Introduction

The benefits of education and of useful knowledge, generally diffused through a community, are essential to the preservation of a free government.

Sam Houston

Cultivated mind is the guardian genius of Democracy, and while guided and controlled by virtue, the noblest attribute of man. It is the only dictator that freemen acknowledge, and the only security which freemen desire.

Mirabeau B. Lamar

Where liberty has arisen, learning must be cherished—or liberty itself becomes a fragile thing.

Lyndon B. Johnson

Mission of the University

The mission of The University of Texas at Austin is to achieve excellence in the interrelated areas of undergraduate education, graduate education, research, and public service. The university provides superior and comprehensive educational opportunities at the baccalaureate through doctoral and special professional educational levels.

The university contributes to the advancement of society through research, creative activity, scholarly inquiry, and the development and dissemination of new knowledge, including the commercialization of University discoveries. The university preserves and promotes the arts, benefits the state’s economy, serves the citizens through public programs, and provides other public service.

Officers of Administration

The University of Texas at Austin

Jay C. Hartzell, PhD, President
Sharon L. Wood, PhD, Executive Vice President and Provost
James Davis, JD, Senior Vice President and Chief Operating Officer
Claudia Lucchinetti, MD, Senior Vice President for Medical Affairs and Dean of the Dell Medical School
Christopher M. Del Conte, MEd, Vice President and Athletics Director
Daniel T. Slesnick, PhD, Interim Vice President and Chief Financial Officer
Emily Reagan, MBA, Vice President and Chief Marketing and Communications Officer
David Livingston, BA, Vice President for Development
LaToya C. Smith, PhD, Vice President for Campus and Community Engagement
Amanda Cochran-McCall, JD, Vice President for Legal Affairs and General Counsel
Roger Cude, PhD, Vice President for People and Talent
Daniel T. Jaffe, PhD, Vice President for Research, Scholarship, and Creative Endeavors
Sonia Reagins-Lilly, EdD, Vice President for Student Affairs and Dean of Students
Nancy A. Brazzil, BS, Deputy to the President
Richard R. Flores, PhD, Deputy to the President for Academic Strategies
Janet H. Huang, MBA, Deputy to the President for Transformation Strategies
Andrea Sheridan, BS, Deputy to the President for Governmental Affairs and Initiatives
Jeffery L. Graves, JD, Chief Compliance Officer
Sandy Jansen, BBA, Chief Audit Executive

Administrative Officers of the Colleges and Schools

Maria Juenger, PhD, Interim Dean, Graduate School
Heather Woofter, MArch, Dean, School of Architecture
Lillian F. Mills, PhD, Dean, Red McCombs School of Business
Justin Dyer, PhD, Interim Dean, School of Civic Leadership
Rachel Davis Mersey, PhD, Interim Dean, Moody College of Communication
Charles R. Martinez, Jr., PhD, Dean, College of Education
Roger T. Bonnecaze, PhD, Dean, Cockrell School of Engineering
Ramón Rivera-Servera, PhD, Dean, College of Fine Arts
Claudia I. Mora, PhD, Dean, John A. and Katherine G. Jackson School of Geosciences
Eric T. Meyer, PhD, Dean, School of Information
Robert M. Chesney, Dean, School of Law
Ann Huff Stevens, PhD, Dean, College of Liberal Arts
George A. Macones, MD, MSCE, Interim Dean, Dell Medical School
David A. Vanden Bout, PhD, Dean, College of Natural Sciences
Eun-Ok Im, PhD, MPH, RN, CNS, FAAN, Dean, School of Nursing
Samuel M. Poloyac, PharmD, PhD, Dean, College of Pharmacy
JR DeShazo, PhD, Dean, Lyndon B. Johnson School of Public Affairs
Allan H. Cole, Jr., PhD, Dean, Steve Hicks School of Social Work
Richard J. Reddick, EdD, Senior Vice Provost for Curriculum and Enrollment and Dean, Undergraduate College

The University of Texas System

James B. Milliken, JD, Chancellor
Archie L. Holmes Jr., PhD, Executive Vice Chancellor for Academic Affairs
Jonathan Pruitt, MPA, Executive Vice Chancellor for Business Affairs
John M. Zerwas, MD, Executive Vice Chancellor for Health Affairs
Daniel H. Sharporn, JD, Vice Chancellor and General Counsel
Stacey Napier, JD, Vice Chancellor for Governmental Relations
Randa S. Safady, PhD, Vice Chancellor for External Relations, Communications, and Advancement Services
David L. Lakey, MD, Vice Chancellor for Health Affairs and Chief Medical Officer

Board of Regents

Officers

Kevin P. Eltife, Chairman
Janiece M. Longoria, Vice Chairman
James C. “Rad” Weaver, Vice Chairman
Francie A. Frederick, General Counsel to the Board of Regents

Members

Terms scheduled to expire February 1, 2025
Christina M. Crain, Dallas
Jodie Lee Jiles, Houston
Kelcy L. Warren, Dallas

Terms scheduled to expire February 1, 2027
Kevin P. Eltife, Tyler
Nolan E. Perez, M.D., Harlingen
Stuart W. Stedman, Houston

Terms scheduled to expire February 1, 2029
Ray McCombs, Jr., Austin
Ed D’Amico, Austin
Barbara Jordan, Austin
Janiece M. Longoria, Houston
James C. "Rad" Weaver, San Antonio
Robert P. Gauntt, Austin

Student Regent with term to expire May 31, 2024

John Michael Austin, The University of Texas Health Science Center at San Antonio

Each Regent's term expires when a successor has been appointed and qualified and has taken the oath of office. The Student Regent serves a one-year term.

Academic Calendar

Overview

The academic calendar indicates key dates and deadlines for important academic requirements and/or activities including, but not limited to, the start and end dates of classes, holidays, exam days, and registration dates.

Set by the University's Faculty Council according to the Principles for the Development of the Academic Calendar which are subject to the Texas Higher Education Coordinating Board's Rules for the Common Calendar found in Texas Administrative Code Title 19, Part 1, Chapter 4A, Section 4.5, the academic calendar is typically divided into the fall, spring, and summer semesters.

The academic calendar is based on a semester model that contains terms within each semester:

- Fall Semester has two designated terms:
  - Fall Term (formerly known as the "Fall Long Semester") is the primary term for Fall Semester classes
  - Winter Term is an optional period to offer education abroad courses, internships, etc.

- Spring Semester has two designated terms:
  - Spring Term (formerly known as "Spring Long Semester") is the primary term for Spring Semester classes
  - May Term is an optional four-week period for education abroad courses, internships, etc.

- Summer Semester has four designated terms:
  - First Term
  - Second Term
  - Nine-Week Term
  - Summer Term

All classes associated with a semester will start and end within that semester. Tuition calculations, financial aid, and registration processes are based on classes taken during the assigned semester.

The academic calendar published in this catalog reflects approved dates at the time of publication. See https://registrar.utexas.edu/calendars for additional information about current, upcoming, and archived academic calendars.

2023-2024 Academic Dates and Deadlines

Fall semester
August 15, 2023 - January 13, 2024, includes Fall and Winter Terms

Fall Term 2023

The University

The University Catalog

The University catalog is an official University publication describing academic programs, student services, general regulations, requirements and procedures.

The catalog of the University is the document of authority for all students. Any academic unit may issue additional or more specific information that is consistent with approved policy. However, the information in the catalog supersedes that issued by any other unit if there is a conflict between the two. The University reserves the right to change the requirements given in the catalog at any time.

The catalog consists of five issues: the Undergraduate Catalog, the Graduate Catalog, the Law School Catalog, the Medical School Catalog, and the General Information Catalog.

The Undergraduate Catalog is published in even-numbered years; the Graduate Catalog is published annually; the Law School Catalog is published in even-numbered years; the Medical School Catalog is published annually. These issues contain regulations and degree requirements that apply to undergraduate, graduate, School of Law, and School of Medicine students. Regulations are valid only for the academic years indicated by the dates in the title of each publication; for an explanation of the period for which degree requirements are valid, see the section "Graduation Under a Particular Catalog" in each issue.

The General Information Catalog, published annually, contains current and historical information about the University's organization and physical facilities. It gives important information about academic policies and procedures that apply to all students for the academic year indicated in the title of the publication. It includes the official academic calendar, admission procedures and residence requirements, information about tuition and fees, and policies on quantity of work, grades and the grade point average, credit by examination and correspondence, adding and dropping courses, withdrawal from the University, and scholastic probation and dismissal. General Information is meant to be used along with each of the other issues; students must be familiar with the regulations given there and with those given in the issue that covers their degree program.

The lists of available course offerings for each academic unit are correct at the time of publication but are subject to change. They are superseded by course offerings published each semester in the Course Schedule.

Assistance in obtaining information about the University—including costs, refund policies, withdrawal, academic programs, the faculty,
accreditation, and facilities and services for disabled persons—is available from Brenda Schumann, Interim Registrar, at (512) 475-7510 and at The University of Texas at Austin, Office of the Registrar, P O Box 7216, Austin TX 78713-7216.

Statement on Equal Educational Opportunity

The University of Texas at Austin is committed to an educational and working environment that provides equal opportunity to all members of the University community. In accordance with federal and state law, the University prohibits unlawful discrimination, including harassment, on the basis of race; color; religion; national origin; gender; including sexual harassment; age; disability; citizenship; and veteran status. Discrimination on the basis of sexual orientation, gender identity, and gender expression is also prohibited pursuant to University policy. Any member of the University community who believes they have been subject to discrimination, harassment, or retaliation should contact the Center for Access and Restorative Engagement in person at SSB 3.212, Austin TX 78712; via e-mail at care@austin.utexas.edu; or by phone at (512) 471-1849.

Accreditation

The University of Texas at Austin is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award baccalaureate, masters, professional, and doctorate degrees. The University of Texas at Austin also may offer credentials such as certificates and diplomas at approved degree levels. Questions about the accreditation of The University of Texas at Austin may be directed in writing to the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097, by calling (404) 679-4500, or by using information available on SACSCOC’s website (www.sacscoc.org).

Affiliations

The University is a member of the Association of American Universities and the Oak Ridge Associated Universities, among others.

Student Honor Code

I pledge, as a member of The University of Texas at Austin community, to do my work honestly, respectfully, and through the intentional pursuit of learning and scholarship.

University Code of Conduct

The core values of The University of Texas at Austin are learning, discovery, freedom, leadership, individual opportunity, and responsibility. Each member of the University is expected to uphold these values through integrity, honesty, trust, fairness, and respect toward peers and community.

Organization of the University's Academic Units

Through the following academic units, the University offers close to 300 undergraduate, graduate, and professional degree programs.

School of Architecture

Red McCombs School of Business
- Department of Accounting
- Department of Business, Government, and Society
- Department of Finance
- Department of Information, Risk and Operations Management

Moody College of Communication
- Stan Richards School of Advertising and Public Relations
- Department of Speech, Language, and Hearing Sciences
- Department of Communication Studies
- School of Journalism and Media
- Department of Radio-Television-Film

College of Education
- Department of Curriculum and Instruction
- Department of Educational Leadership and Policy
- Department of Educational Psychology
- Department of Kinesiology and Health Education
- Physical Education Program
- Department of Special Education

Cockrell School of Engineering
- Department of Aerospace Engineering and Engineering Mechanics
- Department of Biomedical Engineering
- Materials Science and Engineering Program
- McKetta Jr. Department of Chemical Engineering
- Department of Civil, Architectural, and Environmental Engineering
- Chandra Department of Electrical and Computer Engineering
- J. Mike Walker Department of Mechanical Engineering
- Hildebrand Department of Petroleum and Geosystems Engineering

College of Fine Arts
- Department of Art and Art History
- Department of Arts and Entertainment Technologies
- Department of Design
- Sarah and Ernest Butler School of Music
- School of Design and Creative Technologies
- Department of Theatre and Dance

John A. and Katherine G. Jackson School of Geosciences
- Energy and Earth Resources Graduate Program
- Department of Geological Sciences

Graduate School

School of Information

School of Law

College of Liberal Arts
- John L. Warfield Center for African and African American Studies
- Department of African and African Diaspora Studies
- Department of Air Force Science
- Department of American Studies
- Department of Anthropology
- Center for Asian American Studies
- Department of Asian Studies
- Edward A. Clark Center for Australian and New Zealand Studies
- Department of Classics
- Program in Comparative Literature
- Américo Paredes Center for Cultural Studies
• Department of Economics
• Department of English
• Center for European Studies
• Department of French and Italian
• Department of Geography and the Environment
• Department of Germanic Studies
• Department of Government
• Department of History
• Humanities Institute
• Schusterman Center for Jewish Studies
• Teresa Lozano Long Institute of Latin American Studies
• Department of Linguistics
• Center for Mexican American Studies
• Department of Mexican American and Latina/o Studies
• Center for Middle Eastern Studies
• Department of Middle Eastern Studies
• Department of Military Science
• Department of Naval Science
• Department of Philosophy
• Plan II Honors Program
• Department of Psychology
• Department of Religious Studies
• Department of Rhetoric and Writing
• Center for Russian, East European, and Eurasian Studies
• Department of Slavic and Eurasian Studies
• Department of Sociology
• South Asia Institute
• Department of Spanish and Portuguese
• UTeach-Liberal Arts
• Center for Women's and Gender Studies
• Thomas Jefferson Center for the Study of Core Texts and Ideas

Dell Medical School
• Department of Diagnostic Medicine
• Department of Medical Education
• Department of Medicine
• Department of Neurology
• Department of Neurosurgery
• Department of Oncology
• Department of Ophthalmology
• Department of Pediatrics
• Department of Population Health
• Department of Psychiatry
• Department of Surgery and Perioperative Care
• Department of Women’s Health

College of Natural Sciences
• Department of Astronomy
• Biology Instruction Office
• Department of Chemistry
• Department of Computer Science
• Department of Human Development and Family Sciences
• School of Human Ecology
• Department of Integrative Biology
• Department of Marine Science
• Department of Mathematics
• Department of Molecular Biosciences
• Department of Neuroscience
• Neuroscience Graduate Program
• Department of Nutritional Sciences
• Department of Physics
• Department of Statistics and Data Sciences
• Division of Textiles and Apparel
• UTeach-Natural Sciences

School of Nursing
College of Pharmacy
Lyndon B. Johnson School of Public Affairs
Steve Hicks School of Social Work
Undergraduate College

Historical Sketch

The idea of a university for Texas is as old as the state itself. The Declaration of Texas Independence includes in its indictment of the government of Mexico the charge that it “has failed to establish any public system of education, although possessed of almost boundless resources (the public domain), and although it is an axiom in political science that, unless a people are educated and enlightened, it is idle to expect the continuance of civil liberty or the capacity of self-government.” In accordance with the doctrine thus proclaimed, the first Constitution of the Republic declares it to be the duty of Congress “to provide, as soon as circumstances will permit... a general system of education.”

Attempts to establish a University of Texas were made by the Congress of the Republic and then by the state legislature in 1837, 1839, 1858, and 1866, but the times were unpropitious and the idea failed to become a reality. The Constitution of 1876 again called for the organization and maintenance of “a university of the first class to be located by a vote of the people of this state, and styled 'The University of Texas,' for the promotion of literature, and the arts and sciences, including an agricultural and mechanical department.” This constitution also established an endowment of one million acres of land in west Texas, which was increased in 1883 to two million acres. In 1881, the legislature again called for the organization and location of the University and for the appointment of a Board of Regents to be entrusted with its establishment and government. Among the provisions of the act were the limitation of the matriculation fee to $30, the admission of men and women on equal terms without charge for tuition, and the injunction that no religious qualifications should be required for admission to any office or privilege connected with the University and that no sectarian instruction should be given therein.

By popular election in September 1881, the Main University was located at Austin and the Medical Branch, at Galveston. The academic and law departments were organized, and on September 15, 1883, the University was formally opened in the incomplete west wing of the old Main Building.

As the University grew, work in other fields was added to that offered by the academic and law departments. The College of Engineering was added in 1894, in 1906, the School of Education; in 1909, the Division of Extension; in 1910, the Graduate School; in 1922, the School of Business Administration; in 1924, the College of Physical Activities; in 1938, the College of Fine Arts; in 1948, the Graduate School of Library Science; in 1950, the Graduate School of Social Work; in 1951, the School of Architecture; in 1965, the School of Communication; in 1970, the Lyndon B. Johnson School of Public Affairs; in 1976, the School of Nursing;
and in 2016, the Dell Medical School. The current organization of the University is described in Organization of the University’s Academic Units (p. 10).

Until 1895, the chair of the faculty was the chief executive officer of the University. Professor J. W. Mallet was chair for the opening year, 1883–1884; then Professor Leslie Waggener until the summer of 1894; then Professor Thomas S. Miller for 1894–1895. In 1895, the office of president was created, and has been filled as follows:

<table>

1. From 1963 until 1967 there was no office of president.

**Government**

The University of Texas System is governed by a board of nine regents, selected from different areas of the state, nominated by the governor, and appointed with the advice and consent of the Senate. Additionally, the board includes a nonvoting student regent appointed by the governor upon recommendation of the chancellor of The University of Texas System. Subject to the supervision of the Board of Regents and the authority it has vested in administrative officers, the General Faculty play a major role in the governance of The University of Texas at Austin, as outlined in Regents Rule 40101. A complete statement of the duties of the officers and a description of the organization and authority of the General Faculty, the faculties of the colleges and schools, divisions, and departments, is published in the Rules and Regulations of the Board of Regents.

**Support**

As a public institution, the University receives part of its income directly from the state. The state constitution prohibits any appropriation from the general revenue for the construction of buildings, but appropriations for equipment, research, and operating expenses have been made by each legislature since 1889. An additional source of income is the Permanent University Fund, which consists of revenue from the two million acres of land in west Texas granted to the University and its branches in 1876 and 1883. The land has been leased since 1884 for grazing and other purposes; since oil production began there in 1923, income from mineral leases and royalties has also been added to the fund. Income earned by the Permanent University Fund is called the Available University Fund. One-third of the Available University Fund is dedicated to the support of the Texas A&M University System; two-thirds is dedicated to The University of Texas System for operating expenses and permanent improvements.

Tuition paid by students is a third source of income, and the proceeds of endowment funds donated by individuals and organizations provide important additional support to research and teaching at the University.

Federal and other sponsored research funding provides an additional source of support crucial to the success of the University’s mission of discovery.

**Buildings and Grounds**

The grounds of the University consist of the original forty-acre campus just north of the state capitol and additional land acquired by gift and purchase. The main campus now covers more than 350 acres. Also part of the University are the J. J. Pickle Research Campus, a 476-acre tract eight miles north of the main campus that houses research organizations in engineering, science, and the social sciences; the Brackenridge tract, 445 acres bordering Lady Bird Lake where research is conducted in the life sciences; and the Montopolis Research Center, 94 acres located in southeast Austin. In addition, the University owns the Marine Science Institute at Port Aransas, the McDonald Observatory near Fort Davis, the Stengl–Lost Pines Biological Station near Smithville, the Winedale museum and conference center near Round Top, the Bee Cave Research Center west of Austin, the Lady Bird Johnson Wildflower Center in southwest Austin, the Sam Rayburn Library in Bonham, the John Nance Garner House and Museum in Uvalde, and J. Frank Dobie’s ranch, Paisano.

Major buildings and other facilities are listed below.
### For Teaching, Research, and Administration

<table>
<thead>
<tr>
<th>Building Name</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Aerospace Engineering Building</td>
<td>Formerly the North Office Building A; houses the Department of Aerospace Engineering and the Center for Aeromechanics Research</td>
</tr>
<tr>
<td>Animal Resources Center</td>
<td></td>
</tr>
<tr>
<td>Art Building and Museum</td>
<td>Houses the Department of Art and Art History</td>
</tr>
<tr>
<td>AT&amp;T Executive Education and Conference Center</td>
<td>Houses classrooms and meeting facilities</td>
</tr>
<tr>
<td>Battle Hall</td>
<td>Formerly the Old Library Building; renamed for William James Battle, former professor of classical languages and president ad interim of the University; houses part of the School of Architecture</td>
</tr>
<tr>
<td>Batts Hall</td>
<td>Named for Judge R. L. Batts, former chair of the Board of Regents; houses the Department of Government</td>
</tr>
<tr>
<td>Beauford H. Jester Center</td>
<td>Named for former governor of Texas and former member of the Board of Regents; houses classrooms, the John L. Warfield Center for African and African American Studies, and the Sanger Learning and Career Center</td>
</tr>
<tr>
<td>Bellmont Hall</td>
<td>Named for L. Theo Bellmont, former professor and director, Physical Training for Men; houses Intercollegiate Athletics for Men and Women, the Department of Kinesiology and Health Education, and the Department of African and African Diaspora Studies</td>
</tr>
<tr>
<td>Belo Center for New Media</td>
<td>An expansion of the Moody College of Communication, named for gifts from the Belo Foundation and the Dealey, Decherd, and Moroney families; houses the dean's office, Student Advising and Career Services, the Stan Richards School of Advertising and Public Relations, the School of Journalism and Media, and the KUT Public Media Studios</td>
</tr>
<tr>
<td>Benedict Hall</td>
<td>Named for former University president H. Y. Benedict; houses the Department of Spanish and Portuguese</td>
</tr>
<tr>
<td>Bernard and Audre Rapoport Building</td>
<td>Formerly the Petroleum Engineering Building, then the Economics Building; renamed in 1998 for alumnus and benefactor Bernard Rapoport and his wife; houses the Department of Economics</td>
</tr>
<tr>
<td>Biological Laboratories</td>
<td>Houses part of the School of Biological Sciences</td>
</tr>
<tr>
<td>Biomedical Engineering Building</td>
<td>Houses the Department of Biomedical Engineering; provides research space for the Colleges of Natural Sciences and Pharmacy, and teaching labs for the School of Biological Sciences</td>
</tr>
<tr>
<td>Blanton Museum of Art</td>
<td>Named for Jack S. Blanton, former chairman of Houston Endowment Inc.; houses more than 17,000 works of art and is comprised of the Mari and James A. Michner Gallery Building and the Edgar A. Smith Building.</td>
</tr>
<tr>
<td>Burdine Hall</td>
<td>Named for John Alton Burdine, former dean of the College of Arts and Sciences and first vice president of the University; houses the Departments of Sociology and Germanic Studies</td>
</tr>
<tr>
<td>Calhoun Hall</td>
<td>Named for former University president John William Calhoun; houses the Department of Linguistics, the Department of Slavic and Eurasian Studies, and the comparative literature program</td>
</tr>
<tr>
<td>Chemical and Petroleum Engineering Building</td>
<td>Houses the John J. McKetta Jr. Department of Chemical Engineering and the Hildebrand Engineering</td>
</tr>
<tr>
<td>College of Business Administration Building</td>
<td>Formerly the Business Administration–Economics Building; renamed in 1984</td>
</tr>
<tr>
<td>Continuing Engineering Education</td>
<td>Houses the Center for Lifelong Engineering Education</td>
</tr>
<tr>
<td>Development Office Building</td>
<td>Houses the Development Office and the Charles A. Dana Center</td>
</tr>
<tr>
<td>Dorothy L. Gebauer Building</td>
<td>Formerly the Engineering Building; renamed the Journalism Building, then the Speech Building; renamed in 1984 for former dean of women; houses the Office of the Dean of the College of Liberal Arts and the Center for Women's and Gender Studies</td>
</tr>
<tr>
<td>E. P. Schoch Building</td>
<td>Formerly the Chemical Engineering Building; renamed for former professor of chemical engineering; houses part of the John A. and Katherine G. Jackson School of Geological Sciences</td>
</tr>
<tr>
<td>E. William Doty Fine Arts Building</td>
<td>Formerly the Fine Arts Library and Administration Building; renamed in 1998 for first dean of the College of Fine Arts; houses the Office of the Dean of the College of Fine Arts</td>
</tr>
<tr>
<td>Edgar A. Smith Building</td>
<td>Named for University alumnus and benefactor; houses the administrative, educational, and outreach activities of the Blanton Museum of Art</td>
</tr>
<tr>
<td>Engineering Education and Research Center</td>
<td></td>
</tr>
<tr>
<td>Engineering Teaching Center II</td>
<td>Houses the J. Mike Walker Department of Mechanical Engineering and the Texas Materials Institute</td>
</tr>
<tr>
<td>Ernest Cockrell Jr. Hall</td>
<td>Named for an alumnus and benefactor of the College of Engineering; houses the Department of Civil, Architectural, and Environmental Engineering and the Office of the Dean of the Cockrell School of Engineering</td>
</tr>
<tr>
<td>F. Loren Winship Drama Building</td>
<td>Formerly the Drama Building; renamed in 1979 for former chair of the Department of Theatre and Dance</td>
</tr>
<tr>
<td>Garrison Hall</td>
<td>Named for George P. Garrison, former professor of history</td>
</tr>
<tr>
<td>Gates Dell Complex</td>
<td>Named for gifts from the Bill and Melinda Gates Foundation and the Michael and Susan Dell Foundation; houses the Artificial Intelligence Lab and the Department of Computer Science</td>
</tr>
</tbody>
</table>
George I. Sánchez Building
Formerly the College of Education Building; renamed in 1994 for former professor of education; houses part of the College of Education and the College of Liberal Arts Departments of Air Force Science, Military Science, and Naval Science

Goldsmith Hall
Formerly the Architecture Building; renamed in 1978 for former professor of architecture Goldwin Goldsmith; houses part of the School of Architecture

Gordon-White Building
Formerly the Black and Latino Studies Building; renamed in 2015; before that formerly the Geography Building; renamed in 2014; and before that the Journalism Building; renamed in 1974; houses the African and African Diaspora Studies Department and the Department of Mexican American and Latina/o Studies

Graduate School of Business Building
Harry Ransom Center
Formerly the Humanities Research Center; renamed in 1974 for University chancellor emeritus

Hogg Memorial Auditorium
Named for former governor James S. Hogg and his son Will C. Hogg; houses facilities for Texas Performing Arts

Homer Rainey Hall
Formerly the Music Building; renamed in 1995 for former University president; houses the Department of French and Italian

J. T. Patterson Laboratories Building
Named for former professor of zoology; houses part of the School of Biological Sciences

Jesse H. Jones Communication Center
Formerly the Communication Building; renamed in 1981 for Houston philanthropist; houses the Moody College of Communication Departments of Speech, Language, and Hearing Sciences, Communications Studies, and Radio-Television-Film, and KLRU TV

Jesse H. Jones Hall
Named for Houston philanthropist; houses part of the School of Law

Joe C. Thompson Conference Center
Named for former member of the Board of Regents

John A. and Katherine G. Jackson Geoscience Building
Dean of the John A. and Katherine G. Jackson School of Geological Sciences

John B. Connally Center for the Administration of Justice
Named for alumnus and benefactor John A. Jackson and his wife; houses the Office of the Dean of the School of Geological Sciences

John W. Hargis Hall
Formerly Building H of the Little Campus property (now the Heman Sweatt Campus); renamed in 1983 for former special assistant to the president of the University. Houses a research facility for the Steve Hicks School of Social Work.

Laboratory Theatre Building

Lake Austin Centre
Located three miles west of the University; houses the Hogg Foundation for Mental Health and some units of the Division of Continuing and Innovative Education

Larry R. Faulkner Nano Science and Technology Building
Named for former University president; houses several affiliated programs for the promotion of nanoscience and nanotechnology

Littlefield Home and Littlefield Carriage House
Houses part of the University Development Office

Louise and James Robert Moffett Molecular Biology Building
Named for alumni benefactors

Lyndon B. Johnson Library
Main Building (Tower)
Located on the site of Old Main; houses University administrative offices

Mari and James A. Michener Gallery Building
Named for the Pulitzer Prize-winning novelist and University benefactor, and his wife; provides gallery space for the Blanton Museum of Art

Mary E. Gearing Hall
Formerly the Home Economics Building; renamed in 1976 for the first chair of the Department of Home Economics; houses part of the School of Human Ecology

Mezes Hall
Named for former University president Sidney E. Mezes; houses the Center for European Studies and the Schusterman Center for Jewish Studies

Music Building East and Music Building/Recital Hall
Houses the Kate Broocks Bates Recital Hall and the Office of the Director of the Sarah and Ernest Butler School of Music

Neural and Molecular Science Building
Houses classrooms, laboratories, and offices

Norman Hackerman Building
Named for the late president of UT Austin and Rice University; houses parts of the School of Biological Sciences and the Department of Chemistry and Biochemistry

Nursing School
Parlin Hall
Formerly the English Building; renamed for Hanson Tufts Parlin, former professor of English and dean of the College of Arts and Sciences; houses the Department of English and the Department of Rhetoric and Writing

Patton Hall
Formerly known as the College of Liberal Arts Building; houses many College of Liberal Arts departments, programs, and centers; includes two dozen classrooms and auditoriums, offices for campus groups, and study spaces

Performing Arts Center
Houses the Nancy Lee and Perry R. Bass Concert Hall and the Ralph H. and Ruth J. McCullough Theatre

Perry-Castañeda Library
Named for Ervin S. Perry, former associate professor of civil engineering, and Carlos E. Castañeda, former professor of Latin American history

Peter O’Donnell Jr. Building
Houses facilities for research and graduate study in computer sciences, electrical and computer engineering, and computational sciences, engineering, and mathematics

Peter T. Flawn Academic Center
Formerly the Undergraduate Library and Academic Center; renamed in 1985 for University president emeritus; houses part of the Undergraduate College

Pharmacy Building
Houses the College of Pharmacy

Robert A. Welch Hall
Formerly the Chemistry Building; renamed in 1974 for Houston philanthropist; houses the Department of Chemistry and Biochemistry
Robert B. Rowling Hall: Named for Dallas businessman Robert B. Rowling; houses the McCombs School of Business graduate programs.

Physics, Math, and Astronomy Building: Formerly known as Robert Lee Moore Hall; renamed in 2020; before that formerly the Physics-Mathematics-Astronomy Building; renamed in 1974; houses the Departments of Astronomy, Mathematics, and Physics.

Sarah M. and Charles E. Seay Building: Named for alumni benefactors; houses the Department of Psychology and research facilities of the Department of Human Development and Family Sciences.

School of Social Work Building: Formerly University Junior High School.

Sid Richardson Hall: Named for Texas philanthropist; houses the Lyndon B. Johnson School of Public Affairs, the Dolph Briscoe Center for American History, and the Teresa Lozano Long Institute of Latin American Studies.

Student Services Building: Houses University Health Services, Counseling and Mental Health Center, Office of the Dean of Students, Office of the Ombudsperson, Office of Financial Aid, Student Government, and the Senate of College Councils.

Sutton Hall: Named for William S. Sutton, former dean and professor of education; houses part of the School of Architecture.

T. S. Painter Hall: Formerly the Physics Building; renamed in 1974 for former University president Theophilus Shickel Painter; houses parts of the Schools of Biological Sciences and Human Ecology, and parts of the Departments of Computer Science and Physics.

Texas Memorial Museum: Built to commemorate the centennial of the Republic of Texas in 1936; funded in part by the sale of centennial coins and a University student donation drive; serves as the exhibit hall for the Texas Natural Science Center.

Townes Hall: Named for Judge John Charles Townes; houses part of the School of Law.

University Teaching Center

UT Administration Building: Houses the School of Information and part of the Department of Computer Science.

Waggener Hall: Named for the University’s first president, Leslie Waggener; houses the Departments of Classics and Philosophy.

Walter Webb Hall: Named in 1975 for former professor of history; houses the Visitor Center, the Graduate and International Admissions Center, and the Office of Public Affairs.

West Mall Office Building: Houses part of the School of Architecture, the Center for Mexican American Studies, the Department of Middle Eastern Studies, and the University Station Post Office.

Will C. Hogg Building: Formerly the Geology Building; renamed for distinguished alumnus and benefactor; houses the Department of Asian Studies, the Plan II Honors Program, and the Office of the Dean of the College of Natural Sciences.

William C. Powers, Jr. Student Activity Center: Houses the Department of Anthropology and the América Paredes Center for Cultural Studies on the fourth and fifth levels.

William Randolph Hearst Building: Named for gifts from the Hearst Foundations; houses Texas Student Media.

For Student Activities

Anna Hiss Gymnasium: Formerly Women's Gymnasium; renamed in 1974 for former director of Physical Training for Women.

Clark Field: Named for Judge James Benjamin Clark, first proctor of the University.

Darrell K Royal-Texas Memorial Stadium: Formerly Texas Memorial Stadium; renamed in 1997 to honor former head football coach and athletics director.

Denton A. Cooley Pavilion: Basketball practice and training facility; named for University alumnus and heart transplant pioneer.

Frank C. Erwin Jr. Special Events Center: Formerly the Special Events Center; renamed in 1981 for former chairman of the Board of Regents Center.

Frank Denius Practice Field: Named for alumnus and benefactor Franklin Wofford Denius.

Gregory Gymnasium: Named for former United States attorney general Thomas Watt Gregory; houses the Gregory Aquatics Facility and part of the Department of Recreational Sports.

Lee and Joe Jamail Texas Swimming Center.

Mike A. Myers Track and Soccer Stadium: Named for alumnus benefactor.

Moncrief-Neuhaus Athletic Center: Named for alumni benefactors Vernon F. Neuhaus and W. A. “Tex” Moncrief; called the Neuhaus-Royal Athletic Center until the 1997 renaming of Memorial Stadium.

Recreational Sports Center

Red and Charline McCombs Field: Named for alumnus and benefactor Red McCombs and his wife.

Richard Mithoff Track and Soccer Fieldhouse: Named for University of Texas and School of Law alumnus.

William C. Powers Jr. Student Activity Center: Features a variety of unique, informal lounge spaces, four food vendors, and thirteen reservable spaces such as a black box theatre, a legislative assembly room, and a dance rehearsal space with a sprung floor.

Texas Union Building: Houses dining areas, entertainment venues, meeting rooms for student organizations, reading rooms, banquet rooms, the Informal Classes program, and the Union Underground.

UFCU Disch-Falk Field: Named for former baseball coaches Billy Disch and Bibb Falk and for the sponsorship of the University Federal Credit Union.

Whitaker Field: Named for Berry M. Whitaker, former director of intramurals; located at 51st and Guadalupe streets.

Admission

A comprehensive college education depends on a robust exchange of ideas, exposure to differing cultures, preparing for the challenges of an increasingly diverse workforce, and acquiring competencies required of future leaders. The Office of Admissions recruits prospective undergraduate students, manages the admissions application process,
and reviews applications in order to admit and enroll undergraduate students who are best able to contribute to, and benefit from, the University’s rich, diverse, and challenging educational environment. Similarly, the Graduate and International Admissions Center (GIAC) manages the admissions application process and assists in the review of applications in order to admit and enroll international undergraduate students as well as all applicants to the University’s many master’s and doctoral programs.

The University receives a large number of applications and admits the number of students to whom it can offer a high-quality educational experience, including providing the resources needed for timely graduation. As a result, the University must often admit a limited number of applicants from among those who are qualified.

The procedures and criteria for admission given in this section are effective as of the date of publication but are subject to change by action of the Texas Legislature or the Board of Regents. The information here is intended for use by students applying for admission for the academic years covered by this catalog.

In compliance with the Federal Student Right-to-Know Act, information about graduation rates and crime statistics is available from the Office of Admissions.

Questions about undergraduate admission may be addressed to the Office of Admissions by telephone or by e-mail. The Office of Admissions may also be contacted by mail at The University of Texas at Austin, Office of Admissions, PO Box 8058, Austin, TX 78713-8058. Questions about graduate admission should be directed to the Graduate and International Admissions Center.

Undergraduate Admission

The Office of Admissions is responsible for the admission and readmission of undergraduate students to the University. Application procedures for freshman, transfer, former, international, and transient (visiting summer) students are outlined later in this chapter and details are available on Texas Admissions.

Undergraduate Admission Application

Application deadlines

For undergraduate admission, application materials must be received in the Office of Admissions by the deadlines published on Applying for Admission.

Prospective students are encouraged to apply early for the enrollment period in which they are interested. Beginning the process early allows ample time for applicants to assure that their applications are complete by the deadline.

Application processing fees

A nonrefundable fee of $75 is required with each application for domestic undergraduate admission. (The undergraduate fee for transient admission, admission for visiting summer students, is $60.) Fee waivers based on financial need are available. International applicants (those who are not United States citizens or permanent residents) must submit a nonrefundable fee of $90; waivers are not available for international applicants.

Admission to requested majors

Although Texas law offers automatic admission to the University for eligible undergraduate applicants, it does not guarantee admission to an applicant’s requested major. All undergraduate applicants are considered on a competitive basis through holistic review for admission to the majors they request.

Accepting admission

Applicants who are offered undergraduate admission to the University must take steps to accept the offer of admission. To accept admission, admitted students must pay a $200 enrollment deposit, which is applied to the payment of tuition when the student enrolls. Students who demonstrate financial need may qualify for assistance to cover the amount of the deposit. Enrollment deposits are not refundable.

Major changes following acceptance of admission

Undergraduate students are limited in their ability to change majors (p. 31) after accepting admission offers. Incoming undergraduates are not allowed to change majors from one college/school to another during summer or during orientation. Students interested in changing majors within their college/school should speak with an academic advisor about the requested change during orientation. Visit Internal Transfer for more information.

Rescinding offers of admission

The Office of Admissions has the authority to rescind an offer of admission to a student who, after being admitted to the University, fails to maintain the level of academic, achievement, or honor code standards that were displayed in the information the student submitted when applying for admission to the University. Applicants who falsify any part of their application or the documents required to complete the application process are subject to cancellation of their offer of admissions or disciplinary action.

Students at the University are expected to conduct themselves in ways that reflect the University’s Student Honor Code (p. ).

Scholarship recipients

The Vice Provost of Admissions may admit recipients of bona fide scholarships.

Submitted application items

Official transcripts and test score reports submitted to the Office of Admissions will not be duplicated or returned to the student. Faxes of transcripts and applications are not accepted.
Undergraduate Applicants with College Credit

Many undergraduate applicants come to the University after enrolling in college-level coursework or earning college credit.

Reporting previous college coursework

An applicant who has undertaken coursework at another collegiate institution (including freshman, transfer, reentry, and international applicants) must report all such coursework when applying for admission. Applicants who fail to report all college coursework or who otherwise falsify any part of their application or the documents required to complete the application process are subject to disciplinary action. Disciplinary action will include a one-year ban on enrollment and a permanent statement on the student’s record about the failure or falsification. Action may include expulsion and loss of credit for work taken subsequently at the University, as well as appropriate action by the dean of students.

Awarding college credit

The University awards college credit to some incoming undergraduate students for courses that are transferable from other colleges and universities, for designated scores on Advanced Placement and International Baccalaureate exams, for OnRamps courses and for dual credit courses the student took while in high school.

Students seeking transferable credit must submit official transcripts of all coursework taken at all other institutions for evaluation by the Office of Admissions. This evaluation determines whether the coursework could in any circumstances qualify for transfer credit at UT Austin, but it does not constitute approval of the credit for use toward a degree; such approval is solely within the jurisdiction of a student’s academic dean.

The following policies govern evaluation of credit:

- **Institution types**: Transfer credit is generally awarded for academic course credit earned from regionally accredited institutions or from institutions that are candidates for regional accreditation if the course credit was earned during the candidacy period. In rare circumstances, course credit earned at other institutions may be accepted.

- **Courses that are not transferable**: Workforce (vocational) courses, developmental and remedial courses, and courses classified as below freshman level by the institution at which the student took them are not transferable and will not count toward a degree.

- **Credit for military training**: Transfer credit is awarded for some kinds of military training. Credit awarded for military training usually does not count toward the 24 hours of transferable credit needed to apply for admission.

- **Coursework level**: Junior and community college courses transfer as lower-division (freshman or sophomore) credit. Undergraduate courses from senior colleges transfer at the level (lower- or upper-division) at which the student took them. Graduate-level coursework is not transferable as undergraduate credit.

- **Limits on use of credit toward degree**: No limit is placed on the total amount of course credit accepted in transfer from either junior- or senior-level institutions. However, use of transfer credit toward a degree may be limited by the student’s academic dean.

- **Credit by exam at another institution**: Credit earned by examination at another institution is treated as transfer credit only if the sending institution records the credit on the student’s transcript with regular catalog course numbers and with a grade of at least C, the symbol CR, or a similar designation representing credit earned without letter grade.

- **Computing an applicant’s GPA**: When computing an applicant’s grade point average (GPA) for admissions purposes, the Office of Admissions includes grades earned in all academic courses (except developmental courses), whether passed, failed, or repeated, including those in which the student earned a grade of D+, D, or D-. However, a course in which the student earned a grade of D+, D, D-, or F is not transferable and will not count toward a degree. An A or A + earned on transferable coursework is awarded four points in admission GPA calculations. (See Academic Policies and Procedures (p. 61) for information about how the University computes GPA.)

- **Transfer coursework and the University’s GPA**: Grades earned at other institutions are not averaged with grades earned at the University to determine the student’s internal University grade point average.

**Disputed credit**

If the University refuses to accept lower-division credit earned at another Texas public institution of higher education, the student and the sending institution will be given written notice that transfer credit was refused. If nontransfer of credit is disputed, the University will attempt to resolve the matter with the student and the sending institution according to applicable rules and guidelines of the Texas Higher Education Coordinating Board. If the dispute is not resolved to the student’s or the sending institution’s satisfaction within forty-five days of the initial notification, the University will notify the Coordinating Board of the refusal of the transfer credit and the reasons for refusal. The Coordinating Board will resolve the dispute and notify the parties of its findings.

**College credit for earning an International Baccalaureate diploma**

Students who are admitted to the University and have earned an International Baccalaureate (IB) diploma during high school may qualify for 24 hours of college credit. Details about the program are available from Student Testing Services.

**College credit for military service**

Military veterans who enroll as entering undergraduates (freshman, transfer, or returning students) at UT Austin and meet certain requirements are eligible to receive up to 12 semester hours of undergraduate elective coursework credit for the time they spent in the service. Eligibility requirements are defined in Section 51.3042 of the Texas Education Code.

The credit is awarded for having served, not for any college-level courses that the veteran may have taken while in the military. To be eligible to receive credit for military service, a veteran must

- Have graduated from a public or private high school accredited by a generally recognized accrediting organization or from a high school operated by the United States Department of Defense.
- Have completed at least two years of service in the armed services (unless the veteran was discharged because of a disability).
- Have been honorably discharged from the armed forces.

Admitted students who may qualify for credit for military service should speak with a representative of the Office of Admissions upon enrollment at the University.

**Recruiting Students for Undergraduate Admission**

The Office of Admissions offers a variety of services and resources to assist prospective students with the undergraduate admissions
application process. Undergraduate applicants are encouraged to use all available resources, especially consultation with the University's admissions representatives and counselors.

Admissions representatives work in communities throughout the state of Texas. The University's admissions representatives provide detailed information about, and assistance with, the freshman and transfer admissions and enrollment processes through consultation, information sessions, and local events.

The Office of Admissions participates in a variety of activities and efforts designed to recruit prospective freshman and transfer students.

- Collaborating with high school counselors in Texas and in other states and with junior and community college officers across the state.
- Hosting counseling and information sessions and conducting campus tours for prospective freshman and transfer students.
- Hosting meetings with representatives from UT Austin admissions, student affairs, and academic affairs offices for prospective transfer students visiting the campus.
- Hosting on-campus events for prospective freshman and transfer students.
- Participating in community college recruiting events across the state and visiting community colleges and business and industry locations to provide information for prospective transfer students.
- Participating in college nights and college fairs across the state and the nation to provide information to prospective freshman and transfer students.
- Working with academic and student affairs offices and departments across campus to assist students in their transition to UT Austin.
- Working with alumni and outreach centers across the state and nation to facilitate student recruiting through information distribution, events, and activities.

Freshman Admission

Freshman applicants should take advantage of the detailed information and resources available through Texas Admissions - Freshman.

Eligibility to Apply

To be eligible to apply for freshman admission, an applicant must:

- Have graduated or be on track to graduate from high school or receive a GED and
- Not have enrolled in another college or university after graduating from high school or earning a GED.

To be eligible to apply for freshman admission, a Texas public high school applicant must also be on track to graduate under the high school coursework requirements defined in the state's Uniform Admission Policy. Texas private high school applicants and applicants from Department of Defense schools must be on track to complete coursework that is equal in content and rigor to the requirements in the Uniform Admission Policy. See Admission Decisions below for information about requirements for automatic admission.

No student is exempt from the University’s minimum coursework requirements: four units of language arts, two units of a single foreign language, three units of mathematics at the level of Algebra I or higher, two units of science, three units of social studies, one and one-half units of electives, and one-half unit of fine arts. (Computer science/programming courses may be used to fulfill the admissions foreign language requirement.)

Meeting the minimum requirements makes a student eligible to apply for admission, but exceeding the minimum is often necessary for applicants to be competitive for admission to many of the University’s academic programs.

Under Texas law, graduates of unaccredited high schools may seek admission to the University.

Admission Deficiencies

Some applicants may be required to complete the University's deficiency process in order to meet UT Austin's minimum coursework requirements. Applicants who appear to be deficient after applying for admission are notified by the Office of Admissions that they must submit additional information through an online process. Notified students who fail to complete the deficiency process will not be considered for admission.

Admitted students must complete the coursework required to remove a deficiency before they enroll at the University. A deficiency in a foreign language must be removed by achieving first-year college-level credit in a foreign or classical language, by earning a passing score on the appropriate placement examination given by the University, or by taking computer science/programming coursework, when applicable. A deficiency in mathematics must be removed by earning credit for Mathematics 301, College Algebra, or Mathematics 303D, Applicable Mathematics, or an equivalent transfer course. For all other subjects, one semester of college credit is required to remove a deficiency of one year or less of high school credit.

Freshman Application Procedures

To be considered for admission as a freshman, an applicant must submit all required items by the deadline published on Texas Admissions.

b. Transcript and rank. An official high school transcript showing coursework information through the end of the junior year along with information about the applicant's class rank and high school class size (usually noted on the transcript). If your high school does not rank students, provide a statement from your school describing its policy, a copy of your school’s profile, and a GPA or grade distribution report.

c. High school coursework or exemption information. Documentation showing that the applicant is on track to meet high school coursework requirements or is requesting an exemption to meet the state's Uniform Admissions Policy; applicants who claim an exemption based on equivalent coursework must submit a certification/exemption form as described above.

d. Test score. An official test score report for the SAT Reasoning Test or the ACT Assessment is not required, but students are encouraged to include. More information may be found on Texas Admissions - Freshman.

e. Fee or waiver request. The application processing fee or a request for a fee waiver.

Additional requirements for some applicants

In addition to the items required of all applicants, some applicants are required to submit additional items. Some applicants, for example, may be required to submit the online Student Information Form to provide details about high school coursework. In addition, international freshman applicants must submit Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) scores as well as evidence of sufficient financial support while studying in the United States. In addition, some majors require applicants to submit major-specific application requirements (p. 22).
Additional information about applying for freshman admission, including details about reporting rank, high school coursework requirements, and testing requirements, is available on Texas Admissions - Freshman.

Keeping prospective students informed
In accordance with the admissions policy adopted by the University of Texas System Board of Regents, the Office of Admissions works diligently to keep students informed about items needed to complete an admissions application and about the status of their individual applications throughout the process. MyStatus – a secure online portal for UT Austin applicants – provides detailed information about application status (incomplete, complete, in review, etc.) and about items needed to complete an application for admission. The Office of Admissions also notifies applicants by email of the need to visit MyStatus for application information.

Reporting dual credit
A freshman applicant may not disregard any part of their academic record, including college credit earned as dual credit. Such coursework must be reported when applying for admission, and the applicant must submit official transcripts of the coursework.

Freshman Application Review Process
In keeping with the admissions policy adopted by the University of Texas System Board of Regents, the Office of Admissions uses an individualized, holistic review process to consider each completed freshman application. Annual file review training is conducted to assure that files are reviewed consistently and fairly based on admission criteria.

Applications from students who qualify for automatic admission are reviewed to determine majors. Applications from students who are not eligible for automatic admission are reviewed to determine admissibility and to make decisions about majors.

The following items are considered during holistic review:

- Class rank
- Strength of academic background
- SAT Reasoning Test or ACT scores
- Record of achievements, honors, and awards
- Special accomplishments, work, and service both in and out of school
- Essay(s) and required short answers
- Special circumstances that put the applicant’s academic achievements into context, including the applicant’s socioeconomic status, experience in a single parent home, family responsibilities, experience overcoming adversity, cultural background, race and ethnicity, the language spoken in the applicant’s home, and other information in the applicant’s file
- Recommendations (although not required)
  - Competitiveness of the major to which the student applies

No specific class rank, test score, or other qualification by itself—other than automatic admission based on section 51.803 of the Texas Education Code or admission for top students from small Texas high school graduating classes—ensures admission.

Admission decisions are made on the basis of the information submitted as part of the student’s application. Applicants who believe that supplemental items will help convey information about their qualifications are encouraged to submit such items with their applications. Supplemental items often included with applications are expanded résumés of accomplishments and extracurricular activities, letters of recommendation, and letters addressing an applicant’s special circumstances.

Admission Decisions
The Office of Admissions uses an individualized, holistic review process to consider each completed freshman application. Applications from students who do not qualify for automatic admission are reviewed to determine which students will be offered admission and to determine majors for those offered admission. Applications from students who do qualify for automatic admission are reviewed to make decisions about majors.

Texas applicants eligible for automatic admission
Section 51.803 of the Texas Education Code defines the rules that govern automatic admission to Texas universities. Under these rules, the University is required to use automatic admission to fill at least 75 percent of the spaces available to Texas residents in each admitted freshman class.

Each September, the University informs school districts of the rank that will be required to earn automatic admission to the University in the next application cycle. More information can be found at Admission Decisions.

In addition to graduating under the coursework requirements found in the state’s Uniform Admission Policy, to be eligible for automatic admission, applicants from Texas public high schools must complete the Foundation High School Program with the Distinguished Level of Achievement. High school coursework exemptions are available for applicants who may be eligible for automatic admission and who attend private high schools in Texas or Department of Defense high schools. Available exemptions are based on achieving certain benchmarks on either the SAT or the ACT or completing high school coursework that is equal in content and rigor to the state’s high school graduation requirements.

In order for a student to qualify for automatic admission, the high school must report the student’s rank as prescribed by section 51.803 of the Texas Education Code.

To be considered for admission to the Cockrell School of Engineering, the Jackson School of Geosciences, and the Environmental Science major in the College of Liberal Arts and the College of Natural Sciences, applicants who are otherwise eligible for automatic admission to the University should meet the calculus-readiness requirement. To be considered for admission to other math-intensive majors (mathematics, business, physics, or computer science), an applicant who is otherwise eligible for automatic admission to the University should demonstrate math proficiency.

Automatic admission for military/veteran applicants
Students who qualify for automatic admission to UT Austin at the time they graduate from high school and who join the military after graduation maintain eligibility for automatic admission for the period of time they serve in the military. Military or veteran applicants interested in enrolling at UT Austin following military service who have not enrolled in college-level coursework since high school graduation should apply for freshman admission. Such applicants are reviewed holistically with the freshman applicant pool to determine the major to which they will be offered admission. Qualified applicants who have enrolled in college-
level coursework since high school graduation should apply for transfer admission (p. 20).

Applicants not eligible for automatic admission

To be considered for freshman admission, applicants who are not eligible for consideration under the provisions of section 51.803 of the Texas Education Code must normally have graduated from or be on track to graduate from high school and have met the high school preparation requirements.

As a state-assisted institution, the University reserves 90 percent of its spaces for Texas residents per Texas law; 10 percent of the spaces are reserved for out-of-state and international students.

Notifying applicants of admission decisions

In keeping with the admissions policy adopted by the University of Texas System Board of Regents, the Office of Admissions notifies freshman applicants of their admission decisions as soon as possible. Summer/fall applicants who qualify for automatic admission are notified of their admissibility soon after their applications are complete. Decisions about majors for automatically admissible students and decisions about admission and majors for applicants who are not automatically admissible are made and delivered beginning in the fall. All freshman admissions decisions for summer/fall are communicated by the spring before the entry semester. The Office of Admissions also works to deliver spring decisions in a timely manner.

Alternative paths to admission

The University works to identify and develop alternative admission programs that offer prospective students a clear path to completion of an undergraduate degree at the University. These programs include: Path to Admission through Co-Enrollment (PACE), a co-enrollment program with Austin Community College, and the Coordinated Admission Program (CAP), a University of Texas System program through which students enroll in a UT System university during their freshman year and then transfer to UT Austin—after successfully completing the program requirements—in order to complete their undergraduate studies. Information about PACE requirements are available on Texas Admissions - Freshman. Information about CAP requirements are available on Texas Admissions - Freshman.

Transfer Admission

Prospective transfer applicants should take advantage of the detailed information and resources available on Texas Admissions - Transfer.

Eligibility to Apply

In most circumstances to be eligible for transfer admission consideration, an applicant must:

a. Have graduated from high school or earned a GED
b. Have enrolled in an institution of higher education following high school graduation or receipt of the GED
c. Have earned 24 semester hours of transferable coursework at another college of university

While 30 semester hours of transfer credit is recommended for transfer applicants, students with at least 24 hours of credit will be considered based on the strength of their application and available spaces in the incoming class. In exceptional circumstances, students with fewer than 24 semester hours of credit may be considered for transfer admission under special review by appeal to the Vice Provost of admissions.

Ineligible at other institutions

An applicant who is ineligible to continue at a previous institution for academic or disciplinary reasons is not eligible for admission to the University. There is no probationary or provisional admission for transfer applicants.

Degree holders

Students who have obtained a degree at another college or university but are interested in working toward an undergraduate degree at UT Austin must apply for undergraduate transfer admission in the same way as students who have not yet earned a degree.

Former CAP and PACE participants

Students who participated in the Coordinated Admission Program (CAP) or Path to Admission through Co-Enrollment (PACE) but did not complete the requirements or decided not to enroll at UT Austin despite successful completion of the requirements must apply for transfer admission if interested in attending UT Austin at a later date.

Additional situations requiring application for transfer

UT Austin graduate students who are interested in taking undergraduate courses but who have never attended UT Austin as an undergraduate must apply for undergraduate transfer admission. The same is true for students who have taken only correspondence or extension courses at UT Austin as well as students who have taken only summer courses when enrolled as a visiting transient student.

Transfer Application Procedures

To be considered for transfer admission, an applicant must submit the items listed below by the application deadline. Official transcripts and test score reports submitted to the Office of Admissions will not be duplicated or returned to the student. Faxes of transcripts and application and essays: including the required essays and statement of purpose.

b. Transcripts: Separate, official transcripts from each college attended, including any at which the applicant enrolled while in high school. Every college-level course the student took must be reported on a transcript from the institution at which the student enrolled in the course, even if it also appears on the transcript of another institution that accepted it for transfer credit. Summer and fall applicants must submit official transcripts of all coursework undertaken through the previous summer; spring applicants must submit official transcripts of all coursework undertaken through the previous summer.

c. Fee (or exemption request): The nonrefundable application fee or a request for an exemption, described in the section Application Processing Fee.

d. Résumé: An expanded résumé that provides information about the applicant’s previous five years of academic, extracurricular, community, and work activities, honors, and awards.

The following items are required for some applicants:

a. Permanent resident alien applicants must submit a photocopy of the front of the permanent resident card or temporary evidence of I-551 in the passport.

b. Transfer applicants (including United States citizens and permanent residents) who have undertaken a significant amount of their college coursework in a country in which English is not the only language spoken must show proficiency in English by presenting a score on
either the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS). Details about possible exemptions are available on Texas Admissions - Transfer.

Required for enrollment

Before enrolling at the University, admitted transfer students must submit an official high school transcript. The transcript is used to verify completion of the units in foreign language and mathematics that are requirements of many university degrees. Although the high school transcript is not required for admission, applicants are strongly encouraged to submit it with other admissions credentials by the deadline.

Automatic admission for eligible transfer applicants

Section 51.8035 of the Texas Education Code establishes criteria for automatic admission to the University for qualifying transfer applicants who began their studies at a Texas community or junior college following high school graduation. Visit Automatic Transfer Admission for details.

Automatic admission for military/veteran applicants

Students who qualify for automatic admission to UT Austin at the time they graduate from high school and who join the military after graduation maintain eligibility for automatic admission for the period of time they serve in the military. Qualified military or veteran applicants interested in enrolling at UT Austin following military service who have enrolled in any college-level coursework since high school graduation should apply for transfer admission. UT Austin waives the 24 semester-hour transfer coursework requirement for qualified military/veteran applicants. Such applicants are reviewed holistically with the transfer applicant pool to determine the major to which they will be offered admission. Applicants who have not enrolled in college-level coursework since high school graduation should apply for freshman admission (p. 18).

Transfer Application Review Process

All applications for transfer admission are reviewed and evaluated individually and holistically. Admission decisions are made after careful consideration of the strength of the applicant's academic background; their record of achievement and accomplishment, both in and outside of the classroom; and related factors reported by the applicant in writing.

The Office of Admissions considers the following items when looking for evidence of a strong academic background:

a. Substantial coursework from a challenging academic institution or program
b. Evidence of relevant coursework and experiences related to requested field of study
c. Required and appropriate courses for specific areas of study
d. Evidence of a positive academic trend

The following items form the basis for evaluating an applicant's record of achievement and accomplishment:

a. Indications of a superior level of achievement in a particular area, or particular attributes that would be an asset to a department or college
b. Letters from deans, department chairs, or faculty members that attest to the applicant's qualifications for their respective programs
c. Information on a personal résumé that attests to the applicant's skills, abilities, experiences, or background
d. Performance at an audition or the quality of a portfolio, when required for the applicant's proposed major
e. Scores on the Test of English as a Foreign Language or the International English Language Testing System, when required
f. Other special circumstances, including socioeconomic standing; educational goals; cultural background; employment, internships, etc.; race or ethnicity; personal experiences and hardships; personal responsibilities; and any additional information submitted by the applicant

Enrollment pressures at the University may not permit admission of all who qualify for certain academic programs. When this occurs, the Office of Admissions, within applicable law, admits those students who are judged to be most able to contribute to and benefit from the University's rich, diverse, and academically challenging environment. Additional admissions requirements for some undergraduate programs are described in Major-Specific Application Requirements (p. 22).

Grade point average computation

A transfer applicant's grade point average on transferable college coursework is a significant indicator of the applicant's academic strength. Because the Office of Admissions considers academic background as a factor when making transfer decisions, the grade point average can play an important role in an applicant's final admission decision.

The admission grade point average (GPA) is computed on all transferable college coursework the student has undertaken, whether passed, failed, or repeated. The Office of Admissions uses the University's numerical equivalents as described in Academic Policies and Procedures (p. 61) when computing GPA for transferable coursework.

- GPA is computed by dividing the total number of grade points by the total number of semester hours pursued. (Credit hours and grade points earned on the quarter system carry 2/3, or .66, the numerical value of those on the semester system.)
- Transfer credit is not given for courses in which incoming students have earned a grade of D+, D, D-, or F. However, if such courses would normally be eligible for transfer, they are included when GPA is calculated.
- During transfer GPA calculations, an A or A+ earned on transferable coursework is awarded four points.
- Each instance in which a course is taken is counted when GPA is computed. For example, a course that a student takes twice in an effort to raise a grade is counted twice when the GPA is computed. However, transfer credit for a repeated course is counted only once.

Transfer and evaluation of credit

Applicants for transfer admission must submit official transcripts of all coursework taken at all other institutions for evaluation by the Office of Admissions. This evaluation determines whether the coursework could in any circumstance qualify for transfer credit at the University, but it does not constitute approval of the credit for use toward a degree; such approval is solely within the jurisdiction of a student's academic dean.

Additional information about evaluation of credit is available in Undergraduate Applicants with College Credit (p. 17).

Catalog eligibility for Texas transfer students

A student who transfers from another Texas public institution of higher education has the same catalog choices that the student would have had if the dates of attendance at the University had been the same as
Coursework-in-residence requirement

Candidates for all undergraduate degrees must complete at least 60 semester hours of coursework in residence at the University. A transfer student who has completed a substantial amount of transferable, degree-applicable coursework may be obliged to take more courses at the University than their degree program requires, in order to meet the residence requirement. Students considering transfer after earning more than 60 hours of transferable credit should carefully review their options and the possible ramifications of the coursework-in-residence requirement before transferring. For more information, review the Non-Resident Tuition for Resident Students policy.

Transient Admission (Summer Only)

Undergraduate students who are pursuing degrees at other U.S. colleges and universities and wish to continue their studies at the University during the summer only may be admitted to some undergraduate programs as visiting transient students. A transient student who then wishes to be admitted to the University on a regular basis must apply for admission as a transfer student.

Visiting transient students may not register in the Graduate School but may take graduate courses if qualified. If a visiting transient student is subsequently admitted to the University as a regular student, credit earned while enrolled as a transient student may be used to meet undergraduate degree requirements but may not be used to fulfill the requirements for a graduate degree.

Students who attend the University as transient students and then are admitted on a regular basis are immediately subject to the University's academic regulations. In particular, such a student will be placed on scholastic probation upon enrollment if their grade point average for work undertaken as a transient student at the University is below 2.00.

Fresh Start

Section 51.931 of the Texas Education Code provides that a resident of Texas may apply for admission to the University as an undergraduate student without consideration of course credit or grades earned 10 or more years prior to the semester the applicant plans to enroll. To be admitted, the applicant must meet the admission standards in effect at the time of application. Students admitted under fresh start receive no credit for coursework taken 10 or more years before enrollment, even if a degree was earned.

Fresh start applicants must apply for transfer admission (or readmission if they attended UT Austin in the past), must submit transcripts for all college-level coursework taken and all required application items by the transfer deadline, and must have the minimum number of transferable courses.

Enrollment as a Nondegree Student

A student who holds a bachelor's degree from an accredited institution, including UT Austin, may apply for admission as a nondegree student in one of the undergraduate colleges or schools. Students seeking nondegree admission follow the process for undergraduate transfer applicants and are considered on a competitive basis with transfer applicants for the same semester. Some undergraduate majors are not open to nondegree students; applicants must select from available nondegree majors.

Nondegree students are subject to the rules that apply to other undergraduates. With the approval of the Office of Admissions and the dean's office of the applicable college or school, nondegree students may change to degree-seeking status in an undergraduate college or school. Such students must meet the criteria required of all transfer applicants.

With the approval of the instructor and the graduate advisor, a nondegree student may take any graduate course for which they meet the prerequisite. However, graduate courses that a student takes while enrolled as an undergraduate nondegree student may not later be counted toward a graduate degree.

Exchange students

A student who is admitted to the University through a reciprocal exchange program is also classified as a nondegree student. An exchange student may not register for more than two fall or spring semesters and one summer semester. The transferability of academic credit to the student's home institution is determined by the home institution.

An exchange student may later apply for admission to the University as a degree-seeking student, but only after completion of the exchange period. If the student is admitted as a degree-seeker, credit that they earned as an exchange student may be counted toward a university degree only on a limited basis and only with the approval of the student's dean.

Major-Specific Application Requirements

To be considered for admission to some undergraduate majors, applicants must submit additional information or meet additional requirements beyond those for applying to the University. Applicants who complete the University's undergraduate application requirements but fail to submit these additional items or to meet these major-specific requirements may be considered for admission to other undergraduate majors based on academic interest and space availability. Undergraduate applicants may select both a first-choice and a second-choice major when applying for admission; however, preference may be given to first-choice applicants.

Foreign language requirement

UT Austin undergraduate students are expected to have completed two years of a single foreign language in high school. Applicants who meet the University's foreign language high school coursework requirement with computer science coursework may be required to earn credit at the beginning level proficiency in a single foreign language to complete their undergraduate degree requirements. See Foreign Language in the Undergraduate Catalog.

The list below offers an overview of major-specific requirements. Additional information is available on the Prerequisites page of the Office of Admissions website and to individual applicants through MyStatus, the University's secure admissions portal.

Architecture

Freshman Requirements

- Fall-only admission: Entering students must begin their studies in a fall semester
• Short answer question: Submit response to major specific short answer question

Transfer Requirements
• Essay D: Submit a response to Essay D
• Portfolio and letter of recommendation: Submit online portfolio and one letter of recommendation
• Minimum 3.25 grade point average: Applicants must have a minimum 3.25 grade point average on transferable coursework
• Fall-only admission: Entering students must begin their studies in a fall semester
• Transfer from architecture/interior design programs: Submit transfer credit from architecture or interior design programs

Business
Freshman Requirements
• Fall admission: Entering business students must begin their studies in a fall semester; summer admission may be possible
• Canfield Business Honors Program: Admission to the Canfield Business Honors Program requires completion of an additional application, criteria, and acceptance by the Canfield Business Honors Program

Transfer Requirements
• Fall-only admission: Entering business students must begin their studies in a fall semester
• Business indicator courses: Submit official transcripts showing the following business indicator courses:
  • Calculus I
  • Calculus II
  • Microeconomics
  • Macroeconomics
• Foreign language proficiency: Before enrolling, admitted transfer students must verify completion of two years of a single foreign language in high school or one year of a single foreign language in college.

Communication
Freshman Requirements
• Fall-only admission: Entering students must begin their studies in a fall semester

Transfer Requirements
• Fall-only admission: Entering students must begin their studies in a fall semester

Education
Transfer Requirements
• Essay: Submit an essay response that focuses on how the intended major aligns with the student’s educational/career goals
• Teacher certification: Non-degree seekers planning to begin professional development classes in the fall semester should complete the application to the professional development sequence as part of the admissions application process.

Engineering
Freshman Requirements
• Calculus readiness requirement: To be considered for admission to the Cockrell School of Engineering, students must be calculus ready.
• Summer/Fall admission: Entering students must begin their studies in a summer or a fall semester
• Engineering Honors Program: Admission to the Engineering Honors Program requires the completion of an additional application

Transfer Requirements
• Transfer credit for the following coursework:
  • Mathematics 408L, 408M, or 408D
  • Physics 303K and 103M
  • A minimum of four technical courses. Technical courses include courses in math, physics, biology, chemistry, geology, computer science, and engineering.
• Fall admission: Entering students must begin their studies in a fall semester

Fine Arts
Freshman Requirements
Fall-only admission: Entering students in all majors must begin their studies in a fall semester.

Transfer Requirements
• Butler School of Music majors:
  • Submit additional Butler School of Music application
  • Complete an audition or interview
• Department of Art and Art History majors:
  • Submit response to major-specific short answer question
  • (Studio Art and Art Education only) Submit art portfolio
• Department of Design majors:
  • Submit creative work in response to design prompt
• Department of Theatre and Dance majors:
  • Complete additional steps such as audition, interview or portfolio related to your interests
**Geosciences**

**Freshman Requirements**
- **Calculus readiness requirement:** To be considered for admission to the Jackson School of Geosciences, students must be calculus ready.
- **Fall-only admission:** Entering students must begin their studies in a fall semester.

**Transfer Requirements**
- **Transfer credit for the following coursework:**
  - Chemistry 301
  - Geological Sciences 401 or 303
  - Mathematics 408C, or 408K, or equivalent
- **Additional required coursework for Environmental Science (geological sciences):**
  - Biology 311C
- **Fall-only admission:** Entering students must begin their studies in a fall semester.

**Transfer Recommendations**
- **Transfer credit for the following coursework:**
  - Mathematics 408L and 408M, 408D, or equivalent
  - Geological Sciences 401 or 303 with a grade of at least B-

**Information**

**Freshman Requirements**
- **Fall and Summer admission:** Entering students may begin their studies in a fall or summer semester.

**Transfer Requirements**
- **Fall and Summer admission:** Entering students may begin their studies in a fall or summer semester.

**Liberal Arts**

**Freshman Requirements**
- **Honors programs:** Plan II and Liberal Arts Honors applicants must complete the online Honors Program application and submit the additional materials.
- **Environmental Science (geographical sciences):** To be considered for admission to environmental science, students must be calculus ready.
- **Fall-only admission:** Plan II and environmental science students must begin their studies in a fall semester.

**Transfer Requirements**
- **Plan II:** The Plan II major is not currently available to transfer applicants.
- **Undeclared:** The Undeclared major in Liberal Arts is not available to transfer applicants.
- **Environmental science (geographical sciences):**
  - Transfer credit for Biology 311C, Chemistry 301, and Mathematics 408C, 408K, or 408N with a grade of at least C in each
  - Transfer credit for Geological Sciences 401 or 303 with a grade of at least B-

**Natural Sciences**

**Freshman Requirements**
- **Honors programs:** Natural sciences honors program applicants must complete the online Honors Program application and submit the additional materials.
- **Environmental science (biological sciences):** To be considered for admission to environmental science, students must be calculus ready.
- **Fall-only admission:** Environmental science students must begin their studies in a fall semester.

**Transfer Requirements**
- **Fall-only admission:** Computer science and environmental science students must begin their studies in a fall semester.
- **Undeclared:** The Undeclared major in Natural Sciences is not available to transfer applicants.
- **Environmental science (biological sciences):**
  - Transfer credit for Biology 311C, Chemistry 301, and Mathematics 408C, 408K, or 408N with a grade of at least a C-in each.
  - Transfer credit for Geological Sciences 401 or 303 with a grade of at least B-

**Transfer Recommendations (to be competitive for all natural sciences majors):**
- **Minimum of 30 transferable semester hours**
- **GPA in math and science:** Minimum grade point average of 3.00 in mathematics and science coursework is preferred for consideration. A GPA above 3.00, however, is generally needed to be competitive for admission.
- **First-choice major:** Preference is given to applicants who select a Natural Sciences major as their first-choice major and who have transfer credit for at least one college-level calculus course.
- **Transfer credit:** One of the following (with a grade of at least B-)
  - Mathematics 408C, 408D, 408K, 408L, 408M, 408N, or 408S
  - Statistics and Data Sciences 301
- **Transfer credit:** Two of the following courses (with a grade of at least B-)
  - Biology 311C, 311D
  - Chemistry 301, 302
  - Computer Science 311, 312
  - Physics 303K, 303L
  - or majors level equivalents
- **Essay A:** Submit Essay A describing how the intended major would impact achievement of the student’s educational and career goals.

**Nursing**

**Freshman Requirements**
- **Fall-only admission:** Entering students must begin their studies in a fall semester.
- **Short answer questions:** Submit responses to major specific short answer questions.
Transfer Requirements
- **Fall-only admission**: Entering students must begin their studies in a fall semester.
- **Essay A**: Submit Essay A with a focus on goals of becoming a nurse and/or a career in nursing.
- **Recommended GPA**: To be competitive, applicants should have a minimum 3.5 transfer GPA.
- **24 hours by deadline**: Submit transcript showing 24 hours of completed coursework by the application deadline.
- **Transfer credit**: Submit transfer credit for the following:
  - Chemistry 301, Statistics and Data Sciences 301, and Biology 311C.
- **Additional documents**: Additional documents may be required for applicants with an associate's degree in nursing.

Pharmacy
Admission to the College of Pharmacy is not available to freshman applicants.

Transfer Applicants
- **PharmCAS Application**: Apply to the professional pharmacy program (PharmD) by completing the PharmCAS application and the College of Pharmacy Supplemental Application.

Social Work
**Freshman Requirements**
- **Short answer question**: Submit response to major specific short answer question.

**Transfer Requirements**
- **Essay**: Submit Essay A or E with a focus on how social work would prepare a student to achieve education and career goals.

Admission to upper-division work and requirements for continuing study
Some undergraduate academic programs admit new students as undeclared or entry-level majors within a college or school. In such cases, students must meet certain requirements—earn a certain grade point average in specified coursework, for example—to move into upper-level study. In some cases, students must apply for admission to a concentration or to a professional program after meeting the specified requirements.

Additional Information
Prospective undergraduate students and applicants should review online information provided by the colleges and schools that offer the majors in which they are interested and should consult the Undergraduate Catalog for details.

Readmission of Former Undergraduate Students
Former University students who were not enrolled the previous fall or spring semester must apply for readmission. Students who completed the requirements for a degree from the University in the previous semester or summer semester must also apply for readmission. (Former graduate students who have never been enrolled at UT Austin as undergraduates and who wish to take undergraduate courses must apply for undergraduate transfer admission.) Application materials must be submitted by the deadline for former students. To be eligible to re-enroll, a former student who has subsequently attended another college must submit an official transcript from each college showing a grade point average of at least 2.50 on a 4.00 scale for all transferable coursework the student has undertaken since leaving the University. (Students who have taken only one transferable course in their absence must earn at least a 2.00 on that course.) Each application will be reviewed by the office of Admissions for continued eligibility. Readmission requires official approval from the Office of Admissions. This requirement does not apply to work taken during a summer semester that falls between consecutive spring and fall semesters in which the student is enrolled at the University.

A student who leaves the University on scholastic probation will be on scholastic probation when readmitted, even if they have attended another institution in the interim. Students previously dismissed from the university for academic reasons, contact the dean's office of your college or school before applying to find out if you are eligible to re-enter.

Former students who wish to enter the School of Law, the Graduate School, or the graduate program of the McCombs School of Business for the first time must meet the requirements and deadlines given in the appropriate section of this chapter. Additional information about graduate and law programs is given in their respective catalogs.

Readmission Following Military Service
In accordance with section 51.9242 of the Texas Education Code, a student who withdraws from the University in order to perform required military service will be readmitted for any semester that begins within a year after the student’s release from required service. The student is not required to apply for readmission or pay an application fee. However, the student must submit the Notification of Intent to Re-Enroll. This form allows the University to prepare for the former student’s return. If the form is submitted late, the student’s registration may be delayed. To prevent a delay, the former student should submit the form at least two weeks before they expect to register for classes.

This policy applies to students who withdraw for service with the United States armed forces or the Texas National Guard; however, it does not apply to students who withdraw solely to perform one or more training exercises as members of the Texas National Guard.

Graduate Admission
A summary of the general requirements, application fees, deadlines, and procedures for graduate admission follows. Prospective students should refer to the Graduate Catalog for further information.

Requirements
General requirements for admission to the Graduate School are:

- a. A bachelor's degree from a regionally accredited institution in the United States or a comparable degree from a foreign academic institution. The Graduate and International Admissions Center (GIAC) will determine eligibility for admission in consultation with prospective graduate programs.
- b. A grade point average of at least 3.00 in upper-division (junior- and senior-level) coursework and in any graduate work already completed.
c. An official score for the Graduate Record Examinations General Test (GRE), unless otherwise specified by the graduate program to which the student is applying. The McCombs School of Business requires master's and doctoral degree applicants to submit a satisfactory score for either the GRE or the Graduate Management Admission Test (GMAT). Applicants to dual or combined degree programs with the School of Law must submit a satisfactory score for the Law School Admission Test (LSAT) as well as for the GRE or GMAT. International students whose native language is not English must also submit scores on the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS). The Institutional TOEFL (ITP) and the IELTS General Training are not accepted. For more information on which countries qualify for a waiver of this requirement, as well as programs that do not waive the requirement, please visit the Graduate School's website. Applicants should consult the graduate advisor for the program of interest to learn which test the program requires.

d. Adequate subject preparation for the proposed major. Evidence of adequate preparation varies by program, but examples include letters of reference, auditions, samples of work, and personal statements.

e. A recommendation for acceptance by the Graduate Studies Committee for the proposed major area.

Applicants may apply simultaneously to more than one graduate program, but they may enroll in only one program, with the exception of applicants admitted to dual degree programs. All complete applications are forwarded to the Graduate Studies Committee(s) for the proposed area(s). Admission decisions are based on a careful and holistic review of all aspects of the applicant’s file including standardized tests, grade point average, letters of recommendation, research and teaching experience, etc. Scores on standardized tests such as the GRE are not the sole criterion for making an admission decision or ending consideration of the application. Information about admission criteria for each graduate program is available from the graduate advisor.

When there are more qualified applicants than can adequately be instructed by the faculty or accommodated in the facilities, the Graduate Studies Committee (GSC) for the proposed area may deny admission to students who have met the prescribed requirements. GSC admissions recommendations to the graduate dean are final; there is no appeal. All admissions must be approved by the graduate dean.

Applicants who feel that their grade point averages or test scores are not valid indicators of ability should explain their concerns in a letter to the graduate advisor of the program to which they are applying.

Admission Tests

The Graduate Record Examinations General Test (GRE), the Graduate Management Admission Test (GMAT), and the Test of English as a Foreign Language (TOEFL) are offered at testing centers throughout North America and at selected international sites. Current information about GRE and TOEFL test dates, locations, and registration procedures is published by the Educational Testing Service. Similar information about the GMAT is published by the Graduate Management Admission Council.

The International English Language Testing System (IELTS) is administered in more than 120 countries and is available off-site in additional countries. Information about IELTS test dates, locations, and procedures is published on their website.

The Institutional TOEFL (ITP) and the IELTS General Training are not accepted.

Applicants to dual or combined programs with the School of Law must also take the Law School Admission Test (LSAT), administered by the Law School Admission Council. Information about the LSAT is published by the Council.

Graduate School Select Admission Program

The Graduate School Select Admission Program allows graduate programs to recommend academically outstanding University of Texas at Austin undergraduates for admission to graduate programs in a state formula-funded degree program. Students are normally nominated in the junior year, and programs are encouraged to limit their nominations each year to one or two outstanding undergraduates.

Nominations are forwarded to the Graduate School by the program's graduate advisor or graduate admissions office with the recommendation of the Graduate Studies Committee. Undergraduate candidates may be extended an offer of admission and financial aid as early as the junior year, conditional upon completion of the baccalaureate degree. Application and transcript fees are waived; some graduate programs may waive submission of GRE scores. Admitted students may enroll in graduate courses at undergraduate tuition rates during the senior year and reserve the courses for graduate credit.

Additional information about the Graduate School Select Admission Program is available in the Graduate School and from the graduate advisor of the nominating graduate program.

Conditional Admission

Almost all of the students who are admitted to the Graduate School have qualifications equal to or better than the minimum standards outlined in Graduate Admission Requirements (p. 25). However, a Graduate Studies Committee may recommend, with the consent of the graduate dean, that a student be admitted to the Graduate School with conditions. The Graduate Studies Committee may require the student to maintain a certain grade point average or to take a certain number of semester hours of coursework. A conditionally admitted student may also be required to remedy deficiencies in undergraduate preparation by taking upper-division or graduate courses. The graduate advisor notifies the student of these conditions at the time of admission. The Graduate Studies Committee petitions the graduate dean for removal of conditions once the conditions have been met.

A student who does not fulfill the conditions within the specified time may be barred from subsequent registration in the Graduate School. If the student changes their major before the conditions have been fulfilled, the conditions remain in effect unless the graduate advisor for the new program, on behalf of the Graduate Studies Committee, petitions the graduate dean and receives approval for them to be changed.

Students admitted with conditions are not eligible to be graduate student academic employees, except under rare and unusual circumstances and with the approval of the graduate dean.

Admission as a Nondegree Student

A person who would like to take graduate coursework without becoming a candidate for an advanced degree may apply for admission to a graduate program as a nondegree student. Admission as a nondegree student is not available in all graduate programs. Enrollment as a nondegree student is normally limited to one year. Nondegree students are not eligible to be teaching assistants, assistant instructors, graduate research assistants, academic assistants, assistants (graduate), or tutors (graduate).

The applicant must submit an application and transcripts of all college coursework to the Graduate and International Admissions Center
The application deadline. Certain items, such as test scores, take several applications, as well as all supporting documents, well in advance of the dates by which all documents and test scores must be received. It is the applicant's responsibility to monitor their application status, and deadlines posted are those that do generally open applications in January for the following year and have deadlines no later than October 1. Deadlines posted are not required unless otherwise specified by the graduate program.

A graduate nondegree student who later wishes to seek a graduate degree must meet the requirements for admission, submit all required materials and items by the program's deadline, and must pay the usual application fee. A degree-seeking student may petition to have applied to the master's degree up to six semester hours of graduate credit earned while they were a graduate nondegree student.

Exchange students. A graduate student who is admitted to the University through a reciprocal exchange program is classified as a nondegree student. An exchange student may not register for more than two long terms and one summer term. The transferability of academic credit to the student's home institution is determined by the home institution.

An exchange student who wishes to take a graduate course must 1) obtain the approval of the instructor and of the graduate advisor for the program that offers the course, 2) meet all course prerequisites and, 3) meet any other requirements affecting nondegree students. An exchange student may later apply for admission to the University as a degree-seeking graduate student. To do so, the student must submit the usual test scores, application fee, and other required material by the graduate program's deadline.

Exchange students admitted as graduate nondegree students. If a graduate nondegree exchange student is later admitted to the Graduate School as a degree seeker, the Graduate Studies Committee may ask for the graduate dean's approval to include the student's master's degree Program of Work up to six hours of graduate coursework that the student completed as a graduate nondegree exchange student. An exchange student may later apply for admission to the University as a degree-seeking student. To do so, the student must submit the usual test scores, application fee, and other required material by the graduate program's deadline.

Exchange students admitted as undergraduate nondegree students. If an undergraduate nondegree exchange student is later admitted to the Graduate School, courses that they took as an undergraduate nondegree exchange student may not be counted toward a graduate degree.

Recommended Application Dates for Graduate Study

Each graduate program sets its own application deadline. Summer and fall applications typically open on September 1 for the following year. Few graduate programs admit new students for the spring term; those that do generally open applications in January for the following year and have deadlines no later than October 1. Deadlines posted are the dates by which all documents and test scores must be received.

To apply for financial aid in the form of gift aid, which includes grants and scholarships, and self-help aid, which includes student employment programs and long-term loans, applicants are encouraged to complete the Free Application for Federal Student Aid (FAFSA). More information about these programs and deadlines for filing the FAFSA are published by the Office of Scholarships and Financial Aid. Information is also available by mail from The University of Texas at Austin, Office of Scholarships and Financial Aid, PO Box 8704, Austin TX 78713-7758.

Individual graduate programs may also offer financial assistance to their students in the form of assistantships or fellowships. For more information about these programs and deadlines for applying to them, applicants should contact the graduate program of interest. Financial aid decisions are made soon after program application deadlines, and applicants whose materials have not been received may not be given full consideration.

Fellowships

University fellowships, which are administered through the Graduate School, are awarded to both entering and continuing graduate students in most academic areas. Students must be nominated by their graduate advisors for any fellowship administered by the Graduate School, but many award decisions are made at the college or program level. Additional information on University fellowships is published by the Graduate School.

University recruiting fellowships for entering graduate students are awarded on the basis of scholastic excellence and adequate preparation for graduate study in the student's chosen field, as shown by their academic record and letters of recommendation. University fellowships for continuing students are awarded on the basis of the student's record since entering the Graduate School, including performance in relevant coursework and research or creative activity, letters of recommendation from University faculty members, and the endorsement of the graduate advisor. Financial need is also a consideration for some fellowships. There are a number of other competitive fellowships awarded by the University or by graduate programs with specific qualifications.

Generally, fellowships require no service from the recipient. Many major fellowships provide for payment of all or nearly all tuition in addition to the stipend. Recipients of certain graduate fellowships of $10,000 or more per year are eligible to participate in the University's staff group health insurance plan. Note that while access to the staff health plan is provided, funding may or may not be included depending on the fellowship award.

Application Processing Fee

All applicants to the Graduate School must submit a nonrefundable application processing fee along with their application materials. Applicants may apply simultaneously to more than one graduate program; a fee may be charged for each application. An applicant may be eligible for a waiver of the fee on the basis of documented financial need. Applicants may consult with the Graduate and International Admissions Center (GIAC) to determine eligibility for a waiver. Application fees cannot be refunded, even if the application is not completed.

To apply for financial aid in the form of gift aid, which includes grants and scholarships, and self-help aid, which includes student employment programs and long-term loans, applicants are encouraged to complete the Free Application for Federal Student Aid (FAFSA). More information about these programs and deadlines for filing the FAFSA are published by the Office of Scholarships and Financial Aid. Information is also available by mail from The University of Texas at Austin, Office of Scholarships and Financial Aid, PO Box 8704, Austin TX 78713-7758.

Individual graduate programs may also offer financial assistance to their students in the form of assistantships or fellowships. For more information about these programs and deadlines for applying to them, applicants should contact the graduate program of interest. Financial aid decisions are made soon after program application deadlines, and applicants whose materials have not been received may not be given full consideration.

Fellowships

University fellowships, which are administered through the Graduate School, are awarded to both entering and continuing graduate students in most academic areas. Students must be nominated by their graduate advisors for any fellowship administered by the Graduate School, but many award decisions are made at the college or program level. Additional information on University fellowships is published by the Graduate School.

University recruiting fellowships for entering graduate students are awarded on the basis of scholastic excellence and adequate preparation for graduate study in the student's chosen field, as shown by their academic record and letters of recommendation. University fellowships for continuing students are awarded on the basis of the student's record since entering the Graduate School, including performance in relevant coursework and research or creative activity, letters of recommendation from University faculty members, and the endorsement of the graduate advisor. Financial need is also a consideration for some fellowships. There are a number of other competitive fellowships awarded by the University or by graduate programs with specific qualifications.

Generally, fellowships require no service from the recipient. Many major fellowships provide for payment of all or nearly all tuition in addition to the stipend. Recipients of certain graduate fellowships of $10,000 or more per year are eligible to participate in the University's staff group health insurance plan. Note that while access to the staff health plan is provided, funding may or may not be included depending on the fellowship award.

Application Processing Fee

All applicants to the Graduate School must submit a nonrefundable application processing fee along with their application materials. Applicants may apply simultaneously to more than one graduate program; a fee may be charged for each application. An applicant may be eligible for a waiver of the fee on the basis of documented financial need. Applicants may consult with the Graduate and International Admissions Center (GIAC) to determine eligibility for a waiver. Application fees cannot be refunded, even if the application is not completed.

US citizens, permanent residents, and University undergraduates

The fee for applicants to the Graduate School is $65. The fee for applicants to the full-time, working professional, and executive Master of Business Administration (MBA) programs is $200. The fee for applicants to the Master in Professional Accounting (MPA) program, including students in the integrated BBA/MPA program, is $125. Applicants applying to a dual-degree program with the Master of Business
An enrollment deposit is assessed in the following graduate programs:

International applicants

The fee for applicants who are not citizens of or permanent residents of the United States is $90. The fee for applicants to the full-time, working professional, and executive Master of Business Administration (MBA) programs is $200. The fee for applicants to the MPA program is $125. Applicants applying to a dual-degree program with the Master of Business Administration (MBA) program will pay only the higher of the application fees.

Enrollment Deposit

Some graduate programs require students to pay a nonrefundable enrollment deposit upon admission to indicate that they accept the offer of admission. For students applying to dual degree programs, one deposit serves to confirm the student's intention to enroll in both programs. When both programs require a deposit, only the higher fee is required. The deposit is applied to the payment of fees when the student enrolls. Students who demonstrate financial need may qualify for assistance to cover the deposit.

An enrollment deposit is assessed in the following graduate programs:

Law School Admission

Overview

The primary goals of the admission process for the School of Law are:

- to identify those students with the greatest probability of success in law school, considering proven predictors (standardized test scores, undergraduate grade point average, the applicant's undergraduate school and major) and giving appropriate weight to all other factors in the applicant's file;
- to identify students who exhibit a demonstrated commitment to public service, leadership, and other qualities valuable to the legal profession;
- to identify students whose background, experience, and other qualities are likely to be of value in the classroom and in the School of Law; and
- to provide a service to the state of Texas by educating its citizens from underrepresented regions of the state and disadvantaged socioeconomic backgrounds.

The School of Law takes great care in reviewing each application holistically. The many factors the Admissions Committee takes into consideration include but are not limited to: academic rigor of undergraduate study; graduate study, demonstrated commitment to public service; work experience; leadership experience; extracurricular or community activities; disability; socioeconomic disadvantage and/or first-generation college-student status; exceptional communication and writing ability; proficiency in languages other than English; honors and awards; service in the Armed Forces; publications; and any other personal characteristics or experiences that would contribute to the overall enrichment of the School of Law.

Application Procedures

Please refer to the School of Law admissions website for detailed information about the policies and procedures.

First-Year Applicants

To be considered for admissions at the School of Law as a first-year student, an applicant must register with the Law School Admission Council (LSAC) and the Credential Assembly Service (CAS), take the Law School Admission Test (LSAT) or Graduate Record Examination (GRE), and demonstrate that they have earned a bachelor's degree from a
regionally accredited U.S. university, or the foreign equivalent whose program has been deemed of comparable quality, prior to the start of the first fall semester at the School of Law. Further, all applicants must have achieved a minimum undergraduate grade point average of 2.20, as calculated by LSAC (unless the applicant was enrolled as an undergraduate under the Academic Fresh Start option pursuant to Section 51.931 of the Texas Education Code).

Transfer Applicants
To be considered for admissions at the School of Law as a transfer student, an applicant must be attending a law school that is accredited by the American Bar Association and a member of the Association of American Law Schools. The applicant must register with the Law School Admissions Council (LSAC) and the Credential Assembly Service (CAS), and demonstrate that they have completed the first-year curriculum in good academic standing.

Transient (Visiting) Applicants
To be considered for admissions at the School of Law as a transient (visiting) student, an applicant must have completed the first-year curriculum in good academic standing at a law school that is accredited by the American Bar Association and a member of the Association of American Law Schools and register with the Law School Admission Council (LSAC).

Deadlines
The following deadlines are non-negotiable.

First-Year Applicants
- **September 1** - Application opens
- **November 1** - Application deadline for Early Decision
- **March 1** - Application deadline for Regular Decision

The School of Law must receive a student’s valid LSAT and/or GRE score by the appropriate deadline to consider their application for admission.

Transfer Applicants
- **May 1** - Application opens
- **June 15** - Application deadline

The School of Law admits transfer students on a rolling basis once applications are complete; therefore, applicants are strongly encouraged to apply early.

Transient Applicants
- **Summer Semester**
  - **April 1** - Application opens
  - **May 15** - Application deadline
- **Fall Semester**
  - **May 1** - Application opens
  - **June 15** - Application deadline
- **Spring Semester**
  - **September 1** - Application opens
  - **November 15** - Application deadline

Please contact the School of Law Admissions Office to confirm whether courses will be available to visiting students before submitting an application. The School of Law is unable to refund any application fees.

Enrollment Deposit
Applicants admitted to the School of Law must submit a nonrefundable deposit of $500 (amount subject to change) to confirm their acceptance of the offer of admission. The deposit will be applied to the first semester tuition statement when the student enrolls.

Residency Regulations
Under state statutes and Texas Higher Education Coordinating Board rules interpreting them, a student or prospective student is classified as a resident of Texas, a nonresident, or a foreign student. An alien who has lived in the state under circumstances specified in the Coordinating Board rules is eligible for classification as a Texas resident. A citizen, a national, or a permanent resident of the United States who does not meet resident criteria is classified as a nonresident. An alien who is not a permanent resident of the United States and has not been permitted by Congress to adopt the United States as domicile while in this country is classified as a foreign student. A person classified as a nonresident or a foreign student may qualify, under certain exceptions specified in the rules, for resident tuition rates and other charges, while the person continues to be classified as a nonresident or a foreign student. Information about the Coordinating Board’s rules on residency is published on the THECB website.

A student entering the University for the first time, or reentering after an absence of more than one semester, should carefully review the Coordinating Board rules in order to be prepared to pay the required tuition. Information and advice on residency status is available from the University’s Office of Admissions, (512) 475-7391. Information about establishing residency is published by the Office of Admissions.

Effect of absence from the University. Students returning to the University after an absence of more than two semesters may be required to file a residency form.

Registration, Tuition, and Fees
Students at the University register for classes online; instructions are given in the Course Schedule. The only way to enroll in a class is to register for it through the proper registration procedure or to add a class after the initial registration. The instructor receives the student’s name only by official notice from the registrar. Students may not receive credit for a course for which they are not registered.

By registering, a student enters a college or school of the University and, except in matters of conduct, is under the jurisdiction of the dean of that college or school. The dean has jurisdiction over the student’s program of study and degree requirements. A student pursuing simultaneous majors in two colleges is subject to the regulations of both colleges. Students taking a course in a college or school other than the one(s) in which they are registered are subject, so far as that course is concerned, to the regulations of the college or school in which the course is given. In matters of conduct, all students are under the jurisdiction of the dean of students.

Academic Advising
Academic advising is available to all students before registration. In many degree programs, students must be advised before they may register. Advising requirements and locations are given in the Course Schedule. However, the University recognizes that academic advising is more than course selection. A description of the broader goals of the advising process is given in Academic Policies and Procedures (p. 55).
Registration Periods

Freshman and transfer students entering the University in the fall semester are encouraged to attend an orientation session, during which they will be advised and will register for classes. Information about orientation for new students, including graduate and international students, is available from the New Student Services website and in the Student Services Building (SSB) Suite 3.410.

Continuing and readmitted students may register during each semester (fall, spring and summer). Registration periods for the fall and summer semesters usually begin in April; those for the spring semester, in late October or early November. Detailed information about registration is given in the Course Schedule.

Paying Tuition as a Part of Registration

Students are not registered or entitled to attend classes, participate in class-related activities, or use University facilities and services until their tuition bill is paid in full or in accordance with an approved installment plan. A student who has an overdue debt to the University may not register until the debt is paid.

Section 103 Compliance Policy (Veterans’ Benefits and Transition Act)

In accordance with the Veterans Benefits and Transition Act of 2018, Section 103 became effective August 1, 2019. Students using U.S. Department of Veterans Affairs (VA) Post 9/11 G.I. Bill® (Ch. 33) or Veteran Readiness and Employment (Ch. 31) benefits must register for classes, submit a G.I. Bill® Questionnaire and VA certificate of eligibility for entitlement (or the equivalent award letter) to the Office of the Registrar, Veteran Certification team. This must be done no later than three business day prior to the initial tuition bill deadline for the semester requesting education benefits.

These students will not be restricted in any way for 90 days from the tuition bill deadline, if payment has not been received due to a delay in receipt of benefits from the VA. After the 90 days, the University will review each student on a case by case basis. The student is responsible for payment of any tuition balance not covered by their VA education benefit by the appropriate deadlines.

Late Registration

Students are expected to register at their earliest opportunity. A student who registers late is charged a fee to defray the cost of the extra services necessary to effect the late registration. Late registration periods are identified in the Course Schedule each semester (spring, fall, and summer). Students may register after the fourth class day in a fall or spring semester or the second class day in a summer term only with the approval of the department chair, graduate advisor, the student’s dean, and the registrar. Registration after these dates is approved only in unusual circumstances.

Texas Success Initiative

Undergraduate students who have not fulfilled requirements of the Texas Success Initiative (TSI) may be subject to enrollment restrictions or may have a hold for registration. TSI is described in Academic Policies and Procedures (p. 57).

Concurrent Enrollment at the University and Another Collegiate Institution

Concurrent enrollment occurs when a student is enrolled at two separate institutions simultaneously. Prior written approval of a student’s academic dean is required to assure that a course taken at another institution while the student is concurrently registered at the University will count toward the student’s degree. Concurrent enrollment policies of the colleges and schools are given in the Undergraduate Catalog. Information about fees for students enrolled concurrently at two institutions is given in Additional Fees (p. 45).

Continuous Registration of Graduate Students

All graduate students are expected to enroll and pay tuition by the twelfth class day of the fall term and the spring term of each academic year until graduation. If the student has been admitted to candidacy for the doctoral degree, registration in the dissertation course or the equivalent or in international study and research (ISR) is required. The only alternative to continuous registration is a leave of absence, discussed in the Leave of Absence for Graduate Students (p. 30) section. In order to fulfill the continuous registration requirement, doctoral candidates who are readmitted must register retroactively and pay tuition for all long terms that have elapsed since they were last enrolled.

If a student who is not on approved leave fails to register by the twelfth class day, the student may not return to the University without applying for readmission. The student must apply for readmission both to the University and to the graduate program and must pay the general application fee. The application is reviewed by the Graduate Studies Committee, which may choose to readmit the student or to deny readmission.

Leave of Absence for Graduate Students

Degree-seeking graduate students may apply for a leave of absence of no more than two long terms. Requests for a leave of absence must be approved in advance by the graduate advisor and the graduate dean. Applications from students who have been admitted to candidacy will be approved by the graduate dean only in rare and unusual circumstances.

A student on approved leave must apply for readmission in order to return to the University, but readmission during the approved period is automatic and the application fee is waived.

A student on leave may not use any University facilities; nor is the student entitled to receive advice from any member of the faculty. A leave of absence does not alter the time limits for degrees or coursework.

Registration in the Graduate School Following Graduation

Graduate students who wish to continue enrollment beyond the term in which their degree is awarded must be admitted as nondegree-seeking students or as degree-seeking students in a new degree program.
Students must request a change of major or degree-seeking status from the Graduate School.

In Absentia Registration

A student who is taking the final course(s) remaining to complete degree requirements via nonresident credit or a candidate for a degree who has completed the requirements for graduation and needs to register only for the purpose of having a degree conferred, may register in absentia. In absentia registration is not permitted for any other purpose; for graduate students, in absentia registration is allowed at the end of the summer semester for fall graduation as described below. In order for the degree to be awarded, the remaining coursework must be completed, the final grade recorded on the student’s academic record, and degree requirements certified by the established deadlines for the term. Students registering in absentia must still meet in-residence requirements for a degree to be conferred.

Undergraduate Students

After registering for classes, undergraduate students may change to in absentia status only with the approval of their dean. The classes for which the student is registered should be dropped and the in absentia registration added through the normal add/drop procedure. If the change is made during the first twelve class days, the student’s tuition is refunded.

Graduate Students

Students must be registered for the semester in which they graduate and must apply for graduation by the deadline published in the academic calendar. A student who fails to complete all degree requirements or misses the deadline for acceptance of the thesis, report, recital, dissertation, or treatise must register and pay tuition the following semester in order to receive the degree.

An exception is made for students who apply to graduate in the summer semester but miss the deadline for acceptance of the thesis, report, recital, dissertation, or treatise. In this case, the student will be registered in absentia for the fall semester, only for the purpose of receiving the degree, by degree evaluators in the Office of Graduate Studies. The thesis, report, recital, dissertation, or treatise must be accepted by the deadline for in absentia registration, which falls before the beginning of the following fall semester. Additional exceptions may be granted by the graduate dean under unusual administrative circumstances. The student will be registered in absentia only once.

Transfer from One Division to Another Within the University

Students in any undergraduate college or school of the University may transfer to any other college or school within the University only under the general procedures and conditions described below.

a. To transfer, students must apply using the university internal transfer application. The application process is described on the Office of Admissions website. Transfer procedures must be completed by the end of the eighth class day in the fall or spring or the fourth class day in the summer for the transfer to be effective in the current term.

b. Students may apply to transfer only two times to each new college or school that has limited space for internal transfers. For these colleges and schools, the student must apply within the student’s first four fall or spring semesters of enrollment at the University.

c. Students who transfer to a new college or school retain the same University probationary status, if any, that was in effect at the time of the transfer.

d. Students who are dismissed under University-wide regulations from one college or school are ineligible to transfer to another college or school.

e. Restrictions based on credit earned:
   a. Students who have completed 45 or fewer semester hours of college credit are eligible to apply for transfer between colleges and schools regardless of their University grade point average, provided they satisfy all conditions and procedures that apply to students who enter the same college or school, and any program thereof, when first admitted to the University.
   b. Students who have completed more than 45 semester hours of college credit must have a University grade point average of at least 2.00 to qualify for transfer between colleges and schools. Generally, students with more than 45 semester hours of credit and a grade point average less than 2.00 may not transfer to another division within the University and must enroll in courses approved by their current college or school. All colleges are authorized to allow such students to register for courses required for the students’ potential new majors, provided the normal prerequisites are met.
   c. Students may not transfer to another college or school after they have completed 60 semester hours of coursework in residence. A student who wishes to seek an exception to this rule should petition the dean’s office of the college into which the student would like to transfer. Approval of the petition will take into account the student’s ability to graduate within four years of entering the University.
   f. Students may not transfer to another college or school after they have completed four fall or spring semesters in residence, regardless of the amount of credit they have earned. A student who wishes to seek an exception to this rule should petition the dean’s office of the college into which the student would like to transfer. Approval of the petition will take into account the student’s ability to graduate within four years of entering the University.

g. Transfer students from other institutions of higher education are eligible to apply for transfer between colleges and schools within the University upon completion of their first fall or spring semester or summer semester at the University, regardless of the number of semester hours accumulated, provided they satisfy all conditions and procedures that apply to students entering the same college or school, and any program thereof, when first admitted to the University.

h. Students who are readmitted to the University after not enrolling for one or more fall or spring semesters are readmitted to the college or school in which they were last enrolled. They may then apply for transfer to another college or school, provided they meet the general conditions for transfer given in this section and any special admission requirements of the college or school to which they wish to transfer.

i. Graduate students not previously admitted to the University as undergraduates may apply to transfer from the Graduate School to an undergraduate college or school under the general conditions for transfer noted in items 1 and 2 only if they (a) satisfy any pertinent admission requirements for that undergraduate college or school, and (b) have the additional approval of the director of admissions.

1 Or more than four years if dictated by the length of the program.
Auditing a Course

Auditing a course is usually done for academic exploration and self-enrichment.

Permission to audit a course entitles the student to attend class but not to hand in papers, take part in discussion, or receive evaluations. An auditor does not receive University credit for the course audited. The audited course will not appear on the student’s transcript.

A law student may not audit a law course.

A University student who wishes to audit a course should obtain a Class Auditor Permit from the Texas One Stop and secure the consent of the course instructor and the student’s dean. A nonstudent must obtain the Class Auditor Permit from the Texas One Stop and the consent of the instructor. Nonstudents under the age of 65 are charged an audit fee of $20 a course.

Auditors are permitted only when space is available. An instructor or dean may refuse any request to audit a course. Nothing in these rules prohibits an instructor from permitting guests and visitors in a class.

Tuition and Fees

Policies governing the payment and refund of tuition, fees, and other charges are approved by the Board of Regents of The University of Texas System and comply with applicable state statutes. All charges are subject to change by legislative or regental action and become effective on the date enacted. For clarification of any matter relating to payment or refund of charges, a student should contact the office or administrative unit that originated the charge or refund.

Financial Responsibility

Students must sign a Financial Responsibility Statement (FRS) each semester prior to registration, and are expected to meet financial obligations to the University when they are due. Tuition is due on the date given in the academic calendar and can be found on My Tuition Bill. Students are not entitled to attend classes unless the tuition bill has been paid in full or in accordance with an installment plan. Failure to comply with tuition payment deadlines may result in the cancellation of registration. Other charges are due within 10 days after the bill is issued by the University, or according to any payment instructions on the bill. If the student does not pay the amount owed by the due date, the University may place a hold on the account, restrict the student from registration and may withhold official transcripts and diplomas.

Payment of registration fees must be made in full each semester by the payment deadline(s), or late fees will be assessed. Methods of payment include personal check, eCheck, electronic funds transfer, cash, money orders, cashiers check, or credit card (subject to a 2.3% convenience fee). Payments for larger amounts, the difference to be paid in cash to the student, cannot be accepted. All checks must be drawn on United States banks in United States dollars; collection charges that result from checks drawn otherwise are charged to the student.

For any questions, please contact Texas One Stop.

Returned Checks

When a check or an electronic payment (referred to in this section as a check) is returned to the University, a $25 service charge is assessed. The student has 10 days from the date of the notice to make full payment by cash, credit card, cashier’s check or money order. Failure to comply will result in the University refusing to accept personal checks. A late charge, if applicable, will be assessed.

If the returned check was for the tuition bill or to clear a registration hold, the student’s registration will be canceled. A service charge of $25, a matriculation fee of $15 and a reinstatement fee (see Additional Fees (p. 45)) will be added to the student’s account.

The University will not accept a check from an individual who: previously had a registration canceled because of a returned check; wrote a bad check to clear a hold; wrote a bad check and was not responsive to requests for payment; or habitually writes bad checks, even though restitution is made promptly. Once a student is restricted from writing a personal check, the check restriction remains in place until the Returned Check and Bursar Bar is paid.

For general questions regarding returned checks, please contact Returned Checks.

Payment Plans

An installment plan is a method of payment during the fall, spring, and summer semesters. Tuition payments must be made according to the plan’s guidelines. Students sign an Installment Plan Note in the Financial Responsibility Statement (FRS) prior to registration each semester. Payment due dates are found on My Tuition Bill and are provided in the Academic Calendar (p. 7). Any student who does not pay their tuition bill in full by 11:59 PM CST on the 12th class day (4th class day for the summer) will automatically be enrolled in the installment plan and assessed a nonrefundable $15 installment plan fee. If the remaining balance of the tuition is not paid by the installment deadline, they will be charged an additional $25 late fee. It is the student’s responsibility to track the amount due and payment deadlines on My Tuition Bill. If applicable, the following charges may also appear on a student’s tuition bill: the international student health insurance program fee, the general property deposit and the late registration fee. The first payment is due by the date given in the Academic Calendar (p. 7).

First payment

There are three ways for students to make their first payment:

- Students have the option of paying their tuition bill in full, the minimum amount due, or any amount in between on My Tuition Bill.
- Students who have a “Zero Bill” must click the “Confirm Attendance” button to secure their registration before their tuition deadline.
- Students who have financial aid covering the bill in full, must click the “Pay with Financial Aid” button before their posted tuition deadline. Students who have financial aid posted on their bill may have a lower initial payment.

Additional payments

All tuition must be paid in full by 11:59 PM CST on the 12th class day in the fall and spring semesters, or by the 4th class day in the summer semester. Students who choose to initially pay the minimum amount due should pay their tuition in full by the above dates, or they will be automatically placed on the installment plan, and will be assessed a nonrefundable $15 service charge. Students who do not pay the balance by the installment deadline, will be assessed a nonrefundable $25 late fee. It is the student’s responsibility to track the amount due on My Tuition Bill. Students who add classes, change their major, or otherwise change their registration record may incur additional tuition fees after their initial payment. In this case, payment for additional tuition is due by the date given in the Academic Calendar (p. 7) or shown on My Tuition Bill.
Students who withdraw from the University after the first four weeks of class are responsible for the full amount of tuition. If a student fails to make a full payment on time, including late fees, they may be subject to one or more of the following actions, at the University’s option: (1) hold against readmission to the institution; (2) witholding of degree and official transcript; (3) all penalties and actions authorized by law.

Financial aid recipients must apply any aid received to the unpaid balance of the tuition bill at the time the aid check is released. Any questions regarding Financial aid should be referred to Texas One Stop.

Specific information about paying the tuition bill is available in each semester’s Course Schedule.

For additional questions about payment plans, please contact Texas One Stop.

Admission Application Processing Fees

Each applicant for admission to the University must submit a nonrefundable application processing fee. The amounts of these fees for undergraduate applicants are given in Undergraduate Admission (p. 16); for graduate applicants, in Graduate Admission (p. 25); and for law applicants, in Law School Admission (p. 28).

Applicants to the professional sequence in nursing must pay a nonrefundable processing fee; applicants to the professional curriculum in pharmacy must also pay a nonrefundable processing fee.

Tuition

The flat-rate tuition for each program covers the student’s academic program costs, mandatory fees and charges, and college course incidental fees. It does not include the general deposit, the international student health insurance fee, the international student orientation fee, or fees for extended field trips that require students to live off-campus.

Flat-rate tuition for Fall 2023 and Spring 2024 is given in the tuition tables (p. 33). After selecting classes for a future semester, the student may view their estimated tuition bill at My Tuition Bill. Flat-rate tuition for Summer 2024 will be published on the Texas One Stop website.

The tables (p. 33) show tuition for students enrolled in a single college. Undergraduates with simultaneous majors in more than one college are charged only the higher college rate. Tuition for graduate dual degree programs is unique to each program; amounts are available from Texas One Stop.

The information in the tuition tables is not intended to be comprehensive and is subject to change. Tuition, fees, and charges are subject to change by administrative, legislative and regental action, and changes become effective on the date enacted. This information should be used only as a guideline for estimating charges.

Nonresident Tuition for Resident Students

Because the University is a state-assisted institution, tuition rates are lower for Texas-resident students than for nonresidents, including both out-of-state and international students. Information about residency is given in Residency Regulations (p. 29). In the following circumstances, a student who is classified as a Texas resident may be charged nonresident tuition:

Undergraduates

State law allows colleges and universities to charge a Texas-resident undergraduate the nonresident tuition rate, if the student has attempted an excessive number of hours beyond the number required for their degree. In addition, a higher tuition rate may be charged if a student enrolls again in a course they have completed.

As of the current academic year, the University does not charge undergraduates additional tuition for an excessive number of hours or for repeated courses.

Graduate students

A student who has earned more than 99 semester hours of credit at the doctoral level is subject to the nonresident tuition rate, even if the student is a Texas resident or holds an appointment that would normally entitle the holder to pay resident tuition. This policy, sometimes called the “99 hour rule,” is authorized by section 54.012 of the Texas Education Code. More information about charges for excessive graduate coursework is available from the Office of Graduate Studies.

As of the current academic year, the University does not charge graduate students additional tuition for an excessive number of hours or for repeated courses.

Tuition Tables

House Bill 29, passed by the 83rd Texas Legislature, requires public institutions of higher education to offer a fixed tuition price plan to incoming freshman and transfer students. The University of Texas at Austin has met the requirements of the law by establishing Longhorn Fixed Tuition which is offered to eligible undergraduate students. Tuition rates for the 2023-2024 academic year, including Longhorn Fixed Tuition rates for entering undergraduates, are published below. Undergraduates who enrolled in the Longhorn Fixed Tuition plan prior to this catalog’s academic year can view their cohort rates online.

See the 2023-2024 General Information Catalog Addendum for information related to tuition and costs for programs not listed here.

*2023-2024 General Information Catalog ▶ General Information 2023 - 2024*
Non-Formula-Funded Program Fees: Fall 2023- Summer 2024

The University offers non-formula-funded (Option III) graduate programs to meet market demand which cannot be accommodated by formula-funded programs. Option III programs enable the University to fulfill demonstrated higher education and workforce needs as well as to serve a greater number of students than state resources support. Click the following link for additional details: The University of Texas at Austin Non-Formula-Funded Program Fees.

The fees published in this section assume continuous attendance by students. International students may be subject to additional fees, such as those associated with full-time enrollment required for a visa. When required, the deposit is included in the first semester’s costs. Refer to the "Additional Fees (p. 45)" section of this catalog for details.

Notes:
1. The first semester the program is offered is in spring 2024.
Calculation of per semester tuition costs is based on an example program schedule; costs and/or payment schedule may vary depending on
number of semester credit hours (SCHs), courses taken per semester, and/or semester in which student begins program. Refer to the program for
further information.

Based on minimum total semester credit hours required to complete the degree and reflects an expected on-time graduate status. Refer to the
program for further information.

This rate does not include a $700 per semester surcharge for distance learning students.

Program fees are adjusted each academic year based on University changes in Option III program fees. Total program fees are an approximation
and may differ slightly from one academic year to the next.

This program is not accepting students.

Additional Fees

Flat rate tuition covers most program and service related costs. The following fees are charged to defray the costs of specific programs and
services.

Affiliated studies registration fee

The fee of $600 per semester defrays costs associated with registration, record keeping, and certification for students participating in sanctioned
study abroad programs.

Concurrent enrollment

When a student registers at two public Texas institutions of higher education at the same time, section 54.011 of the Texas Education Code
provides for the following tuition procedure:

a. The student must register first at the institution with the lower
minimum tuition and pay the full tuition charge.

b. Normally, only the hourly rate is paid at the second institution.
   However, if the minimum amount is less at the first institution, the
   student must pay the difference in the two minimums to the second
   institution, but not less than the hourly rate.

Other required and optional fees are billed by each institution at its
regularly authorized rates.

The University of Texas at Austin does not charge a minimum tuition.
A student who registers first at the University (if the University is
the institution with the lower tuition rate) and then at a second
public institution must request concurrent enrollment by contacting
tuition@austin.utexas.edu.

Duplicate fee receipt

A charge of $1 is assessed for a duplicate fee receipt. The charge must
be paid to the Bursar's Office when the application for a duplicate receipt
is submitted. The application must be submitted by the student whose
name appears on the fee receipt.

Field trip fees

Students in courses that include a field trip are assessed a fee to defray
transportation and related costs of the trip.

Freshman and transfer orientation program fees

A fee of $175 is assessed for all first-time freshmen attending a summer
orientation program. A fee of $65 is assessed for new transfer students
attending a summer orientation program. Additional room and board
charges also apply.

For first-time freshmen and new transfer students enrolling in a summer
semester or the spring semester, a fee of $50 is assessed for a one-day
orientation program.

General deposit

A fee of $10 is assessed for every student in the first semester of
enrollment to help offset the cost of property loss or damage and
nonpayment of any University billing. The deposit, less outstanding
charges, is returned on request when the student leaves the University
with no intention to return. Applications for refund are available
online and in Student Accounts Receivable, MAI 4. A general deposit
that remains without request for refund for four years from the date of
the student’s last attendance at the University is forfeited to the Student
Property Deposit Scholarships.

In absentia fee

There is no fee for graduate or undergraduate students with an in
absentia registration.

International student health insurance fee

International students holding non-immigrant visas are assessed a fee
that reflects the actual cost of the premium for health insurance. The fee
varies, matching the premium for approved UT System student insurance
plans.

International insurance administrative fee

A fee to defray the costs associated with complying with the UT
System's requirement for all enrolled international students to have valid
insurance coverage. The fee is based on the insurance coverage type.

International student support services fee

A fee of $125.00 per semester is assessed to international students
to defray costs associated with orientation, immigration advising and
compliance, and support services.

Independent student and research
registration fee

The fee of $600 per semester defrays costs associated with registration,
record keeping, and certification for students enrolled in international
study and research (ISR).
Joint and cooperative program fees

The University has agreements with several other University of Texas System institutions that allow students to enroll in courses at the other institution. Tuition and required fees for full-time students are normally paid at the degree-granting campus and allocated by that unit to the other institution involved. Graduate students enrolled at the University may apply for admission to another University of Texas System institution through the appropriate dean’s office at that institution. Evidence of support from the University should include the approval of the graduate dean. Programs are available only where formal agreements exist between institutions.

Late registration charge

A student who registers late is assessed a charge to defray the cost of the extra services required to effect the late registration. Late registration periods are identified in the Course Schedule. In the fall and spring semesters, the late registration charge is $25 through the fourth class day of a semester, $50 from the fifth through the twelfth class day, and $200 after the twelfth class day. In the summer semester, the late registration charge is $25 through the second class day, $50 from the third through the fourth class day, and $200 after the fourth class day.

Matriculation fee

The $15 matriculation fee is charged when a student withdraws prior to the first class day and receives a full tuition refund. It is also charged when the student is withdrawn by the University because of a returned check.

Reciprocal Exchange fee

The fee of $500 per semester defrays the costs associated with registration, record keeping, and certification for students enrolled in study abroad exchange programs.

Reinstatement fee

A fee of $50 is assessed to defray the cost of correcting student and accounting records after repayment of a check for tuition and fees that was returned.

Returned Check Fees

All returned checks are assessed a service charge of $25. Additional fees may apply.

Tuition Exemptions

Tuition exemptions are issued only for the period in which a student is currently enrolled; therefore, unless otherwise stated, applications must be submitted no later than the date of commencement at the end of the spring semester or the official graduation date at the end of the summer semester or fall semester. Satisfactory Academic Progress must be met in order to maintain eligibility for most exemptions.

Applications and supporting documents for the Hazlewood exemption must be submitted to Veteran Certification in the Office of the Registrar at https://onestop.utexas.edu/managing-costs/veteran-education-benefits/hazlewood-exemption/, by the last class day of the semester for which you are seeking exemption.

Highest Ranking High School Graduate

Who is eligible
Highest ranking graduate of an accredited Texas high school.

What is exempted
Tuition during first two consecutive semesters following graduation.

Where to apply
The "To Public Colleges and Universities" certificate, issued by the high school, may be scanned and submitted to tuition@austin.utexas.edu.

Blind/Deaf Student Exemption

Who is eligible
A blind disabled person, Tuition General deposit or a person whose sense of hearing is nonfunctional. The student must be a Texas resident.

What is exempted
Tuition General deposit

Where to apply
Provide Student Accounts Receivable, tuition@austin.utexas.edu, with certification from Texas Workforce Commission (TWC) or the Texas Health and Human Services Commission (HHSC): http://www.twc.state.tx.us/jobseekers/vocational-rehabilitation-services

Exemption for Children of Disabled or Deceased Texas Firefighters and Peace Officers

Who is eligible
Children under 21 of disabled or deceased full-paid or volunteer firefighters; full-paid or volunteer municipal, county, or state peace officers; custodial officers of the Texas Department of Criminal Justice; and game wardens.

What is exempted
Tuition

Where to apply
Texas Higher Education Coordinating Board, Attn: Student Services, PO Box 12788, Austin TX 78711-2788

Exemption for Children of Prisoners of War or Persons Missing in Action

Who is eligible
Dependent person under 25 years of age who receives majority of support from parent classified by Department of Defense as a Prisoner of War or Missing in Action at time of registration.

What is exempted
Tuition

Where to apply
The University of Texas at Austin, Student Accounts Receivable, Special Billing, PO Box 7398, Austin TX 78713-7398
Exemption for Children of Professional Nursing Faculty and Staff Members

Exemption for Participants in a Military Funeral

Who is eligible | What is exempted | Where to apply
---|---|---
Students in grades six through 12 and postsecondary students who sound Taps during a military funeral in Texas. The student receives a voucher for the exemption from the funeral director.

$25 per voucher in tuition | Student Accounts Receivable, tuition@austin.utexas.edu

Tuition Waivers

A waiver allows for a portion of a student’s tuition not to be paid. The student is responsible for payment of the remaining tuition not covered by the waiver. Waivers are issued only for the period in which a student is currently enrolled; therefore, applications must be submitted no later than the date of commencement at the end of the spring semester or the official graduation date at the end of the summer semester or fall semester. Satisfactory Academic Progress must be met in order to maintain eligibility for most waivers.

Competitive Scholarship Waiver

Who is eligible | What is exempted | Where to apply
---|---|---
A limited number of nonresident and international students who have received a competitive scholarship. The scholarship must be administered by a school-recognized scholarship committee.

Nonresident portion of tuition. The student is responsible for payment of resident tuition. | Student’s department (undergraduate or graduate student service office).

Economic Development and Diversification Waiver

Who is eligible | What is exempted | Where to apply
---|---|---
Nonresident and domiciled international students whose families transferred to Texas as part of the state’s Economic Development and Diversification Plan.

Nonresident portion of tuition. The student is responsible for payment of resident tuition. | The University of Texas at Austin, Office of Admissions/GIAC, PO Box 7608, Austin TX 78713-7608; http://www.collegeforalltexans.com/apps/financialaid/tofa2.cfm?ID=567

Waiver for Faculty Members, Teaching Assistants, and Research Assistants, and their Dependents

Who is eligible | What is exempted | Where to apply
---|---|---
Employee, or employee’s dependent. The employee must have a qualifying job title for at least 20 hours per week. The beginning employment date must be on or before the twelfth class day (fourth class day for a summer term), and the end date must be no earlier than the last class day; these dates are published in the academic calendar. If the dependent is the spouse of the employee, a marriage license must be on file with Special Billing, Student Accounts Receivable, MAI 4.

Nonresident portion of tuition. The student is responsible for payment of resident tuition. | Enrolled students apply directly to the hiring department. Graduate School applicants may indicate interest in a teaching or research assistantship when they apply for admission. https://utdirect.utexas.edu/acct/fb/waivers

Good Neighbor Scholarship

Who is eligible | What is exempted | Where to apply
---|---|---
Native-born citizens and residents from nations of the Western Hemisphere other than the United States. Applicants must furnish certified evidence of native-born citizenship and scholastic qualifications.

Tuition. | The University of Texas at Austin, International Student and Scholar Services, PO Box A, Austin TX 78713-8901; https://global.utexas.edu/issss/advising-services/financial-aid

Waiver for International Students Who Hold Visas Allowing for Domicile in the United States

Who is eligible | What is exempted | Where to apply
---|---|---
International students establishing domicile in Texas and meeting residency requirements.

Nonresident portion of tuition. The student is responsible for payment of resident tuition. | The University of Texas at Austin, Office of Admissions/GIAC, PO Box 7608, Austin TX 78713-7608; https://admissions.utexas.edu/apply/frequently-asked-questions/#texasresidency

50 General Information 2023 - 2024 01/05/24
Eligibility for veteran and dependent education benefits is determined by the U.S. Department of Veterans Affairs (VA) and may be earned by members of Active Duty, Selected Reserve and National Guard Armed Forces and their families.

A percentage of tuition and mandatory fees based on the length of active duty service as determined by the VA.

Student pursuing VA approved programs should visit our Veteran Education Benefits website and must request benefit certification using the Office of the Registrar Veteran Certification's GI Bill® portal.

For additional information contact Office of the Registrar Veteran Certification: Main Building (MAI) Room 1, gibill@austin.utexas.edu

</tr>
</tbody>
</table>

### Tuition Adjustments

Refunds are applied to any current and outstanding debts owed to the University before releasing to the student. Section 54.006(d) of the Texas Education Code requires that the University refund tuition paid by a sponsor, donor, or scholarship to the source, rather than directly to the student, if the funds were made available through the University.

#### Refunds for Students Withdrawing from the University

Students who withdraw from the University receive a refund of a percentage of their tuition. The percentage varies as shown below according to the student’s effective withdrawal date.

**Spring and Fall Semester and Summer term**

<table>
<thead>
<tr>
<th>Official withdrawal date</th>
<th>Percentage refund</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prior to the first class day</td>
<td>100% less $15 matriculation fee</td>
</tr>
<tr>

<td>80%</td>
</tr>
<tr>
<td>During the fourth, fifth, or sixth class day</td>
<td>50%</td>
</tr>
<tr>
<td>After the sixth class day</td>
<td>none</td>
</tr>
</tbody>
</table>

Withdrawal refunds are based upon the effective date on the withdrawal form. Adds and drops are included in the calculation. In some cases, a student may receive two refund checks, one based on dropped courses and one based on withdrawal percentages for remaining courses.

A student who elects to pay their tuition on the installment plan and then withdraws from the University may still owe a portion of the tuition and fees; the installment service charge is not refundable. Likewise, a student who defers their tuition to financial aid and withdraws before aid disbursements may be responsible for a portion of the tuition. A hold will be placed on the student’s record until all financial obligations are met.

Students withdrawn by the University because of a returned check are assessed a $25 service charge, a $15 matriculation fee (p. 45), and a $50 reinstatement fee. A student withdrawn by the University for scholastic reasons, class cancellations, or other reasons receives a full refund; the matriculation fee is not charged.

A student who withdraws as a result of being called to required military service may receive a tuition refund. More information about withdrawal for active service is given in the section Withdrawal (p. 66).

A student who withdraws after receiving any cash payment from the Office of Financial Aid may be required to make full or partial repayment. Funds received through the Federal College Work-Study Program are not subject to repayment. Students should contact the Office of Financial Aid for information regarding repayment obligations.
Student Accounts Receivable initiates refunds for all eligible students who submit approved withdrawal petitions to the Office of the Registrar as described in the section Withdrawal (p. 66). A refund is issued no earlier than thirty days after the date the student paid the initial tuition bill. The refund is sent to the address specified on the withdrawal petition.

A student using Post-9/11 GI Bill® (Chapter 33) who withdraws after being certified to the Department of Veterans Affairs (VA) may be required to make full or partial repayment to the University. Students should contact Office of the Registrar Veteran Certification for information regarding repayment obligations. Student Accounts Receivable will refund tuition and fees paid by the VA to the University. Per Section 1019 of the Johnny Isakson and David P. Roe, M.D. Veterans Health Care and Benefits Improvement Act of 2020, the refund will be sent to the VA. The University will then collect the debt from the student.

Policy on Return of Unearned Tuition Assistance

The Department of Defense (DoD) Memorandum of Understanding requires The University of Texas at Austin to return unearned Military Tuition Assistance (TA) funds on a prorated basis through 60% of an academic course. The university will not return any TA funds once a student completes 60% of an academic course. Visit the Student Veteran Services TA page for more information.

Adjustments for Added and Dropped Classes

Charges for added classes must be paid by the end of the twelfth class day in the fall and spring semesters and by the end of the fourth class day in the summer. Revised tuition bills are not sent to the student when they change their schedule. It is the student's responsibility to check "My Tuition Bill" or "What I Owe" to see what payments are still outstanding. Failure to pay for additional tuition on time will result in fees being assessed to the student's tuition bill per the Financial Responsibility Statement. Students can determine what they owe by viewing My Tuition Bill.

Overpayments of tuition resulting from classes that a student drops (1) during the first twelve class days in a fall or spring semester; (2) during the first four class days in any summer term will be refunded. No refunds are made for classes dropped after these dates. Tuition refunds begin processing the week after the twelfth (or fourth) class day. They are mailed to the student’s local address or deposited into the account the student has designated if an electronic funds transfer authorization is in effect. The student may contact Texas One Stop at onestop@utexas.edu to verify account information.

Tuition Rebates for Certain Undergraduates

An undergraduate may be eligible for a tuition rebate of up to $1,000 if, at graduation, they have attempted no more than three semester hours beyond the minimum number of hours required for the degree. The student must meet the following eligibility requirements:

a. The student must not have been enrolled at any institution of higher education before the fall semester 1997.

b. At the time the student earns a first undergraduate degree, they must have attempted no more than three semester hours beyond the minimum number of hours required for the degree. Hours attempted include all courses the student has undertaken, such as transfer credit, courses the student dropped from which the student withdrew after the date the official enrollment count was taken, developmental courses taken for credit, optional internship and cooperative education courses, courses the student failed, and courses the student repeated. If the student has earned credit by examination for more than nine hours of coursework, the hours in excess of nine are also counted as hours attempted.

Courses dropped for reasons that are determined by the institution to be totally beyond the control of the student shall not be counted. Beginning with degrees awarded on September 1, 2007, or later, course credit is not counted if the student earned it to meet ROTC requirements but it is not required for the degree. Beginning with degrees awarded August 2011, or later, course credit is not counted if it is earned before graduating from high school (except for course credit earned exclusively by examination).

If the student earned a bachelor's degree and a Texas teaching certificate concurrently, required teacher education courses are not counted as hours attempted if they exceed the number of hours of free electives allowed in the bachelor's degree program.

c. The student must have been a Texas resident and must have been eligible to pay resident tuition at all times while pursuing the degree.

d. If the student received a bachelor's degree in architecture, engineering, or any other program that is determined by the Texas Higher Education Coordinating Board to require more than four years to complete, then the student must have graduated within five calendar years after first enrolling in a Texas public senior college or university. If the student's degree is in a field other than those that have been determined to take more than four years to complete, the student must graduate within four calendar years after that first enrollment.

Requirement 4 applies only to students who enrolled in a public Texas senior college or university for the first time on or after September 1, 2005.

A student who was unable to meet requirement 4 because of a hardship may seek an exception to this requirement from their dean.

An eligible student should submit a request for a rebate in their dean’s office when the student files an application for graduation. The request must be submitted before the official date of graduation. If the student’s request for a rebate is denied, they may appeal to the vice provost and registrar in the Office of the Registrar. The rebate may be reduced by the amount of any outstanding student loan owed to or guaranteed by the State of Texas.

Tuition rebate policies are governed by section 54.0065 of the Texas Education Code and by the rules of the Texas Higher Education Coordinating Board.

If a student does not qualify for a tuition rebate only because of study abroad coursework that exceeds the number of hours required for the degree, then the student may be eligible for an institutional award from the University in place of the tuition rebate. Students who are interested in this institutional award should apply for a tuition rebate. They will be considered for the institutional award if they are eligible.

Longhorn Fixed Tuition Rebates

An undergraduate who enrolled in the Longhorn Fixed Tuition program may be eligible for an additional $2,500 tuition rebate if, at graduation, they meet the following eligibility requirements:

a. Resident and Non-Resident undergraduate students must have enrolled in the Longhorn Fixed Tuition before the twelfth class day.
(fourth class day in summer) of their first semester at The University of Texas at Austin.

b. Student must not have attempted more than three semester credit hours in excess of the minimum number required to complete the degree in the catalog under which they graduate.

c. Students who want to receive the rebate must graduate within four calendar years for a four-year degree program or within five calendar years if the degree requires more than four years to complete.

d. Students must complete at least 60 semester credit hours of coursework counted toward the degree in residence.

e. Student must not have already received a bachelor's degree.

f. A student is required to apply for his/her tuition rebates through his/her dean's office prior to graduation.

g. Resident undergraduate students are eligible for an additional $1,000 rebate if they meet the criteria for the existing tuition rebate program.

Short-Term Loans

The University provides short-term tuition loans and emergency cash loans to students. Tuition loans have a one- to three-month repayment period and are applied directly to the student's tuition bill. Emergency cash loans are due in full one month from the date of issue. Web cash loans are limited to one every 30 days. Any subsequent refund of tuition is applied to a tuition or emergency cash loan balance, regardless of the due date of the loan. Questions regarding short-term tuition loans should be directed to Texas One Stop.

Payment of Fees for Students with Disabilities

The Texas Workforce Commission (TWC) and the Texas Health and Human Services Commission (HHSC) offer payment of tuition and other services to students (normally nonveterans) who have certain disabilities, if the student's vocational objective is approved by a representative of the agency. Application for vocational rehabilitation should be made to TWC.

Optional Fees

Students may select the following optional fees when they register. Those who select an optional fee for the fall semester pay the academic year rate. The spring semester rate is available only during the spring semester.

Cactus fee

The fee of $55 entitles the student to a copy of the University yearbook.

Department of Theatre and Dance Package

The fee entitles the student to a specified number of tickets to major season productions at no additional cost as long as tickets are available. The fee is $45 for the academic year or $22.50 for the spring semester. Associated performance fees may arise in the event of severe and unforeseen disruption to fall or spring programming.

Big Ticket Pass

The Big Ticket is the annual sports pass giving UT students access to all Texas Athletics home regular season events for just $200. That's over 120 home regular season events each year including football, men's basketball, women's basketball, volleyball, baseball, softball, and Texas Relays! All active full-time UT Austin students are emailed beginning in the Spring with their account information. For more information or to purchase, visit TexasSports.com/BigTicket or call 512-471-3333 (Monday through Friday 9 a.m. – 4 p.m. Central).

Parking permit fee

Class C, M, or N parking permits purchased in the fall semester enable students to park in any appropriately designated lot or area for the academic year; a permit purchased in the spring is valid through the summer semester. See the Student Parking (p. 86) page for all parking permit fees. All fees are prorated for permits purchased after September 30.

Only class C, M, and N permits may be purchased during registration. Information about other parking permits available to students is given in Student Parking (p. 86), along with more information about class C, M, and N permits.

Texas Performing Arts Bass Pass

The fee enables a student to purchase tickets for professional touring events presented by Texas Performing Arts at a discount, as long as tickets are available. The fee is $25 for season membership. For more information or to purchase, visit Texasperformingarts.org/BassPass.

Student Speaker Series fee

The fee of $2 a semester supports the Student Endowed Centennial Lectureship. The endowment is used to bring speakers to the University to lecture, teach, or meet with students.

Optional Fee Refunds

Refunds for the Cactus yearbook may be requested at the Texas Student Media office in the William Randolph Hearst Building (HSM 3.202).

Parking permit refunds may be requested at the Parking and Transportation Services office.

No refunds will be issued for The Big Ticket after the twelfth class day. Pro-rated refunds will only be issued the semester of purchase and must be requested prior to the twelfth class day for students who have terminated enrollment.

Student Insurance

Student Health Insurance Plan

All students are encouraged to have health insurance coverage. The Student Health Insurance Plan is an optional University of Texas System sponsored health insurance plan available to currently enrolled University of Texas at Austin students. Information and enrollment is available online. The Student Health Insurance Plan pays 100% for all covered services at University Health Services and includes in- and out-of-network benefits for off-campus providers and facilities (deductibles, co-pays and/or coinsurance may apply for off-campus services).

International Student Health Insurance

The Student Health Insurance Plan described above is mandatory for international students; the cost is included in the student’s tuition bill each semester. International students may be eligible to waive the cost and coverage of the Student Health Insurance Plan if they are able to present to International Student and Scholar Services an alternative insurance policy that provides benefits comparable to the Student Health Insurance Plan. Additional information about international students
and student health insurance is given in the International Student and Scholar Services (p. 82) section of this catalog.

Student Liability Insurance

Students must show evidence of student liability insurance when enrolled in field experience courses that use off-campus facilities if such facilities require the insurance.

Identification Cards

Student identification cards (ID Card)

Students attending classes on campus must obtain a University photo identification card issued by the ID Center, which is located on the first floor of the Flawn Academic Center. Photos for ID Cards may be submitted online or taken in person. Visit the ID Center page for more information. The proximity-enabled photo ID card is needed for many purposes, including use of the libraries and University Health Services and access to residence halls and other University buildings. ID cards may also be used for purchases at stores that accept Bevo Pay and for admission to athletic and other special events.

Students receive their first ID card at a cost of $10. This ID card is intended to be used throughout the student’s enrollment at the University. It is not replaced unless changes in data are required, the card is defective or damaged through normal wear and tear, or the card is lost or stolen. In some cases, an additional $10 replacement fee may apply. Students should report lost or stolen ID cards; found cards should be returned to the ID Center on the first floor of the Flawn Academic Center.

University community members are expected to maintain control and possession of their photo ID cards and to have them in their possession whenever they are on University grounds. The ID card should not be loaned to others, and its benefits are not transferable. Those who lend their cards or use them for fraudulent purposes are subject to disciplinary action. More information is available in the University Identification Card Policy.

Faculty/staff identification cards

The ID Center provides all faculty and staff members with an official University ID card. The card allows access to certain buildings and can be used as a campus library card. Upon loss of eligibility, the individual’s ID card must be surrendered to an employee’s supervisor, Human Resource, or the ID Center. More information about ID cards is available on the ID Center page.

Obtaining an ID Card

To obtain an identification card, visit utexas.edu/idcenter and scroll down to UT ID Card Online Photo Submission. For more information, please visit the ID Center page.

Fees for Nonstudents

Auditor’s fee

A fee of $20 a course is required of individuals not registered at the University who wish to audit one or more courses. In accordance with section 54.210 of the Texas Education Code, a person 65 years of age or older may audit a course without paying the fee if space is available. More information about auditing a course is given in Auditing a Course (p. 32).

Library card fee for non-University borrowers

Libraries are open to the public for use of materials. Adult Texas residents who are not members of the University community may borrow materials for home use by purchasing a courtesy borrower card at the Courtesy Borrower Services Desk at the Perry-Castañeda Library, entrance level. A photo ID and proof of Texas residence are required at the time of purchase. The fee may be waived for current members of the Texas Exes, for users who present valid TexShare cards from libraries participating in the TexShare Card Program, and for other users included in reciprocal borrowing agreements in which the University Libraries participates. More information on fees and waivers is published by the University Libraries. Card expiration dates are determined by the period of enrollment, membership, or appointment.

The Big Ticket guest pass for football season option

Guest season tickets for football are currently not available. More information is available on the Texas Longhorn Athletics website.

