

# The Curriculum

---

The breadth and depth of the curriculum is conveyed by the list of courses given in the [Courses section](#).

## Experiential Education

The School of Law offers numerous courses and programs that bridge the classroom and the practice of law. Students gain hands-on experience through advanced training in simulated settings via advocacy, legal writing, and other hands-on courses, and work on real-world cases and projects through clinics, internships, and pro bono work. These academic experiences are designed to integrate theory, strategy, skills, and law.

## Centers and Institutes

The School of Law includes a number of academic centers and institutes that bring together faculty, students, and outside experts to study legal and policy issues in a number of important areas. Information about the centers and institutes is available at [law.utexas.edu/centers/](http://law.utexas.edu/centers/).
