Same as Middle Eastern Studies 343 (Topic 1). Critically examines the social, political, and intellectual dynamics that shaped the different forms of political community, economic organization, and public culture over the past century. Covers colonialism, liberalism, Arab socialism, authoritarian capitalism, and Islamic republicanism. Three lecture hours a week for one semester. Only one of the following may be counted: History 334E, Islamic Studies 373 (Topic 5), Middle Eastern Studies 343 (Topic 1). Prerequisite: Upper-division standing.

HIS 334F. Modern Egypt in Film and Fiction.
Same as African and African Diaspora Studies 340I, Middle Eastern Studies 342 (Topic 79), and Radio-Television-Film 352 (Topic 3). Explore the history and culture of modern Egypt through selected readings in twentieth-century film and fiction. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 340I, History 334F, Middle Eastern Studies 342 (Topic: Modern Egypt Film/Fiction), 342 (Topic 79), Radio-Television-Film 352 (Topic: Modern Egypt Film/Fiction), 352 (Topic 3). Prerequisite: Upper-division standing.

HIS 334G. Cultures of Revolution in the Middle East.
Same as Asian Studies 343E, Government 366R, and Middle Eastern Studies 342 (Topic 80). Examine the cultural production that surrounds key moments of political and social change in the Middle East. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 343E, Government 366R, History 334G, Middle Eastern Studies 342 (Topic: Cultures of Revolution), 342 (Topic 80). Prerequisite: Upper-division standing.

HIS 334I. Culture in Turkey: Myths and Realities.
Same as Middle Eastern Studies 342 (Topic 79). Explore how Turkish culture is neither static nor monolithic but is continuously contested and redefined. Investigate tensions between secularism and Islam, Orientalist and Occidentalist fantasies, and imperialist and nationalist desires to better understand the sociopolitical dynamics that define Turkish society today. Three lecture hours a week for one semester. Only one of the following may be counted: History 334I, Middle Eastern Studies 342
(Topic: Turkey: Myths and Realities), 342 (Topic 79). Prerequisite: Upper-division standing.

**HIS 334J. History of Britain from the Restoration to 1783.**
Same as European Studies 346 (Topic 26). Surveys the political, social, economic, and intellectual history of England and Great Britain from the restoration of the Stuart monarchy in 1660 to the conclusion of the War for American Independence in 1783. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 346 (Topic: History of Britain from the Restoration to 1783), 346 (Topic 26), History 334J. Prerequisite: Upper-division standing.

**HIS 334L. The American Revolution and the Founding of the United States, 1763-1800.**
The Revolutionary transformation of America between 1763 and 1800. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**HIS 337N. Germany in the Twentieth Century.**
Same as Liberal Arts Honors 352C and Russian, East European, and Eurasian Studies 335 (Topic 11). Survey of German political and military institutions, economic development, culture, and society. Three lecture hours a week for one semester. Only one of the following may be counted: History 337N, Liberal Arts Honors 350 (Topic: Germany in the 20th Century), 352C, Russian, East European, and Eurasian Studies 335 (Topic 11). Prerequisite: Upper-division standing and a grade point average of at least 3.5.

**HIS 339Q. Medieval Middle East History in One Hundred Objects.**
Same as Art History 328L and Middle Eastern Studies 343 (Topic 11). Survey the history of the medieval Middle East, from the period of Late Antiquity (in the seventh century) to the rise of early modern empires of the Safavids, Ottomans, and Mughals (in the seventeenth century), through close examination of the meaning and significance of 100 objects. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 328L, 363 (Topic: Mid East Hist in 100 Objects), History 339Q, 364G (Topic: Mid East Hist in 100 Objects), Islamic Studies 373 (Topic: Mid East Hist in 100 Objects), 373 (Topic 21), Middle Eastern Studies 343 (Topic: Mid East Hist in 100 Objects), 343 (Topic 11). Prerequisite: Upper-division standing.

**HIS 339S. Sufism: Islamic Thought and Spirituality.**

**HIS 340L. Post-Mao China: Change and Transformation.**
Same as Asian Studies 340L. Examines in a historical context the Chinese economy, society, politics, and culture during the reform era that began in the late 1970s. Explores the transformation of rural and urban economies and related social consequences; government systems, political ideologies, and popular values; and China's integration into the global system and its impact on China's role in world politics. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 340L, 361 (Topic: Post-Mao China: Change and Transformation), History 340L, 364G (Topic: Post-Mao China: Change and Transformation). Prerequisite: Upper-division standing.

**HIS 340M. Modern China.**
Same as Asian Studies 340M. History of China from the intrusion of the West circa 1500 to the Communist revolution. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**HIS 340P. European Expansion in Asia.**
Same as Asian Studies 340P European exploration, the commerce of the East India Companies, and the beginnings of empire in South and Southeast Asia from the fifteenth to the early nineteenth century. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**HIS 340R. European Empires in Asia.**
Same as Asian Studies 340R. The British in India and Malaya, the Dutch in Indonesia, and the French in Indochina since 1800. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**HIS 340S. The Chinese in the United States.**
Same as Asian American Studies 325D and Asian Studies 340S. History of the Chinese in the United States from their first arrival in significant numbers during the California Gold Rush of the mid-nineteenth century to the present. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 325 (Topic: Chinese in the United States), 325 (Topic 3), 325D, Asian Studies 340S, History 340S. Prerequisite: Upper-division standing.

**HIS 340T. Taiwan: Colonization, Migration, and Identity.**
Same as Asian American Studies 325E and Asian Studies 340T. Explores issues of ethnicity, empire, and modernization in East Asia from the sixteenth century to the present, as seen through encounters between Taiwan and aborigines, Han Chinese, Dutch, Portuguese, the imperial Qing, Japanese, mainland Chinese Nationalist Party (KMT), and the United States. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 325 (Topic 4), 325E, Asian Studies 340T, History 340T. Prerequisite: Upper-division standing.

**HIS 340U. The Cultural Outsider: Memoirs of East Asia.**
Same as Asian Studies 379 (Topic 11). Focus is on the cultural outsider's perceptions of East Asia in greater "travel" dating from as early as Marco Polo up to works published in contemporary America. Selected memoirs and travelogues are presented from the perspective of the cultural outsider, written by missionaries, colonizers, journalists, POWs, scholars, students, and tourists. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 379 (Topic: Cul Outsider: Memoirs/E Asia), 379 (Topic 11), History 340U, 364G (Topic: Cul Outsider: Memoirs/E Asia). Prerequisite: For Asian studies majors, twelve semester hours of upper-division coursework in Asian studies; for others, upper-division standing.

**HIS 340V. Big Asian Histories.**
Same as Anthropology 322F and Asian Studies 361M. Examines ways in which Asia and other areas of the globe have had connected intellectual, artistic, and social developments with focus on world histories centrally involving Asia from the medieval period to the present. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322F, 324L (Topic: Big Asian Histories), Asian Studies 361 (Topic: Big Asian Histories), 361M, History 340V, 364G (Topic: Big Asian Histories). Prerequisite: Upper-division standing.
HIS 341K. Origins of Modern Japan.
Same as Asian Studies 341K. Japan to the beginnings of the Industrial Revolution, with a focus on the culminating age of samurai rule, the Tokugawa period (1600-1867). Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

HIS 341M. Imperial Japan.
Same as Asian Studies 341M. Japan from the Meiji transformation through war, defeat, and occupation. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

HIS 342C. Postwar Japan.
Same as Asian Studies 341N. Japan since the war and occupation. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

HIS 342D. Political Economy of Japan.
Same as Asian Studies 342D. Historical development of the Japanese economy since early modern times. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

HIS 343. The Age of Reformation.
Same as Core Texts and Ideas 355R and Religious Studies 344. Examines late medieval religion, the rise of Protestant movements, and the Catholic response in their cultural, political, and social contexts. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 355R, 375 (Topic: The Age of Reformation), History 343, Religious Studies 344. Prerequisite: Upper-division standing.

HIS 343C. Transnational Asia: From the Middle East to the Far East.
Same as Asian Studies 361R and Middle Eastern Studies 343 (Topic 21). Examine how various groups of people understood, experienced, and imagined concepts such as "the East" and "Asia" with a primary focus on the nineteenth and twentieth centuries. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic: Transnational Asia), 361R, History 343C, Middle Eastern Studies 343 (Topic: Transnational Asia), 343 (Topic 21). Prerequisite: Upper-division standing.

HIS 343D. Muslim Travelers and Traders.
Same as Asian Studies 343D, Middle Eastern Studies 343 (Topic 23), and Religious Studies 343D. Introduction to modern Middle Eastern and Islamic history in the broader context of globalization, with a primary focus on the nineteen and twentieth centuries. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 343D, History 343D, 366N (Topic: Muslim Travelers and Traders), Middle Eastern Studies 343 (Topic: Muslim Travelers and Traders), 343 (Topic 23), Religious Studies 343D. Prerequisite: Upper-division standing.

HIS 343E. Modern Middle East History in One Hundred Objects.
Same as Art History 328M and Middle Eastern Studies 343 (Topic 12). Survey the history of the medieval Middle East, from 1500 to the present, through close examination of the meaning and significance of 100 objects. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 328M, 366P (Topic: Mod Mid East In 100 Objects), History 343E, 346G (Topic: Mod Mid East In 100 Objects), Islamic Studies 373 (Topic: Mod Mid East In 100 Objects), 373 (Topic 23), Middle Eastern Studies 343 (Topic: Mod Mid East In 100 Objects), 343 (Topic 12). Prerequisite: Upper-division standing.

HIS 343G. Italian Renaissance, 1350-1550.
Same as European Studies 346 (Topic 27) and Religious Studies 356C. Survey of political, socioeconomic, religious, and intellectual trends during the Italian Renaissance. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 346 (Topic: Italian Renaissance, 1350-1550), 346 (Topic 27), History 343G, Religious Studies 356C, 357 (Topic: Italian Renaissance, 1350-1550). Prerequisite: Upper-division standing.

HIS 343L. History of Russia to 1917.
Same as Russian, East European, and Eurasian Studies 335 (Topic 5: History of Russia to 1917). Survey of Russian history from seventeenth-century Muscovy to the fall of the Romanovs in 1917. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

HIS 343M. History of Russia since 1917.
Same as Russian, East European, and Eurasian Studies 335 (Topic 6: History of Russia since 1917). A survey of Russian history from the revolution of 1917 to the collapse of the Soviet Union. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

HIS 343P. History of Witchcraft.
A study of witch beliefs and witchcraft prosecutions in western Europe and colonial America, mainly between 1100 and 1700. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

HIS 343Q. Russian Food Ways.
Same as Russian, East European, and Eurasian Studies 325C. Three lecture hours a week for one semester. Only one of the following may be counted: History 343Q, 362G (Topic: Russian Food Ways), Russian, East European, and Eurasian Studies 325 (Topic: Russian Food Ways), 325C. Prerequisite: Upper-division standing.

HIS 343R. Revolutionary Russia.
Same as Russian, East European, and Eurasian Studies 335 (Topic 25). An in depth examination of the political, social, economic, and cultural dynamics at work in early twentieth-century Russia. Three lecture hours a week for one semester. Only one of the following may be counted: History 343R, 350L (Topic: Revolutionary Russia), Russian, East European, and Eurasian Studies 335 (Topic: Revolutionary Russia), 335 (Topic 25). Prerequisite: Upper-division standing.

HIS 343W. Witches, Workers, and Wives.
Same as European Studies 346 (Topic 3: Witches, Workers, and Wives) and Women's and Gender Studies 345 (Topic 29: Witches, Workers, and Wives). Explores the role of families and concepts of gender as expressed in key economic, social, political, and cultural patterns in early modern Europe. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

HIS 344E. France in the Middle Ages.
Social, cultural, political, and economic history of France from the fall of the Roman Empire to the fifteenth century; emphasis on the development of feudalism and nationalism. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

HIS 344F. Anglo-Saxon England.
The political, social, cultural, and legal history of England from about 410 to 1154. Lectures and discussion of primary sources. Three lecture hours a week for one semester. History 344F and 362K (Topic: Anglo-Saxon England) may not both be counted. Prerequisite: Upper-division standing.

HIS 344G. Twelfth-Century Renaissance: 1050-1200.
Same as Ancient History and Classical Civilization 330 (Topic 8), European Studies 346 (Topic 40), and Religious Studies 356F. An

**HIS 344J. Norman and Angevin England.**
Political, social, and legal history of England from the Norman conquest in 1066 to the end of the reign of Richard III in 1485. Three lecture hours a week for one semester. History 344J and 362K (Topic: Norman and Angevin England) may not both be counted. Prerequisite: Upper-division standing.

**HIS 344M. Everyday Life in Early Modern Europe.**
Social history of early modern Europe (1400-1700), with emphasis on material conditions of social existence. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**HIS 344R. Machiavelli: Politics and Culture.**
Same as Ancient History and Classical Civilization 330 (Topic 6), Core Texts and Ideas 330M, and Religious Studies 357C. Through Niccolo Machiavelli’s chief writings, consider the local, regional, Mediterranean, European, and global aspects of his work. Three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 330 (Topic: Machiavelli), 330 (Topic 6), Core Texts and Ideas 330M, 375 (Topic: Machiavelli), European Studies 346 (Topic: Machiavelli), History 344R, 350L (Topic: Machiavelli), Liberal Arts Honors 350 (Topic: Machiavelli), 351R Religious Studies 357 (Topic: Machiavelli), 357C. Prerequisite: Upper-division standing.

**HIS 344S. The Crusades.**
Same as Ancient History and Classical Civilization 330 (Topic 5), European Studies 346 (Topic 38), and Religious Studies 375S (Topic 8). An exploration of the religious encounters between eastern and western Christians, Christian heretics, Jews, Muslims, and polytheists; political, military, and cultural changes of the high middle ages; and the ways that crusading ideas and symbols have been reused in contemporary politics and popular culture. Three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 330 (Topic: The Crusades), 330 (Topic 5), European Studies 346 (Topic: The Crusades), 346 (Topic 38), History 344S, 350L (Topic: The Crusades), Religious Studies 375S (Topic: The Crusades), 375S (Topic 8). Prerequisite: Upper-division standing

**HIS 345J. The Coming of the Civil War, 1829-1861.**
Lecture and discussion course dealing with the historical conditions that led to the American Civil War. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**HIS 345L. The American Civil War and Reconstruction, 1861-1877.**
Lecture and discussion course on the Civil War and Reconstruction period. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**HIS 345O. Debt and Colonialism in the Caribbean.**
Same as African and African Diaspora Studies 3450, American Studies 321O, and Latin American Studies 366 (Topic 43). Examine the role that debt has played in the formation of colonial and neocolonial practices in the Caribbean region. Take a broad approach to the concept of debt in order to explore the financial and monetary dynamics of debt, but also the political and cultural implications of debt. Focus in particular on debt as justification in the furtherance of colonialism throughout the Caribbean. Engage in a historical examination of the United States’ colonial projects and military interventions in the region throughout the 20th and into the 21st centuries. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 3450, 374E (Topic: Debt/Colonialism Caribbean), American Studies 321 (Topic: Debt/Colonialism Caribbean), 321O, History 3450, 363K (Topic: Debt/Colonialism Caribbean), Latin American Studies 366 (Topic: Debt/Colonialism Caribbean), 366 (Topic 43). Prerequisite: Upper-division standing.

**HIS 346C. Ancient India.**
Same as Asian Studies 346C. History and culture of South Asia from its protohistoric beginnings in the Indus Valley through the period of the early empires of the Mauryas and Guptas. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**HIS 346D. Medieval India.**
Same as Asian Studies 346D. History and culture of South Asia from approximately 500 to 1500, with emphasis on religious and political institutions and the emergence of regional cultures. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**HIS 346E. Colonial Encounters in Mesoamerica.**
Same as Anthropology 323T, Latin American Studies 322M, and Religious Studies 366M. Study European-indigenous encounters in Mesoamerica, a geographic and cultural area spanning north-central Mexico through western Honduras, between approximately 1450-1570. Examine strategies of contact, accommodation, and resistance that indigenous communities and European colonizers used to communicate with each other and negotiate the conduct of daily life in colonial society. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 323T, History 346E, Latin American Studies 322M, Religious Studies 361 (Topic: Mesoamerican Encounters), 366M. Prerequisite: Upper-division standing.

**HIS 346G. Precolonial India, 1200-1750.**
Same as Asian Studies 372G. Surveys the history of South Asia during the era prior to British colonial rule. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 372 (Topic: Precolonial India, 1200-1750), 372G, History 346G, 364G (Topic: Precolonial India, 1200-1750). Prerequisite: Upper-division standing.

**HIS 346J. Colonial Latin America through Objects.**
Same as Latin American Studies 366 (Topic 20). Examines objects, such as paintings, reliquaries, monstrances, and churches from colonial Latin America in order to understand colonial culture. Includes critical reading of original texts. Three lecture hours a week for one semester. Only one of the following may be counted: History 346J, 363K (Topic: Colonial Latin America through Objects), Latin American Studies 366 (Topic 20). Prerequisite: Upper-division standing.

**HIS 346K. Colonial Latin America.**
Same as Latin American Studies 366 (Topic 2: Colonial Latin America). Basic survey course, designed as an introduction to Latin American history in the colonial period. Three lecture hours a week for one semester. Only one of the following may be counted: History 310K, 346K, Latin American Studies 310 (Topic 1: Latin American Civilization: The Colonial Experience), 366 (Topic 2). Prerequisite: Upper-division standing.

**HIS 346L. Modern Latin America.**
Same as Latin American Studies 366 (Topic 3). Continuation of History 346K and Latin American Studies 366 (Topic 2). Only one of the following may be counted: African and African Diaspora Studies 374E (Topic: Modern Latin America), 374E (Topic 5), History 310L, 346L, Latin

**HIS 346M. Early Modern India.**
Same as Asian Studies 346M. The history and culture of South Asia from approximately 1500 to 1750. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 346M, History 346M, Religious Studies 341 (Topic 6). Prerequisite: Upper-division standing.

**HIS 346N. The Indian Subcontinent, 1750-1950.**
Same as Asian Studies 346N. Examines the cultural and political movements and events that led to formation of the two nation-states India and Pakistan. Three lecture hours a week for one semester. Asian Studies 346N and History 346N may not both be counted. Prerequisite: Upper-division standing.

**HIS 346P. The Indian Republic Since 1947.**
Same as Asian Studies 361K. An overview of Contemporary India, a republic that emerged from the British Empire. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic: Indian Republic 1947-Pres), 361K, History 346P. Prerequisite: Upper-division standing.

**HIS 346R. Revolution in Modern Latin America.**
Same as Latin American Studies 366 (Topic 13: Revolution in Modern Latin America). Comparison of the Mexican and Cuban revolutions and of their challenges to inter-American relations. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**HIS 346S. Revolution in Twentieth-Century Latin America.**
Same as Latin American Studies 366 (Topic 9: Revolution in Twentieth-Century Latin America). An introduction to recent Latin American history, with emphasis on phenomena that explain the apparent social unrest and political instability of the region. Three lecture hours a week for one semester. Only one of the following may be counted: History 346L, 366N (Topic: Revolution in Twentieth-Century Latin America), Latin American Studies 366 (Topic 9). Prerequisite: Upper-division standing.

**HIS 346T. The Cuban Revolution and the United States.**
Same as Latin American Studies 366 (Topic 17: The Cuban Revolution and the United States). The special economic and political relationship between the United States and Cuba from 1898 to 1967; and how the 1959 revolution affected the Cold War relationships between East and West, North and South. Three lecture hours a week for one semester. Only one of the following may be counted: History 346T, 366N (Topic: The Cuban Revolution and the US), Latin American Studies 366 (Topic: The Cuban Revolution and the US), 366 (Topic 17). Prerequisite: Upper-division standing.

**HIS 346V. Twentieth-Century Rural Latin America.**
Same as Latin American Studies 366 (Topic 19: Twentieth-Century Rural Latin America). Examines causes of some of the unresolved conflicts affecting Latin America today, including the social-agrarian relationships linking landlords and campesinos; the role of the state and the impact of official ideologies involving indigenous people; religion and the Catholic Church; the history of rural institutions; and the success or failure of land reforms. Three lecture hours a week for one semester. Only one of the following may be counted: History 346V, 363K (Topic: Twentieth-Century Rural Latin America), Latin American Studies 366 (Topic 19). Prerequisite: Upper-division standing.

**HIS 346W. Church and State in Latin America.**
Same as Latin American Studies 366 (Topic 21) and Religious Studies 368D. History of Church-state relations and religious politics in modern Latin America, with emphasis on the nineteenth to early twentieth-century periods. Three lecture hours a week for one semester. Only one of the following may be counted: History 346W, Latin American Studies 366 (Topic 21), Religious Studies 368 (Topic 1), 368D. Prerequisite: Upper-division standing.

**HIS 347C. Reimagining Cuba, 1868-Present.**
Same as African and African Diaspora Studies 345M and Latin American Studies 366 (Topic 22). Explores Cuban-United States relations from the nineteenth century to the present, including issues of empire and transnationalism, and social change engagements between Cuba and the United States before and after the Cuban Revolution. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 345M, 374E (Topic 4), History 347C, Latin American Studies 366 (Topic 22). Prerequisite: Upper-division standing.

**HIS 347J. Puerto Rico In Crisis.**

**HIS 347L. Seminar in Historiography.**
Restricted to students in the History Honors Program. Designed to familiarize students in the honors program with general problems of historiography, historical interpretation, and the philosophy of history. Three lecture hours a week for one semester. Prerequisite: Consent of instructor.

**HIS 347N. Urban Slavery in the Americas.**

**HIS 347P. When Christ was King.**
Same as Latin American Studies 366 (Topic 35) and Religious Studies 368C. The history of Catholicism in twentieth-century Mexico, often seen as Latin America’s most “Catholic” nation. Three lecture hours a week for one semester. Only one of the following may be counted: History 347P, 350L (Topic: When Christ was King), Latin American Studies 366 (Topic: When Christ was King), 366 (Topic 35), Religious Studies 368 (Topic: When Christ was King), 368C. Prerequisite: Upper-division standing.

**HIS 347R. Chile: From Revolution to Counterrevolution.**
Same as Latin American Studies 366 (Topic 37). An examination of the key political, social, and economic events that underpin contemporary Chilean society. Three lecture hours a week for one semester. Only one of the following may be counted: History 347R, 350L (Topic: Chile: Revoltn to Cnterrevlvt), Latin American Studies 366 (Topic: Chile: Revoltn to Cnterrevlvt), 366 (Topic 37). Prerequisite: Upper-division standing.
HIS 349R. Military History to 1640.
A broad survey of world military systems from ancient times to about 1640. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

HIS 349S. Survey of Military History, 1640 to 1900.
An investigation of world military systems and of the evolution of military technology from about the time of the Thirty Years’ War to the end of the nineteenth century. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

HIS 350L. Undergraduate Seminar in History.
Lectures, discussion, reading, and research on selected topics in the field of history. Three lecture hours a week for one semester. History 350L and 350R may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

Topic 5: Gandhi and Gandhism. Same as Asian Studies 361 (Topic 6) and Religious Studies 341C. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic 6), History 350L (Topic 5), Religious Studies 341 (Topic 5), 341C. Additional prerequisite: Upper-division standing.

Topic 32: The Galileo Affair. Same as Religious Studies 356G. Examine the life and work of Galileo Galilei (1564-1642), particularly his conflict with Church authorities and his condemnation in 1633. Three lecture hours a week for one semester. Only one of the following may be counted: History 350L (Topic 32), Religious Studies 356G, 357 (Topic: The Galileo Affair). Additional prerequisite: Upper-division standing.

Topic 33: Heresy and the Inquisition. Same as Religious Studies 357D. Three lecture hours a week for one semester. Only one of the following may be counted: History 350L (Topic 33), Religious Studies 357 (Topic 1), 357D. Additional prerequisite: Upper-division standing.

Topic 34: Medieval Islam: Faith and History. Same as Middle Eastern Studies 343 (Topic 5) and Religious Studies 358E. Three lecture hours a week for one semester. Only one of the following may be counted: History 350L (Topic 34), Middle Eastern Studies 343 (Topic 5), Religious Studies 358 (Topic 2), 358E. Additional prerequisite: Upper-division standing.

Topic 41: Stalinist Russia. Same as Russian, East European, and Eurasian Studies 335 (Topic 12). History 350L (Topic 41) and Russian, East European, and Eurasian Studies 335 (Topic 12) may not both be counted. Additional prerequisite: Upper-division standing.

Topic 42: History of Modern Central America. Same as Latin American Studies 366 (Topic 15: History of Modern Central America). Only one of the following may be counted: History 350L (Topic 42), 363K (Topic: History of Modern Central America), Latin American Studies 366 (Topic 15).

Topic 46: Women and Gender in China. Same as Asian Studies 372J and Women’s and Gender Studies 340 (Topic 18). Examine women and gender in China from imperial times to the present. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 372 (Topic 21), 372J, History 350L (Topic 46), Women’s and Gender Studies 340 (Topic 18). Additional prerequisite: Upper-division standing.

Topic 49: History of Imperialism.

Topic 50: Imperialism: Empire to Globalization.

Topic 54: Epics and Heroes of India. Same as Asian History and Classical Civilization 330 (Topic 2), Asian Studies 373G, and Core Texts and Ideas 344. Focus on India’s classical epics, the Mahabharata and the Ramayana, with emphasis placed on understanding the epic characters in relation to the heroic traditions of premodern India, as well as on the role of the epics in contemporary Indian political and religious culture. Three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 330 (Topic 2), Asian Studies 372 (Topic 40), 373G, Core Texts and Ideas 345 (Topic 11), 344, History 350L (Topic 54). Additional prerequisite: Upper-division standing.

Topic 56: Germany since Hitler. Same as Japanese Studies 364 (Topic 12). Analyze the effects of Hitler’s dictatorship upon German society, politics, economy, and culture. Only one of the following may be counted: Jewish Studies 364 (Topic: Germany Since Hitler), 364 (Topic 12), History 350L (Topic 56). Additional prerequisite: Upper-division standing.

Topic 57: Law and Society in Early Modern Europe. Same as European Studies 346 (Topic 4: Law and Society in Early Modern Europe) and Women’s and Gender Studies 340 (Topic 13: Law and Society in Early Modern Europe). Research seminar on how historians have explored the significance of law, criminal and civil, in the lives of early modern Europeans. Topics include infanticide, fornication, drunkenness, theft, debt, slander, and family disputes. Only one of the following may be counted: European Studies 346 (Topic 4), History 350L (Topic 57), Women’s and Gender Studies 340 (Topic 13).

Topic 59: Stalin’s Russia at War. Only one of the following may be counted: History 350L (Topic 59), 362G (Topic: Stalin’s Russia at War), 366N (Topic: Stalin’s Russia at War).

Topic 62: History of the Caribbean. Same as Latin American Studies 366 (Topic 18: History of the Caribbean). Overview of Caribbean history from 1492 to the present. Topics include contact between European and native cultures, piracy, slavery, colonialism and decolonization, and revolutions.

Topic 63: Electrification. An examination of how electrical technologies have changed the workings of the world and the lives of ordinary people over the past 175 years. History 350L (Topic: Electrification) and 350L (Topic 63) may not both be counted.

Topic 64: Einstein in the Age of Conflict. Same as Core Texts and Ideas 371. Following the life and work of Albert Einstein, course examines the rise of the theories of relativity and quantum mechanics upon the stage of international political upheaval. Only one of the following may be counted: Core Texts and Ideas 370 (Topic: Einstein in the Age of Conflicts), History 350L (Topic: Einstein in the Age of Conflicts), 350L (Topic: 64).

Topic 65: The Chinese in Diaspora. Same as Asian American Studies 325C and Asian Studies 361 (Topic 28). Explores narratives of migration, race, ethnicity, and a wide range of experiences of acculturation and assimilation from the perspective of a sending society—China—which has one of the longest and most diverse histories of sending people overseas. Over the last millennia, Chinese have migrated around the world and made homes under a great range of adversity and opportunity, producing many stories of human differences and commonalities. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 325 (Topic 2), 325C, Asian Studies 361 (Topic 28), History 350L (Topic 65). Additional prerequisite: Upper-division standing.

Topic 66: Dictatorship, Dirty War, and Democracy in Latin America. Same as Latin American Studies 366 (Topic 23). Only one of the following may be counted: History 350L (Topic: Dictator/Dirty War in

**Topic 67: Mughal India in History and Memory.** Same as Asian Studies 361 (Topic 33). Focuses on South Asia during the era of the Mughal empire (1550-1750), continuing through the symbolic relevance of the Mughal dynasty in British India and in India today. Only one of the following may be counted: Asian Studies 361 (Topic 33), History 350L (Topic 67), Islamic Studies 372 (Topic 20).

**Topic 69: The Decolonization of the British Empire.** Explores the era of decolonization of the British empire after World War II. Only one of the following may be counted: History 350L (Topic: Decolonization of British Empire), 350L (Topic 69), Liberal Arts Honors 350 (Topic: Decolonization of British Empire), 350 (Topic 8).

**Topic 70: Historical Imagining of Africa in Films.** Same as African and African Diaspora Studies 340L and Women's and Gender Studies 340 (Topic 40). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 340L, 374F (Topic 18), History 350L (Topic 70), Women's and Gender Studies 340 (Topic 40). Additional prerequisite: Upper-division standing.

**Topic 71: Liberalism and the British Empire.** Explores the emergence of the political and economic ideas of liberalism in Britain and the evolution of British overseas expansion during the seventeenth-, eighteenth-, and early nineteenth- centuries. History 350L (Topic: Liberalism and the British Empire) and 350L (Topic 71) may not both be counted.

**Topic 72: History of Southern Africa.** Same as African and African Diaspora Studies 3400 and Women's and Gender Studies 340 (Topic 39). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 3400, 374C (Topic 4), History 350L (Topic 72), Women's and Gender Studies 340 (Topic 39). Additional prerequisite: Upper-division standing.

**Topic 73: Race, Science, and Racism.** Explores important episodes in the history of biology regarding the classification of human races. History 350L (Topic: Race, Science, and Racism) and 350L (Topic 73) may not both be counted.

**Topic 74: Mystics, Visionaries, and Heretics in Medieval Europe.** Same as Ancient History and Classical Civilization 330 (Topic 3) and Religious Studies 375S (Topic 3). Examines particular mystical and visionary experiences within the context of medieval European Christianity. Only one of the following may be counted: Ancient History and Classical Civilization 330 (Topic: Mystics, Visionaries and Heretics in Medieval Europe), 330 (Topic 3), History 350L (Topic: Mystics, Visionaries and Heretics in Medieval Europe), 350L (Topic 74), Religious Studies 375S (Topic: Mystics, Visionaries and Heretics in Medieval Europe), 375S (Topic 3).

**Topic 75: Rethinking the Conquest of Mexico.** Same as Latin American Studies 366 (Topic 24). Explores the "conquest" of Mexico and the social, cultural, political, and economic processes which were set in motion by the Spanish invasion of Mexico. Only one of the following may be counted: History 350L (Topic: Rethinking Conquest of Mexico), 350L (Topic 75), Latin American Studies 366 (Topic: Rethinking Conquest of Mexico), 366 (Topic 24), Tutorial Course 357 (Topic: Rethinking Conquest of Mexico).

**Topic 76: The Religious Tradition in Latin America.** Same as Latin American Studies 366 (Topic 25) and Religious Studies 368E. Explores the different ways in which religion has helped to define the political, social, and philosophical structures of Latin America from colonial times to the present. Three lecture hours a week for one semester. Only one of the following may be counted: History 350L (Topic 76), Latin American Studies 366 (Topic 25), Religious Studies 368 (Topic 3), 368E. Additional prerequisite: Upper-division standing.

**Topic 77: The Spanish Inquisition.** Same as European Studies 346 (Topic 11), Jewish Studies 364 (Topic 5), and Religious Studies 357L. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 346 (Topic 11), History 350L (Topic 77), Jewish Studies 364 (Topic 5), Religious Studies 357 (Topic 10), 357L. Additional prerequisite: Upper-division standing.

**Topic 79: World War II in Eastern Europe.** Same as European Studies 346 (Topic 12), Jewish Studies 364 (Topic 11), and Russian, East European, and Eurasian Studies 335 (Topic 19). Examines the war in Eastern Europe with a particular emphasis on occupation, collaboration, and resistance; the Holocaust; and the connection between ethnic cleansing, population transfer, and the establishment of communism in postwar Eastern Europe. Only one of the following may be counted: European Studies 346 (Topic: World War II in Eastern Europe), 346 (Topic 12), History 350L (Topic: World War II in Eastern Europe), History 350L (Topic 79), Jewish Studies 364 (Topic: World War II in Eastern Europe), 364 (Topic 11), Russian, East European, and Eurasian Studies 335 (Topic: World War II in Eastern Europe), 335 (Topic 19).

**Topic 80: Creation.** Same as European Studies 346 (Topic 13) and Religious Studies 373F. Explores the writings of premodern authors as related to creation and early developments in Western theology, science, and philosophy. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 346 (Topic 13), History 350L (Topic 80), Religious Studies 373 (Topic 5), 373F. Additional prerequisite: Upper-division standing.

**Topic 81: Enlightenment and Revolution.** Same as Core Texts and Ideas 375 (Topic 3) and European Studies 346 (Topic 14). Examines the relationship between the intellectual project of the Enlightenment and the political and social transformations that unfolded in Western Europe and North America from the beginnings of the Dutch Revolt in the 1560s to the decade following the Paris Commune of 1871. Only one of the following may be counted: Core Texts and Ideas 375 (Topic: Enlightenment and Revolution), 375 (Topic 3), European Studies 346 (Topic: Enlightenment and Revolution), 346 (Topic 14), History 350L (Topic: Enlightenment and Revolution), 350L (Topic 81). Additional prerequisite: Upper-division standing.

**Topic 82: Indian Ocean Travel and Trade, 1000-1700.** Examines long-distance travel and trade in the Indian Ocean region from approximately 1000 to 1700 AD. Only one of the following may be counted: Asian Studies 361 (Topic: Indian Ocean Travel and Trade, 1000-1700), History 350L (Topic: Indian Ocean Travel and Trade, 1000-1700), 350L (Topic 82).

**Topic 83: Writing Violence in History.** Examines how historians have approached episodes of violence and will also look outside of the discipline of history to see how psychoanalysts, anthropologists, novelists, and activists have both understood violence and how they represent it in their work. History 350L (Topic: Writing Violence in History) and 350L (Topic 83) may not both be counted.

**Topic 84: African Travel Narratives.** Same as African and African Diaspora Studies 340J. Examines histories of Africa and travel through eyewitness accounts. Studies journeys Africans have made...

**Topic 85: The Cold War in Five Continents.** Examination of the Cold War and the ensuing conflicts around the world (1945-1990). History 350L (Topic: The Cold War in Five Continents) and 350L (Topic 85) may not both be counted.

**Topic 86: Latin America in the Nineteenth Century.** Same as Latin American Studies 366 (Topic 32). Questions the geographical category of Latin America by examining the kinds of trends and forces of the nineteenth century that contributed to its conceptual emergence and to its growing political, economic, and cultural significance on the global stage. Only one of the following may be counted: History 350L (Topic: Latin America in the Nineteenth Century), 350L (Topic 86), Latin American Studies 366 (Topic: Latin America in the Nineteenth Century), 366 (Topic 32).

**Topic 87: Global Environmental History.** Explore how human societies and natural environments have shaped each other in world history. History 350L (Topic: Global Environmental History) and 350L (Topic 87) may not both be counted.

**Topic 89: Poland and the Second World War.** Examines the occupation of Poland by Germany and the Soviet Union and the ways in which this dual occupation impacted people and their communities. History 350L (Topic: Poland and the Second World War) and 350L (Topic 89) may not both be counted.

**Topic 90: Research on the Global Cold War.** Engage in original research in international relations during the turbulent era of the Cold War. Focus on one country in Latin America, Africa, Europe, the Middle East, or Asia in order to study the relationship between it and the United States during the administration of President Lyndon Baines Johnson. History 350L (Topic: Research on the Global Cold War) and 350L (Topic 90) may not both be counted.

**Topic 91: History of Money and Corruption.** Investigate how financial crises have arisen in the past and to what extent they transpired because of wrongdoing. History 350L (Topic: Hist of Money/Corruption) and 350L (Topic 91) may not both be counted.

**Topic 92: Uprising in India-1857.** Same as Asian Studies 361 (Topic 41). Introduces the problems faced with the uprising of 1857 in India, the most violent and widespread attempt ever made to destroy the British empire in South Asia. Only one of the following may be counted: Asian Studies 361 (Topic: Uprising in India-1857), 361 (Topic 41), History 350L (Topic: Uprising in India-1857), 350L (Topic 92).

**Topic 93: Russian and Soviet Film: Uses of History.** Same as Russian, East European, and Eurasian Studies 335 (Topic 28). Explore twentieth-century Russian history through its representation in film. Only one of the following may be counted: History 350L (Topic: Rus/Soviet Film: Uses of Hist), 350L (Topic 93), Russian, East European, and Eurasian Studies 335 (Topic: Rus/Soviet Film: Uses of Hist), 335 (Topic 28). Additional prerequisite: Upper-division standing.

**Topic 94: Women and Wealth in South Asia.** Same as Asian Studies 372Q and Women’s and Gender Studies 340 (Topic 68). Addresses the questions surrounding poverty of South Asian women by combining legal, political and social histories of the subcontinent over four centuries. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 372 (Topic: Women and Wealth in South Asia), 372Q, History 350L (Topic: Women and Wealth in South Asia), 350L (Topic 94), Women’s and Gender Studies 340 (Topic: Women and Wealth in South Asia), 340 (Topic 68). Additional prerequisite: Upper-division standing.

**Topic 95: Radical Hope and Global Environmental History.** Explore the meaning of “radical hope” and how it is related to the environment, climate change, or the Anthropocene. History 350L (Topic: Radical Hope and Global Enviro) and 350L (Topic 95) may not both be counted.

**Topic 97: Global Commodities: Asia and the World.** Same as Asian Studies 361L. Explore the vital role of commodities in Asian history with a particular focus on East and Southeast Asia. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic: Global Commodities: Asia and T), 361L, History 350L (Topic: Global Commodities: Asia and T), 350L (Topic 97). Additional prerequisite: Upper-division standing.

**HIS 350R. Undergraduate Seminar in United States History.** Lectures, discussion, reading, and research on selected topics in the field of United States history. Three lecture hours a week for one semester. History 350L and 350R may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and six semester hours of coursework in history.

**Topic 1: Coastal Communities in Early America.** Same as American Studies 370 (Topic 62). Only one of the following may be counted: American Studies 370 (Topic: Coastal Commun in Early Amer), 370 (Topic 62), History 350R (Topic 1). Additional prerequisite: Upper-division standing and six semester hours of coursework in history.

**Topic 2: Lyndon Johnson and His Times.**

**Topic 3: Myth and Construction of American Identity.**

**Topic 4: Constitutional Issues in the Twentieth-Century United States.**

**Topic 5: American Cultural History of Alcohol and Drugs.** Same as American Studies 370 (Topic 1). Study of the American use and perception of drugs, including alcohol, and how they have changed over time. Examines significant shifts in American attitudes toward individualism and social control. American Studies 370 (Topic 1) and History 350R (Topic 5) may not both be counted.

**Topic 6: Deviance in America: An Alternative History.** Same as American Studies 370 (Topic 22). Examines movements and individuals outside the conventional mainstream and how they reflect American ideals and dilemmas. American Studies 370 (Topic 22) and History 350R (Topic 6) may not both be counted.

**Topic 7: Environmental History of North America.** Same as American Studies 329 and Urban Studies 328E. The history of humanity’s influence on the plants, animals, microflora, soils, water, and air of North America, and vice versa, from the arrival of the proto-Indians to the contemporary environmental crisis. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 329, History 350R (Topic 7), Urban Studies 328E, 353 (Topic 5). Additional prerequisite: Upper-division standing and six semester hours of coursework in history.

**Topic 8: Women in Postwar America.** Same as American Studies 370 (Topic 30) and Women’s and Gender Studies 345 (Topic 37). Only one
of the following may be counted: American Studies 370 (Topic 30), History 350R (Topic 8), Women's and Gender Studies 345 (Topic 37). **Topic 9: Animals and American Culture.** Same as American Studies 370 (Topic 28) and Women's and Gender Studies 345 (Topic 43). Explores the role of animals in American history, culture, and society. Only one of the following may be counted: American Studies 370 (Topic 28), History 350R (Topic 9), Women's and Gender Studies 345 (Topic 43).

**Topic 10: Slavery in the United States.** African and African Diaspora Studies 374D (Topic 3) and History 350R (Topic 10) may not both be counted.

**Topic 11: Race and Beauty in American Culture.** African and African Diaspora Studies 372C (Topic 2) and History 350R (Topic 11) may not both be counted.

**Topic 13: History of Sexuality in America.** Same as Women's and Gender Studies 345 (Topic 38), History 350R (Topic 13) and Women's and Gender Studies 345 (Topic 38) may not both be counted. Additional prerequisite: Six semester hours of coursework in history.

**Topic 14: Gender and Slavery in the United States.** Same as African and African Diaspora Studies 350V and Women's and Gender Studies 345 (Topic 31). Examines the gendered experience of chattel slavery in the United States. Includes critical analysis of classic and contemporary texts, films, and songs that focus on slave labor, family, community, sexuality, and the economy. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350V, 372C (Topic 4), History 350R (Topic 14), Women's and Gender Studies 345 (Topic 31). Additional prerequisite: Upper-division standing and six semester hours of coursework in history.

**Topic 15: Innovation in the United States Economy.** Examines creativity in the United States’ economy, primarily since 1865. Includes major innovations associated with the evolution of the economy, such as the development of branding and the coming of the computer industry.

**Topic 17: Black Women in America.** Same as African and African Diaspora Studies 351G and Women's and Gender Studies 340 (Topic 9). Uses primary sources, historical monographs, and essays to provide a chronological and thematic overview of the experiences of black women in America from their African roots to the circumstances they face in the present era. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 351G, 374D (Topic 9), History 350R (Topic 17), Women's and Gender Studies 340 (Topic 9). Additional prerequisite: Upper-division standing and six semester hours of coursework in history.

**Topic 18: Women in Sickness and Health.** Same as Women’s and Gender Studies 345 (Topic 3). Explores medical and biological views throughout the nineteenth and twentieth centuries of women and women’s health, the social context of those views, the development of medical practices, and the treatment of illness and debility. Only one of the following may be counted: History 350L (Topic: Women in Sickness and Health), 350R (Topic 18), Women’s and Gender Studies 345 (Topic 3). Additional prerequisite: Six semester hours of coursework in history.

**Topic 19: American Popular Culture, 1682-Present.** Same as American Studies 370 (Topic 35) and Women’s and Gender Studies 340 (Topic 26). Explores the evolution of American popular culture and its relationship to national consolidation, and at times, disunion, over the last 330 years.

**Topic 20: History of American Feminism.** Same as Women’s and Gender Studies 345 (Topic 49). Only one of the following may be counted: History 350R (Topic: History of American Feminism), 350R (Topic 20), Women’s and Gender Studies 345 (Topic: History of American Feminism), 345 (Topic 49).

**Topic 21: Pluralism in Early America.** Only one of the following may be counted: History 350L (Topic: Pluralism in Early America), 350R (Topic: Pluralism in Early America), 350R (Topic 21).

**Topic 22: The History of Islam in the United States.** Same as American Studies 370 (Topic 61) and Religious Studies 346U. A brief introduction to Islam. Defines the role of Islam and views of Muslims in the early history of the United States, and introduces students to major issues concerning contemporary American Muslims. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 370 (Topic 61), History 350R (Topic 22), Islamic Studies 372 (Topic 21), Religious Studies 346 (Topic 10), 346U. Additional prerequisite: Upper-division standing and six semester hours of coursework in history.

**Topic 23: Twentieth-Century Native American History.** Studies Native American life and culture from the late nineteenth- to the twentieth-century through the use of historical and anthropological texts, autobiographies, documentaries, and fiction. Three lecture hours a week for one semester. Only one of the following may be counted: History 350L (Topic: Twentieth-Century Native American History), 350R (Topic: Twentieth-Century Native American History), 350R (Topic 23).

**Topic 24: Domestic Slave Trade.** Same as African and African Diaspora Studies 350T. Explores the inner workings of the domestic slave trade from the perspectives of slaveholders, speculators, and the enslaved. Analysis of maps, letters, diaries, newspaper advertisements, and legislation relating to the domestic slave trade. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350T, 374D (Topic 20), History 350R (Topic 24). Additional prerequisite: Upper-division standing and six semester hours of coursework in history.

**Topic 26: United States Media, Culture, and Commerce.** Examines the history of the United States media as both a successful corporate product and as an important tool for the formation of personal and community identity. Only one of the following may be counted: History 350L (Topic: United States Media, Culture, and Commerce), 350R (Topic: United States Media, Culture, and Commerce), 350R (Topic 26).

**Topic 27: Arts and Artifacts in the Americas.** Same as American Studies 370 (Topic 59). Surveys the changing material culture of the western hemisphere from pre-Columbian times to the beginning of the industrial revolution. Only one of the following may be counted: American Studies 370 (Topic: Arts/Artifacts in the Americas), 370 (Topic 59), History 350R (Topic: Arts/Artifacts in the Americas), 350R (Topic 27). Additional prerequisite: Upper-division standing and six semester hours of coursework in history.

**Topic 28: Debating the American Revolution.** Examination of the precipitant events and ideas leading up to the American Declaration of Independence through discussions, lectures, and an extended
exercise in historical role playing. History 350R (Topic: Debating the American Revolution) and 350R (Topic 28) may not both be counted. **Topic 29: Globalization, Transnationalism, and Internationalism.** Addresses the complex role of the United States in the greater scope of international relations in politics, with an emphasis on how political events in the United States reach the African continent in a variety of ways. Only one of the following may be counted: African and African Diaspora Studies 374C (Topic 3), History 350R (Topic 29). Additional prerequisite: Upper-division standing. **Topic 30: History of Teaching American History.** Examination and evaluation of the role of the historian and teacher of history today and the changing ideas of how American history has been taught. Only one of the following may be counted: History 350L (Topic: History of Teaching American History), 350R (Topic: History of Teaching American History), 350R (Topic 30). **Topic 31: Irrationality in United States Economic History.** Explores new research from psychology, economics, history, and law that finds human beings have acted irrationally in numerous situations. Students will sample historical research from subjects such as marketing, labor policies, and public policy. History 350R (Topic: Irrationality in United States Economic History) and 350R (Topic 31) may not both be counted. **Topic 32: America at War.** Investigation of major American wars from the Revolutionary War to the wars in Iraq and Afghanistan. Only one of the following may be counted: History 350L (Topic: America at War), 350R (Topic: America at War), 350R (Topic 32). **Topic 33: Consuming America.** Explores the history of the relationship between the American consumer and the nation's social history. Only one of the following may be counted: History 350L (Topic: Consuming America), 350R (Topic: Consuming America), 350R (Topic 33). **Topic 35: The Civil Rights Movement from a Comparative Perspective.** Same as African and African Diaspora Studies 350U, American Studies 370 (Topic 60), and Mexican American Studies 364C. Focuses on African American and Mexican American struggles for civil rights. Asian American and Native American movements will also be addressed. Using a comparative approach the student will consider the distinctiveness of each of these struggles while also viewing them in relation to each other. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350U, 374D (Topic: Civil Rts Mov from Comp Persp), 374D (Topic 18), American Studies 370 (Topic: Civil Rts Mov from Comp Persp), 370 (Topic 60), History 350R (Topic 35), Mexican American Studies 364C, 374 (Topic: Civil Rts Mov from Comp Persp). Additional prerequisite: Upper-division standing and six semester hours of coursework in history. **Topic 37: Refugees in Twentieth-Century United States.** Same as Asian American Studies 325K. Explores the history of refugees in the twentieth century, with special attention to the United States and its engagement in the international arena of refugee politics. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 325 (Topic: Refugees in 20th-Century US), 325 (Topic 10), 325K, History 350R (Topic: Refugees in 20th-Century US), 350R (Topic 37). Additional prerequisite: Upper-division standing and six semester hours of coursework in history. **Topic 38: Barack Obama and American Democracy.** Same as African and African Diaspora Studies 350N. Focuses on the impact of Barack Obama's watershed presidency on American democracy. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350N, 372F (Topic: Obama/American Democracy), History 350R (Topic: Obama/American Democracy), 350R (Topic 38). Additional prerequisite: Upper-division standing and six semester hours of coursework in history. **Topic 39: Alexander Hamilton and Thomas Jefferson in Context.** Examination of the public and private lives of Thomas Jefferson and Alexander Hamilton, their roles in the American Revolution, and the
HIS 352F. The Mexican Revolution, 1910-1940.
Same as Latin American Studies 366 (Topic 46). Explore the initial decade of the Mexican Revolution, the first of the twentieth-century nationalist social revolutions. Examine the historical antecedents and the political, economic, social, and intellectual elements of the upheaval. Three lecture hours a week for one semester. Only one of the following may be counted: History 352F, 352L, Latin American Studies 366 (Topic 8), 366 (Topic 46). Prerequisite: Upper-division standing.

HIS 352G. History of Modern Mexico, 1940-present.
Same as Latin American Studies 366 (Topic 45). Introduction to the history of modern Mexico from the close of the Mexican Revolution (1940) to the present. Three lecture hours a week for one semester. Only one of the following may be counted: History 352G, 366N (Topic: History Modern Mexico, 1940-Pres), Latin American Studies 366 (Topic 45). Prerequisite: Upper-division standing.

HIS 352P. England in the Twentieth Century.
A survey of political, economic, social, and intellectual trends, with emphasis on class relationships. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 346 (Topic: England in the Twentieth Century), History 352P, 362G (Topic: England in the Twentieth Century). Prerequisite: Upper-division standing.

HIS 353. The French Revolution and Napoleon.
Same as Core Texts and Ideas 363 and European Studies 346 (Topic 25). Analysis of the social, political, and economic origins and outcomes of the French Revolution and Napoleon’s empire. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 346 (Topic: French Revolution and Napoleon), 346 (Topic 25), Core Texts and Ideas 363, 375 (Topic: French Revolution and Napoleon), History 353. Prerequisite: Upper-division standing.

HIS 354E. Archaic and Classical Greece.
Same as Ancient History and Classical Civilization 325 (Topic 7) and Core Texts and Ideas 375 (Topic 7). Survey of Greek history from the emergence of the city-states to the rise of Macedonia. Two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 325 (Topic 4), 325 (Topic 7), Classical Civilizations 345C, Core Texts and Ideas 375 (Topic: Archaic and Classical Greece), 375 (Topic 7), History 354C, 354E. Prerequisite: Upper-division standing.

HIS 354F. The Three French Wars of the Twentieth Century.
Focuses on 20th century France, with an emphasis on three critical conflicts: World War One, World War Two, and the Algerian war. Three lecture hours a week for one semester. History 354F and 362G (Topic: Three French Wars: 20th Cen) may not both be counted. Prerequisite: Upper-division standing.

HIS 354N. France in Modern Times.
The impact of revolution on French political, economic, and social development in the nineteenth and twentieth centuries. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

HIS 355F. The United States, 1877-1920.
Examines the Gilded Age and Progressive Era to depict the rise of modern America. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

Same as American Studies 358. A history of political, economic, diplomatic, military, social, and cultural developments in the United States between the two world wars. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

HIS 355N. Main Currents of American Culture to 1865.
Same as American Studies 355. Traces the development of American culture and society from the colonial era until the end of the Civil War. Major themes include racial conflict, religion, slavery, the development of democracy, and cultural reform. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

HIS 355P. The United States since 1941.
A history of political, economic, diplomatic, social, and cultural developments in the United States since the nation’s entry into World War II. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

HIS 355S. United States Constitutional History.
A lecture and discussion course dealing with the history of the development of the American constitutional tradition from colonial times to the present. Three lecture hours a week for one semester. History 355S and 366N (Topic: United States Constitutional History) may not both be counted. Prerequisite: Upper-division standing.

HIS 356G. History of the United States West.
Examines the history of the trans-Mississippi West with a special focus on the concepts of conquest, resistance, and region from the nineteenth to the twentieth century. Three lecture hours a week for one semester. History 356G and 365G (Topic: History of the United States West) may not both be counted. Prerequisite: Upper-division standing.

HIS 356K. Main Currents of American Culture since 1865.
Same as American Studies 356. Traces the development of American culture and society from the end of the Civil War to the present. Major themes include racial conflict, pluralism, religion, urban development and reform, modernism, government centralization, cultural radicalism, and the rebirth of conservatism. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

HIS 356L. The United States in the Civil Rights Era.
Same as African and African Diaspora Studies 351L and American Studies 321 (Topic 9). Examines United States history in the post-World War II era, including how civil rights and other racial issues helped shape the politics, popular culture, and social life of this period. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 351L, 374D (Topic 17), American Studies 321 (Topic 9), History 356P, Mexican American Studies 374 (Topic 36). Prerequisite: Upper-division standing.

HIS 356R. America and the Holocaust.
Same as American Studies 321 (Topic 4) and Jewish Studies 365 (Topic 1). Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic 4), 370 (Topic: America and the Holocaust), History 350L (Topic: America and the Holocaust), 356R, 365G (Topic: America and the Holocaust), Jewish Studies 361 (Topic: America and the Holocaust), 365 (Topic 1), Liberal Arts Honors 350 (Topic: America and the Holocaust). Prerequisite: Upper-division standing.

HIS 356S. American Presidency: 1789 to the Present.
Examines the presidency and the individuals who have held it, with an eye toward discovering trends of historical and contemporary interest. Three lecture hours a week for one semester. Only one of the following may be counted: History 350R (Topic: The History of the American Presidency), 35OR (Topic 34: The History of the American Presidency),

**HIS 357C. African American History to 1860.**
Same as African and African Diaspora Studies 357C and American Studies 321E. Review of West African origins; New World settlement patterns, social life, and culture; discussion of the Atlantic slave trade, the development of capitalism and plantation slavery, and the origins of racism. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 357C, American Studies 321 (Topic: African American History to 1860), 321E, History 357C. Prerequisite: Upper-division standing.

**HIS 357D. African American History since 1860.**

**HIS 357Q. German-American Immigration and Ethnicity.**
Same as American Studies 360D and German, Scandinavian, and Dutch Studies 362E. Explore German immigration to the United States from the colonial era to the present. Examine the motivations for migration; settlement patterns; construction of identity through traditions and festivals; German American’s economic, social, and cultural contributions to the United States; and challenges to assimilation. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 360D, German, Scandinavian, and Dutch Studies 360 (Topic: German-American Immigration/Ethnic), 362E, History 357Q. Prerequisite: Upper-division standing.

**HIS 358M. History of Britain from 1783 through World War I.**
Same as European Studies 346 (Topic 1). Surveys the political, social, economic, and intellectual history of Great Britain from the years preceding the outbreak of the French Revolution to the conclusion of World War I. Three lecture hours a week for one semester. European Studies 346 (Topic 1) and History 358M may not both be counted. Prerequisite: Upper-division standing.

**HIS 358Q. Supervised Research.**
Individual instruction. Prerequisite: Upper-division standing.

**HIS 359C. African Cities Since 1500.**
Same as African and African Diaspora Studies 341 and Urban Studies 321G. Explore Africa’s past through the story of urbanization beginning with an overview of African cities around 1500—a time of increasing human migration and global trade. Assess African cities in the modern period, focusing on the advent of European colonialism in the 1800s and its aftermath. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 341, 374C (Topic: African Cities Since 1500), History 359C, History 366N (Topic: African Cities Since 1500), Urban Studies 321G. Prerequisite: Upper-division standing.

**HIS 359D. Fashion in Africa.**
Same as African and African Diaspora Studies 341C. Examine fashion history through readings, videos, social media, and textile making to provide an immersive experience in African design history. Address the ways in which textiles are tied to class distinctions and politics, wrapped up in the history of trade (including human trafficking and slavery), mixed into revolutionary struggles and post-independent governance, and inspire haute couture and global fashion trends. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 341C, History 350L (Topic: Fashion in Africa), 359D. Prerequisite: Upper-division standing.

**HIS 359N. History of Africa since 1800.**
Same as African and African Diaspora Studies 359N. Development of sub-Saharan Africa from the end of the slave trade to independence. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**HIS 359P. History of East Africa.**
Same as African and African Diaspora Studies 345. A survey of the history of Kenya, Tanzania, and Uganda from prehistoric times to the postindependence era. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**HIS 359R. History of West Africa.**
Same as African and African Diaspora Studies 345C. A history of the West Africa region: the rise and fall of kingdoms, relations with Europe and Asia, the great revolutions of the nineteenth century, colonial administration, decolonization, and the search for economic development and political stability since independence. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**HIS 359S. Mandela: The Man and His Politics.**

**HIS 361C. The World of the Victorians.**
Same as European Studies 346 (Topic 39). Introduction to the main contours of social and cultural British history, both in Britain and in its burgeoning empire. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 346 (Topic: The World of the Victorians), 346 (Topic 39), History 361C, 362G (Topic 13). Prerequisite: Upper-division standing.

**HIS 361D. The Church and the Jews.**
Same as European Studies 346 (Topic 28), Jewish Studies 364 (Topic 10), and Religious Studies 357G. Examination of the complex relationship between the Western Church and Jews over two millennia. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 346 (Topic: The Church and the Jews), 346 (Topic 28), History 361D, 362G (Topic 14), Jewish Studies 364 (Topic 10), Religious Studies 357 (Topic 9), 357O. Prerequisite: Upper-division standing.

**HIS 361E. Rebels and Revolutionaries in Russian History and Literature.**
Same as Comparative Literature 323 (Topic 20) and Russian, East European, and Eurasian Studies 325 (Topic 24). Study of fictional and real rebels and revolutionaries across almost a century of Russian literature. Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 323 (Topic 20), History 361E, 362G (Topic 15), Russian 356 (Topic 4), Russian, East European, and Eurasian Studies 325 (Topic 24). Prerequisite: Upper-division standing.
HIS 361F. Berlin.
Same as Comparative Literature 323 (Topic 44), European Studies 347 (Topic 34), German, Scandinavian, and Dutch Studies 361M, and Urban Studies 326F. Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 323 (Topic: Berlin), 323 (Topic 44), European Studies 347 (Topic: Berlin), 347 (Topic 34), German, Scandinavian, and Dutch Studies 360 (Topic: Berlin), 361M, History 361F, 362G (Topic: Berlin), 362G (Topic 17), Urban Studies 326F, 353 (Topic: Berlin), 353 (Topic 7). Prerequisite: Upper-division standing.

HIS 361G. The Sacred and the Secular in Modern European Thought.
Same as Core Texts and Ideas 332, European Studies 346 (Topic 32), and Religious Studies 357S. Introduces key themes and methodologies of intellectual history and social theory by exploring the dueling approaches to secularization and sacralization in modern European thought. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 332, 335 (Topic: Sacred and Secular in Modern European Thought), 335 (Topic 7), European Studies 346 (Topic: Sacred and Secular in Modern European Thought), 346 (Topic 32), History 361G, 362G (Topic: Sacred and Secular in Modern European Thought), 362G (Topic 19), Religious Studies 357 (Topic: Sacred and Secular in Modern European Thought), 357 (Topic 20), 357S. Prerequisite: Upper-division standing.

HIS 361J. Medieval Warfare.
Examine the development of warfare between the late Roman Empire and the early modern world (c. 400-1500), including a brief retrospective on war in the ancient world. Three lecture hours a week for one semester. Only one of the following may be counted: History 361J, 362K (Topic: Medieval Warfare), 362K (Topic 1). Prerequisite: Upper division standing.

HIS 361O. Russia’s Soul: Spiritual Traditions.
Same as Comparative Literature 323 (Topic 79), Religious Studies 325C, and Russian, East European, and Eurasian Studies 325 (Topic 33). Explore complex history of Orthodox Christianity, Judaism, Islam, and Buddhism in Russia. Examine important worship sites, including monasteries and pilgrimage destinations. Have discussions with Russian scholars of religion and practitioners of different faiths. Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 323 (Topic 79), History 361O, Religious Studies 325C, Russian, East European, and Eurasian Studies 325 (Topic 33). Prerequisite: Upper-division standing.

HIS 361Q. Cultural Citizenship in the United States and Latin America.
Same as Latin American Studies 366 (Topic 27). An introduction to the history of relations between the United States and Latin America. Designed to prepare each student for a potential experience in Latin America (or with Latino communities in the United States) such as study abroad, research, and/or community engagement. Three lecture hours a week for one semester. Only one of the following may be counted: History 361Q, 363K (Topic 1), Latin American Studies 366 (Topic 27). Prerequisite: Upper-division standing.

HIS 361R. Nazi Culture and Politics.
Same as European Studies 348 (Topic 10), German, Scandinavian, and Dutch Studies 361V, and Government 368V. Explore fundamental questions about the unique role of culture in modern democracies and dictatorships by taking an overview of culture and politics in the Third Reich. Examine questions about the relationship between political propaganda and modern entertainment, mass media and authoritarianism, political aesthetics and ideology, and the dynamics of oppression, resistance, and consent. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 348 (Topic: Nazi Culture and Politics), 348 (Topic 10), German, Scandinavian, and Dutch Studies 360 (Topic: Nazi Culture and Politics), 361V, Government 365N (Topic: Nazi Culture and Politics), 368V, History 361R, 362G (Topic: Nazi Culture and Politics). Prerequisite: Upper-division standing.

HIS 361S. European Espionage 1914-1989.
Same as Russian, East European, and Eurasian Studies 335 (Topic 32). Examine the development and transformation of espionage, intelligence, and surveillance in Europe from the first World War to the end of the Cold War. Three lecture hours a week for one semester. Only one of the following may be counted: History 361S, 362G (Topic: European Espionage 1914-89), Russian, East European, and Eurasian Studies 335 (Topic 32). Prerequisite: Upper-division standing.

HIS 361T. East European Transnational Worlds to 1914.
Same as Geography 331E and Russian, East European, and Eurasian Studies 335 (Topic 38). Examine an overview of major developments in the economic, political, social, cultural, and gender and sexuality fields of East European history before 1914. Explore diplomacy, institutional legacies of war and peace, urban and rural developments and inequalities, spaces of language and religion, race, labor migration, and the arts. Three lecture hours a week for one semester. Only one of the following may be counted: Geography 331E, History 361T, Russian, East European, and Eurasian Studies 335 (Topic 38). Prerequisite: Upper-division standing.

HIS 361U. Geography in Eastern Europe and Eurasia.
Same as Comparative Literature 323 (Topic 78), Geography 328E, and Russian, East European, and Eurasian Studies 335 (Topic 37). Explore alternatives to nation-state imaginaries across Eastern Europe and Eurasia. Examine spatial thinking, utopia, dystopia, the history of geosciences, counter-mapping, and the decolonial geopolitics of space. Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 323 (Topic 78), Geography 328E, History 361U, Russian, East European, and Eurasian Studies 335 (Topic 37). Prerequisite: Upper-division standing.

HIS 362C. Vienna: Memory and the City.
Same as American Studies 370 (Topic 41), European Studies 346 (Topic 5), and Urban Studies 322C. Examines the ways in which cultural memory has shaped, and continues to shape, urban life in Vienna, Austria. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 370 (Topic 41), European Studies 346 (Topic 5), Geography 356T (Topic: Vienna: Memory and the City), Germanic, Scandinavian, and Dutch Studies 360 (Topic: Vienna: Memory and the City), History 362C, 362G (Topic 2), Urban Studies 322C, 354 (Topic 7). Prerequisite: Upper-division standing.

HIS 362D. Introduction to the Holocaust.
Same as European Studies 346 (Topic 17), Jewish Studies 364 (Topic 6), and Russian, East European, and Eurasian Studies 335 (Topic 17). Examines the mass killing of Jews and other victims in the context of Nazi Germany’s quest for race and space during World War II. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 346 (Topic: Introduction to the Holocaust), 346 (Topic 17), History 362D, 362G (Topic: Introduction to the Holocaust), 362G (Topic 3), Jewish Studies 364 (Topic: Introduction to the Holocaust), 364 (Topic 6), Russian, East European, and Eurasian Studies 335 (Topic: Introduction to the Holocaust), 335 (Topic 17). Prerequisite: Upper-division standing.

HIS 362E. Early Western Colonialism.
Same as European Studies 346 (Topic 15). An examination of the phenomenon of colonialism, with an emphasis on the European
expansion across the globe that began at the end of the western Middle Ages and continued throughout the early modern period. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 346 (Topic: Early Western Colonialism), 346 (Topic 15), History 362E, 362G (Topic: Early Western Colonialism), 362G (Topic 5). Prerequisite: Upper-division standing.

HIS 362F. The First World War.
Examine the tensions and conflicts between 1914 and 1918 that set the stage for the violent twentieth century. Three lecture hours a week for one semester. Only one of the following may be counted: History 362F, 362G (Topic: First World War), 362G (Topic 6). Prerequisite: Upper-division standing.

HIS 362P. Spinoza and Modernity.
Same as Core Texts and Ideas 321F, European Studies 346 (Topic 21), Jewish Studies 364 (Topic 9), and Religious Studies 357M. Introduction to the core of Spinoza’s writings and the diverse reactions they have elicited. Examines Spinoza’s refusal of mind-body dualism, as well as a transcendent god or ideal as a way of understanding Spinoza’s concepts and ideas. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 321F, European Studies 346 (Topic 21), 347 (Topic: Spinoza and Modernity), History 362P, Jewish Studies 364 (Topic 9), Philosophy 354 (Topic 7), Religious Studies 357 (Topic 8), 357M. Prerequisite: Upper-division standing.

HIS 362Q. Eastern Europe in the Twentieth Century.
Same as European Studies 346 (Topic 16) and Russian, East European, and Eurasian Studies 335 (Topic 16). Examines the major political, social, and cultural events that shaped Eastern European society in the twentieth century. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 346 (Topic 16), History 362G (Topic 7), 362Q, Russian, East European, and Eurasian Studies 335 (Topic 16). Prerequisite: Upper-division standing.

HIS 362R. Jews of Eastern Europe.
Same as Jewish Studies 364 (Topic 7), Religious Studies 357E, and Russian, East European, and Eurasian Studies 335 (Topic 23). Explores the history and culture of Jews in Eastern Europe. Three lecture hours a week for one semester. Only one of the following may be counted: History 362G (Topic 8), 362R, Jewish Studies 364 (Topic 7), Russian, East European, and Eurasian Studies 335 (Topic 23), Religious Studies 357 (Topic 13), 357E. Prerequisite: Upper-division standing.

HIS 362S. Southeast Europe in the Twentieth Century.
Same as European Studies 346 (Topic 18), Jewish Studies 364 (Topic 8), and Russian, East European, and Eurasian Studies 335 (Topic 18). Explores the key events and developments of Southeastern Europe, the region commonly referred to as the Balkans, in the twelfth century. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 346 (Topic 18), History 362G (Topic 9), 362S, Jewish Studies 364 (Topic 8), Russian, East European, and Eurasian Studies 335 (Topic 18). Prerequisite: Upper-division standing.

Same as European Studies 346 (Topic 8), German, Scandinavian, and Dutch Studies 360 (Topic 3), and Religious Studies 357F. Explores the theologies, politics, and personal identities that emerged and passed away in this era. Three lecture hours a week for one semester. Only one of the following may be counted: Czech 324 (Topic 4), European Studies 346 (Topic 8), German, Scandinavian, and Dutch Studies 360 (Topic 3), History 362G (Topic 12), 362T, Religious Studies 357 (Topic 12), 357F, Russian, East European, and Eurasian Studies 325 (Topic 28). Prerequisite: Upper-division standing.

HIS 363C. Argentina: Populism and Insurrection.
Same as Latin American Studies 366 (Topic 28). An overview of principal trends and issues in Argentine history from independence to the present. Three lecture hours a week for one semester. Only one of the following may be counted: History 363C, 363K (Topic 2), Latin American Studies 366 (Topic 28). Prerequisite: Upper-division standing.

Same as Latin American Studies 366 (Topic 29) and Religious Studies 368F. Focuses on the histories of the Catholic Church and religious devotion in colonial Latin America between 1521 and 1821. Three lecture hours a week for one semester. Only one of the following may be counted: History 363D, 363K (Topic 3), Latin American Studies 366 (Topic 29), Religious Studies 368 (Topic 4), 368F. Prerequisite: Upper-division standing.

HIS 363E. Mapping Latin America.
Same as Geography 343E and Latin American Studies 330 (Topic 4). Discuss the role of maps in the creation of Latin America as a specific sort of place. As such, allows familiarity with a broad overview of Latin American history from pre-Columbian civilizations to the modern period. Three lecture hours a week for one semester. Only one of the following may be counted: Geography 343E, 356T (Topic: Mapping Latin America), 356T (Topic 12), History 363E, 363K (Topic: Mapping Latin America), 363K (Topic 4), Latin American Studies 330 (Topic: Mapping Latin America), 330 (Topic 4). Prerequisite: Upper-division standing.

HIS 363F. The Bible in the Colonial Americas.
Same as Core Texts and Ideas 355, Latin American Studies 366 (Topic 34), and Religious Studies 366C. Varied perspectives on the central role played by the Old Testament in the construction of colonial cultures in the Americas. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 355, 375 (Topic 6), History 363F, 363K (Topic 5), Latin American Studies 366 (Topic 34), Religious Studies 366 (Topic 3), 366C. Prerequisite: Upper-division standing.

HIS 363J. Life and Politics in Contemporary Mexico.
Same as Latin American Studies 366 (Topic 39). Examine an overview of life and politics in contemporary Mexico. Three lecture hours a week for one semester. Only one of the following may be counted: History 363J, 363K (Topic: Life/Politics Contemp Mexico), Latin American Studies 366 (Topic: Life/Politics Contemp Mexico), 366 (Topic 39). Prerequisite: Upper-division standing.

HIS 363T. Latin America in the Sixties.
Same as Latin American Studies 366 (Topic 38). Explore the impact of the Cuban revolution in Latin American politics, gender roles, and women's participation in public life during the sixties. Three lecture hours a week for one semester. Only one of the following may be counted: History 363K (Topic: Latin America in the Sixties), 363T, 366N (Topic: Latin America in the Sixties), Latin American Studies 366 (Topic: Latin America in the Sixties), 366 (Topic 38). Prerequisite: Upper-division standing.

HIS 364C. History of Hindu Religious Traditions.
Same as Anthropology 322N, Asian Studies 340D, and Religious Studies 321. History of major doctrines, practices, and institutions that shaped the development of Hinduism; how religions adapt to social and cultural change and often provide the catalyst for change. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322N, 324L (Topic 23), Asian Studies 340 (Topic 4), 340D,

**HIS 364D. Prophet of Islam: His Life and Times.**
Same as Middle Eastern Studies 343 (Topic 8) and Religious Studies 325. A detailed study of the prophet Muhammad's life and message, and of the means by which his life was recorded and popularized. Three lecture hours a week for one semester. Only one of the following may be counted: History 364G (Topic 2), 364D, Islamic Studies 340 (Topic 1), Middle Eastern Studies 343 (Topic 8), Religious Studies 325. Prerequisite: Upper-division standing.

**HIS 364E. The Dead Sea Scrolls.**
Same as Ancient History and Classical Civilization 330 (Topic 1), Jewish Studies 364 (Topic 4), Middle Eastern Languages and Cultures 321 (Topic 17), Middle Eastern Studies 342 (Topic 23), and Religious Studies 353D. Three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 330 (Topic 1), History 364G (Topic 3), 364E, Jewish Studies 364 (Topic 4), Middle Eastern Languages and Cultures 321 (Topic 17), Middle Eastern Studies 342 (Topic 23), Religious Studies 353D. Prerequisite: Upper-division standing.

**HIS 364F. African History in Films and Photographs.**
Same as African and African Diaspora Studies 340F and Women's and Gender Studies 340 (Topic 73). Explore the social, economic, and political challenges of the past fifty years of Africa's history through the examination of several popular films. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 340F, 372G (Topic 32), History 364F, 364G (Topic 4), Women's and Gender Studies 340 (Topic: African History in Films and Photographs), 340 (Topic 73). Prerequisite: Upper-division standing.

**HIS 364I. Major Islamic Texts.**
Same as Middle Eastern Studies 342 (Topic 72) and Religious Studies 342C. Introduction to key religious, philosophical, and political ideas from part of the Islamicate world through sustained readings of core texts. Three lecture hours a week for one semester. Only one of the following may be counted: History 364I, Middle Eastern Studies 342 (Topic: Major Islamic Texts), 342 (Topic 72), Religious Studies 342C. Prerequisite: Upper-division standing.

**HIS 364J. African Women’s History.**

**HIS 364O. Culture and Crisis in Contemporary Japan.**
Same as Asian Studies 379 (Topic 16). Explore the cultural history of Japan from the 1980s to the present, with particular attention paid to economic and ecological issues represented in literature, film, and visual culture. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 379 (Topic: Cultur/Crisis in Contemp Jpn), 379 (Topic 16), History 364O. Prerequisite: For Asian studies majors, twelve semester hours of upper-division coursework in Asian studies; for others, upper-division standing.

Same as African and African Diaspora Studies 340D and Women's and Gender Studies 340 (Topic 42). A study of the social, political, economic, and cultural history of South Africa to contextualize the rise of apartheid. Primarily focuses on the period since 1948 from the perspectives of women, children, and men of all racial backgrounds who lived through that particular period. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 340D, 374C (Topic: Apartheid: South African History), 374C (Topic 6), History 364G (Topic: Apartheid: South African History), 364G (Topic 6), 364P, Women's and Gender Studies 340 (Topic: Apartheid: South African History), 340 (Topic 42). Prerequisite: Upper-division standing.

**HIS 364Q. French Empire: The West and Islam.**
Same as Middle Eastern Studies 343 (Topic 22) and Religious Studies 358F. The development of regions within the Mediterranean, variously called the West and East or Europe and Islam, with an emphasis on the role of modern France and France's Mediterranean empire. Three lecture hours for one semester. Only one of the following may be counted: History 364G (Topic 7), 364Q, Islamic Studies 372 (Topic 22), Middle Eastern Studies 343 (Topic 22), Religious Studies 358 (Topic 16), 358F. Prerequisite: Upper-division standing.

**HIS 364R. Modernization in East Asia.**
Same as Asian Studies 361 (Topic 34). Examines the different historical experiences of mainland China and Taiwan in the context of the East Asian model of development. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic 34), History 364G (Topic 8), 364R. Prerequisite: Upper-division standing.

**HIS 365G. Topics in United States History.**
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

**Topic 1: United States Catholic History.** Same as American Studies 327D, Mexican American Studies 374 (Topic 37), and Religious Studies 346F. Examine how Catholicism and national identity work for Catholics in the United States, with an emphasis on Catholic women and Latino/as. Only one of the following may be counted: American Studies 327 (Topic 4), 327D, History 365G (Topic 1), Mexican American Studies 374 (Topic 37), Religious Studies 346 (Topic 5), 346F. Additional prerequisite: Upper-division standing.

**Topic 2: Popular Music in the United States.** Same as American Studies 325C. Traces the history of popular music in the United States and its influence on American politics, economics, and culture from the 1880s to present day. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: Popular Music in the US), 325C, History 365G (Topic: Popular Music in the US), 365G (Topic 2). Additional prerequisite: Upper-division standing.

**Topic 3: United States Economic History since 1880.** The history of American capitalism from 1865 to 2000; examines innovation, economic rights, and the role of the state. History 365G (Topic: United States Economic History since 1880) and 365G (Topic 3) may not both be counted.

**Topic 5: Science, Ethics, and Society.** Explores the ethics of scientific experimentation on humans in the nineteenth and twentieth centuries.
History 365G (Topic: Science, Ethics, and Society) and 365G (Topic 5) may not both be counted.

**Topic 6: Antebellum Slavery.** Same as African and African Diaspora Studies 351K and Women's and Gender Studies 340 (Topic 33). Examination of slavery at its maturity during the nineteenth century. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 351K, 374D (Topic 16), History 365G (Topic 6), Women's and Gender Studies 340 (Topic 33). Additional prerequisite: Upper-division standing.

**Topic 10: Twentieth-Century United States Lesbian and Gay History.** Same as American Studies 370 (Topic 49) and Women's and Gender Studies 335 (Topic 18). Examines classic texts and recent and varied writings on LGBT history, focused on experiences, ideas, and conflicts that have shaped modern LGBT identities. Only one of the following may be counted: American Studies 370 (Topic: United States Lesbian and Gay History, Twentieth Century), 370 (Topic 49), History 365G (Topic: United States Lesbian and Gay History, Twentieth Century), 365G (Topic 10), Women's and Gender Studies 335 (Topic 18), 340 (Topic: United States Lesbian and Gay History, Twentieth Century).

**Topic 11: History of the Southeast Asian Diaspora in the United States.** Same as American Studies 325G. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 325 (Topic 8), 325G, History 365G (Topic 11). Additional prerequisite: Upper-division standing.

**Topic 15: United States Military History.** Explore the use of "authorized violence" and "unauthorized violence" by the U.S. military and examine how both types of violence have changed American history since initial colonization. History 365G (Topic: United States Military History) and 365G (Topic 15) may not both be counted.

**Topic 16: Unbelief in America.** Same as Religious Studies 346I. Examine the history of unbelief and the role that it has played in US history. Three lecture hours a week for one semester. Only one of the following may be counted: History 350L (Topic: Unbelief in America), 365G (Topic: Unbelief in America), 365G (Topic 16), Religious Studies 346 (Topic: Unbelief in America), 346I. Additional prerequisite: Upper-division standing.

**Topic 17: Mexican American Studies at UT.** Same as American Studies 322D and Mexican American Studies 320I. Trace the origins and development of Mexican American Studies at the national, regional, and local levels. Collaborate to help preserve and recognize the significance of Mexican American Studies at the University in historical and contemporary contexts. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: 50 Yrs Mex Am Studies at UT), 322D, History 365G (Topic: 50 Yrs Mex Am Studies at UT), 365G (Topic 17), Mexican American Studies 320L, 374 (Topic: 50 Yrs Mex Am Studies at UT). Additional prerequisite: Upper-division standing.

**Topic 19: Museums: Past, Present, and Future.** Examine the history, varieties, and philosophies of museums. History 365G (Topic: Museums:Past/Present/Future) and 365G (Topic 19) may not both be counted.

**Topic 20: Native American Women's History.** Same as American Studies 370 (Topic 75), Mexican American Studies 320G, and Women's and Gender Studies 340 (Topic 98). Investigate the histories of Native American women to reaffirm and reclaim their place and role in the histories of Native Americans, indigenous peoples, women, Chican@/xs, Greater Mexico, and the United States. Contemplate how many understandings that center colonization, settler colonialism, genocide, race, and environmentalism are essential to examining Native American women's history. Explore the stories, struggles, and ideas of community-building, sovereignty, and liberation as integral to their genders and sexualities as Native American, Indian, First Nations, indigenous, and red and brown women. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 370 (Topic 75), History 365G (Topic: Native Amer Women's History), 365G (Topic 20), Mexican American Studies 320G, 374 (Topic: Native Amer Women's History), Women's and Gender Studies 340 (Topic 98). Additional prerequisite: Upper-division standing.

**Topic 22: The United States, Britain, and the Global Order.** Explore the diplomatic and military history of the United States and Great Britain and how the two nations have interacted and shaped each other’s national security policies and visions of global order. History 365G (Topic: US/Britain/Global Order) and 365G (Topic 22) may not both be counted.

**Topic 23: La Causa, The Farmworker Movement.** Same as Mexican American Studies 364L. Examine the twentieth-century expansion of commercial agriculture and concomitant labor organizing struggles waged by agricultural workers in the United States, including Arkansas, California, Hawai‘i, Puerto Rico, and Texas. Explore the role of the United Farm Workers of America. Three lecture hours a week for
one semester. Only one of the following may be counted: History 365G (Topic: La Causa, Farmworker Movement), 365G (Topic 23), Mexican American Studies 364L, 374 (Topic: La Causa, Farmworker Movement). Additional prerequisite: Upper-division standing.

**HIS 366D. Jews: Nation or People.**
Same as Jewish Studies 364 (Topic 16) and Middle Eastern Studies 343 (Topic 16). Three lecture hours a week for one semester. Only one of the following may be counted: History 366D, 366N (Topic: Jews: Nation or People?), Jewish Studies 364 (Topic: Jews: Nation or People?), 364 (Topic 16), Middle Eastern Studies 343 (Topic: Jews: Nation or People?), 343 (Topic 16). Prerequisite: Upper-division standing.

**HIS 366E. Restitution and Restorative Justice after the Holocaust.**
Same as European Studies 346 (Topic 35), Jewish Studies 364 (Topic 17), and Middle Eastern Studies 343 (Topic 17). Examine attempts to find a measure of justice after the Holocaust. Explore themes of human rights and international law. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 346 (Topic: Holocaust/Restitution/Justice), 346 (Topic 35), History 366E, 366N (Topic: Holocaust/Restitution/Justice), Jewish Studies 364 (Topic: Holocaust/Restitution/Justice), 346 (Topic 17), Middle Eastern Studies 343 (Topic: Holocaust/Restitution/Justice), 343 (Topic 17). Prerequisite: Upper-division standing.

**HIS 366F. Politics of Food in Latin America.**
Same as Latin American Studies 366 (Topic 40). Examine food production, food consumption, and socio-cultural identities in Latin America through comparative and multidisciplinary research. Three lecture hours a week for one semester. Only one of the following may be counted: History 363K (Topic: Politics of Food in Latin Amer), 366F, Latin American Studies 366 (Topic: Politics of Food in Latin Amer), 366 (Topic 40). Prerequisite: Upper-division standing.

**HIS 366N. Topics in History.**
Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

**Topic 15: Anti-Semitism.** Same as Jewish Studies 365 (Topic 13) and Sociology 321S. Surveys trends in Judeophobia/anti-Semitism over 2,500 years in both Christian and non-Christian societies. Designed to use anti-Semitism as a tool to understand more general ideas in social theory such as boundary making; models of racial, ethnic, and cultural conflict; and the role of intellectual and scientific elites. Three lecture hours a week for one semester. Only one of the following may be counted: History 366N (Topic: Anti-Semitism), 366N (Topic 15), Jewish Studies 365 (Topic: Anti-Semitism), 365 (Topic 13), Sociology 321K (Topic: Anti-Semitism), 321S. Additional prerequisite: Upper-division standing.

**Topic 17: British History, Literature, and Politics.** Same as Liberal Arts Honors 350 (Topic 19). Restricted to Plan I majors in the College of Liberal Arts. Reading course in history, literature, and politics, and as a class in professional writing. Examines not only the literature, history, and politics of England, Wales, Scotland, and Ireland, but also the interaction of British and other societies throughout the world. Only one of the following may be counted: History 366N (Topic: British History, Literature and Politics), 366N (Topic 17), Liberal Arts Honors 350 (Topic: British History, Literature and Politics), 350 (Topic 19), Tutorial Course 325 (Topic: British History, Literature and Politics). Additional prerequisite: Grade point average of at least 3.50.

**Topic 18: Global History of Disease.** Same as African and African Diaspora Studies 350R. Introduction to major themes in the history of medicine through the lens of disease. To be considered are the roles governments, medical practitioners, and patients play in the social construction of disease and health. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350R, 372D (Topic: Global History of Disease), History 366N (Topic: Global History of Disease), 366N (Topic 18). Additional prerequisite: Upper-division standing.

**HIS 366P. Sexuality and Gender in Latin America.**
Same as Latin American Studies 366 (Topic 41) and Women's and Gender Studies 340 (Topic 91). Explore gender as a broad analytical tool to understand key problems concerning social organization, power relations, and inequality in contemporary Latin America. Three lecture hours a week for one semester. Only one of the following may be counted: History 363K (Topic: Sexuality/Gender in Latin Amer), 366N (Topic: Sexuality/Gender in Latin Amer), 366P, Latin American Studies 366 (Topic: Sexuality/Gender in Latin Amer), 366 (Topic 41), Women's and Gender Studies 340 (Topic: Sexuality/Gender in Latin Amer), 340 (Topic 91). Prerequisite: Upper-division standing.

**HIS 366Q. Newton's Principia.**
Same as Core Texts and Ideas 371N. Examine key sections of Newton's Principia Mathematica Philosophiae Naturalis. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 371N, 375 (Topic: Newton's Principia), History 366Q, 366N (Topic: Newton's Principia). Prerequisite: Upper-division standing.

**HIS 367C. Business and Society in South Asia.**
Same as Asian Studies 361 (Topic 46). Introduction to the long history of commerce and enterprise in the Indian sub-continent up to the present. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic 46), History 364G (Topic 12), 367C. Prerequisite: Upper-division standing.

**HIS 367D. Gender and Modern India.**
Same as Asian Studies 361 (Topic 44) and Women's and Gender Studies 340 (Topic 75). Examines gender and the shifting nature of modernity between precolonial and colonial periods in the Indian subcontinent. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic: Gender and Modern India), 361 (Topic 44), History 364G (Topic: Gender and Modern India), 364G (Topic 13), 367D, Women's and Gender Studies 340 (Topic: Gender and Modern India), 340 (Topic 75). Prerequisite: Upper-division standing.

**HIS 367E. History of the Pilgrimage to Mecca, Hajj.**
Same as Middle Eastern Studies 343 (Topic 7) and Religious Studies 358P. Survey of the Hajj, Islam's major pilgrimage to Mecca and the nearby Holy Places. It will examine the Islamic pilgrimage from its beginnings in the seventh century C.E. through today. Three lecture hours a week for one semester. Only one of the following may be counted: History 364G (Topic: History of the Pilgrimage to Mecca, Hajj), 364G (Topic 14), 367E, Middle Eastern Studies 343 (Topic: History of the Pilgrimage to Mecca), 343 (Topic 7), Religious Studies 358 (Topic: History of the Pilgrimage to Mecca), 358 (Topic 24), 358P. Prerequisite: Upper-division standing.

**HIS 367F. Slavery and South Asian History.**
Same as Asian Studies 361 (Topic 43). Discuss the presence of slavery in the subcontinent in the third century BCE to the twentieth century. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic: Slavery and South Asian History), 361 (Topic 43), History 364G (Topic: Slavery and South Asian History), 364G (Topic 16), 367F. Prerequisite: Upper-division standing.
HIS 367J. Partition of India in History and Memory.
Same as Asian Studies 346E and Government 367C. Discover the experiences and memories of many different groups affected by the Partition of British India in 1947 while tracing the effects of the Partition until the present. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 346E, 361 (Topic: Partition of India Hist/Lit), 379 (Topic 15), Government 367C, History 350L (Topic: Partition of India Hist/Lit), 350L (Topic 98), 367J, Islamic Studies 372 (Topic: Partition of India Hist/Lit). Prerequisite: upper-division standing.

HIS 367Q. History of Food and Healing in China and Taiwan.
Same as Asian Studies 361D. Explore the cultural, historical, philosophical, social, and scientific background against which the connection between food and healing has evolved through Chinese history. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic: Hist Food/Heal China Taiwan), 361D, History 364G (Topic: Hist Food/Heal China Taiwan), 367Q. Prerequisite: Upper-division standing.

Same as Middle Eastern Studies 343 (Topic 20) and Religious Studies 359D. Examine a history of the religious and cultural development across the Islamic world between the thirteenth and eighteenth centuries, stemming from the rise of the Mongols and the end of the caliphate. Explore the early modern Muslim empires of the Ottomans, Safavids, and the Mughals. Three lecture hours a week for one semester. Only one of the following may be counted: History 364G (Topic: Islam Early Mod World:Rel/Cult), 367S, Islamic Studies 372 (Topic: Islam Early Mod World:Rel/Cult), 373 (Topic 20), Middle Eastern Studies 343 (Topic: Islam Early Mod World:Rel/Cult), 343 (Topic 20), Religious Studies 359 (Topic 22), 359D. Prerequisite: Upper-division standing.

HIS 368C. Piracy in East Asia.
Same as Asian Studies 341C. Examine how pirates helped bind East Asia together into an integrated zone of economic and cultural exchange. Explore how they formed the leading edge of early modern globalization and linking diverse economies and societies together. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 341C, History 350L (topic: Piracy in East Asia), 368C. Prerequisite: Upper-division standing.

HIS 368S. The Age of the Samurai.
Same as Asian Studies 361Q. Explore the history of Japan via an examination of the complex and ever-changing figure of the samurai. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361Q, 372 (Topic: The Age of the Samurai), History 364G (Topic: The Age of the Samurai), 368S. Prerequisite: Upper-division standing.

HIS 369Q. Black Lives in the Archives.
Same as African and African Diaspora Studies 352J. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 352J, 374E (Topic: Black Lives in the Archives), History 366N (Topic: Black Lives in the Archives), 369Q. Prerequisite: Upper-division standing.

HIS 371Q. Nationalisms in the Caribbean.
Same as African and African Diaspora Studies 345I and Latin American Studies 366C. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 345I, 374E (Topic: Nationalism in Caribbean), History 363K (Topic: Nationalism in Caribbean), 371Q, Latin American Studies 366 (Topic: Nationalism in Caribbean), 366C. Prerequisite: Upper-division standing.

HIS 372L. Proseminar in Historical Source Readings.
Individual instruction in reading history and historiography. The equivalent of three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing and written consent of instructor; consent forms are available in the departmental advising office.

HIS 372M. Proseminar in Historical Writing.
Individual instruction in historical research and writing. The equivalent of three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing and written consent of instructor; consent forms are available in the departmental advising office.

HIS 372Q. Race, Rebellion and Revolution in the Caribbean.

HIS 374Q. Race Against Empire: Americas.

HIS 375D. Islamic Spain and North Africa to 1492.
Same as Middle Eastern Studies 343 (Topic 4) and Religious Studies 345. An introduction to the impact of Islam on Spain and North Africa, with emphasis on social, economic, and cultural development. Only one of the following may be counted: Ancient History and Classical Civilization 330 (Topic: Islamic Spain and North Africa to 1492), History 375D, Islamic Studies 373 (Topic: Islamic Spain and North Africa to 1492), Middle Eastern Studies 343 (Topic 4), Religious Studies 345, 369 (Topic: Islamic Spain and North Africa to 1492). Prerequisite: Upper-division standing.

Same as European Studies 346 (Topic 37). Exploration of the most important political, religious, social, economic, and intellectual changes that occurred in England between the accession of Henry VII and the death of Elizabeth I. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 346 (Topic: Tudor England, 1485-1603), 346 (Topic 37), History 375K. Prerequisite: Upper-division standing.

HIS 375L. Stuart England, 1603-1689.
Same as European Studies 346 (Topic 36). Topical lecture course focusing on the most significant political, religious, social, economic, and cultural developments in seventeenth-century England. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 346 (Topic: Stuart England, 1603-1689), 346 (Topic 36), History 375L. Prerequisite: Upper-division standing.

HIS 375M. Modern Spain, 1800 to the Present.
Political, social, and economic changes in the nineteenth century: the Second Republic; the Spanish Civil War; the Franco Era and the transition
to democracy after 1975. Three lecture hours a week for one semester.
Prerequisite: Upper-division standing.

HIS 376F. The United States and the Second World War.
Restricted to students in the Normandy Scholars Program. Three lecture
hours a week for one semester, and approximately three weeks of study
in France.

HIS 376G. Hitler, Nazism, and World War II.
Same as Liberal Arts Honors 351W. Restricted to students in the
Normandy Scholars Program. Three lecture hours a week for one
semester, and approximately three weeks of study in France. Only one
of the following may be counted: History 376G, Liberal Arts Honors 350
(Topic: Hitler, Nazism, & World War II), 351W. Prerequisite: Upper-division
standing and a grade point average of at least 3.50.

HIS 378W. Capstone in History.
Pursue in-depth the research interests and skills developed in
other history classes. Three lecture hours a week for one semester.
Prerequisite: History 320W (or 318W) and twelve semester hours of
coursework in history.

HIS 679H. Honors Tutorial Course.
An individual instruction course to provide training in the methods and
teaching of historical research and writing. The equivalent of three
semester hours a week for two semesters. May not be included in the
thirty semester hours of coursework required for the major. Prerequisite:
For 679HA, upper-division standing and admission to the History Honors
Program; for 679HB, History 679HA.

Graduate Courses

HIS 380K. History of Science.
Topics cover scientific development since ancient times, including the
scientific revolution, 1500-1800; the development of specific scientific
disciplines; and the relationship between science and social change.
Three lecture hours a week for one semester. May be repeated for credit
when the topics vary. Prerequisite: Graduate standing and consent of the
graduate adviser.

HIS 380L. Topics in European Imperialism.
Three lecture hours a week for one semester. May be repeated for credit
when the topics vary. Prerequisite: Graduate standing and consent of the
graduate adviser.

HIS 381. Topics in World History.
Three lecture hours a week for one semester. May be repeated for credit
when the topics vary. Prerequisite: Graduate standing and consent of the
graduate adviser.

HIS 381J. Research Seminar in World History.
Three lecture hours a week for one semester. May be repeated for credit
when the topics vary. Prerequisite: Graduate standing and consent of the
graduate adviser.

HIS 382H. Research Seminar in the History of East and South
Asia.
Three lecture hours a week for one semester. May be repeated for credit
when the topics vary. Prerequisite: Graduate standing and consent of the
graduate adviser.

HIS 382J. Research Seminar in African History.
Three lecture hours a week for one semester. May be repeated for credit
when the topics vary.

HIS 382L. Topics in African History.
Seminar on selected topics on precolonial African societies and African
societies since 1875. Three lecture hours a week for one semester.
May be repeated for credit when the topics vary. Prerequisite: Graduate
standing and consent of the graduate adviser.

HIS 382N. Topics in the History of East and South Asia.
Three lecture hours a week for one semester. May be repeated for credit
when the topics vary. Prerequisite: Graduate standing; some topics also
require consent of instructor.

Topic 1: Social and Religious Reform in Modern India. Same as Asian
Studies 384 (Topic 5: Social and Religious Reform in Modern India).
Only one of the following may be counted: Asian Studies 384 (Topic 5),
History 382N (Topic 1), Religious Studies 394T (Topic: Social and
Religious Reform in Modern India).

Topic 2: Women in Islamic Societies. Same as Asian Studies 391
(Topic 7: Women in Islamic Societies) and Middle Eastern Studies
385 (Topic 7: Women in Islamic Societies). Only one of the following
may be counted: Asian Studies 391 (Topic 7), History 382N (Topic 2),
Middle Eastern Studies 385 (Topic 7).

Topic 4: Communalism in Colonial India. Same as Asian Studies 384
(Topic 2: Communalism in Colonial India).

HIS 382Q. Introductory Conference Course in African History.
Three lecture hours a week for one semester. May be repeated for credit.
Prerequisite: Graduate standing and written consent of instructor;
consent forms are available in the departmental graduate advising office.

HIS 382R. Introductory Conference Course in Asian History.
Three lecture hours a week for one semester. May be repeated for credit.
Prerequisite: Graduate standing and written consent of instructor;
consent forms are available in the departmental graduate advising office.

HIS 382S. Introductory Conference Course in Middle Eastern
History.
Three lecture hours a week for one semester. May be repeated for credit.
Prerequisite: Graduate standing and written consent of instructor;
consent forms are available in the departmental graduate advising office.

HIS 382T. Introductory Conference Course in European History.
Three lecture hours a week for one semester. May be repeated for credit.
Prerequisite: Graduate standing and written consent of instructor;
consent forms are available in the departmental graduate advising office.

HIS 382U. Introductory Conference Course in American History.
Three lecture hours a week for one semester. May be repeated for credit.
Prerequisite: Graduate standing and written consent of instructor;
consent forms are available in the departmental graduate advising office.
HIS 382V. Introductory Conference Course in Latin American History.
Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and written consent of instructor; consent forms are available in the departmental graduate advising office.

HIS 383. Seminar in Modern European History.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

HIS 383C. Literature of European History.
Three lecture hours a week for one semester. Required of all entering graduate students in European history. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

Topic 1: Literature of European History: The Medieval Period.
Topic 2: Literature of European History: The Early Modern Period.

HIS 383D. Communism in Eastern Europe.
Same as Russian, East European, and Eurasian Studies 387 (Topic 3). Explore the complicated nature of communist rule in Eastern Europe in its many forms, from Poland in the North to Yugoslavia in the South. Examine the variety of lived experiences of citizens of Eastern Europe, from the imposition of communism in the region after World War II to the collapse of the system in 1989. Discuss the most recent scholarship on the region that ties regional developments to the broader Cold War context, and covers issues ranging from state-society dynamics, to religion, consumer culture, urban change, and collectivization. Three lecture hours a week for one semester. Only one of the following may be counted: History 383J (Topic: Communism/ Eastern Europe), 383D, Russian, East European, and Eurasian Studies 385 (Topic: Communism/ Eastern Europe), 387 (Topic: 3). Prerequisite: Graduate standing.

HIS 383J. Research Seminar in Modern European History.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

HIS 383L. Seminar in General Economic History.
Same as Economics 383K. A historical study of economic development and economic policy. The equivalent of three lecture hours a week for one semester. With consent of instructor, may be repeated for credit when the topics vary. Prerequisite: Graduate standing, six semester hours of upper-division coursework in economics or related history or government, and six additional semester hours of upper-division coursework in social science or business.

HIS 383M. Studies in the Atlantic Worlds.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

HIS 384K. Seminar in British History.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

HIS 384M. Seminar in Tudor-Stuart History.
Reading and research in the history of England under the Tudors and Stuarts, 1485-1689. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

HIS 385P. Topics in Public and Digital History.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

HIS 386K. Seminar in Latin American History.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

HIS 386L. Research Seminar in Latin American History.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, reading knowledge of Spanish or Portuguese, and consent of the graduate adviser.

HIS 386S. Stalinism: Ideology and Culture.
Same as Russian, East European, and Eurasian Studies 386 (Topic 5). Examine Stalinism as a complex historical, ideological, and cultural phenomenon that crucially shaped Russia's destiny from the twentieth century to the present moment. Consider this phenomenon beyond popular stereotypes (blood-thirsty tyrant; miserable and terrorized population, total propaganda, etc). Three lecture hours a week for one semester. Only one of the following may be counted: History 386S, Russian, Eastern European, and Eurasian Studies 386 (Topic: Stalinism: Ideology & Culture), 386 (Topic 5). Prerequisite: Graduate standing.

HIS 387J. Research Seminar in Early Modern Europe.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

HIS 387M. Studies in Early Modern Europe.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

HIS 388J. Research Seminar in Middle Eastern History.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

HIS 388K. Seminar in Middle Eastern History.
Development of Middle Eastern history since the beginning of modern times. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; some topics also require consent of instructor.

Topic 2: Intellectual History of Indo-Iranian Islam. Same as Asian Studies 390 (Topic 6), Middle Eastern Studies 381 (Topic 37), and Religious Studies 394T (Topic 2). Only one of the following may be counted: Asian Studies 390 (Topic 6), History 388K (Topic 2), Middle Eastern Studies 381 (Topic 37), Religious Studies 394T (Topic: Intel Hist of Indo-Iran Islam), 394T (Topic 2).

HIS 388M. Problems and Methods of Historical Demography.
Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

HIS 391C. Conference Course.
Designed to expand the graduate student’s opportunity for individual consultation. Conference course. May be repeated for credit. Prerequisite: Graduate standing and written consent of instructor; consent forms are available in the departmental graduate advising office.

HIS 392. Seminar in United States History.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser; some topics also require consent of instructor.

HIS 393L. Qualifying Examination.
Preparation for qualifying examinations. The equivalent of three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of the graduate adviser.

HIS 394H. Introduction to Historical Inquiry.
Introduction to a variety of theoretical, methodological, or historiographical approaches to the past. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

HIS 395. Seminar in Bibliography and Methods.
A seminar to acquaint the advanced student with the nature and extent of materials for study and writing in United States history. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

HIS 397K. Literature of United States History.
Survey of historical writing and historiography from colonial times to the present. Three lecture hours a week for one semester. Required of all entering graduate students in United States history. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser; additional prerequisites vary with the topic.

  Topic 1: Literature of United States History Before 1865. Survey of historical writing and historiography to 1865. Designed to introduce students to the field of early American history.
  Topic 2: Literature of United States History Since 1865. Examines trends in American historiography from 1865 to the present.

HIS 397L. Medieval History.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser; some topics also require consent of instructor.

The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in history and consent of the graduate adviser; for 698B, History 698A.

HIS 398T. Supervised Teaching in History.
Weekly group meetings with the instructor, individual consultations, and reports. Three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of the graduate adviser.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses

HMN - Humanities

Humanities: HMN

Lower-Division Courses

HMN 101. Community Service.
Tutorial course, in which the student submits a report based on a community service project and appropriate supplementary reading. Conference course. Prerequisite: Consent of the humanities adviser.

HMN 102T. Design A Path.
Restricted to humanities majors. Design a humanities contract of courses and write a personal statement. Examine the research process and academic writing. One lecture hour a week for one semester. Offered on the letter-grade basis only.

HMN 104. Introduction to Humanities Honors Research.
Restricted to students in the humanities program. Explore research from an interdisciplinary perspective. Develop a thesis project proposal in groups. One lecture hour a week for one semester.

HMN 110, 210, 310. Internship.
Students work in a professional environment, applying analytical, communication, and other academic skills to practical work. For each semester hour of credit earned, one lecture hour and ten hours of fieldwork a week for one semester. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Consent of the humanities director.

HMN 116, 216, 316. Topics in the Humanities.
Intensive lecture or seminar course addressing topics in various disciplines in the humanities. For each semester hour of credit earned, one lecture hour a week for one semester. Humanities 116 and Liberal Arts Honors 103H may not both be counted. May be repeated for credit when the topics vary. Prerequisite: Consent of the humanities adviser.

HMN 301. Introduction to Humanities Honors Research.
Restricted to students in the humanities program. Explore research from an interdisciplinary perspective. Develop a thesis project proposal in groups. One lecture hour a week for one semester.

HMN 313Q. Supervised Research.
Individual instruction. Prerequisite: Consent of the humanities adviser.

Upper-Division Courses

A history of humanism in ancient Greece and Rome. The contributions of humanism to the values we place on the individual and human potential, democratic government, the arts, religion, and the family. Three lecture hours a week for one semester. Prerequisite: Upper-division standing or consent of instructor.

HMN 322. Humanism and Western Civilization: The Renaissance.
A history of humanism during the European Renaissance, the thirteenth through the sixteenth century. The contributions of humanism to the
values we place on the individual and human potential, democratic
government, the arts, religion, and the family. Three lecture hours a week
for one semester. Prerequisite: Upper-division standing or consent of
instructor.

HMN 323. Humanism and Western Civilization: The
Enlightenment.
A history of humanism during the Enlightenment. The contributions of
humanism to the values we place on the individual and human potential,
democratic government, the arts, religion, and the family. Three lecture
hours a week for one semester. Prerequisite: Upper-division standing or consent of
instructor.

HMN 125J. Junior Fellows Seminar.
Restricted to students in the Junior Fellows Program. Receive guidance on
developing and producing an undergraduate research project. One
lecture hour a week for one semester. May be repeated for credit. Offered on
the pass/fail basis only. Prerequisite: Upper-division standing.

HMN 125K. The Arts, Sciences, and Social Sciences.
Analysis of topics in the arts, sciences, and social sciences through
reading, discussion, and lectures. One lecture hour a week for one
semester. May be repeated for credit. Prerequisite: Consent of the
humanities adviser.

HMN 350. Topics in the Humanities.
Study of the values underlying humanistic disciplines. Three lecture
hours a week for one semester. May be repeated for credit when the
topics vary. Prerequisite: Upper-division standing and a grade point
average of at least 3.50.

Topic 2: Daily Life in Northern Europe.
Topic 3: Geography and Religion. Same as Geography 358E.
Ideas about the relationships among the natural world, myth, and
ritual; principal focus on Christianity, Islam, and Judaism and their
offshoots and antagonists in the Western world. Geography 358E and
Humanities 350 (Topic 3) may not both be counted. Additional
prerequisite: Upper-division standing.

Topic 4: Reading Images: Icons and Beliefs. The content (not the
aesthetics or the technical, compositional features) of selected
Renaissance paintings, sculptures, and prints. Additional prerequisite:
Upper-division standing.

Topic 5: Great Trials in Western History. The intellectual and historical
importance of a variety of significant trials in Western history.
Humanities 350 (Topic 5) and Liberal Arts Honors 350 (Topic: Great
Trials in Western History) may not both be counted. Additional
prerequisite: Upper-division standing.

Topic 6: In Search of Meaning. Restricted to Plan I majors in
the College of Liberal Arts. Intensive lecture course exploring
various disciplinary perspectives and values underlying humanistic
disciplines. Concepts include: monotheism, the nature and personality
of this god, the soul, chosen people, linear time, history as divine
classroom, original sin, heaven, hell, salvation, etc. Establishes how
and why these and a host of other features came into existence and
created Judeo-Christian reality, and contrast the reality created therein
with other realities, such as Hinduism, Buddhism, Confucianism, and
Islam. Only one of the following may be counted: Humanities 350
(Topic: In Search of Meaning), 350 (Topic: The Quest for Meaning),
350 (Topic 6), Liberal Arts Honors 350 (Topic: In Search of Meaning),
350 (Topic 10). Additional prerequisite: Upper-division standing and a
University grade point average of at least 3.50.

Topic 7: The Enlightenment.
Topic 8: Sites, Structures, and Images of Italy. Examination of the
historical factors of religion, politics, economics, and local culture that
define the significance of selected late medieval and Renaissance
(twelfth through fifteenth century) buildings and the visual art they
formerly housed and displayed. Taught in Italy. Additional prerequisite:
Upper-division standing and consent of instructor.

Topic 10: Literature of World War I. Same as Liberal Arts Honors 350
(Topic 4). Selected readings from autobiographies, poetry, fiction,
and memoirs, primarily about the Western Front, by German, British,
and American authors; a short history of World War I; readings of
a central book of literary analysis; exploration of the nature of war,
the experience of combatants, and the legacy of the war itself and
its unique literature. Only one of the following may be counted:
Humanities 350 (Topic: Literature of the Great War), 350 (Topic 10),
Liberal Arts Honors 350 (Topic: Literature of the Great War), 350 (Topic
4).

Topic 13: Treasure Hunt Archival Research. Same as Liberal Arts
Honors 350 (Topic 28). Discover, explore and identify the boundless
treasures that can be found on the University of Texas Austin campus
as you hunt through the vast cultural and historical collections at the
archives on campus including the Harry Ransom Center, the Dolph
Briscoe Center for American History, and the LILAS Benson Latin
American Collection. Explore essential skills for pursuing original
research projects in humanities disciplines and apply these skills to
bring public attention to hidden histories and marginalized voices
in American culture. Only one of the following may be counted:
Humanities 350 (Topic: Treasure Hunt HRC Arch Rsch), 350 (Topic 13),
Liberal Arts Honors 350 (Topic: Treasure Hunt HRC Arch Rsch), 350
(Topic 28).

HMN 351C. The Johnson Years.
Same as Liberal Arts Honors 350 (Topic 18). Restricted to Plan I majors in
the College of Liberal Arts. Three lecture hours a week for one semester.
Only one of the following may be counted: Humanities 350
(Topic: Johnson Years), 351C, Liberal Arts Honors 350 (Topic: Johnson
Years), 350 (Topic 18). Prerequisite: Upper-division standing and a grade
point average of at least 3.50.

HMN 351D. Money In American Politics.
Same as Liberal Arts Honors 350 (Topic 14). Restricted to Plan I majors in
the College of Liberal Arts. Explores the nature and consequences of
money in American politics. Three lecture hours a week for one semester.
Only one of the following may be counted: Government 379S (Topic:
Money in Politics), Humanities 350 (Topic: Money in Politics), 351D,
Liberal Arts Honors 350 (Topic 14). Prerequisite: Upper-division standing and grade
point average of at least 3.50.

Same as Liberal Arts Honors 351N. Restricted to Plan I majors in the
College of Liberal Arts. Use digital archives and exhibits to amplify voices
that actively promote social justice, cultural awareness, and service; and
to test the ethical positions about impartiality and advocacy in archival
and exhibit practices. Three lecture hours a week for one semester.
Only one of the following may be counted: Humanities 350 (Topic:
Archiv Advac:Exper Learn), 351N, Liberal Arts Honors 350 (Topic: Archiv
Advac:Exper Learn), 351N. Prerequisite: Upper-division standing and grade
point average of at least 3.50.

HMN 358Q. Supervised Research.
Individual instruction. May be repeated for credit. Prerequisite: Consent of
the humanities adviser.

HMN 370. Senior Tutorial Course.
A tutorial program of supervised reading and writing, including an
individual paper or papers in which the student draws together the
central directions and discoveries of his or her studies in the humanities.
Three lecture hours a week for one semester. Humanities 370 and 679HB
may not both be counted. Prerequisite: Consent of the humanities adviser.

**HMN 379. Conference Course.**

Individual instruction in a topic approved by the instructor and the humanities adviser. Conference course. May be repeated for credit. Prerequisite: Upper-division standing and consent of the humanities adviser.

**HMN 679H. Honors Tutorial Course.**

Directed reading and research, followed by the writing of a report or the creation of a project. Conference course for two semesters. Humanities 370 and 679HB may not both be counted. Prerequisite: For 679HA, admission to the Humanities Honors Program and consent of the humanities adviser; for 679HB, Humanities 679HA.

**Graduate Courses**

**Professional Courses**

I - Informatics

**Informatics: I**

**Lower-Division Courses**

I 301. Introduction to Informatics.

Introduction to the field of informatics, including cultural heritage informatics, health informatics, human-centered data science, social informatics, social justice informatics, and user experience design. Three lecture hours a week for one semester. Informatics 301 and Information Studies 304D may not both be counted. Offered on the letter-grade basis only.

I 302. Academic Success in the Digital University.

Examine a wide variety of information and academic resources, tools, and skills; with a focus on the digital landscape of higher education. Explore the features of the primary learning management system; communication and organization tools; library resources; basic online research resources; and ethical and safety concerns. Three lecture hours a week for one semester. Informatics 302 and Information Studies 303D may not both be counted. Offered on the letter-grade basis only.

I 303. Ethical Foundations for Informatics.

Survey the ethical foundations for informatics, incorporating non-Western and feminist perspectives. Apply these ethical foundations to contemporary problems in informatics. Examine the confrontation of ethical dilemmas in the workplace, including recognizing value trade-offs, affected stakeholders, and potential solutions. Three lecture hours a week for one semester. Offered on the letter-grade basis only.

I 304. Programming for Informatics.

Restricted to informatics majors and students pursuing the informatics minor. Examine the fundamentals of computer programming and practice developing and documenting code. Three lecture hours a week for one semester. Offered on the letter-grade basis only.

I 305. Research Methods for Informatics.

Restricted to informatics majors and students pursuing the informatics minor. Explore diverse research approaches to investigate informatics-related problems. Examine principles and hands-on practices of data collection and analysis with respect to qualitative, quantitative, and mixed research methods. Three lecture hours a week for one semester. Informatics 305 and Informatics 310 (topic: Resrch Methods for Informatics) may not both be counted. Offered on the letter-grade basis only.

Restricted to informatics majors and students pursuing the informatics minor. Examine fundamental principles of probability and statistics. Cultivate an understanding of descriptive and inferential statistics. Conduct and interpret statistical analyses using statistical analysis software, and apply these analyses to common issues in informatics. Three lecture hours a week for one semester. Offered on the letter-grade basis only.

I 310. Topics in Introductory Informatics.

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Prerequisites may vary with the topic.

I 310C. Introduction to Cultural Heritage Informatics.

Examine the fundamentals of managing, describing, organizing, preserving, and providing access to data and information in a wide range of technological forms. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Informatics 301.

I 310D. Introduction to Human-Centered Data Science.

Explore the leveraging of data, information, and technology for the greater benefit of society and to help ensure a level playing field for everyone in the information age. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Informatics 301.

I 310J. Introduction to Social Justice Informatics.

Explore the leveraging of data, information, and technology to improve the efficiency and effectiveness of organizations while also providing a more ethical and humane environment for workers. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Informatics 301.

I 310M. Introduction to Health Informatics.

Explore designing and implementing information technologies to improve healthcare delivery, healthcare management, and health outcomes. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Informatics 301.

I 310S. Introduction to Social Informatics.

Explore the leveraging of data, information, and technology to improve the efficiency and effectiveness of organizations while also providing a more ethical and humane environment for workers. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Informatics 301.

I 310U. Introduction to User Experience Design.

Introduction to user experience, human-computer interaction, and the human-centered design of interfaces and applications for mobile devices and the web. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Informatics 301.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad advisor in the academic unit. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.
Upper-Division Courses

I 320. Topics in Informatics.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Varies with the topic.

   Topic 2: Children’s Literature. Explore the evaluation, selection, and proper and creative use of books and other media with children. Informatics 320 (Topic 2) and Information Studies 322T may not both be counted. Offered on the letter-grade basis only.

I 320C. Topics in Cultural Heritage Informatics.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Informatics 310C.

I 320D. Topics in Human-Centered Data Science.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Informatics 304 and 310D.

I 320J. Topics in Social Justice Informatics.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Informatics 310J.

I 320M. Topics in Health Informatics.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Informatics 310M.

I 320S. Topics in Social Informatics.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Informatics 310S.

I 320U. Topics in User Experience Design.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Informatics 310U.

Topics in Informatics.
This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad advisor in the academic unit. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Examine the essential skills for obtaining a job and sustaining a successful career with an emphasis on integrity, teamwork, time management, responsiveness to feedback, and written and oral communication. Explore tools for computer-supported cooperative work that facilitate online collaboration. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Individual instruction. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

For each semester hour of credit earned, the equivalent of one lecture hours a week for one semester. Individual instruction. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

I 178T, 278T, 378T. Internship.
For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester, with additional hours to be arranged. Offered on the pass/fail basis only. Prerequisite: Consent of department.

I 379C. Capstone.
Restricted to informatics majors. The equivalent of three lecture hours a week for one semester. Prerequisite: Upper-division standing and a minimum of 90 hours of coursework.

I 679H. Honors Thesis.
Restricted to Informatics majors. Research, read, and develop an honors thesis subject and proposal for one semester; followed in the second semester by the writing and defense of a final honors thesis. The equivalent of three lecture hours a week for two semesters. Prerequisite: For 679HA, upper-division standing, a minimum of 90 hours of coursework, and consent of instructor; for 679HB Informatics 679HA.

Graduate Courses
Professional Courses
I B - International Business

International Business: I B

Lower-Division Courses
Upper-Division Courses
I B 320F. Foundations of International Business.
Restricted to non-McCombs School of Business majors. Fundamentals of international trade and the international economy; international dimensions of several functional areas of business, including management, marketing, finance, and human resource management; theoretical, institutional, and functional foundations of international business. Three lecture hours a week for one semester. May not be counted toward the Bachelor of Business Administration degree. Only one of the following courses may be counted: Economics 339K, European Studies 348 (Topic 2: International Trade), International Business 320F, 350, 350S. Prerequisite: Forty-five semester hours of college coursework.

I B 137C. Introduction to Management in a Global Environment.
Same as Management 137C. Restricted to students pursuing the global management minor. Develops students’ skills in recognizing cultural tendencies, both in themselves and in new geographic locations; introduces observation and reflection techniques to maximize learning while abroad. Course must be taken before participation in the international experience component required by the Global Management Certificate. One lecture hour a week for one semester. International Business 137C and Management 137C may not both be counted. Offered on the letter-grade basis only.
Same as Management 237D, Same as Management 337D. Restricted to students pursuing the global management minor. Develops students' ability to process and articulate learning from intercultural experience; develops skills in applying knowledge and strategies gained in one region/country to new cultural and geopolitical contexts. For each semester hour of credit earned, one lecture hour a week for one semester. Management 237D, 337D, and International Business 237D, 337D may not both be counted. Offered on the letter-grade basis only. Prerequisite: Completion of required international experience component of the Global Management Minor, and consent of instructor.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office or the school's BBA Exchange Programs. Credit is recorded as assigned by the study abroad adviser in the Department of Business, Government, and Society. University credit is awarded for work in an exchange program; it may be counted a coursework taken in residence. May be repeated for credit when the topics vary.

Same as European Studies 348 (Topic 2). Study of the principles, policies, and problems of the international exchange of goods and investments. Three lecture hours a week for one semester. Only one of the following may be counted: Economics 339K, European Studies 348 (Topic 2), International Business 320F, 350, 350S. Prerequisite: Upper-division standing.

I B 350S. International Commerce Analysis.
Study of the principles, policies, and problems of the international exchange of goods and investments. This course is used for classes taken on an approved study abroad program with the content equivalent of International Business 350. The equivalent of three lecture hours a week for one semester. Only one of the following may be counted: Economics 339K, European Studies 348 (Topic 2), International Business 320F, 350, 350S. Offered on the letter-grade basis only. Prerequisite: Consent of Instructor.

I B 151S. Independent International Analysis.
Restricted to students in a business major. Country analysis by independent study. Designed for marketing majors who participate on a McCombs summer faculty led program. Conference offered on the letter-grade basis only. Prerequisite: Credit or registration for International Business 350S; and approval from the BBA Program Office before the first meeting of the course.

Same as Government 360D. Explore the conditions and motivations behind the use of military force in world politics. Three lecture hours a week for one semester. Only one of the following may be counted: Government 360D, 360N (Topic 12), International Business 360D. Prerequisite: Six hours of lower-division coursework in Government.

Examine management of a firm in a rapidly evolving regulatory environment across the world as new technology reshapes social norms, legal rules, and society itself. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

Examine investments across sectors and countries in the face of a rapidly evolving world. Explore micro-investing to build a framework for analyzing different sectors across countries and how it applies to different countries around the world. Investigate macro-investing to develop a broader understanding of how financial markets work in different countries. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

I B 366. International Accounting and Transfer Pricing.
Same as Accounting 366C. Discover how to price transactions between subsidiaries of multinational corporations buying and selling goods, services, intellectual property and other assets in light of tax obligations and other considerations. Three lecture hours a week for one semester. Only one of the following may be counted: Accounting 366C, 380K (Topic: International Accounting/Transfer Pricing), 380K (Topic: 32), International Business 366. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

I B 366P. International Business Practicum.
Restricted to international business majors or students pursuing the international business minor. Apply skills learned in International Business courses through group projects conducted in a professional setting. Work with a private or public enterprise. The equivalent of three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing; completion of forty-five semester hours of coursework, International Business 350, and consent of instructor.

I B 367C. Intercultural Management.
Examine a conceptual framework and specific tools for interacting successfully in international teams, negotiations, and partnerships. Discuss cultural patterns characteristic of world regions and particular countries in terms of their implications for corporate management. Three lecture hours a week for one semester. Only one of the following may be counted: Management 337 (Topic: Intercultural Management), 137, 237, 337 (Topic 3), International Business 372 (Topic 12), 367C.

I B 367D. Global Entrepreneurship.
Explore how to start, manage, and exit a business in a global context. Examine aspects of global entrepreneurship including opportunity analysis, business planning, fundraising, competing in a global marketplace, and managing through crisis explored through practical experience and real-world examples. Three lecture hours a week for one semester. Only one of the following may be counted: International Business 372 (Topic: Global Entrepreneurship), 172, 272, 372 (Topic 11), 367D.

Investigate problems that complicate the operation of supply chains on a global scale, such as political risk. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing; additional prerequisites vary with the topic.

Topic 1: International Marketing.
Topic 3: Managing the Global Corporation.
Topic 4: Competing with the Japanese.
Topic 5: Business in Latin America.
Topic 6: Business German. German 356W and International Business 172 (Topic 6), 272 (Topic 6), 372 (Topic 6) may not both be counted. Additional prerequisite: German 312K or 312V with a grade of at least C-, or appropriate score on the placement test.
Topic 7: Advanced Business German. Designed for students who have taken German 328. Taught in German. Normally meets with German 336W. German 336W and International Business 172 (Topic 7), 272 (Topic 7), 372 (Topic 7) may not both be counted. Additional prerequisite: Three courses beyond German 506, or equivalent credit on the placement test.

Topic 8: Business Spanish. International Business 172 (Topic 8), 272 (Topic 8), 372 (Topic 8) and Mexican American Studies 350 may not both be counted. Additional prerequisite: Spanish 327G.

Topic 9: Business French. Taught in French. Additional prerequisite: French 320E and one additional upper-division French course, or consent of instructor.

Topic 10: Exporting for Entrepreneurs. Practicum-based course exploring the challenges associated with developing an export strategy for an existing start-up and/or small business. Covers topics surrounding export management as well as how business functions are impacted by a desire to export. International Business 372.10 and 372 (Topic: Exporting for Entrepreneurs) may not both be counted.

Topic 13: Procurement and Supplier Management. Only one of the following may be counted: International Business 372 (Topic: Procurement/Supplier Mgmt), 372 (Topic 13), Operations Management 337 (Topic 3).

Topic 14: Introduction to Global Finance and Business. International Business 372 (Topic: Intro to Globl Fin and Busn) and 372 (Topic 14) may not both be counted.

Topic 15: Global Political Economy.

Topic 16: Global Marketing. Marketing 372 (Topic 4) and International Business 172, 272, 372 (Topic 16) may not both be counted.

Only one of the following may be counted: International Business 372 (Topic 2), 373, Latin American Studies 322 (Topic 9), Middle Eastern Studies 341 (Topic 2). Prerequisite: Upper-division standing.

I B 375C. Supply Chain and Operations Management Strategy.

Same as Operations Management 375. Restricted to students in a business major. Discuss the role of supply chain management to increase a firm’s competitive performance and understand how that performance affects the economy and society as a whole. Examine supply chain and operations design as well as environmental, social, and governance (ESG) issues. Explore the impact of new business models including e-commerce and automation; contracting; outsourcing and vertical integration, resiliency, and new delivery modalities. Three lecture hours a week for one semester. Only one of the following may be counted: International Business 367, 375C, Operations Management 367, 375. Prerequisite: Operations Management 334M, 235, or 235H with a grade of at least C; Operations Management 338; and credit or registration for Operations Management 368 or 370.

Same as Finance 376. Restricted to students in a business major. Explore the international financial environment, with emphasis on the factors affecting exchange rates and how exchange rate changes affect the firm. Three lecture hours a week for one semester. Finance 376 and International Business 376 may not both be counted. Prerequisite: Finance 357 or 357H.

Restricted to students in a business major. Establishment and conduct of international business operations: trade, investments, branch and subsidiary management, intermediary functions; case studies in international enterprise. Three lecture hours a week for one semester. Prerequisite: Upper-division standing; at least seventy-

I B 179C, 379C. Independent Research in International Business.

Restricted to students in a business major. Conference course. Only one of the following may be counted: Accounting 179C, 379C, Business, Government, and Society 179, 379, Finance 179C, 379C, International Business 179C, 379C, Legal Environment of Business 179, 379, Management 179C, 379C, Management Information Systems 179, 379, Marketing 179C, 379C, Operations Management 179, 379, Risk Management 179, 379. Prerequisite: Eighteen semester hours of coursework in business and economics, six of which must be upper-division; International Business 350 with a grade of at least C; and consent of instructor. A student registering for this course must obtain written approval from the department chair’s office, on forms provided for that purpose, before the first meeting of the course.

Graduate Courses

Same as Management 185E. Same as Management 285E. Same as Management 385E. Study global business practices through lectures on campus and trips to international partner schools. The equivalent of one lecture hour a week for one semester. Only one of the following may be counted: International Business 385E, Management 185C and 385E. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

Study of contemporary topics in international trade and investment theories, policies, and problems. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Graduate standing; some topics also require consent of instructor.

Topic 1: Global Strategic Management. The changing global business environment and the ways multinational corporations compete in this environment. Case studies and readings, followed by a global management computer simulation. Offered on the letter-grade basis only.

Topic 2: International Trade and Investment. The basis for international trade, foreign exchange determination, balance of payments, and international trade and investment policy. Macro-level aspects of the international economy, which provide the basis for the functioning of the global economy. Offered on the letter-grade basis only.

Topic 3: Global Business Operations. Overview of management in a multinational context, focusing on the multinational corporation; the economic, political, and social environments in which it operates; and its basic managerial concerns with finance, management, marketing, and personnel. Includes an international operations computer simulation. Offered on the letter-grade basis only.

Topic 4: Business in Developing Countries. The traditional challenges to business in developing countries and the new challenges of market liberalization. Similarities and differences among countries and regions. Offered on the letter-grade basis only.

Topic 5: Business in Japan. Comprehensive examination of macro-level and micro-level issues involved in conducting business in Japan and in competing with the Japanese in the global marketplace. Macro-level issues include government industrial policy, interfirm relationships, and United States-Japan trade relationships; micro-
level issues include management style, foreign expansion strategy, research and development strategy, and distribution practices. Offered on the letter-grade basis only.

**Topic 6: International Marketing Management.** An overview of international marketing, with emphasis on the multinational corporation. Subjects include the changing international environment, researching and entering foreign markets, and the marketing mix in international marketing. Offered on the letter-grade basis only.

**Topic 7: International Operations and Management.** International Business 395 (Topic: Internatl Operations and Mgmt) and 395 (Topic 7) may not both be counted. Offered on the letter-grade basis only.

**Professional Courses**

**ILA - Iberian and Latin American Languages and Cultures**

**Iberian and Latin American Languages and Cultures: ILA**

**Lower-Division Courses**

**Upper-Division Courses**

**Graduate Courses**

**ILA 380. Introduction to Theory and Research of Literature and Culture.**

An introductory survey of theories, research methods, and issues of professionalization relevant to the study of Latin American and Iberian literatures and cultures. Designed to be taken in the first long semester of graduate study. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of the graduate adviser.

**ILA 381. Introduction to Theory and Research of Linguistics.**

An introduction to the prevalent theories, research methods, and issues of professionalization relevant to the study of the language forms and language practices of individuals and societies. Designed to be taken in the first long semester of graduate study. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of the graduate adviser.

**ILA 383. Creative Writing in Spanish.**

Explore the creative process of writing in different genres including non-fiction, fiction, and poetry. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of graduate advisor.

**ILA 383L. Conference Course.**

Conference course. May be repeated for credit. Prerequisite: Graduate standing and written consent of the graduate adviser.

**ILA 385T. Teaching Practicum.**

Mentorship and pedagogical training by working one-on-one with a faculty member on the development and design of an undergraduate, upper-division level course in their area of specialization. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing, Iberian and Latin American Languages and Cultures 398T; admission to candidacy for the doctoral degree, including an approved dissertation proposal; and consent of the graduate adviser.

**ILA 386. Topics in Iberian and Latin American Linguistics.**

Topics in Iberian and Latin American linguistics, including diasporic and indigenous communities. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, and consent of instructor and the graduate adviser.

**ILA 387. Topics in Iberian and Latin American Literatures and Cultures: Spanish.**

Topics in the literatures and cultures of Spanish America, Spain, and related diasporas. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, and consent of instructor and the graduate adviser.

**ILA 388. Topics in Iberian and Latin American Literatures and Cultures: Portuguese.**

Topics in the literatures and cultures of Brazil, Portugal, and related diasporas. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, and consent of instructor and the graduate adviser.

**ILA 388C. Brazilian Cultural Theory.**

Same as Latin American Studies 381 (Topic 25). Explore some of the most influential subjects and theories that have informed contemporary scholarship on the politics of Brazilian literary and cultural production. Three lecture hours a week for one semester. Only one of the following may be counted: Iberian and Latin American Languages and Cultures 388 (Topic: Brazilian Cultural Theory), 388C, Latin American Studies 381 (Topic: 25), 392S (Topic: Brazilian Cultural Theory). Prerequisite: Graduate standing and consent of the graduate advisor.

**ILA 388D. Cultural Tropicalities.**

Same as Latin American Studies 381 (Topic 26). Examine the centrality of Brazil, and the New World in general, in the context of global controversial meanings, symbolism, memory, and knowledge of the intertropical cultural and geographic zone. Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 382 (Topic: Cultural Tropicalities), Iberian and Latin American Languages and Cultures 388 (Topic: Cultural Tropicalities), 388D, Latin American Studies 381 (Topic: Cultural Tropicalities), 381 (Topic 26). Prerequisite: Graduate standing and consent of the graduate advisor.

**ILA 389. Topics in Iberian and Latin American Literatures and Cultures: Spanish and Portuguese.**

Comparative topics in the literatures and cultures of Brazil, Spanish America, the Iberian Peninsula, and related diasporas. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, and consent of instructor and the graduate adviser.

**ILA 394. Supervised Preparation of the Qualifying Paper.**

Supervised preparation for the doctoral degree qualifying paper. Designed to be taken in the same semester the student submits the paper. Three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing, and consent of instructor and the graduate adviser.

**ILA 395. Supervised Preparation of the Dissertation Fields.**

Preparation of field lists, and critical summaries of these lists, under faculty supervision. Prepares students for Iberian and Latin American Languages and Cultures 396. The equivalent of three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing, and consent of instructor and the graduate adviser.

**ILA 396. Supervised Preparation of the Dissertation Proposal.**

Supervised preparation for the dissertation proposal for the doctoral degree. Designed to be taken in the same semester the student submits
the proposal, typically the sixth or seventh long semester of study.
The equivalent of three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.

ILA 398R. Master's Report.
Preparation of the report required to fulfill the requirement for the master's degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.

ILA 398T. Supervised Teaching in Spanish and Portuguese.
Required for teaching assistants during their first semester that they teach. Fundamentals of foreign language teaching methodology, with particular reference to the teaching of Spanish and Portuguese. Theoretical concepts on which classroom practice is based, in conjunction with teaching under close supervision of the course instructor, individual consultations, reading assignments, and reports. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing, individual consultation, reading assignment, and consent of instructor and the graduate adviser.

Supervised writing of the dissertation for the doctoral degree. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses
INF - Information Studies

Information Studies: INF
Lower-Division Courses
Upper-Division Courses
Graduate Courses

INF 380C. Information in Social and Cultural Context.
Examines the role of information in human activities, particularly in relation to particular social and cultural contexts. Examines how individuals, groups, organizations, institutions, and society at large create, find, use, understand, share, transform, and curate information. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 380D. Designing Dynamic Web Pages.
Principles and practices for designing, developing, and evaluating interactive desktop and mobile Web pages. Theories and models for color, styles, and interactive page elements, such as forms. Students create and evaluate Web pages using current technologies, such as XHTML/HTML5, CSS, JavaScript, AJAX, and Adobe Flash. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 380E. Perspectives on Information.
Multidisciplinary and historical examination of concepts of information. Examines key literature from information studies with perspectives from other fields. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 380K. Internet Applications.
Introduction to Internet concepts, protocols, applications, and services. Examines the impact of policy and management decisions on current and future developments, and studies the design and implementation of Internet applications, including HTML, CSS, and related tools. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 380P. Introduction to Programming.
Restricted to students in the School of Information Studies. Introduction to common concepts and constructs of modern computer programming such as classes and objects, methods, inheritance, data types, variables, operators, procedures, and code libraries. Development of programmatic solutions to specific computing problems and design applications for modern computing platforms such as desktop, tablet, mobile, and the World Wide Web. Intended for students with no significant prior programming experience. Three lecture hours a week for one semester. Only one of the following may be counted: Information Studies 380P, 383P, 385T (Topic: Introduction to Programming). Prerequisite: Graduate standing and consent of instructor.

INF 181, 281, 381. Individual Studies.
In-depth study of a problem or topic related to information studies, usually culminating in an examination or a scholarly written report. Individual instruction. With consent of the graduate adviser, may be repeated for credit. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.

INF 181E. Electronic Portfolio.
Creation of a Web site that displays the student's professional aims, interests, and pursuits, including resume and work samples. Designed to be taken during the final semester of the Master of Science in Information Studies degree program. Individual instruction. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and concurrent enrollment in one of the following: Information Studies 388L, 388R, 698B, 398R.

INF 381W. Advanced Problems in Information Studies.
Study of a problem or topic related to information studies. Offered as an online course. The equivalent of three lecture hours a week for one semester. With consent of graduate adviser, may be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

INF 382C. Understanding and Serving Users.
Overview of human-computer interaction, understanding client groups, information filters, information literacy and information-seeking behavior, as well as user studies and usability testing. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 382D. Introduction to Information Resources and Services.
Major reference resources and strategies useful in providing information services in libraries and other information agencies. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 382G. Information Resources and Services for Children and Young Adults.
Examines the evaluation, selection, and use of books and other media for young adults of junior and senior high school age. Briefly surveys the reading experience, psychology of adolescence, and reading interests of young adults. Includes extensive reading and viewing. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; prerequisites may vary with the topic.

Topic 3: Materials for Children and Young Adults. Explore the evaluation, selection, and use of books and other media and materials to meet the needs of children and young adults.
INF 382H. Legal Information Resources.
Identification of relevant legal information resources, efficient retrieval of legal information, and the role of technology in legal information access. Three lecture hours a week for one semester. Information Studies 382H and 382L (Topic: Legal Information Resources) may not both be counted. Prerequisite: Graduate standing.

INF 382K. Information Resources in the Health Sciences.
Evaluation of conventional and online health information resources used by consumers and health care professionals for health promotion and disease and disorder prevention, diagnosis, treatment, and management. Includes traditional and alternative approaches, genetic clinical information approaches, and evidence-based approaches to the use of resources. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 382L. Information Resources and Services.
Evaluation and use of printed online information resources and services in specialized areas, with emphasis on new information technologies. Information-seeking behavior of users, document delivery, new roles of the information specialist in user support, and information needs of a variety of clients. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; prerequisites may vary with the topic.

INF 382N. Information Resources in Business.
Communication patterns, bibliographic organization, and information resources in business and industry. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 382P. Competitive Intelligence Resources and Strategies.
Resources and strategies for market and competitive analysis. Research and analysis of market trends and financial, technical, and cultural strengths and weaknesses of companies. Online, print, and primary research and analytical techniques. Ethics, process, and presentation are emphasized. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 382R. Introduction to Scientific Data Informatics.
Introduction to the characteristics of scientific data and the emerging practices applied toward their management and preservation. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 382S. Library Instruction and Information Literacy.
History of instruction in information service settings; learning theory, including learning styles; professional organizations involved in supporting instruction; instructional delivery modes and materials; and evaluation. Three lecture hours a week for one semester. Prerequisite: Graduate standing. Information Studies 382D is strongly recommended.

INF 382T. Information Services: Theory, Techniques, and Subject Areas.
Exploration of reference services; and evaluation and use of printed and online information resources and services, with emphasis on interpersonal communication and new information technologies.

INF 382U. Digital Resources for Children and Youth Seminar.
Exploration of digital information resources available for children and youth, including the range of content and availability, how information resources are conceived and created, and the implications of these resources for school and public libraries. The equivalent of three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 382V. Visual Resources for Youth Seminar.
The history and selection criteria of the Caldecott Award; the history of picture books and publishing; academic and professional literature about children's materials; and selection criteria for picture books, including evaluating children's literature and developing the tools to analyze picture books for narrative, artistic, and compositional elements. Illustrative techniques and their effectiveness in relation to particular texts. The equivalent of three lecture hours a week for one semester. Prerequisite: Graduate standing.

Introduction to traditional finite mathematical concepts, including probability distributions and models, linear equations, matrix algebra, linear statistical models, basic information theory, and the use of mathematical and statistical software for modeling and data analysis. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 383E. Interpreting Implicit Information on the Web.
Theories and methods of Internet language and image interpretation. Examines persuasion, group and individual identity projection, and group-value demonstration. Focuses on how discourse is shaped by ideology, social forces, and the knowledge and beliefs of its producers within several information contexts, such as online communities, education, science, and healthcare. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 383H. Introduction to Digital Humanities.
A hands-on introduction to guiding infrastructural and institutional developments involved in digital humanities. Explore areas of focus including archives, collection, data curation; funding, tool building, and scholarly publishing. Three lecture hours a week for one semester. Information Studies 383H and 385T (Topic: Introduction to Digital Humanities) may not both be counted. Prerequisite: Graduate standing.

INF 383S. Library Information Science, Espionage, and Intelligence Gathering.
Examines the historical and conceptual linkages between the field of library information science and the practices of intelligence gathering and espionage. Explores the role and structure of the intelligence community, the similarities and contrasts between intelligence practitioners and other information professionals, and historical case studies that illuminate areas of overlap and cooperation between the disciplines. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 384C. Organizing Information.
Introduction to the concepts of information organization, representation, and classification. Consideration of different traditions of practice and user concerns. Three lecture hours a week for one semester. Prerequisite: Graduate standing.
INF 384D. Collection Management.
Philosophical and social context, objectives, and methodology of evaluating, selecting, and managing library materials. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 384F. Seminar in Information Organization.
Critical, in-depth examination of significant concepts in information organization. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

The science and engineering of building automated search engines: foundations and emerging methods, key models and approaches, front-end usability and back-end algorithms, theories of relevance, annotation practices, and system evaluation/benchmarking. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 384M. Topics in Description and Metadata.
Principles and practices for describing information resources. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; prerequisites may vary with the topic.

INF 384R. Digital Repositories.
Introduction to issues in selecting, managing, and using digital repositories in diverse institutional settings. Covers repository models, collections, metadata, interoperability, preservation, policies, work flows, interfaces, visualization, applications, and services. Includes working with different repository software. Examines the impact of repositories on institutional culture, work practices, and publication models. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 384W. Descriptive Cataloging and Metadata.
Standards, rules, and metadata formats for representing information entities in library catalogs and other bibliographic systems. Emphasis on the Anglo-American Cataloguing Rules and the MARC metadata format. The equivalent of three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 385C. Human-Computer Interaction.
The history and importance of human-computer interaction (HCI), theories of HCI design, modeling of computer users and interfaces, empirical techniques for analyzing systems and interfaces, interface design, and styles of interaction. Emphasis on reviewing research papers, current works, and future directions in HCI research. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 385E. Information Architecture and Design.
The theory and design of information architecture: models that provide structure and context for information to shape meaning, purpose, and utility toward understanding. Students present theoretical reviews; map and design; and develop novel information architectures using a variety of methods and software applications. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 385G. Advanced Usability.
Designed to build upon the skills covered in Information Studies 385P. Individual project evaluating a Web site or other software user interface. Students devise a plan for testing, secure IRB approval to test human subjects, conduct study, analyze data, write a report, and present the results and conclusions. Three lecture hours a week for one semester. Prerequisite: Graduate standing and Information Studies 385P.

INF 385H. Digital Media Design.
Design and production of graphic, audio, video, and multimedia materials, with emphasis on aesthetics and usability. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 385K. Projects in Human-Computer Interaction.
Projects based on theories of human-computer interaction design, modeling of computer users and interfaces, empirical techniques for analyzing systems and interfaces, interface design, and styles of interaction. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 385L. Information Networks.
History, design, and use of digital information networks. Emphasis on origins of the Internet in the United States, varied technical models for networked information services, and social analysis of networked communication from multiple disciplinary perspectives. Includes close review of classic papers in networked communication as well as current works. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 385M. Database Management.
Principles and practices of database management and database design. Discussion and implementation of a database. Application life cycle, data dictionaries, relational database design, SQL queries, reports and other interfaces to database data, and documentation. Students work on individual and group projects. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

INF 385N. Informatics.
Investigation of informatics movements around the world and in various disciplines and professions, such as biomedicine, nursing, public health, education, business, law, and public affairs. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 385P. Usability.
The basics of user-centered design through the lifecycle of a software product. Includes perceptual, psychological, and other scientific underpinnings of usability and the justification for the application of usability engineering in software development. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 385Q. Knowledge Management Systems.
Survey of knowledge management systems that enable the access and coordination of knowledge assets, including intranets, groupware, Weblogs, instant messaging, content management systems, and e-mail in both individual and organizational contexts. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 385R. Survey of Digitization.
Introduction to the issues and trends in digital asset management and digitization initiatives, including planning and project management, asset delivery and management systems, interoperability and the importance of standards, copyright, metadata basics, digital preservation, and specific digitization processes for documents, images, video, and sound. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 385S. Digital Libraries.
Research, development, and evaluation issues related to digital collections of documents, data, and multimedia formats, including metadata and interoperability; access strategies and user interfaces; implications for policies and social issues; collection development with
physical as well as digital materials. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 385T. Special Topics in Information Science.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites may vary with the topic.

Topic 1: Presenting Information. Visual, numerical, textual, and verbal presentation of information based on fundamental theories of human information perception and communication. Examples may include tables, graphs, dashboards, infographics, and reports. Information Studies 385T (Topic: Presenting Information) and 385T (Topic 1) may not both be counted.

Topic 2: Visualization. Concepts, principles, strategies, techniques, and tools for the visual presentation of large, high-density, or complex information resources from a variety of disciplines such as the sciences, humanities, law, arts, and business. Information Studies 385T (Topic: Visualization) and 385T (Topic 2) may not both be counted.

Topic 3: Human Computation and Crowdsourcing. Introduction to the theory, methods, and applications of human computation and crowdsourcing; covering a breadth of key concepts as well as more specialized depth in one or more key sub-areas. Information Studies 385T (Topic: Human Computation and Crowdsourcing) and 385T (Topic 3) may not both be counted.

Topic 4: Mobile Interaction Design. Introduction to the design of mobile interactions with emphasis on research and analysis, conceptual design, mobile interface prototyping, and the basics of interface evaluation and usability testing. Only one of the following may be counted: Information Studies 385C, 385T (Topic: Mobile Interaction Design), 385T (Topic 4).

Topic 5: Data Mining. A hands-on introductory overview of the applications, methods, tools, and technologies that constitute data science and data mining. Fundamentals of Python and R programming languages and relevant libraries. A semester project applying the learned methods and technologies to a specific dataset. Three lecture hours for one semester. Information Studies 385T (Topic: Data Mining) and 385T (Topic 5) may not both be counted.

Topic 6: Information Modeling. An introduction to fundamental information modeling methods such as relational database design, conceptual modeling, markup systems, and ontologies. Information 385T (Topic: Information Modeling) and 385T (Topic 6) may not both be counted.

Topic 7: Information Science in the Intelligence Community. Introduction to the U.S. Intelligence Community (IC) and the world of espionage from a Library and Information Science perspective: how intelligence agencies collect, manage, and analyze data and information to produce actionable insights for policymakers. Information 385T (Topic: Intelligence Gathering) and 385T (Topic 7) may not both be counted.

Topic 8: Information Ethics. Examination of contemporary information ethics issues applying a variety of ethical theories, including non-Western and feminist theories. Information 385T (Topic: Information Ethics) and 385T (Topic 8) may not both be counted.

Topic 9: Data Wrangling. An introduction to working with data - reading a variety of formats, designing a database schema, and introductory programming skills for inserting, querying, and transforming of data. Information 385T (Topic: Data Wrangling Excel SQL Beyond) and 385T (Topic 9) may not both be counted.

Topic 10: Interaction Design. Introduction to the design and production of useful and elegant interactive experiences, including iterative design, prototyping, and user testing. Information Studies 385T (Topic: Interaction Design) and 385T (Topic 10) may not both be counted.

Topic 11: Crowdsourcing for Computer Vision. Examine the opportunities and challenges for using crowdsourcing to teach computers to "see". Information Studies 385T (Topic: Crowdsourcing CPU Vision) and 385T (Topic 11) may not both be counted.

Topic 12: Ethics of AI. Identify and address a variety of ethical challenges related to AI and its applications. Apply a broad range of ethical theories, including non-Western and feminist theories, to contemporary issues in the design, development, and deployment of AI-based systems. Information Studies 385T (Topic: Ethics of AI: Good Systems) and 385T (Topic 12) may not both be counted.

Topic 13: Human-AI Interaction. Introduction to combining human and machine intelligence to benefit people and society. Explore cutting-edge research on a number of subjects related to human-AI interaction, including the psychological and societal impacts of AI as well as design guidelines and methods for human-centered AI. Information Studies 385T (Topic: Human-AI Interaction) and 385T (Topic 13) may not both be counted.

INF 385U. Digital Media Collections.
Collection design, resource selection, description and organization, development of user access mechanisms. May include collection considerations in regards to various media, workflow and project management, audience analysis, and notions of authorship in the collection context. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 385V. Health Informatics.
Introduction to health informatics; includes fundamentals of information in biomedicine, nursing, public health, bioinformatics and genomics, electronic records, and integrated systems. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 385W. Security Informatics.
Explores information, computer, and network security in several contexts. Examines business impacts of security, societal implications of the protection of information resources, and technical aspects of securing information technology systems and data. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 386. History of Information and Society.
Topics on the histories of information; libraries; archives; information science, technology, and businesses; conservation; and museums. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; prerequisites may vary with the topic.

INF 386C. Archives, Records, and Preservation in the Modern World.
Progress of archival enterprise, records management, and preservation administration from the Renaissance to the present. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 386E. Information and Culture.
Examines information as a cultural phenomenon; may include e-commerce, privacy and secrecy, censorship, information as a commodity, Internet culture, access to cultural heritage, and control of the cultural record. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; prerequisites may vary with the topic.

INF 386G. Gender, Technology, and Information.
Definitions of and metaphors for technologies; in-depth analysis of feminism and science and technologies studies, masculinities and
technologies, women's underrepresentation in technology, reproductive and sexual technologies, domestic technologies, design and architecture, book clubs and reading, and gender and (information) articulation work. Three lecture hours a week for one semester. Information Studies 386G and Women's and Gender Studies 393 (Topic: Gender, Technology, and Information) may not both be counted. Prerequisite: Graduate standing.

Theories of oral history; practical methods for producing, recording, annotating, and searching oral and video histories; archival issues related to documentation of oral histories; use of oral histories in various scholarly fields. Three lecture hours a week for one semester. Prerequisite: Graduate standing; prerequisites may vary with the topic.

Topic 5: School Library Management I. Designed for students pursuing Texas Education Agency (TEA) certification in school librarianship. Examine the philosophy, objectives, and management of the school library with an emphasis on standards and competencies, and the roles of the school librarian as collection curator, literacy leader, and program administrator. Information Studies 387 (Topic 5) and Information Studies 388C may not both be counted. Additional prerequisite: Consent of the department.

Topic 6: School Library Management II. Designed for students pursuing Texas Education Agency (TEA) certification in school librarianship. Examine the philosophy, objectives, and management of the school library with an emphasis on the roles of the school librarian as an instructional partner and information specialist. Information Studies 387 (Topic 6) and Information Studies 388C may not both be counted. Additional prerequisite: Information Studies 387 (Topic 5) and consent of the department.

INF 387C. Managing Information Organizations.
Management theory, concepts, processes, and practices as applied to information agencies and systems. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 387E. Evaluating Information Programs.
Use of evaluation in support of decision making, setting priorities, allocating scarce resources, and improving programs. Students study how to conceptualize, design, implement, and report on evaluation in the context of working with a local client. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 387M. Information Marketing.
Examines the marketing of information agencies, systems, services, publications, and software and hardware products to consumers. Includes marketing research, planning, user studies, product development, communication, pricing and distribution for profit and nonprofit organizations. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 387T. Information Technology and Work.
Examines the role information technology plays in modern work. Case studies of historical and modern examples of technology implementation and work transformation. Includes qualitative techniques, such as interviewing and observing, for data collection; data analysis; and presentation of data. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 388D. Planning and Management of Programs for Children and Young Adults.
Designing and planning effective services and programs for children and young adults: technologies, information need analysis, and trends. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 388E. Historical Museums: Context and Practice.
The process of exhibit creation in historical museums, from planning through development to opening and maintenance, as a negotiation among stakeholders for influence on the story that is told. Students visit local historical museums and examine how presentations are influenced by the institutional position of the museum, including its history and resources; the concerns of museum employees; the influence of the audience and of those who are directly affected or represented by an exhibit; and the role of contractual professionals. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

INF 388K. Organizational Environments.
Mission, goals, and objectives of specific information settings. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; prerequisites may vary with the topic.

Topic 1: Public Libraries. History, missions, values, governance, funding, services, user communities, architecture, leadership, and issues in public librarianship.

Topic 2: Academic Libraries. The relationship of academic library management to trends in post-secondary education, to the institution the library serves, and to the research community at large.

Topic 5: Rare Book and Special Collections. Administration of rare book and manuscript collections. Introduction to analytical bibliography.

Topic 6: Law Libraries. Overview of law librarianship, the discipline of law, and the culture of the legal environment, including the context in which law librarians, legal publishers, and other legal information professionals work.

INF 388L. Professional Experience and Project.
Study of a practical problem, current phenomenon, or professional issue in an institutional setting. Conference course. Offered on the credit/no credit basis only. Prerequisite: Graduate standing; Completion of at least twenty-one semester hours of coursework in the graduate program in information studies.

Designed for students pursuing Texas Education Agency (TEA) certification in school librarianship. Fieldwork in varied school library settings under the supervision of qualified personnel. At least 160 hours of supervised fieldwork for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing; consent of the department.

INF 188T, 288T, 388T. Internship in Libraries and Other Information Agencies.
Supervised fieldwork. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester, with additional hours to be arranged. May not be counted toward any degree in the School of Information. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of graduate adviser.
INF 389C. Archival and Records Enterprise.
Theory and practice of archival administration and records management. Problems in acquiring, organizing, and providing for use of archives and office records; issues in deterioration and care of paper, books, photographic material, magnetic records, and other media through preservation programs for libraries and archives. Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing.

INF 389E. Introduction to Records Management.
Systems for controlling recorded information in an organizational setting. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 389G. Introduction to Electronic and Digital Records.
Examines personal recordkeeping and information management to explore the creation, management, and preservation of digital information. Includes current developments in digital technology that affect recordkeeping. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 389J. Appraisal and Selection of Records.
Investigates the history, theory, and practice of selecting and appraising records information for permanent or quasi-permanent retention in an archival environment. Explores influences of other stakeholders on the selection and appraising process. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

Constructing the “metadata continuum” in order to understand how metadata may function as an authenticating wrapper for an electronic record. Analysis of the elements of the continuum, including records surveys and inventories, creation metadata, active management metadata, records schedules, accession records, cataloging and description metadata, maintenance records, and usage records. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

INF 389M. Introduction to Issues in Records Information.
Exploration of the fundamentals of records information and their role in society. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 389N. Seminar in Archival Enterprise.
Theory and practice of archival administration and records management. Problems in acquiring, organizing, preserving, and providing for use of administrative and collected archives. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; prerequisites may vary with the topic.

INF 389R. Introduction to Archival Enterprise I.
Introduction to the records aspect of archival enterprise, from acquisition to use, with emphasis on arrangement and description. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 389S. Introduction to Archival Enterprise II.
Administrative and professional issues, including organizing the work of a repository, management issues, marketing, space, law, and ethics. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 390C. Copyright: Legal and Cultural Perspectives.
Digital and other important communication technologies; how copyright in the United States developed and has evolved; and copyright seen from a number of disciplinary points of view, such as legal studies, cultural history, and public policy. Other subjects may include the cultural commons; natural rights arguments for copyright versus social bargain and statutory arguments; identifying and protecting the public interest in information; the law of copyright and cultural categories such as the author, the work, intellectual property, and creation; and important federal court cases. Three lecture hours a week for one semester. Information Studies 390C and 390N (Topic: Copyright: Legal and Cultural Perspectives) may not both be counted. Prerequisite: Graduate standing.

INF 390N. Information Policy.
Critical examination of conflicts and trends in information policy in private organizations and in federal, state, and international public-sector organizations. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; prerequisites may vary with the topic.

Topic 1: Federal Information Policy. Exploration of major information-policy conflicts around topics such as privacy, surveillance, and freedom of information; in-depth analysis of the implications of digital technologies in the post-9/11 United States. Designed to help students develop skill in policy analysis as a research method and familiarity with many kinds of sources of information about federal information policy.

Topic 2: Seminar in Information Policy. Analysis of issues and trends in information policy in various environments.

INF 390P. Topics in Privacy.
Policy, value systems, and critical theory regarding privacy, studied from historical, sociological, feminist, or other perspectives. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; prerequisites may vary with the topic.

INF 391D. Doctoral Inquiry in Information Studies.
Restricted to students in the information studies doctoral program. Topics in the theoretical, methodological, and practical aspects of information studies. The equivalent of three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites may vary with the topic.

Topic 7: Directed Research.
Topic 8: Introduction to Doctoral Research and Theory I. Foundations of inquiry in the humanities, social sciences, and natural sciences, and a review of theories and methods of inquiry in information studies in particular.
Topic 9: Doctoral Research and Theory II. Epistemological concepts and processes of theory generation and testing in information studies, with special attention to research methods and specific problems of interest to the student.

Topic 11: The Research Enterprise. An overview of the nature and purposes of research, and common methods and methodologies in information studies.

Topic 12: Disciplinary Foundations for Information Studies. An overview of concepts, results, and perspectives from philosophical, social science, humanistic, design, and technological disciplines that provide important underpinnings for information studies.

INF 391E. Advanced Topics in Information Studies.
Restricted to students in the information studies doctoral program. The equivalent of three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.
standing, Information Studies 391D (Topic 10), and consent of instructor; additional prerequisites may vary with the topic.

INF 391F. Advanced Topics in Research Methods, Methodologies, and Design.
The equivalent of three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing. Additional prerequisites vary with the topic.

INF 391G. Doctoral Writing Seminar.
Intensive writing, critique, and rewriting to assist senior doctoral students with refining their research writing in preparation for qualifying papers, dissertation proposals, and formal publications. The equivalent of three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

INF 392C. Preservation Administration and Services.
Theory and practice of preservation administration and services. Problems in planning, organizing, and implementing preservation work in libraries, archives, and museums. Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing.

INF 392D. Preservation Basics.
Fundamental issues and problem solving in the preservation of cultural heritage collections in libraries and archives. Topics include the development and ethics of preservation and conservation, types and causes of deterioration, preventive care and stabilization, monitoring and controlling interior environments, reformatting, and performing preservation-needs assessments. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

Underlying factors in the physical nature of materials; concepts of permanence, durability, and deterioration; challenges of both traditional and modern collections; emphasis on print and photographic collections. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 392F. Risk Assessment and Collections Management.
Agents of deterioration, including physical forces, security, disaster, and environmental conditions; risk assessment, strategies to reduce risk, and personal safety. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 392G. Management of Preservation Programs.
Management of specific preservation strategies for cultural record; preservation policy; the selection process for preservation; minor mending and repair operations; library binding and conservation treatment; preservation assessments; emergency preparedness; contracting for services; and budgeting, grant writing, and fundraising for preservation. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 392H. Creating Sustainable Digital Collections.
Hands-on activities that focus on building sustainable collections of digitized resources. Designed to help students gain curatorial understanding of the media to be digitized and knowledge of and experience with the technical and managerial aspects of the digitization process. Includes creation of metadata and digital preservation strategies for long-term access. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 392K. Digital Archiving and Preservation.
Examines the permanent archiving of digital information. Covers media refreshment, emulation, migration, and electronic records repository construction and administration. Case study projects involving campus repositories and off-campus institutions. Students use legacy hardware and software and digital forensics tools to preprocess digital collections for repository storage. Also explores issues in long-term electronic records preservation. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

INF 392L. Introduction to Audio Preservation and Reformatting.
Study of audio recording through a chronological examination of the development of recording; basic care and preservation of recordings; economics of audio preservation; and stability concerns of modern media. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 392M. Advanced Audio Preservation and Reformatting.
Exploration of changing concepts in the nature of audio information in different formats, issues of access within the context of preservation, criteria for prioritization of materials to be reformatted, considerations in invasive versus minimal restoration, and study of rare formats. Three lecture hours a week for one semester. Prerequisite: Graduate standing and credit or registration for Information Studies 392L.

INF 392P. The Politics of Preservation.
Introduction to the components of the media industries, using the available literature as well as the University’s film and video resources. The course employs both a theoretical and a practical approach to the archival media product. Debate over defining historical media material as artifact complements discussion of the realities of digitization and physical deterioration. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

INF 393C. Conservation Laboratory Techniques.
Analysis, housing, and treatment of physical objects. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

INF 397. Research in Information Studies.
Methods and subjects of research in information studies. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; prerequisites may vary with the topic.

- Topic 1: Bibliography and Methods in Historical Research. Sources of information for, and techniques of conducting, investigations in history.
- Topic 2: Practicum in Research. Prerequisite: Consent of instructor and the graduate adviser.
- Topic 3: Digital Libraries Research. Exploration of theoretical and practical research on creating digital collections and making them...
available. Additional prerequisite: Information Studies 385R and 392H, significant experience in digital applications in digital libraries, or consent of instructor.

**Topic 4: Seeking Funding for Information Studies.** Designed to help students gain an understanding of and hands-on experience with the pursuit of funding for information studies. Students investigate possible funding sources, and develop at least one grant or contract application.

**INF 397C. Understanding Research.**
Survey of the goals, methods, processes, and products of systematic inquiry. Designed to prepare students to critically evaluate information studies research. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

**INF 397D. Bibliography and Methods in Historical Research.**
Sources of information for and techniques of conducting investigations in history. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

**INF 698. Thesis.**
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in information studies and written consent of the graduate advisor; for 698B, Information Studies 698A.

**INF 398R. Master's Report.**
Preparation of a report to fulfill the requirement for the master's degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in information studies and written consent of the graduate advisor.

**INF 398T. Supervised Teaching in Information Studies.**
Teaching strategies for course design, syllabus creation, material development, classroom activities, student engagement, and grading. Additional subjects may include negotiation of course load and timing, course marketing, TA management, online teaching, and doctoral teaching/advising. Three lecture hours a week for one semester. May be repeated for credit as a teaching practicum. May be repeated for credit. Prerequisite: Graduate standing.

**INF 399W, 699W, 999W. Dissertation.**
May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

**Professional Courses**

**IRG - International Relations and Global Studies**

**Lower-Division Courses**

**IRG 301. Introduction to International Relations and Global Studies.**
Restricted to international relations and global studies majors. Three lecture hours a week for one semester. Prerequisite: Completion of at least twenty-four semester hours of college coursework.

**Upper-Division Courses**

**IRG 320F. Foundations of International Relations and Global Studies.**
Restricted to international relations and global studies majors. Survey of contemporary debates related to international relations and global studies. The equivalent of three lecture hours a week for one semester. Prerequisite: Upper-division standing and International Relations and Global Studies 301.

**IRG 378. Capstone Research in International Relations and Global Studies.**
Restricted to international relations and global studies majors. Three lecture hours a week for one semester. Prerequisite: International Relations and Global Studies 301 and 320F; and a minimum of 75 hours of coursework.

**IRG 678H. Honors Tutorial Course.**
Supervised individual research on an international relations and global studies topic. The equivalent of three lecture hours a week for two semesters. Prerequisite: For 678HA, upper-division standing, International Relations and Global Studies 301 with a grade of at least B, and admission to the International Relations and Global Studies Honors Program; for 678HB, International Relations and Global Studies 678HA.

**Graduate Courses**

**Professional Courses**

**ISP - Information Security and Privacy**

**Lower-Division Courses**

**Upper-Division Courses**

**Graduate Courses**

**ISP 380. Introduction to Information Security and Privacy.**
Restricted to information security and privacy majors. Explore foundational concepts of information security and privacy, including information value, classifications, threats, liabilities and risk management, identity and access controls (IAM), trust frameworks, technology for network, web, software and cloud security; and privacy laws and regulations. The equivalent of three lecture hours a week for one semester. Prerequisite: Graduate standing.

**ISP 381. Information and Privacy in Society.**
Restricted to information security and privacy majors. Examine how information is socially and culturally variable and fluid, changing throughout history and differing from place to place. Explore the anthropological study of information; societal norms; and individual, device, communal, and organizational information strategies. The equivalent of three lecture hours a week for one semester. Prerequisite: Graduate standing.

**ISP 382. Public Policy, Information Security, and Privacy.**
Restricted to information security and privacy majors. Explore an overview of how information and public policy relate to each other. Examine key information policy areas including privacy, surveillance, theft, health information, business-to-business relationships, and the co-evolution of personal data and information technologies. The equivalent of three lecture hours a week for one semester. Prerequisite: Graduate standing.
Restricted to information security and privacy majors. Explore an organizational perspective on the management and governance of information. Examine business practices and governance mechanisms for minimizing risks and maximizing returns of information. The equivalent of three lecture hours a week for one semester. Prerequisite: Graduate standing.

ISP 384. Strategic Communication for Information Security and Privacy.
Restricted to information security and privacy majors. Explore framing messages and the impact on people, organizations, risks and privacy; effective crisis management communications; communication and business continuity planning; time management; sense making processes in organizational crisis; and reputation management. The equivalent of three lecture hours a week for one semester. Prerequisite: Graduate standing.

Restricted to information security and privacy majors. Explore and evaluate the risks and benefits related to information in multiple sectors including financial services, healthcare, consumer services, government, education, and energy. The equivalent of three lecture hours a week for one semester. Prerequisite: Graduate standing.

ISP 385T. Topics in Information Security and Privacy.
Restricted to information security and privacy majors. Study the characteristics of information and the technologies, stakeholders, and questions involved in managing, protecting, and securing information. The equivalent of three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

ISP 386. Information Security.
Restricted to information security and privacy majors. Explore the enrollment and authentication for cyber and physical access and transactions, cryptography, biometrics, device identity security, and security culture. The equivalent of three lecture hours a week for one semester. Prerequisite: Graduate standing.

ISP 387. Information Management and Repositories.
Restricted to information security and privacy majors. Explore knowledge and data management, storage, and mining. Examine information representation and algorithms. Discuss information security and privacy applications in all market sectors for enrollment, authentication, operational use, fraud detection, and fraud prevention. The equivalent of three lecture hours a week for one semester. Prerequisite: Graduate standing.

ISP 388. Law Governing Information Security and Privacy.
Restricted to information security and privacy majors. Examine laws and other policy instruments related to information security and privacy, different classes of protected personal information, and multiple genres of legal information and legal writing. Explore legal requirements and social responsibilities as they pertain to data protection and the prevention of different types of fraud and information crimes. The equivalent of three lecture hours a week for one semester. Prerequisite: Graduate standing.

ISP 388L. Professional Experience and Project.
Restricted to information security and privacy majors. Study practical problems, current phenomenon, or professional issues in an institutional setting. The equivalent of three lecture hours a week for one semester. Conference course. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and twelve semester hours of information security and privacy coursework.

Restricted to information security and privacy majors. In-depth study of a problem or subject related to information security and privacy. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Individual Instruction. May be repeated for credit. Prerequisite: Graduate standing, consent of instructor, and consent of the graduate advisor.

ISP 398R. Master's Report.
Restricted to information security and privacy majors. Preparation of a report to fulfill the requirement for the master's degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of graduate adviser.

Professional Courses

ITC - Italian Civilization

Italian Civilization: ITC
Lower-Division Courses
Topics in Italian Civilization.
This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of French and Italian. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses
Topics in Italian Civilization.
This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of French and Italian. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

ITC 330. Topics in Italian Studies.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

ITC 335. Rome Sets the Stage.
Three lecture hours a week for one semester. Italian Civilization 330 (Topic: Rome Sets the Stage) and 335 may not both be counted. Prerequisite: Upper-division standing.

Same as European Studies 347 (Topic 50) and French Civilization 336. Examine French and Italian films through the lens of stardom. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 347 (Topic: Vamps, Stars, and The Diva), 347 (Topic 50), French Civilization 336, 345 (Topic: Vamps, Stars, and The Diva), Italian Civilization 336, 349 (Topic: Vamps, Stars, and The Diva), Women’s and Gender Studies 345 (Topic: Vamps, Stars, and The Diva). Prerequisite: Upper-division standing.
ITC 337. Italian Masterpieces.
Same as Core Texts and Ideas 344M and European Studies 347 (Topic 52). Study of representative texts in visual arts, film, literature, and opera, from the Renaissance to the present, in their historical context. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 344M, 375 (Topic: Italian Masters: Lit/Film/Art), European Studies 347 (Topic: Italian Masters: Lit/Film/Art), 347 (Topic 52), Italian Civilization 337, 349 (Topic: Italian Masters: Lit/Film/Art). Prerequisite: Upper-division standing.

ITC 338. Italian Television Advertising.
Same as European Studies 347 (Topic 51) and Women’s and Gender Studies 340 (Topic 92). Analysis of Italian television commercials in order to identify changes that have taken place at the level of language, with some attention to socio-cultural dynamics. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 347 (Topic: Itl TV Ads: Fashion/Food/Cars), 347 (Topic 51), Italian Civilization 338, 349 (Topic: Itl TV Ads: Fashion/Food/Cars), Women’s and Gender Studies 340 (Topic: Itl TV Ads: Fashion/Food/Cars), 340 (Topic 92). Prerequisite: Upper-division standing.

ITC 339. Italian Cinema.
Three lecture hours a week for one semester. Only one of the following may be counted: English 322 (Topic 22: Italian Cinema), Italian Civilization 339, 349 (Topic 1). Prerequisite: Upper-division standing.

ITC 340. Sicily: Cultures and Conquest.
Same as Classical Civilization 340 (Topic 14). Examine Sicily from the earliest prehistoric settlements to its first Norman king, with a focus on questions of change, recurrence, and continuity as viewed within the dual frames of archaeology and history. Three lecture hours a week for one semester. Only one of the following may be counted: Classical Civilization 340 (Topic: Archaeology of Sicily), 340 (Topic 14), Italian Civilization 340. Prerequisite: Upper-division standing.

ITC 347. American Dante.
Same as American Studies 323C and English 352D. Examine the influence of the Italian poet Dante on American culture from the nineteenth century to the present. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 323C, English 352D, Italian Civilization 330 (Topic: American Dante), 347. Prerequisite: Upper-division standing.

ITC 348. Dante.
Same as Core Texts and Ideas 344D, English 366D, and European Studies 347 (Topic 23). Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 344D, 345 (Topic: Dante), English 322 (Topic 23), 366D, European Studies 347 (Topic: Dante), 347 (Topic 23), Italian Civilization 348, 349 (Topic 2). Prerequisite: Upper-division standing.

ITC 360. Italian Civilization.
Same as European Studies 347 (Topic 1: Italian Civilization). Survey of the social, political, and cultural history of Italy. Taught in English. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 347 (Topic 1), Italian Civilization 360. With consent of the undergraduate adviser in the Department of French and Italian, may be counted toward a major in Italian. Prerequisite: Upper-division standing.

Graduate Courses

Professional Courses
ITD 109. Introduction to Vector Graphics Software.
Introduction to elements of vector graphic software. Focus on basic skills in computer applications such as Adobe Illustrator. The equivalent of one lecture hour a week for one semester.

ITD 110, 210, 310. Topics in Integrated Design.
Studies within integrated design. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit when the topics vary.

ITD 110T, 310T. Topics in Innovative Design.
Exploration of topics in innovative design. For 110T, two laboratory hours a week for one semester; for 310T, six laboratory hours a week for one semester. Additional hours to be arranged as needed. May be repeated for credit when the topics vary.

ITD 111. Intro to Design for Artificial Intelligence.
Introduction to exploring design as a problem-solving tool for real-world scenarios posed from artificial intelligence and robotics. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Offered on the letter-grade basis only.

ITD 312. Introduction to Design for Health.
Introduction to how design is playing a role in the changing healthcare industry. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C in each: Integrated Design 101, and Design 301 or Integrated Design 301D.

ITD 119G, 319G. Storytelling in Design.
Examine the role of storytelling in the user-centered design process and explore the principles that drive influential stories. For each semester hour of credit earned, one lecture hour a week for one semester. Integrated Design 119G, 319G and 150 (Topic: Storytelling in Design) may not both be counted. Offered on the letter-grade basis only.

Upper-Division Courses

ITD 320. Advanced Design for Artificial Intelligence.
Advanced exploration of real-world scenarios posed from artificial intelligence and robotics. In-depth study of designing and solving problems for artificial intelligence. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing; Integrated Design 301D and Integrated Design 111 or Integrated Design 110.

ITD 125, 225, 325. Topics in Artificial Intelligence Design.
Studies within design and artificial intelligence. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Upper-division standing; Integrated Design 301D; and Integrated Design 111 or 320.

ITD 130T, 330T. Topics in Innovative Design.
Explore innovative topics in design. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only.

ITD 150, 250, 350. Advanced Topics in Integrated Design.
Advanced studies in integrated design. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

ITD 350D. Business of Design.
Designed to help students form an advanced understanding of the role that business plays in the design industry and the operational components necessary to be successful in the design industry. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and the following with a grade of at least C in each: Integrated Design 101, 304, and Design 301 or Integrated Design 301D.

ITD 150T, 350T. Topics in Advanced Innovative Design.
Exploration of topics in advanced innovative design. For 150T, two laboratory hours a week for one semester; for 350T, six laboratory hours a week for one semester. Additional hours to be arranged as needed. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

ITD 360. Perspectives in Design.
Explore unique perspectives in design. Three lecture hours a week for one semester. May be taken twice for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

Focus on how to create actionable insights using ethnographic research. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and the following with a grade of at least C in each: Integrated Design 101, and Design 301 or Integrated Design 301D.

ITD 170, 270, 370. Topics in Off-Site Field Studios.
Project-based work with off-campus industry studio partners. Professional experience solving real-world problems including, but not limited to, commissioned projects, student-initiated projects, and pro bono projects. For 170, two laboratory hours a week for one semester; for 270, four laboratory hours a week for one semester; for 370, six laboratory hours a week for one semester. Additional hours to be arranged as needed. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: For College of Fine Arts majors, upper-division standing and six semester hours of upper-division coursework in design or integrated design; for non-College of Fine Arts majors, upper-division standing and consent of instructor.

ITD 375. Capstone in Integrated Design.
Restricted to students in the bridging discipline program. Multidisciplinary groups of students research an integrated design problem and propose and prototype an appropriate solution, guided by feedback from supervising instructor(s). Six laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: For College of Fine Arts majors, upper-division standing and six semester hours of upper-division coursework in design or integrated design; for non-College of Fine Arts majors, upper-division standing and consent of instructor.

Graduate Courses

ITD 380. Design Thinking.
Explores the concepts of design thinking and human-centered design methods, with a focus on design process and problem solving. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

ITD 185, 285, 385. Topics in Integrated Design.
Graduate studies within integrated design. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; and Integrated Design 380 or consent of instructor. May be taken concurrently with Integrated Design 380 if topic is appropriate.
Project-based studio graduate work within integrated design. For each semester hour of credit earned, the equivalent of two hours of laboratory work per week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; and Integrated Design 380 or consent of instructor. May be taken concurrently with Integrated Design 380 if topic is appropriate.

Exploration of creative design-based approaches and problem-solving methods and their application to solving contemporary health care challenges. Three lecture hours a week for one semester. Prerequisite: Graduate standing and Integrated Design 380, or consent of instructor.

Design techniques, case studies, and team critiques. Seminar component of Integrated Design 692. Two lecture hours a week for one semester. Prerequisite: Graduate standing; and Integrated Design 390 or consent of instructor. Concurrent enrollment in Integrated Design 692.

ITD 692. Health Design Lab.
Team-based, project-focused application of the principles of design to real-world health and wellness challenges. Lab component of Integrated Design 291. Twelve laboratory hours a week for one semester. Prerequisite: Graduate standing; and Integrated Design 390 or consent of instructor. Concurrent enrollment in Integrated Design 291.

Graduate studies within health design. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and Integrated Design 380 and 390, or consent of instructor.

ITD 196, 296, 396, 496, 596, 696. Topics in Health Design Studio.
Project-based studio graduate work within health design. For each semester hour of credit earned, the equivalent of two hours of laboratory work per week for one semester. Additional hours to be arranged as needed. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and Integrated Design 380 and 390, or consent of instructor.

Professional Courses

ITAL - Italian

Lower-Division Courses

ITAL 601C. Beginning Italian.
An intensive beginning course with an emphasis on basic skills: listening, speaking, reading, and writing. Six lecture hours a week for one semester. Only one of the following may be counted: Italian 601C, 604, 506. Only one of the following may be counted: Italian 601C, 604, 507.

ITAL 604. Accelerated First-Year Italian.
Designed for students of high motivation. A six-hour course comparable to Italian 506 and 507. Six lecture hours a week for one semester. Only one of the following may be counted: Italian 601C, 604, 506. Only one of the following may be counted: Italian 601C, 604, 507.

ITAL 305. Introduction to Italian Language and Culture.
An introductory course in Italian language and culture taught in Castiglion-Fiorentino, Italy. Three lecture hours a week for one semester.
ITAL 322L. Tradition and Change in Contemporary Italy.
An analysis of Italy's trends and of conflicting values in its political, economic, and social development. Three lecture hours a week for one semester. Prerequisite: Italian 320 with a grade of at least C.

ITAL 325C. Italian Through Cinema.
Designed to enrich knowledge of Italian language and culture through screening and discussion of Italian films. Three lecture hours a week for one semester. Prerequisite: Italian 320 or 328 with a grade of at least C.

ITAL 327C. Italian through Cuisine.
Refine reading, writing, speaking, and listening skills in Italian through the context of gastronomy. Three lecture hours a week for one semester. Prerequisite: Italian 320 or 328 with a grade of at least C.

ITAL 328. Composition and Conversation.
Focuses on idioms, grammar, syntax, and style. Three lecture hours a week for one semester. Prerequisite: Italian 320 with a grade of at least C.

ITAL 329. Advanced Composition and Conversation.
Advanced work in writing and speech, based on current events and contemporary readings. Three lecture hours a week for one semester. Prerequisite: Italian 320 or 328 with a grade of at least C.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad advisor in the Department of French and Italian. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

ITAL 330. Topics in Italian Studies.
Analysis of Italian culture. Texts include literature, film, popular culture, and other forms. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Italian 320 or Italian 328 with a grade of at least C.

ITAL 330C. The Language of Italian Crime Fiction.
Analyze Italian language and culture as reflected in the crime fiction genre studies through literature, film, popular culture, and other forms. Three lecture hours a week for one semester. Italian 330 (Topic: Lang of Ital Crime Fiction) and 330C may not both be counted. Prerequisite: Italian 320 or 328 with a grade of at least C.

ITAL 330D. Italian across Disciplines.
Students read and discuss Italian language materials related to the subject matter of another designated course. One lecture hour a week for one semester. Prerequisite: Upper-division standing, three semester hours of upper-division coursework in Italian, and consent of instructor.

ITAL 330L. Introduction to Italian Linguistics.
Examine fundamental aspects of the Italian language including its structure as well as geographical, socio-cultural and communicative variation. Three lecture hours a week for one semester. Prerequisite: Italian 320 or 328 with a grade of at least C.

ITAL 332. Italian Translation Workshop.
Focuses on the practical aspects of translation as a means to expand students' resources by practicing and improving grammar, style and lexicon. Three lecture hours a week for one semester. Italian 330K (Topic: Italian Translation Workshop) and 332 may not both be counted. Prerequisite: Italian 320 or 328 with a grade of at least C.

ITAL 347. Italian Popular Cinema.
Analysis of Italian genre films (melodrama, comedy, horror, western, action), in their cultural and historical contexts. Three lecture hours a week for one semester. Italian 331 (Topic: Italian Popular Cinema) and 347 may not both be counted. Prerequisite: Italian 320 or 328 with a grade of at least C.

ITAL 348. Italian Drama Workshop.
Intensive analysis of one or several plays or short literary texts, with emphasis on diction, delivery of lines, and acting and staging. Three lecture hours a week for one semester. Prerequisite: Italian 320 or 328 with a grade of at least C.

ITAL 349P. Italian Internship.
Three lecture hours a week for one semester. Prerequisite: Italian 320 or 328 with a grade of at least C and consent of the department.

ITAL 358Q. Supervised Research.
Individual instruction. May be repeated for credit. Prerequisite: Italian 320 or 328 with a grade of at least C and consent of the department.

ITAL 365. Conference Course in Italian Language and Literature.
Course content varies according to needs of students; designed to fill in gaps and give students a good overall picture of the development of Italian literature. Conference course. Prerequisite: Upper-division standing and consent of the undergraduate adviser or the chair. Italian majors may take conference courses only in exceptional cases.

ITAL 375C. The Antihero in the Twentieth-Century Italian Novel.
Explore the crisis of certainties at the turn of the last century and the end of the role of the hero, through the examination of major Italian novels. Three lecture hours a week for one semester. Italian 375 (Topic 2) and 375C may not both be counted. Prerequisite: Italian 320 with a grade of at least C.

ITAL 375F. Writing Fascism: Writing the Resistance.
Examine major novels dealing with the Italian narrative on World War II and the resistance. Three lecture hours a week for one semester. Italian 375 (Topic 1) and 375F may not both be counted. Prerequisite: Italian 320 with a grade of at least C.

ITAL 375N. Neorealism and its Legacy.
Analyze the legacy of neorealism in Italian literature and cinema from approximately the late 1940s to the early 1950s. Three lecture hours a week for one semester. Italian 375 (Topic 4) and 375N may not both be counted. Prerequisite: Italian 320 with a grade of at least C.

ITAL 375S. Sicily in Literature and Film.
Examine Sicilian culture through novels and films. Three lecture hours a week for one semester. Italian 375 (Topic 3) and 375S may not both be counted. Prerequisite: Italian 320 with a grade of at least C.

ITAL 379H. Honors Tutorial Course.
Supervised individual research on a literary, linguistic, or cultural topic, and writing and defense of a thesis under the direction of a committee of two faculty members. Conference course. Prerequisite: Admission to the Italian Honors Program.
Graduate Courses

ITAL 380C. Italian for Graduate Students in Other Departments.
No auditors permitted. Intensive reading course, emphasizing basic grammar and vocabulary with translation practice. Three lecture hours a week for one semester. The symbol CR fulfills the foreign language requirement for the Doctor of Philosophy degree in some departments. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

ITAL 380L. History of the Italian Language.
Survey of the development of Italian from spoken Latin to the present day. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

ITAL 180P. Introduction to Studies in Literature and Culture.
Proseminar in methods of study and research in Italian Studies. One lecture hour a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of the graduate adviser.

ITAL 380W. Doctoral Writing Workshop.
Restricted to students in the French and Italian Doctor of Philosophy program. Acquire the crucial skills for writing a cogent prospectus, dissertation, or article, and complete the prospectus, dissertation chapter, or article. Three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of the graduate adviser.

ITAL 381. Readings in Italian Literature.
Intensive study of a period or a major writer. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and six semester hours of upper-division coursework in Italian.

ITAL 382. Topics in Italian Studies.
Study of various aspects and periods of Italian culture and society. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

ITAL 383K. Studies in Italian Language.
Synchronic approach to the modern Italian language: phonology, morphology, syntax, lexicology, stylistics. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

ITAL 385L. Conference Course in Italian Language and Literature.
For students needing specialized courses not normally or not often included in the regular course offerings. Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and written consent of the graduate adviser.

ITAL 385T. Graduate Teaching Practicum.
Restricted to students in the French and Italian Doctor of Philosophy program. Engage in mentorship and pedagogical training by working one-on-one with a faculty member to develop and design an undergraduate, upper-division level course in an area of specialization. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and French or Italian Assistant Instructor experience.

ITAL 390K. Studies in Italian Literature through the Renaissance.
Intensive study of a particular writer, school, or literary movement. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

ITAL 390L. Studies in Italian Literature since the Renaissance.
Intensive study of a particular writer, school, or literary movement. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

ITAL 395L. Comprehensive Examination Preparation.
Restricted to doctoral students in the Department of French and Italian. Supervised preparation for the comprehensive examination for the doctoral degree. The equivalent of three lecture hours a week. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing; consent of the graduate adviser; and satisfactory completion of all course requirements for the doctoral degree.

ITAL 396K. Comparative Romance Linguistics.
General survey of the development of spoken Latin in Italy, Spain, Portugal, and France; main traits of phonology, morphology, and syntax in each modern derivative language. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in languages and consent of instructor and the graduate adviser.

ITAL 398R. Master’s Report.
Preparation of a report to fulfill the requirement for the master’s degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in Italian and consent of the graduate adviser.

ITAL 398T. Supervised Teaching in Italian.
Practical exercises in second-language instruction and closely supervised classroom teaching, supported by theoretical studies of second-language learning. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses
J - Journalism

Journalism: J

Lower-Division Courses

Examination of major issues facing the news media in a democratic society and the exploration of digital technology on the future of news gathering, including ethics, institutions, effects, and standards of journalistic performance. Three lecture hours a week for one semester.

J 302F. Digital Storytelling Basics.
Explores the mindsets and skill sets of digital journalism. Covers subjects like: how technology helps journalists do their jobs; how traditional journalistic values and ethics relate to the digital world; how to explore new trends in journalism; how to report and tell stories in multiple ways; and how to be comfortable with analyzing and engaging online audiences. Three lecture hours and one and one-half laboratory hours a week for one semester.

J 304F. The Journalist Voice.
Restricted to journalism majors. Introduction to best practices on writing with a clear, concise, and organized style for a variety of platforms while learning and following ethical standards. Three lecture hours a week for one semester. Offered on the letter-grade basis only.

J 305. Sustainability and the News.
Explore covering issues like sustainability and climate change when many people are not convinced by science and facts -- even within the media. Examine navigating news about saving the planet. Three lecture hours a week for one semester. Offered on the letter-grade basis only.

J 308C. Sports, Media, and Society.
Restricted to non-journalism majors. An examination of historical and contemporary issues regarding the sporting world’s interaction with media production, including journalism, talk radio and social media. Three lecture hours a week for one semester.

J 308D. Data, Privacy, and You.
Restricted to non-journalism majors. Explores approaches to understanding what some have termed ‘datafication’. Covers literacy of these types of data as well as the ways in which these data are transmitted, stored, compiled, aggregated, analyzed, and used in predictive analytics. Examines privacy aspects in terms of the increased blurring between the private and public in spaces such as social media and explores the implication of this on news production and consumption. Three lecture hours a week for one semester.

J 308F. Analyzing Media Bias.
Restricted to non-journalism majors. Critical analysis of the ways news is presented, misrepresented and critiqued, with an emphasis on perceived bias in the news media. Three lecture hours a week for one semester.

J 308J. Becoming Citizen Journalists.
Restricted to non-journalism majors. Covers the basics of journalism for students who are interested in sharing truthful stories to a public audience, but do not intend to pursue a career in the profession. Uses digital and social media tools. Explores three subjects: how to find and gather the best factual information, how to present it in clear and engaging ways, and how to make ethical decisions that serve the needs of the audience and democracy. Three lecture hours a week for one semester. Journalism 308J or 358C may not both be counted.

J 308L. Media and News Literacy.
Restricted to non-journalism majors. Analyze the information, values, and underlying messages conveyed via media. Examine the accuracy of those messages and explore how media shapes views of politics, culture and society. Three lecture hours a week for one semester.

J 308M. Society, Media, and Identity.
Restricted to non-journalism majors. An analysis of how U.S. media - especially the news industry, film, television and social media - influence culture, and vice versa. Uses readings and observation to recognize that the stories media tell influence identities such as race, ethnicity, gender, religion and sexual orientation. Three lecture hours a week for one semester.

J 308N. Computer Concepts and Internet Technologies.
Restricted to non-journalism majors. An introduction to the scope, significance, history, and social implications of data processing on systems and networks. Examine programming languages, elements of a software system, databases, computer networks, and Internet security. Explore hardware concepts including number systems, data representation, central processor, storage, input/output, and system configurations. Three lecture hours a week for one semester.

Examine the historical, cultural, political, economic, and international characteristics of journalism, film, television, digital media, and other media in society. Three lecture hours a week for one semester. Journalism 308S and Radio-Television-Film 305 may not both be counted.

J 308T. Topics in Journalism.
Restricted to non-journalism majors. Contemporary social, political, and intellectual concerns in the practice of journalism and media. Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

J 310F. Reporting: Words.
Reporting, writing, and editing skills for print, online, mobile, and broadcast. Three lecture hours and three laboratory hours a week for one semester. Prerequisite: Journalism 301F and 302F with a grade of at least C- in each.

J 310K. Visual Literacy.
Introduction to the visual concerns of message design and interpretation, including their bases in theories of visual perception, semiotics, and media practice. Three lecture hours a week for one semester.

J 311F. Reporting: Images.
Video and images for web and broadcast, including design principles, visual perception, typography, manipulation of images, and photographs. One and one-half lecture hours and three laboratory hours a week for one semester. Journalism 311F and 318C may not both be counted. Offered on the letter-grade basis only. Prerequisite: Journalism 301F and 302F with a grade of at least C- in each.

J 313P. Multimedia News Reporting.
Restricted to non-journalism majors. Skills-based introduction to journalistic forms of news gathering and writing. Gaining the tools for journalism storytelling. Three lecture hours a week for one semester.

J 313S. Topics in Texas Sports and Media.
Introduction to various contemporary and historical issues, emphasizing interdisciplinary perspectives and critical discourse. Three lecture hours a week for one semester. Communication 310 and Journalism 313S may
not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**J 315R. Contemporary Representation in Media.**
Restricted to non-journalism majors. An examination of how underrepresented and marginalized groups are portrayed in the news media. Three lecture hours a week for one semester.

**J 317. Journalism Practices.**
Restricted to public relations majors. Introduction to writing skills for the media, including readability, clarity, verification, and style. Three lecture hours a week for one semester. Prerequisite: Advertising 318J with a grade of at least B.

**J 318P. Podcasting.**
Restricted to journalism majors. Examination and practice of writing and reporting news for audio broadcasts, including podcasts. Three lecture hours and three laboratory hours a week for one semester. Journalism 318P and 331G may not both be counted. Prerequisite: Journalism 310F with a grade of at least B-.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the School of Journalism. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**Upper-Division Courses**

**J 320F. Covering Law Enforcement and Courts.**
Restricted to journalism majors. Specialized reporting, research, and writing skills for investigating and covering incidents and issues occurring in law enforcement, public safety, and criminal justice. Three lecture hours a week for one semester. Prerequisite: Journalism 310F (or 320D) and 311F (or 321C) with a grade of at least B- in each.

**J 320G. Internship Practices.**
Restricted to journalism majors. Internships to be arranged by student and approved by instructor. Internship hours to be arranged. Offered on the pass/fail basis only. Prerequisite: Credit or registration for Journalism 310F, and consent of instructor.

**J 321F. Reporting on City and County Government.**
Restricted to journalism majors. Basic beat reporting skills to navigate city and county governments, and conducting reporting, research, and writing on issues and people at the local level. Three lecture hours a week for one semester. Prerequisite: Journalism 310F (or 320D) and 311F (or 321C) with a grade of at least B- in each.

**J 322E. Reporting on Elections.**
Restricted to journalism majors. Examine election reporting through instruction and supervised fieldwork. Explore candidate identification and monitoring, campaign coverage, misinformation verification, issues of social justice and election access, and communicating complex political issues to lay audiences. Three lecture hours a week for one semester. Prerequisite: Journalism 310F (or 320D) and 311F (or 321C) with a grade of at least B- in each.

**J 322F. Navigating State Government.**
Restricted to journalism majors. Training and instruction in specialized reporting, research, and writing skills as applicable to covering state governments. Analysis of enduring issues and politics at the state level. Fieldwork at the Texas Capitol and state agencies. Three lecture hours a week for one semester. Prerequisite: Journalism 310F (or 320D) and 311F (or 321C) with a grade of at least B- in each.

**J 322J. Reporting Social Justice.**
Restricted to journalism majors. Explore how to cover such social justice issues as poverty, inequality and disenfranchisement and the skills needed to research, report and write on people in underrepresented communities. Three lecture hours a week for one semester. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each.

**J 322P. Reporting Public Issues.**
Restricted to journalism majors. Specialized reporting, research and writing skills for covering government institutions and public policies. Three lecture hours a week for one semester. Prerequisite: Journalism 310F with a grade of at least B-.

**J 323C. Reporting California and Texas.**
Explore reporting from California and Texas to produce content that bridges both states. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing and Journalism 310F with a grade of at least B-.

**J 323F. Education Reporting.**
Restricted to journalism majors. Covering school districts and higher education to produce stories that humanize the bureaucracy of public education and compellingly depict issues, structures, and policies. Three lecture hours a week for one semester. Prerequisite: Journalism 310F (or 320D) and 311F (or 321C) with a grade of at least B- in each.

**J 323N. Reporting New York and Texas.**
Explore reporting from New York and Texas to produce content that bridges both states. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing and Journalism 310F with a grade of at least B-.

**J 323R. Regional Reporting.**
Explore reporting from Texas and the southern region of Texas, in addition to Austin, to produce content connecting to a wider scope of communities. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing and Journalism 310F with a grade of at least B-.

**J 324C. Reporting Consumer News.**
Restricted to journalism majors. Emphasizes writing and reporting for consumers, finding and honing stories that help people thrive. Practice in writing creative, relevant and vivid descriptions that tell an engaging story. Analysis of community perspective, public sourcing, what’s possible, and interdependent dramatic arc. Uses journalistic skills to reward an audience, adapt to a community, and push the envelope. Three lecture hours a week for one semester. Journalism 324C and 349T (Topic: Reporting Consumer News) may not both be counted. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each.

**J 324F. Business and Financial Reporting.**
Restricted to journalism majors. Instruction in how to conceptualize, source, and prepare news reports on global financial markets, commercial transactions, and company performance. The course is global, with the United States a subset of the material covered. Hands-on course during which students produce multiple news packages for publication. Three lecture hours a week for one semester. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each.
J 325C. Reporting Health Care.
Restricted to journalism majors. Explore production of multi-media stories to inform local, state, and national audiences about the health care system in the United States. Consider health care policy at all levels of government, and private and public systems of health care. Examine how to investigate, report and publish on this complex issue. Three lecture hours a week for one semester. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each.

J 325F. Covering Politics.
Restricted to journalism majors. Specialized research, reporting, and writing skills to cover politics, elections, and candidates. Three lecture hours a week for one semester. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each.

J 325J. Community Journalism.
Restricted to journalism majors. Explore reporting on communities and neighborhoods and the issues that affect them. Three lecture hours a week for one semester. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each.

J 325S. Solutions Journalism.
Restricted to journalism majors. Explore the production of news content focusing on solutions to public issues. Three lecture hours a week for one semester. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each.

J 326C. Introduction to Coding for Journalists.
Restricted to journalism majors. Learn basic coding skills and develop best practices used in digital newsrooms to create data-driven online presentations. Three lecture hours a week for one semester. Journalism 326C and 339T (Topic: Introduction to Coding for Journalists) may not both be counted. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each.

J 326F. Reporting Sports.
Restricted to journalism majors. Contemporary professional skills and techniques in sports journalism. Three lecture hours a week for one semester. Prerequisite: Journalism 310F (or 320D) and 311F (or 321C) with a grade of at least B- in each.

J 326S. Advanced Topics in Texas Sports and Media.
Restricted to journalism majors. Critical assessment of various contemporary and historical issues, emphasizing interdisciplinary perspectives. Three lecture hours a week for one semester. Communication 320 and Journalism 326S may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Journalism 310F (or 320D) and 311F (or 321C) with a grade of at least B- in each.

J 327D. Reporting With Data.
Restricted to journalism majors. An investigation of the basics of computer-assisted reporting. Subjects include finding compelling data sets; cleaning and analyzing the contents; using data visualization and simple statistical models to accurately report based on the data; and presenting results through stories, charts and maps. Three lecture hours a week for one semester. Journalism 327D and 333F may not both be counted. Offered on the letter-grade basis only. Prerequisite: Upper-division standing and Journalism 310F (or 320D) with a grade of at least B-.

J 328L. Reporting Latino/a Communities.
Restricted to journalism majors. Examine how Latino/a communities are represented in the media. Explore production of news stories about various aspects of the Latino/a experience at the national, state, and local levels. Three lecture hours a week for one semester. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each.

J 328S. Reporting en Espanol.
Restricted to journalism majors. Spanish-language news in the U.S. offers important possibilities for public service journalism. Production of multimedia news stories in Spanish for a local audience. Discusses issues facing the local Latino population from the international, to national, to state and local levels. Includes weekly pitch meetings, rewrites, photography and digital storytelling. Students must be fluent in Spanish. Three lecture hours a week for one semester. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each.

J 329F. Interdisciplinary Business Reporting.
Explore an in-depth, interdisciplinary approach to covering budgets and funding, whether in the private or public sector, by integrating business expertise and journalistic reporting. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the School of Journalism. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

J 329T. Topics in Public Affairs Reporting.
Restricted to journalism majors. Contemporary social, professional, and intellectual concerns in the practice of public affairs reporting. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Journalism 310F (or 320D) and 311F (or 321C) with a grade of at least B- in each.

J 330C. Television Reporting.
Restricted to journalism majors. Write, shoot, and edit for broadcast news as part of a weekly Reporting Texas TV newscast. One-and-one-half lecture hours and three laboratory hours a week for one semester. Only one of the following may count: Journalism 330C, 330F, 335G, 335P. Offered on the letter-grade basis only. Prerequisite: Upper-division standing. Journalism 310F and 311F with a grade of at least B- in each.

Restricted to journalism majors. Report and write for narrative nonfiction projects, including producing magazine articles, documentary films, and podcasts. Three lecture hours a week for one semester. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each.

J 330J. Advanced Photo Editing and Design.
Restricted to journalism majors. Report and write for narrative nonfiction projects, including producing magazine articles, documentary films, and podcasts. Three lecture hours a week for one semester. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each.
Advanced Photo Editing and Design), 395 (Topic 2: Advanced Photo Editing and Design).

J 330L. Community Life: Documented.
Restricted to students participating in a May Term Education Abroad program. Explores video filmmaking in a multicultural, diverse city. Emphasis on learning the steps of producing a short documentary with a small group of students, then posting the final films on personal portfolio websites. Taught abroad, location may vary by semester.

J 330M. True Crime Podcasts.
Analyze true crime podcasts, with an ear for ethical concerns, sensitivity, storytelling prowess, and more. Three lecture hours a week for one semester. Offered on the letter-grade basis only.

J 330P. Editing Techniques.
Restricted to journalism majors. Edit professional writing, provide constructive feedback, and elevate content on digital platforms. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing, Journalism 310F, and 311F with a grade of at least B- in each.

Restricted to students participating in a May Term Education Abroad program. Examine how solutions journalism covers public and governmental issues outside the United States. Three lecture hours a week for one semester.

J 331. Web Publishing.
Focus on in-depth understanding of the web platform and its applicability to various types of content across multiple devices. Examination of web usage by individuals and organizations with the need for a digital presence. Experience the web publishing process, including planning, production, tracking, and marketing. Exposure to HTML coding, design, content management systems, web analytics, and digital advertising. Three lecture hours a week for one semester. Prerequisite: Journalism 331 and 331N may not both be counted. Prerequisite: Journalism 310F and 311F with grade of at least B- in each.

J 331D. Intermediate Photographic Communication.
Intermediate level photograph skills and techniques. Evaluation of recent trends, visual design, and use of images in the media. Students must provide their own digital 35-mm format camera. Three lecture hours and one-and-one-half laboratory hours a week for one semester. Prerequisite: Communication 316 with a grade of at least C-.

J 331G. Audio Storytelling.
Focus on broadcast writing for the ear and includes the production of NPR-style radio stories and the creation of original podcasts. Three lecture hours and three laboratory hours a week for one semester. Prerequisite: Journalism 318P and 331G may not both be counted. Prerequisite: Journalism 310F with a grade of at least B-.

J 331J. Studio Photography.
An investigation of the principles of studio lighting, theory and practice of contemporary color, location lighting, and production of portfolio-quality work, as applicable to advertising, photographic illustration, and photojournalism. Three lectures and three laboratory hours a week for one semester. Prerequisite: Communication 316 with a grade of at least C- or consent of instructor.

J 331M. Media Innovation and Entrepreneurship.
Learn how the digital revolution has disrupted the media industry, creating opportunities for entrepreneurial, innovative initiatives. Study cases of successful media startups, and develop a startup project, using digital technologies and human-centered design. Three lecture hours a week for one semester. Only one of the following may be counted: Journalism 331F, 331M, or 359T (Topic: Entrepreneurial Journalism). Prerequisite: For journalism majors, Journalism 310F with a grade of at least B-; for others, six semester hours of upper-division coursework.

J 331N. Digital Production and Analytics.
Restricted to journalism majors. Examine the digital publishing process, including planning, production, tracking, and marketing. Three lecture hours a week for one semester. Journalism 331 and 331N may not both be counted. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each.

J 331W. Web Editing and Production.
Examine the skills needed to produce and maintain a website, including understanding of content management systems and search engine optimization. Three lecture hours a week for one semester. Prerequisite: Journalism 310F and 311F with a grade of at least B-.

J 332. Web Production and Editing.
How to plan, edit, package and publish multimedia news. Includes ethical news curation; use of social media to drive audience growth; and leveraging web content into the print product. Three lecture hours a week for one semester. Journalism 332D and 332F may not both be counted. Offered on the letter-grade basis only. Prerequisite: Journalism 310F with a grade of at least B-. Prerequisite: Upper-division standing, Journalism 331 and 331N may not both be counted. Prerequisite: Journalism 310F with grade of at least B-.

J 332G. Explanatory Journalism: Storytelling in a Digital Age.
Examination of the evolution of long-form explanatory storytelling from print and film to new forms of Web-based and interactive storytelling. Three lecture hours a week for one semester. Journalism 332G and 359T (Topic: Explanatory Journalism: Storytelling in a Digital Age) may not both be counted. Prerequisite: Journalism 310F with a grade of at least B-.

J 332I. The Interview Process.
Explore the methodology of inquiry as a foundational but specialized form of reporting that requires advanced preparation, keen listening, and adaptability. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing, Journalism 310F, and 311F with a grade of at least B- in each.

J 332J. Sports for Reporting Texas.
Restricted to journalism majors. Students work as sports reporters for the School of Journalism's Reporting Texas Web site. Three lecture hours a week for one semester. Additional hour(s) to be arranged. Journalism 332J and Journalism 339T (Topic: Sports for Reporting Texas) may not both be counted. Prerequisite: Journalism 310F (or 320D) and 311F (or 321C) with a grade of at least B- in each.

J 332L. Community Life: Documented.
Focus on in-depth understanding of the web platform and its applicability to various types of content across multiple devices. Examination of web usage by individuals and organizations with the need for a digital presence. Experience the web publishing process, including planning, production, tracking, and marketing. Exposure to HTML coding, design, content management systems, web analytics, and digital advertising. Three lecture hours a week for one semester. Prerequisite: Journalism 331 and 331N may not both be counted. Prerequisite: Journalism 310F and 311F with grade of at least B- in each.

J 332P. Images in Culture.
Restricted to journalism majors. Explore the production of images related to entertainment and pop culture. Three lecture hours a week for one semester. Prerequisite: Journalism 311F with a grade of at least B- or Communication 316 with a grade of at least C-.

J 332S. Sport Commentary.
Restricted to journalism majors and students pursuing the journalism and media minor. Examine the skills needed to produce well-reported and artfully crafted columns, commentary, and analyses about sports on and off the field, no matter the platform. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Journalism 310F and 311F with grade of at least B- in each.
Explores intensive photographic reportage and documentation using the camera as a tool of investigation and interaction. Emphasis on creation of photo stories, photo essays, and feature stories, with editing and page layout. Three lecture hours a week for one semester. Prerequisite: Communication 316 with a grade of at least C.

J 333J. Photography for Reporting Texas.
Restricted to journalism majors. Students work as photographers for the School of Journalism’s Reporting Texas Web site. Three lecture hours a week for one semester. Additional hour(s) to be arranged. Only one of the following may be counted: Journalism 333J, 359T (Topic: Photography for Reporting Texas), or 363V. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each; Communication 316 with a grade of at least C.

J 333L. Video Production for Live Events.
Restricted to journalism majors. Examine the basics of shooting and editing live events. Three lecture hours a week for one semester. Prerequisite: Journalism 311F with a grade of at least a B-.

J 333P. Podcast Scripting.
Restricted to journalism majors. Write descriptive scenes and push forward a journalistic narrative in the podcasting space. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing. Journalism 310F, and 311F with a grade of at least B- in each.

J 333S. Video Production for News and Sports.
Restricted to journalism majors. Examine the basics of shooting and editing events, including live sports, news, and entertainment. Three lecture hours a week for one semester. Prerequisite: Journalism 311F with a grade of at least B-.

Review of online reporting techniques, advanced multimedia skills, and current issues in new media. Three lecture hours a week for one semester. Prerequisite: Journalism 310F and 311F with a grade of at least C in each.

J 334F. Oral History as Journalism.
Instruction in the use of oral history to generate journalistic coverage. Modules include concepts and methods of gathering oral history; illustration of the techniques using the Vietnam War as a topic; and generating oral history-based coverage focusing on the Mexican American experience. Three lectures hours a week for one semester. Only one of the following may be counted: Journalism 334F, 334K, 334N, 334S. Prerequisite: Journalism 310F with a grade of at least B-.

Explores intensive video reportage and documentation using the camera as a tool of investigation and interaction. Emphasis on creation of video news and feature stories. Three lecture hours a week for one semester. Only one of the following may be counted: Journalism 334G, 370K, 371K. Prerequisite: Communication 316 with a grade of at least C; and Journalism 310F and 311F with a grade of at least B- in each.

J 334I. Immersive Sound Design.
Restricted to journalism majors. Create a soundscape through music, interviews, natural sounds for podcasts, and other audio stories. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing. Journalism 310F, and 311F with a grade of at least B- in each.

Restricted to journalism majors. Provides students with an up-to-date understanding of the Web publishing process, including conceptualization, production, and marketing. Three lecture hours a week for one semester. Journalism 334J and 399T (Topic: Web Design for Journalism) may not both be counted. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each.

J 334K. Interviewing For Historical Context.
Examine methods for recording interviews that become high-quality archival recordings for multiple platforms. Explore concepts and methods of power dynamics in an interview, asking evocative questions, preparation, and technical considerations. Three lecture hours a week for one semester. Only one of the following may be counted: Journalism 334F, 334K, 334N, 334S. Prerequisite: For journalism majors: Journalism 310F and Journalism 311F with a grade of at least B-; for others: consent of instructor.

J 334N. Oral History in Multimedia Storytelling.
Instruction in using oral history to generate archival material and short-term multimedia stories. Covers concepts and methods of gathering oral history with an emphasis on interviewing techniques. Centers on U.S. Latinos and ways to build a multimedia representation of the interview. Includes one major interview trip, generally out of town. Three lecture hours a week for one semester. Only one of the following may be counted: Journalism 334F, 334K, 334N, 334S.

J 334P. Podcast Production.
Restricted to journalism majors. Analyze current podcasts. Create and produce two segments of an original podcast. Three lecture hours and three laboratory hours a week for one semester. Prerequisite: Upper-division standing and Journalism 310F with a grade of at least B-.

J 334S. Place and Audio Storytelling.
Learning how to find the essence of a specific location and tell its story. Audio recording/editing, infographics, and photographs will be the tools used. Three lecture hours a week for one semester. Only one of the following may be counted: Journalism 334F, 334K, 334N, 334S. Prerequisite: For journalism majors: Journalism 310F with a grade of at least B-; for others: consent of instructor.

J 334V. Integrated Video Production.
Examine video storytelling that integrates practices found in different areas of communication and platforms. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing, Journalism 310F, and 311F with a grade of at least B- in each.

J 335. Narrative Journalism.
Explore techniques for reporting non-fiction stories with the tools of fiction, including scene and dialogue. Analyze exemplary pieces of narrative, from written form to documentary film. Examine the reporting and writing of original non-fiction narratives. Three lecture hours a week for one semester. Only one of the following may be counted: Journalism 335, Latin American Studies 322 (Topic 11: Latino Community Journalism), 322 (Topic 11: Narrative Journalism), Mexican American Studies 374 (Topic 4: Latino Community Journalism), 374 (Topic 4: Narrative Journalism). Prerequisite: Journalism 310F with a grade of at least B-.

J 335D. Making Magazines.
Includes simulated publication teams that craft a concept, develop a business plan, and create a prototype. Focus on market research, writing, team building, design and production skills. Three lecture hours a week
for one semester. Offered on the letter-grade basis only. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each.

**J 335F. Magazine Writing and Production.**
Restricted to journalism majors. Explore magazine analysis with an emphasis on longform feature writing and reporting. Three lecture hours a week for one semester. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each.

**J 335G. Advanced Television Reporting and Producing.**
Restricted to journalism majors. Advanced writing and reporting skills for the collaborative production of television news programs on deadline. Students assist in producing a television news program. One and a half lecture hours and three laboratory hours a week for one semester. Only one of the following may count: Journalism 330C, 330F, 335G, 335P. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each, and credit or registration for Journalism 330C (or 330F) with a grade of at least C-.

**J 335J. Mobile Programming for Journalists.**
Restrict to journalism majors. Coding and other skills in preparation for designing mobile news apps. Three lecture hours a week for one semester. Only one of the following may be counted: 397T (Topic: Interactive Media), Journalism 335N, 335J. Offered on the letter-grade basis only. Prerequisite: Journalism 310F with a grade of at least B-.

**J 335K. News Documentary Production.**
Restricted to journalism majors. Produce original news documentaries with an emphasis on films covering current affairs, contemporary life, and historical subjects. Three lecture hours a week for one semester. Prerequisite: Journalism 311F with a grade of at least B.

**J 335L. Food Journalism.**
Explore the skills necessary to create interactive web applications for journalism and related fields. Three lecture hours a week for one semester. Only one of the following may count: Journalism 335J, 335N, 335T (Topic: Intro Mobile Progr Journalists), Journalism 335N, 335J. Offered on the letter-grade basis only. Prerequisite: Journalism 310F with a grade of at least B-.

**J 335M. Music Journalism.**
Restrict to journalism majors. Specialized reporting and writing in lifestyle coverage, including food, fashion, entertainment and travel. Three lecture hours a week for one semester. Journalism 336J and 349T (Topic: Lifestyle Journalism) may not both be counted. Offered on the letter-grade basis only. Prerequisite: Journalism 310F with a grade of at least B-.

**J 335N. News Application Development.**
Explore the skills necessary to create interactive web applications for journalism and related fields. Three lecture hours a week for one semester. Only one of the following may count: Journalism 335J, 335N, 335T (Topic: Intro Mobile Progr Journalists). Prerequisite: Journalism 310F with a grade of at least B-.

**J 335P. TV Reporting and Producing.**
Explore the skills needed for the collaborative production of television news programs on deadline. Three lecture hours and three laboratory hours a week for one semester. Only one of the following may count: Journalism 330C, 330F, 335G, 335P. Prerequisite: Journalism 311F with a grade of at least B- and 331G.

**J 335Q. Advanced Graphic Design for Print and Online.**
Overview, design, and production of materials for online and print storytelling. Subjects include design principles, visual perception, typography, manipulation of images and photographs, and page design for media platforms. Three lecture hours a week for one semester. Prerequisite: Journalism 310F or Communication 316 with a grade of at least B.

**J 335R. Social Media Journalism.**
The role of journalism in using social media to engage a wide audience, building a marketable brand for journalists and media organizations, and engaging an audience with the news media. Practice in using tools and techniques to be an engaging and effective media practitioner. Three lecture hours a week for one semester. Journalism 336F and 349T (Topic: Social Media Journalism) may not both be counted.

**J 335S. Advanced Graphic Design for Print and Online.**
Advanced exploration of graphic design tools, theory, industry trends, and history. Emphasis on design in journalism, infographics, long-form print design, and user interface (UI) and user experience (UX) design. Three lecture hours a week for one semester. Prerequisite: Journalism 335D with a grade of at least B.

**J 335T. Opinion Writing.**
Explore the skills necessary to create interactive web applications for journalism and related fields. Three lecture hours a week for one semester. Only one of the following may count: Journalism 335J, 335N, 335T (Topic: Intro Mobile Progr Journalists). Prerequisite: Journalism 310F with a grade of at least B-.

**J 335U. Long-Form Feature Writing.**
Explore the skills necessary to create interactive web applications for journalism and related fields. Three lecture hours a week for one semester. Only one of the following may count: Journalism 335J, 335N, 335T (Topic: Intro Mobile Progr Journalists). Prerequisite: Journalism 310F with a grade of at least B-.

**J 335V. Advanced Graphic Design for Print and Online.**
Explore the skills necessary to create interactive web applications for journalism and related fields. Three lecture hours a week for one semester. Only one of the following may count: Journalism 335J, 335N, 335T (Topic: Intro Mobile Progr Journalists). Prerequisite: Journalism 310F with a grade of at least B-.

**J 335W. Long-Form Feature Writing.**
Explore the skills necessary to create interactive web applications for journalism and related fields. Three lecture hours a week for one semester. Only one of the following may count: Journalism 335J, 335N, 335T (Topic: Intro Mobile Progr Journalists). Prerequisite: Journalism 310F with a grade of at least B-.

**J 335X. Opinion Writing.**
Explore the skills necessary to create interactive web applications for journalism and related fields. Three lecture hours a week for one semester. Only one of the following may count: Journalism 335J, 335N, 335T (Topic: Intro Mobile Progr Journalists). Prerequisite: Journalism 310F with a grade of at least B-.

**J 335Y. Long-Form Feature Writing.**
Explore the skills necessary to create interactive web applications for journalism and related fields. Three lecture hours a week for one semester. Only one of the following may count: Journalism 335J, 335N, 335T (Topic: Intro Mobile Progr Journalists). Prerequisite: Journalism 310F with a grade of at least B-.
news organization, including social media, newsletters, mobile apps, content management systems, and more. Three lecture hours a week for one semester. Journalism 337P and 349T (Topic 22) may not both be counted. Prerequisite: Journalism 310F with a grade of at least B-.

**J 338F. Advanced Visual Design.**

Restricted to journalism majors. Advanced exploration of principles and processes of visual design, including design principles, visual perception, typography, image making, uses of color, printing techniques, and publication design. Three lecture hours and three laboratory hours a week for one semester. Prerequisite: Journalism 336D with a grade of at least C, and Journalism 310F and 311F with a grade of at least B- in each.

**J 338J. News for a Mobile Audience.**

Examine the mobile landscape, including news and entertainment platforms, social media, and the practice and principles of journalism. Explore ideas for increasing mobile news engagement, especially by Generation Z and Millennials. Three lecture hours a week for one semester. Journalism 338J and 349T (Topic: News for a Mobile Audience) may not both be counted. Prerequisite: Upper-division standing and a University grade point average of at least 2.25; and Journalism 310F and 311F with a grade of at least B- in each.

**J 339D. News Documentaries and Public Affairs.**

Study and practice of researching, writing, and producing short-form and magazine documentaries for television. Three lecture hours a week for one semester. Prerequisite: Journalism 310F with a grade of at least B-.

**J 339F. Investigative Reporting.**

Restricted to journalism majors. Emphasis on determining what an investigative story is, finding investigative stories, and basic tactics in pursuing such stories. Three lecture hours a week for a semester. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each.

**J 339M. Mobile Media Apps Development.**

Restricted to journalism majors. Planning and building a mobile app, whether for Android, iOS, or web-based, and personal communication in the news business and in various other journalism-related topics. Three lecture hours a week for one semester. Only one of the following may be counted: Journalism 339M, 339G, 363M or Journalism 359T (Topic: Mobile News App Design). Prerequisite: Upper-division standing; Journalism 310F and 311F with a grade of at least B- in each.

**J 339S. Research in Texas Sports and Media.**

Same as Communication 330. Restricted to journalism majors. Supervised research with a faculty member; research may consist of an individual project or assisting a faculty research project. Hours to be arranged. May be repeated for credit. Prerequisite: Upper-division standing and a University grade point average of at least 2.25, and Journalism 310F (or 320D) and 311F (or 321C) with a grade of at least B- in each.

**J 339T. Topics in Specialized Journalistic Skills.**

Restricted to journalism majors. Contemporary social, professional, and intellectual concerns in the practice of specialized journalistic skills. Three lecture hours a week for one semester. Some topics may require additional laboratory hours. May be repeated for credit when the topics vary. Prerequisite: Journalism 310F (or 320D) and 311F (or 321C) with a grade of at least B- in each.

**Topic 1: Mapping in Storytelling.** Restricted to journalism majors. Creating visual stories that combine text, charts and maps. Foundations of data analysis, spatial analysis, design, data visualization and cartography, including hands-on practice with GIS software and discussions of editorial and ethical concerns in visual storytelling. Assignments include combining new skills and reporting to produce visual stories. Journalism 339T (Topic: Mapping in Storytelling) and 339T (Topic 1) may not both be counted.

**Topic 2: Producing Documentaries for Sports Journalism.** Restricted to journalism majors. Applied skills in teams to produce one original documentary sports story. Emphasis placed on stories that transcend competition and explore larger social issues, such as race, sex, gender, class, opportunity, community, and identity. Journalism 339T (Topic: Documentaries for Sports) and 339T (Topic 3) may not both be counted.

**Topic 3: Tracking Online Audience Engagement.** Introduction to current practices in tracking and engaging online audiences such as web metrics, Google Analytics, search engine optimization, and keyword advertising.

**J 340C. Topics in Journalism, Communication, and Culture.**

Issues concerning minority or nondominant groups within the United States. Three lecture hours a week for one semester. Some topics may require additional laboratory hours. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 4: Leadership, Management, and the Media.**

**J 340D. Reporting on Technology.**

How to report on technology and its meaning for business and society using the Austin technology scene. Hands-on reporting, from robotics and mobile media to gaming and music production. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Journalism 310F with a grade of at least B-.

**J 340F. Covering the Global Economy.**

Examines the enduring financial, economic, and business issues journalists confront in covering the global economy. Three lecture hours a week for one semester.

**J 340G. Reporting Asia: A Foreign Correspondent’s Framework.**

Restricted to journalism majors. Explores dynamic ways of looking at, thinking about, and reporting the world, and establishes a framework for analyzing how the news media cover key events, issues, and processes that shape our lives in a global society. Three lecture hours a week for one semester. Journalism 340G and 395 (Topic 17: Reporting Asia) may not both be counted. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each.

**J 340J. Documentary Tradition of Latin America.**

Contemporary social, professional, and intellectual concerns with the practice of journalism. Study of still photographic and video documentary work by Latin Americans about Latin America. Production of photographic essays on Latin American culture. Three lecture hours a week for one semester. Journalism 340J and 395 (Topic 17: Documentaries for Latin America) may not both be counted. Prerequisite: Consent of instructor.

**J 340N. Journalism in the 1960s.**

Through readings and critiques, examine "New Journalism," a bold style of journalistic reporting and writing in the 1960s and 1970s that was a sharp departure from previous newspaper and magazine storytelling. Three lecture hours a week for one semester. Offered on the letter-grade basis only.

**J 341F. Understanding African Americans and the Media.**

Documentaries, readings, discussions, projects, and theories facilitate the examination of the relationship between African American history
and contemporary American society. Media representations of African Americans are evaluated and news coverage of African Americans is explored in depth. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

Restricted to journalism majors. Contemporary social, professional, and intellectual concerns with the practice of journalism. Three lecture hours a week for one semester. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each.

J 341J. Minorities and the Media.
Issues concerning news media depiction of underrepresented groups in the United States. Three lecture hours a week for one semester. Only one of the following may be counted: Journalism 341H, 341J, 341M, Latin American Studies 322 (Topic 10), Mexican American Studies 374 (Topic 22), Urban Studies 354 (Topic: Minorities and the Media), Women's and Gender Studies 340 (Topic 21).

J 341M. Representation in the News Media.
Examine issues concerning news media depiction of minority and nondominant groups in the United States. Three lecture hours a week for one semester. Only one of the following may be counted: Journalism 341J, 341M, Latin American Studies 322 (Topic 10), Mexican American Studies 374 (Topic 22), Urban Studies 354 (Topic: Minorities and the Media), Women's and Gender Studies 340 (Topic 21).

J 342J. Visual Media and the News.
Restricted to journalism majors. Explores the power of mediated images in culture and society. Examines the way images, language, and human activity shape visual messages and the historical relationship between technology and image creation. Three lecture hours a week for one semester. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each.

Dynamic ways of looking at, thinking about, and reporting the world, both abroad and at home. Establishes a framework for analyzing how the news media cover key events, issues, and processes that shape our lives in a global society. Three lecture hours a week for one semester. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each.

J 342F. Women and the News.
Restricted to journalism majors. Historical and contemporary exploration of women and the news. Examination of the role of women in producing news and the construction of women within news texts. Three lecture hours a week for one semester. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each.

J 343F. Journalism and Religion.
Restricted to journalism majors. Critical examination of how religion traditionally has been covered in the United States, and guidelines for developing individual thinking and reporting on religious issues. Three lecture hours a week for one semester. Prerequisite: Journalism 310F with a grade of at least B-.

J 343G. Exploring Digital Media and Society.
Examines the connection between new media and society through a variety of theoretical and practical perspectives to explore the implications of the use of technology and new media in influencing community, social relationships, and public and private spaces, as well as the profession of journalism. Three lecture hours a week for one semester.

J 344F. Reporting on Gender and Sexuality.
Restricted to journalism majors. Instruction on how to cover controversial issues around gender and sexuality. Review of the sociology of gender and sexuality, with a focus on political, economic, and cultural implications. Three lecture hours a week for one semester. Prerequisite: Journalism 310F (or 320D) and 311F (or 321C) with a grade of at least B- in each.

J 344G. Urban Journalism.
Restricted to journalism majors. Studies of basic city functions and how to detect urban dysfunctions before crises become news. Topics include infrastructure decay, traffic congestion, poverty and homelessness, digital divides, school dropouts, conflict and crime, riots and protests, obesity and disease, recreation, and pollution. Three lecture hours a week for one semester. Prerequisite: Journalism 310F (or 320D) and 311F (or 321C) with a grade of at least B- in each.

J 344J. Media Images and Society.
Restricted to journalism majors. The power of mediated images in culture and society; exploration of the way images, language, and human activity shape visual messages; and the historical relationship between technology and image creation. Three lecture hours a week for one semester. Journalism 344J and 349T (Topic: Media Images and Society) may not both be counted. Prerequisite: Journalism 310F (or 320D) and 311F (or 321C) with a grade of at least B- in each.

J 345F. Social Issues Reporting.
Restricted to journalism majors. Coverage of social issues such as immigration, health care, and child welfare. Examination of stereotypes, how they affect reporting, and how they change as student reporters encounter new subjects. Three lecture hours a week for one semester. Prerequisite: Journalism 310F (or 320D) and 311F (or 321C) with a grade of at least B- in each.

J 345G. Human Rights Journalism.
Restricted to journalism majors. Exploration of the role of journalists in exposing human rights abuses. Modules include case studies from El Salvador, South Africa, Zimbabwe, Rwanda, Bosnia, Sudan, Israel, and Russia, as well as the legal and moral obligations of journalists as witnesses to atrocities and genocide. Examination of the Bush Administration's global War on Terror and the legacy confronting the Obama Presidency. Three lecture hours a week for one semester. Prerequisite: Journalism 310F (or 320D) and 311F (or 321C) with a grade of at least B- in each.

J 345R. Film and Television Criticism.
Restricted to journalism majors and students pursuing the journalism and media minor. Explore a theoretical and practical introduction to the ways critics review movies and narrative series. Examine the history of criticism, its evolution from print to TV to digital, and the narrative approaches used by critics in their analyses. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing, Journalism 310F, and 311F with a grade of at least B- in each.

Restricted to journalism majors. Instruction and supervised fieldwork in environmental coverage. Topics include interviewing, elements and structures of good environment writing, the concepts of scientific certainty and uncertainty, and communicating complex science to lay audiences. Issues covered include climate change, energy, air and water quality, and sustainability. Three lecture hours a week for one semester.
Journalism 346F and 349T (Environmental Journalism) may not both be counted. Prerequisite: Journalism 310F (or 320D) and 311F (or 321C) with a grade of at least B- in each.

**J 346G. Domestic Issues and Global Perspective.**
Examinining domestic issues (consumerism, food/health, environmentalism, energy consumption) from global and intercultural perspectives. Proper positioning of the United States helps journalists and news consumers think outside the box. Three lecture hours a week for one semester.

**J 347F. Reporting Latin America.**
Foreign reporting and international news production processes, with special emphasis on Latin America. Three lecture hours a week for one semester. Prerequisite: Journalism 310F with a grade of at least B-.

**J 347G. Cultural Survey of Photography.**
Examine the development of photography focused on reportage, documentary, and social issue art photography, including historical processes, the evolution of stylistic trends, and critical issues in the field. Explore the Harry Ransom Center and other University of Texas photographic archives. Three lecture hours a week for one semester. Prerequisite: Journalism 310F or Communication 316 with a grade of at least B-.

**J 348D. Gender and the News.**
Same as Women's and Gender Studies 324G. Historical and contemporary exploration of gender and the news. Examination of the role of marginalized gender groups in producing news and the construction of gender within news texts. Three lecture hours a week for one semester. Only one of the following may be counted: Journalism 348D, Women's and Gender Studies 324 (Topic 4), 324G. Prerequisite: For journalism majors, Journalism 310F with a grade of at least B-; for others, six semester hours of upper-division coursework in women's and gender studies.

**J 348E. Ethics of Sports Media.**
Analyze the role of journalistic ethics in the coverage and media production of sports. Three lecture hours a week for one semester.

**J 348F. Covering the Latino Community in the United States.**
Challenging and developing views of the contemporary Latino community and other underrepresented people in the United States. Topics include a history of ethnic groups in the United States and their politics, education, organization, immigration, culture, power, and media. Three lecture hours a week for one semester. Prerequisite: Journalism 310F with a grade of at least B-.

**J 348G. The Business of Sports Media.**
Same as Advertising 348S and Public Relations 348S. Examination of the business of sports-related media, including over-the-air television, cable, satellite television, print, radio, social media, and internet-based media, and the impact of such media on sports presentation and development, professional franchises, colleges, and conferences. Emphasis on how the business of sports media generates revenue and content, and the business models for each type of media, the challenges to such models, and the likely future changes to them. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 348S, 378 (Topic: The Business of Sports Media), Communication 325 (Topic: The Business of Sports Media), Journalism 348G, 349T (Topic: The Business of Sports Media), Public Relations 348S, 378 (Topic: The Business of Sports Media).

**J 348J. Covering Criminal Justice.**
Examine how criminal justice is covered in the news media. Three lecture hours a week for one semester.

**J 348L. Making Sense of the News.**
Restricted to non-journalism majors. Gaining the critical thinking skills necessary to analyze what is news in our digital age. Examines accuracy, sources and verification, and bias behind information in the public sphere. Three lecture hours a week for one semester.

**J 348M. Diversity in News Organizations.**
Three lecture hours a week for one semester. Journalism 348M and 349T (Topic: Diversity in News Orgs) may not both be counted. Prerequisite: For journalism majors: Journalism 310F and 311F with a grade of at least B- in each; for others: consent of instructor.

**J 348N. Leadership in News Organizations.**
Examine concepts and frameworks related to skills integral to ethical, effective leadership and management in news organizations. Explore making ethical decisions, communicating supportively to others, gaining power and influence, managing conflict, building effective teams, and leading positive change. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**J 348S. Media Management.**
Print and broadcast management and planning in operations, personnel, content, marketing, finance, technology, and regulation. Three lecture hours a week for one semester.

**J 349E. Elections, Voters, and News.**
Explores U.S. election history, dimensions of and influencers in U.S. elections, news coverage of candidates and issues, and voters and their attitudes toward candidates and issues as well as their engagement with election news. Three lecture hours a week for one semester. Journalism 349E and 349T (Topic: Elections/Voters/News) may not both be counted. Prerequisite: Upper-division standing.

**J 349F. Reporting Public Health and Science.**
Restricted to journalism majors. Specialty reporting to help news consumers understand complex health and medicine issues. Considers the lack of critical perspective, balanced reporting, and grasp of fundamental issues that afflict much health reporting. Focuses on the latest reporting techniques and narrative skills to illuminate an intellectually demanding field that also includes public health policy. Three lecture hours a week for one semester. Journalism 349F and 349T (Topic: Reporting Public Health and Science) may not both be counted. Prerequisite: Journalism 310F (or 320D) and 311F (or 321C) with a grade of at least B- in each.

**J 349L. News Literacy for a Digital Age.**
Explores news, journalists, the practice and ethics of journalism, news platforms, history, and threats to the future of news, and the attitudes, demographics, and behavior of the news audience. Three lecture hours a week for one semester. Journalism 349L and 349T (Topic: News Literacy for a Digital Age) may not both be counted.

**J 349N. News Media and Politics.**
Examines central controversies and theories about the role the media in politics and the political systems. Three lecture hours a week for one semester. Journalism 349N and 349T (Topic: News Media and Politics) may not both be counted.
J 349T. Topics in Understanding and Reporting Social Issues.
Restricted to journalism majors. Contemporary social, professional, and intellectual concerns in the practice of journalism. Three lecture hours a week for one semester. Some topics may require additional laboratory hours. May be repeated for credit when the topics vary. Prerequisite: Journalism 310F (or 320D) and 311F (or 321C) with a grade of at least B- in each.

Topic 1: Senior Seminar. Capstone experience in analysis of current journalism issues. Students complete a major research project. Additional prerequisite: Consent of instructor.
Topic 8: Alternative Media. Journalism 349T (Topic 8) and 395 (Topic 22: Alternative Media) may not both be counted.
Topic 9: Covering Technology and Innovation.
Topic 11: Editorial Column Writing.
Topic 20: Video Journalism for the Web.
Topic 22: Writing for Online Publications. Journalism 337P and 349T (Topic 22) may not both be counted.

J 350F. Media Law.
Examination of legal rights and restrictions for online and print journalism, including Constitutional guarantees, libel, invasion of privacy, and contempt of court. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

J 350M. Media Policy and Ethics.
Explore the contemporary ethical and policy issues facing the transforming media industries and the American public. Examine a range of issues that new media and the Internet have complicated, rooted in an understanding of the First Amendment as well as the development of communication industries. Three lecture hours a week for one semester. Only one of the following may be counted: Journalism 350M, Radio-Television-Film 365 (Topic: Media, Communication Law, and Ethics), 365C (Topic 1).

J 350N. Ethnic Media.
Examine the history of media devoted to ethnic communities underrepresented by mainstream media, as well as news consumers whose primary languages are not English, in New York - including the country's first African-American newspaper in 1827 - and their continuing relevance in a global world. Three lecture hours a week for one semester.

J 350R. Covering Rural America.
Examine the coverage and the narratives the news media construct about rural America. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

J 351C. Contemporary Media Systems.
Explore the contemporary role of media systems in the United States. Examine the structure and reach of today's media systems, and the role of individuals and corporations in new digital systems. Three lecture hours a week for one semester.

J 351F. Journalism, Society, and the Citizen Journalist.
Examine journalism’s principles, process, and role in society. Discuss distinctions between journalists and citizen journalists and explore the news audience in depth with special attention paid to Millennials and Generation Z and their engagement with different news platforms.

Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

J 351G. Introduction to Global Media.
Examine the role of global media as a set of texts, technologies, and industries that shape our identities, our social worlds, and our political practices. Three lecture hours a week for one semester. Only one of the following may be counted: Journalism 351G, 359S (Topic: Introduction to Global Media), Radio-Television-Film 312C, 324C.

J 351J. Technology and the Internet in Journalism.
Examine the literacy of computer and Internet technologies in the context of journalism and communication. Focus on software, databases, computer/wireless networks, hardware, cybersecurity, and the Internet work. Explore case studies from science and technology journalism in order to reflect on the technical knowledge needed to effectively report and communicate in these areas. Three lecture hours a week for one semester.

J 351P. Social Media, Propaganda, and Elections.
Explore the spread of "computational propaganda," including misinformation, disinformation, and political trolling, with a special focus on U.S. politics, media, and reporting. Three lecture hours a week for one semester.

J 351S. Globalization and Social Media.
Examine the issues surrounding the hype, myth, paradox, and reality of social media in a global context. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 320 (Topic: Globalization and Social Media), Journalism 349T (Topic: Globalization and Social Media), 351S, Radio-Television-Film 331M (Topic: Globalization and Social Media), 365 (Topic 10), Sociology 321K (Topic: Globalization and Social Media), 352S.

J 351T. Technology and Culture.
Examine ideas about the relationship between technology and culture, how U.S. culture views technology, and the historically contingent design, development, and use of different media and communication technologies. Three lecture hours a week for one semester. Only one of the following may be counted: Communication 309, Journalism 351T, Journalism 359S (Topic: Tech Culture), Radio-Television-Film 309, 326C.

J 352. Topics in Journalism.
Contemporary social, professional, and intellectual concerns in the practice of journalism. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing; additional prerequisites vary with the topic.

Topic 6: Presidents and the Press. Three lecture hours a week for one semester. Additional prerequisite: Consent of instructor.

J 352F. Ethics in Journalism.
In-depth examination of the ethical choices individual journalists face and the ethical implications of how news media operate in a larger social and political framework. Three lecture hours a week for one semester.

J 353F. Historical Perspectives in Journalism.
Evolution of journalism and mass media, including the social, economic, and political factors that have contributed to changes in news gathering and distribution. Three lecture hours a week for one semester.

J 354F. Journalism and Press Freedom in Latin America.
Same as Latin American Studies 322 (Topic 20). Focus on journalism in Latin America with an emphasis on the struggle for democracy and press freedom in the region through country-by-country survey of
historical, political, economic, cultural, ethnic and geographical aspects. Examination of the evolution of professional journalism in Latin America, including topics such as the legal framework for freedom of expression, ethical principles, concentration of media ownership and the emergence of digital media. Knowledge of Spanish language is recommended, but it is not a requirement. Three lecture hours a week for one semester. Only one of the following may be counted: Journalism 354F, 367E, Latin American Studies 322 (Topic 14), 322 (Topic 20).

J 354L. Mapping Latino Culture in East Austin.
Explore the cultural history of majority Anglo and minority (Latino, African-American, and Asian) Austin with a focus on how the sources of information, culture, and media available to minority residents have evolved, and how those sources have been used by people and communities there. Three lecture hours a week for one semester. Only one of the follow may be counted: Journalism 354L, Radio-Television-Film 365 (Topic: Mapping Latino Culture in East Austin), 365 (Topic 12).

J 354M. Journalism and Press Freedom in the Middle East and North Africa.
Explore journalism in the Middle East and North Africa with an emphasis on the period leading up to the Arab Spring and subsequent developments. Survey historical, political, economic, cultural, ethnic, and geographical aspects of the region. Examine the evolution of professional journalism in the Middle East and North Africa. Includes legal framework for freedom of expression, ethical principles, concentration of media ownership and the emergence of digital media. Knowledge of Arabic is not a requirement. Three lecture hours a week for one semester.

J 354N. Nonprofit Journalism.
Examine and analyze the growing field of nonprofit journalism, its business models, and its impact on news content. Three lecture hours a week for one semester.

J 354R. International Broadcasting.
Survey broadcast production and content outside of the United States. Three lecture hours a week for one semester.

Examine the range of problems and opportunities prevalent in coverage of American sports. Includes discussion of class, equality, gender, labor, political expression and race. Examine timeless themes in sports coverage such as community, ego, identity, money, opportunity and tradition, as well as sports-specific journalistic ethics. Three lecture hours a week for one semester. Journalism 354S and 359T (Topic: Contemporary Issues in Sports Journalism) may not both be counted.

J 355F. Living in the Information Age.
Examine communication and information technologies with particular emphasis on the Internet and its components. Explore how digital and mobile technologies are used by Millennial and post-Millennial generations and with what effects. Three lecture hours a week for one semester. Only one of the following may be counted: Journalism 355F, 355G, 359T (Topic: Living in the Information Age), 359T (Topic 8), Radio-Television-Film 331N (Topic: The Information Society).

J 355G. The Information Society.
Examine information technologies such as the Internet, telephones, and computers and their relation to existing media, including history, policy, economics, and social impact. Three lecture hours a week for one semester. Only one of the following may be counted: Journalism 355F, 355G, 359T (Topic: Living in the Information Age), 359T (Topic 8), Radio-Television-Film 331N (Topic: The Information Society).

J 355M. Media Industries and Entrepreneurship.
Examine the social, political, and economic contexts in which media and culture are produced, distributed, and monetized. Explore these with an emphasis on new media and communication technologies. Three lecture hours a week for one semester. Only one of the following may be counted: Journalism 355M, Radio-Television-Film 365 (Topic: Media Industries and Entrepreneurship), 365 (Topic 9), Sociology 352E, 352M (Topic: Media Industries and Entrepreneurship).

Discusses trends and innovations shaping the business of news, from rapidly evolving content consumption patterns to emerging storytelling platforms like streaming, podcasting, and AR/VR. Examines the challenges and opportunities of the business of news, for-profit and non-profit alike, essential for those planning a career in media. Includes on-site, interactive conversations with news professionals and entrepreneurs, students will learn about Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

J 356C. Digital Mainland China and Taiwan.
Examine disruptive innovations and entrepreneurship such as social and mobile media, big data, and AI; and their media, cultural, and social implications in Chinese societies such as mainland China and Taiwan. Three lecture hours a week for one semester. Only one of the following may be counted: Radio-Television-Film 342 (Topic 10), Radio-Television-Film 342 (Topic: Digital Mnld China & Taiwan), Journalism 356C, 359S (Topic: Digital Mnld China & Taiwan), Asian Studies 361 (Topic: Digital Mnld China & Taiwan).

J 356G. Social Media: Growth, Uses, and Impacts.
Explore a range of issues related to the growth, uses, and impacts of social media, including the rapid rise and adoption of social media. Three lecture hours a week for one semester. Only one of the following may be counted: Journalism 356G, Radio-Television-Film 359 (Topic: Youth and Social Media), 359 (Topic 4), 359 (Topic 5).

J 356M. Social Media and Society.
Explore social media’s rise and influence in society. Three lecture hours a week for one semester. Communication 370 (Topic: Social Media and Society) and Journalism 356M may not both be counted.

J 356R. Race and Digital Media Cultures.
Examine a range of issues related to the adoption of various digital and social media platforms and experiences across the digital media landscape, with a focus on how digital media culture is influenced by systemic racism. Using a number of studies, recent data trends, and keen observations, analyze the interconnectedness of race, racism, and uses of digital media. Three lecture hours a week for one semester. Only one of the following may be counted: Journalism 356R, Radio-Television-Film 359 (Topic: Race/Digital Media Cultures), 359 (Topic 7).

J 358C. Becoming Citizen Journalists.
Restricted to non-journalism majors. Covers the basics of journalism for students who are interested in sharing truthful stories to a public audience, but do not intend to pursue a career in the profession. Uses digital and social media tools. Explores three topics: how to find and gather the best factual information, how to present it in clear and engaging ways, and how to make ethical decisions that serve the needs of the audience and democracy. Three lecture hours a week for one semester. Journalism 308J and 358C may not both be counted.

J 358N. Online Incivility.
Define and explore different types of incivility through the lens of online discussions. Critically assess why incivility exists online and what influence it has on politics, society, and journalism. Three lecture hours a week for one semester.
week for one semester. Communication 370 (Topic: Online Incvltty/Publ Debat) and Journalism 358N may not both be counted.

J 358P. Popular Culture and the Press.
Explores the relationship between American popular culture and the press, its role in our everyday lives, and how it helps shape our attitudes and identities. Explores popular culture in television, film, magazines, the Internet, social media, and advertising. Subjects include movies, music, film, fashion, food, travel, celebrity and society news, among others. Three lecture hours a week for one semester.

J 358S. Communicating Social Change.
Utilizing communication skills to tell truthful stories of underrepresentation and marginalization. Three lecture hours a week for one semester. Prerequisite: Journalism 310F or Journalism 313P with a grade of at least B-.

J 358T. Topics in Journalistic Practices.
Restricted to non-journalism majors. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

J 359M. Topics in Journalism and Media Studies.
Examine contemporary issues in the fields of journalism and media studies. Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

J 359S. Topics in Current Journalistic Issues.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

J 359T. Topics in Journalism, Skills, and Techniques.
Restricted to journalism majors. Examine the contemporary professional decisions and techniques used in the practices of journalism. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Journalism 310F (or 320D) and 311F (or 321C) with a grade of at least B- in each.

J 360F, 660F. Internship.
Restricted to journalism majors. Internships to be arranged by student and approved by instructor. Internship hours to be arranged. Offered on the pass/fail basis only. Prerequisite: Upper-division standing. Journalism 310F and 311F with a grade of at least B- in each; and six semester hours of upper-division coursework in journalism with a grade of at least B.

J 160G. Journalism Practicum.
Restricted to journalism majors. Internship hours to be arranged. Offered on the pass/fail basis only. Prerequisite: One of the following: Communication 350, Journalism 360F, or 660F.

J 360S. Sports Media Internship.
Restricted to journalism majors. Sports media internships to be arranged by student and approved by instructor. Internship hours to be arranged. Offered on the pass/fail basis only. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each.

J 361F. Reporting Texas.
Restricted to journalism majors. Students work as online reporters, photographers, and editors for the School of Journalism's Reporting Texas website. Three lecture hours and three laboratory hours a week for one semester. Journalism 359T (Topic: Reporting Texas) and 361F may not both be counted. Prerequisite: Journalism 310F (or 320D) and 311F (or 321C) with a grade of at least B- in each; and six additional semester hours of upper-division coursework in journalism with a grade of at least B.

J 362F. Journalism Portfolio.
Restricted to journalism majors. A synthesis experience to polish journalism skills, showcase reporting and production abilities across multiple journalistic platforms, and complete a professional online portfolio. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Senior standing; Journalism 310F and 311F with a grade of at least B- in each; and six semester hours of upper-division coursework in journalism with a grade of at least B-

J 363. Theories of Mass Communication.
Comparative survey of perspectives, research, and theories on communication through the mass media; theories on media effects and the construction of social reality, especially regarding the news media. Three lecture hours a week for one semester.

J 363C. Broadcast Capstone.
Restricted to journalism majors. Write, produce, and present a weekly television newscast, culminating in seven episodes of Reporting Texas TV. Includes on-air, digital, and social media skills. One-and-one-half lecture hours and three laboratory hours a week for one semester. Journalism 363C and 363N may not both be counted. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each, and credit or registration for Journalism 330C (or 330F) with a grade of at least C-

J 363D. Digital Innovations Capstone.
Working in groups or individually; conceive, pitch, plan, design, and create cutting-edge media products. Three lecture hours a week for one semester. Prerequisite: Upper-division standing; and Journalism 310F and 311F with a grade of at least B- in each.

J 363F. Capstone Projects in Journalism.
Restricted to journalism majors. The design and execution of special projects showcasing the individual student's interests in one or more journalistic platforms. Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing; completion of six hours of upper-division coursework in journalism with a grade of at least a B.

J 363K. News Documentaries.
Restricted to journalism majors. Use applied skills as individual filmmakers to produce one original news documentary under ten minutes. Emphasis placed on films covering current affairs, contemporary life and historical subjects, films that might be found on The New York Times or The New Yorker. Three lecture hours a week for one semester. Prerequisite: Journalism 311F with a grade of at least B-; one of the following with a grade of at least B-: Journalism 330C (or 330F), 330L, 334G, 335F, 339T (Topic 3).

J 363L. Journalism Research Capstone.
Restricted to journalism majors. Emphasizes proficiency in researching and writing. Three lecture hours a week for one semester. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each; six additional semester hours of upper-division coursework in journalism; and consent of instructor.

J 363M. Capstone in Application Development.
Restricted to journalism majors. Plan and build a mobile application, whether for Android, iOS, or web-based, and use journalistic multimedia skills to promote and explain the products. Three lecture hours a week for one semester. Only one of the following may be counted: Journalism 339G, 339M, 363M. Prerequisite: Journalism 310F and 311F with a grade
of at least B- in each; and six hours of upper-division coursework in journalism.

J 363N. Newsroom Capstone.
Restricted to journalism majors. Take part in a newsroom experience to refine journalism skills, and showcase reporting and production abilities across multiple journalistic platforms. Three lecture hours a week for one semester. Journalism 363C and 363N may not both be counted. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each; and six hours of upper-division coursework in journalism.

J 363P. Television Newsmagazine.
Restricted to journalism majors. Explore the production of a television newsmagazine program, including on-air reporting, editing, and segment production. Three lecture hours and three laboratory hours a week for one semester. Prerequisite: Journalism 330C or 335G or 335P or 363N.

J 363Q. Capstone in Podcasting.
Restricted to journalism majors. Plan, research, report, record, and produce professional-quality podcasts. Analyze podcasting audiences, build revenue streams, and market podcasts to a regional or global audience. Three lecture hours a week for one semester. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each; and six hours of upper-division coursework in journalism.

J 363S. Sports Media Capstone.
Restricted to journalism majors. Stresses proficiency in sports writing, reporting, and editing by emphasizing professional skills and habits. Three lecture hours a week for one semester. Prerequisite: Journalism 326F with a grade of at least C-.

J 363V. Visual Capstone.
Restricted to journalism majors. Stresses proficiency in visual reporting by emphasizing professional skills and habits. Three lecture hours a week for one semester. Only one of the following may be counted: Journalism 333J, 359T (Topic: Photography for Reporting Texas), 363V. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each; and Communication 316 with a grade of at least C-.

J 363W. Reporting Capstone.
Restricted to journalism majors. Stresses proficiency in writing, reporting, and editing by emphasizing professional skills and habits. Three lecture hours a week for one semester. Prerequisite: Journalism 310F and 311F with a grade of at least B- in each; and six hours of upper-division courses in journalism.

J 365M. Experiential Learning.
Restricted to students pursuing a minor offered by the Moody College of Communication. Hours to be arranged. Prerequisite: Consent of Instructor.

Restricted to journalism majors. Specialized journalistic instruction by a professional from the field. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing; Journalism 310F and 311F with a grade of at least B- in each; and consent of instructor.

J 370K. Advanced Photojournalism.
Explores intensive photographic reportage and documentation using the camera as a tool of investigation and interaction. Emphasis on creation of photo stories, photo essays, and feature stories, with editing and page layout. Three lecture hours and four laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Acceptance into the photojournalism area of concentration or consent of instructor.

J 371K. Photographic Illustration.
Principles of studio lighting, theory and practice of contemporary color, location lighting, and the production of portfolio-quality work, as applied to advertising, photographic illustration, and photojournalism. Three lecture hours and four laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Acceptance into the photojournalism area of concentration or consent of instructor.

Restricted to journalism majors. Supervised projects in the field of journalism. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing, and consent of instructor.

Restricted to journalism majors. Designed to give students the opportunity to pursue special studies for which separate courses have not been organized. The equivalent of nine laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Journalism 310F (or 320D) and 311F (or 321C) with a grade of at least B- in each, and consent of the director of the school.

J 379H. Honors Tutorial Course.
Restricted to journalism majors. Conference course of intensive study, planned by Journalism Honors Committee; research and the writing of a substantial paper on a special journalism topic. Individual instruction. May be repeated for credit. Prerequisite: Admission to the Journalism Honors Program and consent of the director of the school.

J 379P. Photojournalism Research Projects.
Restricted to journalism majors. Designed to give photojournalism students the opportunity to pursue special studies for which separate courses have not been organized. The equivalent of nine laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Journalism 310F (or 320D) and 311F (or 321C) with a grade of at least B- in each.

Graduate Courses

Research methods and ethics, from design to data analysis and report writing. Three lecture hours a week for one semester. Prerequisite: Graduate standing, and admission to the journalism master's program in research and theory or to the journalism doctoral program.

J 080C. Introduction to Graduate Studies in Journalism and Media.
Discuss journalism and media research, theory, and professional development. One lecture hour a week for one semester. May be repeated for credit. Prerequisite: Graduate standing.

J 380M. Advanced Projects in Photography.
Advanced projects to demonstrate professional competence. Three lecture hours and four laboratory hours a week for one semester. May be taken twice for credit. May be repeated for credit. Prerequisite: Graduate standing, and consent of instructor and the graduate adviser.
J 380N. Advanced Projects in Journalism.
Designed to prepare students to write the master's report. Students develop professional projects to demonstrate their competence in specialized skills; students present, discuss, and critique their own and other students' work. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

J 380V. Visual Journalism.
Basics of aesthetics, visual design, photography, Web publishing, and videography. Two lecture hours and four laboratory hours a week for one semester. Required of first-year students in the journalism master's program professional track. Prerequisite: Graduate standing.

J 380W. Writing and Reporting.
Three lecture hours and three laboratory hours a week for one semester. Required of all first-year students in the Master of Arts in journalism program, professional track. Prerequisite: Graduate standing.

J 381. Research Methods Seminar.
Research techniques for investigating the control, content, audience, and effects of mass media. Three lecture hours a week for one semester. One topic is required of all candidates for the Master of Arts degree with a major in journalism. May be repeated for credit when the topics vary. Graduate standing.

Topic 1: Content Analysis.
Topic 2: Experimental Design.
Topic 4: Qualitative Methods.
Topic 6: Qualitative Textual Analysis Methods. Explore a variety of qualitative methods for analyzing texts for communication research. Apply various methods for qualitative analysis such as: critical discourse analysis, multi-modal discourse analysis, narrative analysis, feminist/queer/racialized analyses, interview analysis and conversational analysis and grounded theory analysis, among others.

J 381F. Fundamentals of Statistics.
An introduction to descriptive and inferential statistical procedures commonly used in communication research. Explore basic underlying assumptions of common statistical procedures, how to test hypotheses using these statistical procedures and what inferences can be drawn from the results, how to critically evaluate statistical analyses of others, and how to conduct descriptive and basic inferential statistics using SPSS for analyses. Three lecture hours a week for one semester.

J 381M. Computational Media and Data Science.
Examine advanced computational social science research methods through practical, hands-on applied data science projects in the field of computational media using large scale datasets from social media platforms. Three lecture hours a week for one semester. Prerequisite: Graduate standing; prior experience with one of the following is recommended: data science, data mining, statistics, or network analysis.

Readings, research, analyses in mass communications; oral and written reports in an area approved by the instructor. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 4: Agenda Setting.
Topic 5: Media Sociology. Journalism 382 (Topic: Media Sociology) and 382 (Topic 5) may not both be counted.

J 382T. Theory Building.
Examine the process of theory building and explore the construction of social science theories. Analyze models of the theory building process by tracing the development of popular contemporary social science theories. Advance a personal social science theory by using theory-building techniques and following specific theory building steps. Three lecture hours a week for one semester. Journalism 395 (Topic: Theory Building) and J382M may not both be counted. Prerequisite: Graduate standing.

J 383M. Frameworks of Media Innovation.
Survey of innovative practices in media. Three lecture hours and three lab hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

Advanced exploration of principles and processes of visual design, including design principles, visual perception, typography, image making, uses of color, printing techniques, and publication design. Three lecture hours and three laboratory hours a week for one semester. Prerequisite: Graduate standing.

Study of the processes and effects of mass communication. Three lecture hours a week for one semester. Prerequisite: Graduate standing, and admission to the journalism master's program in research and theory or the journalism doctoral program.

J 384T. Mass Communication Theory II.
Restricted to students in the journalism and media Master of Arts research and theory track or journalism and media doctoral students. Explore critical and cultural perspectives for communication systems. Examine ways to explain communication content, processes, organizations, interactions and outcomes, and broader social systems. Three lecture hours a week for one semester. Journalism 395 (Topic: Mass Communication Theory II) and 384T may not both be counted. Prerequisite: Graduate standing, Journalism 384, and consent of the graduate advisor.

J 385N. The Business of News.
Examine the challenges and opportunities of the business of news, for-profit and non-profit alike, with context provided by media professionals. Three lecture hours a week for one semester. Journalism 395 (Topic: Business of News) and 385N may not both be counted. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of the graduate advisor.

J 386. Public Relations Seminar.
Readings, research, and analyses in public relations. Examination of the role of public relations in social, economic, and political campaigns. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 1: Research Analyses in Public Relations.
Topic 2: Public Relations and Management.
Topic 3: Specialized Application of Public Relations.
Topic 4: International Public Relations.

J 387M. Media Images: Theory and Methodology.
Explores theoretical and methodological approaches to the study of images in media. Examines the biology and psychology of vision and how images "work" in media. Explores contemporary research on images in news, visual persuasion, political campaigns and criminal investigation. Methods for the study of media images, include content analysis, multi-modal discourse analysis, semiotics and effects experiments. Three lecture hours a week for one semester. Journalism 387M and 395 (Topic: Media Images: Theory & Methodology) may not both be counted. Prerequisite: Graduate standing.
J 387P. Cultural Survey of Photography.
Examine the development of photography focused on reportage, documentary, and social issue art photography, including historical processes, the evolution of stylistic trends, and critical issues in the field. Explore the Harry Ransom Center and other University of Texas photographic archives. Three lecture hours a week for one semester. Journalism 387P and 395 (Topic: History of Photography) may not both be counted. Prerequisite: Graduate standing.

J 387S. Photographic Storytelling and Social Justice.
Explore the production of images related to social justice issues. Three lecture hours and one and a half lab hours a week for one semester. Prerequisite: Graduate standing.

Research project chosen from area of student’s major interests; written report required. Independent study. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 1: Photjournalism. Additional prerequisite: Journalism 380M.

J 389E. Professional Experience in Journalism Internship.
Supervised internship experience in a professional journalism setting. At least ten hours of fieldwork a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

J 390. Seminar in Journalism History.
Research projects in the history of communication media; examination of the social, economic, and political relationships of the media within historical environments. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

J 390E. Photography in a Cross Cultural Context.
Examine tools and critical ideas that will enhance camera-led reporting and research in cross cultural contexts. Explore the development of a critical toolkit for visual documentation, evidence, and storytelling, as well as multi-modal ethnography. Practice photography and approaches to the ethics of visual representation and the critical frames for reflecting on and writing about one’s work. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

J 390P. Advanced Documentary Project.
Advanced exploration of documentary storytelling skills, with an emphasis on the skills required for the master’s report. Three lecture hours and four laboratory hours a week for one semester. Prerequisite: Graduate standing and Journalism 380M.

J 392. Seminar in Media Law.
Research in selected areas of social and legal responsibilities of the media. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 1: Constitutional Issues in Media Law.
Topic 2: Studies in Regulation of the Mass Media.

J 393S. Technology and Culture.
Analyze social and cultural issues related to communications technology systems. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

J 395. Topics in Journalism.
Contemporary social, professional, and intellectual concerns with the practice of journalism. Three lecture hours a week for one semester, or as required by the topic. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

Topic 2: Advanced Photo Editing and Design. Advanced training in photo editing and publication design. Taught abroad; location may vary by semester. Only one of the following may be counted: Journalism 370K (Topic 1: Advanced Photo Editing and Design), 370K (Topic: Advanced Photojournalism in Czechoslovakia), 395 (Topic 2).

Topic 4: Documentary Tradition of Latin America. Same as Latin American Studies 381 (Topic 22). Study of still photographic and video documentary work by Latin Americans about Latin America. Production of photographic essays on Latin American culture. Three lecture hours and four laboratory hours a week for one semester. Journalism 395 (Topic 4) and Latin American Studies 381 (Topic 22) may not both be counted.

Topic 9: International Reporting. Designed to provide students with skills in foreign reporting and an understanding of international news production processes, with special emphasis on Latin America.

Topic 10: Multimedia Journalism. Review of online reporting techniques, advanced multimedia skills, and current issues in new media. Three lecture hours and three laboratory hours a week for one semester.

Topic 11: Advanced Writing and Public Affairs Reporting. Three lecture hours and three laboratory hours a week for one semester.

Topic 12: Advanced Social Science Methods.
Topic 13: Framing Public Issues.
Topic 14: Qualitative Communication Theory.
Topic 16: Proseminar in Journalism. Introduces doctoral students to major areas of research and selected researchers in journalism. Designed to help students cultivate scholarly skills, ethical norms, awareness of funding possibilities, and teaching skills.

Topic 17: Reporting Asia: A Foreign Correspondent’s Framework. Dynamic ways of looking at, thinking about, and reporting the world. Establishment of a framework for analyzing how the news media cover key events, issues, and processes that shape our lives in a global society. Only one of the following may be counted: Journalism 340G, 349T (Topic 17: Reporting Asia), 395 (Topic 17: Reporting Asia).

Topic 21: Historical Perspectives in Journalism. Examines the development of the mass media through social, economic, and political factors that have contributed to changes in the press. Journalism 395 (Topic: Historical Perspectives in Journalism) and 395 (Topic 21) may not both be counted.

Topic 23: Ethics in Journalism.
Topic 24: Media Law. Examination of legal rights and restrictions for online and print journalism, including Constitutional guarantees, libel, invasion of privacy, and contempt of court. Only one of the following may be counted: Journalism 395 (Topic: Media Law), 395 (Topic: Media Law and Freedom of Expression), 395 (Topic 24).

Topic 25: Business and Financial Reporting. Conceptualizing, sourcing, and preparing news reports on global financial markets, commercial transactions, and company performance. Subject matter is global; the United States is a subset of material covered. Hands-on course during which students produce multiple news packages for publication.

Topic 26: Covering Politics. Specialized research, reporting, and writing skills to cover issues, candidates, and campaigns. Journalism 395 (Topic 26) and 395 (Topic: Politics and the Press) may not both be counted.

Topic 27: Entrepreneurial Journalism. For-profit and nonprofit journalistic enterprises in the news media ecosystem. Impact of digital technology on the news industry, with emphasis on changes to business and distribution models, and ways people consume and produce news and information. Emphasis on projects and prototypes that include business plans and content planning.
Topic 28: Computer-Assisted Reporting. Study of computer-assisted journalism, including electronic document retrieval and manipulation, spreadsheet and database management, and Internet skills. Collaborative work on major investigative projects.

Topic 29: Oral History as Journalism. Modules include concepts and methods of gathering oral history; illustration of the techniques using the Vietnam War as a topic; and generating oral history-based coverage focusing on the Mexican American experience.

Topic 30: Investigative Reporting. Emphasis on determining what an investigative story is, finding investigative stories, and basic tactics in pursuing those stories. Three lecture hours and three laboratory hours a week for one semester.

Topic 31: Creative Nonfiction for Magazines and Books. Reporting and writing skills for producing narrative nonfiction, including writing book proposals, magazine pitches, and sample chapters. Journalism 395 (Topic: Narrative Storytelling) and 395 (Topic 31) may not both be counted.

Topic 33: Explanatory Journalism: Storytelling in a Digital Age. Examination of the evolution of long-form explanatory storytelling from print and film to new forms of Web-based and interactive storytelling. Three lecture hours and two laboratory hours a week for one semester. Journalism 395 (Topic: Storytelling in a Digital Age) and 395 (Topic 33) may not both be counted.

Topic 34: Advanced Visual Journalism: Photo. Explores intensive photographic reportage and documentation using the camera as a tool of investigation and interaction. Emphasis on creation of photo stories, photo essays, and feature stories, with editing and page layout. Three lecture hours and three laboratory hours a week for one semester.

Topic 35: Producing Social Documentaries for Television News. Instruction in the production of social documentaries for television, with emphasis on social issues often ignored by television news. Includes production of a twenty-minute long-form story. Three lecture hours and three laboratory hours a week for one semester. Additional prerequisite: Consent of instructor.

Topic 36: Opinion Writing. Examines opinion writing and commentary in traditional print and evolving online formats.

Topic 37: Reporting Latin America. Foreign reporting skills and international news production processes, with special emphasis on Latin America.

Topic 38: Reporting the Latino Community in the United States. An investigation of the fundamentals of reporting on the Latino community. Topics include a history of ethnic groups in the United States and their politics, education, organizations, immigration, culture, power, and media. Students will apply what they learn to other underrepresented people in the United States.

Topic 40: Reporting China: A Foreign Correspondent's Workshop. Examination of dynamic ways of looking at, thinking about, and reporting the world, both abroad and at home. Establishes a framework for analyzing how the news media cover key events, issues, and processes that shape our lives in a global society. Journalism 395 (Topic: Reporting the World) and 395 (Topic 40) may not both be counted.

Topic 41: Reporting the World: A Critical Examination of the United States News Media. Examination of dynamic ways of looking at, thinking about, and reporting the world, both abroad and at home. Establishes a framework for analyzing how the news media cover key events, issues, and processes that shape our lives in a global society. Journalism 395 (Topic: Reporting the World) and 395 (Topic 40) may not both be counted.

Topic 42: Human Rights Journalism. Exploration of the role of journalists in exposing human rights abuses. Modules include case studies from El Salvador, South Africa, Zimbabwe, Rwanda, Bosnia, Sudan, Israel, and Russia, as well as the legal and moral obligations of journalists as witnesses to atrocities and genocide. Examination of the Bush Administration’s global War on Terror and the legacy confronting the Obama Presidency.

Topic 43: Minorities and the Media. Issues concerning minority or nondominant groups in the United States. Survey of minority communication problems, including alienation, fragmentation, and media and Internet access. Criticism and feedback for minority groups based on racial/ethnic background, age, sex, disability, social or economic class, and sexual orientation.

Topic 44: Reporting Texas. Students work as online reporters, photographers, and editors for the School of Journalism's Reporting Texas Web site.

Topic 45: Gender and the News. Explores how gender relates to news, both historically and currently, and the role of the news media in reinforcing and/or challenging prevailing stereotypes and attitudes about gender. Focuses on women both as producers of journalism and as subjects of media portrayals. Journalism 395 (Topic: Gender and the News) and 395 (Topic 45) may not both be counted.

Topic 46: Living in the Information Age. Examines communication and information technologies, and how individuals, media organizations and corporations employ the Internet for their benefit. Explores how the communication and information technologies evolve and the cultural, economic, political, and social implications of such technologies for society. Journalism 395 (Topic: Living in the Information Age) and 395 (Topic 46) may not both be counted.

Topic 47:Covering the Global Economy. Examination of dynamic ways of looking at, thinking about, and reporting the world, both abroad and at home. Establishes a framework for analyzing how the news media cover key events, issues, and processes that shape our lives in a global society. Journalism 395 (Topic: Covering the Global Economy) and 395 (Topic 46) may not both be counted.

Topic 48: Mobile News Application Design. Students will work toward building an iPhone application in one semester, with the goal of having an application accepted in the Apple App Store. Journalism 395 (Topic: Mobile News Application Design) and 395 (Topic 48) may not both be counted. Additional prerequisite: Consent of instructor.

Topic 49: Media and Politics. Examines communication and information technologies, and how individuals, media organizations and corporations employ the Internet for their benefit. Explores how the communication and information technologies evolve and the cultural, economic, political, and social implications of such technologies for society. Journalism 395 (Topic: Living in the Information Age) and 395 (Topic 46) may not both be counted.

Topic 50: News for a Mobile Audience. Examines the mobile world and how journalism and the news audience fit in it. Journalism 395 (Topic: News for a Mobile Audience) and 395 (Topic 50) may not both be counted.

Topic 51: Quantitative Research Practicum. Contemporary social, professional, and intellectual concerns with the practice of journalism. Journalism 395 (Topic: Quantitative Research Practicum) and 395 (Topic 51) may not both be counted.

Topic 52: Reporting on the Environment. Journalism 395 (Topic: Reporting on the Environment) and 395 (Topic 52) may not both be counted.

Topic 53: Studio Photography. An investigation of the fundamentals of photography using principles of studio lighting, theory and practice of contemporary color, location lighting, and production of portfolio-quality work, as applicable to advertising, photographic illustration, and photojournalism. Three lecture hours a week for one semester, with additional hours to be arranged. Journalism 395 (Topic: Studio Photography) and 395 (Topic 53) may not both be counted.

Topic 54: Web Design for Journalists. Journalism 395 (Topic: Web Design for Journalism) and 395 (Topic 54) may not both be counted.

Topic 55: Economics of New Media. Subjects include the structure, behavior, and performance of media operations; audience behaviors and preferences; competition; and social implications. Journalism 395 (Topic: Economics of New Media) and 395 (Topic 55) may not both be counted.

Topic 56: Covering the Global Economy. Journalism 395 (Topic: Covering the Global Economy) and 395 (Topic 56) may not both be counted.

Topic 57: Journalism and Religion. Explores some of the world’s belief systems, including Judaism, Christianity, Islam, Bahá’í, Hinduism, Buddhism, and atheism. Journalism 395 (Topic: Journalism and Religion) and 395 (Topic 57) may not both be counted.

Topic 58: Media Management. Examines how and why media leaders behave and operate by assessing current and past research, theories, and practice to arrive at a better view of what it is like to direct and manage a media organization. Students will investigate issues such as market orientation, diversity, group culture, competition, ownership,
structure, ethics, and leadership from a media organizational standpoint. Journalism 395 (Topic: Media Management) and 395 (Topic 58) may not both be counted.

**Topic 59: Long-form Feature Writing.** Explores long-form journalism for print, online, and books. Students will study the use of narrative, immersion, profile/biography, plots, back stories, and voice. Journalism 395 (Topic: Long-form Feature Writing) and 395 (Topic 59) may not both be counted.

**Topic 60: Media, Culture, and Civic Engagement.** Journalism 395 (Topic: Media, Culture, and Civic Engagement) and 395 (Topic 60) may not both be counted.

**Topic 61: Sports for Reporting Texas.** Designed to serve reportingtexas.com, the School of Journalism’s open-content news Web site. Students will produce original and high-quality journalism for and about Central Texas. Journalism 395 (Topic: Sports for Reporting Texas) and 395 (Topic 61) may not both be counted.

**Topic 62: Reporting with Data.** Examines basics of computer-assisted reporting. Explore how to find compelling data sets; clean and analyze the contents; use data visualization and simple statistical models to accurately report based on the data; and present results through stories, charts, and maps. Only one of the following may be counted: Journalism 395 (Topic: Data Visualization), 395 (Topic 45), or 395 (Topic 62).

**Topic 63: Oral History in Multimedia Storytelling.** Instruction in the use of oral history to generate long-term archival material and short-term multimedia stories. Covers concepts and methods of gathering oral history; a topic (varies by semester) centering on U.S. Latinos; and ways to build a multimedia representation of the interview.

**Topic 64: Online Incivility.** Explores online incivility - defined as nasty remarks intended to hurt that often contain profanity, capital letters to indicate yelling, and put-downs or name-calling - in news story comments and social media. Critically assess the impact of incivility on public discussions online and how that influences journalists and other media practitioners. Journalism 395 (Topic: Online Incivility) and 395 (Topic 64) may not both be counted.

**Topic 65: Introduction to Coding for Journalists.** Explore basic coding skills and develop best practices used in digital newsrooms to create data-driven online presentations. Journalism 395 (Topic: Introduction to Coding for Journalists) and 395 (Topic 65) may not be counted.

**Topic 66: Media Innovation and Entrepreneurship.** Learn how the digital revolution has disrupted the media industry, creating opportunities for entrepreneurial, innovative initiatives. Study cases of successful media startups, and develop a startup project, using digital technologies and human-centered design. Journalism 395 (Topic: Entrepreneurial Journalism) and 395 (Topic 66) may not both be counted.

**Topic 67: Digital Production and Analytics.** Examine the digital publishing process, including planning, production, tracking, and marketing. Three lecture hours a week for one semester.

**Topic 68: Social Capital and Social Networks.** Explore theories, methods, and applications, drawing on literatures from sociology, communication, media studies, and management. Examine the relational and structural embeddedness of actors, communities, and organizations, and focus on how to collect network data and do network analysis. Only one of the following may be counted: Radio-Television-Film 380G (Topic: Social Capital and Social Networks), 380G (Topic 2), Sociology 396P (Topic: Social Capital and Social Networks), 396P (Topic 18), Journalism 395 (Topic 68).

**Topic 69: Advanced Reporting with Data.** Explore advanced data-assisted reporting techniques through use of databases, scripted analysis, and visualizations. Additional prerequisite: Journalism 395 (Topic 62).

**Topic 70: Globalization and Social Media.** Perform a critical analysis of the causes, patterns, and consequences of social media production and usage in a global context. Examine cases from diverse cultures and nations, and engage with major debates on the role of communication and media technologies in network society, globalization, and transnationalism. Investigate how social media and other new technologies have facilitated changes in politics, organizations, and networks, as well as media and culture. Only one of the following may count: Journalism 395 (Topic 70), Radio-Television-Film 393P, or Sociology 395D.

**Topic 71: Social Media Research Methods.** Using a selection of empirical case studies from the social media literature, consider the historical formation of social media and the lines that can be drawn to contemporary consequences, particularly the blurring of public and private lives, shifts in power relations, and the spread of rumors and urban myths that is seen today. Explore basic social network analysis and relevant statistical methods. Journalism 395 (Topic: Social Media Rsrch Methods) and 395 (Topic 71) may not both be counted.

**Topic 72: Social Media Journalism.** Explore the role of journalism in using social media to engage a wide audience, building a marketable brand for journalists and media organizations, and engaging an audience with the news media. Practice using tools and techniques to be an engaging and effective media practitioner. Journalism 395 (Topic: Social Media Journalism) and 395 (Topic 72) may not both be counted.

**Topic 73: Photography for Reporting Texas.** Work as photographers for the School of Journalism and Media's Reporting Texas website. Journalism 395 (Topic: Phtgrphy for Reporting Texas) and 395 (Topic 73) may not both be counted.

**Topic 74: Lifestyle Journalism.** Examine specialized reporting and writing in lifestyle coverage, including food, fashion, entertainment, and travel. Journalism 395 (Topic: Lifestyle Journalism) and 395 (Topic 74) may not both be counted.

**Topic 75: Domestic Issues and Global Perspective.** Examine domestic issues, such as consumerism, food and health, environmentalism, and energy consumption, from global and intercultural perspectives. Journalism 395 (Topic: Domestic Iss & Glbl Perspctvs) and 395 (Topic 75) may not both be counted.

**Topic 76: Social Media and Society.** Only one of the following may be counted: Radio-Television-Film 386C (Topic: Social Media & Society), Journalism 395 (Topic: Social Media and Society), 395 (Topic 76).

**J 698. Thesis.**

The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in journalism and consent of the graduate adviser; for 698B, Journalism 698A.

**J 398R. Master’s Report.**

Preparation of a report to fulfill the requirement for the master’s degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in journalism and consent of the graduate adviser.

**J 398T. Supervised Teaching in Journalism.**

Teaching under the close supervision of the course instructor; weekly group meetings with the instructor, individual consultations, and reports required throughout the teaching period. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing, appointment as a teaching assistant, and consent of the graduate adviser.

**J 399W, 699W, 999W. Dissertation.**

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

**Professional Courses**
J S - Jewish Studies

Jewish Studies: J S

Lower-Division Courses

J S 301. Introduction to Jewish Studies.
Same as Anthropology 311D, Middle Eastern Studies 310 (Topic 8), and Religious Studies 313D. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 310L (Topic: Jewish Studies: An Introduction), 311D, Jewish Studies 301, 311 (Topic: Jewish Studies: An Introduction), Middle Eastern Studies 310 (Topic: Jewish Studies: An Introduction), 310 (Topic 8), Religious Studies 313 (Topic: Jewish Studies: An Introduction), 313D.

J S 304M. Jewish Civilization: Beginnings to 1492.
Same as History 306N (Topic 10), Middle Eastern Studies 310 (Topic 6), and Religious Studies 313M. Introduction to the history, culture, and religion of the Jewish people from around 1000 BC to the end of the medieval period. Subjects may include ancient Israel, late Second Temple sectarianism, the rise of Christianity, rabbinic Judaism, medieval Jewish philosophy, Jewish mysticism, and Hebrew poetry. Three lecture hours a week for one semester. Only one of the following may be counted: History 306N (Topic: Jewish Civilization I), 306N (Topic 10), Jewish Studies 304M, 311 (Topic: Jewish Civilization I), Middle Eastern Studies 310 (Topic: Jewish Civilization: Beginnings to 1492), 310 (Topic 6), Religious Studies 313 (Topic: Jewish Civilization I), 313M.

J S 304N. Jewish Civilization: 1492 to the Present.
Same as European Studies 306 (Topic 4), History 306N (Topic 11), and Religious Studies 313N. Subjects may include trends toward secularization, the emancipation of European Jewry, the emergence of American Jewry, the Holocaust, the establishment of the State of Israel, and the Arab-Israeli conflict. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 306 (Topic: Jewish Civilization: 1492 to the Present), 306 (Topic 4), History 306N (Topic 11), Jewish Studies 304N, 311 (Topic: Jewish Civilization: 1492 to the Present), Religious Studies 313 (Topic: Jewish Civilization: 1492 to the Present), 313N.

J S 305D. Introduction to Jewish Latin America.
Same as Anthropology 311E, Latin American Studies 315 (Topic 3), and Religious Studies 313E. Historical and cultural analysis of how Jews constructed lives and communities in predominantly Hispanic, Catholic countries of Latin America. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 310L (Topic: Introduction to Jewish Latin America), 311E, Jewish Studies 311 (Topic: Introduction to Jewish Latin America), 305D, Latin American Studies 310 (Topic: Intro to Jewish Latin America), 315 (Topic: Intro to Jewish Latin America), 315 (Topic 3), Religious Studies 313 (Topic: Introduction to Jewish Latin America), 313E.

Same as Classical Civilization 318 and Religious Studies 318. Introduction to the origins and development of Christianity. Three lecture hours a week for one semester. Only one of the following may be counted: Classical Civilization 318, Jewish Studies 306E, 311 (Topic: The Rise of Christianity), 311 (Topic 3), Religious Studies 318.

Same as Government 307 and History 307Q. Examine interdisciplinary perspectives (including historical, political, socio-psychological, and cultural methods and insights) on genocide as a global phenomenon. Three lecture hours a week for one semester. Only one of the following may be counted: Government 307, History 307Q, Jewish Studies 307.

J S 310R. Introduction to Middle East Religions.
Same as Middle Eastern Studies 310R and Religious Studies 310R. Introduction to the religious landscape of the Middle East including the various expressions of Eastern Christianity, Islam, and Judaism as well as Zoroastranism. Three lecture hours a week for one semester. Only one of the following may be counted: Islamic Studies 310R, Jewish Studies 310R, Middle Eastern Studies 310R, Religious Studies 310R.

J S 311. Topics in Jewish Studies.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

  Topic 2: Judaism, Christianity, and Islam: An Introduction. Same as History 304R, Middle Eastern Studies 311C, and Religious Studies 304. Examines the intertwined historical developments of the religions of Judaism, Christianity, and Islam, and explores the principal beliefs and practices of Jews, Christians, and Muslims. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 304 (Topic: Judaism, Christianity, Islam), History 304R, Islamic Studies 311 (Topic 2), Jewish Studies 311 (Topic 2), Middle Eastern Studies 311C, Religious Studies 304.

  Topic 4: Introduction to the Old Testament. Same as Core Texts and Ideas 305G, Middle Eastern Studies 310C, and Religious Studies 313C. Introduction to the many interpretations of the Hebrew Bible (the Old Testament) and its meaning in the context of its historical and cultural setting in the ancient Near East. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 305G, Jewish Studies 311 (Topic 4), Middle Eastern Studies 310 (Topic 3), 310C, Religious Studies 313C.

  Topic 7: The History of Israel. Same as History 311J and Middle Eastern Studies 311. An introduction to the history of Israel, from the emergence of the modern Zionist movement beginning in 1881 to the present. Three lecture hours a week for one semester. Only one of the following may be counted: History 306N (Topic: History of Israel), 311J, Jewish Studies 311 (Topic: History of Israel), 311 (Topic 7), Middle Eastern Studies 310 (Topic: History of Israel), 311.

  Topic 9: American Jews: The Yiddish Experience. Same as American Studies 315 (Topic 6), German, Scandinavian, and Dutch Studies 310 (Topic 1), and Religious Studies 316E. Focuses on over a century of Yiddish-based contributions to American literature, music, and film, including works by Isaac Bashevis Singer, Michael Chabon, Woody Allen, and the Marx Brothers. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 315 (Topic 4), 315 (Topic 6); German, Scandinavian, and Dutch Studies 310 (Topic 1); Jewish Studies 311 (Topic 6), 311 (Topic 9); Religious Studies 313 (Topic 1), 316K (Topic 2), 316E.

