Facilities for Graduate Work

Faculty members and graduate students in information, risk, and
operations management are involved in the work of the Center for
Business, Technology, and Law, the Center for Research in Electronic
Commerce, the risk management and insurance program, and the
Supply Chain Center of Excellence. Additional research centers that
support graduate work in the McCombs School, as well as the school's
physical facilities and computing systems, are described in the business
administration section under Facilities for Graduate Work.

Areas of Study

The graduate degrees in Information, Risk, and Operations Management
are offered with four independent concentrations: decision science;
information systems; operations management; and statistics.

Admission Requirements

Admission to information, risk, and operations management programs
is extremely competitive. The admission decisions are based on the
applicant's academic record, test scores, personal statement, résumé,
and letters of recommendation. Students must enter the PhD program in
the fall semester.