Recreational and facility use fees

Recreational Sports memberships, which allow access to University recreational facilities, are available to current faculty and staff members, UT retirees, UT alumni, non-UT and minor children. The recreational facilities are Gregory Gymnasium, the Gregory Gymnasium Aquatic Complex, the Recreational Sports Center, Bellmont Hall, Caven Lacrosse and Sports Center at Clark Field, and the Charles Alan Wright Fields at the Berry M. Whitaker Sports Complex. Below are RecSports membership fees. Additional information is available from the Recreational Sports Membership and Guest Services Office, GRE 2.200. A $15 replacement fee is charged for RecSports identification cards. Find more information at https://www.utrecsports.org/.

8. Children 17 and under must have adult supervision at all times; certain restrictions apply.

9. Consultants, lecturers, or others with a clearly defined connection with a University agency or program on a short-term basis. Additional information is available from Recreational Sports.
Academic Policies and Procedures

Academic Advising

The University of Texas at Austin views sound academic advising as a significant responsibility in educating students. Academic advisors assist students in developing intellectual potential and exploring educational opportunities and life goals. Many people in the campus community contribute to the advising process, including faculty, staff, students, and professional advisors. Through the relationship established between advisor and student within a friendly, helpful, and professional atmosphere, a student has the opportunity to learn about educational options, degree requirements, and academic policies and procedures; clarify educational objectives; plan and pursue programs consistent with abilities, interests, and life goals; and use all resources of the University to the student’s best advantage.

Ultimately, the student is responsible for seeking adequate academic advice, for knowing and meeting degree requirements, and for enrolling in appropriate courses to ensure orderly and timely progress toward a degree. Frequent advisor contact provides students with current academic information and promotes progress toward educational goals. The University supports that progress and encourages effective academic advising campus-wide.

The following terms are used throughout the Academic Policies and Procedures section.

Urgent. An event that happened after or immediately before the deadline, typically mid-semester or shortly thereafter, that was reasonably unforeseeable and beyond the student’s control. This event must have either prevented the student from meeting the deadline or significantly altered the student’s ability to successfully complete the class. Consideration will be given if the event or condition occurred before the deadline but significantly worsened after the deadline and the worsening of the condition prohibited the student from successfully completing the class.

Substantiated. The student must have credible documentation to corroborate the claims made in the appeal. This documentation may include, but is not limited to, documents from a law enforcement agency, court, or other governmental agency, hospital records or signed statements from physicians, and the bereavement records or obituaries.

Non-academic. The reason must be related to some issue outside the normal academic work, such as the onset of a major illness, accident, or sudden death of a family member. Any reasons having to do with the actual performance in the class will be considered academic.

Credit Value and Course Numbers

The Semester Hour

The credit value of courses is expressed in semester hours. Most courses are designed to require approximately three hours of work a week throughout the semester for each semester hour of credit given; that is, for each hour a class meets, an average of two additional hours of preparation is expected of the student. The time requirement in the laboratory, field, or studio varies with the nature of the subject and the aims of a course, so there is no fixed ratio of laboratory to class hours.

Most courses meet three hours a week in the fall and spring semesters and have a credit value of three hours. In a six-week summer term, courses meet seven and a half hours a week for three semester hours of credit. Fall and spring semester classes that meet on Monday, Wednesday, and Friday are scheduled for an hour (50 minutes with a 10-minute interval between classes); classes that meet on Tuesday and Thursday are scheduled for an hour and a half (75 minutes with a 15-minute interval between classes). Monday/Wednesday/Friday classes normally begin on the hour and are dismissed after 50 minutes; Tuesday/Thursday classes normally begin on the hour or half-hour as appropriate and are dismissed after 75 minutes. Summer classes normally are scheduled every day for an hour and a half (75 minutes with a 15-minute interval between classes).

Course Numbers

Each field of study taught at the University is identified by a name and a one-, two-, or three-letter abbreviation. Lists of fields (p. 180) are included in the General Information Catalog. Each course in the field is identified by a number made up of three digits, which may be followed by a letter. Except in the Dell Medical School, the first digit of the course number indicates the credit value of the course in semester hours. Courses numbered 201 through 299 have a value of two semester hours; 301 through 399, a value of three semester hours; and so on. A zero as the first digit indicates that the course is noncredit. Except in the School of Law, and the Dell Medical School, the second and third digits of the course number indicate the rank of the course; if they are 01 through 19, the course is of lower-division rank; if 20 through 79, of upper-division rank; and if 80 through 99, of graduate rank.

Courses that have the same field of study abbreviation and the same course number, but differing credit values, may not both be counted for credit unless the course is designated as repeatable for credit. For example, Mechanical Engineering 136N and 236N may not both be counted because they are substantially the same; however, English 326K and 326L may both be counted.

A course number ending with the letter A designates the first half of a two-semester course; B, the second half. For example, Music 612A is the first half of Music 612; Music 612B, the second half. A student who completes half of a two-semester course earns half the semester-hour value of the course; for example, Music 612A has a value of three semester hours. A course number ending with the letter X designates the first third of a three-semester course; Y, the second third; and Z, the last third. Each third of the course has one-third the semester-hour value of the course as a whole.

Classification of Students

Undergraduate students are classified as freshmen, sophomores, juniors, or seniors, based on the number of semester credit hours passed and transferred, regardless of the hours’ applicability toward a degree. Semester hours used to determine classification include coursework completed in residence; transferred credit; and credit by examination, extension, and correspondence. A student is a freshman until 30 hours have been accepted; a sophomore until 60 hours have been accepted; a junior until 90 hours have been accepted; and a senior until graduation. Freshmen and sophomores are referred to as lower-division students; juniors and seniors, as upper-division students.

Core Curriculum

All students pursuing an undergraduate degree at the University must complete the forty-two-hour statewide Core Curriculum.

The list of courses students should choose from to fulfill their Core Curriculum requirements is updated annually and published here. Students should consult the Course Schedule in order to see the Core Curriculum course offerings in any given semester. For more information on Core Curriculum requirements please see the Undergraduate College...
chapter of the Undergraduate Catalog or visit the Core Curriculum requirements website.

Core Area

First-year Signature Course
One of the following courses, completed during the student's first year in residence:
> Undergraduate Studies 302, 303

Students in the Plan II Honors Program may complete this requirement by taking Tutorial Course 302.

English Composition and Writing Flag
Six hours are required.
> Rhetoric and Writing 306

Nonnative speakers of English may take Rhetoric and Writing 306Q instead of Rhetoric and Writing 306. Students in the Plan II Honors Program may take English 303C or Tutorial Course 303C instead of Rhetoric and Writing 306.
> A three-hour course with a Writing Flag designation

The Writing Flagged course counted toward this area of the Core Curriculum may also be used to satisfy other Flag and major requirements outside the Core Curriculum, but may not be used to satisfy any other requirement of the Core Curriculum.

Humanities
One of the following courses:
> English 316L, 316M, 316N, 316P

Students in the Plan II Honors Program may complete this requirement by taking English 303D or Tutorial Course 303D.

American and Texas Government
Six hours are required. This coursework partially fulfills the legislative requirement. ROTC courses may not be substituted for the Core Curriculum courses in government.
> Government 310L is required for all students and
> Government 312L, 312P, 305C, or 306C may be used to satisfy the second half of this requirement.

Rules prescribing which pairs of in-residence and transferred government coursework will fulfill the legislative requirement are very strict. In order to ensure coursework combinations are consistent with the legislative requirement, studentsshould consult the#Office of Admissionswebsite or the current Core Curriculum course list on the Undergraduate College website for guidance before choosing courses to pair for this requirement.

United States History
Six hours are required; three hours may be in Texas history. This coursework partially fulfills the legislative requirement. ROTC courses may not be substituted for the Core Curriculum courses in history.
Any two of the following courses may be counted:
> African and African Diaspora Studies 320C*
* Courses marked with an asterisk focus on Texas history.

Social and Behavioral Sciences
One of the following courses:
> Advertising 319
> African and African Diaspora Studies 303, 324E
> Anthropology 302, 305, 307, 318L
> Core Texts and Ideas 302, 365
> Curriculum and Instruction 312, 319
> Economics 301, 304K, 304L
> Educational Leadership and Policy 354L
> Geography 305, 306C, 319
> Health and Society 301
> History 329U
> Human Development and Family Sciences 304, 304H
> Human Dimensions of Organizations 301
> Kinesiology 311K
> Linguistics 306, 312D, 312E
> Mexican American Studies 301, 309
> Psychology 301, 306
> Radio-Television-Film 303C
> Religious Studies 310
> Social Science 302C, 302D, 302E, 302F
> Special Education 303

Mathematics
One of the following courses:
> Advertising 309R
> African and African Diaspora Studies 302M, 350
> Educational Psychology 308
> Government 350K
> Mathematics 302, 305G, 408C, 408K, 408N, 408Q, 408R
> Philosophy 313
> Psychology 317L
> Sociology 317L
> Statistics and Data Sciences 301, 302F, 320E, 320H, 325H

Students in the Plan II Honors Program may complete this requirement by taking Mathematics 310P.

Natural Science and Technology, Part I
Two of the following courses:
> Anthropology 301, 304, 304T
> Chemistry 301, 301C, 301N, 302, 302C, 302N
> Geography 401C, 301K, 404E
> Marine Science 307, 308
> Marine Science 307, 308
> Nutrition 306
> Science 365

University duplication rules prohibit some classes from counting together. Check the UGS website for more information.

Natural Science and Technology, Part II

Courses listed under Natural Science and Technology, Part I may be counted toward this requirement; the following courses may also be counted:
> Computer Science 302, 303E, 312, 314H
> Electrical and Computer Engineering 302, 302H
> Engineering Studies 301

General Information 2023 - 2024 01/05/24
Visual and Performing Arts

One of the following courses:
> American Studies 330
> Architecture 308, 312C, 318K, 318L, 342C
> Arts and Entertainment Technologies 304, 336C
> Classical Civilization 301, 302, 303, 307C, 307D
> Core Texts and Ideas 350, 351
> Design 308
> English 310F, 310G, 310S, 321P, 379P
> Fine Arts 308, 313C
> Journalism 308S
> Mexican American Studies 315
> Philosophy 317K, 346K
> Radio-Television-Film 306
> Religious Studies 346M

Total 42

The Texas Success Initiative

The Texas Success Initiative (TSI) is a state-mandated program designed to improve student success in college. There are two components of the program: (1) an assessment to diagnose students’ basic skills in reading, mathematics, and writing and (2) developmental instruction to strengthen academic skills that need improvement.

Developmental instruction options include a co-requisite model under which students concurrently enroll in a developmental studies course and credit-bearing course for each subject area for which the student is referred to developmental coursework. Co-requisite courses are available only to students who meet both Texas Success Initiative (TSI) eligibility and specific program requirements.

All non-exempt students are required by law to take the TSI Assessment (TSIA), which is the only college-readiness assessment approved by the Texas Higher Education Coordinating Board. Students admitted to The University of Texas at Austin may register to take the TSIA by completing the Texas Higher Education Coordinating Board. Students admitted to The University of Texas at Austin may register to take the TSIA by completing the Texas Higher Education Coordinating Board. Students admitted to The University of Texas at Austin may register to take the TSIA by completing the Texas Higher Education Coordinating Board.

A student may be exempt from all TSI requirements under any one of the following conditions:

- The student has attended another Texas public institution of higher education and has been determined to have met readiness standards by that institution.
- The student has transferred to the University from a private or independent institution of higher education, an accredited out-of-state institution of higher education, or an international institution of higher education and has completed college-level coursework, as determined by the University.

A student may be exempt from one or more TSI requirements under the following conditions:

- For SAT scores:
  - A student with a math score of 530 or higher is exempt from the math requirement.
  - A student with an Evidence-Based Reading and Writing (EBRW) score of 480 or higher is exempt from the English Language Arts and Reading (ELAR) requirement.

- For ACT administered prior to February 15, 2023:
  - A student with an ACT composite score of at least 23 and a math score of at least 19 is exempt from the math requirement.
  - A student with an ACT composite score of at least 23 and an English score of at least 19 is exempt from the English Language Arts and Reading (ELAR) requirement.

- ACT administered on or after February 15, 2023:
  - A combined score of 40 on the English and Reading (E+R) tests is exempt from the English Language Arts and Reading (ELAR) requirement.
  - A score of 22 on the mathematics is exempt from the math requirement. There is no composite score.

- For STAAR scores:
  - A student with a score of at least Level 2 on the STAAR English III end-of-course (EOC) is exempt from the English Language Arts and Reading (ELAR) requirement.
  - A student with a score of at least Level 2 on the STAAR Algebra II end-of-course (EOC) is exempt from the math requirement.

- For GED scores:
  - A student with a minimum score of 165 on the Mathematical Reasoning subject test is exempt from the math requirement.
  - A student with a minimum score of 165 on the Reasoning Through Language Arts (RLA) subject is exempt from the English Language Arts and Reading (ELAR) requirement.

- For HiSET scores:
  - A student with a minimum score of 15 on the Mathematics subtest is exempt from the math requirement.
  - A student with a minimum score of 15 on the Reading subtest and a minimum score of 15 on the Writing subtest, including a minimum score of 4 on the essay, is exempt from the English Language Arts Reading (ELAR) requirement.

SAT, ACT, STAAR, GED, and HiSET scores used to support an exemption must be less than five years old. Students who fail to meet the minimum passing standards on the TSI are required to enroll in a developmental education course designed to strengthen skills in reading, writing, or mathematics. Students will meet with a TSI advisor to decide which course is best suited to their individual needs. For further information, students may visit the Texas Success Initiative website.

Quantity of Work Rule

The policies described in this section apply to undergraduate, graduate, Pharm.D., and law students.
Full-Time and Half-Time Enrollment

A student's enrollment status is determined by the number of credit hours for which the student is enrolled in residence in a semester. University Extension semester-based coursework is included in the total along with in-residence coursework. Semesters include multiple subterms. Fall and Winter Terms are subterms included in Fall Semester enrollment while Spring and May Terms are subterms included in Spring Semester enrollment. First Term, Second Term, Nine-Week Term, and Summer Term are subterms included in Summer Semester enrollment. The following table shows the minimum number of hours required.\(^1\)

### Enrollment Status

#### Fall or Spring

<table>

</tr>
<tr>
<td>Half-time</td>
<td>6 hours</td>
<td>2 hours</td>
<td>2 hours</td>
<td>3 hours</td>
</tr>
</tbody>
</table>

A student is also considered to be enrolled full-time if enrolled in a cooperative engineering course, taking a reduced course load because of a documented disability, or enrolled in a specific course that carries no hours of credit. An undergraduate enrolled in at least six hours of coursework in the student's semester of graduation may also be considered full-time; the student’s dean must submit a request to the registrar’s office that the student’s enrollment status be changed from half-time to full-time.

### Course Load Reduction

Approval of requests for course load reductions are always the prerogative of the academic dean when medical reasons are given. Applications to request consideration of a course load reduction should be submitted to Disability and Access. Disability and Access will request a recommendation from the UHS executive director and chief medical officer. Once the executive director and chief medical officer signs the application, UHS will submit it to the appropriate dean's office for a final decision.

1. Graduate Quantity of Work rules apply to the Pharm.D. program.

### Maximum Hours in the Fall and Spring Semesters

**Undergraduates.** An undergraduate student may not register for more than 17 semester hours in any fall or spring semester without the approval of their dean, unless the degree plan published in the undergraduate catalog for the student's major specifies otherwise.

**Graduate students.** The maximum course load for a graduate student is 15 semester hours. A heavier course load must have the recommendation of the graduate advisor and the approval of the graduate dean. It is permitted only under exceptional circumstances.

**Pharm.D. students.** A Pharm.D. student must register for a minimum of 12 semester hours and may not register for more than 17 semester hours in any fall or spring semester without the approval of their dean, unless the degree plan published in the undergraduate catalog for the Pharm.D. major specifies otherwise.

**Law students.** The maximum course load for a law student is 16 semester hours. In rare situations, the Assistant Dean for Student Affairs may, for good cause shown, permit a student to register for a maximum of 17 hours. Law students may take courses in other schools and colleges only with the express prior permission of the dean. Normally, a student may not take a course in another school or college, except an ROTC course, in addition to the maximum load in the School of Law.

### Maximum Hours in the Summer Semester

**Undergraduates.** Except as permitted by their academic dean, no undergraduate student may register for more than 14 semester hours in a 12 week summer semester or for more than eight semester hours in either six-week term. A student whose maximum period of summer registration is nine weeks may not register for more than ten semester hours except as permitted by their academic dean.

**Graduate students.** The maximum course load for a graduate student is 12 semester hours in a 12 week summer semester. A heavier course load must have the recommendation of the graduate advisor and the approval of the graduate dean. It is permitted only under exceptional circumstances.

**Pharm.D. students.** A Pharm.D. student must register for a minimum of 3 semester hours in a 12 week summer semester, beginning the summer preceding the third professional year.

**Law students.** The maximum course load for a law student is 16 semester hours in a 12-week summer semester. In rare situations, the Assistant Dean for Student Affairs may, for good cause shown, permit a student to register for a maximum of 17 hours. Law students may take courses in other schools and colleges only with the express prior permission of the dean. Normally, a student may not take a course in another school or college, except an ROTC course, in addition to the maximum load in the School of Law.

### Minimum Hours in the Fall and Spring Semesters

**Undergraduates.** An undergraduate student may not carry fewer than 12 semester hours of coursework without the approval of their academic dean. Failure to obtain approval for a reduced course load may jeopardize the student's continuance in school. A student who is a minor
must present a written statement from a parent or guardian accepting the conditions under which permission to carry a reduced course load is granted.

An international undergraduate student must have written permission from the International Office as well as from their dean to carry fewer than 12 hours.

**Graduate students.** Course load requirements for graduate student academic employees are given on that page in this section. Graduate students who are not also academic employees are not subject to minimum course load requirements.

An international graduate student must have written permission from the International Office as well as from their dean to carry fewer than nine hours.

**Pharm.D. students.** A Pharm.D. student must register for a minimum of 12 semester hours in any fall or spring semester.

**Law students.** A first-year law student may not register for less than 16 hours in the first fall or spring semester nor less than 14 hours in the second fall or spring semester without special permission of the Assistant Dean of Student Affairs. A minimum load of 10 semester hours is required of all other law students with 20 semester hours of credit or more.

**Minimum Hours in the Summer Semester**

There is no minimum course load in the summer semester.

**Undergraduate Student Employees**

An undergraduate student's combined University employment and semester-hour course load may not exceed 40 hours a week in any semester. Any academic unit may require a lower work-study load of students in the unit who are employed by the University. A student who wishes to exceed the maximum work-study load set by their college must have the approval of the dean of the college. More information is available at the student employment website.

**Graduate Student Academic Employees**

A “graduate student academic employee” is a graduate student who is also employed by the University under one of the following titles: assistant instructor, teaching assistant, assistant (graduate), academic assistant, graduate research assistant, and tutor (graduate). To hold one of these positions, a student must have no unfulfilled conditions imposed by the Graduate School, must be in good academic standing, and must be making satisfactory progress toward a degree. Graduate student academic employees must be registered for at least nine semester hours in a fall or spring semester or at least three semester hours in a summer semester, in any combination of summer terms.

Student employment at UT Austin in any student academic job title may not total more than 20 hours a week during the student’s first two fall or spring semesters of enrollment or more than 30 hours a week during subsequent fall or spring semesters. International student employment may not total more than 20 hours a week during any fall or spring semester without the approval of the International Office and the graduate dean.

Graduate student academic employees may not accept payment from a student for tutoring services, except on the recommendation of the department chair and with the approval of the graduate dean. If approved, the student may tutor only in a course with which they have no connection.

**Evaluation**

**Overview**

Faculty members are free to develop their own methods of evaluating the performance of students in their classes, both undergraduate and graduate, but they are required to make the methods of evaluation to be used known in writing by the first class day. Responsibility for assuring adequate methods of evaluation rests with departmental faculties and is subject to administrative review. In courses with multiple sections, departments should provide for necessary coordination. Materials used in evaluating a student’s performance must be collected by the instructor at or before the regularly scheduled final examination. The final examination is a common method of final evaluation in courses.

**Grades**

Letter grades are used to record the instructor’s evaluation of student performance in a course. The following grades are used: A, A-, B+, B, B-, C+, C, C-, D+, D, D-, and F.

To receive credit for a course, an undergraduate student must earn a grade of at least D-. To include a course in the Program of Work for a graduate degree, a graduate student must earn a grade of at least C. More information about the Program of Work is given in the Graduate Catalog. In addition to earning adequate grades in courses, undergraduates must have a cumulative University grade point average of at least 2.00 to maintain satisfactory progress toward a degree; graduate students must maintain a graduate grade point average of at least 3.00. Information about these requirements is given in the section Scholastic Probation and Dismissal (p. 69). Computation of the grade point average is explained in the section Computation of the Grade Point Average (p. 61).

Grades are given by semester; however, in a course extending through two or three semesters, credit is not counted toward the degree until all semesters have been completed.

Members of the faculty are not authorized, without the academic dean’s approval, to withhold a final grade or to defer reporting a final grade at the end of the semester other than by the use of the symbol X described in Symbols (p. 60). If a grade is withheld without the dean’s approval, the grade may not be added to the official records later without the written approval of the academic dean. Issues involving withholding or deferring grades for graduate students are handled by the deans of the colleges and schools.

After a grade has been reported to the registrar, it may not be changed unless an error was made by the instructor. A college or school may approve an appeal for change of final grade for a semester prior to the previous fall or spring semester, but only for the most compelling nonacademic reasons. If approved, the appeal must be signed by the dean or the appropriate associate dean of the college/school. For graduate students, this is the graduate dean or the associate dean for graduate student services.
Symbols

Under specific conditions, instructors may use a symbol rather than a letter grade to report a student's standing in the semester's work. The following symbols are used:

<table>
<thead>
<tr>
<th>Symbol</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>CR</td>
<td>Credit</td>
</tr>
<tr>
<td>NC</td>
<td>No credit</td>
</tr>
<tr>

</tr>
<tr>
<td>U</td>
<td>Unsatisfactory</td>
</tr>
<tr>
<td>#</td>
<td>Grade was not submitted in time for this report</td>
</tr>
<tr>
<td>Z</td>
<td>Student is registered on the pass/fail or credit/no credit basis</td>
</tr>
</tbody>
</table>

Symbol X: Temporary Delay in Reporting the Final Course Grade

A student is expected to complete a course, including a self-paced course, in a single fall or spring semester, summer semester, or summer term. If the course is not completed as expected, the student normally will not be given additional time to complete it, or allowed to complete additional work to achieve a better grade. In rare instances, for nonacademic reasons and at the discretion of the instructor, a temporary delay of the final course grade, symbol X, may be recorded.

Improper uses of the symbol X

A student must not be assigned the symbol X to provide (1) the opportunity to raise a grade for any reason other than the approved reasons cited below; (2) time to prepare coursework in addition to that assigned the entire class; or (3) time to repeat the entire course.

Approved uses of the symbol X

The symbol X is not issued for student or faculty convenience; it may be issued for one of the following reasons only in the case of compelling, nonacademic circumstances beyond the student's control.

a. Missing the final examination. The student is unable to take a final examination because of illness or for another nonacademic reason. A physician's statement or other satisfactory verification is required.

b. Incomplete classroom assignment. The student has not been able to complete the required class or laboratory assignments for a reason other than lack of adequate effort. A request for temporary delay of the final course grade because of incomplete class or laboratory work can be made only if the student has a passing average on the classwork or laboratory work already completed and has taken and passed the final examination (unless a final examination is not given in the course or the student is unable to take the examination for reasons indicated in the previous paragraph).

c. Reexamination petition. Only a student who has a grade average of at least C- on all classwork and laboratory work submitted before the final examination may request a temporary delay of the final course grade because the student failed the final examination, which is the examination given during the final examination period as defined in the official examination schedule. If the instructor denies the student's reexamination petition, the student's final course grade remains as originally determined. If the instructor grants the petition, and the student earns a grade of at least C- on the reexamination, then the instructor substitutes the reexamination grade for the original examination grade in determining the student's final course grade. If the instructor grants the petition, and the student earns a grade on the reexamination of less than C-, then a final course grade of F must be recorded.

Assignment of the symbol X by the registrar

If a faculty member fails to report a grade for a student, the registrar enters the symbol X; an X is also entered for a student who is given the symbol CR by the instructor when the student is not registered for the course on the pass/fail or credit/no credit basis. In either case, the student should contact the instructor promptly so that a final grade may be reported to the registrar. If no final grade is reported, the symbol X is converted to a grade of F or the symbol I as described in the following section.

Replacement of the Symbol X with a Grade or the Symbol I

Undergraduates

If an undergraduate student receives the symbol X in a course, the student must complete the requirements for the course and the instructor must report a final course grade by the last date for grade reporting in the next fall or spring semester, or an F will be recorded as the final grade in the course. The period for completion of the coursework may be extended only for unusual circumstances beyond the student's control, as recommended by the instructor and approved by the student's academic dean. A student who has received an X in a course may not register for that course again until a final grade has been recorded, unless the course is one that may be repeated for credit.

The registrar will notify the student when a grade change is recorded.

While the symbol X appears on a student's record, the course for which the symbol is recorded is not included in the student's University grade point average. When the final grade has been recorded as described above, then the course is included in the student's grade point average. More information about the grade point average is given in Computation of the Grade Point Average (p. 61).

Graduate students

If a graduate student receives the symbol X in a course, the student must complete the course requirements by the last class day in their next fall or spring semester of enrollment; the instructor must report a final grade by the last date for grade reporting in the next fall or spring semester, or an F will be reported as the final grade in the course. The period for completion of the course may not register for that course again until a final grade has been recorded, unless the course is one that may be repeated for credit.

The registrar will notify the student when a grade change is recorded.

A course for which the symbol X or I is recorded is not included in the graduate grade point average and may not be listed on the student's Program of Work. When the symbol X is converted to a grade as described above, the course is included in the graduate grade point average and may be listed on the Program of Work. More information about the graduate grade point average is given in Computation of the Grade Point Average (p. 61); more information about the Program of Work is given in the Graduate Catalog.

60 General Information 2023 - 2024 01/05/24
Symbols CR and NC

Some courses must be taken for a letter grade; others must be taken on the pass/fail or credit/no credit basis. These courses are identified in the General Information Catalog and the Course Schedule. If registration for a course is not limited to the letter-grade basis, then the student may choose to register for credit rather than for a grade. Undergraduate, Law, Medical, and PharmD students register on the pass/fail basis and earn either the symbol CR (credit) or a grade of F: graduate students register on the credit/no credit basis and earn either the symbol CR or the symbol NC (no credit).

The student should choose the pass/fail or credit/no credit option at the time of registration and may not change the grading basis in a course after the deadline given in the Academic Calendar (p. 7). Undergraduates may not change the grading basis in a course more than once.

Coursework requirements and methods of evaluation in a course must be the same for students registered on the pass/fail or credit/no credit basis as they are for students registered on the letter-grade basis.

Pass/Fail

Rules affecting registration on the pass/fail basis apply to all courses taken by an undergraduate.

An undergraduate who registers for a course on the pass/fail basis and earns a grade of D- or better is awarded the symbol CR for the course; if the student fails the course, a grade of F is awarded. If the student receives the symbol CR, the course is not included in the grade point average; if the student receives a grade of F, the course is included in the University grade point average.

Provided the following conditions are met, an undergraduate may take a limited amount of coursework on the pass/fail basis as part of the hours required for the student's degree. Other regulations may be imposed by the student's college or school.

a. The course must be in an elective subject outside the student's major field.

b. The student must have received at least 30 hours of college credit before registering for any course on the pass/fail basis, unless the course is offered only on the pass/fail basis.

c. The student may take no more than two courses a semester on the pass/fail basis.

Students in the College of Liberal Arts and students pursuing the Bachelor of Arts in the College Natural Sciences may take up to 16 semester hours of classroom or correspondence work in elective courses on the pass/fail basis. Students in the College of Natural Sciences pursuing a Bachelor of Science or a Bachelor of Science and Arts may take up to six semester hours of classroom or correspondence work in elective courses on the pass/fail basis. For students in the College of Natural Sciences pursuing a B.S. in Medical Laboratory Science (MLS) degree, hours taken in fulfillment of MLS clinical education program requirements may exceed the limit on pass/fail hours. Plan II students may take up to 19 semester hours in elective courses on the pass/fail basis. All other undergraduates may take up to five one-semester courses, including correspondence courses, on the pass/fail basis.

If students decide to major in a subject in which they have taken a course on the pass/fail basis, it is the prerogative of the department to decide whether or not the course will count toward degree requirements.

Each department may offer as many as two courses in its major entirely on the pass/fail basis.

Credit by examination

Undergraduates may earn credit by exam on the pass/fail basis in required courses. Accepting credit by exam with the symbol CR does not reduce the number of elective courses for which the student may register on the pass/fail basis. (More information about credit by examination is given in Course Placement and Credit by Examination (p. 62).)

Credit/No Credit

Rules affecting registration on the credit/no credit basis apply to all courses—undergraduate, graduate, and professional—taken by a graduate student.

The student must have the graduate advisor's approval to take a course on the credit/no credit basis. There is no limit on the number of courses a graduate student may take on this basis. However, up to 20 percent of the hours on the Program of Work for a master's degree may have been taken on the credit/no credit basis, and no more than a comparable portion of the Program of Work for a doctoral degree. (Additional information about the Program of Work is given in the Graduate Catalog.)

Performance at the level of C or above is required to earn credit (CR) for a course taken on the credit/no credit basis. Courses taken on the credit/no credit basis are not included when the grade point average is computed.

Symbols S and U

The symbols S (satisfactory) and U (unsatisfactory) are assigned only in developmental studies (DEV) courses. These courses are not included in the student's grade point average.

Repetition of a Course

If a student repeats a course and has two or more grades, all grades and all semester hours are used to calculate the University grade point average and to determine the student's scholastic eligibility to remain in school. The official grade in a course is the last one assigned.

Students enrolled in any of the following colleges and schools may not repeat for credit a course in which they have earned a grade of C- or better: the McCombs School of Business, the Moody College of Communication, the Cockrell School of Engineering, the College of Liberal Arts, the College of Natural Sciences, the School of Nursing, and the College of Pharmacy.

Computation of the Grade Point Average

While a student's performance in a course is represented by a letter grade, a grade point average is used to represent the student's academic performance more broadly. For undergraduates, the official grade point average is called the cumulative University grade point average; the official grade point average for graduate students is called the graduate grade point average. Official grade point averages are calculated by the registrar and appear on the student academic record maintained by the registrar.

The following numerical equivalents of letter grades are used in the calculation of both the cumulative University grade point average for undergraduates and the graduate grade point average:

<table>
<thead>
<tr>
<th>Letter grade</th>
<th>Grade points</th>
<th>Letter grade</th>
<th>Grade points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.00</td>
<td>C</td>
<td>2.00</td>
</tr>
<tr>
<td>A-</td>
<td>3.67</td>
<td>C-</td>
<td>1.67</td>
</tr>
<tr>
<td>B+</td>
<td>3.33</td>
<td>D+</td>
<td>1.33</td>
</tr>
</tbody>
</table>

2023-2024 General Information Catalog ▶ General Information 2023 - 2024 61
Course Placement and Credit by Examination

Students at the University may earn credit and determine course placement by examination. Many exams are optional, while others are recommended or required for enrollment in certain courses. Most serve as a basis for both placement in an appropriate level course as well as course credit.

Any current, former, or prospective University student may attempt to earn credit by exam for any required or elective undergraduate course, provided the student has neither passed nor failed that course at the University or at any other collegiate institution. The sole exception to this policy is when a student has received transfer credit for a course with fewer semester hours than the corresponding University course carries; in those instances, the student may earn credit by exam for the University course. Additional eligibility requirements may be established by the academic department awarding credit, with the approval of the dean of the college or school. Information about additional requirements is available from Testing and Evaluation Services (p. 62) (TES) and from the academic department.

Credit earned by examination satisfies degree requirements in many of the same ways as credit earned by passing a course, except that it does not count as credit earned in residence and does not award any Skills and Experience Flags associated with a given course. Credit earned by examination does not jeopardize eligibility for scholarships that require freshman standing. Credit earned by examination is designated on the student’s transcript with a grade of ‘CR’, and does not impact the student’s GPA. The student’s official transcript does not reflect unsuccessful attempts to earn credit by examination.

A student’s academic dean may approve an exception to the course placement and credit by exam policies for compelling academic reasons. If the exception involves the student’s eligibility to be tested or to receive credit by exam in a particular course, the exception must also be approved by the department in which the course is offered.

All tests administered at the University for course placement and credit by exam require a fee. Information, including the testing schedule, eligibility requirements, test descriptions, sample questions, and the amount of test fees (including a $25 nonrefundable test registration fee), is available on the Testing and Evaluation Services (TES) website.

Claiming Placement and/or Credit

A student who has earned a credit-eligible score by exam has the option of using the score as a course prerequisite by petitioning for (claiming) "placement," or by claiming "credit." If the student claims "credit," TES reports the claimed course to the Registrar’s Office and the course then becomes part of the student’s academic record. Credit by examination cannot be reported to the Registrar for former students who are prohibited from enrolling in Texas public colleges and universities due to noncompliance with Texas Success Initiative regulations. Students currently on academic dismissal may not claim credit by examination. If the student wishes to use the test score as a course prerequisite without earning credit hours for the prerequisite course, they may use the qualifying score, after consulting their academic advisor, to enroll in the subsequent course. In this case, the course does not appear on the student’s academic record. A student who uses a test score for placement only may later petition for course credit, but once the score has been used for course credit it may not be changed to placement only.

A fee is assessed for using the test score for either placement or credit. The Testing and Evaluation Services (TES) website gives complete instructions for petitioning and paying for placement and/or credit.
Although prospective students may take examinations to establish their eligibility to receive credit or placement, credit is awarded only to officially enrolled students and former students. Enrollment on the twelfth class day of a semester or the fourth class day of a summer term constitutes official enrollment.

In deciding whether to claim credit by exam, students should consider the impact of the credit on their eligibility for a tuition rebate (p. 33) and the possibility that they will be charged additional tuition (p. 33) if they have excessive credit. They should also consider their program requirements and recommendations, future graduate or professional education plans, as well as any residency requirements. It is strongly advised that a student speak with their academic advisor prior to claiming credit by exam.

Examinations for Course Placement

Most of the tests mentioned below are given on the University campus immediately before each semester and before the first summer term, and at least once each fall and spring semester. General testing periods for the exams listed below may be found on the Yearly Testing Schedule on the TES website.

a. Placement in languages. Foreign language placement tests serve not only to determine the level of work appropriate for students but also as the basis for credit by exam, which normally may be earned in lower-division courses. Credit by exam may be used to absolve a high school unit deficiency or to fulfill degree requirements. Language credit that exceeds degree requirements often may be used as elective credit.

For course placement and credit by examination, the University uses the University of Wisconsin College-Level Placement Test in French; the College-Level Examination Program (CLEP) Test in German Language: Levels 1 and 2; and The University of Texas at Austin tests for credit in American Sign Language (ASL), Chinese, Hindi, Japanese, Korean, Latin, Polish, Portuguese, Russian, and Spanish. Information about the language tests and in some cases, sample questions and recommended preparation materials, are available on the TES website and from the TES office.

Students who have taken either a College Board Advanced Placement (AP) Examination in Chinese, French, German, Italian, Japanese, Latin, or Spanish or any International Baccalaureate (IB) Examination in a foreign language do not need to take the corresponding recommended placement test, because the AP or IB examination results can be used for placement. Students should contact TES for information about foreign language tests not listed in this section.

Students with transfer credit in a foreign language are encouraged to take the placement test before enrolling in further coursework in that language; however, in most languages, students with transfer credit are not required to take the placement test.

Students without transfer credit or eligible AP or IB scores but with knowledge of American Sign Language or a foreign language, however acquired, are strongly encouraged to take the associated placement test before enrolling in a course in that language. However, some languages, such as Spanish and Chinese, require students to take the placement test before enrolling in a language course. Please contact the TES office for additional information.

b. Placement in mathematics. Students whose degree programs allow credit for Mathematics 305G may take the UT Exam for M305G (Pre-Calculus) Credit. Students that need calculus for their major must take the UT Math Assessment (UTMA) before enrolling in a calculus course. For more information about the UT Math Assessment, including which students must complete the exam and a list of exemptions, please visit the College of Natural Sciences website.

Additional Examinations

The following tests serve as bases for placement and credit by examination at the University.

a. Placement in rhetoric and writing. A student must have an eligible score on the ACT Writing or the SAT Writing and Language Test to receive credit for Rhetoric and Writing 306. Students first admitted to UT Austin as freshmen who were first enrolled at the University in the summer 2021 and subsequent semesters may be eligible to use a qualifying score on the essay portion of the TSI Assessment (TSIA) to earn credit for Rhetoric and Writing 306. A score on the Advanced Placement (AP) Examination in English Language and Composition or transfer credit for Rhetoric and Writing 306 may also be used for credit and placement. Additional information is available from TES.

International students whose native language is not English must submit satisfactory scores on the Internet-based Test of English as a Foreign Language (TOEFL iBT) for admission to a lower-division rhetoric and writing course.

b. College Board Advanced Placement (AP) Examinations. Credit is granted to students who have earned satisfactory scores of 3 or higher on the College Board Advanced Placement Examinations in Art (Art History and Studio Art), Biology, Chemistry, Chinese, Computer Science, English, European History, French, German, Human Geography, Italian, Japanese, Latin, Macroeconomics, Mathematics, Microeconomics, Music Theory, Physics, Psychology, Spanish, Statistics, United States Government and Politics, United States History, and World History. The AP Examination in US Government and Politics is supplemented with test items on Texas government; these additional items are administered only at the University. Advanced Placement Examinations are offered only once each year, in May, at specific high schools across the country. More information about AP Examinations is published by the College Board.

c. College-Level Examination Program (CLEP). The CLEP examinations in American Government, American Literature, Calculus, English Literature, German Language: Levels 1 and 2, Principles of Macroeconomics, Principles of Microeconomics, Introductory Psychology, and Introductory Sociology are used as basis for credit by examination. The tests in American Government, American Literature, and English Literature are supplemented with items prepared by University faculty members; these items are available only on the University campus. Information about locally prepared items may be obtained from TES. All CLEP examinations used by the University as a basis for credit by exam are given on campus on an ongoing basis.

d. International Baccalaureate (IB) Higher-Level Examinations. Credit is granted by the University to students who earn satisfactory scores on the IB Higher-Level Examinations in Arabic, Biology, Biology, Chemistry, Chinese, Computer Science, Danish, Dutch, Economics, English, French, Geography, German, Hebrew, Hindi, History (concentrations in Africa, the Americas, Europe, and Islamic History), Italian, Japanese, Korean, Mathematics, Norwegian, Philosophy, Physics, Portuguese, Psychology, Russian, Social and Cultural Anthropology, Spanish, Swedish, and Visual Arts.

e. International Baccalaureate (IB) Diploma. Students who have earned an IB Diploma and enter the University as freshmen are awarded credit based on scores of 4 or higher on IB Higher-Level
Approval of requests for course load reductions are always the prerogative of the academic dean when medical reasons are given.

Applications to request consideration of a course load reduction should be submitted to Disability and Access. Disability and Access will request a recommendation from the UHS executive director and chief medical officer. Once the executive director and chief medical officer signs the application, UHS will submit it to the appropriate dean’s office for a final decision.

Adding a Class

The addition of a class is governed by the following requirements: (1) the student must obtain all required approvals; (2) the student must be eligible to take the class; (3) there must be space available in the class; and (4) the student must remain in conformity with the Quantity of Work Rule (p. 57).

Subject to these requirements, a registered student may add a class through the twelfth class day of a fall or spring semester or the fourth class day of a summer semester. Through the fourth class day of the semester or the second class day of the summer semester, the approval of the chair of the department offering the class may be required; after these dates, the approval of the chair is required for undergraduates; for graduate students, the approval of the instructor, the graduate advisor, and the graduate dean is required. In some colleges and schools, the approval of the student’s advisor and college dean is also required. Students must consult the regulations of their college or school before adding a class.

Although a college or school may permit the addition of classes through the twelfth class day of a fall or spring semester or the fourth class day of a summer semester, students are expected to be settled in their classes by the fourth class day of the fall or spring semester or the second class day of the summer semester. After the twelfth class day of a fall or spring semester or the fourth class day of a summer semester, with the approval of the student’s dean and the chair of the department offering the class, a student may add a current or past semester class (either with or without a grade) only:

1. If there was a rare or extenuating circumstance such that the student was unable to attempt to register for the class during the regular registration or add/drop access periods; or
2. When evidence exists that the student made an unsuccessful attempt to register for the class using normal registration procedures and that space was available in the class at that time.

The addition of a class for a semester prior to the current fall or spring semester must be signed by the dean or the appropriate associate dean of the college/school. For graduate students, this is the graduate dean or the associate dean for student services.

1. This section does not apply to college/school programmatic processes as typically described in the Undergraduate Catalog.

Adding and Dropping Classes

Overview

Procedures for adding and dropping classes are given in the Course Schedule. Each student is responsible for properly initiating and completing adds and drops. Information about tuition adjustments resulting from adds and drops is given in Adjustments for Added and Dropped Classes (p. 57).

Course Load Reduction

Approval of requests for course load reductions are always the prerogative of the academic dean when medical reasons are given.
In addition to other required approvals, international students must have the written consent of Texas Global (p. 82) to drop a class.

On the recommendation of the instructor and with the approval of the student's academic dean, a student may be required to drop a class at any time because of neglect or lack of preparation. Delete drops (which remove all indications of the course registration from a student's academic record) may be requested only in the cases of University error or in response to rare and extenuating circumstances. The form requesting the delete drop must be signed by the dean or the appropriate associate dean of the college or school in which the student is enrolled.

Limitations

In accordance with section 51.907 of the Texas Education Code, undergraduate students may drop no more than six classes for academic reasons. This rule applies to all students who entered a public Texas institution of higher education as first-time undergraduates in the fall semester 2007 or later.

A dropped class is counted toward the six-drop limit if the student dropped it from the thirteenth class day through the deadline to drop a class for academic reasons in a fall or spring semester or from the fifth through the last class day in a summer semester, and if the student did not drop the class for a substantiated, nonacademic reason as defined below.

Any such dropped class, for which the symbol Q is assigned, will not be considered final until any investigations of scholastic dishonesty for the class in question are resolved.

Nonacademic Reasons for Dropping a Class

A dropped class will not be counted toward the six-drop limit if it occurs for a nonacademic reason such as those listed below. The student's dean will decide, at the time the student drops a class, whether the reason for the drop is academic or nonacademic.

a. A severe illness or other debilitating condition that affects the student's ability to satisfactorily complete the course.

b. The student's responsibility for the care of a sick, injured, or needy person if the provision of that care affects the student's ability to satisfactorily complete the course.

c. The death of a person who is considered to be a member of the student's family or who is otherwise considered to have a sufficiently close relationship to the student that the person's death is considered to be a showing of good cause.

d. The required duty service as a member of the Texas National Guard or the armed forces of the United States of either the student or a person who is considered to be a member of the student's family or who is otherwise considered to have a sufficiently close relationship to the student that the person's required military service is considered to be a showing of good cause.

e. A change of the student's work schedule that is beyond the control of the student and that affects the student's ability to complete the course.

Procedures

Through the twelfth class day. From the first through the twelfth class day in a fall or spring semester, and from the first through the fourth class day in a summer semester, a student may drop a class through the registration system. If the dropped class must be taken in conjunction with another class, the student must drop the second class as well. Each student should meet with their advisor before dropping a class.

A class dropped during this period is deleted from the student's academic record. It does not count toward the six-drop limit described above.

From the thirteenth class day through the deadline to drop a class for academic reasons. From the thirteenth class day through the deadline to drop a class for academic reasons in a fall or spring semester, and from the fifth through the last class day in a summer semester, a student may drop a class only with the approval of their dean. In some colleges and schools, the approval of the student's advisor is also required. If the student is allowed to drop, the class remains on the student's academic record with the symbol Q, which identifies a drop without academic penalty. In addition, the student's dean determines whether the student is dropping the class for an academic or a nonacademic reason. If the dean determines that the reason is academic, the drop is counted toward the six-drop limit described above.

After the deadline to drop a class for academic reasons. After the deadline to drop a class for academic reasons has passed, there are only two possible ways for a student to drop a class. One way is in the case of urgent, substantiated, nonacademic reasons, which must be approved by their dean. Approved nonacademic drops that occur during this period are not counted toward the six-drop limit described above. The other way is for the student to seek approval to use the One-Time-Exception. Approved One-Time-Exception (OTE) drops that occur during this period are counted toward the six-drop limit described above. To seek either type of drop within this period a student must submit the completed OTE form to the student's dean's office by the last class day.

One-Time Exception

Undergraduate students who may not have urgent, substantiated, nonacademic reasons will be allowed to drop a single class or withdraw from the University after the deadline to drop or withdraw for academic reasons under the provisions of the One-Time Exception (OTE). The OTE may be invoked only once during the student's entire undergraduate college career regardless of the college the student was enrolled in at the time the exception was allowed. The provisions of the OTE are as follows.

General Provisions

a. The OTE does not apply to students in the Graduate School, the College of Pharmacy, the LBJ School of Public Affairs, or the School of Law.

b. A student must submit the completed OTE form to the student's dean's office by the last class day.

c. Any drop or withdrawal allowed under the OTE will be subject to the same academic and financial aid rules governing other drops or withdrawals taken during the semester.

Provisions for Drops

a. A student may not drop a class in which a final grade has been assigned. This will be verified by the student's dean's office.

b. A student may not drop a class if there are any pending investigations of scholastic dishonesty for the class in question. Any drop assigned will not be considered final until any investigations of scholastic dishonesty for the class in question are resolved.

c. Drops allowed under the provisions of the OTE will be considered academic drops and will count toward the six-drop limit. Students who have reached the six-drop limit are not eligible to use the OTE to drop a course.

Provisions for Withdrawals

a. Students who are requesting to use the OTE for a withdrawal will be allowed to withdraw regardless of current grades in classes.
b. No instructors’ signatures will be required on the form.
c. Pending scholastic dishonesty will be verified by the student’s dean’s office with the Dean of Students Office. Withdrawal will not be approved if there is a pending scholastic dishonesty case.

**Dropping a Class: Rules for Graduate Students**

With the required approvals, a graduate student may drop a class through the last class day of the semester or summer semester; after the twelfth class day of the semester or the fourth class day of the summer semester, the graduate dean’s approval is also required. If the student drops the class by the twelfth class day of the semester or the fourth class day of the summer term, the class is deleted from the student’s academic record. After this time, delete drops (which remove all indications of the course registration from a student’s academic record) may be requested only in the cases of University error or in response to rare and extenuating circumstances. The form requesting the delete drop must be approved by the graduate dean.

If the student drops the class from the thirteenth through the twentieth class day of the fall or spring semester or from the fifth through the tenth class day of the summer semester, the symbol Q appears on the academic record to indicate a drop without academic penalty. After these dates, if the student is registered on the letter-grade basis, the class instructor assigns the symbol Q or a grade of F; if the student is registered on the credit/no credit basis, the symbol NC is recorded.

A student who is in warning status for failing to maintain a 3.00 grade point average may not drop a class without the recommendation of the graduate advisor and the approval of the graduate dean.

International students, in addition to obtaining the required approvals, must be advised by the International Office before dropping a class if their remaining course load will be fewer than nine hours.

Students appointed as graduate student academic employees may not reduce their course load to fewer than nine hours during a fall or spring semester or fewer than three hours in a summer semester (in any combination of summer terms).

Any Q-drop assigned will not be considered final until any investigations of scholastic dishonesty for the class in question are resolved.

Students should note that dropping a course may cause their course load to drop below that required for full-time status.

Specific deadlines for adding and dropping courses are given in the academic calendar; procedures are given in the Course Schedule.

**Changing Registration to or from the Pass/Fail Basis or the Credit/No Credit Basis**

Some courses must be taken for a letter grade; others must be taken on the pass/fail or credit/no credit basis. These requirements are given in catalogs and the Course Schedule. If registration in a course is not restricted to a specific grading basis, the student may choose to register either for a letter grade or for credit.

An undergraduate student may change registration in a class from the pass/fail basis to the letter-grade basis or from the letter-grade basis to the pass/fail basis until the deadline given in the Academic Calendar (p. 7). The basis of registration for a course may be changed only once.

A graduate student may change registration in a class from the credit/no credit basis to the letter-grade basis or from the letter-grade basis to the credit/no credit basis until the deadline given in the Academic Calendar (p. 7).

In designated classes only, a law student may change registration in a class from the pass/fail basis to the letter-grade basis or from the letter-grade basis to the pass/fail basis until the deadline given in the Academic Calendar (p. 7).

For more information, including related policies, see General Information > Academic Policies and Procedures > Evaluation > Symbols. (p. 60)

**Withdrawal**

A student who wishes to withdraw from the University after completing registration for a semester must secure the dean’s acknowledgement. Following withdrawal, students are required to meet with the appropriate school/college academic advisor or other designated individual before the first class day of the semester for which they plan to re-enroll. A student who is a minor must present a written statement from a parent, guardian, or sponsor indicating that the responsible person knows of the student’s intent to withdraw. In addition, international students must have permission from the International Office to withdraw.

The dean’s signed acknowledgement to withdraw must be submitted to the registrar, where the student may request a refund of tuition, if eligible. Note that tuition refunds are strictly limited according to University policy as described at the following page: Tuition Adjustments (p. 51). No refund will be made to anyone other than the payer, except on the payer’s written order.

After the last day for withdrawing (approximately mid-semester), an undergraduate student may petition for withdrawal only for urgent, substantiated, nonacademic reasons. Withdrawal by an undergraduate student on scholastic probation may affect the student’s scholastic standing. Information about scholastic probation and dismissal is given in Scholastic Probation and Dismissal (p. 69).

A graduate student in good standing may withdraw with the acknowledgement of the graduate dean through the last class day of the semester. A graduate student who is in warning status may not withdraw without the recommendation of the graduate advisor and the acknowledgement of the graduate dean.

**Withdrawal for military service**

A student who withdraws as a result of being called to required military service may choose (1) to receive a refund of tuition for the semester; (2) if eligible, to be assigned an incomplete (symbol X) in each course as described in Symbol X: Temporary Delay in Reporting the Final Class Grade (p. 60); or (3) at the instructor’s discretion, to receive a final grade in courses where the student has completed a substantial amount of coursework and has demonstrated sufficient mastery of the course material. Policies affecting students who are absent for military service but do not withdraw are given below.

**Medical withdrawal**

After the last day for withdrawing, a student who has an urgent, substantiated, and significant medical or mental health condition which impacts the student’s academic functioning may be withdrawn from the University as of the date, and under the conditions, specified at the time of the withdrawal. Note that tuition refunds are strictly limited according to University policy as described at the following page: Tuition Adjustments (p. 51).
A student must request a medical withdrawal from UHS/CMHC by the last class day. Forms must be returned to UHS/CMHC before the first day of final exams. A student who requests medical withdrawal must submit copies of medical records from each medical and mental health care provider treating the condition. The medical records must include the date of onset of the illness or injury, dates of care, and diagnosis and prognosis. If the withdrawal is approved, the registrar and other appropriate officials will be notified. Specific information about the medical withdrawal process is available at the University Health Services website.

**Course Load Reduction**

Approval of requests for course load reductions are always the prerogative of the academic dean when medical reasons are given. Applications to request consideration of a course load reduction should be submitted to Disability and Access. Disability and Access will request a recommendation from the UHS executive director and chief medical officer. Once the executive director and chief medical officer signs the application, UHS will submit it to the appropriate dean’s office for a final decision.

**Retroactive withdrawal**

A student who wishes to leave the University for nonacademic reasons is expected to withdraw by the last class day of the current semester as described above. Requests to withdraw after the last class day are considered only if there were compelling documented circumstances that reasonably prevented the student from withdrawing by that day. Note that tuition refunds are strictly limited according to University policy as described at the following page: Tuition Adjustments (p. 51).

Students considered under this standard may include, but are not limited to, students who were hospitalized or incarcerated, called away at the end of the semester because of a family crisis, asked to perform military service, or experienced a mental or physical health problem documented by an appropriate healthcare professional, that seriously inhibited their mental or physical functioning.

In these cases, students may discuss the situation with the dean or an academic advisor in the dean’s office. If there is sufficient and compelling documentation, and if the request for retroactive withdrawal is submitted to the dean’s office before the end of the next fall or spring semester, the dean or the dean’s staff will review the request and consider approval of a retroactive withdrawal. Appropriate documentation could include written recommendations from University Health Services and the Counseling and Mental Health Center.

A college or school may approve an appeal for retroactive withdrawal for a semester prior to the previous fall or spring semester, but only for the most compelling nonacademic reasons that reasonably prevented the student from requesting a withdrawal in a timely manner, consistent with the policies described above. Support for the appeal from a college or school must be indicated through a signature of the dean or the appropriate associate dean of the college/school, such appeals are subject to review by the Provost for final approval.

**Attendance**

Regular attendance at all class meetings is expected. Instructors are responsible for implementing an attendance policy and must notify students of any special attendance requirements.

Special regulations of colleges and schools, required by the unique nature of their programs of study, may be enacted through the normal approval process. These special regulations may not conflict with University regulations on class attendance and absence.

**Religious holy days**

A student who misses classes or other required activities, including examinations, for the observance of a religious holy day should inform the instructor as far in advance of the absence as possible so that arrangements can be made to complete an assignment within a reasonable period after the absence. A reasonable accommodation does not include substantial modification to academic standards, or adjustments of requirements essential to any program of instruction. Students and instructors who have questions or concerns about academic accommodations for religious observance or religious beliefs may contact the Center for Access and Restorative Engagement. The University does not maintain a list of religious holy days.

**Absence for military service**

In accordance with section 51.9111 of the Texas Education Code, a student is excused from attending classes or engaging in other required activities, including exams, if they are called to required military service of a reasonably brief duration. The maximum time for which the student may be excused has been defined by the Texas Higher Education Coordinating Board (THECB) as “no more than 25 percent of the total number of class meetings or the contact hour equivalent (not including the final examination period) for the specific course or courses in which the student is currently enrolled at the beginning of the period” of required military service. The student will be allowed a reasonable time after the absence to complete assignments and take exams. Policies affecting students who withdraw from the University for military service are given in the Withdrawal (p. 66) section.

**Class Syllabi**

Each instructor must provide students with a syllabus by the first day that the class meets. To the extent practicable, the syllabus must include the following information by the first day:

- The course number and title
- The instructor’s name, office location, and office hours
- The names, office locations, and office hours of any teaching assistants
- An overview of the class, including prerequisites, the subject matter of each lecture or discussion, and the learning outcomes for the course and how they will be assessed
- Grading policy, including: (1) the means of evaluation and assignment of class grades; (2) whether plus and minus grades will be used for the final class grade; and (3) whether and, if so, how attendance will be used in determining the final class grade
- A brief descriptive overview of all major course requirements and assignments, along with the dates of exams and assignments that count for 20 percent or more of the class grade
- A list of required and recommended materials, such as textbooks, image collections, audio and audiovisual materials, supplies, articles, chapters, and excerpts as appropriate, identified by author, title, and publisher
- Final exam date and time (when available)
- The course website, if any
- A notice that students with disabilities may request appropriate academic accommodations from the Division of Campus and Community Engagement (DCCE), Disability and Access (SSD)

Posting a complete syllabus to a course’s Canvas site is adequate to meet the requirement to provide a syllabus to students, as long as the
site has been published and made available to students by the first day of class.

Instructors of undergraduate courses are required to submit a course syllabus and curriculum vitae to their departmental office or dean’s office (in non-departmentalized colleges/schools) by the first day of classes each semester. The administrative units must upload instructor CVs and syllabi of undergraduate courses to the University’s public website no later than seven days after the first day of classes. Faculty members who utilize Canvas should separately upload syllabi to the learning management system. Listing of office location, office hours, and teaching assistant information is not required for the publicly available version of the syllabus. Making undergraduate course information available to the public is mandated by HB 2504, passed by the 81st Texas Legislature (2009).

Examinations

The final examinations for each semester and summer term are scheduled by the Office of the Registrar. Classes that meet at the same time during a semester also have a common examination time. An index of these examination times is included in the Course Schedule; the examination schedule for a specific class is available through the Texas One Stop's website. The final exam schedule will be available by the first-class day of each semester. Students may access their individual examination schedules through the Texas One Stop's site.

Final examinations should begin promptly at the scheduled hour. They should not continue beyond the period (two or three hours) allocated in the official schedule, but may be shorter at the instructor's discretion.

No final examinations may be given before the examination period begins, and no change in time from that published in the official schedule is permitted without approval. An instructor with a compelling reason to change the time of an examination must obtain the approval of the department chair and the dean of the college or school in which the course is taught before announcing an alternative examination procedure to the students. No substantial examinations may be given during the last class week or during the study days preceding the final examination period. An examination is considered to be substantial if it counts for more than 30 percent of the final course grade. A change in the room assignment for a final examination may be made only with the approval of the registrar.

The study days preceding final examinations are not to be used as dates on which assignments are to be turned in, examinations are to be given, quizzes are to be scheduled, or for any other class-related activity, other than office hours or review sessions. In addition, the final examination period is reserved for scheduled final examinations. No other class-related activity, with the exception of office hours, may be scheduled during the final examination period.

An instructor may choose not to give a final examination. However, if an examination is given, all students must take it unless there is a uniform exemption policy announced to the class.

For good cause, an instructor may give a student permission to take an examination with a different class section than the one in which the student is registered.

For good cause, students may petition their academic dean for permission to change the time or place of an examination from that specified in the official schedule. If permission is given by the dean and the instructor, no penalty (such as a reduction in grade) may be assessed.

In the event of a student having a regular exam and a uniform exam scheduled at the same time resulting in a conflict, the student should plan to take the final exam during the make-up exam period as written on the final exam public search because uniform exams already have a make-up exam scheduled for another date and time.

In the event of a student having two regular final exams scheduled at the same time resulting in a conflict, the instructor who chose the non-default exam period for their regular exam is responsible for accommodating the student by providing another time to take the exam that works with the student's schedule.

In the event of a student having two uniform final exams scheduled at the same time resulting in a conflict, the student should plan to take one of the final exams during the corresponding make-up exam period as written on the final exam public search because uniform exams already have a make-up exam scheduled for another date and time.

Instructors cannot require students to make up an exam on a day that would cause the student to exceed the 3-exam limit. In the event a student has more than three (3) final exams scheduled in a single day, the student may petition the instructor(s) to allow them to take the additional exam on an alternate day. Students should ask the instructor of their latest 2-hour exam time(s) on days they are scheduled for more than three exams for an alternate exam day.

Instructors of asynchronous courses are presumed to be offering asynchronous final exams. An instructor of an asynchronous course who wishes to give a synchronous final exam must contact their unit's course scheduler no later than one week before their first class meeting of the semester to request a synchronous final examination time. The instructor of the asynchronous course must accommodate students who have regularly scheduled final exams that conflict with the asynchronous course scheduled final exam time.

All instructors must communicate dates and times of all final exams to all students on the syllabus, on the first class day.

In the event a student has an exam accommodation through Disability and Access (D&A) that causes an overlap with another scheduled exam, the instructor of the course causing the overlap must work with the student to find an alternative time for the exam or allow the student to take the exam through the designated D&A exam proctoring system.

A student should address complaints related to the final examination procedures in a course to the chair of the department offering the course. The student may appeal the decision of the department chair to the dean of the college or school in which the course is offered.

The following instructions govern the conduct of final examinations as well as other examinations given during the semester:

- Students must be informed that all written work handed in by them is considered to be their own work, prepared without unauthorized assistance.
- Students should be asked to cooperate in maintaining the integrity of examinations and encouraged to inform the instructor, without specifying the offenders, when cheating goes on in class.
- Instructors are responsible for advising students of the rules governing examinations and for supervising examinations in their respective classes. They, or their representatives, must remain in the examination room andtake necessary actions to ensure an orderly examination and minimize the temptations and opportunities for cheating.
- Students are expected to (a) remain in the examination room until the test is completed; (b) refrain from talking; and (c) leave all notes
and books where they are not accessible during the examination, unless otherwise directed by the instructor.

- An instructor who suspects academic dishonesty must report the case to the Office of the Dean of Students.

**Searches**

General searches of a student's personal papers and belongings may be conducted at the discretion of an instructor only when there is reasonable suspicion that the student has engaged in misconduct in violation of the Appendix C, chapter 11, Student Conduct and Academic Integrity (p. 127). In addition, the instructor must believe that the search is necessary to maintain the academic integrity of an examination or to maintain an environment in which learning can occur.

**Availability of Coursework to Students**

A student has the right to have all written materials that are submitted to meet the requirements of a course returned or made available for review. To be "made available" does not ensure the right to a photocopy, but the materials may be examined in the office of the faculty member or the academic department. Written materials that are not returned to the student must be retained by the faculty member or the department for at least one year following the completion of the course.

**Grade Reports**

**Semester reports from the registrar**

Grade reports are available to all students at the Texas One Stop's website.

**Intrasemester reports from the deans**

About the middle of each semester (but not in the summer semester), faculty members report undergraduate students doing work below the passing grade of D- to the deans. The offices of the deans forward the reports to each student.

**Scholastic Probation and Dismissal**

**Undergraduate Students**

An undergraduate must maintain a minimum cumulative University grade point average (GPA) to remain academically eligible to register for the subsequent semester or summer semester. The cumulative University grade point average is calculated on the basis of all work undertaken at the University, including credit by examination, correspondence, and extension, for which a letter grade was given. Courses for which the symbols Q, S, U, X, W, CR, and NC were given are not included. (Note: Since September 15, 2006, the University has awarded only the symbol CR, rather than a letter grade, for credit earned by exam. As a result, credit earned by exam and recorded since that date is not included in the student’s cumulative University grade point average. Through September 15, 2006, students chose either a letter grade or the symbol CR for credit earned by exam; credit by exam that was recorded with a letter grade is included in the student’s cumulative University grade point average.) Grades earned at any institution other than the University are not included in the University grade point average, but semester hours of transfer credit accepted by the University are added to hours taken at the University to determine the total college hours undertaken.

As shown in the following table, the minimum grade point average required varies with the total number of college credit hours the student has undertaken.

**Table of Scholastic Standards**

**Probation and Dismissal**

The following rules govern scholastic probation and dismissal.

a. **Change of scholastic status.** Scholastic status is determined when grades are reported at the end of each fall and spring semester and at the end of the summer semester. Although a student's University grade point average may change between these grade-reporting periods (because a final grade has been recorded in place of an X, for example), the student's scholastic status is not changed until the next official grade-reporting period during which the student is enrolled at the University.

b. **Effect of grades in courses repeated.** All grades earned in University courses, whether repeated or not, count in a student's grade point average. However, in counting grade points for any semester, a student who earned a grade of at least C- in a course taken in a previous semester may not use grade points earned in that same course in the current semester to meet the minimum requirements for continuance given below without written permission from the dean.

c. **Scholastic probation.** (a) A student whose cumulative University grade point average falls below 2.00 at the end of a grade-reporting period is placed on scholastic probation. Probationary status is reflected on the student’s permanent academic record. (b) Any student returning to the University after a period of scholastic dismissal returns on scholastic probation. (c) Under exceptional circumstances, the director of admissions may admit a student to the University on scholastic probation.

d. **Quantity of work while on scholastic probation.** A student on scholastic probation must maintain a course load of at least 12 semester hours in a fall or spring semester, unless the student's dean approves a reduced course load in writing before the student registers. Permission to take fewer than 12 hours is based on extenuating circumstances and is not routinely granted. In the summer semester, no minimum course load is required of a student on scholastic probation.

e. **Removal from scholastic probation.** A student on scholastic probation who achieves a cumulative University grade point average of at least 2.00 at the end of a grade-reporting period during which they are registered at the University is removed from scholastic probation. Removal from probation is reflected on the student's permanent academic record.

f. **Scholastic dismissal.** Under the conditions noted in items a, b, and c below, a student is subject to scholastic dismissal at the end of a fall or spring semester. A student is not placed on scholastic dismissal at the end of a summer semester unless the dismissal is the result of a previous condition prescribed by their academic dean. Scholastic dismissal is reflected on the student's permanent academic record.
i. Any beginning student, freshman or transfer, who has not earned previous credit in residence at the University and who fails 12 or more semester hours of coursework in a fall or spring semester is subject to scholastic dismissal without a prior probationary period.

ii. To be subject to scholastic dismissal, a student, except the beginning students described above, must first be placed on scholastic probation. A student on scholastic probation is subject to scholastic dismissal under either of the following conditions:

1. At the end of a fall or spring semester, a student on scholastic probation who fails to attain the cumulative University grade point average shown in the Table of Scholastic Standards above will be dismissed from the University.

2. A student on scholastic probation who withdraws from the University after the first four weeks of classes in a fall or spring semester will be placed on scholastic dismissal, unless the withdrawal is under exceptional conditions approved by the student’s dean.

iii. When a student who has been dismissed from the University returns, the student reenters on scholastic probation and may be subject to dismissal under the policies stated in (b)(i) and (b)(ii) above.

g. Student responsibility. A student who is dismissed from the University after completing registration for the next semester will have their registration canceled and may not attend classes. The student is responsible for knowing their scholastic status and may not appeal the cancellation of registration based on lack of such knowledge.

h. Length of scholastic dismissal.

i. First dismissal—One fall or spring semester and any intervening summer semester.

ii. Second dismissal—Three calendar years; readmission must be approved by the student’s dean.

iii. Third dismissal—A student dismissed for the third time will not be readmitted.

i. Effect of scholastic dismissal on correspondence courses or registration in another institution. A student who is dismissed from the University for scholastic reasons is not prohibited from taking courses by correspondence or from enrolling in another institution. The period of dismissal will not be decreased as a result of coursework completed while on dismissal.

j. Exceptions permitting continuance in the University. Normally, a student subject to dismissal will be dismissed; however, each college and school within the University has an appeals procedure administered by the Office of the Dean. A student who wishes to appeal should contact the office of their academic dean for procedures and deadlines. In unusual circumstances, a student may be allowed to continue subject to conditions prescribed by the dean. Approval to continue will not be given, regardless of the circumstances, unless the dean believes that the student has a reasonable chance of attaining a degree.

k. Special college regulations. Each college and school of the University determines its own policies regarding the minimum academic standards required of its students. Any college or school may require a higher minimum grade point average than is required to avoid scholastic probation under University-wide rules. In addition, a college or school may restrict enrollment because of the limitation of instructional resources. A student may be ineligible to continue in a particular college or school while remaining eligible to transfer to another; however, no student on scholastic dismissal from the University may be enrolled in any academic program of the University.

Graduate Students

To continue in the Graduate School beyond the first term of enrollment, the student must make satisfactory progress in fulfilling any admission conditions that were imposed, meet any requirements made in writing by the Graduate Studies Committee, maintain a graduate grade point average of at least 3.00, and receive the approval of the student’s Graduate Studies Committee.

Graduate Studies Committees are responsible for evaluating the students in their programs to ensure that they are making satisfactory progress toward a degree. If the Graduate Studies Committee finds that a student is not making satisfactory progress, it may recommend to the graduate dean that the student’s program be terminated.

A graduate student whose cumulative graduate grade point average falls below 3.00 at the end of any term of enrollment will be warned by the Office of Graduate Studies that their continuance in the Graduate School is in jeopardy. The student must attain a cumulative graduate grade point average of at least 3.00 during the next term they are enrolled or be subject to dismissal. During this period, the student may not drop a course or withdraw from the University without the approval of the graduate advisor and the graduate dean.

A graduate student who has been dismissed may be readmitted for further graduate study only by petition of the Graduate Studies Committee in the student’s major area or by the Graduate Studies Committee of another program that will accept the student. The petition must be approved by the graduate dean and will only be approved for rare and extenuating non-academic reasons.

Scholastic warning status and academic dismissal are reflected on the student’s permanent record.

Law Students

A law student must receive a final grade of at least D in a course to receive credit for that course. A student must have a cumulative grade point average of at least 1.90 on all law courses taken to graduate from the School of Law.

Grades of F are included in the grade point average, but courses in which the student earned an F are not counted toward the number of hours required for a degree. A student who fails a required course must repeat it until the student has passed. A student who fails an elective course may, at their option, repeat it only once. When a student repeats a course, the original and all subsequent grades are included in the student’s grade point average.

A student who receives a grade of F in a law course is placed on scholastic probation. A student who receives two grades of F for law courses in any one semester is dismissed for failure. A student who receives a total of three grades of F for law courses during their law school career is dismissed for failure.

A student will be placed on scholastic probation if their cumulative GPA falls below a 1.90. A student who has received final grades for more than 20 semester hours will be dismissed from the School of Law for failure if their cumulative GPA falls below a 1.80.

Scholastic probation is lifted after one fall or spring semester in which the student has completed one or more law courses, provided that the student does not receive another F for any law course during that semester and the cumulative GPA is at or above 1.90. If the student is not able to raise the cumulative GPA at or above a 1.90 after one fall or
spring semester or if they meet the maximum of three grades of F as stated above, the student will be dismissed from the School of Law for failure.

A student who has been dismissed from the School of Law for failure after receiving grades for 33 or more semester hours will not be readmitted to the School of Law, with this exception: if the student has never been on scholastic probation in the School of Law, the student maybe readmitted on scholastic probation for one fall or spring semester. A student who has been dismissed for failure after receiving grades for fewer than 33 semester hours may be admitted as a new student after the student has remained out of the School of Law for at least 12 months. The Law School Admissions Committee may attach significance to the prior failure. No student who has been dismissed for failure from the School of Law will be permitted, prior to readmission, to visit classes.

**Honors**

**Overview**

Except as noted, the opportunities displayed in the following sections are open to all qualified undergraduates. Honors available through the colleges and schools, and the interdisciplinary programs and activities offered by the Undergraduate College, are described in the Undergraduate Catalog.

**Marshall, Rhodes, and Truman Scholarships**

The Marshall scholarship allows young Americans of high ability to study for a degree in the system of higher education of their choice in the United Kingdom. Each scholarship offers up to two years of postgraduate study. Up to 40 new awards are offered every year in the United States. Students should apply in their senior year. Applications are typically due to the Office of Distinguished and Postgraduate Scholarships in early August.

The Rhodes scholarship is for outstanding students between eighteen and twenty-four years of age on October 1 of the year of application. Students should apply in their senior year. Each scholarship offers up to two years of postgraduate study at the University of Oxford. Thirty-two scholarships are assigned annually to the United States. Applications are due to the Office of Distinguished and Postgraduate Scholarships in early August.

The Harry S. Truman Scholarship Foundation awards $30,000 merit-based scholarships annually to college students who wish to attend graduate school in preparation for careers in government or elsewhere in public service. Applicants must be United States citizens or nationals, or applying for citizenship at the time of application. Truman Scholars receive leadership training, graduate school counseling, preferential admission and merit-based aid at some premier graduate institutions, and internship opportunities with federal agencies. Students who will be seniors the following academic year should apply to the Office of Distinguished and Postgraduate Scholarships in October.

**College Scholars**

On Honors Day each spring, the University designates outstanding students as College Scholars and Distinguished College Scholars, on the basis of registration and grade point average requirements for courses taken in residence at the University, as specified below.

To be designated a College Scholar, a student must meet all of the following requirements:

- The student must be registered as an undergraduate in the current semester. Students who hold a bachelors degree or are registered in-absentia are not eligible.
- The student must have completed at least 30 semester hours of coursework in residence at the University, and at least 60 semester hours of college coursework, including transferred work and credit by examination.
- The student must rank in the top 20 percent of their class in each college or school in which they are enrolled, based on in-residence cumulative grade point average.
- The student must have an in-residence University grade point average of at least 3.50.

To be designated a Distinguished College Scholar, a student must meet one of the following requirements:

- The student in each class of each college or school meeting the above requirements for College Scholars with the highest in-residence University grade point average will be designated a Distinguished College Scholar.
- All other students in each college or school who meet the first, second, and fourth College Scholar requirements stated above and are also in the top 4 percent of their class in each college or school in which they are enrolled will be designated as Distinguished College Scholars.

A student is ineligible for honors recognition as a College Scholar or a Distinguished College Scholar if, in the last two years prior to the creation of the Honors Day report, the student received final sanctions under Subchapter 11-701 (a)(2)-(a)(14) of the Institutional Rules for:

1. academic misconduct and/or
2. non-academic misconduct involving probation or higher.

Designation as a College Scholar or a Distinguished College Scholar will be based on eligibility calculations by the Office of the Registrar as of 5 p.m. on the 20th class day of the semester in which the Honors Day Ceremony is held. Students who are eligible for recognition receive invitations to the Honors Day convocation.

**Graduation with University Honors**

To be eligible to graduate with University honors, an undergraduate must have completed at least 60 semester hours at The University of Texas at Austin. Graduation with University honors is based on the average of all grades earned in courses taken in residence at the University, whether the courses were passed, failed, or repeated. Courses taken pass/fail are counted in the 60-hour minimum, but only letter grades (including Fs in pass/fail courses) are used to determine the grade point average.

The faculty of each college or school determines the percentage of the graduating class of that division to receive honors, high honors, and highest honors and the minimum grade point average for each category, subject to the following requirements:

- No more than 20 percent of the May graduating class of each college or school may receive honors, high honors, and highest honors. No more than 10 percent of the class may receive high honors and highest honors. No more than four percent may receive highest honors.
- Honors graduates must have a grade point average of at least 3.30 in courses taken in residence at the University.

The faculty may adopt college- or school-wide standards or may designate grade point average and percentage requirements for each program within the college or school, but the percentage of the college or
school class receiving honors, high honors, and highest honors may not exceed those above.

Percentage requirements are not applied to August and December graduating classes. The grade point averages established for May graduates are applied to the following August and December classes to determine honors, high honors, and highest honors.

Each grade point average listed is the minimum required for graduation with honors, high honors, or highest honors. Because only a certain percentage of the class may receive honors, the average required for each category may be higher.

In the McCombs School of Business, the Moody College of Communication, the Cockrell School of Engineering, and the College of Fine Arts, a student must have completed at least 60 semester hours of coursework in residence at the University to graduate with University honors.

In the Cockrell School, a student may receive only one bachelor's degree with University honors.

In the College of Fine Arts, to graduate with University honors, a student must rank high in the percent of students graduating that semester from their academic unit (art and art history, music, or theatre and dance) and must have no outstanding delay of grade (symbol X). A student may receive only one bachelor's degree with University honors from the College of Fine Arts.

**Alpha Lambda Delta and Phi Eta Sigma**

Alpha Lambda Delta and Phi Eta Sigma (ALDPES) are national honor societies that recognize scholastic achievement during a student's first year at The University of Texas at Austin. Both chapters were installed at UT in the 1930s. Their purpose is to encourage superior academic achievement among students beyond their first year at institutions of higher education, to promote intelligent living and a continued high standard of learning, and to assist students in recognizing and developing meaningful goals for their roles in society.

Membership is by invitation only to students who earn a grade point average of at least 3.50 during their first or second semester at the University, while completing at least twelve semester hours of coursework at the University. Eligible students are notified by the Undergraduate College at the end of each fall and spring semester. More information can be found on the Honors Societies website.

**Junior Fellows Program**

The Junior Fellows Program provides recognition for outstanding students who have completed four semesters, or approximately 60 semester hours of coursework. Chosen annually from the best students across the campus, junior fellows are given the opportunity to participate in independent study and research with distinguished professors of their choice, and to have that research supported by small grants, if necessary. The program is administered by the College of Liberal Arts, but undergraduates in all colleges and schools are eligible to take part. Students who wish to be considered should apply by April 15. Application are available [here](https://www.utsa.edu/honors/fellowships/jr-fellows.html).

**Phi Beta Kappa**

Phi Beta Kappa, the oldest honorary society in America, was founded by students at the College of William and Mary in 1776. The Alpha of Texas chapter was organized at The University of Texas at Austin in 1904. Membership is by invitation only to upper-division students who achieve distinguished scholastic records in disciplines that Phi Beta Kappa designates as liberal arts and sciences.

Students eligible for early membership must have at least 60 hours of credit in residence at The University of Texas at Austin and a 4.0 GPA at the time of the election. Because the chapter seeks to elect no more than 2% of any class for early induction, additional criteria may be added in the future for early election if the number of students obtaining a 4.0 continues to rise.

Students eligible for regular membership as a degree candidate must have at least 60 in residence hours at The University of Texas at Austin, have applied for graduation, and have at least a 3.90 GPA at the time of the election. The exact GPA cutoff varies year to year because PBK seeks to elect no more than the top 8% of students graduating. For this reason, 3.9 is a guideline — not an entitlement to election. (In 2021, for example, the GPA cutoff for election was 3.94).

Students eligible for regular membership as a recent graduate must have at least 60 in residence hours at The University of Texas at Austin, have graduated from UT immediately prior to the most recent election eligibility period, and have at least a 3.90 GPA at the time of the election, but the exact GPA cutoff will be the same as students who are in the graduating class being inducted. For this reason, 3.9 is a guideline, not an entitlement to election.

All eligible students are notified by the Undergraduate College after spring chapter elections. More information can be found on the Honors Societies website.

**Phi Kappa Phi**

Founded in 1897 at the University of Maine, Phi Kappa Phi is the nation's oldest, largest, and most selective honor society for all academic disciplines. The University of Texas chapter was established in 1962. Phi
Kappa Phi awards more than $800,000 annually through graduate and undergraduate scholarships, member and chapter awards, and grants for local and national literacy initiatives.

Membership is by invitation only to the top 7.5 percent of second-semester juniors, the top 10 percent of seniors, and graduate students with a grade point average of 4.00. Students are eligible for membership if they have completed the minimum required hours and have the required grade point average. Eligible students are notified by the Undergraduate College in the spring. More information can be found on the Honors Societies website.

**Tau Sigma**

Tau Sigma is a national honor society that recognizes the scholastic achievement of transfer students at The University of Texas at Austin. The purpose of Tau Sigma is to recognize and promote academic excellence and involvement among transfer students. The UT Austin Beta Theta Chapter was established in 2007. Tau Sigma members have opportunities to earn scholarships, take leadership positions in the university, and serve others at the university and community level while connecting with other academically oriented transfer students.

Membership is by invitation only to students who earn a grade point average of at least 3.50 while completing at least twelve semester hours of coursework at UT Austin. Eligible students are notified by the Undergraduate College at the beginning of each fall and spring semester.

**University Honors**

Each fall and spring semester, undergraduates who complete a full course load and earn outstanding grades are recognized by inclusion on the University Honors list. Each time a student is included on the list, their official record also shows the award of University Honors for that semester. The list is compiled at the end of each fall and spring semester; it is based on the student's work in that semester only. To be included, a student must earn at least 45 grade points and a grade point average of at least 3.50 on courses completed in residence and must have no incomplete grades (symbol X).

Students are notified on the semester grade report of their inclusion on the list.

**Teacher Certification**

The University conducts a large, field-based educator preparation program leading to certification for future teachers, administrators, and educational support personnel. This program is evaluated each year by the State of Texas and by the federal government. The results of these evaluations attest to the high quality of educator preparation at the University. For the academic year 2021-2022, 619 students were enrolled in the Professional Development Sequence of courses in the teacher certification programs. Teacher preparation requires extensively supervised field experiences, with most programs requiring approximately 800 hours in the field. Of the 271 University students who took an educator certification exam in 2021-2022, 93 percent passed. Based on certification exam pass rates for all applicant demographic groups, the Texas Education Agency (TEA) rated the University educator preparation program “accredited,” its highest rating.

The University recommends students for teacher certification to TEA. To be recommended for a certificate to teach in elementary or secondary school, an undergraduate student must earn a degree as well as complete an approved teacher certification program. Students complete the following requirements for approved programs in conjunction with degree requirements:

a. **Enrollment.** Students seeking certification to teach at the elementary school level (option a below) must register in the College of Education and major in education, an interdisciplinary program. Students seeking secondary (option b), or all-level (option c) certification must earn a degree from the college or school that houses the academic program in their prospective teaching field. Students should be advised by both an advisor in their academic department and a teacher certification advisor to confirm that the courses for which they register are applicable to their certification program.

Students who are seeking teacher certification should select from the following options:

a. Elementary (early childhood through grade 6): ESL generalist or ESL bilingual generalist
b. Secondary (grades 6 through 12): dance; (grades 7 through 12): mathematics, science, computer science, English language arts and reading, history, or social studies
c. All-level: special education, art, music, theatre, or languages other than English

b. **Admission to the Professional Development Sequence.** All students seeking teacher certification must complete a sequence of professional development courses. Admission to the Professional Development Sequence is restricted, and students must apply for admission. Academic performance, completion of prerequisite courses, documented evidence of proficiency in reading and in oral and written communication, and the number of hours needed to complete the program may be factors in the admission decision.

For students seeking early childhood through grade six or all-level generic special education certification, admission to the Professional Development Sequence requires a minimum University grade point average and minimum course grades prescribed by each program. To progress within the sequence, the student must maintain the minimum grade point average for the program. In addition, when they enter the Professional Development Sequence, students seeking early childhood through grade six and all-level generic special education certification may lack no more than one class outside the sequence. Additional information about these requirements is available in the Student Division Office, College of Education.

c. **Certification exam.** An individual seeking certification is required to achieve a satisfactory level of performance on the appropriate Texas Examinations of Educator Standards (TExES) test to be approved for initial or additional certification. Students who do not apply for their teaching certificate within three years of completing student teaching may be required to complete additional fieldwork hours and coursework before applying for the certificate.

d. **Legal questions.** In accordance with state law, the commissioner of education may suspend or revoke a teaching certificate or refuse to issue a teaching certificate for a person who has been convicted of a felony or misdemeanor for a crime that directly relates to the duties and responsibilities of the teaching profession. Information about legal issues is available from the teacher certification officer, George I. Sánchez Building, Certification Office, (512) 471-3223.
For students who hold a bachelor's degree, separate programs are available that lead to teacher certification at all levels. The requirements of these postbaccalaureate programs may be different from those of the undergraduate certification programs.

For more information about teacher certification programs, students should see an academic advisor in the Student Division Office of the College of Education, in the George I. Sánchez Building.

**Criminal History Acknowledgement**

As required by HB1508, teacher certification applicants need to be aware of the following:

- In order to earn a State of Texas teacher certification, you must pass a criminal history background check.
- If you have been convicted of an offense that is considered not appropriate for an educator, you could be ineligible to earn a teacher certification from the State of Texas. Details about potential eligibility of persons with a criminal history can be found in Texas Administrative Code, §249.16.
- You have a right to request a preliminary criminal history evaluation letter from the Texas Education Agency before admission into a program. The Texas Education Agency currently charges a fee for this criminal history evaluation. More information about the preliminary criminal history evaluation is online at https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/.

**Transcripts**

With proper identification, a student may purchase an official transcript for $20 a copy in person; by mail, e-mail, or fax; or online. The transcript includes the academic record accumulated at The University of Texas at Austin and lists coursework by semester, including dates of attendance, degrees earned, university honors, transferred work, and scholastic status. Unofficial copies of transcripts from other institutions may be furnished by the registrar’s office for a fee of $20. A transcript is a comprehensive record of an individual's academic progress at the University. The contents of an official transcript are listed in 9–400 of the Institutional Rules (p. 123). No partial or incomplete record (such as a record with grades of F omitted) will be issued. A student who owes a debt to the University may be unable to obtain an official transcript until the debt is paid. Additional information about requesting a transcript is published on the Texas One Stop website.

Texas law provides criminal penalties for forgery of a transcript or similar document.

The registrar’s office also provides official enrollment certifications to students and others for health insurance, loan deferment, and other reasons.

**Diplomas**

The diploma is a formal document issued by the University to recognize that a degree has been awarded by the institution.

University diplomas display the student's legal name or designated diploma name, graduation date, and degree earned (e.g. Bachelor of Arts, Bachelor of Science in Chemistry, or Doctor of Philosophy), along with the name and seal of the institution and the signatures of University and University of Texas System officials. If the student has graduated with University honors as described in Graduation with University Honors (p. 71), this accomplishment is indicated. The diploma does not display the student’s major(s), minors or certificates.

Information regarding multiple degrees for undergraduate students can be found in the Graduation section of the Undergraduate catalog.

A graduating student has the option to have their diploma name printed with a chosen name instead of the name on their University record. This option must be submitted by the name change deadline as set by the Registrar during the final semester before graduation.

Any requests to reprint the diploma based upon a name change after the deadline will be assessed a $50 fee.

Diplomas are mailed about six to eight weeks after the student's graduation. A student who owes a debt to the University may be unable to obtain a diploma until the debt is paid.

A graduate may purchase a replacement diploma through the Office of the Registrar for $50. The signatures of University and University of Texas System officials may not be the same as those on the original diploma, since the signatures of former officials are not maintained on file, therefore your diploma may reflect a reissued date. A graduate who requests a replacement diploma based on a name change (either legal or chosen) must pay the replacement fee.

**Personal Record Information**

**Name change**

The University maintains educational records under the student’s full, legal name. Official documents such as transcripts will not be issued bearing any other name.

Currently enrolled and former students may change the name on their permanent academic record by presenting an original or certified copy of the appropriate documentation to the registrar. In addition, students may be asked to present a notarized copy of their request. To change the first, middle, last name, suffix, or sequence of names the student must present an original or certified copy of one of the following: government issued ID (US only), such as driver’s license; valid passport (any country); signed certificate of naturalization; original or certified copy of birth certificate (US only), marriage certificate; court order (must show change to new name); or divorce decree (must show change to new name). The registrar may request additional documentation if necessary.

**Change of address, telephone number, or e-mail address**

The student must give the correct local and permanent postal addresses, telephone number(s), and e-mail address to the Office of the Registrar and to the office(s) of the student’s dean(s) and must notify these offices immediately of any changes. Official correspondence is sent to the postal or e-mail address last given to the registrar; if the student has failed to correct this address, the student will not be relieved of responsibility on the grounds that the correspondence was not delivered.

**Summons to Administrative Offices**

A summons to the office of any administrative officer must be observed. Failure to respond to a summons may result in suspension from the University. A summons to the dean may be sent by post or by e-mail, so it is important that the student keep both the dean and the Office of the Registrar informed of all current addresses.
Official Communications with the University

Students are expected to attend to business matters with the University during regular working hours, Monday through Friday. A student who is unable to conduct business personally should contact the appropriate office by mail or telephone. For purposes of proper identification and clarity, written communications should include the student’s name, public user name (UT EID), and local address (if applicable).

Electronic mail, like postal mail, is a mechanism for official University communication to students. Policies on the use of e-mail for official communication are given in Appendix M (p. 169).

Student Services

Vice President for Student Affairs

The Vice President for Student Affairs administers the Division of Student Affairs, which encompasses the Counseling and Mental Health Center, the Office of the Dean of Students, University Health Services, University Housing and Dining, the Department of Recreational Sports, New Student Services, Texas Parents, University Unions and the Center for Students in Recovery. The vice president serves as liaison between the president of the University and the directors of these units, and provides leadership in the development of programs that supplement the classroom experience and enrich the quality of campus life.

Office of the Dean of Students

The Office of the Dean of Students is committed to helping all students at The University of Texas at Austin succeed as students and prepare for graduation by providing legal, emergency, veteran, and other support services along with leadership experience and personal growth opportunities through organizations and programming.

Legal Services for Students

Legal Services for Students provides free legal counsel and guidance to students in a comfortable and confidential setting. When a student’s situation requires further representation, our team will provide referrals to other legal resources and information. Legal Services for Students also offers seminars, workshops, and presentations to student groups and classes to educate students about legal issues before conflicts arise.

Living the Longhorn Life

Living the Longhorn Life provides inclusive, innovative, and sustainable programming that is free to the UT Austin student body in an effort to build campus morale, bridge peer to peer relationships and cultivate individual sense of belonging. They provide social spaces to reduce student stress levels associated with virtual learning and college adjustment issues.

Sorority and Fraternity Life

Sorority and Fraternity Life strives to shape a values-based sorority and fraternity experience contributing to a positive sisterhood, brotherhood, and siblinghood. As a liaison to the Interfraternity, Latino Pan-Hellenic, Multicultural Greek, National Pan-Hellenic, Texas Asian Pan-Hellenic, and University Panhellenic Councils, as well as affiliated organizations, Sorority and Fraternity Life provides dynamic educational and leadership development opportunities to foster a safe, responsible, and culturally conscious community. Additionally, staff within Sorority and Fraternity Life serve as a programmatic and development resource for risk management, safety, and hazing prevention education for all student organizations.

Student Activities

Student Activities offers many services to student organizations, providing information, registration, space reservations, training through its workshops, one-on-one consultations, and event planning support. Student Activities manages HornsLink, through which students can find events and activities, connect with student organizations, explore opportunities based upon interests, build a leadership resume, and manage organization affairs.

Student Conduct and Academic Integrity

Student Conduct and Academic Integrity provides oversight, intervention, and management for behavioral and academic misconduct for students and student organizations with a goal of reinforcing UT Austin’s core values of Learning, Discovery, Freedom, Leadership, Individual Opportunity, and Responsibility. Student Conduct and Academic Integrity staff administer the University Code of Conduct and provide proactive educational programming for students, faculty and staff on community expectations related to behavior and academic integrity with an emphasis on prevention of policy violations. Student Conduct and Academic Integrity staff offer support and resources on navigating the conduct process, responding to behavior(s) that may rise to a policy violation, and consulting with community members on methods for resolving situations that constitute a policy violation.

Student Emergency Services

Through individualized consultation, Student Emergency Services in the Office of the Dean of Students provides assistance, intervention, and referrals to support students navigating challenging or unexpected issues that impact their wellbeing and academic success. Student Emergency Services provides support and resources through the following programs: Student Emergency Fund, UT Outpost (food pantry and career closet), and confidential advocates for interpersonal violence concerns. Student Emergency Services also provides oversight for the Behavioral Concerns Advice Line (BCAL), in partnership with the Counseling and Mental Health Center, Healthpoint-Employee Assistance Program, and the UT Police Department. BCAL is a resource to report behavioral concerns of an individual affiliated with the University (i.e. student, faculty, staff, or visitors).

Student Governance Organizations

The University seeks to enrich students’ educational experiences and opportunities for productive communication between the student body and the University by sponsoring Student Governance Organizations. The Student Government, Graduate Student Assembly, and Senate of College Councils are student-led Student Governance Organizations. Although each organization has a specialized mission and purpose, they all serve as voices for students on campus to enhance the student experience.

Texas Leadership Education and Development

Texas Leadership Education and Development in the Office of the Dean of Students engages students in transformative leadership development opportunities. Texas Leadership Education and Development serves all students, regardless of a person’s major, class standing, experience, or background. Through dynamic programs, resources and experiences, every student has the opportunity to realize their potential as a leader on campus, in the community, and over the course of their career.
Veteran and Military Affiliated Services

Veteran and Military Affiliated Services serves the military, veterans, and their families at The University of Texas at Austin. The area's professional staff provides advising, benefits support, and tailored programs for current student veterans, active-duty military, veterans, and the dependents of veterans. Current University student veterans have access to free tutoring services, academic support, one-on-one mentoring, career counseling, on-site mental health counseling, health resources, programs for women veterans, veteran specific scholarships, veteran benefits counseling, financial assistance, and a student organization that promotes a vibrant student veteran community on campus. The area's programs and services are carefully tailored by a veteran staff to serve fellow veterans and military affiliated students.

The Election Supervisory Board

The Election Supervisory Board (ESB) is tasked with conducting and overseeing all campus-wide student elections. The entities that defer to the ESB for election processes are: Graduate Student Assembly, Student Government, Texas Student Media, University Co-op, and University Unions. It is the exclusive prerogative of the ESB to hear complaints, conduct hearings, and release resolutions and advisory opinions regarding election activities. These and all other powers granted to the ESB fall strictly within the purview of the Campus Wide Election Code, which is adopted by each aforementioned entity, revised annually, and approved by the Office of the Dean of Students. For more information, visit UTexasVote.org.

Recreational Sports

Recreational Sports develops and conducts programs through which students and anyone with a RecSports membership, including faculty and staff members with a RecSports membership, may participate in recreational activities. Intramural Sports tournaments and events are scheduled throughout the year for individual, dual, and team participation. Sport clubs provide an opportunity to participate in a single sport on a continuing basis. About 45 clubs, ranging from taekwondo to lacrosse to sailing, are active each term. Outdoor Recreation provides equipment rental through the Outdoor Center, an indoor Climbing Wall, and supervised trips in a variety of activities such as backpacking, camping, canoeing, kayaking, nature hiking, and rock climbing. Opportunities through Fitness and Wellness include group fitness classes, clinics and series, and personal training. The Instructional Program provides safety education, swimming and sport skills classes.

In addition to structured sports programs, the department promotes the concept of informal recreational use of its facilities through the Informal Recreation program. Recreational Sports manages eight facilities: Bellmont Hall, Caven Lacrosse and Sports Center at Clark Field, Charles Alan Wright Fields at the Berry M. Whitaker Sports Complex, Gregory Gym, Gregory Gym Aquatic Complex, Recreational Sports Center, Robert B. Rowling Hall at the McCombs School of Business, and Whitaker Courts. Student organizations and University departments are welcome to reserve Recreational Sports facilities for a variety of events and occasions. Facilities are supervised to enhance the enjoyment of participants.

Programs, activities, and facilities are open to all currently registered students and anyone with a current Recreational Sports membership including: faculty, staff, UT retirees, UT alumni, community members, and youth with a RecSports membership. Facilities are available to children at designated times only.

Participants may check out sports equipment at Bellmont Hall, Caven-Clark Field, Gregory Gym, Gregory Gym Aquatic Complex, the Recreational Sports Center, Wright-Whitaker Sports Complex, and Whitaker Courts.

Other services offered at Gregory Gym are an Amazon Hub Locker+, offering the campus community a convenient location to pick up and return Amazon orders; Shake Smart, a purveyor of freshly-blended protein shakes, cold brew coffee, and healthy on-the-go foods; and a University Federal Credit Union branch.

Membership and Guest Services manages recreation facility access systems and provides amenities to students, and anyone with a RecSports membership. Amenities include locker and towel service, and massage therapy.

University Housing and Dining

All students enrolled in The University of Texas at Austin are eligible to live in University-owned housing. Students are not required to live on campus and may choose to live on or off campus. Freshmen are encouraged to consider living in University residence halls. The experience of many students indicates that adjustment to University life is often easier for those who live on campus. Research indicates that students who live in residence halls are more fully involved in academic and extracurricular activities, earn higher grade point averages, more frequently exceed predicted levels of learning and personal development, and more frequently complete their college education within four years, as compared to students who live off campus.

A brief description of university housing follows. More information about housing is available online and from The University of Texas at Austin, University Housing and Dining. P O Box 7666, Austin TX 78713-7666. Institutional rules regarding university-owned residences are listed in Appendix C, Chapter 5. University-Owned Residences (p. 104).

Applying for housing in University residence halls

Students may apply to live on campus after they have completed the admission application. Contracts are offered to students who are admitted to the University; incoming freshmen must be admitted and have paid or satisfied the enrollment deposit. More information about the housing application process is available online. Housing is not guaranteed for students.

University-owned residence hall for men

The University residence hall for men is Creekside Residence Hall, which can accommodate approximately 200 students.

University-owned residences halls for women

The University residence halls for women are Kinsolving and Littlefield, which can accommodate approximately 900 students. Freshmen women who apply for housing with Littlefield as their first building choice are given priority consideration for assignment to Littlefield.

University-owned residence halls for men and women

Jester Center, Whits Court, San Jacinto Hall, Almetris Duren Hall, Brackenridge Hall, Prather Hall, Moore-Hill, and Roberts Hall accommodate approximately 5,500 students. Andrews, Blanton, and Carothers honors residence halls accommodate about 500 students. Dobie Twenty21 accommodates approximately 700 students.
University-owned apartments

2400 Nueces, located off-campus in the west campus area, is open to undergraduate students who have completed at least 30 semester hours of coursework. More information about 2400 Nueces is available online. The University Apartments, located in off-campus areas that have shuttle bus service, are open to graduate and undergraduate students who have completed at least 30 semester hours of coursework, including those with families. Gateway Apartments and Colorado Apartments have approximately four hundred air-conditioned, unfurnished units; Brackenridge Apartments have approximately three hundred one-, two-, and three-bedroom, air-conditioned, unfurnished units. Rates for all units include utilities, internet and laundry. Apartment contracts may be signed up to sixty days before move-in. More information about University Apartments is available online and from The University of Texas at Austin, University Apartments, 3501 Lake Austin Boulevard, Austin TX 78703-5533.

Privately owned housing

A wide range of privately owned housing is available for men, women, and families in the University community. Arrangements for living in these residence halls, rooming and boarding houses, cooperative houses, apartments, and private homes are made directly with the management of each residence. The University maintains a website that includes links to other housing and real estate listings.

The University accepts no responsibility for the terms of rental or the accommodations offered and will not be a party to the enforcement of contracts between students, parents, and landlords for privately owned housing.

Scholarships and Financial Aid

The Office of Scholarships and Financial Aid provides financial assistance to students who might otherwise be unable to attend the University. Financial aid awarded through the office may include grants, scholarships, loans or work-study. Most financial aid is determined based on documented financial need, which is the difference between the cost of attending the University, the Expected Family Contribution and the financial resources available to the student.

To apply for financial assistance, students must complete a need analysis form each year. The office requires students to complete either the Free Application for Federal Student Aid (FAFSA) or the Texas Application for State Financial Aid (TASFA). The FAFSA should be completed by students who are U.S. citizens or eligible resident aliens. The TASFA should be used by non-citizens who are classified as Texas residents; the Apply page of the Texas One Stop website has more information on the TASFA. The information submitted through these applications helps the Office of Scholarships and Financial Aid assess family resources and determine eligibility for specific aid programs.

Students who are admitted as transient/non-degree-seeking and attend the University are not eligible for financial aid through the Office of Scholarships and Financial Aid.

Estimated Costs

Pursuant to state law, The University of Texas System Board of Regents (the Board) is authorized to set tuition. Please visit Tuition Rates on the Texas One Stop website for up-to-date information regarding Fall 2023 rates.

Estimated costs for tuition, fees, room, board, books, transportation, and personal and miscellaneous items for a typical student (both undergraduate and graduate) living in University-owned housing for the 2023-2024 fall, spring, and summer semesters are available on the Cost of Attendance page of the Texas One Stop website. The tuition amounts included in these figures are based on an average course load of 12 or more semester hours for undergraduates and nine or more semester hours for graduate students.

Application dates

The University strongly recommends that all students complete their financial aid applications by the Texas Higher Education Coordinating Board’s priority filing date. More information about the priority filing date and financial aid is published by Texas One Stop.

A student may apply for financial aid before being officially admitted to the University, but the awarding of aid is contingent upon admission. Aid cannot be disbursed until the student is officially enrolled.

Prospective freshmen apply for scholarships by completing the ApplyTexas application. Continuing and transfer students may apply for annually awarded scholarships by completing the UT Austin Continuing and Transfer Student Scholarship Application. For more information, including deadlines, see Scholarships on the Texas One Stop website.

Course load requirements

Most financial aid programs are based on a minimum full-time enrollment of 12 credit hours for undergraduate students and from nine to 15 credit hours for graduate students, depending on the student’s academic program. Students may receive financial aid for less than full-time enrollment, but the amount of aid awarded may be adjusted based on the student’s final enrollment status. Some financial aid programs require that award amounts be reduced proportionally for less than full-time enrollment. To receive financial assistance for summer semester, students (except those admitted as transient/non-degree-seeking) must enroll for classes in a designated summer semester.

Changes in financial circumstances

Students are responsible for reporting to the Office of Scholarships and Financial Aid any change in their financial resources that occurs after the initial application for aid is submitted. A documented decrease in resources may make a student eligible for an increase in financial aid, if funds are available; an increase in resources may result in a reduction or cancellation of financial aid funds or a requirement to repay awards already released to the student. Students can submit a Reduction in Income Appeal Form to report changes in student or parent income.

Satisfactory Academic Progress

Federal law requires that institutions of higher education monitor the academic progress of students who receive federal financial aid. In order to remain eligible for federal, state, and some institutional financial aid, students must comply with The University of Texas at Austin’s standards for Satisfactory Academic Progress (SAP); requirements for satisfactory progress are:

a. Minimum GPA: An undergraduate student must maintain a cumulative University grade point average (GPA) of at least 2.00. A graduate student must maintain a cumulative GPA of at least 3.00.

b. Minimum Pace: A student must successfully complete at least 67% of the credit hours they attempt.

c. Maximum Timeframe: A student may attempt no more than 150% of the credit hours required by their degree program.

Undergraduate students who have received financial aid will be evaluated for SAP at the end of every semester. Graduate students will be
evaluated annually at the end of the spring semester. For more specific information about the policy and the appeal procedure, see Maintaining Eligibility on the Texas One Stop website.

Types of Financial Aid

A student who submits a FAFSA or TASFA is considered for all applicable federal, state, and institutional funds that are administered by the Office of Scholarships and Financial Aid. The composition of the aid package depends on the characteristics of the student, including program eligibility and degree of financial need, as well as on the availability of funds. For more information, see Types of Financial Aid on the Texas One Stop website.

Scholarships and Grants

Students who apply for financial assistance by the priority deadline are considered for all scholarship and grant awards administered through the Office of Scholarships and Financial Aid. To be considered for a Federal Pell Grant, a student must be enrolled as an undergraduate and have not yet received a bachelor’s degree. Many scholarships and grants awarded through the financial aid process are based on financial need. For more information, see Scholarships or Grants on the Texas One Stop website.

In addition to specific qualifications for competitive undergraduate scholarships and fellowships awarded by the University, the entity responsible for selecting recipients for a given scholarship or fellowship may consider such factors as the following in designating recipients:

- Standardized test scores
- Class rank
- Grade point average
- Leadership and extracurricular activities
- Status in national academic competitions
- Academic performance within a major and other performance criteria
- Financial need
- Educational level

Loans

Federal loan programs are available to assist students with cost of attendance at the university. These programs have interest rates that may be adjusted annually and do not require repayment of principle or interest until the student has graduated or is no longer enrolled half-time. In addition, the loans offer a grace period between the time the student leaves school and the time repayment begins. Deferment or cancellation of repayment is available for certain situations, such as military service, periods of unemployment, or teaching service in designated schools.

Federal and state loans are available to both students and parents of students who do not show financial need. Interest rates on these loans are set by federal and state law. Under certain conditions, repayment of these loans may be deferred while the student is enrolled in school. For more information, see Loans on the Texas One Stop website.

Work-Study

Federal, state and institutional work-study programs provide jobs for students who show financial need and want to earn money to cover part of their educational expenses while attending school. The majority of work-study jobs are on campus, though some may be at off-campus nonprofit agencies. Depending on their educational interests and experience, students may choose from a variety of employment opportunities. For more information, see Work Study on the Texas One Stop website.

Other Services Not Based on Financial Need

Emergency Loans

Short-term loans are available for emergency expenses related to educational costs. For more information on what type of short-term loans are available, visit Loans on the Texas One Stop website.

Student Employment

In addition to overseeing the work-study program at The University of Texas at Austin, the Office of Scholarships and Financial Aid works in conjunction with Texas Career Engagement assisting students in finding part-time, seasonal, and summer employment through HireUTexas powered by Handshake.

Requirements for Student Borrowers

Mandatory counseling sessions

Prior to receiving the first disbursement of a Federal Direct Subsidized or Unsubsidized Loan, Federal Direct Graduate PLUS, or Federal Perkins Loan, student borrowers must complete an online loan counseling session, in which they receive information about their obligations, rights, and privileges as borrowers. In addition, student loan recipients who withdraw, graduate, or drop to less than half-time will be required to complete an online exit interview. The exit interview gives information about their repayment obligations and the consequences of failure to repay.

Identification and release of official transcript

Records of students who have received loans are identified to the Office of the Registrar. Students may not obtain official academic transcripts if they fail to repay federal, state, or University loans under the terms and conditions to which they agreed when they applied for the loans.

Tuition Refunds and Repayment of Financial Aid

Students who are awarded financial aid for a specific semester but cease attendance/withdraw prior to the beginning of classes are required to repay all funds released back to the University. Students who cease attendance/withdraw after the beginning of classes may be required to repay at least some portion of the funds received. The amount to be repaid is calculated according to a repayment policy determined by the Office of Scholarships and Financial Aid, according to federal regulations. Repayment varies depending on the amount and type of funds received and when the student leaves the University. Any refund of tuition or University housing charges due to a student may be used to meet the repayment requirement.

Students who received financial aid may have all or part of the calculated refund credited to the student aid programs from which the student was paid. The remaining refund, if any, will be paid to the student.

Federal regulations require that refunds due to student aid programs be credited in the following order: (1) Federal Direct Unsubsidized Loan; (2) Federal Direct Subsidized Loan; (3) Federal Direct Grad Plus; (4) Federal Direct Parent Loan for Undergraduate Students; (5) Federal Pell Grant; (6) Federal Supplemental Educational Opportunity Grant; (7) other federal student aid programs; (8) nonfederal student aid program. Nonfederal student aid programs are refunded in the following order: (1) state grants;
New Student Services

New Student Services (NSS) assists in the successful transition of the University's incoming and first-year students by coordinating programs that promote a sense of belonging, engagement and academic success.

Orientation

NSS oversees and coordinates orientation for incoming freshman and transfer undergraduate students at the beginning of each fall, spring, and summer school terms. Student orientation programs are designed to aid in the transition of newly admitted undergraduate students into the academic, cultural, and social climate of the University. New Student Services serves new freshman and transfer students by: acclimating them to the campus and surrounding community; providing information and assistance concerning academic policies, procedures, requirements, and class registration; serving as a campus information and referral agent; and hosting opportunities for campus offices and organizations to interact with new students through programs and events. NSS strives to provide a holistic, encompassing student development approach to new student programming to achieve goals that ultimately support the missions of NSS, its division and the University. Program fees provide the budget for student programs and services coordinated by the unit.

Transition and Year-Round Initiatives

In addition to orientation, NSS coordinates various programs and initiatives that help students in their transition to the University and throughout their academic careers. These initiatives include, but are not limited to first-generation student programs; autism spectrum and neurodiversity support for students which includes education and awareness training for faculty and staff; new student welcome programs including Longhorn Welcome; Bevo Buddy; and Horns Helping Horns, for students who are coming to the University with no familial support, had experience with the foster care system, homelessness, or being an emancipated minor.

Office of the Registrar

The role of the Office of the Registrar is to create, maintain, certify, and protect the University’s records of courses, degrees, and students. Among the office’s core functions are to:

- Maintain the official course inventory
- Publish catalogs, course schedules, final exam schedules, and the academic calendar
- Coordinate the use of classrooms
- Register students for classes and manage the add/drop process
- Ensure the accuracy and privacy of student academic records
- Collect grades and determine students’ scholastic status
- Issue diplomas, transcripts, and certifications of enrollment status
- Determine and certify students’ academic progress
- Certify veteran education benefits and student-athletes for NCAA eligibility and competition
- Identify, adopt, develop, and deploy technological services related to the core functions of the office, the student service needs of the University, and the higher education community in the United States

A detailed description of the items included in the academic record and on the transcript is given in Appendix C, subchapter 9–200, Directory Information and Student Records (p. 122). More information about the registrar’s office, including contact information for each section, is given on the office’s website. The Office of the Registrar website also provides easy access to the Course Schedule, online catalogs, and academic calendars. Some services the registrar’s office provides are accessible via the Texas One Stop, such as secure sites where students may register for classes, update their personal information, request and view degree audits, apply for veteran education benefits, and order transcripts.

Texas One Stop for Enrollment Services

As part of the University’s commitment to providing exceptional customer service to support student success, the Texas One Stop for Enrollment Services was developed in late 2019 to maximize service to students and make it easier for them to get help with registration, financial aid, and billing in one central location while maintaining the high standards for compliance and integrity of student records.

In a newly remodeled location on the ground floor of the UT Tower (MAI 1), Texas One Stop offers upgraded technology and professional staff support who are cross-trained in registration and records, student accounts, and financial aid.

Along with the new, integrated center, the virtual Texas One Stop website launched in November 2019 to help students find important information easily to complete important steps in the enrollment process. The launch of the website included the new Bevo Bot automated chatbot to provide immediate answers to questions and connect students to the resources they’re looking for.

Texas One Stop offers students:

- A central location to have questions answered regarding financial aid, billing, payment, registration and records.
- Support by having cross-trained staff answer questions from a student-life-cycle perspective.
- Updated technologies and support to better serve students across campus.
- A central website with student-focused content to support student success.

University Health Services

University Health Services (UHS) is part of the Division of Student Affairs. Located in the Student Services Building, UHS is a fully accredited ambulatory healthcare facility. It provides medical services primarily for currently enrolled students at The University of Texas at Austin and extends its travel health, physical therapy and nutrition services to university faculty and staff. UHS offers certain services for some non-students who are officially enrolled in particular university programs. UHS also provides public health leadership and initiatives, including the promotion of a healthy campus.

The medical staff includes board-certified physicians (family medicine, internal medicine and sports medicine), nurse practitioners, physician assistants, physical therapists, a registered dietitian and, in conjunction with the Counseling and Mental Health Center (CMHC), an integrated behavioral health team. UHS offers laboratory, radiology and ultrasound services and other specialty services including an allergy shot/immunization/travel health clinic, women’s health and sports medicine.

For routine health concerns, students can schedule appointments by calling (512) 471-4955 on weekdays during posted business hours. Students can also schedule many types of appointments online. Students whose illness or injury requires prompt medical attention
may be asked to come to UHS for an urgent care visit not requiring an appointment. Regular operating hours, as well as those for the summer semester, holidays and semester breaks, are posted on the UHS website.

Students with medical emergencies should go directly to an emergency facility or call 911.

The UHS Nurse Advice Line, (512) 475-NURS (6877), is available 24 hours a day to offer guidance to ill or injured students. Students who need medical treatment when UHS is closed must go to a healthcare facility in the community and are responsible for any charges incurred.

The Longhorn Wellness Center (LWC), part of UHS and CMHC, supports student life and academic success by addressing relevant health topics including high risk drinking prevention, suicide prevention, bystander interventions, sleep promotion, healthy sexuality, interpersonal violence prevention, active living and mental health promotion. The LWC uses multi-level, evidence-based prevention strategies such as peer education, social marketing, social norms initiatives, environmental change strategies and strategic campus partnerships.

There are charges associated with UHS clinic visits. The complete University Health Services Charges Statement is posted on the UHS website.

Students sometimes are affected by medical conditions beyond the scope of services offered by UHS. Payment for services at other healthcare facilities is the sole responsibility of the student; therefore, students are encouraged to purchase the optional student health insurance plan or have insurance coverage under another policy. Additional information about the student health insurance plan can be found here.

UHS accepts most types of health insurance; however, students are not required to have health insurance to use UHS. For more information, including types of plans with which claims cannot be filed, go to the UHS website.

Counseling and Mental Health Center

The Counseling and Mental Health Center (CMHC or center) is in the Division of Student Affairs and assists University of Texas at Austin students in coping effectively with aspects of their personal, social and psychological well-being and growth, so they may realize their full academic potential. CMHC programs address problems that can affect day-to-day living; respond to student crises; support student mental health, well-being and safety; and prepare the student to respond more effectively to the challenges of university life. The center also provides support to the University community by consulting with faculty, staff and administrators and by responding to traumatic events affecting university students.

CMHC services include brief assessment for referral to the most appropriate CMHC or community service; short-term individual counseling; group counseling; support and skills development workshops; psychiatric evaluation and medication, if indicated, and prevention and education programs designed to support student safety, growth and development. Crisis counseling is provided during business hours, and a 24-hour crisis line is available at (512) 471-CALL (471-2255). Confidential real-time and appointment-based telehealth services are available 24/7 through a partnership with a third party vendor.

CMHC is committed to the promotion and affirmation of diversity in its broadest sense. Its mission requires that people of every background be able to use its services with the expectation of respectful treatment. CMHC’s counseling and community outreach specialists include clinicians with specialized interests, training and knowledge in serving the University’s diverse student population.

The Counselors in Academic Residence (CARE) program provides convenient and easily-accessible counseling for students in most colleges and schools as well as consultation for their faculty and staff. The Integrated Health Program, a collaboration with University Health Services (UHS), offers mental health services, self-help MindBody Labs for stress reduction and biofeedback and classes on stress management and mindfulness. The Voices Against Violence Program provides clinical services for survivors of interpersonal violence including crisis, individual and group counseling. The Mindful Eating Program provides treatment options for students with disordered eating or body image concerns. The Alcohol and Other Drugs Program provides assessment, support services and short-term counseling for students with alcohol and other drug use/abuse issues.

The Longhorn Wellness Center, part of the CMHC and UHS, supports student life and academic success by addressing relevant health topics including high risk drinking prevention, suicide prevention, bystander intervention, sleep promotion, healthy sexuality, interpersonal violence prevention, active living and mental health promotion. The Longhorn Wellness Center uses multi-level, evidence-based prevention strategies such as peer education, social marketing, social norms initiatives, environmental change strategies and strategic campus partnerships.

CMHC clinical staff includes counseling and clinical psychologists, professional counselors, psychiatrists and social workers. It is approved by the American Psychological Association for internship training and cooperates with The University of Texas at Austin departments of clinical psychology, educational psychology and the Steve Hicks School of Social Work in training intern and practicum students. Additionally, CMHC cooperates with The University of Texas at Austin School of Nursing in training psychiatric nurse practitioner students, The University of Texas at Austin College of Pharmacy in training pharmacy residents and The University of Texas at Austin Dell Medical School Psychiatry Residency Program in training psychiatry residents.

The CMHC is located on the fifth floor of the Student Services Building, 100 West Dean Keeton Street, and is open weekdays 8:00 am to 5:00 pm. Services are available in-person and through telecounseling. The telephone number is (512) 471-3515.

Sanger Learning Center

The Sanger Learning Center empowers students to achieve their academic and professional goals by providing support for study skills and course content. The center’s services are described in the Undergraduate Catalog and on the Sanger Learning Center website.

Advising and Career Counseling

Texas Career Engagement

Undergraduate Students

Explore university-wide access to career exploration, career development, and employer engagement opportunities and resources in the Programs and Centers section of the Undergraduate College chapter of the Undergraduate Catalog.
Graduate Students, Professional Students, and Postdoctoral Scholars

Texas Career Engagement's Advanced Degree Career and Professional Development Team provides advanced degree expertise to empower graduate students and postdoctoral scholars to pursue professional fulfillment in industry, academia, nonprofit, business and government.

Texas Career Engagement administers select internship and career-related courses for graduate students including:

- A zero-credit, tuition-free internship course, is available to all graduate students participating in internships and other career experiences. For more information please see Texas Career Engagement website.
- Two zero-credit, tuition-free career research courses are also available for graduate students and postdocs. For more information please see the Texas Career Engagement website.

Graduate Archer Fellowship Program

The Archer Fellowship Program is a credit-bearing academic program offered by UT Austin's academic colleges and schools and administered by Texas Career Engagement that provides students a unique opportunity to live, work and learn in our nation's capital during the summer semester. The Archer Fellowship Program is a joint effort of the UT System Office of Federal Relations, the Archer Center, and the nine participating UT System academic campuses. For more information, visit the Graduate Archer Fellowship Program.

Vick Advising Excellence Center

The James W. Vick Advising Excellence Center supports and elevates the advising community at The University of Texas at Austin by working to ensure all advisors have the training, tools, and resources they need to best support their students.

The Vick Advising Excellence Center partners with the Academic Counselors Association (ACA) in developing advisor training and professional development opportunities, explores innovative tools to support advising, gathers data to support advising needs, and researches and shares best practices to empower all advisors on campus. The Vick Center also serves as a conduit between the advising community and university leadership to elevate issues and champion ideas for the betterment of advisors.

The Vick Center also provides advising to undergraduates in all colleges and schools related to major exploration, internal transfer planning, the Core Curriculum, and the Skills and Experience Flags.

The University Unions

The University Unions serve to enrich campus life, complement the academic mission, and be vital to the student experience, as well as provide related goods and services to the campus community.

The University Unions have two primary Union facilities, the Texas Union and the William C. Powers, Jr. Student Activity Center, and several additional managed spaces that serve as community centers for The University of Texas at Austin. All of our facilities offer space for studying, programming, informal gathering, and items for purchase in stores, including a wide variety of food and beverage services. In addition, there are outdoor gathering spaces, patios, and mobile food truck locations for the campus community.

Campus Events + Entertainment offers programs for intellectual, cultural, social, and recreational development. Events + Entertainment is chartered by University Unions to organize and present a program of activities and events for the University student body in areas of general interest. Through these opportunities, students can strengthen their leadership experience, self-expression, and management skills.

The University Unions Board of Directors recommends policy for the University Unions. The voting membership of the board includes six students and three faculty members. The executive director of the University Unions and an appointee of the vice president for student affairs, serve as ex officio members without vote.

Division of Campus and Community Engagement

The Division of Campus and Community Engagement (DCCE) works with a broad range of student, faculty, staff, and community constituents to make The University of Texas at Austin a national model for access and belonging in higher education. The Division strives to create a welcoming community on campus that fosters an open and robust learning environment that supports all students, faculty, and staff.

It also works to help the University meet its mission of service and create pathways for success for K-16 students throughout the state.

The Division includes more than 50 units, programs, projects, and initiatives and works in four strategic areas: student success, campus engagement, community engagement, and access and belonging.

The Women's Community Center serves as a place for Longhorns of all genders to connect, find resources, and get support. Women in Stem (WiSTEM) aims to close the STEM gender gap by creating an inspired and diverse community of STEM leaders.

The Hogg Foundation for Mental Health funds and advocates for programs in mental health service research and public policy analysis. The Hogg Foundation for Mental Health funds and advocates for programs in mental health service research and public policy analysis.

The Center for Leadership and Learning (CLL) offers a variety of programs and services to assist University students, including graduate school prep programs, study abroad opportunities, mentorship, success coaches, STEM tutoring, and many other resources and connections.

Inclusive Innovation and Entrepreneurship uses entrepreneurship as a method for promoting student success on campus and in their careers, collaboration among disciplines, and student impact on community issues through initiatives like Product Prodigy and WIELD TX. The First-Gen Longhorns program provides valuable student success resources and a community on campus for the University’s growing number of first-generation college students. The McNair Scholars program is a federally funded program that encourages and prepares students to pursue graduate and professional school. Other initiatives within the CLL include Global Leadership and Social Impact, Strive Grad Prep Academy, and College-to-Career. The CLL supports students to complete college successfully and become top-notch competitors in the global job market upon graduation.

The Center for Community Engagement (CCE) fosters and supports the development of academic service-learning classes on campus and connects students, faculty, and staff to service projects on campus and throughout the greater Austin area. The John S. and Drucie R. Chase Building pays homage to one of the first Black students at UT, John Saunders Chase. The University purchased the first commercial building that he designed to serve as the CCE East Austin location. It functions as a center for community engagement activities and collaboration around important issues such as economic development, education,
and health care access. It also houses the Texas Grants Resource Center, which helps students, faculty, and the public find funding for research projects and nonprofit activities.

The Center for School Partnerships (CSP) works with public schools throughout the state to help students from Title I schools prepare for college. The CSP includes the Neighborhood Longhorns Program which works with approximately 6,000 Title I students in the Austin Independent School District; five UT Youth Engagement Centers in Austin, Dallas, Houston, the Rio Grande Valley, and San Antonio that help students prepare for college; and ADVISE TX, which places recent UT Austin grads in 21 schools across the state to serve as college advisers.

The Center for Access and Restorative Engagement serves as a resource to cultivate belonging throughout the university community. It serves as a learning hub for restorative justice practices, which are designed to address and mitigate concerns with the goal of balancing support and accountability between or among affected parties. Disability and Access works to ensure that all students have equal access to the University's programs and services. Eligibility and specific accommodations are based on appropriate documentation and individual student needs. The Disability Cultural Center serves as a hub on campus for community, education and advocacy for disabled students, faculty, staff and all members of the university community.

The University Interscholastic League (UIL), created to provide leadership and guidance to public school debate and athletics teachers, has grown into the largest organization of its kind in the world, sponsoring regional and state-wide academic and athletic competitions. UIL reaches every school district in the state and has played a large role in developing young leaders and in providing avenues for success of public school students.

The University of Texas Elementary School is a research-based demonstration school located in East Austin that serves as a training and development site for future teachers, school nurses, speech therapists, social workers, counselors, and psychologists. The University of Texas-University Charter School includes 24 campuses around the state that serve approximately 2,000 K-12 students with special needs, including a number of students in foster care settings.

For a complete listing of programs, centers, and initiatives, explore the menu on the Division of Campus of Community Engagement homepage at community.utexas.edu.

Texas Global

Overview

Texas Global is the central home for international student and scholar services, education abroad, English as a second language instruction, global risk and safety, and cross-disciplinary international projects. For location, hours of operation, and contact information visit our website.

International Student and Scholar Services

International student and scholar advisors are available to assist international students with matters related to their immigration status, cross-cultural adjustment, orientation to the University, housing resources, employment eligibility, income tax status, social security regulations, and personal problems or concerns. International Student and Scholar Services (ISSS) also assists with student or scholar emergencies. More information about ISSS office hours and services is published by Texas Global.

Immigration advising and compliance

International student advisors issue immigration documents, provide personalized advising on student visa rules and benefits, and processes requests to facilitate international travel, employment authorization, and other activities that are subject to student visa regulations. ISSS also monitors student and university immigration compliance. For example, in accordance with immigration regulations, an international student who seeks to be enrolled for fewer than twelve hours as an undergraduate or fewer than nine hours as a graduate student is referred to ISSS. Withdrawal petitions for international students are referred to ISSS before final action is taken by the appropriate academic dean's office.

Intercultural and social programming

ISSS offers several programs to help international students and scholars adjust to life and study in the United States including orientation programs, social hours, informational sessions, and intercultural events.

Sponsored and exchange programs

ISSS provides specialized advising to reciprocal exchange students as well as sponsored students in need of third-party billing. Personalized administrative support includes specialized billing arrangements and custom advising services to sponsored students and their sponsoring agencies.

Mandatory health insurance

Enrollment in the Student Health Insurance Program is mandatory for F-1 and J-1 international students. Insurance fees are included in the student’s tuition bill each semester. A student who has an acceptable level of coverage under another insurance plan may be eligible for a waiver of insurance fees, as long as the completed waiver is submitted by the waiver deadline. Dependents in J-2 (exchange visitor) status are also required to have an acceptable level of coverage.

English Language Center

Several kinds of classes in English for nonnative speakers are available through the English Language Center. More information about the English Language Center is published by Texas Global.

Classes for University undergraduate and international exchange students

The English Language Center offers several courses for undergraduate students who need English language support. Each five-hour course counts toward full-time enrollment, but the courses do not count toward The University of Texas at Austin's degree requirements. However, most exchange students may count the credits towards degree requirements in their home universities. Courses are available for English language improvement in reading, writing, grammar or listening/speaking. Students take a placement test after enrolling and are integrated into one of seven levels for each course. For more information about English Language Center classes for undergraduate and international exchange students is published by the Texas Global.

Classes for University graduate students

The English Language Center offers several courses for graduate students who would like to improve their English or are required by their departments to do so. Each three-semester-hour course counts toward full-time enrollment, but the courses do not count toward degree requirements. Courses are available in oral communication, academic writing, communication for international teaching assistants. More information about English Language Center classes for graduate students is published by Texas Global.
Classes for everyone

The English Language Center offers two intensive English programs that are open to adult nonnative speakers of English. The Academic English Program (AEP) is a full-time academic program for prospective graduate students who have completed their first university degree and plan to pursue a master’s or doctoral degree in the United States. English proficiency at the intermediate level or above is required for admission to the program. The English Language Program (ELP) provides both full-time and part-time instruction in general-purpose English for students at all levels of English proficiency, including prospective undergraduates and those interested in improving their communication skills. Both programs offer optional test preparation instruction for the Test of English as a Foreign Language (TOEFL) and other admission tests. Discounts are available for part-time study by University students, staff members, and faculty members and University-affiliated family members. More information about these courses can be found online.

Education Abroad

Education Abroad provides information on educational opportunities in other countries, including study abroad, exchange, international internships, research abroad, and study abroad scholarships. Information sessions are offered throughout the year; students are strongly encouraged to attend a session before seeking staff assistance in selecting the program most appropriate to their needs and interests. Session topics, dates, and times can be found on the Education Abroad website.

University programs available to students include reciprocal exchanges with foreign universities; affiliated studies through other organizations and institutions; faculty-led programs, including Maymesters Abroad; internships and international study and research. Students pay a $75 fee to defray the cost of processing applications and of tracking education abroad applicants and students who are abroad; the fee also encourages students to think carefully about the application to go abroad. The application fee is nonrefundable, regardless of whether the student is accepted by or enrolls in a program.

Exchange Programs

Exchange programs allow The University of Texas at Austin’s students to enroll at a partner university abroad while continuing to pay The University of Texas at Austin’s tuition. These cost-effective programs integrate University students into the host university and provide access to courses applicable to the University’s degree plans. Students in exchange programs register for a block of coursework in Education Abroad. Students pay a $500 fee per semester to participate in an exchange. Faculty members in the appropriate academic departments review the student’s work to identify equivalent University courses; Education Abroad staff convert grades from the foreign credit system used by the host institution into their University equivalents. Courses and grades are recorded as resident credit. All courses reported to The University of Texas at Austin on the official transcript from abroad must be represented in some way on the official University transcript.

Affiliated Programs

Students register for affiliated studies (A S) when they participate in study abroad programs offered by organizations and institutions with which the University has an affiliation agreement. Students enrolled in affiliated studies pay a fee of $600 per semester and are considered full-time students by the University.

After a student takes part in a program offered under an affiliation agreement, University faculty members in the appropriate academic units review the student’s work to identify the equivalent University courses. Courses and grades appear on the student’s academic record, but they are not included in the University grade point average. A student must make a C- or better to earn credit in accordance with UT transfer credit policies. In some circumstances, affiliated studies credit is treated as resident credit; more information is given in the General Requirements for Graduation in the Undergraduate Catalog.

Faculty-Led Programs

Academic units may offer courses taught abroad as a part of their regular curriculum. Students who take these courses follow normal registration procedures and are assessed normal tuition and fees. Additional fees are charged to cover program costs.

International Study and Research

Students may register for international study and research (ISR) if they are conducting research or studying independently abroad. Enrollment requires the approval of the student’s faculty sponsor, graduate advisor (for graduate students) or departmental undergraduate advisor (for undergraduates), and Education Abroad. The approval may cover up to four consecutive semesters and contiguous summer terms.

Students enrolled in international study and research pay a fee of $600 a semester and are considered full-time students by the University.

Students who register for international study and research are not guaranteed credit for work completed abroad. Students must consult with the departmental undergraduate advisor or the graduate advisor and with the Graduate and International Admissions Center to determine whether credit will be granted.

Financial Assistance

Financial aid, including loans, scholarships, and grants, may be applied toward the cost of study abroad. If study abroad costs exceed the on-campus cost of attending the University, and if the student is eligible for additional aid, the Office of Scholarships and Financial Aid will repackage the student’s aid award based on the budget submitted by the Education Abroad program coordinator, with one exception: students registered for international study and research abroad are not eligible to receive federal financial aid; however, they may use scholarships and grants awarded by the University and outside agencies.

Information about other funding opportunities for study abroad is available on the Education Abroad website. The office administers the campus competition for a number of local and federal grants and scholarships, including the IIE Fulbright and the University’s International Education Fee Scholarship (IEFS).

Overseas Insurance

Ensuring that University of Texas at Austin students have adequate health and safety support while abroad is a primary goal of the University. All students taking part in UT-sponsored international travel are automatically enrolled in the UT Overseas Insurance plan through On Call International and are required pay associated fees for this coverage. This policy was established to ensure that all students are systematically and comprehensively covered by an international health insurance policy, an emergency services policy, and a general liability policy. The fee is non-refundable and is scaled to correspond to the length of international activity. Students are also encouraged to maintain their domestic health insurance coverage. The only exception is UT Austin students studying in their country of citizenship, who must submit a formal request for exemption from UT Austin Overseas Insurance.
Health Clearances

Students participating in an official education abroad program that is four weeks or longer are required to obtain a medical exam from a healthcare provider, who will complete and submit the mandatory health clearance form on their behalf. Some programs shorter than four weeks may also require a health clearance. Students can confirm whether this policy applies to their program by contacting their program coordinator or program faculty leader. Additional information and required forms are available on the Texas Global Risk and Safety Health Clearances website.

Transfer Credit Policies for Coursework from international Institutions

Evaluation by the Office of Admissions of course credit earned at an international institution does not constitute approval of the credit for use toward a degree; such approval is solely within the jurisdiction of the student's academic dean. Policies governing the evaluation of transfer credit from international institutions include the following:

a. Transfer credit is generally awarded for academic course credit earned from Ministry of Education–accredited institutions.

b. Rules governing the assignment of transfer credit from United States institutions also apply to transfer credit from international institutions. These rules are given in Transfer Application Review Process (p. 20).

c. To receive credit, the student must earn a grade that is comparable to a C- on the grading scale used at the University. The Graduate and International Admissions Center establishes grading scale equivalencies for international institutions.

d. If the credit was not earned as part of a University-affiliated study abroad program, the symbol CR (credit) will appear on the student’s University record instead of a letter grade.

e. Transfer credit from a nonaffiliated study abroad (language and culture) program is not assigned a specific University course number. Instead, undesignated credit may be recorded, and the student’s academic dean will determine the specific credit to be allowed for degree purposes on a substitution basis. Both current and previously enrolled University students who attend a nonaffiliated study abroad program may be required, at the discretion of the appropriate language department, to take an examination to earn credit for specific language courses.

Student Government

Established in 1902 (as the Students’ Association), Student Government serves as a recognized forum through which student opinion may be expressed at the University of Texas at Austin. All students enrolled at the University are constituents of Student Government; official actions of the organization are carried out by the Executive Board, the Assembly, and the Supreme Court.

Student Government provides input and presents initiatives to the University administration on matters related to student welfare. It helps facilitate responsible student participation in the university’s policy and decision-making processes, enhances the quality and scope of the student experience at the university, and ensures responsible and effective participation in the organization with a focus on issues that impact students. Additionally, Student Government works to transparently and responsibly utilize student fees to promote student welfare, preserves the tradition of the University, and helps to provide university students with an educational experience for leadership development. Student Government nominates and appoints undergraduate and graduate students from the student body for various university-wide councils and committees when student body representation is requested or required.

Campus Wide Elections for president, vice president, and members of the Assembly are held each spring. Elections for the first-year student assembly members are held each fall.

More information about Student Government is available in the Student Government office located in suite 2.102 of the William C. Powers, Jr. Student Activity Center or at the Student Governance Organization website.

Senate of College Councils

The Senate of College Councils is the coordinating body for the individual college councils, which are composed of student leaders enrolled in the University’s colleges and schools. Since 1973, the Senate of College Councils has worked directly with the councils to represent students in matters related to their academic experience through their colleges and provide the opinions and sentiments of the college councils on academic issues to the university administration. The membership includes active members of recognized college councils. Official actions of the organization are carried out by the Executive Board and the Assembly.

Senate of College Councils provides input and initiatives University administration on such matters related to improving the academic experience of students, programming that promotes academic excellence, fostering relationships between students and faculty, and initiatives that foster a sense of belonging and positive student experiences. Senate of College Councils nominates active members of college councils for various university-wide councils and committees when college council student representation is requested or required. The president and vice president are elected each spring by college council representatives.

More information about the Senate of College Councils is available in the Senate of College Councils office located in suite 2.102 of the William C. Powers, Jr. Student Activity Center or at the Student Governance Organization website.

Graduate Student Assembly

The Graduate Student Assembly (GSA) is the official representative body for graduate students. GSA addresses issues that are important to its constituents, not only as students but also as teaching assistants, research assistants, and assistant instructors. GSA reports administratively to the dean of the Graduate School and senior vice provost for academic affairs as well as the vice president for student affairs. Administrative expenses are funded through an allocation from students’ tuition.

The objectives of GSA are to represent the views of graduate students to the University community and the community at large; to facilitate graduate student communication and interaction; to gather and disseminate information pertinent to graduate students; to conduct activities that promote the general welfare of graduate students; and to provide a means of assisting in the selection of graduate student members of departmental, college, and University bodies.

More information about GSA, including contact information for officers, current representatives, meeting agendas and minutes, and current and past activities, is available at the GSA website.
Student Media

Texas Student Media (TSM) offers an incredible range of real-world work experience for students in several areas of student-managed media. With opportunities in print, television, radio, and advertising, students learn skills that can prove invaluable once they begin their professional careers. Texas Student Media attracts and welcomes a diverse group of students from a variety of interests, ethnicities, cultural backgrounds, and majors.

TSM comprises the following student-managed and student-produced media entities: The Daily Texan newspaper, KVRX 91.7 FM radio, Texas Student Television (TSTV), the Cactus yearbook, burntX.com, and the Texas Travesty humor publication. Additional experiential opportunities exist with Texas Connect, bevovideo.com, and advertising sales. Texas Student Media is supported through University funding allocated by the Student Services Budget Committee, and through efforts of a sales team that sells advertisements and performs promotional/marketing duties.

TSM is administratively supported by the Moody College of Communication and is governed by an eleven-member Board of Operating Trustees composed of six student members elected by the student body, three faculty members, and two media professionals appointed by the president. Student managers (editors and station managers) are appointed by the Operating Trustees, while the Daily Texan editor-in-chief is elected by the student body. Student managers, the Texas Student Media director, and representatives from Student Government and the Office of the Dean of Students serve as non-voting board members.

Students interested in being a part of one or more of TSM’s media entities should visit participateTSM.com.

Office of the University Ombuds for Students

The Office of the University Ombuds for Students provides a neutral, impartial, and confidential environment for students to voice concerns related to life at The University of Texas at Austin, and provides information and assistance to students who have University-related questions, concerns, or complaints. The office functions in an independent and informal manner to help students explore options for effective problem solving and conflict resolution. The office also identifies and provides recommendations to the University regarding systemic issues. The Ombuds advocates for fair and equitably administered processes and does not side with individuals or the University. The office helps the University uphold the institutional core values, Student Honor Code, and University Code of Conduct.

The Office of the University Ombuds for Students:

- Provides students with information, referrals, and assistance with appropriate policies and processes for addressing University-related concerns.
- Helps students receive expeditious, fair, and impartial treatment.
- Provides students with voluntary conflict management for disputes and concerns related to student life at the University, both academic and nonacademic. This includes identification of options, policy clarification, conflict coaching, mediation, training, and other conflict resolution or consultative services as appropriate.

In order to create a safe place for students to voice concerns, evaluate issues, and identify options, the office maintains privacy and confidentiality to the extent permitted by law and University policy.

Additionally, the office is considered an informal and off the record resource, and does not maintain identifying records.

