Areas of Study

Graduate study in plant biology is available in the following areas:
algal physiology, plant biochemistry, cell biology, development, ecology,
evolution, molecular biology, natural products chemistry, photobiology,
phycology, plant anatomy, plant biogeography, plant morphology, plant
physiology, population biology, systematics, and ultrastructure.

Graduate Studies Committee

The following faculty members served on the Graduate Studies
Committee (GSC) in the spring 2024 semester.

Z Jeffrey Chen	Alan M Lloyd
Caroline E Farrior	Mona Mehdy
Norma L Fowler	Nancy A Moran
Lawrence E Gilbert	Jose L Panero
Justin C Havird	Hong Qiao
Enamul Huq	Stanley J Roux Jr
Robert K Jansen	Sibum Sung
Shalene Jha	Edward C Theriot
Thomas E Juenger	Amelia Wolf
Craig R Linder	

Admission Requirements

The undergraduate training of students planning to undertake graduate
study in plant biology should ordinarily include at least 24 semester
hours in plant biology and/or other biological sciences. At least 12 of
these must be in upper-division work. This requirement in the major
should be supported by coursework in the other sciences, especially
chemistry, physics, and mathematics.
