parallel application development, performance, and scalability. Designed to help prepare students to formulate and develop parallel algorithms to implement effective applications for parallel computing systems. Three lecture hours a week for one semester. Statistics and Data Sciences 374C and Statistics and Scientific Computation 374C may not both be counted. Prerequisite: Mathematics 408D or 408M, 340L, and prior programming experience using C or Fortran on Linux or Unix systems.

**SDS 374D. Distributed and Grid Computing for Science and Engineering.**
Distributed and grid computing principles and technologies. Covers common modes of grid computing for scientific applications, development of grid-enabled applications, and future trends in grid computing. Three lecture hours a week for one semester. Statistics and Data Sciences 374D and Statistics and Scientific Computation 374D may not both be counted. Prerequisite: Mathematics 408D or 408M, 340L, and prior programming experience using C or Fortran on Linux or Unix systems.

**SDS 374E. Visualization and Data Analysis for Science and Engineering.**
Scientific visualization principles, practices, and technologies, including remote and collaborative visualization. Introduces statistical analysis, data mining, and feature detection. Three lecture hours a week for one semester. Statistics and Data Sciences 374E and Statistics and Scientific Computation 374E may not both be counted. Prerequisite: Mathematics 408D or 408M, 340, and prior programming experience using C or Fortran on Linux or Unix systems.

**SDS 375. Special Topics in Scientific Computation.**
Three lecture hours a week for one semester. Statistics and Data Sciences 375 and Statistics and Scientific Computation 375 may not both be counted unless topics vary. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing; additional prerequisites may vary with the topic.

**SDS 378. Introduction to Mathematical Statistics.**
Same as Mathematics 378K. Sampling distributions of statistics, estimation of parameters (confidence intervals, method of moments, maximum likelihood, comparison of estimators using mean square error and efficiency, sufficient statistics), hypothesis tests (p-values, power, likelihood ratio tests), and other topics. Three lecture hours a week for one semester. Only one the following may be counted: Mathematics 378K, Statistics and Data Sciences 378, Statistics and Scientific Computation 378. Prerequisite: Mathematics 362K with a grade of at least C-.

**SDS 179R, 279R, 379R, 479R. Undergraduate Research.**
Students work on an individual research project under the supervision of one or more faculty members. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.
UTeach-Natural Sciences

UTeach-Natural Sciences: UTS

Lower-Division Courses

Introduction to mathematics, computer science, and science teaching as a career. Discussions include standards-based lesson design and various teaching and behavior management strategies. Fieldwork consists of planning and teaching four inquiry-based lessons to students in grades three to six in local elementary schools. One and one-half class hours a week for one semester; at least ten hours of fieldwork a semester are also required. Chemistry 107 (Topic: STEP1-UTeach) and UTeach-Natural Sciences 101 may not both be counted. Prerequisite: For degree holders, application and admission to the UTeach CNS program.

Topics may include routes to teacher certification in mathematics, computer science, and science teaching; various teaching methods that are designed to meet instructional goals; and learner outcomes. Students develop and teach three inquiry-based lessons in their field in a middle school, and participate in peer coaching. One and one-half class hours a week for one semester; at least twenty hours of fieldwork a semester are also required. Biology 101C (Topic: STEP 2) and UTeach-Natural Sciences 110 may not both be counted. Prerequisite: UTeach-Natural Sciences 101 with a grade of at least C−, and a University grade point average of at least 2.20.

Upper-Division Courses

UTS 350. Knowing and Learning in Math and Science.
Same as Curriculum and Instruction 365C. Restricted to students in the UTeach-Natural Sciences program. Psychological foundations of learning; problem solving in mathematics and science education utilizing technology; principles of expertise and novice understanding of subject matter; implications of high-stakes testing; and foundations of formative and summative assessment. Three lecture hours a week for one semester; additional hours may be required. Curriculum and Instruction 365C and UTeach-Natural Sciences 350 may not both be counted. Prerequisite: Credit with a grade of at least C− or registration for UTeach-Natural Sciences 101.

UTS 355. Classroom Interactions.
Same as Curriculum and Instruction 365D. Restricted to students in the UTeach-Natural Sciences program. Principles of delivering effective instruction in various formats (lecture, lab activity, collaborative settings); examination of gender, class, race, and culture in mathematics and science education; overview of policy related to mathematics and science education. Three lecture hours a week for one semester; additional hours may be required. Curriculum and Instruction 365D and UTeach-Natural Sciences 355 may not both be counted. Prerequisite: The following courses with a grade of at least C−: Curriculum and Instruction 365C or UTeach-Natural Sciences 350, and UTeach-Natural Sciences 110; and a University grade point average of at least 2.50.

UTS 360. Project-Based Instruction.
Same as Curriculum and Instruction 365E. Restricted to students in the UTeach-Natural Sciences program who have earned a passing score on the preliminary portfolio. Foundations of project-based, case-based, and problem-based learning environments; principles of project-based curriculum development in mathematics and science education; classroom management and organization of project-based learning classrooms. Three lecture hours a week for one semester with additional fieldwork hours to be arranged. Curriculum and Instruction 365E and UTeach-Natural Sciences 360 may not both be counted. Prerequisite: Credit with a grade of at least C−, and a University grade point average of at least 2.50.

UTS 675. Student Teaching for Secondary and Middle Grades.
Closely supervised field coursework in a cooperating school. Experience includes carrying out the duties of a secondary or middle grades teacher. Twenty hours of fieldwork a week for one semester. Offered on the pass/fail basis only. Prerequisite: A University grade point average of at least 2.50, approval of the preliminary portfolio by the College of Natural Sciences UTeach Program, and concurrent enrollment in UTeach-Natural Sciences 170.
School of Nursing

Alexa K. Stuifbergen, PhD, RN, Dean
Sharon D. Horner, PhD, RN, Associate Dean, Research
Gayle M. Timmerman, PhD, RN, Associate Dean, Academic Affairs
Gayle J. Acton, PhD, RN, Assistant Dean, Graduate Programs
Carol D. Gaskamp, PhD, RN, Assistant Dean, Undergraduate Programs
Margaret K. Hill, MA, MDiv, Assistant Dean, Administration
Vinh T. Nguyen, M.ED, Assistant Dean, Student Services
http://www.nursing.utexas.edu

General Information

Mission
The purpose of the School of Nursing is to achieve excellence in undergraduate and graduate education, research, public service, and to advance the missions of The University of Texas at Austin through:

1. Preparing students at the baccalaureate level to assume roles in professional nursing practice.
2. Preparing students at the graduate level to assume leadership in practice, education, and research.
3. Promoting excellence in nursing scholarship.
4. Advancing the health of the public through developing and disseminating new knowledge about health, health care, and health care delivery through scholarly inquiry.
5. Providing consultation, health care programs, and health care services in response to emerging and urgent public health needs.

History
The University of Texas School of Nursing, established in Galveston in 1890 as the John Sealy Hospital Training School for Nurses, is one of the oldest schools of nursing in the Southwest. In 1896 it was transferred to the University of Texas and became the School of Nursing, a division of the Medical Branch, with the diploma granted by the University. In addition to the diploma course, a curriculum leading to the degree of Bachelor of Science in Nursing was established in 1923 in cooperation with the College of Arts and Sciences of the Main University in Austin. In 1932 the School of Nursing was renamed the John Sealy College of Nursing. The degree program was transferred to the college in 1943.

With the financial support of the Texas Graduate Nursing Association, graduate courses in nursing were first offered in 1930 in the Department of Physical and Health Education at the Main University. In 1940, a complete curriculum was established leading to the degree of Bachelor of Science in Nursing Education. In 1945, the curriculum was transferred to the Medical Branch administration, bringing the John Sealy College of Nursing and the new Department of Nursing Education together to form the School of Nursing with its own dean. In 1949, a curriculum leading to the degree of Bachelor of Science in Nursing was established for graduates of diploma programs. The last class of students enrolled in the diploma program was admitted to the School of Nursing in 1957; since that time the school has offered a single program leading to the Bachelor of Science in Nursing.

Funding from the W. K. Kellogg Foundation provided for a program leading to the Master of Science in Nursing with a major in nursing administration, first offered in 1952. Participating in the program of the Southern Regional Education Board for graduate education in nursing, the School of Nursing offered additional specialization in 1955. At that time the name of the school was changed to the University of Texas Medical Branch School of Nursing.

In the fall of 1960, The University of Texas at Austin became an extension campus of the School of Nursing, which was still located in Galveston, and nursing courses were offered on the Austin campus for the first time. The School of Nursing was reorganized in 1967 as The University of Texas Nursing School (System-wide) and administrative offices were moved to Austin. The school was renamed The University of Texas System School of Nursing in 1972. Junior- and senior-level nursing courses were offered in Austin, El Paso, Fort Worth, Galveston, Houston, and San Antonio.

On March 26, 1976, the Board of Regents of The University of Texas System voted to reorganize the schools of nursing in the system and to place each school under the administration of the president of the health science center or academic institution nearest it. On September 1, 1976, the School of Nursing at Austin became a part of The University of Texas at Austin.

A program leading to the Doctor of Philosophy degree in nursing was initiated in 1974. Nursing faculty members conduct research on a wide variety of topics. Since 2002, the School of Nursing has been ranked among the top institutions in research funding received from the National Institutes of Health.

Facilities
The 110,008-square-foot, five-story Nursing School building houses administrative, faculty, staff, and research offices, as well as large and small classrooms and seminar and conference rooms. Also located in the building are the Cain Center for Nursing Research, the St. David’s Center for Health Promotion and Disease Prevention Research in Underserved Populations, and the School of Nursing Learning Enhancement and Academic Progression Center, with an audiovisual library and a staff who provide technical assistance for clinical simulation and skills, instructional design, and production.

Learning experiences in the health field are numerous and varied. The School of Nursing has ongoing clinical placement agreements with more than two hundred agencies. These include the Austin State Hospital, Dell Children’s Medical Center of Central Texas, Dell Seton Medical Center at The University of Texas, and St. David’s Medical Center. Other community settings used for student field experiences include nursing homes, neighborhood health centers, day-care centers, state and local health departments, physicians’ offices, and clinics, including our Family Wellness Center, and our Children’s Wellness Center (located in Del Valle).

Financial Assistance Available through the School
Application forms for scholarships are available from the Office of Financial Aid (http://finaid.utexas.edu) and from the School of Nursing (http://nursing.utexas.edu/academics/services.html), 1710 Red River Street, Austin TX 78712. The School of Nursing Scholarship Committee selects the recipients for endowed nursing scholarships. A list of endowed scholarships can be found on the School of Nursing website (http://nursing.utexas.edu/academics/endowed.html). Other scholarships are frequently available through the generosity of groups such as the The University of Texas at Austin School of Nursing Alumni Network, area civic organizations, and several nursing student organizations. Information is available in the Office of Student Services (http://nursing.utexas.edu/academics/services_sa.html) each semester.
Other Financial Aid Programs

ROTC Nursing Scholarships
To be eligible for an ROTC scholarship, an applicant must be a United States citizen and must be less than 25 years old on June 30 of the calendar year during which commissioning is scheduled.

Air Force ROTC Nursing Scholarships. These scholarships provide for payment of tuition and fees and for textbooks and a monthly allowance during the school year. For additional information, contact The University of Texas at Austin, Department of Air Force Science, 1 University Station C3600, Austin TX 78712.

Army ROTC Nursing Scholarships. These scholarships provide for payment of tuition and fees, a flat rate for textbooks, and a monthly allowance during the school year. Students must attend the Nursing Advanced Camp during the summer between the junior and senior years and work individually with a licensed BSN preceptor. Students may apply to the dean for independent study credit; applications are considered on a case-by-case basis. For additional information, contact The University of Texas at Austin, Department of Military Science, 1 University Station C3606, Austin TX 78712.

Navy ROTC Nursing Scholarships. These scholarships provide for payment of tuition and fees and for textbooks and a monthly allowance during the school year. For additional information, contact The University of Texas at Austin, Department of Naval Science, 1 University Station C3604, Austin TX 78712.

Vocational Rehabilitation
The Texas Department of Assistive and Rehabilitative Services (DARS) offers assistance in payment of tuition to students who have certain disabling conditions, provided their vocational objectives are approved by a DARS counselor. Services are also available to help students with disabilities find or keep employment. More information is available at http://www.dars.state.tx.us/drs/vr.shtml.

Academic Advising
All nursing students must come to the School of Nursing before registration each semester for academic advising. Individualized academic advising is managed by the academic advisers in the Office of Student Services. In addition, group advising is offered to assist students with clinical schedules and particular requirements of the upcoming semester.

Student Organizations
Undergraduate students interested in nursing are eligible for membership in The University of Texas Nursing Students Association. Through the association, nursing students are represented on campus committees and in campus activities involving all students. The local association is affiliated with the Texas Nursing Students’ Association and the National Student Nurse Association. In addition, students can join the Longhorn Association for Men in Nursing, the African American Nursing Students Association, the Hispanic Nursing Students Association, and the Student Community of Asian Nurses.

Qualified students in the School of Nursing are also eligible for membership in Epsilon Theta Chapter of Sigma Theta Tau International Honor Society of Nursing.

Admission and Registration

Admission

Admission to the University
Admission and readmission of undergraduate students to the University is the responsibility of the director of admissions. Information about admission to the University is given in the General Information Catalog (http://catalog.utexas.edu/general-information/admission).

Admission to the Professional Sequence in Nursing
Application to the School of Nursing is made concurrently when applying to the University. Acceptance into the School of Nursing is based on (1) the strength of the student’s academic background, (2) participation in extracurricular and work activities, especially related to community service and health care; and (3) the quality of the essay.

Internal Transfer
The University of Texas at Austin students currently enrolled in other departments who want to change majors to nursing must attend a School of Nursing Internal Transfer Information Session (https://nursing.utexas.edu/academics/ud_info.html#internal). To be considered for change of major admission, the student must have completed Chemistry 301, Principles of Chemistry I, Statistics and Data Sciences 302, Data Analysis for the Health Sciences, and Biology 311C, Introductory Biology I. Additionally, students should be on schedule to graduate within four years and have a University grade point average of 3.00. Internal transfer requests may be very competitive, and admission is offered only on a space-available basis. Interested students should consult The University of Texas at Austin policy for Transfer from One Division to Another within the General Information Catalog (http://catalog.utexas.edu/general-information/registration-tuition-and-fees/transfer-from-one-division-to-another-within-the-university), as well as the School of Nursing website (http://www.nursing.utexas.edu) for current details about the transfer process and available information sessions.

External Transfer
All students who wish to transfer to the University from another institution must apply to the University Office of Admissions as described in the General Information Catalog (http://catalog.utexas.edu/general-information/admission). Transfer students must meet the same requirements as University students seeking admission to the School of Nursing and select nursing as their first choice major. To be considered for transfer admission to the School of Nursing, students must have completed 30 semester hours of transferable coursework and are advised to attend an information session. Transfer admission to the School of Nursing is competitive. Transfer applications are competitively reviewed, and admission is offered on a space-available basis. Since space is limited, applicants are strongly encouraged to indicate a second choice of major in case they are not admitted to the School of Nursing.

A student who wishes to transfer into the upper-division nursing coursework from another nursing school after starting nursing clinical or lab work must make an appointment with the School of Nursing, Office of Student Services (https://nursing.utexas.edu/academics/services_sa.html) for academic advising and transcript review. Students from other nursing schools must consult an adviser in the School of Nursing before applying for admission to the University. In addition to meeting the regular University admission requirements, the student must apply for admission to the School of Nursing. He or she must submit an official transcript from each institution attended, letters of recommendation from faculty members at the previous nursing school, and course information for all completed nursing courses. Requests to
Transfer into upper division at the School of Nursing are approved on a limited, space-available basis.

Transfer students must meet the same requirements as University students seeking admission to the professional sequence; however, they are considered for admission to the School of Nursing only if they are admitted to the University.

Registration

The General Information Catalog (http://catalog.utexas.edu/general-information/registration-tuition-and-fees) gives information about registration, adding and dropping courses, transfer from one division of the University to another, and auditing a course. The Course Schedule (http://registrar.utexas.edu/schedules), published before registration each semester and summer session, includes registration instructions, advising locations, and the times, places, and instructors of classes. The Course Schedule and the General Information Catalog are published on the University Registrar’s website (http://registrar.utexas.edu).

Academic Policies and Procedures

Student Responsibility

1. It is the student's responsibility to be informed of general and special notices posted in the School of Nursing building and on the listserv.

2. The student must make arrangements for the completion of all work, including makeup examinations and requirements for removal of conditional and incomplete grades.

3. Because the curriculum is demanding, students are urged to limit work hours while in the program. A student's combined employment and semester-hour load (including clinical laboratory hours) should not exceed 40 hours a week in either a long-session semester or a summer term. During the final month of the last semester of the program, students are enrolled in a full-time preceptorship and are unable to have outside employment.

4. Students may be employed in area hospitals and clinics as nursing assistants, performing functions for which they have been trained by the employing institution and for which the institution has a clearly discernible policy, either in writing or by precedent, defining the scope of these functions. It is illegal for unlicensed students to practice as professional nurses.

Students should be aware that (1) the School of Nursing assumes no responsibility for their activities as employees of an agency; (2) they are personally responsible and liable for any activity they participate in while employed; (3) professional liability insurance purchased by students is valid only in their student role, not in their employment in the program. The standards of performance are described in the School of Nursing Honor Code (https://www.utexas.edu/about/mission-and-values) and the School of Nursing Honor Code. Students are expected to read and sign a pledge to abide by the Code of Honor.

School of Nursing Honor Code

The profession of nursing has a legacy of public respect and trust. We provide specialized care for the health needs of individuals and the community with integrity, honesty, compassion, and state-of-the-art knowledge and skills. Learning and practicing responsible and ethical professional behavior is a vital part of professional education.

As a student in the University of Texas at Austin's School of Nursing, I pledge myself to be honest in all of my student activities including, but not limited to, all of my scholastic work and interactions with patients, members of the community, faculty, and peers. Furthermore, I will not use any substance prior to or during my interaction with patients that could alter my judgment or ability to render safe care: this includes but is not limited to any use of alcohol, illegal drugs, and prescription or over-the-counter drugs that may impair my mental and/or physical abilities required to perform safe patient care. I will disclose to my instructor any violations of the above standards of conduct.

Standards of Nursing Performance and Progress

Progression Requirements for Nursing Majors Prior to Nursing Clinical or Lab Courses

Students must maintain a University grade point average of at least 2.80 in required nursing degree coursework prior to taking nursing courses with a clinical or lab component. In addition, students must attain a grade of at least C- in each natural science course. Courses in which the student receives a grade of less than C-, Q, or W must be repeated in residence to resume progression toward completing the degree. Students may not enroll more than twice in any one natural science course (including Q or W) and should take a full academic load of at least 12 semester hours of coursework when repeating a course. For the student to continue in the nursing major, no more than two natural science courses may be repeated. A student may not repeat for credit a course in which a grade of C- or better was awarded.

Students must meet all progression requirements prior to taking nursing courses with a clinical or lab component. Students who do not meet these requirements will not be permitted to continue in the nursing major. Students are advised every semester about the coursework needed to complete the degree in four academic years.

Students are placed on academic probation in the School of Nursing if they receive a grade of D+, D, or F in any nursing or natural science course. Students are subject to dismissal from the nursing major if they receive more than one D+, D, or F during a semester or receive a second D+, D, or F while on academic probation.

Progression Requirements and Performance Standards for Upper Division Nursing Courses

Patient safety is a critical element in every clinical course. Clinical errors related to patient care, including those near-miss incidents intercepted by the faculty, may interfere with a student's progression in the course and in the program. The standards of performance are described in course syllabi and clinical evaluation tools for clinical practicum courses.
A student must earn a grade of at least C in each nursing course for the course to be counted toward degree requirements. Concurrent or sequential enrollment is required as stated in each course description.

If the student is not on scholastic probation at the University, permission may be granted to repeat a required nursing course in which he or she failed to earn a grade of C or better. To receive credit, the student must repeat the course at The University of Texas at Austin School of Nursing. The semester in which a course is repeated is at the discretion of the dean and is dependent on the space available.

A student may repeat a nursing course only once. If the student does not earn a grade of at least C upon repeating the course, he or she cannot continue in the School of Nursing. If, while repeating the course, the student drops the course or withdraws from the University at a time when the student’s performance in the course is considered to be inferior to that required for a grade of C, he or she may not re-enroll in the course or continue in the School of Nursing.

No more than two nursing courses may be repeated.

A student may not repeat for credit a course in which a grade of C or better was awarded.

As a prerequisite to medication administration in clinical nursing courses, students are required to pass a medications and calculations test with a grade of at least 90.

**Compliance Requirements for Clinical Courses**

Students must provide documentation confirming completion of compliance requirements prior to participating in clinical nursing courses. Log in to the School of Nursing website (http://www.nursing.utexas.edu/current) for more information.

**Medical Clearance Requirements**

Clinical experiences for nursing students are provided in hospitals and other health care agencies with which the School of Nursing is affiliated. A number of these facilities require that nursing students assigned to them have evidence of good health and immunity to certain diseases. Students must provide evidence of compliance with immunization requirements before they begin clinical nursing courses. Students must also submit a health certificate completed by a qualified health care provider prior to starting their first clinical rotation.

**Criminal Background Checks**

Students are required to submit to the Texas Board of Nursing criminal background checks before beginning the program. Information about the process is available on the School of Nursing Web site. Students with concerns about eligibility are urged to seek official determination from the Texas Board of Nursing (http://www.bon.state.tx.us). Further, we urge students with concerns to seek the background check six months in advance of enrollment to allow sufficient time for investigation and Texas Board of Nursing approval.

**Employment Background Check**

Agencies in which nursing students are placed for clinical work require an employment background check. Directions to complete this requirement are on the School of Nursing Web site listed with other compliance requirements.

**Drug Screen**

Clinical agencies require that a drug screen be completed prior to participating in patient care. Students are to follow directions for the drug screen shown with the compliance requirements on the School of Nursing website.

**CPR and First Aid Requirements**

Current certification in cardiopulmonary resuscitation and first aid are required for participation in clinical nursing courses. The CPR course must be the Basic Life Support for Healthcare Providers and include Automatic External Defibrillator from the American Heart Association. Online courses for CPR are not acceptable. The basic first aid certification must be acquired from the American Heart Association (Heartsaver First Aid) or from a local emergency medical services agency (National Safety Council First Aid). Students must provide evidence of current certification before they begin clinical courses. Students who are registered nurses, licensed vocational nurses, or emergency medical technicians are not required to provide evidence of first aid certification.

**Professional Liability Insurance**

Professional liability insurance is required of all students enrolled in the professional sequence in the School of Nursing. Students will be billed through the “What I Owe” system for liability insurance each semester they are participating in clinical courses. All student policies expire on the date of graduation.

**Training Modules**

All students must complete the following modules on the School of Nursing Intranet Site (http://www.nursing.utexas.edu/current) before participating in clinical nursing coursework: online orientation, facilities training, and training on the Health Insurance Portability and Accountability Act (HIPAA).

**Health and Hospitalization Insurance**

Students are required to purchase health insurance. The cost of personal health care, including care required as the result of clinical practicum experiences, is not covered by either the University, the School of Nursing, or clinical agencies. Information about low-cost group health insurance is available through University Health Services (http://healthyhorns.utexas.edu). The professional liability insurance students buy as a part of compliance for participating in clinical courses does not cover health care expenses.

**Uniforms and Other Expenses**

Students must purchase uniforms, shoes, name badges, and other supplies before taking the first clinical nursing course. Specific requirements and information about suggested equipment are distributed as a part of orientation and will be available in course syllabi.

**Transportation**

Upper-division clinical courses require students to go to various clinical facilities and community sites at varied hours. Students must have their own transportation.

**Honors**

**University Honors**

The designation University Honors, awarded at the end of each long-session semester, gives official recognition and commendation to students whose grades for the semester indicate distinguished academic accomplishment. Both the quality and the quantity of work done are considered. Criteria for University Honors are given in General Information.
Graduation with University Honors

Students who, upon graduation, have demonstrated outstanding academic achievement are eligible to graduate with University Honors. Criteria for graduation with University Honors are given in General Information (http://catalog.utexas.edu/general-information/academic-policies-and-procedures/honors/#universityhonorstext).

Nursing Honors Program

The Nursing Honors Program is designed to enhance the educational experience of high-achieving undergraduate nursing majors by focusing on the development of scholarship. Students must apply to this competitive honors program, which begins in the sophomore year. Admission to the program requires approval of the Honors Program Committee.

Students in the program must complete Nursing 321H, 117H, 264H, and 377H. These courses provide students with enhanced mentorship experiences. Students must complete an honors project with a focus on research, ethics, or leadership. Students are also required to take Nursing 337, Independent Study with their mentor with the focus on their honors project. The statement “Special Honors in Nursing” appears on the transcript of each student who completes the honors program.

Sigma Theta Tau International

Epsilon Theta Chapter of Sigma Theta Tau International Honor Society of Nursing, was chartered at the University on May 16, 1980. Membership in Sigma Theta Tau is an honor conferred by active chapters on students who demonstrate academic excellence and on nursing leaders who advance the scientific base of the profession. The society recognizes superior achievement in many areas, facilitates the development of leadership qualities, fosters high professional standards, encourages creative work, and strengthens commitment to the ideals of nursing.

Each year qualified students in the undergraduate and graduate programs may apply for consideration for membership. Invitations to membership are extended to students who are in the top 35 percent of their graduating class. Undergraduates must have a grade point average of at least 3.00; graduate students must have a grade point average of at least 3.50. Qualified community nursing leaders may also be invited to membership. Applications for membership in Epsilon Theta Chapter are available from the Office of Student Services in the School of Nursing (https://nursing.utexas.edu/academics/services_sa.html).

At the induction ceremony each spring, Epsilon Theta Chapter announces its awards, grants, and scholarship recipients. A scholarship is awarded to an upper-division nursing student who has demonstrated leadership potential and outstanding scholastic achievement. The chapter also awards start-up grants annually to Epsilon Theta Chapter members and/or students to fund research projects.

Sigma Theta Tau International, with active chapters on more than four hundred campuses in the United States and in several other countries, offers opportunities for involvement at the chapter, regional, national, and international levels.

Credit by Examination

The faculty believes that each educational experience should build on previous achievements to encourage fulfillment of each student’s potential. Therefore, all students and registered nurses are urged to seek advice on arranging a logical sequence of work. The faculty subscribes to the principle that a candidate’s competence should be validated and that credit should be awarded on the basis of satisfactory achievement on examinations as well as in the classroom. Twenty-four of the last 30 semester hours of credit presented for the degree must be earned in residence, rather than by examination, correspondence, or transfer.

An examination for credit may not be taken in a course in which the student is enrolled, which the student has completed, or which the student has dropped with either a passing or a failing grade.

University policies regarding credit by examination are given in General Information (http://catalog.utexas.edu/general-information/academic-policies-and-procedures/testing-and-evaluation-services/#courseplacementandcreditbyexaminationtext).

Graduation

Special Requirements of the School

All students must fulfill the General Requirements (p. 20) for graduation. Students in the School of Nursing must also fulfill the following requirements:

1. All University students must have a grade point average of at least 2.00 to graduate. In the School of Nursing, students must also have a grade point average of at least 2.00 in the coursework used to fulfill the upper-division requirement.
2. A candidate must complete the prescribed curriculum and must meet all other requirements of the School of Nursing.
3. A student must supply the School of Nursing with transcripts of courses taken outside the school as the courses are completed.

Degree Audit

A degree audit is prepared when the student begins the junior year of nursing courses. The student is then notified of the courses he or she must take and the requirements he or she must fulfill to receive the degree. The degree audit is normally done according to the catalog in effect when the student was admitted to the School of Nursing, but the student may choose to have it done according to any catalog under which he or she is eligible to graduate. Rules on graduation under a particular catalog are given in Graduation Under a Particular Catalog (p. 21).

In advising and in registering students, the dean and advisers try to prevent errors. Avoidance of errors is the main purpose of the degree audit, but it remains the responsibility of the student to fulfill all catalog requirements.

Graduation Application Form

In the long-session semester or summer session in which the degree is to be awarded, the candidate must be registered at the University and must file a Graduation Application Form in the School of Nursing Office of Student Services. The form must be filed by the deadline to apply for an undergraduate degree, which is given in the official academic calendar (http://registrar.utexas.edu/calendars).

Licensure as a Professional Nurse

Upon graduation from the BSN program, students seeking licensure as a registered nurse must register to take the National Council Licensure Examination (NCLEX). To ensure eligibility, the Texas Board of Nursing will rerun the criminal background check that was conducted prior to beginning the nursing program. In addition, students must meet all of the eligibility requirements for licensure as indicated by the Texas Board of Nursing. To determine eligibility, students should consult the Texas Board of Nursing website (http://www.bon.state.tx.us). Students with questions or concerns are encouraged to contact the Board of Nursing.
directly prior to enrollment in the nursing program and consult with the Assistant Dean for Student Services at the School of Nursing.

Degrees and Programs

Programs in the School of Nursing

The School of Nursing offers an undergraduate program leading to the degree of Bachelor of Science in Nursing and graduate programs leading to the Master of Science in Nursing degree and the Doctor of Philosophy degree with a major in nursing. The undergraduate program is designed for students who wish to enter the profession of nursing. Students who have earned an associate's degree in nursing and wish to obtain the baccalaureate degree may apply as transfer students. The master's and doctoral degree programs are designed to prepare professionals for advanced nursing practice and research in nursing.

The baccalaureate program is accredited by the Commission on Collegiate Nursing Education (CCNE) and the Texas Board of Nursing.

Objectives of the Bachelor’s Degree Program

The graduate of the baccalaureate program in nursing is expected to

1. Demonstrate critical thinking to integrate knowledge from nursing, biological and behavioral sciences, and the humanities in planning, implementing, and evaluating nursing care.
2. Apply critical thinking and clinical judgment within a problem-solving process to meet the health care needs of individuals, families, aggregates, and communities in a variety of settings.
3. Exhibit responsibility and accountability for one’s own actions as a health care professional.
4. Participate in the delivery of health care through case management, interprofessional collaboration, delegation, supervision, coordination, and consultation.
5. Participate in nursing and interprofessional efforts to improve the delivery of high-quality, safe and culturally competent health care to diverse individuals, families, aggregates, and communities.
6. Demonstrate core professional values to complement continued personal and professional growth.
7. Practice nursing according to professional and ethical standards.
8. Critically appraise and apply research findings to demonstrate evidence-based nursing practice.
9. Analyze health policy and its effects on diverse individuals, families, aggregates, communities, and health agencies.
10. Integrate information and health care technology in nursing practice, administration, education, and research.
11. Utilize leadership skills to advance the profession of nursing and promote continuous improvement of the health care delivery system.

Applicability of Certain Courses

ROTC Courses

The dean has the authority to substitute an equivalent air force science, military science, or naval science course or courses for a course or courses prescribed by the School of Nursing; core curriculum courses cannot be substituted. The dean can also make adjustments to compensate for any differences in semester hour value. The total number of semester hours required for the degree remains unchanged.

Correspondence and Extension Courses

Credit earned by correspondence or extension from the University or elsewhere will be counted toward a Bachelor of Science in Nursing degree if approved by either the assistant dean for student services or the assistant dean for undergraduate programs. A student planning to meet pre-professional course requirements with correspondence or extension courses should consult the Office of Student Services to ensure enrollment in appropriate courses. Credit for professional sequence courses may not be earned by correspondence or extension.

Bachelor of Science in Nursing

This program consists of 125 to 126 semester hours of coursework. All students must complete the University's Core Curriculum (p. 23). In some cases, a course that is required for the Bachelor of Science in Nursing may also be used to fulfill a requirement of the core curriculum. In order to meet prerequisites, students must take most of the nursing courses in a specific sequence. Upon completion of the program, students are awarded the Bachelor of Science in Nursing degree and have fulfilled the prescribed course of study and clinical practice required to take the National Council Licensure Examination (NCLEX) for licensure as a registered nurse.

Foreign Language Requirement

Students may fulfill the foreign language component of the University's basic education requirements by completing two years of a single foreign language in high school, by earning an appropriate score on one of the placement examinations administered by the University, or by completing two semesters of college coursework in a single foreign language in addition to the degree requirements given below. If the foreign language requirement will be fulfilled by transfer credit, credit by examination, or extension or correspondence courses, it must be fulfilled before the first semester of the student's senior year. Nursing 354 may not be counted toward the foreign language requirement. For students who take college coursework to complete the foreign language requirement, Spanish is recommended.

Flag Requirements

In the process of fulfilling the requirements for the Bachelor of Science in Nursing degree, students must fulfill flag requirements. Students must earn credit for one flag in ethics, one flag in global cultures, one flag in cultural diversity, one flag in independent inquiry, one flag in quantitative reasoning, and three flags in writing.

Courses with flags are identified in the Course Schedule. For additional information about flag requirements, see Additional Basic Education Requirements (p. 23).

Courses

The faculty has approval to offer the following courses in the academic years 2018–2019 and 2019–2020; however, not all courses are taught each semester or summer session. Students should consult the Course Schedule to determine which courses and topics will be offered during a particular semester or summer session. The Course Schedule may also reflect changes made to the course inventory after the publication of this catalog.

A full explanation of course numbers is given in General Information (http://catalog.utexas.edu/general-information/academic-policies-and-procedures/credit-value-and-course-numbers). In brief, the first digit of a course number indicates the semester hour value of the course. The second and third digits indicate the rank of the course: if they are 01 through 19, the course is of lower-division rank; if 20 through 79, of upper-division rank; if 80 through 99, of graduate rank.

Nursing: N

Lower-Division Courses

One, two, or three lecture hours a week for one semester, with one discussion hour a week if required by the topic. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

Topic 1: Women’s Reproductive Health for Nonscience Majors. Same as Sociology 310S and Women’s and Gender Studies 301 (Topic 7). Overview of contemporary women’s reproductive health issues, with emphasis on historical, physiological, psychosocial, and cultural influences that affect the reproductive health of women during adolescence, the childbearing years, and midlife. Three lecture hours a week for one semester. Only one of the following may be counted: Nursing 307 (Topic 1), Sociology 308 (Topic 2), 310S, Women’s and Gender Studies 301 (Topic 7). Prerequisite: One year of high school biology, or Biology 301L or 309D.

Overview of global health, with emphasis on the determinants of health, health indicators, human rights, globalization, current socioeconomic factors, health care systems, and public health systems. Three lecture hours a week for one semester.

N 310. Communication in Health Care Settings.
Introduction to theories and models of communication in relation to health care; basic factors affecting interpersonal communication in health care settings. Three lecture hours a week for one semester. Required for nursing majors.

N 117H. Introduction to Nursing Scholarship: Honors Seminar.
Introduction to the nature of nursing scholarship, along with related research and clinical and educational career opportunities. Topics include leadership, research, and ethics as they relate to nursing. One lecture hour a week for one semester. Prerequisite: Admission to the School of Nursing Honors Program.

Discussion of various issues related to the academic, cultural, and personal aspects of completing academic work in international locations. For each semester hour of credit earned, one lecture hour a week for one semester. Nursing 119, 219, 319, 419, 519, 619 and Undergraduate Studies 119 may not both be counted unless the topics vary. May be repeated for credit when the topics vary.

Upper-Division Courses

N 320. Introduction into Patient-Centered Nursing Care.
Examines the profession of nursing and introduces the concept of nursing process as a framework for patient-centered care of younger and older adults. Special emphasis will be placed on topics that apply to the bio-psycho-social-spiritual needs of the aging adult. Three lecture hours a week for one semester. Nursing 227 and 320 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Biology 326M, 446L, Nutrition 306, Psychology 301; credit or registration for Biology 365S and 165U.

Examination of ethical issues of health care and related legal concerns; contradictions, inconsistencies, and competing views that lead to dilemmas in health care. Three lecture hours a week for one semester. Nursing 321 and 321H may not both be counted. Prerequisite: Rhetoric and Writing 306.

N 321H. Ethics of Health Care: Honors.
Ethical issues in health care and related legal concerns; contradictions, inconsistencies, and competing views that lead to dilemmas in health care. Emphasis on resolving ethical dilemmas through ethical reasoning and ethical obligations in health professional-patient relationships; and just allocation of scarce health care resources. Three lecture hours a week for one semester. Nursing 321 and 321H may not both be counted. Prerequisite: Admission to the School of Nursing Honors Program, or consent of instructor.

N 322. Transition to Professional Nursing.
Restricted to students in the RN-BSN accelerated track. Designed to provide the RN student with a transition into the baccalaureate and professional nursing roles. Explores professional socialization in the work and education settings; develops professional career goals and career plans; and includes discussion of role transition in nursing practice, with attention to expanded and advanced nursing practice
roles. Three lecture hours a week for one semester. Prerequisite: Upper-
division standing.

The integration of genetic information into nursing practice, including
ethical, legal, psychological, and social issues. For each semester hour
of credit earned, one lecture hour a week for one semester. Nursing 223
and 323 may not both be counted. Offered on the letter-grade basis only.
Prerequisite: Nursing 325 or consent of instructor.

N 224. Health Assessment Skills.
Discussion, application, and documentation of health assessment skills
needed to provide data for health promotion and nursing interventions.
One and one-half lecture hours and one laboratory hour a week for one
semester. Offered on the letter-grade basis only. Prerequisite: Biology
326M, 446L and Nursing 310; credit or registration for Nursing 320.

N 325. Adult Health Nursing I.
Discussion of the concepts necessary to promote and restore the
health of adults with biological problems; related physiological and
psychological responses. Three lecture hours a week for one semester.
Offered on the letter-grade basis only. Prerequisite: Biology 365S and
165U, Nursing 320, 224, and 127P.

N 325P. Adult Health Nursing I (Practicum).
For nursing majors admitted to the professional sequence. Application
of the concepts and theories necessary to promote and restore health of
adults with biological problems; related physiological and psychological
responses. Nine laboratory hours a week for one semester. Offered on
the letter-grade basis only. Prerequisite: Consent of instructor.

An examination of the theories of aging, the developmental tasks of
families, and the physical, psychological, social, economic, ethical, legal,
and spiritual needs of aging persons. Responsibilities and needs of
caregivers. Two lecture hours a week for one semester. Nursing 320 and
227 may not both be counted. Offered on the letter-grade basis only.
Prerequisite: Consent of instructor.

N 127P. Clinical Nursing Skills I (Practicum).
Laboratory instruction and practice in clinical nursing skills. Two
laboratory hours a week for one semester. Offered on the pass/fail basis
only. Prerequisite: Biology 326M and 446L; concurrent enrollment in
Nursing 320.

N 129M, 229M, 329M, 429M, 529M, 629M. International
Learning Seminars.
Restricted to students participating in a Maymester Abroad course.
Discussion of various issues related to the academic, cultural, and
personal aspects of completing academic work in international
locations. For each semester hour of credit earned, one lecture hour a
week for one semester. Nursing 129M, 229M, 329M, 429M, 529M, 629M
and Undergraduate Studies 119 may not both be counted unless the
topics vary. May be repeated for credit when the topics vary. Offered on
the letter-grade basis only. Prerequisite: Upper-division standing.

N 137, 237, 337. Independent Study.
Study in a specific area; topic and mode of study are agreed upon by
student(s) and instructor. The equivalent of one, two, or three lecture
hours a week for one semester. May be repeated for credit when the
topics vary. Prerequisite: A University grade point average of at least 2.80
and consent of instructor.

N 338. Complementary and Alternative Medicine in Health
Care.
Overview of representative Complementary and Alternative Medicine
(CAM) modalities and their role in shaping an emerging wellness-
oriented, patient-centered model of care. Evaluation of current research
evidence of CAM therapies in four domains: mind-body medicine,
biologically based practices, manipulative and body-centered therapies,
and energy medicine. Includes a hands-on experiential component for
familiarization of some fundamental CAM concepts. Three lecture hours
a week for one semester. Nursing 347 (Topic: COMPL/ALTERN MED IN
HLTH CARE) and Nursing 338 may not both be counted. Offered on the
letter-grade basis only. Prerequisite: Upper-division standing.

N 147, 247, 347. Specialized Topics in Nursing.
The equivalent of one, two, or three lecture hours a week for one
semester; some topics require up to thirty-nine hours of fieldwork a
week for one semester. May be repeated for credit when the topics vary.
Prerequisite: Enrollment in the upper-division sequence; some topics
also require consent of instructor.

Topic 1: Informatics in Health Care and Nursing.
Topic 2: Acute Care Pediatrics.
Topic 3: Cardiovascular Nursing.
Topic 4: Childbearing Pediatrics.
Topic 5: Critical Care Nursing.
Topic 6: High-Risk Maternity.
Topic 7: Pediatrics.
Topic 8: Perioperative Nursing.
Topic 9: Special Topics in Pediatrics.
Topic 10: Child Wellness Center (Practicum).
Topic 11: Children with Chronic Illness in the Community.
Topic 12: Clinical Nursing Preceptorship.
Topic 13: Community-Oriented Ambulatory Nursing.
Topic 14: Genetics in Clinical Nursing (Practicum).
Topic 15: Home Health Nursing.
Topic 16: Pediatrics in the Community.
Topic 17: Well Children in the Community.

N 250. Interprofessional Collaborative Practice.
Focuses on developing the competencies needed for interprofessional
collaborative practice among health care professionals. Core
interprofessional competencies addressed include: values and ethics
for interprofessional practice; knowledge of roles and responsibilities
of different health professions; interprofessional communication; and
teamwork. Two lecture hours a week for one semester.
Offered on the letter-grade basis only. Prerequisite: Nursing 310; credit or
registration for Nursing 320, and 321 or 321H, or consent of instructor.

N 354. Spanish for Health Care Professionals.
Basic medical Spanish language skills and phrases related to
assessment and nursing activities. Focus on the cultural values of Latino
patients who seek health care in the United States. Three lecture hours a
week for one semester. Offered on the letter-grade basis only.

N 455. Adult Health Nursing II.
Advanced concepts and theories to promote and restore health of adults
with biological problems and related physiological and psychological
responses. Four lecture hours a week for one semester. Offered on the
letter-grade basis only. Prerequisite: Nursing 325 and 325P.

N 255C. Adult Health Nursing II.
First of a two-part sequence in adult health nursing. Advanced concepts
and theories to promote and restore health of adults with biological
problems and related physiological and psychological responses. Two
lecture hours a week for one semester. Nursing 455 and 255C may not
both be counted. Offered on the letter-grade basis only. Prerequisite: Nursing 325 and 325P.

N 255D. Adult Health Nursing IIB.
Second part of a two-part sequence in adult health nursing. Advanced concepts and theories to promote and restore health of adults with biological problems and their related physiological and psychological responses. Two lecture hours a week for one semester. Nursing 455 and 255D may not both be counted. Offered on the letter-grade basis only. Prerequisite: Nursing 255C.

N 355P. Adult Health Nursing II (Practicum).
Application of advanced concepts and theories to promote and restore health of adults with biological problems and their related physiological and psychological responses. Nine laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Nursing 325P and Psychology 338; credit or registration for Nursing 157P and 455 or 255D.

N 356. Mental Health Nursing across the Life Span.
Biological, environmental, cultural, and interpersonal factors predisposing individuals across the life span to mental health problems. The course is organized around the nursing process, as well as multidisciplined therapeutic modalities, that assist the individual and family to adapt, recover, and grow through these problems. Current relevant research, and the sociocultural, legal, and ethical implications of providing nursing care to the mentally ill. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Nursing 224; credit or registration for Human Development and Family Sciences 313 and 113L or Psychology 304 and Nursing 325.

N 265P, 356P. Problems in Mental Health Nursing (Practicum).
Application of strategies for the care of individuals, groups, and families experiencing mental health problems. For 265P, six laboratory hours a week for one semester; for 356P, nine laboratory hours a week for one semester. Nursing 265P and 356P may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Nursing 255.

N 157P. Clinical Nursing Skills II Practicum.
Laboratory instruction and practice in clinical nursing skills. Two laboratory hours a week for one semester. Offered on the pass/fail basis only. Prerequisite: Nursing 325P.

N 264. Nursing Research.
Basic components of the research process; interpreting descriptive and inferential statistics in research. Critical examination of research studies in nursing. Two lecture hours a week for one semester. Nursing 264 and 264H may not both be counted. Prerequisite: Introductory statistics course (such as Statistics and Data Sciences 302) and Nursing 320, or consent of instructor.

N 264H. Nursing Research: Honors.
Examination of the research process and methods, along with interpretation of descriptive and inferential statistics in research. Critical examination of research studies in nursing and research skills through participation in a research project. One and one-half lecture hours and one laboratory hour a week for one semester. Nursing 264 and 264H may not both be counted. Prerequisite: Admission to the School of Nursing Honors Program and an introductory statistics course, or consent of instructor.

N 265. Nursing Care of Childbearing Families.
Concepts, theories, and processes essential to understanding the health concerns and problems of women and their families during the childbearing years. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Nursing 325, 325P, 356, and 256P or 356P; credit or registration in Nursing 157P and 455 or 255C.

N 365P. Nursing Care of Childbearing Families Practicum.
The application of concepts, theories, and processes pertinent to care of women and their families during the childbearing years. Nine laboratory hours a week for one semester. Prerequisite: Credit or registration for Nursing 265.

N 266. Nursing Care of Children and Their Families.
Concepts, theories, and developmental processes essential to the health concerns and problems of children, adolescents, and their families. Two lecture hours a week for one semester. Prerequisite: Human Development and Family Sciences 313 and 113L or Psychology 304, Nursing 325, 356P or 256P, Psychology 338; and credit or registration in Nursing 355P and 255D.

N 366P. Nursing Care of Children and Their Families Practicum.
Application of concepts, theories, and developmental processes essential to the health concerns and problems of children, adolescents, and their families. Nine laboratory hours a week for one semester. Prerequisite: Nursing 157P; credit or registration for Nursing 266.

N 371. Disability over the Life Course.
An interdisciplinary introduction to the study of disability as a distinct social and clinical concept with practical and theoretical implications for health care. Focus on the changing needs of persons with disabilities over the life course. Explores how to understand the health needs of persons with disabilities and how to work with them and their families so they may negotiate environments with appropriate accommodations that meet their health care needs. Three lecture hours a week for one semester. Nursing 324 (Topic: DISABILITY OVER THE LIFE COURSE) and Nursing 371 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

N 273. Quality and Safety for Nursing Practice.
Designed to prepare students for professional nursing practice. Provides opportunities for synthesis of theoretical, evidence-based, and clinical knowledge with emphasis on quality care and patient safety. Two lecture hours a week for one semester. Nursing 273 and 278 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Nursing 321 or 321H and credit or registration in Nursing 264, or consent of instructor.

N 274. Complex Nursing Care.
Addresses the management of complex and critical needs of patients and their families across the continua of care. The focus will be on people with multiple chronic conditions experienced by various populations such as age groups, disease/health conditions, and settings. In addition, transitional care, critical care concepts, palliative, and end-of-life care will be explored. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Nursing 255D, 455, 355P, 266, 366P; credit or registration in Nursing 277P.

Prepares public health nursing concepts, theories, and processes used in health promotion, disease or injury prevention, health protection, and risk reduction with individuals, families, groups, communities, and populations. Two lecture hours a week for one semester. Offered on the
N 375P. Public Health Nursing Practicum.
Application of public health nursing concepts, theories, and processes used in health promotion, disease or injury prevention, health protection, and risk reduction with individuals, families, groups, communities, and populations. Nine laboratory hours a week for one semester. Prerequisite: Credit or registration for Nursing 275.

N 377. Leadership and Management of Nursing Care.
Selected concepts and theories of management in the context of the delivery of dynamic nursing care. Use of management concepts in working with a health care team to provide high-quality patient care. Historical development of the health care system, current issues, contemporary trends, standards of professional practice, management and leadership roles, political and cultural influences on health care, and professional career development. Three lecture hours a week for one semester. Nursing 377 and 377H may not both be counted. Prerequisite: Nursing 325 or consent of instructor.

N 377H. Leadership and Management of Nursing Care: Honors.
Examination of selected concepts and theories of management and leadership in the context of the delivery of dynamic nursing care. The use of management concepts in working with a health care team to provide high-quality patient care. Current economic, social, and political factors that influence health care. Three lecture hours a week for one semester. Nursing 377 and 377H may not both be counted. Prerequisite: Admission to the School of Nursing Honors Program or consent of instructor.

N 277P, 377P. Clinical Care Management Practicum.
Application of selected concepts and theories of management in the planning and delivery of health care. For 277P, six laboratory hours a week for one semester; for 377P, nine laboratory hours a week for one semester. Nursing 277P and 377P may not both be counted. Offered on the letter-grade basis only. Prerequisite: Nursing 265, 365P, 266, and 366P; and credit or registration in Nursing 377 or 377H.

N 279P. Capstone Preceptorship.
Designed to provide students with clinical experiences similar to those that confront newly employed registered nurses. Focuses on the role transformation of students and on clinical competence in communication, collaboration, negotiation, delegation, coordination, and evaluation of interdisciplinary work. Thirty to forty hours a week for three to four weeks for a total of 120 clinical hours. Additional preparation time to assure clinical competence may be required. Offered on the pass/fail basis only. Prerequisite: Nursing 377 or 377H, and 277P or 377P.

General Information

Accreditation

The College of Pharmacy has been a member of the American Association of Colleges of Pharmacy since 1927. The Doctor of Pharmacy degree program is accredited by the Accreditation Council for Pharmacy Education (ACPE); ACPE does not accredit master's and Ph.D. degrees in pharmacy.

Mission

The University offers a four year Doctor of Pharmacy (Pharm.D.) as the sole entry-level, professional degree for the practice of pharmacy. Competitive admission to the program occurs after the completion of a series of required prepharmacy courses. This program offers a course of study in the biomedical, pharmaceutical, clinical, and social and behavioral sciences designed to provide the state and nation with pharmacists who are scientifically educated and clinically competent to deliver a full spectrum of pharmaceutical services in all areas of practice. In meeting its teaching obligation, the college provides a curriculum and faculty that offer students an educational experience beyond training solely for the practice of pharmacy.

The profession of pharmacy has evolved from a role primarily in distribution of medication toward a patient-centered care model. The patient-centered care model is a process through which a pharmacist interacts with the patient and other health care professionals collaboratively in the collection, assessment, planning, implementation, and follow-up of a patient-specific therapeutic plan that will produce the desired therapeutic outcomes. To ensure that graduates have the necessary tools to practice in this complex, patient-centered environment, the pharmacy curriculum has evolved from traditional discipline-specific coursework to a discipline-integrated approach of disease state management and a case-based, team approach to the design of the patient-specific therapeutic plan that includes interprofessional collaborative practice.

The professional curriculum is designed to prepare pharmacy graduates to provide patient-centered pharmaceutical care in a contemporary interprofessional collaborative practice setting, whether a community pharmacy, an ambulatory clinic, a hospital, managed care, or a long-term care facility, as well as to work in the pharmaceutical industry. In addition, the curriculum aims to inculcate an understanding of the basic sciences sufficient to prepare the student for graduate study in the pharmaceutical sciences or post Pharm.D. residency training. These objectives are pursued through a balanced program of study in pharmaceutics, medicinal chemistry, pharmacology, therapeutics, pharmacy administration, social and behavioral sciences, and the humanities, as well as a structured clinical and professional practice experiential program. The holder of a professional degree from The University of Texas at Austin has received an education and training as sophisticated as any available in the health professions.

The College of Pharmacy has conducted a joint Pharm.D. degree program with the University of Texas Health Science Center at San Antonio since 1974. Students who complete their P3 and P4 experiential courses at the Health Science Center are considered part of this program and receive a degree awarded jointly by the two institutions.

The college has educational affiliations with several other academic health institutions, health-systems, and pharmacy organizations through its five Texas regional internship areas - Austin/Temple/Waco, Dallas/Ft. Worth, Houston/Galveston, the Rio Grande Valley, and San Antonio.

The college seeks to encourage the belief that education is ongoing and lifelong and that all levels of professional education must form a continuum with professional practice and patient care. To meet this objective, the college provides postgraduate educational programs and develops innovative programs of training through continuing education for the roles pharmacists may be called on to fill as a result of changes in the patterns of delivery of pharmaceutical services.

In addition to the Pharm.D. degree, the University offers the Master of Science in Pharmacy and the Doctor of Philosophy (Ph.D.) with a major in the Pharmaceutical Sciences. The College of Pharmacy also participates in interdisciplinary Ph.D. programs in Cellular and Molecular Biology and in Neuroscience. In collaboration with The University of Texas Health Science Center at San Antonio and The University of Texas at San Antonio, the College offers an interinstitutional Ph.D. program with a major in Translational Science. These programs are described in the Graduate Catalog (http://catalog.utexas.edu/graduate/fields-of-study/pharmacy/pharmacy).

History

For more than a century, the University's College of Pharmacy has provided education and training for men and women as pharmacy practitioners, scientists, professional leaders, and responsible citizens. Eleven students constituted the first class when a school of pharmacy was created in the fall of 1893 at the University of Texas Medical Branch at Galveston. In 1927, the program was reorganized as the College of Pharmacy and moved to the Austin campus. The college shared quarters with other University programs until 1952, when the first pharmacy building was opened. Instruction now takes place in facilities designed for the pharmacy program and located near the center of the Austin campus, and on the campus of the University of Texas Health Science Center at San Antonio.

The first undergraduate program consisted of two sessions, each seven months in length. The current Pharm.D. degree program requires six years in pre-professional subjects, biomedical and pharmaceutical sciences, and professional experience courses. Graduate study became available in 1948 with the institution of a Master of Science in Pharmacy degree program. Today programs are also available that lead to the Doctor of Philosophy in the pharmaceutical, administrative, and clinical sciences. More than 8,000 students have graduated from the programs offered by the college; many have achieved state, national, and international prominence in pharmacy or in related health fields.

Academic leadership for pharmaceutical education at the University has been provided by eleven prominent educators, beginning with James Kennedy of San Antonio, who was appointed as a pharmacy professor and director of the Galveston program in 1893. He was succeeded by R. R. D. Cline, who for almost thirty years guided pharmaceutical education in Texas. When the school was moved to Austin in 1927, W. F. Gidley was named the first dean of the college. In 1947, Henry M. Burlage succeeded Professor Gidley as dean. He was succeeded in 1962 by Lee F. Worrell, who served until 1966. Carl C. Albers was acting dean until Joseph B. Sprosw was appointed dean in 1967. William J. Sheffield became acting dean upon the death of Professor Sprowls in 1971. He was succeeded in
1973 by James T. Doluisio, who served the college for 25 years. Steven Leslie served as dean from 1998 until 2007, when M. Lynn Crismon assumed the leadership of the college.

University pharmacy students receive instruction in the basic biomedical sciences, the pharmaceutical sciences, pharmacy administration, and pharmacy practice in state-of-the-art academic and health care facilities. Pharmacy interns expand their professional practice knowledge and skills at clinical education sites in the Austin/Temple/Waco area, University of Texas Health Science Center at San Antonio, the University of Texas Southwestern Medical Center at Dallas, the Texas Medical Center in Houston, and The University of Texas Medical Branch at Galveston.

Facilities

The Pharmacy Building

In addition to well-equipped classrooms, laboratories, and offices, the pharmacy building provides a learning resource center, a television production laboratory and classrooms, and pharmaceutical technology laboratories with facilities for product development, pilot manufacturing, sterile production and quality control, and stability testing. The University Health Services Pharmacy also serves as a teaching laboratory for second-year pharmacy students while providing comprehensive pharmaceutical services to the student community. Space assigned to the college in the Biomedical Engineering Building and the Dell Pediatric Research Institute expands pharmacology, medicinal chemistry, and pharmaceutics research space.

Pharmacy Facilities in San Antonio

The University of Texas Health Science Center at San Antonio has provided facilities for the education and training of pharmacy students, residents, and fellows since 1972. The McDermott Clinical Sciences Building on the Health Science Center campus, which houses the pharmacotherapy division of the college and the Pharmacotherapy Education and Research Center, provides a state-of-the-art distance education classroom, a student computer laboratory, research laboratories, and offices for faculty and staff members. The Division of Pharmacotherapy maintains a broad range of affiliation agreements with institutions in San Antonio that provide extensive training opportunities in a variety of practice settings. Research opportunities exist in the areas of infectious disease, oncology, anticoagulation, stroke prevention, and psychiatry.

Office of Pharmacy Continuing Education

As part of a state university, the College of Pharmacy recognizes obligations to the profession of pharmacy on a state, national, and international level. The college began providing continuing education to pharmacists in 1953 in cooperation with the University’s Division of Extension (http://www.utexas.edu/ce/uex). Today, the college is an ACPE-approved provider of continuing pharmaceutical education. A primary goal of the Office of Pharmacy Continuing Education is to advance the pharmacist’s knowledge and provide the skills necessary to adapt to a changing practice. Toward this end, the office offers a variety of programs, including home-study courses, seminars, multiday conferences, and certificate programs addressing the most current practice issues. Programs are conducted both on and off campus and by correspondence and distance learning. Annually, the office provides about 350 contact hours of continuing education programming to more than 6,500 pharmacists across the United States.

Learning Resource Center

The college’s Learning Resource Center (http://sites.utexas.edu/phr-lrc) (LRC) offers a variety of instructional resources to students and faculty members. The LRC provides state-of-the-art digital video teleconferencing transmission of courses among the Austin campus, the Health Science Center at San Antonio, and other sites in the University of Texas System, so that faculty members can teach students at two or more locations simultaneously. Most courses are recorded and made available by video streaming. The LRC also operates the Delgado Library, a multipurpose, nontraditional facility with individual and small-group study spaces, and seminar rooms.

The staff of the LRC provides faculty members and students with computer hardware and software consulting as well as advice on the use of media in the classroom. Facilities and equipment are available for video and data projection. The College of Pharmacy’s website (http://www.utexas.edu/pharmacy) provides additional information and curriculum support for students and faculty members.

The electronic classrooms feature desktop computers with projection equipment and a full suite of software. The large distance-learning classroom supports notebook computer ports. Wireless high-speed Internet is available throughout the Pharmacy Building.

The goal of the Learning Resource Center is to provide the highest quality learning technology infrastructure and support services to students and faculty members.

Libraries

The Life Science Library supports the teaching and research missions of the College of Pharmacy by providing access to an extensive array of print and electronic information resources. The library maintains extensive holdings in pharmacology, pharmaceutics, pharmacy administration, and medicinal chemistry, with supporting materials in medicine and nutrition. Biochemistry and medicinal chemistry material is complemented by the collections of the Mallet Chemistry Library. Medical material is supplemented by additional material in nursing, pediatrics, and psychiatry at the Perry-Castañeda Library. Extensive collections in the social sciences and business provide additional support for the interdisciplinary interests of health outcomes and pharmacy practice. Current journal holdings are primarily online, while books are acquired in print or digitally as eBooks.

The online Clinical Information Center (ClinIC), sponsored by the Life Science Library, provides electronic access to the complete resources of a drug information center. The center gives users access to significant electronic resources such as Micromedex, Access Pharmacy, PharmacyLibrary, AHFS Drug Information, Clinical Pharmacology online, Drug Facts & Comparisons, LexiComp online, and the Cochrane Library of evidence-based reviews, in addition to databases such as Medline, International Pharmaceutical Abstracts, Web of Science, and SciFinder Scholar. These electronic resources are available for remote access through the University Libraries website (http://www.lib.utexas.edu), which offers a full range of databases, access to electronic journals, and links to other digital information sources. The libraries collaborate with the College of Pharmacy to select and integrate electronic resources into the pharmacy curriculum. Access to print information resources for students on rotation and at the College of Pharmacy Cooperative Program campus is provided through the University Libraries InterLibrary Services.

All units of the University Libraries offer reference service, circulation and reserve services, and interlibrary loan. Instruction in the use of information resources is provided in required pharmacy classes and by individual consultation.
Financial Assistance Available through the College

Students entering the first year of the professional curriculum may be eligible for certain college-based scholarships, and information is provided to students regarding these scholarships upon matriculation. Students who have completed the first year of the professional curriculum are eligible to apply for all scholarships and loans offered through the College of Pharmacy. Eligibility and application information is available at http://pharmacy.utexas.edu/students/financial-aid/ and in the Office of Student Affairs, Pharmacy Building 5.112.

Scholarship opportunities with the College of Pharmacy include Endowed Presidential Scholarships with a minimum of $2,500, and other endowed scholarships with a minimum of $1,500. Students must meet eligibility requirements, and in some cases additional criteria, to be awarded these scholarships. Additional college scholarships are funded by various pharmacy associations, individuals, employers, and organizations. These scholarships are awarded, as they become available, through The University of Texas College of Pharmacy at the direction of the college’s Financial Aid Committee.

Loan Funds

The Klinck Family Loan Funds

These loan funds were established by the Klinck family of McAllen, Texas, to assist students in need of financial assistance. Emergency loans, for a maximum of $1000 are available; they normally are repayable within 90 days. Long-term loans of up to $2,500 are available to pharmacy students who demonstrate financial need. The interest rate for these loans is six percent. Repayment begins three months after the student’s graduation from pharmacy school, or once the student is no longer enrolled in the pharmacy program. Students may apply for more than one loan, but except in unusual circumstances the loans will total no more than $5,000. Additional information is available in the Office of Student Affairs, Pharmacy Building 5.112.

Other Loan Funds

Other loan funds may be available to pharmacy students. Information about these loans is available from the Office of Student Affairs, Pharmacy Building 5.112.

Student Services

Academic Advising

Academic and career advising are ongoing activities of the Office of Student Affairs, Pharmacy Building 5.112. Because advising is not restricted to the time just before registration, all students are strongly encouraged to seek advice whenever they need it about degree requirements, the availability of course offerings each semester, and taking courses in proper sequence.

Advising for pre-pharmacy students at the University is provided by assigned academic advisers in their colleges and by the Health Professions Office in the College of Natural Sciences. University students interested in the profession of pharmacy should contact their office early in their college careers.

Pre-pharmacy students from outside the University should seek information from our College of Pharmacy website (http://www.utexas.edu/pharmacy), from their institutional academic advisers or Health Professions Office, and from an admissions representative from the College of Pharmacy.

Career Services

The college provides career counseling to students in the professional sequence of courses. Throughout the year, staff is available in the Office of Student Affairs to assist students in examining the career options available to them upon graduation.

In addition, a systematic exploration of professional career options is conducted as part of the foundations for professional development series of courses. Guest lecturers include successful pharmacists representing a variety of pharmacy practice models, other health care and regulatory settings, and careers in professional organizations, education, research, and the pharmaceutical industry.

The College of Pharmacy, under the supervision of the assistant dean for student success, conducts a P4 senior interview day for graduating seniors. This event gives seniors an opportunity to interview for professional practice positions with major employers of pharmacists in Texas and throughout the nation. A workshop including mock interviews is conducted to prepare students for interviews and is held prior to the P4 senior interview day as a part of Senior Conference. A college-wide Career Day each fall, featuring major employers, allows students in all years of the curriculum to interact with numerous pharmacist employers and explore practice opportunities.

The college also facilitates interaction between employers and professional students interested in obtaining competitive internships. More information on this process is provided to all students during the first professional year.

A limited number of competitive internships both in and outside of Texas are available by application only. Information is available in the Office of Student Affairs, Pharmacy Building 5.112; from individual faculty members; and via the student’s own internship search.

As a complement to the assistance available from the college, the University’s Vick Center for Strategic Advising and Career Counseling in the School of Undergraduate Studies provides comprehensive career services to all students. The center offers professional assistance to students in choosing or changing their majors or careers, seeking an internship, and planning for a job search or graduate study.

The University makes no promise to secure employment for each graduate.

Student Organizations

American Association of Pharmaceutical Sciences (AAPS)

The University of Texas at Austin Student Chapter of AAPS was initiated in 2003 with the primary goal of increasing awareness of educational and career opportunities in the pharmaceutical sciences among The University of Texas at Austin College of Pharmacy students. The organization fosters participation at the national AAPS Annual Meeting and Exposition.

American Pharmaceutical Association Academy of Students of Pharmacy (UT-APhA-ASP)

In December, 1951, the Longhorn Pharmaceutical Association was organized as an association jointly representing the student branches of the American Pharmaceutical Association and the Texas Pharmaceutical Association. Renamed in 1998, the association sponsors service projects and social events and serves to develop professionalism in pharmacy students.
Asian Pharmacy Students Association (APSA)
The mission of the Asian Pharmacy Students Association, established at the University in 1999, is to promote unity among pharmacy students who have common interests, values, and backgrounds, in order to help them achieve educational, professional, and personal excellence.

Christian Pharmacists Fellowship International (CPFI)
This group seeks to identify and enroll all Christian pharmacists, wherever they practice, and to assist them in creating opportunities for fellowship. CPFI is the first international organization of evangelical Christian pharmacists established with a focus on integrating the spiritual and vocational dimensions of the pharmacist's role.

Kappa Epsilon (KE)
Kappa Epsilon is a national professional fraternity established to promote careers for women in pharmacy, but membership is open to women and men. Xi chapter, established in 1943, sponsors service and professional projects, including a focus on breast cancer awareness, poison prevention working with elementary schools, as well as social events and other extracurricular activities.

Hispanic Association of Pharmacists (HAP)
The primary goals of the Hispanic Association of Pharmacists are to assist in the recruitment and retention of qualified students in the College of Pharmacy, to provide health care education to the community, and to maintain open communication channels between students and the college. Membership is open to prepharmacy and professional students.

Pharmacy Council
The Pharmacy Council is composed of officers and representatives of the sponsored student organizations in the College of Pharmacy and elected student representatives from each of the professional pharmacy classes. The president, financial director, and senate representative of the council are also members of the Senate of College Councils, and a member of the council serves as the college's representative to Student Government. Acting as liaison between the student body and the Office of the Dean, the Pharmacy Council works to ensure the equitable consideration of student concerns and problems. The council sponsors orientation programs for new pharmacy students, college and University-wide programs, events that promote student and faculty interaction, and community service activities for medically underserved citizens throughout the state.

Pharmacy Graduate Students' Association (PGSA)
This association conducts activities that promote the general welfare of pharmacy graduate students. Its chief purposes are to encourage and facilitate graduate student communication and interaction; to gather and disseminate information important to pharmacy graduate students; to represent pharmacy graduate students to the University community; and to promote pharmaceutical education at the undergraduate level.

Phi Delta Chi (PDC)
Lambda chapter of Phi Delta Chi, established at the University in 1905, was reactivated in 1956. Phi Delta Chi is a professional pharmaceutical fraternity of national standing. Membership is open to qualified professional students who are interested in promoting leadership, scholarship, and professional ethics in the field of pharmacy.