Student Grievance Procedures

Academic-Related Grievances

Academic grievances involving grade disputes should be discussed with the course instructor. Grade disputes that are not resolved and all other academic grievances of undergraduate students should be submitted in writing to the department chair or other designated administrator of the academic program to which the grievance relates. Appeals may be directed to the appropriate academic dean, who will render the final decision. A grade will not be changed by the department chair (or other designated administrator) and/or the dean without first consulting with and considering fully the position of the course instructor. The course instructor will be advised by the department chair, another appropriate administrator, or dean of the resolution of the grievance.

Procedures for the resolution of grievances of graduate students are specified in the Handbook of Operating Procedures 9-1240.

The dean of the college or school in which a student is enrolled has jurisdiction over the student’s program of study, degree requirements, and all other academic matters, including grievances, except as described below. A student pursuing simultaneous majors in two colleges is considered to be enrolled in both colleges and is under the jurisdiction of both deans. Students taking a course in a college or school other than the one(s) in which they are enrolled are subject, so far as the course and academic grievances regarding the course are concerned, to the dean of the college or school in which the course is offered. Procedures for cases of alleged academic dishonesty are given in Appendix C, Sec 11-402 (p. 127).

Student Program and Student Activity Related Grievances

Grievances related to non-academic student programs and activities should be submitted in writing to the dean of students or director of the specific student affairs area. Appeals may be directed to the vice president for student affairs, and then to the president for final disposition.

Appendix C (p. 98) of this catalog describes the institutional rules on student services and activities and includes provisions for formal hearings. Additional information on these provisions is available from the Office of the Dean of Students.

Disability-related grievances. No qualified disabled student shall, on the basis of disability, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any academic program or activity at The University of Texas at Austin. Complaints alleging discrimination on the basis of disability should be submitted according to the procedures outlined in the Nondiscrimination Policy, Appendix I (p. 159). The policy is in accord with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990 (ADA).

Sex discrimination and sexual conduct. The following policies address sex discrimination and sexual conduct:

- Policy on Sex Discrimination, Sexual Harassment, Sexual Assault, Sexual Misconduct, Sexual Misconduct, Interpersonal Violence, and Stalking, Appendix D (p. 154)
- Policy on Consensual Relationships, Appendix F (p. 154)
Discipline

Under the direction of the president, the dean of students has primary responsibility for the administration of student discipline.

General statement

The University's expectations for student conduct are grounded in the University Code of Conduct, which can be found in Appendix C (p. 127). University students are also expected to uphold the Student Honor Code and expected to abide by all city, state, and federal laws and statutes and all regulations of the University and the University of Texas System. However, as a community of scholars, the University expects from its students a higher standard of conduct than that required simply to avoid discipline. The principles of the Student Honor Code together with the University Code of Conduct should govern and direct student conduct to promote a safe environment that is conducive to academic success, and to ensure that each University student graduates ready to contribute to society as an ethical citizen.

Academic dishonesty

Since the value of a university degree depends on the absolute integrity of the work done by each student for that degree, a student should maintain a high standard of individual honor in their academic work.

Academic dishonesty includes, but is not limited to, cheating, plagiarism, collusion, falsifying academic records, and misrepresenting facts. More information about academic dishonesty is given in Appendix C, chapter 11 (p. 127).

Group responsibility

Any student organization is subject to disciplinary sanctions, including revocation of the group's registration as a student organization, for violation of the penal or civil statutes of the local, state, or federal government or a rule or regulation of the University of Texas System or a Regents' Rule, University regulation, or administrative rule. More information about discipline of student organizations is given in Appendix C, chapter 6 (p. 106).

Disciplinary procedures

The University of Texas at Austin administers student discipline according to the procedures defined and described in the Regents' Rules and Regulations, Rule 50101, in the Model Policy of Student Conduct and Discipline promulgated by the Office of General Counsel of the University of Texas System and in Appendix C, chapter 11 (p. 127).

Religious Organizations

State institutions are constitutionally restricted with regard to the establishment of religion; however, many sectarian activities are available to students through the sponsorship of various denominational organizations. Several places of worship are located in the University area. A number of student centers are maintained near campus, and many student religious organizations are registered with the University.

Shuttle Bus Service

The University shuttle bus system is operated for the benefit of students, faculty and staff members, and retirees of the University. The system is funded through students’ tuition. Shuttle bus patrons should be prepared to show and/or swipe their UT IDs upon boarding.

Shuttle service is provided on scheduled class and final examination days. On most routes, service is not provided on holidays or on Saturdays that are not final examination days. Shuttle bus maps and schedules are available at the Parking and Transportation Services website. Questions about routes or policies should be sent by e-mail (shuttle@utexas.edu).

Student Parking

Students who drive or park a vehicle on campus must purchase a permit from Parking and Transportation Services (PTS). To park within the campus boundaries, a proper permit must be displayed as required. Purchase of a surface lot permit (A, C, M, N) does not assure a parking space in a specific lot. Purchase of a garage permit (R or S) generally assures an unassigned parking space in the garage in which it is valid. If you need to use a car, there is no free parking on campus aside from signed 30-minute loading zones. Everywhere else requires either a permit or payment of a fee to park.

Policies, fees, and regulations are given below. For the most recent information, students should visit the PTS website or email parking@utexas.edu.

Students are eligible for the following types of parking permits:

a. Class C (surface student) parking permits are available to all students enrolled at the University. The fee is $169 for the year. This permit allows parking in C and Longhorn lots.

b. Class C+ (surface student plus night garage access) parking permits are available to all students enrolled at the University. The fee is $253 per year. This permit allows parking in C and Longhorn lots. It also allows parking in university garages, within the limits given for night garage access (N+) permits below.

c. Class D (students with disabilities) parking permits are available to qualifying students with disabilities. The fee is $169 for the year. This permit requires display of a valid state-issued ADA license plate or placard to be valid. It allows parking in D, A, and C spaces as well as Longhorn Lots. It also allows parking in garage ADA SPACES.

d. Class D+ (special accommodation disabilities) parking permits are available to qualifying students with disabilities. The fee is $338 for the year. This permit requires display of a valid state-issued ADA license plate or placard to be valid. It allows parking in the same areas as a Class D permit. Additionally, it allows parking in D+/Special Accommodation spaces throughout campus.

e. Class A (surface faculty/staff) parking permits are available to university graduate students who are also employed by the University for at least 20 hours a week. The student's employment must be verified by a signed copy of the appointment or reappointment form or a letter from the dean, director, or department chair. The fee is $193 a year. This permit allows parking in A parking areas, in Longhorn lots, in C lots after 2:00 p.m.

f. Class M (motorcycle/moped/motor scooter) parking permits are available to any university student. The fee is $102 a year, but there is no charge for the first Class M permit with the purchase of another permit except an R, N, or N+ permit. The Class M permit allows parking in M parking areas; motorcycles, mopeds, and motor scooters may not be parked in automobile parking areas between 7:30 a.m. and 3:30 p.m. Monday through Friday.

g. Class R (garage resident student) parking permits are available to residents of university-owned housing located on the main campus. The fee is $225, $423, $511 or $539 for a semester, or $338, $762, $920, or $968 for two semesters, depending on the garage. Students may purchase a permit for the summer semester. The fee is $68,
The following table lists the charges for violation of the Parking & Traffic Regulations. Parking and Transportation Services reserves the right to refer any violator to the Office of the Dean of Students or the appropriate academic dean, chair, or director.

Operation of a non-registered commercial scooter or dockless commercial bicycle on The University of Texas campus $35

Reckless Operation of a Vehicle $75

Unauthorized Parking on Speedway Pedestrian Mall $75

Unauthorized Entry into Speedway Pedestrian Mall $100

Scooter Impound: violation of scooter parking regulations related to a university event, parking in a manner that obstructs ADA access or parking, doorways, ramps and stairways, and on Speedwell Mall and the Main Mall $150

Automobile Boot Fee $100

Bicycle Impound Fee $25

Commercial Scooter and Dockless Commercial Bicycle Impound Fee $75-$150

Unauthorized Moody Special Event Citation $150

Multiple Vehicles Parked On Campus $35***

*Penalty doubles upon second offense and all subsequent violations are subject to immobilization or impound. ** Offense subject to citation and vehicle impound. + All relevant and currently outstanding fines and fees must be paid prior to the release of the boot. ***Penalty increases to $75 for each additional offense.

2023-2024 General Information Catalog  General Information 2023 - 2024  87
The Texas Exes

The Texas Exes, the alumni association for The University of Texas at Austin, was established in 1885 and now boasts more than 110,000 members. It is one of the largest alumni organizations in the nation. The association is self-governed and works to unite alumni and friends around the world, create a passionate voice that strengthens the university, promote alumni accomplishments, and celebrate Longhorn spirit and traditions.

Members of the Texas Exes support the mission of the association and receive benefits tailored for people who love UT Austin. Click here to join. The Texas Exes is the premier scholarship administrator at The University of Texas at Austin. Hundreds of entering freshmen and current UT Austin students are impacted by these awards every year. Classifications include Chapter, Named, and Opportunity Scholarships. The Forty Acres Scholars Program is administered by the Texas Exes and is The University of Texas at Austin’s premier full-ride, merit-based scholarship. On average, approximately $4 million in scholarship funds are awarded to UT Austin students.

News about the university and its more than 570,000 living alumni reaches members through the bimonthly Alcalde magazine and its website. The association engages alumni and friends through its lively social channels, including Facebook, Twitter, and Instagram.

There are around 150 Texas Exes chapters and networks across the globe. Chapters are geographically based groups that engage alumni through social, community service, cultural, business networking, student development, and scholarship-fundraising events. Networks are national groups organized around ethnicity, profession, or strong affinity to a university student organization.

Recently the Texas Exes expanded the ways that Longhorns could connect and help one another through the additions of HookedIn and the Longhorn Business Network. HookedIn is the official networking platform for UT Austin alumni and students. This powerful online networking and career-boosting community offers a single platform for alumni, students, faculty, and staff to connect and transform lives. The Longhorn Business Network was launched to support alumni-run businesses. From a Shop Longhorn business directory and networking events to savings from business service providers and a Business Membership, the Longhorn faithful can now shop and support one another.

The Texas Exes provides lifetime learning opportunities through the Flying Longhorns travel program, virtual lectures from rockstar faculty, student programming, and online university library access. The association is the keeper of The University of Texas at Austin traditions and works to create unforgettable moments for students on campus, while supporting their academic success.

The Texas Exes’ home on campus is the Etter-Harbin Alumni Center, which stands on San Jacinto Boulevard across from Darrell K Royal-Texas Memorial Stadium. Facilities include a banquet hall, offices, meeting rooms, outdoor pavilion, and underground parking. The building is named for Lila B. Etter and John P. Harbin. Etter, whose bequest to the university financed much of the original structure in 1966, was the daughter of the University’s first president, Leslie Waggener. Harbin was a Distinguished Alumnus and past president of the Texas Exes. His gift provided site preservation, development, and landscaping.

The university depends on the time and talents of Texas Exes members to support and carry out many of its programs. Membership is a charitable contribution. For more information, click here or call 512-471-8839.

Libraries and Other Academic Resources

The University Libraries

The University Libraries, one of the largest academic libraries in North America, include the University of Texas Libraries, the Dolph Briscoe Center for American History, the Harry Ransom Center, and the Joseph D. Jamail Center for Legal Research: Tarlton Law Library. The libraries are open and information services are available to the University community and to visitors, including students and faculty members from other institutions.

The University of Texas Libraries

The University Libraries website offers a range of services and resources. Each year this site is visited more than a billion times by information seekers around the world.

Online Services

• Check the library catalog for a listing of on-site and electronic information resources.
• Libraries hours information. Most circulation desks close fifteen minutes before the library closes.
• Renew an item or recall an item loaned to another borrower.
• Ask a Librarian: Use e-mail or instant messaging to obtain assistance from a librarian.
• Request books, photocopies of articles, and other material not owned by the University Libraries from another library in the United States or abroad.
• Request that the University Libraries purchase an item it does not currently own.
• Ask for an item in remote storage to be delivered to a library.
• View jobs available in the University Libraries.

Online Resources

Campus-affiliated users may access specially licensed scholarly information, including the full text of articles and illustrations from thousands of journals and the full text of about eighty thousand books in electronic format. They may search hundreds of indexes and view the world’s largest and most heavily used online map collection.

Subject specialists are responsible for developing the extensive collections that make up the University Libraries. Users who have questions about resources or need research assistance are encouraged to consult one of the subject specialists listed.

On-Site Services and Resources

The University of Texas Libraries includes several libraries on the Austin campus and the Marine Science Library in Port Aransas. Each location offers a range of services and specialized resources.

Library classes and tours

The University Libraries offers a variety of classes on how to use the library and how to access and evaluate information, as well as advanced classes covering databases and other electronic and on-site materials in specific subject areas. Virtual and on-site tours are also offered.
Information and research help
Staff members are available in all libraries to help users find information.

Computing facilities
Computing facilities available to UT Austin students, faculty members, and staff members are located in all libraries. The Perry-Castañeda Library, the Fine Arts Library, and the science libraries offer the largest number of available workstations.

Copying and printing facilities
Printing, copying, and scanning are available in all UT Libraries locations.

Individual and group study areas
All libraries offer individual study spaces. Many also offer group study rooms, designated collaborative study areas, or closed studies or carrels. Group study rooms may be reserved online.

Libraries
Perry-Castañeda Library
This six-level open stack library contains more than 2.5 million volumes, computers for public use, a coffee shop, and enclosed studies as well as group study areas.

This main library of the University serves most subject areas, with emphasis on the humanities, the social sciences, business, education, nursing, social work, and European, East European, Asian, Middle Eastern, Hebraic, and Judaic studies. Special materials include United States and United Nations official documents, current journals, and newspapers. Reference and information help is provided in the lobby area. Library users are also encouraged to make appointments with subject specialists in their areas to discuss information needs. A list of subject specialists, with contact information and office locations, is published online. Service units in the library include Borrower Services, Courtesy Borrower Services, Library Business Services, and Interlibrary Services. The Office of the Vice Provost and Director of the University Libraries and the University Libraries administrative staff are also housed in the Perry-Castañeda Library.

Nettie Lee Benson Latin American Collection
The Benson Latin American Collection holds over one million books, periodicals, pamphlets, and newspapers; and over 7,000 linear feet of archives and manuscripts. The collection acquires research material from across Latin America, the Caribbean, and the United States, on Latin Americans and U.S. Latinas/os, with subject focuses including the humanities, social sciences, natural resources, natural sciences, history of medicine, law, human rights, civil rights, and technology. In 2011, the Nettie Lee Benson Latin American Collection entered into a partnership with the Teresa Lozano Long Institute for Latin American Studies (LLILAS), creating LLILAS Benson Latin American Studies and Collections.

The Benson’s Special Collections consist of archival and digital collections, and include manuscripts, publications, and other written works. Other formats include broadsides, newspapers, photographs, slides, musical scores, oversize materials such as posters, artwork, and architectural drawings and blueprints. Audiovisual materials are found throughout the collections, including VHS tapes, cassettes, vinyl records, DVDs, CDs, and others audiovisual formats. The collecting areas of focus for the Benson Special Collections are Latin American Archives, U.S. Latina/o Archives, Black Diaspora Archives, and Rare Books. Major resources include the Guatemalan National Police Historical Archive (AHPN) and the Archive of the Indigenous Languages of Latin America (AILLA). The Benson and UT Libraries are founding partners in Primeros Libros de las Américas, an international digital initiative providing access to the earliest printed works published in the Americas.

Science libraries
The science libraries on the main campus are the Walter Geology Library, the Life Science Library, and the Kuehne Physics Mathematics Astronomy Library. The Marine Science Library is located at the Marine Science Institute in Port Aransas.

Fine Arts Library
The Fine Arts Library contains collections that support learning and research in art, music, theatre, and dance. The collections include a variety of formats, including books, journals, musical scores, plays, CDs, and DVDs. UT Austin students, faculty and staff members, and courtesy borrowers may check out digital cameras, camcorders, and boom boxes. Cassette players may be checked out for use in the listening carrels.

Architecture and Planning Library
Learning and research in architecture, interior design, urban planning, landscape architecture, and related disciplines are supported by the Architecture and Planning Library and, within it, the extensive collection of architectural drawings and other records in the Alexander Architectural Archive.

Other units
Other units of the University Libraries include the Classics Library. The Collections Deposit Library is a limited-access facility that houses a number of specialized collections.

Information for Borrowers
Loan periods
Courtesy borrowers may borrow most library materials for 28 days. All other holders of University ID cards may borrow most materials for one semester.

A borrower may place a recall request online for a book checked out to another borrower. When the recalled item is returned, the requestor is notified and the item is held for eight days.

Borrower responsibilities
Borrowers are responsible for maintaining correct records of their identification numbers and email addresses with the University and for obtaining corrected borrower cards in case of error or a change in data. Borrowers are responsible for items checked out to them until they are checked in. The University Libraries is not responsible for notifying borrowers that materials are overdue.

Fines and fees for overdue materials
Borrowers are fined for failing to return library materials by the date they are due. Fines vary depending on the loan period of the material; detailed information is published at Charges for Overdue and Lost Material.

Charges for lost or damaged materials
Borrowers are charged for lost and damaged items. Charges include a re-binding or repair charge if a damaged item can be repaired; the cost of replacing a lost item or a damaged item that cannot be repaired, plus a re-binding fee if applicable; a processing fee when an item is reported lost or is presumed by the University Libraries to be lost; and a billing service fee. A detailed list of charges is published by the University Libraries.
Library cards for non-University borrowers

Libraries are open to the public for use of materials. Adult Texas residents who are not members of the University community may borrow materials for home use by purchasing a courtesy borrower card at the Courtesy Borrower Services Desk at the Perry-Castañeda Library, entrance level. A photo ID and proof of Texas residence are required at the time of purchase. The fee may be waived for current members of the Texas Exes, for users who present valid TexShare cards from libraries participating in the TexShare Card Program, and for other users included in reciprocal borrowing agreements in which the University Libraries participates. More information on fees and waivers is published by the University Libraries. Cards are valid for the period of enrollment, membership, or appointment, not to exceed one year.

Blanton Museum of Art

Founded in 1963, the Blanton Museum of Art at The University of Texas at Austin is one of the foremost university art museums in the country and holds the largest public collection of art in Central Texas. The museum is recognized for its Latin American holdings, modern and contemporary U.S. collection, Italian Renaissance and Baroque paintings, an encyclopedic collection of prints and drawings, and Ellsworth Kelly’s Austin. The Blanton’s reimagined grounds, designed by Snøhetta and led by School of Architecture alumni, open in spring 2023.

The Blanton is a vital resource for faculty and students across all areas of the university for study and research. The museum typically serves 25,000 UT Austin students each year and has ongoing teaching partnerships with every school and college at the University, ranging from the Dell Medical School to the Cockrell School of Engineering to the College of Fine Arts. The Blanton’s education team facilitates educational experiences to engage classes from across UT Austin, from courses on cell biology and engineering to courses in the humanities.

The Julia Matthews Wilkinson Center for Prints and Drawings offers students, scholars, and other visitors access to the Blanton’s collection of more than 15,000 works on paper, which comprises more than 80% of the museum’s holdings. The H-E-B Study Room, located within the Wilkinson Center for Prints and Drawings, is one of the most active print study rooms in the country, welcoming nearly 2,500 visitors per year. The print study room provides a venue for close examination of works on paper, a valuable resource for scholars at the University and beyond.

The Blanton offers a range of fellowships to graduate students at The University of Texas at Austin to provide hands-on learning opportunities and other pre-professional experiences to students who are interested in the museum field. This is in addition to the museum’s extensive volunteer program, which is open to both undergraduate and graduate students from the University, as well as others from the community who have a special interest in volunteering at the museum.

Computing Resources

Access to and use of campus information technology resources is governed by university policies and state and federal law. All students, faculty members, staff members, and other users are responsible for knowing and abiding by these regulations on computer use.

While Information Technology Services is the largest on-campus provider of IT resources, individual schools, colleges, and departments also offer technology services for their students, faculty, staff, and guests. UT Austin’s IT services portal, IT@UT, lists services provided by any campus unit, including links to departmental IT resources.

Information Technology Services (ITS)

ITS supports the university's mission of education, research, and public service by providing centralized IT services in a strategic, connected, and transformative way. ITS enables UT Austin to adapt, compete, innovate, and thrive well into the future and focus on mission-enabling endeavors.

Information Technology Services (ITS) provides the core networking, telecommunications, systems, and application services infrastructure at the university. ITS is committed to providing a diverse set of secure, high-quality products and services that support and enhance the academic mission of the institution.

ITS Services Available to All UT Students

MyUT

MyUT is a customized, responsive web portal into university resources students need, including information about registration, classes, tuition bills, financial aid, events, and other official university business. Information is personalized based on student classification and major and is accessed with their EID.

Accounts and Access

Multi-Factor Authentication (MFA)

The university has implemented a multi-factor authentication system to provide an additional level of security when using sensitive online services. Currently, the university is using a tool called Duo. Duo provides a user-friendly and secure multi-factor authentication solution. With multi-factor authentication, the regular UT EID sign on process is enhanced with an additional authentication step.

University of Texas Electronic ID (UT EID)

Each member of the university community is provided with an electronic identifier, or EID, that is used to access secure online campus services and information. A UT EID is required for all secure electronic transactions at the university, including registering for classes, claiming a university email address, and accessing the university Library’s online resources. Self-service tools allow users to manage their UT EIDs online.

ID Center

The ID Center, located on the first floor of the Flawn Academic Center (FAC), is responsible for upgrading your electronic identifier (EID) to allow full access to secure online services and creating identification cards. For example, a service that requires an upgraded EID is claiming financial aid.

Students must present a driver’s license, passport, or other forms of government-issued identification to receive an upgraded EID and a University ID card.

To upgrade an EID online, visit utexas.edu/idcenter and scroll to the “Online EID Upgrade” request.

To obtain an identification card, visit utexas.edu/idcenter and scroll down to the “UT ID Card Online Photo Submission” request.

If you cannot complete the transactions online, please see us in person at the FAC.

Acceptable Use Policy

The university’s Acceptable Use Policy (AUP) provides students, faculty, staff, and university affiliates with guidelines on appropriate and legal uses of computers and information technology at the university. The policy outlines each person’s responsibility when accessing and using
these resources; it includes the university’s position on downloading copyrighted materials.

Violating the AUP can lead to serious consequences, including disciplinary action and criminal prosecution. All members of the university community are urged to become familiar with the AUP.

The student AUP can be found here.

The faculty and staff AUP can be found here.

Email and Collaboration

Email is recognized as an official means of communication from the university to students. Policy and expectations are provided in Appendix M: Use of Email for Official Correspondence to Students.

Available Email Accounts

Two email environments are available to current students, faculty, and staff. Microsoft (Office) 365 and UTMail powered by Google. Refer to the knowledge article ‘What Email Accounts Are Available to Me?’ to decide which best fits your requirements or choose both.

Microsoft 365

When you become an official UT Austin student, you will automatically receive a free Microsoft 365 account. This includes access to communication and productivity applications such as the Microsoft Office suite (Word, PowerPoint, Excel and Outlook) in addition to Microsoft Teams, Sharepoint, Planner and more. To learn more and to login please visit the Microsoft 365 student page. For additional help, refer to the student Microsoft knowledge article.

UTmail

UTmail, UT’s Google Workspace tenant, provides UT Austin students, alumni, faculty, and staff with a University affiliated e-mail address in the @utexas.edu domain. Those who opt in to the service can choose their email address and will receive 5GB of storage. In addition, when you leave the university, you will have the option to keep your email address indefinitely.

Mailing lists

Mailing lists are forums for teaching, collaboration, discussion, entertainment, announcements, and more. Messages are sent directly to subscribers via email.

UTBox

UTBox cloud storage is a campus-wide file sharing service for business and academic purposes. It offers unlimited storage for students, faculty, and staff, a secure way for sharing files across campus, and easy syncing between a desktop, laptop, smartphone, and tablet device. Group accounts are also available for research groups and teams with unlimited storage quotas.

University Blog Service

The University Blog Service, which uses the WordPress platform, is available for use by all students, faculty, and staff. Blogs can be created by, and are available for, individuals, groups, projects, or departments.

Learning and Instructional Tools

Canvas

Canvas, a cloud-hosted learning management system (LMS), is the university’s online instructional hub. It enables students to connect and communicate with their instructors and classmates online, as well as access class materials, engage in discussion threads, receive assignments, and learn in a media rich environment. Canvas also integrates with Zoom to support hybrid and fully remote learning activities.

Zoom

Zoom is a centrally supported video conferencing solution available to university faculty, staff and students that enables you to meet, teach, and learn from anywhere. It is integrated with Canvas, and you can host and join meetings from your mobile device, desktop client or the web. With your Zoom Pro account, you can host up to 300 users in a meeting. Visit https://utexas.zoom.us to access your account. Other video conferencing and collaboration tools are available on campus.

Qualtrics Survey Tool

Qualtrics, a generalized survey service, permits the creation of survey instruments, distribution of the surveys, data storage, and analysis. Qualtrics is user-friendly and able to handle complex designs. Students using Qualtrics are limited to 1000 responses per survey.

UTprint

UTprint is a convenient way for students to print documents. Students simply log in with their UT EID and print to one of the university printers available in select labs and buildings across campus. Items can be printed in black and white or color and are purchased using Bevo Pay.

Wi-Fi, Internet, and Telecommunications

Public Internet Access

ITS provides the campus community with wireless access to the university’s network, utexas. Wireless connectivity is available throughout campus.

Current students, faculty, staff, and official visitors can access utexas by logging in using their UT EID and password. Visitors can gain wireless access using the university’s utguest network. Utguest should not be used by students, faculty or staff. Official university affiliates should use the utexas network. For more information on the campus network, visit the university wireless networks page.

Support Services

Service Desk

The Service Desk provides the university community with a centralized point of contact for help with a variety of topics, including questions concerning information technology, business processes, services and applications. Whether the problem is related to email, EID, Wi-Fi access, or some other inquiry, the Service Desk provides support and troubleshooting by telephone, email, or on a walk-in basis at the FAC.

Campus Computer Store

Conveniently located in the Flawn Academic Center (FAC), the Campus Computer Store is the official technology store of The University of Texas at Austin. The store is an Apple Authorized Campus Store and a Dell Authorized Reseller. We provide service for Apple, Dell and most computer brands. The store carries computer hardware for all major brands including Microsoft Surface, Apple, Dell, HP, Lenovo, MSI and many others! We offer students, alumni, retirees, faculty, and staff exclusive discounts on computers and other select products. The Campus Computer Store is conveniently located on campus in the Flawn Academic Center.
Flawn Academic Center

The Flawn Academic Center (FAC), which has convenient hours, offers flexible study spaces, relaxed collaboration, and printing solutions. Students and others in the campus community are invited to conduct research, write papers, and use the internet. In addition, the ID Center, Service Desk, and the Campus Computer Store are located at the FAC.

Texas Advanced Computing Center

The Texas Advanced Computing Center (TACC) is one of the nation’s leading supercomputing centers. TACC enables discoveries that advance science and society through the application of advanced computing technologies, including high-performance computing, scientific visualization, and massive data storage/archival systems and software. TACC’s technologies enhance the capabilities of university faculty members, staff members, and students, and TACC’s computational experts help researchers and students use these technologies most effectively. Through regional and national partnerships, including the university of Texas Research Cyberinfrastructure (UTRC) initiative and the National Science Foundation’s Extreme Science and Engineering Discovery Environment (XSEDE), TACC resources and services are made available to the national open science research community, but UT Austin researchers have unique access to TACC systems and staff. TACC staff also conduct research and development to produce new advanced computing technologies and techniques that increase the performance, usability, and reliability of advanced computing systems.

Dolph Briscoe Center for American History

The Briscoe Center for American History is one of the nation’s leading research centers for historical study. The center’s archives, libraries, museums, and historic buildings are part of the University of Texas at Austin’s commitment to collecting, preserving, and making available the evidence of the past. The Briscoe Center promotes the university’s teaching and research mission through classes and seminars, academic fellowships, faculty collaborations, and student internships. The center fosters public exploration of history through research services, exhibits, books, public programs, and digital humanities projects inspired by archival holdings.

The Office of the Director of the Briscoe Center is located in the Arno Nowotny Building, the oldest building on the Austin campus. The Briscoe Center has four additional divisions, each serving a unique purpose.

- The Research and Collections Division is located in Sid Richardson Hall Unit 2, on the main campus of the University. It is the Briscoe Center’s main research facility and the repository for most of the Briscoe Center’s book, manuscript, map, newspaper, photographic, sound, and ephemera collections. After a comprehensive renovation of its public spaces on the university campus in 2017, the Sid Richardson Hall location includes a first-class reading room for research; three exhibit galleries; and two classrooms for a variety of public and academic programs such as lectures, panel discussions, symposia, book talks, and film screenings. The Military History Institute, also located in Sid Richardson Hall, is an educational outreach and archival program.
- The Sam Rayburn Museum documents the life and career of former Texas congressman and Speaker of the United States House of Representatives Sam Rayburn (1882–1961). It is located in Rayburn’s hometown of Bonham in northeast Texas.
- The Briscoe-Garner Museum in Uvalde, Texas, is dedicated to the remarkable lives of John Nance “Cactus Jack” Garner and Dolph Briscoe, both Uvalde natives and historically important political figures from Texas.
- Winedale is a complex of historical structures and modern facilities situated on 225 acres near Round Top, Texas. Winedale’s mission is to foster an understanding of Texas history, culture, and native plants and landscapes through research, teaching, and public service.

The Briscoe Center’s Texas history archives have no peer in size, quality, and diversity. Within its collections, the Briscoe Center has primary sources—documents, records, newspapers, photographs, maps, and oral histories—of great breadth and depth on almost all subjects related to the story of Texas. The Briscoe Center’s Texana library of rare and scarce books on the history of Texas is the largest and most valuable collection of its kind. The Briscoe Center is also one of the nation’s leading research centers for Southern history. Its Southern history holdings include the Littlefield Southern History Collection, the Natchez Trace Collection, the Parsons Collection on the Louisiana Purchase, and the Pugh Plantation (Louisiana) Archive.

The Briscoe Center has the largest congressional and political history collection outside Washington, D.C., with a special focus on Texas congressional and gubernatorial papers.

The Briscoe Center’s photography holdings include the largest collection of photographs of the United States presidency outside Washington, D.C., as well as the largest existing collection of photographs of Martin Luther King, Jr. The Briscoe Center owns more than eight million photographic images from the late 1840s to the present, including the Alamo daguerreotype, the oldest datable photograph taken in Texas. The collections place special emphasis on the archives of leading photojournalists.

The Briscoe Center is also one of the leading institutions in the United States for the study of news media history. Collections include the papers of media professionals (including Walter Cronkite, Dominick Dunne, Robert Trout, Morley Safer, Andy Rooney, and Harry Reasoner), the research archives of media industry leaders, and one of the largest newspaper collections in the United States, with original editions of some of the earliest known newspapers published in Texas. Another major research strength is the history of social justice movements in the United States, including the civil rights movement. Highlights include the papers of John Henry Faulk, James Farmer, and C. Wright Mills, and the historical archives of the Texas Observer and the Field Foundation.

The Briscoe Center’s collections document more than three hundred years of United States military history, including America’s involvement in foreign wars from Mexico to Iraq.

The American Energy History Collection provides a comprehensive view of the modern age and the influence of energy in business, society, politics, and culture. It includes the extensive ExxonMobil archives, the largest publicly available collection documenting a single energy company.

The Briscoe Center also has an extensive material culture collection made up of thousands of museum objects at the Briscoe Center’s four sites. The collection includes rare historical artifacts, clothing, textiles, furniture, and other decorative arts dating from the Anglo-American settlement of Texas in the early nineteenth century to the present.

The Briscoe Center presents a wide variety of permanent and temporary exhibits drawn from its collections. Exhibit topics have encompassed Texas and Southern history, news media history, civil rights, women’s
history, decorative arts, the entertainment industry, and Texas music. The Briscoe Center offers exhibits of photographs on tour to museums across the country.

The Briscoe Center’s website provides access to valuable resources to researchers worldwide. The site includes a digital media repository of more than twenty thousand photographs, maps, documents, and videos; finding aids to hundreds of major collections; and online exhibits.

Harry Ransom Center

The Harry Ransom Center is an internationally renowned humanities research library and museum at The University of Texas at Austin. Its extensive collections provide unique insight into the creative process of writers and artists, deepening our understanding and appreciation of literature, photography, film, art, and the performing arts. The Center’s collections include nearly one million books, more than 42 million manuscripts, five million photographs, and 100,000 works of art. Visitors engage with the Center’s collections through research and study, exhibitions, publications, and a rich variety of program offerings including readings, talks, symposia, and film screenings. For more information about the Center and its collections, please consult the Ransom Center’s website.

The Ransom Center invites use by University faculty members, staff members, students, and members of the public engaged in research across a range of scholarly disciplines. University faculty are encouraged to work with the Center to design collaborative teaching experiences in the galleries and seminar rooms. Each year, the Center awards more than 50 fellowships for projects that require substantial on-site use of its collections including fellowships for graduate students writing their dissertations. In addition, undergraduate internships and volunteer opportunities for students are available.

Visitors may access collection materials in the second-floor Reading and Viewing Rooms. The first-floor galleries feature rotating exhibitions, as well the Gutenberg Bible, one of only 20 complete copies in the world that survive intact, and the Niépce Heliograph, one of the oldest surviving photographs taken in a camera, both of which are on permanent display in the lobby.

Hours of operation for the Reading and Viewing Rooms and the exhibition galleries are available on the Ransom Center’s website or by calling (512) 471-8944.

Hogg Foundation for Mental Health

The Hogg Foundation for Mental Health envisions a future in which the people of Texas thrive in communities that support mental health and well-being. Health is not solely an individual responsibility, but also a product of community conditions. Working collaboratively, we can change the patterns of mental illness across Texas, especially for marginalized populations.

In recognition of the systemic and structural nature of barriers to mental health, the foundation addresses challenges through a variety of approaches, including grantmaking, convening, research and public policy. Additionally, the foundation offers graduate-level scholarships and fellowships to encourage and support research and study in the field of mental health.

The foundation was established in 1940 by the children of Governor James Hogg. The original $2.5 million endowment came from the estate of Will C. Hogg, the eldest of the Hogg children. Upon his death, his sister Ima and his brother Mike established the foundation in his memory at The University of Texas at Austin. Ima, who is known fondly as the mother of the foundation, imagined a future in which people with mental health challenges would be treated with respect and dignity, and mental health would be seen as indivisible from all other aspects of a flourishing and healthy life.

The foundation is part of the Division of Campus and Community Engagement at The University of Texas at Austin and is located three miles west of the main campus at 3001 Lake Austin Boulevard.

Learn more at hogg.utexas.edu. Check the website frequently for updates and changes to programs and activities.

KUT and KUTX Public Radio

KUT 90.5, established in 1958, and KUTX 98.9, established in 2013, are licensed by the Federal Communications Commission to The University of Texas at Austin and operate as a department within the Moody College of Communication. Together, the stations strive to broaden the public’s perspective on the world through in-depth news coverage delivered through a local lens, and by exploring the region’s rich musical and cultural scene. Each month, more than 750,000 Central Texans listen to KUT and KUTX or visit KUT.org and KUTX.org.

A founding member of NPR, KUT 90.5 established its news department in 2002. Among the largest newsrooms in Texas, KUT News uses the highest journalistic standards to shed light on Central Texas’ civic challenges and opportunities. KUT News has won hundreds of state, national, and international awards for journalistic excellence. In 2015, KUT launched “Texas Standard,” a one-hour daily news magazine program airing on 30 public radio stations across the state with coverage of politics, lifestyle, the environment, technology, innovation, and business – from a Texas perspective. KUT News is part of The Texas Newsroom, a public radio journalism collaboration that includes NPR, KERA in North Texas, Houston Public Media, Texas Public Radio in San Antonio, and other stations across the state.

KUTX 98.9, The Austin Music Experience, is the destination for new and diverse music from the artists driving the sound of Austin today – from new and local artists, to music that’s stood the test of time. KUTX’s band of passionate music fans strives to be caretakers of the Austin music scene by paying tribute to its history, while contributing in its evolution. KUTX serves its fellow music fans – as well as artists, venues, sound engineers, record stores, merch makers, bartenders and anyone else who works in the Austin music "ecosystem."

As a media organization, KUT and KUTX has a responsibility to reflect the diverse culture, issues, and lives of residents of Central Texas and the state. We believe KUT, as a member of a free and independent press, has a critical role in the battle against racism, spotlighting inequity and lifting the voices of overlooked and underserved communities. We also believe KUTX, as a key voice in the Austin and Texas music scene, can combat racism by broadening cultural understanding, exposing listeners to new cultures and communities through music, and amplifying the voices of Black, Latino and other artists of color.

Finally, KUT and KUTX’s work is directly supported by a community of sustaining members, local businesses and foundations, whose investments power the music, news and conversations that matter to Central Texas.

KUT and KUTX offer student internship and employment opportunities each year. For more information on internship opportunities including descriptions and how to apply, visit the KUT website.
Marine Science Institute

The Marine Science Institute (UTMSI), located in Port Aransas, Texas, is home to the Department of Marine Science in the College of Natural Sciences. The Institute is dedicated to advancing and sharing knowledge of estuaries, coastal, and blue-water oceans through research, education, and outreach programs. Marine science faculty, students, and professional staff conduct basic and applied research with global reach, from the Gulf of Mexico waters to the polar oceans. The department is well known for its master's and doctoral degree programs in marine science. A Bachelor of Science in Biology: Option III: Marine Science undergraduate degree is available through the College of Natural Sciences at The University of Texas at Austin.

Founded in 1941, the 62-acre UTMSI main campus and 10-acre Port Street campus are strategically located on Mustang Island’s north shore, offering unparalleled access to open Gulf waters and the pristine bays and estuaries of Texas. These natural habitats include fresh to hypersaline waters; sea grass and mud flats; oyster reef; sand beaches; dune areas; the open Gulf; and estuarine nurseries. Core research areas include marine ecosystem structure and function, fisheries biology, organismal biology, fish physiology, and marine biogeochemistry.

The Marine Science Institute facilities include approximately 200,000 square feet of research and teaching laboratories, digital classrooms, study areas, a library, a visitor center, an auditorium, meeting rooms, offices, and seawater for laboratory experiments. A dormitory, apartment housing, cafeteria, and fitness facilities support resident student and visiting scholar needs. The institute's boat basin harbors watercraft ranging from shallow water skiffs to the R/V Katy, a 57-foot trawler.

The Marine Science Institute is home to several unique programs. It manages two federally sponsored programs; the Mission-Aransas National Estuarine Research Reserve and the Beaufort Lagoon Ecosystems Long Term Ecological Research Program (LTER). The Mission-Aransas Reserve, at 186,189 acres, is the third-largest estuarine reserve in the nation and focuses on research, education, and stewardship. The Mission-Aransas Reserve maintains outreach facilities and programs of the Patton Center for Marine Science Education in Port Aransas, and the Bay Education Center in Rockport, Texas. The Reserve also operates the Amos Rehabilitation Keep (ARK), which rescues and rehabilitates hundreds of sea turtles and marine birds annually. The Beaufort Sea (LTER) is a research program along the northern Alaskan Arctic coastline in the Beaufort Sea, and the program is focused on studying the relationship of seasons and Arctic ecosystems. The Institute also operates the Fisheries and Maricultural Laboratory on its Port Street Campus, which conducts research in captive spawning, larval development, nutrition, and physiology of recreationally and commercially important fishes.

Faculty, graduate, undergraduate students, and professional research staff at UTMSI have achieved landmark discoveries in marine science spanning decades of local and global interests. The record of excellence in research, teaching, and mentorship provides an outstanding opportunity for new students interested in marine science career paths.

The University of Texas McDonald Observatory at Fort Davis

Understanding the nature of dark energy—a force that is causing the universe to expand faster as it ages—is one of the great challenges in modern science. McDonald Observatory is meeting that challenge with the Hobby-Eberly Telescope Dark Energy Experiment (HETDEX), an innovative experiment that will examine more than one million galaxies that are billions of light-years from Earth. These observations will reveal new details about how the expansion rate has changed over the eons, helping narrow the list of possible explanations for dark energy.

This experiment and many others are adding to McDonald Observatory’s legacy of innovation and discovery. Dedicated in 1939 in the Davis Mountains of West Texas, the Observatory is a leader in astronomical research, education, and outreach. It hosts a battery of telescopes, including one of the world’s largest. Its astronomers study everything from our own solar system to the most distant galaxies, and they develop new instruments for observing the universe.

McDonald Observatory is extending its reach far beyond Texas as a partner in the Giant Magellan Telescope, a mammoth instrument under construction in Chile. Its primary mirror, which gathers and focuses starlight, will consist of seven segments. Combined, they will cover almost as much area as a basketball court, and will see deeper into space than any telescope yet built. With this telescope, astronomers expect to snap pictures of planets in other star systems and look at the dawn of the universe, allowing them to see the formation of the first galaxies.

McDonald Observatory has been operating some of the world’s largest telescopes since its beginning. Its first telescope, with a mirror spanning 82 inches (2.1 meters), was the second-largest in the world. Its second major telescope, completed three decades later, was the world’s third-largest at the time. And today, McDonald Observatory hosts the Hobby-Eberly Telescope (HET), with a segmented primary mirror that spans 33 feet (10 meters).

HET has been upgraded to host HETDEX and many other research projects. Engineers have replaced the top half of the telescope, installing new optics that provide a wider view of the sky. And they are finalizing powerful new instruments, including a suite of 156 spectrographs known collectively as VIRUS (Visible Integral-Field Replicable Unit Spectrographs). These instruments allow astronomers to measure an object’s temperature, chemical composition, and motion through space. VIRUS will be able to look at as many as 34,000 galaxies or other objects at a time, which is almost like looking at the sky with 34,000 individual telescopes.

In addition to its research role, McDonald Observatory is a busy training ground for astronomy students, both graduate and undergraduate. Students conduct their own observations with some of the telescopes, providing valuable experience for their future careers as scientists and teachers. They also have opportunities to help develop new instruments, which extend the capabilities of the telescopes.

McDonald Observatory is also a leader in astronomy outreach. It produces a daily radio program, StarDate, that airs on more than 250 stations and reaches millions of listeners every week, as well as the bimonthly StarDate magazine.

The Frank N. Bash Visitors Center at the Observatory hosts tens of thousands of visitors every year. It offers interactive exhibits and observatory tours, and conducts star parties every Tuesday, Friday, and Saturday night. The Visitors Center also hosts regular workshops and special events for students. These programs have impacted thousands of teachers and hundreds of thousands of students.

For more information about McDonald Observatory outreach, education, and research, visit the website.

Other Libraries in Austin

The Lyndon Baines Johnson Library and Museum, located on the eastern edge of the campus, is operated by the National Archives and Records Administration. Though not part of the University library system, this
library is a rich resource for scholars studying the twentieth century. Faculty members and students also have access to other public and private libraries in the Austin area, including several that focus on special areas of interest.

**Tarlton Law Library/The Joseph D. Jamail Center for Legal Research**

The Tarlton Law Library in the Jamail Center for Legal Research supports the research and curricular needs of the students and faculty of the School of Law, as well as the research needs of the University community, members of the bar, and the public. The highly qualified library staff provides reference services, offers individual and group instruction, and maintains and organizes the collection for efficient use. Librarians teach advanced legal research courses on a range of topics, including Texas law, corporate and securities law, foreign and international law, and general advanced legal research.

The Tarlton Law Library is one of the largest academic law libraries in the country, with a collection including extensive print and electronic resources. Tarlton has a comprehensive collection of United States primary and secondary legal materials, as well as an excellent collection of foreign and international legal resources. Tarlton is a selective depository for United States government documents. Tarlton also has a broad interdisciplinary collection from the social sciences and humanities. Special collections at Tarlton include the papers of former United States Supreme Court Justice Tom Clark, law school history archival collections, and an extensive collection of rare and antiquarian law books.

Tarlton offers law students access to Bloomberg Law, Lexis, Westlaw Precision, and other legal research databases. Computers, a building-wide wireless network, printers, and scanners are available for law student use. The facility has group study rooms; a student collaborative study space; and tables, carrels, and comfortable seating throughout. The Tarlton Law Library website offers online resources and finding aids, including digital collections highlighting Texas legal history and law school traditions.

Almost 1,000 paintings, prints, documents, textiles, and pieces of furniture from the Hyder Collection enhance the ambiance of the library and create an intellectually rich environment for research and study.

**The Teresa Lozano Long Institute of Latin American Studies**

The Teresa Lozano Long Institute of Latin American Studies (LLILAS) is one of the largest and oldest Latin American Studies programs in the United States. Founded in 1940, LLILAS is a vibrant center for the interdisciplinary study of Latin America and the Caribbean, and for the dissemination of this research and creative production. LLILAS faculty affiliates—numbering over 160—teach courses on a broad array of topics and train students for BA, MA, and PhD degrees in Latin American Studies. In addition, faculty teach courses in their respective disciplines in more than thirty academic departments across the University, melding a Latin American focus with their particular areas of expertise. Graduate dual-degree programs are available to combine Latin American studies with business administration, communication studies, community and regional planning, global policy studies, information studies, journalism, law, public affairs, radio-television-film, and social work. Latin American research occupies a significant place in several other colleges, particularly in the areas of fine arts, information studies, education, law, and architecture.

LLILAS hosts an average of three Latin American visiting professors annually through the Edward Larocque Tinker Chair in Latin American Studies, endowed by the Tinker Foundation, for distinguished Latin American scholars; and the UT-Fulbright Visiting Professorship, under an agreement with the Fullbright Commission of Brazil.

In September 2011, LLILAS joined forces with the Nettie Lee Benson Latin American Collection, the largest university research collection on Latin America in the United States, to become LLILAS Benson Latin American Studies and Collections. Operating under a leadership team led by a LLILAS director and a Benson director, the partnership seeks to generate knowledge and understanding of Latin America and U.S. Latina/o communities through teaching, research, digital archives, outreach, and scholarly exchange. Throughout the year, LLILAS Benson sponsors symposia and lectures by visiting and resident specialists, and engages the public through public events, exhibits, and outreach to K–16 educators and students to foster greater knowledge of Latin America around the state and the nation.

LLILAS Benson is also a frequent collaborator with a number of partner institutions, including The University of Texas Libraries, the Bernard and Audre Rapoport Center for Human Rights and Justice, the Center for Mexican American and Latina/o Studies, the Department of African and African Diaspora Studies, the Center for Women's and Gender Studies, and the Department of Spanish and Portuguese. In addition, LLILAS Benson has formal relationships with many institutions throughout Latin America, fostering the exchange of students, faculty, and research.

LLILAS runs two area centers, the Mexico Center and the Brazil Center. The Mexico Center was established in 1980 to coordinate the advancement of Mexican studies at the University. Its initiatives bring together students, faculty, visiting researchers, and the communities of Austin, Texas, and Mexico to foster a fuller understanding of the region. The center’s Puentes initiative, inaugurated in 2019, established a yearly summit designed to foster collaboration between UT Austin scholars and their Mexican counterparts in a variety of fields. The Mexico Center sponsors the annual Austin Lecture on Contemporary Mexico, which invites a prominent Mexican intellectual to campus. The Brazil Center, founded in 1995, supports Brazilian studies across academic disciplines at the university in order to promote collaborative research and exchange between Texas and Brazil. Approximately one-quarter of LLILAS-affiliated faculty dedicate all or part of their research and/or instruction to Brazil-related content in diverse disciplines. LLILAS also houses the Argentine Studies Program to facilitate scholarly exchange between Argentina and the University. The institute's Center for Indigenous Languages of Latin America (CILLA) and its Indigenous Languages Initiative promote research and training programs about Indigenous languages, as well as teaching by native-speakers of Indigenous languages that form an important part of the society and culture of Latin America. The Archiving Black America initiative centers archival work and research on the Black Diaspora in Latin America. The Caribbean Studies Initiative showcases UT Austin's interdisciplinary cohort of Caribbean-focused scholars and students.

LLILAS Benson is the home of AILLA, the Archive of the Indigenous Languages of Latin America, a digital archive of recordings and texts in a wide range of genres that includes a wealth of language documentation materials. LLILAS Benson's online magazine, Portal, publishes the work of faculty, students, staff, and invited authors on a wide variety of topics relating to Latin America.

LLILAS Benson maintains one of the largest collections of digital assets designed to support Latin American studies in the world. The LLILAS Benson Digital Collections and Content LibGuide provides an overview of digital content managed, hosted, and/or curated by LLILAS Benson, as well as other tools and platforms that support discovery and access.
to digital content. The guide includes materials digitized from LLILAS Benson's collections and from collaborative partnerships with other institutions and researchers. Resources highlight the heritage of Latin American, U.S. Latinx, African Diasporic, and Indigenous American communities. Special focuses include human rights, colonial documents, visual content, Indigenous languages, and popular culture materials.

LLILAS Benson is located in Sid Richardson Hall unit 1, on the eastern edge of The University of Texas at Austin campus. Additional information is available through the LLILAS website and the Benson website.

**Texas Memorial Museum**

Texas Memorial Museum is located on the main University campus at 2400 Trinity Street. The museum excites, engages, and connects curious minds of all ages.

The Art Deco style building was constructed 1936-1938 with state and federal funds, contributions, and proceeds from the sale of Texas Centennial coins sponsored by the American Legion. The museum opened to the public January 15, 1939. It became part of The University of Texas at Austin in 1959 by legislative enactment.

The museum displays the university's stunning biological and geological collections, including meteorites, rocks, fossils and Texas wildlife. New exhibits tell stories of Texas science and natural history, connecting visitors to the natural world from prehistoric life to the impacts made by current research and technology.

The museum is open from 10:00 am to 5:00 pm Tuesday through Saturday and 1:00 pm to 5:00 pm on Sunday; closed on Monday and major holidays. General admission is $10 for adults, $5 for children 12 and under, and free for The University of Texas at Austin students, staff, and faculty with valid UT ID. Public education programs and special events are held throughout the year.

**University of Texas Press**

The University of Texas Press publishes approximately 85 new books and 13 journals each year in both print and digital formats. Although books have been published under the University of Texas imprint since 1922, the Press was formally established in 1950. The imprint is guided by a 10-member Faculty Advisory Committee appointed by the president and the Faculty Council.

In the years since its founding, UT Press has become a publisher of international scope, issuing more than 3,500 works in a wide range of fields. The major areas of concentration are American studies, architecture, classics and the ancient world, film and media studies, food studies, history, Jewish studies, Latin American and Latinx studies, Middle Eastern studies, music, and photography; as part of its mission to serve the people of Texas, the Press also produces books on the history, culture, arts, and environment of the state.

UT Press regularly collaborates with the Dolph Briscoe Center for American History, the Center for Mexican American Studies, the Center for Middle Eastern Studies, the Institute of Classical Archaeology, the Schusterman Center for Jewish Studies, the Stark Center for Physical Culture and Sports, and the Teresa Lozano Long Institute for Latin American Studies, as well as the Blanton Museum of Art and the Harry Ransom Center.

The Press also offers a fellowship program designed to give one year of experience in book publishing. The objective of the program is to help prepare the fellow for a career in book publishing by providing intensive training in selected departments with exposure to and instruction in the operations of the other departments.

The Press offices are located at the Lake Austin Centre, 3001 Lake Austin Boulevard.

For more information, please see the UT Press website.

**Appendices**

**Appendix A: Emergency Notification Policy**

A. **Policy Statement**

As safety and emergency notification practices are under greater scrutiny at institutions of higher education, it is the position of The University of Texas at Austin that at least one emergency contact person must be listed for each student enrolled at the University. A student's cell phone number is also part of the emergency notification protocol in case the University should need to contact the student via text message about critical incidents on campus.

Information gathered remains confidential to the extent allowed by law.

B. **Scope**

This policy applies to all admitted and enrolled students of the University. This policy provides for two distinctly different types of emergency notification. First, it details all the ways the University provides notification about emergencies to students, faculty members, and staff members. Second, it indicates the way the University will follow to notify a student's designated emergency contact in the event of personal distress or missing person status.

C. **University Communication of Emergency**

Emergencies may range from inclement weather to building evacuations to campus closures, and the University has a variety of tools to communicate with the public in the event of these and other possible emergencies. Depending on the type of emergency, some or all of the following tools may be used to communicate with faculty members, staff members, and students:

1. **Siren System**

   This system is tested at about noon on the first Wednesday of every month. It delivers a siren warning and public address in the event of certain outdoor emergencies. More information about the siren system is available.

2. **Emergency Website**

   The emergency website is updated with information during actual emergencies or campus closures.

3. **University Emergency Information Line, (512) 232-9999**

   Students and faculty and staff members may call this main number for information about campus closures.

4. **Campus Television Emergency Announcement System**

   Emergency announcements will override residence hall and campus cable television, instructing the viewer where to go for additional information.

5. **Text Messaging Service**

   The University contracts with a third-party vendor that provides the technological ability to send text messages to members of the campus community. Only text messages about emergencies and messages used periodically to test the system are sent. Any data provided to the vendor by the University is protected by contractual arrangements.

6. **Pager System**

   Campus first responders, resident advisors, and some building managers are part of the Austin Warning and Communication System.
System paging system. Pagers send text messages about emergencies on campus and alert city responders like the Austin Police Department, the Austin Fire Department, Emergency Medical Services, and the Office of Emergency Management to campus crisis situations.

7. Fire Panel Systems
   Residence halls are equipped with fire panel systems that have a public address capability. Resident advisors are trained to use these systems in emergencies in order to make announcements to the entire building regarding evacuation, shelter in place, or other responses.

8. University Group E-mail
   During emergencies, UT Safety Alert sends an “urgent” group e-mail to every student and faculty and staff member. The message directs individuals to the emergency Web site for additional information and instructions.

9. Voice Mail to Office Telephones
   This system leaves a voice message on every faculty and staff member’s office phone on campus.

10. Local News Media
    The Office of Public Affairs sends press releases and makes calls to contacts on a local media list. Because of the transient nature of its population, the University depends a great deal on broadcast media to notify students, faculty members, and staff members of emergencies before or during their commutes.

11. Public Safety Patrol Car Announcements
    University of Texas Police Department patrol cars are equipped with public address systems that officers can use to provide instructions to pedestrians during emergencies.

12. Telephone Tree
    The president’s office has a telephone tree of department contacts that is activated during an emergency.

D. Emergency Contact Information
   Using the online update form in UT Direct, every student must provide the University with the name and contact information of at least one individual who could be contacted in the event of an individual emergency or to report the student missing. Students under the age of eighteen (unless emancipated) must provide contact information for at least one custodial parent. Students over the age of eighteen may designate anyone of their choosing to be the emergency contact. If a student living in University housing is determined to have been missing for more than twenty-four hours, University Housing and Dining will notify law enforcement (The University of Texas Police Department) and the Student Emergency Services unit in the Office of the Dean of Students to initiate missing person procedures. Student Emergency Services will notify the designated emergency contact for a student identified as a missing person within twenty-four hours of receiving the report.

E. Updating Emergency Contact Information
   Students are required to update their primary cell phone and emergency contact information annually in order to keep the information current. Students who fail to update their emergency contact information have holds placed on their records that keep them from registering for classes. The hold is removed when the student submits the required emergency contact information.

F. Privacy and Confidentiality
   Official use of emergency contact information is subject to the same privacy and record retention requirements as other official University information.

G. Authoritative Source
   The authoritative source of this policy and responsibility for its implementation rests with the vice president for student affairs. The University emergency protocols are managed by the associate vice president for University operations.

H. For Assistance
   Questions about data security should be directed to the registrar at (512) 475-7575. Questions about acceptable use standards should be directed to the Office of the Dean of Students at (512) 471-5017.

Appendix B: Official Extracurricular Student Activities

Athletic Activities
   The University is a member of the National Collegiate Athletic Association and the Big Twelve Conference and, in matters involving intercollegiate athletics, is bound by the provisions contained in the constitutions, bylaws, and rules of these organizations.

Intercollegiate athletics for men. The University has men’s intercollegiate athletic teams in baseball, basketball, cross country, football, golf, swimming and diving, tennis, and indoor and outdoor track and field. These sports are administered by the Department of Intercollegiate Athletics for Men, which reports to the president.

Intercollegiate athletics for women. The University has women’s intercollegiate athletic teams in basketball, cross country, golf, rowing, soccer, softball, swimming and diving, tennis, indoor and outdoor track and field, and volleyball. These sports are administered by the Department of Intercollegiate Athletics for Women, which reports to the president.

The Intercollegiate Athletics Councils. The Intercollegiate Athletics Council for Men and the Intercollegiate Athletics Council for Women provide advice on relevant issues to the respective departments and the president of the University. Each council is composed of

a. two students, appointed by the president to one-year terms that begin at the start of the fall semester; one student serves a one-year term as student member–elect, and one student serves a one-year term as student member; the student member–elect shall in all cases succeed the student member by automatic appointment of the president, unless the council advises the president that the student member–elect has failed to attend at least half of the council meetings;

b. one former student appointed by the Texas Exes to a one-year term that begins at the start of the fall semester;

c. two persons appointed by the Board of Regents to four-year staggered terms, with appointments beginning at the start of the fall semester in the appropriate even-numbered year;

d. one voting member of the General Faculty who does not hold a senior administrative position, appointed by and serving at the pleasure of the president as a member and chair of the council; and

e. four members of the General Faculty appointed by the president to four-year staggered terms, with one such faculty member appointed each year and with the term beginning at the start of the appropriate fall semester.

Each council member serves until his successor is appointed, and each member may be reappointed to one or more additional terms.

EADA reports. The Equity in Athletics Disclosure Act (EADA), an amendment to the 1994 Improving America’s Schools Act, requires certain coeducational institutions of higher education to prepare annually and make available a report on participation rates, financial
support, and other information on men’s and women’s intercollegiate athletic programs.

**Sport Clubs**

A variety of sports and recreation programs are administered by the Department of Recreational Sports (p. 76) through the Sport Club program. Where applicable, the regulations for sport clubs are consistent with the requirements established by appropriate national sports organizations. In each sport club, the University reserves the right to adopt additional regulations.

**Nonathletic Activities**

Nonathletic activities include extracurricular student events, contests, and programs, and elective, honorary, and appointive positions under the jurisdiction and supervision of a University agency. Eligibility rules for participation in each official nonathletic student activity shall be determined, adopted, and administered by the agency having jurisdiction over and responsibility for the activity. Participation in any of the above named nonathletic activities means

- managing or taking part in an intercollegiate or other public contest, program, or performance under the jurisdiction of an official nonathletic agency;
- holding, by official election or official appointment, any office, title, or honorary or representative position recognized by the constitution or governing regulations of an official nonathletic agency; and
- holding a special all-University honorary or representative position designated as such by the dean of students.

**Appendix C: Institutional Rules on Student Services and Activities**

There are in the Institutional Rules on Student Services and Activities (known as the Institutional Rules) a number of references to portions of the Rules and Regulations of the Board of Regents of The University of Texas System (known as the Regents’ Rules and Regulations). These references are included because (1) all of the Regents’ Rules and Regulations have full force and effect as concerns The University of Texas at Austin; (2) certain aspects of student services and activities are treated only in the Regents’ Rules and Regulations; and (3) certain portions of the Institutional Rules have since their enactment been superseded or amended by the Regents’ Rules and Regulations.

The Regents’ Rules and Regulations (http://www.utsystem.edu/board-of-regents/rules) are published by the board.

**Chapter 1. Student Orientation**

**Subchapter 1–100. General Provisions**

**Sec. 1–101. Purpose and Application**

- Student orientation programs are designed to initiate the integration of newly admitted first-year and transfer undergraduate students into the academic, cultural, and social climate of the University.
- The primary purpose of a University orientation program is to help new undergraduates understand the nature of the University, the educational opportunities available to them, the values and functions of the University community, and the central objective of the University as an academic enterprise. It also permits students to participate in academic advising and to learn about matters relating to student registration, housing, campus activities, and other aspects of University life.

**Sec. 1–102. Definitions**

In this chapter, unless the context requires a different meaning,

1. “dean of students” means the dean of students or the dean’s delegate or representative;
2. “director” means director of New Student Services;
3. “student” means a person enrolled in residence at the University or a person accepted for admission or readmission to the University while that person is on the campus; and
4. “University” means The University of Texas at Austin.

**Subchapter 1–200. Administration of Orientation**

**Sec. 1–201. Duties of Director**

The director, in direct coordination with the Offices of the Provost, Vice President for Student Affairs, and Dean of Students, shall actively guide, plan, implement and evaluate the programs and services designed to introduce incoming students to the University. In carrying out their responsibilities, the director is administratively responsible to and will report to the dean of students.

**Subchapter 1–300. Student Conduct**

**Sec. 1–301. Rules and Regulations Applicable to Student Conduct**

Prospective students attending an orientation program are subject to the rules and regulations governing student discipline and conduct set out in chapter 11 of the Institutional Rules.

**Chapter 2. The Office of Admissions and the Office of the Registrar**

**Subchapter 2–100. General Provisions**

**Sec. 2–101. Definitions**

In this chapter, unless the context requires a different meaning,

- “student” means a person enrolled in residence at the University or a person accepted for admission or readmission to the University while that person is on the campus; and
- “University” means The University of Texas at Austin.

**Subchapter 2–200. The Office of Admissions**

**Sec. 2–201. The Vice Provost of Admissions**

The vice provost of admissions is the administrative officer responsible for supervising the Office of Admissions and reports to the vice provost.

**Sec. 2–202. The Office of the Vice Provost of Admissions: Duties**

a. Serve as the coordinating office for University relations with high schools, junior and community colleges, and other educational institutions. A responsibility of this office is to disseminate information to prospective students about the University and about the admission process.

b. Be responsible for the University’s program of visitation to high schools and junior and community colleges. Develop outreach programs through which the University communicates with its constituents concerning the educational opportunities at the University.

c. Receive and evaluate the admission credentials of each undergraduate applicant and determine the admission eligibility for these students and inform them of their admission status.
Subchapter 2–300. Admissions
Sec. 2–301. Requirements, Procedures, and Policies
The requirements, procedures, and policies for admission and transfer to the University and for reentry after a semester’s absence are set out in General Information and in the Undergraduate, Graduate, and Law catalogs.

Sec. 2–302. Review and Appeal
a. On request of a student, the Admission Appeals Committee will review a decision of the Office of Admissions pertaining to admission or transfer.
b. A student may appeal a decision of the Admission Appeals Committee to the vice provost of admissions.
c. A student may appeal a decision of the vice provost of admissions to the provost.

Subchapter 2–400. Rules Applicable to Nonresidents
Sec. 2–401. Where Found
General Information prescribes rules applicable to nonresidents in the Admission Section (p. 15).

Sec. 2–402. Appeal
A student or applicant may appeal a decision of the Office of Admissions pertaining to residence status through the Office of General Counsel of The University of Texas System to the Office of the Chancellor by following the established procedure administered through the Office of Admissions.

Subchapter 2–500. The Admissions and Registration Committee
Sec. 2–501. Membership
a. The Admissions and Registration Committee has 15 members. The members are
1. six members from the General Faculty, for three-year staggered terms;
2. two staff members for two-year staggered terms;
3. two students appointed by the president from a panel of names submitted by Student Government for one-year terms;
4. two students appointed by the president from a panel of names submitted by the Senate of College Councils for one-year terms;
5. one student appointed by the president from a panel of names submitted by the Graduate Student Assembly for a one-year term; and
6. two members from the Faculty Council, appointed by the chair of the Faculty Council for one-year terms.
b. The vice provost of admissions and the registrar serve the committee as administrative advisors without vote.

Subchapter 2–600. The Office of the Registrar
Sec. 2–601. The Registrar
The registrar is the administrative officer responsible for supervising the Office of the Registrar and reports to the senior vice provost for Enrollment Management.

Sec. 2–602. The Office of the Registrar: Duties
The Office of the Registrar will
a. maintain the official inventory of courses;
b. maintain, by department and subject, records and reports about the class sizes;
c. assist departments in scheduling classes in a manner that results in optimum space utilization;
d. supervise and administer registration procedures;
e. prepare official publications, including bulletins, catalogs, and course schedules;
f. prepare statistical studies and reports of enrollment;
g. schedule final examinations, except in the School of Law and the Dell Medical School;
h. collect, record, and distribute grades;
i. maintain official academic records and issue transcripts;
j. prepare and issue official certifications regarding attendance, enrollment, and status;
k. prepare and issue diplomas;
l. certify student athletes for NCAA competition;
m. administer degree audits; and
n. certify the eligibility for student veterans for Veteran Services.

Subchapter 2–700. Jurisdiction and Transfer
Sec. 2–701. Jurisdiction
a. Each student by registering enters a college or school of the University and is subject to the rules and regulations of that college or school. A student pursuing simultaneous majors in two colleges or schools is subject to the rules and regulations of both.
b. Each student who takes a course in a college or school other than the college(s) or school(s) in which he or she is registered is subject to the requirements and rules applicable to that course in the college or school in which the course is taught.

Sec. 2–702. Transfer to Another Division
a. Students who have completed 45 or fewer semester hours of college credit and are not on scholastic dismissal are eligible to transfer between colleges and schools within the University regardless of their grade point average, provided they satisfy all conditions and procedures that apply to students who enter the new college or school and any program thereof when first admitted to the University. Students who have completed more than 45 semester hours of credit must present a 2.00 University grade point average to qualify for transfer between colleges and schools within the University. Transfer students from other institutions are eligible to transfer between colleges and schools within the University upon completion of their first semester (including summer) session at The University of Texas at Austin regardless of the number of semester hours accumulated, provided they satisfy all conditions and procedures that apply to students who enter the new college or school and any program thereof when first admitted to the University.
b. Students must complete transfer procedures by the end of the eighth class day of the semester (or the fourth class day of the summer session).
c. Graduate students not previously admitted to the University as undergraduates may transfer from the Graduate School to an undergraduate college or school only if they (1) meet the general conditions for transfer, (2) satisfy any pertinent admission requirements for that undergraduate college or school, and (3) have the additional approval of the vice provost of admissions.

Subchapter 2–800. The Official Transcript of Academic Record

Sec. 2–801. Nature of Transcript

a. The provisions of chapter 9 of the Institutional Rules describe the official transcript of academic record.

b. A student may obtain from the Office of the Registrar a copy of his or her transcript of academic record by paying a fee prescribed by the registrar. The transcript includes the recorded results of the student’s classwork at the University.

Subchapter 2–900. Reports of Academic Work

Sec. 2–901. Semester Reports from Registrar

At the end of each semester and at the end of the summer session, the registrar will provide a report of each student’s academic achievement to the student through a secure Web site.

Chapter 3. Financial Aid

Subchapter 3–100. General Provisions

Sec. 3–101. Purpose

a. As a state institution of higher education, the University endeavors to provide higher education for all eligible persons and to assist in the pursuit of their studies those who do not have sufficient financial resources.

b. The Office of Scholarships and Financial Aid is responsible for administering certain funds for financial aid to students; for keeping abreast of programs relating to financial aid for higher education and to employment opportunities for students funded through federal, state and institutional work-study programs; for disseminating information relating to available financial aid programs and the cost of attending the University to enrolled students and prospective students; and for assisting students who have been accepted for enrollment at the University or who are enrolled at the University in obtaining loans, grants, scholarships, and employment to supplement payment of their educational expenses.

Sec. 3–102. Definitions

In this chapter, unless the context requires a different meaning, the following definitions apply.

1. “Advisor” means the single individual a student has elected to accompany him or her to a meeting with the director or a hearing regarding an aid decision. As the student is solely responsible for presenting his or her case during the hearing, an advisor serves only in a support capacity and may not verbally advocate for the student in a meeting with the director or in a hearing. If an advisor poses a conflict of interest, the director or the Subcommittee on Appeals may elect to excuse his or her presence, and advisors may be dismissed from any proceedings if they disrupt the process.

2. “Aid decision” means a written decision regarding the amount of financial aid award to a student by the University under a financial aid program administered by the Office of Scholarships and Financial Aid and includes the findings of fact in support of the decision.

3. “Day” means calendar day.

4. “The Director” means the assistant vice provost of scholarships and financial aid or the director’s delegate.

5. “Financial aid record” means a student record as defined in subsection 9–202(a)(4) of the Institutional Rules that is maintained by the director in connection with a financial aid program administered by the Office of Scholarships and Financial Aid. The record may include applications, forms, notices, hearing records, aid decisions, and other documents required under this chapter or deemed relevant by the director.

6. “Student” means a person who is currently enrolled at the University, or who is accepted for admission or readmission to the University, or who has been enrolled at the University in a prior semester and is eligible to continue enrollment in the semester (including summer) that immediately follows.

7. “University” means The University of Texas at Austin.

8. “Vice Provost” means the vice provost for enrollment management and student success of The University of Texas at Austin, or his or her designee.

9. “Weekday” means Monday through Friday.

Subchapter 3–200. The Director of The Office of Scholarships and Financial Aid

Sec. 3–201. Administration of Financial Aid

a. The director will administer institutional, state, and federal programs for scholarships, loans, grants, and other specified financial aid in accordance with the legal provisions and limitations, if any, of particular funds, or in accordance with policies recommended by the Committee on Financial Aid to Students.

b. The director is in charge of the Office of Scholarships and Financial Aid and is administratively responsible to and will report regularly to the vice provost.

Sec. 3–202. Duties of Staff

Staff members will process applications for students who need assistance in financing their educational expenses.

Subchapter 3–300. The Committee on Financial Aid to Students

Sec. 3–301. Membership

a. The Committee on Financial Aid to Students has fourteen members and at least three administrative advisors. The members are

1. five members from the General Faculty, representing five colleges or schools of the University, appointed by the president for two-year staggered terms;

2. two staff members appointed by the president for staggered two-year terms;

3. five students (four undergraduate and one graduate), including at least two who are receiving or have received financial aid from the Office of Scholarships and Financial Aid; four of the students are appointed by the president from a panel submitted by Student Government; the fifth student is appointed by the president from a panel submitted by the chair of the Graduate Student Assembly; student members will be appointed for two-year staggered terms; and

4. two members from the Faculty Council, appointed by the chair of the Faculty Council for one-year terms.

b. The director, a representative of the dean of students, and a representative of the Office of Graduate Studies serve as administrative advisors without vote. The president may appoint additional nonvoting administrative advisors from the general administration areas of the University.
c. A Subcommittee for Appeals is designated from the full committee. The subcommittee is composed of no fewer than three of the five members from the General Faculty as voting members and the administrative advisors without vote.

Sec. 3–302. Duties of Committee
a. The full committee initiates and reviews policies and procedures for the Office of Scholarships and Financial Aid.

Subchapter 3–400. Appeals to the Committee on Financial Aid to Students

Sec. 3–401. Procedure for Denial or Revocation
a. If a recipient of or an applicant for a loan, grant, scholarship, or Federal College Work-Study job administered by the Office of Scholarships and Financial Aid is not entitled to financial aid, the recipient or applicant will be notified in writing of the denial or revocation of aid and of the reason.

b. Reasons for the denial or revocation of financial aid include, but are not limited to, the following:
   1. failure to maintain a satisfactory academic record; or
   2. failure to enroll or to maintain the minimum academic course load requirement; or
   3. failure to show continuing need because of a change in financial status; or
   4. failure to meet requirements established by the financial aid agreement and the Committee on Financial Aid to Students; or
   5. failure to provide required financial documents; or
   6. background indication that the applicant might constitute an unnecessary credit risk in the matter of loans; or
   7. evidence of fraud, or intent to defraud; or
   8. failure to meet federal, state, or institutional requirements for financial eligibility.

Sec. 3–402. Appeal

a. A person whose aid has been denied or revoked under section 3–401, after exhausting all internal review processes through the Office of Scholarships and Financial Aid, may appeal the decision to the Subcommittee for Appeals.

Sec. 3–403. Appeal to Subcommittee for Appeals

a. To appeal a denial or revocation of aid to the Subcommittee for Appeals, the student must submit a written appeal to the director. The appeal must state the name of the student, the date the aid decision was issued by the director, and specific reasons for the appeal, including any related argument and all relevant documentation.

b. The appeal must be submitted by letter or by e-mail within ten days from the date on which the student received the aid decision from the director. A letter will be considered to have been received on the third day after the day of mailing. An e-mail message will be considered to have been received on the second day after the day of sending the message.

Sec. 3–404. Hearing Before the Subcommittee for Appeals

The Subcommittee for Appeals will preside over the hearing and will:
1. determine whether the Office of Scholarships and Financial Aid has satisfactorily performed the requirements of section 3–401 and subsection 3–402(a);
Sec. 3–408. Hearing Procedure
a. The Subcommittee for Appeals will review written arguments and then meet with both parties together to ask questions, seek clarification, and hear any final comments by the parties.
b. The Subcommittee for Appeals' meeting with the parties is informal and is closed.
c. Although the hearing will proceed generally as follows, the Subcommittee for Appeals may adjust the sequence of the hearing as necessary to ensure fairness. The hearing will last approximately one hour:
   1. the director reads the aid decision;
   2. the director and the student are each given the opportunity to make an opening statement;
   3. the director is given the opportunity to present the University's witnesses and evidence and the student then has the opportunity to question any of the University's witnesses;
   4. the student is given the opportunity to present his or her witnesses and evidence and the director then has the opportunity to question any of the student's witnesses;
   5. the director and the student are given the opportunity to present rebuttal evidence and argument;
   6. the director is given the opportunity to present a recommendation regarding the aid decision under review;
   7. the student is given the opportunity to present a rebuttal and recommended outcome;
   8. the director is given the opportunity to present a closing statement;
   9. the student is given the opportunity to present a closing statement; and
   10. the Subcommittee for Appeals decides whether the aid decision made under section 3–401 and subsection 3–402(a) should be upheld, reversed, or modified.

Sec. 3–409. Evidence in Hearings
a. Legal rules of evidence do not apply to hearings under this subchapter; the Subcommittee for Appeals may admit evidence, including testimony, which possesses value and is commonly accepted by reasonable people in the conduct of their affairs. The Subcommittee for Appeals will exclude irrelevant, immaterial, and unduly repetitious evidence. All evidence admitted during the hearing will be made a part of the record.
b. A witness will testify unless the testimony is privileged as recognized by law or is excluded by the Subcommittee for Appeals.
c. The Subcommittee for Appeals will review the aid decision made under section 3–401 and subsection 3–402(a) on the basis of admitted evidence. The Subcommittee for Appeals may consider the student's financial aid record that was admitted into evidence at the hearing in determining an aid decision.

Sec. 3–410. Decision of the Subcommittee for Appeals
a. Within fourteen days from the completion of the hearing, but not before the certification of the recording and of the transcript, if any, the Subcommittee for Appeals will render a written decision. The student and the director will each be given a copy of the decision. The Subcommittee for Appeals' written decision is the official decision on the matter from which any appeal is taken.
b. The criteria on which the Subcommittee for Appeals' decision will be based are fairness; reasonableness; compliance with the Institutional Rules and federal and state law; and the student's financial aid record, if any. The Subcommittee for Appeals may approve, reject, or modify the director's decision.

Sec. 3–411. Hearing Record
The hearing record consists of
1. a copy of the notice required under section 3–406;
2. the recording of the hearing certified by the Subcommittee for Appeals and the transcript, if any, together with all evidence admitted under section 3–409;
3. written motions and pleas, if any; and
4. the decision of the Subcommittee for Appeals.

Subchapter 3–500. Disciplinary Offenses
Sec. 3–501. Procedures for Initiating Disciplinary Action
When there is evidence of fraud, or intent to defraud, or indications of other disciplinary offenses in regard to a student application for or receipt of aid, the Office of Scholarships and Financial Aid will refer the student to the dean of students for disciplinary action. In addition, in accordance with federal and state law, the Office of Scholarships and Financial Aid will report such actions to the United States Department of Education's Office of the Inspector General.

Sec. 3–502. Disciplinary Review
Disciplinary review for student aid disciplinary offenses will be handled by the Office of the Dean of Students and governed by subchapter 11–200 of the Institutional Rules, “Administration of Discipline.”

Chapter 4. University Health Services

Subchapter 4–100. General Provisions
Sec. 4–101. Purpose
University Health Services (UHS) is part of the Division of Student Affairs. It provides healthcare and public health leadership to support students in reaching their optimal health so they can achieve their academic and personal potential. To that end, UHS provides: (1) a broad range of professional health services for the diagnosis and treatment of illnesses and injuries; (2) preventive health services such as physicals and well-woman exams; (3) physical therapy and nutrition services; (4) public health initiatives, including the promotion of a healthy campus; (5) immunizations for vaccine-preventable diseases; and (6) other public health services such as responding to certain infectious diseases on campus.

For a detailed discussion of benefits and services offered, see the UHS website.

Sec. 4–102. Definitions
In this chapter, unless the context requires a different meaning, the following definitions apply.

1. “Executive Director and Chief Medical Officer” means the executive director and chief medical officer of UHS.
2. “President” means the president of The University of Texas at Austin.
3. “Student” means a person enrolled at the university.
4. “University” means The University of Texas at Austin.
5. “Vice president” means the vice president for student affairs or a delegate or representative of the vice president.
Subchapter 4–200. The Executive Director and Chief Medical Officer

Sec. 4–201. The Executive Director and Chief Medical Officer

a. The executive director and chief medical officer is responsible for all clinical services, initiatives and programs; provides organizational oversight, campus leadership and strategic planning activities of UHS and reports to the associate vice president for student affairs.

b. The executive director and chief medical officer is responsible for serving as a liaison to campus leaders and media and for planning for and responding to campus public health emergencies.

c. The executive director and chief medical officer is responsible for establishing the clinic structure and specifying functional relationships among organizational components of clinical and clinical support operations, providing for the orderly development and management of the unit, supporting a policy on patients’ rights and responsibilities, maintaining a program that evaluates the quality of care provided and appropriately addressing identified problems.

d. The executive director and chief medical officer is responsible for providing consultation in matters concerning the delivery of healthcare services and emerging public health issues affecting The University of Texas at Austin.

Subchapter 4–300. Medical Clearance Requirements for New and Returning Students, Fees, Payment for Services and Eligibility for University Health Services

Sec. 4–301. Medical Clearance Requirements

Entering students who have not provided acceptable documentation to comply with applicable medical clearance requirements below will not be allowed to register for classes until they do so. Students should submit medical clearance documentation (including acceptable documentation for exemptions) at least two weeks before their intended registration date to allow for sufficient processing time.

Information about acceptable documentation to comply with the requirement below, how to submit documentation, allowable exemptions for certain requirements and acceptable documentation to claim an exemption resides on the UHS website. During emergencies or epidemics declared by the governor or commissioner of health of the State of Texas or disasters or other emergencies, exemptions on the basis of reasons of conscience (including religious conflict) may be denied if allowed by rule, executive order or law.

a. All entering students, regardless of age or classification, must submit documentation that they are immune to measles before they will be allowed to register for classes.

b. All entering students who will be under the age of 22 on the first class day of the semester in which they are enrolling must submit documentation that they have received a meningococcal disease (bacterial meningitis) vaccine administered within five years of and at least ten days before the first class day of the semester in which they are enrolling. This includes transfer students and students who previously attended the university or another institution of higher education (or private or independent institution of higher education) and who are entering the university following a break in enrollment of at least one fall or spring semester. Students age 22 or older who are enrolled only in online or distance courses are exempt from the meningococcal vaccine requirement.

c. International students entering any semester must provide proof of the following by submitting acceptable documentation as described on the UHS website. If they meet the criteria described in Sec. 4–310b, they must also provide proof of a meningococcal vaccine as described in that section.

1. Proof of immunity to measles, mumps, and rubella as documented by one of the methods described on the UHS website.

2. If indicated following an online screening questionnaire, proof of an acceptable tuberculosis screening test as described at Medical Clearance Requirements for International Students and administered on or after the date listed on that page. If either acceptable test is positive, documentation of a chest x-ray performed in the U.S. on or after the same date is required, regardless of a history of previous treatment.

Sec. 4–302. Fees

UHS is funded by tuition paid by students and by charges for supplies and services. There are charges associated with UHS clinic visits. A charge applies for missed appointments or appointments not canceled in the specific time frame for that appointment type. Complete information about UHS charges is detailed online.

Sec. 4–303. Payment for Services

Any student who incurs a charge for services rendered by UHS must pay the charges owed, but they do not have to pay for services on the date they are provided, except for students who have health insurance and request that a claim not be filed with their insurance company. UHS can assist a student in arranging a payment plan. If payment is not received or arrangements for payment are not made within ten days of the date charges are posted to “What I Owe,” a financial hold will be placed on the student’s record. Students with a hold can contact the UHS/CMHC Billing and Insurance Office to discuss options that will allow them to register. Transcripts, diplomas and/or continued registration will be withheld until outstanding charges have been paid.

UHS can file claims for payment with most health insurance plans; however, health insurance is not required to be seen at UHS. For more information, including the Student Administrative Health Fee and the types of plans with which claims can and cannot be filed, go to the UHS website.

By providing their insurance information, a student authorizes UHS to file a claim with the student’s insurance company for services rendered. A student who does not want an insurance claim to be filed for medical services must let UHS know at the time of their appointment.

A student’s insurance company may determine that some or all charges incurred at UHS are not covered. The student is responsible for learning what their insurance covers.

For students who do not have health insurance and cannot or prefer not to pay at the time of service or who have health insurance that does not pay for a part or all charges, UHS will post their balance to “What I Owe.” Discounted rates are available for students who do not have insurance, who are underinsured or who are covered by Medicare or Medicaid.

Sec. 4–304. Eligibility to Use University Health Services

a. An individual may use UHS if:
1. the person is a currently enrolled student at the university,
2. the person has been admitted to the university and needs required or recommended immunizations or medical tests to matriculate,
3. For Urgent Care services only, the person is participating in university-sponsored short-term activities such as seminars, institutes and workshops provided the sponsoring agency has entered into an agreement with UHS by properly completing the Request to Use University Health Services form and paying the associated agreement fee. The sponsoring department is responsible for any unpaid charges incurred by program participants.

4. The person is a university faculty or staff member who is participating in a public health or immunization program. Faculty and staff are not eligible for regular services except for travel-related immunizations, physical therapy, certain campus outreach and educational programs and services arranged and paid for by Interdepartmental Transfer by a university department.

5. The person was registered during the semester immediately preceding the semester when services are requested (excluding university students who have graduated or who withdrew from the university before the twelfth class day of the prior semester) and will enroll the semester immediately following the time services are requested.

6. The person has paid an access fee and is a visiting scholar/researcher who is not officially registered for classes at the university, a post-doctoral fellow or a person enrolled in the English as a Second Language Program, or...

7. The person is a student from another University of Texas System institution that has entered into an agreement with the university, otherwise called a Contractual Student.

b. Registered students become eligible to use UHS the day university residence halls open for that semester, except for International Students who become eligible on the first day of coverage of the student health insurance plan. Students remain eligible for services until the day before residence halls open for the subsequent semester. Specific eligibility dates are given in the Academic Calendar (p. 7) published in the General Information Catalog and at the registrar website.

c. For telehealth, persons must meet the above eligibility criteria and reside in the state of Texas at the time of the visit.

Subchapter 4–400. General Administrative Policies

Sec. 4–401. Informed Consent

The parent or guardian of a minor student must give appropriate consent for treatment before care can be provided at UHS, except when a minor student meets State of Texas criteria to consent for their own care or in cases where immediate medical care is required to stabilize a patient for transfer to an emergency facility.

Sec. 4–402. Medical Withdrawal from the University

Requests for withdrawal from the university for medical reasons may be initiated at the request of a student. Applications to request consideration of a medical withdrawal should be submitted to Disability and Access. Disability and Access will involve UHS or the appropriate dean's office, as indicated by the student's individual circumstances.

Sec. 4–403. Responsibility of University Health Services

Any intentional action on the part of the student that is against the advice of a UHS health care provider abrogates all responsibility on the part of UHS.

Sec. 4–404. Requests to Administer Medications

Requests to administer medications ordered by a private physician must be within the scope of services offered at UHS, meet the standard of care provided by UHS medical staff, be supported by appropriate medical documentation from the prescribing physician and be approved by the executive director and chief medical officer.

Sec. 4–405. Routine, Urgent and Emergency Care Services

a. UHS is not equipped to manage medical emergencies. In the case of a medical emergency, students should call 911.

b. For routine health concerns, students may schedule appointments by calling (512) 471-4955 during posted weekday business hours. Students can also schedule many types of appointments online.

c. Students who need prompt medical attention for illnesses or injuries may be asked to come to UHS for an urgent care visit not requiring an appointment.

d. Current operating hours are posted on the University Health Services website.

Sec. 4–406. 24-hour Nurse Advice Line

The UHS Nurse Advice Line (512-475-6877) is available for students 24 hours a day, every day of the year. Advice Line nurses can help students determine whether and how soon they need medical care or can provide self-care advice for illnesses and injuries when appropriate.

Sec. 4–407. Treatment at Other Facilities

a. UHS assumes no financial responsibility for a student's care at another medical facility.

b. A student who goes to or is taken to another medical facility for emergency or other treatment, regardless of geographical location or other circumstantial factors, is responsible for all resulting costs.

Sec. 4–408. Personal Property

a. UHS is not responsible for a student's personal belongings; the student is responsible for arranging for the safekeeping of these articles.

b. In instances when it is necessary for UHS to maintain custody of a patient's property or when a patient leaves personal possessions in waiting rooms or clinics, UHS will exercise all prudent means of securing and returning such property to the owner but cannot be held responsible for losses through theft.

Sec. 4–409. Medical Records

All original medical records (whether electronic or paper) and other records of treatment, whether originating within UHS or another facility or provider, are the property of UHS. Medical information may be disclosed as required by state or federal law. Many items summarizing patient care are available on the patient portal. Additional information from patient records will be released only with informed written consent. Students have the right to review, inspect or request copies of their medical records.

Chapter 5. University-Owned Residences

Subchapter 5–100. General Provisions

Sec. 5–101. Purpose

University-owned residences are provided and operated by The University of Texas at Austin with the welfare of students as the primary goal. The University provides a variety of living accommodations for students and endeavors to maintain a high quality of life within residences through the...
development of counseling, educational, and social programs within the residence units.

Sec. 5–102. Application
Student residents and their guests are subject to the applicable provisions of this chapter and to the provisions set forth in Sec. 11–401, Sec. 11–403, and Sec. 11–404 of the Institutional Rules on Student Services and Activities.

Sec. 5–103. Definitions
In this chapter, unless the context requires a different meaning, the following definitions apply:

1. “Guest” means an individual who has been personally invited by a University Resident to enter into the resident’s residence; remaining there, for a period of time not to exceed 72 hours.
2. “Residence” means a University-owned family housing unit, a University-owned residence hall or cooperative, or any other subsidiary facility.
3. “Student” means a person who has applied for or entered into a residence contract with the University or who occupies a room or dwelling in a residence.
4. “University” means The University of Texas at Austin.
5. “Assistant vice president” means the assistant vice president of University Housing and Dining at The University of Texas at Austin.
6. “Vice president” means the vice president for student affairs at The University of Texas at Austin.

Sec. 5–104. Eligibility
a. To be eligible for residence in University residence halls, 2400 Nueces, Dobie Twenty21 or University Apartments, undergraduate students must be enrolled for at least twelve semester hours during each fall/spring semester; graduate and law students must be enrolled for at least nine semester hours or six dissertation hours each fall/spring semester. Exceptions for undergraduate students must be approved by the dean of the student’s college or school and the assistant vice president. The graduate dean and the assistant vice president must approve exceptions for graduate students. The assistant vice president will review the contract status of residents who drop below the minimum hours requirement to determine the necessity of contract cancellation.

b. To be eligible as a student resident in the University Apartments, (1) you must be a graduate student at The University of Texas at Austin; or (2) you must be an undergraduate student with at least thirty semester hours credit and in good standing with the University. Registered sex offenders are not permitted to live in University-owned housing, which includes the University Apartments. Full-time students will be given preference to live in University-owned housing over part-time or full-time employees of The University of Texas at Austin, even if the employees are also full-time graduate students or undergraduate students with at least 30 semester hours credit. Subject to applicable law, University rules and policy, the Contract Holder may allow guests to visit their assigned apartments. “Guest” means an individual who has been personally invited by a Contract Holder to enter into the Contract Holder’s apartment. Guests are permitted to visit for a period of time, not to exceed 72 consecutive hours. Guests are not permitted to reside in (or occupy) the apartment on a long term basis. “Family Members” means individuals who are related to the Contract Holder by marriage, civil union, domestic partnership, informal marriage, dependency or some other form of recognized familial relationship. Family members are permitted to reside in the apartments that are designated for family housing. Certain stipulations apply. See the University Apartment Manual for the complete policy and rules pertaining to family members. Any changes in occupancy must be reported to the University Apartment’s staff within 48 hours of the change. A Contract Holder’s invitation to a guest or family member may be revoked at their discretion and be withdrawn by the Contract Holder without the need to express any reason or basis for the revocation. The following restrictions to occupancy apply: In Colorado and Gateway (Single-Occupant Apartments): one-bedroom apartment, maximum of one (1); two-bedroom apartment, maximum of two (2). In Brackenridge (Family Housing): one-bedroom apartment, two to three (2-3) occupants; two-bedroom apartment, two to five (2-5) occupants; three-bedroom apartment, four to seven (4-7) occupants. These limits will be strictly enforced.

c. Should residents violate any of the conditions of the contract, the assistant vice president may, in the future, refuse to contract any premises to those residents.

Subchapter 5–200. Administration of Housing
Sec. 5–201. Responsibilities of Supervisory Officials
The assistant vice president is responsible to the vice president for discipline, counseling, and the quality of life in residences, and the fiscal and physical management of residences.

Sec. 5–202. Rule Making in Residences
a. The occupants of each student residence may make reasonable rules governing life in that residence.

b. Residence rules may not conflict with the Institutional Rules, Handbook of Operating Procedure, Regent’s Rules and Regulations, local, state or federal law, and will take effect when they are approved by the assistant vice president and vice president. Such rules will be publicized to all residents immediately upon taking effect.

Subchapter 5–300. Contracts
Sec. 5–301. Terms of Contract
a. Charges for housing and meals begin and end on the official dates of the contract period.

b. The effective dates and terms and conditions of the contract are provided with each contract.

c. Students who are under contract may not terminate the contract except as provided in the contract and in Subchapter 5–400.

d. Expenses incurred in collecting the total amounts due under a contract, including collection fees up to a maximum of 33 1/3% of the amount due, attorney’s fees, and other costs, including court costs, will be the responsibility of the obligor.

Sec. 5–302. Enforcement of Contracts
a. The assistant vice president, or the assistant vice president’s delegate, enforces residence contracts.

b. The vice president is the final level of appeal in contract disputes.

Sec. 5–303. Student Responsibility
a. Each student will meet all obligations for housing and meals and will observe all conditions of the contract.

b. Students in the residence halls and Dobie Twenty21 have the option to pay for housing and meals:
   1. in full;
   2. in half payments due once each semester;
   3. in six payments due three times each semester; or
   4. for spring only, in three payments.

c. Students in 2400 Nueces and University Apartments pay for housing on the first of each month. Students may purchase an optional meal plan.
d. Students who do not comply with the terms of the housing and meals contract may be subject to University disciplinary action as provided in Chapter 11 of the Institutional Rules.

**Subchapter 5–400. Termination of Contracts**

**Sec. 5–401. Graduation**

Except as provided under Sec. 5–405, students who leave the University at the end of the fall semester because of graduation will not be liable for room rent or meals charges beyond the end of the semester, provided notification of graduation is filed by the official cancellation date for the spring semester. Students will be billed for any damages to the premises and any other applicable charges. Students who cancel after the official cancellation date will be charged $300 for liquidated damages. Cancellations received after the residence halls open for the spring will be handled as withdrawals during the spring semester. Students who are released from a contract because of graduation will again become liable for the contract if they fail to graduate from the University during the original contract period.

**Sec. 5–402. Voluntary Withdrawal from the University**

Except as provided under Sec. 5–405,

a. Students who voluntarily withdraw from the University during a contract period are normally required to pay liquidated damages of $300 in addition to standard room and meals charges through the date of checkout. Students who withdraw from the University at the end of the fall semester will be billed through the end of the fall semester, provided notice of cancellation is received by the official cancellation date for the spring semester. Students who cancel after the official cancellation date will be charged $300 for liquidated damages. Cancellations received after the residence halls open for the spring will be handled as withdrawals during the spring semester. Students must normally move within twenty-four hours after withdrawing from the University.

b. Students who are released from a contract because of voluntary withdrawal from the University will again become liable for the contract if they re-enroll in the University during the original contract period.

**Sec. 5–403. Required Withdrawal from the University**

Except as provided under Sec. 5–405, students who are required by the university to withdraw from the university are not liable for paying room rent or meals charges beyond the date of moving, but they will pay all charges that accrue under the contract through the checkout date plus $300 in liquidated damages, any charges for damage to the premises, and any other applicable charges. The University will refund any prepaid room or meals balance less any charges for damages to the premises or any other applicable charges. The University reserves the right to suspend a student from the residence halls for failure to abide by the terms and conditions of the contract. Students who fail to register as regularly enrolled students will be required to move as outlined in Sec. 5–402(a).

**Sec. 5–404. Withdrawal from University-Owned Residences during the Contract Period**

Except as provided under Sec. 5–405, students granted permission to move within the contract period are required to pay liquidated damages of $300 in addition to standard room and meals charges through the date of checkout.

**Sec. 5–405. University Apartments Contracts**

a. All contract actions require 60 days written, advanced notice, hereafter referred to as “proper notice.”

b. Vacancy notice must be completed and filed with the University Housing staff 60 days prior to termination of the contract.

c. Completion of a 12 month stay and proper notice is required in order to be eligible to vacate without penalty. Vacating after 12 months occupancy without proper notice will result in a re-letting fee of 100% of your monthly rate and utility charges.

d. Early contract termination at the end of a semester will be available, without penalty, if you are graduating or completing all academic requirements as confirmed by written documentation from the Dean of your college, with proper notice. Vacating without proper notice will result in a re-letting fee of 100% of your monthly rate and utility charges.

e. Vacating before 12 months occupancy, with proper notice and for any reason other than graduating or completing all academic requirements, will result in a re-letting fee of 100% of the remaining month’s rate and utility charges.

f. Vacating before 12 months occupancy, without proper notice, will result in a re-letting fee of 100% of the remaining month’s rate and utility charges and an early contract termination charge equal to two months’ rate or a prorated daily rate charge from the date of notice until the unit is re-leased, whichever is less.

g. Failure to move out or file vacancy notice at the end of the contract period or the last day of the month in which you graduate, whichever comes first, results in a charge of 100% of one month’s rate and utilities charges plus $50 per day for each day you are occupying the apartment past the notice to vacate date. You may request a move out extension with a minimum of one week prior to the move out date indicated on your notice to vacate. Extensions must be approved in advance by the University Housing staff. Please speak with a member of the University Housing staff regarding requests for move out extensions.

h. Failure to move out on or before 5 p.m. on the exact date required under the contract (e.g. the end of the contract term or the date listed on the vacancy notice) you must pay 100% of one month’s rate and utilities charges plus $50 per day for each day you are occupying the apartment past the notice to vacate date. You agree to indemnify The University and/or prospective residents for damages incurred, including lost income, storage, lodging expenses, and attorney’s fees, if such damages are incurred.

**Chapter 6. Student Organizations**

**Subchapter 6–100. General Provisions**

**Sec. 6–101. Definitions**

In this chapter, unless the context requires a different meaning, the following definitions apply.

a. “Academic or Administrative unit” means any office or department of the University.

b. “Day” means a calendar day from 8:00 a.m. to 5:00 p.m., and excludes weekends, University holidays, and days on which regularly scheduled classes are suspended due to emergent situations. If a deadline defined in this chapter falls on a Saturday, Sunday, University holiday or skeleton crew day, that deadline will be moved to the next day.

c. “Dean of Students” means the Dean of Students of The University of Texas at Austin or the Dean of Students’ delegate or representative.

d. “Legislative Student Organization” or “Student Governance Organization” means a student association as defined by the Regents’ Rules and Regulations, Rule 50203. Legislative Student Organizations include but are not limited to Student Government, the Senate of College Councils, and the Graduate Student Assembly.
Legislative Student Organizations are sponsored by the Office of the Dean of Students.

e. “Officer” means a student designated to represent or speak for a Student Organization in its relations with the University and to receive official notices, directives, or information from the University on behalf of the Student Organization.

f. “Sponsorship,” or “Sponsored Student Organization” means a Student Organization whose purpose and activities are in accord with the mission of an Academic or Administrative Unit, for whose actions and activities the sponsoring unit provides endorsement, support, supervision, and assumption of responsibility, and that has been officially approved by the Vice President through an annual application as prescribed by the Dean of Students.

i. “Endorsement” means that the sponsoring Academic or Administrative Unit gives approval of the Sponsored Student Organization’s status as an official extension of the unit and sanctions the mission, goals, and activities of the Sponsored Student Organization.

ii. “Support” means to provide for or to maintain by contributing the necessary money, physical space, staff, advising, mentoring, and other resources that the Sponsored Student Organization needs to carry out its mission, goals, and activities.

iii. “Supervision” means to monitor, oversee, and advise the Sponsored Student Organization. Supervision includes sanctioning and approving all activities and events of the Sponsored Student Organization; maintaining personal knowledge of the Sponsored Student Organization’s structure, operations, and activities; and taking action as necessary to ensure that all affairs of the Sponsored Student Organization are consistent with the mission and culture of the sponsoring Academic or Administrative Unit and the University.

iv. “Assumption of responsibility” means to ensure endorsement, support, and supervision of all aspects of the Sponsored Student Organization. Assumption of responsibility includes accepting financial accountability for all funds collected or spent; making sure the Sponsored Student Organization conducts its affairs in accordance with all applicable University rules and regulations, Regents’ Rules, and local, state, and federal laws; and providing the necessary physical and personnel resources, including a dedicated Sponsored Student Organization Advisor.

g. “Registered Student Organization” means a Student Organization holding a valid registration under this chapter. Registered Student Organizations are considered private entities and are not viewed as extensions of an academic or administrative unit, or of the University. Registration ensures privileges as outlined in subsection 6-301 and allows the Registered Student Organization to function within the institutional context.

h. “Registered Student Organization Advisor” means a person serving in an advisory capacity to a Registered Student Organization to provide guidance to the Registered Student Organization and its members. In accordance with section 51.9361 of the Texas Education Code, a person serving as an advisor to a Registered Student Organization must be someone who

i. is at least twenty-one years of age;

ii. is not enrolled as a student at the University;

iii. serves as either;

1. a part-time or full-time employee of the University; or

2. a representative of a national organization that is associated with the Registered Student Organization.

iv. completes the Safety Education Program advisor training at least once in their tenure as an advisor.

i. “Sponsored Student Organization Advisor” means a University staff or faculty member from the sponsoring Academic or Administrative Unit who is serving in an advisory capacity to provide guidance to the Sponsored Student Organization and its members. In accordance with section 51.9361, a person serving as an Advisor to a Sponsored Student Organization must be someone who

i. is at least twenty-one years of age;

ii. is not enrolled as a student at the University;

iii. serves as a part-time or full-time employee of the University; and

iv. completes the Safety Education Program advisor training at least once in their tenure as an advisor.

j. “Student” means a person who is currently enrolled at the University, or who is accepted for admission or readmission to the University, or who has been enrolled at the University in a prior term and is eligible to continue enrollment in the term that immediately follows, or who is attending an educational program sponsored by the University while that person is on campus, or who engaged in prohibited conduct at a time when he or she met the above criteria. For the purposes of this chapter, individuals who are not currently enrolled at the University remain subject to the disciplinary process for conduct that occurred while they were enrolled.

k. “Student Organization” means a Sponsored Student Organization or a Registered Student Organization.

l. “University” means The University of Texas at Austin. For the purposes of this chapter, “University” also includes all activities and programs sponsored by or affiliated with The University of Texas at Austin regardless of the actual location where such activities or programs occur.

m. “Vice President” means the vice president for student affairs at The University of Texas at Austin, or his or her designee.

Subchapter 6–200. Registration

Sec. 6–201. Registration Required

Any group of students that wants to exercise any of the rights and privileges listed in section 6–301 will apply to the Dean of Students to be recognized as a Student Organization. An application for a new organization may be submitted semestery during a period prescribed by the Dean of Students. Annual registration for existing Student Organizations occurs during a period prescribed and advertised by the Dean of Students.

Sec. 6–202. Application

A group of students that wants to be recognized or maintain their status as a Student Organization must

a. apply on a form prescribed by the Dean of Students;

b. identify at least 10 members, three of which must be identified as Officers including one as president;

c. provide and maintain a complete and accurate roster of all members;

d. submit an organization constitution that includes all sections and content prescribed by the Dean of Students; and

e. provide any other information required by the Dean of Students.

Sec. 6–203. Membership

a. Student Organizations may not deny membership on the basis of race, color, religion, national origin, gender identity, or gender expression, except that

1. a Registered Student Organization created primarily for religious purposes may restrict the right to vote or hold office to persons who subscribe to the Registered Student Organization’s statement of faith; and

2. a Registered Student Organization may restrict membership based on the provisions of Title IX of the Education Amendments of 1972.
b. Student Organizations must limit membership to students, faculty members, and staff members of the University.

Sec. 6–204. Use of University Name
a. With the exception of the following, no student, unregistered group, or Registered Student Organization may use the name of the University or an abbreviation of the name of the University as part of its name. A Student Organization may use terms such as “campus” or “Texas campus” or “[name of organization] at The University of Texas at Austin” as part of its name.
b. No student, unregistered group, or Registered Student Organization may advertise or promote any event or activity in a manner that suggests that the event or activity is sponsored by the University.

Sec. 6–205. Action on Registration Application
a. In considering a completed application, the Dean of Students will not base approval on the merits of the proposed Student Organization’s purpose, but will register the applicant unless
   1. the applicant is ineligible under sections 6–202, 6-203, 6-204, or 6-512;
   2. there are bars, including financial, against the applicant; or
   3. the applicant is under a disciplinary sanction prohibiting registration.
b. If an applicant is refused registration, the Dean of Students will provide the applicant with a written statement of the reasons for refusal within 14 days of receiving the application and the applicant may appeal in accordance with section 6–508.

Sec. 6–206. University Sponsorship of Student Organizations
a. Only a Sponsored Student Organization may use the name of the University or an abbreviation of the name of the University or any of the University’s trademarks or service marks as part of or in conjunction with its Student Organization name.
b. Sponsorship may not be extended to Registered Student Organizations involved in political or religious activities or in projects for private gain.
c. Legislative Student Organizations must be sponsored by the University.
d. Sponsored Student Organizations must comply with all applicable fiscal and accounting procedures of the University of Texas at Austin.

Subchapter 6–300. Recognition, Activities and Obligations
Sec. 6–301. Recognition and Activities
A Student Organization is entitled to
a. to be listed as a Student Organization;
b. to reserve the use of University facilities under subchapter 10–200 of the Institutional Rules;
c. to raise funds or make other permissible solicitations on University property under section 13–205 of the Institutional Rules;
d. to distribute literature under subchapter 13–400 of the Institutional Rules;
e. to post signs under section 13–500 of the Institutional Rules;
f. to hang banners under section 13–503 of the Institutional Rules;
g. to set up A-frames under section 13–700 of the Institutional Rules;
h. to set up a table under subchapter 13–600 of the Institutional Rules;
i. to set up exhibits under subchapter 13–700 of the Institutional Rules;
j. to use amplified sound under subchapter 13–800 of the Institutional Rules;
k. to publicly assemble under subchapter 13–900 of the Institutional Rules;
l. to present a guest speaker on University property in accordance with subchapter 13–1000 of the Institutional Rules;
m. to apply for storage;
n. to apply for recognition and awards; and
o. to access event coordination consultations.

Sec. 6–302. Obligations
a. In addition to completing registration annually, Student Organizations must meet these requirements in order to maintain their Student Organization status. The Student Organization shall:
   1. maintain a complete and accurate roster of at least 10 members, including three student Officers;
   2. keep a current contact email address for their Officers for the purpose of receiving university communications,
   3. complete the Safety Education Program annually,
   4. require the organization’s advisor to complete the Safety Education Program advisor training at least once in their tenure as an advisor,
   5. file with the Dean of Students a final report, fully disclosing the sources and amounts of money obtained from solicitations during the preceding semester, and any other information required by the Dean of Students about solicitation activities during the preceding semester within thirty days after the beginning of the Fall or Spring Term, as defined in the Regents’ Rules and Regulations, Rule 80103, Number 2, Section 4, and
   6. conduct its affairs in accordance with local, state, and federal laws and the Regents’ Rules and Regulations.
b. A Registered Student Organization that is granted recognition from Sorority and Fraternity Life in the Office of the Dean of Students is subject to additional policies administered by Sorority and Fraternity Life.
c. No Student Organization may re-register or use the facilities of the University as long as it owes a monetary debt to the University and the debt is considered delinquent by the crediting University agency.
d. The Dean of Students retains discretion to revoke or deny registration of Student Organizations under disciplinary action; groups disciplined by their governing body; or groups that attempt to register under a different name to circumvent university policy or a disciplinary sanction.
e. A Student Organization may be subject to discipline by the University under subchapters 6-400 and 6–500 for violating a Regents’ Rule, University regulation, or administrative rule.

Subchapter 6–400. Student Organization Discipline
Sec. 6–401. Administration and Jurisdiction
a. The Dean of Students has primary authority and responsibility for the administration of Student Organization discipline. The Dean of Students works cooperatively with faculty members, staff members, Hearing Officer(s) or the Student Conduct Board in the disposition of Institutional Rule violations.
b. The leadership of a Student Organization are provided a copy of this policy annually in the form of a link on the University website. Hard copies are available upon request from the Office of the Dean Students. Students who are members of Student Organizations are responsible for reading and abiding by the provisions of this policy.
c. This policy and the student conduct process apply to the conduct of all Student Organizations. Student Organizations that have lost University recognition may still be subject to provisions in this code.
Individual students who are members of a Student Organization are still subject as individuals to Chapter 11 of the Institutional Rules and may be held individually accountable for their behaviors also attributed to the Student Organization. Individuals who are members of a Student Organization may, through their actions, subject the Student Organization to disciplinary action under this policy, whether or not those individuals are also adjudicated under Chapter 11 of the Institutional Rules.

d. This policy applies to behaviors that take place on the University of Texas campus, at University or organization sponsored events whether on or off-campus, and may also apply to other off-campus behaviors when the Dean of Students determines that the off-campus conduct affects a University interest. A University interest is defined to include:

1. Any situation where it appears that the Student Organization's conduct may present a danger or threat to the health or safety of individuals;

2. Any situation that significantly impinges upon the rights, property or achievements of others or significantly breaches the peace and/or causes social disorder; or

3. Any situation that is detrimental to the educational mission and/or interests of the University.

e. This policy may be applied to behavior conducted online, via email or other electronic medium. Student Organization members should also be aware that online postings such as blogs, web postings, chats and social networking sites are in the public sphere and are not private. These postings can subject a Student Organization to allegations of conduct violations if evidence of policy violations is posted online. The University does not regularly search for this information, but may take action if and when such information is brought to the attention of University officials.

f. This policy applies to guests of the Student Organization, regardless of their student status. Student Organizations may be held accountable for the misconduct of their guests. Visitors to and guests of the University may seek resolution of violations of this policy committed against them by a Student Organization and/or members of a Student Organization.

g. There is no time limit on reporting violations of this policy; however, the longer someone waits to report an alleged violation, the more difficult it may become for University officials to obtain information and witness statements and to make determinations regarding alleged violations.

h. Though anonymous complaints are permitted, doing so may limit the University's ability to investigate and respond to a complaint. Those who are aware of misconduct are encouraged to report it as quickly as possible to the Dean of Students and/or to the University of Texas Police Department.

i. A Student Organization facing an alleged violation of this policy is permitted to dissolve/surrender recognition during the investigation/adjudication process. However, the University may continue the investigation/adjudication process even after the Student Organization has been dissolved.

j. University disciplinary action will be based upon the "Preponderance of Evidence" standard. This standard is satisfied if the action is deemed more likely to have occurred than not.

k. Notification of conduct proceedings, including but not limited to notice of allegations, interim action, meeting requests, hearings, and resolution, shall be sent by the Dean of Students to the Student Organization by letter or by e-mail, using the addresses on file with the registrar's office or provided by the organization per Sec. 6-302(a)(2).

1. A letter or email sent to an address listed in the registrar's records or provided per Sec. 6-302(a)(2) will constitute full and adequate notice.

2. The Student Organization's failure to provide and/or maintain current addresses, refusal to accept delivery of a letter, or failure to open an e-mail message will not constitute good cause for failure to comply with the meeting request. Policies on the use of e-mail for official correspondence are provided in Appendix M.

Sec. 6-402 Other General Definitions

In this chapter, unless the context requires a different meaning, the following definitions apply.

a. "Administrative Disposition" – A document issued to a student which includes a statement of the alleged conduct, institutional rule(s) implicated, investigative findings, assessed sanction(s), and resolution options.

b. "Advisor" means a single individual who may accompany a Student Organization to a meeting with the Dean of Students or a hearing regarding an alleged violation of University policy. An Advisor may confer with and advise the Student Organization but may not advocate for the Student Organization in a meeting with the Dean of Students or in a hearing or directly address the Student Conduct Board or Hearing Officer. If an Advisor is directly related to a conduct case or if the advisor's presence poses a conflict of interest, the Dean of Students, Hearing Officer, or Student Conduct Panel may dismiss the advisor from the meeting or hearing. Advisors may be dismissed from any conduct proceedings if they disrupt the process.

c. "Appellate Officer" means a person designated by the president to issue final decisions in a Student Organization conduct matters.

d. "Complainant" means a person who is reported to be the victim of prohibited conduct related to a Track C case.

e. "Disciplinary Decision" means a written decision determining whether or not a Student Organization is responsible for a violation of university policy. The disciplinary decision includes the findings of fact in support of the decision along with the assessed sanction(s) if applicable.

f. "Disciplinary Record" means an administrative record maintained by the Dean of Students in connection with a Student Organization's violation or alleged violation of university policy. The disciplinary record may include complaints, notices, hearing records, disciplinary decisions, and other documents required under this chapter or deemed relevant by the Dean of Students.

g. "Hearing Officer" means a staff or faculty member appointed by the president of the University to conduct hearings of alleged violations of policy.

h. "HOP 3-3031 Track C cases" or "Track C cases" refers to allegations of conduct that potentially constitutes Sex Discrimination, Sexual Exploitation, Unprofessional/Inappropriate Conduct, Retaliation, False Information or False Complaint, and Interference with Grievance Process, as defined in HOP 3-3031. These cases are investigated by the Department of Investigations and Adjudication in University Compliance Services and referred to the Dean of Students for adjudication.

i. "Interim Action" means an action taken by the Dean of Students against a Student Organization while the Dean of Students is assessing an alleged violation of university policy by the Student Organization. Actions include but are not limited to suspension, suspension of rights or privilege or a probation from activities or operations.

j. "Respondent" means the organization reported to be the alleged perpetrator of conduct related to a Track C case.
k. "Student Conduct Board" (SCB) means a group of students appointed by the president to be eligible to serve on a Student Conduct Panel.

l. "Student Conduct Panel" (SCP) means a panel consisting of eligible students and a faculty or staff member that conducts hearings and issues decisions concerning the prohibited conduct of Student Organizations. The Student Conduct Panel shall not hear matters pertaining to Track C cases or alleged violent conduct.

Sec. 6-404 Prohibited Conduct of Student Organizations

The Dean of Students may initiate disciplinary proceedings under subchapter 6–500 against a Student Organization that is alleged to have engaged in any of the following activities:

a. Local, State, or Federal Law Violations — any behavior that may violate any federal, state, or local law, ordinance, or regulation, whether or not the behavior occurs on university property or in connection with any university-oriented activity;

b. Weapons — possesses, uses, or displays firearms, facsimile firearms, ammunition, explosives, or other items that could be used as weapons, including but not limited to sticks, poles, clubs, swords, shields, body armor or make shift body armor, masks, helmets and other garments, such as sporting protective gear, that alone or in combination could be reasonably construed as weapons or body armor on property owned or controlled by the University, without written permission from the Dean of Students, unless authorized by federal, State or local laws; or, violates Policy 8-1060, Campus Carry, of the Handbook of Operating Procedures;

c. Dangerous Materials — use or attempted use of a hazardous substance (chemicals, fireworks, explosives, etc.) in a manner intended to cause harm, threat, or reasonable fear for safety;

d. Threatening or Endangering Behavior — any behavior that threatens or endangers the health or safety of any student, employee, or visitor to the university;

e. Sex or Gender Based Harassment — allegations of conduct that potentially constitute Sex Discrimination, Sexual Exploitation, Unprofessional/Inappropriate Conduct, Retaliation, False Information or False Complaint, Interference with Grievance Process, as defined in HOP 3-3031;

f. Theft — unauthorized use, possession, or removal of property, services, or resources of others;

g. Hazing or Hazing Activity — any intentional, knowing, or reckless act, occurring on or off of the campus of an educational institution, by one person alone or acting with others, directed against a person, for the purpose of pledging, joining, being initiated into, affiliating with, holding office in, or maintaining membership in any organization. Hazing includes but is not limited to:

i. any type of physical brutality, such as whipping, beating, striking, branding, electric shocking, placing of a harmful substance in or on the body, or similar activity;

ii. any type of physical activity that involves or results in sleep deprivation, exposure to the elements, confinement in a small space, calisthenics, or other activity that subjects the person to an unreasonable risk of harm or that adversely affects the mental or physical health or safety of the person;

iii. any activity involving consumption of a food, liquid, alcoholic beverage, liquor, drug, or other substance, in addition to those described by Paragraph E, that subjects the person to an unreasonable risk of harm or that adversely affects the mental or physical health or safety of the person;

iv. any activity that intimidates, demeans, embarrasses, or threatens the person with ostracism, that subjects the person to stress, shame, or humiliation, that adversely affects the mental health or dignity of the person or discourages the person from entering or remaining registered in an educational institution, or that may reasonably be expected to cause a person to leave the organization or the institution rather than submit to acts described in this subsection;

v. any activity that involves coercing, as defined by Section 1.07 Penal Code, a student to consume a drug or an alcoholic beverage or liquor in any amount;

vi. any activity that threatens the wellbeing of a person by restricting their ability to communicate with others to get medical help, to document prohibited conduct, or report misconduct; such as, but not limited to, the confiscation of a personal communication device; and

vii. any activity that induces, causes, or requires the person to perform a duty or task that involves a violation of the Penal Code. See Texas Education Code, Section 37.151(6) for more information.

h. Alcohol Misconduct

i. engages in unauthorized use, possession, sale, distribution, or consumption of alcoholic beverages on or in university property, including but not limited to a classroom, laboratory, auditorium, office, athletic facility, or residence hall;

ii. engages in the improper use, possession, sale, distribution, or consumption of alcoholic beverages, including but not limited to underage possession of alcohol, underage consumption of alcohol, providing alcohol to a minor, public intoxication, minor driving under the influence of alcohol, or driving while intoxicated;

j. Individual and/or Unauthorized Group Disturbance — engages in speech, including but not limited to verbal, electronic, or written communication, that is directed to incite or produce imminent lawless action and is likely to incite or produce such action;

k. Harassment — language or conduct that, when viewed through an objective standard, is unwelcome and sufficiently severe, persistent, or pervasive such that it could reasonably be expected to create an intimidating, hostile, or offensive environment, or has the purpose or effect of unreasonably interfering with a person's academic or work performance, or a person's ability to participate in or benefit from university programs, services, opportunities, or activities;

l. Property

i. Unauthorized Use — engages in unauthorized use of property, keys, equipment, resources, supplies, buildings, or facilities owned or controlled by the University or The University of Texas System;

ii. Unauthorized Entry — engages in unauthorized entry into property, buildings, structures, or facilities owned or controlled by the University or The University of Texas System;

iii. Damage — damages, defaces, destroys, or tampers with property of the university, property belonging to any student or employee of the university, or property of a visitor to the university;

iv. Water and Fountains — enters, remains, or is in the water of any fountain or other artificial body of water on the university campus that is not designed and maintained for recreational or therapeutic purposes; dumps, throws, places, or causes to be placed any material, object, trash, person, animal, waste, or debris in the water of any fountain or other artificial body of water located on the university campus;

m. Technology Misuse
i. engages in unauthorized or disproportionate use of an information technology resource owned or controlled by the university or The University of Texas System;
ii. engages in unauthorized access or entry into a computer, computer system, network, database, software, or data;
iii. engages in unauthorized downloading, copying, or distribution of computer software or data;

q. Stalking – a course of conduct directed at a specific person that would cause a reasonable person to fear for the person's safety or the safety of others or would cause that person to suffer substantial emotional distress. A "course of conduct" means two or more acts in which a person directly, indirectly or through third parties, by any action, method, device or means, follows, monitors, observes, surveils, threatens or communicates to or about a person or interferes with a person's property. "Reasonable person" means a reasonable person under similar circumstances and with similar identities to the complainant. "Substantial emotional distress" means significant mental suffering or anguish that may, but does not necessarily require medical or other professional treatment or counseling. (Please note that "stalking," as defined in Sec. 11-402(a)(14), is separate from the gender or sex-based stalking rule included in HOP 3-3031.)

o. Gambling – engages in or offers games of chance for money or other gain;

p. False and Misleading Information
   i. engages in the falsification of academic records, including but not limited to altering or assisting in the alteration of any official record of the university or The University of Texas System and submitting false information or omitting requested information that is required for or related to any academic record of the university or The University of Texas System. Academic records include, but are not limited to, applications for admission, the awarding of a degree, registration materials, grade change forms, and reporting forms used by the Office of the Registrar;
   ii. furnishes false information to or withholds material information from any university official, faculty member, or staff member acting in the course of their duties;
   iii. alters or assists in the alteration of any official nonacademic record or document, including parking permits and athletic tickets, of any university office or of The University of Texas System;

r. Disruptive Conduct
   i. engages in conduct that interferes with or disrupts any teaching, research, administrative, disciplinary, public service, learning, or other authorized activity;
   ii. engages in promoting or inciting conduct that interferes with or disrupts any teaching, research, administrative, disciplinary, public service, learning, or other authorized activity;

s. Failure to Comply
   i. failure to comply with the directions of any university official(s) acting in the performance of their duties;
   ii. failure to identify oneself to a university official(s) when requested to do so;
   iii. failure to comply with rules, regulations, procedures, policies, standards of conduct, or any other directive of the university, including but not limited to schools, colleges, departments, labs, etc.;
   t. Violent Conduct – any conduct that physically harms or injures another person.
   u. Animal Cruelty – engages in conduct with an animal that may violate any provision of federal, state, or local laws, whether or not the violation occurs on university property or in connection with any university-oriented activity.

v. University System and Institutional Violations – violates any provision of the Regents' Rules and Regulations of The University of Texas System;

w. Financial Misconduct – failure to meet financial obligations to the university, including but not limited to failure to remit payment, fraudulent cancellation of payment, or failure to abide by an agreed-upon payment schedule;

x. Retaliation – engages in or attempts to engage in any action, directly or indirectly, including through a third party, that is intended to harass, intimidate, threaten, harm or improperly influence any person because they:
   i. make, or intend to make a report, complaint, grievance, or allegation of prohibited conduct under any university policy or rule, or under any law;
   ii. participate in and/or cooperate with conduct proceedings; or,
   iii. appear as a witness.

y. Aiding in Academic Misconduct - The Student Organization aids, encourages, organizes, approves or otherwise participates in behaviors that would constitute collusion, plagiarism, misrepresentation (e.g. having another Student Organization member check into a class or take an exam) and/or other forms of Academic Misconduct. Evidence of a violation of this policy must demonstrate systemic participation and/or knowledge of misconduct beyond 1-2 Student Organization members participating in the violation.

### Subchapter 6–500. Disciplinary Procedures

#### Sec. 6–501. Notice and Initiation of Disciplinary Proceeding

a. Allegations of prohibited Conduct committed by Student Organizations shall be referred to the Dean of Students for a determination of responsibility and, if applicable, assessment of sanctions(s), in accordance with the procedures detailed in this chapter.

1. In accordance with Sec. 10-202(a)(3), Academic and Administrative Units possess the authority to establish and enforce administrative policies regarding access to and the use of building space; however, those units shall not engage in further action related to the Student Organizations. If there are issues regarding other possible policy and rule violations, the Academic and Administrative Units should refer those to the Dean of Students for processing in accordance with this Chapter’s procedures.

b. A Student Organization violates a University regulation when
   1. one or more of its Officer(s) acting in the scope of their organizational capacities commit a violation;
   2. one or more of its members commit a violation and the action that constitutes the violation was approved by majority vote of those members of the Student Organization present and voting;
   3. one or more members of a committee of the Student Organization commit a violation while acting in the scope of the committee’s assignment;
   4. a member of the Student Organization commits a violation while acting with apparent authority of the Student Organization;
5. one or more members of the Student Organization or its officers permit, encourage, aid, or assist any of its members in committing a violation;
6. one or more members of the Student Organization or its officers, under circumstances where such persons knew or should have known that an action constituting a violation was occurring or about to occur, fails to prevent that action; or
7. one or more members of the Student Organization fail to report to appropriate University or civil authorities promptly their knowledge or any reasonable information about a violation.

c. When the Dean of Students receives notice that a Student Organization has allegedly engaged in prohibited conduct under Section 6-404, the alleged violation will be preliminarily investigated. Upon completing the preliminary investigation, the Dean of Students may:
   1. dismiss the allegation if there is insufficient evidence to proceed with an investigation, and/or the information collected, even if true, would not constitute Prohibited Conduct; or
   2. pursue the appropriate resolution option as outlined in section 6-503.

d. Dismissal at this stage is not a determination of responsibility and is not recorded as a prior determination of such. However, if the behavior may constitute a violation of policies of international governing bodies with which the Student Organization is affiliated, and the Dean of Students is aware of this affiliation, the Dean of Students may, at their discretion, forward the information to the appropriate body. The Dean of Students may reopen a matter dismissed at this stage and proceed to resolution pursuant to Section 6-503 if it receives additional information that supports such a determination.

e. If the Dean of Students determines that there are reasonable grounds for proceeding with the disciplinary process, the Dean of Students will identify the appropriate resolution option as outlined in section 6-503.

f. Members of Student Organization leadership are encouraged to immediately report any Prohibited Conduct committed by members of the organization of this or other University policies to the Dean of Students. This report should provide a detailed description of the Prohibited Conduct that transpired, the names of any individuals involved, and a description of any internal disciplinary actions taken by the organization. If an organization chooses to self-report Prohibited Conduct in this manner, the Dean of Students may, in its sole discretion, only investigate the individual(s) implicated in the report. However, if information is uncovered in the investigation that suggests that the organization aided, encouraged, sanctioned or organized the Prohibited Conduct, the Dean of Students may launch an investigation of the organization as outlined in Sec. 6-507.

Section 6-502. Interim Actions

a. Pending an investigation, hearing, or outcome of the allegations against a Student Organization, the Dean of Students, the President of the University (or their delegate), or the Title IX Coordinator may take immediate action, as is appropriate to the circumstances, against a Student Organization that is alleged to have engaged in Prohibited Conduct, when, in the opinion of the official, the interest of the University or The University of Texas System would be served by interim action. The Dean of Students will notify the Officers of the involved Student Organization by letter or by e-mail of the disciplinary action. The Dean of Students may send the notice to any Officers of the Student Organization.

b. Notice of the interim action shall be sent by the Dean of Students to Officers of the involved Student Organization by letter or by e-mail, using addresses on file with the registrar’s office.

c. If a Student Organization wishes to seek a review of any interim action(s) implemented by the Dean of Students, the President of the University, or their delegate, the Student Organization must submit a written request for an administrative review to the Dean of Students. This administrative review should happen within five (5) business days of the Dean of Students’ receipt of the request. At the discretion of the Dean of Students, if additional time is needed to conduct the review, notice will be sent to the Student Organization. This administrative review is not a hearing on the merits of the underlying allegations, but is merely a review to determine what, if any, interim actions are appropriate. The review may lead to a continuance, revocation, and/or modification of the interim actions, including modifications that may be more restrictive than the initial actions. The Dean of Students will notify the Student Organization officers of the outcome of the review in writing within three (3) business days of the review meeting. This notification will include the decision and the rationale for that decision.

d. Interim Action implemented by the Title IX Coordinator may be reviewed in accordance with review guidelines set forth in HOP 3-3031.

e. If the University investigation lasts beyond 30 days (as outlined below, beginning from the date of the Preliminary Conference), the Student Organization may request another review of the interim action(s), which will be handled similarly to the initial request for review as outlined above.

Sec. 6-503. Resolution Options

a. Allegations that a Student Organization has engaged in Prohibited Conduct may be resolved pursuant to one of four available processes:
   1. Prescribed Resolution (Tier 1) pursuant to Section 6-504;
   2. Partnership Process Resolution (Tier 2) pursuant to Section 6-506;
   3. University Investigation and Adjudication (Tier 3) pursuant to Section 6-507;
   4. A Mutual Resolution Agreement pursuant to Section 6-5011.

b. The University will develop, publish and regularly update a Violation Rubric to use in determining which resolution option may be available to a Student Organization to resolve allegations that it engaged in Prohibited Conduct. The Violation Rubric provides a recommendation for an appropriate resolution option that is based on the following criteria:
   1. the severity of the alleged violations
   2. the allegation of physical, sexual or other forms of violence
   3. the risk of harm to other persons
   4. the conduct history of the Student Organization
   5. current status of the Student Organization; and
   6. other relevant factors.

c. Upon notice of a potential violation, the Dean of Students will use the Violation Rubric to assess the allegations and determine which resolution options may be made available to address the allegations of Prohibited Conduct. The recommendation provided by the Violation Rubric is not binding upon the Dean of Students, and the Dean of Students reserves the right, at any time during the resolution process, to require the allegations of Prohibited Conduct be resolved through a higher tier resolution process. The Student Organization may, in all cases, elect to resolve the allegations through a University Investigation and Adjudication.
d. At any time, the University may offer to the organization the opportunity to resolve the matter through a Mutual Resolution Agreement as outlined in Sec. 6-511.

e. A Preliminary Conference will be used when the Partnership Process Resolution or University Investigation options are utilized. The Dean of Students may, at any time, determine that a case should be moved from a lower tier resolution process to a University Investigation.

**Sec. 6-504. Prescribed Resolution Process**

a. The Prescribed Resolution Process permits the Dean of Students and the Student Organization to resolve allegations of Prohibited Conduct without engaging in a formal investigation. In these cases, the Dean of Students may determine that the preponderance of the evidence supports a conclusion that the Prohibited Conduct occurred without further investigation or meeting with the Student Organization’s representative and send an outcomes letter to the Student Organization’s Officer(s) outlining the determination, the outcomes, and the rationale for both.

b. Upon receipt of this letter, the Student Organization may do one of the following:
   1. Accept the determinations and outcomes
   2. Decline to accept the determinations and outcomes
      1. The Student Organization may reject the determination, and the matter will be resolved through a University Investigation as described in Sec. 6-507.
      2. The Student Organization may agree in writing to waive its ability to be heard regarding the allegations of Prohibited Conduct and accept the determination and outcomes. If the Student Organization follows the directives outlined in the outcomes letter, the matter will be considered closed once the outcomes are completed. Failure to complete the outcomes may result in the Dean of Students opening an additional disciplinary action; or
   c. The Student Organization must notify the Dean of Students of their choice from the above within three (3) business days of receipt of the letter.

d. If the organization agrees to the Partnership Process, the Dean of Students will, in consultation with the Student Organization Officer(s), Student Organization Advisor, and other appropriate parties; develop an investigation scope and timeline.

e. The Student Organization must conduct an investigation and submit a written investigation report within the agreed-upon timeline, barring extraordinary events as determined by the Dean of Students, or as otherwise specified in writing by the University.
   1. The report should be detailed and specific, including the names of specific individuals involved in the alleged violation, and any internal disciplinary action the Student Organization implemented for those individuals.
   2. The Dean of Students presents the Student Organization with multiple resolution options, the Student Organization will have one business day following the Preliminary Conference to notify the Dean of Students of the preferred resolution option.
   3. If the student organization agrees to the Partnership Process, the Dean of Students will, in consultation with the Student Organization Officer(s), Student Organization Advisor, and other appropriate parties; develop an investigation scope and timeline.
   4. The Student Organization must conduct an investigation and submit a written investigation report within the agreed-upon timeline, barring extraordinary events as determined by the Dean of Students, or as otherwise specified in writing by the University.
   5. The report should be detailed and specific, including the names of specific individuals involved in the alleged violation, and any internal disciplinary action the Student Organization implemented for those individuals.

**Sec. 6-504. Prescribed Resolution Process**

a. The Prescribed Resolution Process permits the Dean of Students and the Student Organization to resolve allegations of Prohibited Conduct without engaging in a formal investigation. In these cases, the Dean of Students may determine that the preponderance of the evidence supports a conclusion that the Prohibited Conduct occurred without further investigation or meeting with the Student Organization’s representative and send an outcomes letter to the Student Organization’s Officer(s) outlining the determination, the outcomes, and the rationale for both.

b. Upon receipt of this letter, the Student Organization may do one of the following:
   1. Accept the determinations and outcomes
   2. Decline to accept the determinations and outcomes
      1. The Student Organization may reject the determination, and the matter will be resolved through a University Investigation as described in Sec. 6-507.
      2. The Student Organization may agree in writing to waive its ability to be heard regarding the allegations of Prohibited Conduct and accept the determination and outcomes. If the Student Organization follows the directives outlined in the outcomes letter, the matter will be considered closed once the outcomes are completed. Failure to complete the outcomes may result in the Dean of Students opening an additional disciplinary action; or
   c. The Student Organization must notify the Dean of Students of their choice from the above within three (3) business days of receipt of the letter.

**Sec. 6-505. The Preliminary Conference**

a. The Dean of Students will schedule a Preliminary Conference in each instance in which allegations of Prohibited Conduct will be resolved through the Partnership Process or a University Investigation. The Preliminary Conference will include the Student Organization’s Officer(s), Advisor, and other appropriate parties.

b. This meeting provides an opportunity for the Student Organization Officer(s), the Student Organization Advisor(s) and the Student Organization’s inter/national governing body (if applicable) to discuss the nature of the allegations, the rights and responsibilities of the Student Organization, the resolution options available to the student organization, and the specific steps involved in the different resolution options.

c. If the Dean of Students presents the Student Organization with multiple resolution options, the Student Organization will have one business day following the Preliminary Conference to notify the Dean of Students of the preferred resolution option.

d. If the Student Organization fails to attend the Preliminary Conference or fails to choose a resolution option, the Dean of Students will pursue the allegations using the University Investigation and Adjudication process described in Section 6-507.

**Sec. 6-506 - Partnership Process**

a. The Partnership Process permits the Student Organization to conduct an internal investigation subject to oversight and approval of the Dean of Students. The Dean of Students may also conduct a concurrent investigation as described in Sec. 6-507.
g. Determinations of responsibility through the Partnership Process are final and may not be appealed.

Sec. 6–507. University Investigation

a. The Dean of Students or the Student Organization may elect to have any allegations of Prohibited Conduct resolved through a University Investigation.

b. An investigation is an administrative process by which the Dean of Students gathers information related to the alleged Prohibited Conduct. The investigation may include but is not limited to, summoning Officer(s) and members of the accused Student Organization; requesting documents from the Student Organization; reviewing organizational records; reviewing information received by off-campus persons or organizations, including law enforcement; reviewing information received by an academic or administrative unit; and calling witnesses.

c. Searches of organization-occupied or organization-controlled premises or of an organization's possessions will be conducted only as authorized by law.

d. Student Organizations that fail to respond to meeting requests from the Dean of Students may be subject to interim action as described in subsection 6-501(f);

e. If the Dean of Students calls a meeting with a student during an investigation, the student may be accompanied by an Advisor.

f. The Dean of Students may require Student Organization members, or a select group of members (i.e. all new members of the organization) to participate in an interview and may restrict communication between members during the interview (for example, holding Student Organization members in a room and prohibiting interview participants from using their cell phone or other devices during the interview process.

g. Students participating in an investigation process are expected to participate in an active, cooperative and truthful manner. The University will complete the initial investigation in a period of no more than 30 days, barring any extraordinary circumstances. In the event that extraordinary circumstances arise that will require a delay beyond 30 days, the University will notify the Student Organization Officer(s) of the delay, including the reasons for the delay and the anticipated timeline for completing the investigation.

h. At the completion of the investigation, the Dean of Students will provide a written draft of the investigation report to the Student Organization for review and comment. The Dean of Students will make the final determination of the relevance of any information gathered during the investigation.

i. The Student Organization must provide any comments related to the investigation report in writing to the Dean of Students within five (5) business days of the receipt of the report, barring extraordinary circumstances as determined by the Dean of Students. Upon receipt of these comments (if applicable) the Dean of Students will generate the final report and share it with the Student Organization at least five (5) days in advance of any resolution meeting.

j. At the completion of the investigation, if the Dean of Students determines that no policy violation has been found, the Dean of Students will forward a copy of the final report and the determination to the Student Organization. The Dean of Students may choose to meet with the Student Organization's Officer(s) to discuss the findings of the report and ongoing behavioral expectations.

k. At the completion of the investigation, if the Dean of Students determines that there is sufficient evidence to issue a finding of responsibility for violation of policy, the Dean of Students will issue an administrative disposition, including a notice of findings and a determination of responsibility. The Dean of Students will schedule a meeting with the Student Organization to determine the next steps in the process. At this meeting, the Student Organization may choose one of the following options:

1. Accept the Administrative Disposition – the Student Organization may accept the administrative disposition and waive their right to a hearing. If this occurs, the process will move forward to the outcomes process described in Section 6-510.

2. Formal Hearing – the Student Organization may reject the findings of the administrative disposition of the Dean of Students. If this occurs, the Student Organization may choose to have the matter resolved through a Formal Hearing as outlined in Section 6-509.

l. Allegations of conduct assigned to Track C under HOP 3-3031 will be investigated in accordance with the procedures described in HOP 3-3031 and referred to the Dean of Students for adjudication. At the discretion of the Dean of Students and in coordination with the Title IX Coordinator, Track C allegations may be resolved through the Restorative Practices Alternative in HOP 3-3031 rather than a formal investigation process.

m. During a Track C case investigation, the Dean of Students has the authority to enact interim measures to minimize contact between the involved parties, including but not limited to the issuance of a no contact directive.