J S 311E. Comparative Religious Ethics.
Same as Religious Studies 306C. Three lecture hours a week for one semester. Only one of the following may be counted: Jewish Studies
311 (Topic: Comparative Religious Ethics), 311E, Religious Studies 306 (Topic: Comparative Religious Ethics), 306C.

**J S 314C. Jewish American Literature and Culture.**
Same as American Studies 310C and English 314V (Topic 7). Examine Jewish American literature in its cultural contexts with an emphasis on skills and methods. Explore texts, drawn from a variety of genres and periods, that indicate the range of Jewish American experiences and how those experiences are influenced by issues such as citizenship, class, ethnicity, gender, and sexuality. Only one of the following may be counted: American Studies 310C, English 314V (Topic: Jewish American Lit and Cul), 314V (Topic 7), Jewish Studies 314C. Prerequisite: One of the following: English 303C, Rhetoric and Writing 306, 306Q, 309J (or 309K), or Tutorial Course 303C.

**J S 317. American Jewish History.**
Same as American Studies 315Q and History 317L (Topic 21). Examine the history of Jews in the United States from the seventeenth century to the present. Explore the formation of a distinct American Judaism and the involvement of Jews in American cultural and political affairs. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 315Q, History 317L (Topic: American Jewish History), 317L (Topic 21), Jewish Studies 311 (Topic: American Jewish History), 317.

**Upper-Division Courses**

**J S 362. Independent Research in Jewish Studies.**
Tutorially directed research in Jewish studies. Conference course. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

**J S 363. Topics in the Humanities and Arts.**
Three lecture hours a week for one semester; additional hours may be required for some topics. Jewish Studies 361 and 363 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 7: Love and the State in Contemporary Israeli Literature.**
Same as Middle Eastern Languages and Cultures 321 (Topic 6) and Middle Eastern Studies 342 (Topic 6). Only one of the following may be counted: Comparative Literature 323 (Topic: Love and State in Contemporary Israeli Literature), English 322 (Topic: Love and State in Contemporary Israeli Literature), Jewish Studies 363 (Topic 7), Middle Eastern Languages and Cultures 321 (Topic 6), Middle Eastern Studies 342 (Topic 6), Women’s and Gender Studies 340 (Topic: Love and State in Contemporary Israeli Literature). Additional prerequisite: Upper-division standing.

**Topic 8: Mizrahi Writing in Israel.**
Same as Hebrew 346 (Topic 9) and Middle Eastern Studies 342 (Topic 9). Only one of the following may be counted: Hebrew 346 (Topic 9), Jewish Studies 363 (Topic 8), Middle Eastern Studies 342 (Topic 9). Additional prerequisite: Upper-division standing, and Hebrew 412L (or 312L) or 320L with a grade of at least C.

**Topic 10: The Sacred and the Secular in Contemporary Jewish Literature.**
Same as Middle Eastern Languages and Cultures 321 (Topic 8), Middle Eastern Studies 342 (Topic 8), and Religious Studies 353L. Three lecture hours a week for one semester. Only one of the following may be counted: Jewish Studies 363 (Topic 10), Middle Eastern Languages and Cultures 321 (Topic 8), Middle Eastern Studies 342 (Topic 8), Religious Studies 353 (Topic 3), 353L. Additional prerequisite: Upper-division standing.

**Topic 11: Women and the Holocaust.**
Same as Comparative Literature 323 (Topic 19), European Studies 346 (Topic 10), German, Scandinavian, and Dutch Studies 341F, and Women’s and Gender Studies 340 (Topic 50). Introduction to both the history of Jewish and German women during World War II and the Holocaust, and to women’s narratives and self-representations of this period. Historical sources, memoirs, films, and interviews will be used as source material. Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 323 (Topic: Women’s Narratives of the Holocaust and World War II), 323 (Topic 19), European Studies 346 (Topic: Women’s Narratives of the Holocaust and World War II), 346 (Topic 10), German, Scandinavian, and Dutch Studies 341F, Germanic Civilization 323E (Topic: Women’s Narratives of the Holocaust and World War II), Jewish Studies 363 (Topic 11), Women’s and Gender Studies 340 (Topic: Women’s Narratives of the Holocaust and World War II), 340 (Topic 50). Additional prerequisite: Upper-division standing.

**Topic 17: Israel Through Its Literature.**
Same as Comparative Literature 323 (Topic 15), Middle Eastern Languages and Cultures 321 (Topic 5), and Middle Eastern Studies 342 (Topic 5). Only one of the following may be counted: Comparative Literature 323 (Topic: Introduction to Israeli Literature), Comparative Literature 323 (Topic 15), English 322 (Topic: Introduction to Israeli Literature), Jewish Studies 363 (Topic 17), Middle Eastern Languages and Cultures 321 (Topic 5), Middle Eastern Studies 342 (Topic 5). Additional prerequisite: Upper-division standing.

**Topic 18: Jerusalem in Israeli Literature.**
Same as Hebrew 346 (Topic 8: Jerusalem in Israeli Literature). Additional prerequisite: Upper-division standing and Hebrew 412L.

**Topic 19: Postmodernist Israeli Literature.**
Same as Middle Eastern Languages and Cultures 321 (Topic 7) and Middle Eastern Studies 342 (Topic 7). Study of the first decades of Israeli literature. Themes include the establishment of a new state in the aftermath of the Holocaust, conflict between Israel and Arab nations, and conflict between Israelis and Palestinians. Only one of the following may be counted: Comparative Literature 323 (Topic: Postmodernist Israeli Literature), English 322 (Topic: Postmodernist Israeli Literature), Jewish Studies 363 (Topic 19), Middle Eastern Languages and Cultures 321 (Topic 7), 342 (Topic 7). Additional prerequisite: Upper-division standing.

**Topic 21: Introduction to the Music of the Middle East.**
Same as Music 342 (Topic 7). Only one of the following may be counted: Islamic Studies 373 (Topic: Introduction to Music of the Middle East), Jewish Studies 363 (Topic: Introduction to Music of the Middle East), 363 (Topic 21), Middle Eastern Languages and Cultures 321 (Topic: Introduction to Music of the Middle East), Middle Eastern Studies 328 (Topic: Introduction to Music of the Middle East), 342 (Topic: Introduction to Music of the Middle East), Music 342 (Topic: Introduction to Music of the Middle East), 342 (Topic 7). Additional prerequisite: Upper-division standing.

**Topic 22: Comparative Jewish Literature: Israel, France, and the United States.**
Same as Middle Eastern Languages and Cultures 321 (Topic 38) and Middle Eastern Studies 342 (Topic 38). Only one of the following may be counted: Jewish Studies 363 (Topic 22), Middle Eastern Languages and Cultures 321 (Topic 38), Middle Eastern Studies 342 (Topic 38). Additional prerequisite: Upper-division standing.

**Topic 23: Israel and Palestine: A Cultural Perspective.**
Same as Comparative Literature 323 (Topic 64), Middle Eastern Languages and Cultures 321 (Topic 40), and Middle Eastern Studies 342 (Topic 56). Only one of the following may be counted: Comparative Literature 323 (Topic: Israel/Palestine: Cultur Persp), 323 (Topic 64), Jewish Studies 363 (Topic: Israel/Palestine: Cultur Persp), 363 (Topic 23), Middle Eastern Languages and Cultures 321 (Topic: Israel/Palestine: Cultur Persp), 321 (Topic 40), Middle Eastern Studies 342 (Topic: Israel/ Palestine: Cultur Persp), 342 (Topic 56). Additional prerequisite: Upper-division standing.

**Topic 24: Divine Persuasion in Biblical Times and Place.**
Same as Middle Eastern Studies 342 (Topic 57) and Rhetoric and Writing 330E (Topic 13). Explore the use of persuasive strategies in an ancient
and non-Western culture, that of the Hebrew Bible. Using rhetorical techniques, analyze three types of texts: narratives of interactions between ordinary people and God; interactions between people, God, and authorized prophets; and prayers in prose and poetry. Three lecture hours a week for one semester. Only one of the following may be counted: Jewish Studies 363 (Topic: Persuasion Bible Time/Place), 363 (Topic 24), Middle Eastern Studies 342 (Topic: Persuasion Bible Time/Place), 342 (Topic 57), Rhetoric and Writing 330E (Topic: Persuasion Bible Time/Place), 330E (Topic 13). Additional prerequisite: Upper-division standing and one of the following: English 303C, Rhetoric and Writing 306, 306Q, or Tutorial Course 303C.

**Topic 25: Jewish Folklore.** Same as Anthropology 325T, German, Scandinavian, and Dutch Studies 361W, and Religious Studies 357P. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 325L (Topic: Jewish Folklore), 325T, German, Scandinavian, and Dutch Studies 360 (Topic: Jewish Folklore), 361W, Jewish Studies 363 (Topic: Jewish Folklore), 363 (Topic 25), Religious Studies 357 (Topic: Jewish Folklore), 357P. Additional prerequisite: Upper-division standing.

**Topic 26: Debating Genesis.** Same as Middle Eastern Languages and Cultures 321D, Middle Eastern Studies 342 (Topic 65), and Religious Studies 353M. Three lecture hours a week for one semester. Only one of the following may be counted: Jewish Studies 363 (Topic: Debating Genesis), 363 (Topic 26), Middle Eastern Languages and Cultures 321 (Topic: Debating Genesis), 321D, Middle Eastern Studies 342 (Topic: Debating Genesis), 342 (Topic 65), Religious Studies 353 (Topic: Debating Genesis), 353M. Additional prerequisite: Upper-division standing.

**Topic 27: Jewish Identities In the Americas.** Examine the work of Jewish creative intellectuals from the United States, Latin America, and Canada from a comparative perspective. Three lecture hours a week for one semester. Only one of the following may be counted: Jewish Studies 363 (Topic: Jewish Identities: Americas), 363 (Topic 27), Liberal Arts Honors 350 (Topic: Jewish Identities: Americas), 351T. Additional prerequisite: Upper-division standing.

**Topic 30: Law and Justice in the Bible.** Same as Core Texts and Ideas 354L, Middle Eastern Studies 342 (Topic 66), and Religious Studies 353K. Examine the legal traditions of the Torah (Pentateuch) and what they reveal about the practice of law and justice in ancient Israel and the wider biblical world. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 354L, Jewish Studies 363 (Topic 30), Middle Eastern Studies 342 (Topic: Law/Justice in the Bible), 342 (Topic 66), Religious Studies 353 (Topic: Law/Justice in the Bible), 353K. Additional prerequisite: Upper-division standing.

**Topic 31: Jewish Stereotypes in American Literature and Culture.** Same as American Studies 331C and English 323J. Examine stereotypes that have come to define Jewishness in American culture by focusing both on the antisemitic tropes perpetuated by non-Jewish representations of ‘the Jew’ in literary classics and on the archetypes employed as coping mechanisms in cultural representations created by Jews themselves. Analyze how stereotypes become enmeshed in cultural consciousness and investigate ways in which representations of ethnic, religious, and racial minorities are governed by these kinds of one-dimensional archetypes. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 331C, English 323D (Topic: Jewish Stereotypes Lit/Cul), 323J, Jewish Studies 363 (Topic 31). Additional prerequisite: Upper-division standing.

**Topic 32: Childrearing in Israel.** Same as Middle Eastern Studies 342 (Topic 76). Examine the coalescence of educational theories and national aspirations in the process of shaping child-rearing practices within the Jewish population of Palestine under the Ottoman Empire and the British Mandate and into the first two decades of the State of Israel. Only one of the following may be counted: Jewish Studies 363 (Topic 32), Middle Eastern Studies 342 (Topic: Childrearing in Israel), Middle Eastern Studies 342 (Topic 76). Additional prerequisite: Upper-division standing.

**Topic 33: Jews of the United States, Canada, and Latin America.** Same as American Studies 320C, Latin American Studies 328 (Topic 12), and Spanish Civilization 320C (Topic 6). Explore the cultural history of Jews in the United States, Latin America, and Canada through a representative sample of short literary texts, film clips, and musical recordings. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 320C, Jewish Studies 363 (Topic 33), Latin American Studies 328 (Topic 12), Spanish Civilization 320C (Topic 6). Additional prerequisite: Upper-division standing.

**J S 363D. Abraham and Abrahamic Religions.**

Same as Core Texts and Ideas 354, Middle Eastern Studies 342 (Topic 52), and Religious Studies 353G. Examines the figure of Abraham as portrayed in the Bible and the reception of that portrayal in Judaism, Christianity, and Islam. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 354, 375 (Topic: Abraham & Abrahamic Religions), Jewish Studies 363 (Topic: Abraham & Abrahamic Religions), 363D, Middle Eastern Studies 342 (Topic: Abraham & Abrahamic Religions), 342 (Topic 52), Religious Studies 353 (Topic: Abraham & Abrahamic Religions), 353G. Prerequisite: Upper-division standing.

**J S 363E. Jewish Voices from Latin America.**

Same as Latin American Studies 370S (Topic 32) and Spanish 355D. Overview of popular Jewish writers from Brazil and Spanish America, with special emphasis on those who portray in their work the situation of the Jewish communities of their respective cities and countries. Conducted in Spanish. Three lecture hours a week for one semester. Only one of the following may be counted: Jewish Studies 363 (Topic 15), 363E, Latin American Studies 328 (Topic 4), 370S (Topic 32), Spanish 355 (Topic 3), 355D, Spanish Civilization 320C (Topic 1). Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

**J S 364. Topics in History.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 1: Anti-Semitism in History and Literature.** Same as Comparative Literature 323 (Topic 42), European Studies 346 (Topic 29), and German, Scandinavian, and Dutch Studies 361L. Three lecture hours a week for one semester. Only one of the following may be
counted: European Studies 346 (Topic: Anti-Semitism in History and Literature), 346 (Topic 29), Comparative Literature 323 (Topic: Anti-Semitism in History and Literature), 323 (Topic 42), German, Scandinavian, and Dutch Studies 360 (Topic: Anti-Semitism in History and Literature), 361L, Jewish Studies 361 (Topic: Anti-Semitism in History and Literature), 364 (Topic 1). Additional prerequisite: Upper-division standing.

**Topic 3: The Bible and History.** Same as Religious Studies 354D. The critical uses of biblical and extrabiblical data in the reconstruction of the history of the biblical period. Three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 330 (Topic: The Bible and History), Jewish Studies 364 (Topic 3), Religious Studies 354D. Additional prerequisite: Upper-division standing.

**Topic 4: The Dead Sea Scrolls.** Same as Ancient History and Classical Civilization 330 (Topic 1), History 364E, Middle Eastern Languages and Cultures 321 (Topic 17), Middle Eastern Studies 342 (Topic 23), and Religious Studies 353D. Three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 330 (Topic 1), History 364G (Topic 3), 364E, Jewish Studies 364 (Topic 4), Middle Eastern Languages and Cultures 321 (Topic 17), Middle Eastern Studies 342 (Topic 23), Religious Studies 353D. Additional prerequisite: Upper-division standing.

**Topic 5: The Spanish Inquisition.** Same as European Studies 346 (Topic 11), History 350L (Topic 77), and Religious Studies 357L. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 346 (Topic 11), History 350L (Topic 77), Jewish Studies 364 (Topic 5), Religious Studies 357 (Topic 10), 357L. Additional prerequisite: Upper-division standing.

**Topic 6: Introduction to the Holocaust.** Same as European Studies 346 (Topic 17), History 362D, and Russian, East European, and Eurasian Studies 335 (Topic 17). Examines the mass killing of Jews and other victims in the context of Nazi Germany’s quest for race and space during World War II. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 346 (Topic: Introduction to the Holocaust), 346 (Topic 17), History 362D, 362G (Topic: Introduction to the Holocaust), 362G (Topic 3), Jewish Studies 364 (Topic: Introduction to the Holocaust), 364 (Topic 6), Russian, East European, and Eurasian Studies 335 (Topic: Introduction to the Holocaust), 335 (Topic 17). Additional prerequisite: Upper-division standing.

**Topic 7: Jews of Eastern Europe.** Same as History 362R, Religious Studies 357E, and Russian, East European, and Eurasian Studies 335 (Topic 23). Explores the history and culture of Jews in Eastern Europe. Three lecture hours a week for one semester. Only one of the following may be counted: History 362G (Topic 8), 362R, Jewish Studies 364 (Topic 7), Russian, East European, and Eurasian Studies 335 (Topic 23), Religious Studies 357 (Topic 13), 357E. Additional prerequisite: Upper-division standing.

**Topic 8: Southeast Europe in the Twentieth Century.** Same as European Studies 346 (Topic 18), History 362S, and Russian, East European, and Eurasian Studies 335 (Topic 18). Explores the key events and developments of Southeastern Europe, the region commonly referred to as the Balkans, in the twentieth century. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 346 (Topic 18), History 362G (Topic 9), 362S, Jewish Studies 364 (Topic 8), Russian, East European, and Eurasian Studies 335 (Topic 18). Additional prerequisite: Upper-division standing.

**Topic 9: Spinoza and Modernity.** Same as Core Texts and Ideas 321F, European Studies 346 (Topic 21), History 362P, and Religious Studies 357M. Introduction to the core of Spinoza’s writings and the diverse reactions they have elicited. Examines Spinoza’s refusal of mind-body dualism, as well as a transcendent god or ideal as a way of understanding Spinoza’s concepts and ideas. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 321F; European Studies 346 (Topic 21), 347 (Topic: Spinoza and Modernity), History 362P, Jewish Studies 364 (Topic 9), Philosophy 354 (Topic 7), Religious Studies 357 (Topic 8), 357M. Additional prerequisite: Upper-division standing.

**Topic 10: The Church and the Jews.** Same as European Studies 346 (Topic 28), History 361D, and Religious Studies 357O. Examination of the complex relationship between the Western Church and Jews over two millennia. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 346 (Topic: The Church and the Jews), 346 (Topic 28), History 361D, 362G (Topic 14), Jewish Studies 364 (Topic 10), Religious Studies 357 (Topic 9), 357O. Additional prerequisite: Upper-division standing.

**Topic 11: World War II in Eastern Europe.** Same as European Studies 346 (Topic 12), History 350L (Topic 79), and Russian, East European, and Eurasian Studies 335 (Topic 19). Examines the war in Eastern Europe with a particular emphasis on occupation, collaboration, and resistance; the Holocaust; and the connection between ethnic cleansing, population transfer, and the establishment of communism in postwar Eastern Europe. Only one of the following may be counted: European Studies 346 (Topic: World War II in Eastern Europe), 346 (Topic 12), History 350L (Topic: World War II in Eastern Europe), History 350L (Topic 79), Jewish Studies 364 (Topic: World War II in Eastern Europe), 364 (Topic 11), Russian, East European, and Eurasian Studies 335 (Topic: World War II in Eastern Europe), 335 (Topic 19).

**Topic 12: Germany since Hitler.** Same as History 350L (Topic 56). Analyze the effects of Hitler’s dictatorship upon German society, politics, economy and culture. Only one of the following may be counted: Jewish Studies 364 (Topic: Germany Since Hitler), 364 (Topic 12), History 350L (Topic 56). Additional prerequisite: Upper-division standing.

**Topic 13: Origins of Monotheism.** Same as Middle Eastern Studies 343 (Topic 10) and Religious Studies 3580. Three lecture hours a week for one semester. Only one of the following may be counted: Jewish Studies 364 (Topic: Origins of Monotheism), 364 (Topic 13), Middle Eastern Studies 343 (Topic: Origins of Monotheism), 343 (Topic 10), Religious Studies 358 (Topic: Origins of Monotheism), 3580. Additional prerequisite: Upper-division standing.

**Topic 16: Jews: Nation or People?** Same as History 366D and Middle Eastern Studies 343 (Topic 16). Three lecture hours a week for one semester. Only one of the following may be counted: History 366D, 366N (Topic: Jews: Nation or People?), Jewish Studies 364 (Topic: Jews: Nation or People?), 364 (Topic 16), Middle Eastern Studies 343 (Topic: Jews: Nation or People?), 343 (Topic 16). Additional prerequisite: Upper-division standing.

Topic 18: History of Jewish Thought. Same as History 325S and Religious Studies 354J. Examine major thinkers and movements in both Jewish philosophy and Jewish mysticism since the Middle Ages, with a focus on the importance of modern Jewish thought in the twentieth and twenty-first centuries. Three lecture hours a week for one semester. Only one of the following may be counted: History 325S, Jewish Studies 364 (Topic 18), Religious Studies 354J. Additional prerequisite: Upper-division standing.

Topic 24: Arab Citizens of Israel. Same as History 331D and Middle Eastern Studies 343 (Topic 24). Examine the historical, social, and political processes of change experienced by the Palestinian-Arab community in Israel, including the fundamental aspects pertaining to the founding of Israel as "a Jewish and democratic state" and the relations between the Arab minority and the Jewish majority. Three lecture hours a week for one semester. Only one of the following may be counted: History 331D, Jewish Studies 364 (Topic 24), Middle Eastern Studies 343 (Topic: Arab Citizens of Israel), 343 (Topic 24). Additional prerequisite: Upper-division standing.

Topic 25: The Arab-Israeli Conflict. Same as History 331E and Middle Eastern Studies 343 (Topic 25). Examine the elements of the Arab-Israeli conflict, including the main figures involved, events, and turning-points in its history. Three lecture hours a week for one semester. Only one of the following may be counted: History 331E, Jewish Studies 364 (Topic: Arab-Israeli Conflict), 364 (Topic 25), Middle Eastern Studies 343 (Topic: Arab-Israeli Conflict), 343 (Topic 25). Additional prerequisite: Upper-division standing.

J S 365. Topics in the Social Sciences.

Three lecture hours a week for one semester; additional hours may be required for some topics. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

Topic 1: America and the Holocaust. Same as American Studies 321 (Topic 4) and History 356R. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic 4), 370 (Topic: America and the Holocaust), History 350L (Topic: America and the Holocaust), 356R, 356G (Topic: America and the Holocaust), Jewish Studies 361 (Topic: America and the Holocaust), 365 (Topic 1), Liberal Arts Honors 350 (Topic: America and the Holocaust). Additional prerequisite: Upper-division standing.

Topic 4: Jewish Immigrant Culture in America. Prerequisite: Upper-division standing.

Topic 10: Israel: Society and Politics. Same as Government 366I. Analysis of Israeli politics and society in a comparative perspective with a major focus on the social and political cleavages in Israel. Three lecture hours a week for one semester. Only one of the following may be counted: Government 365N (Topic 16), 366L, Jewish Studies 365 (Topic 10). Additional prerequisite: Six semester hours of lower-division coursework in Government.

Topic 11: Representation of Jews in the American Public Sphere. Same as Anthropology 325D and Religious Studies 346L. Examines how Jews have been represented and constituted in American public culture as a race, religion, and/or nation through distinct institutions and display practices. Three lecture hours a week for one semester.

Only one of the following may be counted: Anthropology 325D, 325L (Topic 13), Jewish Studies 365 (Topic 11), Religious Studies 346 (Topic 8), 346L. Additional prerequisite: Upper-division standing.

Topic 12: American Jewish Material Culture. Same as Anthropology 3250 and Religious Studies 346N. Examines the interplay between material culture and Jewish identity and thought in contemporary America. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 325L (Topic 17), 3250, Jewish Studies 365 (Topic 12), Religious Studies 346 (Topic 9), 346N. Additional prerequisite: Upper-division standing.

Topic 13: Anti-Semitism. Same as History 366N (Topic 15) and Sociology 321S. Surveys trends in Judeophobia/anti-Semitism over 2,500 years in both Christian and non-Christian societies. Designed to use anti-Semitism as way to explore more general ideas in social theory such as boundary making; models of racial, ethnic, and cultural conflict; and the role of intellectual and scientific elites. Three lecture hours a week for one semester. Only one of the following may be counted: History 366N (Topic: Anti-Semitism), 366N (Topic 15), Jewish Studies 365 (Topic: Anti-Semitism), 365 (Topic 13), Sociology 321K (Topic: Anti-Semitism), 321S. Additional prerequisite: Upper-division standing.

Topic 14: Holocaust Aftereffects. Same as Comparative Literature 323 (Topic 40), European Studies 346 (Topic 23), German, Scandinavian, and Dutch Studies 360 (Topic 1), Religious Studies 357V, and Women's and Gender Studies 340 (Topic 66). Explores the historical, political, psychological, theological, and cultural fallout of the Holocaust, as well as literary and cinematic responses in Europe and the United States. Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 323 (Topic 40), European Studies 346 (Topic 23), German, Scandinavian, and Dutch Studies 360 (Topic 1), Jewish Studies 365 (Topic 14), Liberal Arts Honors 350 (Topic: Holocaust Aftereffects), 351Q, Religious Studies 357 (Topic 18), 357V, Women's and Gender Studies 340 (Topic: Holocaust Aftereffects), 340 (Topic 66). Additional prerequisite: Upper-division standing.

Topic 16: Jewish Cuba. Same as Anthropology 325V, Latin American Studies 324S, and Religious Studies 366E. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 325L (Topic: Jewish Cuba), 325V, Jewish Studies 365 (Topic: Jewish Cuba), 365 (Topic 16), Latin American Studies 324L (Topic: Jewish Cuba), 324S, Religious Studies 366 (Topic: Jewish Cuba), 366E. Additional prerequisite: Upper-division standing.

Topic 17: Spatializing Culture. Only one of the following may be counted: Jewish Studies 365 (Topic: Spatializing Culture-Hon), 365 (Topic 17), Liberal Arts Honors 350 (Topic: Spatializing Culture). Additional prerequisite: Upper-division standing.

Topic 18: Contemporary Jerusalem. Same as Anthropology 323Q, Middle Eastern Studies 341 (Topic 18), and Religious Studies 365K. Explore what life is like in today's contested, rapidly growing, and increasingly diverse Jerusalem. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 323Q, Jewish Studies 365 (Topic: Contemporary Jerusalem), 365 (Topic 18), Middle Eastern Studies 341 (Topic 18), Religious Studies 365K. Additional prerequisite: Upper-division standing.

J S 365C. Multicultural Israel.

Same as Anthropology 322D and Middle Eastern Studies 341 (Topic 8). Examines the complex social fabric that comprises contemporary Israeli society, and that shapes Israeli identity, practice and politics. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322D, 325L (Topic: Multicultural Israel), Jewish Studies 365 (Topic: Multicultural Israel), 365C, Middle Eastern Studies 341 (Topic: Multicultural Israel), 341 (Topic 8). Prerequisite: Upper division standing.
J S 365D. Cultural Geographies of Israel.
Same as Anthropology 322G and Middle Eastern Studies 341 (Topic 10). Examines critical spatial theory, landscape phenomenology, histories of Zionist architecture and urban planning as applied to Israel from the Yishuv period to the present. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322G, Jewish Studies 311 (Topic: Israel: Space/Place/Landscape), 365D, Middle Eastern Studies 341 (Topic 10). Prerequisite: Upper division standing.

J S 375. Senior Seminar.
Intensive study and research on selected topics in Jewish studies, with on-going, in-class presentations for critique by fellow students and the instructor. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and consent of the Jewish studies adviser.

J S 679H. Honors Tutorial Course.
Restricted to Jewish studies majors. Supervised individual reading and research for one semester, followed by writing a substantial honors thesis during the second semester. Conference course for two semesters. Prerequisite: For 679HA, admission to the Jewish Studies Honors Program; for 679HB, Jewish Studies 679HA.

Graduate Courses
J S 338. Topics in Jewish Studies.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites may vary with the topic and are given in the Course Schedule.

Professional Courses
JPN - Japanese

Japanese: JPN
Lower-Division Courses
JPN 601D. Japanese I.
Not open to native speakers of Japanese. Designed for students with no previous coursework in Japanese. Emphasis on basic skills in listening and speaking Japanese and in reading and writing hiragana, katakana, and kanji. Introduction to Japanese culture. Includes computer-assisted instruction. Six lecture hours a week for one semester. Japanese 601D and 506 may not both be counted.

JPN 506. First-Year Japanese I.
Not open to native speakers of Japanese. Six class hours a week for one semester. Japanese 601D and 506 may not both be counted.

JPN 507. First-Year Japanese II.
Not open to native speakers of Japanese. Six class hours a week for one semester. Japanese 507 and 610D may not both be counted. Prerequisite: Japanese 506 with a grade of at least C.

JPN 610D. Japanese II.
Not open to native speakers of Japanese. Expands on skills acquired in Japanese 601D. Includes computer-assisted instruction. Six lecture hours a week for one semester. Japanese 507 and 610D may not both be counted. Prerequisite: Japanese 601D with a grade of at least C.

JPN 611D. Intermediate Japanese.
Not open to native speakers of Japanese. Intermediate level of competency in Japanese to enable students to function in a variety of real-life contexts. Six lecture hours a week for one semester. Japanese 611D and 412K may not both be counted. Prerequisite: Japanese 610D with a grade of at least C.

JPN 412K. Second-Year Japanese I.
Not open to native speakers of Japanese. Five class hours a week for one semester. Japanese 611D and 412K may not both be counted. Prerequisite: Japanese 507 or the equivalent with a grade of at least C.

JPN 412L. Second-Year Japanese II.
Not open to native speakers of Japanese. Five class hours a week for one semester. Japanese 611D and 412L may not both be counted. Japanese 412L and 317C may not both be counted. Prerequisite: Japanese 412K or the equivalent with a grade of at least C.

JPN 317C. Japanese Grammar, Composition, and Conversation.
Not open to native speakers of Japanese. Designed to prepare students for specialized advanced Japanese language courses. Three lecture hours a week for one semester. Japanese 412L and 317C may not both be counted. Prerequisite: Japanese 611D with a grade of at least C.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Asian Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses
JPN 320K. Readings in Modern Japanese I.
Not open to native speakers of Japanese. Exploration of different types of texts written in a variety of grammar structures with rich vocabulary. Examination of similarities and differences between various aspects of Japanese culture and the student’s own culture. Three lecture hours a week for one semester. Prerequisite: Japanese 412L or 317C with a grade of at least C.

JPN 320L. Readings in Modern Japanese II.
Not open to native speakers of Japanese. Continued development of Japanese reading and comprehension skills using authentic print and web-based resources. Three lecture hours a week for one semester. Prerequisite: Japanese 320K with a grade of at least C.

An introduction to the principal elements of premodern literary or "classical" Japanese (bungo), the standard form of the written language. A survey of the principal linguistic features, close reading, and translation of a variety of prose and poetry texts. Three lecture hours a week for one semester. Prerequisite: Japanese 320L with a grade of at least C.

JPN 325K. Advanced Conversation I.
Not open to native speakers of Japanese. Conversations on more complex situations and topics, including formal and informal contexts; designed to continue students’ development of conversation skills taught in Japanese 412L and 317C. Three lecture hours a week for one semester. Prerequisite: Japanese 412L or 317C with a grade of at least C.
JPN 325L. Advanced Conversation II.
Not open to native speakers of Japanese. Continued development of conversation skills taught in JPN 325K. Three lecture hours a week for one semester. Prerequisite: Japanese 325K with a grade of at least C.

Not open to native speakers of Japanese. Development of basic business manners and business-related vocabulary and conversation skills appropriate in an office environment. Three lecture hours a week for one semester. Prerequisite: Japanese 412L or 317C with a grade of at least C.

JPN 327. Advanced Reading and Writing of Kanji Characters.
Not open to native speakers of Japanese. Building more advanced vocabulary and kanji knowledge through systematic study (recognition, reading, and writing) of kanji. Three lecture hours a week for one semester. Prerequisite: Japanese 412L or 317C with a grade of at least C.

Not open to native speakers of Japanese. This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Asian Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Not open to native speakers of Japanese. Fourth-year Japanese readings on special topics. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Japanese 320L with a grade of at least C.

Topic 2: Advanced Readings in Newspaper Articles. For students with an advanced level of proficiency in Japanese. Conducted in Japanese. Readings from newspaper articles and other authentic materials, including short stories and websites, selected to expand linguistic and social knowledge, vocabulary, and knowledge of kanji.

Topic 3: Practical Readings in Advanced Japanese. For students with an advanced level of proficiency in Japanese. Conducted in Japanese. Readings selected to promote a wide variety of reading skills such as scanning, skimming, prediction, reading for details, and reading for meaning. Readings include essays, comic strips, short stories, websites, magazine and newspaper articles, and other authentic materials.

Topic 4: Reading Japanese Literature. Japanese 330 (Topic: Reading Japanese Literature) and 330 (Topic 4) may not both be counted.

JPN 384. Topics in Japanese Language and Culture.
Study of various aspects and periods of Japanese language and culture. Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing, six semester hours of upper-division coursework in Japanese, and written consent of instructor on form obtained from the undergraduate adviser.

Graduate Courses
JPN 381. Conference Course in Japanese Language and Culture.
Supervised individual study in Japanese language or culture. The equivalent of three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and written consent of instructor on a form obtained from the graduate coordinator.

JPN 384. Topics in Japanese Language and Culture.
Study of various aspects and periods of Japanese language and culture. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, and six semester hours of upper-division coursework in Japanese with a grade of at least C or consent of instructor; additional prerequisites vary with the topic.

Topic 3: Modern Japanese Literature. Only one of the following may be counted: Asian Studies 386 (Topic 2), 384 (Topic 3).

Professional Courses
KIN - Kinesiology
Kinesiology: KIN
Lower-Division Courses
KIN 310. Physiological Basis of Conditioning.
Explores the ways that the human body responds to exercise and physical activity. Covers reasons that exercise is beneficial, how the body responds to exercise, and how to apply the principles of conditioning. Three lecture hours a week for one semester.

KIN 311. Water Safety Instruction and Lifeguard Training.
Principles and practical application of water safety instruction and lifeguard training, personal water safety skills sets, professional rescues, first aid, and CPR/AED programs. Successful completion of course sessions, activities, lectures, skill development and evaluation requirements will qualify the student to test for certifications from nationally recognized safety agencies. Three lecture hours and one laboratory hour a week for one semester. Only one of the following may be counted: Kinesiology 311, 213 (Topic 2: Water Safety Instruction), 213 (Topic 4: Lifeguarding Instruction). Offered on the letter-grade basis only.

KIN 311K. Sport Psychology.
Through the materials presented in this course, become familiar with the fundamental principles of sport and social psychology and their impact on sports performance and athlete well-being. Develop life-skills, such as, self-regulation, productive responses to adversity, stress-management, the setting of goals and achieving them, interpersonal communication, and leadership. Three lecture hours a week for one semester.

Analysis and discussion of current issues within the discipline of kinesiology. Three lecture hours a week for one semester. Additional hours may be required for some topics. May be repeated for credit when the topics vary.
KIN 312G. Golf Instruction.
Designed to train students to teach the game of golf. Three lecture hours a week for one semester, with additional fieldwork hours to be arranged. Prerequisite: Consent of instructor.

KIN 312M. Management of Physical Activity and Sport Programs.
Designed for physical culture and sports, applied movement science, health education, and kinesiology majors. Introduction to the purpose and function of sport and sport management in society, including management, marketing, events, and other components of the field. The equivalent of three lecture hours a week for one semester.

KIN 213. Safety Information and Procedures.
Factors affecting human safety; techniques and procedures to promote and ensure safe living. The equivalent of three lecture hours a week for one semester. May be repeated for credit when the topics vary.

Covers skills to support positive, effective physical education and to implement well-planned and stimulating physical activity for children. Focus on integrating academic content with physically active classrooms. Subjects include principles of movement and motor development in children, curriculum, legislation and policy, physiological principles, learning principles, coordinated school health (CSH), and comprehensive school physical activity programming (CSPAP). The equivalent of three lecture hours and three laboratory hours a week for one semester, with additional off-campus school service learning project hours to be arranged. EDC 314 and KIN 314 may not both be counted.
20), Physical Education 103L (Topic 1), 103L (Topic 7). Additional prerequisite: Consent of instructor.

**Topic 17: Basketball.** Designed for applied movement science majors, and kinesiology and health education majors. Introduces methods, progressions, strategies and teaching cues appropriate for playing, teaching, and coaching basic basketball.

**Topic 18: Adventure Activities.** Acquisition and knowledge of basic skills needed to participate in outdoor/adventure activities. Examines methods, progressions, drills, and performance cues appropriate for participating in and leading outdoor/adventure activities. Includes off-campus activities. Students will need to demonstrate basic swimming skills during the first week of class.

**Topic 19: Kinesthetic Awareness and Core Body Development.** Introduction to basic movement skills from simple to more complex, and how they relate to more advanced sport skills through developmental gymnastics, yoga, Pilates, and martial arts. Additional prerequisite: A major in applied movement science.

**Topic 20: Social Dance: Follows.** Introduction to popular social dances, including swing, waltz, bachata, nightclub two-step, cross-step waltz, salsa, west coast swing, and tango. Emphasis on connecting with a dance partner and the art of leading and following. Must register for the role you want to learn: lead or follow. Optional dance labs for additional practice are offered. Only one of the following may be counted: Kinesiology 119 (Topic 16), Kinesiology 119 (Topic 20), Physical Education 103L (Topic 1), 103L (Topic 7). Additional prerequisite: Consent of instructor.

**KIN 119C. Aiding for Social Dance.**

Supervised aiding in social dance leads/follows courses. Three laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Consent of instructor.

**KIN 219D. Movement Analysis: Dual Activities.**

Designed for applied movement science, health education, and kinesiology majors. Application of biomechanical and motor learning principles to selected movement activities, with particular emphasis on dual sports. Includes physical activity. The equivalent of two lecture hours and one laboratory hour a week for one semester.

**KIN 219G. Advanced Golf.**

Designed for the advanced golfer. Includes technical swing analysis and instruction, course management and course play, and tournament play. Two lecture hours a week for one semester, with additional fieldwork hours to be arranged. Prerequisite: Consent of instructor, and a certified Professional Golfers Association (PGA) handicap of 15 or below or equivalent proficiency.

**KIN 219K. Athletics.**

Knowledge and skills required for officials, coaches, and athletic trainers of interschool sports. Two lecture hours and two laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 1: Coaching.**
**Topic 2: Officiating.**

**Topic 3: Introduction to Athletic Training.** Designed for athletic training majors. An introduction to athletic training principles and theories, including the prevention, recognition, and management of athletic injuries and illnesses. Includes basic skill development in areas such as first aid, emergency care, and supportive taping, wrapping, and bracing. Requires completion of a one-day CPR and AED (BLS) course outside of class time.

**KIN 219L. Teaching Social Dance.**

Examine social dance and social dance pedagogy. Explore new dances, higher-level partnering, and skills for teaching social dance in one-on-one and group contexts. Three laboratory hours a week for one semester. Prerequisite: Physical Education 103L (Topic 1) or 103L (Topic 7), or Kinesiology 119 (Topic 16) or 119 (Topic 20), and consent of instructor.

**KIN 219M. Advanced Running.**

Explores various advanced aspects of running training regimens, with emphasis on interval training, fartlek, speed play, long slow distance used in competitive running. Includes functional assistive training movements: flexibility and stretching, plyometrics and bounding. Three laboratory hours a week for one semester. Prerequisite: PED 106D (Topic 2) or consent of instructor.

**KIN 219N. Advanced Volleyball.**

For those with high levels of skills and knowledge of multiple offenses and defenses. Explores various aspects of competitive volleyball with emphasis on strategic utilization of defenses used in interscholastic and intercollegiate competitive teams. Three laboratory hours a week for one semester. Prerequisite: Physical Education 108J (Topic 2) or 109D (Topic 2) or consent of instructor.

**KIN 219P. Advanced Swimming.**

Designed for the advanced swimmer. Includes technical stroke analysis on four power strokes and exposure training/conditioning programs used by interscholastic and intercollegiate competitive programs. Expanded emphasis is on body form, stroke efficiency, and conditioning in all strokes. Three laboratory hours a week for one semester. Prerequisite: Physical Education 106C (Topic 1) or Physical Education 101J (Topic 5) or consent of instructor.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Kinesiology. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**KIN 219S. Movement Analysis: Individual Activities.**

Restricted to kinesiology and health education majors. Application of movement skill analysis and biomechanical principles, physical laws of movement, fitness training principles and programs, exercise physiology, performance techniques, and skill progressions in individual activities and sport. Two lecture hours and one laboratory hour a week for one semester.

**KIN 219T. Movement Analysis: Team Activities.**

Application of scientific and psychosocial aspects of team sports, basic mechanical principles, and basic progressions relevant to performing and teaching selected team sport skills. Students also learn basic strategies and tasks related to coaching and organizing a team. Two lecture hours and one laboratory hour a week for one semester.

**Upper-Division Courses**

**KIN 320. Applied Biomechanics of Human Movement.**

Designed to provide students with an understanding of applied scientific analysis of movement. Examines the physiological, structural, and mechanical bases for human movement, with examples drawn from sport and rehabilitation. Lectures concentrate on a scientific approach to mechanisms underlying human movement and to strategies and
practices of clinical and sport applications. Laboratory sessions focus on both theoretical and applied aspects of selected mechanical concepts. Two lecture hours and one and one-half laboratory hours a week for one semester. Prerequisite: Kinesiology 424K and Mathematics 305G, 408K, 408C, or 408N.

Designed for applied movement science, health education, and kinesiology majors. Examines foundational knowledge of theories of human performance and development and the concomitant changes that occur during an individuals lifespan. Explores interactive theories of the associated physiological, biomechanical, and cognitive disciplines that explain the control systems of the human body while in motion and subsequent development. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

A review of movement skill progressions with emphasis on the processes that underlie changes in movement competence. Typical growth and maturation from birth to adulthood serves as the metric against which to identify atypical development. The principles underlying motor skill changes are applied to teaching, coaching, and clinical applications. Three lecture hours and one laboratory hour a week for one semester. Prerequisite: Upper-division standing.

KIN 322. Diagnosis and Evaluation of Fitness.
Covers the science behind assessing physical fitness, and the role of physical activity and exercise in prevention and rehabilitation of cardio-respiratory and metabolic diseases. Two lecture hours and three laboratory hours a week for one semester. Prerequisite: For Athletic Training and Kinesiology and Health majors, Kinesiology 310 and Kinesiology 424K; for others, Kinesiology 310; and Kinesiology 424K or 446L.

KIN 424K. Applied Human Anatomy.
Combines the study of systematic and regional human anatomy. Includes applications of the skeletal system, and attachments and actions of muscles, with an emphasis on the mechanics of support and motion and their clinical applications. Three lecture hours and two laboratory hours a week for one semester. Only one of the following may be counted: Biology 478L, Kinesiology 324K, 424K. Prerequisite: For applied movement science, health education, and kinesiology majors, Kinesiology 310.

KIN 425K. Physiology of Exercise.
Application of principles of physiology to muscular activities and an examination of physiological responses and adaptations to both acute and chronic exercise. Three lecture hours and one and one-half laboratory hours a week for one semester. Kinesiology 325K and 425K may not both be counted. Prerequisite: For Athletic Training and Kinesiology and Health majors, Kinesiology 424K; for others, Kinesiology 424K, Biology 416K, or 446L.

KIN 226. Advanced Weight Training.
Explores various advanced techniques of weight training, with emphasis on the lifts used in the competitive strength sports of weightlifting and powerlifting. Includes plyometrics and functional training movements for athletic enhancement. Two lecture hours a week for one semester. Prerequisite: Physical Education 106C or Kinesiology 119 or consent of instructor.

KIN 326K. Biomechanical Analysis of Movement.
Study of the principles of equilibrium, force, and motion as applied to humans. Includes applications to human movement and to biological tissues and structures, with emphasis on practical applications (e.g., human performance, causes/prevention of injury etc.). Three lecture hours a week for one semester. Prerequisite: For athletic training and kinesiology and health education majors: Kinesiology 424K, Mathematics 403K, 408C or 408K or 408N; and Physics 302K or 317K. For others: Biology 416K or Biology 446L; Kinesiology 424K; Mathematics 403K, 408C or 408K or 408N; and Physics 302K or 317K.

KIN 127D, 227D, 327D, 627D. Fieldwork: Aiding.
Supervised fieldwork in appropriate activity courses. For 127D, up to three hours of fieldwork a week for one semester; for 227D, up to six hours of fieldwork a week for one semester; for 327D, up to nine hours of fieldwork a week for one semester; for 627D, up to twenty hours of fieldwork a week for one semester. May be repeated for credit up to twelve semester hours. No more than twelve semester hours in kinesiology or health education fieldwork or internship credit may be counted. May be repeated for credit. Prerequisite: Consent of instructor.

Restricted to applied learning and development majors. Supervised fieldwork or clinical work in appropriate activities. For 127E, up to three hours of fieldwork a week for one semester; for 227E, up to six hours of fieldwork a week for one semester; for 327E, up to nine hours of fieldwork a week for one semester; for 627E, up to twenty hours of fieldwork a week for one semester. May be repeated for credit up to twelve semester hours. No more than twelve semester hours in kinesiology or health education fieldwork or internship credit may be counted. May be repeated for credit. Prerequisite: Consent of instructor.

KIN 627F. Internship.
Restricted to health education and kinesiology majors. Supervised fieldwork or clinical work in appropriate activities. The equivalent of twenty lecture hours a week for one semester; additional hours may be required for some topics. May be repeated for credit when topics vary up to twelve semester hours. No more than twelve semester hours in health education or kinesiology fieldwork or internship credit may be counted. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing, Kinesiology 327T (Topic 1) or 327T (Topic 2), a University grade point average of at least 2.50, and consent of instructor.

Topic 1: Internship in Health Fitness. Topic 2: Internship in Medical Fitness.

Supervised fieldwork or clinical work in appropriate activities off campus. For 127J, up to three hours of fieldwork a week for one semester; for 227J, up to six hours of fieldwork a week for one semester; for 327J, up to nine hours of fieldwork a week for one semester; for 627J, up to twenty hours of fieldwork a week for one semester. May be repeated for credit up to twelve semester hours. No more than twelve semester hours in kinesiology or health education fieldwork or internship credit may be counted. May be repeated for credit. Prerequisite: Consent of instructor.

Supervised fieldwork or clinical work in appropriate activities on campus. For 127K, up to three hours of fieldwork a week for one semester; for 227K, up to six hours of fieldwork a week for one semester; for 327K, up to nine hours of fieldwork a week for one semester; for 627K, up to twenty hours of fieldwork a week for one semester. May be repeated for credit up to twelve semester hours. No more than twelve semester hours in kinesiology or health education fieldwork or internship credit may be counted. May be repeated for credit. Prerequisite: Consent of instructor.
KIN 127M. Exploring Teaching and Physical Activity Leadership.

Restricted to applied movement science majors. Supervised fieldwork or clinical work in appropriate activities. One lecture hour and two hours of fieldwork each week for one semester. No more than twelve semester hours in kinesiology or health education fieldwork or internship credit may be counted. May be repeated for credit. Prerequisite: Consent of instructor.

Supervised fieldwork or clinical work in appropriate activities. For 127R, up to three hours of fieldwork a week for one semester; for 227R, up to six hours of fieldwork a week for one semester; for 327R, up to nine hours of fieldwork a week for one semester; for 627R, up to twelve hours of fieldwork a week for one semester. May be repeated for credit up to twelve semester hours. No more than twelve semester hours in kinesiology or health education fieldwork or internship credit may be counted. May be repeated for credit. Prerequisite: Consent of instructor.

KIN 327T. Internship.

Designed for health education and kinesiology majors or minors. Supervised fieldwork or clinical work in appropriate activities. Students are required to obtain 135 hours of supervised internship. May be repeated for credit when topics vary up to twelve semester hours. No more than twelve semester hours in health education or kinesiology fieldwork or internship credit may be counted. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing, a University grade point average of at least 2.50, and consent of instructor; additional prerequisites vary by topic.

Topic 1: Clinical Exercise Testing. Kinesiology 327L (Topic 6) and 327T (Topic 1) may not both be counted. Additional prerequisite: Kinesiology 322

Topic 2: Personal Training. Kinesiology 327L (Topic 5) and 327T (Topic 2) may not both be counted. Additional prerequisite: Kinesiology 332.

Topic 3: Practicum in Disabilities. Supervised academic service learning or clinical hours in instructor approved environments. Kinesiology 327L (Topic 9) and 327T (Topic 3) may not both be counted.

Topic 4: Strength and Condition Coaching. Additional prerequisite: Credit or concurrent enrollment in Kinesiology 226 or 363.

KIN 628. Fieldwork in Sport Management.

Restricted to sport management majors. Twenty-seven hours of fieldwork a week for one semester. Requires 270 hours overall or about 20 hours per week. Students will be required to have no more than six hours remaining in their cognate to be eligible. May be taken twice for credit. No more than twelve semester hours in the following courses may be counted: Kinesiology 127L, 227L, 327L, 627L, 628. May be repeated for credit. Prerequisite: Upper-division standing, a University grade point average of at least 2.50, and consent of the faculty adviser.

KIN 328C. Internship in Sport Management.

Restricted to students majoring in sport management. Supervised fieldwork or clinical work in appropriate activities. Students are required to obtain 135 hours of supervised internship. No more than twelve semester hours in health education or kinesiology fieldwork or internship credit may be counted. Only one of the following may be counted: Kinesiology 327L (Topic: Fieldwork in Sport Management), 327L (Topic 2), 628, 328C. May be repeated for credit. Prerequisite: Upper-division standing, a major grade point average of 2.50, and consent of instructor.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad advisor in the Department of Kinesiology. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

KIN 330E. Sport Nutrition.

Explore the nutritional needs of people whose physical activity ranges from recreational to elite athletes. Develop practical dietary strategies based upon understanding how macronutrients, vitamins, minerals, water, and dietary supplements are digested and absorbed and how they effect metabolism. Three lecture hours a week for one semester.

KIN 331. Physical Aging in America.

Three lecture hours a week for one semester. Kinesiology 331 and 352K (Topic: Physical Aging in America) may not both be counted. Prerequisite: Upper-division standing; Kinesiology 310, 315, or 325K; and six additional semester hours of coursework in kinesiology.

KIN 332. Techniques of Fitness Leadership.

Practical application of theoretical content from exercise physiology, anatomy, and biomechanics. Emphasis on program design and development for healthy adults and special populations. Three lecture hours a week for one semester, with additional laboratory hours to be arranged. Prerequisite: Kinesiology 310.

KIN 334. Children’s Exercise and Physical Activity.

Focuses on the capacity for physical performance by children and adolescents from both physiological and psychosocial perspectives. Addresses children’s readiness for physical training and competitive activities. Considers the active and inactive child with, and without, disabilities and secondary disabling conditions. Entails development of programs designed to keep children appropriately active for a lifetime of positive health outcomes. Three lecture hours a week for one semester. Prerequisite: Kinesiology 310.

KIN 335C. Motor Learning.

Psychological, behavioral, physiological, and environmental factors involved in performance and learning of motor skills; covers both theoretical and experimental evidence for the effects of these factors, with applications in physical activity, sport, and rehabilitation. Weekly laboratory sessions to collect and analyze data to assess motor performance and learning. Two lecture hours and one and one-half laboratory hours a week for one semester. Kinesiology 315 and 335C may not both be counted. Prerequisite: Psychology 301.

KIN 336. Neuromuscular Control.

Study of the brain and motor and sensory pathways involved in the control of movement. Covers nerve, muscle, and sensory cell function along with spinal cord reflexes. Application to research and clinical populations is emphasized. Three lecture hours a week for one semester. Prerequisite: For Athletic Training and Kinesiology and Health majors, Kinesiology 424K; for others, Kinesiology 424K or 446L.

KIN 338. Motor Development and Assessment.

Training in screening, diagnostic, and programmatic motor assessment instruments. Designed to give students practical experience in assessing physical and motoric development in children with and without disabilities. Three lecture hours a week for one semester. Prerequisite: Kinesiology 321M; Kinesiology 360 topic 9 is recommended.
Examination of the place of the modern Olympic movement in world affairs. The cultural, political, and economic dynamics of this relationship will receive special emphasis.

KIN 140C. Practicum in Athletic Training: Level 1A.
Supervised clinical experiences in the application of concepts, theories, and techniques associated with the prevention, recognition, and immediate care of injuries and illnesses suffered by athletic and physically active populations. Students use cognitive, psychomotor, and affective skills and knowledge to complete a prescribed set of educational competencies and clinical proficiencies under the direction of an approved clinical instructor. One lecture hour and twenty hours of fieldwork a week for one semester. Prerequisite: Consent of instructor.

KIN 140D. Practicum in Athletic Training: Level 1B.
Supervised clinical experiences in the application of concepts, theories, and techniques associated with the prevention, recognition, immediate care, and treatment of injuries and illnesses suffered by athletic and physically active populations. Emphasizes the application of therapeutic modalities and soft-tissue therapy techniques. Students use cognitive psychomotor and affective skills and knowledge to complete a prescribed set of educational competencies and clinical proficiencies under the direction of a clinical preceptor. One lecture hour and twenty hours of fieldwork a week for one semester. Prerequisite: Consent of instructor.

KIN 140E. Practicum in Athletic Training: Level 2A.
Supervised clinical experiences in the application of concepts, theories, and techniques associated with the prevention, recognition, immediate care, treatment, evaluation, and diagnosis of injuries and illnesses suffered by athletic and physically active populations. Emphasizes clinical evaluation and assessment techniques. Students use cognitive, psychomotor, and affective skills and knowledge to complete a prescribed set of educational competencies and clinical proficiencies under the direction of an approved clinical instructor. One lecture hour and twenty hours of fieldwork a week for one semester. Prerequisite: Consent of instructor.

KIN 140F. Practicum in Athletic Training: Level 2B.
Supervised clinical experiences in the application of concepts, theories, and techniques associated with the prevention, recognition, immediate care, treatment, evaluation, diagnosis, rehabilitation, and reconditioning of injuries and illnesses suffered by athletic and physically active populations. Emphasizes therapeutic exercise and rehabilitation procedures. Students use cognitive, psychomotor, and affective skills and knowledge to complete a prescribed set of educational competencies and clinical proficiencies under the direction of a clinical preceptor. One lecture hour and twenty hours of fieldwork a week for one semester. Prerequisite: Consent of instructor.

KIN 140G. Practicum in Athletic Training: Level 3A.
Supervised clinical experiences in the application of concepts, theories, and techniques associated with the prevention, recognition, immediate care, treatment, evaluation, diagnosis, rehabilitation, and reconditioning of injuries and illnesses suffered by athletic and physically active populations. Emphasizes general medical conditions. Students use cognitive psychomotor and affective skills and knowledge to complete a prescribed set of educational competencies and clinical proficiencies under the direction of an approved clinical instructor. One lecture hour and twenty hours of fieldwork a week for one semester. Prerequisite: Consent of instructor.

KIN 140J. Practicum in Athletic Training: Level 3B.
Supervised clinical experiences in the application of concepts, theories, and techniques associated with the prevention, recognition, immediate care, treatment, evaluation, diagnosis, rehabilitation, and reconditioning of injuries and illnesses suffered by athletic and physically active populations. Emphasizes the administrative and professional aspects of managing these conditions. Students use cognitive psychomotor and affective skills and knowledge to complete a prescribed set of education competencies and clinical proficiencies under the direction of a clinical preceptor. One lecture hour and twenty hours of fieldwork a week for one semester. Prerequisite: Consent of instructor.

KIN 140M. Advanced Manual Therapy.
Designed for athletic training majors. Examines the theory and application of manual therapy techniques in patient care. The athletic and physically active populations will be targeted and an aggressive treatment approach for the restoration of function as quickly and as safely as possible will be emphasized. One lecture hour and one laboratory hour a week for one semester. May be repeated for credit.

KIN 140S. Senior Seminar in Athletic Training.
Designed for athletic training majors. Explores the study and practice of reviewing and applying research findings and evidence based practice concepts to ask and answer clinically relevant questions affecting clinical practice for athletic trainers. One lecture hour a week for one semester. May be repeated for credit. Prerequisite: Enrollment in the Athletic Training Program or consent of instructor.

KIN 341. Therapeutic Modalities in Athletic Training.
Designed for athletic training majors. The study and practice of using therapeutic modalities, including soft tissue and manual therapy techniques, to treat athletic injuries. Covers physiological effects, indications, contraindications, protocols, injury pathology, and tissue healing. Three lecture hours and one laboratory hour a week for one semester. Prerequisite: For non-athletic training majors, consent of instructor.

Designed for athletic training majors. The study and practice of techniques involved in the evaluation of athletic injuries affecting the lower body. Three lecture hours and one laboratory hour a week for one semester. Prerequisite: For non-athletic training majors, consent of instructor.

Designed for athletic training majors. The study and practice of techniques involved in the evaluation of athletic injuries affecting the upper body. Three lecture hours and one laboratory hour a week for one semester. Prerequisite: For non-athletic training majors, consent of instructor.

KIN 344. Therapeutic Exercise and Rehabilitation Techniques: Lower Body.
Designed for athletic training majors. The study and practice of therapeutic exercise techniques and rehabilitation protocols in treating athletic injuries and illnesses. Three lecture hours and one laboratory hour a week for one semester. Prerequisite: For non-athletic training majors, consent of instructor and concurrent enrollment in Kinesiology 344U.
KIN 344U. Therapeutic Exercise and Rehabilitation: Upper Body.
Designed for athletic training majors. Explores the theory and application of therapeutic exercise techniques and rehabilitation protocols. The athletics and physically active populations will be targeted and an aggressive treatment approach for the restoration of function as quickly and as safely as possible will be emphasized. The classroom and laboratory experiences will provide the student with opportunities to apply these techniques under the direct guidance of knowledgeable clinicians specializing in athletic training. Three lecture hours and one laboratory hour a week for one semester. May be repeated for credit. Prerequisite: For non-athletic training majors, consent of instructor and concurrent enrollment in Kinesiology 344.

KIN 345. General Medical Conditions in Athletic Training.
Designed for athletic training majors. Presentations, including some by medical and allied medical specialists, covering topics in athletic training and sports medicine. Three lecture hours and one laboratory hour a week for one semester. Prerequisite: For non-athletic training majors, consent of instructor.

KIN 346. Athletic Training Program Administration.
Designed for athletic training majors. The study of organizational and administrative principles involved with athletic training programs. Includes legal issues, budgetary concerns, and policies and procedures. Also includes resume development and career planning. Three lecture hours a week for one semester. Prerequisite: For non-athletic training majors, consent of instructor.

KIN 347. Historical and Ethical Issues in Physical Culture and Sports.
Designed for kinesiology and health education majors. Explores the history of sport industry and sport science and how laboratory revelations lead to new fitness regimens. Covers ethical issues in the field of physical culture and sport, such as the use of ergogenic drugs, the social consequences of high performance sport, and professional ethics in the fields of kinesiology and health education. Two lecture hours and one discussion section hour a week for one semester.

KIN 348. Psychological Aspects of Exercise.
Designed for applied movement science, health education, and kinesiology majors. Examines both the psychological benefits that accrue from exercise, such as reduced depression and stress, as well as the psychological predictors of exercise adherence. Three lecture hours a week for one semester.

KIN 349. History of Sport and Physical Activity.
Restricted to students in the Bachelor of Science in Kinesiology and Health with a major in physical culture and sports or sport management. Significant developments in sport and physical activity since prehistoric time; emphasis on events influencing contemporary American programs and the International Olympic Games. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

KIN 350. Sociological Aspects of Sport and Physical Activity.
Restricted to students in the Bachelor of Science in Kinesiology and Health with a major in physical culture and sports or sport management. Three lecture hours a week for one semester. Kinesiology 350 and 352K (Topic: Sociological Aspects of Sport and Physical Activity) may not both be counted.

KIN 351. Philosophy of Sport and Physical Activity.
Designed for kinesiology and health education majors. Introduction to the ideas and methodologies of the philosophic exploration of play, sport, athletics, exercise, and the body. Emphasis on the study of sport and ethics. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

Analysis and synthesis of the literature and discussion of current and specific issues in kinesiology. Three lecture hours a week for one semester. Laboratory work is required for some topics. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

Topic 3: Women and Sport. Same as Women's and Gender Studies 345 (Topic 5). Examine the role sport and exercise has played in the lives of women since ancient times with an emphasis on events influencing American women in sport, their fight for access to sport, and the International Olympic Games.

Topic 5: Sport, Fitness, and Mass Media. Examine the evolution of sport media related to competitive sports and physical culture in print, television, and online.

Topic 6: Race and Sport in African American Life. Only one of the following may be counted: African and African Diaspora Studies 372E (Topic 19), 374 (Topic 27), Anthropology 324L (Topic 26), Kinesiology 352K (Topic 6) Additional prerequisite: Upper-division standing.

Topic 8: Physiological Basis of Exercise. Examines the physiology of human and athletic populations. Examine current research in the field by reading peer-reviewed, published articles. Kinesiology 352K (Topic 6) may not both be counted. Offered on the letter-grade basis only. Additional prerequisite: Upper-division standing.

Topic 9: Research Methods in Exercise Science. Engage in every part of the research process, from defining a specific research question, designing the experimental protocol and performing data collection to presenting results and conclusions in a poster presentation. Three lecture hours a week for one semester. Kinesiology 352K (Topic: Research Methods in Exer Sci) and 352K (Topic 29) may not both be counted. Offered on the letter-grade basis only. Additional prerequisite: Upper-division standing.

Topic 20: Musculoskeletal Functional Anatomy. Designed for applied movement science, health education, and kinesiology majors. Examines both the psychological benefits that accrue from exercise, such as reduced depression and stress, as well as the psychological predictors of exercise adherence. Three lecture hours a week for one semester.

Topic 21: History of Physical Culture. Survey the history of the sport and exercise industry and sport science and how laboratory revelations lead to new fitness regimens. Covers ethical issues in the field of physical culture and sport, such as the use of ergogenic drugs, the social consequences of high performance sport, and professional ethics in the fields of kinesiology and health education. Two lecture hours and one discussion section hour a week for one semester.

Topic 28: Musculoskeletal Functional Anatomy. Designed for applied movement science, health education, and kinesiology majors. Examines both the psychological benefits that accrue from exercise, such as reduced depression and stress, as well as the psychological predictors of exercise adherence. Three lecture hours a week for one semester.

Topic 33: Nutrition: Exercise, Health, and Sport. Explore general nutrition concepts including basic definitions and how nutrition affects health. Examine the current nutrition recommendations at various ages. Kinesiology 352K (Topic: Ntr: Exercise/Health/Sport) and 352K (Topic 33) may not both be counted.

Topic 34: Exercise Physiology Cardiovascular Disease. Explore cardiovascular diseases and the effect of exercise in patient populations. Examine current research in the field by reading peer-reviewed, published articles. Kinesiology 352K (Topic: Exer Phys Cardiov sclr Disease) and KIN 352K (Topic 34) may not both be counted.

Topic 35: Client Services and Venue Management. Examine the Americans with Disability Act and how it designates accessibility and services in public spaces. Identify client/attendee escalation and
the dispute resolution practices necessary for successful return to common interest. Explore different models and techniques adopted by entities with respect to fundamentals of marketing. Kinesiology 352K (Topic: Client Svcs and Venue Mgmt) and KIN 352K (Topic 35) may not both be counted.

**Topic 36: Exercise Physiology in Cardiovascular Diseases.** Examine the physiology of cardiovascular diseases and their consequences on autonomic regulation during exercise in these patient populations. Analyze and synthesize the literature and discussion of current peer-reviewed research articles. Additional prerequisite: Kinesiology 310, 424K (or equivalent), and 425K.

**Topic 37: Environmental Physiology.** Learn responses and adaptations of the cardiovascular and pulmonary systems to different extreme environments. Kinesiology 352K (Topic: Environmental Physiology) and Kinesiology 352K (Topic 7) may not both be counted. Additional prerequisite: Kinesiology 425K.

**KIN 353. Sport Law.** Designed for sport management majors. Introduction to the United States legal system and to the major cases, laws, and regulations that together make up "sports law." Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**KIN 354. Sport and Event Marketing.** Restricted to sport management majors. Application of the fundamental principles used in the marketing of sport and events, with an emphasis on how sport marketing is distinct from traditional goods and services marketing. Focus on key consumption behaviors in sport and their implications for sport marketing practice. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**KIN 355. Media and Public Relations in Sport.** Designed for sport management majors. Examination and application of the concepts of public and media relations to sport and leisure organizations. Subjects include effective interpersonal communication, persuasion, media relations, publicity tactics, social and new media, and writing and oral communications skills. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**KIN 356. Revenue and Budgeting in Sport.** Restricted to students in the Bachelor of Science in Kinesiology and Health with a major in sport management. Introduction to financial analysis and budgeting techniques in the context of sport organizations; conventional and innovative methods for the acquisition of revenue available to sport organizations. Examine financial trends in various sectors of the sport industry, including: professional, college, government/public, and nonprofit sport. Three lecture hours a week for one semester.

**KIN 357. Strategic Management of Sport Organizations.** Designed for sports management majors. Examines the strategic development of sport and health promotion programs. Focus on strategy development within organizations, which includes complementary course material deriving from various sub-disciplines related to strategic thinking and decision-making. Two lecture hours and one discussion hour a week for one semester. Prerequisite: Upper-division standing; Kinesiology 354; and Kinesiology 356 or three hours of Accounting or three hours of Finance coursework.

**KIN 360. Programming for People with Disabilities.** Covers early detection of disabilities in children, assessment, recommendations for educational settings, and writing an Individualized Education Program. Reviews real-life scenarios featuring individuals with disabilities in active settings. Covers skills useful for a career in a school environment, public policy, and recreation. Three lecture hours a week and twelve service learning hours arranged with instructor for one semester. Prerequisite: Six semester hours of coursework in kinesiology, or consent of instructor.

**KIN 361. Coaching Theory and Principles I.** Examines the philosophy, ethics, strategies, motivational techniques, performance analysis, program organization, contest administration, and facilities management related to coaching. Three lecture hours a week for one semester. Prerequisite: Kinesiology 312.

**KIN 362. Coaching Theory and Principles II.** Examines the process of becoming a successful coach and developing a coaching protocol for a specific sport. Three lecture hours a week for one semester. Prerequisite: Kinesiology 361.

**KIN 363. Theory and Practice in Strength Coaching.** Examine the physiology and biomechanics of strength and conditioning training, as well as popular assessment protocols and exercise prescription principles. Explore the management of a strength/conditioning facility, including organization and administration, staff utilization, integration of weight training with other training techniques, and standard strength coaching practices. Three lecture hours a week for one semester. Prerequisite: Kinesiology 310 or 424K.

**KIN 364. Aquatic Facility Operator: Management and Administration.** Designed to prepare the aquatic professional for leadership in the management of indoor and outdoor facilities. Includes aquatic facility operation, administration of programs, physical operations, policies and procedures, and staff development and training. Includes design, pool operation, water chemistry, facility management, safety procedures and risk management, budgeting, and marketing aquatic programs. Studies educational, sport, and recreational aspects of pools, lakes, camps, and beachfronts. Three lecture hours a week for one semester.

**KIN 365. The Business of Golf.** Restricted to students in the College of Education. Designed for students pursuing a career in the golf business. Includes clubhouse and links management, sales, agronomy, technology, and equipment. Three lecture hours a week for one semester.

**KIN 366R. Adapted Fitness and Recreation.** Investigate fitness and recreation as integral components of optimal health and well-being for individuals with illnesses and disabling conditions. Explore the benefits of exercise for people with disabilities and the preparation necessary to clear the pathways for individuals to successfully pursue a lifetime of fitness and recreation. Three lecture hours a week for one semester. Kinesiology 352K (Topic: Adapted Fitness/Recreation) and 366R may not both be counted. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

**KIN 367S. Sport and Disability.** Delve into a comprehensive look at the history of disability sport and current elite and Paralympic athletes. Explore disability sport in its historical context; organizations, competitions, and sport opportunities for athletes with disabilities; international perspectives; and coaching and training of athletes with disabilities, including sports medicine issues, activity modifications, equipment uses, and event management for both adult and young athletes. Three lecture hours a week for one semester. Kinesiology 352K (Topic: Sport and Disability) and 367S may not both be counted. Offered on the letter-grade basis only.
KIN 368T. Perspectives in Assistive Devices, Products and Technology.
Participate in a multidisciplinary collaborative approach in the development of devices and products to assist people with disabilities in recreational and daily life pursuits. Join a team of medical and engineering students in prototyping technologies, and be guided through early insight marketing research, and development strategies. Engage with leaders in successful business ventures and learn from experts in technology, medicine and product development. Present concluding projects to a panel of mentors in the fields of research, marketing, development and patenting. Three lecture hours a week for one semester. Offered on the letter-grade basis only.

KIN 370K. Topical Seminar in Health Promotion.
Identification, causes, incidence, prevention, control, and social implications of major problems in health. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

Topic 1: Emergency Medical Technology.

KIN 375. Issues and Trends in Developmental Movement Programs.
Introduction to issues related to the goals, organization, and success of developmental movement programs, such as school physical education, youth sports, YMCA, and other recreation programs and community activities. Issues include equity, competition, fitness, social development, safety and liability, and sportsmanship. Involves group work and observation and involvement in community programs. Two lecture hours and three laboratory hours a week for one semester.

KIN 376. Measurement in Kinesiology.
Measurement and assessment procedures; application of statistical procedures; standards for authentic assessment; measurement/assessment selection and evaluation; use of technology in tracking development of motor skills and fitness. Three lecture hours a week for one semester. Prerequisite: Six semester hours of upper-division coursework in kinesiology.

KIN 178, 278, 378, 678. Fieldwork in Health.
Undergraduate research and/or experience with a health agency in the field attempting to analyze or solve community health problems through education; supervision by the health agency and by the kinesiology and health education faculty. For each semester hour of credit earned, two laboratory hours a week for one semester. Some topics are offered on the pass/fail basis only; these are identified in the Course Schedule. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and consent of instructor.

Topic 1: Substance Abuse Prevention I.
Topic 2: Substance Abuse Prevention II.
Topic 3: Sexual Health I.
Topic 4: Substance Abuse Prevention III.

KIN 379H. Honors Tutorial Course.
Readings or a research project, under the supervision of a faculty member, in specific areas of research within kinesiology. Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: A University grade point average of at least 3.00 and consent of instructor.

Graduate Courses
KIN 382. Conference-Laboratory.
Laboratory or workshop-type instruction dealing with selected problems in specialization areas of kinesiology. Conference course. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 1: Laboratory Techniques in Exercise Physiology. Study techniques to measure the cardiovascular and metabolic responses to exercise. Additional prerequisite: Consent of instructor.
Topic 4: Biomechanics Laboratory. Prerequisite: Kinesiology 395 (Topic 36: Biomechanics of Human Movement), two semesters of calculus, and one semester of college physics (mechanics); or consent of instructor.
Topic 6: Advanced Laboratory Techniques in Exercise Physiology. Knowledge and skills needed to assess the metabolic characteristics of the rat, to evaluate the metabolic characteristics of skeletal muscle, and to perform essential biochemical assays and procedures that are typically used in biochemical and molecular biology experiments. Prerequisite: Consent of instructor.
Topic 7: Clinical Exercise Physiology: Theory and Practice. Designed for students interested in assessing physical fitness and well-being and designing exercise programs in corporate, community, clinical, occupational, and commercial settings. Students receive practical experience assessing physical fitness. Prerequisite: Kinesiology 325K or the equivalent.
Topic 9: Motor Development: Assessment. Review of screening, diagnostic, or programmatic motor assessment instruments. Includes test psychometrics, test content, appropriate population, and comparable or competing assessments. Prerequisite: Kinesiology 321M or the equivalent, Kinesiology 395 (Topic 45: Seminar in Motor Development), or consent of instructor.
Topic 10: Pedagogical Technology. Analysis and application of fundamental and advanced technologies in physical activity settings. Prerequisite: Graduate standing, or consent of instructor.

KIN 386. Research Methodologies.
Disciplines of research methods, research design, data-producing techniques, treatment and interpretation of data, reporting on research. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 1: Research Methods: Proposal Writing. Required of all candidates for the master’s degree in kinesiology with thesis or report. Additional prerequisite: Educational Psychology 371 or an equivalent introductory statistics course with a grade of at least C.
Topic 3: Qualitative Research Methods PCSS. Introduction to the theoretical and methodological aspects of qualitative research, as well as qualitative research approaches from a variety of disciplines and philosophical traditions with an emphasis on the application of research designs, data collection, and analysis techniques for researchers of sport, physical culture, exercise, and physical activity. Recommended for students specializing in sport management or interdisciplinary sport studies. Kinesiology 386 (Topic: Qualitative Research Methods PCSS) and Kinesiology 386 (Topic 3) may not both be counted.
Topic 4: Research Methods: Grant Writing. Restricted to students in the Department of Kinesiology and Health Education. Disciplines of research methods, research design, data-producing techniques, treatment and interpretation of data, and reporting on research. Recommended for doctoral students interested in pursuing a post-doctoral experience. Kinesiology 386 (Topic: Research Methods: Grant Writing) and Kinesiology 386 (Topic 4) may not both be counted.
Topic 5: Archival Research Methods in Physical Culture and Sport History. Selected research methods and techniques used in archival research on physical culture and sport history.

714 General Information 2023 - 2024 01/05/24
KIN 395. Advanced Topical Studies. Graduate seminar in topics related to specialization areas. Three lecture hours a week for one semester. Additional hours may be required for some topics. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

**Topic 1: Ergogenic Aids for Exercise.** Additional prerequisite: Kinesiology 325K or consent of instructor.

**Topic 2: Cardiac Metabolism.** Additional prerequisite: Kinesiology 395 (Topic 46), and Chemistry 339 or consent of instructor.

**Topic 3: Physiology of Aging.** Additional prerequisite: Kinesiology 395 (Topic 46).

**Topic 4: Biomechanics of Sport.** Additional prerequisite: Kinesiology 324K and 326K, or consent of instructor.

**Topic 5: Exercise and Preventive Medicine.** Additional prerequisite: Kinesiology 325K.

**Topic 8: Motor Control: Neuromuscular Bases.** Additional prerequisite: Kinesiology 336 or consent of instructor.

**Topic 9: Motor Control: Performance and Learning.** Additional prerequisite: Kinesiology 315 or consent of instructor.

**Topic 10: Neural Control of Posture and Locomotion.** Additional prerequisite: Kinesiology 336 or consent of instructor.

**Topic 11: Pulmonary Exercise Physiology.** Restricted to graduate students in exercise physiology. Examine the interactions between the cardiovascular and pulmonary systems at rest and during exercise. Three lecture hours a week for one semester. Kinesiology 395 (Topic: Pulmonary Physiology) and 395 (Topic 11) may not both be counted. Offered on the letter-grade basis only. Additional prerequisite: Kinesiology 395 (Topic 16).

**Topic 12: Muscle Physiology and Plasticity.** Additional prerequisite: Kinesiology 395 (Topic 46) or consent of instructor.

**Topic 13: Aging Motor Systems.**

**Topic 15: Conditioning for Competitive Athletes.** The physiological factors that govern the adaptations derived from acute and chronic exercise training. Focus will be placed on training adaptation in competitive athletes as they represent the extreme. Additional prerequisite: Kinesiology 325K or consent of instructor.

**Topic 16: Cardiovascular Response to Exercise.** Additional prerequisite: Kinesiology 325K or consent of instructor.

**Topic 18: Fitness Testing and Evaluation.**

**Topic 21: Children's Exercise and Activity.** Physiological bases for changes in exercise and sports performance and in exercise capacity throughout childhood and adolescence. Includes aspects of cardiovascular, respiratory, and metabolic changes and issues related to thermoregulation, training, gender, and health and fitness. Additional prerequisite: Kinesiology 321M and 325K, or consent of instructor.

**Topic 23: Critical Issues and Events in American Sport.** Introduction to historical research process through a reading and analysis of significant works in the field of sport history and the writing of a research paper.

**Topic 25: Fat Metabolism during Exercise.** Additional prerequisite: Kinesiology 395 (Topic 46), or 325K and consent of instructor.

**Topic 27: Athletics Administration.**

**Topic 28: Physical Dimensions of Aging.**

**Topic 29: Ethics in Sport.**

**Topic 32: Sport Marketing.** Apply the fundamental principles used in the marketing of sport and events. Additional prerequisite: An introductory undergraduate or graduate survey course in marketing.

**Topic 33: Musculoskeletal Biomechanics.** Synthesis of properties of the musculotendon and skeletal systems to construct detailed computer models that quantify human performance and muscular coordination. Prerequisite: For kinesiology majors, Mathematics 341, Kinesiology 395 (Topic 36), and consent of instructor.

**Topic 36: Biomechanics of Human Movement.** Same as Biomedical Engineering 383J (Topic 4). Additional prerequisite: Kinesiology 326K, two semesters of calculus, one semester of college physics (mechanics), and consent of instructor.

**Topic 38: Muscle Metabolism during Exercise.**

**Topic 43: Psychology of Exercise.** The benefits of exercise in moderating negative psychological states such as anxiety, stress reactivity, and depression. Additional prerequisite: Kinesiology 325K.

**Topic 44: Sport Finance.** Examine finance in sports organizations. Explore the knowledge and skills needed in the administration of both sport and non-sport organizations or firms.

**Topic 45: Pediatric Motor Development.** Additional prerequisite: Kinesiology 321M, or consent of instructor.

**Topic 46: Advanced Exercise Physiology I.** Designed to provide students with the essential graduate background for the application and practice of exercise physiology. The integration of the nervous, skeletal muscle, and cardiovascular systems from the subcellular level to the whole-organism level. Additional prerequisite: Kinesiology 325K.

**Topic 47: Advanced Exercise Physiology II.** The physiological and metabolic response to exercise, with emphasis on integrating the whole-body and cellular responses. In a variety of topics, students review basic physiology, focus on responses during exercise, and apply their findings to situations in the clinical and sporting environments. Additional prerequisite: Kinesiology 395 (Topic 46).

**Topic 48: Social Psychology of Sport and Physical Activity.** The theoretical structure that underlies social psychology as it has been applied to sport. Emphasis on the psychological concerns that confront coaches in their interactions with individual athletes and teams. Additional prerequisite: Kinesiology 311K or consent of instructor.

**Topic 49: Sports Nutrition.** The nutritional needs of people whose physical activity ranges from recreational to elite competitive athletics. Development of practical dietary strategies that recognize the unique nature of sport and the role of diet in promoting optimal physiological adaptation to training. Three lecture hours and one and one-half discussion hours a week for one semester. Additional prerequisite: Kinesiology 325K or consent of instructor.

**Topic 50: Sport Psychology.** The general field of experimental sport psychology, with emphasis on the psychological components of individual performance. Designed to prepare students to discuss the important questions, methodology, and experimental literature in selected areas of sport psychology. Additional prerequisite: Kinesiology 311K or consent of instructor.

**Topic 51: Adult Development, Aging, and Health.**

**Topic 52: Organizational Behavior in Sport.** Determinants and consequences of individual motivation and attitudes in organizations generally and in sport organizations specifically. Theory related to the individual often responsible for motivating people toward organizational goals, the leader. Additional prerequisite: For students in the College of Education, Management 320F or the equivalent; for others, Management 320F or the equivalent, and consent of instructor.

**Topic 53: Sport Public Relations and Sales.** Detailed study of the relationship between the media, corporate sponsorship, and sport. Focus on various media techniques utilized by sport managers and
sport sponsorship basics. Additional prerequisite: Kinesiology 395 (Topic 32) or the equivalent or consent of instructor.

**Topic 54: The Biology of Aging.**

Introduction to the goals, issues, and procedures that relate to the clinical assessment of physical function in the elderly (sixty-five and older).

**Topic 56: Sport and Special Event Management.** Introduction to key considerations when planning, implementing, and evaluating an event. Considers the organization of the events industry worldwide and examines how events link to other sectors of the economy. Specialized skills for the management and marketing of events. Students have the opportunity for hands-on practice in the use of the necessary tools for planning, programming, administering, and evaluating an event.

**Topic 57: Managing People and Organizations.** Graduate-level preparation in select subjects in organizational behavior and human resources management. Additional prerequisite: Previous coursework in foundations of organizational behavior and administration.

**Topic 58: Sport Consumer Behavior.** An examination of contemporary theory and research on the subject of sport consumer behavior.

**Topic 59: Biomechanics in Clinical Settings.** Designed to provide students with the basic biomechanical competence required to understand how normal human movements are generated, how movements are altered by injury or pathology, and how clinical intervention can improve performance. Additional prerequisite: Kinesiology 324K and 326K, or the equivalent.

**Topic 60: Sport Policy.** The formulation and analysis of sport policies: the uses of policy analysis in sport settings; environmental, economic, and sociopolitical impacts of sport, including policy implications.

**Topic 61: Central Questions in Biomechanics and Motor Control.** Designed to allow students to explore specific topics of current interest in biomechanics and/or motor control; to learn to evaluate the scientific literature in areas of current debate or controversy; and to develop scientifically sound, relevant, and experimentally testable research hypotheses. Additional prerequisite: Kinesiology 382 (Topic 4: Biomechanics Laboratory), and Kinesiology 395 (Topic 36) or written consent of instructor.

**Topic 62: Aging and Cardiovascular Function and Disease Risks.** Cardiovascular changes associated with aging; scientific issues and hypotheses in the area of aging and cardiovascular function and disease risks; and presenting critical analyses of these issues. Additional prerequisite: An upper-division course in human or vertebrate physiology.

**Topic 63: Introduction to Nonlinear Dynamics in Biological Systems.** Same as Biomedical Engineering 383J (Topic 5). Basic concepts of nonlinear mathematics and their application to biological systems. Additional prerequisite: Two semesters of college-level calculus and consent of instructor.

**Topic 64: Neuromuscular Aspects of Fatigue and Training.** The role of the central nervous system during muscular fatigue and exercise training. Additional prerequisite: Consent of instructor.

**Topic 65: Sport Development.** Examine contemporary theory and research on the subject of sport systems and athlete development.

**Topic 66: Marketing Research for Sport.**

**Topic 67: Theories and Issues in Sport Management.** Examine legal, policy, financial, and marketing trends and how they affect the management of sport organizations and systems.

**Topic 68: Human Resource Management in Sport Organizations.**

**Topic 69: Physical Activity Assessment in Individuals and Populations.** Provides an understanding of the various methods used to measure physical activity and related constructs (such as sedentary behavior, movement, and physiological attributes), and the mechanisms by which physical activity influences health outcomes. Covers all forms of physical activity measurement, assessment of built environment, and psychosocial correlates of physical activity, as well as validity, reliability, and related statistical strategies.

**Topic 70: Human Cardiovascular and Autonomic Physiology.** Introduction to the regulation of the cardiovascular and autonomic nervous system in health and disease.

**Topic 71: Cognition and Exercise Across the Lifespan.** Same as Health Education 395 (Topic 71). Detailed study of the relationship between brain health and physical activity behaviors across the developmental life stages; focused on the effects of physical activity programming on cognitive control and performance. Only one of the following may be counted: Health Education 395 (Topic: Cogn/Exerc Across Lifespan), 395 (Topic 71), Kinesiology 395 (Topic 71).

**Topic 72: History of Strength and Strength Training.** Explore the history of the physiological understanding of human strength, training methodologies to promote strength, the evolution of the profession of strength coaching, gendered-attitudes toward the possession of physical strength, and the rise of competitive strength sports. Using a cultural studies approach, consider ideas about strength (and muscularity) from Ancient Greece and Rome. Examine the rise of circus strongmen and strongwomen, the professional physical education community’s shunning of “strength” as a desirable physiological goal, and the rise of non-professional entrepreneurs like Bob Hoffman, Joe Weider, and Arthur Jones who helped debunk the myth of muscle binding.

**Topic 73: History of Sport and Business.** Survey of the development of modern sport industry from late nineteenth-century roots to twenty-first century global phenomenon. Examines connections between media and sport; the role of IMG and other sport agencies in event sponsorship and creation of celebrity athletes; growth of professionalism in the Olympic movement; the rise of megacorporations; and the commercialization of college and high school athletics.

**Topic 74: History of Physical Culture and Alternative Medicine.** Examines the history of the various practices used to strengthen, enhance, and improve the health of the body through exercise, dietary manipulation, and other holistic practices. Kinesiology 395 (Topic: History of Physical Culture and Alternative Medicine) and Kinesiology 395 (Topic 74) may not both be counted.

**Topic 75: Sport and International Relations.** Examines the relationship between sport and international relations.

**Topic 76: History of Exercise Science and Sports Medicine.** Traces the evolution of exercise science and sports medicine from Classical Greece to the present.

**Topic 77: Strategic Management in Sport.** Graduate level preparation in developing and analyzing organizational strategies. Preparation for consultancy work as well as composing and analyzing business plans.

**Topic 78: History of Sports Nutrition.** Explore the many ways in which nutritional science, diet, and folk remedies came to be popularized among athletes, and what the ramifications of these developments were. Examine the relationship between exercise and diet in the early nineteenth century, with attention paid to British and American culture. Discuss the emergence of new dietary practices for athletes throughout time, ranging from vegetarian diets to high protein meals. Identify methods and theories found in histories of gender, sport, health, medicine, politics, and culture among other disciplines.

**Topic 79: Race, History and the Quest for Body Perfection.** Explore issues of race, gender, and sexuality as applied to the human body through the lens of cultural history. Examine beliefs about what has been considered “beautiful,” “fit,” “obese,” and “healthy” and bodies have been defined as “masculine,” “feminine,” or outside this traditional binary. Assess how the human body has been measured and critiqued by physical educators, scientists, and government agencies; how masculinity and the quest for ideal measurements has been celebrated and derided in different historical eras; how beauty...
and physique contests celebrate particular kinds of bodies; and how ideal bodies have been portrayed in art, photography and film.

**Topic 80: Statistical Methods in Education and Health.**

**Topic 81: Leadership in Sport Organizations.** Kinesiology 395 (Topic: Leadership in Sport Orgs) and 395 (Topic 81) may not both be counted.

**Topic 82: Human Anatomy Dissection.** Analyze human anatomy and train in human cadaver dissection. Perform detailed regional dissections on human cadavers to study the anatomy and anatomical relationships of the entire human body with an emphasis on clinically relevant anatomy. Kinesiology 395 (Topic: Human Anatomy Dissection) and 395 (Topic 82) may not both be counted

**Topic 83: Sports Economics.** Examine the economics of sports leagues, particularly those in North America. Use a managerial economics approach to cover three core areas of sports economics: industrial organization, labor, and public policy.

**Topic 84: Endocrine Physiology of Exercise.** Examine the hormones involved in exercise physiology and maladaptation(s) in disease states.

**Topic 85: Environmental Physiology.** Learn responses and adaptations of the cardiovascular and pulmonary systems to different extreme environments. Kinesiology 395 (Topic: Environmental Physiology) and 395 (Topic 85) may not both be counted.

**KIN 395D. Neurological Rehabilitation.**

Explore the scope, techniques, and research findings of the field of neuromuscular and biomechanical mechanisms in neurological rehabilitation. Review basic neuromuscular and biomechanical concepts and principles, and study recent efforts to apply them to selected clinical situations. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate advisor.

**KIN 196, 396. Doctoral Seminar.**

Individual or shared project research with reports evaluated by seminar participants and the instructor. The equivalent of one or three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and written consent form.

**KIN 296T, 396T. Directed Research.**

Investigation of assigned problems under direction of a Graduate Studies Committee member; development and demonstration of competence in research design and execution; production of an acceptably written research report. Conference course. May be repeated for credit. Prerequisite: Graduate standing and written consent form.

**KIN 197, 397. Research Problems.**

Individual or group research topics in a specialization area of kinesiology. One or three conference or lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and written consent form.

**KIN 197C, 397C. Movement and Cognitive Rehabilitation Science Seminar.**

Participate in facilitated research and professional development. Share work with peers and faculty and receive friendly and constructive feedback. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit. Prerequisite: Graduate standing.

**KIN 197P, 397P, 697P. Graduate Internship.**

Supervised practice in a professional organization, business, or institution. The equivalent of three, nine, or eighteen laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing, a University grade point average of at least 3.00 and a grade point average in the major department of at least 3.00, and written consent form.

**KIN 698. Thesis.**

The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in kinesiology and written consent of the graduate adviser; for 698B, Kinesiology 698A and written consent of the graduate adviser.

**KIN 398R. Master's Report.**

Preparation of a report to fulfill the requirement for the master's degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in kinesiology and written consent of the graduate adviser.

**KIN 399W, 699W, 999W. Dissertation.**

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

**Professional Courses**

**KOR - Korean**

**Korean: KOR**

**Lower-Division Courses**

**KOR 604. Accelerated First-Year Korean.**

Designed for students who understand or speak but do not read or write Korean. Not open to native speakers of Korean. Six class hours a week for one semester. Korean 604 and 506 may not both be counted; Korean 604 and 507 may not both be counted.

**KOR 506, 606. First-Year Korean I.**

Intended for non-native speakers of Korean. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Korean 604 and 506, 606 may not both be counted.

**KOR 507, 607. First-Year Korean II.**

Continuation of Korean 506, 606. Intended for non-native speakers of Korean. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Korean 604 and 507, 607 may not both be counted. Prerequisite: Korean 506, 606 with a grade of at least C.

**KOR 612. Accelerated Second-Year Korean.**

Not open to native speakers of Korean. Continuation of Korean 604. Six class hours a week for one semester. Korean 612 and 412K may not both be counted; Korean 612 and 412L may not both be counted. Prerequisite: Korean 604 with a grade of at least C.

**KOR 312K, 412K. Second-Year Korean I.**

Intended for non-native speakers of Korean. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Korean 612 and 312K, 412K may not both be counted. Prerequisite: Korean 507, 607 with a grade of at least C.

**KOR 312L, 412L. Second-Year Korean II.**

Intended for non-native speakers of Korean. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Korean 612 and 312L, 412L may not both be counted. Prerequisite: Korean 312K, 412K with a grade of at least C.
Topics in Korean.
This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Asian Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses
KOR 320K. Third-Year Korean I.
Three lecture hours a week for one semester. Prerequisite: Korean 612 or 412L with a grade of at least C.

KOR 320L. Third-Year Korean II.
Three lecture hours a week for one semester. Prerequisite: Korean 320K with a grade of at least C.

Topics in Korean.
This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Asian Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

KOR 330. Topics in Advanced Korean.
Fourth-year Korean readings on special topics. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Korean 320L with a grade of at least C.

Topic 1: Advanced Conversation in Korean. Emphasis on achieving an advanced level of proficiency in modern conversational Korean, with additional practice in advanced writing and listening skills. Korean 330 (Topic: Advanced Conversation) and 330 (Topic 1) may not both be counted.

Topic 2: Advanced Readings in Korean I. Selected modern Korean poems, short stories, and essays to develop reading and writing skills in advanced Korean. Includes discussion of cultural and historical issues. Korean 330 (Topic: Readings in Advanced Korean I) and 330 (Topic 2) may not both be counted.

KOR 330C. Introduction to Modern Korean Literature.
Three lecture hours a week for one semester. Korean 330 (Topic: Intro to Modern Korean Lit) and 330C may not both be counted. Prerequisite: Korean 320L with a grade of at least C.

KOR 330F. Korean Conversation through Media.
Develop conversational skills in Korean language through the analysis of authentic Korean media resources such as newspapers, the Internet, TV news, and audio files. Focus on the comprehension, analysis, translation, and critique of media texts, as well as some formal speaking. Three lecture hours a week for one semester. Only one of the following may be counted: Korean 330 (Topic: Korean Conv through Media I), 330 (Topic: Korean Conv thru Media II), 330F. Prerequisite: Korean 320L with a grade of at least C.

KOR 360. Conference Course in Korean Language and Literature.
Supervised individual study of selected problems in Korean language or literature. The equivalent of three lecture hours a week for one semester. Conference course. May be repeated for credit. Prerequisite: Korean 312L or 412L and written consent of instructor on form obtained from the undergraduate adviser.

Graduate Courses
KOR 381. Conference Course in Korean Language and Culture.
Supervised individual study in Korean language or culture. The equivalent of three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing, six semester hours of upper-division coursework in Korean, and written consent of instructor on a form obtained from the graduate coordinator.

KOR 384. Topics in Korean Language and Culture.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, and six semester hours of upper-division coursework in Korean or consent of instructor; additional prerequisites vary with the topic.

Professional Courses
L A - Liberal Arts
Liberal Arts: L A
Lower-Division Courses
L A 101E. Discovering the Liberal Arts and Humanities.
Introduction to the College of Liberal Arts (COLA) and its variety of research methodologies and scholarly opportunities. One lecture hour a week for one semester. Liberal Arts 101E and 101L (Topic: Discovering Lib Arts/Humanisms) may not both be counted.

L A 101L, 301L, 601L. Introduction to the Liberal Arts.
Topics related to exploring the various disciplines in the College of Liberal Arts. For each semester credit hour, one lecture hour a week for one semester. May be repeated for credit when the topics vary.

L A 101M. Liberal Arts to Career.
One lecture hour a week for one semester. Only one of the following may be counted: Economics 101S, Liberal Arts 101M, Liberal Arts Honors 104H. Offered on the letter-grade basis only. Prerequisite: Thirty semester hours of coursework.

L A 001N. Liberal Arts Career.
Explore professional development areas such as marketing your liberal arts degree to employers, exploring career industries, identifying strengths and skills, conducting job and internship searches, and preparing resumes and cover letters. One lecture hour a week for one semester. Offered on the pass/fail basis only.

L A 101P. Creating Your Academic Pathway.
Restricted to first-year students. Focuses on opportunities within the College of Liberal Arts, academic success, extracurricular support, and professional development. One lecture hour a week for one semester. Liberal Arts 101L (Topic: Liberal Arts Pathways/Planning) and 101P may not both be counted. Offered on the pass/fail basis only.

L A 001Q. First-Year Seminar.
Restricted to first-year students. One discussion hour a week for one semester. Offered on the pass/fail basis only. Prerequisite: Concurrent enrollment in Liberal Arts 101P.

An examination of fundamental concepts in critical thinking, including the role of intellectual virtues, an analysis of the elements of thought, Socratic thinking, and the application of universal intellectual standards.
Three lecture hours or two lecture hours and one discussion hour a week for one semester. Liberal Arts 302 and Natural Sciences 302 may not both be counted. May not be repeated for credit.

L A 002F. Foundation Scholars Program Seminar.
Restricted to students in the Foundation Scholars Program. One lecture hour a week for one semester.

L A 002P. Path to Admission through Co-Enrollment (PACE) Workshop.
Restricted to first-year students in the Path to Admission through Co-Enrollment (PACE) program. Provides guidance to first-year students in the Path to Admission through Co-Enrollment (PACE) program. One lecture hour a week for one semester.

L A 104R. Community Service.
Restricted to recipients of the Rapoport Service Scholarship. Tutorial course, in which students submit reports based on service learning and appropriate supplementary reading. The equivalent of one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Consent of instructor.

   Topic 1: Leadership, Ethics, and Society.
   Topic 2: Civic Engagement and Civic Responsibility.

L A 110. Internship.
Restricted to students in the College of Liberal Arts. Students work in a professional environment and apply analysis, communication, and other academic skills to practical work. The equivalent of one lecture hour and ten hours of fieldwork a week for one semester. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Completion of at least thirty semester hours of coursework, a University grade point average of at least 2.25, and consent of instructor.

L A 011. Internship Experience.
Restricted to Liberal Arts majors. Experience an internship and create SMART goals. Reflect on the internship experience and explore approaches in overcoming obstacles toward goals. The equivalent of one lecture hour a week for one semester. May be repeated for credit. Offered on the pass/fail basis only.

L A 112C, 212C. Topics in Community Engagement.
One or two lecture hours and five to seven community engagement hours a week for one semester. May be repeated for credit when the topics vary. Offered on the pass/fail basis only.

L A 113P, 213P. Topics in Peer Mentoring.
One or two lecture hours and five to seven mentoring hours a week for one semester. May be repeated for credit when the topics vary. Offered on the pass/fail basis only.

L A 117. Strategies in Critical Thinking for Success.
Introduction to strategies that enable well-informed decisions for success in college and beyond. One lecture hour a week for one semester. Liberal Arts 101L (Topic: Success Strat: Crit Thinking) and 117 may not both be counted.

Discussion of various issues related to the academic, cultural, and personal aspects of completing academic work in international locations. For each semester hour of credit earned, one lecture hour a week for one semester. Liberal Arts 119, 219, 319 and Undergraduate Studies 119 may not both be counted unless the topics vary. Liberal Arts 119, 219, 319 and 129, 229, 329 may not both be counted. May be repeated for credit when the topics vary. Offered on the letter-grade basis only.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the College of Liberal Arts. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

L A 320, 620. Internship.
Designed to establish the academic foundations of an internship course in the liberal arts. Students integrate knowledge derived from their academic studies with the experiences gained in an internship setting. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester with additional hours to be arranged. May be repeated for credit. Prerequisite: Completion of at least thirty semester hours of coursework, a University grade point average of at least 2.25, and consent of instructor.

L A 320D. Digital Humanities Internship.
Three lecture hours a week for one semester. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Consent of the instructor.

L A 320J. Jewish Studies Internship.
The equivalent of three lecture hours and ten internship hours a week for one semester. May be repeated twice for credit. May be repeated for credit. Prerequisite: Thirty semester hours of coursework and consent of instructor.

L A 220L, 320L, 420L, 520L, 620L. Military Leadership Internship.
Restricted to students participating in an approved ROTC program. Field leadership training program. For each semester hour of credit earned, one week of full-time fieldwork. Some programs may also require classroom hours. Offered during the summer session only. No more than six semester hours of this course may be counted toward any degree. Offered on the pass/fail basis only. Prerequisite: Upper-division standing.

Restricted to students participating in a study abroad program. For every hour of credit earned, the equivalent of one lecture hour a week for one semester. Prerequisite: Upper-division standing.

L A 321F. French Studies Internship.
Restricted to students pursuing a French Studies major. The equivalent of three lecture hours a week for one semester. Prerequisite: Thirty semester hours of coursework and consent of the director of Liberal Arts Career Services.

L A 321J. Italian Studies Internship.
Restricted to students pursuing a major in Italian Studies. The equivalent of three lecture hours a week for one semester. Prerequisite: Thirty semester hours of coursework and consent of the director of Liberal Arts Career Services.
L A 321M. Health and Society Internship.
Restricted to health and society majors. The equivalent of three lecture hours a week for one semester. Prerequisite: Thirty semester hours of coursework and consent of the director of Liberal Arts Career Services.

L A 321S. Security Studies Internship.
Restricted to students pursuing a Security Studies certificate. Three lecture hours a week for one semester. Prerequisite: Thirty semester hours of coursework and consent of the director of Liberal Arts Career Services.

L A 125, 225, 325. Topics in the Liberal Arts.
Analysis of topics in the philosophy and real-life application of the liberal arts. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Additional meeting times may be required. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing. Additional prerequisites vary with the topic.

Restricted to students participating in a study abroad program. Discussion of various issues related to the academic, cultural, and personal aspects of completing academic work in international locations. For each semester hour of credit earned, one lecture hour a week for one semester. Liberal Arts 129, 229, 329 and Undergraduate Studies 119 may not both be counted unless the topics vary. Liberal Arts 119, 219, 319 and 129, 229, 329 may not both be counted. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

Topics in Liberal Arts.
This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the College of Liberal Arts. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

L A 130G. Global Disinformation Research.
Focus on various aspects of global disinformation from security, social, and policy perspectives. One lecture hour a week for one semester. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

Restricted to students in the College of Liberal Arts. For every semester hour of credit earned, three hours of fieldwork a week for one semester. May be repeated for credit, but no more than six hours may be counted toward degree requirements. Prerequisite: Upper-division standing, a grade point average of at least 2.50, and written consent of instructor.

Same as Communication 340, Fine Arts 345, and Management 340. Restricted to students accepted to the UT in New York Program. Explore leadership skills and goals in the urban context. Read and discuss leadership challenges that arise when stakeholders come together to plan, make decisions, and take action in organizational and community settings. Three lecture hours a week for one semester. Only one of the following may be counted: Communication 340, Fine Arts 345, Liberal Arts 325 (Topic: Leadership/Urban Engagement), 340, Management 340.

L A 350. Research Conference Course.
Restricted to students in the UT in New York (UTNY) program. The equivalent of three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Forty-five semester hours of coursework.

Graduate Courses
Offer skills-based training for students at different stages of their programs. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the credit/no credit basis only. Prerequisite: Graduate standing; additional prerequisites may vary with the topic.

L A 381. Liberal Arts: Advanced Methods.
Offers skills-based training for students at different stages of their program. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites may vary with the topic.

For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

Professional Courses
LAH - Liberal Arts Honors
Liberal Arts Honors: LAH
Lower-Division Courses
LAH 101. The Idea of Reacting to the Past.
Restricted to students in the Liberal Arts Honors Program and Plan II. Develop skills in public speaking, debate, critical thinking, research and writing using historically-based perspectives through role play. The equivalent of one lecture hour a week for one semester.

Restricted to students in the Freshman Honors Program in the College of Liberal Arts. An overview of the liberal arts disciplines. One, two, or three class hours a week for one semester. Additional hours may be required. Offered on the letter-grade basis only.

LAH 103H. The Ideas of Civic Engagement.
Restricted to students in the Liberal Arts Honors Program in the College of Liberal Arts. Introduces Liberal Arts Honors students to the resources of the University, their history, and how to make best use of them. Provides guidance on internships, scholarships, and career paths, encouraging students to prepare for a lifetime of civic engagement and public service. One lecture hour a week for one semester, with additional hours to be arranged. Humanities 116 and Liberal Arts Honors 103H may not both be counted. Offered on the letter-grade basis only. Prerequisite: Liberal Arts Honors 102H.

LAH 104H. Professionalization and Career Development.
Restricted to students in the Liberal Arts Honors Program in the College of Liberal Arts. Introduction to the ideas, concepts, and best practices of career development, professionalization and professional online brand management. Provides guidance on internships and career paths working in conjunction with Liberal Arts Career Services. One and one-half lecture hours a week for one semester. Only one of the following
may be counted: Economics 101S, Liberal Arts 101M, Liberal Arts Honors 104H. Offered on the letter-grade basis only.

**LAH 305. Liberal Arts Freshman Honors Seminar.**
Restricted to students in the Freshman Honors Program in the College of Liberal Arts. Intensive small class lecture or seminar course addressing basic issues in various liberal arts disciplines. Lectures, readings, discussions, examinations. Three lecture hours a week for one semester. Humanities 305 and Liberal Arts Honors 305 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Offered on the letter-grade basis only.

**Topic 1: Reacting to the Past.** Liberal Arts Honors 305 (Topic 1) and 305 (Topic: Reacting to the Past) may not both be counted. Offered on the letter-grade basis only.

**LAH 112H. The Nature of Inquiry.**
Designed for students who plan to enter a liberal arts departmental honors program. Introduction to the nature of research in liberal arts disciplines. One and one-half class hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Forty-five semester hours of coursework and consent of the liberal arts honors director.

**LAH 318O. Supervised Research.**
Individual instruction. Prerequisite: Consent of the liberal arts honors program adviser.

**Upper-Division Courses**

**LAH 340L. Legal Internships.**
Restricted to Plan I majors in the College of Liberal Arts who are participants in the Liberal Arts Honors Scholars Program. Explore the role of lawyers and how the practice of law has shaped American society. Intern in law offices or legal settings. Gain practical experience and first-hand knowledge of different legal fields. Internships help shape classroom discussions. Examine the practice of law and how lawyers serve the public interest and larger society. The equivalent of three lecture hours a week for one semester with an additional 9-10 internship hours a week for one semester. Liberal Arts Honors 340L and 350 (Topic: Legal Internships and the Law) may not both be counted. Offered on the letter-grade basis only. Prerequisite: Upper-division standing, cumulative grade point average of at least 3.25.

**LAH 340M. Business Consulting Internship.**
In a classroom setting, explore and discuss the role of consultants in the business world and how both have shaped American society. Discuss hands-on experience from internships in the classroom. One lecture hour and ten internship hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing, and a cumulative grade point average of at least 3.25.

**LAH 340N. Nonprofit Management Internship.**
In a classroom setting, explore the role of non-profit organizations and how they have shaped American society. Discuss hands-on experience from internships in the classroom. One lecture hour and ten internship hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing, and a cumulative grade point average of at least 3.25.

**LAH 340P. Public Health Internship.**
In a classroom setting, explore the role of public health organizations and how they have shaped American society. Discuss hands-on experience from internships in the classroom. One lecture hour and ten internship hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing, and a cumulative grade point average of at least 3.25.

**LAH 340Q. Technical Writing and Social Media Internship.**
In a classroom setting, explore the expanding role of social media and technical writing in society and how both have shaped American society. Discuss hands-on experience from internships in the classroom. Offered on the letter-grade basis only. Prerequisite: Upper-division standing, and a cumulative grade point average of at least 3.25.

**LAH 340R. Public Policy Internships and Advocacy.**
Restricted to Plan I majors in the College of Liberal Arts who are participants in the Liberal Arts Honors Scholars Program. Examine how public policy is made, functions, and can be changed through the use of case studies, policy reports, and articles on current issues. Participate in a public policy-oriented internship. The equivalent of three lecture hours a week for one semester with an additional 9-10 internship hours a week for one semester. Liberal Arts Honors 350 (Topic: Pub Pol Internships/ Advocacy) and 340R may not both be counted. Offered on the letter-grade basis only. Prerequisite: Upper division and a grade point average of at least 3.25.

**LAH 149. Scholars Honors Capstone.**
Produce a paper that reflects upon the student's academic enrichment experiences and how it impacted their views and career goals. The equivalent of one lecture hour a week for one semester. Offered on the pass/fail basis only. Prerequisite: Upper-division standing, and a cumulative grade point average of at least 3.25.

**LAH 350. Topics in the Liberal Arts.**
Restricted to Plan I majors in the College of Liberal Arts. Intensive lecture course treating topics from a variety of disciplinary perspectives, taught by instructors from various departments. Lectures, readings, discussions, examinations. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and a grade point average of at least 3.50.

**Topic 1: Defense Policy.** Articulation of national security strategy through decisions about Department of Defense organization and resources. Overview of military terms and organizing principles with an emphasis on policy, personnel, acquisition, budget, intelligence, and leadership. Only one of the following may be counted: Government 360N (Topic: Defense Policy), Liberal Arts Honors 350 (Topic: Defense Policy), 350 (Topic 1), Public Affairs 325 (Topic: Defense Policy).

**Topic 2: Our Lives in Fiction.** Examines the hypothesis that human beings have and continue to create and recreate themselves through the telling of stories. Explores the concept that stories help define what is significant, what is praiseworthy, and what it is we should value and why. Only one of the following may be counted: Core Texts and Ideas 345 (Topic: Our Lives in Fiction), Liberal Arts Honors 350 (Topic: Our Lives in Fiction), 350 (Topic 2).

**Topic 3: Technical Change and Financial Crisis.** Explores the economics of the business firm, the management of technical change, and the interaction between technology and finance in the writings of major twentieth century economists. Emphasis on attempting to understand the social and income-distributional consequences of technical change, the potential for system instability, and the dilemmas of public policy in this area. Liberal Arts Honors 350 (Topic: Technical Change and Financial Crisis) and 350 (Topic 3) may not both be counted.

**Topic 4: Literature of World War I.** Same as Humanities 350 (Topic 10). Selected readings from autobiographies, poetry, fiction, and memoirs, primarily about the Western Front, by German, British,
and American authors; a short history of World War I; readings of a central book of literary analysis; exploration of the nature of war, the experience of combatants, and the legacy of the war itself and its unique literature. Only one of the following may be counted: Humanities 350 (Topic: Literature of the Great War), 350 (Topic 10), Liberal Arts Honors 350 (Topic: Literature of the Great War), 350 (Topic 4).

**Topic 5: Modern Masters of the Novel.** An examination of a range of subjects and styles that distinguish the capacity of the novel to reflect private lives and public moments. Focuses on nineteenth and twentieth century British and American novelists such as George Eliot, Philip Roth, Ford Maddox Ford, and Graham Greene. Only one of the following may be counted: Humanities 350 (Topic: Novels of Distinction), Liberal Arts Honors 350 (Topic: Novels of Distinction), 350 (Topic 5).

**Topic 6: Documentary Film and Inquiry.** Examines how narrative accounts such as documentary film, biography, or other non-fiction work impact the interpretation of significant events. A component of the class includes individual or collaborative research on a chosen topic and presentation of a life history project via a narrative description, video, photography, or other medium. Only one of the following may be counted: Educational Psychology 369K (Topic: Life History and Documentary Approaches to Inquiry), Liberal Arts Honors 350 (Topic: Life History and Documentary Approaches to Inquiry), 350 (Topic 6).

**Topic 7: Power and Belief in Early Modern Europe.** The historical and cultural processes that lead people to change the way they look at the world, and also brought some early modern Europeans to argue for religious toleration - first as a practical matter, and eventually as a matter of principle. Only one of the following may be counted: History 350L (Topic: Spinoza's World), Liberal Arts Honors 350 (Topic: Spinoza's World), 350 (Topic 7).

**Topic 8: The Decolonization of the British Empire.** Explores the era of decolonization of the British empire after World War II. Only one of the following may be counted: History 350L (Topic: Decolonization of British Empire), 350L (Topic 69), Liberal Arts Honors 350 (Topic: Decolonization of British Empire), 350 (Topic 8).

**Topic 9: Getting it in Writing.** An exploration of nonfiction writing and the process of translating facts, ideas, and experiences into words. Liberal Arts Honors 350 (Topic: Getting it in Writing) and 350 (Topic 9) may not both be counted.

**Topic 10: In Search of Meaning.** Restricted to Plan I majors in the College of Liberal Arts. The concepts will include: monotheism, the nature and personality of this god, the soul, chosen people, linear time, history as divine classroom, original sin, heaven, hell, salvation, etc. Establish how and when these and a host of other features came into existence and created Judeo-Christian reality, and contrast the reality created therein with other realities – Hinduism, Buddhism, Confucianism, Islam. Only one of the following may be counted: Humanities 350 (Topic: In Search of Meaning), 350 (Topic: The Quest for Meaning), 350 (Topic 6), Liberal Arts Honors 350 (Topic: In Search of Meaning), 350 (Topic 10). Prerequisite: Upper-division standing and a University grade point average of at least 3.50.

**Topic 11: Rhetoric of Great Speeches.** Exploration of the nature and history of rhetoric and analysis of some of the great speeches of the Western tradition. Liberal Arts Honors 350 (Topic: Rhetoric of Great Speeches) and 350 (Topic 11) may not both be counted.

**Topic 12: Technologies of the Book.** Examines the technologies that enabled the book and explores its impact on society, with particular attention paid to the printed book that has flourished since the mid-fifteenth century. Explores the technologies of production and manufacture, and those that enabled the creation of texts by authors and their distribution and reception, and considers the future of the book in today's society. Only one of the following may be counted: Information Studies 350E (Topic: Technologies of the Book), Liberal Arts Honors 350 (Topic: Technologies of the Book), 350 (Topic 12).

**Topic 13: Writing Nonfiction.** Restricted to Plan I majors in the College of Liberal Arts. The craft of writing profiles, narratives, and essays. Concentration on the fundamental components of nonfiction: beginnings, organization, character development, narrative flow, and conclusions. Only one of the following may be counted: Liberal Arts Honors 350 (Topic: Writing Nonfiction), 350 (Topic 13), Tutorial Course 325 (Topic: Writing Nonfiction).

**Topic 14: Money In American Politics.** Same as Humanities 351D. Restricted to Plan I majors in the College of Liberal Arts. Explores the nature and consequences of money in American politics. Three lecture hours a week for one semester. Only one of the following may be counted: Government 379S (Topic: Money in Politics), Humanities 350 (Topic: Money in Politics), 351D, Liberal Arts Honors 350 (Topic 14). Additional prerequisite: Upper-division standing and grade point average of at least 3.50.

**Topic 15: History at Play.** Restricted to Plan I majors in the College of Liberal Arts. Explores the great religious, political, and cultural debates that occurred around two historic events: England's break with the Catholic Church in 1536 and India gaining independence from Britain in 1947. Liberal Arts Honors 350 (Topic: History at Play II) and 350 (Topic 15) may not both be counted.

**Topic 16: Psychology and Religion in Modern American Culture.** Explores the historical, religious, and psychotherapeutic manifestations of the "search for meaning" in modern American culture. Examines theology, psychological theory, literature, music, politics, and art. Only one of the following may be counted: Jewish Studies 364 (Topic: Psychology and Religion in Modern American Culture), Liberal Arts Honors 350 (Topic: Psychology and Religion in Modern American Culture), and 350 (Topic 16).

**Topic 17: Race and Medicine in American Life.** Restricted to Plan I majors in the College of Liberal Arts. Only one of the following may be counted: Liberal Arts Honors 350 (Topic: Race and Medicine in American Life), 350 (Topic 17), Tutorial Course 357 (Topic: Race and Medicine in Amer Life).

**Topic 18: The Johnson Years.** Same as Humanities 351C. Restricted to Plan I majors in the College of Liberal Arts. Three lecture hours a week for one semester. Only one of the following may be counted: Humanities 350 (Topic: Johnson Years), 351C, Liberal Arts Honors 350 (Topic: Johnson Years), 350 (Topic 18). Additional prerequisite: Upper-division standing and a grade point average of at least 3.50.

**Topic 19: British History, Literature, and Politics.** Same as History 366N (Topic 17). Restricted to Plan I majors in the College of Liberal Arts. Reading course in history, literature, and politics, and as a class in professional writing. Examines not only the literature, history, and politics of England, Wales, Scotland, and Ireland, but also the interaction of British and other societies throughout the world. Only one of the following may be counted: History 366N (Topic: British History, Literature and Politics), 366N (Topic 17), Liberal Arts Honors 350 (Topic: British History, Literature and Politics), 350 (Topic 19), Tutorial Course 325 (Topic: British History, Literature and Politics). Additional prerequisite: Grade point average of at least 3.50.

**Topic 21: Inequality in the United States Educational System.** Same as Sociology 345D. Restricted to Plan I majors in the College of Liberal Arts. Examine how inequality has developed and is maintained within the American public education system. Three lecture hours a week for one semester. Only one of the following may be counted: Liberal Arts Honors 350 (Topic: Inqlyt in US Edu Sys), 350 (Topic 21), Sociology 321K (Topic: Inqlyt in US Edu Sys), 345D. Additional prerequisite: Upper-division standing and a grade point average of at least 3.50.

**Topic 22: Leadership Strategy In Sports.** Liberal Arts Honors 350 (Topic: Leadership Strategy in Sports) and 350 (Topic 22) may not both be counted.
Topic 23: The Human Place in Nature. Liberal Arts Honors 350 (Topic: Human Place in Nature) and 350 (Topic 23) may not both be counted.

Topic 27: Sicily: Myth, Reality, and Mafia. Examine the artistic traces left in Sicily by Greek, Roman, Arab, Norman, and Spanish civilizations and how they contributed to create the present Sicilian reality. Liberal Arts Honors 350 (Topic: Sicily: Myth/Reality/Mafia) and 350 (Topic 27) may not both be counted.

Topic 28: Treasure Hunt Archival Research. Same as Humanities 350 (Topic 13). Discover, explore and identify the boundless treasures that can be found on the University of Texas Austin campus as you hunt through the vast cultural and historical collections at the archives on campus including the Harry Ransom Center, the Dolph Briscoe Center for American History, and the LLILAS Benson Latin American Collection. Explore essential skills for pursuing original research projects in humanities disciplines and apply these skills to bring public attention to hidden histories and marginalized voices in American culture. Only one of the following may be counted:

Topic 29: David Foster Wallace. Only one of the following may be counted: English 349S (Topic: David Foster Wallace), 349S (Topic 14), Liberal Arts Honors 350 (Topic: David Foster Wallace), 350 (Topic 29).

Topic 30: Paradise Lost: Reception History. Only one of the following may be counted: English 350M (Topic: Paradise Lost/Its Recept), 351P, Liberal Arts Honors 350 (Topic: Paradise Lost/Its Recept), 350 (Topic 30).

Topic 31: Immigration Literature. Only one of the following may be counted: English 343L, 376M (Topic: Immigration Literature), 376M (Topic 10), Liberal Arts Honors 350 (Topic: Immigration Literature), 350 (Topic 31).

Topic 32: Literature, Cultural Memory, and the American Civil War. Examines the American Civil War not in terms of its military or political history but in relation to the ways literary and cultural texts have remembered and rewritten it. Only one of the following may be counted: English 350R (Topic 3), Liberal Arts Honors 350 (Topic: Am Lit/Cul/The Civil War), 350 (Topic 32).

LAH 351C. African American Family in Historical and Contemporary Contexts.

Same as African and African Diaspora Studies 351R and Sociology 325F. Restricted to Plan I majors in the College of Liberal Arts. Examine how African Americans managed to maintain a sense of family from the time of slavery to the present trend of mass incarceration. Three lecture hours a week for one semester. Only one of the following may be counted:

LAH 351D. Ethical Issues in Medicine and Society.

Restricted to Plan I majors in the College of Liberal Arts. Explore, analyze, and evaluate health and health care in the twenty-first century. Examine the social factors at play in relation to disease and illness, the rise of the medical-industrial complex, and how the issues of power underlie ethical dilemmas in both medicine and society. Three lecture hours a week for one semester. Liberal Arts Honors 350 (Topic: Ethical Issues/Med/Society) and 351D may not both be counted. Prerequisite: Upper-division standing and a grade point average of at least 3.50.

LAH 351E. Gender Equality in World Development.

Restricted to Plan I majors in the College of Liberal Arts. Examine the causes and consequences of gender equality and inequality in the world. Identify where the most and least progress has occurred for gender equality. Analyze the causal links between women's empowerment and development. Three lecture hours a week for one semester. Liberal Arts Honors 350 (Topic: Gender Equality/World Devel) and 351E may not both be counted. Prerequisite: Upper-division standing and a grade point average of at least 3.50.

LAH 351F. Philanthropy and Nonprofit Organizations.

Restricted to Plan I majors in the College of Liberal Arts. Examine the scope and diversity of the nonprofit sector, as well as individual patterns of giving and volunteering. Focus on the tools and skills needed to evaluate charitable programs for effectiveness using social scientific techniques. Three lecture hours a week for one semester. Liberal Arts Honors 350 (Topic: Philanthropy/Nonprofit Orgs) and 351F may not both be counted. Prerequisite: Upper-division standing and a grade point average of at least 3.50.

LAH 351G. Reacting to Revolutionary Ideas.

Same as Russian, East European, and Eurasian Studies 335 (Topic 27). Restricted to Plan I majors in the College of Liberal Arts. Explore revolutionary themes in Western and non-Western countries during the nineteenth and twentieth centuries. Three lecture hours a week for one semester. Only one of the following may be counted: Liberal Arts Honors 350 (Topic: Reacting/Revolutionary Ideas), 351G, Russian, East Europeans, and Eurasian Studies 335 (Topic: Reacting/Revolutn Ideas: HON), 335 (Topic 27) Prerequisite: Upper-division standing and a grade point average of at least 3.50.

LAH 351I. Rejection Immunity.

Restricted to Plan I majors in the College of Liberal Arts. Examine the neuroscience and psychology behind the brain's calculations of risk in various aspects of our lives. Explore and craft research based response systems to inform future reactions to receiving a rejection. Three lecture hours a week for one semester. Only one of the following may be counted: Liberal Arts 350 (Topic: Rejection Immunity), 351I, Tutorial Course 325 (Topic: Rejection Immunity) Prerequisite: Upper-division standing and grade-point average of at least 3.50.

LAH 351J. Regime Perspectives on American Politics.

Same as Core Texts and Ideas 326R and Government 379C. Explore American politics and culture and examine how the parts of America fit together as a whole. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 326R, 335 (Topic: Regime Persp Amer Poltc-Honors), Government 379C, 379S (Topic 3), Liberal Arts Honors 350 (Topic: Regime Persp on Amer Politics), 351J. Prerequisite: Upper-division standing, six semester hours of government coursework, and a grade point average of at least 3.50.

LAH 351K. Citizenship in Democratic Politics.

Same as Government 379D. Examine the role of ordinary citizens in democratic politics. Three lecture hours a week for one semester. Only one of the following may be counted: Government 379D, 379S (Topic: Citizens in Democratic Pol-Hon), Liberal Arts Honors 350 (Topic: Citizens in Democratic Pol), 351K. Prerequisite: Upper-division standing, six semester hours of coursework in Government, and a grade point average of at least 3.50.

LAH 351L. Homer and Plato.

Same as Government 379E. Examine the works of Homer and Plato. Explore the ideas of human nature, existence, leadership, courage, honor, ambition, justice, necessity, fate, divine power, human freedom, and moral responsibility. Three lecture hours a week for one semester. Only
one of the following may be counted: Government 379E, 379S (Topic: Homer and Plato-Honors), Liberal Arts Honors 350 (Topic: Homer and Plato), 351L. Prerequisite: Upper-division standing, six semester hours of lower-division coursework in government, and a grade point average of at least 3.50.

LAH 351M. Jerusalem and Athens.
Same as Core Texts and Ideas 330J and Government 379G. Examine the age-old confrontation between the teaching of the Bible and the politics and philosophy of the ancient Greeks. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 330J, 335 (Topic: Jerusalem and Athens-Honors), 375 (Topic: Jerusalem and Athens-Honors), Government 379G, 379S (Topic: Jerusalem and Athens-Honors), 379S (Topic 4), Liberal Arts Honors 350 (Topic: Jerusalem and Athens), 351M. Prerequisite: Upper-division standing, six semester hours of coursework in government, and a grade point average of at least 3.50.

Same as Humanities 351N. Restricted to Plan I majors in the College of Liberal Arts. Use digital archives and exhibits to amplify voices that actively promote social justice, cultural awareness, and service; and to test the ethical positions about impartiality and advocacy in archival and exhibit practices. Three lecture hours a week for one semester. Only one of the following may be counted: Humanities 350 (Topic: Archiv Advocacy:Exper Learn), 351N, Liberal Arts Honors 350 (Topic: Archiv Advocacy:Exper Learn), 351N. Prerequisite: Upper-division standing and a grade point average of at least 3.50.

LAH 351O. Data Analytics In Contemporary Society.
Restricted to Plan I majors in the College of Liberal Arts. Investigate the influence of data analytics in contemporary society. Explore how data is generated and presented in popular, scholarly, and other forms of media. Three lecture hours a week for one semester. Liberal Arts Honors 350 (Topic: Data Analytics, Contemp Soc) and 351O may not both be counted. Prerequisite: Upper-division standing and a grade point average of at least 3.50.

Through Niccolo Machiavelli’s chief writings, consider the local, regional, Mediterranean, European, and global aspects of his work. Three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 330 (Topic: Machiavelli), 330 (Topic 6), Core Texts and Ideas 330M, 375 (Topic: Machiavelli), European Studies 346 (Topic: Machiavelli), History 344R, 350L (Topic: Machiavelli), Liberal Arts Honors 350 (Topic: Machiavelli), 351P, Religious Studies 357 (Topic: Machiavelli), 357C. Prerequisite: Upper-division standing and grade-point average of at least 3.50.

LAH 351Q. Holocaust Aftereffects.
Restricted to Plan I majors in the College of Liberal Arts. Explore the historical, political, psychological, theological, and cultural fallout of the Holocaust, as well as literary and cinematic responses in Europe and the United States. Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 323 (Topic 40), European Studies 346 (Topic 23), German, Scandinavian, and Dutch Studies 360 (Topic 1), Jewish Studies 365 (Topic 14), Liberal Arts Honors 350 (Topic: Holocaust Aftereffects), 351Q, Religious Studies 357 (Topic 18), 357V, Women’s and Gender Studies 340 (Topic: Holocaust Aftereffects), 340 (Topic 66). Prerequisite: Upper-division standing and a grade point average of at least 3.50.

LAH 351R. Social Inequality and Health in the United States.
Same as Sociology 342N. Restricted to Plan I majors in the College of Liberal Arts. Examine how socioeconomic status and social inequality shape health and mortality across the United States. Consider various possible explanations including stress, health behaviors, violence, and other factors. Three lecture hours a week for one semester. Only one of the following may be counted: Liberal Arts Honors 350 (Topic: Soc Ineq & Health in U.S.), 351R, Sociology 321K (Topic: Soc Ineq & Health in U.S.), 342N. Prerequisite: Upper-division standing and a grade point average of at least 3.5.

LAH 351S. Interpreting Black Rage.
Restricted to Plan I majors in the College of Liberal Arts. Examine the residual effects of slavery and its impact on race relations in the United States. Explore Black rage in literature, music, and film. Three lecture hours a week for one semester. Liberal Arts Honors 350 (Topic: Interpreting Black Rage) and 351S may not both be counted. Prerequisite: Upper-division standing with a grade point average of at least 3.50.

LAH 351T. Jewish Identities in the Americas.
Restricted to Plan I majors in the College of Liberal Arts. Examine the work of Jewish creative intellectuals from the United States, Latin America, and Canada from a comparative perspective. Three lecture hours a week for one semester. Only one of the following may be counted: Jewish Studies 363 (Topic: Jewish Identities: Americas), Jewish Studies 363 (Topic 27), Liberal Arts Honors 350 (Topic: Jewish Identities: Americas), 351T. Prerequisite: Upper-division standing and grade-point average of at least 3.50.

LAH 351U. Neglected Middle Class.
Restricted to Plan I majors in the College of Liberal Arts. Examine how a steady succession of laws and policies (including labor and employment, consumer lending, financial services, housing, and tax) have created enormous income and wealth inequality gaps between the country’s richest households and everyone else. Three lecture hours a week for one semester. Liberal Arts Honors 350 (Topic: Neglected Middle Class) and 351U may not both be counted. Prerequisite: Upper-division standing and grade-point average of at least 3.50.

LAH 351V. Health, Health Care, and Humanities.
Restricted to Plan I majors in the College of Liberal Arts. Examine the intersections of the humanities with health, illness, and health care and shed new light on health and health care inequities, the role of narrative, and other representational forms in the illness experience. Explore the relationships between health, healing, and culture; the history of pandemics; and social constructions of ability and disability. Three lecture hours a week for one semester. Liberal Arts Honors 350 (Topic: Hlth/Hlth Care/Humanities) and 351V may not both be counted. Prerequisite: Upper-division standing and grade-point average of at least 3.50.

LAH 351W. Hitler, Nazism, and World War II.
Same as History 376G. Restricted to students in the Normandy Scholars Program. Three lecture hours a week for one semester, and approximately three weeks of study in France. Only one of the following may be counted: History 376G, Liberal Arts Honors 350 (Topic: Hitler, Nazism, & World War II), 351W. Prerequisite: Upper-division standing and a grade point average of at least 3.50.

LAH 352C. Germany in the Twentieth Century.
Same as History 337N and Russian, East European, and Eurasian Studies 335 (Topic 11). Survey of German political and military institutions, economic development, culture, and society. Three lecture hours a week for one semester. Only one of the following may be counted: History 337N, Liberal Arts Honors 350 (Topic: Germany in the 20th Century), 352C, Russian, East European, and Eurasian Studies 335 (Topic 11).
Prerequisite: Upper-division standing and a grade point average of at least 3.5.

LAH 352D. Dedman Scholars Seminar.
Travel abroad to study the history, culture and politics of different regions across the world under the direction of various academic departments of the University. The equivalent of three lecture hours a week for one semester. Liberal Arts Honors 350 (Topic: Dedman Scholars Maymester) and 352D may not both be counted. Prerequisite: Consent of the department.

LAH 352E. Language Truths, Myths, and Mysteries.
Restricted to Plan I majors in the College of Liberal Arts. Explore an introductory characterization of language and linguistics. Identify long-lasting controversial issues and common viewpoints about language and puzzling real-life language-related phenomena. Analyze these issues through a reasoned, rigorous confrontation of facts and fallacies with the objective of competently articulating defensible conclusions. Three lecture hours a week for one semester. Liberal Arts Honors 350 (Topic: Lang Truths Myths Mysteries) and 352E may not both be counted. Prerequisite: Upper division standing and a grade point average of at least 3.50.

LAH 352J. Global Sustainability and Soil.
Same as Geography 349S. Restricted to Plan I majors in the College of Liberal Arts. Examine soil as a resource from the perspectives of natural and sustainability science, including soil ecology and biodiversity, formation, fertility for ecosystems and farming systems, soil health, distinguishing characteristics in nature, taxonomy, and soil spatial variability around the globe. Three lecture hours a week for one semester. Only one of the following may be counted: Geography 349S, 356 (Topic: Global Sustainability/Soil-Hon), Liberal Arts Honors 350 (Topic: Global Sustainability/Soil), and 352J. Offered on the letter-grade basis only. Prerequisite: Upper-division standing and a grade point average of at least 3.50.

LAH 358Q. Supervised Research.
Individual instruction. May be repeated for credit, but no more than six semester hours may be counted toward College Honors. Prerequisite: A University grade point average of at least 3.50 and consent of the liberal arts honors program adviser.

LAH 364H. The Enlightenment.
Restricted to Plan I majors in the College of Liberal Arts. Examination of the European Enlightenment, an intellectual movement centered in eighteenth-century France and England that cut across all disciplines and arts and that looked back to the Renaissance and forward to the modern world. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing and a grade point average of at least 3.50.

LAH 365P. Honors Seminar in Political Theory.
Restricted to Plan I majors in the College of Liberal Arts. An in-depth study of selected texts, authors, or themes in the history of political thought from ancient times to the present. Three lecture hours a week for one semester. Prerequisite: Upper-division standing; six hours of any the following: Core Texts and Ideas 302, 303, Government 312P; 335M, 351C, 351D, 351E, 351G, 351J, 379S (Topic 3), 379S (Topic 4); a grade point average of at least 3.5.

LAH 368H. Literature of the Hispanic World.
Restricted to Plan I majors in the College of Liberal Arts. An examination of the literature and culture of Spain and Spanish America, from the Middle Ages to the present. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing and a grade point average of at least 3.50.

LAH 369H. Comparative Legal Systems.
Restricted to Plan I majors in the College of Liberal Arts. An examination of legal traditions from Europe, English common law, and Asia. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing and a grade point average of at least 3.50.

LAH 370H. The Rise of Modern America.
Restricted to Plan I majors in the College of Liberal Arts. Three lecture hours a week for one semester. Liberal Arts Honors 350 (Topic: Lang Truths Myths Mysteries) and 352E may not both be counted. Prerequisite: Upper-division standing and a grade point average of at least 3.50.

LAH 371H. Classics of Greek Philosophy.
Restricted to Plan I majors in the College of Liberal Arts. A close reading of major works in the philosophy of Plato and Aristotle, supported by background reading in the history and literature of ancient Greece. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing and a grade point average of at least 3.50.

LAH 372H. Literature of the Hispanic World: Continuities.
Restricted to Plan I majors in the College of Liberal Arts. Three lecture hours a week for one semester. Liberal Arts Honors 350 (Topic: Lang Truths Myths Mysteries) and 352E may not both be counted. Prerequisite: Upper-division standing and a grade point average of at least 3.50.

LAH 373H. Literature of the Western World: Continuities.
Restricted to Plan I majors in the College of Liberal Arts. Tradition and innovation of form and thought in literature from Homer to the twentieth century. Three lecture hours and one discussion hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing and a grade point average of at least 3.50.

LAH 376H. The Rise of Modern America.
Restricted to Plan I majors in the College of Liberal Arts. The end of Reconstruction (1877) to the end of the war in Vietnam (1975)–industrialization, urbanization, immigration, nuclear energy, and global reach. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing and a grade point average of at least 3.50.

LAH 377H. Ideas of the Twentieth Century.
Restricted to Plan I majors in the College of Liberal Arts. Central philosophical controversies of the twentieth century: ethics, politics, comparative religions, science and human nature. Three lecture hours and one discussion hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing and a grade point average of at least 3.50.

LAH 378H. The Natural Sciences in the Liberal Arts Context.
Restricted to Plan I majors in the College of Liberal Arts. An attempt to understand contemporary developments in science by focusing on the history and philosophy of science. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing and a grade point average of at least 3.50.

LAH 379H. Classical Asian Civilizations.
Restricted to Plan I majors in the College of Liberal Arts. An examination of the contributions of India and China to intellectual history. Three
Lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing and a grade point average of at least 3.50.

**LAL 679T. Honors Thesis.**
Restricted to Plan I majors in the College of Liberal Arts. Supervised research, reading, and writing of a substantial paper on an interdepartmental subject. Conference course for two semesters. Offered on the letter-grade basis only. Prerequisite: For Liberal Arts Honors 679TA, upper-division standing, a grade point average of at least 3.50, and written consent of the director of the Liberal Arts Honors Program; for 679TB, Liberal Arts Honors 679TA.

**Graduate Courses**
**Professional Courses**
**LAL - Indigenous Languages of Latin America**

**Indigenous Languages of Latin America: LAL**

**Lower-Division Courses**

**LAL 601C. Intensive Indigenous Language of Latin America I.**
Introduction to an indigenous language of Latin America. Designed to provide students with the basics of grammar and vocabulary; the ability to engage in simple, colloquial conversation; and basic writing skills as foundation for further study. The equivalent of six lecture hours a week for one semester. May be repeated for credit when the topics vary.

**LAL 406. First-Year Ancient Mayan I.**
Introduction to the grammar and hieroglyphic writing used to record Ancient Mayan as well as key elements of cultural and historical context that are crucial for interpreting texts, including calendrics and political history. Four lecture hours a week for one semester.

**LAL 407. First-Year Ancient Mayan II.**
Explore basic functions of the script and language, how hieroglyphic texts are structured, and how the rich Classic Maya iconographic tradition interacts with and complements the textual tradition. Four lecture hours a week for one semester. Prerequisite: Indigenous Languages of Latin America 406.

**LAL 611C. Intensive Indigenous Language of Latin America II.**
Continuation in the study of an indigenous language of Latin America. Designed to introduce students to advanced subjects in grammar and vocabulary and develop advanced conversation, reading, and writing skills as a foundation for further study. The equivalent of six lecture hours a week for one semester. Prerequisite: Indigenous Languages of Latin America 601C with a grade of at least C.

**LAL 312K. Second-Year Ancient Mayan I.**
Analyze problems in grammar and discourse in Ancient Mayan texts. Translate and interpret texts in detail to understand their structure, context, and broader meaning and purpose in their specific cultural and historical contexts. Examine the methods and tools of Maya epigraphy. Three lecture hours a week for one semester. Prerequisite: Indigenous Languages of Latin America 407.

**LAL 312L. Second-Year Ancient Mayan II.**
Analyze calendrics, rhetorical structure, and variation in script and language from the earliest to the latest hieroglyphic inscriptions. Explore the latest advances and current debates in the research and humanistic study of Ancient Mayan language and hieroglyphic writing. Three lecture hours a week for one semester. Prerequisite: Indigenous Languages of Latin America 312K.

**Upper-Division Courses**

**LAL 321. Third-Year Indigenous Language of Latin America I.**
Advanced study of an indigenous language of Latin America, with an emphasis on advanced conversation and reading skills. Particular attention is given to cultural issues and discussion in the target language. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Indigenous Languages of Latin America 611C with a grade of at least C.

**LAL 322. Third-Year Indigenous Language II.**
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Indigenous Languages of Latin America 321.

**LAL 330. Topics in Language, Culture, and Linguistics.**
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Indigenous Languages of Latin America 611C.

**Graduate Courses**

**LAL 385K. Intensive Graduate Language Instruction I.**
Intensive cultural and literacy-focused training in an indigenous language at the beginning level in preparation for research. Six lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of graduate adviser.

**LAL 385L. Intensive Graduate Language Instruction II.**
Intensive cultural and literacy-focused training in an indigenous language at the intermediate level in preparation for research. Six lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Indigenous Languages of Latin America 385K and consent of graduate adviser.

**LAL 385M. Intensive Graduate Language Instruction III.**
Intensive cultural and literacy-focused training in an indigenous language at the intermediate/advanced level in preparation for research. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Indigenous Languages of Latin America 385L and consent of graduate adviser.

**Professional Courses**

**LAR - Landscape Architecture**

**Landscape Architecture: LAR**

**Lower-Division Courses**

**LAR 312R. Topics in Introductory Landscape Studies.**
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

**Upper-Division Courses**

**LAR 341R. Topics in Visual Communication.**
Explore advanced topics in media and interpretation, such as freehand drawing, measured drawings, aspects of computer graphics, geographic information systems, and photography. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing or consent of instructor.
LAR 342K. History and Theories of Landscape Architecture I.
Same as Architecture 342E. Overview and chronological series of in-depth studies in the history of major garden cultures and designed landscapes of the Western and Eastern worlds. Introduction to methodological approaches to the formal, social, and cultural history of gardens and landscapes, as well as to relevant theoretical frameworks for interpreting these designed landscapes and for use in conceptualizing landscapes, architecture, and urban projects in studio design. Three lecture hours a week for one semester. Only one of the following may be counted: Landscape Architecture 342K, Architecture 342E, 368R (Topic: History and Theories of Landscape Architecture I) Prerequisite: Upper-division standing; for students in the School of Architecture, Architecture 318L with a grade of at least C; for others, upper-division standing or consent of instructor.

LAR 342L. History and Theories of Landscape Architecture II.
Same as Architecture 342F: Continuation of Landscape Architecture 342K (and Architecture 342D) through the modern period to contemporary times. Formal and cultural history of gardens, parks, and public landscapes from 1700 to about 1990. Includes comparative material from the contemporary period, 1980 to 2010. Three lecture hours a week for one semester. Only one of the following may be counted: Landscape Architecture 342L; Architecture 342F or 368R (Topic: History and Theories of Landscape Architecture II). Prerequisite: Upper-division standing; for students in the School of Architecture, Architecture 318L with a grade of at least C; for others, consent of instructor.

LAR 342R. Topics in Landscape Architectural History.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

Topic 1: Romes Gardens and Landscapes. Same as Architecture 342R (Topic 12). Only one of the following may be counted: Landscape Architecture 342R (Topic 1); Architecture 342R (Topic 12), 368R (Topic: Italian Villa and Garden)

Topic 2: Professional Design Practice: Baroque Rome. Same as Architecture 342R (Topic 14). Explore an overview of the synthetic act of design and a strong interdisciplinary grounding in one of the key historical periods of design and in advanced research methods. Only one of the following may be counted: Landscape Architecture 342R (Topic 2), Architecture 342R (Topic 14) or Architecture 368R (Topic: Prof Dgn Prac: Baroq Rome).

Topic 3: Representing Landscape and Architecture, 1500-2015. Same as Architecture 342K. Explores the roles of visual representation in design and professional practice from Leonardo da Vinci to the digital age. An overview of the history of techniques, media, and conventions of representation in architecture and landscape architecture and in their intersections. Includes some drawing and painting. Three lecture hours a week for one semester. Only one of the following may be counted: Landscape Architecture 342R (Topic 3); Architecture 342K, 368R (Topic: Representing Landscape and Architecture, 1500-2015). Offered on the letter-grade basis only. Additional prerequisite: Upper-division standing; for students in the School of Architecture, Architecture 318L with a grade of at least C; for others, consent of instructor.

LAR 345R. Topics in Landscape Technology and Site Engineering.
Explore current techniques and issues related to landscape technology and their influence and application in the built environment. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

LAR 346R. Topics in Landscape Architectural Theory.
Explore advanced topics in landscape architecture and associated disciplines to encourage critical and theoretical thinking. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

LAR 347K. Living Systems Design I.
Examine the interconnections between geological, biological, and social systems of the designed landscape. Explore subjects such as plant ecology, plant communities, soils, and plant identification. Three lecture hours a week for one semester. Prerequisite: Upper-division standing or consent of instructor.

LAR 347L. Living Systems Design II.
Examine the design of living systems for the urban environment including soils, paving, plants and best management practices. Explore subjects such as principles and processes of planting design, ecosystems service optimization, and landscapes on structure. Three lecture hours a week for one semester. Prerequisite: Upper-division standing or consent of instructor.

LAR 347M. Living Systems Design III.
Examine emerging issues and contemporary debates related to the design and construction of living systems in the urban environment, including technical, ecological, and aesthetic considerations. Three lecture hours a week for one semester. Prerequisite: Upper-division standing or consent of instructor.

LAR 347R. Topics in Natural Systems.
Explore aspects of environmental analysis, ecological and systemic methods, landscape resilience, and applied methods particular to design of the built environment. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

Graduate Courses
LAR 380C. Foundation Design Studio.
An introduction to the fundamental components of landscape architecture and graphic communication. Twelve laboratory hours a week for one semester. Landscape Architecture 380 and 380C may not both be counted. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of the graduate adviser.

LAR 180V, 380V. Topics in Digital Technology and Fabrication.
For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate Standing.
LAR 180W, 380W. Topics in Disaster Recovery.
For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate Standing.

LAR 381. Visual Communication I.
Explore methods of survey, recording, analysis, interpretation, and representation of landscape architecture. One-and-one-half lecture hours and three laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing, Landscape Architecture 380C and 682, and credit or registration for Landscape Architecture 682T; consent of the graduate advisor.

LAR 381D. Architectural Drawing.
Visual communication in such media as freehand drawing, modeling, photography, and measured drawings. Five laboratory hours a week for one semester. Only one of the following may be counted: Architecture 386M (Topic: Architectural Drawing), Architectural Interior Design 381R (Topic: Architectural Drawing), and Landscape Architecture 381D. Prerequisite: Graduate standing and consent of the graduate adviser.

LAR 381R. Topics in Visual Communication.
Topics in representation and analysis, such as freehand drawing, digital drawing, digital modeling, measured drawings, computer graphics, geographic information systems, and photography. One-and-one-half lecture hours and three laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

Topic 1: Rendering and Animation for the Built Environment. Examine digital visualization techniques for modeling built environment and dynamics. Explore techniques focused on the digital translation of spatial experience, including material, character, and texture through rendering and animation. One-and-one-half lecture hours and three laboratory hours a week for one semester. Landscape Architecture 381R (Topic: Visualization/Digital Representation in Design) and 381R (Topic 1) may not both be counted. Additional prerequisite: Graduate standing and consent of the graduate adviser.

LAR 381S. Advanced Topics in Visual Communication.
Explore advanced topics in landscape architectural representation and analysis. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

Topic 1: Photography and the Urban Landscape. Landscape Architecture 381R (Topic: Photography/Urban Landscape) and 381S (Topic 1) may not both be counted.

LAR 682. Design and Visual Studies in Landscape Architecture I.
Explore initial studies in design thinking; an introduction to design materials and methods; spatial typologies; and investigations in shaping terrain. Twelve laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; Landscape Architecture 380C with a grade of at least C; concurrent registration for Landscape Architecture 682 and 388K; credit or registration for Landscape Architecture 385K and 387K; and consent of the graduate advisor.

LAR 682T. Landscape Architecture Design Studio II.
Design problems engaging principles of site planning combining site research analysis and composition to comprehend, critique, and respond to change of the physical, biological and social context. Twelve laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; Landscape Architecture 682 with a grade of at least B-; credit or registration for Landscape Architecture 381, 385K, 385M, 388K, 388L; and consent of the graduate advisor.

LAR 383. Landscape Architecture Design Studio I.
Methods of survey, recording, interpretation, and representation of landscape. An introduction to design through examination of object, space, relationship, movement, the human condition, materiality, and ecology. Twelve laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of the graduate advisor.

LAR 384. Topics in Horticulture and Plants in Design.
Study of habitat, site and technical conditions, and characteristics of plant typologies and their application to landscape practice. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

LAR 385. Topics in Natural Systems.
Elective seminars in aspects of environmental analysis, ecological and systemic approaches, sustainable development, and applied methods of geographic information systems. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

Topic 1: Introduction to Urban Ecology. Landscape Architecture 385 (Topic: Intro to Urban Ecology) and 385 (Topic 1) may not both be counted.

Topic 2: Environmental Impact Assessment. Landscape Architecture 385 (Topic: Environmental Impact Assmnt) and 385 (Topic 2) may not both be counted.

LAR 385K. Technology Workshop I.
Introduces the principles, processes, and practices of site manipulation, description, and construction techniques. Includes systems of measurement, grading, earthwork, site circulation, and site drainage, and examines the representation, application, and integration of site-related operations. One lecture hour and three-and-one-half laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of the graduate adviser.

LAR 385L. Technology Workshop II.
Materials and methods of landscape construction, advanced site work techniques, and theories for material selection and application within the design process. Examines the representation, application, and integration of detail and design intent. One lecture hour and three-and-one-half laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; Landscape Architecture 358K, 682, 682T, and 694T with a grade of at least B-; and concurrent registration for Landscape Architecture 695; or consent of the graduate adviser.

LAR 385M. Design Methods.
Examines methods of analysis and composition for landscape architecture and urban design. Readings, lectures, and discussions are applied to on-site assignments. Subjects include spatial, social, and ecological factors and their interactions. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; Landscape Architecture 385K, 387K, and 388K with a grade of at least C; credit or registration for Landscape Architecture 682T; and consent of the graduate adviser.
LAR 386. Professional Practice.
Ethical, legal, economic, and administrative processes and responsibilities of the landscape architect practitioner. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

LAR 387. Landscape Ecology.
Introduction to foundational concepts in landscape ecology, with emphasis on structure, function, and change of ecological systems. Addresses design and planning in relation to biological and cultural resources. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

LAR 387K. Living Systems Design I.
Examine the inter-connections between geological, biological, and social systems of the designed landscape. Cover subjects such as plant ecology, plant communities, soils, and plant identification. One lecture and three-and-one-half laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing, Landscape Architecture 387K, and consent of the graduate adviser.

LAR 387L. Living Systems Design II.
Examine the design of living systems for the urban environment including soils, paving, plants and best management practices. Explore subjects such as principles and processes of planting design, ecosystems service optimization, and landscapes on structure. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing, Landscape Architecture 387L, and consent of the graduate adviser.

LAR 387M. Living Systems Design III.
Examine emerging issues and contemporary debates related to the design and construction of living systems in the urban environment, including technical, ecological, and aesthetic considerations. Three lecture hours a week for one semester. Prerequisite: Graduate standing, Landscape Architecture 387M, and consent of the graduate adviser.

LAR 388. Topics in Landscape Architecture History and Theory.
Seminars on advanced topics in history and theory, including analysis, readings, and critique of significant positions, practice, and discourse. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, and Landscape Architecture 388L or consent of the graduate adviser.

**Topic 1: Design Logics: Projection and Proportion in Architecture.**
Only one of the following may be counted: Architecture 386M (Topic: DSGN LOGICS: PROJ/PROP ARCH), 388R (Topic: DSGN LOGICS: PROJ/PROP ARCH), Landscape Architecture 381R (Topic: DSGN LOGICS: PROJ/PROP ARCH), and 388 (Topic 1).

**Topic 2: Futures and Cities.**
Only one of the following may be counted: Architecture 386M (Topic 29), Landscape Architecture 388 (Topic 2), Urban Design (UD) 388R (Topic 1), Urban Design (UDN) 388R (Topic 1).

**Topic 3: Romes Gardens and Landscapes.**
Only one of the following courses may be counted: Architecture 388R (Topic: Italian Villa and Garden), 388R (Topic 12), Landscape Architecture 388 (Topic: Italian Villa and Garden), 388 (Topic 3).

**Topic 4: Professional Design Practice: Baroque Rome.**
Only one of the following may be counted: Architecture 388R (Topic: Prof Dsgn Prac: Baroque Rome), 388R (Topic 21), Landscape Architecture 388 (Topic: Prof Dsgn Prac: Baroque Rome), 388 (Topic 4). Additional prerequisite: Graduate Standing.

**Topic 5: Ethics of Care.**

LAR 388K. History and Theories of Landscape Architecture I.
Landscape architecture in formal, social, and cultural terms in the Western and Eastern worlds. Covers the development of ideas and principles related to context, designer, and text. Three lecture hours a week for one semester. Prerequisite: Graduate standing, concurrent registration for Landscape Architecture 682 and 388K, and consent of the graduate adviser.

LAR 388L. History and Theories of Landscape Architecture II.
Landscape architecture from 1700 to the present, with a focus on design language, theoretical frameworks, and the critical components of contemporary landscape design and thought. Three lecture hours a week for one semester. Prerequisite: Graduate standing, Landscape Architecture 388K with a grade of at least C, and consent of the graduate adviser.

LAR 389, 689. Research in Landscape Architecture.
Investigation of subjects in landscape architecture selected by the student with approval of the Graduate Studies Committee. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Prerequisite: Graduate standing, consent of the graduate adviser, cumulative GPA of 3.8, and application approval from the LAR Graduate Studies Committee.

LAR 694T. Landscape Architecture Design Studio III.
Design problems that engage issues, theories, and methods central to the planning and design of large landscape architectural projects, including the landscape’s role in urban form and city-making. Twelve laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; Landscape Architecture 682T with a grade of at least B; credit or registration for Landscape Architecture 387L; consent of the graduate adviser.

LAR 695. Landscape Architecture Design Studio IV.
Explore comprehensive synthesis of the core professional courses emphasizing the resolution and implementation of multiple interrelated objectives resulting in the technical resolution of a landscape architectural project. Twelve laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; Landscape Architecture 682T, 385K, 387K, 387L, and 694T with a grade of at least B; concurrent registration for Landscape Architecture 385L; and consent of the graduate adviser.

LAR 395D. Frank Lloyd Wright: Design, Method, Theory.
Same as Architectural Interior Design 395D and Architecture 395D.
Comprehensive study of Frank Lloyd Wright’s life and work with emphasis on the analyses of his concepts of organic architecture, design methods, and theories. Three lecture hours a week for one semester. Only one of the following may be counted: Architecture 388R (Topic: Frank Lloyd Wright: Design, Method, Theory), 395D, Architectural Interior Design 388R (Topic: Frank Lloyd Wright: Design, Method, Theory), 395D,
Landscape Architecture 388 (Topic: Frank Lloyd Wright), 395D. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

Same as Architectural Interior Design 395G and Architecture 395G. An examination of how American housing is conceived, developed, and marketed, as well as relationships between home buyers and builders. Three lecture hours a week for one semester. Only one of the following may be counted: Architecture 388R (Topic: American Home), 395G, Architectural Interior Design 388R (Topic: American Home), 395G, Landscape Architecture 388 (Topic: American Home), 395G. Offered on the letter-grade basis only. Prerequisite: For students in the School of Architecture, graduate standing; for others, graduate standing and consent of instructor.

Same as Architecture 395J. Explores the synthetic act of design and notions of originality and tradition in the arts of Baroque Rome by studying Francesco Borromini and his work through the lenses of professional design practice, the arts, contemporary Galilean science, and papal society. Three lecture hours a week for one semester. Only one of the following may be counted: Architecture 388R (Topic: Professional Design Practice: Baroque Rome), 395J, Landscape Architecture 388 (Topic: Professional Design Practice: Baroque Rome), 395J. Prerequisite: For students in the School of Architecture, graduate standing; for others, graduate standing and consent of instructor.

Same as Architecture 395K. Explores the roles of visual representation in design and professional practice from Leonardo da Vinci to the digital age. An overview of the history of techniques, media, and conventions of representation in architecture and landscape architecture and in their intersections. Includes some drawing and painting. Three lecture hours a week for one semester. Only one of the following may be counted: Architecture 388R (Topic: Representing Landscape and Architecture, 1500-2015), 395K, Landscape Architecture 388 (Topic: Representing Landscape and Architecture, 1500-2015), 395K. Prerequisite: For students in the School of Architecture, graduate standing; for others, graduate standing and consent of instructor.

LAR 696. Advanced Design.
Elective studios offering students an opportunity to explore particular topics in landscape, often in collaboration with architecture and community and regional planning students. Fifteen laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, Landscape Architecture 695 with a grade of at least C, and consent of the graduate adviser.

LAR 397. Master's Design Study in Landscape Architecture-Preparation.
Investigation of subjects in landscape architecture selected by the student in preparation for Landscape Architecture 697K. The equivalent of three lecture hours a week for one semester. Prerequisite: Graduate standing, consent of the graduate adviser, cumulative GPA of 3.8, and application approval from the LAR Graduate Studies Committee.

LAR 697K. Master's Design Study in Landscape Architecture.
An independent design project in which the investigation, design process, and critical evaluation are formulated by the student. The project must have a theoretical and research base, provide a comprehensive exploration of a landscape design topic, and offer insight for the furthering of landscape studies. Eighteen laboratory hours a week for one semester. Prerequisite: Graduate standing, Landscape Architecture 696 and 397, consent of the graduate adviser, cumulative GPA of 3.8, and application approval from the LAR Graduate Studies Committee.

LAR 197L, 397L. Landscape Architecture Practicum.
Restricted to students enrolled in the Master of Landscape Architecture First Professional Degree or Master of Landscape Architecture Post-Professional Degree programs. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester, with additional hours to be arranged. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of the graduate adviser.

Professional Courses

LAS - Latin American Studies

Latin American Studies: LAS

Lower-Division Courses

LAS 301. Key Ideas and Issues in Latin America.
Same as History 306N (Topic 3: Key Ideas and Issues in Latin America). Broad introductory course to acquaint students with the main areas of interest in Latin American studies. Three lecture hours a week for one semester.

LAS 310. General Topics in Latin American Studies.
Topics that serve as an introduction to Latin America within the framework of different disciplines. Three lecture hours or two lecture hours and one discussion hour a week for one semester. May be repeated for credit when the topics vary.

Topic 1: Latin American Civilization: The Colonial Experience. Same as History 310K. A broad survey of the political, economic, social, and cultural aspects of the Latin American past, stressing both that area's achievements and its enduring problems. Only one of the following may be counted: History 310K, 346K, Latin American Studies 310 (Topic 1), 366 (Topic 2: Latin America before 1810).

Topic 2: Latin American Civilization: The National Experience. Same as History 310L. A broad survey of the political, social, and cultural aspects of the Latin American past. Only one of the following may be counted: History 310L, 346L, Latin American Studies 310 (Topic 2), 366 (Topic 3: Latin America since 1810).

Topic 5: Film and History in Latin America: Colonial Period. Same as History 310M. Introduction to selected subjects in Latin American history and culture through film, readings, documentaries, class discussion, and lectures. Three lecture hours a week for one semester. Only one of the following may be counted: History 306N (Topic: Film History in Latin America: Colonial), 310M, Latin American Studies 310 (Topic: Film History in Latin America: Colonial), Latin American Studies 310 (Topic 5).

Topic 6: Film and History in Latin America: Modern Period. Same as History 310N. Introduction to selected subjects in Latin American history and culture through film, readings, documentaries, class discussion, and lectures. Three lecture hours a week for one semester. Only one of the following may be counted: History 306N (Topic: Film History in Latin America: Modern), 310N, Latin American Studies 310 (Topic: Film History in Latin America: Modern), 310 (Topic 6).

Topic 7: Liberation in the African Diaspora. Same as African and African Diaspora Studies 315S. Examination of liberation and freedom struggles in the African diaspora, focusing on common intellectual, political, and social currents among the diaspora's various groups. Course focuses on three major themes: abolitionism, Pan-Africanism and national liberation, and hip hop. Particular emphasis will be on the ideas associated with these movements, and the major organizations.
and intellectual currents in all three. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315S, 317E (Topic 3), Latin American Studies 310 (Topic 7).

**LAS 310C. Afro-Brazilian Diaspora.**

Same as African and African Diaspora Studies 315 and Comparative Literature 305D. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315, 317E (Topic: Afro-Brazilian Diaspora), Comparative Literature 305 (Topic: Afro-Brazilian Diaspora), 305D, Latin American Studies 310 (Topic: Afro-Brazilian Diaspora), 310C.

**LAS 310D. Early Mesoamerican Religions.**

Same as Anthropology 310I, History 310E, and Religious Studies 316M. Introduction to the study of indigenous religions in Mesoamerica, a geographic and cultural area spanning north-central Mexico through western Honduras, from approximately 250 BC - AD 1700. Examine the role of religion and ritual in daily life, as well as the lines of evidence available today for understanding them. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 310I, History 310E, Latin American Studies 310D, Religious Studies 311 (Topic: Early Mesoamerican Religion), 316M.

**LAS 310F. Race, Deportation, and Diaspora.**

Same as African and African Diaspora Studies 316D, American Studies 315R, and Asian American Studies 316D. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 310 (Topic: Race, Deportation, Diaspora), 316D, 317D (Topic: Race, Deportation, Diaspora), American Studies 315 (Topic: Race, Deportation, Diaspora), 315R, Asian American Studies 310 (Topic: Race, Deportation, Diaspora), 316D, Latin American Studies 310 (Topic: Race, Deportation, Diaspora), 310F.

**LAS 310L. Latinx Digital Worlds.**

Same as American Studies 319, English 319L, and Mexican American Studies 318E. Explore how Latinx communities (traditionally figured as on the wrong side of the "digital divide") have embraced, mobilized, and sometimes usurped emerging digital tools and spaces to forge community and create new forms of culture, memory, and activism. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 319, English 319L, Latin American Studies 310, Mexican American Studies 318E, 319 (Topic: Latinx Digital Worlds).

**LAS 310R. Latin America and the United States.**

Same as History 310R. An exploration of the different social, economic, political, and cultural structures and concerns that came to both divide and unite the western hemisphere (North, Central, and South America, as well as the Caribbean) following independence from Europe. Three lecture hours a week for one semester. Only one of the following may be counted: History 306N (Topic: Latin America and the US), 310R, Latin American Studies 310 (Topic: Latin America and the US), 310R.

**LAS 315. Introductory Topics in Latin American Social Sciences.**

Three lecture hours or two lecture hours and one discussion hour a week for one semester. Latin American Studies 310 and 315 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 1: Anthropology of Latin America.** Same as Anthropology 310L (Topic 3). Provides a framework for understanding contemporary concerns in Latin America. Only one of the following may be counted: Anthropology 310L (Topic 3), Latin American Studies 315 (Topic 1).

**Topic 11: Narrative Journalism.** Three lecture hours and three laboratory hours a week for one semester. Only one of the following may be counted: Journalism 335, Latin American Studies 322 (Topic 11: Latino Community Journalism), 322 (Topic 11: Narrative Journalism), Mexican American Studies 374 (Topic 4: Latino Community Journalism), 374 (Topic 4: Narrative Journalism). Prerequisite: Upper-division standing and consent of instructor.

**Topic 13: Latin American Theatre and Drama.** Same as Theatre and Dance 357T (Topic 1: Latin American Theatre and Drama). Prerequisite: Upper-division standing and consent of instructor.

**Topic 15: Indigenous Languages of the Americas.** Same as Linguistics 350 (Topic 6: Indigenous Languages of the Americas). Examines various aspects of languages in the Americas, including their linguistic structures, the cultural domains in which they exist, and their histories of language contact and change. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**Topic 19: Afro-Caribbean Diasporas.** Same as African and African Diaspora Studies 345N. Analysis of the socio-cultural contexts of the African diaspora in the Americas, with a specific focus on the African diaspora in the islands of the Caribbean. Designed to analyze the cultural, social, and philosophical contributions of these diasporic populations and the ways they build social and cultural agency in their specific national or diasporic contexts. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 345N, 374E (Topic 6), Latin American Studies 322 (Topic 19). Additional prerequisite: Upper-division standing.

**Topic 20: Journalism and Press Freedom in Latin America.** Same as Journalism 354F. Focus on journalism in Latin America with an emphasis on the struggle for democracy and press freedom in the region through country-by-country survey of historical, political, economic, cultural, ethnic and geographical aspects. Examination of the evolution of professional journalism in Latin America, including topics such as the legal framework for freedom of expression, ethical principles, concentration of media ownership and the emergence of digital media. Knowledge of Spanish language is recommended, but it is not a requirement. Three lecture hours a week for one semester. Only one of the following may be counted: Journalism 354F, 367E, Latin American Studies 322 (Topic 14), 322 (Topic 20).

**LAS 322C. Race, Empire, And Modernity.** Same as African and African Diaspora Studies 350E. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350E, 372F (Topic: Race, Empire, And Modernity), Latin American Studies 322 (Topic: Race, Empire, And Modernity). 322C. Prerequisite: Upper-division standing.

**LAS 322D. Religions of the Caribbean.** Same as African and African Diaspora Studies 345G, Anthropology 323D, and Religious Studies 366D. Examine the histories and politics of religious practices in the Greater Caribbean, encompassing the islands and Central American coasts as well as the continental diasporas, from Vodou and Rastafari to popular Hinduism. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 372G (Topic: Religions of the Caribbean) 345G, Anthropology 324L (Topic: Religions of the Caribbean), 323D, Latin American Studies 324L (Topic: Religions of the Caribbean), 322D, Religious Studies 366 (Topic: Religions of the Caribbean), 366 (Topic 2), 366D. Prerequisite: Upper-division standing.

**LAS 322E. Latino Migrations and Asylum.** Same as Mexican American Studies 364D. Three lecture hours a week for one semester. Only one of the following may be counted: Mexican American Studies 364D, 374 (Topic: Latino Migrations and Asylum), Latin American Studies 322 (Topic: Latino Migrations and Asylum), 322E. Prerequisite: Upper-division standing.

**LAS 322J. Racism and Inequality in Latin America.** Same as African and African Diaspora Studies 345R. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 345R, 374E (Topic: Racism/Inequality Lat Amer), Latin American Studies 322 (Topic: Racism/Inequality Lat Amer). 322J. Prerequisite: Upper-division standing.

**LAS 322L. Empires: Aztec and Spanish.** Same as Anthropology 3260. Examine the daily life of people in the Mexica (commonly known as Aztec) empire after the Spanish conquest. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 310L (Topic: Aztecs and Spaniards), 310L (Topic 9), 3260, Latin American Studies 315 (Topic: Aztecs and Spaniards), 322L. Prerequisite: Upper-division standing.

**LAS 322M. Colonial Encounters in Mesoamerica.** Same as Anthropology 323T, History 346E, and Religious Studies 366M. Study European-indigenous encounters in Mesoamerica, a geographic and cultural area spanning north-central Mexico through western Honduras, between approximately 1450-1750. Examine strategies of contact, accommodation, and resistance that indigenous communities and European colonizers used to communicate with each other and negotiate the conduct of daily life in colonial society. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 323T, History 346E, Latin American Studies 322M, Religious Studies 361 (Topic: Mesoamerican Encounters), 366M. Prerequisite: Upper-division standing.

**LAS 322Q. Afro-Latinidades in the United States and Latin America.**

**LAS 324G. Sexuality in Global Perspective.**

Same as Anthropology 324V and Women's and Gender Studies 335 (Topic 14). Explore the ways in which sexuality intersects with money, intimacy, power, and labor in the context of global economic processes. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Sexuality in Global Persp), 324V, Latin American Studies 324G, Women's and Gender Studies 335 (Topic: Sexuality in Global Persp), 335 (Topic 14). Prerequisite: Upper-division standing.

**LAS 324L. Topics in Latin American Anthropology.**

Topics vary each semester to allow curriculum flexibility for faculty members and visiting scholars. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 10: The Civilization of the Maya.** Same as Anthropology 360K. Maya prehistory and history, the archaeological record, codices and inscriptions, and Spanish conquest writings. Prerequisite: Upper-division standing.

**Topic 13: Colonial Latin American Archaeology.** Same as Anthropology 327D. Focuses on the Spanish colonies in Latin America. Three lecture hours a week for one semester. Anthropology 327D and Latin American Studies 324L (Topic 13) may not both be counted.

**Topic 15: Global Indigenous Issues.** Same as Anthropology 324L (Topic 53). Explores contemporary issues of indigenous peoples around the world through films, literature, and social science readings and focuses on how indigenous peoples are actively working to oppose their oppression and create sustainable futures. Only one of the following may be counted: Anthropology 324L (Topic: Global Indigenous Issues), 324L (Topic 53), Latin American Studies 324L (Topic: Global Indigenous Issues) 324L (Topic 15).

**Topic 16: Mexican Immigration Cultural History.** Same as Anthropology 322P and Mexican American Studies 364F. Examines the history of Mexican immigration to the United States, and provides an overview of migratory patterns dating back to the late prehistoric period through contemporary times. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322M (Topic 12), 322P, Latin American Studies 324L (Topic 16), Mexican American Studies 364F, 374 (Topic: Mexican Immigration Cultural History). Additional prerequisite: Upper-division standing.

**Topic 17: Black Women and the State.** Same as African and African Diaspora Studies 360E, Anthropology 324L (Topic 78), and Women's and Gender Studies 340 (Topic 7). Surveys black women's experiences living with and confronting state oppression around the world. Takes an historical, social, and theoretical look at the roots of this oppression and inequality, and how black women have chosen to respond to it locally and globally. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 360E, 372F (Topic 11), 372F (Topic 12), Anthropology 324L (Topic 78), Latin American Studies 324L (Topic 17), Women's and Gender Studies 340 (Topic 7), 340 (Topic 63). Additional prerequisite: Upper-division standing.

**Topic 18: Inca World.** Same as Anthropology 324L (Topic 74). Explores how Inca civilization developed, how the Incas grew from a small highland state into a mighty empire, and how a small number of Spaniards and their allies were able to bring the Inca dynasty to an end. Read accounts of the Incas written in the first years of Spanish colonial rule, and review the latest archaeological discoveries. Only one of the following may be counted: Anthropology 324L (Topic: Inca World), 324L (Topic 74), Latin American Studies 324L (Topic: Inca World), 324L (Topic 18). Additional prerequisite: Upper-division standing.

**Topic 19: Globalization in Latin America.** Same as Anthropology 3240. Critically examine the globalization phenomenon in Latin America, focusing on history and ethnography. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Globalization in Latin Amer), 324O, Latin American Studies 324L (Topic: Globalization in Latin Amer), 324L (Topic 19). Additional prerequisite: Upper-division standing.

**Topic 20: Mexican American Indigenous Heritage.** Same as Anthropology 322Q and Mexican American Studies 374 (Topic 23). The prehistory, history, and contemporary racial understanding of Mexican Americans. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322M (Topic 10), 322Q, Latin American Studies 324L (Topic: Mexican Amer Indig Heritage), 324L (Topic 20), Mexican American Studies 374 (Topic 23). Additional prerequisite: Upper-division standing.

**Topic 21: Cultures in Contact.** Same as Anthropology 326L. History of the interactions of the indigenous peoples of the Americas with Africans, Asians, and Europeans over the past five hundred years. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 326L, Latin American Studies 324L (Topic: Cultures in Contact), 324L (Topic 21). Additional prerequisite: Upper-division standing.

**Topic 22: Arab Latin Americas.** Same as Anthropology 324L (Topic 75). Examine the ways in which Arab immigrant identities have been negotiated and co-opted socially, but also institutionally, in various countries in the Western Hemisphere. Only one of the following may be counted Anthropology 324L (Topic: Arab Latin Americas), 324L (Topic 75), Latin American Studies 324L (Topic 22). Additional prerequisite: Upper-division standing.

**LAS 324Q. Daily Life in Mesoamerica.**

Same as Anthropology 324R. Examine the daily life of people in Mesoamerica, from the earliest inhabitants in the region to the myriad ways that Precolumbian life and archaeology affect the lives of people today. Three lecture hours a week for one semester Only one of the following may count: Anthropology 324L (Topic: Daily Life in
Mesoamerica), 324R, Latin American Studies 324L (Topic: Daily Life in Mesoamerica), 324Q. Prerequisite: Upper-division standing.

**LAS 324S. Jewish Cuba.**
Same as Anthropology 325V, Jewish Studies 365 (Topic 16), and Religious Studies 366E. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 325L (Topic: Jewish Cuba), 325V, Jewish Studies 365 (Topic: Jewish Cuba), 365 (Topic 16), Latin American Studies 324L (Topic: Jewish Cuba), 324S, Religious Studies 366 (Topic: Jewish Cuba), 366E. Prerequisite: Upper-division standing.

**LAS 325. Topics in Latin American Sociology.**
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

- **Topic 2: Social Change in Developing Nations.** Same as Sociology 324K. Overview of changing social structure in the Third World. Three lecture hours a week for one semester. Latin American Studies 325 (Topic 2) and Sociology 324K may not both be counted. Additional prerequisite: Forty-five hours of coursework.

- **Topic 4: Politics and Society in Latin America.** Same as Sociology 321P. Introduction to present-day Latin American politics and society with a focus on drug-trafficking and urban destitution in Brazil; party politics, protest, and collective violence in Argentina; the current political situation in Venezuela; and migration from Central America and the Caribbean to the United States. Also includes a general overview of revolutions and revolutionary movements in Latin America, and the effects of United States intervention in the region during the twentieth century. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 325 (Topic: Politics and Society in Latin America), Latin American Studies 325 (Topic 4), Sociology 321K (Topic: Politics and Society in Latin America), Sociology 321P. Additional prerequisite: Upper-division standing.

- **Topic 5: Consumption in Latin America.** Same as Sociology 321C. Study of the role consumption plays in social, economic, and political relations in Latin America, as well as contesting ideas about this role. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 325 (Topic: Consumption in Latin America), Latin American Studies 325 (Topic 5), Sociology 321C, Sociology 321K (Topic: Consumption in Latin America). Additional prerequisite: Upper-division standing.

**LAS 325E. Geographies of Latin American to United States Migration.**
Same as Geography 322L. Examine the contemporary complex multi-scalar origins, patterns, and processes of Latin American and Caribbean migration and settlement in the United States. Through a place-specific, spatially contextualized, and historically situated approach, explore the collective and individual experiences of migrants, asylum seekers, and refugees from select nations including: Mexico, Guatemala, Honduras, El Salvador, Puerto Rico, the Dominican Republic, Haiti, and Cuba. Analyze the multi-layered factors shaping diverse Latin American migratory patterns and processes. Three lecture hours a week for one semester. Only one of the following may be counted: Geography 322L, 356T (Topic: Geog of Lat American-U.S. Migr), Latin American Studies 325E, 330 (Topic: Geog of Lat American-U.S. Migr). Prerequisite: Upper-division standing.

**LAS 326. Topics in Latin American Music.**
Three lecture hours a week for one semester, with one laboratory hour a week if required. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

- **Topic 1: Music of Mexico and the Caribbean.** Same as African and African Diaspora Studies 338F and Music 334 (Topic 1). Introduction to the history of Mexican and Caribbean traditional and commercial music, with some discussion of classical music as well. Attention will be given to music of indigenous, African, European, and mixed origin. Mexico and the Spanish-speaking Caribbean receive special attention. Class meetings will be divided into lecture/discussion segments, videos, listening, and performance instruction/demonstration. Only one of the following may be counted: African and African Diaspora Studies 338F, 374F (Topic 22), Latin American Studies 326 (Topic 1), Music 334 (Topic 1). Additional prerequisite: Upper-division standing.

- **Topic 2: Music of Latin America.** Same as African and African Diaspora Studies 338D and Music 334 (Topic 2). Consider Latin American music within a broad cultural and historical framework. Latin American musical practices are explored illustrating the many ways that aesthetics and society are embodied in and negotiated through performance. Concepts include diaspora, colonialism, mestizaje, hybridity, migration and globalization. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 338D, 374F (Topic: Music of Latin America), Latin American Studies 322 (Topic: Music of Latin America), 326 (Topic 2), Music 334 (Topic 2).

- **Topic 3: Music of Brazil and Argentina.** Same as Music 334 (Topic 3). An introduction to Brazilian and Argentine music from samba, capoeira, and forro to tango, cumbia villera, and chacarera; examines such music making within its various historical, social, and political contexts. Uses course readings, lectures, listening assignments, performance attendance, and movie screenings to analyze themes including nationalism and ethnicity, globalization and development, and democracy and social justice. Only one of the following may be counted: Latin American Studies 322 (Topic: Music of Brazil and Argentina), 326 (Topic 3), Music 334 (Topic 3). Prerequisite: Upper-division standing.

- **Topic 4: Music of the Andean Countries.** Same as Music 334 (Topic 4). Introduction to the music of Andean countries including Colombia, Ecuador, Peru, Bolivia, and Chile. Explores the role music plays in shaping historical and modern Andean societies, as well as how music comments upon national culture, society, and politics, with particular attention to the ways in which musicians and musical movements continue to influence Andean societies. Subjects include pre-Columbian and colonial music making; music representative of the tripartite indigenous, African, and Iberian heritage of Andean countries; aesthetics, identity, and musical expression; ritual, religion, and the politics of musical performance. Only one of the following may be counted: Latin American Studies 322 (Topic: Music of the Andean Countries), 326 (Topic 4), Music 334 (Topic 4).

- **Topic 5: The Music of the African Diaspora.** Same as African and African Diaspora Studies 338E and Music 334 (Topic 5). The musical legacy of the African slave trade in the Americas, the social contexts in which black musical forms have developed, and their varied forms. Subjects include the shifting meanings of "black music" in various contexts; the notion of hybridity; the uses of African influenced music as a political or oppositional tool; and African ethnic groups represented prominently in the New World, the traditions they brought with them, and the ways they have been adapted to new ends. Three lecture hours and one laboratory hour a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 338E, 374F (Topic 8), Latin American Studies 326 (Topic 5), Music 334 (Topic: Music of the African Diaspora), 334 (Topic 5). Additional prerequisite: Upper-division standing.

**LAS 327. Topics in Latin American Art History.**
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.
Topic 1: Chicano Art Histories and Futures. Same as Art History 341L. Mexican American art since the 1960s, with an emphasis on the visual production and exhibition of identity inside and outside the Chicano civil rights movement and the politics of U.S. multiculturalism. An introduction to a broad range of art history written to date—including recent feminist and queer interventions—as a means of envisioning a supposed "post-Chicano" or "post-racial" moment. Three lecture hours a week for one semester. Art History 341L and Latin American Studies 327 (Topic 1) may not both be counted.

Topic 2: Modern Art of Mexico. Same as Art History 341K. Mexican visual culture from the late nineteenth century through 1968. Emphasis on the emergence of modernist avant-gardes and popular entertainment, and their ambivalent relationship to state, church, and market. Also explores how self-consciously negotiating the tension between native and international influences, artists, critics, and curators contributes to notions of Lo Mexicano, or "Mexicanness." Three lecture hours a week for one semester. Art History 341K and Latin American Studies 327 (Topic 2) may not both be counted.

Topic 3: Mesoamerican Art and Culture. Same as Art History 347L. Mesoamerican art, architecture, and its archaeological context, with emphasis on the social function of art and visual culture in ancient Mesoamerica up to the time of European contact. Three lecture hours a week for one semester. Art History 347L and Latin American Studies 327 (Topic 3) may not both be counted.

Topic 5: Maya Art and Architecture. Same as Anthropology 323V, Art History 347M, and Geography 322M. Introduction to the artistic traditions of the ancient Maya, tracing their development up to the time of European contact. Students will examine various important themes of Maya culture including history, ritual, and cosmology as revealed in sculpture, hieroglyphs, painting, and architectural design. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 323V, 324L (Topic: Maya Art and Architecture), Art History 347M, Latin American Studies 327 (Topic 5), Geography 322M, 356T (Topic: Maya Art/Architecture).

Topic 6: Art and Archaeology of Ancient Peru. Same as Art History 347K. The growth of civilization in South America from the earliest decorated textiles, pottery, and ceremonial buildings to the imperial Inca style. Three lecture hours a week for one semester. Art History 347K and Latin American Studies 327 (Topic 6) may not both be counted.

Topic 7: Art Cinemas of the Americas. Same as Art History 341S. Examine art cinemas from the Spanish-speaking Americas from the 1950s to the present. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 341S, 361 (Topic: Art Cinemas of the Americas), Latin American Studies 327 (Topic: Art Cinemas of the Americas), 327 (Topic 7).

Topic 9: Contemporary Latin American Art. Same as Art History 341P. Development and sources of art in the Caribbean and Central and South America from the 1960s to the present. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 341P, 361 (Topic: Contemporary Latin Amer Art), Latin American Studies 327 (Topic: Contemporary Latin Amer Art), 327 (Topic 9).

Topic 10: Architecture and Sculpture in the Maya World. Same as Anthropology 322V and Art History 347R. Explore the ancient world of the Maya through the lens of architecture and sculpture. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322V, Art History 347R, 370 (Topic: Arch/Sculture in Maya World), Latin American Studies 327 (Topic 10).

Topic 11: Aztec Art and Civilization. Same as Art History 347N. An introduction to the art, symbolism, and visual culture of the ancient Aztecs. Subjects include the representations of history and mythology in architecture, stone monuments, and pictorial manuscripts. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 347N, 370 (Topic: Aztec Art and Civilization), Latin American Studies 327 (Topic: Aztec Art and Civilization), 327 (Topic 11).

LAS 328. Topics in Latin American Arts, Literature, Film, and Dance.

Three lecture hours a week for one semester; some topics may require additional hours. Latin American Studies 322 and 328 may not both be counted unless the topics vary. Latin American Studies 328 and 370P may not both be counted unless the topics vary. Latin American Studies 328 and 370S may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Varies with topic.

Topic 1: Samba to Hip Hop: Brazilian Popular Music. Same as Portuguese Civilization 320E (Topic 1). Examines the role of popular music in relationships of power with subordination and the impact of music as a form of cultural expression.

Topic 2: Global Brazil: Immigration and Diaspora in Brazilian Culture. Same as Portuguese Civilization 320E (Topic 2). Examination of twentieth-century literature, films, and other cultural artifacts that capture the multicultural reality of Brazilian society and challenge the image of Brazil as a unified, harmonious, racially-mixed nation. Subjects include contemporary textual and visual representations of the Brazilian diaspora in the United States and Europe. Only one of the following may be counted: Latin American Studies 328 (Topic 2), 370P (Topic 6), Portuguese Civilization 320E (Topic 2), Portuguese 375 (Topic 7).

Topic 8: Spanish Storytelling. Same as Spanish Civilization 320C (Topic 4). Explore the Spanish storytelling tradition, with a focus on famous Spanish language authors who have enjoyed a broad reception in the English-speaking world. Only one of the following may be counted: Latin American Studies 328 (Topic: Spanish Storytelling), 328 (Topic 8) Spanish Civilization 320C (Topic: Spanish Storytelling), 320C (Topic 4). Additional prerequisite: Upper-division standing.

Topic 9: Spectacular Brazil. Same as Portuguese Civilization 321. Explore the global, historical, thematic, and performative aspects of Brazilian culture using cultural texts, film, popular music, art, and photography. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 328 (Topic: Spectacular Brazil), 328 (Topic 9), Portuguese Civilization 320E

**Topic 10: The United States in Latin American Culture.** Same as Spanish Civilization 320C (Topic 5). Explore how Latin American and Latinx writers and artists have used the United States and globalization tropes, not just to come to terms with politics, popular culture, crime, technology, gender, and race, but also to talk about themselves. Only one of the following may be counted: Latin American Studies 328 (Topic: Gringomania: U.S. In Lat Am), 328 (Topic 10), Spanish Civilization 320C (Topic: Gringomania: U.S. In Lat Am), 320C (Topic 5). Additional prerequisite: Upper-division standing.

**Topic 11: Modern Brazil.** Same as Portuguese Civilization 325. Explore modern Brazilian urban culture and the processes and contexts that led to the modernization of Brazil. Only one of the following may be counted: Latin American Studies 328 (Topic: Modern Brazil), 328 (Topic 11), Portuguese Civilization 320E (Topic: Modern Brazil), 325. Additional prerequisite: Upper-division standing.

**Topic 12: Jews of the United States, Canada, and Latin America.** Same as American Studies 320C, Jewish Studies 363 (Topic 33), and Spanish Civilization 320C (Topic 6). Explore the cultural history of Jews in the United States, Latin America, and Canada through a representative sample of short literary texts, film clips, and musical recordings. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 320C, Jewish Studies 363 (Topic 33), Latin American Studies 328 (Topic 12), Spanish Civilization 320C (Topic 6). Additional prerequisite: Upper-division standing.

**LAS 328C. Transnational Latinx Popular Culture.**
Same as Mexican American Studies 347C and Women's and Gender Studies 340 (Topic 89). Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 328 (Topic: Transnatl Latinx Pop Culture), 328C, Mexican American Studies 347C, 374 (Transnatl Latinx Pop Culture), Women's and Gender Studies 340 (Topic: Transnatl Latinx Pop Culture), 340 (Topic 89). Prerequisite: Upper-division standing.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in Latin American studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**LAS 330. Topics in Latin American Geography.**
Three lecture hours a week for one semester. Latin American Studies 322 and 330 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 2: Landscapes of Mexico and Caribbean America.** Same as Geography 341K. The natural regions and cultural landscapes of Mexico, Central America, and the West Indies. Prerequisite: Upper-division standing.

**Topic 3: South America: Nature, Society and Sustainability.** Same as Geography 323K. Field study of environmental and social change in selected landscapes in South America, such as protected areas; places of food production; transportation routes; migrant landscapes; urban areas; sites of cultural and historical importance; and issues of human rights. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**Topic 4: Mapping Latin America.** Same as Geography 343E and History 363E. Discuss the role of maps in the creation of Latin America as a specific sort of place. As such, allows familiarity with a broad overview of Latin American history from Pre-Columbian civilizations to the modern period. Three lecture hours a week for one semester. Only one of the following may be counted: Geography 343E, 356T (Topic: Mapping Latin America), 356T (Topic 12), History 363E, 363K (Topic: Mapping Latin America), 363K (Topic 4), Latin American Studies 330 (Topic: Mapping Latin America), 330 (Topic 4). Additional prerequisite: Upper-division standing.

**Topic 5: Vulnerability to Natural Hazards.** Same as Geography 334L. An interdisciplinary approach, set right at the nexus of both physical and human geography, to studying the types of natural disasters that occur throughout Earth with a focus on tropical areas. Explore a region’s susceptibility to natural disasters by studying the physical phenomena that incite specific hazards so that their spatial distribution can be outlined. Utilize theoretical frameworks that can expose the social causes of human vulnerability, the political repercussions of disasters, and how disaster response varies from country to country depending on varying political stances and economic conditions. Three lecture hours a week for one semester. Only one of the following may be counted: Geography 334C, 334L, Latin American Studies 330 (Topic: Environment Hazards Latin America/Caribbean), 330 (Topic 5). Additional prerequisite: Upper-division standing.

**Topic 6: Sustainable Maya Geographies - Past to Future.** Same as Anthropology 326M and Geography 324M. Explore landscapes, conservation, and human-environment dynamics in the Maya region of Central America from more than 10,000 years ago to modern times. Compare sustainable practices from the past with those of indigenous Maya communities today to guide the future. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 326M, Geography 324M, 356T (Topic: Sust Maya Geog: Past to Future), Latin American Studies 330 (Topic 6). Additional prerequisite: Upper-division standing.

**LAS 331. Water Resources in Latin America and the Caribbean.**
Same as Geography 356D. Examine the variability of landscapes, climatic regions, and anthropogenic activities found throughout Latin America and the insular Caribbean to explore the complex issues related to water resource accessibility. Three lecture hours a week for one semester. Only one of the following may be counted: Geography 356 (Topic: Water Res: Lat Amer/Caribbean), 356D, Latin American Studies 330 (Topic: Water Res: Lat Amer/Caribbean), 331. Prerequisite: Upper-division standing.

**LAS 337L. Issues in Third World Development.**
Same as Government 366F. Explore important issues in the politics of developing countries. Three lecture hours a week for one semester. Only one of the following may be counted: Government 365N (Topic 17), 366F, Latin American Studies 337L, 337M (Topic: Iss in Third-World Development). Prerequisite: Six semester hours of lower-division coursework in Government.

**LAS 337M. Topics in Latin American Politics.**
Topics vary each semester to allow curriculum flexibility for faculty members and visiting scholars. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 5: Introduction to Latin American Government and Politics.**
Same as Government 328L. An introductory survey of Latin American political systems: governmental organization, political processes, and current problems. Prerequisite: Six semester hours of lower-division coursework in government.
Topic 9: The Military in Politics. Same as Government 365G and Russian, East European, and Eurasian Studies 335 (Topic 10). Three lecture hours a week for one semester. Only one of the following may be counted: Government 365G, 365N (Topic 3); Latin American Studies 337M (Topic 9); Russian, East European, and Eurasian Studies 335 (Topic 10). Additional prerequisite: Upper-division standing and six semester hours of lower-division coursework in government.

LAS 337N. Afro-Caribbean Politics and Culture in Central America.

LAS 337O. Law and Democracy in Latin America.
Same as Government 337D. Explore many of the challenges to the rule of law across Latin America and how they affect the quality of democracy in the region. Three lecture hours a week for one semester. Only one of the following may be counted: Government 337D, 337M (Topic 7), Latin American Studies 337M (Topic 12), 337O. Prerequisite: Six semester hours of lower-division coursework in Government.

LAS 337P. International Politics of Latin America.
Same as Government 337E. Analyze Latin America's political and economic relations with respect to external actors. Three lecture hours a week for one semester. Only one of the following may be counted: Government 337E, 337M (Topic 8), Latin American Studies 337M (Topic 13), 337P. Prerequisite: Six semester hours of lower-division coursework in Government.

LAS 337Q. Politics, Economy, and Society of Contemporary Brazil.
Same as Government 337F. Examine major economic, political, and sociological developments in Brazil. Three lecture hours a week for one semester. Only one of the following may be counted: Government 337F, 337M (Topic 9), Latin American Studies 337M (Topic 14), 337Q. Prerequisite: Six semester hours of lower-division coursework in Government.

LAS 337R. The Politics of Development in Latin America.
Same as Government 337G. Examine the struggle for development in Latin America. Three lecture hours a week for one semester. Only one of the following may be counted: Government 337G, 337M (Topic 2), 337M (Topic 16), Latin American Studies 337M (Topic 2), 337M (Topic 16), 337R. Prerequisite: Six semester hours of lower-division coursework in Government.

LAS 337S. Latino Politics.
Same as Government 371L and Mexican American Studies 374 (Topic 15). Explore the political experiences of the United States Latino populations. Three lecture hours a week for one semester. Only one of the following may be counted: Government 370K (Topic 2), 371L, Latin American Studies 337M (Topic 8), 337S, Mexican American Studies 374 (Topic 15). Prerequisite: Six semester hours of lower-division coursework in government.

LAS 337T. The Politics of Mexico.
Same as Government 337C. Explore Mexico’s political and economic development. Three lecture hours a week for one semester. Only one of the following may be counted: Government 337C, 337M (Topic 6), Latin American Studies 337M (Topic 11), 337T. Prerequisite: Six semester hours of lower-division coursework in Government.

LAS 335. Topics in Latin American Economics.
Topics vary each semester to allow curriculum flexibility for faculty members and visiting scholars. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

Topic 1: Development Problems and Policies in Latin America. Same as Economics 355. Analysis of the economies of Latin America. Issues may include the structure and functioning of cities, rural-urban migration, the sectoral composition of GDP and employment, and determinants of growth. Three lecture hours a week for one semester. Only one of the following may be counted: Economics 355, Latin American Studies 355 (Topic 1), Urban Studies 351 (Topic 1). Additional prerequisite: Economics 304K and 304L with a grade of at least C- in each.

LAS 359H. Honors Seminar.
An interdisciplinary discussion and writing seminar. Lectures and supervised individual research and writing of a substantial paper on a special topic. Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing, and consent of instructor and the Latin American studies honors adviser.

LAS 366. Topics in Latin American History.
Topics vary each semester to allow curriculum flexibility for faculty members and visiting scholars. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

Topic 2: Colonial Latin America. Same as History 346K. Basic survey course, designed as an introduction to Latin American history in the colonial period. Only one of the following may be counted: History 310K, 346K, Latin American Studies 310 (Topic 1: Latin American Civilization: The Colonial Experience), 366 (Topic 2). Prerequisite: Upper-division standing.

Topic 9: Revolution in Twentieth-Century Latin America. Same as History 346S. An introduction to recent Latin American history, with emphasis on phenomena that explain the apparent social unrest and political instability of the region. Only one of the following may be counted: History 346L, 366N (Topic: Revolution in Twentieth-Century Latin America), Latin American Studies 366 (Topic 9). Prerequisite: Upper-division standing.
Topic 12: Modern Brazil. Same as History 328M. The social, economic, political, and cultural forces that have shaped modern Brazil. Prerequisite: Upper-division standing.

Topic 13: Revolution in Modern Latin America. Same as History 346R. Comparison of the Mexican and Cuban revolutions and of their challenges to inter-American relations. Prerequisite: Upper-division standing.

Topic 15: History of Modern Central America. Same as History 350L (Topic 42: History of Modern Central America). Only one of the following may be counted: History 350L (Topic 42), 363K (Topic: History of Modern Central America), Latin American Studies 366 (Topic 15). Prerequisite: Upper-division standing.

Topic 17: The Cuban Revolution and the United States. Same as History 346T. The special economic and political relationship between the United States and Cuba from 1898 to 1967; and how the 1959 revolution affected the Cold War relationships between East and West, North and South. Only one of the following may be counted: History 346T, 366N (Topic: The Cuban Revolution and the US), Latin American Studies 366 (Topic: The Cuban Revolution and the US), 366 (Topic 17). Prerequisite: Upper-division standing.

Topic 18: History of the Caribbean. Same as History 350L (Topic 62: History of the Caribbean). Overview of Caribbean history from 1492 to the present. Topics include contact between European and native cultures, piracy, slavery, colonialism and decolonization, and revolutions. Prerequisite: Upper-division standing.

Topic 19: Twentieth-Century Rural Latin America. Same as History 346V. Examines causes of some of the unresolved conflicts affecting Latin America today, including the social-agrarian relationships linking landlords and campesinos; the role of the state and the impact of official ideologies involving indigenous people; religion and the Catholic Church; the history of rural institutions; and the success or failure of land reforms. Only one of the following may be counted: History 346V, 363K (Topic: Twentieth-Century Rural Latin America), Latin American Studies 366 (Topic 19). Prerequisite: Upper-division standing.

Topic 20: Colonial Latin America through Objects. Same as History 346J. Examines objects, such as paintings, reliquaries, monstrances, and churches from colonial Latin America in order to understand colonial culture. Includes critical reading of original texts. Only one of the following may be counted: History 346J, 363K (Topic: Colonial Latin America through Objects), Latin American Studies 366 (Topic 20). Prerequisite: Upper-division standing.

Topic 21: Church and State in Latin America. Same as History 346W and Religious Studies 368D. History of Church-state relations and religious politics in modern Latin America, with emphasis on the nineteenth to early twentieth-periods. Three lecture hours a week for one semester. Only one of the following may be counted: History 346W, Latin American Studies 366 (Topic 21), Religious Studies 368 (Topic 1), 368D. Additional prerequisite: Upper-division standing.

Topic 22: Reimagining Cuba, 1868-Present. Same as African and African Diaspora Studies 345M and History 347C. Explores Cuban-United States relations from the nineteenth century to the present, including issues of empire and transnationalism, and social change engagements between Cuba and the United States before and after the Cuban Revolution. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 345M, 374E (Topic 4), History 347C, Latin American Studies 366 (Topic 22). Additional prerequisite: Upper-division standing.

Topic 23: Dictatorship, Dirty War, and Democracy in Latin America. Same as History 350L (Topic 66). Only one of the following may be counted: History 350L (Topic: Dictator/Dirty War in Latin America), 350L (Topic 66), Latin American Studies 366 (Topic: Dictator/Dirty War in Latin America), 366 (Topic 23).

Topic 24: Rethinking the Conquest of Mexico. Same as History 350L (Topic 75). Explores the "conquest" of Mexico and the social, cultural, political, and economic processes which were set in motion by the Spanish invasion of Mexico. Only one of the following may be counted: History 350L (Topic: Rethinking Conquest of Mexico), 350L (Topic 75), Latin American Studies 366 (Topic: Rethinking Conquest of Mexico), 366 (Topic 24), Tutorial Course 357 (Topic: Rethinking Conquest of Mexico).

Topic 25: The Religious Tradition in Latin America. Same as History 350L (Topic 76) and Religious Studies 368E. Explores the different ways in which religion has helped to define the political, social, and philosophical structures of Latin America from colonial times to the present. Three lecture hours a week for one semester. Only one of the following may be counted: History 350L (Topic 76), Latin American Studies 366 (Topic 25), Religious Studies 368 (Topic 3), 368E. Additional prerequisite: Upper-division standing.

Topic 27: Cultural Citizenship in the United States and Latin America. Same as History 361Q. An introduction to the history of relations between the United States and Latin America. Designed to prepare each student for a potential experience in Latin America (or with Latino communities in the United States) such as study abroad, research, and/or community engagement. Three lecture hours a week for one semester. Only one of the following may be counted: History 361Q, 363K (Topic 1), Latin American Studies 366 (Topic 27). Additional prerequisite: Upper-division standing.

Topic 28: Argentina: Populism and Insurrection. Same as History 363C. An overview of principal trends and issues in Argentine history from independence to the present. Three lecture hours a week for one semester. Only one of the following may be counted: History 363C, 363K (Topic 2), Latin American Studies 366 (Topic 28). Additional prerequisite: Upper-division standing.

Topic 29: Religion, Conquest, and Conversion in Colonial Latin America. Same as History 363D and Religious Studies 368F. Focuses on the histories of the Catholic Church and religious devotion in colonial Latin America between 1521 and 1821. Three lecture hours a week for one semester. Only one of the following may be counted: History 363D, 363K (Topic 3), Latin American Studies 366 (Topic 29), Religious Studies 368 (Topic 4), 368F. Additional prerequisite: Upper-division standing.

Topic 32: Latin America in the Nineteenth Century. Same as History 350L (Topic 86). Questions the geographical category of Latin America by examining the kinds of trends and forces of the nineteenth century that contributed to its conceptual emergence and to its growing political, economic, and cultural significance on the global stage. Only one of the following may be counted: History 350L (Topic: Latin America in the Nineteenth Century), 350L (Topic 86),

**Topic 34: The Bible in the Colonial Americas.** Same as Core Texts and Ideas 355, History 363F, and Religious Studies 366C. Varied perspectives on the central role played by the Old Testament in the construction of colonial cultures in the Americas. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 355, 375 (Topic 6), History 363F, 363K (Topic 5), Latin American Studies 366 (Topic 34), Religious Studies 366 (Topic 3), 366C. Additional prerequisite: Upper-division standing.

**Topic 35: When Christ was King.** Same as History 347P and Religious Studies 368C. The history of Catholicism in twentieth-century Mexico, often seen as Latin America's most "Catholic" nation. Three lecture hours a week for one semester. Only one of the following may be counted: History 347P, 350L (Topic: When Christ was King), Latin American Studies 366 (Topic: When Christ was King), 366 (Topic 35), Religious Studies 368 (Topic: When Christ was King), 368C. Additional prerequisite: Upper-division standing.

**Topic 37: Chile: From Revolution to Counterrevolution.** Same as History 347R. An examination of the key political, social, and economic events that underpin contemporary Chilean society. Three lecture hours a week for one semester. Only one of the following may be counted: History 347R, 350L (Topic: Chile: Revoltun to Cnterrevoltun), Latin American Studies 366 (Topic: Chile: Revoltun to Cnterrevoltun), 366 (Topic 37). Additional prerequisite: Upper-division standing.

**Topic 38: Latin America in the Sixties.** Same as History 363T. Explore the impact of the Cuban revolution in Latin American politics, gender roles, and women's participation in public life during the sixties. Three lecture hours a week for one semester. Only one of the following may be counted: History 363K (Topic: Latin America in the Sixties), 363T, 366N (Topic: Latin America in the Sixties), Latin American Studies 366 (Topic: Latin America in the Sixties), 366 (Topic 38). Additional prerequisite: Upper-division standing.

**Topic 39: Life and Politics in Contemporary Mexico.** Same as History 363J. Examine an overview of life and politics in contemporary Mexico. Three lecture hours a week for one semester. Only one of the following may be counted: History 363J, 363K (Topic: Life/Politics Contemp Mexico), Latin American Studies 366 (Topic: Life/Politics Contemp Mexico), 366 (Topic 39). Additional prerequisite: Upper-division standing.

**Topic 40: Politics of Food in Latin America.** Same as History 366F. Examine food production, food consumption, and socio-cultural identities in Latin America through comparative and multidisciplinary research. Three lecture hours a week for one semester. Only one of the following may be counted: History 363K (Topic: Politics of Food in Latin Amer), 366F, Latin American Studies 366 (Topic: Politics of Food in Latin Amer), 366 (Topic 40). Additional prerequisite: Upper-division standing.

**Topic 41: Sexuality and Gender in Latin America.** Same as History 366P and Women's and Gender Studies 340 (Topic 91). Explore gender as a broad analytical tool to understand key problems concerning social organization, power relations, and inequality in contemporary Latin America. Three lecture hours a week for one semester. Only one of the following may be counted: History 363K (Topic: Sexuality/Gender in Latin Amer), 366N (Topic: Sexuality/Gender in Latin Amer), 366P, Latin American Studies 366 (Topic: Sexuality/Gender in Latin Amer), 366 (Topic 41), Women's and Gender Studies 340 (Topic: Sexuality/Gender in Latin Amer), 340 (Topic 91). Additional prerequisite: Upper-division standing.

**Topic 42: Debt and Colonialism in the Caribbean.** Same as African and African Diaspora Studies 345O, American Studies 321, and History 345O. Examine the role that debt has played in the formation of colonial and neocolonial practices in the Caribbean region. Take a broad approach to the concept of debt in order to explore the financial and monetary dynamics of debt, but also the political and cultural implications of debt. Focus in particular on debt as justification in the furtherance of colonialism throughout the Caribbean. Engage in a historical examination of the United States' colonial projects and military interventions in the region throughout the 20th and into the 21st centuries. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 345O, 374E (Topic: Debt/Colonialism Caribbean), American Studies 321 (Topic: Debt/Colonialism Caribbean), 321O, History 345O, 363K (Topic: Debt/Colonialism Caribbean), Latin American Studies 366 (Topic: Debt/Colonialism Caribbean), 366 (Topic 43). Additional prerequisite: Upper-division standing.

**Topic 45: History of Modern Mexico, 1940-present.** Same as History 352G. Introduction to the history of modern Mexico from the close of the Mexican Revolution (1940) to the present. Three lecture hours a week for one semester. Only one of the following may be counted: History 352G, 366N (Topic: Hist Modern Mexico, 1940-Prev), Latin American Studies 366 (Topic 45). Additional prerequisite: Upper-division standing.

**Topic 46: The Mexican Revolution, 1910-1940.** Same as History 352F. Explore the initial decade of the Mexican Revolution, the first of the twentieth-century nationalist social revolutions. Examine the historical antecedents and the political, economic, social, and intellectual elements of the upheaval. Three lecture hours a week for one semester. Only one of the following may be counted: History 352F, 352L, Latin American Studies 366 (Topic 8), 366 (Topic 46). Additional prerequisite: Upper-division standing.

**LAS 366C. Nationalisms in the Caribbean.** Same as African and African Diaspora Studies 345I and History 371Q. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 345I, 374E (Topic: Nationalism in Caribbean), History 363K (Topic: Nationalism in Caribbean), 371Q, Latin American Studies 366 (Topic: Nationalism in Caribbean), 366C. Prerequisite: Upper-division standing.

**LAS 366D. Race, Rebellion and Revolution in the Caribbean.** Same as African and African Diaspora Studies 345J and History 372Q. Three lecture hours a week for one semester. Only one of the following

**LAS 370P. Topics in Luso-Brazilian Literature, Culture, Civilization, and Linguistics.**

Taught in Portuguese. Three lecture hours a week for one semester. Latin American Studies 322 and 370P may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Portuguese 611D, 611S, 612, 312L, or 516; additional prerequisites vary with the topic.

**Topic 2: Introduction to Literatures and Cultures.** Same as Portuguese 328C. Overview of Luso-Brazilian literatures and cultures, including the arts and popular expressions from a multidisciplinary perspective. Among the regions studied are Brazil, Portugal, and related areas in Africa. Three lecture hours a week for one semester. Latin American Studies 370P (Topic 2) and Portuguese 328C may not both be counted. Additional prerequisite: Portuguese 311C and 314C, 611D, 311J and 314J, or 611S (or 312L or 516).

**Topic 10: United States Latino Literatures and Cultures in Context.** Same as Portuguese 354. Examines the United States Latino literary and cultural production from a multidisciplinary perspective, through literature, film, music, and performance. Analyzes the literatures and experiences of Brazilian American writers and artists in their historical and cultural specificities. Three lecture hours a week for one semester. Latin American Studies 370P (Topic 10) and Portuguese 354 may not both be counted. Additional prerequisite: Portuguese 327C (or 362).

**Topic 11: Sociolingustics.** Same as Portuguese 353. Explores the interrelationship of language and society with reference to the Portuguese-speaking world. Examines how socio-economic, political, and anthropological factors like race, social class, gender, age, and identity influence linguistics forms. Three hours a week for one semester. Latin American Studies 370P (Topic 11) and Portuguese 353 may not both be counted. Additional prerequisite: Portuguese 327C or 362, and 330L.

**LAS 370S. Topics in Hispanic Literature, Culture, Civilization, and Linguistics.**

Taught in Spanish. Three lecture hours a week for one semester, or as required by the topic. Latin American Studies 322 and 370S may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Spanish 311 and 314, or 311J and 314J, or 611D or 612 or 312L.

**Topic 23: Violence in Contemporary Mexican Culture.** Same as Spanish 355F and Women's and Gender Studies 340 (Topic 20). Studies the representation of violence in contemporary literary and cultural production in Mexico in order to understand social, political, and cultural implications of current violence there. Taught in Spanish. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic 23), Spanish 355 (Topic 6), Spanish 355F, and Women's and Gender Studies 340 (Topic 20). Additional prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

**Topic 24: Gender Issues in Contemporary Latin American Cinema.** Same as Spanish 350C and Women's and Gender Studies 335 (Topic 6). Studies Latin American cinema as a device of gender system formation and reinforcement, and as criticism of patriarchal hegemony; discusses questions related to sexuality depicted in Latin American films. Subjects covered include: maternity, prostitution, machismo, children’s sexuality, homosexuality, heterosexuality, and gender violence in films from the 1930s to present. Conducted in Spanish. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic 24), Spanish 350C, 350K (Topic 1), Women's and Gender Studies 335 (Topic 6). Additional prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

**Topic 27: Introduction to Literatures and Cultures.** Same as Spanish 328C. Overview of Iberian and/or Latin American literatures and cultures, including the arts and popular expressions, from a multidisciplinary perspective. Among the regions studied are Spain; North, Central, and South America; the Caribbean; and related areas in Africa. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic 27), Spanish 328, 328C. Only one of the following may be counted: Latin American Studies 370S (Topic 3), 370S (Topic 27), Spanish 322K, 328C. Additional prerequisite: Spanish 311 and 314, 611D, or 314J and 314J (or 612 or 312L).

**Topic 32: Jewish Voices from Latin America.** Same as Jewish Studies 363E and Spanish 355D. Overview of popular Jewish writers from Brazil and Spanish America, with special emphasis on those who portray in their work the situation of the Jewish communities of their respective cities and countries. Conducted in Spanish. Three lecture hours a week for one semester. Only one of the following may be counted: Jewish Studies 363 (Topic 15), 363E, Latin American Studies 328 (Topic 4), 370S (Topic 32), Spanish 355 (Topic 3), 355D, Spanish Civilization 320C (Topic 1). Additional prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

**Topic 43: United States Latino Literatures and Cultures in Context.** Same as Spanish 359. Examines the United States Latino literary and cultural production from multidisciplinary perspectives, such as literature, film, music, and performance. Analysis of the literatures and experiences of United States Latino writers and artists in their historical and cultural specificities. Three lecture hours a week for one semester. Latin American Studies 370S (Topic 43) and Spanish 359 may not both be counted. Additional prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

**Topic 45: Brevity in Spanish-Language Literature and Film.** Same as Spanish 358C. Explore the work of Spanish and Spanish American filmmakers, prose writers, and poets who have accepted the challenge of expressing themselves in a brief span of time. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic: Short Films/Stories/Poems), 370S (Topic 45), Spanish 355 (Topic: Short Films/Stories/Poems), 358C, 377C (Topic: Short Films/Stories/Poems). Additional prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

**Topic 46: Latin American Film and Culture.** Same as Spanish 350D. Review Latin American cinema from the silent era to present, with an emphasis on the last forty years. Discuss the development of the film industry (particularly in Argentina and Mexico in the 1930s and 1940s), the "New Wave" of Latin American cinema in the 1960s, and contemporary trends. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic 25), 370S (Topic 46), Spanish 350D, 350K (Topic 3). Additional prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

**LAS 378. Capstone Course in Latin American Studies.**

Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**LAS 379. Conference Course in Latin American Studies.**

Supervised individual study of selected problems in Latin American studies. Conference course. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor and the undergraduate adviser in Latin American studies.
LAS 679H. Honors Tutorial Course.  
For honors candidates in Latin American studies. Individual reading of selected works for one semester, followed in the second semester by the writing of an honors thesis. Conference course for two semesters. Prerequisite: For Latin American Studies 679HA, Latin American Studies 359H, admission to the Latin American Studies Honors Program, and written consent of the Latin American Studies Honors Program adviser; for 679HB, Latin American Studies 679HA.

Graduate Courses  
LAS 381. Topics in Latin American Studies.  
A varied selection of topics each semester, taught by different faculty members and visiting professors. Three lecture hours a week for one semester, as required by the topic. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

- **Topic 1:** International Migration. Same as Sociology 389K (Topic 4: International Migration). May be counted toward either the demography specialization or the race and ethnicity specialization in the sociology degree program.

- **Topic 6:** Housing Practices and Public Policy in Latin America. Same as Sociology 396P (Topic 13). May be counted toward the political sociology, development and globalization specialization in the sociology degree program. Only one of the following may be counted: Sociology 395D (Topic 5), 396P (Topic 13), Latin American Studies 381 (Topic 6).

- **Topic 8:** International Business Fellows Seminar. Same as Asian Studies 391 (Topic 6), Middle Eastern Studies 380, and Russian, East European, and Eurasian Studies 380. Multidisciplinary seminar for students in area studies, business administration, law, and public policy. The faculty includes both academics and business leaders. Only one of the following may be counted: Asian Studies 391 (Topic 6), International Business 395 (Topic: International Business Fellows Seminar), Latin American Studies 381 (Topic 8), Middle Eastern Studies 380, Public Affairs 388K (Topic: International Business Fellows Seminar), Russian, East European, and Eurasian Studies 380.

- **Topic 11:** Information Resources on, and Services for, Hispanic Americans. Information needs of Hispanic Americans; roles of academic, public, and school libraries in meeting those needs.

- **Topic 12:** Information Resources on Latin America. Historical survey of sources of information on Latin America: bibliographical literature from and about Latin America during the colonial, national, and contemporary periods; various types of book and nonbook sources of information available to contemporary scholars. Additional prerequisite: Proficiency in Spanish or Portuguese and consent of instructor.

- **Topic 14:** Introduction to the Sociology of Latin America. Same as Sociology 396P (Topic 10). Only one of the following may be counted: Latin American Studies 381 (Topic 14), Sociology 395D (Topic 2), 396P (Topic 10). May be counted toward the political sociology/development and globalization specialization in the sociology degree program.

- **Topic 15:** Local Economic Development.

- **Topic 16:** Maya Hieroglyphic Writing. Additional prerequisite: Consent of the graduate adviser.

- **Topic 19:** Political Economics of International Communication. Latin American Studies 381 (Topic 19) and Radio-Television-Film 393P (Topic: Political Economics of International Communication) may not both be counted. Additional prerequisite: Consent of instructor and the graduate adviser.

- **Topic 20:** Regional Planning in Latin America.

- **Topic 22:** Documentary Tradition of Latin America. Same as Journalism 395 (Topic 4). Study of still photographic and video documentary work by Latin Americans about Latin America.

- **Topic 23:** Poverty and Marginality in the Americas. Same as Sociology 396P (Topic 17). Review of the past and present ethnographic analyses of the nature and experiences of poverty and marginality in Latin America and in the United States. Examines some of the most controversial issues and debates, and explores emerging research topics north and south of the border. May be counted toward the sociology department’s political sociology, development and globalization specialization in the sociology degree program. Only one of the following may be counted: Latin American Studies 381 (Topic: Poverty and Marginality in the Americas), 381 (Topic 23), Sociology 395D (Topic: Poverty and Marginality in the Americas), 396P (Topic 17).

- **Topic 24:** Contemporary Brazilian Art. Same as Art History 381 (Topic 1). Examine art and activism in contemporary Brazil to explore how artists are relating to, reflecting on, and resisting the democratic erosion in the country. Only one of the following may be counted: Art History 381 (Topic: Contemporary Brazilian Art), 381 (Topic 1), Latin American Studies 381 (Topic: Contemporary Brazilian Art), 381 (Topic 24). Additional prerequisite: Graduate standing in art history and consent of the graduate advisor.

- **Topic 25:** Brazilian Cultural Theory. Same as Iberian and Latin American Languages and Cultures 388C. Explore some of the most influential subjects and theories that have informed contemporary scholarship on the politics of Brazilian literary and cultural production. Three lecture hours a week for one semester. Only one of the following may be counted: Iberian and Latin American Languages and Cultures 388 (Brazilian Cultural Theory), 388C, Latin American Studies 381 (Topic: 25), 392S (Brazilian Cultural Theory). Additional prerequisite: Graduate standing and consent of the graduate advisor.

- **Topic 26:** Cultural Tropicalities. Same as Iberian and Latin American Languages and Cultures 388D. Examine the centrality of Brazil, and the New World in general, in the context of global controversial meanings, symbology, memory, and knowledge of the inter-tropical cultural and geographic zone. Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 382 (Cultural Tropicalities), Iberian and Latin American Languages and Cultures 388 (Cultural Tropicalities), 388D, Latin American Studies 381 (Cultural Tropicalities), 381 (Topic 26). Additional prerequisite: Graduate standing and consent of the graduate advisor.

LAS 381F. Methods for Social Science in Latin America. Three lecture hours a week for one semester. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Graduate Standing.

LAS 382. Conference Course in Latin American Studies. Individual study to be arranged with a faculty member. The equivalent of three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.

LAS 383. Invisible Global Market. Same as Advertising 391L and Public Affairs 388N. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 391L, Latin American Studies 383, Marketing 382 (Invisible Global Market), 382 (Invisible Global Marketing), 282, 382 (Topic 34), Middle Eastern Studies 382M, Public Affairs 388N. Offered on the letter-grade basis only.
Three lecture hours a week for one semester. Latin American Studies 381 (Topic: Proseminar: Latin America in the Twentieth Century) and 384 may not both be counted. Prerequisite: Graduate standing in Latin American studies.

LAS 384L. Topics in Latin American Politics.
A varied selection of topics each semester, taught by different faculty members and visiting professors. Three lecture hours a week for one semester, or as required by the topic. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

Topic 1: Brazilian Public Policies. Same as Government 384L (Topic 1: Brazilian Public Policies). Three lecture hours a week for one semester. Additional prerequisite: Twenty-four semester hours of coursework in government or related fields and consent of the graduate adviser. Some reading knowledge of Spanish or Portuguese is recommended.

Topic 2: Latin American Urban Politics. Same as Government 384L (Topic 2: Latin American Urban Politics). Three lecture hours a week for one semester. Additional prerequisite: Twenty-four semester hours of coursework in government or related fields and consent of the graduate adviser. Some reading knowledge of Spanish or Portuguese is recommended.

Topic 3: Development Policy. Same as Government 384M (Topic 6: Development Policy). Three lecture hours a week for one semester. Additional prerequisite: Twenty-four semester hours of coursework in government or related fields and consent of the graduate adviser.

Topic 6: Comparative Politics: Latin America. Same as Government 390L (Topic 18: Comparative Politics: Latin America). Three lecture hours a week for one semester. Additional prerequisite: Twenty-four semester hours of coursework in government or related fields and consent of the graduate adviser.

LAS 386. Topics in Latin American History.
A varied selection of topics each semester, to allow curriculum flexibility for faculty members and visiting scholars. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

LAS 388. Topics in Latin American Geography.
Three lecture hours a week for one semester. Latin American Studies 381 and 388 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 1: Regional Geography of Latin America. Same as Geography 385 (Topic 1: Latin America). Topics include land and life in Central America; culture, environment and development in Latin America; recent trends in Latin American geography. Additional prerequisite: Consent of instructor.

Topic 2: Indigenous Maps, Architecture, and Enculturation of Colonial Mexico. Same as Geography 388C. The encounter of Spanish and indigenous cultures and ecologies; regional diversity of agricultural, urban, and economic development from 1521 to 1810; ethnic transformation and new socioeconomic configurations.

Topic 3: Latin American Cultures, Environment, and Development. Same as Geography 395D. Exploration through Latin American examples of issues of cultural identity and territory, adaptive strategies, environmental impact, conservation, cultural survival, parks and people, and sustainable development. Additional prerequisite: Consent of instructor.

Topic 4: Environment and Health in Latin America. Same as Geography 380D. Issues related to health, health care, and development in Latin America and the Caribbean, considered with the recognition that health depends on the interactions of social, economic, and political factors as well as on health care services.

LAS 391. Topics in Latin American Anthropology.
A varied selection of topics each semester, taught by different faculty members and visiting professors. Three lecture hours a week for one semester, or as required by the topic. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

LAS 391K. Topics in Latin American Economics.
A varied selection of topics each semester, taught by different faculty members and visiting professors. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

Topic 1: Seminar on the Mexican Economy. Additional prerequisite: Six semester hours of upper-division coursework in economics and six additional semester hours of upper-division coursework in social science or business.

Topic 2: Current Issues in Latin American Economics. Only one of the following may be counted: Economics 391K (Topic 2), Latin American Studies 391K (Topic: Current Economic Issues in Latin America), 391K (Topic 2). Additional prerequisite: Six semester hours of upper-division coursework in economics and six additional semester hours of upper-division coursework in social science or business.

Topic 3: Latin American Economic Models. Additional prerequisite: Six semester hours of upper-division coursework in economics and six additional semester hours of upper-division coursework in social science or business.

Topic 4: Entrepreneurship and Development in Latin America. Additional prerequisite: Six semester hours of upper-division coursework in economics and six additional semester hours of upper-division coursework in social science or business.

LAS 392P. Topics in Luso-Brazilian Literature, Culture, Civilization, and Linguistics.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

LAS 392S. Topics in Hispanic Literature, Culture, Civilization, and Linguistics.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

LAS 397R. Secondary Report.
Preparation of a report to be counted toward the requirement for the master's degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the letter-grade basis only.
Prerequisite: Graduate standing in Latin American studies and consent of the supervising professor and the graduate adviser.

LAS 698. Thesis.
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in Latin American studies and consent of the supervising professor and the graduate adviser; for 698B, Latin American Studies 698A.

LAS 398R. Master’s Report.
Preparation of a report to fulfill the requirement for the master’s degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in Latin American studies and consent of the supervising professor and the graduate adviser.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses

LAT - Latin

Lower-Division Courses

LAT 601C. Beginning Latin.
Fundamentals of grammar and reading. Six lecture hours a week for one semester. Only one of the following may be counted: Latin 601C, 506 and 507

LAT 506. First-Year Latin I.
Fundamentals of grammar and reading. Five lecture hours a week for one semester. Only one of the following may be counted: Latin 601C, 506 and 507

LAT 507. First-Year Latin II.
Continuation of Latin 506. Five lecture hours a week for one semester. Only one of the following may be counted: Latin 601C, 506 and 507

Prerequisite: Latin 506 with a grade of at least C.

LAT 309K. Conference Course.
Supervised individual instruction in second-year Latin reading. Conference course. May be repeated for credit. Prerequisite: Consent of instructor.

LAT 509L. Reading Beginning Latin.
Restricted to students outside the Department of Classics. Continue exploring beginning-level Latin reading. Five lecture hours a week for one semester. Prerequisite: Latin 507 with a grade of at least C.

LAT 311 (TCCN: LATI 2311). Intermediate Latin I.
Continuation of Latin 601C and 507. Introduction to reading classical authors in their cultural context. Includes grammar review. Three lecture hours a week for one semester. Latin 311 and 511K may not both be counted. Prerequisite: Latin 601C or 507 with a grade of at least C.

Five lecture hours a week for one semester. Only one of the following may be counted: Latin 511K, 312K, 316. Latin 311 and 511K may not both be counted. Prerequisite: Latin 507 with a grade of at least C.

LAT 312K (TCCN: LATI 2312). Intermediate Latin II.
Continuation of Latin 311. Selected readings from classical authors. Three lecture hours a week for one semester. Only one of the following may be counted: Latin 511K, 312K, 316. Prerequisite: Latin 311 with a grade of at least C.

Continuation of Latin 311. Selected readings from classical and medieval poets. Three lecture hours a week for one semester. Only one of the following may be counted: Latin 511K, 312K, 316. Prerequisite: Latin 311 with a grade of at least C.

Upper-Division Courses

LAT 322. Advanced Latin I.
Reading and analysis of selected classical authors. Three lecture hours a week for one semester. Prerequisite: Latin 511K, 312K, or 316 with a grade of at least C.

LAT 323. Advanced Latin II.
Reading and interpretation of prose and poetry texts at an early advanced level. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Latin 322 with a grade of at least C.

Connector: Coursemay be counted.

LAT 323 (Topic: Sallust) and 323 (Topic 10) may not both be counted.

LAT 323 (Topic 9: Horace's Odes) and 323 (Topic 9) may not both be counted.

LAT 323 (Topic: Cicero and Catullus) and 323 (Topic 5) may not both be counted.

LAT 323 (Topic: Jr Rdng: Vergil's Aeneid) and 323 (Topic 11) may not both be counted.

LAT 323 (Topic: Exemplarity in Roman Literature) and 323 (Topic 12) may not both be counted.

LAT 323 (Topic: Ovid) and 323 (Topic 13) may not both be counted.

LAT 323 (Topic: Jr Rdng: Vergil's Aeneid) and 323 (Topic 12) may not both be counted.

LAT 323 (Topic: Exemplarity in Roman Literature) and 323 (Topic 14) may not both be counted.

LAT 323 (Topic: Ovid) and 323 (Topic 13) may not both be counted.

LAT 323 (Topic: Exemplarity in Roman Literature) and 323 (Topic 14) may not both be counted.

LAT 323 (Topic: Exemplarity in Roman Literature) and 323 (Topic 14) may not both be counted.

LAT 323 (Topic: Exemplarity in Roman Literature) and 323 (Topic 14) may not both be counted.

LAT 323 (Topic: Exemplarity in Roman Literature) and 323 (Topic 14) may not both be counted.

LAT 323 (Topic: Exemplarity in Roman Literature) and 323 (Topic 14) may not both be counted.
students seeking a secondary school teaching certificate with Latin as a teaching field. Prerequisite: Latin 322 with a grade of at least C.

Topics in Latin.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Classics. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

LAT 365. Seminar in Latin.

Critical study of authors such as Horace, Livy, Lucretius, and Tacitus. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Latin 323 with a grade of at least C.

**Topic 1:** Horace.
**Topic 2:** Lucretius.
**Topic 4:** Tacitus.

**Topic 8:** Plautus and Early Latin. Latin 365 (Topic: Plautus and Early Latin) and 365 (Topic 8) may not both be counted.

**Topic 9:** Nero. Introduction to our most important extant sources in Latin for Nero’s life and reign: the biographer Suetonius, the historian Tacitus, and the philosopher Seneca. Latin 365 (Topic: Nero) and 365 (Topic 9) may not both be counted.

**Topic 10:** Seneca. Latin 365 (Topic: Seneca) and 365 (Topic 10) may not both be counted.

**Topic 11:** Intertextuality. Discusses the development, problems, and limitations of intertextuality in Roman Literature through a core group of texts, modern and ancient, which define our approach to and practice of intertextual reading. Latin 365 (Topic: Seminar: Intertextuality) and 365 (Topic 11) may not both be counted.

**Topic 12:** Epyllion and Epos. The development of Latin epic from Catullus to Lucan. Latin 365 (Topic: Epyllion and Epos) and 365 (Topic 12) may not both be counted.

**Topic 13:** Vergil's Aeneid: Research and Writing.

**Topic 14:** Livy: Research and Writing.

**Topic 15:** Augustine's Confessions. Latin 365 (Topic: Augustine's Confessions) and 365 (Topic 15) may not both be counted.

**Topic 16:** Portraits of Tyranny: Suetonius. Examine two of Suetonius's most entertaining "Lives": Caligula and Nero. Latin 365 (Topic: Portraits of Tyranny: Suetonius) and 365 (Topic 16) may not both be counted.

**Topic 17:** Roman Historiography. Latin 365 (Topic: Historiography) and 365 (Topic 17) may not both be counted.

**Topic 18:** History and Epic. Read and analyze parallel narratives in epic poetry and historiographical prose. Latin 365 (Topic: History and Epic) and 365 (Topic 18) may not both be counted.

**Topic 19:** Ovid and Vergil in the Renaissance. Latin 365 (Topic: Ovid/Vergil in Renaissance) and 365 (Topic 19) may not both be counted.

LAT 370. Advanced Conference Course.

Supervised reading. Conference course. May be repeated for credit. Prerequisite: Consent of instructor.

LAT 679H. Honors Tutorial Course.

Supervised conference course for honors candidates in Latin. Three conference hours a week for two semesters. Prerequisite: For 679HA, upper-division standing and admission to the Latin Honors Program; for 679HB, Latin 679HA.

**Graduate Courses**

LAT 380J. Proseminar in Classical Literature.

Brief survey of the history of classical literature; orientation to the major periods and genres. Three hours a week for one semester. Designed for first-year graduate students. Prerequisite: Graduate standing.

LAT 180K. Proseminar.

An introduction to the research methodology and the ancillary disciplines used in current classical studies, or to certain disciplines such as meter, textual criticism. One hour a week for one semester. Topics other than those listed below may also be taught. May be repeated for credit when the topics vary. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

**Topic 1:** Research Methods in Classical Studies. Offered on the credit/no credit basis only.

LAT 383. Graduate Reading.

Topics given in recent years include Latin literature survey, Latin prose, Seneca, and Augustine’s Confessions. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

An overview of important theories, issues, and research in classics. Three hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing.

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

**Topic 1:** Caesar.
**Topic 2:** Lucretius.
**Topic 3:** Ovid’s Metamorphoses.
**Topic 4:** Tacitus.
**Topic 5:** Vergil’s Aeneid, Books VII-XII.
**Topic 6:** Catullus. Latin 385 (Topic 6) and 385 (Topic: The World of Catullus) may not both be counted.
**Topic 7:** Vergil’s Eclogues.

LAT 186, 386. Conference Course in Latin Literature.

Conference course. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

LAT 386L. Conference Course in Latin Language.

Restricted to students pursuing degrees other than in classics. Directed reading. Three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

Selected topics in Roman studies. Topics given in recent years include Roman comedy, Pliny, and Roman fragmentary historians. The equivalent of three lecture hours a week for one semester. Topics other than those listed below may also be taught. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

LAT 398R. Master’s Report.

Preparation of a research report to fulfill the requirement for the master’s degree. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in Latin and consent of the graduate adviser.
LAT 398T. Supervised Teaching in Latin.
Three lecture hours a week for one semester. Prerequisite: Graduate standing.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses

LEB - Legal Environment of Business

Legal Environment of Business: LEB

Lower-Division Courses

Upper-Division Courses

LEB 320F. Foundations of Business Law and Ethics.
Restricted to non-McCombs School of Business majors. Not open to law students. Introduction to the legal problems confronting businesses in the global environment. Three lecture hours a week for one semester. Only one of the following may be counted: Legal Environment of Business 320F, 323, and 323H. Prerequisite: Forty-five semester hours of college coursework.

LEB 323. Business Law and Ethics.
Restricted to students in the McCombs School of Business. An investigation of the role of law in society; introduction to legal reasoning, dispute resolution, judicial process, constitutional law, agency, torts, government regulations; business ethics; study of contracts. Three lecture hours a week for one semester. Only one of the following may be counted: Legal Environment of Business 320F, 323, 323H. Offered on the letter-grade basis only.

LEB 323H. Business Law and Ethics: Honors.
Restricted to students admitted to the McCombs School of Business Honors Program. An investigation of the role of law in society; introduction to legal reasoning, dispute resolution, judicial process, constitutional law, agency, torts, government regulations; business ethics; study of contracts. Three lecture hours a week for one semester. Only one of the following may be counted: Legal Environment of Business 320F, 323, 323H. Prerequisite: Senior standing, Accounting 312H, and credit or registration for Business Administration 324H.

LEB 334M. Healthcare Law and Policy.
Introduces the legal and political environment in which the U.S. health care system operates. Three lecture hours a week for one semester. Legal Environment of Business 334M and 370 (Topic: Healthcare Law and Policy) may not both be counted. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office or by the school’s BBA Exchange Programs. Credit is recorded as assigned by the study abroad adviser in the Department of Business, Government, and Society. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. May be repeated for credit when the topics vary.

LEB 361. Law of Business Organizations.
Restricted to students in a business major. Study of basic legal principles of business organizations and operations, including practical comparison and assessment of advantages and disadvantages of different types of organization. Three lecture hours a week for one semester. Prerequisite: Thirty semester hours of undergraduate coursework, or consent of instructor.

LEB 363. Real Estate Law.
An examination of law pertaining to estates and interests in land, conveyances and mortgages, brokers, easements, contracts, default and foreclosure. Three lecture hours a week for one semester. Legal Environment of Business 363 and 170 (Topic 13), 270 (Topic 13), 370 (Topic 13) may not both be counted. Prerequisite: Thirty semester hours of undergraduate coursework.

LEB 366. Commercial Transactions.
Restricted to students in a business major. Applied business transactions, with emphasis on the Uniform Commercial Code; emphasis on bailments, sales of goods, commercial paper, bank-customer relationships, creditor security devices, and bankruptcy. Three lecture hours a week for one semester. Prerequisite: Thirty semester hours of undergraduate coursework, or consent of instructor.

LEB 170, 270, 370. Topics in the Legal Environment of Business.
Selected topics on legal constraints affecting managerial decision making and business behavior. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Thirty semester hours of undergraduate coursework; additional prerequisites vary with the topic.

Topic 1: Antitrust Law.
Topic 2: Environmental Law.
Topic 3: Employer-Employee Relations.
Topic 4: Social and Ethical Responsibilities of Business.
Topic 5: The Law and the Multinational Corporation.
Topic 7: Business Torts.
Topic 8: Constitutional Issues in Business.
Topic 9: Business Dispute Resolution.
Survey of the law as it relates to amateur and professional sports and sports management. Includes an entertainment law component that examines the legal aspects of the film industry.

Introduction to the rapidly evolving law of the European Union, with particular emphasis on business applications and comparisons to American law.

Topic 13: Contracts and Real Property.
Restricted enrollment; contact the Energy Management and Innovation Center for permission to register. General real property interests, including land, mineral, and riparian interests. Subjects include duty of landowners; nonpossessory interest in real property; fixtures; liens; co-ownership of real property; the real estate contract; the broker's listing agreements; deeds; and mortgages. Legal Environment of Business 363 and 170 (Topic 13), 270 (Topic 13), 370 (Topic 13) may not both be counted. Additional prerequisite: For students not pursuing the Energy Management certificate or the Business and Public Policy certificate, consent of instructor.

Topic 14: Oil and Gas Law.
Restricted enrollment; contact the Energy Management and Innovation Center for permission to register. Ownership interests in the oil and gas mineral estate. Subjects include conveyance and partition of the mineral estate; trespass and third party claims; and oil and gas lease provisions. Legal Environment
of Business 170 (Topic 14), 270 (Topic 14), 370 (Topic 14) and 372 may not both be counted. Additional prerequisite: For non-energy management or non-public policy program students, consent of instructor.

**Topic 16: Intergenerational Wealth Transfer.** Restricted to students in a business major. Explore planning and management of wealth and estates through the use of wills, trusts, and gifts; intestacy, guardianships, marital property systems, and prenuptial agreements. Legal Environment of Business 370 (Topic 15) and 370 (Topic 16) may not both be counted.

**Topic 17: Electricity Systems.**

**Topic 18: Energy Law and Policy.**

**Topic 19: Behavioral Economics, Energy and Sustainability.**

**LEB 179, 379. Independent Research in the Legal Environment of Business.**

Restricted to students in a business major. Conference course. Only one of the following may be counted: Accounting 179C, 379C, Business Government and Society 179, 379, Finance 179C, 379C, International Business 179C, 379C, Legal Environment of Business 179, 379, Management 179C, 379C, Management Information Systems 179, 379, Marketing 179C, 379C, Operations Management 179, 379, Risk Management 179, 379. Prerequisite: Eighteen semester hours of coursework in business and economics, six of which must be upper-division; Legal Environment of Business 323 or 323H with a grade of at least C; consent of instructor; and written approval before the first meeting of the course from the department chair’s office, on forms provided for that purpose.

**Graduate Courses**

**LEB 180, 380. Topics in the Legal Environment of Business.**

Selected topics on legal constraints affecting managerial decision making and business behavior. One or three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

**Topic 2: Antitrust Law and Economics.** Legal regulation of anticompetitive market structures and business practices, including political, economic, and historical factors. Monopolies, mergers, horizontal and vertical restraints of trade, and price discrimination.

**Topic 3: Law of Commercial Real Estate Finance and Development.** The legal framework of commercial real estate finance and development, including basic real estate law concepts, legal aspects of financing techniques and instruments, subdivision land-use controls, environmental regulation of real estate development, and other topics.

**Topic 4: Legal and Ethical Environment of Finance.** Covers all aspects of securities regulation, including the legal responsibilities and liabilities of investment bankers, stock analysts, hedge fund managers, auditors, and other securities industry professionals; corporate disclosure requirements; public offering rules; insider trading; mergers and acquisitions; shareholder rights; and relevant ethical and global implications.

**Topic 5: The Law and the Multinational Corporation.** Study of the legal environment in which the multinational enterprise operates, including negotiation and drafting of international contracts, international dispute resolution, expropriation, international investment regulation, letters of credit, tax havens, and cultural and ethical issues.

**Topic 6: Intellectual Property and Antitrust.** Relationships and tensions between laws designed to encourage competitive markets (antitrust laws) and those that grant limited monopolies (patents, copyrights, and trademarks).

**Topic 7: Corporation Law.** Legal framework for the formation and operation of partnerships and corporations, including limited liability partnerships and limited liability corporations; introduction to securities regulation concepts such as insider trading, mergers, and acquisitions.

**Topic 8: Legal Environment of Business.**

**Topic 9: Law of the Entertainment Business.** Legal aspects of management in the entertainment industry, including contractual and financing arrangements, licensing, and copyright.

**Topic 10: Law of Wills, Trusts, and Estates.** Planning and management of estates through the use of wills, trusts, and gifts; intestacy, guardianships, marital property systems, and prenuptial agreements.

**Topic 11: Environmental Dispute Resolution.** Theoretical and practical study of the prevention, management, and resolution of environmental disputes, such as those involving protection of endangered species, wetlands preservation, natural resource conservation, and liability for environmental damage and clean-up.

**Topic 12: Legal Regulation of Unfair Competition.** Competitive actions that violate state or federal law, such as intentional interference with the contractual relations of others, defamation in business contexts, and misappropriation of trade secrets. Ethical and international dimensions are included where appropriate.

**Topic 13: Commercial Transactions.** A comprehensive study of the legal framework for business transactions, including bailments, sales of goods, commercial paper, lender liability, bank-customer relationships, secured transactions, creditor rights, and bankruptcy.

**Topic 14: Intellectual Property.** Legal aspects of protecting intellectual property, including patents, trade secrets, trademarks, and copyrights; the contractual licensing of these property rights and other legal aspects of technology.

**Topic 16: Legal Aspects of Marketing.** State and federal laws on consumer protection, pricing (including price fixing and price discrimination), packaging, advertising, distribution, dealer control, and related topics. Ethical and international dimensions are included where appropriate.

**Topic 17: Legal and Ethical Environment of Accounting.** State and federal regulations and tort and contract law principles that constrain accountants and create potential liability. Ethical and international dimensions are included where appropriate.

**Topic 18: Products Liability.** Public policy, economics, and legal rules regarding liability for the manufacture or sale of defective products. Ethical and international dimensions are included where appropriate.

**Topic 19: Employment Law.** State and federal laws on hiring, supervising, disciplining, and terminating employees: wrongful discharge law, discrimination law, workers’ compensation and employee safety laws, and several related topics. Ethical and international dimensions are included where appropriate.

**Topic 20: Creating and Enforcing Contracts.** Legal rules and practical policies on creating, monitoring, and enforcing contractual rights in a wide variety of business settings. Ethical and international dimensions are included where appropriate.

**Topic 21: Environmental Issues in Real Estate Transactions.** Federal and state environmental regulations affecting commercial real estate transactions, including the Comprehensive Environmental Response, Compensation, and Liability ("Superfund") Act, the Clean Water Act, the Endangered Species Act, wetlands regulation, and other related topics. Ethical and international dimensions are included where appropriate.

**Topic 22: Law of Corporate Finance and Governance.** Legal rules and regulations applicable to a broad range of corporate financial issues, including agency theory, limited liability, valuation, bondholder rights, dividend policy, accountant and investment banker liability, and capital structure and leverage. Ethical and international dimensions are included where appropriate.

**Topic 23: Law of Corporate Mergers and Takeovers.** Legal rules, policies, and economics of mergers, acquisitions, hostile takeovers,
leveraged buyouts, and related topics. Ethical and international dimensions are included where appropriate.

**Topic 24: Law of Real Estate Finance.** Federal and state regulation of real estate finance. Topics include creation, transfer, and discharge of mortgagor's and mortgagee's interests; mortgage substitutes; foreclosures; priority of liens; bankruptcy; and government intervention in the private mortgage market. Ethical and international dimensions are included where appropriate.

**Topic 25: Bankruptcy Law and Debtor-Creditor Relations.** The legal framework governing the rights and duties of companies, and their owners, creditors, and other stakeholders, in times of severe financial distress. Includes liquidation and reorganization proceedings in bankruptcy as well as alternatives to bankruptcy. Ethical and international dimensions are included where appropriate.

**Topic 26: Law for Entrepreneurs.** Legal issues and principles affecting the business entrepreneur, including those related to formation of the appropriate type of business organization, capitalization, protection of personal assets from business liabilities, protection of innovative ideas, hiring key personnel, and related topics. Ethical and international dimensions are included where appropriate.

**Topic 27: Cyberlaw.** Highly focused coverage of intellectual property law (copyright, trade secret, patent, trademarks, and related topics) as it relates to computer hardware and software; substantial coverage of hardware and software licensing; Internet-related legal issues; antitrust issues in the computer industry; and other topics as time permits, such as encryption, privacy, and computer-system vendor liability.

**Topic 29: Business and Public Policy.** Study of the nonmarket environment and its considerable effects on business organizations. Review of business strategies for influencing legislatures, the executive branch, court decisions, and the media.

**Topic 30: Legal Environment of Business for MPA Students.** Introduction to the legal system, with particular emphasis on its applications to the accounting profession. Additional prerequisite: Admission to the Master in Professional Accounting program.

**Topic 32: E-Commerce: Law, Policy, and Strategy.** The responsibilities of the strategist for choosing, developing, and managing an overall e-business firm strategy in uncertain legal, market, technology, and policy environments.

**Topic 33: The Legal Life Cycle of a Technology Start-up.** Comprehensive coverage of the legal issues faced by a technology start-up firm, including choice of an organizational form, employee compensation issues, negotiating real estate leases, protecting intellectual property, raising capital, and taking the firm public. Additional prerequisite: Admission to the Master of Business Administration program.

**Topic 37: Financial Crisis and Restructuring.** Studies the business and legal issues of corporate financial crises. Includes crisis simulation, moot court participation, and guest lectures by restructuring and insolvency professionals.

**Topic 38: Energy Law: Regulating Energy Production.** Examination of the federal, state, and local regulatory regimes governing the production of energy in the United States, including the licensing regimes for electric generation (renewable, nuclear, and fossil-fueled) and the regulation of fossil fuel extraction. Discussion of the statutory regimes regulating coal mining, oil and gas production, fossil-fueled electricity generation, nuclear power plants, hydroelectric plants, and utility-scale wind and solar farms. Covers related issues, including policies aimed at hastening the decarbonization of the electricity sector in an increasing number of states and municipalities, and policy conflicts associated with the growth of hydraulic fracturing to produce oil and gas. Legal Environment of Business 180, 380 (Topic 31) and 180, 380 (Topic 38) may not both be counted.

**Topic 39: Energy Law: Regulating Energy Markets.** Examination of the regulatory regimes governing the sale and delivery of energy in American energy markets, with focus on the economic regulation of electricity, natural gas, and oil markets. Discussion of how federal and state regulatory commissions regulate price and competition in interstate markets under the Federal Power Act and the Natural Gas Act, respectively, and in intrastate markets under analogous state laws. Covers related issues, including the effects of the rapid growth in renewable generation, the move toward increasing competition and market pricing, legal rules governing the siting of natural gas and electric transmission lines, the pricing of transmission services, rules governing the development of LNG terminals, and disputes over the pricing and regulation of distributed energy resources (such as rooftop solar or demand response). Legal Environment of Business 180, 380 (Topic 31) and 180, 380 (Topic 39) may not both be counted.

**LEB 280C. Legal Environment of Business.** Two lecture hours a week for one semester. Prerequisite: Graduate standing.

**LEB 181, 281, 381. Managing Legal and Regulatory Risk for Executives.** Restricted to students in the Executive MBA Program. Examine how organizations manage legal and regulatory risks, as well as an organization’s responsibilities to society. For each semester hour of credit earned, one lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

### Professional Courses

**LIN - Linguistics**

**Linguistics: LIN**

**Lower-Division Courses**

**LIN 306. Introduction to the Study of Language.** Survey of major areas of linguistics: sound systems, grammatical structures, historical development of languages, language families and linguistic universals, dialect differences and their social significance. Three lecture hours a week for one semester.

**LIN 312. Interdisciplinary Approaches to Language.** An interdisciplinary and multidisciplinary introduction to the manifold aspects of language. Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

**LIN 312C. Culture and Communication.** Same as Anthropology 307. An introduction to the study of culture through communication and the theory of signs. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Anthropology 307, Linguistics 312 (Topic: Culture and Communication), 312C.

**LIN 312D. Languages around the World.** Explores the language families of the world. Considers such questions as: what does it mean for languages to be related, and how do we know that they are related in the first place; why are there only a handful of language families in Europe and Africa while there are scores in South America and New Guinea; What can we say about where a language or language family may have originated; and how much living history is being lost as languages become endangered or extinct when people stop speaking them? Three lecture hours a week for one semester. Linguistics 312 (Topic: Languages Around the World) and 312D may not both be counted.
LIN 312E. Language of Sign and Gesture.
Explores how language, a faculty that arises in the brain, is expressed by the body, both for spoken languages (via the vocal tract) and for signed languages (via the hands and face). Also includes an examination of how language, a special cognitive faculty unique to humans, intersects and overlaps with other communication systems, with a focus on gesture, the nonlinguistic communicative systems used by humans and some nonhuman species. Three lecture hours a week for one semester. Linguistics 312 (Topic: Language in the Body) and 312E may not both be counted.

LIN 312F. Bilingualism in the Americas.
Same as Mexican American Studies 309. Analyze the linguistic, cognitive, social, and cultural aspects of bilingualism in the Americas. Three lecture hours a week for one semester. Only one of the following may be counted: Linguistics 312 (Topic: Bilingualism in the Americas), 312F, Mexican American Studies 309, 319 (Topic: Bilingualism in the Americas).

LIN 313. Language and Computers.
Examine a conceptual, non-programming overview of how computers learn, understand, and generate human language, including text encoding, machine learning, language modeling, and text generation. Study what makes human language difficult for computers, how these challenges are overcome, and implications for society. Engage in quantitative reasoning; technical background not required. Three lecture hours a week for one semester. Linguistics 312 (Topic: Language and Computers) and 313 may not both be counted.

LIN 315. Speech Science.
Same as Speech, Language, and Hearing Sciences 315S. Neurophysiological mechanisms underlying the encoding and decoding of speech. Three lecture hours a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 315S, 358S, Linguistics 315, 358S, Speech, Language, and Hearing Sciences 315S.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Linguistics. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

LIN 321L. American English.
Same as English 321L. An overview of the historical development of English in the Americas. Attention to regional, social, and ethnic differences, and their implications for public education. Three lecture hours a week for one semester. English 321L and Linguistics 321L may not both be counted. Prerequisite: One of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P, or Tutorial Course 303D.

LIN 323L. English as a World Language.
Same as English 323L. An account of the spread of English around the world, national, social, and regional varieties. Three lecture hours a week for one semester. English 323L and Linguistics 323L may not both be counted. Prerequisite: One of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P, or Tutorial Course 303D.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Linguistics. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Articulation and transcription of speech sounds; distinctive feature systems; physiological and acoustical aspects of phonetics; common phonological processes. Three lecture hours a week for one semester.

LIN 345. Language Change and Language Variation.
Introduction to the study of how languages change and the principles developed by linguists to account for these changes. Investigation of the various domains in which change occurs, and the social and linguistic motivations for change. Examines the methods linguists use to determine the earlier profile of a language or its parent language, before identified changes occurred. Three lecture hours a week for one semester. Prerequisite: Linguistics 344K.

Explores how different speakers of the same language differ in their pronunciation, according to regional and social groupings. Acoustic analysis of English speakers will provide the basis of an inquiry into how and why accents differ. Three lecture hours a week for one semester. Linguistics 346 and 350 (Topic: Exploring Accents) may not both be counted. Prerequisite: Linguistics 344K.

LIN 350. Special Topics in the Study of Language.
Nontechnical examination of social, educational, and political problems to which current linguistic knowledge is relevant. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Linguistics. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

LIN 321L. American English.
Same as English 321L. An overview of the historical development of English in the Americas. Attention to regional, social, and ethnic differences, and their implications for public education. Three lecture hours a week for one semester. English 321L and Linguistics 321L may not both be counted. Prerequisite: One of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P, or Tutorial Course 303D.

LIN 323L. English as a World Language.
Same as English 323L. An account of the spread of English around the world, national, social, and regional varieties. Three lecture hours a week for one semester. English 323L and Linguistics 323L may not both be counted. Prerequisite: One of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P, or Tutorial Course 303D.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Linguistics. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Articulation and transcription of speech sounds; distinctive feature systems; physiological and acoustical aspects of phonetics; common phonological processes. Three lecture hours a week for one semester.

LIN 345. Language Change and Language Variation.
Introduction to the study of how languages change and the principles developed by linguists to account for these changes. Investigation of the various domains in which change occurs, and the social and linguistic motivations for change. Examines the methods linguists use to determine the earlier profile of a language or its parent language, before identified changes occurred. Three lecture hours a week for one semester. Prerequisite: Linguistics 344K.

Explores how different speakers of the same language differ in their pronunciation, according to regional and social groupings. Acoustic analysis of English speakers will provide the basis of an inquiry into how and why accents differ. Three lecture hours a week for one semester. Linguistics 346 and 350 (Topic: Exploring Accents) may not both be counted. Prerequisite: Linguistics 344K.

LIN 350. Special Topics in the Study of Language.
Nontechnical examination of social, educational, and political problems to which current linguistic knowledge is relevant. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

Topic 3: Sign Languages and Signing Communities. Same as American Sign Language 326. Examines the grammar of signed languages, their use in signing communities, and the acquisition of signed languages as first languages. No knowledge of American Sign Language is required. May not be counted toward fulfillment of the foreign language requirement for any bachelor’s degree. Prerequisite: Upper-division standing.

Topic 4: Language and People. Areas in language and linguistics that most directly impact people, such as language and ethnicity, language and nation-building, and language politics. Prerequisite: Upper-division standing.

Topic 5: Bilingual Language Acquisition. Examines various aspects of bilingual first language acquisition including phonology, morphology, and syntax, as well as the child’s use of his/her languages. Prerequisite: Upper-division standing.

Topic 6: Indigenous Languages of the Americas. Same as Latin American Studies 322 (Topic 15: Indigenous Languages of the Americas). Examines various aspects of languages in the Americas, including their linguistic structures, the cultural domains in which they exist, and their histories of language contact and change. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

Topic 7: Language, Cognition and Rhythm. Explores connections between language and various musical forms, and what the psychological basis for these connections might be. Reading materials are drawn primarily from the published literature in
psychology, linguistics, and music perception. Linguistics 350 (Topic: Language, Cognition, & Rhythm) and 350 (Topic 7) may not both be counted. Additional prerequisite: Upper-division standing.

**Topic 10: How to Describe a Language.** Practical introduction to language documentation and preservation. Subjects include language diversity and practical methods for describing, documenting, and preserving languages, with an emphasis on the phonological and morphological analysis of restricted data sets, as well as the role of linguists in conjunction with communities of speakers who wish to document or revitalize their languages. Three lecture hours a week for one semester. Linguistics 350 (Topic: How to Describe a Language) and 350 (Topic 10) may not both be counted. Additional prerequisite: Upper-division standing.

**Topic 11: Speech Intelligibility.** An overview of the main empirical findings on talker-, listener-, and signal-related factors that shape speech intelligibility, the degree to which spoken language can be comprehended. Explores how signal-related (physical), peripheral (auditory-perceptual), and system-related (mental) factors condition variation in both the production and perception of intelligible speech. Also examines how variation in intelligibility conditions different levels of spoken language processing and different tasks that the listener is performing during spoken language comprehension. Three lecture hours a week for one semester. Linguistics 350 (Topic: Speech Intelligibility) and 350 (Topic 11) may not both be counted. Additional prerequisite: Linguistics 344K, 358S, or consent of instructor.

**Topic 12: Analyzing Text Data: A Statistics Toolkit for Linguists.** Introduction to statistical concepts and analyses via language problems and linguistic data sets. Three lecture hours a week for one semester. Linguistics 350 (Topic: Words in a Haystack) and 350 (Topic 12) may not both be counted. Additional prerequisite: Upper-division standing.

**Topic 14: Linguistics of Writing.** How language relates to the written word and how linguistic analysis is intertwined with writing. Subjects include the typology and evolution of writing systems, the psycholinguistics of reading and writing, and the role of writing in contemporary language politics. Linguistics 350 (Topic: Linguistics of Writing Systems) and 350 (Topic 14) may not both be counted. Additional prerequisite: Upper-division standing.

**Topic 15: Computational Semantics.** Studies methods for automatically learning and analyzing word meanings and sentence meanings. Encompasses vector space models as well as logic-based semantics. Linguistics 350 (Topic: Computational Semantics) and 350 (Topic 15) may not both be counted. Additional prerequisite: Upper-division standing.

**LIN 350C. Language and the Brain.**
Same as Speech, Language, and Hearing Sciences 350. Explore the neuroanatomical and functional operations of the major brain structures that underlie speech/language. Examine hemispheric dominance for language, neurological and language breakdowns in aphasia, and brain imaging methods and studies of language representation. Three lecture hours a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 350; Linguistics 350 (Topic 1); Linguistics 350C; Speech, Language, and Hearing Sciences 350. Prerequisite: Upper-division standing.

**LIN 350E. Why Chinese Has No Alphabet.**
Same as Asian Studies 361 (Topic 30). Introduction to the history and evolution of the Chinese writing system and language. No background in Chinese language, culture, or linguistics is required. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic 30), Linguistics 350 (Topic: Why Chinese Has No Alphabet), 350E. Prerequisite: Upper-division standing.

**LIN 350J. Latinas, Latinos and Language.**
Same as Mexican American Studies 357L. Three lecture hours a week for one semester. Only one of the following may be counted: Linguistics 350 (Topic: Latina/o and Language), 350J, Mexican American Studies 357L, 374 (Topic Latina/os and Language). Prerequisite: Upper-division standing.

**LIN 350S. Word Meaning.**
Three lecture hours a week for one semester. Linguistics 350 (Topic: Word Meaning) and 350S may not both be counted. Prerequisite: Linguistics 306.

**LIN 353C. Introduction to Computational Linguistics.**
Introduction to key representations and algorithms used in computational linguistics and key natural language processing applications. Three lecture hours a week for one semester. Prerequisite: Upper-division standing; and Linguistics 350 (Topic 12) or previous programming course in Python or consent of instructor.

**LIN 353N. Natural Language Processing.**
Introduces theoretical and applied topics relating to natural language processing, including machine translation, search, automatic summarization, and dialog systems. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 378 (Topic: Natural Language Processing), Linguistics 350 (Topic: Natural Language Processing), 353N.

**LIN 353S. English Syntax for Writing.**
Same as English 345W. Three lecture hours a week for one semester. Only one of the following may be counted: English 345W, Linguistics 350 (Topic: English Syntax for Writing), 353S. Prerequisite: Linguistics 306 and one of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P, or Tutorial Course 303D.

**LIN 357. Undergraduate Research.**
Supervised research experience. Individual instruction. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Upper-division standing and Linguistics 306 with a grade of at least C-.

**LIN 358Q. Supervised Research.**
Supervised student-initiated research. Individual instruction. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Upper-division standing and Linguistics 306 with a grade of at least C-.

**LIN 359K. Introduction to English Grammar.**
Introduction to the study of the syntactic structure of modern English from the viewpoint of generative grammar. Three lecture hours a week for one semester. English 360K and Linguistics 360K may not both be counted. Prerequisite: Upper-division standing.

**LIN 364. Introduction to Psycholinguistics.**
Three lecture hours a week for one semester Linguistics 350 (Topic: Intro to Psycholinguistics) and 364 may not both be counted. Prerequisite: Upper-division standing.

**LIN 364M. History of the English Language.**
Same as English 364M. Development of sounds, forms, and vocabulary of the English language from its origins to the present. Three lecture hours a week for one semester. English 364M and Linguistics 364M may not both be counted. Prerequisite: One of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P, or Tutorial Course 303D.
LIN 365. Bias.
Same as Cognitive Science 365 and Human Dimensions of Organizations 365. An interdisciplinary introduction to bias from the perspectives of psychology, political science, business, philosophy, and linguistics. Three lecture hours a week for one semester. Only one of the following may be counted: Cognitive Science 365, 360 (Topic: Bias), Linguistics 365, 350 (Topic: Bias), Human Dimensions of Organizations 330 (Topic: Bias), 365. Prerequisite: Upper-division standing.

Examine basic machine learning methods, with an emphasis on building applications that intelligently analyze text. Explore supervised learning (e.g., logistic regression, neural networks), unsupervised learning (e.g., clustering), and natural language processing. Three lecture hours a week for one semester. Only one of the following may be counted: Linguistics 371, 373 (Topic: Machine Learning Text Analysis), 373N. Prerequisite: Upper-division standing and one of the following: Linguistics 350 (Topic 12), Computer Science 303E, 312, or basic programming experience in Python or similar languages.

LIN 372J. Meaning and Message.
Explore theories of linguistic meaning using logical and mathematical tools. Introduction to key ideas from compositional and lexical semantics. Three lecture hours a week for one semester. Linguistics 350 (Topic: Linguistic Meaning) and 372J may not both be counted. Prerequisite: Upper-division standing and Linguistics 306.

LIN 372K. Sound Patterns: From Sound to Word.
Methods and principles of analyzing the sound systems of languages. Three lecture hours a week for one semester. Prerequisite: Linguistics 344K.

LIN 372L. Syntax and Semantics: The Structure and Meaning of Utterances.
Methods and principles of describing the syntactic systems of languages. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and Linguistics 306.

LIN 373. Topics in Linguistics and Related Disciplines.
Introduction to the study of the areas of linguistics that involve other disciplines, such as sociolinguistics, psycholinguistics, mathematical methods in linguistics. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

Topic 10: Language, Culture, and the Texas German Experience. Same as American Studies 370 (Topic 47), Anthropology 324L (Topic 55), and German, Scandinavian, and Dutch Studies 351C. The evolution of the culture and language of German immigrants to Texas from the 1840s through the present and how they have influenced other ethnic groups in Texas. Three lectures a week for one semester. Only one of the following may be counted: American Studies 370 (Topic: Language, Culture, and the Texas German Experience), 370 (Topic 47), Anthropology 324L (Topic: Language, Culture, and the Texas German Experience), 324L (Topic 55), Germanic Civilization 327E (Topic 11) German, Scandinavian, and Dutch Studies 351C, Linguistics 350 (Topic: Language, Culture, and the Texas German Experience), 373 (Topic 10). Additional prerequisite: Upper-division standing.

LIN 373C. Child Language.
Examine theory and research concerning the development of language in children. Three lecture hours a week for one semester. Linguistics 373 (Topic 1) and 373C may not both be counted. Prerequisite: Upper-division standing.

LIN 373D. African American Language.
Same as African and African Diaspora Studies 365C and English 364E. Introduction to the history and contemporary form of African American Language (AAL). Through readings, examine the linguistic description of essential features, the use of AAL in the creation of culturally and historically influential texts, and AAL as a subject of public discussion. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 365C, English 364D (Topic: African American English), 364E, Linguistics 373D. Prerequisite: One of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P, or Tutorial Course 303D.

LIN 373E. Endangered Languages.
Same as Anthropology 320G. Examine language rights as a tool for defending small-scale and minority language communities against the spread of national and global languages. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 320G, 320L (Topic Language Endangerment/Rights), 320L (Topic 13), Linguistics 373 (Topic: Language Endangerment/Rights), 373 (Topic 12), 373E. Prerequisite: Upper-division standing.

LIN 373G. The German Language: Historical Perspectives.
Same as Anthropology 320J and German 369 (Topic 4). Conducted in English. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 320J, 320L (Topic 9), German 369 (Topic 4), Germanic Civilization 327E (Topic 9), Linguistics 373 (Topic 9), 373G. Prerequisite: Three semester hours of upper-division coursework in German or Linguistics.

LIN 373J. Bilingual Minds.
Same as Mexican American Studies 357M. Three lecture hours a week for one semester. Only one of the following may be counted: Linguistics 373 (Topic: Bilingual Minds), 373J, Mexican American Studies 357M, 374 (Topic: Bilingual Minds). Prerequisite: Upper-division standing.

LIN 373L. American Indian Languages and Cultures.
Same as Anthropology 320C. Explore the myriad of indigenous languages of North America and how they are intertwined with culture. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 320C, 320L (Topic 4), Linguistics 373 (Topic: Amer Indian Langs and Culs), 373L. Prerequisite: Upper-division standing.

LIN 373P. Introduction to Cognitive Science.
Same as Cognitive Science 360 (Topic 1) and Philosophy 365 (Topic 2). Three lecture hours a week for one semester. Only one of the following may be counted: Cognitive Science 360 (Topic 1), Linguistics 373 (Topic 7), 373P, Philosophy 365 (Topic 2). Prerequisite: Upper-division standing.

LIN 373S. Speech Play and Verbal Art.
Same as Anthropology 320D. Examine speech play and verbal art (from puns to lies to songs to stories to poetry) from ethnographic and linguistic perspectives in a host of contexts and languages. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 320D, 320L (Topic 5), Linguistics 373 (Topic: Speech Play and Verbal Art), 373S. Prerequisite: Upper-division standing.

LIN 377. Syntactic Theory.
Introduction to formal syntax, which refers to the use of a mathematically precise formalism to model the syntax of human languages and test theories against the challenge of new data. Hands-on solving of syntax puzzles of increasing complexity. Three lecture hours a week for one semester. Linguistics 373 (Topic: Syntactic Theory) and 377 may not both be counted. Prerequisite: Linguistics 306 and 372L.
Supervised individual study of selected problems in linguistics. Conference course. May be repeated for credit. Prerequisite: Six semester hours of upper-division coursework in linguistics.

LIN 679H. Honors Tutorial Course.
Supervised individual reading for one semester, followed by research and writing to produce a substantial paper. Conference course for two semesters. May be repeated for credit. Prerequisite: For 679HA, admission to the Linguistics Honors Program; for 679HB, Linguistics 679HA.

Graduate Courses
LIN 380K. Phonology I.
The descriptive techniques of generative phonology. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

LIN 380L. Syntax I.
An introduction to the description and analysis of syntax. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

LIN 380M. Semantics I.
An introduction to formal semantics and pragmatics, and the logical techniques needed to analyze them. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

LIN 380S. Sociolinguistics.
An introduction to sociolinguistic research, with attention to theoretical issues. Three lecture hours a week for one semester. Prerequisite: Graduate standing and Linguistics 380K and 380L.

LIN 381K. Phonology II.
Readings and problems in current phonological theory. Three lecture hours a week for one semester. Prerequisite: Graduate standing and Linguistics 380K.

LIN 381L. Syntax II.
Advanced description and analysis of syntax. Three lecture hours a week for one semester. Prerequisite: Graduate standing and Linguistics 380L.

LIN 381M. Phonetics.
Speech production and perception; acoustic phonetics; phonetics and phonology; experimental techniques. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

LIN 381S. Semantics II.
Continuation of Linguistics 380M. Descriptive methods and theoretical tools for investigating meaning in human languages; an introduction to propositional content and speech acts. Three lecture hours a week for one semester. Prerequisite: Graduate standing and Linguistics 380L and 380M.

LIN 382. Historical Linguistics.
The principles of language change, reconstruction of earlier linguistic stages, language contact, and language relatedness. Three lecture hours a week for one semester. Prerequisite: Graduate standing and Linguistics 380K.

LIN 383. Comparative and Diachronic Linguistics.
The comparative method; applications to particular linguistic families. Three lecture hours a week for one semester. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

LIN 384. Language Structures.
Languages studied have included Chatino, German, Mayan, Romance languages, and others. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and twelve semester hours of upper-division coursework in linguistics.

LIN 385. Field Methods in Linguistic Investigation.
Methods of research in phonological and grammatical description; work with speakers of under-described languages. Three lecture hours a week for one semester, with additional field hours to be arranged. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

LIN 386M. Mathematical and Computational Linguistics.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

LIN 387. Linguistics and Language Teaching.
Same as Curriculum and Instruction 385G (Topic 6). Designed primarily for participants in international education exchange programs. Application of the findings of linguistics to the teaching of languages. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing.

LIN 389D. Research in Documentary and Descriptive Linguistics.
Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing.
LIN 389P. Research in Phonetics and Phonology.
Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing.

LIN 389S. Research in Syntax and Semantics.
Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing.

LIN 389V. Research in Signed Languages.
Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing.

LIN 391. Topics in Descriptive Linguistics.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

A reading course in a selected area of linguistics. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

LIN 393. Seminar in Linguistic Topics.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

LIN 393C. Language Acquisition.
Three lecture hours a week for one semester. Prerequisite: Graduate standing.

LIN 393P. Topics in Phonology and Phonetics.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

LIN 393S. Topics in Syntax and Semantics.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

Topic 3: Frame Semantics. Same as German 393K (Topic 15). Explore theories and applications frame semantics within linguistics. Only one of the following may be counted: German 393K (Topic: Frame Semantics), 393K (Topic 15), Linguistics 393 (Topic: Frame Semantics), 393S (Topic 3). Additional prerequisite: Graduate standing.

Topic 4: Lexical Semantics. Explore theories of word meaning, including what the basic elements of word meaning are, how those elements are composed into more complex meanings, and what kinds of grammatical processes augment and modify word meanings. Examine the nature of lexical categories, representations of events and individuals, and how a word's meaning is related to its syntactic and morphological properties.

Topic 5: Lexical Semantic Typology. Examine the way word meanings and their grammatical behavior vary across languages. Examine specific case studies to explore how the same types of word meanings can be represented differently across languages and how the principles that relate word meaning to grammar also vary, focusing on argument realization, morphological processes of word building, and lexical inventories.

Topic 6: Minimalist Program. Investigate work within the minimalist program, the current instantiation of the principles and parameters approach to the study of the human language faculty. Examine the development of the minimalist program, including a critical overview of its key concepts and the basic properties of its formal framework. Explore several case studies drawn from very recent work within this tradition that are illustrative of the nature of the approach. Linguistics 393S (Topic: Minimalist Program) and 393S (Topic 6) may not both be counted.

Topic 7: Word Meaning and Syntax. Investigate the interface between word meaning and syntax beginning with an overview of polysemy, vagueness, prototypes, semantic change and the acquisition of word meaning. Explore the mapping from the lexicon to the syntax, focusing on predicate-argument mapping, argument alternations, and lexicalization patterns. Linguistics 393S (Topic: Word Meaning and Syntax) and 393S (Topic 7) may not both be counted.

LIN 394K. Philosophy of Language.
Same as Philosophy 394K. Three lecture hours a week for one semester. Only one of the following may be counted: Linguistics 393S (Topic: Philosophy of Language), 394K, Philosophy 391 (Topic: Philosophy of Language), 394K. Prerequisite: Graduate standing and consent of instructor.

Supervised research. Conference course. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor and the linguistics graduate adviser.
LIN 396. Topics in Sociolinguistics.
Detailed investigation of an area of current interest in sociolinguistics. Most topics provide an opportunity for field research. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

Topic 2: Introduction to Graduate Linguistic Anthropology. Same as Anthropology 392N. Prerequisite: Graduate standing and consent of instructor.

Topic 3: Ethnography of Speaking. Same as Anthropology 393 (Topic 8: Ethnography of Speaking). Additional prerequisite: Consent of instructor.

Topic 4: Turkic Cultures and Languages in Central Asia. Same as Middle Eastern Studies 381 (Topic 26: Turkic Cultures and Languages in Central Asia). Additional prerequisite: Consent of instructor.

Topic 7: Grammar of the Arabic Language. Same as Arabic 382C (Topic 2).

LIN 397. Forum for Doctoral Candidates.
Three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in linguistics and consent of instructor.

LIN 698. Thesis.
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in linguistics and consent of the graduate adviser; for 698B, Linguistics 698A.

LIN 398R. Master’s Report.
Preparation of a report to fulfill the requirement for the master’s degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in linguistics and consent of the graduate adviser.

LIN 398T. Supervised Teaching in Linguistics.
Teaching under the close supervision of the course instructor; weekly group meetings with instructor, individual consultations, and reports throughout the teaching period. Three lecture hours a week for one semester. Prerequisite: Graduate standing and appointment as a teaching assistant.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses

M - Mathematics

Mathematics: M

Lower-Division Courses

M 301 (TCCN: MATH 1314). College Algebra.
Subjects include a brief review of elementary algebra; linear, quadratic, exponential, and logarithmic functions; polynomials; systems of linear equations; applications. Three lecture hours a week for one semester. Usually offered only in the summer session. May not be counted toward a degree in mathematics. Credit for Mathematics 301 may not be earned after a student has received credit for any calculus course with a grade of C- or better. Prerequisite: A passing score on the mathematics section of the Texas Higher Education Assessment (THEA) test (or an appropriate assessment test).

Intended primarily for general liberal arts students seeking knowledge of the nature of mathematics as well as training in mathematical thinking and problem solving. Topics include number theory and probability; additional topics are chosen by the instructor. Three lecture hours a week for one semester. Mathematics 302 and 303F may not both be counted. A student may not earn credit for Mathematics 302 after having received credit for any calculus course. May not be counted toward a degree in the College of Natural Sciences. Prerequisite: Texas Success
Initiative (TSI) exemption or a TSI Mathematics Assessment score of 350 or higher.

An entry-level course for the nontechnical student, dealing with some of the techniques that allow mathematics to be applied to a variety of problems. Topics include linear and quadratic equations, systems of linear equations, matrices, probability, statistics, exponential and logarithmic functions, and mathematics of finance. Three lecture hours a week for one semester. Mathematics 303D and 303F may not both be counted. A student may not earn credit for Mathematics 303D after having received credit for Mathematics 305G or any calculus course. May not be counted toward a degree in the College of Natural Sciences. Prerequisite: An appropriate score on the mathematics placement exam.

M 305G (TCCN: MATH 2312). Preparation for Calculus.
Study of advanced functions and their graphs and applications, including exponential, logarithmic, and trigonometric functions. Introduction to rates, slopes, and derivatives. Three lecture hours a week for one semester. Mathematics 305G and any college-level trigonometry course may not both be counted. A student may not earn credit for Mathematics 305G after having received credit for any calculus course with a grade of at least C-. Mathematics 301, 305G, and equivalent courses may not be counted toward a degree in mathematics. Prerequisite: An appropriate score on the mathematics placement exam.

M 408C. Differential and Integral Calculus.
Introduction to the theory and applications of differential and integral calculus of functions of one variable; topics include limits, continuity, differentiation, the mean value theorem and its applications, integration, the fundamental theorem of calculus, and transcendental functions. Three lecture hours and two discussion hours a week for one semester. Only one of the following may be counted: Mathematics 403K, 408C, 408K, 408N, 408Q, 408R. Prerequisite: An appropriate score on the mathematics placement exam or Mathematics 305G with a grade of at least B-.

M 408D. Sequences, Series, and Multivariable Calculus.
Certain sections of this course are designated as advanced placement or honors sections; they are restricted to students who have scored well on the Advanced Placement Calculus BC exam or have the consent of the mathematics adviser. This is the second semester of the accelerated calculus sequence. The theory and applications of sequences and infinite series, including those involving functions of one variable, and an introduction to the theory and applications of differential and integral calculus of functions of several variables; subjects include methods of integration, parametric equations, sequences, infinite series, power series, functions of several variables, partial derivatives, and multiple integrals. Three lecture hours and two discussion hours a week for one semester. Only one of the following may be counted: Mathematics 403L, 408D, 408M (or 308M). Prerequisite: Mathematics 408C, 408L, or 408S with a grade of at least C-.

Introduction to the theory and applications of differential calculus of functions of one variable; topics include limits, continuity, differentiation, and the mean value theorem and its applications. Three lecture hours and two discussion hours a week for one semester. Only one of the following may be counted: Mathematics 403K, 408C, 408K, 408N, 408Q, 408R. Prerequisite: An appropriate score on the mathematics placement exam or Mathematics 305G with a grade of at least B.

M 408L, 408L (TCCN: MATH 2414). Integral Calculus.
Introduction to the theory and applications of integral calculus of functions of one variable; topics include integration, the fundamental theorem of calculus, transcendental functions, sequences, and infinite series. For Mathematics 408L, three lecture hours a week for one semester; for 408L, three lecture hours and two discussion hours a week for one semester. Only one of the following may be counted: Mathematics 403L, 408L (or 308L), 408S. Prerequisite: Mathematics 408C, 408K, or 408N with a grade of at least B. Mathematics 308R or 408Q with a grade of at least B.

Introduction to the theory and applications of differential and integral calculus of functions of several variables. Includes parametric equations, polar coordinates, vectors, vector calculus, functions of several variables, partial derivatives, gradients, and multiple integrals. For Mathematics 308M, three lecture hours a week for one semester; for 408M, three lecture hours and two discussion hours a week for one semester. Only one of the following may be counted: Mathematics 403L, 408L (or 308L), 408S. Prerequisite: Mathematics 408C, 408K, or 408N with a grade of at least C-, or Mathematics 408R or 408Q with a grade of at least B.
two discussion hours a week for one semester. Only one of the following may be counted: Mathematics 403K, 408C, 408K, 408N, 408Q, 408R. Prerequisite: An appropriate score on the mathematics placement exam or Mathematics 305G with a grade of at least B-.

M 408Q. Differential and Integral Calculus for Business.
Focus on the key concepts of calculus. These include: using successive approximations to solve problems that cannot be solved directly (Euler’s Method), tracking the rate at which quantities are changing (derivatives) using rates of change to find optimal solutions to real-world problems (max/min), and fundamental theorems of calculus. Three lecture hours and two discussion hours a week for one semester. Only one of the following may be counted: Mathematics 403K, 408C, 408K, 408N, 408Q, 408R. Prerequisite: An appropriate score on the mathematics placement exam or Mathematics 305G with a grade of at least B-.

M 408R. Differential and Integral Calculus for the Sciences.
A calculus course for students in the life sciences. Emphasizes representations and analysis of data. Subjects include functions, rates, and derivatives and their applications to problems in biology; differential equations; Riemann integrals; the Euler method; and fundamental theorems of calculus. Three lecture hours and two discussion hours a week for one semester. Only one of the following may be counted: Mathematics 403K, 408C, 408K, 408N, 408Q, 408R. Prerequisite: An appropriate score on the mathematics placement exam or Mathematics 305G with a grade of at least B-.

Restricted to students in the College of Natural Sciences. Introduction to the theory of integral calculus of functions of one variable, and its applications to the natural sciences. Subjects may include integration and its application to area and volume, and transcendental functions, sequences, and series and their application to numerical methods. Three lecture hours and two discussion hours a week for one semester. Only one of the following may be counted: Mathematics 403L, 408L (or 308L), 408S. Prerequisite: Mathematics 408C, 408K, or 408N with a grade of at least C-, or Mathematics 408R or 408Q with a grade of at least B.

Supervised study in mathematics, with hours to be arranged. May be repeated for credit. Prerequisite: Written consent of instructor; forms are available in the department office or in the Mathematics, Physics, and Astronomy Advising Center.

M 210E. Emerging Scholars Seminar.
Restricted to students in the Emerging Scholars Program. Supplemental problem-solving laboratory for precalculus, calculus, or advanced calculus courses for students in the Emerging Scholars Program. Three or four laboratory hours a week for one semester. May be repeated for credit. Offered on the pass/fail basis only.

M 310P. Modern Mathematics: Plan II.
Restricted to Plan II students. Significant developments in modern mathematics. Topics may include fractals, the fourth dimension, statistics and society, and techniques for thinking about quantitative problems. Three lecture hours a week for one semester. May not be counted toward a degree in mathematics.

M 110T, 210T, 310T, 410T. Topics in Mathematics.
One, two, three, or four lecture hours a week for one semester. May be repeated for credit when the topics vary.

In-depth study of topics from secondary school mathematics. Emphasizes the development of the concept of function, exploring function patterns in data sets, and the connections between the main topics of mathematics associated with a secondary school curriculum. Use of appropriate technology is explored. Three lecture hours a week for one semester. Prerequisite: Credit or registration for Mathematics 408C and enrollment in a teaching preparation program, or consent of instructor.

Restricted to students in a teacher preparation program. An analysis, from an advanced perspective, of the concepts and algorithms of arithmetic, including sets; numbers; numeral systems; definitions, properties, and algorithms of arithmetic operations; and percents, ratios, and proportions. Problem solving is stressed. Three lecture hours a week for one semester. May not be counted toward the major requirement for the Bachelor of Arts, Plan I, degree with a major in mathematics or toward the Bachelor of Science in Mathematics degree. Credit for Mathematics 316K may not be earned after the student has received credit for any calculus course with a grade of C- or better, unless the student is registered in the College of Education. Prerequisite: One of the following with a grade of at least C: Mathematics 301, 302, 303D, 305G, 316, Educational Psychology 371, Statistics and Data Sciences 302, 304, or 306.

Restricted to students in a teacher preparation program. An analysis, from an advanced perspective, of the basic concepts and methods of geometry, statistics, and probability, including representation and analysis of data; discrete probability, random events, and conditional probability; measurement; and geometry as approached through similarity and congruence, through coordinates, and through transformations. Problem solving is stressed. Three lecture hours a week for one semester. May not be counted toward the major requirement for the Bachelor of Arts, Plan I, degree with a major in mathematics or toward the Bachelor of Science in Mathematics degree. Credit for Mathematics 316L may not be earned after the student has received credit for any calculus course with a grade of C- or better, unless the student is registered in the College of Education. Prerequisite: Mathematics 316K with a grade of at least C.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Mathematics. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

M 680. .