Phi Lambda Sigma (PLS)
Psi chapter of Phi Lambda Sigma, the national pharmacy leadership society, was established at the University in 1989. Students selected for membership must be of high moral and ethical character, must have demonstrated dedication, service, and leadership in the advancement of pharmacy, must have completed at least 90 semester hours of scholastic work, and must be in good academic standing as defined by the College of Pharmacy.

Rho Chi
Nu chapter of Rho Chi, the national pharmaceutical honor society, was established at the University in 1930. Charters for chapters of this organization are granted only to groups in colleges that are members in good standing of the American Association of Colleges of Pharmacy. Eligibility for membership in the society is based on scholarship, character, personality, and leadership. Students selected for membership must have a pharmacy grade point average of at least 3.20, must be in the top 20 percent of their class, and must have completed the first professional year of the pharmacy curriculum. All candidates must be approved by the Dean of the College of Pharmacy.

San Antonio Student Pharmacists Association (SASPA)
The San Antonio Student Pharmacists Association (SASPA) was formed in the spring semester of 2010. This organization serves as a venue to bring The University of Texas at Austin College of Pharmacy students located in the San Antonio region together to impact the community and to promote the profession of pharmacy.

Student Industry Pharmacists Organization (IPhO)
This group's mission is to advance the experience of student pharmacists interested in industry careers by promoting knowledge, resources, academic support, and employment opportunities.

Student Pharmacist Recovery Network (SPRN)
The Students of Pharmacy Recovery Network (SPRN) is a program for pharmacy students at the University of Texas designed by conscientious students, faculty members, and staff members of the College. The purpose of the SPRN is to act as a concerned intermediary by assisting pharmacy students having personal problems including emotional stress, alcohol or other drug abuse problems, or a combination of these. SPRN students, faculty, and staff members are able to refer others to the appropriate University and Austin resources that best address their particular needs.

Texas Coalition of Student Pharmacists (TCSP)
This group's mission is to be committed to promoting pharmacists as competent health care professionals, increasing the awareness for improved patient access to pharmacist care, and advocating on behalf of pharmacy for the betterment of our patients.

UT Chapter, International Society of Pharmacoeconomics and Outcomes Research (UT-ISPOR)
This group's mission is to provide an environment in which students can share knowledge in pharmacoeconomics and health outcomes research. It brings together students of pharmacoeconomics and outcomes research and members of the pharmaceutical industry, health-related organizations, and academia; acts as a resource for students interested in pharmacoeconomics and outcomes research; and provides an opportunity for students to become familiar with the work of ISPOR and to be represented in its affairs.
Upon matriculation to the first professional year in the College of Pharmacy, each student must apply to become an intern trainee with the Texas State Board of Pharmacy (http://www.tsbp.state.tx.us). Each student must be registered as an intern trainee, and subsequently as a student-intern, in order to acquire, through pharmacy courses, the internship hours necessary for licensure upon graduation as a pharmacist in Texas.

Students should be aware that the process of registration as an intern includes a criminal history and fingerprint check. The existence of a criminal record may preclude the student from registration as an intern, completion of experiential courses in the curriculum, and/or from subsequent licensure as a pharmacist in Texas. However, the Texas State Board of Pharmacy may grant limited internship status under certain conditions to those with prior convictions. It is possible that health care facilities in which students are placed for experiential coursework may mandate an additional background check and/or drug screen. Students assigned to these facilities must comply with all such requirements. If a student cannot be placed in practice facilities because of prior convictions that appear on any background check, or because of a positive drug screen, his or her graduation may not be possible or may be significantly delayed.

After completing the first professional year (at least 30 semester hours), students registered as student-interns may earn internship hours toward licensure not only through professional sequence pharmacy courses but also outside the academic program through employment in certain practice settings. Internship hours gained outside the College of Pharmacy curriculum may not replace any portion of the experiential program required for graduation.

Students are required to inform the Student Affairs Office of any change in status that may affect intern registration or the ability to be placed in practice (experiential) sites.

Graduates of the College of Pharmacy are eligible to apply to the Texas State Board of Pharmacy for licensure as pharmacists. Licensure exams may be taken shortly after graduation. Postgraduate internship experience is not currently required for Texas licensure but may be required for licensure in other states.

Additional information about requirements for pharmacy licensure in Texas is available from the Texas State Board of Pharmacy. (http://www.tsbp.state.tx.us)

Intern registration and pharmacist licensure requirements are subject to change by the Texas State Board of Pharmacy. Students and graduates must meet current requirements, even if they differ from those described above.

Graduate Degrees (Research)

Graduate programs leading to the Master of Science in the Pharmaceutical Sciences and the Doctor of Philosophy in the Pharmaceutical Sciences are offered through the Graduate School and described in the Graduate Catalog (http://catalog.utexas.edu/graduate/fields-of-study/pharmacy/pharmacy). The graduate student may specialize in medicinal chemistry, pharmacology and toxicology, pharmaceutics, pharmacotherapy, pharmacy administration, or translational science. Faculty members in each area work closely with students and engage in research in such fields as drug synthesis, pharmacokinetics, drug mechanisms and toxicity, and clinical research.

Admission and Registration

Admission

Admission to the University

For the College of Pharmacy’s Pharm.D. program, admission and readmission are the responsibility of the dean of the College as delegated by the University’s director of admissions. Students accepted to the Pharm.D. Program will be processed for admission to the University (if not already enrolled at The University of Texas at Austin).

Admission to the Professional Curriculum

Admission to the University in no way implies or guarantees admission to the professional curriculum. No student may begin the professional curriculum until he or she has been admitted to the professional curriculum in pharmacy by the dean, following recommendation by the Admissions Committee of the College of Pharmacy, according to the procedures outlined in this section regarding admission. All students must meet the admission requirements given in the catalog in effect at the time of application. If the number of eligible applicants to the
program, PharmCAS, as specified on the PharmCAS website. All student applications must go through PharmCAS, and those accepted for enrollment in the college will be processed for direct admission to the University.

Students who are enrolled in a pharmacy program at another institution and who wish to transfer to the University should follow the normal Pharm.D. application process. Upon admission to the University and the professional curriculum, the student may request advanced standing in the pharmacy curriculum. Placement is contingent on availability of space and on transcript evaluation to determine University equivalencies for the student’s coursework.

As a condition of admission to the college, each student must sign a statement that he or she agrees to accept assignment to any one of the college's experiential (internship) regions throughout the state. Cooperative arrangements for pharmacy education exist with academic units and health care institutions in the following internship regions: Austin/Temple/Waco, Dallas/Fort Worth, Galveston/Houston, and San Antonio. Experiential regions may be added or deleted at any time based on the availability of resources.

Students assigned to San Antonio must spend the last two years of the professional program in that regions. Students assigned to the other regions spend only the final year of the program (the fourth professional experiential year) in their assigned region.

Students are assigned to experiential regions through a computer-generated random assignment system that takes students’ ranked preferences into account. Since most students relocate to experiential regions outside the Austin area, region assignment occurs during the latter part of the first professional year to allow students adequate time to make personal and financial arrangements. There are no exceptions to the region assignment process. If a student fails to agree to accept assignment to any region, he or she will not be admitted to the college.

Admission to the First Professional Year

Admission to the professional curriculum is competitive. The application process is conducted via the national Pharm.D. admissions program, PharmCAS, as specified on the PharmCAS website (http://www.pharmcas.org) and linked via the College of Pharmacy (http://sites.utexas.edu/pharmacy-admissions).

Basic Admission Criteria

1. Scholarship, as indicated by grade point average and Pharmacy College Admission Test (PCAT) scores, including writing sample scores, are submitted via PharmCAS. Scores more than three years old are not accepted.
2. Essay as specified in the PharmCAS application process.
3. Letters of recommendation submitted via PharmCAS from people who know the applicant well professionally, especially pharmacist employers.
4. Transcripts of all academic work submitted via PharmCAS.
5. A résumé submitted via PharmCAS that provides details about the applicant's professional, organizational, volunteer, and service experience.

Additional Personal Factors

The information specified below is submitted either via PharmCAS or through the college's supplemental application.

1. Pharmacy and other related work experience
2. Organizational, service, and volunteer activities that demonstrate community involvement and leadership potential
3. Teaching, tutoring, and mentoring experience
4. Research experience
5. Honors and awards
6. Interview. Applicants are screened for interviews based on academic record, direct work experience in the profession, special life circumstances, and any other compelling factors. If the applicant is invited for an interview, then other factors are considered; these include but are not limited to the following:
   a. Knowledge of and motivation for pharmacy as a career
   b. Lifelong learning strategies
   c. Critical thinking skills
   d. Communication skills
   e. Compassion and commitment to care
   f. Respect toward others
   g. Organizational efficiency
   h. Integrity and ethical reasoning
   i. Relationship-building skills
   j. Leadership skills
   k. Teamwork
7. Special life circumstances; these include but are not limited to the following:
   a. Single parent
   b. Socioeconomic status of family
   c. First generation attending college
   d. Overcoming adversity
   e. Resident of an underserved area of the state or an area of Texas with a health professions shortage
   f. Race and ethnicity
   g. Cultural background

Because the University is a public institution, preference is given to applicants who are legal residents of Texas and to applicants from states without colleges of pharmacy. Applicants are strongly encouraged to examine the admission statistics published by the college on its admissions website (http://sites.utexas.edu/pharmacy-admissions).

Application Deadlines

The deadline to apply for admission to the college is specified on the PharmCAS website (http://www.pharmcas.org) and linked via the College of Pharmacy (http://sites.utexas.edu/pharmacy-admissions/im-ready-to-apply).

Admission Requirements

1. The applicant must have completed at least 66 semester hours in total, and must have completed the following 45 hours in prerequisite courses prior to enrolling in the professional pharmacy curriculum:
   a. Nine hours of biology, including cellular and molecular biology, structure and function of organisms, and genetics
   b. Eight hours of general chemistry with laboratory
   c. Three hours of freshman-level rhetoric and writing
   d. Three hours of sophomore-level survey of American, British, or world literature
   e. Three hours of calculus
   f. Three hours of statistics
   g. Eight hours of organic chemistry with laboratory

2. Organizational, service, and volunteer activities that demonstrate community involvement and leadership potential
3. Teaching, tutoring, and mentoring experience
4. Research experience
5. Honors and awards
6. Interview. Applicants are screened for interviews based on academic record, direct work experience in the profession, special life circumstances, and any other compelling factors. If the applicant is invited for an interview, then other factors are considered; these include but are not limited to the following:
   a. Knowledge of and motivation for pharmacy as a career
   b. Lifelong learning strategies
   c. Critical thinking skills
   d. Communication skills
   e. Compassion and commitment to care
   f. Respect toward others
   g. Organizational efficiency
   h. Integrity and ethical reasoning
   i. Relationship-building skills
   j. Leadership skills
   k. Teamwork
7. Special life circumstances; these include but are not limited to the following:
   a. Single parent
   b. Socioeconomic status of family
   c. First generation attending college
   d. Overcoming adversity
   e. Resident of an underserved area of the state or an area of Texas with a health professions shortage
   f. Race and ethnicity
   g. Cultural background

Because the University is a public institution, preference is given to applicants who are legal residents of Texas and to applicants from states without colleges of pharmacy. Applicants are strongly encouraged to examine the admission statistics published by the college on its admissions website (http://sites.utexas.edu/pharmacy-admissions).

Application Deadlines

The deadline to apply for admission to the college is specified on the PharmCAS website (http://www.pharmcas.org) and linked via the College of Pharmacy (http://sites.utexas.edu/pharmacy-admissions/im-ready-to-apply).

Admission Requirements

1. The applicant must have completed at least 66 semester hours in total, and must have completed the following 45 hours in prerequisite courses prior to enrolling in the professional pharmacy curriculum:
   a. Nine hours of biology, including cellular and molecular biology, structure and function of organisms, and genetics
   b. Eight hours of general chemistry with laboratory
   c. Three hours of freshman-level rhetoric and writing
   d. Three hours of sophomore-level survey of American, British, or world literature
   e. Three hours of calculus
   f. Three hours of statistics
   g. Eight hours of organic chemistry with laboratory

2. Organizational, service, and volunteer activities that demonstrate community involvement and leadership potential

   f. Race and ethnicity
   g. Cultural background

Because the University is a public institution, preference is given to applicants who are legal residents of Texas and to applicants from states without colleges of pharmacy. Applicants are strongly encouraged to examine the admission statistics published by the college on its admissions website (http://sites.utexas.edu/pharmacy-admissions).
h. Four hours of microbiology with laboratory
i. Four hours of physics with laboratory
The remaining 21 semester hours should be from the Core Curriculum (p. 23).

2. The applicant must remove all deficiencies in high school units by the means prescribed in General Information before seeking admission to the professional curriculum.

Admission Procedures

1. All applications for the Pharm.D. program will be handled through the national Pharm.D. admissions system, PharmCAS. Students must adhere to the deadlines for admission specified. The PharmCAS application process will include a supplementary application to the college (with a nonrefundable supplementary application fee) necessary to acquire additional academic information for University admission. Candidates will be notified if additional information is required.

2. Selected applicants will be asked to appear for a personal interview. The personal interview will follow a multiple-mini interview (MMI) format.

3. The applicant is considered on the basis of overall academic performance, with emphasis on grades in the required Pharm.D. prerequisite courses. In accordance with University policy, courses in which the applicant earned a grade of D+, D, D-, or F at another institution are not transferable and may not be used to fulfill any degree requirements. However, courses in which the student earned a grade of D+, D, or D- are considered when the student’s admissibility to the professional curriculum is determined.

4. Applicants who have been offered admission to the University and to the Pharm.D. program will be asked to pay a nonrefundable enrollment deposit to the University. If the student does enroll in the program that fall, the deposit will be applied to the semester’s tuition bill.

5. All students accepted for admission in the Pharm.D. program will be processed for admission to The University of Texas using the information in the PharmCAS application. Additional materials for University admission may be required:
   a. A high school transcript, if the applicant’s foreign language requirement was completed in high school. Official transcripts must be sent to the University’s Office of Admissions (https://www.utexas.edu/student/admissions).
   b. Scores on the Texas Higher Education Assessment (THEA) test (or an appropriate assessment test), if and only if the student is required by state law to take this test.
   c. Credit earned by examination. These reports should be sent directly to the Testing and Evaluation Services—Student Testing Services (http://ctl.utexas.edu/services/student_testing_services) at the University. This would be done if and only if the student had not previously claimed credit showing on the transcript.
   d. Official transcripts for all colleges/universities attended.

6. An applicant who has been admitted to the University and to the professional curriculum but fails to enroll in either, and who wishes to enter the professional curriculum in a subsequent fall semester, must reapply both to the University and to the College of Pharmacy and must meet all requirements in force at the time of reapplication.

7. An applicant who has been admitted to and enrolls in the professional curriculum but subsequently withdraws, and who wishes to reenter in a subsequent fall semester, must apply for readmission to the professional curriculum and must meet all requirements in force at the time of reapplication. A student who has been out of the University for a semester or more must also apply for readmission to the University.

Technical Standards

“Technical standards” are the observational, communication, sensory/motor, and intellectual skills, the behavioral and social attributes, and the ethical values required for the completion of the professional curriculum and for the practice of pharmacy. These standards are described on the College of Pharmacy’s website (http://pharmacy.utexas.edu/students/programs-of-study/pharm-d-program/technical-standards-for-pharmacy-education). Each applicant must attest that they have read and understand the technical standards. Any applicant who believes he or she may have difficulty meeting them should contact the college’s director of admission.

Registration

General Information (http://registrar.utexas.edu/catalogs/general-information) gives information about registration, adding and dropping courses, transfer from one division of the University to another, and auditing a course. The Course Schedule (http://registrar.utexas.edu/schedules) published before registration each semester and summer session, includes registration instructions, advising locations, and the times, places, and instructors of classes. The Course Schedule and General Information are published on the Office of the Registrar’s website (https://registrar.utexas.edu).

Each semester the academic adviser for the college provides registration guidance that is specific to the College of Pharmacy.

Registration as a Student Pharmacist-Intern

Upon matriculation to the first professional year, each student must register as an intern-trainee with the Texas State Board of Pharmacy. This is accomplished through completion of the Application for Student-Intern Registration. Each student must be registered as a student-intern in order to complete the academic requirements for the degree.

Additional information regarding intern registration and pharmacist licensure is given in the section Legal Requirements for Professional Practice (p. 761). Requirements and regulations are subject to change by the Texas State Board of Pharmacy. Every attempt is made to inform students of changes as they occur.

Professional Liability Insurance

Professional liability insurance is required of all students each year of the professional pharmacy curriculum. Coverage in the amount of two million dollars for each claim and six million dollars in the aggregate per year is provided through the insurance policy. The annual premium is less than $20.00 but is subject to change, and is payable by the student. The policy covers the period September 1 through August 31 and must be secured each year of the program through the University of Texas System.

Medical Clearance Requirements

In addition to the University’s immunization requirements, students must meet additional immunization requirements for students in healthcare programs as articulated in Title 25 of the Texas Administrative Code, Rule 97.64, and as mandated by the practice sites in which students participate in practicum experiences.

Immunization requirements are subject to change. Every effort is made to notify students promptly of any changes. A current list of vaccination requirements can be found on the College of Pharmacy’s website.
Although not a College of Pharmacy requirement, students may be subject to other health clearance requirements mandated by health care facilities for practicum.

**Student Health Insurance**

Students must procure health insurance to cover treatment for injuries or illness, and must provide proof of insurance each year of the curriculum. This is especially important for the experiential components of the curriculum, spanning all four professional years, when students have frequent contact with patients in a number of different health care environments.

The Student Health Insurance Plan, operated under the auspices of University Health Services, offers optional low-cost insurance for students who are not covered by other programs. Information about this plan is available through University Health Services at http://healthyhorns.utexas.edu/.

**Academic Policies and Procedures**

**Academic Standards**

University regulations on scholastic probation and dismissal are given in the General Information Catalog (http://catalog.utexas.edu/general-information/academic-policies-and-procedures/scholastic-probation-and-dismissal). In addition, the following academic standards are in effect in the College of Pharmacy.

**Academic Progress**

1. The student must repeat a required pharmacy course in which he or she earns a grade of F. The student who earns a grade of D+, D, or D- in a required pharmacy course becomes subject to the policies on academic probation and dismissal described below.

2. The student must earn a grade of at least C- in each elective pharmacy course. If the student fails to earn a grade of at least C- in an elective pharmacy course, he or she may repeat the course or may take another elective course in its place, but only courses in which the student has earned a grade of at least C- may be counted toward the professional elective requirement.

3. The student must earn an average of at least two grade points (2.00) a semester hour on all courses undertaken at the University, whether passed or failed in order to graduate. The student must also earn an average of at least two grade points (2.00) a semester hour on all required pharmacy courses undertaken, whether passed or failed.

4. The student may not repeat for credit a course in which he or she has earned a grade of C- or better, except under circumstances approved by the dean.

5. Pharmacy elective courses and laboratory problems courses can be taken on the letter-grade or pass/fail basis, unless otherwise stated in the Course Schedule (http://registrar.utexas.edu/schedules). However, the student must complete the Professional Electives Course Requirement (p. 768) with approved elective courses taken for the letter grade basis.

**Academic Probation and Dismissal**

A student is placed on academic probation in the College of Pharmacy if he or she receives a grade of D+, D, or D- in any required pharmacy course. If the grade received is an F, the student must repeat the course and may not progress to courses for which it is a prerequisite until he or she has earned a grade of at least C- in the failed course. If the initial grade received is a D+, D, or D, the student may progress to courses for which the course is a prerequisite. The student may choose to repeat a course in which he or she received a D+, D, or D- if the course does not conflict with other courses the student would normally take in the same semester; however, this choice affects the student’s release from academic probation as described in the following section.

If the student receives more than two incompletes in required pharmacy courses, regardless of the grades ultimately awarded, he or she is subject to review by the Academic Performance Committee. The committee may choose to place the student on academic probation.

A student is subject to dismissal from the college if he or she receives more than one D+, D, D-, or F in required pharmacy courses in one semester. The student is also subject to dismissal if he or she receives an additional D+, D, D-, or F while on academic probation or conditional academic probation.

Students on academic probation are expected to focus on academic improvement and thus are not allowed to hold student offices (elected, appointed, or committee chairmanship) or receive college stipends for travel to professional meetings or other college-sponsored events.

**Release from Academic Probation**

After receiving a grade of F, the student must repeat the course and earn a grade of at least C-. If the failed course is a prerequisite for another course, the student must repeat the course and earn a grade of at least C- before taking the course for which the failed course is a prerequisite. In the semester or summer session in which he or she repeats the course, the student must complete a full academic load, including at least five hours in required pharmacy courses and/or other courses recommended by the academic adviser. A full academic load is defined for this purpose as 12 hours in a long-session semester and six hours in the summer. The new grade is averaged with the grade of F when the student's pharmacy grade point average is calculated. If the new grade is C- or better, the student is released from academic probation if and only if he or she has earned no further grades of D+, D, D-, or F while on academic probation or conditional academic probation. If the student does not earn a grade of at least C- upon repeating the course, he or she is subject to academic dismissal.

After receiving a grade of D+, D, or D-, the student chooses whether or not to repeat the course, if the course does not conflict with other courses the student would normally take in the same semester. He or she may progress to courses for which the course in question is a prerequisite. If the student chooses to repeat the course, he or she must earn a grade of at least C-. If the new grade is a C- or better, the student is released from academic probation only if he or she has earned no further grades of D+, D, D-, or F while on academic probation or conditional academic probation. If the student does not earn a grade of at least C- upon repeating the course, he or she is subject to academic dismissal. The new grade is averaged with the grade of D+, D, or D- when the student’s pharmacy grade point average is calculated.

If the student chooses not to repeat the course, he or she remains on academic probation (or conditional academic probation, described below) through completion of the P4 advanced pharmacy practice experiential courses in the final semester. To take the P4 experiential courses, the student must have a grade point average of at least 2.00 in required pharmacy courses. If the student earns the symbol CR in each P4 advanced pharmacy practice course, he or she is released from probation and graduates in good academic standing with the college.
Conditional Academic Probation

If a student on academic probation receives no grade lower than C- in required pharmacy courses during the following semester or summer session in which he or she takes a full academic load, the student may be placed on conditional academic probation. This status allows the student to hold student office (elected, appointed or committee chairmanship) and to receive college stipends for travel to professional meetings or other college-sponsored events. The student remains on conditional academic probation until graduation and is subject to dismissal if he or she receives a second grade of D+, D, D-, or F.

Academic Progression in the Pharm.D. Program

If the student’s academic progression results in a two-year delay of progression at any time, he or she is subject to review by the Academic Performance Committee. The committee may choose to allow the student to continue in the program, place the student on conditional probation, or dismiss the student from the program.

Comprehensive Milestone Exams and Academic Progression

During the third professional year, all students are required to complete a comprehensive P3 Milestone Exam. Students who successfully pass the exam will progress into the fourth, and final, professional year. Students who do not successfully pass the exam will be referred to the Academic Performance Committee for progression decisions and targeted remediation.

At the end of the fourth professional year, all students are required to complete a comprehensive P4 Milestone Exam. Students who successfully pass the exam will progress towards graduation provided all other degree requirements have been met. Students who do not successfully pass the exam will be referred to the Academic Performance Committee for progression decisions and targeted remediation.

Course Load and Sequence of Work

1. To progress to the final-year experiential courses, the student must have successfully completed all basic education requirements and all required and elective pharmacy courses except those in the internship year.
2. Because final-year experiential courses are offered on the pass/fail basis only, students must have attained both the University and the College of Pharmacy grade point average of at least 2.00 required for graduation before they begin the P4 advanced pharmacy practice experiential year.
3. If a conflict arises between University requirements and a student’s employment, the student must resolve the conflict in favor of the University requirements.
4. A student who is not on academic probation must take at least 12 semester hours during any long-session semester, at least six hours of which must be for a letter grade (not pass/fail).
5. A student on academic probation must take at least 12 semester hours during any long-session semester or at least six semester hours during the summer session in order to clear academic probation.
6. Students may not take courses for degree credit at another institution without prior approval from the dean of the College of Pharmacy.
7. All students seeking to reenter the College of Pharmacy after having been placed on academic dismissal must make formal application through the Admissions Committee. The application is processed through the Admissions Committee with recommendations from the Academic Performance Committee and the approval of the dean.

Calculation of the Grade Point Average

1. The student’s University grade point average includes all courses taken at the University for which a grade or symbol other than Q, W, X, or CR is recorded. If the student has repeated a course, including those courses for which he or she earned a grade of D+, D, D-, or F, all grades earned are included in the University grade point average.
2. The student’s College of Pharmacy grade point average includes all required professional courses (excluding ALL elective courses) taken at the University for which a grade or symbol other than Q, W, X, or CR is recorded. When a student repeats a required pharmacy course, the second grade in the repeated course is averaged with the previous grade when the student’s College of Pharmacy grade point average is calculated.

Standards of Ethical Conduct

Pharmacy practitioners enjoy a special trust and authority based on the profession’s commitment to a code of ethical behavior in its management of client affairs. The inculcation of a sense of responsible professional behavior is a critical component of professional education, and high standards of ethical conduct are expected of pharmacy students.

Toward that end, the faculty and students of the College of Pharmacy have pledged their support to the Policy Statement on Ethical Conduct and Scholastic Integrity and the Code of Ethics that implements this Policy Statement. Upon entering the College of Pharmacy, and each academic year thereafter, students are asked to recite and sign the following pledge:

“As a student of The University of Texas College of Pharmacy, I have reviewed and hereby pledge my full support to the Honor Code. I pledge to be honest myself, and in order that the spirit and integrity of the Honor Code may endure, I pledge that I will make known to the appropriate authorities cases of dishonesty which I observe in the College of Pharmacy.”

In addition, the following oath, which students will be asked to sign, is included at the end of all class examinations: “I have neither participated in nor witnessed any acts of academic dishonesty pertaining to this assignment.” At the discretion of the instructor, the oath may also be included for other assignments such as quizzes, written reports, or papers.

Students are also required to adhere to the University’s Student Honor Code which states “As a student at The University of Texas at Austin, I shall abide by the core values of the University and uphold academic integrity.” The entire text of the Student Honor Code and the University’s
Code of Conduct can be found at http://www.utexas.edu/about/mission-and-values.

The entire text of the Policy Statement on Ethical Conduct and Scholastic Integrity and the Honor Code are available at http://www.utexas.edu/pharmacy/students/handbook98/3code.html.

Students who violate University rules on scholastic dishonesty are subject to disciplinary penalties, including failure of the course involved and dismissal from the college and/or the University. Since dishonesty harms the individual, fellow students, and the integrity of the University and the College of Pharmacy, policies on scholastic dishonesty are strictly enforced.

**Attendance in Class and Laboratories**

Students in the College of Pharmacy are expected to attend all scheduled class and laboratory sessions in courses for which they are registered. If attendance is a course requirement that can impact the student’s grade, the criteria for assessing attendance and consequences for nonattendance must be specified in the syllabus.

**Honors**

University-wide honors are described in General Information (http://catalog.utexas.edu/general-information/academic-policies-and-procedures/honors). In addition, the College of Pharmacy encourages academic excellence through Rho Chi, the national pharmaceutical honor society, described in Student Organizations (p. 759), and through the Pharmacy Honors Program.

**University Honors**

The designation University Honors, awarded at the end of each long-session semester, gives official recognition and commendation to students whose grades for the semester indicate distinguished academic accomplishment. Both the quality and the quantity of work done are considered. Criteria for University Honors are given in General Information (http://catalog.utexas.edu/general-information/academic-policies-and-procedures/honors/#universityhonorstext).

**Graduation with University Honors**

Students who, upon graduation, have demonstrated outstanding academic achievement are eligible to graduate with University Honors. Criteria for graduation with University Honors are given in General Information (http://catalog.utexas.edu/general-information/academic-policies-and-procedures/honors/#graduationwithuniversityhonorstext).

**Pharmacy Honors Program**

**Criteria for Admission**

Students who plan to seek special honors in pharmacy should apply to the chair of the Honors Program Committee after they have completed the fall semester of the first professional year; they must apply before they begin the second professional year. Students interested in the Pharmacy Honors Program are strongly encouraged to enroll in PHM 181R Research Opportunities in the Pharmaceutical Sciences in the spring semester of their first professional year. The criteria for admission to the program are (1) admission to the professional curriculum; (2) a grade point average of at least 3.00 in all required professional coursework completed at the time of application to the program; and (3) approval of the Honors Program Committee.

**Requirements for Completion**

Requirements for the completion of the honors program are (1) a grade point average of at least 3.00 in all required professional courses; (2) a grade point average of at least 3.00 in all professional courses, including required professional elective coursework; (3) completion of Pharmacy PharmD 187R at least twice; (4) completion of at least one honors elective; (5) completion of Pharmacy PharmD 288H and 489H; and (6) completion of the regular curriculum for the degree.

The statement "Research Honors in Pharmacy" appears on the transcript of each graduate certified to have completed the honors program.

**College of Pharmacy Recognition Awards**

The College of Pharmacy Award for Academic Achievement recognizes a graduate who has demonstrated an outstanding grade point average, professional attitude, and excellent communication skills.

The College of Pharmacy Award for Outstanding Research recognizes a graduate who has demonstrated outstanding ability in areas of pharmacy research.

The College of Pharmacy Award for Excellence in Patient Care recognizes a graduate who has demonstrated excellence in patient care while pursuing the PharmD degree.

The College of Pharmacy Award for Dedicated Service recognizes a graduate who has shown a commitment to service above and beyond the norm.

The College of Pharmacy Award for Exemplary Leadership recognizes a graduate who has excelled in leadership while pursuing the PharmD degree.

The College of Pharmacy Alumni Association Mortar and Pestle Award for Leadership, Service, and Patient Care recognizes an exceptional graduate who has demonstrated outstanding leadership, service, and patient care in the college, the University, and the community while pursuing the PharmD degree. The award is a hand-carved mortar and pestle.

The College of Pharmacy Class Officers are elected by their classmates and serve as permanent officers of their class.

Students’ scholarly accomplishments are also recognized through election to Rho Chi, the national pharmaceutical honor society, and through admission to the Pharmacy Honors Program. Students’ leadership accomplishments are recognized through election to Phi Lambda Sigma, the national pharmacy leadership society.

**Graduation**

All students must fulfill the general requirements (p. 20) for graduation. In addition, students seeking the Doctor of Pharmacy (Pharm.D.) must complete in residence the courses prescribed for the third and fourth professional years.

All University students must have a grade point average of at least 2.00 to graduate. In the College of Pharmacy, students must also have a grade point average of at least 2.00 in required professional courses to graduate.

A candidate must complete the prescribed curriculum and must meet all other requirements of the College of Pharmacy.

PharmD professional students are not required to submit a Graduation Application Form to graduate.

**Degrees and Programs**

The University offers the Pharm.D. as the sole entry-level pharmacy practice degree. As described in the mission (p. 757), this program emphasizes an integrated and problem-based approach to disease...
management as the core of the didactic, laboratory, and experiential program of study.

The capstone of the Pharm.D. program is a series of seven six-week rotations known as the advanced pharmacy practice experiences (APPE (http://sites.utexas.edu/phr-experiential/student-experience/advanced-pharmacy-practice-experience-app)). Each APPE course requires a minimum of 45 on-site, practitioner-faculty-supervised hours of internship experience a week for six weeks.

The college expects but cannot guarantee that experiential regions will include Austin/Temple/Waco, Dallas/Fort Worth (the University of Texas Southwestern Medical Center and other area health care facilities), Galveston/Houston (the University of Texas Medical Branch at Galveston, the University of Texas M. D. Anderson Cancer Center, and other area health care facilities), the Rio Grande Valley (the University of Texas - Rio Grande Valley and health care facilities primarily in Harlingen and McAllen), and San Antonio (the University of Texas Health Science Center San Antonio and other area health care facilities). Students assigned to San Antonio spend two years in this region, while students assigned to other regions spend only the final year in the APPE region.

College of Pharmacy students who complete their experiential courses at the University of Texas Health Science Center at San Antonio are considered part of a joint Pharm.D. degree program and receive a degree awarded jointly by the two institutions. The joint nature of this program is reflected on the student's diploma.

In completing the Doctor of Pharmacy degree, students also fulfill the internship requirements of the Texas State Board of Pharmacy. The final year of APPE courses and several other practice-based experiential courses, beginning in the first professional year, make up the experiential program. The professional experience courses are currently approved by the Texas State Board of Pharmacy to meet its standards for completion of the professional internship licensure requirement. The board reassesses all programs annually.

The Minor

While a minor is not required as part of the Pharm.D. degree program, the student may choose to complete additional coursework in a field outside of the College of Pharmacy. A course may not be counted both toward the minor and toward the 219 hours of work required for the Pharm.D. degree.

The transcript-recognized undergraduate academic minor must be completed in conjunction with an undergraduate degree at The University of Texas at Austin; students pursuing an integrated undergraduate/graduate program must complete the requirements for the minor within one year after completing the undergraduate requirements of their program. For more information regarding the requirements for achieving a minor, including a comprehensive list of minors, please visit the Minors and Certificate Programs (p. 13) section of the Undergraduate Catalog.

Applicability of Certain Courses

Physical Activity Courses

Physical activity (PED) courses are offered by the Department of Kinesiology and Health Education. They may not be counted toward a degree in the College of Pharmacy. However, they are counted among courses for which the student is enrolled, and the grades are included in the University grade point average.

ROTC Courses

Courses in air force science, military science, and naval science may be substituted for a total of nine semester hours of non-pharmacy electives by students who complete the 16 to 20 semester hours of required air force science, military science, or naval science coursework and accept a commission in one of the services. These courses may not be counted toward the professional elective requirement.

Correspondence and Extension Courses

Credit that a University student in residence earns simultaneously by correspondence or extension from the University or elsewhere or in residence at another school will not be counted toward a degree unless it is specifically approved in advance by the dean. No more than 30 percent of the semester hours required for any degree may be completed by correspondence, and no pharmacy courses taken by correspondence or extension may be counted toward a pharmacy degree.

Prescribed Work

Students who enter the Doctor of Pharmacy degree program must complete a minimum of 219 semester hours of coursework in the following areas: the core curriculum, additional basic education requirements, professional electives, and pre-professional and professional coursework.

Core Curriculum

Each student must complete the University's Core Curriculum (p. 23). Because of the intensity and structure of the professional pharmacy curriculum, and because admission to the professional curriculum is highly competitive, the College of Pharmacy strongly recommends that students complete all of the core courses before they enter the college.

The following core requirements are usually met by the pre-professional and professional coursework described below: English composition with one writing flag, mathematics, science and technology (parts I and II), and humanities. Students must complete additional coursework to meet the core requirements listed below; the courses in each core area are listed in Core Curriculum (p. 23).

Transfer students who complete the core curriculum at another public Texas institution of higher education with core completion specified on their transcript and who are then admitted to the Pharm.D. program are considered “core complete” by the University. Core curriculum requirements are waived for students admitted to the Pharm.D. program who have previously earned a bachelor’s degree.

Additional Basic Education Requirements

All students must also earn the following skills and experiences flags: writing, quantitative reasoning, cultural diversity in the United States, ethics, global cultures, and independent inquiry. See skills and experiences for more information; courses that carry these flags are identified in the Course Schedule. All skills and experience flags are
fulfilled by courses within the professional pharmacy sequence, except for global cultures.

Flag requirements are waived for students admitted to the professional curriculum who have already earned a bachelor’s degree.

All students must complete the foreign language (p. 24) requirement before they enter the professional curriculum (unless they hold a prior bachelor’s degree).

Professional Electives Course Requirement

The student must complete at least two professional elective courses, for a total of at least seven semester hours, on the letter-grade basis. The student must take the courses used to fulfill the professional electives requirement after admission to the professional curriculum.

Preprofessional and Professional Coursework

The following courses are required. The course sequence given here shows the usual order in which courses are taken to fulfill prerequisite requirements and illustrates the feasibility of completing requirements for the degree within six calendar years. Students who depart significantly from this sequence may need more time to complete their coursework, because most courses are taught only once a year and because in a given semester the scheduled meeting time of a preprofessional or professional course may conflict with the times of core courses or professional electives.

| Note: The order in which students take the fourth-year internships is at the discretion of the College of Pharmacy. |

| Total | 18 | 18 |

Total credit hours: 221

1 Students should consider enrolling in a First-Year Signature Course that also satisfies the global cultures flag requirement.

### Courses

The faculty has approval to offer the following courses in the academic years 2018–2019 and 2019–2020; however, not all courses are taught each semester or summer session. Students should consult the Course Schedule (http://registrar.utexas.edu/schedules) to determine which courses and topics will be offered during a particular semester or summer session. The Course Schedule may also reflect changes made to the course inventory after the publication of this catalog.
Pharmacy PharmD: PHM

University Courses

PHM 310K. Drugs in Our Society.
Survey of drug development, distribution, and safety, including therapeutic categories of drugs, their actions and abuse potential, and the sociological aspects of drug use. Three lecture hours a week for one semester. Only one of the following may be counted: Pharmacy 310K, 350K, Pharmacy PharmD 310K, 350K. Not open to students in the professional pharmacy curriculum and may not be counted toward the professional elective requirement in pharmacy.

PHM 311K. Take your Medicine: Developing New Drug Products.
Restricted to non-pharmacy majors. Explores the process, challenges, and issues in developing pharmaceutical products. An overview of drug development, approval, and consumer issues will be presented and discussed in the context of research practices, consumers, science, marketing, public welfare, and innovative practices. Three lecture hours a week for one semester. Offered on the letter-grade basis only.

PHM 338. Introduction to Pharmacology.
Restricted to non-pharmacy majors. Survey of basic concepts and principles in pharmacology. Three lecture hours a week for one semester. Pharmacy 338 and Pharmacy PharmD 338 may not both be counted. Prerequisite: Credit or registration for Biology 365S, 446L, Biomedical Engineering 365R, 365S, or Kinesiology 324K.

PHM 350K. Drugs in Our Society.
Survey of drug development, distribution, and safety, including therapeutic categories of drugs, their actions and abuse potential, and the sociological aspects of drug use. Essay papers required. Three lecture hours a week for one semester. Only one of the following may be counted: Pharmacy 310K, 350K, Pharmacy PharmD 310K, 350K. Not open to students in the professional pharmacy curriculum and may not be counted toward the professional elective requirement in pharmacy. Prerequisite: Upper-division standing.

Original investigation in any area of the pharmaceutical sciences. For each semester hour of credit earned, three laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Consent of instructor and the dean.

Professional Courses

PHM 480C. Human Normal Physiology/Pathophysiology and Basics in Pharmacology I.
Integrated approach consisting of normal physiology (with limited functional anatomy), pathophysiology, and basic principles in pharmacology to address the etiology of disease states affecting the nervous, gastrointestinal, visual/olfactory, skin, muscular, and cardiovascular systems. Four lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum.

PHM 480D. Human Normal Physiology/Pathophysiology II.
Integrated approach consisting of normal physiology (with limited functional anatomy), pathophysiology, and basic principles in pharmacology to address the etiology of disease states affecting the blood/immune system, renal, pulmonary, endocrine, and metabolic systems. Also includes multi-systemic diseases related to infectious disease and cancer. Four lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 480C.

PHM 280H. Landmark Studies in Cardiovascular Disease.
Evidence-based clinical studies in support of drug therapy recommendations in the treatment of cardiovascular diseases. Two lecture hours a week for one semester. Pharmacy 280H and Pharmacy PharmD 280H may not both be counted. Prerequisite: Second-professional-year standing in pharmacy.

PHM 180K. Medicinal Chemistry Principles.
Introduction to medicinal chemistry principles. Subjects include drug metabolism and the transition from organic to medicinal chemistry. One lecture hour a week for one semester. Pharmacy 143M and Pharmacy PharmD 180K may not both be counted. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum, and credit or registration for Pharmacy PharmD 180P (or Pharmacy 143P).

PHM 280L, 380L. Landmark Pharmacotherapy Studies in Primary Care.
Reviewing, evaluating, and applying the results of landmark studies in pharmacotherapy to primary care practice. An examination of disease states encountered in primary care including diabetes, hypertension, dyslipidemias, and psychological disorders. For 280L, six laboratory hours a week for one semester; for 380L, nine laboratory hours a week for one semester. Only one of the following may be counted: Pharmacy PharmD 280L, 380L, Pharmacy 280L, 380L. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 195Q (or Pharmacy 163C), 185P (or Pharmacy 185P), 685E (or Pharmacy 695F), and 385G (or Pharmacy 395G).

PHM 180P. Basic Pharmaceutical Sciences Laboratory.
Laboratory exercises to support the basic Pharmaceutical sciences courses. One hour of pre-laboratory lecture and three laboratory hours a week for one semester. Pharmacy 143P and Pharmacy PharmD 180P may not both be counted. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum, and credit or registration for Pharmacy PharmD 180K (or Pharmacy 143M).

Basic exploration in any area of the pharmaceutical sciences. For each semester hour of credit earned, three laboratory hours a week for one semester. No more than three semester hours may be counted toward the professional pharmacy elective requirement. May be repeated for credit. Prerequisite: Admission to the PharmD program and consent of instructor and the dean.

Restricted to students in the College of Pharmacy. An exploration of health care issues outside the United States with an inside look at different cultures and healthcare systems to enhance global awareness and cultural competence in the practice of pharmacy. For every credit hour earned, one lecture hour per week for one semester. Offered on the letter-grade basis only.

PHM 280W. Psychiatric Pharmacy Practice and Drug Treatment of Mental Disorders.
Advanced study in the pathophysiology of selected psychiatric disease states and the clinical presentation, phenomenology, diagnosis, and treatment of these disease states. Two lecture hours a week for one semester. Pharmacy 280W and Pharmacy PharmD 280W may not both
be counted. Prerequisite: Credit or registration for Pharmacy PharmD 685F (or Pharmacy 695F), or consent of instructor.

An integrated approach to the etiology and treatment of disease states of the renal and autonomic systems. The equivalent of one lecture hour per week for one semester. Pharmacy PharmD 181 and 685D (or Pharmacy 665E) may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 4800, 182, 483, and 392P.

PHM 181C, 281C. Professional Development Convocation I.
Professional development issues and assessments for PharmD students in the first professional year. Includes students' professional and program-specific responsibilities, such as program evaluations, portfolios, and administrative requirements; practice opportunities in pharmacy; and expected areas and levels of professional growth as the student advances through the curriculum. For each semester hour of credit earned, one lecture hour a week for one semester. Only one of the following may be counted: Pharmacy 142H, Pharmacy PharmD 181C, 281C, 281S. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum.

PHM 181D, 281D. Professional Development Convocation II.
Professional development issues and assessments for PharmD students in the first professional year. Student fulfillment of professional and program-specific responsibilities (program evaluations, portfolios, administrative requirements), practice opportunities in pharmacy, and addressing the expected areas and levels of professional growth as the student advances through the curriculum. For each semester hour of credit earned, one lecture hour a week for one semester. Only one of the following may be counted: Pharmacy 152H, Pharmacy PharmD 181D, 281D, 281T. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 181C, 281C, 281S (or Pharmacy 142H).

PHM 381H. Interprofessional Health Care for HIV Patient Management.
Interprofessional teamwork, health literacy, treatment guidelines, patient safety, and medication reconciliation in the care of patients with the human immunodeficiency virus. Conducted at an HIV clinic in Texas. Students complete six hours of required Web-based instruction before beginning the clinical component. Six hours of online lecture and a minimum of fifty hours of fieldwork in one semester. Pharmacy 381H and Pharmacy PharmD 381H may not both be counted. Offered on the letter-grade basis only. Prerequisite: Completion of the second professional year in the College of Pharmacy.

PHM 381K. Pharmaceutical Marketing.
Concepts of marketing as they apply to the pharmaceutical industry, pharmaceutical products, and the health care environment. Three lecture hours a week for one semester. Pharmacy 320M and Pharmacy PharmD 381K may not both be counted. Prerequisite: Pharmacy PharmD 281L (or Pharmacy 244C) and 181P (or Pharmacy 144P).

Concepts and principles of management, and social and behavioral aspects of pharmacy practice. Two lecture hours a week for one semester. Pharmacy 244C and Pharmacy PharmD 281L may not both be counted. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum and credit or registration for Pharmacy PharmD 181P (or Pharmacy 144P).

PHM 381M. Pharmaceutical Biochemistry I.
Basic principles of intermediary metabolism, with emphasis on defects in pathways that result in disease and on identification of molecular targets for therapeutic control. Three lecture hours a week for one semester. Pharmacy 341C and Pharmacy PharmD 381M may not both be counted. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum.

PHM 281N. Pharmaceutical Biochemistry II.
The biosynthesis and function of macromolecules (nucleic acids, lipids, proteins, and carbohydrates); sites of drug action, immunology, and applications of biotechnology and molecular biology to the pharmaceutical sciences. Two lecture hours a week for one semester. Pharmacy 251C and Pharmacy PharmD 281N may not both be counted. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum and credit or registration for Pharmacy PharmD 281L (or Pharmacy 244C).

PHM 181P. Personnel Management and Patient Behavior Laboratory.
Explores issues in pharmacy practice. Includes case study discussions, group presentations, and small group work to enhance communication and teamwork skills. Three laboratory hours a week for one semester. Pharmacy 144P and Pharmacy PharmD 181P may not both be counted. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum and credit or registration for Pharmacy PharmD 281L (or Pharmacy 244C).

PHM 181R. Research Opportunities in the Pharmaceutical Sciences.
An introduction to research in all divisions of the College of Pharmacy. Includes ethical issues in research, career paths in research, and subjects such as choosing a research mentor or project. One lecture hour and three laboratory hours a week for one semester. Pharmacy 151R and Pharmacy PharmD 181R may not both be counted. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum.

PHM 181S, 281S. Foundations of Professional Development I.
Restricted to students in the College of Pharmacy. In-depth education and training to promote personal and professional development of students. Built on six interdependent pillars: Self-Awareness, Professionalism, Leadership, Career Development and Planning, Contemporary Issues in Practice, and Interprofessional Collaborative Practice (ICP). Employs a series of seminars and team-based workshops, and interprofessional learning experiences to inculcate students into the College of Pharmacy and profession of pharmacy. Focuses on self-awareness, professionalism, leadership development, career planning and decision-making, contemporary issues in pharmacy practice, and interprofessional collaboration. For each semester hour of credit earned, one lecture hour a week for one semester. Only one of the following may be counted: Pharmacy 142H, Pharmacy PharmD 181C, 281C, 181S, 281S. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum.

PHM 181T, 281T. Foundations of Professional Development II.
In-depth education and training to promote personal and professional development of students. Built on six interdependent pillars: Self-Awareness, Professionalism, Leadership, Career Development and Planning, Contemporary Issues in Practice, and Interprofessional Collaborative Practice (ICP). Employs a series of seminars, team-based workshops, and interprofessional learning experiences to inculcate students into the College of Pharmacy and profession of pharmacy. Focuses on self-awareness, professionalism, leadership development, career planning and decision-making, contemporary issues in pharmacy...
practice, and interprofessional collaboration. For each semester hour of credit earned, one lecture hour a week for one semester. Only one of the following may be counted: Pharmacy 152H, Pharmacy PharmD 181D, 281D, 181T, 281T. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 181C, or 281C, or 181S, or 281S, (or Pharmacy 142H).

PHM 182. Pharmacotherapeutics of the Respiratory System.
An integrated approach to the etiology and treatment of disease states of the respiratory system. The equivalent of one lecture hour per week for one semester. Pharmacy PharmD 182 and 685D (or Pharmacy 665E) may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 480D, 182, 483, and 392P.

PHM 182C, 282C. Professional Development Convocation III.
Professional development issues and assessments for PharmD students in the second professional year. Student fulfillment of professional and program-specific responsibilities (program evaluations, portfolios, administrative requirements), practice opportunities in pharmacy, and addressing the expected areas and levels of professional growth as the student advances through the curriculum. For each semester hour of credit earned, one lecture hour a week for one semester. Only one of the following may be counted: Pharmacy 161H, Pharmacy PharmD 182C, 282C, 282S. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 181D, or 281D, or 281T, (or Pharmacy 152H).

PHM 182D, 282D. Professional Development Convocation IV.
Professional development issues and assessments for PharmD students in the second professional year. Student fulfillment of professional and program-specific responsibilities (program evaluations, portfolios, administrative requirements), practice opportunities in pharmacy, and addressing the expected areas and levels of professional growth as the student advances through the curriculum. For each semester hour of credit earned, one lecture hour a week for one semester. Only one of the following may be counted: Pharmacy 172H, Pharmacy PharmD 182D, 282D, 282T. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 182C, or 282C, or 282S, (or Pharmacy 161H).

PHM 282E. Nonprescription Pharmacotherapeutics and Self-Care I.
Study of nonprescription products and complementary and alternative medicine as it relates to the patient’s ability to care for themselves with emphasis on the pharmacist’s consultant role in product selection and nonpharmacologic recommendations. Two lecture hours a week for one semester. Pharmacy 262D and Pharmacy PharmD 282E may not both be counted. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum.

PHM 182F. Nonprescription Pharmacotherapeutics and Self-Care II.
A continuation of Pharmacy PharmD 282E. The study of nonprescription products and complementary and alternative medicine as it relates to the patient’s ability to care for themselves with emphasis on the pharmacist’s consultant role in product selection and nonpharmacologic recommendations. One lecture hour a week for one semester. Pharmacy 172E and Pharmacy PharmD 182F may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 282E (or Pharmacy 262D), 392P (or Pharmacy 392S), and credit or registration for Pharmacy PharmD 182P (or Pharmacy 172P).

PHM 282G. Pharmacy Business Plan Development.
The fundamentals of writing a pharmacy business plan, including the mission statement, objectives, description of products and services, legal structure, location analysis, layout and design, pro forma financial statements, staffing, market analysis and strategies, and promotion and advertising plans, culminating in submission of the plan for national competition. Two lecture hours a week for one semester. Pharmacy 282D and Pharmacy PharmD 282G may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 384K (or Pharmacy 326C) and completion of the second professional year in pharmacy, or consent of instructor.

Concepts and procedures involved in designing and completing a research project. Three lecture hours a week for one semester. Pharmacy 322H and Pharmacy PharmD 382K may not both be counted. Prerequisite: Admission to the Pharmacy Honors Program or consent of instructor.

PHM 382L. Clinical Toxicology.
A course in toxicology that focuses on common poisons and their management; designed for pharmacy students planning to enter general practice. Three lecture hours a week for one semester. Pharmacy 362L and Pharmacy PharmD 382L may not both be counted. Prerequisite: Credit or registration for Pharmacy PharmD 182F (or Pharmacy 172E), and current intern registration with the Texas State Board of Pharmacy.

Basic exploration in any area of the pharmaceutical and clinical sciences. For each semester hour of credit earned, one lecture hour a week for one semester. Pharmacy 161J, 261J, 361J and Pharmacy PharmD 182R, 282R, 382R may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum; additional prerequisites vary with the topic.

PHM 182S, 282S. Foundations of Professional Development III.
In-depth education and training to promote personal and professional development of students. Built on six interdependent pillars: Self-Awareness, Professionalism, Leadership, Career Development and Planning, Contemporary Issues in Practice, and Interprofessional Collaborative Practice (ICP). Employs a series of seminars, team-based workshops, and interprofessional learning experiences to inculcate students into the College of Pharmacy and profession of pharmacy. Focuses on self-awareness, professionalism, leadership development, career planning and decision-making, contemporary issues in pharmacy practice, and interprofessional collaboration. For each semester hour of credit earned, one lecture hour a week for one semester. Only one of the following may be counted: Pharmacy 161H, Pharmacy PharmD 182C, 282C, 181S, 281S. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 181D, or 281D, 181T or 281T (or Pharmacy 152H).

PHM 182T, 282T. Foundations of Professional Development IV.
In-depth education and training to promote personal and professional development of students. Built on six interdependent pillars: Self-Awareness, Professionalism, Leadership, Career Development and
PHM 483. Pharmacotherapeutics of the Cardiovascular System.

An integrated approach to the etiology and treatment of disease states of the cardiovascular system. The equivalent of four lecture hours a week for one semester. Only one of the following may be counted: Pharmacy 172H, Pharmacy PharmD 182D, 282D, 182T, 282T. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 182C, or 282C, or 182S, or 282S (or Pharmacy 161H).

PHM 183C, 283C. Professional Development Convocation V.

Professional development issues and assessments for PharmD students in the third professional year. Student fulfillment of professional and program-specific responsibilities (program evaluations, portfolios, administrative requirements), practice opportunities in pharmacy, and addressing the expected areas and levels of professional growth as the student advances through the curriculum. For each semester hour of credit earned, one lecture hour a week for one semester. Only one of the following may be counted: Pharmacy 182H, Pharmacy PharmD 183C, 283C, 283S. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 182D, or 282D, or 282T, (or Pharmacy 172H).

PHM 183D, 283D. Professional Development Convocation VI.

Professional development issues and assessments for PharmD students in the third professional year. Student fulfillment of professional and program-specific responsibilities (program evaluations, portfolios, administrative requirements), practice opportunities in pharmacy, and addressing the expected areas and levels of professional growth as the student advances through the curriculum. For each semester hour of credit earned, one lecture hour a week for one semester. Only one of the following may be counted: Pharmacy 192H, Pharmacy PharmD 182R (Topic: PROFESNL DEVEL CONVOCATION VI), 183D, 283D, 283T. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 183C, or 283C, or 283S, (or Pharmacy 182H).

PHM 383E. Development of Interprofessional Education for Collaborative Practice.

A collaboration between students in pharmacy, nursing, social work, and medicine in the development of educational modules addressing interprofessional education in collaborative practice relating to error disclosure, service learning, healthcare quality improvement. Preprofessional introduction to interprofessional education competencies. Three lecture hours a week for one semester. Pharmacy 383E and Pharmacy PharmD 383E may not both be counted. Offered on the letter-grade basis only. Prerequisite: Completion of the second professional year in the College of Pharmacy.

PHM 183F. Basic Intravenous Admixtures.

Basic principles of injectable and other sterile dosage forms; methods of preparation and evaluation that meet current pharmacy practice standards. One lecture hour a week for one semester. Pharmacy 183F and Pharmacy PharmD 183F may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 388M (or Pharmacy 356C), 188P (or Pharmacy 156P), and credit or registration for 183G (or Pharmacy 183G).

PHM 183G. Basic Intravenous Admixtures Laboratory.

Basic laboratory principles in the preparation and evaluation of injectable and other sterile dosage forms. One lecture hour and three laboratory hours a week for one semester. Pharmacy 183G and Pharmacy PharmD 183G may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 388M (or Pharmacy 356C), 188P (or Pharmacy 156P) and credit or registration for 183F (or Pharmacy 183F).

Three lecture hours a week for one semester. Pharmacy 322P and Pharmacy PharmD 383K may not both be counted. Prerequisite: Credit or registration for Pharmacy PharmD 384L (or Pharmacy 364L).

PHM 183P. Pharmacotherapeutics I Laboratory.

Problem-based laboratory course that integrates the pathophysiology, medicinal chemistry, pharmacology, and therapeutic aspects of various diseases in order to prepare students to make sound therapeutic decisions. Subjects introduced in Pharmacy PharmD 685D. Three laboratory hours a week for one semester. Pharmacy 165P and Pharmacy PharmD 183P may not both be counted. Prerequisite: Credit or registration for Pharmacy PharmD 685D (or Pharmacy 665E).

For each semester hour of credit earned, three laboratory hours a week for one semester. No more than three semester hours may be counted toward the professional pharmacy elective requirement. May be repeated for credit. Prerequisite: Second-professional-year standing and consent of instructor and the dean.

PHM 183S, 283S. Foundations of Professional Development V.

In-depth education and training to promote personal and professional development of students. Built on six interdependent pillars: Self-Awareness, Professionalism, Leadership, Career Development and Planning, Contemporary Issues in Practice, and Interprofessional Collaborative Practice (ICP). Employs a series of seminars, team-based workshops, and interprofessional learning experiences to inculcate students into the College of Pharmacy and profession of pharmacy. Focuses on self-awareness, professionalism, leadership development, career planning and decision-making, contemporary issues in pharmacy practice, and interprofessional collaboration. For each semester hour of credit earned, one lecture hour a week for one semester. Only one of the following may be counted: Pharmacy 182H, Pharmacy PharmD 183C, 283C, 183S, 283S. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 182D, or 282D, or 282T, (or Pharmacy 172H).

PHM 183T, 283T. Foundations of Professional Development VI.

In-depth education and training to promote personal and professional development of students. Built on six interdependent pillars: Self-Awareness, Professionalism, Leadership, Career Development and Planning, Contemporary Issues in Practice, and Interprofessional Collaborative Practice (ICP). Employs a series of seminars, team-based workshops, and interprofessional learning experiences to inculcate students into the College of Pharmacy and profession of pharmacy. Focuses on self-awareness, professionalism, leadership development, career planning and decision-making, contemporary issues in pharmacy practice, and interprofessional collaboration. For each semester hour of credit earned, one lecture hour a week for one semester. Only one of the following may be counted: Pharmacy 192H, Pharmacy PharmD 182D, 282D, or 182T, 282T, (or Pharmacy 172H).
PHM 284M. Pharmacy Professional Communications.
Professional communication skills in interacting with patients and other health care professionals. One lecture hour and three laboratory hours a week for one semester, with additional hours to be arranged. Pharmacy 266P and Pharmacy PharmD 284M may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 287D (or Pharmacy 242D).

PHM 184N. Interprofessional Ethics.
Explores ethical issues in pharmacy practice and health care, with a focus on the perspectives of professionals in the fields of nursing, law, social work, and medicine. One lecture hour a week for one semester. May include five additional discussion hours. Pharmacy 176E and Pharmacy PharmD 184N may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 281L (or Pharmacy 244C), 181P (or Pharmacy 144P), 384L (or Pharmacy 364D), and credit or registration for Pharmacy PharmD 282D (or Pharmacy 172H), 685E (Pharmacy 675E), and 184P (or Pharmacy 175P).

PHM 184P. Pharmacotherapeutics II Laboratory.
Problem-based laboratory that integrates the pathophysiology, medicinal chemistry, pharmacology, and therapeutic aspects of various diseases in order to prepare students to make sound therapeutic decisions. Three laboratory hours a week for one semester. Pharmacy 274S and Pharmacy PharmD 284S may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 281L (or Pharmacy 244C), 181P (or Pharmacy 144P), 384L (or Pharmacy 364D), and credit or registration for Pharmacy PharmD 287D (or Pharmacy 242D), 183D, 283D, 183T, 283T. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 182 and 685D (or Pharmacy 665E) may not both be counted. Pharmacy PharmD 184P may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 181, 182, 483, 184, 185 and 486, or consent of the dean.

PHM 284S. Quality and Patient Safety Interprofessional Education.
Concepts of patient safety and quality improvement. Current and past quality improvement projects are used to demonstrate the model of clinical safety and effectiveness. Reducing and preventing medical errors using the TeamSTEPPS approach; working in interprofessional teams on a quality improvement project. The equivalent of two lecture hours a week for one semester. Pharmacy 274S and Pharmacy PharmD 284S may not both be counted. Prerequisite: Completion of the second professional year in the College of Pharmacy.

PHM 185. Pharmacotherapeutics of Diabetes.
An integrated approach to the etiology and treatment of diabetes. The equivalent of one lecture hour per week for one semester. Pharmacy PharmD 185 and 385G (or Pharmacy 395G) may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 287D (or Pharmacy 242D), or credit or registration for Pharmacy PharmD 181, 182, 483, 184, 185 and 486, or consent of the dean.

PHM 685D. Pharmacotherapeutics I.
An integrated approach (pathophysiology, medicinal chemistry, pharmacology, and therapeutics) to the etiology and treatment of adrenergic-based diseases; cholinergic-based diseases; inflammatory diseases; hypertension; acute and chronic renal disease; and cardiovascular disease, including hyperlipidemia, circulatory problems, thromboembolic disease, myocardial ischemia, myocardial infarction, congestive heart failure, and arrhythmias. Six lecture hours a week for one semester. Pharmacy PharmD 181 and 685D (or Pharmacy 665E) may not both be counted. Pharmacy PharmD 182 and 685D (or Pharmacy 665E) may not both be counted. Pharmacy PharmD 483 and 685D (or Pharmacy 665E) may not both be counted. Pharmacy PharmD 685D (or Pharmacy 665E) and 190 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 282E (or Pharmacy 262D), 195Q (or Pharmacy 163C), 195P (or Pharmacy 163P) and 392P (or Pharmacy 392S).
PHM 685E. Pharmacotherapeutics II.

An integrated approach (pathophysiology, medicinal chemistry, pharmacology, and therapeutics) to the pathogenesis and treatment of bacterial, viral, and fungal infections; immunizations against bacterial and viral diseases; and allergies, asthma, and chronic obstructive pulmonary disease. Six lecture hours a week for one semester. Pharmacy PharmD 685E (or Pharmacy 675E) and 486 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 685D (or Pharmacy 665E) and credit or registration for Pharmacy PharmD 182P (or Pharmacy 175P).

PHM 685F. Pharmacotherapeutics III.

An integrated approach (pathophysiology, medicinal chemistry, pharmacology, and therapeutics) to the etiology and treatment of neurological and psychiatric disorders. Also includes therapeutics of pain management, anesthesia, drug addiction, and oncology. Six lecture hours a week for one semester. Pharmacy PharmD 685F (or Pharmacy 695F) and 288 may not both be counted. Pharmacy PharmD 685F (or Pharmacy 695F) or 291 may not both be counted. Pharmacy PharmD 685F (or Pharmacy 695F) and 292 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 685F (or Pharmacy 675E) and 182P (or Pharmacy 175P), and credit or registration for Pharmacy PharmD 185P (or Pharmacy 185P) and 385G (or Pharmacy 395G).

PHM 385G. Pharmacotherapeutics IV.

An integrated approach (pathophysiology, medicinal chemistry, pharmacology, and therapeutics) to the etiology and treatment of hormonal disorders and gastrointestinal disorders. Three lecture hours a week for one semester. Pharmacy PharmD 184 and 385G (or Pharmacy 395G) may not both be counted. Pharmacy PharmD 185 and 385G (or Pharmacy 395G) may not both be counted. Pharmacy PharmD 385G (or Pharmacy 395G) and 187 may not both be counted. Pharmacy PharmD 385G (or Pharmacy 395G) and 199 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 685E (or Pharmacy 675E) and 182P (or Pharmacy 172P) and credit or registration for Pharmacy PharmD 185P (or Pharmacy 185P) and 685F (or Pharmacy 695F).

PHM 385H. Pharmacotherapeutics of Special Populations.

Subjects include geriatrics, pediatrics, pharmacogenomics, transplant patients, and under-served populations. Three lecture hours a week for one semester. Pharmacy PharmD 385H (or Pharmacy 396D) and 193 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 390N (or Pharmacy 371S), 190P (or Pharmacy 171P), 182F (or Pharmacy 172E), 182P (or Pharmacy 172P), 185P (or Pharmacy 185P), 685F (or Pharmacy 695F), and 385G (or Pharmacy 395G).

PHM 185J. Independent Inquiry into Special Populations.

Companion course to required course, Pharmacy PharmD 385H. Students identify a category issue associated with one of the four major modules of the course (under-served populations, geriatrics, pharmacogenomics, or pediatrics), and work closely with a faculty mentor to complete a comprehensive paper and presentation to the class. For each semester or credit hour earned, the equivalent of one lecture hour a week for one semester. Pharmacy 196G and Pharmacy Pharm D 185J may not both be counted. Offered on the letter-grade basis only. Prerequisite: Registration for Pharmacy PharmD 385H.

PHM 385K. Applied Pharmacy Management.

Examination and application of principles of pharmacy management, with emphasis on human resource management. Subjects include interviewing and selection techniques, assessing job performance, improving the work environment, leadership skills, management skills, managing medication errors, and quality improvement of pharmacy services. Three lecture hours a week for one semester. Pharmacy 326M and Pharmacy PharmD 385K may not both be counted. Prerequisite: Pharmacy PharmD 281L (or Pharmacy 244C) and 181P (or Pharmacy 144P).

PHM 185P. Pharmacotherapeutics III Laboratory.

Problem-based laboratory that integrates the pathology, medicinal chemistry, pharmacology, and therapeutic aspects of various diseases in order to prepare students to make sound therapeutic decisions. Three laboratory hours a week for one semester. Pharmacy 185P and Pharmacy PharmD 185P may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit for Pharmacy PharmD 685E (or Pharmacy 675E), 185P (or Pharmacy 175P), 685F (or Pharmacy 695F), and 385G (or Pharmacy 395G); or credit or registration for Pharmacy PharmD 184P 187, 288, 189, and 190; or consent of the dean.

PHM 486. Pharmacotherapeutics of Infectious Diseases.

An integrated approach to the etiology and treatment of infectious disease. The equivalent of four lecture hours a week for one semester. Pharmacy PharmD 685E (or Pharmacy 675E) and 486 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 181, 184, 184P, and 185; or consent of the dean.

PHM 386G. Spanish for the Pharmacy Professional.

Intermediate communication skills in Spanish. Three lecture hours a week for one semester. Pharmacy 386G and Pharmacy PharmD 386G may not both be counted. Prerequisite: Completion of the second professional year in the College of Pharmacy, and one year of college-level Spanish or consent of instructor.

PHM 386H. Institutional Clinical Skills.

Hands-on experience in an institutional practice care facility; examines pharmacy services, hospital pharmacy management, staff interaction, and the flow of information from pharmacy to bedside. Forty hours a week for two weeks. Pharmacy 377H and Pharmacy PharmD 386H may not both be counted. Offered on the credit/no credit basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy; and Pharmacy PharmD 287D (or Pharmacy 242D), 281L (or Pharmacy 244C), 181P (or Pharmacy 144P), 195Q (or Pharmacy 163C), 195P (or Pharmacy 163P), 384L (or Pharmacy 364D), 284M (or Pharmacy 266P), 190P (or Pharmacy 171P), 390N (or Pharmacy 371S), 282D (or Pharmacy 172H), 685E (or Pharmacy 676E), 182P (or Pharmacy 175P), 184N (or Pharmacy 176E) and 289P (or Pharmacy 277P, or 177G and 177P).

PHM 386K. Pharmacy Association Management.

An introduction to the principles involved in managing pharmacy associations. Students gain practical experience in a community pharmacy. Nine hours of fieldwork a week for one semester. Only one of the following may be counted: Pharmacy 329C, 389C, and Pharmacy PharmD 386K. Prerequisite: Pharmacy PharmD 281L (or Pharmacy 244C) and 181P (or Pharmacy 144P) and consent of instructor.