Sec. 6–508. Formal Hearing

a. The Student Organization may request to have the case adjudicated by a Student Conduct Panel (SCP), for eligible cases per 6-402, or a Hearing Officer.

b. The Dean of Students will give notice, per section 6-401(k), to the Student Organization's Officer(s) at least 5 days before the hearing date.

c. The notice will:

1. state the date, time, and location of the hearing;

2. inform the Student Organization Officer(s) of their rights as outlined in this section.

d. The Hearing Officer or SCP may elect to call and question witnesses as necessary, including the investigator(s) who compiled the investigative report. The Student Organization may question any witnesses called by submitting written questions to the Hearing Officer or SCP.

e. The Student Organization will be given the opportunity, in person or in writing, to submit or give a statement to the Hearing Officer or SCP and to respond to any information provided by witnesses.

f. The Hearing Officer or SCP may question the Student Organization Officer(s).

g. The Student Organization may bring an Advisor of their choosing to the hearing. The Advisor may not speak on behalf of the Student Organization, question witnesses, or actively participate in the hearing other than to advise the Student Organization Officer(s).

h. The Hearing Officer or SCP will render a written decision that will include whether the student is responsible for a violation, the findings of fact in support of the decision, and sanction(s) assessed, if applicable. The Student Organization and the Dean of Students will each be given a copy of the decision. The written decision is the official outcome on the matter from which any appeal is based.

i. The Hearing Officer or SCP shall make every effort to complete the written decision within five days of the hearing. If the Hearing Officer or SCP is unable to issue the written decision within five days, they shall provide notice of the delay and the new date for completion to the Student Organization and the Dean of Students.

j. In Track C cases, subject to the Family Educational Rights and Privacy Act (FERPA) and other applicable law, the Dean of Students
shall, upon receipt of the Hearing Officer’s decision, forward copies of the decision to the Complainant, if applicable.

k. In cases involving allegations of crimes of violence, as defined in the Family Educational Rights and Privacy Act (FERPA) and other applicable law, the Dean of Students shall notify the alleged victim(s) of the final outcome.

l. If the Student Organization is found responsible, the development of outcomes will take place as described in Section 6-510.

Sec. 6-509. Mutual Resolution Agreement

a. At any point throughout the organization conduct process, the organization may request to enter into a Mutual Resolution Agreement. In pursuit of a Mutual Resolution Agreement, the Dean of Students and the Student Organization will work together to resolve the disciplinary matter in a way that eliminates the behavior(s), and prevents its recurrence, within the practice and culture of the organization The Dean of Students may continue pursuing an investigation even if a Student Organization requests to enter into a Mutual Resolution Agreement. A mutual resolution agreement is not a finding of responsibility, nor does it absolve the Student Organization of responsibility for any alleged violations. Rather, it is an opportunity to resolve an allegation of misconduct through a set of agreed-upon terms designed to improve the Student Organization's culture.

b. The result of this resolution process is an agreement between Student Organization and the university intended to restructure and rehabilitate the conduct and practices of the Student Organization through the completion of specified terms and conditions, which may include the development of Outcomes as outlined in section 6-510.

c. This agreement will last for a specified period of time, during which the Student Organization will be granted conditional registration. This conditional registration may be terminated if the organization is found in violation of any university policies as outlined in the Institutional Rules, or if the organization fails to comply with the terms and conditions of the agreement.

Sec. 6–510. Outcomes

a. At the conclusion of the resolution process (including the conclusion of any applicable appeals), the Dean of Students will implement Outcomes for any Student Organization that has engaged in Prohibited Conduct. The Outcomes may include Status Outcomes, Educational Outcomes, and/or Structural Outcomes as described below.

b. If the disciplinary process is resolved through the Partnership Process, acceptance by the Student Organization of an Administrative Disposition, or through a hearing, the Dean of Students will schedule an outcomes meeting with the Student Organization's Officer(s), Advisor(s), and other parties as applicable. The purpose of this meeting shall be to determine the outcomes necessary to effectively address the behavior of the student organization and will include the solicitation of input from the Student Organization Officer(s), Advisor(s), and all other interested parties.

c. At the completion of the outcomes meeting, the Dean of Students will provide notice of all outcomes assigned to the Student Organization to the Student Organization's Officer(s) and Advisor(s) in writing via an Outcomes Letter. The Outcomes may be assessed singly, in combination, or to follow consecutively. The Outcomes Letter will include the length of any active status and/or Suspension periods, the specific privileges impacted, and any and all other educational or status Outcomes.

d. The Dean of Students will maintain the Outcomes Letter in the Student Organization's record for a period of no less than seven (7) years. If a Student Organization loses campus recognition, the Dean of Students will maintain the Outcomes Letter indefinitely. If applicable, a copy of the Outcomes Letter may be sent to their Inter/National Organizational Governing Body or other appropriate parties.

e. The Dean of Students and/or the appropriate University department will oversee the completion of Outcomes. If the student organization misses any deadlines, fails to complete any Outcomes, and/or has a subsequent violation(s), the Student Organization may be subject to additional Outcomes and/or disciplinary actions at the discretion of the Dean of Students.

f. Status Outcomes - Pursuant to section 6–501, the following status outcomes may be assigned to a Student Organization for violation of a Regents’ Rule, University regulation, or administrative rule:

   1. "Written warning" means that the Student Organization's Officer(s) have been notified that the organization has engaged in behavior that violated a rule or regulation of The University of Texas System or the University. The Dean of Students may impose conditions related to the offense to address the behavior that led to the violation. Further violations may result in a minimum of probation for the organization.

   2. "Probation” means a specified period of time during which the Student Organization is required to comply with specified terms and conditions to address the behavior that led to the violation. During this specified period of time, the Dean of Students may restrict one or more of the organization’s rights, as listed in Section 6-300. Further violations may result in a minimum of suspension for the organization.

   3. "Deferred suspension” means that the conduct of the Student Organization could have resulted in suspension, but the suspension is deferred for a period of observation and review. During the period of deferred suspension, the Dean of Students may restrict one or more of the organization’s rights, as listed in Section 6-300. Further violations may result in a minimum of suspension for the organization.

   4. "Suspension” means a period of time during which the Student Organization is not recognized by the university, and is prohibited from the rights and privileges of registration as a student organization. During a period of suspension, the organization may be required to comply with conditions and requirements to address the behavior that led to the violation. Further violations may result in expulsion of the organization;

   5. "Expulsion” means a permanent separation from the University and prohibits the Student Organization from university recognition. This status results in the automatic loss of all rights and privileges associated with University recognition.

g. A Student Organization placed on Suspension/Expulsion is prohibited from sponsoring, co-sponsoring, or participating in any and all social, intramural, athletic, or other similar activities on or off campus. A suspended or expelled Student Organization may not solicit, engage in the recruitment, orientation or intake of, or initiate any new members. Suspension/expulsion may also include the forfeiture of other specifically listed privileges. Suspension should be for a specific and determined period of time, and will include a written return agreement outlining specific conditions for return. The Suspension may be delayed or extended at the discretion of the Dean of Students based on ongoing activity during a period of suspension.

h. If the Student Organization dissolves or loses recognition, as a result of organizational conduct, and then attempts to seek recognition under the guise of a different organizational name, the University/College reserves the right to deny the request for recognition or withdraw the recognition. This conclusion may be based on any of multiple factors, including but not limited to, overlapping membership, similarity of purpose, and the timing of the dissolution or prior loss of recognition and the request for new recognition.
i. Continued operation of the Student Organization after suspension or loss of recognition will result in a violation of Failure to Comply and may result in additional outcomes or restrictions, up to and including an extension of the Suspension beyond the terms originally outlined in the initial Outcomes Letter/return agreement.

j. Educational Outcomes - Educational Outcomes may include, but are not limited to, educational programming, community service, interventions, restorative practice, restrictions, workshops, or other Outcomes, determined to help develop the culture and community of the Student Organization. The Dean of Students will determine Educational Outcomes after consultation with the appropriate University Office(s), the governing body and/or affiliated organization of the Student Organization, organizational leadership, advisors, and/or other appropriate stakeholders as necessary.

k. Structural Outcomes - Structural Outcomes are related to the structure, membership or governance of the organization. Structural outcomes, developed in collaboration with the inter/national organizational governing body (if applicable), may include, but are not limited to, changes to organizational operating procedures, a review of organization membership/leadership, an external review of the organization, and changes to organization advisor support. Structural Outcomes may be included alongside any Status and Educational Outcomes, after consultation with the appropriate University department(s), the organization’s inter/national governing body (if applicable), the Student Organization leadership, advisors, and/or other appropriate stakeholders as necessary.

Sec. 6–511. Appeals

a. The Student Organization may appeal both the finding of responsibility and the Outcomes issued as a result of a hearing. The Student Organization may appeal only the Outcomes issued as a result of the Partnership Process. The Complainant in a Track C case may appeal both the finding of responsibility and the Outcomes issued as a result of a hearing.

b. Barring extraordinary circumstances as determined by the Dean of Students, requests for appeals must be submitted in writing to the Dean of Students within five (5) business days of receipt of the written determination from the Hearing Officer or SCP or receipt of the Outcomes Letter from the Dean of Students. The request for appeal must state the ground(s) for appeal and include the Student Organization’s argument in support of appeal.

c. The Student Organization or Complainant (in a Track C matter) may only appeal based upon one or more of the following grounds:

1. Procedural Error: A procedural error or omission occurred that significantly impacted the outcome of the hearing (e.g. substantiated bias, material deviation from established procedures, etc.). Any challenge for bias must include: a) what the bias was, b) how the bias manifested itself, and c) how the bias significantly impacted the outcome. A mere allegation of bias will not be sufficient to meet this ground for appeal.

2. New Evidence: New evidence is information that was unknown or unavailable during the original hearing or investigation that could substantially impact the original finding or sanction. A summary of this new evidence, how it was previously unknown or unavailable, and its potential impact must be included.

A. If a person or Student Organization Officer refused to testify or participate in the investigation and now wishes to submit their testimony as new evidence at the appellate level, that testimony will not be considered “new evidence” under this ground. The Dean of Students or designee serving as the reviewer of requests for appeal may determine if the matter will be sent back for further investigation based on this request for appeal.

3. Appeal of the Outcome(s): The Outcome(s) imposed is significantly disproportionate the violation(s) or are of such nature that the Student Organization could not reasonably complete them within the allotted timeframe.

d. No person involved as an original Hearing Officer or investigator may serve as an Appellate Officer.

e. The University’s presumed position is that all sanctions will be implemented during the appellate process. The Dean of Students may consider, upon a request in writing, to stay or modify a sanction during the appellate process. The Dean of Students will only grant a stay or modification if the Student Organization shows that extraordinary circumstances exist that merit the stay or modification.

f. An Appellate Officer will review the request for appeal to determine if the request states of one or more of the permissible grounds for appeal. If the request for appeal states one or more of the permissible grounds for appeal, the Appellate Officer will consider the appeal on its merits.

g. The burden is on the Appellant to show the grounds are met using the preponderance of the evidence standard.

h. In Track C cases, the Dean of Students may share all or part of the appeal with the non-appealing party to allow them to respond to the request for appeal. Barring extraordinary circumstances as determined by the Dean of Students, the response must be provided to the Dean of Students within five (5) business days of receipt of the notice of the request for appeal.

i. If there is a challenge to any member of the process (e.g. a challenge of bias by an investigator or Hearing Officer), the Dean of Students may share all or part of the appeal with the challenged party to allow them to respond. Barring extraordinary circumstances as determined by the Dean of Students, the response must be provided to the Dean of Students within five (5) business days of receipt of the notice of the request for appeal. The Appellate Officer serving in the reviewer role will issue their decision to allow the appeal to proceed in whole or in part to deny the appeal within five (5) days of receipt of all information and responses, barring extraordinary circumstances.

j. The Appellate Officer will issue their decision within five (5) days of receipt of all information and responses, barring extraordinary circumstances. In instances where the Appellate Officer needs additional time, the Appellate Officer will notify the Student Organization’s Officer(s) within the allotted time for issuing a decision.

k. The original finding and Outcome(s) are presumed to have been decided reasonably and appropriately.

1. Appeals are not intended to be full re-hearings of the original hearing process is final. An appeal that affirms the Outcomes is final.

m. An appeal that affirms the finding of an administrative or formal hearing process is final. An appeal that affirms the Outcomes is final.

n. An appeal that is granted for the appellant based on new evidence should be remanded to the Dean of Students, Hearing Officer, or SCP for reconsideration, rehearing, or further investigation.

o. An appeal granted for the appellant based on procedural error may either be remanded to the Investigator, Dean of Students, Hearing Officer, or SCP with instructions to further investigate, clarify findings, or remedy errors (including by re-hearing the matter); or be reversed if the procedural error cannot be cured.

p. When an appeal is granted for the appellant based on disproportionate Outcome(s), the Appellate Officer may alter the Outcome or remand the case with recommendations to the Dean of
Students, Hearing Officer, or SCP to modify the Outcome(s). Such Outcome determination shall be final.

q. The decision of the Appellate Officer is final.

Sec. 6-512. Provisional Return.

a. In some circumstances, Student Organizations assigned a sanction of Suspension or Cancellation for a violation of this Chapter, may petition the University for a provisional early return to campus. This subchapter sets out the standards regarding the application and the eligibility determination to begin the provisional return process.

1. Criteria. Student Organizations must meet the following criteria to be eligible to begin the early provisional return process:
   1. a Student Organization may petition for a disciplinary review by the Dean of Students after completion of no less than half the term assigned Suspension or Cancellation;
   2. the suspended Student Organization has not applied for recognition under this Chapter using a different name; and
   3. members of the organization at the time of the suspension have not had any documented instances of misconduct during the period of loss of recognition that could be reasonably associated with the Student Organization.

2. Application. Individuals seeking an early provisional return for an organization must utilize the designated application available on the Student Conduct and Academic Integrity website. Student Conduct may require supporting documentation, as necessary to validate the information in the application.

3. Electronic Submission. Applications, and any supporting documentation, must be submitted electronically through the Student Conduct and Academic Integrity website.

4. Advisor Designation. An applicant must identify an advisor, who meets the criteria set at above at 6-101(8), who will assist in working through the early provisional return process with the Student Organization and University officials. In the event the applicants cannot identify such an advisor, or if they prefer assistance in selecting one, the Office of the Dean of Students, will assign an advisor. Advisor designations for this subsection must be approved by the Dean of Students.

5. Eligibility Determination. The Executive Director of Student Conduct and Academic Integrity, or designee, will assess the application and determine whether or not the organization has met the eligibility requirements. If eligibility criteria are met, the director will convene a review committee to recommend to the director whether to uphold the existing sanction or allow the organization to begin the provisional return process. The director will review the application materials and the recommendation of the committee, to make the determination. An organization may make a request, in writing, for reconsideration of that determination to the Dean of Students. Requests for reconsideration must be made within three business days of the director’s determination. The Dean of Students’ determination is final and not appealable.

6. Approval to begin early provisional return process. If the application is approved, a Student Organization will begin the process prescribed by the Dean of Students and published on the Student Conduct and Academic Integrity website. If a Student Organization fails to meet the requirements of the early provisional return process or has any conduct violations during the period of provisional return, the University may revoke the Student Organization’s provisional status.

7. A Student Organization approved for early provisional return will remain on provisional status until it has completed all requirements of the early provisional return process and the original Suspension or Cancellation term has been met.

b. In circumstances where a Student Organization has completed its full Suspension or Cancellation term for a violation of this Chapter, the organization may petition the University for a provisional return to campus.

1. Criteria. Student Organizations must meet the following criteria to be eligible to begin the provisional return process:
   1. a Student Organization may petition for a disciplinary review by the Dean of Students after completion the term assigned Suspension or Cancellation;
   2. the suspended Student Organization has not applied for recognition under this Chapter using a different name; and
   3. members of the organization at the time of the Suspension or Cancellation have not had any documented instances of misconduct during the period of loss of recognition that could be reasonably associated with the Student Organization.

2. Application. Individuals seeking a provisional return for an organization must utilize the designated application available on the Student Conduct and Academic Integrity website. (hyperlink) Student Conduct may require supporting documentation, as necessary to validate the information in the application.

3. Electronic Submission. Applications, and any supporting documentation, must be submitted electronically through the Student Conduct and Academic Integrity website.

4. Advisor Designation. An applicant must identify an advisor, who meets the criteria set at above at 6-101(8), who will assist in working through the early provisional return process with the Student Organization and University officials. In the event the applicants cannot identify such an advisor, or if they prefer assistance in selecting one, the Office of the Dean of Students, will assign an advisor. Advisor designations for this subsection must be approved by the Dean of Students.

5. Eligibility Determination. The Executive Director of Student Conduct and Academic Integrity, or designee, will assess the application and determine whether or not the organization has met the eligibility requirements. If eligibility criteria are met, the director will convene a review committee to recommend to the Dean of Students whether to uphold the existing sanction or allow the organization to begin the provisional return process. The director will review the application materials and the recommendation of the committee, to make the determination. An organization may make a request, in writing, for reconsideration of that determination to the Dean of Students. Requests for reconsideration must be made within three business days of the director’s determination. The Dean of Students’ determination is final and not appealable.

6. Approval to begin provisional return process. If the application is approved, a Student Organization will begin the process prescribed by the Dean of Students and published on the Student Conduct and Academic Integrity website. If a Student Organization fails to meet the requirements of the provisional return process or has any conduct violations during the period of provisional return, the University may revoke the Student Organization’s provisional status.

7. A Student Organization approved for provisional return will remain on provisional status until they have completed all requirements of the provisional return process.

Relates to Handbook of Operating Procedures, 3-3031.
Chapter 7. The Department of Recreational Sports

Subchapter 7–100. General Provisions

Sec. 7–101. Purpose
The University of Texas at Austin seeks to promote and conduct officially organized sports activities and athletic recreation programs for the University community. The purposes of these programs are:

a. to provide students at the University with an opportunity for interesting and rewarding sports competition and recreation;
b. to present a varied program of sports and recreational activities so that every student and individual with a Recreational Sports membership has the opportunity to participate regardless of athletic ability.

Sec. 7–102. Definitions
In this chapter, unless the context requires a different meaning, the following definitions apply:

a. “Student” means a person currently enrolled at the University.
b. “University” means The University of Texas at Austin.
c. “Director” means the director of Recreational Sports.
d. “Department” means the Recreational Sports department.
e. "President" means the president of The University of Texas at Austin.

Subchapter 7–200. The Recreational Sports Committee

Sec. 7–201. Membership
The Recreational Sports Committee has fifteen voting members. They are:

1. six representatives of the General Faculty, appointed by the president for three-year staggered terms;
2. two staff members appointed by the president for two-year staggered terms;
3. two students as designated by the Councils of Recreational Sports and two other students as designated by Student Government, all of whom are representative of the diverse student body;
4. one staff representative designated by Recreational Sports for a one-year term; and,
5. two members of the Faculty Council, appointed by the chair of the Faculty Council, for one-year terms.

b. The director of Recreational Sports will serve as administrative advisor without vote.

Sec. 7–202. Duties of Committee
The Recreational Sports Committee will:

a. advise on policy for the conduct of the Intramural Sports and Sport Clubs programs;
b. hear appeals of decisions made by the Councils of Recreational Sports; and,
c. advise on other matters pertaining to Recreational Sports and its programs, facilities, and services.

Sec. 7–203. Quorum
A majority of the committee constitutes a quorum and a majority of the quorum rules.

Subchapter 7–300. Participation in Recreational Sports Programs

Sec. 7–301. Group Eligibility
a. A group is eligible to participate in Recreational Sports programs if:
   1. its membership is not denied to anyone on any basis prohibited by applicable law, including but not limited to race, color, religion, national origin, gender, age, disability, citizenship, veteran status, sexual orientation, gender identity, or gender expression; and,
   2. it is not under a disciplinary sanction prohibiting participation.

b. The application form for participating in recreational sports will set out the provisions of Sec. 7–301(a)(1). By submitting an application, a group affirms that it is in compliance with the policy against discrimination.

Sec. 7–302. Individual Eligibility
An individual is eligible to participate in recreational sports programs if they are not under disciplinary sanction prohibiting participation and if they meet the requirements of rules governing the specific Recreational Sports program.

Sec. 7–303. Reservation of Recreational Sports Facilities
a. University departments and registered student organizations may request event space reservations at Recreational Sports facilities through the RecSports facility operations office.
b. The provisions of Subchapter 10–200 of the Institutional Rules do not apply to the use of recreational sports facilities for athletic purposes.

Subchapter 7–400. Administration of Recreational Sports Programs

Sec. 7–401. The Director of Recreational Sports
a. The director:
   1. will establish and maintain effective working relations with other University departments, with faculty and staff members, with students and student groups, and with outside groups and special services that utilize recreational sports facilities and programs;
   2. will formulate, plan, and administer, with the support of the Recreational Sports Committee, the following kinds of programs:
      A. a program of organized intramural competition in various sports;
      B. a recreational program to provide leisure-time activities;
      C. an outdoor recreation program;
      D. competitive, recreational, and instructional programs for students, faculty and staff; and
      E. the University of Texas Sport Club Association.
   3. will receive written complaints of Intramural Sports Honor Code violations and refer these complaints to the Intramural Sports Council for action;
   4. is responsible for developing program innovations in recreational sports, providing for program expansion, providing for acquisition of additional intramural sport and recreational facilities, and supervising program staff;
   5. is responsible for the maintenance, repair, use, and security of all facilities and equipment used in department programming; and,
   6. is responsible for enforcing the eligibility requirements of Subchapter 7–300.
b. The director is administratively responsible to and reports to the vice president for student affairs.

Sec. 7–402. The Intramural Sports Council
a. The Intramural Sports Council has ten members. The members are:
   1. the director or the director’s delegate; and,
   2. nine student members, representing the participants in the intramural program.
   3. The director or the director’s delegate will serve as administrative advisor without vote.

b. The council will:
   1. elect a student chair to facilitate the business of the council;
   2. participate in the designation of one student for appointment to the Recreational Sports Committee for a one-year term;
   3. assist the intramural staff in formulating intramural program policies;
   4. rule on protests, individual or group eligibility, and related matters;
   5. formulate and compile an Intramural Sports Honor Code; and,
   6. hear all alleged violations of the Intramural Sports Honor Code referred to it by the director. The burden of proving each allegation rests with the individual or group making the charge and all allegations must be presented in writing. A decision may be based on a violation of the spirit, as well as the letter of the rules.

c. A majority of the council constitutes a quorum and a majority of the quorum rules.

Sec. 7–403. The University of Texas Sport Club Association Council
a. The University of Texas Sport Club Association (UTSCA) Council has six members. The members are:
   1. the director or the director’s delegate; and,
   2. five student members, representing the participants in the sport club program.
   3. The director or the director’s delegate will serve as administrative advisor without vote.

b. The council will:
   1. elect a student chair to facilitate the business of the council;
   2. participate in the designation of one student for appointment to the Recreational Sports Committee for a one-year term;
   3. assist the sport club staff in formulating sport club program policies;
   4. hear appeals of decisions of the sport club program administrators; and,
   5. make recommendations on student organizations that have completed the application process for UTSCA membership.

c. A majority of the council constitutes a quorum and a majority of the quorum rules.

Subchapter 7–500. Areas of the Department

Sec. 7–501. The Intramural Sports Program
a. The program of organized student sports competition provides the opportunity for competition among individual students and among teams representing student groups or organizations such as fraternities, clubs, and residences, and/or graduate or undergraduate teams organized solely for the purpose of competing in a tournament or event.

b. The purpose of this program is to provide the opportunity for competition among students and to foster the physical, social, and emotional benefits of participation in sports activities, accompanied by a sense of sportsmanship.

Sec. 7–502. The Informal Recreation Program
a. The Informal Recreation program provides an opportunity for students and Recreational Sports members to participate in unstructured recreational activities when facilities are not scheduled for formal programming.

b. The purpose of the program is to assist the participant in developing beneficial and satisfying leisure-time sports activities.

Sec. 7–503. The Outdoor Recreation Program
a. The Outdoor Recreation program provides equipment rental and supervised trips in a variety of activities such as backpacking, camping, canoeing, kayaking, nature hiking, and rock climbing. Trips are open to currently enrolled students and Recreational Sports members. Equipment rental is available to currently enrolled students and Recreational Sports members.

b. The Outdoor Recreation program provides an indoor climbing wall with 2,600 square feet of climbing surface for the leisure-time use of students and Recreational Sports members.

c. The purpose of the Outdoor Recreation program is to provide an opportunity for students to experience outdoor, wilderness activities in educationally oriented, supervised events.

Sec. 7–504. The Fitness and Wellness Program
a. The Fitness and Wellness program offers group fitness classes, clinics and series, and personal training. It is open to currently enrolled students and Recreational Sports members.

b. The purpose of the program is to provide participants with the opportunity to improve and maintain physical fitness and to engage in leisure-time activities.

Sec. 7–505. The University of Texas Sport Club Association
a. The University of Texas Sport Club Association is composed of sport or physical-activity-related student organizations sponsored by Recreational Sports.

b. The purpose of the University of Texas Sport Club Association is to promote interest in specific sport activities and to provide the opportunity for students to compete among themselves and in extramural competition with students from other colleges and universities, or with other approved sources of competition.

c. The association offers sport club members opportunities for the development of leadership and organizational skills as well as opportunities for social interaction.

d. The University of Texas Sport Club Association operates under the administration of the department.

Sec. 7–506. The Instructional Program
a. The Instructional Program provides students, Recreational Sports staff, the campus community, and non-UT community with non-credit educational classes in the areas of safety education, swimming, and sport skills.

b. The purpose of the program is to provide opportunities for participants to learn and enhance skills.

Sec. 7–507. Membership and Guest Services
a. Membership and Guest Services manages recreation facility access systems and provides amenities to students and Recreational Sports members. Access is provided through membership, and amenities include locker and towel service, and massage therapy.

b. The purpose of this area is to meet the leisure-time needs of the University community and to create a campus culture of wellness.
Chapter 8. The University Unions

Subchapter 8–100. General Provisions

Sec. 8–101. Purpose
The University Unions provide cultural, educational, social, and recreational programs, as well as related goods, services, and facilities for The University of Texas at Austin and greater community.

Sec. 8–102. Definitions
In this chapter, unless the context requires a different meaning, the following definitions apply:
1. “Board” means the Board of Directors of the University Unions.
2. “Chancellor” means the Office of the Chancellor of The University of Texas System.
3. “Executive director” means the executive director of the University Unions.
4. “President” means the chief administrative officer of The University of Texas at Austin.
5. “Student” means a person enrolled in residence at the University.
6. “Unions” or “union” means:
   A. the Texas Union; and
   B. the William C. Powers, Jr. Student Activity Center.
7. “Unions managed facilities” means:
   A. Hogg Memorial Auditorium;
   B. Student Services Building; and,
   C. 2609 University Avenue; and
   D. Levels 1 and 2 of Dobie Twenty21
8. “E+E” means Campus Events and Entertainment.
9. “University” means The University of Texas at Austin.
10. “Vice president” means the vice president for student affairs at The University of Texas at Austin.

Subchapter 8–200. The Board of Directors of the University Unions

Sec. 8–201. Membership
a. The board has nine voting members. The members are as follows:
   1. Three members of the faculty, appointed by the president for three-year overlapping terms, one to be appointed each year, effective May 1.
   2. Six students, including the Student Government president, the E+E president, and four others as follows:
      A. Two students registered for at least six semester hours during each semester of service, to be selected by the president of Student Government after announcement of the position opening in the Daily Texan and other appropriate media. Appointments will be ratified by a majority vote of the Student Assembly and will become effective May 1, for two-year overlapping terms. Should a vacancy occur during a term, (i) the Student Government president will appoint a new member who will receive proper approval of the Student Assembly before taking a seat on the board; (ii) the new member will become a full voting member of the board immediately.
      B. Two students registered for at least six semester hours during each semester of service, to be elected for one-year terms by the student body during Student Government elections each year. Should a vacancy occur during a term, the chair of the University Unions board of directors will nominate another student who must receive a majority vote of the board. A quorum must be present to approve a new member.
   b. The executive director and an appointee of the vice president are members of the board without a vote.

Sec. 8–202. Officers
The officers of the board are the chair, the vice chair, and the executive director. The chair will be elected each year from the student membership of the board by the voting members of the board to serve a term to extend from the first official board meeting of the fall semester until May 15, the following year or until a new chair is elected. To qualify for election as chair, a student will have at least one year’s experience on either the E+E or the board. This qualification may be waived by a two-thirds vote. Both outgoing and new board members will be eligible to vote for chair. The vice chair of the board will be a student member, chosen each semester by the elected chair. The Student Government president and the E+E president cannot serve as chair of the Board of Directors. The officers of the board will perform the usual duties of their respective offices.

Sec. 8–203. Meetings
The board will meet once a month during each fall/spring semester, setting its own dates for meetings, formulating its own rules of procedure, and setting up and appointing such committees as it may deem necessary and desirable for the proper use of the University Unions’ facilities consistent with the Regents’ Rules and Regulations.

Sec. 8–204. Executive Committee
a. The board may authorize three of its voting members to serve between meetings as an executive committee.
   b. An executive committee may act for the board only during the period beginning annually on May 15, and ending the first day of registration for the fall semester or during official University semester breaks or holiday periods. All actions taken by the executive committee are subject to ratification by the board.

Sec. 8–205. Duties
The board shall:
   a. recommend rules, regulations, and procedures regarding the operation and use of the unions, advise and consult on rules, regulations, and procedures regarding the operations and use of the Unions managed facilities;
   b. approve the E+E budget, the appointment of E+E officers, all changes in E+E by-laws, and the addition or deletion of any E+E committees;
   c. advise the president, through the vice president, on the selection of the unions’ executive director; and,
   d. be involved in the future development of the unions.

Subchapter 8–300. Review of Board Action

Sec. 8–301. Review by the Vice President
a. The board will deliver promptly to the vice president of student affairs at least two copies of the minutes of each board or executive committee meeting.
   b. No recommendation of the board or executive committee will have any force or effect until said recommendation has been approved by the vice president and has received such other approval as required.
   c. Every action of the board or of a committee or subcommittee of the board is subject to review by the vice president. The vice president may approve, reverse, or modify each such action.
   d. No budget or budget amendment adopted by the board is effective until it is approved by the vice president through normal budget procedure.
e. No expenditure will be made by the board unless it is made pursuant to a budget item that has been adopted by the board and has received final approval from the vice president.

Subchapter 8–400. The Executive Director of the University Unions

Sec. 8–401. Duties of the Executive Director
a. The executive director is administratively responsible to and will report periodically to the vice president, serves as the chief executive official in the unions, and is responsible for the operation of the union and union managed facilities, programs, and activities. The executive director will:
   1. coordinate all functions involving union and union managed facilities and the interests of the various groups served by the facilities;
   2. employ, supervise, and direct the work of all subordinate employees; and,
   3. be a member of all committees without vote.

b. Annually, on or before November 15, the executive director will submit to the board a report of union activities for the year. Copies of the report will be distributed to the vice president and to others as the vice president may direct.

Subchapter 8–500. The University Unions Campus Events and Entertainment

Sec. 8–501. Purpose
E+E is chartered by the University Unions to organize and present a program of activities and events for the University student body in areas of general interest.

Sec. 8–502. Members and Officers
a. E+E is composed of the various committees, their chairs, and the officers of E+E.

b. E+E has a president elected by the student body in the general student elections in the spring of each year and such other officers as approved by the University Unions Board.

Sec. 8–503. Duties
E+E is the decision making, coordinating, evaluating, and recommending body of the union's activities and events program. E+E will
a. coordinate the union's activities and events program;
   b. evaluate the union activities and events program, and recommend changes to its components; and,
   c. recommend to the board actions, policies, and procedures affecting the union activities and events program.

Sec. 8–504. Review of E+E Actions by the Board
All actions of E+E are subject to review by the board.

Subchapter 8–600. Creative 40 Acres at Hogg Memorial Auditorium

Sec. 8–601. Purpose
The Creative 40 Acres at Hogg Memorial Auditorium is the result of a partnership between the College of Fine Arts and the Division of Student Affairs and will serve as a center of creative engagement for students, staff, and faculty.

Sec. 8–602. The Creative 40 Acres Advisory Committee
The Creative 40 Acres Advisory Committee exists to provide informed input to the committee chair on specific objectives as the initiative is being developed. This committee is a recommending body to the University Unions Board of Directors.

Sec. 8–603. Membership
The committee can have up to eleven voting members. The desired membership is as follows:

a. Two members of the College of Fine Arts faculty;

b. Five students, including representation from the Student Government, the Senate of College Councils, College of Fine Arts, and the University Unions Campus Events and Entertainment; and,

c. Four staff members, including representation from the School of Undergraduate Studies, Student Activities, Hogg Memorial Auditorium, and University Unions.

Sec. 8–604. The Creative 40 Acres Chair
The chair of the Creative 40 Acres at Hogg Memorial Auditorium is the University Unions Executive Director or his/her designee. He/she is responsible for reporting periodically to the University Unions Board of Directors and for the development of the Creative 40 Acres initiative. The chair will:

a. Facilitate meetings; and,

b. Present recommendations from the committee to the Board of Directors.

The committee will meet twice a semester during each fall/spring semester, setting its own dates for meetings, formulating its own rules of procedure, and setting up and appointing such committees as it may deem necessary and desirable for the purpose of developing the initiative.

Subchapter 8–700. Union and Union Managed Facilities

Sec. 8–701. Reservations and Use of Union and Union Managed Facilities
a. Union and Union managed facilities are reserved primarily for use by students, faculty members, and staff members.

b. In accordance with recommendations developed by the board, the executive director or the executive director's representative may permit special persons, groups, or organizations to reserve and use portions of Union managed facilities when the intended use does not interfere with regular union programs or activities. The executive director may charge a reasonable rental fee for use of Union managed facilities by such persons, groups, or organizations. The executive director will permit persons, groups, or organizations officially designated as guests of the University by the president, the chancellor, or the Board of Regents to use union facilities without cost. All requests for the use of union facilities are subject to prior reservations, therefore, requests should be made as early as possible.

Sec. 8–702. Policy against Discrimination
No person or organization will be excluded from participation in or denied the benefits of union facilities, services, and programs on any basis prohibited by applicable law, including, but not limited to, race, color, religion, national origin, age, disability, citizenship, veteran status, sexual orientation, gender identity or gender expression.

Sec. 8–703. Naming and Recognition
The vice president for student affairs shall consult with and seek the advice of the University Unions Board of Directors on all naming or recognition initiatives for the facilities listed in this section as being under the purview of the Board.
Chapter 9. Educational Records

Subchapter 9–100. General Provisions

Sec. 9–101. Purpose

The student educational records maintained by the University fall into two general categories: directory information and student records. The purpose of this chapter is to describe various kinds of educational records and to state the permissible uses of these records. These policies and procedures are in full accord with the final regulations implementing the Family Educational Rights and Privacy Act of 1974 (FERPA).

Sec. 9–102. Confidentiality of Records

a. Directory information: That part of a student’s educational record defined as directory information in section 9–201 is public information. It will be made available to the public unless the student has restricted it as described in subsection 9–201(c).

b. Student records: Student records include all educational records except for directory information and are not public records. The University will maintain the confidentiality of these student records as indicated in section 9–202.

c. Information in a student’s educational record may be released by the University as directed by the president in an emergency if the information is necessary to protect the health or safety of the student or other persons.

Sec. 9–103. Information Not Recorded

No record will be kept that reflects a student’s political attitudes, beliefs, or activities.

Sec. 9–104. Definitions

In this chapter, unless the context requires a different meaning,

a. “educational record” means the official record of a student that is maintained by the University for use by the University and includes directory information and student records. “Educational record” does not include the personal records of University personnel that are maintained in the sole possession of and for the sole use of the maker thereof or of a temporary substitute for the maker; the records of law enforcement units that are maintained solely for law enforcement purposes; employment records related exclusively to an individual’s employment capacity (except as indicated in subsection 9–201[a]); medical and psychological records; thesis or research papers; or records that contain information about an individual only after the individual is no longer a student at the University.

b. “student” means a person enrolled on or after the first class day of the initial semester of attendance or a person formerly enrolled at the University.

c. “president” means the president of The University of Texas at Austin; and

d. “University” means The University of Texas at Austin.

Subchapter 9–200. Directory Information and Student Records

Sec. 9–201. Directory Information

a. “Directory information” is defined as a student’s name, local and permanent addresses, electronic mail addresses, UT EID, telephone listing, place of birth, major field(s) of study, participation in officially recognized activities and sports, weight and height if a member of an athletic team, dates of attendance, enrollment status, degrees, awards and honors received (including selection criteria), the most recent previous educational institution attended, job title and dates of employment when employed by the University in a position that requires student status, and other similar information. Other similar information includes a student’s classification and expected date of graduation and student parking permit information.

b. Directory information is public information and will be made available to the public unless the student has restricted it as described in subsection 9–201(c).

c. A currently enrolled student may request that all or some directory information not be made public by completing an appropriate request online or in the Office of the Registrar. This request will remain in effect until revoked by the student. In the event of such a request, this restricted information will be treated as student records information as defined in subsection 9–202(a). In response to public inquiries, the University will state that the student has requested that the University not release part of the student’s information; if the student has requested that all information be kept confidential, the University will state that the University has no information to provide regarding the person about whom the inquiry has been made.

Sec. 9–202. Student Records

a. Student records include educational records maintained by the University except for directory information. Student records include official University academic and personal records relating to scholastic, disciplinary, and fiscal matters, as well as records maintained by University offices and agencies that provide services sought voluntarily by individual students. The authorized use of and access to disciplinary records are described in subchapter 9–300 and subchapter 11–900 of the Institutional Rules. The University will not permit access to or the release of personally identifiable information contained in these records without the written consent of the student to any party other than the following:

1. appropriate University administrators, faculty members, or staff members, appropriate administrators or staff members of the Texas Exes, and contractors or others acting on behalf of the University who require access to educational records in order to perform their legitimate educational duties, when such records are needed in furtherance of the educational or business purposes of the student or the University;

2. officials of other schools in which the student seeks or intends to enroll, upon request of these officials, and upon the condition that the student be notified and receive a copy of the record if desired;

3. federal, state, or local officials or agencies authorized by law;

4. in connection with a student’s application for, or receipt of, financial aid;

5. accrediting organizations or organizations conducting educational studies, provided these organizations do not release personally identifiable data and provided they destroy such data when it is no longer needed for the purpose for which it was obtained. If the University discovers that an organization that has received student records from the University has released or failed to destroy such records in violation of this policy, it will prohibit access by that organization to educational records for five years;

6. the parents of a dependent student as defined in section 152 of the Internal Revenue Code of 1954, provided a reasonable effort is made to notify the student in advance;

7. in compliance with a judicial order or subpoena, provided a reasonable effort is made to notify the student in advance unless the subpoena specifically directs the institution not to disclose the existence of a subpoena; or

8. to an alleged victim of any crime of violence or a nonforcible sexual offense, the results of the alleged perpetrator’s disciplinary proceeding may be released.
The University will maintain, as part of a student's student record, a record of all parties who have obtained access to data in the record, except the parties listed in subsection 9–202(a)(1). The record of access will include the legitimate interest of the party in obtaining the information.

b. Upon written request, the University will provide a student access to his or her records described in subsection 9–202(a), except for
1. financial records of the student’s parent or guardian; and
2. confidential letters of recommendation placed in the student's educational record prior to January 1, 1975; and confidential letters of recommendation placed in the student’s educational record after January 1, 1975, if the student has signed a waiver of the right of access to letters of recommendation.

c. The official custodian of records at the University is the vice president and chief financial officer. Since the University does not maintain a central repository for student records, inquiries for access to specific student records should be made to the University office or agency concerned with the particular record. Requests for assistance in locating individual student records should be directed in writing to the custodian of records.

d. A student may obtain copies of his or her records described in subsection 9–202(a) at a cost of ten cents per page, except for an official transcript of academic record, $20, and an unofficial copy of the permanent academic record, $20. Educational records covered by the Family Educational Rights and Privacy Act of 1974 (FERPA) normally will be made available within forty-five days of the request.

e. A student may challenge the contents of his or her educational record on the grounds that the record is inaccurate, misleading, or otherwise in violation of his or her privacy rights. The student submits such a challenge by writing to the custodian of records. If the dispute cannot be resolved by informal proceedings, the student may request a formal hearing. The request for a hearing must be made in writing to the custodian of records. Within a reasonable period of time after receiving the request, the custodian of records will inform the student of the date, place, and time of the hearing. The student may present evidence relevant to the issues raised and may be assisted or represented at the hearing by one or more persons of the student’s choice, including attorneys, at the student’s expense. The hearing officer who will adjudicate the challenge will be appointed by the president. Decisions of the hearing officer will be based solely on the evidence presented at the hearing, will consist of written statements summarizing the evidence and stating the reasons for the decision, will be delivered to all parties concerned, and will be final. The educational record will be corrected or amended in accordance with the decision of the hearing officer, if the decision is in favor of the student. If the decision is unsatisfactory to the student, the student may place with the educational record statements commenting on the information in the record, statements setting forth any reasons for disagreeing with the decision of the hearing officer, or both. The statements will be maintained as part of the student’s records and released whenever the record in question is disclosed. A student who believes that the adjudication of the challenge was unfair or was not in keeping with the provisions of FERPA may request, in writing, assistance from the president.

f. Complaints about alleged failure to comply with the provisions of FERPA may be submitted in writing to the Family Policy Compliance Office, US Department of Education, 400 Maryland Avenue, SW, Washington DC 20202.

g. In addition to the procedures described in subsection 9–202(e), general categories of educational records are periodically reviewed and obsolete information is removed and destroyed in accordance with an established record retention schedule.

Sec. 9–203. Official Transcripts of Records

a. The Office of the Registrar will send, issue, or release a student’s official transcript of record only
1. at the student’s written request;
2. after formal authentication of the student’s identity; or
3. in accordance with subsection 9–202(a).

b. A transcript of record will contain only the information described in section 9–402 and will not be furnished either in part or with information omitted or deleted.

c. The registrar will maintain a “Register of Requests for Official Transcripts.” The register of requests is part of the student record.

d. The sanction of withholding an official transcript or degree may be imposed upon a student who fails to pay a debt owed to the University. The sanction is lifted when the student has paid the debt.

e. The dean of students, the president, or the Office of the Chancellor may withhold the issuance of a transcript or a degree pending a hearing against a student who violates a rule or regulation of The University of Texas System or the University when, in the opinion of the official, the interest of The University of Texas System or the University would be served by interim action.

Subchapter 9–300. Disciplinary Records

Sec. 9–301. Disciplinary Record

a. The University will maintain a permanent written disciplinary record for every student assessed the sanction of suspension, expulsion, denial or revocation of a degree, dismissal from an academic program, withdrawal of a diploma, or permanent bar from admission or enrollment. Disciplinary suspension and temporary bars from admission or enrollment are noted on the official transcript during the term of the sanction. The notation can be removed upon the request of the student when all conditions of the sanction are met. The request for the removal of the transcript notation of suspension should be directed to the Office of the Dean of Students. A notation of disciplinary expulsion will be placed on the official transcript of a student who is assessed the sanction of bar from admission or enrollment. In accordance with law, a notation of ineligible to enroll due to reasons other than academic or financial will be placed on the official transcript of a student who is assessed the sanction of bar from admission or enrollment. A written record of any other case investigated by University Compliance Services or the dean of students will be maintained for at least seven years. The disciplinary record will reflect the nature of the charge, the sanction assessed, and any other pertinent information.

b. The contents of a student’s disciplinary record may be made available upon written request of the student, or in accordance with state or federal law.

c. Upon request by a student, the University may remove, from a student’s transcript, a notation required under (a) if:
1. The student becomes eligible to reenroll in the postsecondary educational institution; or
2. The University determines that good cause exists to remove the notation.

Subchapter 9–400. Official Transcripts

Sec. 9–401. Office of the Registrar

The registrar compiles, maintains, and administers official transcripts of record.
Sec. 9–402. Content of Transcripts
Each student’s official transcript of record contains the following information:

a. name of the student;

b. birthdate;

c. name and city of high school attended and date of graduation (unless admitted as a transfer student);

d. transfer credits, if any;

e. courses taken, hours completed, grades received, grading system, and grade point average;

f. for undergraduate students, a symbol showing scholastic probation or scholastic dismissal, if any, during the period of probation or dismissal; for graduate students, a symbol showing scholastic dismissal;

g. type of degree granted by the University and honors received;

h. date of graduation from the University; and

i. notation of disciplinary suspension or disciplinary expulsion, or ineligible to enroll due to reasons other than academic or financial, if applicable.

Chapter 10. Use of University Property, Rooms, and Spaces
Subchapter 10–100. General Provisions
Sec. 10–101. Purpose and Application
a. The University of Texas at Austin permits the orderly use of rooms and spaces on its property, as provided in this Chapter, to further the educational process. The University does not endorse any statement or activity that does not represent official University action.

b. This Chapter authorizes and regulates the reservation of University rooms and spaces; the identification of persons present on University property; and the use of alcoholic beverages on University property. Speech, assembly, and expression by students, faculty members, and staff members and members of the public on University property are further protected and regulated in Chapter 13 of the Institutional Rules.

c. No person or organization may use a University facility for any purpose other than in the course of the regular mission of the University or the University of Texas System unless authorized by the Regents’ Rules and Regulations. Any authorized use must be conducted in compliance with the provisions of the Regents’ Rules and Regulations, the approved rules and regulations of the University, and applicable federal, state, and local laws and regulations.

Sec. 10–102. General Definitions—Categories of Speakers and Users
In this chapter, unless the context requires a different meaning, the following definitions apply.

1. “Academic or administrative unit” means any office or department of the University.

2. “Faculty member and staff member” includes any person who is employed by the University.

3. “Member of the public” means any person, organization, or business that is not an academic or administrative unit, a registered student, faculty, or staff organization, or a student, faculty member, or staff member.

4. “Registered faculty or staff organization” includes a faculty or staff organization under the Regents’ Rules and Regulations, Rule 40201.

5. “Registered student organization” includes a student organization registered under Subchapter 6–200 of the Institutional Rules.

6. “Sponsored student organization” includes only a student organization registered under Subchapter 6-200 that is officially sponsored by the University under Sec. 6-101.

7. “Student” means a person who is currently enrolled at the University.

8. “University organization” includes academic and administrative units, sponsored student organizations, and registered student, faculty, and staff organizations.

Sec. 10–103. Other General Definitions
In this chapter, unless the context requires a different meaning, the following definitions apply.

1. “Common outdoor area” means outdoor space that is not used for dedicated University business, an educational function, or a research function on either a permanent or a temporary basis. It does not include the outside surfaces of a University building, surfaces associated with or connected to a University building, a University structure, spaces dedicated to temporary outdoor banners, spaces dedicated to temporary outdoor exhibits, or any other space within the University’s limited public forum. Common outdoor areas are designated by state law as traditional public forums.

2. “Cosponsorship” means an event held within the University’s limited public forum where an academic or administrative unit is delegated authority from the president of the University to partner with an off-campus person or organization for such event, and does so. Cosponsored events are University events by virtue of being partially sponsored by a University academic or administrative unit.

3. “Day” means an 8:00 a.m. to 5:00 p.m. calendar day, and excludes weekends, University holidays, skeleton crew days, and days on which regularly scheduled classes are suspended due to emergent situations. "University holiday" and "skeleton crew days" means days identified in the holiday schedule published by the Office of Human Resource Services. If a deadline in this Chapter falls on a Saturday, Sunday, or University holiday or skeleton crew day, that deadline will be moved to the next day.

4. “Dean of students” means the dean of students of The University of Texas at Austin or any delegate or representative of the dean of students.

5. “Limited public forum” means the University property, both indoors and outdoors, that is not part of the common outdoor area. This includes the outside surfaces of a University building, surfaces associated with or connected to a University building, a University structure, spaces dedicated to temporary outdoor banners, spaces dedicated to temporary outdoor exhibits, residential outdoor spaces managed by University Housing and Dining including Jester Spanish Oaks Terrace, San Jacinto Amphitheatre, Honors Quad, and Duren Courtyard, the Blanton Museum’s outdoor Plaza and Art Garden, the Union Building Patios, the William C. Powers Jr. Student Activity Center patios, Goldsmith Hall, and the Cronkite Plaza.

6. “Residential conference center” means facilities that are designated by the president as allowed by the Regents’ Rules and Regulations, Rule 80112. Residential conference centers include the AT&T Resident Conference Center.

7. “Room or space” includes any room or space, indoors or outdoors, owned or controlled by the University.

8. “Special use facilities” means facilities that are designated by the president as allowed by the Regents’ Rules and Regulations, Rule 80106. Special use facilities include the facilities controlled by Texas Performing Arts and the Frank C. Erwin Jr. Special Events Center.

9. “University” means The University of Texas at Austin.
Subchapter 10–200. Reservation of a Room or Space on University Property

Sec. 10–201. Permission to Use

a. Academic or administrative units and registered student, sponsored student, faculty, or staff organizations may reserve a space to assemble in the limited public forum areas in accordance with subchapter 13–902(b) of the Institutional Rules. University organizations may reserve the use of a room for purposes permitted by the Regents’ Rules and Regulations.

b. Academic or administrative units and registered student, sponsored student, faculty, or staff organizations may reserve a temporary outdoor exhibit space.

c. Academic or administrative units and registered student, sponsored student, faculty, or staff organizations may reserve a temporary banner space.

d. University persons, University organizations, and members of the public may reserve an outdoor weekday amplified sound area in accordance with subchapter 13–803 of the Institutional Rules.

e. University persons, University organizations, and members of the public may reserve a space within the common outdoor areas for amplified sound on evenings or weekends in accordance with subchapter 13-804 of the Institutional Rules.

f. University persons, University organizations, and members of the public may reserve a space within the common outdoor areas for assembly in accordance subchapter 13–902(a) of the Institutional Rules.

Sec. 10–202. Application

a. All persons and organizations wishing to reserve an outdoor space will apply through a process prescribed by the dean of students. Members of the public may not reserve or use indoor spaces.

1. Registered student organizations wishing to reserve a general purpose classroom will apply through a process prescribed by the dean of students.

2. Individual faculty and staff members using space for academic or administrative purposes, registered faculty and staff organizations, and academic and administrative units wishing to reserve a general-purpose classroom will apply through a process prescribed by the registrar.

b. The dean of students will maintain the following on a website, flyer, or pamphlet, available at the dean of students’ office:

1. the procedures for reserving outdoor space for persons or organizations and any additional rules applicable to outdoor reservations;

2. the procedures for registered student organizations reserving general purpose classrooms and any additional rules applicable to such reservations; and,

3. a list of general purpose classrooms.

Sec. 10–203. Consideration of Application

a. The dean of students will approve a properly completed application to reserve an outdoor space and will facilitate a properly completed application to reserve a general purpose classroom, unless the dean of students finds that:

1. the proposed use of the room or space would violate Regents’ Rules and Regulations, University regulation, or administrative rule;

2. another event or exhibit has been scheduled for the proposed time and location, or so near that there is a practical conflict;

3. the room or space requested is inadequate to accommodate the proposed use;

4. the proposed use of the room or space would violate reasonable and nondiscriminatory fire, health, or safety standards;

5. the proposed use of the room or space would constitute an immediate and actual danger to students, faculty members, or staff members or to the peace or security of the University that available law enforcement officials could not control with reasonable effort;

6. the applicant is under a disciplinary sanction or is the subject of a criminal trespass warning that prohibits reserving the use of a University room or space or that prohibits the proposed use of the room or space;

7. for indoor spaces and spaces within the University’s limited public forum, the applicant owes a monetary debt to the University and the debt is considered delinquent by the crediting agency; or,

8. the applicant has attempted to reserve space under a different name to circumvent university policy or a disciplinary sanction.

b. If the dean of students does not approve an application under Sec. 10–203(a), upon request he or she will give the applicant a written statement of the grounds for refusal as soon as possible, but no later than five days from receiving such a request.

Subchapter 10–300. Regulations Applicable to University Property

Sec. 10–301. Identification

a. Any person will identify himself or herself when asked to do so by an institutional representative while in any building owned or
controlled by the University or The University of Texas System. A person identifies himself or herself by:

1. giving his or her name and complete address, substantiated by a current driver's license, voter registration card, or other official documentation; and,
2. stating truthfully whether he or she is a student or employee of the University or The University of Texas System.

b. An "institutional representative" is any regent, executive officer, administrative officer, attorney, peace officer, or security officer of the University or the University of Texas System, or the designee of any of the foregoing.

c. Any person who refuses to identify himself or herself in accordance with Sec. 10–301(a) while in any building owned or controlled by the University or The University of Texas System may be convicted of a misdemeanor as referenced in the Regents’ Rules and Regulations, Rule 80101.

d. Any student, faculty member, or staff member who refuses to identify himself or herself while in any building owned or controlled by the University or The University of Texas System in accordance with Sec. 10–301(a) is subject to University disciplinary action.

Sec. 10–302. Use of Alcoholic Beverages

The use of alcoholic beverages is prohibited on property and in buildings and facilities owned or controlled by the University or The University of Texas System. However, the chief administrative officer of the University or The University of Texas System may waive this prohibition with respect to any specific event sponsored by the University or The University of Texas System. Meetings or events sponsored by registered faculty, staff, or student organizations are not events sponsored by the University or The University of Texas System. State laws related to alcoholic beverages will be strictly enforced at all times on property controlled by the University of Texas System and its component institutions.

Sec. 10–303. Unauthorized Access

Permitting or allowing unauthorized individuals to enter into buildings and facilities restricted from unauthorized access by deliberately disengaging, deactivating, or otherwise circumventing locking devices is prohibited. Unauthorized access includes but is not limited to:

a. an individual leaving the door open or holding it open to individuals without badges or to unauthorized personnel and
b. if an unauthorized person enters at the same time as an authorized individual.

Sec. 10–304. Cosponsorship

a. Only academic or administrative units delegated authority from the president of the University may partner with an off-campus person or organization for a cosponsored event in the University’s limited public forum.

b. Registered student, faculty, or staff organizations, individual students, faculty members, and staff members may not cosponsor any event in a building or facility on campus with an off-campus person or organization. Sponsored student organizations are an extension of the sponsoring academic or administrative unit under the authority of subsection 6-101(9) of the Institutional Rules.

c. An event is a prohibited cosponsorship if an individual or a registered student, faculty, or staff organization
   1. depends on an off-campus person or organization for planning, staffing, or management of the event; or
   2. advertises the event as cosponsored by an off-campus person or organization; or
   3. operates the event as agent of, or for the benefit of, an off-campus person or organization, except for solicitation of charitable contributions under the authority of subsection 13–205(b)(1); or
   4. distributes any proceeds of the event to an off-campus person or organization, except for
      A. the proceeds of charitable contributions solicited under the authority of subsection 13–205(b)(1); or
      B. payment of a fair market price for goods or services provided to the University person or organization; or
   5. reserves a room or indoor space for the use of an off-campus person or organization; or
   6. engages in any other behavior that persuades the dean of students that an off-campus person or organization is in fact responsible for the event, in full or in substantial part.

d. The following facts do not, in and of themselves, indicate a prohibited cosponsorship:
   1. that a University person or organization endorses an off-campus person or organization or its message;
   2. that a University person or organization sells, distributes, or displays literature prepared by an off-campus person or organization or containing contact information for an off-campus person or organization (subject to the rules in section 13–205);
   3. that a University person or organization has purchased goods or services from an off-campus provider;
   4. that a registered student, faculty, or staff organization has invited a guest speaker under subchapter 13–1000;
   5. that a registered student, faculty, or staff organization has received financial contributions to support the event from an off-campus donor.

e. Speech events occurring in the common outdoor areas, which adhere to the time, place, and manner rules of Chapter 13 of the Institutional Rules, are not prohibited as cosponsored events even when University persons or organizations partner with an off-campus person or organization for the planning, staffing, or management of such events.

Subchapter 10–400. Enforcement and Appeals

Sec. 10–401. Response to Violations

Sec. 10–402. Appeals

a. A University organization aggrieved by a decision under this chapter may appeal to the vice president by letter or by e-mail, also sending a copy to the decision maker, within fourteen days after the day the decision is announced. The appeal must contain the University organization's name and mailing address, a concise description of the decision complained of, the University organization's reasons for disagreeing with the decision, and the date the decision was announced.

b. When timely notice of appeal is received, the decision maker from the academic or administrative unit that controls the room or space will prepare and send to the vice president a copy of the written statement of the reason given for the decision. At the discretion of the vice president, both parties may present oral arguments to an appeal of the decision under this Chapter.
c. The action of the vice president will be communicated by letter or by e-mail to the University organization and the decision maker within five days after the appeal and related documents have been received.

Sec. 10–403. Further Review by Petition
The issuer of a criminal trespass warning or a decision maker, or the University person or organization may petition, by letter or by e-mail through the vice president, to the president of the University to review the decision being appealed. The president may establish an ad hoc committee and refer the request to the committee to review the request for appeal and affirm or reverse the underlying determination. The committee reviews appeals solely at its discretion as determined by a majority vote of the committee members. Petitioners do not have a right to this further review should the committee decide not to provide it. Decisions by the committee to reverse or affirm the underlying determination are made by a majority vote of the committee members.

Chapter 11. Student Conduct and Academic Integrity

Subchapter 11–100. General Provisions
Sec. 11–101. Preamble
a. As a member of The University of Texas at Austin community, students accept not only the rights and privileges of membership, but also the responsibility to uphold a long and steadfast tradition of excellence. In abiding by the core values of the University – learning, discovery, freedom, leadership, individual opportunity, and responsibility – and adhering to the tenets of academic integrity, students will uphold an Honor Code reflective of a scholarly community devoted to academic and personal success.
b. This chapter contains rules for dealing with alleged violations of University policy in a manner consistent with the requirements of procedural due process and in accordance with The University of Texas System Rules and Board of Regents' Rule 50101.

Sec. 11–102. Application and Jurisdiction
a. The Dean of Students has primary authority and responsibility for the administration of the university process for students alleged to have engaged in conduct that violates this Chapter.
b. Any student who engages in conduct that violates the institutional rules and policies, specific instructions issued by an administrative official of the institution or the University of Texas System acting in the course of his or her authorized duties, or federal, state, or local laws is subject to discipline. The provisions of this rule cover conduct occurring on campus. It also covers conduct occurring off-campus, including but not limited to university off-campus activities such as field trips, internships, rotations or clinical assignments, regardless of whether civil or criminal penalties are also imposed for such conduct. This Rule does not apply to matters subject to the University Handbook of Operating Procedures 3-3031 (“HOP 3-3031”) as that policy's provisions control, except to the extent that such matters are assessed under Track C of HOP 3-3031 and are referred to the Dean of Students.
c. Impact of Other Proceedings. University disciplinary action may be instituted against a student charged with conduct that potentially violates both the civil/criminal law and University policy or rules without regard to the pendency of civil or criminal litigation in court or criminal arrest and prosecution. Proceedings under this Chapter may be carried out prior to, simultaneously with, or following criminal proceedings off campus. Disciplinary decisions and sanctions imposed under this Chapter will not be subject to change based upon the outcome of criminal charges or decisions.
d. University disciplinary action instituted by the Dean of Students will be based upon the “Preponderance of Evidence” standard. This standard is satisfied if the action is deemed more likely to have occurred than not.
e. Choice of Provision. Administrative processing of any alleged violation of institutional rules will advance procedurally under The General Information Catalog that is in effect on the day that the Dean of Students receives notification of the alleged violation and not the date on which the alleged violation is noted to have occurred.

Subchapter 11–200. Student Conduct Administration
Sec. 11–201. Notice
a. Notification of conduct proceedings, including but not limited to notice of allegations, interim action, meeting requests, hearings, and resolution, shall be sent by the Dean of Students to the student by letter or by e-mail, using addresses on file with the registrar's office.

1. A letter or email sent to an address listed in the registrar's records will constitute full and adequate notice.
2. The student's failure to provide and/or maintain current addresses, refusal to accept delivery of a letter, or failure to open an e-mail message will not constitute good cause for failure to comply with the meeting request. Policies on the use of e-mail for official correspondence are provided in Appendix M (p. 169).

Subchapter 11–300. Definitions
In this chapter, unless the context requires a different meaning, the following definitions apply.

a. "Academic Record" – University or University of Texas System documents relating to a student’s scholastic record. Components of a student's academic record may include, but are not limited to, applications for admission, academic transcripts, the awarding of a degree, registration materials, grade change forms, and reporting forms used by the Office of the Registrar.
b. "Administrative Disposition" – A document issued to a student which includes a statement of the alleged conduct, institutional rule(s) implicated, investigative findings, assessed sanction(s), and resolution options.
c. "Advisor" – A single individual who may accompany a student to a meeting with the Dean of Students or a hearing regarding an alleged violation of this Chapter. An Advisor may confer with and advise the student but may not advocate for the student in a meeting with the Dean of Students or in a hearing or directly address the Student Conduct Panel or Hearing Officer. An Advisor cannot be a student allegedly involved in the same disciplinary matter as the accused student, or any individual who will serve as a witness for the accused student. Advisors may be dismissed from any meeting or conduct proceeding if they disrupt the process.
d. "Appeal" – To contest the outcome of an Administrative Disposition, a Faculty Disposition, or a hearing to an additional level of review.
e. "Appellate Officer" – A person designated by the President to issue final decisions in a student conduct matter.
f. "College Liaison" – An employee designated by each academic college that serves as the primary contact between the Dean of Students and the academic college to facilitate communication and process regarding academic misconduct cases, including referrals and cases submitted via Faculty Disposition.
g. "Complainant" – A person who is reported to be the victim of prohibited conduct related to a Track C case.
h. "Complaint" – A written statement prepared by the Dean of Students before an investigation or a hearing that outlines the alleged violation(s) of a Regents' Rule, University regulation, or
administrative rule to be investigated and resolved by the Dean of Students, a Student Conduct Panel or a Hearing Officer.

i. “Day” – An 8:00 a.m. to 5:00 p.m. calendar day, excluding weekends, University holidays, and days on which regularly scheduled classes are suspended due to emergent situations. If a deadline defined in this Chapter falls on a Saturday, Sunday, University holiday, or skeleton crew day, that deadline will be moved to the next day.

j. “Dean of Students” – The Dean of Students of The University of Texas at Austin or the Dean of Students’ delegate or representative.

k. “Disciplinary Decision” – A written decision determining whether or not a student is responsible or not responsible for a violation of this Chapter. The “Disciplinary Decision” includes the findings of fact in support of the decision along with the assessed sanction(s), if applicable.

l. “Disciplinary Record” – A student record maintained by the Dean of Students in connection with a violation or an alleged violation of this Chapter. The Disciplinary Record may include complaints, notices, hearing records, disciplinary decisions, and other documents required under this Chapter or deemed relevant by the Dean of Students. Disciplinary Records may be disclosed to outside parties in accordance with subchapter 9–300 of the Institutional Rules.

m. “Faculty Disposition” – A document utilized by a Faculty Member to resolve an allegation of academic misconduct in their course, where the faculty member and student are in agreement as to the finding of responsibility and assigned sanction(s).

n. “Faculty Member” – A person who teaches a class as part of their employment, and who has authority to assign grades for the class.

o. “Hearing” – A formal proceeding in which a student, accused of violating university policy as defined in this Chapter, may present their case to a Hearing Officer or a Student Conduct Panel.

p. “Hearing officer” – A university employee appointed by the President to conduct hearings of alleged violations of this Chapter.

q. "HOP 3-3031 Track C cases" or "Track C cases" – Allegations of conduct that potentially constitute Sex Discrimination, Sexual Exploitation, Unprofessional/Inappropriate Conduct, Retaliation, False Information or False Complaint, or Interference with Grievance Process, as defined in HOP 3-3031. These cases are investigated by the Department of Investigations and Adjudication in University Compliance Services and referred to the Dean of Students for disciplinary decision.

r. "Interim Disciplinary Action" – An immediate disciplinary action taken against the accused student before completion of the student conduct process. Interim Disciplinary Action may include, among other things, suspension, suspension of a right or privilege, or a prohibition from entering campus or any part of campus.

s. “President” – The president of The University of Texas at Austin.

t. “Referral” – A report received by the Dean of Students alleging student conduct that may rise to a violation of this Chapter.

u. “Respondent” – The person reported to be the alleged perpetrator of conduct related to a Track C case.

v. “Sanction” – Official action by the university against a student who is the subject of a finding of responsibility for a violation of this Chapter. University sanctions include all items listed in Section 11–700 of this Chapter.

w. “Student” – A person who is currently enrolled at the University, or who is accepted for admission or re-admission to the University, or who has been enrolled at the University in a prior term and is eligible to continue enrollment in the term that immediately follows, or who is attending an educational program sponsored by the University while that person is on campus, or who engaged in prohibited conduct at a time when he or she met the above criteria. For the purposes of this chapter, individuals who are not currently enrolled at the University remain subject to the disciplinary process for conduct that occurred while they were enrolled.

x. “Student Conduct Board” (SCB) – A group comprised of students appointed by the President to serve on Student Conduct Panels.

y. “Student Conduct Panel” (SCP) – The entity or group of persons composed primarily of members of the Student Conduct Board, who, along with faculty and/or staff, conduct hearings and issue decisions concerning academic misconduct and behavioral misconduct violations. The Student Conduct Panel shall not hear matters pertaining to Track C cases or violent conduct violations.

aa. “Title IX Coordinator” – The employee of the University with major responsibility for Title IX compliance efforts and who is designated to handle complaints under Title IX.

bb. “University” – Refers to The University of Texas at Austin. For the purposes of this Chapter, "University" also includes all activities and programs sponsored by or affiliated with The University of Texas at Austin regardless of the actual location where such activities or programs occur, including but not limited to, field trips, internships, rotations, and clinical assignments.

c. “Vice President for Student Affairs” – Refers to the Vice President for Student Affairs of The University of Texas at Austin, the administrative officer primarily responsible for the development and administration of policies relating to students, for the development and implementation of services to students, and for the initial preparation of institutional regulations that implement the Model Policy for Student Conduct and Discipline of The University of Texas System.

d. “Witness” – A person who may have information related to a complaint or referral.

Subchapter 11–400. Prohibited Conduct

Sec. 11–401. Academic Misconduct

a. The Dean of Students or a Faculty Member may initiate conduct proceedings under subchapter 11–500 against a student suspected of engaging in or attempting to engage in academic misconduct, as defined in this section and which may consist of any of the following activities

1. Copying – copying answers or information from another individual’s academic assignment;

2. Failure to Comply with Instructions – failing to comply with instructions pertaining to an academic assignment or course requirement for the purpose of gaining an academic advantage;

3. Unauthorized Materials – obtaining, using, or possessing materials without authorization, including but not limited to class notes, textbooks, calculators, online resources, and/or electronic devices;

4. Unauthorized Aid or Assistance – providing aid or assistance to, or utilizing aid or assistance from, another individual or source without authorization, and pertaining to an academic assignment or course requirement;

5. Substitution – substituting for another person, or permitting another person to substitute, to attend a class or complete any academic assignment or other course requirement;

6. Falsification or Fabrication – falsifying or fabricating any information, data, or citation in any academic work offered for credit, or work done in conjunction with the completion of course or degree requirements;

7. Plagiarism
A. when a person represents another’s material as their own work without attribution;
B. when a person misrepresents citation or attribution for purposes of an academic advantage; or,
C. when a person submits essentially the same work for two assignments without the permission of the Faculty Member.

8. **Collusion** – unauthorized collaboration with another student or students;

9. **Failure to Follow Course Requirements** – conduct that fails to adhere to standards promulgated by an academic unit or Faculty Member, and that is not otherwise constitutionally protected;

10. **Other Academic Misconduct** – any activity in which a student receives or attempts to receive an unfair academic advantage.

**Sec. 11-402. Behavioral Misconduct**

a. The Dean of Students may initiate conduct proceedings under subchapter 11-500, or make an incident report and determine discipline under HOP 3-3031 when there is a finding of responsibility, against a student suspected of engaging in or attempting to engage in behavioral misconduct, as defined in this section and which may consist of any of the following activities:

1. **Local, State, or Federal Law Violations** – any behavior that may violate any federal, state, or local law, ordinance, or regulation;
2. **Weapons** – possesses, uses, or displays firearms, facsimile firearms, ammunition, explosives, or other items that could be used as weapons, including but not limited to sticks, poles, clubs, swords, shields, body armor or make shift body-armor, masks, helmets and other garments, such as sporting protective gear, that alone or in combination could be reasonably construed as weapons or body-armor on property owned or controlled by the University, without written permission from the Dean of Students, unless authorized by federal, state or local laws; or, violates Policy 8:1060, Campus Carry, of the Handbook of Operating Procedures;
3. **Dangerous Materials** – Use of a hazardous substance (chemicals, fireworks, explosives, etc.) with the intent, either explicit or when viewed through an objective standard, to cause harm, threat, or a reasonable fear for safety;
4. **Threatening or Endangering Behavior** – any behavior that threatens or endangers the health of any student, employee, or visitor to the University;
5. **Track C Cases** – allegations of conduct that potentially constitute Sex Discrimination, Sexual Exploitation, Unprofessional/Inappropriate Conduct, Retaliation, False Information or False Complaint, Interference with Grievance Process, as defined in HOP 3:3031,
6. **Theft** – unauthorized use, possession, or removal of property, services, or resources of others
7. **Hazing or Hazing Activity** – any intentional, knowing, or reckless act, occurring on or off of the campus of an educational institution, by one person alone or acting with others, directed against a person, for the purpose of pledging, joining, being initiated into, affiliating with, holding office in, or maintaining membership in any organization. Hazing includes but is not limited to:
   A. any type of physical brutality, such as whipping, beating, striking, branding, electric shocking, placing of a harmful substance in or on the body, or similar activity;
   B. any type of physical activity that involves or results in sleep deprivation, exposure to the elements, confinement in a small space, calisthenics, or other activity that subjects the person to an unreasonable risk of harm or that adversely affects the mental or physical health or safety of the person;
8. **Use of a hazardous substance** – any activity that involves consumption of a food, liquid, alcoholic beverage, liquor, drug, or other substance, in addition to those described by Paragraph E, that subjects the person to an unreasonable risk of harm or that adversely affects the mental or physical health or safety of the person;
9. **Other Academic Misconduct** – any activity that intimidates, demeans, embarrasses, or threatens the person with ostracism, that subjects the person to stress, shame, or humiliation, that adversely affects the mental health or dignity of the person or discourages the person from entering or remaining registered in an educational institution, or that may reasonably be expected to cause a person to leave the organization or the institution rather than submit to acts described in this subsection;

10. **Harassment** – hostile or threatening conduct or speech, whether oral, written, or symbolic, that:
   A. is sufficiently severe, pervasive, and objectively offensive to create an objectively hostile or threatening environment that interferes with or diminishes the victim’s ability to participate in or benefit from the services, activities, or privileges provided by the University; and
   B. personally describes or is personally directed to one or more specific individuals.

11. **Drug Misuse** – any activity that induces, causes, or requires the person to perform a duty or task that involves a violation of the Penal Code. See Texas Education Code, Section 37.151(6) for more information.

12. **Property** –
   A. **Unauthorized Use** – engages in unauthorized use of property, keys, equipment, resources, supplies, buildings, or facilities owned or controlled by the University or The University of Texas System;
13. **Technology Misuse**
   A. engages in unauthorized use of an information technology resource owned or controlled by the University or The University of Texas System;
   B. engages in unauthorized access or entry into a computer, computer system, network, database, software, or data;
   C. engages in unauthorized downloading, copying, or distribution of computer software or data;

14. **Stalking** – a course of conduct directed at a specific person that would cause a reasonable person to fear for the person's safety or the safety of others and would cause that person to fear for their safety or suffer substantial emotional distress. (Please note that Stalking here in 11-402(a)(14) is separate from the gender or sex-based stalking rule included in HOP 3-3031.)
   A. A “course of conduct” means two or more acts in which a person directly, indirectly or through third parties, by any action, method, device or means, follows, monitors, observes, surveils, threatens or communicates to or about a person or interferes with a person’s property.
   B. “Reasonable person” means a reasonable person under similar circumstances.
   C. “Substantial emotional distress” means significant mental suffering or anguish that disrupts or impairs usual functioning. It may, but does not necessarily, require medical or other professional treatment or counseling.

15. **Gambling** – engages in or offers games of chance for money or other gain

16. **False and Misleading Information**
   A. engages in the falsification of academic records, including but not limited to altering or assisting in the alteration of any official record of the University or The University of Texas System and submitting false information or omitting requested information that is required for or related to any academic record of the University or The University of Texas System. Academic records include, but are not limited to, academic transcripts, identification documents, graduation certificates, degrees, and other official records maintained by the University.
   B. furnishes false information to or withholds material information from any University official, Faculty Member, or staff member acting in the course of their duties;
   C. alters or assists in the alteration of any official nonacademic record or document, including parking permits and athletic tickets, of any University office or of The University of Texas System.

17. **Unauthorized Surveillance or Distribution**
   A. engages in surveillance or recording of any type without the consent of the person or persons being surveilled or recorded in areas where there is a reasonable expectation of privacy;
   B. engages in broadcasting or distribution, without the consent of all involved parties, of a recording or other surveilled material, that meets the definition of Unauthorized Surveillance in Sec. 11-402(a)(17)(A).

18. **Disruptive Conduct**
   A. engages in conduct that interferes with or disrupts any teaching, research, administrative, disciplinary, public service, learning, or other authorized activity;
   B. engages in promoting or inciting conduct that interferes with or disrupts any teaching, research, administrative, disciplinary, public service, learning, or other authorized activity;

19. **Failure to Comply**
   A. failure to comply with the directives of any university official(s) acting in the performance of their duties, and who has the authorization to issue such directives;
   B. failure to identify oneself to a university official(s) when requested to do so.
      i. A person identifies themselves by giving their name and complete address, substantiated by a current driver’s license, voter registration card, or other official documentation, and by stating truthfully whether or not they are a student or employee of the University.
   C. failure to comply with rules, regulations, procedures, policies, standards of conduct, or any other directive of the university, including but not limited to schools, colleges, departments, or labs;

20. **Violent Conduct** – any conduct intended to physically harm or injure a person;

21. **Animal Cruelty** – any conduct with an animal that may violate any provision of federal, state, or local laws;

22. **University System Violations** – any conduct that violates any provision of The Regents’ Rules and Regulations of The University of Texas System;

23. **Retaliation** – any action taken to adversely affect the terms or conditions of an individual's academic experience or employment with the University, or other institutional status of a student, employee, university affiliate, visitor, or applicant for admission to or employment with the University, because an individual has, in good faith:
   A. reported or intends to make a report under university policies or rules;
   B. opposed an unlawful practice;
   C. participated in an investigation or conduct proceeding; or,
   D. requested supportive or protective measures;

**Subchapter 11–500. Conduct Procedures**

**Sec. 11–501. Investigation**

a. When the Dean of Students receives information that a student has allegedly violated university policy, the Dean of Students will perform an initial assessment and determine, based on the information contained in the referral, if an investigation is merited, or if the referral shall be maintained without further action. If further investigation is merited, the Dean of Students will:
   1. conduct an investigation into the allegation(s), which will include an opportunity for the student to hear and respond to the allegation(s).

b. After conducting the investigation and initial assessment with the student, the Dean of Students will:
1. Issue a No Finding Letter in instances where the preponderance of the evidence does not support the finding of a violation; or
2. Issue an Administrative Disposition in instances where the preponderance of the evidence supports the finding of violation, and which shall include:
   1. the results of the investigation;
   2. the basis for the finding of a violation;
   3. the specific section(s) of this Chapter the student has violated; and
   4. any assessed sanction(s).

b. Track C allegations will be investigated in accordance with the procedure described in HOP 3-3031 and referred to the Dean of Students for disciplinary decision. In some circumstances, as outlined in HOP 3-3031(VIII)(F), Track C allegations may be resolved through the Restorative Practices Alternative rather than a formal investigation process.

c. Scientific Misconduct or Misconduct in Other Scholarly Research

1. If the information received by the Dean of Students makes allegations of misconduct in scientific or other scholarly research, the Dean of Students will refer the information to the Vice President for Research and/or the Research Integrity Officer for further investigation in accordance with the Handbook of Operating Procedures, 7-1230.
2. The findings will be set forth in an investigation report. The report will then be provided to the dean of students for adjudication of any academic integrity violations that may be outlined in the report.
3. Additional Information regarding the Scientific Misconduct or Misconduct in Other Scholarly Research can be found at http://www.policies.utexas.edu/policies/misconduct-science-and-other-scholarly-activities

d. Investigations involving students enrolled in the Dell Medical School

1. If the dean of students receives a referral involving a student enrolled in the Dell Medical School, the dean of students will notify the dean of the Dell Medical School or designee. Prior to the final resolution of an incident involving a student enrolled in the Dell Medical School, the dean of students shall consult the dean or designee to determine appropriate sanctions consistent with the professional standards outlined by the Dell Medical school and other applicable university rules.
2. Additional information regarding the professional standards of the Dell Medical School can be found at https://dellmed.utexas.edu/education/student-resources

Sec. 11–502. Interim Disciplinary Action

a. Pending an investigation, hearing, or outcome of the allegations against a student, the Dean of Students may take immediate interim disciplinary action appropriate to the circumstances, including instances when the continuing presence of the student: (i) poses an immediate or potential danger to persons or property, or (ii) disrupts the academic process, or any activity authorized by the University. The Dean of Students may take the following actions: suspending the student's access to the entirety or selected parts of campus (including campus residence halls), prohibiting a student from attending in-person and/or virtual classes, altering the status of the student, or any other actions deemed necessary to address the risk presented by the student.

b. Notice of the interim action shall be sent by the Dean of Students to the student in accordance with Sec. 11-201 of this Chapter.

c. A student who is suspended or whose status is altered under Sec. 11–502(a) may meet with the Dean of Students to contest the interim disciplinary action. A request for a meeting under this subsection must be made in writing, and submitted to the Dean of Students no more than five days after being notified (in accordance with Sec. 11-201) that the interim disciplinary action was taken. If a meeting is requested by the student, such a meeting generally will be conducted within five days after the request for a meeting is made, unless the student agrees in writing to a meeting at a later time. At the discretion of the Dean of Students, the five-day period may be extended for a period not to exceed an additional five days.

1. During the meeting with the Dean of Students, the student may present documentation or other evidence for review in consideration of lifting or altering the interim disciplinary action. The Dean of Students shall issue a written decision within five days of the meeting regarding whether the decision to take interim disciplinary action will be reversed, altered, or otherwise left unchanged.

2. The student may appeal the written decision by submitting a written appeal to an Appellate Officer within three days from the date the Dean of Students issues their decision. The appeal will be reviewed solely on the basis of the written record of the case, any written materials submitted by the student, and the response to the appeal, if any, submitted by the Dean of Students. Oral argument will not be considered.

3. The decision of the Appellate Officer will be communicated in writing to the accused student and the Dean of Students within five days after the appeal has been received by the Appellate Officer. The Appellate Officer may approve, reject, or modify the interim disciplinary action in question, or may require that the original decision be reconsidered for the presentation of additional evidence. The decision of the Appellate Officer shall be final.

d. A student is subject to further disciplinary action for prohibited conduct that takes place during a period of interim disciplinary action imposed under Sec. 11-502(a).

Sec. 11–503. Meeting with a Student

a. The Dean of Students may require a meeting with a student in connection with an alleged violation of this Chapter.

b. Notice of the meeting shall be sent by the Dean of Students to the student in accordance with Sec. 11-201 of this Chapter. The message will direct the student to appear at a specific time and place at least three days after the date of the message. In cases involving allegations of actual or threatened violent conduct against a person, or Track C cases, the Dean of Students maintains the right to direct the student to appear at least one day after notifying the student of the meeting.

c. The Dean of Students may bar or cancel the enrollment or otherwise alter the status of a student (or of a former student as described in Sec. 11–300(23)) who fails without good cause to comply with a meeting notice sent in accordance with Sec. 11–503(b) until the student complies. If a student fails to appear for a required meeting, or otherwise fails to participate in an investigation into an allegation of misconduct, the Dean of Students may proceed with resolving the matter based upon the information available and without the student's participation in the process.

Sec. 11–504. Administrative Disposition

a. Students found responsible for violating university policy will be issued an Administrative Disposition (in accordance with Sec. 11-501(b)(2)).

b. Following the presentation of an Administrative Disposition, a student may choose to:
   1. Accept the finding and assessed sanctions;
   2. Accept the finding, but appeal the assessed sanctions with a written appeal to an Appellate Officer; or,
Section 11–505. Faculty Disposition

a. When a Faculty Member suspects that a student has engaged in academic misconduct, as defined in Sec. 11-401, the Faculty Member may:
   1. refer the allegation and all supporting documentation to the Dean of Students, who will proceed under Sec. 11-501 and Sec. 11-504; or
   2. meet with the student(s) involved and:
      A. discuss the alleged violation(s);
      B. provide the student with the documentation and/or information that supports the allegation;
      C. provide the student with the opportunity to respond to the allegation; and,
      D. inform the student of their rights in the conduct process.

b. After discussing the matter with the student, in accordance with Sec. 11-505(a)(2), the Faculty Member will:
   1. Dismiss the allegation; or,
   2. Present the student with a Faculty Disposition, which shall include:
      A. The specific allegation of academic misconduct; and,
      B. Sanctions recommended by the Faculty Member in accordance with Sec. 11-702(a).

c. A Faculty Member, through their action(s) or communication(s) with the student, shall not cause or intend to cause a student to relinquish their right to proceed with a referral to the Dean of Students, or condition the exercise of that right with increased sanctions, in lieu of resolving the matter with the Faculty Member via Faculty Disposition.

d. If a Faculty Disposition is presented, the student may:
   1. Accept the finding of a violation and the sanctions recommended by the faculty member;
   2. Contest the finding of a violation and the assessed sanctions, and have the allegations referred to the dean of students, who will then proceed under Sec. 11-501 and Sec. 11-504.
   3. Request a meeting with a representative from Student Conduct and Academic Integrity to discuss or better understand all of the available options for resolving the alleged conduct matter.

e. In instances where the student has chosen to accept the finding of a violation and the assessed sanctions (as provided in Sec. 11-505(d)(1)), the Faculty Member shall send the signed Faculty Disposition and all relevant and supporting documentation to the Dean of Students.

   1. The Dean of Students reviews Faculty Dispositions for adherence to institutional process and due process standards, and to adjust determinations of responsibility and/or sanction recommendations where either would fall outside those generally issued in similar cases. A conduct matter resolved by Faculty Disposition shall not be considered final and official until the Dean of Students has completed its review and afforded the involved student an opportunity to meet, in accordance with Sec. 11-505(f).

   2. A student who resolves their case through Faculty Disposition may be assessed additional sanctions by the Dean of Students, including status-based sanctions, in accordance with Sec. 11-701 or Sec. 11-703.

f. The student will receive notice, in accordance with Sec. 11-201, from the Dean of Students after review of the Faculty Disposition and assignment of additional sanction(s), if any. Along with that notification, the student will be afforded an opportunity for an informal meeting with the Dean of Students. The student will have five days from the day the notification is sent to indicate their interest in meeting with the Dean of Students.

   1. If a student fails to respond to the meeting request, the Faculty Disposition will be finalized.

   2. If the student meets with the Dean of Students, in accordance with the guidelines set forth in Sec. 11-505(f), the involved student may confirm resolution through Faculty Disposition or request a referral of the allegation(s) to the Dean of Students. This request must be submitted within 3 days of meeting with
Sec. 11-506. Academic Investigations, Course Withdrawals, and Grade Adjustments

a. A student may not drop a class if they are the subject of any pending investigation(s) of academic misconduct for the class in question.

b. Any student responsible for academic misconduct and issued any sanction(s) will not be eligible to drop the class associated with the violation.

1. Any drop assigned to a student who is found responsible for committing academic misconduct and assigned any sanction(s) will be rescinded and the student will be re-enrolled in the course and assigned a grade in accordance with the assigned sanction(s) and the student’s performance in the course.

2. Any student responsible for academic misconduct and issued any grade-related sanction(s) will not be eligible to change the course grade to Pass/Fail or to Credit/No Credit.

3. Any student responsible for academic misconduct and assigned any sanction(s) and the student’s performance in the course.

4. Any student responsible for academic misconduct and assigned any sanction(s) and the student’s performance in the course.

5. Any student responsible for academic misconduct and assigned any sanction(s) and the student’s performance in the course.

6. Any student responsible for academic misconduct and assigned any sanction(s) and the student’s performance in the course.

Sec. 11-507. Amnesty

a. Alcohol and Drug Amnesty

1. The University empowers students to prevent high-risk behavior by seeking help for fellow students and community members who are experiencing a medical emergency due to drug or alcohol consumption. A student who seeks emergency medical assistance for themselves or others experiencing a medical emergency due to drug or alcohol consumption may qualify for amnesty from formal disciplinary action under this Chapter, provided the student satisfies all three of the following conditions:

   A. Contacts emergency, medical, law enforcement, and/or University personnel promptly for assistance;

   B. Remains with the person experiencing the medical emergency until medical assistance arrives; and,

   C. Cooperates with all emergency and law enforcement personnel.

2. Eligibility for amnesty, as outlined above, also applies to the student experiencing the medical emergency due to drug or alcohol consumption.

3. The Dean of Students will evaluate a student’s eligibility for amnesty under this Chapter on a case-by-case basis; amnesty is not guaranteed. Students may receive amnesty under this policy on more than one occasion.

4. Students eligible for amnesty will be required to participate in an educational program and may be referred for individual drug and/or alcohol counseling, but may otherwise avoid formal disciplinary action under this Chapter. Students who receive amnesty who decline or fail to complete the educational component may become subject to formal disciplinary action under this Chapter.

5. This amnesty policy applies only to university rules and policies; it does not preclude or prevent law enforcement from taking legal actions. Amnesty does not apply to other prohibited behavior such as the sale of an illegal drug or narcotic.

b. Amnesty Policy for Students Reporting Certain Violations

1. Consistent with Texas Education Code Section 51.284, the University will not take any disciplinary action against a student for a violation of this Chapter, who in good faith reports to the institution being the victim of, or witness to, an incident of sex discrimination, sexual harassment, sexual assault, interpersonal violence (domestic violence and dating violence), stalking, or other Track C related allegations, provided the incident occurred at or near the time of the reported incident, regardless of where the incident occurred or the outcome of the conduct process.

   A. This policy does not apply to a student who reports their own commission or assistance in the commission of sex discrimination, sexual harassment, sexual assault, interpersonal violence (domestic violence and dating violence) or stalking, or Track C related allegations.

2. Eligibility for amnesty under this section shall be determined by the dean of students, is final, and may not be revoked.

Subchapter 11–600. Hearing

Sec. 11–601. Duties of the Hearing Officer and Student Conduct Panel Foreperson

a. The Hearing Officer or Student Conduct Panel Foreperson shall:

   1. preside over the hearing;

   2. determine whether the Dean of Students has satisfied the requirements of Sec. 11–602;

   3. hear objections and make decisions during the hearing;

   4. determine the admissibility of evidence;

   5. facilitate the hearing process, which includes the authority to remove anyone from the hearing who is disrupting the process;

   6. issue a written decision, in accordance with Sec. 11–609, that identifies the finding of fact, the determination of either the Hearing Officer or the majority of the Student Conduct Panel as to whether a student violated this Chapter, and the sanctions assessed (if applicable).

Sec. 11–602. Duties of the Dean of Students

a. The Dean of Students shall:

   1. determine the date, time, and location of the hearing and provide notice in accordance with Sec. 11–201 and Sec. 11–604 of this Chapter;

   2. arrange for the hearing to be recorded; and

   3. establish hearing procedures that include, but are not limited to, deadlines for submission of supporting documentation/evidence, a list of witnesses to be called by the student, the role of the advisor, and hearing logistics. Detailed hearing procedures will be provided to the student along with the hearing notice and will be available on the Dean of Students website.

Sec. 11–603. Student Rights and Responsibilities

a. An accused student has the right to:

   1. have an advisor at the hearing;

   2. challenge the objectivity of the Hearing Officer or the members of the Student Conduct Panel designated to hear the charges (in accordance with Sec. 11–606);

   3. know the identity of each witness who will participate in the hearing;

   4. present documentation and other supporting information for consideration in the hearing process;

   5. provide a personal statement or account of the incident in question;
6. question each witness who appears at the hearing; and,
7. appeal a disciplinary outcome in accordance with Subchapter 11-800.

Sec. 11–604. Notice of Hearing

a. The Dean of Students will notify the accused student of the date, time, and location of the hearing with a hearing notice sent to the student in accordance with Sec. 11-201 of this Chapter.
b. The student shall be given notice of the hearing at least 5 days before the hearing date.
c. In Track C cases and cases involving allegations of violent conduct, the notice will specify a hearing date of at least 5 days after the date of the letter or e-mail message.
d. Notice sent under subsection 11–604(a) will:
   1. state the time, date, and location of the hearing;
   2. contain the name of the Hearing Officer or the names of the members of the Student Conduct Panel appointed to hear the matter;
   3. contain the names of witnesses who may testify against the accused student;
   4. include a brief summary of the testimony to be given by each witness;
   5. include a list of documentation and evidence that will be presented during the hearing; and,
   6. contain a copy of the complaint, which outlines the alleged violation(s).
e. In Track C cases, the Dean of Students shall provide the Complainant the same notice given to the Respondent. The Complainant shall be advised in such cases that they have the right to:
   1. attend and participate in the hearing;
   2. have past sexual history with third parties excluded from evidence;
   3. provide testimony at the hearing in a manner that does not require the Complainant to directly confront or to be directly questioned by the Respondent, while still preserving the Respondent’s right to challenge such testimony, including but not limited to the Dean of Students providing testimony on the Complainant’s behalf;
   4. a live hearing, conducted with all parties physically present in the same geographic location, or at the Dean of Students’ discretion, any or all parties, may appear at the live hearing virtually;
   5. have an advisor at the hearing;
   6. appear in person at the hearing;
   7. work with and provide input to the Dean of Students regarding witnesses and their testimony as well as other relevant evidence and argument in preparation for the hearing and any subsequent appeals;
   8. know the outcome of the hearing decision;
   9. appeal the hearing decision; and
   10. submit a response to the Respondent’s appeal.
f. In situations where a student fails to attend a scheduled hearing, the Hearing Officer or Student Conduct Panel will determine if the Dean of Students provided notice in accordance with Sec. 11-604, and if so, will proceed with the hearing without the student’s participation.

Sec. 11–605. Preliminary Matters for a Hearing

a. Multiple Charged Students: Allegations against more than one student that arise out of a single incident or course of conduct may be heard together.
   1. A student may request a separate hearing in writing directly to the Dean of Students.
   2. The Dean of Students will determine whether to grant the request.
b. A least three (3) days before the hearing date, the accused student, or the Complainant in a Track C case, must provide the following information, if any, to the Dean of Students:
   1. A list of any witnesses the student may call to participate in the hearing. The list must include a summary of each witness’s connection to the case and their anticipated testimony;
   2. Copies of any supporting documentation the student intends to use in the hearing; and
   3. The name of their advisor, if any, and the advisor’s relationship to the student.
c. Other Advisors: The Hearing Officer, Student Conduct Panel, and Dean of Students are entitled to advice and legal counsel from the University of Texas System Office of General Counsel and/or the University of Texas at Austin’s Office of the Vice President for Legal Affairs, and may request their presence at a hearing or a meeting with a student.
d. Hearing Postponement: An accused student, or the Respondent or Complainant in a Track C case, may request a hearing postponement to the Dean of Students. The student must provide a reason for the requested postponement, including, but not limited to, a procedural error, an emergency situation, or a documented academic impact that would prevent the student from participating in the hearing. The Dean of Students will determine whether or not a postponement will be granted based upon the reason shared by the student, and will notify all parties of the decision as soon as possible.
   1. A postponement must be requested by the student in advance of the hearing date or the hearing will proceed without the student’s participation.
   2. In instances where an accused student, or the Respondent or Complainant in a Track C case, is unable to request a postponement due to incapacity or emergent situation, the Dean of Students may postpone the hearing for good cause and on their behalf.
e. In Track C cases, subject to the Family Educational Rights and Privacy Act (FERPA) and other applicable law, copies of the information and/or documents submitted by the Respondent and the Dean of Students as required by this section shall be promptly provided, if applicable, to the Complainant. The Complainant may submit a request to the Hearing Officer prior to the hearing asking that the hearing be closed. The Complainant will furnish the name of their advisor, if any, to the Hearing Officer prior to the hearing.

Sec. 11–606. Challenges to the Hearing Officer or Members of the Student Conduct Panel

a. A student may challenge the fairness, impartiality, or objectivity of a Hearing Officer or any member of the Student Conduct Panel, but is not entitled to disqualify that person from serving.
   1. The challenge must be in writing, must state the reasons for the challenge, and must be submitted to the Hearing Officer or the Panel Foreperson through the Dean of Students at least three days prior to the hearing. The hearing officer or the challenged members(s) of the Student Conduct Panel will determine whether they can serve with fairness, impartiality, and objectivity, and will communicate their determination in a written response. If the challenged person disqualifies themself, another Hearing Officer or Student Conduct Panel member will be appointed by the Dean of Students.
b. In Track C cases, the Complainant may, through the Dean of Students, also challenge the Hearing Officer on the basis of a lack of fairness, impartiality, or objectivity, following the same challenge process outlined in Sec. 11-606(a)(1).
Sec. 11–607. Hearing Procedure

a. In accordance with Sec. 11-602, the Dean of Students will establish hearing procedure and share that procedure with the student in advance of the hearing. Hearing procedures are posted on the Dean of Students website.

b. Hearing procedure will include the following:
   1. statement of the allegations;
   2. review of student rights in the process;
   3. review of the standard of evidence used in the conduct process;
   4. opportunities for opening and closing statements, presentation of supporting information, calling of witnesses, and questioning of involved parties;
   5. the Dean of Students and the accused student are each given the opportunity to present rebuttal information and statements;
   6. the Dean of Students and accused student will recommend sanctions to be considered if the student is found responsible for a violation;
   7. the Dean of Students and accused student will each present a closing statement;
   8. the Hearing Officer or a majority of the Student Conduct Panel decides whether a violation has occurred and assesses a sanction or sanctions in accordance with subchapter 11–700.

c. In Track C cases, the following additional rights and procedures apply to the Complainant:
   1. to attend the hearing;
   2. the Hearing Officer shall inform the Complainant of their rights as listed in Sec. 11-604(e) and Sec. 11-608(e);
   3. to have an advisor present during the hearing;
   4. to have past sexual history with third parties excluded from evidence;
   5. to make an opening statement or to reserve their opening statement until after the Dean of Students has presented the University’s case;
   6. to question any witness presented by either the Dean of Students or the Respondent;
   7. to present their witnesses and evidence; during this time, the Dean of Students and the Respondent may question any of the Complainant’s witnesses;
   8. to present rebuttal evidence and argument;
   9. to present a rebuttal to the Dean of Students’ recommendation for sanctions;
   10. to present a closing statement.

Sec. 11–608. Evidence in Hearings

a. Legal rules of evidence do not apply to university hearings for alleged violations of institutional rules.

b. All university hearings shall use the “preponderance of the evidence” standard, defined in Sec. 11-102(d) as that which is “more likely to have occurred than not”.

c. The Dean of Students has the burden of providing evidence and proving the charges by the preponderance of the evidence.

d. During the hearing, the Hearing Officer or the Foreperson of the Student Conduct Panel may admit evidence, including testimony and documentary evidence. The Hearing Officer or the Foreperson of the Student Conduct Panel may exclude irrelevant, immaterial, and unduly repetitious evidence. All evidence admitted during the hearing will be made a part of the record.

1. The accused student’s disciplinary record is admitted into evidence during a hearing to help the Hearing Officer or the Student Conduct Panel assess an appropriate sanction or sanctions. The decision as to the accused student’s responsibility for the violation at issue will be based solely on the evidence that pertains to that particular violation.

e. In Track C cases, the Complainant shall be allowed to provide testimony at the hearing in a manner, as determined by the Hearing Officer, that does not require the Complainant to directly confront or be directly questioned by the Respondent, while still preserving the Respondent’s right to challenge such testimony. In accordance with Sec. 11–607(c)(4), evidence of the Complainant’s past sexual history with third parties will be excluded.

Sec. 11–609. Disciplinary Decision

a. The Hearing Officer or the Foreperson of the Student Conduct Panel will render a written decision, reflective of the majority of the Student Conduct Panel in the case of the Foreperson, that will include whether the student is responsible for a violation, the findings of fact in support of the decision, and sanction(s) assessed, if applicable. The student and the Dean of Students will each be given a copy of the decision. The written decision is the official outcome on the matter from which any appeal is based.

b. The Hearing Officer or the Foreperson of the Student Conduct Panel shall make every effort to complete the written decision within five days of the hearing. If the Hearing Officer or the Foreperson of the Student Conduct Panel is unable to issue the written decision within five days, they shall provide notice of the delay and the new date for completion to the student and the Dean of Students.

c. In Track C cases, subject to the Family Educational Rights and Privacy Act (FERPA) and other applicable law, the Dean of Students shall, upon receipt of the Hearing Officer’s decision, forward copies of the decision to the Complainant, if applicable.

d. In cases involving allegations of crimes of violence, as defined in the Family Educational Rights and Privacy Act (FERPA) and other applicable law, the Dean of Students shall notify the alleged victim(s) of the final outcome.

Sec. 11–610. Hearing Record

a. The hearing record shall consist of the following:
   1. a copy of the notice required under Sec. 11–604;
   2. the recording of the hearing and/or the transcript, if any, together with all evidence admitted under Sec. 11–608;
   3. a copy of the complaint/hearing letter; and
   4. the disciplinary decision of the Hearing Officer or the majority of the Student Conduct Panel.

Subchapter 11–700. Sanctions

Sec. 11–701. Authorized Disciplinary Sanctions

a. The Dean of Students, under Subchapter 11–500, or the Hearing Officer or the majority of a Student Conduct Panel, after a hearing under Subchapter 11–600, may impose one or more of the following sanctions for violation of this Chapter:
   1. written warning;
   2. disciplinary probation;
   3. academic integrity probation;
   4. withholding of grades, official transcript, and/or degree;
   5. bar against readmission, bar against enrollment, withdrawal from the University or from a period of enrollment, and/or drop from one or more classes;
   6. restitution or reimbursement for damage to or misappropriation of University or University of Texas System property;
   7. suspension of rights and privileges, including, but not limited to, participation in athletic or extracurricular activities and residing in or entering University housing;
Sec. 11–702. Authorized Academic Sanctions

8. an academic sanction including, but not limited to, a failing grade for a test, an assignment, or a class, cancellation of all or part of previously earned course credit;
9. denial of degree;
10. deferred suspension;
11. suspension from the University for a specified period of time;
12. expulsion (permanent separation from the University);
13. other sanction or sanctions as deemed appropriate under the circumstances.

b. The Dean of Students, the Hearing Officer; or a Student Conduct Panel may consider mitigating and/or aggravating factors, including but not limited to a student’s prior conduct, when determining proportionate sanctions in response to the finding of a violation.

c. If a violation of the University’s Institutional Rules, other than Sec. 11-402(a)(11) or Sec. 13-204 of the Institutional Rules, is committed because of the race, color, religion, national origin, age, disability, citizenship, veteran status, of a student or students directly harmed by the violation, such a discriminatory purpose will be treated as an aggravating factor for the purpose of determining the appropriate sanction or sanctions under subsection 11-701(a). For a complete set of cross-references to all regulation of harassment on the campus, see subsection 13-204 (covering verbal harassment) of the Institutional Rules and 3-3031(V)(O) (covering harassment based on gender, sexual orientation, gender identity, or gender expression) of the Handbook of Operating Procedures.

Sec. 11–702. Authorized Academic Sanctions

a. When a student signs a Faculty Disposition, in accordance with Sec. 11–505, for conduct constituting academic misconduct, as defined in Sec. 11–401, the Faculty Member or the academic dean responsible for the course may impose one or more of the following grade-related sanctions:
   1. no credit or reduced credit for the graded assessment in question;
   2. retaking of examination or resubmission of assignment;
   3. failing or reduced final grade for the course.

b. When a student signs an Administrative Disposition with the Dean of Students, in accordance with Sec. 11–504, or is determined, after a hearing in accordance with subchapter 11–600, to be responsible for academic misconduct, as defined in Sec. 11–401, the Dean of Students, the Hearing Officer, or a majority of the Student Conduct Panel may impose any of the grade-related sanctions listed in Sec. 11–702(a) and impose any of the general sanctions listed in Sec. 11–701 or Sec. 11-703.

c. If a student resolves an allegation of academic misconduct through a Faculty Disposition, in accordance with Sec. 11–505, for conduct constituting academic misconduct, as defined in Sec. 11–401, the student may be assigned any of the sanctions listed in Sec. 11-701 or Sec. 11-703 by the Dean of Students, in accordance with Sec. 11-704 by the Dean of Students, in accordance with Sec. 11–504, Sec. 11-402(a)(11) or Sec. 13-204 of the Institutional Rules, or after a hearing in accordance with Subchapter 11–600, and in accordance with Sec. 11-704, or is determined, after a hearing in accordance with subchapter 11–600, to be responsible for the course may impose one or more of the following grade-related sanctions:
   1. no credit or reduced credit for the graded assessment in question;
   2. retaking of examination or resubmission of assignment;
   3. failing or reduced final grade for the course.

Sec. 11–702. Authorized Academic Sanctions

a. Withdrawal, Bar from Readmission/Re-enrollment – As appropriate under the circumstances, the Dean of Students or the Hearing Officer or a majority of a Student Conduct Panel may impose a bar against the student’s readmission or enrollment, may drop the student from one or more classes, or may withdraw the student from the University or from a period of enrollment. This bar may be temporary or permanent in nature. One or more of these sanctions may also be imposed on a student who fails to respond to a meeting notice from the Dean of Students to discuss an alleged violation of the Regent’s Rules and Regulations, University regulation, administrative rules, or the University’s expectations of conduct. If imposed for failure to respond to a meeting request, the sanction or sanctions may be reversed when the student responds to the request.

b. Written Warning – Notification to the student that they have engaged in behavior that violated a rule or regulation of The University of Texas System or the University and that further violation(s) of the regulations may result in more severe disciplinary action. The Dean of Students, the Hearing Officer, or a majority of a Student Conduct Panel may impose conditions related to the violation, such as counseling, educational seminars, or unpaid work assignments. Failure to meet the condition(s) may be considered an additional violation.

c. Disciplinary Probation – A specified period of time during which the student is required to comply with specified terms and conditions that include not engaging in further conduct that would violate a rule or regulation of The University of Texas System or the University. Further violation or violations will result in consideration of suspension. The Dean of Students, the Hearing Officer, or a majority of a Student Conduct Panel may impose conditions related to the violation, such as reporting to the Dean of Students on a regular basis, counseling, educational seminars, or unpaid work assignments. Failure to meet the condition(s) may be considered an additional violation.

d. Academic Integrity Probation – A specified period of time during which the student is required to comply with specified terms and conditions that include not engaging in further academic conduct that would violate a rule or regulation of The University of Texas System or the University. Further academic violation or violations during this time could result in additional sanctions, which may include the student’s suspension or expulsion. The Dean of Students, the Hearing Officer, or a majority of a Student Conduct Panel may impose conditions related to the violation, such as reporting to the Dean of Students on a regular basis, counseling, or educational seminars. Failure to meet the condition(s) may be considered an additional violation.

e. Restorative Practice – An agreement that offers students who violate the Institutional Rules the opportunity to take ownership of their decisions, to be held accountable for their actions, and to work collaboratively to repair any harm caused to the impacted party and/or the University community. Examples of Restorative
Practice include, but are not limited to, conferences, circles, and/or an educational coaching session.

1. Eligibility for Restorative Practice as a sanction shall be determined at the discretion of the Dean of Students, and will be based upon a number of factors including the category and severity of the conduct of the responsible student. Additionally, the responsible student must voluntarily agree to participate in Restorative Practice and accept responsibility for their conduct.

f. Restitution – Reimbursement for damage to or misappropriation of university property. Reimbursement may take the form of appropriate service to repair or otherwise compensate for damages. Other than in extraordinary circumstances deemed necessary by the Dean of Students, the University will not facilitate restitution between individuals for conduct-related occurrences.

g. Suspension of Rights and Privileges – The Dean of Students, the Hearing Officer or Student Conduct Panel may impose limitations to fit the particular case, as in the suspension of rights and privileges to enter or reside in university housing facilities. Suspension of eligibility for official athletic and nonathletic extracurricular activities prohibits the student on whom it is imposed, during the period of suspension, from joining a registered student organization; from taking part in a registered student organization’s activities or attending its meetings or functions; and from participating in an official athletic or nonathletic extracurricular activity.

h. Academic Sanction – A failing grade or other academic sanction may be assigned to a student for a class in which they are found to have violated the University’s regulations regarding academic misconduct.

i. Deferred Suspension – Permits the sanction of suspension to be deferred for a student where mitigating circumstances can be identified and determined by the Dean of Students, the Hearing Officer, or a majority of a Student Conduct Panel. If a student is found to have violated any rule of the University or The University of Texas System while the sanction of deferred suspension is in effect, the sanction for such a violation may be immediate suspension except in extraordinary circumstances as deemed appropriate by the Dean of Students. The Dean of Students, the Hearing Officer, or a majority of a Student Conduct Panel may impose conditions related to the violation, and failure to meet such conditions will be considered an additional violation.

j. Suspension – Prohibits the student on whom it is imposed, during the period of suspension, from entering the University campus without prior written approval from the Vice President for Student Affairs, from being initiated into an honorary or service organization, and from receiving credit for academic work done during the period of the suspension. Suspension is noted on the official transcript during the term of suspension and shall remain until all conditions of the suspension are met. The notation can be removed upon the request of the student but only after the student’s successful completion of the terms of the suspension. The request for the removal of the transcript notation of suspension should be directed to the Dean of Students. Suspension may also prohibit the student from being admitted to, enrolling at, or entering the campus of another component institution of The University of Texas System without prior written approval of the chief student affairs officer of the institution at which the student wishes to be present. The Dean of Students, the student’s home department or school and/or the Office of the Registrar may, however, permit the student to receive credit for academic work completed at another institution during the period of suspension, except in cases where suspension is imposed for academic misconduct. The Dean of Students, the Hearing Officer, or a majority of a Student Conduct Panel may impose additional conditions or sanctions related to the alleged violation, and failure to meet such conditions or terms of the sanction will be considered an additional violation.

k. Expulsion – A permanent separation from the University which prohibits the student on whom it is imposed from entering the University campus without prior written approval from the Vice President for Student Affairs. Expulsion may prohibit the student from being admitted to, enrolling at, or entering the campus of another component institution of The University of Texas System without prior written approval of the chief student affairs officer of the institution at which the student wishes to be present. A permanent notation of expulsion will also be placed on the student’s official transcript.

l. The academic transcript of a student suspended or expelled for disciplinary reasons shall be marked with “Disciplinary Suspension” or “Expulsion” as appropriate. The University shall maintain a permanent Disciplinary Record for every student assessed a sanction of suspension, expulsion, denial or revocation of degree, and/or withdrawal of diploma. A record of academic misconduct shall be maintained for at least five years, and disciplinary records required by law to be maintained for a certain period of time (i.e., Clery violations) shall be maintained for at least the time specified in the applicable law, unless the record is permanent in conjunction with the above stated sanctions.

m. Sanctions not listed in this section may be imposed when, in the opinion of the Dean of Students, the best interests of The University of Texas System or the University would be served. A Hearing Officer or Student Conduct Panel may only impose sanctions not listed in this section when such sanctions are submitted to the Dean of Students, and the Dean of Students approves the recommendation as in the best interests of The University of Texas System or University.

Subchapter 11–800. Appeal
Sec. 11–801. Request for Appeal

a. The accused student may request to appeal:

1. a finding of responsibility and sanction(s) assessed by the Dean of Students in an Administrative Disposition to an Appellate Officer, in accordance with Sec. 11-802(b) of this Chapter, where the sanction(s) assessed render the case ineligible for a hearing, in accordance with Sec. 11-504(b)(3);

2. only the sanction(s) assessed by the Dean of Students in an Administrative Disposition to an Appellate Officer, in accordance with Sec. 11-802(c) of this Chapter;

3. a finding of responsibility and sanction(s) assessed as a result of a hearing decision to an Appellate Officer, in accordance with Sec. 11-803 of this Chapter.

d. The accused student, the Complainant, or the Dean of Students may appeal an Administrative Disposition or Disciplinary Decision based only on one or more of the following grounds:

1. Significant procedural error inconsistent with the processes as outlined in subchapters 11-500 and 11-600.

2. Discovery of any new information unknown or not reasonably foreseeable to the accused student or the dean of students at the time of the hearing that was material to and could have reasonably impacted the Disciplinary Decision.

3. The sanction(s) determined by the Dean of Students, Hearing Officer, or a majority of a Student Conduct Panel are significantly disproportionate to the violation.

e. The Appellate Officer shall first determine if sufficient grounds for appeal exist under section 11-801(d). If sufficient grounds do not exist, the appellate officer will deny the request for appeal thereby sustaining the original decision. If the Appellate Officer determines...
that sufficient grounds for appeal exist, the Appellate Officer will notify the non-appealing party that they may provide a response to the appeal in no more than five days. After those five days, the appellate officer will review the appeal and any response in full and issue a final decision.

Sec. 11–802. Appeal of Administrative Disposition by the Dean of Students

a. An Administrative Disposition, presented in accordance with Sec. 11-501(b)(2), and in which the student agrees to both the finding of responsibility and the sanction(s) assessed by the Dean of Students, is final and is not eligible for appeal.

b. In instances where a matter has been determined ineligible for a hearing, in accordance with Sec. 11-504(b)(3), the student may appeal a finding of responsibility and/or sanction(s) assessed by the Dean of Students in an Administrative Disposition by submitting a written appeal to the Appellate Officer within five days from the date on which the student signed the Administrative Disposition. Appeals submitted after 5:00 pm will be received the next day. The written appeal must cite at least one of the three grounds for appeal, as outlined in Sec. 11-801(d), and must include any related argument. The appeal is restricted to the assessed sanction(s).

c. A student who accepts a finding of responsibility, as determined in an Administrative Disposition, but chooses to contest only the sanction(s) assessed, in accordance with Sec. 11-504(b)(2), may submit a written appeal to the Appellate Officer within five days from the date on which the student signed the Administrative Disposition. Appeals submitted after 5:00 pm will be received the next day. The written appeal may only cite ‘Disproportionate Sanctions’ (Sec. 11-801(d)(3)) as the basis for the appeal, and must include any related argument. The appeal is restricted to the assessed sanction(s).

d. In Track C cases, the Complainant may also appeal the sanctions assessed in an Administrative Disposition by submitting a written appeal to the Appellate Officer within five days from the date on which the Respondent signed the Administrative Disposition issued by the Dean of Students or received notice of an additional sanction. Appeals submitted after 5:00 pm will be received the next day. The written appeal may only cite ‘Disproportionate Sanctions’ (Sec. 11-801(d)(3)) as the basis for the appeal, and must include any related argument. The appeal is restricted to the assessed sanction(s).

e. If the accused student, or the Complainant in Track C cases, does not submit a written appeal to the Appellate Officer by the deadline, the sanction(s) will become final, and all rights to appeal will be waived.

f. The accused student must provide a copy of the written appeal to the Dean of Students on the same date the appeal is submitted to the Appellate Officer. In Track C cases, subject to the Family Educational Rights and Privacy Act (FERPA) and other applicable law, upon receipt of the accused student’s written appeal, the Dean of Students office shall provide a copy of the written appeal, if applicable, to the Complainant.

g. In Track C cases, the Complainant may submit a written response to the Respondent’s appeal to the Appellate Officer. The response, if any, must be submitted no later than five days after the Appellate Officer informs the Dean of Students that the accused student’s appeal has adequately raised an appellate issue, in accordance with Sec. 801(d). The Appellate Officer will provide a copy of the response to the Respondent.

h. The Dean of Students may also submit a written response to the appeal to the Appellate Officer. The response, if any, must be submitted no later than five days after the Appellate Officer informs the Dean of Students that the accused student’s appeal has adequately raised an appellate issue, in accordance with Sec. 801(d). The Dean of Students must provide a copy of the response to the accused student. In Track C cases, subject to the Family Educational Rights and Privacy Act (FERPA) and other applicable law, the Dean of Students shall provide a copy to the Complainant, if applicable, of the written response to the appeal that is submitted to the Appellate Officer.

i. The appeal of the sanction(s) assessed by the Dean of Students will be reviewed solely on the basis of the Administrative Disposition, the written argument of the student, and the response to the appeal submitted by the Dean of Students, if any. Oral argument will not be considered.

j. The decision of the Appellate Officer will be communicated in writing to the accused student and the Dean of Students no more than 10 days after the Dean of Students’ appeal response has been received by the Appellate Officer. If the Appellate Officer is unable to issue the written decision within 10 days, the Appellate Officer should contact both the accused student and the Dean of Students to provide a date for completion of the written decision. The decision of the Appellate Officer will be final. In Track C cases, subject to the Family Educational Rights and Privacy Act (FERPA) and other applicable law, upon receipt of the Appellate Officer’s written decision, the Dean of Students shall promptly provide a copy of the decision, if applicable, to the Complainant.

Sec. 11–803. Appeal of the Decision of the Hearing Officer or the Student Conduct Board

a. Either the accused student or the Dean of Students may appeal the disciplinary decision by submitting a written appeal to the Appellate Officer within five days from the date the appealing party was notified of the disciplinary decision. Appeals submitted after 5:00 pm will be received the next day. The written appeal must cite at least one of the three grounds for appeal, as outlined in subsection 11-801(d), and must include any related argument. If either party appeals the disciplinary decision, the Appellate Officer may request that the hearing recording be transcribed; the transcript will be made available to both parties. If a court reporter was present during the hearing and prepares a written transcript immediately thereafter, the transcript is considered part of the hearing record and is made available to both parties.

b. In Track C cases, the Complainant may also appeal the disciplinary decision by submitting a written appeal to the Appellate Officer within five days from the date the appealing party was notified of the disciplinary decision. Appeals submitted after 5:00 pm will be received the next day. The written appeal must cite at least one of the three grounds for appeal, as outlined in subsection 11-801(d), and must include any related argument. If either party appeals the disciplinary decision, the Appellate Officer may request that the hearing recording be transcribed; the transcript will be made available to both parties. If a court reporter was present during the hearing and prepares a written transcript immediately thereafter, the transcript is considered part of the hearing record and is made available to both parties.

c. If the accused student submits an appeal, the student must provide the Dean of Students with a copy of the appeal submitted to the Appellate Officer on the same date the appeal is submitted to the Appellate Officer. If the Dean of Students submits an appeal, the Dean of Students will provide the accused student with a copy of the appeal submitted to the Appellate Officer on the same day that the Dean of Students submits the appeal to the Appellate Officer. In Track C cases, subject to the Family Educational Rights and Privacy Act (FERPA) and other applicable law, the Dean of Students shall provide a copy of an appeal submitted by either the Respondent, the Complainant, or the Dean of Students, if applicable, to the Respondent and the Complainant.
d. Following submission of the appeal to the Appellate Officer, the non-appealing party may submit a written response to the Appellate Officer. The response, if any, must be submitted no later than five days after the Appellate Officer informs the non-appealing party that the appeal has adequately raised an appellate issue, in accordance with Sec. 801(d). The non-appealing party must provide a copy of the response to the other party.

e. In Track C cases, subject to the Family Educational Rights and Privacy Act (FERPA) and other applicable law, the Dean of Students shall provide a copy of a written response to an appeal submitted by either the Respondent, the Complainant or the Dean of Students, if applicable, to the Respondent and the Complainant.

f. The appeal of the disciplinary decision will be reviewed solely on the basis of the hearing record; the materials presented by the individual appealing that meet the grounds for appeal as outlined in subsection 11-801(d); and any documents submitted by the non-appealing party in response to the appeal. The Dean of Students will submit the record from the hearing to the Appellate Officer as soon as it is available to the Dean of Students.

g. The decision of the Appellate Officer will be communicated in writing to the accused student and the dean of students within 10 days after receipt of any parties' timely appeal response by the appellate officer. If the Appellate Officer is unable to issue the written decision within 10 days, the Appellate Officer should contact both the accused student and the Dean of Students to provide a date for completion of the written decision. The decision of the Appellate Officer will be final. In Track C cases, subject to the Family Educational Rights and Privacy Act (FERPA) and other applicable law, upon receipt of the Appellate Officer’s written decision, the Dean of Students shall provide a copy of the decision, if applicable, to the Complainant.

Sec. 11–804. Authority of the Appellate Officer
The Appellate Officer may approve, reject, or modify the disciplinary decision or sanction(s) in question or may require that the original hearing be reopened for the presentation of additional evidence and reconsideration of the disciplinary decision.

Sec. 11–805. Effect of Appeal Upon Disciplinary Action
A timely appeal suspends the imposition of the sanction(s) until the appeal is final, but any interim action issued in accordance with Sec. 11-502 will remain in effect while the appeal is being considered. Official transcripts, diplomas, grades, or degrees may also be withheld pending conclusion of the appeal as permitted by subsection 11–703(a).

Subchapter 11–900. Disciplinary Records
Sec. 11–901. Details of Disciplinary Records
a. The definition of a Disciplinary Record is listed in Subchapter 9–300 and Sec. 11-300(12). Disciplinary records are confidential and may not be disclosed in whole or part except as provided in subchapter 9–300 of the Institutional Rules.

b. The disciplinary record will be separate from the student’s academic record, will be confidential, and will not be revealed except on request of the student or in accordance with applicable state and federal law, or as otherwise provided in subchapter 9-300.

Sec. 11–902. Notice to Administrative Offices
a. The Dean of Students will notify the Office of the Registrar and other appropriate administrative offices if a disciplinary sanction restricts a student from being enrolled at the University during the period of the sanction. A bar may be imposed by the Dean of Students if one of the following sanctions has been assessed because of violation of a Regents’ Rule or University rule or regulation:

1. bar against readmission or bar against reenrollment;
2. suspension from the University; or
3. expulsion from the University.

b. The Dean of Students will notify the Office of the Registrar and other appropriate administrative offices if any of the following sanctions are imposed: withholding grades, withholding official transcript or degree, denial of degree, or revocation of degree and withdrawal of diploma.

Relates to Handbook of Operating Procedures, 3-3031. Updated August 2022 to reflect policy changes effective August 22, 2022.

Chapter 12. Counseling and Mental Health Center
Subchapter 12 –100. General Provisions
Sec. 12–101. Purpose
The purpose of the Counseling and Mental Health Center (CMHC or center) is to assess the needs of students with mental health concerns and connect them to the most appropriate CMHC or community resource. The CMHC provides crisis intervention, individual counseling, group counseling and psychiatric services and medication, if indicated. Prevention and mental health promotion initiatives help students maintain or improve their mental health, so they can maximize their academic and college experience.

Sec. 12–102. Definitions
In this chapter, unless the context requires a different meaning, the following definitions apply.

a. “Director” means the director of the Counseling and Mental Health Center.

b. “Services” means services provided by the Counseling and Mental Health Center.

c. “University” means The University of Texas at Austin.

d. “Student” means a person enrolled at the University.

Subchapter 12–200. Administration
Sec. 12–201. Duties of the Director
a. The director will:

1. maintain and administer programs and services so they relate meaningfully to the mental health needs of the student body and the consultation or training needs of students, faculty and staff;

2. appoint assistants and coordinators for various phases of program planning, administration and development and

3. designate specific staff members to perform assigned duties in the absence of the director.

b. The director is responsible for the mission and services of the CMHC and is administratively responsible to and reports regularly to the vice president for student affairs.

Sec. 12–202. Duties of the Associate and Assistant Directors
a. The associate and assistant directors are responsible for the duties assigned by the director.

b. During the director’s absence, the associate directors, as designated, will assume the duties of the director.
Subchapter 12–300. Services Provided
Sec. 12–301. Services Provided to Students
The services provide general and specific functions which include:

a. brief assessment and referral to determine which CMHC or community resources are most appropriate for the needs of the student;

b. individual counseling,

c. group counseling, classes, programs and workshops,

d. psychiatric evaluation and medication services,

e. crisis intervention, triage and 24/7 CMHC crisis line,

f. access to 24/7 real-time virtual counseling available via chat and phone,

g. integrated health in collaboration with University Health Services,

h. counselors in academic residence (CARE),

i. counseling and community outreach specialist program,

j. mental health consultation, prevention and outreach services,

k. stress management and biofeedback resources,

l. traumatic events responses and

m. internships, practicum and residency programs for graduate-level, professional and medical students.

Sec. 12–302. Services Provided to the University
CMHC provides mental health consultation services to faculty, staff and administrators regarding student mental health concerns. CMHC also responds to traumatic events impacting the campus and provides consultation to students, faculty, staff and administrators about coping with these events. The center provides prevention, mental health promotion, outreach and education to students, faculty and staff regarding suicide prevention, interpersonal violence, resilience, well-being in the classroom and other mental health and wellness topics. CMHC is also a training facility for university professional and graduate students in counseling psychology, clinical psychology, social work, pharmacy, medical school and nursing.

Subchapter 12–400. Counseling and Mental Health Center Records
Sec. 12–401. Confidentiality of Records

a. All original medical records (whether electronic or paper) and other records of treatment, whether originating within CMHC or another facility or provider, are the property of CMHC.

b. Confidentiality of CMHC records is governed by the laws of the State of Texas and applicable federal law. A notice of CMHC privacy practices is available at http://cmhc.utexas.edu/privacy.html.

c. With certain exceptions, a student has the right to review, inspect or request copies of their medical record.

d. Many items summarizing patient care are available on the patient portal. Additional information from patient records will be released only with informed written consent.

Sec. 12–502. Payment for Services
Any student who incurs charges for CMHC services must pay the charges owed. If payment is not received or arrangements for payment are not made within 10 days of the date charges are posted to "What I Owe," a financial hold will be placed on the student's record. Students with a hold can contact the UHS/CMHC Billing and Insurance Office to discuss options that will allow them to register. Transcripts, diplomas and/or continued registration will be withheld until outstanding charges have been paid. When necessary, CMHC will assist students in making arrangements for payment.

Sec. 12–503. Eligibility for Counseling and Mental Health Center Services
An individual may use CMHC if:

a. the person is a currently registered student at the University,

b. the person is a student covered by the Vice President for Student Affairs Inter-agency Agreements such as the University of Texas Medical Branch-Galveston and the University of Texas Health Science Center,

c. the person was registered during the semester immediately preceding the semester when services are requested (excluding University students who have graduated or withdrawn from the University before the twelfth class day of the current semester) and will enroll the semester immediately following the time services are requested,

d. the person has paid the access fee and is a visiting scholar/researcher who is not officially registered for classes at the University, a post-doctoral fellow or a person enrolled in the English as a Second Language Program,

e. the person has withdrawn from the University but was enrolled after the twelfth class day of the current semester,

f. the person is attending a New Student Orientation session, but is not registered for the current semester, and requires CMHC crisis services,

g. the person is admitted to the University but is not registered for the current semester and requires CMHC Brief Assessment and Referral (BART) services or

h. the person meets one of the criteria above (a-h), is age 12 to 17 and is able either to consent to their own treatment according to the State of Texas statute or has appropriate written consent from a parent or guardian.

Sec. 12–504. Medical Withdrawal
Requests for withdrawal from the university due to mental health reasons may be initiated at the request of the student. Applications to request consideration of a medical withdrawal should be submitted to Disability and Access. Disability and Access will involve CMHC or the appropriate dean's office, as indicated by the student's individual circumstances.

Chapter 13. Speech, Expression, and Assembly

Subchapter 13–100. Governing Principles

Sec. 13–101. Freedom of Speech, Expression, and Assembly
a. The freedoms of speech, expression, and assembly are fundamental rights of all persons and are central to the mission of the University. In accordance with this Chapter, students, faculty members, staff members, and Members of the Public have the right to assemble, to speak, and to attempt to attract the attention of others, and
corresponding rights to hear the speech of others when they choose to listen, and to ignore the speech of others when they choose not to listen.

b. In furtherance of the University’s educational mission, the University buildings including their outside surfaces, surfaces associated with or connected to a University building, and University structures are limited public forums open only to the expressive activities of faculty, staff, and students as set forth in this Chapter. Members of the Public may engage in expressive activities at the University in accordance with the rules contained in this Chapter, including generally applicable or localized “time, place, and manner” rules as described in Subsection 13-304. Student, faculty, and staff organizations may not invite the public at large to events in University buildings or facilities, or locations that are not in a common outdoor area.

c. Students, faculty, and staff members are free to express their views, individually or in organized groups, orally or in writing or by other symbols, on any topic, in all parts of the campus, subject only to rules necessary to preserve the equal rights of others and the other functions of the University. Teaching, research, and other official functions of the University will have priority in allocating the use of space on campus. Members of the Public may engage in expressive activities only in common outdoor areas of the campus, and subject to the time, place, and manner rules necessary to preserve the functions of the University, as set forth in subsection 13-304.

d. The University will not discriminate on the basis of the political, religious, philosophical, ideological, or academic viewpoint expressed by any person, either in the enforcement and administration of these rules or otherwise. This subsection does not limit the University’s ability to enforce provisions involving prohibited categories of expression described in Subchapter 13-200.

e. The University of Texas at Austin Police Department (UTPD) may immediately enforce these rules if a violation of these rules constitutes a breach of the peace or compromises public safety.

Sec. 13–102. Scope of This Chapter and Related Provisions

a. This Chapter protects and regulates on-campus speech, expression, and assembly of students, faculty members, staff members, and members of the public, regardless of whether those activities are part of the teaching, research, or other official functions of the University or whether they are sponsored by the University or any academic or administrative unit.

1. This Chapter also regulates certain speech that is part of the teaching, research, or other official functions of the University.

2. Section 13–204 on harassment applies to all speech on campus, to speech made using University resources, and to off-campus speech that materially interferes with a person’s education or employment.

b. This Chapter applies to speech by University persons and University organizations in the common outdoor areas and the limited public forums, and to speech by members of the public in the common outdoor areas. It also applies to speech made using the University’s information resources as defined in the Acceptable Use Policy for University Students, regardless of whether the speech was submitted for academic credit. The Dean of Students administers and schedules reservations for the use of the temporary exhibit and banner spaces and the use of University tables and amplified sound because scheduling through a single office is necessary to avoid conflicts.

c. Any program or event sponsored by an academic or administrative unit of the University will have priority in the use of space and facilities over any speech, expression, or assembly that is not sponsored by an academic or administrative unit, except that programs or events sponsored by an academic or administrative unit will not have priority in the use of weekday amplified sound areas defined in Section 13–802. This Chapter does not limit other existing authority of University officials to authorize programs and events sponsored by an academic or administrative unit and not provided for in this Chapter.

d. Additional rules concerning free speech and academic freedom of faculty members are found in the Regents’ Rules and Regulations, Rule 31004, Paragraph 2, Sections 1 and 2.

e. Additional rules concerning free speech at the University are found in the Regents’ Rules and Regulations, Rule 40501, Rule 80101, Rule 80103, and Rule 80104. Chapter 13 of the Institutional Rules implements those provisions and applies them to UT Austin.

f. Rules requiring University employees to make clear that controversial statements are made in their personal capacity are found in the Regents’ Rules and Regulations, Rule 10101, Section 6.2. Rules restricting use of University equipment, supplies, services, and working hours for political activities are found in the Regents’ Rules and Regulations, Rule 30103.

Sec 13–103. General Definitions—Categories of Speakers and Users

In this Chapter, unless the context requires a different meaning, the following definitions apply.

1. “Academic or administrative unit” means any office or department of the University.

2. “Event” means something that occurs in a certain place during a particular interval of time. Events include but are not limited to presentations by guest speakers, public assemblies, and other speech activities, which may include the distribution of literature or the use of exhibits, tables, or signs.

3. “Faculty member and staff member” includes any person who is employed by the University.

4. “Off-campus person or organization” and “member of the public” mean any person, organization, or business that is not an academic or administrative unit, a registered student, faculty, or staff organization, or a student, faculty member, or staff member.

5. “Registered faculty or staff organization” means a faculty organization or staff organization under the Regents’ Rules and Regulations, Rule 40201 and Handbook of Operating Procedures 4-1110.

6. “Registered or sponsored student organization” means a registered student organization or a sponsored student organization under Subchapter 6–200 of the Institutional Rules.

7. “Student” means a person who is currently enrolled at the University, or has been enrolled at the University in a prior semester (including summer) and is eligible to continue enrollment in the semester that immediately follows.

8. “University person or organization” includes academic or administrative units, registered or sponsored students organizations, registered faculty or staff organizations, and individual students, faculty members, and staff members.

Sec. 13–104. Other General Definitions

In this Chapter, unless the context requires a different meaning, the following definitions apply.

1. “Amplified sound” means sound whose volume is increased by any electric, electronic, mechanical, or motor-powered means. Shouting, group chanting, and acoustic musical instruments are exempt from
10. and out of University buildings, and to protect the educational mission of all persons on campus, to maintain the free flow of pedestrian traffic in The following restrictions are intended to protect the health and safety of all persons.

Sec. 13-105. Prohibited Items or Actions

The following restrictions are intended to protect the health and safety of all persons on campus, to maintain the free flow of pedestrian traffic in and out of University buildings, and to protect the educational mission of the University.

a. The following items are prohibited on campus:
   i. A mask, facial covering, or disguise that conceals the identity of the wearer that is calculated to obstruct the enforcement of these rules or the law, or to intimidate, hinder or interrupt a University official, UTPD officer, or other person in the lawful performance of their duty;
   ii. The possession, use, or display of firearms, facsimile firearms, ammunition, explosives, or other items that could be used as weapons, including but not limited to sticks, poles, clubs, swords, shields, or rigid signs that can be used as a shield, without written permission from the Dean of Students, unless authorized by federal, State or local laws;
   iii. Body-armor or make shift body-armor, helmets and other garments, such as sporting protective gear, that alone or in combination could be reasonably construed as weapons or body-armor, without written permission from the Dean of Students; and
   iv. Open flame, unless approved in advance by The University of Texas at Austin Fire Marshal.

b. No person or organization may engage in expressive activity within a ten-foot clearance around points of entry and the perimeter of all University buildings.

Subchapter 13–200. Prohibited Expression

Sec. 13–201. Obscenity

No person or organization will distribute or display on the campus any writing or visual image, or engage in any public performance, that is obscene. A writing, image, or performance is “obscene” if it is obscene as defined in Texas Penal Code, Section 43.21 or successor provisions, and is within the constitutional definition of obscenity as set forth in decisions of the United States Supreme Court.

Sec. 13–202. Defamation

a. No person shall publish to a third party any statement that defames any other person.

b. A statement defames another person if it is: (i) published to a third party other than the subject of the statement or their legal representative; (ii) of and concerning that person; (iii) is a false statement of fact; (iv) that holds the person up to hatred ridicule or contempt; (v) is made negligently, if the person is a private figure or, if the person is a public official or public figure, with knowledge of falsity or reckless disregard of the truth; (vi) which proximately causes damages; and (vii) is not privileged.

Sec. 13–203. Incitement to Imminent Violations of Law

No person will make, distribute, or display on the campus any statements directed to inciting or producing imminent violations of law under circumstances such that the statements are likely to actually and imminently incite or produce violations of law.

Sec. 13–204. Harassment

a. No person will engage in conduct that constitutes harassment of another person or make, distribute, or display on the campus or through University information resources any statement that constitutes harassment of any other person. This Section applies to all speech at UT Austin, all speech made using University resources, including speech that is part of teaching, research, or other official functions of the University whether in person or not, and whether oral, written, or symbolic, and off-campus speech that materially interferes with a person's education or employment.

1. “Harassment” means hostile or threatening conduct or speech, whether oral, written, or symbolic, that:
   A. is sufficiently severe, pervasive, and objectively offensive to create an objectively hostile or threatening environment that interferes with or diminishes the victim's ability to participate in or benefit from the services, activities, or privileges provided by the University; and
   B. personally describes or is personally directed to one or more specific individuals.
   C. When harassment is sex or gender based, the definitions for quid pro quo and hostile environment harassment, set out in Handbook of Operating Procedure 3-3031(V)(E), apply over this policy’s harassment provision.
b. To make an argument for or against the substance of any political, religious, philosophical, ideological, or academic idea is not harassment, even if some listeners are offended by the argument or idea.

c. Verbal harassment may consist of threats, insults, epithets, ridicule, personal attacks, or the categories of harassing sexual speech set forth in Policy 3-3031 of the Handbook of Operating Procedures.

d. Harassment can also consist of nonverbal conduct, such as hazing, practical jokes, damage to property, and physical assault. In the case of sexual harassment and other sex-based misconduct, sexual conduct is often central to the offense. These forms of harassment are prohibited by Policy 3-3031 of the Handbook of Operating Procedures, and by the Regents’ Rules and Regulations, Rule 3010S. Some forms of harassment violate the Prohibition of Campus Violence, Policy 8-1010, in the Handbook of Operating Procedures. Harassment directed at an individual or group of individuals because of race, sex, or certain other characteristics is prohibited by Handbook of Operating Procedures 3-3020. For enhanced sanctions for disciplinary offenses motivated by the race, color, or national origin of a student harmed by the offense, see Subsection 11–701(b) of the Institutional Rules. To the extent of any conflict in the definition of verbal harassment, the more detailed definition in this Section controls.

e. An essential part of higher education is to learn to separate substantive argument from personal offense. Inherent in freely exploring ideas and engaging in educational inquiry is discussion where controversial and offensive ideas may be expressed and even welcomed in furtherance of free inquiry and pursuit of knowledge. We strive as a university community to express even the deepest disagreements in a manner that reflects mutual respect, understanding, and sensitivity within the University and in the larger society. These are community norms, even though they cannot be enforced by disciplinary rules. Sometimes community members may engage in a manner that falls short of the desired norms, but this failure does not convert the communication at issue to harassment or a conduct violation.

f. Verbal harassment has been interpreted very narrowly by the federal courts. Policies on verbal harassment or hate speech at many universities have been held unconstitutional, either because they prohibited harassment only when it was based on race, sex, and similar categories, or because they failed to protect the expression of potentially offensive ideas. This policy should be interpreted as narrowly as need be to preserve its constitutionality.

g. Members of the University community are strongly encouraged to report harassment and in some cases are required to do so by law. See HOP 3-3031 and HOP 3-3020 for more information. Investigation of the information provided, and any remedial or disciplinary proceedings, will proceed under the procedures set out in the harassment policies cross-referenced in Subsection 13-204 (d).

Sec. 13–205. Solicitation and Commercial Speech

a. General Rules.

1. No University person, University organization, or member of the public will make, distribute, or display on the campus any statement that promotes, offers, or advertises any product or service for sale or lease that includes commercial identifiers, such as for-profit logos, trademarks, and service marks, or that requests any gift or contribution, except as authorized by Subsection 13–205(b), by section 13–403, or by the Regents’ Rules and Regulations.

2. Words or symbols on personal apparel, or on decals or bumper stickers affixed to a vehicle by an owner of that vehicle, are not solicitation within this definition.

3. Unadorned acknowledgments or thanks to donors are not solicitation within this definition.

b. Rules specific to campus community members.