Upper-Division Courses

M 325K. Discrete Mathematics.
Provides a transition from the problem-solving approach of Mathematics 408C and 408D to the rigorous approach of advanced courses. Subjects include logic, set theory, relations and functions, combinatorics, and graph theory and graph algorithms. Three lecture hours a week for one semester.
M 326K. Foundations of Number Systems.
Restricted to students in a teacher preparation program or who have consent of instructor. Study of number-related topics in middle-grade and secondary school mathematics. Topics include place value; meanings of arithmetic operations; analysis of computation methods; historical development of number concepts and notation; and rational, irrational, algebraic, transcendental, and complex numbers. Emphasis is on communicating mathematics, developing pedagogical understanding of concepts and notation, and using both informal reasoning and proof. Three lecture hours a week for one semester. Prerequisite: Mathematics 408D, 408L, or 408S with a grade of at least C-.

M 427J. Differential Equations with Linear Algebra.
Ordinary differential equations, introduction to vector spaces, linear operators and eigenvalues, systems of linear differential equations, introduction to partial differential equations and Fourier series. Five lecture hours a week for one semester. Mathematics 427J and 427K may not both be counted. Prerequisite: Mathematics 408D, 408L, or 408S with a grade of at least C-.

M 427K (TCCN: MATH 2420). Advanced Calculus for Applications I.
Ordinary and partial differential equations and Fourier series. Five lecture hours a week for one semester. Mathematics 427J and 427K may not both be counted. Prerequisite: Mathematics 408D, 408L, or 408S with a grade of at least C-.

M 427L. Advanced Calculus for Applications II.
Matrices, elements of vector analysis and calculus of functions of several variables, including gradient, divergence, and curl of a vector field, multiple integrals and chain rules, length and area, line and surface integrals, Green's Theorems in the plane and space, and, if time permits, complex analysis. Five class hours a week for one semester. Prerequisite: Mathematics 408D, 408L, or 408S with a grade of at least C-.

M 328K. Introduction to Number Theory.
Provides a transition from the problem-solving approach of Mathematics 408C and 408D to the rigorous approach of advanced courses. Properties of the integers, divisibility, linear and quadratic forms, prime numbers, congruences and residues, quadratic reciprocity, number theoretic functions. Three lecture hours a week for one semester. Prerequisite: Mathematics 325K, 333L, or 341 with a grade of at least C-.

M 329F. Theory of Interest.
Same as Actuarial Foundations 329. Measurement of interest, present and accumulated value, amortization, sinking funds, bonds, duration, and immunization. Covers the interest-theory portion of an exam of the Society of Actuaries and the Casualty Actuarial Society. Three lecture hours a week for one semester. Only one of the following may be counted: Actuarial Foundations 329, Mathematics 329F, 389F.
Prerequisite: Mathematics 408D, 308L, 408L, 408M, or 408S with a grade of at least C-.

Topics in Mathematics.
This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Mathematics. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

M 329W. Cooperative Mathematics.
This course covers the work period of mathematics students in the Cooperative Education program, which provides supervised work experience by arrangement with the employer and the supervising instructor. Forty laboratory hours a week for one semester. The student must repeat the course each work period and must take it twice to receive credit toward the degree; at least one of these registrations must be during a long-session semester. No more than three semester hours may be counted toward the major requirement; no more than six semester hours may be counted toward the degree. The student's first registration must be on the pass/fail basis. Prerequisite: Application through the College of Natural Sciences Career Design Center; Mathematics 408D, 408L, or 408S with a grade of at least C; a grade of at least C in two of the following courses: Mathematics 325K, 427J or 427K, 341, 362K, or 378K; and consent of the undergraduate adviser.

M 333L. Structure of Modern Geometry.
Axiom systems, transformational geometry, introduction to non-Euclidean geometries, and other topics in geometry; use of these ideas in teaching geometry. Three lecture hours a week for one semester.

M 339C. Actuarial Case Studies.
Introduces aspects of basic ratemaking, reserving, catastrophe modeling, and rate classification in a property & casualty actuarial context. Explores loss & premium trending, loss triangles, loss development, loss ratios, on-level premium, and accident year vs. calendar year vs. policy year data. Three lecture hours a week for one semester. Prerequisite: Actuarial Foundations 329 or Mathematics 329F with a grade of at least C; and M339J or M339U with a grade of at least C.

Covers the financial derivative subjects on the Society of Actuary FM/2 exam: general derivatives, options, hedging, investment strategies, forwards, futures, and swaps. Covers option pricing techniques in the MFE/3F exam: binomial option pricing, Monte Carlo Valuation using risk neutral probabilities, and Black-Scholes. Three lecture hours a week for one semester. Prerequisite: Actuarial Foundations 329 or Mathematics 329F, and Mathematics 362K with a grade of at least C.

M 339G. Predictive Analytics.
Designed for students in mathematics and actuarial science. Explore an introduction to predictive modeling that starts with least squares as a foundation and takes a modern approach applicable to classification and prediction in the presence of large datasets. Three lecture hours a week for one semester. Mathematics 339G and 375T (Topic: Predictive Analytics) may not both be counted. Prerequisite: The following with a grade of at least C: Mathematics 341 or 340L; and Mathematics 378K.

Introductory actuarial models for life insurance, property insurance, and annuities. With Mathematics 349P, covers the syllabus for the professional actuarial exam on model construction. Three lecture hours a week for one semester. Prerequisite: Mathematics 358K or 378K with a grade of at least C.

M 139S. Seminar on Actuarial Practice.
Presentations by working actuaries on current issues in actuarial practice. One lecture hour a week for one semester. Offered on the pass/fail basis only. Prerequisite: Actuarial Foundations 329 or Mathematics 329F, Mathematics 339J or 339U with a grade of at least C; and credit with a grade of at least C; or registration for one of the following: Mathematics 339J, 339U, 339V, 349P.
M 339U. Actuarial Contingent Payments I.
Intermediate actuarial models for life insurance, property insurance, and annuities. Three lecture hours a week for one semester. Prerequisite: Mathematics 362K with a grade of at least C-; credit with a grade of at least C- or registration for Actuarial Foundations 329 or Mathematics 329F; and credit with a grade of at least C- or registration for Mathematics 340L or 341.

M 339V. Actuarial Contingent Payments II.
Advanced actuarial models for life insurance, property insurance, and annuities. Three lecture hours a week for one semester. Prerequisite: Actuarial Foundations 329 or Mathematics 329F; and M 339U with a grade of at least C- in each.

M 340L. Matrices and Matrix Calculations.
Restricted to non-mathematics majors. Techniques of matrix calculations and applications of linear algebra. Three lecture hours a week for one semester. Only one of the following may count: Mathematics 340L, 341, Statistics and Data Sciences 329C. Prerequisite: Mathematics 408C, 408K, or 408N with a grade of at least C-.

M 341. Linear Algebra and Matrix Theory.
Restricted to mathematics majors. Vector spaces, linear transformations, matrices, linear equations, determinants. Some emphasis on rigor and proofs. Three lecture hours a week for one semester. Only one of the following may count: Mathematics 340L, 341, Statistics and Data Sciences 329C. Prerequisite: Mathematics 408D, 408L, or 408S with a grade of at least C-.

M 343K. Introduction to Algebraic Structures.
Elementary properties of groups and rings, including symmetric groups, properties of the integers, polynomial rings, elementary field theory. Three lecture hours a week for one semester. Students who have received a grade of C- or better in Mathematics 373K may not take Mathematics 343K. Prerequisite: Mathematics 325K, 333L, or Philosophy 313K, and Mathematics 328K or 341 with a grade of at least C- in each; or consent of the undergraduate advisor.

M 343L. Applied Number Theory.
Basic properties of integers, including properties of prime numbers, congruences, and primitive roots. Introduction to finite fields and their vector spaces with applications to encryption systems and coding theory. Three lecture hours a week for one semester. Prerequisite: Mathematics 328K or 343K with a grade of at least C-.

M 343M. Error-Correcting Codes.
Introduction to applications of algebra and number theory to error-correcting codes, including finite fields, error-correcting codes, vector spaces over finite fields, Hamming norm, coding, and decoding. Three lecture hours a week for one semester. Prerequisite: Mathematics 328K or 341 with a grade of at least C-.

Same as Philosophy 344K. A second-semester course in symbolic logic: formal syntax and semantics, basic metatheory (soundness, completeness, compactness, and Loewenheim-Skolem theorems), and further topics in logic. Three lecture hours a week for one semester. Prerequisite: Philosophy 313, 313K, or 313Q.

Emphasis on diagonalization of linear operators and applications to dynamical systems and ordinary differential equations. Other subjects include inner products and orthogonality, normal mode expansions, vibrating strings and the wave equation, and Fourier series. Three lecture hours a week for one semester. Prerequisite: Mathematics 341 or 340L with a grade of at least C-.

Introduction to mathematical properties of numerical methods and their applications in computational science and engineering. Introduction to object-oriented programming in an advanced language. Study and use of numerical methods for solutions of linear systems of equations; nonlinear least-squares data fitting; numerical integration; and solutions of multidimensional nonlinear equations and systems of initial value ordinary differential equations. Three lecture hours a week for one semester. Prerequisite: Computer Science 303E and Mathematics 341 or 340L with a grade of at least C-.

M 349P. Actuarial Statistical Estimates.
Statistical estimation procedures for random variables and related quantities in actuarial models. With Mathematics 339J, covers the syllabus for the professional actuarial exam on model construction. Three lecture hours a week for one semester. Prerequisite: Mathematics 339J, and 341 or 340L, with a grade of at least C- in each.

Introduction to simple and multiple linear regression and to elementary time-series models, including auto-regressive and moving-average models. Emphasizes fitting models to data, evaluating models, and interpreting results. Three lecture hours a week for one semester. Prerequisite: Mathematics 358K or 378K with a grade of at least C-.

Introduction to the probabilistic and statistical properties of time series; parameter estimation and hypothesis testing for survival models. Covers 30 percent of the syllabus for exam #4 of the Society of Actuaries and the Casualty Actuarial Society. Three lecture hours a week for one semester. Prerequisite: Mathematics 339U, 341 or 340L, and 358K or 378K.

Exploratory data analysis, correlation and regression, data collection, sampling distributions, confidence intervals, and hypothesis testing. Three lecture hours a week for one semester. Prerequisite: Mathematics 362K with a grade of at least C-.

M 360M. Mathematics as Problem Solving.
Discussion of heuristics, strategies, and methods of evaluating problem solving, and extensive practice in both group and individual problem solving. Communicating mathematics, reasoning, and connections among topics in mathematics are emphasized. Three lecture hours a week for one semester. Prerequisite: Mathematics 408D, 408L, or 408S with a grade of at least C-; and written consent of instructor.

M 361. Theory of Functions of a Complex Variable.
Elementary theory and applications of analytic functions, series, contour integration, and conformal mappings. Three lecture hours a week for one semester. Prerequisite: Mathematics 427J, 427K, or 427L with a grade of at least C-.

M 361K. Introduction to Real Analysis.
A rigorous treatment of the real number system, of real sequences, and of limits, continuity, derivatives, and integrals of real-valued functions of one real variable. Three lecture hours a week for one semester. Students who have received a grade of C- or better in Mathematics 365C may not take Mathematics 361K. Prerequisite: Mathematics 325K, 333L, or Philosophy 313K, and Mathematics 328K or 341 with a grade of at least C- in each; or consent of the undergraduate advisor.
M 362K. Probability I.
An introduction to the mathematical theory of probability, fundamental to further work in probability and statistics, includes basic probability properties, conditional probability and independence, various discrete and continuous random variables, expectation and variance, central limit theorem, and joint probability distributions. Three lecture hours a week for one semester. Prerequisite: Mathematics 408D, 408L, or 408S with a grade of at least C-.

M 362M. Introduction to Stochastic Processes.
Introduction to Markov chains, birth and death processes, and other topics. Three lecture hours a week for one semester. Prerequisite: Mathematics 362K with a grade of at least B and Mathematics 340L or 341 with a grade of at least C-.

M 364K. Vector and Tensor Analysis I.
Invariance, vector algebra and calculus, integral theorems, general coordinates, introductory differential geometry and tensor analysis, applications. Three lecture hours a week for one semester. Prerequisite: Mathematics 427J, 427K, or 427L with a grade of at least C-.

M 364L. Vector and Tensor Analysis II.
Continuation of Mathematics 364K, with emphasis on tensor and extensor analysis. Riemannian geometry and invariance. Three lecture hours a week for one semester. Prerequisite: Mathematics 364K with a grade of at least C-.

M 365C. Real Analysis I.
A rigorous treatment of the real number system, Euclidean spaces, metric spaces, continuity of functions in metric spaces, differentiation and Riemann integration of real-valued functions of one real variable, and uniform convergence of sequences and series of functions. Three lecture hours a week for one semester. Students who have received a grade of C- or better in Mathematics 365C may not take Mathematics 361K. Mathematics 325K, 333L, or Philosophy 313K, and Mathematics 328K or 341 with a grade of at least C- in each; or consent of the undergraduate advisor. Students who receive a grade of C- in one of the prerequisite courses are advised to take Mathematics 361K before attempting 365C. Students planning to take Mathematics 365C and 373K concurrently should consult a mathematics advisor.

M 365D. Real Analysis II.
Recommended for students planning to undertake graduate work in mathematics. A rigorous treatment of selected topics in real analysis, such as Lebesgue integration, or multivariate integration and differential forms. Three lecture hours a week for one semester. Prerequisite: Mathematics 365C with a grade of at least C-.

M 365G. Curves and Surfaces.
Calculus applied to curves and surfaces in three dimensions: curvature and torsion of space curves, Gauss map and curvature of surfaces, Gauss theorem, geodesics, and the Gauss-Bonnet theorem. Three lecture hours a week for one semester. Prerequisite: Credit with a grade of at least C- or registration for Mathematics 365C.

M 367K. Topology I.
An introduction to topology, including sets, functions, cardinal numbers, and the topology of metric spaces. Three lecture hours a week for one semester. Prerequisite: Mathematics 361K or 365C or consent of instructor.

M 367L. Topology II.
Various topics in topology, primarily of a geometric nature. Three lecture hours a week for one semester. Prerequisite: Mathematics 367K with a grade of at least C- or consent of instructor.

M 368K. Numerical Methods for Applications.
Continuation of Mathematics 348. Topics include splines, orthogonal polynomials and smoothing of data, iterative solution of systems of linear equations, approximation of eigenvalues, two-point-boundary value problems, numerical approximation of partial differential equations, signal processing, optimization, and Monte Carlo methods. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 367, Mathematics 368K, Physics 329. Prerequisite: Mathematics 348 with a grade of at least C-.

M 371E. Learning Assistant Experience in Mathematics.
Students assist instructors and TAs in mathematics courses. This is a hands-on experience in what it is like to teach and support students in the learning of mathematics in undergraduate courses. Students must attend classroom training and discussions and work in Calculus discussion sections or undergraduate classrooms where mathematics is being taught. One class hour and three hours of fieldwork in an undergraduate mathematics course a week for one semester. Prerequisite: Mathematics 408C, 408K, 408N, 408R, or equivalent, and consent of instructor.

M 372. Fourier Series and Boundary Value Problems.
Discussion of differential equations of mathematical physics and representation of solutions by Green’s functions and eigenfunction expansions. Three lecture hours a week for one semester. Prerequisite: Mathematics 427J or 427K with a grade of at least C-.

Partial differential equations as basic models of flows, diffusion, dispersion, and vibrations. Topics include first- and second-order partial differential equations and classification (particularly the wave, diffusion, and potential equations), and their origins in applications and properties of solutions. Includes the study of characteristics, maximum principles, Green’s functions, eigenvalue problems, and Fourier expansion methods. Three lecture hours a week for one semester. Prerequisite: Mathematics 427J or 427K with a grade of at least C-.

M 373K. Algebraic Structures I.
A study of groups, rings, and fields, including structure theory of finite groups, isomorphism theorems, polynomial rings, and principal ideal domains. Three lecture hours a week for one semester. Students who have received a grade of C- or better in Mathematics 373K may not take Mathematics 343K. Mathematics 325K, 333L, or Philosophy 313K, and Mathematics 328K or 341 with a grade of at least C- in each; or consent of the undergraduate advisor. Students who receive a grade of C- in one of the prerequisite courses are advised to take Mathematics 343K before attempting 373K. Students planning to take Mathematics 365C and 373K concurrently should consult a mathematics advisor.

M 373L. Algebraic Structures II.
Recommended for students planning to undertake graduate work in mathematics. Topics from vector spaces and modules, including direct sum decompositions, dual spaces, canonical forms, and multilinear algebra. Three lecture hours a week for one semester. Prerequisite: Mathematics 373K with a grade of at least C-.

M 374. Fourier and Laplace Transforms.
Operational properties and application of Laplace transforms; some properties of Fourier transforms. Three lecture hours a week for one
that lead to systems of linear equations and ordinary differential
models of conduction and vibration. Variational methods and related concepts from classical and
modern applied mathematics. Models of conduction and vibration
arise in the engineering and physical sciences. Includes dimensional
analysis and scaling, regular and singular perturbation methods,
optimization and calculus of variations, and stability. Three lecture hours
a week for one semester. Prerequisite: Mathematics 374 with a grade of at
least C-

M 374K. Fourier and Laplace Transforms.
Continuation of Mathematics 374. Introduction to other integral
transforms, such as Hankel, Laguerre, Mellin, Z. Three lecture hours a
week for one semester. Prerequisite: Mathematics 374 with a grade of at
least C-

M 374M. Mathematical Modeling in Science and Engineering.
Tools for studying differential equations and optimization problems that
arise in the engineering and physical sciences. Includes dimensional
analysis and scaling, regular and singular perturbation methods,
optimization and calculus of variations, and stability. Three lecture hours
a week for one semester. Prerequisite: Mathematics 374 with a grade of at
least C-

M 175, 275, 375, 475. Conference Course.
Supervised study in mathematics, with hours to be arranged. May be
repeated for credit. Prerequisite: Upper-division standing.

M 375C. Conference Course (Computer-Assisted).
Supervised study in mathematics on material requiring use of computing
resources, with hours to be arranged. Conference course. May be
repeated for credit when the topics vary. Prerequisite: Varies with the
topic.

M 375D. Discovery: An Introduction to Advanced Study in
Mathematics.
Capstone course designed primarily for UTeach pre-service mathematics
majors considering discovery teaching methodology and/or graduate
work in mathematics or mathematics education. Ties together
foundational topics in the primary strands of mathematics present in
a typical graduate mathematics program; included are selected topics
from analysis, algebra, number theory, and topology. Three lecture hours
a week for one semester. Mathematics 375D and 375T (Topic: Discovery:
An Introduction to Advanced Study in Mathematics) may not both be
counted. Prerequisite: Two proof-based mathematics courses with a
grade of at least C- or consent of instructor.

M 175S. Seminar in Instruction of Mathematics.
An exploration of subjects in mathematics instruction as taught at the
secondary educational level. Practice learning and teaching through use
of proofs, explorations, and connections. Subjects include foundational
mathematics concepts, numbers, constructibility, and development of
key mathematics topics. One lecture hour a week for one semester.
Mathematics 175S and 175T may not both be counted. Offered on the
letter-grade basis only. Prerequisite: Upper-division standing and consent
of instructor.

M 175T, 275T, 375T, 475T. Topics in Mathematics.
One, two, three, or four lecture hours a week for one semester. May be
repeated for credit when the topics vary. Prerequisite: Upper-division
standing; additional prerequisites vary with the topic.

M 376C. Methods of Applied Mathematics.
Variational methods and related concepts from classical and
modern applied mathematics. Models of conduction and vibration
that lead to systems of linear equations and ordinary differential
equations, eigenvalue problems, initial and boundary value problems
for partial differential equations. Topics may include a selection from
diagonalization of matrices, eigenfunctions and minimization,
asymptotics of eigenvalues, separation of variables, generalized
solutions, and approximation methods. Three lecture hours a week
for one semester. May be repeated for credit when the topics vary.
Prerequisite: Mathematics 427J or 427K, and 340L or 341, with a grade
of at least C- in each.

Same as Statistics and Data Sciences 378. Sampling distributions of
statistics, estimation of parameters (confidence intervals, method of
moments, maximum likelihood, comparison of estimators using mean
square error and efficiency, sufficient statistics), hypothesis tests (p-
values, power, likelihood ratio tests), and other topics. Three lecture
hours a week for one semester. Mathematics 378K and Statistics and
Data Sciences 378 may not both be counted. Prerequisite: Mathematics
362K with a grade of at least C-

M 378N. Generalized Linear Models.
Extensions to ordinary least-squares regression, including Poisson
regression, the lasso, mixed models, and ridge regression. Three lecture
hours a week for one semester. Mathematics 375T (Topic: Generalized
Linear Models) and 378N may not both be counted. Prerequisite:
Mathematics 378K with a grade of at least C- or consent of instructor.

M 378P. Decision Analytics.
Examine decision theory with utility functions, including the use of
probability, optimization, constrained optimization, and linear algebra.
Three lecture hours a week for one semester. Only one of the following
may be counted: Mathematics 375T (Topic: Decision Analytics), 378P,
Statistics and Data Sciences 378P. Prerequisite: Mathematics 362K
and Mathematics 378K with a grade of at least C-, or consent of the
instructor.

M 379H. Honors Tutorial Course.
Directed reading, research, and/or projects, under the supervision of
a faculty member, leading to an honors thesis. Conference course.
Prerequisite: Admission to the Mathematics Honors Program;
Mathematics 365C, 367K, 373K, or 374G with a grade of at least A,
and another of these courses with a grade of at least B; and consent of the
honors adviser.

M 680. .
Graduate Courses

M 680. .
M 380C. Algebra.
A survey of algebraic structures, including groups, fields, rings, and
modules. Three lecture hours a week for one semester. Prerequisite:
Graduate standing and consent of instructor or the graduate adviser.

M 380D. Algebra.
Continuation of Mathematics 380C. Three lecture hours a week for one
semester. Prerequisite: Graduate standing, consent of instructor or the
graduate adviser, and Mathematics 380C.

M 381C. Real Analysis.
Same as Computational Science, Engineering, and Mathematics 385R.
Measure and integration over abstract spaces; Lebesgue’s theory of
integration and differentiation on the real line. Three lecture hours a week
for one semester. Computational Science, Engineering, and Mathematics
385R and Mathematics 381C may not both be counted. Prerequisite:
Graduate standing and consent of instructor or the graduate adviser.
M 381D. Complex Analysis.
Same as Computational Science, Engineering, and Mathematics 385S. Introduction to complex analysis. Three lecture hours a week for one semester. Computational Science, Engineering, and Mathematics 385S and Mathematics 381D may not both be counted. Prerequisite: Graduate standing and consent of instructor or the graduate adviser.

M 381E. Functional Analysis.
Introduction to functional analysis. Three lecture hours a week for one semester. Prerequisite: Graduate standing; Computational Science, Engineering, and Mathematics 385R or Mathematics 381C; and consent of instructor or the graduate adviser.

M 382C. Algebraic Topology.
Surfaces, covering spaces, fundamental group, and homology. Three lecture hours a week for one semester. Prerequisite: Graduate standing, an undergraduate course in topology, and consent of instructor or the graduate adviser.

M 382D. Differential Topology.
Continuation of Mathematics 382C. Manifolds and maps, differential forms, transversality, and intersection theory. Three lecture hours a week for one semester. Prerequisite: Graduate standing, consent of instructor or the graduate adviser, and Mathematics 382C.

M 382E. Advanced Algebraic Topology.
Continuation of Mathematics 382C. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor or the graduate adviser.

M 382F. Algebraic Topology.
Continuation of Mathematics 382E. Three lecture hours a week for one semester. Prerequisite: Graduate standing, consent of instructor or the graduate adviser, and Mathematics 382E.

M 382G. Differential Geometry.
Continuation of Mathematics 382D. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor or the graduate adviser.

M 383C. Methods of Applied Mathematics.
Same as Computational Science, Engineering, and Mathematics 386C. Topics include basic normed linear space theory; fixed-point theorems and applications to differential and integral equations; Hilbert spaces and the spectral theorem; applications to Sturm-Liouville problems; approximation and computational methods such as the Galerkin, Rayleigh-Ritz, and Newton procedures. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor or the graduate adviser.

M 383D. Methods of Applied Mathematics.
Same as Computational Science, Engineering, and Mathematics 386D. Topics include distributions, fundamental solutions of partial differential equations, the Schwartz space and tempered distributions, Fourier transform, Plancherel theorem, Green’s functions, Sobolev spaces, weak solutions, differential calculus in normed spaces, implicit function theorems, applications to nonlinear equations, smooth variational problems, applications to classical mechanics, constrained variational problems. Three lecture hours a week for one semester. Prerequisite: Graduate standing; and Computational Science, Engineering, and Mathematics 386D and Mathematics 383D may not both be counted.

Same as Computational Science, Engineering, and Mathematics 383C, Computer Science 383C, and Statistics and Data Sciences 393C. Survey of numerical methods in linear algebra: floating-point computation, solution of linear equations, least squares problems, algebraic eigenvalue problems. Three lecture hours a week for one semester. Only one of the following may be counted: Computational Science, Engineering, and Mathematics 383C, Computer Science 383C, Mathematics 383E, Statistics and Data Sciences 393C. Prerequisite: Graduate standing; Computer Science 367 or Mathematics 368K, and Mathematics 340L, 341, or consent of instructor.

Same as Computational Science, Engineering, and Mathematics 383D, Computer Science 383D, and Statistics and Data Sciences 393D. Survey of numerical methods for interpolation, functional approximation, integration, and solution of differential equations. Three lecture hours a week for one semester. Only one of the following may be counted: Computational Science, Engineering, and Mathematics 383D, Computer Science 383D, Mathematics 383F, Statistics and Data Sciences 393D. Prerequisite: Graduate standing; Computational Science, Engineering, and Mathematics 383C, Computer Science 383C, Mathematics 383E, or Statistics and Data Sciences 393C; and Mathematics 427K and 365C, or consent of instructor.

M 384C. Mathematical Statistics I.
Same as Computational Science, Engineering, and Mathematics 384R and Statistics and Data Sciences 384 (Topic 2). The general theory of mathematical statistics. Includes distributions of functions of random variables, properties of a random sample, principles of data reduction, an overview of hierarchical models, decision theory, Bayesian statistics, and theoretical results relevant to point estimation, interval estimation, and hypothesis testing. Three lecture hours a week for one semester. Only one of the following may be counted: Computational Science, Engineering, and Mathematics 384R, Mathematics 384C, Statistics and Data Sciences 384 (Topic 2). Prerequisite: Graduate standing; and Mathematics 362K and 378K, or consent of instructor.

M 384D. Mathematical Statistics II.
Same as Computational Science, Engineering, and Mathematics 384S and Statistics and Data Sciences 384 (Topic 3). Continuation of Computational Science, Engineering, and Mathematics 384R and Mathematics 384C. Three lecture hours a week for one semester. Only one of the following may be counted: Computational Science, Engineering, and Mathematics 384S, Mathematics 384D, Statistics and Data Sciences 384 (Topic 3). Prerequisite: Graduate standing; Computational Science, Engineering, and Mathematics 384R, or Mathematics 384C; and Mathematics 362K and 378K, Statistics and Data Sciences 382, or consent of instructor.

M 384E. Design and Analysis of Experiments.
Same as Computational Science, Engineering, and Mathematics 384U and Statistics and Data Sciences 384 (Topic 6). Design and analysis of experiments, including one-way and two-way layouts; components of variance; factorial experiments; balanced incomplete block designs; crossed and nested classifications; fixed, random, and mixed models; and split plot designs. Three lecture hours a week for one semester. Only one of the following may be counted: Computational Science, Engineering, and Mathematics 384U, Mathematics 384E, Statistics and Data Sciences 384 (Topic 6). Prerequisite: Graduate standing; and Mathematics 362K and 378K, Statistics and Data Sciences 382, or consent of instructor.
M 384F. Design of Experiments.
Design of experiments, including 2n and 3n factorial experiments, confounding, fractional factorials, sequential experimentation, orthogonal arrays, D-optimal experiments, and response surface methodology. Three lecture hours a week for one semester. Prerequisite: Graduate standing, and Mathematics 378K or the equivalent or consent of instructor.

M 384G. Regression Analysis.
Same as Computational Science, Engineering, and Mathematics 384T and Statistics and Data Sciences 384 (Topic 4). Simple and multiple linear regression, inference in regression, prediction of new observations, diagnosis and remedial measures, transformations, and model building. Emphasis on both understanding the theory and applying theory to analyze data. Three lecture hours a week for one semester. Only one of the following may be counted: Computational Science, Engineering, and Mathematics 384T, Mathematics 384G, Statistics and Data Sciences 384 (Topic 4). Prerequisite: Graduate standing; and Mathematics 362K and 378K, Statistics and Data Sciences 382, or consent of instructor.

M 384H. Multivariate Statistical Analysis.
Introduction to the general multivariate linear model; a selection of techniques, such as principle component, factor, and discriminant analysis. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

Same as Computational Science, Engineering, and Mathematics 384K.
Three lecture hours a week for one semester. Computational Science, Engineering, and Mathematics 384K and Mathematics 385C may not both be counted. Prerequisite: Graduate standing and consent of instructor.

Continuation of Computational Science, Engineering, and Mathematics 384K and Mathematics 385C. Three lecture hours a week for one semester. Only one of the following may be counted: Computational Science, Engineering, and Mathematics 384L, Mathematics 384L, 385D. Prerequisite: Graduate standing; Computational Science, Engineering, and Mathematics 384K or Mathematics 385C, and consent of instructor.

M 387C. Numerical Analysis: Algebra and Approximation.
Advanced introduction to scientific computing, theory and application of numerical linear algebra, solution of nonlinear equations, and numerical approximation of functions. Three lecture hours a week for one semester. Computational Science, Engineering, and Mathematics 383K and Mathematics 387C may not both be counted. Prerequisite: Graduate standing, and consent of instructor or the graduate adviser.

Same as Computational Science, Engineering, and Mathematics 383L. Advanced introduction to the theory and practice of commonly used numerical algorithms for the solution of ordinary differential equations, and elliptic, parabolic, and hyperbolic partial differential equations. Three lecture hours a week for one semester. Prerequisite: Graduate standing; and Computer Science 383C, Mathematics 387C, or consent of instructor.

M 389C. Actuarial Case Studies.
Explores aspects of basic ratemaking, reserving, catastrophe modeling, and rate classification in a property & casualty actuarial context. Covers loss & premium trending, loss triangles, loss development, loss ratios, on-level premium, accident year vs. calendar year vs. policy year data. Three lecture hours a week for one semester. Prerequisite: Graduate standing and either 389J or 389U with a grade of at least C.

M 389D. Introduction to Financial Mathematics for Actuaries.
Covers the financial derivative topics on the Society of Actuary FM/2 exam. Covers the financial derivative topics on the Society of Actuary FM/2 exam. General derivatives, options, hedging, investment strategies, forwards, futures, and swaps. Covers option pricing techniques in the MFE/3F exam: binomial option pricing, Monte Carlo Valuation using risk neutral probabilities, and Black-Scholes. Three lecture hours a week for one semester. Prerequisite: Mathematics 389F.

M 389F. Theory of Interest.
Measurement of interest, present and accumulated value, amortization, sinking funds, bonds, duration, and immunization. Covers the interest theory portion of an exam of the Society of Actuaries and the Casualty Actuarial Society. Three lecture hours a week for one semester.
Only one of the following may be counted: Actuarial Foundations 329, Mathematics 329F, 389F. Prerequisite: Graduate standing and Mathematics 408D or 408L.

M 389G. Predictive Analytics.
Designed for students in mathematics and actuarial science. Explore an introduction to predictive modeling that starts with least squares as a foundation and takes a modern approach applicable to classification and prediction in the presence of large datasets. Three lecture hours a week for one semester.
Prerequisite: Graduate standing; understanding of linear algebra and mathematical statistics.

M 389J. Probability Models with Actuarial Applications.
Introductory actuarial models for life insurance, property insurance, and annuities. With Mathematics 389F, covers the syllabus for the professional actuarial exam on model construction. Three lecture hours a week for one semester.
Prerequisite: Graduate standing, and Mathematics 358K or 378K with a grade of at least C.

M 389P. Actuarial Statistical Estimates.
Statistical estimation procedures for random variables and related quantities in actuarial models. With Mathematics 389J, covers the syllabus for the professional actuarial exam on model construction.
Three lecture hours a week for one semester. Prerequisite: Graduate standing; and Mathematics 341 or 340L, and 389J with a grade of at least C in each.

M 189S. Seminar on Actuarial Practice.
Presentations by working actuaries on current issues in actuarial practice. One lecture hour a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing; and Actuarial Foundations 329 or Mathematics 329F or M 389F, and M389J or 389U with a grade of at least C in each.

Introduction to the probabilistic and statistical properties of time series; parameter estimation and hypothesis testing for survival models. Covers 30 percent of the syllabus for exam #4 of the Society of Actuaries and the Casualty Actuarial Society. Three lecture hours a week for one semester. Prerequisite: Graduate standing; Mathematics 341 or 340L, 358K or 378K, and 389J.

M 389U. Actuarial Contingent Payments I.
Intermediate actuarial models for life insurance, property insurance, and annuities. Three lecture hours a week for one semester. Prerequisite: Graduate standing; Mathematics 362K with a grade of at least C; credit with a grade of at least C or registration for Mathematics 340L (or
M 389V. Actuarial Contingent Payments II.
Advanced actuarial models for life insurance, property insurance, and annuities. Three lecture hours a week for one semester. Prerequisite: Graduate standing, and Mathematics 389F and 389U with a grade of at least C in each.

Subjects include pricing, stock price, and interest rate models for actuarial applications. Tools include lognormal distribution, Brownian motion, Black-Scholes, and delta hedging. Three lecture hours a week for one semester. Prerequisite: Mathematics 389D with a grade of at least C-.

M 390C. Topics in Algebra.
Recent topics have included algebraic geometry, number theory, algebraic curves, algebraic number theory, algebraic functions, rational curves on varieties, homological algebra. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

M 391C. Topics in Analysis.
Recent topics have included measure and integration, real variables, complex analysis, functional analysis, ordinary differential equations, partial differential equations, integral transforms, operator theory, approximation theory, abstract harmonic analysis. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

M 392C. Topics in Topology.
Recent topics have included algebraic topology, differential topology, geometric topology, Lie groups. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

M 393C. Topics in Applied Mathematics.
Recent topics have included quantum mechanics, statistical physics, ergodic theory, group representations, statistical mechanics, quantum field theory, introductory partial differential equations, monotone operators and partial differential equations, Hilbert space methods for partial differential equations, Hamiltonian dynamics, nonlinear functional analysis, Euler and Navier-Stokes equations, microlocal calculus and spectral asymptotics, calculus of variations. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

Same as Computer Science 393N. The numerical solution of large systems of linear algebraic equations arising in the solution of elliptic partial differential equations by discretization methods. Three lecture hours a week for one semester. Computational Science, Engineering and Mathematics 393N and Mathematics 393N may not both be counted. Prerequisite: Graduate standing; and Computer Science, Engineering, and Mathematics 383K, Computer Science 386K, Mathematics 387C, or consent of instructor.

M 394C. Topics in Probability and Statistics.
Same as Computational and Applied Mathematics 394C. Recent topics have included nonparametric statistics, advanced probability. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

M 395C. Topics in Logic and Foundations.
Recent topics have included set theory, model theory, proof theory, axiomatic theorem proving, automatic theorem proving, foundations of mathematics, recursion theory. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

M 396C, 696C, 996C. Topics in Mathematics.
Recent topics have included set theory, history of mathematics. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

M 396D, 696D, 996D. Conference Course.
Supervised study in mathematics. Conference course. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

M 397C. Topics in Numerical Analysis.
Recent developments and advanced topics in the field of numerical analysis. Three lecture hours a week for one semester. Mathematics 393D and 397C may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

M 197S, 397S. Seminar in Mathematics.
One or three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in mathematics and consent of the graduate adviser; for 698B, Mathematics 698A.

M 398R. Master’s Report.
Preparation of a report to fulfill the requirement for the master’s degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in mathematics and consent of the supervising professor and the graduate adviser.

M 398T. Supervised Teaching in Mathematics.
Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and appointment as a teaching assistant.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses

M 680. -
M E - Mechanical Engineering

Mechanical Engineering: M E

Lower-Division Courses

Introduction to mechanical engineering education and practice through lectures and laboratory experiences. Graphics and modeling fundamentals for engineering design: freehand sketching, computer modeling of solid geometry, and generation of engineering drawings. Applications of the design process to problem solving through individual and team projects. Two lecture hours and four laboratory hours a week for one semester. Only one of the following may be counted: Mechanical Engineering 302, 210, 210H.

Computer laboratory work in engineering design graphics for students with transfer credit for Mechanical Engineering 210 who need additional work. Three computer laboratory hours a week for one semester. May not be counted by students with credit for Mechanical Engineering 302, 210, or 210H. Prerequisite: Consent of the undergraduate adviser.

Introduction to computer hardware and software systems; programming using a high-level language; mathematical software programming; and introduction to machine language. Includes significant hands-on programming opportunities. One lecture hour and three laboratory hours a week for one semester. May not be taken concurrently with Mechanical Engineering 302. Prerequisite: Credit or registration for Mathematics 408C or 408K.

Graphics and modeling fundamentals for engineering design: freehand sketching, computer modeling of solid geometry, and generation of engineering drawings. Introduction to reverse engineering, computer-aided design, rapid prototyping, and manufacturing. Application of the design process to problem solving. Individual and team design projects. Two lecture hours and three laboratory hours a week for one semester. Only one of the following may be counted: Mechanical Engineering 302, 210, 210H. May not be counted toward the Bachelor of Science in Mechanical Engineering degree. Prerequisite: Credit or registration for Mathematics 408C or 408K.

Graphics and modeling fundamentals for engineering design: freehand sketching, computer modeling of solid geometry, and generation of engineering drawings. Introduction to reverse engineering, computer-aided design, rapid prototyping, and manufacturing. Application of the design process to problem solving. Individual and team design projects. One lecture hour and four laboratory hours a week for one semester. Only one of the following may be counted: Mechanical Engineering 302, 210, 210H. May not be counted toward the Bachelor of Science in Mechanical Engineering degree. Prerequisite: Credit or registration for Mathematics 408C or 408K, and admission to an engineering honors program.

M E 310T. Applied Thermodynamics.
First and second laws of thermodynamics; thermodynamics processes, cycles, and heat transfer. Three lecture hours a week for one semester. Mechanical Engineering 320 and 310T may not both be counted. May not be counted toward the Bachelor of Science in Mechanical Engineering degree. Prerequisite: Chemistry 301, Mathematics 408D or 408M, and Physics 301 or 303K with a grade of at least C- in each.

An exploration of fundamental aspects of the structure, properties, and behavior of engineering materials. Three lecture hours a week for one semester. Prerequisite: The following courses with a grade of at least C- in each: Chemistry 301, Mechanical Engineering 302, Physics 303K, 103M; and credit or registration for Mechanical Engineering 111L, Physics 303L, and 103N.

M E 111L. Materials Engineering Laboratory.
Hands-on experiments in materials science and engineering topics and microstructure-property relationships discussed in Mechanical Engineering 311. One lecture hour and three laboratory hours a week for one semester. Prerequisite: Mechanical Engineering 302 with a grade of at least C-, and credit or registration for Mechanical Engineering 311.

M E 314D. Dynamics.
Analysis of motions, forces, momenta, and energies in mechanical systems. Three lecture hours and one discussion hour a week for one semester. Mechanical Engineering 314D and 324 may not both be counted. Prerequisite: Engineering Mechanics 306 and Mathematics 408D or 408M with a grade of at least C- in each.

M E 316T. Thermodynamics.
Properties, heat and work, first and second laws, thermodynamic processes, introduction to ideal power cycles. Three lecture hours a week for one semester, with additional hours to be arranged. Only one of the following may be counted: Mechanical Engineering 326, 326H, 316T. Prerequisite: Chemistry 301, Mathematics 408D or 408M, and Physics 301 or 303K with a grade of at least C- in each.

Applied numerical analysis, programming of computational algorithms using mathematical software, and applications of computational methods to the solution of mechanical engineering problems. One and one-half lecture hours and one and one-half laboratory hours a week for one semester. Prerequisite: Mathematics 427J or 427K and Mechanical Engineering 205 with a grade of at least C- in each.

M E 318M. Programming and Engineering Computational Methods.
An investigation of applied numerical analysis, programming of computational algorithms using mathematical software, and applications of computational methods to the solution of mechanical engineering problems. Two lecture hours and one and one-half laboratory hours a week for one semester. Prerequisite: Mathematics 427J or 427K with a grade of at least C-.

Used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Mechanical Engineering. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

First and second laws of thermodynamics; thermodynamic processes, cycles, and heat transfer. Three lecture hours a week for one semester. Mechanical Engineering 320 and 310T may not both be counted. May not be counted toward the Bachelor of Science in Mechanical Engineering degree. Prerequisite: Mathematics 408D or 408M, and Physics 301 or 303K with a grade of at least C- in each.

Department of Mechanical Engineering. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

M E 111L. Materials Engineering Laboratory.
Hands-on experiments in materials science and engineering topics and microstructure-property relationships discussed in Mechanical Engineering 311. One lecture hour and three laboratory hours a week for one semester. Prerequisite: Mechanical Engineering 302 with a grade of at least C-, and credit or registration for Mechanical Engineering 311.

M E 314D. Dynamics.
Analysis of motions, forces, momenta, and energies in mechanical systems. Three lecture hours and one discussion hour a week for one semester. Mechanical Engineering 314D and 324 may not both be counted. Prerequisite: Engineering Mechanics 306 and Mathematics 408D or 408M with a grade of at least C- in each.

M E 316T. Thermodynamics.
Properties, heat and work, first and second laws, thermodynamic processes, introduction to ideal power cycles. Three lecture hours a week for one semester, with additional hours to be arranged. Only one of the following may be counted: Mechanical Engineering 326, 326H, 316T. Prerequisite: Chemistry 301, Mathematics 408D or 408M, and Physics 301 or 303K with a grade of at least C- in each.

Applied numerical analysis, programming of computational algorithms using mathematical software, and applications of computational methods to the solution of mechanical engineering problems. One and one-half lecture hours and one and one-half laboratory hours a week for one semester. Prerequisite: Mathematics 427J or 427K and Mechanical Engineering 205 with a grade of at least C- in each.

M E 318M. Programming and Engineering Computational Methods.
An investigation of applied numerical analysis, programming of computational algorithms using mathematical software, and applications of computational methods to the solution of mechanical engineering problems. Two lecture hours and one and one-half laboratory hours a week for one semester. Prerequisite: Mathematics 427J or 427K with a grade of at least C-.

Used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Mechanical Engineering. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

First and second laws of thermodynamics; thermodynamic processes, cycles, and heat transfer. Three lecture hours a week for one semester. Mechanical Engineering 320 and 310T may not both be counted. May not be counted toward the Bachelor of Science in Mechanical Engineering degree. Prerequisite: Mathematics 408D or 408M, and Physics 301 or 303K with a grade of at least C- in each.
degree. Prerequisite: Chemistry 301, Mathematics 408D, and Physics 303K.

**M E 120C. Humanitarian Engineering Seminar.**

Restricted to students pursuing Humanitarian Engineering certificate. One lecture hour a week for one semester. Mechanical Engineering 120C and 179M (Topic: Seminar in Humanitarian Engr) may not both be counted. Prerequisite: Consent of instructor.

**M E 324. Dynamics.**

Analysis of motions, forces, momenta, and energies in mechanical systems. Three lecture hours and one discussion hour a week for one semester. Mechanical Engineering 314D and 324 may not both be counted. Prerequisite: Engineering Mechanics 306 and Mathematics 408D with a grade of at least C- in each; and credit or registration for Mechanical Engineering 318M.

**M E 326. Thermodynamics.**

Properties, heat and work, first and second laws, thermodynamic processes, introduction to ideal power cycles. Three lecture hours a week for one semester. For some sections, two discussion hours a week are also required. Only one of the following may be counted: Mechanical Engineering 326, 326H, 316T. Prerequisite: Chemistry 301, Mathematics 408D, and Physics 303K with a grade of at least C- in each.

**M E 326H. Thermodynamics: Honors.**

Properties, heat and work, first and second laws, thermodynamic processes, introduction to ideal power cycles. Three lecture hours a week for one semester. For some sections, two discussion hours a week are also required. Only one of the following may be counted: Mechanical Engineering 326, 326H, 316T. Prerequisite: Chemistry 301, Mathematics 408D, and Physics 303K with a grade of at least C- in each; and admission to an engineering honors program.

Used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Mechanical Engineering. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**M E 330. Fluid Mechanics.**

Fluid properties, statics, conservation laws, inviscid and viscous incompressible flow, flow in confined streams and around objects. Three lecture hours a week for one semester. Prerequisite: Engineering Mechanics 306, Mathematics 427J or 427K, and Mechanical Engineering 316T or 326 or 326H, with a grade of at least C- in each; and credit or registration for Mechanical Engineering 130L.

**M E 130L. Experimental Fluid Mechanics.**

Experimental design concepts, uncertainty analysis, and systems analysis as applied to thermodynamics, fluid mechanics, and heat transfer systems. One lecture hour and two laboratory hours a week for one semester. Prerequisite: Credit or registration for Mechanical Engineering 330.

**M E 333H. Engineering Communication: Honors.**

Professional communication skills for engineers, with emphasis on research, writing, editing, and oral presentation on topics of social and technical significance in engineering. Students collaborate to publish an online journal. Two lecture hours and two laboratory hours a week for one semester. Mechanical Engineering 333H and 333T may not both be counted. Prerequisite: Rhetoric and Writing 306 with a grade of at least C-, and admission to an engineering honors program.

**M E 333T. Engineering Communication.**

Professional communication skills for engineers, with emphasis on research, writing, and oral presentation on topics of social and technical significance in engineering. Two lecture hours and two laboratory hours a week for one semester. Only one of the following may be counted: Aerospace Engineering 333T, Biomedical Engineering 333T, Communication 333T, Civil Engineering 333T, Chemical Engineering 333T, Electrical and Computer Engineering 333T, Electrical Engineering 333T, Engineering Studies 333T, Mechanical Engineering 333T, Petroleum and Geosystems Engineering 333T. Prerequisite: Rhetoric and Writing 306 or English 303C with a grade of at least C-.

**M E 334. Materials Engineering.**

Fundamental aspects of the structure, properties, and behavior of engineering materials. Three lecture hours a week for one semester. Prerequisite: Chemistry 301 with a grade of at least C- and credit or registration for the following: Mechanical Engineering 134L; Physics 303L or 316; Physics 103N, 105N, or 116L; and Engineering Mechanics 319.

**M E 134L. Materials Engineering Laboratory.**

Hands-on experiments in materials science and engineering topics and microstructure-property relationships discussed in Mechanical Engineering 334. One lecture hour and three laboratory hours a week for one semester. Prerequisite: Credit or registration for Mechanical Engineering 334 and Engineering Mechanics 319.

**M E 335. Engineering Statistics.**

Fundamentals of probability, distribution theory, data analysis and statistics, interval estimation, hypothesis testing, and statistical quality control. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Mathematics 408D or 408M with a grade of at least C-.

**M E 336. Materials Processing.**

Effects of processing on materials properties; materials selection. Three lecture hours a week for one semester. Prerequisite: Mechanical Engineering 334 (or 311) and 134L (or 111L) or the equivalent and Engineering Mechanics 319 with a grade of at least C- in each.

**M E 136L. Materials Processing Laboratory.**

Hands-on study of selected materials processing procedures and processing-microstructure-property relationships discussed in Mechanical Engineering 336. One lecture hour and three laboratory hours a week for one semester. Prerequisite: Mechanical Engineering 111L and Engineering Mechanics 319 with a grade of at least C- in each, concurrent enrollment in Mechanical Engineering 336.

**M E 136N, 236N. Concepts in Nuclear and Radiation Engineering.**

Restricted to students in the Colleges of Engineering, Liberal Arts, and Natural Sciences, and the Jackson School of Geosciences. For Mechanical Engineering 136N, one lecture hour a week for one semester; for 236N, the equivalent of two lecture hours a week for one semester. Prerequisite: Completion of at least thirty semester hours of college coursework, or consent of instructor.

**M E 336P. Concepts in Nuclear and Radiation Engineering.**

Introduces the many different aspects and applications of nuclear and radiation engineering/physics. Subjects covered include: history of nuclear development, basic concepts of radiation and radioactivity, radioactive waste management, global warming and the impact of
nuclear power plants, industrial applications, health physics, nuclear medicine, job opportunities at power plants, non-proliferation, nuclear security, discussion of opportunities for graduate schools at national laboratories, tour of University of Texas nuclear research reactor along with three introductory laboratories. Three lecture hours a week for one semester. Mechanical Engineering 336P and 379M (Topic: Concepts in Nuclear and Radiation Engineering) may not both be counted.

Prerequisite: For engineering majors, Physics 303L or 103N or Physics 316 and 116L with a grade of at least C- in each; for others, upper-division standing and written consent of instructor.

M E 337C. Introduction to Nuclear Power Systems.

Radioactivity, nuclear interactions: fission and fusion, fission reactors, nuclear power systems, nuclear power safety. Three lecture hours a week for one semester. Prerequisite: For engineering majors, Mechanical Engineering 318M or 218 with a grade of at least C-; Physics 303L and 103N or Physics 316 and 116L with a grade of at least C- in each; for others, upper-division standing and written consent of instructor.

M E 337F. Nuclear Environmental Protection.

Ionizing radiation and its interactions with matter and living tissues; radioactive decay kinetics; external and internal dose measurement; transportation through the environment; managing radioactive waste streams; and safeguards. Three lecture hours a week for one semester. Mechanical Engineering 337F and 389C may not both be counted.

Prerequisite: For engineering majors, Physics 303L and 103N or Physics 316 and 116L with a grade of at least C- in each; for others, upper-division standing and written consent of instructor.

An investigation of policy and technical aspects related to nuclear safety and security. Participants will evaluate the proliferation of risk from facilities within the nuclear fuel cycle. They will calculate the criticality conditions for a nuclear assembly and derive parent/daughter decay equations. Nuclear forensics evaluations will be conducted on real-world environmental measurements. Three lecture hours a week for one semester. Prerequisite: For engineering majors, Physics 303L and 103N or Physics 316 and 116L with a grade of at least C- in each; for others, upper-division standing and written consent of instructor.

Analysis for the design and manufacture of basic mechanical elements, and their role in the design of machines; application of finite element modeling. Three lecture hours a week for one semester. Prerequisite: Engineering Mechanics 319 and Mechanical Engineering 334 with a grade of at least C- in each.

Steady and transient heat conduction; forced and natural convection; radiation; introduction to heat exchangers and applications. Three lecture hours a week for one semester. Prerequisite: Mechanical Engineering 218 or 318M, 330, and 130L with a grade of at least C- in each; and credit or registration for Mechanical Engineering 139L.

M E 139L. Experimental Heat Transfer.

Experimental design concepts, uncertainty analysis, and systems analysis as applied to thermodynamics, fluid mechanics, and heat transfer systems. One lecture hour and two laboratory hours a week for one semester. Prerequisite: Credit or registration for Mechanical Engineering 339.

Theory and application of electrical circuits, electronics, and electromechanical devices; concepts in electrical power transmission; instrumentation; feedback; integration of electronics and instrumentation with mechanical engineering systems (mechatronics). Three lecture hours a week for one semester. Aerospace Engineering 375 and Mechanical Engineering 340 may not both be counted.

Prerequisite: Mechanical Engineering 318M; Physics 303L or 316; Physics 103N, 105N, or 116L with a grade of at least C- in each; and credit or registration for Mechanical Engineering 140L.

M E 140L. Mechatronics Laboratory.

Hands-on laboratory using hand-held and bench-top electronic test and prototyping equipment for circuits and mechatronics applications; computer-aided instrumentation and data acquisition; laboratory study in design, prototyping, and testing with electrical and electronics components and electromechanical devices. One lecture hour and two laboratory hours a week for one semester. Prerequisite: Credit or registration for Mechanical Engineering 340.

Analysis and design of integrated systems involving simultaneous application of thermodynamics, heat transfer, and fluid mechanics. Applications to power generation, vehicle engineering, materials processing, environmental control, and manufacturing. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Mechanical Engineering 330, 130L, 339, and 139L with a grade of at least C- in each.

M E 344. Dynamic Systems and Controls.

Lumped physical system models; electrical, fluid, mechanical, and thermal system analysis; linear system transient, steady-state behavior; introduction to feedback control. Three lecture hours a week for one semester. Prerequisite: Mathematics 427J or 427K, Mechanical Engineering 205 or 318M, and 324 or 314D with a grade of at least C- in each; Mechanical Engineering 340 and 140L with a grade of at least C- in each; and credit or registration for Mechanical Engineering 144L or 244L.

M E 144L, 244L. Dynamic Systems and Controls Laboratory.

Modeling of engineering systems, digital simulation, and assessment of results with experimental study; methods for analysis of first- and second-order systems, system identification, frequency response and feedback control principles; hands-on experimentation with mechanical, fluid, electrical, and magnetic systems; data acquisition and analysis using oscilloscopes and microcomputer-based analog-to-digital and digital-to-analog conversion; theoretical and practical principles governing the design and use of various sensors and transducers. For 144L, one lecture hour and two laboratory hours a week for one semester; for 244L, one lecture hour and three laboratory hours a week for one semester. Prerequisite: Credit or registration for Mechanical Engineering 344.

Analysis of forces in processing operations; effects of friction and their control; metalworking efficiencies. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: For engineering majors, Mechanical Engineering 334 or the equivalent; for nonengineering majors, upper-division standing and written consent of instructor.

Topic 1: Powder Processing. Powder particle characterization and size/shape/distribution, powder synthesis, compaction, sintering theory, sintering maps, full-density processing, powder-processed part microstructure and properties.

Topic 2: Deformation Processing. Analysis of forces in processing operations; effects of friction and their control; slab method; upper-bound force theory; slip-line field theory; metalworking efficiencies.
M E 348E. Advanced Mechatronics I.
Integrated use of mechanical, electrical, and computer systems for information processing and control of machines and devices. System modeling, electromechanics, sensors and actuators, basic electronics design, signal processing and conditioning, noise and its abatement, grounding and shielding, filters, and system interfacing techniques. Three lecture hours and two laboratory hours a week for one semester. Mechanical Engineering 348C and 348E may not both be counted. Prerequisite: For engineering majors, Mechanical Engineering 340 or the equivalent; for nonengineering majors, upper-division standing and written consent of instructor.

M E 348F. Advanced Mechatronics II.
Interfacing microcomputers with sensors and actuators; hybrid (analog/digital) design; digital logic and analog circuitry; data acquisition and control; microcomputer architecture, assembly language programming; signal conditioning, filters, analog-to-digital and digital-to-analog conversion. Three lecture hours and two laboratory hours a week for one semester. Mechanical Engineering 348D and 348F may not both be counted. Prerequisite: For engineering majors: Mechanical Engineering 340 or the equivalent; for nonengineering majors: upper-division standing and written consent of instructor.

M E 349. Corrosion Engineering.
Corrosion principles; electrochemical, environmental, and metallurgical effects; types of corrosion; corrosion testing and prevention; modern theories: principles and applications. Three lecture hours a week for one semester. Prerequisite: For engineering majors, Mechanical Engineering 334 (or 311) or the equivalent with a grade of at least C; Mechanical Engineering 316T or 326 (or 326H) or the equivalent with a grade of at least C; for others, upper-division standing and written consent of instructor.

Hands-on manual and computer-numerical-controlled machine tool operation and design and tool selection for production. One lecture hour and six laboratory hours a week for one semester. Mechanical Engineering 350 and 379M (Topic 7: Machine Tool Operations for Engineers) may not both be counted. Offered on the letter-grade basis only.

M E 350D. Design and Control of Robots for Rehabilitation.
Explore the roles of sensors, actuators, and neural circuits for biological movement control from an engineering perspective. Examine current approaches to robotic and mechatronic devices that support and enhance human movement in health and following neurologic injuries like stroke and spinal cord injury are discussed. Study the latest literature in neuromuscular controls, neuromotor recovery, and design and control of rehabilitation robots. Three lecture hours a week for one semester. Mechanical Engineering 350D and 379M (Topic: Dsgn/Cntrl Of Robots For Rehab) may not both be counted. Prerequisite: Consent of instructor.

M E 350R. Robot Mechanism Design.
Studies the analysis and synthesis of motions of mechanisms in order to design robotic systems. Examines motion properties of mechanisms including degrees of freedom, velocity, and acceleration. Explores ideas and motion analysis for robotic systems for a wide range of applications including spatial, industrial and medical robotics. Three lecture hours a week for one semester. Mechanical Engineering 350R and 379M (Topic: Robot Mechanism Design) may not both be counted. Prerequisite: Engineering Mechanics 306, and Mechanical Engineering 218 or 318M and 314D or 324, with a grade of at least C- in each.

Introduction to interactive computer graphics as a tool in computer-aided design. Use of graphics software packages. Two lecture hours and three laboratory hours a week for one semester. Prerequisite: For non-engineering majors, upper-division standing and written consent of instructor.

Evaluating the financial impact of engineering decisions. Comparing alternatives with cash flow analysis considering rate of return, inflation, and taxes, with emphasis on analyzing risk. Managing complex projects with activity scheduling and resource allocation considering cash flows. Methods include probabilistic analysis and simulation. Three lecture hours and two discussion hours a week for one semester. Prerequisite: Mechanical Engineering 335 with a grade of at least C-.

M E 354. Introduction to Biomechanical Engineering.
The application of mechanical engineering principles to problems in the life sciences; transport phenomena of physiological solids and fluids; biosignal analysis and instrumentation; biomaterials design and compatibility; principles of medical imaging, diagnostics, and therapeutics; rehabilitation engineering. Three lecture hours a week for one semester. Prerequisite: For engineering majors, Mathematics 427J or 427K with a grade of at least C; for others, upper-division standing and written consent of instructor.

M E 354M. Biomechanics of Human Movement.
Modeling and simulation of human movement; neuromuscular control; computer applications; introduction to experimental techniques. Three lecture hours a week for one semester. Biomedical Engineering 342 and Mechanical Engineering 354M may not both be counted. Prerequisite: For non-engineering majors, upper-division standing and written consent of instructor.

M E 355K. Engineering Vibrations.
Time-domain and frequency-domain analysis of vibrating systems; matrix methods, instrumentation, and vibration control; numerical methods. Three lecture hours a week for one semester. Prerequisite: Mathematics 427J or 427K, and Mechanical Engineering 314D or 324 with a grade of at least C- in each.

Description of commercial metals, polymers, ceramics, concrete, and wood for use in mechanical engineering applications. Applications include strength, toughness, stiffness, fatigue, creep, corrosion, casting, forming, machining, and welding. Two or three lecture hours a week for one semester. Prerequisite: For engineering majors, Mechanical Engineering 334 or the equivalent; for nonengineering majors, upper-division standing and written consent of instructor.

M E 360. Vehicle System Dynamics and Controls.
Fundamentals of ground vehicle dynamics, tire-road mechanics, vehicle control systems, vehicle stability, and simulation of vehicle systems. Three lecture hours a week for one semester. Only one of the following may be counted: Mechanical Engineering 360, 379M (Topic: Vehicle System Dynamics and Controls), 390, 397 (Topic: Vehicle System Dynamics and Controls). Prerequisite: For engineering majors, Mechanical Engineering 344 with a grade of at least C; for others, upper-division standing and written consent of instructor.

M E 360C. Cyber Vehicle Systems.
Study of the engineering principles of autonomous mobile robots. Subjects include understanding the dynamics of vehicle systems, and the principles and practical implementation of sensing, actuation, and control. Emphasis on providing practical laboratory study of
these subjects using mobile robot platforms, and the use of the commercial software package LabVIEW for programming of real-time data acquisition and control targets. Simulation studies may also be conducted in LabVIEW and/or the Matlab environment, so some proficiency in use of both of these software packages is expected. Three lecture hours a week for one semester. Only one of the following may be counted: Mechanical Engineering 360C, 379M (Topic: Cyber Vehicle Systems), 390C, 397 (Topic: Cyber Vehicle Systems). Prerequisite: For engineering majors, Mechanical Engineering 344 with a grade of at least C-; for others, upper-division standing and written consent of instructor.

M E 360D. Propulsion Systems and Controls.
Study principles, modeling, analysis, system integration, control, and diagnosis of diverse ground vehicle propulsion and driveline systems. Three lecture hours a week for one semester. Mechanical Engineering 360D and 379M (Topic: Propulsion Systems/Control) may not both be counted. Prerequisite: Upper-division standing.

M E 360E. Advanced Vehicle Powertrain Systems and Control.
Explore the basic concept of vehicle powertrain systems and controller design, and discuss state of the art vehicle powertrain development. Examine modeling skills to capture the system dynamics and modern control strategies to achieve the desired system performance. Three lecture hours a week for one semester. Mechanical Engineering 360E and 379M (Topic: Adv Vehicle Powertrn Sys/Cont) may not both be counted.

Microstructure and property relationships of metals and alloys; steel alloys; aluminum alloys; titanium alloys; magnesium alloys; solidification and casting; thermomechanical processing; heat treating and solid-state phase transformations. Two or three lecture hours a week for one semester. Prerequisite: For engineering majors, Mechanical Engineering 334 (or 311) or the equivalent with a grade of at least C; for others, upper-division standing and written consent of instructor.

M E 360L. Turbomachinery and Compressible Flow.
Positive displacement and dynamic rotating machinery; pumps, compressors, and turbines; performance characteristics and scaling laws. One-dimensional compressible flow with area change, friction, or heat addition. Normal and oblique shock waves; Prandtl-Meyer expansion. Three lecture hours a week for one semester. Prerequisite: Mechanical Engineering 330, 130L and 139L.

Multidimensional and transient diffusion; laminar and turbulent convection; radiation exchange; special topics. Three lecture hours a week for one semester. Prerequisite: Mechanical Engineering 339.

M E 361E. Nuclear Reactor Operations and Engineering.
Fission and chain reactions; neutron diffusion and moderation; reactor equations; Fermi Age theory; and multigroup and multiregional analysis. Three lecture hours a week for one semester. Prerequisite: For engineering majors, Mechanical Engineering 318M or 218 and Physics 303L and 103N or Physics 316 and 116L with a grade of at least C- in each; for others, upper-division standing and written consent of instructor.

M E 361F. Radiation and Radiation Protection Laboratory.
Introduction to the application of radiation and radiation protection instrumentation. Lecture and laboratory topics include personnel monitoring, radiation detection systems, gamma-ray spectroscopy, determination of environmental radiation, counting statistics, gamma and neutron shielding, and air sampling. Two lecture hours and three laboratory hours a week for one semester. Prerequisite: For engineering majors, Mechanical Engineering 318M or 218 with a grade of at least C-, Physics 303L and 103N or Physics 316 and 116L with a grade of at least C- in each; for others, upper-division standing and written consent of instructor.

M E 261M, 361M. Materials Thermodynamics.
First and second laws; heat of combustion; heat engine cycles; chemical equilibria and/or phase equilibria; point defects in crystals. Two or three lecture hours a week for one semester. Prerequisite: For engineering majors, Mechanical Engineering 334 (or 311) or the equivalent with a grade of at least C-; Mechanical Engineering 326 or 326H with a grade of at least C-; for others, upper-division standing and written consent of instructor.

M E 362K. Readings in Engineering.
A study of the interrelated problems of society, technology, and energy. Three lecture hours a week for one semester. Only one of the following may be counted: Mechanical Engineering 325L, 362K, 371K, 177K, 277K, 377K.

Analysis, design, and construction of a solar-powered car for national competitions involving other universities. Study of electrical, mechanical, and aerodynamic systems. Three lecture hours and three laboratory hours a week for one semester. Only one of the following may be counted: Electrical and Computer Engineering 362S, Electrical Engineering 362S, Mechanical Engineering 362S. Prerequisite: Consent of instructor.

M E 363L. Energy Systems Laboratory.
Experimental analysis of thermal energy systems, including heat transfer equipment, engines, the University chilling station and the University power plant. Use of a variety of industrial instrumentation for assessment of system and component performance and of experimental uncertainty. Written and oral technical communication of experimental results. Two lecture hours and three laboratory hours a week for one semester. Prerequisite: Mechanical Engineering 339 and 139L.

M E 363M. Energy Technology and Policy.
An overview of energy technologies, fuels, environmental impacts and public policies. Subjects are interdisciplinary and include an introduction to quantitative concepts in energy, including the differences among fuels and energy technologies, energy policy levers, and the societal aspects of energy, such as culture, economics, war, and international affairs. Includes brief snippets of energy history, use of real-world examples, and looks forward into the future. Interactive and lecture-oriented around current events related to energy. Three lecture hours a week for one semester. Mechanical Engineering 363M and 379M (Topic: Energy Technology and Policy) may not both be counted. Prerequisite: Upper-division standing.

M E 364D. Intermediate Dynamics.
Focuses on efficient formulation and solution of equations of motion for complex 3D multi-body mechanical systems. Emphasizes the formulation of the dynamical equations of motion using Kane’s method and will use symbolic and numerical simulation techniques (MATLAB(R) and MotionGenesis) to solve these equations. Preparation for advanced research and professional work analyzing the dynamics of complex multi-body mechanical systems. Three lecture hours a week for one semester. Mechanical Engineering 364D and 379M (Topic: Intermediate Dynamics) may not both be counted. Prerequisite: Upper-division standing and the following courses with a grade of at least a C-: Mechanical Engineering 314D or equivalent and 318M or equivalent.
M E 364L. Automatic Control System Design.
Feedback principles; control components; industrial compensators; Routh, Nyquist, Bode, and root locus methods; controller design; continuous and discrete time control. Three lecture hours and one-half laboratory hour a week for one semester. Prerequisite: Mechanical Engineering 344.

M E 365E. Engineering Entrepreneurship.
Focus on developing a basic understanding for the assessment of emerging technologies including the analysis of the status and future development issues, establish a comprehension of what ‘market’ means in terms of potential technology applications, and of how that market is identified and characterized. Create new knowledge about the potential match of an emerging technology with a defined market as a member of a multidisciplinary team, establish a basic understanding of IP rights, assessment and strategy related to emerging technology, and assess the course and participate in discussions about how it can be evolved for future offerings. Exploration the innovation and technology commercialization process especially as it relates to individual expertise and career goals. Three lecture hours a week for one semester. Mechanical Engineering 365E and 379M (Topic: Engineering Entrepreneurship) may not both be counted. Prerequisite: Upper-division standing.

M E 365K. Finite Element Method.
Introduction and application of the finite element method in engineering analysis and design problems; demonstration of techniques using commercial codes. Three lecture hours a week for one semester. Prerequisite: Engineering Mechanics 319 and Mathematics 427J or 427K with a grade of at least C- in each.

M E 365L. Industrial Design for Production.
Current techniques for making transitions from theoretical concepts to cost effective designs suitable for manufacturing. Three lecture hours a week for one semester. Prerequisite: Mechanical Engineering 338.

M E 366J. Mechanical Engineering Design Methodology.
An examination of structured methodologies for designing mechanical systems; reverse engineering/redesign projects and conceptual design projects. Three lecture hours and two laboratory hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each: Mechanical Engineering 302, 330, 130L, 335, 338, 339, 139L, 340, and 140L; one of the following with a grade of at least C: Mechanical Engineering 333H, 333T, Aerospace Engineering 333T, Biomedical Engineering 333T, Chemical Engineering 333T, Civil Engineering 333T, Electrical Engineering 333T, or Petroleum and Geosystems Engineering.

M E 266K. Mechanical Engineering Design Project.
Creative design, analysis, selection, development, and fabrication of engineering components and systems. Development of team project with faculty adviser and sponsoring engineer. Two lecture hours a week for one semester, with additional hours to be arranged. Prerequisite: Mechanical Engineering 344, 144L or 244L, 353, and 366J with a grade of at least C- in each.

Same as Operations Research and Industrial Engineering 366. Formulation and solution-interpretation for operations research models requiring, for example, optimization, simulation, or analysis of Markov chains or queues. Applications include manufacturing design and control, routing and scheduling, plant location, inventory analysis, and management of queueing systems. Three lecture hours a week for one semester. Mechanical Engineering 366L and Operations Research and Industrial Engineering 366 may not both be counted. Prerequisite: For engineering majors, Mathematics 408D or 408M and Mechanical Engineering 318M with a grade of at least C- in each; for non-engineering majors, upper-division standing and written consent of instructor.

M E 266P. Design Project Laboratory.
Development of individual team project in association with faculty adviser and sponsoring project engineer. Four laboratory hours a week for one semester. Prerequisite: Mechanical Engineering 344, 144L or 244L, 353, and 366J with a grade of at least C- in each.

Theory and algorithms for deterministic operations research methods. Algorithms for solving linear, integer, and nonlinear optimization models. Three lecture hours a week for one semester. Prerequisite: For non-engineering majors, upper-division standing and written consent of instructor.

Theory and algorithms for stochastic operations research methods. Algorithms related to stochastic processes: Markov chain analysis; queuing theory; stochastic inventory theory and decision analysis. Three lecture hours a week for one semester. Prerequisite: For engineering majors, Mechanical Engineering 335 or the equivalent; for non-engineering majors, upper-division standing and written consent of instructor.

M E 366T. Biomems and Bionems.
Micro/Nano technology has been used to create many new materials and devices with a vast range of applications in materials science, electronics and photonics, and biomedical applications. BioMEMS and BioNEMS is the application of micro/nano technology in the fields of biomedical and health sciences by offering advantages of small size (from submicron to a few mm), low cost, high throughputs, and importantly requiring much less sample/reactant. Three lecture hours a week for one semester. Mechanical Engineering 366T and 379M (Topic: Biomems and Bionems) may not both be counted. Prerequisite: Upper-division standing.

M E 367S. Simulation Modeling.
Same as Operations Research and Industrial Engineering 367. Basic concepts of discrete-event simulation. Statistical input and output analysis. Application of simulation software. Modeling of systems under uncertainty. Three lecture hours a week for one semester. Mechanical Engineering 367S and Operations Research and Industrial Engineering 367 may not both be counted. Prerequisite: For engineering majors, Mechanical Engineering 318M with a grade of at least C-, Mechanical Engineering 335 or the equivalent; for non-engineering majors, upper-division standing and written consent of instructor.

M E 368C. Additive Manufacturing.
Additive manufacturing (AM) is the use of layer-based processes for producing parts directly from computer (CAD) models, without part-specific tooling. Students learn about a variety of additive manufacturing (AM) technologies, their potential to support rapid prototyping and manufacturing, and some of the important research challenges associated with AM. Three lecture hours a week for one semester. Mechanical Engineering 368C and 379M (Topic: Additive Manufacturing) may not both be counted. Prerequisite: Grade of at least C- or registration for Mechanical Engineering 366J.

M E 368J. Computer-Aided Design.
Application of computers to design problems and simulation of mechanical systems; creation of interactive special applications programs. Three lecture hours and two laboratory hours a week for one
semester. Prerequisite: Credit or registration for Mechanical Engineering 338.

M E 369L. Introduction to Computational Fluid Dynamics. 
Applied numerical analysis, including solution of linear algebraic equations and ordinary and partial differential equations; modeling of physical processes, including fluid flow and heat and mass transfer; use of general purpose computer codes, including commercial computational fluid dynamics software packages. Three lecture hours a week for one semester. Only one of the following may be counted: Aerospace Engineering 347, Computational Engineering 347, Mechanical Engineering 369L. Prerequisite: Credit or registration for Mechanical Engineering 330 and 339.

Use of basic tools of computational mathematics to set up numerical simulations for a variety of problems in thermo fluids. Explicit versus implicit time-stepping schemes, the issues of numerical stability and numerical errors, the issue of computational costs, difficulties with boundary and initial conditions, basic decision paths in the choice of numerical methods depending on the target system, and design of diagnostic steps. Three lecture hours a week for one semester. Mechanical Engineering 369M and 379M (Topic: Comput Meth Thermal/Fluid Sys) may not both be counted. Prerequisite: Upper-division standing.

M E 369P. Application Programming for Engineers. 
Designed for students who have some experience in programming and are interested in the sharing and development of open source software applications. Provides an introduction to the Python Programming language, an open source, flexible, and intuitive debug programming language, with an emphasis on system modeling, simulation, data analysis, and software/data management. Students will create mini projects in Python that demonstrate software design and organization, debugging, open source practices, and data visualization. Three lecture hours a week for one semester. Prerequisite: For engineering majors, Mechanical Engineering 318M or the equivalent with a grade of at least C-; for others, upper-division standing and written consent of instructor.

M E 371D. Medical Device Design and Manufacturing. 
Explores how to solve medical device design problems using systematic design thinking and practices. Interpret clinical needs and define an open engineering medical device design problem, including formulating engineering requirements/specifications to address a marketable need, generate concepts in a way that promotes both creativity and usefulness, make well-informed, well-justified design decisions in the early and later stages of design, and analyze experiments, follow statistical best practices in Design of Experiments (DoE), embody solutions with "Design for X" considerations, and communicate intermediate and final designs clearly and effectively in written and oral formats. Three lecture hours a week for one semester. Only one of the following may be counted: Biomedical Engineering 363E, 377T (Topic: Medical Device Design and Manufacturing), Mechanical Engineering 371D, 379M (Topic: Medical Device Design and Manu). Prerequisite: Upper-division standing.

M E 371K. Legal Aspects of Engineering Practice. 
Legal considerations in the practice of engineering; specifications and contracts for equipment and engineering services. Three lecture hours a week for one semester. Only one of the following may be counted: Mechanical Engineering 325L, 362K, 371K, 177K, 277K, 377K. Prerequisite: Upper-division standing.

Component technologies for precision machines based on dynamic modeling and motion programming: cams, linkages, planar robot manipulators and open architecture vehicles. Homework includes 15 simulations. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and credit or registration for Mechanical Engineering 324.

M E 372M. Mechanism Design. 
Design of planar mechanisms for applications that require rigid body guidance, function generation, and path generation. Graphical and analytical techniques. Computer-aided design projects. Three lecture hours a week for one semester. Prerequisite: Credit or registration for Mechanical Engineering 324.

M E 372N. Design of Smart Mechanisms. 
Design of reprogrammable multiple-degree-of-freedom architectures. The course addresses various mechanical configurations and stresses the integrated design approach to sensing/actuation/control architecture and control software. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and consent of instructor.

Principles of internal combustion engines, fuels, carburetion, combustion, exhaust emissions, knock, fuel injection, and factors affecting performance. Three lecture hours a week for one semester. Prerequisite: Mechanical Engineering 339 or consent of instructor.

M E 374D. Automotive Engineering Laboratory. 
Engines and emissions. Students use commercial engine-modeling software to explore effects of valve timing and intake tuning and conduct experiments with vehicle emissions, ignition timing, engine mechanisms, engine controls, and emissions control. One lecture hour and four laboratory hours a week for one semester. Prerequisite: Credit or registration for Mechanical Engineering 374C.

M E 374E. Race Car Engineering and Project Management. 
Explores designing a Formula SAE race car, a hot rod (UT’s 1937 Chevy project), and a Formula SAE Electric race car. Divided into four major sections: Project Management, including tools for project organization and management, Powertrain, including engine basics, calibration, intake and exhaust design, cooling and oiling systems, fuel economy and emissions, transmission/differential, vehicle performance modeling. Brake systems, longitudinal weight transfer, longitudinal force requirements of the tires for both braking and acceleration, tires and tire models, and Vehicle dynamics (suspension systems, anti-roll bars, lateral weight transfer, tires and tire models). Three lecture hours a week for one semester. Mechanical Engineering 374E and 379M (Topic: Racecar Engr & Proj Management) may not both be counted. Prerequisite: The following courses with a grade of at least a C- in each: Mechanical Engineering 330 and 130L; and credit or registration for 339 and 139L.

M E 374F. Fire Science. 
Analysis of the dynamics and consequences of fire in structures. Topics include combustion thermochemistry, premixed and diffusion flames, fluid mechanics of fire, human tenability in burning structures, and computer modeling of fires. Three lecture hours a week for one semester. Prerequisite: For engineering majors, upper-division standing and credit or registration for Mechanical Engineering 339 and 139L with a grade of at least C- in each; for others, upper-division standing and written consent of instructor.

M E 374L. Design of Thermal Systems. 
Methodology and approach to design of thermal energy systems; component and system modeling; optimization, including economic
considerations. Three lecture hours a week for one semester. Prerequisite: Mechanical Engineering 339 or the equivalent.

**M E 374R. Design of Air Conditioning Systems.**

Load calculations, design of thermal distribution systems, component selection and control. Three lecture hours a week for one semester. Prerequisite: Credit or registration for Mechanical Engineering 339.

**M E 374S. Solar Energy Systems Design.**

Insolation characteristics and measurement, component design, solar energy system modeling, introduction to photovoltaic systems, cost analysis, and case studies. Three lecture hours a week for one semester. Prerequisite: Mechanical Engineering 339 or the equivalent.

**M E 374T. Renewable Energy Technology.**

Cultivates an enhanced level of theoretical and conceptual understanding of thermodynamics, fluid mechanics and heat transfer, and of how these disciplines apply to the design and analysis of complex thermal-fluid systems. Enhances skills in designing, programming and debugging software tools for systems analysis, working in teams, and communicating engineering results in a professional manner. Three lecture hours a week for one semester. Mechanical Engineering 374T and 379M (Topic: Renewable Energy Technology) may not both be counted. Prerequisite: The following courses with a grade of at least C- in each: Mechanical Engineering 316T, 318M, 330, 130L, 339, and 139L.

**M E 376N. High Throughput Nanopatterning.**

Introduction to the basic tools and materials involved in the patterning processes needed to create nano-scale structures and functional materials and discusses the relevance of these processes to applications in the electronics, display, and energy industries. Includes take-home portable nano-labs which allow hands-on experience in nano-scale fabrication processes and relevant nanometerology techniques. Explores industry and research roadmaps which provide relevant metrics and timelines for fabrication, materials, nano-enabled components and devices. Exposure to relevant computational modeling and simulation tools allows exploration of novel nano-enabled components and devices. Three lecture hours a week for one semester. Mechanical Engineering 376N and 379M (Topic: High Throughput Nanopatterning) may not both be counted. Prerequisite: Upper-division standing.

**M E 177K, 277K, 377K. Projects in Mechanical Engineering.**

Independent project carried out under the supervision of a faculty member in mechanical engineering. Student prepares a project proposal and a final report, each of which is evaluated by the faculty committee on individual projects. For 177K, three to five laboratory hours and one consultation hour with the faculty supervisor a week for one semester; for 277K, five to ten laboratory hours and one consultation hour with the faculty supervisor a week for one semester; for 377K, ten to fifteen laboratory hours and one consultation hour with the faculty supervisor a week for one semester. Only one of the following may be counted: Mechanical Engineering 325L, 362K, 371K, 134L, 377K. Prerequisite: A University grade point average of at least 2.50 and a grade point average in the major of at least 2.50; and approval of project proposal by the faculty committee on individual projects.

**M E 378C. Electroceramics.**

Bonding; crystal structures; defects; phase diagrams; glass ceramics; electrical, dielectric, magnetic, and optical ceramics. Three lecture hours a week for one semester. Prerequisite: For engineering majors, Mechanical Engineering 334 (or 311) or the equivalent with a grade of at least C-; for others, upper-division standing and written consent of instructor.

**M E 378D. Failure Analysis.**

Introduction to methodology of analyzing failures of engineering parts and devices. Explores a broad range of analysis, but the focus is on understanding fracture and relating this back to material and mechanics relevant to failure to determine the likely root cause(s). Lectures are primarily based on case studies and are supplemented by two hands-on class projects, one performed individually and the other larger project performed as a team project. Three lecture hours a week for one semester. Mechanical Engineering 378D and 379M (Topic: Failure Analysis) may not both be counted. Prerequisite: For engineering majors, the following courses with a grade of at least C- in each: Engineering Mechanics 319, Mechanical Engineering 334 and 134L or equivalent.

**M E 378E. Nanotechnology for Sustainable Energy.**

Demonstrates the role of nanoscale materials in solving one of the most critical socio-economic issues of our time, affordable and sustainable energy. An overview of emerging nanotechnology, and how people can critically impact many energy technologies (from energy harvesting, conversion, to storage). Explores various types of energy devices, including solar cell, solar fuel, piezoelectrics, thermo-electrics, battery, supercapacitor, and fuel cell as well as basic device principles, current technology status and new opportunities of nanotechnology for energy device applications. Content is at the intersection of nanoscale science and engineering, and energy science and technology. Three lecture hours a week for one semester. Mechanical Engineering 378E and 379M (Topic: Nanotech for Sustainabl Energy) may not both be counted. Prerequisite: Upper-division standing, and the following courses with a grade of at least C-: Chemistry 301, Mechanical Engineering 334 or equivalent, Physics 303L and 103N or Physics 316 and 116L.

**M E 378F. Enhancing Sustainability Through Tribology.**

Explore the principles of macro-scale tribology and discuss the potential impact of tribology in enhancing sustainable development. Discuss physical properties of lubricants; lubricants and their composition; contact mechanics; hydrodynamic lubrication; hydrostatic lubrication; elastohydrodynamic lubrication; boundary lubrication; solid lubrication and surface treatments; wear of materials; nanotribology; and green tribology. Three lecture hours a week for one semester. Mechanical Engineering 378F and 379M (Topic: Enhanc Sustnbthy Thru Tribology) may not both be counted. Prerequisite: Chemistry 301, Mechanical Engineering 302, Mechanical Engineering 334, Physics 303K, and Physics 103M with a grade of at least C- in each.

**M E 378K. Mechanical Behavior of Materials.**

Elastic deformation; viscoelasticity; yielding, plastic flow, plastic instability, strengthening mechanisms; fracture, fatigue, creep; significance of mechanical properties tests. Three lecture hours a week for one semester. Prerequisite: For engineering majors, Mechanical Engineering 334 or the equivalent and 134L with a grade of at least C- in each; for others, upper-division standing and written consent of instructor.

**M E 378P. Properties and Applications of Polymers.**

Introduction to polymers as structural materials: polymerization, polymer structure, physical and mechanical properties, processing and fabrication. Three lecture hours a week for one semester. Prerequisite: For engineering majors, Mechanical Engineering 334 (or 311) or the equivalent with a grade of at least C-; Mechanical Engineering 326 or 326H or the equivalent with a grade of at least C-; for others, upper-division standing and written consent of instructor.

**M E 378Q. Polymer Nanocomposites.**

Fundamentals, properties, and applications of polymer nanocomposites. Three lecture hours a week for one semester. Mechanical Engineering 378Q and 379M (Topic: Polymer Nanocomposites) may not both be
counted. Prerequisite: Mechanical Engineering 334 and 134L with a grade of at least C-.

**M E 378S. Structural Ceramics.**

Powder processing, powder characterization, forming techniques, densification, and development of microstructure; emphasis on understanding materials, selection, and microstructure-mechanical property relationships. Three lecture hours a week for one semester. Prerequisite: For engineering majors, Mechanical Engineering 334 (or 311) or the equivalent with a grade of at least C-; for others, upper-division standing and written consent of instructor.

**M E 679H. Undergraduate Honors Thesis.**

Research performed during two consecutive semesters under the supervision of an engineering faculty member; topics are selected jointly by the student and the faculty member with approval by the director of the Engineering Honors Program. The student makes an oral presentation and writes a thesis. Individual instruction for two semesters. Students pursuing both the Bachelor of Arts, Plan II, and a bachelor’s degree in engineering may use this course to fulfill the thesis requirement for the Bachelor of Arts, Plan II. Prerequisite: For 679HA, enrollment in the Engineering Honors Program; for 679HB, Mechanical Engineering 679HA and enrollment in the Engineering Honors Program.

**M E 179M, 279M, 379M. Topics in Mechanical Engineering.**

For each semester hour of credit earned, the equivalent of one lecture hour for one semester. May be repeated for credit when the topics vary. Prerequisite: Prerequisites vary with the topic.

**Topic 1: Design of Machines and Systems.** Restricted to students in the UTeach Engineering Program. Introduction to techniques for analyzing and designing machine components (linkages, cams, springs, gears, etc.) within the context of reverse engineering and redesigning existing products. Covers the application of structure methods for engineering design and prototyping. Mechanical Engineering 179M, 279M, 379M (Topic 1) and 379M (Topic: Design of Machines and Systems) may not both be counted.

**M E 379N. Engineering Acoustics.**

Same as Electrical and Computer Engineering 363N. Principles of acoustics, with applications drawn from audio engineering, biomedical ultrasound, industrial acoustics, noise control, room acoustics, and underwater sound. Three lecture hours a week for one semester. Only one of the following may be counted: Electrical and Computer Engineering 363N, Electrical Engineering 363N, Mechanical Engineering 379N. Prerequisite: Mathematics 427J or 427K with a grade of at least C-.

**M E 379Q. Musical Acoustics.**

Same as Music 379Q. Designed to help students develop the intuition and vocabulary for understanding the basic physical principles relevant to musical instruments and sound (e.g., mechanics, vibrations, acoustics, harmonics, acoustic-electronic conversions, speakers, hearing, perception, room acoustics) in order to be able to read basic articles on the subject of musical acoustics. Material is kept relevant to musical principles (e.g., performance techniques, scales/harmony) throughout. Three lecture hours a week for one semester. Only one of the following may be counted: Arts and Entertainment Technologies 320D, 339 (Topic: Musical Acoustics), Mechanical Engineering 379M (Topic: Musical Acoustics), 379Q, Music 376J (Topic: Musical Acoustics), 379Q.

**Graduate Courses**

**M E 180M, 280M, 380M, 680M, 980M. Research.**

Individual research. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in mechanical engineering.

**M E 380Q. Mathematical Methods in Engineering.**

Applications of mathematical analysis and numerical concepts to typical engineering problems. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, and Mathematics 427K or the equivalent.

**Topic 1: Engineering Analysis: Analytical Methods.** Analytical solutions for linear ordinary differential equations; numerical integration of ordinary differential equations; Fourier series and integrals; the Laplace transform; the solution of partial differential equations; vector analysis and linear transformations.

**Topic 2: Engineering Analysis: Advanced Analytical Methods.** Classification and solution of partial differential equations; includes linear superposition, separation of variables, Fourier and Laplace transform methods; Green's functions, similarity solution, and spectral methods; introduction to solution of nonlinear partial differential equations, including both exact and approximate techniques, with a strong emphasis on physical systems.

**Topic 3: Perturbation Methods.** Introduction to perturbation theory; regular expansions and sources of nonuniformities; method of strained coordinates and multiple scales; method of matched asymptotic and composite expansions. Places strong emphasis on the relationship between the physical and the mathematical basis and on the crucial role of nondimensionalization in problem solving.

**Topic 4: Numerical Methods for Differential Equations.** Numerical solution of ordinary differential equations, both initial and boundary value equations; includes quasilinearization, shooting methods, and method of adjoints; classification and solution of partial differential equations by the finite difference method; stability and convergence criteria for various schemes; special attention to nonlinear equations with a strong emphasis on the Navier-Stokes equations.

**M E 380R. Robot Mechanism Design.**

Examines analysis and synthesis of motions of mechanisms in order to design robotic systems. Motion properties of mechanisms including degrees of freedom, velocity, and acceleration will be studied. Discusses design ideas and motion analysis for robotic systems for a wide range of applications including spatial, industrial and medical robotics. Simulates and analyzes motions of multi-link mechanisms in the MATLAB programming environment. Design and build robots with interesting mechanisms and mechatronics elements as part of group projects. Studies machining, assembly, mechatronics and programming through the projects. Three lecture hours a week for one semester. Mechanical Engineering 380R and 397 (Topic: Robot Mechanism Design) may not both be counted. Prerequisite: Graduate Standing.

**M E 381M. Statistical Methods for Process Control Manufacturing.**

Restricted to Option III Mechanical Engineering Master's degree students. Covers fundamental methods for statistical monitoring of processes, including Shewhart control charts, control charts for individual measurements, CUSUM charts and attribute control charts. Explores the design of experiments, including the statistical evaluation of main and interaction effects, as well as intelligent experimentation through reduced factorial experimental design. Outlines DOE-based search techniques for surface response based design optimization. Offers advanced research in model based and active process control in highly flexible and sophisticated manufacturing systems, such as semiconductor manufacturing lithography of flexible
automotive assembly lines. Three lecture hours a week for one semester. Prerequisite: Graduate standing and admission to the Executive ME program.

**M E 381P. Dynamics of Fluids.**
Detailed study of fluid dynamics, boundary layer phenomena, and incompressible flows. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

**Topic 2: Compressible Flow and Turbomachinery.** Two-dimensional flow at subsonic and supersonic Mach numbers, method of characteristics, shock tubes, oblique shocks, wave interactions. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and admission to the Executive ME program.

**M E 381Q. Thermodynamics.**
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, and Mechanical Engineering 326 or the equivalent.

**Topic 1: Advanced Thermodynamics.** Development of macroscopic thermodynamics from basic physical relationships; introduction to the thermodynamics of mixtures.

**M E 381R. Heat Transfer and Rate Processes.**
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, and Mechanical Engineering 339 or the equivalent.

**Topic 1: Advanced Conductive Heat Transfer.** Modeling approaches for composite systems; phase change in conduction-dominant heat transfer systems; analysis of complex source terms in conduction systems; conduction physics at material interfaces; coupled thermo-mechanical response in conduction systems; and solution techniques for multidimensional, unsteady conduction phenomena.

**Topic 2: Advanced Convective Heat and Mass Transfer.** Fundamental study of momentum, energy, and mass transport in convective systems in laminar and turbulent regimes, and several flow configurations.

**Topic 3: Radiation Heat Transfer.** Thermal radiation, blackbody properties, surface properties, radiant exchange, absorbing and emitting media, combined modes.

**Topic 5: Applications of Incompressible Flow.** Dynamics of vorticity, inviscid flow; boundary layer theory and computational techniques, linear stability theory for parallel flow, flow at moderate Reynolds number.

**M E 382N. Computational Fluid Dynamics.**
Numerical analysis applied to fluid flow and heat transfer problems. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

**Topic 1: Introduction to Computational Fluid Dynamics.** Applied numerical analysis, including solution of linear algebraic equations and ordinary and partial differential equations; modeling of physical processes, including fluid flow and heat and mass transfer; use of general-purpose computer codes, including commercial computational fluid dynamics software. Additional prerequisite: Mechanical Engineering 339 or the equivalent.

**Topic 2: Computational Methods for Thermal Fluid Systems.** Introduction to the use of computational tools in the analysis of thermal-fluid systems, with particular emphasis on verification of results and error analysis. Included are interpolation, differentiation, quadrature, solution of linear and non-linear equations, optimization, differential equations and statistics. Additional prerequisite: Mathematics 427K or the equivalent.

**M E 382P. Topics in Experimental Thermal/Fluid Systems.**
Use of modern experimental techniques and instrumentation in the thermal/fluid sciences. Two lecture hours and three laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

**Topic 1: Advanced Experimental Methods for Thermal/Fluid Systems.** Design of experiments; fundamentals of electronic signal processing and optics; advanced experimental techniques, including flow measurements with laser-Doppler velocimetry, particle image velocimetry, and hot-wire anemometry; and thermal measurements with infrared cameras and thermocouples.

**Topic 2: Optics and Lasers.** Fundamentals of geometric and physical optics; interaction of light with matter; spectroscopy; and laser and electro-optics applications.

**M E 382Q. Design of Thermal and Fluid Systems.**
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, and Mechanical Engineering 339 or the equivalent.

**Topic 2: Solar Energy System Design.** Solar radiation, solar collectors, storage, and system analysis and design. Application to both thermal and photovoltaic systems.

**Topic 3: Advanced Thermo-Fluid Systems.** Project-based course addressing the design and analysis of systems in which thermal and fluid processes are central to function and performance. Advanced topics including transient system analysis, multicomponent nonreacting and reacting gas mixtures, phase change phenomena, and design principles based on entropy generation minimization are covered in the context of specific thermal-fluid applications.

**Topic 4: Energy Technology and Policy.** Multidisciplinary overview of energy technologies, fuels, environmental impacts, and public policies. Quantitative engineering analysis in energy, including the
differences among fuels and energy technologies, the electricity sector, liquid fuels, conventional fuels, renewable fuels, impacts on the environment, basics of atmospheric chemistry, and water use for power plant cooling. Energy policy and the societal aspects of energy, such as culture, economics, war, and international affairs, are covered.

**M E 382R. Topics in Combustion.**

Fundamentals of combustion science, technology, and engineering. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**Topic 1: Fundamentals of Combustion.** Combustion phenomena are examined from a fundamental perspective. Topics include equilibrium phenomena, chemical kinetics, explosions, detonations, and premixed and diffusion flames. Additional prerequisite: Knowledge of computer programming or the use of public domain codes.

**Topic 2: Chemical Kinetics.** The theory of combustion chemistry. Issues include physics of molecular interactions, the explosion peninsula, elementary reaction schemes, reduced reaction schemes, and global chemistry.

**Topic 5: Advanced Combustion.** Presentation and analysis of multi-component and reacting conservation equations; examination of the theory of laminar flames (premixed and nonpremixed) using asymptotic methods; detailing of ignition and extinction phenomena; discussion of flame response to transport and flow modifications; and approaches to analyzing turbulent premixed and nonpremixed flames.

**M E 382T. Fire Science.**

Analysis of dynamics and consequences of fire in structures. Topics include combustion thermochemistry, premixed and diffusion flames, fluid mechanics of fire, human tenability in burning structures, computer modeling of fires. Three lecture hours a week for one semester. Mechanical Engineering 382R (Topic: Fire Science) and 382T may not both be counted. Prerequisite: Graduate standing, and Mechanical Engineering 326, 330, and 339, or their equivalents.

**M E 383M. Heat Transfer in Industrial Systems.**

Restricted to Option III Mechanical Engineering Master’s degree students. Provides understanding of heat transfer physics and the tools to analyze a wide range of industrially relevant heat transfer problems. Analyzes heat transfer systems associated with a diversity of industrial applications, as well as how to use order of magnitude analysis to simplify complex problems and solution techniques for the three modes of heat transfer. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

**M E 383Q. Analysis of Mechanical Systems.**

Detailed studies in the characteristics of mechanical systems. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

**Topic 1: Vibrations.** Formulation of discrete and continuous models for mechanical systems in vibration; modal analysis; analytical solution methods for constant property linear systems; numerical solution methods.

**Topic 2: Dynamics of Mechanical Systems.** Advanced dynamics, including Newton-Euler, Lagrange, and Hamilton’s principles; gyroscopic effects in mechanical systems; analysis of stability of systems; continuous bodies; introduction to Hamilton-Jacobi.

**Topic 4: Modeling of Physical Systems.** Development of models for mechanical, electrical, fluid, thermal, and chemical systems; circuit techniques; bond graphs; energy and variational methods; hardware examples.

**Topic 5: Wave Propagation.** Fundamentals of wave propagation; transverse waves on strings and membranes; compressional, torsional, and flexural waves in rods and plates; longitudinal, shear, and surface waves in elastic media; tube waves; and water waves.

**Topic 6: Fourier and Spectral Analysis in Dynamic Systems.** Fourier transformations (series, integrals, fast Fourier transforms) and their relationships. Sampling, aliasing, convolution, correlation, leakage, windowing, power spectra, frequency response functions, and coherence functions in one-dimensional digital signal processing. Cepstrum analysis, Hilbert transforms. Experimental techniques and applications include modal analysis, mechanical signature analysis, and path identification. Additional prerequisite: Consent of instructor.

**Topic 8: Digital Signal Processing.** Sampling and quantizing processes; analog/digital and digital/analog conversion; digital Fourier analysis, including fast Fourier transform; z transform; design of finite impulse response and infinite impulse response digital filters.

**Topic 9: Applied Intelligence for Engineers.** Fundamental concepts of artificial neural systems; architecture, paradigms, topology, and learning algorithms. Introduction to the most popular networks and to their selection for engineering applications.

**Topic 10: Modeling and Simulations of Multienergy Systems.** Methods for modeling and simulation of multienergy systems. Detailed study of applications in electromechanical systems, fluid power, chemical and biological processes, optimal control, and other areas of interest to the class.

**M E 383S. Lubrication, Wear, and Bearing Technology.**

Theory of friction and wear; design of bearing systems, including hydrodynamic, rheodynamic, and direct contact devices. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**Topic 1: Friction and Wear of Materials.** Theories of friction, theories of wear (adhesion, delamination), pitting, spalling, fretting, and galvanic corrosion.

**M E 384E. Electromechanics.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**M E 384M. Fluid Mechanics in Industrial Processes.**

Restricted to Option III Mechanical Engineering Master’s degree students. Offers practicing engineers and technology managers a comprehensive treatment of various fluid mechanics topics. Explores fluid flow and related phenomena in multiple application spaces. Benefit the design and analyses of various fluid-based systems. Three lecture hours a week for one semester. Prerequisite: Graduate standing and admission to the Executive ME program.

**M E 384N. Acoustics.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**Topic 1: Acoustics I.** Same as Electrical and Computer Engineering 384N (Topic 1). Plane waves in fluids; transient and steady-state reflection and transmission; lumped elements; refraction; strings, membranes, and rooms; horns; ray acoustics; absorption and dispersion. Only one of the following may be counted: Electrical and Computer Engineering 384N (Topic 1), Electrical Engineering 364N (Topic 1), Mechanical Engineering 384N (Topic 1).

**Topic 2: Acoustics II.** Same as Electrical and Computer Engineering 384N (Topic 2). Spherical and cylindrical waves, radiation and...
scattering, multipole expansions, Green’s functions, waveguides, sound beams, Fourier acoustics, Kirchhoff theory of diffraction, and arrays. Only one of the following may be counted: Electrical and Computer Engineering 384N (Topic 2), Electrical Engineering 384N (Topic 2), Mechanical Engineering 384N (Topic 2).

**Topic 3: Electromechanical Transducers.** Same as Electrical and Computer Engineering 384N (Topic 3). Modeling, analysis, and design of transducers for reception and transmission of acoustic and vibration signals; dynamics of coupled electrical, mechanical, and acoustical systems; and the effects of transducer characteristics on fidelity and efficiency of transduction. Only one of the following may be counted: Electrical and Computer Engineering 384N (Topic 3), Electrical Engineering 384N (Topic 3), Mechanical Engineering 384N (Topic 3).

**Topic 4: Nonlinear Acoustics.** Same as Electrical and Computer Engineering 384N (Topic 4). Waveform distortion and shock formation, harmonic generation and spectral interactions, effects of absorption and dispersion, parametric arrays, Rankine-Hugoniot relations, weak shock theory, numerical modeling, radiation pressure, and acoustic streaming. Only one of the following may be counted: Electrical and Computer Engineering 384N (Topic 4), Electrical Engineering 384N (Topic 4), Mechanical Engineering 384N (Topic 4).

**Topic 5: Underwater Acoustics.** Same as Electrical and Computer Engineering 384N (Topic 5). Acoustic properties of the ocean; acoustic propagation, reflection, reverberation, scattering and target strength; ocean noise; introduction to array and signal processing; basics of sonar design. Only one of the following may be counted: Electrical and Computer Engineering 384N (Topic 5), Electrical Engineering 384N (Topic 5), Mechanical Engineering 384N (Topic 5).

**Topic 6: Architectural Acoustics.** Same as Electrical and Computer Engineering 384N (Topic 6). Human perception of sound, principles of room acoustics, sound-absorptive materials, transmission between rooms, and acoustical design of enclosed spaces. Only one of the following may be counted: Electrical and Computer Engineering 384N (Topic 6), Electrical Engineering 384N (Topic 6), Mechanical Engineering 384N (Topic 6).

**Topic 7: Ultrasonics.** Same as Electrical and Computer Engineering 384N (Topic 7). Acoustic wave propagation in fluids, elastic solids, and tissue; transducers, arrays, and beamforming; nondestructive evaluation; and acoustical imaging. Only one of the following may be counted: Electrical and Computer Engineering 384N (Topic 7), Electrical Engineering 384N (Topic 7), Mechanical Engineering 384N (Topic 7).

**Topic 8: Wave Phenomena.** Same as Electrical and Computer Engineering 384N (Topic 8). Fourier acoustics and angular spectra; nearfield acoustical holography; Fraunhofer, Fresnel, and parabolic approximations; sound beams; Green’s functions; Born approximation; propagation and scattering in moving, periodic, and random media. Only one of the following may be counted: Electrical and Computer Engineering 384N (Topic 8), Electrical Engineering 384N (Topic 8), Mechanical Engineering 384N (Topic 8), 397 (Topic: Wave Phenomena).

**Topic 9: Acoustic Metamaterials.** Same as Electrical and Computer Engineering 384N (Topic 9). Examine wave propagation in heterogeneous media displaying nonclassical effective properties. Introduction to effective medium theories including fundamental limits on effective properties, transmission and scattering matrices, waves in periodic media, localized resonance, and transformation acoustics. Only one of the following may be counted: Mechanical Engineering 384N (Topic 9), 397 (Topic: Acoustic Metamaterials), Electrical and Computer Engineering 384N (Topic 9).

**M E 384Q: Design of Control Systems.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, and Mechanical Engineering 364L or the equivalent.

**Topic 1: Introduction to Modern Control.** State variable methods, eigenvalues, and response modes; controllability, observability, and stability; calculus of variations; optimal control; Pontryagin maximum principle; control of regulator and tracking servomechanisms; Hamilton-Jacobi, dynamic programming; deterministic observers, Kalman filter; discrete and continuous time.

**Topic 2: Nonlinear Control Systems.** State space formulation; stability criteria; Liapunov functions; describing functions; signal stabilization; Popov and circle criteria for design.

**Topic 3: Time-Series Modeling, Analysis, and Control.** Same as Operations Research and Industrial Engineering 390R (Topic 3: Time-Series Modeling, Analysis, and Control). Methods for analytical modeling, analysis, prediction, and control of linear, stationary time series. Includes examples of advanced research in nonstationary time-series modeling and applications in manufacturing, financial engineering, geosciences, and other areas. Students complete a project on a topic of their choice. Additional prerequisite: Graduate standing, and Mechanical Engineering 364L or the equivalent, an undergraduate calculus-based course in probability and statistics or consent of instructor.

**Topic 4: Automatic Control System Design.** Examine feedback principles; control components; industrial compensators; Routh, Nyquist, Bode, and root locus methods; controller design; continuous and discrete time control. Mechanical Engineering 384Q (Topic 4) and Mechanical Engineering 397 (Topic: Automatic Control Sys Design) may not both be counted.

**Topic 7: Stochastic Systems, Estimation, and Control.** Probability and random variables; filtering theory; stochastic calculus; stochastic control; engineering applications; linear and nonlinear systems; spectral techniques.

**Topic 8: Propulsion Systems and Controls.** Study principles, modeling, analysis, system integration, control, and diagnosis of diverse ground vehicle propulsion and driveline systems. Three lecture hours a week for one semester. Mechanical Engineering 384Q (Topic 8) and Mechanical Engineering 397 (Topic: Propulsion Systems/Control) may not both be counted.

**Topic 9: Advanced Vehicle Powertrain Systems and Control.** Explore the basic concept of vehicle powertrain systems and controller design, and discuss state of the art vehicle powertrain development. Examine modeling of system dynamics, and applying modern control strategies to achieve the desired system performance. Mechanical Engineering 384Q (Topic 9) and 397 (Topic: Adv Vehicle Powetrn Sys/Cont) may not both be counted.

**Topic 10: Real-Time Control System Labs.** Conduct design, implementation, hands-on experiments, and analysis of real-time estimation and control algorithms for physical systems. Three lecture hours a week for one semester. Mechanical Engineering 384Q (Topic 10) and Mechanical Engineering 397 (Topic: Real-Time Control Sys Labs) may not both be counted.

**Topic 11: Estimation and Control of Ground Vehicle Systems.** Examine advanced control and estimation systems for ground vehicle propulsion, chassis, and automation systems. Discuss combinations of physical insight into ground vehicle systems with control and estimation methods. Mechanical Engineering 384Q (Topic 11) and 397 (Topic: Est and Contl Sys for Grnd Veh) may not both be counted.

**Topic 12: Digital Control.** Explore the concepts of sampling and discrete-time signals/systems; analysis of discrete-time systems; design of discrete-time controllers, including input/output approaches, polynomial methods, state space techniques, and linear quadratic optimal control design. Examine understanding of computer
controlled systems, construction of discrete-time models, analysis of the open loop and closed-loop behavior, and design of digital control algorithms. Mechanical Engineering 384Q (Topic 12) and 397 (Topic: Digital Control) may not both be counted.

ME 384R. Robotics.

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 2: Design of Smart Mechanisms. Design of reprogrammable multiple-degree-of-freedom architectures. The course addresses various mechanical configurations and stresses the integrated design approach to sensing/actuation/control architecture and control software. Includes design project.

Topic 3: Advanced Dynamics of Robotic Systems. Treatment in depth of the dynamics of robotic systems. Discussion of modeling, analysis, and control of conventional serial robots, in-parallel manipulators, dual arms, and legged locomotion systems.

Topic 4: Geometry of Mechanisms and Robots. Advanced topics in theoretical kinematics geometry: applications of screw system theory to the study of motion and force fields in spatial mechanisms and robotic systems; analytical and numerical schemes associated with kinematics geometry.

Topic 7: Brain, Body, and Robotics. Examine computational models of brain control of human movement. Explore the roles of sensors, actuators, and neural circuits for biological movement control from an engineering perspective. Study current approaches to robotic and mechatronic devices that support and enhance human movements. Develop and test prototypes for robot modules that interact with the human body while studying the latest literature in neuromuscular controls, neuromotor recovery, and design and control of rehabilitation robots. Three lecture hours a week for one semester. Mechanical Engineering 384R (Topic 7) and 397 (Topic: Brain, Body, and Robotics) may not both be counted.

Topic 8: Algorithms for Sensor-Based Robotics. Use advanced mathematical concepts in linear algebra and optimization to develop applied algorithms for robotic systems utilizing various imaging modalities and sensors. Explore all phases of kinematics/dynamics modeling, preparation, motion planning, and execution. Examine examples of such algorithms in various areas including, but not limited to, robotic surgery, mobile robotics, manipulation, and human-machine interaction systems. Mechanical Engineering 384R (Topic 8) and 397 (Topic: Algorithms Sensor-Based Robotics) may not both be counted.

Topic 9: Haptics and Teleoperated Systems. Examine theory, analysis, and application of a variety of haptic and teleoperated systems, particularly in robotics and consumer electronics. Mechanical Engineering 384R (Topic 9) and 397 (Topic: Haptic and Teleoperated Sys) may not both be counted.

ME 385J. Topics in Biomedical Engineering.

Three lecture hours a week for one semester, or as required by the topic. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in engineering and consent of instructor.

Topic 1: Cell and Tissue Anatomy and Physiology for Engineers. An overview of cellular biology, including functional cellular anatomy. DNA replication and the cell cycle, protein synthesis, membrane structure and function, energy metabolism, cellular homeostasis, and cell repair and death; and functional anatomy and physiology of the basic tissues.

Topic 2: Organ System Anatomy, Physiology, and Pathology for Engineers. The functional anatomy and physiology of the major human organ systems; representative pathologic disorders associated with these organs. An overview of general pathologic processes, with emphasis on the influences of normal and abnormal organ anatomy, physiology, and disease on the definition and solution of biomedical engineering problems. Two lecture hours and one three-hour laboratory a week for one semester. Additional prerequisite: Mechanical Engineering 385J (Topic 1) or the equivalent.

Topic 3: Bioelectric Phenomena. Examines the physiological bases of bioelectricity and the techniques required to record bioelectric phenomena both intracellularly and extracellularly, the representation of bioelectric activity by equivalent dipoles and the volume conductor fields produced.

Topic 5: Cardiovascular Dynamics. Anatomy, physiology, pathophysiology, and dynamics of the cardiovascular system, with emphasis on the design and application of electrical and mechanical devices for cardiac intervention.

Topic 10: Biomedical Application of Transport Phenomena. Investigates radioisotopic methods for biological transport, including theory and experiments. Investigates artificial organ systems with clinical laboratory experiments to augment theory presented in lectures.

Topic 11: Biomedical Engineering Hospital Interfaces. Students gain firsthand knowledge of the instrumentation, procedures, and organization of a modern hospital. Class sessions are held in the different clinical services and laboratories of the hospital.

Topic 12: Biomedical Heat Transfer. Heat transfer in biological tissue; determination of thermodynamic and transport properties of tissue; thermal effects of blood perfusion; cryobiology; numerical modeling methods; clinical applications. Additional prerequisite: Mechanical Engineering 339, Chemical Engineering 319 (or 353), or the equivalent; consent of instructor.

Topic 13: Molecular Recognition in Biology and Biotechnology. Topic 15: Biosignal Analysis. Theory and classification of biological signals such as EEG, EKG, and EMG. Data acquisition and analysis procedures for biological signals, including computer applications.

Topic 16: Laser-Tissue Interaction: Optical. The optical behavior of random media such as tissue in interaction with laser irradiation. Approximate transport equation methods to predict the absorption and scattering parameters of laser light inside tissue. Port-wine stain treatment; cancer treatment by photochemotherapy; and cardiovascular applications.

Topic 17: Biomedical Instrumentation II: Real-Time Computer-Based Systems. Design, testing, patient safety, electrical noise, biomedical measurement transducers, therapeutics, instrumentation electronics, and microcomputer interfaces. Several case studies are presented. Four structured laboratories and an individual project laboratory.

Topic 18: Biomedical Image Processing. Physical principles and signal processing techniques used in thermographic, ultrasonic, and radiographic imaging, including image reconstruction from projections such as CT scanning, MRI, and millimeter wave determination of temperature profiles. Additional prerequisite: Electrical Engineering 371R.

Topic 20: Network Thermodynamics in Biophysics. Modeling and simulation methods for nonlinear biological processes, including coupling across multidisciplinary domains; practical implementation by bond graph techniques. Additional prerequisite: Mechanical Engineering 344 or consent of instructor.

Topic 24: Rehabilitation Engineering. Same as Biomedical Engineering 384J (Topic 8). Explores use of robotic devices in physical therapy for neuromuscular injury. Clinicians lecture each week on a specific malady, followed by critical review of the literature of that malady from the perspective of rehabilitation engineering. Shadous therapists develop a prototype or a device for therapy, assistance or diagnosis of patients, or conduct an experiment to test a hypothesis in the field using a device. Three lecture hours a week for one semester. Only one of the following may be counted: Biomedical Engineering 381J (Topic: Rehabilitation Engineering), 384J (Topic 8), Mechanical Engineering 385J (Topic 24), 397 (Topic: Rehabilitation Engineering).

Topic 25: Therapeutic Heating. Engineering aspects of electromagnetic fields that have therapeutic applications: diathermy (short wave, microwave, and ultrasound), electrosurgery (thermal damage processes), stimulation of excitable tissue, and electrical safety.

Topic 26: The Biotechnology Revolution and Engineering Ethics. The history and status of genetic engineering; potential applications in medicine, agriculture, and industry; ethical and social issues surrounding the engineering of biological organisms; ethics in engineering practice in physical and biological realms.

Topic 27: Noninvasive Optical Tomography. Basic principles of optical tomographic imaging of biological materials for diagnostic or therapeutic applications. Optical-based tomographic imaging techniques including photothermal, photoacoustic, and coherent methodologies.

Topic 28: Transport Processes in Biological Systems. Introduction to engineering analysis of transport phenomena in living systems, including fluid flow, heat transfer, pharmacokinetics, and membrane fluxes with clinical applications.

Topic 29: Introduction to Biomechanics. Modeling and simulation of human movement; neuromuscular control; computer applications; introduction to experimental techniques. Three lecture hours and one laboratory hour a week for one semester.

Topic 30: Biomedical Instrumentation I. Application of electrical engineering techniques to analysis and instrumentation in biological sciences: pressure, flow, temperature measurement; bioelectrical signals; pacemakers; ultrasonics; electrical safety; electrotherapeutics.

Topic 31: Projects in Biomedical Engineering. An in-depth examination of selected topics, such as optical and thermal properties of laser interaction with tissue; measurement of perfusion in the microvascular system; diagnostic imaging; interaction of living systems with electromagnetic fields; robotic surgical tools; ophthalmic instrumentation; noninvasive cardiovascular measurements. Three lecture hours and six laboratory hours a week for one semester. Additional prerequisite: Mechanical Engineering 385J (Topic 31).

Topic 34: Rehabilitation Robotics and Engineering. Explores the use of robotic devices to support the strength of patients and therapists, quantitatively diagnose impairment, and augment function. Critically review the literature in rehabilitation engineering from both robotics and scientific perspectives. Students also shadow therapists and develop a prototype of a device for therapy, assistance or diagnosis of patients, or conduct an experiment to test a hypothesis in the field using a device.

Topic 35: Modeling and Simulation of Human Movement. Examine a synthesis of neuromusculoskeletal properties and interactions with the environment to construct detailed musculoskeletal models and computer simulations that allow for the investigation of various aspects of human movement. Explore a review of rigid-body dynamics, inverse and forward dynamic analyses, muscle physiology and models, musculoskeletal anthropometrics, muscle induced acceleration and segment power analyses, contact models, optimal control, muscle force distribution solutions, and simulation applications. Mechanical Engineering 385J (Topic 22) and 385J (Topic 36) may not both be counted. Additional prerequisite: An undergraduate dynamics course, an introductory biomechanics of human movement course, and a computer programming course.

M E 385M. Applied Thermodynamics. Restricted to Option III Mechanical Engineering Master’s degree students. Addresses the design and analysis of systems in which thermodynamic processes are central to function and performance. Reviews fundamental thermodynamic concepts, such as enthalpy, entropy, exergy, 1st & 2nd law, psychrometrics and combustion. Discusses practical topics, such as system-level thermodynamic processes for automotive engines, power plants, renewable energy production and HVAC systems. Gives real-world examples to cultivate skills of solving problems with basic knowledge of thermodynamics. Three lecture hours a week for one semester. Prerequisite: Graduate standing and admission to the Executive ME program.

M E 386M. Modeling, Simulation, and Control of Physical Systems. Restricted to Option III Mechanical Engineering Master’s degree students. Reviews principles used to understand and model physical systems and introduces methods for building mathematical and simulation models of engineering systems. Emphasis on the development of dynamic system models for predicting the behavior or performance of systems, models for efficient data reduction or test development, models for design, and the role of models in control development. Bond graph methods are introduced especially for analysis of systems having combinations of mechanical, electrical, magnetic, electromechanical, fluid, and thermodynamic effects. Covers the role and application of physical models in development and design of feedback controllers and estimation methods. Three lecture hours a week for one semester. Prerequisite: Graduate standing and admission to the Executive ME program.

M E 386P. Materials Science: Fundamentals. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

Topic 1: Introduction to Phase Transformations. Same as Materials Science and Engineering 386P (Topic 1). Basics of crystal structures and phase diagrams; diffusion; solidification; solid-state phase transformations. Mechanical Engineering 386P (Topic 1) and Materials Science and Engineering 386P (Topic 1) may not both be counted.

Topic 2: Mechanical Behavior of Materials. Same as Materials Science and Engineering 386P (Topic 2). Elastic deformation;
viscoelasticity; yielding, plastic flow, plastic instability; strengthening mechanisms; fracture, fatigue, creep; significance of mechanical properties tests. Microstructural mechanisms and macroscopic behavior of metals, polymers, ceramics, and composites. Mechanical Engineering 386P (Topic 2) and Materials Science and Engineering 386P (Topic 2) may not both be counted.

**Topic 3: Introduction to Thermodynamics of Materials.** Same as Materials Science and Engineering 386P (Topic 3). Thermodynamic properties; reactions and chemical equilibrium in gases; solutions, phase equilibria, phase diagrams, reaction equilibria; surfaces and interfaces; point defects in crystals. Mechanical Engineering 386P (Topic 3) and Materials Science and Engineering 386P (Topic 3) may not both be counted.

**Topic 4: Introduction to Solid-State Properties of Materials.** Same as Electrical and Computer Engineering 396V (Topic 5) and Materials Science and Engineering 386P (Topic 4). Introduction to the electronic, magnetic, and optical properties of materials. Solid-state properties of metals, semiconductors, and ceramics; fundamental concepts needed for the description of these properties, using an introductory-level description of the electronic structure of solids. Only one of the following may be counted: Electrical Engineering 396V (Topic 5), Electrical and Computer Engineering 396V (Topic 5), Mechanical Engineering 386P (Topic 4), Materials Science and Engineering 386P (Topic 4). Additional prerequisite: Graduate standing and consent of instructor.

**Topic 5: Structure of Materials.** Same as Materials Science and Engineering 386P (Topic 5). Essential crystallography of lattices and structures; symmetry; elements of diffraction and reciprocal lattices; point, line, and surface defects in crystals; crystalline interfaces; noncrystalline materials; polymers; glasses. Mechanical Engineering 386P (Topic 5) and Materials Science and Engineering 386P (Topic 5) may not both be counted.

**Topic 6: Kinetic Processes in Materials.** Review of irreversible thermodynamics and rate of entropy production to define the equilibrium state of a system; derivation of mathematical expressions to describe relaxation from a constrained state to equilibrium; diffusional processes in materials; calculation of diffusion coefficients from solid-state properties; dislocations and interfaces; kinetics of phase transformations.

**ME 386Q. Materials Science: Structure and Properties.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**Topic 1: Theory of Materials.** Periodic behavior and the periodic table; historical approach to the principles of crystal structure; complex alloy phases; some aspects of phase stability.

**Topic 2: Phase Diagrams.** Phase equilibria in materials systems; systematic treatment of unary, binary, and ternary phase diagrams.

**Topic 3: Fracture of Structural Materials.** Microscopic and macroscopic aspects of ductile and brittle fracture; fracture mechanisms and fracture prevention.

**Topic 4: Physical Metallurgy of Steels.** The iron-carbon system; transformations and structures of steels; properties of pearlite, bainite, and martensite; tempering; hardenability and the effect of alloying elements.

**Topic 7: Composite Materials.** The theory of structural composite materials; their physical and mechanical properties; processing associated with metal-ceramic-polymer composites. Additional prerequisite: Mechanical Engineering 260K (or 360K) or the equivalent, Mechanical Engineering 378K or the equivalent, or consent of instructor.

**Topic 9: Crystalline and Composite Anisotropy.** Mathematical analysis of anisotropic materials, including single crystals, laminate composites, and deformation-hardened metals. Topics include thermal and electrical conductivity, diffusivity, thermal expansion, elasticity, and yielding.

**Topic 10: High-Temperature Materials.** Theory and practice in use of materials for high-temperature structural applications; case-study considerations of actual problems and requirements; interactive process-microstructure-property relationships in materials development and applications of superalloys, intermetallics, composites, and ceramics; prospective trends.

**Topic 11: Electroceramics.** Bonding; crystal structures; defects; phase diagrams; glass ceramics; electrical, dielectric, magnetic, and optical ceramics.

**Topic 14: Electrochemical Energy Materials.** Electrochemical cells; principles of electrochemical power sources; materials for rechargeable and nonrechargeable batteries, fuel cells, and electrochemical capacitors.

**Topic 15: Computational Materials Science and Engineering.** Examine theory and a hands-on tutorial for atomistic modeling of materials. Mechanical Engineering 386Q (Topic 15) and 397 (Topic: Computatnl Matl Sci and Eng) may not both be counted.

**Topic 16: Application Perspectives of Nanotechnology.** Subjects include standard top-down and the state-of-the-art bottom-up nanofabrication, manipulation, and assembling techniques, commonly used characterization instruments; applications of nanomaterials in biochemical sensing based on electric, optical, magnetic and mechanical effects; flexible nanoelectronics; nanomanipulation and nanorobotics, applications of nanomaterials in Nanoelectromechanical System (NEMS) devices, bioMEMS, and microfluidics. Emphasis on oral and written scientific communication skills. Mechanical Engineering 386Q (Topic: Application Perspectives of Nanotechnology) and 386Q (Topic 16) may not both be counted. Additional prerequisite: Graduate standing and consent of instructor.

**Topic 17: Failure Analysis.** Introduction to methodology of analyzing failures of engineering parts and devices. Explores a broad range of analysis, but the focus is on understanding fractography and relating this back to material and mechanics relevant to failure to determine the likely root cause(s). Lectures are primarily based on case studies and are supplemented by two hands-on class projects, one performed individually and the other larger project performed as a team project. Three lecture hours a week for one semester. Mechanical Engineering 386Q.17 and 397 (Topic: Failure Analysis) may not both be counted. Additional prerequisite: Graduate standing.

**Topic 18: Advanced Numerical Methods: Theory and Practice.** Apply the theory behind numerical simulation, optimization of electrochemical engineering, and other engineering models described by nonlinear differential, differential-algebraic, and partial differential equations. Explore a self-contained, fundamental and practical approach to the theory, algorithm development, and implementation relevant to engineering systems, in particular for electrochemical systems, and batteries. Mechanical Engineering 386Q (Topic 18) and Mechanical Engineering 397 (Topic: Adv Numrl Mthds-Theor/Prac) may not both be counted.

**Topic 19: Nanotechnology for Sustainable Energy.** Explore an overview of emerging nanotechnology and how nanoscience can critically impact many energy technologies (from energy harvesting, conversion, to storage). Examine various types of energy devices covered, including solar cell, solar fuel, piezoelectrics, thermoelectrics, battery, supercapacitor, and fuel cell. Discuss basic device principles, current technology status, and new opportunities of nanotechnology for energy-related applications. Mechanical Engineering 386Q (Topic 19) and Mechanical Engineering 397 (Topic: Nanotech for Sustainbl Engr) may not both be counted.

**Topic 20: Polymer Nanocomposites.** Explore an overview of key technologies and processes in polymer nanocomposites. Examine a different property (structural, mechanical, thermal, flammability,
ablation, and electrical) and relevant commercial and industrial applications. Discuss examples for a wide variety of usage for spacecraft and defense vehicles, medical and dental implants, flame-retardant and conductive polymers for additive manufacturing, and fire-resistant woven and nonwoven fabrics. Mechanical Engineering 386Q (Topic 20) and Mechanical Engineering 397 (Topic: Polymer Nanocomposites) may not both be counted.

**Topic 23: Structural Ceramics.** Explore microstructure-mechanical property relationships in ceramics; principles of fracture mechanics, and static and dynamic fracture; static and cyclic fatigue; high-temperature behavior; strengthening and toughening mechanisms in monolithic ceramics; and particulate and fibrous ceramic composites. Mechanical Engineering 386Q (Topic 13) and 386Q (Topic 23) may not both be counted.

**M E 386R. Materials Science: Physical and Electronic Properties.**
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**Topic 1: Localized versus Itinerant Electrons in Solids.** Same as Electrical and Computer Engineering 396K (Topic 9). Description of electrons, from free atoms to crystals; band theory contrasted with crystal-field theory; evolution of electronic properties on passing from magnetic insulators to normal metals, from ionic to covalent solids, from single-valent compounds to mixed-valent systems; electron-lattice interactions and phase transitions; many examples. Only one of the following may be counted: Electrical and Computer Engineering 396K (Topic 9), Electrical Engineering 396K (Topic 9), Mechanical Engineering 386R (Topic 1). Additional prerequisite: A semester of quantum mechanics and a semester of solid-state science or technology.

**Topic 2: Localized-Electron Phenomena.** Same as Electrical and Computer Engineering 396K (Topic 17). Analysis of the variation in physical properties versus chemical composition of several groups of isostructural transition-metal compounds. Only one of the following may be counted: Electrical and Computer Engineering 396K (Topic 17), Electrical Engineering 396K (Topic 17), Mechanical Engineering 386R (Topic 2). Additional prerequisite: A semester of solid-state science and/or quantum mechanics.

**Topic 3: Transport Properties of Transition-Metal Oxides.** Electronic and ionic transport in transition-metal oxides as they relate to battery cathodes, solid oxide cells, spin electronics, thermistors, and high-temperature superconductors.

**Topic 4: Nanophotonics and Machine Learning.** Explore recent trend of applying artificial intelligence (AI) techniques, especially machine learning, to specific tasks which has revolutionized many research subjects in different fields. Examine the fundamentals of the most important concepts from both sides, such as deep neural networks that has been used to design and decode nanophotonic devices, and metasurfaces and photonic circuits that can perform optical computing. Mechanical Engineering 386R (Topic 4) and 397 (Topic: Nanophotonics/Machine Learning) may not both be counted.

**M E 386S. Materials Science: Microelectronics and Thin Films.**
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**Topic 1: Thin Films and Interfaces.** Application of thin films and interfaces in microelectronics; basic properties, deposition techniques, microstructures and defects, diffusion characteristics; materials reaction in thin films and at interfaces.

**Topic 2: Metallization and Packaging.** Technology requirements and trends, impact of device scaling, multilayered interconnect structures, Schottky and ohmic contacts, contact reactions, silicide properties and applications, electromigration, thermal/mechanical properties, reliability. Additional prerequisite: Mechanical Engineering 386S (Topic 1).

**M E 386T. Materials Science: The Design of Technical Materials.**
The process of designing a material for a specific engineering function as illustrated for various materials. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**Topic 1: Ionic Conductors.** Same as Electrical and Computer Engineering 396K (Topic 10). Only one of the following may be counted: Mechanical Engineering 386T (Topic 1), Electrical Engineering 396K (Topic 10), Electrical and Computer Engineering 396K (Topic 10).

**Topic 2: High-Temperature Superconductors.** Same as Electrical and Computer Engineering 396K (Topic 11). Only one of the following may be counted: Mechanical Engineering 386T (Topic 2), Electrical Engineering 396K (Topic 11), Electrical and Computer Engineering 396K (Topic 11).

**Topic 3: Catalytic Electrodes.** Same as Electrical and Computer Engineering 396K (Topic 12). Only one of the following may be counted: Mechanical Engineering 386T (Topic 3), Electrical and Computer Engineering 396K (Topic 12), Electrical Engineering 396K (Topic 12).

**Topic 4: Magnetic Materials.** Same as Electrical and Computer Engineering 396K (Topic 13). Only one of the following may be counted: Electrical and Computer Engineering 396K (Topic 13), Electrical Engineering 396K (Topic 13), Mechanical Engineering 386T (Topic 4).

**Topic 5: Battery Systems Engineering.** Explore the development of models and algorithms to analyze, optimize, and improve the performance of batteries. Discuss the mathematical formulation for predicting the performance of batteries using physics-based models. Examine a self-contained, fundamental approach to modeling, analysis, operation, and control of batteries. Mechanical Engineering 386T (Topic 5) and 397 (Topic: Battery Systems Engineering) may not both be counted.

**M E 387M. Applied Dynamics and Feedback Control.**
Restricted to Option III Mechanical Engineering Master’s degree students. Provides advanced tools for describing and controlling the motion of dynamical systems. Studies how to apply Newton’s Second Law as well as Lagrange’s equations to find equations of motion. Emphasis on rigid body dynamics as well as motion constraints arising in complex systems. Examines fundamental concepts in both the time and frequency domains to develop feedback controllers and thus advance from open loop simulation of dynamic systems to closed loop control. Introduces common control strategies and tools for designing and testing control systems. Uses MATLAB extensively throughout the course, and emphasizes applications to realistic systems, simulations and numerical solutions. Three lecture hours a week for one semester. Prerequisite: Graduate standing and admission to the Executive ME program.

**M E 387Q. Materials Science: Thermodynamics and Kinetics.**
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**Topic 1: Diffusion in Solids.** Atomic mechanisms and phenomenological basis for transport by diffusion.
**Topic 2: Kinetics and Phase Transformations.** Nucleation and growth, spinodal decomposition, transformations in alloy systems.

**Topic 3: Solidification.** Liquid to solid transformations in pure materials, alloys and eutectics; applications such as zone refining, composites, and castings.

**Topic 4: Corrosion.** Electrode kinetics and the theory of polarization, passivity, galvanic coupling, and high temperature oxidation.

**Topic 5: Thermodynamics of Materials.** First and second laws, fugacity, activity, chemical equilibrium, phase diagrams, and introductory statistical concepts.

**Topic 6: Statistical Thermodynamics of Materials.** Quantum mechanics applied to partition functions of condensed and gaseous phases; chemical equilibria; phase transitions; and lattice statistics including the Ising model.

**Topic 7: Group Theory and Phase Transformations.** Symmetry principles and the associated mathematics applied to the description of condensed phases and their transformations.

**M E 387R. Materials Science: Experimental Techniques.**

Three lecture hours a week for one semester. Some topics may require additional laboratory hours; these are identified in the Course Schedule. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**Topic 1: Nondestructive Testing.** Acoustic emission, ultrasonic, eddy current, dye penetrant, and magnetic methods.

**Topic 5: Materials Characterization Techniques.** Classification and selection of characterization techniques: principles and applications of diffraction, spectroscopic, quantitative chemical analysis, thermal analysis, and transport and magnetic measurement techniques.

**Topic 7: Scanning Electron Microscopy.** Theory and practice of scanning electron microscopy; image formation, elemental analysis, sample preparation, and electron-sample interactions. Three lecture hours and two laboratory hours a week for one semester.

**Topic 8: Practical Electron Microscopy.** Principles, operation, and techniques of transmission electron microscopy; acquiring and interpreting imaging, diffraction, and spectroscopy information; and hands-on experience with a transmission electron microscope. Three lecture hours and three laboratory hours a week for one semester.

**Topic 9: Advanced Methods for Surface Analysis.** Restricted to materials science and engineering or mechanical engineering students. Examine the principles and operation of X-ray photoelectron spectroscopy (XPS) and atomic force microscopy (AFM). Explore state-of-the-art methods for acquiring, processing and interpreting the analytical results. Perform hands-on experiments on XPS and AFM followed by data evaluation and interpretation. Mechanical Engineering 387R (Topic 9) and 397 (Topic: Adv Mthds for Srfc Analys) may not both be counted.

**M E 387S. Materials Processing.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**Topic 2: Processing of Materials.** Principles, advantages, and problems of solid, liquid, and vapor materials processes; considerations of structural alloys, ceramics, engineering polymers, and composites.

**Topic 3: Powder Processing.** Synthesis of powders, powder characterization, powder stabilization, consolidation of powders, sintering, densification, and grain growth.

**M E 388C. Nuclear Power Engineering.**

Fundamental principles of the design and analysis of nuclear systems; introduction to the physics of nuclear reactions, chain reactions, and nuclear energy generation; heat generation and conduction within nuclear systems; heat transfer and fluid flow in nuclear systems; the thermodynamics of nuclear power; the nuclear fuel cycle; and issues related to the materials aspect of reactor engineering. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

**M E 388D. Nuclear Reactor Theory I.**

Principle concepts in the physics of nuclear systems, including radiation, radioactive decay, and the buildup and depletion of isotopes in nuclear systems; neutron-nucleus interactions and nuclear cross sections; transport or radiation using one-group and two-group diffusion theory; and concepts of criticality and time dependent reactors. Three lecture hours a week for one semester. Prerequisite: Graduate standing, and Mechanical Engineering 361E or the equivalent.

**M E 388E. Nuclear Reactor Theory II.**

Neutron-nucleus interactions and nuclear cross section calculations; transport of radiation using neutron transport theory and multigroup diffusion theory; heterogeneous reactor calculations; the kinetics of nuclear systems; perturbation theory; and the nuclear fuel cycle. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

**M E 388F. Computational Methods in Radiation Transport.**

Transport equation, Monte Carlo method, energy and time discretization, discrete ordinates, integral methods, and even-parity methods. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

**M E 388G. Nuclear Radiation Shielding.**

Radiation fields/sources; techniques in neutron and photon attenuation; transport description of radiation penetration. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

**M E 388J. Neutron Interactions and Their Applications in Nuclear Science and Engineering.**

The fundamental principles of neutron interactions with matter and how these interactions are used in a variety of science and engineering research areas. Includes the history of neutron research, fundamental principles, dosimetry, depth profile, radiography, activation analysis, detection, homeland security, and scattering, with a significant emphasis placed on experimental design of these neutron techniques. Three lecture hours a week for one semester. Mechanical Engineering 388J and 397 (Topic: Neutron Interactions and Their Applications in Nuclear Science and Engineering) may not both be counted. Prerequisite: Graduate standing.

**M E 388M. Mathematical Methods for Nuclear and Radiation Engineering.**

Fundamental mathematics used in graduate studies in nuclear and radiation engineering. Topics include statistics, experimental data, propagation of error, detection limits, and differential and partial differential equations. Three lecture hours a week for one semester. Prerequisite: Graduate standing.
Integration of fluid mechanics, heat transfer, thermomechanics, and thermodynamics with reactor theory for core design. Three lecture hours a week for one semester. Prerequisite: Graduate standing, and Mechanical Engineering 361E or the equivalent.

M E 388P. Applied Nuclear Physics.
Properties of the nucleus and its structure; binding energy and nuclear stability, and the liquid drop model of the nucleus; the shell model of the nucleus; deuteron bound-state wave function and energy, n-p scattering cross section, transition probability per unit time, and barrier transmission probability; nuclear conservation laws; the energetics and general cross section behavior in nuclear reactions; interactions of charged particles, neutrons, and gamma rays with matter; and alpha, beta, and gamma decay. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

Facilitates presentations on research topics in nuclear and radiation engineering outside any research with techniques in proposal writing; or specialized laboratory courses. Three lecture hours a week for one semester. Mechanical Engineering 388S and 397 (Topic: Modern Trends in Nuclear and Radiation Engineering) may not both be counted. Prerequisite: Graduate standing.

M E 389C. Nuclear Environmental Protection.
Ionizing radiation and its interactions with matter and living tissues; radioactive decay kinetics; external and internal dose measurement; transportation through the environment; managing radioactive waste streams; and safeguards. Three lecture hours a week for one semester. Mechanical Engineering 337F and 389C may not both be counted. Prerequisite: Graduate standing.

A survey of the nuclear fuel cycle, including resource acquisition, fuel enrichment and fabrication, spent fuel reprocessing and repository disposal. Nuclear fuel management and reactor physics are addressed in the context of fuel burn-up calculations. Uses cross-disciplinary tools such as cost-benefit and environmental impact analyses. Includes fuel cycles currently in use, advanced fuel cycle concepts currently being presented in the technical literature, and a group project designed to research, analyze, and document the technical, economic, and/or environmental ramifications of one of these advanced fuel cycles. Three lecture hours a week for one semester. Mechanical Engineering 389F and 397 (Topic: The Nuclear Fuel Cycle) may not both be counted. Prerequisite: Graduate standing.

M E 389M. Materials Processing.
Restricted to Option III Mechanical Engineering Master's degree students. Explores the principles, advantages, and problems of solid, liquid, and vapor materials processes. Studies the considerations of structural alloys, ceramics, engineering polymers, and composites. Three lecture hours a week for one semester. Prerequisite: Graduate standing and admission to the Executive ME program.

Synthesis of engineering concepts, materials specifications, and economics in the design of nuclear systems. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, and Mechanical Engineering 361E or the equivalent.

Fundamentals of ground vehicle dynamics, tire-road mechanics, vehicle control systems, vehicle stability, and simulation of vehicle systems. Three lecture hours a week for one semester. Only one of the following may be counted: Mechanical Engineering 360, 379M (Topic: Vehicle System Dynamics and Controls), 390, 397 (Topic: Vehicle System Dynamics and Controls). Prerequisite: Graduate standing.

M E 390C. Cyber Vehicle Systems.
Study of the engineering principles of autonomous mobile robots. Subjects include understanding the dynamics of vehicle systems, and the principles and practical implementation of sensing, actuation, and control. Emphasis will be given to providing practical laboratory study of these subjects using mobile robot platforms, and the use of the commercial software package LabVIEW for programming of real-time data acquisition and control targets. Simulation studies may also be conducted in LabVIEW and/or the Matlab environment; some proficiency in use of both of these software packages is expected. Three lecture hours a week for one semester. Only one of the following may be counted: Mechanical Engineering 360, 379M (Topic: Cyber Vehicle Systems), 390C, 397 (Topic: Cyber Vehicle Systems). Prerequisite: Graduate standing.

M E 390F. Nuclear Analysis Techniques.
Thermal and fast neutron activation, scintillation and solid-state detectors, beta and gamma spectrometry, coincidence techniques. Two lecture hours and one and one-half laboratory hours a week for one semester. Prerequisite: Graduate standing.

M E 390G. Nuclear Engineering Laboratory.
Experiments using the TRIGA reactor and a subcritical assembly; measurement of reactor characteristics and operational parameters. Two lecture hours and one and one-half laboratory hours a week for one semester. Prerequisite: Graduate standing.

M E 390M. The Enterprise of Technology.
Restricted to Option III Mechanical Engineering Master's degree students. Uses early stage technologies to create new and original commercialization plans which include the best first market, establishing technology features in that market, and estimated benefits and costs to deliver a future product to a customer. Includes in-person market research, a written semester journal, and engagement with multiple projects. Reviews later stages of technology entrepreneurship; includes forming a new company, building a business plan, building a team, getting funding, and scale up to manufacturing. Emphasis on gaining proficient knowledge on intellectual property protection and strategy, and the steps and processes necessary to the successful design and manufacture of a product or service. Three lecture hours a week for one semester. Prerequisite: Graduate standing and admission to the Executive ME program.

M E 390N. Health Physics Laboratory.
The application of radiation and radiation protection instrumentation. Includes personnel monitoring; radiation detection systems; gamma-ray spectroscopy; determination of environmental radiation; counting statistics; and gamma and neutron shielding. One lecture hour and three laboratory hours a week for one semester. Prerequisite: Graduate standing.

M E 390T. Nuclear and Radiochemistry.
Theory and application of nuclear and radiochemistry, including alpha, beta, and gamma ray processes; fission products; statistics; solvent extraction; absorption and teaching techniques; various counting
methods; and radiation protection. One lecture hour and three laboratory hours a week for one semester. Prerequisite: Graduate standing.

M E 391M. Introduction to Manufacturing Systems. Restricted to Option III Mechanical Engineering Master’s degree students. With an emphasis on continuous flow manufacturing, provides the knowledge and skill set to analyze and design production systems to decrease manufacturing costs, decrease defects, and shorten delivery time by reducing process cycle times. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

M E 391R. Artificial Intelligence Programming for Engineers. Provides a working knowledge of LISP and compares it with PROLOG; use of the Texas Instruments Explorer, and artificial intelligence techniques applied to engineering problems. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

M E 392C. Design Optimization and Automation. Optimization in mechanical design, including monotonicity analysis, gradient-based constrained optimization, tree-searching, and stochastic approaches. Three lecture hours a week for one semester. Prerequisite: Graduate standing and proficiency in C or MATLAB.

M E 392G. Computer Graphics and Computer-Aided Design. Studies in computer graphics and its application to design. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

**Topic 1: Introduction to Computer Graphics.** Two- and three-dimensional transformations, projections, and the graphics pipeline; fundamental algorithms for wire frame and hidden surface image generation; interactive techniques, geometric modeling, and realistic rendering using a standard graphics library. Additional prerequisite: Proficiency in C or C++.

**Topic 2: Computer-Aided Geometric Design.** Introduction to techniques for representing geometry for computer-aided engineering design. Two- and three-dimensional curve formulations, techniques from algebraic and vector geometry, implicit versus parametric definitions; and free-form surface formulation and solid modeling. Additional prerequisite: Proficiency in C or C++.

**Topic 3: Advanced Computer-Aided Design Applications.** Hardware and software for computer-aided design systems. Display devices, multidimensional graphics, optimization, use of artificial intelligence.

**Topic 4: Advanced Topics in Computer-Aided Design.** Detailed execution of an independent computer-aided design project. Projects require significant development and emphasize application of techniques from computer-aided engineering and interactive computer graphics. Lectures deal with the subject matter of the projects. Additional prerequisite: Mechanical Engineering 352K, 392G (Topic 1), or 392G (Topic 2); and consent of instructor.

M E 392M. Advanced Mechanical Design. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**Topic 1: Analytical Techniques in Mechanical Design.** Analytical techniques and some computational techniques for the advanced stress and strength analysis of machine components and mechanical structures.

**Topic 3: Advanced Design of Machine Elements.** Review of basic machine elements, properties, and stresses; fluid couplings and torque converters; thermal stresses, relaxation, and beneficial residual stressing; shells and rotors; plasticity.

M E 392Q. Manufacturing.

Topics that cut across departmental concentrations (mechanical systems and design, metallurgy and materials engineering, operations research and industrial engineering), including design for manufacturing, manufacturing machines and manufacturing processing, and production systems. Three lecture hours a week for one semester; additional laboratory hours may be required for some topics. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

**Topic 1: Introduction to Manufacturing Systems.** Analysis and design of production systems to decrease manufacturing costs, decrease defects, and shorten delivery time by reducing process cycle times. Emphasis is on continuous flow manufacturing. Additional prerequisite: A basic understanding of statistics.

**Topic 2: Computer Fundamentals for Manufacturing Systems.** Computer graphics, computer-aided design, direct numerical control, relationship between computer-aided design and manufacturing.

**Topic 4: Automation and Integration of Manufacturing Systems.** Integration of automated manufacturing components into a cohesive manufacturing system. Selection of automation strategy, communication and interaction between system components, economics and reliability of the resulting systems.

**Topic 6: Mechatronics.** Integrated use of mechanical, electrical, and computer systems for information processing and control of
machines and devices. System modeling, electromechanics, sensors and actuators, basic electronics design, signal processing and conditioning, noise and its abatement, grounding and shielding, filters, and system interfacing techniques. Three lecture hours and two laboratory hours a week for one semester.

**Topic 7: Microcomputer Programming and Interfacing.** Microcomputer architecture and programming; microcomputer system analysis; interfacing and digital control.

**Topic 9: Mechatronics II.** Interfacing microcomputers with sensors and actuators; hybrid (analogue/digital) design; digital logic and analog circuitry; data acquisition and control; microcomputer architecture, assembly language programming; signal conditioning, filters, analog-to-digital and digital-to-analog conversion. Three lecture hours and two laboratory hours a week for one semester.

**Topic 10: Statistical Methods in Manufacturing.** Same as Operations Research and Industrial Engineering 390Q (Topic 7: Statistical Methods in Manufacturing). Statistical monitoring of manufacturing processes; methods and applications of various control charts; formal design of experiments (DOE), including the statistical evaluation of main and interaction effects, as well as intelligent experimentation through reduced factorial experimental design; Taguchi’s design philosophy as applied to response surface methods and gradient-based search techniques; and advanced issues in quality control and design of manufacturing systems. Additional prerequisite: Knowledge of basic probability and statistics and consent of instructor.

**Topic 11: High Throughput Nanopatterning.** Introduction to the basic tools and materials involved in the patterning processes needed to create nano-scale structures and functional materials and discusses the relevance of these processes to applications in the electronics, display, and energy industries. Examine industry and research roadmaps that provide relevant metrics and timelines for fabrication, materials, nano-enabled components and devices. Explore novel nano-enabled components and devices using relevant computational modeling and simulation tools. Mechanical Engineering 392Q (Topic 11) and 397 (Topic: High Throughput Nanopatterning) may not both be counted.

**Topic 12: Additive Manufacturing.** Explore, compare, and contrast the major categories of additive manufacturing processes and examine their impact on the design of engineered parts. Mechanical Engineering 392Q (Topic 12) and Mechanical Engineering 397 (Topic: Additive Manufacturing) may not both be counted.

**M E 393M. Engineering Design Innovation.**

Restricted to Option III Mechanical Engineering Master’s degree students. Focuses on design methodology that includes a survey of current research in areas in design theory and methodology. Studies the tools used for solving engineering system designs and synthesis problems for application in a reverse engineering and redesign project. Three lecture hours a week for one semester. Prerequisite: Graduate standing and admission to the Executive ME program.

**M E 394M. Topics in Mechanical Engineering.**

Restricted to Option III Mechanical Engineering Master’s degree students. Topics in Engineering. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and admission to the Executive ME program.

**M E 395. The Enterprise of Technology.**

Studies the basis for assessing emerging technologies. Describes the process of technology commercialization, including identifying marketable technologies, defining products, and matching products to markets. Also studies intellectual property protection and strategy, and the steps and processes necessary to the successful design and manufacture of a product or service. Three lecture hours a week for one semester. Mechanical Engineering 395 and 397 (Topic: Enterprise of Technology: Laboratory to Market) may not both be counted. Prerequisite: Graduate standing.

**M E 395M. Engineering Design and Innovation with Product Design.**

Restricted to students in the Executive ME program. Focuses on design methodology that includes a survey of current research in areas in design theory and methodology. Designed to help students acquire tools for solving engineering system designs and synthesis problems which they can apply in a reverse engineering and redesign project. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

**M E 396D. Decision and Control of Human-Centered Robots.**

Geared toward students who would like to use Python for their engineering careers with a focus on sharing and development of open source software applications. Emphasis on the important areas of system modeling, simulation, data analysis, and software/data management. Students create mini-projects in Python where they apply basic knowledge on software design and organization, debugging, open source practices, and data visualization. It is expected that students have some experience in programming and would like to advance to the next level. Three lecture hours a week for one semester. Aerospace Engineering 381P (Topic 13) and Mechanical Engineering 396D may not both be counted. Prerequisite: Graduate standing and consent of the graduate adviser.

**M E 396M. Materials Science and Engineering.**

Restricted to students in the Executive ME program. An exploration of the fundamental aspects of the relationships between processing, structure, properties and performance of engineering materials. Exploration of metals, ceramics, polymers, and composites. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

**M E 396P. Application Programming for Engineers.**

Designed for students who have some experience in programming and are interested in the sharing and development of open source software applications. Provides an introduction to the Python programming language, an open source, flexible, and intuitive debug programming language, with an emphasis on system modeling, simulation, data analysis, and software/data management. Emphasis on the important areas of system modeling, simulation, data analysis, and software/data management. Students create mini-projects in Python that demonstrate software design and organization, debugging, open source practices, and data visualization. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

**M E 397. Current Studies in Engineering.**

The equivalent of three class hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**Topic 8: Energy and the Environment.** Additional prerequisite: Consent of instructor.

**M E 197K, 297K, 397K. Graduate Seminar.**

For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

**Topic 1: Acoustics Seminar.** Offered on the credit/no credit basis only.

**Topic 2: Advanced Thermal/Fluid Seminar.** Offered on the credit/no credit basis only.

**Topic 3: Materials Engineering.** Offered on the credit/no credit basis only.

**Topic 4: Mechanical Systems and Design.** Offered on the credit/no credit basis only.
Topic 5: Nuclear Engineering. Offered on the credit/no credit basis only.

Topic 6: Introductory Thermal/Fluid Seminar. Offered on the credit/no credit basis only.

M E 397M. Graduate Research Internship.
Research associated with enrollment in the Graduate Research Internship Program (GRIP). Three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor and the dean of the Cockrell School of Engineering.

Independent project carried out under the supervision of a mechanical engineering faculty member. Three, six, or nine laboratory hours a week for one semester. Prerequisite: Graduate standing and consent of instructor and the graduate advisor.

The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in mechanical engineering and consent of the graduate adviser; for 698B, Mechanical Engineering 698A.

M E 398M. Introduction to Automatic Control.
Restricted to students in the Executive ME program. Gain a basic intuition for and understanding of linear feedback systems and develop the mathematical tools to understand the basics of design and analysis of single-input single-output feedback control systems. Builds on the system modeling skills developed in previous courses in order to better understand how to control a system's behavior. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

Mentored teaching experience completed by arrangement with the instructor of record for an undergraduate engineering course. May be completed in the same semester as a Teaching Assistant or Assistant Instructor assignment with additional responsibilities. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Mechanical Engineering 397 (Topic: Curriculum Design in Engineering) and 397 (Topic: Teaching Engineering) or equivalent; and admission to the Graduate Certificate in Engineering Education Program; and consent of the graduate adviser.

M E 197Q, 398Q. Teaching Portfolio Preparation.
Project course for students completing the Graduate Certificate in Engineering Education Program to prepare a portfolio highlighting their teaching qualifications and experiences. Not recommended for students with limited teaching experience or students who are within a few years of applying for full-time employment. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Consent of the graduate adviser.

M E 398R. Master’s Report.
Preparation of a report to fulfill the requirement for the master’s degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in mechanical engineering and consent of the graduate adviser.

M E 398S. Assessment and Curriculum Design in Engineering.
Develop curriculum design skills in preparation for engineering faculty positions, including writing learning outcomes, assessing student learning and aligning expectations to activities and outcomes. Assessment is framed as an integrated part of course design, considers the strengths and weaknesses of a variety of quantitative and qualitative assessment strategies. Practice engineering course design and learn important considerations in coordinating department or college resources in preparation for an ABET engineering accreditation review. Three lecture hours a week for one semester. Mechanical Engineering 397 (Topic: Assess & Curric Design in Engr) and 398S may not both be counted. Prerequisite: Graduate standing.

M E 398T. Supervised Teaching in Mechanical Engineering.
Application of learning and motivation theories to learning in engineering contexts. Practice teaching in nontraditional formats. Preparation of a teaching philosophy. Teaching under close supervision, group meetings or individual consultations, and reports as required. Three lecture hours a week for one semester. Prerequisite: Graduate standing and appointment as a teaching assistant.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses

Military Science: M S

Lower-Division Courses

M S 000. Leadership Laboratory.
Open only to students in associated military science courses. Leadership responsibilities for planning, coordination, execution, and evaluation of training and other activities. Self-confidence and team-building leadership skills that can be applied throughout life. One and one-half laboratory hours a week for one semester. Required of all military science students. Prerequisite: Concurrent enrollment in another military science course.

M S 304. American Military History: 1775 to Present.
Covers development of American Profession of Arms from a "dual military tradition" evaluating military leadership at the tactical, operational, and strategic levels of war. Explores ways in which Industrial Revolution transformed the United States and other societies organized armed violence. Three lecture hours a week for one semester.

M S 209. Basic Military Science I-A.
Two lecture hours and three laboratory hours a week for one semester Military Science 101, 201 and 209 may not both be counted. Prerequisite: Concurrent Enrollment in Military Science 000.

M S 209K. Basic Military Science I-B.
Two lecture hours and three laboratory hours a week for one semester Military Science 103, 203 and 209K may not both be counted. Prerequisite: Concurrent enrollment in Military Science 000.

M S 219. Basic Military Science II-A.
Two lecture hours and three laboratory hours a week for one semester. Military Science 210 and 219 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Concurrent enrollment in Military Science 000.
M S 219K. Basic Military Science II-B.
Two lecture hours and three laboratory hours a week for one semester. Military Science 212 and 219K may not both be counted. Offered on the letter-grade basis only. Prerequisite: Concurrent enrollment in Military Science 000.

Upper-Division Courses
M S 329. Advanced Military Science III-A.
Three lecture hours a week for one semester. Military Science 320 and 329 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Concurrent enrollment in Military Science 000 and approval of departmental representative.

M S 329K. Advanced Military Science III-B.
Three lecture hours and three laboratory hours a week for one semester. Military Science 320K and 329K may not both be counted. Offered on the letter-grade basis only. Prerequisite: Concurrent enrollment in Military Science 000 and approval of departmental representative.

M S 339. Advanced Military Science IV-A.
Three lecture hours and two laboratory hours a week for one semester. Military Science 339 and 375 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Concurrent enrollment in Military Science 000 and approval of departmental representative.

M S 339K. Advanced Military Science IV-B.
Three lecture hours a week for one semester. Military Science 339K and 375K may not both be counted. Offered on the letter-grade basis only. Prerequisite: Concurrent enrollment in Military Science 000 and approval of departmental representative.

M S 379. Advanced Military Science V-A.
Advanced study of planning, executing, and assessing complex operations. Composed primarily of independent study, cadets are given opportunities to plan and execute events, assess risk, make ethical decisions, and lead fellow ROTC cadets. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Concurrent enrollment in Military Science 000.

M S 379K. Advanced Military Science V-B.
Advanced study of planning, executing, and assessing complex operations. Composed primarily of independent study, cadets are given opportunities to plan and execute events, assess risk, make ethical decisions, and lead fellow ROTC cadets. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Concurrent enrollment in Military Science 000.

Graduate Courses
Professional Courses
MAL - Malayalam

Malayalam: MAL

Lower-Division Courses
MAL 506. First-Year Malayalam I.
Standard Malayalam of Kerala. Five class hours a week for one semester.

MAL 507. First-Year Malayalam II.
Five class hours a week for one semester. Prerequisite: Malayalam 506 with a grade of at least C.

MAL 312K. Second-Year Malayalam I.
Three lecture hours a week for one semester. Prerequisite: Malayalam 507 with a grade of at least C.

MAL 312L. Second-Year Malayalam II.
Three lecture hours a week for one semester. Prerequisite: Malayalam 312K with a grade of at least C.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Asian Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser for the Department of Asian Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

MAL 330. Topics in Malayalam Language and Literature.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Malayalam 312L with a grade of at least C.

MAL 330E. Modern Malayalam Drama.
Focus on 20th-century drama and plays in Malayalam. Examine both the text of the play and its status as socially relevant art, to develop an overview of theatre movements in Malayalam literature and Kerala society. Engage through speaking, listening, reading, and writing. Three lecture hours a week for one semester. Malayalam 330 (Topic: Contemp Malayalam Drama) and 330E may not both be counted. Prerequisite: Malayalam 312L with a grade of at least C.

MAL 360. Conference Course in Malayalam Language and Literature.
Supervised individual study of selected problems in Malayalam language or literature. Conference course. May be repeated for credit. Prerequisite: Malayalam 312L and written consent of instructor on form obtained from the undergraduate adviser.

Graduate Courses
MAL 381. Conference Course in Malayalam Language and Culture.
Supervised individual study in Malayalam language or culture. The equivalent of three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and written consent of instructor on form obtained from the graduate coordinator.

MAL 384. Topics in Malayalam Language and Culture.
Study of various aspects and periods of Malayalam language and culture. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, and six
semester hours of upper-division coursework in Malayalam or consent of instructor.

**Topic 1: Contemporary Malayalam Short Stories.** Focus on Malayalam short stories from mainstream writers in modern Malayalam to explore contemporary Malayalam literature. Engage through speaking, listening, reading, and writing.

**Topic 2: Malayalam Cinema and Screenplays.** Focus on reading Malayalam screenplays to develop speaking and listening proficiency with conversational Malayalam. Explore commonly-used proverbs and idioms. Engage through speaking, listening, reading, and writing.

**Topic 3: Modern Malayalam Drama.** Focus on 20th-century drama plays in Malayalam. Examine both the text of the play and its status as socially relevant art, to develop an overview of theatre movements in Malayalam literature and Kerala society. Engage through speaking, listening, reading, and writing.

**Topic 4: Short Novels of Basheer.** Consider two short novels by Vaikom Muhammad Basheer, a beloved author and Indian independence activist. Explore how Basheer's works and unique style are foundational in the field of Malayalam language and literature. Engage through speaking, listening, reading, and writing.

**Topic 5: Reform Movements in Kerala.** Focus on social change movements in Kerala in the nineteenth and twentieth centuries, through the examination of primary and secondary sources in Malayalam. Explore prose style as well as reform movements in Kerala. Engage through speaking, listening, reading, and writing.

**Topic 6: Stories from Aithihyamala.** Examine selected stories from Aithihyamala (Garland of Legends) by Kottarathil Sankunni, a collection of tales and legends from Kerala, to develop vocabulary and language proficiency as well as an understanding of the traditional views, practices, and traditions of Kerala. Engage through speaking, listening, reading, and writing.

**Professional Courses**

**MAN - Management**

**Management Lower-Division Courses**

**MAN 101H, 201H, 301H. Leadership Challenges and Innovation: Honors.**

Restricted to students admitted to the McCombs School of Business Honors Program. Introduction to key factors in organizational success, including the roles of leadership and culture, the value of a diverse workforce and an inclusive environment, and the importance of creativity and innovation. One discussion hour a week for one semester and, for each semester hour of credit earned, the equivalent of one lecture hour. Only one of the following may be counted: Management 101H, 201H, 301H, 101S, 201S, 301S, 101T, 201T, 301T. Offered on the letter-grade basis only.

**MAN 101S, 201S, 301S. Leadership Challenges and Innovation.**

Restricted to freshmen students in the McCombs School of Business. Introduction to key factors in organizational success, including the roles of leadership and culture, the value of a diverse workforce and an inclusive environment, and the importance of creativity and innovation. One discussion hour a week for one semester and, for each semester hour of credit earned, the equivalent of one lecture hour. Only one of the following may be counted: Management 101H, 201H, 301H, 101S, 201S, 301S, 101T, 201T, 301T. Offered on the letter-grade basis only.

**MAN 101T, 201T, 301T. Leadership Challenges and Innovation.**

Restricted to transfer students in the McCombs School of Business. Introduction to key factors in organizational success, including the roles of leadership and culture, the value of a diverse workforce and an inclusive environment, and the importance of creativity and innovation. One discussion hour a week for one semester and, for each semester hour of credit earned, the equivalent of one lecture hour. Only one of the following may be counted: Management 101H, 201H, 301H, 101S, 201S, 301S, 101T, 201T, 301T. Offered on the letter-grade basis only.

**Upper-Division Courses**

**MAN 300F. Foundations of Management and Organizational Behavior.**

Restricted to non-McCombs School of Business majors. An introduction to the management of organizations. Issues are addressed from the perspectives of strategy and planning, organizational behavior, and operations management. Three lecture hours a week for one semester. Only one of the following may be counted: Management 300F, 336 and 336H. Prerequisite: Forty-five semester hours of college coursework.

**MAN 325. Strategic Human Resources Management.**

Same as Human Dimensions of Organizations 325. Restricted to students in a business major. Overview of the personnel function, covering recruitment, compensation, equal employment, job analysis, training, benefits, employee discipline, collective bargaining, safety, and health. Three lecture hours a week for one semester. Human Dimensions of Organizations 325 and Management 325 may not both be counted. Prerequisite: Credit or registration for Human Dimensions of Organizations 310, 320, Management 334M, 336, or 336H.

**MAN 327. Innovation and Entrepreneurship.**

Explores the theoretical foundations and research evidence underlying innovation and entrepreneurship. Subjects include discovering and creating new sources of value, recognizing and evaluating opportunities, generating business models, engaging stakeholders, shaping markets, and competing against larger competitors and entrenched institutions. Three lecture hours a week for one semester. Management 327 and 327H may not both be counted. Offered on the letter-grade basis only. Prerequisite: Twenty-four semester hours of college credit.

**MAN 327E. New Venture Mechanics.**

Starting up a new venture involves a wide range of decisions, activities, and processes such as those involved in identifying the potential of an idea, developing and protecting an idea, building a new venture team, creating a business plan, obtaining resources, and establishing a business entity. Covers the basic analytical tools and processes involved in all these aspects of founding a new business. Three lecture hours a week for one semester. Management 327E and 337 (Topic: New Venture Mechanics) may not both be counted. Offered on the letter-grade basis only. Prerequisite: Management 327 or 327H; twenty-four semester hours of college credit.

**MAN 327H. Innovation and Entrepreneurship: Honors.**

Restricted to students admitted to the McCombs School of Business Honors Program. Examines the knowledge and skills used to discover and create new sources of value, develop ideas into viable businesses, recognize and shape opportunities, generate new business models, engage with the ecosystem of new ventures, launch new businesses, and manage an innovation portfolio. Draws on various theoretical foundations, research evidence, and business cases to develop an understanding of effectiveness in entrepreneurship and innovation. Three lecture hours a week for one semester. Management 327 and 327H may not both be counted. Offered on the letter-grade basis only.
Prerequisite: Twenty-four semester hours of college credit, including Mathematics 408D, 408L, or 408S and credit or registration for Business Administration 324H.

Restricted to students in a business major. Designed to develop the fundamental change knowledge and consulting skills of students who plan to work with organizations as change agents, whether internally as managerial employees or externally as outside consultants. Three lecture hours a week for one semester. Prerequisite: Management 336 or 336H with a grade of at least C-.

MAN 334M. Healthcare System Management.
Introduction to the business ecosystem of the U.S. healthcare industry using a multi-disciplinary approach to investigate business structures, processes, and outcomes of health services in America. Explores the functionality of various healthcare components. Three lecture hours a week for one semester. Management 334M and 337 (Topic: Healthcare System Management) may not both be counted. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

MAN 336. Organizational Behavior.
Restricted to students in the McCombs School of Business. The process of managing organizations and the behavior of individuals and groups within the organizational setting. Three lecture hours a week for one semester. Only one of the following may be counted: Management 320F, 336 and 336H. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Business Administration 324 or 324H; and credit or registration for three semester hours of coursework in anthropology, psychology, sociology, or educational psychology, or Social Science 302D or 302E.

MAN 336H. Organizational Behavior: Honors.
Restricted to students in the McCombs School of Business Honors Program. An exploration of the process of managing organizations and the behavior of individuals and groups within the organizational setting. Three lecture hours a week for one semester. Only one of the following may be counted: Management 320F, 336 and 336H. Offered on the letter-grade basis only. Prerequisite: Accounting 312H; credit or registration for Business Administration 324H; and thirty semester hours of coursework, including credit or registration for three semester hours of coursework in anthropology, psychology, sociology, or educational psychology, or Social Science 302D or 302E.

MAN 137, 237, 337. Special Topics in Management.
Analysis of contemporary management problems. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

Topic 2: Interdisciplinary Entrepreneurship. Restricted to students in a business major. Focus on skill development and mentoring in start-up formation, technology development, market validation, marketing, sales, operations, human resources, program management, and finance. Includes discussion of intellectual property, social issues in design, as well as ethical and safety considerations. Emphasis on written and oral presentation of start-up activities. Only one of the following may be counted: Computer Science 374L, 378 (Topic: Longhorn Start-up), Electrical Engineering 377E, Engineering Studies 377E, Management 337 (Topic: Interdisciplinary Entrepreneurship), 337 (Topic 2). Additional prerequisite: Consent of instructor.

Topic 3: Intercultural Management. Provides a conceptual framework and specific tools for interacting successfully in international teams, negotiations, and partnerships. Discusses cultural patterns characteristic of world regions and particular countries in terms of their implications for corporate management. Only one of the following may be counted: Management 337 (Topic: Intercultural Management), 137, 237, 337 (Topic 3), International Business 372 (Topic 12), 367C.

MAN 137C. Introduction to Management in a Global Environment.
Same as International Business 137C. Restricted to students pursuing the global management minor. Develops students’ skills in recognizing cultural tendencies, both in themselves and in new geographic locations; introduces observation and reflection techniques to maximize learning while abroad. Course must be taken before participation in the international experience component required by the Global Management Certificate. One lecture hour a week for one semester.
Business 137C and Management 137C may not both be counted. Offered on the letter-grade basis only.

**MAN 237D, 337D. Global Management Capstone.**
Same as International Business 237D. Same as International Business 337D. Restricted to students pursuing the global management minor. Develops students’ ability to process and articulate learning from intercultural experience; develops skills in applying knowledge and strategies gained in one region/country to new cultural and geopolitical contexts. For each semester hour of credit earned, one lecture hour a week for one semester. Management 237D, 337D, and International Business 237D, 337D may not both be counted. Offered on the letter-grade basis only. Prerequisite: Completion of required international experience component of the Global Management Minor, and consent of instructor.

**MAN 338. Lean Startup Essentials.**
Focus on the entrepreneurial process including problem identification, innovation, business plans, fund raising, legal aspects, launching, and management. Three lecture hours a week for one semester. Management 337 (Topic: Lean Startup Essentials) and 338 may not both be counted. Prerequisite: Thirty semester hours of coursework.

**MAN 340. Leadership and Urban Engagement.**
Same as Communication 340, Fine Arts 345, and Liberal Arts 340. Restricted to students accepted to the UT in New York Program. Explore leadership skills and goals in the urban context. Read and discuss leadership challenges that arise when stakeholders come together to plan, make decisions, and take action in organizational and community settings. Three lecture hours a week for one semester. Only one of the following may be counted: Communication 340, Fine Arts 345, Liberal Arts 325 (Topic: Leadership/Urban Engagement), 340, Management 340.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office or the school’s BBA Exchange Programs. Credit is recorded as assigned by the study abroad adviser in the Department of Management. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. May be repeated for credit when the topics vary.

**MAN 147C, 247C, 347C. Texas Startup Accelerator.**
Support startups in an experiential leadership practicum through projects designed to accelerate the venture’s development. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

**MAN 147I, 247I, 347I. Texas Startup Incubator.**
Build and grow a new venture through an experiential leadership practicum, with advice and assistance on the entrepreneurial process. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

**MAN 347P. Entrepreneurship Practicum.**
Application of entrepreneurship skills and focus on additional project management skills through individual or group assignments conducted in an entrepreneurial setting, focusing on new business development either within existing companies (corporate entrepreneurship) or as stand-alone ventures (entrepreneurship). Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

**MAN 366P. Management Practicum: Social Entrepreneurship I.**
Focuses on developing business plans through a semester-long project. Explores non-profit, for-profit, and hybrid organizations and how they deal with corporate social responsibility. The equivalent of three lecture hours a week for one semester. Management 366P and 369P may not both be counted. Prerequisite: Upper-division standing.

**MAN 367P. Social Entrepreneurship II.**
Apply skills and focus on readying chosen projects to increase awareness and understanding of business and economics issues, and prepare presentation teams for regional and national competitions based on criteria set by the international Enactus organization. The equivalent of three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing.

**MAN 369P. Social Innovation Practicum.**
Explores a broad overview of the field of social innovation, and examines concepts and tools that support the creation of social ventures. Includes creating a social venture, articulating its vision, creating a business plan, choosing an organizational form, and assessing the venture’s financial and social impact. Three lecture hours a week for one semester. Management 366P and 369P may not both be counted. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

**MAN 374. General Management and Strategy.**
Restricted to students in a business major. Designed to enable students to analyze business situations from the point of view of the practicing general manager. Addresses key tasks involved in general management, including strategic decisions that ensure the long-term health of the entire firm or a major division. Three lecture hours a week for one semester. Management 374 and 374H may not both be counted. Prerequisite: Seventy-five semester hours of coursework, including: Management 336 or 336H; credit or registration for Finance 357 or 357H, and Marketing 337 or 337H; and credit for one of the following: Business Administration 353, 366P, Accounting 366P; Business Analytics 366P; International Business 366P; Finance 364P, 365P, 366P; Management 347P, 366P, 367P, 369P; Management Information Systems 366P; Marketing 366P; Operations Management 366P.

**MAN 374H. General Management and Strategy: Honors.**
Restricted to students in the McCombs School of Business Honors Program. Designed to enable students to analyze business situations from the point of view of the practicing general manager. Addresses key tasks involved in general management, including strategic decisions that ensure the long-term health of the entire firm or a major division. Three lecture hours a week for one semester. Management 374 and 374H may not both be counted. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

**MAN 366P and 369P may not both be counted.**
Risk Management 179, 379. Prerequisite: Eighteen semester hours of coursework in business and economics, six of which must be upper-division; Management 336 or 336H with a grade of at least C; consent of instructor; written approval before the first meeting of the course from the department chair’s office on forms provided for that purpose.

Graduate Courses

MAN 183, 283, 383. Current Issues in Organization Science. Restricted to graduate students in the McCombs School of Business. For 183, one lecture hour a week for one semester; for 283, four lecture hours a week for half a semester; for 383, three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

MAN 185, 285, 385. Current Issues in Strategic Management. Restricted to graduate students in the McCombs School of Business. For 185, one hour a week for a semester; for 285, four lecture hours a week for half a semester; for 385, three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

Topic 16: Leading People and Organizations. Designed to increase the student’s effectiveness as a manager through discussion of organizational behavior and design, and guidelines for applying these concepts. Offered on the letter-grade basis only.

Topic 17: Organizational Behavior for Executives. Restricted to students in the Executive MBA Program. Explore organizational behavior frameworks and concepts that leaders can use to get things done in their teams and organizations. Examine how leaders can design effective organizations and teams, engage employees, improve decision making, manage interpersonal and team dynamics, exercise influence, and adapt to changing internal and external contexts. Offered on the letter-grade basis only.

Topic 20: Art and Science of Negotiation. Offered on the letter-grade basis only. Additional prerequisite: Admission to the McCombs School of Business.

Topic 23: People Analytics. Covers issues related to making human resource decisions in a more effective manner. Uses a strategic perspective, with particular emphasis on the links between human resource decisions and a firm’s competitive position. Management 183, 283, 383 (Topic 22) and 183, 283, 383 (Topic 23) may not both be counted. Offered on the letter-grade basis only. Additional prerequisite: Admission to the McCombs School of Business.

Topic 24: Managing Human Capital. Restricted to students in the McCombs School of Business. Explore issues related to talent management processes, including how companies hire, socialize, appraise, reward, and retain talent. Use a strategic perspective of the impact of organizational context on how companies manage human capital and the practices and analytical frameworks that help managers leverage human capital. Offered on the letter-grade basis only.

Topic 25: Strategic Human Capital for Executives. Restricted to students in the Executive MBA Program. Examine a set of analytical approaches to leveraging data that exist within an organization to make strategic human capital decisions. Explore how leading companies are applying analytics within their people organizations, as well as how these approaches are driving important organizational outcomes. Offered on the letter-grade basis only.

Topic 26: Leading in High Stakes Environments. Restricted to students in the Executive MBA Program. Examine the art and science of securing an agreement between two or more interdependent parties who are seeking to maximize their outcomes. Explore research and theory that help improve understanding of the behavior of individuals, groups, and organizations in the context of competitive situations. Offered on the letter-grade basis only.

Topic 27: Advocacy for Executives. Restricted to students in the Executive MBA Program. Focus on how leaders, especially senior leaders, can better advocate for their ideas. Examine how executives can effectively and persuasively communicate their ideas to diverse audiences, enhance their reputations as innovative leaders, build partnerships around their ideas, and successfully influence others to adopt their innovative notions. Offered on the letter-grade basis only.

Topic 31: Organizational Change and Strategic Renewal. Offered on the letter-grade basis only.

MAN 185, 285, 385. Current Issues in Strategic Management. Restricted to graduate students in the McCombs School of Business. For 185, one hour a week for a semester; for 285, four lecture hours a week for half a semester; for 385, three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

Topic 1: Action Skills for Managers: Implementing Strategy. Offered on the letter-grade basis only.

Topic 2: The Art of Leadership. Offered on the letter-grade basis only.

Topic 6: Management Planning and Control in Complex Systems. Offered on the letter-grade basis only.

Topic 8: Managing Corporate Diversification and Renewal. Offered on the letter-grade basis only.

Topic 9: Strategic Analysis for High-Tech Industries. Management 185, 285, 385 (Topic 9) and Management Information Systems 181N, 281N, 381N (Topic 3) may not both be counted. Offered on the letter-grade basis only.

Topic 10: Managing Corporate Restructuring. Restricted to students in the Executive MBA Program. Examine turnaround business situations, strategic and financial issues, and the operating manager’s perspective. Offered on the letter-grade basis only.

Topic 13: Corporate Strategy for Executives. Restricted to students in the Executive MBA Program. Study the formulation and implementation of strategies specifically related to firm growth. Explore vertical integration, horizontal integration, diversification, acquisition, growth in platform ecosystems, technology-driven growth, and international growth. Offered on the letter-grade basis only.

Topic 18: New Venture Creation for Executives. Restricted to students in the Executive MBA Program. Examine what advantages start-ups have over existing organizations when it comes to identifying new opportunities and developing innovative solutions to address pain points and create value. Offered on the letter-grade basis only.

Topic 20: Advanced Venture Development. Offered on the letter-grade basis only.

Topic 22: New Venture Creation. Examine what advantages start-ups have over existing organizations when it comes to identifying new opportunities and developing innovative solutions to address pain points and create value. Offered on the letter-grade basis only.

Topic 23: Introduction to Entrepreneurship. Offered on the letter-grade basis only.

Topic 24: Entrepreneurial Growth. Offered on the letter-grade basis only.

Topic 26: Managing Corporate Turnarounds, Restructuring, and Bankruptcy. Restricted to students in the Executive MBA Program. Examine turnaround business situations, i.e., established firms experiencing operational, financial and managerial difficulties. Consider strategy issues as well as financial ones with an emphasis on the operating manager’s perspective. Offered on the letter-grade basis only.

Topic 33: Managing and Marketing in the Global Arena. Offered on the letter-grade basis only.

Topic 36: Power and Politics. Covers skills and techniques to gain power and influence in organizations as political entities. Includes cases, business press, and theoretical articles. Offered on the letter-grade basis only.
Topic 49: Strategic Management. Designed to help students develop a general management orientation. Subjects include the role of the general manager, formulating business and corporate-level strategy, managing strategic change, strategy implementation, and developing general managers. Business Administration 188T, 288T, 388T and Management 185, 285, 385 (Topic 49) may not both be counted. Offered on the letter-grade basis only.

MAN 185D. Global Practicum and Business Practices.
Restricted to students in the Executive MBA Program. Examine the history, culture, politics, and economics of a region through direct experience with a study tour or global management seminar in the respective regional area. One lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and Management 185T.

Same as International Business 185E. Same as International Business 285E. Same as International Business 385E. Study global business practices through lectures on campus and trips to international partner schools. The equivalent of one lecture hour a week for one semester. Only one of the following may be counted: International Business 385E, Management 185C and 385E. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

Analysis and application of contemporary concepts and theories of principled leadership for work teams and organizations. For each semester hour of credit earned, one lecture hour a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

MAN 185G. Strategic Innovation and Entrepreneurship.
One lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate Standing.

Restricted to students in the Executive MBA Program. Examine approaches that executives can use for identifying and creating new business opportunities, and for designing organizations and processes to foster employee creativity and innovation. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

MAN 285L. Leading for Impact for Executives.
Restricted to students in the Executive MBA Program. Explore leadership and how to apply concepts in ways that have impact on the world and local community. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

MAN 185S, 285S, 385S. Leading For Impact Capstone.
Restricted to MBA students in the McCombs School Business Explore leadership development and provide opportunities to practice leadership abilities through projects for real organizations. For each semester hour of credit earned, one lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and Management 185F, 285F, or 385F.

MAN 185T, 285T, 385T. Leading for Impact I.
Analyze and apply contemporary concepts and theories of principled leadership for work teams and organizations. For each semester hour of credit earned, one lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

MAN 185U, 285U, 385U. Leading for Impact II.
Explore leadership development and provide opportunities to practice leadership abilities through projects for real organizations. For each semester hour of credit earned, one lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and Management 185T.

Intensive analysis of organizational science issues. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Admission to the doctoral degree program and consent of instructor.

MAN 393. Seminar: Strategic Management.
Intensive analysis of strategic management issues. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Admission to the doctoral degree program and consent of instructor.

Topic 1: Foundations of Strategic Management.
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in management and consent of the supervising faculty member and the graduate adviser; for 698B, Management 698A.

MAN 398R. Master’s Report.
Preparation of a report to fulfill the requirement for the master’s degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing, enrollment in the doctoral program in management, and consent of the supervising faculty member and graduate adviser.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses

**MAS - Mexican American Studies**

**Lower-Division Courses**

**MAS 301. Introduction to Mexican American and Latina/o Studies.**

Three lecture hours a week for one semester. Mexican American Studies 301 and 319 (Topic: Introduction to Mexican American and Latina/o Studies) may not both be counted.

**MAS 307. Introduction to Mexican American Cultural Studies.**

An introduction to the theoretical and substantive issues covered under the interdisciplinary rubric of cultural studies. Explores the Mexican American cultural experience through the methodological approaches of historical analysis, cultural critique, and literary production. Three lecture hours a week for one semester.

**MAS 307C. Mexican American and Latina/o Folklore Across the United States.**

Same as Anthropology 310M. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 310L (Topic: Mex Amer/Lat Folk Across US), 310M, Mexican American Studies 307C, 319 (Topic: Mex Amer/Lat Folk Across US).

**MAS 308. Introduction to Mexican American Policy Studies.**

An introduction to the basics of policy analysis, employing demographic and empirical information on the Mexican American and Latino populations in the United States. Current policy issues such as bilingual education, affirmative action, the English-only movement, immigration, Latino consumers, Latino entrepreneurship, and NAFTA. Only one of the following may be counted: African and African Diaspora Studies 316F, Government 319C, Mexican American Studies 318F, 319 (Topic: Black/Latinx Intersections), Sociology 309D.

MAS 318G. The New Latinas/os/xs.
Same as Anthropology 310J, Government 319D, and Sociology 309G. Explore the trajectories of various communities many have called the new Latinas/os/xs by identifying how race, gender, sexuality, class, indigeneity, language, migration, and geography influence the lives, identities, and sociopolitical incorporation of new Latinas/os/xs. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 310J, Government 319D, Mexican American Studies 318G, 319 (Topic: The New Latinas/os/xs), Sociology 309G.

MAS 319. Special Topics.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

Topic 2: The Chicano Movement. Analyzes the history and legacy of the Chicano Movement in order to understand its origins, strategies, challenges, and successes. Mexican American Studies 319 (Topic: The History of the Chicano Movement) and 319 (Topic 2) may not both be counted.

Topic 3: Latinx Histories. Same as History 317L (Topic 11). Explore the cultures, politics, and policies that shape the many Latinx histories in the United States. Only one of the following may be counted: History 317L (Topic: Latino Histories), 317L (Topic 11), Mexican American Studies 319 (Topic: Latino Histories), 319 (Topic 3).

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Center for Mexican American Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

MAS 320C. Power and Place: Making Texas History.
Same as African and African Diaspora Studies 320C, History 365G (Topic 21), and Race, Indigeneity, and Migration 320C. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 320C, 370 (Topic: Power/Place: Making Tex His), History 365G (Topic: Power/Place: Making Tex His), 365G (Topic 21), Mexican American Studies 320C, Race, Indigeneity, and Migration 320C. Prerequisite: Upper-division standing.

MAS 320E. Texas before 1900.
Same as History 320E. Focus on the basic history of Texas from roughly 1450 to 1900. Investigate major events such as the Texas Revolution and Civil War with an emphasis on how and why Texas, its culture, and its groups of people changed or did not change over time. Three lecture hours a week for one semester. Only one of the following may be counted: History 320E, 320L, 320P, Mexican American Studies 320E, 320L. Prerequisite: Upper-division standing.

MAS 320F. Texas, 1900 to the Present.
Same as History 320F and Urban Studies 322T. Examine the steady dissociation of Texas from its Old South status to a transitional state and a power in national politics. Three lecture hours a week for one semester. Only one of the following may be counted: History 320F, 320R, Mexican American Studies 320F, 374 (Topic 16), Urban Studies 322T, 353 (Topic 2). Prerequisite: Upper-division standing.

MAS 320G. Native American Women’s History.
Same as American Studies 370 (Topic 75), History 365G (Topic 20), and Women's and Gender Studies 340 (Topic 98). Investigate the histories of Native American women to reaffirm and reclaim their place and role in the histories of Native Americans, indigenous peoples, women, Chican@/xs, Greater Mexico, and the United States. Contemplate how many understandings that center colonization, settler colonialism, genocide, race, and environmentalism are essential to examining Native American
women's history. Explore the stories, struggles, and ideas of community-building, sovereignty, and liberation as integral to their genders and sexualities as Native American, Indian, First Nations, indigenous, and red and brown women. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 370 (Topic 75), History 365G (Topic: Native Amer Women's History), 365G (Topic 20), Mexican American Studies 320G, 374 (Topic: Native Amer Women's History), Women's and Gender Studies 340 (Topic 98). Prerequisite: Upper-division standing.

**MAS 320L. Mexican American Studies at UT.**
Same as American Studies 322D and History 365G (Topic 17). Trace the origins and development of Mexican American Studies at the national, regional, and local levels. Collaborate to help preserve and recognize the significance of Mexican American Studies at the University in historical and contemporary contexts. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: 50 Yrs Mex Am Studies at UT), 322D, History 365G (Topic: 50 Yrs Mex Am Studies at UT), 365G (Topic 17), Mexican American Studies 320L, 374 (Topic: 50 Yrs Mex Am Studies at UT). Prerequisite: Upper-division standing.

**MAS 320J. Mexican Americans in Texas History.**
Same as History 320T (Topic 1) and Latin American Studies 366 (Topic 47). Introduction to the historical experience of Mexican-American persons in Texas. Three lecture hours a week for one semester. Only one of the following may be counted: History 320T (Topic 1), 350R (Topic: Mexican Americans in Texas History), 350R (Topic 36), Latin American Studies 366 (Topic 47), Mexican American Studies 320J, Mexican American Studies 374 (Topic: Mexican Americans in Texas History). Prerequisite: Upper-division standing.

**MAS 323C. Black Art, Brown Art.**

**MAS 323D. Contemporary Latinx Visual and Performance Art.**
Same as American Studies 374C, Art History 341D, and Women's and Gender Studies 340 (Topic 1). Explore contemporary visual and performance art by Latinx artists working since the 1970's to the present. Examine artists who began to engage with and in civil rights discourse to intervene through their art-making practices; and to align with contemporary trends in the art world that began to expand in the 1970’s, such as performance art, installation art, video art, and, later, digital art. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 374C, Art History 341D, 361 (Topic: Latinx Visual/Performance Art), Mexican American Studies 323D, 374 (Topic: Latinx Visual/Performance Art), Women's and Gender Studies 340 (Topic 1). Prerequisite: Upper-division standing.

**MAS 323E. Latinidades: Art and Performance.**
Same as American Studies 370 (Topic 71). Contextualize and analyze diverse forms of Latina/o/x artistic expression, including visual art, music, dance, theatre, and film, or “Latinidades”. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 370 (Topic: Latinidades: Art/Performance), 370 (Topic 71), Mexican American Studies 323E. Prerequisite: Upper-division standing.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Center for Mexican American Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer work is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**MAS 335M. Queer Migrations.**
Same as Women's and Gender Studies 335 (Topic 15). Three lecture hours a week for one semester. Only one of the following may be counted: Mexican American Studies 335M, 374 (Topic: Queer Migrations), Women's and Gender Studies 335 (Topic: Queer Migrations), 335 (Topic 15). Prerequisite: Upper-division standing.

**MAS 337C. Chicana Feminisms.**
Same as American Studies 324I and Women's and Gender Studies 340 (Topic 87). Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: Chicana Feminisms), 324I, Mexican American Studies 337C, 374 (Topic: Chicana Feminisms), Women's and Gender Studies 340 (Topic: Chicana Feminisms), 340 (Topic 87). Prerequisite: Upper-division standing.

**MAS 337D. Russian and Mexican Men in Popular Culture.**
Same as Comparative Literature 323 (Topic 58) and Russian, East European, and Eurasian Studies 325 (Topic 40). Study representations of masculinity in products of Mexican and Russian popular culture at the end of the twentieth and the beginning of the twenty-first centuries. Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 323 (Topic: Russian/Mexican Men in Pop Cul), 323 (Topic 58), Mexican American Studies 337D, 374 (Topic: Russian/Mexican Men in Pop Cul), Russian, East European, and Eurasian Studies 325 (Topic: Russian/Mexican Men in Pop Cul), 325 (Topic 40), Women’s and Gender Studies 340 (Topic: Russian/Mexican Men in Pop Cul). Prerequisite: Upper-division standing.

**MAS 337F. Latina Feminism and Health.**
Same as Women's and Gender Studies 340 (Topic 88). Three lecture hours a week for one semester. Only one of the following may be counted: Mexican American Studies 337F, 374 (Topic: Latina Feminism and Health), Women's and Gender Studies 340 (Topic: Latina Feminism and Health), 340 (Topic 88). Prerequisite: Upper-division standing.

**MAS 337G. Disability, Race, and Sexuality in Literature and Culture.**
Same as English 343D and Women’s and Gender Studies 335 (Topic 17). Three lecture hours a week for one semester. Only one of the following may be counted: English 343D, Mexican American Studies 337G, Women's and Gender Studies 335 (Topic 17). Prerequisite: For English majors, one of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P; or Tutorial Course 303D; for others, upper-division standing.

**MAS 337I. Tejana Cultural Studies.**
Same as American Studies 370 (Topic 67) and Women's and Gender Studies 340 (Topic 97). Investigate the history of Tejanas to reaffirm and reclaim their place and role in the histories of Native Americans, women, Chicana@/Chicano/a, Greater Mexico, and the United States. Explore how transborderism and transregionalism complicate this history. Contemplate how Tejanas’ stories are fundamental to illuminating the struggles, resistance, and liberation of Chicanas, mestizas, and afro-mexicanas from precontact to decolonization. Three lecture hours a week for one semester. Only one of the following may be counted:

MAS 337J. Latinx Sexuality.
Same as African and African Diaspora Studies 325C, American Studies 337J, and Women's and Gender Studies 335 (Topic 27), Examine Latinx sexualities from a historical perspective to comprehend the social, cultural, political, and economic factors, which have shaped these experiences. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 325C, 372C (Topic: Latinx Sexuality), American Studies 337J, 370 (Topic: Latinx Sexualities), Mexican American Studies 337J, 374 (Topic: Latinx Sexualities), Women's and Gender Studies 335 (Topic: Latinx Sexualities), 335 (Topic 27). Prerequisite: Upper-division standing.

MAS 340S. Latina and Latino Spirituality.

MAS 345C. Julia Alvarez and Sandra Cisneros.
Same as English 348C and Women's and Gender Studies 340 (Topic 86). Three lecture hours a week for one semester. Only one of the following may be counted: English 348C, 349S (Topic: Alvarezc and Cisneros), Mexican American Studies 345C, 374 (Topic: Alvarez and Cisneros), Women's and Gender Studies 340 (Topic: Alvarez and Cisneros), 340 (Topic 86). Prerequisite: Upper-division standing.

MAS 345D. Life and Literature of the US-Mexico Borderlands.
Same as English 342M. Examine the literature of the US-Mexico borderlands experience, with an emphasis on the historical and social conditions that characterize this unique region. Explore this in the context of prose fiction, as well as drama, film, and poetry. Three lecture hours a week for one semester. Only one of the following may be counted: English 342 (Topic 1), 342M, Mexican American Studies 345D, 374 (Topic 2). Prerequisite: One of the following: Comparative Literature 315, English 303D (or 603B), 316L, 316M, 316N, 316P, or Tutorial Course 303D (or 603B).

MAS 345E. Latinx Short Story.
Same as English 343E and Women's and Gender Studies 340 (Topic 90). Three lecture hours a week for one semester. Only one of the following may be counted: English 343E, 376M (Topic: Latinx Short Story), Mexican American Studies 345E, 374 (Topic: Latinx Short Story), Women's and Gender Studies 340 (Topic: Latinx Short Story), 340 (Topic 90). Prerequisite: For English majors, nine semester hours of coursework in English or rhetoric and writing; for other majors, upper-division standing.

MAS 345F. Latinx Legend Tripping.
Same as American Studies 345F; English 342L, and Women's and Gender Studies 340 (Topic 96). Explore narrative folklore from diverse traditions across the United States based Latinx diaspora. Focus on supernatural legends and the creation of the female "monster". Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: Latinx Legend Tripping), 345F, English 323D (Topic: Latinx Legend Tripping), 342L, 370W (Topic: Latinx Legend Tripping), Mexican American Studies 345F, 374 (Topic: Latinx Legend Tripping), Women's and Gender Studies 340 (Topic: Latinx Legend Tripping), 340 (Topic 96). Prerequisite: Upper-division standing.

MAS 345G. Contemporary United States Latina/o Literature and Culture.
Same as English 343O. Three lecture hours a week for one semester. Only one of the following may be counted: English 323D (Topic: Contemp US Latina/o Lit/Cul), 3430, 376M (Topic: Contemp US Latina/o Lit & Cul), Mexican American Studies 345G. Prerequisite: One of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P, or Tutorial Course 303D.

MAS 345I. Latinx Young Adult Literatures.
Same as English 342J. Three lecture hours a week for one semester. Only one of the following may be counted: English 323D (Topic: Latinx Young Adult Lits), 342J, Mexican American Studies 345I. Prerequisite: One of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P, or Tutorial Course 303D.

MAS 345J. 21st Century Latinx Literature.
Same as English 342D and Women's and Gender Studies 340 (Topic 4). Explore Latinx literature from the past two decades including both literary form and political engagement, with an emphasis on Latina, queer, and nonbinary writers. Three lecture hours a week for one semester. Only one of the following may be counted: English 342D, Mexican American Studies 345J, 374 (Topic: 21st Century Latinx Lit), Women's and Gender Studies 340 (Topic 4). Prerequisite: Upper-division standing.

MAS 347C. Transnational Latinx Popular Culture.
Same as Latin American Studies 328C and Women's and Gender Studies 340 (Topic 89). Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 328 (Topic: Transnatl Latinx Pop Culture), 328C, Mexican American Studies 347C, 374 (Transnatl Latinx Pop Culture), Women's and Gender Studies 340 (Topic: Transnatl Latinx Pop Culture), 340 (Topic 89). Prerequisite: Upper-division standing.

MAS 350F. Latino Urbanism in the United States City.

MAS 357L. Latinas, Latinos and Language.
Same as Linguistics 350J. Three lecture hours a week for one semester. Only one of the following may be counted: Linguistics 350 (Topic: Latina/os and Language), 350J, Mexican American Studies 357L, 374 (Topic Latina/os and Language). Prerequisite: Upper-division standing.

MAS 357M. Bilingual Minds.
Same as Linguistics 373J. Three lecture hours a week for one semester. Only one of the following may be counted: Linguistics 373 (Topic: Bilingual Minds), 373J, Mexican American Studies 357M, 374 (Topic Bilingual Minds). Prerequisite: Upper-division standing.

MAS 357P. Latina and Latino Psychology.
Three lecture hours a week for one semester. Only one of the following may be counted: Educational Psychology 362 (Topic: Latina/o Psychology), 376T (Topic: Latina/o Psychology), Mexican American Studies 357P, 374 (Topic: Latina/o Psychology). Prerequisite: Upper-division standing.

MAS 361. Mexican American Cultural Studies Seminar.
Explores cultural studies literature as read through the experience of the Mexican-origin community in the United States. Discussions include race, class, and feminism. Students write a research paper and deliver
American Studies 364D, 374 (Topic: Latino Migrations and Asylum), Latin

for one semester. Only one of the following may be counted: Mexican
American Studies 362 and 374 (Topic: Mexican American Public Policy Issues) may not both be counted. Prerequisite: Upper-division standing and Mexican American Studies 308.

Examines the presence and use of language in the United States with
focus on aspects affecting Latina/o communities. Three lecture hours a
week for one semester. Mexican American Studies 363 and 374 (Topic:
Sociolinguistics in Mexican American and Latina/o Studies) may not
both be counted. Prerequisite: Upper-division standing.

MAS 363R. Bad Language: Race, Class, and Gender.
Same as Comparative Literature 323 (Topic 52), Russian, East European,
and Eurasian Studies 325 (Topic 32), and Women's and Gender Studies
340 (Topic 74). Three lecture hours a week for one semester. Only one
of the following may be counted: American Studies 321 (Topic: Bad
Language: Race, Class, and Gender), Comparative Literature 323 (Topic:
Bad Language: Race, Class, and Gender), 323 (Topic 52), Linguistics
350 (Topic: Bad Language: Race, Class, and Gender), Mexican American
Studies 363R, 374 (Topic: Bad Language: Race, Class, and Gender),
Russian 369 (Topic: Bad Language: Race, Class, and Gender), Russian,
East European, and Eurasian Studies 325 (Topic: Bad Language: Race,
Class, and Gender), 325 (Topic 32), Women's and Gender Studies
340 (Topic: Bad Language: Race, Class, and Gender), 340 (Topic 74).
Prerequisite: Upper-division standing.

Same as History 365G (Topic 12). Introduction to the history of the
United States and Mexico border region. Three lecture hours a week for
one semester. Only one of the following may be counted: History 365G
(Topic: History of the United States-Mexico Borderland), 365G (Topic 12),
Mexican American Studies 364, 374 (Topic: History of the United States-
Mexico Borderland). Prerequisite: Upper-division standing.

MAS 364C. The Civil Rights Movement from a Comparative
Perspective.
Same as African and African Diaspora Studies 350U, American Studies
370 (Topic 60), and History 350R (Topic 35). Focuses on African
American and Mexican American struggles for civil rights. Asian
American and Native American movements will also be addressed. Using
a comparative approach the student will consider the distinctiveness
of each of these struggles while also viewing them in relation to each
other. Three lecture hours a week for one semester. Only one of the
following may be counted: African and African Diaspora Studies 350U,
374D (Topic: Civil Rts Mov from Comp Persp), 374D (Topic 18), American
Studies 370 (Topic: Civil Rts Mov from Comp Persp), 370 (Topic 60),
History 350R (Topic 35), Mexican American Studies 364C, 374 (Topic:
Civil Rts Mov from Comp Persp). Prerequisite: Upper-division standing
and six semester hours of coursework in history.

MAS 364D. Latino Migrations and Asylum.
Same as Latin American Studies 322E. Three lecture hours a week
for one semester. Only one of the following may be counted: Mexican
American Studies 364D, 374 (Topic: Latino Migrations and Asylum), Latin
American Studies 322 (Topic: Latino Migrations and Asylum), 322E.
Prerequisite: Upper-division standing.

MAS 364E. Policing Latinidad.
Same as American Studies 324G and Women's and Gender Studies 340
(Topic 95). Three lecture hours a week for one semester. Only one of
the following may be counted: American Studies 321 (Topic: Policing
Latinidad), 324G, Mexican American Studies 364E, 374 (Topic: Policing
Latinidad), Women's and Gender Studies 340 (Topic: Policing Latinidad),
340 (Topic 95). Prerequisite: Upper-division standing.

MAS 364F. Mexican Immigration Cultural History.
Same as Anthropology 322P and Latin American Studies 324L (Topic
16). Examines the history of Mexican immigration to the United States,
and provides an overview of migratory patterns dating back to the late
prehistoric period through contemporary times. Three lecture hours
a week for one semester. Only one of the following may be counted:
Anthropology 322M (Topic 12), 322P, Latin American Studies 324L (Topic
16), Mexican American Studies 364F, 374 (Topic: Mexican Immigration
Cultural History). Prerequisite: Upper-division standing.

MAS 364G. Latino Migration and Human Trafficking.
Same as Latin American Studies 322F and Sociology 322T. Critically
examine the complexity and intersectionality of Latino migration and
human trafficking from global, regional, and local perspectives. Three
lecture hours a week for one semester. Only one of the following may
be counted: Latin American Studies 322 (Topic: Latino Migrtn/Human
Traffic), 322F, Mexican American Studies 364G, 374 (Topic: Latino
Migrtn/Human Traffic), Sociology 321K (Topic: Latino Migrtn/Human
Traffic), 322T. Prerequisite: Upper-division standing.

MAS 364I. Mexican American Political Thought.
Same as Government 337V. Critically explore the multiple
complementary and contradictory intellectual expressions of Mexican
American political thought. Pay particular attention to Texas from the
mid-nineteenth century through the period of the Chicano Movement in
the latter part of the twentieth century. Three lecture hours a week for
one semester. Only one of the following may be counted: Government
337M (Topic: Mex Amer Political Thought), 337V, Mexican American
Studies 364I, 374 (Topic: Mex Amer Political Thought). Prerequisite:
Upper-division standing.

MAS 364J. Migration Crisis.
Same as African and African Diaspora Studies 360J, Asian American
Studies 330N, and Race, Indigeneity, and Migration 330N. Three lecture
hours a week for one semester. Only one of the following may be counted:
African and African Diaspora Studies 360J, 374D (Topic: Migration
Crisis), Asian American Studies 330N, 335 (Topic: Migration
Crisis), Mexican American Studies 364J, 374 (Topic: Migration Crisis),
Race, Indigeneity, and Migration 330N. Prerequisite: Upper-division
standing.

MAS 364K. Afro-Latinidades in the United States and Latin
America.
Same as African and African Diaspora Studies 345T and Latin American
Studies 322Q. Three lecture hours a week for one semester. Only one
of the following may be counted: African and African Diaspora Studies
345T, 370 (Topic: Afro-Latinidades US/Lat Am), 374E (Topic: Afro-
Latinidades US/Lat Am), Latin American Studies 322 (Topic: Afro-
Latinidades US/Lat Am), 322Q, Mexican American Studies 364K, 374
(Topic: Afro-Latinidades US/Lat Am). Prerequisite: Upper-division
standing.
MAS 364L. La Causa, The Farmworker Movement.
Same as History 365G (Topic 23). Examine the twentieth-century expansion of commercial agriculture and concomitant labor organizing struggles waged by agricultural workers in the United States, including Arkansas, California, Hawai‘i, Puerto Rico, and Texas. Explore the role of the United Farm Workers of America. Three lecture hours a week for one semester. Only one of the following may be counted: History 365G (Topic: La Causa, Farmworker Movmnt), 365G (Topic 23), Mexican American Studies 364L, 374 (Topic: La Causa, Farmworker Movmnt). Prerequisite: Upper-division standing.

MAS 364M. Latina/o/x Citizenship.
Same as Anthropology 326R, Government 371V, and Sociology 323L. Explore the concepts of membership, belonging, immigration and citizenship in the Latina/o/x experience. Examine how historically, politically, socially and culturally, Latinas/os/xs have been construed as belonging or not belonging members of the United States society. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 326R, Government 371V, Mexican American Studies 364M, Sociology 323L. Prerequisite: Upper-division standing.

MAS 364P. Puerto Rico In Crisis.

MAS 364Q. Race and Ethnicity Politics.
Same as African and African Diaspora Studies 360K, Government 337N, and Sociology 322K. Explore racial and ethnic politics throughout the United States with a focus on Black and Latino politics. Examine group identity, racial inequality, policy making, activism, criminal justice system, and immigration. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 360K, Government 337N, Mexican American Studies 364Q, 374 (Topic: Race and Ethnicity Politics), Sociology 322K. Prerequisite: Upper-division standing.

Same as African and African Diaspora Studies 345U, Government 337J, and Sociology 322N. Examine racial and political themes among Spanish-speaking Caribbeans on the islands and in the United States. Explore racial politics in the three countries and compares notions of identity, experiences with racism and anti-racist protest with the United States. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 345U, Government 337J, Mexican American Studies 364R, 374 (Topic: Race Politics & Caribbean), Sociology 322N. Prerequisite: Upper-division standing.

MAS 370D. Latinx Media, Arts, and Activism.
Same as Radio-Television-Film 365 (Topic 15). Investigate the ways in which Latinx activists have used mainstream, alternative, legacy, and new media (as well as other visual and performing arts), to affect social and political change in the United States. Three lecture hours a week for one semester. Only one of the following may be counted: Mexican American Studies 370D, 374 (Topic: Latinx Media/Arts/Activism), Radio-Television-Film 365 (Topic: Latinx Media/Arts/Activism), 365 (Topic 15). Prerequisite: Fifty-four semester hours of college coursework.

MAS 370E. Chicana/o Cinema.
Same as Radio-Television-Film 359S (Topic 17). Three lecture hours and one two-and-one-half-hour film screening a week for one semester. Only one of the following may be counted: Mexican American Studies 370, 370E, 374 (Topic: Chicana/o Film), Radio-Television-Film 359 (Topic 9), 359 (Topic: Chicana/o Film), 359S (Topic 17). Prerequisite: Fifty-four semester hours of college coursework.

MAS 370F. Latina Filmmakers in the United States.
Same as Radio-Television-Film 359S (Topic 18). Three lecture hours and one two-and-one-half-hour film screening a week for one semester. Only one of the following may be counted: Mexican American Studies 370C, 370F, 374 (Topic: Latina Filmmakers), Radio-Television-Film 359 (Topic 10), 359 (Topic: Latina Filmmakers), 359S (Topic 18), Women’s and Gender Studies 340 (Topic 99), 340 (Topic: Latina Filmmakers). Prerequisite: Fifty-four semester hours of college coursework.

MAS 371. Readings in Mexican American Studies.
Supervised readings with parallel work in relevant non-Chicano materials; preparation for Mexican American Studies 372. Individual instruction. Prerequisite: Mexican American Studies 310, 318, and 374; or consent of the director.

Supervised research on a Mexican American topic chosen in consultation with adviser and leading to a full-length essay. Individual instruction. Prerequisite: Consent of the academic adviser.

MAS 373. Independent Research.
Individual instruction. May be repeated for credit. Prerequisite: Consent of the academic adviser.

MAS 374. Special Topics.
Three lecture hours a week for one semester. Additional hours are required for some topics. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

Topic 22: Minorities and the Media. Issues concerning minority or non-dominant groups within the United States. Survey of minority communication problems: alienation, fragmentation, media and Internet access; criticism and feedback for minority groups based on racial/ethnic background, age, sex, disability, social or economic class, and sexual orientation. Only one of the following may be counted: Journalism 341H, 341J, 341M, Latin American Studies 322 (Topic 10), Mexican American Studies 374 (Topic 22), Urban Studies 354 (Topic: Minorities and the Media), Women’s and Gender Studies 340 (Topic 21). Additional prerequisite: Upper-division standing.

Topic 23: Mexican American Indigenous Heritage. Same as Anthropology 322Q and Latin American Studies 324L (Topic 20). The prehistory, history, and contemporary racial understanding of Mexican Americans. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322M (Topic 10), 322Q, Latin American Studies 324L (Topic: Mexican Amer Indig Heritage), 324L (Topic 20), Mexican American Studies 374 (Topic 23). Additional prerequisite: Upper-division standing.

Topic 32: Radical Latinos. Same as American Studies 370 (Topic 39: Radical Latinos). Examines the social positioning and history of Latinas/os in the United States. Analyzes the histories of Latinas/
os who have gone against mainstream expectations, or who have challenged or critiqued the status quo in provocative and unexpected ways. Only one of the following may be counted: American Studies 370 (Topic Radical Latinos), 370 (Topic 39), Mexican American Studies 374 (Topic: Radical Latinos), 374 (Topic 32). Prerequisite: Upper-division standing.

**Topic 33: United States Latino and Latina Ethnographies.** Same as Anthropology 324L (Topic 42). Explores past and present anthropological representations of Latinos and Latinas in the United States. Only one of the following may be counted: Anthropology 324L (Topic: U.S. Latino/a Ethnographies), 324L (Topic 42), Mexican American Studies 374 (Topic: U.S. Latino/a Ethnographies), 374 (Topic 33).

**Topic 34: Writing Border Narratives.** Same as Creative Writing 325 (Topic 1). Examines the United States and Mexico border through the use of the personal essay in its various forms. Students write personal essays that focus on their relationships to the border. Creative Writing 325 (Topic 1) and Mexican American Studies 374 (Topic 34) may not both be counted. Additional prerequisite: One of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P, or Tutorial Course 303D.

**Topic 37: United States Catholic History.** Same as American Studies 327D, History 365G (Topic 1), and Religious Studies 346F. Examine how Catholicism and national identity work for Catholics in the United States, with an emphasis on Catholic women and Latino/as. Only one of the following may be counted: American Studies 327 (Topic 4), 327D, History 365G (Topic 1), Mexican American Studies 374 (Topic 37), Religious Studies 346 (Topic 5), 346F. Additional prerequisite: Upper-division standing.

**Topic 38: Feminist Interventions in Borderlands History.** Same as American Studies 370 (Topic 45) and Women’s and Gender Studies 340 (Topic 45). Provides an in-depth understanding of the social, economic, and spatial transformations of the United States/Mexico borderlands in the nineteenth and early twentieth centuries. Only one of the following may be counted: American Studies 370 (Topic: Feminist Interventions in Borderlands History), 370 (Topic 45), Mexican American Studies 374 (Topic: Feminist Interventions in Borderlands History), 374 (Topic 38), Women’s and Gender Studies 340 (Topic: Feminist Interventions in Borderlands History), 340 (Topic 45).

**Topic 40: Gender, Class, and Ethnicity American Literature and Film.** Examines the ways in which authors and filmmakers construct gender, class, and identity in each of their texts. Only one of the following may be counted: English 344L (Topic: Gender/Class/Ethnic American Literature and Film), Mexican American Studies 374 (Topic: Gender/Class/Ethnic American Literature and Film), 374 (Topic 40), Women’s and Gender Studies 340 (Topic: Gender/Class/Ethnic American Literature and Film). Additional prerequisite: Upper-division standing.

**Topic 41: Border Control and Deaths.** Same as Sociology 323D. Focus on enactment of border control policies, policy implementation and death patterns at the United States-Mexico border, patterns of unauthorized border crossings through dangerous border terrain, grassroots movements to support migrants and lessen deaths, and the ethics of coercive border control. Surveys the public sentiments and attitudes that support new border control policies, the patterns of migrant deaths in deserts and in the Rio Grande River associated with border control strategies, movements and community efforts to support migrants in the Arizona border area, and legal and ethical arguments and concepts that frame discussions of migrant deaths at the United States-Mexico border. Three lecture hours a week for one semester. Mexican American Studies 374 (Topic 41) and Sociology 323D may not both be counted. Additional prerequisite: Forty-five semester hours of coursework.

**Topic 42: United States Immigration.** Same as Sociology 322U. Utilizes a sociological perspective to gain an understanding of what social forces drive migration to the United States, how migrants organize their migration, and how immigration affects United States’ society. Three lecture hours a week for one semester. Only one of the following may be counted: Mexican American Studies 374 (Topic: US Immigration), 374 (Topic 42), Sociology 321K (Topic: US Immigration), or 322U. Additional prerequisite: Forty-five semester hours of coursework.

**MAS 375. Internship.**
Restricted to Mexican American studies majors. Participate in a nonpartisan, direct-service capacity in a community, civic, or government organization or program that facilitates the economic, political, and social development of the Mexican American community. Write a report based on the internship project under the supervision of a faculty member. The equivalent of three lecture hours a week for one semester. Prerequisite: Consent of the internship coordinator.

**MAS 177. Mellon Mays Program Seminar.**
Restricted to students accepted to the Mellon Mays Program. Seminar designed as an interdisciplinary primer to the exploration of research, writing, and professionalization in preparation for doctoral study. One lecture hour a week for one semester. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Upper-division standing and consent of instructor.

**MAS 378. Capstone Seminar.**
Pursue in depth the research interests and methodological skills developed in other Mexican American and Latina/o Studies classes. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing; Mexican American Studies 301; and 307 or 308 or 309.

**MAS 679H. Honors Tutorial Course.**
Restricted to Mexican American studies majors. Supervised research, readings, and writing of a substantial paper on a Mexican American studies topic. The equivalent of three lecture hours a week for two semesters. Prerequisite: For 679HA, Mexican American Studies 361, 362, or 372 with a grade of A; admission to the Mexican American Studies Honors Program no later than two semesters before expected graduation; a University grade point average of at least 3.00; and a grade point average in Mexican American studies of at least 3.50; for 679HB, Mexican American Studies 679HA.

**Graduate Courses**

**MAS 680. Clinical Program: Human Rights.**
Six lecture hours a week for one semester, with additional hours to be arranged. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of the graduate adviser.

**MAS 382. Conference Course in Mexican American Studies.**
Conference course. May be repeated for credit. Prerequisite: Graduate standing and consent of the graduate adviser.
Practical field experience working in an agency, organization, business, or other site approved by the department after completion of M.A. or Ph.D. programs. Three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of the graduate coordinator.

An overview of Mexican American studies for graduate research. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

MAS 392. Topics in Mexican American and Latina/o Studies.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser; additional prerequisites vary with the topic.

MAS 394C. Service Learning Practicum.
Provides the opportunity to identify and discuss the integration of service learning into course curricula and explore the ethics, dilemmas, challenges, and opportunities of service learning. Three lecture hours a week for one semester. Additional hours may be required. Prerequisite: Graduate standing and consent of the graduate adviser.

Examines the major theoretical foundations in Mexican American and Latina/o Studies. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of the graduate adviser.

MAS 395D. Theoretical Foundations of Behavioral and Social Science.
An overview of social and behavioral science theories that are currently used to understand health related behaviors and guide development of interventions designed to prevent, reduce or eliminate major public health problems. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of the graduate adviser.

MAS 395M. Interpretive Methods.
Prerequisite: Graduate standing and consent of the graduate adviser.

MAS 397R. Secondary Report.
Preparation of a report to be counted toward the requirement for the master’s degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in Mexican American studies and consent of the graduate adviser.

MAS 698. Thesis.
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in Mexican American studies and consent of the graduate adviser; for 698B, Mexican American Studies 698A.

Methods of interdisciplinary teaching and professional work in Mexican American and Latina/o Studies. Three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in Mexican American and Latina/o Studies or consent of the graduate instructor and adviser.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses

MDV - Medieval Studies

Medieval Studies: MDV

Lower-Division Courses

Upper-Division Courses

Graduate Courses

MDV 385L, 685L. Conference Course on Special Topics.
Conference course. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

MDV 392L. Readings in Medieval Latin.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

MDV 392M, 692M. Seminar in Medieval Culture.
Major medieval historical developments and monuments of culture in thought, literature, art, architecture, and music. For 392M, three lecture hours a week for one semester; for 692M, six lecture hours a week for one semester. May be repeated for credit when the topics vary. General survey of major themes, genres, and artists in the Arabic literary tradition from the sixth century to the modern era. Only one of the following may be counted: Comparative Literature 323 (Topic 13), Islamic Studies 373 (Topic 1), Middle Eastern Languages and Cultures 321 (Topic 1), Middle Eastern Studies 342 (Topic 1). Additional prerequisite: Upper-division standing.

**Topic 2: Loyalty and Rebellion in Arabic Literature.** Same as Middle Eastern Studies 342 (Topic 2). Only one of the following may be counted: Islamic Studies 373 (Topic 2), Middle Eastern Languages and Cultures 321 (Topic 2), Middle Eastern Studies 342 (Topic 2). Additional prerequisite: Upper-division standing.

**Topic 3: Memory and Identity in Ancient Arabia.** Same as Middle Eastern Studies 342 (Topic 3). Only one of the following may be counted: Islamic Studies 373 (Topic 3), Middle Eastern Languages and Cultures 321 (Topic 3), Middle Eastern Studies 342 (Topic 3). Additional prerequisite: Upper-division standing.

**Topic 4: The Arabian Nights.** Same as Middle Eastern Studies 342 (Topic 4). Only one of the following may be counted: Islamic Studies 373 (Topic 4), Middle Eastern Languages and Cultures 321 (Topic 4), Middle Eastern Studies 342 (Topic 4). Additional prerequisite: Upper-division standing.

**Topic 5: Israel Through Its Literature.** Same as Comparative Literature 323 (Topic 15), Jewish Studies 363 (Topic 17), and Middle Eastern Studies 342 (Topic 5). Only one of the following may be counted: Comparative Literature 323 (Topic: Introduction to Israeli Literature), Comparative Literature 323 (Topic 15), English 322 (Topic: Introduction to Israeli Literature), Jewish Studies 363 (Topic 17), Middle Eastern Languages and Cultures 321 (Topic 5), Middle Eastern Studies 342 (Topic 5). Additional prerequisite: Upper-division standing.

**Topic 6: Love and the State in Contemporary Israeli Literature.** Same as Jewish Studies 363 (Topic 7) and Middle Eastern Studies 342 (Topic 6). Only one of the following may be counted: Comparative Literature 323 (Topic: Love and State in Contemporary Israeli Literature), English 322 (Topic: Love and State in Contemporary Israeli Literature), Jewish Studies 363 (Topic 7), Middle Eastern Languages and Cultures 321 (Topic 6), Middle Eastern Studies 342 (Topic 6), Women's and Gender Studies 340 (Topic: Love and State in Contemporary Israeli Literature). Additional prerequisite: Upper-division standing.

**Topic 7: Postmodernist Israeli Literature.** Same as Jewish Studies 363 (Topic 19) and Middle Eastern Studies 342 (Topic 7). Study of the first decades of Israeli literature. Themes include the establishment of a new state in the aftermath of the Holocaust, conflict between Israel and Arab nations, and conflict between Israelis and Palestinians. Only one of the following may be counted: Comparative Literature 323 (Topic: Postmodernist Israeli Literature), English 322 (Topic: Postmodernist Israeli Literature), Jewish Studies 363 (Topic 19), Middle Eastern Languages and Cultures 321 (Topic 7), 342 (Topic 7). Additional prerequisite: Upper-division standing.

**Topic 8: The Sacred and the Secular in Contemporary Jewish Literature.** Same as Jewish Studies 363 (Topic 10), Middle Eastern Studies 342 (Topic 8), and Religious Studies 353L. Three lecture hours a week for one semester. Only one of the following may be counted: Jewish Studies 363 (Topic 10), Middle Eastern Languages and Cultures 321 (Topic 8), Middle Eastern Studies 342 (Topic 8), Religious Studies 353 (Topic 3), 353L. Additional prerequisite: Upper-division standing.

**Topic 9: The Qur’an.** Same as Comparative Literature 323 (Topic 37), Core Texts and Ideas 375 (Topic 1), Middle Eastern Studies 342 (Topic 16), Religious Studies 325G, and Women’s and Gender Studies 340 (Topic 54). The history, language, style, and themes of the Qur'an. Only one of the following may be counted: Comparative Literature 323 (Topic 37), Core Texts and Ideas 375 (Topic 1), Islamic Studies 340 (Topic 2), Middle Eastern Languages and Cultures 321 (Topic 9), Middle Eastern Studies 342 (Topic 16), Religious Studies 325G, Women’s and Gender Studies 340 (Topic 54). Additional prerequisite: Upper-division standing.

**Topic 10: Persian Literature, Past and Present.** Same as Middle Eastern Studies 342 (Topic 10). Middle Eastern Languages and Cultures 321 (Topic 10) and Middle Eastern Studies 342 (Topic 10) may not both be counted. Additional prerequisite: Upper-division standing.

**Topic 11: Iranian Women Writers.** Same as Middle Eastern Studies 342 (Topic 11) and Women's and Gender Studies 340 (Topic 10). Only one of the following may be counted: Middle Eastern Languages and Cultures 321 (Topic 11), Middle Eastern Studies 342 (Topic 11), WGS 340 (Topic 10). Additional prerequisite: Upper-division standing.

**Topic 13: Iranian Literature in Exile.** Same as Middle Eastern Studies 342 (Topic 13). Middle Eastern Languages and Cultures 321 (Topic 13) and Middle Eastern Studies 342 (Topic 13) may not both be counted. Additional prerequisite: Upper-division standing.

**Topic 14: Iranian Film and Fiction.** Same as Middle Eastern Studies 342 (Topic 14). Middle Eastern Languages and Cultures 321 (Topic 14) and Middle Eastern Studies 342 (Topic 14) may not both be counted. Additional prerequisite: Upper-division standing.

**Topic 16: Gender in North and West Africa.** Same as African and African Diaspora Studies 340S, Middle Eastern Studies 342 (Topic 28), and Women’s and Gender Studies 340 (Topic 34). Examines gender discourses throughout North African and West African literary works by looking at the role(s) played by Islam and Christianity in the creation of the identities of African men and women. Includes discussion of the question of what gender is, and whether it is socially constructed. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 340S, 372G (Topic 5), Islamic Studies 373 (Topic 8), Middle Eastern Languages and Cultures 321 (Topic 16), Middle Eastern Studies 342 (Topic 28), Women’s and Gender Studies 340 (Topic 34). Additional prerequisite: Upper-division standing.

**Topic 17: The Dead Sea Scrolls.** Same as Ancient History and Classical Civilization 330 (Topic 1), History 364E, Jewish Studies 364 (Topic 4), Middle Eastern Studies 342 (Topic 23), and Religious Studies 353D. Three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 330 (Topic 1), History 364G (Topic 3), 364E, Jewish Studies 364 (Topic 4), Middle Eastern Languages and Cultures 321 (Topic 17), Middle Eastern Studies 342 (Topic 23), Religious Studies 353D. Additional prerequisite: Upper-division standing.

**Topic 19: Islamic Law.** Same as Middle Eastern Studies 342 (Topic 27), Religious Studies 358K, and Women’s and Gender Studies 340 (Topic 27). Designed to give students a foundation in the substantive teachings of the shariah, which comprises not only what we normally think of as law, but also ethics and etiquette. Three lecture hours a week for one semester. Only one of the following may be counted: Islamic Studies 373 (Topic 2), Middle Eastern Languages and Cultures 321 (Topic 2), Middle Eastern Studies 342 (Topic 2). Additional prerequisite: Upper-division standing.

**Topic 27: Loyalty and Rebellion in Arabic Literature.** Same as Middle Eastern Studies 342 (Topic 2). Only one of the following may be counted: Islamic Studies 373 (Topic 2), Middle Eastern Languages and Cultures 321 (Topic 2), Middle Eastern Studies 342 (Topic 2). Additional prerequisite: Upper-division standing.
week for one semester. Only one of the following may be counted:

**Topic 21:** Palestine and the Palestinians: A Journey Through Time. Same as Middle Eastern Studies 342 (Topic 31). Three lecture hours per week for one semester. Only one of the following may be counted: Arabic 360L (Topic: Palestine and the Palestinians), 360L (Topic 10), Middle Eastern Languages and Cultures 321 (Topic 21), Middle Eastern Studies 342 (Topic 31). Additional prerequisite: Upper-division standing.

**Topic 22:** Veiling in the Muslim World. Same as Asian Studies 372F, Religious Studies 358V, and Women’s and Gender Studies 340 (Topic 11). Three lecture hours a week for one semester. Only one of the following may be counted: Middle Eastern Languages and Cultures 321 (Topic 23), Middle Eastern Studies 322K (Topic: Women Filmmakers in the Middle East), 342 (Topic 32), Turkish 372 (Topic: Women Filmmakers in the Middle East), Women’s and Gender Studies 340 (Topic: Women Filmmakers in the Middle East), 340 (Topic 55). Additional prerequisite: Upper-division standing.

**Topic 25:** Love in the East and West. Same as Comparative Literature 323 (Topic 36), Core Texts and Ideas 343, and Middle Eastern Studies 342 (Topic 33). Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 323 (Topic 36), Core Texts and Ideas 343, 345 (Topic 10), Middle Eastern Languages and Cultures 321 (Topic 25), Middle Eastern Studies 342 (Topic 33). Additional prerequisite: Upper-division standing.

**Topic 27:** Islamic Theology. Same as Core Texts and Ideas 357, Middle Eastern Studies 342 (Topic 35), and Religious Studies 358U. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 375 (Topic 2), 357, Islamic Studies 340 (Topic 7), Middle Eastern Languages and Cultures 321 (Topic 27), Middle Eastern Studies 342 (Topic 35), Religious Studies 358 (Topic 14), 358U. Additional prerequisite: Upper-division standing.

**Topic 28:** Rumi and the Persian Sufi Tradition. Same as Middle Eastern Studies 342 (Topic 36). Only one of the following may be counted: Islamic Studies 373 (Topic 12), Middle Eastern Languages and Cultures 321 (Topic 28), Middle Eastern Studies 342 (Topic 36). Additional prerequisite: Upper-division standing.

**Topic 29:** Daily Life in Ancient Egypt. Same as African and African Diaspora Studies 340Q, Classical Civilization 348 (Topic 24), and Middle Eastern Studies 342 (Topic 51). Delves into all areas of Egyptian daily life from the dawn of the dynasties to the age of Cleopatra. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 340Q, 374C (Topic: Daily Life in Ancient Egypt), 374C (Topic 7), Classical Civilization 348 (Topic: Daily Life in Ancient Egypt), 348 (Topic 24), Middle Eastern Languages and Cultures 321 (Topic: Daily Life in Ancient Egypt), 321 (Topic 29), Middle Eastern Studies 342 (Topic: Daily Life in Ancient Egypt), 342 (Topic 51). Additional prerequisite: Upper-division standing.

**Topic 31:** Gender and Art in the Muslim World. Same as Asian Studies 374D, Middle Eastern Studies 342 (Topic 40), Religious Studies 358W, and Women’s and Gender Studies 340 (Topic 62). Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 372 (Topic 46), 374D, Islamic Studies 373 (Topic 15), Middle Eastern Languages and Cultures 321 (Topic 31), Middle Eastern Studies 342 (Topic 40), Religious Studies 358 (Topic 20), 358W, Women’s and Gender Studies 340 (Topic 62). Additional prerequisite: Upper-division standing.

**Topic 33:** Archaeology of Greek Prehistory. Same as Ancient History and Classical Civilization 325 (Topic 8), Classical Civilization 340 (Topic 8), and Middle Eastern Studies 342 (Topic 42). Explores the development of complex societies in ancient Greece by studying its prehistory through archaeology. Only one of the following may be counted: Ancient History and Classical Civilization 325 (Topic: Archaeology of Greek Prehistory), 325 (Topic 8), Classical Civilization 340 (Topic: Archaeology of Greek Prehistory), 340 (Topic 8), Middle Eastern Languages and Cultures 321 (Topic: Archaeology of Greek Prehistory), 321 (Topic 33), Middle Eastern Studies 320 (Topic: Archaeology of Greek Prehistory), 342 (Topic: Archaeology of Greek Prehistory), 342 (Topic 42), Persian 372 (Topic: Archaeology of Greek Prehistory).

**Topic 36:** Graffiti and Poster Art in the Islamic World. Same as Anthropology 324AL (Topic 59), Middle Eastern Studies 342 (Topic 44), Religious Studies 359C, and Women’s and Gender Studies 340 (Topic 67). Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324AL (Topic 59), Islamic Studies 373 (Topic 17), Middle Eastern Languages and Cultures 321 (Topic 36), Middle Eastern Studies 342 (Topic 44), Religious Studies 358 (Topic 21), 359C, Women’s and Gender Studies 340 (Topic 67). Additional prerequisite: Upper-division standing.

**Topic 37:** Lost Languages and Decipherment. Same as Ancient History and Classical Civilization 330 (Topic 4), Classical Civilization 348 (Topic 21), and Middle Eastern Studies 342 (Topic 45). Only one of the following may be counted: Ancient History and Classical Civilization 330 (Topic: Lost Languages & Decipherment), 330 (Topic 4), Classical Civilization 348 (Topic: Lost Languages & Decipherment), 348 (Topic 21), Linguistics 350 (Topic: Lost Languages & Decipherment), Middle Eastern Languages and Cultures 321 (Topic: Lost Languages & Decipherment), 321 (Topic 37), Middle Eastern Studies 342 (Topic: Lost Languages & Decipherment), 342 (Topic 45). Prerequisite: Upper-division standing.

**Topic 38:** Comparative Jewish Literature: Israel, France, and the United States. Same as Jewish Studies 363 (Topic 22) and Middle Eastern Studies 342 (Topic 38). Only one of the following may be counted: Jewish Studies 363 (Topic 22), Middle Eastern Languages and Cultures 321 (Topic 38), Middle Eastern Studies 342 (Topic 38). Additional prerequisite: Upper-division standing.

**Topic 40:** Israeli and Palestine: A Cultural Perspective. Same as Comparative Literature 323 (Topic 64), Jewish Studies 363 (Topic 23), and Middle Eastern Studies 342 (Topic 56). Only one of the following may be counted: Comparative Literature 323 (Topic: Israel/Palestine: Cultrl Persp), 323 (Topic 64), Jewish Studies 363 (Topic: Israel/Palestine: Cultrl Persp), 363 (Topic 23), Middle Eastern Languages and Cultures 321 (Topic: Israel/Palestine: Cultrl Persp), 321 (Topic 40), Middle Eastern Studies 342 (Topic: Israel/Palestine: Cultrl Persp), 342 (Topic 56). Additional prerequisite: Upper-division standing.

**MEL 321C:** Iranian and Iranian-American Identity.

Same as Comparative Literature 323 (Topic 63), Middle Eastern Studies 342 (Topic 62), and Women’s and Gender Studies 340 (Topic 81). Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 323 (Topic: Iran/Iranian-Amer Ident), 323 (Topic 63), Middle Eastern Languages and Cultures 321 (Topic: Iran/Iranian-Amer Ident), 321C, Middle Eastern Studies 342 (Topic: Iran/Iranian-Amer Ident), 342 (Topic 62), Women’s and Gender Studies 340 (Topic: Iran/Iranian-Amer Ident), 340 (Topic 81). Prerequisite: Upper-division standing.
MEL 321D. Debating Genesis.
Same as Jewish Studies 363 (Topic 26), Middle Eastern Studies 342 (Topic 65), and Religious Studies 353M. Three lecture hours a week for one semester. Only one of the following may be counted: Jewish Studies 363 (Topic: Debating Genesis), 363 (Topic 26), Middle Eastern Languages and Cultures 321 (Topic: Debating Genesis), 321D, Middle Eastern Studies 342 (Topic: Debating Genesis), 342 (Topic 65), Religious Studies 353 (Topic: Debating Genesis), 353M. Prerequisite: Upper-division standing.

MEL 321P. The Persian Epic and Popular Culture.
Same as Middle Eastern Studies 342 (Topic 60). Three lecture hours a week for one semester. Only one of the following may be counted: Middle Eastern Languages and Cultures 321 (Topic: Persian Epic/Pop Culture), 321P, Middle Eastern Studies 342 (Topic: Persian Epic/Pop Culture), 342 (Topic 60). Prerequisite: Upper-division standing.

MEL 323. Engaging the Middle East.
Same as Middle Eastern Studies 323C. Three lecture hours a week for one semester. Middle Eastern Languages and Cultures 323 and Middle Eastern Studies 323C may not both be counted. Prerequisite: Upper-division standing; Middle Eastern Languages and Cultures 301 or Middle Eastern Studies 301C.

MEL 379. Conference Course.
Supervised individual study of selected problems in Middle Eastern languages and cultures. Conference course. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

MEL 679H. Honors Tutorial Course.
Supervised tutorial experience in Middle Eastern Languages. Topics in Middle Eastern Languages and Cultures 301 may not both be counted. Prerequisite: For 679HA, admission to the Middle Eastern Languages and Cultures Honors Program; for 679HB, Middle Eastern Languages and Cultures 679HA.

MEL 380. Topics in Middle Eastern Cultures.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

Topic 1: Gender, Clothing, and Identity in Muslim Societies. Same as Middle Eastern Studies 386 (Topic 25). Three lecture hours a week for one semester. Only one of the following may be counted: Middle Eastern Languages and Cultures 380 (Topic 1), Middle Eastern Studies 381 (Topic: Gend/Cloth/Ident in Muslim Soc), 386 (Topic 25). Additional prerequisite: Graduate standing.

Topic 2: Introduction to Islamic Studies. Introduction to the academic field of Islamic Studies. Three lecture hours a week for one semester. Additional prerequisite: Graduate standing.

MEL 380C. Topics in Middle Eastern Languages.
Advanced studies in Middle Eastern languages. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor; additional prerequisites may vary with the topic.

Topic 1: Targumic Aramaic. Examines Aramaic translations of the Hebrew bible that contain many exegetical deviations from the Hebrew text, and provide a glimpse of Jewish theology at the time of their composition. Additional prerequisite: Consent of instructor; some knowledge of Hebrew is recommended.

Topic 2: Syriac. Study of the eastern Aramaic dialect that was spoken in the ancient Near East until the Muslim occupation. Examines the use of the dialect as a vehicle for Christianity in the East; its use in poetry, science, and philosophy; and its influence on Arabic. Covers the essentials of Syriac grammar for the purpose of reading Syriac texts. Hebrew 380C (Topic 9: Syriac) and Middle Eastern Languages and Cultures 380C (Topic 2) may not both be counted. Additional prerequisite: Consent of instructor.

Topic 4: Ugaritic. Study of the West Semitic languages from the city of Ugarit in what is now Syria, which was spoken from the fourteenth through twelfth century BC. Covers the essentials of grammar needed for reading Ugaritic texts. Additional prerequisite: Consent of instructor.

Topic 6: Akkadian I. Introduction to the study of Akkadian, the principal language used in ancient Assyria, Babylonia, and their environs. Explore Old Babylonian grammar and the cuneiform writing system. Middle Eastern Languages and Cultures 380C (Topic: Akkadian I) and 380C (Topic 6) may not both be counted.

Topic 7: Akkadian II. Continue the study of Akkadian and Old Babylonian grammar, syntax, and signs. Middle Eastern Languages and Cultures 380C (Topic: Akkadian II) and 380C (Topic 7) may not both be counted. Additional prerequisite: Middle Eastern Languages and Cultures 380C (Topic 6).

Topic 8: Akkadian III. Read Akkadian texts from a variety of genres and time periods, including Assyrian and Babylonian letters and royal inscriptions. Middle Eastern Languages and Cultures 380C (Topic: Akkadian III) and 380C (Topic 8) may not both be counted. Additional prerequisite: Middle Eastern Languages and Cultures 380C (Topic 7).

Topic 9: Akkadian IV. Read Akkadian texts from a variety of genres and time periods, including Standard Babylonian literary texts. Middle Eastern Languages and Cultures 380C (Topic: Akkadian IV) and 380C (Topic 9) may not both be counted. Additional prerequisite: Middle Eastern Languages and Cultures 380C (Topic 9).

MEL 381. Topics in Middle Eastern Literatures.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

MEL 382. Topics in Middle Eastern Linguistics.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

MEL 383. Teaching Middle Eastern Languages. Additional prerequisite: Graduate standing and consent of instructor.

Topic 2: Introduction to the Structure of Semitic Languages. Covers the grammatical structure of a number of ancient and modern Semitic languages (such as Akkadian, Biblical Hebrew, Ethiopic, and Modern Aramaic) and of the family of languages as a whole. Additional prerequisite: Graduate standing and consent of instructor.
MEL 383. Topics in the Ancient Near East.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

Topic 5: Comparative Semitic Grammar. Same as Linguistics 383 (Topic 10). Examine Semitic languages including their phonology, morphology, and syntax. Only one of the following may be counted: Middle Eastern Languages and Cultures 383 (Topic: Comparative Semitic Grammar), 383 (Topic 5), Linguistics 383 (Topic: Comparative Semitic Grammar), 383 (Topic 10), Hebrew 382C (Topic: Comparative Semitic Grammar).

MEL 383C. Current Issues in Hebrew Bible.
Examines the issues that are current in one major area of Hebrew Bible scholarship. Three lecture hours a week for one semester. Only one of the following may be counted: Hebrew 380C (Topic: Hebrew Bible Doctoral Seminar I), Jewish Studies 383 (Topic: Hebrew Bible Doctoral Seminar III), Middle Eastern Languages and Cultures 383 (Topic: Hebrew Bible Doctoral Seminar III), 383C, 383 (Topic 1: Hebrew Bible Doctoral Seminar I), 383 (Topic 3: Hebrew Bible Doctoral Seminar III), Religious Studies 386H (Topic: Hebrew Bible Doctoral Seminar III). Prerequisite: Graduate standing and consent of instructor.

MEL 383D. Exegetical Seminar in Hebrew Bible.
Examines a biblical book (e.g. Song of Songs) or subject (e.g. Jubilee) applying history, philology, literary theory, poetics, history of interpretation, and linguistics. Three lecture hours a week for one semester. Only one of the following may be counted: Hebrew 380C (Topic: Hebrew Bible Doctoral Seminar II), Middle Eastern Languages and Cultures 383 (Topic: Hebrew Bible Doctoral Seminar II), 383C, 383 (Topic 2: Hebrew Bible Doctoral Seminar II), 383 (Topic 4: Hebrew Bible Doctoral Seminar IV), 383D. Prerequisite: Graduate standing and consent of instructor.

MEL 389. Conference Course in Middle Eastern Languages and Cultures.
Supervised individual study of selected problems in Middle Eastern languages and cultures. The equivalent of three lectures a week for one semester. May be repeated for credit. Prerequisite: Graduate standing, consent of the instructor and graduate adviser.

MEL 393. Comprehensive Examination Preparation.
The equivalent of three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing, consent of the instructor and graduate adviser.

MEL 194, 294, 394. Professional Development in Middle Eastern Languages and Cultures.
For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit. Prerequisite: Graduate standing, consent of instructor and the graduate adviser.

MEL 698. Thesis.
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in Middle Eastern languages and cultures and consent of the graduate adviser; for 698B, Middle Eastern Languages and Cultures 698A.

MEL 398R. Master’s Report.
Preparation of a report to fulfill the requirement for the master’s degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in Middle Eastern languages and cultures and consent of the graduate adviser.

MEL 398T. Supervised Teaching in Middle Eastern Languages and Cultures.
Teaching under the close supervision of a faculty member; weekly group meetings with the instructor, individual consultation, and reports throughout the teaching period. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses

MEL - Middle Eastern Studies

Middle Eastern Studies: MES

Lower-Division Courses

MES 301C. Gateway to the Middle East.
Same as Middle Eastern Languages and Cultures 301. Three lecture hours a week for one semester. Middle Eastern Languages and Cultures 301 and Middle Eastern Studies 301C may not both be counted.

MES 301J. The Ancient Middle East.
Same as Ancient History and Classical Civilization 310 (Topic 3), History 306J, and Middle Eastern Languages and Cultures 301J. Survey the history of the Middle East from the beginning of the Neolithic period (9000 BCE) through the invasion of the region by Alexander the Great in 332 BCE and into the pre-Islamic era. Three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 310 (Topic 3), History 306J, Middle Eastern Languages and Cultures 301J, Middle Eastern Studies 301J.

MES 301K. Introduction to the Middle East: Religious, Cultural, and Historical Foundations.
Same as History 306K and Religious Studies 314K. A survey of the history and civilization of the Middle East from the sixth to the fourteenth century. Three lecture hours a week for one semester. Only one of the following may be counted: History 306K, Middle Eastern Studies 301K, Religious Studies 314 (Topic: Intro M East: Rel/Cul/Hist Fnd), 314K.

MES 301L. Introduction to the Middle East: Adjustment and Change in Modern Times.
Same as Government 303D and History 306J. The responses of the societies of the Middle East and North Africa (Turkey, Iran, Afghanistan, Israel, and the Arab world) to Western cultural and political challenges, primarily since about 1800. Three lecture hours a week for one semester. Only one of the following may be counted: Government 303D, 314 (Topic 3), History 306J, 306N (Topic 5), Middle Eastern Studies 301L.

MES 310. Topics in Middle Eastern Studies.
Studies of areas and issues in the Middle East and North Africa. Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

Topic 4: Social Transformation of Love and Relationships. Same as Sociology 308L. Subjects include the aspects of self and identity; differentiation in the context of love in the modern age; the family
and the individual; the impact of industrialization on private lives and
the public order; gender, communication, love; intercultural love and
intimacy; and personal choice and arranged marriages. Three lecture
hours a week for one semester. Only one of the following may be
counted: Middle Eastern Studies 310 (Topic: Social Transformation
of Love and Relationships), 310 (Topic 4), Sociology 308 (Topic: Social
Transformation of Love and Relationships), 308L.

**Topic 5: Introduction to Music in World Cultures.** Same as Music
303M. Exploration of practices, beliefs, and issues through the study of
various musical genres in the regions of Asia, the Middle East,
Africa, the Pacific, Europe, and the Americas. Three lecture hours a
week for one semester, with additional hours to be arranged. Only
one of the following may be counted: Asian Studies 303M, Middle
Eastern Studies 310 (Topic: Introduction to Music In World Cultures),
310 (Topic 5), Music 303M.

**Topic 6: Jewish Civilization: Beginnings to 1492.** Same as History
306N (Topic 10), Jewish Studies 304M, and Religious Studies 313M.
Introduction to the history, culture, and religion of the Jewish people
from around 1000 BC to the end of the medieval period. Subjects may
include ancient Israel, late Second Temple sectarianism, the rise of
Christianity, rabbinic Judaism, medieval Jewish philosophy, Jewish
mysticism, and Hebrew poetry. Three lecture hours a week for one
semester. Only one of the following may be counted: History 306N
(Topic: Jewish Civilization I), 306N (Topic 10), Jewish Studies 304M,
311 (Topic: Jewish Civilization I), Middle Eastern Studies 310 (Topic:
Jewish Civilization: Beginnings to 1492), 310 (Topic 6), Religious
Studies 313 (Topic: Jewish Civilization I), 313M.

**Topic 8: Introduction to Jewish Studies.** Same as Anthropology 311D,
Jewish Studies 301, and Religious Studies 313D. Three lecture hours
a week for one semester. Only one of the following may be counted:
Anthropology 310L (Topic: Jewish Studies: An Introduction), 311D,
Jewish Studies 301, 311 (Topic: Jewish Studies: An Introduction),
Middle Eastern Studies 310 (Topic: Jewish Studies: An Introduction),
310 (Topic 8), Religious Studies 313 (Topic: Jewish Studies: An
Introduction), 313D.

**MES 310C. Introduction to the Old Testament.**
Same as Core Texts and Ideas 305G, Jewish Studies 311 (Topic 4), and
Religious Studies 313C. Introduction to the many interpretations of
the Hebrew Bible (the Old Testament) and its meaning in the context
of its historical and cultural setting in the ancient near East. Three
lecture hours a week for one semester. Only one of the following may be
counted: Core Texts and Ideas 305G, Jewish Studies 311 (Topic 4),
Middle Eastern Studies 310 (Topic 3), 310C, Religious Studies 313C.

**MES 310D. Introduction to Islam.**
Same as Asian Studies 301M (Topic 15), History 306N (Topic 7), and
Religious Studies 319. The beliefs, theology, history, and main social
and legal institutions of Islam, including the concept of God and society, the
role of women, and Islamic government and movements. Three lecture
hours or two lecture hours and one discussion hour a week for one
semester. Only one of the following may be counted: Asian Studies 301M
(Topic 15), History 306N (Topic 7), Islamic Studies 310, Middle Eastern
Studies 310D, Religious Studies 319.

**MES 310N. Introduction to Modern North Africa.**
Same as History 306N (Topic 12) and Religious Studies 317N.
Introduction to the major themes of North African history from the
sixteenth century to the present. Three lecture hours a week for one
semester. Only one of the following may be counted: History 306N
(Topic: Intro to Modern North Africa), 306N (Topic 12), Middle Eastern
Studies 310 (Topic: Intro Modern North Africa), 310N, Religious Studies
317 (Topic: Intro Modern North Africa), 317N.

**MES 310P. Revolution and Decolonization in North Africa.**
Same as History 310P. Examine the history of anti-colonial struggles
in North Africa and the victory over European colonial powers. Three
lecture hours a week for one semester. Only one of the following may be
counted: History 306N (Topic: Revltn/Decoloniztn N Africa), 310P, Middle
Eastern Studies 310 (Topic: Revltn/Decoloniztn N Africa), 310P.

**MES 310R. Introduction to Middle East Religions.**
Same as Jewish Studies 310R and Religious Studies 310R. Introduction
to the religious landscape of the Middle East including the various
expressions of Eastern Christianity, Islam, and Judaism as well as
Zoroastrianism. Three lecture hours a week for one semester. Only one
of the following may be counted: Islamic Studies 310R, Jewish Studies
310R, Middle Eastern Studies 310R, Religious Studies 310R.

**MES 311. The History of Israel.**
Same as History 311J and Jewish Studies 311 (Topic 7). An introduction
to the history of Israel, from the emergence of the modern Zionist
movement beginning in 1881 to the present. Three lecture hours a week
for one semester. Only one of the following may be counted: History
306N (Topic: History of Israel), 311J, Jewish Studies 311 (Topic: History
of Israel), 311 (Topic 7), Middle Eastern Studies 310 (Topic: History of
Israel), 311.

**MES 311C. Judaism, Christianity, and Islam: An Introduction.**
Same as History 304R, Jewish Studies 311 (Topic 2), and Religious
Studies 304. Examines the intertwined historical developments of the
religions of Judaism, Christianity, and Islam, and explores the principal
beliefs and practices of Jews, Christians, and Muslims. Three lecture
hours a week for one semester. Only one of the following may be
counted: Core Texts and Ideas 304 (Topic: Judaism, Christianity, Islam),
History 304R, Islamic Studies 311 (Topic 2), Jewish Studies 311 (Topic
2), Middle Eastern Studies 311C, Religious Studies 304.

This course is used to record credit the student earns while enrolled at
another institution in a program administered by the University's Study
Abroad Office. Credit is recorded as assigned by the study abroad adviser
in the Department of Middle Eastern Studies. University credit is awarded
to work in an exchange program, it may be counted as coursework taken
in residence. Transfer credit is awarded for work in an affiliated studies
program. May be repeated for credit when the topics vary.

**Upper-Division Courses**

**MES 323C. Engaging the Middle East.**
Same as Middle Eastern Languages and Cultures 323. Three lecture
hours a week for one semester. Middle Eastern Languages and Cultures
323 and Middle Eastern Studies 323C may not both be counted.
Prerequisite: Upper-division standing; Middle Eastern Languages and
Cultures 301 or Middle Eastern Studies 301C.

Additional prerequisite: Upper-division standing.

Topic 8: Multicultural Israel. Same as Anthropology 322D and Jewish Studies 365C. Examines the complex social fabric that comprises contemporary Israeli society, and that shapes Israeli identity, practice and politics. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322D, 325L (Topic 3), Multicultural (Israel), Jewish Studies 365 (Topic 5), Multicultural Israel), 365C, Middle Eastern Studies 341 (Topic 5). Additional prerequisite: Upper-division standing.

Topic 10: Cultural Geographies of Israel. Same as Anthropology 322G and Jewish Studies 365D. Examines critical spatial theory, landscape phenomenology, histories of Zionist architecture and urban planning as applied to Israel from the Yishuv period to the present. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322G, Jewish Studies 311 (Topic: Israel: Space/Place/Landscape), 365D, Middle Eastern Studies 341 (Topic 10). Additional prerequisite: Upper-division standing.

Topic 11: Rule of Law in the Middle East. Same as Government 3660 and Religious Studies 358L. Three lecture hours a week for one semester. Only one of the following may be counted: Government 3660, Islamic Studies 373 (Topic 25), Middle Eastern Studies 341 (Topic 11), Religious Studies 358L. Additional prerequisite: Upper-division standing.

Topic 12: Muslim Women in Politics. Same as Anthropology 324N, Religious Studies 358D, and Women's and Gender Studies 340 (Topic 56). Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L, Religious Studies 372 (Topic 23), Middle Eastern Studies 341 (Topic 12), Religious Studies 358 (Topic 19), 358D, Women's and Gender Studies 340 (Topic 56) Additional prerequisite: Upper-division standing.

Topic 13: Sex and Sexuality in the Muslim World. Same as Religious Studies 358J, Sociology 342S, and Women's and Gender Studies 335 (Topic 20). Three lecture hours a week for one semester. Only one of the following may be counted: Women's and Gender Studies 335 (Topic 20). Additional prerequisite: Upper-division standing.

Topic 14: Contemporary Jerusalem. Same as Anthropology 323Q, Jewish Studies 365 (Topic 18), and Religious Studies 366K. Explore what life is like in today's contested, rapidly growing, and increasingly diverse Jerusalem. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 323Q, Jewish Studies 365 (Topic: Contemporary Jerusalem), 365 (Topic 18), Middle Eastern Studies 341 (Topic 18), Religious Studies 365K. Additional prerequisite: Upper-division standing.

MES 342. Topics in the Middle East: Arts and Humanities.  
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

Topic 1: Introduction to Arabic Literature. Same as Comparative Literature 323 (Topic 13) and Middle Eastern Languages and Cultures 321 (Topic 1). General survey of major themes, genres, and artists in the Arabic literary tradition from the sixth century to the modern era. Only one of the following may be counted: Comparative Literature 323 (Topic 13), Islamic Studies 373 (Topic 1), Middle Eastern Languages and Cultures 321 (Topic 1), Middle Eastern Studies 342 (Topic 1). Additional prerequisite: Upper-division standing.
**Topic 2: Loyalty and Rebellion in Arabic Literature.** Same as Middle Eastern Languages and Cultures 321 (Topic 2). Only one of the following may be counted: Islamic Studies 373 (Topic 2), Middle Eastern Languages and Cultures 321 (Topic 2), Middle Eastern Studies 342 (Topic 2). Additional prerequisite: Upper-division standing.

**Topic 3: Memory and Identity in Ancient Arabia.** Same as Middle Eastern Languages and Cultures 321 (Topic 3). Only one of the following may be counted: Islamic Studies 373 (Topic 3), Middle Eastern Languages and Cultures 321 (Topic 3), Middle Eastern Studies 342 (Topic 3). Additional prerequisite: Upper-division standing.

**Topic 4: The Arabian Nights.** Same as Middle Eastern Languages and Cultures 321 (Topic 4). Only one of the following may be counted: Islamic Studies 373 (Topic 4), Middle Eastern Languages and Cultures 321 (Topic 4), Middle Eastern Studies 342 (Topic 4). Additional prerequisite: Upper-division standing.

**Topic 5: Israel Through Its Literature.** Same as Comparative Literature 323 (Topic 15), Jewish Studies 363 (Topic 17), and Middle Eastern Languages and Cultures 321 (Topic 5). Only one of the following may be counted: Comparative Literature 323 (Topic: Introduction to Israeli Literature), Comparative Literature 323 (Topic 15), English 322 (Topic: Introduction to Israeli Literature), Jewish Studies 363 (Topic 17), Middle Eastern Languages and Cultures 321 (Topic 6), Middle Eastern Studies 342 (Topic 6), Women's and Gender Studies 340 (Topic: Love and State in Contemporary Israeli Literature). Additional prerequisite: Upper-division standing.

**Topic 6: Love and the State in Contemporary Israeli Literature.** Same as Jewish Studies 363 (Topic 7) and Middle Eastern Languages and Cultures 321 (Topic 6). Only one of the following may be counted: Comparative Literature 323 (Topic: Love and State in Contemporary Israeli Literature), English 322 (Topic: Love and State in Contemporary Israeli Literature), Jewish Studies 363 (Topic 7), Middle Eastern Languages and Cultures 321 (Topic 6), Middle Eastern Studies 342 (Topic 7), English 322 (Topic: Postmodernist Israeli Literature), Jewish Studies 363 (Topic 19), Middle Eastern Languages and Cultures 321 (Topic 7), Middle Eastern Studies 342 (Topic 7). Additional prerequisite: Upper-division standing.

**Topic 7: Postmodernist Israeli Literature.** Same as Jewish Studies 363 (Topic 19) and Middle Eastern Languages and Cultures 321 (Topic 7). Study of the first decades of Israeli literature. Themes include the establishment of a new state in the aftermath of the Holocaust, conflict between Israel and Arab nations, and conflict between Israelis and Palestinians. Only one of the following may be counted: Comparative Literature 323 (Topic: Postmodernist Israeli Literature), Comparative Literature 323 (Topic: Postmodernist Israeli Literature), Jewish Studies 363 (Topic 19), Middle Eastern Languages and Cultures 321 (Topic 7), Middle Eastern Studies 342 (Topic 7). Additional prerequisite: Upper-division standing.

**Topic 8: The Sacred and the Secular in Contemporary Jewish Literature.** Same as Jewish Studies 363 (Topic 10) and Middle Eastern Languages and Cultures 321 (Topic 8), and Religious Studies 353L. Three lecture hours a week for one semester. Only one of the following may be counted: Jewish Studies 363 (Topic 10), Middle Eastern Languages and Cultures 321 (Topic 8), Middle Eastern Studies 342 (Topic 8), Religious Studies 353 (Topic 3), 353L. Additional prerequisite: Upper-division standing.

**Topic 9: Mizrahi Writing in Israel.** Same as Hebrew 346 (Topic 9) and Jewish Studies 363 (Topic 8). Only one of the following may be counted: Hebrew 346 (Topic 9), Jewish 363 (Topic 8), Middle Eastern Studies 342 (Topic 9). Additional prerequisite: Upper-division standing, and Hebrew 412L (or 312L) or 320L with a grade of at least C.

**Topic 10: Persian Literature, Past and Present.** Same as Middle Eastern Languages and Cultures 321 (Topic 10). Middle Eastern Languages and Cultures 321 (Topic 10) and Middle Eastern Studies 342 (Topic 10) may not both be counted. Additional prerequisite: Upper-division standing.

**Topic 11: Iranian Women Writers.** Same as Middle Eastern Languages and Cultures 321 (Topic 11) and Women’s and Gender Studies 340 (Topic 10). Only one of the following may be counted: Middle Eastern Languages and Cultures 321 (Topic 11), Middle Eastern Studies 342 (Topic 11), WGS 340 (Topic 10). Additional prerequisite: Upper-division standing.

**Topic 13: Iranian Literature in Exile.** Same as Middle Eastern Languages and Cultures 321 (Topic 13), Middle Eastern Languages and Cultures 321 (Topic 13) and Middle Eastern Studies 342 (Topic 13) may not both be counted. Additional prerequisite: Upper-division standing.

**Topic 14: Iranian Film and Fiction.** Same as Middle Eastern Languages and Cultures 321 (Topic 14). Middle Eastern Languages and Cultures 321 (Topic 14) and Middle Eastern Studies 342 (Topic 14) may not both be counted. Additional prerequisite: Upper-division standing.

**Topic 16: The Qur’an.** Same as Comparative Literature 323 (Topic 37), Core Texts and Ideas 375 (Topic 1), Middle Eastern Languages and Cultures 321 (Topic 9), Religious Studies 325G, and Women’s and Gender Studies 340 (Topic 54). The history, language, style, and themes of the Qur’an. Only one of the following may be counted: Comparative Literature 323 (Topic 37), Core Texts and Ideas 375 (Topic 1), Islamic Studies 340 (Topic 2), Middle Eastern Languages and Cultures 321 (Topic 9), Middle Eastern Studies 342 (Topic 16), Religious Studies 325G, Women’s and Gender Studies 340 (Topic 54). Additional prerequisite: Upper-division standing.

**Topic 19: Self-Revelation in Women’s Writing.** Same as African and African Diaspora Studies 330N, Comparative Literature 323 (Topic 4), and Women’s and Gender Studies 340 (Topic 14). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 330N, 372E (Topic 8), Comparative Literature 323 (Topic 4), Middle Eastern Studies 342 (Topic 19), Women’s and Gender Studies 340 (Topic 14).

**Topic 22: Biblical Archaeology.** Only one of the following may be counted: Anthropology 324L (Topic: Biblical Archaeology), History 364G (Topic: Biblical Archaeology), Jewish Studies 361 (Topic: Biblical Archaeology), Middle Eastern Studies 342 (Topic 22), Religious Studies 353 (Topic: Biblical Archaeology). Prerequisite: Upper-division standing.

**Topic 23: The Dead Sea Scrolls.** Same as Ancient History and Classical Civilization 330 (Topic 1), History 364E, Jewish Studies 364 (Topic 4), Middle Eastern Languages and Cultures 321 (Topic 17), and Religious Studies 353D. Three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 330 (Topic 1), History 364G (Topic 3), 364E, Jewish Studies 364 (Topic 4), Middle Eastern Languages and Cultures 321 (Topic 17), Middle Eastern Studies 342 (Topic 23), Religious Studies 353D. Additional prerequisite: Upper-division standing.

**Topic 25: Politics of Court Literature.** Three lecture hours a week for one semester. Only one of the following may be counted: Arabic 360L (Topic 3), Islamic Studies 373 (Topic 6), Middle Eastern Studies 342 (Topic 25). Additional prerequisite: Upper-division standing.

**Topic 26: Arab Women Poets.** Three lecture hours a week for one semester. Only one of the following may be counted: Arabic 360L (Topic 2), Islamic Studies 373 (Topic 7), Middle Eastern Studies 342 (Topic 26). Additional prerequisite: Upper-division standing.

**Topic 27: Islamic Law.** Same as Middle Eastern Languages and Cultures 321 (Topic 19), Religious Studies 358K, and Women’s and Gender Studies 340 (Topic 27). Designed to give students a foundation in the substantive teachings of the shariah, which comprises not only what we normally think of as law, but also ethics and etiquette. Includes discussion of the question of what gender is, and whether it is socially constructed. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 340S, 3726 (Topic 5), Islamic Studies 373 (Topic 8), Middle Eastern Languages and Cultures 321 (Topic 16), Middle Eastern Studies 342 (Topic 28), Women’s and Gender Studies 340 (Topic 34). Additional prerequisite: Upper-division standing.

**Topic 31: Palestine and the Palestinians: A Journey Through Time.** Same as Middle Eastern Languages and Cultures 321 (Topic 21). Three lecture hours per week for one semester. Only one of the following may be counted: Arabic 360L (Topic: Palestine and the Palestinians), 360L (Topic 10), Middle Eastern Languages and Cultures 321 (Topic 21), Middle Eastern Studies 342 (Topic 31). Additional prerequisite: Upper-division standing.

**Topic 32: Women Filmmakers in the Middle East.** Same as Middle Eastern Languages and Cultures 321 (Topic 23) and Women’s and Gender Studies 340 (Topic 55). Only one of the following may be counted: Middle Eastern Languages and Cultures 321 (Topic 23), Middle Eastern Studies 322K (Topic: Women Filmmakers in the Middle East), 342 (Topic 32), Turkish 372 (Topic: Women Filmmakers in the Middle East), Women’s and Gender Studies 340 (Topic: Women Filmmakers in the Middle East), 340 (Topic 55). Additional prerequisite: Upper-division standing.

**Topic 33: Love in the East and West.** Same as Comparative Literature 323 (Topic 36), Core Texts and Ideas 343, and Middle Eastern Languages and Cultures 321 (Topic 25). Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 323 (Topic 36), Core Texts and Ideas 343, 345 (Topic 10), Middle Eastern Languages and Cultures 321 (Topic 25), Middle Eastern Studies 342 (Topic 33). Additional prerequisite: Upper-division standing.

**Topic 35: Islamic Theology.** Same as Core Texts and Ideas 357, Middle Eastern Languages and Cultures 321 (Topic 27), and Religious Studies 358U. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 375 (Topic 2), 357, Islamic Studies 340 (Topic 7), Middle Eastern Languages and Cultures 321 (Topic 27), Middle Eastern Studies 342 (Topic 35), Religious Studies 358 (Topic 14), 358U. Additional prerequisite: Upper-division standing.

**Topic 36: Rumi and the Persian Sufi Tradition.** Same as Middle Eastern Languages and Cultures 321 (Topic 28). Only one of the following may be counted: Islamic Studies 373 (Topic 12), Middle Eastern Languages and Cultures 321 (Topic 28), Middle Eastern Studies 342 (Topic 36). Additional prerequisite: Upper-division standing.

**Topic 37: Biblical Prophecy.** Same as Core Texts and Ideas 354P, Jewish Studies 363 (Topic 28), and Religious Studies 353N. An introduction to the diversity of prophetic literature in the Old Testament, its historical development, social context, and Near Eastern parallels. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 354P, 375 (Topic: Biblical Prophecy), Jewish Studies 363 (Topic: Biblical Prophecy), 363 (Topic 28), Middle Eastern Languages and Cultures 321 (Topic 24), Middle Eastern Studies 342 (Topic 37), Religious Studies 353 (Topic: Biblical Prophecy), 353N, 361 (Topic: Biblical Prophecy). Additional prerequisite: Upper-division standing.

**Topic 38: Comparative Jewish Literature: Israel, France, and the United States.** Same as Jewish Studies 363 (Topic 22) and Middle Eastern Languages and Cultures 321 (Topic 38). Only one of the following may be counted: Jewish Studies 363 (Topic 22), Middle Eastern Languages and Cultures 321 (Topic 38), Middle Eastern Studies 342 (Topic 38). Additional prerequisite: Upper-division standing.

**Topic 40: Gender and Art in the Muslim World.** Same as Asian Studies 374D, Middle Eastern Languages and Cultures 321 (Topic 31), Religious Studies 358W, and Women’s and Gender Studies 340 (Topic 62). Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 372 (Topic 46), 374D, Islamic Studies 373 (Topic 15), Middle Eastern Languages and Cultures 321 (Topic 31), Middle Eastern Studies 342 (Topic 40), Religious Studies 358 (Topic 20), 358W, Women’s and Gender Studies 340 (Topic 62). Additional prerequisite: Upper-division standing.

**Topic 42: Archaeology of Greek Prehistory.** Same as Ancient History and Classical Civilization 325 (Topic 8), Classical Civilization 340 (Topic 8), and Middle Eastern Languages and Cultures 321 (Topic 33). Three lecture hours per week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 325 (Topic: Archaeology of Greek Prehistory), 325 (Topic 8), Classical Civilization 340 (Topic: Archaeology of Greek Prehistory), 340 (Topic 8), Middle Eastern Languages and Cultures 321 (Topic: Archaeology of Greek Prehistory), 321 (Topic 33), Middle Eastern Studies 320 (Topic: Archaeology of Greek Prehistory), 342 (Topic: Archaeology of Greek Prehistory), 342 (Topic 42), Persian 372 (Topic: Archaeology of Greek Prehistory).

**Topic 44: Graffiti and Poster Art in the Islamic World.** Same as Anthropology 324L (Topic 59), Middle Eastern Languages and Cultures 321 (Topic 36), Religious Studies 359C, and Women’s and Gender Studies 340 (Topic 67). Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic 59), Islamic Studies 373 (Topic 17), Middle Eastern Languages and Cultures 321 (Topic 36), Middle Eastern Studies 342 (Topic 44), Religious Studies 358 (Topic 21), 359C, Women’s and Gender Studies 340 (Topic 67). Additional prerequisite: Upper-division standing.

**Topic 45: Lost Languages and Decipherment.** Same as Ancient History and Classical Civilization 330 (Topic 4), Classical Civilization 348 (Topic 21), and Middle Eastern Languages and Cultures 321 (Topic 37). Only one of the following may be counted: Ancient History and Classical Civilization 330 (Topic: Lost Languages & Decipherment), 330 (Topic 4), Classical Civilization 348 (Topic: Lost Languages & Decipherment), 348 (Topic 21), Linguistics 350 (Topic: Lost Languages & Decipherment), Middle Eastern Languages and Cultures 321 (Topic: Lost Languages & Decipherment), 321 (Topic 37), Middle Eastern Studies 342 (Topic: Lost Languages & Decipherment), 342 (Topic 45). Prerequisite: Upper-division standing.

**Topic 51: Daily Life in Ancient Egypt.** Same as African and African Diaspora Studies 340Q, Classical Civilization 348 (Topic 24), and Middle Eastern Languages and Cultures 321 (Topic 29). Delves into all areas of Egyptian daily life from the dawn of the dynasties to the age of Cleopatra. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 340Q, 374C (Topic: Daily Life in Ancient Egypt), 374C (Topic 7), Classical Civilization 348 (Topic: Daily Life in Ancient Egypt), 348 (Topic 24), Middle Eastern Languages and Cultures 321 (Topic: Daily Life in Ancient Egypt), 321 (Topic 29), Middle Eastern Studies 342 (Topic: Daily Life in Ancient Egypt), 342 (Topic 51). Additional prerequisite: Upper-division standing.

Topic 54: Hermits, Monks, and Saints in Early Christianity. Same as Classical Civilization 348C and Religious Studies 365D. Examine individual and communal forms of Christian monasticism from the first through fifth centuries CE. Explore the social, economic and religious factors that may have made a life of self-denial attractive to many early Christians and the role of authority in these movements. Three lecture hours a week for one semester. Only one of the following may be counted: Classical Civilization 348 (Topic: Hermits, Monks, and Saints in Early Christianity), 348C, Middle Eastern Studies 342 (Topic: Hermits, Monks, and Saints in Early Christianity), 342 (Topic 54), Religious Studies 365 (Topic: Hermits, Monks, and Saints in Early Christianity), 365D. Additional prerequisite: Upper-division standing.

Topic 56: Israel and Palestine: A Cultural Perspective. Same as Comparative Literature 323 (Topic 64), Jewish Studies 363 (Topic 23), and Middle Eastern Languages and Cultures 321 (Topic 40). Only one of the following may be counted: Comparative Literature 323 (Topic: Israel/Palestine: Cultur Persp), 323 (Topic 64), Jewish Studies 363 (Topic: Israeli/Palestine: Cultur Persp), 363 (Topic 23), Middle Eastern Languages and Cultures 321 (Topic: Israeli/Palestine: Cultur Persp), 321 (Topic 40), Middle Eastern Studies 342 (Topic: Israeli/Palestine: Cultur Persp), 342 (Topic 56). Additional prerequisite: Upper-division standing.

Topic 57: Divine Persuasion in Biblical Times and Place. Same as Jewish Studies 363 (Topic 24) and Rhetoric and Writing 330E (Topic 13). Explore the use of persuasive strategies in an ancient and non-Western culture, that of the Hebrew Bible. Using rhetorical techniques, analyze three types of texts: narratives of interactions between ordinary people and God; interactions between people, God, and authorized prophets; and prayers in prose and poetry. Only one of the following may be counted: Art History 328N, 361L (Topic: Arabs/Vikings Art Culture), German, Scandinavian, and Dutch Studies 360 (Topic: Arabs/Vikings Art Culture) 362F, Middle Eastern Studies 343 (Topic: Arabs/Vikings Art Culture), 343 (Topic 13). Additional prerequisite: Upper-division standing.

**Topic 15: Africa and Rome.**

**Topic 16: Jews: Nation or People.**
Same as History 366D and Jewish Studies 364 (Topic 16). Three lecture hours a week for one semester. Only one of the following may be counted: History 366D, 366N (Topic: Jews: Nation or People?), Jewish Studies 364 (Topic: Jews: Nation or People?), 364 (Topic 16), Middle Eastern Studies 343 (Topic: Jews: Nation or People?), 343 (Topic 16). Additional prerequisite: Upper-division standing.

**Topic 17: Restitution and Restorative Justice after the Holocaust.**
Same as European Studies 346 (Topic 35), History 366E, and Jewish Studies 364 (Topic 17). Examine attempts to find a measure of justice after the Holocaust. Explore themes of human rights and international law. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 346 (Topic: Holocaust/Restitution/Justice), 346 (Topic 35), History 366E, 366N (Topic: Holocaust/Restitution/Justice), Jewish Studies 364 (Topic: Holocaust/Restitution/Justice), 364 (Topic 17), Middle Eastern Studies 343 (Topic: Holocaust/Restitution/Justice), 343 (Topic 17). Additional prerequisite: Upper-division standing.

**Topic 20: Islam in the Early Modern World: Religion and Culture.**
Same as History 367S and Religious Studies 359D. Examine the history of the religious and cultural development across the Islamic world between the thirteenth and eighteenth centuries, stemming from the rise of the Mongols and the end of the caliphate. Explore the early modern Muslim empires of the Ottomans, Safavids, and the Mughals. Three lecture hours a week for one semester. Only one of the following may be counted: History 364G (Topic: Islam Early Mod World:Rel/ Cult), 367S, Islamic Studies 372 (Topic: Islam Early Mod World:Rel/ Cult), 373 (Topic 20), Middle Eastern Studies 343 (Topic: Islam Early Mod World:Rel/Cult), 343 (Topic 20), Religious Studies 358 (Topic 22), 359D. Additional prerequisite: Upper-division standing.

**Topic 21: Transnational Asia: From the Middle East to the Far East.**
Same as Asian Studies 361R and History 343C. Examine how various groups of people understood, experienced, and imagined concepts such as “the East” and “Asia” with a primary focus on the nineteenth and twentieth centuries. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic: Transnational Asia), 361R, History 343C, Middle Eastern Studies 343 (Topic: Transnational Asia), 343 (Topic 21). Additional prerequisite: Upper-division standing.

**Topic 22: French Empire: The West and Islam.**
Same as History 364Q and Religious Studies 358F. The development of regions within the Mediterranean, variously called the West and East or Europe and Islam, with an emphasis on the role of modern France and France’s Mediterranean empire. Three lecture hours for one semester. Only one of the following may be counted: History 364G (Topic 7), 364Q, Islamic Studies 372 (Topic 22), Middle Eastern Studies 343 (Topic 22), Religious Studies 358 (Topic 16), 358F. Additional prerequisite: Upper-division standing.

**Topic 23: Muslim Travelers and Traders.**
Same as Asian Studies 343D, History 343D, and Religious Studies 343D. Introduction to modern Middle Eastern and Islamic history in the broader context of globalization, with a primary focus on the nineteenth century to the present. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 343D, History 343D, 366N (Topic: Muslim Travelers and Traders), Middle Eastern Studies 343 (Topic: Muslim Travelers and Traders), 343 (Topic 23), Religious Studies 343D. Additional prerequisite: Upper-division standing.

**Topic 24: Arab Citizens of Israel.**
Same as History 331D and Jewish Studies 364 (Topic 24). Examine the historical, social, and political processes of change experienced by the Palestinian-Arab community in Israel, including the fundamental aspects pertaining to the founding of Israel as “a Jewish and democratic state” and the relations between the Arab minority and the Jewish majority. Three lecture hours a week for one semester. Only one of the following may be counted: History 331D, Jewish Studies 364 (Topic 24), Middle Eastern Studies 343 (Topic: Arab Citizens of Israel), 343 (Topic 24). Additional prerequisite: Upper-division standing.

**Topic 25: The Arab-Israeli Conflict.**
Same as History 331E and Jewish Studies 364 (Topic 25). Examine the elements of the Arab-Israeli conflict, including the main figures involved, events, and turning-points in its history. Three lecture hours a week for one semester. Only one of the following may be counted: History 331E, Jewish Studies 364 (Topic: Arab-Israeli Conflict), 364 (Topic 25), Middle Eastern Studies 343 (Topic: Arab-Israeli Conflict), 343 (Topic 25). Additional prerequisite: Upper-division standing.

**MES 351: Mediterranean Crossroads Seminar.**
Reading and discussion about the lands, cultures, and societies of the eastern Mediterranean from a variety of disciplinary perspectives. Students prepare to study in the Middle East (in Middle Eastern Studies 352) and begin work on their individual research projects. Three lecture
hours a week for one semester. Offered in the spring semester only. 
Prerequisite: Upper-division standing and consent of instructor.

MES 352. Mediterranean Crossroads Study Abroad Seminar. 
Students study and conduct research in the Middle East. The equivalent of three lecture hours a week for one semester. Offered in the summer session only. Prerequisite: Middle Eastern Studies 351.

MES 353. Mediterranean Crossroads Conference Course. 
Under supervision of a faculty member, students complete their research projects following participation in Middle Eastern Studies 352. Conference course. Offered in the fall semester only. Prerequisite: Middle Eastern Studies 352.

MES 360. Conference Course. 
Supervised individual research, discussion, and writing of papers about various general and specialized Middle Eastern subjects. Conference course. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

Research and staff experience working in an appropriate agency or business. At least six but no more than nine hours of work a week for one semester. May not be repeated for credit. Prerequisite: Completion of at least seventy semester hours of coursework, including twelve hours of Middle Eastern studies, and consent of the undergraduate adviser.

MES 679H. Honors Tutorial Course. 
Supervised individual reading for one semester, followed by research and writing to produce a substantial paper on a special topic in middle eastern studies, to be completed during the second semester. Conference course for two semesters. Prerequisite: For 679HA, admission to the Middle Eastern Studies Honors Program; for 679HB, Middle Eastern Studies 679HA.

Graduate Courses

Same as Asian Studies 391 (Topic 6), Latin American Studies 381 (Topic 8), and Russian, East European, and Eurasian Studies 380. Multidisciplinary seminar for students in area studies, business administration, law, and public policy. The faculty includes both academics and business leaders. Only one of the following may be counted: Asian Studies 391 (Topic 6), International Business 395 (Topic: International Business Fellows Seminar), Latin American Studies 381 (Topic 8), Middle Eastern Studies 380, Public Affairs 388K (Topic: International Business Fellows Seminar), Russian, East European, and Eurasian Studies 380.

MES 381. Seminar in Middle Eastern Civilizations and Cultures. 
Advanced studies of various aspects of the civilizations and cultures of the Middle East and North Africa. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

Topic 11: Regional Geography of the Middle East and North Africa. 
Same as Geography 385 (Topic 5: The Middle East and North Africa). Topics include developmental activity and spatial change in the Middle East, comparative regional studies.

Topic 22: Politics of the Middle East and North Africa. 
Same as Government 390L (Topic 4: Politics of the Middle East and North Africa). Readings and research on the political systems of the Arab world, Israel, Turkey, Iran, and Afghanistan. Precise topics vary.

Additional prerequisite: Twenty-four semester hours of coursework in government or related fields, and consent of the graduate adviser.

MES 385. Topics in the Middle East: History. 
Advanced studies of various aspects of history in the Middle East. Three lecture hours a week for one semester. Only one of the following may be counted unless the topics vary: Middle Eastern Studies 381, 384, 385, 386. May be repeated for credit when the topics vary. Prerequisite: Graduate standing. Additional prerequisites may vary with the topic.

Topic 1: Middle East Police and Criminals. 
Examine the crime and criminals, as well as police and law enforcement across the
Middle East. Discover how crime and law enforcement have evolved over the past two centuries in the Modern Middle East. Only one of the following may be counted: History 388K (Topic: Middle East Cops/Criminals), Middle Eastern Studies 385 (Topic: Middle East Cops/Criminals), 385 (Topic 1).

**Topic 2: Nationalisms in the Middle East.** Examine theories, methods and debates associated with nationalism in the Modern Middle East, including the histories of national and translational manifestations of nationalism, as well as the nationalisms of minorities in the region, and thematic topics such as race and ethnicity, gender, historiography, and religion. Only one of the following may be counted: Government 390L (Topic: Nationalisms in Middle East), History 388K (Topic: Nationalisms in Middle East), Middle Eastern Studies 385 (Topic: Nationalisms in Middle East), 385 (Topic 2).

**Topic 3: Islamic Historiography.**

**Topic 4: Islamic Revolution of Iran.** Additional prerequisite: Consent of instructor.

**Topic 5: Modern Iranian History and Historiography.**

**Topic 6: Shi'ite Religious and Political Ideologues.**

**Topic 7: Women in Islamic Societies.** Same as Asian Studies 391 (Topic 7: Women in Islamic Societies) and History 382N (Topic 2: Women in Islamic Societies). Only one of the following may be counted: Asian Studies 391 (Topic 7), History 382N (Topic 2), Middle Eastern Studies 385 (Topic 7).

**Topic 9: Method and Theory in Middle Eastern Studies.**

**Topic 10: Modern Arab Renaissance: An Inquiry.**

**Topic 11: State and Society in the Middle East.**

**Topic 12: European Imperialism: British Empire.** Same as Asian Studies 391 (Topic 3) and History 380L (Topic 1). Study of the British empire in the Middle East, Asia and Africa. Only one of the following may be counted: Asian Studies 391 (Topic 3), History 380L (Topic 1), Middle Eastern Studies 385 (Topic 12). Additional prerequisite: Graduate standing.

**Topic 13: The Ideas of the East.** Same as Asian Studies 391C.

Examine the significance of the transnational movement of people, ideas, and goods in the process of constructing geopolitical categories such as the West, the East, and Asia; and their subcategories such as the Middle East, Southeast Asia, and East Asia. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 391C, History 381 (Topic: Ideas of East: Global Hist), Middle Eastern Studies 385 (Topic: Ideas of East: Global Hist), 385 (Topic 13). Additional prerequisite: Graduate standing.

**Topic 14: Global Iran.** Examine modern Iranian history from the nineteenth century to the present, with an emphasis on a body of scholarship that critiques methodological nationalism. Only one of the following may be counted: History 388K (Topic: Global Iran), Middle Eastern Studies 385 (Topic: Global Iran), 385 (Topic 14).

**MES 386. Topics in the Middle East: Arts and Humanities.**

Advanced studies of various aspects of the arts and humanities in the Middle East. Three lecture hours a week for one semester. Only one of the following may be counted unless the topics vary. Middle Eastern Studies 381, 384, 385, 386. May be repeated for credit when the topics vary. Prerequisite: Graduate standing. Additional prerequisites may vary with the topic.

**Topic 1: The Arabic Humanities.** Same as Asian Studies 390D and Religious Studies 390T (Topic 4). Explore the traditions formed in pre-modern Islamic humanities. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 390D, Middle Eastern Studies 386 (Topic: The Arabic Humanities), 386 (Topic 1), Religious Studies 390T (Topic 4). Additional prerequisite: Graduate standing and Arabic 531L or 581N.

**Topic 2: Iranian Film and Fiction.** Same as Persian 384C (Topic 10). Middle Eastern Studies 386 (Topic 2) and Persian 384C (Topic 10) may not both be counted.

