

DGI - Digital Game Industries

Digital Game Industries: DGI

Lower-Division Courses

DGI X01. Video Games: Concept to Console.

Introduction to the foundational aspects of the digital game industry and the essential communication skills required to be successful in the field.

DGI X02. Digital Game Industries.

Explore the foundational aspects of digital game industries and production with an emphasis on communication skills.

DGI X05. Topics in Digital Game Industries.

Discuss contemporary issues and practices in digital game industries.

DGI X19S. Topics in Digital Games.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Texas Global Office. Credit is recorded as assigned by the study abroad adviser in the DGI minor. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program.

Upper-Division Courses

DGI X20. Topics in Digital Game Industries.

Examine contemporary issues and practices in digital game industries.

DGI X21. Independent Study.

Pursue special supervised individual research studies.

DGI X22. Game Usability Analysis.

Explore usability in digital games.

DGI X29S. Topics in Digital Game Industries.