PHM 186P. Advanced Pharmacotherapeutics Laboratory.

Provides a safe, structured, and supportive laboratory setting for students to develop individual presentation skills necessary for professional practice. Presentations include journal clubs, development of data-driven drug therapy algorithms, and brief case presentations. One lecture hour and three laboratory hours a week for one semester. Pharmacy 194P and Pharmacy PharmD 186P may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit for Pharmacy PharmD 685F (or Pharmacy 695F), 385G (or Pharmacy 395G), and 185P.
PHM 186Q. Experiential Pharmacy Practice and Patient Counseling.
Medication use and dispensing in a practice environment. Counseling skills and techniques for a better understanding of disease states and positive medication outcomes. Three laboratory hours a week for one semester. Pharmacy 176P and Pharmacy PharmD 186Q may not both be counted. Offered on the credit/no credit basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy, and credit or registration for Pharmacy PharmD 685D (or Pharmacy 665E) and 284M (or Pharmacy 266P).

PHM 286R. Advanced Contemporary Compounding.
The art and science of compounding pharmaceutical preparations to develop an advanced understanding of formulation, stability, and quality standards of compounded pharmaceuticals. Focuses on pharmaceutical elegance; developing professional judgement based on limited data to assess the stability and efficacy of a compound before dispensing the preparation; the regulations governing compounding, including those outlined by the United States Pharmacopeial Convention, the Pharmacy Compounding Accreditation Board, and other scientific and professional organizations; mechanisms for evaluation and analysis of the quality of a compounded formulation; and marketing and promotion of compounding services. Two lecture hours a week for one semester. Pharmacy 256R and Pharmacy PharmD 286R may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 388M (or Pharmacy 356C) and 188P (or Pharmacy 156P).

PHM 186S. Advanced Contemporary Compounding Laboratory.
Advanced compounding methods with respect to pharmaceutical dosage forms and formulations, with emphasis placed on creating formulations that satisfy unique patient needs, and a discussion of equipment used by compounding pharmacists to formulate preparations that satisfy those needs. Pharmacy PharmD 186S builds upon compounding skills taught in Pharmacy PharmD 188P. Three laboratory hours a week for one semester. Pharmacy 156S and Pharmacy PharmD 186S may not both be counted. Offered on the letter-grade basis only. Prerequisite: Registration for Pharmacy PharmD 286R.

PHM 187. Pharmacotherapeutics of the Endocrine System.
An integrated approach to the etiology and treatment of disease states of the endocrine system. The equivalent of one lecture hour per week for one semester. Pharmacy PharmD 385G (or Pharmacy 395G) and 187 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 181 and 184P or consent of the dean.

PHM 287D. Introduction to Patient Care.
Basic aspects of caring for patients. Includes fieldwork in a local eldercare facility. One lecture hour and up to three laboratory hours a week for two semesters; and a minimum of twelve additional hours of fieldwork to be arranged over two semesters. Pharmacy 242D and Pharmacy PharmD 287D may not both be counted. Offered on the letter-grade basis only. Prerequisite: For Pharmacy PharmD 287DA, admission to the professional pharmacy curriculum; for 287DB, Pharmacy PharmD 287DA (or Pharmacy 242DA).

PHM 287H, 387H. Community Care Clinical Skills.
Clinical work in a community-based pharmacy practice setting. Includes medication therapy management training, participation in the development of patient care plans, the ability to develop and conduct a public health project, carry out patient exercises, and complete prescription management activities such as patient counseling. For Pharmacy PharmD 287H, 96 hours of fieldwork for one semester, for 387H, 120 hours of fieldwork for one semester. Pharmacy 287H and Pharmacy PharmD 287H, 387H may not both be counted. Offered on the credit/no credit basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy; Pharmacy PharmD 195Q (or Pharmacy 163C), 195P (or Pharmacy 163P), 384L (or Pharmacy 364D), 284M (or Pharmacy 266P), 182P (or Pharmacy 172E), 182P (or Pharmacy 172P), 184N (or Pharmacy 176E), 285P (or Pharmacy 277P) and 392P (or Pharmacy 392S).

Laboratory course examining professional education issues and techniques for students exploring an academic career. For each semester hour of credit earned, three laboratory hours a week for one semester. Only one of the following may be counted: Pharmacy 187J, 287J, 387J, Pharmacy PharmD 187J, 287J, 387J. Prerequisite: Completion of all first-year professional coursework and consent of the dean.

PHM 687K. Pharmacy Association Management Residency.
Experience working in a pharmacy association, including active involvement in some managerial aspect of the association. Eighteen hours of fieldwork a week for one semester. Only one of the following may be counted: Pharmacy 629D, 689D, Pharmacy PharmD 687K. Prerequisite: Pharmacy PharmD 384L (or Pharmacy 364D) and consent of instructor.

PHM 387M. Physical and Chemical Principles of Drugs.
Fundamental, introductory principles of pharmaceutics, including thermodynamics, kinetics, and other basic chemical principles related to drugs. Three lecture hours a week for one semester. Pharmacy 342C and Pharmacy PharmD 387M may not both be counted. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum, and credit or registration for Pharmacy PharmD 187P (or Pharmacy 142P).

PHM 287N. Biopharmaceutics.
Complements the basic pharmaceutics principles covered in Pharmacy PharmD 387M. Subjects include core concepts in biopharmaceutics of drugs. Two lecture hours a week for one semester. Pharmacy 252C and Pharmacy PharmD 287N may not both be counted. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum.

PHM 187P. Physical and Chemical Principles of Drugs Laboratory.
Problem-based learning exercises to reinforce the material presented in Pharmacy PharmD 387M. One lecture hour and three laboratory hours a week for one semester. Pharmacy 142P and Pharmacy PharmD 187P may not both be counted. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum, and credit or registration for Pharmacy PharmD 387M (or Pharmacy 342C).

PHM 187R. Exploratory Research in Pharmacy.
The student participates in ongoing in-depth research activities in pharmaceutics, medicinal chemistry, toxicology, pharmacology, pharmacy administration, pharmacy practice, or pharmacotherapy. At least seven research hours a week for one semester. May be repeated for credit. Prerequisite: Pharmacy PharmD 181R (or Pharmacy 151R) and admission to the Pharmacy Honors Program, or consent of the dean.
PHM 288. Pharmacotherapeutics of Oncology and Transplant.
An integrated approach to the etiology and treatment of disease states related to oncology and transplants. The equivalent of two lecture hours per week for one semester. Pharmacy PharmD 685P (or Pharmacy 695P) and 288 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 181 and 184P, or consent of the dean.

PHM 288H. Pharmacy Honors Proposal and Tutorial Course.
Honors seminar; development of laboratory research proposal for approval by the Honors Program Committee. One lecture hour and three hours of independent research a week for one semester. Pharmacy 278H and Pharmacy PharmD 288H may not both be counted. Prerequisite: Admission to the Pharmacy Honors Program.

PHM 388K. Hospital Pharmacy.
Basic principles, standards, and procedures involved in providing professional pharmaceutical services in hospitals. Three lecture hours a week for one semester. Pharmacy 372K and Pharmacy PharmD 388K may not both be counted. Prerequisite: Admission to the professional pharmacy curriculum.

PHM 388M. Pharmaceutics.
General introduction to dosage forms, and the technology and pharmaceutical rationale fundamental to their development. Three lecture hours a week for one semester. Pharmacy 356C and Pharmacy PharmD 388M may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 387M (or Pharmacy 342C) and 187P (or Pharmacy 142P) and credit or registration for Pharmacy PharmD 188P (or Pharmacy 156P).

PHM 188P. Pharmaceutics Laboratory.
Laboratory course supporting the subjects discussed in Pharmacy PharmD 388M. One hour of pre-laboratory lecture and three laboratory hours a week for one semester. Pharmacy 156P and Pharmacy PharmD 188P may not both be counted. Prerequisite: Credit or registration for Pharmacy PharmD 388M (or Pharmacy 356C).

PHM 189. Pharmacotherapeutics of the Reproductive System.
An integrated approach to the etiology and treatment of disease states related to reproductive health. The equivalent of one lecture hour per week for one semester. Pharmacy PharmD 385G (or Pharmacy 395G) and 189 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 181 and 184P, or consent of the dean.

PHM 489H. Pharmacy Honors Thesis and Tutorial Course.
Honors seminar; laboratory research project conducted under the supervision of one or more faculty members. One lecture hour and nine laboratory hours a week for one semester. Pharmacy 479H and Pharmacy PharmD 489H may not both be counted. Prerequisite: Pharmacy PharmD 288H (or Pharmacy 278H).

PHM 389K. Social Media and Consumer Healthcare.
An exploration of how social media is transforming healthcare and improving patient outcomes. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 282E (or Pharmacy 262D), 182F (or Pharmacy 172E), and 182P (or Pharmacy 172P).

PHM 289P. Introduction to Clinical Skills Laboratory.
Designed to develop the practical skills necessary in a pharmacy setting, with a focus on patient histories, how to read and interpret patient charts, adult immunizations (including APhA certification), and training and certification in CPR from American Heart Association facilitators. Laboratory includes practical application of pharmacy clinical skills. One lecture hour and three laboratory hours a week for one semester. Pharmacy 277P and Pharmacy PharmD 289P may not both be counted. Offered on the letter-grade basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy; Pharmacy PharmD 284M (or Pharmacy 266P) and 392P (or Pharmacy 392S); and credit or registration for Pharmacy PharmD 685E (or Pharmacy 675E) and 184P (or Pharmacy 175P).

PHM 189S, 289S, 389S. Community Service Learning.
Community-based participatory projects designed to connect coursework and community service experiences. Past and present health issues specific to the Texas region (such as United States-Mexico border issues), national and regional health initiatives, service challenges and opportunities, as well as personal/professional identities and responsibilities to the community. Projects developed in consultation with a faculty mentor and a selected community site. Includes an academic service-learning component. For each semester credit hour earned, one lecture hour a week for one semester; with a minimum of two fieldwork hours a week at a service-learning site to be arranged. Only one of the following may be counted: Pharmacy 169S, 269S, 369S, Pharmacy PharmD 189S, 289S, 389S. Offered on the letter-grade basis only. Prerequisite: Completion of the second professional year in the College of Pharmacy.

PHM 190. Pharmacotherapeutics of Dermatology and Inflammatory Processes.
An integrated approach to the etiology and treatment of disease states of the dermis. Includes inflammatory responses. The equivalent of one lecture hour per week for one semester. Pharmacy PharmD 685D (or Pharmacy 665E) and 190 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 181, PHM 184P, or consent of the dean.

PHM 390C. Communication Skills for Health Professionals.
Designed for pharmacy, pre-pharmacy, premedical, predental, and nursing students. Enhancement of verbal communication skills for professional and public presentations, patient consultations, and interviewing. Three lecture hours a week for one semester. Only one of the following may be counted: Pharmacy 370C, Pharmacy PharmD 370C, or Pharmacy PharmD 390C. Offered on the letter-grade basis only.

PHM 290D. Nutritional Aspects of Clinical Pharmacy.
Explores the interrelationships of nutrition, disease, and drug therapy, including aspects of both normal and clinical nutrition, nutritional deficiencies, and the metabolic consequences or diseases associated with malnutrition. Patient case studies examine both the effects of drug therapy on nutrition and the effects of nutrition on drug therapy. Disease states covered include cardiovascular disease, diabetes, hepatic and renal failure, and anemia. Two lecture hours a week for one semester. Pharmacy 270D and Pharmacy PharmD 290D may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 685F (or Pharmacy 695F) and 385G (or Pharmacy 395G).

Group discussions with an emphasis on clinically relevant drug-drug interactions, mechanisms, significance, and clinical management. Three lecture hours a week for one semester. Prerequisite: Completion of the second professional year in the College of Pharmacy and consent of instructor.
PHM 290L. Introduction to Nuclear Pharmacy.
An overview of nuclear pharmacy, a recognized specialty area of pharmacy practice focusing on the compounding and dispensing of radioactive materials for use in nuclear medicine procedures (therapeutic, diagnostic, and imaging). Two lecture hours a week for one semester. Pharmacy 270N and Pharmacy PharmD 290L may not both be counted. Prerequisite: Pharmacy PharmD 287N (or Pharmacy 252C), 190P (or Pharmacy 171P) and 390N (or Pharmacy 371S); or consent of instructor.

PHM 290M. Inpatient Adult Medicine.
Clinical therapeutic management of adult patients in an inpatient, institutional (primarily hospital) setting. Two lecture hours a week for one semester. Pharmacy 270M and Pharmacy PharmD 290M may not both be counted. Offered on the letter-grade basis only. Prerequisite: Completion of the second professional year in the College of Pharmacy.

PHM 390N. Integrated Basic and Applied Pharmacokinetics.
Introduction to pharmacokinetic principles; and the application of principles to specific drugs and patient situations. Three lecture hours a week for one semester. Pharmacy 371S and Pharmacy PharmD 390N may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 387M (or Pharmacy 342C), 187P (or Pharmacy 142P), 287N (or Pharmacy 252C), 388M (or Pharmacy 356C), and 188P (or Pharmacy 156P); and credit or registration for Pharmacy PharmD 171P (or Pharmacy 171P), 675E (or Pharmacy 675E), and 175P (or Pharmacy 175P).

PHM 190P. Integrated Basic and Applied Pharmacokinetics Laboratory.
Problem-based and case-based application of pharmacokinetic principles to specific drugs and patient situations. One lecture hour and three laboratory hours a week for one semester. Pharmacy 171P and Pharmacy PharmD 190P may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 390N (or Pharmacy 371S).

PHM 390S. Interprofessional Community Service Learning.
Integration of community service with contemporary pharmacy practice, with a focus on social justice and social determinants of health care. Weekly online didactic modules, a minimum of fifty hours of service learning practicum with a community partner, and twice monthly group meetings. Pharmacy 370S and Pharmacy PharmD 390S may not both be counted. Offered on the letter-grade basis only. Prerequisite: Completion of the second professional year in the College of Pharmacy.

PHM 390T. Pharmacy International Exchange.
Work in an exchange program with international colleges and schools of pharmacy as partners. Examination of similarities and differences between pharmacy education, professional practice, and/or research in the hosting country and in the United States. Forty hours of fieldwork a week for one semester. Pharmacy 390T and Pharmacy PharmD 390T may not both be counted. Prerequisite: Completion of the first professional year in the College of Pharmacy and consent of instructor.

PHM 390V. Patient Safety.
Covers methods to ensure patient safety, prevent misadventures, and develop policy associated with patient safety and misadventure prevention. Three lecture hours a week for one semester. Only one of the following may be counted: Pharmacy 361J (Topic: Patient Safety and You), 390V, and Pharmacy PharmD 390V. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 284M (or Pharmacy 266P).

PHM 290W. Health Leadership.
Develops skills necessary to identify and establish professional goals, build and lead teams, delegate effectively, resolve conflicts, network for career advancement, document leadership experiences/abilities on curriculum vitae and in recommendation letters, and demonstrate leadership abilities during job interviews. Two lecture hours a week for one semester. Only one of the following may be counted: Pharmacy 261J (Topic: Health Leaders), 290W or Pharmacy PharmD 290W. Offered on the letter-grade basis only.

PHM 291. Pharmacotherapeutics of Pain and Addiction.
An integrated approach to the etiology and treatment of disease states related to pain and addiction. The equivalent of two lecture hours per week for one semester. Pharmacy PharmD 685F (or Pharmacy 695F) and 291 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 181 or consent of the dean.

PHM 291K. Pediatric Pharmacotherapy.
Pathophysiology and pharmacotherapy of selected pediatric diseases. Designed to expose students to pediatric pharmacy as a potential area of focus, and to prepare them for a potential residency or practice in providing pharmaceutical care in a pediatric setting. Two lecture hours a week for one semester. Pharmacy 282Q and Pharmacy PharmD 291K may not both be counted. Prerequisite: Completion of the first professional year in the College of Pharmacy.

PHM 191L. Leadership in Community Service Learning.
Designed for students enrolled in Pharmacy PharmD 390S and 381H who elect to serve in a leadership role for the community service-learning project. Involves coordination and organization of responsibilities at each phase of the project, communication with community partners, and additional outreach based on the needs of the community partner. Includes development of a plan and disseminate of the project outcomes. A minimum of six in-person meetings with the instructor, with additional meetings scheduled as needed, including online and by telephone. Pharmacy 171L and Pharmacy PharmD 191L may not both be counted. Prerequisite: Credit or registration for Pharmacy PharmD 390S (or Pharmacy 370S) or 381H (or Pharmacy 381H).

PHM 291M. Introduction to Ambulatory Care Pharmacy.
Clinical and non-clinical topics relevant to treating commonly encountered disease states, effectively communicating with patients, and managing a clinical pharmacy practice in an ambulatory setting. Emphasis on application of concepts learned in previous classes to real-world situations. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; Pharmacy PharmD 282E, and 182F, and 182P.

PHM 191U. Foundations for Interprofessional Collaborative Practice I.
Restricted to students in the College of Pharmacy. Introduces and reinforces interprofessional education core competencies delivered through classroom-based interactive sessions, simulations, field-based immersive experiences, and experiential learning with students and members of other professions. Imparts the foundational knowledge and skills necessary for the delivery of quality and safe patient-centered and population-oriented care as a contributing member of a healthcare team. One lecture hour per week and six interprofessional sessions for one semester. Offered on the letter-grade basis only.

PHM 191V. Foundations for Interprofessional Collaborative Practice II.
Restricted to students in the College of Pharmacy. Introduces and reinforces interprofessional education core competencies delivered
PHM 192V. Foundations for Interprofessional Collaborative Practice IV.

Restricted to students in the College of Pharmacy. Introduces and reinforces interprofessional education core competencies delivered through classroom-based interactive sessions, simulations, field-based immersive experiences, and experiential learning with students and members of other professions. Imparts the foundational knowledge and skills necessary for the delivery of quality and safe patient-centered and population-oriented care as a contributing member of a healthcare team. One lecture hour per week and six interprofessional sessions for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 191U.

PHM 391W. Leadership and Advocacy in Pharmacy.

A discussion forum for exploring current legislative and regulatory issues influencing the pharmacy profession. Focuses on retrieving legislative and regulatory information, interpreting legislation, regulations and their potential impacts, engaging in discussion on various perspectives of the issues and presenting information on legislation and regulations that impact pharmacy practice. Three lecture hours a week for one semester. Only one of the following may be counted: Pharmacy 361J (Topic: Leadership and Advocacy in Pharmacy), 391W, and Pharmacy PharmD 391W. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum.

PHM 292. Pharmacotherapeutics of Psychiatric Disorders.

An integrated approach to the etiology and treatment of disease states related to psychiatrics. The equivalent of two lecture hours per week for one semester. Pharmacy PharmD 685F (or Pharmacy 695F) and 292 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 181 or consent of the dean.

PHM 292G, 392G. Herbal and Botanical Supplements.

A practice-based approach to learning about the most common herbal and botanical supplements in a pharmacy practice setting, including review of studies of popular uses, clinical indications, pharmacological effects, mechanisms of action, side effects, contraindications, and common dosage guidelines. Discussion of the legal, regulatory, and ethical aspects, in addition to analyzing manufacturing quality issues and counterfeit products is also addressed. For each semester hour of credit earned, one lecture hour a week for one semester. Only one of the following may be counted: Pharmacy 292G, 392G, Pharmacy PharmD 292G, 392G. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 282E (or Pharmacy 262D), 195Q (or Pharmacy 163C), and 182F (or Pharmacy 172E).

PHM 392P. Patient Assessment Skills Laboratory.

Introduction to patient assessment techniques skills needed to provide pharmaceutical care. Two lecture hours and three laboratory hours a week for one semester. Pharmacy 392S and Pharmacy PharmD 392P may not both be counted. Offered on the letter-grade basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy, and Pharmacy PharmD 480C (or Pharmacy 253C) and 480D (or Pharmacy 253D).

PHM 192U. Foundations for Interprofessional Collaborative Practice III.

Restricted to students in the College of Pharmacy. Introduces and reinforces interprofessional education core competencies delivered through classroom-based interactive sessions, simulations, field-based immersive experiences, and experiential learning with students and members of other professions. Imparts the foundational knowledge and skills necessary for the delivery of quality and safe patient-centered and population-oriented care as a contributing member of a healthcare team. One lecture hour per week and six interprofessional sessions for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 191V.

PHM 193. Pharmacotherapeutics of Neurologic Disorders.

An integrated approach to the etiology and treatment of disease states related to neurology. The equivalent of one lecture hour per week for one semester. Pharmacy PharmD 385H (or Pharmacy 396D) and 193 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 181 or consent of the dean.

PHM 693C. Ambulatory Care Pharmacy Practice.

Analysis of pharmacotherapy, evaluation of drug use, and synthesis of rational drug regimens in the context of ambulatory patient care. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. Pharmacy 693C and Pharmacy PharmD 693C may not both be counted. Offered on the credit/no credit basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy; during the fall and spring semesters, concurrent enrollment in two of the following: Pharmacy PharmD 693E (or Pharmacy 693E), 693N (or Pharmacy 693N), 693P (or Pharmacy 693P), 693S (or Pharmacy 693S), 694C (or Pharmacy 694C), 694E (or Pharmacy 694E), 694S (or Pharmacy 694S), or 695E (or Pharmacy 695E).

PHM 693E. Elective in Pharmacy Practice I.

Experience in pharmacy practice, research, or administration. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. Pharmacy 693E and Pharmacy PharmD 693E may not both be counted. Offered on the credit/no credit basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy; during the fall and spring semesters, concurrent enrollment in two of the following: Pharmacy PharmD 693C (or Pharmacy 693C), 693N (or Pharmacy 693N), 693P (or Pharmacy 693P), 693S (or Pharmacy 693S), 694C (or Pharmacy 694C), 694E (or Pharmacy 694E), 694S (or Pharmacy 694S), or 695E (or Pharmacy 695E).

PHM 693N. Advanced Hospital Pharmacy Practice.

Analysis of pharmacotherapy, evaluation of drug use, synthesis of rational drug regimens, and dispensing of medications in the context of institutional patient care. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. Pharmacy 693N and Pharmacy PharmD 693N may not both be counted. Offered on the credit/no credit basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy; during the fall and spring semesters, concurrent enrollment in two of the following: Pharmacy PharmD 693C (or Pharmacy 693C), 693P (or Pharmacy 693P), 693S (or Pharmacy 693S), 694C (or Pharmacy 694C), 694E (or Pharmacy 694E), 694S (or Pharmacy 694S), or 695E (or Pharmacy 695E).
PHM 693P. Advanced Community Pharmacy Practice.
Analysis of pharmacotherapy, evaluation of drug use, synthesis of rational drug regimens, and dispensing of medications in the context of community-based patient care. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. Pharmacy 693P and Pharmacy PharmD 693P may not both be counted. Offered on the credit/no credit basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy; during the fall and spring semesters, concurrent enrollment in two of the following: Pharmacy PharmD 693C (or Pharmacy 693C), 693E (or Pharmacy 693E), 693N (or Pharmacy 693N), 693S (or Pharmacy 693S), 694C (or Pharmacy 694C), 694E (or Pharmacy 694E), 694S (or Pharmacy 694S), or 695E (or Pharmacy 695E).

PHM 693R. Supplemental Rotation in Pharmacy Practice I.
Analysis of pharmacotherapy, evaluation of drug use, and synthesis of rational drug regimens in the context of patient care. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy.

PHM 693S. Selective in Pharmacy Practice I.
Analysis of pharmacotherapy, evaluation of drug use, and synthesis of rational drug regimens in a selected pharmacy practice environment. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. Pharmacy 693S and Pharmacy PharmD 693S may not both be counted. Offered on the credit/no credit basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy; during the fall and spring semesters, concurrent enrollment in two of the following: Pharmacy PharmD 693C (or Pharmacy 693C), 693E (or Pharmacy 693E), 693N (or Pharmacy 693N), 693P (or Pharmacy 693P), 694C (or Pharmacy 694C), 694E (or Pharmacy 694E), 694S (or Pharmacy 694S), or 695E (or Pharmacy 695E).

PHM 193U. Foundations for Interprofessional Collaborative Practice V.
Restricted to students in the College of Pharmacy. Introduces and reinforces interprofessional education core competencies delivered through classroom-based interactive sessions, simulations, field-based immersive experiences, and experiential learning with students and members of other professions. Imparts the foundational knowledge and skills necessary for the delivery of quality and safe patient-centered and population-oriented care as a contributing member of a healthcare team. One lecture hour per week and six interprofessional sessions for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 192V.

PHM 193V. Foundations for Interprofessional Collaborative Practice VI.
Restricted to students in the College of Pharmacy. Introduces and reinforces interprofessional education core competencies delivered through classroom-based interactive sessions, simulations, field-based immersive experiences, and experiential learning with students and members of other professions. Imparts the foundational knowledge and skills necessary for the delivery of quality and safe patient-centered and population-oriented care as a contributing member of a healthcare team. One lecture hour per week and six interprofessional sessions for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 193U.

PHM 693W. Elective International Pharmacy Experience.
Competitive placement for an international advanced pharmacy experience. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. Pharmacy 693W and Pharmacy PharmD 693W may not both be counted. Offered on the credit/no credit basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy.

PHM 694C. Inpatient General Medicine Pharmacy Practice.
Analysis of pharmacotherapy, evaluation of drug use, and synthesis of rational drug regimens in the context of acute patient care. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. Pharmacy 694C and Pharmacy PharmD 694C may not both be counted. Offered on the credit/no credit basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy; during the fall and spring semesters, concurrent enrollment in two of the following: Pharmacy PharmD 693C (or Pharmacy 693C), 693E (or Pharmacy 693E), 693N (or Pharmacy 693N), 693P (or Pharmacy 693P), 693S (or Pharmacy 693S), 694E (or Pharmacy 694E), 694S (or Pharmacy 694S), or 695E (or Pharmacy 695E).

PHM 694E. Elective in Pharmacy Practice II.
Experience in pharmacy practice, research, or administration. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. Pharmacy 694E and Pharmacy PharmD 694E may not both be counted. Offered on the credit/no credit basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy; during the fall and spring semesters, concurrent enrollment in two of the following: Pharmacy PharmD 693C (or Pharmacy 693C), 693E (or Pharmacy 693E), 693N (or Pharmacy 693N), 693P (or Pharmacy 693P), 693S (or Pharmacy 693S), 694C (or Pharmacy 694C), 694S (or Pharmacy 694S), or 695E (or Pharmacy 695E).

PHM 394F. Pharmacoeconomics.
Terms, concepts, procedures, methods, problems, and strengths associated with pharmacoeconomics. Three lecture hours a week for one semester. Only one of the following may be counted: Pharmacy 393T, 394F, Pharmacy Graduate Studies 393T, Pharmacy PharmD 394F. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 384L (or Pharmacy 364D) or consent of instructor.

PHM 694R. Supplemental Rotation in Pharmacy Practice II.
Analysis of pharmacotherapy, evaluation of drug use, and synthesis of rational drug regimens in the context of patient care. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy.

PHM 694S. Selective in Pharmacy Practice II.
Analysis of pharmacotherapy, evaluation of drug use, and synthesis of rational drug regimens in selected pharmacy practice environments. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. Pharmacy 694S and Pharmacy PharmD 694S may not both be counted. Offered on the credit/no credit basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy; during the fall and spring semesters, concurrent enrollment in two of the following:
Pharmacy PharmD 693C (or Pharmacy 693C), 693E (or Pharmacy 693E), 693N (or Pharmacy 693N), 693P (or Pharmacy 693P), 693S (or Pharmacy 693S), 694C (or Pharmacy 694C) 694E (or Pharmacy 694E), or 695E (or Pharmacy 695E).

**PHM 695E. Elective in Pharmacy Practice III.**
Experience in pharmacy practice, research, or administration. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. Pharmacy 695E and Pharmacy PharmD 695E may not both be counted. Offered on the credit/no credit basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy; during the fall and spring semesters, concurrent enrollment in two of the following: Pharmacy PharmD 693C (or Pharmacy 693C), 693E (or Pharmacy 693E), 693N (or Pharmacy 693N), 693P (or Pharmacy 693P), 693S (or Pharmacy 693S), 694C (or Pharmacy 694C) 694E (or Pharmacy 694E) or 694S (or Pharmacy 694S).

**PHM 195P. Drug Information and Evidence-Based Practice Laboratory.**
Practical application of the concepts presented in Pharmacy 195Q. Includes assignments, projects, and oral presentations. Three laboratory hours a week for one semester. Pharmacy 163P and Pharmacy PharmD 195P may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 282E (or Pharmacy 262D), 195Q (or Pharmacy 163C), and 685D (or Pharmacy 665E).

**PHM 195Q. Drug Information and Evidence-Based Practice.**
Knowledge and skills needed to retrieve and interpret drug information. Interpretation of biomedical literature and an introduction to concepts of evidence-based practice. One lecture hour a week for one semester. Pharmacy 163C and Pharmacy PharmD 195Q may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 287D (or Pharmacy 242D); or credit or registration for Pharmacy PharmD 282E (or Pharmacy 262D), 195P (or Pharmacy 163P), and 685D (or Pharmacy 665E).

**PHM 295R. Advanced Evidence-Based Practice.**
Research methodology and biostatistical concepts as they relate to the interpretation and critical evaluation of biomedical literature. Designed to build upon the material covered in Pharmacy PharmD 195Q. Two lecture hours a week for one semester. Pharmacy 295R and Pharmacy PharmD 295R may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 195Q (or Pharmacy 163C), 195P (or Pharmacy 163P), 185P (or Pharmacy 185P), 685F (or Pharmacy 695F), and 385G (or Pharmacy 395G).

**PHM 398T. College Teaching Methodology.**
Interdisciplinary course intended to provide a foundation of theoretical and practical knowledge relating to teaching at the postsecondary level. Subjects include instructional methods, instructional design, practice teaching, teaching philosophy, instructional technology, and assessment of learning. Includes class discussions and individual consultations. Three lecture hours a week for one semester. Only one of the following may be counted: Pharmacy 368T, 398T, Pharmacy Graduate Studies 398T, Pharmacy PharmD 398T. Offered on the letter-grade basis only. Prerequisite: Completion of the second professional year in the College of Pharmacy, or consent of instructor.
General Information and Courses

The Lyndon B. Johnson School of Public Affairs offers the Master of Global Policy Studies, the Master of Public Affairs, and the Doctor of Philosophy with a major in public policy. Information is given in the Graduate Catalog about these programs and about the requirements for admission to graduate study.

In addition to the graduate courses described in the Graduate Catalog, the faculty has approval to offer the following courses in the academic years 2018-2019 and 2019-2020, however, not all courses are taught each semester or summer session. Students should consult the Course Schedule to determine which courses and topics will be offered during a particular semester or summer session. The Course Schedule may also reflect changes made to the course inventory after the publication of this catalog.

A full explanation of course numbers is given in General Information. In brief, the first digit of a course number indicates the semester hour value of the course. The second and third digits indicate the rank of the course; if they are 01 through 19, the course is of lower-division rank; if 20 through 79, of upper-division rank; if 80 through 99, of graduate rank.

Public Affairs: P A

Lower-Division Courses

P A 310C. Public Policy.
Skill topics, including economics, quantitative methods, public financial management, policy development, and public administration. Three lecture hours a week for one semester. Public Affairs 310C and 330C may not both be counted unless the topics vary. May be repeated for credit when the topics vary.

P A 310S. Public Policy Seminar.
Seminar with topics related to domestic or international public policy. Three lecture hours a week for one semester. Public Affairs 310S and 330S may not both be counted unless the topics vary. May be repeated for credit when the topics vary.

Upper-Division Courses

P A 325. Topics in Policy.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

 Topic 1: Advanced Seminar in Ethical Leadership. Public Affairs 325 (Topic: Advanced Seminar in Ethical Leadership) and 325 (Topic 1) may not both be counted.

P A 326. Topics in Policy.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only.

P A 330C. Public Policy.
Skill topics, including economics, quantitative methods, public financial management, policy development, and public administration. Three lecture hours a week for one semester. Public Affairs 310C and 330C may not both be counted unless the topics vary. May be repeated for credit when the topics vary.

P A 330S. Public Policy Seminar.
Seminar with topics related to domestic or international public policy. Three lecture hours a week for one semester. Public Affairs 310S and 330S may not both be counted unless the topics vary. May be repeated for credit when the topics vary.

P A 150. Public Service and Practice.
Restricted to sophomore, junior, and senior-level undergraduates. Topics related to public service fields and the skills used by effective leaders. One lecture hour a week for one semester, with additional hours for some topics. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

P A 150S. Issues in Public Service.
Topics in issues and decision-making that arise in the practice of public service. One lecture hour a week for one semester, with additional hours for some topics. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

P A 159R. Public Policy Issues.
Current issues in public policy. The equivalent of one lecture hour a week for one semester, with additional hours to be arranged. May be repeated for credit when the topics vary. Offered on the pass/fail basis only.

P A 159S. Public Policy Issues.
Current issues in public policy. Hours to be arranged. May be repeated for credit when the topics vary.

P A 159T. Public Policy Issues.
Current issues in public policy. Hours to be arranged. May be repeated for credit when the topics vary. Offered on the letter-grade basis only.

General Information

Accreditation

The bachelor of social work degree program is accredited by the Council on Social Work Education.

Mission

The Steve Hicks School of Social Work provides professional education and leadership in social work practice, research, and service to promote social and economic justice, enhance social welfare, and build strong community-University partnerships.

The mission of the Bachelor of Social Work (BSW) program is to prepare students as beginning level generalist professional social work practitioners who are committed to the provision of services that further the well-being of people and who promote social and economic justice. Building on a broad liberal arts framework, the BSW curriculum is designed to develop generalist practitioners who have an understanding of social work knowledge and values and are able to select different methods and resources to meet identified client needs, while recognizing and engaging the strengths of the client in the process. The curriculum offers students the opportunity to learn to promote, restore, maintain, and enhance the social functioning of multiple levels of systems in the environment, including individuals, families, small groups, organizations, and communities; to recognize worker and client limitations; and to know when to refer clients to other resources.

The BSW student is given the opportunity to learn to work collaboratively in a variety of settings using an ecosystems/developmental perspective; to recognize the relationships between client needs and public issues; to work toward the development of social policies, resources, and programs that meet basic human needs and empower at-risk groups; and to be sensitive to the diversities among individuals, including ethnicity, gender, age, sexual orientation, religion, and ability. The program is intended to prepare reflective, self-evaluating practitioners who have a strong identification with the social work profession and work to alleviate poverty, oppression, and discrimination.

Graduates of the program are expected to be able to enhance the problem-solving, coping, and developmental capacities of individuals, especially those from at-risk populations. They also are expected to contribute to the effective and humane operation of the systems within the environment that provide individuals with resources, services, and opportunities; to link individuals in need with the appropriate systems; and to contribute to the development and improvement of social policies that have an impact on people and their social environments, especially by empowering at-risk groups and by promoting social and economic justice.

The BSW program is integrated with and builds upon a liberal arts base that includes knowledge in language arts, the humanities, and the social, behavioral, and natural sciences. The curriculum includes content in social work values, diversity and at-risk populations, social and economic justice, human behavior and the social environment, research, social welfare policy and services, and social work intervention.

Program Objectives

Students graduating from the BSW program are expected to demonstrate the following characteristics:

1. A professional identity that incorporates the values and ethics of the social work profession and the professional development of self.
2. The ability to work with diverse populations with an understanding of, and respect for, the positive value of diversity, including ethnicity, gender, sexual orientation, age, ability, and religion, and to use communication skills differentially with diverse groups.
3. An understanding of the forms and mechanisms of oppression and discrimination.
4. The ability to apply strategies and skills that advance social and economic justice and to address the oppression of at-risk populations.
5. An understanding of the biological, psychological, social, and cultural contexts of changing client systems, including individuals, families, groups, organizations, communities, and the broader society, and their effects on development and behavior.
6. Beginning level competencies in research and evaluation, including the ability to evaluate research studies and apply their findings to practice, and, under supervision, evaluate their own practice interventions and those of other relevant systems.
7. An understanding of how social policy develops and differentially affects various client systems, workers, and agencies.
8. An understanding of the role the social work profession has played in promoting social change, historically and currently.
9. The attainment of knowledge and skills that demonstrate the ability to practice effectively with individuals, families, groups, organizations, and communities, in a manner that empowers client systems and uses their strengths in order to maximize their health and well-being.
10. An ability to apply critical thinking skills within the context of professional social work roles and practice.
11. An awareness of their responsibility to continue their professional growth and development, including the use of supervision appropriate to generalist practice.

History

The Steve Hicks School of Social Work was established as a graduate program in 1949 and began classes in the fall of 1950 with 24 students enrolled in the Master of Science in Social Work (MSSW) program. Undergraduate courses in social work were first offered in 1958. These were incorporated into a full Bachelor of Social Work (BSW) program in the fall of 1974.

The first BSW degree was awarded in December 1977. Since that time, the program has been strengthened by curriculum modifications reflecting changes in the profession and in society that have implications for beginning social work practice.

The Steve Hicks School of Social Work also offers programs leading to the Master of Science in Social Work and the Doctor of Philosophy. These are described in the Graduate Catalog (http://catalog.utexas.edu/graduate/fields-of-study/social-work).
Facilities

The Steve Hicks School of Social Work Building (1925 San Jacinto Boulevard) provides space for social work classes, including classrooms equipped for distance learning and an instructional technology classroom; offices for faculty and staff; an advising center and student services area; and a student lounge. The building also houses the Learning Resource Center (LRC), which has an extensive collection of social work related books, journals, and other publications partially funded by the Josleen Lockhart Memorial Book Fund. The LRC includes a computer laboratory for student use and provides space, equipment, and technical assistance for studying, meetings of small groups of students, viewing audiovisual materials, videotaping, and completing other skills-based learning assignments. The Steve Hicks School of Social Work Building also houses the Center for Social Work Research, the DiNitto Center for Career Services, and Con Mi Madre.

Financial Assistance Available through the School

Although many University scholarships are awarded through the Office of Financial Aid, a limited number are awarded by the Steve Hicks School of Social Work to undergraduate social work students. Awards are made for reasons ranging from academic promise to financial need. Scholarship information, including eligibility requirements and the application process, is available through the Office of Academic Affairs. Additional scholarships funded by yearly contributions to the Steve Hicks School of Social Work are awarded to undergraduate social work students who are nominated by faculty on the basis of academic excellence, financial need and potential contributions to the social work profession.

Student Services

Academic Advising

The Office of Academic Affairs in the Steve Hicks School of Social Work seeks to assist the student in exploring social work as a career choice, in planning an academic program suited to the student's interests and talents, in seeking help with academic or personal problems, and in post-graduation planning, whether for employment or for further study. The Office of Academic Affairs also provides administrative support and student services, including maintenance of academic records, provision of official degree audits, and graduation certification for social work majors. Faculty and staff members are also available to assist students with questions about scholarship programs, degree requirements, rules and regulations, and other available campus services. Students who declare an interest in completing the social work program are required to meet with a social work adviser at least once each semester for academic advising. To arrange an appointment with an adviser, students should contact the Office of Academic Affairs.

During the student's first and second academic years, the student and the adviser discuss the student's career choice, the selection of a major, degree requirements, and requirements for admission to the major and to upper-division courses in social work; during the third year, the course work required for the major and the student's preparation for entry into the field practicum; and during the fourth year, the field practicum and the student's post-graduation plans.

Career Choice Information

Students interested in social work as a career are encouraged to discuss this interest at any time with a social work adviser. Advisers are available in the Office of Academic Affairs to help students explore social work practice and settings and the development of interest in social work through academic, volunteer and service learning experiences. Students are encouraged to use the variety of career services available through the DiNitto Center for Career Services (http://www.utexas.edu/ssw/dccs).

Members of the social work faculty are available to assist the student in choosing a career, as are the staff and resources of the University's Sanger Learning Center, the Volunteer and Service Learning Center, and the Center for Strategic Advising and Career Counseling in the School of Undergraduate Studies. Since the social work program requires admission to the major and completion of 122 semester hours, students are encouraged to discuss their interest in social work as a career early in their studies.

Career Services

Career development services are provided to students preparing to enter the professional job market. Students should inquire in the DiNitto Center for Career Services, Steve Hicks School of Social Work Building 2.214. The office maintains a listserv of employment opportunities and provides information about social work careers, graduate programs, online resources, and other opportunities for professional development, volunteer and service learning placements, and social work licensure. Workshops and other programs are offered on the fields of social work practice, résumé preparation, and job search and interview skills.

Professional social workers may seek employment in a number of areas. The Texas Department of Aging and Disability Services has established quality control standards that mandate the hiring of holders of BSW degrees in designated positions. The Texas Department of Family and Protective Services hires social workers for its child protective services programs, and the Texas Health and Human Services Commission hires BSW graduates for its client support services programs. Large nursing home facilities are also required to have a social work staff. Substance use disorder treatment programs, psychiatric hospitals, health care programs, school social work and dropout prevention programs, criminal justice programs, and programs for the elderly also employ social workers. More than a third of the program's graduates go on to graduate schools throughout the country.

As a complement to the assistance available from the school, the University's Sanger Learning Center in Jester Center and the Center for Strategic Advising and Career Counseling in the School of Undergraduate Studies provide comprehensive career services to all students. The centers offer professional assistance to students in choosing or changing their majors or careers, seeking an internship, and planning for the job search or for graduate study.

The University makes no promise to secure employment for each graduate.

Social Work Council

The Social Work Council is an organization open to all students pursuing a social work degree or interested in the social work profession. The purposes of the council are to help students acquire a better understanding of the profession of social work, to provide a mechanism for student input on issues related to the social work curriculum and the school, and to organize and support social work related programs and projects that will benefit students, the school, the University, and the community.

Council activities are often conducted in collaboration with the Office of Academic Affairs. They include orientations to the BSW and MSSW programs, a career night, forums with guest speakers from community agencies and the University, community service projects, special interest groups that meet to discuss social work related topics, and social gatherings. Members of the Council represent student concerns as...
voting members of the school's curriculum committees, the Senate of College Councils, and the Student Government.

Professional Liability Insurance

Students must purchase professional liability insurance while they are enrolled in the field practicum. The cost is about $15 a semester. Payment is coordinated by the Field Office of the Steve Hicks School of Social Work. A criminal background check may be required as well.

Admission and Registration

Admission

Admission to the University

Admission and readmission of undergraduate students to the University is the responsibility of the director of admissions. Information about admission to the University is provided in General Information (http://catalog.utexas.edu/general-information/admission).

Admission Policies of the School

The Steve Hicks School of Social Work maintains two classifications of undergraduate students: pre-social work majors and social work majors. Pre-social work majors are usually freshmen and sophomores. After completing the requirements below, a student may apply for admission to the professional curriculum as a social work major. Students who are admitted into the major complete at least three semesters of social work coursework and any other remaining degree requirements. Students who fulfill all degree requirements receive a Bachelor of Social Work degree.

The professional practice of social work requires people who are above average in academic ability and performance, sufficiently emotionally mature to assume a helping role with people under stress, and committed to the ethical standards and performance demands of social work practice. Students are encouraged to use the advising services in the Steve Hicks School of Social Work early in their college careers in anticipation of meeting requirements for admission to the major. A student who is interested in seeking a social work degree must discuss his or her intentions with a social work adviser before applying for admission to the program.

Admission to the School as a Pre-Social Work Major

A student may transfer from another division of the University to the Steve Hicks School of Social Work in accordance with the regulations given in General Information (http://catalog.utexas.edu/general-information/registration-tuition-and-fees/transfer-from-one-division-to-another-within-the-university).

A University student who wants to transfer as a pre-social work major must meet the following requirements:

1. Completion of at least 12 semester hours of coursework in residence at the University. Credit earned by exam, correspondence, and extension may not be counted toward this requirement.
2. A cumulative in-residence grade point average of at least 2.00.
3. If social work coursework has been completed prior to the application, a grade point of at least 2.50 in those courses is required, and all social work courses must have been completed with a grade of at least C.

Only currently enrolled students may apply. Forms to apply for internal transfer are available through the Steve Hicks School of Social Work Office of Academic Affairs.

Admission to the Steve Hicks School of Social Work is offered on a space-available basis to the students who are best qualified.

Students with over 90 semester hours of coursework or a completed degree are encouraged to consider other options, such as completing a degree in their current college/school or alternate institution with the option of pursuing a MSSW degree at a later date.

Admission to the Major in Social Work

No student may enter the professional curriculum (the required upper-division social work courses) unless he or she has been admitted to the University as described in General Information (http://catalog.utexas.edu/general-information/admission) and has been admitted to the major in social work by the assistant dean for undergraduate programs, following recommendation by the BSW Curriculum Committee, according to the procedures below. All students are considered according to the policies given in the editions of the General Information catalog and the Undergraduate catalog that are in effect at the time of the application.

The Steve Hicks School of Social Work considers students for admission to the major twice a year, during the fall and spring semesters. A student who enters the University as a freshman in a fall semester will usually apply for admission to the professional curriculum in the spring semester of the sophomore year or the fall semester of the junior year. Admission applications are distributed during mandatory information sessions held by the Office of Academic Affairs. The application allows the student to describe his or her background and motivation to enter the social work profession as well as any special experiences that enhance his or her application.

The Steve Hicks School of Social Work limits admission to the major to the number of students for whom a professional education of high quality can be provided. Because of enrollment restrictions dictated by the availability of faculty members and facilities, some applicants may be denied admission even though they meet the following minimum requirements.

1. The applicant must have completed at least 45 semester hours of coursework, including at least 30 hours chosen from the following requirements:
   a. All requirements of the University's Core Curriculum (p. 23)
   b. Sociology 302
   c. Psychology 301
   d. One three-semester-hour course in human biology: Biology 301L, 309D, or 311C
   e. Second-semester-level proficiency, or the equivalent, in a single foreign language
   f. A three-semester-hour course in economics
2. The applicant must have completed the following courses with a grade of at least C in each course: Social Work 310, 312, 313, 318, and 325. He or she must also have a University grade point average of at least 2.50 in courses that are part of the social work major requirements. Social Work 310 must be completed a semester before applying to the major.
3. The applicant must have a University grade point average of at least 2.00.
4. Application for admission must be made on forms available from the Office of Academic Affairs in the Steve Hicks School of Social Work.
5. The following must be submitted to the BSW Program by the application deadline:
   a. The completed application for admission to the professional curriculum
   b. A personal statement as explained on the application
c. At least two recommendation forms completed by appropriate individuals who can attest to the applicant’s academic and professional readiness to enter the program.

d. Documentation of successful completion of at least 45 hours of supervised service learning involving direct contact with clients in a human services organization.

e. Official transcripts from all colleges attended, if the coursework has not been transferred to the student’s University record.

f. Score reports for any credit earned by examination, if the scores are not on the student’s University record.

6. The applicant may be asked to appear for a personal interview.

The applicant is considered on the basis of academic performance and their commitment to and suitability for generalist social work practice. The committee also assesses the applicant’s emotional and professional readiness to work with clients on the basis of such factors as their work in courses already taken, previous meetings with social work advisers, personal statement, and the interview, if any, that is part of the application process. As a general guide, the committee also uses the Student Standards for Social Work Education, available at www.utexas.edu/ssw/current/forms/, which delineates expectations for social work students in four areas: basic abilities to acquire professional skills, mental and emotional abilities, professional performance skills, and scholastic performance. The Standards can be found in the appendix of the BSW Handbook, available at www.utexas.edu/ssw/current/forms/.

A student who is unable to attend in the semester for which he or she is admitted must reapply for admission in order to enroll at a later time. A student who has been admitted to and enrolls in the professional curriculum, withdraws, and then wishes to return must apply for readmission on the basis of the curriculum in effect at the time of the return. A student who has been out of the University for a semester or more must also submit an application for readmission to the University.

Transfer Credit

As part of the application for admission to the University, students must submit transcripts from all other colleges and universities they have attended to the University’s Office of Admissions. Students seeking readmission must submit transcripts from all schools they have attended since leaving the University. The Office of Admissions evaluates all transcripts and grants the student transfer credit when possible for coursework completed at the other schools.

Although the University’s Office of Admissions may grant the student a certain number of semester hours of transfer credit for work completed in another social work program, the assistant dean for undergraduate programs in the Steve Hicks School of Social Work determines whether this coursework may be counted toward fulfillment of the Bachelor of Social Work degree requirements. Students who wish to use transfer credit to meet degree requirements should submit a course syllabus, assignments, and the titles and names of authors of textbooks to the assistant dean for undergraduate programs for evaluation.

Students may also seek transfer credit for coursework they complete at another institution after enrolling at the University. In this case the student should submit a transcript from the other institution to the University’s Office of Admissions and a syllabus, course assignments, and information about textbooks to the Steve Hicks School of Social Work’s assistant dean for undergraduate programs.

Registration

General Information (http://catalog.utexas.edu/general-information-registration-tuition-and-fees) provides information about registration, adding and dropping courses, transfer from one division of the University to another, and auditing a course. Published before registration each semester and summer session, the Course Schedule (https://registrar.utexas.edu/schedules) includes registration instructions, advising locations, and the times, places, and instructors of classes. The Course Schedule and General Information are published on the Office of the Registrar’s website (http://registrar.utexas.edu).

Academic Policies and Procedures

Honors

University Honors

The designation University Honors, awarded at the end of each long-session semester, gives official recognition and commendation to students whose grades for the semester indicate distinguished academic accomplishment. Both the quality and the quantity of work done are considered. Criteria for University Honors are given in General Information (http://catalog.utexas.edu/general-information/academic-policies-and-procedures/honors/#universityhonorstext).

Graduation with University Honors

Students who, upon graduation, have demonstrated outstanding academic achievement are eligible to graduate with University Honors. Criteria for graduation with University Honors are given in General Information (http://catalog.utexas.edu/general-information/academic-policies-and-procedures/honors/#graduationwithuniversityhonorstext).

Social Work Honors Program

The Social Work Honors Program (http://socialwork.utexas.edu/bsw/honors) is available to outstanding students who have distinguished themselves by superior academic performance during their time at the University.

Interested social work majors should apply for admission to the Honors Program Subcommittee of the BSW Curriculum Committee at least one full year before they expect to graduate. A University grade point average of at least 3.50 is required for admission, as is a grade point average of at least 3.50 in all of the coursework required for the major that the student has completed. The requirements for graduation from the Social Work Honors Program which are in addition to the requirements for the major, are: (1) a six-hour, two-semester honors tutorial course with a grade of at least B- for each semester; (2) an oral presentation of the student’s honors thesis in a research colloquium open to the Steve Hicks School of Social Work community and the public; (3) a University grade point average of at least 3.50 and a grade point average of at least 3.50 in the courses required for the major and for the Social Work Honors Program; and (4) completion in residence at the University of at least 60 hours of coursework counted toward the degree.

Review and Grievance Procedures

The Steve Hicks School of Social Work document Student Standards for Social Work Education delineates standards for professional education that apply to students enrolled in the Steve Hicks School of Social Work. Because of the nature of professional social work practice, the Steve Hicks School of Social Work has different expectations of students than do nonprofessional programs. All social work students are expected to abide by the Standards and by the National Association of Social Workers (NASW) Code of Ethics. When a student’s performance does not meet expectations according to these established guidelines, a review may be called to bring the problem to the student’s attention and to develop a plan to address the problem. Usually, the issue is resolved and the student is continued in the program with additional support.
provided to the student and/or conditions established for the student’s continuance in the program. In some instances, depending on the nature of the problem, the student may be referred to the University’s Office of the Dean of Students, counseled to change majors, or dismissed from the program.

Students enrolled in the social work program have the right to appeal decisions made by the social work program, including scholastic dismissal. Students are assured freedom from reprisals for filing appeals. Students who wish to appeal a decision made during a school review process should consult the Standards for information on grievance procedures, located in the BSW Handbook (http://www.utexas.edu/ssw/current/forms).

Graduation

Special Requirements of the School

All students must fulfill the General Requirements (p. 20) for graduation. Students in the Steve Hicks School of Social Work must also fulfill the following requirements.

1. All University students must have a grade point average of at least 2.00 to graduate. In the Steve Hicks School of Social Work, students must also have a grade point average of at least 2.50 in required social work courses.

2. To receive an undergraduate degree from the University, every student must fulfill the following requirements on coursework taken in residence:
   a. All University students must complete in residence at least 60 semester hours of coursework counted toward the degree. For the Bachelor of Social Work degree, these 60 hours must include at least 24 hours in the major and must include the required field practicum courses.
   b. The University requires that at least six semester hours of advanced coursework in the major be completed in residence. The Steve Hicks School of Social Work further requires that 24 of the 46 hours of upper-division coursework for the Bachelor of Social Work be completed in residence.

3. An Air Force, Army, or Naval Reserve Officer Training Corps student who elects the basic and/or advanced program in air force science, military science, or naval science will not be approved for graduation until the government contract is completed, unless the student is released from the ROTC.

Applying for Graduation

The Office of Academic Affairs provides each student with a computer-generated degree audit during each long-session semester. The degree audit notifies the student of the courses he or she must take and the requirements he or she must fulfill to receive the degree. The degree audit normally provides an accurate statement of requirements, but the student is responsible for knowing the exact requirements for the degree as stated in a catalog under which he or she is eligible to graduate and for registering so as to fulfill those requirements. The student should seek an official ruling in the Office of Academic Affairs before registering if in doubt about any requirement.

In the semester or summer session in which the degree is to be conferred, the candidate must be registered at the University and must apply for the degree in the Office of Academic Affairs. This should be done at the time of registration for the last semester, if possible, but in no event later than the deadline given in the official academic calendar. No degree will be conferred unless the graduation application form has been filed on time.

Advanced Standing in Master’s Degree Programs

A number of graduate schools of social work grant advanced standing to students who have completed all the requirements of an accredited undergraduate social work program. Many programs allow up to one year of credit toward the master’s degree in social work. Information about programs offering advanced standing is available in the Office of Academic Affairs.

Degrees and Programs

Applicability of Certain Courses

No more than 36 semester hours in any one field of study other than social work may be counted toward the Bachelor of Social Work degree. No more than 60 semester hours of social work may be counted toward the degree.

Physical Activity Courses

Physical activity courses (PED) are offered by the Department of Kinesiology and Health Education. Six semester hours of this coursework may be counted toward the Bachelor of Social Work degree. All physical activity courses are counted among courses for which the student is enrolled, and the grades are included in the grade point average.

ROTC Courses

No more than six semester hours of credit for air force science, military science, or naval science courses may be counted toward the Bachelor of Social Work. Such credit may be used only as lower-division electives in degree programs that have room for such electives and only by students who have completed the third and fourth years of the ROTC program.

Correspondence and Extension Courses

Credit that a University student in residence earns simultaneously by correspondence or extension from the University or elsewhere or in residence at another school will not be counted toward a degree in the Steve Hicks School of Social Work unless specifically approved in advance by the dean. No more than 30 percent of the semester hours required for the Bachelor of Social Work may be taken by correspondence. More information is available from the assistant dean for undergraduate programs.

Courses Taken on the Pass/Fail Basis

Undergraduate students who have received at least 30 semester hours of college credit may take no more than five one-semester courses in elective subjects outside their major area on the pass/fail basis. Students must state their intention to register on this basis by the deadline given in the official academic calendar; they may not change the basis of registration in a course more than once; and they may not take more than two courses a semester on this basis.

Other Courses

Music 101Q or Music 101V may not be counted toward any degree in the Steve Hicks School of Social Work. Other introductory courses, such as Music 201J, 201M, and 201N, may be counted toward degrees in the school.

No more than six semester hours of Bible courses may be counted toward the Bachelor of Social Work degree.
Bachelor of Social Work

The requirements for the Bachelor of Social Work degree are designed to give the student an opportunity for integrated, nonrepetitive learning. A total of 122 semester hours is required. These may include credit by examination and a maximum of five one-semester elective courses taken on the pass/fail basis. All students must complete the requirements for the major and must complete at least 60 semester hours in residence at the University. These 60 hours must include at least 24 semester hours in social work. A completed degree program must include at least 46 semester hours of upper-division coursework, of which 24 semester hours must have been taken in residence. No more than 60 semester hours in social work may be counted toward the degree.

Each student must complete a sequence of prescribed work; major requirements, which include the field practicum; and special requirements, which include electives.

Prescribed Work

The prescribed work provides the liberal arts base for the social work curriculum. Interdepartmental courses and credit by examination may be used to meet these requirements. Unless otherwise indicated, a course taken to meet the requirements of one area may not also be used to fulfill the requirements of another area; however, a single course may be used, unless otherwise indicated, to fulfill both an area requirement and a major requirement. No course used to fulfill area or major requirements, other than the field practicum, may be taken on the pass/fail basis.

Core Curriculum

All students must complete the University's Core Curriculum (p. 23). A single course may not be counted toward more than one core area, but in some cases a course that is required for the Bachelor of Social Work may also be counted toward the core curriculum; these courses are identified below.

Skills and Experience Flags

In the process of fulfilling the core curriculum and other degree requirements, all students pursuing the Bachelor of Social Work must complete courses that carry flags in the following areas:

1. Writing: Three courses beyond Rhetoric and Writing 306 or the equivalent that carry a writing flag; one of these courses must be upper-division. Social Work 323K and 327 count toward this requirement; students must complete the third writing course outside the Steve Hicks School of Social Work. Courses used to fulfill the writing requirement may be used to fulfill other requirements.

5. Global cultures: One flagged course chosen from approved list. Social Work 360K (Ghana Maymester) and Social Work 460K (London Maymester) also satisfy the global cultures flag.

Foreign Language

In addition to the core curriculum requirements above, undergraduates must earn credit for the second college-level course, or the equivalent, in a foreign language. American Sign Language and Sign Language for Social Workers may be used to fulfill this requirement.

Major Requirements

The Bachelor of Social Work program offers basic courses designed to provide students with concentrated and in-depth educational experience combining social work knowledge and practice skills. No course used to fulfill major requirements, except Social Work 640 and 641, may be taken on the pass/fail basis. Students are advised to complete the core curriculum, the skills and experiences flags, the foreign language requirement, and all lower-division major requirements before taking upper-division courses. In developing their degree plans, students must also pay careful attention to the sequencing of social work courses to ensure that prerequisite requirements are met.

Academic credit cannot be granted for life experience or previous work experience, and such experience cannot be substituted for any of the courses in the professional foundation areas or the field practicum. Students who believe they have the qualifications to receive credit by examination for a social work course other than the practice sequence coursework (Social Work 312, 332, 333, and 334) and the field practicum may submit a written request to the assistant dean for undergraduate programs. The assistant dean will review the request and determine whether or not the student should be permitted to take the examination.

1. The following courses are required:

   a. Social welfare policy: Social Work 310, 323K.

2. Students must complete a three-semester-hour introductory course in psychology. Psychology 301 fulfills this requirement and may also be counted toward the social and behavioral science requirement of the core curriculum.

3. Students must complete a three-semester-hour introductory course in sociology. Sociology 302 fulfills this requirement and may also be counted toward the social and behavioral science requirement of the core curriculum.

4. Students must complete a three-semester-hour course in human/ environmental biology: Biology 301L, 301M, 309D, 311C, or the equivalent. Biology 301L and 301M or Biology 311C and 301M may be used together to complete the science and technology part I requirement. If biology coursework is not used for science and technology part I, any of these courses may be used to fulfill the science and technology part II requirement.

5. Students must complete three semester hours in economics. Certain economics courses may also be used to fulfill the social and behavioral sciences requirement of the core curriculum.

6. Students must complete three semester hours in child psychology or child development. Psychology 304 or Human Development and Family Sciences 313 accompanied with HDF 113L may be used to fulfill this requirement.

7. Students must complete at least nine semester hours of upper-division coursework in the social and behavioral sciences (applied learning and development, anthropology, economics, educational psychology, government, history, kinesiology, psychology, sociology, Social Work 360K topics) in addition to other major requirements. Six of these nine hours may be upper-division social work electives.

Field Sequence Requirements

The social work program requires that students complete 45 clock hours of supervised service learning related to social work to be admitted.
to the major, to upper-division courses in social work, and to the field practicum. These service learning hours may be used to meet course requirements in Social Work 310 and 312. Students must also complete 480 clock hours of fieldwork as part of the course requirements in Social Work 640 and 641. Students have the opportunity in the field practicum to develop the professional skills needed for entry-level social work positions as generalist practitioners. Adequate laboratory time through the field practicum is built into this professional program to provide students with an opportunity to test their developing skills in a real-life environment. At the same time, faculty members evaluate the student’s professional development within the context of the educational objectives established for the experience. The goals are for the student to learn real-life practice, to develop skills, to relate concepts to skill development, to remain motivated to continue to learn, and to evaluate personal performance.

To enroll in the field practicum, students must meet the following requirements: (1) admission to the major in social work; (2) a University grade point average of at least 2.00; and (3) both a grade point average of at least 2.50 for the following group of courses and a grade of at least C in each course in the group: Social Work 310, 312, 313, 318, 323K, 325, 327, 332, 333, and 334.

Following the student’s admission to the field practicum, his or her work is reviewed periodically by the student, the field faculty, and the agency supervisor. Should the student have trouble meeting the professional or academic requirements of the program, the review process will bring the difficulty to the student’s attention and assist the student in seeking appropriate resolution. The student may make use of counseling and advising services at any time. If difficulties cannot be resolved, the field director may conduct an administrative review, which may result in a decision to terminate the student’s field placement. The student is notified of this decision in writing.

All social work students enrolling in the field practicum are required to show evidence of professional liability insurance coverage paid for the duration of the course. The effective date of the policy must be on or before the first regular class period of the field practicum course for which the student is enrolling. Failure to provide evidence of insurance may result in the student being dropped from the field practicum.

### Special Requirements

#### Elective Requirements and Limitations

In addition to the area and major requirements given above, the student must take elective coursework to complete the 122 semester hours required for the Bachelor of Social Work. No more than five one-semester courses taken on the pass/fail basis, 36 hours in any one field of study other than social work, and 54 hours in social work may be counted toward the 122-hour requirement.

### Minimum Scholastic Requirements

1. The student must fulfill the University-wide graduation (p. 20) requirements and the requirements of the Steve Hicks School of Social Work given earlier in this section.

2. To apply for admission to the social work major, a student must have earned a grade of at least C in each of the following courses: Social Work 310, 312, 313, 318 and 325. The student must also have a University grade point average of at least 2.00 and a grade point average of at least 2.50 in all the courses he or she has completed that are part of the social work major requirements. Additional requirements are given in the section Admission to the Major in Social Work (p. 784).

3. Following the student’s admission to the major, the student’s coursework is reviewed periodically by the student and the academic adviser. Students must maintain a University grade point average of at least 2.00; they must also earn a grade of at least C in each course listed as a social work major requirement and must maintain a grade point average of at least 2.50 in these courses. If the student has trouble meeting the professional or academic requirements of the major, the review process delineated in Student Standards for Social Work Education, available at www.utexas.edu/ssw/current/forms/, will bring the difficulty to the student’s attention and assist the student in making appropriate resolution. The student may make use of counseling and advising services at any time.

4. If the student’s grade point average in social work courses falls below 2.50, the student is placed on academic probation in social work. If the grade point average remains below 2.50 for two consecutive semesters, including the summer session, the student is subject to academic dismissal from the Steve Hicks School of Social Work.

5. All students who seek to reenter the Steve Hicks School of Social Work after having been placed on enforced withdrawal or academic dismissal must have the approval of the assistant dean for undergraduate programs.

6. Any student who has a grade of C or higher in a course may not repeat the course and use the second grade to improve his or her grade point average without special permission of the assistant dean for undergraduate programs. If a student repeats a course, all grades received for the course are included in the grade point average.

### Order and Choice of Work

A pre-social work major may fulfill the requirements for application to the major in four or five long-session semesters, depending on the number of hours completed each semester. After admission to the major, students complete a three-semester professional sequence and additional requirements needed for the BSW degree.

Total credit hours: 121-127

The student must also complete all other remaining required coursework before the field practicum, including electives needed to provide the total of 122 semester hours required for the degree. No other courses may be taken concurrently with the field practicum courses.

Minor and Certificate Programs

Minor

The transcript-recognized undergraduate academic minor must be completed in conjunction with an undergraduate degree at The University of Texas at Austin. For more information regarding the requirements for achieving a minor, including a comprehensive list of minors, please visit the Minors and Certificate Programs (p. 13) section of the Undergraduate Catalog.

Social Work Minor

A Social Work Minor requires completion of 15 semester hours, six of which must be upper-division. All courses in the Social Work minor must be taken on a letter grade basis and students must earn a minimum grade of a C.

All interested students must apply for admission to the minor. To be eligible, students must satisfy the following requirements:

Students will choose 2 additional courses from SW 360K numbered topic courses to complete their required 15 semester hours.

Disability Studies Minor

A program that focuses on the nature, meaning, and consequences of what it is to be defined as disabled and explores the historical, cultural, economic, physiological, and socio-political dynamics of disability. Includes instruction in disability rights, legal issues, and public policy; literature, philosophy, and the arts; and/or research in the social sciences, education, and health sciences addressing social and experiential aspects of disability.

All interested students must apply for admission to the minor. To be eligible, students must 1) submit a personal statement of interest in the Disability Studies Minor, and 2) have an overall minimum The University of Texas at Austin GPA of 2.5.

The Disability Studies Minor requirements are:

Please Note:

All courses in the disability studies minor must be taken on a letter grade basis, and students must earn a minimum grade of a C.

Certificates

Certificate in Public Safety for Bachelor of Social Work Students

The certificate in public safety provides undergraduate social work students with coursework and service learning opportunities that prepare them for careers in public safety. These careers may include work in
such settings as law enforcement, fire departments, Emergency Medical Services (EMS), and emergency management at the local, state, and national levels.

Requirements:

The certificate will be awarded to students whose successful completion of the BSW program of work includes six courses (18 hours) in the area of focus, including:

The faculty has approval to offer the following courses in the academic years 2018–2019 and 2019–2020; however, not all courses are taught each semester or summer session. Students should consult the Course Schedule (http://registrar.utexas.edu/schedules) to determine which courses and topics will be offered during a particular semester or summer session. The Course Schedule (https://registrar.utexas.edu/schedules) may also reflect changes made to the course inventory after the publication of this catalog.

A full explanation of course numbers is given in General Information (http://catalog.utexas.edu/general-information/academic-policies-and-procedures/credit-value-and-course-numbers). In brief, the first digit of a course number indicates the semester hour value of the course. The second and third digits indicate the rank of the course: if they are 01 through 19, the course is of lower-division rank; if 20 through 79, of upper-division rank; if 80 through 99, of graduate rank.