**Topic 3: Reading Arabic Literature.** Same as Religious Studies 383T (Topic 3). Examine the canons of Arabic literature through readings in translation. Only one of the following may be counted: Comparative Literature 386 (Topic: Reading Arabic Literature), Middle Eastern Studies 386 (Topic: Reading Arabic Literature), 386 (Topic 3), Religious Studies 383T (Topic 3).

**Topic 5: Theory and Practice in Literary Translation.**

**Topic 6: Modern Arabic Poetry.** Explore Arabic poetic production. Only one of the following may be counted: Comparative Literature 386 (Topic: Modern Arabic Poetry), Middle Eastern Studies 386 (Topic: Modern Arabic Poetry), 386 (Topic 6). Additional prerequisite: Arabic 531L or 381N.

**Topic 7: Arab Women Poets.**

**Topic 8: Islamic Revolution of Iran.** Additional prerequisite: Consent of instructor.

**Topic 9: Classical Arabic Akhbar.**

**Topic 10: Islamic Ornament.**

**Topic 12: Islamic Studies: Disciplinary Introduction.**

**Topic 13: Method and Theory in Middle Eastern Studies.**

**Topic 14: Mizrahi Writing in Israel.**

**Topic 15: Post-Zionist Perspectives in Israeli Literature.**

**Topic 16: Readings in Contemporary Persian Political Writings.**

**Topic 18: Seminar in Music, Gender, and Sexuality.**

**Topic 19: Women in Scripture.**

**Topic 21: Middle Eastern Modernities.** Same as Asian Studies 390E. Explore how Arabic literature and thought changed over the course of the nineteenth and twentieth centuries through extended studies of poetry and prose written in Arabic. Examine the relationship of modernity to modernist literature in order to define what modernism means in an Arab/IC context. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 390E, Comparative Literature 386 (Topic: Middle Eastern Modernities), Middle Eastern Studies 386 (Topic: Middle Eastern Modernities), 386 (Topic 21). Additional prerequisite: Graduate standing and Arabic 531L or 381N or the equivalent.

**Topic 22: Reading the Maghreb.** Same as African and African Diaspora Studies 385C (Topic 1) and French 390N (Topic 1). Examine Maghrebi literature and film of both French and Arabic expression, along with works of psychoanalytic and postcolonial theory. Only one of the following may be counted: African and African Diaspora Studies 385C (Topic 1), French 390N (Topic: Reading the Maghreb), 390N (Topic 1), Middle Eastern Studies 386 (Topic: Reading the Maghreb), 386 (Topic 22).

**Topic 23: Late Ottoman State and Society.** Study of state and society in the late Ottoman Empire (c. 1700-1922), focusing on social and economic life, religion, law, government, ideology, arts, and sciences. Three lecture hours a week for one semester. Middle Eastern Studies 386 (Topic: Late Ottoman State & Society) and 386 (Topic 23) may not both be counted. Additional prerequisite: Graduate standing.

**Topic 24: Islamic Feminism.** Exploration of the idea, history, figures, and writings of Islamic feminism, covering the 20th and 21st century. Three lecture hours a week for one semester. Middle Eastern Studies 386 (Topic: Islamic Feminism) and 386 (Topic 24) may not both be counted.

**Topic 25: Gender, Clothing, and Identity in Muslim Societies.** Same as Middle Eastern Languages and Cultures 380 (Topic 1). Three lecture hours a week for one semester. Only one of the following may be counted: Middle Eastern Languages and Cultures 380 (Topic 1), Middle Eastern Studies 381 (Topic: Gend/Cloth/Ident in Muslim Soc), 386 (Topic 25). Additional prerequisite: Graduate standing.

**Topic 26: The New Middle East: A Critical Approach.** Same as Anthropology 391 (Topic 36) and Government 390L (Topic 23). Examine new analytical approaches to understanding the Middle East, including its social and political dynamics, utilizing an interdisciplinary approach. Only one of the following may be counted: Anthropology 391 (Topic 36) and Government 390L (Topic 23).
Professional Courses

391 (Topic 36), Government 390L (Topic 23), Middle Eastern Studies 386 (Topic: New Middle East), 386 (Topic 26).

**Topic 27: Gender, Islam and Representation in the Modern Middle East.** Same as Anthropology 391 (Topic 37) and Religious Studies 390T (Topic 5). Examine representations of women across majority Muslim countries and explore how women producers and consumers navigate within the framework of regulations set by religious and governmental bodies. Only one of the following may be counted: Anthropology 391 (Topic 37), Middle Eastern Studies 386 (Topic: Gender, Islam, Representations), 386 (Topic 27), Religious Studies 390T (Topic 5), Women's and Gender Studies 393 (Topic: Gender, Islam, Representations).

**MES 389. Conference Course.**
Supervised individual study of selected problems in Middle Eastern Studies. The equivalent of three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing, consent of the instructor and graduate adviser.

**MES 390M. Applied Methods and Practice in Middle Eastern Studies.**
Three lecture hours a week for one semester. Prerequisite: Graduate standing.

**MES 194, 294, 394. Professional Development in Middle Eastern Studies.**
For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing, consent of instructor and the graduate adviser.

**MES 097. Proseminar.**
Restricted to first-semester Middle Eastern Studies (MA) majors. Introduces the incoming Master of Arts student cohort to the Center of Middle Eastern Studies’ faculty and their research. One lecture hour a week for one semester. Offered on the credit/no credit basis only.

**MES 698. Thesis.**
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in Middle Eastern studies and consent of the graduate adviser; for 698B, Middle Eastern Studies 698A.

**MES 398R. Master’s Report.**
Preparation of a report to fulfill the requirement for the master’s degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in Middle Eastern studies and consent of the graduate adviser.

**MES 398T. Supervised Teaching in Middle Eastern Studies.**
Teaching under the close supervision of a faculty member; weekly group meetings with the instructor, individual consultation, and reports throughout the teaching period. Three lecture hours a week for one semester. Prerequisite: Graduate standing and appointment as a teaching assistant or assistant instructor.

**MFG - Manufacturing Systems Engineering**

**Manufacturing Systems Engineering: MFG**

**Lower-Division Courses**

**Upper-Division Courses**

**Graduate Courses**

**MFG 197, 397, 597, 697. Research Problems.**
Problem selected by the student with approval of the graduate adviser. For each semester hour of credit earned, the equivalent of one class hour a week for one semester. Prerequisite: Graduate standing in manufacturing systems engineering and consent of the graduate adviser.

**MFG 397K. Advanced Studies in Manufacturing Systems Engineering.**
Selection of topics based on needs of an adequate number of students. The equivalent of three class hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in manufacturing systems engineering and consent of instructor.

**MFG 397M. Graduate Research Internship.**
Research associated with enrollment in the Graduate Research Internship Program (GRIP). Prerequisite: Graduate standing and consent of instructor and the dean of the Cockrell School of Engineering.

**MFG 197S. Graduate Seminar in Technical Communication.**
The master's degree program in manufacturing systems engineering includes three semester hours in this course. Practice and application of technical communication skills in engineering. The equivalent of one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**MFG 397M. Graduate Research Internship.**
Research associated with enrollment in the Graduate Research Internship Program (GRIP). Prerequisite: Graduate standing and consent of instructor and the dean of the Cockrell School of Engineering.

**MFG 197S. Graduate Seminar in Technical Communication.**
The master's degree program in manufacturing systems engineering includes three semester hours in this course. Practice and application of technical communication skills in engineering. The equivalent of one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**MFG 698. Thesis.**
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in manufacturing systems engineering and consent of the graduate adviser; for 698B, Manufacturing Systems Engineering 698A.

**MFG 398R. Master’s Report.**
Preparation of a report to fulfill the requirement for the master's degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in manufacturing systems engineering and consent of the graduate adviser.

**Professional Courses**
MIS - Management Information Systems

Management Information Systems: MIS

Lower-Division Courses

MIS 301. Introduction to Information Technology Management.

Restricted to students in the McCombs School of Business. Explores how information technology helps to achieve competitive advantage and improve decision making, business processes, operations, and organizational design. Uses a cross-functional perspective to recognize the role of technology across business activities of management, finance, marketing, human resources, and operations. Three lecture hours a week for one semester. Management Information Systems 301 and 301H may not both be counted. Offered on the letter-grade basis only.

MIS 301H. Introduction to Information Technology Management: Honors.

Restricted to students admitted to the McCombs School of Business Honors Program. Explores how information technology helps to achieve competitive advantage and improve decision making, business processes, operations, and organizational design. Uses a cross-functional perspective to recognize the role of technology across business activities of management, finance, marketing, human resources, and operations. Three lecture hours a week for one semester. Management Information Systems 301 and 301H may not both be counted. Offered on the letter-grade basis only.

MIS 302F. Foundations of Information Technology Management.

Restricted to non-McCombs School of Business majors. Explores how information technology helps to achieve competitive advantage and improve decision making, business processes, operations, and organizational design. Uses a cross-functional perspective to recognize the role of technology across business activities of management, finance, marketing, human resources, and operations. Three lecture hours a week for one semester. Management Information Systems 301 and 302F may not both be counted.

MIS 304. Introduction to Problem Solving and Programming.

Same as Business Analytics 304. Restricted to students in the McCombs School of Business. Programming skills for creating easy-to-maintain systems for business applications. Object-oriented and structured methodologies with Python. Three lecture hours a week for one semester. Only one of the following may be counted: Business Analytics 304, 305, or Management Information Systems 304. Offered on the letter-grade basis only.

Basic computer terminology, hardware and software, communications technology, graphics, systems analysis and design, and issues arising out of the rapidly evolving field of information systems. Students are expected to achieve a working knowledge of personal computer software, including operating system software and environments, as well as spreadsheets, analytical graphics, databases, and presentation software. Hands-on experience with the Internet and use of electronic mail. Three lecture hours a week for one semester.

Upper-Division Courses

MIS 325. Database Management.

Same as Business Analytics 325. Restricted to students in the McCombs School of Business. Beginning and intermediate topics in data modeling for relational database management systems. Three lecture hours a week for one semester. Only one of the following may be counted: Business Analytics 325, 327, or Management Information Systems 325. Offered on the letter-grade basis only.

MIS 333K. Web Application Development.

Restricted to students in a business major. Concepts and practices of information systems. Advanced programming techniques used to generate menu-driven applications. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Business Analytics 304, 305, or Management Information Systems 304; and Business Analytics 325, 327, or Management Information Systems 325 with a grade of at least C- in each.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office or the school’s BBA Exchange Programs. Credit is recorded as assigned by the study abroad adviser in the Department of Information, Risk, and Operations Management. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. May be repeated for credit when the topics vary.

MIS 366P. Management Information Systems Practicum.

Restricted to students in a business major. Students apply skills in their major area and focus on additional project management skills through group projects conducted in a professional setting. Students may work with a private or a public enterprise. The equivalent of three lecture hours a week for one semester. Prerequisite: Forty-five semester hours of college coursework and consent of instructor.

MIS 173, 273, 373. Topics in Management Information Systems.

Restricted to students in a business major. Provides in-depth treatment of business data processing concerns such as database management, telecommunications, and development of commercial systems. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Varies with the topic.

Topic 8: Health Care Management. Offered on the letter-grade basis only. Additional prerequisite: Management Information Systems 325 or Business Analytics 325.

Topic 11: Advanced Analytics Programming. Focuses hands-on data analysis using the Python programming language. Subjects include machine learning tasks such as classification and clustering. Only one of the following may be counted: Management Information Systems 373 (Topic: Advanced Analytics Programming), 373 (Topic 11), Business Analytics 372 (Topic 1). Offered on the letter-grade basis only. Additional prerequisite: Business Analytics 304, 305, or Management Information Systems 304 with a grade of at least C-.

Topic 13: Information Technology for Supply Chains. Provides an understanding of how information technology is used to coordinate supply chain activities across different industries. Students work in teams and undertake hands-on exercises to learn how to plan and coordinate operations. Management Information Systems 173, 273, 373 (Topic 13) and Operations Management 137, 237, 337 (Topic 4) may not both be counted. Offered on the letter-grade basis only. Additional prerequisite: Management Information Systems 301, 301H, or 302F with a grade of at least C.

Topic 16: Information Technology Security, Privacy, and Survivability. Offered on the letter-grade basis only. Additional prerequisite: For business majors, Management Information Systems 333K or the equivalent; for others, consent of instructor.

Topic 17: Predictive Analytics and Data Mining. Introduces the data mining process and primary data mining techniques employed to extract intelligence from data and evaluates the strengths and weaknesses of data mining techniques applied to challenges in various business domains. Only one of the following may be counted: Business Analytics 357, 372 (Topic 2), Management Information Systems 373 (Topic 17), Marketing 372 (Topic: Predictive Analytics and Data Mining), 372 (Topic 22). Offered on the letter-grade basis only. Additional prerequisite: Statistics 301, 301H, 309 or 309H.

Topic 21: Open Innovation. Offered on the letter-grade basis only.

Topic 22: IT Audit and Security. Offered on the letter-grade basis only.

Topic 23: Social Media Analytics. Introduction to social network analysis for business value using statistical optimization and decision theory; and foundation for analyzing online search and conversation data for market sensing, sentiments, product quality, reputation, recommendations, and brand awareness. Management Information Systems 373 (Topic 23) and Business Analytics 372 (Topic 23) may not both be counted. Offered on the letter-grade basis only.

Topic 24: Mobile Apps and Web Services. An overview of mobile and web services technology models and architectures. Only one of the following may be counted: Management Information Systems 365, 373 (Topic: Mobile Apps & Web Services), 173, 273, 373 (Topic 24). Offered on the letter-grade basis only. Additional prerequisite: Management Information Systems 333K.

Topic 25: User Generated Content Analytics. Designed to showcase the virtually unlimited opportunities that exist today to leverage the power of user generated content analytics. Focuses on a gamut of questions ranging from strategic to operational matters pertaining to a firm’s social media initiatives, metrics to capture relevant outcomes, and predictive analysis to link social media chatter to business performance. Only one of the following may be counted: Management Information Systems 373 (Topic: User Generated Content Analytics), 373 (Topic 25), Business Analytics 372 (Topic 4). Offered on the letter-grade basis only.

Topic 26: Health Care Analytics. Explores key management challenges and how data may be leveraged to guide decisions and improve operations, with the unifying theme of providing health care services in a manner that leads to lower cost and higher quality. Only one of the following may be counted: Management Information Systems 373 (Topic: Healthcare Analytics), 373 (Topic 26), Operations Management 337 (Topic: Healthcare Analytics), 337 (Topic 8), Business Analytics 372 (Topic 17). Offered on the letter-grade basis only.

Restricted to students in a business major. Provides foundation in business system analysis, project management, planning, design, and implementation using basic business knowledge and computer skills. Three lecture hours a week for one semester. Offered on the letter-grade basis only.Prerequisite: Seventy-five semester hours of college coursework, including Management Information Systems 333K.

MIS 375. Strategic Information Technology Management.

Restricted to students in a business major. Designed to develop an understanding and appreciation for the role of information technology in the context of a firm’s strategy. Explores the impact of information technology on the economy and business performance, the emergence of electronic business applications and organizational and market transformation, and the nature of technology-driven business models and strategies. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

Restricted to students in a business major. Conference course. Only one of the following may be counted: Accounting 179C, 379C, Business, Government, and Society 179, 379, Finance 179C, 379C, International Business 179C, 379C, Legal Environment of Business 179, 397, Management 179C, 379C, Management Information Systems 179, 397, Marketing 179C, 379C, Operations Management 179, 379, Risk Management 179, 379. Prerequisite: Eighteen hours of coursework in business and economics, six of which must be upper-division; Business Analytics 304, 305, or Management Information Systems 304 and Business Analytics 325, 327, or Management Information Systems 325 with a grade of at least B- in each, and consent of instructor; and written approval before the first meeting of the course from the department chair’s office, on forms provided for that purpose.

Graduate Courses

MIS 380. Seminar in Organizational Communication.

Selected topics in organizational communication, written and oral. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 1: Research Methodology in Business and Organizational Communication.

MIS 180D, 280D, 380D. Database Management.
Explore designing, building, and implementing a relational database to improve company operations and reporting. Examine how databases affect analytics and app development. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Prerequisite: Graduate standing and consent of instructor.

MIS 380N. Topics in Information Management.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

Explore programming skills for creating easy-to-maintain systems for business applications. Examine object-oriented and structured methodologies with Python. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Prerequisite: Graduate standing and consent of instructor.

MIS 181N, 281N, 381N. Topics in Information Systems.
Selected topics in information technology and management of information systems development. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

MIS 185, 285, 385 (Topic 9) and Management Information Systems 381N (Topic 2) and credit or registration for Management Information Systems 380N (Topic 3).

Topics

Topic 1: Introduction to Data Management.
Topic 2: Research in Information Systems: Organizational and Behavioral Perspectives.
Topic 6: Research Seminar.
Topic 29: Digital Strategies for Enterprise Transformation. Analyze the competitive dynamics of platform-mediated business models; explore innovations such as cloud computing and Internet of things in supporting platform-based competition; study the implications of information technology-enabled disruption; understand applications of artificial intelligence and machine learning to develop competitive advantage; and discuss the role of information technology in business transformation. Management Information Systems 381N (Topic 27) and 381N (Topic 29) may not both be counted.

MIS 382N. Topics in Information Management.

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 1: Managing Financial Information. Data modeling and information management for investment analysis and financial systems.
Topic 2: E-Business Change.
Topic 3: E-Business Application Development.
Topic 4: Cross-Functional Systems Integration. Prerequisite: Management Information Systems 380N (Topic 2), 380N (Topic 3), and credit or registration for Management Information Systems 380N (Topic 4).
Topic 5: Managing Complexity.
Topic 7: Project Management in Fast-Cycle Environments.
Topic 8: Balanced Scoreboard: An Information Systems Perspective. Theory and tools that support the design and implementation of balanced scoreboard evaluation systems.
Topic 10: Data Mining for Marketing.
Topic 11: Business Intelligence Capstone. Explores foundations of business analytics related to database management, data analysis techniques, and business decision making to solve a business problem of a client. Additional prerequisite: Consent of instructor.
Topic 12: Social Media Analytics. An introduction to social network analysis for business value using statistical optimization and decision theory, including the foundation for analyzing online search and conversation data for market sensing, sentiments, product quality, reputation, recommendations, and brand awareness. Additional prerequisite: Consent of instructor.
Topic 13: Predictive Analytics and Data Mining. Management Information Systems 382N (Topic 9: Business Data Analytics with Data Mining) and and 382N (Topic 13) may not both be counted.
Topic 14: Business Data Science. An introduction to basic concepts, methodology, algorithms, and technology used in business analytics and decision making. Explore concepts from probabilistic modeling, analysis and experimental design. Examine the basics of modern regression and classification, clustering, visualization, dimensionality reduction, A/B Testing and an introduction to deep learning. Management Information Systems 382N (Topic: Business Data Science) and 382N (Topic 14) may not both be counted.

MIS 283M, 383M. Supply Chain Management for Executives.

Restricted to students in the Executive MBA Program. Examine frameworks for understanding how to transform supply chain strategy in the face of pressures from technological, social, and political disruption. For each semester hour of credit earned, one lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

MIS 383N. Topics in Information-Intensive Business Processes.

Topics in management of information in specific industries or application areas. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 1: Health Care Management.
Topic 2: Health Services Seminar.
Topic 3: Customer Insights.
Topic 4: Supply Chain Management.
Topic 6: Trading-Floor Technology.
Topic 10: Practicum in Multimedia Systems Development. Restricted to MBA and MPA students who have chosen the information management concentration. Additional prerequisite: Business Administration 380C and consent of instructor.
Topic 12: E-Business Innovation.
Topic 13: Managing Innovation in a Global Company. Examines innovation-based business strategies that rely on internal and external sources, processes in different organization forms, and market structures.

MIS 184N, 284N, 384N. Topics in Business Analytics.

Restricted to students admitted to the Master of Science in Information, Risk, and Operations Management. Selected topics in business analytics. One, two, or three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate Standing; additional prerequisites vary with the topic.

Restricted to students in the MS in Information Technology and Management Program. Overview of hardware and software life cycles; in-depth considerations of program design, including experience programming for large-scale computer systems in COBOL, FORTRAN, and/or BASIC. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

Restricted to students in the Executive MBA Program. Introduction to artificial intelligence (AI) and machine learning (ML) through a review of AI and ML concepts, tools, and the complete AI/ML lifecycle in the context of tackling business and organizational challenges. For each semester hour of credit earned, one lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

MIS 185N, 285N, 385N. Topics in Information Technology and Management.

Restricted to students admitted to the Master of Science in Information Technology and Management program. Selected topics in information technology and management. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

Topic 1: Big Data and Distributed Programming. Explore a range of subjects required for developing modern applications that operate over vast data sets that are potentially distributed in nature. Consider alternative technologies and architectures for working with big data, examining the pros and cons of the different approaches. Management Information Systems 284N (Topic: Big Data/Distributed Programming) and 185N, 285N, 385N (Topic 1) may not both be counted.
Topic 2: Emerging Technologies I. Explore all aspects of the Internet of Things (IoT) product life-cycle. Interface with the devices (sensors/actuators) that collect data and affect the environment. Explore network protocols for communication with these constrained devices. Examine programming of the back-end services that host, manipulate and disseminate the collected data. Study the development of apps that facilitate human interaction with these devices and the analysis
of the data they produce. Examine security, privacy and performance considerations specific to IoT. Management Information Systems 284N (Topic: Emerging Technologies I) and 185N, 285N, 385N (Topic 2) may not both be counted.

**Topic 3: IT Security, Policy, and Compliance.** Explore the prevention and mitigation of data security and privacy risks in newly designed digital artifacts through IT governance, risk, and control frameworks as well as relevant laws, regulations, and industry standards. Management Information Systems 382N (Topic: IT/Secur/Policy/Compliance) and 185N, 285N, 385N (Topic 3) may not both be counted.

**Topic 4: IT Capstone.** Develop real-life business and social solutions using emerging information technologies. Engage with industry partners to explore business context for IT Capstone projects. Management Information Systems 382N (Topic: IT Capstone) and 185N, 285N, 385N (Topic 4) may not both be counted.

**Topic 6: Strategic IT and Change Management.** Explore the strategic management of new IT-embedded product and service innovations and their incorporation into the digital business ecosystems of organizations. Management Information Systems 284N (Topic: Strat IT and Change Mgmt) and 185N, 285N, 385N (Topic 6) may not both be counted.

**Topic 7: IT and Supply Chain Management.** Examine the role of Information Technology in managing Supply Chains. Explore the IT capabilities needed by firms to coordinate their operations, collaborate with business partners and manage uncertainty. Illustrate the role of technologies and tools like ERP platform, ABAP programming, XML, web services, distributed computing and machine learning to improve the performance of supply chains. Management Information Systems 284N (Topic: IT and Supply Chain Mgmt) and 185N, 285N, 385N (Topic 7) may not both be counted.

**Topic 8: Design Methods.** Utilize design tools and methods to understand user needs, frame business opportunities, and design solutions. Examine design from both organizational and technical perspectives. Conduct research with end users, synthesize data, prototype solution ideas, and communicate compelling stories. Undertake design challenges that focus on emerging information technologies, including the internet of things (IoT), cognitive computing, AI, cloud, mobile, and 3D/4D printing. Management Information Systems 382N (Topic: Design Methods) and 185N, 285N, 385N (Topic 8) may not both be counted.

**Topic 9: Advanced Programming and App Development.** Explore various approaches to modern app development, including required advanced programming and software engineering concepts. Explore approaches to app development ranging from native platform programming through programming frameworks that allow cross-platform development, to high-level approaches based on web frameworks. Management Information Systems 382N (Topic: Adv Programming/App Devel) and 185N, 285N, 385N (Topic 9) may not both be counted.

**Topic 10: User Generated Content Analytics.** Generate business and social insights from user-generated content (e.g., text, images, video, etc.) through the use of text analytics, sentiment analysis, visualization techniques, etc. Management Information Systems 381N (Topic: User Genrted Content Analytcs) and 185N, 285N, 385N (Topic 10) may not both be counted.

**Topic 11: Advanced Data Mining and Web Analytics.** Examine a variety of data mining and machine learning techniques for descriptive, predictive and prescriptive analytics. Explore approaches to analyzing different types of information from the Web (web structure, content, usage). Management Information Systems 382N (Topic: Advanced Mining/Web Analytics) and 185N, 285N, 385N (Topic 11) may not both be counted.

**Topic 12: Healthcare IT and Analytics.** Design new healthcare solutions using emerging information technologies such as Internet of Things, cognitive computing, artificial intelligence, the cloud, mobile, and 3D and 4D printing.

**Topic 13: Emerging Technologies II.** Build a strong business and technical foundation for blockchain. Discuss business inefficiencies that can be addressed by blockchain technology. Examine cryptology and distributed computing that blockchain systems rely on, including an overview of Bitcoin. Explore current research problems, perform programming assignments, lead discussions, and hear presentations from industry and academic researchers. Management Information Systems 382N (Topic: Emerging Technologies II) and 185N, 285N, 385N (Topic 13) may not both be counted.

**Topic 14: Programming Blockchain.** Cover the development of the bitcoin protocol from scratch. Explore basic libraries to build the protocol using a step-by-step approach. Examine the primary and secondary aspects of scaling, mining and operating a bitcoin protocol based system. Management Information Systems 284N (Topic: Programming Blockchain) and 185N, 285N, 385N (Topic 14) may not both be counted.

**MIS 698. Thesis.**

The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in information, risk, and operations management and consent of the graduate adviser; for 698B, Management Information Systems 698A.

**MIS 398R. Master's Report.**

Preparation of a report to fulfill the requirement for the master's degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in information, risk, and operations management and consent of the supervising faculty member and the graduate adviser.

**MIS 399W, 699W, 999W. Dissertation.**

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

**Professional Courses**

**MKT - Marketing**

**Marketing: MKT**

**Lower-Division Courses**

**Upper-Division Courses**

**MKT 320F. Foundations of Marketing.**

Restricted to non-McCombs School of Business majors. Introduction to basic concepts and terminology in marketing; the process of developing marketing strategy, the role of marketing activities within the firm, external influences that affect the development of marketing strategy, and basic analytical tools appropriate to marketing decision making. Three lecture hours a week for one semester. Only one of the following may be counted: Marketing 320F, 337, 337H, 337N. May not be counted toward the Bachelor of Business Administration degree. Prerequisite: Forty-five semester hours of college coursework.
MKT 337. Principles of Marketing.
Restricted to students in the McCombs School of Business. Designed to expand understanding of the marketing system and basic marketing activities and to provide a framework for marketing strategy development and implementation of marketing tools and tactics. Three lecture hours a week for one semester. Only one of the following may be counted: Marketing 320F, 337, 337H, 337N. Offered on the letter-grade basis only. Prerequisite: Credit or registration for the following: Business Administration 324 or 324H; and Statistics 371G or 371H, or Statistics 235 or 235H and Decision Science 235 or 235H.

Restricted to students in the McCombs School of Business Honors Program. Designed to expand understanding of the marketing system and basic marketing activities and to provide a framework for marketing strategy development and implementation of marketing tools and tactics. Three lecture hours a week for one semester. Only one of the following may be counted: Marketing 320F, 337, 337H, 337N. Offered on the letter-grade basis only. Prerequisite: Credit or registration for the following: Accounting 312H; and Business Administration 324H; and Economics 304K and 304L; and Statistics 371H, or Statistics 235H and Decision Science 235H.

MKT 337N. Introduction to Marketing in New York.
Restricted to students studying in New York City. Experience a globally connected city. Study in New York City, home to major industries including arts and entertainment, travel and hospitality, technology and financial services, as well as major marketing firms and agencies. Consider the marketing strategies of New York industries and develop an understanding of the marketing system and basic marketing frameworks for marketing strategy creation, and implementation of marketing tools and tactics. Three lecture hours a week for one semester. Only one of the following may be counted: Marketing 320F, 337, 337H, 337N. Offered on the letter-grade basis only.

Restricted to students in a business major. Analysis of the use of promotional methods in marketing: advertising, personal selling, sales promotion, and indirect promotion; their social and economic consequences; their coordination and relationship to other business functions. Three lecture hours a week for one semester. Prerequisite: Marketing 337 or 337H.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office or the school’s BBA Exchange Programs. Credit is recorded as assigned by the study abroad adviser in the Department of Marketing. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. May be repeated for credit when the topics vary.

MKT 354. Topics in Professional Sales and Business Development.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Marketing 320F, 337 or 337H.

Topic 1: Building Sales Relationships. Explore the theoretical and practical role of communication in the development of long-term client relationships. Examine the consultative sales process, including prospecting, assessing needs, handling objections, presenting, closing, and following up with clients. Investigate on how technology can help or hinder communication. Additional prerequisite: Upper-division standing.

Topic 2: Sales Strategy and Steering. Three lecture hours a week for one semester. Marketing 354 (Topic 2) and 372 (Topic: Sales Strategy and Steering) may not both be counted. Additional prerequisite: Marketing 320F or 337 or 337H.

MKT 360, 460. Information and Analysis.
Same as Business Analytics 360. Same as Business Analytics 460. Restricted to students in a business major. The development and analysis of information for marketing management sources. For each semester hour of credit earned, one lecture hour a week for one semester. Marketing 360, 460 and Business Analytics 360, 460 may not both be counted. Prerequisite: Marketing 337 or 337H, and Statistics 301, 301H, or 309 or 309H.

MKT 363. Professional Selling and Sales Management.
Policies, operation, coordination, and control of personal selling activities in marketing organizations. Three lecture hours a week for one semester. Prerequisite: Marketing 320F or 337 or 337H.

MKT 366P. Marketing Practicum.
Restricted to students in a business major. Students apply skills in their major area and focus on additional project management skills through group projects conducted in a professional setting. Students may work with a private or a public enterprise. The equivalent of three lecture hours a week for one semester. Prerequisite: Completion of forty-five semester hours of coursework and Marketing 337 or 337H.

MKT 370K. Retail Merchandising.
Restricted to students in a business major. Designed to familiarize the student with all the activities associated with the sale of goods and services for final consumption and to provide an overview of the decisions involved in merchandising and management, including factors that influence and determine those decisions. Three lecture hours a week for one semester. Prerequisite: Marketing 337 or 337H.

MKT 172, 272, 372. Marketing Seminar.
Restricted to students in a business major. Deeper-dive into principal marketing techniques and the analysis of contemporary problems. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Marketing 337 or 337H; additional prerequisites vary with topic.

Topic 1: Market Area Decisions.
Topic 2: Consumer Behavior. Only one of the following may be counted: Marketing 372 (Topic: Consumer Behavior in a Digital World), 372 (Topic 2), 372 (Topic 17).
Topic 3: Implementing Marketing Concepts. Implementation of marketing concepts in a real-world setting through participation in
marketing projects with area companies. Additional prerequisite: Consent of instructor.

**Topic 4: Global Marketing.** Marketing 372 (Topic 4) and International Business 172, 272, 372 (Topic 16) may not both be counted.

**Topic 5: Design Thinking for Business Innovation.** Focuses on gaining a theoretical understanding of design thinking, including: Customer-focus, cross-functional collaboration, and an iterative process for refining products and services. Intended for budding entrepreneurs and those interested in understanding the processes involved in taking a new product/service idea to market. Marketing 372.5 and 372 (Topic: Design Thinking for Busn Innov) may not both be counted.

**Topic 6: Marketing for Entrepreneurs.** Focuses on the issues facing smaller and start-up businesses, including introduction to entrepreneurship, differentiation of the offering, mass markets versus selective markets, guerrilla marketing, the business model and business plan, and capital markets. Marketing 372 (Topic: Marketing for Entrepreneurs) and 372 (Topic 6) may not both be counted.

**Topic 11: Brand Management.** Addresses the strategic importance of branding and concepts, frameworks, and strategies for building, leveraging, and defending strong brands. Current opportunities and challenges in a variety of industries and markets, including consumer packaged goods, business-to-business, services, technology, online, and global. Marketing 372 (Topic: Brand Management) and 172, 272, 372 (Topic 11) may not both be counted.

**Topic 13: Integrated Marketing Communications.** Exploration of basic message development and dissemination across ever-evolving media types, using a focus on the brain and emotions, as well as an intense examination of persuasion and core belief formation. Focus on group development of an IMC plan for a social issue. Marketing 372 (Topic: Integrated Marketing Communications) and 172, 272, 372 (Topic 13) may not both be counted.

**Topic 14: Pricing and Channels.** Explores the concepts, theory and latest thinking bearing on the key issues in pricing and channels, taking the perspective of the marketing manager. Provides an opportunity, through extensive case analyses and multiple assignments, to apply concepts and theory to the solution of pricing and channel problems in realistic business settings. Only one of the following may be counted: Marketing 372 (Topic: Pricing and Channels), 372 (Topic 14), Business Analytics 372 (Topic 8).

**Topic 15: Corporate Political Strategy.** A study of how the political and regulatory environment enables and constrains business activity and how individual firms and groups of firms can ethically yet effectively lobby legislatures, negotiate with regulators, create industry associations, make campaign contributions, and engage in other political activity to gain competitive advantage. Only one of the following may be counted: Business, Government, and Society 371, Marketing 372 (Topic: Corporate Political Strategy), 172, 272, 372 (Topic 15).

**Topic 16: Business to Business Marketing.** Focus on business to business marketing skills including: organizational buying and selling models; launching business to business products and services; pricing a product line; sales management and support; managing distribution partners; and social media for business to business promotion. Marketing 372 (Topic: Business to Business Marketing) and 172, 272, 372 (Topic 16) may not both be counted.

**Topic 17: Consumer Behavior in a Digital World.** Examines the core psychological processes underlying consumer decision-making and behavior, and the impact of recent technological advancements on consumer behavior in on and offline environments. Only one of the following may be counted: Marketing 372 (Topic: Consumer Behavior in a Digital World), 372 (Topic 2), 372 (Topic 17).

**Topic 18: Creativity and Leadership.** Exploration of the determinants for a meaningful and fulfilling life. Marketing 372 (Topic: Creativity and Leadership) and 172, 272, 372 (Topic 18) may not both be counted.

**Topic 19: Marketing Analytics II.** Covers advanced analytics problems focusing on methodologies and their implementations, how marketing analytics allows companies to gain an advantage by serving customers better than their competitors. Marketing 372 (Topic: Marketing Analytics II) and 172, 272, 372 (Topic 19) may not both be counted.

**Topic 21: Strategic Product Management.** Explores the principles of product management including identifying new growth opportunities, assessing the health and profitability of a product portfolio, developing new products, and positioning and repositioning of current products. Analytical tools, case discussions, and real-world derived projects will be the key learning tools. Marketing 372 (Topic: Strategic Product Management) and 172, 272, 372 (Topic 21) may not both be counted.

**Topic 22: Predictive Analytics and Data Mining.** Comprehensive introduction to data mining problems and tools to enhance managerial decision making at all levels of the organization. Discuss scenarios including the use of data mining to support customer relationship management (CRM) decisions, decisions in the entertainment industry, financial trading, and even professional sports teams. No technical skills or prior knowledge required. Only one of the following may be counted: Business Analytics 357, 372 (Topic 2), Management Information Systems 373 (Topic 17), Marketing 372 (Topic: Predictive Analytics and Data Mining), 372 (Topic 22). Additional prerequisite: Statistics 301, 301H, 309 or 309H.

**Topic 23: Data Analytics for Marketing.** Introduction to the world of making more effective marketing decisions through the use of data. Examines sources of data, methods of collecting and cleaning the data, analyzing the data, and finally presenting the data in meaningful and impactful ways. Using real-world data and applications from a variety of industries, the objective is to assist in familiarizing with the empirical and analytical tools needed to make effective marketing decisions in the age of large and plentiful datasets. Only one of the following may be counted: Marketing 372 (Topic: Data Analytics for Marketing), 372 (Topic 23), Business Analytics 372 (Topic 9).

**Topic 24: Digital Marketing.** Explore online marketing strategies; navigate online advertising, search, social media, and online privacy; and design and implement an experiment to evaluate the effectiveness of online business decisions. Marketing 372 (Topic: Digital Marketing) and 172, 272, 372 (Topic 24) may not both be counted.

**Topic 25: Data Driven Marketing.** Exploration of marketing research analytics using various types of data analytics and statistical learning models. Only one of the following may be counted: Marketing 372 (Topic: Data Driven Marketing), 372 (Topic 25), Business Analytics 372 (Topic 10).

**Topic 26: Strategy Consulting for Marketers.** Hands-on introduction to the science and art of marketing strategy consulting. Explores the consulting industry and the key concepts of successful consulting. Execution of a complete consulting engagement with an actual client. Marketing 372 (Topic: Strategy Consulting for Marketers) and 172, 272, 372 (Topic 26) may not both be counted.

**Topic 27: Reputational Risk and Crisis Management.** Exploration of what risk is, crisis management techniques, market communications, and reputational preservation via readings, cases and guest speakers. Marketing 372 (Topic: Reputational Risk and Crisis Management) and 172, 272, 372 (Topic 27) may not both be counted.

**Topic 28: Science of Good Business.** Explore what good business means in multiple ways: doing well; being good; and feeling good. Examine theory, data, insights, and empirical evidence from
behavioral sciences to learn how individuals and organizations can achieve “good” in a business context. Identify actionable practical applications, based on design thinking principles, that can actually be implemented in the workplace. Marketing 372 (Topic: Science of Good Business) and Marketing 172, 272, 372 (Topic 28) may not both be counted.

Topic 29: Customer Analytics and Database Marketing.

Focuses on contemporary, in-demand marketing topics to help develop the foundational knowledge, hands-on experience, and skills for today’s marketing ecosystem. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with topic.

Topic 1: Data Storytelling and Visualization. Investigate data-driven marketing, identifying stories in data and utilizing visualizations to share that story. Explore Tableau, data literacy, visualization principles, and communicating effectively using data. Marketing 178 (Topic: Data Storytellig/Visualizati) and Marketing 178 (Topic 1) may not both be counted. Additional prerequisite: Twenty-four semester hours of college credit.

Topic 2: Negotiating Sales Solutions. Additional prerequisite: Twenty-four semester hours of college credit.

Topic 4: International Selling and Artificial Intelligence. Additional prerequisite: Twenty-four semester hours of college credit.

Topic 5: Selling in High Technology Industries. Additional prerequisite: Twenty-four semester hours of college credit.

Topic 7: Professional Purchasing and Procurement. Explore the role of purchasing and procurement in a business. Examine goals and techniques of purchasing professionals; common structures of purchasing functions in a business; management of suppliers and vendors to achieve goals; cost, resource, and purchase timing management; bid proposal, negotiations, and other strategic purchasing decisions and associated marketing activities. Additional prerequisite: Twenty-four semester hours of college credit.

MKT 179C, 379C. Independent Research in Marketing.

Restricted to students in a business major. Conference course. Only one of the following may be counted: Accounting 179C, 379C, Business, Government, and Society 179, 379, Finance 179C, 379C, International Business 179C, 379C, Legal Environment of Business 179, 379, Management 179C, 379C, Management Information Systems 179, 379, Marketing 179C, 379C, Operations Management 179, 379, Risk Management 179, 379. Prerequisite: Eighteen semester hours of coursework in business and economics, six of which must be upper-division; Marketing 337 or 337H with a grade of at least C; and consent of instructor. A student registering for this course must obtain written approval from the department chair’s office, on forms provided for that purpose, before the first meeting of the course.

Graduate Courses

MKT 182, 282, 382. Analysis of Markets.

Introduction to the data and tools used to analyze the business environment and enable marketing decision making. Uses real world data and problems to evaluate strategic market opportunities and assess the impact of marketing decisions in the marketplace. Discusses analytical and empirical tools that address strategic issues of market sizing, market selection, and competitive analysis, as well as product management, customer management, and marketing function management decisions. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

Topic 2: Analytical Methods in Marketing. Basic analytical techniques that are used to improve market-oriented decisions: brand-switching, linear programming applications in advertising, competitive bidding, distribution and location models, conjoint measurement, and multivariate data analysis for strategy formulation. The course stresses the use of the models to deal with marketing variables and problems and the acquisition of relevant data. Case analyses and projects. Offered on the letter-grade basis only.

Topic 3: Business and Public Policy. Provides a historical framework in which to study key issues in contemporary government and business relations in the United States and, to a limited extent, in other countries. Settings range from the Depression and the New Deal to more recent periods of social regulation of business; topics range from the role of the international oil companies to the deregulation of the airlines. Offered on the letter-grade basis only.

Topic 4: Strategic Marketing. Strategic marketing decisions made at the corporate and business-unit levels, and organizational issues that affect the formulation and implementation of marketing strategy; an experiential course, taught primarily through the case method and a marketing strategy computer simulation game. Offered on the letter-grade basis only.

Topic 5: Current Topics in Consumer Marketing. Reasons for the shift in allocation from advertising to promotion, and implications of this shift for the structure of packaged-goods marketing. Offered on the letter-grade basis only.

Topic 6: Buyer Behavior in Global Markets. The application of marketing strategy and buyer behavior principles in the global environment. Offered on the letter-grade basis only.

Topic 7: Industrial Marketing. Concepts, theories, and models from industrial marketing strategy provide the foundation for case analyses of a variety of technology-intensive firms, primarily in electronics, data processing, and pharmaceuticals. Offered on the letter-grade basis only.

Topic 8: Product Policy and Tactics. Tactical and strategic product decisions, with emphasis on the former. Consumer goods, with some attention to the marketing needs of industrial products and service industries; decisions about a firm’s product portfolio. Uses case analyses and personal computer-oriented analytical exercises. Offered on the letter-grade basis only. Additional prerequisite: Completion of Master of Business Administration core courses.

Topic 9: Marketing Strategy for Small Business. Basics of marketing strategy and marketing plan development; students develop such a plan for a beginning business. Offered on the letter-grade basis only.

Topic 11: Quality and Competitiveness. The globalization of competition, the challenge to the United States position in the world economy, and the total quality management movement as a competitive response. Offered on the letter-grade basis only.

Topic 12: Customer Strategy. External resources for competitiveness, such as customer relationships that can help deliver superior quality and drive down costs. The course brings together experienced managers and students who have interned with them to explore issues underlying total quality in marketing. Offered on the letter-grade basis only. Additional prerequisite: Completion of an instructor-approved internship.

Topic 13: Pricing and Distribution Channel Strategies. Analysis of distribution and pricing decisions, factors that influence these decisions, and the role of pricing and distribution in the formulation of marketing strategy. Lecture/discussions, cases, and group projects. Offered on the letter-grade basis only.

Topic 14: Marketing of Services. Organizations that market services rather than goods; differences between tangible goods and services;
unique service-marketing problems and opportunities. Offered on the letter-grade basis only.

**Topic 15: Marketing High-Tech Products.** The forces driving competition in industrial markets, with emphasis on technological products. This course focuses on honing students’ analytical skills for leveraging marketing decision making. Offered on the letter-grade basis only.

**Topic 16: Project Management in Fast-Cycle Environments.** Offered on the letter-grade basis only.

**Topic 18: Leveraging Marketing Metrics.** Restricted to students in the McCombs School of Business. Examines the link between marketing decisions and financial performance. Offered on the letter-grade basis only.

**Topic 26: Predictive Analytics and Data Mining.** Restricted to students in the McCombs School of Business. Marketing 282, 382 (Topic 17: Business Data Analysis with Data Mining) and 282, 382 (Topic 26) may not both be counted. Offered on the letter-grade basis only.

**Topic 27: Behavioral Economics.** Only one of the following may be counted: Business, Government, and Society 388; Marketing 382 (Topic: Behavioral Economics); 282, 382 (Topic 27). Offered on the letter-grade basis only.

**Topic 28: Connecting with Customers in a Digital World.** Marketing 382 (Topic: Connect with Cust Digitl Wrld) and 282, 382 (Topic 28) may not both be counted. Offered on the letter-grade basis only.

**Topic 29: Consumer Behavior in a Digital World.** Marketing 382 (Topic: Consumer Behav: Digital World) and 282, 382 (Topic 29) may not both be counted. Offered on the letter-grade basis only.

**Topic 31: Corporate Governance.** Only one of the following may be counted: Management 285, 385 (Topic 62), Marketing 382 (Topic: Corporate Governance), 282, 382 (Topic 31) Offered on the letter-grade basis only.

**Topic 32: Creativity and Leadership.** Marketing 382 (Topic: Creativity and Leadership) and 282,382 (Topic 32) may not both be counted. Offered on the letter-grade basis only.

**Topic 33: Design Thinking for Business Innovation.** Explore the overall design process, along with specific research tools and evaluation methodologies to build empathy and define key customer problems to solve. Discuss best practices for idea generation, prototyping potential solutions, and testing through iterative cycles. Marketing 382 (Topic: Dsgn Thinking For Innovatn) and 282, 382 (Topic 33) may not both be counted. Offered on the letter-grade basis only.

**Topic 34: Invisible Global Market.** Only one of the following may be counted: Advertising 391L, Latin American Studies 383, Marketing 382 (Topic: Invisible Global Market), 382 (Topic: Invisible Global Marketing) 282, 382 (Topic 34), Middle Eastern Studies 382M, Public Affairs 388N. Offered on the letter-grade basis only.

**Topic 35: Marketing for Nonmarketers.** Marketing 382 (Topic: Marketing for Nonmarketers) and 282, 382 (Topic 35) may not both be counted. Offered on the letter-grade basis only.

**Topic 36: Pricing and Channels.** Marketing 382 (Topic: Pricing Channels) and 282, 382 (Topic 36) may not both be counted. Offered on the letter-grade basis only.

**Topic 37: Strategic Branding.** Marketing 382 (Topic: Strategic Branding) and 282, 382 (Topic 37) may not both be counted. Offered on the letter-grade basis only.

**Topic 38: Science of Good Business.** Explore what good business means in multiple ways: doing well; being good; and feeling good. Examine theory, data, insights, and empirical evidence from behavioral sciences to learn how individuals and organizations can achieve "good" in a business context. Identify actionable practical applications, based on design thinking principles, that can actually be implemented in the workplace. Marketing 382 (Topic: Science of Good Business) and Marketing 282, 382 (Topic 38) may not both be counted. Offered on the letter-grade basis only.

**Topic 41: Advanced Marketing Management.** Marketing 282 (Topic: Spec Topics in Strat Mkt) and 282, 382 (Topic 41) may not both be counted. Offered on the letter-grade basis only.

**Topic 51: Analysis of Markets.** Marketing 382 (Topic: Analysis of Markets) and 282, 382 (Topic 51) may not both be counted. Offered on the letter-grade basis only.

**Topic 52: Marketing Analytics and Information.** Marketing 382 (Topic: MKT Analytics and Information) and 282, 382 (Topic 52) may not both be counted. Offered on the letter-grade basis only.

**Topic 53: Analytical Tools for Marketing.** Marketing 382 (Topic: Analytical Tools for Marketing) and 282, 382 (Topic 53) may not both be counted. Offered on the letter-grade basis only.

**Topic 54: Data Driven Marketing.** Marketing 382 (Topic: Data Driven Marketing) and 282, 382 (Topic 54) may not both be counted. Offered on the letter-grade basis only.

**Topic 55: Data Analytics and Dynamic Pricing.** Discuss nonlinear pricing, price customization, revenue management, bundling and versioning, channel pricing and auction designs in dynamic settings. Using real data sets and detailed exercises, apply these tools and concepts to diverse contexts and industries ranging from search engines to airlines, hotels and casinos to entertainment, and online retailing, utilities, social media, and self-improvement products. Explore analytical skills that can be applied in diverse settings ranging from business to policy issues and major global issues that confront an informed citizenry. Marketing 382 (Topic: Data Analytic & Dynamic Pricing) and Marketing 282, 382 (Topic 55) may not both be counted. Offered on the letter-grade basis only.

**Topic 56: Marketing Analytics.** Explore an introduction to a variety of approaches to analyzing firm marketing actions. Discuss preference measurement, market segmentation and targeting, customer economics, product and brand policies, pricing, advertising, and digital marketing. Only one of the following may be counted: Marketing 382 (Topic: MKT Analy & Application), 382 (Topic: Anly/Applicatn in MKT), 282, 382 (Topic 56). Offered on the letter-grade basis only.

**Topic 57: Product and Brand Management.** Explore the principles of product management including assessing the health and profitability of a product portfolio, developing go-to-market strategies for new products, and positioning and repositioning of current products. Examine the basic building blocks of growing and managing a brand while integrating it seamlessly into the overall marketing activities of the firm. Marketing 182 (Topic 57) and Marketing 282 (Topic: Product/Brand MGMT) may not both be counted. Offered on the letter-grade basis only.

**Topic 71: CCIMS Marketing Fellows Practicum.** Restricted to students in the Marketing Fellows and Marketing Labs programs. Marketing 382 (Topic: CCIMS Marketing Fellows Pract) and 282, 382 (Topic 71) may not both be counted. Offered on the letter-grade basis only.

**Topic 72: Marketing and Customer Insights Practicum.** Marketing 382 (Topic MKT & Customer Insights Pract) and 282, 382 (Topic 72) may not both be counted. Offered on the letter-grade basis only.

**MKT 282C. Product Management for Executives.**

Restricted to students in the Executive MBA Program. Explore product management with a focus on contemporary, in-demand marketing areas that provide the foundational knowledge, hands-on experience, and skills for today’s marketing ecosystem. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

**MKT 282E. Strategic Marketing for Executives.**

Restricted to students in the Executive MBA Program. Explore how to think strategically about marketing issues; how to analyze a business situation; and how to formulate, implement, and monitor a marketing plan through a blend of lectures, case studies, and experiential...
simulations. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

MKT 383. Acquisition, Consumption, and Disposition Behavior.
The acquisition, consumption, and disposition of goods, services, time, and ideas by individuals, families, and organizations, examined from a managerial viewpoint. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

MKT 384. Marketing Research Methodology.
An applied approach to advanced marketing research, covering both the design and execution of marketing research projects and the management of the marketing research function. Three lecture hours a week for one semester. Prerequisite: Graduate standing, three semester hours of coursework in marketing, and three semester hours of coursework in statistics.

MKT 386. Advanced Marketing Management.
Major marketing concepts and variables, their interrelationships, and their implications for policymaking, problem solving, and strategy formulation. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

Focuses on contemporary, in-demand marketing topics to help develop the foundational knowledge, hands-on experience, and skills for today's marketing ecosystem. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing. Additional prerequisites may vary with topics.

For each hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

MKT 397. Seminar: Current Topics in Marketing.
Survey and analysis of current marketing problems; their significance, evaluation, and probable outcome. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**Topic 1: Marketing Theory and Development of Marketing Thought.** Analysis of marketing phenomena and their causes. Provides a historical framework to study issues among key components of the marketing system (customers, distributors, and manufacturers).

**Topic 2: Marketing Management and Strategy.** Examination from the marketing perspective of the process of strategy development and implementation at various levels of the organization: corporate, strategic business unit, and product line/brand.

**Topic 3: Buyer Behavior.** Theoretical examination of the acquisition and consumption of goods, services, time, and ideas by individuals and groups.

**Topic 4: Marketing Research Methods.** Advanced statistical procedures and analytical methods for data analysis; reliability and validity of data.

**Topic 5: Research Topics in Marketing.** Current research issues, methods, and models in marketing; focus on both theory and methodology.

**Topic 6: Advanced Research Methods in Marketing.** New methodological developments and research procedures; selected topics.

**Topic 7: Marketing Models.** Analytical techniques and models developed by management scientists to aid marketing-oriented decisions in contexts such as marketing mix management, new product development, and product adoption.

**Topic 8: Quantitative Marketing Strategy.** Decision models and analytical procedures used in strategic decision making in marketing; strategic planning approaches, industry analysis (models related to growth in sales and competition), competitive structure (approaches for market structure analysis), and new product design and development models.

**Topic 9: Behavioral Decision Research.**

**Topic 10: Marketing Models II.** Restricted to doctoral students in McCombs School of Business. Introduces state-of-the-art theoretical and empirical marketing models using deductive mathematical analysis and inductive statistical reasoning. Create novel quantitative marketing models and estimation methods and critically evaluate the models in the literature of quantitative marketing. Three lecture hours a week for one semester.

MKT 698. Thesis.
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in marketing and consent of the graduate adviser; for 698B, Marketing 698A.

MKT 398R. Master’s Report.
Preparation of a report to fulfill the requirement for the master’s degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in marketing and consent of the supervising faculty member.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

**Professional Courses**

**MLS - Medical Laboratory Science**

**Medical Laboratory Science: MLS**

**Lower-Division Courses**

**MLS 001D. Practicum in Medical Laboratory Science.**
Restricted to medical laboratory science majors. Students participate in a twelve- to sixteen-month off-campus education program. Forty laboratory hours a week for one semester. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Completion of all organized coursework for the Bachelor of Science in Medical Laboratory Science degree and consent of department.

**Upper-Division Courses**

**MLS 155M, 255M, 355M, 455M, 555M, 655M, 755M, 855M, 955M. Topics in Medical Laboratory Science.**
Restricted to students in the Medical Laboratory Science program. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Offered on the pass/fail basis only. Prerequisite: Consent of the department.

**MLS 156M, 256M, 356M, 456M, 556M, 656M, 756M, 856M, 956M. Medical Laboratory Science Clinical Education Practicum.**
Restricted to students in the Medical Laboratory Science program. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Consent of the department.
Graduate Courses

Professional Courses

MNS - Marine Science

Marine Science: MNS

Lower-Division Courses

MNS 101. Seminar in Marine Science.
Overview of the depth and breadth of marine and freshwater science. Introduction to research opportunities at the university. One lecture hour a week for one semester. Biology 101C (Topic: Seminar in Marine Science) and Marine Science 101 may not both be counted. Prerequisite: None

Introduction to the sciences of oceanography: geological, physical, and biological. Two lecture hours and two laboratory hours a week for one semester.

MNS 308. Humans and a Changing Ocean.
The consequences of human-induced alteration of the marine environment including the impact on fisheries, marine mammals, food-web changes, and changes in species composition and ecological function will be explored. Designed for non-science majors. Two lecture hours and two laboratory hours a week for one semester. Marine Science 309 (Topic: Humans and a Changing Ocean) and 308 may not both be counted.

MNS 309. Topics in Marine Science.
Designed for nonscience majors. Selected topics in marine science, including marine biology, marine chemistry, and physical oceanography. Two lecture hours and one and one-half laboratory hours a week for one semester. May not be counted toward a degree in marine science. May be repeated for credit when the topics vary. Prerequisite: Marine Science 307.

Designed for students pursuing a degree option in Marine and Freshwater Science. In-depth introduction to physical, chemical, geological, and biological processes in marine systems. Three lecture hours a week for one semester. Prerequisite: The following with a grade of at least a C- in each: Biology 311D or 315H; and Chemistry 302 or 302C.

Upper-Division Courses

MNS 320. Marine Ecology.
Study of ecological processes at different levels of integration in marine ecosystems. Three lecture hours a week for one semester. Prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H and Chemistry 302 or 302C.

MNS 120L. Laboratory Studies in Marine Ecology.
A laboratory course with two weekend field trips to the Marine Science Institute at Port Aransas to perform ecological studies in the Texas coastal zone. Two weekend field trips, with pre- and post-field trip laboratory hours required. Prerequisite: Credit or registration for Marine Science 320.

MNS 440. Limnology and Oceanography.
Same as Biology 456L. An introduction to the study of the interactions between aquatic organisms and their environments. Two lecture hours and six laboratory hours a week for one semester. Prerequisite: Chemistry 302, 302C, or 302H; and the following with a grade of at least C-: Biology 325 or 325H, and Biology 206L, 208L, 226L, or Environmental Science 311.

MNS 344K. Marine Mining and Minerals.
Same as Geological Sciences 344K. Overview of seafloor mineral deposits, their exploration, and mining. Three lecture hours a week for one semester. May not be counted toward the Bachelor of Science in Geological Sciences or the Bachelor of Science in Environmental Sciences degrees. Prerequisite: Geological Sciences 401 or 303, 416K, and 416M.

MNS 148, 348. Training Cruise(s).
May be repeated for credit when the topics vary.

- **Topic 1: Training Cruise(s): Research in Biological Oceanography.**
  One or more cruises of one to several days each to collect physical, chemical, oceanographic, and biological data relevant to biological processes in the sea. Preparatory instruction and post-cruise sample processing and analysis. Marine Science 148, 348 (Topic 1) and 152R may not both be counted. Additional prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302C.

- **Topic 2: Marine Geology and Geophysics Field Course.**
  Hands-on, team-based instruction in the collection and processing of marine geological and geophysical data along the Gulf of Mexico coast. For Marine Science 148, one lecture hour and one laboratory hour a week for one semester. For Geological Sciences 348K and Marine Science 348, one lecture hour and four laboratory hours a week for one semester with additional hours to be arranged. Only one of the following may be counted: Geological Sciences 348K, 397F, Marine Science 348 (Topic 2). Fulfills the field experience requirement for some geological sciences degree programs. Students should contact the Department of Geological Sciences before registering. Additional prerequisite: For geological sciences majors, Geological Sciences 420K or 320L with a grade of at least C-, and consent of instructor; Geological Sciences 416M and 465K are recommended; for others, Marine Science 307 and 354F with a grade of at least C- in each, and consent of instructor.

Lectures, laboratory, and fieldwork. The equivalent of three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302C.

- **Topic 9: Endocrinology.**
  Endocrinology, with special reference to lower vertebrates and evolution of control systems. Marine Science 352 (Topic 9) and 382 (Topic 9: Endocrinology) may not both be counted. May count as zoology. Prerequisite: Previous courses in physiology and consent of instructor.

- **Topic 12: Adaptive Physiology of Marine Organisms.**
  Selected topics in the comparative physiology of marine organisms and their environmental adaptations. Prerequisite: Previous course in cell physiology or consent of instructor.

- **Topic 13: Microclimatology.**
  Physical and thermal characteristics of the atmospheric surface layer, with particular reference to coastal environments.

- **Topic 16: Ocean Engineering.**
  Description of ocean waves and tides, methods of wave forecasting, classroom and field exercises. Prerequisite: Consent of instructor.

- **Topic 18: Marine Atmospheric Chemistry.**
  Atmospheric particle chemistry, sea-surface films, atmospheric organic matter, air-sea chemical fractionation; carbon, nitrogen, sulfur cycles. Prerequisite: Consent of instructor.
Topic 20: General Marine Phycology. Survey of benthic algae and phytoplankton of the Texas coast; systematics, morphology, life history and culturing techniques.

MNS 352C. Estuarine Ecology.
Explores general ecological principles of estuarine environments in Texas including physiography, hydrography, and plant and animal community structure and productivity. The equivalent of three lecture hours a week for one semester; additional lecture and field/lab hours may be required. Marine Science 352 (Topic 8) and 352C may not both be counted. Prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302C.

MNS 352D. Marine Botany.
Exploration of the marine algae and seagrasses of the south Texas coast, with emphasis on their taxonomy, physiology, and ecology; may include field trips to representative coastal habitats. The equivalent of three lecture hours a week for one semester; additional lecture and field/laboratory hours may be required. Prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302C.

MNS 352E. Marine Conservation Biology.
Explores how human activities influence the natural functioning and diversity of marine ecosystems and examines conservation efforts aimed to promote the sustainability of coastal habitats; may include several field excursions to local/regional marine ecosystems including sensitive coastal marshes and seagrass communities. Encourages the development of creative and critical thinking skills through numerous classroom activities focused on developing holistic understandings of marine ecosystems and the complexities of conservation science. The equivalent of three lecture hours a week for one semester; additional lecture and field/laboratory hours may be required. Marine Science 353 (Topic: Marine Conservation Biology) and 352E may not both be counted. Prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302C.

MNS 152L, 252L. Principles of Marine Science: Laboratory Studies.
A laboratory course with one-day field trips (which may include weekends) to local estuarine and coastal habitats. Includes pre- and post-field trip laboratory hours. For each semester hour of credit earned, three or four field/laboratory sessions, scheduled throughout the semester. May be counted toward the Bachelor of Science in Biology (Option III: Marine and Freshwater Biology) and toward other undergraduate degrees in biology. May be repeated for credit when the topics vary. Prerequisite: Credit or registration for Marine Science 352.

MNS 352M. Marine Community Ecology.
Explore the assembly and functioning of marine communities. Examine both traditional and newly-emerging techniques to study marine communities, from visual censuses to molecular approaches. Three lecture hours a week for one semester. Marine Science 353 (Topic: Marine Community Ecology) and 352M may not both be counted. Prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H and Chemistry 302 or 302C.

MNS 152R, 352R. Marine Science Research and Reporting.
Reviews the planning, conduct, and communication of marine science research, including hypothesis generation, experimental design, data analysis, and scientific writing and presentation. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Marine Science 148, 348 (Topic 1) and 152R, 352R may not both be counted. Prerequisite: Upper-division standing and concurrent enrollment in Marine Science 170, 270, or 370.

MNS 152S, 252S. Principles of Marine Science: Undergraduate Seminar.
Guest lectures by local and visiting research scientists on a variety of topics in marine and environmental science. Each seminar is followed by a separate one-hour discussion to give students an opportunity to meet directly with the scientist. For each semester hour of credit earned, one lecture/discussion a week for one semester. May be counted toward the Bachelor of Science in Biology (Option III: Marine and Freshwater Biology) and toward other undergraduate degrees in biology. May be repeated for credit when the topics vary.

MNS 152T, 252T. Principles of Marine Science: Special Topics.
Advanced research topics in marine science relevant to critical habitats, organisms, or processes. The equivalent of one or two lecture hours a week for one semester; additional lecture and field/lab hours may be required. May be counted toward the Bachelor of Science in Biology (Option III: Marine and Freshwater Biology) and toward other undergraduate degrees in biology. May be repeated for credit when the topics vary. Prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302C.

MNS 353. Topics in Marine Science.
The equivalent of three lecture hours a week for one semester; additional lecture and field/laboratory hours may be required. May be repeated for credit when the topics vary. Prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302C.

Topic 2: Fish Adaptations to Coastal Ecosystems. Quantitative ecological comparisons of zoogeographical abundance and distribution with population, metabolic, and growth parameters. Additional prerequisite: Fifteen semester hours of coursework in biology and/or zoology.

Topic 4: Current Research. Research instruction/participation in marine science. Laboratory and field activity with emphasis on faculty contact.

Topic 5: Seafloor Mining. Study of seafloor mineral resources, including problems and policies related to exploration, mining, environmental concerns, assessment, and industrial development.

Topic 7: Marine Sedimentology. Selected topics and problems concerning the depositional processes, controls, and distribution of marine sediments.

Topic 8: Marine Chemistry. Study of the processes controlling the chemistry of natural waters, the oceans as a chemical system, and the impact of human activities on these systems.

Topic 15: Interdisciplinary Classroom Field Methods. Uses the interdisciplinary nature of marine science to focus on inquiry-based instruction, constructivist-oriented teaching strategies, and field explorations.

Topic 17: Marine Fish Physiology. Physiology of major organ systems of marine fishes, with emphasis on adaptations to marine
environments. Includes osmoregulation, nutrition, circulation, excretion, reproduction, sensory physiology, and endocrine control.

MNS 354. Marine Invertebrates.
Study of invertebrate taxonomy, structure, behavior, and ecology; may include field sampling and laboratory studies of invertebrate habitats of the Texas coast. The equivalent of three lecture hours a week for one semester; additional lecture and field/laboratory hours may be required. Prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302C.

MNS 354C. Biology of Fishes.
Anatomy, physiology, behavior, life history, taxonomy, and distribution of fishes; may include field sampling and laboratory studies of the coastal biota. The equivalent of three lecture hours a week for one semester; additional lecture and field/laboratory hours may be required. Prerequisite: The following with at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302C.

MNS 354E. Aquatic Microbiology.
Ecology, physiology, distribution, and growth of heterotrophic and autotrophic bacteria and fungi in waters and sediments. The equivalent of three lecture hours a week for one semester; additional lecture and field/laboratory hours may be required. Marine Science 354E and 384E may not both be counted. Prerequisite: The following with at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302C.

MNS 354F. Marine Geology.
Survey of the origin, structure, stratigraphy, and sedimentology of marine basins and continental margins. Three lecture hours a week for one semester. Marine Science 354F and 384F may not both be counted. Prerequisite: Upper-division standing; and six semester hours of coursework in chemistry, marine science, or geological sciences, or consent of instructor.

MNS 354J. Marine Chemistry.
Introduction to marine and environmental chemistry, including the distribution of elements in seawater, the geochemical and oceanographic processes controlling and affected by these distributions, and the effects of human activities on marine chemical processes. The equivalent of three lecture hours a week for one semester; additional lecture and field/laboratory hours may be required. Prerequisite: The following with at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302C.

MNS 354Q. Marine Environmental Science.
Application of the principles of marine science to the study of environmental issues: toxicology, biogeochemical cycles, and the biological and ecological impacts of xenobiotic materials in the coastal zone. The equivalent of two lecture hours and one laboratory hour a week for one semester; additional lecture and field/laboratory hours may be required. Prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302C.

MNS 354T. Biological Oceanography.
Introduction to the organisms in the sea, their adaptations to the environment, and the factors that control their distribution and abundance; may include laboratory and field work with organisms found in the coastal waters of Texas. The equivalent of three lecture hours a week for one semester; additional lecture and field/laboratory hours may be required. Prerequisite: The following with at least C-: Biology 311D or 315H, and Chemistry 302 or 302C.

MNS 354U. Biology of Sharks, Skates, and Rays.
Ecology, anatomy, and physiology of elasmobranch fishes. The equivalent of three lecture hours a week for one semester; additional lecture and field/laboratory hours may be required. Prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302C.

MNS 355C. Physiology of Fishes.
Physiology of major organ systems of both marine and freshwater fishes. The equivalent of three lecture hours a week for one semester; additional lecture and field/laboratory hours may be required. Prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302C.

MNS 355E. Marine Fisheries Ecology.
Explore a broad understanding of fish and fisheries science. Examine fundamental information on fish biology and ecology pertaining to diet, growth, and reproduction with fisheries' specific information that includes historical perspectives, methodology, and overall management strategies. Three lecture hours a week for one semester; additional lecture and field/laboratory hours may be required. Marine Science 353 (Topic: Fisheries Ecology) and 355E may not both be counted. Prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H and Chemistry 302 or 302C.

MNS 356. Ecosystem Oceanography.
An exploration of interconnections within and among marine ecosystems, as well as their linkages to climate, human activity, and adjacent freshwater and terrestrial environments. Emphasis will be placed on Gulf of Mexico ecosystems; may include hands-on field and laboratory activities. The equivalent of three lecture hours a week for one semester; additional lecture and field/laboratory hours may be required. Marine Science 352 (Topic: Ecosystem Oceanography) and 356 may not both be counted. Prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302C.

MNS 357. Marine Phytoplankton Diversity.
The taxonomy of the major phytoplankton groups, their physiology, and their role in marine ecosystem; may include field and/or laboratory hours. The equivalent of three lecture hours a week for one semester; additional lecture and field/laboratory hours may be required. Marine Science 353 (Topic: Diversity Marine Phytoplankton) and 357 may not both be counted. Prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302C.

MNS 367K. Human Exploration and Exploitation of the Sea.
Review of the history of ocean exploration including major oceanographic expeditions. Discussion of current topics in ocean exploration and exploitation of marine resources, the impact of resource exploitation on biological systems, and the development of marine policy. An oral presentation is required. The equivalent of three lecture hours a week for one semester; additional lecture and field/laboratory hours may be required. Prerequisite: The following with a grade of at least C- in each: Biology 311D or 315H, and Chemistry 302 or 302C.

Supervised individual instruction and research in marine science field and laboratory techniques. The equivalent of one, two, or three class hours a week for one semester, at the Marine Science Institute at Port Aransas. May be repeated for credit. Prerequisite: Six semester hours of upper-division coursework in science, and a University grade point average of at least 2.50.
Graduate Courses

Restricted to students in marine science. For each semester hour of credit earned, the equivalent of one class hour a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.

MNS 481C. Marine Ecosystem Dynamics.
Interactions between organisms and the physical processes that regulate productivity and distribution of marine life in oceanic and coastal ecosystems. Four lecture hours a week for one semester. Prerequisite: Graduate standing; and either consent of instructor or the following: six semester hours of coursework in biological sciences chosen from Biology 311C, 311D, and the equivalent; and Chemistry 301 and 302, or the equivalent.

The equivalent of three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

MNS 482C. Marine Biogeochemistry.
Study of chemical, biological, geological, and physical processes that influence cycling of bioactive elements in marine waters and sediments. Four lecture hours a week for one semester. Prerequisite: Graduate standing; and either consent of instructor or the following: Physical Science 303 and 304, or the equivalent; Chemistry 301, and 302 or the equivalent; and six semester hours of coursework in biological sciences chosen from Biology 311C, 311D, and the equivalent.

MNS 483C. Adaptations to the Marine Environment.
The physiological basis for organismal and population-level responses to marine environments. Four lecture hours a week for one semester. Prerequisite: Graduate standing; and either consent of instructor or the following: six semester hours of coursework in biological sciences chosen from Biology 311C, 311D, and the equivalent; and Chemistry 301 and 302, or the equivalent.

MNS 384C. Benthic Ecology.
Interactions among organisms, sediments, and physical processes of estuarine and oceanic bottoms. Three lecture hours a week for one semester. Prerequisite: Graduate standing, Marine Science 354 or the equivalent, and consent of instructor.

MNS 384E. Marine Microbial Ecology.
Metabolism of photosynthetic and chemosynthetic microorganisms in the sea. Three lecture hours and eight laboratory hours a week for one semester. Marine Science 354E and 384E may not both be counted. Prerequisite: Graduate standing; six semester hours of coursework in biological science chosen from Biology 311C, 311D, or the equivalent; Chemistry 301 and 302, or the equivalent; and consent of instructor.

MNS 384F. Marine Geology.
Development of ocean basins; marine and coastal depositional environments, processes, and sedimentary parameters; marine field techniques. Three lecture hours a week for one semester. Marine Science 354F and 384F may not both be counted. Prerequisite: Graduate standing; six semester hours of coursework in general chemistry or mineralogy; six semester hours of coursework in biology or paleontology; and six semester hours of upper-division coursework in geological sciences or consent of instructor.

MNS 384J. Marine Ecology.
Principles of competition and of predator-prey, herbivore-plant, and reproductive interactions within diverse marine phyla. Three lecture hours a week for one semester. Prerequisite: Graduate standing, a basic course in biological science, and consent of instructor.

MNS 384K. Ecology of Fishes.
Organismal, population, and community ecology of marine and freshwater fishes. Three lecture hours a week for one semester. Prerequisite: Graduate standing in marine science or biological sciences; and consent of instructor.

MNS 384L. Marine Chemistry.
Chemical processes in the sea. Three lecture hours and eight laboratory hours a week for one semester. Prerequisite: Graduate standing, general physics, and six semester hours of upper-division coursework in chemistry.

MNS 384T. Biological Oceanographic Processes.
An advanced course in biological processes in oceanic and coastal waters, with emphasis on empirical and theoretical concepts of marine ecosystem dynamics, primary and secondary production, and detrital cycling. Three lecture hours and eight laboratory hours a week for one semester. Prerequisite: Graduate standing; and either consent of instructor or the following: six semester hours of coursework in biological sciences chosen from Biology 311C, 311D, and the equivalent; and Chemistry 301 and 302, or the equivalent.

MNS 384U. Reproductive Physiology of Fishes.
Endocrine and environmental control of reproductive cycles in teleost fishes. Three lecture hours a week for one semester. Prerequisite: Graduate standing, a beginning course in physiology, and consent of instructor.

MNS 385E. Marine Macrophytes.
A lecture, laboratory, and field course that examines the systematics, ecology, and productivity of marine macroalgae and seagrasses, strategies and seasonal patterns of growth, photosynthesis, and carbon metabolism in relation to in situ light environments. Three lecture hours a week for one semester, with forty hours of laboratory and fieldwork. Prerequisite: Graduate standing, six semester hours of upper-division coursework in biology, and consent of instructor.

MNS 385F. Environmental Modeling.
Introductory course in modeling, with emphasis on the models used in ecology, oceanography, and earth sciences. Two lecture hours and one and one-half laboratory hours a week for one semester. Prerequisite: Graduate standing in marine science and consent of instructor.

MNS 386. Phytoplankton Ecology.
The interactions of physiology, morphology, and behavior of microalgae with physical, chemical, and biological features of the environment as related to the distribution of marine phytoplankton. Three lecture hours
MNS 387. Pelagic Ecosystems.
Advanced study of processes affecting the distribution and abundance of marine planktonic and nektonic organisms, primary and secondary production in marine pelagic environments, and food web interactions in the pelagia. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

Shipboard training in marine research through participation in research projects and completion of report. One five- to seven-day cruise; additional laboratory work is required for 388. Prerequisite: Graduate standing and consent of instructor.

MNS 191. Seminar in Marine Science.
Recent advances in the marine sciences, discussed by students, faculty and staff members, and guest lecturers. Topics to be announced. One lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

MNS 193, 293, 393. Topics in Marine Science.
Lecture, laboratory, and fieldwork. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester, with additional hours to be arranged. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**Topic 1: Biogeochemistry of Carbon.** Production, distribution, composition, and preservation of organic matter in the sea. Marine Science 183, 283, 383 (Topic 1) and Marine Science 193, 293, 393 (Topic 1) may not both be counted.

**Topic 2: Isotope Ecology.** Consideration of the stable hydrogen, carbon, nitrogen, and sulfur stable isotope ratio variations in ecological settings, including chemical fundamentals; current literature on food-webs and source studies. Marine Science 183, 283, 383 (Topic 7) and Marine Science 193, 293, 393 (Topic 2) may not both be counted. Additional prerequisite: Graduate standing in one of the natural sciences.

**Topic 3: Benthic Plants and Animals.** Interactions among organisms, sediments, and physical processes of estuarine systems, including the factors that regulate primary and secondary productivity. Marine Science 183, 283, 383 (Topic 8) and Marine Science 193, 293, 393 (Topic 3) may not both be counted.

**Topic 4: Methods in Marine Science.** Introduction through laboratory and field work to the methods of marine science and oceanographic research. Topics include small boat handling and safety; field collection of physical, chemical, and biological data; and laboratory analysis of seawater chemistry and marine organisms. Marine Science 183, 283, 383 (Topic 10) and Marine Science 193, 293, 393 (Topic 4) may not both be counted.

**Topic 5: Global Change.** Study of natural and anthropogenically mediated changes in the earth’s climate and biogeochemical cycles. Marine Science 183, 283, 383 (Topic 11) and Marine Science 193, 293, 393 (Topic 5) may not both be counted.

**Topic 6: Larval Fish Ecology.** The ecology of marine fish larvae in relation to fisheries oceanography and aquaculture. Marine Science 183, 283, 383 (Topic 12) and 193, 293, 393 (Topic 6) may not both be counted.

**Topic 7: Marine Botany.** Introduction through lectures and field work to the diversity and importance of marine vegetation of the South Texas coast. Includes the evolution, taxonomy, ecology, physiology, and trophic importance of marine vegetation. Marine Science 183, 283, 383 (Topic 13) and 193, 293, 393 (Topic 7) may not both be counted.

**Topic 8: Marine Isotope Geochemistry.** The use of isotopes (stable, radiogenic, uranium series, and anthropogenic) in the study of marine science. Marine Science 183, 283, 383 (Topic 14) and 193, 293, 393 (Topic 8) may not both be counted.

**Topic 9: Molecular Methods in Marine Science.** Introduction to the principles and methods of molecular biology and the application of molecular techniques to research in marine science. Marine Science 183, 283, 383 (Topic 15) and 193, 293, 393 (Topic 9) may not both be counted.

**Topic 10: Zooplankton Ecology.** Advanced study of the morphological, physiological, and behavioral adaptations of zooplankton to their environment. Marine Science 183, 283, 383 (Topic 16) and 193, 293, 393 (Topic 10) may not both be counted.

**Topic 11: Coastal Watersheds.** Covers water use, land use and land cover change, and climate change as they relate to biological, physical, and geochemical processes in watersheds. Includes the impact of changing watershed export on coastal ocean ecosystems. Emphasizes case studies on different regions of the United States. Marine Science 183, 283, 383 (Topic 17) and 193, 293, 393 (Topic 11) may not both be counted. Only one of the following may be counted: Law 179M, 279M, 379M, 479M, 579M, 679M (Topic: Coastal Watersheds), Law 291E, 391E, 491E (Topic 5), or Marine Science 393 (Topic 11).

MNS 698. Thesis.
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in marine science and consent of the graduate adviser; for 698B, Marine Science 698A.

MNS 398T. Supervised Teaching in Marine Science.
Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

**Professional Courses**

**MOL - Molecular Biology**

**Molecular Biology: MOL**

**Lower-Division Courses**

**Upper-Division Courses**

**Graduate Courses**

**MOL 380. Advanced Readings in Molecular Biology.**
Individual instruction in the literature of molecular biology. Individual instruction. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

**MOL 080M. Dual MD/PhD Program with UT Medical Branch.**
Preclinical medical study at the University of Texas Medical Branch at Galveston. May not be taken concurrently with another course at the University of Texas at Austin. Prerequisite: Graduate standing and admission to the MD/PhD dual degree program in cell and molecular biology.

**MOL 190C, 290C, 390C. Seminar in Molecular Biology.**
Lectures and discussions on current topics in molecular biology. One, two, or three lecture hours a week for one semester. May be repeated for
credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**Topic 1: Seminar in Molecular Biology I.** Students read, present, and discuss current research papers based on speakers for the Institute for Cellular and Molecular Biology weekly seminar series. Students also will present short talks on their research from one of their laboratory rotations.

**Topic 2: Seminar in Molecular Biology II.** Students write a mock grant proposal with their principle investigator and present a practice part one preliminary exam talk based on the proposal.

**Topic 3: Seminar in Molecular Biology III.** Students present a detailed seminar on their thesis research.

One lecture hour a week for one semester, with additional laboratory hours. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.

Conference course. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

MOL 395F. Genetics.
Same as Biology 395F and Chemistry 395F. Basic principles of Mendelian and molecular genetics, and an exploration of the genetic toolbox using examples of analytic methods and modern manipulations. Focus on the genetic analysis of model organisms. Use of genetic tools in dissecting complex biological pathways, developmental processes, and regulatory systems. Three lecture hours a week for one semester. Prerequisite: Graduate standing. An introductory course in genetics, such as Biology 325, is strongly recommended.

MOL 395G. Structure and Function of Proteins and Membranes.
Same as Biochemistry 395G and Biology 395G. Explore advanced biochemistry concepts and the scientific process. Examine a detailed consideration of the structure and function of proteins, carbohydrates, lipids and nucleic acids, as well as discussion of enzyme mechanisms and kinetics. Three lecture hours a week for one semester. Only one of the following may be counted: Biochemistry 395F, 395G, Biology 395I, 395G, Molecular Biology 395I, 395G. Prerequisite: Graduate standing; a one-year undergraduate sequence in biochemistry is strongly recommended.

MOL 395H. Cell Biology.
Same as Biology 395H and Chemistry 395H. Detailed consideration of mechanisms of growth control, cell cycle regulation, mitosis, cell signaling, protein targeting, and the integration of these processes. Three lecture hours a week for one semester. Prerequisite: Graduate standing; and consent of instructor or Biology 395F and 395G, Chemistry 395F, Molecular Biology 395F and 395G.

MOL 395I. Advanced Biochemistry.
Same as Biochemistry 395F and Biology 395I. Explore advanced biochemistry concepts and the scientific process. Consider the structure and function of proteins, carbohydrates, lipids and nucleic acids, and discuss enzyme mechanisms and kinetics. Three lecture hours a week for one semester. Only one of the following may be counted: Biochemistry 395F, 395G, Biology 395I, 395G, Molecular Biology 395I, 395G. Prerequisite: Graduate standing; a one-year undergraduate sequence in biochemistry is strongly recommended.

MOL 395J. Genes, Genomes, and Gene Expression.
Same as Biochemistry 395J and Biology 395J. Detailed consideration of prokaryotic and eukaryotic mechanisms of DNA replication and transcription; posttranscriptional processing of transcription products; and mechanism and regulation of the translation of messenger RNAs. Three lecture hours a week for one semester. Only one of the following may be counted: Biochemistry 395J, Biology 395J, Molecular Biology 395J. Prerequisite: Graduate standing; and Biology 395F and 395G, or Chemistry 395F and 395G, or Molecular Biology 395F and 395G, or consent of instructor.

MOL 698. Thesis.
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in molecular biology and consent of the graduate adviser; for 698B, Molecular Biology 698A.

MOL 398T. Supervised Teaching in Molecular Biology.
Teaching under close supervision of the instructor; weekly laboratory instruction of undergraduates, group meetings with the instructor, individual consultations, and reports throughout the teaching period. Three lecture hours a week for one semester. Prerequisite: Graduate standing in molecular biology.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses

**MSE - Materials Science and Engineering**

**Materials Science and Engineering: MSE**

**Lower-Division Courses**

**Upper-Division Courses**

MSE 360M. Experiments in Materials Science and Engineering.
Same as Engineering Studies 360M. Hands-on lab-based course designed to teach practical techniques in the synthesis and characterization of materials and their properties, and to use experiments to explore fundamental and potentially abstract materials concepts. Four-and-one-half laboratory hours a week for one semester. Only one of the following may be counted: Engineering Studies 360M, 377 (Topic: Experiments in Materials Science and Engineering), Materials Science and Engineering 360M. Prerequisite: Chemistry 301, Math 408C, 408D and 427J, and Physics 303K and 303L. For students in majors that offer an introductory materials science and engineering course, it is advised to take it prior to taking this course.

**Graduate Courses**

MSE 386P. Topics in Materials Science: Fundamentals.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor; additional prerequisites may vary with the topic.

**Topic 1: Introduction to Phase Transformations.** Same as Mechanical Engineering 386P (Topic 1). Basics of crystal structures and phase diagrams; diffusion; solidification; solid-state phase transformations. Mechanical Engineering 386P (Topic 1) and Materials Science and Engineering 386P (Topic 1) may not both be counted.
**Topic 2: Mechanical Behavior of Materials.** Same as Mechanical Engineering 386P (Topic 2). Elastic deformation; viscoelasticity; yielding, plastic flow, plastic instability; strengthening mechanisms; fracture, fatigue, creep; significance of mechanical properties tests. Microstructural mechanisms and macroscopic behavior of metals, polymers, ceramics, and composites. Mechanical Engineering 386P (Topic 2) and Materials Science and Engineering 386P (Topic 2) may not both be counted.

**Topic 3: Introduction to Thermodynamics of Materials.** Same as Mechanical Engineering 386P (Topic 3). Thermodynamic properties; reactions and chemical equilibrium in gases; solutions, phase equilibria, phase diagrams, reaction equilibria; surfaces and interfaces; point defects in crystals. Mechanical Engineering 386P (Topic 3) and Materials Science and Engineering 386P (Topic 3) may not both be counted.

**Topic 4: Introduction to Solid-State Properties of Materials.** Same as Electrical and Computer Engineering 396V (Topic 5) and Mechanical Engineering 386P (Topic 4). Introduction to the electronic, magnetic, and optical properties of materials. Solid-state properties of metals, semiconductors, and ceramics; fundamental concepts needed for the description of these properties, using an introductory-level description of the electronic structure of solids. Only one of the following may be counted: Electrical Engineering 396V (Topic 5), Electrical and Computer Engineering 396V (Topic 5), Mechanical Engineering 386P (Topic 4), Materials Science and Engineering 386P (Topic 4). Additional prerequisite: Graduate standing and consent of instructor.

**Topic 5: Structure of Materials.** Same as Mechanical Engineering 386P (Topic 5). Essential crystallography of lattices and structures; symmetry; elements of diffraction and reciprocal lattices; point, line, and surface defects in crystals; crystalline interfaces; noncrystalline materials; polymers; glasses. Mechanical Engineering 386P (Topic 5) and Materials Science and Engineering 386P (Topic 5) may not both be counted.

**MSE 389. Topics in Materials Science and Engineering.**
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor; additional prerequisites may vary with the topic.

**MSE 397. Graduate Seminar.**
Presentation of research topics by invited speakers, faculty, and students. Three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

**MSE 197R, 297R, 397R. Research.**
Individual research. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

**MSE 698. Thesis.**
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in materials science and engineering and consent of the graduate adviser; for 698B, Materials Science and Engineering 698A.

**MSE 398R. Master's Report.**
Preparation of a report to fulfill the requirement for the master's degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in materials science and engineering and consent of the graduate adviser.

**MSE 399W, 699W, 999W. Dissertation.**
Research leading to the Doctor of Philosophy in materials science and engineering. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

**Professional Courses**

**MUS - Music**

**Music: MUS**

**Lower-Division Courses**

**MUS 201F. PIANO FOR TEACHERS.**
Restricted to music studies students. Three laboratory hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: MUS 201M or demonstration of equivalent proficiency.

**MUS 201J. Beginning Class Piano for Nonmusic Majors.**
Open to all University students, except music majors, who have no experience in piano. Three class hours a week for one semester. May be repeated for credit.

**MUS 201K. Second-Semester Class Piano for Nonmusic Majors.**
Open to all University students, except music majors, who can fulfill the prerequisite. Three class hours a week for one semester. May be repeated for credit. Prerequisite: Credit with a grade of at least C or registration for Music 201J, or consent by audition; and consent of instructor.

**MUS 201M. Beginning Music Performance: Class Piano.**
Open only to music majors. Three laboratory hours a week for one semester. Credit granted only when taken as a secondary instrument. May be repeated for credit. Prerequisite: Ability to read music, and concurrent enrollment in Music 605A or consent of instructor. No experience on the instrument required; for those with experience, consent by audition required.

**MUS 201N. Beginning Music Performance: Second-Semester Class Piano.**
Open only to music majors. Continuation of Music 201M. Three laboratory hours a week for one semester. Credit granted only when taken as a secondary instrument. May be repeated for credit. Prerequisite: Music 201M completed the previous semester with a grade of at least C, or consent by audition.

**MUS 201Q. Beginning Guitar Class.**
Open to all University students, except music majors, who have no previous experience on the instrument required. Three laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Ability to read music and consent of instructor. No previous experience on the instrument required; for those with experience, consent by audition required.

**MUS 101Q. Beginning Guitar Class.**
Open only to music majors. Continuation of Music 201M. Three laboratory hours a week for one semester. Credit granted only when taken as a secondary instrument. May be repeated for credit. Prerequisite: Music 201M completed the previous semester with a grade of at least C, or consent by audition.

**MUS 201S. Beginning Class Piano for Nonmusic Majors.**
Open to all University students, except music majors, who can fulfill the prerequisite. Three class hours a week for one semester. May be repeated for credit. Prerequisite: Credit with a grade of at least C or registration for Music 201J, or consent by audition; and consent of instructor.

**MUS 201T. Beginning Music Performance: Second-Semester Class Harp.**
Open only to music majors. Three laboratory hours a week for one semester. For music majors, credit granted only when taken as a secondary instrument. May be repeated for credit. Prerequisite: Ability to read music and consent of instructor. No previous experience on the instrument required.
MUS 101V. Beginning Violin Class.
Class instruction in beginning violin performance for non-music majors or music majors studying a secondary instrument. One lecture hour a week for one semester, with additional hours to be arranged. Prerequisite: Ability to read music.

MUS 302L (TCCN: MUSI 1306). An Introduction to Western Music.
Same as European Studies 307M. Introduction to musical styles in the Euro-American art music tradition between the Middle Ages and the present day. Designed to foster critical listening and thinking about music, and deepen understanding of the vital role that music has played and continues to play in society and in individual lives. Three lecture hours a week for one semester, with one laboratory hour a week as required. Only one of the following may be counted: European Studies 307 (Topic: Introduction to Western Music), 307M, Music 302L.

MUS 302P. Introductory Topics in Western Music.
May not be counted by music majors. Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

MUS 303C. Fundamentals of Music: Classroom Instruments.
Explores how music intelligently combines reading, analysis, discussion, composition, and active involvement in music making. Through analysis, performance, and practice of the pedagogy of music for children, explores the roles of music in human culture and examine music’s contributions to human communication, creative expression, and well-being. Three lecture hours and one laboratory hour a week for one semester. Only one of the following may be counted: MUS 303C, 605, 313.

MUS 303D. Fundamentals of Music: Guitar.
Explores how music intelligently combines reading, analysis, discussion, composition, and active involvement in music making. Through analysis, performance, and discussion of the guitar in the folk and popular music of Western and non-Western cultures, explores music’s contributions to human communication, creative expression, and well-being. Three lecture hours and one laboratory hour a week for one semester. Only one of the following may be counted: MUS 303D, 605, 313.

Explores how music intelligently combines reading, analysis, discussion, composition, and active involvement in music making. Through analysis, performance, and discussion of the piano in the folk and popular music of Western and non-Western cultures, explores music’s contributions to human communication, creative expression, and well-being. Three lecture hours and one laboratory hour a week for one semester. Only one of the following may be counted: MUS 303E, 605, 313.

MUS 303M. Introduction to Music in World Cultures.
Same as Middle Eastern Studies 310 (Topic 5). Exploration of practices, beliefs, and issues through the study of various musical genres in the regions of Asia, the Middle East, Africa, the Pacific, Europe, and the Americas. Three lecture hours a week for one semester, with additional hours to be arranged. Only one of the following may be counted: Asian Studies 303M, Middle Eastern Studies 310 (Topic: Introduction to Music in World Cultures), 310 (Topic 5), Music 303M.

MUS 303N. Introduction to Popular Music in World Cultures.
Open to all University students. Exploration of practices, beliefs, and issues through the study of various mass-mediated and commercial musical genres in the regions of Asia, the Middle East, Africa, the Pacific, Europe, and the Americas. Three lecture hours a week for one semester, with one laboratory hour a week as required. Asian Studies 303N and Music 303N may not both be counted.

MUS 303P. Topics in Music of World Cultures.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

MUS 305. Musicianship.
Study of the fundamentals of music for music majors through tonal harmony, ear training, sight-singing, keyboard drill, analysis, and composition of music. Three lecture hours and two laboratory hours a week for two semesters. Only one of the following may be counted: MUS 303C, 605, 313; MUS 303D, 605, 313; MUS 303E, 605, 313; MUS 303F, 605, 313. Prerequisite: For 605A, either satisfactory completion of the audition required for admission to the Butler School of Music and registration in class piano as assigned by the Butler School of Music, or consent of instructor; for 605B, Music 605A with a grade of at least C-.

MUS 306M. Elements of Music.
Open to all University students except music majors. Fundamentals of music including the study of notation and the elements of rhythm, melody, and harmony; development of elementary aural skills; and writing of simple compositions. Three lecture hours a week for one semester.

Open to all University students. Studies of the popular music of a selected culture or geographical area. Three lecture hours a week for one semester, with one laboratory hour a week as required. May be repeated for credit when the topics vary.

Topic 1: Music of African Americans. Same as African and African Diaspora Studies 315U. Introduction to the variety of modes of expression of African American culture in music and other related genres. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315U, 317F (Topic 2), Music 307 (Topic 1).

Topic 3: Jazz Appreciation.

MUS 307P. String Education: Teaching and Learning.
Restricted to current String Project program instructors in the Butler School of Music. Discussion of curriculum planning, lesson observation, and program management topics, as well as guest pedagogues and master teacher presentations. One lecture hour a week for one semester. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Acceptance of teaching application for the String Project program.

MUS 210J. Beginning Instruction in Music Performance: Third-Semester Class Piano.
Open only to music majors. Continuation of Music 210N. Three laboratory hours a week for one semester. Only one of the following may be counted: Music 210J, 247, 276C (Topic: Jazz Piano Techniques II). Credit granted only when taken as a secondary instrument. May be repeated for credit. Prerequisite: Music 210N completed the previous semester with a grade of at least C, or consent by audition.

MUS 210K. Beginning Instruction in Music Performance: Fourth-Semester Class Piano.
Open only to music majors. Continuation of Music 210J. Three laboratory hours a week for one semester. Credit granted only when taken as a secondary instrument. May be repeated for credit. Prerequisite: Music
210J completed the previous semester with a grade of at least C, or consent by audition.

MUS 411. Ear Training and Sight-Singing.
Material drawn from all musical styles. Two lecture hours and one laboratory hour a week for two semesters. Prerequisite: For 411A, Music 605B with a grade of at least C, and credit or registration for Music 612A; for 411B, Music 411A with a grade of at least C, and credit or registration for Music 612B.

MUS 111E. English Diction and Phonetic Translation.
Open only to music majors. Study of English diction and phonetic translation specifically for musicians. Emphasis on the International Phonetic Alphabet. One lecture hour a week for one semester.

MUS 311F. French for Musicians.
Open only to music majors. French language and diction specifically for musicians. Three lecture hours and one laboratory hour a week for one semester.

MUS 311G. German for Musicians.
Open only to music majors. German language and diction specifically for musicians. Three lecture hours and one laboratory hour a week for one semester.

MUS 311J. Italian for Musicians.
Open only to music majors. Italian language and diction specifically for musicians. Three lecture hours and one laboratory hour a week for one semester.

MUS 612. Structure of Tonal Music.
Elements of tonal harmony and form; tonal analysis. Three lecture hours a week for two semesters, with one laboratory hour a week as required. Prerequisite: For 612A, Music 605B with a grade of at least C, and credit or registration for Music 411A; for 612B, Music 612A with a grade of at least C, and credit or registration for Music 411B.

MUS 312C. Music and Culture.
Issues in the performance, transmission, and reception of music in Western Europe and North America in global and comparative social and political contexts. Three lecture hours and one laboratory hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: For music majors, credit or registration for Music 605.

MUS 213M, 313M. History of Music I.
Restricted to music majors. The history of music from the beginning of notation to the eighteenth century. Three lecture hours and one laboratory hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Music 605 and 312C, or consent of instructor.

MUS 213N, 313N. History of Music II.
Restricted to music majors. The history of music from the eighteenth century to the early twentieth century. Three lecture hours and one laboratory hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Music 213M or 313M, or consent of instructor.

MUS 214C. Beginning Composition.
Introduction to contemporary composition through the analysis and writing of short studies and through supervised original projects. Two lecture hours and one laboratory hour a week for one semester. May be repeated for credit. Prerequisite: Concurrent enrollment in Music 411 and 612, or consent of instructor.

MUS 115D. String Instrument Fundamentals.
Beginning instruction in string instrument performance and pedagogy. Prerequisite: For 115D, Music 605B with a grade of at least C, and credit or registration for Music 612A; for 115E, Music 115D with a grade of at least C, and credit or registration for Music 612B.

MUS 115E. Brass Instrument Fundamentals.
Beginning instruction in brass instrument performance and pedagogy. Prerequisite: For 115E, Music 605B with a grade of at least C, and credit or registration for Music 612A; for 115F, Music 115E with a grade of at least C, and credit or registration for Music 612B.

MUS 115F. Woodwind Instrument Fundamentals.
Beginning instruction in woodwind instrument performance and pedagogy. Prerequisite: For 115F, Music 605B with a grade of at least C, and credit or registration for Music 612A; for 115G, Music 115F with a grade of at least C, and credit or registration for Music 612B.

MUS 115G. Guitar Fundamentals.
Beginning instruction in guitar performance and pedagogy. Prerequisite: For 115G, Music 605B with a grade of at least C, and credit or registration for Music 612A; for 115H, Music 115G with a grade of at least C, and credit or registration for Music 612B.

MUS 115T. Lower-Division Reed Making.
Individual instruction. May be repeated for credit. Prerequisite: Consent of instructor.

MUS 218J. Beginning Jazz Improvisation.
Study of basic jazz improvisational skills through performance of standard literature. Two class hours a week for one semester. Prerequisite: Music 605 or consent of instructor.

Restricted to music majors. Introduction to the practice of creating music with computer technologies and the basic techniques of recording, editing and producing digital audio tracks, including introduction to musical acoustics and psychoacoustics, fundamentals of audio recording, editing, mixing, and processing, MIDI, digital audio workstations, and syncing sound to video. Three hours a week for one semester. Only one of the following may be counted: Arts and Entertainment Technologies 305, Fine Arts 310 (Topic: Foundations of Digital Sound and Music), Music 319D.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Butler School of Music. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

MUS 420J. Junior Jazz Recital.
Preparation and performance of a half-hour public recital in the major jazz instrument. Individual instruction. Prerequisite: For jazz composition majors, course 212J in the major jazz instrument for two semesters, or
MUS 220P. Practicum in a World Music Tradition.
Open to any University student who can qualify by audition. Advanced training on a non-Western musical instrument such as Javanese gender barung, Indian sitar, Arabic qanun, or Korean kayakum, or advanced training in a non-Western vocal style, and other approved musical practices. Two lecture hours a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing in music or consent of instructor.

MUS 222J. Instrumental Conducting.
Continuation of Music 222J. Further technical study in irregular meters, polyrhythmic and polymetrical patterns and scores; emphasis on expressive gestures, phrasal and compound beat conducting. Two class hours a week for one semester. Prerequisite: Music 222J or consent of instructor.

MUS 222K. Instrumental Conducting.
Continuation of Music 222J. Further technical study in irregular meters, polyrhythmic and polymetrical patterns and scores; emphasis on expressive gestures, phrasal and compound beat conducting. Two class hours a week for one semester. Prerequisite: Music 222J or consent of instructor.

MUS 223. Jazz Improvisation I.
Restricted to jazz majors. Study and practice jazz improvisation and the harmonic, rhythmic, melodic and aural skills associated with the art form. Two lecture hours a week for one semester. Only one of the following may be counted: Music 223, 228J, 276C (Topic: Jazz Improvisation I).

MUS 223J. Choral Conducting.
Designed for those who have had no experience in conducting. Includes regular and irregular beat patterns, subdivisions and beat pattern variations as applied to simple choral literature, and practical experience in conducting vocal groups. Two class hours a week for one semester. Prerequisite: Upper-division standing in music or consent of instructor.

MUS 223K. Choral Conducting.
Continuation of Music 223J. Further technical study in irregular meters, polyrhythmic and polymetrical patterns and scores; emphasis on expressive gestures, phrasal and compound beat conducting. Two class hours a week for one semester. Prerequisite: Music 223J or consent of instructor.

MUS 224. Jazz Improvisation II.
Restricted to jazz majors. Examine advanced harmonic, rhythmic, melodic, and aural concepts. Two lecture hours a week for one semester. Music 224 and 276C (Topic: Jazz Improvisation II) may not both be counted. Prerequisite: Music 223 or consent of instructor.

MUS 224G. Intermediate Composition.
Continuation of Music 214C. The equivalent of two lecture hours and one laboratory hour a week for one semester. May be repeated for credit. Prerequisite: Music 214C with a grade of at least B, and approval of the music theory and composition faculty.

MUS 224J. Advanced Composition.
Continuation of Music 224G for composition majors only. The equivalent of two lecture hours and one laboratory hour a week for one semester. With consent of the music theory and composition faculty, may be repeated for credit. Prerequisite: Music 224G with a grade of at least B, and approval of the music theory and composition faculty.

MUS 321J. Twentieth-Century Musical Analysis.
Introduction to the theory and practice of music since 1900. Includes various analytical approaches to the wide range of musical styles developed over the course of the twentieth- and twenty-first centuries, as well as the music of mainstream twentieth century composers and living composers. Both analytical and aural skills are emphasized. Three lecture hours a week for one semester. Prerequisite: Music 411 and 612.

MUS 325M. Counterpoint.
Analysis of eighteenth-century inventions, fugues, and passacaglias; development of contrapuntal skills in twentieth-century styles that draw on these historical models; the teaching of counterpoint. Three lecture hours a week for one semester. Prerequisite: Music 411 and 612.

MUS 325N. Orchestration and Instrumentation.
Study of the characteristics of individual instruments; writing for various combinations; study of scores of different periods; listening to recordings and live performances. Two lecture hours a week for one semester. Prerequisite: Music 411 and 612.

MUS 225. Choral Conducting.
Techniques of voicing and arranging for choirs, vocal ensembles, and vocal chamber groups. Two lecture hours a week for one semester. Prerequisite: Music 411 and 612.

MUS 226G. Orchestration and Instrumentation.
Continuation of Music 226J. Two lecture hours a week for one semester. Music 226K and 349 may not both be counted. Prerequisite: Music 226J.

MUS 226J. Orchestration and Instrumentation.
Continuation of Music 226G for composition majors only. The equivalent of two lecture hours and one laboratory hour a week for one semester. With consent of the music theory and composition faculty, may be repeated for credit. Prerequisite: Music 224G with a grade of at least B, and approval of the music theory and composition faculty.

MUS 228C. Jazz Harmony in Practice I.
Restricted to music majors. Study the harmonic language standardized in jazz and popular American music. Two lecture hours a week for one semester. Only one of the following may be counted: Music 228C, 228G, 331J (Topic: Jazz Harmony in Practice).

MUS 228D. Jazz Harmony in Practice II.
Restricted to music majors. Explore the harmonic motion of jazz, ear training, and harmonic embellishment. Two lecture hours a week for one semester. Only one of the following may be counted: Music 228D, 228L, 276C (Topic: Jazz Harmony in Practice II). Prerequisite: Music 228C, or consent of instructor.
MUS 228P. Jazz Composition.
Individual instruction in the creative process of composition, involving the melodic, harmonic, and rhythmic components of various jazz styles. Individual instruction. May be repeated for credit. Prerequisite: Music 328M or consent of instructor.

MUS 329E. Introduction to Electronic Media.
Introduction to the fundamentals of recording, tape editing, and electronic music synthesis. Three lecture hours and six laboratory hours a week for one semester. Prerequisite: Upper-division standing and consent of instructor.

MUS 329F. Projects in Electronic Media.
Continuation of Music 329E for nontheory and noncomposition majors. One and one-half lecture hours and eight laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Music 329E and consent of instructor.

MUS 329G. Intermediate Electronic Composition.
Continuation of Music 329E for music theory or composition majors. Three lecture hours and six laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Music 329E and consent of instructor.

MUS 329J. Introduction to Computer Music.
An introduction to the basic concepts of digital music synthesis and signal processing. One and one-half lecture hours and eight laboratory hours a week for one semester. Arts and Entertainment Technologies 331 and Music 329J may not both be counted. Prerequisite: Music 329E and consent of instructor.

Continuation of Music 329J. One and one-half lecture hours and eight laboratory hours a week for one semester. Arts and Entertainment Technologies 332 and Music 329M may not both be counted. May be repeated for credit. Prerequisite: Music 329J and consent of instructor.

MUS 129Q, 229Q, 329Q, 429Q, 529Q, 629Q, 729Q, 829Q, 929Q. Topics in Music.
This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad advisor in the Butler School of Music. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

MUS 230L, 330L. History of Music III.
Restricted to music majors. The history of music from the early twentieth century to the present. Three lecture hours and one laboratory hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Music 213N or 313N, or consent of instructor.

MUS 331J. Advanced Studies in Music Theory.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: MUS 612 and 313N, or upper-division standing and consent of instructor.

Studies of both indigenous and borrowed traditions in the popular, folk, and art music of the Americas from the colonial period to the present. Three lecture hours a week for one semester, with one laboratory hour a week as required. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.
indigenous, European and African people; nationalism and mass media; crossing borders and changing performance practices. Only one of the following may be counted: Latin American Studies 326 (Topic: History of Mariachi Music), Mexican American Studies 374 (Topic: History of Mariachi Music), Music 334 (Topic 6), 334 (Topic: History of Mariachi Music).

**Topic 7: Music of Mexico and Borderlands.** Explore historically, culturally and stylistically the various regional styles of Mexican music and Mexican American music as it has developed along the southern border of the United States, with close attention to historical and socio-cultural influences from indigenous, European and African people; nationalism and mass media; stylistic change and mainstream acceptance. Only one of the following may be counted: Latin American Studies 326 (Topic: Music of Mexico/Borderlands), Music 334 (Topic 7), 334 (Topic: Music of Mexico/Borderlands).

**Topic 8: Mexican Soundscapes.** Examine culturally and historically the music and sound cultures that exist in Mexico and in Mexican American communities in the United States. Explore the social, cultural, religious, and political currents that have impacted the development of the musical and aural cultures in Mexico and on the US-Mexico border, and how these currents have shaped conceptions of identity and cultural nationalism, using the concept of soundscape as the dominant framework. Engage with readings in popular culture, popular media (cinema and television), cultural theory, history and musicology. Music 334 (Topic 8) and 342 (Topic: Mexican Soundscapes) may not both be counted.

**MUS 337. Music and Film Sound.**

History of music and the soundtrack; analysis of interactions between image and sound; and aesthetics and issues of production and postproduction. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**MUS 338. Masterpieces of Music.**

Study of the works of specific composers or of specific genres in the Western musical tradition. Three lecture hours a week for one semester. May not be counted by music majors. May be repeated for credit when the topics vary. Prerequisite: Music 302L or consent of instructor.

**MUS 342. Area Studies in Ethnomusicology.**

Studies of the musical traditions of selected cultures or geographical areas. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

**Topic 3: Musics of India.** Same as Anthropology 324L (Topic 13: Musics of India) and Asian Studies 361 (Topic 11: Musics of India). Prerequisite: Upper-division standing.

**Topic 5: Black Perspectives in Jazz.** Same as African and African Diaspora Studies 338C. Explores the social, cultural, political, and artistic relationships between jazz and the black experience, both within the African American context and throughout the diaspora. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 338C, 372E (Topic 12), Music 342 (Topic 5).

**Topic 6: Musics of East and Southeast Asia.** Additional prerequisite: Upper-division standing.

**Topic 7: Introduction to the Music of the Middle East.** Same as Jewish Studies 363 (Topic 21). Only one of the following may be counted: Islamic Studies 373 (Topic: Introduction to Music of the Middle East), Jewish Studies 363 (Topic: Introduction to Music of the Middle East), 363 (Topic 21), Middle Eastern Languages and Cultures 321 (Topic: Introduction to Music of the Middle East), Middle Eastern Studies 328 (Topic: Introduction to Music of the Middle East), 342 (Topic: Introduction to Music of the Middle East), Music 342 (Topic: Introduction to Music of the Middle East), 342 (Topic 7).

**MUS 343J. History of Jazz.**

Survey of the history of jazz from its origins to the present. Three lecture hours a week for one semester. Prerequisite: Upper-division standing in music or consent of instructor.

**MUS 246. Jazz Piano Techniques I.**

Restricted to music majors. Study basic skills in chord notation, chord interpretation and voicing, voice leading, and jazz piano styles. Three laboratory hours a week for one semester. Music 228K and 246 may not both be counted. Prerequisite: Music 201N and 605, or consent of instructor.

**MUS 346R. Music and Religious Identities in the US.**

**MUS 247. Jazz Piano Techniques II.**

Restricted to music majors. Three laboratory hours a week for one semester. Only one of the following may be counted: Music 210J, 247, 276C (Topic: Jazz Piano Techniques II) Prerequisite: Music 246, or consent of instructor.

**MUS 348. Studio Arranging I.**

Restricted to music majors. Study arranging for a variety of small group configurations, applying fundamental techniques, and scoring for large jazz ensemble. Three lecture hours a week for one semester. Music 328M and 348 may not both be counted. Prerequisite: Music 228D, or consent of instructor.

**MUS 349. Studio Arranging II.**

Restricted to music majors. Explore extended arrangements for large jazz ensemble and study of masterworks of the genre. Three lecture hours a week for one semester. Music 226K and 349 may not both be counted. Prerequisite: Music 348, or consent of instructor.

**MUS 350S. Creating Music and Sound for Film, Video, and Games.**

Priority given to music composition majors. Designed to introduce students to concepts of music and sound for a variety of media with a primary focus on creating original music and/or soundtracks. Subjects include music structures, production and editing, film and video synchronization, game audio, and other sound for film related topics. Three lecture hours a week for one semester. Arts and Entertainment Technologies 323 and Music 350S may not both be counted. Prerequisite: Music 319D with a grade of at least C, and consent of instructor.
The processes of musical development in young children. Topics include music in multicultural contexts, music in the cognitive and social development of young children, and special issues concerning music and exceptional children. Three lecture hours a week for one semester. Prerequisite: Upper-division standing or consent of instructor.

MUS 354C. Children’s Music Literature and Performance I.
Literature, materials, and music performance activities appropriate for young children. Three lecture hours and one laboratory hour a week for one semester. Prerequisite: Music 605 or 313, upper-division standing in music studies, or consent of instructor.

MUS 354D. Children’s Music Literature and Performance II.
Continuation of Music 354C. Three lecture hours a week for one semester. Prerequisite: Music 354C or consent of instructor.

MUS 354F. Music Performance, Listening, and Appreciation.
Techniques and materials for the development of skill in composition, arranging, performance, and aural discrimination; problems related to the adolescent voice. Three lecture hours and one laboratory hour a week for one semester.

MUS 354S. Game Development Capstone: Two-Dimensional Games.
Same as Computer Science 354S and Theatre and Dance 354T (Topic 17). Participation in an interdisciplinary team to gain a thorough understanding of the two-dimensional game development process, through modeling of the environment and practices that are used in game studios. Three lecture hours a week for one semester. Only one of the following may be counted: Arts and Entertainment Technologies 376, Computer Science 354S, 378 (Topic: Game Devel Capstone: 2D Games), Music 354S, 376J (Topic: Game Devel Capstone: 2D Games), Theatre and Dance 354T (Topic 17), Radio-Television-Film 344N (Topic 6), 344T (Topic 1). Prerequisite: For computer science majors, Computer Science 354, 354H, 354P, or 354R with a grade of at least C; for others, consent of instructor.

MUS 354T. Game Development Capstone: Three-Dimensional Games.
Same as Computer Science 354T and Theatre and Dance 354T (Topic 18). Participation in interdisciplinary teams to gain a thorough understanding of the three-dimensional game development process, through modeling of the environment and practices that are used in game studios. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 354T, Music 354T, 376J (Topic: Game Development Capstone: 3D Games), Theatre and Dance 354T (Topic 18). Prerequisite: For computer science majors, Computer Science 354, 354H, 354P, or 354R with a grade of at least C; for others, consent of instructor.

MUS 155C. Techniques of Percussion Performance.
Percussion performance techniques for individual and ensemble settings, including appropriate literature and rehearsal procedures. Two laboratory hours a week for one semester. Prerequisite: Upper-division standing in music studies.

MUS 255D. Techniques of String Performance.
String instrument performance techniques for individual and ensemble settings, including appropriate literature and rehearsal procedures. Two lecture hours a week for one semester. Prerequisite: Upper-division standing in music studies.

MUS 255E. Techniques of Brass Performance.
Brass instrument performance techniques for individual and ensemble settings, including appropriate literature and rehearsal procedures. Two lecture hours a week for one semester. Prerequisite: Upper-division standing in music studies.

MUS 255F. Techniques of Woodwind Performance.
Woodwind instrument performance techniques for individual and ensemble settings, including appropriate literature and rehearsal procedures. Two lecture hours a week for one semester. Prerequisite: Upper-division standing in music studies.

MUS 255M. Marching Band Techniques.
Literature, materials, and techniques of the marching band. Two lecture hours and one laboratory hour a week for one semester. Prerequisite: Upper-division standing in music studies.

MUS 155S. Vocal Techniques For Instrumentalists.
Restricted to music majors. Explore vocal techniques for individual and instructional settings. Examine appropriate literature and rehearsal procedures. One-and-one-half laboratory hours per week for one semester. Music 155S and 176C (Topic: Voice Fundamentals) and may not both be counted.

MUS 255V. Techniques of Vocal Performance.
Technique of individual and ensemble singing practiced through the study of vocal literature. Two lecture hours a week for one semester. Prerequisite: Upper-division standing in music studies.

Choral music literature; rehearsal and performance techniques for choirs and small ensembles. One lecture hour a week for each credit hour earned and one lab hour a week for one semester. Prerequisite: Upper-division standing in music studies or consent of instructor.

Study of the literature and of performance and rehearsal techniques for heterogeneous instrumental ensembles. Three lecture hours and one laboratory hour a week for one semester. Prerequisite: Upper-division standing in music studies and Music 210K.

MUS 259C. Chamber Music: Brass.
Restricted to music majors. The equivalent of two lecture hours and one laboratory hour a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing, Music 411 and 612, and consent of instructor.

MUS 259E. Chamber Music: Percussion.
Restricted to music majors. The equivalent of two lecture hours and one laboratory hour a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing, Music 411 and 612, and consent of instructor.

MUS 159J. Harp Repertoire.
Study and performance of the harp repertoire. One laboratory hour a week for one semester. May be repeated for credit. Prerequisite: Consent of instructor.

MUS 259L. Vocal Repertoire Coaching.
Two lecture hours and one laboratory hour a week for one semester. May be repeated for credit. Prerequisite: Consent of instructor.
MUS 259N. Chamber Music: Strings and Piano.
The equivalent of two lecture hours and one laboratory hour a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing, Music 411 and 612, and consent of instructor.

MUS 259R. Chamber Music: Saxophone.
Restricted to music majors. The equivalent of two lecture hours and one laboratory hour a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing, Music 411 and 612, and consent of instructor.

MUS 259T. Topics in Instrumental Technology.
Two lecture hours and one laboratory hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Consent of instructor.

MUS 259U. Chamber Music: Repertoire Before 1800.
The equivalent of two lecture hours and one laboratory hour a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing, Music 411 and 612, and consent of instructor.

MUS 259V. Chamber Music: Vocal.
Restricted to music majors. The equivalent of two lecture hours and one laboratory hour a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing, Music 411 and 612, and consent of instructor.

MUS 259W. Chamber Music: Woodwinds.
Restricted to music majors. The equivalent of two lecture hours and one laboratory hour a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing, Music 411 and 612, and consent of instructor.

MUS 160C. Senior Composition Recital.
Open only to music composition majors. Preparation and performance of a thirty-minute public recital of the student's original compositions. Individual instruction.

MUS 460J. Senior Jazz Recital.
Open only to jazz performance majors. Preparation and performance of a one-hour public recital in the major jazz instrument. Individual instruction. Prerequisite: Music 420J and approval of the jazz faculty.

MUS 460R. Senior Recital.
Open only to music performance majors. Preparation and performance of a one-hour public recital in the major instrument. Individual instruction. Prerequisite: For performance majors approved to pursue a pedagogy emphasis, approval of the faculty; for other performance majors, Music 420R and approval of the faculty.

MUS 262C. Intermediate Instrumental Conducting.
Problems and interpretation of larger band and orchestral works; analytical study of musical form as it relates to conducting; a synthesis of musical understanding and expansion of comprehensive musicianship through conducting problems. Two lecture hours and one laboratory hour a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing and Music 222K.

MUS 164L, 364L. Advanced Ear Training.
Further development of techniques taught in Music 411, with emphasis on aural recognition of larger musical forms and of music of contemporary style. For each semester hour of credit earned, one lecture hour a week for one semester. Prerequisite: Upper-division standing in music and Music 411 and 612.

MUS 268L. Review of Music Theory.
An intensive review of the skills and concepts required for the study of music theory at the graduate level. Three lecture hours a week for one semester. May not be counted toward a graduate degree. Prerequisite: Upper-division or graduate standing in music.

MUS 271P. Pedagogy.
Designed primarily for students planning teaching careers. Offered in piano, voice, and orchestral instruments. Methods include individual and class instruction through the use of music literature and the teaching repertoire. Practice teaching and laboratory for diagnostic and corrective methods are required. Two lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

MUS 366P. Senior Piano Pedagogy Project.
Open only to senior piano performance majors pursuing the pedagogy option. Students complete a research paper on a piano pedagogy topic, such as methodology, skills development, or repertoire. Individual instruction. Prerequisite: Upper-division standing and Music 460P with a grade of at least B.

MUS 375J. Twentieth-Century Music Techniques.
Restricted to music majors. Review of techniques and methods for analyzing twentieth-century music. Three lecture hours a week for one semester. Music 375J and Music 376J (Topic 1) may not both be counted. Offered on the letter-grade basis only.

MUS 376J. Special Topics in Music Theory.
Restricted to music majors. Preparation and performance of a thirty-minute public recital of the student's original compositions. Individual instruction. Prerequisite: Upper-division standing and Music 460P with a grade of at least B.

MUS 376P. Senior Piano Pedagogy Project.
Open only to senior piano performance majors pursuing the pedagogy option. Students complete a research paper on a piano pedagogy topic, such as methodology, skills development, or repertoire. Individual instruction. Prerequisite: Upper-division standing and Music 460P with a grade of at least B.

MUS 379K. Senior Piano Pedagogy Project.
Open only to senior piano performance majors pursuing the pedagogy option. Students complete a research paper on a piano pedagogy topic, such as methodology, skills development, or repertoire. Individual instruction. Prerequisite: Upper-division standing and Music 460P with a grade of at least B.

An intensive review of the skills and concepts required for the study of music theory at the graduate level. Three lecture hours a week for one semester. May not be counted toward a graduate degree. Prerequisite: Upper-division or graduate standing in music.
MUS 176M. Special Topics in Music Studies.
One class hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and consent of instructor.

MUS 176R. Guitar Repertory.
Restricted to music majors whose primary instrument is guitar. One lecture hour a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing.

MUS 276S. Bassoon Literature.
Restricted to music majors. Two lecture hours a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing.

MUS 276T. Flute Literature.
Restricted to music majors. Two lecture hours a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing.

MUS 276U. French Horn Literature.
Restricted to music majors. Two lecture hours a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing.

MUS 276V. Oboe Literature.
Restricted to music majors. Two lecture hours a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing.

Individual projects to be completed under faculty supervision. For each semester hour of credit earned, the equivalent of one class hour a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor and the director of the school.

Individual projects to be completed under faculty supervision. For each semester hour of credit earned, the equivalent of one class hour a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor and the director of the school.

Individual projects to be completed under faculty supervision. For each semester hour of credit earned, the equivalent of one class hour a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor and the director of the school.

Individual projects to be completed under faculty supervision. For each semester hour of credit earned, the equivalent of one class hour a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor and the director of the school.

MUS 379G. Capstone in Music.
Restricted to seniors pursuing the Bachelor of Arts in Music. Drawing from the chosen concentration for the Bachelor of Arts in Music, generate scholarly or creative work to enhance preparation for a post-baccalaureate education or career. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and consent of instructor.

MUS 379K. Advanced Topics in Music Literature.
Three lecture hours a week for one semester. Two or more topics may be taken concurrently. May be repeated for credit when the topics vary. Prerequisite: Music 612 and 213N, or upper-division standing and consent of instructor.

MUS 379Q. Musical Acoustics.
Same as Mechanical Engineering 379Q. Designed to help students develop the intuition and vocabulary for understanding the basic physical principles relevant to musical instruments and sound (e.g., mechanics, vibrations, acoustics, harmonics, acoustic-electronic conversions, speakers, hearing, perception, room acoustics) in order to be able to read basic articles on the subject of musical acoustics. Material is kept relevant to musical principles (e.g., performance techniques, scales/harmony) throughout. Three lecture hours a week for one semester. Only one of the following may be counted: Arts and Entertainment Technologies 320D, 339 (Topic: Musical Acoustics), Mechanical Engineering 379M (Topic: Musical Acoustics), 379Q, Music 376J (Topic: Musical Acoustics), 379Q.

Graduate Courses
Historical and cultural studies of the music of various periods or places. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 1: Medieval.
Topic 2: Renaissance.
Topic 3: Baroque.
Topic 4: Eighteenth Century.
Topic 5: Nineteenth Century.
Topic 6: Twentieth Century.
Topic 7: Music of Mexico and the Caribbean.
Topic 8: Music of Latin America.

MUS 381. Advanced Topics in Music Literature.
Three lecture hours a week for one semester. Two or more topics may be taken concurrently. May be repeated for credit when the topics vary. Prerequisite: Music 612 and 213N, or upper-division standing and consent of instructor.
Topic 13: Music of Brazil and Argentina. An introduction to Brazilian and Argentinian music from samba, capoeira, and forro to tango, cumbia villera, and chacarera; examines such music making within its various historical, social, and political contexts.

Topic 14: Music of the Andean Countries. Introduction to the music of Andean countries including Colombia, Ecuador, Peru, Bolivia, and Chile. Explore the role music plays in shaping historical and modern Andean societies, as well as how music comments upon national culture, society, and politics, with particular attention to the ways in which musicians and musical movements continue to influence Andean societies. Subjects include pre-Columbian and colonial music making; music representative of the tripartite indigenous, African, and Iberian heritage of Andean countries; aesthetics, identity, and musical expression; ritual, religion, and the politics of musical performance.

Topic 15: The Music of the African Diaspora. Investigate the musical legacy of the African slave trade in the Americas, the social contexts in which black musical forms have developed, and their varied forms. Includes the shifting meanings of “black music” in various contexts; the notion of hybridity; the uses of African influenced music as a political or oppositional tool; and African ethnic groups represented prominently in the New World, the traditions they brought with them, and the ways they have been adapted to new ends.

MUS 280D. Topics in Diction and Translation.
Advanced study in English, Italian, French, and German diction and translation. The equivalent of two lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in music.

MUS 180G. Improvisation (Non-Jazz).
One lecture hour and three laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing.

MUS 280M. Group Piano Pedagogy.
The development of skills in teaching group piano; examination and evaluation of methods and materials used in keyboard instruction; learning styles; research. Two lecture hours and one laboratory hour a week for one semester. Prerequisite: Graduate standing in music, or graduate standing and consent of instructor.

MUS 280N. Technology in Voice Study.
The integration of computer technology and audiovisual equipment into applied voice instruction. One lecture hour and one and one-half laboratory hours a week for one semester. May be repeated for credit, but only two semester hours may be counted toward the Doctor of Musical Arts degree. Prerequisite: Graduate standing in music.

MUS 180R, 280R. Vocal Repertoire Coaching.
For 180R, one lecture hour and three laboratory hours a week for one semester; for 280R, one lecture hour and six laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

MUS 180T, 280T. Accompanying.
For 180T, one lecture hour and three laboratory hours a week for one semester; for 280T, one lecture hour and six laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing.

MUS 180V, 280V. Collaborative Piano: Vocal and Instrumental.
For 180V, one lecture hour and three laboratory hours a week for one semester; for 280V, one lecture hour and six laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

MUS 381. Reference and Research Materials in Music.
Three lecture hours a week for one semester. Prerequisite: Graduate standing in music.

MUS 281C. Chamber Music: Brass.
Restricted to graduate music majors. One lecture hour and six laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing in music, or graduate standing and consent of instructor.

MUS 181D. Chamber Music: Artist Diploma.
Restricted to graduate music students in the Artist Diploma program. One lecture hour and three laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing in music, or graduate standing and consent of instructor.

MUS 281E. Chamber Music: Percussion.
Restricted to graduate music majors. One lecture hour and six laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing in music, or graduate standing and consent of instructor.

MUS 381J. Introduction to Musicology and Ethnomusicology.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in music.

Topic 1: Foundations of Musicology.
Topic 2: Foundations of Ethnomusicology.
Topic 3: Proseminar in Musicological Research.
Topic 4: Analytical and Ethnographic Methods in Ethnomusicology.
Music 381J (Topic 3) and 381J (Topic 4) may not both be counted.

MUS 281K. Chamber Music: Piano.
Restricted to graduate music majors. One lecture hour and six laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing in music, or graduate standing and consent of instructor.

MUS 481M. Chamber Music: Masters Quartet.
Restricted to Master of Music-Chamber Music majors. One lecture hour and ten laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing in music, or graduate standing and consent of instructor.

MUS 281P. Graduate Pedagogy.
Restricted to graduate music majors. Intensive study of the principles and methods of teaching various instruments at the college level. Two lecture hours a week for one semester. Music 480P and 281P may not both be counted. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 1: Graduate Pedagogy: Piano I.
Topic 2: Graduate Pedagogy: Piano II.
Topic 3: Graduate Pedagogy: Voice I.
Topic 4: Graduate Pedagogy: Voice II.
Topic 5: Graduate Pedagogy: Orchestral Instruments I.
Topic 6: Graduate Pedagogy: Orchestral Instruments II.

MUS 281R. Chamber Music: Saxophone.
Restricted to graduate music majors. One lecture hour and six laboratory hours a week for one semester. May be repeated for credit. Prerequisite:
Graduate standing in music, or graduate standing and consent of instructor.

**MUS 281S. Chamber Music: Strings.**
Restricted to graduate music majors. One lecture hour and six laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing in music, or graduate standing and consent of instructor.

**MUS 281V. Chamber Music: Vocal.**
Restricted to graduate music majors. One lecture hour and six laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing in music, or graduate standing and consent of instructor.

**MUS 281W. Chamber Music: Woodwinds.**
Restricted to graduate music majors. One lecture hour and six laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing in music, or graduate standing and consent of instructor.

**MUS 282J. Instrumental Conducting.**
Designed for those who have had no experience in conducting. Explore rudimentary use of baton, regular and irregular beat patterns, subdivisions and beat pattern variations as applied to simple instrumental literature. Develop practical experience in conducting instrumental groups. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing in music, or consent of instructor.

**MUS 283L. Seminar in Music Education.**
Individual and group studies of advanced topics. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in music, and Music 391 or consent of instructor.

**MUS 284J. Advanced Studies in Music Education.**
Review and criticism of research, acoustics, and psychology. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in music.

- **Topic 1:** History and Philosophy.
- **Topic 2:** Current Trends in Music Education.
- **Topic 3:** Research in Music Education I.
- **Topic 4:** Tests and Measurements in Music.
- **Topic 5:** Research in Music Education II.
- **Topic 6:** Music Learning and Behavior.

**MUS 284P. Practicum in a World Music Tradition.**
Open to any University student who can qualify by audition. Advanced training on a non-Western musical instrument such as Javanese gender barung, Indian sitar, Arabic qanun, or Korean kayakeum, or advanced training in a non-Western vocal style, and other approved musical practices. Two lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing; two semesters of enrollment in a non-Western music ensemble, such as Javanese Gamelan, Middle Eastern or North Indian music ensemble, or other approved music ensembles, and consent of instructor.

**MUS 385. Special Topics in Musicology.**
Research in depth on various topics. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in music.

- **Topic 1:** History of Music Theory to 1750.
- **Topic 2:** History of Music Theory.
- **Topic 3:** Notational Systems before 1400.

**MUS 385J. Seminars: Musicology and Ethnomusicology.**
Intensive studies of special problems and/or issues in music, broadly defined. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

**MUS 185R, 285R, 385R. Directed Research in Musicology.**
Individual instruction. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

**MUS 386J. Topics in the History of Sacred Music.**
Introduction to a significant body of choral works, from the thirteenth century to the present age, composed especially for religious occasions and venues. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in music.

**MUS 286S. Music in Worship: Service Planning and Service Playing.**
The art and practice of preparing, rehearsing, and performing specific works of sacred music for religious occasions. Two lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in music.

**MUS 387L. Advanced Studies in Music Literature.**
Analytical and historical studies of a particular repertoire. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in music, or graduate standing and consent of instructor.

- **Topic 1:** Topics in the Solo Song.
- **Topic 2:** Topics in Music for Keyboard Instruments.
- **Topic 3:** Topics in Music for String Instruments.
- **Topic 4:** Band Literature.
- **Topic 5:** Choral Music.
- **Topic 6:** Orchestral Music.
- **Topic 7:** Band Music.
- **Topic 8:** Opera.
- **Topic 9:** Jazz. Additional prerequisite: Music 343J or consent of instructor.
- **Topic 10:** Jazz Literature. Additional prerequisite: Music 343J or consent of instructor.
- **Topic 11:** Music Literature. Additional prerequisite: Music 343J or consent of instructor.
- **Topic 12:** Collaborative Piano Literature.
- **Topic 13:** Chamber Music.
- **Topic 20:** Jazz Ensemble Literature. Explore a selection of acclaimed albums of modern jazz, which by general consensus form a body of essential listening knowledge - the foundation of a recorded jazz canon. Music 387L (Topic: Jazz Ensemble Literature) and Music 387L (Topic 20) may not both be counted.

**MUS 387L. Advanced Studies in Music Literature.**
Explore a selection of acclaimed albums of modern jazz, which by general consensus form a body of essential listening knowledge - the foundation of a recorded jazz canon. Music 387L (Topic: Jazz Ensemble Literature) and Music 387L (Topic 20) may not both be counted.

- **Topic 1:** Jazz Perspectives. Investigative chronological study of jazz history, aimed at gaining a better sense of jazz's ever-evolving "state of the art," through the experiences of its musicians within their own time. Three lecture hours a week for one semester. Music 387L (Topic: Jazz Perspectives) and Music 387L (Topic 21) may not both be counted.

**MUS 388C. Composition.**
Individual instruction. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

**MUS 388E. Electronic Composition.**
Individual instruction. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.
MUS 388F. Film and Scoring Media.
Three lecture hours a week for one semester. Music 688A (Topic: Film and Scoring Media) and 388F may not both be counted. Prerequisite: Graduate standing in composition, or graduate standing and consent of instructor.

MUS 388G. Graduate Media Project.
Individual instruction. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

MUS 388J. Improvisation Styles and Techniques.
The study and analysis of jazz improvisation. Three lecture hours a week for one semester. Music 688 (Topic 16) and 388J may not both be counted. Prerequisite: Graduate standing and consent of instructor.

MUS 388K. Project in Jazz Composition.
Individual instruction. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

MUS 388M. Studies in Music Theory.
Three class hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in music or graduate standing and consent of instructor; additional prerequisites vary by topic.

Topic 1: Foundations of Music Theory. Music 688 (Topic 2) and 388M (Topic 1) may not both be counted. Additional prerequisite: Graduate standing in music theory, musicology, ethnomusicology, or composition; or graduate standing and consent of instructor.

Topic 2: Form Theory. Music 688 (Topic 7) and 388M (Topic 2) may not both be counted. Additional prerequisite: Graduate standing in music theory or graduate standing and consent of instructor.

Topic 3: Contemporary Styles and Techniques. Music 688 (Topic 9) and 388M (Topic 3) may not both be counted. Additional prerequisite: Graduate standing in music theory or composition, or graduate standing and consent of instructor.

Topic 4: Current Trends in Music Theory. Music 688 (Topic 15) and 388M (Topic 4) may not both be counted. Additional prerequisite: Graduate standing in music theory, musicology, or composition; or graduate standing and consent of instructor.

Topic 5: Heinrich Schenker's Theory of Tonal Music. Music 688 (Topic 11) and 388M (Topic 5) may not both be counted. Additional prerequisite: Graduate standing in music theory, or graduate standing and consent of instructor.

Topic 6: Music and Meaning. Music 688 (Topic: Music and Meaning) and 388M (Topic 6) may not both be counted. Additional prerequisite: Graduate standing in music theory, musicology, or composition; or graduate standing and Music 388T; or graduate standing and consent of instructor.

Topic 7: Analysis of Popular Music.

MUS 388P. Jazz Pedagogy.
Research and study of the methods and materials essential to teaching and planning a comprehensive curriculum in jazz studies. Three lecture hours a week for one semester. Prerequisite: Graduate standing in music and consent of instructor.

Individual instruction. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

MUS 388S. Seminar in Music Theory.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in music theory, musicology, ethnomusicology, or composition; or graduate standing and consent of instructor.

MUS 388T. Analytical Techniques.
The study and analysis of jazz improvisation. Three lecture hours a week for one semester. Music 688 (Topic 5) and 388T may not both be counted. Prerequisite: Graduate standing in music, or graduate standing and consent of instructor.

MUS 388V. Score Reading.
Three lecture hours a week for one semester. Music 688 (Topic 8) and 388V may not both be counted. Prerequisite: Graduate standing in music, or graduate standing and consent of instructor.

MUS 391. Foundations of Music Education.
Introduction to graduate study, history, philosophy, and basic concepts in music education. Three lecture hours a week for one semester. Required of all music and human learning majors. Prerequisite: Graduate standing.

Psychological aspects of music, emphasizing perception, experimental aesthetics, music function, and the nature of musical ability. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

MUS 193, 293, 393. Special Problems in Music Education.
For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 1: General Music.
Topic 2: Elementary School Music.
Topic 3: Choral Technique.
Topic 5: Directed Research.
Topic 7: Music in Higher Education.
Topic 8: Music and Exceptional Children.
Topic 10: Computer Applications in Music Education.
Topic 11: Group Teaching: Materials and Methods.
Topic 14: Music in Therapy and Special Education. Music 393 (Topic: Music in Therapy and Special Education) and Music 393 (Topic 14) may not both be counted.

MUS 194, 394, 694. Directed Reading.
Readings in the literature of music. The equivalent of one, three, or six lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in music and consent of the graduate adviser.

MUS 395W. Writing about Music.
Designed to develop and improve writing skills through required readings and through writing concert reviews, opinion pieces, essays, and articles about music. Three lecture hours a week for one semester. Prerequisite: Graduate standing in music.

MUS 698. Thesis.
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate
standing in music and consent of the graduate adviser; for 698B, Music 698A.

MUS 398D. Artist Recital.
Preparation for and performance of a recital. Three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing. Performance 480 with a grade of at least B, and consent of the graduate adviser.

MUS 398M. Master’s Report.
Preparation of a report to fulfill the requirement for the master’s degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in music and consent of the graduate adviser.

MUS 698R. Master’s Recital.
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698RA, graduate standing in performance or music literature and pedagogy, and course 380 or 480 in the appropriate instrument; for 698RB, Music 698RA.

MUS 398T. Supervised Teaching in Music.
Supervised teaching for graduate students in music; two semesters under supervision; weekly meetings with instructor, consultations, reports throughout the teaching period. Three lecture hours a week for one semester. Prerequisite: Graduate standing and appointment as a teaching assistant.

MUS 399, 699, 999. Treatise.
Restricted to students approved to pursue the treatise option for the Doctoral of Musical Arts degree. Author a substantial research paper of a scholarly nature and perform associated post-candidacy doctoral recitals. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Passage of preliminary and comprehensive examinations for the Doctor of Musical Arts degree, admission to candidacy, and approval by the Graduate Academic Affairs Committee.

Restricted to students pursuing the nontreatise option for the Doctor of Musical Arts degree. Author a research paper of a scholarly nature and perform associated post-candidacy doctoral recitals. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Passage of preliminary and comprehensive examinations for the Doctor of Musical Arts degree and admission to candidacy.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses

N - Nursing

Nursing: N

Lower-Division Courses

One, two, or three lecture hours a week for one semester, with one discussion hour a week if required by the topic. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

Topic 1: Women's Reproductive Health for Nonscience Majors. Same as Sociology 310S and Women's and Gender Studies 301 (Topic 7). Overview of contemporary women's reproductive health issues, with emphasis on historical, physiological, psychosocial, and cultural influences that affect the reproductive health of women during adolescence, the childbearing years, and midlife. Three lecture hours a week for one semester. Only one of the following may be counted: Nursing 307 (Topic 1), Sociology 308 (Topic 2), 310S, Women's and Gender Studies 301 (Topic 7). Prerequisite: One year of high school biology, or Biology 301L or 309D.

Overview of global health, with emphasis on the determinants of health, health indicators, human rights, globalization, current socioeconomic factors, health care systems, and public health systems. Three lecture hours a week for one semester.

N 310. Communication in Health Care Settings.
Introduction to theories and models of communication in relation to health care; basic factors affecting interpersonal communication in health care settings. Three lecture hours a week for one semester. Required for nursing majors.

N 117H. Introduction to Nursing Scholarship: Honors Seminar.
Introduction to the nature of nursing scholarship, along with related research and clinical and educational career opportunities. Topics include leadership, research, and ethics as they relate to nursing. One lecture hour a week for one semester. Prerequisite: Admission to the School of Nursing Honors Program.

Discussion of various issues related to the academic, cultural, and personal aspects of completing academic work in international locations. For each semester hour of credit earned, one lecture hour a week for one semester. Nursing 119, 219, 319, 419, 519, 619 and Undergraduate Studies 119 may not both be counted unless the topics vary. May be repeated for credit when the topics vary.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the School of Nursing. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

N 320. Introduction into Patient-Centered Nursing Care.
Examines the profession of nursing and introduces the concept of nursing process as a framework for patient-centered care of younger and older adults. Special emphasis will be placed on topics that apply to the bio-psycho-social-spiritual needs of the aging adult. Three lecture hours a week for one semester. Nursing 227 and 320 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Biology 326M, 446L, Nutrition 306, Psychology 301; credit or registration for Biology 365S and 165U.

Examination of ethical issues of health care and related legal concerns; contradictions, inconsistencies, and competing views that lead to dilemmas in health care. Three lecture hours a week for one semester.
Nursing 321 and 321H may not both be counted. Prerequisite: Rhetoric and Writing 306.

**N 321H. Ethics of Health Care: Honors.**
Ethical issues in health care and related legal concerns; contradictions, inconsistencies, and competing views that lead to dilemmas in health care. Emphasis on resolving ethical dilemmas through ethical reasoning and ethical obligations in health professional-patient relationships; and just allocation of scarce health care resources. Three lecture hours a week for one semester. Nursing 321 and 321H may not both be counted. Prerequisite: Admission to the School of Nursing Honors Program, or consent of instructor.

**N 223, 323. Genetics in Health Care.**
The integration of genetic information into nursing practice, including ethical, legal, psychological, and social issues. For each semester hour of credit earned, one lecture hour a week for one semester. Nursing 223 and 323 may not both be counted. Offered on the letter-grade basis only. Prerequisite: BIO 311C or consent of instructor.

**N 224. Health Assessment Skills.**
Discussion, application, and documentation of health assessment skills needed to provide data for health promotion and nursing interventions. One and one-half lecture hours and one laboratory hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Biology 326M, 446L and Nursing 310; credit or registration for Nursing 320.

**N 325. Adult Health Nursing I.**
Discussion of the concepts necessary to promote and restore the health of adults with biological problems including related physiological and psychological responses. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Biology 365S and 165U, Nursing 320, 224, and 127P.

**N 325P. Adult Health Nursing I (Practicum).**
For nursing majors admitted to the professional sequence. Application of the concepts and theories necessary to promote and restore health of adults with biological problems; related physiological and psychological responses. Nine laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Biology 365S and 165U, Nursing 320, 224, and 127P.

**N 127P. Clinical Nursing Skills I (Practicum).**
Laboratory instruction and practice in clinical nursing skills. Two laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Biology 326M and 446L; concurrent enrollment in Nursing 320.

**N 128S, 228S, 328S, 428S, 528S, 628S, 728S, 828S, 928S.**

**Topics in Nursing.**
This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the School of Nursing. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**N 129M, 229M, 329M, 429M, 529M, 629M. International Learning Seminars.**
Restricted to students participating in a May Term Education Abroad program. Discussion of various issues related to the academic, cultural, and personal aspects of completing academic work in international locations. For each semester hour of credit earned, one lecture hour a week for one semester. Nursing 129M, 229M, 329M, 429M, 529M, 629M and Undergraduate Studies 119 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

**N 137, 237, 337. Independent Study.**
Study in a specific area; topic and mode of study are agreed upon by student(s) and instructor. The equivalent of one, two, or three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: A University grade point average of at least 2.80 and consent of instructor.

**N 338. Complementary and Alternative Medicine in Health Care.**
Overview of representative Complementary and Alternative Medicine (CAM) modalities and their role in shaping an emerging wellness-oriented, patient-centered model of care. Evaluation of current research evidence of CAM therapies in four domains: mind-body medicine, biologically based practices, manipulative and body-centered therapies, and energy medicine. Includes a hands-on experiential component for familiarization of some fundamental CAM concepts. Three lecture hours a week for one semester. Nursing 347 (Topic: Compl/Altern Med in Hlth Care) and Nursing 338 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

**N 244. Perinatal Nursing Care.**
Examine concepts, theories, and processes essential to understanding the health concerns and problems of women and their families during the childbearing years. Two lecture hours a week for one semester. Nursing 244 and 265 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Nursing 325, 325P, 356, and 256P or 356P; and credit or registration for Nursing 157P and 455 or 255C.

**N 344P. Perinatal Nursing Care Practicum.**
Apply concepts, theories, and processes pertinent to care of women and their families during the childbearing years. Nine laboratory hours a week for one semester. Nursing 344P and 365P may not both be counted. Prerequisite: Credit or registration for Nursing 244 or Nursing 265.

**N 147, 247, 347. Specialized Topics in Nursing.**
The equivalent of one, two, or three lecture hours a week for one semester; some topics require up to thirty-nine hours of fieldwork a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Enrollment in the upper-division sequence; some topics also require consent of instructor.

**Topic 1: Informatics in Health Care and Nursing.**
**Topic 2: Acute Care Pediatrics.**
**Topic 3: Cardiovascular Nursing.**
**Topic 4: Childbearing Nursing Elective.**
**Topic 5: Critical Care Nursing.**
**Topic 6: High-Risk Maternity.**
**Topic 7: Pediatrics.**
**Topic 8: Perioperative Nursing.**
**Topic 9: Special Topics in Pediatrics.**
**Topic 10: Child Wellness Center (Practicum).**
**Topic 11: Children with Chronic Illness in the Community.**
**Topic 12: Clinical Nursing Preceptorship.**
**Topic 13: Community-Oriented Ambulatory Nursing.**
**Topic 14: Genetics in Clinical Nursing (Practicum).**
**Topic 15: Home Health Nursing.**
**Topic 16: Pediatrics in the Community.**
**Topic 17: Well Children in the Community.**
N 250. Interprofessional Collaborative Practice.
Focuses on developing the competencies needed for interprofessional collaborative practice among health care professionals. Core interprofessional competencies addressed include: values and ethics for interprofessional practice; knowledge of roles and responsibilities of different health professions; interprofessional communication; and teams and teamwork. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Nursing 310; credit or registration for Nursing 320, and 321 or 321H, or consent of instructor.

N 152, 252. Career Planning and Professional Development.
Develop foundational knowledge and skills needed to launch a successful career in health care. Explore career management and professional development as a continuous lifelong process. For each semester hour of credit earned, one lecture hour a week for one semester. Nursing 247 (Topic: Nur Career Plan/Prof Devel) and Nursing 252 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

N 354. Spanish for Health Care Professionals.
Basic medical Spanish language skills and phrases related to assessment and nursing activities. Focus on the cultural values of Latino patients who seek health care in the United States. Three lecture hours a week for one semester. Offered on the letter-grade basis only.

N 255C. Adult Health Nursing IIA.
First of a two-part sequence in adult health nursing. Advanced concepts and theories to promote and restore health of adults with biological problems and related physiological and psychological responses. Two lecture hours a week for one semester. Nursing 455 and 255C may not both be counted. Offered on the letter-grade basis only. Prerequisite: Nursing 325 and 325P.

N 255D. Adult Health Nursing IIB.
Second part of a two-part sequence in adult health nursing. Advanced concepts and theories to promote and restore health of adults with biological problems and related physiological and psychological responses. Two lecture hours a week for one semester. Nursing 455 and 255D may not both be counted. Offered on the letter-grade basis only. Prerequisite: Nursing 255C.

N 355P. Adult Health Nursing II (Practicum).
Application of advanced concepts and theories to promote and restore health of adults with biological problems and their related physiological and psychological responses. Nine laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Nursing 325P and Pharmacy 338; credit or registration for Nursing 157P and 455 or 255D.

N 356. Mental Health Nursing across the Life Span.
Biological, environmental, cultural, and interpersonal factors predisposing individuals across the life span to mental health problems. The course is organized around the nursing process, as well as multidisciplined therapeutic modalities, that assist the individual and family to adapt, recover, and grow through these problems. Current relevant research, and the sociocultural, legal, and ethical implications of providing nursing care to the mentally ill. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Nursing 224; credit or registration for Human Development and Family Sciences 313 and 113L or Psychology 304 and Nursing 325.

N 256P, 356P. Problems in Mental Health Nursing (Practicum).
Application of strategies for the care of individuals, groups, and families experiencing mental health problems. For 256P, six laboratory hours a week for one semester; for 356P, nine laboratory hours a week for one semester. Nursing 256P and 356P may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Nursing 356.

N 157P. Clinical Nursing Skills II Practicum.
Laboratory instruction and practice in clinical nursing skills. Two laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Nursing 325P.

N 264. Nursing Research.
An introduction to key components of the research process, interpretation of basic statistics in research, and critical examination of patient-outcome research studies. Two lecture hours a week for one semester. Nursing 264 and 264H may not both be counted. Prerequisite: Introductory statistics course (such as Statistics and Data Sciences 302F or 302) and Nursing 320, or consent of instructor.

N 264H. Nursing Research: Honors.
Restricted to students in the School of Nursing Honors Program. An introduction to key components of the research process, interpretation of basic statistics in research, and critical examination of patient-outcome research studies. One and one-half lecture hours and one laboratory hour a week for one semester. Nursing 264 and 264H may not both be counted. Prerequisite: An introductory statistics course (such as Statistics and Data Sciences 302F or 302) and Nursing 320, or consent of instructor.

N 266. Nursing Care of Children and Their Families.
Concepts, theories, and developmental processes essential to the health concerns and problems of children, adolescents, and their families. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Human Development and Family Sciences 313 and 113L or Psychology 304, Nursing 356, 356P or 256P, Pharmacy 338; and credit or registration in Nursing 355P and 255D or 455.

N 366P. Nursing Care of Children and Their Families Practicum.
Application of concepts, theories, and developmental processes essential to the health concerns and problems of children, adolescents, and their families. Nine laboratory hours a week for one semester. Prerequisite: Nursing 157P; credit or registration for Nursing 266.

N 371. Disability over the Life Course.
An interdisciplinary introduction to the study of disability as a distinct social and clinical concept with practical and theoretical implications for health care. Focus on the changing needs of persons with disabilities over the life course. Explores how to understand the health needs of persons with disabilities and how to work with them and their families so they may negotiate environments with appropriate accommodations that meet their health care needs. Three lecture hours a week for one semester. Nursing 347 (Topic: Disability Over the Life Course) and Nursing 371 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

N 172. International Health Implications.
Explore global substantive and methodological content to enhance an understanding beyond the United States. Examine the cultural and socioeconomic variability between countries as part of key indicators of understanding. One lecture hour a week for one semester. May be taken twice for credit. May be repeated for credit. Offered on the letter-grade basis only.
N 273. Quality and Safety for Nursing Practice.
Designed to prepare students for professional nursing practice. Provides opportunities for synthesis of theoretical, evidence-based, and clinical knowledge with emphasis on quality care and patient safety. Two lecture hours a week for one semester. Nursing 273 and 278 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Nursing 321 or 321H and credit or registration in Nursing 264, or consent of instructor.

N 274. Complex Nursing Care.
Addresses the management of complex and critical needs of patients and their families across the continuum of care. The focus will be on people with multiple chronic conditions experienced by various populations such as age groups, disease/health conditions, and settings. In addition, transitional care, critical care concepts, palliative, and end-of-life care will be explored. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Nursing 355P; 266, 366P; Nursing 255D or 455; credit or registration for Nursing 277P.

Presents public health nursing concepts, theories, and processes used in health promotion, disease or injury prevention, health protection, and risk reduction with individuals, families, groups, communities, and populations. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Nursing 455 or 255D, 355P, 356, 265P or 356P, 366P, 244 or 265, and 266; or consent of instructor.

N 375P. Public Health Nursing Practicum.
Application of public health nursing concepts, theories, and processes used in health promotion, disease or injury prevention, health protection, and risk reduction with individuals, families, groups, communities, and populations. Nine laboratory hours a week for one semester. Prerequisite: Credit or registration for Nursing 275.

N 377. Leadership and Management of Nursing Care.
Investigation, synthesis and application of laws, rules, theories and concepts in nursing leadership and management that promote professional nursing practice and healthcare leadership in diverse settings. Three lecture hours a week for one semester. Nursing 377 and 377H may not both be counted. Prerequisite: Nursing 325 or consent of instructor.

N 377H. Leadership and Management of Nursing Care: Honors.
Investigation, synthesis and application of laws, rules, theories and concepts in nursing leadership and management that promote professional nursing practice and healthcare leadership in diverse settings. Three lecture hours a week for one semester. Nursing 377 and 377H may not both be counted. Prerequisite: Admission to the School of Nursing Honors Program or consent of instructor.

Application of selected concepts and theories of management in the planning and delivery of health care. For 377P, six laboratory hours a week for one semester; for 377H, nine laboratory hours a week for one semester. Nursing 277P and 377P may not both be counted. Offered on the letter-grade basis only. Prerequisite: Nursing 244 or 265, 344P or 365P, 266, and 366P; and credit or registration for Nursing 377 or 377H.

N 279P. Capstone Preceptorship.
Designed to provide students with clinical experiences similar to those that confront newly employed registered nurses. Focuses on the role transformation of students and on clinical competence in communication, collaboration, negotiation, delegation, coordination, and evaluation of interdisciplinary work. Thirty to forty hours a week for three to four weeks for a total of 120 clinical hours. Additional preparation time to assure clinical competence may be required. Offered on the pass/fail basis only. Prerequisite: Nursing 377 or 377H, and 277P or 377P.

Graduate Courses

N 280C. Psychopharmacology for Advanced Practice Nurses.
Covers prescribing and monitoring medications commonly used with patients who have psychiatric or mental health problems. Two lecture hours per week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; Nursing 395C, 396C, 396J, and consent of instructor.

N 280D. Family Care Concepts in Psychiatric-Mental Health Nursing.
Covers psychiatric-mental health nursing care for families with complex relational problems in various clinical settings. Application of theoretical, ethical, and evidence-based practices to formulate delivery of culturally sensitive care within the community context. Covers common practices and treatment protocols, with emphasis on critical thinking skills inherent to the role of the PMHNP. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing in the School of Nursing; and Nursing 392E, 392Q, 396C, 396J, or consent of instructor.

N 280E. Role of the Family Psychiatric and Mental Health Nurse Practitioner.
Focuses on legal, political, and ethical issues affecting the family psychiatric and mental health nurse practitioner. Two lecture hours a week for one semester. Prerequisite: Graduate standing in the School of Nursing.

N 380F. Advanced Psychiatric and Mental Health Nursing I.
Studies the theory and evidence bases for diagnosis and management of a variety of common psychiatric and behavioral disorders. Emphasizes diagnostic reasoning, clinical decision-making, and therapeutic strategies appropriate for the role of the family psychiatric and mental health nurse practitioner. Considers the sociocultural and community context for patient care. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing in the School of Nursing, and consent of instructor or one of the following: Nursing 392E, 395C, 396C, 396J; concurrent enrollment in Nursing 380G; credit or registration for Nursing 180C.

N 380G. Advanced Psychiatric and Mental Health Nursing I: Clinical.
A precepted, clinical environment in which to apply knowledge related to biological and psychosocial theories, pharmacology, health promotion, and ethics to patients and families with common psychiatric and behavioral disorders. Emphasis is placed on role development using standardized procedures and tools that assist in diagnosis, treatment, and developing beginning-level therapy skills in multiple modalities. Twelve laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing in the School of Nursing, and consent of instructor or one of the following: Nursing 380D, concurrent enrollment in Nursing 380F; credit or registration for Nursing 180C.

N 280H. Advanced Psychiatric-Mental Health Nursing II.
In-depth focus on the role of the family psychiatric and mental health nurse practitioner using theoretical bases for care of complex psychiatric and mental health patients with psychopathology in a variety of settings across the life span. Students integrate various biological and psychosocial theories with psychopharmacology, health promotion, and ethical decision-making to develop culturally sensitive care. Emphasizes evidenced-based practices, recommended practices and treatment
protocols, ethical decision making, and critical thinking strategies that are integral to the role of the family psychiatric and mental health nurse practitioner. Two lecture hours per week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing in the School of Nursing; and Nursing 380F and 380G, and concurrent enrollment in Nursing 480J, or consent of instructor.

N 480J. Advanced Psychiatric and Mental Health Nursing II: Clinical.

Studies the role of the advanced psychiatric and mental health nurse practitioner in providing care for patients and families with complex psychopathology and psychiatric and mental health problems in a variety of clinical settings. Knowledge from biological and psychosocial theories, psychopharmacology, health promotion, and ethics to develop culturally sensitive care. Emphasizes role development, evidenced-based practices, recommended practices and treatment protocols, ethical decision making, and critical thinking strategies. Sixteen laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing in the School of Nursing; and Nursing 380F and 380G, and concurrent enrollment in Nursing 380H, or consent of instructor.

N 380L. Theory Development in Nursing.

Introduction to the nature of scientific explanation and inquiry. Critique of theoretical conceptualization in nursing. Examination of strategies for theory development. Analysis of the role of theory in nursing as a practice discipline. Three lecture hours a week for one semester. Required of all doctoral students. Prerequisite: Graduate standing.

N 380M. Historical and Philosophical Study of Nursing.

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

Topic 1: Philosophical Aspects of Nursing. Introduction to the analysis of nursing language: defining terms, detecting logical fallacies, analyzing meanings, and recognizing descriptive and normative aspects of judgments.

Topic 2: Historical Development of Nursing. In-depth study of the history of nursing, with emphasis on influences on the profession and changes that have occurred within it. Review of the association of nursing with related disciplines, its emergence into institutions of higher learning, organizational structure and hierarchy, changes in educational focus resulting from the preparation of educational leaders, and related topics.

Topic 3: Philosophy of Nursing Theory. Advanced seminar in the application of philosophical aspects of nursing theory. Additional prerequisite: Nursing 380L.

Topic 4: Philosophical and Theoretical Bases of Nursing Science. Philosophical principles and theories that contribute to the ongoing evolution of nursing science. Explores the historical development of nursing as a professional discipline in the context of philosophy and science. Prerequisite: Graduate standing and Nursing 397L (Topic 4: Critical Review of the Literature).

N 480Q. Psychiatric Assessment and Psychotherapy Skills.

Introduces psychiatric-mental health assessment of individuals and families throughout the life span, using established therapeutic communication techniques, individual psychotherapeutic modalities, and psychotherapy skills from evidence-based practices. Covers synthesis of theories and knowledge from nursing, biology, psychiatry, psychology, and socio-cultural studies as they apply to the comprehensive assessment of psychiatric clients. Focus on assessment and psychotherapy skills commensurate with the role of the PMHNP through didactic, experiential and observational practice in the classroom. Three and one half lecture hours and one laboratory hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; Nursing 395C, 396C, 396J, and 196K, or consent of instructor.

N 480T. PMHNP: Management of Chronic Illness.

Analysis and application of physiological, psychosocial, spiritual, and environmental concepts to treat selected patients with chronic illness. Focus on dynamics of chronic illness and related psychiatric mental health nurse practitioner roles. Explores concepts relevant to the management of complex and chronic health care problems often comorbid with psychiatric illness. Includes supervised instruction in clinical agencies. Two lecture hours and eight laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing, and Nursing 396C, 396J, 395C, 280C, and 480Q; or consent of instructor.

N 380U. Spanish for Health Care Professionals.

Basic medical Spanish language skills and phrases related to assessment and nursing activities. Focus on the cultural values of Latino patients who seek health care in the United States. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

N 281C. Health Informatics.

Information and communication technologies are increasingly being applied to the healthcare context, with many new jobs opening up in areas such as health information management, electronic health records, and consumer and public health informatics. Explores the challenges and career opportunities provided by these recent developments. Discusses major issues-social, cultural, political, economic, technological, historical, and ethical-associated with health informatics. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

N 381D. Leadership Development for Healthcare Professionals.

Examines leader-follower partnerships in diverse healthcare settings. Uses theories, research findings, and expert opinions from several fields of study to explore the related concepts of power, authority, influence, leadership, followership, decisional involvement, structural empowerment, and emotional intelligence in the context of complex healthcare work environments. Special emphasis is placed on the use of effective leadership and followership behaviors to sustain high performing interprofessional teams and improve quality outcomes for patients, families, and healthcare organizations. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate Standing

N 381M. Adult Health Nursing.

The equivalent of three class hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

Topic 1: Theoretical Foundations in Adult Health (Adult Health I). Theoretical underpinnings for research in adult health nursing. Analysis of theories related to person, health, and environment for their applicability to adult health nursing. Nursing 381M (Topic 1) and (Topic 5) may not both be counted.

Topic 2: Substantive Areas in Adult Health (Adult Health II). Overview of nursing issues, psychosocial and physiological concepts, and research findings related to health promotion and health care needs of adults. Designed to help students develop the conceptual component of the dissertation research. Nursing 381M (Topic 2) and 397L (Topic 4: Critical Review of the Literature) may not both be counted.

Topic 3: Research in Adult Health (Adult Health III). Application of methodology and theory development to research studies in adult
health, with emphasis on analysis and development of methods for research in adult health nursing. Additional prerequisite: Nursing 381M (Topic 1 or Topic 2) and 397L.

Topic 5: Theories of Health Behavior. The theoretical underpinnings for research related to health behaviors and health behavior change for individuals, groups, or systems. Nursing 381M (Topic 1) and 381M (Topic 5) may not both be counted. Additional prerequisite: Nursing 380M (Topic 4: Philosophical and Theoretical Bases of Nursing Science).

Topic 6: Nursing Science: Domains of Inquiry and Interdisciplinary Perspectives. Explore domains of nursing science through inquiry, shaped by the problems and perspectives of nursing as a practice and academic discipline. Includes critical review of theories that contribute to the understanding of nursing practice and nursing research within an interdisciplinary context. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Additional prerequisite: Nursing 380M (Topic 4) or course equivalent, or consent of instructor.

Analyze and implement roles for advanced nursing leadership practice. Explore the opportunity for a learner to meet with a potential preceptor to identify an issue or problem within an organization, develop a project contract and develop the project charter to implement, and evaluate healthcare programs. For 181P, four laboratory hours a week for one semester; for 281P, one lecture hour and four laboratory hours a week for one semester. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Graduate standing; Credit or registration for Nursing 381D and 396C.

N 181Q. Patient Care Practicum.
Apply advanced nursing concepts in a selected area of nursing. Develop individual goals and objectives for practicum activities. Address health issues in areas such as the care of individuals, families, communities, and systems. Four laboratory hours a week for one semester. Nursing 181Q and 195 (Topic: Patient Care Practicum) may not both be counted. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Graduate standing; Credit or registration for Nursing 395C, 396C and 396J.

N 381R. Theoretical Foundations of Aging.
Theories in gerontology as applied to nursing practice. Two and one-half lecture hours and one and one-half laboratory hours a week for one semester. Prerequisite: Graduate standing.

N 381S. Gerontological Nursing.
Physiological changes in the elderly, and their implications for nursing practice. Two lecture hours and four and one-half laboratory hours a week for one semester. Prerequisite: Graduate standing and Nursing 381R.

N 281V. Leadership in Diverse Settings Advanced Nursing Practicum.
Precepted practicum focusing on advanced nursing concepts and skills in a setting selected with consideration of the student's interest, needs, goals, and objectives. Assessments of individuals, families, or groups, and their environments, implementation of appropriate evidence-based specialized nursing interventions, and evaluation the role of master's prepared nurses in diverse practice settings. Eight laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; Nursing 396C, 396J, and credit or registration for Nursing 395C; or consent of instructor.

Focuses on program evaluation, policy implications and analysis, and development of leadership in diverse settings. For each semester hour of credit earned, four laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and Nursing 281P.

N 382. Sociocultural Influences on Health.
Focuses on factors associated with health status, health care, and health policies. Using an ecological approach, the course explores relationships among individual characteristics such as gender, education, income, literacy, race, ethnicity, culture, acculturation, disability, age, and sexual orientation; interpersonal factors such as communication with health care providers, family and social ties, and discrimination; and societal-level factors such as neighborhood and community context, health care organizations, economics, politics and policies and seeks to understand how those factors shape health behaviors, access to health care services, and health status locally, nationally, and globally. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

N 382H. Health Care Delivery.
Overview of the health care delivery system in the United States--its definition, characteristics, and components. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

N 382W. Informatics for Healthcare Professionals.
Explores subjects of health informatics that are specifically focused to healthcare professionals. Representative subjects include: key roles and responsibilities of health informaticians in American healthcare system; Informatics related theoretical foundations, research needs assessment and available information sources on EBP; Applications of health informatics by healthcare professionals (HCPs) in clinical settings; Implementation and evaluation of health informatics applications in clinical settings; Human-computer interaction (HCI), usability and ethical challenges and issues faced by HCPs; and new trends in health informatics technology to engage patients. Three lecture hours a week for one semester. Nursing 395 (Topic: Health Informatics) and 382W may not both be counted. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

N 284C. Professional Nursing Foundations.
Introduction to fundamental nursing care concepts, processes, and skills, including communication and assessment. One lecture hour and four laboratory hours a week for one semester. Prerequisite: Graduate standing and admission to the alternate entry MSN program.

N 384D. Conceptual Foundations of Nursing.
Life-span, health-related phenomena and concepts essential to effective nursing practice with multiple levels of clients. Three lecture hours a week for one semester. Prerequisite: Graduate standing and admission to the alternate entry MSN program.

N 484E. Nursing Responses to Physiological Alterations in Health.
Discussion of physiological alterations across the life span and of the nursing measures indicated to restore and maintain health. Four lecture hours a week for one semester. Prerequisite: Graduate standing, admission to the alternate entry MSN program, and Nursing 484C.
N 484F. Adult Health Nursing I.
Discussion and application of concepts and theories necessary to promote and restore the health of adults with biological problems and related physiological and psychological responses. One and one-half lecture hours, two hours of skills laboratory, and eight hours of clinical work a week for one semester. Nursing 484F and 387F may not both be counted. Nursing 484F and 390F may not both be counted. Prerequisite: Graduate standing and admission to the alternate entry MSN program.

N 484G. Conceptual Bases of Mental Health Nursing.
Current perspectives on the etiology, prevention, and treatment of mental disorders in individuals, families, and groups; clinical application of pertinent nursing care. Two and one-half lecture hours and six laboratory hours a week for one semester. Nursing 484G and 287G may not both be counted. Nursing 484G and 290G may not both be counted. Prerequisite: Graduate standing and admission to the alternate entry MSN program.

N 484H. Nursing Care of Childbearing and Childrearing Families.
Concepts, theories, and processes essential to understanding the health concepts and nursing care of families during the childbearing and childrearing years. Four lecture hours a week for one semester. Nursing 484H and 287H may not both be counted. Nursing 484H and 290H may not both be counted. Prerequisite: Graduate standing, admission to the alternate entry MSN program, and Nursing 384D, 484E, 484F, and 484G.

N 384J. Nursing Care of Childbearing and Childrearing Families Practicum.
Clinical application of concepts, theories, processes, and skills pertinent to the care of families during the childbearing and childrearing years. Twelve laboratory hours a week for one semester. Nursing 384J and 287J may not both be counted. Nursing 384J and 290J may not both be counted. Prerequisite: Graduate standing; admission to the alternate entry MSN program; Nursing 384D, 484E, 484F, and 484G; and credit or registration for Nursing 484H.

N 284N. Genomic Applications in Nursing.
The ethical, legal, psychological, and social issues involved in the integration of genetic information into nursing practice. Two lecture hours a week for one semester. Prerequisite: Graduate standing and admission to the alternate entry MSN program.

N 284P. Aging and Disability.
Examines concepts and theories of aging and disability. Addresses the changing physical, psychological, social, economic, ethical, legal, and spiritual needs, environmental accommodations, and caregiver responsibilities and needs across the life course. Two lecture hours a week for one semester. Prerequisite: Graduate standing and admission to the alternate entry MSN program.

N 484R. Adult Health Nursing II.
Discussion and application of core concepts, including nursing management, jurisprudence, and rehabilitation. Studies theories that can be used to promote and restore health of adults with biological problems and related physiological responses. Two lecture hours and eight laboratory hours a week for one semester. Nursing 484R and 387R may not both be counted. Nursing 484R and 290R may not both be counted. Prerequisite: Graduate standing; admission to the alternate entry MSN program, and Nursing 384D, 484E, 484F, and 484G.

N 484S. Integration of Clinical Nursing Knowledge.
Integration of nursing knowledge derived from didactic and clinical courses with application in the care of clients across the life span and in a variety of settings. One lecture hour and twelve laboratory hours a week for one semester. Nursing 484S and 187S may not both be counted. Nursing 484S and 290S may not both be counted. Prerequisite: Graduate standing, admission to the alternate entry MSN program, and Nursing 484H, 384J, and 484R.

N 284T. Professional Nursing Management.
Examines selected concepts and theories of nursing leadership and management in the context of the nursing work environment and professional nursing career development. Two lecture hours a week for one semester. Prerequisite: Graduate standing; admission to the alternate entry MSN program; and credit or registration for Nursing 284C and 387F.

Examines the scholarly research, theory, and practice associated with decision-making and communication at the end of life across diverse populations, including subjects of death and dying, loss, grief, bereavement, ethical principles, shared decision-making, advance directives, refusal or withdrawal of life-sustaining medical treatment, and family caregiving. Explores contemporary literature and conflict in the context of psychosocial, spiritual, and cultural aspects of the lives of patients and families. Three lecture hours a week for one semester. Nursing 395 (Topic: End-of-Life Comm/Dec-Making) and Nursing 385E may not both be counted. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

N 385R. Community Mental Health and Wellness.
Concepts, theories, and research on the mental health and wellness of individuals, groups, and families living and working in communities. Principles of preventive health care form a philosophical framework within which students analyze, evaluate, and synthesize the concepts and theories used to promote the health and welfare of people in the community. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

N 385S. Advanced Theory and Research in Mental Health.
Analysis, development, and testing of theories and conceptual models of mental health and illness; examination of relationships among stress, response to traumatic events, and mental health of the individual, family, and groups. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

N 386C. Computers in Nursing.
Development of competence in computer use and in the application of computer-based techniques to nursing problems. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

N 386E. Evidence-Based Practice and Outcomes in Health Care.
Theories of evidence-based practice are used to examine complex nursing decision-making activities in clinical and administrative health care settings. Students appraise the health care literature to evaluate the evidence for implementation of change protocols and apply their learning to clinical and administrative decisions about effecting change to deliver patient-centered care. Review of various methods of dissemination of evidence-based practice and outcomes data. Three lecture hours a week for one semester. Prerequisite: For students in the Master of Science in Nursing program, graduate standing and either Nursing 392 and 392E or consent of instructor; for alternate entry students, graduate standing and either Nursing 384D and 392E or consent of instructor.

N 386F. Budget and Finance in Health Care.
Conceptual and practical applications of financial management, cost analyses, and budgeting in the contemporary health care delivery
system. Three lecture hours a week for one semester. Nursing 386F and 386W may not both be counted. Prerequisite: Graduate standing.

N 386H. Overview of Healthcare System.
Designed to provide an extensive overview of the U.S. healthcare system. Topics include historical underpinnings, current trends, contemporary issues, and strategies for delivering healthcare in a variety of settings. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

N 386M. Administrative Decision Making in Nursing Systems.
Theories of nursing, economics, management science, and decision analysis are used to examine strategic and operational decision activities in the administration of nursing systems. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

N 386P. Practicum in Administrative Decision Making.
Guided field experience to examine information management and complex decision problems in the administration of nursing systems. Twelve laboratory hours a week for one semester. Prerequisite: Graduate standing and credit or registration for Nursing 386M.

N 386Q. Quality and Safety in Healthcare.
Examination of quality and safety in the U.S. healthcare system based on quantitative and qualitative research findings, expert opinions, and cultural surveys. Explores and evaluates strategies for creating and sustaining a culture of safety in healthcare. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

Advanced study of theories and research related to nursing systems of care and patient aggregates within organized settings. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

N 386S. Health Care Systems Outcomes.
Theoretical and methodological issues related to the study of outcomes of nursing systems of care, including patient, staff, organization, and community health outcomes. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

N 686V. Internship in Administration of Nursing Systems.
Analysis and implementation of advanced nursing administrative roles. Synthesis of knowledge and skill in designing, implementing, and evaluating nursing system programs. One lecture hour a week for one semester, and twenty hours of fieldwork a week in a health care agency. Prerequisite: Graduate standing and Nursing 386K, 386M, and 386P.

N 386W. Foundations of Health Care Finance.
Explore conceptual and practical applications of financial management, cost analyses, and budgeting in the contemporary health care delivery system. Three lecture hours a week for one semester. Nursing 386F and 386W may not both be counted. Prerequisite: Graduate standing.

Designed to prepare nurse educators to manage a group of nursing students in a variety of clinical settings. Applies learning theory to specific teaching strategies designed to prepare students for clinical practice. Explores methods for evaluating learning outcomes. Two lecture hours and four laboratory hours a week for one semester. Prerequisite: Graduate standing, and credit or registration for Nursing 387C or consent of instructor.

N 387C. Conceptual Foundations of Nursing Education.
Designed to introduce the student to the essential elements of nursing education. Critical elements include the theoretical bases of teaching and learning, curriculum development, and assessment and evaluation strategies. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

N 387F. Adult Health Nursing I.
Introduction to concepts, theories, and research findings essential for promoting and restoring the health of adults with selected commonly occurring physiological alterations and responses to health and illness. Three lecture hours a week for one semester. Nursing 484F and 387F may not both be counted. Prerequisite: Graduate standing, admission to the alternate entry MSN program, and credit or registration for Nursing 284C.

N 287G. Psychiatric-Mental Health Nursing.
The biological, environmental, cultural, and interpersonal factors affecting individuals with psychiatric-mental health problems. Four and one-half lecture hours a week for seven weeks. Nursing 484G and 287G may not both be counted. Prerequisite: Graduate standing; admission to the alternate entry MSN program; and Nursing 284C, 284P, and 387F.

N 287H. Child Health Nursing.
Integrates concepts, theories, and processes essential to understanding the health and illness of children within the context of the family. Four and one-half lecture hours a week for seven weeks. Nursing 484H and 287H may not both be counted. Prerequisite: Graduate standing; admission to the alternate entry MSN program; and Nursing 284C, 284P, and 387F.

Concepts related to individual, group and organizational behavior are studied and applied to the processes of leading people and managing work in complex healthcare systems. Theories of nursing, economics, organizational psychology, management science, sociology, and complexity science are used to critically examine healthcare work environments. Theory application will focus on creating and sustaining healthy work environments, leading and managing organizational change, managing work processes, and administrative decision making. Relevant research in nursing and other behavioral sciences is reviewed. Three lecture hours a week for one semester. Nursing 386K and 387K may not both be counted. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

Designed to help the student prepare for a variety of roles in nursing education based on individual professional experience and goals. Practice teaching in clinical settings, simulation laboratories, and distant and live classrooms. Students teach patients, nursing staff members, or students individually or as groups. For each semester hour of credit earned, four laboratory hours a week for one semester. Prerequisite: Graduate standing; and credit or registration for Nursing 387, 387C, or 388, or consent of instructor.

N 287Q. Public Health Nursing.
Integration of nursing, public health, and social science concepts and theories essential for promoting and restoring health and preventing disease and disability in aggregates, populations, and communities. Four and one-half lecture hours a week for seven weeks. Prerequisite: Graduate standing; admission to the alternate entry MSN program; and Nursing 284C, 284P, 387F.

N 387R. Adult Health Nursing II.
Advanced concepts, theories, and research findings essential for promoting and restoring health of adults with selected complex
physiological alterations and responses. Three lecture hours a week for one semester. Nursing 484R and 387R may not both be counted. Prerequisite: Graduate standing; admission to the alternate entry MSN program; Nursing 284C, 284P, 387F, and credit or registration for Nursing 390F.

N 187S. Integration of Nursing Knowledge.
Integration of nursing knowledge derived from didactic and clinical courses, with application in case studies and simulated patients across the life span and in a variety of settings. One seminar hour a week for one semester. Nursing 484S and 187S may not both be counted. Prerequisite: Graduate standing; admission to the alternate entry MSN program; Nursing 387R, 390F; and credit or registration for Nursing 290R.

N 287T. Perinatal Nursing.
Explore the normal processes and physiological alterations that occur before, during, and after pregnancy. Examine concepts, theories, and processes essential for promoting health and addressing health concerns of women, neonates, and their families during the childbearing years. Four and one-half lecture hours a week for seven weeks. Nursing 287T and 287J may not both be counted. Prerequisite: Graduate standing; admission to the alternate entry MSN program; and Nursing 284C, 284P, and 387F.

N 388. Strategies of Teaching in Nursing.
Designed to prepare nurse educators across a spectrum of settings, including patient education, staff development, and college teaching. Explores the application of learning theory to a variety of teaching strategies and methods of evaluating processes and outcomes. Two lecture hours and four laboratory hours a week for one semester. Prerequisite: Graduate standing, and credit or registration for Nursing 387C or consent of instructor.

N 389C. Adult-Gerontology Clinical Nurse Specialist: Role Dimensions.
Survey of the underlying values and the central and core competencies of the adult-gerontology clinical nurse specialist in adults (young adults through older adults) across the spheres of influence (patient, nursing practice, organization/system). Application of theory and research to advanced practice. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing, and credit or registration for Nursing 392E or consent of instructor.

Analysis of physiological, psychosocial, and environmental concepts and testing of assessments and interventions for select adult-gerontology (AG) populations across the life spectrum (young adults through older adults). Two and one-half lecture hours and two laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing, and credit or registration for Nursing 389C and 392E.

N 589E. Adult-Gerontology Clinical Nurse Specialist: Chronic Illness.
Analysis of physiological, psychosocial, spiritual, and environmental concepts and testing of assessment and interventions for select adult-gerontology (AG) populations with chronic illness conditions. The focus is on dynamics of multiple chronic illness and related Adult-Gerontology Clinical Nurse specialist (AG-CNS) roles. Three lecture hours and eight laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and Nursing 389C, 389D, 489F, 392E, 395C, 396C, and 396J; or consent of instructor.

Analysis of physiological, psychosocial, and environmental concepts and testing of assessments and interventions in select adult-gerontology populations experiencing acute illness. Focus on dynamics of acute illness and related Adult-Gerontology Clinical Nurse specialist (AG-CNS) roles. For 389F, two lecture hours and four laboratory hours a week for one semester; for 489F, two lecture hours and eight laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; and either consent of instructor or the following coursework: Nursing 389C, 396C, and 396J and credit or registration for Nursing 398D, 392E, and 395C.

N 489H. Diagnosis and Management of Adult-Gerontology Health Problems.
Theoretical and clinical content for management of health problems of adult patients across the life spectrum (young adults through older adults). Integration and application of skills and knowledge gained in previous adult-gerontology clinical nurse specialist coursework for adult patients in the acute or chronic setting. Pattern recognition, critical thinking, analysis, diagnostic testing, differential diagnosis, and medical management of common adult, older-adult health problems. Three lecture hours and four laboratory hours a week for one semester. Prerequisite: Graduate standing; Nursing 389C, 396C, 589F, 489F, 396C, and 396J; or consent of instructor. Prerequisite: Graduate standing and credit or registration for Nursing 395C or the equivalent; completion of all core courses in the adult health concentration; and consent of instructor.

N 389J. Adult Health Nursing: Health Promotion and Risk Reduction.
Analysis of physiological, psychosocial, cultural, and environmental issues related to health promotion. Explores risk reduction assessment, intervention strategies, the dynamics of health promotion, and related advanced nursing roles. Two lecture hours and four laboratory hours a week for one semester. Prerequisite: Graduate standing and credit or registration for Nursing 396C and 396J, or consent of instructor.

N 389K. Adult Health Nursing: Chronic and Disabling Conditions.
Analysis of physiological, psychosocial, cultural, and environmental issues related to chronic conditions. Includes the dynamics of health promotion and risk reduction, symptom management, acute exacerbations, and related nursing roles within the context of chronic and disabling conditions. Two lecture hours and four laboratory hours a week for one semester. Prerequisite: For students in the holistic adult health nursing concentration, graduate standing; and concurrent enrollment in Nursing 392 and 392E, or consent of instructor; for others, graduate standing; and Nursing 389J and credit or registration for Nursing 395C, or consent of instructor.

N 389L. Adult Health Nursing: Practicum in Adult Health.
Guided field experience in which the student applies advanced nursing concepts in a selected area of adult health nursing or role specialty. Specific focus is determined by the needs or interests of the student. One lecture hour and eight laboratory hours a week for one semester. Prerequisite: Graduate standing; and Nursing 389J, 389K, 392Q, 392E, and 392, or consent of instructor.

N 389M. Adult-Gerontology CNS: Practicum I.
Guided clinical application of Adult-Gerontology Clinical Nurse Specialist (AG-CNS) core competencies (expert coaching, collaboration, consultation, research, leadership, and ethical decision-making) in delivery of care for select adult-gerontology (AG) populations to promote health and manage acute and/or multiple chronic conditions at the patient, nurse, and system level. Preparation for certification and
promoting and restoring the health of adults with selected commonly occurring physiological alterations and responses. Twelve laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; Nursing 386Q, 389C, 389D, 392E, 392P, 395C, 396C, 396J, and 489F; or consent of instructor.

N 389N. Adult-Gerontology CNS: Practicum II.
Guided clinical application of Adult-Gerontology Clinical Nurse Specialist (AG-CNS) core competencies, such as expert coaching, collaboration, consultation, research, leadership, and ethical decision-making in the delivery of care for select adult-gerontology (AG) populations to promote health, and manage acute and/or multiple chronic conditions at the patient, nurse, and system level. Prepares students for certification and credentialing as an AG-CNS. One lecture hour and eight laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Nursing 386Q, 589E, 389M, concurrent enrollment in 389P, or consent of instructor.

N 389P. Diagnosis and Management of Adult-Gerontology Health Problems.
This seminar course offers theoretical and clinical content for advanced nursing students to provide medical management of health problems for adult-gerontological patients. Students will learn pattern recognition, critical thinking, analysis, diagnostic testing, differential medical diagnosis, and medical management of common adult-gerontological health problems using an interprofessional team approach. This seminar is appropriate as a support course for other interprofessional graduate students. Three seminar hours a week for a semester. Nursing 489H and 389P may not both be counted. Offered on the letter-grade basis only. Prerequisite: Graduate standing; Nursing 589E and credit or registration for 489N, or consent of instructor.

N 390C. Health Promotion of High-Risk Populations.
Advanced study of health promotion/illness prevention theories and research, with a focus on selected high-risk populations in the community. Emphasis on analyzing community risk factors, research and theory related to health promotion and illness prevention as applied to individuals, families, aggregates, and organizations, and research related to health outcomes for selected population groups, nationally and internationally. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

N 390D. Public Health in a Global Context.
Advanced study of theory and research related to public health within a global context. Examines relationships among public health needs and resources, health services, health policy, law, and population health indices. Emphasis is on developing both the knowledge fundamental to population-based health and the research base for optimizing public health through community action. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

N 390E. Global Health and Primary Care in Costa Rica.
Explore fundamental concepts of global health, including social, political, and economic determinants of health for Costa Rica. Examine culture, health care systems, and health outcomes. Assess disease management in these environments from a primary care perspective. Consider how to empower people within their communities to manage their health through evidence-based practice, research, and education. Three lecture hours a week for one semester. Nursing 390D and 390E may not both be counted. Prerequisite: Graduate standing; and consent of the Education Abroad Program Coordinator.

N 390F. Adult Health Nursing I Practicum.
Application of concepts, theories, processes and skills pertinent to promoting and restoring the health of adults with selected commonly occurring physiological alterations and responses. Twelve laboratory hours a week for one semester. Nursing 484F and 390F may not both be counted. Prerequisite: Graduate standing; admission to the alternate entry MSN program; and Nursing 284C, 284P, and 387F.

N 290G. Psychiatric-Mental Health Nursing Practicum.
Application of concepts, theories, processes, and skills that are pertinent to promoting mental health and providing nursing care for people with psychiatric and mental illnesses. Seventeen and one-half laboratory hours a week for seven weeks. Nursing 484G and 290G may not both be counted. Prerequisite: Graduate standing; admission to the alternate entry MSN program; Nursing 284C, 284P, 387F; and credit or registration for Nursing 287G and 390F.

N 290H. Child Health Nursing Practicum.
Application of concepts, theories, processes and skills pertinent to the care of children within the context of the family. Seventeen and one-half laboratory hours a week for seven weeks. Nursing 484H and 290H may not both be counted. Prerequisite: Graduate standing; admission to the alternate entry MSN program; Nursing 284C, 284P, 387F; and credit or registration for Nursing 287H and 390F.

N 390L. Educator as Leader.
Introduction to the essential skills that facilitate nursing leadership through innovative teaching. Critical elements include theoretical analysis and application of teaching and learning strategies, elements of effective communication, learner assessment, and evaluation strategies applicable in diverse academic and clinical settings. Approaches to the development of values integral for a novice nurse leader-educator are integrated throughout the course including ethical and legal considerations. Two-and-one-half lecture hours and two laboratory hours per week for one semester. Nursing 390L and 395 (Topic: Educator as Leader) may not both be counted. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

N 390M. Teaching and Learning in Practice Settings.
Designed to prepare the nurse educator to effectively assess, design, implement and evaluate educational experiences and/or projects for various learners in clinical and community practice settings. Covers experiential opportunities, evidence-based pedagogy, and best teaching practices in the simulated experiences; covers interprofessional education, staff development, and teaching patients, families, and nursing students using learning theory and cognitive science. Two lecture hours and four laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; credit or registration for Nursing 390L, or consent of instructor.

N 390N. Teaching and Learning in Academic Settings.
Designed for the essentials of course, curriculum and program design, including assessment, evaluation, and ethical/legal standards of nursing education. Explore learning theory and evidence-based pedagogy, personal and professional values with regard to the art and science of nursing education and life-long learning. Two and one-half lecture hours and two laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; Nursing 390L or consent of the instructor.

N 290Q. Public Health Nursing Practicum.
Application of public health nursing concepts, theories, and processes pertinent to the care of aggregates, populations, and communities. Seventeen and one-half laboratory hours a week for seven weeks. Prerequisite: Graduate standing; admission to the alternate entry MSN program; Nursing 284C, 284P, 387F; and credit or registration for 287Q and 390F.
N 290R. Adult Health Nursing II Practicum.
Application of advanced concepts, theories, processes, and skills essential for promoting and restoring the health of adults with selected complex physiological alterations and responses. Eight laboratory hours a week for one semester. Nursing 484R and 290R may not both be counted. Prerequisite: Graduate standing; admission to the alternate entry MSN program; Nursing 284C, 284P, 387F, 390F; and credit or registration for 284T, 287R, 187S.

N 290S. Integration of Nursing Knowledge Practicum.
Designed to assist the student in the application and integration of knowledge from didactic and clinical courses in the care of multiple patients. Forty laboratory hours a week for three weeks. Nursing 484S and 290S may not both be counted. Offered on the credit/no credit basis only. Prerequisite: Graduate standing; admission to the alternate entry MSN program; and Nursing 284N, 284T, 187S, 390F, 290G, 290H, 290J or 290T, 290Q, and 290R.

N 290T. Perinatal Nursing Practicum.
Apply concepts, theories, processes, and skills pertinent to the care of women, neonates, and their families during the childbearing years. Seventeen and one-half laboratory hours a week for seven weeks. Nursing 290T and 290J may not both be counted. Prerequisite: Graduate standing; admission to the alternate entry MSN program; Nursing 284C, 284P, 387F; and credit or registration for Nursing 287T or 287J, and 390F.

N 390U. Foundations of Nursing Education.
Examine essential elements of nursing education, including theoretical bases of culturally-relevant teaching, learning, and curriculum development. Explore approaches to the development of values integral for a novice nurse educator, including ethical and legal considerations and the importance of engaging in scholarship. Three lecture hours a week for one semester Offered on the letter-grade basis only. Prerequisite: Graduate standing.

N 390V. The Art and Science of Teaching Nursing.
Examine the essentials of course, curriculum and program design for the nurse educator. Using educational technologies, explore teaching and learning strategies in varied formats, including face-to-face, online and hybrid. Explore diversity, inclusivity, and personal and professional values with regard to the art and science of nursing education and lifelong learning. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

N 390W. Role of the Nurse Educator.
Explore advanced role development for the nurse educator, including concepts and skills related to curriculum development and program evaluation, quality improvement, faculty governance and leadership, and the scholarship of teaching, research, and service. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

Theories and methods to assess populations, communities, and aggregates. Students apply appropriate strategies to assess the strengths and needs of a selected population or community and make public health nursing diagnoses of populations or communities as the foundation for planning public health programs for health promotion and disease prevention. One and one-half lecture hours and six laboratory hours a week for one semester. Prerequisite: Graduate standing and credit or registration for Nursing 391H.

N 391E. Public Health Assurance and Policy.
Processes involved in the implementation and evaluation of a population-focused health promotion program based on community data sets and previously collected data; and policy recommendations related to the program. One and one-half lecture hours and six laboratory hours a week for one semester. Prerequisite: Graduate standing and Nursing 391D.

N 391F. Epidemiology in Public Health.
A theoretical framework for applied public health epidemiology, including the importance of high-quality data, measures of morbidity and mortality in a population, epidemiological investigations, and the use of epidemiological study designs. Two and one-half lecture hours and two laboratory hours a week for one semester. Prerequisite: Graduate standing.

N 391G. Public Health Program Development.
Focus on analyzing and critiquing health promotion and disease prevention initiatives, and obtaining and using relevant community and population-level health data for developing a multilevel health promotion and disease prevention initiative. Two lecture hours and four laboratory hours a week for one semester. Prerequisite: Graduate standing, and Nursing 391D or consent of instructor.

Major concepts and theories that guide public health practice for nurses and other professionals; local, national, and global issues and trends that shape public health. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

N 691P. Advanced Public Health Nursing Practice.
Synthesis of public health nursing knowledge and skills in advanced practice. The multifaceted roles involved in advanced public health nursing practice, with emphasis on the ability to articulate one’s professional roles based on theory and practice. One lecture hour and twenty laboratory hours a week for one semester. Prerequisite: Graduate standing and Nursing 391D and 391E.

N 691Q. Health Care Informatics.
Information and communication technologies are increasingly being applied to the healthcare context, with many new jobs opening up in areas such as health information management, electronic health records, and consumer and public health informatics. Explore the challenges and career opportunities provided by these recent developments. Discuss major issues-social, cultural, political, economic, technological, historical, and ethical-associated with health informatics. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

N 391R. Race, Power, Privilege, and Health.
Examine the intersections of race, power, and privilege in an effort to better understand their influence on health and health inequities in the United States. Investigate the history and philosophical foundations of the social construction of race, and resulting medical and social science theories about racial differences and how this has influenced health research, practice, and outcomes over time. Three lecture hours a week for one semester. Nursing 391R and 395 (Topic: Race, Power, Privilege/Hlth) may not both be counted. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

N 392. Nursing Phenomena of Concern.
The major phenomena underlying research and advanced practice in nursing. Concepts derived from these phenomena address the wide range of health, health concerns, and populations that nurses treat.
Three lecture hours a week for one semester. Prerequisite: Graduate standing.

**N 392E. Applications of Health Care Research.**

Designed to prepare students to discover, examine, and evaluate knowledge, theories, and creative approaches to health care. Focuses on the skills needed to identify research questions in practice, evaluate existing practice in the light of research findings, and develop strategies to incorporate research findings into the clinical setting. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

**N 392J. The Art and Science of Family Health.**

Open to all graduate students with consent of instructor. Theoretical foundations for advanced practice in nursing and other disciplines concerned with family health: family, parent, and child health and development theories; conceptual basis for understanding the context in which parent and child health and illness exist; interdisciplinary concepts and theoretical perspectives. Three lecture hours a week for one semester. Prerequisite: Graduate standing in nursing, or graduate standing and consent of instructor.

**N 592K. Parent-Child Nursing I: Childbearing Families.**

Salient concepts and clinical basis for advanced nursing practice with childbearing families, considered from biophysical, psychological, developmental, family, and sociocultural perspectives. Introduction to concepts related to role development as an advanced practice nurse, with emphasis on the promotion of wellness and prevention of illness in pregnant women and their newborns within the context of their families. Students apply these concepts in providing nursing care to childbearing families in a variety of clinical settings under supervision of faculty members and preceptors. Three class hours and eight laboratory hours a week for one semester. Prerequisite: Graduate standing, Nursing 396C and 396J, and credit or registration for Nursing 395C.

**N 592L. Parent-Child Nursing II: Childrearing Families.**

Salient concepts and clinical basis for advanced nursing practice with childrearing families, considered from biophysical, psychological, developmental, family, and sociocultural perspectives. Legal, ethical, and practice issues affecting the advanced practice nurse. Emphasis on promotion of wellness and prevention of illness in children within the context of their families. Students apply concepts in providing nursing care to childrearing families in a variety of clinical settings under supervision of faculty members and preceptors. Three lecture hours and eight laboratory hours a week for one semester. Prerequisite: Graduate standing and Nursing 592K.

**N 392M. Clinical Project in Parent-Child Nursing.**

Supervised, individual clinical project. One lecture hour and eight laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

**N 392P. Health Policy, Program Planning, and Evaluation.**

Open to all University graduate students. Exploration of multilevel health care policy implementation, program development, and outcome evaluation. Focus on the application of policies from macro-level to micro-level systems. Three lecture hours a week for one semester. Prerequisite: Graduate standing; and Nursing 392E or the equivalent, or consent of instructor.

**N 392Q. Advanced Psychosocial Nursing Care of Diverse Populations.**

Emphasizes current theoretical, research, ethical, and cultural perspectives critical to the application of advanced psychosocial nursing strategies to promote health of diverse populations of individuals, groups, and families. Two and one-half lecture hours a week and two laboratory hours a week for one semester. Prerequisite: Graduate standing.

**N 492S. Advanced Practicum in Parent-Child Nursing.**

Culminating preceptorship experience: each student identifies his or her objectives for refining the role of the advanced practice nurse and selects the clinical setting and target population(s) that best support those objectives. One lecture hour and twelve laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and credit or registration for Nursing 592U.

**N 392T. Advanced Assessment in Parent-Child Nursing.**

Advanced nursing assessment strategies for childbearing and childrearing families. One and one-half lecture hours and six laboratory hours a week for one semester. Prerequisite: Graduate standing.

**N 592U. Parent-Child Nursing III: At-Risk Families.**

Salient concepts and clinical basis for advanced nursing practice with at-risk families during the childbearing years. Legal, ethical, and practice issues affecting the advanced practice nurse. Emphasis is on assessment and intervention with pregnant women and children with health problems that have a social and biophysical etiology. Students apply concepts in providing nursing care to at-risk families in a variety of clinical settings under supervision of faculty members and preceptors. Three lecture hours and eight laboratory hours a week for one semester. Prerequisite: Graduate standing and Nursing 592L.

**N 192V, 392V. Advanced Pediatric Pathophysiology.**

Pathophysiology unique to the growth and development of newborns, infants, children, and adolescents. Embryology, genetics, adaptation to extraterine life, congenital anomalies, immunology, and the physiology and pathophysiology of puberty. Pathophysiology is studied from a developmental perspective, to encourage students’ in-depth understanding of functional and dysfunctional integration of organ systems in the developing human; the goal is to give students a foundation for assessing and intervening with a variety of childhood health conditions based on pathophysiological changes. For each semester hour of credit earned, one lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

**N 492W. Advanced Practicum in Child Health.**

Prominent concepts of biophysical, psychological, developmental, family, and sociocultural perspectives, and the clinical basis for master’s-level nursing practice with children and their families. Students use advanced concepts and theories in working with faculty members and preceptors in hospitals, clinics, schools, or homes. Two lecture hours and eight clinical hours a week for one semester. Prerequisite: Graduate standing and Nursing 392V, 394C, and 396T.

**N 393. Parents, Children, and Family Life.**

Study of theories on parents, children, and family life; critical review of major research findings, with emphasis on implications for further research. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

**N 393J. Pediatric Acute Care Management III and Role Transition.**

Learn to recognize, interpret, and respond to emerging health crises and organ system dysfunction or failure of physiologic systems in children with complex acute, critical, and chronic health conditions. Examine patient stabilization, minimizing complications, and restoring maximal health potential. Explore core concepts such as team-based management of care and interprofessional collaboration; complex
discharge planning; community and social influences of child and family health; advanced role development; and legal, political, and ethical issues that affect nurse practitioner practice. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing, Nursing 394S and 294T, and consent of instructor.

N 393M. Maternal/Parent-Child Nursing.
Class and/or laboratory hours to be arranged. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

Topic 1: Seminar in Parenthood and Family Life. Advanced seminar on theory and research related to parenthood and family life.
Topic 2: Work and Family: Psychological and Social Aspects of Multiple Roles. Advanced seminar focusing on occupational and parental roles and the resulting strains and health consequences.
Topic 3: Predictive and Interventive Research with Families. Advanced seminar reviewing, critiquing, and applying predictive and interventive research studies.

N 293P, 393P. Pediatric Diagnostic Reasoning and Advanced Invasive Skills.
Interpretation of laboratory and diagnostic testing; and the development of diagnostic and psychomotor skills needed to care for acute or critically ill pediatric patients. For each semester hour of credit earned, three-quarter lecture hours and one laboratory hour a week for one semester. Prerequisite: Graduate standing, credit or registration for Nursing 394C or the equivalent, and credit or registration for Nursing 392V or the equivalent.

N 393Q. Advanced Neonatal Nursing I.
Assessment and implementation of advanced nursing care of the high-risk preterm neonate. Development of a critical, analytical approach to clinical decision making; provision of care within a family-centered and developmentally supportive context. Concepts related to advanced role development of nurse practitioners. Three lecture hours a week for one semester. Prerequisite: Graduate standing, credit or registration for Nursing 293P and 395D, concurrent enrollment in Nursing 293R, and consent of instructor.

N 293R. Advanced Neonatal Nursing I--Clinic.
Assessment and implementation of advanced nursing care of the high-risk preterm neonate. Development of a critical, analytical approach to clinical decision making; provision of care within a family-centered and developmentally supportive context. Concepts related to advanced role development of nurse practitioners. Eight clinical hours a week for one semester. Prerequisite: Graduate standing, concurrent enrollment in Nursing 393Q, and consent of instructor.

N 393S. Advanced Neonatal Nursing II.
Knowledge and skills needed to recognize and respond to emerging crises and organ system dysfunction or failure in full-term neonates with complex acute, critical, or chronic health conditions. Stabilizing the patient, minimizing complications, restoring maximum health potential through risk reduction, and providing family-centered care. Current research and evidence, theoretical models, and philosophies of care. Continued development of a critical, analytical approach to clinical decision making. Three lecture hours a week for one semester. Prerequisite: Graduate standing, Nursing 393Q and 293R, concurrent enrollment in Nursing 293T, and consent of instructor.

N 293T. Advanced Neonatal Nursing II--Clinic.
Continued development of advanced clinical skills in the management of high-risk neonates. Students incorporate nursing theory, current research and evidence, and complex skills into the care of full-term neonates with acute, critical, or chronic health conditions. Integration, under supervision of faculty members and preceptors, of the neonatal nurse practitioner role in the care of high-risk neonates in neonatal intensive care, labor and delivery, and interhospital and intrahospital transport. Eight clinical hours a week for one semester. Prerequisite: Graduate standing, concurrent enrollment in Nursing 393S, and consent of instructor.

N 393U. Advanced Neonatal Nursing II.
Transition to home care and follow-up care for high-risk neonates and infants and their families. Synthesis of current research and evidence and theoretical concepts in nursing and the social and behavioral sciences that are relevant to care from admission to discharge. Continued development of a critical, analytical approach to clinical decision making. Advanced role development; legal, political, and ethical issues affecting nurse practitioner practice. Three lecture hours a week for one semester. Prerequisite: Graduate standing, Nursing 393S and 293T, and concurrent enrollment in Nursing 293V.

N 293V. Advanced Neonatal Nursing III--Clinic.
Continued development of advanced clinical skills in the management of high-risk neonates and infants. Under the supervision of faculty members and preceptors, students incorporate nursing theory, current research and evidence, and complex skills into the care of neonates and infants from hospital admission to discharge to follow-up care in the community. Integration of knowledge and skills needed to care effectively and efficiently for neonates and infants whose life processes are assisted by or dependent on technological devices. Eight clinical hours a week for one semester. Prerequisite: Graduate standing, concurrent enrollment in Nursing 393U, and consent of instructor.

N 493W. Advanced Neonatal Nursing Practicum.
Concentrated and supervised application of knowledge and skills gained in previous courses to the management of high-risk neonates and infants. Evaluation of patients presenting with complex health problems and of their families; development of comprehensive evidence-based management plans under the supervision of faculty members and preceptors. Sixteen clinical hours a week for one semester. Prerequisite: Graduate standing, Nursing 393U and 293V, and consent of instructor.

N 194, 294, 394, 494. Independent Study in Nursing.
Detailed or in-depth study in a specific topic area. Topic and mode of study are agreed upon by student and instructor. One, two, three, or four lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

N 394C. Advanced Pediatric Health and Developmental Assessment.
Advanced developmental and health assessment of children (newborn through adolescent). Emphasis is on theories and skills applicable to the assessment of children. Two lecture hours and four laboratory hours a week for one semester. Prerequisite: Graduate standing, admission to the pediatric nurse practitioner specialization, credit or registration for Nursing 192V and 396C, and consent of instructor.

N 294D. Primary Health Care of the Adolescent.
Study of health promotion, anticipatory guidance, prevention of illness, and the assessment and management of illnesses commonly affecting adolescents. Adolescent health is discussed in a developmental context. Two lecture hours a week for one semester. Prerequisite: Graduate standing, admission to the pediatric nurse practitioner specialization, credit or registration for Nursing 394C or 396J, and consent of instructor.
N 394E. Pediatric Primary Health Care Concepts I.
Study of health promotion, anticipatory guidance, prevention of illness, and the assessment and management of acute illnesses commonly affecting children. Concepts related to advanced role development of nurse practitioners. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: For students in the pediatric nurse practitioner concentration, graduate standing and concurrent enrollment in Nursing 394F and 395D; for others, graduate standing. Nursing 394C and 392V, concurrent enrollment in Nursing 394F; and consent of instructor.

N 194F, 394F. Pediatric Primary Health Care Concepts I Clinic.
Clinical experience in primary care settings, focusing on health promotion and management of well-child care and acute illnesses commonly encountered in children. For 194F, four laboratory hours a week for one semester; for 394F, twelve laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; admission to the pediatric nurse practitioner specialization; Nursing 394C, concurrent enrollment in Nursing 394E and 395D; and consent of instructor.

N 494G. Pediatric Acute Care Role Transition and Advanced Practicum.
Demonstrate role behaviors and clinical competence consistent with that of an advanced beginner acute care pediatric nurse practitioner. Experience a concentrated and supervised opportunity to make more independent and interdependent decisions in managing emerging crisis and organ system dysfunction in children with a variety of complex acute, critical, and chronic health conditions. Work collaboratively with faculty and preceptors in a variety of settings including emergency departments, intensive care units, inpatient medical/surgical units, and sub-specialty clinics. Sixteen laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing, Nursing 394S and 394T, and consent of instructor.

N 294H. Advanced Practicum in Maternity Nursing.
Guided field experience in which the student applies advanced nursing concepts in a selected area of maternity care. Designed to provide students, under the direction of a clinical mentor, extensive clinical experience to integrate skills relevant to his or her selected professional role. One lecture hour and eight clinical hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing, Nursing 394S and 394T, and credit or registration for Nursing 394N.

N 394I. Pediatric Primary Health Care Concepts III.
Primary care management of complex conditions in children. Additional emphasis on advanced role development of the pediatric nurse practitioner. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing, admission to the pediatric nurse practitioner specialization, Nursing 394E and 394F, concurrent enrollment in Nursing 494K, and consent of instructor.

N 494K. Pediatric Primary Health Care Concepts III Clinic.
Pediatric primary health care practicum in the advanced nursing management of the health of infants, children, and adolescents. Sixteen laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing, admission to the pediatric nurse practitioner specialization, Nursing 396U and 396V, concurrent enrollment in Nursing 294J, and consent of instructor.

N 494L. Advanced Physiologic Concepts in Maternity Nursing.
Advanced concepts related to the physiological, pharmacologic, and environmental adaptations during childbearing. Interpretation of relevant biopsychosocial data; research related to the physiologic and pharmacologic effects in reproductive health; foundation for nursing care to the maternal-newborn dyad in the family context. Three lecture hours and four clinical hours a week for one semester. Prerequisite: Graduate standing, and Nursing 394N and 396C.

N 394M. Health Promotion in Maternity Nursing.
Analysis of concepts related to health promotion, illness prevention, and health disparities throughout the perinatal period (fertility, pregnancy, birth, newborn, lactation, and parenting). Theories and research related to psychosocial concepts, family, parenting, pre-conception, systems of care, and cultural perspectives for health promotion in reproductive health are examined. Investigates the application of theoretical principles and research evidence relating to the care of women and newborns in a variety of settings under faculty and preceptor supervision. Two lecture hours and four clinical practicum hours a week for one semester. Prerequisite: Graduate standing and credit or registration for Nursing 396C.

N 394N. High-Risk Maternity Nursing.
Significant biopsychosocial concepts that serve as a basis for nursing practice in high-risk maternity care; knowledge needed to identify common maternity complications; assessment and planning of evidence-based maternity care within the family context. Three lecture hours a week for one semester. Prerequisite: Graduate standing and Nursing 394M.

N 294P. Advanced Practicum in Maternity Nursing.
Guided field experience in which the student applies advanced nursing concepts in a selected area of maternity care. Under the direction of a clinical mentor, the student obtains extensive clinical experience to integrate skills relevant to his or her selected professional role. One lecture hour and four clinical hours a week for one semester. Prerequisite: Graduate standing, Nursing 394M, and credit or registration for Nursing 394N.

N 394Q. Pediatric Acute Care Management I.
Designed to prepare students to recognize, interpret, and respond to emerging health crises and organ system dysfunction or failure in children with complex acute, critical, and chronic health conditions. Emphasizes patient stabilization, minimizing complications, restoring maximal health potential through risk reduction, and providing physical and psychosocial support to the patient and family. Acute, critical, and chronic disorders within selected physiological systems are explored from a developmental and multicultural perspective. Six lecture hours every other week for one semester. Prerequisite: Graduate standing, credit or registration for Nursing 394E, 194F, 393P, and 394W, concurrent registration for Nursing 294R, and consent of instructor.

N 294R. Pediatric Acute Care Management I: Clinical.
Provides an opportunity for the beginner acute care pediatric nurse practitioner student to apply advanced knowledge of pathophysiology, pharmacology, current research and evidence, and diagnostic and psychomotor skills to caring for children with complex acute, critical, and chronic health conditions, and their families. Eight laboratory hours a week for a semester. Prerequisite: Graduate standing, credit or registration for Nursing 393P and 394W, concurrent registration for Nursing 394Q, and consent of instructor. Students must also have proof of current Pediatric Advanced Life Support (PALS) training from the American Heart Association.

N 394S. Pediatric Acute Care Management II.
Designed to prepare students to recognize, interpret, and respond to emerging health crises and organ system dysfunction or failure in children with complex acute, critical, and
chronic health conditions. Emphasizes patient stabilization, minimizing complications, and restoring maximum health potential. Explores core concepts such as transport, complex discharge planning, rehabilitation, home care, and long-term care. Six lecture hours every other week for one semester. Prerequisite: Graduate standing, Nursing 394Q and 294R, concurrent enrollment in Nursing 294T, and consent of instructor.

**N 294T, 394T. Pediatric Acute Care Management II: Clinical.**

Designed to prepare students for clinical competence consistent with that of a beginner acute care pediatric nurse practitioner. Under the supervision of faculty and preceptors, students integrate advanced knowledge of pathophysiology, pharmacology, current research and evidence, and diagnostic and psychomotor skills to create comprehensive management plans for children with complex acute, critical, and chronic health conditions. For each semester hour of credit earned, four laboratory hours a week for one semester. Prerequisite: Graduate standing, credit or registration for Nursing 393R, 394W, 394Q, and 294R, concurrent registration for Nursing 394S, and consent of instructor. Students must also have proof of current Pediatric Advanced Life Support (PALS) training from the American Heart Association.

**N 594U. Pediatric Acute Care Advanced Practicum.**

Designed to prepare students to demonstrate the clinical competence of an advanced beginner acute care pediatric nurse practitioner. Under the supervision of faculty and preceptors, students have the opportunity to make independent and interdependent decisions in managing emerging health crises and organ system dysfunction in children with a variety of complex acute, critical, and chronic health conditions. Students work in a variety of settings, including emergency departments, intensive care units, inpatient medical and surgical units, and subspecialty clinics. Explores the legal, political, and ethical issues affecting nurse practitioner practice. Twenty laboratory hours a week for one semester. Prerequisite: Graduate standing, Nursing 394S and 294T, and consent of instructor. Students must also have proof of current Pediatric Advanced Life Support (PALS) training from the American Heart Association.

**N 394V. Child Adolescent Psychiatric Mental Health for Primary Care.**

Examines foundational content relative to the care of children and adolescents with behavioral and psychiatric mental health disorders. Aspects of care examined will include health promotion, screening, treatment and referral to psychiatric mental health specialists. Focus on inter-professional and collaborative practice using evidence-based models for evaluation and management of common behavioral and psychiatric mental health disorders in the child and adolescent. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Credit for Nursing 394E and Nursing 394F, or consent of instructor.

**N 294W, 394W. Pediatric Clinical Pharmacology and Therapeutics in Acute Care.**

Explore pediatric pharmacotherapeutics with emphasis on pharmacokinetics, pharmacodynamics, administration and education in acute care settings. For each semester hour of credit earned, one lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

**N 195, 295, 395, 495, 595, 695. Topics in Nursing.**

Areas of special interest. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; some topics also require consent of instructor.

**Topic 2: Community Programs Evaluation.**

**N 395C. Clinical Pharmacology and Therapeutics.**

Application of pharmacologic and pharmacokinetic principles to drug therapy management in family primary care nursing. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

**N 395D. Pediatric Clinical Pharmacology and Therapeutics.**

The study of pediatric pharmacotherapeutics, with emphasis on pharmacokinetics, pharmacodynamics, administration, and education. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

**N 395E. Doctor of Nursing Practice Role.**

Restricted to students in the Doctor of Nursing Practice program. Explores the role of the Doctor of Nursing Practice in the broader healthcare environment along with the development and application of knowledge in advanced practice nursing roles. Emphasizes how knowledge is acquired, the theoretical underpinnings upon which nursing practice is based, and the application of knowledge to practice. Two lecture hours and four laboratory hours a week for a semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

**N 395F. Theoretical Foundations for Nursing Practice.**

Restricted to students in the Doctor of Nursing Practice program. Examines the nature of theory and theory development for nursing practice; the application of theory to practice, practice change, and scholarship are also explored. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

**N 395G. Translating Evidence into Nursing Practice.**

Restricted to students in the Doctor of Nursing Practice program. Methods for developing best practice protocols and putting them into action. Explores analytic and measurement methods to critically appraise literature, how to function as a consultant or in a collaborative research role, and participation in dissemination of evidence-based practice guidelines to improve healthcare outcomes. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

**N 395H. Health Promotion Among Diverse Cultures.**

Analyzes the impact of social, cultural, and ecological factors of healthcare delivery on various population groups. Emphasizes the application of sociocultural diversity as well as theories and methods for analyzing healthcare phenomena within the context of advanced practice nursing roles. In the context of an ethical and legal framework, the social issues common among vulnerable populations will also be examined. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Nursing 395E, 395F, and 395G.

**N 395J. Health Policy Development and Implementation.**

Explores the leadership role of nurses in health policy, including the socio-political and economic context of health, advocacy, policy development, analysis, and implementation at the local, state, national, and global levels. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; Nursing 394E, 395F, and 395G.
N 395K. Leadership in Organizations and Systems.
Explores leadership theory, organizational theory, philosophy, culture, structure, processes, information management, interdisciplinary communication, and other areas relevant to healthcare organizations. Examines the role of the Doctor of Nursing Practice nurse within the larger context of the health care system. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; Nursing 394E, 395F, and 395G.

Provides an overview of the components of the quality improvement processes and quality improvement methodologies to promote safe patient outcomes. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; Nursing 395E, 395F, and 395G.

N 395M. Epidemiology and Population Health.
Explores in detail the roles of federal, state, and local governments in relationship to the core functions of public health. Health disparities and the needs of priority populations will also be analyzed. Health promotion models impacting specific populations and population-focused health initiatives will be evaluated. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; Nursing 395E, 395F, and 395G.

N 395N. Biostatistics.
Basic concepts in descriptive and inferential statistical methods. Explores intermediate statistical concepts including analysis of variance (ANOVA) with planned comparisons and post-hoc tests, factorial ANOVA, bivariate linear correlation and logistic and multiple regression, survival analysis, the chi-square tests for goodness of fit and association, the Mann-Whitney U test, and the essentials of sample size estimation. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; Nursing 395E, 395F, and 395G.

N 395P. Health Care Economics.
Explores basic economic theory, market drivers and restraints, health care budget, financial management and reimbursement, cost/benefit analysis, and healthcare entrepreneurialism. Includes theory and application, with a particular focus on the clinical role of the Doctor of Nursing Practice within the contemporary healthcare environment. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; Nursing 395E, 395F, and 395G.

N 295Q. Professional Practice of the FNP.
Explores concepts and theory from nursing, social, and biological sciences related to primary care management of complex health/illness conditions in adults and children as members of families. Emphasis is on community/social issues influencing individual and family health, complex individual, family and/or community interventions, advanced role development and legal, political, ethical issues affecting nurse practitioner practice. Two lecture hours a week for one semester. Nursing 295R and 295Q may not both be counted. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Graduate standing; concurrent enrollment in Nursing 396Q and 196R, 296R, 396R, 496R; or consent of instructor.

Employs multidisciplinary approaches to informatics by incorporating nursing science, computer science, and information science. Examines the resources and methods required to apply these technologies to clinical guidelines, communication systems and to enhance health care delivery. Opportunities to analyze information requirements, design system alternatives, and consider the management of resources is integrated in the course. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; Nursing 395E, 395F, and 395G.

N 395T, 495T, 595T. DNP Clinical Leadership Specialization Seminar and Practicum I.
Identification of a clinical leadership specialization interest by the Doctor of Nursing Practice student beginning in the second semester of the program. The clinical specialization focus includes identification of evidence-based strategies for implementing and achieving health care outcomes, such as a significant pilot study, a program evaluation project, a quality improvement project, a policy analysis, or a practice change initiative. The student is required to submit an individualized practicum proposal and objectives for the practicum experience. For 395T, one lecture and eight laboratory hours a week for one semester; for 495T, one lecture and twelve laboratory hours a week for one semester; for 595T, one lecture and sixteen laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; Nursing 395E, 395F, and 395G.

N 395U, 495U, 595U. DNP Clinical Leadership Specialization Seminar and Practicum II.
Examines the feasibility of implementing and achieving health care outcomes such as a significant pilot study, a program evaluation project, a quality improvement project, a policy analysis, or a practice change initiative in an identified area of clinical leadership specialization. The student is required to submit an individualized practicum proposal and objectives for the practicum experience. For 395U, one lecture and eight laboratory hours a week for one semester; for 495U, one lecture and twelve laboratory hours a week for one semester; for 595U, one lecture and sixteen laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; Nursing 395E, 395F, 395G, and 395T or 495T or 595T.

N 395V, 495V, 595V. DNP Clinical Leadership Specialization Seminar and Practicum III.
Implementation of a significant pilot study, a program evaluation project, a quality improvement project, a policy analysis, or a practice change initiative in an identified area of clinical leadership specialization. Implementation strategies include incorporation of the most recent evidence-based practice in the management of patient care within an interdisciplinary practice model, utilization of evidence-based research in the clinical management of individuals, families, and communities as well as experience in leadership and systems analysis in complex organizations, managing interdisciplinary teams, and developing and implementing quality improvement projects and evidence-based management systems to improve patient, population and health systems outcomes. The student is required to submit an individualized practicum proposal and objectives for the practicum experience. For 395V, one lecture hour and eight laboratory hours a week for one semester; for 495V, one lecture hour and twelve laboratory hours a week for one semester; for 595V, one lecture hour and sixteen laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; Nursing 395E, 395F, 395G, and 395T or 495T or 595T.

N 395W, 495W, 595W. DNP Clinical Leadership Specialization Seminar and Practicum IV.
Provides the opportunity for dissemination of outcomes such as those resulting from a significant pilot study, a program evaluation project, a quality improvement project, a policy analysis, or a practice change initiative in an identified area of clinical leadership specialization and serves as a foundation for future scholarly practice. The student is required to submit an individualized practicum proposal and objectives for the practicum experience. For 395W, one lecture hour and eight
N 396C. Advanced Pathophysiology.
Pathophysiologic concepts from the cellular level through major body systems and across the life span. Etiological, pathogenic, and presenting patterns. Fundamental concepts of anatomy and physiology. Students are expected to develop an understanding of nursing and medical interventions for common health problems and the ability to apply and design interventions based on pathophysiologic changes. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; Nursing 395E, 395F, 395G, and 395V or 495V or 595V.

N 396J. Advanced Health Assessment.
Advanced knowledge and skills involved in the assessment of individuals throughout the life span, within the context of the family, to determine their health status. Two lecture hours, three laboratory hours, and one hour of skills laboratory a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

N 396L. Primary Health Care Concepts I.
Theoretical and clinical knowledge needed for advanced nursing management within the context of the family and the community of individuals who are essentially well or who have minor health problems. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; admission to the family nurse practitioner or the pediatric nurse practitioner specialization; Nursing 396J and 296K; concurrent enrollment in Nursing 196M, 296M, or 396M; and consent of instructor.

N 196M, 296M, 396M. Primary Health Care Concepts I Clinic.
Supervised experience in the nursing management of infants, children, and/or advanced adults and families who are well or who have common acute health problems. For each semester hour of credit earned, four laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; admission to the family nurse practitioner or the pediatric nurse practitioner specialization; Nursing 396C, 396J, and 296K; concurrent enrollment in Nursing 396L; and consent of instructor.

N 396N. Primary Health Care Concepts II.
Theoretical and clinical knowledge needed for the management of complex and chronic health problems of individuals and families. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; admission to the family nurse practitioner or the pediatric nurse practitioner specialization; Nursing 396L and 396M; concurrent enrollment in Nursing 396U and 396N; and consent of instructor.

Supervised experience in the nursing management of infants, children, adults, and families who have complex or chronic health problems. For each semester hour of credit earned, four laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; admission to the family nurse practitioner specialization; Nursing 391D, 396L, and 396M; concurrent enrollment in Nursing 396N; and consent of instructor.

N 396Q. Primary Health Care Concepts III.
Offers the FNP student the theoretical and clinical content for management of complex health problems throughout the lifespan. Focus is on the integration and application of skills and knowledge gained in prior FNP coursework for pediatric, adult, and aging clients in primary health care settings. Use pattern recognition, critical thinking, analysis, diagnostic testing, differential diagnosis and medical management of complex health problems throughout the lifespan. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Concurrent enrollment in Nursing 295Q and 196R, 296R, 396R; or consent of instructor.

Advanced supervised experience as a direct primary health care giver in family practice clinical settings. For each semester hour of credit earned, four laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; admission to the family nurse practitioner or the pediatric nurse practitioner specialization; Nursing 391E; either Nursing 396N and 396P or 396U and 396V; concurrent enrollment in Nursing 295Q and 396Q; and consent of instructor.

N 196S. Special Project in Advanced Practice.
Development of a special project in an area of research, policy, or clinical issues relevant to advanced practice. Four laboratory hours a week for one semester. Prerequisite: Graduate standing, admission to the family nurse practitioner or the pediatric nurse practitioner specialization, Nursing 396L and 396M, and consent of instructor.

N 396T. Ecological Approaches to Child Health.
The ecological approach to understanding individual, parental, family, and societal determinants of children's health. Students gain knowledge of developmental and family theories and use epidemiological principles to comprehend the complex dimensions and related conceptual factors that contribute to the health and well-being of children within families. Theoretical foundations for graduate students interested in health promotion and risk reduction for children and families. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

N 396U. Pediatric Primary Health Care Concepts II.
Theoretical knowledge relevant to the management of complex and chronic primary health care problems from infancy through adolescence. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; admission to the pediatric nurse practitioner or the parent/child nursing specialization; Nursing 396C, 396L, and 396M; concurrent enrollment in Nursing 196V, 296V, or 396V; and consent of instructor.

N 196V, 296V, 396V. Pediatric Primary Health Care Concepts II Clinic.
Clinical practice in the management of complex or chronic health problems of infants, children, and adolescents in a specialty setting as well as management in primary care. For each semester hour of credit earned, four laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; admission to the pediatric nurse practitioner specialization; Nursing 394E, 394F and concurrent enrollment in Nursing 396U and consent of instructor.

N 396W. Advanced Adult Health Assessment.
Introduces advanced knowledge and skills related to assessing the health of adult individuals. Emphasis is on combining nursing, biological, psychological, and sociocultural knowledge with theories of health and aging as they apply to the comprehensive assessment of client concerns and interpretation of clinical data relating to health promotion, health maintenance, and illness care. Two lecture hours, one skills laboratory
hour, and three laboratory hours a week for one semester. Prerequisite: Graduate standing.

N 197C. Doctoral Seminar I.
Introduction to nursing science. Explores the history, current priorities, and funding mechanisms of science development in nursing along with established programs of nursing research. Provides a forum for students to develop and exchange ideas regarding research topics. One lecture hour a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

N 197D. Doctoral Seminar II.
One lecture hour a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing, and Nursing 197C or consent of instructor.

N 397K. Advanced Research in Nursing.
Nursing science methods for developing and testing theoretical formulations: experimental, descriptive, qualitative, and historical designs. Three lecture hours a week for one semester, with additional computer laboratory hours to be arranged. Required of all doctoral students. Prerequisite: Graduate standing, Nursing 392E, and consent of instructor.

N 397L. Nursing Research Methods.
Three lecture hours a week for one semester, with additional computer laboratory hours to be arranged. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

N 397M. Qualitative Research.
Introduction to the theoretical and methodological aspects of qualitative research methods. Qualitative research approaches from a variety of disciplines and philosophical traditions, with emphasis on the application of research designs and data collection and analysis techniques to nursing studies. Three lecture hours a week for one semester. Prerequisite: Graduate standing, and completion of two doctoral-level research courses or consent of instructor.

N 397N. Correlation and Regression in Health Research.
Examine the principles and applications of statistical techniques using a linear model approach. Explore correlation, partial correlation, linear regression, multiple regression, and logistic regression. Three lecture hours a week for one semester. May be taken twice for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

N 197P, 297P. Nursing Research Practicum.
Guided experience in conceptual and methodological aspects of research: data management and analysis; critique and interpretation; instrumentation; and measurement. Four or eight laboratory hours a week for one semester. May be repeated twice for credit. May be repeated for credit. Prerequisite: Graduate standing and Nursing 397K.

N 397Q. Research Practicum I.
Examines essential aspects of the responsible conduct of research and beginning skills needed to initiate a research program. Students focus on conceptual, methodological, and practical aspects of research within an ongoing faculty research project. One and one-half lecture hours and six laboratory hours a week for one semester. Prerequisite: Graduate standing; and Nursing 397L (Topic 3: Conceptual Foundations of Research Design and Methods), or credit or registration for Nursing 397L (Topic 5: Quantitative Design, Methods, and Analysis), or consent of instructor.

N 397R. Research Practicum II.
Examines essential procedural aspects of conducting health-related research. Students focus on conceptual, methodological, and practical aspects of research within an ongoing faculty research project. Two lecture hours and four laboratory hours a week for one semester. Prerequisite: Graduate standing; and Nursing 397L (Topic 3: Conceptual Foundations of Research Design and Methods), 397L (Topic 5: Quantitative Design, Methods, and Analysis), or consent of instructor; and credit or registration for Nursing 380M (Topic 4: Philosophical and Theoretical Bases of Nursing Science), 382, or consent of instructor.

N 397S. Research Practicum III.
Focuses on essential skills needed to develop a research proposal and plan an independent research program. Students focus on conceptual, methodological, and practical aspects of research within an ongoing faculty research project. Two lecture hours and four laboratory hours a week for one semester. Prerequisite: Graduate standing, and Nursing 397M and 397R.

N 197W. Developmental Writing.
Study writing skills for graduate level course work, including clarity and continuity of thought, use of proper grammar, and proper use of APA format. One lecture hour a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in nursing and consent of the graduate adviser; for 698B, Nursing 698A.

N 398C. Theoretical Basis for Precision Health Implementation Science.
Examine a scoping review of the theoretical foundations of precision health and implementation science approaches. Explore biological, technological, behavioral, and social-ecological health contexts; and team science approaches and ethics related to implementing precision health approaches. Three lecture hours a week for one semester. May be taken twice for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

N 398D. Designing Precision Health and Implementation Science Research.
Analyze the scientific rigor of precision health approaches to intervention, data collection, and other study procedures. Examine cutting-edge strategies, emerging resources, and rigorous approaches to precision health research and their potential application to multiple
chronic conditions. Three lecture hours a week for one semester. May be taken twice for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Graduate standing, and credit or registration for Nursing 397L (Topic 5), 398C, and 398D; or consent of instructor.

N 398E. Precision Health Interventions for Self-Management.
Examine issues and approaches in design and implementation of precision health self-management interventions for multiple chronic conditions. Engage in hands-on practice with application of concepts to student-defined, instructor-approved projects. Three lecture hours a week for one semester. May be repeated twice for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Graduate standing, and credit or registration for Nursing 397L (Topic 5), 398C, and 398D; or consent of instructor.

N 398T. Supervised Teaching and Learning in Nursing.
Designed to introduce the student to the essential elements of nursing education prior to engaging in the role of assistant instructor. Critical elements include the theoretical bases of teaching and learning; teaching strategies for clinical and classroom settings; assessment and evaluation strategies for various educational settings; ethical and legal considerations; and the importance of engaging in the scholarship of teaching. Two lecture hours and four laboratory hours a week for one semester. Prerequisite: Graduate standing.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses
N S - Naval Science

Lower-Division Courses
N S 000. Drill.
Three laboratory hours a week for one semester.

N S 302. Introduction to Naval Science.
A general introduction to sea power and the naval service, including the mission, organization, regulations, warfare components, and personnel programs. Three lecture hours a week for one semester.

N S 312. Sea Power and Maritime Affairs.
A consideration of the influence of sea power, naval history, and maritime affairs on current events and national policy. Three lecture hours a week for one semester. Prerequisite: Consent of instructor.

N S 315. Naval Engineering.
Introduction to types, structures, and purposes of naval ships and systems. Three lecture hours a week for one semester. Naval Science 603 and 315 may not both be counted. Offered on the letter-grade basis only.

Introduction to types, capabilities, and purposes of Naval weapons systems. Three lecture hours a week for one semester. Naval Science 603 and 316 may not both be counted. Offered on the letter-grade basis only.

Upper-Division Courses
N S 326. Evolution of Warfare.
Explores the forms of warfare employed by great leaders in history as they relate to the evolution of warfare. Three lecture hours a week for one semester. Prerequisite: Consent of instructor.

An introduction to piloting, a survey of navigational aids, and a study of the Rules of the Nautical Road. Three lecture hours a week for one semester.

N S 330. Leadership and Ethics.
Principles of leadership and ethics reinforced through seminar discussion and case studies. Discussion of the duties and responsibilities of a naval officer. Three lecture hours a week for one semester. Prerequisite: Naval Science 335 and consent of instructor.

N S 335. Leadership and Management.
Study of leadership and management theory in organizations, with emphasis on examining the leadership process in the context of the dynamic interaction of the leader, the followers, and the situation. Three lecture hours a week for one semester. Prerequisite: Consent of instructor.

Intended for Naval ROTC students. Focuses on the evolution of the United States Marine Corps as a maneuver warfare organization, with particular attention devoted to the structure and capabilities of the present day USMC as a forward deployed and rapid deployment force and the development of Expeditionary Maneuver Warfare concepts. Three lecture hours a week for one semester. Offered on the letter-grade basis only.

Defines the concept of amphibious warfare, explores its doctrinal origins, and traces its evolution as an element of naval policy during the twentieth century. Three lecture hours a week for one semester.

N S 369. Navigation and Naval Operations II.
Study of the celestial sphere and nautical astronomy to determine positions on the earth by mathematical analysis, and an introduction to relative motion and the maneuvering board. Three lecture hours a week for one semester.

Graduate Courses

Graduate Courses

NE - Nanoengineering

Nanoengineering: NE

Lower-Division Courses

Upper-Division Courses

Graduate Courses

NE 380. Introduction to Nanoengineering.
Restricted to nanoengineering majors. Survey fundamental and important areas in nanoengineering including semiconductor device design, semiconductor manufacturing techniques, metrology and process control. Three lecture hours a week for one semester. Prerequisite: Graduate standing.
NE 380C. Topics in Nanoengineering.  
May be repeated for credit when the topics vary.

NE 381. Nanofabrication.  
Restricted to nanoengineering majors. Explore a theoretical and practical introduction to contemporary nanofabrication techniques and methods. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

NE 382. Nanodevices.  
Restricted to nanoengineering majors. Examine the design and physics underlying modern semiconductor devices. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

NE 380R. Master’s Report.  
Restricted to nanoengineering majors. Prepare a report to fulfill the requirement for the master’s degree. Three hours of lecture a week for one semester. Prerequisite: Graduate standing.

Professional Courses

NEU - Neuroscience

Neuroscience: NEU

Lower-Division Courses

NEU 320. Introduction to Neuroscience.  
Introduction to the nervous system with an emphasis on brain organization, neuron physiology, perceptual systems, and motor systems. Designed for non-neuroscience majors. Three lecture hours a week for one semester.

NEU 330. Neural Systems I.  
Restricted to neuroscience majors. Introduction to the nervous system with an emphasis on brain organization, neuron physiology, perceptual systems, and motor systems. Three lecture hours a week for one semester. Only one of the following may be counted: Biology 337 (Topic: Neural Systems I), 371M, Neuroscience 330, 365R, 371M.

NEU 335. Neural Systems II.  
Introduction to the nervous system with an emphasis on neural development and on the neural mechanisms of memory, emotions, and other higher cognitive functions. Intended for neuroscience majors and those considering neuroscience as a major. Three lecture hours a week for one semester. Biology 337 (Topic: Neural Systems II) and Neuroscience 335 may not both be counted. Prerequisite: A grade of at least C- in the following: Biology 206L, and 311D or 325H, Mathematics 408C or 408S, and Neuroscience 330.

NEU 137, 237, 337, 437. Selected Topics in Neuroscience.  
Topics include recent developments and research methods in the field of neuroscience. For each semester hour of credit earned, one lecture hour a week for one semester. Some topics may require additional hours. May be repeated for credit when the topics vary. Prerequisite: Neuroscience 335 with a grade of at least C-

  - Topic 3: Neuroscience for Plan II. Restricted to Plan II students. Neuroscience 337 (Topic: Tpcs in Neuroscience: Plan II) and 137, 237, 337, 437 (Topic 3) may not both be counted.
  - Topic 6: Rigor in Neuroscience. Explore the application and integration of many different approaches, from molecules to behavior. Includes statistics, experimental design, and philosophy of science with a mixture of discussion and hands-on training. Neuroscience 337 (Topic: Rigor in Neuroscience) and 137, 237, 337, 437 (Topic 6) may not both be counted.

Introduction to quantitative approaches central to the study of the brain, with an emphasis on mathematical and statistical methods required for the rigorous design and interpretation of neuroscience experiments and data. Intended for neuroscience majors and those considering neuroscience as a major. Three lecture hours a week for one semester. Prerequisite: Neuroscience 330 with a grade of at least C-

NEU 361T. Comparative Animal Physiology.  
Examine the physiology of organ systems in animal phyla, with special emphasis on the neural and behavioral adaptations of organisms to their environment. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Biology 361T, Neuroscience 361T, 337 (Topic: Comparative Animal Physiology). Prerequisite: Biology 325 or 325H with a grade of at least C-

Introduction to the basic principles of pharmacology; including how drugs get into the body, exert their actions, and are metabolized and excreted. Three lecture hours a week for one semester. Prerequisite: Neuroscience 335 with a grade of at least C-

NEU 365L. Neurobiology Laboratory.  
An introduction to physiological, morphological, and molecular techniques used for analysis of the nervous system. Experiments and computer simulations illustrate basics of information processing by the nervous system. Four laboratory hours and one discussion hour a week for one semester. Prerequisite: A grade of at least C- in Neuroscience 335 and Physics 303L, 316, or 317L.

NEU 365N. Nerve Regeneration in Invertebrates and Vertebrates.  
Explore degeneration and regeneration in nervous systems following traumatic injury in the context of invertebrate versus vertebrate, peripheral nervous system versus central nervous system, axonal versus cell body, and the role of glia versus neurons. Three lecture hours a week for one semester. Neuroscience 337 (Topic 2) and 365N may not both be counted. Prerequisite: Neuroscience 335 with a grade of at least C-.
NEU 365P. Programming and Data Analysis for Modern Neuroscience.
Explore the basics of programming, statistics, and machine learning, and apply these techniques to the analysis of data from neuroscience experiments. Three lecture hours a week for one semester. Neuroscience 337 (Topic 4) and 365P may not both be counted. Prerequisite: Neuroscience 335 with a grade of at least C-

NEU 365T. Neurobiology of Disease.
The neurobiological basis of disorders of the brain, with the main focus on mental illness. Emphasizes the neural circuitries and neurochemical events that underlie specific mental processes and behaviors. Three lecture hours a week for one semester. Prerequisite: Neuroscience 335 with a grade of at least C-

NEU 365V. From the Eye to the Brain.
Explore the physiology of the visual pathway and its relationship to visual perception. Examine the prospects for prevention of blinding eye diseases and the adaptations of primate vision for survival in natural environments. Three lecture hours a week for one semester. Neuroscience 337 (Topic 1) and Neuroscience 365V may not both be counted. Prerequisite: Neuroscience 335 with a grade of at least C-

NEU 365W. Neurobiology of Addiction.
Study of the neurobiology of neurotransmitters, and the influence of alcohol and drugs of abuse on neurotransmitters. Three lecture hours a week for one semester. Prerequisite: Neuroscience 335 with a grade of at least C-

NEU 366C. Ion Channels and the Molecular Physiology of Neuronal Signaling.
Explores the role of molecular conformational changes in higher-level neuronal function and sensory transduction, including the generation and regulation of diverse types of neuronal signaling characteristics. Emphasizes a quantitative approach and the use of models to study function. Three lecture hours a week for one semester. Prerequisite: A grade of at least C- in Neuroscience 335 and Physics 303L, 316, or 317L.

NEU 366D. Synaptic Physiology and Plasticity.
Detailed study of the physiology of synaptic transmission in the mammalian central nervous system. Covers dendritic integration and various forms and mechanisms of synaptic plasticity. Three lecture hours a week for one semester. Prerequisite: A grade of at least C- in Neuroscience 335 and Physics 303L, 316, or 317L.

NEU 366E. Visual Neuroscience.
Physiology of the visual pathway and its relationship to visual perception; prospects for prevention of blinding eye diseases; adaptations of primate vision for survival in natural environments. Laboratory experiments illustrate basic mechanisms by having students measure their own visual and sensorimotor function. One and one-half lecture hours and three laboratory hours a week for one semester. Neuroscience 366E and 366P may not both be counted. Prerequisite: Statistics and Data Sciences 328M with a grade of at least C- and Biomedical Engineering 365R or Neuroscience 335 with a grade of at least C-

NEU 366F. Foundations of Human Neuroimaging.
Survey of methods for neuroimaging research. Describes the physics of MRI image acquisition, the physiology of neural responses, and the design and analysis of MRI studies. Three lecture hours a week for one semester. Prerequisite: Neuroscience 335 with a grade of at least C-

NEU 367S. Analytical Skepticism.
Examine basic principles that allow accurate interpretation of scientific data, with an emphasis on neuroscience data. Three lecture hours a week for one semester. Neuroscience 337 (Topic 5) and 367S may not both be counted. Prerequisite: Neuroscience 335 with a grade of at least C-.
NEU 367V. Evolutionary Neurobiology.
Examination of the nervous system in an evolutionary context. Three
lecture hours a week for one semester. Prerequisite: Biology 325 or 325H
and Neuroscience 335 with a grade of at least C-.

NEU 367W. Laboratory in Behavioral Neuroscience.
Behavioral experiments with rodents aimed at elucidating the neural
mechanisms of psychological processes such as memory, anxiety, and
incentive motivation. One lecture hour and five laboratory hours a week
for one semester. Biology 367W and Neuroscience 367W may not both
be counted. Prerequisite: Neuroscience 335 with a grade of at least C-.

NEU 170C, 270C. Topics in Neuroscience.
Supervised study of selected topics in Neuroscience, by individual
arrangement with the instructor. For each semester hour of credit earned,
ethe equivalent of one lecture hour a week for one semester. May be
repeated for credit when the topics vary. Prerequisite: Neuroscience 335
with a grade of at least C-.

NEU 371M. Comparative Neuroscience.
The nervous system, with emphasis on vertebrate neurobiology. Three
lecture hours and one discussion hour a week for one semester. Only one
of the following may be counted: Biology 371M, Neuroscience 330, 365R,
371M. Prerequisite: Neuroscience 335 with a grade of at least C-.

NEU 177, 277, 377, 477. Undergraduate Research.
Laboratory or research in the various fields of neuroscience under the
supervision of one or more faculty members. Supervised individual
research. Up to three semester hours may be counted toward the
major requirement for the Bachelor of Science in Neuroscience. May be
repeated for credit. Prerequisite: Neuroscience 335 with a grade of at least C-.

Restricted to students in the honors program in neuroscience. Original
laboratory research project under the direction of a faculty mentor
leading to a thesis or research presentation. For each semester hour of
credit earned, one lecture hour a week for one semester. May be repeated
for credit, but no more than six hours may be counted toward a degree in
neuroscience. Prerequisite: Consent of student's research supervisor and
the departmental honors adviser.

Graduate Courses

NEU 380C. Computational Neuroscience.
Introduction to computational neuroscience. Examines neural network
and learning theory, coding, dynamics, memory, computation and
learning in recurrent and feed forward neural circuits. Three lecture hours
a week for one semester. Only one of the following may be counted:
Electrical Engineering 385V (Topic: Computational Neuroscience),
Neuroscience 380C, 385L (Topic: Computational Neuroscience).
Prerequisite: Graduate standing, some differential equations and linear
algebra, and consent of instructor.

NEU 380E. Vision Systems.
Introduction to the anatomy, physiology, and psychophysics of human
vision from an information-processing and computational perspective.
Three lecture hours a week for one semester. Only one of the following
may be counted: Neuroscience 380E, 382V, Psychology 380E, 382V.
Prerequisite: Graduate standing and consent of instructor.

NEU 380M. Dual MD/PhD Program with UT Medical Branch.
Preclinical medical study at the University of Texas Medical Branch
at Galveston. May not be taken concurrently with another course at
the University of Texas at Austin. Prerequisite: Graduate standing and
admission to the MD/PhD dual degree program in neuroscience.

NEU 380U. Brain, Behavior, and Evolution.
Same as Biology 380U. Integrative approaches to the study of brain
and behavior within an evolutionary and comparative framework.
Specifically, the integration of neuroscience, organismal behavior and
physiology, behavioral ecology, evolutionary development, experimental
evolution, molecular biology, genetics, genomics, systems biology,
and bioinformatics. Three lecture hours a week for one semester.
Only one of the following may be counted: Biology 380U, 384K (Topic:
Brain, Behavior, and Evolution), Neuroscience 380U, 385L (Topic: Brain,
Behavior, and Evolution). Prerequisite: Graduate standing, and consent of
instructor and the graduate adviser.

NEU 380V. Biological Foundations of Decision Making.
Same as Biology 380V. Explores the mechanisms biological organisms
use to make decisions and how these mechanisms evolved. Defines a
conceptual framework for decision making that can be applied across
levels of biological organization. Surveys current research on how
animals make decisions using genetic, neurobiological, and evolutionary
approaches. Three lecture hours a week for one semester. Only one of
the following may be counted: Biology 380V, 384K (Topic: Biological
Foundations of Decision Making), Neuroscience 380V, 385L (Topic:
Biological Foundations of Decision Making). Prerequisite: Graduate
standing.

NEU 381G. Grant Writing in the Behavioral and Biological Sciences.
Same as Psychology 381G. Introduction to grant writing in the behavioral
and biological sciences and development of grant writing skills. Subjects
include: finding grant opportunities, planning proposal activities,
successful grant writing strategies, and how to talk to grant program
officers. Write grant proposals (e.g., proposals to federal agencies
such as NSF or NIH) and revise proposals based on peer and instructor
feedback. Explore how grant proposals are reviewed by participating in a
mock review session. Three lecture hours a week for one semester. Only
one of the following may be counted: Neuroscience 381G, 394P (Topic:
Grant Writing in the Behavioral and Biological Sciences), Psychology
381G, 394U (Topic: Grant Writing in the Behavioral and Biological
Sciences). Prerequisite: Graduate standing and consent of instructor.

NEU 381N. Basic Processes of Nerve Cells.
Same as Biology 381N. Degeneration and regeneration in nervous
systems following traumatic injury; invertebrate versus vertebrate,
peripheral nervous system versus central nervous system, axonal versus
cell body, role of glia versus neurons. Three lecture hours a week for one
semester. Only one of the following may be counted: Biology 381K (Topic
10), 381N, Neuroscience 381N, 385L (Topic 1). Prerequisite: Graduate
standing.

NEU 381V. Mechanisms of Vision.
Physiology of the eye, the retina, and the visual pathways. Prospects
for nutritional prevention of blinding eye diseases. Functional and
ecological adaptations of primate and nonprimate vision. Three lecture
hours a week for one semester. Only one of the following may be
Prerequisite: Graduate standing and consent of instructor.

NEU 382E. Epigenetics.
Same as Biology 382E. Study of how epigenetic modifications are
cova lent modifications of DNA or histones that cause changes in
gene expression and how epigenetic modifications appear to be a
method through which nurture or the environment can influence nature.
Emphasis on how experience or environmental factors epigenetically
modify health or behavior of animals. Three lecture hours a week for one semester. Only one of the following may be counted: Biology 381K (Topic: Epigenetics), 382E, Neuroscience 382E. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

**NEU 182T, 282T, 382T, 482T. Principles of Neuroscience I.**

Examines the core material on essential topics in molecular and cellular neuroscience, together with review and discussion of important early studies and contemporary literature. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Prerequisite: Graduate standing and consent of instructor.

**NEU 382V. Neural and Computational Basis of Vision.**

Same as Psychology 382V. Introduction to the physiology, psychophysics and computational aspects of the visual system. Review linear systems analysis, information theory, Bayesian statistical decision theory, and other relevant mathematical areas. Three lecture hours a week for one semester. Only one of the following may be counted: Neuroscience 380E, 382V, Psychology 380E, 382V. Prerequisite: Graduate standing and consent of instructor.

**NEU 383C. Functional Neuroanatomy.**

An examination of the anatomy of the brain and spinal cord, emphasizing connections and functions of neural systems. Three lecture hours a week for one semester. Neuroscience 383C and Psychology 383C may not both be counted. Prerequisite: Graduate standing and consent of instructor.

**NEU 383D. Neuropharmacology.**

An advanced survey of neurotransmitters and systems in the brain. Emphasis is on pharmacological analysis at the molecular level to determine mechanisms of action of drugs that act on the brain. Three lecture hours a week for one semester. Neuroscience 383D and Pharmacy Graduate Studies 383D may not both be counted. Prerequisite: Graduate standing and consent of instructor.

**NEU 383E. Neuropharmacology II.**

Same as Pharmacy Graduate Studies 383E. Explore neuropharmacological concepts related to brain development, organization and anatomy; neuroendocrinology, neuroimmunology and neuroinflammation; gut-brain axis; neurobiology of addiction; and others. Three lecture hours a week for one semester. Only one of the following may be counted: Neuroscience 383E, 385L (Topic: Neuropharmacology II), Pharmacy Graduate Studies 383E. Prerequisite: Graduate standing and consent of instructor.

**NEU 383M. Data Analysis and Statistics for the Neurosciences.**

Statistical applications relevant to areas of research in neuroscience. Three lecture hours a week for one semester. Prerequisite: Graduate standing, an undergraduate statistics course, and consent of instructor.

**NEU 183T, 283T, 383T, 483T. Principles of Neuroscience II.**

Examines the core material on essential subjects in systems and behavioral neuroscience, together with review and discussion of important early studies and contemporary literature. For every hour of credit earned, the equivalent of one lecture hour a week for one semester. Neuroscience 383T and Psychology 383T may not both be counted. Prerequisite: Graduate standing and consent of instructor.

**NEU 384C. Bootstrap Statistics.**

Same as Psychology 384C. An introduction to modern methods of statistical analysis based on numerical computer simulation. Covers a range of common data analysis situations drawn mainly from the fields of neuroscience and experimental psychology. Techniques include point estimation, two-group and multiple group experiments, regression and curve fitting, and Bayesian analysis. Three lecture hours a week for one semester. Only one of the following may be counted: Neuroscience 384C, 385L (Topic: Bootstrap Statistics), Psychology 384C, 394U (Topic: Bootstrap Statistics). Prerequisite: Graduate standing, an undergraduate statistics course, and consent of instructor.

**NEU 384M. Advanced Statistics: Inferential.**

Same as Psychology 384M. Covers t-test, chi-square, analysis of variance, and nonparametric tests. Three lecture hours a week for one semester. Prerequisite: Graduate standing, an undergraduate statistics course, and consent of instructor.

**NEU 185D. Responsible Conduct of Science.**

Ethical considerations in the conduct of science, including issues of animal welfare, data analysis, fraud, publications, misconduct, intellectual property, grants, peer review, and mentor responsibility. One lecture hour a week for one semester. Neuroscience 185D and Pharmacy Graduate Studies 185D may not both be counted. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

**NEU 185L, 285L, 385L, 485L. Topics in Neuroscience.**

For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Additional laboratory hours may vary with the topic. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; twelve semester hours of upper-division coursework in biology; and consent of instructor.

**Topic 3: Addiction Biology.** Current research in addiction biology. Students present individual research papers and reports. Three lecture hours a week for one semester. Biology 381K (Topic 8) and Neuroscience 385L (Topic 3) may not both be counted.

**Topic 5: Behavioral Neuroendocrinology.** Current research in neuroendocrinology, including action of neuroendocrine systems on behavior, assays of substances in the blood to identify gene products, and examination of stress from neuroendocrine, behavioral, health, and immunity perspectives. Three lecture hours a week for one semester. Only one of the following may be counted: Neuroscience 385L (Topic 5), 394P (Topic: Behavioral Neuroendocrinology), Psychology 394P (Topic 17), 394P (Topic: Behavioral Neuroendocrinology).

**Topic 6: Foundations of Human Neuroimaging.** A survey of the foundations for neuroimaging research with a focus on cognitive neuroscience. Describes the physical methods of image acquisition and physiological mechanisms used for functional imaging. Emphasis on magnetic resonance methods for structural and functional imaging. Surveys other imaging modalities, including positron emission tomography (PET), optical, and EEG/MEG electrical source localization. Only one of the following may be counted: Biology 381K (Topic: Foundations of Neuroimaging), Neuroscience 385L (Topic 6), 394P (Topic: Foundations of Magnetic Resonance Imaging Research), Psychology 394P (Topic: Foundations of Magnetic Resonance Imaging Research), 394P (Topic 13).

**Topic 7: Topics in Vision and Hearing.** Current research in human vision and hearing. Three lecture hours a week for one semester. Neuroscience 385L (Topic 7) and Psychology 394U (Topic 8) may not both be counted.

**Topic 8: Ion Channels and Neuronal Signaling.** Molecular properties of ion channels and the mechanisms of electrical signaling in neurons and other excitable cells. Three lecture hours a week for one semester.

**Topic 9: Synaptic Physiology and Plasticity in the Central Nervous System.** Detailed background in the physiology and plasticity of...
synaptic transmission in the mammalian central nervous system. Three lecture hours a week for one semester.

**Topic 12: Quantifying Brain Structure.** Concepts and hands-on applications for quantifying aspects of brain and cellular structure, with a focus on stereological approaches. Three lecture hours a week for one semester. Only one of the following may be counted: Neuroscience 385L (Topic 12), 394P (Topic: Quantitative Methods for Brain Structure), Psychology 394P (Topic 16: Quantifying Brain Structure), 394P (Topic: Quantitative Methods for Brain Structure).

**Topic 13: Neurobiology of Disease.** Examines the neurobiological basis of disorders of the brain, with a focus on mental illness. Emphasis on the neural circuitries and neurochemical events that underlie specific mental processes and behaviors. Neuroscience 385L (Topic: Neurobiology of Disease) and Neuroscience 385L (Topic 13) may not both be counted.

**NEU 385P. Programming and Data Analysis for Modern Neuroscience.**

Explore the basics of programming, statistics, and machine learning, and apply these techniques to the analysis of data from neuroscience experiments. Three lecture hours a week for one semester. Neuroscience 385P and 385L (Topic: Prgm/Data Anlys Modern Neu) may not both be counted. Prerequisite: Graduate standing and consent of instructor.

**NEU 386D. Multivariate Pattern Analysis.**

Same as Psychology 386D. Explores cutting-edge techniques for finding meaningful patterns in large, noisy brain data sets, and how to use these techniques to address a variety of questions in cognitive neuroscience. Three lecture hours a week for one semester. Only one of the following may be counted: Neuroscience 386D, 394P (Topic: fMRI Brain Decoding), Psychology 386D, 387D. Prerequisite: Graduate standing and consent of instructor.

**NEU 386G, 486G. Functional and Synaptic Neuroanatomy.**

Neuroanatomy and functional connectivity as a basis for brain function and behavior examined from gross structure, cytology and nanoscale synaptic connectivity. Subjects includes somatosensory, motor, visual, auditory, olfactory, taste, limbic, vestibular, hypothalamus, and other systems in addition to the synaptic basis of learning and memory, fear, sleep, stress, and synaptic changes during development, aging, mental retardation, and neurological diseases. Laboratory projects include three-dimensional reconstructions from serial section electron microscopy. For Neuroscience 386G, two lecture hours and one and one half laboratory hours a week for one semester; for Neuroscience 486G, three lecture hours and one and one half laboratory hours a week for one semester. Only one of the following may be counted: Neuroscience 385L (Topic 10), 386G, 486G. Prerequisite: Graduate standing and principles of neuroscience, vertebrate physiology, or other introductory neuroscience course; or consent of instructor.

**NEU 288M. Fundamentals of Fluorescence Microscopy.**

Same as Pharmacy Graduate Studies 288M. Explores optics, image formation, functioning of epifluorescent and confocal microscopes, detector technology (cameras and photomultiplier tubes), immunofluorescence techniques, image analyses, and image presentation for publication. Study of the technology and science behind widely-used high-end microscope systems. One lecture hours and two lab hours a week for one semester Only one of the following may be counted: Neuroscience 285L (Topic: Fndmntls of Flurscnc Mircscopy), 288M, Pharmacy Graduate Studies 288K (Topic: Fndmntls of Flurscnc Mircscopy), 288M. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

**NEU 190, 290, 390. Research.**

The equivalent of one, two, or three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and fifteen semester hours of coursework in neuroscience; students must contact the Neuroscience Graduate Studies Office before registering.

**NEU 191. Graduate Seminar in Neuroscience.**

Presentations and discussions of research topics in neuroscience. One lecture hour a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

**NEU 391N. Learning and Memory.**

Same as Psychology 391N. Presentation of contemporary approaches to the study of conditioning and learning at the behavioral level. Focuses on empirical data and theoretical analysis of acquisition and performance in Pavlovian and instrumental conditioning. Includes discussion of habituation, sensitization, stimulus control, and other paradigms for studying cognitive processes in nonverbal organisms. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

**NEU 394I. Neuroinflammation in Health and Pathology.**

Same as Psychology 394I. Assess cutting-edge pre-clinical and clinical neuroimmune research, and interact with professors from across campus in special seminars. Three lecture hours a week for one semester. Only one of the following may be counted: Neuroscience 394I, 394P (Topic: Neuroinflammation in Hlth/Path), Psychology 394I, 394P (Topic: Neuroinflammation in Hlth/Path). Prerequisite: Graduate standing and consent of instructor.

**NEU 394N. Neural Networks.**

Same as Computer Science 394N. Biological information processing; architectures and algorithms for supervised learning, self-organization, reinforcement learning, and neuro-evolution; theoretical analysis; hardware implementations and simulators; applications in engineering, artificial intelligence, and cognitive science. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 394N, Neuroscience 394N, 394P (Topic: Neural Networks). Prerequisite: Graduate standing.

**NEU 394P. Seminars in Neuroscience.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**Topic 1: Current Topics in Behavioral Neuroscience.** Brain-behavior relationships, particularly recent research in behavioral neuroscience, including the anatomical and neurochemical mechanisms of behavioral events, and behavioral influences on the brain. Neuroscience 394P (Topic 1) and Psychology 394P (Topic 1) may not both be counted.

**Topic 3: Neurobiology of Learning and Memory.** Neuroanatomical systems that are functionally related to basic forms of learning and memory in mammals. Neuroscience 394P (Topic 3) and Psychology 394P (Topic 3) may not both be counted.

**Topic 4: Advanced Topics in Neuroanatomy.** Neuroanatomical systems and function across species. Basic forms of neuroanatomy in mammals. Neuroscience 394P (Topic 4) and Psychology 394P (Topic 4) may not both be counted.

Upper-Division Courses

NOR 327. Advanced Norwegian I.
Norwegian language and culture with a focus on the skills of speaking, comprehension, reading, and writing Norwegian. Three lecture hours a week for one semester. Norwegian 327 and Scandinavian 369 (Topic: Advanced Norwegian Language and Culture I) may not both be counted. Prerequisite: Norwegian 612 with a grade of at least C.

NOR 328. Advanced Norwegian II.
Continuation of Norwegian 327. Further study of Norwegian reading, writing, speaking, and aural comprehension. Readings include contemporary journalism, fiction, and other texts that promote the understanding of a modern Scandinavian society. Three lecture hours a week for one semester. Norwegian 328 and Scandinavian 369 (Topic: Advanced Norwegian Language and Culture II) may not both be counted. Prerequisite: Norwegian 327 with a grade of at least C.

Topics in Norwegian.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Germanic Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

NOR 130D. Norwegian across Disciplines.
Read and discuss Norwegian language materials related to the subject matter of another designated course. One lecture hour per week for one semester. May be repeated for credit. Prerequisite: Three semester hours of upper-division coursework in Norwegian with a grade of at least C.

NOR 379. Conference Course in Norwegian Language or Literature.
Supervised individual study of selected problems in Norwegian language or literature. Conference course. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

May be repeated for credit when the topics vary.

NOR 130D. Norwegian across Disciplines.
Read and discuss Norwegian language materials related to the subject matter of another designated course. One lecture hour per week for one semester. May be repeated for credit. Prerequisite: Three semester hours of upper-division coursework in Norwegian with a grade of at least C.

NOR 379. Conference Course in Norwegian Language or Literature.
Supervised individual study of selected problems in Norwegian language or literature. Conference course. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

Restricted to students in the Texas Interdisciplinary Plan or in the Gateway Program. An examination of fundamental concepts in critical thinking, including the role of intellectual virtues, an analysis of the elements of thought, Socratic thinking, and the application of universal intellectual standards. Three lecture hours a week for one semester, with additional hours to be arranged. Liberal Arts 302 and Natural Sciences 302 may not both be counted. May not be repeated for credit.

NSC 303. Creative Communication of Scientific Research.

Same as Communication 308. Learn to communicate about science, technology, and medicine to broad audiences in order to increase understanding of the impact these fields have on human lives. Three lecture hours a week for one semester. Communication 308 and Natural Sciences 303 may not both be counted.

Explore frameworks, terminology, critical thinking, and empathy tools for engaging in productive conversations around difficult subjects related to diversity, equity, and inclusion (DEI). Examine DEI resources, issues, and challenges across campus. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester.

NSC 207. Diversity, Equity, and Inclusion Capstone.

Use critical, reflective thinking, and effective problem solving to: identify a diversity, equity, and inclusion (DEI) issue on campus or in the community to address and propose a solution or steps toward a solution; develop leadership in the DEI concentration; facilitate debriefs of DEI events and assist with concentration development. Two lecture hours a week for one semester. Prerequisite: Natural Sciences 106 and 110H.

Restrictions vary with the topic. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Offered on the pass/fail basis only. Prerequisite: Varies with the topic.

**Topic 1: Capstone Prospectus Seminar.** Restricted to students enrolled in the Evidence and Inquiry Certificate program or in the Health Science Honors Program. Seminar to prepare students for their capstone project by helping them develop a research prospectus, identify faculty mentors, and develop a target list of journals for publication of a report on their research. For each semester hour of credit earned, one lecture hour a week for one semester. Offered on the pass/fail basis only.

**Topic 2: Evidence and Inquiry Proposal Seminar.** Enrollment restricted to the Evidence and Inquiry Certificate program. Development of compelling, cross-disciplinary, and academically feasible questions of interest outside student's major area of study; design a field of study around those questions; and write a field proposal for faculty review. For each semester hour of credit earned, one lecture hour a week for one semester. Offered on the pass/fail basis only.

NSC 109, 209, 309. Topics in Natural Science.

Restrictions vary with the topic. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 3: Natural Sciences Ethics Seminar.**

**Topic 4: Polymathic Capstone Field Invention.** Restricted to students pursuing the Evidence and Inquiry Certificate. Guidance in developing a feasible interdisciplinary field of study and consulting with faculty who are familiar with the field. Substantive writing instruction to develop a proposal that describes and justifies the interdisciplinary field of study.

**Topic 5: Introduction to Applied Problem Solving.** Restricted to first-year students in the TIP Scholars program. Introduction to applied problem-solving with a focus on critical thinking and ethical reasoning on issues relevant to college students.

**Topic 6: Introduction to Forensic Science.** A multi-disciplinary approach to the field of forensic science. Examine the application of scientific knowledge in legal matters, both criminal and civil as well as the collection, examination, and evaluation of evidence. Explore different fields in forensic science, the educational requirements of each, and real world applications. For each semester hour of credit earned, one lecture hour a week for one semester.

NSC 209P. Topics in Calculus for Emerging Scholars.

Restricted to students in the Texas Interdisciplinary Plan Scholars Program. A workshop focusing on ideas more than computation and procedures, where students work in small groups on sets of problems designed to encourage advanced thinking about calculus. Three lecture hours a week for one semester. Mathematics 210T (Topic: Topics for Emerging Scholars) and Natural Sciences 209P may not both be counted. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Concurrent enrollment in an approved calculus course.

NSC 110E. Internship in the Sciences.

Restricted to students in the College of Natural Sciences. Practical work experience related to the student's area of interest in natural sciences. Internships may be on or off campus, paid or unpaid, and may include work with nonprofit agencies, government offices, or private corporations. Students work in a professional environment and apply analysis, communication, and other academic skills to practical work. Individual instruction conducted on the Web. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Completion of fifteen semester hours of coursework and consent of instructor.

NSC 110H. Topics in Natural Sciences Honors Seminar.

Restricted to students in honors programs in the College of Natural Sciences. Emphasis on student participation. Format may include student speakers, outside speakers, discussions, visits to laboratories, or other enrichment activities. The equivalent of one lecture hour a week for one semester. May be repeated for credit when the topics vary. Offered on the pass/fail basis only.

**Topic 1: Dean's Scholars First-Year Seminar.** Restricted to students in the Dean's Scholars Program. The equivalent of one lecture hour a week for one semester. Offered on the pass/fail basis only.

**Topic 2: Health Science Scholars First-Year Seminar.** Restricted to students in the Health Science Scholars Program. The equivalent of one lecture hour a week for one semester. Offered on the pass/fail basis only.

**Topic 3: Polymathic Scholars First-Year Seminar.** Restricted to students in the Polymathic Scholars Program. The equivalent of one lecture hour a week for one semester. Offered on the pass/fail basis only.

NSC 311. Critical Reasoning.

Restricted to students in the Texas Interdisciplinary Plan program. An examination of the fundamental concepts in critical reasoning, including the analysis of argument, application of intellectual standards, and the role of intellectual virtues. Three lecture hours a week for one semester, with additional hours to be arranged.
NSC 115. Women in Natural Sciences Seminar.
The work and lives of women scientists in a sociocultural context. One lecture hour a week for one semester.

Restricted to freshmen and sophomores. Lectures and discussions on various contemporary issues. Emphasis on multidisciplinary perspectives and critical discourse. For 118C, two lecture hours a week for eight weeks; for 218C, two lecture hours a week for one semester; for 318C, three lecture hours a week for one semester, or two lecture hours and one hour of supervised research a week for one semester. May be repeated for credit when the topics vary.

Restricted to students participating in a May Term Education Abroad program. Discussion of various issues related to the academic, cultural, and personal aspects of completing academic work in international locations. For each semester hour of credit earned, one lecture hour a week for one semester. Natural Sciences 119, 219, 319, 419, 519, 619 and Undergraduate Studies 119 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Varies with the topic.

To record credit earned while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad advisor in the College of Natural Science. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studied program. May be repeated for credit when the topics vary.

Upper-Division Courses
NSC 120E. Internship in the Sciences.
Restricted to students in the College of Natural Sciences. Practical work experience related to the student’s area of interest in Natural Sciences. Internships may be on or off campus, paid or unpaid, and may include work with nonprofit agencies, government offices, or private corporations. Students work in a professional environment and apply analysis, communication, and other academic skills to practical work. Individual instruction conducted on the Web. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Upper-division standing and consent of instructor.

NSC 321. Introduction to Peer Mentoring and Leadership.
Restricted to students in the College of Natural Sciences. Explores current theory and research related to peer mentoring and leadership within higher education. Includes interactive lectures; and the opportunity for students to identify and work through ethical choices as peer leaders; to study leadership concepts such as conflict resolution, diversity, and group dynamics; to work collaboratively; and to conduct independent research. Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Consent of instructor.

Restrictions vary with the topic. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Offered on the pass/fail basis only. Prerequisite: Upper-division standing; additional prerequisites vary with the topic.

NSC 123, 223, 323, 423, 523, 623, 723, 823, 923. Natural Sciences Topics.
Restrictions vary with the topic. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing; additional prerequisites vary with the topic.

NSC 124, 224, 324, 424, 524, 624, 724, 824, 924. Natural Sciences Topics.
Restrictions vary with the topic. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

NSC 325. Topics in Inventors Program Practicum.
Design, research, prototype, and test a STEM-related product or solution. Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

Restricted to students participating in a May Term Education Abroad program. Discussion of various issues related to the academic, cultural, and personal aspects of completing academic work in international locations. For each semester hour of credit earned, one lecture hour a week for one semester. Natural Sciences 129, 229, 329, 429, 529, 629 and Undergraduate Studies 119 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Varies with the topic.

Used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad advisor in the College of Natural Science. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Directed reading, research, and discussion followed by the writing of a substantial thesis. Three lecture hours a week for one semester. Prerequisite: Natural Sciences 323 with a grade of at least B- and consent of instructor.

Graduate Courses
NSC 088C. Science Communications Seminar.
Same as Communication 088C. Restricted to students in the Moody College of Communication and the College of Natural Sciences. Professional development supplemental to primary studies. Designed to develop skills in the effective communication of scientific concepts. Hours to be arranged. Communication 088C and Natural Sciences 088C may not both be counted. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.
NSC 088D. Science Communications Practicum.
Same as Communication 088D. Restricted to students in the Moody College of Communication and the College of Natural Sciences. Professional development supplemental to primary studies. May be taken concurrently with the Science Communication Seminar. Opportunities to focus on skill development while receiving constructive assessment and evaluation. Hours to be arranged. Communication 088D and Natural Sciences 088D may not both be counted. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

NSC 088E. Professional Ethics and Social Responsibility in Research.
Hours to be arranged. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

NSC 088G. Concentration on Science in Public Policy.
Hours to be arranged. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

NSC 088J. Concentration in Science in Public Policy.
Identify and articulate the relevance of scientific scholarship to public policy. Hours to be arranged. May be repeated for credit. Prerequisite: Graduate standing.

NSC 088L. Introduction to Evidence-Based Teaching.
Designed for graduate students interested in learning to teach science and mathematics effectively in their own courses, rather than as Teaching Assistants. Subjects include defining learning objectives, designing learning tasks, observing classrooms to identify effective teaching strategies, and practice teaching. Intended for graduate students in the College of Natural Sciences. Hours to be arranged. Professional development supplemental to primary studies. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

NSC 088M. Mentoring Undergraduate Researchers.
Aims to develop graduate students' skills in mentoring undergraduates and other junior participants in STEM research. Explores how to define suitable projects, establish appropriate relationships, set expectations, encourage communication, balance guidance with independence, and address diversity and ethical issues in mentoring. Hours to be arranged. Professional development supplemental to primary studies. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

NSC 088P. Leading People and Organizations.
Restricted to students in the College of Natural Sciences. Professional development supplemental to primary studies. Designed for graduate students in STEM disciplines. Explores the knowledge and skills necessary for scientists to manage and lead effectively within organizations. Hours to be arranged. Prerequisite: Graduate standing.

NSC 088S. Strategic Management.
Restricted to students in the College of Natural Sciences. Professional development supplemental to primary studies. Designed to help students develop general management skills such as managing change strategically, implementing strategy, and addressing long-term health of an organization. Hours to be arranged. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

NSC 088T. Mentored Teaching.
Designed for graduate students who have completed NSC-088L, Introduction to Evidence-Based Teaching, or its equivalent. Each student will design, teach, and conduct assessment of an instructional unit (~3 hours of class time) in an undergraduate CNS course, working in collaboration with the faculty member acting as instructor of record. Intended for graduate students in the College of Natural Sciences. Hours to be arranged. Professional development supplemental to primary studies. May be repeated with consent of instructor. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

NSC 088V. STEM Professional Development.
Hours to be arranged. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

NSC 089D. Investigating Career Options for STEM Advanced Degrees.
Hours to be arranged. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

Professional Courses
NSC 180, 280, 380, 480, 580, 680. Topics in Research for Independent Study.
Produce group and individual projects in research design, research methodologies, and research execution. Practice in a professional position under supervision. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

NTR - Nutrition

Nutrition: NTR

Lower-Division Courses
Essential food components and their functions in life processes. Three lecture hours a week for one semester. Only one of the following may be counted: Nutrition 306, 312, 312H. Nutrition 306 may not be counted toward a nutritional sciences degree.

NTR 307. Introductory Food Science.
Application of the principles of food chemistry to processing and preparation techniques. Three lecture hours a week for one semester. Prerequisite: For nutrition majors: Nutrition 312 or 312H with a grade of at least C-; and credit or registration for 107L; for others: Nutrition 306, 312, or 312H with a grade of at least C-.

NTR 107L. Introductory Food Science Laboratory.
Three laboratory hours a week for one semester. Prerequisite: Credit or registration for Nutrition 307.

NTR 312. Introduction to Nutritional Sciences.
Biochemical, physiological, and cellular functions of energy macronutrients, vitamins and minerals, and the scientific basis for current dietary and nutrient recommendations. Designed for science majors. Three lecture hours a week for one semester. Only one of the following may be counted: Nutrition 306, 312, 312H. Prerequisite: Chemistry 301 with a grade of at least C-; Statistics and Data Science 302, 302F, or 320E with a grade of at least C-; and credit or registration for Biology 311C and Chemistry 302.

NTR 312H. Introduction to Nutritional Sciences: Honors.
Restricted to honors eligible majors in nutritional sciences, biology, biochemistry, and students in the Dean's Scholars Honors Program. Biochemical, molecular, and cellular functions of nutrients with emphasis on primary scientific literature and current methodology. Three lecture hours a week for one semester. Only one of the following may be counted: Nutrition 306, 311, 312, 312H. Prerequisite: The following...
coursework with a grade of at least C- in each: Chemistry 301; and Mathematics 408C or 408N, or the equivalent; and credit or registration for Biology 311C or 315H, and Chemistry 302.

NTR 112L. Introduction to Nutritional Science Laboratory.
Collection and evaluation of dietary intake data, nutrient composition of food, and survey of dietetic practice. Three laboratory hours a week for one semester. Prerequisite: Chemistry 301 with a grade of at least C; credit or registration for Biology 311C, Chemistry 302, and Nutrition 312; and one of the following with a grade of at least C: Mathematics 408C, 408D, 408N, Statistics and Data Sciences 302, 304, 306, 325H, 328M.

NTR 312R. Research in Nutritional Sciences.
Restricted to honors eligible majors in nutritional sciences, biology, biochemistry, and students in the Dean’s Scholars Honors Program. Introduction to biochemical and molecular biological techniques, enzyme and coenzyme assays, dietary analysis and assessment protocols, and statistical methods in nutritional sciences. Preparation of a scholarly paper and oral presentation of research findings. One lecture hour and six laboratory hours a week for one semester. Nutrition 112L and 312R may not both be counted. Prerequisite: The following coursework with a grade of at least C- in each: Chemistry 301; and Mathematics 408C or 408N, or the equivalent; and credit or registration for Biology 311C or 315H, Chemistry 302, and Nutrition 312H.

NTR 315. Nutrition through the Life Cycle.
Adapting nutrition recommendations to physiological changes throughout the life span. Three lecture hours a week for one semester. Prerequisite: Nutrition 306, 312, or 312H with a grade of at least C-.

NTR 316. Culture and Food.
Influence of culture on foodways around the world. Three lecture hours a week for one semester. Prerequisite: Nutrition 306, 312, or 312H with a grade of at least C-.

NTR 317L. Introduction to Nutrition Assessment and Education.
Explore the fundamentals of nutrition assessment, nutrition education, and behavior change theories as well as their application to the care of individuals and groups in community and clinical settings. Analyze the use of anthropometric, biochemical, clinical, and dietary intake data assessments for effective care of individuals. Identify strategies for successful development and implementation of nutrition education planning using behavior change theory as the guide for development. Two lecture hours and four laboratory hours a week for one semester. Prerequisite: Nutrition 312 with at least a grade of C-.

NTR 218. Assessment of Nutritional Status.
Assessment of nutritional status using anthropometric, biochemical, clinical, and dietary intake data, and development and implementation of effective care for individuals. Two lecture hours a week for one semester. Prerequisite: Nutrition 312 with a grade of at least C-; and credit or registration for Nutrition 118L.

NTR 118L. Assessment of Nutritional Status Laboratory.
Three laboratory hours a week for one semester. Prerequisite: Credit or registration for Nutrition 218.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the School of Human Ecology. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

Nutrition-related issues in the developing world, including nutrient deficiency and disease, concerns in vulnerable populations (pregnancy, infancy, childhood, and old age), and food aid. Three lecture hours a week for one semester. Prerequisite: Nutrition 306, 312, or 312H with a grade of at least C-.

NTR 324. Advanced Food Science.
Application of the principles of food chemistry to the development of food products. Three lecture hours a week for one semester. Offered in the spring semester only. Prerequisite: Chemistry 320M, Nutrition 307, 107L, and 326 with a grade of at least C- in each; and credit or registration for Nutrition 124L.

NTR 124L. Advanced Food Science Laboratory.
Individual research project on food product development and evaluation. Three laboratory hours a week for one semester. Offered in the spring semester only. Prerequisite: Credit or registration for Nutrition 324.

NTR 326. Intermediate Nutrition and Metabolism.
Integration of nutrition, genetics, cell biology, and molecular biology. Focuses on the cellular and molecular basis of nutrition-related diseases and nutrient-gene interactions. Three lecture hours and one discussion hour a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each: Biology 311C and Nutrition 312; and credit or registration for Chemistry 320M.

NTR 126L. Nutritional Sciences Laboratory.
Basic laboratory techniques in nutritional sciences. Three laboratory hours a week for one semester. Prerequisite: Credit or registration for Nutrition 326.

NTR 327L. Advanced Food Science Laboratory.
Apply fundamentals of nutrition science, food science, and chemistry to scientific research in creating a novel food product for a chosen target audience. Explore food science, food research and development, fundamentals of nutrition, ingredient functionality, food product sensory evaluation, scientific inquiry, study design, and science communication. Design and execute a scientific study by engineering a unique food product, create scientific abstracts, and create and participate in scientific poster sessions. One lecture hour and five laboratory hours a week for one semester. Prerequisite: Nutrition 307, 107L, 326, and 337 with a grade of at least C-.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the School of Human Ecology. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Application of counseling and learning theories to the care of individuals and groups in community and clinical settings. Three lecture hours and one additional class hour a week for one semester. Prerequisite: Nutrition 315 and 326 with a grade of at least C- in each.
NTR 330L. Advanced Nutrition Assessment and Counseling.
Examine the fundamentals and application of nutrition assessment, nutrition education, counseling, and behavior change theories to the care of individuals and groups in community and clinical settings. Explore the use of nutrition focused physical exam, nutrition care process standardized language, anthropometric, biochemical, clinical, and dietary intake data assessments for effective care of individuals. Identify the implementation of nutrition counseling techniques and communication skills through the understanding of behavior change in individuals. Two lecture hours and four laboratory hours a week for one semester. Prerequisite: Nutrition 317L with a grade of at least C-; credit or registration in Nutrition 315; credit or registration in Nutrition 326

Explores the nutritional concerns of different countries, environmental aspects of food supply, and social policies needed to balance supply with demand in a sustainable manner. Three lecture hours a week for one semester. Nutrition 331 and 360 (Topic: International Nutrition: Social and Environmental Policies) may not both be counted. Prerequisite: Upper-division standing, and Nutrition 306, 312, or 312H with a grade of at least C.

NTR 332. Community Nutrition.
National and international issues in public health and nutrition programs. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each course: Nutrition 312 or 312H; 315; and 326.

NTR 334. Foodservice Systems Management.
Procurement, production, and service delivery in foodservice systems. Three lecture hours a week for one semester. Prerequisite: For nutrition majors: Nutrition 307, 107L, and 326 with a grade of at least C- in each, and credit or registration for Nutrition 234L; for others: Nutrition 307 with a grade of at least C, and one of the following with a grade of at least C: Nutrition 306, 312, or 312H.

NTR 234L. Laboratory in Foodservice Systems.
Six laboratory hours a week for one semester. Prerequisite: Credit or registration for Nutrition 334.

NTR 337. Principles of Epidemiology in Nutritional Sciences.
Introduction the role of epidemiology methods as the basis for selection of study design and data collection tools in nutrition research such as dietary tools, biomarkers of diet or disease, and anthropometric measurements like obesity. Emphasis on interpretation of study results in nutrition research. Three lecture hours per week for one semester. Offered on the letter-grade basis only. Prerequisite: Credit with a grade of at least C- or registration for Nutrition 312H or 326, and one of the following with a grade of at least C-: Statistics and Data Sciences 302 (or Statistics and Scientific Computation 302), 304 (or Statistics and Scientific Computation 304), 306 (or Statistics and Scientific Computation 306), 325H (or Statistics and Scientific Computation 325H), or 328M (or Statistics and Scientific Computation 328M).

NTR 338H. Issues in Nutrition and Health: Honors.
Restricted to honors majors in biology, biochemistry, and nutritional sciences, and students in the Dean's Scholars honors program. Identifying, reading, analyzing, writing, and presenting scientific research on selected subjects in nutrition and human health. Detailed literature review as preparation for an honors research thesis. Three lecture hours a week for one semester. Nutrition 338H and 338W may not both be counted. Prerequisite: Biology 325 or 325H; Nutrition 312H and 312R; one of the following: Statistics and Data Sciences 302, 303, 304, 305, or 325H; and credit or registration for Biology 365S.

