Areas of Study

Graduate study in plant biology is available in the following areas: algal physiology, plant biochemistry, cell biology, development, ecology, evolution, molecular biology, natural products chemistry, photobiology, phycology, plant anatomy, plant biogeography, plant morphology, plant physiology, population biology, systematics, and ultrastructure.

Graduate Studies Committee

The following faculty members served on the Graduate Studies Committee (GSC) in the spring 2024 semester.

Z Jeffrey Chen        Alan M Lloyd
Caroline E Farrior    Mona Mehdy
Norma L Fowler        Nancy A Moran
Lawrence E Gilbert    Jose L Panero
Justin C Havird      Hong Qiao
Enamul Huq            Stanley J Roux Jr
Robert K Jansen       Sibum Sung
Shalene Jha           Edward C Theriot
Thomas E Juenger      Amelia Wolf
Craig R Linder

Admission Requirements

The undergraduate training of students planning to undertake graduate study in plant biology should ordinarily include at least 24 semester hours in plant biology and/or other biological sciences. At least 12 of these must be in upper-division work. This requirement in the major should be supported by coursework in the other sciences, especially chemistry, physics, and mathematics.