The information in parentheses after a course number is the Texas Common Course Numbering (TCCN) designation. Only TCCN designations that are exact semester-hour equivalents of University courses are listed here. Additional TCCN information is given in Appendix A (p. 793).

Public Safety: PSF

Lower-Division Courses

Restricted to social work majors and pre-majors. Focuses on the intersection between social work, public safety, law, and human services. Three lecture hours a week for one semester. Offered on the letter-grade basis only.

Upper-Division Courses

PSF 360K. Public Safety Field Immersion.

Restricted to social work majors and pre-majors. Explores the intersection of social work and public safety. Experiential learning in approved public safety-related settings and a weekly one-hour seminar. One lecture hour a week and completion of 120 hours of service learning for one semester. Offered on the pass/fail basis only.

Social Work: S W

Lower-Division Courses

Introduction to the profession of social work and its roles in the social welfare system, with emphasis on social problems, society's historical response, and contemporary proposed solutions. Three lecture hours a week for one semester, and forty-five clock hours of service learning.

Selected introductory topics in the social work profession. Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

1. Field Immersion Placements: Placements will be completed in public safety related settings, including such possibilities as the Austin Police Department, The University of Texas at Austin Police Department, Travis County Sheriff's Office, the Department of Corrections, City of Austin Office of Emergency Management, Travis County Office of Emergency Management, and Austin EMS.
Topic 1: Sign Language for Social Workers I. Restricted to social work pre-majors and majors. Social Work 311 (Topic: Sign Language for Social Workers I) and 311 (Topic 1) may not both be counted. May be counted towards the foreign language requirement for social work.

Topic 2: Sign Language for Social Workers II. Restricted to social work pre-majors and majors. Social Work 311 (Topic: Sign Language for Social Workers II) and 311 (Topic 2) may not both be counted. May be counted towards foreign language requirement for social work. Additional prerequisite: Social Work 311 (Topic 1).

Topic 3: Introduction to the Criminal Justice System. Social Work 311 (Topic: Criminal Justice System) and 311 (Topic 3) may not both be counted.

Restricted to social work pre-majors. Introduction to generalist social work practice, with emphasis on the knowledge, values, and skills used in intervention. Three lecture hours a week for one semester, and forty-five clock hours of service learning. Prerequisite: Credit or registration for Social Work 310.

Introduction to the logic, design, and use of research, with emphasis on research designs appropriate to social work. Three lecture hours a week for one semester. Prerequisite: Credit or registration for Social Work 318 or the equivalent.

Introduction to statistics commonly used in social work research, including the critical analysis of the findings and inferential processes of existing research studies. Three lecture hours a week for one semester. Prerequisite: Completion of the Area C mathematics requirement for the Bachelor of Social Work.

Upper-Division Courses

Restricted to social work majors. Study of structure and function of service delivery systems, policy analysis, and effects and influences of policy on practice and planning decisions. Three lecture hours a week for one semester. Prerequisite: Government 310L, 312L, History 315K, 315L, and three semester hours of coursework in Economics are recommended.

History and demographics of culturally diverse groups in the United States, including family and community diversity. Emphasis on principles of knowledge acquisition about cultural diversity and ethnic-sensitive social work practice. Three lecture hours a week for one semester. Prerequisite: Social Work 310.

Same as Urban Studies 354 (Topic 10). Survey of selected theories of human behavior, including a systems/ecological perspective, ego psychology, and social learning theory, with emphasis on the life cycle from adolescence through adulthood. Three lecture hours and one laboratory hour a week for one semester. Only one of the following may be counted: Social Work 327, Urban Studies 354 (Topic: Human Behavior and Social Environment), 354 (Topic 10). Prerequisite: For social work majors, admission to the major in social work; for others, upper-division standing.

Restricted to social work majors. Theory and knowledge of effecting change in individuals and families, with emphasis on analytical and interactional processes and skills. Three lecture hours a week for one semester. Prerequisite: Social Work 325 and 327 with a grade of at least C in each.

Restricted to social work majors. Theory and knowledge of group dynamics, group development, and effective group work skills. Three lecture hours a week for one semester. Prerequisite: Social Work 325 and 327 with a grade of at least C in each.

S W 334. Social Work Practice in Organizations and Communities.
Restricted to social work majors. Theory and knowledge of effecting change in organizations and communities, with an emphasis on analytical and interactional processes and skills. Three lecture hours a week for one semester.

S W 640. Social Work Practicum I.
Field practicum providing supervised experience in which students apply knowledge and develop skills of social work practice. Educational supervision by faculty and by social workers in community agencies. Sixteen laboratory hours a week for one semester. Offered on the pass/fail basis only. Prerequisite: Admission to the field sequence and concurrent enrollment in Social Work 641 and 444.

S W 641. Social Work Practicum II.
Knowledge and skill in social work, building on objectives emphasized in Social Work 640. Educational supervision by faculty and by social workers in community agencies. Sixteen laboratory hours a week for one semester. Offered on the pass/fail basis only. Prerequisite: Admission to the field sequence and concurrent enrollment in Social Work 640 and 444.

S W 444. Integrative Seminar.
Integration of theory and practice on the basis of field practicum experiences. Four lecture hours a week for one semester. Prerequisite: Completion of all requirements for the Bachelor of Social Work degree except Social Work 640 and 641, and concurrent enrollment in Social Work 640 and 641.

Conference course. May be repeated for credit. Prerequisite: Upper-division standing.

Designed to enable each student to undertake intensive study of selected aspects of social work practice. Three or four lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

Topic 2: African American Family. Same as African and African Diaspora Studies 321K and Women’s and Gender Studies 340 (Topic 3). Overview of historical and contemporary issues facing African American families and children. Social service delivery to African American families and communities is emphasized. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 321K, 374 (Topic 1), Social Work 360K (Topic 2), Women’s and Gender Studies 340 (Topic 3).

Topic 3: Treatment of Substance Use Disorders.

Topic 4: Social Work Practice with Abused and Neglected Children and Their Families. Social Work 360K (Topic: Social Work Practice with Abused and Neglected Children and Their Families) and 360K, 460K (Topic 4) may not both be counted.

**Topic 6: Contemporary Issues in Domestic Violence.** Social Work 360K (Topic: Contemporary Issues in Domestic Violence) and 360K, 460K (Topic 6) may not both be counted.

**Topic 8: Leadership in the Community.** Must have consent of instructor to register. Social Work 360K (Topic: Leadership in the Community) and 360K, 460K (Topic 8) may not both be counted.

**Topic 10: Methods of Play Intervention.** Social Work 360K (Topic: Methods of Play Intervention) and 360K, 460K (Topic 10) may not both be counted.

**Topic 11: Communication Skills in Interdisciplinary Settings.**

**Topic 12: Social Work in the Legal System.** Social Work 360K (Topic: Social Workers in the Legal System) and 360K, 460K (Topic 12) may not both be counted.

**Topic 14: Working with Youth Gangs.** Social Work 360K (Topic: Working with Youth Gangs) and 360K, 460K (Topic 14) may not both be counted.

**Topic 15: Youth, Delinquency, and Juvenile Justice.** Social Work 360K (Topic: Youth, Delinquency, and Juvenile Justices) and 360K, 460K (Topic 15) may not both be counted.

**Topic 16: Roots of Social and Economic Justice: An International Perspective.** Course is offered as a Maymester in London through Study Abroad Office. Social Work 360K (Topic: Roots of Social and Economic Justice: An International Perspective) and 360K, 460K (Topic 16) may not both be counted.

**Topic 17: Principles of Recovery and Relapse Prevention.**

**Topic 18: Mental Health Issues in Public Safety.** Designed to provide a basic understanding of mental health intervention and treatment related issues for students planning to work in the field of public safety.

**S W 679H. Honors Tutorial Course.**

Individual conference course in social work research and writing. The equivalent of three lecture hours a week for two semesters. Prerequisite: Upper-division standing and admission to the Social Work Honors Program.
Appendix A: Texas Common Course Numbering System

To help students transfer credit from one institution to another, Texas community colleges employ a statewide numbering system for their courses. The Texas Common Course Numbering System (TCCN) is a standard set of four-character abbreviations for academic disciplines and four-digit course numbers. The first digit of the number represents the academic level of the course (0 for subfreshman, 1 for freshman, and 2 for sophomore); the second represents the semester credit hour value of the course. Texas public universities, and some private ones, cross-reference their courses with TCCN.

Listed below are TCCN course designations and their University transfer credit evaluations. In the University’s three-digit numbering system, the first digit indicates the semester credit hour value of the course. The suffixes A and B indicate the first and second parts of a course; credit for each part is half the value indicated by the first digit.

Notes are given below the table.

*Undergraduate Catalog 2018-2020 ➤ Appendix A: Texas Common Course Numbering System* 795
This is a modified course number with a higher credit value than is normally offered at the University. The higher value does not affect the course's prerequisite or degree applicability.

Lower-division biology courses may transfer as generic credit, without a specific University course number. The terms "Frmn" and "Soph" identify freshman- and sophomore-level lecture credit. "Lab" identifies lower-division laboratory credit. For students in the School of Biological Sciences, such credit is applicable toward prerequisite and degree requirements only with department approval. For students in other degree plans that require specific biology courses, such credit is applicable only with the approval of the student's academic dean. Introductory major-track lecture credit (TCCN BIOL 1406, 1407, 1306, or 1307) generally transfers as BIO 311C and 311D (http://catalog.utexas.edu/undergraduate/appendix-a). Major-track laboratory credit (TCCN BIOL 1106, 1107, or the lab components of 1406 and 1407) generally transfers with the modified course numbers BIO 206LA and 206LB.

Nonmajor lecture credit (TCCN BIOL 1408, 1409, 1308, or 1309) generally transfers as Biology 301L (http://catalog.utexas.edu/undergraduate/appendix-a) and 301M (http://catalog.utexas.edu/undergraduate/appendix-a). Nonmajor laboratory credit (TCCN BIOL 1108, 1109, or the lab components of 1408 and 1409) transfers generically, because the University does not offer nonmajor lab courses.

This is a modified course number with a lower credit value than is normally offered at the University. In many cases, such transfer credit may be counted toward prerequisite or degree requirements in place of the higher-value University course; however, such substitution is at the discretion of the student's academic dean.

This is a course no longer offered at the University but still used in awarding transfer credit and still applicable toward certain degree requirements. For students in the School of Nursing, BIOL 2420, 2421, 2320, 2321, 2120, and 2121 transfer as retired microbiology courses.

Texas community colleges do not offer direct equivalents of The University of Texas at Austin's GOV 310L, 312L, or 312P. GOVT 2305+2306 together fulfill the core 070 requirement. Either GOVT 2305 or 2306 combines with GOV 310L (but not with 312L or 312P) to fulfill the core 070 requirement.

For School of Architecture students, ARCH 1311 transfers as generic architecture credit and Architecture 308 (http://catalog.utexas.edu/undergraduate/appendix-a) must be taken in residence.
Appendix B: Course Abbreviations

The University offers courses in the following fields of study. The abbreviations in the second column are used in catalogs, course schedules, and student records. Some of the fields listed are offered only at the graduate level.

School of Architecture Faculty

The following faculty list represents those appointed in the 2018 spring semester.

Dm Addington, Professor
Henry M. Rockwell Chair in Architecture
DEnvironD, Harvard University, 1997

Dean J Almy, Associate Professor
MArch, University of Texas at Austin, 1989

Anthony Alofsin, Professor
Roland Gommel Roessner Centennial Professorship in Architecture
PhD, Columbia University in the City of New York, 1987

Kevin S Alter, Professor
The Sid W. Richardson Centennial Professorship in Architecture
MArch, Harvard University, 1990

Kory Bieg, Assistant Professor
MArch, Columbia University in the City of New York, 2002

Adam Barbe, Lecturer
MLA, University of Texas at Austin, 2008

M W Bell, Professor Emeritus
BArch, University of Texas at Austin, 1960

Michael L Benedikt, Professor
Hal Box Endowed Chair in Urbanism
MEnvironD, Yale University, 1975

Mirosława M Benes, Associate Professor
PhD, Yale University, 1989

Kory Bieg, Assistant Professor
MArch, Columbia University in the City of New York, 2002

Judith C Birdsong, Lecturer
MArch, University of Florida, 1992

John P Blood, Distinguished Senior Lecturer
MArch, Yale University, 1987

Michael R Boduch, Lecturer
MArch, University of Texas at Austin, 2012

Daniel R Bonilla
MA, Oxford Brookes University, 1990

Jon A Bowman, Professor Emeritus
MArch, University of Texas at Austin, 1962

Danelle I Briscoe, Associate Professor
MArch, Yale University, 2002

Richard L Cleary, Professor
PhD, Columbia University in the City of New York, 1986

Coleman Coker, Adjunct Professor
MFA, Memphis College of Art, 1994

Miriam S Collins, Assistant Professor
MCityP, Massachusetts Institute of Technology, 2012

Robert J Coote, Professor Emeritus
MA, Harvard University, 1959

Ulrich C Dangel, Associate Professor
MArch, University of Oregon, 1999

Elizabeth A Danze, Professor
Gene Edward Mikeska Endowed Chair for Interior Design, Bartlett Cocke Regents Professorship in Architecture
MArch, Yale University, 1990

Charles H Di Piazza, Administrative Associate
MArch, University of Texas at Austin, 1996

Gabriel Diaz Montemayor, Assistant Professor
MArch, Auburn University, 2007

Larry A Doll, Associate Professor
MArch, Cornell University, 1974

Tara A Dudley, Lecturer
PhD, University of Texas at Austin, 2013

Matthew L Fajkus, Associate Professor
MArch, Harvard University, 2005

Elizabeth Farrell, Lecturer
MArch, University of Texas at Austin, 2015

Nerea Feliz Arrizabalaga, Assistant Professor
BArch, Universidad Politecnica de Madrid (UPM), 2001

Juliana Felkner, Assistant Professor
MArch, University of Kansas Main Campus, 2008

Ilse L Frank, Lecturer
MLA, University of Pennsylvania, 2006

Frances Gale, Research Fellow
MS, Columbia University in the City of New York, 1982

Sarah P Gamble, Lecturer
MArch, University of Texas at Austin, 2005

Michael L Garrison, Professor
MArch, Rice University, 1971

Carmen M Garufo, Research Fellow
BArch, Pratt Institute, 1966

Tamie Michele Glass, Associate Professor
MArch, University of Oregon, 2001

Francisco H Gomes, Associate Professor
MArch, Harvard University, 1995

Martin Haettasch, Lecturer
MArch, Princeton University, 2007

Michael G Hargens, Lecturer
MArch, Parsons School of Design, 2006

Hope Hasbrouck, Associate Professor
MLArch, Harvard University, 1996

David D Heymann, Professor
Harwell Hamilton Harris Regents Professorship in Architecture
MArch, Harvard University, 1988

Barbara Hoidn, Adjunct Associate Professor
MArch, Princeton University, 1988

Stephen M Sonnenberg, Adjunct Professor
MD, Yeshiva University, 1965

Jason S Sowell, Associate Professor
MArch, Harvard University, 2004

Lawrence W Speck, Professor
The W. L. Moody, Jr. Centennial Professorship in Architecture
MArch, Massachusetts Institute of Technology, 1972

Nicholas Daniel Steshyn, Lecturer
MArch, University of Texas at Austin, 2014

Richard P Swallow, Professor Emeritus
MArch, Massachusetts Institute of Technology, 1957

Rabun M Taylor, Professor
PhD, University of Minnesota-Twin Cities, 1997

Danilo F Udovicki, Associate Professor
PhD, Massachusetts Institute of Technology, 1995

Clare W Van Montfrans, Lecturer
MArch, University of Texas at Austin, 2016

Gary Wang, Lecturer
MArch, University of Michigan-Ann Arbor, 1998

Wilfried Wang, Professor
O'Neil Ford Centennial Chair in Architecture
MS, University College London, 1981

Jacob A Wegmann, Assistant Professor
MCP, Massachusetts Institute of Technology, 2006

Samantha J Whitney Schwarze, Lecturer
MArch, University of Texas at Austin, 2013

Dason M Whitsett, Lecturer
MS, University of Texas at Austin, 2005

Nichole Wiedemann, Associate Professor
MA, Princeton University, 1992

Roxanne K Williamson, Professor Emeritus
MA, University of Texas at Austin, 1965

Patricia A Wilson, Professor
PhD, Cornell University, 1975

Jennifer L Wong, Curator
MArch, University of Texas at Austin, 2013

Ming Zhang, Professor
PhD, Massachusetts Institute of Technology, 2002

PhD, University of Pennsylvania, 2017

James W Albrecht Jr, Lecturer
Accounting
BBA, University of Texas at Austin, 1975

Joshua D Alexander, Lecturer
Finance
MBA, University of Pennsylvania, 2009

Megan E Allen, Lecturer
Accounting
MPA, University of Texas at Austin, 2006

John R Allison, Professor
Mary John and Ralph Spence Centennial Professorship
JD, Baylor University, 1972

Andres Almazan, Professor
Finance
PhD, Massachusetts Institute of Technology, 1996

Mark I Alpert, Professor Emeritus
Marketing
DBA, University of Southern California, 1968

Aydogan Altı, Associate Professor
Finance
PhD, Carnegie Mellon University, 2002

Gregory A Alves, Lecturer
Finance
MBA, University of San Francisco, 1994

Richard A Amato, Lecturer
Management
MBA, University of Texas at Austin, 1998

Edward G Anderson Jr, Professor
Mr. and Mrs. William F. Wright, Jr. Centennial Professorship for Management of Innovative Technology
Management
PhD, Massachusetts Institute of Technology, 1997

Urton L Anderson, Professor Emeritus
Accounting
PhD, University of Minnesota-Twin Cities, 1985

Victor L Arnold, Professor Emeritus
Management
PhD, University of Wisconsin-Madison, 1971

Mihran A Aroian, Lecturer
Management
PhD, University of Wisconsin-Madison, 1971

Mihran Aroian, Lecturer
Management
PhD, University of Wisconsin-Madison, 1971

Florence J Atiase, Lecturer
Accounting
MAcc, University of Florida, 1983

Rowland Atiase, Professor
Accounting
PhD, University of California-Berkeley, 1980

Patrick G Badolato, Lecturer
Accounting
PhD, Duke University, 2010

Michael J Barrett, Lecturer
Management

Red McCombs School of Business Faculty

The following faculty list represents those appointed in the 2018 spring semester.

Robert J Adams Jr, Senior Lecturer
Management
PhD, Capella University, 2007

Shiva Agarwal, Assistant Professor
Management

Patrick G Badolato, Lecturer
Accounting
PhD, Duke University, 2010

Michael J Barrett, Lecturer
Management

PhD, University of California-Berkeley, 1980

Rowland Atiase, Professor
Accounting
PhD, University of California-Berkeley, 1980
PhD, University of Texas at Austin, 1994  
Caroline A Bartel, Associate Professor  
Management

PhD, University of Michigan-Ann Arbor, 1998  
Taylor Bentley, Assistant Professor  
Marketing

PhD, Washington University in St Louis, 2015  
Ben A Bentzin, Lecturer  
Marketing

MBA, University of Pennsylvania, 1992  
Y Sekou Bermiss, Assistant Professor  
Management

PhD, Northwestern University, 2009  
Harlan T Beverly, Lecturer  
Management

MBA, University of Texas at Austin, 2004  
Steven M Bowers, Lecturer  
Finance

JD, University of Texas at Austin, 1982  
Mark L Bradshaw, Lecturer  
Accounting

JD, University of Texas at Austin, 1988  
Floyd S Brandt, Professor Emeritus  
Management

DBA, Harvard University, 1960  
Dean A Bredeson, Distinguished Senior Lecturer  
JD, University of Texas at Austin, 1995

Steven Miller Brister, Lecturer  
Marketing

MBA, University of Texas at Austin, 1989  
Patrick L Brockett, Professor  
Gus Wortham Memorial Chair in Risk Management and Insurance

PhD, University of California-Irvine, 1975  
Andrew Brodsky, Assistant Professor  
Management

PhD, Harvard University, 2017  
Gretchen B Charrier, Senior Lecturer  
Accounting

MPA, University of Texas at Austin, 1996  
Shuping Chen, Professor  
The Wilton E. and Catherine A. Thomas Professorship in Accounting

PhD, University of Southern California, 2003  
Michael B Clement, Professor  
KPMG Centennial Professorship

Accounting

PhD, Stanford University, 1997  
Jonathan B Cohn, Associate Professor  
Finance

PhD, University of Michigan-Ann Arbor, 2008  
Julia L Coronado, Assistant Professor  
Finance

PhD, University of Texas at Austin, 1997  
Stephen E Courter, Lecturer  
Management

MSBA, George Washington University, 1982  
Eli P Cox III, Professor Emeritus  
Marketing

DBA, Indiana University at Bloomington, 1973  
Frank B Cross, Professor Emeritus  
JD, Harvard University, 1980

William H Cunningham, Professor  
James L. Bayless Chair for Free Enterprise

Marketing

PhD, Michigan State University, East Lansing, 1971  
John A Daly, Professor  
Texas Commerce Bancshares, Inc. Centennial Professorship in Business

Communication, Frank A. Liddell, Sr. Centennial Professorship in

Communication
Management
PhD, Purdue University Main Campus, 1977

Paul Damien, Professor
B. M. (Mack) Rankin, Jr. Professorship in Business Administration
Finance
PhD, University of London, 1994

John W Davis, Lecturer
Marketing
MA, State University of New York at Binghamton, 1983

Justin T Day, Lecturer
Finance
MBA, University of Texas at Austin, 2006

James W Deitrick, Professor Emeritus
Accounting
DBA, University of Tennessee, 1977

Jade S Dekinder, Clinical Assistant Professor
Marketing
PhD, Emory University, 2007

Jeffrey S Dickerson, Lecturer
JD, University of Texas at Austin, 1988

Douglas R Dierking, Senior Lecturer
Management
PhD, University of Texas at Austin, 1997

David M Dodd, Lecturer
Marketing
LLM, Georgetown University, 1981

John N Doggett, Senior Lecturer
Management
MBA, Harvard University, 1981

Andres Francisco Donangelo, Assistant Professor
Finance
PhD, University of California-Berkeley, 2011

Dain Donelson, Associate Professor
Accounting
PhD, University of Illinois at Urbana-Champaign, 2007

Aysa A Dordzhieva, Assistant Professor
Accounting
MS, Moscow State University, 2011

Minette E Drumwright, Associate Professor
Marketing
PhD, University of North Carolina at Chapel Hill, 1986

Jun A Duan, Associate Professor
Marketing
PhD, Duke University, 2006

Janet M Dukerich, Professor
Harkins & Company Centennial Chair
Management
PhD, University of Minnesota-Twin Cities, 1985

Robert C Duvic, Distinguished Senior Lecturer
Finance
PhD, University of Texas at Austin, 1990

Management
PhD, University of Pennsylvania, 2014
Jeffery R Patterson, Lecturer
PhD, University of Texas at Austin,
Gaylen Paulson, Senior Lecturer
Management
PhD, Northwestern University, 1998
Frances A Pedersen, Lecturer
JD, Boston University, 1985
Michael S Peterson, Lecturer
Management
MS, University of Texas at Austin, 2014
Bill Peterson, Lecturer
Marketing
MBA, Southern Methodist University, 1984
David E Platt, Senior Lecturer
Accounting
PhD, Cornell University, 1997
Francisco Polidoro Jr, Associate Professor
Management
PhD, University of Michigan-Ann Arbor, 2006
Mary L Poloskey, Lecturer
Finance
MBA, University of Texas at Austin, 1988
Mandy T Pope, Lecturer
Finance
MLA, Texas A & M University, 2003
Robert A Prentice, Professor
Ed and Molly Smith Centennial Professorship in Business Law
JD, Washburn University, 1975
Katie Elizabeth Ortego Pritchett, Lecturer
Management
PhD, University of Texas at Austin, 2014
Tommy D Pryor, Lecturer
Management
EdD, University of North Texas, 1982
David Quintanilla, Lecturer
JD, St Mary's University, 2013
Rajagopal Raghunathan, Professor
Zale Corporation Centennial Professorship in Business
Marketing
PhD, New York University, 2000
Ramkumar Ranganathan, Assistant Professor
Marketing
PhD, University of Minnesota-Twin Cities, 2007
Ramesh K Rao, Professor
The Margaret and Eugene McDermott Centennial Professorship of
Banking and Finance
Finance
DBA, Indiana University at Bloomington, 1978
Bonnie Reese, Lecturer
Management
MA, New York University, 1995
Grace Renbarger, Lecturer
JD, University of Texas at Austin, 1983
Brian Richter, Assistant Professor
PhD, University of California-Los Angeles, 2010
Janet J Riekenberg, Lecturer
Management
PhD, University of Texas at Austin, 2010
Brian E Roberts, Professor
PhD, Washington University in St Louis, 1986
Jack C Robertson, Professor Emeritus
Accounting
PhD, University of North Carolina at Chapel Hill, 1970
Ehud I Ronn, Professor
Finance
PhD, Stanford University, 1983
Stacey Rudnick, Lecturer
Marketing
MBA, Emory University, 1999
Merri S Ruhmann, Lecturer
Marketing
MEd, University of Texas at Austin, 2012
Michael A Sadler, Senior Lecturer
Finance
PhD, University of Texas at Austin, 1997
Scott R Sanderson, Lecturer
Finance
MBA, University of Chicago, 1991
Jaime Joy Schmidt, Associate Professor
Accounting
Jan Schneider, Clinical Assistant Professor
Finance
PhD, University of British Columbia, 2006

Vito A Sciaraffia, Clinical Assistant Professor
Finance
PhD, University of California-Berkeley, 2011

Ronnie Shah, Lecturer
Finance
PhD, University of Texas at Austin, 2008

Clemens Sialm, Professor
Texas Commerce Bancshares, Inc. Centennial Professorship in Commercial Banking
Finance
PhD, Stanford University, 2001

Stuart R Singer, Lecturer
Accounting
JD, Columbia University in the City of New York, 1965

Stephen T Smith, Lecturer
Accounting
MS, University of Virginia, 1994

Jeremy L Smith, Lecturer
Finance
MBA, University of Texas at Austin, 2003

Michael Sockin, Assistant Professor
Finance
PhD, Princeton University, 2015

Garrett P Sonnier, Associate Professor
Marketing
PhD, University of California-Los Angeles, 2006

Lewis J Spellman, Professor
Finance
PhD, Stanford University, 1971

David B Spence, Professor
Herbert D. Kelleher Centennial Professorship in Business Law
PhD, Duke University, 1997

William A Spiller, Lecturer
Accounting
PhD, Duke University, 1989

James H Stephens, Lecturer
Marketing
MA, University of Texas at Austin, 1995

Edward L Summers, Professor Emeritus
Accounting
PhD, University of Texas at Austin, 1965

Sharath M Sury, Lecturer
Finance
MBA, University of Chicago, 1995

William B Swann Jr, Professor
William Howard Beasley III Professorship in the Graduate School of Business
Management
PhD, University of Minnesota-Twin Cities, 1978

Xavier Sztejneg, Lecturer
Finance
MBA, University of Pennsylvania, 1996

Elizabeth Teisberg, Professor
PhD, Stanford University, 1988

Trent E Thurman, Lecturer
Management
MBA, University of Texas at Austin, 1994

Sheridan Titman, Professor
Walter W. McAllister Centennial Chair in Financial Services
Finance
PhD, Carnegie Mellon University, 1981

Puay Khoon Toh, Associate Professor
Management
PhD, University of Michigan-Ann Arbor, 2007

Efstathios Tompaidis, Professor
Finance
PhD, University of Texas at Austin, 1994

Heidi K Toprac, Senior Lecturer
Finance
MBA, University of Texas at Austin, 1991

Sara M Toynbee, Assistant Professor
Accounting
PhD, University of Washington - Seattle, 2017

David B Verduzco, Lecturer
Accounting
MPA, University of Texas at Austin, 1993

Stephen M Walls, Senior Lecturer
Marketing
PhD, University of Texas at Austin, 2009

May Wang, Lecturer
Accounting
MPA, University of Texas at Austin, 2008

Adrian F Ward, Assistant Professor
Marketing
PhD, Harvard University, 2013

Keegan D Warren-Clem, Adjunct Professor
JD, University of Texas at Austin, 2012

William J Way, Senior Lecturer
MPA, University of Texas at Austin, 2008
Finance
MBA, University of Texas at Austin, 1989

Rachel Wellhausen, Assistant Professor
PhD, Massachusetts Institute of Technology, 2012

Timothy Daniel Werner, Associate Professor
PhD, University of Wisconsin-Madison, 2009

Brian White, Assistant Professor
Accounting
PhD, University of Illinois at Urbana-Champaign, 2012

Erin Wike, Lecturer
Marketing
MBA, DeVry University, 2010

Kenneth W Wiles, Clinical Associate Professor
Finance
PhD, University of Texas at Austin, 1991

Braden Mern Williams, Assistant Professor
Accounting
MAcc, Brigham Young University, 2009

John K Williams, Senior Lecturer
Marketing
MBA, University of Texas at Austin, 1994

Yong Yu, Associate Professor
Accounting
PhD, Pennsylvania State University Park, 2006

Alminas Zaldokas, Assistant Professor
Finance
PhD, Institut Europeen d'Administration des Affaires, 2012

Mindy Zhang Xiaolan, Assistant Professor
Finance
PhD, University of California-Los Angeles, 2014

Wuyang Zhao, Assistant Professor
Accounting
PhD, Fudan University, 2013

Ronghuo Zheng, Assistant Professor
Accounting
PhD, Carnegie Mellon University, 2016

Kristina Zvinakis, Senior Lecturer
Accounting
PhD, University of Texas at Austin, 1998

MFA, University of Texas at Austin, 2009

Rosental C Alves, Professor
Knight Chair in Journalism
Journalism
BA, Universidade Federal do Rio de Janeiro, 1976

Henry A Anderson, Associate Professor Emeritus
Journalism
PhD, University of Texas at Austin, 1975

Joan M Balash, Specialist
Communication Sciences and Disorders
MA, University of Texas at Austin, 1987

Dawna Ballard, Associate Professor
Communication Studies
PhD, University of California-Santa Barbara, 2002

Micah R Barber, Lecturer
Radio-Television-Film
MFA, University of Texas at Austin, 2011

Joshua Ben Barbour, Assistant Professor
Communication Studies
PhD, University of Illinois at Urbana-Champaign, 2006

Benjamin L Bays, Lecturer
Radio-Television-Film
BA, University of Texas at Austin, 1998

Lisa M Bedore, Professor
Communication Sciences and Disorders
PhD, Purdue University Main Campus, 1998

Mary C Beltran, Associate Professor
Radio-Television-Film
PhD, University of Texas at Austin, 2002

Charles E Berg, Professor
Joe M. Dealey, Sr. Professorship in Media Studies
Radio-Television-Film
PhD, University of Texas at Austin, 1987

Jay Michael Bernhardt, Professor
Walter Cronkite Regents Chair in Communication, DeWitt C. Reddick Regents Chair in Communication
Communication Studies
PhD, University of North Carolina at Chapel Hill, 1999

Karen Bernstein, Lecturer
Radio-Television-Film
HS/GED, 1979

Mark E Bernstein, Associate Professor
Communication Sciences and Disorders
EdD, Boston University, 1980

Mary A Bock, Assistant Professor
Communication Studies
Journalism
PhD, University of Pennsylvania, 2009

Casey A Boyle, Assistant Professor
Communication Studies
PhD, University of South Carolina - Columbia, 2011

Paul Brady, Lecturer
BSPR, University of Texas at Austin, 2003

Moody College of Communication Faculty

The following faculty list represents those appointed in the 2018 spring semester.

Michael D Akel, Lecturer
Radio-Television-Film
BS, Missouri State University, 1996

Wiley Akins, Lecturer
Radio-Television-Film
BFA, University of North Texas, 1976

Miguel A Alvarez, Lecturer
Radio-Television-Film
Robert B Brenner, Professor
G. B. Dealey Regents Professorship in Journalism
Journalism
BA, Oberlin College, 1983

Larry D Browning, Professor Emeritus
Communication Studies
PhD, Ohio State U Main Campus, 1973

Barry Brummett, Professor
Charles Sapp Centennial Professorship in Communication
Communication Studies
PhD, University of Minnesota-Twin Cities, 1978

Gene A Burd, Associate Professor Emeritus
Journalism
PhD, Northwestern University, 1964

Michael Butterworth, Professor
Communication Studies
PhD, Indiana University at Bloomington, 2006

Courtney T Byrd, Associate Professor
William David Blunk Memorial Professorship
Communication Sciences and Disorders
PhD, Vanderbilt University, 2003

Julia Campbell, Assistant Professor
Communication Sciences and Disorders
PhD, University of Colorado at Boulder, 2015

Angela A Carey, Clinical Assistant Professor
Communication Sciences and Disorders
AuD, Pennsylvania College of Optometry, 2009

Craig A Champlin, Professor
Lillie Hage Jamail Centennial Professorship
Communication Sciences and Disorders
PhD, University of Kansas Main Campus, 1987

Bharath Chandrasekaran, Associate Professor
Communication Sciences and Disorders
PhD, Purdue University Main Campus, 2008

Andrew D Chavez, Lecturer
Journalism
MS, Texas Christian University, 2010

Karma Ruth Chavez, Associate Professor
Communication Studies
PhD, Arizona State University Main, 2007

Gina Chen, Assistant Professor
Journalism
PhD, Syracuse University Main Campus, 2012

Wenhong Chen, Associate Professor
Journalism
Radio-Television-Film
PhD, University of Toronto, 2007

Richard A Cherwitz, Professor
Ernest A. Sharpe Centennial Professorship in Communication
Communication Studies
PhD, University of Iowa, 1978

Deepak J Chetty, Lecturer
Radio-Television-Film
MFA, University of Texas at Austin, 2015

Hsiang I Chyi, Associate Professor
Journalism
PhD, University of Texas at Austin, 1999

Renita B Coleman, Professor
Journalism
PhD, University of Missouri - Columbia, 2001

James B Colson, Professor Emeritus
Journalism

PhD, University of Texas at Austin, 2011

Gene Brooks, Lecturer
Special Education
PhD, University of Texas at Austin, 2000

Anthony L Brown, Associate Professor
Curriculum and Instruction
PhD, University of Wisconsin-Madison, 2006

Christopher P Brown, Professor
Curriculum and Instruction
PhD, University of Wisconsin-Madison, 2004

Kefferlyn D Brown, Associate Professor
Curriculum and Instruction
PhD, University of Wisconsin-Madison, 2006

Christopher G Brownson, Clinical Associate Professor
Educational Psychology
PhD, University of Texas at Austin, 2001

Lawrence A Brownstein, Senior Lecturer
Educational Psychology
PhD, University of Texas at Austin, 1977

Diane P Bryant, Professor
Mollie Villeret Davis Professorship in Learning Disabilities
Special Education
PhD, University of New Mexico Main Campus, 1986

Lynne J Bryant, Clinical Assistant Professor
Curriculum and Instruction
PhD, University of Texas at Austin, 2017

Pamela S Buchanan, Lecturer
Kinesiology and Health Education
MA, Sam Houston State University, 1988

Angela M Bush-Richards, Lecturer
Educational Psychology
PhD, University of Texas at Austin, 2006
Ralph W Cain, Associate Professor Emeritus
Curriculum and Instruction
PhD, University of Texas at Austin, 1964
Rebecca M Callahan, Associate Professor
Curriculum and Instruction
PhD, University of California-Davis, 2003
Lucy Camarillo, Lecturer
Curriculum and Instruction
MEd, University of Texas at Austin, 2009
Cindy I Carlson, Professor
Educational Psychology
PhD, Indiana University at Bloomington, 1982
Heather L Carter, Professor Emeritus
Curriculum and Instruction
PhD, University of Maryland College Park, 1969
Jennifer L Carter, Clinical Assistant Professor
Educational Psychology
PhD, University of Texas at Austin, 2004
Darla M Castelli, Professor
Catherine Mae Parker Centennial Professorship in Education
Kinesiology and Health Education
PhD, University of South Carolina - Columbia, 2002
Stephanie W Cawthon, Associate Professor
Educational Psychology
Special Education
PhD, University of Wisconsin-Madison, 2000
Claudia G Cervantes Soon, Assistant Professor
Curriculum and Instruction
PhD, University of Texas at Austin, 2011
Seung W Choi, Professor
Educational Psychology
PhD, University of Texas at Austin, 1996
Nathan Clemens, Associate Professor
Special Education
PhD, Lehigh University, 2009
Kevin O Cokeley, Professor
Oscar and Anne Mauzy Regents Professorship for Educational Research and Development
Educational Psychology
PhD, Georgia State University, 1998
Amanda K Colbert, Lecturer
Kinesiology and Health Education
MPH, University of Texas Health Science Center at San Antonio, 2014
Sarah M Collins, Lecturer
Educational Psychology
PhD, University of Texas at Austin, 2010
North A Cooc, Assistant Professor
Special Education
EdD, Harvard University, 2014
Edward F Coyle, Professor
Kinesiology and Health Education
PhD, University of Arizona, 1979
Charles W Craven, Associate Professor Emeritus
Kinesiology and Health Education
MEd, University of Texas at Austin, 1968
Don S Crowley Jr, Specialist
Kinesiology and Health Education
BS, University of Texas at Austin, 1990
Rosemary Magdalena Cuellar Torres, Lecturer
Curriculum and Instruction
MEd, University of Texas at El Paso, 2003
Nancy P Daley, Senior Lecturer
Educational Psychology
PhD, University of Texas at Austin, 1991
Ozro L Davis Jr, Professor Emeritus
Educational Psychology
PhD, University of Oregon, 2010
Barbara G Dodd, Professor
Pearson Endowed Professorship in Psychometrics
Educational Psychology
PhD, University of Texas at Austin, 2011
David J Drum, Professor
Educational Psychology
PhD, American University, 1969
Susan K Dubois, Adjunct Assistant Professor
Kinesiology and Health Education
MD, University of Texas Health Science Center at Houston, 1988
Bonnie M Elliott, Clinical Assistant Professor
Curriculum and Instruction
PhD, University of Texas at Austin, 1999
Michelle L Emery, Lecturer
Kinesiology and Health Education
MA, DePaul University, 2011
Edmund T Emmer, Professor Emeritus
Educational Psychology
PhD, University of Michigan-Ann Arbor, 1967
Susan B Empson, Professor Emeritus
Curriculum and Instruction
PhD, University of Wisconsin-Madison, 1994
Nicholas M Enge, Lecturer
Kinesiology and Health Education
MS, Stanford University, 2012
John D Fair, Adjunct Professor
Kinesiology and Health Education
PhD, Duke University, 1970
Toni L Falbo, Professor
Undergraduate Catalog 2018-2020 ▶ Faculty 817
Educational Psychology
PhD, University of California-Los Angeles, 1973

Terry S Falcomata, Associate Professor
Special Education
PhD, University of Iowa, 2008

Brian K Farr, Senior Lecturer
Kinesiology and Health Education
MA, Ohio State U Main Campus, 1996

Roger P Farrar, Professor
Kinesiology and Health Education
PhD, University of Massachusetts, 1976

Edmund J Farrell, Professor Emeritus
Curriculum and Instruction
PhD, University of California-Berkeley, 1969

Sherry L Field, Professor Emeritus
Lee Hage Jamail Regents Chair in Education
Curriculum and Instruction
PhD, University of Texas at Austin, 1991

Tracey Terece Flores, Assistant Professor
Curriculum and Instruction
PhD, Arizona State University Main, 2017

Douglas E Foley, Professor Emeritus
Curriculum and Instruction
PhD, Stanford University, 1970

Christina L Fragale, Clinical Assistant Professor
Special Education
PhD, University of Texas at Austin, 2012

Michael T Fresques, Lecturer
Educational Psychology
PhD, University of Texas at Austin, 1991

Manda G Freytag, Specialist
Kinesiology and Health Education
BS, University of Texas at Austin, 2006

Joe L Frost, Professor Emeritus
Curriculum and Instruction
EdD, University of Arkansas Main Campus, 1965

Shernaz B Garcia, Associate Professor Emeritus
Special Education
PhD, University of Texas at Austin, 1984

Douglas C Garrard, Lecturer
Educational Psychology
EdD, University of Texas at Austin, 2006

Mary C Gerwels, Senior Lecturer
Educational Psychology
PhD, University of Texas at Austin, 1994

Lucia A Gilbert, Professor Emeritus
Educational Psychology
PhD, University of Texas at Austin, 1974

Dell P Giles, Specialist
Curriculum and Instruction
PhD, University of Georgia, 2010

Erik Gnagy, Clinical Assistant Professor
Kinesiology and Health Education
PhD, University of Texas at Austin, 2012

Maria Jorgelina Gonzalez Tristan, Assistant Professor
Curriculum and Instruction
PhD, Boston College, 2017

Nell H Gottlieb, Professor Emeritus
Kinesiology and Health Education
PhD, Boston University, 1981

Jane S Gray, Clinical Assistant Professor
Educational Psychology
PhD, University of Texas at Austin, 2006

Emily Strassner Greenspahn, Clinical Assistant Professor
Educational Psychology
PhD, University of Texas at Austin, 2006

Lisa Griffin, Associate Professor
Kinesiology and Health Education
PhD, University of Western Ontario, 1999

Lucy Guevara Velez, Lecturer
Curriculum and Instruction
PhD, University of Texas at Austin, 2013

Frank J Guszak, Professor Emeritus
Curriculum and Instruction
PhD, University of Wisconsin-Madison, 1966

Colby S Hall, Lecturer
Special Education
PhD, University of Texas at Austin, 2016

Dorothy R Hall, Clinical Assistant Professor
Curriculum and Instruction
PhD, University of Texas at Austin, 2009

Shannon Colleen Hanby, Lecturer
Kinesiology and Health Education
MPH, University of Georgia, 2012

William R Harmer, Professor Emeritus
Curriculum and Instruction
PhD, University of Minnesota-Twin Cities, 1959

Karol K Harris, Research Assistant Professor (Affiliated)
Kinesiology and Health Education
PhD, University of Texas at Austin, 2000

Louis Harrison, Professor
Charles H. Spence, Sr. Centennial Professorship in Education
Curriculum and Instruction
PhD, Louisiana State University and Agricultural and Mechanical College, 1997

David Robert Heckler, Clinical Assistant Professor
Educational Psychology
PhD, Texas Tech University, 2012

James V Hoffman, Professor
Priscilla Pond Flawn Regents Professorship in Early Childhood Education
Curriculum and Instruction
PhD, University of Missouri - Kansas City, 1977

Carole K Holahan, Professor
Kinesiology and Health Education
PhD, University of Texas at Austin, 1976

Elaine K Horwitz, Professor
Curriculum and Instruction
PhD, University of Illinois at Urbana-Champaign, 1980

Hao-Yuan Hsiao, Assistant Professor
Kinesiology and Health Education
PhD, University of Delaware, 2015

Joan Hughes, Associate Professor
Curriculum and Instruction
PhD, Michigan State University, East Lansing, 2000

Thomas M Hunt, Associate Professor
Kinesiology and Health Education
PhD, University of Texas at Austin, 2007

Anita Israni, Lecturer
Educational Psychology
PhD, University of Texas at Austin, 2015

John L Ivy, Professor Emeritus
Kinesiology and Health Education
PhD, University of Maryland College Park, 1976

Earl Jennings, Professor Emeritus
Educational Psychology
PhD, University of Texas at Austin, 1963

Jody L Jensen, Professor
Kinesiology and Health Education
PhD, University of Maryland College Park, 1989

Julie M Jensen, Professor Emeritus
Curriculum and Instruction
PhD, University of Minnesota-Twin Cities, 1970

Rodolfo Jimenez Jr, Lecturer
Curriculum and Instruction
PhD, University of Texas at San Antonio, 2012

Esbelle M Jowers, Research Assistant Professor (Affiliated)
Kinesiology and Health Education
PhD, University of Texas at Austin, 1999

Hyeon-Ah Kang, Assistant Professor
Educational Psychology
PhD, University of Illinois at Urbana-Champaign, 2016

Xiaofen Keating, Associate Professor
Curriculum and Instruction
PhD, University of Illinois at Urbana-Champaign, 2000

Timothy Z Keith, Professor
Educational Psychology
PhD, Duke University, 1982

Darren D Kelly, Lecturer
Kinesiology and Health Education
PhD, University of Texas at Austin, 2012

Deborah C Kelt, Lecturer
Curriculum and Instruction
MA, University of Texas at Austin, 2008

Grace Kim, Assistant Professor
Curriculum and Instruction
PhD, University of California-Berkeley, 2017

John D King, Professor Emeritus
Special Education

EdD, University of Nebraska - Lincoln, 1964

Amy L Kinkade, Lecturer
Curriculum and Instruction
MEd, University of Texas at Austin, 1982

David A Klingbeil, Assistant Professor
Educational Psychology
PhD, University of Minnesota-Twin Cities, 2013

Eric Knuth, Professor
Curriculum and Instruction
PhD, University of Colorado at Boulder, 1999

William R Koch, Professor Emeritus
Educational Psychology
PhD, University of Missouri - Columbia, 1980

Harold Willis Kohl III, Research Professor
Kinesiology and Health Education
PhD, University of Texas Health Science Center at Houston, 1993

Gladys H Krause, Clinical Assistant Professor
Curriculum and Instruction
PhD, University of Texas at Austin, 2014

Sophie Lalande, Assistant Professor
Kinesiology and Health Education
PhD, University of Auckland, 2008

Dorothy D Lambdin, Clinical Professor Emeritus
Kinesiology and Health Education
EdD, University of Massachusetts, 1992

Lara Latimer, Lecturer
Kinesiology and Health Education
PhD, University of Texas at Austin, 2013

Cecil Wayne Lee, Specialist
Kinesiology and Health Education
BS, University of Texas at Austin, 1972

Judith W Lindfors, Professor Emeritus
Curriculum and Instruction
PhD, University of Texas at Austin, 1972

Amanda L Little, Clinical Assistant Professor
Special Education
PhD, University of Kansas Main Campus, 2009

Min Liu, Professor
Curriculum and Instruction
EdD, West Virginia University, 1992

Phillip D Long, Clinical Professor
Educational Psychology
PhD, Pennsylvania State University Park, 1983

Alexandra Loukas, Professor
Barbie M. and Gary L. Coleman Professorship in Education
Kinesiology and Health Education
PhD, Michigan State University, East Lansing, 1997

Dorothy J Lovett, Associate Professor Emeritus
Kinesiology and Health Education
PhD, Texas Woman's University - Denton, 1968

Tia Madkins, Assistant Professor
Curriculum and Instruction
PhD, University of California-Berkeley, 2016
Jennifer W Maedgen, Clinical Associate Professor
Educational Psychology
PhD, University of Texas at Austin, 1998
Robert M Malina, Professor Emeritus
Kinesiology and Health Education
PhD, University of Pennsylvania, 1968
Anna E Maloch, Professor
Elizabeth Shatto Massey Endowed Chair in Education
Curriculum and Instruction
PhD, Vanderbilt University, 2000
Guy J Manaster, Professor Emeritus
Educational Psychology
PhD, University of Chicago, 1969
Jill A Marshall, Associate Professor
Curriculum and Instruction
PhD, University of Texas at Austin, 1984
Julie A Martinez, Lecturer
Special Education
PhD, University of Texas at Austin, 2016
Julie Maslowsky, Assistant Professor
Kinesiology and Health Education
PhD, University of Michigan-Ann Arbor, 2012
Christopher J McCarthy, Professor
Educational Psychology
PhD, Georgia State University, 1995
Lauren E McGill, Lecturer
Kinesiology and Health Education
MS, University of Texas at Austin, 2014
Nicole Kristen McLagan, Lecturer
Kinesiology and Health Education
PhD, University of Texas at Austin, 2014
Serena Messina, Lecturer
Educational Psychology
PhD, Universita degli Studi di Roma La Sapienza, 2016
Brian Miller, Clinical Professor
Kinesiology and Health Education
PhD, University of Texas Medical Branch, 1983
Lynn M Monnat, Clinical Assistant Professor
Educational Psychology
PhD, University of Texas at Austin, 2009
Leslie A Moore, Senior Lecturer
Educational Psychology
PhD, University of Texas at Austin, 1987
Karisma Lucia Morton, Clinical Assistant Professor
Curriculum and Instruction
PhD, University of Texas at Austin, 2017
Kathy Mosteller, Lecturer
Kinesiology and Health Education
BS, University of Alaska Anchorage, 1992
Katherine M Muenks, Assistant Professor
Educational Psychology
PhD, University of Maryland College Park, 2016
Sheri Mycue, Clinical Assistant Professor
Curriculum and Instruction
PhD, University of New Orleans, 2000
Kristin Neff, Associate Professor
Educational Psychology
PhD, University of California-Berkeley, 1997
Katherine A Noble, Lecturer
Curriculum and Instruction
MA, University of Texas at Austin, 2011
Nancy L Nussbaum, Lecturer
Educational Psychology
PhD, University of Texas at Austin, 1986
Fikile Nxumalo, Assistant Professor
Curriculum and Instruction
PhD, University of Victoria, 2015
Liesl Nydegger, Assistant Professor
Kinesiology and Health Education
PhD, Claremont Graduate University, 2015
Mark F O'Reilly, Professor
Audrey Rogers Myers Centennial Professorship in Education
Special Education
PhD, University of Illinois at Urbana-Champaign, 1992
Jessica J Obleness, Clinical Assistant Professor
Educational Psychology
PhD, University of Iowa, 2015
Alba A Ortiz, Professor Emeritus
Special Education
PhD, University of Texas at Austin, 1976
Tolga Ozyurtcu, Clinical Assistant Professor
Kinesiology and Health Education
PhD, University of Texas at Austin, 2014
Michael Parent, Assistant Professor
Educational Psychology
PhD, University of Florida, 2013
Soyoung Park, Assistant Professor
Special Education
PhD, Stanford University, 2017
Randall M Parker, Professor Emeritus
Special Education
PhD, University of Missouri - Columbia, 1970
Keryn Elizabeth Pasch, Associate Professor
Kinesiology and Health Education
PhD, University of Minnesota-Twin Cities, 2007
Puja G Patel, Clinical Assistant Professor
Educational Psychology
PhD, University of Texas at Austin, 2010
James R Patton, Adjunct Associate Professor
Special Education
EdD, University of Virginia (Old Code), 1980
Katherina A Payne, Assistant Professor
Curriculum and Instruction
Katherine M Muenks, Assistant Professor
Educational Psychology
PhD, University of Texas at Austin, 2009
Leslie A Moore, Senior Lecturer
Educational Psychology
PhD, University of Texas at Austin, 1987
Karisma Lucia Morton, Clinical Assistant Professor
Curriculum and Instruction
PhD, University of Texas at Austin, 2017
Kathy Mosteller, Lecturer
Kinesiology and Health Education
BS, University of Alaska Anchorage, 1992
Katherine M Muenks, Assistant Professor
Educational Psychology
PhD, University of Maryland College Park, 2016
Sheri Mycue, Clinical Assistant Professor
Curriculum and Instruction
PhD, University of New Orleans, 2000
Kristin Neff, Associate Professor
Educational Psychology
PhD, University of California-Berkeley, 1997
Katherine A Noble, Lecturer
Curriculum and Instruction
MA, University of Texas at Austin, 2011
Nancy L Nussbaum, Lecturer
Educational Psychology
PhD, University of Texas at Austin, 1986
Fikile Nxumalo, Assistant Professor
Curriculum and Instruction
PhD, University of Victoria, 2015
Liesl Nydegger, Assistant Professor
Kinesiology and Health Education
PhD, Claremont Graduate University, 2015
Mark F O'Reilly, Professor
Audrey Rogers Myers Centennial Professorship in Education
Special Education
PhD, University of Illinois at Urbana-Champaign, 1992
Jessica J Obleness, Clinical Assistant Professor
Educational Psychology
PhD, University of Iowa, 2015
Alba A Ortiz, Professor Emeritus
Special Education
PhD, University of Texas at Austin, 1976
Tolga Ozyurtcu, Clinical Assistant Professor
Kinesiology and Health Education
PhD, University of Texas at Austin, 2014
Michael Parent, Assistant Professor
Educational Psychology
PhD, University of Florida, 2013
Soyoung Park, Assistant Professor
Special Education
PhD, Stanford University, 2017
Randall M Parker, Professor Emeritus
Special Education
PhD, University of Missouri - Columbia, 1970
Keryn Elizabeth Pasch, Associate Professor
Kinesiology and Health Education
PhD, University of Minnesota-Twin Cities, 2007
Puja G Patel, Clinical Assistant Professor
Educational Psychology
PhD, University of Texas at Austin, 2010
James R Patton, Adjunct Associate Professor
Special Education
EdD, University of Virginia (Old Code), 1980
Katherina A Payne, Assistant Professor
Curriculum and Instruction
MA, Adelphi University, 2004

Anthony J Petrosino, Associate Professor
Curriculum and Instruction
PhD, Vanderbilt University, 1998

Beeman N Phillips, Professor Emeritus
Educational Psychology
EdD, Indiana University at Bloomington, 1954

Miguel Pinedo, Assistant Professor
Kinesiology and Health Education
PhD, University of California-San Diego, 2015

Keenan A Pituch, Associate Professor
Educational Psychology
PhD, Florida State University, 1997

Jennifer A Porterfield, Lecturer
Special Education
PhD, University of Texas at Austin, 2011

Sarah Rannells Powell, Assistant Professor
Special Education
PhD, Vanderbilt University, 2009

James E Pustejovsky, Assistant Professor
Educational Psychology
PhD, Northwestern University, 2013

Martha I Pyron, Adjunct Assistant Professor
Kinesiology and Health Education
MD, University of Texas at San Antonio, 1996

Nayelli Ramos, Clinical Assistant Professor
Curriculum and Instruction
MEd, University of Texas at Austin, 2017

Kathryn E Redd, Lecturer
Kinesiology and Health Education
MSW, New Mexico State University Main Campus, 2010

Stuart Reifel, Professor Emeritus
Curriculum and Instruction
EdD, University of California-Los Angeles, 1981

Paul E Resta, Professor
Ruth Knight Millikan Centennial Professorship
Curriculum and Instruction
PhD, Arizona State University Main, 1968

Geoff B Rich, Specialist
Kinesiology and Health Education
MA, Southwestern Baptist Theological Seminary, 1995

John M Rich, Professor Emeritus
Curriculum and Instruction
PhD, Ohio State U Main Campus, 1958

Frank C Richardson, Professor Emeritus
Educational Psychology
PhD, Colorado State University, 1971

Catherine Riegle-Crumble, Associate Professor
Curriculum and Instruction
PhD, University of Chicago, 2000

Herbert J Rieth, Professor Emeritus
Special Education
PhD, University of Kansas Main Campus, 1971

Aaron B Rochlen, Professor
Educational Psychology
PhD, University of Maryland College Park, 2000

Erin M Rodriguez, Assistant Professor
Educational Psychology
PhD, Vanderbilt University, 2012

Haydee M Rodriguez, Clinical Assistant Professor
Curriculum and Instruction
PhD, University of Texas at Austin, 2000

Laura K Rojeski, Lecturer
Special Education
PhD, University of Texas at Austin, 2015

Nancy L Roser, Professor Emeritus
Curriculum and Instruction
EdD, Indiana University at Bloomington, 1970

Stephanie S Rude, Professor
Educational Psychology
PhD, Stanford University, 1983

Cynthia S Salinas, Professor
Ruben E. Hinojosa Regents Professorship in Education
Curriculum and Instruction
PhD, University of Texas at Austin, 1999

Victor Sampson, Associate Professor
Curriculum and Instruction
PhD, Arizona State University Main, 2007

Delida Sanchez, Assistant Professor
Educational Psychology
PhD, Columbia University in the City of New York, 2002

Micheal Paige Sandbank, Assistant Professor
Special Education
PhD, Vanderbilt University, 2015

Michael T Sanders, Senior Lecturer
Kinesiology and Health Education
EdD, University of Tennessee, 1985

James L Schaller, Associate Professor
Special Education
PhD, University of Wisconsin-Madison, 1991

Diane L Schallert, Professor
Educational Psychology
PhD, Arizona State University Main, 1975

Allison Skerrett, Associate Professor
Curriculum and Instruction
PhD, Boston College, 2007

Darla R Smith, Clinical Professor
Kinesiology and Health Education
PhD, Texas Woman's University - Denton, 1996

Elizabeth A Feger, Clinical Assistant Professor
Curriculum and Instruction
PhD, University of Texas at Austin, 2009

Jennifer C Smith, Lecturer
Curriculum and Instruction
PhD, University of Arizona, 2002
Audrey M Sorrells, Associate Professor
Special Education
PhD, University of Florida, 1996
Emily Sparvero, Clinical Assistant Professor
Kinesiology and Health Education
PhD, University of Texas at Austin, 2008
Carol J Spaulding, Lecturer
Kinesiology and Health Education
PhD, University of Texas at Austin, 2009
Waneen W Spirduso, Professor Emeritus
Kinesiology and Health Education
EdD, University of Texas at Austin, 1966
Dixie Stanforth, Senior Lecturer
Kinesiology and Health Education
PhD, University of Texas at Austin, 2010
Philip R Stanforth, Senior Lecturer
Kinesiology and Health Education
MS, University of Arizona, 1978
Kevin D Stark, Professor
Educational Psychology
PhD, University of Wisconsin-Madison, 1985
Kathryn E Starkes
Curriculum and Instruction
PhD, University of Texas at Austin, 2009
Mary A Steinhardt, Professor
Kinesiology and Health Education
EdD, University of Houston, 1985
Audrey J Stone, Assistant Professor
Kinesiology and Health Education
PhD, University of Arkansas at Little Rock, 2010
Marie-Anne P Suizzo, Associate Professor
Educational Psychology
EdD, Harvard University, 1997
Marilla D Svinicki, Professor Emeritus
Educational Psychology
PhD, University of Colorado at Boulder, 1972
Deane A Swanson, Lecturer
Kinesiology and Health Education
MEd, Springfield College, 1979
Kathryn Klingler Tackett, Clinical Assistant Professor
Special Education
PhD, University of Texas at Austin, 2009
Hirofumi Tanaka, Professor
Kinesiology and Health Education
PhD, University of Tennessee, 1995
Deborah J Tharinger, Professor Emeritus
Educational Psychology
PhD, University of California-Berkeley, 1981
Janice S Todd, Professor
Kinesiology and Health Education
PhD, University of Texas at Austin, 1995
Martin L Tombari, Senior Lecturer
Educational Psychology
PhD, University of Arizona, 1975
Jessica R Toste, Assistant Professor
Special Education
PhD, McGill University, 2011
Marian E Trattner, Lecturer
Kinesiology and Health Education
MSW, University of Missouri - Columbia, 2008
Keith D Turner, Professor Emeritus
Special Education
PhD, University of Washington - Seattle, 1974
Kenneth W (Pete) Tyson, Associate Professor Emeritus
Kinesiology and Health Education
MEd, University of Texas at Austin, 1970
Luis Urieta, Professor
Suzanne B. and John L. Adams Endowed Professorship in Education
Curriculum and Instruction
PhD, University of North Carolina at Chapel Hill, 2003
Sepehr Vakil, Assistant Professor
Curriculum and Instruction
PhD, University of California-Berkeley, 2016
Richard Valencia, Professor Emeritus
Educational Psychology
PhD, University of California-Santa Barbara, 1977
Angela Valenzuela, Professor
Curriculum and Instruction
PhD, Stanford University, 1990
Sharon Vaughn, Professor
Manuel J. Justiz Endowed Chair in Math, Science, and Technology in Teacher Education
Special Education
PhD, University of Arizona, 1981
Elizabeth G Walsh, Lecturer
Educational Psychology
PhD, University of Texas at Austin, 2016
Rachel Marie Watson, Specialist
Kinesiology and Health Education
MS, University of Texas at Austin, 2016
Melissa R Wetzel, Associate Professor
Curriculum and Instruction
PhD, Washington University in St Louis, 2007
Tiffany A Whittaker, Associate Professor
Educational Psychology
PhD, University of Texas at Austin, 2003
Frank W Wicker, Professor Emeritus
Educational Psychology
PhD, Princeton University, 1966
Molly T Wiebe, Clinical Assistant Professor
Curriculum and Instruction
PhD, University of Texas at Austin, 2016
Kelly J Williams, Lecturer
Special Education
Cockrell School of Engineering Faculty

The following faculty list represents those appointed in the 2018 spring semester.