NTR 338W. Issues in Nutrition and Health.
Identifying, reading, analyzing, writing, and presenting scientific research on selected topics in nutrition and human health. Three lecture hours a week for one semester. Nutrition 338H and 338W may not both be counted. Prerequisite: Upper-division standing; Nutrition 126L and 326 with a grade of at least C- each; and one of the following with a grade of at least C: Statistics and Data Sciences 302, 302F, or 320E.

NTR 339L. Experimental Methods and Design in Nutritional Sciences.
Explore nutritional sciences methods and research. Examine overall study design, observational and intervention studies, animal and cell-based research in nutritional sciences, nutritional research assessment methods (such as dietary assessment and biomarkers), and research ethics. Practice assessing and interpreting research findings to evaluate scientific research in nutritional sciences and nutritional epidemiology. Three lecture hours a week for one semester. Prerequisite: Nutrition 126L and 326 with a grade of at least C-, and credit or registration for Statistics and Data Sciences 324E.

NTR 342. Advanced Nutritional Sciences.
Biochemical and molecular biological aspects of carbohydrate, fat, and amino acid metabolism. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Upper-division standing; Nutrition 326 and Biology 325 with a grade of at least C- in each; and credit or registration for Biochemistry 369.

NTR 343. Vitamins and Minerals.
Biomedical, cellular and molecular, and clinical aspects of vitamins, minerals, and water. Three lecture hours a week for one semester. Only one of the following may be counted: Nutrition 343, 344, 365 (Topic 1). Prerequisite: Upper-division standing and Nutrition 342 with a grade of at least C-.

NTR 144M. Advanced Nutrition II Laboratory.
Advanced laboratory techniques in nutrition assessment and research. Three laboratory hours a week for one semester. Offered in the spring semester only. Prerequisite: Consent of instructor.

NTR 245C. Clinical Practice in Medical Nutrition Therapy I.
Application of principles of medical nutrition therapy to the care of clients in the practice setting. Nine hours of supervised practice a week for one semester. Prerequisite: Nutrition 370 with a grade of at least C-, credit or registration for Nutrition 371, and admission to the Coordinated Program in Dietetics.

NTR 345M. Clinical Practice in Medical Nutrition Therapy II.
Application of principles of medical nutrition therapy to the care of patients in health care facilities. Forty hours of supervised practice a week for four weeks. Prerequisite: Nutrition 245C and 371 with a grade of at least C- in each. Students must register for Nutrition 372C in the same semester.

NTR 152, 252, 352. Field Experience in Nutrition.
For each semester hour of credit earned, three field placement hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Approval of application for field experience. Applications are available in the department office.

NTR 353. Field Experience in International Nutrition.
Supervised study abroad experience designed to help students understand nutrition science issues, applications, related health care
practices in a global environment, and other cultures. Students work in schools, hospitals, or similar settings to gain professional experience with food science and dietetics. Five lecture hours and ten field hours a week for five weeks. Prerequisite: Nutrition 306, 312, or 312H with a grade of at least C-; and approval of an application to study abroad.

Supervised individual undergraduate research in nutrition. For each semester hour of credit earned, at least three laboratory hours a week for one semester. May be repeated for credit, but no more than four semester hours may be counted toward a degree in nutrition. Any additional hours must be taken on the pass/fail basis. Nutrition 355 and 355H may not both be counted. Prerequisite: Consent of instructor.

NTR 355H. Honors Research.
Restricted to honors eligible majors in nutritional sciences, biology, biochemistry, and students in the Dean's Scholars Honors Program. Research in biological, biochemical, or nutritional science, coordinated with readings of scientific literature, and a written research report for each semester in which credit is sought. Nutrition 355 and 355H may not both be counted. May be repeated for credit, but no more than nine semester hours may be counted toward the major in nutrition. Any additional hours must be taken on the pass/fail basis. Prerequisite: Biology 325 or 325H; Nutrition 312H and 312R; and approval of research supervisor.

NTR 355M. Advanced Food Systems Management.
Financial control, quality assurance, personnel administration, foodservice equipment, layout and design in foodservice operations. Analysis and evaluation of an organized foodservice operation. Three lecture hours and four hours of supervised practice a week for one semester. Prerequisite: Accounting 310F or 311, and Nutrition 334 and 234L, with a grade of at least C- in each.

NTR 360. Selected Topics in Applied Nutrition.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

NTR 162. Standards, Ethics, and Credentialing for Dietetic Practice.
Identification of standards and discussion of current issues in ethics and credentialing for dietetics practice. One lecture hour a week for one semester. Prerequisite: Credit or registration for Nutrition 218 and 118L.

NTR 365. Selected Topics in Nutritional Sciences.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

  Topic 2: Nutrition and Genes. Interactions between nutrients and gene expression, including heredity, gene regulation, metabolic disease, developmental abnormalities, and molecular techniques. Additional prerequisite: Biology 325, 365S, and Nutrition 342, with a grade of at least C- in each.

  Topic 4: Obesity and Metabolic Health. Examines the prevalence, prevention, and treatment of adult and childhood obesity, and the metabolic disorders related to obesity. Prerequisite: Biology 365S, and Nutrition 312 or 312H with a grade of at least C-.

  Topic 5: Principles and Applications in Community Engagement. Implement community engagement activities, such as gardening, cooking, and nutrition lessons within a school or other community environment with the goal of improving nutrition and health. Explore evidence-based nutrition programs, such as fundamental principles of food gardening with an emphasis on central Texas, application of skills in the university teaching garden and school gardens, and application of nutrition curriculum in a school setting. Additional prerequisite: Nutrition 312 and Nutrition 326 with a grade of at least C-.

  Topic 6: Sports Nutrition. Explore the physiology of sports nutrition as well as its practical application such as summarizing physiological adaptations to exercise, and describing energy systems. Examine the role of sport specific body weight, composition measurement, and estimate macronutrient/hydration needs for athletes of different sports. Three lecture hours a week for one week. Nutrition 365 (Topic: Sports Nutrition) and 365 (Topic 6) may not both be counted.

NTR 365L. Experiential Learning in Community Engagement.
Implement hands-on community engagement activities, such as gardening, cooking, and nutrition lessons through the experiential learning laboratory within community/school settings to improve nutrition and health and decrease the incidence of chronic diseases. Apply the fundamental principles of nutrition through activities such as food gardening to planting to maintaining a school garden; work within school cultures/constraints to improve the school nutrition/gardening culture; apply effective communication, classroom management/engagement, and teaching skills in working with the public, community leaders, and administrators; and evaluate nutrition programs in schools. Five laboratory hours a week for one semester. Prerequisite: Nutrition 365 (Topic 5) with a grade of at least C-.

NTR 366L. Research Methods in Nutritional Sciences.
Focuses on state-of-the-art research in nutrition, including biochemistry and molecular biological techniques for nutrient-gene interactions, enzyme and coenzyme functions, and nutrient analysis of biologic materials. Includes data analysis and statistical methods. One lecture hour and six laboratory hours a week for one semester. Prerequisite: Nutrition 126L with a grade of at least C-.

NTR 167. Undergraduate Seminar in Nutritional Sciences.
One lecture hour a week for one semester. Prerequisite: Upper-division standing.

NTR 370. Medical Nutrition Therapy I.
The role of nutrition in prevention and treatment of chronic disease such as diabetes and heart disease. Three lecture hours a week for one semester. Prerequisite: Nutrition 326 with a grade of at least C-; and credit with a grade of at least C- or registration for the following: Biology 365S, Biochemistry 369, and Nutrition 218 and 118L.

NTR 371. Medical Nutrition Therapy II.
Nutritional care of critically ill patients, including techniques of nutrition support. Three lecture hours a week for one semester. Prerequisite: Nutrition 326 with a grade of at least C-; and credit with a grade of at least C- or registration for the following: Biology 365S, Biochemistry 369, and Nutrition 218 and 118L.

NTR 372C. Practicum in Clinical Dietetics.
Supervised practice in health care facilities. Forty hours of supervised practice a week for four weeks. Prerequisite: Admission to the Coordinated Program in Dietetics. Students must register for Nutrition 345M in the same semester.

NTR 372F. Practicum in Food Services Systems Management.
Supervised practice in food service facilities. Forty hours of supervised practice a week for four weeks. Prerequisite: Nutrition 245C and 355M with a grade of at least C- in each, and admission to the Coordinated Program in Dietetics. Students must register for Nutrition 373S in the same semester.
NTR 373S. Practicum in Dietetic Administration.
Supervised practice in the administration of food and nutrition programs. Forty hours of supervised practice a week for three weeks. Prerequisite: Admission to the Coordinated Program in Dietetics. Students must register for Nutrition 372F in the same semester.

NTR 374C. Practicum in Community Dietetics.
Supervised practice in one or more community-based nutrition programs. Forty hours of supervised practice a week for five weeks. Prerequisite: Nutrition 345M, 372C, 372F; and 373S with a grade of at least C- in each; and admission to the Coordinated Program in Dietetics.

NTR 374P. Advanced Practicum in Dietetics.
Culminating experience in the practice of administrative, clinical, or community dietetics. Forty hours of supervised practice a week for five weeks. Prerequisite: Nutrition 345M, 372C, 372F, and 373S with a grade of at least C- in each; and admission to the Coordinated Program in Dietetics.

NTR 379H. Honors Tutorial Course.
Supervised individual research on a special topic in nutrition; oral presentation and preparation of a scholarly paper covering the research. May be based on laboratory, library, or field research. Conference course. May be taken twice for credit. May be repeated for credit. Prerequisite: Consent of the student's research supervisor and the departmental honors adviser.

Graduate Courses

NTR 380K. Research Methods in Nutritional Sciences.
One lecture hour and six laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in nutrition, or graduate standing and consent of instructor.

   Topic 1: Experimental Nutrition.
   Topic 2: Nutritional Immunology.
   Topic 4: Advanced Experimental Design and Statistics. Additional prerequisite: Nutrition 380K (Topic 3) or consent of instructor.
   Topic 5: Carcinogenesis.
   Topic 6: Nutritional Biochemistry.

NTR 390. Recent Advances in Nutritional Sciences.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

   Topic 1: Advances in Nutritional Sciences I. Required of all graduate students in nutrition.
   Topic 2: Carbohydrates and Fiber.
   Topic 3: Lipids.
   Topic 4: Vitamins and Minerals.
   Topic 5: Minerals.
   Topic 6: Molecular Nutritional Sciences.
   Topic 7: Advances in Nutritional Sciences II. Required of all graduate students in nutrition.
   Topic 8: Clinical Nutrition. Additional prerequisite: Nutrition 370 or the equivalent or consent of instructor.
   Topic 10: Geriatric Nutrition and Metabolism. Study of how aging influences nutrient requirements and metabolism at the biochemical and molecular level. Discussion of dietary changes to offset the effects of aging and to improve quality of life.
   Topic 12: Nutritional Immunology. Nutrition 390 (Topic 9) and 390 (Topic 12) may not both be counted.
   Topic 13: Nutrigenomics. Examine the interactions between nutrition and multi-level "omics" (e.g., genome, transcriptome, methylome) as they relate to chronic disease and health. Includes a focus on gene-diet interactions in the context of population genetic variation and the bidirectional molecular interactions that influence gene and protein expression as well as epigenetic modification. Nutrition 390 (Topic 11) and 390 (Topic 13) may not both be counted.
   Topic 14: Theories of Nutrition Behavior. Explore and examine nutrition-related behavior through the application of health behavior theories and models. Includes theories such as the Health Belief Model, Theory of Planned Behavior, Social Cognitive Theory, Diffusion of Innovations, Transtheoretical Model, Social Support, and Social Ecological Model. Investigate theoretical constructs, benefits and limitations of each theory/model, considerations needed for unique populations or behaviors, and how to develop a theory-based program plan. Nutrition 390 (Topic: Theories of Nutrition Behavior) and 390 (Topic 14) may not both be counted.

One lecture hour and six laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

   Topic 2: Nutrient Requirements.
   Topic 4: Nutrition and Immunology.
   Topic 5: Food Sciences.
   Topic 7: Nutrition Education.
   Topic 8: Developmental Nutrition.
   Topic 10: Nutrition and Metabolism.
   Topic 11: Obesity.
   Topic 12: Nutrition as Medicine. Nutrition 392 (Topic 1) and 392 (Topic 12) may not both be counted.
   Topic 13: Nutrition and Disease Prevention. Explore the role of nutrition as a critical preventive measure for both acute and chronic disease. Examine and evaluate the current research supporting the role of nutrition as a preventative therapy. Nutrition 392 (Topic: Nutrition/Disease Prevention) and 392 (Topic 13) may not both be counted.

NTR 194, 294, 394. Graduate Seminar in Nutritional Sciences.
One, two, or three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

   Topic 2: Clinical Nutrition.
   Topic 3: Molecular and Cellular Nutrition.
   Topic 4: Nutrition, Immunology, and Disease.
   Topic 5: Nutrition through the Life Cycle.
   Topic 6: Study Design and Research Methods. Nutrition 194, 294, 394 (Topic 1) and Nutrition 194, 294, 394 (Topic 6) may not both be counted.

NTR 397C, 697C. Conference Course in Nutritional Sciences.
For 397C, one lecture hour and six laboratory hours a week for one semester; for 697C, two lecture hours and twelve laboratory hours a week for one semester. May be repeated for credit. Offered on the credit/
no credit basis only. Prerequisite: Graduate standing and consent of instructor.

NTR 698. Thesis.
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in nutrition and consent of the graduate adviser; for 698B, Nutrition 698A.

NTR 398R. Master’s Report.
Preparation of a report to fulfill the requirement for the master’s degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in nutrition and consent of the supervising professor.

NTR 398T. Supervised Teaching in Nutrition.
Teaching under close supervision; group meetings, individual conferences, and reports. Three lecture hours a week for one semester. Prerequisite: Graduate standing and appointment as a teaching assistant.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses

O M - Operations Management

Operations Management: O M

Lower-Division Courses

Upper-Division Courses

O M 334M. Healthcare Operations Management.
Overview of healthcare operations management. Focus on process diagramming, vocabulary, and analysis of effects of variability on healthcare operations in terms of increasing waiting lines, inventory, and patient safety issues. Focus on modern process improvement methodologies. Three lecture hours a week for one semester. Only one of the following may be counted: Operations Management 334M, 335, 335H, and 337 (Topic: Healthcare Operations). Offered on the letter-grade basis only. Prerequisite: Upper-division standing, and credit or registration for one of the following: Advertising 309R, 344K, Biomedical Engineering 335, Economics 329, Educational Psychology 371, Mathematics 316, 358K, Statistics 301, 301H, 309, 309H, Statistics and Data Sciences 301, 302, 302F, 304, 306, 320E, 320H, 325H, 328M.

Restricted to students in the McCombs School of Business. The operations or production function and the skills required for analyzing and solving related problems. For each semester hour of credit earned, one lecture hour a week for one semester. Only one of the following may be counted: Operations Management 334M, 235, 235H, and 337 (Topic: Healthcare Operations). Offered on the letter-grade basis only. Prerequisite: Credit or registration for Statistics 301, 301H, 309 or 309H.

O M 235H, 335H. Operations Management: Honors.
Restricted to students in the McCombs School of Business Honors Program. An investigation of the operations or production function, and the skills required for analyzing and solving related problems. The equivalent of one lecture hour a week for one semester. Only one of the following may be counted: Operations Management 334M, 235, 235H, and 337 (Topic: Healthcare Operations). Offered on the letter-grade basis only. Prerequisite: Business Administration 324H, Economics 304K and 304L, and Statistics 301, 301H, 309 or 309H.

O M 137, 237, 337. Special Topics in Operations Management.
Restricted to students in a business major. Analysis of contemporary management problems. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Varies with the topic.

Topic 1: Total Quality Management. Offered on the letter-grade basis only. Additional prerequisite: For business majors, Operations Management 334M, 235 or 235H with a grade of at least C-; for others, admission to an appropriate major sequence in engineering.

Topic 4: Information Technology for Supply Chains. Provides an understanding of how information technology is used to coordinate supply chain activities across different industries. Students work in teams and undertake hands-on exercises to learn how to plan and coordinate operations. Management Information Systems 173, 273, 373 (Topic 13) and Operations Management 137, 237, 337 (Topic 4) may not both be counted. Offered on the letter-grade basis only. Additional prerequisite: Management Information Systems 301, 301H, or 302F with a grade of at least C-.

Topic 6: Supply Chain Analytics. Study of dynamic demand forecasting models based on both, data aggregation as well as based on the hierarchical aggregation of point-of-sale predictive analytics. Learn to use the developed predictive dynamic models for operations planning and operations decision making. Only one of the following may be counted: Operations Management 337 (Topic: Supply Chain Analytics), 337 (Topic 6) or Business Analytics 372 (Topic 16). Offered on the letter-grade basis only. Additional prerequisite: Management Information Systems 301, 301H, or 302F with a grade of at least C-.

Topic 7: New Product Development. The integration of supply chain management into the product design and development process. Focuses on skills and knowledge involving product development and incorporating supply chain considerations. Emphasis on designing products that optimize the supply chain while maintaining the products vision from concept to customer. Operations Management 337 (Topic: Product Development) and 137, 237, 337 (Topic 7) may not both be counted. Offered on the letter-grade basis only. Additional prerequisite: Upper-division standing.

Topic 8: Health Care Analytics. Explore key management challenges and how data may be leveraged to guide decisions and improve operations, with the unifying theme of providing health care services in a manner that leads to lower cost and higher quality. Only one of the following may be counted: Management Information Systems 373 (Topic: Healthcare Analytics), 373 (Topic 26), Operations Management 337 (Topic: Healthcare Analytics), 337 (Topic 8), Business Analytics 372 (Topic 17). Offered on the letter-grade basis only.

O M 338. Supply Chain Modeling and Optimization.
Same as Business Analytics 338. Restricted to students in a business major. Framing, formulating, and applying quantitative optimization and descriptive models to support supply chain and operations management decisions, using spreadsheets and other software. Requires familiarity with spreadsheets. Three lecture hours a week for one semester. Only one of the following may be counted: Operations Management 337 (Topic 2), 338, Business Analytics 338. Offered on the letter-grade basis only. Prerequisite: Operations Management 334M, 235, or 235H.
Topics in Operations Management.
This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office or the school's BBA Exchange Programs. Credit is recorded as assigned by the study abroad adviser in the Department of Information, Risk, and Operations Management. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. May be repeated for credit when the topics vary.

O M 360. Procurement and Supplier Management.
Restricted to students in a business major. Explore strategic issues in procurement and supplier management; a review of competitive analysis and benchmarking; the purchasing role in fulfilling a firm's operational and competitive strategies; supplier evaluation, development, and relationship management; negotiating with suppliers for results; and commodity planning. Three lecture hours a week for one semester. Operations Management 337 (Topic 3) and 360 may not both be counted. Prerequisite: Operations Management 334M, 235 or 235H with a grade of at least C-.

Restricted to students in a business major. Students apply skills in their major area and focus on additional project management skills through group projects conducted in a professional setting. Students may work with a private or a public enterprise. The equivalent of three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Completion of at least forty-five semester hours of college coursework, and credit or registration for Operations Management 334M, 235, or 235H.

Restricted to students in a business major. Analyze the entire flow of information, materials, and services from suppliers through factories and warehouses to the end customer. Examine logistics, supplier selection, and inventory management using case studies, optimization, and simulation. Three lecture hours a week for one semester. Operations Management 368 and 370 may not both be counted. Prerequisite: Operations Management 334M or 235 or 235H with a grade of at least C-; and credit or registration for 338.

Same as International Business 375C. Restricted to students in a business major. Discuss the role of supply chain management to increase a firm's competitive performance and understand how that performance affects the economy and society as a whole. Examine supply chain and operations design as well as environmental, social, and governance (ESG) issues. Explore the impact of new business models including e-commerce and automation; contracting; outsourcing and vertical integration, resiliency, and new delivery modalities. Three lecture hours a week for one semester. Only one of the following may be counted: International Business 367, 375C, Operations Management 367, 375. Prerequisite: Operations Management 334M, 235, or 235H with a grade of at least C--; Operations Management 338; and credit or registration for Operations Management 368 or 370.

Graduate Courses
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

**Topic 1: Combinatorial Optimization.** Concepts of computational complexity; the foundation of discrete mathematics and combinatorial theory.

**Topic 2: Linear Programming.** Model formulation: solution algorithms; duality theory; decomposition; sparse matrix issues; sensitivity and parametric analysis; optimization and matrix generation computer software.

**Topic 3: Network Optimization.** Applications, theory, and algorithms of the shortest path, maximum flow, and minimum cost flow problems. Discussion of classic and contemporary aspects of network optimization, including auction algorithms and cost-scaling techniques, to provide an integrated view of theory, algorithms, and applications. Additional prerequisite: Coursework in linear algebra and introductory coursework in operations management.

**Topic 4: Algorithms and Implementations.** Design, analysis, implementation, and use of computer algorithms. Introduction to fundamental data structures, sorting, recursive programs, dynamic data structures, memory management, algorithm design techniques and complexity analysis, and applications in optimization problems. Examples from linear and integer programming, covering, knapsack, graph-theoretic problems, network analysis, and scheduling.

**Topic 5: Business Process Simulation.** Modeling with simulation languages; random number generation; statistical analysis of input and output; variance reduction techniques; computer software applications. Additional prerequisite: Introductory coursework in operations management and statistics.

**Topic 7: Nonlinear Programming.** Optimization of nonlinear functions of many variables subject to linear or nonlinear constraints. Basic theory; solution algorithms, applications, computer software. Additional prerequisite: Coursework in advanced calculus and linear algebra.

**Topic 8: Large-Scale System Optimization.** Formulation and solution of large mathematical optimization models. Focus on algorithms that exploit special structure of linear and nonlinear programming models. Applications. Additional prerequisite: Coursework in advanced calculus and linear programming.

**Topic 9: Stochastic Processes.** Discrete stochastic systems, queuing processes, inventory models, replacement, renewal theory, Markovian processes. Additional prerequisite: Mathematics 362K or the equivalent; completion of calculus and mathematical statistics and probability is recommended.

**Topic 10: Queueing Systems.** Deterministic queues, priorities, random walks, networks, approximations, and applications. Additional prerequisite: Operations Management 380 (Topic 9) or the equivalent.

**Topic 11: Graduate Seminars.** Required for doctoral students in operations management.
Topic 12: Logistics. Tools and concepts for the management of the flow of information, material, product, and cash between the initial suppliers of raw material and the ultimate consumers of finished goods.

Topic 13: Management Planning and Control of Complex Systems. Designed to provide guidance to doctoral students interested in research on new approaches to management planning and control of complex systems, and to MBA students interested in evaluating new practices currently being used in management planning and control activities.

Topic 15: Optimization I. Introduction to operations research and optimization, including linear programming, network models, deterministic dynamic programming, decisions under uncertainty, game theory, inventory models, and simulation. Emphasis on mathematical programming models and algorithmic approach of operations research problems.

Topic 16: Optimization II. Designed to provide students, especially those involved in research, with more advanced optimization tools in several broad areas. Includes nonlinear programming, graph theory, integer programming, Markov chains, probabilistic dynamic programming, queueing theory, and metaheuristics. Emphasis on mathematical programming modeling and algorithmic approach of operations research problems. Additional prerequisite: Operations Management 380 (Topic 15).

Topic 17: Supply Chain Analytics. Supply chain analytics combines analytical tools with technology to identify trends, compare performance and highlight improvement opportunities in supply chain areas including sourcing, inventory management, manufacturing, quality, sales and logistics. Additional prerequisite: Consent of instructor.

O M 184, 284, 384. Topics in Business Analytics. Restricted to students admitted to the Master of Science in Information, Risk, and Operations Management (MSIROM) program. Selected topics in business analytics. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

O M 186, 286, 386. Current Issues in Operations Management. Strategic problems, policies, models, and concepts for the design and control of new or existing operations systems. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 1: Service Management.
Topic 2: Supply Chain and Operations Strategy.
Topic 3: Strategic Quality Management.
Topic 4: Operations Practicum.
Topic 5: Managing Projects.
Topic 6: Decision-Support Modeling. Operations research and modeling to assist in decision making through building data models and operations research software systems. Management Information Systems 383N (Topic: Decision-Support Modeling) and Operations Management 386 (Topic 6) may not both be counted.
Topic 7: Data Driven Health Care Operations. Explore operational challenges arising in outpatient clinics, hospitals, and drug development and production. Examine a combination of business cases and representative data sets. Utilize R as a supporting tool. Operations Management 386 (Topic: Healthcare Analytics) and 386 (Topic 7) may not both be counted.

O M 392. Seminar: Operations Management. Intensive analysis of operations management issues. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Admission to the doctoral degree program and consent of instructor.

Topic 1: Operations Management Colloquium.

Professional Courses
ORI - Operations Research and Industrial Engineering

Operations Research and Industrial Engineering: ORI

Lower-Division Courses
Upper-Division Courses

ORI 366. Operations Research Models. Same as Mechanical Engineering 366L. Formulation and solution-interpretation for operations research models requiring, for example, optimization, simulation, or analysis of Markov chains or queues. Applications include manufacturing design and control, routing and scheduling, plant location, inventory analysis, and management of queueing systems. Three lecture hours a week for one semester. Mechanical Engineering 366L and Operations Research and Industrial Engineering 366 may not both be counted. Prerequisite: For engineering majors, Mathematics 408D or 408M and Mechanical Engineering 318M with a grade of at least C- in each; for non-engineering majors, upper-division standing and written consent of instructor.

ORI 367. Simulation Modeling. Same as Mechanical Engineering 367S. Basic concepts of discrete-event simulation. Statistical input and output analysis. Application of simulation software. Modeling of systems under uncertainty. Three lecture hours a week for one semester. Mechanical Engineering 367S and Operations Research and Industrial Engineering 367 may not both be counted. Prerequisite: For engineering majors, Mechanical Engineering 318M with a grade of at least C-, Mechanical Engineering 335 or the equivalent; for non-engineering majors, upper-division standing and written consent of instructor.

ORI 369. Decision Analysis. Principles and application of techniques for the logical illumination of complex decision problems within any context. Subjects may include utility theory, probability as a statement of belief, risk preference, value of information and control, probability assessment, influence diagrams, risk sharing and scaling, and life-and-death decision making. Three lecture hours a week for one semester. Mechanical Engineering 397M or equivalent with a grade of at least C-.

ORI 370. Statistical Methods in Manufacturing. Contemporary concepts and methods for statistical quality design and control will be presented. These include: descriptive statistics, behavior of process over time, design and interpretation of control charts, process capability studies, measurement system analysis, correlation and regression analysis, design and analysis of two level factorial experiments, design and analysis of two level fractional factorial experiments, response surface methodology, and Taguchi approach to robust design. Three lecture hours a week for one semester. Mechanical Engineering 379M (Topic: Stat Methods in Manufacturing) and Operations Research and Industrial Engineering 370 may not both be counted. Prerequisite: For engineering majors, Mechanical Engineering 318M with a grade of at least C-, Mechanical Engineering 335 or the equivalent; for others, upper-division standing and written consent of instructor.
ORI 373. Facility Planning and Logistics.
Design and analysis of production systems, including plant layout and location, material flow, and flexible manufacturing. Three lecture hours a week for one semester. Only one of the following may be counted: Mechanical Engineering 373K, Operations Research and Industrial Engineering 371, 373. Prerequisite: For engineering majors, ME 318M or the equivalent with a grade of at least C, and ME 335 or the equivalent; for non-engineering majors, upper-division standing and written consent of instructor.

ORI 374. Production and Inventory Management.
Introduction to production and inventory models; basic factory dynamics; analysis of variability; push-and-pull production control; sequencing and dispatching. Three lecture hours a week for one semester. Only one of the following may be counted: Mechanical Engineering 375K, Operations Research and Industrial Engineering 372, 374. Prerequisite: For engineering majors, Mechanical Engineering 318M or the equivalent with a grade of at least C, Mechanical Engineering 335 or the equivalent; for non-engineering majors, upper-division standing and written consent of instructor.

Independent project carried out under the supervision of a faculty member in operations research & industrial engineering. Student prepares a project proposal and a final report, each of which is evaluated by the faculty committee on individual projects. For 177K, three to five laboratory hours and one consultation hour with the faculty supervisor a week for one semester; for 277K, five to ten laboratory hours and one consultation hour with the faculty supervisor a week for one semester; for 377K, ten to fifteen laboratory hours and one consultation hour with the faculty supervisor a week for one semester. Prerequisite: A University grade point average of at least 2.50 and a grade point average in the major of at least 2.50; approval of project proposal by the faculty committee on individual projects.

Graduate Courses
May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in operations research and industrial engineering.

Study the operations research literature on the use of models and techniques related to healthcare delivery. Discuss decomposition techniques for integer programs, simulation, Markov chains, and stochastic programming. Three lecture hours per week for one semester. Operations Research and Industrial Engineering 383 and 397 (Topic: Health Care Delivery Models) may not both be counted. Prerequisite: Second year or higher graduate standing; graduate courses in linear programming, integer programming, statistics, stochastic processes.

Explore the development and use of operations research and industrial engineering techniques via weekly presentations and speakers, including faculty and visiting experts. Three lecture hours a week for one semester. Operations Research and Industrial Engineering 384 and 397 (Topic: Emerging Topics in ORIE) may not both be counted. Prerequisite: Second year or higher graduate standing in Operations Research and Industrial Engineering, or related program.

ORI 390D. Topics in Analytics and Decision Making.
Discuss the tools and concepts to enable quantitative analysis and to support decisions under uncertainty. Three lecture hours per week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and an undergraduate calculus-based course in probability and statistics, or consent of instructor.

Topic 1: Analytics and Data Science. Examine theory and methods to draw inferences from data and apply these insights to support decision making in uncertain environments. Additional prerequisite: Operations Research and Industrial Engineering 390R (Topic 1).

Topic 2: Decision Analysis. Examine the theory and principles required to make good decisions in the face of uncertainty. Discuss expected utility theory, families of utility functions, Bayesian inference, value of information, probability elicitation, scoring rules, and the verification of probabilistic forecasts. Explore how these apply to areas including engineering, business, public policy, healthcare, and sports. Operations Research and Industrial Engineering 390D (Topic 2) and 390R (Topic 17) may not both be counted. Additional prerequisite: Operations Research and Industrial Engineering 390R (Topic 1).

Topic 3: Decision Engineering. Examine the tools, methods, and processes required to apply decision analysis to applied problems. Explore creativity, framing, ideation, modeling, approximations, and decision biases that can degrade decision making. Operations Research and Industrial Engineering 390D (Topic 3) and 390R (Topic 18) may not both be counted. Additional prerequisite: Operations Research and Industrial Engineering 390R (Topic 1) and 390D (Topic 2).

Topic 4: Decision Theory. Explore the fundamental axioms supporting decision analysis and challenges to this approach. Examine behavioral decision making, subjective probability, alternative approaches to decision making, and advanced decision analytic tools. Additional prerequisite: Operations Research and Industrial Engineering 390D (Topic 2).

Topic 6: Systems Modeling and Decision Making. Explore the application of operations research, decision analysis, economics, and management science tools and concepts to the modeling of human-designed and natural systems with the goal of improving decisions that involve these systems. Examine models that integrate engineering, economics, natural science, and policy. Only one of the following may be counted: Operations Research and Industrial Engineering 390D (Topic 6), 390Q (Topic 8), 397 (Topic: Systems Modeling). Additional prerequisite: A course in optimization, or consent of instructor. Prior coursework in microeconomics is helpful but not required.

ORI 390Q. Industrial Engineering.
Industrial engineering techniques for quantitative solution of contemporary systems and management problems. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

Topic 1: Project Management. Methods for organizing, coordinating, and controlling resources to minimize risk and conflict and to maintain budgets and schedules. Topics include evaluation of
competing alternatives, organization of a project, scheduling of tasks and resources, and the role of management over time.

**Topic 2: Production and Inventory Control.** Issues in inventory control with known and unknown demand, materials requirement planning, just-in-time, pull control systems, operations scheduling, dispatching and aggregate planning, and the basic dynamics of production and inventory control.

**Topic 4: Modeling and Analysis of Manufacturing Systems.** Applications of analysis to manufacturing processes, using mathematical models, optimization, and stochastic analysis. Economic evaluation, identification of bottlenecks, estimation of resources requirements, and system design.

**Topic 5: Scheduling Theory and Applications.** Modeling, analysis, and solution techniques for production and service scheduling problems, machine scheduling in deterministic and stochastic settings, exact and heuristic algorithms, and industrial applications, including semiconductor manufacturing and airlines applications. Prerequisite: Operations Research and Industrial Engineering 391Q (Topic 4) or the equivalent.

**Topic 7: Statistical Methods in Manufacturing.** Same as Mechanical Engineering 392Q (Topic 10: Statistical Methods in Manufacturing). Statistical monitoring of manufacturing processes; methods and applications of various control charts; formal design of experiments (DOE), including the statistical evaluation of main and interaction effects, as well as intelligent experimentation through reduced factorial experimental design; Taguchi’s design philosophy as applied to response surface methods and gradient-based search techniques; and advanced issues in quality control and design of manufacturing systems. Additional prerequisite: Knowledge of basic probability and statistics and consent of instructor.

**ORI 390R. Statistics and Probability.**

Concepts of probability and mathematical statistics; application of these analytical methods to planning and evaluation of research and industrial experimentation. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, and an undergraduate calculus-based course in probability and statistics or consent of instructor.

**Topic 1: Applied Probability.** Basic probability theory, combinatorial analysis of random phenomena, conditional probability and independence, parametric families of distributions, expectation, distribution of functions of random variables, limit theorems.

**Topic 2: Mathematical Statistics.** Sampling distributions, properties of estimators, point and interval estimation, hypothesis testing, introduction to multivariate and nonparametric statistics.

**Topic 3: Time-Series Modeling, Analysis, and Control.** Same as Mechanical Engineering 384Q (Topic 3: Time-Series Modeling, Analysis, and Control). Methods for analytical modeling, analysis, prediction, and control of linear, stationary time series. Includes examples of advanced research in nonstationary time-series modeling and applications in manufacturing, financial engineering, geosciences, and other areas. Students complete a project on a topic of their choice. Additional prerequisite: Graduate standing, Mechanical Engineering 364L or the equivalent, an undergraduate calculus-based course in probability and statistics or consent of instructor.

**Topic 4: Reliability Theory and Modeling.** Theory of probabilistic and statistical models of aging elements, reliability, replacement, and repair maintenance, and their integration in surveillance, quality control, and manufacturing problems.

**Topic 6: Regression and Analysis of Variance.** Fitting equations to data; joint confidence regions; partial correlation analysis; general linear hypotheses; dummy variables; diagnostics and remedial measures; design of experiments; fixed, random, and mixed models; factorial and nested designs. Additional prerequisite: Operations Research and Industrial Engineering 390R (Topic 2) or consent of instructor.

**Topic 8: Queuing Theory.** Introduction to the classical and modern theories of queueing systems. Simple Markovian queues; the M/G/1 and G/G/1 queues; Jackson and Kelly networks; multiclass networks; stability, scheduling, and routing in queueing networks; fluid and diffusion approximations. Additional prerequisite: Operations Research and Industrial Engineering 390R (Topic 1) or consent of instructor.

**Topic 9: Systems Simulation.** Random number generation, simulation experiments, statistical verification, clock routines, simulation language applications, industrial problems.

**Topic 14: Special Topics in Probability, Stochastic Processes, and Statistics.** Study of specialized topics, such as advanced stochastic processes, Bayesian statistics, simulation, and stochastic optimization, intended to introduce and stimulate further research. Additional prerequisite: Consent of instructor.

**ORI 391Q. Optimization.**

Mathematical optimization techniques with applications to engineering and industrial problems. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and a course in operations research methods.

**Topic 2: Dynamic Programming.** Systems that require sequential decisions. Problem modeling and solution algorithms for deterministic and stochastic systems.

**Topic 5: Linear Programming.** Models, algorithms, and theory of linear programming. Linear programming geometry, primal, dual and revised simplex algorithms, duality theory, optimality conditions, sensitivity analyses, interior point methods, and computer implementations.

**Topic 8: Combinatorial Optimization.** Optimization of combinatorial structures; computational complexity; stable marriages, shortest paths, maximum flows, minimum-cost flows, matching problems; approximation algorithms for NP-hard problems.

**Topic 9: Large-Scale Systems Optimization.** Mathematical programs with special structure, Dantzig-Wolfe decomposition, partitioning and relaxation procedures, duality and decomposition, compact inverse methods, applications in engineering and management.
**Topic 10: Stochastic Optimization.** Optimization of mathematical programming models under uncertainty; model formulations; exact, bounding-and-approximation, and Monte Carlo sampling-based solution techniques that exploit special structures; applications; use of algebraic modeling language.

**Topic 12: Metaheuristics.** Reactive and adaptive tabu search methods, simulated annealing, genetic algorithms, and greedy randomized adaptive search methods. Emphasis on theoretical context of methods and on similarities and distinguishing characteristics.

**Topic 14: Computational Optimization.** Computer programming methods and tools for implementing advanced optimization algorithms, working with data, and visualizing results. Code organization techniques, debugging, and building complex software. Prerequisite: Coursework in computer programming, algorithms and optimization, and probability; or consent of instructor.

**Topic 15: Convex Optimization.** Same as Electrical and Computer Engineering 381K (Topic 18). The fundamentals of convex optimization with a focus on modeling, computation and scale: convex sets and functions, unconstrained optimization via first and second-order methods, duality, constrained optimization, SDPs, stochastic and sub-gradient descent methods, ADMMs, and applications. Only one of the following may be counted: Electrical and Computer Engineering 381K (Topic 18), Electrical Engineering 381V (Topic: Large Scale Optimization), Operations Research and Industrial Engineering 391Q (Topic 15). Additional prerequisite: Consent of instructor.

**Topic 16: Optimization in Engineering Systems.** Same as Electrical and Computer Engineering 380N (Topic 11). Formulation and solution of continuous optimization problems in engineering design and operations. Only one of the following may be counted: Electrical and Computer Engineering 380N (Topic 11), Electrical Engineering 380N (Topic 11), Operations Research and Industrial Engineering 391Q (Topic 16).

**Topic 17: Optimization Under Uncertainty.** Introduction to optimization models and methodologies for addressing uncertainty-affected decision problems. Examine fundamental techniques from stochastic programming, robust optimization, and distributionally robust optimization. Explore theory through concrete examples from production planning, supply chain management, project management, portfolio selection, machine learning. Three lecture hours per week for one semester. Operations Research and Industrial Engineering 391Q (Topic 17) and 397 (Topic: Optimization Under Uncertainty) may not both be counted. Additional prerequisite: Graduate-level knowledge of linear programming, integer programming, nonlinear programming, probability, and statistics. Knowledge of convex optimization and analysis is beneficial.

**Topic 18: Computational and Variational Methods for Inverse Problems.** Introduction to the numerical solution of inverse problems that are governed by systems of partial differential equations (PDEs). Explore variational formulations, ill-posedness, regularization, adjoint methods for gradients and Hessians, variational discretization, and efficient large-scale optimization algorithms for inverse problems. Examine the Bayesian framework and draw connections between the classical and the Bayesian interpretations of inverse problems. Additional prerequisite: Courses or background in linear algebra and differential equations.

**ORI 397. Current Studies in Operations Research and Industrial Engineering.**

The equivalent of three class hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**ORI 197K, 297K, 397K. Graduate Seminar.**

One, two, or three lecture hours a week for one semester. Normally required of all students in operations research and industrial engineering. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

**ORI 397M. Graduate Research Internship.**

Students conduct research in an industrial setting to gain practical experience in their area of interest. Twenty to forty hours of fieldwork a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of the graduate adviser and supervising faculty member.

**ORI 197P, 297P, 397P. Projects in Operations Research and Industrial Engineering.**

Independent project carried out under the supervision of a faculty member in operations research and industrial engineering. Three, six, or nine laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.

**ORI 698. Thesis.**

The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in operations research and industrial engineering and consent of the graduate adviser; for 698B, Operations Research and Industrial Engineering 698A.

**ORI 398R. Master's Report.**

Preparation of a report to fulfill the requirement for the master's degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in operations research and industrial engineering and consent of the graduate adviser.

**ORI 399W, 699W, 999W. Dissertation.**

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.
This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Lyndon B. Johnson School of Public Affairs. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses
P A 325. Topics in Policy.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

Topic 1: Advanced Seminar in Ethical Leadership. Public Affairs 325 (Topic: Advanced Seminar in Ethical Leadership) and 325 (Topic 1) may not both be counted.

P A 326. Topics in Policy.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Lyndon B. Johnson School of Public Affairs. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

P A 330C. Public Policy.
Skill topics, including economics, quantitative methods, public financial management, policy development, and public administration. Three lecture hours a week for one semester. Public Affairs 310C and 330C may not both be counted unless the topics vary. May be repeated for credit when the topics vary.

P A 330S. Public Policy Seminar.
Seminar with topics related to domestic or international public policy. Three lecture hours a week for one semester. Public Affairs 310S and 330S may not both be counted unless the topics vary. May be repeated for credit when the topics vary.

P A 150. Public Service and Practice.
Restricted to sophomore, junior, and senior-level undergraduates. Topics related to public service fields and the skills used by effective leaders. One lecture hour a week for one semester, with additional hours for some topics. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

P A 150S. Issues in Public Service.
Topics in issues and decision-making that arise in the practice of public service. One lecture hour a week for one semester, with additional hours for some topics. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

P A 159R. Public Policy Issues.
Current issues in public policy. The equivalent of one lecture hour a week for one semester, with additional hours to be arranged. May be repeated for credit when the topics vary. Offered on the pass/fail basis only.

P A 159S. Public Policy Issues.
Current issues in public policy. Hours to be arranged. May be repeated for credit when the topics vary.

P A 159T. Public Policy Issues.
Current issues in public policy. Hours to be arranged. May be repeated for credit when the topics vary. Offered on the letter-grade basis only.

Graduate Courses
P A 280L, 380L. Topics in Public Policy and Law.
Various aspects of policy making, policy development, and communications at a variety of levels. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 1: Policy Development and Law. Examines effective policy making at all levels of government, including consideration of the legal process which provides critical context; the policy development process and its relationship to the rule of law; and key elements of public policy development, including ethics, decision making, leadership, and policy implementation.
Topic 2: Policy and Law Placements. Thorough examination of ethical issues and professional responsibilities and development of written and oral communication skills that are preparatory for field placement in policy and law.
Topic 3: Law and Public Policy. Examines the interconnection of public policy and law and how the two disciplines approach related issues; how legal structures and precedent shape and constrain policy choices; and how public policy informs the work of the courts.

Interdisciplinary research on a contemporary policy problem involving interaction with sponsoring organizations. Three lecture hours a week for two semesters, or as required by the topic. May be repeated for credit when the topics vary. Prerequisite: For 680PA, graduate standing and consent of instructor; for 680PB, Public Affairs 680PA.

P A 680W. Apprenticeship in Public Policy.
Students work full-time for one whole-term summer semester and the following fall semester. Offered on the letter-grade basis only. Prerequisite: For 680WA, graduate standing and consent of instructor; for 680WB, Public Affairs 680WA.

For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of graduate adviser.
Interdisciplinary research on a contemporary policy problem involving interaction with an agency of government. Four lecture hours a week for two semesters. May be repeated for credit when the topics vary. Prerequisite: For 682DA, graduate standing and consent of instructor; for 682DB, Public Affairs 682DA.

Interdisciplinary research on a contemporary global policy problem involving interaction with sponsoring organizations. Three lecture hours a week for two semesters, or as required by the topic. May be repeated for credit when the topics vary. Prerequisite: For 682GA, graduate standing and consent of instructor; for 682GB, Public Affairs 682GA.

P A 382W. Policy Analysis Seminar.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of graduate adviser.

P A 383C. Policy Development.
Introduction to how public policy is developed and adopted in government systems. Covers the role of politics and institutions in implementing and managing policy. Normally taken during the first year. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Introduction to how public policy develops and is adopted in the American government system. Taught with a videoconference component. Normally taken during the first year. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

P A 383G. Policymaking in a Global Age.
History, politics, and organization of how the United States makes and implements foreign policy decisions. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

P A 384C. Public Management.
Covers the development and implementation of policy within an organizational environment, including the role of political and institutional factors, organization and management concepts, and human information resource issues. Normally taken during the first year. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

P A 384D. Public Management.
Covers the development and implementation of policy within an organization environment, including the role of political and institutional factors, organization and management concepts, and human information resource issues. Normally taken during the first year. Three lecture hours a week for one semester. May have a distance learning component. Prerequisite: Graduate standing.

P A 384F. Advanced Public Management.
Explore the development and implementation of policy within an organization environment, including the role of political and institutional factors, organization and management concepts, and human information resource issues. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

P A 387G. The Nature of the International System.
Introduces systematic analysis of global policy, factors that motivate foreign policies and private decisions, and instruments used in the conduct of international relations. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

Issues in political values and ethics and in natural resources, transportation, health, environmental, international, regulatory, urban, and labor and human resources policy. For each semester hour of credit earned, one lecture hour a week for one semester. Public Affairs 387K and 388K may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

Topic 2: Research Design and Methods II. Continue to explore research and design methods in public affairs/policy. Offered on the letter-grade basis only. Additional prerequisite: Public Affairs 394C.

P A 387W. Writing For Global Policy.
Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

P A 388D. Advanced Topics in Public Policy.
Typical topics include issues in political values and ethics and issues in transportation, health, environmental, international, regulatory, urban, and labor and human resources policy. Three lecture hours a week for one semester. Some topics may be taught via Web-based instruction with no class meetings. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Issues in political values and ethics and in natural resources, transportation, health, environmental, international, regulatory, urban, and labor and human resources policy. For each semester hour of credit earned, one lecture hour a week for one semester. Public Affairs 387K and 388K may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

Topic 1: Perspectives on Public Policy. Covers the art and science of policy formulation in the areas of economics, national security, monetary policy, science, technology, and trade. Examines the relationships among policy development processes at the federal, state, and local levels of government.

Topic 3: Texas Health Policy.

P A 188F, 288F, 388F. Policy and Practice.
For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Consent of graduate adviser, graduate standing.

P A 188G. Topics in Global Policy Studies.
Three lecture hours a week for five weeks, or as required by the topic. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

P A 387J. Writing for Policy.
Three lecture hours a week for one semester. Public Affairs 387J and 388K (Topic: Writing for Policy) may not both be counted. Offered on the letter-grade basis only. Prerequisite: Consent of graduate adviser, graduate standing.

P A 188K, 288K, 388K, 488K. Advanced Topics in Public Policy.
Typical topics include issues in political values and ethics and in natural resources, transportation, health, environmental, international, regulatory, urban, and labor and human resources policy. For each semester hour of credit earned, one lecture hour a week for one semester. Public Affairs 387K and 388K may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 7: International Development. Public Affairs 188K, 288K, 388K, 488K (Topic 7) and 388K (Topic: International Development) may not both be counted.
Offered on the letter-grade basis only. Prerequisite: Consent of instructor.

Arranged. May be taken three times for credit. May be repeated for credit. This course represents the equivalent of work in a professional internship. The equivalent of three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

Restricted to students in the Public Affairs DC and Global Policy Studies DC programs. Integrative portfolio course organized around a project incorporating previous studies, academic research and practical application of work in a professional internship. The equivalent of one lecture hour a week for one semester, with additional hours to be arranged. May be taken three times for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Consent of instructor.

Study of research methods, with a focus on those needed by doctoral students in public policy. Includes discussions of broad controversies in social science methodology and subjects not commonly covered in other first-year graduate courses. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

Development and preparation of the dissertation proposal. Individual instruction. Offered on the credit/no credit basis only. Prerequisite: Graduate standing, completion of all coursework, and consent of instructor.

Designed to provide a structured framework in which students can develop and apply methods training and produce a research paper. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

Instruction in the writing styles appropriate for professional careers in international settings. Three lecture hours a week for five weeks, or as required by the topic. May be repeated for credit, but only three semester hours may be counted toward the Master of Global Policy Studies degree. Prerequisite: Graduate standing and consent of the graduate adviser.

The budget process, budgetary methods, governmental accounting analysis of financial statements, government revenues, debt management, and other financial management techniques for public and nonprofit programs. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

Examine the budget process, budgetary methods, governmental accounting analysis of financial statements, government revenues, debt management, and other financial management techniques for public and nonprofit programs. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing, Public Affairs 391, and consent of the graduate advisor.

Explores the theoretical foundations of public policy. Includes political philosophy concepts and various theoretical approaches to the policy-making process. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

Three lecture hours a week for one semester. Prerequisite: Graduate standing, Public Affairs 392C, and consent of the graduate adviser.

Individual instruction related to selected aspects of professional theory and practice. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit. Prerequisite: Graduate standing, consent of instructor and the graduate adviser.

Three lecture hours a week for five weeks, or as required by the topic. May be repeated for credit when the topics vary. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

Four lecture hours a week for one semester. Prerequisite: Graduate standing, Public Affairs 392C, and consent of the graduate adviser.

Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

Three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and completion of all coursework, and consent of instructor.

Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of the graduate adviser.

Three lecture hours a week for one semester. Prerequisite: Graduate standing and Public Affairs 393G or 393K.
P A 393J. International Economics.
Comparative advantage, international trade, international trade institutions, and agreements. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and Public Affairs 393G or 393K.

P A 393K. Applied Microeconomics for Policy Analysis.
The use of economic reasoning in the development and implementation of public policy. Three lecture hours a week for one semester. Prerequisite: Graduate standing and Public Affairs 393K.

P A 393L. Advanced Policy Economics.
Advanced topics in the application of economic reasoning to the development and implementation of policy. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

P A 394C. Research Design and Methods I.
Introduction to research and design methods in public affairs/policy. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

P A 095. Public Affairs Colloquium.
Guest lectures on topics to be announced. One lecture hour a week for one semester. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.

Supervised, individual policy research experience on a topic chosen by the supervising faculty member. Conference course. Prerequisite: Graduate standing in public affairs and approval of the research proposal by the supervising faculty member and the graduate adviser.

Supervised role-playing exercises on global policy. The equivalent of one lecture hour a week for one semester; additional hours may be required. Prerequisite: Graduate standing.

P A 195W. Policy Simulation.
Restricted to students in the Public Affairs DC and Global Policy Studies DC programs. Supervised role-playing exercises on public policy. The equivalent of one lecture hour a week for one semester; additional hours may be required. Prerequisite: Graduate standing.

P A 196C. Supervised Public Service.
Supervised, individual practical public service experience in an area chosen by the supervising faculty member. Conference course. May not be counted toward the Master of Public Affairs degree. Prerequisite: Graduate standing in public affairs and approval of proposal by the supervising faculty member and the graduate adviser.

P A 396G. Internship in Global Policy Studies.
Supervised participation in and observation of international issues as a working member of the staff in an agency of government, a nonprofit organization, or a public policy-related unit in the private sector. At least 400 hours of work over one semester. Prerequisite: Graduate standing, completion of one year in the Lyndon B. Johnson School of Public Affairs, and consent of the associate dean.

P A 396K. Internship in Public Policy.
Supervised participation and observation as a working member of the staff in an agency of government, a nonprofit organization, or a public policy-related unit in the private sector. Students work full time for one summer session or long-session semester. Offered on the credit/no credit basis only. Prerequisite: Completion of one year in the Lyndon B. Johnson School of Public Affairs and consent of the associate dean.

Survey of the application of a broad range of quantitative models to policy analysis and managerial decision-making: optimization techniques based on calculus and linear programming, probability theory and decision analysis, sampling theory and hypothesis testing, regression analysis, and forecasting. Three lecture hours a week for one semester. Prerequisite: Graduate standing; and either one semester each of college algebra, calculus, and statistics or a passing score on the validation exam offered before the beginning of the semester.

Research methods, specialized empirical techniques, and data analysis as used in policy analysis and management. Three lecture hours a week for one semester. Some topics may be taught via Web-based instruction with no class meetings. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and Public Affairs 397.

P A 397D. Applied Quantitative Analysis I.
Three lecture hours a week for one semester. Survey of the application of a broad range of quantitative models to policy analysis and managerial decision-making: optimization techniques based on calculus and linear programming, probability and theory and decision analysis, sampling theory and hypothesis testing, regression analysis, and forecasting. Prerequisite: Graduate standing; and either one semester each of college algebra, calculus, and statistics or a passing score on the validation exam offered before the beginning of the semester.

Descriptive statistics, inference, multivariate regression, qualitative methods, and case study methods applicable to global policy research. Three lecture hours a week for one semester. Prerequisite: Graduate standing, and an undergraduate statistics course or a passing score on the validation exam.

P A 398R. Master's Report.
Preparation of a report to fulfill the requirement for the master's degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in public affairs and consent of the graduate adviser.

Group meetings with the instructor, individual consultations, and reports. Mandatory for students seeking teaching assistant positions. For each semester hour of credit earned, one lecture hour a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses
P L - Public Leadership

Public Leadership: P L

Upper-Division Courses

Graduate Courses

P L 381E. Topics in Leadership and Management.
Discover the characteristic and traits of a strategic leader. Explore the skills needed for impactful change management and leadership of inclusive organizations in an ever-changing global environment. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

Topic 1: Leadership and Management Foundations. Explore facets of leading a public organization, drawing on research about the sources of success for leaders. Review management foundations and strategies - decision-making, self-awareness, goal setting, team building, and more. Create a personal leadership philosophy. Offered on the letter-grade basis only.

Topic 2: Leading Strategic Change. Explore the skills and knowledge to plan and lead strategic change initiatives more effectively. Offered on the letter-grade basis only.

Topic 3: Public Leadership Ethics. Research the concept of ethics and examine how to deploy value-driven decision-making in public organizations. Explore diversity, equity, and inclusion concepts. Determine steps for creating and leading an inclusive organization. Offered on the letter-grade basis only.

P L 382E. Topics in Strategic Communication and Engagement.
Develop an approach and toolkit for delivering effective public policy communications, managing risk management, and building collaboration among a diverse group of stakeholders. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

Topic 1: Strategic Policy and Public Communications. Examine policy and public messages. Use modern communication tools, and manage personal brands. Offered on the letter-grade basis only.

Topic 2: Managing Risks and Creating Shared Value. Explore risk assessment, crisis management and practical tools and skills to use in the face of crises. Explore how effective leaders create shared value by building cross-sector partnership and engaging in negotiation with stakeholders to solve challenges. Offered on the letter-grade basis only.

P L 383E. Topics in Executive Analytics.
Explore the fiscal management, data and evaluation tools needed to lead 21st-century public organizations. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

Topic 1: Financial Management for Decision-Makers. Examine the theory and practice of public financial management, the principles of budget, finance, accounting, and fiscal administration. Offered on the letter-grade basis only.

Topic 2: Data Analytics and Program Evaluation. Learn tools, skills, and experience needed to be a sophisticated data-driven decision maker. Offered on the letter-grade basis only.

P L 384E. Topics in Politics and Policy.
Explore how policymaking, politics, and emerging technologies impact public organizations and agencies. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

Topic 1: Politics and Policymaking. Explore how to develop and implement policy. Examine the relationship between policy and politics in developing and implementing policy. Delve into the intersections between national, state, and local politics and policymaking. Offered on the letter-grade basis only.

Topic 2: IT, Cybersecurity and the Public Sector. Explore modern-day organizational and technology change processes in the public sector. Outline techniques for managing future-focused IT projects and policies in public organizations. Examine the knowledge and skills necessary to acquire, exploit, and protect digital and sensitive information entrusted to public sector organizations. Offered on the letter-grade basis only.

P L 389E. Research Capstone.
Develop a professional research capstone project that will contribute to leadership success in current or future employment. Create research, writing, and presentation components. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

Professional Courses

P R - Public Relations

Public Relations: P R

Lower-Division Courses

P R 305. Fundamentals of Public Relations.
An introduction to public relations history and practice. Three lecture hours a week for one semester.

P R 305S. Introduction to Integrated Communication for Sports.
Same as Advertising 305S. Examination of the mass media industry in relation to the field of sports. Focus on the "off-the-field" industries of advertising, marketing, and public relations that impact sports: rights fees contracts; pre-game shows; gameday production; in-stadium activities; and press coverage. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 305S, 378 (Topic 7: Integrated Communication for Sports), Kinesiology 352K (Topic: Integrated Communication for Sports), Public Relations 305S.

P R 309. Introduction to Advertising and Public Relations Research.
Same as Advertising 309R. Introduction to concepts and methods of statistics, with emphasis on analyzing personal and group behaviors. Includes exploratory data analysis, correlation and regression, descriptive statistics, sampling distributions, confidence intervals, and hypothesis testing. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 309R, 378 (Topic: Introduction to Advertising and Public Relations Research), Public Relations 309, 378 (Topic: Introduction to Advertising and Public Relations Research).

P R 316. Creativity and American Culture.
Same as Advertising 316. A cross-disciplinary view of the creative process and creative products. The conceptual core of film, fine arts, advertising, architecture, and literature. Three lecture hours a
week for one semester. May not be counted toward the Bachelor of Science in Advertising or the Bachelor of Science in Public Relations. Fulfills the communication and culture requirement in the College of Communication.

P R 317. Writing for Public Relations.

Restricted to public relations majors. Introduction to writing skills for the media, including readability, clarity, verification, and style. Three lecture hours and one laboratory hour a week for one semester. Prerequisite: Advertising 318J with a grade of at least B.

Upper-Division Courses

P R 320. Integrated Communication for Nonprofit Organizations.

Same as Advertising 320. Explores integrated communication and branding in a variety of nonprofit settings. Examines the strategic, integrated use of multiple communication approaches, including advertising, public relations, new media, promotions, sponsorships, and special events. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 320, 378 (Topic: Public Comm of Science/Tech), Public Relations 320, 378 (Topic: Leadership and Ethics).

P R 321. Leadership and Ethics.

Same as Advertising 321. Explores leadership, communication, ethics, and the ability to lead others ethically and effectively. Examine concepts and frameworks related to skills that are integral to ethical, effective leadership. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 321, 378 (Topic: Health Communication), Public Relations 321, 378 (Topic: Leadership and Ethics).

Same as Advertising 322. Covers the development of effective health messages, the design of health campaigns, and investigate the role of the media in influencing people’s health and perceptions of health. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 322, 378 (Topic: Health Communication), Public Relations 322.

P R 323. Public Communication of Science and Technology.

Same as Advertising 323. Explores the rapidly growing field of science communication. Examines the intersection of science, media, and society, focusing on media’s impact on how people come to understand, perceive, and act relative to scientific issues. Special attention will be directed toward the strategic communication of science and maximizing scientists’ engagement with public audiences. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 323, 378 (Topic: Public Comm of Science/Tech), Public Relations 323, 378 (Topic: Public Comm of Science/Tech).

P R 324. Communicating Sustainability.

Same as Advertising 324. Focuses on persuasion in the context of environmental attitudes and behaviors. Explores how humans think about and interact with the environment, paying particular attention to climate change. Drawing on theory and examples, examines the challenges and opportunities that arise when people try to communicate about the environment and change individual attitudes and behaviors. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 324, 378 (Topic: Communicating Sustainability), Public Relations 324, 378 (Topic: Communicating Sustainability).

Enrollment in this course is to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Public Relations; transfer credit is awarded for work in an affiliated studies program. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. May be repeated for credit when the topics vary. Offered on the letter-grade basis only.

P R 332. Technology Marketing and Advertising.

Same as Advertising 332. Explores case histories, interviews with leading technology advertising and marketing executives, and latest trends in digital advertising, both mobile and social, as well as its impact across marketing segments and industries. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 332, 378 (Topic 23), Public Relations 332.

P R 332C. New Media Entrepreneurialism.

Same as Advertising 332C. Covers real life experience/exposure with a series of interviews with real-life practitioners from social media, venture capital, and others with expertise in the field. Explores important trends in digital content and digital business models; a primer for those who wish to learn about entrepreneurialism, technology, and it’s intersection with media. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 332C, 378 (Topic: New Media Entrepreneurialism), Public Relations 332C, 378 (Topic: New Media Entrepreneurialism).

P R 332D. Entrepreneurialism in Communication.

Same as Advertising 332D. Project-oriented exercise where small teams conceptualize a business idea in communications, curate the insights and opinions of fellow team members, and ultimately develop a business plan around their new endeavor. A panel of local entrepreneurs will provide feedback and critique. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 332D, 378 (Topic: Entrepreneurialism in Comm), Public Relations 332D.

P R 339K. Digital Graphic Communication.

Same as Advertising 339K. Introduction to the fundamentals of good graphic design, as well as production basics. Develops digital design skills using industry-standard software, from print (Adobe InDesign, Photoshop, Illustrator) to motion (Adobe Premiere, AfterEffects) and interactive (HTML, CSS, WordPress). Assumes no prior knowledge. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 339K, 378 (Topic: Digital Graphic Communication), Public Relations 339K, 378 (Topic: Digital Graphic Communication).

P R 339L. Brand Storytelling.

Same as Advertising 339L. Examination of how classic elements of storytelling, semiotics, and symbolism can be used to create and manage a modern brand’s story and meaning. Create visual, verbal, and video examples of brand storytelling that go beyond traditional advertising and public relations. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 339L, 378 (Topic: Brand Storytelling), Public Relations 339L, 378 (Topic: Brand Storytelling).

P R 341S. Research in Sports Communication and Media.

Same as Advertising 341S. An introduction to advertising and public relations research and methodology for sports. Three lecture hours a week for one semester. Prerequisite: Forty-five semester hours of college coursework.
P R 348. Public Relations Techniques.
Analysis and production of print, electronic, and oral messages to achieve organizational objectives; fundamentals of media relations; Internet applications. Three lecture hours a week for one semester. Prerequisite: Upper-division standing; Advertising 318J with a grade of at least B; and one of the following with a grade of at least C: Journalism 317 or Public Relations 317.

Same as Advertising 348S and Journalism 348G. Examination of the business of sports-related media, including over-the-air television, cable, satellite television, print, radio, social media, and internet-based media, and the impact of such media on sports presentation and development, professional franchises, colleges, and conferences. Emphasis on how the business of sports media generates revenue and content, and the business models for each type of media, the challenges to such models, and the likely future changes to them. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 348S, 378 (Topic: The Business of Sports Media), Communication 325 (Topic: The Business of Sports Media), Journalism 348G, 349T (Topic: The Business of Sports Media), Public Relations 348S, 378 (Topic: The Business of Sports Media).

P R 350, 650. Public Relations Internship.
Restricted to public relations majors. Internship to be arranged by student and approved by instructor. For 350, an average of 12 hours of work a week, for a total of 180 hours a semester or summer session. For 650, an average of 24 hours of work a week, for a total of 360 hours a semester or summer session. Offered on the pass/fail basis only. Prerequisite: Advertising 344K, 345J, and Public Relations 348 with a grade of at least C- in each and a University GPA of 2.0.

Same as Advertising 350S. Restricted to Texas Program in Sports and Media students. Practical work experience in sports media. Internship to be arranged by student and approved by instructor. The equivalent of three lecture hours a week for one semester. May not be counted toward the Bachelor of Science in Advertising or the Bachelor of Science in Public Relations degrees. Offered on the pass/fail basis only. Prerequisite: Upper-division standing; a University grade point average of at least 2.0; Advertising 305S or Public Relations 305S; and three additional hours from the Sports Media Certificate approved coursework list.

P R 151. Public Relations Internship.
Designed for students who have completed a three-semester-hour internship in public relations. Internship and discussion hours to be arranged. Offered on the pass/fail basis only. Prerequisite: Public Relations 350 or 650, consent of the public relations internship coordinator; and completion of the major requirements for enrollment in an internship course.

P R 352. Strategies in Public Relations.
Restricted to public relations majors. Strategies relating to public relations disciplines, including the management of external, internal, community, nonprofit, and media issues, and public relations marketing programs. Three lecture hours a week for one semester. Prerequisite: Public Relations 348 with a grade of at least C-.

Same as Advertising 353. Restricted to advertising and public relations majors. The equivalent of three lecture hours a week for one semester. Advertising 353 and Public Relations 353 may not both be counted.

Fulfills the communication and culture requirement in the College of Communication. Prerequisite: Advertising 318J with a grade of at least B.

P R 364. Immersive Experiences.
Same as Advertising 364. Develop an understanding of an audience, the language of development, and awareness of the affordances of each medium to use them effectively in designing immersive user experiences. Work on a real-world client project, which will also be prepared for entry into an immersive storytelling competition. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 364, 378 (Topic: Immersive Experiences), Public Relations 364, 378 (Topic: Immersive Experiences). Prerequisite: Forty-five semester hours of college coursework and consent of instructor.

Same as Advertising 365. Examine the latest methods used to better understand audiences and their motivations. Explore new approaches and tools for engaging audiences in different content strategies, and what metrics can be used to measure their engagement in ways that prove valuable to content creators, marketers, and audiences. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 365, 378 (Topic: Audience Development & Engagement), Public Relations 365, 378 (Topic: Audience Development & Engagement). Prerequisite: Forty-five semester hours of college coursework and consent of instructor.

P R 367. Integrated Communications Management.
Public relations as a managerial problem-solving process; strategic management of programs to enhance public-organizational relationships. Three lecture hours a week for one semester. Advertising 370J and Public Relations 367 may not both be counted. Prerequisite: Advertising 344K, 345J, and Public Relations 348 with a grade of at least C- in each; Marketing 320F or 337 with a grade of at least C-.

P R 367E. Experimental Storytelling.
Same as Advertising 367. Working with real-world clients, examine design thinking and human-computer interaction techniques while ideating, synthesizing concepts, creating user experiences, and developing a proof of concept (PoC) exemplary towards becoming an experience designer. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 367, 378 (Topic: Experimental Storytelling), Public Relations 367E, 378 (Topic: Experimental Storytelling). Prerequisite: Forty-five semester hours of college coursework and consent of instructor.

P R 369. Social Media.
Same as Advertising 369. Introduction to social networking platforms and their application in relation to media plans, brand building, and insights. Three lecture hours a week for one semester Only one of the following may be counted: Advertising 369, 378 (Topic: Social Media), Public Relations 369, 378 (Topic: Social Media). May be taken two times for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Upper-division standing and consent of instructor.

P R 377H. Integrated Communications Campaigns: Honors.
Restricted to students in the Advertising or Public Relations Honors Program. The concept of media mix; matching product, consumer, and media profiles; and the conception, research, planning, and execution of advertising campaigns. Special emphasis on advanced copywriting, layout, and production for print and broadcast media. Students usually participate in major national contests involving brand development in advertising strategies. Three lecture hours a week for one semester, with additional hours to be arranged. Only one of the following may be counted: Advertising 373, 373H, Public Relations 377H, 377K. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.
Advertising 370J with a grade of at least C or Public Relations 367 with a grade of at least C; a University grade point average of at least 3.50, admission to the Advertising or Public Relations Honors Program, and consent of the undergraduate adviser.

P R 377K. Integrated Communications Campaigns.
Integration of theory, research methods, and communication techniques for planning, implementing, and evaluating public relations campaigns; client proposal writing and presentation. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 373, 373H, Public Relations 377H, 377K. Prerequisite: Public Relations 367 with a grade of at least C.

P R 377M. Media Studies.
Topics in media and its effects on advertising and public relations strategies. The equivalent of three lecture hours a week for one semester; additional hours may be required for some topics. Advertising 377M and Public Relations 377M may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Prerequisites vary with the topic.

- **Topic 3:** Black Music and the Media.
- **Topic 4:** Health Communication: Theory and Practice.
- **Topic 6:** Public Relations in Entertainment.

**Topic 21:** Semester in Los Angeles: Entertainment Promotion, Press, and Public Relations.
Same as Advertising 378 (Topic 21). Restricted to students admitted to the Semester in Los Angeles Program. Consider the core disciplines of research, creative, distribution, advertising, publicity, and promotion as they apply to entertainment. Only one of the following may be counted: Advertising 378 (Topic: Entertainment Prss/Publc Rltn-L A), 378 (Topic 21), Public Relations 378 (Topic: Entertainment Prss/Public Rltn-L A), 378 (Topic 21).

**Topic 37:** Social Enterprise Branding.
Same as Advertising 378 (Topic 37). Focus on the development of strategic branding and communication for businesses focused on balancing purpose and profit. Explore components of brand identity and implementation as they relate to the success or failure of companies enacting social impact across a number of industries. Only one of the following may be counted: Advertising 378 (Topic: Social Enterprise Branding), 378 (Topic 37), Public Relations 378 (Topic: Social Enterprise Branding), 378 (Topic 37).

**Topic 38:** Influencer Marketing.
Same as Advertising 378 (Topic 38). Identify, analyze, approach, manage, and measure business goals. Differentiate between attention and influence. Only one of the following may be counted: Advertising 378 (Topic: Influencer Marketing), 378 (Topic 38), Public Relations 378 (Topic: Influencer Marketing), 378 (Topic 38).

**Topic 39:** Pop Star Activism.
Same as Advertising 378 (Topic 39). Engage with issues of diversity, political activism, public relations, and marketing communication through the lens of popular music. Only one of the following may be counted: Advertising 378 (Topic: Pop Star Activism), 378 (Topic 39), Public Relations 378 (Topic: Pop Star Activism), 378 (Topic 39).

**Topic 40:** Environmental Communication.
Same as Advertising 378 (Topic 40). Discuss environmental current events with hands-on agency/client experience. Develop authentic communication strategies and tactics that can protect the environment and advance cutting-edge sustainability technologies. Only one of the following may be counted: Advertising 378 (Topic: Environmental Communication), 378 (Topic 40), Public Relations 378 (Topic: Environmental Communication), 378 (Topic 40).

**Topic 41:** Advertising Intelligence.
Same as Advertising 378 (Topic 41). Analyze how insights enhance decision making in advertising and public relations in areas such as campaign development, segmentation, positioning, product development, and promotion. Review advertising and public relations problems and processes in ways that will benefit from informed decision making. Only one of the following may be counted: Advertising 378 (Topic: Advertising Intelligence), 378 (Topic 41), Public Relations 378 (Topic: Advertising Intelligence), 378 (Topic 41).

**Topic 42:** Issues in Black American Advertising and Public Relations.
Same as Advertising 378 (Topic 42). Explore cultural critiques of the advertising and public relationship industry related to historical and contemporary challenges involving representation, systemic injustice, stereotypes, and social responsibility involving the Black American experience. Only one of the following may be counted: Advertising 378 (Topic: Issues in Black American AD/PR), 378 (Topic 42), Public Relations 378 (Topic: Issues in Black American AD/PR), 378 (Topic 42).

**Topic 43:** Digital Social Media Analytics.
Same as Advertising 378 (Topic 43). Explore cutting edge technologies that enable public relations and advertising professionals to better understand online conversations and audience behaviors. Examine how to recommend creative solutions for engaging key stakeholders. Determine how data, creative, and strategy intersect. Only one of the following may be counted: Advertising 378 (Topic: Digital Social Media Analytics), 378 (Topic 43), Public Relations 378 (Topic: Digital Social Media Analytics), 378 (Topic 43).

P R 378S. Special Topics in Sports Media.
Topics in sports media related to issues in traditional and new media as they affect sports and entertainment advertising and public relations. The equivalent of three lecture hours a week for one semester. Advertising 378S and Public Relations 378S may not both be counted unless the topics vary. May be repeated for credit when the topics vary.

- **Topic 1:** Advertising and Public Relations for Sports.
Same as Advertising 378S (Topic 1). Three lecture hours a week for one semester. Advertising 378S (Topic 1) and Public Relations 378S (Topic 1) may not both be counted.

- **Topic 2:** Legal Aspects of Sports and Media.
Same as Advertising 378S (Topic 2). Three lecture hours a week for one semester. Advertising 378S (Topic 2) and Public Relations 378S (Topic 2) may not both be counted.

- **Topic 3:** Return on Investment of Sports Media.
Same as Advertising 378S (Topic 3). Three lecture hours a week for one semester. Advertising 378S (Topic 3) and Public Relations 378S (Topic 3) may not both be counted.

- **Topic 4:** Analysis of Sports and Entertainment Audiences.
Same as Advertising 378S (Topic 4). Three lecture hours a week for one semester. Advertising 378S (Topic 4) and Public Relations 378S (Topic 4) may not both be counted.

- **Topic 5:** Ethics and Social Issues in Sports Branding.
Same as Advertising 378S (Topic 5). Three lecture hours a week for one semester. Advertising 378S (Topic 5) and Public Relations 378S (Topic 5) may not both be counted.

- **Topic 6:** Sports Audiences and Nontraditional Media.
Same as Advertising 378S (Topic 6). Three lecture hours a week for one semester. Advertising 378S (Topic 6) and Public Relations 378S (Topic 6) may not both be counted.

- **Topic 7:** Contributions of Sports and Entertainment to Education and Health.
Same as Advertising 378S (Topic 7). Three lecture hours a week for one semester. Advertising 378S (Topic 7) and Public Relations 378S (Topic 7) may not both be counted.

- **Topic 8:** College Sports Media.
Same as Advertising 378S (Topic 8). An examination of the history of college sports media, with an...
emphasis on the evolution of sports coverage from NCAA-controlled limited broadcasting of football and basketball, to present day intercollegiate athletics coverage available via multiple outlets.

Topic 10: Leadership and Administration in Sports Organizations. Same as Advertising 378S (Topic 10). Designed to develop marketing skills related to events, programs, products, and facilities in the sports management field.

Topic 11: Sports and Social Media. Same as Advertising 378S (Topic 11). Designed to provide an understanding of and experience with the components and best practices of social media, marketing, and communications as they relate to sports entities and the sports field as a whole.

Topic 12: Sports Audiences. Same as Advertising 378S (Topic 12). An exploration of marketing innovations in sports to attract audiences, and the use of sports media by advertisers, sponsors, and other entities to target various customer groups.

P R 179, 279, 379. Public Relations Problems.

Individual instruction. Prerequisite: Written consent of instructor received prior to registering.

Graduate Courses

P R 391K. Seminar in Public Relations.

Survey and analysis of current public relations issues and practices. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Professional Courses

P S - Physical Science

Physical Science: P S

Lower-Division Courses

Restricted to students outside the College of Natural Sciences. Inquiry laboratory approach to basic concepts of measurement, forces, motion, energy, temperature, and heat. Designed for students with minimum prior preparation in mathematics and physics. Especially appropriate for prospective elementary school teachers. Four hours of integrated laboratory and lecture a week for one semester. Only one of the following may be counted: Physical Science 303, Physics 301, 302K, 303K, 309K, 317K.

P S 304. Introductory Physical Science II: Electricity, Light, and Optics.

Restricted to students outside the College of Natural Sciences. Inquiry laboratory approach to electricity, magnetism, waves, light, and optical instruments. Four hours of integrated laboratory and lecture a week for one semester. Only one of the following may be counted: Physical Science 304, Physics 302L, 303L, 309L, 316, 317L.

Upper-Division Courses

P S 350. Physical Science for Elementary and Middle School Teachers.

Designed for kindergarten through sixth grade teachers with minimal preparation in mathematics (college algebra) and no preparation in physics. An inquiry laboratory in the basic concepts of light, electricity, and magnetism. Three hours of integrated laboratory and lecture a day for three weeks.

P S 367M. Physical Science: Methods of Astronomy.

Same as Astronomy 367M. An introductory, self-paced course in the methods of astronomy that emphasizes learning astronomical principles through observations. Six laboratory hours a week for one semester. May not be counted toward the Bachelor of Arts, Plan I, degree with a major in astronomy. Prerequisite: Upper-division standing and nine semester hours of coursework in mathematics and/or science, including one of the following: Physical Science 303, 304, Astronomy 301, 302, 303. Equivalent preparation in mathematics, physics, chemistry, or earth sciences may be substituted with written approval of the instructor.

P S 375. Individual Study in Physical Science.

Intended primarily for preservice and in-service teachers. Guided inquiry reading or laboratory research in physical science. Meets three times a week for one semester, for one hour each meeting. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and written consent of instructor.

Graduate Courses

Professional Courses

PBH - Public Health

Public Health: PBH

Lower-Division Courses

PBH 317. Introduction to Public Health.

Overview and basic principles of public health, including the public health system, concepts and tools for measuring health in populations, the relationship between public health and the medical care system, and the role of law and government in public health. Three lecture hours a week for one semester. Biology 317 and Public Health 317 may not both be counted.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the School of Human Ecology. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

PBH 320. Topics in Health Informatics and Health Information Technology.

Concepts, theories, and issues in health informatics and health information technology. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Biology 325 or 325H with a grade of C-.

Topic 1: Introduction to Health Informatics and Healthcare Analytics.

Restricted to students enrolled in the Health Informatics and Health Information Technology Professional Education Program. Consists...
of didactic lectures about the theoretical foundations of health informatics, database theory and management, healthcare standards, medical decision making, and healthcare analytics. Includes four hands-on workshops that relate to subjects taught in this course: HL7, SQL, Microsoft Excel, Microsoft Access, and Tableau. Also includes a research project over a six-eight week time period, production of a professional poster, and a presentation in a research poster forum judged by faculty, industry representatives, healthcare professionals, and policy makers.

**Topic 2: Fundamentals of Health Information Technology.** Restricted to students enrolled in the Health Informatics and Health Information Technology Professional Education Program. Explores healthcare policy (including privacy and security), current technologies (telemedicine, hospital information systems and computer and networking technologies) and the interoperable exchange of healthcare data.

**Topic 3: Project Management, Process Redesign and Quality Improvement.** Restricted to students enrolled in the Health Informatics and Health Information Technology Professional Education Program. Explores the basics of project management, including requests for proposals, scope, project planning, budgets and deliverables. Also discussed is an analysis of workflow processes and the impact of technology to improve these processes. Quality improvement, including tools to improve quality, is also presented. Includes several individual assignments and one team project.

**Topic 4: Operational Models of Healthcare Systems.** Restricted to students enrolled in the Health Informatics and Health Information Technology Professional Education Program. Explores the complex United States (US) health care system and explains the manner by which health care is delivered along a continuum of care. A special emphasis is placed on the operational delivery of ambulatory care and the manner in which acute care facilities are evolving. Subjects include a comparison of the US health care system to health care delivery in other countries, population health and health care finance/insurance - including discussion on public (Medicare and Medicaid) and private (Managed Care) coverage. Descriptions of current and emerging payment mechanisms, revenue cycle management, risk management, overhead reduction and practice management are covered in detail to allow students a robust understanding of business issues associated with health care delivery.

**Topic 5: Technology Competencies in Health Informatics and Health Information Technology.** Restricted to students enrolled in the Health Informatics and Health Information Technology Professional Education Program. Hands-on laboratory, team-taught by program faculty and staff with support from industry partners. Utilization of multiple health informatics and health information technology systems, health information exchange and interoperability software, and key analytics tools. This laboratory builds upon concepts taught in Public Health 320, Topic 1 and Public Health 320, Topic 2.

**Topic 6: Practicum and Professional Development in Health Informatics and Health IT.** Restricted to students enrolled in the Health Informatics and Health Information Technology Professional Education Program. Professional development lectures, activities, and a ten-day practicum experience off campus to experience working with industry, healthcare systems, policy makers, and other experts in the field.

PBH 323. Introduction to Health Informatics.

Introduces theoretical foundations of health informatics, database theory and management, healthcare standards, and medical decision making. Only one of the following may be counted: Biology 337 (Topic: Introduction to Health Informatics), 353, Public Health 323.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the School of Human Ecology. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

PBH 330. Topics in Public Health.

Concepts, theories, and issues in public health. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Biology 325 or 325H with a grade of at least C-.

An investigation of global health issues, including the principles of global health, the burden of morbidity and mortality, health determinants, health care and public health systems, socioeconomic development, and human rights. Three lecture hours a week for one semester. Biology 334 and Public Health 334 may not both be counted. Prerequisite: Public Health 356 and 358D with a grade of at least C- in each.

Recent developments and research methods in the field of public health will be explored. For each semester hour of credit earned, one lecture hour a week for one semester. Some topics may require additional hours. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 1: Senior Seminar in Public Health.** Restricted to Public Health majors. Discuss public health importance, learn how to demonstrate scholarly and applied experience in public health, and prepare to enter the public health workforce or continue in advanced public health or other professional programs. Additional prerequisite: The following coursework with a grade of at least C- in each: PBH 317, PBH 354, SDS 328M or 320E, PBH 356 and PBH 358D.

PBH 338. Environmental Health.

Introduction to the major areas of environmental health presented in the context of epidemiology, toxicology, and health effects. Subjects include water and air quality, solid and liquid waste, hazardous chemicals, radiation, infectious agents, food safety, and occupational health. Three lecture hours a week for one semester; several field trips to be arranged outside of the lecture. Prerequisite: Public Health 356 and 358D with a grade of at least C- in each.

PBH 341R. Public Health Research.

Students conduct public health research, mentored by professionals at public health practice agencies or faculty at graduate schools of public health throughout Texas. An average of twelve hours of fieldwork a week for a total of at least 180 hours. May be repeated for credit. Prerequisite: Biology 325 or 325H with a grade of at least C-; students must also submit a proposal to the instructor.

PBH 354. Epidemiology I.

Restricted to public health majors. Introduction to basic principles and concepts in epidemiology, including descriptive epidemiology, association and causation, basic epidemiological study design, evidence-based decision analysis, and applications of epidemiology methods to basic and clinical science. Three lecture hours a week for one semester. Prerequisite: Public Health 317 with a grade of at least C-; and credit with a grade of at least C- or registration for Biology 325 or 325H, and
Statistics and Data Sciences 320E or 320H (or credit for Statistics and Data Science 328M).

**PBH 356. Health Behavior Theory and Practice.**
Restricted to public health majors. An introduction to social and behavioral theories that inform the discipline of public health and applied public health practice, including practical examples of how these theories inform and influence health promotion to understand and modify health-related behaviors. Focus on health inequities and inequalities of populations living in the United States and how underlying cultures and social structures impact the health of individuals and communities. Three lecture hours a week for one semester. Only one of the following may be counted: Public Health 356, 368D, or Sociology 368D. Prerequisite: The following coursework with a grade of at least C- in each: Public Health 354, Biology 325 or 325H, and Statistics and Data Sciences 320E or 320H (or credit for Statistics and Data Science 328M).

**PBH 358D. Health Policy and Health Systems.**
Explore an overview of the U.S. health care system and the impact of policy and legislative actions on the essentials of organization, financing, management, and delivery of private and public health care. Three lecture hours a week for one semester. Only one of the following may be counted: Health and Society 330, Public Health 358D, Sociology 358D. Prerequisite: The following coursework with a grade of at least C- in each: Public Health 354, and Statistics and Data Sciences 320E (or 328M).

**PBH 361P. Public Health Internship.**
Includes a public health research project off campus at a public health practice agency or a graduate school of public health. The equivalent of twelve lecture hours a week for one semester, with additional hours to be arranged. May be repeated once for credit. Offered on the letter-grade basis only. Prerequisite: Biology 325 or 325H and Statistics and Data Sciences 328M with a grade of at least C- in each; and completion and approval of an internship application, available online at the Public Health website.

**PBH 362. Epidemiology II: Quantitative Methods.**
Introduction to advanced applied statistical and analytical techniques used for public health research and practice. Examine both continuous and categorical data often used in public health research and apply appropriate data analysis techniques for purposes of data collection, analysis, and evaluation. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and the following coursework with a grade of at least C- in each: Public Health 354, and Statistics and Data Sciences 320E or 320H (or credit for Statistics and Data Science 328M).

**PBH 363. Project Management, Planning, and Evaluation.**
Investigate the importance of and the key approaches used to lead, conduct and evaluate effective public health programs. Examine practical management and program evaluation tools and techniques such as budgeting, proposal/application development and use of logic models. Apply these concepts and tools within the context of service delivery and policy making in the field of public health. Recommended for students who are interested in the Certified Associate in Project Management (CAPM) exam from the Project Management Institute. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and the following coursework with a grade of at least C- in each: Public Health 354 and Statistics and Data Sciences 320E or 320H (or credit for Statistics and Data Science 328M).

**PBH 364. Field Epidemiology.**
Explore an overview and basic principles of field epidemiology including initiating operations, collecting and managing data, analyzing and interpreting data, developing interventions, and communicating during investigations Three lecture hours a week for one semester. Prerequisite: Upper-division standing, and the following coursework with a grade of at least C- in each: Public Health 354 and Statistics and Data Sciences 320E or 320H (or credit for Statistics and Data Science 328M).

**PBH 365. Public Health Informatics.**
Examine fundamental concepts in the application of informatics and information technology to the practice of public health. Investigate how interoperable information systems are used to facilitate a variety of public health functions, including outbreak management, biosurveillance, disease prevention, and electronic laboratory reporting. Three lecture hours a week for one semester. Prerequisite: Upper-division standing, and the following coursework with a grade of at least C- in each: Public Health 354 and Statistics and Data Sciences 320E or 320H (or credit for Statistics and Data Science 328M).

**PBH 366. Global Health in Action.**
Restricted to Public Health majors. Interact with non-profit organizations to improve social determinants of health in communities globally. Participate in activities including needs assessments; Internal Review Board (IRB) applications; data collection, management, analysis, and visualization; report preparation; and resource identification as well as gain cultural understanding of the community. Three lecture hours a week for one semester Public Health 337 (Topic: Global Health in Action) and 366 may not both be counted. Prerequisite: Upper-division standing and the following coursework with a grade of at least C- in each: Public Health 354 and Statistics and Data Sciences 320E or 320H (or Statistics and Data Science 328M).

**PBH 367. Emerging and Re-emerging Infectious Diseases.**
Explore, research, and present emerging and re-emerging infectious diseases, including factors in disease emergence, animal reservoirs, and the principles that govern the detection, mitigation and control of pandemic disease. Study a detailed analysis of host-pathogen interactions, illuminating how viral and bacterial pathogens defeat the host’s immune defenses and cause disease. Examine representative emerging and re-emerging pathogens, case-based outbreak investigations, and individual case studies. Three lecture hours a week for one semester. Public Health 337 (Topic: Emerg/Re-emerg Infect Diseases) and 367 may not both be counted. Prerequisite: PBH 354 and BIO 326M or BIO 326R, or consent of instructor.

**PBH 379H. Honors Tutorial Course.**
Supervised individual research on a special topic in public health, leading to an honors thesis and an oral presentation. May be based on laboratory, library, or field research. Three lecture hours a week for one semester. May be repeated once for credit. May be repeated for credit. Prerequisite: Upper-division standing; a university grade point average of at least 3.0; admission to the public health honors program; and consent of the honors adviser.

**Graduate Courses**

**Professional Courses**

**PED - Physical Education**

**Physical Education: PED**

**Lower-Division Courses**

**PED 101J. Swimming.**
Three laboratory hours a week for one semester. May be repeated for credit when the topics vary.

**Topic 1: Beginning Swimming I.** For nonswimmers. Elementary physical and mental adjustments, four basic strokes, water safety.
PED 102G. Skin Diving and Scuba Diving.
Training in underwater safety, skin and scuba skills, care of equipment. Culminates in PADI certification. Three laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Advanced-level swimming skills. Strong swimming and survival skills required.

Topic 1: Basic Scuba Diving. Classroom, pool, and open water training with emphasis on underwater safety, the skills of skin and scuba diving, equipment, the underwater environment, planning for a dive. Culminates in nationally recognized certification.

Topic 2: Intermediate Scuba Diving. Open to divers with Basic Certification. Classroom, pool, and open water training with emphasis on navigation, air consumption, emergency procedures, night dives. Culminates in nationally recognized certification.

Topic 3: Advanced Scuba Diving. Open to experienced divers with Intermediate Certification. Classroom, pool, and open water training with emphasis on deep dives, mapping, search and research diving, equipment rescue work. Culminates in nationally recognized certification.

PED 103L. Social Dance.
Three laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

Topic 1: Beginning Social Dance: Leads. Introduction to popular social dances, including swing, waltz, bachata, nightclub two-step, cross-step waltz, salsa, west coast swing, and tango. Emphasis on connecting with a dance partner and the art of leading and following. Must register for the role you want to learn: lead or follow. Only one of the following may be counted: Physical Education 103L (Topic 1), 103L (Topic 4), 103L (Topic 8). Additional prerequisite: Kinesiology 119 (Topic 16) or Kinesiology 119 (Topic 20), Physical Education 103L (Topic 1), 103L (Topic 7).

Topic 2: Intermediate Social Dance. An intermediate survey of popular social dances. Includes more complex partnering and variations in familiar and new dance styles. Only one of the following may be counted: Physical Education 103L (Topic 2), 103L (Topic 4), 103L (Topic 8). Additional prerequisite: Kinesiology 119 (Topic 16) or Physical Education 103L (Topic 1).

Topic 3: Advanced Social Dance. An advanced survey of popular social partner dances. Includes advanced partnering, role reversal, and an emphasis on creativity and style. Only one of the following may be counted: Physical Education 103L (Topic 3), 103L (Topic 5), 103L (Topic 6). Additional prerequisite: Physical Education 103L (Topic 4), and audition on first class meeting.

Topic 7: Beginning Social Dance: Follows. Introduction to popular social dances, including swing, waltz, bachata, nightclub two-step, cross-step waltz, salsa, west coast swing, and tango. Emphasis on connecting with a dance partner and the art of leading and following. Must register for the role you want to learn: lead or follow. Only one of the following may be counted: Kinesiology 119 (Topic 16), Kinesiology 119 (Topic 20), Physical Education 103L (Topic 1), 103L (Topic 7).

Topic 8: Intermediate Social Dance: Leads. Continue exploring the skills learned in Beginning Social Dance. Examine intermediate variations and partnering as well as new dances. Only one of the following may be counted: Physical Education 103L (Topic 2), 103L (Topic 4), 103L (Topic 8). Additional prerequisite: Physical Education 103L (Topic 1), or 103L (Topic 7); or Kinesiology 119 (Topic 16), or 119 (Topic 20).

PED 104P. Tennis.
Three laboratory hours a week for one semester. May be repeated for credit when the topics vary.

Topic 1: Beginning Tennis. For the nonplayer.
Topic 2: Advanced Beginning Tennis. For players with weak strokes and serves.
Topic 3: Intermediate Tennis. Additional prerequisite: Physical Education 104P (Topic 1) or consent of instructor.
Topic 4: Advanced Intermediate Tennis. Additional prerequisite: Physical Education 104P (Topic 1) or consent of instructor.
Topic 5: Advanced Tennis. Additional prerequisite: Physical Education 104P (Topic 1) or consent of instructor.

PED 104R. Racquetball.
Three laboratory hours a week for one semester. May be repeated for credit when the topics vary.

Topic 1: Beginning Racquetball. For the nonplayer.
Topic 2: Intermediate Racquetball. Additional prerequisite: Credit for Physical Education 104R (Topic 1) or consent of instructor.
Topic 3: Advanced Racquetball. Additional prerequisite: Credit for Physical Education 104R (Topic 2) or consent of instructor.

PED 105C. Handball.
Three laboratory hours a week for one semester. May be repeated for credit when the topics vary.

Topic 1: Beginning Handball. For the nonplayer.
Topic 2: Intermediate Handball. Additional prerequisite: Physical Education 105C (Topic 1) or consent of instructor.
Topic 3: Advanced Handball. Additional prerequisite: Physical Education 105C (Topic 2) or consent of instructor.
Topic 4: Handball Doubles. Additional prerequisite: Physical Education 105C or consent of instructor.

PED 105M. Fencing.
Three laboratory hours a week for one semester. May be repeated for credit when the topics vary.

Topic 1: Beginning Fencing: Foil.
Topic 2: Beginning Fencing: Epee.
Topic 5: Intermediate Fencing: Saber. Prerequisite: Physical Education 105M (Topic 1).
PED 105R. Karate/Tae Kwon Do.
Includes self-defense. Three laboratory hours a week for one semester. May be repeated for credit when the topics vary.

PED 105T. Judo.
Includes self-defense. Three laboratory hours a week for one semester. May be repeated for credit when the topics vary.

Topic 1: Beginning Judo. Prerequisite: No experience required.
Topic 2: Intermediate Judo. Prerequisite: Judo experience.

PED 105U. Beginning Hapkido/Self-Defense.
Three laboratory hours a week for one semester. Physical Education 105T (Topic: Beginning Hapkido/Self-Defense) and 105U may not both be counted.

PED 105V. Kickboxing and Self-Defense.
Explore basic karate and boxing hand strikes, kicks, and blocks. Work fighting combinations on pads and understand concepts of speed and power. Examine conditioning and practical self-defense strategies. Three laboratory hours a week for one semester.

PED 106C. Conditioning.
Three laboratory hours a week for one semester. May be repeated for credit when the topics vary.

Topic 1: Swim Conditioning. Additional prerequisite: Comfortable in deep water and able to swim 50 yards.
Topic 2: Cardiovascular and Weight Training.
Topic 3: Aerobic Walking.
Topic 4: Aerobics.
Topic 5: Body Works. Step training with emphasis on muscular/strength endurance work, and inclusion of yoga and pilates. Combines aerobic conditioning with muscular work for a shorter, more intense aerobic segment followed by a challenging muscular workout for the trunk and upper and lower body. Designed to improve body composition, aerobic capacity, muscular endurance, muscular strength, and overall flexibility.
Topic 6: Circuit Aerobics.
Topic 7: Weight Training.
Topic 10: Intermediate Yoga. Explore yogic physical and subtle body anatomy through poses, breath and meditation techniques. Follow alignment-based instruction to deepen poses learned in Beginner’s Yoga and to further explore new and more challenging poses. Employ breathing and meditation practices to experience increased self-regulation and self-awareness. Additional prerequisite: Physical Education 106C (Topic 5), 106C (Topic 9), 106C (Topic 12).

PED 106D. Running.
Three laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

Topic 1: Beginning Running.
Topic 2: Intermediate Running.
Topic 3: Advanced Running.

PED 107C. Archery.
Three laboratory hours a week for one semester. May be repeated for credit when the topics vary.

Topic 1: Beginning Archery.
Topic 3: Advanced Archery.

PED 107D. Golf.
Three laboratory hours a week for one semester. May be repeated for credit when the topics vary.

Topic 1: Beginning Golf.
Topic 2: Intermediate Golf. Additional prerequisite: One semester of beginning golf or an eighteen hole scoring average of seventy five to ninety.
Topic 3: Beginning Golf II. Physical Education 107D (Topic: Beginning Golf II) and 107D (Topic 3) may not both be counted. Additional prerequisite: Physical Education 107D (Topic 1).

PED 107L. Gymnastics.
Three laboratory hours a week for one semester. May be repeated for credit when the topics vary.

Topic 1: Beginning Tumbling and Trampoline.
Topic 2: Intermediate Tumbling and Trampoline. Prerequisite: Tumbling and trampoline experience.
Topic 3: Rhythmic Gymnastics. Combination of gymnastics and dance movements performed to music using the hand apparatus of balls, hoops, ribbons, or ropes.
Topic 4: Beginning Gymnastics I. Apparatus work in either men’s or women’s Olympic gymnastics events.
Topic 5: Beginning Gymnastics II. Apparatus work in either men’s or women’s Olympic gymnastics events. Prerequisite: Limited gymnastics experience.
Topic 6: Intermediate Gymnastics. Apparatus work in either men’s or women’s Olympic gymnastics events. Prerequisite: Gymnastics experience.
Introduction to the field of petroleum engineering. Overview

Enrollment limited to beginning students in petroleum and geosystems engineering majors. Introduction to computer programming and mathematical equations typically encountered in petroleum and geosystems engineering; methods to visualize data and solve engineering and mathematical equations with numerical methods; and applications of computers to general problem solving. Three lecture hours a week for one semester Petroleum and Geosystems Engineering 310 and 311 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Physics 303K with a grade of at least C, Physics 105M or 103M with a grade of at least C, and credit with a grade of at least C- or registration for Mathematics 427J.

Restricted to geosystems engineering and hydrogeology and petroleum engineering majors. Applications of thermodynamics and physical chemistry to petroleum and geosystems engineering. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Chemistry 302 with a grade of at least C-.

Used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Petroleum and Geosystems Engineering. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary. Offered on the letter-grade basis only.

Upper-Division Courses
PGE 421K. Physical and Chemical Behavior of Fluids II.
Applications of thermodynamics and physical chemistry to petroleum and geosystems engineering. Three lecture hours and three laboratory hours a week for one semester. Prerequisite: Petroleum and Geosystems Engineering 326.

PGE 322K. Transport Phenomena in Geosystems.
Applications of mass, heat, and momentum balances to fluid flow problems; shell balances; non-Newtonian fluids; transport processes through permeable media. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Engineering Mechanics 306, and Mathematics 427J or 427K with a grade of at least C- in each.

PGE 323K. Reservoir Engineering I: Primary Recovery.
Restricted to geosystems engineering and hydrogeology and petroleum engineering majors. Classification of subsurface reservoirs by type and recovery mechanism; reserve estimates based on material balance; steady-state and transient fluid flow in permeable reservoir rocks as applied to subsurface engineering problems. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: The following with a grade of at least C-: Petroleum and Geosystems Engineering 311 (or 310), 326, and 427; and credit with a grade of at least C- or registration in Petroleum and Geosystems Engineering 322K and 424.
PGE 323L. Reservoir Engineering II: Secondary and Tertiary Recovery.
Restricted to geosystems engineering and hydrogeology and petroleum engineering majors. Introduction to reservoir displacement processes; water and gas injection; enhanced recovery. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Credit with a grade of at least C- for Engineering Mechanics 319 or 322K, Petroleum and Geosystems Engineering 311 (or 310), 322K, 323K, and 424.

PGE 323M. Reservoir Engineering III: Numerical Simulation.
Restricted to geosystems engineering and hydrogeology and petroleum engineering majors. Mathematical equations governing fluid flow in reservoirs; numerical methods to solve the equations; numerical reservoir simulation; treatment of wells; history matching; a simulation project performed using a commercial simulator. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Petroleum and Geosystems Engineering 323L with a grade of at least C-.

PGE 424. Petrophysics.
Properties of rocks; measurement and interpretation of petrophysical properties; application of petrophysics to subsurface engineering problems; interaction of resident fluids with rocks. Extensive written reporting. Three lecture hours and three laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Geological Sciences 416M or 316P Petroleum and Geosystems Engineering 333T and Physics 303L with a grade of at least C- and credit or registration with at least a C- for Petroleum and Geosystems Engineering 322K.

PGE 326. Thermodynamics and Phase Behavior.
Restricted to geosystems engineering and hydrogeology and petroleum engineering majors. Basics of phase behavior, classical thermodynamics in terms of material and energy balances, and applications to changes of state of petroleum fluids. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: The following with a grade of at least C-: Chemistry 302, Physics 303K, Physics 105M or 103M, and Mathematics 408D or 408M.

PGE 427. Properties of Petroleum Fluids.
Restricted to students admitted to major sequence in geosystems engineering and hydrogeology or petroleum engineering. Principles of organic chemistry, phase behavior of multicomponent mixtures, properties of hydrocarbon gases and liquids and oil field waters, overview of laboratory phase behavior measurements, and material balance calculations. Three lecture hours and three laboratory hours a week for one semester. Petroleum and Geosystems Engineering 312 and 427 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Chemistry 302 and Petroleum and Geosystems Engineering 326 with a grade of at least C- in each.

PGE 430. Drilling and Well Completions.
Elements of rock mechanics, drilling fluids, factors affecting rate of penetration, and well completions, including casing and tubing design. Three lecture hours and one and one-half laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Engineering Mechanics 319 with a grade of at least C-, credit with a grade of at least C- or registration for Petroleum and Geosystems Engineering 322K.

PGE 333T. Engineering Communication.
Advanced technical communication skills, with emphasis on writing strategies for technical documents, oral presentations, and visual aids. Three lecture hours a week for one semester. Only one of the following may be counted: Aerospace Engineering 333T, Biomedical Engineering 333T, Communication 333T, Civil Engineering 333T, Chemical Engineering 333T, Electrical and Computer Engineering 333T, Electrical Engineering 333T, Engineering Studies 333T, Mechanical Engineering 333T, Petroleum and Geosystems Engineering 333T. Prerequisite: Rhetoric and Writing 306 with a grade of at least C-.

PGE 334. Reservoir Geomechanics.
Restricted to geosystems engineering and hydrogeology and petroleum engineering majors. Basic stress and strain analysis; pore pressure and in situ stress estimation and measurement; deformation mechanisms in rock; rock fracture description and analysis; wellbore stresses and failure; wellbore stability analysis; fault stability analysis; depletion-induced reservoir deformation; and hydraulic fracturing. Emphasis on applications to petroleum engineering. Two lecture hours and three laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Engineering Mechanics 319 and Petroleum and Geosystems Engineering 301 and 424 with a grade of at least C- in each.

PGE 338. Geostatistics and Data Analysis.
Restricted to geosystems engineering and hydrogeology and petroleum engineering majors. Explore basic frequentist and Bayesian probability and statistics, confidence and significance models, multivariate and spatial correlated features, feature engineering, spatial debiasing and estimation, stochastic simulation, uncertainty modeling, basic machine learning, and optimum decision making in the presence of uncertainty. Examine applications to spatial problems such as geology and subsurface resource development. Three lecture hours a week for one semester. Petroleum and Geosystems Engineering 337 and 338 may not both be counted. Offered on the letter-grade basis only. Prerequisite: The following coursework with a grade of at least C- in each: Mathematics 408D or 408M and Petroleum and Geosystems Engineering 311 (or 310).

Restricted to geosystems engineering and hydrogeology and petroleum engineering majors. Integrated petrophysical interpretation of well logs, core laboratory measurements, and geological data for static, dynamic, and geophysical appraisal of subsurface rock formations. Three lecture hours per week for one semester. Petroleum and Geosystems Engineering 358 and 368 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit for Geological Sciences 416M or 316P, Physics 303L, Physics 105N or 103N, and Petroleum and Geosystems Engineering 424 with a grade of at least C-.

PGE 361. Advanced Reservoir Engineering.
Secondary recovery methods; computer simulation of reservoir performance; applications to field problems. Three lecture hours a week for one semester. Prerequisite: Petroleum and Geosystems Engineering 326 and 323K.

PGE 362. Production Technology and Design.
Restricted to petroleum engineering majors. Analysis, specification, and characteristics of production systems; inflow performance; wellbore and tubing hydraulics; and artificial lift. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Petroleum and Geosystems Engineering 430 with a grade of at least C-.

Restricted to petroleum engineering majors. Domestic and worldwide regulations associated with petroleum leasing, including offshore areas, and environmental provisions concerning petroleum exploration and production. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Credit with a grade of at least C- or registration for Petroleum and Geosystems Engineering 365.
PGE 364. Natural Gas Engineering.
Production, transportation, and storage of gas; metering and gauging; performance of wells; estimation of gas reserves; prevention of waste and utilization of natural gas. Three lecture hours a week for one semester. Prerequisite: For petroleum engineering majors, Petroleum and Geosystems Engineering 326, 323K, and 362; for others, upper-division standing and consent of instructor.

Restricted to petroleum engineering majors. Derivation of profitability criteria for earth resource investments, project analysis in terms of the interrelation of technical and economic factors, investment analysis in the presence of uncertainty, and project planning. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Petroleum and Geosystems Engineering 311 (or 310) and 323K with a grade of at least C-.

Restricted to geosystems engineering and hydrogeology and petroleum engineering majors. Principles, applications, and interpretation of well logs as used in exploration and evaluation of subsurface formations. Three lecture hours a week for one semester. Petroleum and Geosystems Engineering 358 and 368 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit with a grade of at least C- or registration for Petroleum and Geosystems Engineering 424 with a grade of at least C-.

Restricted to petroleum engineering majors. Fundamentals of finance as applied to the petroleum industry, including petroleum project financing techniques, investigating sources of capital, and methods used to evaluate an oil company’s financial performance. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Credit with a grade of at least C- or registration for Petroleum and Geosystems Engineering 365.

PGE 372. Advanced Drilling and Well Completions.
Applications of geomechanics in wellbore and near-wellbore problems encountered in drilling and completing high-pressure, high-temperature wells on land and water locations. Three lecture hours a week for one semester. Petroleum and Geosystems Engineering 372 and 379 (Topic: Advanced Drilling and Well Completions) may not both be counted. Prerequisite: Petroleum and Geosystems Engineering 430 and 334 with a grade of at least C-.

PGE 373L. Geosystems Engineering Design and Analysis.
Restricted to geosystems engineering and hydrogeology and petroleum engineering majors. Team-oriented design projects involving the application of geologic and engineering methods to the solution of subsurface problems, using field case histories. Projects are selected for each student based on his or her petroleum engineering technical area option. The equivalent of three lecture hours a week for one semester, with additional hours to be arranged. Offered on the letter-grade basis only. Prerequisite: The following with a grade of at least C- in each: Petroleum and Geosystems Engineering 323K, 323L, 362, and 358 or 368.

PGE 176, 276, 376. Special Problems in Petroleum and Geosystems Engineering.
Independent investigation of an advanced subject in petroleum and geosystems engineering, for superior students only. Conference course. Prerequisite: Admission to an appropriate major sequence in engineering and written consent of instructor.

Restricted to students admitted to major sequence in geosystems engineering and hydrogeology or petroleum engineering. Overview of various technical, logistical, and managerial elements that are functionally integrated in deepwater operations, with emphasis on applications in the Gulf of Mexico. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Petroleum and Geosystems Engineering 323K, 430, 334, and 362.

Restricted to petroleum engineering and geosystems engineering and hydrogeology majors. Reservoir modeling using software tools for statistical analysis of reservoir data; variogram analysis and modeling; spatial interpolation (kriging); tools for data integration in kriging; stochastic simulation of rock-types (lithology), pay thickness/porosity, and permeability; inputting geological models into flow simulation; uncertainty assessment. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Geological Sciences 416M or 316P with at least a C-, and Petroleum and Geosystems Engineering 310, 337, and 323M with a grade of at least C-.

Special courses or seminars on recent developments in engineering. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Admission to an appropriate major sequence in engineering or consent of instructor; additional prerequisites vary with the topic.

Topic 3: Geothermal and Sustainable Energy Resources. Explore energy resources including geothermal, solar thermal, and biomass. Examine the foundations of these energy resources and the engineering approaches to recovering them. Build on basic knowledge in thermodynamics, flow through porous media, and chemistry. Petroleum and Geosystems Engineering 379 (Topic: Geothermal/Sustainable Energy Res) and 379 (Topic 3) may not both be counted. Offered on the letter-grade basis only. Additional prerequisite: Upper-division standing and consent of instructor.

Topic 4: Carbon Capture and Storage. Explore carbon dioxide emission into the atmosphere; carbon dioxide capture from industrial sources; and the utilization, underground storage, and monitoring of carbon dioxide. Petroleum and Geosystems Engineering 379 (Topic: Carbon Capture & Storage) and 379 (Topic 4) may not both be counted. Offered on the letter-grade basis only. Additional prerequisite: Upper-division standing and consent of instructor.

Topic 5: Energy and the Environment. Examine current and potential energy sources and how these might impact the earth's environment. Explore the consequences of energy production in terms of the environmental impact. Discuss carbon, water, and land footprints. Offered on the letter-grade basis only. Additional prerequisite: Upper-division standing.

Topic 7: Small Scale Fluid Flow. Examine the physics of fluid flow at the microscale in the context of pore-scale transport in subsurface systems and microfluidic models of subsurface systems. Review geological sediment deposition and how that motivates the appropriate microscopic length-scales. Explore equations of mass and momentum conservation for incompressible fluids. Develop simplifications towards the small-scale slow-flow limit to describe transport through pores and cover techniques in microfluidics and micromodels development. Petroleum and Geosystems Engineering 379 (Topic: Small Scale Fluid Flow) and 379 (Topic 7) may not both be counted. Offered on the letter-grade basis only. Additional prerequisite: Upper-division standing.

Topic 8: Oil, Gas, and Mineral Law. Explore basic oil and gas law concepts, the forms generally used in oil and gas transactions and the type of regulation commonly applied to the oil and gas industry.
with a focus on Texas oil and gas law and regulation. Petroleum and Geosystems Engineering 379 (Topic: Oil, Gas, and Mineral Law) and 379 (Topic B) may not both be counted. Offered on the letter-grade basis only. Additional prerequisite: Upper-division standing.

**Topic 9: Subsurface Machine Learning.** Explore fundamental probability and statistics; inference and prediction; and model training, testing, tuning, and validation. Examine workflows for integrating many features; workflows for anomaly detection, spatiotemporal prediction, and uncertainty integration. Communicate results within a project team to impact subsurface decision making. Three lecture hours a week for one semester. Petroleum and Geosystems Engineering 379 (Topic: Subsurface Machine Learning) and 379 (Topic 9) may not both be counted. Offered on the letter-grade basis only. Additional prerequisite: Mathematics 408D or 408M with a grade of at least C-.

**Topic 10: Artificial Lift.** Restricted to geosystems engineering and hydrogeology and petroleum engineering majors. Life of a well, well testing, gas and plunger lift, progressive cavity pumps, electric submersible pumps, and beam lift. Petroleum and Geosystems Engineering 379 (Topic: Artificial Lift) and 379 (Topic 10) may not both be counted. May be used to fulfill the technical elective requirement for the Bachelor of Science in Petroleum Engineering degree. Offered on the letter-grade basis only. Additional prerequisite: Petroleum and Geosystems Engineering 430 and 362 with a grade of at least C-.

**Topic 11: Facilities Management.** Restricted to geosystems engineering and hydrogeology or petroleum engineering majors. Petroleum fluid characteristics, process control, separators, metering, produced water, tanks, gas processing, gas compression, and liquid pumps. Petroleum and Geosystems Engineering 379 (Topic: Oil and Gas Production Facilities Design) and 379 (Topic 11) may not both be counted. May be used to fulfill the technical elective requirement for the Bachelor of Science in Petroleum Engineering degree. Offered on the letter-grade basis only. Additional prerequisite: Petroleum and Geosystems Engineering 362 with a grade of at least C-.

**Topic 12: Blowout Prevention and Control.** Background in hydrostatics, hydrodynamics, hydraulics, geomechanics, mechanical systems, and procedures as they apply to well control. Petroleum and Geosystems Engineering 379 (Topic: Blowout Prevention and Control) and 379 (Topic 12) may not both be counted. Offered on the letter-grade basis only. Additional prerequisite: Upper-division standing and Petroleum and Geosystems Engineering 430 with at least C-.

**Topic 13: Fundamentals of Enhanced Oil Recovery Techniques.** Overview of the fundamental displacement concepts of chemical, miscible, and thermal enhanced oil recovery methods. Also includes the concept of phase behavior in each process. Petroleum and Geosystems Engineering 379 (Topic: Fundamentals of Enhanced Oil Recovery Techniques) and 379 (Topic 13) may not both be counted. Offered on the letter-grade basis only. Additional prerequisite: Upper-division standing and Petroleum and Geosystems Engineering 323L (or 323) with a grade of at least C-.

**Topic 14: High Performance Computational Engineering.** An introduction to the UNIX environment in a scientific computing context, including instruction in several import UNIX applications to improve user productivity. Examine the differences between various parallelization styles of computing and develop a basic working understanding of how to utilize the application programming interfaces (APIs) in scientific applications. Three lecture hours a week for one semester. Petroleum and Geosystems Engineering 379 (Topic: High Performance Comp Eng) and 379 (Topic 14) may not both be counted. Offered on the letter-grade basis only. Additional prerequisite: Upper-division standing; Mathematics 408D or 408M and Petroleum and Geosystems Engineering 310 with a grade of at least C-.

**Topic 15: E4: The Earth, Natural Resources, and Sustainability.** Application of logic, common sense, the fundamental laws of mass and energy conservation, as well as more advanced thermodynamics to evaluate overall efficiencies of major human energy supply schemes such as fossil, nuclear, solar, wind, and biomass to define and quantify the irreversible linear processes and sustainable/unsustainable cycles. Petroleum and Geosystems Engineering 379 (Topic: E4: Earth, Environment, Energy) and 379 (Topic 15) may not both be counted. Offered on the letter-grade basis only. Additional prerequisite: Upper-division standing; and credit with a grade of at least C- in each of the following: Chemistry 302, Mathematics 408C or 308K, Physics 303K, Petroleum and Geosystems Engineering 310, and 326.

**Topic 16: Hydraulic Fracture Design and Evaluation.** Overview of Formation evaluation; elasticity; in situ stress calculation and measurement; fracture initiation; basic equations of fracture mechanics; 2- and 3-dimensional fracture models; fluid rheology; proppant settling; pipe friction/surface pressure calculations; treatment pressure analysis; fracture diagnostics; fracturing from horizontal and deviated wells; and treatment design and completions. Petroleum and Geosystems Engineering 379 (Topic: Hydraulic Fracture Design and Evaluation) and 379 (Topic 16) may not both be counted. Offered on the letter-grade basis only. Additional prerequisite: Upper-division standing and Petroleum and Geosystems Engineering 334 (or 432) with a grade of at least C-.

**Topic 17: Applied Subsurface Geology.** Principles and techniques for subsurface geologic interpretation, including subsurface mapping; construction of cross-sections; core description and analysis; stratigraphic interpretation of well logs; and stratigraphic and facies interpretation of seismic data. Petroleum and Geosystems Engineering 379 (Topic: Applied Subsurface Geology) and 379 (Topic 17) may not both be counted. Offered on the letter-grade basis only. Additional prerequisite: Geology 416M or 316P with a grade of at least C-.

**Topic 18: Wellbore Mechanics and Managed Pressure Drilling.** Operational topics will draw from drilling fluids engineering; drilling system engineering; rig and wellbore hydraulics; ROP parameters and drilling optimizations; wellbore stability; fracture and pore pressure gradients; mud weight windows; in-situ and near-wellbore stress states; lost circulation; pressure control; pipe sticking; and other situations common to drilling operations. Petroleum and Geosystems Engineering 379 (Topic: Wellbore Mechanics and Managed Pressure Drilling) and 379 (Topic 18) may not both be counted. Offered on the letter-grade basis only. Additional prerequisite: Upper-division standing and Petroleum and Geosystems Engineering 430.

**Topic 19: Advanced Well Construction.** Focus on advanced topics in drilling fluids, cementing, hydraulics, managed pressure and dual gradient drilling, advanced well control and casing design, complex well design (DW, HPHT, Arctic), and well completions. Petroleum and Geosystems Engineering 379 (Topic: Advanced Well Construction) and 379 (Topic 19) may not both be counted. Offered on the letter-grade basis only. Additional prerequisite: Upper-division standing and Chemistry 302, Mathematics 408D, Petroleum and Geosystems Engineering 326, 430, Physics 303K, 103M.

**Topic 20: Drilling Engineering and Operations Management.** Restricted to non-petroleum engineering majors. A broad overview of the key elements of today’s drilling engineering discipline, including an understanding of rigs and rig equipment, familiarity with drilling fluids, cementing, directional drilling techniques etc., up to understanding of casing design, well control and the application of new & emerging drilling and completion technologies. Petroleum and Geosystems Engineering 379 (Topic: Drilling Engineering and Operations Management) and 379 (Topic 20) may not both be counted. Offered on the letter-grade basis only. Additional prerequisite: Mathematics 408D, Physics 303K, 103N, and Petroleum and Geosystems Engineering 326 with a grade of at least C-.

**Topic 21: Wellbore to Reservoir Geomechanics.** Applications from offshore to unconventional. Applications of fluid flow/geostructures
concepts at wellbore, near-wellbore and reservoir scales; vertical, inclined, and horizontal wells; drilling, completion, production and reservoir applications; sandstones, shales, carbonates Petroleum and Geosystems Engineering 379 (Topic: Wellbore Reservoir Geomech) and 379 (Topic 21) may not both be counted. Offered on the letter-grade basis only. Additional prerequisite: PGE 323K, PGE 430 and PGE 362 with a grade of at least C; registration or grade of at least C- in PGE 334.

PGE 679H. Undergraduate Honors Thesis.
Research performed during two consecutive semesters under the supervision of an engineering faculty member; topics are selected jointly by the student and the faculty member with approval by the director of the Engineering Honors Program. The student makes an oral presentation and writes a thesis. Individual instruction for two semesters. Students pursuing both the Bachelor of Arts, Plan II, and a bachelor’s degree in engineering may use this course to fulfill the thesis requirement for the Bachelor of Arts, Plan II. Prerequisite: For 679HA, enrollment in the Engineering Honors Program; for 679HB, Petroleum and Geosystems Engineering 679HA and enrollment in the Engineering Honors Program.

Graduate Courses

PGE 380, 680. Advanced Petroleum Laboratory for Master’s Degree Candidates.
For each semester hour of credit earned, the equivalent of one class hour a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and twelve semester hours of upper-division coursework in petroleum and geosystems engineering.

PGE 381. Drilling Engineering.
Not open to students who have a degree in petroleum engineering. Basic drilling terminology and advanced drilling engineering topics. Three lecture hours a week for one semester. Required for students pursuing the doctoral degree in petroleum engineering. Prerequisite: Graduate standing in petroleum engineering.

PGE 381K. Engineering Analysis.
Application of classical methods of mathematical analysis to problems frequently encountered in engineering applications. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

PGE 381L. Advanced Petrophysics.
Measurement, interpretation, and analysis of petrophysical properties of petroleum reservoir rocks. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

PGE 381M. Transport Phenomena.
Three lecture hours a week for one semester. Prerequisite: Graduate standing in computational and applied mathematics, engineering, or geological sciences.

PGE 382. Basic Geological Concepts for Engineers.
Basic geological principles for students with little or no geological background. Three lecture hours a week for one semester. Prerequisite: Graduate standing in petroleum or civil engineering.

PGE 382K. Theory and Application of Reservoir Transients.
Mathematical development and application of multiple pressure transients in well and reservoir systems. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

The use of numerical methods and computers in the solution of petroleum and geosystems engineering problems. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

PGE 383. Special Topics in Petroleum and Geosystems Engineering.
Recent literature on petroleum production practice and petroleum and geosystems engineering problems. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in computational and applied mathematics, engineering, or geological sciences. Students seeking to enroll in any seminar must present technical prerequisites satisfactory to the instructor.

Topic 2: Advanced Drilling Fluids.
Topic 5: Thermal Recovery.
Topic 10: Numerical Solution of Time-Dependent Problems.
Topic 12: Near Wellbore Problems.
Topic 16: Topics in Computational Methods.
Topic 17: Naturally Fractured Reservoirs.
Topic 20: Geostatistics.
Topic 24: Natural Gas Engineering.
Topic 28: Macroeconomics of Petroleum.
Topic 33: Advanced Drilling and Well Completion.
Topic 35: Advanced Production Engineering.
Topic 38: Chromatographic Transport and Geochemical Modeling.
Topic 39: Design and Analysis of Pumping Systems.
Topic 41: Energy Finance.
Topic 46: International Petroleum Concessions and Agreements.
Topic 50: Reservoir Applications of Foam.

Topic 57: Deepwater Operations. Overview of various technical, logistical, and managerial elements that are functionally integrated in deepwater operations, with emphasis on applications in the Gulf of Mexico.
Topic 58: Applied Reservoir Characterization. Reservoir modeling using software tools for statistical analysis of reservoir data; variogram analysis and modeling; spatial interpolation (kriging); tools for data integration in kriging; stochastic simulation of rock types (lithology), pay thickness/porosity, and permeability; inputting geological models into flow simulation; uncertainty assessment.
Topic 59: Oil and Gas Production Facilities Design. Applied theory relating to field processing of hydrocarbons and water, including hydrocarbon and gas separation, gas sweetening and dehydration, gas compression, fluid metering, process control, corrosion, and safety systems. Additional prerequisite: Petroleum and Geosystems Engineering 381M and 384, or consent of instructor.
economics, including project analysis, production theory, industrial organization, markets and regulation, and environmental economics.

**Topic 61: Project Management.** Overview of project management theory and practice in the natural resource sector, with a focus on exploration and production of energy resources.

**Topic 62: Energy and the Environment.** A survey course covering current and potential energy sources, what the energy supply mix will be in the future, and how this might impact the environment.

**Topic 63: Subsurface Machine Learning.** Explore the theory and practice of data analytics and machine learning for subsurface resource modeling. Examine fundamental probability and statistics; data preparation and feature engineering, inference (clustering, multidimensional scaling) and prediction (regression, naive Bayes, decision trees, random forest, support vector machines and artificial neural nets); and model selection, training, testing, tuning, and validation. Three lecture hours a week for one semester. Petroleum and Geosystems Engineering 383 (Topic: Subsurface Machine Learning) and 383 (Topic 63) may not both be counted.

**Topic 64: High Performance Computing for Engineers.** Explore an introduction to the UNIX environment in a high-performance scientific computing context. Examine several import UNIX applications that can help users be more productive. Discuss the basic differences between various parallelization styles of computing, as well as how to utilize the application programming interfaces (APIs) in scientific applications. Three lecture hours a week for one semester Petroleum and Geosystems Engineering 383 (Topic: High Performance Comp Engr) and 383 (Topic 64) may not both be counted.

**Topic 65: Formation Evaluation of Unconventional Reservoirs.** Explore advanced formation evaluation of unconventional reservoirs through experimental and computational/analytical methods and workflows. Discuss the rock physics of unconventional reservoirs. Examine multi-physics and multi-scale formation data (well logs, core data, and geological information) to construct hydrocarbon reservoir models amenable to production forecast and improved development of available reserves in unconventional reservoirs. Petroleum and Geosystems Engineering 383 (Topic: Formatn Eval Uncnvnl Rsrvs) and 383 (Topic 65) may not both be counted.

**Topic 66: Data Analytics and Geostatistics.** Explore subsurface data analytics and geostatistics, from fundamental probability and statistics, univariate and multivariate analysis, representative sampling, spatial characterization and modeling, and uncertainty management to decision-making in the presence of uncertainty.

**Topic 67: Applied Subsurface Geology.** Explore subsurface geology as a window into stratigraphy, depositional environments, depositional processes, tectonic influences, and other knowledge that can be applied to petroleum systems. Examine principles and techniques for subsurface geologic interpretation through inquiry-based, hands-on activities using petroleum-industry datasets. Petroleum and Geosystems Engineering 383 (Topic: Applied Subsurface Geology) and 383 (Topic 67) may not both be counted.

**Topic 68: Digital Rock Physics.** Examine current modalities used in imaging porous medium structure, transport within, or its deformation. Discuss the analysis and visualization of 2D or 3D images, quantifying properties of interest (such as porosity, tortuosity, areas or permeability) as well as the associated uncertainty. Delve into a combination of advanced image analysis algorithms, scientific visualization, and computation (based on the images). Explore digital rock physics: the images, their analysis, and using them in simulation of petrophysical properties of interest. Petroleum and Geosystems Engineering 383 (Topic: Digital Rock Petrophysics) and 383 (Topic 68) may not both be counted.

**Topic 69: Geothermal and Sustainable Energy Resources.** Explore energy resources including geothermal, solar thermal, and biomass. Examine the foundations of these energy resources and the engineering approaches to recovering them. Build on basic knowledge in thermodynamics, flow through porous media, and chemistry. Petroleum and Geosystems Engineering 383 (Topic: Geotherml/ Sustainable Energy Res) and 383 (Topic 69) may not both be counted.

**Topic 70: Advanced Geomechanics.** Examine the fundamentals of theoretical geomechanics and its application to problems in petroleum engineering. Explore the mechanics of porous solids and saturated porous solids, mechanical properties of real reservoir geofluids, plane strain solutions for typical applications and numerical solutions for particular problems, and thermo-hydro-mechanical coupled processes. Apply this knowledge to understand the deformational behavior of various geofluids found in petroleum engineering, to recognize situations in which geomechanical effects are important, and to choose the proper tools to solve geomechanical problems. Petroleum and Geosystems Engineering 383 (Topic: Advanced Geomechanics) and 383 (Topic 70) may not both be counted.

**Topic 71: Artificial Lift.** Explore the life of a well, well testing, gas and plunger lift, progressive cavity pumps, electric submersible pumps, and beam lift. Petroleum and Geosystems Engineering 383 (Topic: Artificial Lift) and 383 (Topic 71) may not both be counted.

**Topic 72: Carbon Capture and Storage.** Explore carbon dioxide emission into the atmosphere; carbon dioxide capture from industrial sources; and the utilization, underground storage, and monitoring of carbon dioxide. Petroleum and Geosystems Engineering 383 (Topic: Carbon Capture & Storage) and 383 (Topic 72) may not both be counted.

**Topic 73: Finite Element Methods.** Explore the basic concepts of the finite element method for two-point boundary value problems, elliptic and parabolic partial differential equations, and linear and nonlinear solvers. Examine the development of the method: weak formulations, approximating spaces, and construction and solution of linear systems. Petroleum and Geosystems Engineering 383 (Topic: Finite Element Methods) and 383 (Topic 73) may not both be counted.

**Topic 74: Writing Technical Papers.** Explore how to write technical papers, theses, and dissertations. Practice writing and editing technical works. Petroleum and Geosystems Engineering 383 (Topic: Writing Technical Paper in PGE) and 383 (Topic 74) may not both be counted.

**Topic 75: Inverse Problems in Geophysics and Petroleum Engineering.** Explore the basics of multi-parameter linear and nonlinear inversion of noisy measurements. Discuss inversion methods including deterministic, stochastic approaches, and machine-learning approaches. Examine examples of application from the fields of subsurface geophysics and petroleum engineering.

**Topic 76: Decision Analysis.** Explore the principles and application of techniques for the logical illumination of complex decision problems within any context. Examine utility theory; probability as a statement of belief, risk preference, value of information and control, probability assessment, influence diagrams, risk sharing and scaling, and life and death decision making. Discuss the principles and fundamental concepts for the normative theory of decision making under uncertainty. Develop a language, set of theories, and tools to transform complex decisions into ones where the course of action is clear. Petroleum and Geosystems Engineering 383 (Topic: Decision Analysis) and 383 (Topic 76) may not both be counted.

**Topic 77: Small-Scale Fluid Flow.** Examine the physics of fluid flow at the microscale in the context of pore-scale transport in subsurface systems and microfluidic models of subsurface systems. Review geological sediment deposition and how that motivates the appropriate microscopic length-scales. Explore equations of mass and momentum conservation for incompressible fluids. Develop simplifications towards the small-scale slow-flow limit to describe transport through pores and cover techniques in microfluidics and micromodel development. Petroleum and Geosystems Engineering
PGE 384. Advanced Thermodynamics and Phase Behavior.
Thermodynamic study of pressure/volume/temperature/composition relationships in oil and gas mixtures. Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing in petroleum engineering and twelve semester hours of upper-division coursework in petroleum and geosystems engineering.

PGE 385K. Advanced Multi-Well Formation Evaluation.
Advanced concepts in formation evaluation for the estimation of static and dynamic petrophysical properties of rocks from well logs, core data, and geological information. Multi-well data sets, seismic amplitude data, and regional geological studies are used to construct hydrocarbon reservoir models amenable to production forecast and improved development of available reserves. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and a course in fundamentals of well logging.

PGE 385M. Advanced Well-Logging and Correlation.
Advanced well-logging for the geologist and engineer, involving working problems with suites of well logs to cover advanced mapping and logging techniques. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing, Geological Sciences 383, and three semester hours of coursework in fundamentals of well logging.

The hydrodynamic equations governing the steady state flow of homogeneous fluids in porous media and their application to petroleum and geosystems engineering problems. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

Recovery by gas injection and water flooding. Three lecture hours a week for one semester. Prerequisite: Graduate standing in petroleum engineering and twelve semester hours of upper-division coursework in petroleum and geosystems engineering.

PGE 387K. Fundamentals of Enhanced Oil Recovery I.
Recent innovations in the recovery of petroleum by injecting fluids miscible with the oil or by application of heat to the reservoir. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

PGE 387L. Fundamentals of Enhanced Oil Recovery II.
Basic concepts and principles of chemical flooding methods of enhanced oil recovery, which include polymer flooding, surfactant-polymer flooding (SP), alkaline-surfactant-polymer flooding (ASP), chemical imbibitions by wettability alteration methods and surfactant-gas (SG) methods, and also some comparisons with other EOR methods such as miscible gas flooding when appropriate and as time permits. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

PGE 388. Advanced Reservoir Engineering.
Basic concepts of reservoir engineering, with applications to the production of hydrocarbons from both gas and oil reservoirs. Examines the governing equations for flow in permeable media, as well as concepts such as streamline flow; pseudo-steady-state flow, fractional flow, and both immiscible and miscible flow. Uses black oil and compositional reservoir simulators. Three lecture hours a week for one semester. Prerequisite: Graduate standing in computational and applied mathematics, engineering, or geological sciences. Students must present technical prerequisites satisfactory to the instructor.

Engineering justification for capital outlay in the petroleum industry. Three lecture hours a week for one semester. Prerequisite: Graduate standing in engineering or geological sciences.

PGE 390, 390L, 690, 990. Advanced Laboratory for Doctoral Candidates.
For each semester hour of credit earned, the equivalent of one class hour a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in petroleum engineering.

PGE 392K. Numerical Simulation of Reservoirs.
Development and application of reservoir simulator models to primary and secondary recovery processes in reservoir engineering. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

PGE 393, 293, 393. Research Seminar.
For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit when the topics vary. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

PGE 397M. Graduate Research Internship.
For students holding Master of Science degrees from other institutions who wish to pursue Doctor of Philosophy degrees at the University of Texas at Austin. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of the graduate adviser and the dean of the Cockrell School of Engineering.

PGE 698. Thesis.
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in petroleum engineering and consent of the graduate adviser; for 698B, Petroleum and Geosystems Engineering 698A.

PGE 398R. Master's Report.
Preparation of a report to fulfill the requirement for the master's degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in petroleum engineering and consent of the graduate adviser.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses

PGS - Pharmacy Graduate Studies

Pharmacy Graduate Studies: PGS

Lower-Division Courses

Upper-Division Courses

Graduate Courses

PGS 380F. Biomedical Pharmacology I.
Basic neurotransmission and pharmacological principles. Physiological effects of drugs used in disease states including neurological, cardiovascular, psychiatric disorders, and pain relief. Three lecture
hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and experience or prior coursework in physiology, biochemistry, or organic chemistry.

PGS 380G. Biomedical Pharmacology II.
Explore fundamental concepts of pharmacology, pharmacologic agents and relevant physiology and disease pathophysiology in the areas of renal, hematopoiesis; immune/asthma/allergy; endocrine; anti-virals and anti-retrovirals; cancer therapeutics and immunotherapy. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing; Pharmacy Graduate Studies 380F, or consent of instructor.

Three, six, or nine laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

PGS 180M, 280M, 380M. Advanced Pharmaceuticals.
For each semester hour of credit earned, one lecture hour a week for one semester. Pharmacy 180M, 280M, 380M and Pharmacy Graduate Studies 180M, 280M, 380M may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

PGS 380S. Basic Principles in Experimental Design and Statistics.
Basic principles in experimental design and statistics with a focus on real world situations that may be encountered while performing scientific research. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

PGS 380T. Texas Venture Labs Startup Practicum.
Places students in teams and connects them with Austin-area startup companies. The teams then execute business consulting projects for the startup companies. Explores how these projects help companies better understand their market, competition, business model, etc, in order to accelerate their path to market and funding decisions. Three lecture hours a week for one semester. Only one of the following may be counted: Aerospace Engineering 396 (Topic: Texas Venture Labs Practicum), Electrical Engineering 390V (Topic: Texas Venture Labs Practicum), Engineering Mechanics 397 (Topic: Texas Venture Labs Practicum), Management 385 (Topic: Texas Venture Labs Practicum), Mechanical Engineering 397 (Topic: Texas Venture Labs Practicum), Pharmacy Graduate Studies 380M (Topic: Texas Venture Labs Startup Practicum). Prerequisite: Graduate standing.

PGS 381F. Product Development.
Application of physical-chemical principles to the formulation and development of stable and bioavailable drug delivery systems. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing in the College of Pharmacy, or consent of instructor.

PGS 381G. Advanced Manufacturing Pharmacy.
Physical-mechanical properties of compacts, drugs, and polymers. Properties of biodegradable and nonbiodegradable polymers in pharmaceutical formulations. Process validation and pilot plant scale-up. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing in the College of Pharmacy, or consent of instructor.

PGS 381H. Advanced Pharmaceutical Processing.
Didactic and laboratory exposure to pharmaceutical processes used in the design, development, and optimization of drug delivery systems. Emphasis on equipment and machinery used in pharmaceutical manufacturing of these dosage forms, with discussion of other issues, such as technology transfer and scale-up. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing in the College of Pharmacy, or consent of instructor.

PGS 181J, 281J, 381J. Advanced Pharmacy Administration: Laboratory Research.
Three, six, or nine laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

PGS 181M, 281M, 381M. Advanced Pharmacy Administration.
For each semester hour of credit earned, one lecture hour a week for one semester. Pharmacy 181M, 281M, 381M and Pharmacy Graduate Studies 181M, 281M, 381M may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

PGS 381N. Health Care Systems.
Overview of the health care system in the United States and examination of the classic and contemporary literature on managed health care systems, with emphasis on pharmacy-related issues. Studies the advantages, disadvantages, and effects of these systems on patients, providers, and payers. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

PGS 381V. Communication Skills for Translational Scientists.
Explores oral and written communication skills for scientists conducting translational research at the interface of basic and clinical science. Introduction to the skills necessary to successfully convey medication and healthcare-related data in a professional manner. Involves discussions addressing subjects such as medical writing, grant writing, abstract development, and poster design. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

PGS 381W. Molecular and Pharmacological Basis of Therapeutics.
Broad issues of molecular pharmacotherapeutics, including potential and challenge for optimization of drug therapy, implications for drug development and regulation, ethical and social aspects of pharmacogenomics, signal transduction, use of knock-out mice, and informed consent process in pharmacogenomic research. Three lecture hours a week for one semester. Pharmacy 381W and Pharmacy Graduate Studies 381W may not both be counted. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

PGS 382F. Analytical Methods in Biologics Formulation.
Explore theory and practice of techniques used to characterize and analyze pre-formulated and formulated biologics, as well as basic biology specific to formulation sciences. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

PGS 282J. Advanced Pharmacotherapy Seminar I.
Discussion of advanced pharmacotherapeutics topics, case presentations, and journal clubs at the advanced practitioner level. Two lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.
PGS 282K. Advanced Pharmacotherapy Seminar II.
Discussion of advanced pharmacotherapeutics topics, case presentations, and journal clubs at the advanced practitioner level. Two lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

PGS 382R. Recent Advances in Pharmaceutics.
Presentation of topics of current research interest in physical pharmacy, biopharmaceutics, and pharmacokinetics. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

PGS 282S, 382S. Advanced Biopharmaceutics.
Provides students with a more comprehensive background in biopharmaceutics and the drug approval process. For each semester hour of credit earned, one lecture hour for one semester. Only one of the following may be counted: Pharmacy 382S, Pharmacy Graduate Studies 280M (Topic: Advanced Biopharmaceuticals), 282S, 382S. Prerequisite: Graduate standing or consent of instructor.

PGS 382T. Basic Concepts of Tumor Biology.
A survey of cancer biology that includes tumor pathology, initiation, progression and metastasis, genetic instability, DNA damage and repair, cell cycle control, oncogenes, tumor suppressor genes, and the immune response. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

PGS 382U. Drug Discovery and Development.
Examine the fundamental principles of drug discovery and development including patenting, clinical trials, and marketing. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

PGS 382V. Pharmaceutical Biotechnology.
Application of protein, oligonucleotide, and related molecules as therapeutic agents: stability, formulation, kinetics, dynamics. Three lecture hours a week for one semester. Prerequisite: Graduate standing; and the following coursework: Pharmacy PharmD 387M, 287N, and 388M, or the equivalent; or consent of instructor.

PGS 182W. Ethics in Science and Clinical Practice.
Ethical considerations in the conduct of clinical research, including institutional review boards, adherence to protocol, Food and Drug Administration and related site reviews, protection of human subjects through informed consent and confidentiality, and the use of genetic banks in research. One lecture hour a week for one semester. Prerequisite: Graduate standing and consent of instructor.

PGS 383D. Neuropharmacology I.
An advanced survey of neurotransmitters and systems in the brain. Covers experimental approaches and pharmacological analysis at behavioral, neurochemical, and neuroanatomical levels to determine mechanisms of actions of drugs that act on the brain. Three lecture hours a week for one semester. Neuroscience 383D and Pharmacy Graduate Studies 383D may not both be counted. Prerequisite: Graduate standing.

PGS 383E. Neuropharmacology II.
Same as Neuroscience 383E. Explore neuropharmacological concepts related to brain development, organization and anatomy; neuroendocrinology, neuroimmunology and neuroinflammation; gut-brain axis; neurobiology of addiction; and others. Three lecture hours a week for one semester. Only one of the following may be counted: Neuroscience 383E, 385L. (Topic: Neuropharmacology II), Pharmacy Graduate Studies 383E. Prerequisite: Graduate standing and consent of instructor.

Examine primary challenges in formulating biologics. Compare relevant techniques to characterize and analyze biopharmaceuticals and explore how they are applied in pre-formulated and formulated biologics. Three lecture hours a week for one semester. Pharmacy Graduate Studies 380M (Topic: Analytical Methods in Biologics Formul) and 383G may not both be counted. Offered on the letter-grade basis only. Prerequisite: Graduate standing and a background in pharmaceutical sciences, mathematics, and chemistry.

PGS 383M. Health Innovation Entrepreneurship.
Explore a highly interactive and interdisciplinary approach for developing health innovation, including drug product, devices, and digital health solutions. Examine foundational entrepreneurial and innovation concepts for identifying and developing ideas, performing market validation, conducting customer discovery, assessing competition, and identifying skills for effectively working in teams. Three lecture hours a week for one semester. Only one of the following may be counted: Pharmacy Graduate Studies 380M (Topic: Entrepreneurship in Healthcare Innovation), 383M, Pharmacy PharmD 382R (Topic: Entrepreneurship in Healthcare Innovation), 383M. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

PGS 383N. Solution Theory and Disperse Systems.
The theory and technology of solutions and heterogeneous systems; applications of scientific principles to the design of pharmaceutical products; a study of factors influencing physical chemical characteristics, stability, and biopharmaceutical activity of solutions and coarse dispersions; review of recent literature. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

PGS 383P. Advanced Pharmacokinetics.
Study of the kinetics of absorption, distribution, metabolism, and excretion of drugs in the intact organism. Three lecture hours a week for one semester. Prerequisite: Graduate standing, and Pharmacy 252C or an equivalent pharmacokinetics course.

Pharmaceutical statistical analysis with a focus on choosing the appropriate statistical test to address both basic science and clinical research hypotheses. Students use the JMP software package to execute statistical analysis on their own pharmaceutical research projects. Three lecture hours a week for one semester. Prerequisite: Graduate standing in the College of Pharmacy or Translational Science Graduate Program; and an introductory statistics course or consent of instructor.

PGS 383R. Rate Processes in Pharmaceutical Systems.
A study of decomposition and stabilization of drug molecules in solutions and in solid dosage forms; principles of kinetics and diffusion as applied to pharmaceutical systems. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

PGS 383V. Research Design and Methods.
Explore a practical approach to classical experimental design, hypothesis generation, development of translational research methods that incorporate principles of basic and clinical science. Examine writing with a focus on grantsmanship and protocol development. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.
PGS 383W. Biopharmaceutical Analysis.
Analytical methods for the isolation and identification of drugs and their metabolites, specific genes, and proteins in biological fluids. Three lecture hours a week for one semester. Prerequisite: Graduate standing in pharmacy, completion of a PharmD degree, and concurrent enrollment in Pharmacy Graduate Studies 184U.

PGS 384G. Pharmacological Mechanisms of Addiction.
Overview of neurobiological and pharmacological mechanisms of addiction, with in-depth discussion of recent literature in the field of addiction and animal models of addiction. Three hours of lecture per week for one semester. Only one of the following may be counted: Neuroscience 385L (Topic: Pharmacologic Mechs of Addictn), Pharmacy Graduate Studies 384G, 388K (Topic: Pharmacologic Mechs of Addictn). Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

PGS 384K. Fundamentals of Toxicology.
An organ system approach to advanced topics in general toxicology. Three lecture hours a week for one semester. Required course for pharmacy and toxicology graduate students specializing in toxicology. Offered on the letter-grade basis only. Prerequisite: Graduate standing, and some background in pharmacology or consent of instructor.

PGS 384L. Biochemical and Molecular Toxicology.
Discussion of mechanisms of selected drugs and toxicants. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing, and some background in pharmacology or consent of instructor.

In-depth analysis of the social and behavioral issues that affect medication use, using the content, theories, and methodologies associated with patient compliance research. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

PGS 384T. Advanced Epidemiology.
Review of major research methods and current issues within drug epidemiology. Emphasis on application of methods by reviewing historical and contemporary literature/examples. Areas presented include: how to read, interpret, design, conduct, review, critique and evaluate pharmacoepidemiology studies. Three lecture hours a week for one semester. Pharmacy 381M (Topic: Advanced Epidemiology) and Pharmacy Graduate Studies 384T may not both be counted. Prerequisite: Graduate standing, and Pharmacy Graduate Studies 384S or consent of instructor.

PGS 384U. Biopharmaceutical Analysis Laboratory.
Analytical methods for the isolation and identification of drugs and their metabolites, specific genes, and proteins in biological fluids. One lecture hour and three laboratory hours a week for one semester. Prerequisite: Graduate standing in pharmacy, registration for Pharmacy Graduate Studies 383W, and completion of a PharmD degree.

PGS 385D. Responsible Conduct of Science.
Ethical considerations in the conduct of science, including issues of animal welfare and/or human subjects research, data analysis, fraud, publications, misconduct, intellectual property, grants, peer review, and mentor responsibility. One lecture hour a week for one semester. Neuroscience 185D and Pharmacy Graduate Studies 185D may not both be counted. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and admission to the doctoral program in pharmacy, or consent of instructor.

PGS 385G. Grant Writing for Pharmacology and Toxicology.
Subjects include federal and nonfederal grants, specific aims, preliminary data, hypothesis testing, experimental design, peer review, responding to critiques, biosketch, and budgeting. One lecture hour a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in the pharmacology and toxicology program or consent of instructor.

Three, six, or nine laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

PGS 385L. Clinical Pharmacokinetics.
In-depth analysis of pharmacotherapeutic regimens, using complex mathematical models. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

PGS 385M. Advanced Pharmacokinetics and Pharmacodynamics.
Continuation of Pharmacy Graduate Studies 385L. Advanced pharmacokinetic and pharmacodynamic concepts and their application. Three lecture hours a week for one semester. Prerequisite: Graduate standing, Pharmacy Graduate Studies 385L and consent of instructor.

PGS 185N. Translational Science PhD Seminar.
Restricted to students pursuing a Doctor of Philosophy in Translational Science. Explore the scientific and operational principles underlying each step of the translational process, with an emphasis on multi-disciplinary, collaborative research and methods to move discovery more efficiently and effectively into application. One lecture hour a week for one semester. Pharmacy Graduate Studies 185N and 186N (Topic: Translational Sci PHD Seminar) may not both be counted. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

One, two, or three lecture hours a week for one semester. Pharmacy 185W and Pharmacy Graduate Studies 285W, 385W may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor; additional prerequisites vary with the topic.

PGS 386C, 486C. Cellular and Systems Physiology I.
Basic principles of human physiology and anatomy in relation to drug action. Includes cellular and subcellular physiology, membrane transport, electrophysiology, synaptic transmission, and autonomic, neurological, and cardiovascular physiology and anatomy. For each semester hour of credit earned, one lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing in the Institute for Cellular and Molecular Biology, the Institute for Neuroscience, pharmacy, or psychology, and consent of instructor.
PGS 386D, 486D. Cellular and Systems Physiology II.
Principles of cellular and systems physiology. Subjects include immunology, kidney function, respiration, acid-base balance, blood and hematopoiesis, general endocrinology, neuroendocrinology, and reproduction. For each semester hour of credit earned, one lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing, and Pharmacy Graduate Studies 386C, 486C or consent of instructor.

PGS 186J, 286J, 386J. Advanced Medicinal Chemistry: Laboratory Research.
Modern laboratory techniques used in medicinal and natural products chemistry. Three, six, or nine laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

PGS 386M. Pharmaceutical Industry and Marketing.
Subjects include the structure, size, and regulation of the pharmaceutical industry, including good manufacturing practices; drug development, pricing, marketing, and channels of distribution; and issues that impact the drug development industry, including generic drug competition, patent life, active ingredient importation and finished drug product importation, drug counterfeiting and safety concerns, direct-to-consumer advertising, and the drug approval process. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

PGS 186N, 286N, 386N, 486N. Topics in Pharmacy.
Current issues in translational science. For each semester hour of credit earned, one lecture hour a week for one semester. Pharmacy 186N, 286N, 386N, 486N may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

PGS 386C. Pharmacy Association Management.
An introduction to the principles involved in managing pharmacy associations. Nine hours of fieldwork a week for one semester. Pharmacy 329C and Pharmacy Graduate Studies 386C may not both be counted. Prerequisite: Graduate standing and consent of instructor.

PGS 386D, 486D. Cellular and Systems Physiology II.
Principles of cellular and systems physiology. Subjects include immunology, kidney function, respiration, acid-base balance, blood and hematopoiesis, general endocrinology, neuroendocrinology, and reproduction. For each semester hour of credit earned, one lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing, and Pharmacy Graduate Studies 386C, 486C or consent of instructor.

PGS 387Q, 487Q. Communication Skills for Scientists.
Designed to enhance written and oral communication skills through lectures and practice. Covers grant writing, journal paper writing, poster presentation writing, and delivery. For every hour of credit earned, one lecture hour a week for one semester. Pharmacy 487Q and Pharmacy Graduate Studies 387Q, 487Q may not both be counted. Offered on the letter-grade basis only. Graduate standing in pharmacy, neuroscience, or a biological science; additional prerequisite for international students: completion of the University's English Certification Program or consent of instructor.

PGS 387Q, 487Q. Communication Skills for Scientists.
Designed to enhance written and oral communication skills through lectures and practice. Covers grant writing, journal paper writing, poster presentation writing, and delivery. For every hour of credit earned, one lecture hour a week for one semester. Pharmacy 487Q and Pharmacy Graduate Studies 387Q, 487Q may not both be counted. Offered on the letter-grade basis only. Graduate standing in pharmacy, neuroscience, or a biological science; additional prerequisite for international students: completion of the University’s English Certification Program or consent of instructor.

PGS 388C. Introductory Bioorganic Chemistry.
Survey of enzyme-catalyzed reactions, with emphasis on mechanism, experimental design, and applications in natural products biosynthesis. Three lecture hours a week for one semester. Prerequisite: Graduate standing, and undergraduate courses in organic chemistry and biochemistry or consent of instructor.

Three, six, or nine laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

For each semester hour of credit earned, one lecture hour a week for one semester. Pharmacy 188K, 288K, 388K and Pharmacy Graduate Studies 188K, 288K, 388K may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor; additional prerequisites vary with the topic.

PGS 288M. Fundamentals of Fluorescence Microscopy.
Same as Neuroscience 288M. Explores optics, image formation, functioning of epifluorescent and confocal microscopes, detector technology (cameras and photomultiplier tubes), immunofluorescence techniques, image analyses, and image presentation for publication. Study of the technology and science behind widely-used high-end microscope systems. One lecture hours and two lab hours a week for one semester. Only one of the following may be counted: Neuroscience 285L (Topic: Fundamentals of Fluorescence Microscopy), 288M, Pharmacy Graduate Studies 288K (Topic: Fundamentals of Fluorescence Microscopy), 288M. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

PGS 389C. Pharmacy Association Management.
An introduction to the principles involved in managing pharmacy associations. Nine hours of fieldwork a week for one semester. Pharmacy 329C and Pharmacy Graduate Studies 389C may not both be counted. Prerequisite: Graduate standing and consent of instructor.

PGS 389J. Advanced Pharmacotherapeutics of Cardiovascular Disorders.
Designed to provide the student with a sound knowledge and comprehension of contemporary pharmacotherapeutic regimens used in treating cardiovascular diseases. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

PGS 389M. Fundamentals of Health Innovations.
Explore foundational innovation and entrepreneurship concepts related to the process of developing novel drug therapies, medical devices, diagnostics, and digital health products and services. Three lecture hours a week for one semester. Only one of the following may be counted: Pharmacy Graduate Studies 389M (Topic: Fundamentals of Health Innovations), 389M, Pharmacy PharmD 382R (Topic: Fundamentals of Health Innovations), 389M. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

PGS 389P. Advanced Pharmacotherapeutics of Infectious Diseases.
Designed to provide the student with a sound knowledge and comprehension of contemporary therapeutic principles used in treating infectious diseases. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

PGS 189Q. Seminar in Alcohol Studies.
Presentations and discussion of current research topics in alcohol studies. One lecture hour a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

A comprehensive analysis of disease processes and a determination of appropriate therapeutic interventions for the treatment of those diseases. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor; additional prerequisites vary with the topic.
PGS 190H. Advanced Pharmaceutics Research Conference.
One lecture hour a week for one semester. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

PGS 390J. Data Analysis in Health Care.
Statistical analysis of research data using the computer and various statistical software programs. Three lecture hours a week for one semester. Prerequisite: Graduate standing, and an introductory course in statistics or consent of instructor.

PGS 390K. Experimental Design and Research Methodology in Health Care.
Principles and procedures of experimental, quasi-experimental, and non-experimental research designs; includes reliability, validity, data collection methods, qualitative study designs, and survey methodologies. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

PGS 390K. Experimental Design and Research Methodology in Health Care.
Principles and procedures of experimental, quasi-experimental, and non-experimental research designs; includes reliability, validity, data collection methods, qualitative study designs, and survey methodologies. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

PGS 390L. Principles of Research in Health Care.
In-depth discussion of the contemporary pharmacotherapy and patient care relating to hematology, oncology, and bone marrow transplantation. Two lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

Advanced methodologies used in pharmacy administration research; designed to build upon the skills covered in Pharmacy 390K. Explores data management issues and statistical procedures, with emphasis on the application of research methodology concepts and principles. Three lecture hours a week for one semester. Prerequisite: Graduate standing and Pharmacy Graduate Studies 390K.

PGS 391E. Advanced Hematology and Oncology Seminar I.
In-depth discussion of the contemporary pharmacotherapy and patient care relating to hematology, oncology, and bone marrow transplantation. Two lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

PGS 391F. Advanced Hematology and Oncology Seminar II.
In-depth discussion of the contemporary pharmacotherapy and patient care relating to hematology, oncology, and bone marrow transplantation. Two lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

PGS 391G. Advanced Health Outcomes and Pharmacy Practice Research Conference.
One lecture hour a week for one semester. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

PGS 392E. Clinical Research Methods I.
Defining a research question, general study design issues, cross-sectional and case-control studies, and diagnostic test evaluation. Two lecture hours a week for one semester. Prerequisite: Graduate standing.

PGS 392F. Clinical Research Methods II.
Prospective observational studies; randomized controlled trials, nonrandomized intervention studies; meta-analysis; and data synthesis, evaluation, and application. Two lecture hours a week for one semester.
PGS 196H. Advanced Medicinal Chemistry Research Conference.
One lecture hour a week for one semester. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

PGS 396M. Medicinal Chemistry: General Principles, Pharmacological Classification, and Mechanism of Action.
Introduction to medicinal chemistry, covering drug classes according to their pharmacological classification, structural class, and mechanism of action. Three lecture hours a week for one semester. Only one of the following may be counted: Pharmacy Graduate Studies 396M, Pharmacy PharmD 382R (Topic: Mdn Trends in Drug Design), 389E. Prerequisite: Graduate standing; and undergraduate coursework in organic chemistry and biochemistry, or consent of instructor.

PGS 196S. Seminar in Pharmacy.
One lecture hour a week for one semester. Pharmacy 196S and Pharmacy Graduate Studies 196S may not both be counted. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in pharmacy.

PGS 196T. Seminar in Toxicology.
Presentations and discussion of current research topics in toxicology. One lecture hour for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing, and admission to the Toxicology Training Program or consent of instructor.

PGS 097. Fundamentals for Teaching Assistants.
Skills, behaviours, and strategies for effective college teaching, with emphasis on pharmacy-related courses. One lecture hour a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing; Consent of the graduate adviser.

PGS 197H. Advanced Pharmacology Research Conference.
One lecture hour a week for one semester. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

PGS 397M. Drug Design and Synthetic Strategy.
A multiperspective approach to modern concepts and drug design and synthetic strategy. Three lecture hours a week for one semester. Prerequisite: Graduate standing; and undergraduate courses in organic chemistry and biochemistry, or consent of instructor.

PGS 197S. Seminar in Pharmacotherapy: Advanced Topics.
One lecture hour a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

PGS 698. Thesis.
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in pharmacy and consent of the graduate adviser; for 698B, Pharmacy Graduate Studies 698A.

PGS 398T. College Teaching Methodology.
Interdisciplinary course intended to provide a foundation of theoretical and practical knowledge about teaching at the post-secondary level. Instructional methods; instructional design; practice teaching; teaching philosophy; instructional technology; assessment of learning; class discussions; individual consultations. Three lecture hours a week for one semester. Only one of the following may be counted: Pharmacy 368T, Pharmacy Graduate Studies 398T, and Pharmacy PharmD 398T. Offered on the letter-grade basis only. Prerequisite: Graduate standing or consent of instructor.

Pharmacy 399W, 699W, 799W, 899W, 999W and Pharmacy Graduate Studies 399W, 699W, 799W, 899W, 999W may not both be counted. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses

PHL - Philosophy

Philosophy: PHL

Lower-Division Courses

PHL 301 (TCCN: PHIL 1301). Introduction to Philosophy.
Primarily for lower-division students. A survey of principal topics and problems in areas such as ethics, philosophy of science, philosophy of religion. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester. Philosophy 301 and 610QA may not both be counted.

PHL 301K (TCCN: PHIL 2316). Ancient Philosophy.
Same as Classical Civilization 304C (Topic 6). Primarily for lower-division students. An introduction to the philosophical achievements of the ancient world, concentrating on Plato and Aristotle. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Classical Civilization 304C (Topic: Ancient Philosophy), 304C (Topic 6), Philosophy 301K.

PHL 301L. Early Modern Philosophy.
Primarily for lower-division students. An introduction to the philosophical achievements of the seventeenth and eighteenth centuries, concentrating on figures such as Descartes, Hume, and Kant. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester.

PHL 302. World Philosophy.
Primarily for lower-division students. Basic issues of philosophy in Western and non-Western traditions, such as the nature of philosophy, its relation to religion and science, the self, knowledge, and virtue. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester.

PHL 302C. Ethics and Enlightenment.
Primarily for lower-division students. A study of non-Western ethics, especially in Hindu and Buddhist traditions. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester.

Primarily for lower-division students. Theories of human nature, such as those of Plato, Christianity, Marxism, and existentialism. Modern psychological and biological theories are included, as the interplay of nature and nurture in determining human conduct is explored. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester.

PHL 303M. Mind and Body.
Primarily for lower-division students. Introduction to philosophical issues about the nature of mind and its relation to body: What is mind? Do people have free will? How does psychology relate to neuroscience? Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester.
PHL 304. Contemporary Moral Problems.
Primarily for lower-division students. Philosophical examination of selected moral problems arising out of contemporary society and culture. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester.

PHL 304T. Introduction to Technology Ethics.
Examine ethical challenges that have been introduced or exacerbated by recent technological advancements. Three lecture hours or two lecture hours and one discussion hour a week for one semester. May not be counted.

PHL 305 (TCCN: PHIL 2321). Introduction to the Philosophy of Religion.
Same as Core Texts and Ideas 310 (Topic 3) and Religious Studies 305. A critical examination of various conceptions of God and of the relationship of the human and the divine. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester. Only one of the following may be counted: Core Texts and Ideas 310 (Topic: Introduction to the Philosophy of Religion), 310 (Topic 3), Philosophy 305, Religious Studies 305.

PHL 306. Philosophical Thinkers.
Primarily for lower-division students. An introduction to major areas of philosophy through the study of selected philosophers. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester. May be repeated for credit when the topics vary.

PHL 306D. Descartes.
Examine the philosophy of Rene Descartes. Three lecture hours or two lecture hours and one discussion hour a week for one semester.

PHL 306L. Mind, Matter, and Persons.
Examines the philosophy of John Locke. Three lecture hours or two lecture hours and one discussion hour a week for one semester.

PHL 310. Knowledge and Reality.
An introduction to basic issues in epistemology and metaphysics. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Philosophy 310 and 610QA may not both be counted.

PHL 610Q. Problems of Knowledge and Valuation.
Restricted to students in the Plan II Honors Program. Methods and aims of selected sciences, arts, and philosophy in the attainment of knowledge and in providing the basis for valuation. Three lecture hours and one discussion hour a week for two semesters. Philosophy 301 and 610QA may not both be counted; Philosophy 310 and 610QA may not both be counted; Philosophy 610QB and 318 may not both be counted. Prerequisite: For 610QA, admission to the Plan II Honors Program; for 610QB, Philosophy 610QA.

PHL 311. Argument.
Argument as a kind of discourse: deductive and inductive arguments; principles of reasoning; fallacies; practical applications. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester.

PHL 312 (TCCN: PHIL 2303). Introduction to Logic.
Logical structure of sentences and arguments; elementary symbolic methods; applications. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester. May not be counted by students with prior credit for Philosophy 313, 313K, 313Q, or 344K.

PHL 313. Introductory Symbolic Logic.
Introduction to symbolic logic (through first-order predicate logic); interpretations; formal proofs, consistency; some practical applications. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Philosophy 313, 313K, 313Q.

PHL 313K. Logic, Sets, and Functions.
Sets, relations, functions, sentential and predicate logic, proof techniques, algorithms, and elementary metatheory. Mathematically oriented. Three lecture hours and one laboratory hour a week for one semester. Only one of the following may be counted: Philosophy 313, 313K, 313Q.

PHL 313Q. Logic and Scientific Reasoning.
Introduction to formal proofs, semantics, quantifiers, inductive methods, decision theory, and scientific reasoning. Three lecture hours and one laboratory hour a week for one semester. Only one of the following may be counted: Philosophy 313, 313K, 313Q. Philosophy 313Q and Tutorial Course 310 may not both be counted. Prerequisite: Admission to the Plan II Honors Program.

PHL 315F. Philosophy and Film.
Formulation, analysis, and criticism of philosophical ideas in selected films. Three lecture hours or two lecture hours and one discussion hour a week for one semester.

PHL 315L. Philosophy and Literature.
Formulation, analysis, and criticism of philosophical ideas in selected works of literature. Three lecture hours or two lecture hours and one discussion hour a week for one semester.

PHL 316K. Science and Philosophy.
Introduction to scientific method, including discussion of the nature and goals of science. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester. May not be counted by students with credit for Philosophy 363.

PHL 317K. Introduction to the Philosophy of the Arts.
Classic issues in the philosophy of art and beauty, illustrated from the fine arts and contemporary media: literature, drama, music, painting, film, and television. Three lecture hours or two lecture hours and one discussion hour a week for one semester.

PHL 318 (TCCN: PHIL 2306). Introduction to Ethics.
Study of basic principles of the moral life, with critical examination of traditional and contemporary theories of the nature of goodness, happiness, duty, and freedom. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester. Philosophy 610QB and 318 may not both be counted.

PHL 318K (TCCN: PHIL 2307). Introduction to Political Philosophy.
Views of major political philosophers on humanity, nature, and society; discussions of contemporary political ideologies. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Philosophy. University credit is awarded for work in an exchange program; it may be counted as coursework taken in
Upper-Division Courses

**PHL 321K. Theory of Knowledge.**
Systematic and detailed study of major issues in the theory of knowledge, such as the distinction between knowledge and belief, the criteria of knowledge, the justification of knowledge-claims, and perception. Three lecture hours a week for one semester. Prerequisite: Six semester hours of coursework in philosophy.

**PHL 322. Science and the Modern World.**
The historical development and impact of scientific ideas through the modern period to the present. Three lecture hours or two lecture hours and one discussion hour a week for one semester.

**PHL 322K. History of Ethics.**
Survey of ethical theories from ancient times through the nineteenth century. Three lecture hours a week for one semester. Prerequisite: At least three semester hours of coursework in philosophy.

**PHL 323K. Metaphysics.**
Problems of substance, change, categories of being, mind, body, space and time, approached either systematically or historically. Three lecture hours a week for one semester. Prerequisite: Six semester hours of coursework in philosophy.

**PHL 323M. Philosophy of Mind.**
Problems concerning the nature of mind and mental phenomena: the relation between mind and body, knowledge of other minds, the computational model of mind, mental causation, intentionality, and consciousness. Three lecture hours a week for one semester. Prerequisite: Six semester hours of coursework in philosophy.

**PHL 323S. Philosophy of Science.**
Examine philosophical issues pertaining to science, with an emphasis on the metaphysics and epistemology of science. Three lecture hours a week for one semester. Philosophy 323S and Philosophy 363L (Topic: Philosophy of Science) may not both be counted. Prerequisite: Upper-division standing and six semester hours of coursework in philosophy.

**PHL 325D. Environmental Ethics and Philosophy.**
Examine moral issues concerning the relation of human beings to the environment, including biodiversity, resource depletion, and animal rights. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Philosophy 325C and 325D may not both be counted.

**PHL 325E. Biomedical Ethics.**
Apply ethics to problems of medical practice and theory including abortion, euthanasia, sterilization, psychosurgery, genetic engineering, and concepts of health, cure, insanity, and death. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Philosophy 325E and 325M may not both be counted. Prerequisite: Upper-division standing.

**PHL 325J. Health and Justice.**
Same as Health and Society 341. Examines ethical, political, and legal issues surrounding medicine, society, and healthcare. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Philosophy 325J, 365 (Topic: Health and Justice), Health and Society 341. Prerequisite: Upper-division standing.

**PHL 325K. Ethical Theories.**
Major traditional and contemporary ethical theories discussed and critically examined. Three lecture hours a week for one semester. Prerequisite: Six semester hours of coursework in philosophy.

**PHL 325L. Business, Ethics, and Public Policy.**
Issues in ethics and politics that are relevant to the organization of business and industry and the distribution of power in society; topics include the role of industry; concepts of profit, property, and moral responsibility. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester.

**PHL 325M. Medicine, Ethics, and Society.**
Examine moral, legal, and socio-political implications of developments in the biomedical sciences. Explore health and disease, function and normalcy, evidence-based practice, gene editing and cloning, genetic testing, screening, and counseling, public health and compulsory vaccination. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester. Philosophy 325E and 325M may not both be counted.

**PHL 325N. Organizational Ethics.**
Same as Human Dimensions of Organizations 325N. Examine the practical and theoretical aspects of ethical issues in organizations, including philosophical, psychological, anthropological, and strategic approaches. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Human Dimensions of Organizations 325N, Philosophy 325N, 365 (Topic: Organizational Ethics). Prerequisite: Upper-division standing.

**PHL 328. Nineteenth-Century Philosophy.**
Major figures in nineteenth-century European philosophy, including Hegel, Schopenhauer, Kierkegaard, Nietzsche, and Mill. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**PHL 329C. Plato and His Philosophy.**
Same as Classical Civilization 348E. Intensive study of selected works by Plato. Three lecture hours a week for one semester. Only one of the following may be counted: Classical Civilization 348 (Topic: Plato), 348E, Philosophy 329C, 329M (Topic: Plato). Prerequisite: Upper-division standing.

**PHL 329F. Squaring the Vienna Circle.**
Same as Comparative Literature 323 (Topic 18), European Studies 347 (Topic 20), and German, Scandinavian, and Dutch Studies 361F. Traces the origin of the Vienna Circle of Logical Empiricism in nineteenth-century Europe, and introduces central texts and problems of intellectual history and historical epistemology at the roots of today’s analytic philosophy. Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 323 (Topic: Squaring the Vienna Circle), 323 (Topic 18), European Studies 347 (Topic: Squaring the Vienna Circle), 347 (Topic 20), German, Scandinavian, and Dutch Studies 361F; Germanic Civilization 362E (Topic: Squaring the Vienna Circle), Philosophy 327 (Topic: Squaring the Vienna Circle), 329F, 354 (Topic: Squaring the Vienna Circle). Prerequisite: Upper-division standing.

**PHL 329K. History of Ancient Philosophy.**
Same as Classical Civilization 348 (Topic 4). Development of Western philosophy from the pre-Socratics to the early Christian era; emphasis on Plato and Aristotle. Three lecture hours and one discussion hour a week for one semester. Classical Civilization 348 (Topic 4) and Philosophy 329K may not both be counted. Prerequisite: Six semester hours of coursework in philosophy.
PHL 329L. Early Modern Philosophy: Descartes to Kant.
Three lecture hours and one discussion hour a week for one semester. Prerequisite: Six semester hours of coursework in philosophy.

PHL 329P. Kant's Critique of Pure Reason.
An intensive study of Kant's Critique of Pure Reason, focusing especially on his "Copernican Revolution," his theories of categories and concepts, and his rejection of metaphysics. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Philosophy 329M (Topic 1) and 329P may not both be counted. Prerequisite: Upper-division standing and at least three semester hours of coursework in philosophy.

This course is used to credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad advisor in the Department of Philosophy. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

PHL 329U. Perspectives on Science and Mathematics.
An examination of five notable episodes in the history of science: Galileo's conflict with the Catholic Church, Isaac Newton's formulation of the laws of motion, Charles Darwin's proposal of the theory of evolution by natural selection, the development of the atomic bomb, and the discovery of the double helix structure of DNA. Three lecture hours a week for one semester. Only one of the following may be counted: History 329U, 366N (Topic: Perspectives on Science and Mathematics), Philosophy 329U. Prerequisite: Upper-division standing and consent of instructor.

PHL 332. Philosophy of Language.
Contemporary theories of meaning and linguistic structure, and their relationships to epistemology, metaphysics, and ethics. Three lecture hours a week for one semester. Prerequisite: Six semester hours of coursework in philosophy.

PHL 332M. Interpretation and Meaning.
Examine issues concerning the nature of communication, interpretation, and meaning. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Philosophy 327 (Topic: Interpretation and Meaning), 327 (Topic 4), 323M. Prerequisite: Upper-division standing.

PHL 334M. Martin Heidegger.
Examine the work of Martin Heidegger, focusing especially on his views concerning truth, art, history, humanism, and technology. Three lecture hours a week for one semester. Philosophy 334K (Topic: Martin Heidegger) and 334M may not both be counted. Prerequisite: Upper-division standing and six semester hours of coursework in Philosophy.

PHL 334Q. German Scholars: US Exile.
Same as American Studies 321L, European Studies 346 (Topic 34), and German, Scandinavian, and Dutch Studies 361Q. Examine the migration of established European intellectuals into the US, due to the Second World War. Explore how they worked against their persecutors for their own cultural heritage and to influence US intellectual life. Investigate the ethical dilemmas faced in transplanting their lives and projects into new contexts. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: German Scholars: US Exile), 321L, Comparative Literature 323 (Topic: German Scholars: US Exile), 323 (Topic 56), European Studies 346 (Topic: German Scholars: US Exile), 346 (Topic 34), German, Scandinavian, and Dutch Studies 360 (Topic: German Scholars: US Exile), 361Q, Philosophy 334Q, 354 (Topic: German Scholars: US Exile). Prerequisite: Upper-division standing.

PHL 342. Political Philosophy.
Critical examination of leading theories of the state, including analysis of such concepts as sovereignty, obligation, rights, and freedom. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester. May be repeated for credit when the topics vary.

PHL 329L. Origins of Liberalism.
Same as Core Texts and Ideas 331. Examine the theory of liberal democracy through a study of its development in historical, religious, and political contexts. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Core Texts and Ideas 331, 335 (Topic: Origins of Liberalism), 335 (Topic 4), European Studies 346 (Topic: Origins of Liberalism), Philosophy 342L, 354 (Topic: Origins of Liberalism), 354 (Topic 5). Prerequisite: Upper-division standing.

PHL 342M. Marx and Marxist Theory.
Same as Core Texts and Ideas 335M, European Studies 346 (Topic 30), and History 332R. Introduction to the writings of Karl Marx as well as to those of his intellectual successors in Europe and around the globe in the nineteenth and twentieth centuries. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 335 (Topic: Marx and Western Marxism), 335M, European Studies 346 (Topic: Marx and Western Marxism), 346 (Topic 30), History 332R, 362G (Topic: Marx and Western Marxism), Philosophy 334K (Topic: Marx and Western Marxism), 342M. Prerequisite: Upper-division standing.

PHL 342P. Four Modern Political Theories.
Examine four modern political theories (classical liberalism, Marxism, social democracy, and traditional conservatism), with close reading and analysis of central texts. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Philosophy 342 (Topic: Four Mdm Politi Philosophy) and 342P may not both be counted. Prerequisite: Upper-division standing.

PHL 342R. Philosophy of Race and Gender.
Examine philosophical issues pertaining to race and gender. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Philosophy 327 (Topic: Philosophy of Race and Gender) and Philosophy 342R may not both be counted. Prerequisite: Upper-division standing.

PHL 342T. Advanced Political Philosophy.
Examine one or more of the central subjects in political philosophy including liberty, justice, equality, democracy, and constitutionalism. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Prerequisite: Upper-division standing, and six semester hours of coursework in philosophy.
Same as Mathematics 344K. A second-semester course in symbolic logic: formal syntax and semantics, basic metatheory (soundness, completeness, compactness, and Loewenheim-Skolem theorems), and further topics in logic. Three lecture hours a week for one semester. Prerequisite: Philosophy 313, 313K, or 313Q.

PHL 344M. Philosophy of Mathematics.
Philosophical issues concerning mathematics and its foundations, such as the correlation of mathematics to logic, mathematical truth, and mathematical knowledge. Three lecture hours a week for one semester.

PHL 346K. Aesthetics.
The nature and purpose of art and the aesthetic experience. Three lecture hours a week for one semester. Philosophy 346 and 346K may not both be counted.

PHL 347. Philosophy of Law.
The significance and function of law in political and ethical contexts; comparison of common and statutory to scientific and moral law; readings from among Plato, Kant, Hegel, Bentham, Austin, Hart, Dworkin, Feinberg, and others. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester.

PHL 348C. Classical Chinese Philosophy.
Same as Asian Studies 320F. Introduction (in translation) to thinkers, texts, and ideas from the golden age of Classical Chinese philosophy (circa sixth-second centuries BCE), including how to apply their teachings to current sociopolitical issues. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 320F, 361 (Topic: Classical Chi Phil Contemp Times), Philosophy 348C. Prerequisite: Upper-division standing.

PHL 349. History of Medieval and Renaissance Philosophy.
Philosophical thought from Augustine through Cusanus and Vico, with emphasis on its cultural bearing. Three lecture hours a week for one semester. Prerequisite: Three semester hours of coursework in philosophy.

PHL 356C. Contemporary Christian Philosophy.
Study of recent work in philosophy written from a Christian point of view or that examines philosophical questions that arise within the framework of the Christian faith. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Philosophy 327 (Topic: Contemporary Christian Philosophy), 327 (Topic: 2), 356C. Prerequisite: Upper-division standing.

PHL 356D. History of Christian Philosophy.
Same as Core Texts and Ideas 335C. Examines the history of Christian philosophy through classic Christian thought, concerning what can be known and how people should live. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Core Texts and Ideas 335 (Topic: History of Christian Philosophy), 335 (Topic 2), 335C, Philosophy 354 (Topic: History of Christian Philosophy), 354 (Topic 2), 356D. Prerequisite: Upper-division standing.

PHL 358. Philosophical Logic.
Issues in philosophical logic and its applications, such as theories of meaning, logical paradoxes, epistemic logic, deontic logic, modal logic, existence, and identity. Three lecture hours a week for one semester. Prerequisite: Philosophy 313, 313K, or 313Q.

PHL 361K. Philosophy in Literature.
Formulation, analysis, and criticism of philosophical ideas in selected literary works. Three lecture hours a week for one semester.

PHL 363. Scientific Method.
History, exposition, and analysis of such fundamental concepts in the natural and social sciences as explanation, prediction, discovery, confirmation, laws, hypotheses, theories. Three lecture hours a week for one semester.

PHL 363L. Topics in Philosophy of Science.
Three lecture hours or two lecture hours and one discussion hour a week for one semester. Additional hours may be required for some topics. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

Topic 1: The Philosophy of Biology. Philosophy 363L (Topic 1) and 363L (Topic: Philosophy of Biology) may not both be counted.

Topic 2: The Outer Limits of Reason. Examines fundamental questions that appear to transcend the capacities of reason such as semantic paradoxes, theses' ship, vagueness, infinities, computational intractability, quantum mechanics, fine-tuning arguments, and why mathematics applies to the physical world. Three lecture hours a week for one semester. Philosophy 363L (Topic: Outer Limits of Reason) and 363L (Topic 2) may not both be counted. Additional prerequisite: Upper-division standing.

Topic 3: Science and Metaphysics. Examine questions about the nature of reality informed by science and metaphysics, such as the nature of time, space, minds, meanings, identity, infinity, abstract vs concrete objects. Philosophy 363L (Topic: Science and Metaphysics) and 363L (Topic 3) may not both be counted. Additional prerequisite: Upper-division standing.

Topic 5: Biology and Society. Explore how biological theorizing has influenced and, in turn, been modulated by social ideology from the early twentieth century to the present day. Additional prerequisite: Upper-division standing.

PHL 365. Selected Problems in Philosophy.
The equivalent of three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

Topic 2: Introduction to Cognitive Science. Same as Cognitive Science 360 (Topic 1) and Linguistics 373P. Three lecture hours a week for one semester. Only one of the following may be counted: Cognitive Science 360 (Topic 1), Linguistics 373 (Topic 7), 373P Philosophy 365 (Topic 2). Additional prerequisite: Upper-division standing.

PHL 366K. Existentialism.
Existentialism and its relationship to literature, psychoanalysis, and Marxism. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester.

PHL 375M. Major Seminar.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Nine semester hours of coursework in philosophy.

Topic 1: Philosophy and Feminism. Only one of the following may be counted: Philosophy 327 (Topic: Philosophy and Feminism), 375M (Topic: Philosophy and Feminism), 375M (Topic 1), Women's and Gender Studies 345 (Topic: Philosophy and Feminism).

Topic 2: Philosophy of David Hume. Examine David Hume's contributions to Philosophy holistically: metaphysics, knowledge,
morality and religion. Explore the systematic nature of his thought, as applied to specific problems including causation, induction, moral belief, and the existence of God. Philosophy 375M (Topic: Philosophy of David Hume) and 375M (Topic 2) may not both be counted.

**Topic 4: Philosophy of the First Amendment.** Examine the philosophical principles beneath the several freedoms protected by the First Amendment of the United States Constitution, as well as the applications of those freedoms (speech, religion, press, assembly, and petition) to concrete legal disputes. Philosophy 375M (Topic: Philos of the First Amendment) and 375M (Topic 4) may not both be counted.

**Topic 5: Major Ethical Theories.** Examine selected major works in ethical theory from ancient and modern philosophy. Explicate the argumentative structure of the texts, situate them in their historical contexts, and consider their significance for contemporary moral thought. Additional prerequisite: Upper-division standing.

**Topic 6: Studies in Epistemology.** Examine one or more of the philosophical approaches to the study of knowledge and rational belief.

**Topic 7: Foundational Issues in Metaphysics.** Examine foundational questions in metaphysics, including being and existence, essence, real definition, grounding, ontological dependency, form and matter, explanation, causation, and parts and wholes. Additional prerequisite: Upper-division standing.

**Topic 8: History of Metaphysics.** Examine selected major works of metaphysical inquiry from an earlier period, from the ancient Greeks to the twentieth century.

**PHL 679H. Honors Tutorial Course.**
Supervised individual reading for one semester, followed by research and writing to produce a substantial paper on a special topic in philosophy. To be completed during the second semester. Conference course for two semesters. Prerequisite: For 679HA, admission to the Philosophy Honors Program; for 679HB, Philosophy 679HA.

**PHL 379K. Conference Course.**
Intensive tutorial study of selected problems in philosophy. Conference course. May be repeated for credit. Prerequisite: Nine semester hours of upper-division coursework in philosophy and consent of instructor and the undergraduate adviser in philosophy.

**Graduate Courses**

**PHL 380. Contemporary Philosophy.**
Past topics include pragmatism; postmodernism; contemporary Marxism; critical theory. Three hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**PHL 380N. French-German Philosophy and Theory.**
Same as French 391K (Topic 10) and German 382N (Topic 1). Explore core philosophical texts from the nineteenth and twentieth century that ground post-World War II French post-structuralism. Only one of the following may be counted: French 391K (Topic 10), German 382N (Topic 1), Philosophy 380N. Prerequisite: Graduate standing.

**PHL 381. History of Philosophy.**
Past topics include major figures and movements in ancient, medieval, early modern, and nineteenth- and twentieth-century philosophy. Three hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**PHL 382. Metaphysics.**
Past topics include basic issues in metaphysics; particulars and universals; identity and individuation; realism and antirealism; mind-body issues. Three hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**PHL 383. Theory of Knowledge.**
Past topics include basic issues in epistemology; theories of belief and rationality; justification and truth. Three hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**PHL 383C. Introduction to Cognitive Science.**

**PHL 384F. First-Year Seminar.**
Central problems in philosophy. Three lecture hours a week for one semester. Prerequisite: Graduate standing in philosophy, or graduate standing and consent of the graduate adviser.

**PHL 384K. The Analytic Tradition.**
A selective examination of works by major figures such as Frege, Moore, Russell, and Wittgenstein. Three hours a week for one semester. Prerequisite: Graduate standing.

**PHL 385. Theory of Value.**
Past topics include basic issues in value theory; the objectivity of value; literature and philosophy; philosophy of art; literary criticism. Three hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**PHL 386. Philosophy of Science.**
Past topics include basic issues in the philosophy of science; theories and explanations; philosophy of quantum mechanics; philosophy of the social sciences. Three hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**PHL 387. Ethical, Political, and Legal Philosophy.**
Past topics include contemporary ethical theory; theories of justice; philosophy of law; social contract theories; political philosophy. Three hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**PHL 387C. Intersectionality: Identity and Politics.**
Same as German 394C (Topic 2). Examine current theories of identity and identity politics from the US and Europe, deriving from theories of economic and class-based origins of identity. Only one of the following may be counted: Comparative Literature 382 (Topic: Identity/Politics), German 394C (Topic 2), Philosophy 387 (Topic: Identity/Politics), 387C,
Women's and Gender Studies 393 (Topic: Identity/Politics). Prerequisite: Graduate standing.

PHL 188, 388. Conference Course.
Mainly a reading course in the works of classical and modern philosophers. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and consent of the graduate adviser.

PHL 388C. Prospectus Course.
Mainly a reading course for development of a dissertation prospectus. The equivalent of three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of the graduate adviser.

PHL 389. Logic.
Rigorous definitions of syntax and semantics. Proofs of soundness and completeness of sentential and predicate logics; other topics in metatheory. May include extensions of and alternatives to classical logic. Philosophical significance of logic and metalogical results. Three hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

PHL 391. Logic and Philosophy.
Past topics include identity and substitutivity; philosophy of logic; discourse representation. Three hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

PHL 394K. Philosophy of Language.
Same as Linguistics 394K. Three lecture hours a week for one semester. Only one of the following may be counted: Linguistics 393S (Topic: Philosophy of Language), 394K, Philosophy 391 (Topic: Philosophy of Language), 394K. Prerequisite: Graduate standing and consent of instructor.

PHL 396M. Job Market.
Restricted to doctoral students in philosophy. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate advisor.

PHL 396W. Dissertation Seminar.
Restricted to doctoral students in philosophy. Intensive examination of selected dissertation topics: attention to research methods, presentation, structure, and argument. Student reports on current research. Three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of the graduate adviser.

PHL 698. Thesis.
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in philosophy, twelve semester hours of upper-division or graduate coursework in philosophy, and consent of the graduate adviser; for 698B, Philosophy 698A.

PHL 398R. Master's Report.
Preparation of a report to fulfill the requirement for the master's degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in philosophy and consent of the graduate adviser.

PHL 398T. Supervised Teaching in Philosophy.
Teaching experience developed through an apprentice relationship between student and faculty member. Three hours a week for one semester. Students may register for this course as many as four times, but only three semester hours of credit in this course may be applied toward a graduate degree. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of the graduate adviser.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses

PHM - Pharmacy PharmD

Pharmacy PharmD: PHM

Lower-Division Courses

PHM 310K. Drugs in Our Society.
Survey of drug development, distribution, and safety, including therapeutic categories of drugs, their actions and abuse potential, and the sociological aspects of drug use. Three lecture hours a week for one semester. Only one of the following may be counted: Pharmacy 310K, 350K, Pharmacy PharmD 310K, 350K. Not open to students in the professional pharmacy curriculum and may not be counted toward the professional elective requirement in pharmacy.

PHM 311K. Take your Medicine: Developing New Drug Products.
Restricted to non-pharmacy majors. Explores the process, challenges, and issues in developing pharmaceutical products. An overview of drug development, approval, and consumer issues will be presented and discussed in the context of research practices, consumers, science, marketing, public welfare, and innovative practices. Three lecture hours a week for one semester. Offered on the letter-grade basis only.

Upper-Division Courses

PHM 338. Introduction to Pharmacology.
Restricted to non-pharmacy majors. Survey of basic concepts and principles in pharmacology. Three lecture hours a week for one semester. Pharmacy 338 and Pharmacy PharmD 338 may not both be counted. Prerequisite: Credit or registration for Biology 365S, 446L, Biomedical Engineering 365R, 365S, or Kinesiology 324K.

PHM 350K. Drugs in Our Society.
Survey of drug development, distribution, and safety, including therapeutic categories of drugs, their actions and abuse potential, and the sociological aspects of drug use. Essay papers required. Three lecture hours a week for one semester. Only one of the following may be counted: Pharmacy 310K, 350K, Pharmacy PharmD 310K, 350K. Not open to students in the professional pharmacy curriculum and may not be counted toward the professional elective requirement in pharmacy. Prerequisite: Upper-division standing.

Original investigation in any area of the pharmaceutical sciences. For each semester hour of credit earned, three laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Consent of instructor and the dean.

Explore any basic area of the pharmaceutical and clinical sciences. For each semester hour of credit earned, one lecture hour a week for one
Graduate Courses

Professional Courses

PHM 180. Pharmacotherapeutics of Vaccine-Preventable Diseases.

Restricted to students in the College of Pharmacy. Examine the administration of safe and accurate immunization services to patients that will promote disease prevention and public health. Explore the national immunization standards through the Centers for Disease Control and Prevention. One lecture hour a week for one semester. Offered on the letter-grade basis only.

PHM 480C. Human Normal Physiology/Pathophysiology and Basics in Pharmacology I.

Integrated approach consisting of normal physiology (with limited functional anatomy), pathophysiology, and basic principles in pharmacology to address the etiology of disease states affecting the nervous, gastrointestinal, visual/olfactory, skin, muscular, and cardiovascular systems. Four lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum.

PHM 480D. Human Normal Physiology/Pathophysiology II.

Integrated approach consisting of normal physiology (with limited functional anatomy), pathophysiology, and basic principles in pharmacology to address the etiology of disease states affecting the blood/immune system, renal, pulmonary, endocrine, and metabolic systems. Also includes multi-systemic diseases related to infectious disease and cancer. Four lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 480C.

PHM 280H. Landmark Studies in Cardiovascular Disease.

Evidence-based clinical studies in support of drug therapy recommendations in the treatment of cardiovascular diseases. Two lecture hours a week for one semester. Pharmacy 280H and Pharmacy PharmD 280H may not both be counted. Prerequisite: Second-professional-year standing in pharmacy.

PHM 280J. Theory and Practice of Teaching in Pharmacy Education.

Explore teaching concepts, processes, and theories related to pharmacy education. Combine theory and practice to create a teaching portfolio. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 186E or 286E or consent of instructor.

PHM 180K. Medicinal Chemistry Principles.

Introduction to medicinal chemistry principles. Subjects include drug metabolism and the transition from organic to medicinal chemistry. One lecture hour a week for one semester. Pharmacy 143M and Pharmacy PharmD 180K may not both be counted. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum, and credit or registration for Pharmacy PharmD 180P (or Pharmacy 143P).

PHM 280L, 380L. Landmark Pharmacotherapy Studies in Primary Care.

Reviewing, evaluating, and applying the results of landmark studies in pharmacotherapy to primary care practice. An examination of disease states encountered in primary care including diabetes, hypertension, dyslipidemias, and psychological disorders. For 280L, six laboratory hours a week for one semester; for 380L, nine laboratory hours a week for one semester. Only one of the following may be counted: Pharmacy PharmD 280L, 380L, Pharmacy 280L, 380L. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 195Q (or Pharmacy 163C), 185P (or Pharmacy 185P), 685E (or Pharmacy 695F), and 385G (or Pharmacy 395G).

PHM 180P. Basic Pharmaceutical Sciences Laboratory.

Laboratory exercises to support the basic pharmaceutical sciences courses. One hour of pre-laboratory lecture and three laboratory hours a week for one semester. Pharmacy 143P and Pharmacy PharmD 180P may not both be counted. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum, and credit or registration for Pharmacy PharmD 180K (or Pharmacy 143M).

PHM 180Q. Pharmaceutical Industry Fellowship Preparation.

Explore pharmaceutical industry fellowships and review skills needed for competitive fellowship applications. One lecture hour per week for one semester. Pharmacy PharmD 180Q and 182R (topic: Pharma Industry Flwshp Prep) may not both count. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 182T or consent of instructor.

Basic exploration in any area of the pharmaceutical sciences. For each semester hour of credit earned, three laboratory hours a week for one semester. No more than three semester hours may be counted toward the professional pharmacy elective requirement. May be repeated for credit. Prerequisite: Admission to the PharmD program and consent of instructor and the dean.

PHM 180S. Tools to Enhance Academic Success.

Restricted to students in the College of Pharmacy. Investigate tools and resources available for enhancing academic success in the professional pharmacy curriculum. One lecture hour a week for one semester Pharmacy PharmD 180S and 182R (Topic: Enhancing Academic Success) may not both be counted. Offered on the letter-grade basis only.

Restricted to students in the College of Pharmacy. An exploration of health care issues outside the United States with an inside look at different cultures and healthcare systems to enhance global awareness and cultural competence in the practice of pharmacy. For every credit hour earned, one lecture hour per week for one semester. Offered on the letter-grade basis only.

PHM 280W. Psychiatric Pharmacy Practice and Drug Treatment of Mental Disorders.

Advanced study in the pathophysiology of selected psychiatric disease states and the clinical presentation, phenomenology, diagnosis, and treatment of these disease states. Two lecture hours a week for one semester. Pharmacy 280W and Pharmacy PharmD 280W may not both be counted. Prerequisite: Third-professional-year standing in Pharmacy.

An integrated approach to the etiology and treatment of disease states of the renal and autonomic systems. The equivalent of one lecture hour per week for one semester. Pharmacy PharmD 181 and 685D (or Pharmacy 665E) may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 480D, 182, and 483.
PHM 281J. Theory and Practice of Assessment in Pharmacy Education.
Explore current assessment concepts related to pharmacy education and apply those concepts to create an assessment portfolio. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 280J or consent of instructor.

PHM 381K. Pharmaceutical Marketing.
Concepts of marketing as they apply to the pharmaceutical industry, pharmaceutical products, and the health care environment. Three lecture hours a week for one semester. Pharmacy 320M and Pharmacy PharmD 381K may not both be counted. Prerequisite: Pharmacy PharmD 283L (or Pharmacy 244C).

PHM 381M. Pharmaceutical Biochemistry I.
Basic principles of intermediary metabolism, with emphasis on defects in pathways that result in disease and on identification of molecular targets for therapeutic control. Three lecture hours a week for one semester. Pharmacy 341C and Pharmacy PharmD 381M may not both be counted. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum.

PHM 281N. Pharmaceutical Biochemistry II.
The biosynthesis and function of macromolecules (nucleic acids, lipids, proteins, and carbohydrates); sites of drug action, immunology, and applications of biotechnology and molecular biology to the pharmaceutical sciences. Two lecture hours a week for one semester. Pharmacy 251C and Pharmacy PharmD 281N may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 381M (or Pharmacy 341C).

PHM 181Q. Introduction to Pharmaceutical Industry.
Explore potential careers for pharmacists in the pharmaceutical industry. One lecture hour a week for one semester Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 182T or consent of instructor.

PHM 181R. Research Opportunities in the Pharmaceutical Sciences.
An introduction to research in all divisions of the College of Pharmacy. Includes ethical issues in research, career paths in research, and subjects such as choosing a research mentor or project. One lecture hour and three laboratory hours a week for one semester. Pharmacy 151R and Pharmacy PharmD 181R may not both be counted. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum.

PHM 181S, 281S. Foundations of Professional Development I.
Restricted to students in the College of Pharmacy. In-depth education and training to promote personal and professional development of students. Built on six interdependent pillars: Self-Awareness, Professionalism, Leadership, Career Development and Planning, Contemporary Issues in Practice, and Interprofessional Collaborative Practice (ICP). Employs a series of seminars, team-based workshops, and interprofessional learning experiences to inculcate students into the College of Pharmacy and profession of pharmacy. Focuses on self-awareness, professionalism, leadership development, career planning and decision-making, contemporary issues in pharmacy practice, and interprofessional collaboration. For each semester hour of credit earned, one lecture hour a week for one semester. Only one of the following may be counted: Pharmacy 142H, Pharmacy PharmD 181C, 281C, 181S, 281S. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum.

PHM 181T, 281T. Foundations of Professional Development II.
In-depth education and training to promote personal and professional development of students. Built on six interdependent pillars: Self-Awareness, Professionalism, Leadership, Career Development and Planning, Contemporary Issues in Practice, and Interprofessional Collaborative Practice (ICP). Employs a series of seminars, team-based workshops, and interprofessional learning experiences to inculcate students into the College of Pharmacy and profession of pharmacy. Focuses on self-awareness, professionalism, leadership development, career planning and decision-making, contemporary issues in pharmacy practice, and interprofessional collaboration. For each semester hour of credit earned, one lecture hour a week for one semester. Only one of the following may be counted: Pharmacy 152H, Pharmacy PharmD 181D, 281D, 181T, 281T. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 181C, or 281C, or 181S, or 281S, (or Pharmacy 142H).

PHM 181V. Pharmacy Practice Lab I.
Restricted to students in the College of Pharmacy. Navigate the pharmacists’ patient care process in preparation for Introductory and Advanced Pharmacy Practice Experiences. Utilize critical-thinking, problem-solving and communication skills to collect, assess, plan, implement and follow-up on patients at an introductory level. One lecture hour and three laboratory hours a week for one semester. Offered on the letter-grade basis only.

PHM 081W. PharmD Year 1 Administrative Session I.
Co-curricular and supplemental material for students in the first year of the Pharmacy (PharmD) program. One lecture hour a week for one semester. Offered on the pass/fail basis only. Prerequisite: Admission to the Pharmaceutical (PharmD) program.

PHM 182. Pharmacotherapeutics of the Respiratory System.
An integrated approach to the etiology and treatment of disease states of the respiratory system. The equivalent of one lecture hour per week for one semester. Pharmacy PharmD 182 and 685D (or Pharmacy 665E) may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 480D, 182, 483, and 392P.

PHM 282E. Nonprescription Pharmacotherapeutics and Self-Care I.
Study of nonprescription products and complementary and alternative medicine as it relates to the patient’s ability to care for themselves with emphasis on the pharmacist’s consultant role in product selection and nonpharmacologic recommendations. Two lecture hours a week for one semester. Pharmacy 262D and Pharmacy PharmD 282E may not both be counted. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum.

PHM 182F, 282F. Nonprescription Pharmacotherapeutics and Self-Care II.
A continuation of Pharmacy PharmD 282E. The study of nonprescription products and complementary and alternative medicine as it relates to the patient’s ability to care for themselves with emphasis on the pharmacist’s consultant role in product selection and nonpharmacologic recommendations. For each hour of credit earned, one lecture hour a week for one semester. Pharmacy 172E and Pharmacy PharmD 282F may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 282E (or Pharmacy 262D).

PHM 282G. Pharmacy Business Plan Development.
The fundamentals of writing a pharmacy business plan, including the mission statement, objectives, description of products and services, legal structure, location analysis, layout and design, pro forma financial statements, staffing, market analysis and strategies, and promotion and
advertising plans, culminating in submission of the plan for national competition. Two lecture hours a week for one semester. Pharmacy 282D and Pharmacy PharmD 282G may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 384K (or Pharmacy 326C) and completion of the second professional year in pharmacy, and consent of instructor.

PHM 182I. Nonprescription Pharmacotherapeutics and Self-Care: Introductory Pharmacy Practice Experience.
Restricted to students in the College of Pharmacy. Participate in a hands-on experience in a community pharmacy setting related to the pharmacist’s consultant role in nonprescription product selection (including complementary and alternative medicine) and nonpharmacologic recommendations in self-care. The equivalent of two hours of fieldwork a week for one semester. Only one of the following may be counted: Pharmacy PharmD 182P, 182I, Pharmacy 172P. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy; credit or registration for Pharmacy PharmD 282F.

Concepts and procedures involved in designing and completing a research project. Three lecture hours a week for one semester. Pharmacy 322H and Pharmacy PharmD 382K may not both be counted. Prerequisite: Admission to the Pharmacy Honors Program or consent of instructor.

PHM 182L. Clinical Toxicology.
A course in toxicology that focuses on common poisons and their management; designed for pharmacy students planning to enter general practice. Three lecture hours a week for one semester. Pharmacy 362L and Pharmacy PharmD 382L may not both be counted. Prerequisite: Admission to the professional pharmacy curriculum.

Restricted to students in the College of Pharmacy. Explore an overview of the fundamentals of integrative medicine, including Traditional Chinese Medicine (TCM). Examine an interprofessional perspective of the interview and assessment of patients and the clinical reasoning used to develop patient care plans. For each semester hour of credit earned, one lecture hour a week for one semester. Offered on the letter-grade basis only.

PHM 182P. Nonprescription Pharmacotherapeutics and Self Care II Laboratory.
Laboratory practice related to the pharmacist’s consultant role in nonprescription product selection (including complementary and alternative medicine) and nonpharmacologic recommendations in self-care; includes fieldwork in a community pharmacy. One lecture hour and three laboratory or fieldwork hours a week for one semester. Only one of the following may be counted: Pharmacy PharmD 182P, 182I, Pharmacy 172P. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 182F (or Pharmacy 172F), and current intern registration with the Texas State Board of Pharmacy.

Basic exploration in any area of the pharmaceutical and clinical sciences. For each semester hour of credit earned, one lecture hour a week for one semester. Pharmacy 161J, 261J, 361J and Pharmacy PharmD 182R, 282R, 382R may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum; additional prerequisites vary with the topic.

PHM 182S, 282S. Foundations of Professional Development III.
In-depth education and training to promote personal and professional development of students. Built on six interdependent pillars: Self-Awareness, Professionalism, Leadership, Career Development and Planning, Contemporary Issues in Practice, and Interprofessional Collaborative Practice (ICP). Employs a series of seminars, team-based workshops, and interprofessional learning experiences to inculcate students into the College of Pharmacy and profession of pharmacy. Focuses on self-awareness, professionalism, leadership development, career planning and decision-making, contemporary issues in pharmacy practice, and interprofessional collaboration. For each semester hour of credit earned, one lecture hour a week for one semester. Only one of the following may be counted: Pharmacy 161H, Pharmacy PharmD 182C, 282C, 182S, 282S. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 181D, or 281D, 181T or 281T (or Pharmacy 152H).

PHM 182T, 282T. Foundations of Professional Development IV.
In-depth education and training to promote personal and professional development of students. Built on six interdependent pillars: Self-Awareness, Professionalism, Leadership, Career Development and Planning, Contemporary Issues in Practice, and Interprofessional Collaborative Practice (ICP). Employs a series of seminars, team-based workshops, and interprofessional learning experiences to inculcate students into the College of Pharmacy and profession of pharmacy. Focuses on self-awareness, professionalism, leadership development, career planning and decision-making, contemporary issues in pharmacy practice, and interprofessional collaboration. For each semester hour of credit earned, one lecture hour a week for one semester. Only one of the following may be counted: Pharmacy 172H, Pharmacy PharmD 182D, 282D, 182T, 282T. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 182C, or 282C, or 182S, or 282S (or Pharmacy 161H).

PHM 182V. Pharmacy Practice Lab II.
Restricted to students in the College of Pharmacy. Navigate the pharmacists’ patient care process in preparation for Introductory Pharmacy Practice Experiences. Utilize critical-thinking, problem-solving and communication skills to collect, assess, plan, implement and follow-up on patients at an advanced introductory level. One lecture hour and three laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 181V.

PHM 082W. PharmD Year 1 Administrative Session II.
Co-curricular and supplemental material for students in the first year of the Pharmacy (PharmD) program. One lecture hour a week for one semester. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Admission to the Pharmacy (PharmD) program.

PHM 383, 483. Pharmacotherapeutics of the Cardiovascular System.
An integrated approach to the etiology and treatment of disease states of the cardiovascular system. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Only one of the following may be counted: Pharmacy PharmD 383, 483, 685D, Pharmacy 665E. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 480D and 182.
PHM 383E. Development of Interprofessional Education for Collaborative Practice.
A collaboration between students in pharmacy, nursing, social work, and medicine in the development of educational modules addressing interprofessional education in collaborative practice relating to error disclosure, service learning, healthcare quality improvement. Prerequisite: Professional introduction to interprofessional education competencies. Three lecture hours a week for one semester. Pharmacy 383E and Pharmacy PharmD 383E may not both be counted. Offered on the letter-grade basis only. Prerequisite: Completion of the second professional year in the College of Pharmacy.

PHM 183F. Basic Intravenous Admixtures.
Basic principles of injectable and other sterile dosage forms; methods of preparation and evaluation that meet current pharmacy practice standards. One lecture hour a week for one semester. Pharmacy 183F and Pharmacy PharmD 183F may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 388M (or Pharmacy 356C), 188P (or Pharmacy 156P), and credit or registration for 183G (or Pharmacy 183G).

PHM 183G. Basic Intravenous Admixtures Laboratory.
Basic laboratory principles in the preparation and evaluation of injectable and other sterile dosage forms. One lecture hour and three laboratory hours a week for one semester. Pharmacy 183G and Pharmacy PharmD 183G may not both be counted. Offered on the pass/fail basis only. Prerequisite: Pharmacy PharmD 388M (or Pharmacy 356C), 188P (or Pharmacy 156P) and credit or registration for 183F (or Pharmacy 183F).

PHM 383I. Institutional Introductory Pharmacy Practice Experience.
Restricted to students in the College of Pharmacy. Participate in a hands-on experience at an institutional practice care facility; examine pharmacy services, hospital pharmacy management, staff interaction, and the flow of information from pharmacy to bedside. The equivalent of five and one-half lecture hours a week for one semester. Only one of the following may be counted: Pharmacy PharmD 383I, 386H and Pharmacy 377H. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy; completion of the second professional year of pharmacy school.

Three lecture hours a week for one semester. Pharmacy 322P and Pharmacy PharmD 383K may not both be counted. Prerequisite: Credit or registration for Pharmacy PharmD 384L (or Pharmacy 364D).

PHM 283L. Health Behavior and Health Outcomes.
Restricted to students in the College of Pharmacy. Explore the concepts and principles of health behavior and health outcomes in a multicultural U.S. population. Two lecture hours a week for one semester. Only one of the following may be counted: Pharmacy PharmD 281L, 283L, Pharmacy 244C. Offered on the letter-grade basis only.

PHM 383M. Health Innovation Entrepreneurship.
Restricted to graduate and professional students. Explore a highly interactive and interdisciplinary approach for developing health innovation, including drug product, devices, and digital health solutions. Examine foundational entrepreneurial and innovation concepts for identifying and developing ideas, performing market validation, conducting customer discovery, assessing competition, and identifying skills for effectively working in teams. Three lecture hours a week for one semester. Only one of the following may be counted: Pharmacy Graduate Studies 380M (Topic: Entrepreneurship/Hlth Innov), 383M, Pharmacy PharmD 382R (Topic: Entrepreneurship/Hlth Innov), 383M. Offered on the letter-grade basis only.

For each semester hour of credit earned, three laboratory hours a week for one semester. No more than three semester hours may be counted toward the professional pharmacy elective requirement. May be repeated for credit. Prerequisite: Second-professional-year standing and consent of instructor and the dean.

PHM 183S, 283S. Foundations of Professional Development VI.
In-depth education and training to promote personal and professional development of students. Built on six interdependent pillars: Self-Awareness, Professionalism, Leadership, Career Development and Planning, Contemporary Issues in Practice, and Interprofessional Collaborative Practice (ICP). Employs a series of seminars, team-based workshops, and interprofessional learning experiences to inculcate students into the College of Pharmacy and profession of pharmacy. Focuses on self-awareness, professionalism, leadership development, career planning and decision-making, contemporary issues in pharmacy practice, and interprofessional collaboration. For each semester hour of credit earned, one lecture hour a week for one semester. Only one of the following may be counted: Pharmacy 182H, Pharmacy PharmD 183C, 283C, 183S, 283S. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 182D, 282D, or 182T, 282T, (or Pharmacy 172H).

PHM 183T, 283T. Foundations of Professional Development VI.
In-depth education and training to promote personal and professional development of students. Built on six interdependent pillars: Self-Awareness, Professionalism, Leadership, Career Development and Planning, Contemporary Issues in Practice, and Interprofessional Collaborative Practice (ICP). Employs a series of seminars, team-based workshops, and interprofessional learning experiences to inculcate students into the College of Pharmacy and profession of pharmacy. Focuses on self-awareness, professionalism, leadership development, career planning and decision-making, contemporary issues in pharmacy practice, and interprofessional collaboration. For each semester hour of credit earned, one lecture hour a week for one semester. Only one of the following may be counted: Pharmacy 192H, Pharmacy PharmD 182R (Topic: Profesnl Devel Convocation VI), 183D, 283D, 183T, 283T. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 183C, or 283C, or 183S, or 283S, (or Pharmacy 182H).

PHM 283U. Multidisciplinary Pain Management.
Problem-based instruction to help health professions students acquire knowledge and skills in the care of patients with acute and chronic pain. Taught by faculty members in medicine, pharmacy, and nursing. Two lecture hours a week for one semester. Pharmacy 283U and Pharmacy PharmD 283U may not both be counted. Prerequisite: Consent of instructor.

PHM 183V. Pharmacy Practice Lab III.
Restricted to students in the College of Pharmacy. Navigate the pharmacists’ patient care process in preparation for Introductory Pharmacy Practice Experiences. Utilize critical-thinking, problem-solving and communication skills to collect, assess, plan, implement and follow-up on patients at an intermediate level. One lecture hour and three laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 182V.
PHM 083W. PharmD Year 2 Administrative Session I.
Co-curricular and supplemental material for students in the second year of the Pharmacy (PharmD) program. One lecture hour a week for one semester. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Completion of the first year in the Pharmacy (PharmD) program.

An integrated approach to the etiology and treatment of disease states of the gastrointestinal system. Also includes nutrition. The equivalent of one lecture hour per week for one semester. Pharmacy PharmD 184 and 385G (or Pharmacy 395G) may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 486 or 685E (or Pharmacy 675E).

PHM 284E, 384E. Pharmacy Law.
State and federal pharmacy laws. For each semester hour of credit earned, one lecture hour a week for one semester. Pharmacy PharmD 284E and Pharmacy 284E may not both be counted. Offered on the letter-grade basis only. Prerequisite: Completion of the second professional year in the College of Pharmacy.

Designed to give students additional insight, beyond Pharmacy PharmD 384D, into the development of antimicrobial agents and the interactions of these agents with each other, the pathogen, and the patient. Students explore a self-selected topic for research and presentation. Conference course, with at least fifteen additional hours to be arranged. Pharmacy 184H and Pharmacy PharmD 184H may not both be counted. Offered on the letter-grade basis only. Prerequisite: Registration for Pharmacy PharmD 384D.

PHM 284I. Community Introductory Pharmacy Practice Experience.
Restricted to students in the College of Pharmacy. Participate in a hands-on experience in a community pharmacy setting. Explore medication therapy management training, the development of patient care plans, the ability to develop and conduct a public health project, carry out patient exercises, and complete prescription management activities such as patient counseling. The equivalent of five hours of fieldwork a week for one semester. Only one of the following may be counted: Pharmacy PharmD 284I, 287H and Pharmacy 287H. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy; Completion of the second professional year of pharmacy school.

PHM 384K. Community Pharmacy Management.
Advanced concepts in community pharmacy management for the student who plans to become a pharmacy owner or manager. Covers operational, personnel, and financial management; marketing; layout and design; and the delivery of pharmaceutical care in a community pharmacy setting. Three lecture hours a week for one semester. Pharmacy 326C and Pharmacy PharmD 384K may not both be counted. Prerequisite: Pharmacy PharmD 283L (or 281L or Pharmacy 244C).

PHM 384L. Pharmacy and the Health Care System.
The health care system in the United States; principles of managed care; application of pricing policies; and an overview of pharmacy services. Three lecture hours a week for one semester. Pharmacy 364D and Pharmacy PharmD 384L may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 283L (or 281L or Pharmacy 244C).

PHM 184M, 284M. Pharmacy Professional Communications.
Professional communication skills in interacting with patients and other health care professionals. For each hour of credit earned, one lecture hour a week for one semester. Pharmacy 266P and Pharmacy PharmD 284M may not both be counted. Offered on the letter-grade basis only.

PHM 284S. Quality and Patient Safety Interprofessional Education.
Concepts of patient safety and quality improvement. Current and past quality improvement projects are used to demonstrate the model of clinical safety and effectiveness. Reducing and preventing medical errors using the TeamSTEPPS approach; working in interprofessional teams on a quality improvement project. The equivalent of two lecture hours a week for one semester. Pharmacy 274S and Pharmacy PharmD 284S may not both be counted. Prerequisite: Completion of the second professional year in the College of Pharmacy.

PHM 184V. Pharmacy Practice Lab IV.
Restricted to students in the College of Pharmacy. Navigate the pharmacists’ patient care process in preparation for Introductory Pharmacy Practice Experiences. Utilize critical-thinking, problem-solving and communication skills to collect, assess plan, implement and follow-up on patients at an advanced intermediate level. One lecture hour and three laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 183V.

PHM 084W. PharmD Year 2 Administrative Session II.
Co-curricular and supplemental material for students in the second year of the Pharmacy (PharmD) program. One lecture hour a week for one semester. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Completion of the first year of the Pharmacy (PharmD) program.

PHM 185. Pharmacotherapeutics of Diabetes.
An integrated approach to the etiology and treatment of diabetes. The equivalent of one lecture hour per week for one semester. Pharmacy PharmD 185 and 385G (or Pharmacy 395G) may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 181, 184, 486, 184P, or consent of the dean.

PHM 185I. Ambulatory Introductory Pharmacy Practice Experience.
Restricted to students in the College of Pharmacy. Participate in a hands-on experience in an ambulatory pharmacy setting. Work on patient care plans, review and evaluate patient medication lists, identify goals for common chronic disease states, utilize formularies in making drug therapy decisions, and assess appropriate resources to respond to drug information questions in an ambulatory setting. The equivalent of two hours of fieldwork a week for one semester. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy; Completion of the second professional year of pharmacy school.

PHM 385K. Applied Pharmacy Management.
Examination and application of principles of pharmacy management, with emphasis on human resource management. Subjects include
interviewing and selection techniques, assessing job performance, improving the work environment, leadership skills, management skills, managing medication errors, and quality improvement of pharmacy services. Three lecture hours a week for one semester. Pharmacy 326M and Pharmacy PharmD 385K may not both be counted. Prerequisite: Pharmacy PharmD 281L (or Pharmacy 244C) and 181P (or Pharmacy 144P).

**PHM 285M. Patient-Centered Diabetes Care.**

Explore a practice-based approach to the non-pharmacologic and pharmacologic management of diabetes in multiple pharmacy practice settings. Two lecture hours a week for one semester. Pharmacy PharmD 282R (Topic: Patient Cntrd Diabetes Care) and 285M may not both be counted. Prerequisite: Pharmacy PharmD 185.

**PHM 185N. Biomedical and Professional Ethics.**

Restricted to students in the College of Pharmacy. Explore biomedical and professional ethics and the implications and challenges for pharmacy practice. Examine core principles and theories in biomedical and professional ethics including the pharmacy code of ethics and codes of ethics for other healthcare practitioners. One lecture hour a week for one semester. Only one of the following may be counted: Pharmacy PharmD 184N, 185N, Pharmacy 176E. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum.

**PHM 185V. Pharmacy Practice Lab V.**

Restricted to students in the College of Pharmacy. Navigate the pharmacists’ patient care process in preparation for Introductory Pharmacy Practice Experiences. Utilize critical-thinking, problem-solving and communication skills to collect, assess plan, implement and follow-up on patients at an advanced level. One lecture hour and three laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 184V.

**PHM 085W. PharmD Year 3 Administrative Session I.**

Co-curricular and supplemental material for students in the third year of the Pharmacy PharmD) program. One lecture hour a week for one semester. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Completion of the second year of the Pharmacy (PharmD) program.

**PHM 486. Pharmacotherapeutics of Infectious Diseases.**

An integrated approach to the etiology and treatment of infectious disease. The equivalent of four lecture hours a week for one semester. Pharmacy PharmD 685E (or Pharmacy 675E) and 486 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 181, 184, 184P, and 185, or consent of the dean.

**PHM 186E, 286E. Careers in Academic Pharmacy.**

Restricted to students in the College of Pharmacy. Examine pharmacy education with a focus on the three pillars of academia: teaching, service, and scholarship. For each semester hour of credit earned, one lecture hour a week for one semester Pharmacy PharmD 182R (Topic: Careers in Academic Pharm) and 186E may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 181T, or consent of instructor.

**PHM 386G. Spanish for the Pharmacy Professional.**

Intermediate communication skills in Spanish. Three lecture hours a week for one semester. Pharmacy 386G and Pharmacy PharmD 386G may not both be counted. Prerequisite: Completion of the second professional year in the College of Pharmacy, and one year of college-level Spanish or consent of instructor.

**PHM 386H. Institutional Clinical Skills.**

Hands-on experience in an institutional practice care facility; examines pharmacy services, hospital pharmacy management, staff interaction, and the flow of information from pharmacy to bedside. Forty hours a week for two weeks. Only one of the following may be counted: Pharmacy PharmD 383L, 386H and Pharmacy 377H. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy; and Pharmacy PharmD 287D (or Pharmacy 242D), 281L (or Pharmacy 244C), 181P (or Pharmacy 144P), 195Q (or Pharmacy 163C), 195P (or Pharmacy 163P), 384L (or Pharmacy 364D), 284M (or Pharmacy 266P), 190P (or Pharmacy 171P), 390N (or Pharmacy 371S), 282D (or Pharmacy 172H), 685E (or Pharmacy 675E), 182P (or Pharmacy 175P), 184N (or Pharmacy 176E) and 289P (or Pharmacy 277P, or 177G and 177P).

**PHM 386K. Pharmacy Association Management.**

An introduction to the principles involved in managing pharmacy associations. Students gain practical experience in a community pharmacy. Nine hours of fieldwork a week for one semester. Pharmacy 329C and Pharmacy PharmD 386K may not both be counted. Prerequisite: Pharmacy PharmD 283L (or 281L or Pharmacy 244C) and consent of instructor.

**PHM 186M. Advanced Oncology.**

Review supportive care and symptom management for oncology patients, cancer types and treatments. Examine clinical trials, new cancer types, and palliative care/end-of-life. Discuss and debate clinical controversies in oncology treatment. One lecture hour a week for one semester. Pharmacy PharmD 186M and 182R (Topic: Oncology Elective) may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 288.

**PHM 186Q. Experiential Pharmacy Practice and Patient Counseling.**

Medication use and dispensing in a practice environment. Counseling skills and techniques for a better understanding of disease states and positive medication outcomes. Three laboratory hours a week for one semester. Pharmacy 176P and Pharmacy PharmD 186Q may not both be counted. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy, and completion of the first professional year in the College of Pharmacy.

**PHM 286R. Advanced Contemporary Compounding.**

The art and science of compounding pharmaceutical preparations to develop an advanced understanding of formulation, stability, and quality standards of compounded pharmaceuticals. Focuses on pharmaceutical elegance; developing professional judgement based on limited data to assess the stability and efficacy of a compound before dispersing the preparation; the regulations governing compounding, including those outlined by the United States Pharmacopeial Convention, the Pharmacy Compounding Accreditation Board, and other scientific and professional organizations; mechanisms for evaluation and analysis of the quality of a compounded formulation; and marketing and promotion of compounding services. Two lecture hours a week for one semester. Pharmacy 256R and Pharmacy PharmD 286R may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 388M (or Pharmacy 356C) and 188P (or Pharmacy 156P).

**PHM 186S. Advanced Contemporary Compounding Laboratory.**

Advanced compounding methods with respect to pharmaceutical dosage forms and formulations, with emphasis placed on creating
formulations that satisfy unique patient needs, and a discussion of equipment used by compounding pharmacists to formulate preparations that satisfy those needs. Pharmacy PharmD 186S builds upon compounding skills taught in Pharmacy PharmD 188P. Three laboratory hours a week for one semester. Pharmacy 156S and Pharmacy PharmD 186S may not both be counted. Offered on the letter-grade basis only. Prerequisite: Registration for Pharmacy PharmD 286R.

PHM 186V. Pharmacy Practice Lab VI.
Restricted to students in the College of Pharmacy. Navigate the pharmacists’ patient care process in preparation for Introductory Pharmacy Practice Experiences. Utilize critical-thinking, problem-solving and communication skills to collect, assess, plan, implement and follow-up on patients. One lecture hour and three laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 185V.

PHM 086W. PharmD Year 3 Administrative Session II.
Co-curricular and supplemental material for students in the third year of the Pharmacy (PharmD) program. One lecture hour a week for one semester. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Completion of the second year of the Pharmacy (PharmD) program.

PHM 187. Pharmacotherapeutics of the Endocrine System.
An integrated approach to the etiology and treatment of disease states of the endocrine system. The equivalent of one lecture hour per week for one semester. Pharmacy PharmD 385G (or Pharmacy 395G) and 187 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 181 and 184P or consent of the dean.

PHM 187E. Emotions, Ethics, and Empathy.
Restricted to students in the College of Pharmacy. Explore emotions, ethics, and what it means to be an empathetic pharmacist. One lecture hour a week for one semester Pharmacy PharmD 182R (Topic: Emotions Ethics and Empathy) and 187E may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 185N, or consent of instructor

PHM 187F. Foundations of Patient-Centered Care I.
Restricted to students in the College of Pharmacy. Explore a broad overview of the pharmacist’s role in patient-centered care through lectures, simulations, activities, and writing assignments. One lecture hour a week and seven additional fieldwork hours for one semester. Only one of the following may be counted: Pharmacy 242D, Pharmacy PharmD 287D, 187F. Offered on the letter-grade basis only.

PHM 187G. Foundations of Patient-Centered Care II.
Restricted to students in the College of Pharmacy. Continue to explore a broad overview of the pharmacist’s role in patient-centered care through lectures, simulations, activities, and writing assignments. One lecture hour a week and seven additional fieldwork hours for one semester. Only one of the following may be counted: Pharmacy 242D, Pharmacy PharmD 287D, 187G. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 187F.

PHM 287H, 387H. Community Care Clinical Skills.
Clinical work in a community-based pharmacy practice setting. Includes medication therapy management training, participation in the development of patient care plans, the ability to develop and conduct a public health project, carry out patient exercises, and complete prescription management activities such as patient counseling. For Pharmacy PharmD 287H, 96 hours of fieldwork for one semester, for 387H, 120 hours of fieldwork for one semester. Only one of the following may be counted: Pharmacy PharmD 284I, 287H and Pharmacy 287H. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy; Pharmacy PharmD 195Q (or Pharmacy 163C), 195P (or Pharmacy 163P), 384L (or Pharmacy 364D), 284M (or Pharmacy 266P), 182F (or Pharmacy 172E), 182P (or Pharmacy 172P), 184N (or Pharmacy 176E), 289P (or 277P) and 392P (or Pharmacy 392S).

Laboratory course examining professional education issues and techniques for students exploring an academic career. For each semester hour of credit earned, three laboratory hours a week for one semester. Only one of the following may be counted: Pharmacy 187J, 287J, 387J, Pharmacy PharmD 187J, 287J, 387J. Prerequisite: Completion of all first-year professional coursework and consent of the dean.

PHM 687K. Pharmacy Association Management Residency.
Experience working in a pharmacy association, including active involvement in some managerial aspect of the association. Eighteen hours of fieldwork a week for one semester. Only one of the following may be counted: Pharmacy 629D and Pharmacy PharmD 687K. Prerequisite: Pharmacy PharmD 384L (or Pharmacy 364D) and consent of instructor.

PHM 387M. Physical and Chemical Principles of Drugs.
Fundamental, introductory principles of pharmaceutics, including thermodynamics, kinetics, and other basic chemical principles related to drugs. Three lecture hours a week for one semester. Pharmacy 342C and Pharmacy PharmD 387M may not both be counted. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum.

PHM 287N. Biopharmaceutics.
Complements the basic pharmaceutics principles covered in Pharmacy PharmD 387M. Subjects include core concepts in biopharmaceutics of drugs. Two lecture hours a week for one semester. Pharmacy 252C and Pharmacy PharmD 287N may not both be counted. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum.

PHM 187R. Exploratory Research in Pharmacy.
The student participates in ongoing in-depth research activities in pharmaceutics, medicinal chemistry, toxicology, pharmacology, pharmacy administration, pharmacy practice, or pharmacotherapy. At least seven research hours a week for one semester. May be repeated for credit. Prerequisite: Pharmacy PharmD 181R (or Pharmacy 151R) and admission to the Pharmacy Honors Program, or consent of the dean.

PHM 288. Pharmacotherapeutics of Oncology and Transplant.
An integrated approach to the etiology and treatment of disease states related to oncology and transplants. The equivalent of two lecture hours per week for one semester. Pharmacy PharmD 685F (or Pharmacy 695F) and 288 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 181 and 184P, or consent of the dean.

PHM 288E. Clinical Drug Development: Regulatory Perspectives.
Restricted to students in the College of Pharmacy. Explore the regulatory affairs involved in the review, submission, and design of clinical trials for compounds being considered for Food and Drug Administration approval. Two lecture hours a week for one semester Pharmacy PharmD
PHM 282R (Topic: Drug Devlpmt Clin Perspective) and 288E may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 388M or consent of instructor.

PHM 288H. Pharmacy Honors Proposal and Tutorial Course.
Honors seminar; development of laboratory research proposal for approval by the Honors Program Committee. One lecture hour and three hours of independent research a week for one semester. Pharmacy 278H and Pharmacy PharmD 288H may not both be counted. Prerequisite: Admission to the Pharmacy Honors Program.

PHM 188K, 288K, 388K. Hospital Pharmacy.
Restricted to students in the College of Pharmacy Basic principles, standards, and procedures involved in providing professional pharmaceutical services in hospitals. For each semester hour of credit earned, one lecture hour a week for one semester. Only one of the following may be counted: Pharmacy 372K, Pharmacy PharmD 188K, 288K, 388K.

PHM 388M. Pharmaceutics.
General introduction to dosage forms, and the technology and pharmaceutical rationale fundamental to their development. Three lecture hours a week for one semester. Pharmacy 356C and Pharmacy PharmD 388M may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 387M (or Pharmacy 342C) and 187P (or Pharmacy 142P) and credit or registration for Pharmacy PharmD 188P (or Pharmacy 156P).

PHM 188P. Pharmaceutics Laboratory.
Laboratory course supporting the subjects discussed in Pharmacy PharmD 388M. One hour of pre-laboratory lecture and three laboratory hours a week for one semester. Pharmacy 156P and Pharmacy PharmD 188P may not both be counted. Prerequisite: Credit or registration for Pharmacy PharmD 388M (or Pharmacy 356C).

PHM 189. Pharmacotherapeutics of the Reproductive System.
An integrated approach to the etiology and treatment of disease states related to reproductive health. The equivalent of one lecture hour per week for one semester. Pharmacy PharmD 385G (or Pharmacy 395G) and 189 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 181 and 184P, or consent of the dean.

PHM 389E. Modern Trends in Drug Design.
Restricted to students in the College of Pharmacy. Examine drug metabolism, pharmacogenomics, mechanisms of drug action, and approaches used in modern drug discovery and development. Three lecture hours a week for one semester Only one of the following may be counted: Pharmacy Graduate Studies 396M, Pharmacy PharmD 382R (Topic: Mdm Trends in Drug Design), 389E. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 388M or consent of instructor.

PHM 489H. Pharmacy Honors Thesis and Tutorial Course.
Honors seminar; laboratory research project conducted under the supervision of one or more faculty members. One lecture hour and nine laboratory hours a week for one semester. Pharmacy 479H and Pharmacy PharmD 489H may not both be counted. Prerequisite: Pharmacy PharmD 288H (or Pharmacy 278H).

PHM 389K. Social Media and Consumer Healthcare.
An exploration of how social media is transforming healthcare and improving patient outcomes. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 282E (or Pharmacy 262D) and 282F.

PHM 389M. Fundamentals of Health Innovations.
Restricted to students in a professional program. Explore foundational innovation and entrepreneurship concepts related to the process of developing novel drug therapies, medical devices, diagnostics, and digital health products and services. Three lecture hours a week for one semester. Only one of the following may be counted: Pharmacy Graduate Studies 380M (Topic: Fundamentals of Health Innovations), 389M, Pharmacy PharmD 382R (Topic: Fundamentals of Health Innovations), 389M. Offered on the letter-grade basis only. Prerequisite: Consent of instructor.

PHM 189S, 289S, 389S. Community Service Learning.
Community-based participatory projects designed to connect coursework and community service experiences. Past and present health issues specific to the Texas region (such as United States-Mexico border issues), national and regional health initiatives, service challenges and opportunities, as well as personal/professional identities and responsibilities to the community. Projects developed in consultation with a faculty mentor and a selected community site. Includes an academic service-learning component. For each semester credit hour earned, one lecture hour a week for one semester, with a minimum of two fieldwork hours a week at a service-learning site to be arranged. Only one of the following may be counted: Pharmacy 169S, 269S, 369S, Pharmacy PharmD 189S, 289S, 389S. Offered on the letter-grade basis only. Prerequisite: Completion of the second professional year in the College of Pharmacy.

PHM 190. Pharmacotherapeutics of Dermatology and Inflammatory Processes.
An integrated approach to the etiology and treatment of disease states of the dermis. Includes inflammatory responses. The equivalent of one lecture hour per week for one semester. Pharmacy PharmD 685D (or Pharmacy 665E) and 190 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 181, PHM 184P, or consent of the dean.

PHM 390C. Communication Skills for Health Professionals.
Designed for pharmacy, pre-pharmacy, premedical, predental, and nursing students. Enhancement of verbal communication skills for professional and public presentations, patient consultations, and interviewing. Three lecture hours a week for one semester. Only one of the following may be counted: Pharmacy 370C, Pharmacy PharmD 370C, or Pharmacy PharmD 390C. Offered on the letter-grade basis only.

PHM 290D. Nutritional Aspects of Clinical Pharmacy.
Explores the interrelationships of nutrition, disease, and drug therapy, including aspects of both normal and clinical nutrition, nutritional deficiencies, and the metabolic consequences or diseases associated with malnutrition. Patient case studies examine both the effects of drug therapy on nutrition and the effects of nutrition on drug therapy. Disease states covered include cardiovascular disease, diabetes, hepatic and renal failure, and anemia. Two lecture hours a week for one semester. Pharmacy 270D and Pharmacy PharmD 290D may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 185V.

PHM 390E. Controlled Substances: Violations, Investigations, and Enforcement.
Restricted to students in the College of Pharmacy. Explore violations of federal and state-controlled substances laws and rules, and analyze the pharmacist’s role in enforcement. Three lecture hours a week for one semester Pharmacy PharmD 382R (Topic: Cntrld Subst Violatn Invgtn)
and 390E may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 185N or consent of instructor

PHM 290H. Pharmacy Research Honors Proposal.
Restricted to students in the College of Pharmacy. Write a research proposal and conduct a research project under the supervision of one or more faculty members. The equivalent of four laboratory hours a week for one semester. Offered on the letter-grade basis only.

Group discussions with an emphasis on clinically relevant drug-drug interactions, mechanisms, significance, and clinical management. Three lecture hours a week for one semester. Prerequisite: Completion of the second professional year in the College of Pharmacy and consent of instructor.

PHM 290L. Introduction to Nuclear Pharmacy.
An overview of nuclear pharmacy, a recognized specialty area of pharmacy practice focusing on the compounding and dispensing of radioactive materials for use in nuclear medicine procedures (therapeutic, diagnostic, and imaging). Two lecture hours a week for one semester. Pharmacy 270N and Pharmacy PharmD 290L may not both be counted. Prerequisite: Pharmacy PharmD 287N (or Pharmacy 252C), and 390N (or Pharmacy 371S); or consent of instructor.

PHM 290M. Inpatient Adult Medicine.
Clinical therapeutic management of adult patients in an inpatient, institutional (primarily hospital) setting. Two lecture hours a week for one semester. Pharmacy 270M and Pharmacy PharmD 290M may not both be counted. Offered on the letter-grade basis only. Prerequisite: Completion of the second professional year in the College of Pharmacy.

PHM 390N. Integrated Basic and Applied Pharmacokinetics.
Introduction to pharmacokinetic principles; and the application of principles to specific drugs and patient situations. Three lecture hours a week for one semester. Pharmacy 371S and Pharmacy PharmD 390N may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 287N (or Pharmacy 252C), 187P (or Pharmacy 142P), 287N (or Pharmacy 252C), 388M (or Pharmacy 356C), and 188P (or Pharmacy 156P); and credit or registration for Pharmacy PharmD 184, 185, and 486.

PHM 390S. Interprofessional Community Service Learning.
Integration of community service with contemporary pharmacy practice, with a focus on social justice and social determinants of health care. Weekly online didactic modules, a minimum of fifty hours of service learning practicum with a community partner, and twice monthly group meetings. Pharmacy 370S and Pharmacy PharmD 390S may not both be counted. Offered on the letter-grade basis only. Prerequisite: Completion of the second professional year in the College of Pharmacy.

PHM 390T. Pharmacy International Exchange.
Work in an exchange program with international colleges and schools of pharmacy as partners. Examination of similarities and differences between pharmacy education, professional practice, and/or research in the hosting country and in the United States. Forty hours of fieldwork a week for one semester. Pharmacy 390T and Pharmacy PharmD 390T may not both be counted. Prerequisite: Completion of the first professional year in the College of Pharmacy and consent of instructor.

PHM 390V. Patient Safety.
Covers methods to ensure patient safety, prevent misadventures, and develop policy associated with patient safety and misadventure prevention. Three lecture hours a week for one semester. Only one of the following may be counted: Pharmacy 361J (Topic: Patient Safety and You), 390V, and Pharmacy PharmD 390V. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 284M (or Pharmacy 266P) or 184M.

PHM 290W. Health Leadership.
Develops skills necessary to identify and establish professional goals, build and lead teams, delegate effectively, resolve conflicts, network for career advancement, document leadership experiences/abilities on curriculum vitae and in recommendation letters, and demonstrate leadership abilities during job interviews. Two lecture hours a week for one semester. Only one of the following may be counted: Pharmacy 261J (Topic: Health Leaders), 290W or Pharmacy PharmD 290W. Offered on the letter-grade basis only.

PHM 291. Pharmacotherapeutics of Pain and Addiction.
An integrated approach to the etiology and treatment of disease states related to pain and addiction. The equivalent of two lecture hours per week for one semester. Pharmacy PharmD 685F (or Pharmacy 695F) and 291 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 181 or consent of the dean.

PHM 291H. Pharmacy Research Honors Report.
Restricted to students in the College of Pharmacy. Continue to conduct a research project and complete a laboratory research report under the supervision of one or more faculty members. The equivalent of four laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 290H.

PHM 291K. Pediatric Pharmacotherapy.
Pathophysiology and pharmacotherapy of selected pediatric diseases. Designed to expose students to pediatric pharmacy as a potential area of focus, and to prepare them for a potential residency or practice in providing pharmaceutical care in a pediatric setting. Two lecture hours a week for one semester. Pharmacy 282Q and Pharmacy PharmD 291K may not both be counted. Prerequisite: Completion of the first professional year in the College of Pharmacy.

PHM 191L. Leadership in Community Service Learning.
Designed for students enrolled in Pharmacy PharmD 193U who elect to serve in a leadership role for the community service-learning project. Coordinate and organize responsibilities at each phase of the project, communicate with community partners, and additional outreach based on the needs of the community partner. Develop a plan and disseminate the project outcomes. The equivalent of one lecture hour a week for one semester. Pharmacy 171L and Pharmacy PharmD 191L may not both be counted. Prerequisite: Credit or registration for Pharmacy PharmD 193U.

PHM 291M. Introduction to Ambulatory Care Pharmacy.
Clinical and non-clinical topics relevant to treating commonly encountered disease states, effectively communicating with patients, and managing a clinical pharmacy practice in an ambulatory setting. Emphasis on application of concepts learned in previous classes to real-world situations. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 284M (or Pharmacy 266P) or 184M.

PHM 291T. Pharmacy International Exchange.
Work in an exchange program with international colleges and schools of pharmacy as partners. Examination of similarities and differences between pharmacy education, professional practice, and/or research in the hosting country and in the United States. Forty hours of fieldwork a week for one semester. Pharmacy 390T and Pharmacy PharmD 390T may not both be counted. Prerequisite: Completion of the first professional year in the College of Pharmacy and consent of instructor.
skills necessary for the delivery of quality and safe patient-centered and population-oriented care as a contributing member of a healthcare team. One lecture hour per week and six interprofessional sessions for one semester. Offered on the letter-grade basis only.

**PHM 191V. Foundations for Interprofessional Collaborative Practice II.**

Restricted to students in the College of Pharmacy. Introduces and reinforces interprofessional education core competencies delivered through classroom-based interactive sessions, simulations, field-based immersive experiences, and experiential learning with students and members of other professions. Imparts the foundational knowledge and skills necessary for the delivery of quality and safe patient-centered and population-oriented care as a contributing member of a healthcare team. One lecture hour per week and six interprofessional sessions for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 191U.

**PHM 391W. Leadership and Advocacy in Pharmacy.**

A discussion forum for exploring current legislative and regulatory issues influencing the pharmacy profession. Focuses on retrieving legislative and regulatory information, interpreting legislation, regulations and their potential impacts, engaging in discussion on various perspectives of the issues and presenting information on legislation and regulations that impact pharmacy practice. Three lecture hours a week for one semester. Only one of the following may be counted: Pharmacy 361J (Topic: Leadership and Advocacy in Pharmacy), 391W, and Pharmacy PharmD 391W. Offered on the letter-grade basis only. Prerequisite: Admission to the professional pharmacy curriculum.

**PHM 292. Pharmacotherapeutics of Psychiatric Disorders.**

An integrated approach to the etiology and treatment of disease states related to psychiatrics. The equivalent of two lecture hours per week for one semester. Pharmacy PharmD 685F (or Pharmacy 695F) and 292 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 181 or consent of the dean.

**PHM 292G, 392G. Herbal and Botanical Supplements.**

A practice-based approach to learning about the most common herbal and botanical supplements in a pharmacy practice setting, including review of studies of popular uses, clinical indications, pharmacological effects, mechanisms of action, side effects, contraindications, and common dosage guidelines. Discussion of the legal, regulatory, and ethical aspects, in addition to analyzing manufacturing quality issues and counterfeit products is also addressed. For each semester hour of credit earned, one lecture hour a week for one semester. Only one of the following may be counted: Pharmacy 292G, 392G, Pharmacy PharmD 292G, 392G. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 282E (or Pharmacy 262D), and 295Q.

**PHM 292H. Pharmacy Research Honors Project.**

Restricted to students in the College of Pharmacy. Continue to conduct a research project and complete a review of a research article, under the supervision of one or more faculty members. The equivalent of four laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 291H.

**PHM 192L. Leadership in Community Service Learning II.**

Designed for students enrolled in Pharmacy PharmD 193V who elect to serve in a leadership role for the community service-learning project. Coordinate and organize responsibilities at each phase of the project, communicate with community partners, and additional outreach based on the needs of the community partner. Develop a plan and disseminate the project outcomes. The equivalent of one lecture hour a week for one semester. Prerequisite: Pharmacy PharmD 191L or consent of instructor.

**PHM 192M, 292M. Introduction to Specialty Pharmacy Practice.**

Restricted to students in the College of Pharmacy. Explore the basic principles, standards, and procedures involved in providing professional pharmaceutical services in a specialty pharmacy. For each semester hour of credit earned, one lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Completion of the second professional year of pharmacy school.

**PHM 192U. Foundations for Interprofessional Collaborative Practice III.**

Restricted to students in the College of Pharmacy. Introduces and reinforces interprofessional education core competencies delivered through classroom-based interactive sessions, simulations, field-based immersive experiences, and experiential learning with students and members of other professions. Imparts the foundational knowledge and skills necessary for the delivery of quality and safe patient-centered and population-oriented care as a contributing member of a healthcare team. One lecture hour per week and six interprofessional sessions for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 191V.

**PHM 192V. Foundations for Interprofessional Collaborative Practice IV.**

Restricted to students in the College of Pharmacy. Introduces and reinforces interprofessional education core competencies delivered through classroom-based interactive sessions, simulations, field-based immersive experiences, and experiential learning with students and members of other professions. Imparts the foundational knowledge and skills necessary for the delivery of quality and safe patient-centered and population-oriented care as a contributing member of a healthcare team. One lecture hour per week and six interprofessional sessions for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 192U.

**PHM 193. Pharmacotherapeutics of Neurologic Disorders.**

An integrated approach to the etiology and treatment of disease states related to neurology. The equivalent of one lecture hour per week for one semester. Pharmacy PharmD 385H (or Pharmacy 396D) and 193 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 181 or consent of the dean.

**PHM 693C. Ambulatory Care Pharmacy Practice.**

Analysis of pharmacotherapy, evaluation of drug use, and synthesis of rational drug regimens in the context of ambulatory patient care. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. Pharmacy 693C and Pharmacy PharmD 693C may not both be counted. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy; during the fall and spring semesters, concurrent enrollment in two of the following: Pharmacy PharmD 693E (or Pharmacy 693E), 693N (or Pharmacy 693N), 693P (or Pharmacy 693P), 693S (or Pharmacy 693S), 694C (or Pharmacy 694C), 694E (or Pharmacy 694E), 694S (or Pharmacy 694S), or 695E (or Pharmacy 695E).

**PHM 693E. Elective in Pharmacy Practice I.**

Experience in pharmacy practice, research, or administration. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. Pharmacy 693E and Pharmacy PharmD 693E may not both be counted. Offered on the pass/fail basis only. Prerequisite:
Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy; during the fall and spring semesters, concurrent enrollment in two of the following: Pharmacy PharmD 693C (or Pharmacy 693C), 693N (or Pharmacy 693N), 693P (or Pharmacy 693P), 693S (or Pharmacy 693S), 694C (or Pharmacy 694C), 694E (or Pharmacy 694E), 694S (or Pharmacy 694S), or 695E (or Pharmacy 695E).

PHM 393F. Pharmacoconomics and Pharmacy Management.
Restricted to students in the College of Pharmacy. Explore the terms, concepts, procedures, methods, problems, and strengths associated with pharmacoconomics. Examine and utilize health information resources to manage medication use and minimize medication errors. Evaluate information regarding the financial status of the pharmacy and implications of the decisions faced by managers in reaching financial goals for the pharmacy. Three lecture hours a week for one semester. Only one of the following may be counted: Pharmacy 394F, Pharmacy Graduate Studies 393T, Pharmacy PharmD 393F, 394F. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 384L (or Pharmacy 364D) or consent of instructor.

PHM 293H. Pharmacy Research Honors Thesis.
Restricted to students in the College of Pharmacy. Conduct a research project and write an honors thesis under the supervision of one or more faculty members. The equivalent of four laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 292H.

PHM 193M. Pharmacy Residency Preparation.
Restricted to students in the College of Pharmacy. Explore pharmacy residency and the skills needed to be competitive residency applicants. One lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Completion of the second professional year of pharmacy school or consent of instructor.

PHM 693N. Advanced Hospital Pharmacy Practice.
Analysis of pharmacotherapy, evaluation of drug use, synthesis of rational drug regimens, and dispensing of medications in the context of institutional patient care. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. Pharmacy 693N and Pharmacy PharmD 693N may not both be counted. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy; during the fall and spring semesters, concurrent enrollment in two of the following: Pharmacy PharmD 693C (or Pharmacy 693C), 693P (or Pharmacy 693P), 693S (or Pharmacy 693S), 694C (or Pharmacy 694C), 694E (or Pharmacy 694E), 694S (or Pharmacy 694S), or 695E (or Pharmacy 695E).

PHM 693P. Advanced Community Pharmacy Practice.
Analysis of pharmacotherapy, evaluation of drug use, synthesis of rational drug regimens, and dispensing of medications in the context of community-based patient care. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. Pharmacy 693P and Pharmacy PharmD 693P may not both be counted. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy; during the fall and spring semesters, concurrent enrollment in two of the following: Pharmacy PharmD 693C (or Pharmacy 693C), 693E (or Pharmacy 693E), 693N (or Pharmacy 693N), 693S (or Pharmacy 693S), 694C (or Pharmacy 694C), 694E (or Pharmacy 694E), 694S (or Pharmacy 694S), or 695E (or Pharmacy 695E).

PHM 693R. Supplemental Rotation in Pharmacy Practice I.
Analysis of pharmacotherapy, evaluation of drug use, and synthesis of rational drug regimens in the context of patient care. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy.

PHM 693S. Selective in Pharmacy Practice I.
Analysis of pharmacotherapy, evaluation of drug use, and synthesis of rational drug regimens in a selected pharmacy practice environment. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. Pharmacy 693S and Pharmacy PharmD 693S may not both be counted. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy; during the fall and spring semesters, concurrent enrollment in two of the following: Pharmacy PharmD 693C (or Pharmacy 693C), 693E (or Pharmacy 693E), 693N (or Pharmacy 693N), 693P (or Pharmacy 693P), 694C (or Pharmacy 694C), 694E (or Pharmacy 694E), 694S (or Pharmacy 694S), or 695E (or Pharmacy 695E).

PHM 193U. Foundations for Interprofessional Collaborative Practice V.
Restricted to students in the College of Pharmacy. Introduces and reinforces interprofessional education core competencies delivered through classroom-based interactive sessions, simulations, field-based immersive experiences, and experiential learning with students and members of other professions. Imparts the foundational knowledge and skills necessary for the delivery of quality and safe patient-centered and population-oriented care as a contributing member of a healthcare team. One lecture hour per week and six interprofessional sessions for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 192V.

PHM 193V. Foundations for Interprofessional Collaborative Practice VI.
Restricted to students in the College of Pharmacy. Introduces and reinforces interprofessional education core competencies delivered through classroom-based interactive sessions, simulations, field-based immersive experiences, and experiential learning with students and members of other professions. Imparts the foundational knowledge and skills necessary for the delivery of quality and safe patient-centered and population-oriented care as a contributing member of a healthcare team. One lecture hour per week and six interprofessional sessions for one semester. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 193U.

PHM 693W. Elective International Pharmacy Experience.
Competitive placement for an international advanced pharmacy experience. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. Pharmacy 693W and Pharmacy PharmD 693W may not both be counted. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy.

PHM 694C. Inpatient General Medicine Pharmacy Practice.
Analysis of pharmacotherapy, evaluation of drug use, and synthesis of rational drug regimens in the context of acute patient care. Forty
laboratory hours a week for at least six weeks, with additional hours to be arranged. Pharmacy 694C and Pharmacy PharmD 694C may not both be counted. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy; during the fall and spring semesters, concurrent enrollment in two of the following: Pharmacy PharmD 693C (or Pharmacy 693C), 693E (or Pharmacy 693E), 693N (or Pharmacy 693N), 693P (or Pharmacy 693P), 693S (or Pharmacy 693S), 694C (or Pharmacy 694C), 694S (or Pharmacy 694S), or 695E (or Pharmacy 695E).

**PHM 694E. Elective in Pharmacy Practice II.**
Experience in pharmacy practice, research, or administration. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. Pharmacy 694E and Pharmacy PharmD 694E may not both be counted. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy; during the fall and spring semesters, concurrent enrollment in two of the following: Pharmacy PharmD 693C (or Pharmacy 693C), 693E (or Pharmacy 693E), 693N (or Pharmacy 693N), 693P (or Pharmacy 693P), 693S (or Pharmacy 693S), 694C (or Pharmacy 694C), 694S (or Pharmacy 694S), or 695E (or Pharmacy 695E).

**PHM 394F. Pharmacoeconomics.**
Terms, concepts, procedures, methods, problems, and strengths associated with pharmacoeconomics. Three lecture hours a week for one semester. Only one of the following may be counted: Pharmacy 394F, Pharmacy Graduate Studies 393T, Pharmacy PharmD 393F, 394F. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 384L (or Pharmacy 364D) or consent of instructor.

**PHM 694R. Supplemental Rotation in Pharmacy Practice II.**
Analysis of pharmacotherapy, evaluation of drug use, and synthesis of rational drug regimens in the context of patient care. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy.

**PHM 694S. Selective in Pharmacy Practice II.**
Analysis of pharmacotherapy, evaluation of drug use, and synthesis of rational drug regimens in selected pharmacy practice environments. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. Pharmacy 694S and Pharmacy PharmD 694S may not both be counted. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy; during the fall and spring semesters, concurrent enrollment in two of the following: Pharmacy PharmD 693C (or Pharmacy 693C), 693E (or Pharmacy 693E), 693N (or Pharmacy 693N), 693P (or Pharmacy 693P), 693S (or Pharmacy 693S), 694C (or Pharmacy 694C), 694E (or Pharmacy 694E), or 695E (or Pharmacy 695E).

**PHM 695E. Elective in Pharmacy Practice III.**
Experience in pharmacy practice, research, or administration. Forty laboratory hours a week for at least six weeks, with additional hours to be arranged. Pharmacy 695E and Pharmacy PharmD 695E may not both be counted. Offered on the pass/fail basis only. Prerequisite: Current intern registration with the Texas State Board of Pharmacy and completion of all didactic and laboratory coursework prior to the fourth professional year in the College of Pharmacy; during the fall and spring semesters, concurrent enrollment in two of the following: Pharmacy PharmD 693C (or Pharmacy 693C), 693E (or Pharmacy 693E), 693N (or Pharmacy 693N), 693P (or Pharmacy 693P), 693S (or Pharmacy 693S), 694C (or Pharmacy 694C) 694E (or Pharmacy 694E) or 694S (or Pharmacy 694S).

**PHM 195P. Drug Information and Evidence-Based Practice Laboratory.**
Practical application of the concepts presented in Pharmacy 195Q. Includes assignments, projects, and oral presentations. Three laboratory hours a week for one semester. Pharmacy 163P and Pharmacy PharmD 195P may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit or registration for Pharmacy PharmD 282E (or Pharmacy 262D), 195Q (or Pharmacy 163C), and 685D (or Pharmacy 665E).

**PHM 195Q, 295Q. Drug Information and Evidence-Based Practice.**
Knowledge and skills needed to retrieve and interpret drug information. Interpretation of biomedical literature and an introduction to concepts of evidence-based practice. For each semester hour of credit earned, one lecture hour a week for one semester. Pharmacy PharmD 195Q and Pharmacy 163D may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 187G or 287D (or Pharmacy 242D)

**PHM 295R. Advanced Evidence-Based Practice.**
Research methodology and biostatistical concepts as they relate to the interpretation and critical evaluation of biomedical literature. Designed to build upon the material covered in Pharmacy PharmD 295Q. Two lecture hours a week for one semester. Pharmacy 295R and Pharmacy PharmD 295R may not both be counted. Offered on the letter-grade basis only. Prerequisite: Pharmacy PharmD 195Q (or Pharmacy 163C), or 295Q.

**PHM 398T. College Teaching Methodology.**
Interdisciplinary course intended to provide a foundation of theoretical and practical knowledge relating to teaching at the postsecondary level. Subjects include instructional methods, instructional design, practice teaching, teaching philosophy, instructional technology, and assessment of learning. Includes class discussions and individual consultations. Three lecture hours a week for one semester. Only one of the following may be counted: Pharmacy 368T, Pharmacy Graduate Studies 398T, Pharmacy PharmD 398T. Offered on the letter-grade basis only. Prerequisite: Completion of the second professional year in the College of Pharmacy, or consent of instructor.

**PHY - Physics**

**Physics: PHY**

**Lower-Division Courses**

**PHY 301. Mechanics.**
Designed for students who intend to major in science or mathematics. Three lecture hours a week for one semester. Only one of the following may be counted: Physical Science 303, Physics 301, 302K, 303K, 309K, 317K. Prerequisite: Credit with a grade of at least C- or registration in Mathematics 408D, 408L, or 408S, and Physics 101L; and an appropriate score on the physics assessment exam.

**PHY 101L. Laboratory for Physics 301.**
Three laboratory hours a week for one semester. Only one of the following may be counted: Physics 101L, 102M, 103M, 105M, 117M.
Prerequisite: Credit with a grade of at least C- or registration for Physics 301.

Noncalculus technical course in physics. Completion of high school trigonometry or Mathematics 305G is highly recommended. Three lecture hours a week for one semester. Only one of the following may be counted: Physical Science 303, Physics 301, 302K, 303K, 309K, 317K. Prerequisite: Credit with a grade of at least C- or registration for Physics 102M or 105M.

**PHY 302L (TCCN: PHYS 1302). General Physics Technical Course: Electricity and Magnetism, Light, Atomic and Nuclear Physics.**

Noncalculus technical course in physics. Three lecture hours a week for one semester. Only one of the following may be counted: Physical Science 303, Physics 302L, 303L, 309L, 316, 317L. Prerequisite: Physics 302K and 102M or 105M with a grade of at least C-; credit with a grade of at least C- or registration in Physics 102N or 105N.

**PHY 102M (TCCN: PHYS 1101). Laboratory for Physics 302K.**

Two laboratory hours a week for one semester. Only one of the following may be counted: Physics 101L, 102M, 103M, 105M, 117M. Prerequisite: Credit with a grade of at least C- or registration for Physics 302K.

**PHY 102N (TCCN: PHYS 1102). Laboratory for Physics 302L.**

Two laboratory hours a week for one semester. Only one of the following may be counted: Physics 102N, 103N, 105N, 116L, 117N. Prerequisite: Credit with a grade of at least C- or registration for Physics 302L.

**PHY 303K (TCCN: PHYS 2325). Engineering Physics I.**

A general survey of physics; primarily laws of motion, heat, and wave phenomena. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Physical Science 303, Physics 301, 302K, 303K, 309K, 317K. Prerequisite: Credit with a grade of at least C- or registration in Mathematics 408D, 408L, or 408S, and Physics 103N or 105M; and an appropriate score on the physics assessment exam.

**PHY 303L (TCCN: PHYS 2326). Engineering Physics II.**

Electricity and magnetism, optics, and atomic phenomena. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Physical Science 303, Physics 301, 302L, 303L, 309L, 316, 317L. Prerequisite: Physics 303K and 103M or 105M with a grade of at least C- in each; credit with a grade of at least C- or registration in Mathematics 408D or 408M, and Physics 103N or 105N.

**PHY 103M (TCCN: PHYS 2125). Laboratory for Physics 303K.**

Two laboratory hours a week for one semester. Only one of the following may be counted: Physics 101L, 102M, 103M, 105M, 117M. Prerequisite: Credit with a grade of at least C- or registration for Physics 303K.

**PHY 103N (TCCN: PHYS 2126). Laboratory for Physics 303L.**

Two laboratory hours and one discussion hour a week for one semester. Only one of the following may be counted: Physics 102N, 103N, 105N, 116L, 117N. Prerequisite: Credit with a grade of at least C- or registration for Physics 303L.

**PHY 104. Introductory Physics Seminar.**

Suggested for beginning physics majors. Discussion of the development of important ideas in physics, with emphasis on their relevance to contemporary research. One lecture hour a week for one semester. Offered on the pass/fail basis only.

**PHY 105M. Laboratory For Physics 302K, 303K, and 317K.**

Participate in an introductory mechanics laboratory. Three laboratory hours a week for one semester. Only one of the following may be counted: Physics 101L, 102M, 103M, 105M, 117M. Prerequisite: Credit with a grade of at least C- or registration for Physics 302K, 303K, or 317K.

**PHY 105N. Laboratory For Physics 302L, 303L, and 317L.**

Participate in an introductory electricity, magnetism, and optics laboratory. Three laboratory hours a week for one semester. Only one of the following may be counted: Physics 102N, 103N, 105N, 116L, 117N. Prerequisite: Credit with a grade of at least C- or registration for Physics 302L, 303L or 317L.

**PHY 306. Elementary Physics Methods.**

Designed for students who have not had high school physics, have weak problem-solving skills, and need preparation for Physics 301 or 303K. Three lecture hours a week for one semester. May not be counted toward any degree. Prerequisite: High school trigonometry or Mathematics 305G.

**PHY 108. Introduction to Research.**

Introductory laboratory experience; use of tools and test equipment; beginning apprenticeship in active physics research. One class hour a week for one semester. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Consent of instructor and approval of an undergraduate adviser.

**PHY 208F, 308F. Introduction to Research.**

Introductory laboratory experience; use of tools and test equipment; beginning apprenticeship in active physics research. For 208F, one lecture hour and one-and-one-half laboratory hours a week for one semester; for 308F, one lecture hour and eight laboratory hours a week for one semester. Prerequisite: Consent of instructor and the undergraduate adviser.

**PHY 309K (TCCN: PHYS 1305). Elementary Physics for Nontechnical Students.**

Mechanics, heat, and sound. Designed for students who do not intend to do further work in natural sciences, engineering, mathematics, or medicine. Three lecture hours a week for one semester. Only one of the following may be counted: Physical Science 303, Physics 301, 302K, 303K, 309K, 317K. May not be counted toward a degree in the College of Natural Sciences.

**PHY 309L (TCCN: PHYS 1307). Elementary Physics for Nontechnical Students.**

Electricity and magnetism, light, atomic and nuclear physics. Designed for students who do not intend to do further work in natural sciences, engineering, mathematics, or medicine. Three lecture hours a week for one semester. Only one of the following may be counted: Physical Science 304, Physics 302L, 303L, 309L, 316, 317L. May not be counted toward a degree in the College of Natural Sciences.

**PHY 110C. Conference Course.**

Supervised study of selected topics in physics, by individual arrangement with department and instructor. Conference course. May be repeated for credit when the topics vary. Offered on the pass/fail basis only. Prerequisite: Written consent of instructor.

**PHY 315. Wave Motion and Optics.**

Study of general properties of waves; examples include sound, electromagnetic, and mechanical waves; special emphasis on light and optics. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each: Mathematics 301.
408D, 408M, or equivalent; Physics 316 and 116L; and credit with a grade of at least C- or registration for Physics 115L and Mathematics 427J or 427K.

**PHY 115L. Laboratory for Physics 315.**
Three laboratory hours a week for one semester. May not be counted toward a degree unless prerequisite is observed. Prerequisite: Credit with a grade of at least C- or registration for Physics 315.

**PHY 316. Electricity and Magnetism.**
Three lecture hours a week for one semester. Only one of the following may be counted: Physics 304, Physics 302L, 303L, 309L, 316, 317L. Prerequisite: Physics 301 and 101L with a grade of at least C- in each; credit with a grade of at least C- or registration in Mathematics 408D or 408M, and Physics 116L.

**PHY 116L. Laboratory for Physics 316.**
Three laboratory hours a week for one semester. Only one of the following may be counted: Physics 102N, 103N, 105N, 116L, 117N. Prerequisite: Credit with a grade of at least C- or registration for Physics 316.

**PHY 317K. General Physics I.**
Mechanics, heat, and sound, with biomedical applications. An introductory course designed and recommended primarily for premedical students and others in the biomedical sciences whose professional or preprofessional training includes an introductory course in calculus. Satisfies most medical and dental school requirements for physics. Three lecture hours a week for one semester. Only one of the following may be counted: Physical Science 303, Physics 301, 302K, 303K, 309K, 317K. May not be counted toward the Bachelor of Science in Astronomy or Bachelor of Science in Physics. Prerequisite: Credit with a grade of at least C- in Mathematics 408C or 408R; or credit with a grade of at least C- in 408K or 408N and registration for 408L or 408S; and credit with a grade of at least C- or registration for Physics 117M or 105M.

**PHY 317L. General Physics II.**
Electricity and magnetism, light, atomic and molecular physics, nuclear physics, and their biomedical applications. Designed and recommended primarily for premedical students and others in the biomedical sciences whose professional or preprofessional training includes an introductory course in calculus. Satisfies most medical and dental school requirements for physics. Three lecture hours a week for one semester. Only one of the following may be counted: Physical Science 304, Physics 302L, 303L, 309L, 316, 317L. May not be counted toward the Bachelor of Science in Astronomy or Bachelor of Science in Physics. Prerequisite: Credit with a grade of at least C- or registration for Physics 117M or 105M.

**PHY 117M. Laboratory for Physics 317K.**
Three laboratory hours a week for one semester. Only one of the following may be counted: Physics 101L, 102M, 103M, 105M, 117M. Prerequisite: Credit with a grade of at least C- or registration for Physics 317K.

**PHY 117N. Laboratory for Physics 317L.**
Three laboratory hours a week for one semester. Only one of the following may be counted: Physics 102N, 103N, 105N, 116L, 117N. Prerequisite: Credit with a grade of at least C- or registration for Physics 317L.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Physics. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**PHY 394E. Introduction to Quantum Physics.**
Designed for beginning graduate students in electrical engineering. Introduction to the basic concepts of quantum mechanics with emphasis on the application of quantum phenomena to the many-body systems. Origin of quantum mechanics, solution of particle or box and harmonic oscillator, angular momentum and spin, bosons and fermions, distribution functions, crystals, Block's theorem, band theory, superfluids and superconductors. Three lecture hours a week for one semester. Normally meets with Physics 364E. Prerequisite: Graduate standing.

### Upper-Division Courses

**PHY 321. Modern Physics: Plan II.**
Restricted to Plan II students. Conceptual foundations of modern physics. Examines quantum mechanics, quantum field theory, relativity, and general relativity, including large-scale structure and cosmology; and the development of analytic problem-solving skills, including estimation. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**PHY 329. Introduction to Computational Physics.**
Computational methods for problem solving and research in physics; numerical analysis and computer simulation methods for physics applications using different types of computers. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 367, Mathematics 368K, Physics 329. Prerequisite: The following coursework with a grade of at least C- in each: Physics 315 and 115L; a programming course at the level of Computer Science 303E with a grade of at least C- and credit with a grade of at least C- or registration for Mathematics 340L, 341, or Statistics and Data Sciences 329C.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Physics. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**PHY 329W. Cooperative Physics.**
Covers the work period of physics students in the Cooperative Education Program, which provides supervised work experience by arrangement with the employer and the supervising instructor. Forty laboratory hours a week for one semester. The student must repeat the course each work period and must take it twice to receive credit toward the degree; at least one of these registrations must be during a long-session semester. No more than three semester hours may be counted toward the major requirement; no more than six semester hours may be counted toward the degree. The student's first registration must be on the pass/fail basis. Prerequisite: Membership application to the Cooperative Physics Program, Physics 316 with a grade of at least C-, and consent of the undergraduate adviser.
PHY 333. Modern Optics.
Review of geometrical optics, polarization, interference, and optical instruments. Subjects include Fourier optics, light propagation in fibers, quantum optics, and coherence. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each: Mathematics 427J or 427K, Physics 315, and 115L.

PHY 133L. Laboratory for Physics 333.
Three laboratory hours a week for one semester. Prerequisite: Credit with a grade of at least C- or registration for Physics 333.

PHY 336K. Classical Dynamics.
Elementary linear vector algebra, Newtonian mechanics, Lagrangian mechanics, central force motion, dynamics of rigid bodies, and theory of small oscillations. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each: Mathematics 427L or 364K, Physics 315, and 115L.

PHY 336L. Fluid Dynamics.
Fundamental concepts of fluid mechanics developed and applied to laminar and turbulent flows. Subjects include the Navier-Stokes equations, pipe and channel flow, drag, boundary layers, convection, and rotating fluids. Three lecture hours a week for one semester. Prerequisite: Physics 336K with a grade of at least C-.

PHY 338K. Electronic Techniques.
Elementary circuit theory, amplifiers, feedback, pulse and digital techniques, signal processing, and microprocessors as applied to physics instrumentation. One and one-half lecture hours and three laboratory hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each: Mathematics 427J or 427K, Physics 316, and 116L.

PHY 239C. Physics Cognition and Pedagogy.
Investigate physics-specific education literature, and think about how the results of these studies apply to teaching practice. Discuss obstacles to students’ academic success such as stereotype threat, identity, implicit bias, and mindset. Reflect on how to make a difference in students’ academic success such as stereotype threat, identity, implicit bias, and mindset. The equivalent of two lecture hours a week for one semester. May be repeated for credit. Offered on the letter-grade basis only.

PHY 341. Selected Topics in Physics.
Three lecture hours a week for one semester. An additional one-hour problem session is required for some sections. May not be counted toward the Bachelor of Science in Physics degree without prior approval of the department. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing, three semester hours of coursework in a natural science, and three semester hours of coursework in mathematics.

**Topic 1: Energy Production.** The various means that exist or have been suggested for generating energy; comparison in terms of efficiency, safety, and effects on the environment.

**Topic 2: Great Men, Moments, and Ideas.** How our views of matter, energy, and the universe developed.

**Topic 3: Musical Acoustics.** Study of the production, transmission, and perception of the special kind of sound called music, based on the application of elementary principles of physics.

**Topic 4: The Nature of Things.** A qualitative survey of all of physics, from falling bodies to quarks, making heavy use of classroom demonstrations.

**Topic 5: Pseudoscience.** Study of a variety of ideas treated very seriously by the communications media but having no basis in fact, including astrology, extrasensory perception, and flying saucers; why such areas are not part of science.

**Topic 6: Writing.**
**Topic 7: Research Methods: UTeach.**

PHY 345. Biophysics.
Basic concepts of physics developed and applied to biological systems. Subjects include energy in living systems, entropic interactions, molecular forces and self-assembly, biopolymers, bio-membranes, cell-cell interactions, pattern formation, collective behavior, higher order systems, population dynamics and evolution. Three lecture hours a week for one semester. Prerequisite: Upper-division standing, and the following coursework with a grade of at least C- in each: Biology 311D, Chemistry 302, and Physics 355.

PHY 352K. Classical Electrodynamics I.
Electrostatic fields, magnetostatic fields, derivation of Green’s theorems and functions and of Maxwell’s equations. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each: Mathematics 427L or 364K, Physics 315, and 115L.

PHY 352L. Classical Electrodynamics II.
A continuation of Physics 352K, emphasis is placed on conservation laws, electromagnetic waves, potentials and fields, radiation, and Lorentz invariance. One or more special subjects, such as Rayleigh scattering and energy loss by relativistic charged particles in matter will be developed. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Physics 352K with a grade of at least C-.

PHY 353L. Modern Physics Laboratory.
Laboratory experiments investigating the breakdown of classical physics for microscopic phenomena. Includes absorption and emission spectra, the photoelectric effect, blackbody radiation, the Compton effect, X-ray diffraction, and other experiments in modern physics. Four and one-half laboratory hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each: Physics 315 and 115L.

Introduction to modern physics and thermodynamics: photons (spectra, photoelectric effect, blackbody radiation, Compton effect), atoms (Rutherford, Bohr), matter waves (Planck, deBroglie, probability interpretation, Schroedinger), nuclei, particles, special relativity, the laws of thermodynamics, and statistical physics. Three lecture hours a week for one semester. Prerequisite: Physics 303L or 316 with a grade of at least C-.

PHY 362K. Quantum Physics II: Atoms and Molecules.
The two-electron atom; spin and statistics; coupling schemes for many-electron atoms; atoms and the radiation field; perturbation methods for decay and collisions; thermal, electrical, and magnetic properties of solids; and free-electron metal and band theory. May include subjects such as superconductivity, Josephson tunneling, and others. Three lecture hours a week for one semester. Prerequisite: Physics 373 with a grade of at least C-.

PHY 362L. Quantum Physics III: Particles and Nuclei.
Nuclei and nucleons, their gross properties; the hadrons; symmetries and conservation laws; nuclear stability; electromagnetic, weak, and hadronic interactions; nuclear reactions at low, medium, and high energies; nucleon structure; tools of experimental nuclear physics; models of theoretical nuclear physics; nuclear technology. Three lecture hours a week for one semester. Prerequisite: Physics 373 with a grade of at least C-; Physics 362K is recommended.
PHY 369. Thermodynamics and Statistical Mechanics.
Basic concepts of thermal physics; entropy, enthalpy, free energy, phase transitions, equilibrium distribution functions, applications. Three lecture hours a week for one semester. Prerequisite: Credit with a grade of at least C- or registration for Physics 373.

PHY 670T. Senior Thesis.
Individual research with faculty supervision. First half involves preparation of proposal; second involves completion of written thesis. Six hours of work a week for one semester, or three hours of work a week for two semesters. Only three semester hours may be counted toward the Bachelor of Science in Physics degree. Prerequisite: Upper-division standing and nine semester hours of upper-division coursework in physics.

PHY 371C. Individual Study in Physics.
Supervised reading or research in physics. Hours to be arranged. May be repeated for credit. Prerequisite: Upper-division standing; Physics 336K with a grade of at least C-; credit with a grade of at least C- or registration for Physics 352K; and consent of the undergraduate adviser.

Postulates of quantum mechanics, the bound states of the finite square well, the harmonic oscillator, operator-eigenvalue formulism and selected examples, the hydrogen atom, angular momentum, rigid rotor, and spin. May include simple scattering theory. Three lecture hours a week for one semester. Prerequisite: Physics 315 and 355 with a grade of at least C-.

PHY 474. Advanced Laboratory I.
Modern experimental techniques, theory of error, and analysis of experiments; both modern and classical experiments in atomic and nuclear physics, electricity and magnetism, optics and heat. Three lecture hours and eight laboratory hours a week for one semester, with additional laboratory hours to be arranged. With consent of instructor, may be repeated for credit. Prerequisite: Physics 352K, 353L, and 355; or consent of the undergraduate adviser. Physics 338K is recommended.

PHY 375P. Introductory Plasma Physics.
Orbit theory and drifts, introduction to plasma stability and waves, applications to plasma confinement and heating. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each: Physics 352K and 369.

PHY 375R. Introduction to Relativity.
Overview of the special and general theories of relativity, with emphasis on recent developments in gravitation. Three lecture hours a week for one semester. Prerequisite: Physics 352K with a grade of at least C-.

PHY 375S. Introductory Solid-State Physics.
Crystal structure, classification of solids, cohesion, thermal and electrical properties of solids, magnetic properties of solids, imperfections. Three lecture hours a week for one semester. Prerequisite: The following coursework with a grade of at least C- in each: Physics 369 and 373.

PHY 379H. Honors Tutorial Course.
Research project, resulting in a thesis, for outstanding students electing to take the honors program in physics. Conference course. Prerequisite: A University grade point average of at least 3.00, a grade point average in physics of at least 3.50, twelve semester hours of upper-division coursework in physics, and consent of the student's research supervisor and the departmental honors adviser.

PHY 394E. Introduction to Quantum Physics.
Designed for beginning graduate students in electrical engineering. Introduction to the basic concepts of quantum mechanics with emphasis on the application of quantum phenomena to the many-body systems. Origin of quantum mechanics, solution of particle or box and harmonic oscillator, angular momentum and spin, bosons and fermions, distribution functions, crystals, Bloch's theorem, band theory, superfluids and superconductors. Three lecture hours a week for one semester. Normally meets with Physics 364E. Prerequisite: Graduate standing.

Graduate Courses

PHY 380L. Plasma Physics I.
Particle drifts, equations for plasmas, magnetohydrodynamics, waves and instabilities in the two-fluid model, Vlasov equation, Landau damping, controlled thermonuclear research, plasma diagnostics. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

PHY 380M. Plasma Physics II.
Plasma containment, stability theory in fluid models, derivation of Vlasov and Fokker-Planck equations, the dielectric tensor, velocity space and gradient instabilities, Nyquist diagrams. Three lecture hours a week for one semester. Prerequisite: Graduate standing and Physics 380L or consent of instructor.

PHY 380N. Experimental Physics.
Experimental work to provide exposure to physics research techniques. Eighteen laboratory hours a week for one semester. Prerequisite: Graduate standing and concurrent enrollment in Physics 390.

PHY 380T. Advanced Study in Physics.
Not open to physics majors. Special topics for physics teachers. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, a bachelor's degree in science or mathematics, and consent of the graduate adviser.

PHY 381C. Computational Physics.
Dynamical and statical descriptions and solutions of many-body, nonlinear physical systems by computation. Theory of computation and applications to various branches of physics. Three lecture hours a week for one semester. Prerequisite: Graduate standing; and Physics 385K and 387K, or consent of instructor.

PHY 381M. Methods of Mathematical Physics I.
Same as Computational Science, Engineering, and Mathematics 385M. Theory of analytic functions; linear algebra and vector spaces; orthogonal functions; ordinary differential equations; partial differential equations; Green's functions; complex variables. Three lecture hours a week for one semester. Computational Science, Engineering, and Mathematics 385M and Physics 381M may not both be counted. Prerequisite: Graduate standing.

PHY 381N. Methods of Mathematical Physics II.
Same as Computational Science, Engineering, and Mathematics 385N. Continuation of Computational Science, Engineering, and Mathematics 385M and Physics 381M. Topology, functional analysis, approximation methods, group theory, differential manifolds. Three lecture hours a week for one semester. Computational Science, Engineering, and Mathematics 385N and Physics 381N may not both be counted. Prerequisite: Graduate standing; and Computational Science, Engineering, and Mathematics 385M or Physics 381M.

PHY 382M. Fluid Mechanics.
Flow of ideal and viscous fluids; introduction to turbulence; boundary layers; sound and shock waves. Three lecture hours a week for one semester. Prerequisite: Graduate standing and Physics 381M, 385K, and 387K.
PHY 382N. Nonlinear Dynamics.

Basic concepts of evolution and stability, examples of instabilities, low dimensional dynamical systems, chaos, characterization of temporal chaos, pattern formation, Hamiltonian systems. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

PHY 382P. Biophysics I.

The cell, small molecules and chemical kinetics, forces on the molecular scale, proteins, lipids and membranes, biopolymers, neurons and electrical signal transduction, and complex pattern formation in cells and cell aggregates. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

PHY 382Q. Biophysics II.

Advanced biophysics with emphasis on biologically relevant questions addressed with physical approaches. Biopolymer mechanics, protein-nucleic acid interaction, protein structure and dynamics, membrane dynamics, cytoskeletal dynamics, motor proteins, cell shape and motility, cell communication, tissue mechanics. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

PHY 382S. Seminar in Nonlinear Dynamics.

Three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

Classical and relativistic Hamiltonian mechanics; Hamilton-Jacobi theory; Lagrangian mechanics for continuous media; symmetry principles and conservation laws. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

PHY 385L. Statistical Mechanics.

Equilibrium statistical mechanics; introduction to nonequilibrium concepts; ensembles; classical and quantum gases; statistical physics of solids. Three lecture hours a week for one semester. Prerequisite: Graduate standing, and Physics 385K or consent of instructor.

PHY 385S. Seminar in Statistical Physics.

Topics to be announced. Three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

PHY 385T. Special Topics in Statistical Physics.

Topics to be announced. Three lecture hours a week for one semester. With consent of the graduate adviser, may be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

PHY 386K. Physics of Sensors.

Physical principles of acoustic, optical, electromagnetic, radiation, and motion sensors. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

PHY 386N. Technical Seminar.

Physics for applied and industrial purposes. Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and consent of the graduate adviser.

PHY 386S. Seminar in Applied Physics.

Topics to be announced. Three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

PHY 387K. Electromagnetic Theory I.

Electrostatics and magnetostatics, boundary value problems; Maxwell's equations; plane waves; wave guides; diffraction; multipole radiation. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

PHY 387L. Electromagnetic Theory II.

Magnetohydrodynamics and plasmas; relativity; collisions of charged particles; radiation from moving charges; radiation damping. Three lecture hours a week for one semester. Prerequisite: Graduate standing and Physics 387K.

PHY 387M. Relativity Theory I.

Explore tensor calculus, differential geometry, special and general relativity, black holes, and gravitational waves. Three lecture hours a week for one semester. Offered in the fall semester only. Prerequisite: Graduate standing and Physics 387K.

PHY 387N. Relativity Theory II.

General relativity theory; gravitational field equations; weak field approximations; Schwarzschild solution, observable consequences; other topics. Three lecture hours a week for one semester. Offered in the spring semester only. Prerequisite: Graduate standing and Physics 387M.

PHY 388M. Graduate Colloquy.

Reviews of current topics in physics research. Three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

PHY 388S. Seminar in Teaching Physics.

Topics to be announced. Three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

PHY 389K. Quantum Mechanics I.

Hilbert space and operators; Schroedinger and Heisenberg equations; solutions for systems in one and three dimensions; theory of spin and orbital angular momentum; the effect of symmetries; approximation techniques; elementary scattering theory. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

PHY 389L. Quantum Mechanics II.

Perturbation techniques; systems of identical particles; quantum theory of radiation; emission and absorption of photons; selection rules; life times; scattering theory for light and particles, S-matrix; relativistic corrections to electron motion. Three lecture hours a week for one semester. Prerequisite: Graduate standing and Physics 389K.

PHY 190, 290, 390, 690, 990. Graduate Research.

For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May not be counted toward the master's degree in physics. Prerequisite: Graduate standing, and written consent of instructor filed with the graduate adviser.

PHY 391M. Nonlinear Plasma Theory.

Quasi-linear theory, weak turbulence, large amplitude waves, plasma radiation, shock waves, shock structure, computer techniques. Three lecture hours a week for one semester. Prerequisite: Graduate standing and Physics 380L.

PHY 391S. Seminar in Plasma Physics.

Topics to be announced. Three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.
PHY 391T. Special Subjects in Plasma Physics.
Subjects to be announced. Three lecture hours a week for one semester. With consent of instructor, may be repeated for credit. Prerequisite: Graduate standing, Physics 380L, and consent of instructor.

PHY 391U. Seminar in Plasma Theory.
Current topics in plasma theory. Three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

PHY 392K. Solid-State Physics I.
Lattice vibrations and thermal properties of solids; band theory of solids; transport properties of metals and semiconductors; optical properties; magnetic properties; magnetic relaxation; superconductivity. Three lecture hours a week for one semester. Prerequisite: Graduate standing, Physics 389K, and Physics 375S or the equivalent.

PHY 392L. Solid-State Physics II.
Elementary excitations: phonons, electrons, spin waves; interactions: phonon-phonon, electron-electron, electron-phonon; theory of metals and semiconductors; transport theory; optical properties. Three lecture hours a week for one semester. Prerequisite: Graduate standing and Physics 392K.