1. A registered or sponsored student or a registered faculty or staff organization may advertise or sell merchandise, publications, food, or nonalcoholic beverages, or request contributions: for the benefit of the registered or sponsored student organization or registered faculty or staff organization; for the benefit of another registered or sponsored student organization or registered faculty or staff organization; or for the benefit of an organization that is tax-exempt under Section 501(c)(3) of the Internal Revenue Code. No organization may sell items obtained on consignment. No organization may request contributions for an off-campus tax-exempt organization for more than fourteen days in any fiscal year.

2. Registered or sponsored student organizations, registered faculty or staff organizations, and academic or administrative units, may sell, distribute, or display literature that contains advertising, subject to the limits in Section 13–403. Individual students, faculty members, and staff members may distribute or display such literature, but may not sell it.

3. Individual students, faculty members, and staff members may post advertisements for roommates, subleases, and sales of used goods that the seller has personally owned and used, but only on a bulletin board or website designated for that purpose by an academic or administrative unit in space that the unit occupies or controls. Any unit that designates a bulletin board or website for this purpose may regulate that bulletin board or website under the procedures set forth in Section 13–504.

4. A resident of a University residence hall or apartment building may occasionally invite one or more salespersons to come to the resident's room or apartment, and in that room or apartment, the salesperson may offer products or services for sale to other residents of that residence hall or apartment building.

5. A registered or sponsored student organization or a registered faculty or staff organization may collect admission fees for programs scheduled in advance in accordance with Subchapter 10–200 of the Institutional Rules.

6. A registered or sponsored student organization or a registered faculty or staff organization may collect membership fees or dues at meetings of the organization scheduled in advance under Subchapter 10–200 of the Institutional Rules.

7. A registered student organization that is a qualified organization as that term is defined in the Texas Charitable Raffle Enabling Act, Texas Occupations Code, Chapter 2002, or successor provisions, may sell charitable raffle tickets pursuant to that act.

8. A registered or sponsored student organization or a registered faculty or staff organization may host a public performance of a film scheduled in advance in accordance with Subchapter 10–200 of the Institutional Rules. In accordance with the Regents’ Rules and Regulations, Rule 80103, admission fees may be collected. All registered or sponsored student organizations or registered faculty or staff organizations that exhibit films on campus must obtain a Public Performance License for the individual film(s) from a licensing agent. This license is required even if the exhibition of the film is offered to the public for free and is educational in nature. Registered or sponsored student organizations and registered faculty or staff organizations will be required to follow the process prescribed by the film distributor to obtain approval to exhibit the film. Federal copyright laws generally protect all films viewed in public areas, regardless of format. However, registered or sponsored student organization and a registered faculty or staff organization may exhibit a film publicly if:
Subchapter 13–300. General Rules on Means of Expression

Sec. 13–301. Disruption

a. Except as expressly authorized in Section 13–802, or by an authorized University official responsible for a program or event sponsored by an academic or administrative unit, no speech, expression, or assembly may be conducted in a way that disrupts or interferes with:
   1. Any teaching, research, administration, function of the University, or other authorized activities on the campus;
   2. The free and unimpeded flow of pedestrian and vehicular traffic on the campus; or
   3. Any public assemblies, distribution of literature, guest speakers, or use of signs, tables, exhibits, or amplified sound by the University of another person or organization acting under the rules in this Chapter.

b. Scope
   1. The term "disruption" and its variants, as used in this Rule, are distinct from and broader than the phrase “disruption of activities,” as used in the Regents’ Rules and Regulations, Rule 30103, Number 2, Section 2, and the phrase “disruptive activities,” as used in the Regents’ Rules and Regulations, Rule 40502. This Rule is concerned not only with deliberate disruption, but also with scheduling and coordination of events to manage or minimize the inevitable conflicts between legitimate events conducted in close proximity, and to preserve the University’s ability to execute its functions.
   2. Except in the most extreme cases, interference and disruption are unavoidably contextual. Intentional physical interference with other persons is nearly always disruptive in any context. Interfering with traffic depends on the relation between the volume of traffic and the size of the passageway left open. Disruptive noise is the most contextual of all, because it depends on the activity disrupted. Any distracting sound may disrupt a memorial service. Any sound sufficiently loud or persistent to make concentration difficult may disrupt a class or library. Occasional heckling in the speaker’s pauses may not disrupt a political speech, but persistent heckling that prevents listeners from hearing the speaker does disrupt a political speech. These illustrations may be helpful, but none of them includes enough context to be taken as a rule. We cannot escape relying on the judgment and fairness of University authorities in particular cases. In this context where difficult enforcement judgments are unavoidable, administrators and law enforcement officials’ judgments should not be influenced by the viewpoint of those claiming disruption or of those allegedly disrupting.

Subchapter 13–400. Distribution of Literature

Sec. 13–401. General Rule on Distribution of Literature

a. “Literature” means any printed material, including any newspaper, magazine, or other publication, and any leaflet, flyer, or other informal matter, that is produced in multiple copies for distribution to potential readers.

b. Registered or sponsored students organizations, registered faculty or staff organizations, and academic or administrative units may sell, distribute, or display literature on campus, subject to the rules in this Subchapter and to the general rules in Subchapter 13–200 and Subchapter 13–300. Individual students, faculty members, and staff members may distribute or display literature, subject to the rules in this Subchapter and to the general rules in Subchapter 13–200 and Subchapter 13–300, but may not sell it. In either case, no advance permission is required. Members of the public may distribute literature in the common outdoor areas, subject to the
Sec. 13–501. General Rule on Signs

Subchapter 13–500. Signs and Banners
distributed.

Any person or organization distributing literature on campus will pick
up all copies dropped on the ground in the area where the literature was
distributed.

Subchapter 13–500. Signs and Banners

Sec. 13–501. General Rule on Signs

a. “Sign” means any method of displaying a visual message to others,
   except that transferring possession of a copy of the message is
distribution of literature and not a sign.

b. Subject to the rules in this Subchapter and to the general rules in
   Subchapter 13–200 and Subchapter 13–300, a University person
   or organization may display a sign by holding or carrying it, by
   displaying it at a table (see Subchapter 13–600), or by posting it
   on a bulletin board or other designated location. Signs may not
   be staked in the ground or posted in any other location except
   for those areas allowed by long standing tradition or otherwise
   allowed by Subsections 13–304(a), (b), and 13–504(a). Subject to
   viewpoint-neutral size requirements, University Housing and Dining
   has designated the windows and doors of a residence hall room as
   locations where the resident(s) of that room may post signs. Section
   13–504 lists other designated locations.

Sec. 13–502. Hand-Held Signs

a. A University person or University organization may display a sign
   on campus by holding or carrying it by hand or attaching it to their
   person. Members of the public may display a sign in the common
   outdoor areas by holding or carrying it by hand or attaching it to their
   person. No advance permission is required. Signs on sticks or poles
   or otherwise attached to any device are prohibited.

b. Hand-held signs constructed of materials that create a hazard to
   other people are not permitted. Signs constructed of rigid materials,
   including sticks, poles, wood, metal, hard plastic, or other materials
   that could be construed as a hazard are not permitted.

c. Any person holding or carrying a sign will exercise due care to avoid
   bumping, hitting, or injuring any other person.

d. Any person holding or carrying a sign at a speech, performance,
   or other event will exercise due care to avoid blocking the view of
   any other person observing the speech, performance, or event.
   Depending on the venue, this may mean that signs may be displayed
   only around the perimeter of a room or an audience.

e. A law enforcement officer, the dean of students, or an usher or
   Other Unit employee (if authorized by officials responsible for
   managing the venue), may warn any person that his or her sign is
   being handled in violation of Subsections 13–502(a), (b), (c) or (d).
   If the violation persists after a clear warning, the law enforcement
   officer, dean of students, authorized usher, or other authorized
   employee may confiscate the sign. A law enforcement officer may
   take any action necessary to keep the peace including but not limited
   to issuing a criminal trespass warning to or arresting the violator.

Sec. 13–503. Banners

“Banner” means an affixed, stationary sign hung from a structure or
building or between two buildings, structures, or poles. Banners on poles
may not be carried by individuals.

a. Hand-held banners. University persons, University organizations, and
   members of the public are permitted to display a hand-held banner
   carried by two or more individuals without poles, in accordance with
   Rule 13–502(a) above, in the common outdoor areas.

b. Temporary banner space designations.

   1. The dean of students will designate temporary banner spaces
      where banners may be hung in outdoor locations not occupied
      or controlled by any other academic or administrative unit.
      Temporary banner spaces are not open to members of the public.

   2. Other academic or administrative units may designate one or
      more temporary banner spaces where banners may be hung in
      indoor or outdoor locations that the unit occupies or controls.
      These temporary banner spaces are not open to members of the
      public.

c. Space priority.

   1. Academic or administrative units, registered or sponsored
      student organizations, and registered faculty and staff
      organizations may hang banners in locations designated
      under Subsection 13–503 (b). The Dean of Students may set
      reasonable limits on the number of banners that any unit or
      organization may hang at one time. Individuals and members of
      the public may not hang banners.

   2. Advance permission is required from the unit administering the
      location; usually, advance reservations are required. Academic
      and administrative units advertising official University events
      or programs may be given priority. In locations administered by
      academic or administrative units other than the dean of students,
      organizations affiliated with the unit administering the location
      may be given priority.

d. Time limits.

   1. In locations administered by the dean of students, each banner
      may be hung for two weeks. The banner may be renewed from
      week to week, for up to four weeks, if space is available.

   2. Other units administering a location for banners may limit the
      time each banner may hang. Any such time limit will be applied
      without discrimination to all organizations, except that academic
      or administrative units may be given preference.

e. The dean of students will maintain, on a website or on a flyer or
   pamphlet available at the dean of students’ office:
1. a list of outdoor temporary banner spaces where banners may be hung;
2. the academic or administrative unit that administers this banner policy at each outdoor location; and
3. a current description of the rules and procedures for reserving a temporary banner space in order to hang a banner in locations administered by the dean of students.

f. The unit administering a banner location may require that the physical work of hanging the banners be performed only by Department of Facilities Services employees or other appropriate University personnel.

Sec. 13–504. Signs in Other Designated Locations (Including Departmental Bulletin Boards)

a. Each academic or administrative unit may authorize the posting of signs in spaces that unit occupies and controls. Such authorization may be granted by general rule, by stamping or initialing individual signs, or by long standing tradition.

b. Signs in spaces occupied by academic or administrative units may be:
   1. confined to bulletin boards or other designated locations;
   2. subjected to viewpoint-neutral rules limiting the size of signs, limiting how long they may be posted, requiring each sign to show the date it was posted and the name of the person or organization who posted it, and similar rules designed to facilitate fair and equal opportunities to post signs; and
   3. confined to official statements or business of the unit, or to certain subject matters of interest within the unit, or to signs posted by persons or organizations affiliated with the unit.

c. Each academic or administrative unit will post on or near each bulletin board or other designated location that it administers:
   1. either the rules applicable to that bulletin board or location, or a particular office or website where the rules applicable to that bulletin board or location may be found; and
   2. if a stamp or initials are required on signs before they are posted on that bulletin board or location, the name and office location of the person whose stamp or initials are required.

3. This notice will be posted in the upper left corner of each bulletin board or other designated location for posting signs, or conspicuously in another nearby location. If no such notice is posted, then the only applicable rules are those contained in Subchapter 13–200 and Sections 13–301 to 13–304.

d. Within the scope of the subject matters permitted on a particular bulletin board or other designated location, no academic or administrative unit will discriminate on the basis of the political, religious, philosophical, ideological, or academic viewpoint expressed on a sign.

e. This Section does not apply to any enclosed bulletin board or display case that is accessible only to authorized personnel for official University business.

Subchapter 13–600. Tables

Sec. 13–601. General Rule on Tables

University persons and University organizations may set up tables to display literature, disseminate information and opinions, and raise funds, subject to the location restrictions and other rules in this Subchapter and to the general rules in Subchapter 13–200, Subchapter 13–300, and Subchapter 13–1000. University persons and University organizations do not need advance permission to set up tables but are encouraged to reserve tabling space on the West Mall and in other high-demand areas where tabling spaces are designated and limited. Subject to the above rules, members of the public may set up tables in the common outdoor areas and do not need advance permission except on the West Mall and on the east side of Speedway between 21st Street and the south edge of Gregory Plaza; in those locations, members of the public may not set up tables without obtaining a reservation as described below. Members of the public may not set up tables in the University’s limited public forum areas.

Sec. 13–602. Locations

a. Subject to the restrictions elsewhere in these rules, including in Subsection 13–602(b) and the rules on disruption of other functions and interference with vehicular and pedestrian traffic (see Section 13–301), University persons, University organizations, and members of the public may set up tables on impervious surfaces in the common outdoor areas on the campus. Tables may not be set up in areas covered by grass, landscaping, or other pervious substances. University persons and University organizations may set up tables in University buildings in any large, open, indoor location as permitted by the specific building protocols and with permission of the academic or administrative unit controlling the space. In some buildings, tabling may be prohibited completely. The Main building is not available for tabling at any time.

b. Additional restrictions.

1. Tables may not be set up on the Main Mall between 8:00 am and 5:00 pm on weekdays, or on the west side of any portion of Speedway at any time.

2. Tables may not be set up inside any library, classroom, laboratory, performance hall, stadium, or office, or in any hallway less than ten feet wide, without permission from the academic or administrative unit that controls the space, or from the faculty member or staff member who controls the space at a particular time.

3. An academic or administrative unit may further specify these rules by restricting tables to reasonable locations in spaces occupied by that unit. Academic and administrative units are encouraged to state any such rules clearly in writing and to publish those rules on a website or on a flyer or pamphlet available at the chief administrative office of the unit.

4. Tabling space on the West Mall or on the east side of Speedway between 21st Street and the south edge of Gregory Plaza may be reserved by University persons, University organizations, and members of the public by submitting a request using the Hornslink.org Public Reservation Form. Members of the general public who wish to table on the West Mall or on the east side of Speedway between 21st Street and the south edge of Gregory Plaza must have a reservation. University persons and University organizations are not required to have a reservation to table on the West Mall or on the east side of Speedway between 21st Street and the south edge of Gregory Plaza may be reserved up to four weeks in advance by University persons or organizations and up to three weeks in advance by members of the general public.

5. Tables must be attended at all times. Unattended tables and their contents may be confiscated by University personnel.

c. If any table is set up in a prohibited or disruptive location, any University employee pointing out the violation is encouraged to also point out other locations, as nearby as is reasonably possible, where the table is permitted.

Sec. 13–603. Tabling Cleanup

Every person or organization sponsoring a table will remove their table, items used during tabling, and any litter from the area around the table before vacating the space.
Sec. 13–604. Sources of Tables
University persons and organizations may supply their own tables. In addition, the dean of students maintains a supply of tables for registered or sponsored student organizations that may be checked out for use on campus in designated areas. The Dean of Students will maintain, on a website or on a flyer or pamphlet available at the office of the dean of students, a current description of the rules and procedures for checking out tables. Members of the general public, and University persons and organizations other than registered or sponsored student organizations, must supply their own tables.

Subchapter 13–700. Exhibits
Sec. 13–701. General Rule on Exhibits
a. “General exhibit” means an object or collection of related objects, designed to stand on the ground or on a raised surface, which is not a table, is designed for temporary display, and is not permanently attached to the ground.
b. “A-frame exhibit” means a movable and self-supported sign board designed to stand on the ground and remain overnight in a temporary outdoor exhibit space. A-frame exhibits may not exceed five feet in height or width. Structures that do not meet these criteria will be considered general exhibits and will be subject to the rules governing general exhibits.
c. Academic or administrative units, registered or sponsored student organizations, and registered faculty or staff organizations may erect general exhibits and A-frame exhibits, subject to the rules in this Subchapter and to the general rules in Subchapter 13–200, Subchapter 13–300, and Subchapter 13–1000. Advance permission is required from the dean of students, except that an academic unit may authorize indoor exhibits in a space that it occupies and controls. A-frame exhibits may not be erected on the Main Mall at any time. Members of the public and individual students, faculty, or staff may not erect general exhibits, but may with permission from the Dean of Students erect A-frame exhibits in approved locations, subject to the rules in this Subchapter and the general rules in Subchapter 13–200, Subchapter 13–300, and Subchapter 13–1000.

Sec. 13–702. Application Process
Requests for approval of, or reservation of space for, outdoor general exhibits and A-frame exhibit may be submitted via the Hornslink.org Public Reservation Form.

Sec. 13–703. Approval Process
a. General exhibits.
1. The dean of students will designate temporary outdoor exhibit spaces where academic or administrative units, registered or sponsored student organizations, and registered faculty or staff organizations may place general exhibits upon approval by the Dean of Students. Applications must, where feasible, be submitted at least 14 days in advance of the beginning of the requested display period. The Dean of Students will approve a general exhibit described in a completed and timely application under Section 13–702 unless the Dean of Students disapproves the application under the criteria in Section 10–203 of the Institutional Rules, or for other good cause. The Dean of Students will, if possible, advise the applicant how to correct any conditions that preclude approval of the application.
2. The Dean of Students will consider the totality of the circumstances, including safety concerns, as part of the approval process.
b. A-frame exhibits.
1. The dean of students will designate locations where A-frame exhibits may be placed. If an academic or administrative unit, a registered or sponsored student organization, or a registered faculty or staff organization wishes to place an A-frame exhibit in a location that is not one of the designated A-frame exhibit locations, then the structure will be considered a general exhibit under this Subchapter and may be placed, if approved, only in a designated temporary outdoor exhibit space. Members of the public and individual students, faculty, or staff may not erect A-frame exhibits outside of the designated A-frame exhibit locations.
2. The Dean of Students will maintain, on a website, a current description of the rules and procedures for reserving a space for A-frame exhibits on campus. Space for A-frame exhibits may be reserved up to four weeks in advance by members of the general public. The Dean of Students may establish reasonable limits on the number of times per semester or per academic year an individual or organization may reserve space for an A-frame exhibit.
3. The Dean of Students may establish reasonable limits on the number of A-frame exhibits that an individual or organization may display in a designated area, or on campus, at any time.

Sec. 13–704. Time Limits
a. General exhibits.
1. In locations administered by the dean of students, each exhibit may be displayed for up to fourteen consecutive days. The exhibit may be renewed for an additional fourteen days if space is available.
2. The exhibit may be displayed no earlier than 8:00 am and must be removed by 10:00 pm each day and may be re-erected each morning during the permit period. Requests to display exhibits overnight will be considered on a case-by-case basis and subject to Subsection 13–703.
3. If an exhibit displayed without permissions, including outside the permit period, the exhibit may be removed by the Department of Facilities Services at the expense of the person or organization sponsoring the exhibit.
b. A-frame exhibits.
1. Each A-frame exhibit may be placed for up to fourteen consecutive days and remain overnight. The A-frame exhibit may be renewed for an additional fourteen consecutive days if space is available.
2. If an A-frame exhibit is left on campus without permission, including outside the permit period, the exhibit may be removed by the Department of Facilities Services, at the expense of the person or organization sponsoring the exhibit.

Sec. 13–705. Exhibit Cleanup
The person or organization sponsoring an exhibit will remove the exhibit and any litter from the area around the exhibit before vacating the space.

Sec. 13–706. Liability
The person or organization sponsoring an exhibit assumes full responsibility for the exhibit, including all injuries or hazards that may arise from the exhibit. The University will not be liable for any damage that may occur to the exhibit, and the person or organization sponsoring the exhibit will indemnify the University for any claims arising from the exhibit’s presence on campus.

Subchapter 13–800. Amplified Sound
Sec. 13–801. General Rule on Amplified Sound
Registered or sponsored student organizations, registered faculty or staff organizations, and members of the public may use amplified sound on campus at designated times and locations, subject to the rules in this Subchapter and to the general rules in Subchapter 13–200.
and Subchapter 13–300. Advance permission is required. Academic and administrative units need not obtain permission from the Dean of Students to use amplified sound in areas under their control, but should provide advance notice to the Dean of Students when feasible so that the Dean of Students can coordinate timing and help units avoid conflicts. The following unit-controlled areas are sufficiently isolated that coordination by the Dean of Students is unnecessary: the Blanton Museum of Art Courtyard; the McCombs School of Business South Plaza; the Walter Cronkite Plaza at the Jesse H. Jones Communication Center; and the Whitus Court Courtyard.

This Subchapter creates limited exceptions to the general rule on disruption in Section 13–301. An Amplified Sound Areas Map may be found here.

Sec. 13–802. Location and Times of Weekday Amplified Sound Areas

a. West Mall Amplified Sound Area.
   1. The West Mall Amplified Sound Area is the extreme east end of the West Mall, adjacent to the west steps of the Main Building.
   2. University persons, University organizations, and members of the public may use amplified sound in this area from 11:30 am to 1:30 pm on weekdays.
   3. All academic and administrative units, as well as, registered and sponsored student organizations, and faculty and staff organizations may use sound equipment owned or controlled by the dean of students' office for this sound area.
   4. Members of the public must use their own sound equipment. This sound area requires a reduced decibel level as compared to other sound areas to ensure educational activity in close proximity is not disturbed.
   5. Per Section 61.004 of the Texas Elections Code, groups making a political speech, or electioneering for or against any candidate, measure, or political party may not use amplified sound on the West Mall or anywhere within 1000 feet of a polling place when the polling place is open.

b. Winship Circle Amplified Sound Area.
   1. The Winship Circle Amplified Sound Area is the grassy area east of the East Mall Fountain, west of Waller Creek, and south of Winship Hall.
   2. University persons, University organizations, and members of the public may use amplified sound in this area from 8:00 am to 5:00 pm on weekdays.

c. Battle Oaks Amplified Sound Area.
   1. The Battle Oaks Amplified Sound Area is the area bounded by the north wall of Hogg Auditorium, by an extension drawn northward from the east wall of the Texas Union, by the south edge of the sidewalk on the south side of 24th Street, and by the west edge of the sidewalk on the west side of Inner Campus Drive.
   2. University persons, University organizations, and members of the public may use amplified sound in this area from 8:00 am to 5:00 pm on weekdays.

d. Mustangs Amplified Sound Area.
   1. The Mustangs Amplified Sound Area is the area bounded by the sidewalk on the east side of San Jacinto Boulevard, by the west wall of the Texas Memorial Museum, and by the outer edge of the two stairways on either side of the lawn.
   2. University persons, University organizations, and members of the public may use amplified sound in this area from 8:00 am to 5:00 pm on weekdays.

e. San Jacinto Street Amplified Sound Area.
   1. The San Jacinto Street Amplified Sound Area is the area bounded by the south wall of the Art Building, by the east edge of the sidewalk on the east side of San Jacinto Boulevard, by the north edge of the sidewalk on the north side of 23rd Street, and by the west edge of the sidewalk on the west side of Trinity Avenue.
   2. University persons, University organizations, and members of the public may use amplified sound in this area from 8:00 am to 5:00 pm on weekdays.

f. LBJ Fountain Amplified Sound Area.
   1. The LBJ Fountain Amplified Sound Area is the area bounded by the east edge of Robert Dedman Drive, by the first sidewalk north of the LBJ Fountain, by a line drawn tangent to the west side of the LBJ Fountain and parallel to Robert Dedman Drive, and by the base of the hill on the south side of the LBJ Fountain.
   2. University persons, University organizations, and members of the public may use amplified sound in this area from 8:00 am to 5:00 pm on weekdays.

g. 2609 University Avenue Courtyard Amplified Sound Area.
   1. The 2609 University Avenue Courtyard Amplified Sound Area is the area bounded by 2609 University Avenue Building on the north, south and east sides, and by the east edge of the sidewalk on the east side of University Avenue.
   2. University persons, University organizations, and members of the public may use amplified sound in this area from 8:00 am to 5:00 pm on weekdays.

h. Creekside Residence Hall Lawn Amplified Sound Area.
   1. The Creekside Residence Hall Lawn Amplified Sound Area is the area bounded by Dean Keeton Street on the north, by Waller Creek on the east and south, and by San Jacinto Boulevard on the west and south.
   2. University persons, University organizations, and members of the public may use amplified sound in this area from 8:00 am to 5:00 pm on weekdays.

Sec. 13–803. Regulation and Scheduling of Weekday Amplified Sound

a. The dean of students may prescribe rules concerning scheduling, sound levels, the location of speakers and the direction in which they are pointed, and other rules to facilitate the use of weekday amplified sound areas, to mediate any conflict with University functions and other nearby activities, and to manage environmental impact. All such rules will be reasonable and nondiscriminatory.

b. Reservations.
   1. University persons, University organizations, and members of the public wishing to use a weekday amplified sound area must reserve a particular area at a particular time. Reservations by University persons and University organizations must be made with the dean of students on a form prescribed by the dean of students. Members of the public may reserve space by making a request on the Hornslink.org Public Reservation Form. The Dean of Students will approve a properly completed application to reserve an amplified sound area, unless the application or request must be disapproved under the criteria in Section 10–203 of the Institutional Rules or under rules promulgated by the dean of students under the authority of this Section.
   2. The dean of students may limit the number or frequency of reservations for each applicant to ensure reasonable access for all persons and organizations desiring to use amplified sound on weekdays.
3. When amplified sound areas are not reserved for use for an assembly including amplified sound, they are available, without reservation, for permitted expressive activities that do not involve amplified sound. Such as-available expressive use does not permit a person to use amplified sound without a reservation. Any person or organization using or occupying the space without a reservation must yield control of the space in time to permit any user with a reservation to begin using the space promptly at the beginning of the reserved time.

c. Amplified sound in the West Mall Sound Area is in fact disruptive of teaching, administration, and research in the Main Building, in the Flawn Academic Center, in Goldsmith Hall, in the West Mall Office Building, and in Battle Hall. Amplified sound in the Winship Circle Amplified Sound Area is in fact disruptive of teaching, administration, research and performance in College of Liberal Arts Building, the Laboratory Theatre and Winship Hall. The disruption inherent in this use of amplified sound is expressly authorized, but no other disruption is authorized. Disruption is permitted to this extent because otherwise, it would be necessary to ban all use of amplified sound in and near the center of campus during working hours.

d. University persons, University organizations, and members of the public using amplified sound are responsible for maintaining a passageway for pedestrians that is adequate to the volume of pedestrian traffic passing through the area. Should the size of the assembly exceed the maximum number of participants that is safe for a given location, participants will be directed by campus authorities to relocate to a space that is better suited to the size of the assembly.

e. The amplified sound locations are maintained on the Amplified Sound Areas Map. Any designations of additional areas, any additional rules regulating the designated areas, and the rules and procedures for reserving the use of a designated area, will be clearly stated on a website.

Sec. 13–804. Amplified Sound on Evenings and Weekends

a. With advance permission, University persons, University organizations, and members of the public may use amplified sound in any location in the common outdoor areas of campus, including the weekday amplified sound areas designated in Section 13–802, after 5:00 pm on weekdays, and after 8:00 am on weekends, except for the early morning hours excluded in Subsection 13–804(b).

b. If amplified sound is authorized for an event on a Sunday, Monday, Tuesday, Wednesday, or Thursday evening, the sound must be turned off by midnight on the following day. If amplified sound is authorized for an event on a Friday or Saturday evening, the sound must be turned off by 1:00 am on the following day.

c. The dean of students may prescribe reasonable and nondiscriminatory rules concerning scheduling, sound levels, the location of speakers and the direction in which they are pointed, and other rules to facilitate the use of amplified sound on evenings and weekends, to mediate any conflict with University functions and other nearby activities, and to manage environmental impact.

d. Use of amplified sound on evenings and weekends requires advance permission from the dean of students. Reservations by University persons and University organizations must be made with the dean of students on a form prescribed by the dean of students. Members of the public may reserve space by making a request on the Hornslink.org Public Reservation Form. The Dean of Students will authorize amplified sound as described in a completed application unless the Dean of Students finds that the application or request must be disapproved under the criteria in Section 10–203 of the Institutional Rules or under rules promulgated by the dean of students under the authority of this Section. The Dean of Students will advise each applicant or requestor how to correct, if possible, any conditions that preclude approval of its application.

Sec. 13–805. Amplified Sound Indoors

University persons and University organizations may use amplified sound indoors. Amplified sound sufficient to be heard throughout the room may be used in any room in any building, but the dean of students may limit or prohibit sound that would be disruptive outside the room. Reservations may be required. Rules concerning use of University buildings are contained in Chapter 10 of the Institutional Rules.

Subchapter 13–900. Public Assemblies

Sec. 13–901. General Rule on Public Assemblies

a. “Publicly assemble” and “public assembly” include any gathering of persons, including discussions, rallies, and demonstrations. The rules in Subchapter 13–800 apply to any use of amplified sound at a public assembly.

b. Persons and organizations may publicly assemble on campus in any place where, at the time of the assembly, the persons assembling are permitted to be. This right to assemble is subject to the rules in this Chapter and to the rules on use of University property in Chapter 10 of the Institutional Rules. No advance permission is required in the common outdoor areas.

Sec. 13–902. Reservation of Space

a. Common outdoor areas reservations.

1. University persons, University organizations, and members of the public may reserve a space to assemble in the common outdoor areas, as defined by this Chapter. This is in addition to the amplified sound areas which are also available for reservation.

2. Reservations by University persons and University organizations must be made with the dean of students on a form prescribed by the dean of students. Members of the public may reserve space by making a request on the Hornslink.org Public Reservation Form. Applications and requests for a reservation for such assemblies will be approved pursuant to Subchapter 10–200 of the Institutional Rules.

3. If the expected attendance at an assembly is twenty-five or more people, advance notice of no less than two weeks is recommended. Persons and organizations are encouraged to seek a reservation of a space that is suited to their assembly’s anticipated size.

b. Limited public forum areas reservations.

1. Registered student, sponsored student, registered faculty, or staff organizations and academic or administrative units may reserve a space to assemble in permitted limited public forum areas, as defined by this Chapter.

2. The dean of students will receive applications for reservations of a space within the limited public forum areas. Applications for a reservation for such assemblies will be processed under the provisions in Subchapter 10–202 of the Institutional Rules. Individual faculty, staff, and students may not reserve space under the provisions in Chapter 10.

3. If the expected attendance at an event with a guest speaker is twenty-five or more people, advance notice of no less than two weeks is required.

c. Any person or organization with a reservation has the right to the reserved room or space for the time covered by the reservation. Any person or organization using or occupying the room or space without a reservation must yield control of the room or space in time to permit any user with a reservation to begin using the room or space promptly at the beginning of its reserved time.

Sec. 13–903. Limited Public Forum Areas

Limited public forum areas reservations.

1. University persons, University organizations, and members of the public may reserve limited public forum areas.

2. Reservations by University persons and University organizations must be made with the dean of students on a form prescribed by the dean of students. Members of the public may reserve limited public forum areas by making a request on the Hornslink.org Public Reservation Form. Applications and requests for a reservation for such limited public forum areas will be approved pursuant to Subchapter 10–200 of the Institutional Rules.

3. If the expected attendance at an assembly in a limited public forum area is twenty-five or more people, advance notice of no less than two weeks is recommended. Persons and organizations are encouraged to seek a reservation of a space that is suited to their assembly’s anticipated size.

4. The dean of students may prescribe reasonable and nondiscriminatory rules concerning scheduling, sound levels, the location of speakers and the direction in which they are pointed, and other rules to facilitate the use of amplified sound on evenings and weekends, to mediate any conflict with University functions and other nearby activities, and to manage environmental impact.

5. Use of amplified sound on evenings and weekends requires advance permission from the dean of students. Reservations by University persons and University organizations must be made with the dean of students on a form prescribed by the dean of students. Members of the public may reserve space by making a request on the Hornslink.org Public Reservation Form. The Dean of Students will authorize amplified sound as described in a completed application unless the Dean of Students finds that the application or request must be disapproved under the criteria in Section 10–203 of the Institutional Rules or under rules promulgated by the dean of students under the authority of this Section. The Dean of Students will advise each applicant or requestor how to correct, if possible, any conditions that preclude approval of its application.
d. Should the size of any assembly exceed the maximum number of participants that is safe for a given location, including a reserved space, assembly participants will be directed by campus authorities to relocate to a space that is better suited to the size of the assembly to the extent relocation is practicable.

e. While reservations are not always required, they are strongly encouraged. Without a reservation, a person or organization may find the facility locked or the space in use by another person or organization.

f. In some buildings, public assemblies unrelated to the purpose of the building may be prohibited completely. To avoid disruption of University operations, the Main Building may not be used for such public assembly at any time.

Sec. 13–903. Notice and Consultation

a. Persons or organizations may publicly assemble on campus in any place where, at the time of the assembly, the persons assembling are permitted to be.

b. Persons or organizations that are planning a public assembly in a common outdoor area with or without a guest speaker and expected attendance of more than twenty-five participants, including potential counter-demonstrators, are encouraged to provide advance notice of no less than two weeks to the dean of students to help the University improve the safety and success of the expressive activity. Members of the public may provide this notice by submitting a description of the planned event using the Hornslink.org Public Reservation Form. If there is uncertainty about applicable University rules, the appropriateness of the planned location, or possible conflict with other events, persons and organizations are encouraged to consult the dean of students. Should the size of the assembly exceed the maximum number of participants that is safe for a given location, participants will be directed by campus authorities to relocate to a space that is better suited to the size of the assembly.

c. University persons or organizations planning an event in the limited public forum areas with or without a guest speaker and an expected attendance of more than twenty-five participants, are required to provide advanced notice of no less than two weeks to the dean of students to help the University improve the safety and success of the expressive activity. Notice will be provided on a form prescribed by the dean of students.

d. The notice and consultation requirements of this Subchapter do not apply to academic or administrative units.

e. The University persons and University organizations notice and consultation requirements of this Subchapter may be waived by the dean of students or his or her designee.

f. Registered student, sponsored student, registered faculty, and staff organizations are afforded privileges not available to individual faculty, staff, and students. Individuals may not reserve indoor space on campus.

Subchapter 13–1000. Guest Speakers

Sec. 13–1001. Definitions

“Guest speaker” means a speaker or performer who is not a student, faculty member, or staff member.

Sec. 13–1002. Who May Present

a. Subject to the rules in this Chapter, University persons, University organizations, and members of the public may present guest speakers in common outdoor areas of the campus.

b. Registered student, sponsored student, registered faculty, and staff organizations and academic or administrative units may present guest speakers in the limited public forums of the campus. In the case of registered student organizations and sponsored student organizations, advance permission from the dean of students is required. Registered faculty organizations are required to seek advance permission from the executive vice president and provost. Registered staff organizations are required to seek advance permission from the senior vice president and chief operating officer. Individuals may not present a guest speaker in University buildings or University facilities.

Sec. 13–1003. Location and Form of Presentation

a. Subject to the rules in this Chapter, including the applicable time, place, and manner rules, University persons, University organizations, and members of the public may utilize the common outdoor areas for guest speaker assemblies. No reservation or prior approval is necessary, but notice and reservations are encouraged for assemblies of twenty-five or more people.

b. A guest speaker may present a speech or performance, or lead a discussion of specified duration, at a time announced in advance, in a fixed indoor location approved by the dean of students.

1. A guest speaker may distribute literature indoors only immediately before, during, and immediately after the normal course of his or her speech, presentation, or performance, and only to persons in attendance. Only literature that complies with Subchapter 13–400 may be distributed.

2. Student, faculty, and staff organizations may not invite the public at large to events in University buildings or facilities.

c. A guest speaker may not

1. Accost potential listeners who have not chosen to attend the speech, performance, or discussion; or

2. Help staff a table or exhibit set up outside of the common outdoor areas or in the University buildings or facilities.

d. No University person, University organization, or member of the public may present a guest speaker in violation of the prohibitions against solicitation in Section 13–205 or cosponsorship in Chapter 10, Section 13–304 of the Institutional Rules.

Sec. 13–1004. Application for University Building or Facility Space for Presentation of Guest Speakers

In accordance with Regents’ Rules and Regulations, Rule 40501, Section 3.5, all registered students, sponsored students, registered faculty, and staff organizations that wish to present a guest speaker in a University building or facility space will apply through a prescribed process, at least two weeks before the scheduled event or any planned advertising for the event, whichever is earlier.

1. A registered or sponsored student organization that wishes to present a guest speaker will apply to the dean of students, through a process prescribed by the dean of students, at least two weeks before the scheduled event or any planned advertising for the event, whichever is earlier. The application will be combined with an application under Section 10–202 of the Institutional Rules to reserve the use of a University room or space for the event. The dean of students will approve an application properly made under Subsection 13–1004(a) unless it must be disapproved under the criteria in Chapter 10, Section 10–203 of the Institutional Rules.

2. A registered faculty organization that wishes to present a guest speaker will apply to the executive vice president and provost through a process prescribed by the executive vice president and provost, at least two weeks before the scheduled event or any planned advertising for the event, whichever is earlier. The application will be combined with an application under Chapter 10, Section 10–202 of the Institutional Rules to reserve the use of a University room or space for the event. The executive vice president and provost will approve an application properly made
under Subsection 13–1004(a) in consultation with the dean of students unless it must be disapproved under the criteria in Chapter 10, Section 10–203 of the Institutional Rules.

3. A registered staff organization that wishes to present a guest speaker will apply to the senior vice president and chief financial officer through a process prescribed by the senior vice president and chief financial officer, at least two weeks before the scheduled event or any planned advertising for the event, whichever is earlier. The application will be combined with an application under Chapter 10, Section 10–202 of the Institutional Rules to reserve the use of a University room or space for the event. The senior vice president and chief operating officer will approve an application properly made under Subsection 13–1004(a) in consultation with the dean of students unless it must be disapproved under the criteria in Chapter 10, Section 10–203 of the Institutional Rules.

Sec. 13–1005. Obligations of Presenting Organization

A University person or registered student organization or registered faculty or staff organization that presents a guest speaker in a University building or facility must make clear that:

a. the organization, and not the University, invited the speaker;

b. the views expressed by the speaker are his or her own and do not necessarily represent the views of the University. The University of Texas System, or any System institution; and

c. members of the general public are not invited to attend the guest speaker's presentation with the exception of presentations put on by academic or administrative units.

Subchapter 13–1100. Responding to Speech, Expression, and Assembly

Sec. 13–1101. General Rule on Responding

Persons and organizations may respond to the speech, expression, or assembly of others, subject to all the rules in this Chapter.

Sec. 13–1102. Applications of Section

a. Responders may not damage or deface signs or exhibits, disrupt public assemblies, block the view of participants, or prevent speakers from being heard.

b. Means of response that are permitted in many locations and without advance permission or reservation, such as signs, distribution of literature, and public assembly without amplified sound, may be used immediately and in any location authorized in this Chapter.

c. Means of response that require advance permission or reservation, such as temporary banners, A-frames exhibits, general exhibits, and amplified sound, may be used as soon as the needed permission or reservation may be arranged. Temporary banner space, temporary outdoor exhibit space, and some amplified sound areas may be unavailable on short notice because of earlier reservations, but the Dean of Students will, where feasible, expedite approval of available temporary banner spaces, available temporary outdoor exhibit spaces, and amplified sound areas where necessary to permit appropriate response to other speech, assembly, or expression.

d. Means of response that are confined to authorized locations, such as banners, exhibits, and amplified sound, may be used only in those locations. It is not possible to respond to amplified sound with amplified sound in the same location; similarly, if an exhibit or public assembly is in a location where amplified sound is not permitted, it is not possible to respond with amplified sound in that location. In either case, it is possible to respond with amplified sound in another location and to use signs or distribution of literature to advertise the response at the other location.

Subchapter 13–1200. Enforcement and Appeals

Sec. 13–1201. Police Protection

a. It is the responsibility of the University to protect the safety of all persons on campus and to provide police protection for speakers, public assemblies, persons staffing or viewing exhibits, and other events. The normal patrolling of officers during regular duty areas in the area of such events will be at the cost of the University. When the magnitude, timing, or nature of an event in a University building, University facility, or other area of the University's limited public forum that requires overtime hours from police officers (including contract hours for officers hired from other departments or private security agencies), the University will, to the extent specified in Subsection 13–1201(b) and Subsection 13–1201(c), charge the cost of overtime or contract officers to the person or organization sponsoring the event or exhibit that requires overtime police protection. The purpose of Subsection 13–1201(b) and Subsection 13–1201(c) is to charge for police overtime where reasonably possible, but not to charge for police overtime made necessary by the content of speech at the event or by the controversy associated with any event.

b. University persons or organizations planning such events should budget for the cost of police protection. A reasonable and nondiscriminatory fee for overtime police work will be charged to the registered student, sponsored student, faculty, or staff organization for events in a University building, University facility, or other area of the University's limited public forum that require overtime police protection, and

1. charge a price for admission; or
2. have a paid speaker, band, or other off-campus person or organization for services at the event.

c. The University will have the sole power to decide, after reasonable consultation with the person or organization planning the event, whether and to what extent overtime police protection is required. No fee will be charged for officers assigned because of political, religious, philosophical, ideological, or academic controversy anticipated or actually experienced at the event. All fees will be based on the number of officers required for an uncontroversial event of the same size and kind, in the same place and at the same time of day, handling the same amount of cash.

d. Nothing in this Section applies to any interdepartmental charge or transfer among units or accounts funded by the University.

Sec. 13–1202. Response to Violations

a. Students wishing to make a grievance regarding a violation of Texas Education Code § 51.9315 may report it via the University compliance and ethics hotline by emailing compliance@austin.utaex.edu.

b. A student who violates a prohibition in this Chapter may be disciplined under the procedures in Chapter 11 of the Institutional Rules. A registered student or sponsored student organization that violates a prohibition in this Chapter may be disciplined under the procedures in Chapter 6 of the Institutional Rules.

c. A faculty member who violates a prohibition in this Chapter may be disciplined under applicable procedures provided by other rules. If no such procedures exist, violations by faculty members will be referred to the Office of the Executive Vice President and Provost.

d. A staff member who violates a prohibition in this Chapter may be disciplined under applicable procedures provided by other rules. If no
such procedures exist, violations by staff members will be referred to Human Resource Services.

e. Authorized University personnel may prevent imminently threatened violations, or end ongoing violations, of a prohibition in this Chapter, by explanation and persuasion, by reasonable physical intervention, by arrest of violators, or by any other lawful measures. Alternatively or additionally, they may initiate disciplinary proceedings under Subsection 13–1202(a), Subsection 13–1202(b), or Subsection 13–1202(c). Discretion regarding the means and necessity of enforcement will be vested in the chief of police, or in University personnel designated by the president, as appropriate, but such discretion will be exercised without regard to the viewpoint of any speaker.

f. University persons and University organizations on the campus will comply with instructions from University administrators and law enforcement officials at the scene. A University person or University organization that complies with an on-the-scene order limiting speech, expression, or assembly may test the propriety of that order in an appeal under Section 13–1203.

g. Off-campus person(s) or organization(s) on the campus who violate a prohibition in this Chapter may be subject to criminal trespass charges, arrest, or other lawful measures.

Sec. 13–1203. Appeals

a. A person or organization that is denied permission for an activity requiring advance permission under this Chapter may appeal the denial of permission.

b. A University person or organization that complies with an on-the-scene order limiting speech, expression, or assembly may, on or before the fifth business day after complying with the order, file an appeal to determine the propriety of that order. The question on appeal will be whether, under the circumstances as they reasonably appeared at the time of the order, the appellant’s speech, expression, or assembly should have been permitted to continue. Such an appeal may be used to clarify the meaning of a rule, or to resolve a factual dispute that may recur if the appellant desires to resume the speech, expression, or assembly that was limited by the order.

c. An appeal authorized by this Section will be heard under the procedures set out in Subchapter 10–400 of the Institutional Rules.

Sec. 13–1202. Application

a. This chapter applies to individual students and organizations and states the function of administrative staff members of the University in disciplinary proceedings.

b. Individuals who are not currently enrolled at the University remain subject to the disciplinary process for conduct that occurred while they were students.

c. Students and organizations are subject to discipline for prohibited conduct under this chapter while participating in off-campus activities, whether or not the University sponsors the activities.

Sec. 14–103. Definitions

In this chapter, unless the context requires a different meaning, the following definitions apply.

1. “Authorized representative” means a person designated to represent a registered student organization or a sponsored student organization as required in subsection 6–303(a) of the Institutional Rules.

2. “Dean of students” means the dean of students of The University of Texas at Austin or any delegate or representative of the dean of students.

3. “Hazing” or “hazing activity” means any intentional, knowing, or reckless act, occurring on or off of the campus of an educational institution, by one person alone or acting with others, directed against a person, for the purpose of pledging, being initiated into, affiliating with, holding office in, or maintaining membership in any organization. Hazing includes but is not limited to:

A. any type of physical brutality, such as whipping, beating, striking, branding, electric shocking, placing of a harmful substance in or on the body, or similar activity;

B. any type of physical activity that involves or results in sleep deprivation, exposure to the elements, confinement in a small space, calisthenics, or other activity that subjects the person to an unreasonable risk of harm or that adversely affects the mental or physical health or safety of the person;

C. any activity involving consumption of a food, liquid, alcoholic beverage, liquor, drug, or other substance, in addition to those described by Paragraph E, that subjects the person to an unreasonable risk of harm or that adversely affects the mental or physical health or safety of the person;

D. any activity that intimidates, demeans, embarrasses, or threatens the person with ostracism, that subjects the person to stress, shame, or humiliation, that adversely affects the mental health or dignity of the person or discourages the person from entering or remaining registered in an educational institution, or that may reasonably be expected to cause a person to leave the organization or the institution rather than submit to acts described in this subsection;

E. any activity that involves coercing, as defined by Section 1.07 Penal Code, a student to consume a drug or an alcoholic beverage or liquor in any amount;

F. any activity that threatens the wellbeing of a person by restricting their ability to communicate with others to get medical help, to document prohibited conduct, or report misconduct; such as, but not limited to, the confiscation of a personal communication device; and

G. any activity that induces, causes, or requires the person to perform a duty or task that involves a violation of the Penal

Chapter 14. Prohibition of Hazing

Subchapter 14–100. General Provisions

Sec. 14–101. Introduction

a. The University of Texas at Austin is committed to providing a safe educational environment for everyone and does not tolerate hazing by any group or individual affiliated with the University. The University expects that all students and organizations will observe and fully comply with state law, the Regents’ Rules, University regulations, and administrative rules associated with the prohibition of hazing.

b. Hazing is prohibited under state law. The University will initiate disciplinary action in response to hazing incidents that take place during official functions of the University or functions sponsored by registered student organizations or sponsored student organizations; the University will also initiate disciplinary action in response to hazing incidents that have a substantial connection to the interests of the University regardless of the location in which they occur, on or off campus. See Texas Education Code, Chapter 37, Subchapter F. Hazing and Section 51.936 for more information.
4. “Organization” means an association, band or musical group, club, corporation, corps, fraternity, order, society, sorority, student government, team, or an academic, athletic, cheerleading, or dance team, including any group or team that participates in National Collegiate Athletic Association competition, or a religious, service, social, or similar group whose members are primarily students, and includes but is not limited to groups with a valid registration under chapter 6 of the Institutional Rules. See Texas Education Code, Section 37.151(6) for more information.

5. “Student” means a person who is currently enrolled at the University, or who is accepted for admission or readmission to the University, or who has been enrolled at the University in a prior semester (including summer) and is eligible to continue enrollment in the semester that immediately follows, or who is attending an educational program sponsored by the University while that person is on campus, or who engaged in prohibited conduct while he or she met the above criteria.

6. “University” means The University of Texas at Austin.

Sec. 14–104. Additional Hazing Examples
In addition to the hazing activities listed in Section 14-103, the following list provides further examples of activities which under certain conditions constitute acts which are dangerous, harmful or degrading, and are in violation of these Institutional Rules on Student Services and Activities. This list is not exhaustive of all conduct that could constitute hazing in violation of this Chapter.

1. calisthenics, such as sit-ups, push-ups or any other form of physical exercise;
2. total or partial nudity at any time;
3. the wearing or carrying of any embarrassing, uncomfortable, degrading, or physically burdensome article;
4. physical contact such as pushing, padding, tackling, or any other similar contact;
5. throwing any substance on a person;
6. consumption of alcoholic beverages accompanied by either threats or peer pressure;
7. lineups for the purpose of interrogating, demeaning, or intimidating;
8. transportation and abandonment (road trips, kidnaps, walks, rides, drops, etc.);
9. skits or roasts at the expense of a person;
10. forced recitation of facts, songs, or chants, or similar activity;
11. confining individuals in an area that is uncomfortable or dangerous (hot box effect, high temperature, too small, etc.);
12. any form of individual interrogation, yelling, or screaming;
13. any type of servitude that is of personal benefit to the individual members;
14. wearing attire that is embarrassing and not part of a uniform;
15. assigning pranks such as stealing, painting objects, harassing other organizations;
16. intentionally messing up the house or a room for clean up; and
17. requiring boxing matches or fights for entertainment.

Subchapter 14–200. Prohibited Conduct
Sec. 14–201. Personal Hazing Offense
A person commits the offense of hazing and is subject to discipline under chapter 11 if the person

1. engages in hazing;
2. solicits, encourages, directs, aids, or attempts to aid another in engaging in hazing;
3. recklessly permits hazing to occur; or
4. has firsthand knowledge of the planning of a specific hazing incident(s) involving a person in an educational institution, or has firsthand knowledge that a specific hazing incident has occurred, and knowingly fails to report that knowledge in writing to the dean of students or other appropriate official of the institution. See Texas Education Code, Section 37.152 for more information.

Sec. 14–202. Organization Hazing Offense
A student organization commits the offense of hazing and is subject to discipline under chapter 6 if the organization

a. condones or encourages hazing or if an officer, authorized representative, or any combination of members, potential new members, or alumni of the organization commits or assists in the commission of hazing. See Texas Education Code, Section 37.153 for more information.

b. conducts an activity, including but not limited to initiations or rituals, that may include any feature that is dangerous, harmful, or degrading to a person. A violation of this prohibition renders both the organization and participating individuals subject to discipline.

Sec. 14–203. Consent Not a Defense
Hazing with or without the consent of a person is prohibited, whether on or off campus, and a violation of that prohibition renders both the person inflicting the hazing and the person submitting to the hazing subject to discipline. See Texas Education Code, Section 37.154 for more information.

Subchapter 14–300. Reporting Hazing
Sec. 14–301. Obligation to Report
a. A person who has knowledge of hazing activities or a person who believes that he or she has been subjected to hazing should report the incident(s) at www.hazing.utexas.edu to the dean of students or another University official, administrator, or supervisor.

b. All supervisors, administrators, faculty members, and University officials are responsible for promptly reporting hazing incidents that come to their attention to the dean of students.

Sec. 14–302. Immunity from Institutional Discipline
a. In an effort to encourage reporting of hazing incidents, the dean of students through written agreement may grant immunity from discipline under subsection 14–401 to a person who voluntarily reports a specific hazing event under subsection 14–301 if the person

1. reports the incident(s) before being contacted by the dean of students concerning the incident(s) or otherwise being included in the institution’s investigation of the incident(s); and
2. cooperates in good faith by providing a complete and factual account of the incident(s) throughout the disciplinary process.

b. A person will not be granted immunity under subsection 14–302(a) if the person

1. reports the person’s own act of hazing;
2. reports an incident of hazing in bad faith or with malice as determined by the dean of students; or
3. reports the incident after being contacted by the dean of students concerning the incident or otherwise being included in the institution’s investigation of the incident.
c. The dean of students may revoke the immunity granted under subsection 14–302(a) and initiate disciplinary proceedings under subsection 14–401 if the person
   1. is found to have engaged in the hazing activity under investigation;
   2. fails to cooperate fully and in good faith, as determined by the dean of students, by providing a complete and factual account of the incident(s) throughout the disciplinary process regarding the incident(s); or
   3. otherwise acts in bad faith or with malice as determined by the dean of students.

d. The dean of students will notify a person regarding a grant or revocation of immunity under this section by letter or by e-mail.

Sec. 14–303. Immunity from Criminal and Civil Liability
a. Immunity from institutional discipline is separate from potential immunity from civil or criminal liability under the law. Texas law - not university policies - determines when such immunity applies. See Texas Education Code, Section 37.155, providing the parameters for immunity from prosecution or civil liability.

b. A doctor or other medical practitioner who treats a person who may have been subjected to hazing may make a good faith report of the hazing activities to police or other law enforcement officials and is immune from civil or other liability that might otherwise be imposed or incurred as a result of the report. See Texas Education Code, Section 37.157 for more information.

Subchapter 14–400. Administration of Discipline
Sec. 14–401. Individual Discipline
Notwithstanding any action taken on account of the violation by civil authorities or agencies charged with the enforcement of criminal or civil laws, the dean of students may initiate disciplinary proceedings under chapter 11 of the Institutional Rules against a student accused of violating chapter 14.

Sec. 14–402. Organizational Discipline
Notwithstanding any action taken on account of the violation by civil authorities or agencies charged with the enforcement of criminal or civil laws, the dean of students may initiate disciplinary proceedings under chapter 6 of the Institutional Rules against an organization accused of violating chapter 14.

Sec. 14–403. Interim Disciplinary Action
PENDING A HEARING OR OTHER DISPOSITION OF THE ALLEGATIONS, THE DEAN OF STUDENTS MAY TAKE SUCH IMMEDIATE INTERIM DISCIPLINARY ACTION AGAINST A STUDENT UNDER CHAPTER 11 OR AN ORGANIZATION UNDER CHAPTER 6 OF THE INSTITUTIONAL RULES AS IS APPROPRIATE TO THE CIRCUMSTANCES. FAILURE TO COMPLY MAY RESULT IN ADDITIONAL DISCIPLINARY ACTION UNDER CHAPTER 6 AND/OR CHAPTER 11 OF THE INSTITUTIONAL RULES.

Sec. 14–404. Potential Criminal Liability
Under state law, individuals or organizations engaging in hazing may be subject to fines and charged with a criminal offense. See Texas Education Code, Section 51.936 and Section 37.151 et seq. for more information.

Appendix D: Policy on Sex Discrimination, Sexual Harassment, Sexual Assault, Sexual Misconduct, Interpersonal Violence, and Stalking

This policy is no longer published in the university catalog and is now included as part of HOP 3-3031: Prohibition of Sexual Assault, Interpersonal Violence, Stalking, Sexual Harassment, and Sex Discrimination, effective fall 2020.

See the University Policy Office’s website for current and archived versions of this policy at https://policies.utexas.edu.

Appendix E: Policy on Sexual Misconduct

This policy is no longer published in the university catalog and is now included as part of HOP 3-3031: Prohibition of Sexual Assault, Interpersonal Violence, Stalking, Sexual Harassment, and Sex Discrimination, effective fall 2020.

See the University Policy Office’s website for current and archived versions of this policy at https://policies.utexas.edu.

Appendix F: Policy on Consensual Relationships

I. Policy Statement

The University of Texas at Austin ("University") is committed to maintaining an academic community (including associated teaching, research, working and athletic environments) free from conflicts of interest, favoritism, and exploitation. This policy addresses romantic relationships and/or sexual interactions that, although consensual, may create actual and perceived conflicts of interests, and create the possibility for exploitation or favoritism.

Except as expressly permitted herein, this policy prohibits consensual relationships between:

- employees (including faculty) or University affiliates ("affiliates") and undergraduate students;
- employees (including faculty) or affiliates and any graduate student whom that individual teaches, manages, supervises, advises, or evaluates in any way;
- Intercollegiate Athletics coaches, affiliates, or athletics employees and student-athletes;
- student employees and any student whom that student employee teaches, manages, supervises, advises, or evaluates in any way; and
- employees (including faculty) and/or affiliates where one teaches, manages, supervises, advises, or evaluates the other in any way, unless the person in the position of greater authority or power notifies appropriate University offices and a mitigation plan (as defined below) is in place.

II. Reason for Policy
The University recognizes that consenting individuals associated with the University should be free to enter into personal relationships of their choice. At the same time, such relationships must not put at risk the fundamental interest of every member of the University community to participate in University activities free from conflicts of interests, favoritism, and/or exploitation. Romantic relationships between certain categories of individuals affiliated with the University risks undermining the essential educational purpose of the University and can disrupt the workplace and learning environment.

III. Scope and Audience

This policy applies to all University employees (including faculty), student employees, students, and affiliates. This policy is applicable regardless of the sex/gender of the individual with managerial, supervisory, teaching, evaluation, coaching or advisory authority, and/or the sex/gender of the individual who is managed, supervised, taught, coached, advised, or evaluated in any way.

IV. Definitions (specific to this policy)

**Coach:** Any person serving in the capacity as an Intercollegiate Athletics head coach, associate head coach, assistant coach, graduate assistant coach, coaching intern, volunteer coach, or any individual exercising coaching responsibilities.

**Consensual Relationship:** A romantic relationship and/or sexual interaction agreed to by the involved parties.

**Employee:** Except as specifically stated herein, employee includes faculty, classified staff, administrative and professional staff, post-doctoral positions, and employee positions requiring student status.

**Mitigation Plan:** A written plan developed as provided in this policy that mitigates the conflict of interest and the potential for exploitation or the appearance of exploitation or favoritism created by the consensual relationship and which plan is acknowledged and signed by the parties involved.

**Student-Athlete:** Any student (undergraduate or graduate) who is currently participating as a member of an intercollegiate varsity sport sponsored by the University.

**Supervisee:** Any individual whose terms and conditions of employment, student, student-athlete, or affiliate status are controlled or affected by a supervisor, as defined by this policy.

**Supervisor:** An employee (including faculty), student, or affiliate who:

- teaches, manages, supervises, advises, coaches, or evaluates in any way other employees, students, student-athletes, or affiliates; and/or
- has a position of power, control, or the ability to influence decisions with regard to other individuals in the learning, intercollegiate athletics, or working environment of the University.

**University Affiliate:** An individual associated with the University in a capacity other than as a student or employee who has access to University resources through a contractual arrangement or other association that has been reviewed and approved in accordance with guidelines established by Human Resources ("HR"), the Executive Vice President and Provost ("EVPP"), or the Vice President for Research. Examples of a University Affiliate may include, but are not limited to:

- employees of contractors hired to conduct repair work at the University;
- employees of vendors engaged to provide training to University administrators;
- health care providers retained by the University to provide medical services to students/staff;
- volunteers in academic and/or operational units within the University; and
- post-doctoral positions who receive external funding;
- researchers or recent graduates who are self-funded or independently funded, but utilize University facilities to further the University's research endeavors.

Additional information regarding other types of University Affiliates may be found at: http://www.utexas.edu/business/erp/hrms/help/UniversityAffiliateTypes.php

VII. Responsibilities and Procedures

A. Prohibited Consensual Relationships

The following consensual relationships, even if a single interaction, are prohibited and cannot be mitigated by a mitigation plan.

a. Considering the potential for exploitation or the appearance of exploitation or favoritism and the inherent differential in authority, the University prohibits any employee (including faculty) or affiliate of the University from engaging in a consensual relationship with any student currently enrolled as an undergraduate at the University.*

*Note: "Employee" as used in Section VII.A.1 does not include student employees. See Section VII.A.4 below for prohibitions applicable to University student employees. Also, for purposes of this policy, the term "undergraduate" does not include any individual who is considered an undergraduate at the University solely because the individual is taking course(s) through the Staff Educational Benefit offered to University employees.

b. Considering the potential for exploitation or the appearance of exploitation or favoritism and the inherent differential in authority between graduate students and their educators, advisors, supervisors, and others holding positions of authority over them, the University prohibits any employee (including faculty) or affiliate of the University from engaging in a consensual relationship with any graduate student whom they teach, manage, supervise, advise, or evaluate in any way.

c. Considering the potential for exploitation or the appearance of exploitation or favoritism and the inherent differential in authority, the University prohibits consensual relationships between Intercollegiate Athletics coaches, employees, or affiliates, with any student-athlete or student assigned to or associated with Intercollegiate Athletics, such as interns and student employees.

*Note: "Employee" as used in Section VII.A.3 does not include student employees except for those who teach, manage, supervise, advise, coach, or evaluate any student-athlete or student assigned to or associated with Intercollegiate Athletics.

4. Considering the potential for exploitation or the appearance of exploitation or favoritism and the inherent differential in authority, the University prohibits any student employee (including resident life advisors/assistants, assistant instructors, teaching assistants, graduate research assistants, etc.) from engaging in a consensual relationship with any student whom they teach, manage, supervise, advise, or evaluate in any way.

B. Reporting Requirements

1. Considering the potential for exploitation or the appearance of exploitation or favoritism and the inherent differential in authority, the University prohibits consensual relationships between employees (including faculty) and/or affiliates where one teaches, manages, supervises, advises, or evaluates the other in any way unless the person in the position of greater authority or power notifies appropriate University offices (as detailed in Section VII.B.2.a of this policy) and a mitigation plan is put in place that mitigates the conflict of interest and the potential for exploitation or the appearance of exploitation or favoritism.

2. In the event a consensual relationship exists between employees (including faculty) and/or affiliates, the following steps must immediately be followed by the person in the position of greater authority or power:

   a. report the consensual relationship to the appropriate dean and the EVPP (when the relationship involves a faculty member), and/or the appropriate unit head and HR (when the relationship involves a staff member and/or affiliate);

   b. report any relationship that currently exists prior to the effective date of this policy to the University offices specified above as soon as possible and cooperate in the development of a mitigation plan as outlined in Section VII.C, below;

   c. cooperate in the development of a mitigation plan designed to reduce or eliminate the conflict of interest and the potential for exploitation or the appearance of exploitation or favoritism.

   d. If a consensual relationship exists between employees of the University and one of those employees is presented with the opportunity to teach, manage, supervise, advise, or evaluate the other in any way, the existing relationship must be reported by the individual in the position of greater authority or power to the appropriate University offices designated above as soon as possible and prior to the individual accepting a role that would create a conflict of interest and the potential for exploitation or the appearance of exploitation or favoritism.
favoritism, and a mitigation plan must be developed.

d. Departments and offices that receive reports of consensual relationships as outlined in this policy will notify the applicable VP, Dean, or the EVPP, each of whom will, in turn, notify DIA of the relationship and provide DIA a copy of the mitigation plan for record keeping purposes.

C. Mitigation Plan

a. If the conflict of interest and the potential for exploitation or the appearance of exploitation or favoritism can be successfully mitigated and managed, a written mitigation plan will be produced within ten (10) business days of the report (unless there are reasonable grounds for additional time) by the appropriate chair, dean, and EVPP (when the relationship involves a faculty member) or the appropriate unit head, DIA, and HR (when the relationship involves a staff member and/or University affiliate) in collaboration with both parties to the consensual relationship.

b. If the mitigation plan is not agreed to by all parties to the plan, resolution of the disagreement will be handled through consultation with the appropriate vice president of the individual(s) opposing the plan and DIA. In the case of a relationship involving individual(s) associated with Intercollegiate Athletics, the consultation will involve the Office of the Senior Vice President and Chief Financial Officer and DIA.

c. If the conflict of interest and potential for exploitation or the appearance of exploitation or favoritism created by the consensual relationship cannot be successfully mitigated and managed, then the consensual relationship is prohibited.

d. The mitigation plan will:

   a. provide an alternative means for managing, supervising, teaching, evaluating and/or advising of the supervisee or otherwise mitigate the conflict;
   b. give priority to the interest of the supervisee;
   c. be in writing and signed by both parties to the consensual relationship;
   d. provide notice of HOP 3-3031 - Prohibition of Sexual Assault, Interpersonal Violence, Stalking, Sexual Harassment, and Sex Discrimination; and
   e. be reassessed on an annual basis (or sooner if circumstances warrant) by the parties, and the applicable department/unit for necessary modification.

D. Exemptions

Exemptions to any of these provisions will be considered on a case-by-case basis and will be approved by the Associate Vice President for
H. Retaliation Prohibited

Retaliation against a person who reports a potential violation under this policy, assists someone with a report of a violation, or participates in any manner in an investigation or in the resolution of a complaint made under this policy is strictly prohibited and will not be tolerated. Retaliation includes, but is not limited to threats, intimidation, reprisals and/or adverse actions related to an individual's employment or education. The University will take appropriate steps to assure a person who in good faith reports, complains about, or participates in an investigation pursuant to this policy will not be subjected to retaliation. Individuals who believe they are experiencing retaliation are strongly encouraged to lodge a complaint with DIA and/or UCS.

I. Counseling

Confidential counseling services are available to employees through the Employee Assistance Program at 512-471-3366 and to students through the UT Counseling and Mental Health Center at 512-471-3515.

VIII. Forms and Tools

Appendix G: Policy on AIDS and HIV Infection

Background

The University of Texas at Austin recognizes human immunodeficiency virus (HIV) as a serious public health threat and is committed to promoting an informed, educated and responsive University community regarding HIV and the associated Acquired Immune Deficiency Syndrome (AIDS). This policy provides the framework for managing risks associated with HIV and AIDS in compliance with state laws and in the context of the medical, educational, legal, administrative, and ethical issues involved.

The reason for this policy is to provide the roles and responsibilities for responding to specific situations involving persons with AIDS or HIV infections in compliance with Texas Administrative Code (Title 25, part 1, chapter 96, Bloodborne Pathogen Control) and Texas Education Code (Sec. 51.919 HIV and AIDS Policy; Information Dissemination) covering areas of administrative policy, residence life, health education, testing, confidentiality, and patient care.

Throughout this appendix, “HIV infection” denotes the total spectrum of the disease, from HIV seropositive but asymptomatic infection to fully developed AIDS.

General Policies

a. Institutional committee. The University establishes the Bloodborne Pathogens Control Committee (BPCC) authorized to annually review and update the University’s written Bloodborne Pathogens Exposure Control Plan. The committee will be minimally comprised of representatives from the Environmental Health & Safety (EHS) department, University Health Services (UHS), the HealthPoint Occupational Health Program and representation from departments that employ workers with reasonable anticipation of exposure to bloodborne pathogens, including HIV.

b. Admissions. The existence of HIV infection will not be considered in admissions decisions unless current scientific information indicates required academic activities may expose others to risk of transmission.

c. Employment. The existence of HIV infection will not be used to determine suitability of applicants for employment by the University. An HIV-infected employee will remain employed as long as he or she is able to perform the essential functions of the job and is able to meet the job performance standards.

d. Class attendance. A student with HIV infection will be allowed to attend all classes without restrictions, as long as the student is physically and mentally able to participate and perform assigned work, and poses no health risk to others.

e. Facilities Access. A person with HIV infection will not be denied access to any University facility on the basis of HIV-positive status.

f. Residential housing. The University residential housing staff will not exclude HIV-positive students from University housing, and will not inform other students that a person with HIV infection lives in University housing.

g. Safety precautions. The University has guidelines for health care workers and students in the health professions concerning the prevention of transmission of bloodborne pathogens, which includes HIV among others. Training requirements are detailed in the University’s Bloodborne Pathogens Exposure Control Plan.
Confidentiality of Records.

h. Education on HIV prevention provided to students. The University will routinely offer education to students based on HIV education and prevention programs. These programs will be developed in conjunction with federal and state health agencies and other health authorities and will be tailored to students' cultural, educational, language, and developmental needs. UHS will provide information to students pertaining to HIV infection on a variety of related topics. UHS will also make referrals for anonymous HIV counseling and testing services.

ii. Laboratory courses. Department managers/heads of departments offering lab courses or operating labs where possible risk of exposure to material that has potential for transmitting HIV must develop written, lab safety protocol using standard precautions for handling such material. This written protocol must be distributed to students and staff members prior to such exposure in accordance with the Bloodborne Pathogens Exposure Control Plan.

iii. Education of students entering health professions. Each college or school offering medical, dental, nursing, allied health, counseling, and/or social work degree programs must ensure its program curricula contains information about:
   1. methods of transmission and methods of prevention of HIV infection;
   2. federal and state laws, rules, and regulations concerning HIV infection and AIDS; and
   3. the physical, emotional, and psychological stress associated with the care of patients with incurable illnesses.

iv. Education of employees where risk of exposure to HIV may be part of their employment duties. Departments requiring employees to perform employment duties where risk of exposure to HIV is possible will provide training about HIV transmission specific to their employment duties and methods to minimize or eliminate that risk by following standard precautions. Standard precautions includes an overview of the engineering controls, administrative controls, and personal protective equipment used to minimize or eliminate risk of exposure. The University’s Bloodborne Pathogens Exposure Control Plan includes information specific to HIV and standard precautions.

i. Confidentiality of Records. Except where release is required or authorized by law, information concerning the HIV or AIDS status of students, employees, or patients, and any portion of a medical record will be kept confidential and will not be released without written consent. Information concerning HIV or AIDS status held in non-medical records will be limited to that which is necessary to determine reasonable accommodations, if applicable, or to investigate an occupational exposure. Non-medical records containing personal health information (PHI) will follow privacy standards established by federal and state law.

j. HIV testing and bloodborne pathogens post-exposure testing. In the event of a work-related bloodborne pathogens exposure, the employee must contact the HealthPoint Occupational Health Program as soon as practical for guidance on post-exposure testing services, available at no cost to the employee. Refer to the University’s Bloodborne Pathogens Exposure Control Plan for details. Students may obtain HIV testing services from UHS.

k. Unemployment compensation benefits. When applicable, the University will inform employees that state law provides that an individual will be disqualified for unemployment compensation if the Texas Workforce Commission finds the employee left work voluntarily rather than provide services included within the course and scope of employment to an individual infected with a communicable disease, including HIV. This disqualification applies if the University provided facilities, equipment, training, and supplies necessary to take reasonable precautions against infection.

I. Health benefits. No University student or employee will be subjected to impermissible discrimination under a health benefits plan endorsed by the University on the basis of a positive HIV test result.

Policy Website: Excerpted from the Handbook of Operating Procedures, 3-1310

Appendix H: Prohibition of Sexual Assault

This policy is no longer published in the university catalog and is now included as part of HOP 3-3031: Prohibition of Sexual Assault, Interpersonal Violence, Stalking, Sexual Harassment, and Sex Discrimination, effective fall 2020.

See the University Policy Office’s website for for current and archived versions of this policy at https://policies.utexas.edu/.

Appendix I: Nondiscrimination Policy

I. Policy Statement

The University of Texas at Austin (University) is committed to providing an educational and working environment for students, faculty, and staff that is free from discrimination based on race, color, sex, pregnancy, gender identity, sexual orientation, gender expression, religion, age, national origin, ethnicity, veteran status, disability, genetic information, active duty military status, or any other legally protected basis. This Policy prohibits such conduct.

This Policy also prohibits retaliation against someone because the individual reported under this Policy, opposed an unlawful practice, participated in an investigation, or requested supportive measures. Finally, this Policy prohibits failing to cooperate in good faith, filing false complaints or providing materially false information, interfering with this Policy’s processes, abusing the investigation process, or failing to report incidents reasonably believed to constitute discrimination, harassment, or retaliation.

This Policy does not cover prohibited conduct of a sexual nature. Procedures for reporting sexual assault, interpersonal violence, stalking, and sexual harassment, are addressed by Handbook of Operating Procedures (HOP) 3-3031. While these are forms of sex discrimination, their sexual nature removes them from the purview of this Policy.

Inquiries regarding this Policy may be directed to the Department of Investigation and Adjudication (DIA) at 512-471-3701 or dia@austin.utexas.edu (dia@austin.utexas.edu)

II. Who this Policy Applies To

This Policy applies to all University faculty, staff, employees, students, student organizations, visitors, contractors, university affiliates, and applicants for admission to or employment with the University and others conducting business on campus. Reports and Complaints against individuals subject to this Policy are processed according to the parameters set out below. Reports and Complaints against individuals not subject to this Policy are processed to provide support resources to the affected individual where appropriate.
III. Where this Policy Applies

This Policy applies to conduct that occurs on campus, in university-owned housing, or in an education program or activity. Campus means any building or property owned or leased by the University that is used in direct support of the University’s educational purposes. An education program or activity means locations, events, or circumstances over which the University exercises substantial control, and includes any building owned or controlled by a registered student organization. This Policy applies to off-campus conduct when the conduct substantially affects a person's education or employment with the University or poses a risk of harm to members of the University community.

IV. Policy Violations

The following are categories of conduct that violate this Policy. Individuals who believe they have been subjected to conduct that violates this Policy are encouraged to file a Complaint with the University using the procedures described below (See Section VII.B.1). Any person found in violation of this Policy is subject to disciplinary action, up to and including termination or expulsion, or losing affiliate status.

(A) Discrimination: Conduct directed at an individual or group of identifiable individuals that subjects them to treatment that creates a materially adverse impact to their employment or education because of their race, color, sex, pregnancy, gender identity, sexual orientation, gender expression, religion, age, national origin, veteran status, disability, genetic information, military service, or any other legally protected basis.

(B) Harassment: Verbal or physical conduct that is directed at an individual or group because of their race, color, sex, pregnancy, gender identity, sexual orientation, gender expression, religion, age, national origin, veteran status, disability, genetic information, military service, or any other legally protected basis. This conduct must be sufficiently severe or pervasive so as to have the purpose or effect of interfering with the impacted individual’s academic or work performance.

Constitutionally protected speech or expression is not considered Harassment under this Policy (p. 3). Harassment that is not based on the protected characteristics set out here is governed by Chapter 13 of the Institutional Rules (See Section 13-204). Sexual harassment is governed by HOP 3-3031.

When examining whether behavior was sufficiently severe or pervasive or materially adverse, DIA will look to how an objectively reasonable person would have experienced or viewed the behavior.

(C) Retaliation: Any action taken to cause a materially adverse effect in the terms or conditions of an individual’s academic experience or employment with the University, or other institutional status of a student, employee, university affiliate, visitor, or applicant for admission or employment with the University, because an individual has in good faith reported or brought a complaint under this Policy, opposed an unlawful practice, participated in an investigation, or requested supportive or protective measures.

Examples of retaliation include, but are not limited to, denial of an educational opportunity, experience or promotion; non-selection/refusal to hire; denial of job benefits; demotion or negative impact on grades or academic status; suspension; discharge; reprimands; negative evaluations; harassment; or other adverse treatment that is likely to deter reasonable people from pursuing their rights.

Retaliation may be found even when an underlying Report or Complaint made in good faith was not substantiated.

(D) Investigation Participant Violations:

(1) Failing to Cooperate

Everyone who is subject to this Policy must cooperate in good faith with University investigations. Failing to cooperate in good faith is a violation of this Policy. Good faith cooperation includes, but is not limited to:

- providing full and truthful answers during the investigation;
- identifying witnesses to the alleged conduct or other relevant witnesses; providing full and complete documents relevant to the alleged conduct;
- responding to requests for interviews or information from DIA or any other University administrator; and
- appearing for scheduled meetings or interviews.

(2) Filing of False Complaints and Providing Materially False Information

It is a violation of this Policy to knowingly and intentionally file a false Complaint or Report under this Policy or to knowingly and intentionally provide materially false information about an alleged violation under this Policy. A Complaint or Report that is ultimately unsubstantiated is not a false Complaint or Report unless it was filed in bad faith. Bad faith is an intent to harm or deceive. Information is materially false if it is untrue and would tend to influence the outcome of an investigation of an alleged violation under this Policy.

(3) Investigation Process Interference

Any person who intentionally interferes with the administration of this Policy commits a violation of this Policy. Interference may include, but is not limited to:

- attempting to coerce, compel, or prevent an individual from providing testimony or relevant information;
- removing, destroying, withholding, or altering documentation relevant to the Complaint or Report; or
- knowingly providing false or misleading information to DIA or any other university administrator or encouraging others to do so.

(4) Abuse of Investigation Process

This Policy prohibits individuals from abusing the investigative process. DIA will determine whether conduct is an abuse of the process by assessing the totality of the circumstances. Abuse of the investigation process is a pattern of behavior that overburdens DIA staff and resources, including but not limited to:

- repeatedly refusing to specify Complaint or Report allegations;
- repeatedly failing to timely schedule or appear at investigative interviews or meetings, without good cause; or
- filing multiple Complaints or Reports on the same or substantially similar events.

(E) Failing to Report Known Incidents of Discrimination, Harassment, and Retaliation: Every supervisor, administrator, University official, or other employee who has the authority to take action to redress an alleged violation, must promptly report to DIA any incidents reasonably believed to constitute discrimination, harassment, or retaliation in violation
of this Policy that come to their attention during the course of their employment.

VII. Responsibilities & Procedures
A. Definitions
a. Complainant: The individual who is alleged to be the victim of any prohibited conduct under this Policy.
b. Complaint: Information, including oral statements (if appropriately acknowledged), submitted to DIA by a Complainant, alleging a violation of this Policy.
c. Notification: Notification under this Policy occurs on the date any document is sent by electronic mail and/or facsimile, when properly addressed. Notification may also occur two days after the date of posting of any document in the United States mail, properly addressed, or upon the date of receipt of any document, when placed in the campus mail, properly addressed. DIA will use the address included in the Complaint or the last known address contained in DIA’s file.
d. Parties: The “Complainant” and the “Respondent” under this Policy.
e. Preponderance of the Evidence: The greater weight of the credible evidence. Preponderance of the evidence is the standard for determining allegations of conduct that violate this Policy. This standard is satisfied if the action is deemed more likely than not to have occurred than not.
f. Relevant: Evidence that has (i) any tendency to make a fact more or less probable than it would be without its existence, and (ii) the fact is of consequence in determining if a policy violation has occurred.
g. Report: Information, including oral statements (if appropriately acknowledged), submitted to DIA by a Reporter, alleging a violation of this Policy.
h. Reporter: An individual, other than a Complainant, making a Report of an incident(s) under this Policy.
i. Respondent: The individual and/or organization reported to be the alleged perpetrator of conduct that violates this Policy.

B. General Procedures
The University recognizes the rights of Parties to report an incident to the University and to receive a prompt and equitable resolution of the Report.

1. Reporting Incidents. Any person may report an incident under this Policy to DIA—via email at dia@austin.utexas.edu (dia@austin.utexas.edu) via mail at 100 W. Dean Keeton, Suite 4.102, Mail Code D9250, by calling 512-471-3701, or via https://compliance.utexas.edu/department-investigation-and-adjudication—regardless of whether the person reporting is the person alleged to be subject to the complained-of behavior. Any person may report incidents anonymously via the online reporting form found at DIA’s website.

A person who believes that they have experienced discrimination, harassment, or retaliation should promptly report the incident to any official, administrator, supervisor, or employee with the authority to redress an alleged violation. They are also encouraged to report such incidents to DIA directly. No person is required to report Discrimination or Harassment to the alleged offender.

2. Complaints and Reports. A Complaint or Report alleging a violation of this Policy shall be submitted to DIA. The Complaint or Report should contain the following information:

- Name and UT EID of the Complainant(s);
- Contact information, including address, telephone, and e-mail;
- Name of person(s) directly responsible for alleged violation(s);
- Date(s) and place(s) of alleged violation(s);
- Nature of alleged violation(s) as defined in this Policy;
- Detailed description of the defined conduct that is the basis of the alleged violation(s);
- Copies of any documents about the alleged violation(s);
- Names of any witnesses to the alleged violation(s) and witnesses’ contact information;
- Action requested to resolve the situation; and
- Any other relevant information.

While an initial review or formal investigation may begin on the basis of a verbal Complaint or Report, the University strongly encourages individuals to file a written Complaint or Report with DIA via email (dia@austin.utexas.edu) or via DIA’s online reporting system (https://compliance.utexas.edu/department-investigation-and-adjudication).

If the Complaint or Report is not in writing, DIA will prepare a statement of what it understands the allegations to be and seek to obtain verification from the Complainant or Reporter.

3. Time Limit. Individuals must file a Complaint or Report within 180 calendar days of the most recent unlawful act. DIA may extend the 180-day filing deadline when good cause supports the extension.

4. Acknowledgement. Within five (5) business days after receipt of a Complaint or Report, excluding University holidays and closures, DIA will send the Complainant or Reporter a brief acknowledgment of the Complaint or Report, and may request to schedule an intake interview to gather more information regarding the allegation(s). DIA’s acknowledgement will include a copy of this Policy.

C. Initial Review and Assessment Procedures
1. Purpose. DIA will conduct an initial review of all Reports and Complaints. This initial review is to assess whether a Complaint or Report describes in sufficient detail the conduct that is the basis of
the Complaint, whether the alleged conduct (if true) implicates this Policy, and whether a formal investigation is warranted.

2. Intake Review. DIA will conduct an intake review, which may include interviews to gather more information regarding the allegation(s). DIA will determine whether the Complaint or Report should be referred to an appropriate department for resolution or for restorative practice. If additional information is needed to evaluate the Complaint or Report, DIA will conduct a due diligence inquiry.

3. Due Diligence Inquiry. A due diligence inquiry is not a formal investigation but includes all appropriate steps to properly and thoroughly evaluate a Complaint or Report. DIA will take appropriate steps to gather sufficient information to determine whether a formal investigation is warranted.

4. Potential Outcome/Resolution of Complaints or Reports. DIA will ultimately determine whether the Complaint or Report should be (i) closed due to insufficient evidence or information; (ii) closed because the Respondent is not a University faculty, staff, student, student organization, visitor, contractor, university affiliate, or applicant for admission or employment; (iii) referred to the appropriate department for informal resolution; (iv) referred to the restorative practices alternative; or (v) elevated to a formal investigation. Additionally, if a Complaint or Report is withdrawn, DIA may choose to initiate a due diligence inquiry if the alleged conduct implicates this Policy.

Complaints and Reports closed for insufficient evidence before an investigation or its report is issued may be re-opened if additional information is later available and it is still within the 180 calendar day limitations period.

5. Notification of Results. If DIA determines that a Complaint or Report should be referred or closed, DIA will provide a memorandum to the Complainant and Respondent (if interviewed during the initial review and/or DIA has reason to believe that Respondent is aware of the Complaint) that includes a brief summary of the Relevant known facts and a brief explanation for DIA’s determination. DIA will submit the memorandum to the appropriate vice president, dean, or designee and departments based on a need-to-know basis.

6. Appeal of the Initial Review Outcome. If DIA determines that it will not proceed with a formal investigation, a Party may appeal to the University’s Chief Compliance Officer within 10 business days of receiving Notification. The appeal must be in writing and describe in sufficient detail the basis for the appeal. Appeal requests should be submitted electronically at dia@austin.utexas.edu or via mail or in person at 100 W. Dean Keeton, Suite 4.102, Mail Code D9250. The Chief Compliance Officer will determine within 10 business days whether DIA’s decision was in error. If the Chief Compliance Officer upholds DIA’s determination, the decision is final. If the Chief Compliance Officer overturns DIA’s determination, the Complaint or Report will be sent back to DIA for further investigation.

D. Informal Resolution Procedure

DIA may determine in its discretion whether informal resolution is appropriate and, if so, will refer the Complaint or Report to the appropriate department.

Methods for informal resolution may include, but are not limited to:

- coaching the person on how to directly address a situation which is causing a problem; mediating the dispute with the Parties;
- aiding in the modification of a situation in which the offensive conduct occurred;
- assisting a division with the resolution of a real or perceived problem; or
- arranging a documented meeting to discuss the University's requirements for behavior.

The University will document any informal resolution. DIA will retain this documentation and keep it confidential to the extent permitted by law.

E. Restorative Practices Alternative

The University recognizes that in some circumstances, pursuing restorative practices in lieu of the formal investigation process is preferable to the Parties involved. When appropriate, the University supports and encourages the benefits available through this alternative resolution path. You can learn more about this option here.

The Restorative Practices Alternative may be an appropriate means of addressing some incidents reported under this Policy. DIA within its discretion, may recommend this alternative to address some incidents reported under this Policy that have not been elevated to a Formal Investigation.

F. Formal Investigation Procedures

1. Investigation Responsibility. DIA is responsible for conducting formal investigations of Complaints and Reports involving possible violations of this Policy. DIA may initiate a formal investigation if a Complaint is within the scope of this Policy and articulates sufficient specific facts, which, if determined to be true, would support a finding that this Policy was violated.

Notwithstanding the above, DIA may initiate an investigation at the request of Human Resources representatives, deans, directors, department or unit heads, or vice-presidents, or at DIA’s sole discretion when the facts or circumstances warrant such investigation. Additionally, if a Complaint/Report is withdrawn, DIA may choose to initiate a formal investigation if the alleged conduct implicates this Policy.

2. Delegation in Certain Circumstances. If a Complaint or Report is directed against an individual who would otherwise play a role in investigating or resolving the Complaint, or there is any other conflict of interest present, the function assigned to that person by these procedures will be delegated to another person, as determined appropriate by the Chief Compliance Officer, in consultation with the Vice President for Legal Affairs.

3. Notice of Investigation. If a formal investigation is warranted, DIA will provide the Parties a written Notice of Investigation (NOI). The NOI will include:

- A statement of the allegation(s) to be investigated;
- A statement notifying the Respondent that they have an opportunity to submit a written response to the allegation(s) within seven (7) calendar days of receiving the NOI, unless unusual circumstances warrant additional time;
- A statement advising the Parties that Retaliation is prohibited and that engaging in Retaliation will result in appropriate disciplinary action;
- A statement notifying the Parties that they have a right to an advisor during the investigation process;
4. Investigative Process—Gathering of Evidence

a. Respondent Statement. Within seven (7) calendar days of receiving the NOI, the Respondent has an opportunity to submit a written response to the allegations. DIA may extend this deadline if it determines circumstances warrant it.

b. Notice of Meetings. DIA will notify the Parties and witnesses of the date, time, location, participants, and purpose of any meeting. DIA will also notify them of their right to be accompanied by an advisor.

c. Interviews. During a formal investigation, DIA may interview the Complainant(s), Respondent(s), and persons that have relevant information related to the Complaint or Report. Parties should submit the name(s) and contact information for any witnesses they would like to be interviewed and a brief explanation of the witness' relevance to the investigation. In most cases, DIA will not interview character witnesses.

d. Evidence. The Parties may present any information or evidence that may be relevant to the investigation. DIA may also gather relevant evidence from witnesses or other departments as appropriate.

e. Findings. DIA will use the preponderance of the evidence standard to determine if a policy violation has occurred.

5. Investigation Report and Referral

a. Preliminary Investigation Report and Access to Evidence. After completion of the investigative process, DIA will provide the Parties a Preliminary Investigation Report (PIR) and access to relevant evidence. The PIR will outline each of the allegations that potentially constitute a violation of this Policy, provide the timeline of the investigation, and fairly summarize the relevant evidence, participant statements, responses to questions, and documentary evidence. The PIR will also include a statement of finding of violation or no finding of violation and the related rationale. DIA will redact student identifiable information and other information that is confidential by law. DIA also reserves the right to redact the names of witnesses for confidentiality and privacy reasons, as well as to mitigate a perceived risk of retaliation. DIA will provide a copy of the PIR and access to the relevant evidence to the appropriate vice president, dean, or designee.

b. Opportunity to Respond. The Parties and their advisors will have ten (10) business days to review, inspect, and submit a written response to the PIR and the relevant evidence. The written response should include any additional fact(s) or witnesses who may provide relevant information. DIA will review and consider the responses received from the Parties, if any, and determine whether further investigation is warranted.

c. Discipline Decision-maker Review of PIR. The PIR will be provided to the appropriate discipline decision-maker, who may consult with DIA before the report is finalized regarding the investigation process, evidence collected, and the rationale provided for the determination of a finding or no finding of violation.

d. Completed Investigation Report and Referral. After the completion of the investigation, DIA will make a determination regarding resources available to the Parties; and a statement requesting confidentiality by the Parties to preserve the integrity of the investigation; and A statement regarding the Parties' duty to cooperate; Information regarding the Parties' duty to cooperate; Information regarding resources available to the Parties; and Contact information for the DIA investigator assigned to the formal investigation.

The vice president, dean, or designee will inform the Parties, DIA, and the appropriate department head in writing of the decision.

G. Right to Advisor

The Complainant(s) and the Respondent(s) may be accompanied by an advisor, who may be an attorney, to any meeting or interview with DIA. No advisor may examine witnesses or otherwise actively participate in a meeting or interview. An individual may only have one advisor present at a time.

H. Submission of Evidence

During an initial review or formal investigation, the Complainant(s) and the Respondent(s) should provide DIA with all relevant evidence in their care, custody, or control. They should also identify any witnesses that they believe have relevant information. Any witness list should include a summary of the information the witness can provide regarding the issues raised in the Complaint.

I. Miscellaneous

1. Grievance of a Disciplinary Action

a. Any employee disciplined pursuant to this Policy, except faculty, teaching assistants, assistant instructors or members of the University of Texas Police Department (each of whom are subject to separate procedures [p. 4] [p. 4] [p. 4]), may
grieve that action by submitting a written grievance, within ten (10) business days of the imposition of the disciplinary action, to the President's Office. Ordinarily, the President will assign responsibility for review and action on the appeal of the vice president's action to another vice president; however, when required by unusual circumstances, the President may review and handle a grievance pursuant to this Policy.

b. If the disciplinary action that is being grieved does not involve termination, demotion, or suspension without pay, the vice president will thoroughly review and finally decide the matter within thirty (30) calendar days of its receipt unless unusual circumstances require more time.

c. If the disciplinary action that is being grieved involves the termination, demotion or suspension without pay of an employee who is covered by HOP 5-2420 the vice president who is assigned to review the grievance will follow the procedures for appealing such actions contained in that section. Complainants will be required to appear and testify at hearings that may be a part of such proceedings.

d. Any student disciplined under this Policy has the right to appeal as provided in General Information Catalog, Appendix C, Chapter 11-I.

2. Effect on Pending Personnel Actions

The filing of a Report or Complaint under this Policy will not stop or delay any personnel/academic actions including: (1) any evaluation or disciplinary action relating to a person who is not performing up to acceptable standards or who has violated University rules or policies; (2) any evaluation or grading of students participating in a class, or the ability of a student to add/drop a class, change academic programs, or receive financial reimbursement for a class; or (3) any job-related functions of a University employee. Nothing in this section shall limit the University's ability to take interim action or execute an emergency removal.

3. Relationship of Complaint Process to Outside Agency Time Limits

The filing of a Discrimination or Harassment Complaint does not excuse the Complainant from meeting deadlines set by law or an outside administrative agency.

4. Time Frames

DIA may extend the time frames mentioned in this Policy at its discretion.

5. Documentation and Confidentiality

The University will maintain documents related to Complaints under this Policy as required by law. The Office of the Dean of Students will be responsible for records related to Complaints against students.

DIA will be responsible for records related to Complaints against non-students. The confidentiality of a Complaint under this Policy and all documents, correspondence, interviews and discussions relating to the investigation of the information contained in a Complaint will be maintained on a need-to-know basis to the extent permitted by law. Any person who knowingly and intentionally makes an unauthorized disclosure of confidential information contained in a Complaint or otherwise relating to the investigation of a Complaint under this Policy is subject to disciplinary action. The University may release information in the event of a lawsuit, official inquiry, or administrative action.

For Assistance: Questions regarding this policy should be directed to DIA.

Appendix J: Prohibition of Campus Violence

The University of Texas at Austin is committed to creating and maintaining an environment that is free from threatening and violent behavior. Such behavior while on University owned or controlled property, or while engaged in official University business, will not be tolerated. The University encourages students, faculty, staff, visitors and contractors to promptly report any emergency or crime to University Police (UTPD). The University will respond promptly, positively, and aggressively to deal with threatening and violent behavior.

I. General Policy Guidelines

A. Scope
This policy applies to the conduct of any person on University premises or at University sponsored activities, including faculty, students, staff, visitors or contractors while on University owned or controlled property, or while engaged in official University business.

B. Definitions
Violent behavior includes any behavior, whether intentional or reckless, which results in bodily injury to one’s self, another person and/or damage to property.

Threatening behavior includes any behavior, whether intentional or reckless, that by its nature would be interpreted by a reasonable person as an intent to harm one’s self, another person or damage property belonging to another. Threats may be oral, written, or communicated through conventional mail, electronic, fax, or telephonic means and may be direct or implied.

Campus violence encompasses threatening and violent behavior. Campus violence can include, but is not limited, to the following:

- Physically assaulting a person, including slapping, hitting, punching, pushing, poking or kicking; or physical threats to inflict physical harm;
- Arson, sabotage, equipment vandalism, damaging or destroying property, throwing or hitting objects;
- Displaying a weapon or an object which appears to be a weapon in a threatening manner, carrying a firearm of any kind onto University-owned or University-controlled property (except those permitted by state law or University policy 8-1060, Campus Carry, of the Handbook of Operating Procedures); or using a weapon to harm someone;
- Using greater physical size/strength to intimidate another; intimidating or threatening gestures, bullying, or hazing;
- Intimidating, threatening, hostile, or abusive language directed toward another person that communicates the intention to engage in violence against that person and leads a reasonable person to expect that violent behavior may occur;
- Stalking another person.

C. Campus Violence Prohibited
Any person who engages in campus violence while on University owned or controlled property, or while engaged in official University business, may be removed and/or barred from the premises pending the outcome of an investigation.

II. Procedures

A. Reporting Immediate Emergencies or Crimes
Any individual who experiences, is aware of, or witnesses campus violence, or who has reason to suspect that campus violence is occurring that may be of a criminal nature or poses clear and present danger should immediately dial “911.” The emergency dispatcher will direct the call to the University of Texas Police Department or the Austin Police Department as appropriate. In addition, the university department head where the incident occurred should be informed.

B. Reporting Less Immediate Threats
Every supervisor, administrator and university official is responsible for responding promptly and thoroughly to allegations of campus violence and for reporting such behavior through normal lines of administrative responsibility. For assistance the incident may also be reported directly to the Behavior Concerns Advice Line (BCAL) at (512) 232-5050 or at the website. The caller will be advised how to proceed and/or will be routed to the appropriate resource.

- Incidents involving staff members shall be directed to the Associate Vice President for Human Resources. The Associate Vice President for Human Resources will contact the appropriate officials and department personnel to address the potential campus violence.
- Incidents involving students shall be directed to the Office of the Dean of Students. The Office of the Dean of Students will contact the appropriate officials and department personnel to address the potential campus violence.

C. Protective or Restraining Orders
Any member of the University community who takes out a protective or restraining order against another person, or receives a protective or restraining order which lists University owned or leased premises as a protected area, shall provide their supervisor and The University of Texas at Austin Police Department with a copy of such order along with a photograph of the person against whom the order has been issued when possible.

D. Sanctions
Indians who violate this policy may be removed from campus, arrested and be subject to legal action. University employees and students who violate this policy may also be subject to disciplinary action up to and including dismissal.

E. Filing of False Reports
Any person who knowingly and intentionally files a false report shall be subject to disciplinary action that may include dismissal, expulsion, and/or legal action.

F. Documentation and Confidentiality
The University shall document the report and the investigation. Such documentation shall be retained by The University of Texas at Austin Police Department or the appropriate office listed in II.B. above. Subject to the provisions of the Texas Public Information Act, Chapter 552, Texas Government Code, the University will maintain the confidentiality of the report and the identity of the reporter during the investigation. The identity of the reporter and perpetrator may become apparent, or disclosed, as a result of the actions taken to resolve the investigation.

G. Retaliation Prohibited
A faculty, student, or staff member who retaliates in any way against an individual who has brought a complaint in good faith pursuant to this policy or participated in good faith in an investigation of such a complaint, is subject to disciplinary action, including dismissal.

For assistance: Questions regarding campus violence should be directed to Human Resource Services or the Office of the Dean of Students.

Policy Website: Handbook of Operating Procedures, B-1010

Appendix K: Student Travel Policy for University-Organized or Sponsored Events

A. Policy Statement
It is the policy of The University of Texas at Austin to promote safe travel by students to and from certain events and activities covered by this policy.

B. Scope
This policy applies to the travel of enrolled undergraduate or graduate students to attend activities or events that are organized and/or sponsored by The University of Texas at Austin and occur...
more than twenty-five (25) miles from the University campus or an event that has a duration of 24 hours or more.

The types of activities and events covered by this policy include course-related field trips, Recreational Sports club trips, the activities of sponsored student organizations, and meetings of academic organizations where a student is officially representing the University.

The policy does not apply to travel undertaken by students to attend out of town athletic events, or to engage in student-teaching, internships, practicums, observations or research, unless the research is organized by a University employee.

C. Definitions

1. A sponsored event is one that the University endorses by supporting it financially, or by sending students to participate in it as official representatives of the University.
2. An organized event is one that is initiated, planned, and arranged by the members of a sponsored student organization, and is approved by an appropriate administrator.
3. An event that has a duration of 24 hours or more.
4. A travel are within the course and scope of the University's mission, and that student safety issues have been addressed, travel undertaken pursuant to this policy must be authorized in advance by an appropriate administrator.
5. To request authorization, members of the faculty, staff or sponsored student organizations who organize activities covered by this policy must submit a completed Student Travel Request Authorization form, along with the required documents and information, to the appropriate administrator for approval. The request must be submitted at least five (5) business days in advance of travel to the activity or event.

D. Travel Authorization

In order to assure that the events or activities that involve student travel are within the course and scope of the University’s mission, and that student safety issues have been addressed, travel undertaken pursuant to this policy must be authorized in advance by an appropriate administrator.

1. To request authorization, members of the faculty, staff or sponsored student organizations who organize activities covered by this policy must submit a completed Student Travel Request Authorization form, along with the required documents and information, to the appropriate administrator for approval. The request must be submitted at least five (5) business days in advance of travel to the activity or event.
2. The following information/documents must be submitted along with the Travel Authorization Request form:
   a. A list of participants including their names and EID.
   b. The name, phone number, and address of lodgings, if applicable.
   c. The date and time of the arrival and departure from lodgings, if applicable.
   d. The date and time of the departure and return to campus.
   e. The name and phone number for the responsible University employee(s) who will be available to the students at all time during the travel and activity.
   f. Copies of valid operators’ licenses for any students who will operate vehicles.
   g. A schedule for the trip that includes travel, planned activities, meals, and sleep period(s). Organizations utilizing personal vehicles for travel must allow for travelers to have at least 6 hours of sleep before driving.
3. When leading group trips, faculty or staff must collect and take a copy of the following documents and information with them on the trip:
   a. A list of the names, phone numbers, and the name and number of an emergency contact for each participant;
   b. Copies of valid operators’ licenses for any participants who will operate vehicles; and
   c. Copies of current medical insurance certificates or a copy of both sides of an insurance group membership card for each person who wishes to participate in the activity or event. Purchase of a reasonably priced, short-term special events policy can be arranged by Student Activities on behalf of students who do not have, or cannot verify, current medical coverage. Information concerning this coverage is available from Student Activities, (512) 471-3065.
   d. Completed and signed Release and Indemnification Agreements for each participant.
   e. Completed and signed Authorization for Medical Treatment forms for each participant.
4. Faculty who teach courses that involve frequent field trips can collect the following information from students at the beginning of each semester and keep it on file with the appropriate administrator for use throughout a semester:
   • Proof of current medical insurance
   • Completed and signed medical authorization forms
   • Completed and signed release and indemnification agreements (a single release and indemnification agreement may be used if a single description fits all the proposed trips)
   • Proof of a valid vehicle operator’s license for students who will operate vehicles
5. One-time approval can be provided for multiple trips led by faculty or staff that involve the same locations and same participants.
6. The Travel Authorization Request, the Authorization for Medical Treatment, and the Release and Indemnification Agreement forms are available from the Office of the Vice President of Student Affairs or can be downloaded from the Student Travel website.

E. Travel by Motor Vehicle

1. Compliance with Laws and Policies
   a. Motor vehicles used for travel covered by this policy shall have a current proof of liability insurance card and a state inspection certification.
   b. Travel undertaken by means of fifteen passenger vans must comply with the requirements of The University of Texas System’s Business Procedure Memorandum 16.5.2.
2. Vehicle Operator Requirements
   a. All students who will operate vehicles while engaged in travel covered by this policy must have a valid operator’s license and be trained as required by law to drive the vehicle that will be used.
   b. Operators shall comply with all laws, regulations and posted signs or directions regarding speed and traffic control.
   c. Operators shall take a mandatory 30-minute rest break every four hours.
   d. Operators shall drive no more than ten hours in any 24 hour period.
   e. Trips requiring more than 10 hours driving time to reach a point of destination shall require overnight lodging.
   f. A navigator shall be assigned for all trips scheduled to take more than two hours. The navigator must stay awake while on duty.
3. Safety Requirements for Both Operators and Passengers
   a. Seat Belts. Occupants of motor vehicles shall use seat belts or other approved safety restraint devices required by law or regulation at all times when the vehicle is in operation.
   b. Alcohol and Illegal Substances. Occupants of motor vehicles shall not possess, consume, or transport any alcoholic beverages or illegal substances.
c. **Passenger Capacity.** The total number of passengers in any vehicle at any time it is in operation shall not exceed the manufacturer’s recommended capacity, or the number specified by University policy, or federal or state law or regulations, whichever is lowest.

4. **Travel by Rental Vehicle**
Rentals of vehicles to use for travel to activities or events covered by this policy are governed by the following guidelines:

a. **Vehicle Reservations**
The University is a participant in the State Travel Management Program, which has negotiated favorable vehicle rental rates with a number of car rental companies. While use of one of the University’s travel agencies is not required, doing so will help assure that: 1) vehicles are rented pursuant to the State Travel Management plan whenever possible; 2) that vehicle rental agreements are valid; and 3) that necessary insurance coverage has been purchased. Information concerning those agencies is available from the University Travel Management Services website.

b. **Payment of Costs for Rental Vehicles**
Vehicle rental charges can be a) billed centrally to University Travel Management Services; or b) billed directly to those Departments or Divisions that have uniquely numbered accounts with state contract car rental companies. If the rental costs are to be centrally billed, it will be necessary for the driver to obtain a voucher from the University’s Travel Management Services prior to picking up the rental vehicle.

If necessary, personal credit cards may be used to rent vehicles for travel covered by this policy, and cardholders will be reimbursed for appropriate and approved costs. If rentals are from companies that are not under the state contract, the reimbursement amount will be limited to that which would have been incurred for equivalent state contract rentals.

5. **Insurance Coverage**

1. **Rentals from companies participating in the State Travel Management Program.** Loss/Damage Waiver and Primary Liability insurance coverage are automatically included in the rates charged by companies participating in the State Travel Management Program. That protection does not cover injuries to persons or possessions inside a rental vehicle. Therefore, it is suggested that the personal injury insurance protection and the personal effects insurance protection offered by rental companies be purchased for student travel covered by this policy, particularly if there will be numerous passengers in the vehicle. The cost of the extended coverage is reimbursable only from funds held in 18, 19, 26, 29, and 30 accounts.

2. **Rentals from non-state contract rental companies.**
If no state contract cars are available and it is necessary to rent vehicles from non-contract companies, then both the Loss/Damage Waiver and Primary Liability Coverage must be purchased unless the rental is charged to a University issued Diner’s Club card. It is suggested that the personal injury insurance protection and the personal effects insurance protection offered by rental companies be purchased for student travel covered by this policy, particularly if there will be numerous passengers in the vehicle. The cost of the extended coverage is reimbursable only from funds held in 18, 19, 26, 29 and 30 accounts.

3. **Travel by Means of a Vehicle Owned or Leased Long-Term by the University**
In addition to complying with the general rules set out above, travel by means of a vehicle that is owned or leased long-term (for a period of more than one year) by the University must comply with the following requirements:

a. **Proof of Insurance, Inspection, and Safety Devices**
Vehicles used for travel activity covered by this policy must:
   1. Have a current proof of liability insurance card;
   2. Have a valid state inspection sticker;
   3. Have all devices or equipment required by federal or state law or regulations and any applicable UT System policy; and
   4. Comply with any other applicable federal or state law or regulation and any applicable UT System policy.

b. **Service and Maintenance**
A University-owned or long-term leased vehicle used for student travel under this policy must be subject to scheduled periodic service and maintenance by qualified persons and comply with all applicable requirements of any UT System policy.

c. **Employee Operators**
All operators of vehicles described in this section shall be on the payroll of The University of Texas at Austin. All operators must have a valid license for the operation of a particular vehicle; must be authorized to operate the vehicle in accordance with UT System policy; and have a current BMDRIV rating on file. Human Resources or the Controller’s Office can be contacted for information on how employees may obtain a rating.

4. **Travel by Privately Owned Vehicles**
The use of personal vehicles by students for travel to events covered by this policy is strongly discouraged.

a. When requesting authorization for travel that involves the use of personally owned vehicles, the requestor, in addition to submitting the information described in Part D.2., shall also submit a copy of a current liability insurance certificate for any vehicle to be used for the proposed travel.

b. The persons responsible for the proposed activity and travel shall inform students who will drive their privately owned vehicles that their personal liability insurance policy will be looked to first to cover any liability that may result from the use of the vehicle for the proposed travel.

5. **Volunteer Drivers and Passengers**
Non-student/non-employee drivers and passengers who accompany students on travel covered by this policy must sign the Release and Indemnification and the Authorization for Medical Treatment forms prior to the trip. Forms can be downloaded at the Student Travel website.

For assistance: Questions regarding this policy should be directed to the Office of the Vice President for Student Affairs.

Appendix L: Student Travel Policy for Registered Student Organizations

A. Policy Statement
It is the policy of The University of Texas at Austin to promote safe travel by members of its registered student organizations to certain events and activities.

B. Scope
This policy applies to the travel of student members of a registered student organization when the registered student organization requires or coordinates an activity or event for its student members and the activity or event occurs more than twenty-five miles from the campus of the University, or when members attend an activity or event that involves any overnight stay.

C. Trip Approval Requirements
1. Registered student organizations that organize events or activities covered by this policy must obtain prior authorization from the Office of the Dean of Students, Student Activities.
2. To obtain authorization to travel, the registered student organization must apply through a process prescribed by the dean of students. The request must be submitted at least five business days prior to the proposed trip, along with the following information:
   a. A list of the names and EIDs for each participant;
   b. The name, phone number, and address of lodgings, if applicable;
   c. The date and time of the arrival and departure from lodgings, if applicable;
   d. The date and time of the departure and return to campus;
   e. A list of valid operators’ driver license names and numbers for any participants who will operate vehicles;
   f. A list of valid liability insurance policy numbers and insurance carriers that will cover any participants who will operate the vehicles and cover the vehicles operated; and
   g. A schedule for the trip that includes travel, planned activities, meals, and sleep period(s). Organization utilizing personal vehicles for travel must allow for travelers to have at least 6 hours of sleep before driving.
3. The registered student organization must collect and take a copy of the following documents and information with them while on the trip:
   a. A list of the names, phone numbers, and the name and number of an emergency contact for each participant;
   b. A list of valid operators’ license names and numbers for any participants who will operate vehicles; and
   c. Copies of current medical insurance certificates or a copy of both sides of an insurance group membership card for each person who wishes to participate in the activity or event. Purchase of a reasonably priced, short-term medical insurance policy can be arranged by Student Activities on behalf of students who do not have, or cannot verify, current medical coverage. Information concerning this coverage is available from Student Activities, (512) 471-3065.

D. Travel by Motor Vehicle
1. Compliance with State Law
Motor vehicles used for travel covered by this policy shall have a current proof of liability insurance card and a current state registration.

2. Vehicle Operator Requirements
   a. All students who will operate vehicles while engaged in travel covered by this policy must have a valid operator’s license, valid insurance, and be trained as required by law to drive the vehicle that will be used.
   b. Operators of motor vehicles shall comply with all laws, regulations, and posted signs or directions regarding speed and traffic control.
   c. Operators shall drive no more than four hours without a minimum rest stop of thirty minutes.
   d. Operators shall drive no more than ten hours in any twenty-four-hour period.
   e. Members must assign a navigator for trips if more than one member is traveling. The navigator shall remain awake while on duty. The navigator’s responsibility is to assist with way finding and route planning.
   f. Trips requiring more than ten hours of driving time shall include overnight lodging.

3. Safety Requirements for Both Operators and Passengers
   a. Seat Belts. Occupants of motor vehicles shall use seat belts or other approved safety restraint devices required by law or regulation at all times when the vehicle is in operation.
   b. Alcohol and Illegal Substances. Occupants of motor vehicles shall not possess, consume, or transport any alcoholic beverages or illegal substances.
   c. Passenger Capacity. The total number of passengers in any vehicle at any time it is in operation shall not exceed the manufacturer’s recommended capacity, or the number specified by University policy, UT System Policy 157, or federal or state law or regulations, whichever is lowest.

E. Non-Compliance
This applies to any organization that falls within the scope of this policy. Failure or refusal to comply with this policy may result in the Dean of Students initiating disciplinary proceedings under subchapter 6-500 and/or subchapter 11-500 of the Institutional Rules.

For assistance: Questions regarding this policy should be directed to the Office of the Dean of Students, Student Activities.

Policy Website: Handbook of Operating Procedures, 9-1410

Appendix M: Use of E-mail for Official Correspondence to Students

A. Policy Statement
Electronic mail (e-mail), like postal mail, is a mechanism for official University communication to students. The University will exercise the right to send e-mail communications to all students, and the University will expect that e-mail communications will be received and read in a timely manner.

B. Scope
This policy applies to all admitted and enrolled students of The University of Texas at Austin. Official communications using e-mail can include e-mail to a group, such as all admitted students, or an e-mail message to only one student.

C. E-mail Addresses
Every student must provide the University with their official e-mail address using the online update form in UT Direct. The student's
official e-mail address is the destination to which the University will send official e-mail communications.

It is the responsibility of every student to keep the University informed of changes in their official e-mail address. Consequently, e-mail returned to the University with “User Unknown” is not an acceptable excuse for missed communication.

All admitted and enrolled students may create or manage an e-mail address at no additional cost as provided by Information Technology Services (ITS). Information on obtaining an e-mail address is given at the ITS website. ITS is responsible for providing centrally managed email services and addresses that assist the University in sending official communications.

The University cannot be responsible for the handling of e-mail by outside vendors (e.g., @aol.com, @hotmail.com) or by University departmental servers.

D. Expectations Regarding Frequency of Reading E-mail
Students are expected to check e-mail on a frequent and regular basis in order to stay current with University-related communications, recognizing that certain communications may be time-critical. It is recommended that e-mail be checked daily, but at a minimum, twice per week. Regular e-mail management will also minimize the risk that the inbox will be full, causing the e-mail to be returned to the sender with an error. Undeliverable messages returned because of either a full inbox or use of a spam filter will be considered delivered without further action required of the University.

E. Privacy and Confidentiality
Official University communications sent by e-mail are subject to the same public information, privacy, and records retention requirements and policies as other official University communications.

F. Instructional Uses of E-mail
Faculty members retain autonomy in determining how e-mail or other forms of electronic communication will be used in their classes, but they must specify the requirements in the course syllabus. Faculty may expect that students are checking e-mail regularly, and faculty members may use e-mail for their courses accordingly.

G. Authoritative Source
The authoritative source on this policy and responsibility for its implementation rest with the Chief Information Officer.

H. For Assistance
Contact the Service Desk for technical support at (512) 475-9400 or send e-mail to the help@utexas.edu.

Appendix N: Student Travel Policy for International Locations

A. Policy Statement
It is the policy of The University of Texas at Austin to promote safe international travel for students participating in activities and/or events covered under this policy. Under this policy, the University reserves the right to cancel any international activity and/or require UT students to depart their international location due to health, safety and/or other concerns, to include academic and disciplinary misconduct. Current travel policy and Restricted Region travel information can be found on the Texas Global website.

B. Scope
This policy applies to the travel of enrolled undergraduate, graduate, or professional students attending activities and/or events (whether required or optional) that occur in an international location (including U.S. protectorates and insular areas). This policy applies to UT-affiliated student travel with or without university funding.

The types of activities and events covered by this policy include:

- trips organized and/or sponsored by The University of Texas at Austin that are part of or contribute to an academic course or degree program, including internships, practicums, and research;
- academic-related international service learning, internships, practicums, research, and volunteer opportunities organized and/or sponsored by The University of Texas at Austin;
- travel by members of a registered student organization regardless of whether or not the organization requires its student members to attend the activity or event;
- other trips organized and/or sponsored by The University of Texas at Austin, including the activities of sponsored student organizations;
- travel to meetings of academic-related, professional associations including conferences; and
- official education abroad programs.

C. Definitions
1. An organized event is one that is initiated, planned, and arranged by a member of the University’s faculty or staff, or by the members of a sponsored student organization, and is approved by an appropriate administrator.
2. A sponsored event or activity is one that the University endorses by supporting it financially, or by sending students to participate in it as official representatives of the University.
3. An enrolled student is one who has been admitted to and is attending classes at the University.
4. An appropriate administrator is a dean, department chair, or director of an administrative unit, or their delegate.

D. Travel Authorization
In order to assure that events or activities which involve student international travel are within the course and scope of the University’s mission, and that student safety issues have been addressed, international travel undertaken pursuant to this policy must be authorized in advance by an appropriate administrator. There are two methods to obtain travel authorization:

1. Acceptance into an officially recognized exchange, affiliate or faculty led program.
2. Receive individual or group travel authorization through the Student Travel Policy for International Locations (STPIL). Complete the steps to obtain travel authorization as outlined by the on the Texas Global website. STPIL documents require the approval signature as outlined below. Once approved, the individual, organization or group may begin travel.
3. Obtain approval to travel to a Restricted Region. Participants must comply with the requirements set forth by the International Oversight Committee (IOC). Current policy and procedure can be found on the Texas Global Restricted Regions website.

Total number of degrees conferred in all colleges and schools 6,665 8,000 14,665 396,341 B37,948 B34,289

1. Figures are given by academic year for the years complete at the time of publication. The number of degrees conferred is accurate as of the date of publication. Changes to the data, if any, will be reflected in the "Total Conferred" columns of the next General Information.
Comparative Studies were moved to the College of Liberal Arts. In spring 1979, degrees in the College of Humanities, the College of Natural Sciences, the College of Social and Behavioral Sciences, and the Division of General and Comparative Studies were conferred instead in the College of Arts and Sciences.

Prior to 1998–1999, the Doctor of Pharmacy was conferred in the Graduate School. In 1998–1999, the degree was awarded in both the Graduate School and the College of Pharmacy; thereafter it was awarded in the College of Pharmacy.

Prior to the long session 1951–1952, the School of Architecture was a part of the College of Engineering.

Prior to 2000–2001, the Bachelor of Science in Interior Design was conferred in the College of Natural Sciences. In 2000–2001, the degree was awarded in both the College of Natural Sciences and the School of Architecture.

After the long session 1970–1971, degrees previously conferred by the College of Arts and Sciences were awarded in the Colleges of Humanities, Natural Sciences, and Social and Behavioral Sciences and the Division of General and Comparative Studies. Beginning with the spring semester 1979, the degrees for the Colleges of Humanities and Social and Behavioral Sciences and the Division of General and Comparative Studies have been awarded in the College of Liberal Arts.

Prior to the long session 1965–1966, the Bachelor of Journalism degree was conferred in the College of Arts and Sciences. Total numbers of Bachelor of Journalism degrees conferred up to that time were: men, 911; women, 850; both, 1,761. These totals are now listed in the College of Communication and are not included in the totals for the College of Arts and Sciences.

Prior to 1990–1991, the Bachelor of Science in Kinesiology was designated the Bachelor of Science in Physical Education.

The Bachelor of Science in Geosystems Engineering and Hydrogeology is offered jointly by the Cockrell School of Engineering and the Jackson School of Geosciences.

Prior to February 1969, the Bachelor of Arts in Art was designated Bachelor of Science in Art.

In spring 1997, the Bachelor of Arts in Drama and the Bachelor of Arts in Dance were replaced by the Bachelor of Arts in Theatre and Dance.

Prior to February 1969, the Bachelor of Arts in Drama was designated Bachelor of Science in Drama. In spring 1997, the Bachelor of Arts in Drama and the Bachelor of Arts in Dance were replaced by the Bachelor of Arts in Theatre and Dance.

Prior to February 1969, the Bachelor of Arts in Music was designated Bachelor of Science in Music.

Beginning in summer 1971, the degrees formerly conferred in the College of Arts and Sciences were conferred instead in the College of Humanities, the College of Natural Sciences, the College of Social and Behavioral Sciences, and the Division of General and Comparative Studies. In spring 1979, degrees in the College of Humanities, the College of Social and Behavioral Sciences, and the Division of General and Comparative Studies were moved to the College of Liberal Arts.

The Bachelor of Arts with a major in geological sciences and the Bachelor of Science in Geological Sciences were conferred in the College of Natural Sciences through summer 2006; in fall 2006, they were conferred in both the College of Natural Sciences and the Jackson School of Geosciences; since spring 2007, they have been conferred only in the Jackson School.

Beginning in summer 1971, the degrees formerly conferred in the College of Arts and Sciences were conferred instead in the College of Humanities, the College of Natural Sciences, the College of Social and Behavioral Sciences, and the Division of General and Comparative Studies. In spring 1979, degrees in the College of Humanities, the College of Social and Behavioral Sciences, and the Division of General and Comparative Studies were moved to the College of Liberal Arts.

Prior to April 1969, this degree was designated Bachelor of Laws.

Prior to the summer session 1971, degrees in the Colleges of Humanities and Social and Behavioral Sciences and the Division of General and Comparative Studies were conferred in the College of Arts and Sciences. Beginning with the spring semester 1979, these degrees have been awarded in the College of Liberal Arts.

Prior to 1998–1999, the Doctor of Pharmacy was conferred in the Graduate School. In 1998–1999, the degree was awarded in both the School of Architecture and the College of Liberal Arts. Since 1988–1989, the degree has been awarded in the College of Liberal Arts.

The Bachelor of Arts with a major in geological sciences was conferred in the College of Natural Sciences through summer 2006; in fall 2006, it was conferred in both the College of Natural Sciences and the Jackson School of Geosciences; since spring 2007, it has been conferred only in the Jackson School.

In fall 2000, the Bachelor of Science in Clinical Laboratory Science replaced the Bachelor of Science in Medical Technology.

The Bachelor of Science in Geological Sciences was conferred in the College of Natural Sciences through summer 2006; in fall 2006, it was conferred in both the College of Natural Sciences and the Jackson School of Geosciences; since spring 2007, it has been conferred only in the Jackson School.

Prior to the summer session 1992, this degree was designated Bachelor of Science in Home Economics.

Prior to the summer session 1992, this degree was designated Bachelor of Science in Home Economics. Through 1999–2000, the Bachelor of Science in Interior Design was conferred in the College of Natural Sciences; in 2000–2001, it was awarded in both the College of Natural Sciences and the School of Architecture.

In fall 2000, the Bachelor of Science in Medical Technology was replaced by the Bachelor of Science in Clinical Laboratory Science.

Prior to the summer session 1992, this degree was designated Bachelor of Science in Home Economics.

Between 1929 and 1943, the Bachelor of Science in Nursing degree was conferred in the College of Arts and Sciences. Eleven women graduated in the program.

Prior to 1998–1999, the Doctor of Pharmacy was conferred in the Graduate School. In 1998–1999, the degree was awarded in both the
Graduate School and the College of Pharmacy; thereafter it was awarded in the College of Pharmacy.

31. Prior to summer session 1971, degrees in the Colleges of Humanities, Natural Sciences, and Social and Behavioral Sciences and the Division of General and Comparative Studies were conferred in the College of Arts and Sciences. Beginning with the spring semester 1979, the degrees for the Colleges of Humanities and Social and Behavioral Sciences and the Division of General and Comparative Studies have been awarded in the College of Liberal Arts.

32. The degree is offered by the Jackson School of Geosciences with a major in geological sciences, and by the College of Natural Sciences with a major in biological sciences. The degree programs share common prescribed work, but each major has its own specific requirements.

33. In fall 2018, the Bachelor of Arts in Art was replaced in the College of Fine Arts by the Bachelor of Arts.

1. Prior to the session of 1929–30, the summer session figures are grouped with the following fall semester and the extension year used is the September 1–August 31 year preceding the fall semester. Beginning with the session of 1929–30, statistics are given for the academic year (September 1–August 31), the summer session being grouped with the preceding fall semester, and the extension year used being the September 1–August 31 year concurrent with the fall semester and summer session indicated.

2. Because of the change in the method of recording enrollment figures, as explained in footnote 1, the figures for the 1929 summer session and the 1928–1929 extension year are given separately.

Texas Common Course Numbering System

To help students transfer credit from one institution to another, Texas community colleges employ a statewide numbering system for their courses. The Texas Common Course Numbering system (TCCN) is a standard set of four-character abbreviations for academic disciplines and four-digit course numbers. The first digit of the number represents the academic level of the course (0 for subfreshman, 1 for freshman, and 2 for sophomore); the second represents the semester credit hour value.
of the course. Texas public universities, and some private ones, cross-
reference their courses with TCCN.

Listed below are TCCN course designations and their University transfer
credit evaluations. In the University’s three-digit numbering system, the
first digit indicates the semester credit hour value of the course. The
suffixes A and B indicate the first and second parts of a course; credit for
each part is half the value indicated by the first digit.

A I - Artificial Intelligence

Artificial Intelligence: A I

Lower-Division Courses

Upper-Division Courses

Graduate Courses

A I 388. Natural Language Processing.

Introduction to three key foundational problems in AI: planning, search, and reasoning under uncertainty. Investigate how to define planning domains, including representations for world states and actions, covering both symbolic and path planning. Study algorithms to efficiently find valid plans with or without optimality, and partially ordered, or fully specified solutions. Three lecture hours a week for one semester. Only one of the following may be counted: Artificial Intelligence 388 and Computer Science 388. Prerequisite: Graduate standing, and a course in artificial intelligence or consent of instructor.

Graduate Courses

A I 389L. Automated Logical Reasoning.

Explore automated reasoning techniques for propositional logic, first-order logic, linear arithmetic over reals and integers, theory of uninterpreted functions, and combinations of these theories. Examine automated logical reasoning both from a theoretical and practical perspective, including building useful tools, such as SAT and SMT solvers. Three lecture hours a week for one semester. Only one of the following may be counted: Computer Science 389L, 395T (Topic: Planning Search and Reasoning). Prerequisite: Graduate standing; and knowledge of undergraduate data structures, algorithms, and complexity; and prior knowledge in probability theory or statistics.

A I 391L. Machine Learning.

Explore computer systems that automatically improve their performance with experience, including various approaches to inductive classification such as version space, decision tree, rule-based, neural network, Bayesian, and instance-based methods; as well as computational learning theory, explanation-based learning, and knowledge refinement. Three lecture hours a week for one semester. Only one of the following may be counted: Artificial Intelligence 391L, Computer Science 391L, Data Science 391L. Prerequisite: Graduate standing, and Computer Science 381K or equivalent knowledge of artificial intelligence and LISP.

A I 394D. Deep Learning.

Explore the basic building blocks and intuitions behind designing, training, tuning, and monitoring of deep networks. Examine both the theory of deep learning, as well as hands-on implementation sessions in pytorch. Explore a series of application areas of deep networks in: computer vision, sequence modeling in natural language processing, deep reinforcement learning, generative modeling, and adversarial learning. Three lecture hours a week for one semester. Only one of the following may be counted: Artificial Intelligence 394D, Computer Science 394D, Data Science 394D, 395T (Topic: Deep Learning). Prerequisite:
Graduate standing, and experience in artificial intelligence and machine learning.

Introduction to the theory and practice of modern reinforcement learning, with emphasis on temporal difference learning algorithms. Three lecture hours a week for one semester. Artificial Intelligence 394R and Computer Science 394R may not both be counted. Prerequisite: Graduate standing.

A I 395T. Topics in Artificial Intelligence.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Professional Courses

AAR - Applied Archaeology

Applied Archaeology: AAR

Lower-Division Courses

Upper-Division Courses

Graduate Courses

AAR 380. Topics in Applied Archaeology.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Professional Courses

AAS - Asian American Studies

Asian American Studies: AAS

Lower-Division Courses

AAS 301. Introduction to Asian American Studies.
Same as American Studies 315 (Topic 1). Introduces the interdisciplinary study of Asian immigrants and Asian Americans in the United States. Explores key concepts, including immigration history, identity and community formation, cultural representation, and the intersections of race, class, gender, and sexuality. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 315 (Topic: Introduction to Asian American Studies), 315 (Topic 1), Asian American Studies 301, Sociology 308 (Topic: Introduction to Asian American Studies).

AAS 302. Immigration and Ethnicity.
Same as History 317L (Topic 18) and Mexican American Studies 316C. Examine the changing population of the United States from colonial times to present. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 302, 310 (Topic: Immigration and Ethnicity), History 317L (Topic: Immigration and Ethnicity), 317L (Topic 18), Mexican American Studies 316C, 319 (Topic: Immigration and Ethnicity).

AAS 310. Introductory Topics in Asian American Studies.
An introduction to Asian American studies through a variety of disciplines. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

   Topic 1: Psychological Perspectives on Asian American Identity.
Examines the unique culturally-influenced psychologies of various Asian American groups, including such concepts as identity formation, enculturation, assimilation and resistance, and racial and psychological normativity. Only one of the following may be counted:

   Topic 2: Race, Politics, and Identity in Asian America.
Same as Government 314 (Topic 7). An introduction to Asian American politics. Subjects include the American political process, and the historic and contemporary role of Asian Americans within that process. Only one of the following may be counted: Asian American Studies 310 (Topic: Race, Identity, and Politics in Asian America), 310 (Topic 2), Government 314 (Topic: Race, Identity and Politics in Asian America), 314 (Topic 7).

   Topic 3: Mixed Race Identities.
Same as American Studies 315 (Topic 2). Analyzes the historical and contemporary significance of issues of "race" and "mixing" in a North American context. Subjects include the situation of "mixed race" people throughout United States history; historical policies that have shaped racial formation in the United States; comparative conceptions of "mixed" people transnationally; and racial, ethnic, and cultural identity. Only one of the following may be counted: American Studies 315 (Topic: Mixed Race and the Media), 315 (Topic 2), Asian American Studies 310 (Topic: Mixed Race and the Media), 310 (Topic 3).

   Topic 4: Asian American Creative Arts.
Issues and identities shaped by issues of race, ethnicity, gender, immigration status, and family dynamics. These subjects are explored through production of literary, artistic, performance, or other creative projects. Only one of the following may be counted: American Studies 315 (Topic: Asian American Theatre and Dance), Asian American Studies 310 (Topic: Asian American Theatre and Dance), 310 (Topic 4), Theatre and Dance 311T (Topic: Asian American Theatre and Dance).

   Topic 5: Race, Immigration, and Family.
Same as American Studies 315 (Topic 3) and Women's and Gender Studies 301 (Topic 24). Introduction to family systems in the United States in a post-WWII framework with a central focus on Asian Americans. Students will investigate how gender, race, and ethnicity intersect and inform our understanding of the institution of the family. Only one of the following may be counted: American Studies 315 (Topic: Alternative Family Systems), 315 (Topic 3), Asian American Studies 310 (Topic: Alternative Family Systems), 310 (Topic 5), Women's and Gender Studies 301 (Topic: Alternative Family Systems), 301 (Topic 24).

   Topic 6: Asian American Film History.
Same as American Studies 315 (Topic 7). Only one of the following may be counted: American Studies 315 (Topic: Asian American Film History), American Studies 315 (Topic 7), Asian American Studies 310 (Topic: Asian American Film History), Asian American Studies 310 (Topic 6), Radio-Television-Film 301N (Topic: Asian American Film History).

AAS 312. Introduction to Asian American History.
Same as History 317L (Topic 4). Introduces students to the national and transnational histories of Asian Americans in the United States. Explores a wide range of themes related to the Asian American experience. Asian American Studies 312 and History 317L (Topic 4) may not both be counted.

AAS 314. Asian American Literature and Culture.
Same as English 314V (Topic 2). Explores how authors and artists over the course of the past century have imagined what it means to be Asian American. Covers a diverse range of Asian immigrant histories and the formation of Asian American identities according to ethnicity, gender, sexuality, class, and citizenship. Prerequisite: One of the following: English 303C, Rhetoric and Writing 306, 306Q, 309J (or 309K), or Tutorial Course 303C.

AAS 316D. Race, Deportation, and Diaspora.
Same as African and African Diaspora Studies 316D, American Studies 315R, and Latin American Studies 310F. Three lecture hours a week for
one semester. Only one of the following may be counted: African and African Diaspora Studies 310 (Topic: Race, Deportation, Diaspora), 316D, 317D (Topic: Race, Deportation, Diaspora), American Studies 315 (Topic: Race, Deportation, Diaspora), 315R, Asian American Studies 310 (Topic: Race, Deportation, Diaspora), 316D, Latin American Studies 310 (Topic: Race, Deportation, Diaspora), 310F.

AAS 318Q. Supervised Research.
For Asian American studies majors only. Supervised, student-derived research in Asian American studies. Individual instruction. May be repeated for credit when the research projects vary. Prerequisite: Rhetoric and Writing 306 and consent of the director of the Center for Asian American Studies.

Upper-Division Courses

AAS 320C. Contemporary Asian American Novels.
Same as English 343T. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 320 (Topic 3), 320D, English 343T, 376M (Topic 5). Prerequisite: One of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P, or Tutorial Course 303D.

AAS 320D. Asian American Media Cultures.
Same as Radio-Television-Film 359 (Topic 3). Examine popular and critical roles, representations, and politics of Asian Americans in U.S. media including Hollywood cinema, U.S. network and cable television, Asian American independent film, and online media. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 320 (Topic: Asian American Media Cultures), 320 (Topic 4), 320D, Radio-Television-Film 359 (Topic: Asian American Media Cultures), 359 (Topic 3). Prerequisite: Fifty-four semester hours of college coursework.

AAS 320F. Documenting Difference.
Explore the theory, history, practice and poetics of minority documentary, as well as the related fields of oral history and archiving with a particular emphasis on Asian American examples. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 320 (Topic: Documenting Difference), 320 (Topic 6), 320F, Radio-Television-Film 359S (Topic: Documenting Difference). Prerequisite: Fifty-four semester hours of college coursework.

AAS 320G. Race, Internet, and Social Media.
Same as American Studies 321 (Topic 12). Explores the critical, theoretical and practical analysis of race and new media. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: Race, Internet & Social Media), American Studies 321 (Topic 12), Asian American Studies 320 (Topic: Race, Internet & Social Media), Asian American Studies 320 (Topic 7), 320G, Radio-Television-Film 359 (Topic: Race, Internet & Social Media). Prerequisite: Upper-division standing.

Same as Asian Studies 372R. Examine a wide variety of Japanese popular media within the historical context during which these unique cultural forms developed. Focus on the popular manga and anime Japan has exported since becoming an economic superpower in the 1980s, the utopian/dystopian expression in Japanese sci-fi narratives of this era, and the complex interplay of gender and technology in the new post-human societies these narratives envision. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 320 (Topic: Jpn Pop Cul:Anime/Manga/Otaku), 320J, Asian Studies 372 (Topic: Jpn Pop Cul:Anime/Manga/Otaku), 372R. Prerequisite: Upper-division standing.

AAS 320K. Theorizing the Human.
Same as American Studies 370 (Topic 70) and Women's and Gender Studies 340 (Topic 77). Trace the continuities and transformations in constructions of populations as more or less human, fromsettler-colonial conquest to the post-Trump era. Examine what logics mark racialized populations as disposable during the colonization of the Americas, and which systematically condition racialized subjects to a state of enduringSiege. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 370 (Topic: On the Human), 370 (Topic 70), Asian American Studies 320K, Women's and Gender Studies 340 (Topic 77). Prerequisite: Upper-division standing.

AAS 325C. The Chinese in Diaspora.
Same as Asian Studies 361 (Topic 28) and History 350L (Topic 65). Explores narratives of migration, race, ethnicity, and a wide range of experiences of acculturation and assimilation from the perspective of a sending society—China—which has one of the longest and most diverse histories of sending people overseas. Over the last millennia, Chinese have migrated around the world and made homes under a great range of adversity and opportunity, producing many stories of human differences and commonalities. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 325 (Topic 2), 325C, Asian Studies 361 (Topic 28), History 350L (Topic 65). Prerequisite: Upper-division standing.

AAS 325D. The Chinese in the United States.
Same as Asian Studies 340S and History 340S. History of the Chinese in the United States from their first arrival in significant numbers during the California Gold Rush of the mid-nineteenth century to the present. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 325 (Topic: Chinese in the United States), 325 (Topic 3), 325D, Asian Studies 340S, History 340S. Prerequisite: Upper-division standing.

AAS 325E. Taiwan: Colonization, Migration, and Identity.
Same as Asian Studies 340T and History 340T. Explores issues of ethnicity, empire, and modernization in East Asia from the sixteenth century to the present, as seen through encounters between Taiwan and aborigines, Han Chinese, Dutch, Portuguese, the imperial Qing, Japanese, mainland Chinese Nationalist Party (KMT), and the United States. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 325 (Topic 4), 325E, Asian Studies 340T, History 340T. Prerequisite: Upper-division standing.

AAS 325F. The Two Koreas and the United States.
Same as Asian Studies 361 (Topic 24). The political, social, and cultural relationship between North and South Korea, and between the Koreas and the United States, since 1945. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: The Two Koreas and the US), Asian American Studies 325 (Topic: The Two Koreas and the US), 325 (Topic 7), 325F, Asian Studies 361 (Topic 24), Government 360N (Topic: The Two Koreas and the US), History 364G (Topic: The Two Koreas and the US). Prerequisite: Upper-division standing.

AAS 325G. History of the Southeast Asian Diaspora in the United States.
Same as History 365G (Topic 11). Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 325 (Topic 8), 325G, History 365G (Topic 11). Prerequisite: Upper-division standing.
AAS 325J. South Asian Migration to the United States.

AAS 325K. Refugees in Twentieth-Century United States.
Same as History 350R (Topic 37). Explores the history of refugees in the twentieth century, with special attention to the United States and its engagement in the international arena of refugee politics. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 325 (Topic: Refugees in 20th-Century US), 325 (Topic 10), 325K, History 350R (Topic: Refugees in 20th-Century US), 350R (Topic 37). Prerequisite: Upper-division standing and six semester hours of coursework in history.

AAS 325L. Global Economies: Asia and the United States.
Same as Asian Studies 361 (Topic 48). Examines key trends in the economies of the United States and Asia, with emphasis on the links between these two major trading blocs. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 325 (Topic: Global Economies: Asia & US), 325 (Topic 11), 325L, Asian Studies 361 (Topic: Global Economies: Asia & US), 361 (Topic 48). Prerequisite: Upper-division standing.

AAS 325M. Political Economy of Development in Postwar Korea.
Same as Asian Studies 361C. Explore the political economy of South Korean development during the postwar period. Examine the history, society, and culture of South Korea. Discuss compressed modernity, developmental state, social movements, gender politics, financial crisis, urbanization, migration, and recent globalization of Korean popular culture. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 325 (Topic: Pol Econ Devel Postwar Korea), 325M, Asian Studies 361 (Topic: Pol Econ Devel Postwar Korea), 361C. Prerequisite: Upper-division standing.

AAS 325N. Asian American Jurisprudence.
Same as American Studies 321T and Government 357V. Examine the historical development of United States law and its relationship to Asian Americans, and of Asian American jurisprudence as an independent field of legal scholarship. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic 5), 321T, Asian American Studies 325 (Topic 5), 325N, Government 357M (Topic 9), 357V. Prerequisite: Upper-division standing.