Jacob A Abraham, Professor
Cockrell Family Regents Chair in Engineering #8
Electrical and Computer Engineering
PhD, Stanford University, 1974

P A Abusali, Lecturer
Aerospace Engineering and Engineering Mechanics
PhD, University of Texas at Austin, 1983

J K Aggarwal, Professor Emeritus
Electrical and Computer Engineering
PhD, University of Illinois at Urbana-Champaign, 1964

Maruthi R Akella, Professor
E. P. Schoch Professorship in Engineering
Aerospace Engineering and Engineering Mechanics
PhD, Texas A & M University, 1998

Deji Akinwande, Associate Professor
Electrical and Computer Engineering
PhD, Stanford University, 2010

David T Allen, Professor
Melvin H. Gertz Regents Chair in Chemical Engineering
Chemical Engineering
PhD, California Institute of Technology, 1983

Hal S Alper, Professor
Paul D. and Betty Robertson Meek Centennial Professorship in Chemical Engineering
Chemical Engineering
PhD, Massachusetts Institute of Technology, 2006

Andrea Alu, Adjunct Professor
Temple Foundation Endowed Professorship No. 3
Electrical and Computer Engineering
PhD, Universita degli Studi Roma Tre, 2007

Catherine G Ambrose, Adjunct Associate Professor
Biomedical Engineering
PhD, University of Texas at Austin, 1992

Jeffrey G Andrews, Professor
Cullen Trust for Higher Education Endowed Professorship in Engineering #1
Electrical and Computer Engineering
PhD, Stanford University, 2002

Joshua Apte, Assistant Professor
Civil, Architectural, and Environmental Engineering
MS, University of California-Berkeley, 2008

Aristotle Arapostathis, Professor
Electrical and Computer Engineering
PhD, University of California-Berkeley, 1982

Neal E Armstrong, Professor Emeritus
Civil, Architectural, and Environmental Engineering
PhD, University of Texas at Austin, 1968

Ivo M Babuska, Professor
Robert B. Trull Chair in Engineering
Aerospace Engineering and Engineering Mechanics
PhD, Academy of Sciences, 1955

Francois Baccelli, Professor
Simons Chair in Mathematics and Electrical and Computer Engineering
Electrical and Computer Engineering
These d‘Etat, Universite de Paris XI, Paris-Sud, 1983

Cem Bagdatlioglu, Lecturer
Mechanical Engineering
MS, University of Texas at Austin, 2015

Vaibhav Bahadur, Assistant Professor
Mechanical Engineering
PhD, Purdue University Main Campus, 2008

Aaron Blair Baker, Associate Professor
Biomedical Engineering
PhD, Harvard University, 2006

Lee E Baker, Professor Emeritus
Electrical and Computer Engineering
PhD, Baylor College of Medicine, 1965

Efstathios Bakolas, Assistant Professor
Aerospace Engineering and Engineering Mechanics
PhD, Georgia Institute of Technology, 2011

Michael Baldea, Associate Professor
Chemical Engineering
PhD, University of Minnesota-Twin Cities, 2006

Ross Baldick, Professor
Electrical and Computer Engineering
PhD, University of California-Berkeley, 1990

Matthew T Balhoff, Associate Professor
Sanjay K Banerjee, Professor
Cockrell Family Regents Chair in Engineering #4
Electrical and Computer Engineering
PhD, University of Illinois at Urbana-Champaign, 1983

Seth R Bank, Associate Professor
Electrical and Computer Engineering
PhD, Stanford University, 2006

James A Bankson, Adjunct Associate Professor
Biomedical Engineering
PhD, Texas A & M University, 2001

Suzanne Barber, Professor
AT&T Foundation Endowed Professorship in Engineering
Electrical and Computer Engineering
PhD, University of Texas at Arlington, 1992

Jonathan F Bard, Professor
Mechanical Engineering
DSc, George Washington University, 1979

Joel W Barlow, Adjunct Professor
Chemical Engineering
PhD, University of Wisconsin-Madison, 1970

John W Barnes, Professor Emeritus
Mechanical Engineering
PhD, University of Arkansas Main Campus, 1971

Ronald E Barr, Professor
Mechanical Engineering
PhD, Marquette University, 1975

Don S Batory, Professor
David Bruton, Jr. Centennial Professorship in Computer Sciences #1
Electrical and Computer Engineering
PhD, University of Toronto, 1981

Martin L Baughman, Professor Emeritus
Electrical and Computer Engineering
PhD, Massachusetts Institute of Technology, 1972

Oguzhan Bayrak, Professor
Civil, Architectural, and Environmental Engineering
PhD, University of Toronto, 1999

Fred C Beach, Lecturer
Chemical Engineering
PhD, University of Texas at Austin, 2010

Joseph J Beaman Jr, Professor
Earnest F. Gloyna Regents Chair in Engineering
Mechanical Engineering
ScD, Massachusetts Institute of Technology, 1979

Haley K Beasley
Mechanical Engineering
MD, Tulane University, 1962

Michael F Becker, Professor
Electrical and Computer Engineering
PhD, Stanford University, 1974

Anthony Bedford, Professor Emeritus
Aerospace Engineering and Engineering Mechanics
PhD, Rice University, 1967

Mikhail A Belkin, Associate Professor
Electrical and Computer Engineering
PhD, University of California-Berkeley, 2004

Adela Ben-Yakar, Professor
Biomedical Engineering
Mechanical Engineering
PhD, Stanford University, 2001

Jeffrey K Bennighof, Research Professor (Affiliated)
Aerospace Engineering and Engineering Mechanics
PhD, Virginia Polytechnic Institute and State University, 1986

Brenda L Berkelaar, Lecturer
Mechanical Engineering
PhD, Purdue University Main Campus, 2010

Srinivas V Bettadpur, Associate Professor
Aerospace Engineering and Engineering Mechanics
PhD, University of Texas at Austin, 1993

Amit Bhasin, Associate Professor
Civil, Architectural, and Environmental Engineering
DPhil, Texas A & M University, 2006

Abhimanyu Bhat, Lecturer
Mechanical Engineering
PhD, University of Texas at Austin, 2015

Chandra R Bhat, Professor
Joe J. King Chair of Engineering
Civil, Architectural, and Environmental Engineering
PhD, Northwestern University, 1991

J Eric Bickel, Associate Professor
Mechanical Engineering
Petroleum and Geosystems Engineering
PhD, Stanford University, 1999

George Biros, Professor
W. A. "Tex" Moncrief, Jr. Endowment in Simulation-Based Engineering and
Sciences - Endowed Chair No. 2
Mechanical Engineering
PhD, Carnegie Mellon University, 2000

Fabrizio Bisetti, Assistant Professor
Aerospace Engineering and Engineering Mechanics
PhD, University of California-Berkeley, 2007

Benjamin A Black, Lecturer
Aerospace Engineering and Engineering Mechanics
Mechanical Engineering
PhD, Georgia Institute of Technology, 2007

David T Blackstock, Professor Emeritus
Mechanical Engineering
PhD, Harvard University, 1960

David G Bogard, Professor
Baker Hughes Incorporated Centennial Professorship
Mechanical Engineering
PhD, Purdue University Main Campus, 1982

Paul M Bommer, Distinguished Senior Lecturer
Chevron Lectureship in Petroleum Engineering
Petroleum and Geosystems Engineering
PhD, University of Texas at Austin, 1979
Roger T Bonnecaze, Professor
William and Bettye Nowlin Chair in Engineering
Chemical Engineering
PhD, California Institute of Technology, 1991
John D Borchering, Adjunct Professor
Civil, Architectural, and Environmental Engineering
PhD, Stanford University, 1972
Maura Borrego, Professor
Mechanical Engineering
PhD, Stanford University, 2003
Francis X Bostick Jr, Professor Emeritus
Electrical and Computer Engineering
PhD, University of Texas at Austin, 1964
David L Bourell, Professor
Temple Foundation Endowed Professorship No. 2
Mechanical Engineering
PhD, Stanford University, 1979
Alan C Bovik, Professor
Cockrell Family Regents Chair in Engineering #3
Electrical and Computer Engineering
PhD, University of Illinois at Urbana-Champaign, 1984
Stephen Boyles, Associate Professor
Civil, Architectural, and Environmental Engineering
PhD, University of Texas at Austin, 2009
John E Breen, Professor Emeritus
Civil, Architectural, and Environmental Engineering
PhD, University of Texas at Austin, 1962
Joan F Brennecke, Professor
Cockrell Family Chair in Engineering #16
Chemical Engineering
PhD, University of Illinois at Urbana-Champaign, 1989
Amy Brock, Assistant Professor
Biomedical Engineering
PhD, Harvard University, 2004
Gregory L Brooks, Senior Lecturer
Civil, Architectural, and Environmental Engineering
MArch, University of Texas at Austin, 1996
Andrew C Brown, Lecturer
Civil, Architectural, and Environmental Engineering
PhD, University of Texas at Austin, 2013
Michael D Bryant, Professor
Mechanical Engineering
PhD, Northwestern University, 1981
Tan T Bui, Assistant Professor
Aerospace Engineering and Engineering Mechanics
PhD, Massachusetts Institute of Technology, 2007
Margaret Elise Byers, Lecturer
Mechanical Engineering
PhD, University of Texas at Austin, 2017
John H Byrne, Adjoint Professor
Biomedical Engineering
PhD, Polytechnic University, 1973
Carlos H Caldas, Professor
Civil, Architectural, and Environmental Engineering
PhD, University of Illinois at Urbana-Champaign, 2003
Mehmet F Candans, Lecturer
Mechanical Engineering
PhD, University of Texas at Austin, 2007
Constantine Caramanis, Associate Professor
Electrical and Computer Engineering
PhD, Massachusetts Institute of Technology, 2006
Ben H Caudle, Professor Emeritus
Petroleum and Geosystems Engineering
PhD, University of Texas at Austin, 1963
Armand J Chaput, Senior Lecturer
Aerospace Engineering and Engineering Mechanics
PhD, Texas A & M University, 1966
Randall J Charbeneau, Professor
Jewel McAlister Smith Professorship in Engineering
Civil, Architectural, and Environmental Engineering
PhD, Stanford University, 1978
William Charlton, Professor
John J. McKetta Energy Professorship in Engineering
Mechanical Engineering
PhD, Texas A & M University, 1999
James R Chelikowsky, Professor
W. A. "Tex" Moncrief, Jr. Chair in Computational Materials
Chemical Engineering
PhD, University of California-Berkeley, 1975
Dongmei Chen, Associate Professor
Mechanical Engineering
PhD, University of Michigan-Ann Arbor, 2006
Jingyi Chen, Assistant Professor
Aerospace Engineering and Engineering Mechanics
PhD, Stanford University, 2014
Ray T Chen, Professor
Keys and Joan Curry/Cullen Trust Endowed Chair
Electrical and Computer Engineering
PhD, University of California-Irvine, 1991
Christian Claudel, Assistant Professor
Civil, Architectural, and Environmental Engineering
PhD, University of California-Berkeley, 2010
Patricia Clayton, Assistant Professor
Civil, Architectural, and Environmental Engineering
MSCE, University of Washington - Seattle, 2010
Noel T Clemens, Professor
Cockrell Family Chair for Departmental Leadership #2, Bob R. Dorsey
Professorship in Engineering
Aerospace Engineering and Engineering Mechanics
PhD, Stanford University, 1991
John F Cline, Lecturer
Mechanical Engineering
PhD, University of Texas at Austin, 2012
Thomas J Connolly, Lecturer
Aerospace Engineering and Engineering Mechanics
Mechanical Engineering
PhD, University of Texas at Austin, 2000

Lydia Maria Contreras, Associate Professor
Chemical Engineering
PhD, Cornell University, 2008

Richard L Corsi, Professor
Cockrell Family Chair for Departmental Leadership #3, Joe J. King Chair of Engineering No. 2
Civil, Architectural, and Environmental Engineering
PhD, University of California-Davis, 1989

Elizabeth Cosgriff-Hernandez, Professor
L. B. (Preach) Meaders Professorship in Engineering
Biomedical Engineering
PhD, Case Western Reserve University, 2005

Brady R Cox, Associate Professor
Civil, Architectural, and Environmental Engineering
PhD, University of Texas at Austin, 2006

Harvey G Cragon, Professor Emeritus
Electrical and Computer Engineering
BSEE, Louisiana Tech University, 1950

Roy R Craig Jr, Professor Emeritus
Aerospace Engineering and Engineering Mechanics
PhD, University of Illinois at Urbana-Champaign, 1960

Michael E Crawford, Professor Emeritus
Mechanical Engineering
PhD, Stanford University, 1976

Richard H Crawford, Professor
Mechanical Engineering
PhD, Purdue University Main Campus, 1989

Alfonso Cuevas, Senior Lecturer
Electrical and Computer Engineering
PhD, University of Texas at Austin, 1990

Michael Arthur Cullinan, Assistant Professor
Mechanical Engineering
PhD, Massachusetts Institute of Technology, 2011

Adriana Costa Da Silveira, Adjunct Assistant Professor
Biomedical Engineering
PhD, University of Florida, 1998

Hugh C Daigle, Assistant Professor
Petroleum and Geosystems Engineering
PhD, Rice University, 2011

Walter K Daniel, Project Manager
Aerospace Engineering and Engineering Mechanics
MS, Georgia Institute of Technology, 1986

Clinton N Dawson, Professor
John J. McKetta Centennial Energy Chair in Engineering
Aerospace Engineering and Engineering Mechanics
PhD, Rice University, 1988

Gustavo A De Veciana, Professor
Cullen Trust for Higher Education Endowed Professorship in Engineering #2
Electrical and Computer Engineering
PhD, University of California-Berkeley, 1993

Mojdeh Delshad, Research Professor (Affiliated)

Petroleum and Geosystems Engineering
PhD, University of Texas at Austin, 1986

Leszek F Demkowicz, Professor
W. A. "Tex" Moncrief, Jr. Chair in Computational Engineering and Sciences II
Aerospace Engineering and Engineering Mechanics
PhD, Cracow Univ of Technology, 1982

Brandi L DeMont, Lecturer
Aerospace Engineering and Engineering Mechanics
Biomedical Engineering
PhD, University of Texas at Austin, 2010

Eric Pierre Derouffignac, Adjunct Professor
Petroleum and Geosystems Engineering
PhD, University of Texas at Austin, 1979

Ashish Deshpande, Associate Professor
Mechanical Engineering
PhD, University of Michigan-Ann Arbor, 2007

Luigi Dibiase, Adjunct Associate Professor
Biomedical Engineering
MD, University of Bari, 2000

David DiCarlo, Associate Professor
Petroleum and Geosystems Engineering
PhD, Cornell University, 1994

Kenneth R Diller, Professor
Robert M. and Prudie Leibrock Endowed Professorship in Engineering
Biomedical Engineering
ScD, Massachusetts Institute of Technology, 1972

Georgios-Alex Dimakis, Associate Professor
Electrical and Computer Engineering
PhD, University of California-Berkeley, 2008

Birol Dindoruk, Professor
Petroleum and Geosystems Engineering
PhD, Stanford University, 1992

Brian Dinsmoor, Lecturer
Chemical Engineering
MS, University of Texas at Austin, 1979

Dragan Djurdjanovic, Associate Professor
Mechanical Engineering
PhD, University of Michigan-Ann Arbor, 2002

Ananth Dodabalapur, Professor
Cullen Trust for Higher Education Endowed Professorship in Engineering #3
Electrical and Computer Engineering
PhD, University of Texas at Austin, 1990

Ricardo H Dunia, Volunteer
Chemical Engineering
PhD, University of Texas at Austin, 1997

Andrew K Dunn, Professor
Donald J. Douglass Centennial Professorship in Engineering
Biomedical Engineering
PhD, University of Texas at Austin, 1997

Mary V Eberlein, Senior Lecturer
Electrical and Computer Engineering
PhD, University of Tennessee, 1996

Thomas F Edgar, Professor
George T. and Gladys H. Abell Endowed Chair of Engineering
Chemical Engineering
PhD, Princeton University, 1971

Thomas A Edison, Lecturer
Chemical Engineering
PhD, University of Maryland College Park, 1998

John G Ekerdt, Professor
Dick Rothwell Endowed Chair in Chemical Engineering
Chemical Engineering
PhD, University of California-Berkeley, 1979

Chadi Said El Mohtar, Associate Professor
Civil, Architectural, and Environmental Engineering
Chemical Engineering
PhD, Purdue University Main Campus, 2008

Robert B Eldridge, Distinguished Senior Lecturer
Chemical Engineering
PhD, University of Texas at Austin, 1986

Zwy Eliezer, Professor Emeritus
Mechanical Engineering
DSc, Technion-Israel Institute of Technology, 1972

Janet L Ellzey, Professor
Mechanical Engineering
PhD, University of California-Berkeley, 1985

Stanislav Emelianov, Adjunct Professor
Biomedical Engineering
PhD, University of Moscow, 1992

Saeid Enayatpour, Lecturer
Mechanical Engineering
PhD, University of Texas at Austin, 2015

Michael D Engelhardt, Professor
Adnan Abou-Ayyash Centennial Professorship in Transportation
Engineering
Civil, Architectural, and Environmental Engineering
PhD, University of California-Berkeley, 1989

Mattan Erez, Associate Professor
Electrical and Computer Engineering
PhD, Stanford University, 2007

David N Espinoza, Assistant Professor
Petroleum and Geosystems Engineering
PhD, Georgia Institute of Technology, 2011

Brian L Evans, Professor
Engineering Foundation Professorship
Electrical and Computer Engineering
PhD, Georgia Institute of Technology, 1993

Ofodike A Ezekoye, Professor
W. R. Woolrich Professorship in Engineering
Civil, Architectural, and Environmental Engineering
Mechanical Engineering
PhD, University of California-Berkeley, 1991

William F Fagelson, Lecturer
Electrical and Computer Engineering
PhD, University of Texas at Austin, 2004

Eric P Fahrenthold, Professor
Mechanical Engineering
PhD, Rice University, 1984

Donglei Fan, Associate Professor
Mechanical Engineering
PhD, Johns Hopkins University, 2007

Kasey M Faust, Assistant Professor
Civil, Architectural, and Environmental Engineering
PhD, Purdue University Main Campus, 2015

Marc D Feldman, Adjunct Professor
Biomedical Engineering
MD, University of Pennsylvania, 1981

Gregory L Fenves, Professor
Cockrell Family Chair in Engineering #15, Regents Chair in Higher Education Leadership, Ed and Caroline Hyman Endowed Presidential Leadership Chair
Civil, Architectural, and Environmental Engineering
PhD, University of California-Berkeley, 1984

Benito Fernandez, Associate Professor
Mechanical Engineering
PhD, Massachusetts Institute of Technology, 1988

Paulo J Ferreira, Adjunct Professor
Mechanical Engineering
PhD, University of Illinois at Urbana-Champaign, 1996

Raissa Patricia Ferron, Associate Professor
Civil, Architectural, and Environmental Engineering
PhD, Northwestern University, 2008

Mark M Flynn, Lecturer
Electrical and Computer Engineering
PhD, University of Texas at Austin, 2003

Kevin J Folliard, Professor
Civil, Architectural, and Environmental Engineering
PhD, University of California-Berkeley, 1995

John Timothy Foster, Associate Professor
Aerospace Engineering and Engineering Mechanics
Petroleum and Geosystems Engineering
PhD, Purdue University Main Campus, 2009

David W Fowler, Professor Emeritus
Civil, Architectural, and Environmental Engineering
PhD, University of Colorado at Boulder, 1965

Wallace T Fowler, Professor Emeritus
Aerospace Engineering and Engineering Mechanics
PhD, University of Texas at Austin, 1965

Douglas J Fox Jr, Adjunct Assistant Professor
Biomedical Engineering
MD, Washington University in St Louis, 1999

Karl H Frank, Professor Emeritus
Civil, Architectural, and Environmental Engineering
PhD, Lehigh University, 1972

Benny D Freeman, Professor
Richard B. Curran Centennial Chair in Engineering
Chemical Engineering
PhD, University of California-Berkeley, 1988
Keith A Friedman, Senior Lecturer
Chemical Engineering
PhD, University of Texas at Austin, 2003

Richard W Furlong, Professor Emeritus
Civil, Architectural, and Environmental Engineering
PhD, University of Texas at Austin, 1963

Donald S Fussell, Professor
Trammell Crow Regents Professorship in Computer Science
Electrical and Computer Engineering
PhD, University of Texas at Dallas, 1980

Venkat Ganesan, Professor
Kenneth A. Kobe Professorship in Chemical Engineering
Chemical Engineering
PhD, Massachusetts Institute of Technology, 1999

Vijay K Garg, Professor
Cullen Trust for Higher Education Endowed Professorship in Engineering #5
Electrical and Computer Engineering
PhD, University of California-Berkeley, 1988

James Gelb, Lecturer
Mechanical Engineering
PhD, Massachusetts Institute of Technology, 1992

George Georgiou, Professor
Laura Jennings Turner Chair in Engineering
Biomedical Engineering
Chemical Engineering
PhD, Cornell University, 1987

Hande Gerkus, Lecturer
Civil, Architectural, and Environmental Engineering
PhD, University of Texas at Austin, 2016

Andreas M Gerstlauer, Associate Professor
Electrical and Computer Engineering
PhD, University of California-Irvine, 2004

Ranjit Gharpurey, Professor
Electrical and Computer Engineering
PhD, University of California-Berkeley, 1995

Omar Ghattas, Professor
John A. and Katherine G. Jackson Chair in Computational Geosciences
Biomedical Engineering
Mechanical Engineering
PhD, Duke University, 1988

Joydeep Ghosh, Professor
Schlumberger Centennial Chair in Electrical Engineering
Electrical and Computer Engineering
PhD, University of Southern California, 1988

Robert B Gilbert, Professor
Brunswick-Abernathy Regents Professorship in Soil Dynamics and Geotechnical Engineering
Civil, Architectural, and Environmental Engineering
PhD, University of Illinois at Urbana-Champaign, 1993

Milos Gligoric, Assistant Professor
Electrical and Computer Engineering
PhD, University of Illinois at Urbana-Champaign, 2015

Earnest F Gloyna, Professor Emeritus
Civil, Architectural, and Environmental Engineering

DEng, Johns Hopkins University, 1953

David B Goldstein, Professor
Hayden Head Centennial Professorship
Aerospace Engineering and Engineering Mechanics
PhD, California Institute of Technology, 1990

Anthony J Gonzales, Lecturer
Civil, Architectural, and Environmental Engineering
MSCE, University of Texas at Austin, 2009

Mario J Gonzalez, Professor Emeritus
Electrical and Computer Engineering
PhD, University of Texas at Austin, 1971

John B Goodenough, Professor
Virginia H. Cockrell Centennial Chair in Engineering
Electrical and Computer Engineering
Mechanical Engineering
PhD, University of Chicago, 1952

Mack Grady, Professor Emeritus
Electrical and Computer Engineering
PhD, Purdue University Main Campus, 1983

Kenneth E Gray, Professor
Petroleum and Geosystems Engineering
PhD, University of Texas at Austin, 1963

Derek A Haas, Assistant Professor
Mechanical Engineering
PhD, University of Texas at Austin, 2008

Michael R Haberman, Assistant Professor
Mechanical Engineering
PhD, Georgia Institute of Technology, 2007

Christopher C Hadlock, Lecturer
Mechanical Engineering
PhD, University of Texas at Austin, 2017

Matthew J Hall, Professor
Mechanical Engineering
PhD, Princeton University, 1987

Neal A Hall, Associate Professor
Electrical and Computer Engineering
PhD, Georgia Institute of Technology, 2004

Gary A Hallock, Professor
Electrical and Computer Engineering
PhD, Rensselaer Polytechnic Institute, 1982

Mark F Hamilton, Professor
Harry L. Kent, Jr. Professorship in Mechanical Engineering
Mechanical Engineering
PhD, Pennsylvania State University Main Campus, 1983

Grani Adiwena Hanasusanto, Assistant Professor
Mechanical Engineering
PhD, Imperial College London, 2015

Raymond J Harshbarger III, Adjunct Professor
Biomedical Engineering
MD, University of Rochester, 1994

Hillary Hart, Distinguished Senior Lecturer
Civil, Architectural, and Environmental Engineering
PhD, Bryn Mawr College, 1981
John J Hasenbein, Professor
Mechanical Engineering
PhD, Georgia Institute of Technology, 1999

Noble Hatten, Research Associate
Aerospace Engineering and Engineering Mechanics
PhD, University of Texas at Austin, 2016

Byron Haynes
Petroleum and Geosystems Engineering
MS, University of Texas at Austin, 1988

Robert W Heath Jr, Professor
Cullen Trust for Higher Education Endowed Professorship in Engineering #6
Electrical and Computer Engineering
PhD, Stanford University, 2002

Robert E Hebner, Research Professor
Mechanical Engineering
PhD, University of Missouri - Rolla, 1971

Zoya Heidari, Assistant Professor
Petroleum and Geosystems Engineering
PhD, University of Texas at Austin, 2011

Adam Heller, Research Professor
Chemical Engineering
PhD, The Hebrew University of Jerusalem, 1961

Alexander J Heltzel, Lecturer
Mechanical Engineering
PhD, University of Texas at Austin, 2006

Todd A Helwig, Professor
Civil, Architectural, and Environmental Engineering
PhD, University of Texas at Austin, 1994

Deborah S Hempel-Medina, Lecturer
Petroleum and Geosystems Engineering
MBA, Southern Methodist University, 2001

Lea Hildebrandt Ruiz, Assistant Professor
Chemical Engineering
PhD, Carnegie Mellon University, 2011

Ben R Hodges, Associate Professor
Civil, Architectural, and Environmental Engineering
PhD, Stanford University, 1997

Edward R Holley, Professor Emeritus
Civil, Architectural, and Environmental Engineering
ScD, Massachusetts Institute of Technology, 1965

Rodney Horton, Adjunct Professor
Biomedical Engineering
MD, University of Texas Southwestern Medical Center at Dallas, 1988

John R Howell, Professor Emeritus
Mechanical Engineering
PhD, Case Western Reserve University, 1962

Trevor Daniel Hrynky, Assistant Professor
Civil, Architectural, and Environmental Engineering
PhD, University of Toronto, 2013

Qin Huang, Professor
Dula D. Cockrell Centennial Chair in Engineering #1
Electrical and Computer Engineering
PhD, University of Cambridge, 1992

Rui Huang, Professor
Aerospace Engineering and Engineering Mechanics
PhD, Princeton University, 2001

William R Hudson, Professor Emeritus
Civil, Architectural, and Environmental Engineering
PhD, University of Texas at Austin, 1965

Thomas J Hughes, Professor
Peter O'Donnell, Jr. Chair in Computational and Applied Mathematics
Aerospace Engineering and Engineering Mechanics
PhD, University of California-Berkeley, 1974

David G Hull, Professor Emeritus
Aerospace Engineering and Engineering Mechanics
PhD, Rice University, 1967

Todd E Humphreys, Associate Professor
Aerospace Engineering and Engineering Mechanics
PhD, Cornell University, 2008

Gyeong S Hwang, Professor
Paul D. and Betty Robertson Meek and American Petrofina Foundation Centennial Professorship in Chemical Engineering
Chemical Engineering
PhD, California Institute of Technology, 1999

Jang-Hi Im
Mechanical Engineering
ScD, Massachusetts Institute of Technology, 1976

Jean Incorvia, Assistant Professor
Electrical and Computer Engineering
PhD, Harvard University, 2015

Marcia Isakson, Lecturer
Mechanical Engineering
PhD, University of Texas at Austin, 2002

Moriba Jah, Associate Professor
Aerospace Engineering and Engineering Mechanics
PhD, University of Colorado at Boulder, 2005

Vijay Janapa Reddi, Associate Professor
Electrical and Computer Engineering
PhD, Harvard University, 2010

Ning Jiang, Assistant Professor
Biomedical Engineering
PhD, Georgia Institute of Technology, 2005

James O Jirsa, Professor Emeritus
Civil, Architectural, and Environmental Engineering
PhD, University of Illinois at Urbana-Champaign, 1963

Lizy K John, Professor
B. N. Gafford Professorship in Electrical Engineering
Electrical and Computer Engineering
PhD, Pennsylvania State University Main Campus, 1993

Blair Johnson, Assistant Professor
Civil, Architectural, and Environmental Engineering
PhD, Cornell University, 2016

Keith P Johnston, Professor
M. C. (Bud) and Mary Beth Baird Endowed Chair
Chemical Engineering
PhD, University of Illinois at Urbana-Champaign, 1981  
Brandon A Jones, Assistant Professor  
Aerospace Engineering and Engineering Mechanics  
PhD, University of Colorado at Boulder, 2010  
Miguel Jose-Yacaman, Adjunct Professor  
Chemical Engineering  
PhD, Nat University of Mexico, 1973  
Maria G Juenger, Professor  
Civil, Architectural, and Environmental Engineering  
PhD, Northwestern University, 1999  
Christine L Julien, Professor  
Annis and Jack Bowen Endowed Professorship in Engineering  
Electrical and Computer Engineering  
DSc, Washington University in St Louis, 2004  
Davor Juricic, Professor Emeritus  
Mechanical Engineering  
DSc, University of Belgrade, 1964  
Moses A Kai, Lecturer  
Electrical and Computer Engineering  
PhD, University of Texas at Austin, 2012  
Loukas F Kallivokas, Professor  
Civil, Architectural, and Environmental Engineering  
PhD, Carnegie Mellon University, 1995  
Lynn E Katz, Professor  
Bettie Margaret Smith Professorship in Engineering  
Civil, Architectural, and Environmental Engineering  
PhD, University of Michigan-Ann Arbor, 1993  
Fayez S Kazi, Lecturer  
Civil, Architectural, and Environmental Engineering  
MSE, University of Texas at Austin, 2001  
Keith Keitz, Assistant Professor  
Chemical Engineering  
PhD, California Institute of Technology, 2013  
Patrick K Kelley, Adjunct Associate Professor  
Biomedical Engineering  
MD, Baylor College of Medicine, 1998  
Ali reza Khademhosseini, Adjunct Associate Professor  
Biomedical Engineering  
PhD, Massachusetts Institute of Technology, 2005  
Sarfraz Khurshid, Professor  
Electrical and Computer Engineering  
PhD, Massachusetts Institute of Technology, 2004  
Hyun Jung Kim, Assistant Professor  
Biomedical Engineering  
PhD, Yonsei University, 2005  
Cynthia J King, Lecturer  
Civil, Architectural, and Environmental Engineering  
PhD, Arizona State University Main, 2012  
Spyridon A Kinnas, Professor  
Civil, Architectural, and Environmental Engineering  
PhD, Massachusetts Institute of Technology, 1985  
Kerry A Kinney, Professor  
L. P. Gilvin Centennial Professorship in Civil Engineering  
Civil, Architectural, and Environmental Engineering  
PhD, University of California-Davis, 1996  
Mary Jo Kirisits, Associate Professor  
Civil, Architectural, and Environmental Engineering  
PhD, University of Illinois at Urbana-Champaign, 2000  
Dale E Klein, Professor  
Frank and Kay Reese Endowed Professorship in Engineering  
Mechanical Engineering  
PhD, University of Missouri - Columbia, 1977  
Joshua B Klenzendorf, Lecturer  
Civil, Architectural, and Environmental Engineering  
PhD, University of Texas at Austin, 2010  
Richard E Klingner, Professor Emeritus  
Civil, Architectural, and Environmental Engineering  
PhD, University of California-Berkeley, 1977  
Kara Kockelman, Professor  
DeWitt C. Greer Centennial Professorship in Transportation Engineering  
Civil, Architectural, and Environmental Engineering  
PhD, University of California-Berkeley, 1998  
Billy V Koen, Professor Emeritus  
Mechanical Engineering  
ScD, Massachusetts Institute of Technology, 1968  
Joseph H Koo, Lecturer  
Mechanical Engineering  
ScD, George Washington University, 1987  
Seungbum Koo, Lecturer  
Civil, Architectural, and Environmental Engineering  
PhD, University of Texas at Austin, 2017  
Brian A Korgel, Professor  
Edward S. Hyman Endowed Chair in Engineering, T. Brockett Hudson  
Professorship in Chemical Engineering  
Chemical Engineering  
PhD, University of California-Los Angeles, 1997  
Desiderio K var, Professor  
E. C. H. Bantel Professorship for Professional Practice  
Mechanical Engineering  
PhD, Carnegie Mellon University, 1995  
Thomas J Krueger, Senior Lecturer  
Mechanical Engineering  
PhD, Texas A & M University, 1975  
Jaydeep Prakash Kulkarni, Assistant Professor  
Electrical and Computer Engineering  
PhD, Purdue University Main Campus, 2009  
Kirby A Kuntz, Lecturer  
Civil, Architectural, and Environmental Engineering  
PhD, Pennsylvania State University Main Campus, 1994  
Erhan Kutanoglu, Associate Professor  
Mechanical Engineering  
PhD, Lehigh University, 1999  
Stelios Kyriakides, Professor  
John Webb Jennings Chair in Engineering  
Aerospace Engineering and Engineering Mechanics  
PhD, California Institute of Technology, 1980
Larry W Lake, Professor
Shahid and Sharon Ullah Endowed Chair in Petroleum and Geosystems Engineering
Petroleum and Geosystems Engineering
PhD, Rice University, 1973

Simon S Lam, Professor
Regents Chair in Computer Sciences #1
Electrical and Computer Engineering
PhD, University of California-Los Angeles, 1974

Jamie P Lamb Jr, Professor Emeritus
Mechanical Engineering
PhD, University of Illinois at Urbana-Champaign, 1961

Chad M Landis, Professor
M. J. Thompson Regents Professorship in Aerospace Engineering and Engineering Mechanics
Aerospace Engineering and Engineering Mechanics
PhD, University of California-Santa Barbara, 1999

Sheldon Landsberger, Professor
Texas Atomic Energy Research Foundation Professorship in Engineering
Mechanical Engineering
PhD, University of Toronto, 1982

Desmond F Lawler, Professor
Nasser I. Al-Rashid Chair in Civil Engineering
Civil, Architectural, and Environmental Engineering
PhD, University of North Carolina at Chapel Hill, 1980

Clyde E Lee, Professor Emeritus
Civil, Architectural, and Environmental Engineering
PhD, University of California-Berkeley, 1962

Jack C Lee, Professor
Cullen Trust for Higher Education Endowed Professorship in Engineering #4
Electrical and Computer Engineering
PhD, University of California-Berkeley, 1988

Benjamin D Leibowicz, Assistant Professor
Mechanical Engineering
PhD, Stanford University, 2016

Fernanda L Leite, Associate Professor
Civil, Architectural, and Environmental Engineering
DPhil, Carnegie Mellon University, 2009

Marsha Jane Lewis, Lecturer
Chemical Engineering
PhD, University of Texas at Austin, 2010

Wei Li, Professor
Mechanical Engineering
PhD, University of Michigan-Ann Arbor, 1999

Kenneth M Liechti, Professor
Zarrow Centennial Professorship in Engineering
Aerospace Engineering and Engineering Mechanics
PhD, California Institute of Technology, 1980

Howard M Liljestrand, Professor
Gerrard A. Rohlich Regents Professorship in Civil Engineering
Civil, Architectural, and Environmental Engineering
PhD, California Institute of Technology, 1980

Chao Liu, Lecturer
Mechanical Engineering
PhD, University of Texas at Austin, 2016

Yuanyue Liu, Assistant Professor
Mechanical Engineering
PhD, Rice University, 2014

Douglas R Lloyd, Professor Emeritus
Chemical Engineering
PhD, University of Waterloo, 1977

Raymond C Loehr, Professor Emeritus
Civil, Architectural, and Environmental Engineering
PhD, University of Wisconsin-Madison, 1961

Raul G Longoria, Professor
Mechanical Engineering
PhD, University of Texas at Austin, 1989

Nanshu Lu, Associate Professor
Aerospace Engineering and Engineering Mechanics
Biomedical Engineering
PhD, Harvard University, 2009

Lan Luan, Research Assistant Professor (Affiliated)
Biomedical Engineering
PhD, Stanford University, 2011

Nathaniel Lynd, Assistant Professor
Chemical Engineering
PhD, University of Minnesota-Twin Cities, 2007

Randy B Machemehl, Professor
Nasser I. Al-Rashid Centennial Professorship in Transportation Engineering
Civil, Architectural, and Environmental Engineering
PhD, University of Texas at Austin, 1975

Raghavendran Mahalingam, Lecturer
Aerospace Engineering and Engineering Mechanics
PhD, Georgia Institute of Technology, 1999

David R Maidment, Professor
Hussein M. Alharthy Centennial Chair in Civil Engineering
Civil, Architectural, and Environmental Engineering
PhD, University of Illinois at Urbana-Champaign, 1976

Krishan A Malik, Adjunct Professor
Petroleum and Geosystems Engineering
PhD, University of Texas at Austin, 1987

Filippo Mangolini, Assistant Professor
Mechanical Engineering
PhD, Universitat Zurich, 2011

Arumugam Manthiram, Professor
Cockrell Family Regents Chair in Engineering #7
Mechanical Engineering
PhD, Indian Institute of Technology - Chennai, 1980

Lance Manuel, Professor
T. U. Taylor Professorship in Engineering
Civil, Architectural, and Environmental Engineering
PhD, Stanford University, 1993

Harris L Marcus, Professor Emeritus
Mechanical Engineering
PhD, Northwestern University, 1966

Hans M Mark, Professor Emeritus
Mia K Markey, Professor
Biomedical Engineering
PhD, Duke University, 2001

Kurt M Marshek, Professor Emeritus
Mechanical Engineering
PhD, Ohio State U Main Campus, 1977

Glenn Y Masada, Professor
Mechanical Engineering
ScD, Massachusetts Institute of Technology, 1980

Ronald D Matthews, Professor
Mechanical Engineering
PhD, University of California-Berkeley, 1977

Jennifer A Maynard, Associate Professor
Chemical Engineering
PhD, University of Texas at Austin, 2002

Robert B McCann
Civil, Architectural, and Environmental Engineering
Electrical and Computer Engineering
PhD, University of Texas at Austin, 1975

Mark W McDermott, Executive in Residence
Electrical and Computer Engineering
PhD, University of Texas at Austin, 2014

John J McKetta Jr, Professor Emeritus
Chemical Engineering
PhD, University of Michigan-Ann Arbor, 1946

Daene C McKinney, Professor
W. A. (Bill) Cunningham Professorship
Civil, Architectural, and Environmental Engineering
PhD, Cornell University, 1990

Mark E Mear, Professor
Aerospace Engineering and Engineering Mechanics
PhD, Harvard University, 1986

Fatima A Merchant, Adjunct Associate Professor
Biomedical Engineering
PhD, University of Texas at Austin, 1995

Robert M Metcalfe, Professor
Electrical and Computer Engineering
PhD, Harvard University, 1973

Delia Milliron, Professor
Henry Beckman Professorship in Chemical Engineering
Chemical Engineering
PhD, University of California-Berkeley, 2004

Thomas E Milner, Professor
The Joe King Professorship
Biomedical Engineering
Electrical and Computer Engineering
PhD, University of Arizona, 1991

Kishore Mohanty, Professor
Bank of America Centennial Professorship in Petroleum Engineering
Petroleum and Geosystems Engineering
PhD, University of Minnesota-Duluth, 1981

Tessie J Moon, Professor
Mechanical Engineering
PhD, University of Illinois at Urbana-Champaign, 1989

Christy Moore, Senior Lecturer
Mechanical Engineering
MA, University of Texas at Austin, 1990

Robert D Moser, Professor
W. A. "Tex" Moncrief, Jr. Chair in Computational Engineering and Sciences
Mechanical Engineering
PhD, Stanford University, 1984

Charles B Mullins, Professor
Z. D. Bonner Professorship of Chemical Engineering, Matthew Van Winkle Regents Professorship in Chemical Engineering
Chemical Engineering
PhD, California Institute of Technology, 1990

Juan Murcia Delso, Assistant Professor
Civil, Architectural, and Environmental Engineering
PhD, University of California-San Diego, 2013

Mustafa N Musta, Visiting Associate Professor
Aerospace Engineering and Engineering Mechanics
PhD, Southern Methodist University, 2012

Gyorgy Zoltan Nagy, Assistant Professor
Civil, Architectural, and Environmental Engineering
PhD, Swiss Federal Institute of Technology, 2011

Mohsen Nakhaeinejad, Lecturer
Mechanical Engineering
PhD, University of Texas at Austin, 2010

Vallath Nandakumar, Lecturer
Electrical and Computer Engineering
PhD, University of California-Berkeley, 1990

Dean P Neikirk, Professor
Cullen Trust for Higher Education Endowed Professorship in Engineering #7
Electrical and Computer Engineering
PhD, California Institute of Technology, 1984

Richard R Neptune, Professor
Cockrell Family Chair for Departmental Leadership #4, John T. MacGuire Professorship in Mechanical Engineering
Mechanical Engineering
PhD, University of California-Davis, 1996

Quoc P Nguyen, Professor
J. H. Herring Centennial Professorship in Petroleum Engineering
Petroleum and Geosystems Engineering
PhD, Delft University of Technology, 2004

Steven P Nichols, Professor
Mechanical Engineering
PhD, University of Texas at Austin, 1975

Evdokia Nikolova, Assistant Professor
Electrical and Computer Engineering
PhD, Massachusetts Institute of Technology, 2009

Atila Novoselac, Professor
Civil, Architectural, and Environmental Engineering
PhD, Pennsylvania State University Main Campus, 2004
Shannon B O'Brien, Lecturer
Civil, Architectural, and Environmental Engineering
PhD, University of Florida, 2007

William J O'Brien, Professor
Civil, Architectural, and Environmental Engineering
PhD, Stanford University, 1998

James T O'Connor, Professor
C. T. Wells Professorship in Project Management
Civil, Architectural, and Environmental Engineering
PhD, University of Texas at Austin, 1983

J T Oden, Professor
Cockrell Family Regents Chair in Engineering #2, Peter O'Donnell, Jr.
Centennial Chair in Computing Systems
Aerospace Engineering and Engineering Mechanics
PhD, Oklahoma State University Main Campus, 1962

Ryosuke Okuno, Assistant Professor
Petroleum and Geosystems Engineering
PhD, University of Texas at Austin, 2009

Hilary C Olson, Lecturer
Petroleum and Geosystems Engineering
PhD, Stanford University, 1988

Jon E Olson, Professor
Lois K. and Richard D. Folger Leadership Chair in Petroleum and Geosystems Engineering, Frank W. Jessen Professorship in Petroleum Engineering
Petroleum and Geosystems Engineering
PhD, Stanford University, 1991

Roy E Olson, Professor Emeritus
Civil, Architectural, and Environmental Engineering
PhD, University of Illinois at Urbana-Champaign, 1960

Raymond Lee Orbach, Professor
Mechanical Engineering
PhD, University of California-Berkeley, 1960

Michael E Orshansky, Professor
Electrical and Computer Engineering
PhD, University of California-Berkeley, 2001

Jeremiah F Palmer, Lecturer
Aerospace Engineering and Engineering Mechanics
PhD, University of Texas at Austin, 2015

Zhigang Pan, Professor
Engineering Foundation Endowed Professorship #1
Electrical and Computer Engineering
PhD, University of California-Los Angeles, 2000

Ronald L Panton, Professor Emeritus
Mechanical Engineering
PhD, University of California-Berkeley, 1966

Michael P Pappas, Lecturer
Civil, Architectural, and Environmental Engineering
PhD, University of Texas at Austin, 2004

Paola Passalacqua, Associate Professor
Civil, Architectural, and Environmental Engineering
PhD, University of Minnesota-Twin Cities, 2009

Yale N Patt, Professor
Ernest Cockrell, Jr. Centennial Chair in Engineering
Electrical and Computer Engineering
PhD, Stanford University, 1966

Donald R Paul, Professor
Ernest Cockrell, Sr. Chair in Engineering
Chemical Engineering
PhD, University of Wisconsin-Madison, 1965

Nicholas A Peppas, Professor
Cockrell Family Regents Chair in Engineering #6
Biomedical Engineering
Chemical Engineering
ScD, Massachusetts Institute of Technology, 1973

Dewayne E Perry, Professor Emeritus
Electrical and Computer Engineering
PhD, Stevens Institute of Technology, 1978

Ekwere J Peters, Professor Emeritus
Petroleum and Geosystems Engineering
PhD, University of Alberta, 1979

Daniel L Peterson, Adjunct Professor
Biomedical Engineering
MD, University of Colorado at Boulder, 1988

Michael Ray Piana, Volunteer
Chemical Engineering
MBA, University of Texas at Austin, 1978

Jean-Philip Piquemal, Adjunct Professor
Biomedical Engineering
PhD, Universite de Paris VI, Pierre et Marie Curie, 2004

Michael E Poehl, Lecturer
Chemical Engineering
MBA, University of Houston, 1988

Gary A Pope, Professor
Texaco Centennial Chair in Petroleum Engineering
Petroleum and Geosystems Engineering
PhD, Rice University, 1972

Edward J Powers Jr, Professor Emeritus
Electrical and Computer Engineering
PhD, Stanford University, 1965

Roger L Priebe, Senior Lecturer
Electrical and Computer Engineering
PhD, University of Texas at Austin, 1997

Masa Prodanovic, Associate Professor
Petroleum and Geosystems Engineering
PhD, New York University, 2005

Jorge A Prozzi, Professor
Civil, Architectural, and Environmental Engineering
PhD, University of California-Berkeley, 2001

Mitchell W Pryor, Lecturer
Electrical and Computer Engineering
Mechanical Engineering
PhD, University of Texas at Austin, 2002

Daniel Puperi, Lecturer
Biomedical Engineering
PhD, Rice University, 2016

Michael Pyrcz, Associate Professor
Petroleum and Geosystems Engineering
PhD, University of Alberta, 2004
Varun Rai, Associate Professor
Mechanical Engineering
PhD, Stanford University, 2008
Laxminarayan L Raja, Professor
Robert L. Parker, Sr. Centennial Professorship in Engineering
Aerospace Engineering and Engineering Mechanics
PhD, University of Texas at Austin, 1996
D’Arcy C Randall, Senior Lecturer
Chemical Engineering
PhD, University of Texas at Austin, 2001
Ellen M Rathje, Professor
Warren S. Bellows Centennial Professorship in Civil Engineering
Civil, Architectural, and Environmental Engineering
PhD, University of California-Berkeley, 1997
Manuel Karl Rausch, Assistant Professor
Aerospace Engineering and Engineering Mechanics
Biomedical Engineering
PhD, Stanford University, 2013
Krishnaswa Ravi-Chandar, Professor
Temple Foundation Endowed Professorship No. 1
Aerospace Engineering and Engineering Mechanics
California Institute of Technology, 1982
Leonard F Register, Professor
J. H. Herring Centennial Professorship in Engineering
Electrical and Computer Engineering
PhD, North Carolina State University, 1990
Pengyu Ren, Professor
Biomedical Engineering
PhD, University of Cincinnati Main Campus, 1999
Joshua D Rhodes, Lecturer
Mechanical Engineering
PhD, University of Texas at Austin, 2014
Gary T Rochelle, Professor
Carol and Henry Groppe Professorship in Chemical Engineering
Chemical Engineering
PhD, University of California-Berkeley, 1977
Gregory J Rodin, Professor
Aerospace Engineering and Engineering Mechanics
Massachusetts Institute of Technology, 1986
Tomas M Rodriguez, Lecturer
Civil, Architectural, and Environmental Engineering
MS, University of Texas at Austin, 2009
Adrienne M Rosales, Assistant Professor
Chemical Engineering
PhD, University of California-Berkeley, 2013
Charles H Roth Jr, Professor Emeritus
Electrical and Computer Engineering
PhD, Stanford University, 1962
Juan P Ruiz, Other University Affiliate
Chemical Engineering
PhD, Carnegie Mellon University, 2011
Martin Glen Rumbaugh, Lecturer
Civil, Architectural, and Environmental Engineering
MS, University of Texas at Austin, 1998
Ryan P Russell, Associate Professor
Aerospace Engineering and Engineering Mechanics
PhD, University of Texas at Austin, 2004
Christopher G Rylander, Associate Professor
Biomedical Engineering
Mechanical Engineering
PhD, University of Texas at Austin, 2005
Henry G Rylander III, Professor
Harry H. Power Professorship in Engineering
Biomedical Engineering
Electrical and Computer Engineering
MD, University of Texas Health Science Center at San Antonio, 1974
Marissa Nichole Rylander, Associate Professor
Mechanical Engineering
PhD, University of Texas at Austin, 2005
Michael S Sacks, Professor
W. A. "Tex" Moncrief, Jr. Endowment in Simulation-Based Engineering and Sciences - Endowed Chair No. 1
Aerospace Engineering and Engineering Mechanics
Biomedical Engineering
Mechanical Engineering
PhD, University of Texas at Arlington, 1992
Jason D Sagers, Lecturer
Mechanical Engineering
PhD, University of Texas at Austin, 2012
Chirag Sakhuja, Lecturer
Electrical and Computer Engineering
MS, University of Texas at Austin, 2017
Shelly Elese Sakiyama-Elbert, Professor
Cockrell Family Chair for Departmental Leadership #1, Fletcher Stuckey
Pratt Chair in Engineering
Biomedical Engineering
PhD, California Institute of Technology, 2000
Joseph C Salamone, Adjunct Professor
Chemical Engineering
PhD, Carnegie Mellon University, 2007
Salvatore Salamone, Assistant Professor
Civil, Architectural, and Environmental Engineering
PhD, Universita degli Studi di Palermo, 2007
Isaac C Sanchez, Professor
William J. (Bill) Murray, Jr. Endowed Chair of Engineering
Chemical Engineering
PhD, University of Delaware, 1969
Navid Saleh, Associate Professor
Civil, Architectural, and Environmental Engineering
PhD, University of California-Los Angeles, 1977
Irwin W Sandberg, Professor Emeritus
Electrical and Computer Engineering
DEE, Polytechnic University, 1958

Sujay Sanghavi, Associate Professor
Electrical and Computer Engineering
PhD, University of Illinois at Urbana-Champaign, 2006

Surya Santoso, Professor
Electrical and Computer Engineering
PhD, University of Texas at Austin, 1996

Richard A Schapery, Professor Emeritus
Aerospace Engineering and Engineering Mechanics
PhD, California Institute of Technology, 1962

Erich A Schneider, Professor
Mechanical Engineering
PhD, Cornell University, 2002

Carolyn C Seepersad, Associate Professor
Mechanical Engineering
PhD, Georgia Institute of Technology, 2004

Polina Sela, Assistant Professor
Civil, Architectural, and Environmental Engineering
PhD, Technion-Israel Institute of Technology, 2011

Luis Sentis, Associate Professor
Aerospace Engineering and Engineering Mechanics
PhD, Stanford University, 2007

Kamy Sepehrnoori, Professor
W. A. "Monty" Moncrief Centennial Chair in Petroleum Engineering
Petroleum and Geosystems Engineering
PhD, University of Texas at Austin, 1977

Amir Shahmoradi, Lecturer
Aerospace Engineering and Engineering Mechanics
PhD, University of Texas at Austin, 2015

Sanjay Shakkottai, Professor
Ashley H. Priddy Centennial Professorship in Engineering
Electrical and Computer Engineering
PhD, University of Illinois at Urbana-Champaign, 2002

Mukul M Sharma, Professor
W. A. "Tex" Moncrief, Jr. Centennial Chair in Petroleum Engineering
Petroleum and Geosystems Engineering
PhD, University of Southern California, 1985

Li Shi, Professor
The BFGoodrich Endowed Professorship in Materials Engineering
Mechanical Engineering
PhD, University of California-Berkeley, 2000

Jayant Sirohi, Associate Professor
Aerospace Engineering and Engineering Mechanics
PhD, University of Maryland College Park, 2002

Richard W Smalling, Adjunct Professor
Biomedical Engineering
PhD, University of Texas Health Science Center at Houston, 1977

Mark J T Smith, Professor
Electrical and Computer Engineering
PhD, Georgia Institute of Technology, 1984

Michael H Smolensky, Adjunct Professor
Biomedical Engineering
PhD, University of Illinois at Urbana-Champaign, 1971

Konstantin V Sokolov, Adjunct Associate Professor
Biomedical Engineering
PhD, Moscow State University, 1992

David Soloveichik, Assistant Professor
Electrical and Computer Engineering
PhD, California Institute of Technology, 2008

Gerald E Speitel Jr, Professor
C. W. Cook Professorship in Environmental Engineering
Civil, Architectural, and Environmental Engineering
PhD, University of North Carolina at Chapel Hill, 1985

S V Sreenivasan, Professor
Joe C. Walter, Jr. Chair in Engineering
Mechanical Engineering
PhD, Ohio State U Main Campus, 1994

Jeanne Casstevens Stachowiak, Assistant Professor
Biomedical Engineering
PhD, University of California-Berkeley, 2008

Mark A Stadtherr, Research Professor
Chemical Engineering
PhD, University of Wisconsin-Madison, 1976

Karl D Stephan, Adjunct Associate Professor
Electrical and Computer Engineering
PhD, University of Texas at Austin, 1983

Morris Stern, Professor Emeritus
Aerospace Engineering and Engineering Mechanics
PhD, University of Illinois at Urbana-Champaign, 1962

James E Stice, Professor Emeritus
Chemical Engineering
PhD, Illinois Institute of Technology, 1963

Wesley W Stidham, Lecturer
Civil, Architectural, and Environmental Engineering
BSME, University of Texas at Austin, 1995

Kenneth H Stokoe II, Professor
Jennie C. and Milton T. Graves Chair in Engineering
Civil, Architectural, and Environmental Engineering
PhD, University of Michigan-Ann Arbor, 1972

Ben G Streetman, Professor Emeritus
Biomedical Engineering
PhD, University of Texas at Austin, 1966

Laura J Suggs, Professor
Biomedical Engineering
PhD, Rice University, 1998

James Samuel Sulzer, Assistant Professor
Mechanical Engineering
PhD, Northwestern University, 2009

Nan Sun, Associate Professor
Electrical and Computer Engineering
PhD, Harvard University, 2011

Earl E Swartzlander Jr, Professor
Electrical and Computer Engineering
PhD, University of Southern California, 1972

John S Swinnea, Lecturer
Chemical Engineering
PhD, University of Texas at Austin, 1981
Eric M Taleff, Professor
Mechanical Engineering
PhD, Stanford University, 1995
Takashi Tanaka, Assistant Professor
Aerospace Engineering and Engineering Mechanics
PhD, University of Illinois at Urbana-Champaign, 2012
Hu Tao, Assistant Professor
Mechanical Engineering
PhD, Boston University, 2010
Byron D Tapley, Professor Emeritus
Aerospace Engineering and Engineering Mechanics
PhD, University of Texas at Austin, 1960
John L Tassoulas, Professor
Phil M. Ferguson Professorship in Civil Engineering
Civil, Architectural, and Environmental Engineering
PhD, Massachusetts Institute of Technology, 1981
Nina K Telang, Senior Lecturer
Biomedical Engineering
Electrical and Computer Engineering
PhD, University of Notre Dame, 1995
David W Terreson, Adjunct Associate Professor
Biomedical Engineering
MD, University of Mississippi Medical Center, 1986
Delbert Tesar, Professor Emeritus
Mechanical Engineering
PhD, Georgia Institute of Technology, 1964
Ahmed Hossam Tewfik, Professor
Cockrell Family Regents Chair in Engineering #1, Cockrell Family Chair for Departmental Leadership #5
Electrical and Computer Engineering
ScD, Massachusetts Institute of Technology, 1987
Andrea Lockerd Thomaz, Associate Professor
Electrical and Computer Engineering
PhD, Massachusetts Institute of Technology, 2006
Edison Thomaz Jr, Research Assistant Professor
Electrical and Computer Engineering
PhD, Georgia Institute of Technology, 2016
Mohit Tiwari, Assistant Professor
Electrical and Computer Engineering
PhD, University of California-Santa Barbara, 2011
Ufuk Topcu, Assistant Professor
Aerospace Engineering and Engineering Mechanics
PhD, University of California-Berkeley, 2008
Carlos Torres-Verdin, Professor
Brian James Jennings Memorial Endowed Chair in Petroleum and Geosystems Engineering
Petroleum and Geosystems Engineering
PhD, University of California-Berkeley, 1991
Nur A Touba, Professor
Electrical and Computer Engineering
PhD, Stanford University, 1996
Thomas M Truskett, Professor

Bill L. Stanley Endowed Leadership Chair in Chemical Engineering, Les and Sheri Stuewer Endowed Professorship in Chemical Engineering
Chemical Engineering
PhD, Princeton University, 2001
Richard L Tucker, Professor Emeritus
Civil, Architectural, and Environmental Engineering
PhD, University of Texas at Austin, 1963
James W Tunnell, Associate Professor
Biomedical Engineering
PhD, Rice University, 2002
David P Tuttle, Lecturer
Mechanical Engineering
PhD, University of Texas at Austin, 2015
Emanuel Tutuc, Associate Professor
Electrical and Computer Engineering
PhD, Princeton University, 2004
Timothy J Urban, Lecturer
Aerospace Engineering and Engineering Mechanics
PhD, University of Texas at Austin, 2000
Jonathan W Valvano, Professor
Electrical and Computer Engineering
PhD, Stanford University, 1983
Haris Vikalo, Associate Professor
Electrical and Computer Engineering
PhD, Stanford University, 2003
Sriram Vishwanath, Professor
Electrical and Computer Engineering
PhD, Stanford University, 2004
T R Viswanathan, Research Professor
Electrical and Computer Engineering
PhD, University of Saskatchewan, 1964
Gary C Vliet, Professor Emeritus
Mechanical Engineering
PhD, Stanford University, 1962
Norman K Wagner, Associate Professor Emeritus
Civil, Architectural, and Environmental Engineering
PhD, University of Hawaii at Manoa, 1966
C Michael Walton, Professor
Ernest H. Cockrell Centennial Chair in Engineering
Civil, Architectural, and Environmental Engineering
PhD, North Carolina State University, 1971
Junmin Wang, Professor
Mechanical Engineering
PhD, University of Texas at Austin, 2007
Yaguo Wang, Assistant Professor
Mechanical Engineering
PhD, Purdue University Main Campus, 2011
Zheng Wang, Assistant Professor
Electrical and Computer Engineering
PhD, Stanford University, 2006
Daniel M Wasserman, Associate Professor
Electrical and Computer Engineering
PhD, Princeton University, 2004
Michael E Webber, Professor
Josey Centennial Professorship in Energy Resources
Mechanical Engineering
PhD, Stanford University, 2001
Ashley J Welch, Professor Emeritus
Biomedical Engineering
PhD, Rice University, 1964
William F Weldon, Professor Emeritus
Mechanical Engineering
MS, University of Texas at Austin, 1970
Charles J Werth, Professor
Bettie Margaret Smith Chair in Environmental Health Engineering
Civil, Architectural, and Environmental Engineering
PhD, Stanford University, 1997
Heidi R Westerfield Ross, Lecturer
Civil, Architectural, and Environmental Engineering
MSCE, University of Texas at Austin, 1993
John C Westkaemper, Professor Emeritus
Aerospace Engineering and Engineering Mechanics
PhD, University of Texas at Austin, 1967
Mary F Wheeler, Professor
Ernest and Virginia Cockrell Chair in Engineering
Aerospace Engineering and Engineering Mechanics
Petroleum and Geosystems Engineering
PhD, Rice University, 1971
James C Wiley, Lecturer
Electrical and Computer Engineering
PhD, University of Texas at Austin, 1974
Eric B Williamson, Professor
Hussein M. Alharthy Centennial Professorship in Civil Engineering
Civil, Architectural, and Environmental Engineering
PhD, University of Illinois at Urbana-Champaign, 1996
Carlton G Willson, Professor
Rashid Engineering Regents Chair
Chemical Engineering
PhD, University of California-Berkeley, 1974
Preston S Wilson, Professor
Mechanical Engineering
PhD, Boston University, 2002
Eugene H Wissler, Professor Emeritus
Chemical Engineering
PhD, University of Minnesota-Twin Cities, 1955
Billy H Wood, Senior Lecturer
Mechanical Engineering
MArch, Texas A & M University, 1977
Sharon L Wood, Professor
Cockrell Family Chair in Engineering #14, Jack and Beverly Randall
Dean’s Chair for Excellence in Engineering, Cockrell Family Dean’s Chair in Engineering Excellence, Dean’s Chair for Excellence in Engineering Civil, Architectural, and Environmental Engineering
PhD, University of Illinois at Urbana-Champaign, 1986
Herbert H Woodson, Professor Emeritus
Electrical and Computer Engineering
DSc, Massachusetts Institute of Technology, 1956
Stephen G Wright, Professor Emeritus
Civil, Architectural, and Environmental Engineering
PhD, University of California-Berkeley, 1969
Tracy A Wuster, Lecturer
Electrical and Computer Engineering
PhD, University of Texas at Austin, 2011
Chong Xie, Assistant Professor
Biomedical Engineering
PhD, Stanford University, 2011
Ying Xu, Associate Professor
Civil, Architectural, and Environmental Engineering
PhD, Virginia Polytechnic Institute and State University, 2009
Thomas Yankeelov, Professor
W. A. "Tex" Moncrief, Jr. Chair in Computational Engineering and Sciences IV - Computational Oncology, W. A. "Tex" Moncrief, Jr. Chair in Computational Engineering and Sciences IV - Computational Oncology
Biomedical Engineering
PhD, State University of New York at Stony Brook, 2003
Hsin-Chih Yeh, Assistant Professor
Biomedical Engineering
PhD, Johns Hopkins University, 2008
Ramesh Yerraballi, Distinguished Senior Lecturer
Electrical and Computer Engineering
PhD, Old Dominion University, 1996
Ching-Hsie Yew, Professor Emeritus
Aerospace Engineering and Engineering Mechanics
PhD, University of California-Berkeley, 1962
Ali E Yilmaz, Associate Professor
Electrical and Computer Engineering
PhD, University of Illinois at Urbana-Champaign, 2005
Edward T Yu, Professor
Judson S. Swearingen Regents Chair in Engineering
Electrical and Computer Engineering
PhD, California Institute of Technology, 1991
Guihua Yu, Assistant Professor
Mechanical Engineering
PhD, Harvard University, 2009
Joseph A Yura, Professor Emeritus
Civil, Architectural, and Environmental Engineering
PhD, Lehigh University, 1965
Ramin Zanbaghi, Lecturer
Electrical and Computer Engineering
PhD, Oregon State University, 2011
Renato Zanetti, Assistant Professor
Aerospace Engineering and Engineering Mechanics

Undergraduate Catalog 2018-2020  ▶  Faculty  837
PhD, University of Texas at Austin, 2007
Zhanmin Zhang, Professor
Civil, Architectural, and Environmental Engineering

PhD, University of Texas at Austin, 1996
Yuebing Zheng, Assistant Professor
Mechanical Engineering

PhD, Pennsylvania State University Park, 2010
Jianshi Zhou, Research Professor
Mechanical Engineering

Hao Zhu, Assistant Professor
Electrical and Computer Engineering

Janeta Zoldan, Assistant Professor
Biomedical Engineering

Jorge G Zornberg, Professor
Civil, Architectural, and Environmental Engineering

College of Fine Arts Faculty

The following faculty list represents those appointed in the 2018 spring semester.