PHY 392N. Many-Body Theory.
Overview of many-body theory; second quantization; Green's functions and Feynman diagrams; finite-temperature, imaginary-time Green's functions; the disordered metal; path integrals; broken symmetries; and local moments. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

PHY 392P. Advanced Optical Spectroscopy.
Explore spectroscopy methods including: time-resolved photoluminescence, transient absorption, four-wave mixing, and multidimensional spectroscopy. Examine the propagation of ultrafast laser pulses in matter and dispersion-compensation. Consider the description of quantum dynamics such as decoherence and population relaxation using the density matrix formalism. Three lecture hours a week for one semester. Prerequisite: Graduate standing. For undergraduate students who take this course: Physics 315, Physics 373, or consent of the instructor and graduate advisor.

PHY 392Q. Density Functional Theory.
Examine the quantum theory of many-electron systems from the point of view of first-principles atomic-scale calculations. Develop the conceptual foundations of density functional theory and its uses in computational materials modeling, design, and discovery. Perform predictive calculations of structural, electronic, optical, vibrational, and magnetic properties of solids using high-performance computing environments. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

PHY 392S. Seminar in Solid-State Physics.
Topics to be announced. Three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

PHY 392T. Special Topics in Solid-State Physics.
Topics to be announced. Three lecture hours a week for one semester. With consent of instructor, may be repeated for credit. Prerequisite: Graduate standing, Physics 392K, and consent of instructor.

PHY 393S. Seminar in Relativity.
Topics to be announced. Three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

PHY 393T. Special Topics in Relativity.
Topics to be announced. Three lecture hours a week for one semester. With consent of instructor, may be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

PHY 394E. Introduction to Quantum Physics.
Designed for beginning graduate students in electrical engineering. Introduction to the basic concepts of quantum mechanics with emphasis on the application of quantum phenomena to the many-body systems. Origin of quantum mechanics, solution of particle or box and harmonic oscillator, angular momentum and spin, bosons and fermions, distribution functions, crystals, Bloch's theorem, band theory, superfluids and superconductors. Three lecture hours a week for one semester. Normally meets with Physics 364E. Prerequisite: Graduate standing.

PHY 394U. Special Topics in Theoretical Physics.
Topics to be announced. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

PHY 395. Survey of Atomic and Molecular Physics.
Spectra of atoms and diatomic molecules; quantum electrodynamics; experimental techniques. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

PHY 395K. Nonlinear Optics and Lasers.
Gaussian beam optics, interaction of electromagnetic radiation with matter, semiclassical laser theory, experimental laser systems, nonlinear optical susceptibilities, harmonic generation, wave mixing, electro-optic and acousto-optic effects, coherent transient effects, optical breakdown, laser-plasma interactions. Three lecture hours a week for one semester. Prerequisite: Graduate standing, and either Physics 387K and 389K or consent of instructor.

PHY 395M. Laser Physics.
Continuation of Physics 395K. Advanced atomic physics of various laser systems, optical coherence and diffraction theory, pulse propagation and dispersion effects, advanced laser oscillator and amplifier physics, laser amplifier chain design, and chirped-pulse amplification. Three lecture hours a week for one semester. Prerequisite: Graduate standing, Physics 387K, 389K, and 395K, and consent of instructor.

PHY 395S. Seminar in Atomic and Molecular Physics.
Topics to be announced. Three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

PHY 395T. Special Topics in Atomic and Molecular Physics.
Topics to be announced. Three lecture hours a week for one semester. With consent of instructor, may be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

PHY 396G. Cosmology.
Explore inflationary cosmology, the formation of element abundances during Big Bang nucleosynthesis, cosmological perturbations and structure formation, the cosmic microwave background, and the content of the universe (including dark matter and dark energy). Examine unresolved problems in cosmology (such as the origin of the matter/antimatter asymmetry), the possibility of extra dimensions, what
PHY 396J. Introduction to Elementary Particle Physics.
Historical introduction to elementary particles, elementary particle dynamics, relativistic kinematics, symmetries, bound states, the Feynman calculus, quantum electrodynamics, electrodynamics of quarks and hadrons, quantum chromodynamics, weak interactions, gauge theories. Three lecture hours a week for one semester. Prerequisite: Graduate standing, Physics 389K, and knowledge of special relativity and scattering.

PHY 396K. Quantum Field Theory I.
Quantization of the Klein-Gordon, Dirac, and electromagnetic field theories; theory of interacting fields, perturbation theory, and renormalization. Three lecture hours a week for one semester. Prerequisite: Graduate standing and Physics 389K.

PHY 396L. Quantum Field Theory II.
Path-integral formalism, massless particles, electrodynamics, nonperturbative methods, one-loop calculations in quantum electrodynamics, general renormalization theory, soft photons, bound statics in quantum electrodynamics. Three lecture hours a week for one semester. Prerequisite: Graduate standing and Physics 389K or the equivalent or consent of instructor.

PHY 396P. String Theory I.
Introduction to string theory and conformal field theory. The free string, conformal invariance and conformal field theory, supersymmetry and string interactions. Three lecture hours a week for one semester. Prerequisite: Graduate standing, and Physics 396K or the equivalent or consent of instructor.

PHY 396Q. String Theory II.
Advanced conformal field theory, perturbative string theory and compactification. Introduction to nonperturbative aspects of string theory. Three lecture hours a week for one semester. Prerequisite: Graduate standing and Physics 389K.

PHY 396S. Seminar in Particle Physics.
Topics to be announced. Three lecture hours a week for one semester. With consent of instructor, any topic may be repeated for credit. May be repeated for credit when the topics vary. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

PHY 396T. Special Topics in Particle Physics.
Topics to be announced. Three lecture hours a week for one semester. With consent of instructor, may be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

PHY 397K. Nuclear Physics.
Systematics of stable nuclei; nuclear structure; decay of the nucleus; cross sections and reaction mechanisms; the elementary particles. Three lecture hours a week for one semester. Prerequisite: Graduate standing, and Physics 389K or consent of instructor.

PHY 397S. Seminar in Nuclear Physics.
Topics to be announced. Three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

PHY 397T. Special Topics in Nuclear Physics.
Topics to be announced. Three lecture hours a week for one semester. With consent of instructor, may be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

PHY 197U. Graduate Seminar in Nanoscience.
Various seminar topics in nanoscience. One lecture hour a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in physics and written consent of the supervising professor filed with the graduate adviser; for 698B, Physics 698A.

PHY 398S. Seminar in High Energy Theory.
Three lecture hours a week for one semester. Physics 396U (Topic: Theory Group Seminar) and 398S may not both be counted. May be repeated for credit. Offered on the credit/no credit basis only.

PHY 398T. Supervised Teaching in Physics.
A review of physics teaching strategies, administrative procedures, and classroom responsibilities. Includes a review and critique of each participant’s classroom teaching. Three lecture hours a week for one semester. Prerequisite: Graduate standing and appointment as a teaching assistant.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses

PHY 394E. Introduction to Quantum Physics.
Designed for beginning graduate students in electrical engineering. Introduction to the basic concepts of quantum mechanics with emphasis on the application of quantum phenomena to the many-body systems. Origin of quantum mechanics, solution of particle or box and harmonic oscillator, angular momentum and spin, bosons and fermions, distribution functions, crystals, Block’s theorem, band theory, superfluids and superconductors. Three lecture hours a week for one semester. Normally meets with Physics 364E. Prerequisite: Graduate standing.

POL - Polish

Polish: POL

Lower-Division Courses

POL 601C. Intensive Polish I.
Not open to native or heritage speakers of Polish. Emphasis on developing oral proficiency in Polish using intensive methods of instruction. Six lecture hours a week for one semester. Polish 601C and 506 may not both be counted. Polish 601C and 507 may not both be counted.

POL 506. First-Year Polish I.
Emphasis on four-skills proficiency. Five lecture hours a week for one semester. Polish 601C and 506 may not both be counted.

POL 507. First-Year Polish II.
Emphasis on four-skills proficiency. Five lecture hours a week for one semester. Polish 601C and 507 may not both be counted. Prerequisite: Polish 506.
POL 611C. Intensive Polish II.
Not open to native or heritage speakers of Polish. Continuing intensive development of proficiency in Polish, with a focus on speaking and the reading of authentic texts. Six lecture hours a week for one semester. Polish 611C and 312K may not both be counted. Polish 611C and 312L may not both be counted. Prerequisite: Polish 601C or 507.

POL 312K. Second-Year Polish I.
Emphasis on four-skills proficiency. Three lecture hours a week for one semester. Polish 611C and 312K may not both be counted. Prerequisite: Polish 312K.

Upper-Division Courses

POL 325. Third-Year Polish I.
Oral expression, reading, and composition. Three lecture hours a week for one semester. Polish 325 and Russian, East European, and Eurasian Studies 325 (Topic: Third-Year Polish I) may not both be counted. Prerequisite: Polish 611C or 312L.

POL 326. Third-Year Polish II.
Continuation of Polish 325: Oral expression, reading, and composition. Three lecture hours a week for one semester. Polish 326 and Russian, East European, and Eurasian Studies 325 (Topic: Third-Year Polish II) may not both be counted. Prerequisite: Polish 325.

POL 328. Topics in Advanced Polish.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Polish 326.

POL 379. Conference Course in Polish Language or Literature.
Conference course. May be repeated for credit. Prerequisite: Six semester hours of upper-division coursework in Polish or consent of instructor.

Graduate Courses

POL 392. Topics in Polish Language.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

POL 395. Conference Course.
Study of individual problems in Polish language, literature, and culture. Conference course. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

Professional Courses

POR - Portuguese

Portuguese: POR

Lower-Division Courses

POR 601D. First-Year Portuguese I.
Development of speaking, listening, reading, and writing skills; building vocabulary, learning basic rules and terminology of grammar; and gaining a better understanding of Portuguese-speaking cultures, with focus on Brazil, in order to communicate in an accurate, effective, and informed manner within a variety of socio-cultural situations. Six lecture hours a week for one semester. Only one of the following may be counted: Portuguese 601D and 610D; 604; 406 and 407; 508; 610S.

POR 610D. First-Year Portuguese II.
Development of speaking, listening, reading, and writing skills; building vocabulary, learning basic rules and terminology of grammar; and gaining a better understanding of Portuguese-speaking cultures, with focus on Brazil, in order to communicate in an accurate, effective, and informed manner within a variety of socio-cultural situations. Six lecture hours a week for one semester. Only one of the following may be counted: Portuguese 610D, 612, 312K, 516. Prerequisite: Portuguese 601D or 407 with a grade of at least C.

POR 610S. Portuguese for Spanish Speakers I.
Designed to provide qualified Spanish-speaking students a rapid introduction to Portuguese language. Development of speaking, listening, reading, and writing skills; building vocabulary, learning basic rules and terminology of grammar; and gaining a better understanding of Portuguese-speaking cultures, with a focus on Brazil, in order to communicate in an accurate, effective, and informed manner within a variety of socio-cultural situations. Six lecture hours a week for one semester. Only one of the following may be counted: Portuguese 601D and 610D; 604; 406 and 407; 508; 610S.

POR 311C. Portuguese Conversation and Culture.
Explore the development of speaking, listening, reading, and writing skills, and build vocabulary. Review rules and terminology of Portuguese grammar. Examine complex grammar structures and Portuguese speaking cultures, with a focus on Brazil. Three lecture hours per week for one semester. Only one of the following may be counted: Portuguese 311C, 611D, 311J, 611S, 612, 312L, or 516. Prerequisite: Portuguese 610D or 610S (or 312K) with a grade of at least C.

POR 611D. Second-Year Portuguese.
Focuses on the development of speaking, listening, reading, and writing skills while building vocabulary. Reviews rules and terminology of Portuguese grammar. Introduces complex grammar structures and Portuguese speaking cultures, with a focus on Brazil, in order to communicate in an accurate, effective, and informed manner within a variety of socio-cultural situations. Six lecture hours a week for one semester. Only one of the following may be counted: Portuguese 311C, 611D, 311J, 611S, 612, 312L, or 516. Prerequisite: Portuguese 610D or 610S (or 312K) with a grade of at least C.

POR 311J. Portuguese Conversation and Culture for Spanish Speakers.
Designed for qualified Spanish-speaking students. Explore speaking and listening skills. Build vocabulary. Examine Portuguese-speaking cultures, with a focus on Brazil. Three lecture hours a week for one semester. Only one of the following may be counted: Portuguese 311C, 611D, 311J, 611S, 612, 312L, or 516. Prerequisite: Portuguese 610D or 610S (or 312K) with a grade of at least C.

POR 611S. Portuguese for Spanish Speakers II.
Continuation of Portuguese 610S. Six lecture hours a week for one semester. Only one of the following may be counted: Portuguese 311C, 611D, 311J, 611S, 612, 312L, or 516. Only one of the following may be counted: Portuguese 611D, 611S, 612, 312L, 314C, 314J, or 516. Prerequisite: Portuguese 610S (or 604 or 508) with a grade of at least C.

**POR 612. Accelerated Second-Year Portuguese: Oral Expression, Reading, and Composition.**

Covers the same material as Portuguese 312K and 312L, but in one semester. Six lecture hours a week for one semester. Only one of the following may be counted: Portuguese 610D and 611D; 611S; 612; 312K and 312L; 516. Only one of the following may be counted: Portuguese 311C, 611D, 311J, 611S, 612, 312L, or 516. Only one of the following may be counted: Portuguese 611D, 611S, 612, 312L, 314C, 314J, or 516. Prerequisite: Portuguese 604 or 508 with a grade of at least B, or Portuguese 407 with a grade of A; and consent of the lower-division coordinator for Portuguese.

**POR 314C. Intermediate Writing and Grammar in Context.**

Review rules and terminology of Portuguese grammar. Explore complex grammar structures in the context of reading and writing. Build vocabulary in the context of Portuguese speaking cultures, with a focus on Brazil. Three lecture hours per week for one semester. Only one of the following may be counted: Portuguese 611D, 611S, 612, 312L, 314C, 314J, or 516. Prerequisite: Portuguese 610D or 610S (or 312K) with a grade of at least C.

**POR 314J. Intermediate Writing and Grammar for Spanish Speakers.**

Designed for qualified Spanish-speaking students. Review rules and terminology of Portuguese grammar. Explore complex grammar structures in the context of reading and writing. Build vocabulary in the context of Portuguese speaking cultures, with a focus on Brazil. Three lecture hours per week for one semester. Only one of the following may be counted: Portuguese 611D, 611S, 612, 312L, 314C, 314J, or 516. Prerequisite: Portuguese 610D or 610S (or 312K) with a grade of at least C.

**Upper-Division Courses**

**POR 321P. Portuguese Pronunciation.**

Explore Portuguese pronunciation and the fundamental principles of phonetic analysis. Examine how Portuguese sounds are produced, how they fall into patterns, and how they change in different environments. Three lecture hours a week for one semester. Portuguese 321 and 321P may not both be counted. Prerequisite: Portuguese 311C and 314C, 611D, 311J and 314J, or 611S (or 312L).

**POR 322C. Conference Course in Luso-Brazilian Civilization.**

Conference course. Prerequisite: Portuguese 311C and 314C, 611D, 311J and 314J, or 611S (or 312L or 516); and written consent of the department chair.

**POR 322L. Conference Course in Luso-Brazilian Literature.**

Conference course. Prerequisite: Portuguese 311C and 314C, 611D, 311J and 314J, 611S, or 612 (or 312L or 516); and written consent of the department chair.

**POR 327C. Advanced Grammar and Writing in Context.**

Study and practice of Portuguese grammar, including reading exercises and guided composition designed to develop writing skills across styles. Students will be exposed to various topics in Portuguese language, literature, and culture. Three lecture hours a week for one semester. Portuguese 327C and 362 may not both be counted. Prerequisite: Portuguese 311C, 611D, 311J, 611S, 612, 314C, or 314J (or 312L or 516).

**POR 328C. Introduction to Literatures and Cultures.**

Same as Latin American Studies 370P (Topic 2). Overview of Luso-Brazilian literatures and cultures, including the arts and popular expressions from a multidisciplinary perspective. Among the regions studied are Brazil, Portugal, and related areas in Africa. Three lecture hours a week for one semester. Latin American Studies 370P (Topic 2) and Portuguese 328C may not both be counted. Prerequisite: Portuguese 311C and 314C, 611D, 311J and 314J, or 611S (or 312L or 516).

**Topics in Portuguese.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Spanish and Portuguese. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**POR 330L. Introduction to Language and Linguistics in Society.**

Examines the dynamics of language structure and use throughout the Portuguese-speaking world. Covers topics such as sound systems, grammatical structures, historical developments, language learning and loss, dialect differences, and their social significance. Three lecture hours a week for one semester. Prerequisite: Portuguese 311C and 314C, 611D, 311J and 314J, or 611S (or 312L or 516).

**POR 344C. Luso-Migrations: Portugal and Brazil.**

Explore post-colonial political and cultural relations between Portugal and Brazil. Examine nineteenth and twentieth century Portuguese travelogues, memoirs, films, and fiction. Three lecture hours per week for one semester. Only one of the following may be counted: Latin American Studies 370P (Topic: Luso-Migrations:Portugal/Brazil), Portuguese 344 (Topic: Luso-Migrations:Portugal/Braz) or 344C. Prerequisite: Portuguese 327C (or 362).

**POR 350C. Brazilian Film and Culture.**

Explore a critical overview of Brazilian cinema, from the silent era to the present day, with an emphasis on the late twentieth and early twenty-first centuries. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370P (Topic 4), Portuguese 350C, 350F (Topic 2), 350K. Prerequisite: Portuguese 327C (or 362).

**POR 352. Brazilian and Spanish American Literature.**

Explore Brazilian and Latin American literature and culture from the twentieth century and later. Examine the literary trends and social roles in the region while comparing and contrasting the culture and history from both Spanish America and Brazil. Three lecture hours a week for one semester. Prerequisite: Portuguese 311C and 314C, 611D, 311J and 314J, or 611S (or 312L or 516).

**POR 353. Sociolinguistics.**

Same as Latin American Studies 370P (Topic 11). Explores the interrelationship of language and society with reference to the
Portuguese-speaking world. Examines how socio-economic, political, and anthropological factors like race, social class, gender, age, and identity influence linguistics forms. Three hours a week for one semester. Latin American Studies 370P (Topic 10) and Portuguese 353 may not both be counted. Prerequisite: Portuguese 327C or 362, and 330L.

Same as Latin American Studies 370P (Topic 10). Examines the United States Latino literary and cultural production from a multidisciplinary perspective, through literature, film, music, and performance. Analyzes the literatures and experiences of Brazilian American writers and artists in their historical and cultural specificities. Three lecture hours a week for one semester. Latin American Studies 370P (Topic 10) and Portuguese 354 may not both be counted. Prerequisite: Portuguese 327C (or 362).

Introduction to the linguistic structure of Portuguese; application of linguistic principles to the teaching of Portuguese. Three lecture hours a week for one semester. Only one of the following may be counted: Communication Studies 367 (Topic: Brazilian Life/Cul-BRA), Latin American Studies 322 (Topic 16), Portuguese 367C, Portuguese 367P (Topic 1). Prerequisite: Portuguese 327C or 362.

POR 367C. Business in Brazilian Life and Culture.
Explore cultural aspects of business practices in Brazil. Three lecture hours a week for one semester. Only one of the following may be counted: Communication Studies 367 (Topic: Brazilian Life/Cul-BRA), Latin American Studies 322 (Topic 16), Portuguese 367C, Portuguese 367P (Topic 1). Prerequisite: Portuguese 327C or 362.

POR 368T. Topics in Linguistics.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Portuguese 327C (or 362).

POR 375D. Global Brazil.
Examine twentieth-century literature, films, and other cultural artifacts of the multicultural Brazilian society. Critique the image of Brazil as a unified, harmonious, racially-mixed nation. Explore contemporary textual and visual representations of the Brazilian diaspora in the United States and Europe. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370P (Topic 6), Portuguese 375 (Topic 7), 375D. Prerequisite: Portuguese 327C (or 362).

POR 375E. Popular Music in Brazil.
Explore Brazilian cultural politics through the message and performance of live and recorded song, including samba, bossa nova, protest song, Tropicalist counter-cultural song, Brazilian funk, hip hop, and manguebeat. Three lecture hours per week for one semester. Only one of the following may be counted: Portuguese 375 (Topic: Popular Music in Brazil) or 375E. Prerequisite: Portuguese 327C (or 362).

POR 377C. Topics in Portuguese.
Examine important themes in Brazilian society related to cultural production including literature, audiovisual, and media production. Three lecture hours per week for one semester. May be repeated for credit when the topics vary. Prerequisite: Portuguese 327C and 328C.

POR 379C. Capstone Seminar in Literatures and Cultures.
Central issues, concepts, and themes that define Luso-Brazilian literatures and cultures. Focus on a specific case study or case studies that result in the production of a research paper on a particular topic of interest. Three semester hours a week for one semester. Prerequisite: Portuguese 327C, 328C, and twelve hours of upper-division coursework in Portuguese.

POR 379H. Honors Tutorial Course.
Supervised individual research on a literary, linguistic, or cultural problem, culminating in a written thesis. The equivalent of three lecture hours a week for one semester. Prerequisite: Upper-division standing, admission to the Iberian and Latin American Languages and Cultures Honors Program, and consent of the honors advisor.

POR 379L. Capstone Seminar in Linguistics.
Central issues, concepts, and themes that define linguistics. Focus on a specific case study or case studies that result in the production of a research paper on a particular topic of interest. Three lecture hours a week for one semester. Prerequisite: Portuguese 327C, 330L, and twelve hours of upper-division coursework in Portuguese.

Graduate Courses

POR 381. Studies in Brazilian Literature.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, six semester hours of upper-division coursework in Portuguese, and consent of the graduate adviser.

Topic 1: Comparative Studies in the literatures of Brazil and Spanish America. Same as Spanish 380K (Topic 1: Comparative Studies in the Literatures of Brazil and Spanish America).

For students with special interests not met by other courses offered in any one semester. Conference course. May be repeated for credit. Prerequisite: Graduate standing and written consent of the graduate adviser.

POR 396K. Comparative Romance Linguistics.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in languages and consent of instructor and the graduate adviser.

Topic 1: Comparative Romance Linguistics. Same as Spanish 396K (Topic 1: Comparative Romance Linguistics).

POR 398R. Master’s Report.
Preparation of a report to fulfill the requirement for the master’s degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in Portuguese and consent of the graduate adviser.

Professional Courses

PRC - Portuguese Civilization

Portuguese Civilization: PRC

Lower-Division Courses

Topics in Portuguese Civilization.
This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Spanish and Portuguese. University credit is awarded for work in an exchange program; it may be counted as
coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

PRC 320E. Topics in Brazilian Studies.

Focus on issues in Brazilian society and Portuguese society and culture. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

**Topic 1: Samba to Hip Hop: Brazilian Popular Music.** Same as Latin American Studies 328 (Topic 1). Examines the role of popular music in relationships of power with subordination and the impact of music as a form of cultural expression.

**Topic 2: Global Brazil: Immigration and Diaspora in Brazilian Culture.** Same as Latin American Studies 328 (Topic 2). Examination of twentieth-century literature, films, and other cultural artifacts that capture the multicultural reality of Brazilian society and challenge the image of Brazil as a unified, harmonious, racially-mixed nation. Subjects include contemporary textual and visual representations of the Brazilian diaspora in the United States and Europe. Only one of the following may be counted: Latin American Studies 328 (Topic 2), 370P (Topic 6), Portuguese Civilization 320E (Topic 2), Portuguese 375 (Topic 7).

PRC 321. Spectacular Brazil.

Same as Latin American Studies 328 (Topic 9). Explore the global, historical, thematic, and performative aspects of Brazilian culture using cultural texts, film, popular music, art, and photography. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 328 (Topic: Spectacular Brazil), 328 (Topic 9), Portuguese Civilization 320E (Topic: Spectacular Brazil), 321. Prerequisite: Upper-division standing.

PRC 325. Modern Brazil.

Same as Latin American Studies 328 (Topic 11). Explore modern Brazilian urban culture and the processes and contexts that led to the modernization of Brazil. Only one of the following may be counted: Latin American Studies 328 (Topic: Modern Brazil), 328 (Topic 11), Portuguese Civilization 320E (Topic: Modern Brazil), 325. Prerequisite: Upper-division standing.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Spanish and Portuguese. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Graduate Courses

Professional Courses

---

**PRF - Performance**

The following instruments are offered under PRF: Bassoon (BSN), Clarinet (CLA), Double Bass (DB), Drum Set (DRS), Euphonium (EUP), Flute (FLU), French Horn (FH), Guitar (GUI), Harp (HAR), Harpsichord (HSC), Oboe (OBO), Opera (OPR), Organ (ORG), Percussion (PER), Piano (PIA), Recorder (REC), Saxophone (SAX), Trombone (TRO), Trumpet (TRU), Tuba (TBA), Vibraphone (VIB), Viola (VIA), Violin (VIO), Violoncello (V C), Voice (VOI).

**Performance: PRF**

**Lower-Division Courses**

**PRF 201. Lower-Division Music Performance: Secondary.**

Individual instruction in music performance for nonmusic majors and for music majors studying a secondary instrument. This course is offered in the following instruments: bassoon, clarinet, double bass, euphonium, flute, French horn, guitar, harp, oboe, organ, percussion, piano, recorder, saxophone, trombone, trumpet, tuba, viola, violin, violoncello, and voice. Individual instruction. May be repeated for credit. Prerequisite: The ability to read music, and, for most instruments, an audition. For Guitar 201, at least two years of classical guitar lessons. For Piano 201, at least one year of piano lessons.

**PRF 202. Lower-Division Piano: Secondary.**

Individual instruction beyond Music 210K. May be repeated for credit when the topics vary. Prerequisite: Consent by audition.

**PRF 210. Lower-Division Music Performance: Principal.**

Individual instruction in the principal instrument for students pursuing the Bachelor of Arts in Music or the Bachelor of Music with a major in music studies, music theory, composition, music literature, or music performance. This course is offered in the following instruments: bassoon, clarinet, double bass, euphonium, flute, French horn, guitar, harp, oboe, organ, percussion, piano, saxophone, trombone, trumpet, tuba, viola, violin, violoncello, and voice. Individual instruction. May be repeated for credit. Prerequisite: For Organ 210, Piano 210 or the equivalent.

**PRF 212, 312. Lower-Division Music Performance: Major.**

Individual instruction in music performance for students majoring in music performance or music performance pedagogy. This course is offered in the following instruments: bassoon, clarinet, double bass, euphonium, flute, French horn, guitar, harp, harpsichord, oboe, organ, percussion, piano, saxophone, trombone, trumpet, tuba, viola, violin, and violoncello. Individual instruction. May be repeated for credit.

**PRF 212J, 312J, 412J. Lower-Division Music Performance: Improvisation.**

Individual instruction in improvisation for students majoring in jazz composition or jazz performance. This course is offered in the following instruments: double bass, drum set, guitar, piano, saxophone, trombone, trumpet, and vibraphone. Individual instruction. May be repeated for credit.

**Upper-Division Courses**

**PRF 251. Upper-Division Music Performance: Secondary.**

Individual instruction in music performance for nonmusic majors and for music majors studying a secondary instrument. This course is offered in the following instruments: bassoon, clarinet, double bass, euphonium, flute, French horn, guitar, harp, harpsichord, oboe, organ, percussion, piano, recorder, saxophone, trombone, trumpet, tuba, viola, violin, violoncello, and voice. Individual instruction. May be repeated for
credit. Prerequisite: Course 201 in the secondary instrument for four semesters, or the equivalent, and approval of the area faculty.

**PRF 260. Upper-Division Music Performance: Principal.**

Individual instruction in the principal instrument for students pursuing the Bachelor of Arts in Music or the Bachelor of Music with a major in music studies, music theory, composition, music literature, or music performance. This course is offered in the following instruments: bassoon, clarinet, double bass, euphonium, flute, French horn, guitar, harp, harpsichord, oboe, organ, percussion, piano, saxophone, trombone, trumpet, tuba, viola, violin, violoncello, and voice. Individual instruction. May be repeated for credit. Prerequisite: Course 210 in the principal instrument for four semesters, or the equivalent, and approval of the music faculty.

**PRF 262, 362. Upper-Division Music Performance: Major.**

Individual instruction in music performance for students majoring in music performance. This course is offered in the following instruments: bassoon, clarinet, double bass, euphonium, flute, French horn, guitar, harp, harpsichord, oboe, organ, percussion, piano, saxophone, trombone, trumpet, tuba, viola, violin, violoncello, and voice. Individual instruction. May be repeated for credit. Prerequisite: For Voice 462, Voice 210 for four semesters, or the equivalent, and approval of the music faculty; for other instruments, course 412 in the major instrument for four semesters, or the equivalent, and approval of the music faculty.

**PRF 262J, 362J. Upper-Division Music Performance: Improvisation.**

Individual instruction in improvisation for students majoring in jazz composition and jazz performance. This course is offered in the following instruments: double bass, drum set, guitar, piano, saxophone, trombone, trumpet, and vibraphone. Individual instruction. May be repeated for credit. Prerequisite: For jazz composition majors, course 212J for two semesters, or the equivalent, and approval of the appropriate music faculty; for jazz performance majors, course 412J for two semesters, or the equivalent, and approval of the appropriate music faculty.

**Graduate Courses**

**PRF 280, 380, 480. Graduate Course in Performance.**

Offered in opera and in the following instruments: bassoon, clarinet, double bass, euphonium, flute, French horn, guitar, harp, oboe, organ, percussion, piano, saxophone, trombone, trumpet, tuba, viola, violin, violoncello, and voice. Individual instruction. May be repeated for credit. Prerequisite: Graduate standing in music and consent of the graduate adviser.

**PRF 280J, 480J. Graduate Course in Performance: Jazz Improvisation.**

Individual instruction in jazz improvisation in the following instruments: double bass, drum set, guitar, piano, saxophone, trombone, trumpet, and vibraphone. Individual instruction. May be repeated for credit. Prerequisite: Graduate standing in music and consent of the graduate adviser.

**PRF 280V, 480V. Graduate Course in Performance: Collaborative Piano.**

Individual instruction in collaborative piano (accompanying). Individual instruction. May be repeated for credit. Prerequisite: Admission to a graduate program in music and consent of the graduate adviser.

**PRF 290, 490. Advanced Graduate Course in Performance.**

Offered in opera and in the following instruments: bassoon, clarinet, double bass, euphonium, flute, French horn, guitar, harp, oboe, organ, percussion, piano, saxophone, trombone, trumpet, tuba, viola, violin, violoncello, and voice. Individual instruction. May be repeated for credit. Prerequisite: Admission to a doctoral degree program in music and consent of the graduate adviser.

**PRF 290J, 490J. Advanced Graduate Course in Performance: Jazz Improvisation.**

Individual instruction in jazz improvisation in the following instruments: double bass, drum set, guitar, piano, saxophone, trombone, trumpet, and vibraphone. Individual instruction. May be repeated for credit. Prerequisite: Admission to a doctoral degree program in music and consent of the graduate adviser.

**PRF 290V, 490V. Advanced Graduate Course in Performance: Collaborative Piano.**

Individual instruction in collaborative piano (accompanying). Individual instruction. May be repeated for credit. Prerequisite: Admission to a doctoral program in music and consent of the graduate adviser.

**Professional Courses**

**PRS - Persian**

**Lower-Division Courses**

**PRS 601C. Intensive Persian I.**

First semester of intensive Persian language instruction. Six lecture hours a week for one semester. Persian 601C and 506 may not both be counted. Persian 601C and 507 may not both be counted.

**PRS 506. First-Year Persian I.**

Elementary colloquial Persian. Five lecture hours a week for one semester. Persian 601C and 506 may not both be counted.

**PRS 507. First-Year Persian II.**

Continuation of Persian 506. Elementary literary Persian. Five lecture hours a week for one semester. Persian 601C and 507 may not both be counted. Prerequisite: Persian 506 with a grade of at least C.

**PRS 611C. Intensive Persian II.**

Second semester of intensive Persian language instruction. Six lecture hours a week for one semester. Only one of the following may be counted: Persian 611C, 612C,512K. Only one of the following may be counted: Persian 611C, 612C, 512L. Prerequisite: Persian 601C or 507 with a grade of at least C.

**PRS 612C. Intensive Persian for Heritage Speakers.**

Designed for heritage speakers with prior exposure to Persian speaking and listening. This may include heritage Persian language speakers who have had little or no formal instruction in the language, and speakers who understand at a near-native level but have no knowledge or limited knowledge of reading and writing. Six lecture hours a week for one semester. Only one of the following may be counted: Persian 611C, 612C, 512K. Only one of the following may be counted: Persian 611C, 612C, 512L.

**PRS 512K. Second-Year Persian I.**

Not open to native speakers of Persian. Five lecture hours a week for one semester. Only one of the following may be counted: Persian 611C, 612C, 512K. Prerequisite: Persian 507 with a grade of at least C.

**PRS 512L. Second-Year Persian II.**

Not open to native speakers of Persian. Continuation of Persian 512K. Five lecture hours a week for one semester. Only one of the following
may be counted: Persian 611C, 612C, 512L. Prerequisite: Persian 512K with a grade of at least C.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Middle Eastern Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**Upper-Division Courses**

**PRS 322K. Intermediate Persian I.**

Not open to native speakers of Persian. First semester of intermediate Persian language instruction. Three lecture hours a week for one semester. Prerequisite: Persian 611C, 612C, or 512L with a grade of at least C.

**PRS 322L. Intermediate Persian II.**

Not open to native speakers of Persian. Second semester of intermediate Persian language instruction. Three lecture hours a week for one semester. Prerequisite: Persian 322K with a grade of at least C.

**PRS 329. Topics in Persian Language, Literature, and Culture.**

Study of various aspects of Persian linguistics, literature, and culture. Conducted in Persian. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Persian 612C or 322K.

- **Topic 1:** Ferdowsi's Shahnameh.
- **Topic 2:** Sa'di's Golestan. Additional prerequisite: Persian 512L.
- **Topic 3:** Hafez's Ghazals.
- **Topic 4:** Sadeq Hedayat and Twentieth-Century Persian Fiction.
- **Topic 5:** Forugh Farrokhzad and Modernist Persian Poetry.
- **Topic 6:** Persian Prose Nonfiction.
- **Topic 7:** The Classics of Persian Poetry. Conducted in Persian. Only one of the following may be counted: Comparative Literature 323 (Topic: Classics of Persian Poetry), Middle Eastern Languages and Cultures 321 (Topic: Classics of Persian Poetry), Middle Eastern Studies 342 (Topic: Classics of Persian Poetry), Persian 329 (Topic 7). Additional prerequisite: Persian 611C or 612C with a grade of at least C.
- **Topic 8:** Iranian Cinema. Only one of the following may be counted: Comparative Literature 323 (Topic: Iranian Cinema), Middle Eastern Languages and Cultures 321 (Topic: Iranian Cinema), Middle Eastern Studies 342 (Topic: Iranian Cinema), Persian 329 (Topic 8).
- **Topic 9:** Media Persian. Introduction to the language of media in Iran and the rest of the Persianate world. Three lecture hours a week for one semester. Persian 329 (Topic: Media Persian) and 329 (Topic 9) may not both be counted.
- **Topic 10:** Iranian Women Poets. Persian 329 (Topic: Iranian Women Poets) and 329 (Topic 10) may not both be counted.
- **Topic 11:** Media and Migration in Iran. Explore the evolving meanings of leaving the homeland in Persian modern media. Persian 329 (Topic: Media and Migration in Iran) and 329 (Topic 11) may not both be counted.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser when the topics vary. Prerequisite: Persian 512K with a grade of at least C.

**PRS 130D. Persian across Disciplines.**

Students read and discuss Persian language materials related to the subject matter of another designated course. One lecture hour a week for one semester. No more than three semester hours may be counted toward the major in either Middle Eastern Studies or Middle Eastern Languages and Culture. May be repeated for credit. Prerequisite: Upper-division standing, Persian 322L, and consent of instructor.

**PRS 369. Conference Course in Persian Language and Literature.**

Supervised individual study of selected problems in Persian language or literature. Conference course. May be repeated for credit. Prerequisite: Nine semester hours of upper-division coursework in Persian and consent of instructor.

**Graduate Courses**

**PRS 380C. Topics in Persian Language.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, and six semester hours of upper-division coursework in Persian or consent of instructor.

**PRS 381H. Intensive Graduate Language Instruction I.**

Intensive cultural and literacy-focused training in Persian at the beginning level in preparation for research with Persian sources. Includes an independent project component. Incoming students are placed in the appropriate level by means of a departmental placement test. Six lecture hours a week for one semester. Prerequisite: Graduate standing.

**PRS 381J. Intensive Graduate Language Instruction II.**

Intensive cultural and literacy-focused training in Persian at the low-intermediate level in preparation for research with Persian sources. Incoming students are placed in the appropriate level by means of a departmental placement test. Six lecture hours a week for one semester. Prerequisite: Graduate standing and Persian 381H with a grade of at least B.

**PRS 381K. Intermediate Graduate Language Instruction I.**

Intensive cultural and literacy-focused training in Persian at the intermediate level in preparation for research with Persian sources. Includes an independent project component. Incoming students are placed in the appropriate level by means of a departmental placement test. Three lecture hours a week for one semester. Prerequisite: Graduate standing and Persian 381J with a grade of at least B.

**PRS 381L. Intermediate Graduate Language Instruction II.**

Intensive cultural and literacy-focused training in Persian at the high-intermediate level in preparation for research with Persian sources. Includes an independent project component. Incoming students are placed in the appropriate level by means of a departmental placement test. Three lecture hours a week for one semester. Prerequisite: Graduate standing and Persian 381K with a grade of at least B.

**PRS 382C. Topics in Persian Linguistics and Philology.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in Persian studies.

**PRS 384C. Topics in Persian Literature.**

Study of various aspects and periods of Persian language and literature. Three lecture hours a week for one semester. May be repeated for credit
when the topics vary. Prerequisite: Graduate standing, three semester hours of upper-division coursework in Persian, and consent of instructor.

**Topicals:**
- **Topic 1:** Ferdowsi's Shahnameh.
- **Topic 2:** Sa'di's Golestan.
- **Topic 3:** Hafez and Classical Persian Lyric Poetry.
- **Topic 4:** Sadeq Hedayat and Twentieth-Century Persian Prose Fiction.
- **Topic 5:** Forugh Farrokhzad and Modernist Persian Poetry.
- **Topic 6:** Iranian Women Writers.
- **Topic 7:** Persian Prose Nonfiction, Past and Present.
- **Topic 9:** Iranian Drama.
- **Topic 10:** Iranian Film and Fiction. Same as Middle Eastern Studies 386 (Topic 2). Middle Eastern Studies 386 (Topic 2) and Persian 384C (Topic 10) may not both be counted.

**PRS 389. Conference Course in Persian Studies.**
Supervised individual study of selected problems in Persian studies. The equivalent of three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing, consent of the graduate adviser, and consent of instructor.

**PRS 698. Thesis.**
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in Persian studies and consent of the graduate adviser; for 698B, Persian 698A.

**PRS 398R. Master's Report.**
Preparation of a report to fulfill the requirement for the master's degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in Persian studies and consent of the graduate adviser.

**PRS 399W, 699W, 999W. Dissertation.**
May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

**Professional Courses**

**PSF - Public Safety**

**Public Safety: PSF**

**Lower-Division Courses**

**PSF 311. Social Work and Public Safety.**
Restricted to social work majors and pre-majors. Focuses on the intersection between social work, public safety, law, and human services. Three lecture hours a week for one semester. Offered on the letter-grade basis only.

**Upper-Division Courses**

**PSF 360K. Public Safety Field Immersion.**
Restricted to social work majors and pre-majors. Explores the intersection of social work and public safety. Experiential learning in approved public safety-related settings and a weekly one-hour seminar. One lecture hour a week and completion of 120 hours of service learning for one semester. Offered on the pass/fail basis only.

**Graduate Courses**

**Professional Courses**

**PSY - Psychology**

**Psychology: PSY**

**Lower-Division Courses**

**PSY 301 (TCCN: PSYC 2301). Introduction to Psychology.**
Basic problems and principles of human experience and behavior. Three lecture hours a week for one semester, or the equivalent in independent study.

**PSY 304 (TCCN: PSYC 2308). Introduction to Child Psychology.**
General introduction to physical, social, and cognitive development from conception onward. Three lecture hours a week for one semester. Only one of the following may be counted: Psychology 304, 333D, Women's and Gender Studies 333D, 345 (Topic 6). Prerequisite: Psychology 301 with a grade of at least C.

**PSY 305. Introduction to Cognitive Psychology.**
Introduction to the study of how people perceive, act, communicate, and reason. Three lecture hours a week for one semester. Prerequisite: Psychology 301 with a grade of at least C.

**PSY 306 (TCCN: PSYC 2306). Introduction to Human Sexuality.**
Introduction to the science of sex and mating. Provides an overview of the psychological, biological, and social factors that contribute to sexual well-being and human sexual attraction. Three lecture hours a week for one semester. Psychology 306 and 346K may not both be counted.

**PSY 308 (TCCN: PSYC 2330). Biopsychology.**
Introduction to the biological bases of psychological processes and behavior. Overview of the physiology and anatomy of the nervous system, followed by a survey of brain mechanisms of perception, cognition, learning, and emotion; biological perspectives on drug action and mental disease. Three lecture hours a week for one semester. Prerequisite: Psychology 301 with a grade of at least C.

**PSY 309 (TCCN: PSYC 2316). Personality.**
Research and theory concerning personality structure, dynamics, development, and assessment. Three lecture hours a week for one semester. Prerequisite: Psychology 301 with a grade of at least C.

**PSY 317 (TCCN: PSYC 2317). Statistical Methods in Psychology.**
Recommended for majors who plan to do graduate work in psychology or related fields. Measures of central tendency and variability; statistical inference; correlation and regression. Three lecture hours a week for one semester. Prerequisite: Psychology 301 with a grade of at least C.

**PSY 317L. Introduction to Statistics for the Behavioral Sciences.**
Explore the R programming language, data visualization, data wrangling, descriptive statistics (measures of central tendency and variation), measures of association (correlation, regression). Examine inferential statistics including parametric tests (such as t-tests and ANOVA) and non-parametric tests (such as Kruskal-Wallis and chi-squared tests). Three lecture hours a week for one semester. Psychology 317L and 120R may not both be counted.
Theory and research on the analysis of human conduct in social settings. Three lecture hours a week for one semester. Prerequisite: Psychology 301 with a grade of at least C.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Psychology. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

PSY 420M. Psychological Methods and Statistics.
Restricted to psychology majors. Explore the basic and intermediate scientific methods and statistical techniques commonly employed in psychological research. Three lecture hours and two discussion hours a week for one semester. Psychology 418 and 420M may not both be counted. Prerequisite: Thirty semester hours of college coursework including Psychology 301 with a grade of at least C and Psychology 317L or 120R with a grade of at least C.

PSY 120R. R Programming for Behavioral Sciences.
Restricted to psychology majors. Introduction to the R programming language. One lecture hour a week for one semester. Psychology 317L and 120R may not both be counted. Prerequisite: Thirty semester hours of college coursework including Psychology 301 with a grade of at least C and credit for one of the following: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Civil Engineering 311S, Chemical Engineering 253K, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Psychology 317, Public Relations 309, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 328M.

PSY 323. Perception.
Theory and research in the ways we extract information from the environment. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

An introduction to perceptual systems, with an emphasis on perception in human and nonhuman primates. Subjects include the physics of perceptual stimuli, the neural processing of perceptual information, the performance of human and other primates in perceptual tasks, and the evolution of perceptual systems. Three lecture hours a week for one semester. Psychology 323P and 341K (Topic: Perceptual Systems: Neurons/Behavior/Evolution) may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 323S. Sex Differences in Cognition and Perception.
Examination of facts, theories, and implications of sex differences in human cognition and perception. Subjects include genetic and hormonal origins of sex differences, structural differences in the body and brain, verbal abilities, spatial abilities, learning, memory, sensory-motor abilities, and the auditory, olfactory, visual, and other sensory systems. Three lecture hours a week for one semester. Psychology 323S and 341K (Topic: Sex Differences in Cognition and Perception) may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 323V. Seeing and Acting in a Virtual World.
Methods of experimentation and discovery for examining one’s own perceptions and actions in ordinary life. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 325K. Advanced Statistics.
Advanced statistical theory and methods for analysis of behavioral sciences data; subjects include analysis of variance and covariance, regression, and nonparametric techniques. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

Laws of animal and human learning, and the underlying mechanisms. Three lecture hours a week for one semester. Prerequisite: For

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Psychology. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

PSY 332. Behavioral Neuroscience.

Neuroscientific study of behavioral functions: fundamental structure and function of the human nervous system, sensory systems and perception, motor systems and behavior, motivation and learning, brain disorders and maladaptive behavior. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 332C. Hormones and Behavior.

Neuroscientific study of hormones and behavior in animals and humans. Includes sexual behavior, sexual differentiation, parental behavior, aggressive behavior, feeding and drinking, stress, learning, and memory. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 332D. Human Brain Imaging in Psychology.

Study of human brain imaging technologies such as fMRI and electrophysiology. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 332E. Ethics, Genetics, and the Brain.

Discuss the ethical, legal, and societal implications of advances in the understanding of neuroscience and genetics. Three lecture hours a week for one semester. Psychology 332E and 341K (Topic: Ethics, Genetics/ the Brain) may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 332J. The Developing Brain.

Explore the process of brain development from prior to fertilization through to old age with focus on the molecular, cellular, neurobiological, and behavioral changes that occur. Three lecture hours a week for one semester. Psychology 332J and 341K (Topic: The Developing Brain) may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 332M. The Neuroscience of Motivation and Reward.

Examination of mechanisms of the brain that control behaviors such as incentive motivation, reward, aversion, and addiction. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 332P. Neural Plasticity And Behavior.

Examine basic concepts and current research directions in brain plasticity. Includes theory and research on how animals learn and remember, how brain areas and neurons adapt to life experiences, trauma, injury, and aging and new treatment directions based on neural plasticity principles. Three lecture hours a week for one semester. Psychology 332P and 341K (Topic: Neural Plasticity And Behavior) may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology

**PSY 332S. Psychology and Neuroscience of Sleep.**

Discuss the scientific literature on neuroscience underlying sleep, psychological influences on sleep, and sleep habits and interventions. Three lecture hours a week for one semester. Psychology 332S and 341K (Topic: Psy and Neuroscience of Sleep) may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

**PSY 332T. Biological Clocks and Behavior.**

Explore the role of biological clocks in health and disease. Three lecture hours a week for one semester. Psychology 332T and 341K (Topic: Biological Clocks/Behavior) may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

**PSY 332U. Diversity in Cognitive Aging.**

Discuss biological, sociocultural, and environmental factors underlying cognitive aging. Explore how each of these factors dynamically shapes cognitive functioning, brain health, and late-life dementia risk from a life course perspective. Three lecture hours a week for one semester. Psychology 332U and 341K (Topic: Diversity in Cognitive Aging) may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

**PSY 332W. Vision and Action.**

Three lecture hours a week for one semester. Psychology 332W and 341K (Topic: Vision and Action) may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

**PSY 333C. Controversial Issues in Development.**

An exploration of questions in developmental psychology that are currently in dispute. Subjects may include stem cell research, treatment of juveniles in the legal system, physician-assisted suicide, and methods of sex education. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

**PSY 333D. Introduction to Developmental Psychology.**

Same as Women's and Gender Studies 333D. Physical, social, and cognitive development in humans. Three lecture hours a week for one semester. Only one of the following may be counted: Psychology 304, 333D, Women's and Gender Studies 333D, 345 (Topic 6). Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

**PSY 333E. Identity Formation.**

An introduction to historical theories of and current research on identity, with particular focus on identity development in the domains of occupation, religion, politics and morality, gender, ethnicity, and adoption. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

**PSY 333F. Fantasy and Reality.**

Examination of how children and adults decide what is real and what is not. Subjects include the fantasy-reality distinction, magical thinking, and religious cognition. Three lecture hours a week for one semester.

PSY 333G. The Development of Attachment Relationship.
Study of the attachment relationship. Three lecture hours a week for one semester. Psychology 333G and 341K (Topic: Dev of Attachment Relationship) may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 333M. Infant Development.
Examination of genetic and environmental determinants of social, perceptual, and cognitive development in infants from theoretical and research perspectives. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 333N. Cognitive Development.
Overview of the development of thinking from infancy through childhood. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 333P. Child Language.
Examination of theory and research concerning the development of language in the child. Three lecture hours a week for one semester. Linguistics 373 (Topic 1) and Psychology 333P may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing. Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 333R. Social Development in Children.
Same as Women's and Gender Studies 333R. Development of social behavior (for example, sex typing and aggression) and social relationships. Three lecture hours a week for one semester. Only one of the following may be counted: Psychology 333R, Women's and Gender Studies 333R, 345 (Topic 19). Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 333S. Developmental Science of Adolescence.
An in-depth exploration of what it means to be an adolescent - how the brain, hormones and cognitive development change motivation and behavior, and how institutions (schools, governments, police) help or hinder young people's development. Three lecture hours a week for one semester. Psychology 333S and 341K (Topic: Devel Sci of Adolescence) may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 333T. Adolescent Development.
Physical, cognitive, social, and personality development during adolescence. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 333W. Moral Development.
An introduction to theory and research on morality. Subjects include culture and morality, Freudian and social learning perspectives on moral development, Kohlberg’s theory of morality, challenge to Kohlberg’s theory, and cognitive, familial, and emotional influence on morality. Three
PSY 334D. Psychology of Human Mating.

Mate selection, sources of conflict, and mating over the life span, studied in the context of evolutionary psychology and sexual selection theory. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 334E. Evolutionary Psychology.

Fundamentals of evolutionary psychology, including issues of natural and sexual selection, adaptation, and domain-specific psychological mechanisms. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 337. Psychology of Language.

Consideration of approaches to the study of language, its development in children, and its functioning; important research from psychology and linguistics. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 337P. Language Processing.

Introduction to psycholinguistics, which uses methods and theories from cognitive psychology and cognitive science to understand how people speak, comprehend, and learn language(s). Three lecture hours a week for one semester. Psychology 337P and 341K (Topic: Language Processing) may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 338K. Psychology of Reading.

Theory and research on the reading process and its acquisition. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

Adjustment difficulties during childhood and adolescence; causation and treatment. Three lecture hours a week for one semester. Psychology 339 and Human Development and Family Sciences 342 may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 340M. Industrial Psychology.

A general introduction to organizational behavior and issues in industrial/organizational psychology. Subjects include organizational structure, selection and placement, leadership, job satisfaction, training, and change. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 341K. Selected Topics in Psychology.

Topics of contemporary interest that may vary from semester to semester. Three lecture hours a week for one semester. May be repeated.
for credit when the topics vary. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing. Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

**PSY 345. Individual Differences.**
Study of person-to-person variation in intelligence, personality, and interests, with an emphasis on genetic and environmental determinants, developmental processes, and their relation to real-world outcomes. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

**PSY 346K. Psychology of Sex.**
Development of sex from genes to human behavior. Three lecture hours a week for one semester. Psychology 306 and 346K may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

**PSY 350. Motivation.**
Theory and research on motivation; biological and social determinants. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

**PSY 352P. Psychopathology.**
Explore biological and social factors in the development and treatment of psychopathology. Three lecture hours a week for one semester. Psychology 352 and 352P may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics...
PSY 353K. Psychopharmacology.
The pharmacology and the neurochemical, neurophysiological, and psychological effects of psychoactive drugs, with regard to their use as therapeutic and behavioral research tools. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M. Psychology 308 or three hours of college coursework in biology is recommended.

Theoretical and critical analysis of the development, nature, and function of the thought process. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 355C. Development of Categories and Concepts.
Study of the historical and contemporary knowledge about the ways that people learn about concepts. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 355D. Animal Cognition.
An introduction to animal intelligence and the evolution of mind. Examines what is known about intelligence in other animals, how intelligence is revealed in social and problem-solving behavior, and the ways in which human intelligence is structured by its evolutionary past. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 355E. Psychology of Consciousness.
Introduction to the scientific study of consciousness from the perspective of psychology and neuroscience. Three lecture hours a week for one semester. Psychology 341K (Topic: Psy of Consciousness: Cognitive Sci of Religion) and 355E may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

Cognitive foundations of music in terms of physics of sound, the psychophysics of musical experience, perceptual organization of musical scenes, the perception of time through rhythm, and the ways in which music reflects natural form. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 355N. Cognitive Neuroscience.
Exploration of the link between the brain, mind, and behavior and cognitive neuroscience techniques. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

Explore cognitive and evolutionary approaches to understanding religion. Examine cutting-edge research on the cognitive science of religion from disciplines including anthropology, psychology, philosophy, and religious studies. Three lecture hours a week for one semester. Psychology 341K (Topic: Cognitive Sci of Religion) and 355Q may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.
PSY 355R. Reasoning and Decision Making.
Survey of psychological research on how people reason and make decisions. Subjects include mental models, causality, analogy, heuristics, emotion, motivation, culture, and decision making. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 355S. Social Cognition.
Examine major theories and research findings in social cognition. Three lecture hours a week for one semester. Psychology 341K (Topic: Social Cognition) and 355S may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 357. Undergraduate Research.
Supervised research experience. Individual instruction. May not be counted toward a major in psychology. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: At least thirty semester hours of college coursework, Psychology 301 with a grade of at least C, and consent of instructor.

PSY 458. Experimental Psychology.
Techniques of psychological research illustrated in a series of laboratory experiments. Two lecture hours and four laboratory hours a week for one semester. Prerequisite: Upper-division standing, Psychology 301 and 418 or 420M and with a grade of at least C in each, and a University grade point average of at least 3.25.

PSY 359H. Honors Research Tutorial.
Individual instruction. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Concurrent registration in Psychology 379H.

PSY 364F. Forensic Psychology.
Examine the study and practice of psychology as it applies to issues relating to the law and legal system, such as: determination of competency and insanity, expert testimony, jury selection and the social psychology of the courtroom, eyewitness testimony, and false confessions. Three lecture hours a week for one semester. Psychology 341K (Topic: Forensic Psychology) and 364F may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 364M. Mental Illness and the Brain.
Introduction to the brain dysfunction and cognitive impairment often associated with mental illness and how its recognition and assessment can be used to help with differential diagnosis, prognosis, and treatment planning. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 364P. Positive Psychology and the Good Life.
Analyze how to live a more satisfying life based on modern psychological science. Survey the emerging field of positive psychology, including assessment and determinants of well-being; human strengths and virtues; the good life considered from evolutionary, economic,
sociological, and cross-cultural perspectives; and applications to issues such as social change. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing. Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 364S. Human Sexuality.
Human sexuality from a clinical and evolutionary perspective with a focus on the assessment, diagnoses, and treatment of sexual dysfunctions. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing. Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 364T. Multicultural Psychotherapy.
Introduction to multicultural approaches to personality assessment and counseling psychotherapy. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing. Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 365D. Behavioral Science, Equity, and Inclusion.
Apply the principles of experimental behavioral science to problems of creating an equitable and inclusive society in the twenty-first century. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing. Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 365E. Emotion.
Examination of the scientific literature on the psychology of human and animal emotion. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing. Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 365G. Gender and Racial Attitudes.
Advanced introduction to the psychological study of gender and racial attitudes in children and adults, with emphasis on the causes, consequences, and revision of an individual's gender and racial stereotypes. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing. Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 365L. Advanced Social Psychology.
Experimental research in social psychology, social influence, decision making, affiliation, risk taking, stress, and other subjects. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing. Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 371. Learning and Memory.

PSY 371E. Psychological Data Science Foundations I.
Introduction to foundational concepts and techniques in data science. Three lecture hours a week for one semester. Psychology 341K (Topic: Psychological Data Sci Fndns I) and 371E may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing. Psychology 301 with a grade of at least
PSY 371M. Introduction to Machine Learning.
Introduction to the fundamental concepts and algorithms that enable computers to uncover the underlying patterns from different types of behavioral data. Three lecture hours a week for one semester. Psychology 341K (Topic: Intro to Machine Learning) and 371M may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 235K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 371N. Natural Human Behavior in the Real World.
Design experiments that will be conducted in the real world, use mobile sensing technology to collect behavioral data, and discover behavioral patterns by analyzing fine-grained data. Conduct a behavioral study with the aim to provide research evidence to overcome the challenges that the real world poses. Three lecture hours a week for one semester. Psychology 341K (Topic: Natl Human Behav n Real World) and 371N may not both be counted. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 235K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing, Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 235K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 373N. The Neurobiology of Attention.
Examination of behavioral and brain mechanisms of attention in humans and other animals. Three lecture hours a week for one semester. Prerequisite: For psychology majors, upper-division standing and Psychology 301 and 418 or 420M with a grade of at least C in each; for others, upper-division standing. Psychology 301 with a grade of at least C, and one of the following with a grade of at least C: Advertising 309R, African and African Diaspora Studies 302M, Biomedical Engineering 335, Chemical Engineering 235K, Civil Engineering 311S, Economics 329, Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K, Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

PSY 377P, 677P. Undergraduate Practicum.
Field experience in applied psychology. Students are supervised by faculty members and by practitioners in community agencies. One lecture hour and ten or twenty hours of fieldwork a week for one semester. May not be counted toward a major in psychology. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Upper-division standing and consent of the practicum supervisor.

PSY 379H. Honors Research II.
Three lecture hours a week for one semester. Prerequisite: Upper-division standing, Psychology 301 and 418 or 420M with a grade of at least C in each, Psychology 458 and 359H, concurrent registration in Psychology 158H, and consent of the honors advisor.

Graduate Courses

PSY 380C. Human Neuropsychology.
Basic issues in normal and abnormal human brain function reviewed with emphasis on disorders of higher cerebral functioning. Three lecture hours a week for one semester. Prerequisite: Graduate standing, and Psychology 383C or consent of instructor.

PSY 380F. Fundamentals of Evolutionary Psychology.
Survey of important theories and research in evolutionary psychology, with emphasis on current problems. Three lecture hours a week for one semester. A core course option. Prerequisite: Graduate standing and consent of instructor.

PSY 380G. Grant Writing.
Examine grant writing for fellowships and research funds from a variety of different funding sources. Create and workshop drafts for applications for pre-doctoral fellowships (for example, NSF, NRSA), postdoctoral fellowships, dissertation grants, or general research funds. Generate discussion, contribute peer feedback, draft and revise grant components, and participate in a mock study session. Three lecture hours a week for one semester. Only one of the following may be counted: Psychology 380G, 381F, 394V (Topic: Grnt Wrt Natl Sci Fndtn). Prerequisite: Graduate standing.

PSY 380W. Writing Workshop.
Explore tools to create and maintain a consistent writing practice and meet research goals. Track writing, discuss challenges and progress in a supportive community, and receive feedback on written work. Three lecture hours a week for one semester. Psychology 380W and 394S (Topic: Graduate Writing Workshop) may not both be counted. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

PSY 381C. Methods of fMRI: From Design to Data Analysis.
Methods behind all common fMRI data preprocessing steps and data analysis models, including how to properly implement and evaluate their performance. Three lecture hours a week for one semester. Prerequisite: Graduate standing.
PSY 381D. Advanced Topics in Neuroimaging.
Addresses the latest developments in the design, analysis, and interpretation of neuroimaging data. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

PSY 381E. Introduction to Psychophysiology.
An overview of the principles, theory, and applications of using physiological measures to study mental processes. Covers the philosophical and theoretical foundations of brain/behavior relations and introduces basic electrical principles and human neurophysiology. A core course option. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

PSY 381F. Grant Writing for the National Science Foundation.
Explore the application and review procedures when requesting funding from the National Science Foundation. Three lecture hours a week for one semester. Only one of the following may be counted: Psychology 380G, 381F; 394V (Topic: Grant Writing Natl Sci Fndtn). Prerequisite: Graduate standing and consent of instructor.

PSY 381G. Grant Writing in the Behavioral and Biological Sciences.
Same as Neuroscience 381G. Introduction to grant writing in the behavioral and biological sciences and development of grant writing skills. Subjects include: finding grant opportunities, planning proposal activities, successful grant writing strategies, and how to talk to grant program officers. Write grant proposals (e.g., proposals to federal agencies such as NSF or NIH) and revise proposals based on peer and instructor feedback. Explore how grant proposals are reviewed by participating in a mock review session. Three lecture hours a week for one semester. Only one of the following may be counted: Neuroscience 381G, 394P (Topic: Grant Writing in the Behavioral and Biological Sciences), Psychology 381G, 394U (Topic: Grant Writing in the Behavioral and Biological Sciences). Prerequisite: Graduate standing and consent of instructor.

PSY 381H. Professional Development for Careers in Psychological Science.
Explore professional development issues that arise in academic and nonacademic careers for psychological scientists. Three lecture hours a week for one semester. Psychology 381H and 394V (Topic: Proseminar: Professional Development for Academic Psychologist) may not both be counted. Prerequisite: Graduate standing.

PSY 382E. Area Seminar in Cognitive Science.
Current issues in cognitive science. Three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

PSY 382F. R Programming in Behavioral Sciences.
Design reproducible behavioral data analysis using R and RStudio. Emphasis on coding skills to organize, analyze, and visualize data. Three lecture hours a week for one semester. Psychology 382F and 394U (Topic: R Programming Behavioral Sci) may not both be counted. Prerequisite: Graduate Standing.

PSY 182H. Promoting Wellbeing and Thriving.
Examine empirically-supported strategies for promoting well-being and thriving through graduate study and beyond. Explore emotions, stress response, coping, gratitude, health behaviors, sleep, resilience, and mindfulness. One lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

PSY 382K, 382K. Internship in Clinical Psychology.
Supervised practical experience in clinical assessment and treatment. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester, with practicum hours to be arranged. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree in clinical psychology.

PSY 382V. Neural and Computational Basis of Vision.
Same as Neuroscience 382V. Introduction to the physiology, psychophysics and computational aspects of the visual system. Review linear systems analysis, information theory, Bayesian statistical decision theory, and other relevant mathematical areas. Three lecture hours a week for one semester. Only one of the following may be counted: Neuroscience 380E, 382V, Psychology 380E, 382V. Prerequisite: Graduate standing and consent of instructor.

PSY 383C. Functional Neuroanatomy.
An examination of the anatomy of the brain and spinal cord, emphasizing connections and functions of neural systems. Three lecture hours a week for one semester. Neuroscience 383C and Psychology 383C may not both be counted. Prerequisite: Graduate standing and consent of instructor.

PSY 383E. Area Seminar in Cognitive Neuroscience.
Current issues in cognitive neuroscience. Three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

PSY 383M. Fundamentals of Physiological Psychology.
Survey of important theories and research in physiological psychology, with emphasis on current problems. Three lecture hours a week for one semester. A core course option. Prerequisite: Graduate standing and consent of instructor.

PSY 383P. Proseminar: Professional Development.
Explore the hidden curriculum of graduate training and future career prospects. Examine work/life balance, writing skills, grants, and issues to consider while in the job market. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

PSY 383T. Principles of Sensory and Behavioral Neuroscience.
A proseminar covering the core material on essential topics in sensory and behavioral neuroscience. Three lecture hours a week for one semester. Neuroscience 383T and Psychology 383T may not both be counted. Prerequisite: Graduate standing and consent of instructor.

PSY 384C. Bootstrap Statistics.
Same as Neuroscience 384C. An introduction to modern methods of statistical analysis based on numerical computer simulation. Covers a range of common data analysis situations drawn mainly from the fields of neuroscience and experimental psychology. Techniques include point estimation, two-group and multiple group experiments, regression and curve fitting, and Bayesian analysis. Three lecture hours a week for one semester. Only one of the following may be counted: Neuroscience 384C, 385L (Topic: Bootstrap Statistics), Psychology 384C, 394U (Topic: Bootstrap Statistics). Prerequisite: Graduate standing, an undergraduate statistics course, and consent of instructor.

PSY 184E. Area Seminar in Clinical Psychology.
One lecture hour a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.
Consideration of problems of analysis and design commonly encountered in psychological research. Three lecture hours a week for one semester. Only one of the following may be counted: Psychology 384K, 385J, 394T (Topic: Linear Models: Regression Anova). Prerequisite: Graduate standing, an undergraduate statistics course, and consent of instructor.

Same as Neuroscience 384M. Covers t-test, chi-square, analysis of variance, and nonparametric tests. Three lecture hours a week for one semester. Prerequisite: Graduate standing, an undergraduate statistics course, and consent of instructor.

PSY 384P. Regression Analysis.
Offers thorough coverage of all major aspects of regression. Coverage includes linear model theory and application, polynomial and interaction models, multivariate linear and logistic regression, and all related diagnostics. Three lecture hours a week for one semester. Psychology 384P and 394T (Topic: Regression Analysis) may not both be counted. Prerequisite: Graduate Standing and consent of instructor.

PSY 384Q. Advanced Applied Statistics I.
Coverage of advanced statistical techniques useful in the social sciences and beyond. Specific areas of focus include non-linear regression, robust analysis, mixed-model regression (hierarchical linear models), and principal components/factor analysis. Three lecture hours a week for one semester. Psychology 384Q and 394T (Topic: Advanced Applied Statistics I) may not both be counted. Prerequisite: Consent of instructor, and registration or credit for Psychology 384M.

PSY 384S. Advanced Applied Statistics II.
Coverage of advanced statistical techniques useful in the social sciences and beyond. Specific areas of focus include semi-parametric regression, categorical data modeling, resampling and permutation techniques, monte carlo simulation, time-to-event analysis, and structural equations modeling. Three lecture hours a week for one semester. Psychology 384S and 394T (Topic: Advanced Applied Statistics II) may not both be counted. Prerequisite: Graduate standing and consent of instructor.

PSY 384T. Structural Equation Modeling.
Introduction to structural equation modeling. Three lecture hours a week for one semester. Psychology 384T and 394T (Topic: Structural Equation Modeling) may not both be counted. Prerequisite: Graduate standing and consent of instructor; and a working understanding of multiple regression analysis.

PSY 185E, 385E. Area Seminar in Developmental Psychology.
Current issues in developmental psychology. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

PSY 385J. Linear Models: Regression and ANOVA Methods.
Explores linear modeling from both conceptual and applied perspectives. Focuses on ANOVA, including multi-factor designs, post-hoc testing, and analysis of covariance, as well as on regression, including univariate and multivariate regression, polynomial and interaction models, logistic regression, and related diagnostics. Three lecture hours a week for one semester. Only one of the following may be counted: Psychology 384K, 385J, 394T (Topic: Linear Models: Regression Anova). Prerequisite: Graduate standing and consent of instructor.

PSY 385N. Fundamentals of Personality Psychology.
Survey of important theories and research in personality psychology, with emphasis on current problems. Three lecture hours a week for one semester. A core course option. Prerequisite: Graduate standing and consent of instructor.

PSY 385P. Fundamentals of Social Psychology.
Survey of important theories and research in social psychology, with emphasis on current problems. Three lecture hours a week for one semester. A core course option. Prerequisite: Graduate standing and consent of instructor.

PSY 386D. Multivariate Pattern Analysis.
Same as Neuroscience 386D. Explores cutting-edge techniques for finding meaningful patterns in large, noisy brain data sets, and how to use these techniques to address a variety of questions in cognitive neuroscience. Three lecture hours a week for one semester. Only one of the following may be counted: Neuroscience 386D, 394P (Topic: fMRI Brain Decoding). Psychology 386D, 387D. Prerequisite: Graduate standing and consent of instructor.

PSY 186E, 386E. Area Seminar in Individual Differences and Evolutionary Psychology.
Current issues in individual differences and evolutionary psychology. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

PSY 386N. Fundamentals of Psycholinguistics.
Survey of important theories and research in psycholinguistics, with emphasis on current problems. Three lecture hours a week for one semester. A core course option. Prerequisite: Graduate standing and consent of instructor.

PSY 387C. Human Language Processing.
An overview of current psycholinguistic research, primarily in the production and comprehension of spoken language by adults. A core course option. Three lecture hours a week for one semester. Psychology 387C and 394U (Topic: Human Language Process) may not both be counted. Prerequisite: Graduate standing and consent of instructor.

PSY 187E, 387E. Area Seminar in Perception, Brain, and Behavior Psychology.
Current issues in perception, brain, and behavior psychology. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

PSY 387N. Perceptual Systems.
Overview of theory and research in visual perception and perceptual information processing. Three lecture hours a week for one semester. A core course option. Prerequisite: Graduate standing and consent of instructor.

PSY 387S. Principles of Cognitive Neuroscience.
Introduction of graduate students to the methods, theories, and research of cognitive neuroscience across a broad range of mental domains such as attention, memory, language, and decision making. A core course option. Three lecture hours a week for one semester. Psychology 387R
and 387S may not both be counted. Prerequisite: Graduate standing and consent of instructor.

**PSY 388D. Individual Differences Psychology.**

Person-to-person differences in cognitive abilities and personality, with emphases on genetic and environmental influences, developmental processes, and relations to real world outcomes. A core course option. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

**PSY 188E, 388E. Area Seminar in Social and Personality Psychology.**

Current issues in social and personality psychology. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

**PSY 388K. Conference on Special Topics.**

Readings, conferences, and other work on individually selected topics. Conference course. May be repeated for credit. Prerequisite: Graduate standing and twelve semester hours of upper-division coursework in psychology.

**PSY 189E. Area Seminar in Cognition, Brain and Behavior.**

Explore current issues in cognition, brain, and behavior. One lecture hour a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

**PSY 389K. Theory and Techniques of Assessment I.**

Introduction to intelligence and personality testing procedures, test interpretation, and ethical issues pertaining to clinical interviewing and testing. Includes instruction and feedback on clinical report writing. Three lecture hours and three laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor received prior to registering.

**PSY 389L. Theory and Techniques of Assessment II.**

Clinical interviewing with adults and children. Observation and feedback for test administration and clinical skills. Three lecture hours and three laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing, Psychology 389K, and consent of instructor.

**PSY 190, 290, 390. Research.**

Individual research. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and twelve semester hours of upper-division coursework in psychology. Students must sign up in the Department of Psychology Graduate Office prior to registering.

**PSY 191E. Area Seminar in Behavioral Neuroscience.**

Explore current issues in behavioral neuroscience. One lecture hour a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

**PSY 391N. Learning and Memory.**

Same as Neuroscience 391N. Presentation of contemporary approaches to the study of conditioning and learning at the behavioral level. Focuses on empirical data and theoretical analysis of acquisition and performance in Pavlovian and instrumental conditioning. Includes discussion of habituation, sensitization, stimulus control, and other paradigms for studying cognitive processes in nonverbal organisms. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

**PSY 391P. Issues and Controversies in Statistical and Scientific Inquiry.**

Selected topics on the design and analysis of psychological research. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

**PSY 392N. Fundamentals of Comparative Psychology.**

History and current status of comparative psychology, emphasizing several biological disciplines, including behavior genetics, ethology, evolutionary biology, and sociobiology. Three lecture hours a week for one semester. A core course option. Prerequisite: Graduate standing and consent of instructor.

**PSY 393. Clinical Practicum I.**

Supervised practical experience in the use of clinical techniques. Three lecture hours a week for one semester, with ten to twelve hours of practicum experience to be arranged. Prerequisite: Graduate standing, Psychology 389K, and consent of instructor.

**PSY 393K. Clinical Practicum II.**

Continuation of supervised practical experience in the use of clinical techniques. Three lecture hours a week for one semester, with ten to twelve hours of practicum experience to be arranged. Prerequisite: Graduate standing, Psychology 393, and consent of instructor.

**PSY 394I. Neuroinflammation in Health and Pathology.**

Same as Neuroscience 394I. Assess cutting-edge pre-clinical and clinical neuromimic research, and interact with professors from across campus in special seminars. Three lecture hours a week for one semester. Only one of the following may be counted: Neuroscience 394I, 394P (Topic: Neuroinflammation in Hlth/Path), Psychology 394I, 394P (Topic: Neuroinflammation in Hlth/Path). Prerequisite: Graduate standing and consent of instructor.

**PSY 394K. Fundamentals of Social and Personality Development.**

Survey of important theories, issues, and research in social and personality development. Three lecture hours a week for one semester. A core course option. Prerequisite: Graduate standing and consent of instructor.

**PSY 394N. Fundamentals of Cognitive Development.**

Survey of important theories, issues, and research in the development of perception, language, and cognition. Three lecture hours a week for one semester. A core course option. Prerequisite: Graduate standing and consent of instructor.

**PSY 394P. Seminars in Behavioral Neuroscience and Biopsycho.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**Topic 1: Current Topics in Behavioral Neuroscience.** Brain-behavior relationships, particularly recent research in behavioral neuroscience, including the anatomical and neurochemical mechanisms of behavioral events, and behavioral influences on the brain. Neuroscience 394P (Topic 1: Current Topics in Behavioral Neuroscience) and Psychology 394P (Topic 1) may not both be counted.

**Topic 2: Clinical Psychopharmacology.** Recent findings concerning the mechanisms of action and the behavioral effects of psychoactive drugs, particularly those used in psychiatry. Various drug types (such as sedative-hypnotics, hallucinogens, and drugs used to treat depression, schizophrenia, Parkinson's disease, and anxiety) and
pathways in the brain are discussed to examine the neurochemical basis of psychiatric disorders and substance abuse.

**Topic 3: Neurobiology of Learning and Memory.** Neuroanatomical systems that are functionally related to basic forms of learning and memory in mammals. Neuroscience 394P (Topic 3: Neurobiology of Learning and Memory) and Psychology 394P (Topic 3) may not both be counted.

**Topic 4: Animal Communication.**

**Topic 7: Advanced Topics in Neuroanatomy.** Neuroanatomical systems and functions across species; advanced forms of neuroanatomy in mammals. Neuroscience 394P (Topic 4: Advanced Topics in Neuroanatomy) and Psychology 394P (Topic 7) may not both be counted.

**Topic 13: Foundations of Human Neuroimaging.** A survey of the foundations for neuroimaging research with a focus on cognitive neuroscience. Describes the physical methods of image acquisition and physiological mechanisms used for functional imaging. Emphasis on magnetic resonance methods for structural and functional imaging. Surveys other imaging modalities, including positron emission tomography (PET), optical, and EEG/MEG electrical source localization. Only one of the following may be counted: Biology 381K (Topic: Foundations of Neuroimaging), Neuroscience 385L (Topic 6), 394P (Topic: Foundations of Magnetic Resonance Imaging Research), Psychology 394P (Topic: Foundations of Magnetic Resonance Imaging Research), 394P (Topic 13).

**Topic 16: Quantifying Brain Structure.** Concepts and hands-on applications for quantifying aspects of brain and cellular structure, with a focus on stereological approaches. Only one of the following may be counted: Neuroscience 385L (Topic 12: Quantifying Brain Structure), 394P (Topic: Quantitative Methods for Brain Structure), Psychology 394P (Topic 16), 394P (Topic: Quantitative Methods for Brain Structure).

**Topic 17: Behavioral Neuroendocrinology.** Current research in neuroendocrinology, including action of neuroendocrine systems on behavior, assays of substances in the blood to identify gene products, and examination of stress from neuroendocrine, behavioral, health, and immunity perspectives. Only one of the following may be counted: Neuroscience 385L (Topic 5: Behavioral Neuroendocrinology), 394P (Topic: Behavioral Neuroendocrinology), Psychology 394P (Topic 17), 394P (Topic: Behavioral Neuroendocrinology).

**PSY 194Q, 394Q. Seminars in Clinical Psychology.**

One or three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**Topic 2: Empirically Supported Interventions with Adults.**

**Topic 4: Advanced Practicum in Clinical Psychology.**

**Topic 5: Advanced Practicum in Clinical Neuropsychology.** Restricted to clinical psychology majors. Additional prerequisite: Graduate standing and consent of instructor.

**Topic 6: Empirically Supported Interventions with Children.**

**Topic 17: Seminar in Positive Psychology.** A survey of the emerging field of positive psychology and well-being. Topics include character strengths and virtues, positive emotion, personally influences, motivation and goals, the happiness set point, and the issue of whether happiness can or should be changed.

**Topic 18: Research Methods in Clinical Psychology.** Advanced training in research methodology as it pertains to the field of clinical psychology.

**Topic 19: History and Professional Issues in Clinical Psychology.** History and development of clinical psychology as a profession. Includes clinical psychology before World War II, the recognition of stress, the rise of evidence-based practice, professional psychology, and multicultural diversity.

**Topic 20: Diversity Issues in Research and Practice.** Methodological considerations involved in designing research projects, and clinical assessment and treatment concerns that arise when working with diverse populations.

**Topic 21: Neuropsychological Assessment.** Restricted to clinical psychology students. Examine the administration and scoring of a wide variety of neuropsychological measures, as well as test interpretation, case conceptualization and report writing skills. Includes a variety of neurological syndromes and grand rounds case presentations. Psychology 394Q (Topic: Neuropsychological Assessment) and 394Q (Topic 21) may not both be counted.

**PSY 394S. Seminars in Developmental Psychology.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**Topic 2: Children's Racial/Gender Schemata.**

**Topic 3: Literacy Acquisition.**

**Topic 4: Psychological Processes in Family Violence.**

**Topic 5: Language and Conceptual Development.**

**Topic 6: Infant Perception and Cognition.**

**Topic 7: Professional Issues in Academia.**

**PSY 394T. Seminars in Evolutionary Psychology.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**PSY 394U. Seminars in Cognitive or Perception Psychology.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**Topic 4: Cognition.**

**Topic 6: Memory.**

**Topic 7: Speech Perception.**

**Topic 8: Topics in Vision and Hearing.** Current research in human vision and/or hearing. Neuroscience 385L (Topic 7: Topics in Vision and Hearing) or Psychology 394U (Topic 8) may not both be counted.

**Topic 9: Visual Perception.**

**Topic 12: Knowledge Representation.** Psychological approaches to the ways in which information is stored and processed, focusing on how particular assumptions and mental representation make tasks either easy or difficult to perform.

**Topic 13: Reasoning and Decision Making.** High-level cognitive processes of reasoning and decision making. Explores human rationality, analogical reasoning, causal reasoning, heuristics, and decision making in naturalistic settings.

**Topic 14: Topics in Systems Neuroscience.** Focuses on one or two topics and examines them in depth through group discussions of key scientific manuscripts. Discusses both classical studies and contemporary research. Only one of the following may be counted: Neuroscience 394P (Topic 8: Topics in Systems Neuroscience), Psychology 394U (Topic 14), 394U (Topic: Advanced Topics in Systems Neuroscience).

**Topic 15: Cognitive Neuroscience.** Readings, results, and discussion regarding cutting-edge work in the field. Emphasis on how
computational models can be used to bridge brain and behavior.

Biology 381K (Topic: Cognitive Neuroscience) and Psychology 394U (Topic 15) may not both be counted.

**Topic 16: Perception and Action.** Current topics in visually guided behavior, including eye movements, attention, and motor control, from behavioral, computational, and neurophysiological approaches. Neuroscience 394P (Topic 9: Perception and Action) and Psychology 394U (Topic 16) may not both be counted.

**Topic 17: Models of Cognition.** Formal models of cognition and related analysis, such as model selection statistics and Bayesian hierarchical parameter fitting.

**Topic 18: Advanced Topics in Perceptual Systems.** Readings, talks, and discussions on perceptual systems.

**Topic 19: Statistical Methods in Computational Neuroscience.** Same as Neuroscience 394P (Topic 10: Statistical Methods in Computational Neuroscience). Introduction to statistical and computational methods for understanding information processing in the nervous system, with emphasis on neural coding and statistical modeling of neural responses. Prerequisite: Graduate standing and consent of instructor.

**Topic 20: Methods for fMRI.** Covers preprocessing and statistical analysis methods of fMRI data with tutorials and laboratory exercises. Psychology 394U (Topic: Methods for fMRI) and 394U (Topic 20 may not both be counted.

**PSY 394V. Seminars in Social and Personality Psychology.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**Topic 6: The Self.**

**Topic 7: Social Stereotypes.**

**Topic 8: Psychosomatic Processes.** Survey of theories and findings concerning the links between psychological states and health. Includes emotion, stress, coping, psychoneuroimmunology, disclosure, and the social correlates of health and illness.

**Topic 9: Language and Personality.** An exploration into computer-based methods used to study the links between word use and basic social and personality processes.

**Topic 10: Close Relationships.** Social psychological theory and research on the topic of close relationships.

**Topic 11: Social Neuroscience.** Introduction to psychological and neural foundational concepts in social neuroscience. Surveys current work in the field to examine how it may or may not contribute to the study of social psychology.

**Topic 12: Self and Identity.** Broad overview of self-related theory and research, with an emphasis on recent developments in the field. Includes the nature and structure of the self and forms of self-knowledge. Also explores the relationship between the self and group processes, close relationships, and gender. Three lecture hours a week for one semester. Psychology 394V (Topic: Self and Identity) and 394V (Topic 12) may not both be counted.

**Topic 13: Theory and Explanation in Social Psychology.** Examine different theoretical approaches in social psychology and the ability to critically evaluate the range and the limits of social psychological explanations from a meta-theoretical perspective. Address meta-theoretical principles in the construction and evaluation of social psychological theories, classic and contemporary approaches to understanding social psychological phenomena, and current directions in social psychological theorizing. Three lecture hours a week for one semester. Psychology 394V (Topic: Theory and Explanation in Social Psychology) and 394V (Topic 13) may not both be counted.

**PSY 394W. Foundations of Social Psychology.**

Examine key theories and research in social psychology, from classic to current approaches. Three lecture hours a week for one semester. Psychology 394V (Topic: Foundations of Social Psychology) and 394W may not both be counted. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of graduate adviser.

**PSY 395S. Fundamentals of Developmental Psychology.**

Emphasizes understanding the major theoretical approaches to the field, with an introduction to empirical work inspired by these theoretical perspectives. Three lecture hours a week for one semester. Psychology 394S (Topic: Fundamentals of Developmental Psychology) and 395S may not both be counted. Prerequisite: Graduate standing and consent of instructor.

**PSY 396. Advanced Behavior Pathology.**

Evaluation of the experimental and theoretical literature concerning major behavioral disorders. Three lecture hours a week for one semester. A core course option. Prerequisite: Graduate standing and consent of instructor.

**PSY 396C. Child and Adolescent Psychopathology.**

The epidemiology, etiology, associated features, developmental course, and prognosis of childhood and adolescent behavior disorders. Three lecture hours a week for one semester. A core course option. Prerequisite: Graduate standing and consent of instructor.

**PSY 396D. Clinical Psychopharmacology.**

Same as Neuroscience 396D. Recent findings concerning the mechanisms of action and the behavioral effects of psychoactive drugs, particularly those used in psychiatry. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

**PSY 698. Thesis.**

The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in psychology, twelve semester hours of upper-division or graduate coursework in psychology, and consent of the graduate adviser; for 698B, Psychology 698A.

**PSY 398T. Supervised Teaching in Psychology.**

Introduction to the teaching of psychology, including basic principles of adequate preparation, clear organization, student-teacher rapport, effective use of class time, clear and engaging communication of course content, fair and effective evaluation of students’ understanding of subject matter, and ethical behavior. Also addresses issues concerning the relations of individual courses to other college courses, specific types of instruction (e.g., writing instruction), and the broad goals of colleges and universities. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

**PSY 399W, 699W, 999W. Dissertation.**

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree

**Professional Courses**
R E - Real Estate

Real Estate: R E

Lower-Division Courses

Upper-Division Courses

Topics in Real Estate.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office or the school's BBA Exchange Programs. Credit is recorded as assigned by the study abroad adviser in the Department of Finance. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. May be repeated for credit when the topics vary.

R E 358. Introduction to Real Estate and Urban Land Development.

Same as Urban Studies 325R. An examination of the principles of real estate and urban land economics. Subjects include investment, valuation, financing, and public policy in real estate and mortgage markets. Three lecture hours a week for one semester. Only one of the following may be counted: Real Estate 358, Urban Studies 325R, 351 (Topic: Introduction to Real Estate and Urban Land Development), 351 (Topic 5). Prerequisite: Accounting 310F or 311 or 311H; and Finance 357 or 357H.

Topics in Real Estate.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office or the school's BBA Exchange Programs. Credit is recorded as assigned by the study abroad adviser in the Department of Finance. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. May be repeated for credit when the topics vary.

Upper-Division Courses

R E 366P. Real Estate Practicum.

Apply skills in real estate finance to focus on private equity opportunities conducted in a professional setting with private companies. The equivalent of three lecture hours a week for one semester. Prerequisite: Credit or registration for Real Estate 376G.

R E 367. Real Estate Investment Trust Investing.

Apply skills in real estate finance to study and invest in a publicly traded Real Estate Investment Trust (REIT) portfolio. The equivalent of three lecture hours a week for one semester. Prerequisite: Credit or registration for Real Estate 358.

R E 376G. Real Estate Investment.

Study of the setting and measurement of property values in real estate markets and an analysis of real estate assets as investments. Three lecture hours a week for one semester. Prerequisite: Real Estate 358.

R E 378K. Real Estate Finance and Syndication.

An examination of debt and equity financing of residential and commercial properties; mortgage markets and instruments; lender and investor decisions in real estate financing. Three lecture hours a week for one semester. Prerequisite: Finance 367 or Real Estate 358.

Graduate Courses

R E 386. Seminar in Real Estate Analysis.

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Business Administration 285T or 385T, and credit or registration for Finance 286.

Current aspects of real estate finance as they affect lenders, borrowers, and investors. Institutional changes affecting trends in real estate finance are presented within a decision-making framework. Special emphasis on real estate capital markets, public and private debt, and equity. For each semester hour of credit earned, one lecture hour a week for one semester. Prerequisite: Graduate standing.

R E 289, 389. Real Estate Practicum.

Project-based study with a focus on the application of real estate and finance principles to practical problems. For 289, at least ten lecture hours and forty hours of project work scheduled throughout the semester. For 389, at least fifteen lecture hours and sixty hours of project work scheduled throughout the semester. Prerequisite: Graduate standing, Business Administration 285T or 385T, Real Estate 386 (Topic 1: Real Estate Markets), and credit or registration for Finance 286.

Professional Courses

R M - Risk Management

Risk Management: R M

Lower-Division Courses

Upper-Division Courses

Topics in Risk Management.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s
Study Abroad Office or the school's BBA Exchange Programs. Credit is recorded as assigned by the study abroad adviser in the Department of Information, Risk, and Operations Management. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. May be repeated for credit when the topics vary.

R M 357E. Introduction to Risk Management.
Same as Urban Studies 321R. Principles of risk management for individuals and organizations, financial aspects of insurance companies and markets, industry structure, managerial aspects of underwriting and pricing, and public policy issues. Three lecture hours a week for one semester. Only one of the following may be counted: Risk Management 357E, Urban Studies 321R, 351 (Topic: Intro to Risk Management), 351 (Topic 6).

R M 369K. Managing Employee Risks and Benefits.
Risk management issues involving financial consequences of life and health contingencies, health care finance, company management, pension planning, economics of industry structure, and public policy issues. Three lecture hours a week for one semester.

R M 376. Quantitative Methods in Finance.
Explores quantitative methods and techniques in optimization and simulation, and their use in financial decision making. Discusses theory and application in portfolio selection, options and other derivative pricing, index tracking, risk measures, volatility estimating. Specific topics will include linear, quadratic, nonlinear, and integer programming; dynamic programming; robust optimization; Monte Carlo methods and variance reduction techniques. Emphasis will be placed on problem solving with advanced computational programming languages. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

Analysis of property-liability risks of businesses, risk management tools, risk financing, and insurance contracts for financial planning purposes; investment and underwriting operations, market structures, and insurance regulation. Three lecture hours a week for one semester.

Graduate Courses
R M 391. Topics in Decision Analysis.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

Topic 1: Decision Analysis. Descriptive and normative principles of decision making. Additional prerequisite: Admission to the PPA or MPA program or consent of instructor.
Topic 2: Managing Decisions under Risk. State-of-the-art methods and tools to analyze risky decisions and design optimal strategies. Practical knowledge and practice are emphasized.

Topic 3: Research Issues in Decision Making. Talks by students and faculty members with research interests in decision making, and group discussion of the talks and of students' decision-related research. Additional prerequisite: Admission to the doctoral program in the Department of Information, Risk, and Operations Management.

Topic 4: Behavioral Decision Theory. The psychology of decision making: how and why our judgments are more fallible than we ordinarily suppose, and the extent to which predictive judgment can be improved through use of normative strategies that tell us how we should make judgments and decisions.

R M 192, 292, 392. Topics in Quantitative Finance.
For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 1: Modeling and Optimization in Finance.
Topic 2: Statistics for Finance.
Topic 4: Mathematical Finance.
Topic 5: Computational Finance.

R M 194, 294, 394. Topics in Business Analytics.
Restricted to students admitted to the Master of Science in Information, Risk, and Operations Management program. Selected topics in business analytics. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 1: Corporate Risk Management. Analysis of risk management and security needs of businesses and individuals; related insurance coverages and other tools available to deal with risk.
Topic 3: Risk Management and Finance. Examination of theories underlying risk management techniques for business and insurance mechanisms; theoretical analysis of problems and practices in risk management.
Topic 5: Managing Environmental Risk.
Topic 6: Risk Analysis and Management.
Topic 7: Managing International Risk. The global aspects of risk management; basic risk and crisis management principles pertinent to multinational firms; financially, legally, and culturally multinational marketplaces such as reinsurance markets, captive offshore insurance.

Professional Courses
R S - Religious Studies

Religious Studies: R S

Lower-Division Courses
Same as Asian Studies 301R and Core Texts and Ideas 306D. Eastern religions: an introduction to the basic forms and the historical development of the religious traditions of India, China, and Japan. Three lecture hours a week for one semester. Only one of the following may be

Same as History 304R, Jewish Studies 311 (Topic 2), and Middle Eastern Studies 311C. Examines the intertwined historical developments of the religions of Judaism, Christianity, and Islam, and explores the principal beliefs and practices of Jews, Christians, and Muslims. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 304 (Topic: Judaism, Christianity, Islam), History 304R, Islamic Studies 311 (Topic 2), Jewish Studies 311 (Topic 2), Middle Eastern Studies 311C, Religious Studies 304.

Same as Classical Civilization 304G and History 304S. Investigate, using a range of primary and secondary readings, how religious identity was imagined and expressed in the 4th-6th centuries CE. Examine the complex interactions of, in particular, Jews, Christians, and Pagans. Three lecture hours a week for one semester. Only one of the following may be counted: Classical Civilization 304C (Topic: Pagans/Christians Late Roman Emp), 304G, History 304S, Religious Studies 304G, 315 (Topic: Pagans/Christians Late Roman Emp).

R S 305. Introduction to the Philosophy of Religion.
Same as Core Texts and Ideas 310 (Topic 3) and Philosophy 305. A critical examination of various conceptions of God and of the relationship of the human and the divine. Three lecture hours or two lecture hours and one laboratory/discussion hour a week for one semester. Only one of the following may be counted: Core Texts and Ideas 310 (Topic: Introduction to the Philosophy of Religion), 310 (Topic 3), Philosophy 305, Religious Studies 305.

R S 306C. Comparative Religious Ethics.
Same as Jewish Studies 311E. Three lecture hours a week for one semester. Only one of the following may be counted: Jewish Studies 311 (Topic: Comparative Religious Ethics), 311E, Religious Studies 306 (Topic: Comparative Religious Ethics), 306C.

Same as European Studies 306 (Topic 3), History 309J, and Jewish Studies 311C. Examines how freedom of conscience and religion crystallized in western and central Europe, both as a pragmatic practice and as a matter of principle. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 310 (Topic: Roots of Religious Toleration), European Studies 306 (Topic: Roots of Religious Toleration), 306 (Topic 3), History 309J, 317N (Topic: Roots of Religious Toleration), 317N (Topic 1), Jewish Studies 311 (Topic: Roots of Religious Toleration), 311 (Topic 5), 31C, Religious Studies 306 (Topic: Roots of Religious Toleration), 306 (Topic 1), 306D.

R S 306E. Ethics of Space Exploration.
Same as Anthropology 310G. Examine cultural and ethical questions related to the exploration of space and the emerging field of astrobiology. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 310G, Religious Studies 306E, 311 (Topic: Ethics/Relig/Space Explorlnt).

R S 307. Introduction to Interreligious Dynamics.
Introduction to the diverse dynamics of interreligious encounters, from armed conflicts to interreligious dialogue. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

R S 309C. Medieval Material Culture.
Same as Ancient History and Classical Civilization 310 (Topic 6) and History 309C. Explore the history of medieval Europe primarily through the lens of material culture. Three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 310 (Topic: Medieval Material Culture), 310 (Topic 6), History 306N (Topic: Medieval Material Culture), 309C, Religious Studies 309C, 315 (Topic: Medieval Material Culture).

R S 310. Introduction to the Study of Religion.
Introduction to scholarly methods in the study of religion. Three lecture hours a week for one semester. Religious Studies 310 and Sociology 313K may not both be counted.

R S 310R. Introduction to Middle East Religions.
Same as Jewish Studies 310R and Middle Eastern Studies 310R. Introduction to the religious landscape of the Middle East including the various expressions of Eastern Christianity, Islam, and Judaism as well as Zoroastrianism. Three lecture hours a week for one semester. Only one of the following may be counted: Islamic Studies 310R, Jewish Studies 310R, Middle Eastern Studies 310R, Religious Studies 310R.

R S 311. Topics in Religious Studies.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

Explore the relationship between religions and the environment from multidisciplinary perspectives. Three lecture hours a week for one semester. Religious Studies 311 (Topic: Religion & the Environment) and 311E may not both be counted.

R S 312C. Introduction to Buddhism.
Same as Asian Studies 301M (Topic 11: Introduction to Buddhism). A structural and historical overview of Buddhism through the examination of various schools, doctrines, biographical narratives, and contemporary ethical issues. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 301M (Topic 11), Religious Studies 312 (Topic: Introduction to Buddhism), 312C.

R S 312E. Yoga Past and Present.
Same as Asian Studies 307D. Survey yogic practices in South Asian civilization and trace the development of yogic thought and embodied practices in Hindu, Buddhist, and tantric traditions from early history to the modern-day’s social and legal complexities and controversies. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 301M (Topic: Yoga Past and Present), 307D, Religious Studies 312E.

R S 313C. Introduction to the Old Testament.
Same as Core Texts and Ideas 305G, Jewish Studies 311 (Topic 4), and Middle Eastern Studies 310C. Introduction to the many interpretations of the Hebrew Bible (the Old Testament) and its meaning in the context of its historical and cultural setting in the ancient Near East. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 305G, Jewish Studies 311 (Topic 4), Middle Eastern Studies 310 (Topic 3), 310C, Religious Studies 313C.

R S 313D. Introduction to Jewish Studies.
Same as Anthropology 311D, Jewish Studies 301, and Middle Eastern Studies 310 (Topic 8). Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 310L (Topic: Jewish Studies: An Introduction), 311D, Jewish Studies 301, 311 (Topic: Jewish Studies: An Introduction), Middle Eastern Studies 310 (Topic: Jewish
R S 313E. Introduction to Jewish Latin America.
Same as Anthropology 311E, Jewish Studies 305D, and Latin American Studies 315 (Topic 3). Historical and cultural analysis of how Jews constructed lives and communities in predominantly Hispanic, Catholic countries of Latin America. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 310L (Topic: Introduction to Jewish Latin America), 311E, Jewish Studies 311 (Topic: Introduction to Jewish Latin America), 305D, Latin American Studies 310 (Topic: Intro to Jewish Latin America), 315 (Topic: Intro to Jewish Latin America), 315 (Topic 3), Religious Studies 313 (Topic: Introduction to Jewish Latin America), 313E.

R S 313M. Jewish Civilization: Beginnings to 1492.
Same as History 306N (Topic 10), Jewish Studies 304M, and Middle Eastern Studies 310 (Topic 6). Introduction to the history, culture, and religion of the Jewish people from around 1000 BC to the end of the medieval period. Subjects may include ancient Israel, late Second Temple sectarianism, the rise of Christianity, rabbinic Judaism, medieval Jewish philosophy, Jewish mysticism, and Hebrew poetry. Three lecture hours a week for one semester. Only one of the following may be counted: History 306N (Topic: Jewish Civilization I), 306N (Topic 10), Jewish Studies 304M, 311 (Topic: Jewish Civilization I), Middle Eastern Studies 310 (Topic: Jewish Civilization: Beginnings to 1492), 310 (Topic 6), Religious Studies 313 (Topic: Jewish Civilization I), 313M.

R S 313N. Jewish Civilization: 1492 to the Present.
Same as European Studies 306 (Topic 4), History 306N (Topic 11), and Jewish Studies 304N. Subjects may include trends toward secularization, the emancipation of European Jewry, the emergence of American Jewry, the Holocaust, the establishment of the State of Israel, and the Arab-Israeli conflict. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 306 (Topic: Jewish Civilization: 1492 to the Present), 306 (Topic 4), History 306N (Topic 11), Jewish Studies 304N, 311 (Topic: Jewish Civilization: 1492 to the Present), Religious Studies 313 (Topic: Jewish Civilization: 1492 to the Present), 313N.

R S 314K. Introduction to the Middle East: Religious, Cultural, and Historical Foundations.
Same as History 306K and Middle Eastern Studies 301K. A survey of the history and civilization of the Middle East from the sixth to the fourteenth century. Three lecture hours a week for one semester. Only one of the following may be counted: History 306K, Middle Eastern Studies 301K, Religious Studies 314 (Topic: Intro M East: Rel/Cul/Hist Fnd), 314K.

R S 315C. The Bible and Its Interpreters.
Same as Core Texts and Ideas 304 (Topic 1). Seeks to develop a wide-ranging familiarity with the Jewish and Christian Bibles and with the dominant modes of ancient, medieval, and early modern biblical interpretation. Readings include an extensive range of primary sources, including both the Scriptures themselves and some of their most influential exegetes. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 304 (Topic 1), Religious Studies 315 (Topic 1), 315C.

R S 315K. Russian Icons and Propaganda.
Same as Russian, East European, and Eurasian Studies 302D. Three lecture hours a week for one semester. Only one of the following may be counted: Religious Studies 315 (Topic: Russian Icons and Propaganda), 315K, Russian, East European, and Eurasian Studies 302 (Topic: Russian Icons and Propaganda), 302D.

R S 315M. Luther’s World.
Same as European Studies 306 (Topic 6), German, Scandinavian, and Dutch Studies 311G, and History 304Q. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 306 (Topic: Luther’s World), 306 (Topic 6), German, Scandinavian, and Dutch Studies 310 (Topic: Luther’s World), 311G, History 304Q, 306N (Topic: Luther’s World), Religious Studies 315 (Topic: Luther’s World), 315M.

Same as Classical Civilization 304E and Core Texts and Ideas 305N. Examines representative examples of the texts found in the Christian New Testament and selected noncanonical writings. Focuses on historical setting and systematic methods of interpretation. Three lecture hours a week for one semester. Only one of the following may be counted: Classical Civilization 304C (Topic: Introduction to the New Testament), 304E, Core Texts and Ideas 305N, 310 (Topic: Introduction to the New Testament), Religious Studies 315N.

R S 316C. History of Religion in the United States.
Same as American Studies 315 (Topic 5) and History 317L (Topic 16). Explores instances of religious dominance and religious diversity in United States history. Moving from the pre-colonial period to the present, it examines the changing circumstances of several religious communities, including American Indians and Puritans, Protestant evangelicals, Mormons, Roman Catholics, Jews, Muslims, and Hindus. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 315 (Topic 5), 315 (Topic 6), Religious Studies 316C, 316U (Topic 1).

Same as American Studies 315 (Topic 6), German, Scandinavian, and Dutch Studies 310 (Topic 1), and Jewish Studies 311 (Topic 9). Focuses on over a century of Yiddish-based contributions to American literature, music, and film, including works by Isaac Bashevis Singer, Michael Chabon, Woody Allen, and the Marx Brothers. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 315 (Topic 4), 315 (Topic 6), German, Scandinavian, and Dutch Studies 310 (Topic 1); Jewish Studies 311 (Topic 6), 311 (Topic 9); Religious Studies 313 (Topic 1), 316K (Topic 2), 316E.

R S 316L. Introduction to Religions of Latin America.
Same as African and African Diaspora Studies 316K and Latin American Studies 316L. Examine a survey of religious practice across Latin America and the Caribbean. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 316K, 317E (Topic: Intro Relig/Lat Amer/Carib), Latin American Studies 310 (Topic: Intro Relig/Lat Amer/Carib), 316L, Religious Studies 316K (Topic: Intro Relig/Lat Amer/Carib), 316L.

R S 316M. Early Mesoamerican Religions.
Same as Anthropology 310L, History 310E, and Latin American Studies 310D. Introduction to the study of indigenous religions in Mesoamerica, a geographic and cultural area spanning north-central Mexico through western Honduras, from approximately 250 BC - AD 1700. Examine the role of religion and ritual in daily life, as well as the lines of evidence available today for understanding them. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 310L, History 310E, Latin American Studies 310D, Religious Studies 311 (Topic: Early Mesoamerican Religion), 316M.

Same as History 306N (Topic 12) and Middle Eastern Studies 310N. Introduction to the major themes of North African history from the sixteenth century to the present. Three lecture hours a week for one

R S 318. The Rise of Christianity.
Same as Classical Civilization 318 and Jewish Studies 306E. Introduction to the origins and development of Christianity. Three lecture hours a week for one semester. Only one of the following may be counted: Classical Civilization 318, Jewish Studies 306E, 311 (Topic: The Rise of Christianity), 311 (Topic 3), Religious Studies 318.

R S 319. Introduction to Islam.
Same as Asian Studies 301M (Topic 15), History 306N (Topic 7), and Middle Eastern Studies 310D. The beliefs, theology, history, and main social and legal institutions of Islam, including the concept of God and society, the role of women, and Islamic government and movements. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Asian Studies 301M (Topic 15), History 306N (Topic 7), Islamic Studies 310, Middle Eastern Studies 310D, Religious Studies 319.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Religious Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

Introduction to research methods in the study of religion, including, historical, social scientific, cultural studies, and digital humanities approaches. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

Same as Anthropology 322N, Asian Studies 340D, and History 364C. History of major doctrines, practices, and institutions that shaped the development of Hinduism; how religions adapt to social and cultural change and often provide the catalyst for change. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322N, 324L (Topic 23), Asian Studies 340 (Topic 4), 340D, History 364C, 364G (Topic 1), Religious Studies 321. Prerequisite: Upper-division standing.

R S 322. History of Indian Buddhism.
Same as Asian Studies 340E. The institutional, social, economic, and doctrinal history of Buddhism in India. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 340 (Topic 5), 340E, Religious Studies 322. Prerequisite: Upper-division standing.

R S 325. Prophet of Islam: His Life and Times.
Same as History 364D and Middle Eastern Studies 343 (Topic 8). A detailed study of the prophet Muhammad’s life and message, and of the means by which his life was recorded and popularized. Three lecture hours a week for one semester. Only one of the following may be counted: History 364G (Topic 2), 364D, Islamic Studies 340 (Topic 1), Middle Eastern Studies 343 (Topic 8), Religious Studies 325. Prerequisite: Upper-division standing.

R S 325C. Russia’s Soul: Spiritual Traditions.
Same as Comparative Literature 323 (Topic 79), History 361O, and Russian, East European, and Eurasian Studies 325 (Topic 39). Explore complex history of Orthodox Christianity, Judaism, Islam, and Buddhism in Russia. Examine important worship sites, including monasteries and pilgrimage destinations. Have discussions with Russian scholars of religion and practitioners of different faiths. Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 323 (Topic 79), History 361O, Religious Studies 325C, Russian, East European, and Eurasian Studies 325 (Topic 33). Prerequisite: Upper-division standing.

R S 325G. The Qur’an.
Same as Comparative Literature 323 (Topic 37), Core Texts and Ideas 375 (Topic 1), Middle Eastern Languages and Cultures 321 (Topic 9), Middle Eastern Studies 342 (Topic 16), and Women’s and Gender Studies 340 (Topic 54). The history, language, style, and themes of the Qur’an. Only one of the following may be counted: Comparative Literature 323 (Topic 37), Core Texts and Ideas 375 (Topic 1), Islamic Studies 340 (Topic 2), Middle Eastern Languages and Cultures 321 (Topic 9), Middle Eastern Studies 342 (Topic 16), Religious Studies 325G, Women’s and Gender Studies 340 (Topic 54). Prerequisite: Upper-division standing.

R S 326. History of Religion in America since 1800.
Same as History 351P. Introduction to the history of religion in the United States of America from the nineteenth century to the present. Focuses on how diverse peoples imagined and transformed the landscape, interacted with one another at different sites, and moved within and across national borders. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Religious Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated program. May be repeated for credit when the topics vary.

R S 335. Jesus in History and Tradition.
Same as Classical Civilization 348 (Topic 10: Jesus in History and Tradition). Critical issues, scholarly debates, and historical methods in studying the development of the Christian tradition regarding the figure of Jesus. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

R S 335C. Political Ideologies and Manifestos.
Same as European Studies 348 (Topic 16), Government 324C, and Russian, East European, and Eurasian Studies 335 (Topic 33). Survey major political ideologies like socialism, capitalism, and fascism; as well as the more recent so-called “Fourth Political Theory” of Russian ideologue Aleksandr Dugin, (variable) popular ideologies, and internet manifests. Explore each ideology through original texts and utopian/dystopian representations in popular culture (e.g., literature, film, music, graphic art, architecture, design). Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 348 (Topic 16), Government 324C, Religious Studies 335C, Russian, East European, and Eurasian Studies 335 (Topic: PolIt Ideologies/Manifestos), 335 (Topic 33). Prerequisite: Upper-division standing.
R S 335D. Queering Black Religions.
Same as African and African Diaspora Studies 3520, American Studies 335, and Women's and Gender Studies 335 (Topic 25). Explore the ways Africana religion practitioners disrupt and reframe dominant western discourses of gender and sexuality. Examine concepts of temporality, spirit manifestation, subjectivity, corporeality, and Africana religious epistemologies. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 3520, American Studies 335, Religious Studies 335D, Women's and Gender Studies 335 (Topic 25). Prerequisite: Upper-division standing.

R S 337. Religion and Society.
Same as Sociology 343. The growth and decline of religious groups and traditions; "cults" and new religions; comparative sociology of religion; the United States religious landscape; religion and individual health and well-being; spirituality and other aspects of social life. Three lecture hours a week for one semester. Religious Studies 337 and Sociology 343 may not both be counted. Prerequisite: Upper-division standing.

R S 340C. Shrines and Sanctuaries.
Same as Classical Civilization 340 (Topic 13). Survey Greek and Roman religious architecture and sacred space from the Bronze Age to the Hellenistic and Roman Empires. Three lecture hours a week for one semester. Only one of the following may be counted: Classical Civilization 340 (Topic: Shrines and Sanctuaries), 340 (Topic 13), Religious Studies 340C. Prerequisite: Upper-division standing.

R S 341C. Gandhi and Gandhism.
Same as Asian Studies 361 (Topic 6) and History 350L (Topic 5). Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic 6), History 350L (Topic 5), Religious Studies 341 (Topic 5), 341C. Prerequisite: Upper-division standing.

R S 341E. The Taj Mahal and the Diversity of Indian Art.
Same as Art History 348M. Examination of the period when Islamic dynasties controlled much of the subcontinent and how a unique mix of forms and cultural practices shaped the development of monuments such as the Taj Mahal. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 348M, 372 (Topic: The Taj Mahal and the Diversity of Indian Art), Asian Studies 372 (Topic: The Taj Mahal and the Diversity of Indian Art), Religious Studies 341 (Topic 9), 341E. Prerequisite: Upper-division standing.

Same as Asian Studies 340J. Survey of the history, doctrines, institutions, and practices of Jainism from its origins to the present. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 340 (Topic: Jainism: Relig of Non-Violence), 340J, Religious Studies 341 (Topic: Jainism: Relig of Non-Violence), 341F. Prerequisite: Upper-division standing.

R S 341K. Karma: Ethical Theories of India.
Three lecture hours a week for one semester. Religious Studies 341 (Topic 15) and 341K may not both be counted. Prerequisite: Upper-division standing.

R S 341M. Gender, Sexuality, and the Family in Indian Religions and Cultures.
Same as Anthropology 3220, Asian Studies 372K, and Women's and Gender Studies 340 (Topic 25). A comprehensive historical overview of gender issues as they are represented in the textual traditions of South Asia. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 3220, 324L (Topic 40), Asian Studies 372 (Topic 25), 372K, Religious Studies 341 (Topic 3), 341M, Women's and Gender Studies 340 (Topic 25). Prerequisite: Upper-division standing.

R S 341P. Indian Poetry and Religions.
Same as Asian Studies 379 (Topic 4). Explores the intersections of religion and poetry in the history of Indian literature as expressed in multiple settings and variations including hymns, chants, bhajans, poetic narratives, and new poetic conventions that deal with caste and gender identities. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 379 (Topic 4), Religious Studies 341 (Topic 11), 341P. Prerequisite: For Asian studies majors, twelve semester hours of upper-division coursework in Asian studies; for others, upper-division standing.

R S 341T. Buddhist Art.
Same as Art History 348N and Asian Studies 374C. Explores the development of Buddhist art in South Asia, the land of its origin as well as its spread elsewhere. Focus on the question of "what is" Buddhist art. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 348N, 372 (Topic: Buddhist Art), Asian Studies 372 (Topic 24), 374C, Religious Studies 341 (Topic 8), 341T.

R S 341U. Devotional Literature of India.
Same as Asian Studies 340U. Discuss the songs of major saints. Examine how holy men and women expressed their religiosity through the medium of songs and poetry over the centuries and consider the role these songs had in shaping the religious communities of India. All works will be studied in translation. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 340 (Topic: Devotional Lit Of India), 340U, Religious Studies 341 (Topic: Devotional Lit Of India), 341U. Prerequisite: Upper-division standing.

R S 342C. Major Islamic Texts.
Same as History 364I and Middle Eastern Studies 342 (Topic 72). Introduction to key religious, philosophical, and political ideas from part of the Islamicate world through sustained readings of core texts. Three lecture hours a week for one semester. Only one of the following may be counted: History 364I, Middle Eastern Studies 342 (Topic: Major Islamic Texts), 342 (Topic 72), Religious Studies 342C. Prerequisite: Upper-division standing.

R S 343D. Muslim Travelers and Traders.
Same as Asian Studies 343D, History 343D, and Middle Eastern Studies 343 (Topic 23). Introduction to modern Middle Eastern and Islamic history in the broader context of globalization, with a primary focus on the nineteenth century to the present. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 343D, History 343D, 366N (Topic: Muslim Travelers and Traders), Middle Eastern Studies 343 (Topic: Muslim Travelers and Traders), 343 (Topic 23), Religious Studies 343D. Prerequisite: Upper-division standing.

R S 344. The Age of Reformation.
Same as Core Texts and Ideas 355R and History 343. Examines late medieval religion, the rise of Protestant movements, and the Catholic response in their cultural, political, and social contexts. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 355R, 375 (Topic: The Age of Reformation), History 343, Religious Studies 344. Prerequisite: Upper-division standing.

R S 345. Islamic Spain and North Africa to 1492.
Same as History 375D and Middle Eastern Studies 343 (Topic 4). An introduction to the impact of Islam on Spain and North Africa, with emphasis on social, economic, and cultural development. Only one of the following may be counted: Ancient History and Classical Civilization 330
Focuses on artifacts or "visual culture," and considers how religion mediates artifacts and how artifacts mediate religion. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: American Studies 325 (Topic: Religion and Visual Culture in the United States), Religious Studies 346 (Topic: Religion and Visual Culture in the United States), 346C.

R S 346D. Native American Religions.
Same as American Studies 327C. Examination of religious developments in Native American communities from the precolonial period through the present day. Focus on the changing forms of ritual practice and the relationship between religion and community life. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 327 (Topic: Native American Religion), 327C, Religious Studies 346 (Topic: Native American Religion), 346D. Prerequisite: Upper-division standing.

R S 346E. Religion and Film.
Same as American Studies 321V. Survey of representations of religious beliefs, practices, persons, and institutions in popular film. Examination of film as a vehicle to reflect how a shared religious imagination shaped the way Americans understand themselves. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: Religion and Film), 321V, Religious Studies 346 (Topic: Religion and Film), 346E. Prerequisite: Upper-division standing.

R S 346F. United States Catholic History.
Same as American Studies 327D, History 365G (Topic 1), and Mexican American Studies 374 (Topic 37). Examine how Catholicism and national identity work for Catholics in the United States, with an emphasis on Catholic women and Latino/as. Only one of the following may be counted: American Studies 327 (Topic 4), 327D, History 365G (Topic 1), Mexican American Studies 374 (Topic 37), Religious Studies 346 (Topic 5), 346F. Prerequisite: Upper-division standing.

R S 346G. Religion in the American West.
Same as American Studies 327G. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 327 (Topic: Religion in the American West), 327 (Topic 8), 327G, Religious Studies 346 (Topic: Religion in the American West), 346G. Prerequisite: Upper-division standing.

R S 346I. Unbelief in America.
Same as History 365G (Topic 16). Examine the history of unbelief and the role that it has played in US history. Three lecture hours a week for one semester. Only one of the following may be counted: History 350L (Topic: Unbelief in America), 365G (Topic: Unbelief in America), 365G (Topic 16), Religious Studies 346 (Topic: Unbelief in America), 346I. Prerequisite: Upper-division standing.

R S 346J. Evangelical Christianity.
Same as American Studies 327E. An introduction to the intellectual and social sources of evangelical Protestant traditions in the United States, their varieties of belief and practice, and their role in the wider Christian community and American society. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 327 (Topic: Evangelical Christianity), 327 (Topic 5), 327E, Religious Studies 346 (Topic: Evangelical Christianity), 346 (Topic 6), 346J. Prerequisite: Upper-division standing.

R S 346K. The Black Church in African American Politics.
Same as African and African Diaspora Studies 350S and Government 371F. Explore the political role of the Black church in the African American experience. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350S, 374D (Topic 14), Government 370K (Topic 4), 371F, Religious Studies 346 (Topic 7), 346K. Prerequisite: Six semester hours of lower-division coursework in Government.

R S 346L. Representation of Jews in the American Public Sphere.
Same as Anthropology 325D and Jewish Studies 365 (Topic 11). Examines how Jews have been represented and constituted in American public culture as a race, religion, and/or nation through distinct institutions and display practices. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 325D, 325L (Topic 13), Jewish Studies 365 (Topic 11), Religious Studies 346 (Topic 8), 346L. Prerequisite: Upper-division standing.

R S 346M. Music and Religious Identities in the US.

R S 346N. American Jewish Material Culture.
Same as Anthropology 3250 and Jewish Studies 365 (Topic 12). Examines the interplay between material culture and Jewish identity and thought in contemporary America. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 325L (Topic 17), 325Q, Jewish Studies 365 (Topic 12), Religious Studies 346 (Topic 9), 346N. Prerequisite: Upper-division standing.

R S 346O. Religion and Food.
Same as American Studies 346O. Examine the material relationships between religion and food, by comparing the ritual functions of food in religious traditions and the collective constructions of religious identities in traditional foodways. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: Religion and Food), 3460, Religious Studies 3460, 373 (Topic: Religion and Food). Prerequisite: Upper-division standing.

R S 346P. Religion in American Political Thought.
Same as Government 335C. Explore religion and politics in the United States through reading of mostly primary sources addressing religious arguments taking positions on historical and contemporary issues. Three lecture hours a week for one semester. Only one of the following may be counted: Government 335C, 335M (Topic 5), Religious Studies 346 (Topic 2), 346P. Prerequisite: Six semester hours of lower-division coursework in Government.

Same as American Studies 327I. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 327 (Topic: Religion/Social Justice US), 327I, Religious Studies 346 (Topic: Religion/Social Justice US), 346R. Prerequisite: Upper-division standing.
R S 346S. Debating the Bible in the Twenty-First Century.
Same as American Studies 327J and Core Texts and Ideas 355T. Examine the ways in which individuals, primarily in the United States, have regarded the Bible as relevant or irrelevant to contemporary life. Discuss contemporary controversial issues in which the Bible has played a role and how these relate to earlier controversies, such as the position of the Bible on slavery. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 327 (Topic: Debating the Bible in 21st Century), 327J, Core Texts and Ideas 355T, 375 (Topic: Debating the Bible in 21st Century), Religious Studies 346 (Topic: Debating the Bible in 21st Century), 346 (Topic 11), 346S. Prerequisite: Upper-division standing; introductory courses in the Hebrew Bible and/or New Testament recommended.

Same as American Studies 370 (Topic 61) and History 350R (Topic 22). A brief introduction to Islam. Defines the role of Islam and views of Muslims in the early history of the United States, and introduces students to major issues concerning contemporary American Muslims. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 370 (Topic 61), History 350R (Topic 22), Islamic Studies 372 (Topic 21), Religious Studies 346 (Topic 10), 346U. Prerequisite: Upper-division standing and six semester hours of coursework in history.

R S 346V. African American Religions.
Same as African and African Diaspora Studies 352G. Survey the history and variety of religion as practiced by Americans of African descent. Examine the social construction of African religion, black religion, and the black church, within the cultural context of the United States. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 352G, 374D (Topic: African American Religions), Religious Studies 346 (Topic: African American Religions), 346V. Prerequisite: Upper-division standing.

R S 352D. Japanese Religion and Western Imagination.
Same as Anthropology 324D and Asian Studies 340C. Examines Japanese religious traditions, with a focus on Zen, through the perspective of people living in non-Japanese societies since the end of World War II. Explores different ways in which non-Japanese have imagined Japanese religious and ethical ideas and both explained Japanese behavior and adopted ideas about Japan into their writings about philosophy and life. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 340 (Topic: Japanese Religion and Western Imagination), 340C, Anthropology 324D, 324L (Topic: Japanese Religion and Western Imagination), Religious Studies 352 (Topic: Japanese Religion and Western Imagination), 352D. Prerequisite: Upper-division standing.

R S 352E. Confucianism.
Same as Asian Studies 372L. Explore the philosophical and historical context of Confucianism, from its origins in ancient China through the early empire and beyond. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 372 (Topic 32), 372L, Core Text and Ideas 375 (Topic: World of Confucians), Religious Studies 352 (Topic 10), 352E. Prerequisite: Upper-division standing.

Same as Anthropology 328F and Asian Studies 361 (Topic 38). Explores the structures of family, kinship, and religion in Japan since 1868 and their roles in the creation and expression of national and individual identities. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 328F, Asian Studies 361 (Topic 38), Religious Studies 352 (Topic 9), 352F. Prerequisite: Upper-division standing.

R S 352G. Shamanism and the Primitive.

Same as Asian Studies 340G. Examine major religious traditions of Korea; focus on the recent history and contemporary practice, and the relation between religion and politics during Korea's colonial (1910-1945) and postcolonial eras. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Ritual and Religion in Korea), Asian Studies 340 (Topic 10), 340G, Religious Studies 352 (Topic 4), 352R. Prerequisite: Upper-division standing.

Same as Anthropology 324L (Topic 69) and Asian Studies 372N. Exploration of anthropological literature describing Japanese conceptions of self and body, and analysis of the intersection of these conceptions of self with Japanese ideas about religion, morality, aging, and medicine. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Japanese Concepts of Body and Self), 324L (Topic 69), Asian Studies 372 (Topic 41), 372N, Religious Studies 352 (Topic 8), 352S. Prerequisite: Upper-division standing.

R S 353C. Angels, Demons, and Magic in Early Christianity.
Same as Middle Eastern Studies 342 (Topic 53). Examine angelology, demonology, and magic influence on the lives of early Christians and Christianity. Three lecture hours a week for one semester. Only one of the following may be counted: Middle Eastern Studies 342 (Topic: Angel/Demon/Magic Early Cen), 342 (Topic 53), Religious Studies 353 (Topic: Angel/Demon/Magic Early Cen), 353C. Prerequisite: Upper-division standing.

R S 353D. The Dead Sea Scrolls.
Same as Ancient History and Classical Civilization 330 (Topic 1), History 364E, Jewish Studies 364 (Topic 4), Middle Eastern Languages and Cultures 321 (Topic 17), and Middle Eastern Studies 342 (Topic 23). Three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 330 (Topic 1), History 364G (Topic 3), 364E, Jewish Studies 364 (Topic 4), Middle Eastern Languages and Cultures 321 (Topic 17), Middle Eastern Studies 342 (Topic 23), Religious Studies 353D. Prerequisite: Upper-division standing.

Same as Classical Civilization 348F. Study of early Christian writings that were not included in the Christian Bible. Examines issues such as the effect of narrative, religion and violence, gendered expectations for women and men, the uses of fantasy literature, and religious authority. Emphasis on systematic methods for disciplined interpretation. Three lecture hours a week for one semester. Only one of the following may be counted: Classical Civilization 348 (Topic: Beyond the New Testament), 348F, Religious Studies 353E. Prerequisite: Upper-division standing.
R S 353F. Interpretation of Jesus' Death and Resurrection.
Same as Classical Civilization 348D. Examine the narratives of Jesus' death and resurrection and their subsequent interpretation over the last two thousand years. Analyze historical Christian and Islamic texts, contemporary debates and cultural context. Three lecture hours a week for one semester. Only one of the following may be counted: Classical Civilization 348 (Topic: Interpretation of Jesus' Death and Resurrection), 348D, Religious Studies 353 (Topic: Interpretation of Jesus' Death and Resurrection), 353F. Prerequisite: Upper-division standing.

R S 353G. Abraham and Abrahamic Religions.
Same as Core Texts and Ideas 354, Jewish Studies 363D, and Middle Eastern Studies 342 (Topic 52). Examines the figure of Abraham as portrayed in the Bible and the reception of that portrayal in Judaism, Christianity, and Islam. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 354, 375 (Topic: Abraham & Abrahamic Religions), Jewish Studies 363 (Topic: Abraham & Abrahamic Religions), 363D, Middle Eastern Studies 342 (Topic: Abraham & Abrahamic Religions), 342 (Topic: 52), Religious Studies 353 (Topic: Abraham & Abrahamic Religions), 353G. Prerequisite: Upper-division standing.

R S 353J. Revelation and Apocalyptic Literature.
Same as Classical Civilization 348I. Examine the Book of Revelation in the context of early Christian and Jewish literature. Study other apocalyptic texts, methods of textual analysis, and the ongoing effects of Revelation in modern American culture. Three lecture hours a week for one semester. Only one of the following may be counted: Classical Civilization 348 (Topic: Revelation and Apocalyptic Lit), 348I, Religious Studies 353 (Topic 1), 353J. Prerequisite: Upper-division standing.

R S 353K. Law and Justice in the Bible.
Same as Core Texts and Ideas 354L, Jewish Studies 363 (Topic 30), and Middle Eastern Studies 342 (Topic 66). Examine the legal traditions of the Torah (Pentateuch) and what they reveal about the practice of law and justice in ancient Israel and the wider biblical world. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 354L, Jewish Studies 363 (Topic 30), Middle Eastern Studies 342 (Topic: Law/Justice in the Bible), 342 (Topic 66), Religious Studies 353 (Topic: Law/Justice in the Bible), 353K. Prerequisite: Upper-division standing.

R S 353L. The Sacred and the Secular in Contemporary Jewish Literature.
Same as Jewish Studies 363 (Topic 10), Middle Eastern Languages and Cultures 321 (Topic 8), and Middle Eastern Studies 342 (Topic 8). Three lecture hours a week for one semester. Only one of the following may be counted: Jewish Studies 363 (Topic 10), Middle Eastern Languages and Cultures 321 (Topic 8), Middle Eastern Studies 342 (Topic 8), Religious Studies 353 (Topic 3), 353L. Prerequisite: Upper-division standing.

R S 353M. Debating Genesis.
Same as Jewish Studies 363 (Topic 26), Middle Eastern Languages and Cultures 321D, and Middle Eastern Studies 342 (Topic 65). Three lecture hours a week for one semester. Only one of the following may be counted: Jewish Studies 363 (Topic: Debating Genesis), 363 (Topic 26), Middle Eastern Languages and Cultures 321 (Topic: Debating Genesis), 321D, Middle Eastern Studies 342 (Topic: Debating Genesis), 342 (Topic 65), Religious Studies 353 (Topic: Debating Genesis), 353M. Prerequisite: Upper-division standing.

R S 353N. Biblical Prophecy.
Same as Core Texts and Ideas 354P Jewish Studies 363 (Topic 28), and Middle Eastern Studies 342 (Topic 37). An introduction to the diversity of prophetic literature in the Old Testament, its historical development, social context, and Near Eastern parallels. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 354P, 375 (Topic: Biblical Prophecy), Jewish Studies 363 (Topic: Biblical Prophecy), 363 (Topic 28), Middle Eastern Languages and Cultures 321 (Topic 24), Middle Eastern Studies 342 (Topic 37), Religious Studies 383 (Topic: Biblical Prophecy), 353N, 361 (Topic: Biblical Prophecy). Prerequisite: Upper-division standing.

R S 353P. Paul and His Social World.
Same as Classical Civilization 348J. Examine the life and letters of the first-century Jewish missionary Paul by interpreting his writings within the context of diaspora Judaism and the broader Greco-Roman world. Explore his legacy within the context of early church history. Three lecture hours a week for one semester. Only one of the following may be counted: Classical Civilization 348 (Topic: Paul and His Social World), 348J, Religious Studies 353 (Topic 2), 353P. Prerequisite: Upper-division standing.

R S 354D. The Bible and History.
Same as Jewish Studies 364 (Topic 3). The critical uses of biblical and extrabiblical data in the reconstruction of the history of the biblical period. Three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 330 (Topic: The Bible and History), Jewish Studies 364 (Topic 3), Religious Studies 354D. Prerequisite: Upper-division standing.

R S 354J. History of Jewish Thought.
Same as History 325S and Jewish Studies 364 (Topic 18). Examine major thinkers and movements in both Jewish philosophy and Jewish mysticism since the Middle Ages, with a focus on the importance of modern Jewish thought in the twentieth and twenty-first centuries. Three lecture hours a week for one semester. Only one of the following may be counted: History 325S, Jewish Studies 364 (Topic 18), Religious Studies 354J. Prerequisite: Upper-division standing.

R S 355. The Bible as Literature.
Same as English 358J. In-depth literary study of the Bible, with emphasis on the formal features of narrative, hymn, prophecy, apocalypse, gospel, and epistle. Three lecture hours a week for one semester. English 358J and Religious Studies 355 may not both be counted. Prerequisite: One of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P, or Tutorial Course 303D.

R S 355K. The Bible in British and American Literature.
Same as English 358K. The reading of biblical masterpieces as literature; consideration of different versions of the Bible and their influence on British and American literature. Three lecture hours a week for one semester. English 358K and Religious Studies 355K may not both be counted. Prerequisite: One of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P, or Tutorial Course 303D.
R S 356C. Italian Renaissance, 1350-1550.
Same as European Studies 346 (Topic 27) and History 343G. Survey of political, socioeconomic, religious, and intellectual trends during the Italian Renaissance. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 346 (Topic: Italian Renaissance, 1350-1550), 346 (Topic 27), History 343G, Religious Studies 356C, 357 (Topic: Italian Renaissance, 1350-1550). Prerequisite: Upper-division standing.

Same as Core Texts and Ideas 342. Explore the history and breadth of Satan’s role as a character (or background presence) in literature while developing close-reading techniques for literary analysis that can be applied across diverse eras, forms, and genres. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 342, 345 (Topic: Satan and the Idea of Evil), 345 (Topic 2), Religious Studies 356D, 357 (Topic: Satan and the Idea of Evil). Prerequisite: Upper-division standing.

R S 356G. The Galileo Affair.
Same as History 350L (Topic 32). Examine the life and work of Galileo Galilei (1564-1642), particularly his conflict with Church authorities and his condemnation in 1633. Three lecture hours a week for one semester. Only one of the following may be counted: History 350L (Topic 32), Religious Studies 356G, 357 (Topic: The Galileo Affair). Prerequisite: Upper-division standing.

R S 356M. Christian Quest for Meaning.
Study classic Christian texts throughout history. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 375 (Topic: Christian Quest for Meaning), Religious Studies 356M, 357 (Topic: Christian Quest for Meaning), 361 (Topic: Christian Quest for Meaning). Prerequisite: Upper-division standing.

R S 356P. People of the Midnight Sun - Sami Culture and Civilization.
Same as German, Scandinavian, and Dutch Studies 362I. Examine the indigenous people of Scandinavia, the Sami, including their history, culture, and self-expression. Explore issues of indigeneity, decolonization, and religious repression. Three lecture hours a week for one semester. Only one of the following may be counted: German, Scandinavian, and Dutch Studies 360 (Topic: Midnight Sun People: Sami), 362I, Religious Studies 356P, 361 (Topic: Midnight Sun People: Sami). Prerequisite: Upper-division standing.

R S 356R. Ritual and Belief in Ancient Greece.
Same as Classical Civilization 348M. Investigate the practices, premises, and cultural contexts of ancient Greek religion through direct study of ancient sources informed by modern critical approaches. Three lecture hours a week for one semester. Only one of the following may be counted: Classical Civilization 348 (Topic: Ancient Greek Religion), 348M, Religious Studies 356R, 365 (Topic: Ancient Greek Religion). Prerequisite: Upper-division standing.

R S 357C. Machiavelli: Politics and Culture.
Same as Ancient History and Classical Civilization 330 (Topic 6), Core Texts and Ideas 330M, and History 344R. Through Niccolo Machiavelli’s chief writings, consider the local, regional, Mediterranean, European, and global aspects of his work. Three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 330 (Topic: Machiavelli), 330 (Topic 6), Core Texts and Ideas 330M, 375 (Topic: Machiavelli), European Studies 346 (Topic: Machiavelli), History 344R, 350L (Topic: Machiavelli), Liberal Arts Honors 350 (Topic: Machiavelli), 351P, Religious Studies 357 (Topic: Machiavelli), 357C. Prerequisite: Upper-division standing.

R S 357D. Heresy and the Inquisition.
Same as History 350L (Topic 33). Three lecture hours a week for one semester. Only one of the following may be counted: History 350L (Topic 33), Religious Studies 357 (Topic 1), 357D. Prerequisite: Upper-division standing.

R S 357E. Jews of Eastern Europe.
Same as History 362R, Jewish Studies 364 (Topic 7), and Russian, East European, and Eurasian Studies 335 (Topic 23). Explores the history and culture of Jews in Eastern Europe. Three lecture hours a week for one semester. Only one of the following may be counted: History 362G (Topic 8), 362R, Jewish Studies 364 (Topic 7), Russian, East European, and Eurasian Studies 335 (Topic 23), Religious Studies 357 (Topic 13), 357E. Prerequisite: Upper-division standing.

R S 357F. Heretics and Freedom Fighters, 1350-1650.
Same as European Studies 346 (Topic 8), German, Scandinavian, and Dutch Studies 360 (Topic 3), and History 362T. Explores the theologies, politics, and personal identities that emerged and passed away in this era. Three lecture hours a week for one semester. Only one of the following may be counted: Czech 324 (Topic 4), European Studies 346 (Topic 8), German, Scandinavian, and Dutch Studies 360 (Topic 3), History 362G (Topic 12), 362T, Religious Studies 357 (Topic 12), 357F, Russian, East European, and Eurasian Studies 325 (Topic 28). Prerequisite: Upper-division standing.

R S 357G. Geography of Religion in Eastern Europe and Russia.
Same as Geography 356T (Topic 14) and Russian, East European, and Eurasian Studies 345 (Topic 9). A comprehensive overview of major religious culture regions in the former Eastern bloc countries. Three lecture hours a week for one semester. Only one of the following may be counted: Geography 356T (Topic: Geography of Religion in Eastern Europe and Russia), 356T (Topic 14), Religious Studies 357 (Topic: Geography of Religion in Eastern Europe and Russia), 357 (Topic 5), 357G, Russian, East European, and Eurasian Studies 345 (Topic: Geography of Religion in Eastern Europe and Russia), 345 (Topic 9). Prerequisite: Upper-division standing.

R S 357I. Byzantine Art.
Same as Art History 329J. Examination of the medieval art and architecture of the eastern Roman empire, including related traditions (Coptic, Armenian, Georgian, Crusader, Norman). Three lecture hours a week for one semester. Only one of the following may be counted: Art History 329J, Religious Studies 357 (Topic 2), 357I.

R S 357J. Northern Renaissance Art, 1350-1500.
Same as Art History 332K and European Studies 347 (Topic 27). Northern European art from the International Style to van Eyck and Hieronymus Bosch. Three lecture hours a week for one semester. Only one of the
following may be counted: Art History 332K, European Studies 347 (Topic: Northern Renaissance Art, 1350-1500), 347 (Topic 27), Religious Studies 357 (Topic: Northern Renaissance Art, 1350-1500), 357 (Topic 7), 357J.

R S 357K. Northern Renaissance Art, 1500-1600.
Same as Art History 332L and European Studies 347 (Topic 32). Art and cultural development in the sixteenth century; artists include Durer, Gruenewald, Holbein, and Brueghel. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 332L, European Studies 347 (Topic: Northern Renaissance Art, 1500-1600), 347 (Topic 32), Religious Studies 357 (Topic: Northern Renaissance Art, 1500-1600), 357 (Topic 6), 357K.

R S 357L. The Spanish Inquisition.
Same as European Studies 346 (Topic 11), History 350L (Topic 77), and Jewish Studies 364 (Topic 5). Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 346 (Topic 11), History 350L (Topic 77), Jewish Studies 364 (Topic 5), Religious Studies 357 (Topic 10), 357L. Prerequisite: Upper-division standing.

R S 357M. Spinoza and Modernity.
Same as Core Texts and Ideas 321F, European Studies 346 (Topic 21), History 362P, and Jewish Studies 364 (Topic 9). Introduction to the core of Spinoza’s writings and the diverse reactions they have elicited. Examines Spinoza’s refusal of mind-body dualism, as well as a transcendent god or ideal as a way of understanding Spinoza’s concepts and ideas. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 321F, European Studies 346 (Topic 21), 347 (Topic: Spinoza and Modernity), History 362P, Jewish Studies 364 (Topic 9), Philosophy 354 (Topic 7), Religious Studies 357 (Topic 8), 357M. Prerequisite: Upper-division standing.

Same as German, Scandinavian, and Dutch Studies 361G and Russian, East European, and Eurasian Studies 345 (Topic 7). An introduction to the basic source texts for several pre-Christian belief systems evolving in geographic proximity and their influence on one another including pre-Christian Slavic; pre-Christian Scandinavian; pre-Christian Sami and Finnish; and ancient and modern Siberian shamanism. Three lecture hours a week for one semester. Only one of the following may be counted: German, Scandinavian, and Dutch Studies 361G, Religious Studies 357 (Topic 16), 357N, Russian, East European, and Eurasian Studies 345 (Topic 7). Prerequisite: Upper-division standing.

R S 357Q. Gothic Cathedral: Amiens.
Same as Art History 330J and European Studies 347 (Topic 30). An examination of the cathedral at Amiens, its meaning, structure, political and financial contexts, and sculptural programs, as well as its influence on other buildings in France and Germany. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 330J, 374 (Topic: Gothic Cathedral: Amiens), European Studies 347 (Topic: Gothic Cathedral: Amiens), 347 (Topic 30), Religious Studies 357 (Topic 14), 357Q.

R S 357R. The Age of Rembrandt and Rubens: Northern Baroque Art.
Same as Art History 333L and European Studies 347 (Topic 31). Northern European art in the seventeenth century, stressing the Netherlands and Flanders. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 333L, European Studies 347 (Topic: The Age of Rembrandt and Rubens: Northern Baroque Art), 347 (Topic 31), Religious Studies 357 (Topic 11), 357R.

R S 357S. The Sacred and the Secular in Modern European Thought.
Same as Core Texts and Ideas 332, European Studies 346 (Topic 32), and History 361G. Introduces key themes and methodologies of intellectual history and social theory by exploring the dualing approaches to secularization and sacralization in modern European thought. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 332, 335 (Topic: Sacred and Secular in Modern European Thought), 335 (Topic 7), European Studies 346 (Topic: Sacred and Secular in Modern European Thought), 346 (Topic 32), History 361G, 362G (Topic: Sacred and Secular in Modern European Thought), 362G (Topic 19), Religious Studies 357 (Topic: Sacred and Secular in Modern European Thought), 357 (Topic 20), 357S. Prerequisite: Upper-division standing.

R S 357T. Medieval Women Mystics.
Same as Art History 335 (Topic 3) and German, Scandinavian, and Dutch Studies 361C. Survey of the sources and main features of Germanic religion and of the transition from paganism to Christianity in northern Europe and the Germanic territories of western Europe. Subjects include cosmogonic myths; the origin of man and of society; the concept of the soul; gods and goddesses and their mythology; and the organization of worship. Three lecture hours a week for one semester. Only one of the following may be counted: English 322 (Topic 2), European Studies 347 (Topic 3), German, Scandinavian, and Dutch Studies 361C, Religious Studies 365 (Topic 2), Religious Studies 357 (Topic 17), 357T. Prerequisite: Upper-division standing.

R S 357U. Gothic Cathedral: Amiens.
Same as Art History 330J and European Studies 347 (Topic 30). An examination of the cathedral at Amiens, its meaning, structure, political and financial contexts, and sculptural programs, as well as its influence on other buildings in France and Germany. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 330J, 374 (Topic: Gothic Cathedral: Amiens), European Studies 347 (Topic: Gothic Cathedral: Amiens), 347 (Topic 30), Religious Studies 357 (Topic 14), 357Q.
Jewish Studies 365 (Topic 14), and Women's and Gender Studies 340 (Topic 66). Explores the historical, political, psychological, theological, and cultural fallout of the Holocaust, as well as literary and cinematic responses in Europe and the United States. Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 323 (Topic 40), European Studies 346 (Topic 23), German, Scandinavian, and Dutch Studies 360 (Topic 1), Jewish Studies 365 (Topic 14), Liberal Arts Honors 350 (Topic: Holocaust Aftereffects), 351Q, Religious Studies 357 (Topic 18), 357V, Women's and Gender Studies 340 (Topic: Holocaust Aftereffects), 340 (Topic 66). Prerequisite: Upper-division standing.

R S 357W. Russian Orthodox Religion and Culture.
Same as History 325Q and Russian, East European, and Eurasian Studies 325 (Topic 41). Examine the role and force of the Orthodox Church in Russian history, from the Christianization of the pagan Slavs in the 10th century, through the Russian Revolution into the Soviet era, and up to the present, while considering the prescriptive tenets of the Orthodox faith (religion) alongside descriptive experiences of life within and under Russian Orthodoxy (religiosity). Three lecture hours a week for one semester. Only one of the following may be counted: History 325Q, 366N (Topic: Rus Orthodox Religion/Cultr), Religious Studies 357 (Topic: Rus Orthodox Religion/Cultr), 357W, Russian, East European and Eurasian Studies 325 (Topic: Rus Orthodox Religion/Cultr), 325 (Topic 41). Prerequisite: Upper-division standing.

R S 358C. Islam and Politics.
Same as Government 364C and Middle Eastern Studies 341 (Topic 9). An introduction to Islamic political thought. Three lecture hours a week for one semester. Only one of the following may be counted: Government 364C, 365N (Topic: Islam and Politics), Islamic Studies 373 (Topic: Islam and Politics), 373 (Topic 19), Middle Eastern Studies 341 (Topic: Islam and Politics), 341 (Topic 9), Religious Studies 358 (Topic: Islam and Politics), 358C. Prerequisite: Upper division standing.

R S 358D. Muslim Women in Politics.
Same as Anthropology 324N, Middle Eastern Studies 341 (Topic 12), and Women's and Gender Studies 340 (Topic 56). Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Muslim Women in Politics), 324N, Islamic Studies 372 (Topic 23), Middle Eastern Studies 341 (Topic 12), Religious Studies 358 (Topic 19), 358D, Women's and Gender Studies 340 (Topic 56). Prerequisite: Upper-division standing.

R S 358E. Medieval Islam: Faith and History.
Same as History 350L (Topic 34) and Middle Eastern Studies 343 (Topic 5). Three lecture hours a week for one semester. Only one of the following may be counted: History 350L (Topic 34), Middle Eastern Studies 343 (Topic 5), Religious Studies 358 (Topic 2), 358E. Prerequisite: Upper-division standing.

R S 358F. French Empire: The West and Islam.
Same as History 364Q and Middle Eastern Studies 343 (Topic 22). The development of regions within the Mediterranean, variously called the West and East or Europe and Islam, with an emphasis on the role of modern France and France’s Mediterranean empire. Three lecture hours for one semester. Only one of the following may be counted: History 364Q (Topic 7), 364Q, Islamic Studies 372 (Topic 22), Middle Eastern Studies 343 (Topic 22), Religious Studies 358 (Topic 16), 358F. Prerequisite: Upper-division standing.

R S 358G. Gender Politics in the Islamic World.
Same as Middle Eastern Studies 341 (Topic 7), Sociology 336G, and Women's and Gender Studies 340 (Topic 44). Study of the Islamic world and major sociological concepts such as gender, social organizations, culture, and politics. Examines how culture is mediated by politics, resulting in diverse interpretations of Islam and in different policies with respect to women's rights. Three lecture hours a week for one semester. Only one of the following may be counted: Islamic Studies 373 (Topic 11), Middle Eastern Studies 341 (Topic 7), Religious Studies 358 (Topic 8), 358G, Sociology 336G, Women’s and Gender Studies 340 (Topic 44). Prerequisite: Upper-division standing.

R S 358I. Sufism: Islamic Thought and Spirituality.

R S 358J. Sex and Sexuality in the Muslim World.
Same as Middle Eastern Studies 341 (Topic 13), Sociology 342S, and Women's and Gender Studies 335 (Topic 20). Three lecture hours a week for one semester. Only one of the following may be counted: Islamic Studies 372 (Topic: Sex/Sexuality Muslim World), 372 (Topic 25), Middle Eastern Studies 341 (Topic 13), Religious Studies 358 (Topic: Sex/Sexuality Muslim World), 358J, Sociology 321K (Topic: Sex/Sexuality Muslim World), 342S, Women's and Gender Studies 335 (Topic: Sex/Sexuality Muslim World), 335 (Topic 20). Prerequisite: Upper-division standing.

R S 358K. Islamic Law.
Same as Middle Eastern Languages and Cultures 321 (Topic 19), Middle Eastern Studies 342 (Topic 27), and Women's and Gender Studies 340 (Topic 27). Designed to give students a foundation in the substantive teachings of the shariah, which comprises not only what we normally think of as law, but also ethics and etiquette. Three lecture hours a week for one semester. Only one of the following may be counted: Islamic Studies 340 (Topic 5), Middle Eastern Languages and Cultures 321 (Topic: Islamic Law), 321 (Topic 19), Middle Eastern Studies 342 (Topic 27), Religious Studies 358 (Topic: Islamic Law), 358 (Topic 9), 358K, Women's and Gender Studies 340 (Topic 27). Prerequisite: Upper-division standing.

R S 358L. Rule of Law in the Middle East.
Same as Government 366O and Middle Eastern Studies 341 (Topic 11). Three lecture hours a week for one semester. Only one of the following may be counted: Government 366O, Islamic Studies 373 (Topic 25), Middle Eastern Studies 341 (Topic 11), Religious Studies 358L. Prerequisite: Upper-division standing.

R S 358O. Origins of Monotheism.
Same as Jewish Studies 364 (Topic 13) and Middle Eastern Studies 343 (Topic 10). Three lecture hours a week for one semester. Only one of the following may be counted: Jewish Studies 364 (Topic: Origins of Monotheism), 364 (Topic 13), Middle Eastern Studies 343 (Topic: Origins of Monotheism), 343 (Topic 10), Religious Studies 358 (Topic: Origins of Monotheism), 358O. Prerequisite: Upper-division standing.

R S 358P. History of the Pilgrimage to Mecca, Hajj.
Same as History 367E and Middle Eastern Studies 343 (Topic 7). Survey of the Hajj, Islam's major pilgrimage to Mecca and the nearby Holy Places. It will examine the Islamic pilgrimage from its beginnings in...
the seventh century C.E. through today. Three lecture hours a week for one semester. Only one of the following may be counted: History 364G (Topic: History of the Pilgrimage to Mecca, Hajj), 364G (Topic 14), 367E, Middle Eastern Studies 343 (Topic: History of the Pilgrimage to Mecca), 343 (Topic 7), Religious Studies 358 (Topic: History of the Pilgrimage to Mecca), 358 (Topic 24), 358P. Prerequisite: Upper-division standing.

R S 358Q. Supervised Research.
Individual instruction. Prerequisite: Upper-division standing.

R S 358R. Islamic Ethics.
Same as Middle Eastern Studies 342 (Topic 58) and Women's and Gender Studies 340 (Topic 80). Three lecture hours a week for one semester. Only one of the following may be counted: Islamic Studies 340 (Topic: Islamic Ethics), 340 (Topic 9), Middle Eastern Studies 342 (Topic: Islamic Ethics), 342 (Topic 58), Religious Studies 358 (Topic: Islamic Ethics), 358R, Women's and Gender Studies 340 (Topic: Islamic Ethics), 340 (Topic 80). Prerequisite: Upper-division standing.

R S 358S. Saints and Shrines in Islam.
Same as Asian Studies 340L. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 340 (Topic: Saints & Shrines In Islam), 340 (Topic 23), 340L, Religious Studies 358 (Topic 23), 358S. Prerequisite: Upper-division standing.

R S 358U. Islamic Theology.
Same as Core Texts and Ideas 357, Middle Eastern Languages and Cultures 321 (Topic 27), and Middle Eastern Studies 342 (Topic 35). Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 357 (Topic 2), 357, Islamic Studies 340 (Topic 7), Middle Eastern Languages and Cultures 321 (Topic 27), Middle Eastern Studies 342 (Topic 35), Religious Studies 358 (Topic 14), 358U. Prerequisite: Upper-division standing.

R S 358V. Veiling in the Muslim World.
Same as Asian Studies 372F, Middle Eastern Languages and Cultures 321 (Topic 22), and Women's and Gender Studies 340 (Topic 11). Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 372 (Topic 14), 372F, Islamic Studies 372 (Topic 2), Middle Eastern Languages and Cultures 321 (Topic 22), Religious Studies 358 (Topic 5), 358V, Women's and Gender Studies 340 (Topic 11). Prerequisite: Upper-division standing.

R S 358W. Gender and Art in the Muslim World.
Same as Asian Studies 374D, Middle Eastern Languages and Cultures 321 (Topic 31), Middle Eastern Studies 342 (Topic 40), and Women's and Gender Studies 340 (Topic 62). Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 372 (Topic 46), 374D, Islamic Studies 373 (Topic 15), Middle Eastern Languages and Cultures 321 (Topic 31), Middle Eastern Studies 342 (Topic 40), Religious Studies 358 (Topic 20), 358W, Women's and Gender Studies 340 (Topic 62). Prerequisite: Upper-division standing.

R S 359C. Graffiti and Poster Art in the Islamic World.
Same as Anthropology 324L (Topic 59), Middle Eastern Languages and Cultures 321 (Topic 36), Middle Eastern Studies 342 (Topic 44), and Women's and Gender Studies 340 (Topic 67). Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic 59), Islamic Studies 373 (Topic 17), Middle Eastern Languages and Cultures 321 (Topic 36), Middle Eastern Studies 342 (Topic 44), Religious Studies 358 (Topic 21), 359C, Women's and Gender Studies 340 (Topic 67). Prerequisite: Upper-division standing.

Same as History 367S and Middle Eastern Studies 343 (Topic 20). Examine a history of the religious and cultural development across the Islamic world between the thirteenth and eighteenth centuries, spanning from the rise of the Mongols and the end of the caliphate. Explore the early modern Muslim empires of the Ottomans, Safavids, and Mughals. Three lecture hours a week for one semester. Only one of the following may be counted: History 364G (Topic: Islam Early Mod World:Rel/Cult), 373 (Topic 20), Middle Eastern Studies 343 (Topic: Islam Early Mod World:Rel/Cult), 343 (Topic 20), Religious Studies 358 (Topic 22), 359D. Prerequisite: Upper-division standing.

R S 359E. Shia Islam.
Same as Asian Studies 340W. Examine how the first century of Islamic history inaugurated debates concerning authority, piety, and justice and how these debates have continued to the present. Explore the forces and ideologies that shaped Shiism. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 340 (Topic: Shia Islam), 340W, Islamic Studies 340 (Topic: Shia Islam), 340 (Topic 8), Religious Studies 358 (Topic: Shia Islam), 359E. Prerequisite: Upper-division standing.

R S 359K. The Shock of Modernity in the Middle East.
Same as Government 366P, History 331I, and Middle Eastern Studies 342 (Topic 77). Explore cross-cultural contacts between the East and the West during the modern period. Analyze Islamic civilization in the Middle East of the modern era by addressing the development of religion, law, government, and morality during and after the colonial period. Three lecture hours a week for one semester. Only one of the following may be counted: Government 366P, History 331I, Middle Eastern Studies 342 (Topic: Modernity in the Mid East), 342 (Topic 77), Religious Studies 359K. Prerequisite: Upper-division standing.

R S 359L. Myths and Legends of the Ancient Near East.
Same as Classical Civilization 348N, History 334D, and Middle Eastern Studies 342 (Topic 85). Explore myths and legends contained in a variety of ancient sources, including texts from Israel, Greece, Egypt, and Mesopotamia. Three lecture hours a week for one semester. Only one of the following may be counted: Classical Civilization 348N, History 334D, Middle Eastern Studies 342 (Topic 85), Religious Studies 359L. Prerequisite: Upper-division standing.

R S 359M. Arts of Islam, 650-1500.
Same as Art History 328J. Early Islamic art and architecture, with an emphasis on interconnections between the Islamic world and Europe. Examines unique ways Islamic visual culture developed out of the classical and late antique world. Artworks will be contextualized within early Islamic history, religion, and culture. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 328J, 363 (Topic: Arts of Islam: Caliphs-Sultans), Islamic Studies 372 (Topic: Arts of Islam: Caliphs-Sultans), Middle Eastern Languages and Cultures 321 (Topic: Arts of Islam: Caliphs-Sultans), Middle Eastern Studies 342 (Topic: Arts of Islam: Caliphs-Sultans), Religious Studies 358 (Topic 17), 359M.

R S 359N. Arts of Islam 1500-Present.
Same as Art History 328K. Later Islamic art and architecture, beginning with the world empires of the Ottomans, Safavids, and Mughals, and extending into the modern and contemporary periods. Subjects include the social and historical context of Islamic art in these periods and its unique visual culture. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 328K, 363 (Topic: Arts of Islam, 1500-1800), 363 (Topic: Arts of Islam: 1500-Present), Islamic
R S 360C. African Religious Culture and Creativity.
Same as African and African Diaspora Studies 340T and Theatre and Dance 357T (Topic 7). Examine religion as an aesthetic practice and explore the inventiveness of the imagination that underlines African religious practices. Study religious practices spanning from the pre-colonial and post-colonial eras to the contemporary period particularly in urban centers. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 340T, 372G (Topic: Afr Relig Cultur/Creativity), Religious Studies 360 (Topic: Afr Relig Cultur/Creativity), 360C, Theatre and Dance 357T (Topic: Afr Relig Cultur/Creativity), 357T (Topic 7). Prerequisite: For theatre and dance majors, consent of instructor; for all others, upper-division standing.

R S 361. Topics in Religious Studies.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

Faculty-directed research. Conference course. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

R S 365D. Hermits, Monks, and Saints in Early Christianity.
Same as Classical Civilization 348C and Middle Eastern Studies 342 (Topic 54). Examine individual and communal forms of Christian monasticism from the first through fifth centuries CE. Explore the social, economic and religious factors that may have made a life of self-denial attractive to many early Christians and the role of authority in these movements. Three lecture hours a week for one semester. Only one of the following may be counted: Classical Civilization 348 (Topic: Hermits, Monks, and Saints in Early Christianity), 348C, Middle Eastern Studies 342 (Topic: Hermits, Monks, and Saints in Early Christianity), 342 (Topic 54), Religious Studies 365 (Topic: Hermits, Monks, and Saints in Early Christianity), 365D. Prerequisite: Upper-division standing.

R S 365G. Death and the Afterlife in Graeco-Roman Antiquity.
Same as Classical Civilization 348G and Core Texts and Ideas 328D. Explore the afterlife from Near Eastern myths and Homer through Greek and Roman antiquity to the early Church Fathers. Three lecture hours a week for one semester. Only one of the following may be counted: Classical Civilization 348 (Topic: Death/Afterlife Graeco-Roman), 348G, Core Texts and Ideas 328D, Religious Studies 365G. Prerequisite: Upper-division standing.

R S 365J. The Book of Job.
Same as Core Texts and Ideas 354J, Jewish Studies 363 (Topic 29), and Middle Eastern Studies 342 (Topic 67). Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 354J, 375 (Topic: The Book of Job), Jewish Studies 363 (Topic: The Book of Job), 363 (Topic 29), Middle Eastern Studies 342 (Topic: The Book of Job), 342 (Topic 67), Religious Studies 361 (Topic: The Book of Job), 365 (Topic: The Book of Job), 365J. Prerequisite: Upper-division standing.

R S 365K. Contemporary Jerusalem.
Same as Anthropology 323Q, Jewish Studies 365 (Topic 18), and Middle Eastern Studies 341 (Topic 18). Explore what life is like in today’s contested, rapidly growing, and increasingly diverse Jerusalem. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 323Q, Jewish Studies 365 (Topic: Contemporary Jerusalem), 365 (Topic 18), Middle Eastern Studies 341 (Topic 18), Religious Studies 365K. Prerequisite: Upper-division standing.

R S 366C. The Bible in the Colonial Americas.
Same as Core Texts and Ideas 355, History 363F, and Latin American Studies 366 (Topic 34). Varied perspectives on the central role played by the Old Testament in the construction of colonial cultures in the Americas. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 355, 375 (Topic 6), History 363F, 363K (Topic 5), Latin American Studies 366 (Topic 34), Religious Studies 366 (Topic 3), 366C. Prerequisite: Upper-division standing.

R S 366D. Religions of the Caribbean.
Same as African and African Diaspora Studies 345G, Anthropology 323D, and Latin American Studies 322D. Examine the histories and politics of religious practices in the Greater Caribbean, encompassing the islands and Central American coasts as well as the continental diasporas, from Vodou and Rastafari to popular Hinduism. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 372G (Topic: Religions of the Caribbean) 345G, Anthropology 324L (Topic: Religions of the Caribbean), 323D, Latin American Studies 324L (Topic: Religions of the Caribbean), 322D, Religious Studies 366 (Topic: Religions of the Caribbean), 366 (Topic 2), 366D. Prerequisite: Upper-division standing.

R S 366E. Jewish Cuba.
Same as Anthropology 325V, Jewish Studies 365 (Topic 16), and Latin American Studies 324S. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 325L (Topic: Jewish Cuba), 325V, Jewish Studies 365 (Topic: Jewish Cuba), 365 (Topic 16), Latin American Studies 324L (Topic: Jewish Cuba), 324S, Religious Studies 366 (Topic: Jewish Cuba), 366E. Prerequisite: Upper-division standing.

R S 366M. Colonial Encounters in Mesoamerica.
Same as Anthropology 323T, History 346E, and Latin American Studies 322M. Study European-indigenous encounters in Mesoamerica, a geographic and cultural area spanning north-central Mexico through western Honduras, between approximately 1450-1750. Examine strategies of contact, accommodation, and resistance that indigenous communities and European colonizers used to communicate with each other and negotiate the conduct of daily life in colonial society. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 323T, History 346E, Latin American Studies 322M, Religious Studies 361 (Topic: Mesoamerican Encounters), 366M. Prerequisite: Upper-division standing.

R S 368C. When Christ was King.
Same as History 347P and Latin American Studies 366 (Topic 35). The history of Catholicism in twentieth-century Mexico, often seen as Latin America’s most “Catholic” nation. Three lecture hours a week for one semester. Only one of the following may be counted: History 347P, 350L
R S 366D. Church and State in Latin America.
Same as History 346W and Latin American Studies 366 (Topic 21). History of Church-state relations and religious politics in modern Latin America, with emphasis on the nineteenth to early twentieth-century periods. Three lecture hours a week for one semester. Only one of the following may be counted: History 346W, Latin American Studies 366 (Topic 21), Religious Studies 368 (Topic 1), 368D. Prerequisite: Upper-division standing.

Same as History 350L (Topic 76) and Latin American Studies 366 (Topic 25). Explores the different ways in which religion has helped to define the political, social, and philosophical structures of Latin America from colonial times to the present. Three lecture hours a week for one semester. Only one of the following may be counted: History 350L (Topic 76), Latin American Studies 366 (Topic 25), Religious Studies 368 (Topic 3), 368E. Prerequisite: Upper-division standing.

R S 368F. Religion, Conquest, and Conversion in Colonial Latin America.
Same as History 363D and Latin American Studies 366 (Topic 29). Focuses on the histories of the Catholic Church and religious devotion in colonial Latin America between 1521 and 1821. Three lecture hours a week for one semester. Only one of the following may be counted: History 363D, 363K (Topic 3), Latin American Studies 366 (Topic 29), Religious Studies 368 (Topic 4), 368F. Prerequisite: Upper-division standing.

R S 373C. Religious Ethics and Human Rights.
Examine the grounds for human rights, and the relations between rights and religions. Three lecture hours a week for one semester. Religious Studies 373 (Topic: Religious Ethics and Human Rights) and 373C may not both be counted. Prerequisite: Upper-division standing.

R S 373D. The History of Christmas.
A historical and cross-cultural examination of the evolution of the modern Christmas holiday, beginning with the birth stories of Jesus in the New Testament and concluding with the supposed "War on Christmas" in the 21st Century America. Three lecture hours a week for one semester. Religious Studies 373 (Topic: History of Christmas) and 373D may not both be counted. Prerequisite: Upper-division standing.

R S 373E. Anthropology Of Religion.
Same as Anthropology 324F. Examine a genealogy of the anthropology of religion around the globe from the nineteenth century to the present. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324F, 324L (Topic: Anthropology Of Religion), Religious Studies 373 (Topic: Anthropology Of Religion), 373E. Prerequisite: Upper-division standing.

R S 373F. Creation.
Same as European Studies 346 (Topic 13) and History 350L (Topic 80). Explores the writings of premodern authors as related to creation and early developments in western theology, science, and philosophy. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 346 (Topic 13), History 350L (Topic 80), Religious Studies 373 (Topic 5), 373F. Prerequisite: Upper-division standing.

R S 373G. Goddesses in World Religions and Cultures.
Same as Anthropology 322J, Asian Studies 340F, and Women's and Gender Studies 340 (Topic 30). Historical and cross-cultural overview of the relationship between feminine and religious cultural expressions through comparative examinations and analyses of various goddess figures in world religions. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322J, 324L (Topic: Goddesses in World Religions and Cultures), Asian Studies 340 (Topic 7), 340F, Religious Studies 373 (Topic 3), 373G, Women's and Gender Studies 340 (Topic 30). Prerequisite: Upper-division standing.

R S 373I. Race, Gender, Sex, and Religion.
Same as African and African Diaspora Studies 352M, American Studies 373I, and Women's and Gender Studies 335 (Topic 28). Use an intersectional feminist framework to examine the construction and maintenance of normative categories of race, gender, sex, and sexuality within United States religious discourse. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 352M, American Studies 373I, Religious Studies 361 (Topic: Race, Gender, Sex, Religion), 373I, Women's and Gender Studies 335 (Topic 28). Prerequisite: Upper-division standing.

Same as Anthropology 324L (Topic 68). Examines evolutionary theory, intelligent design, and creationism, and how they interact. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Creation and Evolution in America), 324L (Topic 68), Religious Studies 346 (Topic: Creation and Evolution), 373 (Topic 8), 373J. Prerequisite: Upper-division standing.

R S 373K. Extraterrestrial Intelligence: Culture, Religion, and Imagination.
Same as Anthropology 324L (Topic 71). Focusing primarily on the 20th and 21st Centuries, explores the search for extraterrestrial intelligence (SETI) and considers how these ideas have intersected with other aspects of society, particularly religion, including recent arguments that SETI itself has developed into a religion. Examines meanings and motivations behind issues such as Percival Lowell's quest to prove the existence of canals on Mars and the development of Scientology. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Sentience, Culture, and Religion: SETI), 324L (Topic 71), Religious Studies 373 (Topic: Sentience, Culture, and Religion: SETI), 373 (Topic 9), 373K. Prerequisite: Upper-division standing.

R S 373L. Science, Magic, and Religion.

R S 373M. Biomedicine, Ethics, and Culture.
Same as Anthropology 323N and Asian Studies 361 (Topic 29). Examines ethical questions such as the allocation of medical resources, stem cell research and cloning, organ transplantation, abortion, human experimentation, prolonging life and the right to die, suicide, euthanasia, and diagnosis and treatment of illnesses, explored from a global
perspective. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 323N, 324L (Topic: Biomedicine, Ethics, & Culture), Asian Studies 361 (Topic: Biomedicine, Ethics, & Culture), 361 (Topic 29), Religious Studies 373 (Topic: Biomedicine, Ethics, & Culture), 373M. Prerequisite: Upper-division standing.

**R S 373N. Religions in Contact.**
Same as Asian Studies 340V. Critically examine the theories (religious othering, conversion, reinterpretation, appropriation, etc.) of how one religion responds to contact with another. Explore the ways in which religious actors grapple with religious plurality, draw or ignore boundaries, and form religious identities. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 340 (Topic: Religions in Contact), 340V, Religious Studies 373 (Topic: Religions in Contact), 373N. Prerequisite: Upper-division standing.

**R S 373S. Sport, Religion, and Society.**
Same as Anthropology 323C. Explore sport as it relates to ritual and religious practice and examine the meaning and nature of sport in cross-cultural perspectives. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Sport, Religion, and Society), 323C, Religious Studies 373 (Topic 4), 373S. Prerequisite: Upper-division standing.

**R S 373T. Talk, Text, and God.**
Same as Anthropology 320I. Introduction to the anthropological study of Christianity, particularly in colonial and post-colonial settings. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 320I, 320L (Topic: Talk, Text, and God), 320L (Topic 14), Religious Studies 373 (Topic: Talk, Text, and God), 373T. Prerequisite: Upper-division standing.

**R S 375S. Advanced Seminars in Religious Studies.**
Discussion and research-based study of topics in religious studies. Includes theoretical approaches to the study of religion. Three lecture hours a week for one semester. Religious Studies 373 and 375S may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and at least six semester hours of coursework in religious studies.

**Topic 1: What is Religion?.** Examines classic theories about religion from the last 150 years of academic study: psychological, sociological, economic, phenomenological, and anthropological. Religious Studies 373 (Topic: What is Religion?) and 375S (Topic 1) may not both be counted.

**Topic 2: Comparing Religions.** Same as Asian Studies 379 (Topic 10). A discussion of major comparative approaches in the study of religion. Only one of the following may be counted: Asian Studies 340 (Topic: Introduction to Comparative Religion), 340 (Topic 11), 379 (Topic 10), Religious Studies 373 (Topic: Introduction to Comparative Religion), 375S (Topic 2). Additional prerequisite: For Asian studies majors, twelve semester hours of upper-division coursework in Asian studies; for others, upper-division standing and at least six semester hours of coursework in religious studies.

**Topic 3: Mystics, Visionaries, and Heretics in Medieval Europe.**
Same as Ancient History and Classical Civilization 330 (Topic 3) and History 350L (Topic 74). Examines particular mystical and visionary experiences within the context of medieval European Christianity. Only one of the following may be counted: Ancient History and Classical Civilization 330 (Topic: Mystics, Visionaries and Heretics in Medieval Europe), 330 (Topic 3), History 350L (Topic: Mystics, Visionaries and Heretics in Medieval Europe), 350L (Topic 74), Religious Studies 375S (Topic: Mystics, Visionaries and Heretics in Medieval Europe), 375S (Topic 3).

**Topic 4: Radical Religion: Ascetics and Holy Persons.** Same as Asian Studies 379 (Topic 8). Explores asceticism and the concepts, practices, and goals associated with this radical way of life through case studies from various religions. Subjects include theories of the body and of culture, as well as issues of social status, gender, devotion, and violence. Only one of the following may be counted: Asian Studies 379 (Topic: Radical Religion: Ascetics), 379 (Topic 8), Religious Studies 375S (Topic: Radical Religion: Ascetics), 375S (Topic 4).

**Topic 5: Religion, the Supernatural, and the Paranormal.** Examination of extraordinary events, such as miracles, exorcisms, ghosts, psychic abilities, UFOs, and other related phenomena. Discussion of the similarities and dissimilarities between religious and non-religious contexts for such happenings, as well as possible explanations for them. Religious Studies 375S (Topic: Religion, Supernatural, and the Paranormal) and Religious Studies 375S (Topic 5) may not both be counted.

**Topic 6: Religion in the American South.** Same as American Studies 327F. Examines the social construction and cultural meaning of southern religion using fictional characterizations, philosophical reflections, historical accounts, and theoretical comparisons. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 327 (Topic 6), 327F, Religious Studies 375S (Topic: Religion in the American South), 375S (Topic 6). Additional prerequisite: Upper-division standing and at least six semester hours of coursework in religious studies.

**Topic 7: Religions Of No Religion.** Examine religious practices that are not religion and critical analysis of the category of religion and its contested borders. Religious Studies 375S (Topic: Religions of No Religion) and 375S (Topic 7) may not both be counted.

**Topic 8: The Crusades.** Same as Ancient History and Classical Civilization 330 (Topic 5), European Studies 346 (Topic 38), and History 344S. An exploration of the religious encounters between eastern and western Christians, Christian heretics, Jews, Muslims, and polytheists; political, military, and cultural changes of the high middle ages; and the ways that crusading ideas and symbols have been reused in contemporary politics and popular culture. Three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 330 (Topic: The Crusades), 330 (Topic 5), European Studies 346 (Topic: The Crusades), 346 (Topic 38), History 344S, 350L (Topic: The Crusades), Religious Studies 375S (Topic: The Crusades), 375S (Topic 8). Additional prerequisite: Upper-division standing.

**Topic 9: Religion in the Workplace.** Examine the role of religion in the formation of the workplace in the United States. Survey a range of case studies in order to explore how religion has shaped how Americans understand the relationship between human labor and moral community. Religious Studies 375S (Topic: Religion in the Workplace) and 375S (Topic 9) may not both be counted.

**Topic 10: Religion and Animals.** Same as American Studies 370 (Topic 73). Explore how religious practitioners have imagined and interacted with animals, as well as how contemporary sustainability projects draw on and depart from these historic practices. Focused on North America, explore animals as featured in written and oral sacred stories, as well as engagement with animals in food production, land occupation, and ritual. American Studies 370 (Topic 73) and Religious Studies 375S (Topic 10) may not both be counted. Additional prerequisite: At least six semester hours of coursework in religious studies.

**R S 679H. Honors Tutorial Course.**
Supervised individual reading for one semester, followed by research and writing to produce a substantial paper on a specific topic in religious studies, to be completed during the second semester. The equivalent of three lecture hours a week for two semesters. Prerequisite: For 679HA,
upper-division standing and admission to the Religious Studies Honors Program; for 679HB, Religious Studies 679HA.

**Graduate Courses**

**R S 180. Proseminar.**
An introduction to the research methodology and ancillary disciplines used in current religious studies. One lecture hour a week for one semester. May be repeated for credit when the topics vary. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

**R S 380R. Topical Readings in Religious Studies.**
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 381. Conference Course in Religious Studies.**
Conference course. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

**R S 383C. Topics in Comparative Religion.**
Advanced treatment of selected problems, topics, or themes concerning comparative approaches to the study of religion. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 383E. Ethnographic Methods for the Study of Religion.**
Same as Anthropology 391 (Topic 35). Explore the use of ethnographic research methods for the study of religion. Three lecture hours a week for one semester. Only one of the following may be counted: Religious Studies 383T (Topic: Ethnographic Research Methods), 383E, Anthropology 391 (Topic 35). Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 383M. Theory and Method in the Study of Religion.**
Introduction to the history of the discipline, discussion of classical interpretative works, and examination of current theoretical and methodological developments in the field. Three lecture hours a week for one semester. Religious Studies 383 (Topic: Theory and Method in the Study of Religion) and 383M may not both be counted. Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 383T. Topics in Theoretical Approaches to the Study of Religion.**
Advanced treatment of selected problems, topics, or themes concerning theoretical approaches to the study of religion. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 384D. Doctoral Seminar in Religious Studies.**
Advanced seminar designed to introduce students to the profession of religious studies. Includes development and preparation of a dissertation proposal, placing scholarship within a broader theoretical context, and pedagogical issues in teaching religious studies at the undergraduate college level. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 385K. Early Jewish and Christian Literature I.**
A survey of major categories of early Jewish and Christian literature by genre in light of comparative historical research. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 385L. Early Jewish and Christian Literature II.**
A survey of major categories of early Jewish and Christian literature by genre in light of comparative historical research. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 386C. Critical Issues in Christian Origins.**
Studies of key scholarly works in and critical approaches to the study of Christian origins in their historical, social, and cultural contexts. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 386H. Critical Issues in the Hebrew Bible.**
Advanced studies of critical issues in research on key areas of study in the Hebrew Bible and its environment. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 386M. Critical Issues in Ancient Mediterranean Religions.**
Studies of key scholarly works in and critical approaches to the study of ancient Mediterranean religions in their historical, cultural, and archaeological contexts. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 387M. Seminars in Ancient Mediterranean Religions.**
Advanced treatment of selected problems, topics, or themes in the study of the religions of the ancient Mediterranean world. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 389R. Research Seminars on Religion in Europe and the Middle East.**
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 390T. Topics in European and Middle Eastern Religion.**
Advanced treatment of selected problems, topics, or themes concerning religion in Europe and the Middle East. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 391. Proseminar.**
An introduction to the research methodology and ancillary disciplines used in current religious studies. One lecture hour a week for one semester. May be repeated for credit when the topics vary. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

**R S 380R. Topical Readings in Religious Studies.**
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 381. Conference Course in Religious Studies.**
Conference course. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

**R S 383C. Topics in Comparative Religion.**
Advanced treatment of selected problems, topics, or themes concerning comparative approaches to the study of religion. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 383E. Ethnographic Methods for the Study of Religion.**
Same as Anthropology 391 (Topic 35). Explore the use of ethnographic research methods for the study of religion. Three lecture hours a week for one semester. Only one of the following may be counted: Religious Studies 383T (Topic: Ethnographic Research Methods), 383E, Anthropology 391 (Topic 35). Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 383M. Theory and Method in the Study of Religion.**
Introduction to the history of the discipline, discussion of classical interpretative works, and examination of current theoretical and methodological developments in the field. Three lecture hours a week for one semester. Religious Studies 383 (Topic: Theory and Method in the Study of Religion) and 383M may not both be counted. Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 383T. Topics in Theoretical Approaches to the Study of Religion.**
Advanced treatment of selected problems, topics, or themes concerning theoretical approaches to the study of religion. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 384D. Doctoral Seminar in Religious Studies.**
Advanced seminar designed to introduce students to the profession of religious studies. Includes development and preparation of a dissertation proposal, placing scholarship within a broader theoretical context, and pedagogical issues in teaching religious studies at the undergraduate college level. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 385K. Early Jewish and Christian Literature I.**
A survey of major categories of early Jewish and Christian literature by genre in light of comparative historical research. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 385L. Early Jewish and Christian Literature II.**
A survey of major categories of early Jewish and Christian literature by genre in light of comparative historical research. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 386C. Critical Issues in Christian Origins.**
Studies of key scholarly works in and critical approaches to the study of Christian origins in their historical, social, and cultural contexts. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 386H. Critical Issues in the Hebrew Bible.**
Advanced studies of critical issues in research on key areas of study in the Hebrew Bible and its environment. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 386M. Critical Issues in Ancient Mediterranean Religions.**
Studies of key scholarly works in and critical approaches to the study of ancient Mediterranean religions in their historical, cultural, and archaeological contexts. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 387M. Seminars in Ancient Mediterranean Religions.**
Advanced treatment of selected problems, topics, or themes in the study of the religions of the ancient Mediterranean world. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 389R. Research Seminars on Religion in Europe and the Middle East.**
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 390T. Topics in European and Middle Eastern Religion.**
Advanced treatment of selected problems, topics, or themes concerning religion in Europe and the Middle East. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**Topic 4: The Arabic Humanities.** Same as Asian Studies 390D and Middle Eastern Studies 386 (Topic 1). Explore the traditions formed in pre-modern Islamic humanities. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 390D, Middle Eastern Studies 386 (Topic: The Arabic Humanities), 386 (Topic 1), Religious Studies 390T (Topic 4). Additional prerequisite: Graduate standing and Arabic 531L or 581N.

**Topic 5: Gender, Islam and Representation in the Modern Middle East.** Same as Anthropology 391 (Topic 37) and Middle Eastern Studies 386 (Topic 27). Examine representations of women across majority Muslim countries and explore how women producers and consumers navigate within the framework of regulations set by religious and governmental bodies. Only one of the following may be counted: Anthropology 391 (Topic 37), Middle Eastern Studies 386 (Topic: Gender, Islam, Representations), 386 (Topic 27), Religious Studies 390T (Topic 5), Women's and Gender Studies 393 (Topic: Gender, Islam, Representations).

**R S 391L. Approaches to the Study of Religion in Latin America.**

An introduction to the history of scholarship about religion in Latin America and the Caribbean. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 391N. Approaches to the Study of Religion in the United States.**

An introduction to the history of scholarship about religion in the United States, including recent research on the Atlantic world, the Pacific world, and the Western Hemisphere. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 392T. Topics in Religion in the Americas.**

Advanced treatment of selected problems, topics, or themes concerning religion in the Americas. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 393F. Topics in the Foundations of Asian Religions.**

Introduction to and analysis of primary sources for the study of religion in Asia. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**R S 394T. Topics in Religion in Asia.**

Advanced treatment of selected problems, topics, or themes concerning religion in Asia. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**Topic 1: The Body in Indian Medicine and Myth.** Same as Asian Studies 384 (Topic 8). Examines issues of embodiment in South Asia in various life stages, including conception, infancy, childhood, adulthood, and death drawn from various historical periods, medical traditions, religious narratives, and sociological and anthropological studies. Only one of the following may be counted: Asian Studies 384 (Topic: Body in Indian Medicine/Myth), 384 (Topic 8), Religious Studies 394T (Topic: Body in Indian Medicine/Myth), 394T (Topic 1).
residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses
RBT 120, 220, 320, 420, 520, 620, 720, 820, 920. Topics in Robotics.

For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the College of Natural Sciences. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

RBT 350. Gateway to Robotics.

Explore math, hardware, and programming needed for advanced robotics. Discuss hardware; programming; modeling and control; sensing, perception, and control; and AI and machine learning. Three lecture hours a week for one semester. Prerequisite: Consent of instructor.

Graduate Courses
Professional Courses
REE - Russian, East European, and Eurasian Studies

Russian, East European, and Eurasian Studies: REE

Lower-Division Courses
REE 301. Introduction to Russian, East European, and Eurasian Studies.

Same as History 301R. An introduction to the former Soviet Union and Eastern Europe through each of the major disciplines represented in the program: language, literature, anthropology, geography, history, government, sociology, and economics. Three lecture hours a week for one semester. Only one of the following may be counted: Government 314 (Topic 4), History 301R, 306N (Topic 4), Russian, East European, and Eurasian Studies 301.

REE 301L. Introduction to Russian Literature.

Introduction to Russian literature of the modern period, from the late eighteenth century to the present. Explores a variety of genres, from fairy tales to the works of Pushkin, Gogol, Dostoevsky, Tolstoy, Chekhov, Bulgakov, and Pelevin. All reading and instruction is in English. Three lecture hours a week for one semester.

REE 302. Topics in Russian, East European, and Eurasian Studies.

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

Topic 1: The Vampire in Slavic Cultures. Same as Comparative Literature 305 (Topic 2) and European Studies 307 (Topic 1). Examines the vampire in the cultures of Russia and Eastern Europe, including manifestations in literature, religion, art, film, and common practices from its origins to present. Only one of the following may be counted: Comparative Literature 305 (Topic: The Vampire in Slavic Cultures), 305 (Topic 2), European Studies 307 (Topic: The Vampire in Slavic Cultures), 307 (Topic 1), Russian, East European, and Eurasian Studies 302 (Topic: The Vampire in Slavic Cultures), 302 (Topic 1), Slavic 301 (Topic: The Vampire in Slavic Cultures), 301 (Topic 1).

Topic 3: Introduction To Czech History and Culture: Puppets, Pubs, And Polyglots. Same as European Studies 307 (Topic 2). Survey of Czech history and culture from the middle ages to the present day. Subjects include the culture of daily life, literature, history, philosophy, and the arts. Only one of the following may be counted: Czech 301K (Topic: Puppets, Pubs And Polyglots: Introduction To Czech History and Culture), 301K (Topic 3), European Studies 307 (Topic: Puppets, Pubs And Polyglots: Introduction To Czech History and Culture), 307 (Topic 2), Russian, East European, and Eurasian Studies 302 (Topic: Puppets, Pubs And Polyglots: Introduction To Czech History and Culture), 302 (Topic 3).

REE 302C. Cuisine and Culture of Central and Eastern Europe.

Same as European Studies 307 (Topic 6) and History 306C. An in-depth survey of the culinary traditions, history, and practices of Central and Eastern Europe. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 307 (Topic: Cuisine and Culture of Central and Eastern Europe), 307 (Topic 6), History 306C, Russian, East European, and Eurasian Studies 302 (Topic: Cuisine and Culture of Central and Eastern Europe), 302C.

REE 302D. Russian Icons and Propaganda.

Same as Religious Studies 315K. Three lecture hours a week for one semester. Only one of the following may be counted: Religious Studies 315 (Topic: Russian Icons and Propaganda), 315K, Russian, East European, and Eurasian Studies 302 (Topic: Russian Icons and Propaganda), 302D.

REE 302E. War in Comics and Photography: Southeast Europe.

Same as European Studies 307 (Topic 9). Examine different ways to show and tell stories of armed conflict and state-sponsored violence, drawing on a variety of modern media forms - such as comics, cinema, novels, and photography - as well as contemporary digital platforms including social media. Focus on the 1990s conflicts in the former Yugoslavia (Bosnia, Croatia, and Serbia). Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 307 (Topic: War in Comics/Photo: SE Eur), 307 (Topic 9), Russian, East European, and Eurasian Studies 302 (Topic: War in Comics/Photo: SE Eur), 302E, Women's and Gender Studies 301 (Topic: War in Comics/Photo: SE Eur).

REE 302F. Dissent in Twentieth-Century Ukraine.

Same as Comparative Literature 305C and European Studies 307 (Topic 10). Survey Ukrainian authors from the 1920s to the present, examining writings from "Executed Renaissance," underground literature, and postmodernism. Focus specifically on works that challenge the paradigm of socialist realism by discussing forbidden subjects (famine, religion,
Gulag) or accentuating themes that are not considered "major" (personal life). Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 305 (Topic: Dissent 20th-Cent Ukraine), 305C, European Studies 307 (Topic: Dissent 20th-Cent Ukraine), 307 (Topic 10), Russian, East European, and Eurasian Studies 302 (Topic: Dissent 20th-Cent Ukraine), 302F.

**REE 302G. The Soviet Hero in Literature and Culture.**
Same as Comparative Literature 305S. Consider Soviet Culture by examining "heroes" from both real life and works of literature, cinema, and folklore. Explore the period from the Russian 19th century throughout the Soviet Era. Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 305 (Topic: Soviet Hero in Lit/Culture), 305S, Russian, East European, and Eurasian Studies 302 (Topic: Soviet Hero in Lit/Culture), 302G.

**REE 318Q. Supervised Research.**
Individual instruction.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Center for Russian, East European, and Eurasian Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**Upper-Division Courses**

**REE 325. Topics in Language, Literature, and Culture.**
Three lecture hours a week for one semester. Fulfills the basic Russian, East European, and Eurasian studies requirement in language, literature, and culture. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 9: The Russian Novel.** Same as Comparative Literature 323 (Topic 29) and Core Texts and Ideas 347. A survey of classic Russian authors as well as experimental works from the nineteenth through the twentieth century. Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 323 (Topic 29), Core Texts and Ideas 345 (Topic 6), 347, English 322 (Topic 37), European Studies 347 (Topic 22), Russian 356 (Topic 1), Russian, East European, and Eurasian Studies 325 (Topic 9). Additional prerequisite: Upper-division standing.

**Topic 10: The Major Works of Dostoevsky.** Same as Comparative Literature 323 (Topic 30) and Core Texts and Ideas 346. Explores the dilemmas of homicide, suicide, patricide, and redemption in the novels of Fyodor Dostoevsky. Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 323 (Topic 30), Core Texts and Ideas 345 (Topic 5), 346, European Studies 347 (Topic 10), Russian 360 (Topic 1), Russian, East European and Eurasian Studies 325 (Topic 10). Additional prerequisite: Upper-division standing.

**Topic 11: Contemporary Russian Cinema.** Uses contemporary Russian film both as a means of exploring the confusion that resulted from the demise of the Soviet Union in 1991 and the search for a new sense of identity in Russia throughout the 1990s and early 2000s. Only one of the following may be counted: Russian 326 (Topic 4), 330 (Topic: Contemporary Russian Cinema), 330 (Topic 4), Russian, East European, and Eurasian Studies 325 (Topic 11). Additional prerequisite: Upper-division standing.

**Topic 13: Medieval Russian Literature and Culture.** Medieval and early modern Russian literature and culture, including literary texts from Kievan and Muscovite Russia. Only one of the following may be counted: Comparative Literature 323 (Topic: The Icon and the Sword: An Introduction to Old Russian Literature and Culture), Russian, East European, and Eurasian Studies 325 (Topic: The Icon and the Sword: An Introduction to Old Russian Literature and Culture), 325 (Topic 13), Russian 330 (Topic: The Icon and the Sword: An Introduction to Old Russian Literature and Culture), 330 (Topic 6). Additional prerequisite: Upper-division standing.

**Topic 16: The Major Works of Tolstoy.** Same as Comparative Literature 323 (Topic 27). Explores Russian writer Lev Nikolaevich Tolstoy, particularly his progression from idealizing family life and the Russian state to renouncing sexual love and national allegiances. Only one of the following may be counted: Comparative Literature 323 (Topic: The Major Works of Tolstoy), 323 (Topic 27), Russian 360 (Topic: Majors Works of Tolstoy), 360 (Topic 2), Russian, East European, and Eurasian Studies 325 (Topic: The Major Works of Tolstoy), 325 (Topic 16). Additional prerequisite: Upper-division standing.

**Topic 18: War and Revolution in Russian Literature and Culture.** Same as Comparative Literature 323 (Topic 31) and Core Texts and Ideas 348. Examines Russian narratives of war and revolution as represented in fiction, cinema, and journalism. Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 323 (Topic 31), Core Texts and Ideas 345 (Topic 8), 348, Russian 356 (Topic 3), Russian, East European, and Eurasian Studies 325 (Topic 18). Additional prerequisite: Upper-division standing.

**Topic 19: Russian Youth Culture, Late Soviet to Present.** Examines the history and cultural products (films, music, writings) of Russia's youth, and their impact on contemporary society and politics. Only one of the following may be counted: Russian, East European, and Eurasian Studies 325 (Topic: Russian Youth Culture, Gorbachev to Present), 325 (Topic 19), Russian 330 (Topic: Russian Youth Culture, Gorbachev to Present), 330 (Topic 8). Additional prerequisite: Upper-division standing.

**Topic 22: Russian Myths and Folktales.** Same as Anthropology 322T and Comparative Literature 323 (Topic 34). Examination of the Russian folktales, its roots in ancient, pre-Christian Slavic religious tradition, its connections with other forms of folklore such as myth and legend, and its transformation in modern Russian literature. Subjects include the continuing influence of folklore explored through various aspects of Russian culture, including literature, music, ballet, film, and popular culture. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322T, 325L (Topic 12), Comparative Literature 323 (Topic 34), Russian 330 (Topic 9), Russian, East European and Eurasian Studies 325 (Topic 22). Additional prerequisite: Upper-division standing.

**Topic 24: Rebels and Revolutionaries in Russian History and Literature.** Same as Comparative Literature 323 (Topic 20) and History 361E. Study of fictional and real rebels and revolutionaries across almost a century of Russian literature. Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 323 (Topic 20), History 361E, 362G (Topic 15), Russian 356 (Topic 4), Russian, East European, and Eurasian Studies 325 (Topic 24). Additional prerequisite: Upper-division standing.

**Topic 25: Literature and Art of Russian Modernism and Avant-Garde.** Focusing on literary and artistic expressions of Russian modernist and avant-garde esthetics, this course explores various responses to Russian cultural modernity between 1890s, when Russian Symbolists first published their works, and the Party decree of 1932 that established the Writers' Union and outlawed all other literary organizations. Only one of the following may be counted: Russian 330 (Topic: Literature and Art of Russian Modernism and Avant-Garde), 330 (Topic 10), Russian, East European and Eurasian Studies 325 (Topic: Literature and Art of Russian Modernism and Avant-Garde).
Topic 29: Bulgakov's Master and Margarita. Same as Comparative Literature 323 (Topic 8). Explores the novel in the context of other literary works by Bulgakov and its varied sources in world literature, music, and the visual arts. Only one of the following may be counted: Comparative Literature 323 (Topic: Bulgakov’s Master and Margarita), 323 (Topic 8), Russian 360 (Topic: Bulgakov’s Master and Margarita), 360 (Topic 3), Russian, East European, and Eurasian Studies 325 (Topic: Bulgakov’s Master and Margarita), 325 (Topic 29). Additional prerequisite: Upper-division standing.

Topic 31: Bad Language: Race, Class, and Gender. Same as Comparative Literature 323 (Topic 52), Mexican American Studies 363R, and Women's and Gender Studies 340 (Topic 74). Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: Bad Language: Race, Class, and Gender), Comparative Literature 323 (Topic: Bad Language: Race, Class, and Gender), 323 (Topic 52), Linguistics 350 (Topic: Bad Language: Race, Class, and Gender), Mexican American Studies 363R, 374 (Topic: Bad Language: Race, Class, and Gender), Russian 369 (Topic: Bad Language: Race, Class, and Gender), Russian, East European, and Eurasian Studies 325 (Topic: Bad Language: Race, Class, and Gender), 325 (Topic 32), Women’s and Gender Studies 340 (Topic: Bad Language: Race, Class, and Gender), 340 (Topic 74). Additional prerequisite: Upper-division standing.

Topic 32: Russian Cinema From Potemkin to Putin. Same as Comparative Literature 323 (Topic 79). Study representations of masculinity in products of Russian and Soviet cinema. Three lecture hours a week for one semester. Only one of the following may be counted: Russian, East European, and Eurasian Studies 325 (Topic 33). Additional prerequisite: Upper-division standing.

Topic 33: Russian and Resistance in Contemporary Eastern Europe. Same as European Studies 347 (Topic 44) and Women’s and Gender Studies 340 (Topic 60). Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 347 (Topic: Women and Resistance in Contemporary Eastern Europe), 347 (Topic 44), Russian, East European, and Eurasian Studies 325 (Topic: Women and Resistance in Contemporary Eastern Europe), 325 (Topic 36), Women's and Gender Studies 340 (Topic: Women and Resistance in Contemporary Eastern Europe), 340 (Topic 60). Additional prerequisite: Upper-division standing.

Topic 34: Soviet Romance in Film. Same as Comparative Literature 323C. Examine the construction of the ideology of love, intimate relations, and gender roles, deemed appropriate for a Soviet citizen, as it is demonstrated in a selection of films. Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 323C, Russian, East European, and Eurasian Studies 325 (Topic: Soviet Romance in Film), 325 (Topic 37). Additional prerequisite: Upper-division standing.

Topic 35: Punks and Divas in Southeast Europe. Same as European Studies 347 (Topic 47) and Women's and Gender Studies 345D. Examine popular music and its role in political struggle and collective identity formation in the Balkans. Analyze music genres in this region in the context of the historical changes it underwent in the twentieth and twenty-first centuries, including the fall of Communism and – in the case of former Yugoslavia – the formation of seven new nation-states through a series of bloody and brutal wars. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 347 (Topic: Punks/Divas in SE Europe), 347 (Topic 47), Russian, East European, and Eurasian Studies 325 (Topic: Punks/Divas in SE Europe), 325 (Topic 38), Women's and Gender Studies 345 (Topic: Punks/Divas in SE Europe), 345D. Additional prerequisite: Upper-division standing.

Topic 36: Russian Orthodox Religion and Culture. Same as History 325Q and Religious Studies 357W. Study representations of masculinity in products of Russian and Russian Orthodox culture at the end of the twentieth and the beginning of the twenty-first centuries. Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 323 (Topic: Russian/Mexican Men in Pop Cul), 323 (Topic 58), Mexican American Studies 337D, 374 (Topic: Russian/Mexican Men in Pop Cul), Russian, East European, and Eurasian Studies 325 (Topic: Russian/Mexican Men in Pop Cul), 325 (Topic 40), Women's and Gender Studies 340 (Topic: Russian/Mexican Men in Pop Cul). Additional prerequisite: Upper-division standing.

Topic 37: Russian Orthodox Religion and Culture. Same as History 325Q and Religious Studies 357W. Study representations of masculinity in products of Russian and Russian Orthodox culture at the end of the twentieth and the beginning of the twenty-first centuries. Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 323 (Topic: Russian/Mexican Men in Pop Cul), 323 (Topic 58), Mexican American Studies 337D, 374 (Topic: Russian/Mexican Men in Pop Cul), Russian, East European, and Eurasian Studies 325 (Topic: Russian/Mexican Men in Pop Cul), 325 (Topic 40), Women's and Gender Studies 340 (Topic: Russian/Mexican Men in Pop Cul). Additional prerequisite: Upper-division standing.

Topic 38: Youth and Violence in the Middle East and Eurasia. Same as Comparative Literature 325Q and Religious Studies 357W. Study representations of masculinity in products of Russian and Russian Orthodox culture at the end of the twentieth and the beginning of the twenty-first centuries. Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 323 (Topic: Youth/Violence Mid East/Eur), 323 (Topic 65), Middle Eastern Languages and Cultures 321 (Topic: Youth/Violence Mid East/Eur), Middle Eastern Studies 342 (Topic: Youth/Violence Mid East/Eur), 342 (Topic 64), Russian, East European, and Eurasian Studies 325 (Topic: Youth/Violence Mid East/Eur), 325 (Topic 42). Additional prerequisite: Upper-division standing.

Topic 39: Traveling Culture. Same as Anthropology 326L. Examine mobility as a point of inquiry into questions of identity, community, belonging, place and landscape, art, representation, cultural difference, experience, and history. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 325L (Topic 14), 326L, Russian, East European, Eurasian Studies 325 (Topic 43). Additional prerequisite: Upper-division standing.
**Topic 45: Russia Through American Eyes.** Same as American Studies 325M, Comparative Literature 323 (Topic 71), and History 326D. Examine a wide array of American attitudes towards Russia and Russians. Using a variety of political, social, and cultural events and encounters, analyze the ways in which nationalism, imperialism, and geopolitics informed American narratives about Russia and Russians, assessments that range from enthusiasm and curiosity to condemnation and outright hostility. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 325M, Comparative Literature 323 (Topic 71), History 326D, Russian, East European, and Eurasian Studies 325 (Topic: Russia Thru American Eyes), 325 (Topic 45). Additional prerequisite: Upper-division standing.

**Topic 46: Queer Eastern Europe.** Same as Comparative Literature 323 (Topic 74), European Studies 347 (Topic 55), and Women's and Gender Studies 335 (Topic 26). Explore LGBTQI stories and political struggles in Eastern Europe with a focus on the region's queer culture: literature, cinema, and the arts. Only one of the following may be counted: Comparative Literature 323 (Topic 74), European Studies 347 (Topic 55), Russian, East European, and Eurasian Studies 325 (Topic: Queer Narr Eastern Europe), 325 (Topic 46), Women's and Gender Studies 335 (Topic 26). Additional prerequisite: Upper-division standing.

**Topic 47: Cultural Translation.** Same as Comparative Literature 323 (Topic 77), European Studies 347 (Topic 53), and Middle Eastern Studies 342 (Topic 69). Examine theoretical readings and concrete examples of how translation politics, translation-induced reconstruction of literary systems, censorship, manipulation, and market dynamics affect the production, distribution, and reception of translated products in the realm of arts and entertainment, news media and politics, and various academic disciplines in the Middle East, United States, and beyond. Only one of the following may be counted: Comparative Literature 323 (Topic 77), European Studies 347 (Topic 53), Middle Eastern Studies 342 (Topic: Cultural Translation), 342 (Topic 69), Russian, East European, and Eurasian Studies 325 (Topic 47). Additional prerequisite: Upper-division standing.

**Topic 48: Identity, Codes, and Culture.** Same as Comparative Literature 323 (Topic 75) and German, Scandinavian, and Dutch Studies 351D. Explore how to read identities as patterns in literary texts, linguistic and cultural corpora with digital methods, and come to a deeper understanding of individual texts and textual phenomena. Examine digital research methods, tools, and use cases. Work hands-on with literary and linguistic sources. Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 323 (Topic 75), German, Scandinavian, and Dutch Studies 351D, Russian, East European, and Eurasian Studies 325 (Topic 48). Additional prerequisite: Upper-division standing.

**REE 325C. Russian Food Ways.**

Same as History 343Q. Three lecture hours a week for one semester. Only one of the following may be counted: History 343Q, 362G (Topic: Russian Food Ways), Russian, East European, and Eurasian Studies 325 (Topic: Russian Food Ways), 325C. Prerequisite: Upper-division standing.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Center for Russian, East European, and Eurasian Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**REE 335. Topics in History, Economics, and Government.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 2: Governments and Politics of Eastern Europe.** Same as Government 324J and European Studies 348 (Topic 1: Governments and Politics of Eastern Europe). Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 348 (Topic 1), Government 324J, Russian, East European, and Eurasian Studies 335 (Topic 2). Additional prerequisite: Six semester hours of lower-division coursework in government.

**Topic 3: Governments and Politics of Russia.** Issues of nationalism and state-building facing Russia and its neighbors. Evaluation of the post-Soviet experience from the perspectives of both domestic and foreign policy. Government 336M and Russian, East European, and Eurasian Studies 335 (Topic 3) may not both be counted. Prerequisite: Six semester hours of lower-division coursework in government.

**Topic 5: History of Russia to 1917.** Same as History 343L. Survey of Russian history from seventeenth-century Muscovy to the fall of the Romanovs in 1917. Prerequisite: Upper-division standing.

**Topic 6: History of Russia since 1917.** Same as History 343M. A survey of Russian history from the revolution of 1917 to the collapse of the Soviet Union. Prerequisite: Upper-division standing.

**Topic 10: The Military in Politics.** Same as Government 365G and Latin American Studies 337M (Topic 9). Three lecture hours a week for one semester. Only one of the following may be counted: Government 365G, 365N (Topic 3); Latin American Studies 337M (Topic 9); Russian, East European, and Eurasian Studies 335 (Topic 10). Additional prerequisite: Upper-division standing and six semester hours of lower-division coursework in government.

**Topic 11: Germany in the Twentieth Century.** Same as History 337N and Liberal Arts Honors 352C. Survey of German political and military institutions, economic development, culture, and society. Three lecture hours a week for one semester. Only one of the following may be counted: History 337N, Liberal Arts Honors 350 (Topic: Germany in the 20th Century), 352C, Russian, East European, and Eurasian Studies 335 (Topic 11). Additional prerequisite: Upper-division standing and a grade point average of at least 3.5.

**Topic 12: Stalinist Russia.** Same as History 350L (Topic 41). History 350L (Topic 41) and Russian, East European, and Eurasian Studies 335 (Topic 12) may not both be counted. Additional prerequisite: Upper-division standing.

**Topic 13: Russian Economic Development since 1917.** The growth of the planned economy in industry, agriculture, and labor. Economics 346K and Russian, East European, and Eurasian Studies 335 (Topic 13) may not both be counted. Prerequisite: Economics 304K and 304L with a grade of at least C in each, and six additional semester hours of coursework in social science; or consent of instructor.

**Topic 14: Political Economy of International Crises.** Examines several dimensions of the ongoing crises in the world economic order and the interrelationships among them. Problem areas covered are neoliberalism, international money, debt, famine, immigration, and energy shocks. Economics 357L and Russian, East European, and Eurasian Studies 335 (Topic 13) may not both be counted. Prerequisite: Economics 304K and 304L with a grade of at least C in each, and six additional semester hours of coursework in social science.

**Topic 16: Eastern Europe in the Twentieth Century.** Same as European Studies 346 (Topic 16) and History 362Q. Examines the major political, social, and cultural events that shaped Eastern European society in the twentieth century. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 346 (Topic 16), History 362G (Topic 7), 362Q, Russian, East European, and Eurasian Studies 335 (Topic 16). Additional prerequisite: Upper-division standing.
Topic 17: Introduction to the Holocaust. Same as European Studies 346 (Topic 17), History 362D, and Jewish Studies 364 (Topic 6). Examines the mass killing of Jews and other victims in the context of Nazi Germany’s quest for race and space during World War II. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 346 (Topic: Introduction to the Holocaust), 346 (Topic 17), History 362D, 362G (Topic: Introduction to the Holocaust), 362G (Topic 3), Jewish Studies 364 (Topic: Introduction to the Holocaust), 364 (Topic 6), Russian, East European, and Eurasian Studies 335 (Topic: Introduction to the Holocaust), 335 (Topic 17). Additional prerequisite: Upper-division standing.

Topic 18: Southeast Europe in the Twentieth Century. Same as European Studies 346 (Topic 18), History 362S, and Jewish Studies 364 (Topic 8). Explores the key events and developments of Southeastern Europe, the region commonly referred to as the Balkans, in the twentieth century. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 346 (Topic 18), History 362G (Topic 9), 362S, Jewish Studies 364 (Topic 8), Russian, East European, and Eurasian Studies 335 (Topic 18). Additional prerequisite: Upper-division standing.

Topic 19: World War II in Eastern Europe. Same as European Studies 346 (Topic 12), History 350L (Topic 79), and Jewish Studies 364 (Topic 11). Examines the war in Eastern Europe with a particular emphasis on occupation, collaboration, and resistance; the Holocaust; and the connection between ethnic cleansing, population transfer, and the establishment of communism in postwar Eastern Europe. Only one of the following may be counted: European Studies 346 (Topic: World War II in Eastern Europe), 346 (Topic 12), History 350L (Topic: World War II in Eastern Europe), History 350L (Topic 79), Jewish Studies 364 (Topic: World War II in Eastern Europe), 364 (Topic 11), Russian, East European, and Eurasian Studies 335 (Topic: World War II in Eastern Europe), 335 (Topic 19).

Topic 20: German Nationalisms. Same as European Studies 346 (Topic 22), German, Scandinavian, and Dutch Studies 361K, and Government 368T. History of diverse views and movements regarding German national identity within their respective contexts, 1800-present. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 346 (Topic 22), German, Scandinavian, and Dutch Studies 361K, Government 365N (Topic 6), 365N (Topic 19), 368T, Russian, East European and Eurasian Studies 335 (Topic 20). Additional prerequisite: Upper-division standing.

Topic 21: Causes of War. Same as Government 360G. Three lecture hours a week for one semester. Only one of the following may be counted: Government 360G, 360N (Topic 2), Russian, East European, and Eurasian Studies 335 (Topic: Causes of War), 335 (Topic 21).

Topic 23: Jews of Eastern Europe. Same as History 362R, Jewish Studies 364 (Topic 7), and Religious Studies 357E. Explores the history and culture of Jews in Eastern Europe. Three lecture hours a week for one semester. Only one of the following may be counted: History 362G (Topic 8), 362R, Jewish Studies 364 (Topic 7), Russian, East European, and Eurasian Studies 335 (Topic: Causes of War), 357E (Topic 13), 335 (Topic 21).

Topic 24: Political Warfare and Propaganda. Same as Government 364V. Examines the phenomenon of political warfare in a contemporary global context, focusing on Russia and Eastern Europe. Explore the evolution of techniques of political warfare, including psychological warfare and propaganda. Three lecture hours a week for one semester. Only one of the following may be counted: Government 360N (Topic: Political Warfare/Propaganda), 364V, Russian, East European and Eurasian Studies 335 (Topic: Political Warfare/Propaganda), 335 (Topic 24). Additional prerequisite: Six semester hours of lower-division coursework in government.

Topic 25: Revolutionary Russia. Same as History 343R. An in depth examination of the political, social, economic, and cultural dynamics at work in early twentieth-century Russia. Three lecture hours a week for one semester. Only one of the following may be counted: History 343R, 350L (Topic: Revolutionary Russia), Russian, East European, and Eurasian Studies 335 (Topic: Revolutionary Russia), 335 (Topic 25). Additional prerequisite: Upper-division standing.

Topic 26: Criminal Punishment in Russia. Examines the theories of criminal responsibility from a legal perspective. Explore the application of criminal punishment in Russia in the Imperial, Soviet and modern eras. Russian, East European, and Eurasian Studies 335 (Topic: Criminal Punishment in Russia) and 335 (Topic 26) may not both be counted. Additional prerequisite: Upper-division standing.

Topic 27: Reacting to Revolutionary Ideas. Same as Liberal Arts Honors 351G. Restricted to Plan I majors in the College of Liberal Arts. Explore revolutionary themes in Western and non-Western countries during the nineteenth and twentieth centuries. Three lecture hours a week for one semester. Only one of the following may be counted: Liberal Arts Honors 350 (Topic: Reacting/Revolutionary Ideas), 351G, Russian, East Europeans, and Eurasian Studies 335 (Topic: Reacting/Revolutionary Ideas), 351G, 335 (Topic 27). Additional prerequisite: Upper-division standing and a grade point average of at least 3.50.

Topic 31: Security and Policy in Eastern Europe and Russia. Same as European Studies 348 (Topic 13) and Government 362U. Examine key contemporary security issues and policy dilemmas through the perspective of post-communist Eastern European countries in the context of European Union (EU) enlargement waves, and in the framework of their membership in supranational organizations. Consider the transformation of regional states’ national security strategies, threat perception, and priorities transitioning from former Warsaw pact to full-fledged EU and NATO membership in shaping their respective national security priorities. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 348 (Topic 13), Government 362U, 365N (Topic: Security/Policy E Eur/Rus), Russian, Eastern Europe, and Eurasian Studies 335 (Topic: Security/Policy E Eur/Rus), 335 (Topic 31). Additional prerequisite: Upper-division standing.

Topic 32: European Espionage 1914-1989. Same as History 361S. Examines the development and transformation of espionage, intelligence, and surveillance in Europe from the first World War to the end of the Cold War. Three lecture hours a week for one semester. Only one of the following may be counted: History 361S, 362G (Topic: European Espionage 1914-89), Russian, East European, and Eurasian Studies 335 (Topic 32). Additional prerequisite: Upper-division standing.

Topic 33: Political Ideologies and Manifestos. Same as European Studies 348 (Topic 16), Government 324C, and Religious Studies 335C. Survey major political ideologies like socialism, capitalism, and fascism; as well as the more recent so-called “Fourth Political Theory” of Russian ideologue Aleksandr Dugin, (variable) popular ideologies, and internet manifestos. Explore each ideology through original texts and utopian/dystopian representations in popular culture (e.g., literature, film, music, graphic art, architecture, design). Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 348 (Topic 16), Government 324C, Religious Studies 335C, Russian, East European, and Eurasian Studies 335 (Topic: Polit Ideologies/Manifestos), 335 (Topic 33). Additional prerequisite: Upper-division standing.

Topic 34: Populism in Central and Eastern Europe. Same as European Studies 348 (Topic 12) and Government 324D. Survey the political nature, profile, and patterns of populism in selected post-communist
democracies of Central and Eastern Europe. Examine populism in terms of impact on agenda setting, political process, and governance of the region in focus at specific national and European Union-wide levels. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 348 (Topic 12), Government 324D, 360N (Topic: Populism Central/E Europe), Russian, East European, and Eurasian Studies 335 (Topic: Populism Central/ E Europe), 335 (Topic 34). Additional prerequisite: Upper-division standing.

**Topic 35: Socialism's Past and Futures.** Same as Anthropology 324U and History 326E. Examine ordinary people's experience of socialism in the Soviet Union and the plural interpretations of this experience after the USSR’s collapse. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324U, History 326E, 366N (Topic: Socialism's Past and Futures), Russian, East European, and Eurasian Studies 335 (Topic 35). Additional prerequisite: Upper-division standing.

**Topic 36: Intelligence and Espionage in the Eastern Bloc.** Same as European Studies 348 (Topic 19) and Government 324E. Examine the specific national approaches to foreign and domestic intelligence and espionage of former Communist bloc countries from early twentieth century to the collapse of communism in Eastern Europe. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 348 (Topic 19), Government 324E, Russian, East European, and Eurasian Studies 335 (Topic 36). Additional prerequisite: Upper-division standing.

**Topic 37: Geography in Eastern Europe and Eurasia.** Same as Comparative Literature 323 (Topic 78), Geography 328E, and History 361U. Explore alternatives to nation-state imaginaries across Eastern Europe and Eurasia. Examine spatial thinking, utopia, dystopia, the history of geosciences, counter-mapping, and the decolonial geopoetics of space. Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 323 (Topic 78), Geography 328E, History 361U, Russian, East European, and Eurasian Studies 335 (Topic 37). Additional prerequisite: Upper-division standing.

**Topic 38: East European Transnational Worlds to 1914.** Same as Geography 331E and History 361T. Examine an overview of major developments in the economic, political, social, cultural, and gender and sexuality fields of East European history before 1914. Explore diplomacy, institutional legacies of war and peace, urban and rural developments and inequalities, spaces of language and religion, race, labor migration, and the arts. Three lecture hours a week for one semester. Only one of the following may be counted: Geography 331E, History 361T, Russian, East European, and Eurasian Studies 335 (Topic 38). Additional prerequisite: Upper-division standing.

REE 345. Topics in Sociology, Geography, and Anthropology.

Three lecture hours a week for one semester. Fulfills the basic Russian, East European, and Eurasian studies requirement in sociology, geography, and anthropology. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 2: Regions and Cultures of Europe.** Same as European Studies 346 (Topic 19) and Geography 326. Spatial patterns in Europe, with emphasis on cultural, historical, and political geography. Only one of the following may be counted: European Studies 346 (Topic: Regions and Cultures of Europe), 346 (Topic 19), Geography 326, Russian, East European, and Eurasian Studies 345 (Topic 2). Additional prerequisite: Upper-division standing.

**Topic 4: Geography of the Former Soviet Union.** Same as Geography 327. A systematic introduction to cultural, physical, political, and economic geography of the former Soviet Union. Focus on the fundamental transformation that the former Socialist Union Republics, now sovereign states, have undergone since 1991. Prerequisite: Upper-division standing.

**Topic 6: Northern Lands and Cultures.** Same as European Studies 346 (Topic 9) and Geography 356T (Topic 4). Develops geographical understanding of the Circumpolar region of the North, an ancient human habitat, home to distinct millennia-old civilizations. Only one of the following may be counted: European Studies 346 (Topic: Northern Lands and Cultures), 346 (Topic 9), Geography 356T (Topic: Northern Lands and Cultures), 356T (Topic 4), Russian, East European, and Eurasian Studies 345 (Topic: Northern Lands and Cultures), 345 (Topic 6). Additional prerequisite: Upper-division standing.

**Topic 7: Northern Gods, Northern Faiths: The Conversion of Scandinavians, Finns, Northern Slavs and Shamans.** Same as German, Scandinavian, and Dutch Studies 361G and Religious Studies 357N. An introduction to the basic source texts for several pre-Christian belief systems evolving in geographic proximity and their influence on one another including pre-Christian Slavic; pre-Christian Scandinavian; pre-Christian Sami and Finnish; and ancient and modern Siberian shamanism. Three lecture hours a week for one semester. Only one of the following may be counted: German, Scandinavian, and Dutch Studies 361G, Religious Studies 357 (Topic 16), 357N, Russian, East European, and Eurasian Studies 345 (Topic 7). Additional prerequisite: Upper-division standing.

**Topic 8: Cultures and Ecologies.** Same as Anthropology 325R. Examines the anthropology of "nature" and "natural resources," with particular attention to the communities in the arctic and subarctic regions. Use ethnographies to learn about the cultures of peoples who inhabit northern latitudes, especially their cosmological modes of belief and their ecological ways of life. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 325L (Topic: Cultures and Ecologies), 325L (Topic 16), 325R, Russian, East European, and Eurasian Studies 345 (Topic: Cultures and Ecologies), 345 (Topic 8). Additional prerequisite: Upper-division standing.

**Topic 9: Geography of Religion in Eastern Europe and Russia.** Same as Geography 356T (Topic 14) and Religious Studies 357G. A comprehensive overview of major religious culture regions in the former Eastern bloc countries. Three lecture hours a week for one semester. Only one of the following may be counted: Geography 356T (Topic: Geography of Religion in Eastern Europe and Russia), 356T (Topic 14), Religious Studies 357 (Topic: Geography of Religion in Eastern Europe and Russia), 357 (Topic 5), 357G, Russian, East European, and Eurasian Studies 345 (Topic: Geography of Religion in Eastern Europe and Russia), 345 (Topic 9). Additional prerequisite: Upper-division standing.

**Topic 10: Politics and Performance.** Same as Anthropology 323E. Consider the power struggles of the democratic process by closely attending to language, rhetoric and performance. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 323E, 324L (Topic: Politics and Performance), Russian, East European, and Eurasian Studies 345 (Topic: Politics and Performance), 345 (Topic 10). Additional prerequisite: Upper-division standing.

**Topic 11: Indigenous Peoples of Russia and the USSR.** Same as Anthropology 324L (Topic 76). Examine an introduction to theories of colonial critique and visual culture studies. Explore the history of the Indigenous peoples of the Eurasian north. Only one of the following may be counted: Anthropology 324L (Topic: Indig People: Rus and USSR), 324L (Topic 76), Russian, East European, and Eurasian Studies 345 (Topic 11) Additional prerequisite: Upper-division standing.

**Topic 12: Shamanism and the Primitive.** Same as Anthropology 325W, Asian Studies 341P and Religious Studies 352G. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Shamanism & the Primitive), 325W, Asian Studies 340 (Topic: Shamanism & the Primitive), 341P,

**Topic 13: Power and Resistance in Putin's Russia.** Same as Anthropology 322W. Introduction to Russian political and protest cultures—beyond the headlines and outside the Kremlin walls. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322W, 324L (Topic: Power and Resistance in Russia), Russian, East European, and Eurasian Studies 345 (Topic: Power and Resistance in Russia), 345 (Topic 13). Additional prerequisite: Upper-division standing.

**Topic 16: Comparative White Nationalisms.** Same as Anthropology 323I. Consider critical questions about the constructions of whiteness and nationalism across the globe. Examine, through an anthropological lens, how the boundaries of whiteness changed throughout history, and its relationship to far-right political groups, to trace the history of white nationalism and its present-day global resurgence. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 323I, 324L (Topic: Comparing White Nationalisms), Russian, Eastern European, and Eurasian Studies 345 (Topic: Comparing White Nationalisms), 345 (Topic 16). Additional prerequisite: Upper-division standing.

**Topic 17: Global Perspectives of Health, Illness, and Inequality.** Same as Anthropology 324Q. Use an anthropological framework to think critically and analytically about global past and contemporary issues in health. Examine the root causes of health, illness, and inequality. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324Q, Russian, East European, and Eurasian Studies 345 (Topic: Global Perspectives of Health/Illness/Inequality), 345 (Topic 17). Additional prerequisite: Upper-division standing.

**REE 350C. Capstone Seminar.**

Explore advanced research skills and undertake an independent, original research project on an approved subject area. Select and define a subject area, complete a literature review, identify primary sources, and complete a research paper (or approved project). Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

**REE 358Q. Supervised Research.**

Individual instruction. Prerequisite: Upper-division standing.

**REE 379C. Conference Course.**

Conference course. May be repeated for credit. Prerequisite: Consent of the undergraduate adviser in Russian, East European, and Eurasian studies.

**REE 679H. Honors Tutorial Course.**

Intensive reading and research planned with and approved by the honors adviser, followed by completion of a thesis. Conference course for two semesters. Required of Russian, East European, and Eurasian studies majors who plan to seek special honors in Russian, East European, and Eurasian studies. Prerequisite: For 679HA, upper-division standing, admission to the Russian, East European, and Eurasian Studies Honors Program, and consent of the honors adviser; for 679HB, Russian, East European, and Eurasian Studies 679HA.

**Graduate Courses**

**REE 380. International Business Fellows Seminar.**

Same as Asian Studies 391 (Topic 6), Latin American Studies 381 (Topic 8), and Middle Eastern Studies 380. Multidisciplinary seminar for students in area studies, business administration, law, and public policy. The faculty includes both academics and business leaders. Only one of the following may be counted: Asian Studies 391 (Topic 6), International Business 395 (Topic: International Business Fellows Seminar), Latin American Studies 381 (Topic 8), Middle Eastern Studies 380, Public Affairs 388K (Topic: International Business Fellows Seminar), Russian, East European, and Eurasian Studies 380.

**REE 381. Seminar in Russian, East European, and Eurasian Civilizations and Cultures.**

Core course. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

**REE 382. Conference Course in Russian, East European, and Eurasian Studies.**

Individual instruction on some aspect of the former Soviet Union or Eastern Europe. Conference course. May be repeated for credit. Prerequisite: Graduate standing.

**REE 385. Topics in Russian, East European, and Eurasian Studies.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

**REE 386. Topics in Literature and Culture.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

**Topic 1: Chechnya: Politics, Power, and People.** The history, culture, religions, and recent upheaval of Chechnya. Russian, East European, and Eurasian Studies 385 (Topic: Chechnya: Politics, Power, and People) and 386 (Topic 1) may not both be counted.

**Topic 2: Bulgakov's Master and Margarita.** Only one of the following may be counted: Russian, East European, and Eurasian Studies 385 (Topic: Bulgakov's Master and Margarita), 385 (Topic 2), 386 (Topic 2).

**Topic 3: Russian Literature and the Devil.** Examines Russian literature's extensive reflection on the nature and place of evil in human existence. Only one of the following may be counted: Russian, East European, and Eurasian Studies 385 (Topic: Russian Literature and the Devil), 385 (Topic 3), 386 (Topic 3).

**Topic 4: Madness and Madmen in Russian Literature.** Russian, East European, and Eurasian Studies 385 (Topic: Madness and Madmen in Russian Literature) and 386 (Topic 4) may not both be counted.

**Topic 5: Stalinism: Ideology and Culture.** Same as History 386S. Examine Stalinism as a complex historical, ideological, and cultural phenomenon that crucially shaped Russia's destiny from the twentieth century to the present moment. Consider this phenomenon beyond popular stereotypes (blood-thirsty tyrant; miserable and terrorized population; total propaganda; etc). Three lecture hours a week for one semester. Only one of the following may be counted: History 386S, Russian, Eastern European, and Eurasian Studies 386 (Topic: Stalinism: Ideology & Culture), 386 (Topic 5). Additional prerequisite: Graduate standing.

**Topic 6: Memory and Archive in the European Novel.** Examine 20th-century European novels that function as archives of cultural memory to retrieve individual and collective memories that lay hidden and forgotten by 20th-century history. Consider critically acclaimed writers, such as W. G. Sebald, Dubravka Ugresic, Danilo Kis, Witold Gombrowicz, and Dasa Drndic. Russian, Eastern European, and Eurasian Studies 386 (Topic: Memory/Archive in Europe) and 386 (Topic 6) may not both be counted.

**Topic 7: Conspiracy Culture in the United States and Russia.** Examine a wide spectrum of conspiracist expression, from such historical texts as 'The Protocols of the Elders of Zion' to the fictions of Don DeLillo, Thomas Pynchon, Fyodor Dostoevsky, Viktor Pelevin, and others. Consider a number of pop culture artifacts that thematize conspiracy and paranoia, as well as secondary works by contemporary scholars.
working in the field of conspiracy studies. Russian, East European, and Eurasian Studies 386 (Topic: Conspcry Culture US/Russia) and 386 (Topic 7) may not both be counted.

**Topic 8: Satire and Politics.** Explore several contemporary novels, featuring comedy or satire, from different Eastern European regions (Russia, Ukraine, Poland, Dagestan, Slovenia, Romania) to consider how complex history and politics are often intertwined with fantastical, humorous, and grotesque elements. Russian, East European, and Eurasian Studies 386 (Topic: Satire and Politics) and 386 (Topic 8) may not both be counted.

**Topic 9: Post-Communist Protest in Ukraine and Eastern Europe.** Consider the range of protest movements and revolutions resulting from the collapse of communism in the former Soviet Union. Examine the dismantling of the “socialist realism” paradigm in literature and the arts, using a range of literary and non-fiction texts and films to explore these developments in Ukraine, Poland, Belarus, Russia, and other countries. Russian, East European, and Eurasian Studies 386 (Topic: Postcom Protest Ukraine/Eur) and 386 (Topic 9) may not both be counted.

**REE 387. Topics in Economics, History, and Government.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

**Topic 1: Security and Policy in Eastern Europe and Russia.** Consider key foreign policy challenges and security issues facing post-communist Eastern European countries from the perspective of their respective NATO and EU memberships. Examine contemporary policy debates regarding a resurgent Russian, Chinese foreign policy outreach, and non-state actors, as well as challenges and concerns on terrorism, extremism, and ethnic, religious, and political radicalization. Only one of the following may be counted: Government 390L (Topic: Security/Policy E Eur/Rus), Russian, East European, and Eurasian Studies 387 (Topic: Security/Policy E Eur/Rus), 387 (Topic 1).

**Topic 2: Protest and Revolution in Eastern Europe.** Explore the causes, and the patterns and modes of mobilization, of protest and regime change in Eastern Europe from the 1956 Hungarian Revolution to the 2014 Ukrainian revolution. Examine and compare the specific national roots of discontent, the mechanics of mass mobilization, and the patterns of democratic uprisings, as well as the responses of national elites and external actors, in the context of these countries’ socialist and post-socialist pathways. Russian, East European, and Eurasian Studies 387 (Topic: Protest and Rev in E Europe) and 387 (Topic 2) may not both be counted.

**Topic 3: Communism in Eastern Europe.** Same as History 383D. Explore the complicated nature of communist rule in Eastern Europe in its many forms, from Poland in the North to Yugoslavia in the South. Examine the variety of lived experiences of citizens of Eastern Europe, from the imposition of communism in the region after World War II to the collapse of the system in 1989. Discuss the most recent scholarship on the region that ties regional developments to the broader Cold War context, and covers issues ranging from state-society dynamics, to religion, consumer culture, urban change, and collectivization. Three lecture hours a week for one semester. Only one of the following may be counted: History 383J (Topic: Communism/ Eastern Europe), 383D, Russian, East European, and Eurasian Studies 385 (Topic: Communism/ Eastern Europe), 387 (Topic 3). Additional prerequisite: Graduate standing.

**REE 388. Topics in Anthropology, Sociology, and Geography.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

**Topic 1: Post-Soviet Geopolitics.** Examine the major geopolitical issues in the post-Soviet space, including the history of formation of ethnic and cultural identities, nation-building, and challenges to the regional development. Consider the influences of the ‘new world order’ on the former Soviet Union republics and their political, demographic, and socio-economic patterns, with special attention on the development of foreign relations by the newly independent countries with their neighbors. Russian, East European, and Eurasian Studies 388 (Topic: Post-Soviet Geopolitics) and 388 (Topic 1) may not both be counted.

**Topic 2: Global Race and Racism.** Trace the concept of race over time and in its various socio-racial configurations across the globe. Consider race and racism from a global perspective, and utilize anthropological frameworks to analyze the historical and contemporary aspects of racism, racialization, white supremacy, and racial belonging. Russian, East European, and Eurasian Studies 388 (Topic: Global Race and Racism) and 388 (Topic 2) may not both be counted.

**Topic 3: Ethnography of Digital Media.** Investigate new digital technologies and their impact on social worlds, survey old media paradigms (the novel, the newspaper), and explore new social kinds (the troll, the hashtag, the GIF archive, the emoticon, the TikTok challenge). Focus on the “practical” contributions to conversations about media, but also consider classical theoretical text to develop a rigorous understanding of new media forms, and to design ethnographic data collection methods for projects that can answer a variety of questions about digitally mediated interaction. Russian, East European, and Eurasian Studies 388 (Topic: Ethnography of Digitl Media) and 388 (Topic 3) may not both be counted.

**REE 189. Master’s Writing Colloquium.**

Receive guidance and assistance through the process of writing a Master’s thesis or report. Intended for Master of Arts candidates in the final year of their graduate studies. One lecture hour a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and concurrent registration in a thesis or report class.

**REE 698. Thesis.**

The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in Russian, East European, and Eurasian studies; for 698B, Russian, East European, and Eurasian Studies 698A.

**REE 398R. Master’s Report.**

Preparation of a report to fulfill the requirement for the master’s degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in Russian, East European, and Eurasian studies.

**Professional Courses**

**RHE - Rhetoric and Writing**

**Rhetoric and Writing: RHE**

**Lower-Division Courses**

**RHE 306 (TCCN: ENGL 1301). Rhetoric and Writing.**

An introductory writing course that includes instruction in practical reasoning and the principles of rhetoric. Three lecture hours a week for one semester. Only one of the following may be counted: English 603A, 303C, Rhetoric and Writing 306, 306Q, Tutorial Course 603A, 303C. Prerequisite: A passing score on the writing section of the Texas Higher Education Assessment (THEA) test (or an appropriate assessment test).
RHE 306Q. Rhetoric and Writing for Nonnative Speakers of English.
Enrollment limited to nonnative speakers of English. An introductory writing course that includes instruction in practical reasoning and the principles of rhetoric, as well as grammar and mechanics of standard American English. Five lecture hours a week for one semester. Only one of the following may be counted: English 603A, 303C, Rhetoric and Writing 306, 306Q, Tutorial Course 603A, 303C. Prerequisite: Students must present their scores on the Test of English as a Foreign Language (TOEFL) to the Rhetoric and Writing Office prior to registering.

RHE 309J (TCCN: ENGL 1302). Topics in Writing.
Study and practice methods of rhetorical analysis within the contexts of disputed issues of academic, political, or cultural significance. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Rhetoric and Writing 306 or 306Q.

RHE 309S. Critical Reading and Persuasive Writing.
A writing course designed to teach advanced rhetorical analysis and advocacy on public issues. Three lecture hours a week for one semester. Prerequisite: Rhetoric and Writing 306 or 306Q.

RHE 310. Intermediate Expository Writing.
An intensive writing workshop, focusing on style and readability. Three lecture hours a week for one semester. Prerequisite: English 603A, Rhetoric and Writing 306, 306Q, or Tutorial Course 603A.

RHE 312. Writing in Digital Environments.
A writing course focused on using, interpreting, and analyzing traditional and emerging technologies. Taught using networked computers. Three lecture hours a week for one semester. Prerequisite: Rhetoric and Writing 306.

Introduction to the fundamentals of computer programming and practice in computation as a rhetorical activity. Three lecture hours a week for one semester. Liberal Arts 319 (Topic: Computer Programming: Liberal Arts) and Rhetoric and Writing 314 may not both be counted.

RHE 315. Introduction to Visual Rhetoric.
A writing course designed to teach students to analyze and produce visual and nonverbal forms of rhetoric. Three lecture hours a week for one semester. Prerequisite: Rhetoric and Writing 306.

RHE 317 (TCCN: ENGL 2311). Technical Writing.
Reading and writing in professional and technological environments. Three lecture hours a week for one semester. Prerequisite: English 603A, Rhetoric and Writing 306, 306Q, or Tutorial Course 603A.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Rhetoric and Writing. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses
Examine major terms, issues, and approaches in the discipline of rhetoric and writing. Practice analysis and application. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and one of the following: English 303C, Rhetoric and Writing 306, 306Q, or Tutorial Course 303C.

RHE 325M. Advanced Writing.
An advanced course designed to improve and refine writing. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and one of the following: English 303C, Rhetoric and Writing 306, 306Q, or Tutorial Course 303C.

RHE 328. Topics in Professional and Technical Writing for Liberal Arts Majors.
Examine genres, processes, contexts, and practices of technical and professional communication. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and one of the following: English 303C, Rhetoric and Writing 306, 306Q, or Tutorial Course 303C.

Topic 1: Magazine Writing and Publishing. Introduction to magazine writing, editing, and publishing, with an emphasis on the nonfiction article.
Topic 2: Writing for Nonprofits. Studies the writing genres and rhetorical strategies that are routinely used in nonprofit organizations. Covers business reports, grant writing, and feature writing.
Topic 4: Writing for Entrepreneurs. Studies the genres and rhetorical strategies that entrepreneurs use to persuade stakeholders, including heuristics for developing business models, market reports, and pitches. Rhetoric and Writing 328 (Topic: Writing for Entrepreneurs) and 328 (Topic 4) may not both be counted.
Topic 5: Writing for Digital Media. Examine the concepts, practices, and technologies associated with composing in digital spaces. Rhetoric and Writing 328 (Topic: Writing for Digital Media) and 328 (Topic 5) may not both be counted.

Topic 6: Technical Communication and Wicked Problems. Examine the nature of wicked problems and the roles for technical communicators, including effective strategies for engaging public audiences and facilitating stakeholder dialogue. Rhetoric and Writing 328 (Topic: Tech Comm & Wicked Problems) and 328 (Topic 6) may not both be counted.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Rhetoric and Writing. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

RHE 330C. Advanced Studies in Digital Rhetoric.
Examine the role of information technologies in communication and culture. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and one of the following: English 303C, Rhetoric and Writing 306, 306Q, or Tutorial Course 303C.

Topic 2: Designing Text Ecologies. Explores the function and interaction of texts in the workplace. Emphasis on research, analysis, and design of the strategic, tactical, and operational aspects of texts.
Topic 4: Writing and Photography. Examination of issues in the history of photography and how images and words work in combination. Emphasis on improving skills in analysis, writing, and photography. Rhetoric and Writing 330C (Topic: Writing and Photography) and 330C (Topic 4) may not both be counted.

Topic 5: Ethics and New Media. Exploration of contemporary ethical dilemmas and principles arising with emergent technologies, and
their impact on rhetoric and writing. Rhetoric and Writing 330C (Topic: Ethics and New Media) and 330C (Topic 5) may not both be counted.

**Topic 6: Networked Writing.** Examines how writers present themselves and their arguments across a range of media and genres. Practices rhetorical skills within digital networks. Rhetoric 330C (Topic: Networked Writing) and 330C (Topic 6) may not both be counted.

**Topic 7: Digital Storytelling.** Examines and practices the development of narrative through multiple media (audio, visual, video, et al). Rhetoric and Writing 330C (Topic: Digital Storytelling) and 330C (Topic 7) may not both be counted.

**Topic 8: Writing with Sound.** Introduces sound studies and practices techniques for recording, editing, and publishing writing for and with sound. Rhetoric and Writing 330C (Topic: Writing with Sound) and 330C (Topic 8) may not both be counted.

**Topic 9: Digital Self and Rhetoric.** Examines the pervasiveness of digital culture and cultivates strategies for presenting one's digital self through academic, professional, and civic venues. Rhetoric and Writing 330C (Topic: Digital Self and Rhetoric) and 330C (Topic 9) may not both be counted.

**Topic 10: Access Designed.** An introduction to disability studies and accessible design by reading, discussing, designing, and practicing with the technologies and techniques that compose accessible writing and devices. Rhetoric and Writing 330C (Topic: Access Designed) and 330C (Topic 10) may not both be counted.

**Topic 11: Mobile Environments.** Examines the principles of user experience (UX) design, specifically the creation of low-fidelity mobile application solutions, which are designed to help users explore and create meaningful and personally relevant experiences within their environments. Rhetoric and Writing 330C (Topic: Mobile Environments) and 330C (Topic 11) may not both be counted.

**Topic 12: Information Design.** Examines the fundamental principles of document and information design that inform practical and theoretical skills related to desktop publishing, visual communication, and publication production. Rhetoric and Writing 330C (Topic: Information Design) and 330C (Topic 12) may not both be counted.

**Topic 13: Rhetoric and Data Visualization.** Explores the principles for designing tables, graphs, and figures that are accessible and persuasive to readers and that are accountable to the data. Examine and critique visualizations from academic and popular media. Create visualizations from real-world data sets. Rhetoric and Writing 330C (Topic: Rhet and Data Visualization) and 330C (Topic 13) may not both be counted.

**Topic 14: Rhetorical Metrics.** Explore an introduction to text analytics with a focus on computational and statistical methods within rhetorical studies. Rhetoric and Writing 330C (Topic: Rhetorical Metrics) and 330C (Topic 14) may not both be counted.

**Topic 15: Rhetoric, Risk, and Environmental Justice.** Explore the intersection of rhetoric, social justice, and environment through the theoretical lens of environmental justice. Rhetoric and Writing 330C (Topic: Rhetoric/Risk/Envrntl Justice) and 330C (Topic 15) may not both be counted.

**RHE 330D. History of Rhetoric.**

Geographically and historically situate and examine figures, movements, traditions, and productions in rhetoric and public argument. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and one of the following: English 303C, Rhetoric and Writing 306, 306Q, or Tutorial Course 303C.

**Topic 1: Sophistry and the Invention of Rhetoric.** Examines the role of sophists and sophistry in the development and practice of rhetoric as an art, from antiquity to modern times.

**Topic 2: Kairos and the Rhetorical Situation.** Introduction to kairos, a key concept in rhetorical theory from ancient to modern times, that focuses attention on making a text appropriate for its historical situation. Explores why some writing succeeds at attracting attention and inspiring action, while some writing fails.

**Topic 3: Deliberating War.** Studies the recurrent means of making arguments for and against war, and the role of rhetoric in public deliberation. Rhetoric and Writing 330D (Topic: Pro- and Anti-War Rhetoric) and 330D (Topic 3) may not both be counted.

**Topic 4: Rhetoric and Racism.** Explores theories of rhetoric by examining arguments about group identity, from Athenian discussions of “barbarism” in the fourth century BC to nineteenth-century arguments about citizenship.

**Topic 5: History of Public Argument.** A survey of the practice and theory of argumentation, with particular attention to its civic and political uses and implications.

**Topic 6: Classical to Modern Rhetoric.** Surveys the works of major rhetorical theorists and practitioners in the Western tradition from the ancient Greeks to the present.

**Topic 7: Rhetoric Invented, Revised, Retold.** Survey of figures, movements, and debates in the history of rhetoric and exploration of the rise of revisionist historiography and comparative rhetoric in the twenty-first century. Rhetoric and Writing 330D (Topic: Rhetoric Invented/Revised/Retold) and 330D (Topic 7) may not both be counted.

**Topic 8: Philosophy Versus Rhetoric.** Study of the co-emergence and subsequent split between rhetoric and philosophy in the classical period and their potential reunification in a contemporary context. Rhetoric and Writing 330D (Topic: Philosophy vs Rhetoric) and 330D (Topic 8) may not both be counted.

**Topic 9: Rhetoric in the English Renaissance.** Examination of how the art of rhetoric, developed in ancient times by the Greeks and Romans, was understood and debated during the European Renaissance, particularly in England. Rhetoric and Writing 330D (Topic: Rhetoric in the English Renaissance) and 330D (Topic 9) may not both be counted.

**Topic 10: Arguing with Liberals.** A survey of liberal political theory from the late seventeenth through the twentieth centuries with special attention to theories and practices of public argumentation. Rhetoric and Writing 330D (Topic: Arguing with Liberals) and 330D (Topic 10) may not both be counted.

**Topic 11: Cicero, Rhetoric, and Ancient Rome.** An exploration of Marcus Tullius Cicero's writings on rhetoric, his major political speeches, and his philosophical dialogues in the context of the late Roman republic and the Roman Revolution (ca. 133-40 BCE). Rhetoric and Writing 330D (Topic: Cicero, Rhet & Ancient Rome) and 330D (Topic 11) may not both be counted.

**Topic 12: Women’s Rhetorical Traditions.** Examine how popular rhetorical theories and pedagogies were adapted to fit specific social, cultural, and political contexts and thus shaped the communication practices of girls and women in 19th and early 20th century America. Consider why females were excluded from the rhetorical tradition and the challenges scholars face in writing historical accounts. Rhetoric and Writing 330D (Topic: Women’s Rhet Traditions) and 330D (Topic 12) may not both be counted.

**Topic 13: Augustine and Christian Rhetoric.** Study Augustine's writings on language, rhetoric, and epistemology with attention paid to contemporary Roman and Greek philosophical and rhetorical movements, such as skepticism, Platonic idealism, the second sophistic, and the Christian homiletic tradition. Rhetoric and Writing 330D (Topic: Augustine and Christian Rhet) and 330D (Topic 13) may not both be counted.

**Topic 14: Rhetoric of Latinx Social Movement.** Examine Latinx social movements and their rhetorical features in the Americas from the nineteenth to the twenty-first centuries. Rhetoric and Writing 330D...
RHE 330E. Rhetorical Theory and Analysis.
Critically explore contemporary rhetorical theories and their analytical applications. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and one of the following: English 303C, Rhetoric and Writing 306, 306Q, or Tutorial Course 303C.

Topic 2: Demagoguery. Examines material produced by rhetors commonly considered demagogues and assesses the scholarly discussions of these individuals.

Topic 3: Democracy and the Media. Rhetorical analysis, with particular attention to the effects of technologies and journalistic institutions on public deliberation.

Topic 4: Modern Rhetorical Criticism. Use of contemporary critical methods to investigate, interpret, and explain rhetorical acts and artifacts. Rhetoric and Writing 330E (Topic: Modern Rhetorical Criticism) and 330E (Topic 4) may not both be counted.

Topic 5: Comparative Rhetoric. Examination of rhetorical concepts and practices in various rhetorical traditions, and how they underlie the functions of rhetoric in their different historical and cultural contexts. Rhetoric and Writing 330E (Topic: Comparative Rhetoric) and 330E (Topic 5) may not both be counted.

Topic 6: Nonargumentative Rhetoric in Zen. Exploration of unconventional uses of language including contradiction, negation, story, surprise, gesture, and silence are used in Zen training as resources for transformational change. Rhetoric and Writing 330E (Topic: Nonargumentative Rhetoric in Zen) and 330E (Topic 6) may not both be counted.

Topic 7: Psychology of Writing and Persuasion.

Topic 8: Pathos. Examines the persuasive power of emotion in critical thinking and prudent judgment. Rhetoric and Writing 330E (Topic: Pathos) and 330E (Topic 8) may not both be counted.

Topic 9: Rhetoric and the Law. Examine legal rhetoric and how gender, race, class, ability, and nationality constitute the law and subjects before the law. Rhetoric and Writing 330E (Topic: Rhetoric and the Law) and 330E (Topic 9) may not both be counted.

Topic 11: Film as Rhetoric. Examine films as rhetorical acts that serve a powerful function in American society. Rhetoric and Writing 330E (Topic: Film as Rhetoric) and 330E (Topic 11) may not both be counted.

Topic 12: Rhetoric and Narrative. Examine features, exigences, and functions of different types of rhetorical narratives. Rhetoric and Writing 330E (Topic: Rhetoric and Narrative) and 330E (Topic 12) may not both be counted.

Topic 13: Divine Persuasion in Biblical Times and Place. Same as Jewish Studies 363 (Topic 24) and Middle Eastern Studies 342 (Topic 57). Explore the use of persuasive strategies in an ancient and non-Western culture, that of the Hebrew Bible. Using rhetorical techniques, analyze three types of texts: narratives of interactions between ordinary people and God; interactions between people, God, and authorized prophets; and prayers in prose and poetry. Three lecture hours a week for one semester. Only one of the following may be counted: Jewish Studies 363 (Topic: Persuasion Bible Time/Place), 363 (Topic 24), Middle Eastern Studies 342 (Topic: Persuasion Bible Time/Place), 342 (Topic 57), Rhetoric and Writing 330E (Topic: Persuasion Bible Time/Place), 330E (Topic 13). Additional prerequisite: Upper-division standing and one of the following: English 303C, Rhetoric and Writing 306, 306Q, or Tutorial Course 303C.

RHE 360M. Rhetoric and Writing for Teachers of English.
Designed for students seeking a secondary school teaching certificate or those in the UTeach-Liberal Arts program. An advanced course that examines theories of writing and writing pedagogy. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and one of the following: English 303C, Rhetoric and Writing 306, 306Q, or Tutorial Course 303C.

RHE 366. Internship in Rhetoric and Writing.
Research and staff experience working in an appropriate nonprofit, public-, or private-sector entity. Ten to twelve hours a week for one semester. May be repeated once for credit when the internships vary. Offered on the pass/fail basis only. Prerequisite: Upper-division standing, twelve semester hours of coursework in rhetoric and writing, and consent of instructor.

RHE 367R. Conference Course in Rhetoric and Writing.
Supervised work on specific projects in rhetoric and writing. Three conference hours a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing; one of the following: English 303C, Rhetoric and Writing 306, 306Q, or Tutorial Course 303C; and approval of written application by the supervising instructor.

RHE 368C. Writing Center Internship.
Intensive reading, writing, and discussion in writing center theory and philosophy, tutoring methods, and writing pedagogy, as well as a review of standard American English usage and mechanics; followed by a supervised apprenticeship as a peer consultant in the University Writing Center. Two lecture hours and two apprenticeship hours a week for one semester. Prerequisite: Upper-division standing; one of the following: English 303C, Rhetoric and Writing 306, 306Q, or Tutorial Course 303C; and approval of written application by instructor.

RHE 368E. Editing for Publication.
Advanced instruction in revising and editing for publication. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and one of the following: English 303C, Rhetoric and Writing 306, 306Q, or Tutorial Course 303C.

Topic 1: The Book: Prospectus to Proofs. Designed to make students better writers and more careful editors, the course includes creation of a simulated book from proposal stage to editing of final page proofs.

Topic 2: Grammar for Writers, Editors, and Teachers. Examines the grammar of written English by assessing grammatical issues, handbooks, and controversies.

RHE 375. Capstone Seminars in Rhetoric.
Allows the student to integrate the knowledge gained in rhetoric and writing through a major independent project. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing, and Rhetoric and Writing 321, 330C, 330D, and 330E.

RHE 379C. Advanced Topics in Rhetoric and Writing.
An advanced course focused on specific theories or practices of rhetoric and writing. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and one of the following: English 303C, Rhetoric and Writing 306, 306Q, or Tutorial Course 303C.
RHE 679H. Honors Tutorial Course.
Research and development of a thesis/project topic and proposal followed by the writing and defense of an honors thesis or development and defense of an honors project. The equivalent of three lectures hours a week for two semesters. Prerequisite: For 679HA, upper-division standing, completion of at least six hours of upper-division rhetoric and writing courses, admission to the Rhetoric and Writing Honors Program, and consent of the honors adviser; for 679HB, credit for 679HA.

Graduate Courses
Explore specialized subject areas in rhetoric and writing studies in an individualized format. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit. Prerequisite: Graduate standing.

RHE 381. Research Methods in Rhetoric and Writing.
Examine fundamental assumptions and procedures for conducting research in rhetoric and writing studies, including the links between theory and methods, qualitative, quantitative, archival, critical approaches, assessment, and research ethics. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

RHE 382. Rhetoric and Writing Theory.
Examine major theoretical movements in rhetorical studies, writing studies, and related areas. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

RHE 383. Histories of Rhetoric and Writing.
Explore persuasive traditions, disciplinary histories, and historiographic considerations in rhetoric and writing studies. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

Examine the theory, practice, and study of public rhetorics, including social movement rhetorics, community advocacy, and professional/technical communication. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

RHE 385. Digital Writing and Research Studio.
Examine and apply the tools, techniques, and theories of digital research and pedagogy in an experiential format. Four-and-one-half laboratory hours a week for one semester. May be taken two times for credit. May be repeated for credit. Prerequisite: Graduate standing.

RHE 389E, 689E, 989E. Area Exam and Prospectus Hours.
Prepare for required Field and Prospectus examinations under the supervision of a faculty member. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and consent of the graduate advisor.

RHE 389R. Master's Report.
Prepare a report to fulfill the requirement for the master's degree under the report option. Three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of the graduate advisor.

RHE 391. Topics in Rhetoric and Writing.
Examine specialized topics in rhetoric and writing studies. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

RHE 398T. Supervised Teaching in Rhetoric and Writing.
Three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing, consent of instructor, and appointment as an assistant instructor in a lower-division rhetoric and writing course.

For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses
RIM - Race, Indigeneity, and Migration

Race, Indigeneity, and Migration: RIM

Lower-Division Courses
RIM 301. Introduction to Race, Indigeneity, and Migration.
Conceptually explore key terms in the study of race, indigeneity and migration. Examine how race, indigeneity and migration have been central to the development of modern nations, economies and cultures through different epochs in United States history. Three lecture hours a week for one semester.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad advisor in the academic unit. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses
RIM 320C. Power and Place: Making Texas History.
Same as African and African Diaspora Studies 320C, History 365G (Topic 21), and Mexican American Studies 320C. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 320C, History 365G (Topic: Power/Place: Making Tex His), History 365G (Topic: Power/Place: Making Tex His), 365G (Topic 21), Mexican American Studies 320C, Race, Indigeneity, and Migration 320C. Prerequisite: Upper-division standing.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad advisor in the academic unit. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

RIM 330N. Migration Crisis.
Same as African and African Diaspora Studies 360J, Asian American Studies 330N, and Mexican American Studies 364J. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 360J, 374D (Topic: Migration Crisis), Asian American Studies 330N, 335 (Topic: Migration Crisis),
Romanian: ROM

Lower-Division Courses

ROM 301. Topics in Romanian.
May be repeated for credit when the topics vary.

ROM 406. First-Year Romanian I.
Four lecture hours a week for one semester.

ROM 407. First-Year Romanian II.
Four lecture hours a week for one semester. Prerequisite: Romanian 406.

ROM 312K. Second-Year Romanian I.
Three lecture hours a week for one semester. Prerequisite: Romanian 407.

ROM 312L. Second-Year Romanian II.
Three lecture hours a week for one semester. Prerequisite: Romanian 312K.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Slavic and Eurasian Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

ROM 325. Third-Year Romanian I.
Three lecture hours a week for one semester. Prerequisite: Romanian 312L.

ROM 326. Third-Year Romanian II.
Three lecture hours a week for one semester. Prerequisite: Romanian 325.

ROM 328. Topics in Advanced Romanian.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Romanian 326.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Slavic and Eurasian Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Graduate Courses

ROM 380. Topics in Advanced Romanian.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

ROM 395. Conference Course.
Study of individual projects in Romanian language, literature, or culture. The equivalent of three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Consent of the graduate adviser.

Radio-Television-Film: RTF

Lower-Division Courses

RTF 301N. Introductory Topics in Radio-Television-Film.
Restricted to non-radio-television-film majors only. Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

RTF 301R. Topics in Radio-Television-Film.
Restricted to radio-television-film majors. Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

RTF 301S. Social Activism in Film.
Restricted to non-radio-television-film majors. Explores ways filmmakers express ideas about important movements and social issues. Three lecture hours and one two-and-one-half-hour screening each week for one semester. Radio-Television-Film 301N (Topic: Social Activism in Film) and 301S may not both be counted.

RTF 303C. Introduction to Media and Entertainment Industries.
Introduction to Media and Entertainment Industries provides a foundational social science understanding of media and entertainment industries. Drawing on insights from media studies, management, and sociology, uses social science theories, methods, and practices to examine social, political, and economic forces that shape and are shaped by media production, distribution, and monetization. Three lecture hours per week for one semester. Additional hours may be arranged.

RTF 304. Storytelling in Film and Television.
Restricted to non-radio-television-film majors. Study of the way meaning is structured and perceived in film, television, and digital/interactive media; introduction to basic storytelling techniques in multiple media formats. Includes viewing and analysis of movies, television series, video games, and various other media narratives. Three lecture hours and two
and one-half hours of film screenings a week for one semester. Radio-Television-Film 304 and 317 may not both be counted.

**RTF 306 (TCCN: COMM 2366, DRAM 2366). Introduction to World Cinema History.**
Survey of the aesthetic, cultural, economic, political, and technological trends impacting motion pictures around the world from their origins in the late nineteenth century through the present. Three lecture hours and one and one-half hour of film screenings a week for one semester.

**RTF 307. Media and Society.**
Concentrates on media's role in society, including our contributions as participants and audiences, as well as consequences to our social norms, political engagement, and identities. Considers how media work within local, national, and global contexts, addressing social continuities and disruptions, organizational processes, policies and politics, and economic conditions. Three lecture hours a week for one semester. An additional discussion section may also be required.

**RTF 308. Development of Film and Media.**
Study of historical development of the film, radio, television, and digital media industries. Overview of the cultural, social, economic, and technological contexts in which media have been produced and circulated. Three lecture hours and two and one-half hours of film screening a week for one semester. A one-hour discussion section may also be required.

**RTF 317. Narrative Strategies and Media Design.**
Study of the way meaning is structured and perceived in film, television, and digital/interactive media; introduction to basic storytelling techniques in multiple media formats. Includes viewing and analysis of movies, television series, video games, and various other media narratives. Three lecture hours, one hour discussion, and one two-and-one-half hour film screening a week for one semester. Students may not enroll in this course more than twice. Radio-Television-Film 304 and 317 may not both be counted. Prerequisite: Three semester hours of lower-division coursework in radio-television-film.

**RTF 318. Introduction to Image and Sound.**
Exploration of fundamental film and digital production concepts and techniques through lectures, projects, and laboratory work. Three lecture hours and three laboratory hours a week for one semester. Students may not enroll in this course more than twice. Prerequisite: Six semester hours of lower-division coursework in radio-television-film.

**RTF 319S, 219S, 319S, 419S, 519S, 619S, 719S, 819S, 919S. Topics in Radio-Television-Film.**
This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Radio-Television-Film. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**Upper-Division Courses**

**RTF 321C. History of American Television.**
Survey of the evolution of United States television programming, aesthetics, production, and policy. Three lecture hours and two and one-half hours of television and other course-related screenings a week for one semester. Radio-Television-Film 316 and 321C may not both be counted. Prerequisite: Fifty-four semester hours of college coursework.

**RTF 321D. Film History to 1960.**
Introductory survey of the history of world cinema to 1960. Explores the development of film as a narrative medium, key filmmakers, films, and of the origins of the main elements of film grammar. Three lecture hours and two and one-half hours of film screenings a week for one semester. Prerequisite: Fifty-four semester hours of college coursework.

**RTF 322D. Film History 1960 to Present.**
Three lecture hours and two and one-half hours of film screenings a week for one semester. Radio-Television-Film 322C and 322D may not both be counted. Prerequisite: Fifty-four semester hours of college coursework.

**RTF 323C. Screening Race.**
Introduction to the study of race and ethnicity in U.S. film, television, and new media. Includes focus on media histories, media criticism, production strategies, and U.S. audiences. Three lecture hours and two and one-half hours of film screenings a week for one semester. Prerequisite: Fifty-four semester hours of college coursework.

**RTF 324C. Introduction to Global Media.**
Introduces the role of global media as a set of texts, technologies, and industries that shape our identities, our social worlds, and our political practices. Three lecture hours a week for one semester. Only one of the following may be counted: Journalism 351G, 359S (Topic: Introduction to Global Media), Radio-Television-Film 312C, 324C. Prerequisite: Fifty-four semester hours of college coursework.

**RTF 324L. Topics in the Entertainment Professions.**
Restricted to radio-television-film majors. Contemporary issues, practices, and skills related to communication and the entertainment industries, including studies in the business of entertainment, the entertainment professions, the creative process, and contemporary Hollywood cinema. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing; additional prerequisites vary with the topic.

**Topic 5: Careers in Entertainment-Los Angeles.** Explores specific career interests with a focus on skills, experience, training, and contacts that are required in Los Angeles. Taught in Los Angeles, California. Only one of the following may be counted: Communication 324 (Topic: Careers in Entertainment), 324 (Topic 5), Radio-Television-Film 324L (Topic: Careers in Entertainment), 324L (Topic 5).

**RTF 326C. Tech Culture.**
Examines ideas about the relationship between technology and culture, how US culture views technology, and the historically contingent design, development and use of different media and communication technologies. Three lecture hours a week for one semester. Only one of the following may be counted: Communication 309, Journalism 351T, 359S (Topic: Tech Culture), Radio-Television-Film 309, 326C. Prerequisite: Fifty-four semester hours of college coursework.

**RTF 327C. Digital Remix Cultures.**
Restricted to radio-television-film majors. Introduction to the study of digital remix cultures. Subjects will include medium specific mash-up cultures and platforms (image, audio, video), authorship and ownership, political remix and culture jamming, and memes. Assignments will merge theory and practice. Three lecture hours and two laboratory hours a week for one semester. Radio-Television-Film 319 and 327C may not both be counted. Offered on the letter-grade basis only. Prerequisite: Fifty-four semester hours of college coursework.

**RTF 328C. Gender and Media Culture.**
Same as Women’s and Gender Studies 324C. Critical analysis of media and its interrelation with issues of gender. Three lecture hours and one
two-and-one-half hour film screening a week for one semester. Only one of the following may be counted: Radio-Television-Film 325C, 328C, 359 (Topic: Women and Media Culture), 359S (Topic 2), Women’s and Gender Studies 324 (Topic: Gender and Media Culture), 324C. Prerequisite: Fifty-four semester hours of college coursework.

RTF 329C. Digital Media Production.
Interactive course designed to teach foundational Digital Media Production tools. Apply digital media tools and techniques to a variety of tasks in the pipeline of production from concept, storyboard, layout to composer, VFX, CG and interactive design. Three lecture hours and three laboratory hours each week for one semester. Radio-Television-Film 329C and 344M (Topic: Digital Media Production may not both be counted. Prerequisite: Forty-five hours of coursework.

Topics in Radio-Television-Film.
This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Radio-Television-Film. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Restricted to non-radio-television-film majors admitted to the Semester in Los Angeles Program. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

Introduction to applied media research and research criticism; fundamentals of audience analysis, survey design, experimental and field research, content analysis. Three lecture hours a week for one semester. Prerequisite: Fifty-four semester hours of college coursework.

RTF 330L. Internship in Film and Electronic Media.
Restricted to radio-television-film majors. Practical work experience related to the study of film, television, radio, or other media. Students must make their own arrangements to secure relevant internships. The equivalent of ten lecture hours a week for one semester. Radio-Television-Film 330L and 330M may not both be counted. Offered on the pass/fail basis only. Prerequisite: Upper-division standing.

RTF 330M. Internship in Digital Media.
Restricted to non-radio-television-film majors. Practical work experience in digital media and postproduction media. Students must make their own arrangements to secure relevant internships. The equivalent of ten lecture hours a week for one semester. Radio-Television-Film 330L and 330M may not both be counted. Offered on the pass/fail basis only. Prerequisite: Upper-division standing.

RTF 130N, 330N, 630N. Internship in Media Industries.
Practical work experience related to media industries. Internships to be secured by students. For 130N and 330N, an average of 10 work hours a week for one semester; for 630N, an average of 20 work hours a week for one semester. Offered on the pass/fail basis only. Prerequisite: Upper-division standing.

RTF 331K. Film, Video, and Television Theory.
Survey of basic theories that seek to explain the relationships between film, video, television, and their respective audiences. Three lecture hours and one two-and-a-half hour film screening a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Fifty-four semester hours of college coursework.

RTF 331L. Corporate and Instructional Video.
Restricted to radio-television-film majors. Study, design, production, use, and evaluation of corporate and instructional video materials. Three lecture hours a week for one semester, with studio hours to be arranged. Prerequisite: Upper-division standing.

RTF 331P. Topics in New Communication Technologies.
Applications and potential effects of new telecommunication and information technologies in the home, workplace, and in education, social services, and politics. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Fifty-four semester hours of college coursework.

RTF 331Q. Topics in Digital Media.
Survey, analyze, and assess current and emergent digital and social media technologies and cultures. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

RTF 331R. Topics in New Media.
Students produce projects in either film, video, computer animation, collage, sculpture, assemblage, soundscape, or performance. Prior experience in one or more media is helpful but not necessary. Three lecture hours and one and one-half studio hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: For radio-television-film majors, twelve semester hours of lower-division coursework in radio-television-film; for others, upper-division standing and consent of instructor.

RTF 333. Introduction to Screenwriting.
Restricted to radio-television-film majors. An introduction to screenwriting for features, short films, documentaries, and television. Lectures explore the basic theory of story, character, and structure. Students write original screenplays during workshop hours. Three lecture
hours and two workshop hours each a week for one semester. Creative Writing 325S and Radio-Television-Film 333 may not both be counted. Prerequisite: Upper-division standing and twelve semester hours of lower-division coursework in radio-televisio-film.

RTF 335. Television Analysis and Criticism.
Analysis of critical methods, selected television programs, and selected critics. Three lecture hours a week for one semester, with two-and-one-half-hours of film screening a week. May be repeated for credit when the topics vary. Prerequisite: Fifty-four semester hours of college coursework.

Topic 1: Television in the Post-Network Era. Examination of contemporary television's formal-aesthetic traits as well as its shifting position as a cultural, social, political and industrial force. Exploration of how television is being transformed as it converges with other digital technologies. Only one of the following may be counted: Radio-Television-Film 335 (Topic: Contemporary TV Criticism), 335 (Topic: TV Analysis and Criticism), 335 (Topic 1), and 335 (Topic 3).

Topic 2: Race, Class, and Gender in American Television. Same as Women's and Gender Studies 324D. Surveys history and contemporary debates regarding the construction of race, class, gender and sexual orientation in U.S. television from the late 1940s through the present day and related issues of television aesthetics, production practices, audiences, and advocacy. Three lecture hours a week for one semester, with two-and-one-half-hours of film screening a week. Only one of the following may be counted: American Studies 321 (Topic: Race/Class/Gender in Amer TV), Mexican American Studies 374 (Topic: Race/Class/Gender in Amer TV), Radio-Television-Film 335 (Topic 2), 335 (Topic: Race/Class/Gender in Amer TV), Women's and Gender Studies 324 (Topic: Race, Class and Gender in American Television), 324D. Additional prerequisite: Fifty-four semester hours of college coursework.

Topic 3: Contemporary Television Criticism. Only one of the following may be counted: Radio-Television-Film 335 (Topic: Contemporary TV Criticism), 335 (Topic: TV Analysis and Criticism), 335 (Topic 1), and 335 (Topic 3).

Topic 4: Queer Television. Same as Women's and Gender Studies 335D. Three lecture hours a week for one semester, with two-and-one-half-hours of film screening a week. Only one of the following may be counted: Radio-Television-Film 335 (Topic: Queer Television), 335 (Topic 4), Women's and Gender's Studies 335 (Topic: Queer Television), 335D. Additional prerequisite: Fifty-four semester hours of college coursework.

RTF 336. Special Projects in Radio-Television-Film.
Restricted to radio-television-film majors. Comprehensive research or creative projects in areas of special interest developed and executed by the student under faculty supervision. Individual instruction. May be taken twice for credit. May be repeated for credit. Prerequisite: Upper-division standing and consent of the department.

Fundamentals of audio program production. Students create either brief or long audio projects. Three lecture and three laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing; Radio-Television-Film 317 and 318 with a grade of at least B-, and six additional hours of lower division coursework in Radio-Television-Film.

Topic 1: Audio Visions. Radio-Television-Film 337 (Topic: Audio Visions) and 337 (Topic 1) may not both be counted.

Topic 2: Ears Only: Audio Storytelling. Audio production and post for storytelling using voice, actuality, music, ambience and sound effects. Structuring stories for audio only, plus microphone and recorder techniques, mono, stereo, and binaural recording, field mixers, basic Pro Tools, signal processing, and noise reduction; applicable to sound for picture as well.

RTF 337P. Multitrack Audio Production.
Restricted to radio-television-film majors. Principles and practice of multitrack audio production. Three lecture hours a week for one semester, with studio hours to be arranged. Prerequisite: Upper-division standing; Radio-Television-Film 317 and 318 with a grade of at least B- in each; and six semester hours of lower-division coursework in radio-televisio-film with a grade of at least C in each course.

RTF 340. Studio Production.
Introduction to production of television programs, including the multicamera format. Three lecture hours and three laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing, Radio-Television-Film 317 and 318 with a grade of at least B- in each, and six additional semester hours of lower-division coursework in radio-television-film.

Topic 1: Drama/Music Production.
Topic 2: Public Affairs Production.
Topic 4: Multi-Camera Television Directing. Radio-Television-Film 340 (Topic: Multi-Cam Television Directing) and 340 (Topic 4) may not both be counted.

RTF 340D. Topics in Design.
Explore the role of design and how the creation and selection of sets, locations, and environments contribute to the visual language of film. Analyze fundamental elements of story, production, critical analysis, and the collaborative process of film making from the design perspective. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

RTF 340M. Music Video and Film Production.
Restricted to radio-television-film majors. Three lecture hours and three laboratory hours a week for one semester. Only one of the following may be counted: Radio-Television-Film 340M, 343 (Topic 6), 366K (Topic: Music Film Production), 366K (Topic 5). Prerequisite: Upper-division standing; and Radio-Television-Film 366K (Topic 2), 366K (Topic 3), 366K (Topic 4), or 366K (Topic 6).

RTF 341. Audio Production: Sound for Picture.
Theory and practice of producing quality audio for television, film, and other picture media. Includes basic editing on a digital audio workstation. Three lecture hours and three laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

Topic 1: Audio Production Into Post. Designed to help students understand high quality audio production and the tools and techniques to get it, finishing with sound editing for picture and basic mixing. Radio-Television-Film 341 (Topic: Audio Production) and 341 (Topic 1) may not both be counted.

RTF 341C. Advanced Audio: Sound Design and Postproduction.
Sound design and editing, and fundamentals of postproduction audio mixing. Three lecture hours and three laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing, Radio-Television-Film 317 and 318 with a grade of at least B- in each, and six additional hours of lower-division coursework in Radio-Television-Film.
Topic 1: Sound Design and Mixing. Sound design and editing, and post-production sound process for film, television, and immersive media. Radio-Television-Film 341C (Topic: Sound Design and Mixing) and 341C (Topic 1) may not both be counted.

Topic 2: Sound for Picture: Editing and Mixing.

RTF 341D. Advanced Topics in Design.
Develop designs that will contribute to effective storytelling, from conceptualization to execution based on the needs of a script. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

RTF 342. Topics in Global Media.
Study of political, social, cultural, and economic factors affecting the use and impact of communication systems in an international context. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Fifty-four semester hours of college coursework.

Topic 2: Comparative Media Systems.
Topic 4: Participatory Media.
Topic 6: Development Communication. Same as Middle Eastern Studies 341 (Topic 4). Middle Eastern Studies 341 (Topic 4) and Radio-Television-Film 342 (Topic 6) may not both be counted.

Topic 7: Global Media Systems.
Topic 8: Development Communication and Social Change. Examines the strategic use of communication technologies and processes to engage in social change in a global context. Only one of the following may be counted: Latin American Studies 322 (Topic: Dev Comm and Social Change), Middle Eastern Studies 342 (Topic: Dev Comm and Social Change), Radio-Television-Film 342 (Topic: Dev Comm and Social Change), 342 (Topic 8).

Topic 9: Media and Empire. Radio-Television-Film 342 (Topic: Media and Empire) and 342 (Topic 9) may not both be counted.

Topic 10: Digital Mainland China and Taiwan. Only one of the following may be counted: Radio-Television-Film 342 (Topic 10), Radio-Television-Film 342 (Topic: Digital Mld China & Taiwan), Journalism 356C, 359S (Topic: Digital Mld China & Taiwan), Asian Studies 361 (Topic: Digital Mld China & Taiwan).

RTF 342S. Topics in Global Media.
Study of political, social, cultural, and economic factors affecting the use and impact of communication systems in an international context. Three lecture hours and one two-and-one-half hour screening a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Fifty-four semester hours of college coursework.

Topic 1: Global Hollywood. Radio-Television-Film 342 (Topic: Global Hollywood) and 342S (Topic 1) may not both be counted.

Topic 2: Indian Cinema. Radio-Television-Film 342 (Topic: Indian Cinema) and 342S (Topic 2) may not both be counted.

RTF 343. Advanced Video Production.
Restricted to radio-television-film majors. Advanced study in film, television, and media production. Three lecture hours and three laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing; Radio-Television-Film 340 or 366K.

Topic 2: Advanced Documentary Production. Individual and group production of a documentary, from research and preproduction to completion. Additional prerequisite: Radio-Television-Film 366K (Topic 3: Documentary Production)

Topic 5: Developing Independent Feature Films. Restricted to radio-television-film majors. Group research and lectures about producing an independent feature film. Three lecture hours and three laboratory hours a week for one semester. Radio-Television-Film 343 (Topic: Developing Indie Feature Films) and 343 (Topic 5) may not both be counted. Prerequisite: Upper-division standing and Radio-Television-Film 340 or 366K.

Topic 8: Cinema Laboratory. Explores the cinematic form on an elemental level through the making of several short films. Utilizes cinema-making skills through attention to process and experimentation in order to move to a higher level of precision. Radio-Television-Film 343 (Topic: Cinema Laboratory) and 343 (Topic 8) may not both be counted.

RTF 343C. Acting for Filmmakers.
 Restricted to radio-television-film majors. Explores core elements of acting technique through scene study, improvisation, and other exercises. Three lecture hours a week for one semester. Radio-Television-Film 343 (Topic: Acting for Filmmakers) and 343C may not both be counted. Prerequisite: Upper-division standing; and Radio-Television-Film 367D (or 366D) or 366K.

RTF 343D. Cinematography.
Restricted to radio-television-film majors. Visual storytelling and the art of cinematography through practice in a workshop environment. Three lecture and three laboratory hours a week for one semester. Radio-Television-Film 343D and 368 (Topic 2) may not both be counted. Prerequisite: Upper-division standing; Radio-Television-Film 366K.

RTF 343M. Master Class.
Restricted to radio-television-film majors. Incorporates a guest speaker series, focused on a particular topic for the semester. Students conduct research, coordinate and attend the speaker series, and pursue creative projects related to the semester’s topic. Three lecture hours and three laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing; Radio-Television-Film 317 and 318 with a grade of at least B- in each, and six additional semester hours of lower-division coursework in radio-television-film.

RTF 343N. Advanced Three-Dimensional Production.
Carries the principles developed in Radio-Television-Film 366M into a variety of hands-on production settings and projects, including large-crowd productions at Austin City Limits Live at the Moody Theater, as well as smaller shoots in a variety of other studios and locations. Three lecture hours and three laboratory hours a week for one semester, with additional hours to be arranged. Offered on the letter-grade basis only. Prerequisite: Upper-division standing; Radio-Television-Film 366M.

RTF 344M. Special Applications of Digital Media Production.
Special topics in digital media theory, design, or development. May include visual effects and motion graphics or digital media and digital art. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: For Radio-Television-Film
majors, upper-division standing, Radio-Television-Film 317 and 318 with a grade of at least B, and six additional hours of coursework in Radio-Television-Film; for non-majors, upper-division standing.

**Topic 1: Interactive Digital Storytelling.** Use of digital tools to create original web-based audiovisual productions and the study of impact of digital media and technology on traditional film and video production.

**Topic 3: Introduction to Visual Effects and Motion Graphics.** Designed to introduce students to the core concepts and techniques used in visual effects and motion graphics. Subjects include, but are not limited to, compositing, animation, particles, and greenscreen. Radio-Television-Film 344M (Topic: Visual Effects) and 344M (Topic 3) may not both be counted.

**Topic 4: Interactive Media and Game Development.** Radio-Television-Film 344M (Topic: Interactive Media and Game Development) and 344M (Topic 4) may not both be counted.

**Topic 5: Writing for Interactive Games and Media.** Explores storytelling possibilities of interactive mediums. Develop the skills and knowledge necessary to create characters, storylines, and dialogue for digital mediums. Only one of the following may be counted: Radio-Television-Film 344M (Topic: Writing for Interactive Games) and 344M (Topic 5), Theatre and Dance 355T (Topic: Writing for Interactive Games). Additional prerequisite: Radio-Television-Film 333.

**Topic 6: Introduction to 3D Animation.** Only one of the following may be counted: Radio-Television-Film 344M (Topic: Computer Animation and 3-D Modeling), 344M (Topic 2), 344M (Topic 6).

**Topic 7: Post Production Techniques.** Radio-Television-Film 344M (Topic: Post Production Techniques) and 344M (Topic 7) may not both be counted.

**Topic 8: CGI for Film and Games.** Radio-Television-Film 344M (Topic: CGI for Film and Games) and 344M (Topic 8) may not both be counted.

**RTF 344N. Advanced Applications of Digital Media Production.**

Advanced topics in digital media theory, design, and development. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Radio-Television-Film 344M.

**Topic 2: Advanced Effects: Modeling.** Offered on the letter-grade basis only. Additional prerequisite: Radio-Television-Film 344M (Topic 6) (or Radio-Television-Film 344M (Topic 2: Computer Graphics for Film and Games)).

**Topic 3: Advanced Effects: Rigging.** Offered on the letter-grade basis only. Additional prerequisite: Radio-Television-Film 344M (Topic 6) (or Radio-Television-Film 344M (Topic 2: Computer Graphics for Film and Games)).

**Topic 4: Undergraduate Animation Thesis.** Each student will produce a two- to ten-minute animated short film. Radio-Television-Film 344N (Topic: Undergraduate Animation Thesis) and 344N (Topic 4) may not both be counted. Offered on the letter-grade basis only. Additional prerequisite: One of the following: Radio-Television-Film 343N, 344M (Topic 3), 344N (Topic 1), 351C, 351D, or 366M.

**Topic 7: Advanced 3D Animation.** Hands-on approach to learning character animation in Maya. Introduction to the fundamental methods needed to create animated characters, including techniques used to create motion. Only one of the following may be counted: Radio-Television-Film 344N (Topic: Character Animation in 3D), 344N (Topic 5), and 344N (Topic 7). Offered on the letter-grade basis only. Additional prerequisite: Radio-Television-Film 344M (Topic 6: Introduction to 3D Animation) or 344M (Topic 2: Introduction to 3D Animation).

**Topic 8: Immersive Filmmaking.** Radio-Television-Film 344N (Topic: Immersive Filmmaking), and 344N (Topic 8) may not both be counted. Offered on the letter-grade basis only.

**Topic 9: Motion Capture Studio.** Only one of the following may be counted: Radio-Television-Film 344N (Topic: Motion Capture Studio) and 344N (Topic 9). Offered on the letter-grade basis only.

**RTF 344T. Game Development Capstone.**

Capstone courses in game development. Three lecture hours and three lab hours per week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and consent of instructor.

**Topic 1: Game Development Capstone: Two Dimensional Games.** Only one of the following may be counted: Arts and Entertainment Technologies 376, Computer Science 354S, 378 (Topic: Game Devel Capstone: 2D Games), Music 354S, 376J (Topic: Game Devel Capstone: 2D Games), Theatre and Dance 354T (Topic 17), Radio-Television-Film 344N (Topic 6), 344T (Topic 1).

**Topic 2: Game Development Capstone: Three Dimensional Games.** Radio-Television-Film 344N (Topic: Game Devel Capstone: 3D Games) and 344T (Topic 2) may not both be counted.

**RTF 345. Studies in Film History.**

Critical assessment of major genres, periods, movements, and personalities in United States and international film history. Three lecture hours and one two-and-one-half-hour screening a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Fifty-four semester hours of college coursework.

**Topic 1: Third World Cinema: Asia and the Middle East.**

**Topic 2: Israeli Cinema and Television.**

**Topic 3: History of Mexican Cinema.**

**Topic 4: Latin American Cinema.**

**Topic 5: Third World Cinema: Africa and the Americas.**

**Topic 6: Experimental Film and Video.** Critical assessment of the history and current trends in experimental film and video. Radio-Television-Film 331K (Topic: Experimental Film and Video) and 345 (Topic 6) may not both be counted.

**Topic 7: British Film and Television.** Radio-Television-Film 345 (Topic: History of British Film) and RTF 345 (Topic 7) cannot both be counted.

**Topic 8: Social Documentary.** Radio-Television-Film 345 (Topic: Social Documentary) and 345 (Topic 8) may not both be counted.

**Topic 9: Women Behind The Camera.** Radio-Television-Film 345 (Topic: Women Behind the Camera) and 345 (Topic 9) may not both be counted.

**Topic 10: Chinese Auteurs.** Radio-Television-Film 345 (Topic: Chinese Auteurs) and 345 (Topic 10) may not both be counted.

**Topic 11: Contemporary Horror.** Radio-Television-Film 345 (Topic: Contemporary Horror) and 345 (Topic 11) may not both be counted.

**Topic 12: Screwball Comedy.**

**Topic 13: Landscape Cinemas.** Radio-Television-Film 345 (Topic: Landscape Cinemas) and 345 (Topic 13) may not both be counted.

**Topic 14: Documentary and Creative Non-Fiction.** Radio-Television-Film 345 (Topic: Documentary & Creative Nonfic) and 345 (Topic 14) may not both be counted.

**RTF 345C. Experimental Media and the Art of Disruption.**

Explores experimental and avant-garde media. Through the intentional disruption of mainstream media aesthetics and conventions, experimental media artists confront, question, and recontextualize the traditional narratives and conventions of commercial media. Examines a
portfolio of experimental work across genre, including narrative and non-narrative film, title sequences, the use of media performance and gallery installations, public art, online interactive formats, and experimental video games. Three lecture hours per week for one semester. Radio-Television Film 345 (Topic: Exper Media, Art of Disruption) and 345C may not both be counted. Prerequisite: Fifty-four semester hours of college coursework.

RTF 346. Introduction to Editing.
Theory and practice of video and film editing techniques. Three lecture hours and one and one-half laboratory hours a week for one semester. Prerequisite: Upper-division standing. Radio-Television-Film 317 and 318 with a grade of at least B- in each, and six additional semester hours of lower-division coursework in radio-television-film.

RTF 347C. The Business of Media.
Survey of business practices in film, television, music, and digital media industries: development, production, distribution, and exhibition. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Fifty-four semester hours of college coursework; additional prerequisites vary with the topic.

Topic 1: Semester in Los Angeles: How Hollywood Works. Same as Communication 324 (Topic 1). Restricted to students admitted to the Semester in Los Angeles Program. Explores the commercial challenges that face producers and network and studio executives, and addresses the continual struggle between creativity and the bottom line. Taught in Los Angeles, California. Only one of the following may be counted: Communication 324 (Topic: How Hollywood Works-LA), (Topic 1), Radio-Television-Film 347C (Topic: How Hollywood Works-LA), (Topic 1).

Topic 2: Introduction to the Music Business. Radio-Television-Film 347C (Topic: Intro to the Music Business) and 347C (Topic 2) may not both be counted.

RTF 347D. Media Industries.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Fifty-four semester hours of college coursework.

RTF 347E. Advanced Editing.
In-depth look at the principles, techniques, and aesthetics of editing; building a broad background for students’ future professional development. Designed to provide a basic-to-intermediate level of familiarity with Avid editing software, by discussing and working on provided narrative, documentary, and technical exercises; various approaches to editing style in each case. Three lecture hours and one two-and-one-half-hour film screening a week for one semester. Only one of the following may be counted: Radio-Television-Film 344 (Topic: Advanced Editing), 346E (Topic: Advanced Editing), and 347E. Prerequisite: Radio-Television-Film 346 with a grade of at least B.

RTF 347F. Topics in Media Studies.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Fifty-four semester hours of college coursework.

RTF 347G. Topics in Media Industries with Screening.
Three lecture hours and one two-and-one-half-hour screening or speaker series a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Fifty-four semester hours of college coursework.

