

Architecture: Latin American Architecture (Stackable Certificate)

By enhancing and promoting a regional focus that already exists in the school's graduate curriculum, the [Architecture: Latin American Architecture](#) stackable graduate certificate allows graduate students to develop a comparative approach to architectural education and scholarship and equips them with tools to engage in the effect that globalization has on architecture and place more broadly. As a result, program participants will not only gain expertise in Latin American architecture, they will also become better equipped to address the world's most pressing issues regarding the built environment.

Additional details

- Degree seekers
- Offered in person on the UT Austin campus

Related Degree

- Architecture (MArch)