AAS 325O. Greater China and United States Economic Relations.
Same as Asian Studies 325D. Explore contemporary interconnections between the United States and Greater China. Examine economic frameworks (for example, state-led, market-led, mixed, etc.); the economies of the PRC including Hong Kong as well as Taiwan and the Chinese diaspora; and linkages such as investments, supply chains, tech transfer, non-profit cooperation, and the globalized workforce. Three lecture hours a week for one semester. Asian American Studies 3250 and Asian Studies 325D may not both be counted. Prerequisite: Upper-division standing.

AAS 330C. Racism and Antiracism.
Same as African and African Diaspora Studies 324E. Examines the theories and definitions of racism across several fields: anthropology, sociology, psychology, cultural studies, postcolonial studies, and gender/sexuality studies. Also includes a section that focuses on anti-racist activism, particularly within people of color and immigrant communities. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 324E, Asian American Studies 330 (Topic 2), 330C. Prerequisite: Upper-division standing.

AAS 330D. Blacks and Asians: Race and Social Movements.

Same as Sociology 321R and Women’s and Gender Studies 322F. Critical examination of work in the United States over the twentieth and twenty-first centuries through a gendered, Asian American lens, using a comparative race perspective. Subjects include the sociological examination of concepts such as labor markets, globalization, care work, and gender/racial segregation in the workplace along with the ways race and gender shape how and where individuals are fitted into the workplace, how skills are evaluated, and how labor markets emerge. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 330 (Topic 4), 330E, Sociology 321R, Women’s and Gender Studies 322 (Topic 6), 322F. Prerequisite: Upper-division standing.

AAS 330F. Transnational Korea.
Same as Asian Studies 379 (Topic 6). Recent and contemporary manifestations of the Koreans in the world and the world in the Koreas. Subjects include labor and marriage migration, educational sojourning, transnational adoption, tourism, international sport, corporate expatriation, and media flows. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Transnational Korea), Asian American Studies 330 (Topic 5), 330F, Asian Studies 379 (Topic 6). Prerequisite: For Asian studies majors, twelve semester hours of upper-division coursework in Asian studies; for others, upper-division standing.

AAS 330G. Urban Unrest.
Same as African and African Diaspora Studies 360F, American Studies 321 (Topic 8), Anthropology 324L (Topic 46), and Urban Studies 327U. Analysis of the roots of urban unrest, exploring a range of origins: joblessness, state violence, white flight, backlash against civil rights gains, new immigration, and interracial strife. Beyond race and class, subjects include exploring unrest as a mode of pushing the normative boundaries of gender and sexuality in public space. Course material will draw from film, literature, history, geography, and anthropology. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 360F, 372F (Topic 13), American Studies 321 (Topic 8), Anthropology 324L (Topic 46), Asian American Studies 330 (Topic 6), 330G, Urban Studies 327U, 354 (Topic 14). Prerequisite: Upper-division standing.
Same as Geography 328L. Explore Indigenous and Asian entanglements and solidarities on Turtle Island (North America) and the Pacific. Examine settler colonialism, racial capitalism, war and militarism, racism and power, and environmental change. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 335 (Topic: Asian Dias on Indigen Lands), 330L, Geography 328L. Prerequisite: Upper-division standing.

AAS 330J. Asian Mobilities.

AAS 330K. Asian Americans in the South.
Same as Asian American Studies 330K. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 330 (Topic: Asian Americans in the South), 330R, Asian American Studies 330 (Topic: Asian Americans in the South), 330K. Prerequisite: Upper-division standing.

AAS 330L. Anthropology of the Himalayas.

AAS 330M. Reproductive Justice and Race.
Same as Sociology 335R and Women's and Gender Studies 340 (Topic 78). Examine the links between reproductive care and social inequality, and explore reproductive outcomes for women in the context of social justice. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 330 (Topic: Reproductive Justice & Race), 330M, Sociology 321K (Topic: Reproductive Justice & Race), 355R, Women's and Gender Studies 340 (Topic: Reproductive Justice & Race), 340 (Topic 78). Prerequisite: Upper-division standing.

AAS 330N. Migration Crisis.
Same as African and African Diaspora Studies 360J, Mexican American Studies 364J, and Race, Indigeneity, and Migration 330N. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 360J, 374D (Topic: Migration Crisis), Asian American Studies 330N, 335 (Topic: Migration Crisis), Mexican American Studies 364J, 374 (Topic: Migration Crisis), Race, Indigeneity, and Migration 330N. Prerequisite: Upper-division standing.

AAS 335. Topics in Asian American Studies.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 1: Bridging Community Through Service Learning.** Explores culture in community life and how it affects the collaboration of service providing entities. Through service learning, students will take what they learn in the classroom and apply those theories and techniques within the community. Special emphasis will be given to the understanding of the Asian/Asian American community and multiculturalism in community services. Only one of the following may be counted: Asian American Studies 335 (Topic: Bridging Community Thru Service-Learning), 335 (Topic 1), Social Work 360K (Topic: Bridging Community Through Service Learning). Additional prerequisite: Upper-division standing.

AAS 358Q. Supervised Research.
For Asian American studies majors only. Supervised, student-derived research in Asian American studies. Individual instruction. May be repeated for credit when the research projects vary. Prerequisite: Upper-division standing, Rhetoric and Writing 306, and consent of the director of the Center for Asian American Studies.

AAS 377. Capstone Seminar.
Restricted to Asian American studies majors. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing and completion of fifteen hours of Asian American Studies coursework.

AAS 378. Community Internship.
Supervised internship in a community, civic, or government organization or program that facilitates the economic, political, and social development of the Asian American community. The equivalent of three lecture hours a week for one semester, with additional field hours to be arranged. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Upper-division standing and consent of the director of the Center for Asian American Studies.

Supervised individual study of selected problems in Asian American studies. Conference course. May be repeated for credit. Prerequisite: Upper-division standing and consent of the director of the Center for Asian American Studies.

AAS 679H. Honors Tutorial Course.
Supervised individual reading for one semester, followed by a semester of research and writing to produce a substantial paper on a specific topic in Asian American studies. Conference course for two semesters. Prerequisite: For 679HA, upper-division standing and admission to the Asian American Studies Honors Program; for 679HB, Asian American Studies 679HA.

**Graduate Courses**

AAS 381. Topics in Asian American Studies.
Theoretical and methodological training through key texts in Asian American studies. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, Rhetoric and Writing 306, and consent of the director of the Center for Asian American Studies.

AAS 391C. Conference Course.
Designed to expand the graduate student's opportunity for individual consultation. Complements courses fulfilling the Asian American studies graduate portfolio. Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and written consent of the instructor and graduate adviser; consent forms are available from the graduate coordinator.

**Professional Courses**

**ACC - Accounting**

**Accounting:** ACC

**Lower-Division Courses**

ACC 310F. Foundations of Accounting.
Restricted to non-McCombs School of Business majors. An introduction to financial and managerial accounting, with emphasis on the content,
Restricted to students in the McCombs School of Business. Concepts and their application in transaction analysis and financial statement preparation; analysis of financial statements. Three lecture hours a week for one semester. Accounting 311 and 311H may not both be counted. Offered on the letter-grade basis only. Prerequisite: Twenty-four semester hours of college credit, including Economics 304K.

Restricted to students in the McCombs School of Business Honors Program. An exploration of concepts and their application in transaction analysis and financial statement preparation; analysis of financial statements. Three lecture hours a week for one semester. Accounting 311 and 311H may not both be counted. Offered on the letter-grade basis only. Prerequisite: Twenty-four semester hours of college credit including Economics 304K, Management Information Systems 301, 301H, or 302F, and credit or registration for Business Administration 324H.

ACC 312 (TCCN: ACCT 2302). Fundamentals of Managerial Accounting.
Restricted to students in the McCombs School of Business. Introduction to cost behavior, budgeting, responsibility accounting, cost control, and product costing. Three lecture hours a week for one semester. Accounting 312 and 312H may not both be counted. Offered on the letter-grade basis only. Prerequisite: Accounting 311 or 311H.

ACC 312H. Fundamentals of Managerial Accounting: Honors.
Restricted to students admitted to the McCombs School of Business Honors Program. Introduction to cost behavior, budgeting, responsibility accounting, cost control, and product costing. Three lecture hours a week for one semester. Accounting 312 and 312H may not both be counted. Offered on the letter-grade basis only. Prerequisite: Accounting 311 or 311H.

Upper-Division Courses
Restricted to students in a business major. Theoretical foundation, concepts, and principles underlying financial statements; current assets; current liabilities; property, plant, and equipment; short-term investments; present value analysis. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Accounting 311 or 311H, and 312 or 312H, with a grade of at least C- in each; and credit or registration for Finance 357 or 357H.

ACC 327. Financial Statement Analysis.
Restricted to students in a business major. Study of financial statements and their related footnotes; tools and procedures common to financial statement analysis; the relationships among business transactions, environmental forces (political, economic, and social), and reported financial information; and how financial statement information can help solve certain business problems. Three lecture hours a week for one semester. Accounting 327 and 380K (Topic 7: Financial Statement Analysis) may not both be counted. Prerequisite: Accounting 326 with a grade of at least C-.

ACC 329. Managerial Accounting and Control.
Restricted to students in a business major. The origination, processing, reporting, and use in business operations of accounting information for management purposes. Three lecture hours a week for one semester. Only one of the following may be counted: Business Administration 382T, Accounting 329, 359, 387 (Topic 1), 287 (Topic 5). Prerequisite: Accounting 311 or 311H, and 312 or 312H, with a grade of at least C- in each.

ACC 334M. Healthcare Accounting.
Identify and analyze healthcare revenues, expenses, management problems, and ethical dilemmas, applying theories and tools to recommend strategic solutions. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing; Accounting 311, 311H, or 310F; Management 334M.

ACC 151. Accounting Careers Exploration.
Restricted to students admitted to the integrated approach to the Master in Professional Accounting. Presentations by professional accountants and managers. One and one-half lecture hours a week for one semester. Offered on the letter-grade basis only.

ACC 152. Master in Professional Accounting Distinguished Speaker Lyceum.
Restricted to students admitted to the integrated approach to the Master in Professional Accounting. Discussion of current issues confronting the accounting profession. The equivalent of one and one-half lecture hours a week for one semester. Offered on the pass/fail basis only.

ACC 355. Introduction to Taxation.
Restricted to students admitted to the integrated approach to the Master in Professional Accounting. The role of taxes in contemporary society and their impact on individuals and business. Three lecture hours a week for one semester. Only one of the following may be counted: Accounting 355, 364, 380K (Topic 11: Introduction to Taxation). Offered on the letter-grade basis only.

Restricted to students admitted to the integrated approach to the Master in Professional Accounting. Conceptual framework of financial accounting; research methods in financial reporting; and financial reporting institutions and regulations. Three lecture hours a week for one semester. Offered on the letter-grade basis only.

ACC 358C. Auditing and Other Assurance Services.
Restricted to students admitted to the integrated approach to the Master in Professional Accounting. Information quality assurance, auditing, and control, considered from the perspective of a business manager who must decide the type and amount of assurance to acquire. Three lecture hours a week for one semester. Only one of the following may be counted: Accounting 358C, 362, 380K (Topic 4). Offered on the letter-grade basis only. Prerequisite: Accounting 356 or the equivalent.
ACC 359. Managerial/Cost Accounting.
Restricted to students admitted to the integrated approach to the Master in Professional Accounting. Analysis of manufacturing costs, development of cost estimates, and preparation of relevant information for management decision making. Three lecture hours a week for one semester. Only one of the following may be counted: Accounting 329, 359, 287 (Topic 5), 287 (Topic 1), 387 (Topic 1), 387 (Topic 5), Business Administration 382T. Offered on the letter-grade basis only.

ACC 362. Auditing and Control.
Same as Business Analytics 362. Restricted to students in a business major. Professional practice standards and procedures of auditing: ethics, legal liability, sampling methods, control systems, control design, and control evaluation. Three lecture hours a week for one semester. Only one of the following may be counted: Accounting 355, 364, 380K (Topic 6), Business Analytics 362. Prerequisite: Accounting 311 or 311H, and 312 or 312H, with a grade of at least C- in each.

Restricted to students in a business major. Introduction to the role of taxes in contemporary society and their impact on individuals and business entities; emphasis on federal income taxation. Three lecture hours a week for one semester. Only one of the following may be counted: Accounting 355, 364, 380K (Topic 11: Introduction to Taxation). Prerequisite: Accounting 311 or 311H, and 312 or 312H, with a grade of at least C- in each.

ACC 366C. International Accounting and Transfer Pricing.
Same as International Business 366. Discover how to price transactions between subsidiaries of multinational corporations buying and selling goods, services, intellectual property and other assets in light of tax obligations and other considerations. Three lecture hours a week for one semester. Only one of the following may be counted: Accounting 366C, 380K (Topic: International Accounting/Transfer Pricing), 380K (Topic: International Business 366). Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

ACC 366P. Accounting Practicum.
Restricted to students in a business major. Students apply skills in their major area and focus on additional project management skills through group projects conducted in a professional setting. Students may work with a private or a public enterprise. The equivalent of three lecture hours a week for one semester. Accounting 366P and 384 (Topic: Tax Practicum) may not both be counted. Prerequisite: Forty-five semester hours of college coursework.

ACC 178, 278, 378. Contemporary Accounting Topics.
Restricted to students in a business major. In-depth study of selected accounting topics. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Accounting 311 or 311H, and 312 or 312H, with a grade of at least C- in each; additional prerequisites vary with the topic.

Restricted to business majors. Exposure to upstream oil and gas operations and reserves, and industry accounting practices. Only one of the following may be counted: Accounting 178 (Topic 2), 278 (Topic 2), 378 (Topic 2), 378 (Topic: Accounting/Tax for Mineral Industry), 180K (Topic 8), 280K (Topic 8), 380K (Topic 8). Offered on the letter-grade basis only.

Introduction to basic concepts of personal wealth management and financial planning, including insurance and risk management, investment management, tax planning, estate planning, and retirement planning.

Design for upper-level finance and accounting majors interested in a career in financial services or MPA students with interest in this area of the accounting profession. Only one of the following may be counted: Accounting 378 (Topic: Financial Planning for Wealth Management), 178 (Topic 3), 278 (Topic 3), 378 (Topic 3), 180K (Topic 24), 280K (Topic 24), 380K (Topic 24), Finance 172 (Topic 3), 272 (Topic 3), 372 (Topic 3), 377 (Topic: Financial Planning for Wealth Management). Offered on the letter-grade basis only. Additional prerequisite: Credit or registration for Finance 357 or 357H; credit or registration for Accounting 364 is recommended.

ACC 179C, 379C. Independent Research in Accounting.
Restricted to students in the McCombs School of Business. Conference course. Only one of the following may be counted: Accounting 179C, 379C, Business, Government, and Society 179, 379, Finance 179C, 379C, International Business 179C, 379C, Legal Environment of Business 179, 379, Management 179C, 379C, Management Information Systems 179, 379, Marketing 179C, 379C, Operations Management 179, 379, Risk Management 179, 379. Prerequisite: Eighteen semester hours of coursework in business and economics, six of which must be upper-division; Accounting 311 or 311H, and 312 or 312H, with a grade of at least C- in each; consent of instructor; and written approval on forms provided for that purpose before the first meeting of the course from the department chair's office.

Graduate Courses
ACC 180C. MPA Distinguished Speaker Lyceum.
Discussion of current issues confronting the accounting profession. Two lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and admission to the traditional approach to the Master in Professional Accounting program.

ACC 380D. Advanced Topics in Financial Reporting.
Examines issues in financial reporting from a user's perspective, including how important economic transactions of large public companies are reflected in financial statements. Three lecture hours a week for one semester. May not be counted by students with credit for Accounting 380K (Topic 1: Financial Accounting Standards and Analysis I) or 380K (Topic 2: Financial Accounting Standards and Analysis II).
Prerequisite: Graduate standing, admission to the Master of Business Administration program, and Business Administration 384T.

**ACC 280J. Financial Statement Analysis for Executives.**

Restricted to students in the Executive MBA Program. Explore an overview of the skills executives will need in order to analyze a company's performance and financial position in the context of the company's industry and strategic environment. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

**ACC 180K, 280K, 380K. Contemporary Accounting Topics.**

In-depth study of selected accounting topics. One, two, or three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

**Topic 1: Financial Accounting Standards and Analysis I.** Additional prerequisite: For students enrolled in the Master of Business Administration program, Business Administration 384T and 385T; for students enrolled in the traditional approach to the Master in Professional Accounting program, Accounting 381 or the equivalent and credit or registration for Business Administration 385T or the equivalent; for students enrolled in the integrated approach to the Master in Professional Accounting program, Accounting 356 and Finance 357 or the equivalent.

**Topic 2: Financial Accounting Standards and Analysis II.** Accounting 360 and 380K (Topic 2) may not both be counted. Additional prerequisite: Accounting 380K (Topic 1) or the equivalent or consent of instructor.

**Topic 3: Financial Reporting Institutions and Regulations.**

**Topic 4: Auditing and Other Assurance Services.** Only one of the following may be counted: Accounting 358C, 362, 380K (Topic 4). Prerequisite: Accounting 356, 381, Business Administration 384T, or the equivalent.

**Topic 5: Introduction to Management Advisory Services.** Additional prerequisite: Accounting 356, 381, Business Administration 384T, or the equivalent.

**Topic 7: Financial Statement Analysis.** Accounting 327 and 380K (Topic 7) may not both be counted. Additional prerequisite: Accounting 356, 381, Business Administration 384T, or the equivalent.

**Topic 8: Petroleum Accounting: Principles, Procedures, and Issues.** Only one of the following may be counted: Accounting 178 (Topic 2), 278 (Topic 2), 378 (Topic 2), 378 (Topic: Accounting/Tax for Mineral Industry), 180K (Topic 8), 280K (Topic 8), 380K (Topic 8). Additional prerequisite: Accounting 356, 381, Business Administration 384T, or the equivalent.

**Topic 10: Tax Factors in Business Management.** Additional prerequisite: Accounting 356, 381, Business Administration 384T, or the equivalent.

**Topic 11: Introduction to Taxation.** Only one of the following may be counted: Accounting 355, 364, 380K (Topic 11). Additional prerequisite: For students enrolled in the Master of Business Administration program, Business Administration 384T; for students enrolled in the traditional approach to the Master in Professional Accounting program, credit or registration for Accounting 381 or the equivalent.

**Topic 12: Computer Auditing and Systems Security.** Additional prerequisite: Accounting 356, 381, Business Administration 384T, or the equivalent.

**Topic 13: Information Technology for Accounting and Control.** Additional prerequisite: Accounting 356, 381, Business Administration 384T, or the equivalent.

**Topic 14: Managing Information.** Additional prerequisite: Accounting 356, 381, Business Administration 384T, or the equivalent.

**Topic 15: Business and Systems Change.** Additional prerequisite: Accounting 356, 381, Business Administration 384T, or the equivalent.

**Topic 17: Cross-Functional Project Management.** Additional prerequisite: Accounting 356, 381, Business Administration 384T, or the equivalent.

**Topic 18: Project Management in Fast-Cycle Environments.** Additional prerequisite: Accounting 356, 381, Business Administration 384T, or the equivalent.

**Topic 19: International Accounting Policies and Procedures.**

**Topic 20: International and European Accounting Standards.**

**Topic 21: Global Teams.**

**Topic 22: Accounting and Auditing Research: Introduction to Design and Evaluation.** Designed to help students evaluate, formulate, and conduct scholarly research in financial reporting. Subjects include advantages of archival, experimental, and theoretical methods, evaluating validity of design, and overcoming research barriers. Accounting 380K (Topic: Accounting and Auditing Research: Introduction to Design and Evaluation) and 380K (Topic 22) may not both be counted.

**Topic 23: Accounting Issues in Measurement and Valuation.** Examines the predictive analytics of financial statement numbers and how these accounting forecasts, estimates and judgments are made in practice, and how external auditors evaluate them. Insights from financial economics, psychology, and statistics provide a foundation for exploring accounting and auditing measurement challenges such as customer behavior analytics for loan default or loyalty award redemption; actuarial methods for establishing product warranty or insurance reserves; fair value models for brand names, trade secrets, and customer relationships; and other applications involving uncertain accounting numbers. For each semester hour of credit earned, one lecture hour a week for one semester. Accounting 380K (Topic: Accounting Issues in Measurement and Valuation) and 380K (Topic 23) may not both be counted. Additional prerequisite: The following coursework: Accounting 356, 381, Business Administration 384T, or the equivalent; Accounting 380K (Topic 1) or 380D; and 358C or 380K (Topic 4).

ACC 381. Financial Accounting.

Concepts and issues involved in the preparation and interpretation of financial statements; the use of financial information to evaluate and control an organization. Three lecture hours a week for one semester. Accounting 381 and Business Administration 284T, 384T may not both be counted. Prerequisite: Graduate standing, admission to the traditional approach to the Master in Professional Accounting program, and Accounting 311 or the equivalent.

An integrative and intensive examination of financial accounting, with emphasis on management’s alternative reporting strategies and investors’ decisions. Three lecture hours a week for one semester.

Prerequisite: Graduate standing, and Business Administration 384T or the equivalent.

ACC 381N. Managerial Accounting and Financial Statement Analysis.

Surveys the strategic uses of the most important elements of internal accounting systems, including cost accounting systems and management control systems used for planning and budgeting, and the use of publicly available financial accounting information to evaluate past performance, forecast future performance, and estimate the value of debt and equity securities. Meets all day on alternate Fridays and Saturdays. May not be counted by students with credit for Accounting 380K (Topic 7). Prerequisite: Graduate standing.

ACC 281P. Performance Management and Control for Executives.

Restricted to students in the Executive MBA Program. Examine accounting information and tools executives need to plan and evaluate personnel and operations of the firm. Explore a framework that provides a better understanding of when and why executives need specific types of accounting information to both facilitate their own decisions and influence the decisions of their employees. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

ACC 382K. Studies in Accounting Information Systems.

Quantitative and/or computerized applications to business problems; computer-based accounting information systems; analysis of optimizing models; simulation of important functional activities; large-scale simulation of the firm. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; Accounting 356, 381, Business Administration 384T, or the equivalent, or consent of instructor; and Accounting 359, Accounting 387 (Topic 1: Introduction to Managerial Accounting), or the equivalent, or consent of instructor.

Topic 1: Principles of Systems Analysis. Three lecture hours a week for one semester. Some sections require two laboratory hours a week as well; these sections are identified in the Course Schedule.

Topic 2: Computer Auditing. Additional prerequisite: Accounting 358C or 380K (Topic 4: Introduction to Assurance Services), and Accounting 380K (Topic 13: Information Technology for Accounting and Control) or the equivalent.

Topic 3: Topics in Accounting Systems and Control.

Topic 4: Database Management in Accounting.

Topic 5: Topics in Information Systems.

ACC 383K. Studies in Auditing.

Professional and technical aspects of practice; ethics and legal responsibilities; review of fieldwork, emphasizing materiality, sampling, and working papers; reporting problems, including long-form and special purpose reports; fraud examination and audit methods. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

Topic 1: Studies in Auditing, MPA Program. Additional prerequisite: Accounting 358C, 380K (Topic 4: Introduction to Assurance Services), or the equivalent, or consent of instructor.

Topic 2: Management Auditing and Control. Additional prerequisite: For students in the Master of Business Administration program, Business Administration 384T or the equivalent; for students in the traditional approach to the Master in Professional Accounting program, credit or registration for Accounting 381, Business Administration 384T, or the equivalent; for students in the integrated
approach to the Master in Professional Accounting program, credit or registration for Accounting 358C or the equivalent.

**Topic 3: Auditing and Control, MBA Program.** Additional prerequisite: Accounting 387 (Topic 1: Introduction to Managerial Accounting) or the equivalent, and Business Administration 384T or the equivalent.

**Topic 4: Fraud Examination.** Additional prerequisite: For students in the Master of Business Administration program, Business Administration 384T or the equivalent; for students in the traditional approach to the Master in Professional Accounting program, Accounting 381, Business Administration 384T, or the equivalent, or consent of instructor; and Accounting 387 (Topic 1: Introduction to Managerial Accounting) or the equivalent, or consent of instructor; for students in the integrated approach to the Master in Professional Accounting program, Accounting 356 or consent of instructor, and Accounting 359 or the equivalent or consent of instructor.

**Topic 5: Topics in Auditing.** Additional prerequisite: Accounting 356, 359, 381, 387 (Topic 1: Introduction to Managerial Accounting), and Business Administration 384T, or their equivalents.

**Topic 6: Practicum in Accounting.** Additional prerequisite: Credit or registration for Accounting 358C or 380K (Topic 4).

**ACC 184, 284, 384, 484. Research and Planning in Federal Taxes.**

Advanced analysis in federal taxation, with emphasis on historical and current developments; application of research techniques to income tax and estate tax planning; case studies and reports. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, and admission to the Master in Professional Accounting degree program or consent of instructor.

**Topic 1: Tax Research Methodology.** Additional prerequisite: For students in the integrated approach to the Master in Professional Accounting program, Accounting 355 or the equivalent; for students in the traditional approach to the Master in Professional Accounting program, credit or registration for Accounting 380K (Topic 11: Introduction to Taxation) or the equivalent or consent of instructor.

**Topic 2: Taxation of Entities I.** Focuses on taxation of C corporations and their shareholders. Additional prerequisite: Credit or registration for Accounting 384 (Topic 1).

**Topic 3: Taxation of Entities II.** Focuses on flow-through entities, including partnerships. Additional prerequisite: Credit or registration for Accounting 384 (Topic 1).

**Topic 4: Tax Planning for Business Entities.** Additional prerequisite: Credit or registration for Accounting 384 (Topic 2).

**Topic 5: Family Tax Planning—Estates, Trusts, and Gifts.** Additional prerequisite: Credit or registration for Accounting 384 (Topic 1) or consent of instructor.

**Topic 6: International and Interstate Taxation.** Additional prerequisite: Credit or registration for Accounting 355 or 380K (Topic 11).

**Topic 7: Fundamentals of Taxation—Advanced Topics.** Additional prerequisite: Accounting 355, 380K (Topic 11: Introduction to Taxation), or the equivalent.

**Topic 8: Miscellaneous Tax Topics.**

**Topic 9: Oil and Gas Taxation.** An analysis of the United States federal income taxation of domestic oil and gas operations and transactions. Examines taxation associated with the operational life cycle of oil and gas operations including exploration, development, production, and abandonment, as well as transactions involving oil and gas interests—analysis acquisition, disposition, structuring, and investment.

**ACC 386K. Studies in Accounting Theory.**

Financial accounting theory; current pronouncements on theory; problems of income determination; accounting research and research methodology applied to accounting issues. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, admission to the doctoral degree program in accounting, and consent of instructor.

**Topic 1: Contemporary Accounting Topics.**

**Topic 2: Introduction to Research Methodology in Accounting.**

**Topic 3: Empirical Research in Accounting.**

**Topic 4: Analytical Research in Accounting.**

**Topic 5: Behavioral Research in Accounting.**

**Topic 6: Doctoral Research Topics.**

**Topic 7: Foundations of Financial Accounting Research.**

**ACC 287, 387. Studies in Profit Planning and Control.**

The use of accounting information by managers within the organization for decision making, planning, and the design of control systems for implementing the organization's strategy. Topics include long-range planning, annual profit planning, activity-based costing, cost prediction, strategic control systems, and performance evaluation. Case studies are used. For 287, four lecture hours a week for half a semester; for 387, three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

**Topic 1: Introduction to Managerial Accounting.** Only one of the following may be counted: Accounting 329, 359, 287 (Topic 1), 287 (Topic 5), 387 (Topic 1), 387 (Topic 5), Business Administration 382T.

**Topic 2: Topics in Profit Planning and Control.** Additional prerequisite: Accounting 359, 387 (Topic 1), or the equivalent.

**Topic 3: Strategic Cost.** Additional prerequisite: Accounting 359, 387 (Topic 1), or the equivalent.

**Topic 4: Strategic Control Systems.** Additional prerequisite: Accounting 359, 387 (Topic 1), or the equivalent.

**Topic 5: Performance Management and Control.** Only one of the following may be counted: Accounting 329, 359, 287 (Topic 1), 287 (Topic 5), 387 (Topic 1), 387 (Topic 5), Business Administration 382T.

**Topic 6: The Strategic Chief Financial Officer.** Explore how to think and function as the Chief Financial Officer (CFO) of an enterprise. Discuss CFO responsibilities, interactions with the Board of Directors, the Chief Executive Officer (CEO), and other top-level executives, and how a CFO can maximize their effectiveness. Accounting 387 (Topic: The Strategic CFO) and 287, 387 (Topic 6) may not both be counted.

**ACC 191C, 291C, 391C, 691C. Special Studies in Accounting.**

Conference course. May be repeated for credit. Prerequisite: Graduate standing; admission to the Master in Professional Accounting program or the doctoral program in accounting; and consent of instructor.

**ACC 192N, 292N, 392N, 492N, 592N, 692N. Master in Professional Accounting Internship.**

Restricted to students in the Master in Professional Accounting Program. Focus on academic and professional development through valuable work experience and the integration of accounting knowledge by working with public or private enterprises. A minimum of 320 hours of work, a daily work-related journal, and paper are needed for internship credit. Hours to be arranged. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admissions into the Master in Professional Accounting Program in accounting and prior approval from the internship coordinator.

**ACC 698. Thesis.**

The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in the doctoral program in accounting and consent of the supervising faculty member and the graduate adviser; for 698B, Accounting 698A.
Professional Courses

ACF - Actuarial Foundations

ACF 110C, 210C, 310C, 410C. Conference Course.
Supervised study of selected subjects by individual arrangement with department and instructor. Conference course. May be repeated for credit. Prerequisite: Written consent of instructor.

ACF 110T. Conference Course: Texas Department of Insurance Internship.
Supervised internship at the Texas Department of Insurance. Conference course. May be repeated for credit. Admission by application only. Students must apply to the director of the concentration in actuarial studies the semester before they take the course.

ACF 112M. Actuarial Laboratory on Probability and Statistics.
Problems and supplementary instruction in probability and statistics, especially as required for the Society of Actuaries and Casualty Actuarial Society Exam 110. Three laboratory hours a week for one semester. Prerequisite: Mathematics 362K, credit or registration for Mathematics 378K, and consent of the director of the concentration in actuarial studies.

Upper-Division Courses

ACF 329. Theory of Interest.
Same as Mathematics 329F. Measurement of interest, present and accumulated value, amortization, sinking funds, bonds, duration, and immunization. Covers the interest-theory portion of an exam of the Society of Actuaries and the Casualty Actuarial Society. Three lecture hours a week for one semester. Only one of the following may be counted: Actuarial Foundations 329, Mathematics 329F, 389F. Prerequisite: Mathematics 408D, 308L, 408L, 408M, or 408S with a grade of at least C.

ACF 129D. Introductory Actuarial Financial Mathematics.
Introductory analysis of financial derivatives. Covers the financial derivatives portion of the syllabus for the professional actuarial exam on financial mathematics. One lecture hour a week for one semester. Offered on the pass/fail basis only. Prerequisite: Credit with a grade of at least C or registration for Actuarial Foundations 329 or Mathematics 329F.

ACF 439D. Introductory Actuarial Financial Mathematics.
Same as Mathematics 439D. For the professional actuarial exam on financial mathematics. Three lecture hours a week for one semester. Offered on the pass/fail basis only. Prerequisite: Credit with a grade of at least C or registration for Mathematics 329F.

Graduate Courses

Professional Courses
ADV 318J. Introduction to Integrated Brand Communication.
The functions of advertising and public relations; role in marketing/communications mix; economic and social influence; advertising and public relations institutions and media; campaigns and appropriations; retail and business-to-business aspects. Three lecture hours a week for one semester. Students may not enroll in Advertising 318J more than twice.

ADV 319. Psychology of Advertising.
A review of basic findings of the behavioral sciences dealing with perception, personality, group behavior, psychological appeals, and their application to advertising, public relations, and marketing as persuasive communication. Three lecture hours a week for one semester.

Upper-Division Courses

ADV 320. Integrated Communication for Nonprofit Organizations.
Same as Public Relations 320. Explores integrated communication and branding in a variety of nonprofit settings. Examines the strategic, integrated use of multiple communication approaches, including advertising, public relations, new media, promotions, sponsorships, and special events. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 320, 378 (Topic 17), Public Relations 320, 378 (Topic 5).

ADV 321. Leadership and Ethics.
Same as Public Relations 321. Explores leadership, communication, ethics, and the ability to lead others ethically and effectively. Examine concepts and frameworks related to skills that are integral to ethical, effective leadership. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 321, 378 (Topic 11), Public Relations 321, 378 (Topic: Leadership and Ethics).

Same as Public Relations 322. Covers the development of effective health messages, the design of health campaigns, and investigate the role of the media in influencing people’s health and perceptions of health. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 322, 378 (Topic: Health Communication), Public Relations 322.

ADV 323. Public Communication of Science and Technology.
Same as Public Relations 323. Explores the rapidly growing field of science communication. Examines the intersection of science, media, and society, focusing on media’s impact on how people come to understand, perceive, and act relative to scientific issues. Special attention will be directed toward the strategic communication of science and maximizing scientists’ engagement with public audiences. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 323, 378 (Topic: Public Comm of Science/Tech), Public Relations 323, 378 (Topic: Public Comm of Science/Tech).

ADV 324. Communicating Sustainability.
Same as Public Relations 324. Focuses on persuasion in the context of environmental attitudes and behaviors. Explores how humans think about and interact with the environment, paying particular attention to climate change. Drawing on theory and examples, examines the challenges and opportunities that arise when people try to communicate about the environment and change individual attitudes and behaviors. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 324, 378 (Topic: Communicating Sustainability), Public Relations 324, 378 (Topic: Communicating Sustainability).

ADV 325. Introduction to Advertising Creativity.
Learn to apply creative theories, processes, and problem-solving skills to become more creative in any field. Three lecture hours a week for one semester. Prerequisite: Advertising 318J with a grade of at least B.

ADV 327. Account Planning.
Explores the role of account planning in an agency environment. Covers how to understand the business the client is in, the customers of the client, general environment of that business and all aspects of marketing practice that might affect the overall performance of the client’s business. Three lecture hours a week for one semester. Advertising 327 and 378 (Topic 20) may not both be counted. Prerequisite: Advertising 344K and 345J with a grade of at least C.

ADV 328. Psychology of Video Game Advertising.
Explores communication components (broadly defined) within game play and apply understanding of communication processes within game play to better understand how advertisers can leverage games to reach consumers. Three lecture hours for one semester. Advertising 328 and 378 (Topic 22) may not both be counted. Prerequisite: Forty-five semester hours of college coursework.

ADV 129. Selling in Media Industries.
One lecture hour for one semester. Prerequisite: Upper-division standing.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Advertising. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary. Offered on the letter-grade basis only.

ADV 332. Technology Marketing and Advertising.
Same as Public Relations 332. Explores case histories, interviews with leading technology advertising and marketing executives, and latest trends in digital advertising, both mobile and social, as well as its impact across marketing segments and industries. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 332, 378 (Topic 23), Public Relations 332.

ADV 332C. New Media Entrepreneurialism.
Same as Public Relations 332C. Covers real life experience/exposure with a series of interviews with real-life practitioners from social media, venture capital, and others with expertise in the field. Explores important trends in digital content and digital business models; a primer for those who wish to learn about entrepreneurialism, technology, and its intersection with media. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 332C, 378 (Topic: New Media Entrepreneurialism), Public Relations 332C, 378 (Topic: New Media Entrepreneurialism).

ADV 332D. Entrepreneurialism in Communication.
Same as Public Relations 332D. Project-oriented exercise where small teams conceptualize a business idea in communications, curate the insights and opinions of fellow team members, and ultimately develop a business plan around their new endeavor. A panel of local entrepreneurs will provide feedback and critique. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 332D, 378 (Topic: Entrepreneurialism in Comm), Public Relations 332D.
ADV 334. International Advertising.
Major issues in international advertising and advertising directed at cultural minorities within countries. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

Special topics exploring the impact of the major social, economic, and cultural aspects of advertising and public relations on ethnic and cultural groups in the United States. The equivalent of three lecture hours a week for one semester. May be repeated for credit when the topics vary.

ADV 338K. Digital Creative Portfolio.
Examines the digital landscape in advertising and beyond. Examines existing advertising work and producing an advertising project. Present and describe digital projects in collaborative group settings using terms clients will value. Three lecture hours a week for one semester. Advertising 338K and 378 (Topic 24) may not both be counted. Prerequisite: Advertising 325 with a grade of at least C- and consent of instructor.

ADV 338L. Copywriting.
Introduction to copywriting for advertising and related industries. Develop conceptual and writing skills across a wide range of media. Three lecture hours a week for one semester. Advertising 338L and 378 (Topic 10) may not both be counted. Prerequisite: Advertising 325 with a grade of at least C- and consent of instructor.

ADV 339K. Digital Graphic Communication.
Same as Public Relations 339K. Introduction to the fundamentals of good graphic design, as well as production basics. Develops digital design skills using industry-standard software, from print (Adobe InDesign, Photoshop, Illustrator) to motion (Adobe Premiere, AfterEffects) and interactive (HTML, CSS, WordPress). Assumes no prior knowledge. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 339K, 378 (Topic: Digital Graphic Communication), Public Relations 339K, 378 (Topic: Digital Graphic Communication).

ADV 339L. Brand Storytelling.
Same as Public Relations 339L. Examination of how classic elements of storytelling, semiotics, and symbolism can be used to create and manage a modern brand’s story and ‘meaning’. Create visual, verbal, and video examples of brand storytelling that go beyond traditional advertising and public relations. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 339L, 378 (Topic: Brand Storytelling), Public Relations 339L, 378 (Topic: Brand Storytelling).

ADV 341S. Research in Sports Communication and Media.
Same as Public Relations 341S. An introduction to advertising and public relations research and methodology for sports. Three lecture hours a week for one semester. Prerequisite: Forty-five semester hours of college coursework.

ADV 342. Advertising Copywriting.
Copywriting for print and broadcast media. Methods for developing creative advertising concepts, strategies, and executions for print, radio, and television. Emphasis on writing rather than on art direction. Three lecture hours a week for one semester. Prerequisite: Advertising 325 with a grade of at least C, and instructor’s approval of the student's previous work in advertising courses.

ADV 343K. Portfolio I.
Basic advertising art direction and copywriting skills, including indications for graphics, headlines, and body copy. Three lecture hours and three studio hours a week for one semester. Prerequisite: Advertising 325 with a grade of at least B, and admission to the Texas Creative program.

ADV 344K. Advertising and Public Relations Research.
Introduction to social science research methods as used in advertising and marketing; emphasis on survey research and secondary data. Three lecture hours a week for one semester. Prerequisite: Upper-division standing; Advertising 318J with a grade of at least B; and Advertising 309R, Public Relations 309, or Statistics and Data Sciences 306 with a grade of at least C-.

ADV 345J. Advertising and Public Relations Media Planning.
An investigation of media-market measurements and strategies across the full spectrum of the industry; development of media communications plan. Three lecture hours and one laboratory hour a week for one semester. Prerequisite: Upper-division standing; Advertising 318J with a grade of at least B; and Advertising 309R, Public Relations 309, or Statistics and Data Sciences 306 with a grade of at least C-.

ADV 347. Computer Imaging Topics.
Introduction to computer graphics with applications to advertising and other disciplines. Students interact with computer systems to produce artwork and design portfolios. Three lecture hours and three laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Advertising 318J with a grade of at least B and consent of instructor received prior to registering.

ADV 348S. The Business of Sports Media.
Same as Journalism 348G and Public Relations 348S. Examination of the business of sports-related media, including over-the-air television, cable, satellite television, print, radio, social media, and internet-based media, and the impact of such media on sports presentation and development, professional franchises, colleges, and conferences. Emphasis on how the business of sports media generates revenue and content, and the business models for each type of media, the challenges to such models, and the likely future changes to them. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 348S, 378 (Topic: The Business of Sports Media), Communication 325 (Topic: The Business of Sports Media), Journalism 348G, 349T (Topic: The Business of Sports Media), Public Relations 348S, 378 (Topic: The Business of Sports Media).

ADV 350, 650. Advertising Internship.
Practical work experiences in advertising sales, creative management, and research with advertisers, agencies, media, or auxiliary services. For 350, an average of 12 hours of work a week, for a total of 180 hours a semester or summer session. For 650, an average of 24 hours of work a week, for a total of 360 hours a semester or summer session. Offered on the pass/fail basis only. Prerequisite: Advertising 344K and 345J with a grade of at least C- in each, and a University grade point average of at least 2.0.

ADV 350S. Internship in Sports Media.
Same as Public Relations 350S. Restricted to Texas Program in Sports and Media students. Practical work experience in sports media. Internship to be arranged by student and approved by instructor. The equivalent of three lecture hours a week for one semester. May not be counted toward the Bachelor of Science in Advertising or the Bachelor of Science in Public Relations degrees. Offered on the pass/fail basis only. Prerequisite: Upper-division standing; a University grade point average of at least 2.0; Advertising 305S or Public Relations 305S; and three
ADV 151. Advertising Practicum.
Internship and discussion hours to be arranged. Offered on the pass/fail basis only. Prerequisite: Advertising 350, 650, or 468K, consent of departmental internship coordinator, and completion of departmental requirements for enrollment in an internship course.

Same as Public Relations 353. Restricted to advertising and public relations majors. The equivalent of three lecture hours a week for one semester. Advertising 353 and Public Relations 353 may not both be counted. Fulfills the communication and culture requirement in the College of Communication. Prerequisite: Advertising 318J with a grade of at least B.

ADV 364. Immersive Experiences.
Same as Public Relations 364. Develop an understanding of an audience, the language of development, and awareness of the affordances of each medium to use them effectively in designing immersive user experiences. Work on a real-world client project, which will also be prepared for entry into an immersive storytelling competition. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 364, 378 (Topic: Immersive Experiences), Public Relations 364, 378 (Topic: Immersive Experiences). Prerequisite: Forty-five semester hours of college coursework and consent of instructor.

Same as Public Relations 365. Examine the latest methods used to better understand audiences and their motivations. Three lecture hours a week for one semester. Advertising 386 and 391K (Topic: Experimental Storytelling) may not both be counted. Prerequisite: Graduate standing.

**ADV 387. Creative Strategies.**

The process of developing creative concepts and their effective execution. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.

**ADV 388C. Research Problems: Doctoral Examination Preparation.**

Research and reading in preparation for doctoral examinations. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of graduate adviser.
The study of planning, organization, and control of the advertising functions. Three lecture hours a week for one semester. Prerequisite: Graduate standing, Advertising 370J or the equivalent, and consent of the graduate adviser.

ADV 388K. Integrated Communications Management.
The application of management principles to the solution of integrated communications management problems. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

Research project chosen from the area of the student’s major interest; a written report or creative project is required. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Students who take Advertising 189 must register for a topic of 189 for three consecutive semesters. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, consent of instructor, and written consent of the graduate adviser received prior to registering.

ADV 391K. Seminar in Advertising.
Survey and analysis of current advertising issues and practices. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 1: Interactive Advertising.
Topic 2: Advanced Account Planning.
Topic 4: Audiences for Nonprofit Organizations.
Topic 6: Media Research.
Topic 7: Public Relations Theory.
Topic 8: Quantitative Models in Advertising.
Topic 10: Business to Business Integrated Communication Management. Cases and problems dealing with the management of business to business integrated communication, advertising and promotional programs; media and creative strategies; consumer, retail, industrial, and public service applications.

ADV 391L. Invisible Global Market.
Same as Latin American Studies 383 and Public Affairs 388N. Three lecture hours a week for one semester. Only one of the following may be counted: Advertising 391L, Latin American Studies 383, Marketing 382 (Topic: Invisible Global Market), 382 (Topic: Invisible Global Marketing), 282, 382 (Topic 34), Middle Eastern Studies 382M, Public Affairs 388N. Offered on the letter-grade basis only.

Examination of important current areas in advertising research and theory. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Admission to a doctoral program and consent of the graduate adviser.

Topic 2: Advanced Advertising Theories I.
Topic 3: Advertising Research I.
Topic 4: Advanced Advertising Theories II.
Topic 5: Advertising Research II.

ADV 395. Advertising Internship.
Practical work experience in advertising sales, creative management, and research with advertisers, agencies, media, or auxiliary services. Offered on the credit/no credit basis only. Prerequisite: Graduate standing;

ADV 380, 385, and 387 with a grade of at least B in each; and a University grade point average of at least 3.00.

ADV 698. Thesis.
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in advertising and written consent of the supervising faculty member and the graduate adviser received prior to registering; for 698B, Advertising 698A and written consent of the supervising faculty member and the graduate adviser received prior to registering.

ADV 398R. Master's Report.
Preparation of a report to fulfill the requirement for the master's degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in advertising and written consent of the supervising faculty member and the graduate adviser received prior to registering.

ADV 398T. Student Teaching in Advertising.
Restricted to doctoral students. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree. Written consent of the graduate adviser received prior to registering.

Professional Courses

AED - Art Education

Art Education: AED

Lower-Division Courses

Topics in Art Education.
This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Art and Art History. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

AED 320. Exploring Objects, Spaces, and Meaning.
Explore a broad range of historical and contemporary works, artifacts, and environments, and their implications for understanding imagery and objects in visual and material culture. Three lecture hours a week for one semester. Visual Art Studies 320 and Art Education 320 may not both be counted. Offered on the letter-grade basis only.

AED 321C. Children's Artistic Development.
Examine how arts-based learning strategies can be used to promote inquiry into the world. One lecture hour and three laboratory hours a week for one semester. Visual Art Studies 321C and Art Education 321C may not both be counted. Offered on the letter-grade basis only.

Topics in Art Education.
This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Art and Art History. University credit is awarded for work in an exchange program; it may be counted as coursework taken.
in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**AED 330. Introduction to Art Education.**
Introduction to art education. Examine philosophy, current trends, instructional methods, evaluation, and advocacy. Explore careers in art education, museum education, and cultural or social educational settings. Three lecture hours a week for one semester. Visual Art Studies 330 and Art Education 330 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Studio Art 311C and 312C with a grade of at least C in each (or 301C and 302C with a grade of at least C in each).

**AED 341C. Learners and Instructional Sites.**
Restricted to art education majors. Explore instructional procedures, observations, and evaluation of early childhood through grade twelve classroom- and community-based art instruction. Six laboratory hours a week for one semester. Visual Art Studies 341C and Art Education 341C may not both be counted. Offered on the letter-grade basis only. Prerequisite: Credit with a grade of at least B or registration in Art Education 330 (or Visual Art Studies 330 with a grade of at least B).

**AED 351C. Art Materials, Techniques, and Processes.**
Restricted to art education majors. Explore and apply basic materials, techniques, and processes in art production used in early childhood through grade twelve classroom- and community-based art instruction. Six laboratory hours a week for one semester. Visual Art Studies 351C and Art Education 351C may not both be counted. Offered on the letter-grade basis only. Prerequisite: Art Education 330 (or Visual Art Studies 330) with a grade of at least B.

**AED 361C. Criticism and Conversation about Art.**
Restricted to art education majors. Explore individual and professional evaluations of visual imagery, artifacts, and artistic production in a variety of settings. Six laboratory hours a week for one semester. Visual Art Studies 361C and Art Education 361C may not both be counted. Offered on the letter-grade basis only. Prerequisite: Art Education 351C (or Visual Art Studies 351C) with a grade of at least B.

**AED 371C. Topics in Art Education.**
Restricted to studio art and art education majors. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

**AED 372. Art, Resilience, and Trauma.**
Examine the connection between art, resilience and trauma, with emphasis on the impact of psychological trauma on academic and social emotional well-being. Explore strength-based approaches for fostering resilience through hands-on engagement in the creative arts. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

**AED 373. Public Art, Civic Engagement, and Responsive Communities.**
Explore historic and global perspectives of art in the public realm, with a focus on art in the local community, cultural production, and its relationship to civic education and engagement as well as concepts of site-specificity, interactivity, and intervention. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

**AED 376C. Independent Study.**
Restricted to art history, art education, and studio art majors. Complete individual projects under faculty supervision. The equivalent of three lecture hours a week for one semester. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Upper-division standing and consent of instructor.

**AED 379S. Advanced Topics in Art Education.**
Restricted to studio art and art education majors. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

**Graduate Courses**

**AED 381G. Foundations of Art Education.**
Explores foundational writings and beliefs, past and present literature, and perspectives within art education. Three lecture hours a week for one semester. Prerequisite: Graduate standing in art education and consent of the graduate adviser.

**AED 381K. Contemporary Issues in Art Education.**
The role of art education in education and society, including technology, multiculturalism, gender studies, contemporary art, visual and material culture, interdisciplinary connections, media studies, and community-based art education. Three lecture hours a week for one semester. Prerequisite: Graduate standing in art education, Art Education 381G, and consent of the graduate adviser.

**AED 382G. Introduction to Research in Art Education.**
Explores diverse approaches and methodologies for conducting research in art education. Three lecture hours a week for one semester. Prerequisite: Graduate standing in art education and consent of the graduate adviser.

**AED 382H. Thesis Proposal and Preparation.**
Restricted to art education majors. Focuses on the preparation of a graduate thesis proposal, with emphasis on the student's identification of a central research question. Three lecture hours a week for one semester. Prerequisite: Graduate standing, Art Education 382G and consent of the graduate advisor.

**AED 382L. Applied Project in Art Education.**
Research based applied project in Art Education. The equivalent of three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing; Art Education 382H; project proposal approval from graduate committee; and consent of the graduate adviser.

**AED 383J. Museum Education: History and Theory.**
Historical and philosophical development of American art museum education. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

**AED 383K. Museum Education: Practice and Application.**
The practice and application of museum education within the context of art museums. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

**AED 383L. Issues in Museum Studies.**
Same as Art History 394 (Topic 6). Survey major issues in the field of museum studies. Three lecture hours a week for one semester. Only one of the following may be counted: Art Education 383L, Art History 394 (Topic: Issues in Museum Studies), 394 (Topic 6). Prerequisite: Graduate standing and consent of the graduate adviser.

**AED 384. Special Topics in Art Education.**
Readings, discussion, and research relevant to major current trends in art education. The equivalent of three lecture hours a week for one semester.
AED 385. Independent Study in Art Education.
Restricted to art education majors. Student-initiated study with an art education faculty member covering the topic of student’s research focus. The equivalent of three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and consent of the graduate adviser.

AED 386. Internship and Field Study.
Supervised observation and research in art education related to the candidate’s area of emphasis. Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing, consent of the graduate advisor, and consent of instructor.

AED 387C. Case Studies in Community-Based Art Education.
Restricted to art education majors. Students review examples of community-based art programs to understand their histories, philosophies, purposes, organization, funding, operation, evaluation, and redevelop, and discuss issues affecting the successful creation, preservation, and development of such programs. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate advisor.

AED 387D. Program Development in Community-Based Art Education.
Restricted to art education majors. Students examine the process of establishing an exemplary community-based art program; conduct ethnographic research and write grant proposals toward the creation of an ideal community-based art program or the improvement of an existing program; and develop operational activities and explore various approaches to art production to prepare for implementing a program. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate advisor.

AED 388C. Art Instruction through Arts-Based Research.
Restricted to art education majors. Students observe teaching and learning styles in early childhood through grade twelve art classrooms and review and evaluate their observations using class discussions, journals, creative reports, and other arts-based research techniques. Three lecture hours and three hours of fieldwork a week for one semester. Prerequisite: Graduating standing and consent of the graduate advisor.

AED 388D. Art and the Creation of Meaning.
Restricted to art education majors. Discussion, analysis, and hands-on use of the materials, techniques, and processes used to create artwork in early childhood through grade twelve classrooms. Three lecture hours and three laboratory hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate advisor.

AED 388E. Art and Critical Discourse.
Restricted to art education majors. Focuses on personal and professional critiques of artifacts and artistic products. Students explore and justify their responses to artwork in written and verbal discussion. Three lecture hours and three laboratory hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate advisor.

AED 698. Thesis.
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in art education; Art Education 382G and 382H; eighteen semester hours of coursework in art education, art history, or studio art; and consent of the graduate adviser; for 698B, Art Education 698A.

AED 398T. Supervised Teaching in Art Education.
Teaching under the close supervision of the course instructor for one semester; weekly group meetings with the instructor, individual consultations, and reports throughout the teaching period. Two lecture hours and four laboratory hours a week for one semester. Prerequisite: Graduate standing in art education, or graduate standing and appointment as a teaching assistant.

Professional Courses

AET - Arts and Entertainment Technologies

Lower-Division Courses

AET 304. Foundations of Arts and Entertainment Technologies.
Explore the industries, practices, and concepts defining arts and entertainment technologies in the twenty-first century. The equivalent of three lecture hours a week for one semester.

AET 310. Foundations of Creative Coding.
Explore applied computational thinking and logical processes for solving creative problems with technical solutions using the graphics language Processing. Three lecture hours a week for one semester, with studio hours as required.

AET 110T, 310T. Topics in Innovative Design.
Exploration of innovative topics in design. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Varies with the topic.

AET 119, 219, 319. Topics in Arts and Entertainment Technologies.
For each semester hour of credit earned, the equivalent of one lecture hour per week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

AET 119S, 219S, 319S. Topics in Arts and Entertainment Technologies.
This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad advisor in the School of Design and Creative Technologies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

AET 320D. Musical Acoustics.
Restricted to Arts and Entertainment Technologies majors. Explores the science of sound and how musical instruments work as well as principles of musical scales, hearing, architectural acoustics, and electronic music. Three lecture hours per week for one semester. Only one of the following may be counted: Arts and Entertainment Technologies 320D, 339 (Topic: Musical Acoustics), Mechanical

AET 320F. Immersive Audio.
Restricted to Arts and Entertainment Technologies majors. Explore 3D and multi-channel sound with applications in games and live audio mixing. Three lecture hours a week for one semester, with lab hours as required. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 320E.

AET 320G. Audio Coding I.
Restricted to Arts and Entertainment Technologies majors. Explore programming methods for MIDI and audio signal processing in the visual interface language Max/MSP. Examine how to manage audio signal flow and communications with external devices such as keyboard controllers, pedals and other sensors. Discuss the creation of systems for musical interactivity in live performance and immersive sound installation applications and integration with Ableton Live. Three lecture hours a week for one semester, with lab hours as required. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 305 and 320D.

AET 320J. Music Information Retrieval.
Restricted to Arts and Entertainment Technologies majors. Examination of the primary technologies used to retrieve perceptually-based music/sound information for audio signal identification and their applications in copyright protection. Three lecture hours a week for one semester, with lab hours as required. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 305, 320D.

AET 320L. Generative Music.
Restricted to Arts and Entertainment Technologies majors. Explores algorithmic music systems including procedural techniques, genetic algorithms and cellular automata. Three lecture hours a week for one semester, with lab hours as required. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 305, 320D.

AET 320M. Live Music Coding.
Restricted to Arts and Entertainment Technologies majors. An exploration of techniques for live, real-time music programming and sound production in performance settings. Three lecture hours a week for one semester, with lab hours as required. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 305, 320D.

AET 321C. Audio Processing.
Restricted to Arts and Entertainment Technologies majors. Explores the use of sound-shaping tools, convolution reverb, noise reduction, pitch and time editing to make precise corrections to audio files. Three lecture hours a week for one semester, with lab hours as required. Arts and Entertainment Technologies 321C and 339 (Topic: Audio Processing) may not both be counted. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 305.

AET 321F. Film Sound Design.
Restricted to Arts and Entertainment Technologies majors. Explore post-production concepts for preparing sound in relation to picture including sound effects, foley, voiceovers and sonic environments. Three lecture hours a week for one semester, with lab hours as required. Arts and Entertainment Technologies 321F and 339 (Topic: Audio for Visual Media) may not both be counted. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 305.

AET 322G. Audio Coding II.
Restricted to Arts and Entertainment Technologies majors. Advanced algorithmic programming in audio software with an emphasis on real-time systems. Three lecture hours a week for one semester, with lab hours as required. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 320E.

AET 323C. Screen Scoring.
Restricted to Arts and Entertainment Technologies majors. Create original music tracks for screen-based media and games. Three lecture hours per week for one semester. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 341C and 341D.

AET 323D. Interactive Music.
Restricted to Arts and Entertainment Technologies majors. Create real-time interactive music using Ableton Live and Musical Instrument Digital Interface (MIDI) controllers. Three lecture hours per week for one semester, with lab hours as required. Arts and Entertainment Technologies 323D and 339 (Topic: Interactive Music) may not both be counted. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 341C and 341D.

AET 324C. Introduction to Drawing.
Restricted to Arts and Entertainment Technologies majors. An introduction to the foundations of traditional and digital drawing. Three lecture hours per week for one semester, with lab hours as required. Arts and Entertainment Technologies 319 (Topic: Intro to Drawing) and 324C may not both be counted. Offered on the letter-grade basis only.

AET 324D. Principles of Animation.
Restricted to Arts and Entertainment Technologies majors. An introduction to the principles of animation for 2D and 3D systems. Use various techniques to convey a sense of weight, emotion, and story for simple and complex objects in both 2D and 3D. Three lecture hours a week for one semester, with lab hours as required. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 306.

AET 324F. Videography.
Restricted to Arts and Entertainment Technologies majors. An introduction to mobile and smart device video capture, storytelling, and editing. Three lecture hours a week for one semester, with lab hours as required. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 306.

AET 324G. Visual Coding.
Restricted to Arts and Entertainment Technologies majors. An introduction to advanced visual coding for performance and production. Three lecture hours a week for one semester, with lab hours as required. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 306.

AET 324J. Visual Storytelling.
Restricted to Arts and Entertainment Technologies majors. An introduction to digital visual storytelling. Three lecture hours a week for one semester, with lab hours as required. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 324C.

AET 124P, 224P, 324P. Advanced Production Laboratory.
Same as Theatre and Dance 124P. Same as Theatre and Dance 224P. Same as Theatre and Dance 324P. Restricted to theatre and dance and arts and entertainment technologies majors. For each semester hour of credit earned, one lecture hour a week for one semester, with additional laboratory hours to be arranged. Theatre and Dance 124P, 224P, 324P and Arts and Entertainment Technologies 124P, 224P, 324P may not both be counted. May be repeated for credit. Prerequisite: For Theatre and Dance majors, Theatre and Dance 314P or consent of instructor; For
AET 325C. Introduction to 2D Animation.
Restricted to Arts and Entertainment Technologies majors. An introduction to 2D animation, visualization, production techniques, and practice. Three lecture hours a week for one semester, with lab hours as required. Arts and Entertainment Technologies 325 and 325C may not both be counted. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 306.

AET 325E. Motion Graphics.
Restricted to Arts and Entertainment Technologies majors. An introduction to motion graphics, compositing, and visual effects for games and previsualization. Three lecture hours a week for one semester, with lab hours as required. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 325C, and 325 or 326C.

AET 326E. 3D Animation and Rigging.
Restricted to Arts and Entertainment Technologies majors. An introduction to 3D animation techniques and rigging systems. Three lecture hours a week for one semester, with lab hours as required. Only one of the following may be counted: Arts and Entertainment Technologies 326E, 328 and 339 (Topic: Animation and Rigging). Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 326 or 326C.

AET 326F. Digital Sculpting.
Restricted to Arts and Entertainment Technologies majors. Principles of 3D digital sculpting for games and visualization. Three lecture hours a week for one semester, with lab hours as required. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 306.

AET 326G. Realtime VFX.
Restricted to Arts and Entertainment Technologies majors. An introduction to creating visual effects for games and realtime engines. Three lecture hours a week for one semester, with lab hours as required. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 306.

AET 326J. Realtime Animation Techniques.
Restricted to Arts and Entertainment Technologies majors. An introduction to animation principles and techniques for creating games and realtime-ready animated systems. Three lecture hours a week for one semester, with lab hours as required. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 306.

AET 327C. Advanced Motion Graphics.
Restricted to Arts and Entertainment Technologies majors. Extended exploration into motion graphics, compositing, and visual effects of games and previsualization. Three lecture hours a week for one semester, with lab hours as required. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 325C, 325E, and 326 or 326C.

AET 327D. Advanced Imaging and Visualization.
Restricted to Arts and Entertainment Technologies majors. Extended exploration into advanced graphic art software and production techniques. Three lecture hours a week for one semester, with lab hours as required. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 325C and 326 or 326C.

AET 329J. Digital Fabrication.
Restricted to Arts and Entertainment Technologies majors. Explores common and emerging digital fabrication technologies for artists and designers. Three lecture hours a week for one semester, with lab hours as required. Arts and Entertainment Technologies 329J and 339 (Topic: Digital Fabrication) may not both be counted. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 316C.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the School of Design and Creative Technologies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

AET 130T, 330T. Topics in Innovative Design.
Exploration of innovative topics in design. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Varies with the topic.

AET 133, 333. Topics in Video Game Development.
Restricted to arts and entertainment technologies majors. Topics in video game development. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 310. Additional prerequisites vary with the topic.

AET 333D. Video Game Production.
Restricted to Arts and Entertainment Technologies majors. Explores the creation and execution of plans and roadmaps to strategize how game development is executed, organized, scheduled, budgeted, and managed. Three lecture hours a week for one semester, with lab hours as required. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 334E, 334F, and 334C or 334K.

AET 334. Video Game Character Animation.
Restricted to arts and entertainment technologies majors. Examines the process of creating 3D gameplay animations, techniques to improve animation workflow, and how to implement animations into the Unreal Engine. For each semester hour of credit earned, one lecture hour a week for one semester. May be taken two times for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 310.

AET 334C. Level Design.
Restricted to Arts and Entertainment Technologies majors. Design and build interactive 2D or 3D game levels (game maps) using an industry standard tool such as Unity or Unreal. Explore the design pipeline for creating levels from concept and layout, to whiteboxing, creating and integrating environment art and sound, world building, and adding simple scripted interactions, animations, sound effects, and VFX. Examine the different design process for small indie games compared to big AAA games. Three lecture hours a week for one semester, with lab hours as required. Arts and Entertainment Technologies 334C and 339 (Topic: Level Design) may not both be counted. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 310.
AET 334E. Video Game Art Pipeline.
Restricted to Arts and Entertainment Technologies majors. An introduction to creating and working with game ready assets in 2D and 3D. Three lecture hours a week for one semester, with lab hours as required. Arts and Entertainment Technologies 334E and 339 (Topic: Game Art Pipeline) may not both be counted. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 310.

AET 334F. Video Game Scripting I.
Restricted to Arts and Entertainment Technologies majors. Introduction to scripting interactive content for games using an industry-standard scripting language and game engine. Three lecture hours a week for one semester, with lab hours as required. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 310.

AET 334J. Multiplayer Video Game Design.
Restricted to Arts and Entertainment Technologies majors. Examination of the design and technical requirements for developing multiplayer games in different genres. Three lecture hours a week for one semester, with lab hours as required. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 334E, 334F, and 334C or 334K.

AET 334K. Video Game Prototyping.
Restricted to arts and entertainment technologies majors. Explore rapid prototyping techniques for video game art and design using ideation, storyboarding, pitching, prototyping, testing, and documentation. Three lecture hours per week for one semester. Only one of the following may be counted: Arts and Entertainment Technologies 333K, 334K and 339 (Topic: Game Prototyping). Offered on the letter-grade basis only. Prerequisite: Upper-division standing; Arts and Entertainment Technologies 304 and 310.

AET 134L, 334L. User Interface/User Experience for Video Games.
Restricted to Arts and Entertainment Technologies majors. An introduction to user interface (UI) and user experience (UX) design for video games. For each semester hour of credit earned, one lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 310.

AET 334M. Video Game Systems Design.
Restricted to Arts and Entertainment Technologies majors. Create and apply play systems which establish the framework for user experience (UX) and level design. Three lecture hours a week for one semester, with lab hours as required. Arts and Entertainment Technologies 334M and 339 (Topic: Game Systems Design) may not both be counted. Prerequisite: Arts and Entertainment Technologies 334E, 334F, and 334C or 334K.

AET 334N. Interactive Storytelling.
Restricted to Arts and Entertainment Technologies majors. Apply cross-disciplinary methods to create immersive narratives for interactive experiences. Three lecture hours a week for one semester, with lab hours as required. Only one of the following may be counted: Arts and Entertainment Technologies 334D, 334N, 339 (Topic: Narrative Design for Games). Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 310.

AET 334R. Technical Art I.
Restricted to arts and entertainment technologies majors. Examine technical aspects of game content creation including shaders, automation, tool creation, and special effects. Three lecture hours a week for one semester. May be taken two times for credit. May be repeated for credit. Prerequisite: Arts and Entertainment Technologies 334E and 334F.

AET 334S. Technical Art II.
Restricted to arts and entertainment technologies majors. Explore advanced technical art projects for games. Three lecture hours a week for one semester. May be taken two times for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 334R.

AET 335D. Realtime Visualization.
Restricted to Arts and Entertainment Technologies majors. An introduction to using game engines and realtime graphics systems for architectural, automotive, and other types of product visualization. Three lecture hours a week for one semester, with lab hours as required. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 306.

AET 335F. Video Game Scripting II.
Restricted to Arts and Entertainment Technologies majors. Advanced scripting of interactive content for video games using an industry-standard scripting language and game engine. Three lecture hours a week for one semester, with lab hours as required. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 334F.

AET 135J, 335J. Live Video Game Design.
Restricted to Arts and Entertainment Technologies majors. An introduction to design methods for video games as a service and persistent multiplayer video game worlds. For each semester hour of credit earned, one lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 334E, 334F, and 334C or 334K.

AET 335K. Virtual Reality for Video Games.
Restricted to Arts and Entertainment Technologies majors. Explores design and creation of virtual reality (VR) content for games, and deploying and testing on VR hardware. Three lecture hours a week for one semester, with lab hours as required. Arts and Entertainment Technologies 335K and 339 (Topic: Virtual Reality for Games) may not both be counted. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 334E, 334F, and 334C or 334K.

AET 336C. Video Game History and Culture.
Analyze the history of video games from their origins in computer labs, to their surge in popularity that has significantly impacted modern society. Examine the evolution of video games, their influences on culture and laws, controversies in gender politics and minority representation, and how the medium developed both commercially and as a form of artistic expression. Three lecture hours a week for one semester.

AET 337. Writing for Interactive Games.
Exploration of game creation as a multi-threaded narrative story. Students create, write, edit, and refine game stories and game dialogue and build small game scenarios using a variety of game design software platforms. Three lecture hours a week for one semester.

AET 337N. Introduction To Narrative.
Restricted to arts and entertainment technologies majors. Explore the origins, formal elements, and best practices of good storytelling across multiple mediums through study, analysis, and writing practice. For each semester hour of credit earned, one lecture hour a week for one semester. Arts and Entertainment Technologies 337N and 339 (Topic: Intro to Narrative) may not both be counted. Offered on the letter-grade
basis only. Prerequisite: Arts and Entertainment Technologies 304 and 310.

AET 139, 239, 339, 439. Advanced Topics in Arts and Entertainment Technologies.
Advanced topics in arts and entertainment technologies. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

AET 341C. Virtual Instruments.
Restricted to Arts and Entertainment Technologies majors. Explore the concepts and current trends of virtual instruments to produce, arrange and orchestrate musical ideas in a variety of contemporary musical settings. Three lecture hours per week for one semester, with lab hours as required. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 305.

AET 341D. Digital Musicianship.
Restricted to Arts and Entertainment Technologies majors. Explore harmony, chord progressions, and song structure in the MIDI grid. Three lecture hours per week for one semester, with lab hours as required. Arts and Entertainment Technologies 319 (Topic: Digital Musicianship I) and 341D may not both be counted. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 305.

AET 342C. 3D Modeling and Texturing.
Restricted to arts and entertainment technologies majors. Utilize hard surface and organic modeling workflows, modern texturing techniques, and physically-based shaders to create efficient assets based on clear content goals. Three lecture hours a week for one semester. May be taken three times for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 306.

AET 342D. 3D Materials And Lighting.
Restricted to arts and entertainment technologies majors. Explore 3D game models using state of the art workflows and tools. Three lecture hours a week for one semester. May be taken three times for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 306.

AET 343. Studio.
Restricted to arts and entertainment technologies majors. Explore arts and entertainment technologies ideas while intersecting with other disciplines in our industries. For each semester hour of credit earned, one lecture hour a week for one semester. May be taken three times for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technology 304 and 310.

AET 344D. 3D Previsualization for Live Entertainment.
Restricted to Arts and Entertainment Technologies majors. Instructs students on how to bring an idea from concept to fully rendered pitch-ready environment by utilizing 2D and 3D technical drafting tools in Vectorworks, and a lighting visualizer. Three lecture hours a week for one semester, with lab hours as required. Only one of the following may be counted: Arts and Entertainment Technologies 344, 344C, or 344D. Offered on the letter-grade basis only.

AET 346C. Video Game Modding.
Restricted to Arts and Entertainment Technologies majors. Focus on modifying existing video games to experiment with gameplay ideas and create unique play experiences. Three lecture hours a week for one semester, with lab hours as required. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 334E, 334F, and 334C or 334K.

AET 346F. Video Game Design Challenges.
Restricted to Arts and Entertainment Technologies majors. Focuses on the creation of unique play experiences under extreme constraints. Three lecture hours a week for one semester, with lab hours as required. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 334E, 334F, and 334C or 334K.

AET 346J. Experimental Gameplay Workshop.
Restricted to Arts and Entertainment Technologies majors. An exploration of interactive systems and unique play experiences. Three lecture hours a week for one semester, with lab hours as required. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 334E, 334F, and 334C or 334K.

AET 348. Concert and Event Lighting.
Explore methodologies utilized in live event lighting. Three lecture hours a week for one semester, with lab hours as required. Offered on the letter-grade basis only. Prerequisite: Consent of instructor; Arts and Entertainment Technologies 348C.

AET 348C. Live Event Engineering.
Restricted to Arts and Entertainment Technologies majors. Examine a variety of design elements controlled over live entertainment networks, including hardware and software components and how they communicate with one another. Combine programming techniques, technical research, and design process. Three lecture hours a week for one semester, with lab hours as required. Only one of the following may be counted: Arts and Entertainment Technologies 348C, 360 or 360C. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 316C.

AET 348K. 3D Projection Mapping.
Restricted to Arts and Entertainment Technologies majors. Explore common 3D mapping techniques and applications that include architectural mapping, dome projection and Cave automatic virtual environments (CAVE) projection. Three lecture hours a week for one semester, with lab hours as required. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 348C; consent of instructor.

AET 348L. Advanced System Engineering.
Restricted to Arts and Entertainment Technologies majors. Study common signals (digital and analogue), data communication protocols, synchronization, show control as well as layout and contingency considerations for professional entertainment systems. Three lecture hours a week for one semester, with lab hours as required. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 329G and 348C.

Project in advanced sound processing and synthesis and audio-visual systems. Hours to be arranged. May be repeated for credit. Prerequisite: Consent of instructor.

AET 350C. Advanced Creative Coding.
Restricted to arts and entertainment technologies majors. Explore advanced computational concepts and their application to more diverse creative media domains including; audio, video, music, and the web. Three lecture hours a week for one semester. Arts and Entertainment Technologies 339 (Topic: Advanced Creative Coding) and 350C may not
both be counted. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 310.

**AET 351C. Audio Production Lab.**

Restricted to Arts and Entertainment Technologies majors. Individual or team projects in audio production for live performance. Three lecture hours per week for one semester, with lab hours and performance participation as required. Offered on the letter-grade basis only. Prerequisite: Consent of instructor.

**AET 351E. Do It Yourself Synthesizer Lab.**

Restricted to Arts and Entertainment Technologies majors. Projects to design and build microprocessor-based synthesizers and special effects (SFX) components and systems. Three lecture hours per week for one semester, with lab hours and performance participation as required. Offered on the letter-grade basis only. Prerequisite: Consent of instructor.

**AET 353. Advanced Topics in Video Game Development.**

Restricted to Arts and Entertainment Technologies majors. Advanced topics in game development. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Arts and Entertainment Technologies 334E, 334F, and 334C or 334K. Additional prerequisites vary with the topic.

**AET 361C. Physical Computing.**

Restricted to Arts and Entertainment Technologies majors. Introduces concepts and methods of physical computing, including the creation, building, and programming of small devices and the integration of external devices and objects. Three lecture hours a week for one semester. Only one of the following may be counted: Arts and Entertainment Technologies 360, 361, 361C. Prerequisite: Arts and Entertainment Technologies 316 (or 317).

**AET 368. Internship I.**

Internship with an external company or institution, supervised by arts and entertainment technologies faculty. Requires completion of 150 hours of satisfactory on-site work. Hours to be arranged. Prerequisite: Sophomore standing, a University grade point average of at least 2.50, and consent of instructor.

**AET 369. Internship II.**

Internship with an external company or institution, supervised by arts and entertainment technologies faculty. Requires completion of 150 hours of satisfactory on-site work. Hours to be arranged. Prerequisite: Sophomore standing, a University grade point average of at least 2.50, and consent of instructor.

**AET 370. Research Methods Proseminar.**

Explore research methods and the preparation of a thesis topic and senior thesis proposal. The equivalent of one lecture hour a week for one semester.

**AET 372. Senior Design Projects I.**

Use acquired knowledge and skills to create a collaborative team project that can serve as a calling card to future employers or graduate schools. Hours to be arranged. Prerequisite: Upper-division standing.

**AET 373. Senior Design Projects II.**

Continue to use acquired knowledge and skills to create a collaborative team project that can serve as a calling card to future employers or graduate schools. Hours to be arranged. Prerequisite: Upper-division standing.

**AET 374. Independent Study.**

Independent study or research in arts and entertainment technologies. Hours to be arranged. May be repeated for credit. Prerequisite: Upper-division standing, a grade point of average of at least 3.00, consent of instructor, and consent of the director of the Center for Arts and Entertainment Technologies.

**AET 376. Game Capstone: 2-D.**

Work in small teams from different disciplines to develop 2D games. Hours to be arranged. Only one of the following may be counted: Arts and Entertainment Technologies 376, Computer Science 354S, 378 (Topic: Game Devel Capstone: 2D Games), Music 354S, 376J (Topic: Game Devel Capstone: 2D Games), Theatre and Dance 354T (Topic 17), Radio-Television-Film 344N (Topic 6), 344T (Topic 1). Prerequisite: Upper-division standing and consent of instructor based on portfolio submission.

**AET 377. Game Capstone: 3-D.**

Work in small teams from different disciplines to develop 3D games. Hours to be arranged. Prerequisite: Upper-division standing and consent of instructor based on portfolio submission.

**AET 378H. Honors Senior Thesis.**

Participate in a large scale senior project. The equivalent of four-and-one-half laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing; Arts and Entertainment Technologies 170, and consent of the Arts and Entertainment Technologies Honors Coordinator.

**Graduate Courses**

**Professional Courses**

**AFR - African and African Diaspora Studies**

**African and African Diaspora Studies: AFR**

**Lower-Division Courses**

**AFR 301. African American Culture.**

Survey of African American culture in the United States from the 1600s to the present. Subjects include the circumstances and responses of blacks during North American enslavement, the Civil War, Reconstruction, the Great Migration, the Harlem Renaissance, the civil rights movement, and contemporary contexts. Three lecture hours a week for one semester.

**AFR 302M. Numbering Race.**

Same as Statistics and Data Sciences 311C. Subjects include conceptualization and operationalization in quantitative measurement, the calculation and interpretation of descriptive statistics and statistical relationships, the application of statistical techniques to understand social phenomenon, and techniques for presenting results from quantitative analysis. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 302M, 317D (Topic: Numbering Race), Statistics and Data Sciences 310T (Topic: Numbering Race), 311C.

**AFR 303. Introduction to Black Studies.**

Same as Anthropology 310D. Introduction to canonical black studies literature, themes, and theories. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 303, Anthropology 310D, 310L (Topic: Intro to African and African Diaspora Studies).
AFR 304. Introduction to the Study of Africa.
Examines the complex histories, intellectual entanglements, and enduring hierarchies of Africa and African studies. Explores the evolution of African studies (both intellectually and institutionally), particularly in regards to the emergence of black studies. Three lecture hours a week for one semester. African and African Diaspora Studies 304 and 317C (Topic: Introduction to the Study of Africa) may not both be counted.

AFR 310. Introductory Topics in African and African Diaspora Studies.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

AFR 310K. Introduction to Modern Africa.
Same as History 310. Introduction to modern Africa, with focus on colonial and postcolonial development in political organization, economics, sociolinguistics, and literature. Three lecture hours a week for one semester.

AFR 310L. Introduction to Traditional Africa.
Same as History 311K. Introductory, interdisciplinary course on the peoples and cultures of Africa. Three lecture hours a week for one semester.

AFR 311C. Performance, Feminism, and Social Change.
Same as Women’s and Gender Studies 301 (Topic 14). Exploration of the ways that engaged performance and feminist practice generate space for social change, including the basic principle that social transformation requires individual awareness, and that awareness necessitates a rigorous examination of race, gender, class, and sexuality. Only one of the following may be counted: African and African Diaspora Studies 311C, 317F (Topic: Performance, Feminism, and Social Change), Women’s and Gender Studies 301 (Topic: Performance, Feminism, and Social Change), 301 (Topic 14).

AFR 315. Afro-Brazilian Diaspora.
Same as Comparative Literature 305D and Latin American Studies 310C. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315, 317E (Topic: Afro-Brazilian Diaspora), Comparative Literature 305 (Topic: Afro-Brazilian Diaspora), 305D, Latin American Studies 310 (Topic: Afro-Brazilian Diaspora), 310C.

AFR 315C. Introduction to East Austin Ethnography.
Same as American Studies 315G and Anthropology 310E. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315C, 317D (Topic: Intro to East Austin Ethnography), American Studies 315 (Topic: Intro to East Austin Ethnography), 315G, Anthropology 310E, 310L (Topic: Intro to East Austin Ethnography).

AFR 315D. Performing Blackness.
Same as American Studies 315M and Women’s and Gender Studies 301 (Topic 8). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315D, 317F (Topic: Performing Blackness), American Studies 315 (Topic: Performing Blackness), 315M, Theatre and Dance 311T (Topic: Performing Blackness), Women’s and Gender Studies 301 (Topic: Performing Blackness), 301 (Topic 8).

AFR 315E. The Revolution Will Be Dramatized.
Same as American Studies 315K, Theatre and Dance 305S (Topic 2), and Women’s and Gender Studies 301 (Topic 25). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315E, 317F (Topic: The Revolution Will Be Dramatized), American Studies 315 (Topic: The Revolution Will Be Dramatized), 315K, Theatre and Dance 305S (Topic 2), 311T (Topic: The Revolution Will Be Dramatized), Women’s and Gender Studies 301 (Topic: The Revolution Will Be Dramatized), 301 (Topic 25).

AFR 315F. Toni Morrison and August Wilson.
Same as American Studies 315L, Theatre and Dance 305S (Topic 3), and Women’s and Gender Studies 301 (Topic 26). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315F, 317F (Topic: Toni Morrison and August Wilson), American Studies 315 (Topic: Toni Morrison and August Wilson), 315L, Theatre and Dance 305S (Topic 3), 311T (Topic: Toni Morrison and August Wilson), Women’s and Gender Studies 301 (Topic: Toni Morrison and August Wilson), 301 (Topic 26).

AFR 315G. The United States and Africa.
Same as History 317L (Topic 7). History of political, economic, and cultural relations between the United States and Africa from the early origins of the slave trade to the present. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315G, 317C (Topic 1), History 317L (Topic 7).

AFR 315I. Introduction to African American Women’s History.
Same as History 317L (Topic 20) and Women’s and Gender Studies 301 (Topic 34). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315I, 317C (Topic: Introduction to Ancient Egypt), 317C (Topic 5), Classical Civilization 304C (Topic 3).

AFR 315J. Introduction to Ancient Egypt.
Same as Classical Civilization 304C (Topic 3). A survey of the language, culture, and history of Egypt from the prehistorical period (13,000 BC) to the New Kingdom (1069 BC). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315J, 317C (Topic: Introduction to Ancient Egypt), 317C (Topic 5), Classical Civilization 304C (Topic 3).

AFR 315K. Introduction to African American History.
Same as History 317L (Topic 3). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315K, 317D (Topic 1), History 317L (Topic 3).

AFR 315L. Anthropology of Race and Ethnicity: An Introduction.
Same as American Studies 315D and Anthropology 310L (Topic 2). Examines the social importance of race and ethnicity both in America and around the world. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315L, 317D (Topic 2), American Studies 315D, Anthropology 310L (Topic 2).

AFR 315M. Students of Color Leadership Issues.
Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315M, 348C, 374D (Topic: Minority Student Leadership Issues), Educational Psychology 354M, 369K (Topic: Minority Student Leadership Issues), 369K (Topic 6).

AFR 315N. The Black Power Movement.
Same as History 317L (Topic 9). Examines the major organizations, key figures, and ideologies of the Black Power movement from the late 1960s and early 1970s. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315N, 317D (Topic 3), History 317L (Topic 9).
AFR 315O. The Politics of Black Identity.
Explore the idea that black progress is undermined by the activities and practices of certain black celebrities, leaders, and intellectuals whose attitudes, behavior, and politics differ from the black majority. Examine the history of labels that make reference to black identity, including "Uncle Tom," "Negro," "sellout," and various other denigrating names. Three lecture hours a week for one semester. African and African Diaspora Studies 315O and 317D (Topic 4) may not both be counted.

AFR 315P. Introduction to Black Women's Studies.
Same as Women's and Gender Studies 301 (Topic 16). Interdisciplinary examination of the complexities of black womanhood in America through an investigation of history, identity, popular culture, and black feminism/womanism, as well as social and political activism. Three lecture hours a week for one semester. Only one of the following can be counted: African and African Diaspora Studies 315P, 317D (Topic 5), Women's and Gender Studies 301 (Topic 16).

AFR 315Q. Black Queer Art Worlds.
Same as Anthropology 310L (Topic 6) and Women's and Gender Studies 301 (Topic 17). Exploration of over two decades of work produced by and about black queer subjects throughout the circum-Atlantic world. Provides an introduction to various artists and intellectuals of the black queer diaspora, as well as an examination of the viability of black queer aesthetic practice as a form of theorizing. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315Q, 317E (Topic 1), Anthropology 310L (Topic 6), Women's and Gender Studies 301 (Topic 17).

AFR 315R. Diaspora: Race, Nation, and Resistance.
Same as Anthropology 310L (Topic 7). Subjects include makings and meanings of diaspora, the differences and similarities between diaspora and related concepts such as race, nation, and cultural identity. Focuses on the making of the black Atlantic world, and comparative analysis between black diasporic life and that of other global dispersals, particularly among Asian and indigenous populations, and how resistance serves as a key link. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315R, 317E (Topic 2), Anthropology 310L (Topic 7).

AFR 315S. Liberation in the African Diaspora.
Same as Latin American Studies 310 (Topic 7). Examination of liberation and freedom struggles in the African diaspora, focusing on common intellectual, political, and social currents among the diaspora's various groups. Course focuses on three major themes: abolitionism, Pan-Africanism and national liberation, and hip hop. Particular emphasis will be on the ideas associated with these movements, and the major organizations and intellectual currents in all three. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315S, 317E (Topic 3), Latin American Studies 310 (Topic 7).

AFR 315T. African American Literature and Culture.
Same as English 314V (Topic 1). Explores texts, drawn from a variety of genres and periods, that indicate the range of African American experiences and how those experiences are influenced by issues such as class, ethnicity, gender, sexuality, and race. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315T, 317F (Topic 1), English 314V (Topic 1). Prerequisite: One of the following: English 303C, Rhetoric and Writing 306, 306Q, 309J (or 309K), or Tutorial Course 303C.

Same as Music 307 (Topic 1). Introduction to the variety of modes of expression of African American culture in music and other related genres. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315U, 317F (Topic 2), Music 307 (Topic 1).

AFR 315V. African Diaspora Archaeology.
Same as Anthropology 310F. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 310F, 310L (Topic: African Diaspora Archaeology), African and African Diaspora Studies 315V, 317E (Topic: African Diaspora Archaeology).

AFR 315W. Race, Sex, and Tourism.
Same as Anthropology 310R. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315W, 317E (Topic: Race, Sex, and Tourism), Anthropology 310L (Topic: Race, Sex, and Tourism), 310R.

AFR 316C. Rights in Modern America.
Same as American Studies 315J, History 317L (Topic 10), and Women's and Gender Studies 301 (Topic 32). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 316C, 317D (Topic: Rights in Modern America), American Studies 315 (Topic: Rights in Modern America), 315J, History 317L (Topic: Rights in Modern America), 317L (Topic 10), Women's and Gender Studies 301 (Topic: Rights in Modern America), 301 (Topic 32).

AFR 316D. Race, Deportation, and Diaspora.
Same as American Studies 315R, Asian American Studies 316D, and Latin American Studies 310F. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 316D (Topic: Race, Deportation, Diaspora), 316D, 317D (Topic: Race, Deportation, Diaspora), American Studies 315 (Topic: Race, Deportation, Diaspora), 315R, Asian American Studies 310 (Topic: Race, Deportation, Diaspora), 316D, Latin American Studies 310 (Topic: Race, Deportation, Diaspora), 310F.

AFR 316E. Blackness and Comics.
Same as American Studies 312C and English 319D. Examine the relationship between race and the sequential aesthetics of comic books and comic strips. Explore comics strips, underground comics, and superhero comics from the colonial period to the present day. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 310 (Topic: Blackness and Comics), 316E, American Studies 312C, English 319D.

AFR 316F. Black and Latinx Intersections.
Same as Government 319C, Mexican American Studies 318F, and Sociology 309D. Examine the complex relationships between and among Black and Latinx communities and the political and structural forces and contexts that shape their interactions. Explore Black identity within the Latinx population, racial politics, coalitions of Black American and Latinx groups, race among Latinx, racial inequality, and the politics of immigration. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 310 (Topic: Blackness and Comics), 316F, Government 319C, Mexican American Studies 318F, 319 (Topic: Black/Latinx Intersections), Sociology 309D.

AFR 316K. Introduction to Religions of Latin America.
Same as Latin American Studies 316L and Religious Studies 316L. Examine a survey of religious practice across Latin America and the Caribbean. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 316K, 317E (Topic: Intro Relig/Lat Amer/Carib), Latin American Studies 310 (Topic: Intro Relig/Lat Amer/Carib), 316L, Religious Studies 316K (Topic: Intro Relig/Lat Amer/Carib), 316L.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad advisor in the Center for African and African Diaspora Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

AFR 320C. Power and Place: Making Texas History.

Same as History 365G (Topic 21), Mexican American Studies 320C, and Race, Indigeneity, and Migration 320C. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 320C, 370 (Topic: Power/Place: Making Tex His), History 365G (Topic: Power/Place: Making Tex His), 365G (Topic 21), Mexican American Studies 320C, Race, Indigeneity, and Migration 320C. Prerequisite: Upper-division standing.

Same as Anthropology 324L (Topic 9: The African Diaspora in the Americas). Black cultures and societies in the New World, and their African heritage. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

AFR 321K. African American Family.

Same as Social Work 360K (Topic 2) and Women’s and Gender Studies 340 (Topic 3). Overview of historical and contemporary issues facing African American families and children. Social service delivery to African American families and communities is emphasized. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 321K, Social Work 360K (Topic 2), Women’s and Gender Studies 340 (Topic 3).

AFR 321L. Sociology of Education.

Same as Sociology 321L and Women’s and Gender Studies 345F. Education as a societal institution, with emphasis on the United States educational system: how the system works; the effects of the system; recent changes. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 321L, Sociology 321L, Women’s and Gender Studies 345 (Topic 23), 345F. Prerequisite: Forty-five semester hours of coursework.

AFR 322. Introduction to African Prehistory.

Same as Anthropology 324L (Topic 7: Introduction to African Prehistory). Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

AFR 322D. Race and the Digital.

Same as Sociology 322D and Women’s and Gender Studies 322G. Review of theoretical developments in the sociological study of “race,” including an examination of processes of racialization and cultural texts, in order to better understand the ways in which identities are socially produced. Attention will be placed on forms of popular culture, black cultural production, and political action to question how such practices are shaped by migrations within the African diaspora. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 322D, Sociology 322D, Women’s and Gender Studies 322 (Topic 7), 322G. Prerequisite: Upper-division standing.

AFR 324E. Racism and Antiracism.

Same as Asian American Studies 330C. Examines the theories and definitions of racism across several fields: anthropology, sociology, psychology, cultural studies, postcolonial studies, and gender/sexuality studies. Also includes a section that focuses on anti-racist activism, particularly within people of color and immigrant communities. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 324E, Asian American Studies 330 (Topic 2), 330C. Prerequisite: Upper-division standing.

AFR 325C. Latinx Sexualities.

Same as American Studies 337J, Mexican American Studies 337J, and Women’s and Gender Studies 335 (Topic 27). Examine Latinx sexualities from a historical perspective to comprehend the social, cultural, political, and economic factors, which have shaped these experiences. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 325C, 372C (Topic: Latinx Sexualities), American Studies 337J, 370 (Topic: Latinx Sexualities), Mexican American Studies 337J, 374 (Topic: Latinx Sexualities), Women’s and Gender Studies 335 (Topic: Latinx Sexualities), 335 (Topic 27). Prerequisite: Upper-division standing.

AFR 325D. Gender and Translation in the Arab World.

Same as Asian Studies 343C and Middle Eastern Studies 342 (Topic 81). Examine complex politics and poetics behind the translation and marketing of Arab women’s writing in the West. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 325D, Asian Studies 343C, Middle Eastern Studies 342 (Topic: Gndr and Trnsltn/ and Arab World), 342 (Topic 81). Prerequisite: Upper-division standing.

AFR 326. Afro-Caribbean Politics and Culture in Central America.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad advisor in the Center for African and African Diaspora Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

AFR 330. Beyonce Feminism and Rihanna Womanism.

Same as Women’s and Gender Studies 335 (Topic 11). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 372C (Topic: Beyonce Feminism/Rihanna Womanism), 330, Women’s and Gender Studies
AFR 330C. Fashion And Desire.
Same as Women's and Gender Studies 340 (Topic 84). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 330C, 372E (Topic: Fashion And Desire), Textiles and Apparel 365 (Topic: Fashion And Desire), Women's and Gender Studies 340 (Topic: Fashion And Desire), 340 (Topic 84). Prerequisite: Upper-division standing.

AFR 330D. Literature of the Harlem Renaissance.
Same as English 353R. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 330D, 374F (Topic: Harlem Renaissance), English 353R, 376M (Topic: Harlem Renaissance). Prerequisite: One of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P; or Tutorial Course 303D.

AFR 330E. Gwendolyn Brooks.
Same as Theatre and Dance 357T (Topic 11) and Women's and Gender Studies 340 (Topic 72). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 330E, 372E (Topic: Gwendolyn Brooks), English 349S (Topic: Gwendolyn Brooks), Theatre and Dance 357T (Topic: Gwendolyn Brooks), 357T (Topic 11), Women's and Gender Studies 340 (Topic: Gwendolyn Brooks), 340 (Topic 72). Prerequisite: Upper-division standing.

AFR 330F. Writing for Black Performance.
Same as American Studies 321Q, Creative Writing 325T, and Theatre and Dance 357T (Topic 5). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 330F, 372E (Topic: Writing for Black Performance), American Studies 321 (Topic: Writing for Black Performance), 321Q, Creative Writing 325T, English 376M (Topic: Writing for Black Performance), Theatre and Dance 357T (Topic: Writing for Black Performance), 357T (Topic 5). Prerequisite: Upper-division standing.

AFR 330L. African American Literature since the Harlem Renaissance.
Same as English 376S. The development of African American poetry, drama, fiction, and nonfiction since the Harlem Renaissance. Authors may include Wright, Ellison, Baldwin, Malcolm X, Baraka, Morrison, Shange, and Charles Johnson. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 330L, 372E (Topic 5), English 376S. Prerequisite: One of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P; or Tutorial Course 303D.

AFR 330M. Contemporary African American Women’s Fiction.
Same as English 343W and Women’s and Gender Studies 340 (Topic 29). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 330M, 372E (Topic 15), English 343W, 376M (Topic 7), Women’s and Gender Studies 340 (Topic 29). Prerequisite: For English majors, one of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P; or Tutorial Course 303D; for others, upper-division standing.

AFR 330N. Self-Revelation in Women’s Writing.
Same as Comparative Literature 323 (Topic 4), Middle Eastern Studies 342 (Topic 19), and Women’s and Gender Studies 340 (Topic 14). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 330N, 372E (Topic 8), Comparative Literature 323 (Topic 4), Middle Eastern Studies 342 (Topic 19), Women’s and Gender Studies 340 (Topic 14).

AFR 330O. Black Film at the Oscars.
Same as English 343F. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 330O, 374D (Topic: Black Film at the Oscars), English 343F, 376M (Topic: Black Film at the Oscars). Prerequisite: One of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P; or Tutorial Course 303D.

AFR 330P. Writing Slavery.
Same as English 323E and Women’s and Gender Studies 340 (Topic 31). Explores the controversial rewriting of slavery in a presentist context by contemporary authors. Addresses challenges that archival limitations and revisionist writings about slavery pose for academic disciplines, literary instruction, and/or pedagogy. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 330P, 374F (Topic 6), English 323E, 376M (Topic 3), Women’s and Gender Studies 340 (Topic 31). Prerequisite: For English majors, one of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P; or Tutorial Course 303D; for others, upper-division standing.

AFR 330Q. Caribbean Literature.
Same as Comparative Literature 323 (Topic 6) and English 343C. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 330Q, 374F (Topic 7), Comparative Literature 323 (Topic 6), English 343C, 360L (Topic 2). Prerequisite: One of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P; or Tutorial Course 303D.
AFR 330R. Literature of Black Politics.
Same as American Studies 370 (Topic 43). Examines the novels, plays, and critical essays of Ralph Ellison, James Baldwin, and Toni Morrison as works of democratic political theorizing and political engagement. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 330R, 374F (Topic 21), American Studies 370 (Topic 43). Prerequisite: Upper-division standing.

AFR 330S. Danticat and Diaz.
Same as Comparative Literature 323 (Topic 60) and English 349D. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 330S, 372E (Topic: Danticat and Diaz), Comparative Literature 323 (Topic: Danticat and Diaz), 323 (Topic 60), English 349D, 349S (Topic: Danticat and Diaz). Prerequisite: One of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P or Tutorial Course 303D.

Same as Comparative Literature 323 (Topic 67). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 330T, 374D (Topic: Diasporic Magic: Lit/Perf), Comparative Literature 323 (Topic: Diasporic Magic: Lit/Perf), 323 (Topic 67). Prerequisite: Upper-division standing.

AFR 330U. Home in Contemporary Black Fiction.
Same as Comparative Literature 323 (Topic 68). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 330U, 374F (Topic: Home in Contemp Blk Fiction), Comparative Literature 323 (Topic: Home in Contemp Blk Fiction), 323 (Topic 68). Prerequisite: Upper-division standing.

AFR 330V. Greek Tragedies and Postcolonial Dramas.
Same as Comparative Literature 323 (Topic 73) and Theatre and Dance 357T (Topic 9). Study the adaptation of great dramatic literature of the Greek civilizations to their phenomenal evolution into popular African performances. Putting classical writings from Ancient Greek in dialogue with texts that formed the background of African anti-colonial revolutions, analyze how Africans have used these works to re-shape literary canon and given their world and their histories universal purchase. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 330V, 374F (Topic: Greek Tragedy/Postcol Drama), Comparative Literature 323 (Topic: Greek Tragedy/Postcol Drama), 323 (Topic 73), Theatre and Dance 357T (Topic: Greek Tragedy/Postcol Drama), 357T (Topic 9). Prerequisite: For theatre and dance majors, consent of instructor; for all others, upper-division standing.

AFR 330W. Black Queer Literature and Film.
Same as English 343M and Women's and Gender Studies 340 (Topic 47). Analyzes written works, films, and videos by and about lesbians, bisexual, transgender, and gay black people, with an emphasis on understanding the historical and theoretical construction of sexual and gender identities and sexual/cultural practices in black communities. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 330W, 372E (Topic 13), English 343M, 376M (Topic 8), Women's and Gender Studies 340 (Topic 47). Prerequisite: For English majors, one of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P, or Tutorial Course 303D; for others, upper-division standing.

AFR 331. Early Black Atlantic.
Same as English 363S. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 331, English 363S, 376M (Topic: Early Black Atlantic). Prerequisite: One of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P, or Tutorial Course 303D.

AFR 331C. Expressive Arts of Global Africa.
Same as Anthropology 328I. Explore music, dance, and other artistic forms as modes of political expression and community building. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 331C, Anthropology 324L (Topic: Expressive Arts Global Africa), 328I. Prerequisite: Upper-division standing.

AFR 331D. Drugs in African American Popular Culture.
Same as American Studies 334 and English 345D. Examine the legal, political, and philosophical intersection of blackness, whiteness, and drugs in the late twentieth century through film, music, and literature. AFR 335I. Contemporary British Artists of the African Diaspora.
Same as Art History 345K. A look at a wide range of artists, practicing in Britain, who are part of the African diaspora via such factors as the Atlantic slave trade and various patterns of international migration. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 335I, 374F (Topic 14), Art History 345K, 374 (Topic: Contemp Brit Artists Afr Diaspora).

AFR 335J. Contemporary Artists of the African Diaspora.
Same as Art History 345J. Examines a wide range of artists, practicing in different parts of the world, who are part of the African diaspora via such factors as the Atlantic slave trade and various patterns of international migration. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 335J, 374F (Topic 15), Art History 345J, 373D (Topic: Contemp Artist of Afr Diaspora), 374 (Topic: Contemp Artist of Afr Diaspora).

AFR 335K. Twentieth-Century African American Art.
Same as Art History 344J. A survey of visual art produced by people of African descent in the United States with an emphasis on the twentieth century and its sociohistorical framework. Changes in modes of expression, formal concerns, pictorial themes, and the impact of the Black Arts movement, feminism, and Afrocentrism on art are explored, as well as the relationship of the work of black artists to art from West and Central Africa and the visual traditions of European and Euro-American artists. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 335K, 374F (Topic 19), Art History 344J, 366N (Topic: 20th-Cent African American Art).

AFR 335M. Art of the Harlem Renaissance.
Same as Art History 344L. Examine the factors which gave rise to the Harlem Renaissance, with a particular emphasis on art and artists. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 344L, 374 (Topic: Harlem Renaissance), African and African Diaspora Studies 335M, 374F (Topic: Harlem Renaissance).

AFR 335N. Black Art, Brown Art.
Same as Art History 373E (Topic 1) and Mexican American Studies 323C. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 335N, 372E (Topic: Black Art, Brown Art), Art History 373E (Topic: Black Art, Brown Art), 373E (Topic 1), Mexican American Studies 323C, 374 (Topic: Black Art, Brown Art). Prerequisite: Upper-division standing.

AFR 335Q. Blackness in the Contemporary Art Museum.
Same as American Studies 333 and Art History 374 (Topic 4). Explore issues related to the acquisition, stewardship, and repatriation of the art of the African Diaspora in the face of an increasingly virtual and market-driven art world. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 335Q, 370 (Topic: Blackness in Cont Art Museum), American Studies 333, Art History 374 (Topic 4).

AFR 338C. Black Perspectives in Jazz.
Same as Music 342 (Topic 5). Explores the social, cultural, political, and artistic relationships between jazz and the black experience, both within the African American context and throughout the diaspora. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 338C, 372E (Topic 12), Music 342 (Topic 5).

AFR 338D. Music of Latin America.
Same as Latin American Studies 326 (Topic 2) and Music 334 (Topic 2). Consider Latin American music within a broad cultural and historical framework. Latin American musical practices are explored illustrating the many ways that aesthetics and society are embodied in and negotiated through performance. Concepts include diaspora, colonialism, mestizaje, hybridity, migration and globalization. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 338D, 374F (Topic: Music of Latin America), Latin American Studies 322 (Topic: Music of Latin America), 326 (Topic 2), Music 334 (Topic 2).

Same as Latin American Studies 326 (Topic 5) and Music 334 (Topic 5). The musical legacy of the African slave trade in the Americas, the social contexts in which black musical forms have developed, and their varied forms. Subjects include the shifting meanings of "black music" in various contexts; the notion of hybridity; the uses of African influenced music as a political or oppositional tool; and African ethnic groups represented prominently in the New World, the traditions they brought with them, and the ways they have been adapted to new ends. Three lecture hours and one laboratory hour a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 338E, 374F (Topic 8), Latin American Studies 326 (Topic 5), Music 334 (Topic: Music of the African Diaspora), 334 (Topic 5). Prerequisite: Upper-division standing.

AFR 338F. Music of Mexico and the Caribbean.
Same as Latin American Studies 326 (Topic 1) and Music 334 (Topic 1). Introduction to the history of Mexican and Caribbean traditional and commercial music, with some discussion of classical music as well. Attention will be given to music of indigenous, African, European, and mixed origin. Mexico and the Spanish-speaking Caribbean receive special attention. Class meetings will be divided into lecture/discussion segments, videos, listening, and performance instruction/demonstration. Only one of the following may be counted: African and African Diaspora Studies 338F, 370 (Topic: Music of Mexico and Caribbean), 334 (Topic 1).

AFR 340C. Mandela: The Man and His Politics.
Same as History 359S. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 340C, 374C (Topic: Mandela: The Man and His Politics), History 359S, 364G (Topic: Mandela: The Man and His Politics). Prerequisite: Upper-division standing.

Same as History 364P and Women's and Gender Studies 340 (Topic 42). A study of the social, political, economic, and cultural history of South Africa to contextualize the rise of apartheid. Primarily focuses on the period since 1948 from the perspectives of women, children, and men of all racial backgrounds who lived through that particular period. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 340D, 374C (Topic: Apartheid: South African History), 374C (Topic 6), History 364G (Topic: Apartheid: South African History), 364G (Topic 6), 364P; Women's and Gender Studies 340 (Topic: Apartheid: South African History), 340 (Topic 42). Prerequisite: Upper-division standing.

AFR 340E. African Women's History.

AFR 340F. African History in Films and Photographs.
Same as History 364F and Women's and Gender Studies 340 (Topic 73). Explore the social, economic, and political challenges of the past fifty years of Africa's history through an examination of several popular films. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 340F, 372G (Topic 32), History 364F, 364G (Topic 4); Women's and Gender Studies 340 (Topic: African History in Films and Photographs), 340 (Topic 73). Prerequisite: Upper-division standing.

AFR 340G. Ancient Egypt.
Same as Classical Civilization 348 (Topic 11) and Middle Eastern Studies 342 (Topic 55). Discussion of Egypt's culture, language, and history from the prehistorical period (13,000 BC) to the New Kingdom (1069 BC). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 340G, 374C (Topic: Ancient Egypt), Classical Civilization 348 (Topic 11), Middle Eastern Studies 342 (Topic: Ancient Egypt), 342 (Topic 55). Prerequisite: Upper-division standing.

AFR 340I. Modern Egypt in Film and Fiction.
Same as History 334F, Middle Eastern Studies 342 (Topic 78), and Radio-Television-Film 352 (Topic 3). Explore the history and culture of modern Egypt through selected readings in twentieth-century film and fiction. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 340I, History 334F, Middle Eastern Studies 342 (Topic: Modern Egypt Film/Fiction), 342 (Topic 78), Radio-Television-Film 352 (Topic: Modern Egypt Film/Fiction), 352 (Topic 3). Prerequisite: Upper-division standing.

AFR 340J. African Travel Narratives.
Same as History 350L (Topic 84). Examines histories of Africa and travel through eyewitness accounts. Studies journeys Africans have made within and from the continent alongside accounts of travelers visiting Africa from elsewhere. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 340J, 372G (Topic: African Travel Narratives), 372G (Topic 9), History 350L (Topic: African Travel Narratives), 350L (Topic 84). Prerequisite: Upper-division standing.

Same as History 350L (Topic 88). An exploration of how communities have confronted disease throughout Africa's history. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 340K, 372D (Topic: Medicine in African History), 372D (Topic 3), History 350L (Topic: Medicine in African History), 350L (Topic 88). Prerequisite: Upper-division standing.

AFR 340L. Historical Imagining of Africa in Films.
Same as History 350L (Topic 70) and Women's and Gender Studies 340 (Topic 40). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 340L, 374F (Topic 18), History 350L (Topic 70), Women's and Gender Studies 340 (Topic 40). Prerequisite: Upper-division standing.

AFR 340M. Geographies of International Development in Africa.
Same as Geography 330F. Critically examines the major approaches to "Development" in colonial and postcolonial eras, with a focus on a range of African resources: from water to wildlife, forests to farms, airways to rangelands, and including a consideration of African bodies themselves as sites of development and resistance. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 340M, 372F (Topic: Intl Development in Africa), 372F (Topic 1), Geography 330F, 356T (Topic: Intl Development in Africa), 356T (Topic 10). Prerequisite: Upper-division standing.

Same as Women's and Gender Studies 335 (Topic 3). Examines the development of African queer studies as the interdisciplinary study of sexuality on the African continent, and its impact on the academic and activist realm. Focus on intersectional feminist and queer theory and how this field offers tools that can be used to rethink issues of oppression and domination in relationship to race, nation, sex, gender, and sexuality on the African continent. Of particular interest will be LGBTQ activism and the ways in which queer Africans engage and shape their sexuality, and create forms of belonging in their countries and their communities. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 340N, 372G (Topic 7), Women's and Gender Studies 335 (Topic 3). Prerequisite: Upper-division standing.

AFR 340O. History of Southern Africa.
Same as History 350L (Topic 72) and Women's and Gender Studies 340 (Topic 39). Three lecture hours a week for one semester. Only one of the
following may be counted: African and African Diaspora Studies 340Q, 374C (Topic 4), History 350L (Topic 72), Women's and Gender Studies 340 (Topic 39). Prerequisite: Upper-division standing.

AFR 340P. Egyptian Hieroglyphics in Cultural Context.
Same as Classical Civilization 348 (Topic 17). The vocabulary and grammar of ancient Egypt as a guide to understanding artifacts and monuments from the different periods of Egyptian history, whether in museums, exhibitions, or on site overseas. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 340P, 374C (Topic: Egyptian Hieroglyphics in Cultural Context), 374C (Topic 5), Classical Civilization 348 (Topic 17). Prerequisite: Upper-division standing.

AFR 340Q. Daily Life in Ancient Egypt.
Same as Classical Civilization 348 (Topic 24), Middle Eastern Languages and Cultures 321 (Topic 29), and Middle Eastern Studies 342 (Topic 51). Delves into all areas of Egyptian daily life from the dawn of the dynasties to the age of Cleopatra. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 340Q, 374C (Topic: Daily Life in Ancient Egypt), 374C (Topic 7), Classical Civilization 348 (Topic: Daily Life in Ancient Egypt), 348 (Topic 24), Middle Eastern Languages and Cultures 321 (Topic: Daily Life in Ancient Egypt), 321 (Topic 29), Middle Eastern Studies 342 (Topic: Daily Life in Ancient Egypt), 342 (Topic 51). Prerequisite: Upper-division standing.

AFR 340R. Archaeology of African Thought.
Same as Anthropology 324L (Topic 24).Archaeological, historical, and ethnographic data as they relate to the foundations of contemporary African and African American societies. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Diaspora 340R, 372G (Topic 3), Anthropology 324L (Topic 24).

AFR 340S. Gender in North and West Africa.
Same as Middle Eastern Languages and Cultures 321 (Topic 16), Middle Eastern Studies 342 (Topic 28), and Women's and Gender Studies 340 (Topic 34). Examines gender discourses through North African and West African literary works by looking at the role(s) played by Islam and Christianity in the creation of the identities of African men and women. Includes discussion of the question of what gender is, and whether it is socially constructed. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 340S, 372G (Topic 5), Islamic Studies 373 (Topic 8), Middle Eastern Languages and Cultures 321 (Topic 16), Middle Eastern Studies 342 (Topic 28), Women's and Gender Studies 340 (Topic 34). Prerequisite: Upper-division standing.

AFR 340T. African Religious Culture and Creativity.
Same as Religious Studies 360C and Theatre and Dance 357T (Topic 7). Examine religion as an aesthetic practice and explore the inventiveness of the imagination that underlines African religious practices. Study religious practices spanning from the pre-colonial and post-colonial eras to the contemporary period particularly in urban centers. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 340T, 372G (Topic: Afr Relig Cultur/Creativity), Religious Studies 360 (Topic: Afr Relig Cultur/ Creativity), 360C, Theatre and Dance 357T (Topic: Afr Relig Cultur/ Creativity), 357T (Topic 7). Prerequisite: For theatre and dance majors, consent of instructor; for all others, upper-division standing.

AFR 340V. Sociology of Africa.
Same as Sociology 321T. An introduction to the sociological study of sub-Saharan Africa. Major themes include: sources of knowledge about Africa; characteristics of African states and societies, from origin to internal social boundaries (religion, ethnicity, class); kinship and family; and development and change. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 340V, 374C (Topic: Sociology of Africa), Sociology 321T. Prerequisite: Forty-five semester hours of coursework.

AFR 340W. Coloniality in West Africa.
Same as Anthropology 328G. Study the changes and continuities of socio-political categories in African contexts from the period of formal colonial rule to the present day. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 340W, Anthropology 324L (Topic: Coloniality in West Africa), 328G. Prerequisite: Upper-division standing.

AFR 341. African Cities Since 1500.
Same as History 359C and Urban Studies 321G. Explore Africa's past through the story of urbanization beginning with an overview of African cities around 1500—a time of increasing human migration and global trade. Assess African cities in the modern period, focusing on the advent of European colonialism in the 1800s and its aftermath. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 341, 374C (Topic: African Cities Since 1500), History 359C, History 366N (Topic: African Cities Since 1500), Urban Studies 321G. Prerequisite: Upper-division standing.

AFR 341C. Fashion in Africa.
Same as History 359D. Examine fashion history through readings, videos, social media, and textile making to provide an immersive experience in African design history. Address the ways in which textiles are tied to class distinctions and politics, wrapped up in the history of trade (including human trafficking and slavery), mixed into revolutionary struggles and post-independent governance, and inspire haute couture and global fashion trends. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 341C, History 350L (Topic: Fashion in Africa), 359D. Prerequisite: Upper-division standing.

AFR 345. History of East Africa.
Same as History 359P. A survey of the history of Kenya, Tanzania, and Uganda from prehistoric times to the postindependence era. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

AFR 345C. History of West Africa.
Same as History 359R. A history of the West Africa region: the rise and fall of kingdoms, relations with Europe and Asia, the great revolutions of the nineteenth century, colonial administration, decolonization, and the search for economic development and political stability since independence. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.
AFR 345D. Afro-Luso-Brazilian Worlds.
Same as Latin American Studies 328 (Topic 3) and Portuguese Civilization 320E (Topic 3). Examine the myths and realities in the Afro-Luso-Brazilian worlds and the connections and contrasts between them. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 345D, 372G (Topic 8), 374E (Topic: Afro-Luso-Brazilian Worlds), Latin American Studies 328 (Topic 3), Portuguese Civilization 320E (Topic 3). Prerequisite: Upper-division standing.

AFR 345E. Afro-Latin America.
Same as History 350L (Topic 68) and Latin American Studies 366 (Topic 31). Examines the historical experiences of people of African descent in Latin America and the Caribbean beginning in the slavery era, and focuses on the histories of Afro-Latin Americans after emancipation. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 345E, 372G (Topic 10), History 350L (Topic 68), Latin American Studies 366 (Topic 31). Prerequisite: Upper-division standing.

AFR 345F. Sex and Power in the African Diaspora.
Same as Anthropology 324L (Topic 48) and Women's and Gender Studies 340 (Topic 52). Exploration of various experiences and theories of sex, intimacy, and desire alongside intellectual and artistic engagements with power hierarchies and spirituality across transnational black communities. Subjects include the concept of "erotic subjectivity" from various theoretical and methodological angles, principally within African diasporic contexts. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 345F, 372G (Topic 33), Anthropology 324L (Topic 48), Women's and Gender Studies 340 (Topic 52). Prerequisite: Upper-division standing.

AFR 345G. Religions of the Caribbean.
Same as Anthropology 323D, Latin American Studies 322D, and Religious Studies 366D. Examine the histories and politics of religious practices in the Greater Caribbean, encompassing the islands and Central American coasts as well as the continental diasporas, from Vodou and Rastafari to popular Hinduism. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 372G (Topic: Religions of the Caribbean) 345G, Anthropology 324L (Topic: Religions of the Caribbean), 323D, Latin American Studies 324L (Topic: Religions of the Caribbean), 322D, Religious Studies 366 (Topic: Religions of the Caribbean), 366 (Topic 2), 366D. Prerequisite: Upper-division standing.

AFR 345J. Race, Rebellion and Revolution in the Caribbean.

AFR 345K. Race Against Empire: Americas.
Same as History 374Q and Latin American Studies 366 (Topic 44). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 345K, 374E (Topic: Race Against Empire: Americas), 374Q, Latin American Studies 366 (Topic: Race Against Empire: Americas), 366 (Topic 44). Prerequisite: Upper-division standing.

AFR 345L. The Politics of Race and Violence in Brazil.
Same as Anthropology 324L (Topic 37) and Latin American Studies 324L (Topic 14). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 345L, 374E (Topic 2), Anthropology 324L (Topic 37), Latin American Studies 324L (Topic 14). Prerequisite: Upper-division standing.

AFR 345M. Reimagining Cuba, 1868-Present.
Same as History 347C and Latin American Studies 366 (Topic 22). Explores Cuban-United States relations from the nineteenth century to the present, including issues of empire and transnationalism, and social change engagements between Cuba and the United States before and after the Cuban Revolution. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 345M, 374E (Topic 4), History 347C, Latin American Studies 366 (Topic 22). Prerequisite: Upper-division standing.

AFR 345N. Afro-Caribbean Diasporas.
Same as Latin American Studies 322 (Topic 19). Analysis of the socio-cultural contexts of the African diaspora in the Americas, with a specific focus on the African diaspora in the islands of the Caribbean. Designed to analyze the cultural, social, and philosophical contributions of these diasporic populations and the ways they build social and cultural agency in their specific national or diasporic contexts. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 345N, 374E (Topic 6), Latin American Studies 322 (Topic 19). Prerequisite: Upper-division standing.

AFR 345O. Debt and Colonialism in the Caribbean.
Same as American Studies 321O, History 345O, and Latin American Studies 366 (Topic 43). Examine the role that debt has played in the formation of colonial and neocolonial practices in the Caribbean region. Take a broad approach to the concept of debt in order to explore the financial and monetary dynamics of debt, but also the political and cultural implications of debt. Focus in particular on debt as justification in the furtherance of colonialism throughout the Caribbean. Engage in a historical examination of the United States' colonial projects and military interventions in the region throughout the 20th and into the 21st centuries. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 345O, 374E (Topic: Debt/Colonialism Caribbean), American Studies 321 (Topic: Debt/Colonialism Caribbean), 321O, History 345O, 363K (Topic: Debt/Colonialism Caribbean), Latin American Studies 366 (Topic: Debt/Colonialism Caribbean), 366 (Topic 43). Prerequisite: Upper-division standing.

AFR 345Q. Mediascapes: Literature and Media in the Caribbean.
Same as Latin American Studies 328 (Topic 5) and Spanish Civilization 320C (Topic 2). Analyzes the relationship between literature and media
technologies in contemporary Caribbean cultures. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 345Q, 370 (Topic: Lit and Media in Caribbean), 372G (Topic: Lit and Media in Caribbean), Latin American Studies 328 (Topic 5), 370S (Topic 28), Spanish 350E, Spanish 350K (Topic 5), Spanish Civilization 320C (Topic 2). Prerequisite: Upper-division standing.

AFR 345R. Racism and Inequality in Latin America.
Same as Latin American Studies 322J. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 345R, 374E (Topic: Racism/Inequality Lat Amer), Latin American Studies 322 (Topic: Racism/Inequality Lat Amer), 322J. Prerequisite: Upper-division standing.

AFR 345S. Afro-Latinos: Memory, Literature, Culture.
Discuss the lives and works of Afro-Latinos in the United States from the nineteenth century to the present. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 345S, 370 (Topic: Afro Latinos: Memory/Lit/Cul), 374F (Topic: Afro-Latinos: Memory/Lit/Cul), Latin American Studies 370S (Topic: Afro Latinos: Memory/Lit/Cul). Prerequisite: Upper-division standing.

AFR 345T. Afro-Latinidades in the United States and Latin America.

AFR 345U. Race Politics and Caribbeans.
Same as Government 337J, Mexican American Studies 364R, and Sociology 322N. Examine racial and political themes among Spanish-speaking Caribbeans on the islands and in the United States. Explore racial politics in the three countries and compare notions of identity, experiences with racism and anti-racist protest with the United States. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 345U, Government 337J, Mexican American Studies 364R, 374 (Topic: Race Politics & Caribbeans), Sociology 322N. Prerequisite: Upper-division standing.

AFR 345V. Literature of AIDS in Africa.
Same as English 343V. Examine the emerging cultural representations of AIDS in sub-Saharan Africa through journalistic, social science, and historical accounts. Explore the difficulty of representing the various aspects of a public-health crisis. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 345V, 372G (Topic 1), English 343V, 360S (Topic 2). Prerequisite: One of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P or Tutorial Course 303D.

AFR 345W. Global Black Feminisms.
Same as Anthropology 325S and Latin American Studies 324L (Topic 23). Examine Black feminist theories and practices around the world from a transnational and comparative perspective. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 345W, 370 (Topic: Global Black Feminisms), Anthropology 325S, Latin American Studies 324L (Topic 23). Prerequisite: Upper-division standing.

AFR 350. Measuring Racial Inequality.
Same as Latin American Studies 322 (Topic 21). Analysis of racial inequality through social statistics. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350, 372F (Topic: Measuring Racial Inequality), Latin American Studies 322 (Topic: Measuring Racial Inequality), 322 (Topic 21). Prerequisite: Upper-division standing.

AFR 350C. Black Middle Class.
Same as American Studies 324C and Women’s and Gender Studies 340 (Topic 83). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350C, 372C (Topic: Black Middle Class), American Studies 321 (Topic: Black Middle Class), 324C, Women’s and Gender Studies 340 (Topic: Black Middle Class), 340 (Topic 83). Prerequisite: Upper-division standing.

AFR 350D. Politics of Black Life.
Same as American Studies 370 (Topic 57). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350D, 372F (Topic: Politics of Black Life), American Studies 370 (Topic: Politics of Black Life), 370 (Topic 57). Prerequisite: Upper-division standing.

AFR 350E. Race, Empire, And Modernity.
Same as Latin American Studies 322C. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350E, 372F (Topic: Race, Empire, And Modernity), Latin American Studies 322 (Topic: Race, Empire, And Modernity), 322C. Prerequisite: Upper-division standing.

AFR 350F. Black Women on Trial.
Same as History 350R (Topic 40) and Women’s and Gender Studies 340 (Topic 69). Using press coverage of historical and contemporary court cases and trials of women ranging from Angela Davis to Marissa Alexander, explores how media shapes public and popular perceptions of race, class, gender, sexuality, and the law. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350F, 374D (Topic: Black Women on Trial), History 350R (Topic: Black Women on Trial), 350R (Topic 40), Women’s and Gender Studies 340 (Topic: Black Women on Trial), 340 (Topic 69). Prerequisite: Upper-division standing and six semester hours of coursework in history.

AFR 350G. Women, Gender, and Black Power.
Same as History 350R (Topic 41) and Women’s and Gender Studies 340 (Topic 70). Examines the Black Power Movement through the experiences of African American women activists as well as gender and sexuality constructs that prevailed during the second half of the twentieth century. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350G, 374D (Topic: Women, Gender, and Black Power), History 350R (Topic: Women, Gender, and Black Power), 350R (Topic 41), Women’s and Gender Studies 340 (Topic: Women, Gender, and Black Power), 340 (Topic 70). Prerequisite: Upper-division standing and six semester hours of coursework in history.

AFR 350J. HIV and AIDS Activism and the Healing Arts.
Same as Anthropology 324J and Women’s and Gender Studies 335 (Topic 10). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350J, 374E (Topic: HIV/AIDS Activism/Heal Arts), Anthropology 324J, 324L (Topic: HIV/AIDS Activism/Heal Arts), Women’s and Gender Studies 335 (Topic: HIV/AIDS Activism/Heal Arts), 335 (Topic 10). Prerequisite: Upper-division standing.
AFR 350K. Puerto Rico In Crisis.

AFR 350L. Race And Place.
Same as American Studies 321P. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350L, 372C (Topic: Race And Place), American Studies 321 (Topic: Race And Place), 321P, Geography 356T (Topic: Race And Place). Prerequisite: Upper-division standing.

AFR 350M. Rethinking Blackness.

AFR 350N. Barack Obama and American Democracy.
Same as History 350R (Topic 38). Focuses on the impact of Barack Obama's watershed presidency on American democracy. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350N, 372F (Topic: Obama/American Democracy), History 350R (Topic: Obama/American Democracy), 350R (Topic 38). Prerequisite: Upper-division standing and six semester hours of coursework in history.

AFR 350P. Urban Slavery in the Americas.

AFR 350Q. African-American Politics.
Same as Government 371G. Explore the evolution, nature, and role of African-American politics within the American political system. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350Q, 374D (Topic 13), Government 370K (Topic 3), 371G. Prerequisite: Six semester hours of lower-division coursework in Government.

AFR 350R. Global History of Disease.
Same as History 366N (Topic 18). Introduction to major themes in the history of medicine through the lens of disease. To be considered are the roles governments, medical practitioners, and patients play in the social construction of disease and health. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350R, 372D (Topic: Global History of Disease), History 366N (Topic: Global History of Disease), 366N (Topic 18). Prerequisite: Upper-division standing.

AFR 350S. The Black Church in African American Politics.
Same as Government 371F and Religious Studies 346K. Explore the political role of the Black church in the African American experience. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350S, 374D (Topic 14), Government 370K (Topic 4), 371F, Religious Studies 346 (Topic 7), 346K. Prerequisite: Six semester hours of lower-division coursework in Government.

AFR 350T. Domestic Slave Trade.
Same as History 350R (Topic 24). Explores the inner workings of the domestic slave trade from the perspectives of slaveholders, speculators, and the enslaved. Analysis of maps, letters, diaries, newspaper advertisements, and legislation relating to the domestic slave trade. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350T, 374D (Topic 20), History 350R (Topic 24). Prerequisite: Upper-division standing and six semester hours of coursework in history.

AFR 350U. The Civil Rights Movement from a Comparative Perspective.
Same as American Studies 370 (Topic 60), History 350R (Topic 35), and Mexican American Studies 364C. Focuses on African American and Mexican American struggles for civil rights. Asian American and Native American movements will also be addressed. Using a comparative approach the student will consider the distinctiveness of each of these struggles while also viewing them in relation to each other. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350U, 374D (Topic: Civil Rts Mov from Comp Persp), 374D (Topic 18), American Studies 370 (Topic: Civil Rts Mov from Comp Persp), 370 (Topic 60), History 350R (Topic 35), Mexican American Studies 364C, 374 (Topic: Civil Rts Mov from Comp Persp). Prerequisite: Upper-division standing and six semester hours of coursework in history.

AFR 350V. Gender and Slavery in the United States.
Same as History 350R (Topic 14) and Women's and Gender Studies 345 (Topic 31). Examines the gendered experience of chattel slavery in the United States. Includes critical analysis of classic and contemporary texts, films, and songs that focus on slave labor, family, community, sexuality, and the economy. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350V, 372C (Topic 4), History 350R (Topic 14), Women's and Gender Studies 345 (Topic 31). Prerequisite: Upper-division standing and six semester hours of coursework in history.

AFR 350W. Property in American Culture.
Same as American Studies 370 (Topic 38). Explores American conceptions of property over a wide range of economic transformations from the mercantile to the digital age, with special attention to the ambiguous and tension-filled meanings of property for women, African Americans, and Native Americans. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350W, 372C (Topic 3), American Studies 370 (Topic 38). Prerequisite: Upper-division standing.

AFR 351. The Global City.
AFR 351C. Women and Social Movements in the Twentieth-Century United States.
Same as American Studies 321 (Topic 10), History 365G (Topic 8), and Women's and Gender Studies 340 (Topic 53). Examines women's participation in well-known and lesser-known social movements during the twentieth century. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 351C, 372C (Topic: Women and Socl Mvmsnts in US), 372C (Topic 7), American Studies 321 (Topic 10), History 365G (Topic 8), Women's and Gender Studies 340 (Topic 53). Prerequisite: Upper-division standing.

AFR 351D. The Tragicomedy of American Democracy.
Same as American Studies 370 (Topic 44) and Core Texts and Ideas 326T. Examines the foundational ideas and practices essential to the unfolding of American democracy by focusing on founding documents, public speeches, major political conflicts, and canonical texts of political philosophy. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 351D, 372F (Topic 15), American Studies 370 (Topic 44), Core Texts and Ideas 326 (Topic 2), 326T. Prerequisite: Upper-division standing.

AFR 351E. History of Black Entrepreneurship in the United States.
Same as American Studies 370 (Topic 58) and History 350R (Topic 12). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 351E, 374D (Topic 2), American Studies 370 (Topic: Hist of Black Entrepren in US), 370 (Topic 58), History 350R (Topic 12). Prerequisite: Upper-division standing and six semester hours of coursework in history.

AFR 351F. Black Americans and the South.
Same as American Studies 370 (Topic 31). Traces the post-Reconstruction conversation among black Americans over how to live in the South and make sense of its history of widespread racial violence, lynching, de jure segregation, civil rights struggles, and their legacies. Sources include authors such as Jean Toomer, Tayari Jones, and Natasha Trethewey, and fiction, speeches, newspaper accounts, photographs, paintings, poetry, and popular music, including jazz, blues, rock, rhythm and blues, and hip hop and rap. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 351F, 374D (Topic 6), American Studies 370 (Topic 31). Prerequisite: Upper-division standing.

AFR 351G. Black Women in America.
Same as History 350R (Topic 17) and Women's and Gender Studies 340 (Topic 9). Uses primary sources, historical monographs, and essays to provide a chronological and thematic overview of the experiences of black women in America from their African roots to the circumstances they face in the present era. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 351G, 374D (Topic 9), History 350R (Topic 17), Women's and Gender Studies 340 (Topic 9). Prerequisite: Upper-division standing and six semester hours of coursework in history.

AFR 351J. Texas Black History.
Same as History 320T (Topic 2). Surveys the history of blacks in Texas from before American settlement to the present. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 351J, 374D (Topic 15), History 320T (Topic 2), 365G (Topic 7). Prerequisite: Upper-division standing.

AFR 351K. Antebellum Slavery.
Same as History 365G (Topic 6) and Women's and Gender Studies 340 (Topic 33). Examination of slavery at its maturity during the nineteenth century. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 351K, 374D (Topic 16), History 365G (Topic 6), Women's and Gender Studies 340 (Topic 33). Prerequisite: Upper-division standing.

AFR 351L. The United States in the Civil Rights Era.
Same as American Studies 321 (Topic 9) and History 350R (Topic 12). Examines United States history in the post-World War II era, including how civil rights and other racial issues helped shape the politics, popular culture, and social life of this period. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 351L, 374D (Topic 17), American Studies 321 (Topic 9), History 356P, Mexican American Studies 374 (Topic 36). Prerequisite: Upper-division standing.

AFR 351M. African American Social and Political Thought.
Same as American Studies 321J, Core Texts and Ideas 326J, and Government 335G. Examines the speeches and writings by major theorists and critics of the prophetic tradition of black political thought. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 351M, 374D (Topic 21), American Studies 321J, Core Texts and Ideas 326 (Topic 3), 326J, Government 335G, 335M (Topic 10). Prerequisite: Upper-division standing and six semester hours of lower-division coursework in government.

AFR 351N. Black Political Thought.
Same as American Studies 370 (Topic 42). Exploration of black social and political thinkers, writers, and reformers, and how their works influence the legacies of slavery, empire, and patriarchy within the United States. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 351N, 372C (Topic 14), American Studies 370 (Topic 42). Prerequisite: Upper-division standing.

AFR 351O. Slavery across Genres.
Same as American Studies 370 (Topic 32). Uses nonfictional and fictional narrative accounts of slavery in the United States to examine the political, social, cultural, economic, and psychological aspects of the institution of slavery at different historical moments. Sources may include authors such as Frederick Douglass, Toni Morrison, William Faulkner, Harriet Beecher Stowe, and Edward P. Jones; graphic novels; conceptual art; court records; and bills of sale. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 351O, 372E (Topic 2), American Studies 370 (Topic 32). Prerequisite: Upper-division standing

AFR 351P. Atlantic Slavery: History and Memory.
Same as American Studies 370 (Topic 33). Charts a history of Atlantic slavery by focusing on primary sources detailing crucial events and contexts such as the Zong Massacre, the Haitian Revolution, and Dred Scott vs. Sandford, among others. Considers how historians, memoirists, fiction writers, visual and performance artists and filmmakers have come to terms with that history and its implications. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 351P, 374E (Topic 3), American Studies 370 (Topic 33). Prerequisite: Upper-division standing.

AFR 351R. African American Family in Historical and Contemporary Contexts.
Same as Liberal Arts Honors 351C and Sociology 325F. Restricted to Plan I majors in the College of Liberal Arts. Examine how African Americans managed to maintain a sense of family from the time of slavery to the present trend of mass incarceration. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 372D (Topic: Afr Am Fam: Hist/
Contemplating the complexities in issues surrounding African Americans in sports, focusing on racial stereotyping, identity theory, and how practical knowledge of these theories can aid in understanding the current state of athletics. Three lecture hours a week for one semester. Only one of the following may be counted: AFR 352E, 374D (Topic 12), Curriculum and Instruction 373.

AFR 352F. Sociocultural Influences on Learning.
Examine human learning in multisocial, multilingual, and multicultural contexts; realities of society and their impact on learning; social concerns such as prejudice, stereotyping, cross-cultural attitudes, bilingual issues, parent and community involvement. Three lecture hours a week for one semester. Only one of the following may be counted: AFR and African Diaspora Studies 352F, 372D (Topic 2), Applied Learning and Development 327, Mexican American Studies 374 (Topic: Sociocultural Influences on Learning). Prerequisite: Three semester hours of coursework in psychology.

AFR 352G. African American Religions.
Same as Religious Studies 346V. Survey the history and variety of religion as practiced by Americans of African descent. Examine the social construction of African religion, black religion, and the black church, within the cultural context of the United States. Three lecture hours a week for one semester. Only one of the following may be counted: AFR and African Diaspora Studies 352G, 374D (Topic: African American Religions), Religious Studies 346 (Topic: African American Religions), 346V. Prerequisite: Upper-division standing.

AFR 352H. Black Lives in the Archives.
Same as History 369Q. Three lecture hours a week for one semester. Only one of the following may be counted: AFR and African Diaspora Studies 352J, 374E (Topic: Black Lives in the Archives), History 366N (Topic: Black Lives in the Archives), 369Q. Prerequisite: Upper-division standing.

AFR 352I. African-American Women's Political Activism.

AFR 352J. Africa and Indian Ocean World.

AFR 352K. Race, Gender, Sex, and Religion.
Same as American Studies 373I, Religious Studies 373I, and Women's and Gender Studies 335 (Topic 28). Use an intersectional feminist framework to examine the construction and maintenance of normative categories of race, gender, sex, and sexuality within United States religious discourse. Three lecture hours a week for one semester. Only one of the following may be counted: AFR and African Diaspora Studies 352M, American Studies 373I, Religious Studies 361 (Topic: African Americans in Sports.
Same as Curriculum and Instruction 373. Theoretical and practical complexities in issues surrounding African Americans in sports,
Race, Gender, Sex, Religion), 373I, Women's and Gender Studies 335 (Topic 28). Prerequisite: Upper-division standing.

AFR 352N. Technologies of United States Empire.
Same as American Studies 370 (Topic 72) and Women's and Gender Studies 340 (Topic 85). Investigate the various technologies that the United States has used to maintain imperial geographies at "home" and abroad. Focus on imperial entanglements of global capital, liberalism, and technological systems. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 352N, American Studies 370 (Topic: Technologies of US Empire), 370 (Topic 72), Women's and Gender Studies 340 (Topic 85). Prerequisite: Upper-division standing.

AFR 352O. Queering Black Religions.
Same as American Studies 335, Religious Studies 335D, and Women's and Gender Studies 335 (Topic 25). Explore the ways African religion practitioners disrupt and reframe dominant western discourses of gender and sexuality. Examine concepts of temporality, spirit manifestation, subjectivity, corporeality, and African religious epistemologies. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 352O, American Studies 335, Religious Studies 335D, Women's and Gender Studies 335 (Topic 25). Prerequisite: Upper-division standing.

AFR 352P. Food in the Racialized City.
Same as American Studies 371C and Geography 321F. Explore a variety of issues related to producing, accessing, and consuming food in city spaces in the context of racial inequities. Investigate and question constructs such as "food" and "city" as means of exploring different points of view and approaches to studying not only food and cities but also various approaches to food justice. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 352P 370 (Topic: Food in the Racialized City), American Studies 371C, Geography 321F. Prerequisite: Upper-division standing.

AFR 352Q. Black Geographies.
Same as American Studies 371D, Anthropology 3230, and Geography 328F. Explore the relationship between Blackness and the production of space and place. Examine the tensions and possibilities that emerge when Black people are rendered un-geographic as a fundamental component of racial capitalism while they are simultaneously creating spaces of freedom under constant threats to Black life. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 352Q, 370 (Topic: Black Geographies), American Studies 371D, Anthropology 3230, Geography 328F. Prerequisite: Upper-division standing.

Chronological examination of the theatrical work of Africans and African Americans from precolonial West Africa to the United States in 1950. Subjects include productions, performance theory, play texts, essays, reviews, and manifestos within their sociopolitical contexts, with an emphasis on strategies of resistance that are embedded in aesthetics. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 356C, 374F (Topic: African-American Theatre History, Precolonial-1950), Theatre and Dance 357T (Topic: African-American Theatre History, Precolonial-1950). Prerequisite: Upper-division standing.

AFR 356D. African American Theatre History: 1950 to Present.
Chronological examination of the history of African American theatre since 1950, through the study of productions, performance theory, play texts, essays, reviews, and manifestos within their sociopolitical contexts, with an emphasis on strategies of resistance that are embedded in aesthetics. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 356D, 374F (Topic: African American Theatre History, 1950-Present), Theatre and Dance 357T (Topic: African American Theatre History, 1950-Present). Prerequisite: Upper-division standing.

AFR 356E. Black Women and Dance.
Same as Women's and Gender Studies 340 (Topic 43). Exploration of how black women express creativity in response to the violence of racism and sexism, and to envision new ways of being and moving in the world. Women's participation in ritual, concert, and social dance in North America, Haiti, Cuba, and Brazil will be studied through readings, viewings, and stagings. Only one of the following may be counted: African and African Diaspora Studies 356E, 372E (Topic: Black Women and Dance), Theatre and Dance 357T (Topic: Black Women and Dance), Women's and Gender Studies 340 (Topic: Black Women and Dance), 340 (Topic 43). Prerequisite: Upper-division standing.