Lee E Abraham, Associate Professor Emeritus
Theatre and Dance
MFA, California Institute of the Arts, 1977

Nanette Acosta, Lecturer
Theatre and Dance
BFA, DePaul University, 1990

Christopher O Adejumo, Associate Professor
Art and Art History
PhD, Ohio State U Main Campus, 1997

Donnie R Albert, Senior Lecturer
Music
MM, Southern Methodist University, 1975

Sarah B Aldridge, Technical Staff Assistant IV
Theatre and Dance
BFA, Boston University, 2002

Gregory D Allen, Professor
Music
MM, Peabody Institute of Johns Hopkins University, 1972

Byron P Almen, Associate Professor
Music
PhD, Indiana University at Bloomington, 1998

Megan Alrutz, Associate Professor
Theatre and Dance
PhD, Arizona State University Main, 2004

Charles O Anderson, Associate Professor
Theatre and Dance
MFA, Temple University, 2002

Kevin J Auer, Technical Staff Assistant III

Art and Art History
MA, University of Texas at Austin, 2009

Michael Avila, Lecturer
Theatre and Dance
MA, University of Houston, 2014

Nicole Awai, Assistant Professor
Art and Art History
MFA, University of South Florida, 1996

Christina Bain, Associate Professor
Art and Art History
PhD, University of Georgia, 2001

Rebecca A Baltzer, Professor Emeritus
Music
PhD, Boston University, 1974

Alyson Beaton, Lecturer
Art and Art History
MFA, School of the Art Institute of Chicago, 2003

Andrea P Beckham, Senior Lecturer
Theatre and Dance
BA, University of Texas at Austin, 1986

Ronald Berry Jr, Lecturer
Theatre and Dance
BA, Earlham College and Earlham School of Religion, 1995

Alexander Birchler, Research Associate
Art and Art History
MFA, Nova Scotia College of Art and Design, 1992

William Bloodgood, Senior Lecturer
Theatre and Dance
MFA, Pennsylvania State University Park, 1990

Paul E Bolin, Professor
Art and Art History
PhD, University of Oregon, 1986

Paul A Bonin, Associate Professor
Theatre and Dance
PhD, University of Texas at Austin, 2006

Carl Booker, Lecturer
Theatre and Dance
MFA, University of Texas at Austin, 2011

Yvonne M Boudreaux, Lecturer
Theatre and Dance
MFA, University of Texas at Austin, 2007

Penny Rae-Sunshine Brandt, Lecturer
Music
PhD, University of Connecticut, 2017

Troy D Brauntuch, Professor
Art and Art History
BFA, California Institute of the Arts, 1975

Nathaniel O Brickens, Professor
Music
DMA, University of Texas at Austin, 1989

Andrew A Brownell, Assistant Professor
Music
DMA, Guildhall School of Music and Drama, 2010

Steven L Bryant, Associate Professor Emeritus
Music
MM, Wichita State University, 1971

James W Buhler, Professor
Music
PhD, University of Pennsylvania, 1996

Thomas A Burritt, Professor
Music
DMA, Northwestern University, 2000

William S Bussey, Lecturer
Theatre and Dance
BFA, University of Wisconsin-Milwaukee, 1983

Jett Butler, Lecturer
Art and Art History
BArch, Texas Tech University, 1996

Miguel Campinho, Lecturer
Music
DMA, University of Hartford, 2015

Charlotte Canning, Professor
Frank C. Erwin, Jr. Centennial Professorship in Drama
Theatre and Dance
PhD, University of Washington - Seattle, 1991

Sarah A Canright, Senior Lecturer
Art and Art History
BFA, School of the Art Institute of Chicago, 1964

Andrew I Carlson, Clinical Assistant Professor
Theatre and Dance
PhD, University of Illinois at Urbana-Champaign, 2011

Laquetta L Carpenter, Lecturer
Theatre and Dance
MFA, Pennsylvania State University Park, 2007

Charles Daniel Carson, Associate Professor
Music
PhD, University of Pennsylvania, 2008

Edward Chambers, Professor
Art and Art History
PhD, University of London, 1998

B G Chandler, Professor
Music
PhD, Indiana University at Bloomington, 1975

Stacey H Chang
Art and Art History
MS, Stanford University, 1998

Michael J Charlesworth, Professor
Art and Art History
PhD, The University of Kent, 1990

Lee R Chesney III, Associate Professor
Art and Art History
MFA, Indiana University at Bloomington, 1972

Daniel Ching, Senior Lecturer
Music
MMus, Cleveland Institute of Music, 1998

Barbara Chisholm, Lecturer
Theatre and Dance
BFA, The Catholic University of America, 1984

Pamela D Christian, Associate Professor Emeritus
Theatre and Dance
Theatre and Dance
PhD, Southern Illinois University, 2000

John R Clarke, Professor
Annie Laurie Howard Regents Professorship in Fine Arts
Art and Art History
PhD, Yale University, 1973

Jesse Andrew Cline, Lecturer
Art and Art History
MFA, University of Texas at Austin, 2016

Rusty Cloyes, Senior Lecturer
Theatre and Dance
MFA, University of Texas at Austin, 2005

Michael Cohen, Lecturer
Theatre and Dance
MEd, University of Toronto, 1999

Thelma R Coles, Professor Emeritus
Art and Art History
MA, San Diego State University, 1978

Eric Joseph Colleary, Lecturer
Theatre and Dance
PhD, University of Minnesota-Twin Cities, 2014

Anna Collette, Assistant Professor
Art and Art History
MFA, Yale University, 2003

Anthony Creeden, Lecturer
Art and Art History
MFA, University of Texas at Austin, 2017

Paula A Crider, Professor Emeritus
Music
MM, University of Texas at Austin, 1970

Jeremy L Cudd, Lecturer
Theatre and Dance
MFA, Pennsylvania State University Park, 2007

Tina Marie Curran, Clinical Assistant Professor
Theatre and Dance
PhD, New York University, 2010

Stephen J Daly, Professor Emeritus
Art and Art History
MFA, Cranbrook Academy of Art, 1967

Penelope J Davies, Professor
Art and Art History
PhD, Yale University, 1994

Christin Sawyer Davis, Lecturer
Theatre and Dance
MFA, American Conservatory Theater, 2007

Kathryn M Dawson, Assistant Professor
Theatre and Dance
MFA, University of Texas at Austin, 2006
Andrew F Dell’Antonio, Professor
Music
PhD, University of California-Berkeley, 1991
Douglas J Dempster, Professor
Effie Marie Cain Regents Chair in Fine Arts, The Marie and Joseph D. Jamail, Sr. Regents Professorship in Fine Arts
Theatre and Dance
PhD, University of North Carolina at Chapel Hill, 1983
Robert A Desimone, Professor
Sarah and Ernest Butler Professorship in Opera
Music
DMA, University of Washington - Seattle, 1981
Hanns-Bertold Dietz, Professor Emeritus
Music
PhD, University of Innsbruck, 1956
Steven Dietz, Professor
Theater for Youth Chair
Theatre and Dance
BA, University of Northern Colorado, 1980
Franchelle Dorn, Professor
Virginia L. Murchison Regents Professorship in Fine Arts
Theatre and Dance
MFA, Yale University, 1975
Lara Rose Dossett, Administrative Program Coordinator
Theatre and Dance
MFA, University of Texas at Austin, 2014
Lucien Douglas, Associate Professor
Theatre and Dance
PhD, Michigan State University, East Lansing, 1996
Kathryn Lynn Dreier, Lecturer
Art and Art History
BFA, Pratt Institute, 2009
Eric A Drott, Associate Professor
Music
PhD, Yale University, 2001
Robert A Duke, Professor
Marlene and Morton Meyerson Centennial Professorship in Music
Music
PhD, Florida State University, 1983
Rachel N Durkin-Drga, Lecturer
Theatre and Dance
MFA, University of Illinois at Urbana-Champaign, 1991
John E Durst, Lecturer
Art and Art History
MFA, Yale University, 2016
William A Edwards, Lecturer
Music
MM, University of Texas at Austin, 1989
Jeff W Ellinger, Lecturer
Theatre and Dance
BA, University of Texas at Austin, 1977
Bernard B Engel, Professor Emeritus
Theatre and Dance
PhD, University of Pittsburgh, Pittsburgh Campus, 1967
Elizabeth Engelman, Lecturer
Theatre and Dance
MFA, Columbia University in the City of New York, 1996
Veit F Erlmann, Professor
History of Music Chair
Music
PhD, University of Cologne, 1978
William A Fedkenheuer, Senior Lecturer
Music
BM, Rice University, 1998
Howard L Fine, Lecturer
Theatre and Dance
PhD, Rhode Island College, 2008
Eliot Fisher, Lecturer
Theatre and Dance
MFA, Goddard College, 2015
George F Flaherty, Associate Professor
Art and Art History
PhD, University of California-Santa Barbara, 2010
Robert Freeman, Professor Emeritus
Music
PhD, Princeton University, 1967
John M Fremgen, Associate Professor
Music
MMus, University of Southern California, 1993
George A Frock, Professor Emeritus
Music
MME, University of Kansas Main Campus, 1963
Joshua Gall, Lecturer
Music
MM, University of Florida, 2014
Nancy B Garrett, Professor Emeritus
Music
MM, University of Texas at Austin, 1966
Christine Garvey, Lecturer
Art and Art History
MFA, Concordia University, Montreal, 2015
Marianne Gedigian, Professor
Sarah and Ernest Butler Professorship in Music
Music
BM, Boston University, 1986
Sophia Gilmson, Associate Professor
Music
Diploma (Artist), Saint Petersburg State Conservatory, 1973
Joshua T Gindele, Senior Lecturer
Music
BMus, The Juilliard School, 2000
Erica Lynn Gionfriddo, Lecturer
Theatre and Dance
BFA, Shenandoah University, 2006
James J Glavan, Professor
David Bruton, Jr. Regents Professorship in Fine Arts
Theatre and Dance
MA, Kent State University Main Campus, 1984

Jason A Goldstein, Lecturer
Art and Art History
PhD, University of Texas at Austin, 2017

Mark K Goodman, Professor Emeritus
Art and Art History
BA, Boston University, 1970

Donald J Grantham, Professor
Frank C. Erwin, Jr. Centennial Professorship in Music
Music
DMA, University of Southern California, 1980

John W Grubbs, Associate Professor Emeritus
Music
PhD, University of California-Los Angeles, 1972

Julia E Guernsey, Professor
Art and Art History
PhD, University of Texas at Austin, 1997

Lita A Guerra, Professor Emeritus
Music
MM, University of Texas at Austin, 1959

Jonathan F Gunn, Assistant Professor
Music
MM, Duquesne University, 1997

Michelle Habbeck, Associate Professor
Theatre and Dance
MFA, Northwestern University, 1996

Kenneth J Hale, Professor Emeritus
Art and Art History
MFA, University of Illinois at Urbana-Champaign, 1973

Scott S Hanna, Senior Lecturer
Music
DMA, University of Texas at Austin, 1999

Lorenzo Rennie Harris, Senior Lecturer
Theatre and Dance
PhD, Columbia College Chicago, 2013

Paul P Hatgil, Professor Emeritus
Art and Art History
MA, Columbia University in the City of New York, 1951

Robert S Hatten, Professor
Marlene and Morton Meyerson Professorship in Music
Music
PhD, Indiana University at Bloomington, 1982

Amy Hauft, Professor
Leslie Waggener Professorship in the College of Fine Arts
Art and Art History
MFA, School of the Art Institute of Chicago, 1983

Ryan Taylor Hawk, Lecturer
Art and Art History
MFA, University of Texas at Austin, 2017

Millie C Heckler, Lecturer
Theatre and Dance

BFA, University of Colorado at Boulder, 2015

Jeffrey L Hellmer, Professor
Priscilla Pond Flawn Regents Professorship in Organ or Piano
Performance
Music
MM, University of Rochester, 1983

Linda D Henderson, Professor
David Bruton, Jr. Centennial Professorship in Art History
Art and Art History
PhD, Yale University, 1975

Rebecca Henderson, Professor Emeritus
Music
MM, University of Rochester, 1986

Timothy G High, Associate Professor
Art and Art History
MFA, University of Wisconsin-Madison, 1976

Martha F Hilley, Professor
Music
MA, Sam Houston State University, 1971

Joan A Holladay, Professor
Art and Art History
PhD, Brown University, 1982

Adam Holzman, Professor
Parker C. Fielder Regents Professorship in Music
Music
MM, Florida State University, 1984

Teresa Hubbard, Professor
William and Bettye Nowlin Endowed Professorship in Photography
Art and Art History
MFA, Nova Scotia College of Art and Design, 1992

Patrick Hughes, Associate Professor
Music
MMus, University of Wisconsin-Madison, 1988

Zachery Ingram, Lecturer
Art and Art History
MFA, University of Texas at Austin, 2017

Richard M Isakies, Professor
Joanne Sharp Crosby Regents Chair in Design and Technology
Theatre and Dance
MFA, Carnegie Mellon University, 1975

Judith A Jellison, Professor
Mary D. Bold Regents Professorship of Music
Music
PhD, Florida State University, 1972

Coleman A Jennings, Professor Emeritus
Theatre and Dance
EdD, New York University, 1974

Kristin Wolfe Jensen, Professor
Music
MM, The Juilliard School, 1991

Ann C Johns, Distinguished Senior Lecturer
Art and Art History
PhD, University of Texas at Austin, 2000

Undergraduate Catalog 2018-2020  ▶ Faculty  841
J E Johnson, Lecturer
Theatre and Dance
BA, Bethel College, 1996

Omi Osun Joni L Jones, Professor
Theatre and Dance
PhD, New York University, 1993

Jerry F Junkin, Professor
Music
MMus, University of Texas at Austin, 1979

Janet E Kastner, Associate Professor Emeritus
Art and Art History
MFA, Alfred University, 1979

Ryan S Kelly, Lecturer
Music
DMA, University of Texas at Austin, 2014

Nancy K Koennig, Lecturer
Theatre and Dance
MM, University of Texas at Austin, 1983

Karl Korte, Professor Emeritus
Music
MS, The Juilliard School, 1956

Stefan M Kostka, Professor Emeritus
Music
PhD, University of Wisconsin-Madison, 1969

Kelly Kuo, Lecturer
Music
MM, Manhattan School of Music, 1998

John C Largess, Senior Lecturer
Music
BA, Yale University, 1995

Joan Lazarus, Professor Emeritus
Theatre and Dance
MFA, Arizona State University Main, 1982

Delaine E Leonard, Senior Lecturer
Music
MMus, University of Texas at Austin, 1984

Janice Leoshko, Associate Professor
Art and Art History
PhD, Ohio State U Main Campus, 1987

Brian D Lewis, Professor
David and Mary Winton Green Chair in String Performance and Pedagogy
Music
MM, The Juilliard School, 1993

Hannah Lewis, Assistant Professor
Music
PhD, Harvard University, 2014

William L Lewis, Professor
Frank C. Erwin, Jr. Centennial Professorship in Opera
Music
BM, Texas Christian University, 1967

Alicia L Link, Lecturer
Art and Art History
MFA, University of Texas at Austin, 2017

Samuel M Lipman, Lecturer
Theatre and Dance
MM, University of Texas at Austin, 2017

Rina Kundu Little, Lecturer
Art and Art History
PhD, Ohio State U Main Campus, 2008

Beili Liu, Professor
Art and Art History
MFA, University of Michigan-Ann Arbor, 2003

Sondra Lomax, Lecturer
Theatre and Dance
MFA, York College, 1979

Beto Lopez
Art and Art History
MS, University of Texas at Austin, 2002

Doreen Lorenzo
Art and Art History
MS, Boston University, 1981

Allison Elizabeth Lowery, Technical Staff Assistant IV
Theatre and Dance
MFA, North Carolina School of the Arts, 1999

Kristin Lucas, Assistant Professor
Art and Art History
MFA, Stanford University, 2006

Amarante L Lucero, Professor Emeritus
Theatre and Dance
MFA, Southern Methodist University, 1976

William A Lundberg, Professor Emeritus
Art and Art History
MA, University of California-Berkeley, 1965

Kirk E Lynn, Associate Professor
Theatre and Dance
PhD, University of Texas at Austin, 2004

Betty P Mallard, Associate Professor Emeritus
Music
DMA, University of Texas at Austin, 1979

Karen L Maness, Lecturer
Theatre and Dance
BA, Whittier College, 1995

Hunter C March, Professor Emeritus
Music
PhD, University of Michigan-Ann Arbor, 1980

Vincent A Mariani, Professor Emeritus
Art and Art History
BFA, Yale University, 1959

Cari E McDonnell, Lecturer
Music
PhD, University of Texas at Austin, 2015

Lawrence D McFarland, Professor Emeritus
Art and Art History
MFA, University of Nebraska - Lincoln, 1976
Maurie McInnis, Professor
Jacob and Frances Sanger Mossiker Chair in the Humanities #1
Art and Art History
PhD, Yale University, 1996

Bethany S McLemore, Lecturer
Music
PhD, University of Texas at Austin, 2016

Richard E McMaster, Lecturer
Art and Art History
MFA, Arizona State University Main, 2008

Jeffrey L Meikle, Professor
Stiles Professorship in American Studies
Art and Art History
PhD, University of Texas at Austin, 1977

Zachary Richard Meisner, Technical Staff Assistant III
Art and Art History
MFA, University of Texas at Austin, 2017

Robert W Melton, Lecturer
Art and Art History
MFA, University of Texas at Austin, 2010

Susan E Mickey, Professor
Susan Menefee Ragan Regents Professorship in Fine Arts
Theatre and Dance
MFA, The University of Alabama, 1979

Amissa K Miller, Lecturer
Theatre and Dance
MFA, Columbia University in the City of New York, 2009

Ann B Miller, Lecturer
Art and Art History
MFA, University of Texas at Austin, 2016

Bucky Miller, Lecturer
Art and Art History
MFA, University of Texas at Austin, 2017

Melissa W Miller, Associate Professor Emeritus
Art and Art History
BA, New Mexico State University Main Campus, 1974

Adam Miller-Batteau, Lecturer
Theatre and Dance
MFA, University of Exeter, 2012

John R Mills, Professor
Music
DMA, University of Texas at Austin, 1998

Michael J Mogavero, Associate Professor
Art and Art History
MFA, Maryland Institute College of Art, 1975

Kevin Edward Mooney, Lecturer
Music
PhD, University of Texas at Austin, 1998

Robin D Moore, Professor
Music
PhD, University of Texas at Austin, 1995

Cynthia C Morrow, Lecturer
Music
PhD, Ohio State U Main Campus, 1989

James M Morrow Jr, Associate Professor
Music
DMA, University of Texas at Austin, 1996

Michael J Muelhaupt, Technical Staff Assistant III
Art and Art History
MFA, University of Texas at Austin, 2017

Stephani Mulder, Associate Professor
Art and Art History
PhD, University of Pennsylvania, 2008

Elisabeth R Murphy, Lecturer
Art and Art History
MAEd, Texas Tech University, 2008

Leslie A Mutchler, Associate Professor
Music
MM, University of Southern California, 1992

David A Nancarrow, Professor Emeritus
Theatre and Dance
PhD, University of Birmingham, 1975

Luisa Nardini, Associate Professor
Music
PhD, Universita degli Studi di Roma La Sapienza, 2001

Lana C Neal, Lecturer
Music
PhD, University of Texas at Austin, 2013

Anton Nel, Professor
Joe R. & Teresa Lozano Long Chair in Piano
Music
MMus, University of Cincinnati Main Campus, 1984

Adele E Nelson, Assistant Professor
Art and Art History
PhD, New York University, 2012

David P Neumeyer, Professor Emeritus
Music
PhD, Yale University, 1976

Moyosore Benjamin Okediji, Professor
Art and Art History
PhD, University of Wisconsin Colleges, 1995

Guido Olivieri, Senior Lecturer
Music
PhD, University of California-Santa Barbara, 2005

Sandra E Organ, Lecturer
Theatre and Dance
BA, Antioch College, 2016

Sven Ortel, Lecturer
Theatre and Dance
BA, Rose Bruford College of Theatre and Performance, 2001

Francie Ostrower, Professor
Theatre and Dance
PhD, Yale University, 1991

Dorothy Oshea Overbey, Lecturer
Theatre and Dance
BFA, Southern Methodist University, 1999

Stephen C Page, Assistant Professor
Music
DMA, University of Iowa, 2011

Athanasio Papalexandrou, Associate Professor
Art and Art History
PhD, Princeton University, 1998

Joonho Park, Assistant Professor
Music
MM, State University of Music and Performing Arts Stuttgart, 2010

Andrew A Parker, Assistant Professor
Music
DMA, University of Michigan-Ann Arbor, 2009

Sara L Paul, Lecturer
Theatre and Dance
BA, University of Texas at Austin, 2012

Gordon B Peacock, Professor Emeritus
Theatre and Dance
MFA, Carnegie Mellon University, 1952

Glenn A Peers, Professor
Art and Art History
PhD, Johns Hopkins University, 1996

Suzanne M Pence, Associate Professor
Music
DMA, University of Missouri - Kansas City, 1992

Monica M Penick
Art and Art History
PhD, University of Texas at Austin, 2007

Bruce W Pennycook, Professor
Music
DMA, Stanford University, 1978

Carolina Perez, Lecturer
Theatre and Dance
MFA, University of North Carolina School of the Arts, 2008

Jose Manuel Perez, Technical Staff Assistant IV
Art and Art History
MFA, University of Texas at Austin, 2015

Bogdan P Perzynski, Professor
Art and Art History
MFA, Poznan Academy of Fine Arts, 1979

Bradley R Petersen, Associate Professor Emeritus
Art and Art History
MFA, University of Georgia, 1975

Russell F Pinkston, Professor
Music
DMA, Columbia University in the City of New York, 1984

Harvey C Pittel, Professor Emeritus
Music
MM, Northwestern University, 1967

Russell Podgorsek, Senior Administrative Associate
Music
DMA, University of Texas at Austin, 2013

Mary Ellen Poole, Professor
Florence Thelma Hall Centennial Chair in Music
Music
PhD, University of Illinois at Urbana-Champaign, 1994

Brant Pope, Professor
Z. T. Scott Family Chair in Drama
Theatre and Dance
PhD, Michigan State University, East Lansing, 2003

Brenda I Preyer, Professor Emeritus
Art and Art History
PhD, Harvard University, 1976

Robert Ramirez, Associate Professor
Theatre and Dance
MFA, University of Delaware, 1995

Stephanie Ramirez, Lecturer
Art and Art History
MFA, University of Texas at Austin, 2017

Susan W Rather, Professor
Art and Art History
PhD, University of Delaware, 1986

Anastasia S Rees, Lecturer
Art and Art History
PhD, University of Texas at Austin, 2017

Ann M Reynolds, Associate Professor
Art and Art History
PhD, City University of New York Graduate Center, 1993

Andrew M Riggsby, Professor
Lucy Shoe Meritt Professorship in Classics
Art and Art History
PhD, University of California-Berkeley, 1993

John Risley, Professor
Meredith and Cornelia Long Chair in Art and Art History
Art and Art History
MFA, Yale University, 1986

Rebecca Rossen, Associate Professor
Theatre and Dance
PhD, Northwestern University, 2006

Rick E Rowley, Senior Lecturer
Music
HS/GED, 1973

Astrid Runggaldier, University Professional (Part-Time)
Art and Art History
PhD, University of Texas at Austin, 2009

Janice Lynch Ryan
Art and Art History
BBA, Baylor University, 1977

Wayne W Salzmann II, Specialist
Music
MM, University of Texas at Austin, 2010

Kj Sanchez, Associate Professor
Theatre and Dance
MFA, University of California-San Diego, 1992
Tamara Sanikidze, Lecturer

Music
DMA, University of Maryland College Park, 2010
Ray K Sasaki, Professor
Frank C. Erwin, Jr. Centennial Professorship in Fine Arts
Music
MMus, University of North Texas, 1975
Peter A Saul, Professor Emeritus
Art and Art History
BFA, Washington University in St Louis, 1956
Margo L Sawyer, Professor
Art and Art History
MFA, Yale University, 1982
D Schmandt-Besserat, Professor Emeritus
Art and Art History
MA, Ecole Du Louvre, 1965
John C Schmidt, Adjunct Professor
Music
PhD, New York University, 1979
Robert N Schmidt, Professor Emeritus
Theatre and Dance
MFA, University of Wisconsin-Madison, 1979
Roxanne Schroeder-Arce, Associate Professor
Theatre and Dance
MFA, University of Texas at Austin, 2000
Seth O Schwaiger, Lecturer
Art and Art History
MFA, Glasgow School of Art, 2013
William Schweigert, Lecturer
Art and Art History
MFA, Northwestern University, 2015
Laurie Pierce Scott, Associate Professor
Music
PhD, University of Texas at Austin, 1987
Sonia T Seeman, Associate Professor
Music
PhD, University of California-Los Angeles, 2002
Yevgeniy Sharlat, Associate Professor
Music
DMA, Yale University, 2007
Patrick Forsythe Shaw, Lecturer
Theatre and Dance
MFA, University of Texas at Austin, 2015
Andrew B Shea, Professor
Theatre and Dance
MA, California Institute of the Arts, 1985
Richard A Shiff, Professor
Effie Marie Cain Regents Chair in Art
Art and Art History
PhD, Yale University, 1973
Amy L Simmons, Senior Lecturer

Music
PhD, University of Texas at Austin, 2007
Sara M Simons, Lecturer
Theatre and Dance
PhD, New York University, 2013
Stephen M Slawek, Professor
Music
PhD, University of Illinois at Urbana-Champaign, 1986
David A Small, Associate Professor
Music
MM, University of Cincinnati Main Campus, 1987
Jeffrey C Smith, Professor
Kay Fortson Chair in European Art
Art and Art History
PhD, Columbia University in the City of New York, 1979
Matthew R Smith, Lecturer
Theatre and Dance
MA, Angelo State University, 2012
Michael Smith, Professor
Art and Art History
BA, Colorado College, 1974
Rachael Angelica Starbuck, Technical Staff Assistant III
Art and Art History
MFA, University of Texas at Austin, 2017
John S Stoney, Associate Professor
Art and Art History
MFA, Cranbrook Academy of Art, 1998
Nikita Storojev, Associate Professor
Music
MFA, Moscow P. I. Tchaikovsky Conservatory, 1979
Stacy A Strakowski, Lecturer
Theatre and Dance
MM, University of Cincinnati Main Campus, 2001
David S Stuart, Professor
Linda and David Schele Chair in the Art and Writing of Mesoamerica
Art and Art History
PhD, Vanderbilt University, 1995
Daniel D Sutherland, Associate Professor
Art and Art History
MFA, Syracuse University Main Campus, 1991
Rebecca Switzer, Lecturer
Theatre and Dance
MFA, University of Arizona, 1987
Lisa B Thompson, Associate Professor
Theatre and Dance
PhD, Stanford University, 2000
Bion Tsang, Professor
Joe R. & Teresa Lozano Long Chair in Cello
Music
MM, Yale University, 1993
John R Turci, Lecturer
Music
PhD, Yale University, 2004
Michael C Tusa, Professor
Music
PhD, Princeton University, 1983

Jarvis W Ulbricht, Professor Emeritus
Art and Art History
PhD, University of Iowa, 1976

Jason Paul Urban, Senior Lecturer
Art and Art History
MFA, University of Iowa, 2002

Colette T Valentine, Associate Professor
Music
DMA, State University of New York at Stony Brook, 2005

Efrain E Velez, Lecturer
Art and Art History
MArch, University of Texas at Austin, 2006

Charles W Villarrubia, Associate Professor
Music
MM, Boston University, 1988

Louis A Waldman, Associate Professor
Art and Art History
PhD, New York University, 1999

James Michael Walker, Lecturer
Art and Art History
MFA, Virginia Commonwealth University, 2013

Dan E Welcher, Professor
The Lee Hage Jamail Regents Professorship in Fine Arts
Music
MM, Manhattan School of Music, 1972

Marianne Wheeldon, Professor
Music
PhD, Yale University, 1997

Susan D Whyne, Associate Professor Emeritus
Art and Art History
MA, University of San Francisco, 1974

Darlene C Wiley, Professor
Music
MM, University of Illinois at Urbana-Champaign, 1969

Jason R Wilkins, Lecturer
Art and Art History
BA, University of Arkansas Main Campus, 2010

Holly A Williams, Professor
Theatre and Dance
MFA, Texas Woman’s University - Denton, 1994

Jeff Williams, Associate Professor
Art and Art History
MFA, Syracuse University Main Campus, 2002

Lyn C Wiltshire, Professor
Theatre and Dance
BA, State University of New York Empire State College, 1969

Lewis R Wiman, Professor Emeritus
Art and Art History
MFA, University of Florida, 1966

Patti Wolf, Lecturer
Music
MM, Yale University, 1989

Satoko S Yamamoto, Senior Lecturer
Music
MMus, Cleveland Institute of Music, 1998

John A Yancey, Professor
John D. Murchison Regents Professorship in Art
Art and Art History
MFA, Georgia Southern University, 1993

Jeanette Yew, Lecturer
Theatre and Dance
MFA, California Institute of the Arts, 2006

Suzan L Zeder, Professor Emeritus
Theatre and Dance
PhD, Florida State University, 1978

Daxun Zhang, Associate Professor
Music
BM, Indiana University at Bloomington, 2005

Gerhardt Zimmermann, Professor
Jack G. Taylor Regents Professorship in Fine Arts
Music
MFA, University of Iowa, 1971

**John A. and Katherine G. Jackson School of Geosciences Faculty**

The following faculty list represents those appointed in the 2018 spring semester.

Milo M Backus, Professor Emeritus
Geological Sciences
PhD, Massachusetts Institute of Technology, 1956

Jay L Banner, Professor
Fred M. Bullard Professorship in Geological Sciences
Geological Sciences
PhD, State University of New York at Stony Brook, 1986

Jaime D Barnes, Associate Professor
Geological Sciences
PhD, University of New Mexico Main Campus, 2006

Thorsten Becker, Professor
Shell Companies Foundation Distinguished Chair in Geophysics
Geological Sciences
PhD, Harvard University, 2002

Whitney Behr, Assistant Professor
Geological Sciences
PhD, University of Southern California, 2011

Christopher J Bell, Professor
Geological Sciences
PhD, University of California-Berkeley, 1997

Philip C Bennett, Professor
Geological Sciences
PhD, Syracuse University Main Campus, 1989

Robert E Boyer, Professor Emeritus
Geological Sciences
PhD, Massachusetts Institute of Technology, 2007

John W Kappelman Jr, Professor
Geological Sciences
PhD, Harvard University, 1987

Charles Kerans, Professor
Robert K. Goldhammer Chair in Carbonate Geology, Wilton E. Scott
Centennial Professorship
Energy and Earth Resources
Geological Sciences
PhD, Carleton University, 1982

Richard A Ketcham, Professor
The First Mr. and Mrs. Charles E. Yager Professorship
Geological Sciences
PhD, University of Texas at Austin, 1995

Wonsuck Kim, Associate Professor
Geological Sciences
PhD, University of Minnesota-Twin Cities, 2007

Gary A Kocurek, Professor Emeritus
Geological Sciences
PhD, University of Wisconsin-Madison, 1980

J Richard Kyle, Professor
The Third Mr. and Mrs. Charles E. Yager Professorship
Energy and Earth Resources
Geological Sciences
PhD, University of Western Ontario, 1977

Lynton S Land, Professor Emeritus
Geological Sciences
PhD, Lehigh University, 1966

John C Lassiter, Associate Professor
Geological Sciences
PhD, University of California-Berkeley, 1995

Luc L Lavier, Associate Professor
Geological Sciences
PhD, Columbia University in the City of New York, 1999

Jung-Fu Lin, Associate Professor
Geological Sciences
PhD, University of Chicago, 2002

Leon E Long, Professor Emeritus
Geological Sciences
PhD, Columbia University in the City of New York, 1959

E L Lundelius Jr, Professor Emeritus
Geological Sciences
PhD, University of Chicago, 1954

Barbara J Mahler, Lecturer
Geological Sciences
PhD, University of Texas at Austin, 1997

Rowan Clare Martindale, Assistant Professor
Geological Sciences
PhD, University of Southern California, 2012

Ashley Michelle Matheny, Assistant Professor
Geological Sciences
PhD, Ohio State U Main Campus, 2016

Arthur E Maxwell, Professor Emeritus

PhD, University of California-San Diego, 1959

Earle F McBride, Professor Emeritus
Geological Sciences
PhD, Johns Hopkins University, 1960

Timothy A Meckel, Lecturer
Geological Sciences
PhD, University of Texas at Austin, 2003

Nathaniel R Miller, Research Engineering/ Scientist Associate V
Geological Sciences
PhD, University of Texas at Dallas, 1995

Kevan Moffett, Adjunct Assistant Professor
Geological Sciences
PhD, Stanford University, 2010

David Mohrig, Professor
John E. "Brick" Elliott Centennial Endowed Professorship in Geological Sciences
Energy and Earth Resources
Geological Sciences
PhD, University of Washington - Seattle, 1994

Sharon Mosher, Professor
William Stamps Farish Chair in Geology, John A. and Katherine G. Jackson Decanal Chair in the Geosciences
Geological Sciences
PhD, University of Illinois at Urbana-Champaign, 1978

Yosio Nakamura, Professor Emeritus
Geological Sciences
PhD, Pennsylvania State University Main Campus, 1963

Cornel Olariu, Lecturer
Geological Sciences
PhD, University of Texas at Dallas, 2005

Jon E Olson, Professor
Lois K. and Richard D. Folger Leadership Chair in Petroleum and Geosystems Engineering, Frank W. Jessen Professorship in Petroleum Engineering
Energy and Earth Resources
Geological Sciences
PhD, Stanford University, 1991

Raymond Lee Orbach, Professor
Geological Sciences
PhD, University of California-Berkeley, 1960

Jeffrey G Paine, Lecturer
Geological Sciences
PhD, University of Texas at Austin, 1991

Camille Parmesan, Adjunct Professor
Geological Sciences
PhD, University of Texas at Austin, 1995

Judson W Partin, Lecturer
Geological Sciences
PhD, University of Texas at Austin, 1995

Suzanne A Pierce, Lecturer
Geological Sciences
PhD, University of Texas at Austin, 2006

Mary F Poteet, Lecturer
Geological Sciences
PhD, University of California-Berkeley, 2001
Terrence M Quinn, Professor
Albert W. and Alice M. Weeks Centennial Professorship in Geological Sciences
Geological Sciences
PhD, Brown University, 1989
Daniella M Rempe, Assistant Professor
Geological Sciences
PhD, University of California-Berkeley, 2016
Timothy B Rowe, Professor
J. Nalle Gregory Regents Professorship in Geological Sciences
Geological Sciences
PhD, University of California-Berkeley, 1986
Stephen C Ruppel, Lecturer
Geological Sciences
PhD, University of Illinois at Urbana-Champaign, 1979
Mrinal K Sen, Professor
John A. and Katherine G. Jackson Chair in Applied Seismology
Geological Sciences
PhD, University of Hawaii at Manoa, 1987
Timothy M Shanahan, Associate Professor
Geological Sciences
PhD, University of Arizona, 2006
John M Sharp Jr, Professor
Dave P. Carlton Centennial Professorship in Geology
Geological Sciences
PhD, University of Illinois at Urbana-Champaign, 1974
Douglas Smith, Professor Emeritus
Geological Sciences
PhD, California Institute of Technology, 1969
Kyle Thomas Spikes, Associate Professor
Geological Sciences
PhD, Stanford University, 2008
James T Sprinkle, Professor Emeritus
Geological Sciences
PhD, Harvard University, 1971
Ronald J Steel, Professor
Morgan J. Davis Centennial Chair in Petroleum Geology
Geological Sciences
PhD, University of Glasgow, 1972
Daniel Stockli, Professor
Chevron Centennial Professorship in Geology
Geological Sciences
PhD, Stanford University, 2000
Paul L Stoffa, Professor Emeritus
Geological Sciences
PhD, Columbia University in the City of New York, 1974
Robert H Tatham, Professor Emeritus
Geological Sciences
PhD, Columbia University in the City of New York, 1975
Scott W Tinker, Professor
Edwin Allday Centennial Chair in Subsurface Geology
Geological Sciences
PhD, University of Colorado at Boulder, 1996
Nicola Tisato, Assistant Professor
Geological Sciences
PhD, Swiss Federal Institute of Technology, 2013
Carlos Torres-Verdin, Professor
Brian James Jennings Memorial Endowed Chair in Petroleum and Geosystems Engineering
Geological Sciences
PhD, University of California-Berkeley, 1991
Clark R Wilson, Professor
Dave P. Carlton Centennial Professorship in Geophysics
Geological Sciences
PhD, University of California-San Diego, 1975
Zong-Liang Yang, Professor
John A. and Katherine G. Jackson Chair in Earth System Sciences
Geological Sciences
PhD, Macquarie University, 1992

School of Information Faculty

The following faculty list represents those appointed in the 2018 spring semester.

Amelia Acker, Assistant Professor
PhD, University of California-Los Angeles, 2014

Jennifer E Allen, Adjunct Assistant Professor
MS, University of Texas at Austin, 2017

Diane E Bailey, Associate Professor
PhD, University of California-Berkeley, 1994

Jakki Bailey, Assistant Professor
PhD, Stanford University, 2018

Jullianne Hughes Ballou, Lecturer
MS, University of Texas at Austin, 2016

Suzanne Barber, Professor
AT&T Foundation Endowed Professorship in Engineering
PhD, University of Texas at Arlington, 1992

Brenda L Berkelaar, Lecturer
PhD, Purdue University Main Campus, 2010

Randolph G Bias, Professor
PhD, University of Texas at Austin, 1978

Barbara A Bintliff, Professor
Joseph C. Hutcheson Professorship in Law
JD, University of Washington - Seattle, 1978

Craig E Blaha, Lecturer
MA, Claremont Graduate University, 1996

Sarah Grace Britt, Adjunct Assistant Professor
MSInfoStds, University of Texas at Austin, 2016

Ramona L Broussard, Lecturer
MSInfoStds, University of Texas at Austin, 2010

Kate Catterall, Associate Professor
MA, Glasgow School of Art, 1992

Tanya Elizabeth Clement, Associate Professor
PhD, University of Maryland College Park, 2009
Mary C Criner, Lecturer
PhD, Louisiana State University and Agricultural and Mechanical College, 2000
Sarah H Cunningham, Lecturer
MS, University of Texas at Austin, 2003
Donald G Davis Jr, Professor Emeritus
PhD, University of Illinois at Urbana-Champaign, 1972
Andrew P Dillon, Professor
Vara Martin Daniel Regents Professorship in Libraries, Archives & Information Studies
PhD, Loughborough University, 1991
Philip Doty, Associate Professor
PhD, Syracuse University Main Campus, 1995
Rebecca K Elder, Adjunct Assistant Professor
MSLS, University of Texas at Austin, 2003
Kenneth Robert Fleischmann, Associate Professor
PhD, Rensselaer Polytechnic Institute, 2004
Margaret M Foster, Adjunct Assistant Professor
MS, University of Texas at Austin, 1999
Patricia K Galloway, Professor
PhD, University of North Carolina at Chapel Hill, 2004
David B Gracy II, Professor Emeritus
PhD, Texas Tech University, 1971
Stanley T Gunn Jr, Adjunct Assistant Professor
MLS, University of Texas at Austin, 1998
Danna Gurari, Assistant Professor
PhD, Boston University, 2015
Jacek Gwizdka, Assistant Professor
PhD, University of Toronto, 2004
Julie Hallmark, Professor Emeritus
PhD, University of Texas at Austin, 1973
Lorraine J Haricombe, Professor
PhD, University of Illinois at Urbana-Champaign, 1992
Lance A Hayden, Adjunct Assistant Professor
PhD, University of Texas at Austin, 2009
Billie G Herring, Professor Emeritus
PhD, University of Texas at Austin, 1974
James L Howison, Associate Professor
PhD, Syracuse University Main Campus, 2009
Barbara F Immroth, Professor Emeritus
PhD, University of Pittsburgh, Pittsburgh Campus, 1980
Barbara A Jansen, Adjunct Assistant Professor
PhD, University of Texas at Austin, 2014
Unmil P Karadkar, Assistant Professor
PhD, Texas A & M University, 2011
April D Kessler, Adjunct Assistant Professor
MS, University of Texas at Austin, 2004
Matthew A Lease, Associate Professor
PhD, Brown University, 2009
Zandra I Lopez, Adjunct Assistant Professor
MLS, Emporia State University, 2005
Bill Lukenbill, Professor Emeritus
PhD, Indiana University at Bloomington, 1973
Robert S McCleskey, Lecturer
JD, St Mary's University, 1998
Francis L Miksa, Professor Emeritus
PhD, University of Chicago, 1974
Ann E Minner, Adjunct Assistant Professor
MLIS, University of Texas at Austin, 1998
Eric Nordquist, Clinical Associate Professor
MA, New Mexico State University Main Campus, 2004
Kristen S Oglesbee, Adjunct Assistant Professor
MSInfoStds, University of Texas at Austin, 2016
Karen L Pavelka, Senior Lecturer
MS, Columbia University in the City of New York, 1988
Walker E Riley, Adjunct Assistant Professor
MS, University of Texas at Austin, 2017
Marion E Rocco, Adjunct Assistant Professor
MS, University of Texas at Austin, 2011
Elizabeth Rogers, Adjunct Assistant Professor
JD, St Mary's University, 1988
Loriene Roy, Professor
PhD, University of Illinois at Urbana-Champaign, 1987
Alonzo F Seay, Adjunct Assistant Professor
PhD, Carnegie Mellon University, 2006
Jeremy M Selvidge, Adjunct Assistant Professor
MS, University of Texas at Austin, 2015
Clay Spinuzzi, Professor
PhD, Iowa State University, 1999
Stephanie D Swenson, Adjunct Assistant Professor
JD, University of Texas at Austin, 1994
Edison Thomaz Jr, Research Assistant Professor (Affiliated)
PhD, Georgia Institute of Technology, 2016
Ciaran Trace, Associate Professor
PhD, University of California-Los Angeles, 2004
Christine A Walczyk, Adjunct Assistant Professor
PhD, University of North Texas, 2016
Jo Lynn Westbrook, Associate Professor
PhD, University of Michigan-Ann Arbor, 1995
Andrew B Whinston, Professor
Hugh Roy Cullen Centennial Chair in Business Administration
PhD, Carnegie Mellon University, 1962
Karen M Wickett, Assistant Professor
PhD, University of Illinois at Urbana-Champaign, 2012
Michael B Winship, Professor
College of Liberal Arts Faculty

The following faculty list represents those appointed in the 2018 spring semester.

Jeffrey Bruce Abramson, Professor
Government
PhD, Harvard University, 1977

Jason Abrevaya, Professor
Murray S. Johnson Chair in Economics
Economics
PhD, Massachusetts Institute of Technology, 1996

Robert H Abzug, Professor
Audre and Bernard Rapoport Regents Chair of Jewish Studies
American Studies
History
Jewish Studies
PhD, University of California-Berkeley, 1977

Daniel A Ackerberg, Professor
Addison Baker Duncan Centennial Professorship in Economics
Economics
PhD, Yale University, 1997

Michael W Adams, Associate Professor
English
PhD, University of Texas at Austin, 1973

Paul C Adams, Professor
Geography and the Environment
PhD, University of Wisconsin-Madison, 1993

Richard N Adams, Professor Emeritus
Anthropology
PhD, Yale University, 1951

Christopher O Adejumo, Associate Professor
African and African Diaspora Studies
PhD, Ohio State U Main Campus, 1997

Abimbola Adunni Adelakun, Lecturer
African and African Diaspora Studies
PhD, University of Texas at Austin, 2017

Ari Adut, Associate Professor
Sociology
PhD, University of Chicago, 2004

Omoniyi Afolabi, Associate Professor
African and African Diaspora Studies
African and African Diaspora Studies
PhD, University of Wisconsin-Madison, 1997

Kamran S Aghaie, Associate Professor
History

Middle Eastern Studies
Middle Eastern Studies Ctr
Women's and Gender Studies
PhD, University of California-Los Angeles, 1999

Yukie Aida, Senior Lecturer
Asian Studies
PhD, University of Texas at Austin, 1988

Helene M Aji
English
PhD, Universite de Picardie Jules Verne, 1997

Erick Akins, Lecturer
Geography and the Environment
MA, Trinity University, 1988

Ola N Al-Shalchi, Lecturer
Middle Eastern Studies
PhD, Old Dominion University, 2015

Ilana Albanese, Clinical Assistant Professor
Psychology
PhD, University of Florida, 1994

Bethany L Albertson, Associate Professor
Government
PhD, University of Chicago, 2006

Duane G Albrecht, Professor Emeritus
Psychology
PhD, University of California-Berkeley, 1978

Marina Alexandrova, Lecturer
Slavic and Eurasian Studies
PhD, University of Texas at Austin, 2010

Kamran Ali, Professor
Anthropology
Asian Studies
Middle Eastern Studies
Middle Eastern Studies Ctr
PhD, Johns Hopkins University, 1998

Andres Almazan, Professor
Economics
PhD, Massachusetts Institute of Technology, 1996

Megan Alrutz, Associate Professor
Women's and Gender Studies
PhD, Arizona State University Main, 2004

Chad Alvarez, Assistant Professor
History
PhD, University of Chicago, 2014

Carrie Andersen, Lecturer
American Studies
PhD, University of Texas at Austin, 2017

Charles O Anderson, Associate Professor
African and African Diaspora Studies
African and African Diaspora Studies
MFA, Temple University, 2002

Michael R Anderson, Senior Lecturer
Government
PhD, University of Texas at Austin, 2009
Jacqueline L Angel, Professor
Sociology
PhD, Rutgers the State University of New Jersey New Brunswick Campus, 1989

Ronald J Angel, Professor
Sociology
PhD, University of Wisconsin-Madison, 1981

Manuela Angelucci, Associate Professor
Economics
PhD, University College London, 2005

Katherine M Arens, Professor
Germanic Studies
Women's and Gender Studies
PhD, Stanford University, 1981

Eugenio Yatsuda Arima, Associate Professor
Geography and the Environment
PhD, Michigan State University, East Lansing, 2005

Minou Arjomand, Assistant Professor
English
PhD, Columbia University in the City of New York, 2013

Jossiann Arroyo Martinez, Professor
African and African Diaspora Studies
African and African Diaspora Studies
Spanish and Portuguese
PhD, University of California-Berkeley, 1998

Lucinda Jane Atkinson, Associate Professor
Women's and Gender Studies
PhD, University of Wisconsin-Madison, 2009

Blake R Atwood, Assistant Professor
Middle Eastern Studies
PhD, University of Texas at Austin, 2011

Javier Auyero, Professor
Joe R. & Teresa Lozano Long Endowed Professorship #3
Sociology
PhD, New Sch for Soc Research, 1998

Germine H Awad, Associate Professor
African and African Diaspora Studies
African and African Diaspora Studies
Middle Eastern Studies Ctr
PhD, Southern Illinois University Carbondale, 2005

Samy Ayoub, Lecturer
Middle Eastern Studies
PhD, University of Arizona, 2014

James B Ayres, Professor Emeritus
English
PhD, Ohio University Main Campus, 1964

Jennifer L Ayres, Clinical Assistant Professor
Psychology
PhD, University of Texas Southwestern Medical Center at Dallas, 2000

Hina Azam, Associate Professor
Middle Eastern Studies
Middle Eastern Studies Ctr
PhD, Duke University, 2007

Mary J Baker, Professor Emeritus
French and Italian
PhD, Harvard University, 1969

Samuel Baker, Associate Professor
English
PhD, University of Chicago, 2001

Jorge Francisco Balat, Assistant Professor
Economics
PhD, Yale University, 2012

Dana H Ballard, Professor
Psychology
PhD, University of California-Irvine, 1974

Aaron Bar-Adon, Professor Emeritus
Middle Eastern Studies
PhD, Hebrew University, 1959

Courtney C Barajas, Lecturer
English
PhD, University of Texas at Austin, 2017

Zoltan D Barany, Professor
Frank C. Erwin, Jr. Centennial Professorship in Government
Government
Middle Eastern Studies Ctr
PhD, University of Virginia (Old Code), 1991

Janine Barchas, Professor
Louann and Larry Temple Centennial Professorship in English Literature
English
PhD, University of Chicago, 1995

Jeffrey Barnouw, Professor Emeritus
English
PhD, Yale University, 1969

J K Barret, Associate Professor
English
PhD, Princeton University, 2008

Phillip J Barrish, Professor
Tony Hilfer Professorship in American and British Literature
English
PhD, Cornell University, 1991

Alice L Batt, Lecturer
Rhetoric and Writing
PhD, University of Texas at Austin, 1996

Vickie Gaudin Bauerle, Clinical Assistant Professor
MEd, University of Houston, 1983

Thomas A Bay, Adjunct Professor
PhD, Columbia University in the City of New York, 1987

Sheryl Luzzadder Beach, Professor
Geography and the Environment
PhD, University of Minnesota-Twin Cities, 1990

Timothy Beach, Professor
C. B. Smith, Sr. Centennial Chair in United States-Mexico Relations #2
Geography and the Environment
PhD, University of Minnesota-Twin Cities, 1989

Marie-Catherine Bearden, Lecturer
French and Italian
MA, Middlebury College, 2010
David I. Beaver, Professor
Linguistics
PhD, University of Edinburgh, 1995

John T. Beavers, Associate Professor
Linguistics
PhD, Stanford University, 2006

Jennifer S. Beer, Professor
Psychology
PhD, University of California-Berkeley, 2002

Christopher G. Beeevers, Professor
Wayne H. Holtzman Regents Chair in Psychology
Psychology
PhD, University of Miami, 2002

Kirsten L. Belgum, Associate Professor
Germanic Studies
PhD, University of Wisconsin-Madison, 1989

Mary C. Beltran, Associate Professor
Women’s and Gender Studies
PhD, University of Texas at Austin, 2002

Valerie R. Bencivenga, Senior Lecturer
Economics
PhD, University of Toronto, 1985

Marvin C. Bendele, Senior Administrative Program Coordinator
American Studies
PhD, University of Texas at Austin, 2015

Chad J. Bennett, Assistant Professor
English
Women’s and Gender Studies
PhD, Cornell University, 2011

Lloyd S. Berg, Clinical Assistant Professor
Psychology
PhD, University of Texas at Austin, 1995

Vladislav Beronja, Assistant Professor
Slavic and Eurasian Studies
PhD, University of Michigan-Ann Arbor, 2014

Betsy A. Berry, Senior Lecturer
English
PhD, University of Texas at Austin, 1994

Daina R. Berry, Associate Professor
African and African Diaspora Studies
African and African Diaspora Studies
History
Women’s and Gender Studies
PhD, University of California-Los Angeles, 1998

Lance Bertelsen, Professor
Iris Howard Regents Professorship in English Literature
English
PhD, University of Washington - Seattle, 1979

Venkataraman Bhaskar, Professor
Sue Killam Professorship in the Foundations of Economics
Economics
DPhil, University of Oxford, 1988

Chandra R. Bhat, Professor
Joe J. King Chair of Engineering

Economics
PhD, Northwestern University, 1991

Saroj Bhattarai, Assistant Professor
Economics
PhD, Princeton University, 2010

Julia A. Biggerstaff Haug, Clinical Assistant Professor
BA, University of Texas at Austin, 1997

Rebecca Bigler, Professor
Psychology
Women’s and Gender Studies
PhD, Pennsylvania State University Park, 1991

Douglas G. Biow, Professor
The Superior Oil Company - Linward Shivers Centennial Professorship in
Medieval and Renaissance Studies
French and Italian
History
PhD, Johns Hopkins University, 1990

David P. Birdsong, Professor
David Bruton, Jr. Centennial Professorship in Modern Languages
French and Italian
PhD, Harvard University, 1979

Daniel J. Birkholz, Associate Professor
English
PhD, University of Minnesota-Twin Cities, 1999

Marc Bizer, Professor
French and Italian
PhD, Princeton University, 1993

Mary E. Blockley, Professor
English
PhD, Yale University, 1984

Carl S. Blyth, Associate Professor
French and Italian
PhD, Cornell University, 1990

Hans C. Boas, Professor
The Raymond Dickson, Alton C. Allen and Dillon Anderson Centennial
Professorship
Germanic Studies
Linguistics
PhD, University of North Carolina at Chapel Hill, 2000

Mary A. Bock, Assistant Professor
Women’s and Gender Studies
PhD, University of Pennsylvania, 2009

Marion Enid Bodian, Professor
History
PhD, Hebrew University, 1988

Christoph Boehm, Assistant Professor
Economics
PhD, University of Michigan-Ann Arbor, 2016

Deborah A. Bolnick, Associate Professor
Anthropology
PhD, University of California-Davis, 2005

Daniel A. Bonevac, Professor
Philosophy

Undergraduate Catalog 2018-2020  ▸ Faculty  853
PhD, University of Pittsburgh, Pittsburgh Campus, 1980

Paola Bonifazio, Associate Professor
French and Italian
Women's and Gender Studies
PhD, New York University, 2008

John G Bordie, Professor Emeritus
Linguistics
PhD, University of Texas at Austin, 1958

Jason R Borge, Associate Professor
Spanish and Portuguese
PhD, University of California-Berkeley, 2002

Pascale R Bos, Associate Professor
Germanic Studies
Women's and Gender Studies
PhD, University of Minnesota-Twin Cities, 1998

Carlos E Bowles, Lecturer
MEd, University of Texas at Austin, 2002

Svetlana Boyarchenko, Associate Professor
Economics
PhD, Rostov State University, 1983

Agnes M Boyer - Lafont, Visiting Associate Professor
English
PhD, Universite Paul Valery, Montpellier III, 2003

Robert S Boyer, Professor Emeritus
Philosophy
PhD, University of Texas at Austin, 1971

Casey A Boyle, Assistant Professor
Rhetoric and Writing
PhD, University of South Carolina - Columbia, 2011

Kirsten E Bradbury, Lecturer
Psychology
PhD, Virginia Polytechnic Institute and State University, 2005

Claud A Bramblett, Professor Emeritus
Anthropology
PhD, University of California-Berkeley, 1967

H W Brands, Professor
Jack S. Blanton, Sr. Chair in History
History
PhD, University of Texas at Austin, 1985

Sarah Brayne, Assistant Professor
Sociology
MA, Princeton University, 2012

Brian A Bremen, Associate Professor
English
PhD, Princeton University, 1989

Joel P Brereton, Professor
Asian Studies
Religious Studies
PhD, Yale University, 1975

Sharon Bridgforth, Lecturer
African and African Diaspora Studies
BA, California State University-Los Angeles, 1985

Stephen Bright, Lecturer

PhD, University of Michigan-Ann Arbor, 1993

Daniel M Brinks, Associate Professor
Government
PhD, University of Notre Dame, 2004

James B Brow, Professor Emeritus
Anthropology
Asian Studies
PhD, University of Washington - Seattle, 1974

Benjamin C Brower, Associate Professor
History
Middle Eastern Studies Ctr
PhD, Cornell University, 2005

Anthony L Brown, Associate Professor
African and African Diaspora Studies
African and African Diaspora Studies
PhD, University of Wisconsin-Madison, 2006

Carolyn M Brown, Professor
African and African Diaspora Studies
PhD, University of Florida, 1994

William J Scheick, Professor Emeritus
English
PhD, University of Illinois at Urbana-Champaign, 1969

Beatriz E Schleppe, Lecturer
French and Italian
PhD, University of Texas at Austin, 2003

Karl M Schmitt, Professor Emeritus
Government
PhD, University of Pennsylvania, 1954

Helen Schneider, Lecturer
Economics
PhD, Cornell University, 2002

David M Schnyer, Professor
Psychology
PhD, University of Arizona, 1998

Jonathan Wyn Schofer, Associate Professor
Religious Studies
PhD, University of Chicago, 2000

Lauren Schudde, Assistant Professor
Sociology
PhD, University of Wisconsin-Madison, 2013

Megan Seaholm, Senior Lecturer
History
PhD, Rice University, 1988

Chad Eugene Seales, Associate Professor
Religious Studies
PhD, University of North Carolina at Chapel Hill, 2007

Sonia T Seeman, Associate Professor
Middle Eastern Studies
Middle Eastern Studies Ctr
PhD, University of California-Los Angeles, 2002

Eyal Seidemann, Professor
Psychology
PhD, Stanford University, 1998

Henry A Selby, Professor Emeritus
Anthropology
PhD, Stanford University, 1966

Martha A Selby, Professor
Ralph B. Thomas Regents Professorship in Asian Studies
Asian Studies
PhD, University of Chicago, 1994

Albert D Sellstrom, Professor Emeritus
French and Italian
PhD, Princeton University, 1956

Suzanne K Serifff, Senior Lecturer
Anthropology
PhD, University of Texas at Austin, 1989

Sandro Sessarego, Associate Professor
Spanish and Portuguese
PhD, Ohio State U Main Campus, 2010

Thomas K Seung, Professor Emeritus
Philosophy
PhD, Yale University, 1965

Yekaterina K Severts, Lecturer
Slavic and Eurasian Studies
PhD, University of Texas at Austin, 2015

Gautami Hiru Shah, Senior Lecturer
Asian Studies
MS, Purdue University North Central Campus, 1988

Anousha Shahsavari, Lecturer
Middle Eastern Studies
MA, Shiraz University, 2005

Ahmed Shamim, Lecturer
Asian Studies
Asian Studies
MA, City University of New York Graduate Center, 2011

Dima Y Shamoun, Lecturer
Economics
PhD, George Mason University, 2013  
Jishnu Shankar, Senior Lecturer  
Asian Studies  
PhD, Syracuse University Main Campus, 2011  
Harel Shapira, Assistant Professor  
Sociology  
PhD, Columbia University in the City of New York, 2010  
Liza J Shapiro, Professor  
Anthropology  
PhD, State University of New York at Stony Brook, 1991  
Daron R Shaw, Professor  
Frank C. Erwin, Jr. Centennial Chair in State Government  
Government  
PhD, University of California-Los Angeles, 1994  
Dina M Sherzer, Professor Emeritus  
French and Italian  
PhD, University of Pennsylvania, 1970  
Joel F Sherzer, Professor Emeritus  
Anthropology  
PhD, University of Pennsylvania, 1968  
Kenneth I Shine, Adjunct Professor  
MD, Harvard University, 1961  
Snehal A Shingavi, Associate Professor  
English  
PhD, University of California-Berkeley, 2008  
Faegheh S Shirazi, Professor  
Middle Eastern Studies  
Middle Eastern Studies Ctr  
Women's and Gender Studies  
PhD, Ohio State U Main Campus, 1985  
Jason D Shumake, Research Assistant Professor  
Psychology  
PhD, University of Texas at Austin, 2004  
Elizabeth L Shumpert, Associate Professor-ROTC  
Military Science  
MS, University of Texas at Austin, 2015  
Nicolas Shumway, Professor Emeritus  
Spanish and Portuguese  
PhD, University of California-Los Angeles, 1976  
Clemens Siaml, Professor  
Texas Commerce Bancshares, Inc. Centennial Professorship in Commercial Banking  
Economics  
PhD, Stanford University, 2001  
David S Sibley, Professor  
John T. Stuart III Centennial Professorship in Economics  
Economics  
PhD, Yale University, 1973  
Charles M Silver, Professor  
Roy W. and Eugenia C. McDonald Endowed Chair of Civil Procedure  
Government  
JD, Yale University, 1987  
Balbir K Singh, Postdoctoral Fellow  
Women's and Gender Studies  
PhD, University of Washington - Seattle, 2016  
Gideon A Sjoberg, Professor Emeritus  
Sociology  
PhD, Washington State University, 1949  
Allison Skerrett, Associate Professor  
African and African Diaspora Studies  
African and African Diaspora Studies  
PhD, Boston College, 2007  
Melissa E Skidmore, Lecturer  
French and Italian  
PhD, University of Texas at Austin, 2005  
Vasiliki Skreta, Professor  
Economics  
PhD, University of Pittsburgh, Pittsburgh Campus, 2001  
Daniel T Slesnick, Professor  
Economics  
PhD, Harvard University, 1982  
Bjorn I Sletto, Associate Professor  
Geography and the Environment  
PhD, Cornell University, 2006  
Casey Lauren Sloan, Lecturer  
English  
PhD, University of Texas at Austin, 2017  
James Slotta, Assistant Professor  
Anthropology  
PhD, University of Chicago, 2012  
Rajka Smiljanic, Associate Professor  
Linguistics  
PhD, University of Illinois at Urbana-Champaign, 2002  
Cherise Smith, Associate Professor  
African and African Diaspora Studies  
African and African Diaspora Studies  
PhD, Stanford University, 2004  
Christen Smith, Associate Professor  
African and African Diaspora Studies  
African and African Diaspora Studies  
Anthropology  
Women's and Gender Studies  
PhD, Stanford University, 2007  
Daniel Smith, Lecturer  
Rhetoric and Writing  
PhD, Pennsylvania State University Park, 2004  
Geoffrey Smith, Assistant Professor  
Religious Studies  
PhD, Princeton University, 2013  
Mark C Smith, Associate Professor  
American Studies  
PhD, University of Texas at Austin, 1980  
Nicole Smith, Lecturer  
Philosophy  
PhD, Bowling Green State University, 2013  
Tara A Smith, Professor
Philosophy
PhD, Johns Hopkins University, 1990

Jasper A Smits, Professor
Psychology
PhD, University of Texas at Austin, 2004

Rupert Snell, Professor Emeritus
Asian Studies
PhD, University of London, 1984

Laura Snyder, Lecturer
Germanic Studies
MA, University of Kentucky, 2012

Carlos A Sole, Professor Emeritus
Spanish and Portuguese
PhD, Georgetown University, 1966

Yolanda Sole, Professor Emeritus
Spanish and Portuguese
PhD, Georgetown University, 1966

Zeynep Somer-Topcu, Assistant Professor
Government
PhD, University of California-Davis, 2009

Kerstin E Somerholter, Senior Lecturer
Germanic Studies
PhD, University of Texas at Austin, 1999

Patricia A Somers, Associate Professor
Women’s and Gender Studies
PhD, University of New Orleans, 1992

Susan B Somers-Willett, Lecturer
Women’s and Gender Studies
PhD, University of Texas at Austin, 2003

Stephen M Sonnenberg, Adjunct Professor
Medicine
Yeshiva University, 1965

David Sosa, Professor
Louann and Larry Temple Centennial Professorship in the Humanities
Philosophy
PhD, Princeton University, 1996

Bartholomew H Sparrow, Professor
Government
PhD, University of Chicago, 1991

Dean E Spears, Assistant Professor
Economics
PhD, Princeton University, 2013

Lawrence W Speck, Professor
The W. L. Moody, Jr. Centennial Professorship in Architecture
Geography and the Environment
MArch, Massachusetts Institute of Technology, 1972

Denise A Spellberg, Professor
History
Middle Eastern Studies
Middle Eastern Studies Ctr
Religious Studies
PhD, Columbia University in the City of New York, 1989

David B Spence, Professor
Herbert D. Kelleher Centennial Professorship in Business Law

Government
PhD, Duke University, 1997

Clay Spinuzzi, Professor
English
Rhetoric and Writing
PhD, Iowa State University, 1999

Dale O Stahl II, Professor
Malcolm Forsman Centennial Professorship
Economics
PhD, University of California-Berkeley, 1981

Thomas F Staley, Professor Emeritus
English
PhD, University of Pittsburgh, Pittsburgh Campus, 1962

Nancy K Stalker, Associate Professor
Asian Studies
History
Women's and Gender Studies
PhD, Stanford University, 2002

Paul J Stekler, Professor
Wofford Denius Chair in Entertainment Studies
Government
PhD, Harvard University, 1983

Kathleen C Stewart, Professor
Anthropology
PhD, University of Michigan-Ann Arbor, 1987

Eric M Stice, Adjunct Associate Professor
Psychology
PhD, Arizona State University Main, 1996

Maxwell B Stinchcombe, Professor
E. C. McCarty Centennial Professorship
Economics
PhD, University of California-Berkeley, 1986

Michael B Stoff, Associate Professor
History
PhD, Yale University, 1977

William M Stott, Professor Emeritus
American Studies
English
PhD, Yale University, 1972

Stephen M Strakowski, Professor
Psychology
MD, Vanderbilt University, 1988

Sandra B Straubhaar, Distinguished Senior Lecturer
Germanic Studies
PhD, Stanford University, 1982

Andrew D Straw, Lecturer
Russian, East European, and Eurasian Studies
PhD, University of Texas at Austin, 2017
Galen Strawson, Professor
Chair in Philosophy
Philosophy

DPhil, University of Oxford, 1983
Jurgen K Streeck, Professor
Anthropology
Germanic Studies

PhD, Free University of Berlin, 1981
Pauline T Strong, Professor
Anthropology
Women's and Gender Studies

PhD, University of Chicago, 1992
Scott R Stroud, Associate Professor
Rhetoric and Writing

PhD, Temple University, 2006
David S Stuart, Professor
Linda and David Schele Chair in the Art and Writing of Mesoamerica
Anthropology

PhD, Vanderbilt University, 1995
Circe D Sturm, Associate Professor
Anthropology

PhD, University of California-Davis, 1997
Naoko Suito, Senior Lecturer
Asian Studies

PhD, University of Texas at Austin, 1991
Teresa A Sullivan, Professor Emeritus
Sociology

PhD, University of Chicago, 1975
Jeremi Suri, Professor
Mack Brown Distinguished Chair for Leadership in Global Affairs

History
Middle Eastern Studies Ctr

PhD, Yale University, 2001
Harvey M Sussman, Professor
R. P. Doherty, Sr. Centennial Professorship in Communication
Linguistics

PhD, University of Wisconsin-Madison, 1970
Madelin Sutherland-Meier, Associate Professor
Spanish and Portuguese

PhD, University of California-San Diego, 1983
Janet K Swaffar, Professor Emeritus
Germanic Studies

PhD, University of Wisconsin-Madison, 1965
William B Swann Jr, Professor
William Howard Beasley III Professorship in the Graduate School of

Business
Psychology

PhD, University of Minnesota-Twin Cities, 1978
William S Swearingen, Lecturer
Sociology

PhD, University of Texas at Austin, 1997
Ori Swed, Lecturer
Sociology

PhD, University of Texas at Austin, 2016
Margaret A Syverson, Associate Professor Emeritus
Rhetoric and Writing

PhD, University of California-San Diego, 1994
Cynthia M Talbot, Professor
Asian Studies

History

PhD, University of Wisconsin-Madison, 1988
Midori Tanaka, Lecturer
Asian Studies

MA, University of Oregon, 1996

Audre and Bernard Rapoport Centennial Chair in Economics
Economics
PhD, Harvard University, 1997
Aaron S Zacks, Lecturer
Rhetoric and Writing
PhD, University of Texas at Austin, 2012
Emilio Zamora, Professor
History
PhD, University of Texas at Austin, 1983
Jay W Zarnikau
Economics
PhD, University of Texas at Austin, 1990
Maria Del Pilar Zazueta, Lecturer
Latin American Studies
PhD, Columbia University in the City of New York, 2011
Mark A Zentner, Clinical Assistant Professor
Psychology
PhD, University of Texas at Austin, 1999
Anastasia Zervou, Lecturer
Economics
PhD, Washington University in St Louis, 2009
Abraham Zilkha, Associate Professor Emeritus
Middle Eastern Studies
PhD, University of Texas at Austin, 1970
Christine Zumello, Visiting Associate Professor
English
PhD, Universite de Paris III, Sorbonne Nouvelle, 1997

College of Natural Sciences Faculty

The following faculty list represents those appointed in the 2018 spring semester.

