

Architectural History: Political, Social, and Cultural Histories of Architecture (Stackable Certificate)

The [Architectural History: Political, Social, and Cultural Histories of Architecture](#) stackable graduate certificate program investigates the social, political, and economic histories of architecture and urbanism. With an emphasis on macro structures (i.e., capitalism) in relation to historically marginalized groups (migrants, people of color, laborers, etc.), these courses ask students to deeply contextualize "sites" and "architectures."

To complement the work and role of the architect, the focus explores the users and makers of ordinary built environments as well as canonical works of architecture. Beyond developing a specific historic lens or framework to view and analyze architecture, students will also conduct their own architectural histories of everyday environments and ask questions about architecture that address the pressing social issues of our time.

Additional details

- Degree seekers
- Offered in person on the UT Austin campus

Related Degree

- Architecture (MA)
- Architecture (PhD)

Graduate Handbook

Graduate handbook information is updated and maintained by each program. Graduate handbooks are available within each program's office and [online](#). Please contact the program with concerns or questions.

Total Hours Required: 9
