Programs Office, 2110 Speedway, Stop B6000, Austin TX 78712

Email address: TexasMSEM@mccombs.utexas.edu

Web address: https://www.mccombs.utexas.edu/Centers/Energy-
Management-Program

The Master of Science in Energy Management (MSEMA) degree at
the McCombs School of Business provides students with the ability
to enhance their existing skills with required coursework in business,
ingineering, law, science and policy. The program is designed to allow
students to contribute to the analysis of the ability of various energy
sources – both fossil fuels and renewables – to meet future energy
needs.

The ten-month program is offered in a face-to-face format in Austin,
Texas, and begins with a summer intensive program. The fall semester
provides broad training in energy, and the spring allows a student to
specialize with coursework that specializes in oil and gas and electricity.

Facilities for Graduate Work

The physical facilities, computing systems, and research centers that
support graduate work in the McCombs School are described in the
Business Administration section under Facilities for Graduate Work.

Areas of Study

The MSEMA degree addresses challenges in both electricity and oil and
gas topics using tools from business, engineering, science, law, and
policy.

Graduate Studies Committee

The following faculty members served on the Graduate Studies
Committee (GSC) in the spring 2023 semester.

David E Adelman   Francisco Polidoro Jr
John C Butler     Raghunath S Rao
Carlos Marinho Carvalho  Ehud I Ronn
James S Dyer     David B Spence
Genaro J Gutierrez  Sheridan Titman
D E Hirst

Admissions Requirements

Currently, the MS Programs Office is not admitting students into the MS
in Energy Management Program.

When the MS in Energy Management Program is active, admission to the
program is extremely competitive. The admission decision is based on
a holistic review process that includes the applicant’s academic record,
test scores, essays, resume, and letters of recommendation. Students
must enter the Master of Science in Energy Management Option III
program in the summer semester.

The MS Bridge Program offers undergraduate students at The University
of Texas at Austin an opportunity to prepare for future graduate study
by providing access to courses and program resources that normally
require graduate standing. University of Texas at Austin undergraduate
students may apply for admission through the graduate academic unit
sponsoring the bridge program. Admission to a bridge program is highly
competitive and does not guarantee admission to a graduate degree
program. Additional information can be found at MS Bridge Program.