Scott J Aaronson, Professor
Computer Science
PhD, University of California-Berkeley, 2004
Sarah A Abraham, Lecturer
Computer Science
PhD, University of Texas at Austin, 2015
Elia S Abreu Olvera, Specialist
Mathematics
BS, University of Texas at Austin, 2015
Santos A Acosta, Specialist
Biology Instruction Office
BS, University of Texas at Austin, 2017
Meena D Adhikary, Specialist
Human Ecology
MEd, University of Texas at Austin, 1990
Seema Agarwala, Associate Professor
Molecular Biosciences
PhD, State University of New York at Stony Brook, 1990
Lucas D Akin, Specialist
Chemistry
BS, University of Texas at Austin, 2016
Teri J Albrecht, Lecturer
PhD, University of Texas at Austin, 2007

Richard W Aldrich, Professor
Karl Folkers Chair in Interdisciplinary Biomedical Research II
Neuroscience
PhD, Stanford University, 1980

Alejandro Alemán Jr, Specialist
Biology Instruction Office
MS, University of Texas at Austin, 2017

Daniel J Allcock, Professor
Mathematics
PhD, University of California-Berkeley, 1996

Kelli R Allen, Clinical Assistant Professor
MS, Pittsburg State University, 1998

Albert T Almanza, Specialist
Chemistry
BS, University of Texas at Austin, 2014

Lorenzo Alvisi, Professor Emeritus
Computer Science
PhD, Cornell University, 1996

Natalie Y Ammon, Lecturer
Human Ecology
PhD, University of Texas at Austin, 2011

Timothy R Andeen Jr, Assistant Professor
Physics
PhD, Northwestern University, 2008

Edward R Anderson, Associate Professor
Human Ecology
PhD, University of Virginia, 1989

Morgan James Anderson, Specialist
Chemistry
PhD, University of Texas at Austin, 2017

Kathleen Anding McInnis, Lecturer
Human Ecology
PhD, University of Texas at Austin, 2016

Eric V Anslyn, Professor
Welch Regents Chair in Chemistry
Chemistry
PhD, California Institute of Technology, 1988

Dean R Appling, Professor
Lester J. Reed Professorship in Biochemistry
Molecular Biosciences
PhD, Vanderbilt University, 1981

Jonathan F Arambula, Lecturer
Chemistry
PhD, University of Illinois at Urbana-Champaign, 2008

Todd J Arbogast, Professor
W. A. "Tex" Moncrief, Jr. Simulation-Based Engineering and Sciences
Professorship I
Mathematics
PhD, University of Chicago, 1987

Jane Arledge, Senior Lecturer
Mathematics
PhD, University of Colorado at Boulder, 1995

Taft E Armandroff, Professor
Frank and Susan Bash Endowed Chair for the Director of McDonald
Observatory
Astronomy
PhD, Yale University, 1988

Connie R Arnold, Professor Emeritus
Marine Science
PhD, Texas A & M University, 1968

Karen J Artzt, Professor Emeritus
Molecular Biosciences
PhD, Weill Medical College of Cornell University, 1972

Nigel S Atkinson, Professor
Neuroscience
PhD, Pennsylvania State University Main Campus, 1986

Jennifer K Mann Austin, Lecturer
Mathematics
PhD, Florida State University, 2007

Ivo M Babuska, Professor
Robert B. Trull Chair in Engineering
Mathematics
PhD, Academy of Sciences, 1955

Francois Baccelli, Professor
Simons Chair in Mathematics and Electrical and Computer Engineering
Mathematics
These d'Etat, Universite de Paris XI, Paris-Sud, 1983

Joshua Dana Baer, Adjunct Assistant Professor
Computer Science
BS, Carnegie Mellon University, 1999

Carlos R Baiz, Assistant Professor
Chemistry
PhD, University of Michigan-Ann Arbor, 2011

Chandrajit L Bajaj, Professor
CAM Chair in Visualization
Computer Science
PhD, Cornell University, 1984

Brett J Baker, Assistant Professor
Marine Science
PhD, University of Michigan-Ann Arbor, 2014

Dana H Ballard, Professor
Computer Science
PhD, University of California-Irvine, 1974

Zuzana Baranova, Lecturer
Chemistry
PhD, Texas A & M University, 2017

Allen J Bard, Professor
Norman Hackerman - Welch Regents Chair in Chemistry
Chemistry
PhD, Harvard University, 1958

Kaylyn R Barrett, Specialist
Biology Instruction Office
BS, University of Texas at Austin, 2017
Jeffrey E Barrick, Assistant Professor
Molecular Biosciences
PhD, Yale University, 2006

Suzanne S Barth, Adjunct Associate Professor
Biology Instruction Office
PhD, University of Texas at Austin, 1983

Frank N Bash, Professor Emeritus
Astronomy
PhD, University of Virginia (Old Code), 1967

Don S Batory, Professor
David Bruton, Jr. Centennial Professorship in Computer Sciences #1
Computer Science
PhD, University of Toronto, 1981

John C Batterton, Lecturer
Biology Instruction Office
PhD, University of Texas at Austin, 1970

Nathan L Bauld, Professor Emeritus
Chemistry
PhD, University of Illinois at Urbana-Champaign, 1959

Vanessa M Bazan, Specialist
Biology Instruction Office
BS, University of Texas at Austin, 2017

Cam Beasley, Lecturer
Computer Science
BSChE, University of Texas at Austin, 2001

William Beckner, Professor
Paul V. Montgomery Centennial Memorial Professorship in Mathematics
Mathematics
PhD, Princeton University, 1975

Ockhee Bego, Lecturer
Human Ecology
MFA, Academy of Art University, 2010

David D Ben-Zvi, Professor
Mathematics
PhD, Harvard University, 1999

Roger D Bengtson, Professor Emeritus
Physics
PhD, University of Maryland College Park, 1968

Aprile D Benner, Associate Professor
Human Ecology
PhD, University of California-Los Angeles, 2007

Philip A Benson, Specialist
Biology Instruction Office
Chemistry
BS, University of Texas at Austin, 2017

Sterling K Berberian, Professor Emeritus
Mathematics
PhD, University of Chicago, 1955

Herbert L Berk, Professor Emeritus
Physics
PhD, University of California-Berkeley, 2006

Jerry J Brand, Professor Emeritus
Molecular Biosciences
PhD, Purdue University Main Campus, 1971

Molly S Bray, Professor
Susan T. Jastrow Human Ecology Chair for Excellence in Nutritional Sciences
Human Ecology
PhD, University of Texas Health Science Center at Houston, 1998

Michel Breger, Adjunct Professor
Astronomy
PhD, University of California-Berkeley, 1969

Boris Breizman, Research Professor (Affiliated)
Physics
PhD, Budker Institute of Nuclear Physics, 1978

Margaret E Briley, Professor
Human Ecology
PhD, Texas Tech University, 1973

Patrick L Brockett, Professor
Gus Wortham Memorial Chair in Risk Management and Insurance Mathematics
PhD, University of California-Irvine, 1975

Jennifer S Brodbelt, Professor
Norman Hackerman Chair in Chemistry
Chemistry
PhD, Purdue University Main Campus, 1988

Volker Bromm, Professor
Astronomy
PhD, Yale University, 2000

Franklin H Bronson, Professor Emeritus
Biology Instruction Office
PhD, Pennsylvania State University Main Campus, 1961

R Malcolm Brown Jr, Professor Emeritus
Molecular Biosciences
PhD, University of Texas at Austin, 1964

Karen S Browning, Professor
Molecular Biosciences
PhD, University of Illinois at Urbana-Champaign, 1980

Delia M Brownson, Specialist
Human Ecology
PhD, University of Texas at Austin, 1996

Audrey C Brumback, Research Assistant Professor (Affiliated)
Neuroscience
PhD, University of Colorado at Denver, 2006

Katherine M Bruner, Lecturer
Biology Instruction Office
PhD, Johns Hopkins University, 2017

Amy E Bryan, Clinical Assistant Professor
Human Ecology
PhD, University of Texas at Austin, 2010

William C Bulko, Lecturer
Computer Science
PhD, University of Texas at Austin, 1989

James J Bull, Professor
Joseph J. & Jeanne M. Lagowski Regents Professorship in Molecular Bioscience
Biology Instruction Office
PhD, University of Utah, 1977

Peter Burton, Instructor
Mathematics
PhD, California Institute of Technology, 2017

Edward J Buskey, Professor
Marine Science
Marine Science
PhD, University of Rhode Island, 1983

Ruth E Buskirk, Distinguished Senior Lecturer
Biology Instruction Office
PhD, University of California-Davis, 1972

Elena Caceres, Associate Professor
Physics
PhD, University of Texas at Austin, 1996

Luis A Caffarelli, Professor
Sid W. Richardson Foundation Regents Chair in Mathematics #1
Mathematics
PhD, University of Buenos Aires, 1972

Xiaolu Cambronne, Assistant Professor
Molecular Biosciences
PhD, Harvard University, 2009

Alan Campion, Professor
Dow Chemical Company Endowed Professorship in Chemistry
Chemistry
PhD, University of California-Los Angeles, 1977

Phillip E Cannata, Adjunct Professor
Computer Science
PhD, University of Notre Dame, 1980

David Cannatella, Professor
Biology Instruction Office
PhD, University of Kansas Main Campus, 1986

Caitlin M Casey, Assistant Professor
Molecular Biosciences
PhD, Cornell University, 1985

James R Chelikowsky, Professor
W. A. "Tex" Moncrief, Jr. Chair in Computational Materials Science
Chemistry
PhD, University of California-Berkeley, 1975

Jonathan Yan Chen, Professor
Human Ecology
PhD, University of Leeds, 1995

Penghao Chen, Specialist
Chemistry
PhD, University of Texas at Austin, 2017

Thomas Chen, Associate Professor
Mathematics
PhD, Swiss Federal Institute of Technology, 2001

Zengjian J Chen, Professor
D. J. Sibley Centennial Professorship in Plant Molecular Genetics
Biology Instruction Office
Molecular Biosciences
PhD, Texas A & M University, 1993

Shao-Ying Cheng, Lecturer
Biology Instruction Office
PhD, University of Texas at Austin, 2009

Antonia Chimonidou, Lecturer
PhD, University of Texas at Austin, 2009

Raymond A Chitwood, Lecturer
Biology Instruction Office
PhD, University of Texas at San Antonio, 2000

Charles B Chiu, Professor Emeritus
Physics
PhD, University of California-Berkeley, 1966

Grace Choy, Lecturer
PhD, Carnegie Mellon University, 2003

Jessica Ciarla, Lecturer
Human Ecology
MA, Kent State University Main Campus, 2015

Mirela Ciperiani, Associate Professor
Mathematics
PhD, Princeton University, 2006

David Clark, Lecturer
Mathematics
PhD, McGill University, 1992

Gregory B Clark
Biology Instruction Office
PhD, University of Texas at Austin, 1992

Alan K Cline, Professor Emeritus
Computer Science
PhD, University of Texas at San Antonio, 1970

William D Cochran, Research Professor (Affiliated)
Astronomy
PhD, Princeton University, 1976

Stephany S Coffman-Wolph, Lecturer
Computer Science
PhD, Western Michigan University, 2013

Shirley Cohen, Adjunct Assistant Professor
Computer Science
MS, University of Pennsylvania, 2007

William R Coker, Professor
Physics
PhD, University of Georgia, 1966

John A Colapret, Lecturer
Chemistry
PhD, University of Texas at Austin, 1983

Laura Lee Colgin, Associate Professor
Neuroscience
PhD, University of California-Irvine, 2003

William R Cook, Associate Professor
Computer Science
PhD, Brown University, 1989

Alan H Cowley, Professor Emeritus
Chemistry
PhD, University of Manchester, 1958

Charles Kikutaro Crawford, Specialist
Biology Instruction Office
MS, University of Texas at Austin, 2017

David P Crews, Professor
Biology Instruction Office
PhD, Rutgers the State University of New Jersey Newark Campus, 1973

Richard M Crooks, Professor
The Robert A. Welch Chair in Chemistry (Materials Chemistry)
PhD, University of Texas at Austin, 1987

Milica Cudina, Clinical Assistant Professor
Mathematics
PhD, Carnegie Mellon University, 2006

Molly E Cummings, Professor
Biology Instruction Office
PhD, University of California-Santa Barbara, 2001

Kathryn Dabbs, Lecturer
Mathematics
PhD, University of Texas at Austin, 2017

Jeffrey E Danciger, Assistant Professor
Mathematics
PhD, Stanford University, 2011

James W Daniel, Professor Emeritus
Mathematics
PhD, Stanford University, 1965

Mark L Daniels, Clinical Professor
Mathematics
EdD, Walden University, 2007

Bryan William Davies, Assistant Professor
Molecular Biosciences
PhD, Massachusetts Institute of Technology, 2008

Jaimie N Davis, Associate Professor
Human Ecology
PhD, University of Texas at Austin, 2004

Katherine M Davis, Associate Professor
Mathematics
PhD, Cornell University, 1974

Alejandra De Angulo Sorian, Lecturer
Human Ecology
PhD, University of Texas at Austin, 2014

Alex De Lozanne, Professor
Physics
PhD, Stanford University, 1982

Arturo De Lozanne, Associate Professor
Molecular Biosciences
PhD, Stanford University, 1988
Linda A Degraffenried, Associate Professor
Human Ecology
PhD, University of Texas Health Science Center at San Antonio, 2001
Cassandra V Delgado-Reyes
PhD, University of Illinois at Urbana-Champaign, 2003
Alexander A Demkov, Professor
Physics
PhD, Arizona State University Main, 1995
Leszek F Demkowicz, Professor
W. A. "Tex" Moncrief, Jr. Chair in Computational Engineering and
Sciences II
Mathematics
PhD, Cracow Univ of Technology, 1982
Ryan Denlinger, Instructor
Mathematics
PhD, New York University, 2016
Niraj Desai, Lecturer
Biology Instruction Office
PhD, Cornell University, 1995
F W Dewette, Professor Emeritus
Physics
PhD, Utrecht University, 1959
Matasha Dhar, Specialist
Biology Instruction Office
PhD, Washington State University, 2012
Inderjit S Dhillon, Professor
Gottesman Family Centennial Professorship in Computer Sciences
Computer Science
Mathematics
PhD, University of California-Berkeley, 1997
Robert Wayne Dickey, Professor
Nancy Lee and Perry R. Bass Regents Chair in Marine Science
Marine Science
PhD, Southern Illinois University Carbondale, 1984
Daniel James Dickinson, Assistant Professor
Molecular Biosciences
PhD, Stanford University, 2011
Duane A Dicus, Professor
Physics
PhD, University of California-Los Angeles, 1968
Isil Dillig, Associate Professor
Computer Science
PhD, Stanford University, 2011
Thomas W Dillig, Adjunct Assistant Professor
Computer Science
Computer Science
PhD, Stanford University, 2011
Harriet L Dinerstein, Professor
Astronomy
PhD, University of California-Santa Cruz, 1980
Jacques Distler, Professor
Physics
PhD, Harvard University, 1987
Todd Ditmire, Professor
Physics
PhD, University of California-Davis, 1995
Theodore H Dix, Associate Professor Emeritus
Human Ecology
PhD, Northwestern University, 1980
John D Dollard, Professor Emeritus
Mathematics
PhD, Princeton University, 1963
Michael W Downer, Professor
Professorship in Physics #2
Physics
PhD, Harvard University, 1983
Glenn P Downing, Lecturer
Computer Science
MS, Massachusetts Institute of Technology, 1977
Justin M Dragna, Lecturer
Chemistry
PhD, University of Texas at Austin, 2011
Michael Drew, Assistant Professor
Neuroscience
PhD, Columbia University in the City of New York, 2004
Jaquelin P Dudley, Professor
Molecular Biosciences
PhD, Baylor College of Medicine, 1978
Dennis P Dunn, Lecturer
PhD, University of Texas at Austin, 2002
Kenneth H Dunton, Professor
Marine Science
Marine Science
PhD, University of Alaska Fairbanks, 1985
John R Durbin, Professor Emeritus
Mathematics
PhD, University of Kansas Main Campus, 1964
Gregory C Durrett, Assistant Professor
Computer Science
PhD, University of California-Berkeley, 2016
Charles F Earhart, Professor Emeritus
Molecular Biosciences
PhD, Purdue University, 1967
Paul Eastwick, Adjunct Associate Professor
Human Ecology
PhD, Northwestern University, 2009
David J Eaton, Professor
Bess Harris Jones Centennial Professorship in Natural Resource Policy
Studies
Biology Instruction Office
PhD, Johns Hopkins University, 1977
Johann K Eberhart, Associate Professor
Molecular Biosciences
PhD, University of Missouri - Columbia, 2002
Lauren Ilyse Richie Ehrlich, Associate Professor
Molecular Biosciences
PhD, Stanford University, 2002

Denise D Ekberg, Clinical Assistant Professor
MS, University of Illinois at Urbana-Champaign, 1989

Ron Elber, Professor
W. A. "Tex" Moncrief, Jr. Chair in Computational Life Sciences and Biology Chemistry
PhD, Hebrew University, 1985

Andrew Ellington, Professor
Wilson M. and Kathryn Fraser Research Professorship in Biochemistry Molecular Biosciences
PhD, Harvard University, 1988

E Allen Emerson, Professor Emeritus
Computer Science
PhD, Harvard University, 1981

Michael Endl, Lecturer
Astronomy
PhD, University of Vienna, 2001

Peter H English, Lecturer
Biology Instruction Office
PhD, University of Texas at Austin, 1998

Bjorn Engquist, Professor
CAM Chair I
Mathematics
PhD, Uppsala University, 1969

Deana L Erdner, Associate Professor
Marine Science
PhD, Massachusetts Institute of Technology, 1997

Brad Erisman, Assistant Professor
Marine Science
PhD, University of California-San Diego, 2008

James L Erskine, Professor
Trull Centennial Professorship in Physics #2
PhD, University of Washington - Seattle, 1972

Andrew Jerome Esbaugh, Assistant Professor
Marine Science
PhD, Queens University, 2005

Neal J Evans II, Professor Emeritus
Astronomy
PhD, University of California-Berkeley, 1973

Fatima H Fakhreddine, Senior Lecturer
Chemistry
PhD, University of Texas at Austin, 1999

Caroline E Farror, Assistant Professor
Biology Instruction Office
PhD, Princeton University, 2012

Marilyn M Felkner, Clinical Assistant Professor
Human Ecology
PhD, University of Texas Health Science Center at Houston, 2001

Leanne H Field, Distinguished Senior Lecturer
Human Ecology
PhD, University of Texas at Austin, 1987

Gregory A Fiete, Associate Professor
Physics
PhD, Harvard University, 2003

Ila P Fiete, Associate Professor
Neuroscience
Physics
PhD, Harvard University, 2004

Karen L Fingerman, Professor
Human Ecology
PhD, University of Michigan-Ann Arbor, 1993

Manfred Fink, Professor
Physics
PhD, Universitat Friedericiana Karlsruhe, 1966

Ilya J Finkelstein, Assistant Professor
Molecular Biosciences
PhD, Stanford University, 2007

Keely D Finkelstein, Lecturer
Astronomy
PhD, Ecole Nationale de Aviation Civile, 2008

Steven Lyle Finkelstein, Associate Professor
Astronomy
PhD, Arizona State University Main, 2008

Janice Ann Fischer, Professor
Molecular Biosciences
PhD, Harvard University, 1988

Willy Fischler, Professor
Jane and Roland Blumberg Centennial Professorship in Physics
PhD, Vrije Universiteit Brussel, 1976

Jillian Rose Fisher, Specialist
Mathematics
BA, University of Texas at Austin, 2015

Shelby Dax Fisher-Garibay, Specialist
Biology Instruction Office
BS, University of Texas at Austin, 2016

Richard Fitzpatrick, Professor
Physics
PhD, University of Sussex, 1988

Conrad R Fjetland, Lecturer
Chemistry
PhD, New Mexico Institute of Mining and Technology, 1998

Scott B Fleenor, Specialist
Human Ecology
BA, University of Chicago, 1984

Ernst-Ludwig Florin, Associate Professor
Physics
PhD, Technischen Universitat Munchen/Munich, 1995
Hugh S Forrest, Professor Emeritus
Neuroscience
DSc, University of London, 1970
Norma L Fowler, Professor
Biology Instruction Office
PhD, Duke University, 1978
Marye A Fox, Professor Emeritus
Chemistry
PhD, Dartmouth College, 1974
Fares Z Fraij, Lecturer
Computer Science
PhD, University of Texas at El Paso, 2005
David W Franke
Computer Science
PhD, University of Texas at Austin, 1992
Ruth A Franks, Senior Lecturer
Biology Instruction Office
PhD, University of Texas at Austin, 2000
Daniel S Freed, Professor
Mathematics
PhD, University of California-Berkeley, 1985
Jeanne H Freeland-Graves, Professor
Bess Heflin Centennial Professorship in Nutritional Sciences
Human Ecology
PhD, Rutgers the State University of New Jersey New Brunswick Campus, 1975
Gary L Freeman, Professor Emeritus
Biology Instruction Office
PhD, University of Chicago, 1964
Bj Friedman, Lecturer
Human Ecology
PhD, University of Texas at Austin, 1985
Jennifer H Fritz, Lecturer
Biology Instruction Office
PhD, University of Texas at Austin, 1997
Lothar W Frommhold, Professor Emeritus
Physics
PhD, University of Hamburg, 1961
Atlantis Y Frost, Specialist
Chemistry
BS, Northeastern Illinois University, 2015
Lee A Fuiman, Professor
Perry R. Bass Chair in Fisheries and Mariculture
Biology Instruction Office
Marine Science
PhD, University of Michigan-Ann Arbor, 1983
Donald S Fussell, Professor
Trammell Crow Regents Professorship in Computer Science
Computer Science
PhD, University of Texas at Dallas, 1980
Anna Gal, Professor
Computer Science
PhD, University of Chicago, 1995
Irene M Gamba, Professor
W. A. "Tex" Moncrief, Jr. Chair in Computational Engineering and Sciences III
Mathematics
PhD, University of Chicago, 1989
Blanca U Gamez, Lecturer
MPA, Texas State University-San Marcos, 2011
Wayne S Gardner, Professor Emeritus
Marine Science
PhD, University of Wisconsin Colleges, 1972
Adam T Garland, Specialist
Chemistry
PhD, University of Texas at Austin, 2014
J David Gavenda, Professor Emeritus
Physics
PhD, Brown University, 1959
Karl Gebhardt, Professor
Herman and Joan Suit Professorship in Astrophysics
Astronomy
PhD, Rutgers the State University of New Jersey New Brunswick Campus, 1994
Kenneth W Gentle, Professor
Physics
PhD, Massachusetts Institute of Technology, 1966
Andreas S George, Specialist
Biology Instruction Office
MS, University of Texas at Austin, 2015
George Georgiou, Professor
Laura Jennings Turner Chair in Engineering
Molecular Biosciences
PhD, Cornell University, 1987
Elizabeth Thompson Gershoff, Professor
Human Ecology
PhD, University of Texas at Austin, 1998
Simon Gersib, Specialist
Chemistry
BS, Southwestern University, 2016
Omar Ghattas, Professor
John A. and Katherine G. Jackson Chair in Computational Geosciences
Computer Science
PhD, Duke University, 1988
Ahmed Gheith, Adjunct Professor
Computer Science
PhD, Georgia Institute of Technology, 1990
John Michael Giacona, Specialist
Biology Instruction Office
BS, University of Texas at Austin, 2017
Noah Bramson Giese, Specialist
Chemistry
BS, University of Texas at Austin, 2017
John C Gilbert, Professor Emeritus
Chemistry
PhD, Yale University, 1965

John E Gilbert, Professor
Mathematics

PhD, University of Oxford, 1963

Lawrence E Gilbert, Professor
Biology Instruction Office

PhD, Stanford University, 1971

Ryan R Gillespie, Specialist
Biology Instruction Office

BS, Westminster College (Utah), 2002

Martha B Gillham, Associate Professor Emeritus
Human Ecology

PhD, Iowa State University, 1975

Benjamin D Gilman, Specialist
Biology Instruction Office

PhD, University of Texas at Austin, 2017

Marci Elizabeth Joy Gleason, Associate Professor
Human Ecology

PhD, New York University, 2004

Austin M Gleeson, Professor
Physics

PhD, University of Pennsylvania, 1965

Nace L Golding, Professor
Neuroscience

PhD, University of Wisconsin-Madison, 1996

Marcel Goldschen, Assistant Professor
Neuroscience

PhD, University of Wisconsin-Madison, 2009

Robert E Gompf, Professor
Jane and Roland Blumberg Centennial Professorship in Mathematics
Mathematics

PhD, University of California-Berkeley, 1984

Laura I Gonzalez, Lecturer
Biology Instruction Office

PhD, University of New Mexico Main Campus, 1998

Oscar Gonzalez, Professor
Mathematics

PhD, Stanford University, 1996

Cameron M Gordon, Professor
Sid W. Richardson Foundation Regents Chair in Mathematics #2
Mathematics

PhD, University of Cambridge, 1971

Vernita Gordon, Assistant Professor
Physics

PhD, Harvard University, 2003

Mohamed G Gouda, Professor
Mike A. Myers Centennial Professorship in Computer Sciences
Computer Science

PhD, University of Waterloo, 1977

Gail Grabner, Lecturer
Biology Instruction Office

PhD, University of Illinois at Urbana-Champaign, 2002

Kerri Harmon, Senior Student Program Coordinator
EdD, University of Pittsburgh, Pittsburgh Campus, 1998

Professorship in Computer Sciences #4
Computer Science

PhD, Massachusetts Institute of Technology, 2006

Kathryn L Greenstein, Specialist
Chemistry

BA, University of Texas at Austin, 2017

Thomas A Griffy, Professor Emeritus
Physics

PhD, Rice University, 1961

Jeffrey M Gross
Biology Instruction Office

PhD, Duke University, 2002

Sam Gunningham, Lecturer
Mathematics

PhD, Northwestern University, 2013

Robin Gutell, Professor
Biology Instruction Office

PhD, University of California-Santa Cruz, 1985

Marvin L Hackert, Professor
William Shive Centennial Professorship in Biochemistry
Molecular Biosciences

PhD, Iowa State University, 1970

Ronny Hadani, Associate Professor
Mathematics

PhD, Tel Aviv University, 2006

Amanda Hager, Lecturer
Mathematics

PhD, University of Iowa, 2010

Gary C Hamrick, Professor
Mathematics

PhD, University of Virginia, 1971

Craig A Handley, Specialist
Biology Instruction Office

MS, Texas State University-San Marcos, 2011

Debra R Hansen, Lecturer
Biology Instruction Office

PhD, University of Texas at Austin, 2012

Amber Hardison, Assistant Professor
Marine Science

Marine Science

PhD, College of William and Mary, 2010

Susan C Harkins, Lecturer
EdD, University of Pittsburgh, Pittsburgh Campus, 1998

Kerri Harmon, Senior Student Program Coordinator
EdD, Delaware State University, 2012

Shinko K Harper, Lecturer
Mathematics

PhD, University of Texas at Austin, 1997

Kristen M Harris, Professor
Neuroscience

PhD, Northeastern Ohio Universities College of Medicine, 1982

Makenzie Burton Harris, Specialist
Human Ecology
BS, University of Texas at Austin, 2015
R A Harris, Professor
M. June and J. Virgil Waggoner Chair in Molecular Biology
Neuroscience
PhD, University of North Carolina at Chapel Hill, 1973

Rasika M Harshey, Professor
Molecular Biosciences
PhD, Indian Institute of Science - Bangalore, 1977

Justin Havird, Assistant Professor
Biology Instruction Office
PhD, Auburn University, 2014

Christine V Hawkes, Associate Professor
Biology Instruction Office
PhD, University of Pennsylvania, 2000

Drew Hays, Lecturer
Human Ecology
MA, University of Texas at Austin, 2012

Richard D Hazeltine, Professor
Physics
PhD, University of Michigan-Ann Arbor, 1968

Nancy L Hazen-Swann, Professor
Human Ecology
PhD, University of Minnesota-Twin Cities, 1979

Yuan He, Lecturer
Mathematics
PhD, Columbia University in the City of New York, 2010

Bjorn Hegelich, Associate Professor
Physics
PhD, Ludwig-Maximilians-Universitat Munchen, 2002

Daniel J Heinzen, Professor
The Fondren Foundation Centennial Chair in Physics
Physics
PhD, Massachusetts Institute of Technology, 1988

Raymond C Heitmann, Professor
Mathematics
PhD, University of Wisconsin-Madison, 1974

Graeme A Henkelman, Professor
Chemistry
PhD, University of Washington - Seattle, 2001

Thushani Herath, Lecturer
Chemistry
PhD, Wayne State University, 2015

Ladia Maxine Hernandez, Lecturer
Human Ecology
PhD, Texas Woman's University - Denton, 2009

David L Herrin, Professor
Molecular Biosciences
PhD, University of South Florida, 1986

Charlotte Herzele, Lecturer
Human Ecology
PhD, University of Texas at Austin, 1997

Marienus Heule, Research Assistant Professor (Affiliated)
Computer Science
PhD, Delft University of Technology, 2008

Linda A Hicke, Professor
Robert E. Boyer Chair in Natural Sciences
Molecular Biosciences
PhD, University of California-Berkeley, 1990

Gary J Hill, Research Professor (Affiliated)
Astronomy
PhD, University of Hawaii at Hilo, 1988

David M Hillis, Professor
Alfred W. Roark Centennial Professorship in Natural Sciences
Biology Instruction Office
PhD, University of Kansas Main Campus, 1985

Mary C Hines, Lecturer
Biology Instruction Office
PhD, University of Louisville, 1989

David W Hoffman, Associate Professor
Molecular Biosciences
PhD, Duke University, 1986

Johann Hofmann, Professor
Biology Instruction Office
PhD, Universitat Leipzig, 1997

James A Holcombe, Professor Emeritus
Chemistry
PhD, University of Michigan-Ann Arbor, 1974

Anthony Joseph Hollenback, Specialist
Chemistry
BS, University of Texas at Austin, 2016

Gloria J Holt, Professor Emeritus
Marine Science
PhD, Texas A & M University, 1976

Benjamin Sumin Hong, Specialist
Chemistry
BS, University of Texas at Austin, 2016

Wendell Horton, Professor Emeritus
Physics
PhD, University of California-San Diego, 1967

Mackenzie A Howard
Biology Instruction Office
Neuroscience
PhD, University of Washington - Seattle, 2008

Qixing Huang, Assistant Professor
Computer Science
PhD, Stanford University, 2012

Dusten Dale Hubbard, Specialist
Biology Instruction Office
BS, University of Texas at Austin, 2016

Kylie A Huckleberry, Specialist
Biology Instruction Office
PhD, University of Texas at Austin, 2017

Jon M Huibregtse, Professor
Molecular Biosciences
PhD, University of Michigan-Ann Arbor, 1989

Alexander C Huk, Professor
Neuroscience
PhD, Stanford University, 2001

Simon M Humphrey, Associate Professor
Chemistry
PhD, University of Cambridge, 2006

Joseph F Hunt, Lecturer
Mathematics
PhD, University of Texas at Austin, 2017

Warren A Hunt Jr, Professor
Computer Science
PhD, University of Texas at Austin, 1985

Enamul Huq, Professor
Molecular Biosciences
PhD, Purdue University Main Campus, 1997

Aletha C Huston, Professor Emeritus
Human Ecology
PhD, University of Minnesota-Twin Cities, 1965

Ted L Huston, Professor Emeritus
Human Ecology
PhD, State University of New York at Albany, 1972

Alexander Huth, Assistant Professor
Computer Science
Neuroscience
PhD, University of California-Berkeley, 2013

Amy E Imes, Lecturer
Human Ecology
PhD, University of Texas at Austin, 2008

Salvatore Ioverno, Lecturer
Human Ecology
PhD, University of Rome Tor Vergata, 2016

Gregory C Ippolito
Biology Instruction Office
PhD, University of Alabama at Birmingham, 2002

Philip Isett, Assistant Professor
Mathematics
PhD, Princeton University, 2013

Arie Israel, Assistant Professor
Mathematics
PhD, Princeton University, 2011

Brent L Iverson, Professor
Warren J. and Viola Mae Raymer Professorship in Systematic Botany and the Blake Collection
Biology Instruction Office
PhD, University of Texas at Austin, 1982

Makkuni Jayaram, Professor
Molecular Biosciences
PhD, Indian Institute of Science - Bangalore, 1977

William H Jefferys, Professor Emeritus
Astronomy
PhD, Yale University, 1965

Frank Siegfried Jenko, Adjunct Professor
Physics
PhD, Technische Universitat Munchen/Munich, 1998

Christine Jessup, Specialist
Biology Instruction Office
MPH, DePaul University, 2016

Shalene Jha, Associate Professor
Biology Instruction Office
PhD, University of Michigan-Ann Arbor, 2009

Shardha Jogee, Professor
Astronomy
PhD, Yale University, 1999

Arlen W Johnson, Professor
Molecular Biosciences
PhD, Harvard University, 1988

Kenneth Johnson, Professor
Roger J. Williams Centennial Professorship in Biochemistry
Molecular Biosciences
PhD, University of Wisconsin-Madison, 1975

Spencer Owen Johnson, Specialist
Mathematics
BA, Pomona College, 2014

Travis H Johnson, Specialist
Chemistry
MS, University of Texas at Austin, 2007

Daniel Johnston, Professor
Karl Folkers Chair in Interdisciplinary Biomedical Research
Neuroscience
PhD, Duke University, 1974

Marshall C Johnston, Professor Emeritus
Biology Instruction Office
PhD, University of Texas at Austin, 1955

Christopher A Jolly, Associate Professor
Human Ecology
PhD, Texas A & M University, 1996

Richard A Jones, Professor
Chemistry
PhD, University of London, 1978
Thomas E Juenger, Professor
Biology Instruction Office
PhD, University of Chicago, 1999

Greyson M Kale, Specialist
Chemistry
BS, University of Texas at Austin, 2017

Klaus O Kalthoff, Professor Emeritus
Molecular Biosciences
PhD, Albert Ludwig University Freiburg im Breisgau, 1971

Dananjaya Kalu Appulage, Lecturer
Chemistry
PhD, University of Texas at Arlington, 2017

Vadim Kaplunovsky, Professor
Physics
PhD, Tel Aviv University, 1984

Karishma S Kaushik, Lecturer
Biology Instruction Office
PhD, University of Texas at Austin, 2015

Adrian T Keatinge-Clay, Associate Professor
Molecular Biosciences
PhD, University of California-San Francisco, 2004

Stephen W Keckler, Adjunct Professor
Computer Science
PhD, Massachusetts Institute of Technology, 1998

Sean M Keel, Professor
Joe B. and Louise Cook Professorship in Mathematics
Mathematics
PhD, University of Chicago, 1989

Timothy H Keitt, Professor
Biology Instruction Office
PhD, University of New Mexico Main Campus, 1995

Keith Keitz, Assistant Professor
PhD, California Institute of Technology, 2013

Melissa Kemp, Assistant Professor
Biology Instruction Office
PhD, Stanford University, 2015

Rebekah G Kester, Lecturer
MEd, University of Texas at Austin, 2011

John W Keto, Professor
Physics
PhD, University of Wisconsin-Madison, 1972

Keenan J Kidwell, Lecturer
Mathematics
PhD, University of Texas at Austin, 2014

Can Kilic, Associate Professor
Physics
PhD, Harvard University, 2006

Goheun Kim, Lecturer
Biology Instruction Office
PhD, University of Texas at Austin, 2014

Jonghwan Kim, Associate Professor
Molecular Biosciences
PhD, University of Texas at Austin, 2005

Se Yong Kim, Specialist
Chemistry
BS, University of Texas at Austin, 2015

Su Yeong Kim, Associate Professor
Human Ecology
PhD, University of California-Davis, 2003

Peter J King, Lecturer
Biology Instruction Office
PhD, University of California-Irvine, 2000

Lynn E Kirby, Clinical Assistant Professor
MLibArts, St Edward's University, 2007

Mark A Kirkpatrick, Professor
T. S. Painter Centennial Professorship in Genetics
Biology Instruction Office
PhD, University of Washington - Seattle, 1983

Karrol A Kitt, Associate Professor Emeritus
Human Ecology
PhD, Purdue University Main Campus, 1978

George B Kitto, Professor Emeritus
Molecular Biosciences
PhD, Brandeis University, 1966

Leonard Kleinman, Professor Emeritus
Physics
PhD, University of California-Berkeley, 1960

Kimberly Kline, Professor Emeritus
Human Ecology
PhD, University of Texas at Austin, 1985

Adam R Klivans, Associate Professor
Computer Science
PhD, Massachusetts Institute of Technology, 2002

Daniel F Knopf, Professor
Mathematics
PhD, University of Wisconsin-Milwaukee, 1999

Hans A Koch, Professor
Mathematics
PhD, University of Geneva, 1979

Terry M Kotrla, Adjunct Assistant Professor
Biology Instruction Office
MSEd, Capella University, 2001

Philipp Kraehenbuehl, Assistant Professor
Computer Science
PhD, Stanford University, 2014

Adam L Kraus, Assistant Professor
Astronomy
PhD, California Institute of Technology, 2009

Amber Kreischer, Lecturer
Human Ecology
PhD, Iowa State University, 2017

Michael J Krische, Professor
The Robert A. Welch Chair in Science
Chemistry
PhD, Stanford University, 1997
Emma Krueger, Specialist Chemistry
PhD, University of Texas at Austin, 2016
Robert M Krug, Professor Emeritus Molecular Biosciences
PhD, Rockefeller University, 1966
Joseph J Kuehl, Adjunct Assistant Professor Marine Science
PhD, University of Rhode Island, 2009
Benjamin J Kuipers, Professor Emeritus Computer Science
PhD, Massachusetts Institute of Technology, 1977
Devdatta Kulkarni, Adjunct Assistant Professor Computer Science
PhD, University of Minnesota-Twin Cities, 2009
Pawan Kumar, Professor Astronomy
PhD, California Institute of Technology, 1988
John W La Claire II, Professor Emeritus Molecular Biosciences
PhD, University of California-Berkeley, 1979
Cynthia A Labrake Biology Instruction Office Chemistry
PhD, Loyola University Chicago, 1992
Lance A Labun, Lecturer Physics
PhD, University of Arizona, 2011
John H Lacy, Professor Astronomy
PhD, University of California-Berkeley, 1979
Travis J Laduc, Lecturer Biology Instruction Office
PhD, University of Texas at Austin, 2003
Matthew Ladue, Specialist MA, University of Texas at Austin, 2017
Jeanne M Lagowski, Professor Emeritus Neuroscience
PhD, University of Michigan-Ann Arbor, 1957
Keji Lai, Assistant Professor Physics
PhD, Princeton University, 2006
Simon S Lam, Professor Regents Chair in Computer Sciences #1 Computer Science
PhD, University of California-Los Angeles, 1974
David L Lambert, Professor Emeritus Astronomy
DPhil, University of Oxford, 1965
Alan Lambowitz, Professor Mr. and Mrs. A. Frank Smith, Jr. Regents Chair in Molecular Biology

Molecular Biosciences
PhD, Yale University, 1972
Karen M Landolt, Lecturer Computer Science
JD, Northeastern University, 2000
Karol Lang, Professor Jane and Roland Blumberg Professorship in Physics Physics
PhD, University of Rochester, 1985
Judith H Langlois, Professor Charles and Sarah Seay Regents Professorship in Developmental Psychology Human Ecology
PhD, Louisiana State University and Agricultural and Mechanical College, 1973
Laura M Lashinger, Research Scientist Human Ecology
PhD, University of Texas Health Science Center at Houston, 2005
Anita G Latham, Senior Lecturer Biology Instruction Office PhD, University of Alabama at Birmingham, 1999
David A Laude, Professor Chemistry
PhD, University of California-Riverside, 1984
Daniel J Leahy, Professor Benjamin Clayton Centennial Professorship in Biochemistry, The Benjamin Clayton Biochemical Institute Regents Lectureship, The Lorene Morrow Kelley Lectureship, The Lorene Morrow Kelley Lectureship in Molecular Biology Molecular Biosciences
PhD, Stanford University, 1988
Matthew A Lease, Associate Professor Computer Science
PhD, Brown University, 2009
Mathew A Leibold, Professor Harold C. and Mary D. Bold Regents Professorship of Cryptogamic Botany (Phycology) Biology Instruction Office
PhD, Michigan State University, East Lansing, 1988
Donald A Levin, Professor Biology Instruction Office PhD, University of Illinois at Urbana-Champaign, 1964
Xiaoqin E Li, Associate Professor Physics
PhD, University of Michigan-Ann Arbor, 2003
Vladimir Lifschitz, Professor Professorship in Computer Sciences #2 Computer Science
PhD, Steklov Mathematical Institute, 1969
Calvin Lin, Professor Computer Science
PhD, University of Washington - Seattle, 1992
Craig R Linder, Associate Professor Biology Instruction Office
PhD, Brown University, 1984
Hung-Wen Liu, Professor
George H. Hitchings Regents Chair in Drug Design
Chemistry
PhD, Columbia University in the City of New York, 1981
Qiang Liu, Assistant Professor
Computer Science
PhD, University of California-Irvine, 2014
Zhanfei Liu, Associate Professor
Marine Science
Marine Science
PhD, State University of New York at Stony Brook, 2006
Alan M Lloyd, Professor
Molecular Biosciences
PhD, Stanford University, 1993
Alessia Lodi, Research Associate
Human Ecology
PhD, Ohio State U Main Campus, 2006
John C Loehlin, Professor Emeritus
Computer Science
PhD, University of California-Berkeley, 1957
Hector E Lomeli, Lecturer
Mathematics
PhD, University of Minnesota-Twin Cities, 1995
Elma Ines Lorenzo-Blanco, Assistant Professor
Human Ecology
PhD, University of Michigan-Ann Arbor, 2013
Timothy J Loving, Adjunct Associate Professor
Human Ecology
PhD, Purdue University Main Campus, 2001
Fengyan Lu, Specialist
Biology Instruction Office
BS, University of Texas at Austin, 2016
Jeffrey J Luci, Research Assistant Professor
Neuroscience
PhD, University of Iowa, 2002
John E Luecke, Professor
Mathematics
PhD, University of Texas at Austin, 1985
Martha M Maas, Lecturer
Biology Instruction Office
PhD, University of Texas at Austin, 2005
Allan H Macdonald, Professor
Sid W. Richardson Foundation Regents Chair in Physics #1
Physics
PhD, University of Toronto, 1978
Paul M Macdonald, Professor
Mr. and Mrs. Robert P. Doherty, Jr. Regents Chair in Molecular Biology
Molecular Biosciences
PhD, Vanderbilt University, 1983
Jan M Machart, Lecturer
Biology Instruction Office
PhD, University of Texas at Austin, 2001
Francesco Maggi, Professor
Mathematics
PhD, Universita degli Studi di Roma La Sapienza, 2004
Philip D Magnus, Professor Emeritus
Chemistry
PhD, University of London, 1968
Anne-Clarisse T Magtaan, Specialist
Chemistry
BS, University of Texas at Austin, 2017
Bassett Maguire Jr, Professor Emeritus
Biology Instruction Office
Marine Science
PhD, Cornell University, 1957
Swadesh M Mahajan, Research Professor (Affiliated)
Physics
PhD, University of Maryland College Park, 1973
Dmitrii E Makarov, Professor
Chemistry
PhD, Semenov Institute of Chemical Physics, 1992
Solomon Manukure, Lecturer
Mathematics
PhD, University of South Florida, 2016
Edward M Marcotte, Professor
Mr. and Mrs. Corbin J. Robertson, Sr. Regents Chair in Molecular Biology
#1
Molecular Biosciences
PhD, University of Texas at Austin, 1995
Michael P Marder, Professor
Physics
PhD, University of California-Santa Barbara, 1986
Michela Marinelli, Associate Professor
Neuroscience
PhD, Universite Victor Segalen, Bordeaux II, 1997
Irina S Marinova, Lecturer
PhD, University of Texas at Austin, 2011
Christina Markert, Associate Professor
Physics
PhD, Johann Wolfgang Goethe University, 2001
John T Markert, Professor
Physics
PhD, Cornell University, 1987
Jill A Marshall, Associate Professor
Physics
PhD, University of Texas at Austin, 1984
Stephen F Martin, Professor
M. June and J. Virgil Waggoner Regents Chair in Chemistry
Chemistry
PhD, Princeton University, 1972
Kelly Stewart Masterson, Specialist
Biology Instruction Office
BS, University of Texas at Austin, 2017
Wylie M Masterson, Specialist
Biology Instruction Office
BS, University of Texas at Austin, 2017

Andreas T Matouschek, Professor
Molecular Biosciences
PhD, University of Cambridge, 1992

Mikhail V Matz, Associate Professor
Biology Instruction Office
PhD, Shemyakin-Ovchinnikov Institute of Bioorganic Chemistry, 1999

Richard A Matzner, Professor
Physics
PhD, University of Maryland College Park, 1967

Michael Mauk, Professor
Neuroscience
PhD, Stanford University, 1985

James D Mauseth, Professor Emeritus
Biology Instruction Office
PhD, University of Washington - Seattle, 1975

Mark M Maxwell, Clinical Professor
Mathematics
PhD, Oregon State University, 1994

Jennifer A Maynard, Associate Professor
PhD, University of Texas at Austin, 2002

Mary L McAnelly, Lecturer
Biology Instruction Office
PhD, University of Texas at Austin, 1984

Claire McCarthy Zagorski, Specialist
Chemistry
BA, University of Texas at Austin, 2006

Rachel McCarthy, Lecturer
Human Ecology
PsyD, Argosy University/Orange County, 2015

Blinda E McClelland, Lecturer
Biology Instruction Office
PhD, University of Texas at Austin, 1994

James W McClelland, Associate Professor
Marine Science
Marine Science
PhD, Boston University, 1998

Paul McCord, Senior Lecturer
Chemistry
PhD, University of Texas at Austin, 1992

William D McCormick, Professor Emeritus
Physics
PhD, Duke University, 1959

Duncan Edward McCoy, Instructor
Mathematics
PhD, University of Glasgow, 2016

Gene D McDonald, Lecturer
Biology Instruction Office
PhD, University of Texas at Austin, 1990

Jason McLellan, Associate Professor
Molecular Biosciences
PhD, Johns Hopkins University, 2009

Bailey McMeans, Adjunct Assistant Professor
Marine Science
PhD, University of Windsor, 2012

Kay McMurry, Lecturer
Biology Instruction Office
PhD, University of Texas at Austin, 1996

Monica R Meadows, Lecturer
Human Ecology
PhD, University of Texas at Austin, 2003

Mona Mehdy, Associate Professor
Molecular Biosciences
PhD, University of California-San Diego, 1984

Robert Messing, Professor
Neuroscience
MD, Stanford University, 1979

John C Meth, Lecturer
Mathematics
PhD, University of Texas at Austin, 2010

Lauren A Meyers, Professor
Biology Instruction Office
PhD, Stanford University, 2000

S J Mihic, Associate Professor
Neuroscience
PhD, University of Toronto, 1992

Risto P Miikkulainen, Professor
Computer Science
PhD, University of California-Los Angeles, 1990

Jesse E Miller, Lecturer
Mathematics
PhD, University of Illinois at Urbana-Champaign, 2011

Kyle M Miller, Associate Professor
Molecular Biosciences
PhD, University College London, 2004

Mary E Miller, Specialist
Chemistry
BS, Texas State University-San Marcos, 1989

Charles D Mills, Lecturer
Mathematics
PhD, University of Houston, 2017

Monica J Milonovich, Lecturer
Human Ecology
MS, Bowling Green State University, 1999

Miros Milosavljevic, Associate Professor
Astronomy
PhD, Rutgers the State University of New Jersey New Brunswick Campus, 2002

Dong-Ha Min, Lecturer
Marine Science
Marine Science
PhD, University of California-San Diego, 1999

Zachary L Miner, Lecturer
Mathematics
PhD, University of Texas at Austin, 2011
Daniel P Miranker, Professor  
Computer Science  
PhD, Columbia University in the City of New York, 1987

Jayadev Misra, Professor Emeritus  
Computer Science  
PhD, Johns Hopkins University, 1973

Shyamal K Mitra, Senior Lecturer  
Computer Science  
PhD, University of Texas at Austin, 1988

Sarah Nicole Mladenka, Specialist  
Biology Instruction Office  
BS, University of Texas at Austin, 2017

Aloysius K Mok, Professor  
Quincy Lee Centennial Professorship in Computer Science  
Computer Science  
PhD, Massachusetts Institute of Technology, 1983

Ian J Moloney, Professor  
Molecular Biosciences  
DPhil, University of Oxford, 1969

Marie H Monfils, Associate Professor  
Neuroscience  
PhD, University of Lethbridge, 2005

Stephen A Monti, Professor Emeritus  
Chemistry  
PhD, Massachusetts Institute of Technology, 1964

Jennifer Moon, Senior Lecturer  
Biology Instruction Office  
PhD, Indiana University at Bloomington, 2004

Raymond J Mooney, Professor  
Professorship in Computer Sciences #3  
Computer Science  
PhD, University of Illinois at Urbana-Champaign, 1987

C F Moore, Professor Emeritus  
Physics  
PhD, Florida State University, 1964

J S Moore II, Professor Emeritus  
Computer Science  
PhD, University of Edinburgh, 1973

Pedro F Morales, Lecturer  
Mathematics  
PhD, Baylor University, 2012

Nancy A Moran, Professor  
Warren J. and Viola Mae Raymer Chair, Leslie Surginer Endowed Professorship  
Biology Instruction Office  
PhD, University of Michigan-Ann Arbor, 1982

Hitoshi Morikawa, Associate Professor  
Neuroscience  
PhD, Kyoto University, 1999

Philip J Morrison, Professor  
Physics  
PhD, University of California-San Diego, 1979

Dana Hadar Moshkovitz Aaronson, Associate Professor  
Computer Science  
PhD, Weizmann Institute of Science, 2008

Rachel K Moyer-Trimyer, Lecturer  
Human Ecology  
MEd, University of Texas at Austin, 2001

Peter Mueller, Professor  
Mathematics  
PhD, Purdue University Main Campus, 1991

Ulrich G Mueller, Professor  
William Morton Wheeler-Lost Pines Professorship  
Biology Instruction Office  
PhD, Cornell University, 1993

Charles B Mullins, Professor  
Z. D. Bonner Professorship of Chemical Engineering, Matthew Van Winkle Regents Professorship in Chemical Engineering  
Chemistry  
PhD, California Institute of Technology, 1990

Petr Munk, Professor Emeritus  
Chemistry  
PhD, In of Macromole Chem, 1961

Richard F Nauert, Adjunct Associate Professor  
Human Ecology  
PhD, University of Texas at Austin, 2002

Ian Michael Nauhaus, Assistant Professor  
Neuroscience  
PhD, University of California-Los Angeles, 2008

Joseph Neeman, Assistant Professor  
Mathematics  
PhD, University of California-Berkeley, 2013

Lisa Ann Neff, Associate Professor  
Human Ecology  
PhD, University of Florida, 2002

Andrew M Neitzke, Associate Professor  
Mathematics  
PhD, Harvard University, 2005

Joel H Nibert, Lecturer  
Mathematics  
PhD, University of Southern California, 2012

Scott David Niekum, Assistant Professor  
Computer Science  
PhD, University of Massachusetts, 2013

Hiroshi Nishiyama, Associate Professor  
Neuroscience  
PhD, Kyoto University, 2002

Qian Niu, Professor  
Trull Centennial Professorship in Physics #1  
Physics  
PhD, University of Washington - Seattle, 1985

Alison N Norman, Lecturer  
Computer Science  
PhD, University of Texas at Austin, 2010

Gordon S Novak Jr, Professor  
Computer Science  
PhD, University of Michigan-Ann Arbor, 1982
PhD, University of Texas at Austin, 1976
Theresa J O’Halloran, Associate Professor
Molecular Biosciences
PhD, University of North Carolina at Chapel Hill, 1986
Melvin E Oakes, Professor Emeritus
Physics
PhD, Florida State University, 1964
Howard Ochman, Professor
Biology Instruction Office
PhD, University of Rochester, 1984
Gustavo Ochoa, Specialist
Biology Instruction Office
MS, University of Texas at Austin, 2015
J T Oden, Professor
Cockrell Family Regents Chair in Engineering #2, Peter O’Donnell, Jr.
Centennial Chair in Computing Systems
Computer Science
Mathematics
PhD, Oklahoma State University Main Campus, 1962
Stella S Offner, Assistant Professor
Astronomy
PhD, University of California-Berkeley, 2009
Yousef Mazen Okasheh, Specialist
Chemistry
BS, University of Texas at Austin, 2016
Vicki Olubukola Oladoyin, Specialist
Chemistry
MS, Mississippi College, 2017
Abiodun Oluyomi, Clinical Assistant Professor
Human Ecology
PhD, University of Texas Health Science Center at Houston, 2011
Peter Onyisi, Assistant Professor
Physics
PhD, Cornell University, 2008
Matthew Orap, Specialist
Chemistry
BS, University of Texas at Austin, 2016
Raymond Lee Orbach, Professor
Physics
PhD, University of California-Berkeley, 1960
Sophia Alexandra Ortega, Specialist
Chemistry
BS, University of Texas at Austin, 2017
Karen L Ostlund, Lecturer
PhD, University of Minnesota-Twin Cities, 1983
Glen Otto, Clinical Professor
Biology Instruction Office
DVM, University of Minnesota-Twin Cities, 1987
Sarah Danielle Ozuna, Specialist
Human Ecology
BS, University of Texas at Austin, 2013
Sonia Paban, Associate Professor
Physics
PhD, University of Barcelona, 1988
Bruce P Palka, Professor Emeritus
Mathematics
PhD, University of Michigan-Ann Arbor, 1972
Jose L Panero, Associate Professor
Biology Instruction Office
PhD, University of Tennessee, 1990
Diane Papillion, Lecturer
Human Ecology
MPH, University of North Carolina at Chapel Hill, 2001
Patrick H Parker, Specialist
Biology Instruction Office
BS, Augusta State University, 2005
Jonathan D Partridge, Lecturer
Biology Instruction Office
PhD, University of Sheffield, 2005
Stefania Patrizi, Assistant Professor
Mathematics
PhD, Universita degli Studi di Roma La Sapienza, 2010
Yale N Patt, Professor
Ernest Cockrell, Jr. Centennial Chair in Engineering
Computer Science
PhD, Stanford University, 1966
Kristin D Patterson, Lecturer
Biology Instruction Office
PhD, University of Texas at Austin, 1998
Tanya T Paull, Professor
Burl G. and Lorene L. Rogers Chair in Human Health
Molecular Biosciences
PhD, University of California-Los Angeles, 1996
Natasa Pavlovic, Professor
Mathematics
PhD, University of Illinois at Chicago, 2002
Shelley M Payne, Professor
Molecular Biosciences
PhD, Tex Hlth Sci C Dallas, U, 1977
Gergina Pencheva, Lecturer
Mathematics
PhD, University of Pittsburgh, Pittsburgh Campus, 2007
Timothy Perutz, Associate Professor
Computer Science
PhD, Swiss Federal Institute of Technology, 2012
Steven M Phelps, Associate Professor
Biology Instruction Office
PhD, University of Texas at Austin, 1999
Eric R Pianka, Professor
Denton A. Cooley Centennial Professorship in Zoology
Biology Instruction Office
PhD, University of Washington - Seattle, 1990
Jonathan T Pierce-Shimomura, Associate Professor
Neuroscience
PhD, University of Oregon, 2000
Keshav K Pingali, Professor
W. A. "Tex" Moncrief, Jr. Chair in Distributed and Grid Computing
Computer Science
ScD, Massachusetts Institute of Technology, 1986
C Greg Plaxton, Professor
Computer Science
PhD, Stanford University, 1989
Martin Poenie, Associate Professor
Molecular Biosciences
PhD, Stanford University, 1986
Luis R Polanco, Specialist
Chemistry
MA, University of Texas at Austin, 2017
George D Pollak, Professor
Neuroscience
PhD, University of Maryland College Park, 1970
Mark T Pope, Lecturer
Human Ecology
PhD, University of Texas at Austin, 2011
Bruce W Porter, Professor
Computer Science
PhD, University of California-Irvine, 1984
Andrew Potter, Assistant Professor
Physics
PhD, Massachusetts Institute of Technology, 2013
Natalie Shepherd Poulos, Lecturer
Human Ecology
PhD, University of Texas at Austin, 2015
Pamela G Powell, Clinical Associate Professor
MEd, University of Texas at Austin, 1993
William H Press, Professor
Warren J. and Viola Mae Raymer Chair, Leslie Surginer Endowed Professorship
Biology Instruction Office
Computer Science
PhD, California Institute of Technology, 1972
Alison R Preston, Associate Professor
Neuroscience
PhD, Stanford University, 2004
Eric Price, Assistant Professor
Computer Science
PhD, Massachusetts Institute of Technology, 2013
Melinda Price, Adjunct Assistant Professor
Computer Science
BS, University of Texas at Austin, 1993
Nicholas J Priebe, Associate Professor
Neuroscience
PhD, University of California-San Francisco, 2001
Chris Prosise, Adjunct Assistant Professor
Computer Science
BSEE, Duke University, 1994
Hong Qiao, Assistant Professor
Molecular Biosciences
PhD, Chinese Academy of Sciences, 2004
Lili Qiu, Professor
Computer Science
PhD, Cornell University, 2001
Emily Que, Assistant Professor
Chemistry
PhD, University of California-Berkeley, 2009
Heather M Quimby, Lecturer
Human Ecology
PhD, Fielding Graduate Institute, 2016
Charles L Radin, Professor
Mathematics
PhD, University of Rochester, 1971
Saydur Rahman, Adjunct Professor
Marine Science
PhD, Univ of the Ryukyus, 2001
Mark G Raizen, Professor
Sid W. Richardson Foundation Regents Chair in Physics #2
Physics
PhD, University of Texas at Austin, 1989
Vijaya Ramachandran, Professor
William B. Blakemore II Regents Professorship in Computer Sciences
Computer Science
PhD, Princeton University, 1983
Michael W Raney, Lecturer
PhD, University of Texas at Austin, 1991
Mary A Rankin, Professor Emeritus
Biology Instruction Office
PhD, University of Iowa, 1972
Joanne M Ravel, Professor Emeritus
Chemistry
PhD, University of Texas at Austin, 1954
Megan C Regnier, Adjunct/Clinical Affiliate
PsyD, Florida State University, 2009
Linda E Reichl, Professor
Physics
PhD, University of Denver, 1969
Jan S Rellermeyer, Adjunct Assistant Professor
Computer Science
PhD, Swiss Federal Institute of Technology, 2011
Han Ren, Lecturer
Human Ecology
PhD, University of Texas at Austin, 2015
Kui Ren, Associate Professor
Mathematics
PhD, Columbia University in the City of New York, 2006
Alessandro Rezende De Macedo, Specialist
Mathematics
PhD, University of Texas at Austin, 2017
Phyllis L Richards, Professor Emeritus
Human Ecology
PhD, Florida State University, 1964
Dick Richardson, Professor Emeritus
Biology Instruction Office
PhD, North Carolina State University, 1965
Judit G Ries, Lecturer
Astronomy
PhD, University of Texas at Austin, 1992
Peter J Riley, Professor Emeritus
Physics
PhD, University of Alberta, 1962
Jack L Ritchie, Professor
Physics
PhD, University of Rochester, 1984
Paul Anthony Robbins, Lecturer
PhD, University of Texas at Austin, 2015
Sean Thomas Roberts, Assistant Professor
Chemistry
PhD, Massachusetts Institute of Technology, 2009
Jon D Robertus, Professor Emeritus
Molecular Biosciences
PhD, University of California-San Diego, 1972
Catherine J Robinson, Specialist
Human Ecology
MEd, Texas State University-San Marcos, 2011
Edward L Robinson, Professor
William B. Blakemore II Regents Professorship in Astronomy
Astronomy
PhD, University of Texas at Austin, 1973
Altha B Rodin, Senior Lecturer
Mathematics
PhD, University of Texas at Austin, 1988
Shelly R Rodriguez, Clinical Associate Professor
MA, University of Texas at Austin, 2003
Michael Rose, Assistant Professor
Chemistry
PhD, University of California-Santa Cruz, 2009
Haskell P Rosenthal, Professor Emeritus
Mathematics
PhD, Stanford University, 1965
Christopher J Rossbach, Assistant Professor
Computer Science
PhD, University of Texas at Austin, 2009
Stanley J Roux Jr, Professor
Molecular Biosciences
PhD, Yale University, 1971
David Rusin, Lecturer
Mathematics
PhD, University of Chicago, 1984
Rick Russell, Professor
Molecular Biosciences
PhD, Johns Hopkins University, 1998
Stephen Thomas Russell, Professor
Priscilla Pond Flawn Regents Professorship in Child Development
Human Ecology
PhD, Duke University, 1994
Michael J Ryan, Professor
Clark Hubbs Regents Professorship in Zoology
Biology Instruction Office
PhD, Cornell University, 1982
Holly S Ryon, Lecturer
Human Ecology
PhD, University of Texas at Austin, 2014
Lorenzo A Sadun, Professor
Mathematics
PhD, University of California-Berkeley, 1987
Cynthia Saldivar Fitchpatrick, Lecturer
Human Ecology
MEd, University of Texas at Austin, 1996
David J Saltman, Professor Emeritus
Molecular Biosciences
PhD, Pennsylvania State University Park, 1961
Krishnakali Sarkar, Specialist
Biology Instruction Office
PhD, University of Texas at Austin, 2014
Sahotra Sarkar, Professor
Mathematics
PhD, University of Texas at Austin, 2011
Kanta Sathasivan, Senior Lecturer
Biology Instruction Office
PhD, Louisiana State University and Agricultural and Mechanical College, 1991
Kanthishwani Sathasivan, Lecturer
Mathematics
PhD, University of Texas at Austin, 2011
Jennette Saunders, Specialist
Chemistry
BS, University of Texas at Austin, 2016
Inder M Saxena, Lecturer
Biology Instruction Office
PhD, Jawaharlal Nehru University, 1984
Pratibha Saxena, Lecturer
Biology Instruction Office
PhD, Jawaharlal Nehru University, 1983
John M Scalo, Professor
Astronomy
PhD, University of California-Los Angeles, 1973
Livia Schiavinato Eberlin, Assistant Professor
Chemistry
PhD, Purdue University Main Campus, 2012
William C Schieve, Professor Emeritus
Physics
PhD, Lehigh University, 1959
Benjamin Schmidt, Instructor
Mathematics
PhD, Ohio State U Main Campus, 2016

Evelyn M Schultz, Lecturer
Mathematics
MA, Duke University, 1972

William Schwartz, Professor
Biology Instruction Office
MD, University of California-San Francisco, 1974

Roy F Schwitters, Professor
Sid W. Richardson Foundation Regents Chair in Physics #4
Physics
PhD, Massachusetts Institute of Technology, 1971

Michael D Scott, Distinguished Senior Lecturer
Computer Science
MS, Rensselaer Polytechnic Institute, 1998

Eyal Seidemann, Professor
Neuroscience
PhD, Stanford University, 1998

Robert M Seitsinger, Adjunct Assistant Professor
Computer Science
MS, Boston University, 1998

Eric Senning, Assistant Professor
Neuroscience
PhD, University of Oregon, 2009

Jonathan L Sessler, Professor
R. P. Doherty, Jr. - Welch Regents Chair in Chemistry
Chemistry
PhD, Stanford University, 1982

Shagufta H Shabbir, Lecturer
Chemistry
PhD, University of Texas at Austin, 2009

Paul R Shapiro, Professor
Frank N. Edmonds, Jr. Regents Professorship in Astronomy
Astronomy
PhD, Harvard University, 1978

Jason B Shear, Professor
Chemistry
PhD, Stanford University, 1994

Ruth I Shear
Chemistry
PhD, Griffith University, 1991

Yunyi Shen, Lecturer
Mathematics
PhD, Florida State University, 2017

Jian Sheng, Adjunct Associate Professor
Marine Science
PhD, Johns Hopkins University, 2006

Chih-Kang Shih, Professor
Dr. Arnold Romberg Endowed Chair in Physics
Physics
PhD, Stanford University, 1988

Frank T Shirley, Lecturer
Mathematics
PhD, University of Texas at Austin, 1984

Ralph E Showalter, Professor Emeritus
Mathematics
PhD, University of Illinois at Urbana-Champaign, 1968

Gennady Shvets, Adjunct Professor
Physics
PhD, Massachusetts Institute of Technology, 1995

Beryl B Simpson, Professor Emeritus
Biology Instruction Office
PhD, Harvard University, 1968

Michael C Singer, Professor Emeritus
Biology Instruction Office
PhD, University of Oxford, 1971

Mihai Sirbu, Associate Professor
Mathematics
PhD, Carnegie Mellon University, 2004

Greg O Sitz, Professor
Physics
PhD, Stanford University, 1987

James Carter Smith, Specialist
Mathematics
BS, University of Texas at Austin, 2017

Christopher A Sneden, Professor
Rex G. Baker, Jr. and McDonald Observatory Centennial Research Professorship in Astronomy
Astronomy
PhD, University of Texas at Austin, 1974

D M Snodderly, Professor
Human Ecology
Neuroscience
PhD, Rockefeller University, 1969

Stacy C Sparks, Senior Lecturer
Chemistry
PhD, University of Texas at Austin, 1999

Emily E Spencer, Specialist
Human Ecology
BS, Texas A & M University, 2016

Hallie G Speranza, Senior Lecturer
Human Ecology
MA, University of Texas at Austin, 1991

John F Stanton, Adjunct Professor
Chemistry
PhD, Harvard University, 1989

Michael P Starbird, Professor
Mathematics
PhD, University of Wisconsin-Madison, 1974

Eric Joseph Staron, Lecturer
Mathematics
PhD, University of Texas at Austin, 2012

David S Stein, Professor
Molecular Biosciences
PhD, Stanford University, 1989
Lydia C Steinman, Adjunct/Clinical Affiliate
Human Ecology
Human Ecology
MA, University of Texas at Austin, 1987
Scott W Stevens, Associate Professor
Molecular Biosciences
PhD, University of North Carolina at Chapel Hill, 1996
Keith J Stevenson, Adjunct Professor
Joseph J. & Jeanne M. Lagowski Regents Professorship in Inorganic Chemistry
Chemistry
PhD, University of Utah, 1997
Shannon N Stokes, Lecturer
Chemistry
PhD, University of Texas at Austin, 2009
Peter H Stone, Professor
David Bruton, Jr. Centennial Professorship in Computer Sciences #3
Computer Science
PhD, Carnegie Mellon University, 1998
John Rudi Strickler, Adjunct Professor
Marine Science
PhD, Swiss Federal Institute of Technology, 1969
Thomas Struppeck, Lecturer
Mathematics
PhD, University of Texas at Austin, 1989
Sawyer Elizabeth Stubbs, Specialist
Biology Instruction Office
BS, University of Texas at Austin, 2017
George Sudarshan, Professor Emeritus
Physics
PhD, University of Rochester, 1958
Christopher S Sullivan, Associate Professor
Molecular Biosciences
PhD, University of Pittsburgh, Pittsburgh Campus, 2000
Sibum Sung, Associate Professor
Molecular Biosciences
PhD, University of Wisconsin-Madison, 2004
Catherine A Surra, Professor Emeritus
Human Ecology
PhD, Pennsylvania State University Main Campus, 1980
Sara J Sutcliffe, Lecturer
Chemistry
PhD, University of Texas at Austin, 2000
Harry E Sutton, Professor Emeritus
Molecular Biosciences
PhD, University of Texas at Austin, 1953
Sara J Sweitzer, Lecturer
Human Ecology
PhD, University of Texas at Austin, 2009
Jack B Swift, Professor Emeritus
Physics
PhD, University of Illinois at Urbana-Champaign, 1968
Harry L Swinney, Professor
Sid W. Richardson Foundation Regents Chair in Physics #3
Physics
PhD, Johns Hopkins University, 1968
Paul J Szaniszlo, Professor Emeritus
Molecular Biosciences
PhD, University of North Carolina at Chapel Hill, 1967
Thibaud Olivier Taillefumier, Assistant Professor
Mathematics
Neuroscience
PhD, Rockefeller University, 2012
Michael Tang, Specialist
Chemistry
BS, University of Texas at Austin, 2017
John T Tate, Professor Emeritus
Mathematics
PhD, Princeton University, 1950
Amelia J Tate-Looney, Specialist
Chemistry
BS, University of Texas at Austin, 2016
David W Taylor Jr, Assistant Professor
Molecular Biosciences
PhD, Yale University, 2013
Melissa Anne Taylor, Specialist
Chemistry
MEd, University of Texas at Austin, 2012
Richard A Taylor, Lecturer
Human Ecology
PhD, University of South Florida, 2003
Edward C Theriot, Professor
Jane and Roland Blumberg Centennial Professorship in Molecular Evolution
Biology Instruction Office
PhD, University of Michigan-Ann Arbor, 1983
Ann Thijs, Lecturer
Biology Instruction Office
PhD, University of Texas at Austin, 2014
Devarajan Thirumalai, Professor
Larry R. Faulkner Departmental Chair for Excellence in Chemistry and Biochemistry, Marvin K. Collie-Welch Regents Chair in Chemistry
Physics
PhD, University of Minnesota-Twin Cities, 1982
Melissa M Thomas, Lecturer
Biology Instruction Office
JD, University of Texas at Austin, 2005
Peter Thomas, Professor
H-E-B Endowed Chair in Marine Science
Biology Instruction Office
Marine Science
PhD, University of Texas at Austin, 1978
Guy Thompson, Professor Emeritus
Molecular Biosciences
PhD, California Institute of Technology, 1959
James C Thompson, Professor Emeritus
Physics
PhD, Rice University, 1956
Wesley J Thompson
Biology Instruction Office

PhD, University of California-Berkeley, 1975
Xiaochuan Tian, Instructor
Mathematics
PhD, Columbia University in the City of New York, 2017
Stefano Tiziani, Assistant Professor
Human Ecology
PhD, Ohio State U Main Campus, 2006
Zachary N Tobin, Specialist
Chemistry

BS, University of Texas at Austin, 2017
Paul K Toprac, Senior Lecturer
Computer Science

PhD, University of California-Berkeley, 2013
Sydney Tran, Specialist
Biology Instruction Office

BS, University of Texas at Austin, 2017
Philip U Treisman, Professor
Mathematics
PhD, University of California-Berkeley, 1985

Michael Stephen Trent
Biology Instruction Office
PhD, East Tennessee State University, 1998
Lauren Nicole Trotter, Specialist
Biology Instruction Office

BS, University of Texas at Austin, 2016
Thomas M Truskett, Professor
Bill L. Stanley Endowed Leadership Chair in Chemical Engineering, Les and Sherri Stuewer Endowed Professorship in Chemical Engineering

PhD, Princeton University, 2001
Yen-Hsi Tsai, Professor
Mathematics
PhD, University of California-Los Angeles, 2002

Kiryl Tsishchanka, Lecturer
Mathematics
PhD, The National Academy of Sciences of Belarus, 1998

Maxim Tsoi, Professor
Physics
PhD, Universitat Konstanz, 1998

Haley Tucker, Professor
Marie Betzner Morrow Centennial Chair
Molecular Biosciences
PhD, Texas A & M University, 1975

Billie L Turner, Professor Emeritus
Biology Instruction Office
PhD, Washington State University, 1953

Takeshi Udagawa, Professor Emeritus

Physicists
PhD, Univ of Tsukuba, 1962
Karen Uhlenbeck, Professor Emeritus
Mathematics
PhD, Brandeis University, 1968

Emin T Ulug, Senior Lecturer
Biology Instruction Office
PhD, University of Texas at Austin, 1984

Jason Upton, Assistant Professor
Molecular Biosciences
PhD, Washington University in St Louis, 2006

Jeffrey D Vaaler, Professor Emeritus
Mathematics
PhD, University of Illinois at Urbana-Champaign, 1974

Robert A Van De Geijn, Professor
Computer Science
PhD, University of Maryland University College, 1987

David A Vandenbout, Professor
Chemistry
PhD, University of Texas at Austin, 1995

Fatima Alesia Varner, Assistant Professor
Human Ecology
PhD, Northwestern University, 2010

Alexis F Vasseur, Professor
John T. Stuart III Centennial Professorship in Mathematics
Mathematics
PhD, Universite de Paris VI, Pierre et Marie Curie, 1999

Vijaychidambaram Velayudhan Pillai, Assistant Professor
Computer Science
PhD, University of Wisconsin Colleges, 2013

Laura Villafuerte Altuzar, Lecturer
Mathematics
PhD, Universidad Politecnica de Valencia, 2007

Tracy A Villareal, Professor
Marine Science
PhD, University of Rhode Island, 1989

Mikhail M Vishik, Professor
Mathematics
PhD, University of Moscow, 1980

Brittney Voigt, Specialist
Biology Instruction Office
BSArt, University of Texas at Austin, 2016

Steven A Vokes, Associate Professor
Molecular Biosciences
PhD, University of Texas at Austin, 2002

Paul E Vouga, Assistant Professor
Computer Science
PhD, Columbia University in the City of New York, 2011

James Wadman, Specialist
Chemistry
BS, University of Texas at Austin, 2014

Francois Waelbroeck, Research Professor (Affiliated)
Physics
PhD, University of Texas at Austin, 1988
Alisa H Walch, Lecturer
Mathematics
MA, University of Texas at Austin, 2008
Andrew Robert Waldeck, Specialist
Chemistry
PhD, University of Texas at Austin, 2016
Michael H Walfish, Adjunct Assistant Professor
Computer Science
PhD, Massachusetts Institute of Technology, 2008
Deborah R Walker, Lecturer
Chemistry
PhD, University of Texas at Austin, 2005
James R Walker, Professor
Molecular Biosciences
PhD, University of Texas at Austin, 1963
Stephen G Walker, Professor
Paul D. and Betty Robertson Meek and American Petrofina Foundation
Centennial Professorship in Business
Mathematics
PhD, Imperial College of Science, Technology and Medicine, University of London, 1995
John B Wallingford, Professor
William and Gwyn Shive Endowed Professorship
Molecular Biosciences
PhD, University of Texas at Austin, 1998
Dale E Walston, Associate Professor Emeritus
Mathematics
PhD, University of Texas at Austin, 1961
Benjamin D Walther, Adjunct Assistant Professor
Marine Science
PhD, Woods Hole Oceanographic Institution, 2007
Rachel A Ward, Associate Professor
Mathematics
PhD, Princeton University, 2009
Pamela J Way, Lecturer
Mathematics
PhD, University of Texas at Austin, 2002
Lauren J Webb, Associate Professor
Chemistry
PhD, California Institute of Technology, 2005
Stephen E Webber, Professor Emeritus
Chemistry
PhD, University of Chicago, 1965
Karen A Weems, Lecturer
MEd, University of Texas at Austin, 1989
Steven Weinberg, Professor
Jack S. Josey - Welch Foundation Chair in Science
Astronomy
Physics
PhD, Princeton University, 1957
Rush S Wells IV, Adjunct Professor
Biology Instruction Office
PhD, Harvard University, 1994
John C Wheeler, Professor
Samuel T. and Fern Yanagisawa Regents Professorship in Astronomy
Astronomy
PhD, University of Colorado at Boulder, 1969
Mary F Wheeler, Professor
Ernest and Virginia Cockrell Chair in Engineering
Mathematics
PhD, Rice University, 1971
Andrew B Whinston, Professor
Hugh Roy Cullen Centennial Chair in Business Administration
Computer Science
PhD, Carnegie Mellon University, 1962
Marvin Whiteley
Biology Instruction Office
PhD, University of Iowa, 2001
Diane J Whitmer, Adjunct Assistant Professor
Biology Instruction Office
PhD, University of California-San Diego, 2008
Alexander L Wild, Lecturer
Biology Instruction Office
PhD, University of California-Davis, 2005
Claus O Wilke, Professor
Biology Instruction Office
PhD, Ruhr-Universität Bochum, 1999
Robert F Williams, Professor Emeritus
Mathematics
PhD, University of Virginia (Old Code), 1954
Hannah Williamson, Assistant Professor
Human Ecology
PhD, University of California-Los Angeles, 2017
Richard A Willis, Professor Emeritus
Human Ecology
PhD, University of Oklahoma Health Sciences Center, 1979
Derek Wills, Professor Emeritus
Astronomy
PhD, University of Cambridge, 1966
Carlton G Willson, Professor
Rashid Engineering Regents Chair
Chemistry
PhD, University of California-Berkeley, 1974
Don Winget, Professor
Harlan J. Smith Centennial Professorship in Astronomy
Astronomy
PhD, University of Rochester, 1982
Emmett Witchel, Professor
Computer Science
PhD, Massachusetts Institute of Technology, 2004
Kristin D Wolesensky, Specialist
Mathematics
MS, University of Nebraska - Lincoln, 1990
William R Wolesensky, Lecturer
School of Nursing Faculty

The following faculty list represents those appointed in the 2018 spring semester.