AFR 357C. African American History to 1860.
Same as American Studies 321E and History 357C. Review of West African origins; New World settlement patterns, social life, and culture; discussion of the Atlantic slave trade, the development of capitalism and plantation slavery, and the origins of racism. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 357C, American Studies 321 (Topic: African American History to 1860), 321E, History 357C. Prerequisite: Upper-division standing.

AFR 357D. African American History since 1860.

AFR 359N. History of Africa since 1800.
Same as History 359N. Development of sub-Saharan Africa from the end of the slave trade to independence. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

AFR 360. Race, Law, and United States Society.
Same as American Studies 370 (Topic 5) and History 365G (Topic 13). Examines the intersection of racial ideology and legal culture in the United States. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 360, 372F (Topic: Race, Law, and US Society), American Studies 370 (Topic: Race, Law, and US Society), 370 (Topic 5), History 365G (Topic: Race, Law, and US Society), 365G (Topic 13). Prerequisite: Upper-division standing.

AFR 360C. Social Media for Social Impact.
Explore the social media universe through the lens of black studies. Discuss traditional black studies issues as they play out in the social media context. Engage in professional development activities and
service learning. Interpret black participation in the social media landscape, and examine the possibilities for social media participation as a community benefit. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 360C, 372C (Topic: Black Studies & Social Media), 372C (Topic 5). Prerequisite: Upper-division standing.

AFR 360D. Race, Gender, and Surveillance.
Same as American Studies 321 (Topic 6), Sociology 322V, and Women’s and Gender Studies 322J. Overview of theories in the sociology of social control, with a focus on risk, power, ethics, and surveillance. Examines historical transformations in social control and the distributions of power in the United States and global contexts, with attention to race, gender, and class. Subjects include: the transatlantic slave trade; prisons and punishment; the gaze, voyeurism, and reality television watching: the Internet; travel and state borders; privacy; and biometrics and the body. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 360D, 372C (Topic 12), American Studies 321 (Topic 6), Sociology 322V, Women’s and Gender Studies 322 (Topic 8), 322J. Prerequisite: Upper-division standing.

AFR 360E. Black Women and the State.
Same as Anthropology 324L (Topic 78), Latin American Studies 324L (Topic 17), and Women’s and Gender Studies 340 (Topic 7). Surveys black women’s experiences living with and confronting state oppression around the world. Takes an historical, social, and theoretical look at the roots of this oppression and inequality, and how black women have chosen to respond to it locally and globally. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 360E, 372F (Topic 11), 372F (Topic 12), Anthropology 324L (Topic 78), Latin American Studies 324L (Topic 17), Women’s and Gender Studies 340 (Topic 7), 340 (Topic 63). Prerequisite: Upper-division standing.

AFR 360F. Urban Unrest.
Same as Anthropology 321 (Topic 8), Anthropology 324L (Topic 46), Asian American Studies 330G, and Urban Studies 327U. Analysis of the roots of urban unrest, exploring a range of origins: joblessness, state violence, white flight, backlash against civil rights gains, new immigration, and interracial strife. Beyond race and class, subjects include exploring unrest as a mode of pushing the normative boundaries of gender and sexuality in public space. Course material will draw from film, literature, history, geography, and anthropology. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 360F, 372F (Topic 13), American Studies 321 (Topic 8), Anthropology 324L (Topic 46), Asian American Studies 330 (Topic 6), 330G, Urban Studies 327U, 354 (Topic 14). Prerequisite: Upper-division standing.

AFR 360G. Blacks and Asians: Race and Social Movements.
Same as Anthropology 324L (Topic 77) and Asian American Studies 330D. Examines the relations between Asians and Blacks in the United States. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 360G, 374D (Topic: Blacks/Asians: Race/Social Movements), 374D (Topic 19), Anthropology 324L (Topic: Blacks/Asians: Race/Social Movements), 324L (Topic 77), Asian American Studies 330 (Topic: Blacks/Asians: Race/Social Movements), 330 (Topic 3), 330D. Prerequisite: Upper-division standing.

AFR 360I. Black Freedom Movement.

AFR 360J. Migration Crisis.
Same as Asian American Studies 330N, Mexican American Studies 364J, and Race, Indigeneity, and Migration 330N. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 360J, 374D (Topic: Migration Crisis), Asian American Studies 330N, 335 (Topic: Migration Crisis), Mexican American Studies 364J, 374 (Topic: Migration Crisis), Race, Indigeneity, and Migration 330N. Prerequisite: Upper-division standing.

AFR 360K. Race and Ethnicity Politics.
Same as Government 337N, Mexican American Studies 364Q, and Sociology 342K. Explore racial and ethnic politics throughout the United States with a focus on Black and Latino politics. Examine group identity, racial inequality, policy making, activism, criminal justice system, and immigration. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 360K, Government 337N, Mexican American Studies 364Q, 374 (Topic: Race and Ethnicity Politics), Sociology 322K. Prerequisite: Upper-division standing.

AFR 360L. Race and United States Social Policy.
Same as Government 371P and Sociology 340S. Examine the relationship between race and the development of United States social policy. Explore how specific social policies affect racial and ethnic inequality. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 360L, 370 (Topic: Race and US Social Policy), Government 371P, Sociology 340S. Prerequisite: Upper-division standing.

AFR 360M. Abolition Medicine.
Same as Anthropology 325P. Examine race-based diagnostics tools and treatment guidelines that reinforce antiquated and scientifically inaccurate notions of biological race. Discuss the upstream structures that enable downstream violence, such as police brutality. Analyze, through an abolitionist lens, various systems of power in medicine, culture, and society to trace the colonial logics, practices, and institutions in the afterlife of slavery pertaining to health, illness and disease, healthcare, and public health in the United States and globally. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 360M, 370 (Topic: Abolition Medicine, Anthropology 325P. Prerequisite: Upper-division standing.

AFR 360N. Displacement and Resistance.
Same as American Studies 370 (Topic 80), Anthropology 326T, and Women’s and Gender Studies 345Q. Explore technologies of displacement, as well as tactics, digital media work, mapping projects, and activism that communities engage with to resist dispossession. Examine, locally and globally, the displacement and resistance effects of various events including infrastructure projects and gentrification. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 360N, American Studies 370 (Topic: Tech Of Displcmnt/Resistence), 370 (Topic 80), Anthropology 326T, Women’s and Gender Studies 345Q. Prerequisite: Upper-division standing.
Study of the criticism and performance of modern African American drama. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

AFR 365C. African American Language.
Same as English 364E and Linguistics 373D. Introduction to the history and contemporary form of African American Language (AAL). Through readings, examine the linguistic description of essential features, the use of AAL in the creation of culturally and historically influential texts, and AAL as a subject of public discussion. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 365C, English 364D (Topic: African American English), 364E, Linguistics 373D. Prerequisite: One of the following: Comparative Literature 315, English 303D, 316L, 316M, 316N, 316P or Tutorial Course 303D.

AFR 370. Topics in African and African Diaspora Studies.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

AFR 373. Independent Research.
Supervised individual research on a problem in African and African diaspora studies. Conference course. May be repeated for credit. Prerequisite: Upper-division standing. African and African Diaspora Studies 301 or 303, and written consent of the supervising faculty member on forms available in the department office for that purpose.

AFR 375. Community Internship.
Internship in a community organization that facilitates the economic, political, and social development of Austin’s African American community. Students participate in research projects under the supervision of a faculty member. Approximately eight hours of fieldwork a week for one semester. Additional lecture hours may be required. Prerequisite: Upper-division standing. African and African Diaspora Studies 301, and consent of instructor.

AFR 376. Senior Seminar.
Restricted to majors in African and African diaspora studies. A capstone course focusing on black intellectual traditions. Three lecture hours a week for one semester. Prerequisite: Completion of seventy-five semester hours of college coursework, African and African Diaspora Studies 301, and consent of instructor.

AFR 679H. Honors Tutorial Course.
For honors candidates in African and African diaspora studies. Individual reading of selected works for one semester, followed in the second semester by the writing of an honors thesis. Conference course for two semesters. Prerequisite: For 679HA, admission to the African and African Diaspora Studies Honors Program no later than two semesters before expected graduation; for 679HB, African and African Diaspora Studies 679HA. A University grade point average of at least 3.00 and a grade point average in African and African diaspora studies of at least 3.50 are required for admission to the African and African Diaspora Studies Honors Program.

Graduate Courses
AFR 380. Introduction to Policy Research.
Introduction to the tools needed to understand policy issues and analysis with respect to contemporary case examples. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

AFR 380C. Marginalized Communities and Policy Development.
An exploration of how different racial groups in the United States have been historically and are presently marginalized through larger political and social systems, and how these systems have allowed groups to attain and maintain power and privilege in the United States. Three lecture hours a week for one semester. Offered on the letter-grade basis only.

AFR 380D. Race, Ethnicity, and Gender Policies.
An exploration of the development of race, ethnicity, and gender theories and their application to social issues, policy development, and policy implementation. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

AFR 382. Race and the Urban Crisis.
Examines the roots of the urban crisis, or the decline of U.S. and global cities in the post-World War II era, and begins with the premise that the story of the urban crisis is simultaneously the story of racial crisis. Explores how the origins of themes such as urban unrest, concentrated poverty, the housing crisis, the drug epidemic, and welfare dependency are rooted in race, class, and spatial inequities. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

AFR 385C. Topics in Black Studies Humanities.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

AFR 386C. Topics in Black Studies Social Sciences.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

AFR 387C. Topics in Black Studies Fine Arts and Expressive Culture.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

AFR 390. Black Studies Theory I.
An exploration of the innovative, complex, and distinctive African diaspora social structures and cultural traditions, as well as the historical, cultural, political, economic, and social development of people of African descent. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

A survey of seminal black studies texts and methods that have transformed the social sciences, humanities, and fine arts in producing a distinct black studies epistemology. Explores what black studies scholars have done to transform traditional methods and disciplines in pursuit of a distinct black studies methodology. Three lecture hours a week for one semester. African and African Diaspora Studies 381 (Topic: Black Studies: Theory and Methods) and 391 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

AFR 392. Black Studies Theory II.
An in-depth exploration of the innovative, complex, and distinctly African diaspora social structures and cultural traditions, as well as...
the historical, cultural, political, economic, and social development of people of African descent. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing, and African and African Diaspora Studies 390.

Advanced seminar designed to introduce students to African and African diaspora studies and the skills needed in this field; including writing and revision, competitive and successful applications for grants and fellowships, and development and preparation of a dissertation proposal. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit. Prerequisite: Graduate standing, consent of instructor, and consent of the graduate adviser.

AFR 395Q. Qualifying Examination Preparation.
The equivalent of three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of the graduate adviser.

AFR 396. Conference Course in Black Studies.
Individual instruction in specialized problems of advanced research in black studies. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor and the department.

AFR 397R. Literature Review.
Preparation of a report to be counted toward the requirement for the master's degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in African and African diaspora studies and consent of the supervising instructor and the graduate adviser.

AFR 698. Thesis.
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in African and African diaspora studies; for 698B, African and African Diaspora Studies 698A.

AFR 398R. Master's Report.
Preparation of a report to fulfill the requirement for the master's degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in African and African diaspora studies, African and African Diaspora Studies 397R, and consent of the supervising instructor and the graduate adviser.

Three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of the graduate adviser.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses

AFS - Air Force Science

Air Force Science: AFS
Lower-Division Courses
AFS 100. Leadership Laboratory.
Various leadership techniques, including drill and ceremonies, customs and courtesies, and uniform standards. Two laboratory hours a week for one semester. Offered on the pass/fail basis only.

AFS 102K. The Foundations of the United States Air Force I.
Provides an introduction to the Air Force (AF), allowing students to examine general aspects of the Department of the Air Force, AF Leadership, AF benefits, and opportunities for AF officers; lays the foundation for becoming an Airman, including AF customs and courtesies, AF dress and appearance, team building, communication skills, AF Core values, and more. Provides a knowledge-level understanding of United States military operations, principles of war, and airpower from an institutional, doctrinal, and operational perspective. One lecture hour a week for one semester. Offered in the fall semester only. Prerequisite: Concurrent enrollment in Air Force Science 100.

AFS 102L. The Foundations of the United States Air Force II.
Continuation of Air Force Science 102K. One lecture hour for one semester. Prerequisite: Concurrent enrollment in Air Force Science 100.

AFS 111K. The Evolution of USAF Air and Space Power I.
Examines general aspects of the operational employment of air and space power through a historical and institutional lens. Utilizing these perspectives, the course examines principles of war and tenets of air and space power, summarizes the importance of joint operations to the military operating environment, and explores concepts of interpersonal leadership through the use of operational examples. One lecture hour a week for one semester. Prerequisite: Concurrent enrollment in Air Force Science 100.

AFS 111L. The Evolution of USAF Air and Space Power II.
Continuation of Air Force Science 111K. One lecture hour a week for one semester. Offered in the spring semester only. Prerequisite: Concurrent enrollment in Air Force Science 100.

Upper-Division Courses
AFS 120L. Leadership Laboratory.
Leadership laboratory course for upper-division students. Further development of leadership skills through leadership positions within the cadet corps. Includes training of freshman and sophomore students as well as a practicum in Air Force unit operation. Two laboratory hours a week for one semester. Offered on the pass/fail basis only.

AFS 321. Air Force Leadership Studies I.
Study of leadership, management fundamentals, professional knowledge, Air Force personnel and evaluation systems, leadership ethics, and communication skills required of an Air Force officer. Case studies throughout the course examine Air Force leadership and management situations as a means of demonstrating and exercising practical application of the concepts being studied. Three lecture hours a week for one semester. Prerequisite: Air Force Science 102K, 102L, 111K, and 111L; concurrent enrollment in Air Force Science 120L; and completion of a field training course or equivalent ROTC or military training.
AFS 322. Air Force Leadership Studies II.
Continuation of Air Force Science 321. Three lecture hours a week for one semester. Offered in the spring semester only. Prerequisite: Air Force Science 321 and concurrent enrollment in Air Force Science 120L.

AFS 333. Senior Air Force Studies I.
Examines national security policy making, decision, and execution processes, regional studies, advanced leadership ethics, and Air Force doctrine. Special subjects of interest focus on the military as a profession, officership, military justice, civilian control of the military, preparation for active duty, and current issues affecting military professionalism. Within this structure, continued emphasis is given to refining communication skills. Three lecture hours a week for one semester. Air Force Science 331 and 333 may not both be counted. Prerequisite: Air Force Science 322 and concurrent enrollment in Air Force Science 120L.

AFS 335. Senior Air Force Studies II.
Continuation of AFS 333. Three lecture hours a week for one semester. Air Force Science 332 and 335 may not both be counted. Prerequisite: Air Force Science 333, and concurrent enrollment in Air Force Science 120L or consent of the department chair.

Graduate Courses
Professional Courses
AHC - Ancient History and Classical Civilization

Ancient History and Classical Civilization:
AHC

Lower-Division Courses
AHC 310. Introductory Surveys in Premodern History.
Introductory survey of premodern history with emphasis on regions outside of the ancient Mediterranean world. Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

Topic 1: Introduction to the History and Culture of Spain. Same as European Studies 306 (Topic 2) and History 306N (Topic 13). The history of Spain from its beginnings in the stone age through the great social and economic upheavals of the twentieth century. Three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 310 (Topic: Introduction to the History and Culture of Spain), 310 (Topic 1), European Studies 306 (Topic: Introduction to the History and Culture of Spain), 306 (Topic 2), History 306N (Topic: Introduction to the History and Culture of Spain), 306N (Topic 13).

Topic 2: Western Civilization in Medieval Times. Same as Core Texts and Ideas 307E and History 309K. Survey of medieval Europe from late antiquity to the fifteenth century. Three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 310 (Topic: Western Civ in Medieval Times), 310 (Topic 2), Core Texts and Ideas 307E, 310 (Topic: Western Civ in Medieval Times), History 309K.

Topic 3: The Ancient Middle East. Same as History 306Q, Middle Eastern Languages and Cultures 301J, and Middle Eastern Studies 301J. Survey the history of the Middle East from the beginning of the Neolithic period (9000 BCE) through the invasion of the region by Alexander the Great in 332 BCE and into the pre-Islamic era. Three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 310 (Topic 3), History 306Q, Middle Eastern Languages and Cultures 301J, Middle Eastern Studies 301J.

Topic 4: The Premodern World. Same as History 301F. Survey of world history from human origins to the sixteenth century. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 310 (Topic: The Premodern World), 310 (Topic 4), History 301F.

Topic 5: The Medieval Millennium in Europe. Same as History 309M. Explore new conceptions of medieval Europe by examining how the social practices, ideas, and institutions of the middle ages developed through interactions with Europe's neighbors. Three lecture hours a week for one semester. Ancient History and Classical Civilization 310 (Topic 5) and History 309M may not both be counted.

Topic 6: Medieval Material Culture. Same as History 309C and Religious Studies 309C. Explore the history of medieval Europe primarily through the lens of material culture. Three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 310 (Topic: Medieval Material Culture), 310 (Topic 6), History 306N (Topic: Medieval Material Culture), 309C, Religious Studies 309C, 315 (Topic: Medieval Material Culture).

AHC 319D. The Ancient Mediterranean World.
Same as Classical Civilization 319D and History 319D. Survey of the ancient Mediterranean from ca. 3000 BC to AD 476. Focus on the development of ideas and institutions in the Greek and Roman worlds and on the active cultural exchange among the diverse civilizations of the broader region that shaped Greek and Roman history and cultural identity. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 319 (Topic 1), 319D, European Studies 301 (Topic: Ancient Mediterranean World), 306 (Topic: Ancient Mediterranean World), Middle Eastern Studies 310 (Topic: Ancient Mediterranean World), Classical Civilizations 319D, History 319D.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the ancient history and classical civilization program. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses
AHC 325. Topics in Ancient History.
Topics in the history of the Greek and Roman empires and the surrounding area. Three lecture hours or two lecture hours and one discussion hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

Topic 1: The History of Rome: The Republic. Same as Core Texts and Ideas 327D and History 321M. A survey of Roman history from the founding of Rome to the death of Julius Caesar. The equivalent of three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 325 (Topic 1), Core Texts and Ideas 327D, 375 (Topic: Hist of Rome: The Republic), History 321M. Additional prerequisite: Upper-division standing.

Topic 2: The History of Rome: The Empire. Same as History 321. A survey of the Roman world from Augustus to Constantine the Great. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 325 (Topic 2), Core Texts

**Topic 6: Alexander the Great and the Hellenistic World.** Same as History 351D. History of Asia, Egypt, and the Mediterranean world from Alexander’s expedition to Asia to Rome’s defeat of the last of the Hellenistic monarchs at Actium (ca. 334 to 31 BC). Two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 325 (Topic 9), 325 (Topic 6), Classical Civilizations 351D, 354D, History 351D, 354D. Additional prerequisite: Upper-division standing.

**Topic 7: Archaic and Classical Greece.** Same as Core Texts and Ideas 375 (Topic 7) and History 354E. Survey of Greek history from the emergence of the city-states to the rise of Macedonia. Two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 325 (Topic 4), 325 (Topic 7), Classical Civilizations 354C, Core Texts and Ideas 375 (Topic: Archaic and Classical Greece), 375 (Topic 7), History 354C, 354E. Additional prerequisite: Upper-division standing.

**Topic 8: Archaeology of Greek Prehistory.** Same as Classical Civilization 340 (Topic 8), Middle Eastern Languages and Cultures 321 (Topic 33), and Middle Eastern Studies 342 (Topic 42). Explores the development of complex societies in ancient Greece by studying its prehistory through archaeology. Only one of the following may be counted: Ancient History and Classical Civilization 325 (Topic: Archaeology of Greek Prehistory), 325 (Topic 8), Classical Civilization 340 (Topic: Archaeology of Greek Prehistory), 340 (Topic 8), Middle Eastern Languages and Cultures 321 (Topic: Archaeology of Greek Prehistory), 321 (Topic 33), Middle Eastern Studies 320 (Topic: Archaeology of Greek Prehistory), 320 (Topic 34), Persian 327 (Topic: Archaeology of Greek Prehistory).

**Topic 13: The Ancient Historians.** Same as Classical Civilization 322D, Comparative Literature 323 (Topic 59), and Core Texts and Ideas 329. Examines the major works of ancient historiography, and provides grounding in the central issues with which these works engage. Three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 325 (Topic 13), Classical Civilization 322 (Topic 13), 322D, Comparative Literature 323 (Topic 59), Core Texts and Ideas 329. Additional prerequisite: Upper-division standing.

**Topic 15: Civil War in Rome.** Same as Classical Civilization 348 (Topic 15). Examines the sequence of civil conflict in Rome from the struggle of the orders through the rise of Constantine the Great. Only one of the following may be counted: Ancient History and Classical Civilization 325 (Topic: Civil War in Rome), 325 (Topic 15), Classical Civilization 348 (Topic: Civil War in Rome), 348 (Topic 15), History 362G (Topic: Civil War in Rome).

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the ancient history and classical civilization program. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**AHC 330. Topics in Premodern History.**

Topics in premodern history with emphasis on regions outside of the ancient Mediterranean world. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

**Topic 1: The Dead Sea Scrolls.** Same as History 364E, Jewish Studies 364 (Topic 4), Middle Eastern Languages and Cultures 321 (Topic 17), Middle Eastern Studies 342 (Topic 23), and Religious Studies 353D. Three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 330 (Topic 1), History 364G (Topic 3), 364E, Jewish Studies 364 (Topic 4), Middle Eastern Languages and Cultures 321 (Topic 17), Middle Eastern Studies 342 (Topic 23), Religious Studies 353D. Additional prerequisite: Upper-division standing.

**Topic 2: Epics and Heroes of India.** Same as Asian Studies 373G, Core Texts and Ideas 344, and History 350L (Topic 54). Focus on India’s classical epics, the Mahabharata and the Ramayana, with emphasis placed on understanding the epic characters in relation to the heroic traditions of premodern India, as well as on the role of the epics in contemporary Indian political and religious culture. Three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 330 (Topic 2), Asian Studies 372 (Topic 40), 373G, Core Texts and Ideas 345 (Topic 11), 344, History 350L (Topic 54). Additional prerequisite: Upper-division standing.

**Topic 3: Mystics, Visionaries, and Heretics in Medieval Europe.** Same as History 350L (Topic 74) and Religious Studies 375S (Topic 3). Examines particular mystical and visionary experiences within the context of medieval European Christianity. Only one of the following may be counted: Ancient History and Classical Civilization 330 (Topic: Mystics, Visionaries and Heretics in Medieval Europe), 330 (Topic 3), History 350L (Topic: Mystics, Visionaries and Heretics in Medieval Europe), 350L (Topic 74), Religious Studies 375S (Topic: Mystics, Visionaries and Heretics in Medieval Europe), 375S (Topic 3).

**Topic 4: Lost Languages and Decipherment.** Same as Classical Civilization 348 (Topic 21), Middle Eastern Languages and Cultures 321 (Topic 37), and Middle Eastern Studies 342 (Topic 45). Only one of the following may be counted: Ancient History and Classical Civilization 330 (Topic: Lost Languages & Decipherment), 330 (Topic 4), Classical Civilization 348 (Topic: Lost Languages & Decipherment), 348 (Topic 21), Linguistics 350 (Topic: Lost Languages & Decipherment), Middle Eastern Languages and Cultures 321 (Topic: Lost Languages & Decipherment), 321 (Topic 37), Middle Eastern Studies 342 (Topic: Lost Languages & Decipherment), 342 (Topic 45). Prerequisite: Upper-division standing.

**Topic 5: The Crusades.** Same as European Studies 346 (Topic 38), History 344S, and Religious Studies 375S (Topic 8). An exploration of the religious encounters between eastern and western Christians, Christian heretics, Jews, Muslims, and polytheists; political, military, and cultural changes of the high middle ages; and the ways that crusading ideas and symbols have been reused in contemporary politics and popular culture. Three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 330 (Topic: The Crusades), 330 (Topic 5), European Studies 346 (Topic: The Crusades), 346 (Topic 38), History 344S, 350L (Topic: The Crusades), Religious Studies 375S (Topic: The Crusades), 375S (Topic 8). Additional prerequisite: Upper-division standing.

**Topic 6: Machiavelli: Politics and Culture.** Same as Core Texts and Ideas 330M, History 344R, and Religious Studies 357C. Through Niccolo Machiavelli’s chief writings, consider the local, regional, Mediterranean, European, and global aspects of his work. Three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 330 (Topic: Machiavelli), 330 (Topic 6), Core Texts and Ideas 330M, 375 (Topic: Machiavelli), European Studies 346 (Topic: Machiavelli), History 344R, 350L (Topic: Machiavelli), Liberal Arts Honors 350 (Topic: Machiavelli),
AHC 378. Undergraduate Seminar in Ancient History.

Restricted to students in the Department of Classics. Lectures, discussion, reading, and research on selected topics in Greek and Roman history. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

**Topic 2: Aegean Prehistory.** Same as Classical Civilization 375 (Topic 2). Traces political, social, economic, and general cultural developments on Crete and the Greek mainland between roughly 2200 and 1100 BCE. Only one of the following may be counted: Ancient History and Classical Civilization 378 (Topic: Aegean Prehistory), 378 (Topic 2), Classical Civilization 375 (Topic 2), History 350L (Topic: Aegean Prehistory).

**Topic 3: Writing Ancient History Today.** Same as Classical Civilization 375 (Topic 3). Questions that engage ancient historians today and the methods that they use. Some background in ancient Greek history is recommended. Only one of the following may be counted: Ancient History and Classical Civilization 378 (Topic: Writing Ancient History Today), 378 (Topic 3), Classical Civilization 375 (Topic 3), History 350L (Topic: Writing Ancient History Today).

**Topic 4: The Athenian Empire.** Same as Classical Civilization 375 (Topic 4). Explores Athenian society, democracy, and empire from the development of Athenian hegemony in the 470s BCE through the break up of the Athenian Empire in 404 BCE. Only one of the following may be counted: Ancient History and Classical Civilization 378 (Topic: Athenian Empire), 378 (Topic 4), Classical Civilization 375 (Topic 4), History 350L (Topic: Athenian Empire).

**Topic 5: Space and Place.** Same as Classical Civilization 375 (Topic 5). Multidisciplinary approach to the cultural concepts of space and place using Greek and Roman literary, historical, and archaeological sources. Only one of the following may be counted: Ancient History and Classical Civilization 378 (Topic: Space and Place), 378 (Topic 5), Classical Civilization 375 (Topic: Space and Place), 375 (Topic 5)

**Topic 6: Ancient Sparta.** Same as Classical Civilization 375 (Topic 6). Examines topics and problems in the social, political and economic history of the ancient city-state of Sparta. Only one of the following may be counted: Ancient History and Classical Civilization 378 (Topic: Ancient Sparta), 378 (Topic 6), Classical Civilization 375 (Topic 6).

**Topic 7: Cognitive History of the Ancient World.** Same as Classical Civilization 375 (Topic 7). Examines aspects of the organization of thought in the ancient world. Only one of the following may be counted: Ancient History and Classical Civilization 378 (Topic: Cognitive Hist of Anc World), 378 (Topic 7), Classical Civilization 375 (Topic 7).

**Topic 8: Herodotus, Ethnography, and Archaeology.** Same as Classical Civilization 375 (Topic 8). Explore the ethnographic component of the Histories of Herodotus. Three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 378 (Topic: Herodotus, Ethnograph, & Arch), 378 (Topic 8), Classical Civilization 375 (Topic: Herodotus, Ethnograph, & Arch), 375 (Topic 8). Additional prerequisite: Upper-division standing.

**Topic 9: Literacy, Numeracy, and Visuality.** Same as Classical Civilization 375 (Topic 9). Analyze literacy, numeracy, and visuality, that is “reading” and “writing” by means of visual representations, largely by tracing the history of how modern scholars have analyzed those practices. Only one of the following may be counted: Ancient History and Classical Civilization 378 (Topic: Literacy/Numeracy/Visuality), 378 (Topic 9), Classical Civilization 375 (Topic: Literacy/Numeracy/Visuality), 375 (Topic 9).

**Topic 10: Roman Social History.** Same as Classical Civilization 375 (Topic 10). Examine Roman social history: family structure and demography, gender systems, official social hierarchies, urban/rural interactions and labor. Consideration both of primary evidence and the historiography of the field. Only one of the following may be counted: Ancient History and Classical Civilization 378 (Topic: Roman Social History), 378 (Topic 10), Classical Civilization 348 (Topic: Roman Social History), 375 (Topic 10).

AHC 679H. Honors Tutorial Course.

Supervised conference course for honors candidates in ancient history and classical civilization. Three conference hours a week for two semesters. Prerequisite: For 679HA, upper-division standing and admission to the Ancient History and Classical Civilization Honors Program; for 679HB, Ancient History and Classical Civilization 679HA.

Graduate Courses

Professional Courses

**ALD - Applied Learning and Development**

**Lower-Division Courses**

**ALD 301C. Freshman Seminar.**

Restricted to first-semester freshmen. Small-group seminar involving reading, discussion, writing, and oral reports. Introduction to University resources, including libraries, computer and research facilities, and museums. Several sections are offered each semester, with various topics and instructors. Two lecture hours and one discussion hour a week for one semester.

**ALD 301D. Connecting Research Experience.**

Restricted to freshmen and sophomores. Supervised research associated with the Connexus Bridging Disciplines Program. The equivalent of three lecture hours a week for one semester. With consent of the Connexus Bridging Disciplines Program, may be repeated for credit. Prerequisite: Admission to the Connexus Bridging Disciplines Program.
Restricted to freshmen and sophomores. Lectures and discussions on various contemporary issues. Emphasis on multidisciplinary perspectives and critical discourse. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit when the topics vary.

Discussion of various issues related to the academic, cultural, and personal aspects of completing academic work in international locations. For each semester hour of credit earned, one lecture hour a week for one semester. Applied Learning and Development 119, 219, 319, 419, 519, 619 and Undergraduate Studies 119 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Offered on the letter-grade basis only.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the College of Education. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

Explore current theories concerning learning and memory, retrieval, critical thinking, transfer, assessment, peer learning, and motivation; applying cognitive and socio-motivational psychological theories to educational and instructional practices. Three lecture hours a week for one semester. Prerequisite: Three semester hours of coursework in behavioral sciences.

ALD 320C. Connecting Research Experience.
Supervised research associated with the Connexus Bridging Disciplines Program. The equivalent of three lecture hours a week for one semester. With consent of the Connexus Bridging Disciplines Program, may be repeated for credit. Prerequisite: Upper-division standing and admission to the Connexus Bridging Disciplines Program.

ALD 321. Play in Early Childhood Development.
Theoretical and empirical bases for observing children in play; cognitive, social, and communicative stages related to developmental theory; children's adjustment related to social and emotional theories; motivational value of play. Three lecture hours a week for one semester, with field hours to be arranged.

ALD 322. Individual Differences.
Introduction to individual differences among people through the life span. Examines areas of exceptionality within the context of typical development: current research trends; theoretical and legal considerations; and practice-related issues, including family involvement, cultural and linguistic diversity, and educational perspectives. Orientation to assistive technology. Three lecture hours a week for one semester, with field hours to be arranged. Prerequisite: Three semester hours of coursework in psychology.

ALD 323. Language Acquisition.
Language structure; sequence, process, cognitive and social aspects of language acquisition and use; language variation. Three lecture hours a week for one semester. Required for certification in early childhood education. Prerequisite: Three semester hours of coursework in psychology.

ALD 324. Literacy Acquisition.
Processes of becoming literate; cognitive insights that move a child to literacy; relationships between reading and writing and among individual characteristics, social factors, and literacy growth. Three lecture hours a week for one semester. This course or Psychology 338K is required for the reading specialization. Prerequisite: Three semester hours of coursework in psychology.

ALD 325. Second Language Acquisition.
Acquisition by children or adults of English as a second language. Simultaneous acquisition of two languages, adding a second language, language processing, order of acquisition, role of the first language. Three lecture hours a week for one semester, with field hours to be arranged. Required for certification in bilingual education. Applied Learning and Development 325 and 329 may not both be counted. Prerequisite: Three semester hours of coursework in psychology.

ALD 326. Language of Children with and without Disabilities.
Restricted to special education majors. Physiological, prelinguistic, and linguistic components of language; theoretical framework of communication and language development in monolingual and bilingual populations; problems of language development in special populations; language assessment tools. Technological skills component. Three lecture hours a week for one semester. Required for certification in generic special education.

ALD 327. Sociocultural Influences on Learning.
Human learning in multisocial, multilingual, and multicultural contexts; realities of society and their impact on learning; social concerns such as prejudice, stereotyping, cross-cultural attitudes, bilingual issues, parent and community involvement. Three lecture hours a week for one semester, with field hours to be arranged. Only one of the following may be counted: African and African Diaspora Studies 352F, 372D (Topic 2), Applied Learning and Development 327, Mexican American Studies 374 (Topic: Sociocultural Influences on Learning). Prerequisite: Three semester hours of coursework in psychology.

ALD 327G. Study Abroad: Education, Culture and Diversity.
Comparative analysis of human learning in multisocial, multilingual, and multicultural contexts in the United States and Latin America. Social concerns such as prejudice, stereotyping, cross-cultural attitudes, bilingual issues, and parent and community involvement. Particular focus on transnationalism and immigration in the United States from Central America and Mexico. The equivalent of three lecture hours a week for one semester. Taught in Latin America.

Development, cognition, language, and sociocultural influences in learning contexts; child assessment, identification of learning styles, and tests and measurements. Fieldwork to provide a theoretical basis for professional assessment, referral, and placement. Three lecture hours a week for one semester, with fieldwork to be arranged. Prerequisite: Admission to the professional development sequence of the Bachelor of Science in Applied Learning and Development degree program.

ALD 329. Acquisition of Language and Literacies.
Subjects include initial language and literacy acquisition theory; second language acquisition theory; relations among first and additional languages in literacy and language acquisition; home, school, and learners' perspectives; and current issues in literacy and multilingual classrooms. Three lecture hours a week for one semester. Additional fieldwork hours may be required. Applied Learning and Development 325
and 329 may not both be counted. Prerequisite: Applied Learning and Development 327 or 327G.

**ALD 329G. Study Abroad: Acquisition of Language and Literacies in the United States and Latin America.**

Exploration of the theory and practice of language acquisition in cross-cultural contexts in Latin America and the United States. Subjects include the instruction of English as a second language, social justice for bilingual learners and speakers of minority languages, and connections to multilingual communities. Particular focus on language and immigration issues in the United States and Latin America. The equivalent of three lecture hours a week for one semester. Taught in Latin America.

**Topics in Applied Learning and Development.**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the College of Education. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**ALD 330. Language in Education.**

Theoretical and practical perspectives on the nature of language in education, with a focus on implications for English language learners in classroom settings; linguistic structures and functions; discourse, phonology, morphology, syntax, and semantics across languages and throughout development; and language varieties. Three lecture hours a week for one semester. Additional fieldwork hours may be required. Prerequisite: Three semester hours of coursework in psychology.

**ALD 331. Restorative Practices.**

Focus on community engagement and social justice issues related to schooling access and equity. Includes a field based component that promotes practices needed to implement restorative practices in multiple settings. Three lecture hours per week. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

**ALD 333. Children's Literature.**

For future teachers, an investigation of literature written for children from early childhood through age twelve. Includes an investigation of genres, authors, themes, and forms, and an introduction to ways of bringing literature to children, facilitated by extensive discussion. Three lecture hours a week for one semester, with field hours to be arranged.

**ALD 179, 279, 379, 479, 579, 679. International Learning Seminars.**

Discussion of various issues related to the academic, cultural, and personal aspects of completing academic work in international locations. For each semester hour of credit earned, one lecture hour a week for one semester. Applied Learning and Development 179, 279, 379, 479, 579, 679 and Undergraduate Studies 119 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

**AMS - American Studies**

**American Studies: AMS**

**Lower-Division Courses**

**AMS 310. Introduction to American Studies.**

Same as History 315G. An interdisciplinary introduction to the historical exploration of American culture. Three lecture hours a week for one semester. American Studies 310 and History 315G may not both be counted.

**AMS 310C. Jewish American Literature and Culture.**

Same as English 314V (Topic 7) and Jewish Studies 314C. Examine Jewish American literature in its cultural contexts with an emphasis on skills and methods. Explore texts, drawn from a variety of genres and periods, that indicate the range of Jewish American experiences and how those experiences are influenced by issues such as citizenship, class, ethnicity, gender, and sexuality. Only one of the following may be counted: American Studies 310C, English 314V (Topic: Jewish American Lit and Cult), 314V (Topic 7), Jewish Studies 314C. Prerequisite: One of the following: English 303C, Rhetoric and Writing 306, 306Q, 309J (or 309K), or Tutorial Course 303C.

**AMS 311S. Introductory Seminar in American Studies.**

Writing, reading, and discussion on an American studies topic, with emphasis on the evaluation of information, analytical reading, and critical writing. Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

**AMS 312C. Blackness and Comics.**

Same as African and African Diaspora Studies 316E and English 319D. Examine the relationship between race and the sequential aesthetics of comic books and comic strips. Explore comics strips, underground comics, and superhero comics from the colonial period to the present day. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 310 (Topic: Blackness and Comics), 316E, American Studies 312C, English 319D.

**AMS 315. Topics in American Life.**

Interdisciplinary exploration of American cultural and intellectual life. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 1: Introduction to Asian American Studies.** Same as Asian American Studies 301. Introductes the interdisciplinary study of Asian immigrants and Asian Americans in the United States. Explores key concepts, including immigration history, identity and community formation, cultural representation, and the intersections of race, class, gender, and sexuality. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 315 (Topic: Introduction to Asian American Studies), 315 (Topic 1), Asian American Studies 301, Sociology 308 (Topic: Introduction to Asian American Studies).

**Topic 2: Mixed Race Identities.** Same as Asian American Studies 310 (Topic 3). Analyzes the historical and contemporary significance of issues of "race" and "mixing" in a North American context. Subjects include the situation of "mixed race" people throughout United States history; historical policies that have shaped racial formation in the United States; comparative conceptions of "mixed" people transnationally; and racial, ethnic, and cultural identity. Only one of the following may be counted: American Studies 315 (Topic: Mixed Race and the Media), 315 (Topic 2), Asian American Studies 310 (Topic: Mixed Race and the Media), 310 (Topic 3).
Topic 3: Race, Immigration, and Family. Same as Asian American Studies 310 (Topic 5) and Women's and Gender Studies 301 (Topic 24). Introduction to family systems in the United States in a post-WWII framework with a central focus on Asian Americans. Students will investigate how gender, race, and ethnicity intersect and inform our understanding of the institution of the family. Only one of the following may be counted: American Studies 315 (Topic: Alternative Family Systems), 315 (Topic 3), Asian American Studies 310 (Topic: Alternative Family Systems), 310 (Topic 5), Women's and Gender Studies 301 (Topic: Alternative Family Systems), 301 (Topic 24).

Topic 5: History of Religion in the United States. Same as History 317L (Topic 16) and Religious Studies 316C. Explores instances of religious dominance and religious diversity in United States history. Moving from the pre-colonial period to the present, it examines the changing circumstances of several religious communities, including American Indians and Puritans, Protestant evangelicals, Mormons, Roman Catholics, Jews, Muslims, and Hindus. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 315 (Topic 5), History 317L (Topic 16), Religious Studies 316C, 316U (Topic 1).

Topic 6: American Jews: The Yiddish Experience. Same as German, Scandinavian, and Dutch Studies 310 (Topic 1), Jewish Studies 311 (Topic 9), and Religious Studies 316E. Focuses on over a century of Yiddish-based contributions to American literature, music, and film, including works by Isaac Bashevis Singer, Michael Chabon, Woody Allen, and the Marx Brothers. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 315 (Topic 4), 315 (Topic 6), German, Scandinavian, and Dutch Studies 310 (Topic 1), Jewish Studies 311 (Topic 6), 311 (Topic 9); Religious Studies 313 (Topic 1), 316K (Topic 2), 316E.

Topic 7: Asian American Film History. Same as Asian American Studies 310 (Topic 6). Only one of the following may be counted: American Studies 315 (Topic: Asian American Film History), American Studies 315 (Topic 7), Asian American Studies 310 (Topic: Asian American Film History), Asian American Studies 310 (Topic 6), Radio-Television-Film 301N (Topic: Asian American Film History).

Topic 8: Germany and Globalization. Same as European Studies 308 (Topic 1) and German, Scandinavian, and Dutch Studies 311F. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 315 (Topic: Germany and Globalization), 315 (Topic 8), European Studies 308 (Germany and Globalization), 308 (Topic 1), German, Scandinavian, and Dutch Studies 310 (Topic: Germany and Globalization), 311F.

AMS 315C. Movies Go To War. Same as Comparative Literature 305 (Topic 3), European Studies 307 (Topic 4), and German, Scandinavian, and Dutch Studies 311C. A comparison of films from various nations about major twentieth century wars to the historical facts of the conflicts as practiced in critical comparative analysis of histories as representations. Only one of the following may be counted: American Studies 315 (Topic: Movies Go to War, World War I to Vietnam), 315C, Comparative Literature 305 (Topic: Movies Go to War, World War I to Vietnam), 305 (Topic 3), European Studies 307 (Topic: Movies Go to War, World War I to Vietnam), 307 (Topic 4), German, Scandinavian, and Dutch Studies 311C, Germanic Civilization 311 (Topic 2: Movies Go to War, World War I to Vietnam).

AMS 315D. Anthropology of Race and Ethnicity: An Introduction. Same as African and African Diaspora Studies 315L and Anthropology 310L (Topic 2). Examines the social importance of race and ethnicity both in America and around the world. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315L, 317D (Topic 2), American Studies 315D, Anthropology 310L (Topic 2).

AMS 315F. Native American Literature and Culture. Same as English 314V (Topic 5). Studies Native American literature from different regions and cultures and considers this literary tradition in tribal national and United States national contexts. American Studies 315F and English 314V (Topic 5) may not both be counted. Prerequisite: One of the following: English 303C, Rhetoric and Writing 306, 306Q, 309J (or 309K), or Tutorial Course 303C.

AMS 315G. Introduction to East Austin Ethnography. Same as African and African Diaspora Studies 315C and Anthropology 310E. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315C, 317D (Topic: Intro to East Austin Ethnography), American Studies 315 (Topic: Intro to East Austin Ethnography), 315G, Anthropology 310E, 310L (Topic: Intro to East Austin Ethnography).

AMS 315J. Rights in Modern America. Same as African and African Diaspora Studies 316C, History 317L (Topic 10), and Women's and Gender Studies 301 (Topic 32). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 316C, 317D (Topic: Rights in Modern America), American Studies 315 (Topic: Rights in Modern America), 315J, History 317L (Topic: Rights in Modern America), 317L (Topic 10), Women's and Gender Studies 301 (Topic: Rights in Modern America), 301 (Topic 32).

AMS 315K. The Revolution Will Be Dramatized. Same as African and African Diaspora Studies 315E, Theatre and Dance 305S (Topic 2), and Women's and Gender Studies 301 (Topic 25). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315E, 317F (Topic: The Revolution Will Be Dramatized), American Studies 315 (Topic: The Revolution Will Be Dramatized), 315K, Theatre and Dance 305S (Topic 2), 311T (Topic: The Revolution Will Be Dramatized), Women's and Gender Studies 301 (Topic: The Revolution Will Be Dramatized), 301 (Topic 25).

AMS 315L. Toni Morrison and August Wilson. Same as African and African Diaspora Studies 315F, Theatre and Dance 305S (Topic 3), and Women's and Gender Studies 301 (Topic 26). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315F, 317F (Topic: Toni Morrison and August Wilson), American Studies 315 (Topic: Toni Morrison and August Wilson), 315L, Theatre and Dance 305S (Topic 3), 311T (Topic: Toni Morrison and August Wilson), Women's and Gender Studies 301 (Topic: Toni Morrison and August Wilson), 301 (Topic 26).

AMS 315M. Performing Blackness. Same as African and African Diaspora Studies 315D and Women's and Gender Studies 301 (Topic 8). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315D, 317F (Topic: Performing Blackness), American Studies 315 (Topic: Performing Blackness), 315M, Theatre and Dance 311T (Topic: Performing Blackness), Women's and Gender Studies 301 (Topic: Performing Blackness), 301 (Topic 8).

AMS 315N. Latina and Latino Media and Popular Culture. Same as Mexican American Studies 318C and Women's and Gender Studies 301 (Topic 30). Explore Latina/o media and popular culture from 1950 to the present. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 315 (Topic: Latina/o Med/Pop Cul 1950-Pres), 315N, Mexican American Studies 318C, 319 (Topic: Latina/o Med/Pop Cul 1950-Pres), Women's and...
AMS 315O. Introduction to Native American Histories.
Same as History 317L (Topic 8). Examine the history of Native American societies in North America from the earliest records to the present. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 315 (Topic: Intro to Native Am Histories), 315 (Topic: Intro to Amer Indian History), 315Q, History 317L (Topic 8).

Same as History 317L (Topic 14). Examines building in American society from the late 1860s to 1980. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 315Q, History 317L (Topic 14).

AMS 315Q. American Jewish History.
Same as History 317L (Topic 21) and Jewish Studies 317. Examine the history of Jews in the United States from the seventeenth century to the present. Explore the formation of a distinct American Judaism and the involvement of Jews in American cultural and political affairs. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 315Q, History 317L (Topic: American Jewish History), 317L (Topic 21), Jewish Studies 311 (Topic: American Jewish History), 317.

AMS 315R. Race, Deportation, and Diaspora.
Same as African and African Diaspora Studies 316D, Asian American Studies 316D, and Latin American Studies 310F. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 310 (Topic: Race, Deportation, Diaspora), 316D, 317D (Topic: Race, Deportation, Diaspora), American Studies 315 (Topic: Race, Deportation, Diaspora), 315R, Asian American Studies 310 (Topic: Race, Deportation, Diaspora), 316D, Latin American Studies 310 (Topic: Race, Deportation, Diaspora), 310F.

AMS 319. Latinx Digital Worlds.
Same as English 319L, Latin American Studies 310L, and Mexican American Studies 318E. Explore how Latinx communities (traditionally figured as on the wrong side of the "digital divide") have embraced, mobilized, and sometimes usurped emerging digital tools and spaces to forge community and create new forms of culture, memory, and activism. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 319, English 319L, Latin American Studies 310L, Mexican American Studies 318E, 319 (Topic: Latinx Digital Worlds).

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of American Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

AMS 320C. Jews of the United States, Canada, and Latin America.
Same as Jewish Studies 363 (Topic 33), Latin American Studies 328 (Topic 12), and Spanish Civilization 320C (Topic 6). Explore the cultural history of Jews in the United States, Latin America, and Canada through a representative sample of short literary texts, film clips, and musical recordings. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 320C, Jewish Studies 363 (Topic 33), Latin American Studies 328 (Topic 12), Spanish Civilization 320C (Topic 6). Prerequisite: Upper-division standing.

A study of America through its geography, language, government, or cultures. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing; additional prerequisites vary with the topic.

AMS 321 (Topic 3). Native American Cultures North of Mexico. Same as Anthropology 336L.

AMS 321 (Topic 6). Race, Gender, and Surveillance. Same as African and African Diaspora Studies 360D, Sociology 322V, and Women's and Gender Studies 322J. Overview of theories in the sociology of social control, with a focus on risk, power, ethics, and surveillance. Examines historical transformations in social control and the distribution of power in the United States and global contexts, with attention to race, gender, and class. Subjects include: the transatlantic slave trade; prisons and punishment; the gaze, voyeurism, and reality television watching; the Internet; travel and state borders; privacy; and biometrics and the body. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 360D, 372C (Topic 12), American Studies 321 (Topic 6), Sociology 322V, Women's and Gender Studies 322 (Topic 8), 322J. Additional prerequisite: Upper-division standing.

AMS 321 (Topic 7). Social Movements. Same as Sociology 352. Characteristics of crowds, publics, and social movements; their role in social organization and social change. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: Social Movements), American Studies 321 (Topic 7), Sociology 352. Additional prerequisite: Upper-division standing.

AMS 321 (Topic 9). The United States in the Civil Rights Era. Same as African and African Diaspora Studies 351L and History 356P. Examines United States history in the post-World War II era, including how civil rights and other racial issues helped shape the politics, popular culture, and social life of this period. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 351L, 374D (Topic 17), American Studies 321 (Topic 9), History 356P, Mexican American Studies 374 (Topic 36). Additional prerequisite: Upper-division standing.
AMS 321J. African American Social and Political Thought.
Same as African and African Diaspora Studies 351M, Core Texts and Ideas 326J, and Government 335G. Examines the speeches and writings by major theorists and critics of the prophetic tradition of black political thought. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 351M, 374D (Topic 21), American Studies 321J, Core Texts and Ideas 326 (Topic 3), 326J, Government 335G, 335M (Topic 10). Prerequisite: Upper-division standing and six semester hours of lower-division coursework in government.

AMS 321K. European Immigration to Texas in the Nineteenth Century.
Same as European Studies 346 (Topic 33) and German, Scandinavian, and Dutch Studies 361S. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: European Immigration to Texas in the Nineteenth Century), 321K, European Studies 346 (Topic: European Immigration to Texas in the Nineteenth Century), 346 (Topic 33), German, Scandinavian, and Dutch Studies 360 (Topic: European Immigration to Texas in the Nineteenth Century), 361S. Prerequisite: Upper-division standing.

AMS 321L. German Scholars: US Exile.
Same as European Studies 346 (Topic 34), German, Scandinavian, and Dutch Studies 361Q, and Philosophy 334Q. Examine the migration of established European intellectuals into the US, due to the Second World War. Explore how they worked against their persecutors for their own cultural heritage and to influence US intellectual life. Investigate the ethical dilemmas faced in transplanting their lives and projects into new contexts. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: German Scholars: US Exile), 321L, Comparative Literature 323 (Topic: German Scholars: US Exile), 323 (Topic 56), European Studies 346 (Topic: German Scholars: US Exile), 346 (Topic 34), German, Scandinavian, and Dutch Studies 360 (Topic: German Scholars: US Exile), 361Q, Philosophy 334Q, 354 (Topic: German Scholars: US Exile). Prerequisite: Upper-division standing.

AMS 321M. Radical Chic: Revolutions from Europe.
Same as European Studies 347 (Topic 56) and German, Scandinavian, and Dutch Studies 362G. Explore innovative European ideas that reshaped United States history and society: Freud and settlement houses, models for education (from Switzerland to Dewey at the University of Chicago), and the labor movement (Marx to Eugene V. Debs and Mother Jones) Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321M, European Studies 347 (Topic 56), German, Scandinavian, and Dutch Studies 362G. Prerequisite: Upper-division standing.

AMS 321N. Rethinking Blackness.
AMS 321O. Debt and Colonialism in the Caribbean.
Same as African and African Diaspora Studies 345O, History 345O, and Latin American Studies 366 (Topic 43). Examine the role that debt has played in the formation of colonial and neocolonial practices in the Caribbean region. Take a broad approach to the concept of debt in order to explore the financial and monetary dynamics of debt, but also the political and cultural implications of debt. Focus in particular on debt as justification in the furtherance of colonialism throughout the Caribbean. Engage in a historical examination of the United States' colonial projects and military interventions in the region throughout the 20th and into the 21st centuries. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 345O, 374E (Topic: Debt/Colonialism Caribbean), American Studies 321 (Topic: Debt/Colonialism Caribbean), 321O, History 345O, 365K (Topic: Debt/Colonialism Caribbean), Latin American Studies 366 (Topic: Debt/Colonialism Caribbean), 366 (Topic 43). Prerequisite: Upper-division standing.

AMS 321P. Race And Place.
Same as African and African Diaspora Studies 350L. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350L, 372C (Topic: Race And Place), American Studies 321 (Topic: Race And Place), 321P Geography 356T (Topic: Race And Place). Prerequisite: Upper-division standing.

AMS 321Q. Writing for Black Performance.

AMS 321R. Politics of Memory: Germany and the United States.
Same as European Studies 348 (Topic 9), German, Scandinavian, and Dutch Studies 361U, and Government 368U. Examine the role that narratives of the past play in politics and policies in both Germany and the United States, by engaging with key theoretical and empirical debates. Focus on the role of memory in German and US immigration politics. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: Politics Of Memory: GER/US), 321R, European Studies 348 (Topic: Politics Of Memory: GER/US), 348 (Topic 9), German, Scandinavian, and Dutch Studies 360 (Topic: Politics Of Memory: GER/US), 361U, Government 365N (Topic: Politics Of Memory: GER/US), 368U. Prerequisite: Upper-division standing.

AMS 321S. Cultural Heritage on Display.
Same as Anthropology 325F. Explore the public construction and display of traditional American folk culture by studying popular folkloric-oriented tourist sites. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: Cultural Heritage on Display), 321S, Anthropology 325F, 325L (Topic 11). Prerequisite: Upper-division standing.

AMS 321T. Asian American Jurisprudence.
Same as Asian American Studies 325N and Government 357V. Examine the historical development of United States law and its relationship to Asian Americans, and of Asian American jurisprudence as an independent field of legal scholarship. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic 5), 321T, Asian American Studies 325 (Topic 5), 325N, Government 357M (Topic 9), 357V. Prerequisite: Upper-division standing.

AMS 321U. Native American Cultures of the Southwest.
Same as Anthropology 322I. Explore the diverse Native cultures of the Southwest, focusing on the philosophical underpinnings and the frameworks of meaning and moral responsibility of indigenous peoples of the American Southwest. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: Native American Cultures of the Southwest), 321 (Topic 1), 321U, Anthropology 322M (Topic 3), 322M (Topic 4), 322I. Prerequisite: Upper-division standing.

AMS 321V. Religion and Film.
Same as Religious Studies 346E. Survey of representations of religious beliefs, practices, persons, and institutions in popular film. Examination of film as a vehicle to reflect how a shared religious imagination shaped the way Americans understand themselves. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: Religion and Film), 321V, Religious Studies 346 (Topic: Religion and Film), 346E. Prerequisite: Upper-division standing.

AMS 321W. Memories of War.
Same as European Studies 346 (Topic 42), German, Scandinavian, and Dutch Studies 362D, and Government 362S. Consider the ways the wars of the twentieth and twenty-first century are being remembered in Germany and the United States - from poems, novels and films to monuments and the controversial debates about military conflicts. Focus in particular on how societies mourn, and how remembering war affects individual lives, how societies mourn, and how remembering war impacts national identity and politics. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: Memories of War), 321W, European Studies 346 (Topic: Memories of War), 346 (Topic 42), German, Scandinavian, and Dutch Studies 360 (Topic: Memories of War), 362D, Government 362S. Prerequisite: Upper-division standing.

AMS 322D. Mexican American Studies at UT.
Same as History 365G (Topic 17) and Mexican American Studies 320I. Trace the origins and development of Mexican American Studies at the national, regional, and local levels. Collaborate to help preserve and recognize the significance of Mexican American Studies at the University in historical and contemporary contexts. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: 50 Yrs Mex Am Studies at UT), 322D, History 365G (Topic: 50 Yrs Mex Am Studies at UT), 365G (Topic 17), Mexican American Studies 320L, 374 (Topic: 50 Yrs Mex Am Studies at UT). Prerequisite: Upper-division standing.

AMS 323C. American Dante.
Same as English 352D and Italian Civilization 347. Examine the influence of the Italian poet Dante on American culture from the nineteenth century to the present. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 323C, English 352D, Italian Civilization 330 (Topic: American Dante), 347. Prerequisite: Upper-division standing.

AMS 324C. Black Middle Class.
Same as African and African Diaspora Studies 350C and Women's and Gender Studies 340 (Topic 83). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350C, 372C (Topic: Black Middle Class), American Studies 321 (Topic: Black Middle Class), 324C, Women's and Gender Studies 321 (Topic 5), 321T, Asian American Studies 325 (Topic 5), 325N, Government 357M (Topic 9), 357V. Prerequisite: Upper-division standing.
Studies 340 (Topic: Black Middle Class), 340 (Topic 83). Prerequisite: Upper-division standing.

AMS 324D. Black Freedom Movement.

AMS 324E. The Global City.

AMS 324F. Asian Americans in the South.
Same as Asian American Studies 330K. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: Asian Americans in the South), 324F, Asian American Studies 330 (Topic: Asian Americans in the South), 330K. Prerequisite: Upper-division standing.

AMS 324G. Policing Latinidad.
Same as Mexican American Studies 364E and Women's and Gender Studies 340 (Topic 95). Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: Policing Latinidad), 324G, Mexican American Studies 364E, 374 (Topic: Policing Latinidad), Women's and Gender Studies 340 (Topic: Policing Latinidad), 340 (Topic 95). Prerequisite: Upper-division standing.

AMS 324I. Chicana Feminisms.
Same as Mexican American Studies 337C and Women's and Gender Studies 340 (Topic 87). Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: Chicana Feminisms), 324I, Mexican American Studies 337C, 374 (Topic: Chicana Feminisms), Women's and Gender Studies 340 (Topic: Chicana Feminisms), 340 (Topic 87). Prerequisite: Upper-division standing.

AMS 324J. Austin Jews in the Civil Rights Era.

AMS 324L. Mapping Indigenous Austin.
Same as Anthropology 324W. Explore the histories and presence of indigenous Austin. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 324L, Anthropology 324L (Topic: Mapping Indigenous Austin), 324W. Prerequisite: Upper-division standing.

AMS 325C. Popular Music in the United States.
Same as History 365G (Topic 2). Traces the history of popular music in the United States and its influence on American politics, economics, and culture from the 1880s to present day. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: Popular Music in the US), 325C, History 365G (Topic: Popular Music in the US), 365G (Topic 2). Prerequisite: Upper-division standing.

AMS 325E. Music and Religious Identities in the US.

AMS 325F. Painting in America to 1860.
Same as Art History 339N. Painting in British colonial North America and the United States prior to the Civil War. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 325 (Topic 2), 325F, Art History 339N, 374 (Topic 1).

AMS 325G. Painting in the United States, 1860-1913.
Same as Art History 339P. Painting in the United States from the Civil War to the Armory Show. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 325 (Topic 3), 325G, Art History 339P, 374 (Topic 2).

AMS 325I. The Arts of Hip Hop.

AMS 325M. Russia Through American Eyes.
Same as Comparative Literature 323 (Topic 71), History 326D, and Russian, East European, and Eurasian Studies 325 (Topic 45). Examine a wide array of American attitudes towards Russia and Russians. Using a variety of political, social, and cultural events and encounters, analyze the ways in which nationalism, imperialism, and geopolitics informed American narratives about Russia and Russians, assessments that range from enthusiasm and curiosity to condemnation and outright hostility. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 325M, Comparative Literature 323 (Topic 71), History 326D, Russian, East European, and Eurasian Studies 325 (Topic: Russia Thru American Eyes), 325 (Topic 45). Prerequisite: Upper-division standing.

AMS 327C. Native American Religions.
Same as Religious Studies 346D. Examination of religious developments in Native American communities from the precolonial period through the present day. Focus on the changing forms of ritual practice and the relationship between religion and community life. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 327 (Topic: Native American Religion), 327C, Religious Studies 346 (Topic: Native American Religion), 346D. Prerequisite: Upper-division standing.

AMS 327D. United States Catholic History.
Same as History 365G (Topic 1), Mexican American Studies 374 (Topic 37), and Religious Studies 346F. Examine how Catholicism and national identity work for Catholics in the United States, with an emphasis on Catholic women and Latino/as. Only one of the following may be counted: American Studies 327 (Topic 4), 327D, History 365G (Topic 1),
Mexican American Studies 374 (Topic 37), Religious Studies 346 (Topic 5), 346F. Prerequisite: Upper-division standing.

AMS 327E. Evangelical Christianity.
Same as Religious Studies 346J. An introduction to the intellectual and social sources of evangelical Protestant traditions in the United States, their varieties of belief and practice, and their role in the wider Christian community and American society. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 327 (Topic: Evangelical Christianity), 327 (Topic 5), 327E, Religious Studies 346 (Topic: Evangelical Christianity), 346 (Topic 6), 346J. Prerequisite: Upper-division standing.

AMS 327F. Religion in the American South.
Same as Religious Studies 375S (Topic 6). Examines the social construction and cultural meaning of southern religion using fictional characterizations, philosophical reflections, historical accounts, and theoretical comparisons. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 327 (Topic: Religion in the American South), 375S (Topic 6). Prerequisite: Upper-division standing and at least six semester hours of coursework in religious studies.

AMS 327G. Religion in the American West.
Same as Religious Studies 346G. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 327 (Topic: Religion in the American West), 327G, Religious Studies 346 (Topic: Religion in the American West), 346G. Prerequisite: Upper-division standing.

AMS 327I. Religion and Social Justice in United States.

AMS 327J. Debating the Bible in the Twenty-First Century.
Same as Core Texts and Ideas 355T and Religious Studies 346S. Examine the ways in which individuals, primarily in the United States, have regarded the Bible as relevant or irrelevant to contemporary life. Discuss contemporary controversial issues in which the Bible has played a role and how these relate to earlier controversies, such as the position of the Bible on slavery. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 327 (Topic: Debating the Bible in 21st Century), 327J, Core Texts and Ideas 355T, 375 (Topic: Debating the Bible in 21st Century), Religious Studies 346 (Topic: Debating the Bible in 21st Century), 346 (Topic 11), 346S. Prerequisite: Upper-division standing; introductory courses in the Hebrew Bible and/or New Testament recommended.

Same as History 350R (Topic 7) and Urban Studies 328E. The history of humanity’s influence on the plants, animals, microlife, soils, water, and air of North America, and vice versa, from the arrival of the proto-Americans to the contemporary environmental crisis. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 329, History 350R (Topic 7), Urban Studies 328E, 353 (Topic 5). Prerequisite: Upper-division standing and six semester hours of coursework in history.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of American Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Same as Art History 339Q and Urban Studies 320M. A historical survey of artifacts, buildings, and urban environments, focusing on responses to machine-age civilization. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 330, Art History 339Q, Urban Studies 352 (Topic 5), 320M. Prerequisite: Upper-division standing.

AMS 331C. Jewish Stereotypes in American Literature and Culture.
Same as English 323J and Jewish Studies 363 (Topic 31). Examine stereotypes that have come to define Jewishness in American culture by focusing both on the antisemitic tropes perpetuated by non-Jewish representations of ‘the Jew’ in literary classics and on the archetypes employed as coping mechanisms in cultural representations created by Jews themselves. Analyze how stereotypes become enmeshed in cultural consciousness and investigate ways in which representations of ethnic, religious, and racial minorities are governed by these kinds of one-dimensional archetypes. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 331C, English 323D (Topic: Jewish Stereotypes Lit/Cul), 323J, Jewish Studies 363 (Topic 31). Prerequisite: Upper-division standing.

AMS 331E. Black Cops in African American Popular Culture.
Same as African and African Diaspora Studies 331E and English 342C. Explore the history of black policing in America and representations of black police officers in popular literature and film of late Twentieth Century America. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 331E, 370 (Topic: Black Cops Afr Am Pop Cult), American Studies 331E, English 342C. Prerequisite: Upper-division standing.

AMS 333. Blackness in the Contemporary Art Museum.
Same as African and African Diaspora Studies 335Q and Art History 374 (Topic 4). Explore issues related to the acquisition, stewardship, and repatriation of the art of the African Diaspora in the face of an increasingly virtual and market-driven art world. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 335Q, 370 (Topic: Blackness in Cont Art Museum), American Studies 333, Art History 374 (Topic 4).

AMS 334. Drugs in African American Popular Culture.
Same as African and African Diaspora Studies 331D and English 345D. Examine the legal, political, and philosophical intersection of blackness, whiteness, and drugs in the late twentieth century through film, music,
and literature. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 331D, 370 (Topic: Drugs in Afr Am Lit/Culture), American Studies 334, English 345D. Prerequisite: Upper-division standing.

AMS 335. Queering Black Religions.
Same as African and African Diaspora Studies 352O, Religious Studies 335D, and Women's and Gender Studies 335 (Topic 25). Explore the ways Africana religion practitioners disrupt and reframe dominant western discourses of gender and sexuality. Examine concepts of temporality, spirit manifestation, subjectivity, corporeality, and Africana religious epistemologies. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 3520, American Studies 335, Religious Studies 335D, Women's and Gender Studies 335 (Topic 25). Prerequisite: Upper-division standing.

AMS 337J. Latinx Sexualities.
Same as African and African Diaspora Studies 325C, Mexican American Studies 337J, and Women's and Gender Studies 335 (Topic 27). Examine Latinx sexualities from a historical perspective to comprehend the social, cultural, political, and economic factors, which have shaped these experiences. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 325 (Topic: American Art 1958-1985), 339M, Art History 339M.

AMS 341C. Americans in Paris.
Same as European Studies 347 (Topic 54) and French Civilization 341P. Examine major social and political trends, events, and debates that have informed the works of artists living and working both at the margins of Parisian society as well as in its most celebrated salons. Interpret texts as artifacts that reflect the historical, social, and cultural circumstances of the environment that inspired their creation and reflect upon their role in the cultural symbiosis between America and France. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 341C, European Studies 347 (Topic: Americans in Paris), 347 (Topic 54), French Civilization 341 (Topic: Americans in Paris), 341P. Prerequisite: Upper-division standing.

AMS 345F. Latinx Legend Tripping.
Same as English 342L, Mexican American Studies 345F, and Women's and Gender Studies 340 (Topic 96). Explore narrative folklore from diverse traditions across the United States based Latinx diaspora. Focus on supernatural legends and the creation of the female "monster". Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: Latinx Legend Tripping), 345F, English 323D (Topic: Latinx Legend Tripping), 342L, 370W (Topic: Latinx Legend Tripping), Mexican American Studies 345F, 374 (Topic: Latinx Legend Tripping), Women's and Gender Studies 340 (Topic: Latinx Legend Tripping), 340 (Topic 96). Prerequisite: Upper-division standing.

AMS 346O. Religion and Food.
Same as Religious Studies 346O. Examine the material relationships between religion and food, by comparing the ritual functions of food in religious traditions and the collective constructions of religious identities in traditional foodways. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: Religion and Food), 346O, Religious Studies 346O, 373 (Topic: Religion and Food). Prerequisite: Upper-division standing.

AMS 355. Main Currents of American Culture to 1865.
Same as History 355N. Traces the development of American culture and society from the colonial era until the end of the Civil War. Major themes include racial conflict, religion, slavery, the development of democracy, and cultural reform. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

AMS 356. Main Currents of American Culture since 1865.
Same as History 356K. Traces the development of American culture and society from the end of the Civil War to the present. Major themes include racial conflict, pluralism, religion, urban development and reform, modernism, government centralization, cultural radicalism, and the rebirth of conservatism. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

AMS 360D. German-American Immigration and Ethnicity.
Same as German, Scandinavian, and Dutch Studies 362E and History 357Q. Explore German immigration to the United States from the colonial era to the present. Examine the motivations for migration; settlement patterns; construction of identity through traditions and festivals; German American's economic, social, and cultural contributions to the United States; and challenges to assimilation. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 360D, German, Scandinavian, and Dutch Studies 360 (Topic: German-Amer Immigratn/Ethn), 362E, History 357Q. Prerequisite: Upper-division standing.

AMS 370. Seminar in American Culture.
Interdisciplinary seminar on themes in American life. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing; additional prerequisites may vary with the topic.

Topic 1: American Cultural History of Alcohol and Drugs. Same as History 350R (Topic 5). Study of the American use and perception of drugs, including alcohol, and how they have changed over time. Examines significant shifts in American attitudes toward individualism and social control. American Studies 370 (Topic 1) and History 350R (Topic 5) may not both be counted.

Topic 13: The Culture of Cities. Same as Geography 356T (Topic 1) and Urban Studies 320T. Examines the social, geographical, and cultural evolution of the United States from a rural and small-town society to an urban and suburban nation. Subjects may include the segregation of public and private space; the formation of urban subcultures organized by gender, work, race, religion, and sexuality; social and spatial divisions between rich and poor and native-born
and immigrant; and the increasing importance of “cultural capital” in reshaping urban politics and in conflicts over revitalization and gentrification. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 370 (Topic 13), Geography 356T (Topic 1), Urban Studies 320T, 354 (Topic 4). Additional prerequisite: Upper-division standing.

**Topic 17: Postmodern America.** Postmodernity considered as a means of understanding major cultural transformations since 1945 in areas such as architecture, art, criticism, film, journalism, literature, music, philosophy, photography, and political thought.

**Topic 18: The Beats and American Culture, 1945 to 1990.** Examines writers such as Kerouac, Ginsberg, and Burroughs during the immediate post-World War II era. Considers their historical origins, their representations of society and culture, and their influence from the 1960s through the 1980s on writers and artists in a variety of fields.

**Topic 19: The Cold War and American Childhood.** Uses childhood as a focus for studying the cultural and political climate of the post-World War II era.

**Topic 20: Children’s Literature and American Culture.** Examines changes in American childhood using children’s literature that covers several different time periods.

**Topic 21: Society, Culture, and Politics in the 1960s.** Various social and cultural movements of the 1960s, including civil rights, the New Left, black power and other ethnic nationalisms, the peace movement, the black arts movement, guerrilla theater, psychedelic arts and the counterculture, women’s liberation, gay liberation, the environmental movement, and the conservative movement.

**Topic 22: Deviance in America: An Alternative History.** Same as History 350R (Topic 6). Examines movements and individuals outside the conventional mainstream and how they reflect American ideals and dilemmas. American Studies 370 (Topic 22) and History 350R (Topic 6) may not both be counted.

**Topic 23: Memory and Place.** Same as Geography 356T (Topic 2: Memory and Place). Explores how cultural memory is produced in its various forms, from memorials, public art, and commodities to popular culture, rituals, and museums, and how public remembering is inevitably anchored in specific geographic places. Additional prerequisite: Upper-division standing.

**Topic 26: American Food.** Same as Women’s and Gender Studies 345 (Topic 41: American Food). Studies diverse American food cultures from a humanities perspective, exploring connections between global, national, and local communities. Uses scholarship in the field of food studies as well as cookbooks, novels, poetry, photographs, songs, documentaries, and oral histories to investigate the past and present of American food communities.

**Topic 27: Nature and Gender in America.** Same as Women’s and Gender Studies 345 (Topic 42: Nature and Gender in America). Study of the connections between nature and gender in American national narratives. Explores how Americans of differing classes, races, genders, sexual orientations, and ages have shaped and experienced changing ideas of America, wilderness, domestication, and society over time and in different regions of the country.

**Topic 28: Animals and American Culture.** Same as History 350R (Topic 9) and Women’s and Gender Studies 345 (Topic 43). Explores the role of animals in American history, culture, and society. Only one of the following may be counted: American Studies 370 (Topic 28), History 350R (Topic 9), Women’s and Gender Studies 345 (Topic 43). Additional prerequisite: Upper-division standing.

**Topic 29: Women Radicals and Reformers.** Same as Women’s and Gender Studies 345 (Topic 44: Women Radicals and Reformers). Traces traditions of women’s radical activism and reform beginning with the Enlightenment and the American Revolution and continuing to the present, with concentration on the twentieth century.

**Topic 30: Women in Postwar America.** Same as History 350R (Topic 8) and Women’s and Gender Studies 345 (Topic 37). Only one of the following may be counted: American Studies 370 (Topic 30), History 350R (Topic 8), Women’s and Gender Studies 345 (Topic 37).

**Topic 31: Black Americans and the South.** Same as African and African Diaspora Studies 351F. Traces the post-Reconstruction conversation among black Americans over how to live in the South and make sense of its history of widespread racial violence, lynching, de jure segregation, civil rights struggles, and their legacies. Sources include authors such as Jean Toomer, Tayari Jones, and Natasha Trethewey, and fiction, speeches, newspaper accounts, photographs, paintings, poetry, and popular music, including jazz, blues, rock, rhythm and blues, and hip hop and rap. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 351F, 374D (Topic 6), American Studies 370 (Topic 31). Additional prerequisite: Upper-division standing.

**Topic 32: Slavery across Genres.** Same as African and African Diaspora Studies 351O. Uses nonfictional and fictional narrative accounts of slavery in the United States to examine the political, social, cultural, economic, and psychological aspects of the institution of slavery at different historical moments. Sources may include authors such as Frederick Douglass, Toni Morrison, William Faulkner, Harriet Beecher Stowe, and Edward P. Jones; graphic novels; conceptual art; court records; and bills of sale. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 351O, 372E (Topic 2), American Studies 370 (Topic 32). Additional prerequisite: Upper-division standing.

**Topic 33: Atlantic Slavery: History and Memory.** Same as African and African Diaspora Studies 351P. Charts a history of Atlantic slavery by focusing on primary sources detailing crucial events and contexts such as the Zong Massacre, the Haitian Revolution, and Dred Scott vs. Sandford, among others. Considers how historians, memoirists, fiction writers, visual and performance artists and filmmakers have come to terms with that history and its implications. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 351P, 374E (Topic 3), American Studies 370 (Topic 33). Additional prerequisite: Upper-division standing.

**Topic 34: American Disasters.** Examines natural and human-made disasters as key turning points in American history. Engages with the politics of disasters, analyzing environmental contexts, grassroots activism, legislative policies, and approaches toward commemoration.

**Topic 35: American Popular Culture, 1682-Present.** Same as History 350R (Topic 19) and Women’s and Gender Studies 340 (Topic 26). Explores the evolution of American popular culture and its relationship to national consolidation, and at times, disunion, over the last 330 years.

**Topic 36: Exiles, Expatriates, and Political Pilgrims.** Explores the ways in which foreign experiences formed and re-formed individuals’ perspectives on the United States, the nature of their social critiques of the U.S., and Americans’ experiences of other nations.

**Topic 37: The Politics of Creativity.** Interdisciplinary investigation of artists in American society and of the intersection of art and politics.

**Topic 38: Property in American Culture.** Same as African and African Diaspora Studies 350W. Explores American conceptions of property over a wide range of economic transformations from the mercantile to the digital age, with special attention to the ambiguous and tension-filled meanings of property for women, African Americans, and Native Americans. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350W, 372C (Topic 3), American Studies 370 (Topic 38). Additional prerequisite: Upper-division standing.

**Topic 39: Radical Latinos.** Mexican American Studies 374 (Topic 32: Radical Latinos). Examines the social positioning and history of Latinas/os in the United States. Analyzes the histories of Latinas/
os who have gone against mainstream expectations, or who have challenged or critiqued the status quo in provocative and unexpected ways. Only one of the following may be counted: American Studies 370 (Topic Radical Latinos), 370 (Topic 39), Mexican American Studies 374 (Topic: Radical Latinos), 374 (Topic 32).

**Topic 40: Southern Cultures.** Women’s and Gender Studies 345 (Topic 27: Southern Cultures). Investigation of multiple, fluid, and diverse southern cultures through topics such as NASCAR, biscuits and cornbread, mega-churches, beauty pageants, jazz, country music, southern hip hop, migrant farm cultures, matzo ball soup with collards, the Trail of Tears, Gullah, Tara, Graceland, and more. Includes discussion of stereotypes and the individual truths about women, men, and southern in the context of this discussion.

**Topic 41: Vienna: Memory and the City.** Same as European Studies 346 (Topic 5), History 362C, and Urban Studies 322C. Examines the ways in which cultural memory has shaped, and continues to shape, urban life in Vienna, Austria. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 370 (Topic 41), European Studies 346 (Topic 5), Geography 356T (Topic: Vienna: Memory and the City), Germanic, Scandinavian, and Dutch Studies 360 (Topic: Vienna: Memory and the City), History 362C, 362G (Topic 2), Urban Studies 322C, 354 (Topic 7). Additional prerequisite: Upper-division standing.

**Topic 42: Black Political Thought.** Same as African and African Diaspora Studies 351N. Exploration of black social and political thinkers, writers, and reformers, and how their works influence the legacies of slavery, empire, and patriarchy within the United States. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 351N, 372C (Topic 14), American Studies 370 (Topic 42). Additional prerequisite: Upper-division standing.

**Topic 43: Literature of Black Politics.** Same as African and African Diaspora Studies 330R. Examines the novels, plays, and critical essays of Ralph Ellison, James Baldwin, and Toni Morrison as works of democratic political theorizing and political engagement. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 330R, 374F (Topic 21), American Studies 370 (Topic 43). Additional prerequisite: Upper-division standing.

**Topic 44: The Tragicomedy of American Democracy.** Same as African and African Diaspora Studies 351D and Core Texts and Ideas 326. Examines the foundational ideas and practices essential to the unfolding of American democracy by focusing on founding documents, public speeches, major political conflicts, and canonical texts of political philosophy. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 351D, 372F (Topic 15), American Studies 370 (Topic 44), Core Texts and Ideas 326 (Topic 2), 326. Additional prerequisite: Upper-division standing.

**Topic 45: Feminist Interventions in Borderlands History.** Same as Mexican American Studies 374 (Topic 38) and Women’s and Gender Studies 340 (Topic 45). Provides an in-depth understanding of the social, economic, and spatial transformations of the United States/Mexico borderlands in the nineteenth and early twentieth centuries. Only one of the following may be counted: American Studies 370 (Topic: Feminist Interventions in Borderlands History), 370 (Topic 45), Mexican American Studies 374 (Topic: Feminist Interventions in Borderlands History), 374 (Topic 38), Women’s and Gender Studies 340 (Topic: Feminist Interventions in Borderlands History), 340 (Topic 45).

**Topic 46: Language, Culture, and the Texas German Experience.** Same as Anthropology 324L (Topic 55), German, Scandinavian, and Dutch Studies 351C, and Linguistics 373 (Topic 10). The evolution of the culture and language of German immigrants to Texas from the 1840s through the present and how they have influenced other ethnic groups in Texas. Three lectures a week for one semester. Only one of the following may be counted: American Studies 370 (Topic: Language, Culture, and the Texas German Experience), 370 (Topic 47), Anthropology 324L (Topic: Language, Culture, and the Texas German Experience), 324L (Topic 55), Germanic Civilization 327E (Topic 11) German, Scandinavian, and Dutch Studies 351C, Linguistics 350 (Topic: Language, Culture, and the Texas German Experience), 373 (Topic 10). Additional prerequisite: Upper-division standing.

**Topic 49: Twentieth-Century United States Lesbian and Gay History.** Same as History 365G (Topic 10) and Women’s and Gender Studies 335 (Topic 18). Examines classic texts and recent and varied writings on LGBT history, focused on experiences, ideas, and conflicts that have shaped modern LGBT identities. Only one of the following may be counted: American Studies 370 (Topic: United States Lesbian and Gay History, Twentieth Century), 370 (Topic 49), History 365G (Topic: United States Lesbian and Gay History, Twentieth Century), 365G (Topic 10), Women’s and Gender Studies 335 (Topic 18), 340 (Topic: United States Lesbian and Gay History, Twentieth Century).

**Topic 50: Sexual Deviance in the Twentieth-Century United States.** Same as Women’s and Gender Studies 335 (Topic 4). Examines the ways that Americans have created and maintained hierarchies of power by casting certain people and sexual behaviors as unnatural and immoral since the turn of the twentieth century. Only one of the following may be counted: American Studies 370 (Topic: Sexual Deviance in the Twentieth-Century US), 370 (Topic 50), Women’s and Gender Studies 335 (Topic: Sexual Deviance in the Twentieth-Century US), 335 (Topic 4). Additional prerequisite: Upper-division standing.

**Topic 51: Queer Study in Low Culture.** Same as Women’s and Gender Studies 335 (Topic 7). Examines representations of sexual and gender non-conformity in popular culture since the mid-twentieth century in the United States. Only one of the following may be counted: American Studies 370 (Topic: Queer Study in Low Culture), 370 (Topic 51), Women’s and Gender Studies 335 (Topic: Queer Study in Low Culture), 335 (Topic 7). Additional prerequisite: Upper-division standing.

**Topic 52: Movements for Sexual and Reproductive Justice.** Same as Women’s and Gender Studies 335 (Topic 9). Charts the historical development of various struggles for sexual and reproductive justice in the United States since the nineteenth century. Only one of the following may be counted: American Studies 370 (Topic: Movements for Sexual and Reproductive Justice), 370 (Topic 52), Women’s and Gender Studies 335 (Topic: Movements for Sexual and Reproductive Justice), 335 (Topic 9).

**Topic 53: Key Works in American Popular Music.** Examines individual songs as a means to understand larger trends in U.S. cultural history (including various Civil Rights movements, de-industrialization and economic dislocation, cultural polarization, anti-war movements and the backlash, etc.) with an emphasis on rock, pop, punk, rap, disco, and country music in the U.S. since 1945. Explores popular song through the lens of cultural studies, sociology, and history. American Studies 370 (Topic: Key Works in American Popular Music) and 370 (Topic 53) may not both be counted.

**Topic 54: Rethinking the 1950s: Rebels and Rejects.** Examines how the context of the Cold War influenced American culture and politics, particularly with regard to race, gender, and sexuality. Focuses on the first two decades after the end of World War II. American Studies 370

**Topic 59: Arts and Artifacts in the Americas.** Same as History 350R (Topic 27). Surveys the changing material culture of the western hemisphere from pre-Columbian times to the beginning of the industrial revolution. Only one of the following may be counted: American Studies 370 (Topic: Arts/Artifacts in the Americas), 370 (Topic 59), History 350R (Topic: Arts/Artifacts in the Americas), 350R (Topic 27). Additional prerequisite: Upper-division standing and six semester hours of coursework in history.

**Topic 60: The Civil Rights Movement from a Comparative Perspective.** Same as African and African Diaspora Studies 350U, History 350R (Topic 35), and Mexican American Studies 364C. Focuses on African American and Mexican American struggles for civil rights. Asian American and Native American movements will also be addressed. Using a comparative approach the student will consider the distinctiveness of each of these struggles while also viewing them in relation to each other. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350U, 374D (Topic: Civil Rts Mov from Comp Persp), 374D (Topic 18), American Studies 370 (Topic: Civil Rts Mov from Comp Persp), 370 (Topic 60), History 350R (Topic 35), Mexican American Studies 364C, 374 (Topic: Civil Rts Mov from Comp Persp). Additional prerequisite: Upper-division standing and six semester hours of coursework in history.

**Topic 61: The History of Islam in the United States.** Same as History 350R (Topic 22) and Religious Studies 346U. A brief introduction to Islam. Defines the role of Islam and views of Muslims in the early history of the United States, and introduces students to major issues concerning contemporary American Muslims. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 370 (Topic 61), History 350R (Topic 22), Islamic Studies 372 (Topic 21), Religious Studies 346 (Topic 10), 346U. Additional prerequisite: Upper-division standing and six semester hours of coursework in history.

**Topic 62: Coastal Communities in Early America.** Same as History 350R (Topic 1). Only one of the following may be counted: American Studies 370 (Topic: Coastal Commun in Early Amer), 370 (Topic 62), History 350R (Topic 1). Additional prerequisite: Upper-division standing and six semester hours of coursework in history.

**Topic 63: Wealth and Poverty in the United States.** Analyze the categories of "wealth" and "poverty." Investigate both how wealth has historically been created, and also how wealth and poverty have been depicted in American history. American Studies 370 (Topic: Wealth and Poverty in US) and 370 (Topic 63) may not both be counted.

**Topic 64: Global Cities in the United States.** Same as Urban Studies 324G. Engage with the history of the global city at various levels, using text from disciplines including history, geography, anthropology, and sociology, as well as primary sources, images, readings, and films. Define the global city in the past and present and explore questions of race, class, gender, the politics of space, the culture of empire, and the changing shape of U.S. capitalism. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 370 (Topic: Global Cities in the U.S.), 370 (Topic 64), Urban Studies 324G. Additional prerequisite: Upper-division standing.

**Topic 65: Energy and United States Capitalism.** Explore the intersecting histories of capitalism and energy in the U.S. in the twentieth century. Examine scholarly secondary literature as well as primary documents, literature, film, and photographs. American Studies 370 (Topic: Energy and US Capitalism) and 370 (Topic 65) may not both be counted.

**Topic 66: Art and Data in the Digital Age.** Investigate what shapes data and bodies take in digital environments. Ask how computing cultures and networks have been shaped by data and bodies. American Studies 370 (Topic: Art/Data in the Digital Age) and 370 (Topic 66) may not both be counted.

**Topic 67: Tejana Cultural Studies.** Same as Mexican American Studies 337I and Women's and Gender Studies 340. Investigate the history of Tejanas to reaffirm and reclaim their place and role in the histories of Native Americans, women, Chicanas, Greater Mexico, and the United States. Explore how transborderism and transregionalism complicate this history. Contemplate how Tejanas' stories are fundamental to illuminating the struggles, resistance, and liberation of Chicanas, mestizas, and aframericanas from precontact to decolonization. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 370 (Topic: Tejana Cultural Studies), 370 (Topic 67), Mexican American Studies 337I, 374 (Topic: Tejana Cultural Studies), Women's and Gender Studies 340 (Topic: Tejana Cultural Studies), 340 (Topic 97). Additional prerequisite: Upper-division standing.

**Topic 68: United States Masculinities.** Same as Women's and Gender Studies 335 (Topic 24). Only one of the following may be counted: American Studies 370 (Topic: US Masculinities), 370 (Topic 68), Women's and Gender Studies 335 (Topic: US Masculinities), 335 (Topic 24).

**Topic 69: Preserving Austin's Queer History.** Same as History 350R (Topic 43) and Women's and Gender Studies 335 (Topic 21). Explore Austin's queer history since World War II and write on the practice of oral history and LGBTQ oral history in particular. Build the foundation for an ongoing Austin LGBTQ Oral History Project to be housed at the Briscoe Center for American History. Only one of the following may be counted: American Studies 370 (Topic: Preserving ATX Queer Hist), 370 (Topic 69), History 350R (Topic 43), Women's and Gender Studies 335 (Topic 21). Additional prerequisite: Upper-division standing.

**Topic 70: Theorizing the Human.** Same as Asian American Studies 320K and Women's and Gender Studies 340 (Topic 77). Trace the continuities and transformations in constructions of populations as more or less human, from settler-colonial conquest to the post-Trump...
era. Examine what logics mark racialized populations as disposable during the colonization of the Americas, and which systematically condition racialized subjects to a state of enduring siege. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 370 (Topic: On the Human), 370 (Topic 70), Asian American Studies 320K, Women's and Gender Studies 340 (Topic 77). Additional prerequisite: Upper-division standing.

Topic 71: Latinidades: Art and Performance. Same as Mexican American Studies 323E. Contextualize and analyze diverse forms of Latin/o/x artistic expression, including visual art, music, dance, theatre, and film, or “Latinidades”. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 370 (Topic: Latinidades: Art/Performance), 370 (Topic 71), Mexican American Studies 323E. Additional prerequisite: Upper-division standing.

Topic 72: Technologies of United States Empire. Same as African and African Diaspora Studies 352N and Women's and Gender Studies 340 (Topic 85). Investigate the various technologies that the United States has used to maintain imperial geographies at “home” and abroad. Focus on imperial entanglements of global capital, liberalism, and technological systems. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 352N, American Studies 370 (Topic: Technologies of US Empire), 370 (Topic 72), Women's and Gender Studies 340 (Topic 85). Additional prerequisite: Upper-division standing.

Topic 73: Religion and Animals. Same as Religious Studies 375S (Topic 10). Explore how religious practitioners have imagined and interacted with animals, as well as how contemporary sustainability projects draw on and depart from these historic practices. Focused on North America, explore animals as featured in written and oral sacred stories, as well as engagement with animals in food production, land occupation, and ritual. American Studies 370 (Topic 73) and Religious Studies 375S (Topic 10) may not both be counted. Additional prerequisite: At least six semester hours of coursework in religious studies.

Topic 75: Native American Women's History. Same as History 365G (Topic 20), Mexican American Studies 320G, and Women's and Gender Studies 340 (Topic 98). Investigate the histories of Native American women to reaffirm and reclaim their place and role in the histories of Native Americans, indigenous peoples, women, Chicana@/xs, Greater Mexico, and the United States. Contemplate how many understandings that center colonization, settler colonialism, genocide, race, and environmentalism are essential to examining Native American women's history. Explore the stories, struggles, and ideas of community-building, sovereignty, and liberation as integral to their genders and sexualities as Native American, Indian, First Nations, indigenous, and red and brown women. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 370 (Topic 75), History 365G (Topic: Native Amer Women's History), 365G (Topic 20), Mexican American Studies 320G, 374 (Topic: Native Amer Women's History), Women's and Gender Studies 340 (Topic 98). Additional prerequisite: Upper-division standing.

Topic 76: Black Horror and Psychoanalysis. Same as African and African Diaspora Studies 331F and English 342P. Explore the intersection of race, horror aesthetics, and psychoanalytic theory. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 331F, 370 (Topic: Black Horror/Psychoanalysis), American Studies 370 (Topic 76), English 342P. Additional prerequisite: Upper-division standing.

Topic 80: Displacement and Resistance. Same as African and African Diaspora Studies 352P, Anthropology 326T, and Women's and Gender Studies 345Q. Explore technologies of displacement, as well as tactics, digital media work, mapping projects, and activism that communities engage with to resist dispossession. Examine, locally and globally, the displacement and resistance effects of various events including infrastructure projects and gentrification. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 360N, American Studies 370 (Topic: Tech Of Displcmt/Resistnce), 370 (Topic 80), Anthropology 326T, Women's and Gender Studies 345Q. Additional prerequisite: Upper-division standing.

AMS 371C. Food in the Racialized City. Same as African and African Diaspora Studies 352P and Geography 321F. Explore a variety of issues related to producing, accessing, and consuming food in city spaces in the context of racial inequities. Investigate and question constructs such as "food" and "city" as means of exploring different points of view and approaches to studying not only food and cities but also various approaches to food justice. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 352P, 370 (Topic: Food in the Racialized City), American Studies 371C, Geography 321F. Additional prerequisite: Upper-division standing.

AMS 371D. Black Geographies. Same as African and African Diaspora Studies 352Q, Anthropology 3230, and Geography 328F. Explore the relationship between Blackness and the production of space and place. Examine the tensions and possibilities that emerge when Black people are rendered un-geographic as a fundamental component of racial capitalism while they are simultaneously creating spaces of freedom under constant threats to Black life. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 352Q, 370 (Topic: Black Geographies), American Studies 371D, Anthropology 3230, Geography 328F. Prerequisite: Upper-division standing.

AMS 372. Conference Course. Supervised individual study of selected subjects in American studies. Conference course. May be repeated for credit. Prerequisite: Upper-division standing and consent of instructor.

AMS 373I. Race, Gender, Sex, and Religion. Same as African and African Diaspora Studies 352M, Religious Studies 373I, and Women's and Gender Studies 335 (Topic 28). Use an intersectional feminist framework to examine the construction and maintenance of normative categories of race, gender, sex, and sexuality within United States religious discourse. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 352M, American Studies 373I, Religious Studies 361 (Topic: Race, Gender, Sex, Religion), 373I, Women's and Gender Studies 335 (Topic 28). Prerequisite: Upper-division standing.

AMS 374C. Contemporary Latinx Visual and Performance Art. Same as Art History 341D, Mexican American Studies 323D, and Women's and Gender Studies 340 (Topic 1). Explore contemporary visual and performance art by Latinx artists working since the 1970’s to the present. Examine artists who began to engage with and in civil rights discourse to intervene through their art-making practices; and to align with contemporary trends in the art world that began to expand in the 1970’s such as performance art, installation art, video art, and, later, digital art. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 374C, Art History 341D, 361
Research on selected topics in American studies. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

AMS 391. Reading or Research Seminar in American Studies.
Reading or research seminar on topics relevant to American studies. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

Individual directed readings and conferences on selected problems or topics in American studies. Conference course. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of the graduate adviser.

AMS 393. Introductory Readings in American Studies.
Seminar designed to acquaint the graduate student with the nature and extent of materials for interdisciplinary research on American culture. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

AMS 394. Sources and Methods in American Studies.
Seminar designed to acquaint the graduate student with key sources and methodologies for interdisciplinary research on American culture. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

AMS 196, 396. Internship in American Studies.
Restricted to American studies majors. Practical working involvement with participating nonprofit and research agencies. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester; hours to be arranged. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of the graduate adviser.

AMS 698. Thesis.
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in American studies and consent of the graduate adviser; for 698B, American Studies 698A.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses

ANS - Asian Studies

Lower-Division Courses

ANS 301M. Introductory Topics in Asian Studies.
Discussion of various problems involving language, history, and culture in Asia. Three lecture hours a week for one semester; additional hours may be required for some topics. May be repeated for credit when the topics vary.

Topic 3: History of East Asia to 1800. Same as History 305K. A survey of the traditional history and culture of China, Japan, Korea, and Vietnam.
Topic 4: History of East Asia since 1800. Same as History 305L. A survey of the modern history of China, Japan, Korea, and Vietnam.
Topic 11: Introduction to Buddhism. Same as Religious Studies 312C. A structural and historical overview of Buddhism through the examination of various schools, doctrines, biographical narratives, and contemporary ethical issues. Only one of the following may be counted: Asian Studies 301M (Topic 11), Religious Studies 312 (Topic: Introduction to Buddhism), 312C.
Topic 13: Forbidden Romance in Modern Chinese Literature. Same as Comparative Literature 305 (Topic 1). Introduction to modern Chinese literature from the late Qing Dynasty (latter half of the nineteenth century) to the present. Only one of the following may be counted: Asian Studies 301M (Topic: Forbidden Romance in Modern Chinese Literature), 301M (Topic 13), Comparative Literature 305 (Topic: Forbidden Romance in Modern Chinese Literature), 305 (Topic 1).
Topic 14: East Asian Martial Arts Films. Explores the concept of "East Asian" from the cinematic perspective, focusing on the martial arts film genre. Additional hours required for film screenings. Asian Studies 301M (Topic: Everybody is Kung Fu Fighting) and 301M (Topic 14) may not both be counted.
Topic 15: Introduction to Islam. Same as History 306N (Topic 7), Middle Eastern Studies 310D, and Religious Studies 319. The beliefs, theology, history, and main social and legal institutions of Islam, including the concept of God and society, the role of women, and Islamic government and movements. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Only
one of the following may be counted: Asian Studies 301M (Topic 15), History 306N (Topic 7), Islamic Studies 310, Middle Eastern Studies 310D, Religious Studies 319.

**Topic 16: Introduction to Japanese Film.** Broad survey of Japanese cinema, including silent films, feature films, documentaries, and anime, that covers the basic history of Japanese cinema. Background in Japanese not required, all films are subtitled in English. Additional hours may be required for film/media screenings. Asian Studies 301M (Topic: Introduction to Japanese Film) and 301M (Topic 16) may not both be counted.

**Topic 17: Introduction to Politics in East Asia.** Same as Government 314 (Topic 11). Introduction to politics and political systems of Japan, China, Taiwan, North Korea, and South Korea. Only one of the following may be counted: Asian Studies 301M, Core Texts and Ideas 304 (Topic: History of Religions of Asia), 306D, 310 (Topic: History of Religions of Asia), Religious Studies 302.

**ANS 301R. History of the Religions of Asia.**
Same as Core Texts and Ideas 306D and Religious Studies 302.
Eastern religions: an introduction to the basic forms and the historical development of the religious traditions of India, China, and Japan. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 301R, Core Texts and Ideas 304 (Topic: History of Religions of Asia), 306D, 310 (Topic: History of Religions of Asia), Religious Studies 302.

**ANS 302C. Introduction to China.**
Same as History 302C. Introduction to Chinese civilization, past and present, including religion, literature, arts, philosophy, and history. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 302C, History 302C, 306N (Topic: Introduction to China).

**ANS 302D. Introduction to Korean Culture and History.**
Introduction to Korea's history, culture, and civilization from antiquity to the present. Three lecture hours a week for one semester. Asian Studies 301M (Topic 10) and 302D may not both be counted.

**ANS 302E. Female Voices in China.**
Same as History 302F and Women's and Gender Studies 301 (Topic 33). Introduction (in translation) to the most important texts and other sources by, for, and about women in Chinese intellectual, political, social, and cultural history. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 301M (Topic: Female Voices in China), 302E, History 302F, Women's and Gender Studies 301 (Topic 33).

**ANS 302J. Introduction to Japan.**
Introduction to Japanese civilization, past and present, including religion, literature, arts, philosophy, and history. Three lecture hours a week for one semester.

**ANS 302K. Introduction to South Asia.**
Same as Anthropology 310L (Topic 5: Introduction to India). Introduction to Indian and South Asian civilization, past and present, including religion, literature, arts, philosophy, and history. Only one of the following may be counted: Anthropology 310L (Topic 5), Asian Studies 302K, History 306N (Topic: Introduction to India).

**ANS 304C. Popular Culture in Modern Japan.**
Same as History 302P. Introduction to the history of popular culture in modern Japan focusing on works of literature, film, and visual culture. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 301M (Topic: Pop Culture in Modern Japan), 304C, History 302P.

**ANS 307C. Introduction to the History of India.**
Same as History 307C. Survey of the history of the Indian subcontinent from prehistoric times to the present. Three lecture hours a week for one semester.

**ANS 307D. Yoga Past and Present.**
Same as Religious Studies 312E. Survey yogic practices in South Asian civilization and trace the development of yogic thought and embodied practices in Hindu, Buddhist, and tantric traditions from early history to the modern-day's social and legal complexities and controversies. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 301M (Topic: Yoga Past and Present), 307D, Religious Studies 312E.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Asian Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**Upper-Division Courses**

**ANS 320C. Genji to Godzilla: Adaptations of the Japanese Classics.**
Examine how premodern, modern, and contemporary classics of Japanese literature, film, and theater get adapted over the centuries, and how culture, politics, gender, genre, and medium influence the adaptation process. Three lecture hours a week for one semester. Asian Studies 320 (Topic 2) and 320C may not both be counted. Prerequisite: Upper-division standing.

**ANS 320D. Classical Indian Literature in Translation.**
Explore narrative literature and poetry composed in the three classical languages of India (Old Tamil, Sanskrit, and Prakrit). Three lecture hours a week for one semester. Asian Studies 320 (Topic: Classical Indian Literature) and 320D cannot both be counted. Prerequisite: Upper-division standing.

**ANS 320E. Myth, Legend, and Folklore in China.**
Introduction (in translation) to a selection of the most important myths, legends, and folktales in China's various storytelling traditions. Three lecture hours a week for one semester. Asian Studies 320E and 361 (Topic: Myth/Legend/Folklore China) may not both be counted. Prerequisite: Upper-division standing.

**ANS 320F. Classical Chinese Philosophy.**
Same as Philosophy 348C. Introduction (in translation) to thinkers, texts, and ideas from the golden age of Classical Chinese philosophy (circa sixth-second centuries BCE), including how to apply their teachings to current sociopolitical issues. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 320F, 361 (Topic: Clascl Chi Phil Contemp Times), Philosophy 348C. Prerequisite: Upper-division standing.

**ANS 320G. Chinese Language Cinemas from People's Republic of China and Taiwan.**
Survey contemporary Chinese language cinemas from Taiwan and the People's Republic of China. Three lecture hours a week for one semester.
Asian Studies 320G and 361 (Topic: Chi Lang Cinemas PRC/Taiwan) may not both be counted. Prerequisite: Upper-division standing.

**ANS 321C. Representing Disaster in Japan.**
Same as Comparative Literature 323D. Explore a range of human-made conflicts and natural disasters in Japan from earliest times to the present through literature, film, and new media to consider questions of history, representation, and mourning and memorialization. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 321C, 361 (Topic: Representing Disaster in Jpn), Comparative Literature 323D. Prerequisite: Upper-division standing.

**ANS 321D. The Environment and East Asia.**
Same as Comparative Literature 323E. Examine the relationship between humans and the environment through the literature, film, and media of East Asia. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 321D, 361 (Topic: Environment in East Asia), Comparative Literature 323E. Prerequisite: Upper-division standing.

**ANS 321M. Politics in Japan.**
Same as Government 321M. Survey of postwar Japanese politics; the occupation, governmental institutions, interest groups, protest movements, industrial policy, the government-business relationship, and political and economic reform. Three lecture hours a week for one semester. Asian Studies 321M and Government 321M may not both be counted. Prerequisite: Six semester hours of lower-division coursework in government.

**ANS 322M. Politics in China.**
Same as Government 322M. Survey of twentieth-century China: historical trends; 1911 revolution; Warlord-Nationalist period; Communist revolution; post-1949 issues; new social and political institutions. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 322M, 361 (Topic: Politics in China), Government 322M. Prerequisite: Six semester hours of lower-division coursework in government.

**ANS 325D. Greater China and United States Economic Relations.**
Same as Asian American Studies 3250. Explore contemporary interconnections between the United States and Greater China. Examine economic frameworks (for example, state-led, market-led, mixed, etc.); the economies of the PRC including Hong Kong as well as Taiwan and the Chinese diaspora; and linkages such as investments, supply chains, tech transfer, non-profit cooperation, and the globalized workforce. Three lecture hours a week for one semester. Asian American Studies 3250 and Asian Studies 325D may not both be counted. Prerequisite: Upper-division standing.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Asian Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**ANS 330C. Anthropology of Travel and Tourism.**
Same as Anthropology 322U. Use the tools of cultural anthropology to understand the touristic encounter and the increasing (and decreasing) accessibility of travel and mobility. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 330C, 361 (Topic: Anthropology of Travel), Anthropology 322U. Prerequisite: Upper-division standing.

**ANS 335. Animals in Asia.**
Same as Comparative Literature 323F. Focus on how historical and modern-day philosophy, religious texts, and legal systems in South and East Asia provide the framework for probing the human-animal encounter and the tensions that arise due to human-animal interdependence. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 335, 361 (Topic: Animals in Asia), Comparative Literature 323F. Prerequisite: Upper-division standing.

**ANS 338L. East Asian International Relations.**
Same as Government 338L. Survey of Russian/Soviet, Japanese, Chinese, and American foreign policies of the twentieth century, emphasizing Pacific-region interests; historical policies; intermittent conflicts, such as China versus Japan, Korean War, Indochina Wars; China's emergence as a nuclear power. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 338L, 361 (Topic: East Asian International Relations), Government 338L. Prerequisite: Upper-division standing and six semester hours of lower-division coursework in government.

**ANS 340C. Japanese Religion and Western Imagination.**
Same as Anthropology 342D and Religious Studies 352D. Examines Japanese religious traditions, with a focus on Zen, through the perspective of people living in non-Japanese societies since the end of World War II. Explores different ways in which non-Japanese have imagined Japanese religious and ethical ideas and both explained Japanese behavior and adopted ideas about Japan into their writings about philosophy and life. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 340 (Topic: Japanese Religion and Western Imagination), 340C, Anthropology 342D, 324L (Topic: Japanese Religion and Western Imagination), Religious Studies 352 (Topic: Japanese Religion and Western Imagination), 352D. Prerequisite: Upper-division standing.

**ANS 340D. History of Hindu Religious Traditions.**
Same as Anthropology 322N, History 364C, and Religious Studies 321. History of major doctrines, practices, and institutions that shaped the development of Hinduism; how religions adapt to social and cultural change and often provide the catalyst for change. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322N, 324L (Topic 23), Asian Studies 340 (Topic 4), 340D, History 364C, 364G (Topic 1), Religious Studies 321. Prerequisite: Upper-division standing.

**ANS 340E. History of Indian Buddhism.**
Same as Religious Studies 322. The institutional, social, economic, and doctrinal history of Buddhism in India. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 340 (Topic 5), 340E, Religious Studies 322. Prerequisite: Upper-division standing.

**ANS 340F. Goddesses in World Religions and Cultures.**
Same as Anthropology 322J, Religious Studies 373G, and Women's and Gender Studies 340 (Topic 30). Historical and cross-cultural overview of the relationship between feminine and religious cultural expressions through comparative examinations and analyses of various goddess figures in world religions. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322J, 324L (Topic: Goddesses in World Religions and Cultures), Asian Studies 340

Same as Religious Studies 352R. Examine major religious traditions of Korea; focus on the recent history and contemporary practice, and the relation between religion and politics during Korea's colonial (1910-1945) and postcolonial eras. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Ritual and Religion in Korea), Asian Studies 340 (Topic 10), 340G, Religious Studies 352 (Topic 4), 352R. Prerequisite: Upper-division standing.

ANS 340I. Saints and Shrines in Islam.
Same as Religious Studies 358S. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 340 (Topic: Saints & Shrines In Islam), 340 (Topic 23), 340I, Religious Studies 358 (Topic 23), 358S. Prerequisite: Upper-division standing.

ANS 340J. Jainism: Religion of Non-Violence.
Same as Religious Studies 341F. Survey of the history, doctrines, institutions, and practices of Jainism from its origins to the present. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 340 (Topic: Jainism: Relig of Non-Violence), 340J, Religious Studies 341 (Topic: Jainism: Relig of Non-Violence), 341F. Prerequisite: Upper-division standing.

Same as History 340L. Examines in a historical context the Chinese economy, society, politics, and culture during the reform era that began in the late 1970s. Explores the transformation of rural and urban economies and related social consequences; government systems, political ideologies, and popular values; and China's integration into the global system and its impact on China's role in world politics. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 340L, 361 (Topic: Post-Mao China: Change and Transformation), History 340L, 364G (Topic: Post-Mao China: Change and Transformation). Prerequisite: Upper-division standing.

ANS 340M. Modern China.
Same as History 340M. History of China from the intrusion of the West circa 1500 to the Communist revolution. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

ANS 340P. European Expansion in Asia.
Same as History 340P. European exploration, the commerce of the East India Companies, and the beginnings of empire in South and Southeast Asia from the fifteenth to the early nineteenth century. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

ANS 340Q. Sufism: Islamic Thought and Spirituality.

ANS 340R. European Empires in Asia.
Same as History 340R. The British in India and Malaya, the Dutch in Indonesia, and the French in Indochina since 1800. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

Same as Asian American Studies 325D and History 340S. History of the Chinese in the United States from their first arrival in significant numbers during the California Gold Rush of the mid-nineteenth century to the present. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 325 (Topic: Chinese in the United States), 325 (Topic 3), 325D, Asian Studies 340S, History 340S. Prerequisite: Upper-division standing.

ANS 340T. Taiwan: Colonization, Migration, and Identity.
Same as Asian American Studies 325E and History 340T. Explores issues of ethnicity, empire, and modernization in East Asia from the sixteenth century to the present, as seen through encounters between Taiwan and aborigines, Han Chinese, Dutch, Portuguese, the imperial Qing, Japanese, mainland Chinese Nationalist Party (KMT), and the United States. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 325 (Topic 4), 325E, Asian Studies 340T, History 340T. Prerequisite: Upper-division standing.

ANS 340U. Devotional Literature of India.
Same as Religious Studies 341U. Discuss the songs of major saints. Examine how holy men and women expressed their religiosity through the medium of songs and poetry over the centuries and consider the role these songs had in shaping the religious communities of India. All works will be studied in translation. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 340 (Topic: Devotional Lit Of India), 340U, Religious Studies 341 (Topic: Devotional Lit Of India), 341U. Prerequisite: Upper-division standing.

ANS 340V. Religions in Contact.
Same as Religious Studies 373N. Critically examine the theories (religious othering, conversion, reinterpretation, appropriation, etc.) of how one religion responds to contact with another. Explore the ways in which religious actors grapple with religious plurality, draw or ignore boundaries, and form religious identities. Three lecture hours a week for one semester. Only one of the following my be counted: Asian Studies 340 (Topic: Religions in Contact), 340V, Religious Studies 373 (Topic: Religions in Contact), 373N. Prerequisite: Upper-division standing.

ANS 340W. Shia Islam.
Same as Religious Studies 359E. Examine how the first century of Islamic history inaugurated debates concerning authority, piety, and justice and how these debates have continued to the present. Explore the social forces and ideologies that shaped Shiism. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 340 (Topic: Shia Islam), 340W, Islamic Studies 340 (Topic: Shia Islam), 340 (Topic 8), Religious Studies 358 (Topic: Shia Islam). 359E. Prerequisite: Upper-division standing.

ANS 341C. Piracy in East Asia.
Same as History 368C. Examine how pirates helped bind East Asia together into an integrated zone of economic and cultural exchange. Explore how they formed the leading edge of early modern globalization and linking diverse economies and societies together. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 341C, History 350L (topic: Piracy in East Asia), 368C. Prerequisite: Upper-division standing.
Same as History 341K. Japan to the beginnings of the Industrial Revolution, with a focus on the culminating age of samurai rule, the Tokugawa period (1600-1867). Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

ANS 341M. Imperial Japan.
Same as History 341M. Japan from the Meiji transformation through war, defeat, and occupation. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

ANS 341N. Postwar Japan.
Same as History 342C. Japan since the war and occupation. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

ANS 341P. Shamanism and the Primitive.

ANS 342D. Political Economy of Japan.
Same as History 342D. Historical development of the Japanese economy since early modern times. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

ANS 343C. Gender and Translation in the Arab World.
Same as African and African Diaspora Studies 325D and Middle Eastern Studies 342 (Topic 81). Examine complex politics and poetics behind the translation and marketing of Arab women's writing in the West. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 325D, Asian Studies 343C, Middle Eastern Studies 342 (Topic: Gndr and Trnsltn/ and Arab World), 342 (Topic 81). Prerequisite: Upper-division standing.

ANS 343D. Muslim Travelers and Traders.
Same as History 343D, Middle Eastern Studies 343 (Topic 23), and Religious Studies 343D. Introduction to modern Middle Eastern and Islamic history in the broader context of globalization, with a primary focus on the nineteenth century to the present. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 343D, History 343D, 366N (Topic: Muslim Travelers and Traders), Middle Eastern Studies 343 (Topic: Muslim Travelers and Traders), 343 (Topic 23), Religious Studies 343D. Prerequisite: Upper-division standing.

ANS 343E. Cultures of Revolution in the Middle East.
Same as Government 366R, History 334G, and Middle Eastern Studies 342 (Topic 80). Examine the cultural production that surrounds key moments of political and social change in the Middle East. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 343E, Government 366R, History 334G, Middle Eastern Studies 342 (Topic: Cultures of Revolution), 342 (Topic 80). Prerequisite: Upper-division standing.

ANS 346C. Ancient India.
Same as History 346C. History and culture of South Asia from its protohistoric beginnings in the Indus Valley through the period of the early empires of the Mauryas and Guptas. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

ANS 346D. Medieval India.
Same as History 346D. History and culture of South Asia from approximately 500 to 1500, with emphasis on religious and political institutions and the emergence of regional cultures. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

ANS 346E. Partition of India in History and Memory.
Same as Government 367C and History 367J. Discover the experiences and memories of many different groups affected by the Partition of British India in 1947 while tracing the effects of the Partition until the present. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 346E, 361 (Topic: Partition of India Hist/Lit), 379 (Topic 15), Government 367C, History 350L (Topic: Partition of India Hist/Lit), 350L (Topic 98), 367J, Islamic Studies 372 (Topic: Partition of India Hist/Lit). Prerequisite: Upper-division standing.

ANS 346M. Early Modern India.
Same as History 346M. The history and culture of South Asia from approximately 1500 to 1750. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 346M, History 346M, Religious Studies 341 (Topic 6). Prerequisite: Upper-division standing.

ANS 346N. The Indian Subcontinent, 1750-1950.
Same as History 346N. Examines the cultural and political movements and events that led to formation of the two nation-states India and Pakistan. Three lecture hours a week for one semester. Asian Studies 346N and History 346N may not both be counted. Prerequisite: Upper-division standing.

ANS 347K. Governments and Politics of South Asia.
Same as Government 347K. A survey of political developments, governmental organization, and economic and social problems in South Asia. Three lecture hours a week for one semester. Prerequisite: Six semester hours of lower-division coursework in government.

ANS 361. Topics in Asian Studies.
Selected topics in south and east Asian anthropology, economics, history, geography, government, and sociology. Three lecture hours a week for one semester; additional hours may be required for some topics. Asian Studies 320 and 361 may not both be counted unless the topics vary. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing; additional prerequisites vary with the topic.

Topic 5: Cultures of Southeast Asia. Asian Studies 361 (Topic 5) is same as Anthropology 324L (Topic 8: Cultures of Southeast Asia). Comparative study of the peoples of Indonesia, Burma, Thailand, Malaysia, and other countries. Additional prerequisite: Upper-division standing.

Topic 6: Gandhi and Gandhism. Same as History 350L (Topic 5) and Religious Studies 341C. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic 6), History 350L (Topic 5), Religious Studies 341 (Topic 5), 341C. Additional prerequisite: Upper-division standing.

Topic 11: Musics of India. Asian Studies 361 (Topic 11) is same as Anthropology 324L (Topic 13: Musics of India) and Music 342 (Topic 3: Musics of India). Prerequisite: Upper-division standing.

Topic 22: Japanese Foreign Policy. Same as Government 365C. An introduction to the foreign and domestic determinants of Japanese foreign policy. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic 22), Government 365C, 365L (Topic 2). Additional prerequisite: Upper-division standing and six semester hours of lower-division coursework in government.
Topic 23: International Relations of East and Southeast Asia. Same as Government 365D. An introduction to the international relations of East and Southeast Asia, with particular attention to postwar economic and security issues, the changing political landscape of the post-Cold War period, and the development and functions of regional institutions. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic 23), Government 365D, 365L (Topic 3). Additional prerequisite: Upper-division standing and six semester hours of lower-division coursework in government.

Topic 24: The Two Koreas and the United States. Same as Asian American Studies 325F. The political, social, and cultural relationship between North and South Korea, and between the Koreas and the United States, since 1945. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: The Two Koreas and the US), Asian American Studies 325 (Topic: The Two Koreas and the US), 325 (Topic 7), 325F; Asian Studies 361 (Topic 24), Government 360N (Topic: The Two Koreas and the US), History 364G (Topic: The Two Koreas and the US). Additional prerequisite: Upper-division standing

Topic 25: Capitalism, Consumption, and Civil Society in Korea. Contemporary social and political life in urban South Korea, including such topics as corporations, factory work, consumption, activism, popular culture, and changing gender systems and roles. Anthropology 324L (Topic: Capitalism, Consumption, and Civil Society in Korea) and Asian Studies 361 (Topic 25) may not both be counted.

Topic 28: The Chinese in Diaspora. Same as Asian American Studies 325C and History 350L (Topic 65). Explores narratives of migration, race, ethnicity, and a wide range of experiences of acculturation and assimilation from the perspective of a sending society—China—which has one of the longest and most diverse histories of sending people overseas. Over the last millennia, Chinese have migrated around the world and made homes under a great range of adversity and opportunity, producing many stories of human differences and commonalities. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 325 (Topic 2), 325C, Asian Studies 361 (Topic 28), History 350L (Topic 65). Additional prerequisite: Upper-division standing.

Topic 29: Biomedicine, Ethics, and Culture. Same as Anthropology 323N and Religious Studies 373M. Examines ethical questions such as the allocation of medical resources, stem cell research and cloning, organ transplantation, abortion, human experimentation, prolonging life and the right to die, suicide, euthanasia, and diagnosis and treatment of illnesses, explored from a global perspective. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 323N, 324L (Topic: Biomedicine, Ethics, & Culture), Asian Studies 361 (Topic: Biomedicine, Ethics, & Culture), 361 (Topic 29), Religious Studies 373 (Topic: Biomedicine, Ethics, & Culture), 373M. Additional prerequisite: Upper-division standing.

Topic 30: Why Chinese Has No Alphabet. Same as Linguistics 350E. Introduction to the history and evolution of the Chinese writing system and language. No background in Chinese language, culture, or linguistics is required. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic 30), Linguistics 350 (Topic: Why Chinese Has No Alphabet), 350E. Additional prerequisite: Upper-division standing.

Topic 31: Global Markets and Local Cultures. Same as Anthropology 324L (Topic 49). Examines contemporary theories of globalization, including materials exploring global governance, international monetary policy, migration regulation, offshoring, and cultural hybridity. Focuses on case studies in Asia and elsewhere that reveal how these practices impact particular communities. Only one of the following may be counted: Anthropology 324L (Topic: Global Markets and Local Cultures), 324L (Topic 49), Asian Studies 361 (Topic 31), 372 (Topic: Global Markets and Local Cultures), 372 (Topic 26). Additional prerequisite: Upper-division standing.

Topic 32: The History of Chinese Language and Translation. In-depth study of the Chinese language and culture focusing on the cultural, social, historical, and political background against which the Chinese language has evolved and continues to evolve. Asian Studies 361 (Topic: Lost in Translation: Chinese Language and Literature) and 361 (Topic 32) may not both be counted. Additional prerequisite: Upper-division standing.

Topic 33: Mughal India in History and Memory. Same as History 350L (Topic 67). Focuses on South Asia during the era of the Mughal empire (1550-1750), continuing through the symbolic relevance of the Mughal dynasty in British India and in India today. Only one of the following may be counted: Asian Studies 361 (Topic 33), History 350L (Topic 67), Islamic Studies 372 (Topic 20).

Topic 34: Modernization in East Asia. Same as History 364R. Examines the different historical experiences of mainland China and Taiwan in the context of the East Asian model of development. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic 34), History 364G (Topic 8), 364R. Additional prerequisite: Upper-division standing.

Topic 36: Political Economy of Asia. Same as Government 365E. Explores the political economies of East Asia with an emphasis on Japan, China, South Korea, and Taiwan. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic: Political Economy of Asia), 361 (Topic 36), Government 365E, 365L (Topic: Political Economy of Asia), 365L (Topic 4). Additional prerequisite: Upper-division standing and six semester hours of lower-division coursework in government.

Topic 37: Religion and Family in Japanese Society. Same as Anthropology 328F and Religious Studies 352F. Explores the structures of family kinship, and religion in Japan since 1868 and their roles in the creation and expression of national and individual identities. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 328F, Asian Studies 361 (Topic 38), Religious Studies 352 (Topic 9), 352F. Additional prerequisite: Upper-division standing.

Topic 40: Asian Regionalism and Multilateral Cooperation. Same as Government 365F. Addresses the nature, functional principles, leadership, and policy-making process of contemporary Asian regionalism in comparison to the experiences of European integration. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic: Asian Regionalism and Multilateral Cooperation), 361 (Topic 40), Government 365F, 365L (Topic: Asian Regionalism and Multilateral Cooperation), 365L (Topic 5). Additional prerequisite: Upper-division standing and six semester hours of lower-division coursework in government.

Topic 41: Uprising in India-1857. Same as History 350L (Topic 92). Introduces the problems faced with the uprising of 1857 in India, the most violent and widespread attempt ever made to destroy the British empire in South Asia. Only one of the following may be counted: Asian Studies 361 (Topic: Uprising in India-1857), 361 (Topic 41), History 350L (Topic: Uprising in India-1857), 350L (Topic 92).

Topic 43: Slavery and South Asian History. Same as History 367F. Discuss the presence of slavery in the subcontinent in the third
century BCE to the twentieth century. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic: Slavery and South Asian History), 361 (Topic 43), History 364G (Topic: Slavery and South Asian History), 364G (Topic 16), 367F. Additional prerequisite: Upper-division standing.

**Topic 44: Gender and Modern India.** Same as History 367D and Women's and Gender Studies 340 (Topic 75). Examines gender and the shifting nature of modernity between precolonial and colonial periods in the Indian subcontinent. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic: Gender and Modern India), 361 (Topic 44), History 364G (Topic: Gender and Modern India), 364G (Topic 13), 367D, Women's and Gender Studies 340 (Topic: Gender and Modern India), 340 (Topic 75). Additional prerequisite: Upper-division standing.

**Topic 45: Business and Society in South Asia.** Same as History 367C. Introduction to the long history of commerce and enterprise in the Indian sub-continent up to the present. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic 46), History 364G (Topic 12), 367C. Additional prerequisite: Upper-division standing.

**Topic 49: Development And Its Critics.** Same as Anthropology 324L (Topic 31). Only one of the following may be counted: Anthropology 324L (Topic: Development And Its Critics), 324L (Topic 31), Asian Studies 361 (Topic: Development And Its Critics), 361 (Topic 49). Additional prerequisite: Upper-division standing.

**ANS 361C. Political Economy of Development in Postwar Korea.**
Same as Asian American Studies 325M. Explore the political economy of South Korean development during the postwar period. Examine the history, society, and culture of South Korea. Discuss compressed modernity, developmental state, social movements, gender politics, financial crisis, urbanization, migration, and recent globalization of Korean popular culture. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 325 (Topic: Pol Econ Devel Postwar Korea), 325M, Asian Studies 361 (Topic: Pol Econ Devel Postwar Korea), 361C. Prerequisite: Upper-division standing.

**ANS 361D. History of Food and Healing in China and Taiwan.**
Same as History 367Q. Explore the cultural, historical, philosophical, social, and scientific background against which the connection between food and healing has evolved through Chinese history. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic: Hist Food/Heal China Taiwan), 361D, History 364G (Topic: Hist Food/Heal China Taiwan), 367Q. Prerequisite: Upper-division standing.

**ANS 361E. Urban Experiences In East Asia.**
Same as Urban Studies 330F. Explores the process of urbanization in East and Southeast Asia focusing on the politics of capital accumulation and distribution. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic: Urban Experiences In East Asia), 361E. Urban Studies 354 (Topic: Urban Experiences In East Asia), 330F. Prerequisite: Upper-division standing.

**ANS 361F. Ethnic Politics in Taiwan and Asia.**
Same as Government 366J. Explore ethnic politics in Taiwan including some comparison with ethnic politics in neighboring countries. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic: Ethnic Polit in Taiwan/Asia), 361F, Government 365L (Topic: Ethnic Polit in Taiwan/Asia), 366J. Prerequisite: Six semester hours of lower-division coursework in Government.

**ANS 361G. State Building in China and Taiwan.**
Same as Government 365O. Compare and contrast the state building process in mainland China and Taiwan. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic: State Build in China/Taiwan), 361G, Government 365L (Topic: State Build in China/Taiwan), 365O. Prerequisite: Six semester hours of lower-division coursework in Government.

**ANS 361J. Development and Social Movement in East and Southeast Asia.**
Same as Geography 321D. Examine the notions of development and the ways in which development is associated with state building, moral economy, political performance, and accumulation regimes. Explore the development of civil society and social movement in East Asia, and explanations of the mechanisms and drivers of displacement. Conceptualize the "Right to the City", and alternative right-based approaches to land, housing, infrastructure, commons and public resources. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic: Development and Movement), 361J, Geography 321D, 356T (Topic: Development and Movement). Prerequisite: Upper-division standing.

**ANS 361K. The Indian Republic Since 1947.**
Same as History 346P. An overview of Contemporary India, a republic that emerged from the British Empire. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic: Indian Republic 1947-Pres), 361K, History 346P. Prerequisite: Upper-division standing.

**ANS 361L. Global Commodities: Asia and the World.**
Same as History 350L (Topic 97). Explore the vital role of commodities in Asian history with a particular focus on East and Southeast Asia. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic: Global Commodities: Asia and), 361L, History 350L (Topic: Global Commodities: Asia and T), 350L (Topic 97). Prerequisite: Upper-division standing.

**ANS 361M. Big Asian Histories.**
Same as Anthropology 322F and History 340V. Examines ways in which Asia and other areas of the globe have had connected intellectual, artistic, and social developments with focus on world histories centrally involving Asia from the medieval period to the present. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322F, 324L (Topic: Big Asian Histories), Asian Studies 361 (Topic: Big Asian Histories), 361M, History 340V, 364G (Topic: Big Asian Histories). Prerequisite: Upper-division standing.

**ANS 361N. Self and Culture in North Korea.**
Same as Anthropology 322E. Aims to understand North Korea's historical development and its current workings as a social, cultural, and political/ideological system. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322E, 324L (Topic:
Self & Culture In North Korea, Asian Studies 361 (Topic: Self & Culture In North Korea), 361N. Prerequisite: Upper-division standing.

ANS 361P. Africa and Indian Ocean World.

ANS 361Q. The Age of the Samurai.
Same as History 368S. Explore the history of Japan via an examination of the complex and ever-changing figure of the samurai. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361Q, 372 (Topic: The Age of the Samurai), History 364G (Topic: The Age of the Samurai), 368S. Prerequisite: Upper-division standing.

ANS 361R. Transnational Asia: From the Middle East to the Far East.
Same as History 343C and Middle Eastern Studies 343 (Topic 21). Examine how various groups of people understood, experienced, and imagined concepts such as "the East" and "Asia" with a primary focus on the nineteenth and twentieth centuries. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 361 (Topic: Transnational Asia), 361R, History 343C, Middle Eastern Studies 343 (Topic: Transnational Asia), 343 (Topic 21). Prerequisite: Upper-division standing.

Individual instruction for Asian studies majors and nonmajors. Discussion, research, and the writing of papers about various general and specialized Asian subjects. Conference course. May be repeated for credit. Prerequisite: Six semester hours of coursework in Asian studies and written consent of instructor on form obtained from the undergraduate adviser.

Explore themes of modernization, migration, international relations, gender, and labor through literary and cinematic texts about Beijing, Hong Kong, Nanjing, Shanghai, and Taipei. Consider certain historical moments and the notion of Chineseness in an increasingly and culturally deterritorialized world. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 372 (Topic 32), 372D may not both be counted. Prerequisite: Upper-division standing.

ANS 372E. Globalizing East Asian Popular Culture.
Takes the globalization of popular culture as an analytical lens through which to reflect modernity, (trans)nationalism, gender politics, and identity formations in East Asia. Three lecture hours a week for one semester. Asian Studies 372 (Topic: Globalizing E Asian Pop Cult) and 372E may not both be counted. Prerequisite: Upper-division standing.

ANS 372F. Veiling in the Muslim World.
Same as Middle Eastern Languages and Cultures 321 (Topic 22), Religious Studies 358V, and Women's and Gender Studies 340 (Topic 11). Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 372 (Topic 14), 372F, Islamic Studies 372 (Topic 2), Middle Eastern Languages and Cultures 321 (Topic 22), Religious Studies 358 (Topic 5), 358V, Women's and Gender Studies 340 (Topic 11). Prerequisite: Upper-division standing.

ANS 372G. Precolonial India, 1200-1750.
Same as History 346G. Surveys the history of South Asia during the era prior to British colonial rule. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 372 (Topic: Precolonial India, 1200-1750), 372G, History 346G, 364G (Topic: Precolonial India, 1200-1750). Prerequisite: Upper-division standing.

ANS 372J. Women and Gender in China.
Same as History 350L (Topic 46) and Women's and Gender Studies 340 (Topic 18). Examine women and gender in China from imperial times to the present. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 372 (Topic 21), 372J, History 350L (Topic 46), Women's and Gender Studies 340 (Topic 18). Prerequisite: Upper-division standing.

ANS 372K. Gender, Sexuality, and the Family in Indian Religions and Cultures.
Same as Anthropology 322O, Religious Studies 341M, and Women's and Gender Studies 340 (Topic 25). A comprehensive historical overview of gender issues as they are represented in the textual traditions of South Asia. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322O, 324L (Topic 40), Asian Studies 372 (Topic 25), 372K, Religious Studies 341 (Topic 3), 341M, Women's and Gender Studies 340 (Topic 25). Prerequisite: Upper-division standing.

ANS 372L. Confucianism.
Same as Religious Studies 352E. Explore the philosophical and historical context of Confucianism, from its origins in ancient China through the early empire and beyond. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 372 (Topic 32), 372L, Core Text and Ideas 375 (Topic: World of Confucians), Religious Studies 352 (Topic 10), 352E. Prerequisite: Upper-division standing.

ANS 372M. Taiwan: From Coloniality to Postcoloniality.
Examine how Taiwan has transformed itself since the end of Japanese colonialism in 1945 through literature, films, and other cultural products, such as popular music and arts, in postcolonial Taiwan. Three lecture hours a week for one semester. Asian Studies 372 (Topic 37) and 372M may not both be counted. Prerequisite: Upper-division standing.

Same as Anthropology 324L (Topic 69) and Religious Studies 352S. Examination of anthropological literature describing Japanese conceptions of self and body, and analysis of the intersection of these conceptions of self with Japanese ideas about religion, morality, aging, and medicine. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Japanese Concepts of Body and Self), 324L (Topic 69), Asian Studies 372 (Topic 41), 372N, Religious Studies 352 (Topic 8), 352S. Prerequisite: Upper-division standing.

ANS 372P. South Asian Migration to the United States.
Same as Asian American Studies 325J, History 365G (Topic 14), and Women's and Gender Studies 340 (Topic 35). Examines the South Asian diaspora in the United States. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 325 (Topic: South Asian Migration to the United States), 325 (Topic 9), 325J, Asian Studies 372 (Topic: South Asian Migration to the United States), 372 (Topic 43), 372P History 365G (Topic: South Asian Migration to the United States), 365G (Topic 14), Women and Gender Studies 340 (Topic: South Asian Migration to the United States), 340 (Topic 35). Prerequisite: Upper-division standing.
ANS 372Q. Women and Wealth in South Asia.
Same as History 350L (Topic 94) and Women's and Gender Studies 340 (Topic 68). Addresses the questions surrounding poverty of South Asian women by combining legal, political and social histories of the subcontinent over four centuries. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 372 (Topic: Women and Wealth in South Asia), 372 (Topic 47), 372Q, History 350L (Topic: Women and Wealth in South Asia), 350L (Topic 94), Women's and Gender Studies 340 (Topic: Women and Wealth in South Asia), 340 (Topic 68). Prerequisite: Upper-division standing.

Same as Asian American Studies 320J. Examine a wide variety of Japanese popular media within the historical context during which these unique cultural forms developed. Focus on the popular manga and anime Japan has exported since becoming an economic superpower in the 1980s, the utopian/dystopian expression in Japanese sci-fi narratives of this era, and the complex interplay of gender and technology in the new post-human societies these narratives envision. Three lecture hours a week for one semester. Only one of the following may be counted: Asian American Studies 320 (Topic: Jpn Pop Cul:Anime/Manga/Otaku), 320J, Asian Studies 372 (Topic: Jpn Pop Cul:Anime/Manga/Otaku), 372R. Prerequisite: Upper-division standing.

ANS 373C. Decoding Classical Chinese Poetry.
Same as Comparative Literature 323 (Topic 41). Introduction to the classical Chinese poetic tradition from the seventh century B.C.E. through the ninth century C.E., focusing on the literary, cultural, historical, social, political, philosophical, and religious background against which representative works arose. Conducted in English and all readings will be in English translation. Knowledge of the Chinese language is not required. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 372 (Topic 10), 373C, Comparative Literature 323 (Topic 41). Prerequisite: Upper-division standing.

ANS 373D. Popular Literature and Culture in Modern China.
Examine modern Chinese literature and culture in the People's Republic of China, Taiwan, and Hong Kong from the popular culture perspective. Three lecture hours a week for one semester. Asian Studies 372 (Topic 28) and 373D may not both be counted. Prerequisite: Upper-division standing.

ANS 373E. Modern Japanese Literature in Translation.
Conducted in English. Analyze literature written by Japanese authors in the twentieth and twenty-first centuries with attention to a work's content, style, and form, as well as the socio-historical context of its production and reception. Three lecture hours a week for one semester. Asian Studies 372 (Topic 34) and 373E may not both be counted. Prerequisite: Upper-division standing.

ANS 373F. Suicide in Japanese Fiction.
Conducted in English. Examine Japanese literary and visual culture, including poetry, novels, plays, film, and manga, to analyze how artists grapple with themes of suicide in their works and lives in response to personal and national tragedies. Three lecture hours a week for one semester. Asian Studies 372 (Topic 35) and 373F may not both be counted. Prerequisite: Upper-division standing.

ANS 373G. Epics and Heroes of India.
Same as Ancient History and Classical Civilization 330 (Topic 2), Core Texts and Ideas 344, and History 350L (Topic 54). Focus on India's classical epics, the Mahabharata and the Ramayana, with emphasis placed on understanding the epic characters in relation to the heroic traditions of premodern India, as well as on the role of the epics in contemporary Indian political and religious culture. Three lecture hours a week for one semester. Only one of the following may be counted: Ancient History and Classical Civilization 330 (Topic 2), Asian Studies 372 (Topic 40), 373G, Core Texts and Ideas 345 (Topic 11), 344, History 350L (Topic 54). Prerequisite: Upper-division standing.

ANS 373J. Chinese Film and Literature.
Analyze selected literary and cinematic texts from China in the last century. Explore how the Chinese people encounter modernity and cope with its consequences. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 372 (Topic 6), 373J, Comparative Literature 323 (Topic: Chinese Film and Literature). Prerequisite: Upper-division standing.

ANS 374C. Buddhist Art.
Same as Art History 348N and Religious Studies 341T. Explores the development of Buddhist art in South Asia, the land of its origin as well as its spread elsewhere. Focus on the question of "what is" Buddhist art. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 348N, 372 (Topic: Buddhist Art), Asian Studies 372 (Topic 24), 374C, Religious Studies 341 (Topic 8), 341T.

ANS 374D. Gender and Art in the Muslim World.
Same as Middle Eastern Languages and Cultures 321 (Topic 31), Middle Eastern Studies 342 (Topic 40), Religious Studies 358W, and Women's and Gender Studies 340 (Topic 62). Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 372 (Topic 46), 374D, Islamic Studies 373 (Topic 15), Middle Eastern Languages and Cultures 321 (Topic 31), Middle Eastern Studies 342 (Topic 40), Religious Studies 358 (Topic 20), 358W, Women's and Gender Studies 340 (Topic 62). Prerequisite: Upper-division standing.

ANS 374E. Chinese Literati Art.
Same as Art History 372 (Topic 1). Three lecture hours a week for one semester. Only one of the following may be counted: Art History 372 (Topic: Chinese Literati Art), 372 (Topic 1), Asian Studies 361 (Topic: Chinese Literati Art), 372 (Topic 42), 374E. Prerequisite: Upper-division standing.

ANS 678H. Honors Tutorial Course.
Three lecture hours a week for two semesters. Prerequisite: For 678HA, admission to the Asian Studies Honors Program; for 678HB, Asian Studies 678HA.

Three lecture hours a week for one semester; additional hours may be required for some topics. May be repeated for credit when the topics vary. Prerequisite: For Asian studies majors, twelve semester hours of upper-division coursework in Asian studies; for others, upper-division standing.

Topic 1: Writing and Authority in Early China. Only one of the following may be counted: Asian Studies 372 (Topic: Writing and Authority: Early China), 379 (Topic 1), History 364G (Topic: Writing and Authority: Early China).

Topic 3: The Art of the Body in India. Only one of the following may be counted: Anthropology 322M (Topic: Art of the Body in India), Asian Studies 372 (Topic: Art of the Body in India), 379 (Topic 3), and Women's and Gender Studies 340 (Topic: Art of the Body in India).

Topic 4: Indian Poetry and Religions. Same as Religious Studies 341P. Explores the intersections of religion and poetry in the history of Indian literature as expressed in multiple settings and variations including hymns, chants, bhajans, poetic narratives, and new poetic conventions that deal with caste and gender identities. Three lecture
hours a week for one semester. Only one of the following may be counted: Asian Studies 379 (Topic 4), Religious Studies 341 (Topic 11), 341P. Additional prerequisite: For Asian studies majors, twelve semester hours of upper-division coursework in Asian studies; for others, upper-division standing.