Explores contemporary media industries; how media industries operate, and the “big picture” of the contemporary film, television, and digital media landscape. Large-scale issues being faced by those working in the entertainment industry – including the impact of conglomerate ownership, regulation, globalization, and digitization on creative practices and work roles. Three lecture hours and one one-and-a-half-hour speaker series each week for one semester. Radio-Television-Film 347C (Topic: Business of Hollywood) and 347P may not both be counted. Prerequisite: Fifty-four semester hours of college coursework.

RTF 347S. Topics in Media Studies with Screening.
Three lecture hours and one two-and-one-half-hour film screening a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Fifty-four semester hours of college coursework.

RTF 348. Studies in Media Industries.
Examination of the economics and the production, management, and distribution practices of the film and electronic media industries. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

Topic 1: Semester in Los Angeles: Telling and Selling the Story. Restricted to students admitted to the Semester in Los Angeles Program. Explore the development of skills in the process by which literary material makes it from page to screens.

Topic 2: Semester in Los Angeles: Development Process of Film and Television. Same as Communication 324 (Topic 2). Restricted to students admitted to the Semester in Los Angeles Program. Examines the development process in both film and television; preparing pitches, coverage, and development notes; identifying strengths and weaknesses of literary material typical of that submitted to studios, networks, and production companies. Taught in Los Angeles, California. Only one of the following may be counted: Communication 324 (Topic: Development Process of Film and Television), 324 (Topic 2), Radio-Television-Film 348 (Topic: Development Process of Film and Television), 348 (Topic 2).

Topic 3: Semester in Los Angeles: Inside the Music Industry. Same as Communication 324 (Topic 3). Restricted to students admitted to the Semester in Los Angeles Program. Examine how the music industry really works, how it relates to other divisions of the entertainment industry, and the effects that changing technologies have on it. Only one of the following may be counted: Communication 324 (Topic: Inside The Music Industry), 324 (Topic 3), Radio-Television-Film 348 (Topic: Inside The Music Industry) and 348 (Topic 3).

Topic 4: Semester in Los Angeles: New Media and Emerging Entertainment. Same as Communication 324 (Topic 4). Restricted to students admitted to the Semester in Los Angeles Program. Explores burgeoning areas of digital entertainment including broadband, video-on-demand, interactive television, mobile entertainment, and interactive digital gaming. Taught in Los Angeles, California. Only one of the following may be counted: Communication 324 (Topic: New Media and Emerging Entertainment), 324 (Topic 4), Radio-Television-Film 348 (Topic: New Media and Emerging Entertainment), 348 (Topic 4).

Topic 5: Semester in Los Angeles: Working Hollywood Writer. Restricted to students admitted to the Semester in Los Angeles Program Radio-Television-Film 348 (Topic: Working Hollywood Writer-LA) and 348 (Topic 5) may not both be counted.

RTF 348C. Introduction to Digital Production.
Introduction to fundamental production concepts and techniques through lectures, projects, and lab experiences. Develop a storyteller’s point of view and explore the ability to create works with visual, aural,
and narrative structures. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

RTF 350L, 650L. Semester in Los Angeles Internship.
Restricted to students in the Semester in Los Angeles Program. Practical work experience related to the study of film, television, radio, or other media. Students must make their own arrangements to secure relevant internships. For 350L, an average of 10 hours of work a week, for a total of at least 150 hours a semester or summer term; for 650L, an average of 20 hours of work a week, for a total of at least 300 hours a semester or summer term. Communication 350L, 650L and Radio-Television-Film 350L, 650L may not both be counted. Offered on the pass/fail basis only. Prerequisite: Upper-division standing

RTF 650N. Semester in New York Internship.
Restricted to students in the Semester in New York Program. Internships to be arranged by student and approved by instructor. An average of 20 hours of work a week, for a total of at least 300 hours a semester or summer term. Offered on the pass/fail basis only. Prerequisite: Upper-division standing.

RTF 351C. Introduction to Two-Dimensional Animation.
Restricted to radio-television-film majors. Theory and practice of digital graphics and animation techniques. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: For Radio-Television-Film majors, Radio-Television-Film 318, and nine additional semester hours of coursework in radio-television-film; for non-majors, upper-division standing

RTF 351D. Advanced Two-Dimensional Animation.
In-depth study of two-dimensional animation techniques and an introduction to stop-motion animation, green screen techniques, and postproduction effects. Three lecture hours a week for one semester. Only one of the following may be counted: Radio-Television-Film 344M (Topic: Advanced Digital Animation), 344M (Topic: Two-Dimensional Animation and Motion Graphics), 351D. Prerequisite: Radio-Television-Film 351C

RTF 352. Global Media and Area Studies.
Study of political, social, cultural, and economic factors affecting the use and impact of communication systems in selected regions, such as South Asia, Latin America, Middle East, Europe, East Asia, and Africa. Three lecture hours a week for one semester. Some topics may also require two and one-half film screening hours a week. May be repeated for credit when the topics vary. Prerequisite: Fifty-four semester hours of college coursework.

Topic 1: Media and the Middle East. Same as Middle Eastern Studies 342 (Topic 83). Addresses the role of media in the Middle East, considering communication texts, processes and industries in political, social, economic, and cultural contexts. Only one of the following may be counted: Middle Eastern Studies 341 (Topic: Media and the Middle East), 342 (Topic 83), Radio-Television-Film 342 (Topic: Media and the Middle East), 352 (Topic 1). Additional prerequisite: Fifty-four semester hours of college coursework.

Topic 2: German Media: Print to Television. Same as German, Scandinavian, and Dutch Studies 341S. Examine the history of media technology and its cultural and political implication in the German (speaking) context. Three lecture hours a week for one semester. Only one of the following may be counted: German, Scandinavian, and Dutch Studies 330 (Topic: German Media: Print to TV), 341S, Radio-Television-Film 352 (Topic: German Media: Print to TV), 352 (Topic 2). Additional prerequisite: Fifty-four semester hours of college coursework.

Topic 3: Modern Egypt in Film and Fiction. Same as African and African Diaspora Studies 340I, History 334F, and Middle Eastern Studies 342 (Topic 78). Explore the history and culture of modern Egypt through selected readings in twentieth-century film and fiction. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 340I, History 334F, Middle Eastern Studies 342 (Topic: Modern Egypt Film/Fiction), 342 (Topic 78), Radio-Television-Film 352 (Topic: Modern Egypt Film/Fiction), 352 (Topic 3). Additional prerequisite: Upper-division standing.

RTF 658. Undergraduate Animation Thesis.
Restricted to radio-television-film majors. Two-semester course in which each student will produce a two- to ten-minute animated short film as director, animator, and/or sound designer. Three lectures hours a week for two consecutive semesters. Only one of the following may be counted: Radio-Television-Film 344N (Topic: Undergraduate Animation Thesis), 344N (Topic 4), 658. Offered on the letter-grade basis only. Prerequisite: For 658A, upper-division standing; and two of the following: Radio-Television-Film 341, 341C, 344M (Topic 2), 344M (Topic 3), 344N (Topic 1), 344N (Topic 5), 344N (Topic 6), 351C, or 351D; or consent of instructor; for 658B, Radio-Television-Film 658A.

RTF 359. Studies in Media and Culture.
Special topics related to the critical analysis of media in cultural contexts. Three lecture hours a week for one semester. Radio-Television-Film 359 and 359S may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Fifty-four semester hours of college coursework.

Topic 6: Gender, Race, and Sexuality in Sports Media. Same as Women’s and Gender Studies 324F. Three lecture hours and one two-and-one-half-hour film screening a week for one semester. Only one of the following may be counted: Radio-Television-Film 359 (Topic 6), 365 (Topic: Gender/Race/Sexlty Sport Media), Women’s and Gender Studies 324 (Topic: Gender/Race/Sexlty Sport Media), 324F. Additional prerequisite: Fifty-four semester hours of college coursework.

Topic 7: Race and Digital Media Culture. Only one of the following may be counted: Journalism 356R, Radio-Television-Film 359 (Topic: Race/Digital Media Cultures), 359 (Topic 7).

Topic 8: Women and Sports Media. Same as Women’s and Gender Studies 345N. Only one of the following may be counted: Radio-Television-Film 359 (Topic 8), Women’s and Gender Studies 345 (Topic: Women and Sports Media), 345N. Additional prerequisite: Fifty-four semester hours of college coursework.

RTF 359C. Media Archaeology.
Exploration of the media as artifacts as opposed to narratives or texts. Focuses on the materiality of media within specific socio-cultural, economic, and technological time periods each with their own modes of historic and futuristic discourse. Three lecture hours a week for one semester. Radio-Television-Film 359S (Topic: Media Archaeology) and 359C may not both be counted. Offered on the letter-grade basis only.
RTF 359S. Studies in Media and Culture. Special topics related to the critical analysis of media in cultural contexts. Three lecture hours and one two-and-one-half-hour film screening a week for one semester. Radio-Television-Film 359 and 359S may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Fifty-four semester hours of college coursework.

Topic 3: Gender and Rock Culture. Critical analysis of issues relating to media, gender, and rock culture. Radio-Television-Film 331K (Topic: Gender, Sexuality, and Rock Culture) and 359S (Topic 3) may not both be counted.

Topic 4: Media, Memory, and History. Critical analysis of the relationship between historical events and media.

Topic 5: Queer Media Studies. Same as Women's and Gender Studies 335C. Critical analysis of queer media. Read key queer (media) theory texts and explore dominant strategies used by the media industries, as well as those utilized by LGBTQ+ independents/subcultures, paying close attention to contested discourses of identity, politics, activism and desire. Explore historical shifts in the representation of LGBTQ+ individuals. Three lecture hours and one two-and-one-half-hour film screening a week for one semester. Only one of the following may be counted: Radio-Television-Film 359S (Topic: Queer Media Studies), 359S (Topic 5), 377H (Topic: Queer Media Studies), 377H (Topic 2), Women's and Gender Studies 324 (Topic: Queer Media Studies), 335 (Topic 16), 335C. Additional prerequisite: Fifty-four semester hours of college coursework.

Topic 7: Mixed Race & US Film/Media. An introduction to the evolving representation of mixed-race individuals, romance, and families and to mixed-race stars and producers in U.S. film, television, and new media since the silent film era. Radio-Television-Film 359S (Topic 7) and 370 (Topic: Mixed Race & US Film/Media) may not both be counted.

Topic 8: Latina/os and U.S. Media. Survey of the representation and participation of Latinas and Latinos in U.S. English-language film and television from the silent film era to the present. Also focuses on issues Latina/os face as media producers, media consumers, and media activists.

Topic 9: Latina Feminisms and Media. Survey of Chicana and Latina feminist scholarship, activism, and creative expression with an emphasis on Latina media production and representation in U.S. entertainment media. Only one of the following may be counted: Mexican American Studies 374 (Topic: Latina Feminisms and Media) Radio-Television-Film 359 (Topic: Latina Feminisms and Media), 359S (Topic 9), Women's and Gender Studies 324 (Topic: Latina Feminisms and Media).

Topic 10: Gender and Media in the '60s. Radio-Television-Film 359S (Topic: Gender and Media in the 1960s) and 359S (Topic 10) may not both be counted.

Topic 11: Brazilian Media. Radio-Television-Film 359 (Topic: Brazilian Media & Pop Culture) and 359S (Topic 11) may not both be counted.

Topic 12: Gender and Fan Culture. Same as Women's and Gender Studies 324E. Three lecture hours and one two-and-one-half-hour film screening a week for one semester. Only one of the following may be counted: Radio-Television-Film 359S (Topic: Gender and Fan Culture), 359S (Topic 12), Women's and Gender Studies 324 (Topic: Gender and Fan Culture), 324E. Additional prerequisite: Fifty-four semester hours of college coursework.

Topic 13: Latin American Television. Only one of the following may be counted: Radio-Television-Film 359 (Topic: Latin American Television), 359S (Topic 13), 377H (Topic: Latin American Television).

Topic 14: Latino Images in Film. Radio-Television-Film 359 (Topic: Latino Images in Film) and 359S (Topic 14) may not both be counted.

Topic 15: Black Television Comedy. Radio-Television-Film 359S (Topic: Black Television Comedy) and 359S (Topic 15) may not both be counted.

RTF 365. Topics in Media and Society. Advanced topics addressing media, communication, and society. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Fifty-four semester hours of college coursework.

Topic 5: Latin American Media.

Topic 7: Narrowcasting.

Topic 8: Migration and Media. Advanced study of global media issues, including traditional and digital media use, social inclusion, and migration to the United States from Latin America, Asia, and elsewhere. Students conduct research on the relationships between media and migration.

Topic 9: Media Industries and Entrepreneurship. Same as Sociology 352E. Examination of the social, political, and economic contexts in which media and culture are produced, distributed, and monetized. Emphasis on new media and communication technologies. Three lecture hours a week for one semester. Only one of the following may be counted: Journalism 355M, Radio-Television-Film 365 (Topic: Media Industries and Entrepreneurship), 365 (Topic 9), Sociology 352E, 352M (Topic: Media Industries and Entrepreneurship). Additional prerequisite: Fifty-four semester hours of college coursework.

Topic 10: Globalization and Social Media. Same as Sociology 352S. Issues surrounding the hype, myth, paradox, and reality of social media in a global context. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 320 (Topic: Globalization and Social Media), Journalism 349T (Topic: Globalization and Social Media), 351S, Radio-Television-Film 331M (Topic: Globalization and Social Media), 365 (Topic 10), Sociology 321K (Topic: Globalization and Social Media), 352S. Additional prerequisite: Fifty-four semester hours of college coursework.

Topic 12: Mapping Latino Culture in East Austin. Only one of the follow may be counted: Journalism 354L, Radio-Television-Film 365 (Topic: Mapping Latino Culture in East Austin), 365 (Topic 12).

Topic 13: Activist Media.

Topic 14: Queer Media and Activism.

Topic 15: Latinx Media, Arts, and Activism. Same as Mexican American Studies 370D. Investigate the ways in which Latinx activists have used mainstream, alternative, legacy, and new media (as well as other visual and performing arts), to affect social and political change in the United States. Three lecture hours a week for one semester. Only one of the following may be counted: Mexican American Studies 370D, 370E, 374 (Topic: Chicano/o Film), Radio-Television-Film 359 (Topic 9), 359 (Topic: Chicano/o Film), 359S (Topic 17). Additional prerequisite: Fifty-four semester hours of college coursework.
RTF 365C. Media and Policy.
Advanced topics addressing media and policy in society. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Fifty-four semester hours of college coursework.

RTF 366. Introduction to Field and Studio Production.
Restricted to radio-television-film majors. Basic theory and techniques in single-camera video production; individual and collective production assignments, with emphasis on technical proficiency, examination of the entire production process, visualization of ideas, and critical evaluation of the visual text. Three lecture hours and six laboratory hours a week for one semester. Prerequisite: Upper-division standing. Radio-Television-Film 317 and 318 with a grade of at least B- in each; and six semester hours of lower-division coursework in radio-television-film with a grade of at least C in each course.

RTF 366K. Introductory Production.
Restricted to radio-television-film majors. Three lecture hours and three laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing; Radio-Television-Film 317 and 318 with a grade of at least B- in each; and six semester hours of lower-division coursework in radio-television-film.

RTF 366M. Introduction to Three-Dimensional Production.
Restricted to students in radio-television-film. An introduction to the aesthetics, science, theory and practice of three-dimensional production via lectures, screenings, and some hands-on production work in groups. No previous three-dimensional experience is required. Three lecture hours and three laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing; Radio-Television-Film 317 and 318 with a grade of at least B- in each; and six additional semester hours of lower-division coursework in radio-television-film.

RTF 367D. Directing Workshop.
Restricted to radio-television-film majors. Explores the role of the director, focusing on the director-actor relationship, narrative structure, and visual language. Three lecture hours a week for one semester. Only one of the following may be counted: Radio-Television-Film 344 (Topic: Directing Workshop), 366D (Topic: Directing Workshop), 367D Prerequisite: Upper-division standing, Radio-Television-Film 317 and 318 with a grade of at least B- in each, and six additional semester hours of lower-division coursework in radio-television-film.

RTF 367K. Producing Film and Television.
Examine the roles and responsibilities of a producer; including development, financing, pre-production, production, post-production, marketing, and distribution. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

RTF 367M. Advanced Narrative: 16-mm.
Restricted to radio-television-film majors. Theory and techniques in 16-mm film synchronous sound production; individual and collective production assignments, with emphasis on technical proficiency, examination of entire production process, visualization of ideas, and critical evaluation of the visual text. Three lecture hours and three laboratory hours a week for one semester. Radio-Television-Film 367L and 367M may not both be counted. Prerequisite: Upper-division standing, and Radio-Television-Film 366K (Topic 2).

RTF 368. Advanced Production Topics.
Restricted to radio-television-film majors. Study production crafts in film, television, and other digital media. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing; Radio-Television-Film 317 and 318 with a grade of at least B- in each; six additional semester hours of lower-division coursework in radio-television-film; additional prerequisites vary with the topic.

RTF 368C. Advanced Directing.
Restricted to radio-television-film majors. Creation of collaborative, performance-based works that emphasize simplicity and ingenuity in image and sound choices. Works will adhere to a production code that is a modified version of the Dogme 95 Vow of Cinematic Chastity. Three lecture hours and three laboratory hours a week for one semester. Radio-Television-Film 368 (Topic 4: Advanced Directing) and 368C may not both be counted. Offered on the letter-grade basis only. Prerequisite: Radio-Television-Film 366D.

RTF 368D. Advanced Cinematography.
Restricted to radio-television-film majors. Study of the art of cinematography beyond the basic principles of camera and lighting. Group production of short films to explore the cinematic tools used to create an overall visual approach to storytelling. Examination of film genre, color, texture, lens continuity, aspect ratio, and practical on set strategies and challenges. Three lecture hours and three laboratory hours a week for one semester. Radio-Television-Film 368 (Topic: Advanced Cinematography) and 368D may not both be counted. Prerequisite: Upper-division standing, and either Radio-Television-Film 343D (or Radio-Television-Film 368 (Topic 2: Cinematography)) or Radio-Television-Film 343 (Topic 1: Advanced Narrative Production).

RTF 368P. Topics in Producing.
Restricted to radio-television-film majors. Explore various aspects of film and television producing. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

2023-2024 General Information Catalog  ▶ General Information 2023 - 2024 991
RTF 368S. Undergraduate Thesis.
Restricted to radio-television-film majors. Advanced film production or media studies research. Three lecture hours a week for one semester, with studio hours to be arranged. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and consent of instructor; Prerequisites vary with the topic.

Topic 1: Film Production Thesis. Intensive production workshop, designed for students who wish to produce a film for a portfolio. Additional prerequisite: Radio-Television-Film 343 or 368.
Topic 2: Media Studies Thesis. An independent research project based on primary data, resulting in a written summary of theoretical foundations, methodological approach, results, and a discussion.
Topic 3: Screenwriting Thesis. Advanced screenwriting for film or television. Intensive writing workshop, designed for students who wish to produce a polished script suitable for submission to agents and competitions. Radio-Television-Film 368P (Topic: Writing Thesis) and 368SP (Topic 3) may not both be counted. Additional prerequisite: Radio-Television-Film 369
Topic 4: Emerging Cinematic Arts Thesis. Additional prerequisite: Radio-Television-Film 344M.

RTF 369. Advanced Screenwriting.
Restricted to radio-television-film majors. Students develop and write original screenplays. Includes advanced study of screenplay structure, critical analysis of student and professional work, and intensive writing each week toward a completed script. Three lecture hours a week for one semester. Students may not enroll in more than two sections of any Radio-Television-Film 369 course in the same semester. May be repeated for credit when the topics vary. Prerequisite: Radio-Television-Film 333 with a grade of at least B-.

Topic 1: Advanced Screenwriting for Feature Films. Students may not enroll in more than one section of Radio-Television-Film 369 (Topic 1) in the same semester.
Topic 2: Advanced Screenwriting for Television.
Topic 4: Advanced Screenwriting: Television Specs. Radio-Television-Film 369 (Topic: Adv Screenwriting: TV Specs) and 369 (Topic 4) may not both be counted.
Topic 5: Advanced Screenwriting: Independent Films. Radio-Television-Film 369 (Topic: Adv Scnrvrt for Film: Indies) and 369 (Topic 5) may not both be counted.
Topic 6: Advanced Screenwriting: Science Fiction and Horror. Radio-Television-Film 369 (Topic: Adv Screenwrng: Sci-Fi/Horror) and 369 (Topic 6) may not both be counted.

RTF 369P. Topics in Advanced Producing.
Restricted to radio-television-film majors. Examine the behind-the-scenes production of feature films, commercials, and other media including scripts, shot lists, storyboards, shooting schedules, and visual effects. Three lecture hours and one two-and-one-half hour film screening a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing, Radio-Television-Film 333, 367D, or 367K; additional prerequisites vary with the topic.

Topic 1: Script to Screen: Commercials. Examine the behind-the-scenes creation and production of commercials for national brands including creative briefs, consumer insights, scripts, shot lists, storyboards, shooting schedules, visual effects, and behind-the-scenes footage.
Topic 2: Script to Screen: Features. Only one of the following may be counted: Radio-Television-Film 367P (Topic: Script to Screen), 367P (Topic: Adv Producing: Script to Screen), 369P (Topic 2), 367Q.
Topic 3: Script to Screen: Production. Produce film projects developed in Radio-Television-Film 369P (Topic 1) or 369P (Topic 2). Additional prerequisite: Radio-Television-Film 369P (Topic 1) or 369P (Topic 2).

RTF 370. Film Analysis and Criticism.
Analysis of critical methods, selected films, and selected critics. Three lecture hours and one two-and-one-half hour film screening a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Fifty-four semester hours of college coursework.

Topic 1: Comedy in Film and Media. Additional prerequisite: Radio-Television-Film 370 (Topic: Comedy in Film and Media) and 370 (Topic 1) may not both be counted.
Topic 2: Animation Studies. Radio-Television-Film 331K (Topic: Animation Studies) and 370 (Topic 2) may not both be counted.
Topic 3: Asian Horror Film. Radio-Television-Film 370 (Topic: Asian Horror Film) and 370 (Topic 4) may not both be counted.
Topic 4: Film Noir. Radio-Television-Film 370 (Topic: Film Noir) and 370 (Topic 4) may not both be counted.
Topic 5: Films of Clint Eastwood. Radio-Television-Film 370 (Topic: Films of Clint Eastwood) and 370 (Topic 5) may not both be counted.
Topic 6: Films of Alfred Hitchcock. Radio-Television-Film 370 (Topic: Film and Crit: Hitchcock) and 370 (Topic 6) may not both be counted.
Topic 7: Films of Martin Scorsese. Radio-Television-Film 370 (Topic: Films of Scorsese) and 370 (Topic 7) may not both be counted.
Topic 8: Independent American Cinema. Radio-Television-Film 370 (Topic: Independent American Cinema) and 370 (Topic 8) may not both be counted.
Topic 9: Asian American Film.
Topic 10: Black Filmmakers after Blaxploitation. Radio-Television-Film 370 (Topic: Blk Filmakers Aftr Bxploittn) and 370 (Topic 10) may not both be counted.
Topic 11: Films of Billy Wilder. Radio-Television-Film 370 (Topic: Films of Billy Wilder) and 370 (Topic 11) may not both be counted.

RTF 377H. Advanced Topics in Media Studies.
Focus on specialized topics and issues in media history, theory, and criticism. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Fifty-four semester hours of college coursework and a University grade point average of at least 3.0.

Topic 1: Media and Popular Culture. Radio-Television-Film 370 (Topic: Media and Popular Culture) and 377H (Topic 1) may not both be counted.
Topic 3: Global Sports Media. Radio-Television-Film 377H (Topic: Global Sports Media) and 377H (Topic 3) may not both be counted.

RTF 377S. Advanced Topics in Media Studies with Screenings.
Focus on specialized topics and issues in media history, theory, and criticism. Three lecture hours and one two-and-one-half hour film screening a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Fifty-four semester hours of college coursework and a University grade point average of at least 3.0.

Topic 1: Landscape and Cinema. Radio-Television-Film 345 (Topic: Landscape and Cinema) and 377S (Topic 1) may not both be counted.

RTF 178. Radio-Television-Film Internship.
Restricted to radio-television-film majors. Practical work experience related to the study of film, television, radio, or other media. Students must make their own arrangements to secure relevant internships. The equivalent of ten lecture hours a week for one semester. Offered on
the pass/fail basis only. Prerequisite: Upper-division standing, Radio-Television-Film 330L, 350L, 650L, or 650N

**RTF 378H. Honors Tutorial Course.**
Restricted to radio-television-film majors. Intensive reading, research, and/or production project. Individual instruction. May be taken twice for credit. May be repeated for credit. Prerequisite: Upper-division standing, twelve semester hours of lower-division coursework in radio-television-film, a University grade point average of at least 3.00, a grade point average in radio-television-film of at least 3.50, and consent of the department.

**Graduate Courses**

**RTF 380. Research Theory and Design.**
Introduction to research theory and design. Designed to help students develop skills in understanding and critiquing current research, and in designing and proposing research projects. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.

**RTF 380C. Screenwriting for Directors.**
Introduction to the study and practice of writing for film and television. Three lecture hours a week for one semester. Required of all production students. Prerequisite: Graduate standing, and consent of instructor and the graduate adviser.

**RTF 380D. Topics in Media Industries.**
Examine history, theory, and methods used in studying the media industries in different national and regional contexts. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Consent of instructor and consent of the graduate advisor.

**RTF 380E. Topics in Media History.**
Explore the history of telegraphy, radio, and television as cultural forms, communications technologies, and social, political and economic institutions. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Consent of instructor and consent of the graduate adviser.

**RTF 380G. Research Practices.**
Introduction to research implementation. Designed to help students develop skills in conducting a variety of research approaches. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.

**RTF 380J. Theory and Principles of Dramatic Writing.**
Restricted to students in the Master of Fine Arts screenwriting program in radio-television-film. Introduction to theory and practice in narrative writing for film and electronic media. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Graduate standing, and consent of instructor and the graduate adviser.

  Topic 1: First-Year Screenwriting. Required of students in the Master of Fine Arts screenwriting program in radio-television-film. Offered on the letter-grade basis only.

**RTF 380M. Advanced Screenwriting.**
Creation and development of written work for film and television production. Students will develop a major work, such as a full-length screenplay or television pilot. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.

  Topic 3: Advanced Screenwriting I.
  Topic 4: Advanced Screenwriting II.

**RTF 380N. Screenwriting Topics.**
Creation and realization of professional materials for film and television. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Consent of instructor and consent of the graduate adviser.

  Topic 1: Adaptation. Covers adapting a screenplay from existing material. Write a film adaptation of a short story or similar source material, which will be assigned by the instructor. Create an outline or treatment, revise their writing extensively, and engage in weekly discussions of each other's work. Radio-Television-Film 380N (Topic: Adaption) and 380N (Topic 1) may not both be counted.

  Topic 2: Television Specs. Introduction to the fundamentals of writing for television. Develop and write both a one-hour and half-hour television 'spec' based on an existing series. Radio-Television-Film 380N (Topic: TV Specs) and 380N (Topic 2) may not both be counted.

  Topic 3: Writers Room Workshop. Develop and write an entire season of an original television series. At the end of the semester, the show will be sent out for consideration by major networks and students will get full writing credit for their episodes. Radio-Television-Film 380N (Topic: Writers Room Workshop) and 380N (Topic 3) may not both be counted.

  Topic 4: Writing for Series Television. Covers how to write for both network and cable television. Analyze the dramatic elements of each genre, with each student completing a "spec" script for a current sitcom and drama. Develop an original TV pilot as a class, from the original "franchise" premise through a completed story-outline for the pilot episode. Radio-Television-Film 380N (Topic: Writing for Series Television) and 380N (Topic 4) and may not both be counted.

**RTF 380P. Production Workshop for Writers.**
Exploration of cinematic storytelling through the production of short digital videos. Three lecture hours and three laboratory hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

**RTF 380S. Topics in Media History with Screening.**
Explore the history of telegraphy, radio, and television as cultural forms, communications technologies, and social, political and economic institutions. Three lecture hours and one two-and-one-half-hour film screening a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Consent of instructor and consent of the graduate adviser.

**RTF 881K. Principles of Film and Television Production.**
Study of film and video production aesthetics and techniques. Production costs borne by the student. Four lecture hours and four studio hours a week for two semesters, with additional studio hours to be arranged. Prerequisite: For 881KA, graduate standing and consent
of instructor and the graduate adviser; for 881KB, Radio-Television-Film 881KA.

RTF 384I. Internship in Media Industries.
The equivalent of ten lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and the consent of the graduate advisor.

RTF 385K. History of Film.
Survey of the history of the motion picture. Lectures and readings; screenings are required for some topics. Three lecture hours a week for one semester, with one two-hour film screening a week if required by the topic. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.

RTF 385L. Seminar in Film History.
Advanced study and research in major directors, genres, periods, and movements of film history. Three lecture hours a week for one semester, with one two-hour film screening a week if required by the topic. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.

RTF 386. Analysis and Criticism of Film and Electronic Media.
Analysis and explication of representative critics, critical systems, genres, and artists. Three lecture hours a week for one semester, with one two-hour film screening a week if required by the topic. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.

RTF 386C. Seminar: Media Theory and Criticism.
Advanced study in media theory and criticism. Three lecture hours a week for one semester, with one two-hour film screening a week if required by the topic. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.

RTF 387C. Global Media.
Study of global media systems, theories, and processes. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.

RTF 387D. Communication for Development and Social Change.
Study of how development institutions use communication strategies for social change, and how development discourse communicates assumptions about social change. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.

RTF 387W. Global Media: Study Abroad.
Restricted to graduate students in radio-television-film. Research, analysis, and criticism of global media systems and issues. Students study at institutions outside the United States. The equivalent of three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

Research project chosen from area of student's major interests. For each semester hour of credit earned, the equivalent of one class hour a week for one semester. Credit earned depends on the nature of the research project. May be repeated for credit. Prerequisite: Graduate standing and consent of the graduate adviser.

Research and reading in preparation for doctoral examinations. For each semester hour of credit earned, the equivalent of one class hour a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and consent of the graduate adviser.

RTF 288D, 388D, 488D. Research Problems in Specialty Fields of Radio-Television-Film.
Research project chosen from area of student's major interests. For each semester hour of credit earned, the equivalent of one class hour a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and consent of the graduate adviser.

RTF 288F. Topics in Radio-Television-Film Production.
Restricted to students in the Master of Fine Arts production program in radio-television-film. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, and consent of instructor and the graduate advisor.

RTF 388M, 488M. Practicum in Film and Television Production.
Production of projects in film and video. Production costs borne by the student. For each semester hour of credit earned, one lecture hour a week for one semester; additional laboratory hours vary with the topic. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.
RTF 388P. Topics in Film and Video Production.
Restricted to students in the Master of Fine Arts production program in radio-television-film. Production costs borne by the student. Three lecture hours and three laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, and consent of instructor and the graduate adviser.

RTF 388Q. Special Topics in Digital Media.
Applications and impact of digital media technologies. Three lecture hours a week for one semester, with one two-hour film screening a week if required by the topic. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.

RTF 389K. History of Broadcasting.
Principal eras of broadcast development, audience patterns, legal and industrial precedents of broadcast practices, contemporary industrial and institutional perspectives in radio and television. Three lecture hours a week for one semester, with one two-hour film screening a week if required by the topic. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.

RTF 389P. Topics in Producing.
Explore various aspects of film and television producing. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.

RTF 390C, 490C. Introduction to Editing Processes.
Introductory editing designs designed to build the foundation for later postproduction practice. Incorporates technical, aesthetic, and practical considerations into an overall view of editing as a process. Three or four lecture hours a week for one semester, with studio hours to be arranged. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.

RTF 390E. Advanced Video Postproduction: Audio.
Restricted to first-year Master of Fine Arts production students in radio-television-film. Theory and application of audio for screen image. Three lecture hours a week for one semester, with studio hours to be arranged. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.

RTF 390F. Topics in Production Crafts.
Professional-level experiences in various topics in the production crafts. Three lecture hours a week for one semester, with additional laboratory hours to be arranged. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.

RTF 390G. Introduction to Media Aesthetics and Techniques.
Introduction to physical and aesthetic aspects of sound, light, and image and to the science and technologies that record and reproduce them. Three lecture hours and two studio hours a week for one semester, with additional studio hours to be arranged. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.

RTF 390H. Issues in New Media.
Issues in new media theory and practice. Three lecture hours a week for one semester, with one screening or studio session of at least two hours a week to be arranged. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.

RTF 393Q. Special Topics in Digital Media.
Applications and impact of digital media technologies. Three lecture hours a week for one semester; additional hours may be required for some topics. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.
RTF 395. Theory and Literature.
Advanced seminar surveying the literature of media and communication theories. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.

Topic 1: Theory and Literature for Doctoral Students: Social Science Approaches. Restricted to doctoral students. Surveys the literature of social science approaches to communication study.

Topic 2: Theory and Literature: Humanities Approaches. Surveys the literature of humanities approaches to media studies.

Topic 3: Theory and Literature in Media Studies for Master's Students.

Topic 4: Theory and Literature I. Restricted to doctoral students in Radio-Television-Film. Radio-Television-Film 395 (Topic: Theory/Literature for Ph.Ds) and 395 (Topic 4) may not both be counted.

Topic 5: Theory and Literature II. Restricted to doctoral students in Radio-Television-Film. Radio-Television-Film 395 (Topic: Theory/Literature for Ph.Ds II) and 395 (Topic 5) may not both be counted.

RTF 095C. Research Colloquium.
Restricted to students with graduate standing in radio-television-film. Lectures on subjects to be announced. One lecture hour per week. Required for media studies graduate students. May be repeated for credit. Prerequisite: Graduate standing.

RTF 196, 296, 396, 496. Portfolio in Media Production.
The equivalent of one, two, three, or four lecture hours a week for one semester. Prerequisite: Graduate standing in radio-television-film and consent of the graduate adviser.

RTF 196P, 296P, 396P, 496P. Portfolio in Media Production.
Restricted to Master's of Fine Arts in radio-television-film. For each hour of credit earned, one lecture hour a week for one semester. May be repeated for credit. Prerequisite: Graduate standing in radio-television-film and consent of the graduate adviser.

RTF 698. Thesis.
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in radio-television-film and consent of the graduate adviser; for 698B, Radio-Television-Film 698A.

RTF 198M, 298M, 398M. Master's Research and Writing.
Research and writing to complete masters thesis. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be taken twice for credit. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of the graduate adviser.

RTF 398R. Master's Report.
Preparation of a report to fulfill the requirement for the master's degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in radio-television-film and consent of the graduate adviser.

RTF 398T. Supervised Teaching in Radio-Television-Film.
Study of the teaching/learning process; practice in classroom presentation. Three lecture hours a week for one semester. Required for appointment as an assistant instructor in radio-television-film; may be taken before or during the first semester of appointment. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of the graduate adviser.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses

RUS - Russian

Lower-Division Courses

RUS 601C. Intensive Russian I.
Not open to native or heritage speakers of Russian. Emphasis on developing oral proficiency in Russian using intensive methods of instruction. Six lecture hours a week for one semester. May not be counted by students with credit for Russian 406, 506, 407, 507.

RUS 406, 506. First-Year Russian I.
Emphasis on four-skills proficiency: listening, speaking, reading, and writing. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Only one of the following may be counted: Russian 601C, 406, 506.

RUS 407, 507. First-Year Russian II.
Emphasis on four-skills proficiency: listening, speaking, reading, and writing. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Only one of the following may be counted: Russian 601C, 407, 507. Prerequisite: Russian 406 or 506.

RUS 611C. Intensive Russian II.
Not open to native or heritage speakers of Russian. Continuing intensive development of proficiency in Russian, with a focus on speaking and the reading of authentic texts. Six lecture hours a week for one semester. Only one of the following may be counted: Russian 611C, 312K, 412K. Only one of the following may be counted: Russian 611C, 312L, 412L. Prerequisite: Russian 601C or 507.

RUS 312K, 412K. Second-Year Russian I.
Listening, speaking, reading, and writing at the second-year level. For every hour of credit earned, one lecture hour a week for one semester. Only one of the following may be counted: Russian 611C, 312K, 412K.

RUS 312L, 412L. Second-Year Russian II.
Listening, speaking, reading, and writing at the advanced, second-year level. For 312L, three lecture hours a week for one semester; for 412L, four lecture hours a week for one semester. Only one of the following may be counted: Russian 611C, 312L, 412L. Prerequisite: Russian 312K or 412K.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Slavic and Eurasian Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.
Upper-Division Courses

RUS 322C. Intermediate Russian Through Conversation.
Development of the basic skills of listening, speaking, reading, and writing, with special emphasis on oral communication. Three lecture hours a week for one semester. Russian 322C and 324 may not both be counted. Russian 322C and 325 may not both be counted. Prerequisite: Russian 611C or 312K, 412K.

RUS 322W. Intermediate Russian Through Writing.
Development of the basic skills of listening, speaking, reading, and writing, with a special emphasis on written expression. Three lecture hours a week for one semester. Russian 322W and 324 may not both be counted. Russian 322W and 325 may not both be counted. Prerequisite: Russian 611C or 312K, 412K.

RUS 326. Topics in Advanced Russian.
Designed to enhance the student's skills in a variety of functional areas. Topics may include advanced oral communication, stylistics, Russian for business, literary translation of legal and business documents, scientific and technical translation. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Russian 325, or Russian 322C and 322W.

Topic 1: Vysotsky: His Life and Works. An overview of the songs, films, and stage performances of Russia's premiere singer/song writer, Vladimir Vysotsky. Focus on his use of language and the cultural context of the times. Russian 326 (Topic: Vysotsky: His Life and Works) and 326 (Topic 1) may not both be counted. Additional prerequisite: Upper-division standing and Russian 325.

Topic 2: Russia at the Movies: 1936-1979. Development of listening, speaking, and reading in Russian, while addressing stylistic shifts in the spoken language. Material will be drawn from a series of popular films from early to late Soviet cinema. Russian 326 (Topic: Russia at the Movies) and 326 (Topic 2) may not both be counted.

Topic 3: Russian Media, Business, and Public Policy. Advanced writing and oral communication skills in the Russian language based on both tradition approach to grammatical and lexical studies of the language and innovative use of current Russian media, including newspaper and magazine articles, news programs, DVD clips, and short films. Development of ability to master both formal and informal knowledge of contemporary Russian and to discuss the most important issues of the Russian society. Russian 326 (Topic: Advanced Russian Composition and Conversation I) and 326 (Topic 3) may not both be counted.

Topic 4: Russia at the Movies since 1980. Development of listening, speaking, and reading in Russian, while addressing stylistic shifts in the spoken language. Material will be drawn from a series of popular films from the late Soviet period to contemporary Russian cinema. Only one of the following may be counted: Russian 326 (Topic 4), 330 (Topic: Contemporary Russian Cinema), 330 (Topic 4), Russian, East European, and Eurasian Studies 325 (Topic 11).

Topic 5: The Russian Short Story. Introduction to short works of Russian literature by Pushkin, Gogol, Turgenev, Leskov, Dostoevsky, Tolstoy, Chekhov, Babel, Bulgakov, Solzhenitsyn, Tolstaya, Pelevin, and others. All readings and discussions are in Russian. Only one of the following may be counted: Russian 326 (Topic 5), 329 (Topic: The Russian Short Story), and 329 (Topic 1).

RUS 326C. Russian through Drama.
Focus on improving pronunciation, intonation, and public speaking skills in order to develop advanced proficiency in Russian. Explore an introduction to the life and works of Russian writer Anton Chekhov, and consider Chekhov's theater, the Stanislavsky method of acting, and the social context in which they developed. Three lecture hours a week for one semester. Russian 326 (Topic: Russian through Drama) and 326C may not both be counted. Prerequisite: Russian 325, or Russian 322C and 322W.

RUS 326D. Russian through Global Debate.
Focus on developing an advanced level of spoken proficiency in Russian through the construction and delivery of arguments in a debate format. Explore the specialized lexicon and rhetoric of argumentation and debate discourse, while working within the subject frames of contemporary global issues: politics, economics, environment, social issues, and human rights. Three lecture hours a week for one semester. Russian 326 (Topic: Russian thru Global Debate) and 326D may not both be counted. Prerequisite: Russian 325, or Russian 322C and 322W.

RUS 326E. Advanced Russian Through History.
Practice Russian language skills in all areas of cultural and linguistic proficiency (speaking, listening, reading, and writing) while introducing major events and figures in Russian history from Kyivan Rus to the early twentieth century. Three lecture hours a week for one semester. Russian 326 (Topic: Adv Russian Thru History) and 326E may not both be counted. Prerequisite: Russian 325, or Russian 322C and 322W.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Slavic and Eurasian Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

RUS 130D. Russian across Disciplines.
Read and discuss Russian language materials related to the subject matter of another designated course. One lecture hour a week for one semester. May be repeated for credit. Prerequisite: Russian 611C or 412L and consent of instructor.

RUS 365T. The Art of Russian to English Translation.
Introduction to the art of translation from Russian to English and English to Russian. The focus is on translation of a variety of fiction and non-fiction texts, but instruction and practice in oral interpretation will also be available. Exposure to the variety of contemporary opportunities in the professional field of translation. Three lecture hours a week for one semester. Russian 365T and 369 (Topic: The Art of Russian-English Translation) may not both be counted. Prerequisite: Russian 325.

RUS 379. Conference Course in Russian Language or Literature.
Conference course. May be repeated for credit. Prerequisite: Six semester hours of upper-division coursework in Russian or consent of instructor and the chair of the department.

RUS 679H. Honors Tutorial Course.
Supervised individual research on a literary or linguistic problem, which culminates in an honors paper of some length. Conference course for two semesters. Must be taken for special honors in addition to the major requirement. Prerequisite: For 679HA, upper-division standing, a University grade point average of at least 3.00, and a grade point average in Russian of at least 3.50; for 679HB, Russian 679HA.
Graduate Courses

**RUS 380E. Topics in Advanced Russian.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

**Topic 1: Cultural Geography of Russia.** Culture, history, and traditions of diverse people and ethnic groups of Russia from a geographical perspective. Only one of the following may be counted: Russian 380E (Topic 1), Russian, East European, and Eurasian Studies 385 (Topic: Cultural Geography of Russia), 385 (Topic 7).

**Topic 2: Russian through Drama.** Focus on improving pronunciation, intonation, and public speaking skills in order to develop advanced proficiency in Russian. Explore an introduction to the life and works of Russian writer Anton Chekhov, and consider Chekhov's theater, the Stanislavsky method of acting, and the social context in which they developed. Russian 380E (Topic: Russian through Drama) and 380E (Topic 2) may not both be counted.

**Topic 3: Russian through Global Debate.** Focus on developing an advanced level of spoken proficiency in Russian through the construction and delivery of arguments in a debate format. Explore the specialized lexicon and rhetoric of argumentation and debate discourse, while working within the subject frames of contemporary global issues: politics, economics, environment, social issues, and human rights. Russian 380E (Topic: Russian thru Global Debate) and 380E (Topic 3) may not both be counted.

**Topic 4: Vysotsky: His Life and Works.** Explore the songs, films, and stage performances of Russia's premiere singer-songwriter, Vladimir Vysotsky. Focus on his use of language and the cultural context of the times. Russian 380E (Topic: Vysotsky: Life and Works) and 380E (Topic 4) may not both be counted.

**Topic 5: Russian Media, Business, and Public Policy.** Explore advanced writing and oral communication skills in the Russian language based on both a traditional approach to grammatical and lexical studies of the language and innovative use of current Russian media, including newspaper and magazine articles, news programs, DVD clips, and short films. Build both formal and informal knowledge of contemporary Russian and discuss the most important issues of Russian society. Russian 380E (Topic: Rus Media/Business/Policy) and 380E (Topic 5) may not both be counted.

**RUS 385. Topics in Russian Linguistics.**

Sample topics include Old Russian and the history of the Russian literary language, as well as more specialized topics in synchronic, historical, or applied perspective. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

**RUS 392. Studies in Slavic Languages and Literatures other than Russian.**

Topics include Bulgarian, Macedonian, Serbian/Croatian, Slovenian, Czech, Sorbian, Polish, Slovak, Ukrainian, and Belorussian. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in the Department of Slavic and Eurasian Studies, or graduate standing and consent of instructor.

**RUS 395. Conference Course.**

Study of individual problems in Slavic languages. Conference course. May be repeated for credit. Prerequisite: Graduate standing.

**RUS 397P. Topics in Applied Linguistics and Pedagogy.**

Study of topics in applied linguistics related to the teaching of Russian and other Slavic languages. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

**RUS 698. Thesis.**

The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in the Department of Slavic and Eurasian Studies and consent of the graduate adviser; for 698B, Russian 698A.

**RUS 398R. Master's Report.**

Preparation of a report to fulfill the requirement for the master's degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in the Department of Slavic and Eurasian Studies and consent of the graduate adviser.

**RUS 398T. Supervised Teaching in Russian.**

Principles and methods of teaching Russian. Analysis of relevant foreign language teaching theories and methodologies, curriculum and curricular materials development for university and secondary school teachers of Russian. Three lecture hours a week for one semester. Prerequisite: Graduate standing and appointment as a teaching assistant.

Professional Courses

**S C - Serbian/Croatian**

**Serbian/Croatian: S C**

**Lower-Division Courses**

**S C 601C. Intensive Bosnian/Croatian/Serbian I.**

Not open to native or heritage speakers of Bosnian/Croatian/Serbian. Emphasis on developing oral proficiency in Bosnian/Croatian/Serbian using intensive methods of instruction. Six lecture hours a week for one semester. Serbian/Croatian 601C and 506 may not both be counted. Serbian/Croatian 601C and 507 may not both be counted.

**S C 506. First-Year Bosnian/Croatian/Serbian I.**

Emphasis on proficiency in four skills: listening, speaking, reading, and writing. Five lecture hours a week for one semester. Serbian/Croatian 601C and 506 may not both be counted.

**S C 507. First-Year Bosnian/Croatian/Serbian II.**

Emphasis on proficiency in four skills: listening, speaking, reading, and writing. Five lecture hours a week for one semester. Serbian/Croatian 601C and 507 may not both be counted. Prerequisite: Serbian/Croatian 506.

**S C 611C. Intensive Bosnian/Croatian/Serbian II.**

Not open to native or heritage speakers of Bosnian/Croatian/Serbian. Continuing intensive development of proficiency in Bosnian/Croatian/Serbian, with a focus on speaking and the reading of authentic texts. Six lecture hours a week for one semester. Serbian/Croatian 611C and 312K may not both be counted. Serbian/Croatian 611C and 312L may not both be counted. Prerequisite: Serbian/Croatian 611C or 507.

**S C 312K. Second-Year Bosnian/Croatian/Serbian I.**

Listening, speaking, reading, and writing at the second-year level. Three lecture hours a week for one semester. Serbian/Croatian 611C and 312K may not both be counted. Prerequisite: Serbian/Croatian 611C or 507.

**S C 312L. Second-Year Bosnian/Croatian/Serbian II.**

Listening, speaking, reading, and writing at the advanced, second-year level. Three lecture hours a week for one semester. Serbian/Croatian 611C and 312L may not both be counted. Prerequisite: Serbian/Croatian 312K.
**Upper-Division Courses**

**S C 324. Topics in Bosnian/Croatian/Serbian Studies.**
Selected aspects of Bosnian/Croatian/Serbian history and culture. Conducted in English. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**S C 325. Third-Year Bosnian/Croatian/Serbian I.** 
Oral expression, reading, and composition. Three lecture hours a week for one semester. Prerequisite: Serbian/Croatian 611C or 312L.

**S C 326. Third-Year Bosnian/Croatian/Serbian II.** 
Oral expression, reading, and composition. Three lecture hours a week for one semester. Prerequisite: Serbian/Croatian 325.

**S C 379. Conference Course in Bosnian/Croatian/Serbian.** 
Conference course. May be repeated for credit. Prerequisite: Serbian/Croatian 312K and 312L and consent of instructor.

**Graduate Courses**

**S C 392. Topics in Bosnian, Croatian, and Serbian Language.** 
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**S C 395. Conference Course.**
Study of individual problems in Serbian and Croatian languages, literature, and culture. Conference course. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in the Department of Slavic and Eurasian Studies, or graduate standing and consent of instructor.

**Professional Courses**

**S S - Social Science**

**Social Science: S S**

**Lower-Division Courses**

**S S 302C. Honors Social Science: Methods and Theory.** 
Restricted to students in the Plan II Honors Program. An introduction to the study of the individual, society, or culture using the methods and theories of one of the Social Sciences. Three lecture hours a week for one semester. Social Science 301 and 302C may not both be counted.

**S S 302D. Honors Social Science: Psychology.** 
Restricted to students in the Plan II Honors Program. An introduction to the study of the individual, society, or culture using the methods of the social science discipline of Psychology. Three lecture hours a week for one semester. Social Science 301 and 302D may not both be counted.

**S S 302E. Honors Social Science: Anthropology.** 
Restricted to students in the Plan II Honors Program. An introduction to the study of the individual, society, or culture using the methods of the social science discipline of Anthropology. Three lecture hours a week for one semester. Social Science 301 and 302E may not both be counted.

**S S 302F. Honors Social Science: Economics.** 
Restricted to students in the Plan II Honors Program. An introduction to the study of the individual, society, or culture using the methods of the social science discipline of Economics. Three lecture hours a week for one semester. Social Science 301 and 302F may not both be counted.

**Upper-Division Courses**

**Graduate Courses**

**Social Work: S W**

**Lower-Division Courses**

**S W 310 (TCCN: SOCW 2361). Introduction to Social Work and Social Welfare.** 
Introduction to the profession of social work including its fields of practice; values and ethics; its history and the social welfare policies that undergird it; its interactions with contexts which shape practice; and its promotion of social and economic justice to advance human rights, alleviate critical social problems, and promote wellbeing. Discuss engaging diversity and differences in social work practice. Three lecture hours a week for one semester, and forty-five clock hours of service learning.

**S W 311. Introductory Topics in Social Work.** 
Selected introductory topics in the social work profession. Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

**Topic 3: Introduction to the Criminal Justice System.** Social Work 311 (Topic: Criminal Justice System) and 311 (Topic 3) may not both be counted.

**S W 312. Generalist Social Work Practice: Knowledge, Values, and Skills.** 
Restricted to social work majors. Introduction to the fundamental values, ethics, skills, and knowledge relevant to generalist social work practice. Three lecture hours a week for one semester, and forty-five clock hours of service learning. Prerequisite: Social Work 310 with a grade of at least a C.

**S W 313. Social Work Research Methods.** 
Restricted to social work majors. Introduction to social work values, the research process, problem formulation and conceptualization, measurement, research design and inference, single-subject design and practice evaluation, sampling, alternative data gathering techniques and analyses, and uses of research in social work. Three lecture hours a week for one semester. Prerequisite: Credit or registration for one of the following: Educational Psychology 308, 371, Psychology 317, 418, 420M, Statistics and Data Sciences 301, 302, 302F, 309, 320E, Sociology 317L, or Social Work 318 (or credit for Mathematics 316, Statistics and Data Sciences 304, 306, or 328M).

**S W 318. Social Work Statistics.** 
Restricted to social work majors. Introduction to the conceptual and quantitative tools used to describe and interpret data in the conduct of social work practice and research. Select, calculate, and interpret appropriate statistics applicable to common data analysis situations related to direct practice, administration and planning, and policy. Explore R statistical software to calculate statistics and present results. Three lecture hours a week for one semester.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Steve Hicks School of Social Work. University credit is awarded for...
work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

Restricted to social work majors. Analyze contemporary social welfare policy issues and programs and discuss the relationship between social policy and social work practice. Explore the historical, political, economic, and social conditions that influence policy development in the United States. Use policy analysis tools in order to examine how policy influences practice and planning decisions and how social workers can influence social welfare policy. Three lecture hours a week for one semester. Prerequisite: Social Work 310, 312, 313, and 325 with a grade of at least a C; one of the following: Educational Psychology 308, 371, Psychology 317, 418, 420M, Statistics and Data Sciences 301, 302, 302F, 309, 320E, Sociology 317L, or Social Work 318 (or Mathematics 316, Statistics and Data Sciences 304, 306, or 328M) with a grade of at least a C; one of the following: Government 310L, 312L, or 306C; three hours of history; and three hours of economics.

Restricted to social work majors. Explore how membership in vulnerable population groups influences an individual's life experiences, world view, and increases risk factors for exposure to discrimination, economic deprivation, and oppression. Apply social justice approaches to influence assessment, planning, access to resources, intervention, and research. Critically analyze distributive justice, human and civil rights, and global interconnections of oppression. Examine the impact of discrimination and oppression by individuals and society on people of culturally diverse backgrounds and orientations. Three lecture hours a week for one semester.

Same as Urban Studies 328S. Restricted to social work majors. Explore the biopsychosocial and cultural functioning of human beings across the life span using an ecological-systems lens and major developmental theories as a framework to guide the processes of assessment, intervention, and evaluation. Discuss the impact of the family, social groups, organizations, communities, and society on individuals during these stages of the life span. Examine empirically-based research reflecting a risk and resilience perspective in making client assessments and recommending appropriate interventions. Three lecture hours and one laboratory hour a week for one semester. Only one of the following may be counted: Social Work 327, Urban Studies 354 (Topic: Human Behavior and Social Environment), 354 (Topic 10), Urban Studies 328S

Prerequisite: For social work majors, Social Work 310, 312, 313, 325 and one of the following: Educational Psychology 308, 371, Psychology 317, 418, 420M, Statistics and Data Sciences 301, 302, 302F, 309, 320E, Sociology 317L, or Social Work 318 (or Mathematics 316, Statistics and Data Sciences 304, 306, or 328M) with a grade of at least C; for others, upper-division standing.

S W 329. Transformative Teams In Health Care.

Restricted to social work majors and students pursuing a social work minor. Engage in interprofessional team work, including an examination of the backgrounds and contributions of different professions and teams. Identify examples of highly functional vs. dysfunctional team interactions. Explore integrated behavioral health for patient care. Three lecture hours a week for one semester. Social Work 329 and 360K (Topic: Transformative Teams Hlthcr) may not both be counted. Offered on the pass/fail basis only. Prerequisite: The following with a grade of at least C in each: Social Work 310, 312, and 325.

Topics in Social Work.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Steve Hicks School of Social Work. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Restricted to social work majors. Examine the helping process within the context of an ecosystems developmental framework. Explore engaging clients in an appropriate working relationship; communication skills; identifying issues, problems, needs, resources, and assets; and planning for service delivery. Pay special attention to understanding, affirming, and respecting people from diverse backgrounds, including (but not limited to) groups distinguished by race, ethnicity, culture, class, gender, sexual orientation, religion, physical or mental ability, age, and national origin. Three lecture hours a week for one semester. Prerequisite: Social Work 327 with a grade of at least C.

Restricted to social work majors. Explore group dynamics and effective leadership skills, through social work values and the ethical decision-making process. Discuss both task and treatment groups utilizing an ecosystems developmental framework. Pay special attention to understanding, affirming, and respecting groups with diverse backgrounds, including (but not limited to) race, ethnicity, culture, class, gender, sexual orientation, religion, physical or mental ability, age, and national origin. Explore social work group facilitation using empirically-based theories and interventions to achieve client goals. Three lecture hours a week for one semester. Prerequisite: Social Work 327 with a grade of at least C.

S W 334. Social Work Practice in Organizations and Communities.

Restricted to social work majors. Examine the organizational context within which social services are delivered, including how funding, mandate, and organizational arrangements influence service delivery and factors to consider in efforts to modify existing organizational arrangements. Explore the interlocking and complex nature of culture and personal identity, discussing vulnerable populations and examining the factors that contribute to and constitute being at risk. Define, design, and implement strategies for effective practice with persons from diverse backgrounds. Three lecture hours a week for one semester. Prerequisite: Social Work 310, 312, 313, and 325 with a grade of at least C; one of the following with at least a C: Educational Psychology 308, 371, Psychology 317, 418, 420M, Statistics and Data Sciences 301, 302, 302F, 309, 320E, Sociology 317L, or Social Work 318 (or Mathematics 316, Statistics and Data Sciences 304, 306, or 328M).

Same as Women’s and Gender Studies 335 (Topic 2). Restricted to students in the Peers for Pride program. The second part of the Peers for Pride facilitation program; serves as a way for students in the program to use the information and skills learned in “Confronting LGBTQ Oppression.” Students will continue to fine-tune their facilitation skills and continue learning about LGBTQ people on the UT campus and beyond. Only one of the following may be counted: Social Work 335, 360K (Topic: LGBTQ Oppression: Dialog), Theatre and Dance 357T (Topic: LGBTQ Oppression: Dialog), Women’s and Gender Studies 335 (Topic 2),
Restricted to social work majors. Explore the integration of theory and practice to strengthen the relationship between the classroom content and field. Examine the processes common to all social work practice, gender and cultural issues, and their impact on service delivery. Explore issues related to social and economic justice, vulnerable populations, cultural diversity, alleviating social problems, and the enhancement of human well-being. Four lecture hours a week for one semester. Social Work 444 and 445 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Social Work 323K, 332, and 333 with a grade of at least a C; concurrent enrollment in Social Work 645C; and consent of advisor.

S W 645C. Social Work Field Instruction I.
Restricted to social work majors. Participate in a field practicum to apply knowledge and develop skills of social work practice with educational supervision by faculty and social workers in community agencies. Sixteen laboratory hours a week for one semester. Social Work 640 and 645C may not both be counted. Offered on the pass/fail basis only. Prerequisite: Social Work 323K, 332, and 333 with a grade of at least a C; concurrent enrollment in Social Work 645C; and consent of advisor.

S W 645D. Social Work Field Instruction II.
Restricted to social work majors. Continue to apply knowledge and develop skills in social work, building on objectives emphasized in Social Work 645C, with educational supervision by faculty and by social workers in community agencies. Sixteen laboratory hours a week for one semester. Social Work 641 and 645D may not both be counted. Offered on the pass/fail basis only. Prerequisite: Credit or registration for Social Work 645C.

Conference course. May be repeated for credit.

S W 355. Topics in Disability Studies.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

Designed to enable each student to undertake intensive study of selected aspects of social work practice. Three or four lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

- **Topic 2: African American Family.** Same as African and African Diaspora Studies 312K and Women’s and Gender Studies 340 (Topic 3). Overview of historical and contemporary issues facing African American families and children. Social service delivery to African American families and communities is emphasized. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 321K, Social Work 360K (Topic 2), Women’s and Gender Studies 340 (Topic 3).
- **Topic 3: Treatment of Substance Use Disorders.**
- **Topic 4: Social Work Practice with Abused and Neglected Children and Their Families.** Social Work 360K (Topic: Social Work Practice with Abused and Neglected Children and Their Families) and 360K, 460K (Topic 4) may not both be counted.
- **Topic 5: Advanced Topics in Social and Economic Justice.**
- **Topic 6: Contemporary Issues in Domestic Violence.** Social Work 360K (Topic: Contemporary Issues in Domestic Violence) and 360K, 460K (Topic 6) may not both be counted.

- **Topic 8: Leadership in the Community.** Must have consent of instructor to register. Social Work 360K (Topic: Leadership in the Community) and 360K, 460K (Topic 8) may not both be counted.

- **Topic 10: Methods of Play Intervention.** Social Work 360K (Topic: Methods of Play Intervention) and 360K, 460K (Topic 10) may not both be counted.

- **Topic 11: Communication Skills in Interdisciplinary Settings.**

- **Topic 12: Social Work in the Legal System.** Social Work 360K (Topic: Social Workers in the Legal System) and 360K, 460K (Topic 12) may not both be counted.

- **Topic 14: Working with Youth Gangs.** Social Work 360K (Topic: Working with Youth Gangs) and 360K, 460K (Topic 14) may not both be counted.

- **Topic 16: Principles of Recovery and Relapse Prevention.**

- **Topic 17: Mental Health Issues in Public Safety.** Designed to provide a basic understanding of mental health intervention and treatment related issues for students planning to work in the field of public safety.

- **Topic 18: Juvenile Justice: Systems, Policy, and Practice.** Introduction to the socio-historical context of the juvenile justice system and key micro, mezzo, and macro level issues for social service providers working with juvenile justice system-involved populations. Examine social theories used to explain why youth engage in behaviors deemed “delinquent;” social inequality in the juvenile justice system; juvenile justice system procedures; and practitioner and policy efforts to facilitate positive youth development within the juvenile justice system. Social Work 360K (Topic 15) and 360K (Topic 21) may not both be counted.

- **Topic 19: Parenting Interventions for Diverse Populations.** An overview of evidence-based interventions aimed at enhancing parenting across diverse populations. Explore advances and limitations in efforts to support parents in raising healthy and successful children from different backgrounds. Social Work 360K (Topic: Parent Interventions) and 360K (Topic 22) may not both be counted.

- **Topic 20: Introduction to Sport Social Work.** Examine social work practice in sporting environments and explore how to assist athletes at all levels of sports. Includes a focus on physical and mental health, parenting, youth, foster care, bereavement, and social services. Social Work 360K (Topic: Intro to Sport) and 360K (Topic: 23) may not both be counted.

- **Topic 21: Death, Dying, and Practitioner Resilience.** Examine cultural, historical, and theoretical components of death, dying, and resilience in healthcare. Explore communicative, psychological, and sociological approaches to terminal illness patient communication and care. Discuss methods of achieving wellness and resilience in the face of adversity. Social Work 360K (Topic: Death/Dying/Practitioner Resilience) and 360K (Topic 26) may not both be counted.
Explore the historical and contemporary contexts of the British welfare state, social work practice, and institutional efforts to address social injustice. Immerse in British culture and explore how the U.K. and the U.S. address pressing social issues. Discuss the rights, responsibilities, and actions of global citizenship in an increasingly global society. Four lecture hours a week for one semester. Social Work 460K (Topic: Roots of Social Economics Justice) and 467M may not be counted. Offered on the letter-grade basis only. Prerequisite: Consent of instructor.

S W 679H. Honors Tutorial Course.
Individual conference course in social work research and writing. The equivalent of three lecture hours a week for two semesters. Prerequisite: Upper-division standing and admission to the Social Work Honors Program.

Graduate Courses
S W 381R. Human Behavior and the Social Environment.
Focuses on empirically based theories and conceptual approaches that form the foundation for social work practice and research with individuals and families in social systems. Three lecture hours a week for one semester. Prerequisite: Graduate standing in social work, or graduate standing and consent of instructor or the graduate adviser.

History, demographics, and cultures of various populations at risk with an emphasis on self-awareness and understanding the impact of discrimination and oppression by individuals and society on people of diverse backgrounds, abilities, and orientations. Three lecture hours a week for one semester. Prerequisite: Graduate standing in social work, or graduate standing and consent of instructor or the graduate adviser.

S W 381T. Dynamics of Organizations and Communities.
The organizational and community context within which social services are delivered and the influence of funding, mandate, and organizational arrangements on service delivery, with attention given to populations at risk. Three lecture hours a week for one semester. Prerequisite: Graduate standing in social work, or graduate standing and consent of instructor or the graduate adviser.

Historical perspective on the development of social welfare institutions, programs, and policies. Students study methods of current policy analysis and evaluation of social problems. Three lecture hours a week for one semester. Prerequisite: Graduate standing in social work, or graduate standing and consent of instructor or the graduate adviser.

S W 083C. Dual MSSW Program with Partner Institutions.
Social Work study at partner institutions. May not be taken concurrently with another course at the University of Texas at Austin. May be repeated for credit. Prerequisite: Graduate standing and admission to the MSSW/MDiv dual degree program or MSSW/MPH dual degree program.

S W 383R. Social Work Practice I.
Introduction to social work practice methodology and the professional use of self in generalist practice with individuals, families, groups, organizations, and communities. Three lecture hours a week for one semester. Prerequisite: Graduate standing in social work and concurrent enrollment in Social Work 384R, or graduate standing and consent of instructor or the graduate adviser.

S W 383T. Social Work Practice II.
Students examine, critique, select, and apply social work micro, mezzo, and macro theories and methods in advanced clinical and community practice. Three lecture hours a week for one semester. Prerequisite: Graduate standing in social work and concurrent enrollment in Social Work 384S, or graduate standing and consent of instructor or the graduate adviser.

S W 384R. Field Instruction I.
Practice course based on supervised assignments designed to develop a social work perspective and skill in working with individuals, families, groups, organizations, and communities. Sixteen to twenty hours a week (a total of at least 240 hours) in field placement and a weekly one-hour integrative seminar in the application of theoretical material to practice problems and to special issues. One lecture hour and sixteen to twenty hours of fieldwork a week for one semester. Social Work 384R and 384S must be taken in consecutive semesters. Prerequisite: Graduate standing in social work and concurrent enrollment in Social Work 383R, or graduate standing and consent of the field director or the graduate adviser.

S W 384S. Field Instruction II.
Continuation of Social Work 384R. Sixteen to twenty hours a week (a total of at least 240 hours) in field placement and a weekly one-hour integrative seminar that emphasizes advanced application of theory to practice and to consideration of special issues. One lecture hour and sixteen to twenty hours of fieldwork a week for one semester. Social Work 384R and 384S must be taken in consecutive semesters. Prerequisite: Graduate standing in social work and concurrent enrollment in Social Work 383T, or graduate standing and consent of the field director or the graduate adviser.

Study of the scientific method and the use of research as a tool for professional practice. Three lecture hours a week for one semester. Prerequisite: Graduate standing in social work, or graduate standing and consent of instructor or the graduate adviser.

S W 385T. Advanced Integrative Capstone in Social Work Knowledge and Practice.
Applies knowledge, skills, and theories to values and ethics, diversity, populations at risk, social and economic justice, human behavior and the social environment, social welfare policy, social work practice, research, and field education. Designed to be taken concurrently with Social Work 694R. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

S W 387C. Direct Practice Field Immersion.
Students work in a professional agency assisting clients. One weekly seminar hour and at least eight hours of fieldwork a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in social work and consent of instructor or the graduate adviser.

S W 387R. Topics in Special Issues.
Three lecture hours a week for one semester, or as required by the topic. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in social work, or graduate standing and consent of instructor or the graduate adviser.

Topic 12: Contemporary Issues in Foster Care and Adoption.
Topic 13: Aging and Disability.
Topic 14: Family Support, Self-Determination, and Disability.
Topic 15: Introduction to Gerontology.
Topic 17: Making Systems Work for People with Disabilities.
Topic 20: Dynamics of Substance Use Disorders.
Topic 23: Social Work Practice with Older Adults.
Topic 27: Women with Disabilities.
Topic 28: Health and Psychosocial Factors.
Topic 30: Contemporary Practice with Older Adults.
Topic 31: Kinship Care: Children and Family Systems.
Topic 32: Psychosocial Oncology Practice and Research.
Topic 33: Child and Adult Attachment in Clinical Practice.
Topic 34: Introduction to Sport Social Work. Social Work 387 (Topic 34) and 395K (Intro to Sport Social Work) may not both be counted.
Topic 38: Social Work with Military Personnel and Families. Social Work 387R (Topic 37) and 387R (Topic 38) may not both be counted.
Topic 39: Parenting Interventions for Diverse Populations.
Topic 40: Mindfulness and Social Work Practice.
Topic 42: Meaning Making and Resilience in Illness and Suffering.
Topic 43: Women's Health Policy. Social Work 387R (Topic 43) and 395K (Topic: Women's Health Policy) may not both be counted.

S W 387T. Transformative Teams in Health Care.
Social Work 387R (Topic 41) and 387T may not both be counted. Offered on the credit/no credit basis only.

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in social work and consent of instructor and the graduate adviser.

Topic 1: Research Methods I. Introduction to the basic elements of quantitative and qualitative research design in the social sciences with particular attention to social work research.
Topic 2: Research Methods II. Designed to provide students with the knowledge and competence needed to successfully design, conduct and publish quantitative studies in peer-reviewed journals. Designed to be concrete and to use a "hands-on" approach to gaining mastery over the technical, narrative, and strategic elements of conducting original research with quantitative data.
Topic 3: Research Methods III. Introduction to qualitative research methodologies, paradigms, epistemologies, and theories. Qualitative methods of inquiry, including research designs, specific data collection methods, and analytic and interpretive procedures. Discussion of several approaches to qualitative data collection and analysis. Required of all doctoral students in social work.
Topic 5: Structural Equation Modeling. Restricted to doctoral students. Introduction to the basic concepts and applications of Structural Equation Modeling (SEM) using the AMOS program. Explores conducting factor analysis, testing causal structures, testing model structure invariance and mean invariance through multigroup analyses, and examining change over time with growth curve modeling. Social Work 388R (Topic 5) and 395K (Topic: Structural Equation Modeling) may not both be counted. Additional prerequisite: For non-social work majors, graduate standing and consent of instructor.
Topic 8: Advanced Qualitative Data Analysis. Restricted to doctoral students. An elective course for doctoral students who want additional training in qualitative methods. Focus on the epistemological and practical issues of analyzing qualitative data and writing up the results. Students must have access to pre-collected data for analysis or consult with instructor about a suitable project. May be used to fulfill the advanced research or statistical methods elective requirement. Additional prerequisite: Consent of instructor.

Topic 9: Secondary Data Analysis. Restricted to doctoral students. Introduction to the advantages and challenges of working with secondary data, involving hands on experience with the preparation and data analysis of large data sets. Subjects include the basics of Confirmatory Factor Analysis, Structural Equation Modeling, and Multi-group analyses using AMOS software. Three lecture hours a week for one semester, with additional hours to be arranged. May be counted toward advanced research or statistical methods course or elective. Additional prerequisite: Graduate standing, Social Work 388R (Topic 6), and 388R (Topic 7).

Topic 10: Quantitative Data Analysis I. Introduction to fundamental concepts and statistical procedures used in social work research. Focus on computer applications for data analysis and development of basic skills in data file construction, management, and statistical analysis. Primary focus is on developing a conceptual and mathematical understanding of statistics needed for advanced work in research design, model development, model fitting and estimation, hypothesis testing, multivariate techniques, and interpretation of data. Social Work 388R (Topic 6) and 388R (Topic 10) may not both be counted.

Topic 11: Quantitative Data Analysis II. Builds on the concepts and procedures introduced in Social Work (Topic 10). Designed to enable students to do a more thorough job of data analysis by introducing multivariate statistical procedures into their repertoire of statistical techniques. The primary focus is on using the SPSS statistical package for calculating multivariate statistics, and the utilization of the statistical output in research findings. Social Work 388R (Topic 7) and 388R (Topic 11) may not both be counted.

Topic 12: Hierarchical Linear Modeling. Restricted to doctoral students. Provides an introduction to the basic concepts and applications of Hierarchical Linear Modeling (HLM). Subjects will include multilevel data structures, model building and testing, fixed and random effects, and interpretation of results. Social Work 388R (Topic 12) and 395K (Topic: Hierarchical Linear Modeling) may not both be counted. Additional prerequisite: Regression analysis using SAS; a pre-test to demonstrate SAS knowledge may be required; and for non-social work majors, graduate standing and consent of instructor.
Topic 13: Grant Writing For Prevention and Clinical Intervention Research. Restricted to doctoral students. Explore principles of grant writing with special focus on standards expected by leading federal funding agencies, e.g. National Institutes of Health. Conceptualize grant proposals according to social justice principles with the goal of benefiting under-served populations. Produce an exploratory/developmental grant proposal with an explicit focus on prevention or clinical intervention. Additional prerequisite: Social Work majors must have completed their comprehensive exam paper. For non-social work majors, graduate standing and consent of instructor.

Topic 14: Research Methods in Minoritized Populations. Restricted to doctoral students in Steve Hicks School of Social Work. Examine scholarly discourse with respect to social science research methods that include race, ethnicity, and other minoritized identities as variables, or that is conducted in and with minoritized communities. Three lecture hours a week for one semester. Additional prerequisite: Social Work 388R (Topic 1).

S W 390N. Seminar: Strategies of Intervention.
A critical evaluation of social work intervention strategies in human services, using alternative theoretical perspectives. Three lecture hours a
week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in social work, or graduate standing and consent of instructor and the graduate adviser.

**Topic 2: Theories of Social Work Practice.** Conceptualization, development, and application of social work theories and major theoretical paradigms are covered. Examination of philosophical, theoretical, and empirical underpinnings of different social work practice theories with an emphasis on understanding and critically analyzing the philosophical assumptions and scientific basis of various theories. Explores the historical context of different theories covered and research on their effectiveness within social work. Discussion of major theories from diverse disciplines.

**S W 392R. Topics in Social Welfare Policy Analysis.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in social work, or graduate standing and consent of instructor or the graduate adviser.

- **Topic 1:** Integrated Health Care Policy.
- **Topic 2:** Children and Families.
- **Topic 3:** Poverty and Public Policy.
- **Topic 4:** Social Policy for the Aging Population.
- **Topic 5:** Social Determinants of Health and Health Policy.

**S W 393R. Topics in Advanced Clinical Practice.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in social work, or graduate standing and consent of instructor or the graduate adviser.

- **Topic 1:** Clinical Assessment and Differential Diagnosis.
- **Topic 3:** Theories and Methods of Family Intervention.
- **Topic 9:** Assessment and Treatment of Traumatized Populations.
- **Topic 11:** Clinical Intervention with Intergenerational Families Giving Care.
- **Topic 13:** Cognitive-Behavioral Therapy.
- **Topic 14:** Counseling African American Individuals, Couples, and Families.
- **Topic 15:** Couples Counseling.
- **Topic 16:** Coexisting Psychiatric and Substance Use Disorders.
- **Topic 18:** Grief Counseling.
- **Topic 20:** Methods of Play Intervention.
- **Topic 21:** Motivational Interviewing.
- **Topic 22:** Neurobiology and Social Work Practice.
- **Topic 23:** Treatment of Substance Use Disorders.
- **Topic 24:** Treatment of Children and Adolescents.
- **Topic 26:** Theories and Methods of Group Intervention.
- **Topic 29:** Crisis Intervention.
- **Topic 30:** Solution-Focused Brief Therapy.
- **Topic 31:** Neurodevelopment and Trauma.

**S W 393T. Topics in Advanced Macro Practice.**

The equivalent of three lecture hours a week for one semester, or as required by the topic. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in social work, or graduate standing and consent of instructor or the graduate adviser.

- **Topic 8:** Community Engagement and Management of Volunteers.
- **Topic 9:** Community Organizing and Social Change.
- **Topic 11:** International Social Work.
- **Topic 14:** Psychiatric Disabilities: From the Inside Out.
- **Topic 16:** Social Work Leadership in Human Service Systems.
- **Topic 17:** Human Resource Development.
- **Topic 18:** Nonprofit Management in Human Services.
- **Topic 19:** Strategic Partnerships.
- **Topic 20:** Information Systems and Communication in Social Work.

**Topic 22:** Community Building.
**Topic 23:** Advanced Policy Practice.
**Topic 25:** Social Change and Community Practice.
**Topic 26:** Cross-Disciplinary Global Project Development in the United States and Abroad.
**Topic 28:** Program Evaluation. Social Work 393T (Topic 27) and 393T (Topic 28) may not both be counted.
**Topic 29:** Financial Management in Human Services. Social Work 393T (Topic 29) and 395K (Topic: Financial Management/Strategy) may not both be counted.
**Topic 30:** Grant Writing and Resource Development. Social Work 393T (Topic 10) and 393T (Topic 30) may not both be counted.

**S W 393U. Topics in Social Justice and Populations at Risk.**

Three lecture hours a week for one semester, or as required by the topic. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in social work, or graduate standing and consent of instructor or the graduate adviser.

- **Topic 1:** Social Work Practice with Abused and Neglected Children and Their Families.
- **Topic 3:** Working with Youth Gangs.
- **Topic 4:** Social Work Practice with African American Families.
- **Topic 5:** Social Work Practice with Mexican American Families.
- **Topic 10:** Women and Substance Use Disorders: Contemporary Issues.
- **Topic 16:** Assessment and Treatment of Juvenile Offenders.
- **Topic 17:** Gays and Lesbians in American Society: Policy and Practice.
- **Topic 18:** Restorative Justice.
- **Topic 20:** Cultural Factors in Substance Use Treatment for Underserved Populations.
- **Topic 21:** Social Work Practice with Asian American Families.
- **Topic 22:** Contemporary Issues in Domestic Violence.
- **Topic 23:** Contemporary Issues and Practice in Sexual Assault.
- **Topic 24:** Advanced Issues in Social and Economic Justice.
- **Topic 25:** Historical Cultural Trauma.
- **Topic 26:** Youth, Delinquency, and Juvenile Justice.
- **Topic 27:** Social Inequalities in Health.
- **Topic 28:** Social Work and the Latino Population.
- **Topic 30:** Culturally Sensitive Service Provision with Latino Populations. Social Work 393U (Topic 29) and 393U (Topic 30) may not both be counted.
- **Topic 31:** Global Health. Social Work 393U (Topic 31) and 395K (Topic: Global Health-Mex) may not both be counted.
- **Topic 32:** Communication Skills in Interdisciplinary Settings.
- **Topic 33:** Community Participatory Research on Health Disparities.
- **Topic 34:** Mitigation Matters. Social Work 395K (Topic: Mitigation Matters) and 393U (Topic 34) may not both be counted.

**S W 393V. Topics in Social Work in Specific Settings.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in social work, or graduate standing and consent of instructor or the graduate adviser.

- **Topic 8:** Community Engagement and Management of Volunteers.
- **Topic 9:** Community Organizing and Social Change.
- **Topic 11:** International Social Work.
- **Topic 14:** Psychiatric Disabilities: From the Inside Out.
- **Topic 16:** Social Work Leadership in Human Service Systems.
- **Topic 17:** Human Resource Development.
- **Topic 18:** Nonprofit Management in Human Services.
- **Topic 19:** Strategic Partnerships.
- **Topic 20:** Information Systems and Communication in Social Work.

**Topic 22:** Community Building.
**Topic 23:** Advanced Policy Practice.
**Topic 25:** Social Change and Community Practice.
**Topic 26:** Cross-Disciplinary Global Project Development in the United States and Abroad.
**Topic 28:** Program Evaluation. Social Work 393T (Topic 27) and 393T (Topic 28) may not both be counted.
**Topic 29:** Financial Management in Human Services. Social Work 393T (Topic 29) and 395K (Topic: Financial Management/Strategy) may not both be counted.
**Topic 30:** Grant Writing and Resource Development. Social Work 393T (Topic 10) and 393T (Topic 30) may not both be counted.

**S W 694R. Advanced Field Instruction.**

Supervised practicum, building on Social Work 384R and 384S, in the continued application of theory to practice at an advanced level within the student’s chosen concentration. Designed to be taken concurrently with Social Work 385T. Social Work 694R and 394S can be taken concurrently in one semester to provide thirty-six hours of work a week (a total of at least 540 hours in one semester) in a social work agency or organization, or they can be taken over two semesters to provide sixteen to twenty hours of work a week (a total of at least 540 hours in two semesters) in the same agency. Offered on the credit/no credit basis.
only. Prerequisite: Graduate standing in social work, consent of field director, and consent of graduate adviser.

S W 394S. Advanced Field Instruction.
Supervised practicum, building on Social Work 384R and 384S, in the continued application of theory to practice at an advanced level within the student’s chosen concentration. Social Work 694R and 394S can be taken concurrently in one semester to provide thirty-six hours of work a week (a total of at least 540 hours in one semester) in a social work agency or organization, or they can be taken over two semesters to provide sixteen to twenty hours of work a week (a total of at least 540 hours in two semesters) in the same agency. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

Restricted to students in School of Social Work. Individually supervised development of the comprehensive research paper. For each semester hour earned, the equivalent of one class hour a week for one semester. May be repeated seven times. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and 41 semester hours of PhD coursework in social work. Students must sign up in the Office of the Graduate Coordinator for Doctoral Education prior to registering.

Introduction to the diversity of topics and methods pursued by researchers and academicians in social work education and allied fields. Topics covered are broad and include information that facilitates the learning of research methods and the development of knowledge and skills needed to participate in the PhD program and within a community of scholars. Conference course. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor or the graduate adviser.

S W 395L. Research Practicum.
Individually supervised research experience. Individual instruction. May be counted towards the advanced research or statistical methods requirement. Prerequisite: Graduate standing.

S W 195G. Colloquium on Issues in Social Work Education and Research.
Restricted to doctoral students in social work. Exposure to the diversity of research topics and methods pursued by researchers and academicians in social work education and allied fields. Conference course. May be taken twice for credit. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of the instructor or the graduate adviser.

S W 395S. Area of Specialization Course.
Designed to help students demonstrate knowledge in the substantive issues, key research questions, theory, empirical evidence, and implications in their area of specialization. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

S W 395W. Writing Practicum.
Individually supervised development of publishable written material. Individual instruction. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

Explore the historical and contemporary contexts of the British welfare state, social work practice, and institutional efforts to address social injustice. Immerse in British culture and explore how the U.K. and the U.S. address pressing social issues. Discuss the rights, responsibilities, and actions of global citizenship in an increasingly global society. The equivalent of four lecture hours a week for one semester. Social Work 495K (Topic: Roots of Socl/Econ Justice) and Social Work 497M may not both be counted Prerequisite: Consent of instructor.

Focus on social work curriculum and teaching and on educational policies and accreditation standards that inform curricular structure and content. Attends to course content and development, teaching techniques, and classroom management, emphasizing building skills as well as deepening conceptual understandings of pedagogical theory and practice. Students must complete this course before they may be appointed as assistant instructors in the School of Social Work. Three lecture hours a week for one semester. Prerequisite: Graduate standing in social work and consent of instructor or the graduate adviser.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses

SAL - South Asian Languages

South Asian Languages: SAL

Lower-Division Courses

SAL 506. First-Year South Asian Languages I.
Emphasis on four-skills proficiency: listening, speaking, reading, and writing. Five lecture hours a week for one semester. May be repeated for credit when the topics vary.

SAL 507. First-Year South Asian Languages II.
Emphasis on four-skills proficiency: listening, speaking, reading, and writing. Five lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: South Asian Languages 506 with a grade of at least C.

SAL 312K. Second-Year South Asian Languages I.
Listening, speaking, reading, and writing at the second-year level. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: South Asian Languages 507 with a grade of at least C.

SAL 312L. Second-Year South Asian Languages II.
Listening, speaking, reading, and writing at the advanced, second-year level. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: South Asian Languages 312K with a grade of at least C.

Upper-Division Courses

Graduate Courses

Professional Courses
SAN - Sanskrit

Sanskrit: SAN

Lower-Division Courses
SAN 506. First-Year Sanskrit I.
Introduction to basic grammatical principles, with reading of Ramayana episodes as illustrations. Five class hours a week for one semester.

SAN 507. First-Year Sanskrit II.
Detailed study of problems of grammar and syntax; reading of extracts from Hitopadesha and the Bhagavad Gita. Five class hours a week for one semester. Prerequisite: Sanskrit 506 with a grade of at least C.

SAN 312K. Second-Year Sanskrit I.
Introduction to classical Sanskrit prose literature; readings from the Epics and Kathasaritsagara. Three lecture hours a week for one semester. Prerequisite: Sanskrit 507 with a grade of at least C.

SAN 312L. Second-Year Sanskrit II.
Introduction to classical Sanskrit poetry and philosophical literature; readings from the Upanishads and Kalidasa's Meghaduta. Three lecture hours a week for one semester. Prerequisite: Sanskrit 312K with a grade of at least C.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Asian Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses
SAN 325K. Advanced Sanskrit Readings and Composition I.
Three lecture hours a week for one semester. Prerequisite: Sanskrit 325L with a grade of at least C.

SAN 325L. Advanced Sanskrit Readings and Composition II.
Three lecture hours a week for one semester. Prerequisite: Sanskrit 325K with a grade of at least C.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Asian Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer work is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

SAN 330. Topics in Sanskrit Language and Literature.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Sanskrit 312L with a grade of at least C.

   Topic 1: Sanskrit Drama. Provides students with a firmer foundation in Sanskrit grammar, syntax, and vocabulary; and an appreciation of the aesthetics of Sanskrit drama. Sanskrit 330 (Topic: Sanskrit Drama) and 330 (Topic 1) may not both be counted.

   Topic 2: Vedic Poetry. Religious and literary features of Vedic poetry, the development of Vedic Sanskrit, and the relation of Vedic to Classical Sanskrit. Sanskrit 330 (Topic: Vedic Poetry) and 330 (Topic 2) may not both be counted.

SAN 330C. Bhagavata Purana.
Examine the famous Bhagavata-Purana, a collection of stories and theologies of Vaisnava Hinduism, with a focus on selected readings from the tenth book or canto of the text, which contains a theological biography of Krishna. Develop both broad and deep knowledge of the text, and explore its significance within Sanskrit intellectual, literary, and religious histories. Three lecture hours a week for one semester. Sanskrit 330 (Topic: Bhagavata Purana) and 330C may not both be counted. Prerequisite: Sanskrit 312L with a grade of at least C.

SAN 330D. Kumarasambhava of Kalidasa.
Focus on the third and fifth cantos of the Kumarasambhava of Kalidasa, a poetic masterpiece of Sanskrit literature. Consider the poetics and compositional style of the text, the style of Sanskrit commentary, and the translation of complex Sanskrit verse into English, as well as the mythological assumptions, social perspectives, and cultural concerns that inform the text. Three lecture hours a week for one semester. Sanskrit 330 (Topic: Kumarasambhava of Kalidasa) and 330D may not both be counted. Prerequisite: Sanskrit 312L with a grade of at least C.

SAN 330E. Dharmasastra.
Examine selected topical readings from the genre of Sanskrit literature called Dharmasastra, also known loosely as Hindu law, with focus on legal and religious topics of dharma from the earliest sutras to the later commentaries and digests. Three lecture hours a week for one semester. Sanskrit 330 (Topic: Dharmasastra) and 330E may not both be counted. Prerequisite: Sanskrit 312L with a grade of at least C.

SAN 330F. Buddhist and Jain Sanskrit.
Examine selections from important texts of Buddhist and Jain traditions with a focus on the Sanskrit vocabulary and style of these traditions, as well as their conceptual, doctrinal, and narrative foundations. Focus on both systematic expositions of religious doctrine (sastra, darsana), and on narrative theologies (katha, carita, avadana) to facilitate comparison between the two religious traditions. Three lecture hours a week for one semester. Sanskrit 330 (Topic: Buddhist and Jain Sanskrit) and 330F may not both be counted. Prerequisite: Sanskrit 312L with a grade of at least C.

SAN 330G. Purva-Mimamsa.
Examine the Purva-Mimamsa, the system of hermeneutics developed to interpret the intricate ritual prescriptions of the Brahmana texts in the Vedic corpus. Explore this system through study of a primer of Mimamsa hermeneutics in Sanskrit, and through secondary readings providing context and broader background to the influence of Mimamsa. Three lecture hours a week for one semester. Sanskrit 330 (Topic: Intro to Purva-Mimamsa) and 330G may not both be counted. Prerequisite: Sanskrit 312L with a grade of at least C.

SAN 330U. The Upanishads.
Three lecture hours a week for one semester. Sanskrit 330 (Topic: The Upanishads) and 330U may not both be counted. Prerequisite: Sanskrit 312L with a grade of at least C.

SAN 360. Conference Course in Sanskrit Language and Literature.
Supervised individual study of selected problems in Sanskrit language or literature. Conference course. May be repeated for credit. Prerequisite:
Upper-division standing, Sanskrit 312L, and written consent of instructor on form obtained from the undergraduate adviser.

**Graduate Courses**

**SAN 381. Conference Course in Sanskrit Language and Culture.**
Supervised individual study in Sanskrit language or culture. The equivalent of three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and written consent of instructor on form obtained from the graduate coordinator.

**SAN 384S. Topics in Sanskrit Language and Culture.**
Study of various aspects and periods of Sanskrit language and culture. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; and Sanskrit 325L, 330, or the equivalent, or consent of instructor.

**Professional Courses**

**SCI - Science**

**SCI 360. Seminar on Recent Advances in Science.**
Recent advances in the life, earth/space, and physical sciences. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: For certified teachers, a bachelor's degree or consent of instructor; for others, six semester hours of coursework in science, in the biological sciences, in one of the physical sciences, or in one of the earth/space sciences, or consent of instructor.

**Sanford 384S (Topic 8): Dharmasastra.**
Examines classical Sanskrit law, with a focus on legal and religious topics of dharma, including systematic expositions of religious Doctrine (sastra, darsana), and on narrative theologies (katha, carita, avadana) to facilitate comparison between the two religious traditions. Sanskrit 384S (Topic: Dharmasastra) and 384S (Topic 9) may not both be counted.

**Sanford 384S (Topic 7): Kumarasambhava of Kalidasa.**
Focus on the third and fifth cantos of the Kumaramsambhava of Kalidasa, a poetic masterpiece of Sanskrit literature. Consider the poetics and compositional style of the text, the style of Sanskrit commentary, and the translation of complex Sanskrit verse into English, as well as the mythological assumptions, social perspectives, and cultural concerns that inform the text. Sanskrit 384S (Topic: Kumaramsambhava of Kalidasa) and 384S (Topic 7) may not both be counted.

**Sanford 384S (Topic 6): Bhagavata Purana.**
Examines the famous Bhagavata-Purana, a collection of stories and theologies of Vaisnava Hinduism, with a focus on selected readings from the tenth book or canto of the text, which contains a theological biography of Krsna. Develop both broad and deep knowledge of the text, and explore its significance within Sanskrit intellectual, literary, and religious histories. Sanskrit 384S (Topic: Bhagavata Purana) and 384S (Topic 6) may not both be counted.

**Sanford 384S (Topic 5): The Upanishads.**
Examines selected topical readings from the genre of Sanskrit literature called Dharmasastra, also known loosely as Hindu law, with a focus on legal and religious topics of dharma from the earliest sutras to the smritis to the later commentaries and digests. Sanskrit 384S (Topic: Dharmasastra) and 384S (Topic 8) may not both be counted.

**Sanford 384S (Topic 4): Vedic Poetry.**
Religious and literary features of Vedic poetry, the development of Vedic Sanskrit, and the relation of Vedic to Classical Sanskrit. Sanskrit 384S (Topic: Vedic Poetry) and 384S (Topic 4) may not both be counted.

**Sanford 384S (Topic 3): Sanskrit Drama.**
Provides students with a firmer foundation in Sanskrit grammar, syntax, and vocabulary; and an appreciation of the aesthetics of Sanskrit drama. Sanskrit 384S (Topic: Sanskrit Drama) and 384S (Topic 3) may not both be counted.

**Sanford 384S (Topic 2): Readings in Classical Sanskrit Prose and Literature.**
Examines selected topical readings from the genre of Sanskrit literature called Dharmasastra, also known loosely as Hindu law, with a focus on legal and religious topics of dharma from the earliest sutras to the smritis to the later commentaries and digests. Sanskrit 384S (Topic: Dharmasastra) and 384S (Topic 8) may not both be counted.

**Sanford 384S (Topic 1): Advanced Readings in Sanskrit.**
Examines selected topical readings from the genre of Sanskrit literature called Dharmasastra, also known loosely as Hindu law, with a focus on legal and religious topics of dharma from the earliest sutras to the smritis to the later commentaries and digests. Sanskrit 384S (Topic: Dharmasastra) and 384S (Topic 8) may not both be counted.

**Lower-Division Courses**

**SDS - Statistics and Data Sciences**

**SDS 301 (TCCN: MATH 1342). Elementary Statistical Methods.**
Covers the fundamental procedures for data organization and analysis. Subjects include frequency distributions, graphical presentation, sampling, experimental design, inference, and regression. Three lecture hours and one laboratory hour a week for one semester. Only one of the following may be counted: Educational Psychology 308, Statistics 309, 309H or Statistics and Data Sciences 301.

**SDS 302F. Foundations of Data Analysis.**
Introduction to data analysis and statistical methods. Subjects include random sampling; principles of observational study and experimental design; data summaries and graphics; and statistical models and inference, including the simple linear regression model and one-way analysis of variance. Three lecture hours and one laboratory hour a week for one semester. Only one of the following may be counted: Statistics and Data Sciences 302, 302F, 306.

**SDS 110T, 210T, 310T, 410T. Topics in Statistics and Computation.**
For each semester hour of credit earned, one lecture hour a week for one semester. Statistics and Data Sciences 110T and Statistics and Scientific Computation 110T may not both be counted. May be repeated for credit when the topics vary.
SDS 311C. Numbering Race.
Same as African and African Diaspora Studies 302M. Subjects include conceptualization and operationalization in quantitative measurement, the calculation and interpretation of descriptive statistics and statistical relationships, the application of statistical techniques to understand social phenomena, and techniques for presenting results from quantitative analysis. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 302M, 317D (Topic: Numbering Race), Statistics and Data Sciences 310T (Topic: Numbering Race), 311C.

SDS 313. Introduction to Data Science.
Introduction to the principles and practice of data science. Explore R and reproducible data analysis; summarizing data using descriptive statistics; data visualization and storytelling; data wrangling and relational data; basic prediction and classification using regression models; and programming in R. The equivalent of three lecture hours a week for one semester. Only one of the following may be counted: Statistics and Data Sciences 313, 322E, 348.

SDS 315. Statistical Thinking.
Introduction to the fundamental ideas of statistical thinking with R programming. Explore survey, experimental, and observational study design; common sources of random and systematic error in data; the bootstrap as a tool for quantifying uncertainty; hypothesis testing; regression; and the role of statistics in an ethical and just society. The equivalent of three lecture hours a week for one semester. Prerequisite: Statistics and Data Sciences 313 with a grade of at least C-.

SDS 318. Introduction to Statistical and Scientific Computation.
An introduction to quantitative analysis using fundamental concepts in statistics and scientific computation. Includes probability, distributions, sampling, interpolation, iteration, recursion, and visualization. Three lecture hours and one laboratory hour a week for one semester. Statistics and Data Sciences 318 and Statistics and Scientific Computation 318 may not both be counted.

Upper-Division Courses
SDS 320E. Elements of Statistics.
Introduction to statistics. Subjects include probability; principles of observational study and experimental design; statistical models and inference, including the multiple linear regression model and one-way analysis of variance. R programming is introduced. Three lecture hours and one laboratory hour a week for one semester. Only one of the following may be counted: Statistics and Data Sciences 320E, 320H, and 328M.

Introduction to statistics. Subjects include probability; principles of observational study and experimental design; statistical models and inference, including the multiple linear regression model and one-way analysis of variance. R programming is introduced. Three lecture hours and one laboratory hour a week for one semester. Only one of the following may be counted: Statistics and Data Sciences 320E, 320H, and 328M.

SDS 321. Introduction to Probability and Statistics.
Covers fundamentals of probability, combinatorics, discrete and continuous random variables, jointly distributed random variables, and limit theorems. Using probability to introduce fundamentals of statistics, including Bayesian and classical inference. The equivalent of four lectures hours a week. Statistics and Data Sciences 321 and 431 may not both be counted. Prerequisite: Mathematics 408C, 408L, 408R, 408S, or 408W with a grade of at least C-.

SDS 322, 322. Introduction to Scientific Programming.
Introduction to programming using both the C and Fortran (95/2003) languages, with applications to basic scientific problems. Covers common data types and structures, control structures, algorithms, performance measurement, and interoperability. For each semester hour of credit earned, one lecture hour a week for one semester. Only one of the following may be counted: Statistics and Data Sciences 322, 322, 292, 392, Statistics and Scientific Computation 222, 322, 292, 392. Prerequisite: Credit or registration for Mathematics 408C, 408K, or 408N.

SDS 322E. Elements of Data Science.
Explore data science tools and examine data wrangling; exploratory data analysis and data visualization; markdown and data workflow; simulation-based inference; and classification methods. R programming is emphasized and Python programming is introduced. Three lecture hours and one laboratory hour a week for one semester. Only one of the following may be counted: Statistics and Data Sciences 313, 322E, 348. Prerequisite: An introductory statistics course.

SDS 323. Statistical Learning and Inference.
An introduction to statistical influence, broadly construed as the process of drawing conclusions from data, and to quantifying uncertainty about said conclusions. Covers the major schools of thought that influence modern scientific practice, including classical frequentist methods, machine learning, and Bayesian inference. Three lecture hours a week for one semester. Statistics and Data Sciences 323 and Statistics and Scientific Computation 323 may not both be counted. Prerequisite: Statistics and Data Sciences 321 (or Statistical and Scientific Computation 321) or the equivalent.

SDS 324E. Elements of Regression Analysis.
Explore the use of regression analysis in applied research and learn about multiple linear regression; ANOVA; logistic regression; random and mixed-effects models; and models for dependent data. Engage in the identification of appropriate statistical methods and interpretation of software output. R programming is introduced. Three lecture hours a week for one semester. Statistics and Data Sciences 324E and 332 may not both be counted. Prerequisite: Statistics and Data Sciences 302F or Statistics and Data Sciences 320E (or Statistics and Data Sciences 302, 304, 306, or 328M).

SDS 325H. Honors Statistics.
An introduction to the fundamental theories, concepts, and methods of statistics. Emphasizes probability models, exploratory data analysis, sampling distributions, confidence intervals, hypothesis testing, correlation and regression, and the use of statistical software. Three lecture hours a week for one semester. Statistics and Data Sciences 325H and Statistics and Scientific Computation 325H may not both be counted. Prerequisite: Admission to the Dean’s Scholars Honors Program in the College of Natural Sciences or consent of instructor.

SDS 329C. Practical Linear Algebra I.
Matrix representations and properties of matrices; linear equations, eigenvalue problems and their physical interpretation; and linear least squares and elementary numerical analysis. Emphasis on physical interpretation, practical numerical algorithms, and proofs of fundamental principles. Three lecture hours a week for one semester. Only one of the following may be counted: Mathematics 340L, 341, Statistics and Data Sciences 329C.
SDS 431. Probability and Statistical Inference.
Introduction to probability and statistical inference. Examine events and random experiments; basic rules of probability; joint, conditional, and marginal probability and independence; discrete and continuous random variables; random sampling and estimation; large-sample theory results and central limit theorem-based inferential summaries; and maximum likelihood estimation. Three lecture hours and two laboratory hours a week for one semester. Statistics and Data Sciences 321 and 431 may not both be counted. Prerequisite: Statistics and Data Sciences 315 with a grade of at least C; and credit with a grade of at least C- or registration for Mathematics 408D, 408L, or 408S.

Introduction to applied regression analysis. Explore estimation and inference in multiple regression models; logistic regression; regression for count data; time-to-event models; and case studies in regression modeling in published work, emphasizing both the use and limitations of regression modeling in advancing scientific knowledge. The equivalent of three lecture hours a week for one semester. Prerequisite: Statistics and Data Sciences 321 with a grade of at least C; Mathematics 340L or 341 or Statistics and Data Sciences 329C with a grade of at least C-; and Computer Science 303E or 312 with a grade of at least C-.

A comprehensive introduction to computing techniques and methods applicable to many scientific disciplines and technical applications. Covers computer hardware and operating systems, systems software and tools, code development, numerical methods and math libraries, and basic visualization and data analysis tools. Three lecture hours a week for one semester. Statistics and Data Sciences 335 and Statistics and Scientific Computation 335 may not both be counted. Prerequisite: Mathematics 408D or 408M, and prior programming experience.

Introduction to machine learning for data science with an emphasis on Python programming. Explore comparing algorithm performance; decision-tree algorithms; classification algorithms; model averaging; unsupervised learning; and neural network. The equivalent of three lecture hours a week for one semester. Statistics and Data Sciences 334 with a grade of at least C; and Computer Science 327E with a grade of at least C-.

SDS 150K. Data Analysis Applications.
Introduction to the use of statistical mathematical applications for data analysis. Two lecture hours a week for eight weeks. Statistics and Data Sciences 150K and Statistics and Scientific Computation 150K may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Offered on the pass/fail basis only. Prerequisite: Varies with the topic.

Topic 1: SPSS Software. Statistics and Data Sciences 150K (Topic 1) and Statistics and Scientific Computation 150K (Topic 1) may not both be counted. Offered on the pass/fail basis only. Additional prerequisite: Upper-division standing.
Topic 2: SAS Software. Statistics and Data Sciences 150K (Topic 2) and Statistics and Scientific Computation 150K (Topic 2) may not both be counted. Offered on the pass/fail basis only. Additional prerequisite: Upper-division standing.
Topic 3: Stata Software. Statistics and Data Sciences 150K (Topic 3) and Statistics and Scientific Computation 150K (Topic 3) may not both be counted. Offered on the pass/fail basis only. Additional prerequisite: Upper-division standing.
Topic 4: The R Software Environment. Statistics and Data Sciences 150K (Topic 4) and Statistics and Scientific Computation 150K (Topic 4) may not both be counted. Offered on the pass/fail basis only. Additional prerequisite: Upper-division standing.

SDS 352. Statistical Methods.
Study of simple and multiple regression, fundamentals of experimental design, and analysis of variance methods. May include logistic regression, Poisson regression, resampling methods, introduction to Bayesian methods, and probability models. Includes substantial use of statistical software. Three lecture hours and one laboratory hour a week for one semester. Statistics and Data Sciences 352 and Statistics and Scientific Computation 352 may not both be counted. Prerequisite: One of the following: Mathematics 316, Statistics and Data Sciences 303 (or Statistics and Scientific Computation 303), 304 (or Statistics and Scientific Computation 304), 305 (or Statistics and Scientific Computation 305), or 306 (or Statistics and Scientific Computation 306).

SDS 353. Advanced Multivariate Modeling.
Advanced topics in statistical modeling, including models for categorical and count data; spatial and time-series data; and survival, hazard, and hierarchical models. Extensive use of statistical software to build on knowledge of introductory probability and statistics, as well as multiple regression. Three lecture hours a week for one semester Statistics and Data Sciences 353 and Statistics and Scientific Computation 353 may not both be counted. Prerequisite: Mathematics 408D or 408M; and Statistics and Data Sciences 325H (or Statistics and Scientific Computation 325H) or 352 (Statistics and Scientific Computation 352).

SDS 354. Advanced Statistical Methods.
Explore advanced methods in statistics and data science. Examine modeling data with multilevel (hierarchical) structure and causal inference, including design and analysis strategies. Discuss smoothing methods; spatial and time series models; additive models; and models for network data. The equivalent of three lecture hours a week for one semester. Prerequisite: Statistics and Data Sciences 334 with a grade of at least C-.

SDS 357. Case Studies in Data Science.
Explore advanced case studies in data science, with an emphasis on the full data analysis pipeline. Examine data collection, identification of data limitations; data privacy; data preparation and exploration; building, using, and evaluating models; creating data products; and communication and persuasion with data. The equivalent of three lecture hours a week for one semester. Prerequisite: Statistics and Data Sciences 334 with a grade of at least C-; credit with a grade of at least C- or registration for Statistics and Data Sciences 336.

SDS 358. Special Topics in Statistics.
Three lecture hours a week for one semester. Statistics and Data Sciences 358 and Statistics and Scientific Computation 358 may not both be counted unless topics vary. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing; additional prerequisites may vary with the topic.

Topic 1: Applied Regression Analysis. Through software application, discussion, and guided instruction, explores simple linear regression - what data is appropriate, how to run analysis, and how to interpret the output. Examines multiple regression with combinations of predictor variables, both continuous and categorical. There will be a discussion/application of ANOVA, prior to preceding on to logistic regression: the prediction of discrete events. Statistics and Data Sciences 358 (Topic: Applied Regression Analysis) and 358 (Topic 1) may not both be counted. Additional prerequisite: One of the following with a grade of at least C: Statistics and Data Sciences 302, 304, 306, 328M.
SDS 364. Bayesian Statistics.
Introduction to the Bayesian approach for statistical inference. Explore prior, posterior, and predictive distributions: conjugate priors; informative and non-informative priors; models for normal, categorical, and count data; Bayesian computation, including MCMC and the Gibbs sampler; hierarchical models; and Bayesian model checking and model selection. The equivalent of three lecture hours a week for one semester. Prerequisite: Statistics and Data Sciences 431 or 321 with a grade of at least C; Mathematics 340L or 341 or Statistics and Data Sciences 329C with a grade of at least C; and credit with a grade of at least C- or registration for Statistics and Data Sciences 334.

SDS 368. Statistical Theory.
Introduction to the mathematical theory of statistics. Explore maximum likelihood estimation, confidence intervals, hypothesis tests and statistical decision theory, tail and concentration bounds, concentration of measure, and nonparametric statistics. The equivalent of three lecture hours a week for one semester. Prerequisite: Statistics and Data Sciences 431 with a grade of at least C; Mathematics 340L or 341 or Statistics and Data Sciences 329C with a grade of at least C; and credit with a grade of at least C- or registration for Statistics and Data Sciences 334; and a solid foundation in calculus, probability theory, and linear algebra.

SDS 374C. Parallel Computing for Science and Engineering.
Study of parallel computing principles, architectures, and technologies; and parallel application development, performance, and scalability. Designed to help prepare students to formulate and develop parallel algorithms to implement effective applications for parallel computing systems. Three lecture hours a week for one semester. Statistics and Data Sciences 374C and Statistics and Scientific Computation 374C may not both be counted. Prerequisite: Mathematics 408D or 408M, 340L, and prior programming experience using C or Fortran on Linux or Unix systems.

SDS 374E. Visualization and Data Analysis for Science and Engineering.
Scientific visualization principles, practices, and technologies, including remote and collaborative visualization. Introduces statistical analysis, data mining, and feature detection. Three lecture hours a week for one semester. Statistics and Data Sciences 374E and Statistics and Scientific Computation 374E may not both be counted. Prerequisite: Mathematics 408D or 408M, 340, and prior programming experience using C or Fortran on Linux or Unix systems.

SDS 375. Special Topics in Scientific Computation.
Three lecture hours a week for one semester. Statistics and Data Sciences 375 and Statistics and Scientific Computation 375 may not both be counted unless topics vary. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing; additional prerequisites may vary with the topic.

Same as Mathematics 378K. Sampling distributions of statistics, estimation of parameters (confidence intervals, method of moments, maximum likelihood, comparison of estimators using mean square error and efficiency, sufficient statistics), hypothesis tests (p-values, power, likelihood ratio tests), and other topics. Three lecture hours a week for one semester. Mathematics 378K and Statistics and Data Sciences 378K may not both be counted. Prerequisite: Mathematics 362K with a grade of at least C-.

SDS 378P. Decision Analytics.
Examine decision theory with utility functions, including the use of probability, optimization, constrained optimization, and linear algebra. Three lecture hours a week for one semester. Only one of the following may be counted: Mathematics 375T (Topic: Decision Analytics), 378P, Statistics and Data Sciences 378P. Prerequisite: Mathematics 362K and Mathematics 378K with a grade of at least C- or consent of the instructor.

Students work on an individual research project under the supervision of one or more faculty members. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

Graduate Courses

SDS 380C. Statistical Methods I.
Introduction to the fundamental concepts and methods of statistics. Includes descriptive statistics, sampling distributions, confidence intervals, and hypothesis testing. May include simple and multiple linear regression, analysis of variance, and categorical analysis. Use of statistical software is emphasized. Three lecture hours a week for one semester. Statistics and Data Sciences 380C and Statistics and Scientific Computation 380C may not both be counted. Prerequisite: Graduate standing.

SDS 380D. Statistical Methods II.
Continuation of Statistics and Data Sciences 380C (or Statistics and Scientific Computation 380C). Surveys advanced statistical modeling and may include random and mixed effects models, time series analysis, survival analysis, Bayesian methods, and multivariate analysis of variance. Use of statistical software is emphasized. Three lecture hours a week for one semester. Statistics and Data Sciences 380D and Statistics and Scientific Computation 380D may not both be counted. Prerequisite: Graduate standing, and Statistics and Data Sciences 380C (or Statistics and Scientific Computation 380C) or the equivalent.

Introduction to mathematical concepts and methods essential for multivariate statistical analysis. Areas may include basic matrix algebra, eigenvalues and eigenvectors, quadratic forms, vector and matrix differentiation, unconstrained optimization, constrained optimization, and applications in multivariate statistical analysis. Three lecture hours a week for one semester. Statistics and Data Sciences 381 and Statistics and Scientific Computation 381 may not both be counted. Prerequisite: Graduate standing and a course in statistics.

SDS 382. Introduction to Probability and Statistics.
Expectation and variance of random variables, conditional probability and independence, sampling distributions, point estimation, confidence intervals, hypothesis tests, and other topics. Three lecture hours a week for one semester. Statistics and Data Sciences 382 and Statistics and Scientific Computation 382 may not both be counted. Prerequisite: Graduate standing and a second-semester calculus class.

SDS 383C. Statistical Modeling I.
An introduction to core applied statistical modeling ideas from a probabilistic, Bayesian perspective. Topics include exploratory data analysis, programming in R, Bayesian probability models, an introduction to the Gibbs sampler, applied regression analysis, and hierarchical models. Three lecture hours a week for one semester. Statistics and Data Sciences 383C and Statistics and Scientific Computation 383C may not both be counted. Prerequisite: Graduate standing.

SDS 383D. Statistical Modeling II.
Use of structured, probabilistic models that incorporate multiple layers of uncertainty to describe real-world systems. Topics include multivariate
normal distribution, mixture models, nonparametric Bayesian analysis, advanced hierarchical models and latent-variable models, generalized linear models, and advanced topics in linear and nonlinear regression. Three lecture hours per week for one semester. Statistics and Data Sciences 383D and Statistics and Scientific Computation 383D may not both be counted. Prerequisite: Graduate standing; Economics 392M (Topic 19), Statistics and Data Sciences 384 (or Statistics and Scientific Computation 384), or the equivalent; and 383C (or Statistics and Scientific Computation 383C).

**SDS 183K. Data Analysis Applications.**
Introduction to the use of statistical or mathematical applications for data analysis. Two lecture hours a week for eight weeks. Statistics and Data Sciences 183K and Statistics and Scientific Computation 183K may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

**Topic 1: SPSS Software.** Statistics and Data Sciences 183K (Topic 1) and Statistics and Scientific Computation 183K (Topic 1) may not both be counted. Offered on the credit/no credit basis only.

**Topic 2: SAS Software.** Statistics and Data Sciences 183K (Topic 2) and Statistics and Scientific Computation 183K (Topic 2) may not both be counted. Offered on the credit/no credit basis only.

**Topic 3: Stata Software.** Statistics and Data Sciences 183K (Topic 3) and Statistics and Scientific Computation 183K (Topic 3) may not both be counted. Offered on the credit/no credit basis only.

**Topic 4: The R Software Environment.** Statistics and Data Sciences 183K (Topic 4) and Statistics and Scientific Computation 183K (Topic 4) may not both be counted. Offered on the credit/no credit basis only.

**SDS 384. Topics in Statistics and Probability.**
Concepts of probability and mathematical statistics with applications in data analysis and research. Three lecture hours a week for one semester. Statistics and Data Sciences 384 and Statistics and Scientific Computation 384 may not both be counted unless topics vary. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; and Statistics and Data Sciences 382 (or Statistics and Scientific Computation 382), an introductory probability course and a statistics course, or consent of instructor.

**Topic 1: Applied Probability.** Basic probability theory, combinatorial analysis of random phenomena, conditional probability and independence, parametric families of distributions, expectation, distribution of functions of random variables, and limit theorems. Statistics and Data Sciences 384 (Topic 1) and Statistics and Scientific Computation 384 (Topic 1) may not both be counted.

**Topic 2: Mathematical Statistics I.** Same as Computational Science, Engineering, and Mathematics 384R and Mathematics 384C. The general theory of mathematical statistics. Includes distributions of functions of random variables, properties of a random sample, principles of data reduction, an overview of hierarchical models, decision theory, Bayesian statistics, and theoretical results relevant to point estimation, interval estimation, and hypothesis testing. Three lecture hours a week for one semester. Only one of the following may be counted: Computational Science, Engineering, and Mathematics 384R, Mathematics 384C, Statistics and Data Sciences 384 (Topic 2). Additional prerequisite: Graduate standing; and Mathematics 362K and 378K, or consent of instructor.

**Topic 3: Mathematical Statistics II.** Same as Computational Science, Engineering, and Mathematics 384S and Mathematics 384D. Continuation of Computational Science, Engineering, and Mathematics 384R and Mathematics 384C. Three lecture hours a week for one semester. Only one of the following may be counted: Computational Science, Engineering, and Mathematics 384S, Mathematics 384D, Statistics and Data Sciences 384 (Topic 3). Additional prerequisite: Graduate standing; Computational Science, Engineering, and Mathematics 384R, or Mathematics 384C; and Mathematics 362K and 378K, Statistics and Data Sciences 382, or consent of instructor.

**Topic 4: Regression Analysis.** Same as Computational Science, Engineering, and Mathematics 384T and Mathematics 384G. Simple and multiple linear regression, inference in regression, prediction of new observations, diagnosis and remedial measures, transformations, and model building. Emphasis on both understanding the theory and applying theory to analyze data. Three lecture hours a week for one semester. Only one of the following may be counted: Computational Science, Engineering, and Mathematics 384T, Mathematics 384G, Statistics and Data Sciences 384 (Topic 4). Additional prerequisite: Graduate standing; and Mathematics 362K and 378K, Statistics and Data Sciences 382, or consent of instructor.

**Topic 5: Advanced Regression Analysis.** Continuation of Computational Science, Engineering, and Mathematics 384T and Mathematics 384G. Advanced regression analysis, modeling, and model building. Emphasis on both understanding the theory and applying theory to analyze data. Three lecture hours a week for one semester. Only one of the following may be counted: Computational Science, Engineering, and Mathematics 384T and Mathematics 384G. Additional prerequisite: Graduate standing; and Mathematics 362K and 378K, Statistics and Data Sciences 382, or consent of instructor.

**Topic 6: Design and Analysis of Experiments.** Same as Computational Science, Engineering, and Mathematics 384U and Mathematics 384E. Design and analysis of experiments, including one-way and two-way layouts; components of variance; factorial experiments; balanced incomplete block designs; crossed and nested classifications; fixed, random, and mixed models; and split plot designs. Three lecture hours a week for one semester. Only one of the following may be counted: Computational Science, Engineering, and Mathematics 384U, Mathematics 384E, Statistics and Data Sciences 384 (Topic 6). Additional prerequisite: Graduate standing; and Mathematics 362K and 378K, Statistics and Data Sciences 382, or consent of instructor.

**Topic 7: Bayesian Statistical Methods.** Fundamentals of Bayesian inference in single-parameter and multi-parameter models for inference and decision making, including simulation of posterior distributions, Markov chain Monte Carlo methods, hierarchical models, and empirical Bayes models. Statistics and Data Sciences 384 (Topic 7) and Statistics and Scientific Computation 384 (Topic 7) may not both be counted.

**Topic 8: Time Series Analysis.** Introduction to statistical time series analysis. Includes autoregressive integrated moving average (ARIMA) and more general models, forecasting, spectral analysis, time domain regression, model identification, estimation of parameters, and diagnostic checking. Statistics and Data Sciences 384 (Topic 8) and Statistics and Scientific Computation 384 (Topic 8) may not both be counted. Additional prerequisite: Mathematics 384D.

**Topic 9: Computational Statistics.** Modern, computation intensive statistical methods, including simulation, optimization methods, Monte Carlo integration, maximum likelihood estimation and expectation-maximization parameter estimation, Markov chain Monte Carlo methods, resampling methods, and nonparametric density estimation. Statistics and Data Sciences 384 (Topic 9) and Statistics and Scientific Computation 384 (Topic 9) may not both be counted.

**Topic 10: Stochastic Processes.** Concepts and techniques of stochastic processes, with emphasis on the nature of change of variables with respect to time. Includes characterization, structural properties, and inference. Statistics and Data Sciences 384 (Topic 10) and Statistics and Scientific Computation 384 (Topic 10) may not both be counted.

**Topic 11: Theoretical Statistics.** Examination of asymptotic theory and empirical processes. The former would include minimax theory, Bernstein von Mises theorem, and Bayesian asymptotics. The latter, would include U statistics and robust estimation. Additional prerequisite: Statistics and Data Sciences 384 (Topic 3) or the equivalent; and advanced probability.

**SDS 385. Topics in Applied Statistics.**
Theories, models, and methods for the analysis of quantitative data. Three lecture hours a week for one semester. Statistics and Data Sciences 385 and Statistics and Scientific Computation 385 may not both be counted unless topics vary. May be repeated for credit when the
statistics and scientific computation 385 (topic 2), or consent of instructor.

**topic 1: experimental design.** Principles, construction, and analysis of experimental designs. Includes one-way classification, randomized blocks, Latin squares, factorial and nested designs, fixed and random effects, multiple comparisons, and analysis of covariance. Statistics and Data Sciences 385 (topic 1) and Statistics and Scientific Computation 385 (topic 1) may not both be counted.

**topic 2: applied regression.** Examination of the foundation of regression analysis. Subjects include simple and multiple linear regression, residual analysis, transformations, building models with real data, testing models, logistic regression, and panel data analysis. Statistics and Data Sciences 385 (Topic 2) and Statistics and Scientific Computation 385 (Topic 2) may not both be counted. Additional prerequisite: Graduate standing, and one of the following: Public Affairs 397, Statistics and Data Sciences 380C (or Statistics and Scientific Computation 380C), 382 (or Statistics and Scientific Computation 382), or consent of instructor.

**Topic 3: Applied Multivariate Methods.** Introduction to the analysis of multivariate data as applied to examples from the social sciences. Includes multivariate linear models, principal components and factor analysis, discriminant analysis, clustering, and canonical correlation. Statistics and Data Sciences 385 (Topic 3) and Statistics and Scientific Computation 385 (Topic 3) may not both be counted. Additional prerequisite: Statistics and Data Sciences 385 (Topic 2) (or Statistics and Scientific Computation 385 (Topic 2)), or the equivalent.

**Topic 4: Analysis of Categorical Data.** Methods for analyzing categorical data. Includes categorical explanatory variables within the general linear model, models of association among categorical variables, and models in which the response variable is categorical or is a count. Emphasis on logical similarities across methods. Statistics and Data Sciences 385 (Topic 4) and Statistics and Scientific Computation 385 (Topic 4) may not both be counted.

**Topic 5: Structural Equation Modeling.** Introduction to the basic concepts, methods, and computing tools used in structural equation modeling. Designed to help students develop a working familiarity with some common statistical procedures and their application through the use of statistical software. Statistics and Data Sciences 385 (Topic 5) and Statistics and Scientific Computation 385 (Topic 5) may not both be counted. Additional prerequisite: Statistics and Data Sciences 385 (Topic 2) (or Statistics and Scientific Computation 385 (Topic 2)), or the equivalent or consent of instructor.

**Topic 6: Hierarchical Linear Models.** Introduction to multilevel data structures, model building and testing, effect size, fixed and random effects, missing data and model assumptions, hierarchical linear modeling (HLM) logistics, statistical power, and design planning. Statistics and Data Sciences 385 (Topic 6) and Statistics and Scientific Computation 385 (Topic 6) may not both be counted. Additional prerequisite: Statistics and Data Sciences 385 (Topic 2) (or Statistics and Scientific Computation 385 (Topic 2)), or the equivalent or consent of instructor.

**Topic 7: Survey Sampling and Methodology.** Survey planning, execution, and analysis. Includes the principles of survey research, including sampling and measurement; questionnaire construction and distribution; response effects; validity and reliability; scaling data sources; and data reduction and analysis. Statistics and Data Sciences 385 (Topic 7) and Statistics and Scientific Computation 385 (Topic 7) may not both be counted.

**Topic 8: Introduction to Bayesian Methods.** A practical introduction to Bayesian statistical inference, with an emphasis on applications in behavioral and measurement research. Examines how Bayesian statistical inference differs from classical inference in the context of simple statistical procedures and models, such as hypothesis testing, analysis of variance (ANOVA), and regression. Statistics and Data Sciences 385 (Topic 8) and Statistics and Scientific Computation 385 (Topic 8) may not both be counted. Additional prerequisite: Statistics and Data Sciences 385 (Topic 2) (or Statistics and Scientific Computation 385 (Topic 2)) or the equivalent, or consent of instructor.

**Topic 9: Longitudinal Data Analysis.** Applications of models to data collected at successive points in time. Includes latent growth curve models, models for nonlinear growth, discrete-time and continuous-time event history models, multilevel models for change, random coefficient models, and applications of models to event-occurrence data. Statistics and Data Sciences 385 (Topic 9) and Statistics and Scientific Computation 385 (Topic 9) may not both be counted.

**Topic 10: Modern Statistical Methods.** Introduction to conducting statistical analysis using modern resampling methods, including bootstrapping and Monte Carlo simulation. Emphasis on theoretical understanding and application. Statistics and Data Sciences 385 (Topic 10) and Statistics and Scientific Computation 385 (Topic 10) may not both be counted.

**Topic 11: Applied Mathematical Statistics.** Introduction to the basic concepts of probability and mathematical statistics. Includes probability distributions and estimation theory and hypothesis testing techniques. Designed for doctoral students who plan to use statistical methods in their research but do not require a highly mathematical investigation of the subject. Statistics and Data Sciences 385 (Topic 11) and Statistics and Scientific Computation 385 (Topic 11) may not both be counted. Additional prerequisite: A calculus course covering integration and differentiation.

**Topic 12: Meta-Analysis.** Introduction to the statistics used to synthesize results from a set of studies. May include calculation of different effect sizes, calculating pooled estimates using fixed and random effects models, testing moderating variables using fixed and mixed effects models, testing heterogeneity of effect sizes, and assessing and correcting publication bias. Statistics and Data Sciences 385 (Topic 12) and Statistics and Scientific Computation 385 (Topic 12) may not both be counted.

**Topic 13: Factor Analysis.** Introduction to exploratory and confirmatory factor analysis. May include review of matrix algebra and vector geometry, principal components and principal axis factoring, and factor rotation methods, as well as single-factor and multiple-factor multisample models, multitrait-multimethod technique, and latent means modeling. Emphasis on critiquing current research. Statistics and Data Sciences 385 (Topic 13) and Statistics and Scientific Computation 385 (Topic 13) may not both be counted. Additional prerequisite: Statistics and Data Sciences 385 (Topic 2) (or Statistics and Scientific Computation 385 (Topic 2)), or the equivalent or consent of instructor.

**Topic 14: Maximum-Likelihood Statistics.** Introduction to the likelihood theory of statistical inference. Includes probability distributions, estimation theory, and applications of maximum-likelihood estimation (MLE) to models with categorical or limited dependent variables, even count models, event history models, models for time-series cross-section data, and models for hierarchical data. Statistics and Data Sciences 385 (Topic 14) and Statistics and Scientific Computation 385 (Topic 14) may not both be counted.

**Topic 15: Survival Analysis and Duration Modeling.** Focuses on the statistical methods related to the analysis of survival or of time to event data. Emphasis on practical applications in medicine, biology, economics, criminology, sociology, and engineering. May include Kaplan-Meier estimators, semiparametric and parametric regression models, model development, and model adequacy assessment. Statistics and Data Sciences 385 (Topic 15) and Statistics and Scientific Computation 385 (Topic 15) may not both be counted.

**Topic 16: Statistical Models for Big Data.** An introduction to approaches for modeling large data sets in the biological, social, and
physical sciences. Subjects include: linear and generalized-linear models for very large data sets, graphical models, matrix factorization, latent-variable models, large-scale spatial smoothing, online learning, multiple testing, and convex optimization with applications to data analysis. Additional prerequisite: Basic knowledge of linear algebra and multivariable calculus; knowledge of basic probability and statistics at the level of Statistics and Data Sciences 321 and Mathematics 358K; some familiarity with linear regression modeling; programming experience in R, Python, Matlab, or a similar language.

**SDS 386C. Probabilistic Graphical Models.**

An introduction to statistical learning methods, exploring both the computational and statistical aspects of data analysis. Topics include numerical linear algebra, convex optimization techniques, basics of stochastic simulation, nonparametric methods, kernel methods, graphical models, decision trees, and data resampling. Three lecture hours a week for one semester. Statistics and Scientific Computation 386C and Statistics and Data Sciences 386C may not both be counted. Prerequisite: Graduate standing.

**SDS 387. Linear Models.**

An exploration of practical applications of the projection approach to linear models, building from a review of essential linear algebra concepts to the theory of linear models from a projection-based perspective. Introduction to Bayesian ideas. Additional topics include analysis of variance, generalized linear models, and variable selection techniques. Three lecture hours a week for one semester. Statistics and Data Sciences 387 and Statistics and Scientific Computation 387 may not both be counted. Prerequisite: Graduate standing; Economics 392M (Topic 19), Statistics and Scientific Computation 384 (or Statistics and Scientific Computation 384), or the equivalent.

**SDS 388. Consulting Seminar.**

Supervised experience in applying statistical or mathematical methods to real problems. Includes participation in weekly consulting sessions, directed readings in the statistical literature, the ethics of research and consulting, and report writing and presentations. The equivalent of three lecture hours a week for one semester. Statistics and Data Sciences 388 and Statistics and Scientific Computation 388 may not both be counted. Prerequisite: Graduate standing and consent of instructor.

**SDS 389. Time Series and Dynamic Models.**

Exploration of the general class of state-space models, or dynamic models. Emphasis is placed on the implementation and use of the models presented, with applications focused on the social sciences. Topics include dynamic regression models, the Kalman filter, time series models, multivariate time series models, conditional variance models, Markov chain Monte Carlo algorithms for state-space models, and particle filters. Three lecture hours a week for one semester. Statistics and Data Sciences 389 and Statistics and Scientific Computation 389 may not both be counted. Prerequisite: Graduate standing; Economics 392M (Topic 19), Statistics and Data Sciences 384 (or Statistics and Scientific Computation 384), or the equivalent; and coding skills in R, Matlab, or Stata.

**SDS 189R, 289R, 389R, 489R. Graduate Research.**

Individual research project supervised by one or more faculty members. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit. Prerequisite: Graduate standing.

**SDS 190. Readings in Statistics.**

Faculty directed research seminar. Activities may vary, but will include readings of cutting-edge research papers, discussion of on-going student and faculty projects, and consulting projects. May be repeated for credit. Prerequisite: Graduate standing.

**SDS 190C. Biomedical Big Data Seminar.**

Faculty directed research seminar and workshop. Activities may vary but will include literature reviews and group discussion, discussion of faculty and student projects, and presentations. One lecture hour a week for one semester. Statistics and Data Sciences 183K (Topic:Biomedical Big Data Seminar) and 190C may not both be counted. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

**SDS 391C. Statistical Machine Learning.**

Introduction to statistical machine learning. Subjects include but are not limited to supervised learning (estimation, linear regression, classification, online and margin based classification approaches), unsupervised learning (k-means, mixture of Gaussians, dimensionality reduction PCA/SVD), and non-parametric methods. Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing; experience in multivariate statistics, probability, linear algebra.

**SDS 391D. Data Mining.**

Study of various mathematical and statistical aspects of data mining. Includes supervised learning (regression, classification, and support vector machines) and unsupervised learning (clustering, principal components analysis, and dimensionality reduction). Uses technical tools drawn from linear algebra, multivariate statistics, and optimization. Three lecture hours a week for one semester. Statistics and Data Sciences 391D and Statistics and Scientific Computation 391D may not both be counted. Prerequisite: Graduate standing and a linear algebra course.

**SDS 292, 392. Introduction to Scientific Programming.**

Introduction to programming using both the C and Fortran (95/2003) languages, with applications to basic scientific problems. Covers common data types and structures, control structures, algorithms, performance measurement, and interoperability. For each semester hour of credit earned, one lecture hour a week for one semester. Only one of the following may be counted: Statistics and Data Sciences 222, 322, 292, 392, Statistics and Scientific Computation 222, 322, 292, 392. Prerequisite: Graduate standing and credit or registration for a first-semester calculus course.

**SDS 392M. Computational Economics.**

Introduction to the development and solution of economic models of growth, macroeconomic fluctuations, environmental economics, financial economics, general equilibrium models, game theory, and industrial economics. Includes neural nets, genetic algorithms and agent-based methods, and stochastic control theory applied to a variety of economic topics. Three lecture hours a week for one semester. Statistics and Data
Sciences 392M and Statistics and Scientific Computation 392M may not both be counted. Prerequisite: Graduate standing.

SDS 393C. Numerical Analysis: Linear Algebra.
Same as Computational Science, Engineering, and Mathematics 383C, Computer Science 383C, and Mathematics 383E. Survey of numerical methods in linear algebra: floating-point computation, solution of linear equations, least squares problems, algebraic eigenvalue problems. Three lecture hours a week for one semester. Only one of the following may be counted: Computational Science, Engineering, and Mathematics 383C, Computer Science 383C, Mathematics 383E, Statistics and Data Sciences 393C. Prerequisite: Graduate standing; Computer Science 367 or Mathematics 368K, and Mathematics 340L, 341, or consent of instructor.

SDS 393D. Numerical Analysis: Interpolation, Approximation, Quadrature, and Differential Equations.
Same as Computational Science, Engineering, and Mathematics 383D, Computer Science 383D, and Mathematics 383F. Survey of numerical methods for interpolation, functional approximation, integration, and solution of differential equations. Three lecture hours a week for one semester. Only one of the following may be counted: Computational Science, Engineering, and Mathematics 383D, Computer Science 383D, Mathematics 383F; Statistics and Data Sciences 393D. Prerequisite: Graduate standing; Computational Science, Engineering, and Mathematics 383C, Computer Science 383C, Mathematics 383E, or Statistics and Data Sciences 393C; and Mathematics 427K and 365C, or consent of instructor.

Comprehensive introduction to computing techniques and methods applicable to many scientific disciplines and technical applications. Covers computer hardware and operating systems, systems software and tools, code development, numerical methods and math libraries, and basic visualization and data analysis tools. Three lecture hours a week for one semester. Statistics and Data Sciences 394 and Statistics and Scientific Computation 394 may not both be counted. Prerequisite: Graduate standing, and a third-semester calculus course or the equivalent; prior programming experience is recommended.

SDS 394C. Parallel Computing for Science and Engineering.
Parallel computing principles, architectures, and technologies. Parallel application development, performance, and scalability. Designed to prepare students to formulate and develop parallel algorithms to implement effective applications for parallel computing systems. Three lecture hours a week for one semester. Statistics and Data Sciences 394C and Statistics and Scientific Computation 394C may not both be counted. Prerequisite: Graduate standing, a third-semester calculus course or the equivalent, a linear algebra course or a matrices course, and prior programming experience using C or Fortran on Linux or Unix systems.

SDS 394D. Distributed and Grid Computing for Science and Engineering.
Distributed and grid computing principles and technologies. Covers common modes of grid computing for scientific applications, developing grid-enabled applications, and future trends in grid computing. Three lecture hours a week for one semester. Statistics and Data Sciences 394D and Statistics and Scientific Computation 394D may not both be counted. Prerequisite: Graduate standing, a third-semester calculus course or the equivalent, a linear algebra course or a matrices course, and prior programming experience using C or Fortran on Linux or Unix systems.

SDS 394E. Visualization and Data Analysis for Science and Engineering.
Scientific visualization principles, practices, and technologies, including remote and collaborative visualization. Introduces statistical analysis, data mining, and feature detection. Three lecture hours a week for one semester. Statistics and Data Sciences 394E and Statistics and Scientific Computation 394E may not both be counted. Prerequisite: Graduate standing, a third-semester calculus course or the equivalent, a linear algebra course or a matrices course, and prior programming experience using C or Fortran on Linux or Unix systems.

Three lecture hours a week for one semester. Statistics and Data Sciences 395 and Statistics and Scientific Computation 395 may not both be counted unless topics vary. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

SDS 197R. Statistics Internship.
May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of graduate adviser.

SDS 398R. Master's Report.
Preparation of a report to fulfill the requirement for the master's degree under the report option. The equivalent of three lecture hours a week for one semester. Statistics and Data Sciences 398R and Statistics and Scientific Computation 398R may not both be counted. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in statistics and data sciences, consent of supervising professor, and consent of graduate adviser.

SDS 398T. Supervised Teaching in Statistics and Data Sciences.
Supervised teaching experience; weekly group meetings, individual consultations, and reports. Three lecture hours a week for one semester. Statistics and Data Sciences 398T and Statistics and Scientific Computation 398T may not both be counted. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and appointment as a teaching assistant.

Statistics and Data Sciences 399W, 699W, 999W and Statistics and Scientific Computation 399W, 699W, 999W may not both be counted. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses

SED - Special Education

Focus on approaches and strategies that help improve the lives of people with ASD. Examines the role research plays in what people know about various claims. Explores how research findings are communicated, and how to best translate research findings into everyday language. The equivalent of three lecture hour a week for one semester.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study
Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Special Education. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**SED 293, 393. Graduate Seminar in Special Education.**

Discussion of critical issues; critiques of literature; development of theories and models regarding disabling conditions. The equivalent of three class hours a week for one semester. Special Education 380 and 393 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; twelve semester hours of upper-division coursework in education, psychology, or other behavioral sciences; and consent of instructor.

- **Topic 17: Instructional Designs Using Assistive Technology.** The design of instruction for students with disabilities by using assistive and instructional technologies.
- **Topic 18: Collaboration.** Strategies such as collaborative consultation and teamwork models, which are used to improve learning outcomes for students with diverse learning needs.
- **Topic 20: Applied Research.** Special Education 393 (Topic 5) and 393 (Topic 20) may not both be counted.

**Upper-Division Courses**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Special Education. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**SED 332. Field Experiences in Special Education.**

Observation and participation in a variety of educational settings that serve children with disabilities. Two lecture hours and two four-hour sessions of fieldwork a week for one semester. Fieldwork sessions must be arranged between 8:00 AM and noon. Required for all undergraduate students seeking special education certification.

**SED 337. Intercultural Communication and Collaboration.**

Basic principles of interpersonal and intergroup communication in culturally and linguistically diverse educational settings. Designed to help students understand the relationship between culture, language, and disability using a variety of formats, including discussion, dialogue, journals, simulations, case studies, and field-based assignments. Three lecture hours a week for one semester. Required for undergraduate students seeking special education certification. Prerequisite: Admission to the teacher preparation program and consent of the Office of Student Field Experiences.

**SED 360, 960. Apprenticeship: Research to Practice.**

Supervised practicum in special education classroom teaching, conducted in cooperating schools, as part of the teacher preparation program. Consists of teaching, analysis, and evaluation. Two lecture hours and at least fifteen, thirty, or forty-five hours of fieldwork a week for one semester. Required for undergraduate students seeking special education certification. Offered on the pass/fail basis only. Prerequisite: Admission to the teacher preparation program and consent of the Office of Student Field Experiences.

**SED 372. Assessment of Individuals with Mild to Moderate Disabilities.**

Assessment and high-stakes testing policies, procedures, and practices in special education; curriculum-based measurement used to monitor academic outcomes for students with disabilities; and principles and procedures used to reduce misidentification of individuals from culturally and linguistically diverse backgrounds and with limited English proficiency. Assessment data and individualized education plan development is also covered. Three lecture hours a week for one semester. Required for students seeking special education certification. Prerequisite: Admission to the teacher preparation program and consent of the Office of Student Field Experiences.

**SED 375C. Teaching Individuals with Mild to Moderate Disabilities.**

Instructional practices associated with improved outcomes for students with mild to moderate disabilities receiving services in general and special education classrooms, including an emphasis on teaching reading in content areas, such as mathematics, science, and social studies. Three lecture hours and sixteen to twenty internship hours a week for one semester. Required for students seeking special education certification. Prerequisite: Admission to the teacher preparation program and consent of the Office of Division Field Experiences.

**SED 376. Foundations and Issues in Special Education.**

Key issues affecting decision-making and practices by special education teachers, assessment personnel, and administrators related to the treatment and education of students with disabilities. Three lecture hours a week for one semester. Required for students seeking special education certification.

**SED 377. Transition and the Exceptional Learner.**

An overview of the transitions within the life span, particularly the transition to postsecondary school settings for individuals with disabilities. Designed to help students develop the ability to infuse transition-related topics into curricula, assess transition needs, develop transition plans, and become knowledgeable about existing vocational and community services. Three lecture hours a week for one semester, with fieldwork to be arranged. Required for students seeking special education certification. Prerequisite: Applied Learning and Development 322 and consent of the undergraduate adviser.

**SED 378D. Assessment Practices in Autism and Developmental Disabilities.**

Assessment practices for developing and evaluating educational programs for individuals with autism and developmental disabilities. Considers the theoretical orientations that underlie the major assessment strategies, including standardized, behavioral, and informal practices. Three lecture hours and three hours of fieldwork a week for one semester. Required for students seeking special education certification. Prerequisite: Admission to the teacher preparation program and consent of the Office of Student Field Experiences.

**SED 378E. Advanced Early Childhood Intervention.**

Designed to assist students in acquiring in-depth knowledge of early childhood intervention, particularly related to services within the state of Texas, including an understanding of the legal policies related to serving young children with disabilities and their families. Three lecture hours and eight hours of fieldwork a week for one semester. Required for students seeking special education certification. Prerequisite: Admission to the teacher preparation program and consent of the Office of Student Field Experiences.
SED 378R. Reading Assessment and Development with Diverse Populations.
The knowledge and skills associated with assessing, instructing, and monitoring the progress of students who experience mild to moderate difficulties with reading, as well as students with dyslexia. The emphasis is on reading, spelling, and writing for kindergarten through grade five. Three lecture hours a week for one semester. Prerequisite: Admission to the teacher preparation program and consent of the Office of Student Field Experiences.

SED 378S. Teaching Individuals with Autism and Developmental Disabilities.
Assessment and instructional strategies for educating students with autism and other developmental and physical disabilities. Focuses on implementation and evaluation of instructional procedures for teaching a range of adaptive behaviors, such as self-care, and communication, social, and community living skills. Three lecture hours and eight hours of fieldwork a week for one semester. Required for students seeking special education certification. Prerequisite: Admission to the teacher preparation program and consent of the Office of Student Field Experiences.

SED 378T. Topics in Special Education.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

- **Topic 1: Language-Minority Students in Special Education.** Additional prerequisite: Applied Learning and Development 322.
- **Topic 6: Teaching Math to Students with Disabilities.** Special Education 378T (Topic: Tchng Math to Studnt Disabil) and 378T (Topic 6) may not both be counted.
- **Topic 7: Autism Spectrum Disorder.** Explore Autism Spectrum Disorder (ASD) including the nature and diagnosis of ASD, available resources, and evidence-based practice service. Examine strategies implemented by professionals to help families and children navigate their environment and create a more inclusive and supportive environment for persons with ASD. Conducted in Spanish.

SED 379. Seminar in Special Education.
Specialized study in an identified area of interest in education of the exceptional child. Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Applied Learning and Development 322 and consent of the undergraduate adviser.

SED 293, 393. Graduate Seminar in Special Education.
Discussion of critical issues; critiques of literature; development of theories and models regarding disabling conditions. The equivalent of three class hours a week for one semester. Special Education 380 and 393 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; twelve semester hours of upper-division coursework in education, psychology, sociology, or other behavioral sciences; and consent of instructor; additional prerequisites vary with the topic.

**Topic 17: Instructional Designs Using Assistive Technology.** The design of instruction for students with disabilities by using assistive and instructional technologies.

**Topic 18: Collaboration.** Strategies such as collaborative consultation and teamwork models, which are used to improve learning outcomes for students with diverse learning needs.

**Topic 20: Applied Research.** Special Education 393 (Topic 5) and 393 (Topic 20) may not both be counted.

**Graduate Courses**

SED 380. Multicultural Special Education.
Study of critical issues in culture, language, and disability. Three lecture hours a week for one semester. Special Education 380 and 393 may not both be counted unless the topics vary. Special Education 380 and 395 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; twelve semester hours of upper-division coursework in education, psychology, sociology, or other behavioral sciences; and consent of instructor; additional prerequisites vary with the topic.

- **Topic 1: Language Acquisition and Assessment in Multicultural Special Education.** Language acquisition among culturally and linguistically diverse learners in general and special education, with emphasis on effective assessment and instruction.
- **Topic 4: Assessment in Multicultural Special Education.** Cultural and linguistic factors related to the assessment of language-minority students; the best practices in psychoeducational procedures.
- **Topic 6: Advanced Research Topics in Multicultural Special Education.** Current and emerging research on individuals with disabilities who are from culturally and linguistically diverse backgrounds. Provides students with opportunities to review research literature on topics of interest to them, and to explore their writing skills. A process approach to writing is used to familiarize students with the APA guidelines for preparing scholarly manuscripts.
- **Topic 7: Cross-Cultural Interactions in Multicultural Special Education.** Introduction to principles of intercultural communication for educators. Emphasis on strategies for effective cross-cultural communication in a variety of educational settings, including general and special education.
- **Topic 8: School-Community Relations in Multicultural Special Education.** Traditional methods of parent and school relations; emerging and innovative models for communication between the school and the community; the intent of the course is to explore school-community interactions in the context of the dynamics of culture, race, language, politics, history, economics, and religion.
- **Topic 9: Development of Personnel Preparation and Programming in Multicultural Special Education.** Designed to prepare students to develop standards-based multicultural personnel preparation programs that emphasize research-based practices and that improve student outcomes and promote recruitment, retention, and quality of personnel for teaching culturally and linguistically diverse populations with disabilities in pluralistic settings.
- **Topic 11: Educational Planning for Multicultural Special Education.** Overview of issues affecting equal access to quality education for culturally and linguistically diverse learners with disabilities.
- **Topic 12: Educational Leadership in Multicultural Special Education.** Overview of issues affecting equal access to quality education for culturally and linguistically diverse learners with disabilities.
- **Topic 13: Sociocultural Foundations of Special Education.** An in-depth examination of key knowledge, including sociocultural theory and conceptual models, used in teaching culturally and linguistically diverse students with disabilities in special education and inclusive settings.
- **Topic 15: Addressing Critical Questions in Special Education Using National Datasets.** Considers how the federal government and local educational agencies collect a range of data on the educational experiences of children, including those with disabilities and special needs. Analyzes how these large datasets provide a unique opportunity to examine not only macro-level trends in identification rates, racial disparities, and student achievement, but also the influence of school and home contextual factors. Examines how to use these datasets and address important questions in special education today. Explores how to access, prepare, and analyze these datasets. Additional prerequisite: Consent of the graduate adviser.
- **Topic 16: Second Language Literacy Development and Assessment.** Examines essential concepts related to language and literacy.
Discussion of past and present sociocultural factors that impact research in terms of both what is researched and how it is researched and the implications of that research on instruction and assessment. Analyzes the socio-cultural foundations of schooling and society to better understand the complex, dynamic interrelationships between culture, language, literacy, and disability.

**Topic 17: Diversity and Disability: Contemporary Perspectives.**

**Topic 18: Cultural and Linguistic Diversity.** An overview of issues, problems, and emerging practices related to culturally and linguistically diverse students served in special education. Special Education 380 (Topic 10) and 380 (Topic 18) may not both be counted.

**SED 383. Learning Disabilities.**

Nature of the characteristics of learning disabilities and their effect on learning; assessment and progress monitoring measures; and individualized, differentiated strategies, interventions, technologies, and materials. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; twelve semester hours of upper-division coursework in education, psychology, or other behavioral sciences, including a course in special education; and consent of instructor; additional prerequisites vary with the topic.

**Topic 1: Introduction to Learning Disabilities.** Basic terms and definitions, the nature of specific learning disorders, theoretical models, and empirical classification systems.

**Topic 6: Teaching Students with Dyslexia and Reading Difficulties.** Theories and practices associated with dyslexia; terminology, assessment, and remedial strategies are emphasized.

**Topic 7: Assessment in Special Education.** The basic concepts related to the assessment of exceptional individuals.

**Topic 10: Intensive Interventions for Students with Reading Disabilities.** Design, implementation, and evaluation of instruction for elementary- and secondary-level students with mild to moderate disabilities who receive special education services for reading. Special Education 383 (Topic 8) and 383 (Topic 10) may not both be counted.

**Topic 11: Intensive Interventions for Students with Math Disabilities.** Issues in the education of students with mild to moderate disabilities, including assessing students, evaluating instruction and instructional materials, and adapting and implementing instruction with an emphasis on math. Special Education 383 (Topic 9) and 383 (Topic 11) may not both be counted.

**SED 383C, 983C. High Incidence Disabled Student Teaching.**

Nature of the characteristics of learning disabilities and their effect on learning; assessment and progress monitoring measures; and individualized, differentiated strategies, interventions, technologies, and materials. For each hour of credit earned, one lecture hour a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing; twelve semester hours of upper-division coursework in education, psychology, or other behavioral sciences, including a course in special education; and consent of instructor.

**SED 384. Early Childhood Special Education.**

Education variables related to educational services and research for young children are investigated in terms of etiology, assessment, curriculum models, educational settings, and interdisciplinary programming. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; twelve semester hours of upper-division coursework in education, psychology, or other behavioral sciences, including a course in special education; and consent of instructor; additional prerequisites vary with the topic.

**Topic 1: Overview of Early Childhood Special Education.** The educational and emotional needs of young disabled children (birth to age six) and the techniques for implementing a "whole child" educational approach to meet the needs of the child and the family.

**Topic 3: Parent Education Models.** The grief stages of parents; parent involvement models available to promote optimum parent-child and parent-professional relationships.

**Topic 4: Practicum in Early Childhood Special Education.** Teaching experience with disabled children in a center setting. Assessment and curriculum procedures are applied in developing an appropriate education for an individual child or small groups of children.

**Topic 5: Advanced Practicum in Early Childhood Special Education.** Teaching experience with a large group of children in a center setting. Program management and evaluation procedures are applied to a total curriculum, so that the student assumes a lead teacher and/or consultant role during training.

**Topic 6: Assessment and Programming of Early Childhood Special Education.** Experience in assessing a disabled child in a naturalistic setting. Formal and informal assessment procedures for children from birth through age six.

**Topic 7: Medical/Educational Overview: Birth to Age Three.** Overview of hospital-to-school early intervention techniques for the medical and educational needs of preterm, low-birth-weight, and at-risk children and their parents.

**Topic 8: Medical/Educational Parent Education and Involvement: Birth to Age Three.** Research, design, and implementation of a functional child-parent program. Students develop their own programs for working with parents of children with specific problems or disabilities.

**Topic 9: Medical/Educational Assessment: Birth to Age Three.** Experience planning, assessing, and implementing educational programs for at-risk infants and toddlers. Emphasis is on interagency coordination and the use of the transdisciplinary team to meet the family's and the child's needs with a minimum of personnel.

**Topic 10: Medical/Educational Programming: Birth to Age Three.** Medical information on pre-, peri-, and postnatal effects of medical problems and extended hospital stays. Impact of medical intervention on the infant's and the family's development.

**Topic 11: Medical/Educational Practicum in Early Childhood Special Education.** Early intervention in a neonatal intensive care unit or on a follow-up team for medically fragile high-risk children.

**Topic 13: Early Language Intervention.**

**Topic 14: Family Support and Intervention.**

**Topic 16: Medical and Educational Assessment and Intervention.**

**Topic 17: Functional Motor and Vision Assessment and Intervention.**

**SED 386. Behavioral Disorders.**

Discussion of behavioral disorders, contributory factors; psychological and educational diagnoses applied to educational programming. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; twelve semester hours of upper-division coursework in education, psychology, or other behavioral sciences, including a course in special education; and consent of instructor; additional prerequisites vary with the topic.

**Topic 10: Introduction to Behavioral Disorders.** Introduction to the nature and needs of children with behavior disorders and to effective management methods and teaching strategies. The admission, review, and dismissal process is described and practiced so that students can work as members of an interdisciplinary team.

**Topic 11: Positive Behavioral Interventions Support and Classroom Management.** Study of the basic principles of human behavior, and the application of those principles to teaching positive behavior support and designing effective classrooms. Designed to prepare teachers and clinicians who will be in general and special education settings with children of all ages with and without disabilities.
Topic 13: Practicum in Severe and Multiple Disabilities. Designed to provide students with an overview of promising and preferred practices for educating children and youth with emotional and behavioral disorders (EBD). Emphasis on children and youth whose behaviors challenge the prevailing social and educational traditions and values of schools, communities, and families.

SED 387. Rehabilitation Counseling.
Study of rehabilitation counseling: basic orientation and process and procedures; related biomedical, psychological, and community aspects; specialized programs and field experiences. Three lecture hours a week for one semester; or meetings as required by the topic. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; twelve semester hours of upper-division coursework in education, psychology, sociology, or other behavioral sciences; and consent of instructor; additional prerequisites vary with the topic.

An intensive study of the psychological, sociological, physiological, and educational factors relating to the assessment, learning, and teaching of children with autism and other developmental disabilities. Includes affective, cognitive, and psychomotor development of individuals with physical disabilities. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; twelve semester hours of upper-division coursework in education, psychology, or other behavioral sciences, including a course in special education; and consent of instructor; additional prerequisites vary with the topic.

Topic 3: Teaching Individuals with Autism and Developmental Disabilities. Development of highly specialized skills needed to teach those with developmental disabilities. Emphasis is on the basic principles of learning that underlie effective instructional strategies and on ways to structure the environment to promote learning.

Topic 5: Enhancing Communication Potential in People with Autism and Developmental Disabilities. Communication intervention for those with developmental disabilities. Designed to help students learn to assess communication behaviors and to create intervention programs that enhance existing communication skills and teach new skills. Hands-on experience with a variety of augmentative and alternative communication systems.

Topic 6: Educational Implications of Autism and Developmental Disabilities. Introduction to the learning and behavioral characteristics of those with developmental disabilities, including autism and related developmental disorders. Designed to give students an understanding of the educational needs of those with developmental disabilities and of ways to address those needs through special education and related services.

Topic 7: Challenging Behavior and Developmental Disabilities. The nature, assessment, and treatment of the challenging behaviors that are prevalent in individuals with developmental disabilities, such as aggression, self-injury, property destruction, tantrums, and stereotyped movements.

Topic 8: Research on Inclusion for Students with Autism and Developmental Disabilities. Literature relevant to the inclusion of students with developmental disabilities, including classic readings on the history and philosophy of inclusion; analysis of the evidence supporting current best-practice models. Emphasis on critical reading of empirical studies on the efficacy of inclusive education.

Topic 9: Assessment Research in Autism and Developmental Disabilities. Research related to the assessment of students with developmental disabilities, examined in the context of the theoretical orientations that underlie the major assessment strategies. Includes a review of studies related to the development and validation of contemporary assessment instruments and discussion of the scientific process involved in developing and validating assessment tools.

Topic 10: Advances in the Understanding and Treatment of Autism. Review of recent advances in the understanding and treatment of autism and related developmental disorders. The social forces that shape research and scientific understanding and the political forces that influence the delivery of education and related services, as well as implications for effective leadership in special education.

Topic 11: Intervention Research in Autism and Developmental Disabilities. How research is used to develop interventions for those with developmental disabilities. Students consider the role of basic research and theory in the development of interventions and the use of experimental design to demonstrate the effectiveness of an intervention program, explore the development of empirically validated intervention programs, and undertake qualitative and quantitative reviews of intervention research.

Topic 13: Practicum in Severe and Multiple Disabilities. Developed to provide students with an overview of promising and preferred practices for educating children and youth with emotional and behavioral disorders (EBD). Emphasis on children and youth whose behaviors challenge the prevailing social and educational traditions and values of schools, communities, and families.

SED 389. Special Education Administration.
Study of the content and process of special education administration, including technological forecasting methods, case law as it applies to people with disabilities, management of problem employee styles, and related topics. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; twelve semester hours of upper-division coursework in education, psychology, or other behavioral sciences, including a course in special education; and consent of instructor.

Topic 1: Administration of Special Education Programs. Application of principles of administration and leadership to problems associated with special education and instruction for special populations.

Topic 2: Educational Futures. Students are directed toward career goals: affective change toward the future and change processes; acquisition of knowledge about several technological forecasting methods and of skill in the use of one method.

Topic 3: Special Education Administration Seminar: Current Issues in Special Education. Reading and discussion of recent articles and reports in special education.

Topic 4: Law and Disabilities. An examination of case law that covers definitions, equal educational opportunity, employment, accessibility, freedom of choice, freedom from residential confinement, housing and zoning restrictions, equal access to medical services, procreation, marriage, children, contracts, ownership and transfer of property, voting, and holding public office.

Topic 5: Special Populations. Leadership issues associated with serving school-age children through federal and state "title" programs, including English as a second language, bilingual education, and Chapters I and II. Also covered are alternative schools; programs for juvenile offenders, pregnant students and young mothers, and at-risk students such as those who have potential for suicide; and services for the homeless, the abused, and chemical abusers. Students read the significant literature and develop knowledge and skill in planning and designing delivery models.

SED 293, 393. Graduate Seminar in Special Education.
Discussion of critical issues; critiques of literature; development of theories and models regarding disabling conditions. The equivalent of three class hours a week for one semester. Special Education 380 and 393 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; twelve semester hours of upper-division coursework in education, psychology, or other behavioral sciences; and consent of instructor.
SED 394, 694. Practicum in Special Education. Supervised field placement in specialized settings serving exceptional children and youth. Conference course; for each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

SED 395. Independent Study. Individual research planned, executed, and reported under supervision. Conference course. Special Education 380 and 395 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Admission to an approved program of graduate study or to candidacy for the doctoral degree in education, or graduate standing and consent of instructor; additional prerequisites vary with the topic.

SED 395D. Doctoral Seminar in Special Education and Rehabilitation Counselor Education. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Admission to an approved program of graduate study or to candidacy for the doctoral degree in education, and consent of instructor; additional prerequisites vary with the topic. **Topic 2**: Seminar in Behavioral Disorders. **Topic 3**: Seminar in Learning Disabilities. **Topic 5**: Early Childhood Special Education. **Topic 6**: Autism and Developmental Disabilities. **Topic 7**: Multicultural Special Education.

SED 695S. Professional Seminar. Forum for students to become familiar with the areas of study, research, and professional practice within special education. Students also refine their professional writing and communication skills, critically evaluate current and emerging research in the field, and examine the historical, legal, philosophical, and theoretical foundations of special education. Three lecture hours a week for two semesters. Required of all doctoral students. Prerequisite: For 695SA, graduate standing and admission to the doctoral program in special education; for 695SB, Special Education 695SA.

SED 696. Research Mentoring. Designed to develop the knowledge and skills students need in order to conduct research. Under the supervision of a three-member committee, students develop a publishable-quality synthesis of the professional literature on a topic related to their research interests. Conference course. Required of all doctoral students prior to admission to candidacy. Offered on the credit/no credit basis only. Prerequisite: For Special Education 696A, graduate standing, completion of specialization core requirements, at least three graduate courses in research methods and data analysis, and consent of the graduate adviser; for Special Education 696B, 696A.

SED 396C. Trends and Issues in Special Education and Rehabilitation Counseling. An examination of current trends and issues in areas within special education and rehabilitation counselor education that influence policies and procedures in the public schools, teacher preparation programs, and community agencies. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; twelve semester hours of upper-division coursework in education, psychology, sociology, or other behavioral sciences; and consent of instructor; additional prerequisites vary with the topic. **Topic 1**: Trends and Issues in Early Childhood Special Education. **Topic 2**: Trends and Issues in Learning Disabilities/Behavioral Disorders. **Topic 5**: Trends and Issues in Special Education Administration. **Topic 7**: Trends and Issues in Autism and Developmental Disabilities.

SED 396R. Research Methods and Data Analysis. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, twelve semester hours of upper-division coursework in education, and consent of instructor. **Topic 1**: Research Methodology in Special Education. **Topic 2**: Single-Subject Research Design. The use of single-subject research designs to make data-based decisions about program effectiveness and student outcomes; integration of applied research into classroom instruction as part of evidence-based professional practice in educating students with severe and multiple disabilities. **Topic 3**: Advanced Data Analysis in Special Education.

SED 396T. Directed Research in Special Education. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, twelve semester hours of upper-division coursework in education, and consent of instructor. **Topic 1**: Directed Research in Special Education Administration. **Topic 2**: Directed Research in Behavioral Disorders. **Topic 4**: Directed Research in Learning Disabilities. **Topic 7**: Directed Research in Early Childhood Special Education. **Topic 8**: Directed Research in Severe and Multiple Disabilities. **Topic 13**: Directed Research in Multicultural Special Education.

SED 397C. Advanced College Teaching. Supervised teaching experience at the college level. The equivalent of three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing, admission to an approved program of graduate study or admission to candidacy for the doctoral degree in special education, Special Education 398T, and consent of the graduate adviser.

SED 397P, 697P. Graduate Internship. Supervised practice in a professional position. The equivalent of three or six lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing, twelve semester hours of upper-division coursework in education, and consent of instructor.

SED 397S. Supervised Teaching in Special Education. Instruction in the supervision of student teachers and observers at the undergraduate level. Conference course. Prerequisite: Graduate standing,
appointment as a teaching assistant and supervisor of undergraduate student teachers, and consent of instructor.

**SED 698. Thesis.**
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in special education and consent of the supervising professor and the graduate adviser; for 698B, Special Education 698A.

**SED 398R. Master’s Report.**
Preparation of a report to fulfill the requirement for the master’s degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in special education and consent of the graduate adviser.

**SED 398T. College Teaching in Special Education.**
Three lecture hours a week for one semester. Required for teaching assistants and assistant instructors. Prerequisite: Graduate standing.

**SED 399W, 699W, 999W. Dissertation.**
May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

### Professional Courses

**SED 293, 393. Graduate Seminar in Special Education.**
Discussion of critical issues; critiques of literature; development of theories and models regarding disabling conditions. The equivalent of three class hours a week for one semester. Special Education 380 and 393 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; twelve semester hours of upper-division coursework in education, psychology, or other behavioral sciences; and consent of instructor.

- **Topic 17: Instructional Designs Using Assistive Technology.** The design of instruction for students with disabilities by using assistive and instructional technologies.
- **Topic 18: Collaboration.** Strategies such as collaborative consultation and teamwork models, which are used to improve learning outcomes for students with diverse learning needs.
- **Topic 20: Applied Research.** Special Education 393 (Topic 5) and 393 (Topic 20) may not both be counted.

### SEL - Slavic and Eurasian Languages

**Slavic and Eurasian Languages: SEL**

#### Lower-Division Courses

**SEL 601C. Intensive Slavic and Eurasian Languages I.**
Emphasis on basic communication skills in Slavic and Eurasian languages: listening, speaking, reading, and writing. Includes introduction to Slavic and Eurasian cultures. Six lecture hours a week for one semester. Slavic and Eurasian Languages 601C and 506 may not both be counted unless the languages vary. Slavic and Eurasian Languages 601C and 507 may not both be counted unless the languages vary. Slavic and Eurasian Languages 601C and 506 may not both be counted unless the languages vary. May be repeated for credit when the topics vary.

**SEL 506. First-Year Slavic and Eurasian Languages I.**
Emphasis on four-skills proficiency: listening, speaking, reading, and writing. Five lecture hours a week for one semester. Slavic and Eurasian Studies 601C and 506 may not both be counted unless the languages vary. May be repeated for credit when the topics vary.
SEL 395. Conference Course in Slavic and Eurasian Languages.
Conference course. May be repeated for credit. Prerequisite: Graduate standing and written consent of instructor.

Professional Courses

SLH - Speech, Language, and Hearing Sciences

Speech, Language, and Hearing Sciences: SLH

Lower-Division Courses

Introduction to the study of processes and disorders of speech, language, and hearing. Three lecture hours a week for one semester. Communication Sciences and Disorders 306K and Speech, Language, and Hearing Sciences 306K may not both be counted.

SLH 308K. Perspectives on Deafness.
Examine deafness from a number of perspectives: social and psychological meanings of deafness, the deaf community, education of deaf children, sign languages, and historical trends. Three lecture hours a week for one semester. Communication Sciences and Disorders 308K and Speech, Language, and Hearing Sciences 308K may not both be counted.

SLH 311K. Phonetic Description of Speech.
Examine speech production, physiological analysis and description of speech sounds, voice quality, and voice dynamics; notation; phonetic theory; applications of phonetics. Three lecture hours a week for one semester. Communication Sciences and Disorders 311K and Speech, Language, and Hearing Sciences 311K may not both be counted.

Introduction to language and literacy development from birth through adolescence. Three lecture hours a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 312, 318K, Speech, Language, and Hearing Sciences 312. Prerequisite: Credit or registration for Speech, Language, and Hearing 118L (or Communication Sciences and Disorders 118L).

SLH 313L. Hearing Science.
Examine acoustical, physiological, and psychological bases of normal human hearing. Explore theories of audition. Three lecture hours a week for one semester. Communication Sciences and Disorders 313L and Speech, Language, and Hearing Sciences 313L may not both be counted. Prerequisite: Credit or registration for Speech, Language, and Hearing 113P (or credit for Communication Sciences and Disorders 113P).

SLH 113P. Hearing Science: Laboratory.
Examine laboratory techniques in hearing science research. One-and-one-half laboratory hours a week for one semester. Communication Sciences and Disorders 113P and Speech, Language, and Hearing Sciences 113P may not both be counted.

SLH 314L. Sociocultural Bases of Communication.
An introduction to the influences of social and cultural factors, such as ethnicity, socioeconomic status, and geographic region, on communication acquisition and use, with a focus on cross-cultural communication issues in a diverse society. Three lecture hours a week for one semester. Communication Sciences and Disorders 314L and Speech, Language, and Hearing Sciences 314L may not both be counted.

SLH 315S. Speech Science.
Same as Linguistics 315. Neuropathological mechanisms underlying the encoding and decoding of speech. Three lecture hours a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 315S, 358S, Linguistics 315, 358S, Speech, Language, and Hearing Sciences 315S.

SLH 118L. Development Language Science: Laboratory.
Examine child language in a clinical laboratory setting. One-and-one-half laboratory hours a week for one semester. Communication Sciences and Disorders 118L and Speech, Language, and Hearing Sciences 118L may not both be counted.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad advisor in the academic unit. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad advisor in the academic unit. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

SLH 331E. Instructional Methods for Deaf Students.
Restricted to communication sciences and disorders majors and speech, language, and hearing sciences majors. Examine methods of assessment, curriculum organization, lesson planning, instruction, and classroom management in education of deaf children. Three lecture hours a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 331E, Curriculum and Instruction 331E, Speech, Language, and Hearing Sciences 331E. Offered on the letter-grade basis only. Prerequisite: Upper-division standing; completion of at least seventy-two hours of University coursework; American Sign Language 610D (or 312K); and a minimum University grade point average of 2.50.

SLH 340P. Clinical Observation in Speech Language Pathology.
Restricted to communication sciences and disorders majors and speech, language and hearing sciences majors. Explore evidence-based practice in speech and language pathology through guided observation. Three lecture hours a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 140P, 340P, Speech, Language and Hearing Sciences 340P. Prerequisite: Upper-division standing.

Explore the causes of hearing disorders and examine diagnostic procedures and treatment. Three lecture hours a week for one semester. Communication Sciences and Disorders 341 and Speech, Language, and Hearing Sciences 341 may not both be counted. Prerequisite: Upper-
division standing and Speech, Language, and Hearing Sciences 313L (or Communication Sciences and Disorders 313L) with a grade of at least C-.

SLH 350. Language and the Brain.
Same as Linguistics 350C. Explore the neuroanatomical and functional operations of the major brain structures that underlie speech/language. Examine hemispheric dominance for language, neurological and language breakdowns in aphasia, and brain imaging methods and studies of language representation. Three lecture hours a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 350; Linguistics 350 (Topic 1); Linguistics 350C; Speech, Language, and Hearing Sciences 350. Prerequisite: Upper-division standing.

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

Topic 1: Bilingualism: Language Development and Disorders. Examine bilingual language development and the manifestation of speech and language disorders in bilingual children with a special focus on Spanish-English bilingualism. Explore disorder areas including developmental language disorders, speech sound disorders, fluency, and reading disabilities. Consider bilingual language development in cultural and linguistic contexts. Discuss communication disorders including evidence-based practices in interventions for bilingual children. Communication Sciences and Disorders 352 (Topic 1) and Speech, Language, and Hearing Sciences 352 (Topic 1) may not both be counted.

Topic 2: Augmentative and Alternative Communication. Examine augmentative and alternative communication (AAC) approaches for individuals with severe communication impairments. Explore foundational information for providing or referring services in AAC. Only one of the following may be counted: Communication Sciences and Disorders 352 (Topic: Augmentat/Alternatv Comm); 352 (Topic 2); Speech, Language, and Hearing Sciences 352 (Topic 2).

Topic 3: Bilingualism Across the Lifespan. Explore the consequences of bilingualism on brain and mind across the lifespan. Survey current issues related to bilingualism as they pertain to speech-language pathology. Three lecture hours a week for one semester. Additional prerequisite: Upper-division standing.

SLH 358. Anatomy and Physiology of the Speech and Hearing Mechanism.
Examine the anatomy and physiology of structures involved in speech, language, hearing, and swallowing in-depth. Explore anatomical and physiological mechanisms of respiration, phonation, articulation, and hearing; and the central nervous system and blood supply to the speech and hearing mechanism. Three lecture hours a week for one semester. Communication Sciences and Disorders 358 and Speech, Language and Hearing Sciences 358 may not both be counted. Prerequisite: Upper-division standing and credit or registration for Speech, Language, and Hearing 158L (or credit for Communication Sciences and Disorders 158L).

SLH 158L. Anatomy and Physiology of Speech and Hearing: Laboratory.
Examine anatomy and physiology of structures involved in speech, language, hearing, and swallowing in a laboratory setting. Explore anatomical and physiological mechanisms of respiration, phonation, articulation, and hearing; and the central nervous system and blood supply to the speech and hearing mechanism. One and one-half laboratory hours a week for one semester. Communication Sciences and Disorders 158L and Speech, Language and Hearing Sciences 158L may not both be counted. Prerequisite: Upper-division standing.

SLH 360M. Communication and Deaf People.
Examine forms of face-to-face communication used with deaf people, including speech and listening, systems of manual communication, and natural sign language, with an emphasis on child development issues and the use of different methods in educational practice. Three lecture hours a week for one semester. Communication Sciences and Disorders 360M and Speech, Language, and Hearing Sciences 360M may not both be counted. Prerequisite: Upper-division standing and Speech, Language, and Hearing Sciences 308K (or Communication Sciences and Disorders 308K) with a grade of at least C-.

SLH 364. Deaf Education Internship.
Restricted to communication sciences and disorders majors and speech, language, and hearing sciences majors. Explore deaf education through field experience at the Texas School for the Deaf or public school programs including directed observation and participation with teachers and students in the instructional process. The equivalent of three lecture hours a week for one semester, with additional field hours to be arranged. Only one of the following may be counted: Communication Sciences and Disorders 364, Curriculum and Instruction 364, 664, Speech, Language, and Hearing Sciences 364. Prerequisite: Upper-division standing; completion of a minimum of seventy-two hours of University coursework; American Sign Language 610D (or 312K); a minimum University grade point average of 2.50.

SLH 367K. Introduction to Speech and Language Disorders Assessment and Treatment in Children.
Restricted to communication sciences and disorders majors and speech, language, and hearing sciences majors. Introduction to assessment procedures and treatment strategies for children with speech and language disorders. Three lecture hours a week for one semester. Communication Sciences and Disorders 367K and Speech, Language, and Hearing Sciences 367K may not both be counted. Prerequisite: The following coursework with a grade of at least C- in each: Speech, Language, and Hearing Sciences 306K; 311K (or Communication Sciences and Disorders 311K); 313L (or Communication Sciences and Disorders 313L); 312 (or Communication Sciences and Disorders 312 or 318K); and 315S (or Communication Sciences and Disorders 315S or 358S) or Linguistics 315 (or 358S).

SLH 167M, 367M. Clinical Practicum in Speech-Language Pathology and Audiology.
Restricted to communication sciences and disorders majors specializing in audiology or speech/language pathology and speech, language, and hearing sciences majors specializing in audiology or speech/language pathology. Engage in a supervised clinical practicum in speech-language pathology and audiology. For each semester hour of credit earned, one lecture hour and three practicum hours a week for one semester. No more than four hours of Communication Sciences and Disorders 167M; 367M; Speech, Language, and Hearing Sciences 167M; or 367M may be counted towards the Bachelor of Science in Communication Sciences and Disorders or Bachelor of Science in Speech, Language, and Hearing Sciences. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: For speech/language pathology majors: upper-division standing; Speech, Language, and Hearing Sciences 341 (or Communication Sciences and Disorders 341); Speech, Language, and Hearing Sciences 340P (or Communication Sciences and Disorders 340P), 367K (or Communication Sciences and Disorders 367K), or 371 (or Communication Sciences and Disorders 371); University grade point average of at least 3.00; and consent of instructor. For others: upper-division standing, Speech, Language, and Hearing Sciences 341 (or
SLH 370. Clinical Research Internship.
Supervised participation in clinical research internships. The equivalent of one lecture hour a week and three laboratory hours a week for one semester. Communication Sciences and Disorders 370 and Speech, Language, and Hearing Sciences 370 may not both be counted.

SLH 170N, 370N, 670N. Internship.
Restricted to communication sciences and disorders majors and speech, language, and hearing sciences majors. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 170N, 370N, 670N, Speech, Language, and Hearing Sciences 170N, 370N, 670N. Prerequisite: Upper-division standing.

SLH 371. Introduction to Speech and Language Disorders Assessment and Treatment in Adults.
Restricted to communication sciences and disorders majors and speech, language, and hearing sciences majors. Introduction to assessment procedures and treatment strategies for adults with speech and language disorders. Three lecture hours a week for one semester. Communication Sciences and Disorders 371 and Speech, Language, and Hearing Sciences 371 may not both be counted. Prerequisite: The following coursework with a grade of at least C- in each: Speech, Language, and Hearing Sciences 306K (or Communication Sciences and Disorders 306K); 311K (or Communication Sciences and Disorders 311K), 313L (or Communication Sciences and Disorders 313L), and 350 (or Communication Sciences and Disorders 350); and 315S (or Communication Sciences and Disorders) or Linguistics 315 (or 358S).

SLH 373. Principles of Aural Rehabilitation.
Restricted to communication sciences and disorders majors and speech, language, and hearing sciences majors. Examine the rationale, methods, materials, procedures, and criteria for aural rehabilitation for hearing-impaired persons. Three lecture hours a week for one semester. Communication Sciences and Disorders 373 and Speech, Language, and Hearing Sciences 373 may not both be counted. Prerequisite: Upper-division standing and the following coursework with a grade of at least C- in each: Speech, Language and Hearing Sciences 306K or 308K (or Communication Sciences and Disorders 306K or 308K); 311K (or Communication Sciences and Disorders 311K); 313L (or Communication Sciences and Disorders 313L), 341 (or Communication Sciences and Disorders 341); and 315S (or Communication Sciences and Disorders 315S) or Linguistics 315 (or 358S).

SLH 175N. Deaf Education Seminar.
Discuss social, political, and educational aspects of deafness. One lecture hour a week for one semester. May be repeated for credit.

SLH 378. Clinical Audiology.
Explore differential diagnostic procedures for evaluation of auditory disorders. Examine theoretical concepts and clinical applications. One lecture hour a week and three lab hours a week for one semester. Communication Sciences and Disorders 378 and Speech, Language, and Hearing Sciences 378 may not both be counted. Prerequisite: Upper-division standing and Speech, Language, and Hearing Sciences 341 (or Communication Sciences and Disorders 341).

SLH 378C. Experiential Learning in Clinical Research.
Explore experiential learning opportunities within the clinical environment observe clinical research, connect concepts, and reflect on processes that promote translation of theory to practice for stuttering and/or cluttering. The equivalent of one lecture hour and three laboratory hours a week for one semester. Communication Sciences and Disorders 378C and Speech, Language, and Hearing Sciences 378C may not both be counted. Offered on the letter-grade basis only. Prerequisite: Upper-division standing and consent of the instructor.

SLH 378D. Quality of Life in Clinical Care.
Engage in an intensive experiential learning opportunity that emphasizes the positive role of counseling, empathy, self-compassion, and the therapeutic alliance in clinical care for persons who stutter and/or clutter and their loved ones. The equivalent of one lecture hour a week and three laboratory hours a week for one semester. Communication Sciences and Disorders 378D and Speech, Language, and Hearing Sciences 378D may not both be counted. Offered on the letter-grade basis only. Prerequisite: Upper-division standing and consent of instructor.

Restricted to communication sciences and disorders majors and speech, language, and hearing sciences majors. Supervised individual research. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Prerequisite: Upper-division standing; a University grade point average of 3.00; and consent of instructor.

SLH 178L. Clinical Laboratory Experience in Audiology.
Examine audiology in a clinical laboratory setting. One and one-half laboratory hours a week for one semester. Communication Sciences and Disorders 178L and Speech, Language, and Hearing Sciences 178L may not both be counted. Prerequisite: Upper-division standing.

Graduate Courses
SLH 180E, 280E, 380E, 480E. Conference Course.
Examine readings in the literature of speech, language, and hearing sciences designed to expand opportunity for individual consultation both in research and in informational aspects of the work. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit. Prerequisite: Graduate standing.

SLH 181L, 281L, 381L. Clinical Practicum.
Engage in a supervised clinical practicum in speech, language, and hearing sciences. Three, six, or nine clinical teaching hours and one lecture hour a week for one semester. May be repeated for credit. Prerequisite: Graduate standing.

SLH 383C. Augmentative and Alternative Communication.
Examine an overview and a critical analysis of augmentative and alternative communication approaches and how they can best be used for the benefit of individuals with severe communication impairments. Three lecture hours and one-half laboratory hour a week for one semester Communication Sciences and Disorders 383C and Speech, Language, and Hearing Sciences 383C may not both be counted. Prerequisite: Graduate standing.

Selected topics on speech, language, and hearing sciences will be explored through reading of current research in the field. Topics include developmental language disorders, speech and language perception, speech production, fluency disorders, dysphagia, neural bases of adult communication disorders, bilingualism, advanced auditory research, and augmentative and alternative communication. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.
SLH 385F. Knowledge and Skills in Clinical Science I.
Develop the knowledge and skills needed in clinical areas across the scope of practice and lifespan. Three lecture hours a week for one semester. Communication Sciences and Disorders 385F and Speech, Language, and Hearing Sciences 385F may not both be counted. Prerequisite: Graduate standing and consent of the graduate adviser.

SLH 385S. Knowledge and Skills in Clinical Science II.
Develop the knowledge and skills needed in clinical areas across the scope of practice and lifespan. Three lecture hours a week for one semester. Communication Sciences and Disorders 385S and Speech, Language, and Hearing Sciences 385S may not both be counted. Prerequisite: Graduate standing and consent of the graduate adviser.

SLH 386F. Fundamental Principles in Clinical Practicum.
Practice the fundamental knowledge and skills in speech language pathology. One lecture hour and nine practicum hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and consent of the graduate adviser.

SLH 386R. Advanced Research Design and Statistics.
Explore various aspects of research design and analysis that are commonly practiced within the field of speech-language pathology and audiology. Three lecture hours a week for one semester. Communication Sciences and Disorders 386R and Speech, Language, and Hearing Sciences 386R may not both be counted. Prerequisite: Graduate standing.

SLH 386S, 686S, 986S. Advanced Applications in Clinical Practicum.
Apply the developed advanced knowledge and skills in speech language pathology. For each semester hour of credit earned, one lecture hour a week for one semester; some practicums require up to thirty-nine hours of fieldwork a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and consent of the graduate adviser.

SLH 391C. Cultural and Linguistic Diversity.
Explore current issues in provision of speech-language pathology services to children from bilingual backgrounds and adapting procedures to meet the needs of culturally and linguistically diverse families. Three lecture hours a week for one semester. Communication Sciences and Disorders 193E, 293E, 393E (Topic 10), and Speech, Language, and Hearing Sciences 391C may not both be counted. Prerequisite: Graduate standing.

SLH 391D. Cognitive and Linguistic Foundations of Language Development and Disorders.
Examine a framework for understanding the cognitive and linguistic mechanisms that underlie language development and disorders, including linguistic and psycholinguistic theories of language development. Three lecture hours a week for one semester. Communication Sciences and Disorders 193E, 293E, 393E (Topic 7) and Speech, Language and Hearing Sciences 391D may not both be counted. Prerequisite: Graduate standing.

SLH 391E. Bilingualism: Typical and Disordered Communication in Adults.
Examine the characteristics, assessment, and treatment practices of bilingual adults with acquired cognitive-communication disorders. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

SLH 391P. Anatomy and Physiology of the Auditory System.
Explore the structure and function of the auditory system, including hearing and balance mechanisms. Three lecture hours a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 391P, 391Q, Speech, Language, and Hearing Sciences 391P, 391Q. Prerequisite: Graduate standing.

SLH 392C. Counseling.
Examine both speech-language pathology and audiology counseling roles when implementing patient-centered and family-centered care in a variety of settings. Two lecture hours and one-and-one-half laboratory hours a week for one semester. Only one of the following may be counted: Communication Science and Disorders 392C, 392Q, Speech, Language, and Hearing Sciences 392C, 392Q. Prerequisite: Graduate standing.

Examine an overview of theories and research findings related to human speech perception and recognition including acoustic characteristics of speech categorical perception, infant speech perception, and effects of hearing loss. Three lecture hours a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 392P, 392S, and Speech, Language, and Hearing Sciences 392P, 392S. Prerequisite: Graduate standing.

SLH 393D. Dysphagia.
Examine anatomy and physiology relevant to normal swallowing in adults and pediatrics, as well as pathophysiology associated with dysphagia of differing etiologies. Explore various methods to evaluate swallowing function, and practice beginner-level clinical interpretation, with an emphasis on evidence-based practice for dysphagia management. Three lecture hours a week for one semester. Communication Sciences and Disorders 193E, 293E, 393E (Topic 1) and Speech, Language, and Hearing Sciences 393D may not both be counted. Prerequisite: Graduate standing.

SLH 393F. Stuttering, Cluttering, and Typical Disfluency.
Review theories, research, and emerging evidence pertaining to stuttering, cluttering and typical disfluency and their translation to practice. Three lecture hours a week for one semester. Communication Sciences and Disorders 193D, 293D, 393D (Topic 3) and Speech, Language, and Hearing Sciences 393F may not both be counted. Prerequisite: Graduate standing.

SLH 393G. Developmental Speech Disorders.
Examine research in articulation and phonological development and the application of theories of development to assessment and intervention procedures with children with deficits in articulation and/or phonology. Three lecture hours a week for one semester. Communication Sciences and Disorders 193D, 293D, 393D (Topic 2) and Speech, Language, and Hearing Sciences 393G may not both be counted. Prerequisite: Graduate standing.

SLH 393J. Acquired Cognitive Communication Disorders II.
Examine the characteristics, assessment, and clinical management of acquired neurogenic disorders of cognition and communication, such as traumatic brain injury (TBI) and dementia. Three lecture hours a week for one semester. Communication Sciences and Disorders 393J and Speech, Language, and Hearing Sciences 393J may not both be counted. Prerequisite: Graduate standing.

SLH 393M. Acquired Cognitive Communication Disorders I.
Examine characteristics, assessment, and clinical management of acquired neurogenic disorders of cognition and communication, such as aphasia and right hemisphere disorders. Three lecture hours a week for one semester. Communication Sciences and Disorders 193E, 293E, 393E
(Topic 3) and Speech, Language, and Hearing Sciences 393M may not both be counted. Prerequisite: Graduate standing.

**SLH 393P. Preschool Language Disorders.**
Examine communication deficits unique to children from birth to age five. Three lecture hours a week for one semester. Communication Sciences and Disorders 393P and Speech, Language, and Hearing Sciences 393P may not both be counted. Prerequisite: Graduate standing.

**SLH 393Q. Acquired Speech Disorders.**
Examine the neurological foundations of speech, speech disorders that can develop as a result of damage to the nervous system, and the ways in which motor speech disorders can be diagnosed and managed. Three lecture hours a week for one semester. Communication Sciences and Disorders 193F, 293F, 393F (Topic 2) and Speech, Language, and Hearing Sciences 393Q may not both be counted. Prerequisite: Graduate standing.

**SLH 393S. School-Age Language Disorders.**
Examine communication deficits unique to children age five and beyond. Three lecture hours a week for one semester. Communication Sciences and Disorders 393S and Speech, Language, and Hearing Sciences 393S may not both be counted. Prerequisite: Graduate standing.

**SLH 393V. Voice Disorders.**
Examine normal and disordered voice production, as well as assessment and treatment of voice. Explore the anatomy and physiology of voice, pathologies of voice, instrumental and non-instrumental methods for voice assessment, and interdisciplinary voice management. Three lecture hours a week for one semester. Communication Sciences and Disorders 191D, 293D, 393D (Topic 1) and Speech, Language, and Hearing Sciences 393V may not both be counted. Prerequisite: Graduate standing.

**SLH 394C. Amplifying Systems in Aural Rehabilitation.**
Examine the principles of hearing aid circuitry and looped systems, ear molds and their acoustic properties, and electroacoustic properties of hearing aids and selection procedures. Three lecture hours a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 394C, 394P, Speech, Language, and Hearing Sciences 394C, 394P. Prerequisite: Graduate standing.

**SLH 194D, 394D. Hearing Conservation.**
Examine auditory and non-auditory effects of noise; damage-risk criteria; federal and state laws governing noise and noise control; acoustic measurement procedures; identification audiometry; ear protection; and non-organic hearing loss and evaluative procedures. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 394D, 394Q, Speech, Language, and Hearing Sciences 194D, 394D, 194Q, 394Q. Prerequisite: Graduate standing.

**SLH 394E. Auditory Electrophysiology.**
Review the auditory nervous system and evaluate electrodermal, electroencephalographic, and electrocardiographic audiometry in depth. Three lecture hours a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 394G, 394E, and Speech, Language, and Hearing Sciences 394G, 394E. Prerequisite: Graduate standing.

**SLH 395M. Applied Machine Learning and Data Analytics.**
Introduction to the fundamental concepts of machine learning with a focus on its practical use for those who have no engineering or computer science background. Explore basic mathematics (e.g., vector and matrix), specialized programming skills (e.g., Matlab for data processing, visualization, and analysis), and other data analysis techniques (e.g., principal component analysis). Three lecture hours a week for one semester. Prerequisite: Graduate standing.

**SLH 395N. Neurobiological Perspectives on Speech and Language.**
Explore an overview of sensory, motor, and neurophysiological correlates of speech and language. Examine neuroanatomy and neurophysiology of the human brain, with an emphasis on motor pathways, representation in the brain, neuroimaging, neurophonetic processing, and hemispheric specialization. Three lecture hours a week for one semester. Communication Sciences and Disorders 395N and Speech, Language, and Hearing Sciences 395N may not both be counted. Prerequisite: Graduate standing.

**SLH 396C. Advanced Amplifying Systems.**
Explore the fitting of advanced amplification systems, including digital hearing aids, frequency modulation and other wireless systems, and assistive listening devices. Three lecture hours a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 396C, 396Q, Speech, Language, and Hearing Sciences 396C, 396Q. Prerequisite: Graduate standing and Speech, Language, and Hearing Sciences 394C (or Communication Sciences and Disorders 394C).

**SLH 396D. Auditory Processing Disorders.**
Examine the assessment and treatment of disorders of the central auditory nervous system in children and adults. Three lecture hours a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 381P, 396D, Speech, Language, and Hearing Sciences 381P, 396D. Prerequisite: Graduate standing.

**SLH 396E. Advanced Auditory Electrophysiology.**
Explore advanced diagnostic tools, including acoustic immittance, otoacoustic emissions, auditory evoked potentials, intraoperative monitoring, and vestibular function. Three lecture hours a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 396E, 396R, Speech, Language, and Hearing Sciences 396E, 396R. Prerequisite: Graduate standing and Speech, Language, and Hearing Sciences 394E (or Communication Sciences and Disorders 394E).

**SLH 396M. Signals and Systems in Hearing and Speech.**
Explore electrophysiological and electroacoustic procedures in the study of communication behaviors. Three lecture hours a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 396M, 396P, and Speech, Language, and Hearing Sciences 396M, 396P. Prerequisite: Graduate standing.

**SLH 698. Thesis.**
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in Communication Sciences and Disorders or Speech, Language, and Hearing Sciences and consent of the graduate adviser; for 698B: Communication Sciences and Disorders 698A or Speech, Language, and Hearing Sciences 698A.

**SLH 398T. Supervised Teaching.**
Three lecture hours a week for one semester. Communication Sciences and Disorders 398T and Speech, Language, and Hearing Sciences 398T may not both be counted. Offered on the letter-grade basis only. Prerequisite: Graduate standing.
May be repeated for credit. Offered on the credit/no credit basis only.
Prerequisite: Graduate standing and admission to candidacy for the Doctoral degree.

Professional Courses

SLH 381P. Auditory Processing Disorders.
Examine the assessment and treatment of disorders of the central auditory nervous system in children and adults. Three lecture hours a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 381P, 396D, and Speech, Language, and Hearing Sciences 381P, 396D. Prerequisite: Graduate standing.

SLH 383P. Surgically Implantated Auditory Prostheses.
Explore the theory behind implantable auditory technology and application. Learn to determine implant candidacy and outcomes of implantable devices. Three lecture hours a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 383P, 396G, Speech, Language, and Hearing Sciences 383P. Prerequisite: Graduate standing.

SLH 383S. Applications of Surgically Implantated Auditory Prostheses.
Learn clinically applied skills in implantable auditory devices such as programming and assessing patient outcomes. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

SLH 388P. Basic Clinical Practicum in Audiology.
Restricted to students in the Doctor of Audiology program. Examine the basic foundations of practice in clinical audiology. One lecture hour and nine practicum hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing.

SLH 389P. Intermediate Clinical Practicum in Audiology.
Restricted to students in the Doctor of Audiology program. Examine the intermediate methods and experiential learning in an immersive clinical audiology setting. One lecture hour and nine practicum hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing.

SLH 390P. Advanced Clinical Practicum in Audiology.
Restricted to students in the Doctor of Audiology program. Examine the advanced methods and experiential learning in an immersive clinical audiology setting. One lecture hour and nine practicum hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing.

SLH 190Q, 390Q. Business Applications.
Examine issues associated with the development, operation, and management of businesses devoted to service delivery in audiology and speech-language pathology. For each semester hour of credit earned, one lecture hour a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 190J, 390J, 190Q, 390Q, Speech, Language, and Hearing Sciences 190Q, 390Q. Prerequisite: Graduate standing.

SLH 391Q. Anatomy and Physiology of the Auditory System.
Explore the structure and function of the auditory system, including hearing and balance mechanisms. Three lecture hours a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 391Q and Speech, Language, and Hearing Sciences 391Q. Prerequisite: Graduate standing.

Examine an overview of theories and research findings related to human speech perception and recognition including acoustic characteristics of speech categorical perception, infant speech perception, and effects of hearing loss. Three lecture hours a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 392P, 392S, and Speech, Language, and Hearing Sciences 392P, 392S. Prerequisite: Graduate standing.

SLH 392Q. Counseling.
Examine both speech-language pathology and audiology counseling roles when implementing patient-centered and family-centered care in a variety of settings. Two lecture hours and one-and-one-half laboratory hours a week for one semester. Only one of the following may be counted: Communication Science and Disorders 392C, 392Q, Speech, Language, and Hearing Sciences 392C, 392Q. Prerequisite: Graduate standing.

SLH 394G. Auditory Electrophysiology.
Review the auditory nervous system and evaluate electrophysiological, electromyographic, and electrocardiographic audiometry in depth. Three lecture hours a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 394E, 394G, and Speech, Language, and Hearing Sciences 394E, 394G. Prerequisite: Graduate standing.

SLH 394J. Auditory Perception.
Examine an overview of theories and research findings related to human auditory perception and recognition including acoustic characteristics of speech categorical perception, sound localization, and pitch and loudness perception. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

SLH 394K. Aural Habilitation.
Examine both the pediatric and educational audiologist's roles when working with hard of hearing or deaf children and their families. Three lecture hours a week for one semester. Communication Sciences and Disorders 394K (Topic 1) and Speech, Language, and Hearing Sciences 394K may not both be counted. Prerequisite: Graduate standing.

SLH 394P. Amplifying Systems in Aural Rehabilitation.
Examine principles of hearing aid circuitry and looped systems; ear molds and acoustic properties thereof; electroacoustic properties of hearing aids and selection procedures. Three lecture hours a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 394C, 394P, Speech, Language, and Hearing Sciences 394C, 394P. Prerequisite: Graduate standing.

SLH 194Q, 394Q. Hearing Conservation.
Examine the auditory and nonauditory effects of noise; damage-risk criteria; federal and state laws governing noise and noise control; acoustic measurement procedures; identification audiometry; ear protection; and nonorganic hearing loss and evaluative procedures. For each semester hour of credit earned, one lecture hour a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 394D and 394Q, Speech, Language, and Hearing Sciences 194D, 394D, and 194Q, 394Q. Prerequisite: Graduate standing.

SLH 394S. Medical Audiology.
Explore audiologic implications of pathology and medical and/or surgical treatment of the ear; otologic diagnoses. Three lecture hours a week for one semester. Only one of the following may be counted: Communication
SLH 394T. Applied Skills in Audiology.
Apply advanced clinical skills in Audiology for challenging disorders such as tinnitus, decreased sound tolerance, and auditory dysfunction in normal hearing. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

SLH 395D. Audiology, Culturally Deaf Individuals, and Education.
Designed for graduate students in Audiology or Speech-Language Pathology. Explore aspects of deaf culture and community, Deaf/Deaf identity and the experience of culturally deaf individuals, families of young deaf and hard of hearing children, and the educational system in which the children are educated. Three lecture hours a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 394K (Topic 1), 394L, and Speech, Language, and Hearing Sciences 394D, 394L, 395D. Prerequisite: Graduate standing.

SLH 395H. Diverse Communities and Care.
Explore aspects of deaf culture and community, multicultural aspects of clinical care, diverse equity and inclusion, and professional ethics. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

SLH 395K. Psychoacoustics.
Examine anatomy and physiology of the peripheral auditory system; behavioral measures of auditory performance-masking, sound localization, pitch and loudness perception, temporary and permanent hearing loss. Three lecture hours a week for one semester. Communication Sciences and Disorders 394K (Topic 2) and Speech, Language, and Hearing Sciences 395K may not both be counted. Prerequisite: Graduate standing.

SLH 395Q. Pediatric Audiology.
Explore current methods of testing the hearing of young children, including identification, electrophysiological and operant audiometry, and medical aspects of hearing loss in children. Three lecture hours a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 395, 395Q, Speech, Language, and Hearing Sciences 395Q. Prerequisite: Graduate standing.

SLH 396H. Vestibular Sciences I.
Explore vestibular anatomy and physiology, including vestibular dysfunction in congenital and adult disorders. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

SLH 396J. Vestibular Sciences II.
Learn and apply vestibular diagnostic techniques designed to assess peripheral through central vestibular function. Three lecture hours a week for one semester Prerequisite: Graduate standing and Speech, Language, and Hearing Sciences 396H.

For each semester hour of credit earned, one lecture hour a week for one semester. Communication Sciences and Disorders 394K (Topic 3) and Speech, Language, and Hearing Sciences 196K, 396K may not both be counted. Prerequisite: Graduate standing; successful completion of deafness studies competency.

SLH 396P. Signals and Systems in Hearing and Speech.
Explore electrophysiological and electroacoustic procedures in the study of communication behaviors. Three lecture hours a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 396M, 396P, and Speech, Language, and Hearing Sciences 396M, 396P. Prerequisite: Graduate standing.

SLH 396Q. Advanced Amplifying Systems.
Explore the fitting of amplification systems in various clinical populations, with a main focus on pediatric amplification followed by complex amplification cases across the lifespan. Three lecture hours a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 396C, 396Q, and Speech, Language, and Hearing Sciences 396C, 396Q. Prerequisite: Graduate standing.

SLH 396R. Advanced Auditory Electrophysiology.
Examine advanced diagnostic tools, including acoustic immittance, otoacoustic emissions, auditory evoked potentials, intraoperative monitoring, and vestibular function. Three lecture hours a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 396E, 396R, and Speech, Language, and Hearing Sciences 396E, 396R. Prerequisite: Graduate standing.

Restricted to students in the Doctor of Audiology program. Engage in an intensive clinical experience in a professional setting. For each semester hour of credit earned, one lecture hour a week for one semester; some practicums require up to thirty-nine hours of fieldwork a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

SLH 198P. Audiology Research Practicum.
Conduct research under the mentorship of an Audiology Faculty member. Present a prospectus at the end of the second year to faculty and peers. Present findings to faculty/peers and present at conference and/or submission for publication at the end of the third year One lecture hour a week for one semester. May be repeated for credit. Prerequisite: Graduate Standing.

SLH 398Q. Research Project in Audiology.
Learn about conducting a research study and how to design a study. Read and integrate relevant literature and develop hypotheses and research plan. Identify a mentor for the Audiology Research Practicum. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Only one of the following may be counted: Communication Sciences and Disorders 398P, 398Q, Speech, Language, and Hearing Science 398Q. Prerequisite: Graduate standing.

SOC - Sociology
Sociology: SOC
Lower-Division Courses
The nature of human societies, social processes, social interaction, and the sociological approach. Three lecture hours or two lecture hours and one discussion hour a week for one semester.

SOC 302P. Physical Activity and Society.
Same as Health and Society 310P. Explores the way in which people are physically active in a social context - primarily in the United States. Examines how social forces influence physical activity including cultural, economic, historical, and demographic considerations. Examines physical activity on both the individual and population levels to better understand benefits and barriers to activity through the social context. Three lecture hours a week for one semester. One of the following
SOC 304. Introductory Topics in Sociology.
A sociological perspective of contemporary social subjects. Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

Examines trends over time in specific aspects of family life, including marriage, cohabitation, mate selection, divorce, parenthood, family structure, and work-family balance. Study of the methods that sociologists and demographers use to study the family. Three lecture hours a week for one semester. Sociology 307C and 308 (Topic: American Families Past and Present) may not both be counted.

SOC 307D. Capital Punishment in America.
Uses various historical, legal and social perspectives to examine the shifting rationales and nature of contemporary United States death penalty debates: public opinion; racial disparities and the historical legacy of lynching; United States Supreme Court decisions; the death penalty's efficacy as a criminal punishment, its personal impacts, and contemporary problems with its current application. Three lecture hours a week for one semester. Sociology 307D and 308 (Topic: Capital Punishment in America) may not both be counted.

Examines contemporary social issues confronting the United States, using sociological concepts and perspectives to analyze the nation's most pressing social problems, ranging from social inequality to crime, terrorism and war, and environmental degradation. Three lecture hours a week for one semester. Sociology 307E and 308 (Topic: Contemporary United States Social Problems) may not both be counted.

SOC 307F. Diversity in American Families.
Same as Women's and Gender Studies 301 (Topic 19). Examination of the diversity of American families and current debates on family life from a sociological perspective with an emphasis on how diverse family forms came to exist and what these changes mean for adults and children in contemporary society. Study of recent trends in several aspects of family life, including dating and courtship, cohabitation, marriage, divorce, parenthood, family structure, and work-family balance. Overview of theoretical perspectives on family life with a focus on gender, race/ethnicity, and sexuality. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 315 (Topic: Diversity in American Families), Sociology 307F, 308 (Topic: Diversity in American Families), Women's and Gender Studies 301 (Topic: Diversity in American Families), 301 (Topic 19).

SOC 307G. Culture and Society in the United States.
Introduction to theoretical perspectives, methodological issues, and empirical work in the sociological study of culture. Examination of sociological accounts of the production, reproduction, and reception of culture, with an emphasis on a critical understanding of culture in relation to other sociological phenomena such as power, inequality, and identities. Three lecture hours a week for one semester. Sociology 307G and 308 (Topic: Culture and Society in the United States) may not both be counted.

SOC 307J. Education and Society.
Further study of the ways that schooling shapes the opportunities available to children and youth, and how educational attainment influences the lives and well-being of adults. Subjects include historical development and organization of the American educational system; factors that shape achievement and learning; differential access to educational opportunities along race, class, and gender lines; and the effects of educational stratification. Three lecture hours a week for one semester. Sociology 307J and 308 (Topic: Education and Society) may not both be counted.

SOC 307K. Fertility and Reproduction.
Same as Women's and Gender Studies 301 (Topic 20). Explores the when, why, how, and with whom Americans bear children, and how the United States compares to other developed and developing countries in the world. Subjects include infertility and its treatments, the ethics of surrogacy and international adoption, voluntary childlessness, the rapid rise of nonmarital childbearing in the United States and other countries, the politics of childbirth, the risks of maternal morbidity and mortality in developed and developing countries, and the declining populations and rapid aging of rich countries including Japan, Italy, and Spain where many women have stopped having children. Three lecture hours a week for one semester. Only one of the following may be counted: Sociology 307K, 308 (Topic: Fertility and Reproduction), Women's and Gender Studies 301 (Topic: Fertility and Reproduction), 301 (Topic 20).

SOC 307L. Gender, Race, and Class in American Society.
Same as Women's and Gender Studies 301 (Topic 21). Use of the sociological perspective to analyze how the structure of American society, individual life, and group life chances are shaped by broader structures of privilege and disadvantage based on gender, race, and class. Examination of these in institutional arenas such as work, the family, education, health, the criminal justice system, sexuality, popular culture, and more. Three lecture hours a week for one semester. Only one of the following may be counted: Sociology 307L, 308 (Topic: Gender, Race, and Class in American Society), Women's and Gender Studies 301 (Topic: Gender, Race, and Class in American Society), 301 (Topic 21).

Examination of the social causes and context of illness, death, longevity, and health care today in the United States. Subjects include historical perspectives on health and mortality, social class, race/ethnicity, gender, religious involvement, marital status, family, age, and psychosocial factors. Emphasis on the tension between individualistic and public health perspectives on illness. Three lecture hours a week for one semester. Sociology 307P and 308 (Topic: Introduction to the Sociology of Health and Well-Being) may not both be counted.

SOC 307Q. Environmental Inequality and Health.
Examines the social roots and impacts of environmental contamination and natural disasters, with particular focus on how environmental health inequalities are linked to race, class, gender, and nation, and how residents of areas prone to environmental risks respond to hazards. Three lecture hours a week for one semester. Sociology 304 (Topic: Environmental Inequality and Health) and Sociology 307Q may not both be counted.

SOC 307S. Judaism and Christianity in Sociological Perspective.
Study of Christianity's historic roots in Judaism, the texts that Jews and Christians share, what Jews believe, how and why the two faiths diverged and evolved, how institutionalized Christianity addresses its Jewish origins, and the relationship between Jews and Christians throughout history. Focus on the social, historical, and intellectual contexts and forces which have shaped these processes up to the present day, as well as religious evolution of how systems and ways of thought and action change, why, and how Christians and Jews have dealt with such changes. Three lecture hours a week for one semester.
Only one of the following may be counted: Core Texts and Ideas 304 (Topic: Judaism and Christianity in Sociological Perspective), Sociology 307S, 308 (Topic: Judaism and Christianity in Sociological Perspective), Western Civilization 303 (Topic: Judaism and Christianity in Sociological Perspective).

SOC 307T. Punishment and Society.
Focus on society’s responses to crime. Introduction to the sociology of punishment and the death penalty, the American model of criminal punishment, and contextualization of the United States system and critical analysis of penal systems in general. Special emphasis on the nature of penal control in contemporary America. Three lecture hours a week for one semester. Sociology 307T and 308 (Topic: Punishment and Society) may not both be counted.

SOC 308D. Ethnicity and Gender: La Chicana.
Same as Mexican American Studies 311 and Women’s and Gender Studies 301 (Topic 6). Three lecture hours a week for one semester. Only one of the following may be counted: Mexican American Studies 311, 319 (Topic 1), Sociology 308 (Topic: Ethnicity and Gender: La Chicana), 308D, Women’s and Gender Studies 301 (Topic 6).

SOC 308G. The Rich and the Poor in America: Sociological Perspective.
Review of classical and contemporary theories of inequality and stratification; examination of recent ethnographic accounts of experiences of the rich and poor in United States society. Development of critical thinking about social class in contemporary society, and study of how one’s own experiences are both the products and producers of larger stratification systems. Three lecture hours a week for one semester. Sociology 308 (Topic: Rich and Poor in America) and 308G may not both be counted.

SOC 308J. Romantic Relationships and Family Formation.
Same as Women’s and Gender Studies 301 (Topic 23). Examination of romantic relationships and family formation from a cultural framework. Subjects include: historical transformations of romance; socioeconomic perspectives on sexual relationships and family formation; the impact of demographic transitions on the emergence of cohabitation as a relationship form; the economics undergirding relationship decision making; common narratives, practices, and gender differences about entry into marriage in the West; and population-level implications of contemporary patterns. Three lecture hours a week for one semester. Only one of the following may be counted: Sociology 308 (Topic: Romantic Relationships and Family Formation), 308J, Women’s and Gender Studies 301 (Topic 23).

SOC 308K. Social Change and the Future.
Study of the effects of conflict on society, culture, technology, and economy practices through comparative analysis and historical dimension with a focus on institutions responsible for managing and handling conflict such as warfare and the military. Conflict-related issues include social institutions, gender identities and roles, economy, health issues, technological changes, collective memory, and culture. Three lecture hours a week for one semester. Sociology 308 (Topic: Social Change and the Future) and 308K may not both be counted.

SOC 308L. Social Transformation of Love and Relationships.
Same as Middle Eastern Studies 310 (Topic 4). Examination of the social, psychological, and spiritual perspectives toward the ideas of love and intimacy; how love and intimacy interact with rapid social, economic, and cultural change; and how the subsequent change transformed the social world and the meaning of love. Subjects include the aspects of self and identity; differentiation in the context of love in the modern age; the family and the individual; the impact of industrialization on private lives and the public order; gender, communication, love; intercultural love and intimacy; and personal choice and arranged marriages. Three lecture hours a week for one semester. Only one of the following may be counted: Middle Eastern Studies 310 (Topic: Social Transformation of Love and Relationships), 310 (Topic 4), Sociology 308 (Topic: Social Transformation of Love and Relationships), 308L.

SOC 308M. Sociology of Identity.
Examination of the ways that identities are socially produced and the study of how that social construction results in power and privilege for some groups at the expense of others. Three lecture hours a week for one semester. Sociology 308 (Topic: Sociology of Identity) and 308M may not both be counted.

SOC 308N. Comparative Religion, Politics, and Culture.
Investigation of the relationship between religion and politics through the central concept of culture. Subjects include religion as a form of culture and its effect on political life, the impact of the local culture of a society on religion and politics, and how historical conditions affect the religion-culture-politics relationship. Three lecture hours a week for one semester. Sociology 308 (Topic: Comparative Religion, Politics, and Culture) and 308N may not both be counted.

SOC 308S. Introduction to Health and Society.
Same as Health and Society 301. A broad, multidisciplinary overview that introduces students to the study of health and society. Three lecture hours a week for one semester. Only one of the following may be counted: Health and Society 301, Sociology 308 (Topic: Introduction to Health and Society), 308S.

SOC 309C. Creating the Sustainable Society.
Same as Geography 309C. Overview of sustainability as something human beings must strive to create in an era of global warming and ever greater social inequalities, both between and within countries. Three lecture hours a week for one semester. Only one of the following may be counted: Geography 302P (Topic: Creating Sustainable Societies), 309C, Sociology 304 (Topic: Creating Sustainable Societies), 309C.

SOC 309D. Black and Latinx Intersections.
Same as African and African Diaspora Studies 316F, Government 319C, and Mexican American Studies 318F. Examine the complex relationships between and among Black and Latinx communities and the political and structural forces and contexts that shape their interactions. Explore Black identity within the Latinx population, racial politics, coalitions of Black American and Latinx groups, race among Latinxs, racial inequality, and the politics of immigration. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 316F, Government 319C, Mexican American Studies 318F, 319 (Topic: Black/Latinx Intersections), Sociology 309D.

SOC 309G. The New Latinas/os/xs.
Same as Anthropology 310J, Government 319D, and Mexican American Studies 318G. Explore the trajectories of various communities many have called the new Latinas/os/xs by identifying how race, gender, sexuality, class, indigeneity, language, migration, and geography influence the lives, identities, and sociopolitical incorporation of new Latinas/os/xs. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 310J, Government 319D, Mexican American Studies 318G, 319 (Topic: The New Latinas/os/xs), Sociology 309G.

SOC 310S. Women’s Reproductive Health for Nonscience Majors.
Same as Nursing 307 (Topic 1) and Women’s and Gender Studies 301 (Topic 7). Overview of contemporary women’s reproductive health
issues, with emphasis on historical, physiological, psychosocial, and cultural influences that affect the reproductive health of women during adolescence, the childbearing years, and midlife. Three lecture hours a week for one semester. Only one of the following may be counted: Nursing 307 (Topic 1), Sociology 308 (Topic 2), 310S, Women’s and Gender Studies 301 (Topic 7). Prerequisite: One year of high school biology, or Biology 301L or 309D.

SOC 311C. Social Determinants of Health.
Considers the social factors that influence health and longevity, including sex/gender, race and ethnicity, socioeconomic status, and social integration. Examines the link between social position and health patterns in the United States. Three lecture hours a week for one semester. Sociology 308 (Topic: Social Determinants of Health) and 311C may not both be counted.

SOC 312S. Society, Health, and Happiness.
Examine the scientific study of happiness, integrating findings from a variety of fields, including psychology, sociology, neuroscience, and economics. Includes the nature and measurement of happiness, the bidirectional relationship between physical health and happiness, the social or collective dimensions of happiness, and the role of various institutions and the well-being of society. Three lecture hours a week for one semester. Sociology 304 (Topic: Society, Health & Happiness) and 312S may not both be counted.

SOC 313K. Introduction to the Sociology of Religion.
Introduction to sociological methods in the study of religion. Three lecture hours a week for one semester. Religious Studies 310 and Sociology 313K may not both be counted.

SOC 317L. Introduction to Social Statistics.
Measures of central tendency and dispersion, the binomial and chi-square distributions, tests of hypotheses and parameter estimation, and simple correlation and regression. Three lecture hours and one laboratory hour a week for one semester. Required of all sociology majors.

SOC 318. Juvenile Delinquency.
Environments in which juvenile delinquency develops; delinquent subcultures and peer groups; societal reactions in schools, courts, and other agencies. Three lecture hours a week for one semester.

SOC 319. Introduction to Social Demography.
Social consequences of changes in fertility, mortality, migration, population growth and composition. Three lecture hours a week for one semester.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Sociology. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses
SOC 320C. Cancerland.
Same as Health and Society 340 (Topic 6). Explores the social and cultural terrain of cancer research, treatment, and public policy in the United States. Three lecture hours a week for one semester. Only one of the following may be counted: Health and Society 340 (Topic 6), Sociology 320C, 321K (Topic: Cancerland). Prerequisite: Upper-division standing.

SOC 320K. Political Sociology.
Same as Government 355P. A survey of approaches to the study of the state as a social structure; political power and power systems; ideology; political parties and elites. Three lecture hours a week for one semester. Government 355P and Sociology 320K may not both be counted. Prerequisite: Forty-five semester hours of coursework.

SOC 320S. Soundtrack of Revolutions.
Same as Government 364F and Middle Eastern Studies 342 (Topic 70). Examine the significance of music in the social and political uprisings of countries across the Middle East. Three lecture hours a week for one semester. Only one of the following may be counted: Government 364F, Middle Eastern Studies 342 (Topic: Soundtrack of Revolutions), 342 (Topic 70), Sociology 320S. Prerequisite: Upper-division standing.

SOC 320T. Qualitative Methods for Social Research.
Explore hands-on training in qualitative methods research in contemporary social science. Examine the application and use of case studies; archival analysis; content analysis; participant observation and ethnography; key informant ("elite") interviewing; focus groups; social psychological testing; and how to design and run surveys. Three lecture hours a week for one semester. Only one of the following may be counted: Geography 329K, Latin American Studies 322P Sociology 320T, 321K (Topic: Qualit Mthds in Sociol Rsch). Prerequisite: Forty-five semester hours of coursework.

SOC 321C. Consumption in Latin America.
Same as Latin American Studies 325 (Topic 5). Study of the role consumption plays in social, economic, and political relations in Latin America, as well as contesting ideas about this role. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 325 (Topic: Consumption in Latin America), Latin American Studies 325 (Topic 5), Sociology 321C, Sociology 321K (Topic: Consumption in Latin America). Prerequisite: Upper-division standing.

SOC 321D. Demography of Crime and Punishment.
Intensive seminar exploring data sources and conceptual and measurement issues surrounding the study of racial and ethnic differences in crime and punishment, with a particular focus on how the distinct neighborhood and school contexts in which different racial and ethnic groups participate explain variations in criminal outcomes. Special emphasis on the role of the criminal justice system in producing and eliminating disparities in criminal justice outcomes. Three lecture hours a week for one semester. Prerequisite: Forty-five semester hours of coursework.

SOC 321E. Economy, Culture, and Society.
Introduction to sociological research and theories of culture and the economy, with a special focus on gift giving. Study of gift giving behaviors will explore the core issues of sociology: social organization and social structure, social norms, the relationship between individual and society, the nature of economic and noneconomic exchange, reciprocity, obligation, cultural meanings, and power, among others. Three lecture hours a week for one semester. Prerequisite: Forty-five semester hours of coursework.

SOC 321F. Fundraising and Philanthropy.
Introduction to theories of the nonprofit sector and individual pro-social motivations and behavior, while also covering basic principles and techniques of fundraising. Receive practical instruction from fundraising professionals in the local nonprofit community on all aspects of a successful fundraising operation, from building a solid base of annual
using a comparative race perspective. Subjects include the sociological and twenty-first centuries through a gendered, Asian American lens, Same as Asian American Studies 330E and Women’s and Gender Studies SOC 321R. The Sociology of Race and Work. Production and reproduction of inequality. Three lecture hours a week for one semester. Prerequisite: Forty-five semester hours of coursework.

SOC 321K. Contemporary Issues in Sociology: Special Topics. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

SOC 321L. Sociology of Education. Same as African and African Diaspora Studies 321L and Women’s and Gender Studies 345F. Education as a societal institution, with emphasis on the United States educational system: how the system works; the effects of the system; recent changes. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 321L, Sociology 321L, Women’s and Gender Studies 345 (Topic 23), 345F. Prerequisite: Forty-five semester hours of coursework.

SOC 321P. Politics and Society in Latin America. Same as Latin American Studies 325 (Topic 4). Introduction to present-day Latin American politics and society with a focus on drug-trafficking and urban destitution in Brazil; party politics, protest, and collective violence in Argentina; the current political situation in Venezuela; and migration from Central America and the Caribbean to the United States. Also includes a general overview of revolutions and revolutionary movements in Latin America, and the effects of United States intervention in the region during the twentieth century. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 325, Sociology 321P. Prerequisite: Upper-division standing.

SOC 321Q. Social Inequality. Study of social inequality as the unequal distribution of scarce but commonly desired resources and the processes by which these resources are allocated to individuals and groups. Examination of income and wealth inequality, occupational and class hierarchies, inequality of educational opportunity, poverty, social mobility between and within generations, gender and racial/ethnic inequality, and the consequences of inequality. Overview of the concepts, theories, facts, and methods of analysis used by sociologists to understand the social production and reproduction of inequality. Three lecture hours a week for one semester. Prerequisite: Forty-five semester hours of coursework.

SOC 321R. The Sociology of Race and Work. Same as Asian American Studies 330E and Women’s and Gender Studies 322F. Critical examination of work in the United States over the twentieth and twenty-first centuries through a gendered, Asian American lens, using a comparative race perspective. Subjects include the sociological examination of concepts such as labor markets, globalization, care work, and gender/racial segregation in the workplace along with the ways race and gender shape how and where individuals are fitted into the workplace, how skills are evaluated, and how labor markets emerge. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 330 (Topic 4), 330E, Sociology 321R, Women’s and Gender Studies 322 (Topic 6), 322F. Prerequisite: Upper-division standing.

SOC 321S. Anti-Semitism. Same as History 366N (Topic 15) and Jewish Studies 365 (Topic 13). Surveys trends in Judeophobia/anti-Semitism over 2,500 years in both Christian and non-Christian societies. Designed to use anti-Semitism as way to explore more general ideas in social theory such as boundary making; models of racial, ethnic, and cultural conflict; and the role of intellectual and scientific elites. Three lecture hours a week for one semester. Only one of the following may be counted: History 366N (Topic: Anti-Semitism), 366N (Topic 15), Jewish Studies 365 (Topic: Anti-Semitism), 365 (Topic 13), Sociology 321K (Topic: Anti-Semitism), 321S. Prerequisite: Upper-division standing.

SOC 321T. Sociology of Africa. Same as African and African Diaspora Studies 340V. An introduction to the sociological study of sub-Saharan Africa. Major themes include: sources of knowledge about Africa; characteristics of African states and societies, from origin to internal social boundaries (religion, ethnicity, class); kinship and family; and development and change. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 340V, 374C (Topic: Sociology of Africa), Sociology 321T. Prerequisite: Forty-five semester hours of coursework.

SOC 321U. Urban Sociology. Same as Urban Studies 321U. Introduction to the study of the city and the suburbs. Specific focus on inequality in urban space, with emphasis on three major United States cities (New York, Chicago, and Los Angeles) and on several third world cities. Three lecture hours a week for one semester. Only one of the following may be counted: Sociology 321K (Topic: Urban Sociology), 321U, Urban Studies 354 (Topic 11), 321U. Prerequisite: Forty-five semester hours of coursework.

SOC 321V. Environmental Sociology. Investigation of the ways human social patterns and ideologies shape the environment, how the environment shapes human lives, and the ways humans and the natural environment interrelate. The city of Austin will be used as a case study to examine the relationship between the natural and built environments (city space). Special emphasis on the process of global warming and its effects on human society and these relationships. Three lecture hours a week for one semester. Prerequisite: Forty-five semester hours of coursework.

SOC 322C. Sociology of Creativity. Introduction to varying aspects of creative insights, human consciousness, social processes, and the 'invention of reality.' Use of the elements of mindfulness, intuition, and creativity at individual, organizational, societal, and environmental levels, drawing on lectures, group discussions, books, articles, artistic films, and documentaries in order to better understand and appreciate the interconnectedness and interrelationship between 'inner' (personal) reality and 'other' (social) reality. Three lecture hours a week for one semester. Prerequisite: Forty-five semester hours of coursework.

SOC 322D. Race and the Digital. Same as African and African Diaspora Studies 322D and Women’s and Gender Studies 322G. Review of theoretical developments in the sociological study of "race," including an examination of processes of
racialization and cultural texts, in order to better understand the ways in which identities are socially produced. Attention will be placed on forms of popular culture, black cultural production, and political action to question how such practices are shaped by migrations within the African diaspora. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 322D, Sociology 322D, Women's and Gender Studies 322 (Topic 7), 322G. Prerequisite: Upper-division standing.

SOC 322F. Mental Health in Social Context.
Examines the social causes of mental health in the areas of social epidemiology of mental health; social and psychological factors in mental health; and treatment for psychological problems. Explores definitions of mental health and mental illness, and how they are measured. Contrasts the social view with the medical, psychiatric, and psychological views and explores social psychological factors in mental health, including perceived control over life, mastery, fatalism, social support, meaning, self-esteem, coping, trust, inequity, commitment, and flexibility. Three lecture hours a week for one semester. Prerequisite: Forty-five semester hours of coursework.

SOC 322G. Politics, Power, and Society.
Explores the nature and dynamics of political life through classical works in political philosophy, contemporary sociological essays, fiction, and film. Discussion of the relationship between individual rights and state authority; what it means to belong to a group; the nature and dimensions of power and freedom; whether violence is compatible with democracy; and how and when revolutions take place. Three lecture hours a week for one semester. Prerequisite: Forty-five semester hours of coursework.

Same as Health and Society 340 (Topic 8). Provides a look at the economics of health and health care through a sociological lens. Examines how the multidimensional nature and distribution of health and healthcare are shaped by a variety of social and economic factors. Gain an understanding of the power of incentives, markets, and cost-benefit analysis, as well as the limits of these tools, in creating effective health care policy. Three lecture hours a week for one semester. Only one of the following may be counted: Health and Society 340 (Topic 8), Sociology 321K (Topic: Economic Sociology of Health), 322J. Prerequisite: Upper-division standing

SOC 322K. Race and Ethnicity Politics.
Same as African and African Diaspora Studies, Sociology 322K, Government 337N, and Mexican American Studies 364Q. Explore racial and ethnic politics throughout the United States with a focus on Black and Latino politics. Examine group identity, racial inequality, policy making, activism, criminal justice system, and immigration. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 360K, Government 337N, Mexican American Studies 364Q, 374 (Topic: Race and Ethnicity Politics), Sociology 322K. Prerequisite: Upper-division standing

SOC 322L. Law and Organizations.
Same as Human Dimensions of Organizations 322L. Examine the intersection of law and organizational/workplace practices. Explore how law regulates the workplace (e.g., laws about sexual harassment), how organizations do or do not comply with the law, and the ways that organizational practices may affect legal standards. Three lecture hours a week for one semester. Human Dimensions of Organizations 322L and Sociology 322L may not both be counted. Prerequisite: Forty-five semester hours of coursework.

SOC 322M. Sociology of Masculinities.
Same as Women's and Gender Studies 322E. Sociological examination of the most important debates and discussions about men's experiences of masculinity in contemporary patriarchal societies. Exploration of social and individual meanings of masculinity, the dominant paradigms of masculinity that are taken as the norm, and the problems, contradictions, and paradoxes men experience in modern society. Three lecture hours a week for one semester. Only one of the following may be counted: Sociology 322M, Women's and Gender Studies 322 (Topic 3), 322E. Prerequisite: Forty-five semester hours of coursework, three semester hours of coursework in sociology, and three semester hours of coursework in women's and gender studies.

SOC 322N. Race Politics and Caribbeans.
Same as African and African Diaspora Studies 345U, Government 337J, and Mexican American Studies 364R. Examine racial and political themes among Spanish-speaking Caribbeans on the islands and in the United States. Explore racial politics in the three countries and compares notions of identity, experiences with racism and anti-racist protest with the United States Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 345U, Government 337J, Mexican American Studies 364R, 374 (Topic: Race Politics & Caribbeans), Sociology 322N. Prerequisite: Upper-division standing.

SOC 322P. Sex and Violence in Popular Culture.
Same as Women's and Gender Studies 322K. Overview of the cultural framing of sex and violence through realistic and hyper-realistic representations of sex, love, violence, and war in popular culture. Examination of the ethical implications, including the ways in which these representations rely on and further social inequalities and the sociological concepts, methods, and theoretical approaches to understanding sex and violence in popular culture. Three lecture hours a week for one semester. Only one of the following may be counted: Sociology 322P, Women's and Gender Studies 322 (Topic 10), 322K. Prerequisite: Forty-five semester hours of coursework.

SOC 322T. Latino Migration and Human Trafficking.
Same as Latin American Studies 322F and Mexican American Studies 364G. Critically examine the complexity and intersectionality of Latino migration and human trafficking from global, regional, and local perspectives. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 322 (Topic: Latino Migrtn/Human Traffic), 322F, Mexican American Studies 364G, 374 (Topic: Latino Migrtn/Human Traffic), Sociology 321K (Topic: Latino Migrtn/Human Traffic), 322T. Prerequisite: Upper-division standing

SOC 322U. United States Immigration.
Same as Mexican American Studies 374 (Topic 42). Utilizes a sociological perspective to gain an understanding of what social forces drive migration to the United States, how migrants organize their migration, and how immigration affects United States' society. Three lecture hours a week for one semester. Only one of the following may be counted: Mexican American Studies 374 (Topic: US Immigration), 374 (Topic 42), Sociology 321K (Topic: US Immigration), or 322U. Prerequisite: Forty-five semester hours of coursework.

SOC 322V. Race, Gender, and Surveillance.
Same as African and African Diaspora Studies 360D, American Studies 321 (Topic 6), and Women's and Gender Studies 322J. Overview of theories in the sociology of social control, with a focus on risk, power, ethics, and surveillance. Examines historical transformations in social control and the distributions of power in the United States and global contexts, with attention to race, gender, and class. Subjects include: the transatlantic slave trade; prisons and punishment; the gaze, voyeurism,
and reality television watching; the Internet; travel and state borders; privacy; and biometrics and the body. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 360D, 372C (Topic 12), American Studies 321 (Topic 6), Sociology 322V, Women's and Gender Studies 322 (Topic 8), 322J. Prerequisite: Upper-division standing.

SOC 323. The Family.
Same as Women's and Gender Studies 345 (Topic 2). The American family in historical and comparative perspective. Family history and origins; comparative family systems; social antecedents of family structure and process; family formation and dissolution; family and society; recent family changes and prospects for the future. Three lecture hours a week for one semester. Sociology 323 and Women's and Gender Studies 345 (Topic 2) may not both be counted. Prerequisite: Upper-division standing.

SOC 323C. Policing.
Examines the purposes and structure of policing and the shifting roles and powers of police officers. Focuses on several critical issues in modern-day policing, including the effectiveness of various police strategies as well as their legitimacy. Considers limits on the ability of the police to control crime, and the ways in which individuals and communities work to police themselves. Three lecture hours a week for one semester. Prerequisite: Forty-five semester hours of coursework.

SOC 323D. Border Control and Deaths.
Same as Mexican American Studies 374 (Topic 41). Focus on enactment of border control policies, policy implementation and death patterns at the United States-Mexico border, patterns of unauthorized border crossings through dangerous border terrain, grassroots movements to support migrants and lessen deaths, and the ethics of coercive border control. Surveys the public sentiments and attitudes that support new border control policies, the patterns of migrant deaths in deserts and in the Rio Grande River associated with border control strategies, movements and community efforts to support migrants in the Arizona border area, and legal and ethical arguments and concepts that frame discussions of migrant deaths at the United States-Mexico border. Three lecture hours a week for one semester. Mexican American Studies 374 (Topic 41) and Sociology 323D may not both be counted. Prerequisite: Forty-five semester hours of coursework.

SOC 323F. Food and Society.
Explores the social context of food; including food and identity, social class and culture, as well as who plans, purchases, and prepares food for our families. Food production and policies in the United States and government assistance for the hungry are also covered. Three lecture hours a week for one semester. Sociology 321K (Topic: Food and Society) and 323F may not both be counted. Prerequisite: Forty-five semester hours of coursework.

SOC 323G. Globalization and the Coronavirus Pandemic.
Same as European Studies 348 (Topic 18), German, Scandinavian, and Dutch Studies 362C, and Government 362C. Examine the modern globalization process that also incorporates a description of the current Coronavirus pandemic as a phenomenon that is inextricably linked with modern globalization. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 348 (Topic: Glibлизатн/Coronavirus Pandemic), 348 (Topic: Glibлизатн/Coronavirus Pan), 348 (Topic 18), German, Scandinavian, and Dutch Studies 360 (Topic: Glibлизатн/Coronavirus Pandemic), 360 (Topic: Glibлизатн/Coronavirus Pand), 362C, Government 355M (Topic: Glibлизатн/Coronavirus Pandemic), 355M (Topic: Glibлизатн/Coronavirus Pan), 362C, Sociology 321K (Topic: Glibлизатн/Coronavirus Pandemic), 321K (Topic: Glibлизатн/Coronavirus Pandm), 323G. Prerequisite: Upper-division standing.

SOC 323L. Latina/o/x Citizenship.
Same as Anthropology 326R, Government 371V, and Mexican American Studies 364M. Explore the concepts of membership, belonging, immigration and citizenship in the Latina/o/x experience. Examine how historically, politically, socially and culturally, Latinas/os/xs have been construed as belonging or not belonging members of the United States society. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 326R, Government 371V, Mexican American Studies 364M, Sociology 323L. Prerequisite: Upper-division standing.

SOC 323S. Building the Sustainable City.
Same as Urban Studies 323S. Three lecture hours a week for one semester. Only one of the following may be counted: Sociology 321K (Topic: Building the Sustainable City), 323S, Urban Studies 323S, 352 (Topic: Building the Sustainable City), 352 (Topic 7). Prerequisite: Forty-five semester hours of coursework.

SOC 324K. Social Change in Developing Nations.
Same as Latin American Studies 325 (Topic 2). Overview of changing social structure in the Third World. Three lecture hours a week for one semester. Latin American Studies 325 (Topic 2) and Sociology 324K may not both be counted. Prerequisite: Forty-five semester hours of coursework.

SOC 324P. International Political Economy of Lower-Income Countries.
Same as Geography 326G and Government 366M. Explore the ways that China, India, Brazil and other lower-income countries are transforming the patterns in global finance, trade, aid, women's empowerment, and the control or corruption. Three lecture hours a week for one semester. Only one of the following may be counted: Geography 326G, Government 355M (Topic: Intl Pol Econ Low-Incm Countrs), 366M, Sociology 324P. Prerequisite: Upper-division standing.

SOC 325F. African American Family in Historical and Contemporary Contexts.
Same as African and African Diaspora Studies 351R and Liberal Arts Honors 351C. Restricted to Plan I majors in the College of Liberal Arts. Examine how African Americans managed to maintain a sense of family from the time of slavery to the present trend of mass incarceration. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 372D (Topic: Afr Am Fam: Hist/ContemCtxt), 351R, Liberal Arts Honors 350 (Topic: Afr Am Fam: Hist/ContemCtxt), 351C, Sociology 321K (Topic: Afr Am Fam: Hist/ContemCtxt), 325F. Prerequisite: Upper-division standing and a grade point average of at least 3.50.

SOC 325K. Criminology.
An investigation into the nature of criminal events, including homicide, rape, robbery, property crimes, and white-collar crimes. Also examines the United States criminal justice system. Three lecture hours a week for one semester. Prerequisite: Forty-five semester hours of coursework.

SOC 325L. Sociology of Criminal Justice.
Same as Urban Studies 325L. Examination of the police, courts, and prisons: how they work, their impact on those who pass through them. Introduction to the American criminal justice system, its policies and procedures. The primary focus will be on the roles and functions of the police, the courts, and corrections, with a special emphasis on how well or not so well the system operates. Three lecture hours a week for one semester. Only one of the following may be counted: Sociology 325L,

**SOC 326D. Data Science for the Social World.**

Same as Government 326D. Introduction to data science for the political and economic world. Explore a variety of political and economic data and develop proficiency in R and Excel. Three lecture hours a week for one semester. Only one of the following may be counted: Government 326D, 355M (Topic: Data Science for the Social World), Sociology 326D. Prerequisite: Upper-division standing.

**SOC 327M. Social Research Methods.**

Collect data to answer research questions by focusing on the meaning of variables, understanding causation, study design, basic sampling, and modes and methods in data collection. Two lecture hours and two lab hours a week for one semester. Sociology 317M and 327M may not both be counted. Prerequisite: Forty-five semester hours of coursework.

**SOC 329. Social Stratification.**

The types and levels of social inequality; the institutional and group processes that generate inequality; the interplay of social, organizational, economic, and political forces that affect the degree of differential opportunities and rewards in society. Three lecture hours a week for one semester. Prerequisite: Forty-five semester hours of coursework. Completion of Sociology 317L or another statistics course is recommended, but not required.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Sociology. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

**SOC 330C. Death and Dying: Sociological Perspectives.**

Sociological perspectives on definitions of death; group differences in mortality rates and causes of death; social meanings of death and dying; treatment of the dying and the dead; and grief and bereavement. Three lecture hours a week for one semester. Prerequisite: Forty-five semester hours of coursework.

**SOC 330P. Sociology and Social Psychology.**

Examines how individuals perceive, interact with, and affect other individuals from the perspectives of both psychology and sociology. Three lecture hours a week for one semester. Prerequisite: Forty-five semester hours of coursework.

**SOC 333K. Sociology of Gender.**

Same as Women's and Gender Studies 322C. Inequality between the sexes; men's and women's changing roles in society. Three lecture hours a week for one semester. Only one of the following may be counted: Sociology 333K, Women's and Gender Studies 322 (Topic 1), 322C. Prerequisite: Forty-five semester hours of coursework.

**SOC 335R. Reproductive Justice and Race.**

**SOC 336C. American Dilemmas.**

Same as Urban Studies 352C and Women's and Gender Studies 345 (Topic 26). Examination of critical American social problems, including problems in the economic, political, and health care systems, as well as inequities based on income, gender, and race. Exploration of how these problems are a natural outgrowth of the existing social structure. Three lecture hours a week for one semester. Only one of the following may be counted: Sociology 336C, Urban Studies 352C, 354 (Topic 13), Women's and Gender Studies 345 (Topic 26). Prerequisite: Upper-division standing.

**SOC 336D. Race, Class, and Health.**

Designed to introduce students to the complex relationships among race, class, gender, and health status. Investigates how health is linked to individual behaviors and to the interaction between people and their social, cultural, and physical environments. Three lecture hours a week for one semester. Prerequisite: Forty-five semester hours of coursework.

**SOC 336G. Gender Politics in the Islamic World.**

Same as Middle Eastern Studies 341 (Topic 7), Religious Studies 358G, and Women's and Gender Studies 340 (Topic 44). Study of the Islamic world and major sociological concepts such as gender, social organizations, culture, and politics. Examines how culture is mediated by politics, resulting in diverse interpretations of Islam and in different policies with respect to women's rights. Three lecture hours a week for one semester. Only one of the following may be counted: Islamic Studies 373 (Topic 11), Middle Eastern Studies 341 (Topic 7), Religious Studies 358 (Topic 8), 358G, Sociology 336G, Women's and Gender Studies 340 (Topic 44). Prerequisite: Upper-division standing.

**SOC 336P. Social Psychology and the Law.**

How courts make use of social science, as well as how social scientists study the legal system. Considers the uses of social science across multiple types of legal domains, such as eyewitnesses to crime, jury trials, punishment, children in the courts, and a variety of public policy issues. Three lecture hours a week for one semester. Prerequisite: Forty-five semester hours of coursework.

**SOC 340C. Globalization.**

Same as European Studies 346 (Topic 7). A sociological analysis of the interrelated economic, political, and cultural aspects of globalization. Examines the consequences of globalization for nations around the world and for groups within these nations. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 346 (Topic: Globalization), 346 (Topic 7), Sociology 321K (Topic: Globalization), 340C. Prerequisite: Upper-division standing.

**SOC 340D. Violence.**

An overview of the different theories of interpersonal and group violence. Includes criminological theories of violent crime, as well as feuding, ethnic and nationalist violence, political violence, and aggression in intimate relations. Three lecture hours a week for one semester. Prerequisite: Forty-five semester hours of coursework.

**SOC 340L. Aging and the Life Course.**

The biological, social, and psychological aspects of human aging from adolescence until death, with special emphasis on cultural norms and the social and demographic context in which aging occurs. Includes the challenges and problems of adjustment at each life stage, and the social, political, and economic consequences of increased longevity and changes in the age structure of the populations of modern societies.

1034 General Information 2023 - 2024 01/05/24
Three lecture hours a week for one semester. Prerequisite: Forty-five semester hours of coursework.

**SOC 340S. Race and United States Social Policy.**
Same as African and African Diaspora Studies 360L and Government 371P. Examine the relationship between race and the development of United States social policy. Explore how specific social policies affect racial and ethnic inequality. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 360L, 370 (Topic: Race and US Social Policy), Government 371P, Sociology 340S. Prerequisite: Upper-division standing.

**SOC 341C. Medical Sociology.**
Same as Health and Society 340 (Topic 11). Explores the social context of health, illness, and the health care system in American society. Discussion of the processes of medicalization and demedicalization, social factors influencing health and health care, the organization of the health care delivery system and patient outcomes, and the social meaning and experiences of illness. Three lecture hours a week for one semester. Only one of the following may be counted: Sociology 321K (Topic: Medical Sociology), 341C, or Health and Society 340 (Topic 11). Prerequisite: Upper-division standing.

**SOC 342N. Social Inequality and Health in the United States.**
Same as Liberal Arts Honors 351R. Restricted to Plan I majors in the College of Liberal Arts. Examine how socioeconomic status and social inequality shape health and mortality across the United States. Consider various possible explanations including stress, health behaviors, violence, and other factors. Three lecture hours a week for one semester. Only one of the following may be counted, Liberal Arts Honors 350 (Topic: Soc Inq & Health in U.S.), 351R, Sociology 321K (Topic: Soc Inq & Health in U.S.), 342N. Prerequisite: Upper-division standing and a grade point average of at least 3.5.

**SOC 342S. Sex and Sexuality in the Muslim World.**
Same as Middle Eastern Studies 341 (Topic 13), Religious Studies 358J, and Women's and Gender Studies 335 (Topic 20). Three lecture hours a week for one semester. Only one of the following may be counted: Islamic Studies 372 (Topic: Sex/Sexuality Muslim World), 372 (Topic 25), Middle Eastern Studies 341 (Topic 13), Religious Studies 358 (Topic: Sex/Sexuality Muslim World), 358J, Sociology 321K (Topic: Sex/Sexuality Muslim World), 342S, Women's and Gender Studies 335 (Topic: Sex/Sexuality Muslim World), 335 (Topic 20). Prerequisite: Upper-division standing.

**SOC 343. Religion and Society.**
Same as Religious Studies 337. The growth and decline of religious groups and traditions; "cults" and new religions; comparative sociology of religion; the United States religious landscape; religion and individual health and well-being; spirituality and other aspects of social life. Three lecture hours a week for one semester. Religious Studies 337 and Sociology 343 may not both be counted. Prerequisite: Upper-division standing.

**SOC 344. Racial and Ethnic Relations.**
Contemporary racial and ethnic problems; emphasis on minority groups in the United States. Three lecture hours a week for one semester. Prerequisite: Forty-five semester hours of coursework.

**SOC 344C. Race, Science, and Race Science.**
Explore the broad history of how race has shaped the development of science in the United States from the 1800s to the present, including medical treatments, diagnostic criteria, technological developments, and business ventures. Three lecture hours a week for one semester. Sociology 321K (Topic: Race, Science and Race Science) and 344C may not both be counted. Prerequisite: Forty-five semester hours of coursework.

**SOC 345D. Inequality in the United States Educational System.**
Same as Liberal Arts Honors 350 (Topic 21). Restricted to Plan I majors in the College of Liberal Arts. Examine how inequality has developed and is maintained within the American public education system. Three lecture hours a week for one semester. Only one of the following may be counted: Liberal Arts Honors 350 (Topic: Inqly in US Edu Sys), 350 (Topic 21), Sociology 321K (Topic: Inqly in US Edu Sys), 345D. Prerequisite: Upper-division standing and a grade point average of at least 3.5.

**SOC 350M. Sociology Internship Seminar.**
Restricted to sociology majors. Intern in an agency, organization, or business under supervision. Apply the knowledge and skills acquired in sociology courses. Three lecture hours and at least nine hours of fieldwork a week for one semester. Prerequisite: Upper-division standing and consent of the faculty undergraduate advisor.

**SOC 352. Social Movements.**
Same as American Studies 321 (Topic 7). Characteristics of crowds, publics, and social movements; their role in social organization and social change. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: Social Movements), American Studies 321 (Topic 7), Sociology 352. Prerequisite: Upper-division standing.

**SOC 352E. Media Industries and Entrepreneurship.**
Same as Radio-Television-Film 365 (Topic 9). Examination of the social, political, and economic contexts in which media and culture are produced, distributed, and monetized. Emphasis on new media and communication technologies. Three lecture hours a week for one semester. Only one of the following may be counted: Journalism 355M, Radio-Television-Film 365 (Topic: Media Industries and Entrepreneurship), 365 (Topic 9), Sociology 352E, 352M (Topic: Media Industries and Entrepreneurship). Prerequisite: Fifty-four semester hours of college coursework.

**SOC 352S. Globalization and Social Media.**
Same as Radio-Television-Film 365 (Topic 10). Issues surrounding the hype, myth, paradox, and reality of social media in a global context. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 320 (Topic: Globalization and Social Media), Journalism 349T (Topic: Globalization and Social Media), 351S, Radio-Television-Film 331M (Topic: Globalization and Social Media), 365 (Topic 10), Sociology 321K (Topic: Globalization and Social Media), 352S. Prerequisite: Fifty-four semester hours of college coursework.

**SOC 354K. Sociology of Health and Illness.**
Application of sociological concepts and principles to the study of health professions, medical institutions, community medical organization, and the distribution of illness. Three lecture hours a week for one semester. Prerequisite: Forty-five semester hours of coursework.

**SOC 355. Labor and Labor Movements.**
Overview of work organizations in the United States, with emphasis on globalization, inequality, and labor movements. Three lecture hours a week for one semester. Prerequisite: Forty-five semester hours of coursework.

**SOC 356. Deviance.**
Analysis of social norms, conformity, and reactions to norm violations. Topics include behavioral forms of deviance such as suicide and drug abuse and nonbehavioral forms of deviance such as physical
abnormality. Three lecture hours a week for one semester. Prerequisite: Forty-five semester hours of coursework.

**SOC 369K. Population and Society.**
Same as Women's and Gender Studies 322D. The study of populations, including their growth, age structure, and patterns of fertility, mortality, and migration; the social causes and consequences of these phenomena. Three lecture hours a week for one semester. Only one of the following may be counted: Sociology 369K, Women's and Gender Studies 322 (Topic 2), 322D. Prerequisite: Forty-five semester hours of coursework.

**SOC 679H. Honors Tutorial Course.**
Research into and development of a thesis topic and proposal followed by the writing and defense of a thesis. The equivalent of three lecture hours a week for two semesters. Prerequisite: For 679HA, upper-division standing and admission to the Sociology Honors Program; for 679HB, Sociology 679HA.

**SOC 379M. Sociological Theory.**
Restricted to sociology majors. Critical examination of major sociological theories and their relevance to current research and social conditions. Three lecture hours a week for one semester. Prerequisite: Forty-five semester hours of coursework and six semester hours of coursework in sociology.

**SOC 379N. Conference Course.**
Supervised individual study of selected problems in sociology. Conference course. May be repeated for credit. Prerequisite: Upper-division standing, Sociology 302 or the equivalent, nine semester hours of upper-division coursework in sociology or related fields, a University grade point average of at least 3.00, and consent of the faculty undergraduate adviser.

**SOC 379P. Undergraduate Research Opportunity.**
Perform research-related activities with faculty members in the sociology department. Collect interview or survey data, analyze statistics, synthesize research literature, and code qualitative data. The equivalent of five to seven lecture hours a week for one semester. Prerequisite: Sociology 302, consent of the supervising instructor, and consent of the faculty undergraduate adviser.

**Graduate Courses**

**SOC 180, 280, 380. Conference Course.**
Sociological topics not otherwise offered at the graduate level. The equivalent of one, two, or three lecture hours a week for one semester. May be repeated for credit, but no more than six semester hours may be counted toward the Master of Arts and no more than twelve semester hours may be counted toward the doctoral degree. May not be substituted for required courses in statistics, methods, or theory, nor may more than one of the three other area requirements be fulfilled by Sociology 380. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.

**SOC 383K. Seminars in Social Psychology.**
Substantive issues and current topics in social psychology. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

  **Topic 1: History and Theories of Social Psychology.** May be counted toward elective requirements.

**SOC 384J. Special Topics in Social Statistics.**
Three lecture hours a week for one semester; additional laboratory hours may be required for some topics. Not all topics are offered every year.

May be counted toward the statistics and methods requirement. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, and Sociology 384L and 385L with a grade of at least B- in each.

**SOC 384L. Social Statistics: Basic Concepts and Methods.**
Review of descriptive statistics; probability concepts; statistical inference, bivariate correlation and regression, multiple regression, dummy variables, analysis of variance, analysis of covariance; applications of statistical computing packages to social science data. Three lecture hours a week for one semester, with additional laboratory hours to be arranged. May be counted toward the statistics and methods requirement. Required of all graduate students during their first semester of study. Prerequisite: Graduate standing.

**SOC 384M. Seminar in Data Analysis.**
Quantitative sociological research integrating the use of statistical analysis with computer applications and survey data. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, and Sociology 384L or the equivalent.

  **Topic 1: Evaluation of Social Policy.** May be counted toward the statistics and methods requirement.

**SOC 385K. Social Statistics: Discrete Multivariate Models.**
Assumptions, estimation, testing, and parameter interpretation for models using categorical data; applications of statistical computing packages and programs to social science data. Three lecture hours a week for one semester. May be counted toward the statistics and methods requirement. Prerequisite: Graduate standing, and Sociology 384L or the equivalent.

**SOC 385M. Social Statistics: Linear Models.**
Explore model specification; a review of simple regression; scale construction; missing values; ordinary and generalized least squares; measurement error and unobserved variables. Three lecture hours and one-and-one-half laboratory hours a week for one semester. Sociology 385L and 385M may not both be counted. Prerequisite: Graduate standing.

**SOC 385N. Causal Inference.**
Analyze key concepts and methods of causal inference. Examine strategies for isolating the relationship between a given predictor and dependent variable of interest from potential confounders to determine whether any quantitative social science study is employing causal inference or "naive" methods; articulate the pros, cons, and assumptions made by different causal inference strategies; and understand how to engineer a causal study. Three lecture hours a week for one semester. Sociology 385N and 387C (Topic: Causal Inference) may not both be counted. Prerequisite: Graduate standing.

**SOC 386L. Social Statistics: Dynamic Models and Longitudinal Data Analysis.**
Applications of dynamic models to data collected at successive points in time. Dynamic structural equation models; statistical time-series analysis; stochastic processes, panel, and event-history analysis. Three lecture hours a week for one semester. May be counted toward the statistics and methods requirement. Prerequisite: Graduate standing, and Sociology 384L or the equivalent.

**SOC 387C. Special Topics in Social Research Methods.**
Three lecture hours a week for one semester; additional laboratory hours may be required for some topics. Not all topics are offered every year. May be counted toward the statistics and methods requirement. May be
repeated for credit when the topics vary. Prerequisite: Graduate standing and Sociology 387J.

**SOC 387J. Fundamentals of Research Methods.**
Fundamental assumptions and procedures for conducting sociological research, including the logic of science, the links between theory and methods, measurement, experiments, sampling, surveys, qualitative methods, and ethics. Three lecture hours a week for one semester. May be counted toward the statistics and methods requirement. Required of all graduate students during their first semester of study. Prerequisite: Graduate standing.

**SOC 387L. Qualitative Methods for the Social Sciences.**
Qualitative survey research methods, approaches, and designs, including participant observational techniques, semistructured interviewing, and formal questionnaire and censustype surveys. Three lecture hours a week for one semester. May be counted toward the statistics and methods requirement. Sociology 387L and 387T may not both be counted. Prerequisite: Graduate standing.

**SOC 388J. Readings in Ethnography.**
This reading-intensive seminar has four major objectives: 1) to become familiar with some classic and contemporary ethnographies, 2) to acquaint students with the methodological tenets of ethnography, 3) to consider theoretical and epistemological issues in ethnographic research, 4) to discuss narrative strategies in ethnographic writing. Three lecture hours a week for one semester. May be counted toward the statistics and methods requirement. Prerequisite: Graduate standing.

**SOC 388K. Field and Observational Methods.**
Rationale and logic for field research; participant and nonparticipant observation; informant and conversational interviewing; personal documents, records, and physical traces; life histories; sources of error and bias; personal and ethical dilemmas; modes of analysis. Three lecture hours a week for one semester. May be counted toward the statistics and methods requirement. Prerequisite: Graduate standing.

**SOC 388L. Historical and Comparative Methods.**
Scope and methods of historical and comparative sociology; application of historical sources to answer sociological questions; logic of comparative analysis in theory construction. Three lecture hours a week for one semester. May be counted toward either the statistics and methods requirement or the political sociology specialization. Prerequisite: Graduate standing.

**SOC 388N. Ethnographic Theory and Practice.**
Explore the epistemology of ethnographic methods, crafting an ethnographic study, and conducting and analyzing field observations and in-depth interviews. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

**SOC 389E. Event History Analysis.**
Evaluate survival methods for the analysis of change in time-dependent discrete dependent variables, drawing on methodological and empirical research from the social sciences. Explore the relationship between theories of social change, life course events, and dynamic models. Three lecture hours a week for one semester. Sociology 389E and 389K (Topic 13) may not both be counted. Prerequisite: Graduate standing.

**SOC 389K. Seminars in Demography.**
Substantive issues and current topics in population studies and social demography. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing. Topic 1: General Approaches to the Study of Population. May be counted toward the demography specialization. Required for all students specializing in demography. Topic 2: Human Fertility. May be counted toward either the demography specialization or the health specialization. Topic 3: Human Mortality. May be counted toward either the demography specialization or the health specialization. Topic 4: International Migration. Same as Latin American Studies 381 (Topic 1: International Migration). May be counted toward either the demography specialization or the race and ethnicity specialization in the sociology degree program. Topic 6: Training Seminar in Demography. May be counted toward the demography specialization. Required for all students specializing in demography. Topic 9: Immigration Policy. May be counted toward either the demography specialization or the race and ethnicity specialization. Topic 12: Demography of Health and the Life Course. An in-depth introduction to the major conceptual frameworks and empirical research that examine distal and proximate social factors influencing adult health. Includes the assessment of key social and biological pathways linking social conditions at particular points in the life course with adult health outcomes. May be counted toward either the demography specialization or the health specialization. Topic 14: Sociology of Families and Households. Examine family research literature describing change and variation in family behavior. Explore cohabitation, marriage, divorce, kinship, parenthood, gender, and sexuality. Three lecture hours a week for one semester. Only one of the following may be counted: Sociology 389K (Topic 11), 389K (Topic 14), Women's and Gender Studies 393 (Topic: Family and Household Demography). Additional prerequisite: Graduate standing.

**SOC 190K, 290K, 390K, 690K, 990K. Proposal Preparation.**
Preparation of proposal for the doctoral dissertation. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing, completion of all coursework, and consent of instructor.

**SOC 391L. Basic Demographic Methods and Materials.**
Population composition, change, and distribution; methods of standardizing and decomposing rates; life tables and population models; analysis of data from advanced and developing countries; applications of computer programs for demographic analysis. Three lecture hours a week for one semester. May be counted toward the statistics and methods requirement. Required of all students specializing in demography. Prerequisite: Graduate standing, and Sociology 384L or the equivalent.

**SOC 394K. Seminars in Sociological Theory.**
Development of social thought; the emergence of systematic sociological theory; interrelations with other social sciences. Three lecture hours a week for one semester. Graduate students in sociology must take Topics 2 and 3. May be repeated for credit when the topics vary. Prerequisite: Graduate standing. Topic 2: Contemporary Sociological Theory. May be counted toward the theory requirement. Required of all graduate students during their second semester of study. Topic 3: Classical Sociological Theory. A review of classic works in sociological theory, focusing on the work of nineteenth-century and early twentieth-century theorists. Critically examines the historical and theoretical context of sociology's founding ideas. Explores the promises and problems of the relationship between sociological theory and the modern era. May be counted toward the theory...
SOC 395E. Seminars in Education.
In-depth theoretical and policy discussions designed to give students intensive exposure to specific issues in education. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 1: Sociology of Education. Provides an overview of the field of sociology of education. Examines the ways in which schools reproduce, reinforce, and challenge the prevailing social, economic, and political relationships in society. Includes discussions of why people go to schools, who has access, and the effects of schools on individuals, communities, and society. May be counted toward either the education specialization or the work, occupations, and organizations specialization.

Topic 2: Poverty, Race, and Schools. Focuses on children's academic outcomes within the contexts of poverty, race, and schools in K-12 education. Includes an assessment of a number of student groups in an effort to understand why some children have higher quality schooling experiences than others. Considers the roles of teachers and parents in affecting children's academic outcomes, with primary emphasis placed on their importance in elementary and middle school. May be counted toward either the education specialization or the race and ethnicity specialization. Sociology 396L (Topic: Poverty, Race, and Schools) and 395E (Topic 2) may not both be counted.

Topic 3: High School and Transition to Adulthood. Focuses on how education is related to adolescents' transition to adulthood in modern society. Examines the structure of schooling and the life course stages of adolescence and early adulthood, societal stratification, and intergenerational mobility. May be counted toward either the education specialization or the family specialization. Sociology 395E (Topic 3) and 396L (Topic: High School and Transition to Adulthood) may not both be counted.

Topic 4: International Issues in Education. Introduction to key theoretical and empirical work on education and social stratification from an international perspective. Focuses on studies of school access, educational attainment and achievement, and inequality of educational opportunity in Africa, Asia, and Latin America. Includes discussion of comparative and case study readings that explore specific themes such as education and social mobility, gender, race and ethnicity, and school contexts. May be counted toward the education specialization.

Topic 5: Social Contexts of Education. Explores school as a social context by delving into the informal processes of education, such as socialization and the organization of social relations.

Includes discussion of the school as a site of social relations, social psychological influences on educational trajectories, and the social psychological consequences of educational experiences. May be counted toward the education specialization. Sociology 396L (Topic: Social Context of Education) and 395E (Topic 5) may not both be counted.

SOC 395F. Seminars in Family.
Three lecture hours a week for one semester. Not all topics are offered every year. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 2: Marriage, Family, and Kinship. May be counted toward the family specialization.

Topic 3: Family and Health. May be counted toward the family and health specializations.

Topic 7: Aging and the Life Course. Concepts and controversies about aging and the adult life course in the United States. Includes discussion of the biology of aging as it relates to current social issues and trends, population aging and related demographic trends, the economics and politics of aging, the trajectories and transitions of the adult life course, healthy aging, age as a social status, health care rights and responsibilities, retirement as a social institution, generational equity, and the conditions and choices at the end of life. May be counted toward the family specialization.

Topic 8: Gender, Marital Status, and Well-Being. Examines gender and relationships from social psychological perspectives. Considers how and why intimate relationships differ for men and women as well as the gendered consequences of relationships for mental and physical health. May be counted toward the family specialization. Sociology 395F (Topic 8) and 395G (Topic: Gender, Marital Status, and Well-Being) may not both be counted.

SOC 395G. Seminars in Gender.
Three lecture hours a week for one semester. Not all topics are offered every year. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 3: Gender and Family. Review of basic theoretical perspectives and empirical evidence concerning gender and family relationships. Considers how and why family relationships differ for men and women as well as the gendered consequences of relationships for men's and women's well-being. Includes discussion of marital status, marital transitions, marital quality, same sex intimate relationships, cohabiting relationships, and parent/child relationships. May be counted toward either the gender specialization or the family specialization.

Topic 4: Gender and Health. May be counted toward the gender and health specializations.

Topic 5: Gender and Development. May be counted toward the gender and development specializations.

Topic 6: Gender and Work. Examines theoretical and empirical issues regarding gender inequality in the labor market. Includes discussion of changes in female labor force participation, gender segregation in the workplace, gender gaps in earnings and promotions, as well as gender differences in career processes. May be counted toward either the gender specialization or the work, occupations, and organizations specialization.

Topic 7: Feminist Theory. Examines social categories such as the state, citizenship, nationalism, and globalization from a feminist perspective. May be counted toward either the gender specialization or the theory specialization. Sociology 394K (Topic: Feminist Theory) and 395G (Topic 7) may not both be counted.

Topic 8: Readings in Gender and Sexuality. Presents an overview of sociological theories of sexuality and provides a forum for discussion of recently published works in the sociology of gender and sexuality. May be counted toward the gender specialization.
Topic 9: Gender and Society. Examines the social construction of gender inequality, paying special attention to how divisions by race, class, and sexuality contribute to and occasionally undercut men’s power and privilege over women. Emphasis is also placed on moments of resistance and change in gender arrangements. May be counted toward the gender specialization.

Topic 10: Sociology of Sexual Violence. Examines the different social forces and dynamics responsible for a variety of expressions of sexual violence existing in contemporary society. Designed to examine these processes promoting social violence from feminist-informed sociological perspectives; explore and analyze the historical, economic, and socio-cultural contexts responsible for these processes; study the issues and concerns with regard (but not limited) to gender, race and ethnicity, class, sexuality, and political activism associated with sexual violence research in the social sciences; and discuss and critique published sexual violence research based on qualitative methodologies across disciplines. May be counted toward the gender specialization.

Topic 11: Qualitative Methods and Sexuality Research. Examines major qualitative approaches to the study of sexuality from a sociological perspective; issues and concerns with regard to gender, race and ethnicity, class, same-gender sexualities, and activism associated with sexuality research in the social sciences; and published sexuality research based on qualitative methodologies. May be counted toward either the gender specialization or the statistics and methods requirement.

Topic 12: Women and the Changing World of Work. Explores the nature and causes of gender stratification in industrial societies. Examines theoretical and empirical issues regarding gender inequality in the labor market. Includes changes in female labor force participation, gender segregation in the workplace, gender gaps in earnings and promotions, and gender differences in career processes. Addresses how social institutions that vary from one country to another shape men’s and women’s economic opportunities and the degree of gender inequality in the society. May be counted toward the gender specialization and the work, occupations and organizations specialization in the sociology department. Only one of the following may be counted: Public Affairs 388K (Topic: Women and the Changing World of Work), Social Work 395K (Topic: Women and the Changing World of Work), Sociology 395G (Topic: Women and the Changing World of Work), 395G (Topic 12), Women’s and Gender Studies 393 (Topic: Women and the Changing World of Work).

SOC 395L. Seminars in Race and Ethnicity.

Three lecture hours a week for one semester. Not all topics are offered every year. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 1: Sociology of Health and Illness. May be counted toward the health specialization.

Topic 6: Sociology of Mental Health. Examines the social causes of mental health. Explores what mental health and mental illness are and how they can be measured, contrasting the social view with the medical, psychiatric, and psychological views. May be counted toward the health specialization.

Topic 7: Health and the Life Course. Health across the life course; the timing and sequencing of life-course experiences and events with respect to health. May be counted toward either the health specialization or the demography specialization.

Topic 8: Biosocial Approaches to Health. Examines the relationships between the natural and social environments and human health and behavior. Explains how disease, functional problems, and disability are not simply biomedical problems but are reflective of a complex array of behavioral factors and social forces. Focuses on the biologically informed sociological models of health in order to understand how genetics and major biological systems interact with social conditions and experiences to influence health and health-related behaviors. May be counted toward either the health specialization or the demography specialization.

Topic 10: Structural Equations Modeling of Health and the Life Course. May be counted toward the health specialization.

Topic 12: Education, Socioeconomic Status, and Health. Examines why people with higher socioeconomic status have better health than lower status individuals. Explores the links between aspects of social status and health and how education influences health in ways that are varied, present at all stages of adult life, cumulative, self-amplifying, and uniformly positive. May be counted toward the health specialization.

Topic 13: Gender, Health, and Society. Focuses on the gender dimensions of health, illness, and the medical care industry in the United States, with some international comparisons. Examines the role of women as major actors in changing the health-care system, reducing health risks for themselves and their families, and their roles as health-care providers, public administrators, and leaders in the health-care establishment. Also examines the role of different levels and branches of government and the relative power of key nongovernmental actors and the media in the formation of public policy and the definition and framing of our health agenda. May be counted toward either the health specialization or the gender specialization.

SOC 395L. Seminars in Race and Ethnicity.

Sociological theories and findings concerning various aspects of race and ethnicity. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 1: Comparative Perspectives in Race and Ethnicity. May be counted toward the race and ethnicity specialization.

Topic 8: Race, Media, and Culture. May be counted toward the race and ethnicity specialization.

Topic 9: Race and the Body. Explores theories and research methodologies in the sociological study of the body, with a focus on race, racism, gender, and sexualities. May be counted toward either the race and ethnicity specialization or the theory specialization.

Topic 10: Critical Theories of Race and Racism. Introduction to global perspectives on race, ethnicity, and racism. Examines the historical relationship between the emergence of ideas about race and Western modernity; importance of slavery and European colonialism in producing modern understandings of race and racial difference; contemporary racial formation in the period after the anticolonial struggles of the mid-twentieth century. May be counted toward the race and ethnicity specialization or the theory specialization. Sociology 394K (Topic: Critical Theories on Race and Racism) and 395L (Topic 10) may not both be counted.

SOC 396L. Seminars in Work, Occupations, and Organizations.

The equivalent of three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 10: Stratification and Social Mobility. May be counted toward the work, occupations, and organizations specialization.

Topic 15: Nongovernmental Organizations in the Developing World. Examines how nongovernmental organizations reflect local and international initiatives related to human rights, the environment, sustainable development, health, education, and much more. May be counted toward the work, occupations, and organizations specialization.

Topic 16: Sociology of Poverty in the United States. Review of selected sociological literature on poverty and related aspects of inequality, mostly in the United States but with some comparisons...
made with other developed nations. Both quantitative and qualitative research on American poverty are considered. May be counted toward the work, occupations, and organizations specialization.

**Topic 17: Entrepreneurship and Incubation.** May be counted toward the work, occupations, and organizations specialization.

**SOC 396N. Seminars in Crime, Law, and Deviance.**

Substantive issues and current topics in the study of crime, law, and deviance. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

**Topic 1: Criminology.** Examines major topics in the social scientific study of crime, including the measurement of crime, profiles of criminals, criminal behavior across the life course, and public perceptions of and reactions to crime. May be counted toward the crime, law and deviance specialization.

**Topic 2: Theories of Crime Causation.** Focuses on the major theories of criminal behavior and whether and in what ways empirical data support or refute various theoretical perspectives. May be counted toward the crime, law, and deviance specialization.

**Topic 3: Criminal Justice.** Designed to provide an overview of research on how the penal system works in practice by examining the empirical literature on sentencing, prisons, recidivism, and evaluation research of penal programs. May be counted toward the crime, law, and deviance specialization.

**Topic 4: Introduction to Law and Society.** Focuses on the noncrime aspects of the legal system, especially civil justice; the pursuit of perceived legal entitlements and grievances; studies of legal professionals and legal decision makers; and the use of the legal system to advance social change. May be counted toward the crime, law, and deviance specialization.

**Topic 5: Law, Legitimacy, and Control.** Explores the interconnections between law, morality, and the sense of injustice. Examines the attributes of a moral system as they influence the collective assessment of legitimacy, the emergence of social movements for reform, and the resulting efficacy of law as an instrument of control. May be counted toward either the crime, law, and deviance specialization or the political sociology specialization.

**Topic 6: Deviance.** Examines the characteristics, causes of, and societal reactions to several types of deviant behavior. May be counted toward the crime, law, and deviance specialization.

**SOC 396P. Seminars in Political Sociology, Development, and Globalization.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

**Topic 1: Political Sociology.** May be counted toward the political sociology specialization.

**Topic 2: Social Movements.** May be counted toward the political sociology specialization.

**Topic 3: Social Change.** May be counted toward the political sociology specialization.

**Topic 6: Elites.** Same as Government 390L (Topic 10: Elites). May be counted toward the political sociology specialization in the sociology degree program.

**Topic 7: Peace, Conflict, and Violence.** May be counted toward the political sociology specialization.

**Topic 8: Cultural Sociology.** May be counted toward the political sociology and religion specializations.

**Topic 9: Economic Development and Social Change.** May be counted toward the political sociology, development, and globalization specialization. Sociology 395D (Topic 1) and 396P (Topic 9) may not both be counted.

**Topic 10: Introduction to the Sociology of Latin America.** Same as Latin American Studies 381 (Topic 14). Only one of the following may be counted: Latin American Studies 381 (Topic 14), Sociology 395D (Topic 2), 396P (Topic 10). May be counted toward the political sociology/development and globalization specialization in the sociology degree program.

**Topic 11: Mexican Political System in Transition.** May be counted toward the political sociology, development and globalization specialization. Sociology 395D (Topic 3) and 396P (Topic 11) may not both be counted.

**Topic 12: Gender and Politics.** Provides a comprehensive introduction to the history of women's entry into politics internationally, the current state of women's political representation across countries and regions, and contemporary debates on why and how women's access to political power varies across countries. May include discussion of the ways in which gender intersects with other social identities, such as race, ethnicity, class, and sexual orientation. May be counted toward either the political sociology specialization or the gender specialization.

**Topic 13: Housing Practices and Public Policy in Latin America.** Same as Latin American Studies 381 (Topic 6). May be counted toward the political sociology, development and globalization specialization in the sociology degree program. Only one of the following may be counted: Sociology 395D (Topic 5), 396P (Topic 13), Latin American Studies 381 (Topic 6).

**Topic 14: Citizenship and Social Policy.** May be counted toward the political sociology, development and globalization specialization. Sociology 395D (Topic 7) and 396P (Topic 14) may not both be counted.

**Topic 15: Economic Sociology.** May be counted toward the political sociology, development and globalization specialization. Sociology 395D (Topic 8) and 396P (Topic 15) may not both be counted.

**Topic 16: Urbanization.** May be counted toward the political sociology, development and globalization specialization. Sociology 395D (Topic 9) and 396P (Topic 16) may not both be counted.

**Topic 17: Poverty and Marginality in the Americas.** Same as Latin American Studies 381 (Topic 23). Review of the past and present ethnographic analyses of the nature and experiences of poverty and marginality in Latin America and in the United States. Examines some of the most controversial issues and debates, and explores emerging research topics north and south of the border. May be counted toward the sociology department's political sociology, development and globalization specialization in the sociology degree program. Only one of the following may be counted: Latin American Studies 381 (Topic: Poverty and Marginality in the Americas), 381 (Topic 23), Sociology 395D (Topic: Poverty and Marginality in the Americas), 396P (Topic 17).

**Topic 19: Bourdieu and the Craft of Sociology.** Examines Bourdieu's key notions as they become articulated in the craft of research and writing in his work, and that of others, with an underlying objective of learning how to think and conduct sociological research with or against Bourdieu. May be counted toward the political sociology, development and globalization specialization. Sociology 396P (Topic: The Uses of Theory: Bourdieu and the Craft of Sociology) and 396P (Topic 19) may not both be counted.

**Topic 20: Prosocial Behavior.** Instruction steers away from traditional focus of sociology and considers pro-social behavior - actions intended to help or benefit others. Similar to the "positive psychology" movement, which asks what makes individuals resilient and happy rather than abnormal or depressed, examines what makes individuals, groups, and communities sacrifice, trust, volunteer, and generally work together. Three lecture hours a week for one semester. Sociology 396P (Topic: Prosocial Behavior) and 396P (Topic 20) may not both be counted.
SOC 396Q. Seminars in Law and Human Rights.
Theory and research on those instances in which legal regimes and/or legal institutions, such as prisons, raise human rights issues. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

SOC 397D. Publishing Papers in Sociology.
Three lecture hours a week for one semester. May be counted toward elective requirements. Prerequisite: Graduate standing.

SOC 397P. Proseminar.
A review of the requirements and responsibilities of professional sociologists. Three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in sociology.

SOC 698. Thesis.
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in sociology; twelve semester hours of graduate coursework in sociology, and consent of the graduate adviser; for 698B, Sociology 698A.

SOC 398T. Supervised Teaching in Sociology.
Teaching under the close supervision of the course instructor for two semesters; weekly group meetings with the instructor, individual consultations, and reports throughout the teaching period. Three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses

SPC - Spanish Civilization

Spanish Civilization: SPC

Lower-Division Courses
Topics in Spanish Civilization.
This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Spanish and Portuguese. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses
SPC 320C. Topics in Iberian or Latin American Studies.
Significant issues in Iberian or Latin American societies and cultures. Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

Topic 4: Spanish Storytelling. Same as Latin American Studies 328 (Topic 8). Explore the Spanish storytelling tradition, with a focus on famous Spanish language authors who have enjoyed a broad reception in the English-speaking world. Only one of the following may be counted: Latin American Studies 328 (Topic: Spanish Storytelling), 328 (Topic 8) Spanish Civilization 320C (Topic: Spanish Storytelling), 320C (Topic 4). Additional prerequisite: Upper-division standing.

Topic 5: The United States in Latin American Culture. Same as Latin American Studies 328 (Topic 10). Explore how Latin American and Latinx writers and artists have used the United States and globalization tropes, not just to come to terms with politics, popular culture, crime, technology, gender, and race, but also to talk about themselves. Only one of the following may be counted: Latin American Studies 328 (Topic: Gringomania: U.S. In Lat Am), 328 (Topic 10), Spanish Civilization 320C (Topic: Gringomania: U.S. In Lat Am), 320C (Topic 5). Additional prerequisite: Upper-division standing.

Topic 6: Jews of the United States, Canada, and Latin America. Same as American Studies 320C, Jewish Studies 363 (Topic 33), and Latin American Studies 328 (Topic 12). Explore the cultural history of Jews in the United States, Latin America, and Canada through a representative sample of short literary texts, film clips, and musical recordings. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 320C, Jewish Studies 363 (Topic 33), Latin American Studies 328 (Topic 12), Spanish Civilization 320C (Topic 6). Additional prerequisite: Upper-division standing.

Graduate Courses

Professional Courses

SPN - Spanish

Spanish: SPN

Lower-Division Courses
SPN 301. Spanish for Graduate Students in Other Departments.
For graduate students in other departments seeking to fulfill degree language requirements. No auditors. Purpose: To introduce fundamentals of grammar and lexicon to enable students to read texts in their areas of specialization. Primary aim: To allow students to acquire reading proficiency. Also presents audio-aural aspect. Three lecture hours a week for one semester. May not be used to fulfill the undergraduate foreign language requirement. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

SPN 601D. First-Year Spanish I.
Explore the development of speaking, listening, reading, and writing skills; build vocabulary, review basic rules and terminology of grammar; and examine Spanish-speaking cultures. Six lecture hours a week for one semester. Only one of the following may be counted: Spanish 601D, 604,
506. Only one of the following may be counted: Spanish 601D, 604, 507, 508K.

**SPN 604. Accelerated Introductory Spanish for Heritage Learners.**

Designed primarily for students who have a cultural and linguistic connection to Spanish (i.e. native and near-native speakers, Spanish as home language). Six lecture hours a week for one semester. Only one of the following may be counted: Spanish 601D, 604, 506. Only one of the following may be counted: Spanish 601D, 604, 507, 508K. Only one of the following may be counted: Spanish 604, 610D, 312K.

**SPN 610D. First-Year Spanish II.**

Continue to explore the development of speaking, listening, reading, and writing skills; build vocabulary, review basic rules and terminology of grammar, and examine Spanish-speaking cultures. Six lecture hours a week for one semester. Only one of the following may be counted: Spanish 604, 610D, 312K. Prerequisite: Spanish 601D (or 507 or 508K) with a grade of at least C.

**SPN 311. Intermediate Spanish.**

Focus on the development of speaking, listening, reading, and writing skills while building vocabulary. Review rules and terminology of Spanish grammar. Examine complex grammar structures and Spanish-speaking cultures. Three lecture hours a week for one semester. Only one of the following may be counted: Spanish 311, 611D, 311J, 612, or 312L. Prerequisite: Spanish 604 or 610D (or 312K) with a grade of at least C.

**SPN 611D. Second-Year Spanish.**

Focus on the development of multilingual literacy through the analysis and use of Spanish to achieve linguistic competence (aspect, mood, compound tenses, passive voice), communication and interactional competence (pragmatics, cultural perspectives), and metalinguistic competence (critical analysis of oral and written texts, dialectal differences). Six lecture hours a week for one semester. Only one of the following may be counted: Spanish 311, 611D, 311J, 612, or 312L. Only one of the following may be counted: Spanish 611D, 612, 314, 314J, or 318. Prerequisite: Spanish 604, 610D or 312K with a grade of at least C.

**SPN 311J. Intermediate Spanish for Heritage Learners.**

Designed primarily for students who have a cultural and linguistic connection to Spanish (i.e. native and near-native speakers, Spanish as home language). Three lecture hours a week for one semester. Only one of the following may be counted: Spanish 311, 611D, 311J, 612, or 312L. Only one of the following may be counted: Spanish 611D, 612, 314, 314J, or 318. Prerequisite: Spanish 604 or 610D (or 312K) with a grade of at least C.

**SPN 314. Spanish Conversation and Culture.**

Explore the development of oral skills and speaking strategies in different discourse genres including informal, formal, academic, and travel. Three lecture hours a week for one semester. Only one of the following may be counted: Spanish 611D, 612, 314, 314J, or 318. Prerequisite: Spanish 604, 610D or 312K with a grade of at least C.

**SPN 314J. Writing and Culture in Context for Heritage Learners.**

Designed for students with a cultural and linguistic connection to Spanish (i.e. native and near-native speakers, Spanish as a home language). Examine Hispanic cultures and sociopolitical experiences and explore communicative abilities through a variety of interactive, student-centered activities. Three lecture hours a week for one semester. Only one of the following may be counted: Spanish 611D, 612, 314, 314J, or 318. Prerequisite: Spanish 604 or 610D with a grade of at least C.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Spanish and Portuguese. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May not be counted toward a major in Spanish. May be repeated for credit when the topics vary.

**Upper-Division Courses**

**SPN 327C. Advanced Grammar and Writing in Context.**

Study and practice of Spanish grammar that includes reading exercises and guided composition designed to develop writing skills across styles. Students will be exposed to various topics in Spanish language, literature, and culture. Three lecture hours a week for one semester. Spanish 327C and 327N may not both be counted. Prerequisite: Spanish 311 and 314, 611D, or 311J and 314J (or 612 or 312L).

**SPN 327N. Academic Writing for Heritage Speakers.**

Designed specifically for heritage speakers of Spanish and includes a wide range of cultural readings and writing tasks. Aims to strengthen the clarity and organization of writing, promote critical thinking, and master grammar points of particular concern to heritage speakers. Three lecture hours a week for one semester. Spanish 327C and 327N may not both be counted. Prerequisite: Spanish 311 and 314, 611D, or 311J and 314J (or 612 or 312L).

**SPN 327V. Advanced Writing and Service Learning.**

Explore the ethical perspectives on issues in education, immigration, and community service. Three lecture hours a week for one semester. Spanish 327V and 327W may not both be counted. Prerequisite: Spanish 311 and 314, 611D, or 311J and 314J (or 612 or 312L).

**SPN 328. Spanish Civilization.**

A survey of the social, political, and cultural history of Spain. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic 27), Spanish 328, 328C. Prerequisite: Spanish 311 and 314, 611D, or 311J and 314J (or 612 or 312L).

**SPN 328C. Introduction to Literatures and Cultures.**

Same as Latin American Studies 370S (Topic 27). Overview of Iberian and/or Latin American literatures and cultures, including the arts and popular expressions, from a multidisciplinary perspective. Among the regions studied are Spain; North, Central, and South America; the Caribbean; and related areas in Africa. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic 27), Spanish 328, 328C. Only one of the following may be counted: Latin American Studies 370S (Topic 3), 370S (Topic 27), Spanish 322K, 328C. Prerequisite: Spanish 311 and 314, 611D, or 311J and 314J (or 612 or 312L).

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Spanish and Portuguese. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May not be counted toward a major in Spanish. May be repeated for credit when the topics vary.
SPN 130D. Spanish across Disciplines.
Students read and discuss Spanish language materials related to the subject matter of another designated course. One lecture hour a week for one semester. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. Prerequisite: One upper-division Spanish course or consent of instructor.

SPN 330L. Introduction to Language and Linguistics in Society.
Examines the dynamics of language structure and use throughout the Spanish-speaking world, and covers topics such as sound systems, grammatical structures, historical developments, language learning and loss, and dialect differences and their social significance. Three lecture hours a week for one semester. Spanish 330L and 345L may not both be counted. Prerequisite: Spanish 311 and 314, 611D, or 311J and 314J (or 612 or 312L).