Christine W Abbyad, Associate Professor of Clinical Nursing
PhD, University of Texas at Austin, 2008

Gayle J Acton, Associate Professor
PhD, University of Texas at Austin, 1993

Joy O Adeku, Instructor in Clinical Nursing
MSN, University of Texas at Austin, 2015

Larissa K Alberson, Instructor in Clinical Nursing
MSN, University of Texas at Austin, 2014

Marta Anderson, Instructor in Clinical Nursing
MSN, University of Phoenix - Phoenix, 2005

Jessica Lee Barr, Instructor in Clinical Nursing
MSN, University of Texas at Austin, 2016

John E Bellquist, Communications Professional (Part-Time)
PhD, University of California-Berkeley, 1980

Mary M Benham-Hutchins, Assistant Professor
PhD, University of Arizona, 2008

Adam Blank, Instructor in Clinical Nursing
MSN, University of Texas at Austin, 2015

Eliezer Bose, Assistant Professor
PhD, University of Pittsburgh, Pittsburgh Campus, 2015

Billye J Brown, Professor Emeritus
EdD, Baylor University, 1975

Richard A Brown, Research Professor
PhD, University of Oregon, 1981

Patricia A Carter, Associate Professor
PhD, University of California-Los Angeles, 1999

Sharon L Carter, Instructor in Clinical Nursing
MS, Ball State University, 2011

Jane Dimmitt Champion, Professor
Lee and Joseph D. Jamail Endowed Professorship in Nursing
PhD, University of Texas Health Science Center at San Antonio, 1994
Brittany Paige Christiansen, Assistant Professor of Clinical Nursing

DNP, University of Texas at Austin, 2017
Angela P Clark, Associate Professor Emeritus

PhD, Texas Woman’s University - Denton, 1983
Nola E Cottom, Instructor in Clinical Nursing

MSN, University of Texas at Austin, 1977
Heather E Cuevas, Assistant Professor of Clinical Nursing

PhD, University of Texas at Austin, 2013
Valerie Danesh, Assistant Professor

PhD, University of Central Florida, 2015
Carol L Delville, Assistant Professor of Clinical Nursing

PhD, University of Texas at Austin, 2008
Christine A Divin, Assistant Professor of Clinical Nursing

PhD, University of Texas at Austin, 2015
Danielle Duquette, Instructor in Clinical Nursing

MSN, Frontier School of Midwifery & Family Nursing, 2016
Carly E Edgar, Instructor in Clinical Nursing

MSN, Texas Woman’s University - Denton, 2006
Helen L Erickson, Professor Emeritus

PhD, University of Michigan-Ann Arbor, 1984
Alexandra A Garcia, Associate Professor

PhD, University of Texas at Austin, 2002
Carol D Gaskamp, Associate Professor of Clinical Nursing

PhD, University of Kansas Main Campus, 2000
Leigh A Goldstein, Assistant Professor of Clinical Nursing

PhD, University of Texas at Austin, 2013
Susan J Grobe, Professor Emeritus

PhD, University of Colorado at Boulder, 1977
Nancy M Guillet, Instructor in Clinical Nursing

MSN, University of Texas at Austin, 2011
Tatiana Gustafson, Instructor in Clinical Nursing

MSN, University of Texas at Austin, 2007
Lorraine C Haertel, Assistant Professor of Clinical Nursing

PhD, University of Texas at Austin, 1985
Beverly A Hall, Professor Emeritus

PhD, University of Colorado at Boulder, 1974
Patricia Lee Hamilton-Solum, Assistant Professor of Clinical Nursing

PhD, University of Texas at Austin, 2011
Tracie C Harrison, Professor

PhD, University of Texas at Austin, 2004
Sherry G Hendrickson, Associate Professor of Clinical Nursing

PhD, University of Texas at Austin, 2000
Jennifer Hensley, Associate Professor of Clinical Nursing

EdD, University of Southern California, 1996
Janice F Hernandez, Instructor in Clinical Nursing

MSN, University of Texas at Austin, 2009
April Alonzo Herrera, Instructor in Clinical Nursing

MSN, University of Texas at Austin, 2012
Amy R Holland, Instructor in Clinical Nursing

MSN, University of Texas at Austin, 2007
Sharon D Homer, Professor

Dolores V. Sands Chair in Nursing Research
PhD, Medical College of Georgia, 1992
Shalonda E Horton, Assistant Professor of Clinical Nursing

PhD, University of Texas at Austin, 2015
Sheryl A Innerarity, Associate Professor of Clinical Nursing

PhD, Texas Woman’s University - Denton, 1987
Karen Johnson, Assistant Professor

PhD, University of Minnesota-Twin Cities, 2012
Glenda L Joiner-Rogers, Assistant Professor of Clinical Nursing

PhD, University of Texas at Austin, 1988
Stephanie M Key, Instructor in Clinical Nursing

MA, University of Texas at Austin, 1999
Latashia V Kiel, Instructor in Clinical Nursing

PhD, University of Texas at Austin, 2009
Miyong Kim, Professor

La Quinta Motor Inns, Inc. Centennial Professorship in Nursing
PhD, University of Arizona, 1996
Jung Kwak, Associate Professor

PhD, University of South Florida, 2006
Li-Chen Lin, Assistant Professor of Clinical Nursing

PhD, University of Texas at Austin, 2009
Elizabeth Ann Loika, Associate Professor of Clinical Nursing

DNP Vanderbilt University, 2011
Jessica Elizabeth Meinhardt-Salazar, Instructor in Clinical Nursing

MSN, University of Texas at Austin, 2011
Martha G Meraviglia, Associate Professor of Clinical Nursing

PhD, University of Texas at Austin, 2001
Stephanie Morgan, Professor of Clinical Nursing

PhD, University of Texas at Austin, 2013
Laura E Murphy, Instructor in Clinical Nursing

MSN, University of Texas at Austin, 2009
Jennifer J Murray-Chavez, Instructor in Clinical Nursing

PhD, University of Texas at Austin, 2008
Marnie Otto, Assistant Professor

PhD, University of Pittsburgh, Pittsburgh Campus, 2016
Janice F Hernandez, Instructor in Clinical Nursing

PhD, Case Western Reserve University, 1976
Kavita Radhakrishnan, Assistant Professor
PhD, University of Massachusetts, 2011
Donna L Rew, Professor
Denton and Louise Cooley and Family Centennial Professorship in Nursing
EdD, Northern Illinois University, 1979
Anna Rivera, Instructor in Clinical Nursing
MSN, University of Phoenix - Phoenix, 2006
Mary E Roche, Instructor in Clinical Nursing
MSN, University of Texas at Austin, 2012
Donna G Rolin, Assistant Professor of Clinical Nursing
PhD, New York University, 2012
Mary Kathryn Sanders, Assistant Professor of Clinical Nursing
DNP, Indiana Wesleyan University, 2015
Dolores Sands, Professor Emeritus
PhD, Arizona State University Main, 1979
Rosa N Schnyer, Clinical Assistant Professor
DAOM, Oregon College of Oriental Medicine, 2008
Amber Nicole Sherman, Instructor in Clinical Nursing
MSN, University of Texas at Austin, 2016
Amnmarie Staats, Instructor in Clinical Nursing
MSN, Mercy College, 2006
Bobbie S Sterling, Assistant Professor of Clinical Nursing
PhD, University of Texas at Austin, 2001
Alexa M Stuifbergen, Professor
Laura Lee Blanton Chair in Nursing, James R. Dougherty, Jr. Centennial Professorship in Nursing
PhD, University of Texas at Austin, 1988
Lisa L Sumlin, Assistant Professor of Clinical Nursing
PhD, University of Texas at Austin, 2014
Danica Fulbright Sumpter, Assistant Professor of Clinical Nursing
PhD, University of Pennsylvania, 2009
Laura M Swarts, Instructor in Clinical Nursing
MSN, University of Texas at Austin, 2012
Jean C Taxis, Associate Professor of Clinical Nursing
PhD, University of Texas at Austin, 2003
Gayle M Timmerman, Associate Professor
PhD, Ohio State U Main Campus, 1994
Ana T Todd, Assistant Professor of Clinical Nursing
PhD, University of Texas at Austin, 2013
Mary Tuttle
DNP,Fairfield University, 2013
Deborah L Volker, Associate Professor Emeritus
PhD, University of Texas at Austin, 1999
Mary K Wakefield, Visiting Professor
PhD, University of Texas at Austin, 1985
Lorraine O Walker, Professor
Luci B. Johnson Centennial Professorship in Nursing
EdD, Indiana University at Bloomington, 1971
Veronica Garcia Walker, Assistant Professor of Clinical Nursing
PhD, University of Texas at Austin, 2014
Charlotte K Wilson, Instructor in Clinical Nursing
MSN, Texas Woman's University - Houston, 1988
Darlene M Wilson, Instructor in Clinical Nursing
MSN, University of Texas at Austin, 1998
Bo Xie, Associate Professor
PhD, Rensselaer Polytechnic Institute, 2006
Linda H Yoder, Associate Professor
PhD, University of Pennsylvania, 1992
Cara Young, Assistant Professor
PhD, Vanderbilt University, 2010
Julie A Zuniga, Assistant Professor
PhD, University of Texas at Austin, 2013

College of Pharmacy Faculty
The following faculty list represents those appointed in the 2018 spring semester.

Daniel Acosta Jr, Adjunct Professor
PhD, University of Kansas Main Campus, 1974
Wyanza R Acosta, Clinical Professor
MS, University of Texas at Austin, 1998
Selina M Aguilar, Clinical Assistant Professor
PharmD, University of Texas at Austin, 2008
Lydia Aguilera, Adjunct Assistant Professor
PharmD, University of Florida, 2008
Jon T Albrecht, Clinical Assistant Professor
BS, Auburn University, 1982
Linda S Albrecht, Clinical Assistant Professor
MBA, University of Texas at Arlington, 1990
Angela A Allerman, Clinical Assistant Professor
PharmD, University of Texas at Austin, 1991
Ogechika K Alozie, Adjunct Assistant Professor
MS, University of Minnesota-Twin Cities, 2010
Analiza Amaya-Diaz, Clinical Assistant Professor
PharmD, Texas Southern University, 1994
Sharmin Amjad, Instructor in Clinical Pharmacy
PharmD, Long Is U Brooklyn C Phar, 2016
Sweta Andrews, Adjunct Assistant Professor
PharmD, The University of Findlay, 2014
Gordon Ang, Instructor in Clinical Pharmacy
PharmD, Texas A&M University-Kingsville, 2017
Vicente Aparicio, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2016
Grant W Armstrong, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2007
Jasmin Badwal, Instructor in Clinical Pharmacy
PharmD, Wayne State University, 2017
Alexis L Balko, Clinical Instructor
PharmD, University of Texas at Austin, 2006

Jamie C Barner, Professor
Clifford L. Klinck, Jr., Centennial Professorship in Pharmacy Administration
PhD, Purdue University Main Campus, 1998

James N Barnes, Clinical Assistant Professor
PharmD, University of Texas at Austin, 2005

Colleen A Barthol, Adjunct Assistant Professor
PharmD, University of Missouri - Kansas City, 1998

Maryam Bayat, Clinical Assistant Professor
PharmD, Texas Southern University, 1994

Oralia V Bazaldua, Clinical Assistant Professor
PharmD, University of Oklahoma Health Sciences Center, 1996

William Benefield Jr, Clinical Assistant Professor
PharmD, University of Texas at Austin, 1991

Jacob Ferguson Beyer, Instructor in Clinical Pharmacy
PharmD, Saint Louis College of Pharmacy, 2016

Heather Payton Blacksmith, Adjunct Assistant Professor
PharmD, Saint Louis College of Pharmacy, 2010

Roland A Bodmeier, Adjunct Associate Professor
PhD, University of Texas at Austin, 1986

Douglas J Borys, Clinical Assistant Professor
PharmD, Shenandoah University, 2004

Phillip D Bowman, Adjunct Assistant Professor
PhD, University of California-Santa Cruz, 1975

Rebecca L Brady, Clinical Instructor
PharmD, University of Texas at Austin, 2006

Steven Jeffrey Braun, Instructor in Clinical Pharmacy
PharmD, University of Texas at Austin, 2016

Fred S Brinkley, Lecturer
MBA, University of Texas at Austin, 1983

Carolyn M Brown, Professor
PhD, University of Florida, 1994

Barry A Browne, Clinical Associate Professor
PharmD, University of Texas at Austin, 1987

Aaron R Buchan, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2001

Donna M Burkett, Clinical Associate Professor
MS, University of Texas at Austin, 2000

Richard M Cadle
PharmD, University of the Pacific, 1983

Angela Hughes Campbell, Clinical Instructor
PharmD, University of Texas at Austin, 2005

Todd W Canada, Clinical Assistant Professor
PharmD, University of Texas at Austin, 1993

Amy Carr, Instructor in Clinical Pharmacy
PharmD, University of Florida, 2016

Jongwha Chang, Adjunct Assistant Professor
PhD, University of Michigan-Ann Arbor, 2012

Ashley N Chasse, Adjunct Assistant Professor
PharmD, University of Oklahoma Health Sciences Center, 2013

Lydia D Chen
PharmD, University of California-San Francisco, 2013

Pinhui Chen, Instructor in Clinical Pharmacy
PharmD, University of Texas at Austin, 2017

Tina Chen, Instructor in Clinical Pharmacy
PharmD, Midwestern University (Illinois), 2017

Elaine Chiquette, Clinical Assistant Professor
PharmD, University of Texas at San Antonio, 1994

Emily Janel Christenberry, Adjunct Assistant Professor
PharmD, Butler University, 2014

Charlene A Church, Clinical Instructor
PharmD, University of Texas at Austin, 1996

Andrea L Coffee, Clinical Assistant Professor
PharmD, University of Texas at Austin, 1994

Claudia S Colombo, Adjunct Assistant Professor
PharmD, Saint Louis College of Pharmacy, 2002

Claudio J Conti, Adjunct Professor
PhD, University of Buenos Aires, 1983

Toby L Cooper, Clinical Assistant Professor
PharmD, Texas Tech University, 2001

Vicki S Crane, Clinical Assistant Professor
MBA, University of Dallas, 1989

David P Crews, Professor
PhD, Rutgers the State University of New Jersey Newark Campus, 1973

M Lynn Crismon, Professor
James T. Doluisio Regents Chair in Pharmacy, Behrens Inc. Centennial Professorship in Pharmacy, The Hoechst-Roussel Centennial Endowed Professorship in Pharmacy
PharmD, University of Texas at Austin, 1979

Barrett R Crowther, Adjunct Assistant Professor
PharmD, University of Wisconsin-Madison, 2009

Maria A Croyle, Professor
Glaxo Wellcome Inc. Endowed Professorship in Pharmacy
PhD, University of Michigan-Ann Arbor, 1997

Bianca Cruz, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2009

Zhengrong Cui, Professor
PhD, University of Kentucky, 2002

Nicole L Cupples, Adjunct Assistant Professor
PharmD, The University of Findlay, 2010

Molly F Curran, Clinical Assistant Professor
PharmD, University of Texas at Austin, 2014

Kevin N Dalby, Professor
Johnson & Johnson Centennial Professorship in Pharmacy
PhD, University of Cambridge, 1992

Divya M Daniel, Adjunct Assistant Professor
PharmD, University of Tennessee Health Science Center, 2014
Kori Daniels, Instructor in Clinical Pharmacy
PharmD, University of Mississippi, 2017

Renee K Danysh, Adjunct Assistant Professor
PharmD, University of Austin, 2006

James A Dasher, Clinical Assistant Professor
PharmD, University of Arkansas for Medical Sciences, 1996

Joseph F Dasta, Adjunct Professor
MS, Ohio State U Main Campus, 1976

Dewayne A Davidson, Clinical Assistant Professor
PharmD, University of Texas at Austin, 2012

Paige Davies, Instructor in Clinical Pharmacy
PharmD, University of Texas at Austin, 2017

Patrick J Davis, Professor
Eckerd Centennial Professorship in Pharmacy
PhD, University of Iowa, 1976

Jennifer Defilippi Faulkner, Adjunct Assistant Professor
PharmD, Rutgers the State University of New Jersey New Brunswick Campus, 1997

Elina Delgado, Instructor in Clinical Pharmacy
PharmD, University of the Incarnate Word, 2016

John Digiovanni, Professor
Coulter R. Sublett Chair in Pharmacy
PhD, University of Washington - Seattle, 1978

Monica Do, Instructor in Clinical Pharmacy
PharmD, University of Texas at Austin, 2017

Heather H Dobie, Adjunct Assistant Professor
PharmD, University of North Carolina at Chapel Hill, 1997

James T Doluisio, Professor Emeritus
PhD, Purdue University Main Campus, 1962

Juan M Dominguez, Associate Professor
PhD, State University of New York at Buffalo, 2002

Nicole Dominguez, Instructor in Clinical Pharmacy
PharmD, University of Texas at Austin, 2017

Erin Eileen Donovan, Associate Professor
PhD, University of Illinois at Urbana-Champaign, 2008

Eric C Dougherty, Clinical Assistant Professor
PharmD, University of Texas at Austin, 2004

Staci Lynn Dufrene, Adjunct Assistant Professor
PharmD, Albany College of Pharmacy of Union University, 2007

Bryson M Duhon, Clinical Assistant Professor
PharmD, University of Texas at Austin, 2011

Christine L Duvachelle, Associate Professor
PhD, University of California-Santa Barbara, 1991

Kathryn E Dzintars, Adjunct Assistant Professor
PharmD, University of Pittsburgh, Pittsburgh Campus, 2003

Kelly L Echevarria, Clinical Assistant Professor
PharmD, Creighton University, 1997

Hannah Ehrenfeld, Instructor in Clinical Pharmacy
PharmD, Texas A&M University-Kingsville, 2017

Carlton K Erickson, Professor
Pfizer Centennial Professorship in Pharmacy
PhD, Purdue University Main Campus, 1965

Richard R Espinosa, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2001

Martha Frances Evans, Instructor in Clinical Pharmacy
PharmD, University of Texas at Austin, 2017

Kirk E Evoy, Clinical Assistant Professor
PharmD, Purdue University Main Campus, 2013

Lisa E Farnett, Clinical Assistant Professor
PharmD, University of Texas Health Science Center at San Antonio, 1988

Lane Burton Farrell, Adjunct Assistant Professor
PharmD, University of Kansas Main Campus, 2014

Walter L Fast, Professor
PhD, Northwestern University, 1998

Silvia Ferrati
PhD, University of Texas Health Science Center at Houston, 2012

Kristin R Fiebelkorn, Adjunct Associate Professor
MD, Johns Hopkins University, 1996

Jerry Fineg, Professor Emeritus
DVM, Texas A & M University, 1953

Susan M Fischer, Adjunct Professor
PhD, University of Wyoming, 1974

Laura K Fonken, Assistant Professor
PhD, The Ohio State University Main Campus, 2013

Kentya C Ford, Assistant Professor
DPh, University of Texas Health Science Center at Houston, 2005

Cynthia A Foslien, Clinical Assistant Professor
PharmD, University of Nebraska Medical Center, 1985

Ana C Franco, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2007

Alan Frazer, Adjunct Professor
PhD, Peninsula College, 1969

Shaneka Frazer, Instructor in Clinical Pharmacy
PharmD, Temple University, 2017

Christopher R Frei, Associate Professor
PharmD, University of Texas at Austin, 2001

Sarah Fry, Instructor in Clinical Pharmacy
PharmD, Creighton University, 2017

Conrado D Gamboa, Adjunct Assistant Professor
BS, University of Texas at Austin, 1985

Anita A Garcia, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2002

David B Garcia, Adjunct Professor
PhD, University of Texas at Austin, 1977

Lindsey Garner, Instructor in Clinical Pharmacy
PharmD, Drake University, 2016
Aida A Garza, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2007

Anysa S Garza, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2011

Gavino A Garza, Clinical Instructor
BS, University of Houston, 1981

Javier R Garza, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2012

Monica Alejandra Garza, Instructor in Clinical Pharmacy
PharmD, University of Texas at Austin, 2017

Michael J Gass, Adjunct Assistant Professor
PharmD, Midwestern University (Arizona), 2007

Debadyuti Ghosh, Assistant Professor
PhD, Rice University, 2006

Diane B Ginsburg, Clinical Professor
MS, University of Houston, 1990

Nishi S Goel, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2008

Rueben A Gonzales, Professor
Jacques P. Servier Regents Professorship in Pharmacy
PhD, University of Texas at Austin, 1983

Carrie E Gonzalez, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2008

F Gonzalez-Lima, Professor
George I. Sanchez Centennial Professorship in Liberal Arts
PhD, University of Pr Medical Sciences, 1980

Andrea C Gore, Professor
Mildred Hajek Vacek and John Roman Vacek Chair in Pharmacology, in Honor of Professor C. C. Albers
PhD, University of Wisconsin-Madison, 1990

Stephen J Gore, Adjunct Assistant Professor
PharmD, University of Oklahoma Norman Campus, 1996

Robert L Grant, Adjunct Assistant Professor
PhD, University of Texas at Austin, 1995

Belinda K Green, Adjunct Assistant Professor
BS, University of Texas at Austin, 1990

Catlin Lee Grisham-Takac, Adjunct Assistant Professor
PharmD, Texas Tech University, 2015

Karolina M Grzesiak, Instructor in Clinical Pharmacy
PharmD, Purdue University Main Campus, 2017

Veronica I Guerra, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2011

Thomas D Guidry, Clinical Assistant Professor
PharmD, University of Texas at Austin, 1982

Nancy M Guillet
MSN, University of Texas at Austin, 2011

Tyler Harris Gums, Assistant Professor
PharmD, University of Florida, 2012

Cynthia A Gutierrez, Clinical Assistant Professor
PharmD, University of Texas at Austin, 2001

Catherine S Hall, Clinical Assistant Professor
PharmD, University of Texas at Austin, 1999

Reed C Hall, Adjunct Assistant Professor
PharmD, Midwestern University (Arizona), 2007

Sarah Hallowell, Instructor in Clinical Pharmacy
PharmD, University of Texas at Austin, 2017

Elizabeth Oates Hand
PharmD, University of Texas at Austin, 2010

Sarah R Hardt, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2012

Kristi L Hargrove, Instructor in Clinical Pharmacy
PharmD, University of Washington - Seattle, 2017

R A Harris, Professor
M. June and J. Virgil Waggoner Chair in Molecular Biology
PhD, University of North Carolina at Chapel Hill, 1973

Sarah Hayes, Instructor in Clinical Pharmacy
PharmD, University of Missouri - Kansas City, 2017

Matthew Herpin, Lecturer
PhD, University of Texas at Austin, 2015

Lydia A Herrera, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2000

Jon D Herrington, Adjunct Associate Professor
PharmD, Saint Louis College of Pharmacy, 1992

Russell A Higgins, Adjunct Assistant Professor
MD, University of New Mexico Main Campus, 2002

Lucas Grant Hill, Clinical Assistant Professor
PharmD, University of Missouri - Kansas City, 2013

Apryl J Hinds, Adjunct Assistant Professor
PharmD, University of Arkansas for Medical Sciences, 2013

Tuyen K Ho, Clinical Assistant Professor
PharmD, University of Texas at Austin, 2002

Prudence O Hofmann, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2008

Eugene PHolder, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 1994

Collin A Hovinga, Clinical Associate Professor
PharmD, Creighton University, 1997

John Huang, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2003

Darrel W Hughes, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2006

Barry L Hull, Clinical Assistant Professor
PharmD, University of Southern California, 1983

Pamela Ijeoma, Instructor in Clinical Pharmacy
PharmD, Florida Agricultural and Mechanical University, 2016
Susana James, Adjunct Assistant Professor
MFA, University of Texas at El Paso, 1998

Theresa J Corona, Clinical Assistant Professor
PharmD, University of Texas at Austin, 2001

David G Johnson, Adjunct Associate Professor
PhD, University of Texas Southwestern Medical Center at Dallas, 1991

Melissa A Johnson, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 1997

Vivian B Johnson, Clinical Assistant Professor
PhD, Mercer U Sthn School Phar, 1983

Jason R Jokerst, Adjunct Assistant Professor
PharmD, University of Nebraska Medical Center, 2005

David J Jones, Adjunct Professor
PharmD, University of Texas Health Science Center at San Antonio, 1974

Sharon A Jung, Clinical Assistant Professor
PharmD, University of Texas Health Science Center at San Antonio, 1995

James A Karboski, Clinical Professor
PharmD, University of Texas at San Antonio, 1988

Dean L Kellogg, Adjunct Professor
PhD, University of Texas Health Science Center at San Antonio, 1989

Priyanka Kelshikar
PharmD, University of the Sciences in Philadelphia, 2016

Monte A Kenaston, Adjunct Assistant Professor
PhD, University of Texas at Austin, 2010

Sean M Kerwin, Adjunct Associate Professor
PhD, University of California-Berkeley, 1989

Dawit Kidane-Mulat, Assistant Professor
PhD, Albert Ludwig University Freiburg im Breisgau, 2005

Marcia L Kiger, Clinical Instructor
BS, University of Texas at Austin, 1982

Elisabeth Lapp Kincaide, Instructor in Clinical Pharmacy
PharmD, University of the Incarnate Word, 2016

Kristina J Klein-Bradham, Clinical Assistant Professor
PharmD, University of Texas at Austin, 2004

Jodi M Klocek, Clinical Assistant Professor
PharmD, University of Mississippi, 1996

Jim M Koeller, Professor
MS, University of Wisconsin-Madison, 1980

John G Kuhn, Professor Emeritus
PharmD, University of Texas Health Science Center at San Antonio, 1977

Sydney Kutter, Instructor in Clinical Pharmacy
PharmD, Texas Tech University Health Sciences Center, 2017

Phillip H Lai, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2007

Yui-Wing F Lam, Clinical Associate Professor
PharmD, University of Minnesota-Twin Cities, 1984

Kenneth A Lawson, Professor
Smithkline Centennial Professorship in Pharmacy

PhD, University of Texas at Austin, 1992

William Lawson, Professor
MD, University of Chicago, 1978

Grace Choi Lee, Assistant Professor
PhD, University of Texas at Austin, 2016

Leon Lee III, Clinical Assistant Professor
PharmD, University of Kentucky, 1996

Seongmin Lee, Associate Professor
PhD, Purdue University Main Campus, 2004

Steven W Leslie, Professor
James E. Bauerle Centennial Professorship in Drug Dynamics
PhD, Purdue University Main Campus, 1974

Mitchell R Lestico, Clinical Assistant Professor
PharmD, University of Wisconsin-Madison, 1992

Melissa R Lewis, Adjunct Assistant Professor
PharmD, University of New Mexico Main Campus, 2007

Sara Jean Linedecker, Adjunct Assistant Professor
PharmD, Purdue University Main Campus, 2013

Justina Lipscomb, Instructor in Clinical Pharmacy
PharmD, Roseman University of Health Sciences, 2012

John H Littlefield, Clinical Assistant Professor
PhD, University of Texas at Austin, 1975

Louis C Littlefield, Professor Emeritus
PharmD, University of Southern California, 1967

Hung-Wen Liu, Professor
George H. Hitchings Regents Chair in Drug Design
PhD, Columbia University in the City of New York, 1981

Debra A Lopez, Adjunct Professor
PharmD, University of Texas at Austin, 1999

Amanda M Loya, Clinical Associate Professor
PharmD, University of Texas at Austin, 2003

Charlotte A Luebbert, Clinical Assistant Professor
PharmD, Creighton University, 1995

Liliana Lunares, Adjunct Assistant Professor
PharmD, Roseman University of Health Sciences, 2015

Cindy Luu, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2008

Dao Cam Ly, Instructor in Clinical Pharmacy
PharmD, University of Houston, 2017

Michael C Macleod, Adjunct Professor
PhD, University of Oregon, 1974

Michela Marinelli, Associate Professor
PhD, Universite Victor Segalen, Bordeaux II, 1997

Emory S Martin III, Clinical Assistant Professor
PharmD, University of California-San Francisco, 1984

Brian Masek, Adjunct Professor
PhD, California Institute of Technology, 1987

Pamela R Maxwell, Clinical Assistant Professor
PharmD, University of Texas at Austin, 1994
Theresa A Mays Hutchings, Clinical Assistant Professor
PharmD, University of Oklahoma Health Sciences Center, 1994
James W McGinity, Professor Emeritus
PhD, University of Iowa, 1972
Megan A McKee, Adjunct Assistant Professor
PharmD, University of Arizona, 2008
Nicole L McMaster, Clinical Assistant Professor
PharmD, University of Missouri - Kansas City, 2002
Laura Meadow, Instructor in Clinical Pharmacy
PharmD, University of Iowa, 2017
Mina Mehvar, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2010
Kelsey Melloy, Instructor in Clinical Pharmacy
PharmD, University of North Carolina at Chapel Hill, 2017
George Melnik, Clinical Associate Professor
PharmD, University of the Sciences in Philadelphia, 1986
April A Messett, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2007
Robert Messing, Professor
MD, Stanford University, 1979
Lisa M Mican, Clinical Assistant Professor
PharmD, University of Texas at Austin, 2000
S J Mihic, Associate Professor
PhD, University of Toronto, 1992
Arika M Mike, Instructor in Clinical Pharmacy
PharmD, University of New Mexico Main Campus, 2016
Edward M Mills, Associate Professor
PhD, Purdue University Main Campus, 1997
Harsha Mistry, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2004
Leticia R Moczygema, Associate Professor
PhD, University of Texas at Austin, 2008
Deirdre M Monroe, Clinical Assistant Professor
PhD, University of Texas at Austin, 2003
Eugene Moore, Clinical Assistant Professor
PharmD, Southeastern University, 1992
Tera D Moore, Clinical Assistant Professor
PharmD, University of New Mexico Main Campus, 2003
Troy A Moore, Adjunct Assistant Professor
PharmD, University of New Mexico Main Campus, 2003
Rebecca D Moote, Clinical Associate Professor
PharmD, University of Texas at Austin, 2007
Vanessa Morales, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2004
Clarissa Moreno, Adjunct Assistant Professor
PharmD, Texas Tech University Health Sciences Center, 2003
Richard A Morrisett, Professor
PhD, University of Alabama at Birmingham, 1986
Michael Tanner Moser, Instructor in Clinical Pharmacy
PharmD, University of Texas at Austin, 2016
Somshuvra Mukhopadhyay, Assistant Professor
PhD, New York Medical College, 2008
Jacquelyn Padilla Navarrete, Clinical Assistant Professor
PharmD, University of Texas at Austin, 2009
Jordan D Nelson, Adjunct Assistant Professor
PharmD, Drake University, 2009
Jenny S Ngo, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2008
Thanh Hao T Ngo, Clinical Assistant Professor
PharmD, University of Oklahoma Health Sciences Center, 2003
An Nguyen, Instructor in Clinical Pharmacy
PharmD, University of Maryland Baltimore, 2017
Michelle V Nguyen, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2007
Suzanne Novak, Clinical Assistant Professor
PhD, University of Texas at Austin, 2005
Dannielle C O'Donnell, Clinical Assistant Professor
PharmD, Rutgers the State University of New Jersey Camden Campus, 1993
John T O'Neill, Adjunct Assistant Professor
Diploma (High School), 1951
Lauren Olsen, Instructor in Clinical Pharmacy
PharmD, University of North Texas Health Science Center at Fort Worth, 2017
Natalie Osagie, Adjunct Assistant Professor
PharmD, Texas Southern University, 2010
Ian W Pace, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 1999
Margie E Padilla, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2005
Neil C Pan, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2005
Deepali S Parikh, Adjunct Assistant Professor
PharmD, University of Pittsburgh, Pittsburgh Campus, 1999
Sarin Patel, Instructor in Clinical Pharmacy
PharmD, University of Pittsburgh, Pittsburgh Campus, 1999
Liza J Paul, Adjunct Assistant Professor
PharmD, University of Florida, 2004
Diana Paz, Adjunct Assistant Professor
PhD, University of Houston, 2009
Robert Pearlman, Professor Emeritus
PhD, University of Michigan-Ann Arbor, 1975
Amanda Marie Pena, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2011
Jodie L Pepin, Clinical Assistant Professor
PharmD, University of Texas at Austin, 2001
Nicholas A Peppas, Professor
Cockrell Family Regents Chair in Engineering #6
ScD, Massachusetts Institute of Technology, 1973

Isaac Perales, Instructor in Clinical Pharmacy
PharmD, University of Texas at Austin, 2017

Maria D Person, Adjunct Associate Professor
PhD, University of Chicago, 1991

Jay I Peters, Adjunct Professor
MD, Baylor College of Medicine, 1977

Patrick S Pevoto, Clinical Assistant Professor
MD, University of Texas Medical Branch, 1983

Tracie Phillips, Adjunct Assistant Professor
PhD, Texas A & M University, 2006

Cameron Pickard, Instructor in Clinical Pharmacy
PharmD, University of Texas at Austin, 2017

Denise Pinal, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2006

Robert N Pinckard, Adjunct Professor
PhD, University of Edinburgh, 1967

Igor Ponomarev, Research Assistant Professor (Affiliated)
PhD, Oregon Health and Science University, 2002

Nathan D Pope, Clinical Associate Professor
PharmD, Rutgers the State University of New Jersey New Brunswick Campus, 2002

Roger P Potyk, Clinical Assistant Professor
PhD, University of Texas at Austin, 1989

Gabriel J Quintanilla, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2002

Isidro Ramirez, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2003

Luis Ramirez, Instructor in Clinical Pharmacy
PharmD, Texas Tech University Health Sciences Center, 2017

Karen L Rascati, Professor
Stewart Turley/Eckerd Corporation Centennial Endowed Professorship in Pharmacy
PhD, University of Florida, 1986

Kristin C Reed, Adjunct Assistant Professor
PharmD, Auburn University, 2007

Ivan Alexander Reveles, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2010

Kelly Renee Reveles, Assistant Professor
PharmD, University of Texas at Austin, 2010

Ann L Richards, Clinical Assistant Professor
PharmD, University of Nebraska Medical Center, 1981

John H Richburg, Professor
Gustavus and Louise Pfeiffer Professorship in Toxicology
PhD, Rutgers the State University of New Jersey Camden Campus, 1993

Jennifer L Ridings-Myhra, Clinical Associate Professor
MEd, Western Governors University Texas, 2016

Jose O Rivera, Clinical Professor
PharmD, University of Kentucky, 1979

Rochelle Mendiola Roberts, Lecturer
PhD, University of Texas at Austin, 2008

Mauricio L Rodriguez, Adjunct Assistant Professor
PharmD, Texas Southern University, 2003

Ralph Rodriguez, Adjunct Assistant Professor
MS, University of Texas at San Antonio, 1988

Jordan Rohder, Instructor in Clinical Pharmacy
PharmD, Midwestern University (Illinois), 2015

Rebecca A Rottman, Clinical Assistant Professor
PharmD, University of Southern California, 2003

John W Rudder, Clinical Instructor
BS, University of Texas at Austin, 1983

Veronica C Rudder, Clinical Instructor
BD, University of Texas at Austin, 1983

Andres D Ruiz, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2008

Sarah Rumbellow, Instructor in Clinical Pharmacy
PharmD, University of Texas at Austin, 2017

Augustus J Rush, Adjunct Professor
MD, Columbia University in the City of New York, 1968

Sharon K Rush, Clinical Associate Professor
BS, University of Texas at Austin, 1986

Laura Ryan, Clinical Associate Professor
PharmD, University of Texas at Austin, 2000

Kyllie Rush-Hummel, Instructor in Clinical Pharmacy
PharmD, University of Texas at Austin, 2016

Paula Rychlik, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2005

Achinto Saha, Research Assistant Professor (Affiliated)
PhD, Tokushima Bunri University, 2010

Stephen R Saklad, Clinical Professor
PharmD, University of Southern California, 1978

Barbara E Salazar, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2013

Amista L Salcido, Clinical Assistant Professor
PharmD, University of Arizona, 1998

Adrian Sandoval Jr, Adjunct Assistant Professor
PharmD, Texas A & M University - Kingsville, 2012

Rahul M Sasane, Adjunct Assistant Professor
PhD, University of Texas at Austin, 1998

Jennifer K Seltzer, Clinical Associate Professor
PharmD, University of Texas Health Science Center at San Antonio, 1984

Thomas C Shank, Clinical Assistant Professor
PharmD, University of Tennessee Health Science Center, 1983

William P Sharp, Adjunct Assistant Professor
BS, University of Texas at Austin, 1976

Marvin D Shepherd, Professor Emeritus
PhD, Purdue University Main Campus, 1980

Jennifer Hyun Jung Shin, Instructor in Clinical Pharmacy
PharmD, Appalachian College of Pharmacy, 2016

Ashir Shumunov, Instructor in Clinical Pharmacy
PharmD, St John’s University, 2016

Jeri J Sias, Clinical Associate Professor
PharmD, University of Kansas Main Campus, 1998

Leslie R Simien, Adjunct Assistant Professor
PharmD, University of California-San Francisco, 2011

Julia Anne Sivinski, Clinical Instructor
PhD, University of Texas at Austin, 2002

Stephen Slubar, Instructor in Clinical Pharmacy
PharmD, Texas A & M University, 2017

Lucas Smedley, Instructor in Clinical Pharmacy
PharmD, Purdue University Main Campus, 2017

Ashley G Smith, Adjunct Assistant Professor
PharmD, University of Louisiana at Monroe, 2008

Josiah P Smith, Adjunct Assistant Professor
PharmD, Butler University, 2014

Hugh D Smyth, Associate Professor
PhD, University of Otago, 2000

Sara L Solis, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2011

Lisa H Song, Adjunct Assistant Professor
PharmD, University of North Carolina at Chapel Hill, 2011

Maaya Srinivasa, Adjunct Assistant Professor
PharmD, Texas A & M University - Kingsville, 2011

Mitzi A Stansberry, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2010

Casey Stauffer, Instructor in Clinical Pharmacy
PharmD, University of Texas at Austin, 2017

Salomon A Stavchansky, Professor
Alcon Centennial Professorship in Pharmacy
PhD, University of Kentucky, 1974

Daniel J Still, Clinical Assistant Professor
PharmD, Creighton University, 1993

Kristina Sucic, Adjunct Assistant Professor
PharmD, University of Pittsburgh, Pittsburgh Campus, 2012

Kimberly K Summers, Clinical Assistant Professor
PharmD, University of Missouri - Kansas City, 1995

Patricia A Tabor, Clinical Assistant Professor
PharmD, University of Texas at Austin, 1983

Sharla K Tajchman, Adjunct Assistant Professor
PharmD, Rutgers the State University of New Jersey Camden Campus, 2007

Robert L Talbert Jr, Professor Emeritus
PharmD, University of Kentucky, 1974

Dean G Tang, Adjunct Associate Professor
PhD, Wayne State University, 1994

Jodi L Taraba, Adjunct Assistant Professor
PharmD, Drake University, 2001

Yasar O Tasnif, Clinical Assistant Professor
PharmD, University of Texas at Austin, 2002

Esli Tebedge, Instructor in Clinical Pharmacy
PharmD, University of Texas at Austin, 2017

Holli L Temple, Clinical Assistant Professor
PharmD, University of Texas at Austin, 1999

Andrew P Ten Eick, Adjunct Associate Professor
PharmD, University of Iowa, 1996

Sara Thompson, Instructor in Clinical Pharmacy
PharmD, Belmont University, 2016

Kristi A Traugott, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2008

Shana K Trice, Clinical Assistant Professor
PharmD, University of Texas at Austin, 1997

Curtis L Triplitt, Clinical Assistant Professor
PharmD, University of Texas at Austin, 1995

Rebecca G Twombly, Clinical Assistant Professor
PharmD, University of North Carolina at Chapel Hill, 2001

Kenneth J Utz, Adjunct Assistant Professor
PharmD, University of Oklahoma Health Sciences Center, 2006

Carla L Van Den Berg, Associate Professor
PharmD, University of Texas at Austin, 1991

Karen Marie Vasquez, Professor
James T. Doluisio Regents Professorship in Pharmacy
PhD, Baylor College of Medicine, 1996

Lindsay Sara Vasquez, Adjunct Assistant Professor
PharmD, University of the Incarnate Word, 2012

Susie A Vasquez, Clinical Assistant Professor
PharmD, University of Texas at Austin, 1997

John F Villanacci, Adjunct Associate Professor
PhD, University of Michigan-Ann Arbor, 1983

Leticia R Villela, Adjunct Assistant Professor
PharmD, University of Texas at Austin, 2003

Kristie A Vinklarek, Clinical Assistant Professor
PharmD, University of Texas at Austin, 2001

Samantha M Vogel, Instructor in Clinical Pharmacy
PharmD, University of Oklahoma Health Sciences Center, 2017

Cheryl L Walker, Adjunct Professor
PhD, Tex Hlth Sci C Dallas, U, 1984

Janet C Walkow, Clinical Professor
PhD, University of Texas at Austin, 1982
Lyndon B. Johnson School of Public Affairs Faculty

The following faculty list represents those appointed in the 2018 spring semester.

Gordon B Abner, Postdoctoral Fellow
PhD, Indiana University at Bloomington, 2017

Abigail Rosemary Ann Aiken, Assistant Professor
PhD, University of Texas at Austin, 2014

Jacqueline L Angel, Professor
PhD, Rutgers the State University of New Jersey New Brunswick Campus, 1989

Kevin M Bacon, Adjunct Professor
MS, London School of Economics and Political Science, 1978

Fred C Beach, Lecturer
PhD, University of Texas at Austin, 2010

Richard P Bixler, Research Fellow
PhD, Colorado State University, 2014

Terrell Blodgett, Professor Emeritus
MS, Syracuse University Main Campus, 1947

Leigh B Boske, Professor Emeritus
PhD, University of Pittsburgh, Pittsburgh Campus, 1973

Karl B Brooks, Clinical Professor
PhD, University of Kansas Main Campus, 1996

Joshua W Busby, Associate Professor
PhD, Georgetown University, 2004

Victoria Maria Defrancesco, Lecturer
PhD, Duke University, 2007

Michele Y Deitch, Senior Lecturer
JD, Harvard University, 1986

Edwin Dorn, Professor
PhD, Yale University, 1978

David J Eaton, Professor
Bess Harris Jones Centennial Professorship in Natural Resource Policy Studies
PhD, Johns Hopkins University, 1977

Iris Ma Eisenman, Lecturer
PhD, University of California-Los Angeles, 2016

Joshua David Eisenman, Assistant Professor
MA, Johns Hopkins University, 2002

Brenda W Eivens, Adjunct Assistant Professor
MPA, Texas State University-San Marcos, 1995

Gregory W Engle, Lecturer
MPAdmin, University of Colorado at Colorado Springs, 1979

Angela M Evans, Clinical Professor
MA, University of Wisconsin-Madison, 1971

Raissa Fabregas, Assistant Professor
MS, University of Oxford, 2009

Michael G Findley, Professor
PhD, University of Illinois at Urbana-Champaign, 2007
David J Firestein, Clinical Professor
MPAff, University of Texas at Austin, 1992
Kenneth Flamm, Professor
Dean Rusk Chair in the Lyndon Baines Johnson School of Public Affairs
PhD, Massachusetts Institute of Technology, 1979
Lynda E Frost
PhD, University of Iowa, 1996
James K Galbraith, Professor
Lloyd M. Bentsen, Jr. Chair in Government/Business Relations
PhD, Yale University, 1981
Charlee Garden, Clinical Associate Professor
MS, Stanford University, 1988
Kenneth L Gladish, Adjunct Professor
PhD, University of Virginia, 1985
Michael H Granof, Professor
Ernst & Young Distinguished Centennial Professorship of Accounting
PhD, University of Michigan-Ann Arbor, 1972
Sherri R Greenberg, Clinical Professor
MSc, University of London, 1981
Dagmar S Hamilton, Professor Emeritus
JD, American University in Cairo, 1961
Carolyn Heinrich, Research Professor
PhD, University of Chicago, 1995
Michael Hole, Research Assistant Professor
MD, Stanford University, 2014
Robert L Hutchings, Professor
Walt and Elspeth Rostow Chair in National Security
PhD, University of Virginia, 1979
Rana S Inboden, Other University Affiliate
MA, Stanford University, 2000
William Inboden, Associate Professor
PhD, Yale University, 2003
Bobby R Inman, Professor
Lyndon B. Johnson Centennial Chair in National Policy
BA, University of Texas at Austin, 1950
Bryan D Jones, Professor
J. J. "Jake" Pickle Regents Chair in Congressional Studies
PhD, University of Texas at Austin, 1970
Peniel E Joseph, Professor
Barbara Jordan Chair in Ethics and Political Values
PhD, Temple University, 2000
Donald Kettl, Professor
PhD, Yale University, 1978
Meeta Kothare
PhD, University of Rochester, 1992
Alan J Kuperman, Associate Professor
PhD, Massachusetts Institute of Technology, 2002
Erin Lentz, Assistant Professor
MS, Cornell University, 2005
Stephanie Leutert, Research Fellow
MA, Yale University, 2016
Michael E Lind, Visiting Professor
JD, University of Texas at Austin, 1988
Leigh L Linden, Associate Professor
PhD, Massachusetts Institute of Technology, 2004
Martin J Luby, Assistant Professor
PhD, Indiana University at Bloomington, 2010
Ji Ma, Assistant Professor
MA, Beijing Normal University, 2013
Ray Marshall, Professor Emeritus
PhD, University of California-Berkeley, 1954
Mary K McCaston, Adjunct Assistant Professor
MA, University of Arizona, 1991
Steven D McKee, Adjunct Assistant Professor
MSSW, University of Texas at Austin, 1978
William H McRaven, Professor
MA, Naval Postgraduate School, 1991
Montgomery C Meigs
PhD, University of Wisconsin-Madison, 1982
Michael P Meyer, Adjunct Assistant Professor
MA, University of Texas at Austin, 2008
Jenny Knowles Morrison, Research Fellow
PhD, New York University, 2008
Michael W Mosser, Lecturer
PhD, University of Wisconsin-Madison, 2002
Angela M Newell, Lecturer
PhD, University of Texas at Austin, 2011
Thomas P O'Donnell, Lecturer
JD, University of Texas at Austin, 1992
Sheila Marie Olmstead, Professor
PhD, Harvard University, 2002
Todd A Olmstead, Associate Professor
PhD, Harvard University, 2000
Cynthia Osborne, Associate Professor
PhD, Princeton University, 2003
Francie Ostrower, Professor
PhD, Yale University, 1991
Rajeev Charles Patel, Research Professor
PhD, Cornell University, 2002
Miguel A Pavon, Adjunct Professor
MSEnvironE, Instituto Tecnologico y de Estudios Superiores de Monterrey, 1995
Pamela Marie Paxton, Professor
Linda K. George and John Wilson Professorship
PhD, University of North Carolina at Chapel Hill, 1998
James P Pope, Clinical Professor
Steve Hicks School of Social Work Faculty

The following faculty list represents those appointed in the 2018 spring semester.

Zaccheus J Ahonle, Lecturer
PhD, University of Texas at Austin, 2015

Terrence Allen, Assistant Professor
PhD, The University of Alabama, 2003

Robert J Ambrosino, Adjunct Assistant Professor
PhD, State University of New York at Albany, 1971

Rosalie Ambrosino, Lecturer
PhD, University of Texas at Austin, 1985

Barbara S Anderson, Clinical Professor
MSSW, University of Texas at Austin, 1974

Marilyn Armour, Professor
PhD, University of Minnesota-Twin Cities, 2000

Joan E Asseff, Clinical Assistant Professor
MSSW, University of Texas at Austin, 2006

Johanna Creswell Baez, Lecturer
MS, Columbia University in the City of New York, 2006

Margaret M Bassett, Lecturer
MS, Northern Illinois University, 1990

Jolynne M Batchelor, Adjunct Assistant Professor
PhD, University of Texas at Arlington, 2016

Natalie Deann Beck, Adjunct Assistant Professor

PhD, North Carolina State University, 1971

Peter Ward, Professor
C. B. Smith, Sr. Centennial Chair in United States-Mexico Relations #1
PhD, University of Liverpool, 1976

David C Warner, Professor Emeritus
PhD, Syracuse University Main Campus, 1969

Ruth E Wasem, Clinical Professor
PhD, University of Michigan-Ann Arbor, 1990

Andrew Waxman, Assistant Professor
PhD, Cornell University, 2016

Catherine Elizabeth Weaver, Associate Professor
PhD, University of Wisconsin-Madison, 2003

Robert H Wilson, Professor
Mike Hogg Professorship of Urban Policy
PhD, University of Pennsylvania, 1979

Patrick P Wong, Associate Professor
PhD, University of Wisconsin-Madison, 1988

Sandra E Black, Professor
Audre and Bernard Rapoport Centennial Chair in Economics
PhD, Harvard University, 1997

Clare Packard Zutz, Lecturer
MA, University of Texas at Austin, 2015
MSSW, University of Texas at Austin, 2009
Mary C Beer, Clinical Assistant Professor
MSSW, University of Texas at Austin, 2001
Elisa V Borah, Research Associate Professor (Affiliated)
PhD, University of Texas at Austin, 2010
Christopher A Burnett, Lecturer
MS, California State University-Sacramento, 2004
Noel B Busch-Armendariz, Professor
Endowed President’s Professorship
PhD, University of South Carolina - Columbia, 2000
Esther Calzada, Associate Professor
PhD, University of Florida, 2000
Yessenia Castro, Assistant Professor
PhD, Florida State University, 2008
Elaine H Cavazos, Lecturer
MSW, Our Lady of the Lake University, 1991
Namkee Choi, Professor
Louis and Ann Wolens Centennial Chair in Gerontology
PhD, University of California-Berkeley, 1987
Patricia A Cody, Lecturer
PhD, University of Texas at Austin, 2007
Deborah Cohen, Research Assistant Professor (Affiliated)
PhD, University of Kentucky, 2015
Allan H Cole Jr, Professor
PhD, Princeton University, 2001
Fiona Conway, Assistant Professor
PhD, Rutgers the State University of New Jersey New Brunswick Campus, 2016
Julia N Cuba, Lecturer
MSSW, University of Texas at Austin, 2006
Catherine Cubbin, Professor
PhD, Johns Hopkins University, 1998
Susan De Luca, Assistant Professor
PhD, Ohio State U Main Campus, 2009
Megan L Delaney, Adjunct Assistant Professor
MSSW, University of Texas at Austin, 2010
Diana M Dinitto, Professor
Cullen Trust Centennial Professorship in Alcohol Studies and Education
PhD, Florida State University, 1980
David L Evans, Lecturer
MA, Oakland University, 1976
Monica R Faulkner, Research Associate Professor (Affiliated)
PhD, University of Texas at Austin, 2010
Rowena Fong, Professor
Ruby Lee Pieter Centennial Professorship in Services to Children and Families
EdM, Harvard University, 1990
Delinda L Spain, Adjunct Assistant Professor
MSSW, University of Texas at Austin, 1999
Cynthia G Franklin, Professor
Stiernberg/Spencer Family Professorship in Mental Health
PhD, University of Texas at Arlington, 1989
Bethany E Gerlach, Lecturer
PhD, University of Texas at Austin, 2011
Dorie J Gilbert, Associate Professor Emeritus
PhD, University of Texas at Austin, 1996
Emmett L Gill, Clinical Assistant Professor
PhD, University of Maryland Baltimore, 2006
Teresa Granillo, Lecturer
PhD, University of Michigan-Ann Arbor, 2011
Roberta R Greene, Professor Emeritus
PhD, University of Maryland College Park, 1980
Lauren E Gulbas, Assistant Professor
PhD, Southern Methodist University, 2008
Wilbert J Hefner Jr, Professor Emeritus
PhD, University of North Carolina at Chapel Hill, 1964
Mercedes Hernandez, Assistant Professor
PhD, University of Southern California, 2014
Margaret Lee Duval Hill, Lecturer
MSSW, University of Texas at Austin, 2011
Kristen A Hogan, Lecturer
PhD, University of Texas at Austin, 2006
Lori K Holleran, Professor
PhD, Arizona State University Main, 2000
Heather Larkin Holloway, Associate Professor
PhD, The Catholic University of America, 2006
Catherine Hough, Clinical Assistant Professor
MSSW, University of Texas at Austin, 1993
Yuri Jang, Professor
PhD, University of South Florida, 2001
Allyson M Jervey, Lecturer
MSSW, University of Texas at Austin, 1997
Christine M Johnson, Lecturer
MSW, Texas State University-San Marcos, 2003
Barbara L Jones, Professor
PhD, State University of New York at Albany, 2004
Dana R Jones, Lecturer
MSSW, University of Texas at Austin, 1993
Laura G Jones-Swann, Lecturer
EdM, Texas Tech University, 1983
Dina M Kassler, Lecturer
PhD, The University of Memphis, 1997
Kendra D Koch, Adjunct Assistant Professor
PhD, University of Texas at Austin, 2017
Jane A Kretschmar, Clinical Professor
MSW, University of Michigan-Ann Arbor, 1979
Noel G Landuyt, Lecturer
PhD, University of Texas at Austin, 1999
Braden Latham-Jones, Adjunct Assistant Professor
MSSW, University of Michigan-Ann Arbor, 2013

Michael L Lauderdale, Professor
Clara Pope Willoughby Centennial Professorship in Criminal Justice
PhD, University of Oklahoma Norman Campus, 1967

Laura Lein, Professor Emeritus
PhD, Harvard University, 1973

Carol M Lewis, Lecturer
PhD, University of Texas at Austin, 1995

Elizabeth Martha Lewis, Adjunct Assistant Professor
PhD, University of Texas at Austin, 2017

Tamera B Linseisen, Clinical Associate Professor
MSSW, University of Texas at Austin, 1989

Molly A Lopez, Research Associate Professor (Affiliated)
PhD, Texas A & M University, 1998

Abena S Mackall, Assistant Professor
EdM, Harvard University, 2015

Sandy Magana, Professor
Professorship in Autism and Neurodevelopmental Disabilities
PhD, Brandeis University, 1999

Octavio N Martinez, Clinical Professor
MD, Baylor College of Medicine, 1997

Sarah M McCafferty, Lecturer
MSSW, University of Texas at Austin, 2006

John McNeil, Professor Emeritus
PhD, University of Southern California, 1964

Ruth G McRoy, Professor Emeritus
PhD, University of Texas at Austin, 1981

Alma Leonor Meno, Lecturer
MSW, New York University, 2000

Jeffrey D Moe, Adjunct Assistant Professor
MSSW, University of Texas at Austin, 2013

Arlene K Montgomery, Lecturer
PhD, Smith College, 1999

Elizabeth Mueller, Associate Professor
PhD, University of California-Berkeley, 1992

Rosamaria Murillo, Lecturer
MSW, Our Lady of the Lake University, 1992

Angela M Nonaka, Assistant Professor
PhD, University of California-Los Angeles, 2007

John S Nowicki, Lecturer
MSW, University of Texas at Arlington, 1979

Vicki Y Packheiser, Clinical Professor
MSW, University of Illinois at Urbana-Champaign, 1980

Yolanda C Padilla, Professor
PhD, University of Michigan-Ann Arbor, 1993

Jose Ruben Parra-Cardona, Associate Professor

PhD, Texas Tech University, 2004
Cynthia S Penwell, Lecturer
MSSW, University of Texas at Austin, 2010

Farya Phillips, Postdoctoral Fellow
PhD, University of Texas at Austin, 2013

Rayven Plaza, Assistant Professor
MSW, City University of New York Hunter College, 2014

Elizabeth C Pomeroy, Professor
Bert Kruger Smith Centennial Professorship in Social Work
PhD, University of Texas at Austin, 1994

Suzanne Laura Potts, Lecturer
MSW, San Diego State University, 1998

Diane McDaniel Rhodes, Lecturer
MA, The Episcopal Theological Seminary of the Southwest, 2001

Stephanie L Rivaux, Lecturer
PhD, University of Texas at Austin, 2009

Michele A Roundtree, Associate Professor
PhD, Arizona State University Main, 1992

Arthur J Schwab Jr, Professor Emeritus
PhD, University of Texas at Austin, 1981

Jaclyn N Sepp, Lecturer
MA, Texas State University-San Marcos, 2012

Alba D Sereno, Lecturer
MSSW, University of Texas at Austin, 2011

Deborah S Sharp, Lecturer
MSSW, University of Texas at Austin, 1998

Guy E Shuttlesworth, Professor Emeritus
PhD, University of Pittsburgh, Pittsburgh Campus, 1970

Jennifer Wood Silva, Lecturer
MSSW, University of Texas at Austin, 2003

Sarah K Sloan, Clinical Assistant Professor
MSSW, University of Texas at Austin, 2003

Douglas R Smith, Adjunct Assistant Professor
MSSW, University of Texas at Austin, 2000

Melissa C Smith
MD, University of Washington - Seattle, 1988

Robin M Smith, Clinical Assistant Professor
MSSW, University of Texas at Austin, 1992

Russell A Smith, Lecturer
MSW, University of Houston, 1997

Erin P Spalding, Adjunct Assistant Professor
MSSW, University of Texas at Austin, 2007

Debra Lynn Sparks, Clinical Assistant Professor
MSW, Texas State University-San Marcos, 2002

Melissa S Stewart, Adjunct Assistant Professor
MSSW, Boston University, 2000

Calvin L Streeter, Professor
Meadows Foundation Centennial Professorship in the Quality of Life in the Rural Environment
PhD, Washington University in St Louis, 1989

Mitchell Sudolsky, Clinical Professor
MSSW, University of Texas at Austin, 1978

Sarah A Swords, Clinical Associate Professor
MSW, Simmons College, 1982

Melissa Torres, Lecturer
PhD, University of Houston, 2015

Earley R Ullrich, Lecturer
MSSW, University of Texas at Austin, 2009

Debra J Umberson, Professor
Centennial Commission Professorship in the Liberal Arts #1
PhD, Vanderbilt University, 1985

Carmen R Valdez Chavez, Associate Professor
PhD, University of Texas at Austin, 2004

Mary M Velasquez, Professor
Centennial Professorship in Leadership for Community, Professional, and Corporate Excellence
PhD, University of Texas Health Science Center at Houston, 1997

Shetal S Vohra, Lecturer
PhD, University of Houston, 2009

Kirk L Von Sternberg, Associate Professor
PhD, University of Texas Health Science Center at Houston, 2005

Tanya M Voss, Clinical Professor
MSW, University of Texas at Austin, 1996

Deborah K Webb, Lecturer
PhD, University of Texas at Austin, 1994

Shane O Whalley, Lecturer
MSSW, University of Texas at Austin, 2003

Valerie A Whiting, Adjunct Assistant Professor
MSSW, University of Texas at Austin, 1999

Ahmed Whitt, Assistant Professor
PhD, University of North Carolina at Chapel Hill, 2013

Martha S Williams, Professor Emeritus
PhD, University of Texas at Austin, 1963

Christine D Winston, Lecturer
MSSW, University of Texas at Austin, 1998

Leila G Wood, Research Assistant Professor (Affiliated)
PhD, Indiana University at Bloomington, 2014

Luis H Zayas, Professor
The Robert Lee Sutherland Chair in Mental Health and Social Policy
PhD, Columbia University in the City of New York, 1986

Student Health Insurance, College of Pharmacy .......................................................... 764
Student Organizations and Programs, Cockrell School of Engineering .............................. 184
Student Organizations, College of Education .................................................................. 154
Student Organizations, College of Fine Arts .................................................................... 272
Student Organizations, Moody College of Communication ............................................. 97
Student Organizations, Red McCombs School of Business ............................................. 52
Student Organizations, School of Architecture .................................................................. 32
Student Organizations, School of Nursing ....................................................................... 748
Student Programs, College of Natural Sciences ............................................................. 639
Student Responsibility ................................................................................................. 19
Student Services, Cockrell School of Engineering .......................................................... 183
Student Services, College of Education ......................................................................... 154
Student Services, College of Fine Arts .......................................................................... 272
Student Services, College of Liberal Arts ......................................................................... 361
Student Services, College of Natural Sciences ................................................................ 639
Student Services, College of Pharmacy ........................................................................... 759
Student Services for the University .................................................................................. 9
Student Services, John A. and Katherine G. Jackson School of Geosciences ................. 333
Student Services, Moody College of Communication ...................................................... 96
Student Services, Red McCombs School of Business ...................................................... 51
Student Services, School of Architecture ......................................................................... 32
Student Services, Steve Hicks School of Social Work .................................................... 783
Studio Art Major ........................................................................................................ 280
Study Abroad and Internship Opportunities, School of Architecture .................................. 32
Study Abroad, Cockrell School of Engineering ............................................................... 185
Study Abroad, College of Fine Arts ................................................................................ 272
Study Abroad, College of Natural Sciences ...................................................................... 639
Study Abroad, Red McCombs School of Business ............................................................ 53
Studio Art, Courses ................................................................................................. 297
Suggested Arrangement of Courses, Bachelor of Architecture ........................................... 37
Suggested Arrangement of Courses, Bachelor of Architecture/Bachelor of Arts, Plan II Dual Degree Program .......................................................... 40
Suggested Arrangement of Courses, Bachelor of Architecture/Bachelor of Science in Architectural Engineering Dual Degree Program .......................................................... 38
Suggested Arrangement of Courses, Bachelor of Science in Aerospace Engineering .............. 195
Suggested Arrangement of Courses, Bachelor of Science in Architectural Engineering .......... 197
Suggested Arrangement of Courses, Bachelor of Science in Architectural Studies .............. 41
Suggested Arrangement of Courses, Bachelor of Science in Biomedical Engineering ............ 202
Suggested Arrangement of Courses, Bachelor of Science in Chemical Engineering ............ 206
Suggested Arrangement of Courses, Bachelor of Science in Civil Engineering .................................................. 208
Suggested Arrangement of Courses, Bachelor of Science in Computational Engineering .......................................................... 210
Suggested Arrangement of Courses, Bachelor of Science in Computer Engineering .......................................................... 216
Suggested Arrangement of Courses, Bachelor of Science in Electrical Engineering .......................................................... 216
Suggested Arrangement of Courses, Bachelor of Science in Environmental Engineering .................................................. 218
Suggested Arrangement of Courses, Bachelor of Science in Geosystems Engineering and Hydrogeology .................................................. 220
Suggested Arrangement of Courses, Bachelor of Science in Interior Design .......................................................... 36
Suggested Arrangement of Courses, Bachelor of Science in Mechanical Engineering .................................................. 223
Suggested Arrangement of Courses, Bachelor of Science in Petroleum Engineering .......................................................... 225
Supply Chain Management .................................................................................. 66
Supply Chain Management, Bachelor of Business Administration in .................................................. 66
Supply Chain Management Suggested Arrangement of Courses .................................................. 67
Sustainability Studies .................................................................................. 384
Swahili, Courses .................................................................................. 418
Swedish, Courses .................................................................................. 506

T
Tamil, Courses .................................................................................. 446
Teaching Option, Bachelor of Science in Geological Sciences .................................................................................. 345
Technical Area Options, Cockrell School of Engineering .................................................................................. 190
Telugu, Courses .................................................................................. 447
Texas Common Course Numbering System .................................................................................. 793
Texas Success Initiative, School of Undergraduate Studies .................................................................................. 29
Textiles and Apparel, Bachelor of Science in .................................................................................. 683
Textiles and Apparel, Courses .................................................................................. 724
Theatre and Dance, Bachelor of Arts in .................................................................................. 287
Theatre and Dance, Courses .................................................................................. 301
Theatre Studies Major .................................................................................. 281
Thomas Jefferson Center for the Study of Core Texts and Ideas, Courses .................................................. 460
Trombone, Courses .................................................................................. 323
Trumpet, Courses .................................................................................. 323
Tuba, Courses .................................................................................. 323
Turkish, Courses .................................................................................. 569
Tutorial, Courses .................................................................................. 575

U
Undergraduate Degrees .................................................................................. 9
Undergraduate Research, Office of .................................................................................. 29
Undergraduate Research, School of Undergraduate Studies .................................................................................. 29
Undergraduate Studies, Courses .................................................................................. 27

V
Vibraphone, Courses .................................................................................. 323
Viola, Courses .................................................................................. 323
Violin, Courses .................................................................................. 323
Violoncello, Courses .................................................................................. 323
Visual Art Studies, Courses .................................................................................. 301
Visual Art Studies Major .................................................................................. 281
Voice, Courses .................................................................................. 312
Voice Performance Major .................................................................................. 283

W
Women's and Gender Studies, Bachelor of Arts (Plan I) .................................................................................. 384
Women's and Gender Studies, Courses .................................................................................. 626