SPN 346C. Spanish Pronunciation.
Review Spanish pronunciation. Examine the fundamental principles of phonetic analysis in order to show how Spanish sounds are produced, how they fall into patterns, and how they change in different environments. Three lecture hours a week for one semester. Spanish 346 and 346C may not both be counted. Prerequisite: Of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 348V. Research through Community Engagement.
Reflect on issues of education, community, and the process of learning utilizing a mixture of volunteer and research work. Three lecture hours a week for one semester. Only one of the following may be counted: Spanish 348D, 348V, 377C (Topic: Rsrch Community Engagement). Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 350C. Gender Issues in Contemporary Latin American Cinema.
Same as Latin American Studies 370S (Topic 24) and Women's and Gender Studies 335 (Topic 6). Studies Latin American cinema as a device of gender system formation and reinforcement, and as criticism of patriarchal hegemony; discusses questions related to sexuality depicted in Latin American films. Subjects covered include: maternity, prostitution, machismo, children's sexuality, homosexuality, heterosexuality, and gender violence in films from the 1930s to present. Conducted in Spanish. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic 24), Spanish 350C, 350K (Topic 1), Women's and Gender Studies 335 (Topic 6). Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 350D. Latin American Film and Culture.
Same as Latin American Studies 370S (Topic 46). Review Latin American cinema from the silent era to present, with an emphasis on the last forty years. Discuss the development of the film industry (particularly in Argentina and Mexico in the 1930s and 1940s), the "New Wave" of Latin American cinema in the 1960s, and contemporary trends. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic 25), 370S (Topic 46), Spanish 350D, 350K (Topic 3). Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 350E. Mediascapes: Literature and Media in the Caribbean.
Analyze the relationship between literature and media technologies in contemporary Caribbean cultures. Examine the notion and uses of Caribbean mediascapes. Discuss the uses of media technologies derived from film, television, the internet and YouTube, and the ways they are used and read in the Spanish Caribbean. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 345Q, 370 (Topic: Lit and Media in Caribbean), Latin American Studies 328 (Topic 5), 370S (Topic 28), Spanish 350E, Spanish 350K (Topic 5), Spanish Civilization 320C (Topic 2). Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

Examine the contributions of Latin America to film noir, in the context of criminality and urbanization in contemporary society. Three lecture hours a week for one semester. Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 350G. Cuban Revolution.
Explore diverse accounts and interpretations of the Cuban Revolution in fictional and documentary film and narrative produced in the island and abroad by pro-and counter-revolutionary, island and diaspora, Cuban and non-Cuban, local and international directors and writers. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic: Cuban Revolution), Spanish 350G, 350K (Topic: Cuban Revolution). Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 351. Don Quijote and the Early Modern World.
Study of Cervantes’s Don Quijote in depth in the original Spanish. Examines the author’s views on artistic freedom, as well as his manipulation of literary genres and conventions, with his questions regarding the dominant political, religious, and literary discourses of early modern Spain. Three lecture hours a week for one semester. Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 352C. Contemporary Caribbean Literature.
Explore themes and major authors from the Spanish Caribbean, since 1980 to contemporary United States Caribbean authors (Cuba, Puerto Rico, Dominican Republic). Discuss themes such as national identities, history, intersectionality of race, gender and sexuality, exile and displacement, urban and city enclaves, and the richness and complexity of Caribbean cultures in the United States. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic 44), Spanish 352 (Topic 4), 352C. Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 353. Sociolinguistics.
Explores the interrelationship of language and society, with reference to the Spanish-speaking world. Studies how socioeconomic, political, and anthropological factors like race, social class, gender, age, and identity influence linguistics forms. Three lecture hours a week for one semester. Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 355C. Fantastic Fiction from Latin America.
Analyze short stories by Latin American writers that in some way represent an alternative to realism. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic 30), Spanish 355 (Topic 1), 355C. Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 355D. Jewish Voices from Latin America.
Same as Jewish Studies 363E and Latin American Studies 370S (Topic 32). Overview of popular Jewish writers from Brazil and Spanish America, with special emphasis on those who portray in their work the situation of the Jewish communities of their respective cities and countries. Conducted in Spanish. Three lecture hours a week for one semester. Only one of the following may be counted: Jewish Studies 363 (Topic 15), 363E, Latin American Studies 328 (Topic 4), 370S (Topic 32), Spanish 355.
SPN 355D. Spanish Civilization 320C (Topic 1). Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 355E. Revolutionary Imagination in Latin American Cultures.

Explore literary expressions in Latin America that reflect a dissident or transgressive imaginary published during the revolutionary period (1960-1990). Examine how different socio-historical experiences require new narrative forms, and innovative ways of exploring and codifying collective community identities. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic 34), Spanish 355 (Topic 5), 355E. Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 355F. Violence in Contemporary Mexican Culture.

Same as Latin American Studies 370S (Topic 23) and Women's and Gender Studies 340 (Topic 20). Studies the representation of violence in contemporary literary and cultural production in Mexico in order to understand social, political, and cultural implications of current violence there. Taught in Spanish. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic 23), Spanish 355 (Topic 6), Spanish 355F, and Women's and Gender Studies 340 (Topic 20). Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 355G. Memory and Writing in Caribbean Culture.

Examine literary works from the greater Caribbean basin (with a focus on Cuba and Puerto Rico) in which the act of remembering is emphatically dramatized and described. Three lecture hours per week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic 37), Spanish 355 (Topic 8), 355G. Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 355J. Cultures in Contact in Colonial Spanish America.

Explore how Indigenous and European cultures represent their often-unequal encounters in colonial Spanish America. Analyze alphabetic and visual texts to examine the complex issues of mapping and representations of self and others; intercultural interpretations and exchanges; rituals and performances of domination, subordination, and negotiation; and the construction of social identities in an evolving geographic and cultural space. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic: Cult Contact Colonial Spn Amer), Spanish 355 (Topic: Cult Contact Colonial Spn Amer), 355J. Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 355K. Body Politics in Latin American Poetry.

Explore poetic discourse as it relates the experience of the body to social, political and cultural contexts. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic: Body Politics Lat Am Poetry), Spanish 355 (Topic: Body Politics Lat Am Poetry), 355K. Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 355L. From El Che to Evita.

Explore approaches and views from disciplines such as literature, music, film, history, and politics, and fields such as cultural studies, media studies, performance, gender and queer politics, critical race theory, and indigenous studies. Analyze different technologies of representation, from writing and visual materials to voices and sounds. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic: From El Che to Evita), Spanish 355 (Topic: From El Che to Evita), 355L. Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 355M. Garcia Marquez.

Examine the literary movement of magical realism from the 1940s through the 1960s when “Cien anos de soledad” by Garcia Marquez became a seemingly overnight sensation, through later writers such as Isabel Allende and Laura Esquivel. Explore the development of this Spanish American tradition. Three lecture hours a week for one semester. Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 355N. Hip Hop Culture in Latin America.

Examine the development of the culture of hip hop in Latin America. Utilize a variety of materials including rap lyrics, graffiti, urban muralism, break dance, sound design, and entrepreneurship to discuss media and migratory factors of hip hop expansion in the region; the notions of youth culture conveyed by these expressions; aesthetic debates around hip hop; the public intervention of hip hop groups and their political influence. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic: Hip Hop Culture in Lat Amer), Spanish 355 (Topic: Hip Hop Culture in Lat Amer), 355N. Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 355Q. Gender and Modernity in Mexican Literature and Culture.

Explore the representation of body in Mexico in the period comprehended between Porfirio Diaz's regime and the post-revolutionary era (1880s to 1930s). Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic: Gender/Mod in Mex Lit and Cul), Spanish 355 (Topic: Gender/Mod in Mex Lit and Cul), 355Q. Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 355R. East, West, and New World Encounters.

Examine works mostly in the Latin American and Hispanic literary tradition in which images or themes related to the East (Asia, Eastern Africa, the Middle East) are developed. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic 36), Spanish 355 (Topic 7), 355R. Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 356C. Indigenous Voices in Latin American Literature.

Examine how indigenous intellectuals and writers have creatively established their own voices in writing and other modern and contemporary media in Latin America over time. Discuss works by Guaman Poma, Tito Cusi Ypanqui, Nezahualcoyotl, Jose Maria Arguedas, Rigoberta Menchu, Pascual Cona, as well as contemporary Nahualt, Mayan, Quechua, and Mapuche poetry and narrative, films and samples of radio programs. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic 17), Spanish 350 (Topic 4), 356 (Topic 1), 356C. Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 356D. Indigenous Resurgence.

Analyze and discuss the ways in which re-telling, documentation and invocation of the past shapes different forms of self-representation by indigenous authors as a response to colonialism in late twentieth and early twenty-first century Latin American societies. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic: Indigenous Resurgence), Spanish 356 (Topic: Indigenous Resurgence), 356D. Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 357D. Cultures in Contact in Medieval Spain.

Explore works of literature that reflect the three cultures which coexisted for almost eight centuries in medieval Spain: the Islamic, the Jewish, and
the Christian. Three lecture hours a week for one semester. Only one of the following may be counted: Spanish 350 (Topic 8), 357 (Topic 2), 357D. Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 357E. Spanish Translation and the Social Sciences.
Explore the development of translation and interpretation skills, in speaking, reading, and writing, in the disciplines of the social sciences. Three lecture hours a week for one semester. Spanish 357 (Topic: Span Translation/Social Sci) and 357E may not both be counted. Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 357F. Writing the Other in Spain and Latin American Texts.
Explore the subjective encounter with “the other” as expressed in literary and cultural texts of early modern Spain and Latin American texts directed toward or received by a transatlantic audience during the Colonial period. Three lecture hours a week for one semester. Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 357G. Spain on the Red Carpet.
Explore the intersections of cinema, celebrity glamour, and global politics by focusing on the case study of Spain and the projection of its film industry abroad. Three lecture hours a week for one semester. Spanish 350K (Topic: Spain on the Red Carpet) and 357G may not both be counted. Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 358C. Brevity in Spanish-Language Literature and Film.
Same as Latin American Studies 370S (Topic 45). Explore the work of Spanish and Spanish American filmmakers, prose writers, and poets who have accepted the challenge of expressing themselves in a brief span of time. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic: Short Films/Stories/Poems), 370S (Topic 45), Spanish 355 (Topic: Short Films/Stories/Poems), 358C, 377C (Topic: Short Films/Stories/Poems). Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 358D. Spanish Creative Writing Fiction.
Explore the creative process in different genres to improve creative writing skills. Three lecture hours a week for one semester. Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 358E. Spanish Creative Writing Nonfiction.
Explore the methods for writing about issues studied as non-fiction works. Three lecture hours a week for one semester. Spanish 358E and 377C (Topic: Creative Nonfiction Writing) may not both be counted. Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

Same as Latin American Studies 370S (Topic 43). Examines the United States Latino literary and cultural production from multidisciplinary perspectives, such as literature, film, music, and performance. Analysis of the literatures and experiences of United States Latino writers and artists in their historical and cultural specificities. Three lecture hours a week for one semester. Latin American Studies 370S (Topic 43) and Spanish 359 may not both be counted. Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 364L. Linguistics and the Spanish Learner.
Focuses on instructed and naturalistic second language (L2) development among adults. Subjects include: L2 acquisition theories, Spanish learners’ difficulties, learners’ and teachers’ beliefs about L2, learners’ motivations and needs, and heritage language learners. Three lecture hours a week for one semester. Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 365G. Conference Course in Hispanic Linguistics.
Conference course. Prerequisite: Upper-division standing and written consent of the department chair.

SPN 365L. Conference Course in Hispanic Literature.
Conference course. Prerequisite: Upper-division standing and written consent of the department chair.

SPN 367C. Spanish for Health Care Professions.
Explore both spoken and written language in health care situations. Focus on complex grammatical concepts and cultural issues that affect professional activities in Spanish-speaking communities. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 322 (Topic 17), Spanish 367C, 367K (Topic 7), 367P (Topic 1). Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 367D. Business in Hispanic Life and Culture.
Explore business Spanish. Practice verbal communication in the context of meetings, exchanges, video conferences, presentations, and professional discussion, in Spanish and in areas related to finance, marketing, accounting, operations. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 322 (Topic 18), 370S (Topic 19), Spanish 350 (Topic 10), 367D, 367P (Topic 2). Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 367T. Advanced Oral and Written Expression for Teachers.
Designed to help teacher candidates prepare to pass the state oral and written proficiency exams at the advanced level to obtain certification. Focus on oral proficiency for various genres of speaking with an emphasis on writing and reading of different genres. Three lecture hours a week for one semester. Prerequisite: Spanish 327C (or 327G), 327N, 327V (or 327W), 328C, or 330L.

SPN 368D. Contact Spanish in the United States.
Examine the linguistic situation of persons of Spanish language heritage in the United States. Focus on the social and cultural factors that are implicated in their language behaviors. Three lecture hours a week for one semester. Spanish 368C (Topic: Contact Spanish in the U.S.) and 368D may not both be counted. Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 368E. Bilingualism.
Examine bilingualism in the Spanish-speaking world from the perspective of individuals in societies. Three lecture hours a week for one semester. Spanish 368C (Topic: Bilingualism) and 368E may not both be counted. Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 368F. Spanish in Mental Health Contexts.
Develop the Spanish language skills needed to perform multiple interventions in the mental health field when providing care to Hispanic/Latino limited English proficiency patients. Three lecture hours a week for one semester. Spanish 368F and 377C (Topic: Spn in Mental Health
SPN 369C. African Diasporas.
Analyze the sociocultural contexts of the African diaspora in the Americas with particular focus on the Caribbean and Brazil. Explore the contributions of the African diasporic populations and the stylistic strategies through which they constructed their social, political, and cultural agency. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic 42), Spanish 358 (Topic 1), 369C. Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 377C. Topics in Spanish.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

SPN 377H. Honors Tutorial Course.
Supervised individual research on a literary, linguistic, or cultural problem, culminating in a written thesis. The equivalent of three lecture hours a week for one semester. Prerequisite: Upper-division standing, admission to the Honors Program, and consent of the Honors advisor.

SPN 379C. Capstone Seminar in Literatures and Cultures.
Brings together central issues, concepts, and themes that define Iberian or Latin American literatures and cultures, while focusing on a specific case-study or case-studies. Three lecture hours a week for one semester. Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W); and 328C; and twelve hours of upper-division coursework in Spanish.

SPN 679H. Honors Tutorial Course.
Supervised individual research on a literary, linguistic, or cultural problem, culminating in a written thesis of fifty to eighty typewritten pages. Conference course for two semesters. Prerequisite: For 679HA, upper-division standing, admission to the Spanish Honors Program, and consent of the honors advisor; for 679HB, Spanish 679HA.

SPN 379L. Capstone Seminar in Linguistics.
Brings together central issues, concepts, and themes that define linguistics, while focusing on a specific case-study or case-studies, that allow for the necessary depth and rigor to produce a research paper on a particular topic of interest. Three lecture hours a week for one semester. Prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W); and 328C; and twelve hours of upper-division coursework in Spanish.

Graduate Courses

Topics include Modernismo; the short story; contemporary trends of the Spanish American novel; the literary prose of Sarmiento; gaucho literature; Ruben Dario; contemporary Argentine fiction. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, twelve semester hours of upper-division coursework in Spanish, and consent of the graduate adviser.

Topic 1: Comparative Studies in the Literatures of Brazil and Spanish America. Same as Portuguese 381 (Topic 1).

For students needing specialized courses not normally or not often included in the regular course offerings. Conference course. May be repeated for credit. Prerequisite: Graduate standing and written consent of the graduate adviser.

SPN 396K. Comparative Romance Linguistics.
General survey of the development of spoken Latin in Italy, Spain, Portugal, and France; main traits of phonology, morphology, and syntax of each modern derivative language. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in languages and consent of instructor and the graduate adviser.

 Topic 1: Comparative Romance Linguistics. Same as Portuguese 396K (Topic 1: Comparative Romance Linguistics).

SPN 398R. Master’s Report.
Preparation of a report to fulfill the requirement for the master’s degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in Spanish and consent of the graduate adviser.

Professional Courses

STA - Statistics

Statistics: STA

Lower-Division Courses

STA 301. Introduction to Data Science.
Restricted to students in the McCombs School of Business. An introduction to the principles and practice of data science for business applications. Explore tidying, summarizing, and visualizing data; statistical computing in R; linear regression; introduction to predictive modeling and out-of-sample model validation; uncertainty quantification using resampling methods; basic probability models, including the normal and binomial distributions; and statistical hypothesis testing. The equivalent of three lecture hours a week for one semester. Offered on the letter-grade basis only.

STA 301H. Introduction to Data Science: Honors.
Restricted to students in the McCombs School of Business Honors Program. An introduction to the principles and practice of data science for business applications. Explore tidying, summarizing, and visualizing data; statistical computing in R; linear regression; introduction to predictive modeling and out-of-sample model validation; uncertainty quantification using resampling methods; basic probability models, including the normal and binomial distributions; and statistical hypothesis testing. The equivalent of three lecture hours a week for one semester. Offered on the letter-grade basis only.

Restricted to students in the McCombs School of Business. Training in the use of data to gain insight into business problems; describing distributions (center, spread, change, and relationships), producing data (experiments and sampling), probability and inference (means, proportions, differences, regression and correlation). Three lecture hours a week for one semester. Only one of the following may be counted: Educational Psychology 308, Statistics 309, 309H or Statistics and Data Sciences 301. Offered on the letter-grade basis only. Prerequisite: Mathematics 408Q or credit or registration for Mathematics 408D, 408L, or 408S.
Restricted to students admitted to the McCombs School of Business Honors Program. Training in the use of data to gain insight into business problems; describing distributions (center, spread, change, and relationships), producing data (experiments and sampling), probability and inference (means, proportions, differences, regression and correlation). Three lecture hours a week for one semester. Only one of the following may be counted: Educational Psychology 308, Statistics 309, 309H or Statistics and Data Sciences 301. Offered on the letter-grade basis only. Prerequisite: Twenty-four semester hours of college credit, including Mathematics 408Q, 408D, 408L, or 408S.

Upper-Division Courses

STA 235. Data Science for Business Applications.
Restricted to students in the McCombs School of Business. Examine data science for business applications at the intermediate level. Explore building and validating predictive models; advanced regression modeling, including an in-depth treatment of regression; models for binary outcomes; and causal inference. The equivalent of two lecture hours a week for one semester. Statistics 235 and 235H may not both be counted. Offered on the letter-grade basis only. Prerequisite: Statistics 301 or 301H, Mathematics 408Q or credit or registration for Mathematics 408D, 408L, or 408S.

STA 235H. Data Science for Business Applications: Honors.
Restricted to students in the McCombs School of Business Honors Program. Examine data science for business applications at the intermediate level. Explore building and validating predictive models; advanced regression modeling, including an in-depth treatment of regression; models for binary outcomes; and causal inference. The equivalent of two lecture hours a week for one semester. Statistics 235 and 235H may not both be counted. Offered on the letter-grade basis only. Prerequisite: Statistics 301 or 301H, Mathematics 408Q or credit or registration for Mathematics 408D, 408L, or 408S.

Restricted to students in the McCombs School of Business. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing, and Statistics 301, 301H, 309 or 309H with a grade of at least C; additional prerequisites vary with the topic.

- Topic 1: Statistical Computer Packages.
- Topic 2: Sampling.
- Topic 5: Optimization Methods in Finance. Explores quantitative methods and techniques in optimization and simulation, and their use in financial decision making. Discusses theory and application in portfolio selection, options and other derivative pricing, index tracking, risk measures, volatility estimating. Specific subjects will include linear, quadratic, nonlinear, and integer programming, dynamic programming; robust optimization; Monte Carlo methods and variance reduction techniques. Emphasis will be placed on problem solving with advanced computational programming languages. Only one of the following may be counted: Finance 372 (Topic: Optimization Method in Finance), 372 (Topic 6), Statistics 372 (Topic 6), Business Analytics 372 (Topic 6), Decision Science 372 (Topic 6).
- Topic 6: Computational Finance. A systematic introduction to the analysis and implementation of numerical methods used in finance. Covers numerical techniques used in derivative pricing and optimal asset allocation, such as Monte Carlo and quasi-Monte Carlo simulation, methods for solving partial differential equations, and dynamic programming. Statistics 372 (Topic 7) and Decision Science 372 (Topic 7) may not both be counted.
- Topic 7: Time Series Forecasting Models. An applied skills approach to statistical forecasting methods used in business. Topics may include seasonal adjustment of time series; exponential smoothing models; ARCH/GARCH models for varying volatility in financial returns; diffusion models for new product forecasting; Box-Jenkins models; and modeling multiple time series. Each topic is illustrated with real data. Only one of the following may be counted: Statistics 372 (Topic 5), 372 (Topic 8), 372 (Topic 9), Business Analytics 372 (Topic 20), 372 (Topic 21). Additional prerequisite: Statistics 235, 235H, 371G, 371H, 375, or 375H.
- Topic 8: Time Series Forecasting. Examine statistical forecasting methods used in business. Discuss Box-Jenkins models; exponential smoothing models; ARCH/GARCH models for varying volatility in financial returns; seasonal adjustment of time series; tests for nonstationarity of time series; and modeling multiple time series. Only one of the following may be counted: Statistics 372 (Topic 5), 372 (Topic 8), 372 (Topic 9), Business Analytics 372 (Topic 20), 372 (Topic 21). Additional prerequisite: Statistics 235, 235H, 371G, 371H or Statistics and Data Sciences 358 or Economics 341K; or other course with basic knowledge about regression.

Restricted to students in the McCombs School of Business. Methods used to model and analyze data, especially as applied to problems related to finance. Explores regression models, time-series models, decision analysis and simulation-based methods. Three lecture hours a week for one semester. Only one of the following may be counted: Statistics 371G, 371H, 375, 375H. Offered on the letter-grade basis only. Prerequisite: Management Information Systems 301, 301H, or 310; Mathematics 408D, 408L, 408M or 408S; Statistics 309 or 309H; and credit or registration for Business Administration 324H.
or 408S; Statistics 309 or 309H; and credit or registration for Business Administration 324 or 324H.

STA 375H. Statistics and Modeling for Finance: Honors.
Restricted to students admitted to the McCombs School of Business Honors Program. Methods used to model and analyze data, especially as applied to problems related to finance. Explores regression models, time-series models, decision analysis and simulation-based methods. Three lecture hours a week for one semester. One of the following may be counted: Statistics 371G, 371H, 375, 375H. Offered on the letter-grade basis only. Prerequisite: Management Information Systems 301, 301H, or 310; Mathematics 408D, 408L, 408M or 408S; Statistics 309 or 309H; and credit or registration for Business Administration 324H.

Restricted to students in a business major. Analysis of forecasting techniques and theory; macroeconomic models; long-range and short-term forecasting; forecasting for the firm, using case material. Three lecture hours a week for one semester. Prerequisite: Statistics 301, 301H, 309 or 309H.

Graduate Courses

Selected topics in the applications of statistical methods to business problems. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

- **Topic 1: Correlation and Regression Analysis.**
- **Topic 2: Design of Experiments.**
- **Topic 3: Statistical Computing with SAS.**
- **Topic 4: Nonparametric Methods.**
- **Topic 5: Statistical Consulting.** Additional prerequisite: Coursework in mathematical statistics and regression.
- **Topic 6: Survey Research Methods.**
- **Topic 7: Forecasting.** Development of forecasting techniques for use in business applications. Additional prerequisite: Business Administration 386T or the equivalent.
- **Topic 8: Cybernetics and the Law: Societal, Economic, and Other Problems.**
- **Topic 10: Mathematical Statistics for Applications.** Applications-oriented treatment of mathematical statistics for graduate students who plan to use statistical methods in their research but do not need a highly mathematical development of the subject. Major focus on regression models and related methods. Extensive use of statistical software for data analysis and modeling. Emphasis on understanding how the mathematics of probability and statistics both enables and limits the data analysis that can be done. Additional prerequisite: Differential and integral calculus; familiarity with basic statistics through linear regression.
- **Topic 11: Analysis of Variance.** Additional prerequisite: Business Administration 386T or the equivalent.
- **Topic 12: Applied Multivariate Methods.** Additional prerequisite: Business Administration 386T or the equivalent, and familiarity with statistical software.
- **Topic 13: Statistical Decision Theory.** Development of the mathematical basis of statistical decision theory from both the Bayesian and the frequentist point of view. Additional prerequisite: A calculus-level course in statistics.
- **Topic 14: Risk Analysis and Management.** The quantification and analysis of risk, considered from several perspectives: financial risk measures, strategic risk measures, stochastic dominance rules, chance constrained programming, and safety-first approaches.
- **Topic 15: Research on Probabilistic Judgment.** Research training and experience for graduate students and advanced Canfield Business Honors Program undergraduate students who are interested in probabilistic judgment. Additional prerequisite: Statistics 309H or the equivalent and consent of instructor.
- **Topic 16: Probability and Science in the Courtroom.** The role of probability and scientific reasoning in legal judgments: differences between probability evidence and other types of evidence; legal and psychological implications of these differences; the role of statistics, formal analyses, and expert opinions in legal decisions; their impact on judges and jurors. Management Science 380 (Topic 20) and Statistics 380 (Topic 16) may not both be counted.
- **Topic 17: Predictive Modeling.** Introduction to statistical methods for prediction including regression analysis, logistic and multinomial regression, classification and regression trees, bias-variance trade-off, cross validation, variable selection, principal component regression and partial least squares regression. Additional prerequisite: Consent of instructor.
- **Topic 18: Learning Structures and Time Series.** Introduction to exploring data analysis, clustering, dimension reduction, networks, text timing, and time series. Additional prerequisite: Consent of instructor.

STA 280N. Topics in Statistics.
Two lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

- **Topic 1: Advanced Statistics and Econometrics with R.** Statistics 280N (Topic 1) and 284N (Topic: Advanced Statistics And Econ) may not both be counted. Offered on the letter-grade basis only.

STA 381. Sampling.
Theory of sampling; sample design, including stratified, systematic, and multistage sampling; nonsampling errors. Three lecture hours a week for one semester. Prerequisite: Graduate standing and Business Administration 386T.

STA 184N, 284N, 384N. Topics in Business Analytics.
Restricted to students admitted to Master's of Science in Information, Risk, and Operations Management program. Selected topics in business analytics. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

STA 287, 387. Business Analytics and Decision Modeling.
Introduction to some of the basic concepts in quantitative business analysis that are used to support organizational decision making over various time frames. Explores methods that apply to all areas of an organization, with emphasis on financial decision making. For 287, four lecture hours a week for a half a semester; for 387, three lecture hours a week for one semester. Prerequisite: Graduate standing and admission to the McCombs School of Business.

STA 287C. Business Analytics and Decision Modelling for Executives.
Restricted to students in the Executive MBA Program. Examine risky decision-making with an emphasis on case studies that show how Excel models can be used to improve decision-making. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

Professional Courses
STC - Science and Technology Commercialization

Science and Technology Commercialization: STC

Lower-Division Courses
Upper-Division Courses
Graduate Courses

STC 380C. Assessing Technologies and Innovations.
Restrict to students in the technology commercialization program. Explore the first step in the commercialization process: generating or identifying ideas and technologies that have market potential. Apply multiple methodologies to assess the market potential of new ideas and technologies. The equivalent of three lecture hours a week for one semester. Science and Technology Commercialization 380 and 380C may not both be counted. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

STC 081C. Strategic Career Planning.
Restrict to students in the Master of Science in Technology Commercialization program. Hours to be arranged May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

STC 382. Marketing Technological Innovations.
Restrict to students in the technology commercialization program. Examine how taking a technology from idea to market requires persuasion and marketing skills. Develop a persuasive proposal and marketing plan for taking a product to market. Meets all day on alternate Fridays and Saturdays. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

STC 183C. Art and Science of Negotiation.
Restrict to students in the technology commercialization program. Explore negotiation through the application of analytical frameworks in practical negotiation exercises. Meets all day on alternate Fridays and Saturdays. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

STC 384C. New Venture Strategies.
Restrict to students in the technology commercialization program. Develop strategies for commercializing technologies as new ventures or within existing firms. The equivalent of three lecture hours a week for one semester. Science and Technology Commercialization 384 and 384C may not both be counted. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

STC 385. Creative and Innovative Management.
Restrict to students in the technology commercialization program. Apply critical reasoning techniques to analyze, diagnose, and respond to organizational design and leadership issues in a new venture. Meets all day on alternate Fridays and Saturdays. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

STC 386. Topics in Technology Commercialization.
The process of technology commercialization, managing technology, and other topics that include the commercialization of technology. Meets all day on alternate Fridays and Saturdays. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Graduate standing and admission to the technology commercialization program.

Topic 1: Financing New Ventures. Methods for determining capital requirements and ways of crafting financial and fund-raising strategies. Forms of financing, including angels and informal investors, venture capital, debt capital, and inside and outside equity. Offered on the letter-grade basis only.

Topic 2: Managing Technology and Business Risks. Restricted to students in the technology commercialization program. Explore decision and risk analysis, including methods for structuring and modeling decision problems. Apply methods to problems that involve risk and uncertainty in the commercialization of new technologies. Offered on the letter-grade basis only.

STC 287. New Venture Accounting.
Restrict to students in the technology commercialization program. Prepare financial projections and develop a financial plan for funding a new venture. Meets all day on alternate Fridays and Saturdays. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

Prepare financial projections and develop a financial plan for funding a new venture. Meets all day on alternate Fridays and Saturdays. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

STC 289. Problems in Specialized Fields.
Independent study. Offered on the letter-grade basis only. Prerequisite: Graduate standing and admission to the technology commercialization program.

STC 291C. Technology Commercialization in the Global Economy.
Restrict to students in the technology commercialization program. Examine technology commercialization in the global context, assessing global markets and positioning for competitive advantage within them. Develop a plan for commercializing a technology within a foreign country. The equivalent of two lecture hours a week for one semester. Science and Technology Commercialization 291 and 291C may not both be counted. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

STC 294C, 394C. Managing Product Development and Production.
Restrict to students in the technology commercialization program. Develop a plan for taking an innovation from idea to a product ready for market. Meets all day on alternate Fridays and Saturdays. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

STC 395. New Venture Creation.
Restrict to students in the technology commercialization program. Explore how to raise capital, either from outside investors or internal corporate sources, by validating the market potential of the new technology, developing a business model, determining financial requirements, and communicating the opportunity convincingly. Develop a business plan to address these key elements. Meets all day on alternate Fridays and Saturdays. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

Restrict to students in the technology commercialization program. Develop a business implementation plan for a technology enterprise or project by establishing operational roles and processes. Meets all day on alternate Fridays and Saturdays. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

Professional Courses
# STM - Science, Technology, Engineering, and Mathematics Education

## Science, Technology, Engineering, and Mathematics Education: STM

### Lower-Division Courses

### Upper-Division Courses

### Graduate Courses

**STM 180, 280, 380. Topics in Teaching Science, Technology, Engineering, and Mathematics.**
Classroom applications of research in science, technology, engineering, and mathematics education, and related policy issues. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

#### Topic 1: Quantitative Research Methods for STEM Educators.
Restricted to students enrolled in STEM Education Master's program. Survey of quantitative research methods in STEM education with applications to critical issues in teaching and learning. Methods reviewed include t-test, ANOVA, Chi-squared, and correlation and regression. Offered on the letter-grade basis only.

#### Topic 2: Qualitative Research Methods for STEM Educators.
Restricted to students enrolled in STEM Education Master's program. Survey of qualitative research methods in STEM education with applications to critical issues in teaching and learning. Methods reviewed include grounded analysis, case studies, ethnographies, clinical interviews and surveys. Students read and critique examples from the published literature, and design (but do not necessarily implement) a study of their own. Offered on the letter-grade basis only.

**STM 385. Knowing and Learning in STEM Education.**
Different approaches to theorizing and studying science, technology, engineering, and mathematics (STEM) learning and epistemology and synthesis of the scientific basis of learning. A major research project will focus on studying students' thinking in a particular STEM related domain. Prerequisite: Graduate standing.

**STM 385G. Seminar: Program Development and Research.**
Advanced investigations of selected topics and problems in curriculum theory, program design, and research design at one of the following levels: elementary school, secondary school, higher education, all-level. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

**STM 386. Curriculum History and Development in STEM Education.**
Historical development of school mathematics and science curricula in the United States in the last 150 years, and examination of current curricular trends. A summative project consisting of a research paper and a presentation will allow students to delve deeper into a topic of individual interest. Prerequisite: Graduate standing.

**STM 390. Critical Issues in STEM Education.**
In-depth study of issues that are central to understanding and improving STEM education at one of the following levels: elementary school, secondary school, higher education, or all-level. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

**STM 390T. Advanced Topics in STEM Education.**
Advanced investigations of selected topics and critical issues in STEM education aligned with STEM education faculty research interests. Students will typically produce a product (paper, presentation, proposal) that can be submitted to professional or funding agencies. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

**STM 695. Classroom Interactions and Project Based Instruction.**
Restricted to students in the UTeach Natural Sciences post-baccalaureate program. Students are assigned to a mentor teacher classroom where they might continue as apprentice teachers the next semester. At least three hours a week of observation and teaching in the classroom, in addition to the six contact hours per week. Preparation, implementation, and assessment of inquiry- and project-based lessons, focusing on student thinking and participation, and meeting the needs of students with reading and writing difficulties, those learning in a second language, and those with behavioral and psychological issues. Six lecture hours a week for one semester, with additional hours to be arranged. Curriculum and Instruction 665 and Science, Technology, Engineering, and Mathematics Education 695 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Graduate standing; Curriculum and Instruction 365C or Science, Technology, Engineering, and Mathematics Education 385.

**STM 196, 396. STEM Education Forum.**
Seminar highlighting current research in STEM education. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

**STM 196T, 296T, 396T, 996T. Directed Research in Science, Technology, Engineering and Mathematics Education.**
For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit. Prerequisite: Graduate standing.

**STM 197V, 397V. Independent Study.**
Involves syntheses of literature, field investigations on selected topics, or other individual research topics. For each semester hour of credit
earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit. Prerequisite: Graduate standing.

**STM 698. Thesis.**

The equivalent of three hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in science, technology, engineering, and mathematics education and consent of the graduate adviser; for 698B, Science, Technology, Engineering, and Mathematics Education 698A.

**STM 398R. Master's Report.**

Restricted to master's students in science, technology, engineering, and mathematics education. Preparation of a report to fulfill the requirement for the master's degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of the graduate adviser.

**STM 398T. Supervised Teaching in Science, Technology, Engineering, and Mathematics Education.**

Three lecture hours a week for one semester. Prerequisite: Graduate standing and appointment as a teaching assistant or assistant instructor in science, technology, engineering, and mathematics education.

**STM 399W, 699W, 999W. Dissertation.**

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

**Professional Courses**

**STS - Science, Technology, and Society**

**Science, Technology, and Society: STS**

**Lower-Division Courses**

**STS 101. Key Ideas and Issues in Science, Technology, and Society.**

Designed to introduce students to the main areas of interest in science, technology, and society. Lectures, readings, and discussions include speakers from various academic disciplines. One lecture hour a week for one semester. Offered on the pass/fail basis only.

**STS 311. Topics in Science, Technology, and Society.**

Some topics may include an academic service-learning component. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**STS 318. How We Shape Discoveries and How They Shape Us.**

Technical, historical, and cultural approaches to the multiple dimensions and complexities of scientific and technological innovation, and how they shape and are shaped by society. Cases for discussion are drawn from energy discoveries, nanoscience, biomedicine, and materials science advances. Three lecture hours a week for one semester.

**STS 319. Information Technology and Social Life.**

The impact of technologies on social life, and the necessity for applying skills developed in the liberal arts to managing new ways of life mediated through technologies, including work and home environments. Includes an academic service-learning component. Three lecture hours a week for one semester.

**Upper-Division Courses**

**STS 321. Introduction to Science, Technology, and Society.**

Introduction to the history of communication technology, including how past innovations shaped societies and how current changes are transforming human cultures, universities, and the liberal arts. Three lecture hours a week for one semester. Prerequisite: Completion of at least thirty semester hours of coursework.

**STS 331. Topics in Science, Technology, and Society.**

Some topics may include an academic service-learning component. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**STS 332. The Nanotechnology and Science Revolution.**

The societal impacts of nanotechnology and how this emerging technology might transform the future of technologies, manufacturing, and innovation. Three lecture hours a week for one semester. Science, Technology, and Society 331 (Topic: Impacts of Science: Nanotechnology, Technology, and Life) and 332 may not both be counted.

**STS 360. Senior Seminar in Science, Technology, and Society.**

Senior capstone seminar. Allows the student to integrate the knowledge he or she has gained in the major field of study with that provided by the concentration in science, technology, and society. Three lecture hours a week for one semester. Prerequisite: Completion of at least ninety semester hours of coursework, including Science, Technology, and Society 321.

**STS 367. Conference Course in Science, Technology, and Society.**

Supervised work on specific projects in science, technology, and society. Three conference hours a week for one semester. May be repeated for credit. Prerequisite: Completion of at least thirty-six semester hours of coursework and approval of written application by the supervising instructor.

**STS 370. Research Internship.**

Supervised fieldwork in a business or community setting related to the student's career and research interests. Approximately six to ten hours of work a week for one semester, to be arranged with faculty member and internship sponsor. May be repeated for credit, but no more than six semester hours of Science, Technology, and Society 370 may be counted toward the concentration requirement. Prerequisite: Science, Technology, and Society 321, upper-division standing, and consent of instructor.

**Graduate Courses**

**STS 380. Proseminar: Current Issues in the Societal Impact of Science and Technology.**

Overview of the fundamentals of the practice of science, and of science as a human enterprise that interacts with and transforms cultural views, ideas, and habits. Includes lectures by natural scientists, engineers, and social scientists on the societal impact of rapid scientific technological developments from the perspectives of their individual disciplines. Students complete a comprehensive research project on a topic related to the course. Three lecture hours a week for one semester. May not be repeated for credit. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

**Professional Courses**
SUS - Sustainability Studies

Sustainability Studies: SUS

Lower-Division Courses

SUS 301. Introduction to Sustainability Studies.
Introduction to basic concepts in sustainability, including the varied disciplinary approaches used to theorize and practice sustainability. Explore these concepts through foundational sustainability scholarship, place-based experiential learning opportunities, and team-based projects. Three lecture hours a week for one semester.

Upper-Division Courses

SUS 374. Capstone Experience in Sustainability Studies.
Work independently to complete a research project that assembles and integrates knowledge and skills acquired across your university career. Current concerns and methodology in the field of Sustainability Studies; an introduction to theory and research in Sustainability topics. Three lecture hours a week and a minimum of seventy hours of field research work for one semester. Prerequisite: Upper-division standing.

SUS 679H. Honors Tutorial Course.
For honors candidates in sustainability studies. Read selected works individually for one semester, followed in the second semester by the writing of an honors thesis. Participate in regular conferences with the faculty supervisor. The equivalent of three lecture hours a week for two semesters. Prerequisite: For 679HA, a University GPA of at least 3.0 and a GPA in sustainability studies of at least 3.5. For 679HB, Sustainability Studies 679HA.

SUS 379L. Directed Internships in Sustainability.
Experience working in an appropriate government agency, non-governmental organization, or private business. Three lecture hours a week and a minimum of seventy hours of internship work for one semester. Prerequisite: Upper-division standing.

Graduate Courses

Professional Courses

SWE - Swedish

Swedish: SWE

Lower-Division Courses

SWE 604. Accelerated First-Year Swedish.
Six lecture hours a week for one semester, with optional laboratory available.

Six lecture hours a week for one semester. Prerequisite: Swedish 604.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Germanic Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

SWE 327. Advanced Swedish I.
Three lecture hours a week for one semester. Prerequisite: Swedish 612 with a grade of at least C.

SWE 328. Advanced Swedish II.
Three lecture hours a week for one semester. Prerequisite: Swedish 327 with a grade of at least C.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Germanic Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.
SWE 130D. Swedish across Disciplines.
Read and discuss Swedish language materials related to the subject matter of another designated course. One lecture hour a week for one semester. May be repeated for credit. Prerequisite: Three semester hours of upper-division coursework in Swedish with a grade of at least C.

SWE 379. Conference Course in Swedish Language or Literature.
Supervised individual study of selected problems in Swedish language or literature. Conference course. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

Graduate Courses
Professional Courses
T C - Tutorial Course

Tutorial Course: T C

Lower-Division Courses
T C 302. First-Year Signature Course: Plan II.
Restricted to first-year Plan II students. Small-group seminar involving reading, discussion, writing, and oral reporting around a central interdisciplinary topic. Designed to introduce undergraduates to scholarly analysis from an interdisciplinary perspective. Includes an introduction to University resources, such as research facilities, museums, and attendance at University lectures or performances as assigned. Multiple sections may be offered in the fall and spring with various topics and instructors. Three lecture hours a week for one semester. Some sections may require additional meeting times. Only one of the following may be counted: Tutorial Course 302, Undergraduate Studies 302, or 303.

T C 303C. Plan II World Literature Part I.
Restricted to students in the Plan II Honors Program. Reading of masterpieces of world literature and intensive training in writing and in critical analysis of literature. Three lecture hours a week for one semester. Only one of the following may be counted: Tutorial Course 303C, 603A; English 303C, 603A; Rhetoric and Writing 306, 306Q.

T C 303D. Plan II World Literature Part II.
Restricted to students in the Plan II Honors Program. Reading of masterpieces of world literature and intensive training in writing and in critical analysis of literature. Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 315, English 303D, 316N, Tutorial Course 303D. Prerequisite: Tutorial Course 303C or English 303C.

T C 310. Modes of Reasoning.
Introduction to forms of quantitative reasoning: computer science, game theory, operations research, or statistics and probability. Three lecture hours a week for one semester. Philosophy 313Q and Tutorial Course 310 may not both be counted. Prerequisite: Admission to the Plan II Honors Program.

Upper-Division Courses
T C 325. Topics in the Arts and Sciences.
Analysis of various topics within the arts and sciences through reading, research, written reports, and discussion. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing in the Plan II Honors Program or consent of instructor; additional prerequisites vary with the topic.

T C 125K. Subjects in the Arts and Sciences.
Analysis of subjects in the arts, sciences, and social sciences through reading, discussion, and lectures. The equivalent of one lecture hour a week for one semester. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: Upper-division standing in the Plan II Honors Program or consent of instructor.

Restricted to students in the Plan II Honors Program. Mentorship of younger students attending an Austin-area Knowledge Is Power Program (KIPP) school. Through mentoring and class meetings, students will be deeply immersed in issues related to education reform, (in)equality of educational opportunity, and in promising strategies, such as those used by KIPP, for addressing such issues. The equivalent of one lecture hour and two hours of service a week for one semester. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Consent of instructor.

T C 127. Civic Viewpoints.
Restricted to students in the Plan II Honors Program. Explores civic engagement and innovative solutions for societal justice. The equivalent of one lecture hour a week for one semester. May be repeated for credit. Offered on the pass/fail basis only.

T C 128K. Volunteer Service Orientation.
Restricted to Plan II Majors in the College of Liberal Arts. Designed for those who want to mentor or tutor a student at a school that serves first generation college-going students. Receive training to volunteer at one of the KIPP (Knowledge is Power Program) Texas-Austin schools, within one of the existing Plan II/KIPP Partnership service programs, KAL Mentoring or Plan Tutoring. The equivalent of one lecture hour and two hours of service a week for one semester. Offered on the pass/fail basis only. Prerequisite: Consent of instructor.

T C 330. Special Topics in Plan II.
Restricted to Plan II majors. Three lecture hours a week for one semester, with additional hours to be arranged. May be repeated for credit when the topics vary. Prerequisite: Consent of instructor.

T C 358. Plan II Junior Seminar.
Restricted to students in the Plan II Honors Program. Seminar sections of about fifteen students. The subjects vary, but in each the attempt is made through careful reading, discussion, and written work to analyze and compare varied approaches to topics of lasting importance. Three lecture hours a week for one semester. Students must take this course twice with different topics to fulfill degree requirements. May be repeated for credit when topics vary. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

T C 359T. Essay Course.
Directed reading followed by the writing of an essay. Conference course, with additional hours to be arranged. Prerequisite: Two semesters of Tutorial Course 358 (or 357) and consent of the director.

Directed reading followed by the writing of a substantial essay. Conference course for two semesters, with additional hours to be arranged. Prerequisite: For 660HA, two semesters of Tutorial Course 358 (or 357) and consent of the director; for 660HB, Tutorial Course 660HA.

Graduate Courses
Professional Courses
T D - Theatre and Dance

Theatre and Dance: T D

Lower-Division Courses

T D 301 (TCCN: DRAM 1310). Introduction to Theatre.
Open to all University students except majors in the Department of Theatre and Dance. A study of theatrical texts and practices of the past and present. Three lecture hours a week for one semester; attendance at all major productions of the department is required.

T D 302S. Arts Integrations for Multidisciplinary Connections.
Same as Fine Arts 308. Through readings, videos, in-class activities, discussion, field trips, micro-teaching, and written reflection, designed to develop a practical understanding of the techniques and skills associated with integrating the arts into various contexts. Provides experience in each art content area (dance, music, theatre arts, and visual arts) to develop an introductory understanding of each of these disciplines. Three lecture hours a week for one semester. Fine Arts 308 and Theatre and Dance 302S may not both be counted. Offered on the letter-grade basis only.

T D 102T, 202T, 302T. Topics in Dance Technique.
Fundamental study of principles and vocabulary of dance. One, two, or three lecture hours a week for one semester. May not be counted toward the Bachelor of Fine Arts degree with a major in dance. May be repeated for credit when the topics vary.

Topic 1: Ballet I. A study of the elements of classical ballet through exploration of movement principles as defined by traditional ballet technique. Only one of the following may be counted: Theater and Dance 302T (Topic: Ballet I), 302T (Topic: Topics in Dance: Ballet I-Nonmajors), 302T (Topic 1).

Topic 2: Ballet II. A continuation of the study of the elements of classical ballet through exploration of movement principles as defined by traditional ballet technique. Only one of the following may be counted: Theater and Dance 302T (Topic: Ballet II), 302T (Topic: Topics in Dance: Ballet II-Nonmajors), 302T (Topic 2).

Topic 3: Modern I. A study of the multiple aspects of modern dance technique including Humphrey-Limon, Release Technique, Laban Movement Analysis, and Bartenieff Fundamentals. Only one of the following may be counted: Theater and Dance 302T (Topic: Modern I), 302T (Topic: Topics in Dance: Modern-Nonmajors), 302T (Topic 3).

Topic 4: Modern II. A continuation of the study of the multiple aspects of modern dance technique as developed in Modern I. Theatre and Dance 102T (Topic 4), 202T (Topic 4), 302T (Topic 4) and 112T (Topic: Modern Dance II), 212T (Topic: Modern Dance II), 312T (Topic: Modern Dance II), may not both be counted.

Topic 5: Jazz I. An introduction to four styles of twentieth and twenty-first century jazz dance through exploration of the fundamental principles of movement with a parallel study of the historical development of the jazz dance aesthetic. Theatre and Dance 102T (Topic: Jazz I), 202T (Topic: Jazz I), 302T (Topic: Jazz I), and 102T (Topic 5), 202T (Topic 5), 302T (Topic 5) may not both be counted.

Topic 6: Jazz II. A continuation of the study of jazz dance as developed in Jazz I.

Topic 7: Afro-Contemporary Dance. The study of contemporary dance informed by African aesthetics and vernacular movement found throughout the African diaspora. Theatre and Dance 302T (Topic: Afro-Contemporary Dance Techn) and 302T (Topic 7) may not both be counted.

Topic 8: Improvisational Dance. The study and practice of improvisational dance. Theatre and Dance 302T (Topic: Improvisational Dance) and 302T (Topic 8) may not both be counted.

Topic 9: Yoga for Dance. The study of yoga as it pertains to movement in dance. Only one of the following may be counted: Theatre and Dance 302T (Topic: Yoga for Dance), 102T, 202T, 302T (Topic 9), 352T (Topic: Yoga for Dancers), or 152T, 252T, 352T (Topic 15).

Topic 10: Yoga: Moving into Stillness. A study of yoga in order to develop the ability to coordinate movement and breathing in dance. Prerequisite: A major in voice performance in the Butler School of Music.

Restricted to non-theatre and dance majors. Exercising the fundamental principles of vocal production and speech. Three lecture hours a week for one semester. Theatre and Dance 303 and 313C may not both be counted.

T D 303V. Acting for Voice Performance Majors I.
Fundamental inquiry into the acting process. Three lecture hours a week for one semester. Prerequisite: A major in voice performance in the Butler School of Music.

T D 303W. Acting for Voice Performance Majors II.
Techniques for playing and shaping action within scene structures. Three lecture hours a week for one semester. Prerequisite: Theatre and Dance 303V.

T D 305S. Topics in Black Theatre and Dance.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

T D 306. Introduction to Improvisational Drama.
General introduction to improvisational activities with application to the theatre. Three lecture hours a week for one semester.

Analyze dance as a significant tool for defining and articulating the many varied and intersecting facets of identity such as gender, sexuality, race, class, and nationality among others. Examine many forms of dance occurring in diverse contexts from the modern dance innovators of the 1950s, to vogue and ballroom culture of the 1980s, to representations of dance across contemporaneous media platforms like Instagram. Explore how diverse dance communities enact a multicultural and non-static
T D 308K. Costume, Culture, and Change on Stage and Screen.
Explore costuming and costume design as an agent in our social reality, both reflecting and constructing the identities which we interact with daily. Engage with a wide range of archival materials, streaming video, live performances, creative group work, and interviews with locally and internationally renowned artists. Three lecture hours a week for one semester.

T D 109C. Musical Theatre Performing Ensemble.
Restricted to Department of Theatre and Dance majors. Rehearsing and performing solo and group numbers from musical theatre and other genres in cabaret-style entertainment and musical revues for on- and off-campus events. Three laboratory hours a week for one semester, with additional laboratory hours to be arranged. Theatre and Dance 109C and 113P, 213P, 313P may not both be counted. May be repeated for credit. Prerequisite: Consent of Instructor.

T D 309K. Musical Theatre on Stage and Screen.
Examine the various histories explored by musical theatre. Investigate the conventions utilized by musical theatre during their development and original productions. Consider the various types of musicals, and how these musicals explore historical and cultural events and persons through this unique medium. Three lecture hours a week for one semester. Offered on the letter-grade basis only.

T D 311. Languages of the Stage.
Introduction to the ways that performance communicates meaning, as a foundation for further study in theatre and dance. Three lecture hours a week for one semester. Prerequisite: A major in the Department of Theatre and Dance or consent of instructor.

T D 311C. Performance as Public Practice.
Restricted to students with a major in the Department of Theatre and Dance. Examines current and historical performance policy in order to understand how the entertainment industry operates nationally. Three lecture hours and one laboratory hour a week for one semester. Theatre and Dance 311 and 311C may not both be counted.

T D 311D. Performance as a Collaborative Practice.
Restricted to students with a major in the Department of Theatre and Dance. Explores and defines the creative process of performance collaboration. Three lecture hours and one laboratory hour a week for one semester. Theatre and Dance 311 and 311D may not both be counted.

T D 111T, 211T, 311T. Introductory Topics in Theatre and Dance.
Introductory topics in theatre and dance, including basic research methods, contemporary and local performance, the role of the artist in society, the philosophy of a fine arts education, and the exploration of campus resources. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit when the topics vary.

T D 112, 212. Freshman Movement and Physical Conditioning.
Restricted to Department of Theatre and Dance majors. Principles and techniques of physical conditioning. For each semester hour earned, the equivalent one and one-half laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Consent of the dance faculty.

T D 312C. Contemporary Dance Technique.
Intensive study of principles, technique, and vocabulary of contemporary dance. Six laboratory hours a week for one semester. May be repeated for credit. Prerequisite: A major in the Department of Theatre and Dance and consent of the dance faculty.

T D 312D. Intermediate Contemporary Dance Technique.
Intensive study of intermediate-level theory, technique, and vocabulary of contemporary dance. Six laboratory hours a week for one semester. May be repeated for credit. Prerequisite: A major in the Department of Theatre and Dance and consent of the dance faculty.

T D 312F. Ballet Technique.
Intensive study of principles, technique, and vocabulary of ballet. Six laboratory hours a week for one semester. May be repeated for credit. Prerequisite: A major in the Department of Theatre and Dance and consent of the dance faculty.

T D 312G. Intermediate Ballet Technique.
Study of intermediate-level theory, technique, and vocabulary of ballet as a supporting style. Six laboratory hours a week for one semester. May be repeated for credit. Prerequisite: A major in the Department of Theatre and Dance.

T D 312M. Movement Improvisation.
Exploration and study of elements of movement design. Three hours a week for one semester, with additional laboratory hours as required. May be repeated for credit. Prerequisite: A major in the Department of Theatre and Dance.

T D 312N. Movement Composition.
Continuation of Theatre and Dance 312M. Three hours a week for one semester, with additional laboratory hours as required. Prerequisite: Theatre and Dance 312M or consent of instructor.

Preparation and performance laboratory related to production. At least six laboratory hours a week for one semester; additional laboratory hours may be required for rehearsals and performances. May be repeated for credit. Prerequisite: A major in the Department of Theatre and Dance and consent of the dance faculty.
T D 112T, 212T, 312T. Topics in Dance Technique.
Restricted to majors in the Department of Theatre and Dance. For each semester hour of credit earned, at least one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Consent of the dance faculty.

Topic 1: Somatic Practice.

T D 313C (TCCN: DRAM 1351). Acting I.
Restricted to Department of Theatre and Dance majors. Approaches to incorporating Stanislavski-based principles in acting, including dramatic action, given circumstances, subtext, sense memory, the magic if, and tempo/rhythm. Three lecture hours a week for one semester, with additional hours to be arranged.

T D 313D (TCCN: DRAM 1352). Acting II.
Restricted to Department of Theatre and Dance majors. Continuation of Acting I. Application of Stanislavski-based principles to scene work selected from realistic genres. Three lecture hours a week for one semester, with additional hours to be arranged. Prerequisite: Theatre and Dance 313C.

T D 313E. Acting III.
Restricted to Department of Theatre and Dance majors. Continuation of Acting II, with greater emphasis on personalization of character needs, given circumstances, actor-to-actor communication, and emotional life. Three lecture hours a week for one semester, with additional hours to be arranged. Theatre and Dance 313E and 324E may not both be counted. Prerequisite: Theatre and Dance 313D.

T D 313F. Voice and Movement I.
Understanding the relationship between voice and body in acting, with a focus on freeing tension, releasing vocal power, and enabling physical expression. Three laboratory hours a week for one semester, with additional hours to be arranged. Prerequisite: A major in acting or consent of instructor.

T D 313G. Voice and Movement II.
Continuation of Voice and Movement I. Deeper understanding of the vocal-physical connection as a means of playing dramatic action. Three laboratory hours a week for one semester, with additional hours to be arranged. Prerequisite: Theatre and Dance 313F.

T D 313K. Voice Laboratory I.
Advanced voice and speech work in breath, support, placement, focus, range, resonance, articulation and endurance. Emphasis placed on personalization of language and text from selected plays. Three laboratory hours a week for one semester, with additional hours to be arranged. Prerequisite: Theatre and Dance 313G or consent of instructor.

T D 313L. Voice Laboratory II.
Continuation of Voice Laboratory I. Advanced voice and speech work connected to personalization and truth in classical and heightened text. Three laboratory hours a week for one semester, with additional hours to be arranged. Prerequisite: Theatre and Dance 313K.

T D 313M. Movement Laboratory I.
Using the body as an instrument for playing action and bringing the actor to a deeper understanding of physical stage presence. Three laboratory hours a week for one semester, with additional hours to be arranged. Prerequisite: Theatre and Dance 313G or consent of instructor.

T D 313N. Movement Laboratory II.
Continuation of Movement Laboratory I. The practice of physical theatre disciplines as a means of deepening the actor’s understanding of character and behavior. Three laboratory hours a week for one semester, with additional hours to be arranged. Prerequisite: Theatre and Dance 313M.

Preparation and performance laboratory related to production. For each semester hour of credit earned, at least one hour a week for one semester and additional laboratory hours as required. May be repeated for credit. Prerequisite: Consent of the acting/directing faculty.

T D 314C (TCCN: DRAM 1330). Design for Performance.
Introduction to the techniques, practices, and processes in costume, lighting, scenic, and sound design. Three lecture hours a week for one semester, with laboratory hours as required. Prerequisite: A major in the Department of Theatre and Dance.

Restricted to majors in the Department of Theatre and Dance. Introduction to the technical aspects of theatrical performance—costumes, lighting, scenery, and media. Three lecture hours a week for one semester.

T D 314P. Production Laboratory.
Restricted to College of Fine Arts majors. Three hours a week for one semester and additional laboratory hours as required. May be repeated for credit. Prerequisite: A major in the Department of Theatre and Dance; and Theatre and Dance 314M, except for dance majors in the BFA degree program.

T D 314Q. Production Shop.
Restricted to theatre studies majors. Assist in the creation of props, lighting, costumes, projection, audio, or scenery for department productions. Nine laboratory hours a week for one semester, with additional laboratory hours as required. May be repeated for credit. Prerequisite: A major in the Bachelor of Fine Arts in Theatre Studies.

T D 315. Playwriting I.
Same as Creative Writing 315D. The study and practice of writing plays. Three lecture hours a week for one semester. Creative Writing 315D and Theatre and Dance 315 may not both be counted.

T D 315C. Foundations of Narrative Design.
Three lecture hours a week for one semester. May be repeated for credit.

T D 316D. Directing I.
Restricted to students with a major in the Department of Theatre and Dance. Study and practice of the fundamentals of stage directing: composition, dramatic action, movement, and textual analysis. Three lecture hours a week for one semester with additional laboratory hours as required. Theatre and Dance 316D and 323C may not both be counted. Prerequisite: Sophomore standing or Theatre and Dance 313C.

T D 317C (TCCN: DRAM 2361). Theatre History through the Eighteenth Century.
Three lecture hours a week for one semester. Prerequisite: For theatre and dance majors, Theatre and Dance 311 or 311C, for others, none.

Three lecture hours a week for one semester. Prerequisite: For theatre and dance majors, Theatre and Dance 311 or 311C, for others, none.
T D 317M. Dance History I.
An exploration of world dance as an expression of cultural identity and change. Three lecture hours a week for one semester. Prerequisite: Theatre and Dance 311 or 311C.

T D 317N. Dance History II.
Continuation of Theatre and Dance 317M. Three lecture hours a week for one semester. Prerequisite: Theatre and Dance 317M.

T D 119Q, 219Q, 319Q, 419Q, 519Q, 619Q, 719Q, 819Q, 919Q.
Topics in Theatre and Dance.
This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Theatre and Dance. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

T D 320J. Introduction to Creating New Media.
Introduces student actors to strategies to grow as generative artists and master the basics of a few common media production tools to give their creative voice a broader reach in the world. Three lecture hours a week for one semester, with additional hours to be arranged. Only one of the following may be counted: Theatre and Dance 320J, 353T (Topic: Intro to Creating New Media), or 353T (Topic 11). Offered on the letter-grade basis only. Prerequisite: Upper-division standing, and Theatre and Dance 313E with a grade of at least B-; or consent of the acting/directing faculty.

T D 121P, 221P, 321P. Festival Project and Production.
Students initiate, develop, and/or participate in an approved departmental major festival project or production under the supervision of a faculty member. For each semester hour of credit earned, at least one lecture hour a week for one semester, with additional laboratory hours to be arranged. May be repeated for credit. Prerequisite: Consent of instructor.

T D 322. Dance Pedagogy.
Techniques and materials used in the teaching of dance. Two lecture hours and one and one-half laboratory hours a week for one semester. Prerequisite: Upper-division standing and consent of instructor.

T D 322C. Contemporary Dance Technique.
Intensive study of principles, technique, and vocabulary of contemporary dance. Six laboratory hours a week for one semester. May not be counted toward the Bachelor of Fine Arts degree with a major in dance. May be repeated for credit. Prerequisite: A major in the Department of Theatre and Dance and consent of the dance faculty.

T D 322D. Intermediate Contemporary Dance Technique.
Intensive study of intermediate-level theory, technique, and vocabulary of contemporary dance. Six laboratory hours a week for one semester. May not be counted toward the Bachelor of Fine Arts degree with a major in dance. May be repeated for credit. Prerequisite: A major in the Department of Theatre and Dance and consent of the dance faculty.

T D 322E. Advanced Contemporary Dance Technique.
Intensive study of advanced theory, technique, and style of contemporary dance. Six laboratory hours a week for one semester. May be repeated for credit. Prerequisite: A major in the Department of Theatre and Dance and consent of the dance faculty.

T D 322F. Ballet Technique.
Intensive study of principles, technique, and vocabulary of ballet. Six laboratory hours a week for one semester. May not be counted toward the Bachelor of Fine Arts degree with a major in dance. May be repeated for credit. Prerequisite: A major in the Department of Theatre and Dance and consent of the dance faculty.

T D 322G. Intermediate Ballet Technique.
Study of intermediate-level theory, technique, and vocabulary of ballet as a supporting style. Six laboratory hours a week for one semester. May not be counted toward the Bachelor of Fine Arts degree with a major in dance. May be repeated for credit. Prerequisite: A major in the Department of Theatre and Dance and consent of the dance faculty.

T D 322J. Advanced Ballet Technique.
Study of advanced theory, technique, and vocabulary of ballet as a supporting style. Six laboratory hours a week for one semester. May be repeated for credit. Prerequisite: A major in the Department of Theatre and Dance and consent of the dance faculty.

Preparation and performance laboratory related to production. At least six laboratory hours a week for one semester; additional laboratory hours may be required for rehearsals and performances. May be repeated for credit. Prerequisite: A major in the Department of Theatre and Dance and consent of the dance faculty.

T D 323C. Directing I.
Study and practice of the fundamentals of stage directing: composition, picturization, movement, gesture, and unit structure. Three lecture hours a week for one semester, with laboratory hours as required. Theatre and Dance 316D and 323C may not both be counted. Prerequisite: Upper-division standing and a major in the Department of Theatre and Dance.

T D 323D. Directing II.
Dramatic and environmental analysis of full-length plays. Three lecture hours a week for one semester, with laboratory hours as required. Prerequisite: Theatre and Dance 316D or 323C.

T D 323E. Directing III.
Theory and techniques of play directing, with practical applications in projects and scenes. Three lecture hours a week for one semester, with laboratory hours as required. Prerequisite: Upper-division standing, Theatre and Dance 323D, and consent of instructor.

T D 323F. Acting Shakespeare.
Restricted to bachelor of fine arts in acting majors. Incorporating language as action by applying basic acting principles to the demand of Shakespearean text. Three laboratory hours a week for one semester, with additional hours to be arranged. Only one of the following may be counted: Theatre and Dance 323F, 353T (Topic: Acting Shakespeare), or 353T (Topic 1). Prerequisite: Theatre and Dance 313E or consent of instructor.

T D 323G. Acting in Period Plays.
Exploration of classical and idiosyncratic texts to enable personal and artistic growth in actors. Three laboratory hours a week for one semester, with additional hours to be arranged. Prerequisite: Upper-division standing, and Theatre and Dance 323F or consent of instructor.

For each semester hour of credit earned, at least one hour a week for one semester and additional laboratory hours as required. May be repeated
for credit. Prerequisite: Upper-division standing and consent of the acting/directing faculty.

**T D 324. Design and Technology for Performance.**

Exploration of aspects of design and technology in performance, including costume, lighting, scenery, and sound. Three lecture hours a week for one semester, with laboratory hours as required. May be repeated for credit. Prerequisite: Theatre and Dance 314C, 314M, and consent of instructor.

**T D 324E. Acting III.**

Restricted to theatre and dance majors. Continuation of Acting II, with greater emphasis on personalization of character needs, given circumstances, actor-to-actor communication, and emotional life. Three lecture hours a week for one semester, with additional hours to be arranged. Theatre and Dance 313E and 324E may not both be counted. Offered on the letter-grade basis only. Prerequisite: Upper-division standing, and Theatre and Dance 313D.

**T D 124P, 224P, 324P. Advanced Production Laboratory.**

Same as Arts and Entertainment Technologies 124P. Same as Arts and Entertainment Technologies 224P. Same as Arts and Entertainment Technologies 324P. Restricted to theatre and dance and arts and entertainment technologies majors. For each semester hour of credit earned, one lecture hour a week for one semester, with additional laboratory hours to be arranged. Theatre and Dance 124P, 224P, 324P and Arts and Entertainment Technologies 124P, 224P, 324P may not both be counted. May be repeated for credit. Prerequisite: For Theatre and Dance majors, Theatre and Dance 314P or consent of instructor; For Arts and Entertainment Technologies majors, Arts and Entertainment Technologies 316C.

**T D 325. Playwriting II.**

Same as Creative Writing 340D. Emphasis on the form and writing of the full-length play or equivalent. Three lecture hours a week for one semester. Creative Writing 340D and Theatre and Dance 325 may not both be counted. Prerequisite: Upper-division standing, Creative Writing 315D or Theatre and Dance 315, and consent of instructor.

**T D 125P, 225P, 325P. Projects in Playwriting.**

For each semester hour of credit earned, at least one hour a week for one semester and additional laboratory hours as required. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

**T D 326. Dramatic Activities for the Classroom.**

Theory, materials, and practice, including story dramatization, storytelling, puppets, pantomime, shadow plays, role-playing, and theatre games. Three lecture hours a week for one semester, with laboratory hours as required. Prerequisite: Upper-division standing.

**T D 326C. Theatre Studies: Creative Drama.**

Theory and practice of creative drama for children, both as an art form and as a process for emphasizing creative expression and aesthetic growth. Three lecture hours a week for one semester, with laboratory hours as required. Prerequisite: Upper-division standing and consent of instructor.

**T D 326D. Theatre Studies: Theatre for Young Audiences.**

Theory and practice of all phases of play production for young audiences. Three lecture hours a week for one semester, with laboratory hours as required. Prerequisite: Upper-division standing.

**T D 326E, 626E. Theatre Studies: Directing the Young Performer.**

Introduction to the theory and practice of directing and producing theatre with young performers, with emphasis on appropriate literature. Three lecture hours a week for one semester, with additional laboratory hours as required; this course includes field-based instruction in area high schools. Prerequisite: Upper-division standing, Theatre and Dance 323D, and consent of instructor.

**T D 326F. Creative Drama II.**

Advanced investigation of drama and drama-based instructional strategies. Observation, teaching and/or co-teaching in one or more practical contexts during the semester as a way to hone skills needed to successfully plan, implement, and evaluate drama-based lessons. Three lecture hours a week for one semester. Only one of the following may be counted: Theatre and Dance 326F, 351T (Topic: Creative Drama II), 151T (Topic 1), 251T (Topic 1), 351T (Topic 1). Offered on the letter-grade basis only. Prerequisite: Upper-division standing, Theatre and Dance 326C, and consent of instructor.

**T D 126P, 226P, 326P. Projects in Theatre Studies.**

For each semester hour of credit earned, at least one hour a week for one semester and additional laboratory hours as required. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

**T D 326Q. Directing Project in Theatre Studies.**

Producing and directing a play in an elementary or secondary school. The equivalent of three hours a week for one semester, with additional laboratory hours as required. Prerequisite: Upper-division standing and Theatre and Dance 326E, 626E.

**T D 127P, 227P, 327P. Projects in History, Criticism, and Performance Studies.**

For each semester hour of credit earned, at least one hour a week for one semester and additional laboratory hours as required. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

**T D 329C. Musical Theatre Performance Workshop.**

Restricted to Department of Theatre and Dance majors. Private coaching, master classes, and small and large group rehearsals, culminating in staged public performances of musical revues and/or chamber musicals. Three laboratory hours a week for one semester, with additional hours to be arranged. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

**T D 129D. Studio Voice III.**

Restricted to Department of Theatre and Dance majors. Continuation of Theatre and Dance 109E. Emphasizes the synthesis of singing and acting skills. One laboratory hour a week for one semester, with additional laboratory hours to be arranged. May be repeated for credit. Prerequisite: Upper-division standing, two semesters of Theatre and Dance 109E, and consent of instructor.

**T D 129E. Studio Voice IV.**

Restricted to Department of Theatre and Dance majors. Continuation of Theatre and Dance 129D. Refines, expands, and strengthens the specialized performance skills required of a musical theatre performer, including studio recording techniques. One laboratory hour a week for one semester, with additional laboratory hours to be arranged. May be repeated for credit. Prerequisite: Upper-division standing and two semesters of Theatre and Dance 109D.
T D 129Q, 229Q, 329Q, 429Q, 529Q, 629Q, 729Q, 829Q, 929Q. Topics in Theatre and Dance.
This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Theatre and Dance. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

T D 332M. Choreography.
Advanced study of the principles and practices of choreography.

T D 332N. Choreography: Design for Dance and Movement Theatre.
Continuation of Theatre and Dance 332M. Three hours a week for one semester, with additional laboratory hours as required. May be repeated for credit. Prerequisite: Upper-division standing, Theatre and Dance 312N, and consent of instructor.

T D 232P, 332P. Advanced Projects in Dance Performance and Repertory I.
For 232P: at least six laboratory hours a week for one semester, with additional hours as required; for 332P, at least seven laboratory hours a week for one semester, with additional hours as required. May be repeated for credit. Prerequisite: Upper-division standing, Theatre and Dance 222P, a major in the Department of Theatre and Dance, and consent of the dance faculty.

T D 232Q, 332Q. Advanced Projects in Dance Performance and Repertory II.
For 232Q, at least six laboratory hours a week for one semester, with additional laboratory hours as required; for 332Q, at least seven laboratory hours a week for one semester, with additional hours as required. May be repeated for credit. Prerequisite: Upper-division standing, Theatre and Dance 232P or 332P, a major in the Department of Theatre and Dance, and consent of the dance faculty.

T D 332R. Dance Pedagogy.
Principles, techniques, and materials used in the teaching of dance. Three lecture hours a week for one semester; with additional laboratory hours to be arranged. May be repeated for credit. Prerequisite: Upper-division standing, a major in the Department of Theatre and Dance, and consent of the dance faculty instructor.

T D 332S. Dance Pedagogy Practicum.
Practical application techniques and materials used in the teaching of dance. Three laboratory hours a week for one semester, with additional laboratory hours to be arranged. May be repeated for credit. Prerequisite: Upper-division standing, Theatre and Dance 332R, a major in the Department of Theatre and Dance, and consent of the dance faculty.

T D 340D. Advanced Techniques in Acting.
Restricted to juniors pursuing a Bachelor of Fine Arts in Theatre and Dance. Explore advanced work with text and personal connection to character. The equivalent of three lecture hours, with additional hours to be arranged. Prerequisite: Upper-division standing and Theatre and Dance 313E.

T D 350J. Topics in Performance Lab.
Subjects in acting including voice/speech, movement, character, composition and collaboration with directors. Three lecture hours a week for one semester, with additional lab hours to be arranged as needed. May be repeated for credit when the topics vary.

T D 351F. Teaching Artists in Schools and Community Settings.
Explores how to use the arts to educate in arts and non-arts settings (professional arts organizations, after-school programs, schools, museums, and community sites). Engagement with a variety of local arts organizations that hire and train teaching artists including dancers, visual artists, and theatre professionals through service learning projects. Includes outside service learning projects with local community organizations or schools. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing and consent of instructor.

T D 351S. Seminar in Theatre and Dance.
Three lecture hours a week for one semester. Prerequisite: Completion of at least ninety semester hours of coursework, a major in the Department of Theatre and Dance, and consent of instructor.

T D 151T, 251T, 351T. Topics in Theatre and Dance.
For each semester hour of credit earned, the equivalent of one class hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and consent of instructor.

Explores the history and organization of dance and movement forms. Includes outside service learning projects with local community organizations or schools. Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

T D 252P (or 332P), and consent of the dance faculty.

T D 151T, 251T, 351T, 2023-2024 General Information Catalog  ▶ General Information 2023 - 2024  1059
repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

T D 152T, 252T, 352T. Topics in Dance and Movement.
Fundamental study of principles and vocabulary of dance. For each semester hour of credit earned, at least one hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and consent of instructor.

Topic 1: Musical Theatre Dance I. Explores original repertoire from a wide variety of musical theatre styles. For each semester hour of credit earned, one lecture hour a week for one semester, with additional hours to be arranged. Theatre and Dance 152T, 252T, 352T (Topic: Dance for Musical Theatre) and 152T, 252T, 352T (Topic 1) may not both be counted. Prerequisite: Upper-division standing.

Topic 2: Musical Theatre Dance II. Explores original musical theatre choreography from a variety of styles. Repertoire will require a higher level of skills. For each semester hour of credit earned, one lecture hour a week for one semester, with additional hours to be arranged. Theatre and Dance 152T, 252T, 352T (Topic: Dance for Musical Theatre II) and 152T, 252T, 352T (Topic 2) may not both be counted. Prerequisite: Upper-division standing, and Theatre and Dance 352T (Topic 1).

Topic 3: Broadway Jazz I. Refines and expands dance technique and skills essential to Broadway-style choreography. Original Broadway choreography requiring a high level of technique and character development. For each semester hour of credit earned, one lecture hour a week for one semester, with additional hours to be arranged. Theatre and Dance 152T, 252T, 352T (Topic: Broadway Jazz I) and 152T, 252T, 352T (Topic 3) may not both be counted. Prerequisite: Upper-division standing, and Theatre and Dance 352T (Topic 2).

Topic 4: Broadway Jazz II. Continues to refine and expand dance technique and skills essential to Broadway style choreography. Original Broadway choreography requiring a high level of technique and character development. For each semester hour of credit earned, one lecture hour a week for one semester, with additional hours to be arranged. Theatre and Dance 152T, 252T, 352T (Topic: Broadway Jazz II) and 152T, 252T, 352T (Topic 4) may not both be counted. Prerequisite: Upper-division standing, and Theatre and Dance 352T (Topic 3).

Topic 5: Pointe. A study and practice of classical and contemporary ballet pointe technique. Distinguishes between and practice various 'schools' of pointe technique, study its anatomical principles, and learn repertoire ranging from the nineteenth century to the current day. Increasingly complex combinations of movements, positions, and rhythms will be applied toward developing physical skills, cognitive skills, and performance quality. Individual expression and artistry is encouraged. Theatre and Dance 152T (Topic: Pointe) and 152T, 252T, 352T (Topic 5) may not both be counted.

Topic 6: Tap. Topic 7: Advanced Pilates: Evolved Lab. Utilizes Pilates-evolved techniques, equipment, and readings to investigate a daily mind/body practice of efficient alignment, core strengthening, movement re-education and execution to enhance movement expressivity in performance. Theatre and Dance 352T (Topic: Advanced Pilates: Evolved Lab) and 152T, 252T, 352T (Topic 7) may not both be counted.

Topic 8: Gyrokinesis. Theatre and Dance 302T (Topic: Intro to Gyrokinesis) and 152T, 252T, 352T (Topic 8) may not both be counted.

Topic 9: Beginning Hip-Hop. Introduction to the foundation of street dance styles, specifically old school Hip Hop. Exploration of the teachings of Philadelphia-born street dance pioneer, Rennie Harris, and his codification terminology and stylized movement vocabulary. Study of these dances and understand their cultural origins through an exploration of movement principles, history, and philosophy of street dance. Foundational House dance technique may also be introduced.

Topic 10: Intermediate/Advanced Hip-Hop. Continued introduction to the foundation of street dance styles, specifically old school Hip Hop and House dance techniques. Exploration of these dance styles and their cultural origins through an investigation of movement principles, history, and philosophy of street dance. Theater and Dance 302T (Topic: Hip-Hop) and 152T (Topic 10) may not both be counted.

Topic 11: Hip-Hop History. Introduction to Hip-Hop dance as a culturally significant form. Explores history, the social and political forces at work, and the fundamental techniques (Campbell Locking, Popping, Breaking etiquette/movements, Hip-Hop Party Dance and House). Intellectual challenge is offered through the lens of critical race theory and historical context. Addresses the origin and evolution of American Hip-Hop dance rooted in a theoretical structure that springs from the elemental nature of the African Diaspora. Emphasis on the social, political, and economic environment in which it was fashioned. Theater and Dance 352T (Topic: Hip Hop History) and 152T (Topic 11) may not both be counted.

Topic 12: Kinetic Storytelling. Making use of tools found in Africanist performance traditions to explore issues and experiment with ways to craft a movement-based performance that expresses a specific point of view and draws out questions about our chosen issue or effort. Theater and Dance 352T (Topic: Kinetic Storytelling) and 152T (Topic 12) may not both be counted.

Topic 13: Advanced Tap. Only one of the following may be counted: Theatre and Dance 302T (Topic: Advanced Tap), 352T (Topic: Advanced Tap), or 152T, 252T, 352T (Topic 13).

Topic 14: Theory and Practice Pilates-Evolved Lab. Explore daily mind/body practice of efficient alignment, core strengthening, movement re-education and execution using Pilates-evolved techniques, equipment, and readings to enhance movement expressivity in performance. Theatre and Dance 352T (Topic: Thyr/ Prac Pilates-Evolved Lab) and 152T (Topic 14) may not both be counted.

Topic 15: Yoga. Only one of the following may be counted: Theatre and Dance 302T (Topic: Yoga for Dance), 102T, 202T, 302T (Topic 9), 352T (Topic: Yoga for Dancers), or 152T, 252T, 352T (Topic 15).

T D 353C. Devised Work.
A survey of contemporary devising techniques. Work explores present-day parallels for making performance for both individual and collaborative practices. The equivalent of three lecture hours, with additional hours to be arranged. Prerequisite: Upper-division standing.

T D 353D. Acting and the Camera I.
Fundamentals of acting for the camera; adjusting from the stage to the demands of the camera. Six laboratory hours a week for one semester. Theatre and Dance 351T (Topic: Acting for the Camera) and 353D may not both be counted. Prerequisite: For Bachelor of Fine Arts in Acting majors, upper-division standing and Theatre and Dance 353C; for others, upper-division standing, and Theatre and Dance 313E with a grade of at least B- or consent of instructor.

T D 353E. Acting and the Camera II.
Advanced technique for the camera. Professional audition protocols and career preparation. Six laboratory hours a week for one semester. Theatre and Dance 351T (Topic: Acting for the Camera II) and 353E may not both be counted. Prerequisite: Upper-division standing and Theatre and Dance 353D.

T D 353G. Application for Rehearsal.
Restricted to majors in the Department of Theatre and Dance. Three lecture hours a week for one semester. Theatre and Dance 353G and
T D 353K. Voice-Over and Narration.
Microphone technique and the use of the voice to create character in various media applications such as narration, video games, and commercial copy. Three laboratory hours a week for one semester, with additional hours to be arranged. Prerequisite: Upper-division standing, and Theatre and Dance 313L and 323F, or consent of instructor.

T D 353Q. Portfolio Preparation.
Restricted to Bachelor of Fine Arts in Acting majors. Selection and rehearsal of materials in preparation for professional acting interviews and auditions. Three laboratory hours a week for one semester, with additional hours to be arranged. Prerequisite: Upper-division standing.

T D 353R. Business of Acting.
Restricted to majors in the Department of Theatre and Dance. Survey of marketing oneself as an actor, the actor's relationship to agents and casting directors, and methods for initiating and maintaining a professional acting career. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

T D 353T. Topics in Acting and Directing.
Restricted to majors in the Department of Theatre and Dance. Topics in acting including voice/speech, movement, and directing. Three lecture hours a week for one semester, with additional hours to be arranged. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing, and Theatre and Dance 313E with a grade of at least B - or consent of the acting/directing faculty.

**Topic 1: Acting Shakespeare.** Incorporating language as action by applying basic acting principles to the demand of Shakespearean text. Only one of the following may be counted: Theatre and Dance 323F, 353T (Topic: Acting Shakespeare), or 353T (Topic 1).

**Topic 2: Comedy Acting.** Focus on issues of acting in comedy. Address the problems that confront the actor when rehearsing and performing in extant comedy play scripts. Uses improvisational, non-theatrical, and original material for developing comedy skills. Participation as an actor is mandatory. Only one of the following may be counted: Theatre and Dance 351T (Topic: Comedy Acting), 353T (Topic: Comedy Acting), or 353T (Topic 2).

**Topic 3: Dialects for the Stage.** Emphasizes dialect skills and good vocal production for actors pursuing professional work. Emphasis is placed on independent dialect study projects. Theatre and Dance 353T (Topic: Dialects for the Stage) and 353T (Topic 3) may not both be counted.

**Topic 4: Advanced Singing in Musical Theatre.** Explore the significance of music, composers, shows, and singers as they relate to the use of voice. Additional prerequisite: Some facility with voice and a background in musical or choral theatre is recommended.

**Topic 5: Stage Combat for the Actor.** Introduction to theatrical fighting and violence. Explores the techniques used to create the illusion of stage fighting and violence both with and without weapons. Focus on the practical application of violence to tell stories on the stage and/or screen. An opportunity to have work observed in front of a Fight Master of the Society of American Fight Directors. Theatre and Dance 353T (Topic: Stage Combat for the Actor) and 353T (Topic 5) may not both be counted.

**Topic 6: Audition Techniques.** Developing skills for bringing your personal self to acting and to the audition. Theatre and Dance 353T (Topic: Audition Techniques) and 353T (Topic 6) may not both be counted.

**Topic 11: Introduction to Creating New Media For Actors.** Introduces student actors to strategies to grow as generative artists and master the basics of a few common media production tools to give their creative voice a broader reach in the world. Only one of the following may be counted: Theatre and Dance 320J, 353T (Topic: Intro to Creating New Media), or 353T (Topic 11).

T D 354F. Foundations of Acting.
Restricted to majors in the Department of Theatre and Dance. Three lecture hours a week for one semester. Theatre and Dance 353T (Topic: Foundations of Acting-L A) and 354F may not both be counted. Prerequisite: Upper-division standing.

Individual projects in theatre design and technology. For each semester hour of credit earned, at least one hour a week for one semester and additional laboratory hours as required. May be repeated for credit. Prerequisite: Consent of instructor.

T D 354T. Topics in Design and Technology.
Three lecture hours a week for one semester, with laboratory hours as required. May be repeated for credit when the topics vary. Prerequisite: Consent of instructor.

**Topic 2: Fabric Painting and Dyeing.** Fundamentals of textile surface design.

**Topic 3: Mask Making.** Fundamentals of mask theory, design, and construction for theatre and live performance.

**Topic 4: Millinery.** Fundamentals of hat design, fitting, and construction techniques. Theatre and Dance 354T (Topic: Millinery) and 354T (Topic 4) may not both be counted.

**Topic 5: Scenery Technology I.**

**Topic 6: Costume Rendering.** Fundamentals of costume research and drawing.

**Topic 7: Drawing for Theatre Designers.**

**Topic 8: Painting.**

**Topic 10: Costume Design Skills.** Fundamentals of research, drawing, rendering, and script/character analysis and critique for costume design. Theatre and Dance T D 354T (Topic: Design Skills: Costume) and 354T (Topic 10) may not both be counted.

**Topic 11: Lighting Design Skills.** Fundamentals of research, paperwork communication, and technology for lighting designers. Arts and Entertainment Technologies 329E and Theatre and Dance 354T (Topic 11) may not both be counted.

**Topic 13: Stage Makeup.** Tools and products used by professional makeup artists. Includes techniques for natural, character, and special effects makeup in theatre, opera, dance, film, and TV.

**Topic 14: Figure and Fabric Rendering.** Principles of figure and fabric painting from life.

**Topic 15: Scene Painting.** Scene painting techniques for theatrical designers.

**Topic 16: Automated Lighting II.** Advanced automated and computer-aided lighting theory and techniques.

**Topic 17: Game Development Capstone: Two-Dimensional Games.** Same as Computer Science 354S and Music 354S. Participation in an interdisciplinary team to gain a thorough understanding of the two-dimensional game development process, through modeling of the environment and practices that are used in game studios. Three lecture hours a week for one semester. Only one of the following may be counted: Arts and Entertainment Technologies 376, Computer Science 354S, 378 (Topic: Game Devel Capstone: 2D Games), Music 354S, 376J (Topic: Game Devel Capstone: 2D Games), Theatre and Dance 354T (Topic 17), Radio-Television-Film 344N (Topic 6), 344T
Fundamentals of scenery construction and design of scenery for the theatre.

Introduction to the conceptualization and planning of performance environments. Only one of the following may be counted: Theatre and Dance 354T (Topic: Stage Craft) and 354T (Topic 32) may not both be counted.

**Topic 18: Game Development Capstone: Three-Dimensional Games.** Same as Computer Science 354T and Music 354T. Participation in interdisciplinary teams to gain a thorough understanding of the three-dimensional game development process, through modeling of the environment and practices that are used in game studios. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 354T, Music 354T, 376J (Topic: Game Development Capstone: 3D Games), Theatre and Dance 354T (Topic 18). Additional prerequisite: For computer science majors, Computer Science 354, 354H, 354P, or 354R with a grade of at least C; for others, consent of instructor.

**Topic 19: Sound Design I.** Introduction to sound design for live performance. Theatre and Dance 354T (Topic: Sound Design I) and 354T (Topic 19) may not both be counted.

**Topic 21: Classical Tutu Design and Construction.** Fundamentals of classical tutu construction, including draping, pattern making, fitting techniques on a live model.

**Topic 22: Puppet Design and Construction.** Theory and technique of puppet creation and performance. May include marionettes, hand and rod, and body puppets.

**Topic 23: Armour and Fabrication.** Exploring the uses of leather as a medium for armour making. Shaping, tooling, coloring application for uses in theatre and film. Theatre and Dance 354T (Topic: Armour Design and Fabrication) and 354T (Topic 23) may not both be counted.

**Topic 24: Design Skills: Scenic Renderings.** Fundamentals of drawing and color for renderings of scenery for theatre and film. Theatre and Dance 354T (Topic: Scenic Rendering) and 354T (Topic 24) may not both be counted.

**Topic 25: Portfolio for Designers.** Fundamentals of self-marketing for theatre artists. Theatre and Dance 354T (Topic: Portfolio for Designers) and 354T (Topic 25) may not both be counted.

**Topic 26: Media Creation for Live Performance.** Introduction to the particulars of producing and integrating media into live performance environments. Only one of the following may be counted: Arts and Entertainment Technologies 329, 329C, Theatre and Dance 354T (Topic: Media Creation for Live Perf), 354T (Topic 26).

**Topic 27: Festival and Event Management.** Fundamentals of the stage management process for large public events. Theatre and Dance 354T (Topic: Festival/Event Management) and 354T (Topic 27) may not both be counted.

**Topic 28: Tailoring I.** Fundamental theory and techniques in tailoring for the live performer. Theatre and Dance 354T (Topic: Tailoring I) and 354T (Topic 28) may not both be counted.

**Topic 29: Tailoring II.** Advanced theory and techniques in tailoring for the live performer. Theatre and Dance 354T (Topic: Tailoring II) and 354T (Topic 29) may not both be counted. Additional prerequisite: Theatre and Dance 354T (Topic 28).

**Topic 30: Wig Making and Styling.** Fundamentals of building and styling wigs for use in the theatre. Only one of the following may be counted: Theatre and Dance 354T (Topic: Wig Making and Styling,) 354T (Topic 30) and 388L (Topic: Wig Making and Styling).

**Topic 31: Scenic Design.** Introduction to the conceptualization and design of scenery for the theatre.

**Topic 32: Stage Craft.** Fundamentals of scenery construction and assembly. Theatre and Dance 354T (Topic: Stage Craft) and 354T (Topic 32) may not both be counted.

**Topic 33: Projection Design.** Introduction to the field of projection design in live performance. Theatre and Dance 354T (Topic: Projection Design) and 354T (Topic 33) may not both be counted.

**Topic 34: Entertainment Systems Design.** Explores interconnectedness between lighting, projection, and media that is commonly found in live entertainment environments.

**Topic 36: Stage Management.** Fundamentals of the stage management process for theatrical production. Theatre and Dance 354T (Topic: Stage Management) and 354T (Topic 36) may not both be counted.

**Topic 37: Advanced Stage Management.** Advanced instruction in stage management for theatrical production. Theatre and Dance 354T (Topic: Advanced Stage Management) and 354T (Topic 37) may not both be counted.

**T D 355. Playwriting III.** Same as Creative Writing 355D. Focus on experiments in revising dramatic text in order to create a common vocabulary around narrative structure. Revision often includes the creation of multiple new drafts, digging through past drafts for abandoned themes, lost focus, and new inspiration as well as exploring character, narrative, and/or language. Three lecture hours a week for one semester, with laboratory hours as required. Only one of the following may be counted: Creative Writing 355D, Theatre and Dance 355T (Topic: Playwriting III), 355. Prerequisite: Upper-division standing, Creative Writing 340D or Theatre and Dance 325, and consent of instructor.

**T D 355T. Topics in Playwriting.** Three lecture hours a week for one semester, with laboratory hours as required. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and consent of instructor.

**T D 356T. Topics in Theatre Studies.** Topics in theatre studies, including creative drama, theatre for children and youth, and theatre with young adults. Three lecture hours a week for one semester, with laboratory hours as required. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

**Topic 1: Puppetry.**

**Topic 2: Latino Theatre for Young Audiences.** Theatre and Dance 356T (Topic: Latino Thtr for Young Audience) and 356T (Topic 2) may not both be counted.

**Topic 3: Creative Drama in the Museum.** The application of creative drama methods in museum settings. Theatre and Dance 356T (Topic: Creative Drama in the Museum) and 356T (Topic 3) may not both be counted.

**T D 357D. Dramaturgy.** Restricted to theatre and dance majors. Three lecture hours a week for one semester. Theatre and Dance 351T (Topic: Dramaturgy) and 357D may not both be counted. Offered on the letter-grade basis only. Prerequisite: Sophomore standing.

**T D 357T. Topics in History, Criticism, and Performance Studies.** Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and consent of instructor.

**Topic 1: Latin American Theatre and Drama.** Same as Latin American Studies 322 (Topic 13: Latin American Theatre and Drama).

**Topic 2: Gender And Sexuality in Performance.** Same as Women’s and Gender Studies 345 (Topic 56). Consider what physical performance and dance tell us about gender, sexuality and the body. Previous knowledge of performance or gender studies is not required. Only one of the following may be counted: Theater and Dance 357T (Topic:
Topic 4: Confronting LGBTQ Oppression. Same as Women's and Gender Studies 335 (Topic 1). Serves two primary functions: to increase participant's knowledge on the issues facing the Lesbian, Gay, Bisexual, Transgender, and Queer (LGBTQ) community; and to learn facilitation skills in order to talk about these issues on campus. Enrolled students will become peer educators in a team, and will give workshops across campus around LGBTQ issues during the spring semester. Only one of the following may be counted: Social Work 360K (Topic: Confronting LGBTQ Oppression), Theatre and Dance 357T (Topic: Confronting LGBTQ Oppression), 357T (Topic 4), Women's and Gender Studies 335 (Topic 1), 345 (Topic: Confronting LGBTQ Oppression). Additional prerequisite: Consent of instructor.

Topic 6: Performing LGBTQ+. Same as Comparative Literature 323 (Topic 72) and Women's and Gender Studies 335 (Topic 23). Only one of the following may be counted: Comparative Literature 323 (Topic: Performing LGBTQ+), 323 (Topic 72), Theatre and Dance 357T (Topic: Performing LGBTQ+), 357T (Topic 6), Women's and Gender Studies 335 (Topic: Performing LGBTQ+), 335 (Topic 23). Additional prerequisite: Upper-division standing.

Topic 8: Greek Tragedies and Postcolonial Dramas. Same as African and African Diaspora Studies 330V and Comparative Literature 323 (Topic 73). Study the adaptation of great dramatic literature of the Greek civilizations to their phenomenal evolution into popular African performances. Putting classical writings from Ancient Greek in dialogue with texts that formed the background of African anti-colonial revolutions, analyze how Africans have used these works to re-shape literary canon and given their world and their histories universal purchase. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 330V, 374F (Topic: Greek Tragedy/Postcol Drama), Comparative Literature 323 (Topic: Greek Tragedy/Postcol Drama), 323 (Topic 73), Theatre and Dance 357T (Topic: Greek Tragedy/ Postcol Drama), 357T (Topic 9). Additional prerequisite: For theatre and dance majors, consent of instructor; for all others, upper-division standing.

Topic 10: Reading Cannon.
T D 381D. Seminar in Directing Theory.
Application of aesthetic and creative principles to directing theory; application of directing theory to textual analysis and production concept. Three lecture hours a week for one semester, with additional laboratory hours as required. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

T D 381E. Topics in Directing Theory.
Topics, restricted or broad in scope, related to the theory of directing. Three lecture hours a week for one semester, with additional laboratory hours as required. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

T D 381F. Advanced Acting and Directing.
Problems in the theory and practice of acting and directing for the theatre. Three lecture hours a week for one semester, with additional laboratory hours as required. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, a major in acting, and consent of instructor.

T D 381G. Advanced Acting and Directing Laboratory.
Practical application of acting and directing techniques for the theatre. Twelve laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, a major in acting, and consent of instructor.

T D 381J. Directing: Modern Drama.
Theory, analysis, and practice in directing plays from the modern period. Three lecture hours a week for one semester, with laboratory hours as required. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

T D 381L. Directing: Period Drama I.
Theory, analysis, and practice in directing plays from historical periods of drama. Three lecture hours a week for one semester, with laboratory hours as required. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

T D 381M. Directing: Period Drama II.
Continuation of Theatre and Dance 381L. Theory, analysis, and practice in directing plays from historical periods of drama. Three lecture hours a week for one semester, with laboratory hours as required. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

Theory and design of secondary school theatre curriculum. Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing, secondary school teacher certification, and consent of instructor.

T D 383M. Topics in Theatre Outreach.
Topics, restricted or broad in scope, related to the theory and practice of theatrical outreach. Three lecture hours a week for one semester, with laboratory hours as required. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

Practical application of theatre outreach methods in communities. For each semester hour of credit earned, the equivalent of one class hour for one semester, with laboratory hours as required. May be repeated for credit when the projects vary. Prerequisite: Graduate standing and consent of instructor.

T D 383P. Topics in Drama and Theatre for Youth.
Topics pertinent to students' training and development in drama and theatre for youth. Three lecture hours a week for one semester, with laboratory hours as required. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

T D 381P (Topic: Digital Storytelling) and 383P (Topic 19) may not both be counted.

T D 2023-2024 General Information
T D 184, 284, 384. Special Problems in Theatre and Dance.
For each semester hour of credit earned, the equivalent of one class hour a week for one semester, with laboratory hours as required. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

T D 385C. Topics in Theatre History.
Topics, restricted or broad in scope, chosen from the history of theatre, both Western and non-Western. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

Topic 1: Theatre History, 1660-1900.
Topic 2: Medieval and Renaissance Theatre History. European theatrical history from the medieval and Renaissance periods.
Topic 3: Classical and Asian Theatre History. Survey of ancient Greek, Roman, and Asian theatrical history.
Topic 4: 20th-Century Theatre History.
Topic 6: Contemporary Theatre History.

T D 385D. Topics in Dramaturgy.
Topics pertinent to students' training and development in dramaturgical theory and practice. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

Topic 1: Dramaturgy.
Topic 2: New Play Dramaturgy.
Topic 3: Production Dramaturgy.

T D 386. Topics in Dance.
Topics pertinent to students' training and development in dance and choreography. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

Topic 1: Dance in Academia.

T D 386C. Topics in the History, Theory, and Criticism of Dance.
Topics pertinent to students' training and development in the history and theory of dance and choreography. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

T D 186D, 286D, 386D, 486D. Dance Technique.
Training in ballet, modern, and other forms of dance. For each semester hour of credit earned, the equivalent of one class hour a week for one semester, with laboratory hours as required. May be repeated for credit when the projects vary. Prerequisite: Graduate standing and consent of instructor.

T D 387D. Topics in Performance Studies.
Topics, restricted or broad in scope, related to performance studies. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

Topic 1: Applied Drama and Theatre. Survey of various applications of drama and theatre for communitarian and educational purposes.
Topic 2: Performance Analysis.
Topic 3: Performance Ethnography.
Topic 4: Performing Autobiography. The overlapping territory between performing the self and performing the biographical other.
Topic 5: Seminar in Theatre History and Performance Studies.

T D 387M. Topics in Dramatic Theory and Criticism.
Topics, restricted or broad in scope, concerning theory and criticism as they relate to drama or theatre. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

Topic 1: Dramatic Theory and Criticism, Ancient Greece to the Eighteenth Century.
Topic 2: Dramatic Theory and Criticism, the Eighteenth Century to 1960.

T D 387N. Topics in Dramatic Form and Structure.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

Topic 2: Devised Work. Theatre and Dance 387N (Topic: Devised Work) and 387N (Topic 2) may not both be counted.

T D 387P. Playwriting Workshop.
Theory and practice of dramatic writing. Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

T D 387R. Playwriting For Youth.
Advanced study and practice of writing plays for children and youth. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

T D 388. Research Methods and Resources.
Theory and practice of academic research for theatre artists. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

T D 388J. Advanced Design and Technology Studio.
Problems in the theory of scenic design, costume design, lighting design, and theatre technology. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

Topic 1: Costume Design.
Topic 2: Costume Technology.
Topic 3: Lighting Design.
**T D 488K. Advanced Design and Technology Laboratory.**
Practical applications of production theory for theatrical designers and technicians. Laboratory hours as required. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**T D 388L. Advanced Topics in Design and Technology.**
Topics that are related to and support the study of theatrical design and technology. Three lecture hours a week for one semester, with laboratory hours as required. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**T D 188M, 288M, 388M. Advanced Projects in Design and Technology.**
Advanced independent study projects in scenic design, costume design, lighting design, and theatre technology. For each semester hour of credit earned, the equivalent of one class hour a week for one semester, with laboratory hours as required. May be repeated for credit when the projects vary. Prerequisite: Graduate standing and consent of instructor.

**T D 388R. Research and History for the Visual Theatre.**
Study of the development of dress and decor, as seen in a general historical context, with an introduction to research methods appropriate for theatrical designers and technicians. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.
Tamil 604 and 507 may not both be counted.

Tamil 604 and 506 may not both be counted; Tamil 604 and 507 may not both be counted. Designed for students who understand or speak but do not read or write Tamil. Six class hours a week for one semester. Tamil 604 and 507 may not both be counted. Prerequisite: Tamil 604 with a grade of at least C.

T D 393. Seminar in Theory, Criticism, and Analysis.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

In-depth exploration of literature in specialized areas of interest, primarily as preparation for doctoral examinations and dissertation proposals. Conference course equivalent to three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

Advanced independent study projects in performance studies, theatre history, theory, criticism, performance as public practice, drama and theatre for youth, theatre outreach, and dramaturgy. For each semester hour of credit earned, the equivalent of one class hour a week for one semester, with laboratory hours as required. May be repeated for credit when the projects vary. Prerequisite: Graduate standing and consent of instructor.

The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For Theatre and Dance 698A, graduate standing and consent of the graduate adviser; for 698B, Theatre and Dance 698A (or Drama 698A).

T D 398T. Supervised Teaching in Theatre and Dance.
Theory and practice of pedagogy in theatre and dance. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses

TAM - Tamil

Tamil: TAM

Lower-Division Courses

TAM 604. Accelerated First-Year Tamil.
Not open to native speakers of Tamil. Designed for students who understand or speak but do not read or write Tamil. Six class hours a week for one semester. Tamil 604 and 506 may not both be counted; Tamil 604 and 507 may not both be counted.

TAM 506. First-Year Tamil I.
Not open to native speakers of Tamil. Five lecture hours a week for one semester. Tamil 506 and 604 may not both be counted.

TAM 507. First-Year Tamil II.
Not open to native speakers of Tamil. Five lecture hours a week for one semester. Tamil 604 and 507 may not both be counted. Prerequisite: Tamil 506 with a grade of at least C.

TAM 612. Accelerated Second-Year Tamil.
Not open to native speakers of Tamil. Continuation of Tamil 604. Designed for students who understand or speak but do not read or write Tamil. Six class hours a week for one semester. Tamil 612 and 312K may not both be counted; Tamil 612 and 312L may not both be counted. Prerequisite: Tamil 604 with a grade of at least C.

TAM 312K. Second-Year Tamil I.
Not open to native speakers of Tamil. Three lecture hours a week for one semester. Tamil 612 and 312K may not both be counted. Prerequisite: Tamil 507 with a grade of at least C.

TAM 312L. Second-Year Tamil II.
Not open to native speakers of Tamil. Three lecture hours a week for one semester. Tamil 612 and 312L may not both be counted. Prerequisite: Tamil 312K with a grade of at least C.

Upper-Division Courses

TAM 320K. Advanced Tamil I.
Not open to native speakers of Tamil. Three lecture hours a week for one semester. Prerequisite: Tamil 312L with a grade of at least C.

TAM 320L. Advanced Tamil II.
Not open to native speakers of Tamil. Three lecture hours a week for one semester. Prerequisite: Tamil 320K with a grade of at least C.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Asian Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

TAM 330. Topics in Tamil Language and Literature.
Not open to native speakers of Tamil. Study of specific subjects related to South Asian culture as reflected in Tamil literary productions and other modes of expression. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Tamil 312L with a grade of at least C.

TAM 360. Conference Course in Tamil Language and Literature.
Supervised individual study of selected problems in Tamil language and literature. Conference course. May be repeated for credit. Prerequisite: Upper division standing and written consent of instructor on form obtained from the undergraduate adviser.

Graduate Courses

TAM 381. Conference Course in Tamil Language and Culture.
Supervised individual study in Tamil language or culture. The equivalent of three lecture hours a week for one semester. May be repeated for
credit. Prerequisite: Graduate standing and written consent of instructor on form obtained from the graduate coordinator.

TAM 384. Topics in Tamil Language and Culture. Study of various aspects and periods of Tamil language and culture. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and Tamil 312L with a grade of at least C.

TEL 384. Topics in Telugu Language and Culture. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and Telugu 312L with a grade of at least C.

Professional Courses

TUR - Turkish

Turkish: TUR

Lower-Division Courses

TUR 601C. Intensive Turkish I. First semester of intensive Turkish language instruction. Six lecture hours a week for one semester. Turkish 601C and 506 may not both be counted. Turkish 601C and 507 may not both be counted.

TUR 506. First-Year Turkish I. Modern Standard Turkish. Five lecture hours a week for one semester. Turkish 601C and 506 may not both be counted.

TUR 507. First-Year Turkish II. Modern Standard Turkish. Continuation of Turkish 506. Five lecture hours a week for one semester. Turkish 601C and 507 may not both be counted. Prerequisite: Turkish 506 with a grade of at least C.

TUR 601C. Intensive Turkish I. First semester of intensive Turkish language instruction. Six lecture hours a week for one semester. Turkish 601C and 506 may not both be counted. Turkish 601C and 507 may not both be counted.

TUR 601C. Intensive Turkish II. Second semester of intensive Turkish language instruction. Six lecture hours a week for one semester. Turkish 611C and 412K may not both be counted. Turkish 611C and 412L may not both be counted. Prerequisite: Turkish 601C or 507 with a grade of at least C.

TUR 412K. Second-Year Turkish I. Conversational Turkish and readings in contemporary Turkish literature and newspapers. Review of the grammar covered in Turkish 506 and 507, and introduction of more complex grammatical patterns. Four lecture hours a week for one semester. Turkish 611C and 412K may not both be counted. Prerequisite: Turkish 601C or 507 with a grade of at least C.

TUR 412L. Second-Year Turkish II. Continuation of Turkish 412K. Four lecture hours a week for one semester. Turkish 611C and 412L may not both be counted. Prerequisite: Turkish 412K with a grade of at least C.
This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Middle Eastern Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses
TUR 320K. Intermediate Turkish I.
Not open to native speakers of Turkish. Intermediate to high-level Turkish in four basic language skills: speaking, listening, reading, and writing. Turkish culture. Three lecture hours a week for one semester. Prerequisite: Turkish 611C or 412L with a grade of at least C.

TUR 320L. Intermediate Turkish II.
Not open to native speakers of Turkish. Continuation of Turkish 320K. Three lecture hours a week for one semester. Prerequisite: Turkish 320K with a grade of at least C.

TUR 325K. Advanced Turkish I.
Restricted to nonnative speakers of Turkish. Three lecture hours a week for one semester. Turkish 325K and 329 (Topic: Advanced Turkish I) may not both be counted. Prerequisite: Turkish 320L with a grade of at least C.

TUR 325L. Advanced Turkish II.
Restricted to nonnative speakers of Turkish. Advanced Turkish language instruction. Three lecture hours a week for one semester. Turkish 325L and 329 (Topic: Advanced Turkish II) may not both be counted. Prerequisite: Turkish 325K or the equivalent.

TUR 329. Topics in Turkish Language, Literature, and Culture.
Conducted in Turkish. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and Turkish 611C or 412L with a grade of at least C.

TUR 329C. Turkish Cinema.
Three lecture hours a week for one semester. Turkish 329 (Topic: Turkish Cinema) and 329C may not both be counted. Prerequisite: Turkish 611C or 412L with a grade of at least C.

TUR 329D. Turkish Society and Culture.
Explore aspects of contemporary Turkish society and culture while building intercultural communicative competence in modern Turkish through listening, speaking, reading, and writing activities in and outside of class. Focus on daily life and material culture, and guides students to develop efficient reading, listening, and viewing strategies. Three lecture hours a week for one semester. Turkish 329 (Topic: Turkish Society and Culture) and 329D may not both be counted. Prerequisite: Upper-division standing, and Turkish 611C or 412L with a grade of at least C.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Middle Eastern Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

TUR 130D. Turkish across Disciplines.
Students read and discuss Turkish language materials related to the subject matter of another designated course. One lecture hour a week for one semester. No more than three semester hours may be counted toward the major in either Middle Eastern Studies or Middle Eastern Languages and Culture. May be repeated for credit. Prerequisite: Upper-division standing, Turkish 320L, and consent of instructor.

TUR 369. Conference Course in Turkish Language and Literature.
Supervised individual study of selected problems in Turkish language or literature. Conference course. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

Graduate Courses
TUR 380. Topics in Turkish Language and Literature.
Study of various aspects or eras of Turkish language and literature. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, and Turkish 412L or the equivalent.

TUR 381H. Intensive Graduate Language Instruction I.
Intensive cultural and literacy-focused training in Turkish at the beginning level in preparation for research in the Turkic-speaking world or with Turkish sources. Incoming students are placed in the appropriate level by means of a departmental placement test. Six lecture hours a week for one semester. Prerequisite: Graduate standing.

TUR 381J. Intensive Graduate Language Instruction II.
Intensive cultural and literacy-focused training in Turkish at the low-intermediate level in preparation for research in the Turkic-speaking world or with Turkish sources. Incoming students are placed in the appropriate level by means of a departmental placement test. Six lecture hours a week for one semester. Prerequisite: Graduate standing and Turkish 381H with a grade of at least B.

TUR 381K. Intermediate Graduate Language Instruction I.
Intensive cultural and literacy-focused training in Turkish at the intermediate level in preparation for research in the Turkic-speaking world or with Turkish sources. Includes an independent project component. Incoming students are placed in the appropriate level by means of a departmental placement test. Three lecture hours a week for one semester. Prerequisite: Graduate standing and Turkish 381J with a grade of at least B.

TUR 381L. Intermediate Graduate Language Instruction II.
Intensive cultural and literacy-focused training in Turkish at the high-intermediate level in preparation for research in the Turkic-speaking world or with Turkish sources. Includes an independent project component. Incoming students are placed in the appropriate level by means of a placement test. Three lecture hours a week for one semester. Prerequisite: Graduate standing and Turkish 381K with a grade of at least B.

TUR 381M. Advanced Language Instruction I.
Restricted to non-native speakers of Turkish. Intensive cultural and literacy-focused training in Turkish at the advanced level in preparation for research in the Turkic-speaking world or with Turkish sources. Incoming students are placed in the appropriate level by means of a departmental placement test. Three lecture hours a week for one semester. Prerequisite: Graduate standing and Turkish 381L or the equivalent with a grade of at least C.
TUR 381N. Advanced Language Instruction II.
Restricted to non-native speakers of Turkish. Intensive cultural and literacy-focused training in Turkish at the advanced level in preparation for research in the Turkic-speaking world or with Turkish sources. Incoming students are placed in the appropriate level by means of a departmental placement test. Three lecture hours a week for one semester. Prerequisite: Graduate standing and Turkish 381M or the equivalent with a grade of at least C.

TUR 382. Topics in Turkish Culture.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

TUR 389. Conference Course in Turkish Studies.
The equivalent of three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing, consent of the graduate adviser, and consent of instructor.

TUR 390K. Advanced Turkish I.
Intermediate to high-level Turkish in four basic language skills: speaking, listening, reading, and writing. Turkish culture. Three lecture hours a week for one semester. Prerequisite: Graduate standing, and Turkish 412L or the equivalent.

TUR 390L. Advanced Turkish II.
Continuation of Turkish 390K. Three lecture hours a week for one semester. Prerequisite: Graduate standing, and Turkish 390K or the equivalent.

Professional Courses

**TXA - Textiles and Apparel**

**Textiles and Apparel: TXA**

**Lower-Division Courses**

**TXA 301. Clothing the Planet.**
Study of the role textiles and apparel play in human lives. Introduction to the textile and apparel industries, and the broad perspective and core skill sets that characterize the field. Subjects include terminology, fibers and fabrics, textile technology, product development through fashion design and retail merchandising, global sourcing and manufacturing, international promotion and marketing, and textile conservation, exhibition, and collection management. Three lecture hours a week for one semester. Textiles and Apparel 301 and 301C may not both be counted.

**TXA 301C. Introduction to the Fashion Industry.**
Explore the apparel and textiles industry with an emphasis on ethical and sustainable issues related to the industry. Examine a broad view of the interrelated fields of design, merchandising, product development, and textiles alongside emerging themes in the field. Three lecture hours a week for one semester. Textiles and Apparel 301 and 301C may not both be counted.

**TXA 103, 203, 303. Topics in Textiles and Apparel.**
For each semester hour of credit earned, the equivalent of one hour a week for one semester. May be repeated for credit when the topics vary.

**TXA 205, 305. Textiles.**
Chemical and physical properties of fibers and yarns, fabric construction, and finishes. For 205, one lecture hour and one-and-one-half laboratory hours a week for one semester; for 305, two lecture hours and one-and-one-half laboratory hours a week for one semester.

**TXA 105L. Textiles Laboratory.**
Three laboratory hours a week for one semester. Prerequisite: Credit or registration for Textiles and Apparel 205.

**TXA 212K. Apparel Industry.**
Introduction to the integrated apparel design industry from the creative and merchandising perspective. Two lecture hours a week for one semester. Prerequisite: Credit with a grade of at least C or registration for Textiles and Apparel 212L; and the following coursework with a grade of at least C in each course: Textiles and Apparel 316L or 316Q; and 219C or 119L.

**TXA 212L. Apparel Product Development and Design Laboratory.**
Six laboratory hours a week for one semester. Prerequisite: Credit or registration for Textiles and Apparel 212K.

**TXA 313. Aesthetics: Theory and Practice.**
Introduction to the theoretical and practical aspects of the principles of design and visual literacy in the field of textiles and apparel. Introduction to the principles and theories that define what is aesthetically pleasing and the vocabulary necessary to identify, describe, and critique them. Three lecture hours a week for one semester.

**TXA 314C. Computer-Aided Design for Apparel.**
Explore computer technology used to create textile prints, weaves, illustrations, flat patterns, promotional pieces, and pattern markers. One lecture hour and six laboratory hours a week for one semester. Textiles and Apparel 314C and 355C may not both be counted. Prerequisite: Credit or registration for Textiles and Apparel 301C.

**TXA 214K, 314K. Product Development.**
Introduction to all stages of product development involved in fashion and functional design with an emphasis on target market identification, cost analysis, material selection, and the organization of product development within the industry structure. Apply product development skills and strategies involved in fashion and functional design. For 214K, one lecture hour and two laboratory hours a week for one semester; for 314K, one lecture hour and three laboratory hours a week for one semester. Textiles and Apparel 303 (Topic: Product Development) and 314K may not both be counted. Prerequisite: Textiles and Apparel 314C with a grade of at least C:

**TXA 214L. Product Development Laboratory.**
Application of product development skills and strategies involved in fashion and functional design. Emphasis on target market identification, cost analysis, material selection, and the position of product development within the industry structure. Six laboratory hours a week for one semester. Prerequisite: Concurrent registration for Textiles and Apparel 214K.

**TXA 316L. Apparel I.**
Industrial techniques of pattern design and garment construction. One lecture hour and six laboratory hours a week for one semester. Prerequisite: Textiles and Apparel 305 with a grade of at least C and consent of instructor.

**TXA 316Q. Sewn Products Analysis.**
Evaluation of soft goods, including materials, quality of work, and costs. Three lecture hours a week for one semester. Textiles and Apparel 316Q
and 316R may not both be counted. Prerequisite: Textiles and Apparel 301C with a grade of at least C-.

**TXA 316R. Sewn-Product Analysis and Manufacturing.**
Explore apparel production and manufacturing processes, including an evaluation of soft goods, materials, quality of work, and costs. Examine conceptual framework of the manufacturing process for future apparel professionals. Discuss the apparel production cycle: how apparel products are designed, created, and distributed. Analyze garment design and construction features to understand their relationship to apparel cost and quality. Three lecture hours a week for one semester. Textiles and Apparel 316Q and 316R may not both be counted. Prerequisite: Textiles and Apparel 301C with a grade of at least C-.

**TXA 317D. Fashion Design Thinking.**
Introduction to the process of primary and secondary research, design, and construction. Two lecture hours and one-and-one-half laboratory hours a week for one semester. Prerequisite: Textiles and Apparel 316L with a grade of at least C-.

**TXA 317T. Textiles Fabrication.**
Apply textile theory and properties to create yarn and fiber based materials such as woven, knit, and non-woven textiles. One lecture hour and three lab hours a week for one semester. Prerequisite: For Textiles and Apparel majors, Textiles and Apparel 305 with a grade of at least C; for others, consent of instructor.

**TXA 318E. Fashioning America.**
Explore the history of the United States from pre-Civil War to contemporary society as reflected through targeted as well as changing styles in costume and dress. Examine the ability of dress as a device that can communicate political, social, economic, aesthetic and cultural change. Analyze clothing choices as related to exterior motivations including protection, gender, status and decoration. Relate the power of dress to particular demographic groups throughout history. Acquire a vocabulary with which to describe apparel and related items. Three lecture hours a week for one semester. Textiles and Apparel 303 (Topic: Fashioning America) and 318E may not both be counted.

**TXA 318T. Medical Textiles.**
Explore special and functional textiles to address medical applications and public health challenges such as artificial organs and tissue scaffolds, medical aid devices, the use of antiviral and antibacterial materials, and personal protection equipment. Three lecture hours a week for one semester. Prerequisite: For Textiles and Apparel majors, Textiles and Apparel 305 with a grade of at least C; for others, consent of instructor.

**TXA 219C, 319C. Applied Art in Visual Presentation.**
Explore the principles and elements of design as related to merchandising presentation, display planning, execution, and coordination. For each semester hour of credit earned, one lecture hour a week for one semester. Prerequisite: Textiles and Apparel 301C with a grade of at least C-.

**TXA 119L. Applied Art in Visual Presentation Laboratory.**
Application of the principles and elements of design as related to merchandise presentation, display planning, execution, and coordination. Three laboratory hours a week for one semester. Students with credit for Textiles and Apparel 319 may not earn credit for Textiles and Apparel 119L. Prerequisite: Credit with a grade of at least C- or registration for Textiles and Apparel 219C.

**TXA 319R. Merchandise Presentations in Retail Environments.**
Explore an integrated approach to communicating, presenting and evaluating two-and three-dimensional design strategies for merchandise presentation (both digital and brick and mortar environments). Examine components of both design and execution rooted in a foundation of visual merchandising theory, skills, and terminology. One lecture hour and three laboratory hours a week for one semester. Prerequisite: Textiles and Apparel 301C with a grade of at least C-.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the School of Human Ecology. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**Upper-Division Courses**

**TXA 325K. Culture, Gender, and Appearance.**
Social, economic, aesthetic, and political aspects of historic costume and of the evolution of modern dress. Three lecture hours a week for one semester. Prerequisite: Textiles and Apparel 219C and 119L with a grade of at least C- in each, or Art History 301.

**TXA 325L. History of Dress and Cultural Change I.**
Social, economic, aesthetic, and political aspects of costume evolution from ancient times through the Renaissance. Three lecture hours a week for one semester. Textiles and Apparel 325K and 325L may not both be counted. Prerequisite: Upper-Division standing.

**TXA 325M. History of Dress and Cultural Change II.**
Social, economic, aesthetic, and political aspects of costume evolution from the Baroque period through modern times. Three lecture hours a week for one semester. Textiles and Apparel 325K and 325M may not both be counted.

**TXA 126, 326. Apparel II.**
Advanced apparel construction techniques using industry standards and portfolio development. For 126, one lecture hour a week for one semester; for 326, one lecture and five laboratory hours a week for one semester. Prerequisite: Textiles and Apparel 316L with a grade of at least C-.

**TXA 226L. Apparel II Laboratory.**
Advanced apparel construction techniques using industry standards and portfolio development. Six laboratory hours a week for one semester. Prerequisite: Credit or registration for Textiles and Apparel 126.

**TXA 327. Clothing and Human Behavior.**
The social, psychological, and nonverbal significance of clothing and the influence of clothing on behavior. Three lecture hours a week for one semester. Textiles and Apparel 327 and 327C may not both be counted.

**TXA 327C. Social Psychology of Dress and Appearance.**
Explore cultural, social, and psychological significance of dress and appearance. Examine theories related to the ways individuals communicate and interpret the self, identity, and social roles through dress and appearance in contemporary society. Three lecture hours
a week for one semester. Prerequisite: Three semester hours of coursework in psychology, sociology, or the School of Human Ecology.

Basic research methodology and academic writing. Three lecture hours a week for one semester. Prerequisite: Textiles and Apparel 301C with a grade of at least C-.

Topics in Textiles and Apparel.
This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the School of Human Ecology. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Overview of the textiles and apparel industry including apparel industry standards, labor costs, economics, distribution, and structure in the modern global marketplace. Subjects include the analysis of consumption patterns and retailing systems to inform product development; exploring cross-cultural comparisons between global consumer markets; understanding importing and exporting systems and other procedures involved in modern supply chain activities; and grasping the collaborative nature of innovation and design, manufacturing and distribution, retailing, and consumer satisfaction. Three lecture hours a week for one semester. Prerequisite: Textiles and Apparel 331 and 331E may not both be counted. Prerequisite: Upper-division standing.

TXA 331E. Textiles and Apparel in the Global Marketplace.
Explore global textile and apparel industries and the factors affecting global sourcing from product concept to distribution with an emphasis on global issues. Examine the textile and apparel complex and its history, international trade and the effects of trade policy, the sourcing process, selection of sourcing locations and partners, sourcing regions of the world, and current trends. Three lecture hours a week for one semester. Prerequisite: Textiles and Apparel 331 and 331E may not both be counted. Prerequisite: Textiles and Apparel 301C, 316Q, or 314 with a grade of at least C-.

Explore workshops and tours focused on fashion, its history, and techniques. Textiles and Apparel 340E and TXA 365 (Topic: Paris: History/Techniq-Fra) may not both be counted.

TXA 340T. Sustainable Textile Manufacturing.
Explore sustainable textile manufacturing practices including renewable fiber manufacturing, textile circular manufacturing, and apparel recycling. Three lecture hours a week for one semester. Prerequisite: Textiles and Apparel majors, Textiles and Apparel 305 with a grade of at least C-; for others, any one science-based course in Chemistry, Biology, Physics, Computer Science, Mechanical Engineering, Chemical Engineering, Civil Engineering, or Electrical and Computer Engineering.

Connect with industry partners to explore design and product development processes through the brand's commercial lens. Three lecture hours a week for one semester. Textiles and Apparel 341E and TXA 365 (Topic: Accessory Design, Product Development and Merchandising) may not both be counted. Prerequisite: Upper-division standing.

Restricted to students in the UT in New York program. Explore significant apparel-related businesses such as major retailers, fashion designers, lifestyle brands, apparel and beauty product manufacturers, and licensing firms. Interact with industry leaders such as C-Suite Leaders, Directors, Presidents, VP's Merchants, and museums such as The Metropolitan Costume Institute. Three hours per week for one semester. Prerequisite: Textiles and Apparel 365 (Topic: New York City Tour-NYC) and Textiles and Apparel 342E may not both be counted. Prerequisite: Textiles and Apparel 301C, 305, and 314 with a grade of at least C- in each.

TXA 350. Advanced Apparel Design Portfolio.
Explore workshops and tours focused on fashion, its history, and techniques. Textiles and Apparel 340E and TXA 365 (Topic: Paris: History/Techniq-Fra) may not both be counted. Prerequisite: For Textile and Apparel majors, Textiles and Apparel 314C and 314K with a grade of at least C-; for others, consent of instructor.

TXA 350D. Advanced Apparel Design Portfolio.
Examine workshop participation and tours focused on fashion, its history, and techniques. Three lecture hours a week for one semester. Prerequisite: Upper-division standing; Textiles and Apparel 350 and 350D may not both be counted. Prerequisite: Upper-division standing; Textiles and Apparel 350 and 350D may not both be counted. Prerequisite: Upper-division standing.

TXA 351. Pre-Internship Seminar.
Preparation course for students seeking internships. Subjects include application, internship interview process, effective professional communication, ethical decision making, leadership development, site expectations, and the impact of business environments on personal and career effectiveness in the field of textiles and apparel. One lecture hour a week for one semester. Prerequisite: Upper-division standing.

TXA 351D. Advanced Apparel Design.
Expand range of expertise in developing design proposals to include knitted or printed textiles, other apparel categories, menswear, size inclusivity, children's wear, and accessories. Focus on expanding depth and breadth of skills as relevant to career opportunities. Two lecture hours and one and one-half laboratory hours a week for one semester. Prerequisite: Textiles and Apparel 314C and 314K with a grade of at least C-.

TXA 351R. Merchandising Technology.
Examine various technologies relevant to merchandising and retailing. One lecture hour and three laboratory hours a week for one semester. Prerequisite: Textiles and Apparel 317R with a grade of at least C-.

TXA 352C, 652C. Field Experience in Textile Conservation Internship.
Participation in an approved internship after completion of all conservation science stream coursework. Students will be placed in an appropriate site under the supervision of an available professional such that students may experience collection management, artifact storage and conservation, exhibit planning/installation, environmental
monitoring, and/or other museum or conservation activities. A formal agreement between the faculty supervisor and internship sponsor will govern activities and be monitored throughout the experience through assignments, regular electronic communication, and a site visit. For Textiles and Apparel 352C, a minimum of 150 hours of supervised fieldwork for one semester. For Textiles and Apparel 652C, a minimum of 225 hours of supervised fieldwork for one semester. Prerequisite: Upper-division standing; and Admission to the Conservation Certificate Program, or Textiles and Apparel 219C, 119L, 354C, 354D, 354E, 354F, and 355D, and admission to the Conservation Internship Program for Conservation Science, Option IV major.

TXA 352D. Field Experience in Apparel Design.
Application of apparel design techniques and principles in a professional environment. At least 154 hours of fieldwork for one semester. Prerequisite: Admission to the Apparel Design Internship Program, and Textiles and Apparel 164K (Topic 1: Flat Pattern) and 264L (Topic 1: Flat Pattern) with a grade of at least C- in each.

TXA 352E. Historic Apparel Collections and Exhibit Management.
Explore the history of fashion, design thinking, visual display design, and execution. One lecture hour and three laboratory hours a week for one semester. Prerequisite: Textiles and Apparel 325L or Textiles and Apparel 325M with a grade of at least C-.

TXA 352M. Field Experience in Retail Merchandising.
Application of merchandising techniques and principles in a professional environment. At least 154 hours of supervised fieldwork for one semester. Prerequisite: Admission to the Retail Merchandising Internship Program.

TXA 353. Field Experience I.
Application of merchandising strategic planning in a professional environment with faculty and site director supervision. At least 150 hours of supervised fieldwork for one semester. Textiles and Apparel 315K and Textiles and Apparel 353 may not both be counted. Prerequisite: Admission to the Retail Merchandising Internship Program.

TXA 353D. Apparel Design Mentorship.
Connect with a Textiles and Apparel design alum - a professional designer as a mentor. Build awareness of current apparel industry practices and standards expected for entry level design positions. Two lecture hours and one-and-one-half laboratory hours a week for one semester. Textiles and Apparel 353D and 365 (Topics: Apparel Design Mentors) may not both be counted. Prerequisite: Textiles and Apparel 350 with a grade of at least C-.

TXA 354C. Material Properties and Deterioration.
Overview of the major mechanisms of textile deterioration from a variety of sources including light, dirt, various insects and microorganisms, as well as mechanical wear and tear. Examination of the peculiarities of these deterioration phenomena through the study of the basic chemical and physical properties of the fibers constituting the textiles. Three lecture hours a week for one semester. Prerequisite: Textiles and Apparel 354E with a grade of C- or better.

TXA 354D. Instrumental Methods for Conservation Assessment.
Overview of primary instrumental methods for evaluating historical textiles in terms of physical characteristics, chemical content, strength loss, structural deterioration, color change, and overall structural integrity and status of impact of environmental factors. Focus on instrumental features, measuring procedures, and interpretation of instrumental data.

Three lecture hours a week for one semester. Prerequisite: Textiles and Apparel 354E with a grade of at least C-.

TXA 354E. Conservation Planning and Preventive Treatments.
Implementation and management of textile conservation. Subjects include general requirements for preserving historical textiles, procedures for planning textile conservation projects, and major physical and chemical methods of preventive and postdamage treatments for historical textiles. One lecture hour and four laboratory hours a week for one semester. Prerequisite: The following with a grade of at least C: Chemistry 320M, Textiles and Apparel 260L, and 260M.

TXA 354F. Advanced Exhibit Planning and Installation.
Planning and implementation of a full museum exhibit including budget, selection and preparation of artifacts, prop construction, signage, educational and promotional materials, donor/supporter communication, and opening event. Serves as a pre-internship/capstone course for conservation science majors. Six laboratory hours a week for one semester. Prerequisite: Textiles and Apparel 325L, 325M, and 355D.

TXA 155, 355. Problems Course.
Intensive study of selected problems of an interdisciplinary nature. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Consent of instructor.

Computer technology used to create textile prints, weaves, illustrations, flat patterns, promotional pieces, and pattern markers. One lecture hour and six laboratory hours a week for one semester. Textiles and Apparel 314C and 355C may not both be counted. Prerequisite: Textiles and Apparel 205 and 105L with a grade of at least C- in each; and credit with a grade of at least C- or registration for Textiles and Apparel 164K (Topic 1: Flat Pattern) and 264L (Topic 1: Flat Pattern); for non-majors, consent of instructor.

Principles and techniques in the identification, documentation, conservation, and exhibition of textile-based artifacts. Six laboratory hours a week for one semester. Prerequisite: Textiles and Apparel 325M.

TXA 355K. Textile and Apparel Economics.
Economic and regulatory aspects of the textile and apparel industries. Three lecture hours a week for one semester. Prerequisite: Textiles and Apparel 205 and 105L with a grade of at least C- in each, and Economics 304K and 304L with a grade of at least C- in each.

TXA 355N. History of Textiles.
Role of textiles in the social, economic, aesthetic, and technological development of society, including production and design of textiles throughout history. Three lecture hours a week for one semester. Prerequisite: Textiles and Apparel 205 and 105L and three semester hours of coursework in art history, with a grade of at least C- in each course.

TXA 355P. Problems in Retail Merchandising.
Intensive study of selected problems related to field experience; development of analytical and problem-solving skills for retailing. At least 154 hours of supervised fieldwork for one semester. Prerequisite: Admission to the Retail Merchandising Internship Program.

TXA 356. Internship.
Reflect on the internship and faculty mentorship. Three hours a week for one semester. Face to face hours will vary based upon intern
requirements Prerequisite: Textiles and Apparel 151 or Textiles and Apparel 350 with a grade of at least C- and consent of the Director of Textiles and Apparel.

TXA 359H. Honors Reading Course.
Supervised individual reading on special subjects. Conference course. Prerequisite: Upper-division standing, a University grade point average of at least 3.00, and consent of the undergraduate adviser.

Analyze and evaluate textile performance. One lecture hour and three laboratory hours a week for one semester Textiles and Apparel 360 and 260M may not both be counted. Prerequisite: Textiles and Apparel 305 with a grade of at least C-.

TXA 260L, 360L. Advanced Textiles.
Composition, structure, and properties of textile products; contributions of textile research. For each semester hour of credit earned, one lecture hour a week for one semester. Prerequisite: Textiles and Apparel 305 with a grade of at least C-.

TXA 361. Consumer Behavior in the Marketplace.
Internal and external factors that influence consumer behavior in the marketplace. Application of concepts and theories from the social sciences to the areas of textiles, clothing, and appearance; experience in conducting market and consumer research. Three lecture hours a week for one semester.

TXA 361T. Biopolymers and Biomaterials.
Examine bio-fibers, bio-materials, and membrane formation and applications from a textile foundation. Three lecture hours a week for one semester. Prerequisite: Textiles and Apparel 305, Textiles and Apparel 360, and Chemistry 301N with a grade of at least C- in each.

TXA 362D. CLO 3D.
Explore technology, pattern-making and garment construction intertwined with a modern approach to garment design. Utilize CLO 3D software for 3D rendering and flat pattern design on a virtual croquis. One lecture hour and three hours of laboratory a week for one semester. Prerequisite: Textiles and Apparel 366D with a grade of at least C-.

TXA 362T. Smart Textiles and Apparel Systems.
Explore advanced technologies of conductive yarns, e-textiles and wearable technology integration. Two lecture hours and one-and-one-half laboratory hours a week for one semester. Prerequisite: Textiles and Apparel Majors, Textiles and Apparel 305 and 360 with a grade of at least C-; for others, any one science-based course in Chemistry, Biology, Physics, Computer Science, Mechanical Engineering, Chemical Engineering, Civil Engineering, or Electrical & Computer Engineering.

TXA 363D. Jewelry Design and Technology.
Explore 3D CAD software, such as Fusion 360 to create renderings and models. Utilize technology equipment such as 3D printing and laser cutting to create a real life sample of original designs. One lecture hour and three laboratory hours a week for one semester. Prerequisite: Junior or Senior standing.

TXA 363T. Nanotechnologies in Textiles.
Explore sustainable textile manufacturing practices including renewable fiber manufacturing, textile circular manufacturing, and apparel recycling. Two lecture hours and one-and-one-half laboratory hours a week for one semester. Prerequisite: Textiles and Apparel 305 and 360 both with a grade of at least C-, and any one of the following Chemistry courses: 301, 301C, 301H, or 301N.

TXA 164K. Advanced Problems in Clothing.
Creative application of flat pattern or draping processes. One lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Textiles and Apparel 212K, 212L, 316L, 126, and 226L, with a grade of at least C- in each; and credit with a grade of at least C- or registration for the same topic of Textiles and Apparel 264L.

TXA 264L. Advanced Problems in Apparel Laboratory.
Six laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Credit with a grade of at least C- or registration for the same topic of Textiles and Apparel 164K.

For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing. Additional prerequisites vary with the topic.

TXA 366D. Flat Pattern.
Explore the creative application of flat pattern processes. One lecture hour and five laboratory hours a week for one semester. Only one of the following may be counted: Textiles and Apparel 364C, 365 (Topic: Flat Pattern), 366D. Prerequisite: Textiles and Apparel 326 with a grade of at least C-.

TXA 368D. Capstone Collections.
Examine advanced apparel design. Explore the creative application of draping processes. One lecture hour and five laboratory hours a week for one semester. Only one of the following may be counted: Textiles and Apparel 364D, 365 (Topic: Draping), 367D. Prerequisite: Textiles and Apparel 366D with a grade of at least C-.

TXA 376. Principles of Retail Merchandising.
Retail strategic planning and implementation for soft goods and apparel. Three lecture hours a week for one semester. Textiles and Apparel 376 and 376R may not both be counted. Prerequisite: Textiles and Apparel 376D with a grade of at least C-.

TXA 376R. Concepts and Innovations in Retailing.
Develop understanding of retail strategy, channels of distribution, private labels, innovation in retail, and the key issues impacting growth in retail firms including exposure to issues facing retailers in international settings. Three lecture hours a week for one semester. Textiles and Apparel 376 and 376R may not both be counted. Prerequisite: Textiles and Apparel 317R and 319R with a grade of at least C-.

TXA 377. Merchandising Systems.
Application course focusing on the calculation and analysis of the selling price, profitability, assortment planning, purchasing, and inventory control. Includes spreadsheet application and exercises. Prerequisite: Upper-division standing; Textiles and Apparel 301, 205, 105L, 214K, 214L, 316Q, 219C, 119L, 151, and 376; and admission to the Retail Merchandising Internship Program.

TXA 377R. Merchandising Math II.
Three semester hours a week for one semester. Prerequisite: Textiles and Apparel 317R with a grade of at least C-.
TXA 378H. Honors Seminar in Textiles and Apparel.
The equivalent of three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing, a University grade point average of at least 3.00, and consent of the honors adviser.

TXA 379H. Honors Tutorial Course.
Supervised individual research on a special topic in textiles and apparel; oral presentation and preparation of a scholarly paper covering the research. May be based on laboratory, library, or field research. Conference course. May be taken twice for credit. Prerequisite: Upper-division standing, admission to the Textiles and Apparel Honors Program, Textiles and Apparel 359H with a grade of at least B-, and consent of the honors adviser.

TXA 379R. Strategic Brand Management.
Examine strategic brand management and trademark protection. Explore the process of how an institution strategically manages a product category and grants rights to a specific group of licenses. Two lecture hours and one-and-a-half laboratory hours a week for one semester. Prerequisite: Textiles and Apparel 377R with a grade of at least C-.

Graduate Courses

Directed research in various topics in the area of textile and apparel technology. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in textile and apparel technology, or graduate standing and consent of instructor.

TXA 394. Recent Advances in Textile and Apparel Technology.
An in-depth study of textile and apparel topics. Students may read original research papers and carry out fieldwork assignments. Three lecture hours a week for one semester, or as required by the topic. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in textile and apparel technology, or graduate standing and consent of instructor.

Topic 2: International Sourcing and the Global Economy. Economic, social, and public issues related to international production and sourcing of textiles and apparel. Three lecture hours a week for one semester.

Topic 3: E-Commerce and Direct Marketing. Recent developments and evaluation of nontraditional retailing of apparel. Three lecture hours a week for one semester.

Topic 5: Digital Design and Printing. Principles and elements of digital design and printing. Recent developments in digital knits, weaves, prints, and nonwoven textiles. Two lecture hours and three laboratory hours a week for one semester.

Topic 6: Textile Functional Finishes. Study of the application and adaptation of functional finishes to textiles. Three lecture hours a week for one semester.

Topic 7: Textile Microscopy and Image Analysis. Basic techniques for characterizing fiber properties visually with a microscope and using technology and computer analysis. Three lecture hours a week for one semester.

Topic 8: Digital Modeling of Textiles. Recent developments in two- and three-dimensional modeling. Three lecture hours a week for one semester.

Topic 9: Production Mechanics and Properties of Woven Fabrics. The relationship between the mechanics of production and mechanical properties of woven fabric; the unit operations required to prepare yarns for weaving and the mechanisms employed in weaving; fabric structure, geometry, and mechanical properties; designing for specific fabric properties. Three lecture hours a week for one semester.

Topic 10: Global Textile and Apparel Business Dynamics. Elements of competitive strategy and planning methods within the textile complex, with an emphasis on the concepts of strategy in a mature industry, defining business in a global industry, allocating resources through strategic planning methods, and implementing strategy in single- and multi-business firms. Three lecture hours a week for one semester.

Topic 11: Market Research in Textiles. Study and analysis of quantitative methods employed in market research in the textile industry, including the function of market research and its proper orientation to management and decision making. Three lecture hours a week for one semester.

Topic 12: Color Science. The basis of modern techniques for color specification, measurement, control, and communication. Applications of color science to textiles, plastics, color reproduction, computer-based imaging, and display systems. Basic concepts are taught using computer color graphics. Three lecture hours a week for one semester.

Lectures and discussions on current topics in textiles and apparel. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in textile and apparel technology, or graduate standing and consent of instructor.

Topic 1: Mass Customization of Apparel. The principles and implementation of newly developed three-dimensional technology for apparel mass customization.

TXA 698. Thesis.
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in textile and apparel technology and consent of the graduate adviser; for 698B, Textiles and Apparel 698A.

Professional Courses

UGS - Undergraduate Studies

Undergraduate Studies: UGS

Lower-Division Courses

UGS 302. First-Year Signature Course.
Restricted to first-year students. Seminar class focusing on a contemporary issue. Designed to introduce undergraduates to scholarly analysis from an interdisciplinary perspective. Includes an introduction to University resources, such as research facilities, museums, and attendance at University lectures or performances as assigned. Multiple sections may be offered in the fall and spring with various topics and instructors. Three lecture hours a week for one semester. Some sections may require additional meeting times; these are identified in the Course Schedule. Only one of the following may be counted: Tutorial Course 302, Undergraduate Studies 302, 303.
UGS 303. First-Year Signature Course.
Restricted to first-year students. Large-group lecture and discussion class focusing on a contemporary issue. Designed to introduce undergraduates to scholarly analysis from an interdisciplinary perspective. Includes an introduction to University resources, such as research facilities, museums, and attendance at University lectures or performances as assigned. Multiple sections may be offered in the fall and spring with various topics and instructors. Three lecture hours a week for one semester. Some sections may require additional meeting times; these are identified in the Course Schedule. Only one of the following may be counted: Tutorial Course 302, Undergraduate Studies 302, 303.

UGS 104. First-Year Interest Group Mentor Seminar.
Restricted to students selected as mentors for the First-Year Interest Group program. Issues and research in various areas of leadership, communication, student development, and the transition from high school to college. One lecture hour a week for one semester. Offered on the pass/fail basis only. Prerequisite: Consent of the program coordinator of the First-Year Interest Group program office.

UGS 104R. First-Year Interest Group Returning Mentor Seminar.
Restricted to students selected as returning mentors for the First-Year Interest Group Program. Explore issues and research in various areas of leadership, communication, student development, and the transition from high school to college. One lecture hour a week for one semester. Offered on the pass/fail basis only. Prerequisite: Consent of the program coordinator of the First-Year Interest Group program office.

UGS 104T. Transfer Year Interest Group Mentor Seminar.
Restricted to students selected as mentors for the Transfer-Year Interest Group program. Issues and research in various areas of leadership, communication, student development, and transfer student success. One hour a week for one semester. Offered on the pass/fail basis only.

UGS 106C. DSP Spring Seminar.
Restricted to students in the Discovery Scholars Program. Basic issues in various interdisciplinary fields of study. One hour a week for one semester. Offered on the pass/fail basis only.

UGS 107D. Topics in Undergraduate Studies.
Restricted to students in the School of Undergraduate Studies. Topics in undergraduate major and course exploration. One lecture hour a week for one semester. May be repeated for credit. Offered on the letter-grade basis only.

UGS 109. Analytical Reading and Writing.
Examine fundamental concepts in analytical reading from different disciplinary perspectives, with an emphasis on sociocultural influences on comprehension and writing styles. Three lecture hours a week for one semester.

UGS 110K, 210K, 310K. Undergraduate Research Experience.
Restricted to freshmen and sophomores. Supervised research with a faculty member. Research may consist of an individual project or assisting a faculty research project. Individual instruction. Undergraduate Studies 110K and 110 may not both be counted. May be taken six times for credit. May be repeated for credit. Prerequisite: Consent of the undergraduate studies research coordinator.

UGS 111, 211, 311. Undergraduate Internship Experience.
Restricted to students in the School of Undergraduate Studies. Supervised internship experience. Internships may be on or off campus, be paid or unpaid, and may include work with nonprofit agencies, government offices, or private corporations. For 111, three hours of fieldwork a week for one semester; for 211, six hours of fieldwork a week for one semester; for 311, ten hours of fieldwork a week for one semester. Prerequisite: Consent of the undergraduate studies academic advisor.

UGS 309. Analytical Reading and Writing.
Examine fundamental concepts in analytical reading from different disciplinary perspectives, with an emphasis on sociocultural influences on comprehension and writing styles. Three lecture hours a week for one semester.

UGS 114M. Fundamentals.
Restricted to students in the School of Undergraduate Studies. Learn skills to increase academic potential. A specialized course facilitated by a Learning Specialist from the Sanger Learning Center designed to support students experiencing academic difficulty by providing structured academic support. Two lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Consent of the undergraduate research coordinator.

UGS 312. Research Methods.
Interdisciplinary introduction to research methods, designed to lead students through the process of designing an undergraduate research project. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Consent of the undergraduate research coordinator.

UGS 016. First-Year Interest Group Seminar.
Restricted to students in the First-Year Interest Group program. Explore basic issues in various interdisciplinary fields of study. One lecture hour a week for one semester. Offered on the pass/fail basis only.

UGS 016C. First-Year Connection Seminar.
Restricted to students in a 360 Connection learning community. Explore basic issues in various interdisciplinary fields of study. One lecture hour a week for one semester. Offered on the pass/fail basis only.

UGS 016S. Sophomore Interest Group Seminar.
Restricted to students in the Sophomore Interest Group program. Explore basic issues in various interdisciplinary fields of study. One lecture hour a week for one semester. Offered on the pass/fail basis only.

UGS 016T. Transfer-Year Interest Group Seminar.
Restricted to students in the Transfer-Year Interest Group program. Explore basic issues in various interdisciplinary fields of study. One lecture hour a week for one semester. Offered on the pass/fail basis only.

Restricted to students participating in a May Term Education Abroad program. Discussion of various issues related to the academic, cultural, and personal aspects of studying abroad in particular locations. Two lecture hours a week for eight weeks, or as required by the topic. May be
repeated for credit when the topics vary. Offered on the letter-grade basis only.

**Upper-Division Courses**

**UGS 120K, 220K, 320K. Undergraduate Research Experience.**
Supervised research with a faculty member. Research may consist of an individual project or assisting a faculty research project. Individual instruction. Undergraduate Studies 120K, 220K, 320K and 120, 220, 320 may not both be counted. May be taken six times for credit. May be repeated for credit. Prerequisite: Upper-division standing and consent of the undergraduate studies research coordinator.

**UGS 320L. Undergraduate Research Experience.**
Supervised research with a faculty member. Research may consist of an individual project and must meet the criteria for the independent inquiry flag. The equivalent of three lecture hours a week for one semester. With consent of the undergraduate studies research coordinator, may be repeated for credit. Undergraduate Studies 320F and 320L may not both be counted. May be repeated for credit.

**UGS 121, 221, 321. Undergraduate Internship Experience.**
Supervised internship experience. Internships may be on or off campus, be paid or unpaid, and may include work with nonprofit agencies, government offices, or private corporations. For 121, three hours of fieldwork a week for one semester; for 221, six hours of fieldwork a week for one semester; for 321, ten hours of fieldwork a week for one semester. Prerequisite: Upper-division standing and consent of the undergraduate studies research coordinator.

**Graduate Courses**

**Professional Courses**

**UKR - Ukrainian**

**Ukrainian: UKR**

**Lower-Division Courses**

**UKR 406. First-Year Ukrainian I.**
Explore listening, speaking, reading, and writing. Four lecture hours a week for one semester. Only one of the following may be counted: Slavic and Eurasian Languages 330 (Topic: Ukrainian for Slavic Lrn I), Ukrainian 406, 308.

**UKR 407. First-Year Ukrainian II.**
Continue to explore listening, speaking, reading, and writing. Four lecture hours a week for one semester. Only one of the following may be counted: Slavic and Eurasian Languages 330 (Topic: Ukrainian for Slavic Lrn II), Ukrainian 407, 309. Prerequisite: Ukrainian 406.

**UKR 308. Ukrainian for Slavic Learners I.**
Introduction to the Ukrainian language for those with a very basic background in one or more Slavic languages, who can read Cyrillic, and are familiar with some grammatical concepts. Explore listening, speaking, reading and writing skills, and integrate information on Ukrainian culture and life. Three lecture hours a week for one semester. Only one of the following may be counted: Slavic and Eurasian Languages 330 (Topic: Ukrainian for Slavic Lrn I), Ukrainian 406, 308. Prerequisite: A basic background in at least one Slavic Language and/or the ability to read Cyrillic.

**UKR 309. Ukrainian for Slavic Learners II.**
Continued introduction to the Ukrainian language for those with a very basic background in one or more Slavic languages. Continue to explore listening, speaking, reading and writing skills, as well as grammar. Read authentic texts and write responses to them, while integrating information on Ukrainian culture and life. Three lecture hours a week for one semester. Only one of the following may be counted: Slavic and Eurasian Languages 330 (Topic: Ukrainian for Slavic Lrn II), Ukrainian 407, 309. Prerequisite: Ukrainian 308.

**UKR 312K. Second-Year Ukrainian I.**
Explore listening, speaking, reading, and writing at the second-year level. Three lecture hours a week for one semester. Prerequisite: Ukrainian 309 or 407.

**UKR 312L. Second-Year Ukrainian II.**
Explore listening, speaking, reading, and writing at the advanced second-year level. Three lecture hours a week for one semester. Prerequisite: Ukrainian 312K.

Topics in Ukrainian. This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad advisor in the academic unit. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**Upper-Division Courses**

**UKR 325. Third-Year Ukrainian I.**
Explore oral expression, reading, and composition. Three lecture hours a week for one semester. Prerequisite: Ukrainian 312L.

**UKR 326. Third-Year Ukrainian II.**
Continue to explore oral expression, readings, and composition. Three lecture hours a week for one semester. Prerequisite: Ukrainian 325.

Topics in Ukrainian. This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad advisor in the academic unit. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**Graduate Courses**

**Professional Courses**

**URB - Urban Studies**

**Urban Studies: URB**

**Lower-Division Courses**

**URB 301. Introduction to Urban Studies.**
Same as Geography 307C. A multidisciplinary study of cities and complex urban environments; historical and contemporary issues from both national and international perspectives. Three lecture hours a week for one semester.

**URB 305. Introductory Topics in Urban Studies.**
An introduction to urban studies within the framework of different disciplines. Topics include urban history, urban education, politics and governance, economics, design and planning, and society and culture.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**URB 315. Urban Studies Research Methods.**
An introduction to urban studies research methodologies. Includes sources of urban data, the use of the library in urban research, formulating research questions, research design, methods commonly used in urban research, the use of computers to store and manipulate quantitative urban data, and an introduction to data analysis and theoretical and practical applications of urban research. Three lecture hours a week for one semester. Prerequisite: Mathematics 408C or 408K with a grade of at least C; Mathematics 316 and Urban Studies 301.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Geography and the Environment. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**Upper-Division Courses**

**URB 320E. Sensing: Elemental Media.**
Same as Anthropology 323U and Geography 326C. Explore a sensory ethnographic investigation of urban ecology, organized around air, water, earth, and fire as themes for engaging with the city through media and the senses. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 323U, 324L (Topic: Sensing: Elemental Media), Geography 326C, Urban Studies 320E. Prerequisite: Upper-division standing.

**URB 320M. Modernism in American Design and Architecture.**
Same as American Studies 330 and Art History 339Q. A historical survey of artifacts, buildings, and urban environments, focusing on responses to machine-age civilization. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 330, Art History 339Q, Urban Studies 352 (Topic 5), 320M. Prerequisite: Upper-division standing.

**URB 320T. The Culture of Cities.**
Same as American Studies 370 (Topic 13) and Geography 356T (Topic 1). Examines the social, geographical, and cultural evolution of the United States from a rural and small-town society to an urban and suburban nation. Subjects may include the segregation of public and private space; the formation of urban subcultures organized by gender, work, race, religion, and sexuality; social and spatial divisions between rich and poor and native-born and immigrant; and the increasing importance of "cultural capital" in reshaping urban politics and in conflicts over revitalization and gentrification. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 370 (Topic 13), Geography 356T (Topic 1), Urban Studies 320T, 354 (Topic 4). Prerequisite: Upper-division standing.

**URB 321D. Development Economics.**
Same as Economics 333K. Introduction to theories of economic development. Economic analysis of leading issues. Three lecture hours a week for one semester. Only one of the following may be counted: Economics 333K, Urban Studies 351 (Topic 4), 321D. Prerequisite: Economics 420K, 420S, 421K, or Finance 321K with a grade of at least C.

**URB 321G. African Cities Since 1500.**
Same as African and African Diaspora Studies 341 and History 359C. Explore Africa's past through the story of urbanization beginning with an overview of African cities around 1500—a time of increasing human migration and global trade. Assess African cities in the modern period, focusing on the advent of European colonialism in the 1800s and its aftermath. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 341, 374C (Topic: African Cities Since 1500), History 359C, History 366N (Topic: African Cities Since 1500), Urban Studies 321G. Prerequisite: Upper-division standing.

**URB 321R. Introduction to Risk Management.**
Same as Risk Management 357E. Principles of risk management for individuals and organizations, financial aspects of insurance companies and markets, industry structure, managerial aspects of underwriting and pricing, and public policy issues. Three lecture hours a week for one semester. Only one of the following may be counted: Risk Management 357E, Urban Studies 321R, 351 (Topic: Intro to Risk Management), 351 (Topic 6).

**URB 321U. Urban Sociology.**
Same as Sociology 321U. Introduction to the study of the city and the suburbs. Specific focus on inequality in urban space, with emphasis on three major United States cities (New York, Chicago, and Los Angeles) and on several third world cities. Three lecture hours a week for one semester. Only one of the following may be counted: Sociology 321K (Topic: Urban Sociology), 321U, Urban Studies 354 (Topic 11), 321U. Prerequisite: Forty-five semester hours of coursework.

**URB 322C. Vienna: Memory and the City.**
Same as American Studies 370 (Topic 41), European Studies 346 (Topic 5), and History 362C. Examines the ways in which cultural memory has shaped, and continues to shape, urban life in Vienna, Austria. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 370 (Topic 41), European Studies 346 (Topic 5), Geography 356T (Topic: Vienna: Memory and the City), Germanic, Scandinavian, and Dutch Studies 360 (Topic: Vienna: Memory and the City), History 362C, 362G (Topic 2), Urban Studies 322C, 354 (Topic 7). Prerequisite: Upper-division standing.

**URB 322E. Urban Economics.**
Same as Economics 334K. Economic analysis of urban areas, emphasizing current problems, such as spatial concentration of poverty, lack of access to jobs and financial services, and transportation systems. Examines the role of policy in addressing these problems. Three lecture hours a week for one semester. Only one of the following may be counted: Economics 334K, Urban Studies 322E, 351 (Topic 2). Prerequisite: Economics 420K, 420S, 421K, or Finance 321K with a grade of at least C.

**URB 322P. Anthropology of Infrastructure.**
Same as Anthropology 323R. Explore how infrastructure creates relationships between resources, energy, built form, information, and people. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 323R, 324L (Topic: Anthropology of Infrastructure), Urban Studies 322P, 352 (Topic: Anthropology of Infrastructure). Prerequisite: Upper-division standing.

**URB 322R. Race, Social Justice, and the City.**
Same as Geography 321U. Examine the way that race and inequality are built into the structures and ideas surrounding urban life through the spatial and racial structures of capitalist development, racialized migration, and redevelopment and gentrification campaigns. Analyze how United States cities are racial geographies. Three lecture hours
a week for one semester. Only one of the following may be counted:

URB 322T. Texas, 1900 to the Present.
Same as History 320F and Mexican American Studies 320F. Examine the steady dissociation of Texas from its Old South status to a transitional state and a power in national politics. Three lecture hours a week for one semester. Only one of the following may be counted: History 320F, 320R, Mexican American Studies 320F, 374 (Topic 16), Urban Studies 322T, 353 (Topic 2). Prerequisite: Upper-division standing.

URB 323S. Building the Sustainable City.
Same as Sociology 323S. Three lecture hours a week for one semester. Only one of the following may be counted: Sociology 321K (Topic: Building the Sustainable City), 323S, Urban Studies 323S, 352 (Topic: Building the Sustainable City), 352 (Topic 7). Prerequisite: Forty-five semester hours of coursework.

URB 324C. Urban Publics.
Same as Geography 356T (Topic 5). The concept of the public in the city and how it has shifted over time along the lines of gender, ethnicity, race, and class. Examines contemporary struggles over defining the urban public and how those struggles are linked to social, cultural, political, and economic forces. Subjects include uses of public space, the public sphere, eminent domain, urban politics, civic engagement, and political participation. Three lecture hours a week for one semester. Only one of the following may be counted: Geography 356T (Topic 5), Urban Studies 324C, 354 (Topic: Urban Publics). Prerequisite: Upper-division standing.

URB 324G. Global Cities in the United States.
Same as American Studies 370 (Topic 64). Engage with the history of the global city at various levels, using text from disciplines including history, geography, anthropology, and sociology, as well as primary sources, images, readings, and films. Define the global city in the past and present and explore questions of race, class, gender, the politics of space, the culture of empire, and the changing shape of U.S. capitalism. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 370 (Topic: Global Cities in the U.S.), 370 (Topic 64), Urban Studies 324G. Prerequisite: Upper-division standing.

URB 325. Special Topics in Urban Studies.
Three lecture hours a week for one semester. Additional hours may be required for some topics. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

URB 325E. The Healthy, Livable City.
Same as Geography 325E. Explore the design of the built environment and its potential for addressing and preventing many childhood and adult health concerns in the United States. Examine how to create healthy, walkable, vital communities for all. Three lecture hours a week for one semester. Only one of the following may be counted: Geography 325E, Geography 356 (Topic: The Healthy, Livable City), Urban Studies 325E, 352 (Topic: The Healthy, Livable City). Prerequisite: Upper-division standing.

URB 325L. Sociology of Criminal Justice.
Same as Sociology 325L. Examination of the police, courts, and prisons: how they work, their impact on those who pass through them. Introduction to the American criminal justice system, its policies and procedures. The primary focus will be on the roles and functions of the police, the courts, and corrections, with a special emphasis on how well or not so well the system operates. Three lecture hours a week for one semester. Only one of the following may be counted: Sociology 325L, Urban Studies 325L, 354 (Topic 12). Prerequisite: Forty-five semester hours of coursework.

URB 325R. Introduction to Real Estate and Urban Land Development.
Same as Real Estate 358. An examination of the principles of real estate and urban land economics. Subjects include investment, valuation, financing, and public policy in real estate and mortgage markets. Three lecture hours a week for one semester. Only one of the following may be counted: Real Estate 358, Urban Studies 325R, 351 (Topic: Introduction to Real Estate and Urban Land Development), 351 (Topic 5). Prerequisite: Accounting 310F or 311H, and Finance 357 or 357H.

URB 326F. Berlin.
Same as Comparative Literature 323 (Topic 44), European Studies 347 (Topic 34), German, Scandinavian, and Dutch Studies 361M, and History 361F. Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 323 (Topic: Berlin), 323 (Topic 44), European Studies 347 (Topic: Berlin), 347 (Topic 34), German, Scandinavian, and Dutch Studies 360 (Topic: Berlin), 361M, History 361F, 362G (Topic: Berlin), 362G (Topic 17), Urban Studies 326F, 353 (Topic: Berlin), 353 (Topic 7). Prerequisite: Upper-division standing.

URB 327D. African American History since 1860.
Same as African and African Diaspora Studies 357D, American Studies 321F, and History 357D. Survey of the history of African Americans in the United States from 1860 to the present: Emancipation, Reconstruction politics, migration and urbanization, and the evolution of African American culture; kinds of sources and methods valuable for analyzing African American life and culture. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 357D, American Studies 321 (Topic: African American History since 1860), 321F; History 357D, Urban Studies 327D, 353 (Topic 1). Prerequisite: Upper-division standing.

URB 327U. Urban Unrest.
Same as African and African Diaspora Studies 360F, American Studies 321 (Topic 8), Anthropology 324L (Topic 46), and Asian American Studies 330G. Analysis of the roots of urban unrest, exploring a range of origins: joblessness, state violence, white flight, backlash against civil rights gains, new immigration, and interracial strife. Beyond race and class, subjects include exploring unrest as a mode of pushing the normative boundaries of gender and sexuality in public space. Course material will draw from film, literature, history, geography, and anthropology. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 360F, 372F (Topic 13), American Studies 321 (Topic 8), Anthropology 324L (Topic 46), Asian American Studies 330 (Topic 6), 330G, Urban Studies 327U, 354 (Topic 14). Prerequisite: Upper-division standing.

URB 328C. Principles of Physical Planning.
Same as Community and Regional Planning 369K. Introductory course in the physical dimension of urban planning. Three lecture hours a week for one semester. Only one of the following may be counted: Architecture 369J, Community Regional Planning 369K, Urban Studies 328C, 353F, 352 (Topic 6). Prerequisite: For students in the School of Architecture: Architecture 333 with a grade of at least C and upper-division standing; for others, upper-division standing.

URB 328E. Environmental History of North America.
Same as American Studies 329 and History 350R (Topic 7). The history of humanity’s influence on the plants, animals, microlife, soils, water, and air of North America, and vice versa, from the arrival of the proto-Indians to the contemporary environmental crisis. Three lecture hours a week for one semester. Only one of the following may be counted:
American Studies 329, History 350R (Topic 7), Urban Studies 328E, 353 (Topic 5). Prerequisite: Upper-division standing and six semester hours of coursework in history.

**URB 328L. Latino Urbanism in the United States City.**

**URB 328S. Human Behavior and Social Environment.**
Same as Social Work 327. Restricted to social work majors. Explore the biopsychosocial and cultural functioning of human beings across the life span using an ecological-systems lens and major developmental theories as a framework to guide the processes of assessment, intervention, and evaluation. Discuss the impact of the family, social groups, organizations, communities, and society on individuals during these stages of the life span. Examine empirically-based research reflecting a risk and resilience perspective in making client assessments and recommending appropriate interventions. Three lecture hours and one laboratory hour a week for one semester. Only one of the following may be counted: Social Work 327, Urban Studies 354 (Topic: Human Behavior and Social Environment), 354 (Topic 10), Urban Studies 328S Prerequisite: For social work majors, Social Work 310, 312, 313, 325 and one of the following: Educational Psychology 308, 371, Psychology 317, 418, 420M, Statistics and Data Sciences 301, 302, 302F, 309, 320E, Sociology 317L, or Social Work 318 (or Mathematics 316, Statistics and Data Sciences 304, 306, or 328M) with a grade of at least C; for others, upper-division standing.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Geography and the Environment. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**URB 330F. Urban Experiences In East Asia.**
Same as Asian Studies 361E. Explores the process of urbanization in East and Southeast Asia focusing on the politics of capital accumulation and distribution. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic: Urban Experiences In East Asia), 361E. Urban Studies 354 (Topic: Urban Experiences In East Asia), 330F. Prerequisite: Upper-division standing.

**URB 330G. The Global City.**

**URB 332D. Human Health and the Environment.**
Same as Geography 322D. Introduction to environmental health concepts. Examine current events to explore the relationship between environment and health and whether an environmental condition is or is not an important threat to health. Discuss the complexity of determining

“proof” in this field. Three lecture hours a week for one semester. Only one of the following may be counted: Geography 322D, 356T (Topic 9), Urban Studies 332D, 350 (Topic 2). Prerequisite: Upper-division standing.

**URB 335F. City Architecture.**
Same as Architecture 369J. Introduction to city architecture, urban design, and planning. Three lecture hours a week for one semester. Only one of the following may be counted: Architecture 369J, Community Regional Planning 369K, Urban Studies 328C, 353F, 352 (Topic 6). Prerequisite: For students in the School of Architecture: Architecture 333 with a grade of at least C and upper-division standing; for others, upper-division standing.

**URB 337. The Modern American City.**
Same as Architecture 350R (Topic 1) and Geography 337. Issues facing residents of United States cities, such as transportation and housing, poverty and crime, metropolitan finance, environmental and architectural design; historical/comparative urban evolution. Three lecture hours a week for one semester. Only one of the following may be counted: Architecture 350R (Topic 1), Geography 337, Urban Studies 337, 352 (Topic 1). Prerequisite: For students in the School of Architecture, upper-division standing; for others, upper-division standing and consent of instructor.

**URB 340. Contemporary Cultural Geography.**
Same as Geography 336. Recent theoretical developments in cultural geography, with a focus on landscapes and the everyday practices that imbue them with meaning; the ways those meanings are contested and are the foci of struggle; and how the relationship between culture and space plays a central role in the social construction of identity. Three lecture hours a week for one semester. Only one of the following may be counted: Geography 336, Urban Studies 340, 354 (Topic 8). Prerequisite: Upper-division standing.

**URB 342C. Water and the Roman City.**
Same as Classical Civilization 340 (Topic 11). Examine Roman urban development, design, and adaption from the perspective of hydrology, hydraulics, and cult and culture. Three lecture hours a week for one semester. Only one of the following may be counted: Classical Civilization 340 (Topic: Water and the Roman City), 340 (Topic 11), Urban Studies 342C, 353 (Topic: Water and the Roman City). Prerequisite: Upper-division standing.

**URB 352. Topics in Urban Design and Planning.**
Issues concerning the built environment and urban infrastructure, environmental sustainability, and the public policy framework designed to manage the challenges presented by these issues. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 4: Economy/Value/Quality of Life.** Architecture 350R (Topic 4) and Urban Studies 352 (Topic 4) may not both be counted.

**URB 352C. American Dilemmas.**
Same as Sociology 336C and Women's and Gender Studies 345 (Topic 26). Examination of critical American social problems, including problems in the economic, political, and health care systems, as well as inequities based on income, gender, and race. Exploration of how these problems are a natural outgrowth of the existing social structure. Three lecture hours a week for one semester. Only one of the following may be counted: Sociology 336C, Urban Studies 352C, 354 (Topic 13), Women's and Gender Studies 345 (Topic 26). Prerequisite: Upper-division standing.
URB 353. Topics in Urban History.
The historical evolution of cities, contemporary urban development trends, and the links between social development and physical form. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

URB 354. Topics in Urban Society and Culture.
Topics on the social and cultural diversity within cities; social policies; and the sociocultural impact of the media and other institutions on urban development. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 9: Negotiating Urbanization: Case Studies in Turkey.**
Same as Middle Eastern Studies 341 (Topic 6). Examines local and transnational forces that have driven and continue to drive contemporary urbanization in Turkey. Focuses on key issues that emerge in rapidly growing cities of the developing world, such as growing income inequality and socioeconomic exclusion, environmental challenges, and rising violence. Only one of the following may be counted: Middle Eastern Studies 326 (Topic: Negotiating Urbanization in the Middle East: Case Studies in Turkey), 341 (Topic 6), Turkish 372 (Topic: Negotiating Urbanization in the Middle East: Case Studies in Turkey), Urban Studies 354 (Topic: Negotiating Urbanization in the Middle East: Case Studies in Turkey), 354 (Topic 9).

URB 355U. Urban Politics.
Same as Government 370U. Examine politics in American cities. Three lecture hours a week for one semester. Only one of the following may be counted: Government 370L (Topic: Urban Politics), 370L (Topic 11), 370U, Urban Studies 350 (Topic 1), 355U. Prerequisite: Six semester hours of lower-division coursework in Government.

URB 360. Internship and Service Learning.
Same as Geography 340U. Internship experience in an urban studies-related public or nonprofit agency. The opportunity to apply the knowledge, theory, and understanding gained from courses in areas of specialization to urban issues in a professional setting. Includes an academic service-learning component. Approximately five to ten hours a week for one semester. Only one of the following may be counted: Geography 340U, 356T (DIRECTED INTRNSHPS IN URB STDGS), Urban Studies 360. Prerequisite: Upper-division standing; and Urban Studies 301 and 315.

URB 370. Senior Project.
Students identify an urban issue, develop a position paper, and work closely with a faculty adviser on a project. Students may use text or other media (such as video or portfolio) to present their arguments. The equivalent of three lecture hours a week for one semester. Prerequisite: Upper-division standing, and Urban Studies 301, 315, and 360 with a grade of at least C in each.

URB 379. Conference Course.
Supervised individual study of selected problems in urban studies. Conference course. Prerequisite: Upper-division standing and consent of instructor and the undergraduate adviser.

URB 679H. Honors Tutorial Course.
Directed reading and research or creation of an honors project, followed by the writing of a thesis. Conference course for two semesters. Prerequisite: For 679HA, admission to the Urban Studies Honors Program and consent of the urban studies adviser; for 679HB, Urban Studies 679HA.

**Graduate Courses**

**Professional Courses**

**URD - Urdu**

**Lower-Division Courses**

**URD 604. Accelerated First-Year Urdu.**
Designed for students who have some knowledge of spoken Urdu but have not studied Urdu formally. Six lecture hours a week for one semester. Hindi 604 and Urdu 604 may not both be counted; Hindi 506 and Urdu 604 may not both be counted; Hindi 507 and Urdu 604 may not both be counted; Urdu 604 and 506 may not both be counted; Urdu 604 and 507 may not both be counted.

**URD 506. First-Year Urdu I.**
Not open to native speakers of Urdu. Five class hours a week for one semester. Urdu 604 and 506 may not both be counted.

**URD 507. First-Year Urdu II.**
Not open to native speakers of Urdu. Five class hours a week for one semester. Urdu 604 and 507 may not both be counted. Prerequisite: Urdu 506 with a grade of at least C.

**URD 612. Accelerated Second-Year Urdu.**
Continuation of Urdu 604. Six lecture hours a week for one semester. Urdu 612 and 312K may not both be counted; Urdu 612 and 312L may not both be counted. Prerequisite: Urdu 604 with a grade of at least C.

**URD 312K. Second-Year Urdu I.**
Not open to native speakers of Urdu. Introduction to the Urdu script, followed by Urdu reading, composition, and conversation. Three lecture hours a week for one semester. Urdu 612 and 312K may not both be counted. Prerequisite: Urdu 507 with a grade of at least C.

**URD 312L. Second-Year Urdu II.**
Not open to native speakers of Urdu. Continuation of Urdu 312K. Three lecture hours a week for one semester. Urdu 612 and 312L may not both be counted. Prerequisite: Urdu 312K with a grade of at least C.

**URD 118K. Practice in Spoken Urdu I.**
Not open to native speakers of Urdu. Instruction and practice in conversation for intermediate-level students. Two lecture hours a week for one semester. Prerequisite: Urdu 507 with a grade of at least C.

**URD 118L. Practice in Spoken Urdu II.**
Not open to native speakers of Urdu. Two lecture hours a week for one semester. Prerequisite: Urdu 118K with a grade of at least C.

**Upper-Division Courses**

**Topics in Urdu.**
This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Asian Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**URD 330. Topics in Urdu Language and Literature.**
Study of specific subjects related to Urdu culture as reflected in literary productions and other modes of expression. Three lecture hours a
week for one semester. May be repeated for credit when the topics vary. Prerequisite: Urdu 312L with a grade of at least C.

**Topic 1: Female Voices in Urdu Literature.** Survey of prose and poetry written in Urdu by women during the last three centuries. Only one of the following may be counted: Religious Studies 341 (Topic: Female Voices in Urdu Literature), Urdu 330 (Topic 1), 384 (Topic 4).

**Topic 2: Love and Devotion in Urdu Literature.** Examination of various literary genres that are shaped by discourses on the love of God and devotion to the prophet Muhammad. Urdu 330 (Topic 2) and 384 (Topic 5) may not both be counted.

**Topic 3: Philosophy and Poetry of Iqbal.** Explores the prose and poetry written by the most influential twenty-century Muslim reformer in South Asia, Muhammad Iqbal. Urdu 330 (Topic 3) and 384 (Topic 6) may not both be counted.

**Topic 4: Urdu Aesthetics.** Intensive overview of the most popular lyrical genre of Urdu poetry, the ghazal, and the standards used to judge a good ghazal. Urdu 330 (Topic 4) and 384 (Topic 7) may not both be counted.

**Topic 5: Urdu Short Stories: Manto.** Survey of the writings of Sadat Hasan Manto. Primary texts in Urdu, secondary materials in English. Urdu 330 (Topic: Urdu Short Stories: Manto) and 330 (Topic 5) may not both be counted.

**Topic 6: Qawwali Aesthetics.** Examination of the devotional currency of Qawwali, and issues of gender, class, religious differences, and nationalism. Explores the relationship between oral and written literature and tensions between local aesthetics and the process of globalization. Urdu 330 (Topic: Qawwali Aesthetics) and 330 (Topic 6) may not both be counted.

**Topic 7: Partition in Literature and Film.** Urdu 330 (Topic: Partition in Literature and Film) and 330 (Topic 7) may not both be counted.

**URD 130D. Urdu Across Disciplines.**

Reading of Urdu language materials related to the subject matter of another designated course in Asian studies. One lecture hour a week for one semester. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. May be repeated for credit. Prerequisite: Registration for an appropriate Asian studies course, and written consent of instructor on form obtained from the undergraduate adviser.

**URD 330G. Gender and Sexuality in Urdu-Hindi.**

Three lecture hours a week for one semester. Urdu 330 (Topic: Gender/ Sexuality In Urdu-Hindi) and 330G may not both be counted. Prerequisite: Urdu 312L with a grade of at least C.

**URD 332. Style and Register in Urdu.**

Practice of skills in reading, listening, writing, and speaking for everyday social situations and some formal situations. Relevant to students working toward the "Advanced" level on the American Council for the Teaching of Foreign Languages (ACTFL) proficiency scale, equivalent to level 2 on the Interagency Language Roundtable (ILR) scale. Three lecture hours a week for one semester. Urdu 330 (Topic: Style and Register in Urdu) and 332 may not both be counted. Prerequisite: Urdu 312L with a grade of at least C.

**URD 360. Conference Course in Urdu Language and Literature.**

Supervised individual study of selected problems in Urdu language or literature. Conference course. May be repeated for credit. Prerequisite: Upper-division standing and written consent of instructor on form obtained from the undergraduate adviser.

**URD 381. Conference Course in Urdu Language and Culture.**

Supervised individual study. The equivalent of three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and written consent of instructor on form obtained from the graduate coordinator.

**URD 384. Topics in Urdu Language and Culture.**

Study of various aspects and periods of Urdu language and culture. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, and six semester hours of upper-division coursework in Urdu with a grade of at least C; additional prerequisites vary with the topic.

**Topic 1: Advanced Reading, Composition, and Conversation I.**

**Topic 2: Advanced Reading, Composition, and Conversation II.**

**Topic 3: Readings in Urdu.**

**Topic 4: Female Voices in Urdu Literature.** Survey of prose and poetry written in Urdu by women during the last three centuries. Only one of the following may be counted: Religious Studies 341 (Topic: Female Voices in Urdu Literature), Urdu 330 (Topic 1), 384 (Topic 4).

**Topic 5: Love and Devotion in Urdu Literature.** Examination of various literary genres that are shaped by discourses on the love of God and devotion to the prophet Muhammad. Urdu 330 (Topic 2) and 384 (Topic 5) may not both be counted.

**Topic 6: Philosophy and Poetry of Iqbal.** Explores the prose and poetry written by the most influential twenty-century Muslim reformer in South Asia, Muhammad Iqbal. Urdu 330 (Topic 3) and 384 (Topic 6) may not both be counted.

**Topic 7: Urdu Aesthetics.** Intensive overview of the most popular lyrical genre of Urdu poetry, the ghazal, and the standards used to judge a good ghazal. Urdu 330 (Topic 4) and 384 (Topic 7) may not both be counted.

**Topic 8: Style and Register in Urdu.** Practice of skills in reading, listening, writing, and speaking for everyday social situations and some formal situations. Relevant to students working toward the "Advanced" level on the American Council for the Teaching of Foreign Languages (ACTFL) proficiency scale, equivalent to level 2 on the Interagency Language Roundtable (ILR) scale. Urdu 384 (Topic: Style and Register in Urdu) and 384 (Topic 8) may not both be counted. Additional prerequisite: Reading and writing comprehension of Urdu equivalent to two academic years' study of Urdu, or consent of instructor.

**Topic 9: Urdu Short Stories: Manto.** Survey of the writings of Sadat Hasan Manto. Primary texts in Urdu, secondary materials in English. Urdu 384 (Topic: Short Stories: Manto) and 384 (Topic 9) may not both be counted.

**Topic 10: Qawwali Aesthetics.** Examination of the devotional currency of Qawwali, and issues of gender, class, religious differences, and nationalism. Explores the relationship between oral and written literature and tensions between local aesthetics and the process of globalization. Urdu 384 (Topic: Qawwali Aesthetics) and 384 (Topic 10) may not both be counted.

**Topic 11: Gender and Sexuality in Urdu-Hindi.** Urdu 384 (Topic: Gender/Sexuality In Urdu-Hindi) and 384 (Topic 11) may not both be counted.

**Professional Courses**
UTL - UTeach-Liberal Arts

UTeach-Liberal Arts: UTL

Lower-Division Courses

UTL 101. Introduction to the Teaching Profession.
Weekly seminar with a University faculty member plus a field experience in an area elementary school under the supervision of a cooperating teacher. Course readings and instruction complement the field experience. Seminar topics include basic classroom management, lesson design, assessment, technology, diversity, and special student populations. One class hour a week for one semester; at least ten hours of fieldwork a semester are also required. Offered on the letter-grade basis only. Prerequisite: Successful admission into the UTeach-Liberal Arts program and consent of the UTeach adviser in the College of Liberal Arts.

UTL 202. Introduction to Teaching in the Middle School.
Weekly seminar with a University faculty member plus a field experience in an area middle school under the supervision of a cooperating teacher. Course readings and instruction complement field experience. Seminar topics include classroom management, lesson design, assessment, technology, diversity, special student populations, conferencing techniques, and school organization. Two class hours a week for one semester; at least twenty hours of fieldwork a semester are also required. Offered on the letter-grade basis only. Prerequisite: UTeach-Liberal Arts 101 with a grade of at least B, and consent of the UTeach adviser in the College of Liberal Arts.

UTL 303E. Teaching English in the High School.
Weekly seminar with a University faculty member, plus field experience in an area high school under the supervision of a cooperating teacher. Course readings and instruction complement field experience. Seminar topics include state and national standards, curriculum design and implementation, the role of technology in education, and teaching strategies with a special focus on innovative strategies for teaching literature and writing. Three lecture hours a week for one semester; at least forty-five hours of fieldwork a semester are also required. Offered on the letter-grade basis only. Prerequisite: UTeach-Liberal Arts 101 and 202 with a grade of at least B in each; concurrent enrollment in Curriculum and Instruction 370S (Topic 1: Advanced Methods in English, Language Arts, and Reading); and consent of the UTeach adviser in the College of Liberal Arts.

UTL 303L. Teaching Languages Other Than English in the High School.
Weekly seminar with a University faculty member, plus field experience in an area high school under the supervision of a cooperating teacher. Course readings and instruction complement the field experience. Seminar topics include state and national standards and their implementation, teaching for proficiency, curriculum design, assessment, best practices, the instructional environment, and the role of technology in teaching languages other than English. Three lecture hours a week for one semester; at least forty-five hours of fieldwork a semester are also required. Offered on the letter-grade basis only. Prerequisite: UTeach-Liberal Arts 101 and 202 with a grade of at least B in each; concurrent enrollment in Curriculum and Instruction 370S (Topic 5: Advanced Methods in Foreign Language); and consent of the UTeach adviser in the College of Liberal Arts.

UTL 303S. Teaching Social Studies in the High School.
Weekly seminar with a University faculty member, plus field experience in an area high school under the supervision of a cooperating teacher. Course readings and instruction complement the field experience. Seminar topics include social studies topics, standards, curriculum design and implementation, teaching strategies, technology, and vertical and horizontal teaming in social studies. Three lecture hours a week for one semester; at least forty-five hours of fieldwork a semester are also required. Offered on the letter-grade basis only. Prerequisite: UTeach-Liberal Arts 101 and 202 with a grade of at least B in each; concurrent enrollment in Curriculum and Instruction 370S (Topic 3: Advanced Methods in Social Studies); and consent of the UTeach adviser in the College of Liberal Arts.

UTL 304. Middle School Teaching for Postbaccalaureate Certification.
Designed for college graduates seeking teacher certification. Students observe and teach in a middle school under the supervision of a mentor teacher, and participate in a weekly seminar. Seminar topics may include classroom management, lesson design, assessment, technology, diversity, special student populations, conference techniques, and professional development. Three lecture hours and two hours of fieldwork a week for one semester. May not be counted toward any degree. Prerequisite: Consent of the UTeach adviser in the College of Liberal Arts.

Upper-Division Courses

UTL 320. Topics in Teaching the Liberal Arts.
Introduction to various topics related to middle grades, secondary, and all-level teaching certification. Topics may include history, social studies, English language arts, and languages other than English. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Consent of the UTeach adviser in the College of Liberal Arts.

Restricted to students entering the professional development sequence of the UTeach-Liberal Arts program. Course readings and instruction complement the field experience. Seminar topics include theoretical foundations for subject-specific methods, state and national standards and their implementation, teaching for proficiency, curriculum design, assessment, best practices, the instructional environment, and the role of technology in teaching. The equivalent of six lecture hours and four fieldwork hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: UTeach-Liberal Arts 101 and 202 with a grade of at least B in each, and consent of the UTeach adviser in the College of Liberal Arts.

UTL 341R. Overcoming Reading Difficulties.
Restricted to UTeach-Liberal Arts students. Subjects may include the basic terminology related to special needs students, recognizing differences in learning disabilities, evaluating teaching methods and materials, and teaching strategies that address the needs of special needs students, with a special focus on reading strategies. Three lecture hours a week for one semester. Rhetoric and Writing 379C (Topic: Overcoming Reading Difficulties) and UTeach-Liberal Arts 341R may not both be counted. Offered on the letter-grade basis only. Prerequisite: Applied Learning and Development 322 and consent of instructor.

UTL 360. Problems and Principles of Secondary Education.
Restricted to students in the final student teaching semester of the UTeach-Liberal Arts program. Draws upon resources found in the directed-teaching environment; considers problems and issues in four broad areas: students in the school, the teacher's professional responsibilities, curriculum understandings, and administrative and organizational problems. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Concurrent
enrollment in UTeach-Liberal Arts 670, and consent of the UTeach adviser in the College of Liberal Arts.

**UTL 670. Directed Teaching in Secondary Schools.**
Restricted to students in the final student teaching semester of the UTeach-Liberal Arts program. Observation and teaching in secondary school classrooms as well as an exploration of other roles of the secondary school teacher, under the joint supervision of University and public school personnel. The equivalent of two lecture hours and forty fieldwork hours a week for one semester. Offered on the pass/fail basis only. Prerequisite: Concurrent enrollment in UTeach-Liberal Arts 360, and consent of the UTeach adviser in the College of Liberal Arts.

**Graduate Courses**

**Professional Courses**

**UTS - UTeach-Natural Sciences**

**UTTeach-Natural Sciences: UTS**

**Lower-Division Courses**

**UTS 101. Secondary Teacher Education Preparation: Step 1.**
Introduction to mathematics, computer science, and science teaching as a career. Discussions include standards-based lesson design and various teaching and behavior management strategies. Fieldwork consists of five visits to a local elementary school, including planning and teaching three inquiry-based lessons to students in grades three to six. One and one-half class hours a week for one semester; at least ten hours of fieldwork a semester are also required. Prerequisite: UTeach-Natural Sciences 101 may not both be counted.

**UTS 306J. Hands-On Science I.**
The first of an integrated sequence of laboratory-based courses. Subjects include energy and motion, electrical circuits, atomic theory, waves, and sound. Two lecture hours and three laboratory hours a week for one semester. Only one of the following may count: UTeach-Natural Sciences 306J and Natural Sciences 306J.

**UTS 306K. Hands-On Science II.**
The second of an integrated sequence of laboratory-based courses. Subjects include physical and chemical properties of matter, Earth’s building blocks, plate tectonics, landforms, and weathering. Two lecture hours and three laboratory hours a week for one semester. Only one of the following may count: UTeach-Natural Sciences 306K, Natural Sciences 306K. Prerequisite: UTeach-Natural Sciences 306J (Natural Sciences 306J) with a grade of at least C-.

**UTS 306L. Hands-On Science III.**
The third of an integrated sequence of laboratory-based courses. Subjects include properties of life, compartments of living organisms, inheritance, adaptations, variations, and disease. Two lecture hours and three laboratory hours a week for one semester. Only one of the following may count: UTeach-Natural Sciences 306L, Natural Sciences 306L. Prerequisite: UTeach-Natural Sciences 306J and 306K (Natural Sciences 306J and 306K) with a grade of at least C- in each.

**UTS 306M. Hands-On Science IV.**
The fourth of an integrated sequence of laboratory-based courses. Subjects include astronomy and the earth’s climate. Two lecture hours and three laboratory hours a week for one semester. Only one of the following may count: UTeach-Natural Sciences 306M, Natural Sciences 306M. Prerequisite: UTeach-Natural Sciences 306J and 306K (Natural Sciences 306J and 306K) with a grade of at least C- in each.

**UTS 110. Secondary Teacher Education Preparation: STEP 2.**
Topics may include routes to teacher certification in mathematics, computer science, and science teaching; various teaching methods that are designed to meet instructional goals; and learner outcomes. Students develop and teach three inquiry-based lessons in their field in a middle school, and participate in peer coaching. One and one-half class hours a week for one semester; at least twenty hours of fieldwork a semester are also required. Prerequisite: UTeach-Natural Sciences 101 may not both be counted. UTeach-Natural Sciences 110 may not both be counted. Prerequisite: UTeach-Natural Sciences 101 with a grade of at least C-, and a University grade point average of at least 2.20.

**UTS 211. Secondary Teacher Education Prep: Advanced Steps.**
Restricted to UTeach Natural Sciences students. Accelerated introduction to mathematics, computer science, and science teaching as a career. Discuss standards-based lesson design and various teaching and behavior management strategies. Plan and teach inquiry-based lessons to students in grades three to eight while visiting local elementary and middle schools. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and approval of the UTeach Natural Sciences Adviser.

**Upper-Division Courses**

**UTS 350. Knowing and Learning in Math and Science.**
Same as Curriculum and Instruction 365C. Restricted to students in the UTeach-Natural Sciences program. Psychological foundations of learning; problem solving in mathematics and science education utilizing technology; principles of expertise and novice understanding of subject matter; implications of high-stakes testing; and foundations of formative and summative assessment. Three lecture hours a week for one semester; additional hours may be required. Curriculum and Instruction 365C and UTeach-Natural Sciences 350 may not both be counted. Prerequisite: Credit with a grade of at least C- or registration for UTeach-Natural Sciences 101.

**UTS 355. Classroom Interactions.**
Same as Curriculum and Instruction 365D. Restricted to students in the UTeach-Natural Sciences program. Principles of delivering effective instruction in various formats (lecture, lab activity, collaborative settings); examination of gender, class, race, and culture in mathematics and science education; overview of policy related to mathematics and science education. Three lecture hours a week for one semester; additional hours may be required. Curriculum and Instruction 365D and UTeach-Natural Sciences 355 may not both be counted. Prerequisite: The following courses with a grade of at least C-: Curriculum and Instruction 365C or UTeach-Natural Sciences 350, and UTeach-Natural Sciences 110, and a University grade point average of at least 2.50.

**UTS 360. Project-Based Instruction.**
Same as Curriculum and Instruction 365E. Restricted to students in the UTeach-Natural Sciences program. Foundations of project-based, case-based, and problem-based learning environments; principles of project-based curriculum development in mathematics and science education; classroom management and organization of project-based learning classrooms. Three lecture hours a week for one semester with additional fieldwork hours to be arranged. Curriculum and Instruction 365E and UTeach-Natural Sciences 360 may not both be counted. Prerequisite: Curriculum and Instruction 365D or UTeach-Natural Sciences 355 with a grade of at least C-, and a University grade point average of at least 2.50.

**UTS 170. Student Teaching Seminar.**
Restricted to students in the UTeach-Natural Sciences program who have earned a passing score on the preliminary portfolio. Discussions
include student teaching experiences, contemporary critical issues in education, and preparation for the state certification exam. One lecture hour a week for one semester. Chemistry 107 (Topic: Special Topics Seminar) and UTeach-Natural Sciences 170 may not both be counted. Prerequisite: Credit or registration for Curriculum and Instruction 651S, and a University grade point average of at least 2.50.

UTS 171. UTeach Induction Support.
Restricted to students in the UTeach-Natural Sciences program. Engage in individualized, job-embedded activities to support student learning and analyze the impact of their work. The equivalent of one lecture hour a week for one semester. Prerequisite: UTeach-Natural Sciences 170 with a grade of at least C- and Curriculum and Instruction 651S.

UTS 675. Student Teaching for Secondary and Middle Grades.
Closely supervised field coursework in a cooperating school. Experience includes carrying out the duties of a secondary or middle grades teacher. Twenty hours of fieldwork a week for one semester. Offered on the pass/fail basis only. Prerequisite: A University grade point average of at least 2.50, approval of the preliminary portfolio by the College of Natural Sciences UTeach Program, consent of the UTeach adviser in the College of Natural Sciences, and concurrent enrollment in UTeach-Natural Sciences 170.

UTS 175C. Computer Science Pathways.
Restricted to students in the UTeach-Natural Sciences program. Prepare for the subjects of computer science certification exams that are not covered by other computer science courses. Review existing high school computer science curriculum. Create or find a computational thinking exercise in order to lead the class through the activity. One lecture hour a week for one semester.

Graduate Courses
In-depth investigation of topics in math or science as related to teaching at a secondary level. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser or the department chair.

Professional Courses
WGS - Women's and Gender Studies

Women's and Gender Studies: WGS

Lower-Division Courses
WGS 301. Introductory Topics in Women's and Gender Studies.
Three lecture hours a week for one semester, or as required for the topic. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

Topic 2: Introduction to Child Psychology. General introduction to physical, social, and cognitive development from conception onward. Prerequisite: Psychology 301 with a grade of at least C.

Topic 3: Introduction to Latinx Body Art. Same as Mexican American Studies 318D. Examine the social, historical, economic, and commercial contexts influencing the production, display, and circulation of Latinx body art. Three lecture hours a week for one semester. Only one of the following may be counted: Mexican American Studies 318D, 319 (Topic: Intro to Latinx Body Art), Women's and Gender Studies 301 (Topic: Intro to Latinx Body Art), 301 (Topic 3).

Topic 4: Family Relationships. Same as Human Development and Family Sciences 304. The process of family interaction over the life cycle. Application of research findings to the understanding of relationships. Only one of the following may be counted: Human Development and Family Sciences 304, 304H, Women's and Gender Studies 301 (Topic 4).

Topic 5: Ethnicity and Gender: La Chicana. Same as Mexican American Studies 311 and Sociology 308D. Three lecture hours a week for one semester. Only one of the following may be counted: Mexican American Studies 311, 319 (Topic 1), Sociology 308 (Topic: Ethnicity and Gender: La Chicana), 308D, Women's and Gender Studies 301 (Topic 6).

Topic 7: Women's Reproductive Health for Non-science Majors. Same as Nursing 307 (Topic 1) and Sociology 310S. Overview of contemporary women's reproductive health issues, with emphasis on historical, physiological, psychosocial, and cultural influences that affect the reproductive health of women during adolescence, the childbearing years, and midlife. Three lecture hours a week for one semester. Only one of the following may be counted: Nursing 307 (Topic 1), Sociology 308 (Topic 2), 310S, Women's and Gender Studies 301 (Topic 7). Additional prerequisite: One year of high school biology, or Biology 301L or 309D.

Topic 8: Performing Blackness. Same as African and African Diaspora Studies 315D and American Studies 315M. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315D, 317F (Topic: Performing Blackness), American Studies 315 (Topic: Performing Blackness), 315M, Theatre and Dance 311T (Topic: Performing Blackness), Women's and Gender Studies 301 (Topic: Performing Blackness), 301 (Topic 8).

Topic 11: United States Women, Sexuality, and Gender to 1865. Same as History 317L (Topic 5). History 317L (Topic 5) and Women's and Gender Studies 301 (Topic 11) may not both be counted.

Topic 12: Gay and Lesbian Literature and Culture. Same as English 314V (Topic 4). American writing by gay, lesbian, bisexual, transgender, or queer authors and/or with gay, lesbian, bisexual, transgender, or queer themes. English 314V (Topic 4) and Women's and Gender Studies 301 (Topic 12) may not both be counted. Additional prerequisite: One of the following: English 303C, Rhetoric and Writing 306, 306Q, 309J (or 309K), or Tutorial Course 303C.

Topic 13: Mexican American Women, 1910-Present. Same as History 317L (Topic 12) and Mexican American Studies 319 (Topic 4). Examines the history of Mexican and Mexican American women in the United States from the twentieth century to the present. Only one of the following may be counted: History 317L (Topic: Mexican American Women, 1910-Present), 317L (Topic 12), Mexican American Studies 319 (Topic: Mexican American Women, 1910-Present), 319 (Topic 4), Women's and Gender Studies 301 (Topic: Mexican American Women, 1910-Present), 301 (Topic 13).

Topic 14: Performance, Feminism, and Social Change. Same as African and African Diaspora Studies 311C. Exploration of the ways that engaged performance and feminist practice generate space for social change, including the basic principle that social transformation requires individual awareness, and that awareness necessitates a rigorous examination of race, gender, class, and sexuality. Only one of the following may be counted: African and African Diaspora Studies 311C, 317F (Topic: Performance, Feminism, and Social Change), Women's and Gender Studies 301 (Topic: Performance, Feminism, and Social Change), 301 (Topic 14).

Topic 16: Introduction to Black Women's Studies. Same as African and African Diaspora Studies 315P. Interdisciplinary examination of the complexities of black womanhood in America through an
investigation of history, identity, popular culture, and black feminism/womanism, as well as social and political activism. Three lecture hours a week for one semester. Only one of the following can be counted: African and African Diaspora Studies 315P, 317D (Topic 5), Women's and Gender Studies 301 (Topic 16).

**Topic 17: Black Queer Art Worlds.** Same as African and African Diaspora Studies 315Q and Anthropology 310L (Topic 6). Exploration of over two decades of work produced by and about black queer subjects throughout the circum-Atlantic world. Provides an introduction to various artists and intellectuals of the black queer diaspora, as well as an examination of the viability of black queer aesthetic practice as a form of theorizing. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315Q, 317E (Topic 1), Anthropology 310L (Topic 6), Women's and Gender Studies 301 (Topic 17).

**Topic 19: Diversity in American Families.** Same as Sociology 307F. Examination of the diversity of American families and current debates on family life from a sociological perspective with an emphasis on how diverse family forms came to exist and what these changes mean for adults and children in contemporary society. Study of recent trends in several aspects of family life, including dating and courtship, cohabitation, marriage, divorce, parenthood, family structure, and work-family balance. Overview of theoretical perspectives on family life with a focus on gender, race/ethnicity, and sexuality. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 315 (Topic: Diversity in American Families), Sociology 307F, 308 (Topic: Diversity in American Families), Women's and Gender Studies 301 (Topic: Diversity in American Families), 301 (Topic 19).

**Topic 20: Fertility and Reproduction.** Same as Sociology 307K. Explores the when, why, how, and with whom Americans bear children, and how the United States compares to other developed and developing countries in the world. Subjects include infertility and its treatments, the ethics of surrogacy and international adoption, voluntary childlessness, the rapid rise of nonmarital childbearing in the United States and other countries, the politics of childbirth, the risks of maternal morbidity and mortality in developed and developing countries, and the declining populations and rapid aging of rich countries including Japan, Italy, and Spain where many women have stopped having children. Three lecture hours a week for one semester. Only one of the following may be counted: Sociology 307K, 308 (Topic: Fertility and Reproduction), Women's and Gender Studies 301 (Topic: Fertility and Reproduction), 301 (Topic 20).

**Topic 21: Gender, Race, and Class in American Society.** Same as Sociology 307L. Use of the sociological perspective to analyze how the structure of American society, individual life, and group life chances are shaped by broader structures of privilege and disadvantage based on gender, race, and class. Examination of these in institutional arenas such as work, the family, education, health, the criminal justice system, sexuality, popular culture, and more. Three lecture hours a week for one semester. Only one of the following may be counted: Sociology 307L, 308 (Topic: Gender, Race, and Class in American Society), Women's and Gender Studies 301 (Topic: Gender, Race, and Class in American Society), 301 (Topic 21).
the following may be counted: African and African Diaspora Studies 316C, 317D (Topic: Rights in Modern America), American Studies 315 (Topic: Rights in Modern America), 315J, History 317L (Topic: Rights in Modern America), 317L (Topic 10), Women’s and Gender Studies 301 (Topic: Rights in Modern America), 301 (Topic 32).

Topic 33: Female Voices in China. Same as Asian Studies 302E and History 302F. Introduction (in translation) to the most important texts and other sources by, for, and about women in Chinese intellectual, political, social, and cultural history. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 301M (Topic: Female Voices in China), 302E, History 302F, Women’s and Gender Studies 301 (Topic 33).

Topic 34: Introduction to African American Women’s History. Same as African and African Diaspora Studies 315I and History 317L (Topic 20). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 310 (Topic: Intro Afr Amer Women’s Hist), 315I, History 317L (Topic: Intro Afr Amer Women’s Hist), 317L (Topic 20), Women’s and Gender Studies 301 (Topic 34).

WGS 303. Introduction to Lesbian, Gay, Bisexual, Transgender, and Queer Studies.
Explore concepts of gender and sexuality, race, class, religion, and nation; as well as skills in theory, history, and research methods relevant to LGBTQ studies. Survey the making of modern understandings of sexual and LGBTQ identities in the last one hundred years and the implications of this history for broader understandings of gender and sexuality. Three lecture hours a week for one semester. Women’s and Gender Studies 301 (Topic: Introduction to LGBTQ Studies) and 303 may not both be counted.

WGS 305. Introduction to Women’s and Gender Studies.
Introduction to the role of gender identity and representation in key social institutions and processes, including borders, displacements, and diasporas. Analysis of the social narratives of gender, race, and sexuality. Three lecture hours a week for one semester. Only one of the following may be counted: Human Development and Family Sciences 313, 313H, 313. Prerequisite: Credit or registration for Human Development and Family Sciences 313L.

WGS 313. Child Development.
Same as Human Development and Family Sciences 313. Motor, language, cognitive, social, and emotional development in the family context. Three lecture hours a week for one semester. Only one of the following may be counted: Human Development and Family Sciences 313, 313H, 313. Prerequisite: Credit or registration for Human Development and Family Sciences 113L.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Center for Women and Gender Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

WGS 322. Introduction to Women’s and Gender Studies in the Social Sciences.
Multidisciplinary topics using approaches from the social sciences to examine gender constructs and male/female roles. Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

WGS 322C. Sociology of Gender.
Same as Sociology 333K. Inequality between the sexes; men’s and women’s changing roles in society. Three lecture hours a week for one semester. Only one of the following can be counted: Sociology 333K, Women’s and Gender Studies 322 (Topic 1), 322C. Prerequisite: Forty-five semester hours of coursework.

WGS 322D. Population and Society.
Same as Sociology 369K. The study of populations, including their growth, age structure, and patterns of fertility, mortality, and migration; the social causes and consequences of these phenomena. Three lecture hours a week for one semester. Only one of the following may be counted: Sociology 369K, Women’s and Gender Studies 322 (Topic 2), 322D. Prerequisite: Forty-five semester hours of coursework.

WGS 322E. Sociology of Masculinities.
Same as Sociology 322M. Sociological examination of the most important debates and discussions about men’s experiences of masculinity in contemporary patriarchal societies. Exploration of social and individual meanings of masculinity, the dominant paradigms of masculinity that are taken as the norm, and the problems, contradictions, and paradoxes men experience in modern society. Three lecture hours a week for one semester. Only one of the following may be counted: Sociology 322M, Women’s and Gender Studies 322 (Topic 3), 322E. Prerequisite: Forty-five semester hours of coursework, three semester hours of coursework in sociology, and three semester hours of coursework in women’s and gender studies.

WGS 322F. The Sociology of Race and Work.
Same as Asian American Studies 330E and Sociology 321R. Critical examination of work in the United States over the twentieth and twenty-first centuries through a gendered, Asian American lens, using a comparative race perspective. Subjects include the sociological examination of concepts such as labor markets, globalization, care work, and gender/racial segregation in the workplace along with the ways race and gender shape how and where individuals are fitted into the workplace, how skills are evaluated, and how labor markets emerge. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 330 (Topic 4), 330E, Sociology 321R, Women’s and Gender Studies 322 (Topic 6), 322F. Prerequisite: Upper-division standing.

WGS 322G. Race and the Digital.
Same as African and African Diaspora Studies 322D and Sociology 322D. Review of theoretical developments in the sociological study of “race,” including an examination of processes of racialization and cultural texts, in order to better understand the ways in which identities are socially produced. Attention will be placed on forms of popular culture, black cultural production, and political action to question how such practices are shaped by migrations within the African diaspora. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 322D, Sociology 322D, Women’s and Gender Studies 322 (Topic 7), 322G. Prerequisite: Upper-division standing.

WGS 322J. Race, Gender, and Surveillance.
Same as African and African Diaspora Studies 360D, American Studies 321 (Topic 6), and Sociology 322V. Overview of theories in the sociology of social control, with a focus on risk, power, ethics, and surveillance. Examines historical transformations in social control and the distributions of power in the United States and global contexts, with attention to race, gender, and class. Subjects include: the transatlantic
slave trade; prisons and punishment; the gaze, voyeurism, and reality television watching; the Internet; travel and state borders; privacy; and biometrics and the body. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 360D, 372C (Topic 12), American Studies 321 (Topic 6), Sociology 322V, Women's and Gender Studies 322 (Topic 8), 322J. Prerequisite: Upper-division standing.

**WGS 322K. Sex and Violence in Popular Culture.**

Same as Sociology 322P. Overview of the cultural framing of sex and violence through realistic and hyper-realistic representations of sex, love, violence, and war in popular culture. Examination of the ethical implications, including the ways in which these representations rely on and further social inequalities and the sociological concepts, methods, and theoretical approaches to understanding sex and violence in popular culture. Three lecture hours a week for one semester. Only one of the following may be counted: Sociology 322P, Women's and Gender Studies 322 (Topic 10), 322K. Prerequisite: Forty-five semester hours of coursework.

**WGS 323. Introduction to Women's and Gender Studies in the Natural Sciences.**

Examination of gendered constructs such as gender and sexual development, male and female differences and similarities, and feminist or alternative scientific epistemologies using approaches from the natural sciences. Three lecture hours a week for one semester, or as required by the topic. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**WGS 323C. Primate Social Behavior.**

Same as Anthropology 346L. Studies primate behavior and why primates do what they do, including basic theoretical principles and the models used to explain primate behavior. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 346L, Women's and Gender Studies 323 (Topic: Primate Social Behavior), 323C. Prerequisite: Anthropology 301.

**WGS 323D. Sex and Human Nature.**

Same as Anthropology 348J. Provides an introduction to the scientific study of sexual behavior, mate choice, and reproduction in humans from the perspective of evolutionary biology; examines a wide range of genetic, ecological, social, physiological, and behavioral aspects of human sexuality. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 348J, 348K (Topic 12), Biology 337 (Topic: Sex and Human Nature), Women's and Gender Studies 323 (Topic: Sex and Human Nature), 323D. Prerequisite: Anthropology 301.

**WGS 324. Introduction to Women's and Gender Studies in Communication.**

Multidisciplinary course examining issues of women, gender, and sexuality in media industries, texts, and audiences. Three lecture hours a week for one semester, or as required for the topic. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**WGS 324C. Gender and Media Culture.**

Same as Radio-Television-Film 328C. Critical analysis of media and its interrelation with issues of gender. Three lecture hours and one two-and-one-half hour film screening a week for one semester. Only one of the following may be counted: Radio-Television-Film 325C, 328C, 359 (Topic: Women and Media Culture), 359S (Topic 2), Women's and Gender Studies 324 (Topic: Gender and Media Culture), 324C. Prerequisite: Fifty-four semester hours of college coursework.

**WGS 324D. Race, Class, and Gender in American Television.**

Same as Radio-Television-Film 335 (Topic 2). Surveys history and contemporary debates regarding the construction of race, class, gender and sexual orientation in U.S. television from the late 1940s through the present day and related issues of television aesthetics, production practices, audiences, and advocacy. Three lecture hours a week for one semester, with two-and-one-half-hours of film screening a week. Only one of the following may be counted: American Studies 321 (Topic: Race/Class/Gender in Amer TV), Mexican American Studies 374 (Topic: Race/Class/Gender in Amer TV), Radio-Television-Film 335 (Topic 2), 335 (Topic: Race/Class/Gender in Amer TV), Women's and Gender Studies 324 (Topic: Race, Class and Gender in American Television), 324D. Prerequisite: Fifty-four semester hours of college coursework.

**WGS 324E. Gender and Fan Culture.**

Same as Radio-Television-Film 359S (Topic 12). Three lecture hours and one two-and-one-half-hour film screening a week for one semester. Only one of the following may be counted: Radio-Television-Film 359S (Topic 6, 365 (Topic: Gender/Race/Sexlty Sport Media), Women's and Gender Studies 324 (Topic: Gender and Fan Culture), 324E. Prerequisite: Fifty-four semester hours of college coursework.

**WGS 324F. Gender, Race, and Sexuality in Sports Media.**

Same as Radio-Television-Film 359 (Topic 6). Three lecture hours and one two-and-one-half-hour film screening a week for one semester. Only one of the following may be counted: Radio-Television-Film 359 (Topic 6, 365 (Topic: Gender/Race/Sexlty Sport Media), Women's and Gender Studies 324 (Topic: Gender/Race/Sexlty Sport Media), 324F. Prerequisite: For journalism majors, Journalism 310F with a grade of at least B-; for others, six semester hours of upper-division coursework in women's and gender studies.

**WGS 324G. Gender and the News.**

Same as Journalism 348D. Historical and contemporary exploration of gender and the news. Examination of the role of marginalized gender groups in producing news and the construction of gender within news texts. Three lecture hours a week for one semester. Only one of the following may be counted: Journalism 348D, Women's and Gender Studies 324 (Topic 4), 324G. Prerequisite: For journalism majors, Journalism 310F with a grade of at least B-; for others, six semester hours of upper-division coursework in women's and gender studies.

**WGS 324J. Stardom and Celebrity Culture.**

Same as Radio-Television-Film 331K (Topic 7). Survey of the construction and meanings of stardom in film, television, and new media. Subjects include links with the media industries; stardom and race, class, gender, and sexuality; and new permutations of celebrity culture. Three lecture hours and one two-and-a-half hour film screening a week for one semester. Only one of the following may be counted: Radio-Television-Film 331K (Topic: Critical Studies of Film and Television Stardom), 331K (Topic 6), 331K (Topic 7), Women's and Gender Studies 324 (Topic: Critical Stds Film/TVM Stardm), 324J. Prerequisite: Fifty-four semester hours of college coursework.

**WGS 125. Special Topics in Women's and Gender Studies.**

Analysis of special topics in women's and gender studies through reading, discussion, and lectures. One lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**WGS 129S, 229S, 329S, 429S, 529S, 629S, 729S, 829S, 929S. Topics in Women's and Gender Studies.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Center for Women's and Gender Studies. University credit is awarded for work in an exchange program; it may be counted as
coursework taken in residence. Transfer credit is awarded for work in an
affiliated studies program. May be repeated for credit when the topics
vary.

WGS 333D. Introduction to Developmental Psychology.
Same as Psychology 333D. Physical, social, and cognitive development
in humans. Three lecture hours a week for one semester. Only one of
the following may be counted: Psychology 304, 333D, Women’s and
Gender Studies 333D, 345 (Topic 6). Prerequisite: For psychology majors, upper-
division standing and Psychology 301 and 418 or 420M with a grade
of at least C in each; for others, upper-division standing, Psychology
301 with a grade of at least C, and one of the following with a grade
of at least C: Advertising 309R, African and African Diaspora Studies
302M, Biomedical Engineering 335, Chemical Engineering 253K, Civil
Engineering 311S, Economics 329, Educational Psychology 308, 371,
Electrical Engineering 351K, Government 350K, Mathematics 316, 362K,
Mechanical Engineering 335, Psychology 317, 317L, Public Relations 309,
Sociology 317L, Social Work 318, Statistics 301, 309, Statistics and Data
Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321, 325H, 328M.

GWS 333R. Social Development in Children.
Same as Psychology 333R. Development of social behavior (for example,
sex typing and aggression) and social relationships. Three lecture hours
a week for one semester. Only one of the following may be counted:
Psychology 333R, Women’s and Gender Studies 333R, 345 (Topic 19).
Prerequisite: For psychology majors, upper-division standing and
Psychology 301 and 418 or 420M with a grade of at least C in each; for
others, upper-division standing, Psychology 301 with a grade of at least
C, and one of the following with a grade of at least C: Advertising 309R,
African and African Diaspora Studies 302M, Biomedical Engineering
335, Chemical Engineering 253K, Civil Engineering 311S, Economics 329,
Educational Psychology 308, 371, Electrical Engineering 351K, Government 350K,
Mathematics 316, 362K, Mechanical Engineering 335, Psychology 317, 317L,
Public Relations 309, Sociology 317L, Social Work 318, Statistics 301, 309,
Statistics and Data Sciences 301, 302, 302F, 303, 304, 305, 306, 318, 320E, 321,
325H, 328M.

WGS 335. Topics in Lesbian, Gay, Bisexual, Transgender,
and Queer Studies.
The perspectives, experiences, and cultural contributions of lesbian,
gay, bisexual, transgender, and queer people, examined from different
disciplinary and/or interdisciplinary perspectives according to the topic.
Three lecture hours a week for one semester. May be repeated for credit
when the topics vary. Prerequisite: Upper-division standing; additional
prerequisites vary by topic.

Topic 1: Confronting LGBTQ Oppression. Same as Theatre and
Dance 357T (Topic 4). Serves two primary functions: to increase
participant’s knowledge on the issues facing the Lesbian, Gay,
Bisexual, Transgender, and Queer (LGBTQ) community; and to learn
facilitation skills in order to talk about these issues on campus.
Enrolled students will become peer educators in a team, and will give
workshops across campus around LGBTQ issues during the spring
semester. Only one of the following may be counted: Social Work 360K
(Topic: Confronting LGBTQ Oppression), Theatre and Dance 357T
(Topic: Confronting LGBTQ Oppression), 357T (Topic 4), Women’s
and Gender Studies 335 (Topic 1), 345 (Topic: Confronting LGBTQ
Oppression). Additional prerequisite: Consent of instructor.

Topic 2: Facilitating Dialogues on LGBTQ Oppression: Peers for
Pride in Action. Same as Social Work 335. Restricted to students in
the Peers for Pride program. The second part of the Peers for Pride
facilitation program; serves as a way for students in the program
to use the information and skills learned in “Confronting LGBTQ
Oppression.” Students will continue to fine-tune their facilitation skills
and continue learning about LGBTQ people on the UT campus and
beyond. Only one of the following may be counted: Social Work 335,
360K (Topic: LGBTQ Oppression: Dialog), Theatre and Dance 357T
(Topic: LGBTQ Oppression: Dialog), Women’s and Gender Studies
335 (Topic 2), 345 (Topic: LGBTQ Oppression: Facilit Dialog). Additional
prerequisite: Consent of instructor.

Topic 3: African Queer Studies. Same as African and African Diaspora
Studies 340N. Examines the development of African queer studies as
the interdisciplinary study of sexuality on the African continent, and
its impact on the academic and activist realm. Focus on intersectional
feminist and queer theory and how this field offers tools that can be
used to rethink issues of oppression and domination in relationship
to race, nation, sex, gender, and sexuality on the African continent.
Of particular interest will be LGBTQ activism and the ways in which
queer Africans engage and shape their sexuality, and create forms
of belonging in their countries and their communities. Three lecture
hours a week for one semester. Only one of the following may be
Women’s and Gender Studies 335 (Topic 3). Additional prerequisite:
Upper-division standing.

Topic 4: Sexual Deviance in the Twentieth-Century United States.
Same as American Studies 370 (Topic 50). Examines the ways that
Americans have created and maintained hierarchies of power by
casting certain people and sexual behaviors as unnatural and immoral
since the turn of the twentieth century. Only one of the following may
be counted: American Studies 370 (Topic: Sexual Deviance in the
Twentieth-Century US), 370 (Topic 50), Women’s and Gender Studies
335 (Topic: Sexual Deviance in the Twentieth-Century US), 335 (Topic 4).
Additional prerequisite: Upper-division standing.

Topic 5: Gender Issues in Contemporary Latin American Cinema.
Same as Latin American Studies 370S (Topic 24) and Spanish
350C. Studies Latin American cinema as a device of gender system
formation and reinforcement, and as criticism of patriarchal
hegemony; discusses questions related to sexuality depicted in Latin
American films. Subjects covered include: maternity, prostitution,
machismo, children’s sexuality, homosexuality, heterosexuality, and
gender violence in films from the 1930s to present. Conducted in
Spanish. Three lecture hours a week for one semester. Only one of
the following may be counted: Latin American Studies 370S (Topic
24), Spanish 350C, 350K (Topic 1), Women’s and Gender Studies 335
(Topic 6). Additional prerequisite: One of the following: Spanish 327C,
327N, 327V (or 327W), 328C, or 330L.

Topic 7: Queer Study in Low Culture. Same as American Studies
370 (Topic 51). Examines representations of sexual and gender non-
conformity in popular culture since the mid-twentieth century in the
United States. Only one of the following may be counted: American
Studies 370 (Topic: Queer Study in Low Culture), 370 (Topic 51),
Women’s and Gender Studies 335 (Topic: Queer Study in Low Culture),
335 (Topic 7). Additional prerequisite: Upper-division standing.

Topic 9: Movements for Sexual and Reproductive Justice. Same as
American Studies 370 (Topic 52). Charts the historical development
of various struggles for sexual and reproductive justice in the United
States since the nineteenth century. Only one of the following may
be counted: American Studies 370 (Topic: Movements for Sexual and
Reproductive Justice), 370 (Topic 52), Women’s and Gender Studies
335 (Topic: Movements for Sexual and Reproductive Justice), 335
(Topic 9).

Topic 10: HIV and AIDS Activism and the Healing Arts. Same as
African and African Diaspora Studies 350J and Anthropology 324J.
Three lecture hours a week for one semester. Only one of the following
may be counted: African and African Diaspora Studies 350J, 374E
(Topic: HIV/AIDS Activism/Heal Arts), Anthropology 324J, 324L (Topic:
HIV/AIDS Activism/Heal Arts), Women’s and Gender Studies 335
(Topic: HIV/AIDS Activism/Heal Arts), 335 (Topic 10). Additional
prerequisite: Upper-division standing.
Topic 11: Beyoncé Feminism and Rihanna Womanism. Same as African and African Diaspora Studies 330. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 372C (Topic: Beyoncé Feminism/Rihanna Womanism), 330, Women’s and Gender Studies 335 (Topic: Beyoncé Feminism/Rihanna Womanism), 335 (Topic 11). Additional prerequisite: Upper-division standing.

Topic 12: Transgender Feminisms. Women’s and Gender Studies 335 (Topic: Transgender Feminisms) and 335 (Topic 12) may not both be counted.

Topic 13: Queer Art and Activism. Women’s and Gender Studies 335 (Topic: Queer Art and Activism) and 335 (Topic 13) may not both be counted.

Topic 14: Sexuality in Global Perspective. Same as Anthropology 324V and Latin American Studies 324G. Explore the ways in which sexuality intersects with money, intimacy, power, and labor in the context of global economic processes. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Sexuality in Global Persp), 324V, Latin American Studies 324G, Women’s and Gender Studies 335 (Topic: Sexuality in Global Persp), 335 (Topic 14). Additional prerequisite: Upper-division standing.

Topic 15: Queer Migrations. Same as Mexican American Studies 335M. Three lecture hours a week for one semester. Only one of the following may be counted: Mexican American Studies 335M, 374 (Topic: Queer Migrations), Women’s and Gender Studies 335 (Topic: Queer Migrations), 335 (Topic 15). Additional prerequisite: Upper-division standing.

Topic 17: Disability, Race, and Sexuality in Literature and Culture. Same as English 343D and Mexican American Studies 337G. Three lecture hours a week for one semester. Only one of the following may be counted: English 343D, Mexican American Studies 337G, Women’s and Gender Studies 335 (Topic 17). Additional prerequisite: For English majors, one of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P, or Tutorial Course 303D; for others, upper-division standing.

Topic 18: Twentieth-Century United States Lesbian and Gay History. Same as American Studies 370 (Topic 49) and History 365G (Topic 10). Examines classic texts and recent and varied writings on LGBT history, focused on experiences, ideas, and conflicts that have shaped modern LGBT identities. Only one of the following may be counted: American Studies 370 (Topic: United States Lesbian and Gay History, Twentieth Century), 370 (Topic 49), History 365G (Topic: United States Lesbian and Gay History, Twentieth Century), 365G (Topic 10), Women’s and Gender Studies 335 (Topic 18), 340 (Topic: United States Lesbian and Gay History, Twentieth Century).

Topic 20: Sex and Sexuality in the Muslim World. Same as Middle Eastern Studies 341 (Topic 13), Religious Studies 358J, and Sociology 342S. Three lecture hours a week for one semester. Only one of the following may be counted: Islamic Studies 372 (Topic: Sex/Sexuality Muslim World), 372 (Topic 25), Middle Eastern Studies 341 (Topic 13), Religious Studies 358 (Topic: Sex/Sexuality Muslim World), 358J, Sociology 321K (Topic: Sex/Sexuality Muslim World), 342S, Women’s and Gender Studies 335 (Topic: Sex/Sexuality Muslim World), 335 (Topic 20). Additional prerequisite: Upper-division standing.

Topic 21: Preserving Austin’s Queer History. Same as American Studies 370 (Topic 69) and History 350R (Topic 43). Explore Austin’s queer history since World War II and write on the practice of oral history and LGBTQ oral history in particular. Build the foundation for an ongoing Austin LGBTQ Oral History Project to be housed at the Briscoe Center for American History. Only one of the following may be counted: American Studies 370 (Topic: Preserving ATX Queer Hist), 370 (Topic 69), History 350R (Topic 43), Women’s and Gender Studies 335 (Topic 21). Additional prerequisite: Upper-division standing.

Topic 22: Queer Visual Culture. Women’s and Gender Studies 335 (Topic 22) and 345 (Topic: Queer Visual Culture) may not both be counted.

Topic 23: Performing LGBTQ+. Same as Comparative Literature 323 (Topic 72) and Theatre and Dance 357T (Topic 6). Only one of the following may be counted: Comparative Literature 323 (Topic: Performing LGBTQ+), 323 (Topic 72), Theatre and Dance 357T (Topic: Performing LGBTQ+), 357T (Topic 6), Women’s and Gender Studies 335 (Topic: Performing LGBTQ+), 335 (Topic 23). Additional prerequisite: Upper-division standing.

Topic 24: United States Masculinities. Same as American Studies 370 (Topic 68). Only one of the following may be counted: American Studies 370 (Topic: US Masculinities), 370 (Topic 68), Women’s and Gender Studies 335 (Topic: US Masculinities), 335 (Topic 24).

Topic 26: Queer Eastern Europe. Same as Comparative Literature 323 (Topic 74), European Studies 347 (Topic 55), and Russian, East European, and Eurasian Studies 325 (Topic 46). Explore LGBTQI stories and political struggles in Eastern Europe with a focus on the region’s queer culture: literature, cinema, and the arts. Only one of the following may be counted: Comparative Literature 323 (Topic 74), European Studies 347 (Topic 55), Russian, East European, and Eurasian Studies 325 (Topic: Queer Narr Eastern Europe), 325 (Topic 46), Women’s and Gender Studies 335 (Topic 26). Additional prerequisite: Upper-division standing.

Topic 27: Latinx Sexualities. Same as African and African Diaspora Studies 325C, American Studies 337J, and Mexican American Studies 337J. Examine Latinx sexualities from a historical perspective to comprehend the social, cultural, political, and economic factors, which have shaped these experiences. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 325C, 372C (Topic: Latinx Sexualities), American Studies 337J, 370 (Topic: Latinx Sexualities), Mexican American Studies 337J, 374 (Topic: Latinx Sexualities), Women’s and Gender Studies 335 (Topic: Latinx Sexualities), 335 (Topic 27). Additional prerequisite: Upper-division standing.

Topic 28: Race, Gender, Sex, and Religion. Same as African and African Diaspora Studies 352M, American Studies 373I, and Religious Studies 373I. Use an intersectional feminist framework to examine the construction and maintenance of normative categories of race, gender, sex, and sexuality within United States religious discourse. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 352M, American Studies 373I, Religious Studies 361 (Topic: Race, Gender, Sex, Religion), 373I, Women’s and Gender Studies 335 (Topic 28). Additional prerequisite: Upper-division standing.

WGS 335C. Queer Media Studies.

Same as Radio-Television-Film 359S (Topic 5). Critical analysis of queer media. Read key queer (media) theory texts and explore dominant strategies used by the media industries, as well as those utilized by LGBTQ+ independents/subcultures, paying close attention to contested discourses of identity, politics, activism and desire. Explore historical shifts in the representation of LGBTQ+ individuals. Three lecture hours and one two-and-one-half-hour film screening a week for one semester. Only one of the following may be counted: Radio-Television-Film 359S
Standing; additional prerequisites vary with the topic. Be repeated for credit when the topics vary. Prerequisite: Upper-division in different cultures. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing; additional prerequisites vary with the topic.

**Topic 3: African American Family.** Same as African and African Diaspora Studies 321K and Social Work 360K (Topic 2). Overview of historical and contemporary issues facing African American families and children. Social service delivery to African American families and communities is emphasized. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 321K, Social Work 360K (Topic 2), Women's and Gender Studies 340 (Topic 3).

**Topic 4: 21st Century Latinx Literature.** Same as English 342D and Mexican American Studies 345J. Explore Latinx literature from the past two decades including both literary form and political engagement, with an emphasis on Latina, queer, and nonbinary writers. Three lecture hours a week for one semester. Only one of the following may be counted: English 342D, Mexican American Studies 345J, 374 (Topic: 21st Century Latinx Lit), Women's and Gender Studies 340 (Topic 4). Additional prerequisite: Upper-division standing.

**Topic 7: Black Women and the State.** Same as African and African Diaspora Studies 360E, Anthropology 324L (Topic 78), and Latin American Studies 324L (Topic 17). Surveys black women's experiences living with and confronting state oppression around the world. Takes an historical, social, and theoretical look at the roots of this oppression and inequality, and how black women have chosen to respond to it locally and globally. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 360E, 372F (Topic 11), 372F (Topic 12), Anthropology 324L (Topic 78), Latin American Studies 324L (Topic 17), Women's and Gender Studies 340 (Topic 7), 340 (Topic 63). Additional prerequisite: Upper-division standing.

**Topic 9: Black Women in America.** Same as African and African Diaspora Studies 351G and History 350R (Topic 17). Uses primary sources, historical monographs, and essays to provide a chronological and thematic overview of the experiences of black women in America from their African roots to the circumstances they face in the present era. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 351G, 374D (Topic 9), History 350R (Topic 17), Women's and Gender Studies 340 (Topic 9). Additional prerequisite: Upper-division standing and six semester hours of coursework in history.

**Topic 10: Iranian Women Writers.** Same as Middle Eastern Languages and Cultures 321 (Topic 11) and Middle Eastern Studies 342 (Topic 11). Only one of the following may be counted: Middle Eastern Languages and Cultures 321 (Topic 11), Middle Eastern Studies 342 (Topic 11), WGS 340 (Topic 10). Additional prerequisite: Upper-division standing.

**Topic 11: Veiling in the Muslim World.** Same as Asian Studies 372F, Middle Eastern Languages and Cultures 321 (Topic 22), and Religious Studies 358V. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 372 (Topic 14), 372F, Islamic Studies 372 (Topic 2), Middle Eastern Languages and Cultures 321 (Topic 22), Religious Studies 358 (Topic 5), 358V, Women's and Gender Studies 340 (Topic 11). Additional prerequisite: Upper-division standing.

**Topic 13: Law and Society in Early Modern Europe.** Same as European Studies 346 (Topic 4) and History 350L (Topic 57). Research seminar on how historians have explored the significance of law, criminal and civil, in the lives of early modern Europeans. Topics include infanticide, fornication, drunkenness, theft, debt, slander, and family disputes. Only one of the following may be counted: European Studies 346 (Topic 4), History 350L (Topic 57), Women's and Gender Studies 340 (Topic 13).

**Topic 14: Self-Revelation in Women's Writing.** Same as African and African Diaspora Studies 330N, Comparative Literature 323 (Topic 4), and Middle Eastern Studies 342 (Topic 19). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 330N, 372E (Topic 8), Comparative Literature 323 (Topic 4), Middle Eastern Studies 342 (Topic 19), Women's and Gender Studies 340 (Topic 14).

**Topic 18: Women and Gender in China.** Same as Asian Studies 372J and History 350L (Topic 46). Examine women and gender in China from imperial times to the present. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 372 (Topic 21), 372J, History 350L (Topic 46), Women's and Gender Studies 340 (Topic 18). Additional prerequisite: Upper-division standing.

**Topic 19: Contemporary India.** Exploration of urban and rural inequality through classic and contemporary novels, ethnographies, and films that highlight gender relations.

**Topic 20: Violence in Contemporary Mexican Culture.** Same as Latin American Studies 370S (Topic 23) and Spanish 355F. Studies the representation of violence in contemporary literary and cultural production in Mexico in order to understand social, political, and cultural implications of current violence there. Taught in Spanish. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 370S (Topic 23), Spanish 355 (Topic 6), Spanish 355F, and Women's and Gender Studies 340 (Topic 20). Additional prerequisite: One of the following: Spanish 327C, 327N, 327V (or 327W), 328C, or 330L.

**Topic 21: Minorities and the Media.** Discussion of issues concerning minority or nondominant groups in the United States. Survey of minority communication problems, including alienation; fragmentation; media and Internet access; and criticism and feedback for minority groups based on racial/ethnic background, age, sex, disability, social or economic class, and sexual orientation. Only one of the following may be counted: Journalism 341H, 341J, 341M, Latin American Studies 322 (Topic 10), Mexican American Studies

Topic 26: American Popular Culture, 1682-1800. Same as American Studies 370 (Topic 35) and History 350R (Topic 19). Examines the evolution of American popular culture and its relationship to national consolidation, and at times, disunion, over the last 330 years.

Topic 27: Islamic Law. Same as Middle Eastern Languages and Cultures 321 (Topic 19), Middle Eastern Studies 342 (Topic 27), and Religious Studies 358K. Designed to give students a foundation in the substantive teachings of the shariah, which comprises not only what we normally think of as law, but also ethics and etiquette. Three lecture hours a week for one semester. Only one of the following may be counted: Islamic Studies 340 (Topic 5), Middle Eastern Languages and Cultures 321 (Topic: Islamic Law), 321 (Topic 19), Middle Eastern Studies 342 (Topic 27), Religious Studies 358 (Topic: Islamic Law), 358 (Topic 9), 358K, Women’s and Gender Studies 340 (Topic 27). Additional prerequisite: Upper-division standing.

Topic 29: Contemporary African American Women’s Fiction. Same as African and African Diaspora Studies 330M and English 343W. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 330M, 372E (Topic 15), English 343W, 376M (Topic 7), Women’s and Gender Studies 340 (Topic 29). Additional prerequisite: For English majors, one of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P, or Tutorial Course 303D; for others, upper-division standing.

Topic 31: Writing Slavery. Same as African and African Diaspora Studies 330P and English 323E. Explores the controversial rewriting of slavery in a presentist context by contemporary authors. Addresses challenges that archival limitations and revisionist writings about slavery pose for academic disciplines, literary instruction, and/or pedagogy. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 330P, 374F (Topic 6), English 323E, 376M (Topic 3), Women’s and Gender Studies 340 (Topic 31). Additional prerequisite: For English majors, one of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P, or Tutorial Course 303D; for others, upper-division standing.

Topic 33: Antebellum Slavery. Same as African and African Diaspora Studies 351K and History 356G (Topic 6). Examination of slavery at its maturity during the nineteenth century. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 351K, 374D (Topic 16), History 356G (Topic 6), Women’s and Gender Studies 340 (Topic 33). Additional prerequisite: Upper-division standing.

Topic 34: Gender in North and West Africa. Same as African and African Diaspora Studies 340S, Middle Eastern Languages and Cultures 321 (Topic 16), and Middle Eastern Studies 342 (Topic 28). Examines gender discourses through North African and West African literary works by looking at the role(s) played by Islam and Christianity in the creation of the identities of African men and women. Includes discussion of the question of what gender is, and whether it is socially constructed. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 340S, 372G (Topic 5), Islamic Studies 373 (Topic 8), Middle Eastern Languages and Cultures 321 (Topic 16), Middle Eastern Studies 342 (Topic 28), Women’s and Gender Studies 340 (Topic 34). Additional prerequisite: Upper-division standing.

Topic 37: Tolerance in Dutch Culture. Same as European Studies 347 (Topic 19) and German, Scandinavian, and Dutch Studies 361E. The historical roots of Dutch “tolerance” and how it plays a role in current Dutch culture and attitudes towards religious, gender, and sexual differences, as well as drug use, prostitution, and euthanasia. Exploration of the stereotypes and the actuality of these Dutch attitudes and policies from an international comparative perspective. Only one of the following may be counted: European Studies 347 (Topic: Dutch Culture: Too tolerant?), 347 (Topic 19), German, Scandinavian, and Dutch Studies 361E, Germanic Civilization 327E (Topic: Dutch Culture: Too tolerant?), Women’s and Gender Studies 340 (Topic: Dutch Culture: Too tolerant?), 340 (Topic 37). Additional prerequisite: Upper-division standing.

**Topic 40: Historical Imagining of Africa in Films.** Same as African and African Diaspora Studies 340L and History 350L (Topic 70). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 340L, 374F (Topic 18), History 350L (Topic 70), Women's and Gender Studies 340 (Topic 40). Additional prerequisite: Upper-division standing.

**Topic 43: Black Women and Dance.** Same as African and African Diaspora Studies 356E. Exploration of how black women express creativity in response to the violence of racism and sexism, and to envision new ways of being and moving in the world. Women’s participation in ritual, concert, and social dance in North America, Haiti, Cuba, and Brazil will be studied through readings, viewings, and stagings. Only one of the following may be counted: African and African Diaspora Studies 356E, 372E (Topic: Black Women and Dance), Theatre and Dance 357T (Topic: Black Women and Dance), Women’s and Gender Studies 340 (Topic: Black Women and Dance), 340 (Topic 43). Prerequisite: Upper-division standing.

**Topic 44: Gender Politics in the Islamic World.** Same as Middle Eastern Studies 341 (Topic 7), Religious Studies 358G, and Sociology 336G. Study of the Islamic world and major sociological concepts such as gender, social organizations, culture, and politics. Examines how culture is mediated by politics, resulting in diverse interpretations of Islam and in different policies with respect to women’s rights. Three lecture hours a week for one semester. Only one of the following may be counted: Islamic Studies 373 (Topic 11), Middle Eastern Studies 341 (Topic 7), Religious Studies 358 (Topic 8), 358G, Sociology 336G, Women’s and Gender Studies 340 (Topic 44). Additional prerequisite: Upper-division standing.

**Topic 45: Feminist Interventions in Borderlands History.** Same as American Studies 370 (Topic 45) and Mexican American Studies 374 (Topic 38). Provides an in-depth understanding of the social, economic, and spatial transformations of the United States/Mexico borderlands in the nineteenth and early twentieth centuries. Only one of the following may be counted: American Studies 370 (Topic: Feminist Interventions in Borderlands History), 370 (Topic 45), Mexican American Studies 374 (Topic: Feminist Interventions in Borderlands History), 374 (Topic 38), Women’s and Gender Studies 340 (Topic: Feminist Interventions in Borderlands History), 340 (Topic 45).

**Topic 46: Africana Women's Art.** Same as African and African Diaspora Studies 335C and Art History 346L. Analysis of the diverse modes of presentation, mediums, definitions, and influences of Africana women artists in the diaspora. Designed to use critical theory and art history found in oral and written literatures, music, films, and other formal and informal documents. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 335C, 374F (Topic: Africana Women’s Art), 374F (Topic 9), Art History 346L, 373C (Topic: Africana Women's Art), Women's and Gender Studies 340 (Topic: Africana Women's Art), 340 (Topic 46). Additional prerequisite: Upper-division standing.

**Topic 47: Black Queer Literature and Film.** Same as African and African Diaspora Studies 330W and English 343M. Analyzes written works, films, and videos by and about lesbians, bisexual, transgender, and gay black people, with an emphasis on understanding the historical and theoretical construction of sexual and gender identities and sexual/cultural practices in black communities. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 330W, 372E (Topic 13), English 343M, 376M (Topic 8), Women's and Gender Studies 340 (Topic 47). Additional prerequisite: For English majors, one of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P, or Tutorial Course 303D; for others, upper-division standing.

**Topic 48: Diaspora Visions.** Same as African and African Diaspora Studies 335G and Art History 345L. An exploration of border crossing by cultures and groups including Yorubas, Jews, Armenians, Tibetans, Hamish, Pakistanis, and Indians and the production of images by immigrants, exiles, and nomads in alien lands. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 335G, 374F (Topic 13), Art History 345L, 373D (Topic: Diaspora Visions), 374 (Topic: Diaspora Vision), Women’s and Gender Studies 340 (Topic 48).

**Topic 50: Women and the Holocaust.** Same as Comparative Literature 323 (Topic 19), European Studies 346 (Topic 10), German, Scandinavian, and Dutch Studies 341F, and Jewish Studies 363 (Topic 11). Introduction to both the history of Jewish and German women during World War II and the Holocaust, and to women’s narratives and self-representations of this period. Historical sources, memoirs, films, and interviews will be used as source material. Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 323 (Topic: Women’s Narratives of the Holocaust and World War II), 323 (Topic 19), European Studies 346 (Topic: Women’s Narratives of the Holocaust and World War II), 346 (Topic 10), German, Scandinavian, and Dutch Studies 341F, Germanic Civilization 323E (Topic: Women’s Narratives of the Holocaust and World War II), Jewish Studies 363 (Topic 11), Women’s and Gender Studies 340 (Topic: Women’s Narratives of the Holocaust and World War II), 340 (Topic 50). Additional prerequisite: Upper-division standing.

**Topic 51: Medieval Women Mystics.** Same as European Studies 347 (Topic 18), German, Scandinavian, and Dutch Studies 361D, and Religious Studies 357U. The life and writings of Saint Birgitta of Sweden, fourteenth-century visionary, religious reformer, and pilgrim, examined and compared with her predecessor Hildegard of Bingen (Germany), her successor Margery Kempe (England), as well as Margery’s mentor, Julian of Norwich. Social and historical contexts for all four of these women mystics will be explored in depth. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 347 (Topic 18), German, Scandinavian, and Dutch Studies 361D, Germanic Civilization 327E (Topic 10), Religious Studies 357 (Topic 15), 357U, Scandinavian 373 (Topic 8), Women’s and Gender Studies 340 (Topic 51). Additional prerequisite: Upper-division standing.

**Topic 52: Sex and Power in the African Diaspora.** Same as African and African Diaspora Studies 345F and Anthropology 324L (Topic 48). Exploration of various experiences and theories of sex, intimacy, and desire alongside intellectual and artistic engagements with power.
hierarchies and spirituality across transnational black communities. Subjects include the concept of "erotic subjectivity" from various theoretical and methodological angles, principally within African diasporic contexts. Three lecture hours a week for one semester.

Only one of the following may be counted: African and African Diaspora Studies 345F, 372G (Topic 33), Anthropology 324L (Topic 48), Women's and Gender Studies 340 (Topic 52). Additional prerequisite: Upper-division standing.

**Topic 54: The Qur'an.** Same as Comparative Literature 323 (Topic 37), Core Texts and Ideas 375 (Topic 1), Middle Eastern Languages and Cultures 321 (Topic 9), Middle Eastern Studies 342 (Topic 16), and Religious Studies 325G. The history, language, style, and themes of the Qur'an. Only one of the following may be counted: Comparative Literature 323 (Topic 37), Core Texts and Ideas 375 (Topic 1), Islamic Studies 340 (Topic 2), Middle Eastern Languages and Cultures 321 (Topic 9), Middle Eastern Studies 342 (Topic 16), Religious Studies 325G, Women's and Gender Studies 340 (Topic 54). Additional prerequisite: Upper-division standing.

**Topic 55: Women Filmmakers in the Middle East.** Same as Middle Eastern Languages and Cultures 321 (Topic 23) and Middle Eastern Studies 342 (Topic 32). Only one of the following may be counted: Middle Eastern Languages and Cultures 321 (Topic 23), Middle Eastern Studies 322k (Topic: Women Filmmakers in the Middle East), 342 (Topic 32), Turkish 372 (Topic: Women Filmmakers in the Middle East), Women's and Gender Studies 340 (Topic: Women Filmmakers in the Middle East), 340 (Topic 55). Additional prerequisite: Upper-division standing.

**Topic 56: Muslim Women in Politics.** Same as Anthropology 324N, Middle Eastern Studies 341 (Topic 12), and Religious Studies 358D. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Muslim Women in Politics), 324N, Islamic Studies 372 (Topic 23), Middle Eastern Studies 341 (Topic 12), Religious Studies 358 (Topic 19), 358D, Women's and Gender Studies 340 (Topic 56). Additional prerequisite: Upper-division standing.

**Topic 58: Queer Ethnographies.** Same as Anthropology 324L (Topic 45). Anthropological analysis of gender and sexuality that critically evaluates formative concepts and theories that have been subject to recent debates within anthropology, gender studies, and queer theory. Only one of the following may be counted: Anthropology 324L (Topic: Queer Ethnographies), 324L (Topic 45), Women's and Gender Studies 340 (Topic: Queer Ethnographies), 340 (Topic 58).

**Topic 59: Ancient Mediterranean Masculinities.** Same as Classical Civilization 348 (Topic 18). Examines in-depth literary and artistic evidence from multiple ancient cultures to determine how each society defined the distinctively "masculine" role it expected of men and boys and how each society transformed boys into men. Only one of the following may be counted: Classical Civilization 348 (Topic: Ancient Mediterranean Masculinities), 348 (Topic 18), Women's and Gender Studies 340 (Topic: Ancient Mediterranean Masculinities), 340 (Topic 59).

**Topic 60: Women and Resistance in Contemporary Eastern Europe.** Same as European Studies 347 (Topic 44) and Russian, East European, and Eurasian Studies 325 (Topic 36). Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 347 (Topic: Women and Resistance in Contemporary Eastern Europe), 347 (Topic 44), Russian, East European, and Eurasian Studies 325 (Topic: Women and Resistance in Contemporary Eastern Europe), 325 (Topic 36), Women's and Gender Studies 340 (Topic: Women and Resistance in Contemporary Eastern Europe), 340 (Topic 60). Additional prerequisite: Upper-division standing.

**Topic 61: Arendt and de Beauvoir.** Same as Comparative Literature 323 (Topic 45), European Studies 347 (Topic 37), and German, Scandinavian, and Dutch Studies 341M. Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 323 (Topic: Arendt And De Beauvoir), 323 (Topic 45), European Studies 347 (Topic: Arendt And De Beauvoir), 347 (Topic 37), German, Scandinavian, and Dutch Studies 340 (Topic: Arendt And De Beauvoir), 341M, Women's and Gender Studies 340 (Topic: Arendt And De Beauvoir), 340 (Topic 61). Additional prerequisite: Upper division standing.

**Topic 62: Gender and Art in the Muslim World.** Same as Asian Studies 374D, Middle Eastern Languages and Cultures 321 (Topic 31), Middle Eastern Studies 342 (Topic 40), and Religious Studies 358W. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 372 (Topic 46), 374D, Islamic Studies 373 (Topic 15), Middle Eastern Languages and Cultures 321 (Topic 31), Middle Eastern Studies 342 (Topic 40), Religious Studies 358 (Topic 20), 358W, Women's and Gender Studies 340 (Topic 62). Additional prerequisite: Upper-division standing.

**Topic 65: Feminism and Film: Women Filmmakers in Northern and Central Europe.** Same as Comparative Literature 323 (Topic 33), European Studies 347 (Topic 24), and German, Scandinavian, and Dutch Studies 331D. An introduction to the work of women filmmakers from Scandinavia, Germany, as well as to the viewing and interpretation of films in general. Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 323 (Topic: Women Filmmakers in Northern and Central Europe), 323 (Topic 33), European Studies 347 (Topic: Women Filmmakers in Northern and Central Europe), 347 (Topic 24), German, Scandinavian, and Dutch Studies 330 (Topic: Women Filmmakers in Northern and Central Europe), 331D, Women's and Gender Studies 340 (Topic: Women Filmmakers in Northern and Central Europe), 340 (Topic 65). Additional prerequisite: Upper-division standing.

**Topic 66: Holocaust Aftereffects.** Same as Comparative Literature 323 (Topic 40), European Studies 346 (Topic 23), German, Scandinavian, and Dutch Studies 360 (Topic 1), Jewish Studies 365 (Topic 14), and Religious Studies 357V. Explores the historical, political, psychological, theological, and cultural fallout of the Holocaust, as well as literary and cinematic responses in Europe and the United States. Three lecture hours a week for one semester. Only one of the following may be counted: Comparative Literature 323 (Topic 40), European Studies 346 (Topic 23), German, Scandinavian, and Dutch Studies 360 (Topic 1), Jewish Studies 365 (Topic 14), and Religious Studies 357V. Addresses the questions
surrounding poverty of South Asian women by combining legal, political and social histories of the subcontinent over four centuries. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 372 (Topic: Women and Wealth in South Asia), 372 (Topic 47), 372Q, History 350L (Topic: Women and Wealth in South Asia), 350L (Topic 94), Women's and Gender Studies 340 (Topic: Women and Wealth in South Asia), 340 (Topic 68). Additional prerequisite: Upper-division standing.

**Topic 70: Women, Gender, and Black Power.** Same as African and African Diaspora Studies 350G and History 350R (Topic 41). Examines the Black Power Movement through the experiences of African American women activists as well as gender and sexuality constructs that prevailed during the second half of the twentieth century. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350G, 374D (Topic: Women, Gender, and Black Power), History 350R (Topic: Women, Gender, and Black Power), 350R (Topic 41), Women's and Gender Studies 340 (Topic: Women, Gender, and Black Power), 340 (Topic 70). Additional prerequisite: Upper-division standing and six semester hours of coursework in history.

**Topic 74: Bad Language: Race, Class, and Gender.** Same as Comparative Literature 323 (Topic 52), Mexican American Studies 363R, and Russian, East European, and Eurasian Studies 325 (Topic 32). Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: Bad Language: Race, Class, and Gender), Comparative Literature 323 (Topic: Bad Language: Race, Class, and Gender), 323 (Topic 52), Linguistics 350 (Topic: Bad Language: Race, Class, and Gender), Mexican American Studies 363R, 374 (Topic: Bad Language: Race, Class, and Gender), Russian 369 (Topic: Bad Language: Race, Class, and Gender), Russian, East European, and Eurasian Studies 325 (Topic: Bad Language: Race, Class, and Gender), 325 (Topic 32), Women's and Gender Studies 340 (Topic: Bad Language: Race, Class, and Gender), 340 (Topic 74). Additional prerequisite: Upper-division standing.

**Topic 75: Gender and Modern India.** Same as Asian Studies 361 (Topic 44) and History 367D. Examines gender and the shifting nature of modernity between precolonial and colonial periods in the Indian subcontinent. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic: Gender and Modern India), 361 (Topic 44), History 364G (Topic: Gender and Modern India), 364G (Topic 13), 367D, Women's and Gender Studies 340 (Topic: Gender and Modern India), 340 (Topic 75). Additional prerequisite: Upper-division standing.

**Topic 77: Theorizing the Human.** Same as American Studies 370 (Topic 70) and Asian American Studies 320K. Trace the continuities and transformations in constructions of populations as more or less human, from settler-colonial conquest to the post-Trump era. Examine what logics mark racialized populations as disposable during the colonization of the Americas, and which systematically condition racialized subjects to a state of enduring siege. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 370 (Topic: On the Human), 370 (Topic 70), Asian American Studies 320K, Women's and Gender Studies 340 (Topic 77). Additional prerequisite: Upper-division standing.

**Topic 79: Forugh Farrokhzad and Her Poetry.** Same as Comparative Literature 323 (Topic 62) and Middle Eastern Studies 342 (Topic 61). Only one of the following may be counted: Comparative Literature 323 (Topic: Forugh Farrokhzad/Her Ptry), 323 (Topic 62), Middle Eastern Languages and Cultures 321 (Topic: Forugh Farrokhzad/Her Ptry), Middle Eastern Studies 342 (Topic: Forugh Farrokhzad/Her Ptry), 342 (Topic 61), Women's and Gender Studies 340 (Topic: Forugh Farrokhzad/Her Ptry), 340 (Topic 79). Additional prerequisite: Upper-division standing.

**Topic 80: Islamic Ethics.** Same as Middle Eastern Studies 342 (Topic 58) and Religious Studies 358R. Three lecture hours a week for one semester. Only one of the following may be counted: Islamic Studies 340 (Topic: Islamic Ethics), 340 (Topic 9), Middle Eastern Studies 342 (Topic: Islamic Ethics), 342 (Topic 58), Religious Studies 358 (Topic: Islamic Ethics), 358R, Women's and Gender Studies 340 (Topic: Islamic Ethics), 340 (Topic 80). Additional prerequisite: Upper-division standing.

**Topic 81: Iranian and Iranian-American Identity.** Same as Comparative Literature 323 (Topic 63), Middle Eastern Languages

**Topic 83: Black Middle Class.** Same as African and African Diaspora Studies 350C and American Studies 324C. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350C, 372C (Topic: Black Middle Class), American Studies 321 (Topic: Black Middle Class), 324C, Women’s and Gender Studies 340 (Topic: Black Middle Class), 340 (Topic 83). Additional prerequisite: Upper-division standing.

**Topic 85: Technologies of United States Empire.** Same as African and African Diaspora Studies 352N and American Studies 370 (Topic 72). Investigate the various technologies that the United States has used to maintain imperial geographies at “home” and abroad. Focus on imperial entanglements of global capital, liberalism, and technological systems. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 352N, American Studies 370 (Topic: Technologies of US Empire), 370 (Topic 72), Women’s and Gender Studies 340 (Topic 85). Additional prerequisite: Upper-division standing.

**Topic 86: Julia Alvarez and Sandra Cisneros.** Same as English 348C and Mexican American Studies 345C. Three lecture hours a week for one semester. Only one of the following may be counted: English 348C, 349S (Topic: Alvarez and Cisneros), Mexican American Studies 345C, 374 (Topic: Alvarez and Cisneros), Women’s and Gender Studies 340 (Topic: Alvarez and Cisneros), 340 (Topic 86). Additional prerequisite: Upper-division standing.

**Topic 87: Chicana Feminisms.** Same as American Studies 324I and Mexican American Studies 337C. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: Chicana Feminisms), 324, Mexican American Studies 337C, 374 (Topic: Chicana Feminisms), Women’s and Gender Studies 340 (Topic: Chicana Feminisms), 340 (Topic 87). Additional prerequisite: Upper-division standing.

**Topic 88: Latina Feminism and Health.** Same as Mexican American Studies 337F. Three lecture hours a week for one semester. Only one of the following may be counted: Mexican American Studies 337F, 374 (Topic: Latina Feminism and Health), Women’s and Gender Studies 340 (Topic: Latina Feminism and Health), 340 (Topic 88). Additional prerequisite: Upper-division standing.

**Topic 89: Transnational Latinx Popular Culture.** Same as Latin American Studies 328C and Mexican American Studies 347C. Three lecture hours a week for one semester. Only one of the following may be counted: Latin American Studies 328 (Topic: Transnatl Latinx Pop Culture), 328C, Mexican American Studies 347C, 374 (Transnatl Latinx Pop Culture), Women’s and Gender Studies 340 (Topic: Transnatl Latinx Pop Culture), 340 (Topic 89). Additional prerequisite: Upper-division standing.

**Topic 90: Latinx Short Story.** Same as English 343E and Mexican American Studies 345E. Three lecture hours a week for one semester. Only one of the following may be counted: English 343E, 376M (Topic: Latinx Short Story), Mexican American Studies 345E, 374 (Topic: Latinx Short Story), Women’s and Gender Studies 340 (Topic: Latinx Short Story), 340 (Topic 90). Additional prerequisite: For English majors, nine semester hours of coursework in English or rhetoric and writing; for other majors, upper-division standing.

**Topic 91: Sexuality and Gender in Latin America.** Same as History 366P and Latin American Studies 366 (Topic 41). Explore gender as a broad analytical tool to understand key problems concerning social organization, power relations, and inequality in contemporary Latin America. Three lecture hours a week for one semester. Only one of the following may be counted: History 363K (Topic: Sexuality/Gender in Latin Amer), 366N (Topic: Sexuality/Gender in Latin Amer), 366P, Latin American Studies 366 (Topic: Sexuality/Gender in Latin Amer), 366 (Topic 41), Women’s and Gender Studies 340 (Topic: Sexuality/Gender in Latin Amer), 340 (Topic 91). Additional prerequisite: Upper-division standing.

**Topic 92: Italian Television Advertising.** Same as European Studies 347 (Topic 51) and Italian Civilization 338. Analysis of Italian television commercials in order to identify changes that have taken place at the level of language, with some attention to socio-cultural dynamics. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 347 (Topic: Itl TV Ads: Fashion/Food/Cars), 347 (Topic 51), Italian Civilization 338, 349 (Topic: Itl TV Ads: Fashion/Food/Cars), Women’s and Gender Studies 340 (Topic: Itl TV Ads: Fashion/Food/Cars), 340 (Topic 92). Additional prerequisite: Upper-division standing.

**Topic 93: Gender and Labor in Global Asia.** Same as Anthropology 324P and Asian Studies 379 (Topic 12). Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Gender & Labor in Global Asia), 324P, Asian Studies 379 (Topic: Gender & Labor in Global Asia), 379 (Topic 12), Women’s and Gender Studies 340 (Topic: Gender & Labor in Global Asia), 340 (Topic 93). Additional prerequisite: For Asian studies majors, twelve semester hours of upper-division coursework in Asian studies; for others, upper-division standing.

**Topic 96: Latinx Legend Tripping.** Same as American Studies 345F, English 342L, and Mexican American Studies 345F. Explore narrative folklore from diverse traditions across the United States based Latinx diaspora. Focus on supernatural legends and the creation of the female “monster”. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic:Latinx Legend Tripping), 345F, English 323D (Topic: Latinx Legend Tripping).

**Topic 97: Tejana Cultural Studies.** Same as American Studies 370 (Topic 67) and Mexican American Studies 337l. Investigate the history of Tejanas to reaffirm and reclaim their place and role in the histories of Native Americans, women, Chican@/Chicanxs, Greater Mexico, and the United States. Explore how transborderism and transregionalism complicate this history. Contemplate how Tejanas’ stories are fundamental to illuminating the struggles, resistance, and liberation of Chicanas, mestizas, and afrormexicanas from precontact to decolonization. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 370 (Topic: Tejana Cultural Studies), 370 (Topic 67), Mexican American Studies 337l, 374 (Topic: Tejana Cultural Studies), Women’s and Gender Studies 340 (Topic: Tejana Cultural Studies), 340 (Topic 97). Additional prerequisite: Upper-division standing.

**Topic 98: Native American Women's History.** Same as American Studies 370 (Topic 75), History 365G (Topic 20), and Mexican American Studies 320G. Investigate the histories of Native American women to reaffirm and reclaim their place and role in the histories of Native Americans, indigenous peoples, women, Chican@/xs, Greater Mexico, and the United States. Contemplate how many understandings that center colonization, settler colonialism, genocide, race, and environmentalism are essential to examining Native American women's history. Explore the stories, struggles, and ideas of community-building, sovereignty, and liberation as integral to their genders and sexualities as Native American, Indian, First Nations, indigenous, and red and brown women. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 370 (Topic 75), History 365G (Topic: Native Amer Women's History), 365G (Topic 20), Mexican American Studies 320G, 374 (Topic: Native Amer Women's History), Women's and Gender Studies 340 (Topic 98). Additional prerequisite: Upper-division standing.

**WGS 340S. Topics in Cross-Cultural Feminisms.**

Examine experiences and issues of gender in different cultures. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

**WGS 441. The Roots of Social and Economic Justice.**

Four lecture hours a week for one semester. Only one of the following may be counted: Social Work 460K (Topic: Roots of Social and Economic Justice), Women’s and Gender Studies 440 (Topic: Roots of Social and Economic Justice), 441. Prerequisite: Upper-division standing.

**WGS 345. Topics in Women's and Gender Studies.**

Three lecture hours a week for one semester, or as required for the topic. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing; additional prerequisites vary with the topic.

**Topic 1: Child Development.**

**Topic 2: The Family.** Same as Sociology 323. The American family in historical and comparative perspective. Family history and origins; comparative family systems; social antecedents of family structure and process; family formation and dissolution; family and society; recent family changes and prospects for the future. Three lecture hours a week for one semester. Sociology 323 and Women’s and Gender Studies 345 (Topic 2) may not both be counted. Additional prerequisite: Upper-division standing.

**Topic 3: Women in Sickness and Health.** Same as History 350R (Topic 18). Explores medical and biological views throughout the nineteenth and twentieth centuries of women and women’s health, the social context of those views, the development of medical practices, and the treatment of illness and debility. Only one of the following may be counted: History 350L (Topic: Women in Sickness and Health), 350R (Topic 18), Women’s and Gender Studies 345 (Topic 3). Additional prerequisite: Six semester hours of coursework in history.

**Topic 5: Women and Sport.** Same as Kinesiology 352K (Topic 3). Examine the role sport and exercise has played in the lives of women since ancient times with an emphasis on events influencing American women in sport, their fight for access to sport, and the International Olympic Games.

**Topic 13: Isak Dinesen/Karen Blixen.** Same as Comparative Literature 323 (Topic 14), European Studies 347 (Topic 15), and German, Scandinavian, and Dutch Studies 341G. An introduction to the twentieth-century Danish author Karen Blixen, focusing on her major themes such as gender and destiny, and examining her role as a literary figure. Only one of the following may be counted: Comparative Literature 323 (Topic: Isak Dinesen/Karen Blixen), 323 (Topic 14), European Studies 347 (Topic: Isak Dinesen/Karen Blixen), 347 (Topic 15), German, Scandinavian, and Dutch Studies 341G, Women’s and Gender Studies 345 (Topic 13). Additional prerequisite: Upper-division standing.

**Topic 14: Social Dramas of Henrik Ibsen.** Same as Comparative Literature 323 (Topic 17), European Studies 347 (Topic 12), and German, Scandinavian, and Dutch Studies 341D. A detailed introduction to Ibsen’s social dramas (1877-1899), emphasizing their unity as a prolonged commentary on the society of his era and the variety of its human problems. Special emphasis on subjects such as: the family and the home; the public world of reputation, work, and citizenship; the predicaments of men and women in a male-dominated society; and the motives of our interventions into the lives of others. Only one of the following may be counted: Comparative Literature 323 (Topic: Social Dramas of Henrik Ibsen), 323 (Topic 17), English 322 (Topic 17), European Studies 347 (Topic: Social Dramas of Henrik Ibsen), 347 (Topic 12), German, Scandinavian, and Dutch Studies 341D, Women’s and Gender Studies 345 (Topic 14). Additional prerequisite: Upper-division standing.

**Topic 21: Male-Female Communication.** Same as Communication Studies 365K. Studies of speech patterns related to the concepts of male and female, including sexism in speaking, patterns of male and female speaking, patterns of listening to males and females, speech in courtship and family, speech and sexual discrimination in careers. Prerequisite: Upper-division standing.

**Topic 26: American Dilemmas.** Same as Sociology 336C and Urban Studies 352C. Examination of critical American social problems, including problems in the economic, political, and health care systems, as well as inequities based on income, gender, and race. Exploration of how these problems are a natural outgrowth of the existing social structure. Three lecture hours a week for one semester. Only one of the following may be counted: Sociology 336C, Urban Studies 352C, 354 (Topic 13), Women’s and Gender Studies 345 (Topic 26). Additional prerequisite: Upper-division standing.

**Topic 27: Southern Cultures.** Same as American Studies 370 (Topic 40: Southern Cultures). Investigation of multiple, fluid, and diverse southern cultures through topics such as NASCAR, biscuits and cornbread, mega-churches, beauty pageants, jazz, country music, southern hip hop, migrant farm cultures, matzo ball soup with collards, the Trail of Tears, Gullah, Tara, Graceland, and more. Includes discussion of stereotypes and the individual truths about women, men, and southern in the context of this discussion. Prerequisite: Upper-division standing.

**Topic 28: Cult Movies and Gender Issues.** Three lecture hours and two and one-half screening hours a week for one semester. Prerequisite: Upper-division standing.

Topic 31: Gender and Slavery in the United States. Same as African and African Diaspora Studies 350V and History 350R (Topic 14). Examines the gendered experience of chattel slavery in the United States. Includes critical analysis of classic and contemporary texts, films, and songs that focus on slave labor, family, community, sexuality, and the economy. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350V, 372C (Topic 4), History 350R (Topic 14), Women's and Gender Studies 345 (Topic 31). Additional prerequisite: Upper-division standing and six semester hours of coursework in history.

Topic 32: Women in the History of Political Thought. Same as Core Texts and Ideas 335W and Government 335F. Examines the themes of women, the family, and the private sphere in the history of political theory. Three lecture hours a week for one semester. Only one of the following may be counted: Core Texts and Ideas 335 (Topic: Women in Hist of Polit Thought), 335 (Topic 5), 335W, Government 335F, 335M (Topic: Women in History of Political Thought), 335M (Topic 17), Women's and Gender Studies 345 (Topic: Women in History of Political Thought), 345 (Topic 32). Additional prerequisite: Upper-division standing and six semester hours of lower-division coursework in government.

Topic 33: The History of Witchcraft. Study of the prosecution of people, most of them women, for the crime of witchcraft in Europe and colonial America between 1450 and 1750. Prerequisite: Upper-division standing.

Topic 35: Psychosocial Issues in Women's Health. Same as Health Education 361. Explores psychosocial issues in women's physical and mental health, including traditional reproductive issues, disorders that are more common in women than in men, and the leading causes of death in women. Covers gender influences on health risk behaviors, and societal influences on women's health through a consideration of social norms and roles. Three lecture hours a week for one semester. Only one of the following may be counted: Health Education 352K (Topic 2: Psychosocial Issues in Women's Health), 361, Women's and Gender Studies 345 (Topic 35). Additional prerequisite: Upper-division standing.

Topic 36: Feminist Media Theory. Survey of basic theories related to the structure and process of film and video communication. Three lecture hours and two and one-half screening hours a week for one semester.

Topic 37: Women in Postwar America. Same as American Studies 370 (Topic 30) and History 350R (Topic 8). Only one of the following may be counted: American Studies 370 (Topic 30), History 350R (Topic 8), Women's and Gender Studies 345 (Topic 37).

Topic 38: History of Sexuality in America. Same as History 350R (Topic 13). History 350R (Topic 13) and Women's and Gender Studies 345 (Topic 38) may not both be counted. Additional prerequisite: Six semester hours of coursework in history.

Topic 41: American Food. Same as American Studies 370 (Topic 26: American Food). Studies diverse American food cultures from a humanities perspective, exploring connections between global, national, and local communities. Uses scholarship in the field of food studies as well as cookbooks, novels, poetry, photographs, songs, documentaries, and oral histories to investigate the past and present of American food communities. Prerequisite: Upper-division standing.

Topic 42: Nature and Gender in America. Same as American Studies 370 (Topic 27: Nature and Gender in America). Study of the connections between nature and gender in American national narratives. Explores how Americans of differing classes, races, genders, sexual orientations, and ages have shaped and experienced changing ideas of America, wilderness, domestication, and society over time and in different regions of the country. Prerequisite: Upper-division standing.

Topic 43: Animals and American Culture. Same as American Studies 370 (Topic 28) and History 350R (Topic 9). Explores the role of animals in American history, culture, and society. Only one of the following may be counted: American Studies 370 (Topic 28), History 350R (Topic 9), Women's and Gender Studies 345 (Topic 43).

Topic 44: Women Radicals and Reformers. Same as American Studies 370 (Topic 29: Women Radicals and Reformers). Traces traditions of women's radical activism and reform beginning with the Enlightenment and the American Revolution and continuing to the present, with concentration on the twentieth century. Prerequisite: Upper-division standing.

Topic 53: Gender and Sexuality in Ancient Novel. Same as Classical Civilization 348 (Topic 13). The major works of prose fiction from Greco-Roman antiquity and how those works relate to the intellectual, cultural, and social currents of late antiquity. Only one of the following may be counted: Classical Civilization 348 (Topic: Gender and Sexuality in Ancient Novel), 348 (Topic 13), Women's and Gender Studies 345 (Topic: Gender and Sexuality in Ancient Novel), 345 (Topic 53).

Topic 56: Gender And Sexuality in Performance. Same as Theatre and Dance 357T (Topic 2). Consider what physical performance and dance tell us about gender, sexuality and the body. Previous knowledge of performance or gender studies is not required. Only one of the following may be counted: Theater and Dance 357T (Topic: Gender And Sexuality in Performance), 357T (Topic 2), Women's and Gender Studies 345 (Topic: Gender And Sexuality in Performance), 345 (Topic 56). Additional prerequisite: Upper-division standing and consent of instructor.

WGS 345C. Love, Beauty, and Protection.

Same as Art History 327U. Examine selected works of Greek and Roman art (sixth century B.C. to fourth century A.D.) to explore how ancients thought about themselves with regard to love, sexuality, divine and human beauty, and protection from demonic forces. Focus on social and cultural contexts, gender, and practices of daily life. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 327U, 362 (Topic: Love, Beauty, and Protection), Women's and Gender Studies 345 (Topic: Love, Beauty, and Protection), 345C.

WGS 345D. Punks and Divas in Southeast Europe.

Same as European Studies 347 (Topic 47) and Russian, East European, and Eurasian Studies 325 (Topic 38). Examine popular music and its role in political struggle and collective identity formation in the Balkans. Analyze music genres in this region in the context of the historical changes it underwent in the twentieth and twenty-first centuries, including the fall of Communism and -- in the case of former Yugoslavia -- the formation of seven new nation-states through a series of bloody and brutal wars. Three lecture hours a week for one semester. Only one of the following may be counted: European Studies 347 (Topic: Punks/Divas in SE Europe), 347 (Topic 47), Russian, East European, and Eurasian Studies 325 (Topic: Punks/Divas in SE Europe), 325 (Topic 38), Women's and Gender Studies 345 (Topic: Punks/Divas in SE Europe), 345D. Prerequisite: Upper-division standing.
WGS 345E. Lesbian, Gay, Bisexual, Transgender, and Queer Literature and Culture.
Same as English 343Q. Three lecture hours a week for one semester. Only one of the following may be counted: English 343Q, 370W (Topic 8), Women's and Gender Studies 345 (Topic 30), 345E. Prerequisite: One of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P or Tutorial Course 303D.

WGS 345F. Sociology of Education.
Same as African and African Diaspora Studies 321L and Sociology 321L. Education as a societal institution, with emphasis on the United States educational system: how the system works; the effects of the system; recent changes. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 321L, Sociology 321L, Women's and Gender Studies 345 (Topic 23), 345F. Prerequisite: Forty-five semester hours of coursework.

WGS 345G. Virginia Woolf.
Same as English 349S (Topic 8). Examines critical and fictional works of Virginia Woolf and the author's continuing legacy and influence. Explores the value and limitations of high modernism; English literary heritage and tradition; feminism; creative and critical definitions of gender and sexuality; intellectual activism, including Woolf's critiques of patriarchy, war, and fascism; and Woolf and imperialism and colonialism. Three lecture hours a week for one semester. Only one of the following may be counted: English 349S (Topic 8), Women's and Gender Studies 345 (Topic 40), 345G. Prerequisite: One of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P, or Tutorial Course 303D.

WGS 345L. Eighteenth-Century Women Writers.
Same as English 350M (Topic 1). Women writers in the early eighteenth-century canon. Argues for a historical perspective that demonstrates the centrality of early eighteenth-century women writers to the western canon. Three lecture hours a week for one semester. Only one of the following may be counted: English 350M (Topic 1), Women's and Gender Studies 345 (Topic 7), 345L. Prerequisite: One of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P, or Tutorial Course 303D.

WGS 345M. Gender and Politics in a Comparative Perspective.
Same as Government 345C. Examine the patterns of women's representation over time, and in different regions of the world. Explore why gender equality in political institutions is important, tracing the evolution of feminism over time. Three lecture hours a week for one semester. Only one of the following may be counted: Government 345C, 355M (Topic: Gender/Pol in a Comp Persp), 365N (Topic: Gender/Pol in a Comp Persp), Women's and Gender Studies 345M. Prerequisite: Upper-division standing.

WGS 345N. Women and Sports Media.
Same as Radio-Television-Film 359 (Topic 8). Only one of the following may be counted: Radio-Television-Film 359 (Topic 8), Women's and Gender Studies 345 (Topic: Women and Sports Media), 345N. Prerequisite: Fifty-four semester hours of college coursework.

WGS 345O. Gender and Speculative Fiction.
Same as English 345S. Examine how writers have used speculative fiction--including science fiction, utopia, and dystopia--as a tool to explore gender, race, sexuality, humanity, ethics, disability, and the environment. Three lecture hours a week for one semester. Only one of the following may be counted: English 323D (Topic: Gender and Speculative Fiction), 345S, 370W (Topic: Gender/Speculative Fiction), Women's and Gender Studies 345O. Prerequisite: One of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P, or Tutorial Course 303D.

WGS 345P. American Women Writers.
Same as English 350W. Three lecture hours a week for one semester. Only one of the following may be counted: English 350W (Topic: Amer Women Wrtrs, 1830-1940), 350W, Women's and Gender Studies 345P. Prerequisite: One of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P, or Tutorial Course 303D.

WGS 345Q. Displacement and Resistance.
Same as African and African Diaspora Studies 360N, American Studies 370 (Topic 8D), and Anthropology 326T. Explore technologies of displacement, as well as tactics, digital media work, mapping projects, and activism that communities engage with to resist dispossession. Examine, locally and globally, the displacement and resistance effects of various events including infrastructure projects and gentrification. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 360N, American Studies 370 (Topic: Tech Of Displcmnt/Resistance), 370 (Topic 8D), Anthropology 326T, Women's and Gender Studies 345Q. Prerequisite: Upper-division standing.

WGS 350. Feminist Theory.
Restricted to women's and gender studies majors and minors. Feminist theory with selections from women's and gender studies scholars. Recommended feminist theory course for women's and gender studies majors. Three lecture hours a week for one semester. Prerequisite: Upper-
division standing and nine semester hours of coursework in women's and gender studies.

Restricted to women's and gender studies majors and minors. Introduction to feminist research methods across a range of traditional disciplines. Designed to prepare students to analyze research within gender studies and to develop their own research skills. Three lecture hours a week for one semester. Prerequisite: Upper-division standing, and six semester hours of coursework in women's and gender studies.

WGS 358Q. Supervised Research.
Supervised individual research on an issue in women's and gender studies. Individual instruction. Prerequisite: Upper-division standing, Women's and Gender Studies 356 with grade of at least C-, and written consent of the supervising faculty member; consent forms are available in the Center for Women's and Gender Studies.

WGS 360. Research and Thesis in Women's and Gender Studies.
Restricted to women's and gender studies majors. Individual project or paper to be completed under the direction of a women's and gender studies faculty member. Conference course. Offered on the letter-grade basis only. Prerequisite: Upper-division standing, Women's and Gender Studies 356 with grade of at least C-, credit or registration for Women's and Gender Studies 358Q; and written consent of the supervising faculty member on a consent form available in the Center for Women's and Gender Studies for that purpose.

WGS 379L. Internship in Women's and Gender Studies.
Experience working in the community or for a nonprofit agency. Ten to fifteen hours of work a week for one semester. Prerequisite: At least twelve semester hours of coursework in women's and gender studies and written consent of the supervising faculty member; consent forms are available in the Center for Women's and Gender Studies.

WGS 379S. Senior Seminar.
Intensive study of selected topics in women's and gender studies. Three lecture hours a week for one semester. May not be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Upper-division standing and completion of at least ninety semester hours of coursework, including six hours in women's and gender studies.

Graduate Courses

Four lecture hours a week for one semester. Social Work 495K (Topic: Roots of Social and Economic Justice) and Women's and Gender Studies 481 may not both be counted. Prerequisite: Graduate standing.

WGS 384N. Internship in Women's and Gender Studies.
Practical working involvement with participating nonprofit and research agencies. The equivalent of ten class hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of the graduate adviser.

WGS 390. Introduction to Women's and Gender Studies.
Introduction to the interdisciplinary women's and gender studies graduate program. Three lecture hours and one hour-long faculty colloquium a week for one semester. Offered in the fall semester only. Prerequisite: For master's students in women's and gender studies, graduate standing; for others, graduate standing and consent of instructor.

WGS 390W. Writing Workshop.
Introduction to feminist writing practice. Three lecture hours a week for one semester. Women's and Gender Studies 390W and 393 (Topic: Writing Workshop: WGS) may not both be counted. Prerequisite: Graduate standing and consent of instructor.

WGS 391. Feminist Theories.
Selected readings of feminist theories from an interdisciplinary perspective. Three lecture hours a week for one semester. Offered in the fall semester only. Prerequisite: For master's students in women's and gender studies, graduate standing and Women's and Gender Studies 390; for others, graduate standing and consent of instructor.

WGS 392. Research Methods Seminar in Women's and Gender Studies.
Introduction to select feminist research methods used in various disciplines and how these methods inform interdisciplinary perspectives in the student's own field of study in preparation for a report, thesis, or dissertation. Three lecture hours and one hour-long faculty colloquium a week for one semester. Prerequisite: For master's students in women's and gender studies, graduate standing and Women's and Gender Studies 390 and 391; for others, graduate standing and consent of instructor.

WGS 393. Seminar: Topics in Women's and Gender Studies.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser. Additional prerequisites vary with the topic.

WGS 393L. Topics in International Women's and Gender Studies.
Explore intersectional and interdisciplinary topics in women's and gender studies. Conducted in languages other than English. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

WGS 393S. Topics in Specialized Women's and Gender Studies.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Graduate standing; consent of the graduate advisor; additional prerequisites vary with the topic.

WGS 394. Conference Course in Women's and Gender Studies.
Individual directed readings and conferences on selected problems or topics in women's and gender studies. Conference course. May be repeated for credit. Prerequisite: Graduate standing and consent of the graduate adviser.

WGS 395. Special Projects in Women's and Gender Studies.
Interdisciplinary projects to support the women's and gender studies graduate student coursework. One lecture hour a week for one semester, with additional hours to be arranged. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in women's and gender studies, six semester hours of graduate coursework in women's and gender studies, and consent of the graduate adviser.
The equivalent of three lecture hours a week for two semesters. The student must register for Women's and Gender Studies 698B the semester he/she intends to graduate. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in women's and gender studies, consent of the graduate adviser, and a course proposal form signed by the student's thesis supervisor must be turned into the department office before registration; for 698B, Women's and Gender Studies 698A.

WGS 398R. Master's Report.
Preparation of a report to fulfill the requirement for the master's degree under the report option. The equivalent of three lecture hours a week for one semester. The student must register for Women's and Gender Studies 398R the semester he/she intends to graduate. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in women's and gender studies, consent of the graduate adviser, and a course proposal form signed by the student's thesis supervisor must be turned in to the department office before registration.

Professional Courses
WRT - Writing

Writing: WRT
Lower-Division Courses
Upper-Division Courses
Graduate Courses
WRT 380. First-Year Seminar.
Restricted to first-year candidates for the Master of Fine Arts in Writing. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing in writing.

WRT 380S. Studies in Creative Writing.
Subjects include the study of literature, creative theory, and criticism in the genres of fiction, nonfiction, poetry, playwriting, and screenwriting. Three lecture hours a week for one semester. Prerequisite: Graduate standing in writing, or graduate standing and consent of the graduate adviser.

WRT 380W. Workshop in Creative Writing.
Subjects include writing fiction, writing poetry, playwriting, and screenwriting. Three lecture hours a week for one semester. Prerequisite: Graduate standing in writing, or graduate standing and consent of the graduate adviser.

WRT 182, 282, 382. Independent Projects.
Restricted to advanced MFA candidates. Conference work and independent study. May be repeated for credit. Prerequisite: Graduate standing in writing, or graduate standing and consent of the graduate adviser.

The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in writing and consent of the graduate adviser; for 698B, Writing 698A.

WRT 698. Thesis.
Individual instruction. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in writing and consent of the graduate adviser; for 698B, Writing 698A.

YID - Yiddish

Yiddish: YID
Lower-Division Courses
YID 604. Accelerated First-Year Yiddish.
Six lecture hours a week for one semester, with optional laboratory available.

YID 612. Accelerated Second-Year Yiddish.
Six lecture hours a week for one semester, with optional laboratory available. Prerequisite: Yiddish 604.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Germanic Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses
YID 327. Advanced Yiddish I.
Three lecture hours a week for one semester. Prerequisite: Yiddish 612 with a grade of at least C.

YID 328. Advanced Yiddish II.
Three lecture hours a week for one semester. Prerequisite: Yiddish 327 with a grade of at least C.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Germanic Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

YID 130D. Yiddish across Disciplines.
Read and discuss Yiddish language materials related to the subject matter of another designated course. One lecture hour per week for one semester. May be repeated for credit. Prerequisite: Three semester hours of upper-division coursework in Yiddish with a grade of at least C.

YID 179, 279, 379. Conference Course in Yiddish Language or Literature.
Supervised individual instruction course in which students engage in special studies necessary to expand their acquaintance with any subject in Yiddish language or literature. Conference course. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

Graduate Courses
Professional Courses
YOR - Yoruba

Yoruba: YOR

Lower-Division Courses

YOR 601C. Beginning Yoruba.
An intensive beginning course with an emphasis on basic skills: listening, speaking, reading, and writing. Six lecture hours a week for one semester. Yoruba 601C and 506 may not both be counted. Yoruba 601C and 507 may not both be counted.

YOR 506. First-Year Yoruba I.
Restricted to non-native speakers of Yoruba. Standard Yoruba of southwest Nigeria. Five lecture hours a week for one semester. Yoruba 601C and 506 may not both be counted.

YOR 507. First-Year Yoruba II.
Restricted to non-native speakers of Yoruba. Continuation of the study of standard Yoruba of southwest Nigeria. Five lecture hours a week for one semester. Yoruba 601C and 507 may not both be counted. Prerequisite: Yoruba 506 with a grade of at least C.

YOR 611C. Intermediate Yoruba.
An intensive intermediate course with emphasis on basic skills: listening, speaking, reading, and writing. Six lecture hours a week for one semester. Yoruba 611C and 312K may not both be counted. Yoruba 611C and 312L may not both be counted. Prerequisite: Yoruba 601C or 507 with a grade of at least C.

YOR 312K. Second-Year Yoruba I.
Oral expression, reading, and comprehension. Three lecture hours a week for one semester. Yoruba 611C and 312K may not both be counted. Prerequisite: Yoruba 601C or 507 with a grade of at least C.

YOR 312L. Second-Year Yoruba II.
Continuation of the study of oral expression, reading, and comprehension. Three lecture hours a week for one semester. Yoruba 611C and 312L may not both be counted. Prerequisite: Yoruba 312K with a grade of at least C.

Upper-Division Courses

Graduate Courses

YOR 382. Yoruba Language Studies.
Three lecture hours a week for one semester. Prerequisite: Graduate standing.