**Topic 5: Science, Technology, and Society in Contemporary Asia.**
Introduction to how social forces and interests impact scientific practice, and vice versa, including scientific incommensurability, cultural difference, colonialism, postcoloniality, and methodological issues. Additional prerequisite: For Asian studies majors, twelve semester hours of upper-division coursework in Asian studies; for others, upper-division standing.

**Topic 6: Transnational Korea.** Same as Asian American Studies 330F. Recent and contemporary manifestations of the Koreas in the world and the world in the Koreas. Subjects include labor and marriage migration, educational sojourning, transnational adoption, tourism, international sport, corporate expatriation, and media flows. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Transnational Korea), Asian American Studies 330 (Topic 5), 330F, Asian Studies 379 (Topic 6). Additional prerequisite: For Asian studies majors, twelve semester hours of upper-division coursework in Asian studies; for others, upper-division standing.

**Topic 7: Gender & Labor in Global Asia.**
Study of various aspects and periods of Asian culture and society. Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and written consent of instructor on form obtained from the graduate coordinator.

**Topic 8: Radical Religion: Ascetics and Holy Persons.** Same as Religious Studies 375S (Topic 4). Explores asceticism and the concepts, practices, and goals associated with this radical way of life through case studies from various religions. Subjects include theories of the body and of culture, as well as issues of social status, gender, devotion, and violence. Only one of the following may be counted: Asian Studies 379 (Topic: Radical Religion: Ascetics), 379 (Topic 8), Religious Studies 375S (Topic: Radical Religion: Ascetics), 375S (Topic 4).

**Topic 9: Art of Autobiography in Japan.**
Examines autobiographies written by prominent artists and intellectuals in Japan from the tenth century to the present. Subjects include the authors’ lives and legacies, and how these works are informed by both the historical and cultural contexts in which they were written and by the genre itself. All reading, writing, and discussion will be in English. Asian Studies 379 (Topic: Art of Autobiography in Japan) and 379 (Topic 9) may not both be counted. Additional prerequisite: Upper-division standing.

**Topic 10: Comparing Religions.** Same as Religious Studies 375S (Topic 2). A discussion of major comparative approaches in the study of religion. Only one of the following may be counted: Asian Studies 340 (Topic: Introduction to Comparative Religion), 340 (Topic 11), 379 (Topic 10), Religious Studies 373 (Topic: Introduction to Comparative Religion), 375S (Topic 2). Additional prerequisite: For Asian studies majors, twelve semester hours of upper-division coursework in Asian studies; for others, upper-division standing and at least six semester hours of coursework in religious studies.

**Topic 11: The Cultural Outsider: Memoirs of East Asia.**
Same as History 340U. Focus is on the cultural outsider’s perceptions of East Asia in greater “travel” dating from as early as Marco Polo up to works published in contemporary America. Selected memoirs and travelogues are presented from the perspective of the cultural outsider, written by missionaries, colonizers, journalists, POWs, scholars, students, and tourists. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 379 (Topic: Cul Outsider: Memoirs/E Asia), 379 (Topic 11), History 340U, 364G (Topic: Cul Outsider: Memoirs/E Asia). Additional prerequisite: For Asian studies majors, twelve semester hours of upper-division coursework in Asian studies; for others, upper-division standing.

**Topic 12: Gender and Labor in Global Asia.**
Same as Anthropology 324P and Women’s and Gender Studies 340 (Topic 93). Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Gender & Labor in Global Asia), 324P, Asian Studies 379 (Topic: Gender & Labor in Global Asia), 379 (Topic 12), Women’s and Gender Studies 340 (Topic: Gender & Labor in Global Asia), 340 (Topic 93). Additional prerequisite: For Asian studies majors, twelve semester hours of upper-division coursework in Asian studies; for others, upper-division standing.

**Topic 13: Cultural Memory and the Classic Chinese Novel.** Same as Comparative Literature 323 (Topic 57). Examine the metaphors and mythology from Chinese cultural memory that are present in classic novels, within literary and socio-historical contexts. Explore a cross-section of influential works from classical literature and the major founding schools of Chinese thought. Only one of the following may be counted: Asian Studies 379 (Topic: Cul Mem/Classic Chinese Nov), 379 (Topic 13), Comparative Literature 323 (Topic: Cul Mem/Classic Chinese Nov), 323 (Topic 57), Liberal Arts Honors 350 (Topic: Cul Mem/Classic Chinese Nov). Additional prerequisite: For Asian studies majors, twelve semester hours of upper-division coursework in Asian studies; for others, upper-division standing.

**Topic 16: Culture and Crisis in Contemporary Japan.**
Same as History 3640. Explore the cultural history of Japan from the 1980s to the present, with particular attention paid to economic and ecological issues represented in literature, film, and visual culture. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 379 (Topic: Cultr/Crisis in Contemp Jpn), 379 (Topic 16), History 3640. Additional prerequisite: For Asian studies majors, twelve semester hours of upper-division coursework in Asian studies; for others, upper-division standing.

**Graduate Courses**

**ANS 180C, 380C. Conference Course in Asian Studies.**
Supervised individual study of selected problems in Asian studies. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and written consent of instructor on form obtained from the graduate coordinator.

**ANS 381. Topics in Chinese Culture and Society.**
Study of various aspects and periods of Chinese culture and society. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

**ANS 382K. Topics in Korean Culture and Society.**
Studies of various aspects and periods of Korean culture and society. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

**ANS 383. Topics in Japanese Culture and Society.**
Study of various aspects and periods of Japanese culture and society. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

ANS 384. Topics in South Asian Culture and Society.
Study of various aspects and periods of South Asian culture and society. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

Topic 2: Communalism in Colonial India. Same as History 382N (Topic 4: Communalism in Colonial India).
Topic 5: Social and Religious Reform in Modern India. Same as History 382N (Topic 1: Social and Religious Reform in Modern India). Only one of the following may be counted: Asian Studies (Topic 5), History 382N (Topic 1), Religious Studies 394T (Topic: Social and Religious Reform in Modern India).
Topic 6: South Asian Diaspora.
Topic 7: Middle Indic Languages and Literature. Survey of the Middle Indic languages of South Asia, the communities that used these languages, and the literature composed in them. Asian Studies 384 (Topic: Middle Indic Languages and Literature) and 384 (Topic 7) may not both be counted. Additional prerequisite: Basic reading comprehension of Sanskrit equivalent to one academic year’s study of Sanskrit.

Topic 8: The Body in Indian Medicine and Myth. Same as Religious Studies 394T (Topic 1). Examines issues of embodiment in South Asia in various life stages, including conception, infancy, childhood, adulthood, and death drawn from various historical periods, medical traditions, religious narratives, and sociological and anthropological studies. Only one of the following may be counted: Asian Studies 384 (Topic: Body in Indian Medicine/Myth), 384 (Topic 8), Religious Studies 394T (Topic: Body in Indian Medicine/Myth), 394T (Topic 1).

ANS 384C. Core Studies in South Asia.
An introduction to research methods used in South Asian studies. Three lecture hours a week for one semester. Asian Studies 384 (Topic: Core Studies in South Asia) and 384C may not both be counted. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

ANS 384E. Asceticism.
Examines ascetic contexts of various religious traditions, definitions of asceticism, the relationship between ascetic beliefs and ascetic practices, and the benefits and risks of using a comparative approach to study asceticism. Three lecture hours a week for one semester. Asian Studies 384 (Topic: Asceticism) and 384E may not both be counted. Prerequisite: Graduate standing.

ANS 384F. Folklore and Oral Performance in South Asia.
Three lecture hours a week for one semester. Asian Studies 384 (Topic: Folklore and Oral Performance in South Asia) and 384F may not both be counted. Prerequisite: Graduate standing.

ANS 384G. Gender and the Body in South Asian Text and Practice.
An introduction to how gender is used as a category of analysis across the humanities and social science disciplines; and how the body is used as an object for analysis. Three lecture hours a week for one semester. Asian Studies 384 (Topic: Gender and the Body in South Asian Text and Practice) and 384G may not both be counted. Prerequisite: Graduate standing.

ANS 384P. Theatre, Gender, and Performance in South Asia.
Three lecture hours a week for one semester. Asian Studies 384 (Topic: Theatre, Gender, and Performance in South Asia) and 384P may not both be counted. Prerequisite: Graduate standing.

ANS 385. Topics in Chinese Language and Literature.
Study of various aspects and periods of Chinese language and literature. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

Topic 1: Chinese Film and Literature.
Topic 3: Modern Chinese Literature.
ANS 385D. Development of the Literary Field in Modern China.
Applies French theorist Pierre Bourdieu’s work on cultural production to the study of the development of modern and contemporary literature in China and Taiwan. Three lecture hours a week for one semester. Asian Studies 385 (Topic: Development of the Literary Field in Modern China) and 385D may not both be counted. Prerequisite: Graduate standing.

ANS 385H. High and Popular Culture in Modern Chinese Societies.
Explores the production and consumption of elitist (high) and popular cultures in modern Chinese societies. Three lecture hours a week for one semester. Asian Studies 385 (Topic: High and Popular Culture in Modern Chinese Societies) and 385H may not both be counted. Prerequisite: Graduate standing.

ANS 385M. Modern and Postmodern Chinese Literary Culture.
Examines the complex phenomena of modernism and postmodernism in literature and the arts in China, Taiwan, and Hong Kong. Three lecture hours a week for one semester. Asian Studies 385 (Topic: Modern and Postmodern Chinese Literary Culture) and 385M may not both be counted. Prerequisite: Graduate standing.

ANS 385S. Critical Scholarship on Modern Chinese Literature.
Survey of English-language critical scholarship on modern Chinese literature. Three lecture hours a week for one semester. Asian Studies 385 (Topic: Critical Scholarship on Modern Chinese Literature) and 385S may not both be counted. Prerequisite: Graduate standing.

ANS 386. Topics in Japanese Language and Literature.
Study of various aspects and periods of Japanese language and literature. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

Topic 2: Modern Japanese Literature.

Topic 3: Modern Chinese Literature.

ANS 387K. Topics in Korean Language and Literature.
Studies in various aspects and periods of Korean language and literature. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

ANS 388. Topics in South Asian Language and Literature.
Study of various aspects and periods of South Asian language and literature. Three lecture hours a week for one semester. May be repeated
for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

ANS 388C. Critical Approaches to the Study of South Asian Texts.
Introduction to analyzing South Asian literature through the exploration of Indian "classics" on connoisseurship, reader response, style, and suggestion, as well as modern and contemporary works on literary theory from the West. Three lecture hours a week for one semester. Asian Studies 388 (Topic: Critical Approaches to the Study of South Asian Texts) and 388C may not both be counted. Prerequisite: Graduate standing.

ANS 388M. Translating India.
Introduction to literary translation from a wide range of Euro-American and South Asian stances and viewpoints, focusing on the political nature of the act and the art of translation in colonial and post-colonial contexts. Three lecture hours a week for one semester. Asian Studies 384 (Topic: Translating India) and 388M may not both be counted. Prerequisite: Graduate standing.

ANS 389C. Topics in Asian History.
Studies in various historical periods of different Asian countries or regions. Topics may be comparative or single-area. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 1: Japan Since 1945. Three lecture hours a week for one semester. Asian Studies 383 (Topic 2: Japan Since 1945) and 389C (Topic 1) may not both be counted. Additional prerequisite: Graduate standing.

Topic 2: War and Defeat in Japanese History and Memory.
Interdisciplinary exploration of the Japanese experience and memory of the Pacific War, including topics such as Hiroshima, comfort women, the US occupation, and contemporary controversies surrounding textbooks and the Yasukuni Shrine. Three lecture hours a week for one semester. Asian Studies 383W and 389C (Topic 2) may not both be counted. Additional prerequisite: Graduate standing.

ANS 390. Topics in Asian Studies.
Study of various Asian studies-related topics that do not focus on any single geographic region. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

Topic 2: Authoritarian Political Systems. Same as Government 390L (Topic 7). Comparative study of authoritarian and totalitarian patterns of government, past and present, Western and non-Western; special emphasis on Communist and Fascist systems.

Topic 6: Intellectual History of Indo-Iranian Islam. Only one of the following may be counted: Asian Studies 390 (Topic 6), History 388K (Topic 2), Middle Eastern Studies 381 (Topic 37), Religious Studies 394T (Topic: Intel Hist of Indo-Iran Islam), 394T (Topic 2).

Topic 7: Feminist Theory. Asian Studies 390 (Topic: Feminist Theory) and 390 (Topic 7) may not both be counted.

Topic 8: Asian Modernities. Theory and criticism in the study of Asia, with particular attention to the origins and rise of modern comparative literary and cultural studies. Asian Studies 384 (Topic: Asian Modernities) and 390 (Topic 8) may not both be counted.

Topic 9: Space and Place-Making In East Asia. Examines developmentalism, postcolonialism, neoliberalism, and compressed modernity in East and Southeast Asia. Three lecture hours a week for one semester.

Topic 10: Anthropology of East Asia. Same as Anthropology 391C. Explore contemporary anthropological research on East Asia, with a focus on a set of broad subjects (money, mobilities, cosmologies, media, etc.), and a consideration of what constitutes "the anthropological approach" to these subjects. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 391 (Topic: Anthropology of East Asia), 391C, Asian Studies 390 (Topic: Anthropology of East Asia), 390 (Topic 10). Additional prerequisite: Graduate standing.

ANS 390C. Core Readings in Modern East Asia.
Various aspects of East Asian history, culture, and society. Designed for new graduate students in the Department of Asian Studies. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

ANS 390D. The Arabic Humanities.
Same as Middle Eastern Studies 386 (Topic 1) and Religious Studies 390T (Topic 4). Explore the traditions formed in pre-modern Islamic humanities. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 390D, Middle Eastern Studies 386 (Topic: The Arabic Humanities), 386 (Topic 1), Religious Studies 390T (Topic 4). Prerequisite: Graduate standing and Arabic 531L or 581N.

ANS 390E. Middle Eastern Modernities.
Same as Middle Eastern Studies 386 (Topic 21). Explore how Arabic literature and thought changed over the course of the nineteenth and twentieth centuries through extended studies of poetry and prose written in Arabic. Examine the relationship of modernity to modernist literature in order to define what modernism means in an Arab/ic context. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 390E, Comparative Literature 386 (Topic: Middle Eastern Modernities), Middle Eastern Studies 386 (Topic: Middle Eastern Modernities), 386 (Topic 21). Prerequisite: Graduate standing and Arabic 531L or 381N or the equivalent.

ANS 390M. Aesthetic Modernism in East Asia.
Examines modernist trends in literature and the arts since the early twentieth century in places such as China, Japan, Taiwan, South Korea, Hong Kong, and Vietnam. Three lecture hours a week for one semester. Asian Studies 390 (Topic: Aesthetic Modernism in East Asia) and 390M may not both be counted. Prerequisite: Graduate standing.

ANS 391. Asia and the World.
Study of various subjects with Asian studies-related content. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

Topic 3: European Imperialism: British Empire. Same as History 380L (Topic 1) and Middle Eastern Studies 385 (Topic 12). Study of the British empire in the Middle East, Asia and Africa. Only one of the following may be counted: Asian Studies 391 (Topic 3), History 380L (Topic 1), Middle Eastern Studies 385 (Topic 12). Additional prerequisite: Graduate standing.

Topic 4: Gender, Ethnicity, and Nationalism. Same as Anthropology 391 (Topic 32: Gender, Ethnicity, and Nationalism).

Topic 6: International Business Fellows Seminar. Same as Latin American Studies 381 (Topic 8), Middle Eastern Studies 380, and Russian, East European, and Eurasian Studies 380. Multidisciplinary seminar for students in area studies, business administration, law, and public policy. The faculty includes both academics and business leaders. Only one of the following may be counted: Asian Studies 391 (Topic 6), International Business 395 (Topic: International Business Fellows Seminar), Latin American Studies 381 (Topic 8),

**Topic 7: Women in Islamic Societies.** Same as History 382N (Topic 2: Women in Islamic Societies) and Middle Eastern Studies 385 (Topic 7: Women in Islamic Societies). Only one of the following may be counted: Asian Studies 391 (Topic 7), History 382N (Topic 2), Middle Eastern Studies 385 (Topic 7).  

**ANS 391C. The Ideas of the East.**  
Same as Middle Eastern Studies 385 (Topic 13). Examine the significance of the transnational movement of people, ideas, and goods in the process of constructing geocultural categories such as the West, the East, and Asia; and their subcategories such as the Middle East, Southeast Asia, and East Asia. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 391C, History 381 (Topic: Ideas of East: Global Hist), Middle Eastern Studies 385 (Topic: Ideas of East: Global Hist), 385 (Topic 13). Prerequisite: Graduate standing.

**ANS 391H. Ethnographies of Global Asia.**  
Same as Anthropology 391 (Topic 34). Methods and ethnographic study of transnational Asia and the Asian diaspora. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 391 (Topic: Ethnography of Global Asia), 391 (Topic 34), Asian Studies 384 (Topic: Ethnography of Global Asia), 391H. Prerequisite: Graduate standing.

**ANS 392. Topics in the Social Science of Asia.**  
Examination of topics relating to the anthropology, sociology, politics, or economics of one or more Asian countries. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

**ANS 394. Tools and Methods in Asian Research.**  
Study of the major research tools and methods used in current Asian scholarship. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

**ANS 395. Proseminar: Core Readings and Methods in Asian Studies.**  
Various theories and methods used in the field of Asian studies, including disciplinary history, controversies, and the diversity of approaches within the field. Designed for new graduate students in the Department of Asian Studies. Three lecture hours a week for one semester. Asian Studies 390 (Topic: Proseminar in Asian Studies) and 395 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

**ANS 397C, 697C, 997C. Comprehensive Examination Preparation.**  
Restricted to doctoral students in the Department of Asian Studies. Individual instruction. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and written consent of instructor on a form obtained from the graduate coordinator.

**ANS 698. Thesis.**  
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in Asian studies and consent of the graduate adviser; for 698B, Asian Studies 698A.

**ANS 398L. Pedagogy for Language Instruction.**  
Individual instruction in language pedagogy. Individual instruction. Offered on the credit/no credit basis only. Prerequisite: Graduate standing, appointment as a teaching assistant in a language course in the Department of Asian Studies, and consent of the graduate adviser.

**ANS 398R. Master's Report.**  
Preparation of a report to fulfill the requirement for the master's degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in Asian studies and consent of the graduate adviser.

**ANS 398T. Supervised Teaching in Asian Studies.**  
Teaching under the close supervision of a faculty member. Includes weekly group meetings with the instructor, individual consultation, and reports throughout the teaching period. Three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing, and written consent of instructor on a form obtained from the graduate coordinator.

**ANS 399W, 699W, 999W. Dissertation.**  
May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

**Professional Courses**

**ANT - Anthropology**

**Anthropology: ANT**

**Lower-Division Courses**

**ANT 301 (TCCN: ANTH 2301). Biological Anthropology.**  
Introduction to the principles and the methods of biological (physical) anthropology. Overview of the study of human beings in an evolutionary context, our relationship to other primates, and to the rest of the natural world. Examines anatomical, behavioral, and genetic similarities and differences among living primates and basic mechanisms of the evolutionary process. The equivalent of three lecture hours a week for one semester.

**ANT 302 (TCCN: ANTH 2351). Cultural Anthropology.**  
The concept of culture; social and political organization; language; the supernatural; elementary cultural theory. Three lecture hours a week or two lecture hours and one discussion hour a week for one semester.

**ANT 304 (TCCN: ANTH 2302). Introduction to Archaeological Studies: Prehistoric Archaeology.**  
Anthropological study of prehistory, from human beginnings to the appearance of written records. Three lecture hours or two lecture hours and one discussion hour a week for one semester.

**ANT 304T. Introduction to Texas Archaeology.**  
Introduces students to Texas archaeology through lectures, interactive virtual labs, and hands-on laboratory sections that emphasize
experimentation. The equivalent of three lecture hours or two lecture hours and two laboratory hours a week for one semester.

**ANT 305. Expressive Culture.**
How cultural assumptions affect how we tell and respond to different kinds of stories, including fairy tales, movies, and televised news. Three lecture hours or two lecture hours and one discussion hour a week for one semester.

**ANT 307. Culture and Communication.**
Same as Linguistics 312C. An introduction to the study of culture through communication and the theory of signs. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Anthropology 307, Linguistics 312 (Topic: Culture and Communication), 312C.

**ANT 310C. Primate Cognition.**
Introduction to non-human primate knowledge of the physical world, as well as primate social knowledge. Examines non-human primate cognition within an evolutionary and comparative framework, with emphasis placed on comparing and contrasting non-human primate cognition with that of humans and other taxonomic groups. Three lecture hours a week for one semester. Anthropology 310C and 310L (Topic: Primate Cognition) may not both be counted.

**ANT 310D. Introduction to Black Studies.**
Same as African and African Diaspora Studies 303. Introduction to canonical black studies literature, themes, and theories. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 303, Anthropology 310D, 310L (Topic: Intro to African and African Diaspora Studies).

**ANT 310E. Introduction to East Austin Ethnography.**
Same as African and African Diaspora Studies 315C and American Studies 315G. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315C, 317D (Topic: Intro to East Austin Ethnography), American Studies 315 (Topic: Intro to East Austin Ethnography), 315G, Anthropology 310E, 310L (Topic: Intro to East Austin Ethnography).

**ANT 310F. African Diaspora Archaeology.**
Same as African and African Diaspora Studies 315V. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 310F, 310L (Topic: African Diaspora Archaeology), African and African Diaspora Studies 315V, 317E (Topic: African Diaspora Archaeology).

**ANT 310G. Ethics of Space Exploration.**
Same as Religious Studies 306E. Examine cultural and ethical questions related to the exploration of space and the emerging field of astrobiology. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 310G, Religious Studies 306E, 311 (Topic: Ethics/Relig/Space Explortn).

**ANT 310I. Early Mesoamerican Religions.**
Same as History 310E, Latin American Studies 310D, and Religious Studies 316M. Introduction to the study of indigenous religions in Mesoamerica, a geographic and cultural area spanning north-central Mexico through western Honduras, from approximately 250 BC - AD 1700. Examine the role of religion and ritual in daily life, as well as the lines of evidence available today for understanding them. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 310I, History 310E, Latin American Studies 310D, Religious Studies 311 (Topic: Early Mesoamerican Religion), 316M.

**ANT 310J. The New Latinas/os/xs.**
Same as Government 319D, Mexican American Studies 318G, and Sociology 309G. Explore the trajectories of various communities many have called the new Latinas/os/xs by identifying how race, gender, sexuality, class, indigeneity, language, migration, and geography influence the lives, identities, and sociopolitical incorporation of new Latinas/os/xs. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 310J, Government 319D, Mexican American Studies 318G, 319 (Topic: The New Latinas/os/xs), Sociology 309G.

**ANT 310L. Introductory Topics in Anthropology.**
Three lecture hours or two lecture hours and one discussion hour a week for one semester. May be repeated for credit when the topics vary.

**Topic 2: Anthropology of Race and Ethnicity: An Introduction.** Same as African and African Diaspora Studies 315L and American Studies 315D. Examines the social importance of race and ethnicity both in America and around the world. Three lecture hours or two lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Anthropology 310L (Topic 2), American Studies 315D, Anthropology 310L (Topic 2).

**Topic 3: Anthropology of Latin America.** Same as Latin American Studies 315 (Topic 1). Provides a framework for understanding contemporary concerns in Latin America. Only one of the following may be counted: Anthropology 310L (Topic 3), Latin American Studies 315 (Topic 1).

**Topic 5: Introduction to South Asia.** Same as Asian Studies 302K. Introduction to Indian and south Asian civilization, past and present, including religion, literature, arts, philosophy, and history. Only one of the following may be counted: Anthropology 310L (Topic 5), Asian Studies 302K, History 306N (Topic: Introduction to India).

**Topic 6: Black Queer Art Worlds.** Same as African and African Diaspora Studies 315Q and Women's and Gender Studies 301 (Topic 17). Exploration of over two decades of work produced by and about black queer subjects throughout the circum-Atlantic world. Provides an introduction to various artists and intellectuals of the black queer diaspora, as well as an examination of the viability of black queer aesthetic practice as a form of theorizing. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315Q, 317E (Topic 1), Anthropology 310L (Topic 6), Women's and Gender Studies 301 (Topic 17).

**Topic 7: Diaspora: Race, Nation, and Resistance.** Same as African and African Diaspora Studies 315R. Subjects include makings and meanings of diaspora, the differences and similarities between diaspora and related concepts such as race, nation, and cultural identity. Focuses on the making of the black Atlantic world, and comparative analysis between black diasporic life and that of other global dispersals, particularly among Asian and indigenous populations, and how resistance serves as a key link. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 315R, 317E (Topic 2), Anthropology 310L (Topic 7).

**ANT 310M. Mexican American and Latina/o Folklore Across the United States.**
Same as Mexican American Studies 307C. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 310L (Topic: Mex Amer/Lat Folk Across US), 310M, Mexican American Studies 307C, 319 (Topic: Mex Amer/Lat Folk Across US).

**ANT 310R. Race, Sex, and Tourism.**
Same as African and African Diaspora Studies 315W. Three lecture hours a week for one semester. Only one of the following may be counted:
African and African Diaspora Studies 315W, 317E (Topic: Race, Sex, and Tourism), Anthropology 310L (Topic: Race, Sex, and Tourism), 310R.

ANT 311D. Introduction to Jewish Studies.
Same as Jewish Studies 301, Middle Eastern Studies 310 (Topic 8), and Religious Studies 313D. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 310L (Topic: Jewish Studies: An Introduction), 311D, Jewish Studies 301, 311 (Topic: Jewish Studies: An Introduction), Middle Eastern Studies 310 (Topic: Jewish Studies: An Introduction), 310 (Topic 8), Religious Studies 313 (Topic: Jewish Studies: An Introduction), 313D.

ANT 311E. Introduction to Jewish Latin America.
Same as Jewish Studies 305D, Latin American Studies 315 (Topic 3), and Religious Studies 313E. Historical and cultural analysis of how Jews constructed lives and communities in predominantly Hispanic, Catholic countries of Latin America. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 310L (Topic: Introduction to Jewish Latin America), 311E, Jewish Studies 311 (Topic: Introduction to Jewish Latin America), 305D, Latin American Studies 310 (Topic: Intro to Jewish Latin America), 315 (Topic: Intro to Jewish Latin America), 315 (Topic 3), Religious Studies 313 (Topic: Introduction to Jewish Latin America), 313E.

ANT 314C. Introduction to Mesoamerican Archaeology.
Same as Latin American Studies 315 (Topic 2). Introduction to ancient Mesoamerica from the time of emerging social inequality in the formative period until the Spanish conquest of Mexico-Tenochtitlan in the sixteenth century. Only one of the following may be counted: Anthropology 310L (Topic 1: Introduction to Mesoamerican Archaeology), 314C, Latin American Studies 310 (Topic 3: Introduction to Mesoamerican Archaeology), 315 (Topic 2).

ANT 318L. Mexican American Culture.
Same as Mexican American Studies. Mexican American cultural distinctiveness in the areas of social organization, child rearing, food culture, folklore, language, and religion. Three lecture hours a week for one semester.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Anthropology. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

ANT 320C. American Indian Languages and Cultures.
Same as Linguistics 373L. Explore the myriad of indigenous languages of North America and how they are intertwined with culture. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 320C, 320L (Topic 4), Linguistics 373 (Topic: Amer Indian Langs and Culs), 373L. Prerequisite: Upper-division standing.

ANT 320D. Speech Play and Verbal Art.
Same as Linguistics 373S. Examine speech play and verbal art (from puns to lies to songs to stories to poetry) from ethnographic and linguistic perspectives in a host of contexts and languages. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 320D, 320L (Topic 5), Linguistics 373 (Topic: Speech Play and Verbal Art), 373S. Prerequisite: Upper-division standing.

ANT 320E. Invented Languages.
Examine invented languages from pidgin and creole languages to Esperanto or Basic English, and contemporary “conlangs” associated with various science fiction and fantasy series. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 320E, 320L (Topic: Invented Languages), 320L (Topic 12). Prerequisite: Upper-division standing.

ANT 320F. Politics, Polity, and the Power of Words.
Examine the place of language in a variety of different political settings—from oblique oratory in small-scale egalitarian communities to ritual “poetry” in cosmic polities to procedural prose in mass bureaucratic states—to illustrate the power of words. Identify the varied ways language sustains and transforms power relations in different political contexts, and thereby takes on a power of its own. Explore a variety of political situations, different modes of political communication, as well as different theories of the “performative” power of words. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 320F, 320L (Topic: Politi/Polity/Power of Words), 320L (Topic 11). Prerequisite: Upper-division standing.

ANT 320G. Endangered Languages.
Same as Linguistics 373E. Examine language rights as a tool for defending small-scale and minority language communities against the spread of national and global languages. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 320G, 320L (Topic: Language Endangerment/Rights), 320L (Topic 13), Linguistics 373 (Topic: Language Endangerment/Rights), 373 (Topic 12), 373E. Prerequisite: Upper-division standing.

ANT 320L. Talk, Text, and God.
Same as Religious Studies 373T. Introduction to the anthropological study of Christianity, particularly in colonial and post-colonial settings. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 320L, 320L (Topic: Talk, Text, and God), 320L (Topic 14), Religious Studies 373 (Topic: Talk, Text, and God), 373T. Prerequisite: Upper-division standing.

ANT 320J. The German Language: Historical Perspectives.
Same as German 369 (Topic 4) and Linguistics 373G. Conducted in English. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 320J, 320L (Topic 9), German 369 (Topic 4), Germanic Civilization 327E (Topic 9), Linguistics 373 (Topic 9), 373G. Prerequisite: Three semester hours of upper-division coursework in German or Linguistics.

ANT 320O. New Media and Communication.
Explore anthropological and media studies analyses of technological changes in communications from the nineteenth through the twenty-first centuries. Three lecture hours a week for one semester. Anthropology 3200 and 324L (Topic: New Media and Communication) may not both be counted. Prerequisite: Upper-division standing.

ANT 322C. Contemporary African Popular Culture.
ANT 322D. Multicultural Israel.
Same as Jewish Studies 365C and Middle Eastern Studies 341 (Topic 8). Examines the complex social fabric that comprises contemporary Israeli society, and that shapes Israeli identity, practice and politics. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322D, 325L (Topic: Multicultural Israel), Jewish Studies 365 (Topic: Multicultural Israel), 365C, Middle Eastern Studies 341 (Topic: Multicultural Israel), 341 (Topic 8). Prerequisite: Upper-division standing.

ANT 322E. Self and Culture in North Korea.
Same as Asian Studies 361N. Aims to understand North Korea's historical development and its current workings as a social, cultural, and political/ideological system. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322E, 324L (Topic: Self & Culture In North Korea), Asian Studies 361 (Topic: Self & Culture In North Korea), 361N. Prerequisite: Upper-division standing.

ANT 322F. Big Asian Histories.
Same as Asian Studies 361M and History 340V. Examines ways in which Asia and other areas of the globe have had connected intellectual, artistic, and social developments with focus on world histories centrally involving Asia from the medieval period to the present. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322F, 324L (Topic: Big Asian Histories), Asian Studies 361 (Topic: Big Asian Histories), 361M, History 340V, 364G (Topic: Big Asian Histories). Prerequisite: Upper-division standing.

ANT 322G. Cultural Geographies of Israel.
Same as Jewish Studies 365D and Middle Eastern Studies 341 (Topic 10). Examines critical spatial theory, landscape phenomenology, histories of Zionist architecture and urban planning as applied to Israel from the Yishuv period to the present. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322G, Jewish Studies 311 (Topic: Israel: Space/Place/Landscape), 365D, Middle Eastern Studies 341 (Topic 10). Prerequisite: Upper division standing.

ANT 322I. Native American Cultures of the Southwest.
Same as American Studies 321U. Explore the diverse Native cultures of the Southwest, focusing on the philosophical underpinnings and the frameworks of meaning and moral responsibility of indigenous peoples of the American Southwest. Three lecture hours a week for one semester Only one of the following may be counted: American Studies 321 (Topic: Native American Cultures of the Southwest), 321 (Topic 1), 321U, Anthropology 322M (Topic 3), 322M (Topic 4), 322I. Prerequisite: Upper-division standing.

ANT 322J. Goddesses in World Religions and Cultures.
Same as Asian Studies 340F, Religious Studies 373G, and Women's and Gender Studies 340 (Topic 30). Historical and cross-cultural overview of the relationship between feminine and religious cultural expressions through comparative examinations and analyses of various goddess figures in world religions. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322J, 324L (Topic: Goddesses in World Religions and Cultures), Asian Studies 340 (Topic 7), 340F; Religious Studies 373 (Topic 3), 373G, Women's and Gender Studies 340 (Topic 30). Prerequisite: Upper-division standing.

ANT 322N. History of Hindu Religious Traditions.
Same as Asian Studies 340D, History 364C, and Religious Studies 321. History of major doctrines, practices, and institutions that shaped the development of Hinduism; how religions adapt to social and cultural change and often provide the catalyst for change. Three lecture hours a week for one semester. Only one of the following may be counted:

ANT 322O. Gender, Sexuality, and the Family in Indian Religions and Cultures.
Same as Asian Studies 372K, Religious Studies 341M, and Women's and Gender Studies 340 (Topic 25). A comprehensive historical overview of gender issues as they are represented in the textual traditions of South Asia. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322O, 324L (Topic 40), Asian Studies 372 (Topic 25), 372K, Religious Studies 341 (Topic 3), 341M, Women's and Gender Studies 340 (Topic 25). Prerequisite: Upper-division standing.

ANT 322P. Mexican Immigration Cultural History.
Same as Latin American Studies 324L (Topic 16) and Mexican American Studies 364F. Examines the history of Mexican immigration to the United States, and provides an overview of migratory patterns dating back to the late prehistoric period through contemporary times. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322M (Topic 12), 322P, Latin American Studies 324L (Topic 16), Mexican American Studies 364F, 374 (Topic: Mexican Immigration Cultural History). Prerequisite: Upper-division standing.

ANT 322Q. Mexican American Indigenous Heritage.
Same as Latin American Studies 324L (Topic 20) and Mexican American Studies 374 (Topic 23). The prehistory, history, and contemporary racial understanding of Mexican Americans. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322Q, 324L (Topic: Mexican Amer Indig Heritage), 324L (Topic 20), Mexican American Studies 374 (Topic 23). Prerequisite: Upper-division standing.

ANT 322T. Russian Myths and Folktales.
Same as Comparative Literature 323 (Topic 34) and Russian, East European, and Eurasian Studies 325 (Topic 22). Examination of the Russian folklore, its roots in ancient, pre-Christian Slavic religious tradition, its connections with other forms of folklore such as myth and legend, and its transformation in modern Russian literature. Subjects include the continuing influence of folklore explored through various aspects of Russian culture, including literature, music, ballet, film, and popular culture. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322T, 325L (Topic 12), Comparative Literature 323 (Topic 34), Russian 330 (Topic 9), Russian, East European and Eurasian Studies 325 (Topic 22). Prerequisite: Upper-division standing.

ANT 322U. Anthropology of Travel and Tourism.
Same as Asian Studies 330C. Use the tools of cultural anthropology to understand the touristic encounter and the increasing (and decreasing) accessibility of travel and mobility. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 330C, 361 (Topic: Anthropology of Travel), Anthropology 322U. Prerequisite: Upper-division standing.

ANT 322V. Architecture and Sculpture in the Maya World.
Same as Art History 347R and Latin American Studies 327 (Topic 10). Explore the ancient world of the Maya through the lens of architecture and sculpture. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322V, Art History 347R, 370 (Topic: Arch/Sculpture in Maya World), Latin American Studies 327 (Topic 10).
ANT 322W. Power and Resistance in Putin’s Russia.
Same as Russian, East European, and Eurasian Studies 345 (Topic 13). Introduction to Russian political and protest cultures—beyond the headlines and outside the Kremlin walls. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322W, 324L (Topic: Power and Resistance in Rus), Russian, East European, and Eurasian Studies 345 (Topic: Power and Resistance in Rus), 345 (Topic 13). Prerequisite: Upper-division standing.

ANT 323C. Sport, Religion, and Society.
Same as Religious Studies 373S. Explore sport as it relates to ritual and religious practice and examine the meaning and nature of sport in cross-cultural perspectives. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Sport, Religion, and Society), 323C, Religious Studies 373 (Topic 4), 373S. Prerequisite: Upper-division standing.

ANT 323D. Religions of the Caribbean.

ANT 323E. Politics and Performance.
Same as Russian, East European, and Eurasian Studies 345 (Topic 10). Consider the power struggles of the democratic process by closely attending to language, rhetoric and performance. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 323E, 324L (Topic: Politics and Performance), Russian, East European, and Eurasian Studies 345 (Topic: Politics and Performance), 345 (Topic 10). Prerequisite: Upper-division standing.

ANT 323I. Comparative White Nationalisms.
Same as Russian, East European, and Eurasian Studies 345 (Topic 16). Consider critical questions about the constructions of whiteness and nationalism across the globe. Examine, through an anthropological lens, how the boundaries of whiteness changed throughout history, and its relationship to far-right political groups, to trace the history of white nationalism and its present-day global resurgence. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 323I, 324L (Topic: Comparing White Nationalisms), Russian, Eastern European, and Eurasian Studies 345 (Topic: Comparing White Nationalisms), 345 (Topic 16). Prerequisite: Upper-division standing.

ANT 323N. Biomedicine, Ethics, and Culture.
Same as Asian Studies 361 (Topic 29) and Religious Studies 373M. Examines ethical questions such as the allocation of medical resources, stem cell research and cloning, organ transplantation, abortion, human experimentation, prolonging life and the right to die, suicide, euthanasia, and diagnosis and treatment of illnesses, explored from a global perspective. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 323N, 324L (Topic: Biomedicine, Ethics, & Culture), Asian Studies 361 (Topic: Biomedicine, Ethics, & Culture), 361 (Topic 29), Religious Studies 373 (Topic: Biomedicine, Ethics, & Culture), 373M. Prerequisite: Upper-division standing.

ANT 323O. Black Geographies.
Same as African and African Diaspora Studies 352Q, American Studies 371D, and Geography 328F. Explore the relationship between Blackness and the production of space and place. Examine the tensions and possibilities that emerge when Black people are rendered un-geographic as a fundamental component of racial capitalism while they are simultaneously creating spaces of freedom under constant threats to Black life. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 352Q, 370 (Topic: Black Geographies), American Studies 371D, Anthropology 323O, Geography 328F. Prerequisite: Upper-division standing.

ANT 323P. Anthropology of the Himalayas.

ANT 323Q. Contemporary Jerusalem.
Same as Jewish Studies 365 (Topic 18), Middle Eastern Studies 341 (Topic 18), and Religious Studies 365K. Explore what life is like in today’s contested, rapidly growing, and increasingly diverse Jerusalem. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 323Q, Jewish Studies 365 (Topic: Contemporary Jerusalem), 365 (Topic 18), Middle Eastern Studies 341 (Topic 18), Religious Studies 365K. Prerequisite: Upper-division standing.

ANT 323R. Anthropology of Infrastructure.
Same as Urban Studies 322P. Explore how infrastructure creates relationships between resources, energy, built form, information, and people. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 323R, 324L (Topic: Anthropology of Infrastructure), Urban Studies 322P, 352 (Topic: Anthropology of Infrastructure). Prerequisite: Upper-division standing.

ANT 323S. Anthropology of Food.
Explore the cultural dimensions of growing, cooking, and eating food by engaging themes of gender, race, indigeneity, embodiment, hunger, and power. Three lecture hours a week for one semester. Anthropology 323S and 324L (Topic: Anthropology of Food) may not both be counted. Prerequisite: Upper-division standing.

ANT 323T. Colonial Encounters in Mesoamerica.
Same as History 346E, Latin American Studies 322M, and Religious Studies 366M. Study European-indigenous encounters in Mesoamerica, a geographic and cultural area spanning north-central Mexico through western Honduras, between approximately 1450-1750. Examine strategies of contact, accommodation, and resistance that indigenous communities and European colonizers used to communicate with each other and negotiate the conduct of daily life in colonial society. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 323T, History 346E, Latin American Studies 322M, Religious Studies 361 (Topic: Mesoamerican Encounters), 366M. Prerequisite: Upper-division standing.

Same as Geography 326C and Urban Studies 320E. Explore a sensory ethnographic investigation of urban ecology, organized around air, water, earth, and fire as themes for engaging with the city through media and the senses. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 323U, 324L (Topic: Sensing:
ANT 323V. Maya Art and Architecture.
Same as Art History 347M, Geography 322M, and Latin American Studies 327 (Topic 5). Introduction to the artistic traditions of the ancient Maya, tracing their development up to the time of European contact. Students will examine various important themes of Maya culture including history, ritual, and cosmology as revealed in sculpture, hieroglyphs, painting, and architectural design. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 323V, 324L (Topic: Maya Art and Architecture), Art History 347M, Latin American Studies 327 (Topic 5), Geography 322M, 356T (Topic: Maya Art/Architecture).

ANT 323W. Race and Indigeneity in the Pacific.
Examine a multidisciplinary study of sovereignty, settler colonialism, diaspora, and migration in the Pacific. Three lecture hours a week for one semester. Anthropology 323W and 324L (Topic: Race Indigeneity in Pacific) may not both be counted Prerequisite: Upper-division standing.

ANT 324C. Science, Magic, and Religion.

ANT 324D. Japanese Religion and Western Imagination.
Same as Asian Studies 340C and Religious Studies 352D. Examines Japanese religious traditions, with a focus on Zen, through the perspective of people living in non-Japanese societies since the end of World War II. Explores different ways in which non-Japanese have imagined Japanese religious and ethical ideas and both explained Japanese behavior and adopted ideas about Japan into their writings about philosophy and life. Three lecture hours a week for one semester. Only one of the following may be counted: Asian Studies 340 (Topic: Japanese Religion and Western Imagination), 340C, Anthropology 324D, 324L (Topic: Japanese Religion and Western Imagination), Religious Studies 352 (Topic: Japanese Religion and Western Imagination), 352D. Prerequisite: Upper-division standing.

ANT 324E. Culture and Health.
Examine the social and cultural foundations of western medicine as well as an introduction to indigenous and alternative health systems. Three lecture hours a week for one semester Only one of the following may be counted: Anthropology 324E, 324L (Topic: Culture and Health), 324L (Topic: Anthropol of Health & Illness). Prerequisite: Upper-division standing.

ANT 324F. Anthropology Of Religion.
Same as Religious Studies 373E. Examine a genealogy of the anthropology of religion around the globe from the nineteenth century to the present. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324F, 324L (Topic: Anthropology Of Religion), Religious Studies 373 (Topic: Anthropology Of Religion), 373E. Prerequisite: Upper-division standing.

ANT 324G. Environmental Anthropology.
Examine the environment, environmental inequality, and the relationship between culture and ecology. Three lecture hours or two lecture hours and one hour of discussion a week for one semester. Anthropology 324G and 324L (Topic: Environmental Anthropology) may not both be counted. Prerequisite: Upper-division standing.

ANT 324I. Sounding the City.
Explore the significance of sound for urban social life. Three lecture hours a week for one semester. Anthropology 324I and 324L (Topic: Sounds of the City) may not both be counted Prerequisite: Upper-division standing.

ANT 324J. HIV and AIDS Activism and the Healing Arts.
Same as African and African Diaspora Studies 350J and Women's and Gender Studies 335 (Topic 10). Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 350J, 374E (Topic: HIV/AIDS Activism/Heal Arts), Anthropology 324J, 324L (Topic: HIV/AIDS Activism/Heal Arts), Women's and Gender Studies 335 (Topic: HIV/AIDS Activism/Heal Arts), 335 (Topic 10). Prerequisite: Upper-division standing.

ANT 324L. Topics in Anthropology.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

ANT 324M. Topics in Archaeology of the Americas.
Three lecture hours a week for one semester. Prerequisite varies with the topic.

ANT 324N. Topics in Archaeology and Paleontology.
Three lecture hours a week for one semester. Additional prerequisite: Upper-division standing.

ANT 324P. Topics in African Diaspora Studies.
Three lecture hours a week for one semester. Additional prerequisite: Upper-division standing.

ANT 324Q. Topics in Latin American Studies.
Three lecture hours a week for one semester. Additional prerequisite: Upper-division standing.
and the analysis of remotely sensed data from satellites and aerial photographs. Additional prerequisite: Upper-division standing.

**Topic 39: Theories of Archaeology.** The history of archaeological thought, including the major theoretical trends that have shaped the discipline over time.

**Topic 41: Science, Technology, and Race.** Examines the intersections and linkages between race, science, and technology. Review of the array of current anthropological and sociological studies of science, which regard science as an institutionalized set of cultural practices charged with generating objective knowledge of the world. Only one of the following may be counted: African and African Diaspora Studies 374D (Topic: Science, Technology, and Race), Anthropology 324L (Topic: Science, Technology, and Race), 324L (Topic 41).

**Topic 42: United States Latino and Latina Ethnographies.** Same as Mexican American Studies 374 (Topic 33). Explores past and present anthropological representations of Latinos and Latinas in the United States. Only one of the following may be counted: Anthropology 324L (Topic: U.S. Latino/a Ethnographies), 324L (Topic 42), Mexican American Studies 374 (Topic: U.S. Latino/a Ethnographies), 374 (Topic 33).

**Topic 43: Creative Nonfiction and Ethnography.** Explores the convergences and divergences between ethnographic and narrative journalistic writing, and their potential for producing powerful, richly textured accounts that capture the depth of human experience and the complexity of social life. Anthropology 324L (Topic: Creative Nonfiction and Ethnography) and 324L (Topic 43) may not both be counted.

**Topic 44: Ethnographic Theory and Practice.** An exploration of the complex relationship between anthropological ideas and ethnographic practice. Introduces a broad spectrum of concepts, issues, and theories of culture, and critically examines how these theories and ideas shape anthropological methods and writings. Anthropology 324L (Topic: Ethnographic Theory and Practice) and 324L (Topic 44) may not both be counted.

**Topic 45: Queer Ethnographies.** Same as Women's and Gender Studies 340 (Topic 58). Anthropological analysis of gender and sexuality that critically evaluates formative concepts and theories that have been subject to recent debates within anthropology, gender studies, and queer theory. Only one of the following may be counted: Anthropology 324L (Topic: Queer Ethnographies), 324L (Topic 45), Women's and Gender Studies 340 (Topic: Queer Ethnographies), 340 (Topic 58).

**Topic 48: Sex and Power in the African Diaspora.** Same as African and African Diaspora Studies 345F and Women's and Gender Studies 340 (Topic 52). Exploration of various experiences and theories of sex, intimacy, and desire alongside intellectual and artistic engagements with power hierarchies and spirituality across transnational black communities. Subjects include the concept of “erotic subjectivity” from various theoretical and methodological angles, principally within African diasporic contexts. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 345F, 372G (Topic 33), Anthropology 324L (Topic 48), Women's and Gender Studies 340 (Topic 52). Additional prerequisite: Upper-division standing.

**Topic 49: Global Markets and Local Cultures.** Same as Asian Studies 361 (Topic 31). Examines contemporary theories of globalization, including materials exploring global governance, international monetary policy, migration regulation, offshoring, and cultural hybridity. Focuses on case studies in Asia and elsewhere that reveal how these practices impact particular communities. Only one of the following may be counted: Anthropology 324L (Topic: Global Markets and Local Cultures), 324L (Topic 49), Asian Studies 361 (Topic 31), 372 (Topic: Global Markets and Local Cultures), 372 (Topic 26). Additional prerequisite: Upper-division standing.

**Topic 51: The Cities of the Middle East.** Same as Middle Eastern Studies 341 (Topic 3). Anthropological and sociological analysis of space, with a special emphasis on urban theory and culture in the Middle East. Only one of the following may be counted: Anthropology 324L (Topic 51), Islamic Studies 373 (Topic 9), Middle Eastern Studies 341 (Topic 3), Urban Studies 354 (Topic 15). Additional prerequisite: Upper-division standing.

**Topic 53: Global Indigenous Issues.** Same as Latin American Studies 324L (Topic 15). Explores contemporary issues of indigenous peoples around the world through films, literature, and social science readings and focuses on how indigenous peoples are actively working to oppose their oppression and create sustainable futures. Only one of the following may be counted: Anthropology 324L (Topic: Global Indigenous Issues), 324L (Topic 53), Latin American Studies 324L (Topic: Global Indigenous Issues) 324L (Topic 15).

**Topic 54: Black Native American Relations in the United States.** Explores the entwined histories, cultures, and identities of African American and Native American people in North America. Subjects include experiences of racial formation, including how race, power, and indigeneity work in different ways for people in contemporary United States society. Only one of the following may be counted: African and African Diaspora Studies 374D (Topic: Black Native Relations in the U.S.), American Studies 321 (Topic: Black Native Relations in the U.S.), Anthropology 324L (Topic: Black Native Relations in the U.S.), Anthropology 324L (Topic 54).

**Topic 55: Language, Culture, and the Texas German Experience.** Same as American Studies 370 (Topic 47), German, Scandinavian, and Dutch Studies 351C, and Linguistics 373 (Topic 10). The evolution of the culture and language of German immigrants to Texas from the 1840s through the present and how they have influenced other ethnic groups in Texas. Three lectures a week for one semester. Only

**Topic 56: Ethnographic Writing.** Writing workshop consisting of a series of exercises to add density and texture to ethnographic description by including attention to scene, character, event, situation, and dialogue. Only one of the following may be counted: Anthropology 324L (Topic: Ethnographic Writing), 324L (Topic: Writing Ethnography), 324L (Topic 56). Additional prerequisite: Upper-division standing.

**Topic 57: Archaeology of Climate Change.** Same as Geography 321L. Examines why climate changes, the methods for recording climate change, and includes case studies of the varied responses of past human societies to climate change in different geographic regions and time periods with varying socio-political and economic systems. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Archaeology of Climate Change), 324L (Topic 57), Geography 321L, 356 (Topic: Archaeology of Climate Change). Additional prerequisite: Upper-division standing.

**Topic 58: Digital Data Systems in Archaeology.** Designed to help students understand the basic knowledge and skills needed to operate digital equipment (e.g. GPS and Total Data Stations) commonly used for collecting location data on archaeological sites. Instruction on mapping and grid systems translates into "hands-on" instrument operation in simulated archaeological field conditions. Provides an introduction to GIS software and its applications in archaeology as well as an overview of near-surface sensing techniques. Anthropology 324L (Topic: Digital Data Systems in Archaeology) and 324L (Topic 58) may not both be counted. Additional prerequisite: Upper-division standing.

**Topic 59: Graffiti and Poster Art in the Islamic World.** Same as Middle Eastern Languages and Cultures 321 (Topic 36), Middle Eastern Studies 342 (Topic 44), Religious Studies 359C, and Women's and Gender Studies 340 (Topic 67). Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic 59), Islamic Studies 373 (Topic 17), Middle Eastern Languages and Cultures 321 (Topic 36), Middle Eastern Studies 342 (Topic 44), Religious Studies 358 (Topic 21), 359C, Women's and Gender Studies 340 (Topic 67). Additional prerequisite: Upper-division standing.

**Topic 63: Food and Culture.** Examines cultural and linguistic views on eating and how we talk about what we eat in the contemporary era. Combines scholarly literature, videos, and readings about food subjects that circulate in popular culture, and considers how flows of dietary images and discourses shape race/ethnicity, gender, social class, and other identifications. Anthropology 324L (Topic: Food and Culture) and 324L (Topic 63) may not both be counted. Prerequisite: Upper-division standing.

**Topic 64: The Bronze Age and the Iron Age in Atlantic Europe.** Introduction to the archaeology of Atlantic Europe with particular emphasis on the Bronze Age and Iron Age periods. Examines the diversity and commonalities of European adaptations, investigates how geography influenced trade of goods and ideas, as well as the profound changes brought about by a new conceptualization of the world and the innovations of the Bronze and Iron Ages. Anthropology 324L (Topic: Bronze Age and Iron Age Atlantic Europe) and 324L (Topic 64) may not both be counted. Prerequisite: Upper-division standing.

**Topic 65: Anthropology for Liberation.** Same as African and African Diaspora Studies 351T. Takes a critical look at anthropologists’ quests to shifting the legacy of anthropology from the colonial toward freedom and liberation. Explores anthropology’s relationship to human rights, violence, questions of race, gender, and sexuality, imperialism and neoliberalism, and the ways that some anthropologists have chosen to use their field work in new and different ways. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 351T, 372C (Topic: Anthropology for Liberation), 372C (Topic 8), Anthropology 324L (Topic: Anthropology for Liberation), 324L (Topic 65), Women’s and Gender Studies 340 (Topic: Anthropology for Liberation). Additional prerequisite: Upper-division standing.

**Topic 66: Indigenizing Queer Theory.** Introduction to emerging work by indigenous queer theorists, largely from the United States. Examines cultural conflicts between the west and indigenous world views and practices surrounding monogamy and marriage, same-sex marriage, enforced gender binaries, sexual identities and practices, their regulation by the colonial state, and implications for indigenous people. Only one of the following may be counted: Anthropology 324L (Topic: Indigenizing Queer Theory), 324L (Topic 66), Women and Gender Studies 335 (Topic: Indigenizing Queer Theory). Prerequisite: Upper-division standing.

**Topic 68: Creation and Evolution: Human Origins in Scientific and Religious Discourses.** Same as Religious Studies 373J. Examines evolutionary theory, intelligent design, and creationism, and how they interact. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Creation and Evolution in America), 324L (Topic 68), Religious Studies 346 (Topic: Creation and Evolution), 373 (Topic 8), 373J. Additional prerequisite: Upper-division standing.

**Topic 69: Japanese Concepts of Body and Self.** Same as Asian Studies 372N and Religious Studies 352S. Exploration of anthropological literature describing Japanese conceptions of self and body, and analysis of the intersection of these conceptions of self with Japanese ideas about religion, morality, aging, and medicine. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Japanese Concepts of Body and Self), 324L (Topic 69), Asian Studies 372 (Topic 41), 372N, Religious Studies 352 (Topic 8), 352S. Additional prerequisite: Upper-division standing.

**Topic 71: Extraterrestrial Intelligence: Culture, Religion, and Imagination.** Same as Religious Studies 373K. Focusing primarily on the 20th and 21st Centuries, explores the search for extraterrestrial intelligence (SETI) and considers how these ideas have intersected with other aspects of society, particularly religion, including recent arguments that SETI itself has developed into a religion. Examines meanings and motivations behind issues such as Percival Lowell’s quest to prove the existence of canals on Mars and the development of Scientiology. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Sentience, Culture, and Religion: SETI), 324L (Topic 71), Religious Studies 373 (Topic: Sentience, Culture, and Religion: SETI), 373 (Topic 9), 373K. Additional prerequisite: Upper-division standing.

**Topic 72: Development, Security, and Society.** Explores the linkages between development, security, and society. Examines a series of recent transformations that have drawn the relationship between international development and various forms of security together. Through an exploration of recent anthropological work, examines subjects such as: human security, the relationship between development and humanitarian intervention, strategies for planning in the face of climate change, disaster management, and new technologies of warfare and security. Anthropology 324L (Topic: Human Securities/Insecurities) and 324L (Topic 72) may not both be counted. Additional prerequisite: Upper-division standing.

**Topic 73: Political Ecology.** Introduction to core tenets of political ecology. Focuses on ethnographic approaches and introduces key debates in the field—such as the relationship between environment and violence, the critique of Malthusian and neo-Malthusian notions of
scarcity and limits, the links between conservation and dispossession, and more. Explores the uses of political ecology in key contemporary debates over social and environmental change, from climate change to waste management. Anthropology 324L (Topic: Political Ecology) and 324L (Topic 73) may not both be counted. Additional prerequisite: Upper-division standing.

**Topic 74: Inca World.** Same as Latin American Studies 324L (Topic 18). Explores how Inca civilization developed, how the Incas grew from a small highland state into a mighty empire, and how a small number of Spaniards and their allies were able to bring the Inca dynasty to an end. Read accounts of the Incas written in the first years of Spanish colonial rule, and review the latest archaeological discoveries. Only one of the following may be counted: Anthropology 324L (Topic: Inca World), 324L (Topic 74), Latin American Studies 324L (Topic: Inca World), 324L (Topic 18). Additional prerequisite: Upper-division standing.

**Topic 75: Arab Latin Americas.** Same as Latin American Studies 324L (Topic 22). Examine the ways in which Arab immigrant identities have been negotiated and co-opted socially, but also institutionally, in various countries in the Western Hemisphere. Only one of the following may be counted Anthropology 324L (Topic: Arab Latin Americas), 324L (Topic 75), Latin American Studies 324L (Topic 22). Additional prerequisite: Upper-division standing.

**Topic 76: Indigenous Peoples of Russia and the USSR.** Same as Russian, East European, and Eurasian Studies 345 (Topic 11). Examine an introduction to theories of colonial critique and visual culture studies. Explore the history of the indigenous peoples of the Eurasian north. Only one of the following may be counted: Anthropology 324L (Topic: Indig People: Rus and USSR), 324L (Topic 76), Russian, East European, and Eurasian Studies 345 (Topic 11). Additional prerequisite: Upper-division standing.

**Topic 78: Black Women and the State.** Same as African and African Diaspora Studies 360E, Latin American Studies 324L (Topic 17), and Women's and Gender Studies 340 (Topic 7). Surveys black women's experiences living with and confronting state oppression around the world. Takes an historical, social, and theoretical look at the roots of this oppression and inequality, and how black women have chosen to respond to it locally and globally. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 360E, 372F (Topic 11), 372F (Topic 12), Anthropology 324L (Topic 78), Latin American Studies 324L (Topic 17), Women's and Gender Studies 340 (Topic 7), 340 (Topic 63). Additional prerequisite: Upper-division standing.

**ANT 324N. Muslim Women in Politics.** Same as Middle Eastern Studies 341 (Topic 12), Religious Studies 358D, and Women's and Gender Studies 340 (Topic 56). Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Muslim Women in Politics), 324N, Islamic Studies 372 (Topic 23), Middle Eastern Studies 341 (Topic 12), Religious Studies 358 (Topic 19), 358D, Women's and Gender Studies 340 (Topic 56). Prerequisite: Upper-division standing.

**ANT 324O. Globalization in Latin America.** Same as Latin American Studies 324L (Topic 19). Critically examine the globalization phenomenon in Latin America, focusing on history and ethnography. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Globalization in Latin Amer), 324O, Latin American Studies 324L (Topic: Globalization in Latin Amer), 324L (Topic 19). Prerequisite: Upper-division standing.

**ANT 324P. Gender and Labor in Global Asia.** Same as Asian Studies 379 (Topic 12) and Women's and Gender Studies 340 (Topic 93). Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Gender & Labor in Global Asia), 324P, Asian American Studies 379 (Topic: Gender & Labor in Global Asia), 379 (Topic 12), Women's and Gender Studies 340 (Topic: Gender & Labor in Global Asia), 340 (Topic 93). Prerequisite: For Asian studies majors, twelve semester hours of upper-division coursework in Asian studies; for others, upper-division standing.

**ANT 324Q. Global Perspectives of Health, Illness, and Inequality.** Same as Russian, East European, and Eurasian Studies 345 (Topic 17). Use an anthropological framework to think critically and analytically about global past and contemporary issues in health. Examine the root causes of health, illness, and inequality. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324Q, Russian, East European, and Eurasian Studies 345 (Topic: Glbl Persp Hlth/Ill/Inequal), 345 (Topic 17). Prerequisite: Upper-division standing.

**ANT 324R. Daily Life in Mesoamerica.** Same as Latin American Studies 324Q. Examine the daily life of people in Mesoamerica, from the earliest inhabitants in the region to the myriad ways that Precolumbian life and archaeology affect the lives of people today. Three lecture hours a week for one semester. Only one of the following may count: Anthropology 324L (Topic: Daily Life in Mesoamerica), 324R, Latin American Studies 324L (Topic: Daily Life in Mesoamerica), 324Q. Prerequisite: Upper-division standing.

**ANT 324U. Socialism's Past and Futures.** Same as History 326E and Russian, East European, and Eurasian Studies 335 (Topic 35). Examine ordinary people's experience of socialism in the Soviet Union and the plural interpretations of this experience after the USSR's collapse. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324U, History 326E, 366N (Topic: Socialism's Past and Futures), Russian, East European, and Eurasian Studies 335 (Topic 35). Prerequisite: Upper-division standing.

**ANT 324V. Sexuality in Global Perspective.** Same as Latin American Studies 324G and Women's and Gender Studies 335 (Topic 14). Explore the ways in which sexuality intersects with money, intimacy, power, and labor in the context of global economic processes. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Sexuality in Global Persp), 324V, Latin American Studies 324G, Women's and Gender Studies
335 (Topic: Sexuality in Global Persp), 335 (Topic 14). Prerequisite: Upper-division standing.

**ANT 324W. Mapping Indigenous Austin.**
Same as American Studies 324L. Explore the histories and presence of indigenous Austin. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 324L, Anthropology 324L (Topic: Mapping Indigenous Austin), 324W. Prerequisite: Upper-division standing.

**ANT 325C. Cultures of Sustainability.**
Examine how ecological concerns are articulated and perceived in different cultural contexts. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 325C, 325L (Topic: Cultures of Sustainability), 325L (Topic 19). Prerequisite: Upper-division standing.

**ANT 325D. Representation of Jews in the American Public Sphere.**
Same as Jewish Studies 365 (Topic 11) and Religious Studies 346L. Examines how Jews have been represented and constituted in American public culture as a race, religion, and/or nation through distinct institutions and display practices. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 325D, 325L (Topic 13), Jewish Studies 365 (Topic 11), Religious Studies 346 (Topic 8), 346L. Prerequisite: Upper-division standing.

**ANT 325E. Ethnographies of Emotion.**
Examine concepts such as place, character, objects, subjects, cultural forms, everyday life, and feeling states or structures such as trauma, love, hope, depression, the even keel, and melodrama through a writing workshop. Explore how to articulate structures of feeling with models of culture and the self. Analyze and experiment with modes of ethnographic attention, the importance of telling detail, and methods of participant observation. Three lecture hours a week for one semester. Anthropology 325E and 325L (Topic 18) may not both be counted. Prerequisite: Upper-division standing.

**ANT 325F. Cultural Heritage on Display.**
Same as American Studies 321S. Explore the public construction and display of traditional American folk culture by studying popular folk-life-oriented tourist sites. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: Cultural Heritage on Display), 321S, Anthropology 325F, 325L (Topic 11). Prerequisite: Upper-division standing.

**ANT 325G. Technoculture.**
Analyze social groups using digital methods and a process of self-reflection focused on technological mediations of experience. Three lecture hours a week for one semester. Anthropology 325G and 325L (Topic: Technoculture) may not both be counted. Prerequisite: Upper-division standing.

**ANT 325L. Sonic Ethnography.**
Examine sound, themes of listening, noise, silence, audio technology, vibration, and voice. Three lecture hours a week for one semester. Anthropology 324L and 324L (Topic: Sonic Ethnography) may not both be counted. Prerequisite: Upper-division standing.

**ANT 325J. The Photographic Image.**
Applies concepts and practices from visual ethnography to the study of memory, place, and everyday life. Subjects include developing counterintuitive and subversive approaches to practices of looking and techniques of representation. Two lecture hours and two lab hours a week for one semester. Anthropology 325L (Topic: The Photographic Image) and 325J may not both be counted. Prerequisite: Upper-division standing.

**ANT 325O. American Jewish Material Culture.**
Same as Jewish Studies 365 (Topic 12) and Religious Studies 346N. Examines the interplay between material culture and Jewish identity and thought in contemporary America. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 325L (Topic 17), 325O, Jewish Studies 365 (Topic 12), Religious Studies 346 (Topic 9), 346N. Prerequisite: Upper-division standing.

**ANT 325P. Abolition Medicine.**
Same as African and African Diaspora Studies 360M. Examine race-based diagnostics tools and treatment guidelines that reinforce antiquated and scientifically inaccurate notions of biological race. Discuss the upstream structures that enable downstream violence, such as police brutality. Analyze, through an abolitionist lens, various systems of power in medicine, culture, and society to trace the colonial logics, practices, and institutions in the afterlife of slavery pertaining to health, illness and disease, healthcare, and public health in the United States and globally. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 360M, 370 (Topic: Abolition Medicine, Anthropology 325P. Prerequisite: Upper-division standing.

**ANT 325Q. Practices of Looking.**
Explore the development of methodological and analytic tools for the examination of visual culture. Three lecture hours a week for one semester. Anthropology 325L (Topic 15) and 325Q may not both be counted. Prerequisite: Upper-division standing.

**ANT 325R. Cultures and Ecologies.**
Same as Russian, East European, and Eurasian Studies 345 (Topic 8). Examines the anthropology of "nature" and "natural resources," with particular attention to the communities in the arctic and subarctic regions. Use ethnographies to learn about the cultures of peoples who inhabit northern latitudes, especially their cosmological modes of belief and their ecological ways of life. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 325L (Topic: Cultures and Ecologies), 325L (Topic 16), 325R, Russian, East European, and Eurasian Studies 345 (Topic: Cultures and Ecologies), 345 (Topic 8). Prerequisite: Upper-division standing.

**ANT 325S. Global Black Feminisms.**
Same as African and African Diaspora Studies 345W and Latin American Studies 324L (Topic 23). Examine Black feminist theories and practices around the world from a transnational and comparative perspective. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 345W, 370 (Topic: Global Black Feminisms), Anthropology 325S, Latin American Studies 324L (Topic 23). Prerequisite: Upper-division standing.

**ANT 325T. Jewish Folklore.**
Same as German, Scandinavian, and Dutch Studies 361W, Jewish Studies 363 (Topic 25), and Religious Studies 357P. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 325L (Topic: Jewish Folklore), 325T, German, Scandinavian, and Dutch Studies 360 (Topic: Jewish Folklore), 361W, Jewish Studies 363 (Topic: Jewish Folklore), 363 (Topic 25), Religious Studies 357 (Topic: Jewish Folklore), 357P. Prerequisite: Upper-division standing.

**ANT 325U. Austin Jews in the Civil Rights Era.**
Same as American Studies 324J and Jewish Studies 364 (Topic 14). Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: UT Jews in Civil Rights

**ANT 325V. Jewish Cuba.**

Same as Jewish Studies 365 (Topic 16), Latin American Studies 324S, and Religious Studies 366E. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Jewish Cuba), 325V, Jewish Studies 365 (Topic: Jewish Cuba), 365 (Topic 16), Latin American Studies 324L (Topic: Jewish Cuba), 324S, Religious Studies 366 (Topic: Jewish Cuba), 366E. Prerequisite: Upper-division standing.

**ANT 325W. Shamanism and the Primitive.**

**ANT 326C. Native Americans in Texas.**

Same as American Studies 321G. Studies the history of Native Americans in Texas using concepts and evidence from anthropology, history, archaeology, historical geography, and Native American studies. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: Native Americans in Texas), Anthropology 324L (Topic: Native Americans in Texas), 326C. Prerequisite: Upper-division standing.

**ANT 326D. Native Americans in the Plains.**

The ethnohistory of some of the most influential Native American groups on the plains, from the arrival of the Spanish through the reservation period. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 321 (Topic: Native Americans in the Plains), Anthropology 324L (Topic: Native Americans in the Plains), 326D, History 365G (Topic: Native Americans in the Plains). Prerequisite: Upper-division standing.

**ANT 326E. Plains Archaeology: Prehistory and History.**

Explores the evidence of human activities on the central and southern plains from prehistoric to historical times (ca. 11,000 BC to ca. AD 1850). Three lecture hours a week for one semester. Anthropology 324L (Topic: Plains Archaeology: Prehistory and History) and 326E may not both be counted. Prerequisite: Upper-division standing.

**ANT 326F. Great Discoveries in Archaeology.**

Same as European Studies 346 (Topic 2: Great Discoveries in Archaeology). The stories, myths, and people behind some of the great archaeological discoveries. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 324L (Topic: Great Discoveries in Archaeology), Anthropology 326F, European Studies 346 (Topic 2). Prerequisite: Upper-division standing.

**ANT 326G. Europe Via Ethnography.**

Same as European Studies 346 (Topic 41). Develop a geographical and historical orientation to Europe and examine the cultural complexity of Europe via ethnography. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 325L (Topic: Europe via Ethnography), 325U, European Studies 346 (Topic: Europe via Ethnography), 326 (Topic 41). Prerequisite: Upper-division standing.

**ANT 326I. Traveling Culture.**

Same as Russian, East European, and Eurasian Studies 325 (Topic 43). Explore mobility as a point of inquiry into questions of identity, community, belonging, place and landscape, art, representation, cultural difference, experience, and history. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 325L (Topic 14), 326I, Russian, East European, Eurasian Studies 325 (Topic 43). Prerequisite: Upper-division standing.

**ANT 326J. Historic Artifacts.**

Explore the archaeological process of identification and classification of historic artifacts. Three lecture hours a week for one semester. Anthropology 324L (Topic: Historic Artifacts) and 326J may not both be counted. Prerequisite: Upper-division standing.

**ANT 326L. Cultures in Contact.**

Same as Latin American Studies 324L (Topic 21). History of the interactions of the indigenous peoples of the Americas with Africans, Asians, and Europeans over the past five hundred years. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 326L, Latin American Studies 324L (Topic: Cultures in Contact), 324L (Topic 21). Prerequisite: Upper-division standing.

**ANT 326M. Sustainable Maya Geographies - Past to Future.**

Same as Geography 324M and Latin American Studies 330 (Topic 6). Explore landscapes, conservation, and human-environment dynamics in the Maya region of Central America from more than 10,000 years ago to modern times. Compare sustainable practices from the past with those of indigenous Maya communities today to guide the future. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 325M, Geography 324M, 356T (Topic: Sust Maya Geog: Past to Future), Latin American Studies 330 (Topic 6). Prerequisite: Upper-division standing.

**ANT 326N. Cultural Resource Management.**

Explore a thorough overview of Cultural Resource Management (CRM). Designed for students who are interested in pursuing a career in archaeology. Three lecture hours a week for one semester. Anthropology 324L (Topic: Cultural Resource Management) and 326N may not both be counted. Prerequisite: Upper-division standing.

**ANT 326O. Empires: Aztec and Spanish.**

Same as Latin American Studies 322L. Examine the daily life of people in the Mexico (commonly known as Aztec) empire after the Spanish conquest. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 310L (Topic: Aztecs and Spaniards), 310L (Topic 9), 326O, Latin American Studies 315 (Topic: Aztecs and Spaniards), 322L. Prerequisite: Upper-division standing.

**ANT 326P. Historical Archaeology.**

Explore recent theoretical, methodological, and thematic developments in historical archaeology with particular focus in North America and the Caribbean. Three lecture hours a week for one semester. Anthropology 324L (Topic: Historical Archaeology) and 326P may not both be counted. Prerequisite: Upper-division standing.

**ANT 326Q. Archaeological Field and Lab Methods.**

Introduction to field and laboratory work in archaeology including survey, excavation, artifact processing and cataloging, and initial artifact or sample analysis. Three lecture hours a week for one semester. Anthropology 324L (Topic: Archaeology Field Lab Methods) and Anthropology 326Q may not both be counted Prerequisite: Upper-division standing.
ANT 326R. Latina/o/x Citizenship.
Same as Government 371V, Mexican American Studies 364M, and Sociology 323L. Explore the concepts of membership, belonging, immigration and citizenship in the Latina/o/x experience. Examine how historically, politically, socially and culturally, Latinas/os/xs have been construed as belonging or not belonging members of the United States society. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 326R, Government 371V, Mexican American Studies 364M, Sociology 323L. Prerequisite: Upper-division standing.

ANT 326T. Displacement and Resistance.
Same as African and African Diaspora Studies 360N, American Studies 370 (Topic 80), and Women's and Gender Studies 345Q. Explore technologies of displacement, as well as tactics, digital media work, mapping projects, and activism that communities engage with to resist dispossession. Examine, locally and globally, the displacement and resistance effects of various events including infrastructure projects and gentrification. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 360N, American Studies 370 (Topic: Tech Of Displcmt/Resistn), 370 (Topic 80), Anthropology 326T, Women’s and Gender Studies 345Q. Prerequisite: Upper-division standing.

ANT 327D. Colonial Latin American Archaeology.
Same as Latin American Studies 324L (Topic 13). Focuses on the Spanish colonies in Latin America. Three lecture hours a week for one semester. Anthropology 327D and Latin American Studies 324L (Topic 13) may not both be counted.

ANT 328C. Contemporary Issues in Native American and Indigenous Studies.
Examine structures of settler colonialism and how indigenous peoples resist those structures. Three lecture hours a week for one semester. Anthropology 324L (Topic: Cont Iss Natv Am Indig Stud) and 328C may not both be counted. Prerequisite: Upper-division standing.

ANT 328D. Popular Culture and Indigenous Futurities.
Examine indigenous creative practices within and in response to mainstream popular culture. Three lecture hours a week for one semester. Anthropology 324L (Topic: Pop Cul and Indig Futurities) and 328D may not both be counted. Prerequisite: Upper-division standing.

ANT 328E. Decolonial Intersectionality.
Examine the concept of intersectionality within feminist thinking to analyze gender, race, and indigeneity in the context of ongoing colonial formations. Three lecture hours a week for one semester. Anthropology 324L (Topic: Decolntntntlntnctnlty) and 328E may not both be counted. Prerequisite: Upper-division standing.

ANT 328F. Religion and Family in Japanese Society.
Same as Asian Studies 361 (Topic 38) and Religious Studies 352F. Explores the structures of family, kinship, and religion in Japan since 1868 and their roles in the creation and expression of national and individual identities. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 328F, Asian Studies 361 (Topic 38), Religious Studies 352 (Topic 9), 352F. Prerequisite: Upper-division standing.

ANT 328G. Coloniality in West Africa.
Same as African and African Diaspora Studies 340W. Study the changes and continuities of socio-political categories in African contexts from the period of formal colonial rule to the present day. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 340W, Anthropology 324L (Topic: Coloniality in West Africa), 328G. Prerequisite: Upper-division standing.

ANT 328I. Expressive Arts of Global Africa.
Explore a comparative approach to understanding how and why food is a central component of contemporary sovereignty discourse. Three lecture hours a week for one semester. Anthropology 324L (Topic: Native Food Sovereignty) and 328J may not both be counted Prerequisite: Upper-division standing.

ANT 328J. Native Food Sovereignty.
Explore a comparative approach to understanding how and why food is a central component of contemporary sovereignty discourse. Three lecture hours a week for one semester. Anthropology 324L (Topic: Native Food Sovereignty) and 328J may not both be counted Prerequisite: Upper-division standing.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Anthropology. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

ANT 330C. Theories of Culture and Society.
Examination of the theoretical approaches that have established the intellectual foundations of contemporary sociocultural anthropology. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

ANT 342L. Primate Anatomy.
Comparative and functional anatomy of primates, including humans; emphasis on adaptations and evolution of the various taxa. Three lecture hours and two laboratory hours a week for one semester. Prerequisite: Anthropology 301.

ANT 336L. Native American Cultures North of Mexico.
Same as American Studies 321 (Topic 3: Native American Cultures North of Mexico). Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

ANT 340C. Ethnographic Research Methods.
Introduction to methods used in conducting ethnographic research; emphasis on research design, analysis, writing, and ethical considerations. Three lecture hours a week for one semester. Prerequisite: Anthropology 302, 305, or 307.

Films viewed and discussed. How is cultural meaning communicated? What systems of signification are involved? What are possibilities and limitations of ethnographic films? Three lecture hours a week for one semester. Prerequisite: Anthropology 302, 305, or 307.

ANT 345C. Urban Cultures.
The culture of cities, including the distinctive forms of expressive culture, ethnic and racial conflict, and political or economic activity that cities generate. Three lecture hours a week or two lecture hours and one discussion hour a week for one semester. Prerequisite: Upper-division standing.
ANT 346L. Primate Social Behavior.
Same as Women's and Gender Studies 323C. Studies primate behavior and why primates do what they do, including basic theoretical principles and the models used to explain primate behavior. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 346L, Women's and Gender Studies 323 (Topic: Primate Social Behavior), 323C. Prerequisite: Anthropology 301.

ANT 346M. Comparative Primate Ecology.
The basics of how organisms interact with their environment, focusing on a wide range of primates from a comparative perspective. Discusses how various aspects of ecology are used to conserve primate populations. Three lecture hours a week for one semester. Prerequisite: Anthropology 301.

ANT 347C. Methods in Primate Biology.
The study of primate behavior and the methods by which animal behavior is observed and documented. Students conduct a research project and write a report. One lecture hour and three laboratory hours a week for one semester. Prerequisite: Anthropology 301 and upper-division standing.

Detailed examination and analysis of morphological trends evident in the hominin fossil record. Two lecture hours and two laboratory hours a week for one semester. Prerequisite: Anthropology 301.

ANT 348C. Sex Violence Power.
Explore the diversity of power relationships and structures across primates, the methods used to document and analyze them, and the theories for why they arise. Three lecture hours a week for one semester. Anthropology 324L (Topic: Sex Violence Power) and 348C may not both be counted. Prerequisite: Upper-division standing.

ANT 348I. Comparative Primate Development.
Explore "life history theory" and how it pertains to the traits related to growth and reproduction, life, and death in primates. Three lecture hours a week for one semester. Anthropology 348I and 348K (Topic: Comparative Primate Development) may not both be counted. Prerequisite: Anthropology 301 and upper-division standing.

ANT 348J. Sex and Human Nature.
Same as Women's and Gender Studies 323D. Provides an introduction to the scientific study of sexual behavior, mate choice, and reproduction in humans from the perspective of evolutionary biology; examines a wide range of genetic, ecological, social, physiological, and behavioral aspects of human sexuality. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 348J, 348K (Topic 12), Biology 337 (Topic: Sex and Human Nature), Women's and Gender Studies 323 (Topic: Sex and Human Nature), 323D. Prerequisite: Anthropology 301.

ANT 348K. Current Topics in Biological Anthropology.
An in-depth study of current topics, controversies, and literature on the evolution, morphology, genetics, and behavioral ecology of primates, including humans. Three lecture hours a week for one semester; additional hours may be required for some topics. May be repeated for credit when the topics vary. Prerequisite: Anthropology 301.

Topic 11: Early Hominid Evolution. Examines the early stages of human evolution in Africa starting from the last common great ape ancestor through the origin of the genus Homo, looking at the behavioral and morphological adaptations that characterize the earliest stages of human evolution. Anthropology 348K (Topic: Early Hominid Evolution) and 348K (Topic 11) may not both be counted.

ANT 349C. Human Variation.
The patterns of biological variation within and between human populations. Examines physical, genetic, and behavioral traits, and considers both the microevolutionary and cultural processes that influence those traits. Three lecture hours a week for one semester. Anthropology 348K (Topic: Human Variation) and 349C may not both be counted. Prerequisite: Anthropology 301.

ANT 349D. Anthropological Genetics.
Basic principles of molecular genetics and population genetics as they relate to the study of humans and other primates. Three lecture hours a week for one semester. Anthropology 348K (Topic: Anthropological Genetics) and 349D may not both be counted. Prerequisite: Anthropology 301.

ANT 350C. Primate Sensory Ecology.
An integrated perspective on the comparative anatomy, physiology, and ecological significance of sensory adaptations in primates. Three lecture hours a week for one semester. Prerequisite: Anthropology 301.

ANT 351E. Primate Evolution.
Examination of the fossil record for nonhuman primate evolution, including basic concepts of the anatomy, ecology, and systematics of living primates. Three lecture hours a week for one semester. Prerequisite: Anthropology 301.

ANT 453. Archaeological Analysis.
Derivation of chronology and cultural information from archaeological data; the role of archaeology in modern life. Four lecture hours a week for one semester. Prerequisite: Anthropology 304.

ANT 353E. Archaeological Laboratory Analysis.
The analysis of artifacts, features, architecture, and other remains recovered in the field. Four and one-half laboratory hours a week for one semester. Anthropology 324L (Topic: Archaeological Laboratory Analysis) and 353E may not both be counted. Prerequisite: Anthropology 662.

ANT 358Q. Supervised Research.
Individual instruction. Prerequisite: Upper-division standing.

ANT 360K. The Civilization of the Maya.
Same as Latin American Studies 324L (Topic 10: The Civilization of the Maya). Maya prehistory and history: the archaeological record, codices and inscriptions, and Spanish conquest writings. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

ANT 662. Field Archaeology.
Two hundred and forty hours of fieldwork. May be repeated for credit, but may be taken only once on the letter-grade basis. May be repeated for credit.
ANT 362K. Archaeology of Texas and Vicinity.
Cultural history of Texas and neighboring areas, from early prehistoric times to Anglo-American settlements. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

ANT 462M. Archaeological Techniques.
Problems in planning, organizing, and carrying out archaeological surveys and excavations. Four lecture hours a week for one semester. Prerequisite: Anthropology 453.

ANT 366. Anatomy and Biology of the Human Skeleton.
Comprehensive study of the human skeleton, with special attention to methods of identification. One lecture hour and four laboratory hours a week for one semester. Prerequisite: Upper-division standing and Anthropology 301.

ANT 376P, 676P. Research Internship.
Restricted to anthropology majors. Supervised fieldwork in a business or community setting related to the student's career and research interests. Students conduct research and apply anthropological skills to real-world problems. Approximately 150 or 300 hours of fieldwork. May be repeated for credit, but no more than six semester hours may be counted toward the major requirement. Prerequisite: Upper-division standing and consent of instructor.

ANT 379. Problems in Anthropology.
Supervised individual research on selected problems in anthropology. Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Six semester hours of upper-division coursework in anthropology and consent of instructor.

ANT 679H. Honors Tutorial Course.
For honors candidates in anthropology. Individual reading of selected works for one semester, followed in the second semester by the writing of an honors thesis. Conference course for two semesters. Prerequisite: For 679HA, admission to the Anthropology Honors Program; for 679HB, Anthropology 679HA.

Graduate Courses

ANT 380J. Conference Course in Archaeology.
Individual instruction in specialized problems of advanced research in archaeology. Individual instruction. May be repeated for credit. Prerequisite: Graduate standing, and consent of instructor and the department prior to registering.

ANT 380K. Topics in Archaeological Method and Theory.
A major category of archaeological topics in which the emphasis is on anthropological theory pertinent to archaeological data and its interpretation. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

Topic 6: Ethnohistory and Archaeology.

ANT 382N. Geo-Archaeology and Environmental History.
Same as Geography 382K. Long-term ecology as reconstructed from settlement and land-use histories. Empirical case studies in environmental history from the Mediterranean region, the Near East, and Mesoamerica. Applications to degradation, desertification, sustainability, and global change. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 382N, Geography 356C, 382K. Prerequisite: Graduate standing.

ANT 383M. Topics in Archaeological Techniques and Procedures.
A major category of archaeological topics in which the emphasis is on techniques and procedures pertinent to the analysis of prehistoric data. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 1: Conference Course.
Topic 2: Technological Analysis: Lithics.
Topic 4: Technological Analysis: Ceramics.
Topic 6: Field Projects.

ANT 683N. Field Archaeology.
Two hundred forty hours of fieldwork. Prerequisite: Graduate standing and consent of instructor.

ANT 384M. Topics in Regional Archaeology.
Prehistoric cultural developments of a major geographical area; comparative cultural developments in ecologically similar areas. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 1: Conference Course.

ANT 386J. Conference Course in Social Anthropology.
Individual instruction in specialized problems of advanced research in social anthropology. Individual instruction. May be repeated for credit. Prerequisite: Graduate standing, and consent of instructor and the department prior to registering.

ANT 388. Topics in Biological Anthropology.
Constitutes one of two principal categories of courses in biological anthropology covering substantive studies in primate behavior, primate anatomy and evolution, human evolution, and growth and development. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

Topic 5: Primate Evolution.
Topic 7: Human Evolution.
Topic 8: Primate Anatomy.
Topic 9: Primate Behavior.
Topic 11: Hominid Paleoecology.

ANT 388C. Applied Data Analysis.
A hands-on, practical overview of methods and tools for applied data science for graduate students and senior undergraduates in the natural and social science disciplines. Three lecture hours a week for one semester. Anthropology 388 (Topic: Applied Data Analysis) and 388C may not both be counted. Prerequisite: Graduate standing.

ANT 388J. Conference Course in Biological (Physical) Anthropology.
Individual instruction in specialized problems of advanced research in biological anthropology. The equivalent of three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing, and consent of instructor and the department prior to registering.

ANT 388K. Topics in General Anthropology.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.
Topic 2: Anthropology of Education. Same as Curriculum and Instruction 380G. A study of social life in contemporary American schools from an anthropological perspective. Prerequisite: Graduate standing, and twelve semester hours of upper-division coursework in education or consent of instructor.

ANT 389. Topics in Unwritten Languages.
Intensive instruction in selected unwritten, usually aboriginal, languages. Three lecture hours and five laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

ANT 389J. Conference Course in Unwritten Languages.
Individual instruction in specialized problems in selected unwritten, usually aboriginal, languages. Individual instruction. May be repeated for credit. Prerequisite: Graduate standing, and consent of instructor and the department prior to registering.

ANT 389K. Topics in Regional Ethnography.
Anthropological surveys and analyses of societies and cultures of distinctive world areas. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 3: Conference Course.
Topic 10: Indo-European Culture and Religion.
Topic 17: Mexican America.
Topic 20: South Asia: History and Ethnography. Issues in the history and ethnography of the Indian subcontinent. Topics may include class, caste, and ethnicity; communalism and secularism; colonialism and postcolonialism; the state and ethnic violence; anthropology, Indology, and history.

ANT 391. Topics in Social Anthropology.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 4: Cultural Construction of Masculinity.
Topic 7: Researching Women in Institutions.
Topic 15: History and Anthropology.
Topic 22: Representation and Signification.
Topic 27: Consciousness and Resistance.
Topic 32: Gender, Ethnicity, and Nationalism. Same as Asian Studies 391 (Topic 4: Gender, Ethnicity, and Nationalism).
Topic 34: Ethnographies of Global Asia. Same as Asian Studies 391H. Methods and ethnographic study of transnational Asia and the Asian diaspora. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 391 (Topic: Ethnography of Global Asia), 391 (Topic 34), Asian Studies 384 (Topic: Ethnography of Global Asia), 391H. Additional prerequisite: Graduate standing.
Topic 35: Ethnographic Methods for the Study of Religion. Same as Religious Studies 383E. Explore the use of ethnographic research methods for the study of religion. Three lecture hours a week for one semester. Only one of the following may be counted: Religious Studies 383T (Topic: Ethnographic Research Methods), 383E, Anthropology 391 (Topic 35). Additional prerequisite: Graduate standing and consent of the graduate adviser.

Topic 36: The New Middle East: A Critical Approach. Same as Government 390L (Topic 23) and Middle Eastern Studies 386 (Topic 26). Examine new analytical approaches to understanding the Middle East, including its social and political dynamics, utilizing an interdisciplinary approach. Only one of the following may be counted: Anthropology 391 (Topic 36), Government 390L (Topic 23), Middle Eastern Studies 386 (Topic: New Middle East), 386 (Topic 26).

ANT 391C. Anthropology of East Asia.
Same as Asian Studies 390 (Topic 10). Explore contemporary anthropological research on East Asia, with a focus on a set of broad subjects (money, mobilities, cosmologies, media, etc.), and a consideration of what constitutes "the anthropological approach" to these subjects. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 391 (Topic: Anthropology of East Asia), 391C, Asian Studies 390 (Topic: Anthropology of East Asia), 390 (Topic 10). Prerequisite: Graduate standing.

ANT 391L. Topics in Research Methods in Physical Anthropology.
In this second major category of courses in physical anthropology are listed those that have research techniques as their principal focus. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 6: Analysis of Primate Anatomy.

ANT 392C. Core Topics in Anthropology.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

ANT 392G. AnthroLab.
Three lecture hours a week for one semester. Anthropology 392G and 392Q may not both be counted. Prerequisite: Graduate standing.

ANT 392J. Introduction to Biological Anthropology: Behavior, Genetics, and Variation.
Three lecture hours a week for one semester. Prerequisite: Graduate standing.

ANT 392K. Introduction to Graduate Archaeology.
Core course. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

ANT 392L. Introduction to Biological Anthropology: Primate Morphology and Evolution.
Three lecture hours a week for one semester. Core course for physical anthropology students. Prerequisite: Graduate standing.

ANT 392M. Introduction to Graduate Social Anthropology.
Core course. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

ANT 392N. Introduction to Graduate Linguistic Anthropology.
Same as Linguistics 396 (Topic 2: Introduction to Graduate Linguistic Anthropology). Core course. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.
ANT 392P. Introduction to Cultural Forms.
Core course. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

ANT 392R. African Diaspora Anthropology.
Three lecture hours a week for one semester. Prerequisite: Graduate standing.

ANT 392S. Introduction to Graduate Feminist Anthropology.
Core course. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

ANT 392T. Mesoamerica and Borderlands.
Three lecture hours a week for one semester. Prerequisite: Graduate standing.

ANT 393. Topics in Linguistic Anthropology.
Training and individual research in subjects concerning the relations between language and culture. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

  Topic 7: Discourse Analysis. Additional prerequisite: Consent of instructor.
  Topic 8: Ethnography of Speaking. Same as Linguistics 396 (Topic 3: Ethnography of Speaking). Additional prerequisite: Consent of instructor.
  Topic 14: Language and Power. Additional prerequisite: Consent of instructor.

ANT 393J. Conference Course in Linguistic Anthropology.
Individual instruction in specialized problems of advanced research in linguistic anthropology. Individual instruction. May be repeated for credit. Prerequisite: Graduate standing, and consent of instructor and the department prior to registering.

ANT 394J. Conference Course in Cultural Forms.
Individual instruction in specialized problems of advanced research in cultural forms. Individual instruction. May be repeated for credit. Prerequisite: Graduate standing, and consent of instructor and the department prior to registering.

ANT 394M. Topics in Folklore, Public Culture, and Cultural Studies.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

  Topic 4: Anthropology of the Performing Arts.
  Topic 13: Cultural Poetics.
  Topic 20: Field Methods in Ethnomusicology.
  Topic 26: Marxism and Expressive Culture.
  Topic 29: Object, Matter, and Desire. Examines various questions regarding matter and meaning.
  Topic 30: Affect. A survey of theories of affect, including those of Freud, Foucault, and Deleuze, feminist theory, phenomenology, globalization theory, and ethnography. Anthropology 394M (Topic: Affect) and 394M (Topic 30) may not both be counted.
  Topic 31: Public Culture. Introduction to the theory and ethnography of public culture.

ANT 395K. Cultural Adaptation and Change.
Same as Geography 395. A graduate-level introduction to cultural behavior, adaptation, evolution and transformation, with emphasis on demography, diffusion, migration, ethnicity, and institutions. Three lecture hours a week for one semester. Prerequisite: Graduate standing in anthropology, geography, or a related field, and consent of instructor.

Individual instruction for graduate students on specialized problems of advanced research. Conference course. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

ANT 397F. Doctoral Forum.
Development of skills in writing, revision, and presentation of papers and grant proposals, and in job hunting. Three lecture hours a week for one semester. Prerequisite: Graduate standing.
ANT 698. Thesis.
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in anthropology and consent of the graduate adviser; for 698B, Anthropology 698A.

ANT 398R. Master's Report.
Preparation of a report to fulfill the requirement for the master's degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in anthropology and consent of the graduate adviser.

ANT 398T. Supervised Teaching in Anthropology.
Three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses
ARA - Arabic

Lower-Division Courses
ARA 601C. Intensive Arabic I.
Not open to native speakers of Arabic. First semester of intensive Arabic language instruction. Six lecture hours a week for one semester. Only one of the following may be counted: Arabic 601C, 506, 508. Arabic 601C and 106C may not both be counted.

ARA 305. Arabic Tutorial.
The basics of the Arabic language. Individual instruction. May not be used to fulfill the foreign language requirement for any bachelor's degree. Prerequisite: Consent of the faculty coordinator.

ARA 506. First-Year Arabic I.
Not open to native speakers of Arabic. First semester of Arabic language instruction. Five lecture hours a week for one semester. Only one of the following may be counted: Arabic 601C, 506, 508. Prerequisite: Credit or registration for Arabic 106C.

ARA 106C. Conversation for First-Year Arabic I.
Not open to native speakers of Arabic. One lecture hour a week for one semester. Arabic 601C and 106C may not both be counted. Prerequisite: Credit or registration for Arabic 506.

ARA 507. First-Year Arabic II.
Not open to native speakers of Arabic. Continuation of Arabic 506. Five lecture hours a week for one semester. Only one of the following may be counted: Arabic 507, 509, 611C. Prerequisite: Arabic 506 and 106C with a grade of at least C in each, and credit or registration for Arabic 107C.

ARA 107C. Conversation for First-Year Arabic II.
Not open to native speakers of Arabic. One lecture hour a week for one semester. Arabic 107C and 611C may not both be counted. Prerequisite: Arabic 506 and 106C with a grade of at least C in each, and credit or registration for Arabic 507.

ARA 508. Modern Standard Arabic I.
Designed to provide students with basic competence in Modern Standard Arabic, targeting the skills of speaking, reading, writing, and listening. Five lecture hours a week for one semester. Only one of the following may be counted: Arabic 601C, 506, 508.

ARA 509. Modern Standard Arabic II.
Continuation of Arabic 508. Five lecture hours a week for one semester. Only one of the following may be counted: Arabic 507, 509, 611C. Prerequisite: Arabic 508 with a grade of at least C.

ARA 611C. Intensive Arabic II.
Not open to native speakers of Arabic. Six lecture hours a week for one semester. Arabic 611C and 512K may not both be counted. If taken in residence, only one of the following may be counted: Arabic 507, 509, 611C. If taken in residence, Arabic 107C and 611C may not both be counted. Prerequisite: Arabic 601C with a grade of at least C.

ARA 112C. Conversation for Second-Year Arabic I.
Not open to native speakers of Arabic. One lecture hour a week for one semester. Arabic 112C and 621K may not both be counted. Prerequisite: Arabic 507 and 107C with a grade of at least C in each, and credit or registration for Arabic 512K.

ARA 512K. Second-Year Arabic I.
Not open to native speakers of Arabic. Five lecture hours a week for one semester. Arabic 512K and 621K may not both be counted. Prerequisite: Arabic 507 and 107C with a grade of at least C in each, and credit or registration for Arabic 112C.

ARA 512L. Second-Year Arabic II.
Not open to native speakers of Arabic. Continuation of Arabic 512K. Five lecture hours a week for one semester. Arabic 512L and 621L may not both be counted. Prerequisite: Arabic 112C and 512K with a grade of at least C in each, and credit or registration for Arabic 112D.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Middle Eastern Studies. University credit is awarded for work in an exchange program; it may be counted as coursework counted in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses
ARA 321. Introduction to Arabic Dialects.
Introduction to Arabic as spoken throughout the Arab world. Three lecture hours a week for one semester.

ARA 621K. Intensive Arabic III.
Not open to native speakers of Arabic. Six lecture hours a week for one semester. If taken in residence, only one of the following may be counted: Arabic 512K, 621K. Arabic 112C and 621K may not both be counted. Prerequisite: Arabic 611C with a grade of at least C.

ARA 621L. Intensive Arabic IV.
Not open to native speakers of Arabic. Six lecture hours a week for one semester. If taken in residence, only one of the following may be counted:...
Arabic 512L, 621L. Arabic 112D and 621L may not both be counted. 
Prerequisite: Arabic 621K with a grade of at least C.

ARA 322K. Levantine Arabic.
Not open to native speakers of Arabic. Three lecture hours a week for one 
semester. Prerequisite: Arabic 512L or 621L with a grade of at least C.

ARA 325K. Egyptian Arabic.
Not open to native speakers of Arabic. Introduction to the Egyptian 
dialect of Arabic. Three lecture hours a week for one semester. 
Prerequisite: Arabic 512L or 621L with a grade of at least C.

ARA 327K. Advanced Spoken Media Arabic I.
Development of the specialized vocabulary and skills needed in the 
media or public policy sectors of the Arab-speaking world. Three lecture 
hours a week for one semester. Prerequisite: Arabic 531L with a grade of 
at least B-.

ARA 327L. Advanced Spoken Media Arabic II.
Development of the specialized vocabulary and skills needed in the 
media or public policy sectors of the Arab-speaking world. Three lecture 
hours a week for one semester. Prerequisite: Arabic 327K with a grade of 
at least B-.

This course is used to record credit the student earns while enrolled at 
another institution in a program administered by the University's Study 
Abroad Office. Credit is recorded as assigned by the study abroad adviser 
in the Department of Middle Eastern Studies. University credit is awarded 
for work in an exchange program; it may be counted as coursework taken in 
residence. Transfer credit is awarded for work in an affiliated studies 
program. May be repeated for credit when the topics vary.

ARA 130D. Arabic across Disciplines.
Students read and discuss Arabic language materials related to the 
subject matter of another designated course. One lecture hour a week for 
one semester. No more than three semester hours may be counted 
toward the major in either Middle Eastern Studies or Middle Eastern 
Languages and Culture. May be repeated for credit. Prerequisite: Upper-
division standing and consent of instructor.

ARA 531K. Intensive Arabic V.
Not open to native speakers of Arabic. Five lecture hours a week for one 
semester. Prerequisite: Arabic 112D and 512L with a grade of at least C 
in each, or Arabic 621L with a grade of at least C.

ARA 531L. Intensive Arabic VI.
Not open to native speakers of Arabic. Sixth semester of intensive 
Arabic language instruction. Five lecture hours a week for one semester. 
Prerequisite: Arabic 531K with a grade of at least C.

ARA 360C. Arabic Readings in Classical Islamic Texts.
Three lecture hours a week for one semester. Arabic 360C and 360L 
(Topic: Ara Readings Classcl Isl Txts) may not both be counted. 
Prerequisite: Arabic 531L with a grade of at least C.

ARA 360D. Quranic Arabic.
Three lecture hours a week for one semester. Arabic 360D and 360L 
(Topic: Quranic Arabic) may not both be counted. Prerequisite: Arabic 
531L with a grade of at least C.

ARA 360E. Contemporary World Challenges.
Three lecture hours a week for one semester. Arabic 360E and 360L 
(Topic: Contemporary World Challenges) may not both be counted. 
Prerequisite: Arabic 531L with a grade of at least C.

ARA 360F. Modern Arab Cultures.
Explore the challenges of Arab youth, most notably in the economy, 
nationalism, and environmental issues. Taught in Arabic. Three lecture 
hours a week for one semester. Arabic 360F and 360L (Topic: Modern 
Arab Cultures) may not both be counted. Prerequisite: Arabic 531L with a 
grade of at least C.

ARA 360L. Topics in Arabic Language, Literature, and 
Culture.
Close textual study of prose or poetry in Arabic. Some topics may focus 
towards the cultural impact of literature and language. Three lecture hours a 
week for one semester. May be repeated for credit when the topics vary. 
Prerequisite: Arabic 531L with a grade of at least C.

This course is used to record credit the student earns while enrolled at 
another institution in a program administered by the University's Study 
Abroad Office. Credit is recorded as assigned by the study abroad adviser 
in the Department of Middle Eastern Studies. University credit is awarded 
for work in an exchange program; it may be counted as coursework taken 
in residence. Transfer credit is awarded for work in an affiliated studies 
program. May be repeated for credit when the topics vary.

This course is used to record credit the student earns while enrolled at 
another institution in a program administered by the University's Study 
Abroad Office. Credit is recorded as assigned by the study abroad adviser 
in the Department of Middle Eastern Studies. University credit is awarded 
for work in an exchange program; it may be counted as coursework taken in 
residence. Transfer credit is awarded for work in an affiliated studies 
program. May be repeated for credit when the topics vary.

ARA 130D. Arabic across Disciplines.
Students read and discuss Arabic language materials related to the 
subject matter of another designated course. One lecture hour a week for 
one semester. No more than three semester hours may be counted 
toward the major in either Middle Eastern Studies or Middle Eastern 
Languages and Culture. May be repeated for credit. Prerequisite: Upper-
division standing and consent of instructor.

ARA 531K. Intensive Arabic V.
Not open to native speakers of Arabic. Five lecture hours a week for one 
semester. Prerequisite: Arabic 112D and 512L with a grade of at least C 
in each, or Arabic 621L with a grade of at least C.

ARA 531L. Intensive Arabic VI.
Not open to native speakers of Arabic. Sixth semester of intensive 
Arabic language instruction. Five lecture hours a week for one semester. 
Prerequisite: Arabic 531K with a grade of at least C.

ARA 360C. Arabic Readings in Classical Islamic Texts.
Three lecture hours a week for one semester. Arabic 360C and 360L 
(Topic: Ara Readings Classcl Isl Ttxts) may not both be counted. 
Prerequisite: Arabic 531L with a grade of at least C.

ARA 360D. Quranic Arabic.
Three lecture hours a week for one semester. Arabic 360D and 360L 
(Topic: Quranic Arabic) may not both be counted. Prerequisite: Arabic 
531L with a grade of at least C.

ARA 360E. Contemporary World Challenges.
Three lecture hours a week for one semester. Arabic 360E and 360L 
(Topic: Contemporary World Challenges) may not both be counted. 
Prerequisite: Arabic 531L with a grade of at least C.

ARA 360F. Modern Arab Cultures.
Explore the challenges of Arab youth, most notably in the economy, 
nationalism, and environmental issues. Taught in Arabic. Three lecture 
hours a week for one semester. Arabic 360F and 360L (Topic: Modern 
Arab Cultures) may not both be counted. Prerequisite: Arabic 531L with a 
grade of at least C.

ARA 360L. Topics in Arabic Language, Literature, and 
Culture.
Close textual study of prose or poetry in Arabic. Some topics may focus 
towards the cultural impact of literature and language. Three lecture hours a 
week for one semester. May be repeated for credit when the topics vary. 
Prerequisite: Arabic 531L with a grade of at least C.
ARA 360S. Arts and Literature in Arab Societies.
Explore the role of arts and literature and how it influences Arab societies and politics. Three lecture hours a week for one semester. Arabic 360L (Topic: Arts/Lit in Arab Societies) and 360S may not both be counted. Prerequisite: Arabic 531L with a grade of at least C.

ARA 369. Conference Course in Arabic Language and Literature.
Supervised individual study of selected problems in Arabic language or literature. Conference course. May be repeated for credit. Prerequisite: Nine semester hours of upper-division coursework in Arabic and consent of instructor.

Graduate Courses

ARA 380C. Topics in Arabic Language.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing. Additional prerequisites may vary with the topic and are given in the Course Schedule.

  Topic 8: Translating Arabic Texts. Same as Middle Eastern Studies 381 (Topic 39: Translating Arabic Texts). Only one of the following may be counted: Arabic 360L (Topic 4: Translating Arabic Texts), 380C (Topic 8), Middle Eastern Studies 381 (Topic 39).

  Topic 9: Secrets of Arabic Eloquence. Examine writings on the aesthetics of the Arabic language. Three lecture hours a week for one semester. Arabic 380C (Topic 9) and 380C (Topic 8: Secrets of Arabic Eloquence) may not both be counted. Additional prerequisite: Graduate standing; and Advanced Arabic or Intermediate Arabic and consent of instructor.

ARA 381H. Intensive Graduate Language Instruction I.
Not open to native speakers of Arabic. Intensive cultural and literacy-focused training in Arabic at the beginning level in preparation for research in the Arab world or with Arabic sources. Incoming students are placed in the appropriate level by means of a departmental placement test. Six lecture hours a week for one semester. Prerequisite: Graduate standing.

ARA 381J. Intensive Graduate Language Instruction II.
Not open to native speakers of Arabic. Intensive cultural and literacy-focused training in Arabic at the low-intermediate level in preparation for research in the Arab world or with Arabic sources. Incoming students are placed in the appropriate level by means of a departmental placement test. Six lecture hours a week for one semester. Prerequisite: Graduate standing and Arabic 381H with a grade of at least B.

ARA 381K. Intensive Graduate Language Instruction III.
Not open to native speakers of Arabic. Intensive cultural and literacy-focused training in Arabic at the intermediate level in preparation for research in the Arab world or with Arabic sources. Incoming students are placed in the appropriate level by means of a departmental placement test. Six lecture hours a week for one semester. Prerequisite: Graduate standing and Arabic 381J with a grade of at least B.

ARA 381L. Intensive Graduate Language Instruction IV.
Not open to native speakers of Arabic. Intensive cultural and literacy-focused training in Arabic at the high-intermediate level in preparation for research in the Arab world or with Arabic sources. Incoming students are placed in the appropriate level by means of a departmental placement test. Six lecture hours week for one semester. Prerequisite: Graduate standing and Arabic 381K with a grade of at least B.

ARA 381M. Intensive Graduate Language Instruction V.
Not open to native speakers of Arabic. Intensive cultural and literacy-focused training in Arabic at the advanced level in preparation for research in the Arab world or with Arabic sources. Incoming students are placed in the appropriate level by means of a departmental placement test. Five lecture hours a week for one semester. Prerequisite: Graduate standing and Arabic 381L with a grade of at least B.

ARA 381N. Intensive Graduate Language Instruction VI.
Not open to native speakers of Arabic. Intensive cultural and literacy-focused training in Arabic at the advanced level in preparation for research in the Arab world or with Arabic sources. Incoming students are placed in the appropriate level by means of a departmental placement test. Five lecture hours a week for one semester. Prerequisite: Graduate standing and Arabic 381M with a grade of at least B.

ARA 382C. Topics in Arabic Linguistics and Philology.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and Arabic 531L with a grade of at least B. Additional prerequisites may vary with the topic.

  Topic 2: Grammar of the Arabic Language. Same as Linguistics 396 (Topic 7).
  Topic 3: Arab Grammarians.
  Topic 4: History of the Arabic Language. Same as Linguistics 383 (Topic 6).
  Topic 5: The Qur'an: A Linguistic Analysis.
  Topic 6: Varieties and Registers of Arabic. The historical and linguistic development of Arabic varieties and registers, past and present. Arabic 383C (Topic: Varieties and Registers of Arabic) and 382C (Topic 6) may not both be counted.
  Topic 8: Introduction to Arabic Linguistics. Introduction to the major areas of research in Arabic linguistics. Includes formal linguistics and sociolinguistics, and code-switching and dialectology.
  Topic 9: The Structure of Palestinian Arabic. A detailed examination of the syntax of Palestinian Arabic. Additional prerequisite: A graduate course in Arabic grammar or theoretical syntax.

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and Arabic 531L with a grade of at least B. Additional prerequisites may vary with the topic.

  Topic 1: Teaching Arabic as a Foreign Language. Theory and practice of foreign or second language acquisition, applied to Arabic instruction. Arabic 380C (Topic: Teaching Arabic as a Foreign Language) and 383C (Topic 1) may not both be counted.
  Topic 3: Curriculum Design in Arabic. Examines three curricular models that are widely used in teaching foreign languages: proficiency-based instruction, task-based instruction, and content-based instruction. Additional prerequisite: Arabic 383C (Topic 1).

ARA 384C. Topics in Arabic Literature.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and Arabic 531L with a grade of at least B; additional prerequisites vary with the topic.

  Topic 5: Arab Women Poets.
  Topic 6: Classical Arabic Akhbar. Examines classical Arabic prose from the perspective of the individual khabar or story, which was the
basic unit for all humanities works, and works in history, geography, zoology, cosmology, and anthropology.

**Topic 9: New Arabic Writings.**

**Topic 10: Encountering the West in Modern Arabic Literature.** Investigates the representation of the West in Arabic literature from the nineteenth century onward by examining travel narratives, novels, essays, and visual texts.

**Topic 11: Survey of Classical Arabic Literature.** Additional prerequisite: Consent of instructor.

**Topic 12: Survey of Modern Arabic Literature.** Additional prerequisite: Consent of instructor.

**ARA 386K. Advanced Spoken Media Arabic I.**

Development of the specialized vocabulary and skills needed in the media and public policy sectors of the Arab-speaking world. Three lecture hours a week for one semester. Arabic 380C (Topic: Advanced Spoken Media Arabic I) and 386K may not both be counted. Prerequisite: Graduate standing.

**ARA 386L. Advanced Spoken Media Arabic II.**

Development of the specialized vocabulary and skills needed in the media and public policy sectors of the Arab-speaking world. Three lecture hours a week for one semester. Arabic 380C (Topic: Advanced Spoken Media Arabic II) and 386L may not both be counted. Prerequisite: Graduate standing and Arabic 386K.

**ARA 387. Topics in Arab Culture.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and Arabic 531L with a grade of at least B. Additional prerequisites may vary with the topic.

**Topic 1: Contemporary Arabic Cinema.**

**ARA 388. Research Methods and Bibliography in Arabic Studies.**

Arabic classical and modern sources on a variety of subjects, as well as modern scholarship in Arabic studies both in the West and in the Arab world. Three lecture hours a week for one semester. Prerequisite: Graduate standing and Arabic 531L with a grade of at least B. Additional prerequisites may vary with the topic.

**ARA 389. Conference Course in Arabic Studies.**

Supervised individual study of selected problems in Arabic studies. Conference course. May be repeated for credit. Prerequisite: Graduate standing, and consent of instructor and the graduate adviser.

**ARA 698. Thesis.**

The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in Arabic studies and consent of the graduate adviser; for 698B, Arabic 698A.

**ARA 398R. Master’s Report.**

Preparation of a report to fulfill the requirement for the master’s degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in Arabic studies and consent of the graduate adviser.

**ARA 399W, 699W, 999W. Dissertation.**

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

**Professional Courses**

**ARC - Architecture**

**Architecture: ARC**

**Lower-Division Courses**

**ARC 001F. First-Year Interest Group Seminar.**

Restricted to students in the First-Year Interest Group Program. Basic issues in various School of Architecture disciplines. One lecture hour a week for one semester.

**ARC 308 (TCCN: ARCH 1311). Architecture and Society.**

Introduction to the social contexts, potential, and consequences of architecture and interior design. Three lecture hours and one laboratory hour a week for one semester.

**ARC 310K. Design I.**

Same as Architectural Interior Design 310K. Restricted to students in the School of Architecture. An introduction to the forms and methods of design for architects and interior designers, with an emphasis on inhabitation including body, light, and movement. Taught in a studio format by faculty members under the direction of a faculty coordinator. Three lecture hours and six laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Registration for Architectural Interior Design 311K or Architecture 311K.

**ARC 310L. Design II.**

Same as Architectural Interior Design 310L. Restricted to students in the School of Architecture. An introduction to the forms and methods of design for architects and interior designers, with an emphasis on environment, including color, material, and texture. Taught in a studio format by faculty members under the direction of a faculty coordinator. Three lecture hours and six laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Architecture 310K and 311K or Architectural Interior Design 310K and 311K with a grade of at least C in each, and registration for Architecture 311L or Architectural Interior Design 311L.

**ARC 311K. Visual Communication I.**

Same as Architectural Interior Design 311K. Restricted to students in the School of Architecture. Study and application of drawing and other communication skills for designers, including formal and spatial studies, life drawing, and perspective. Three lecture hours and three laboratory hours a week for one semester. Prerequisite: Registration for Architectural Interior Design 310K or Architecture 310K.

**ARC 311L. Visual Communication II.**

Same as Architectural Interior Design 311L. Restricted to students in the School of Architecture. Study and application of drawing and other communication skills for designers, including color, light and shadow, and projections. Employs manual and digital techniques. Three lecture hours and three laboratory hours a week for one semester. Prerequisite: Architecture 310K and 311K or Architectural Interior Design 310K and 311K with a grade of at least C in each, and registration for Architecture 310L or Architectural Interior Design 310L.

**ARC 312C. Appropriate Materials.**

Examine the underlying material framework of the built environment through the study of buildings, products, and artworks that span time and place. Emphasis is placed on works of architecture. Three lecture hours a week for one semester. Architecture 312C and 327R (Topic: Appropriate Materials-WB) may not both be counted.
ARC 312R. Topics in Introductory Design Studies.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

ARC 415K. Construction I.
Restricted to students in the School of Architecture. Introduction to building construction, materials, and structures. Three lecture hours and three laboratory hours a week for one semester. Prerequisite: The following coursework with a grade of at least C in each: Architectural Interior Design 310L and 311L, or Architecture 310L and 311L; and registration for Architectural Interior Design 320K or Architecture 321D (or 320D).

ARC 415L. Construction II.
Restricted to students in the School of Architecture. Analysis of building assemblies, envelope design, and structures. Three lecture hours and three laboratory hours a week for one semester. Prerequisite: Architecture 415K with a grade of at least C; Mathematics 408C or 408K; and Physics 302K and 102M, or 303K and 103M.

Comparative study of the architecture of the ancient world, including Asia, Africa, the Americas, and Europe. Three lecture hours and one laboratory hour a week for one semester. Prerequisite: For students in the School of Architecture, Architecture 308 with a grade of at least C.

Three lecture hours a week for one semester. Prerequisite: For students in the School of Architecture, Architecture 318K with a grade of at least C; for others, twelve semester hours of college coursework is recommended.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the academic advising coordinator in the School of Architecture. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May not be counted toward a degree in the School of Architecture. May be repeated for credit when the topics vary.

Upper-Division Courses

ARC 521G. Design VI Intermediate.
Restricted to students in the School of Architecture. Intermediate-level studio emphasizing theory, raison-d’etre, program, and overlaps with other disciplines. Fifteen studio hours a week for one semester. Only one of the following may be counted: Architecture 520G, 521G, 530T. Prerequisite: Architecture 521F, 334K, and 435K, with a grade of at least C in each; and consent of the department.

ARC 221K. Visual Communication III.
Same as Architectural Interior Design 221K. Restricted to students in the School of Architecture. Introduction to digital modeling as well as principles of digital fabrication. Includes various modes of output such as drawings, renderings, and physical models. Three lecture hours and three laboratory hours a week for one semester. Prerequisite: The following coursework with a grade of at least C in each: Architectural Interior Design 310L and 311L, or Architecture 310L and 311L; and registration for Architectural Interior Design 320K or Architecture 320D (or 320K).

ARC 323D. Design III Intermediate Studio.
Restricted to students in the School of Architecture. Explore tectonic expression through structural systems, construction methods and materiality, and spatial and formal composition at the scale of a building. Nine studio hours a week for one semester. Architecture 321D and 323D may not both be counted. Prerequisite: Architecture 310L and 311L with a grade of at least C.

ARC 523E. Design IV Intermediate Studio.
Restricted to students in the School of Architecture. Examine the relationship of city and nature, urban issues, housing, landscape, and spatial and formal composition at the scale of the city in a studio setting. Twelve studio hours a week for one semester. Architecture 521E and 523E may not both be counted. Prerequisite: Architecture 323D (or 321D), Architecture 221K, and Architecture 415K with a grade of at least C.

ARC 523F. Design V Intermediate Studio.
Restricted to students in the School of Architecture. Examine theory, raison-d’etre, program, spatial and formal composition, and overlaps with other disciplines in a studio setting. Twelve studio hours a week for one semester. Architecture 521F and 523F may not both be counted. Prerequisite: Architecture 523E (or 521E), Architecture 415L, and Architecture 333 with a grade of at least C.

ARC 326R. Topics in Design and Practice.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

ARC 326R (Topic 1: Twenty-Second-Century Materials). Architecture 326R (Topic 1) and 327R (Topic: Appropriate Materials) may not both be counted.

ARC 327C. Urban Design History, Theory, and Criticism.
Study of critical theories and practices that affect the built environment. Three lecture hours a week for one semester. Architecture 327C and 350R (Topic: Urban Design History/Theory/Criticism) may not both be counted. Prerequisite: For students in the School of Architecture, upper-division standing; for others, upper-division standing and consent of instructor.

ARC 327E. Alternative Real Estate Action.
Intersects theory and practice by performing design-build, community service/community engagement as a form of alternative real estate development. Three lecture hours a week for one semester. Architecture 327E and 350R (Topic: Alternative Real Estate Action) may not both be counted. Prerequisite: Upper-division standing.

ARC 327F. American Dream: Status Quo and Alternatives.
Three lecture hours a week for one semester. Architecture 327F and Urban Studies 352 (Topic 2) may not both be counted.

ARC 327G. Regenerative Architecture.
Three lecture hours a week for one semester. Architecture 327G and 350R (Topic: Regenerative Architecture) may not both be counted. Prerequisite: Upper-division standing.

ARC 327J. Theory of Architecture I.
Three lecture hours a week for one semester. Architecture 327J and 350R (Topic: Theory of Architecture I) may not both be counted. Prerequisite: Upper-division standing.

ARC 327P. Productions.
Same as Architectural Interior Design 327P. Designed to explore the relationships between the generation of form, space, experience, and atmosphere in the spatial practices of interior design, architecture, and art. Three lecture hours a week for one semester. Only one of the
following may be counted: Architecture 327P, 350R (Topic: Productions), Architectural Interior Design 327P. Prerequisite: For students in the School of Architecture, upper-division standing; for others, upper-division standing and consent of instructor.

**ARC 327R. Topics in Architectural Theory.**

Advanced topics in architecture and associated disciplines to encourage critical and theoretical thinking. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing.

**Topic 1: Architectural Criticism.** Architecture 327R (Topic 1) and 350R (Topic: Architectural Criticism) may not both be counted.

**Topic 2: Architectural Photography.** Architecture 327R (Topic 2) and 350R (Topic: Architectural Photography) may not both be counted.

**Topic 3: City as Form and Idea.** Architecture 327R (Topic 3) and 350R (Topic: City as Form and Idea) may not both be counted.

**Topic 4: Community Design Engagement.** Architecture 327R (Topic 4) and 350R (Topic: Community Design Engagement) may not both be counted.

**Topic 5: Design Firm Leadership.** Architecture 327R (Topic 5) and 350R (Topic: Design Firm Leadership) may not both be counted.

**Topic 6: Design of New Communities.** Architecture 327R (Topic 6) and 350R (Topic: Design of New Communities) may not both be counted.

**Topic 7: Design Process.** Architecture 327R (Topic 7) and 350R (Topic: Design Process) may not both be counted.

**Topic 8: Designing the Way We Build.** Architecture 327R (Topic 8) and 350R (Topic: Designing the Way We Build) may not both be counted.

**Topic 9: Eileen Gray and E. 1027.** Architecture 327 (Topic 9) and 350R (Topic: Eileen Gray and E.1027?) may not both be counted.

**Topic 11: Global Housing Challenge.** Architecture 327R (Topic 11) and 350R (Topic: Global Housing Challenge) may not both be counted.

**Topic 12: Light and Sustainable Design.** Architecture 327R (Topic 12) and 350R (Topic: Light and Sustainable Design) may not both be counted.

**Topic 13: Managing the Design Project.** Architecture 327 (Topic 13) and 350R (Topic: Managing the Design Project) may not both be counted.

**Topic 14: Place and Historical Imagination.** Architecture 327R (Topic 14) and 350R (Topic: Place & Historical Imagination) may not both be counted.

**Topic 15: Poetics of Building.** Architecture 327R (Topic 15) and 350R (Topic: Poetics of Building) may not both be counted.

**Topic 16: Smart, Green, and Just.** Architecture 327R (Topic 16) and 350R (Topic: Smart, Green, and Just) may not both be counted.

**Topic 18: Timber Technologies.** Architecture 327R (Topic 18) and 350R (Topic: Timber Technologies) may not both be counted.

**Topic 19: Urban Land Institute Workshop.** Architecture 327R (Topic 19) and 350R (Topic: Urban Land Institute Workshop) may not both be counted.

**Topic 20: Introduction to Urban Ecology.**

**Topic 21: Urban Agricultural Systems.**

**Topic 22: Computational Design.** Explore the theory and application of computational design. Use of software programs to develop experimental projects that uncover new tactics for the design of buildings and objects. Projects will be evaluated on their spatial and experiential potential and attention to digital craft. Architecture 327R (Topic: Computational Design) and 327R (Topic 23) may not both be counted.

**Topic 23: Race and Gender by Design.** Examine the relationship of design relative to the narratives of race, gender, and diversity. Architecture 327R (Topic: Race and Gender by Design) and 327R (Topic 24) may not both be counted.

**Topic 24: Sustainable Architectural Design.** Architecture 327R (Topic: Sustainable Arc Design) and 327R (Topic 27) may not both be counted.

**Topic 25: Architectural Computation.**

**Topic 26: Composition and Architecture.** Architecture 327R (Topic: Composition and Architecture) and 327R (Topic 26) may not both be counted.

**Topic 27: Building Matters.** Architecture 327R (Topic: Building Matters) and 327R (Topic 30) may not both be counted.

**Topic 28: Spatial Stories.** Architecture 327R (Topic: Spatial Stories) and 327R (Topic 31) may not both be counted.

**ARC 327U. Technology/Technique Sustainable Design.**

Three lecture hours a week per semester. Architecture 327U and 350R (Topic: Technol/Techniq Sustn Dsgn-Ger) may not both be counted. Prerequisite: Upper-division standing.

**ARC 328D. Advanced Drawing.**

Focus on personal design methodology by exploring multiple drawing methods, skills and approaches including manual, digital, and hybrid techniques. Refines design communication skills by pairing clearly articulated design intention with compelling drawings, and expressing them via effective verbal presentations. Three lecture hours or six laboratory hours a week for one semester. Architecture 328D and 351R (Topic: Advanced Drawing: Draw Blood) may not both be counted. Prerequisite: Upper-division standing and Architecture 523E with a grade of at least C, or consent of instructor.

**ARC 328F. Digital Drawing and Fabrication.**

Focus on advanced visual communication methodologies necessary for architectural generation, translation, and output. The equivalent of three lecture hours a week for one semester. Architecture 328F and 351R (Topic: Digital Drawing and Fabrication) may not both be counted. Prerequisite: Architecture 520L with a grade of at least C, or consent of instructor.

**ARC 328G. Design Logics: Projection and Proportion in Architecture.**

Three lecture hours a week for one semester. Architecture 328G and 351R (Topic: Dsgn Logics: Proj/Prop Arch) may not both be counted.

**ARC 328P. Prototype.**

Same as Architectural Interior Design 328P. Focus on digital fabrication as a link between architecture and product design. The equivalent of three lecture hours a week for one semester. Only one of the following may be counted: Architecture 328P, 351R (Topic: Prototype), Architectural Interior Design 328P. Offered on the letter-grade basis only. Prerequisite: Upper-division standing and Architecture 520L with a grade of at least C, or consent of instructor.

**ARC 328Q. Rendering and Animation for the Built Environment.**

Same as Landscape Architecture 341R (Topic 1). Digital visualization techniques used to model three dimensional environments and motion with digital media. Includes lectures, software demonstrations, and
projects that focus on the digital translation of spatial experience, as well as the visualization techniques associated with rendering texture, character, and environment. Three lecture hours a week for one semester. Only one of the following may be counted: Architecture 328Q, 328V, 351R (Topic: Visualization and Digital Representation in Design), Landscape Architecture 341R (Topic 1). Prerequisite: For students in the School of Architecture: upper-division standing and Architecture 521E with a grade of at least C, or consent of instructor; for others, upper-division standing or consent of instructor.

ARC 328R. Topics in Visualization and Fabrication.
Advanced topics in various methods of visual communication. The equivalent of three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Architecture 520E or 520G with a grade of at least C, or consent of instructor.

Topic 1: Building Information Modeling and Representation.
Architecture 327R (Topic: BIM Model/Represent) and 328R (Topic 1) may not both be counted.

For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing.

ARC 328W. Wood Design.
Practice on basic woodworking skills: tool sharpening, layout, millwork, joinery, gluing, sanding, and finishing. The equivalent of three lecture hours a week for one semester. Architecture 328W and 351R (Topic 11) may not both be counted. Prerequisite: Upper-division standing and Architecture 520L with a grade of at least C, or consent of instructor.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the academic advising coordinator in the School of Architecture. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May not be counted toward a degree in the School of Architecture. May be repeated for credit when the topics vary.

ARC 333. Site Design.
Restricted to students in the School of Architecture. History, theory, and technique of landscape design, with emphasis on the relationship of a building to its landscape. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

ARC 334K. Environmental Controls I.
Same as Architectural Interior Design 324K. Restricted to students in the School of Architecture. A survey of acoustics, color, light, illumination, and electrical and information systems in architectural interiors. Includes techniques of documentation. Three lecture hours and three laboratory hours a week for one semester. Architectural Interior Design 324K and Architecture 334K may not both be counted. Prerequisite: Architectural Interior Design 520L or Architecture 521E (or 520E) or 521G (or 520G) with a grade of at least C.

ARC 334L. Environmental Controls II.
Restricted to students in the School of Architecture. A survey of heating, ventilating, air conditioning, vertical transportation, and wiring and plumbing systems in buildings, including techniques of documentation. Three lecture hours and one laboratory hour a week for one semester.

Prerequisite: Architecture 334K or Architectural Interior Design 324K with a grade of at least C.

ARC 435R. Structures I.
Restricted to students in the School of Architecture. Examine theories of building construction and materials. Explore the analysis and design of structural components. Three lecture hours and three laboratory hours a week for one semester. Architecture 435K and 435R may not both be counted. Prerequisite: Upper-division standing; Architecture 415L with a grade of at least C; Mathematics 408C or 408L; and Physics 302L and 102N, or 303L and 103N.

ARC 435S. Structures II.
Restricted to students in the School of Architecture. Continue to examine theories of building behavior and materials. Explore the analysis and design of structural systems. Three lecture hours and three laboratory hours a week for one semester. Architecture 435L and 435S may not both be counted. Prerequisite: Upper-division standing and Architecture 435R with a grade of at least C.

ARC 335T. Architectural Details and Materials.
Analyze building envelope, assemblies, detailing, and specifications. Three lecture hours a week for one semester. Architecture 335M and 335T may not both be counted. Prerequisite: Architecture 435S with a grade of at least C.

ARC 342C. Mexican Architecture and Urbanism: From Pre-Columbian to Contemporary.
A survey of Mexican architecture and urbanism from its origins in pre-Columbian times to the twenty-first century. Evaluation of architecture as a cultural production intricately connected to its artistic and historical context and the landscape that supports it. Three lecture hours a week for one semester. Only one of the following may be counted: Architecture 342C, 368R (Topic: Mexican Architectural History), 368R (Topic: Mexican Architecture-UT/Mex). Prerequisite: For students in the School of Architecture, Architecture 318L with a grade of at least C; for students in art history, Latin American studies, Mexican American studies, and urban studies, upper-division standing; for all others, consent of instructor.

ARC 342E. History and Theories of Landscape Architecture I.
Same as Landscape Architecture 342K. Overview and chronological series of in-depth studies in the history of major garden cultures and designed landscapes of the Western and Eastern worlds. Introduction to methodological approaches to the formal, social, and cultural history of gardens and landscapes, as well as to relevant theoretical frameworks for interpreting these designed landscapes and for use in conceptualizing landscapes, architecture, and urban projects in studio design. Three lecture hours a week for one semester. Only one of the following may be counted: Landscape Architecture 342K, Architecture 342E, 368R (Topic: History and Theories of Landscape Architecture I). Prerequisite: Upper-division standing; for students in the School of Architecture, Architecture 318L with a grade of at least C; for others, consent of instructor.

ARC 342F. History and Theories of Landscape Architecture II.
Same as Landscape Architecture 342L. Continuation of Landscape Architecture 342K (and Architecture 342D) through the modern period to contemporary times. Formal and cultural history of gardens, parks, and public landscapes from 1700 to about 1990. Includes comparative material from the contemporary period, 1980 to 2010. Three lecture hours a week for one semester. Only one of the following may be counted: Landscape Architecture 342L; Architecture 342F or 368R (Topic: History and Theories of Landscape Architecture II). Prerequisite: Upper-division standing; for students in the School of Architecture,
Architecture 318L with a grade of at least C; for others, consent of instructor.

ARC 342K. Representing Landscape and Architecture, 1500-2015.
Same as Landscape Architecture 342R (Topic 3). Explores the roles of visual representation in design and professional practice from Leonardo da Vinci to the digital age. An overview of the history of techniques, media, and conventions of representation in architecture and landscape architecture and in their intersections. Includes some drawing and painting. Three lecture hours a week for one semester. Only one of the following may be counted: Landscape Architecture 342R (Topic 3); Architecture 342K, 368R (Topic: Representing Landscape and Architecture, 1500-2015). Offered on the letter-grade basis only. Prerequisite: Upper-division standing; for others, consent of instructor.

ARC 342R. Topics in the History of Architecture.
Seminars and lecture/seminars on advanced topics in the history of architecture. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: For students in the School of Architecture, Architecture 318L with a grade of at least C and upper-division standing; for others, upper-division standing.

Topic 1: Twentieth-Century Latin American Architecture. Architecture 342R (Topic 1) and 368R (Topic: 20th-Cen Latin American Arch) may not both be counted.
Topic 2: American Architecture. Architecture 342R (Topic 2) and 368R (Topic: American Architecture) may not both be counted.
Topic 3: Brazilian Urban. Architecture 342R (Topic 3) and 368R (Topic: Brazilian Urban Theory) may not both be counted.
Topic 4: Central European Architecture, 1648-Present. Architecture 342R (Topic 4) and 368R (Topic: Central European Architecture 1648-Present) may not both be counted.
Topic 5: German Modernism. Architecture 342R (Topic 5) and 368R (Topic: German Modernism) may not both be counted.
Topic 7: History of Building Technology. Architecture 342R (Topic 7) and 368R (Topic: History of Building Technology) may not both be counted.
Topic 8: Hybridity in Landscape/Architecture. Architecture 342R (Topic 8) and 368R (Topic: Hybridity in Landscape Architecture) may not both be counted.
Topic 9: Loos and Mies. Architecture 342R (Topic 9) and 368R (Topic: Loos and Mies) may not both be counted.
Topic 10: Modern American Design. Architecture 342R (Topic 10) and 368R (Topic: Modern American Design) may not both be counted.
Topic 12: Rome's Gardens and Landscapes. Same as Landscape Architecture 342R (Topic 1). Only one of the following may be counted: Landscape Architecture 342R (Topic 1); Architecture 342R (Topic 12), 368R (Topic: Italian Villa and Garden)
Topic 14: Professional Design Practice: Baroque Rome. Same as Landscape Architecture 342R (Topic 2). Explore an overview of the synthetic act of design and a strong interdisciplinary grounding in one of the key historical periods of design and in advanced research methods. Only one of the following may be counted:

Topic 15: African American Experience in Architecture. Architecture 342R (Topic: Afr Amer Experience in Arch) and 342R (Topic 15) may not both be counted.
Topic 16: History of American City Building. Architecture 342R (Topic: Hist of Amer City Building) and 342R (Topic 16) may not both be counted.

ARC 342S. Modern European Architecture.
Three lecture hours a week for one semester Architecture 342S and 368R (Topic: Modern European Arch-Europe) may not both be counted. Prerequisite: Upper-division standing.

ARC 342T. Advanced Architecture History.
Three lecture hours a week for one semester. Architecture 342T and ARC 368R (Topic: Advanced Architecture History-ITA) may not both be counted. Prerequisite: Upper-division standing.

ARC 342U. Modern History of Sustainable Architecture.
Three lecture hours a week for one semester Architecture 342U and 368R (Topic: Mod Hist of Sustainbl Arch-Ger) may not both be counted. Prerequisite: Upper-division standing.

ARC 350R. Topics in Design Theory.
Advanced topics in architecture and associated disciplines to encourage critical and theoretical thinking. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: For students in the School of Architecture, upper-division standing; for others, upper-division standing and consent of instructor; additional prerequisites may vary with the topic.

Topic 1: The Modern American City. Same as Geography 337 and Urban Studies 337. Issues facing residents of United States cities, such as transportation and housing, poverty and crime, metropolitan finance, environmental and architectural design; historical/comparative urban evolution. Three lecture hours a week for one semester. Only one of the following may be counted: Architecture 350R (Topic 1), Geography 337, Urban Studies 337, 352 (Topic 1). Additional prerequisite: For students in the School of Architecture, upper-division standing; for others, upper-division standing and consent of instructor.
Topic 2: Introduction to Computer Applications. Architecture 350R (Topic 3) and Urban Studies 352 (Topic 3) may not both be counted.
Topic 3: Urban Design Practice. Architecture 350R (Topic 4) and Urban Studies 352 (Topic 4) may not both be counted.
Topic 4: Modern History of Sustainable Architecture. Architecture 342U and Urban Studies 352 (Topic 4) may not both be counted.

ARC 351R. Visual Communication.
Advanced topics in various methods of visual communication. Three lecture hours or six laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Architecture 520L with a grade of at least C, or consent of instructor.

Topic 1: Computer Applications in Design. Six studio hours a week for one semester.
Topic 2: Introduction to Computer Applications. Six studio hours a week for one semester.
Topic 4: Composition, Presentation, and Portfolio. Three lecture hours a week for one semester.
Topic 5: Descriptive Geometry. Three lecture hours a week for one semester.
Topic 6: Drawing Clinic. Three lecture hours a week for one semester.
Topic 7: Introduction to Computer Imaging. Three lecture hours a week for one semester.
Topic 8: Seeing Things: General Drawing. Three lecture hours a week for one semester.
** ARC 170W, 370W. Topics in Disaster Recovery.**
For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing

** ARC 378R. Bachelor Design Study, Part I.**
Restricted to advanced design-level Bachelor of Architecture students. Independent research, planning, and prep course that must be followed by Architecture 578S. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing; must have passed Portfolio Review; GPA of at least 3.5; and an approved Bachelor Design Study (BDS) proposal.

** ARC 578S. Bachelor Design Study, Part II.**
Restricted to advanced design-level Bachelor of Architecture students. An independent studio that follows Architecture 378R. Five lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing; must have passed Portfolio Review; a GPA of at least 3.5; a grade of at least C in Architecture 378R; and an approved Bachelor Design Study (BDS) proposal.

** ARC 279, 379, 479, 579. Architectural Research.**
Investigation of problems selected by the student. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Prerequisite: Consent of instructor and an approved architectural research proposal.

**Graduate Courses**

** ARC 380C. Topics in Visualization and Fabrication.**
Advanced topics in visualization and fabrication in such media as freehand drawing, modeling, photography, computer graphics, photogrammetry, and measured drawings. Five laboratory hours a week for one semester. Architecture 480C and 481R may not both be counted. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

- **Topic 1: Living Wall: Design and Fabrication.** Architecture 380C (Topic 1) and 386M (Topic: Living Wall: Dsgn/Fabrication) may not both be counted.
- **Topic 2: Reality Capture for Architecture.** Only one of the following may be counted: Architecture 380C (Topic: Reality Capture for Arch), 380C (Topic 2), Urban Design (U D) 380C (Topic 2).
- **Topic 3: Material Info: Design through Fabrication.**
- **Topic 4: Building Information Modeling and Representation.** Architecture 380C (Topic 4) and 386M (Topic: BIM Model/Represen) may not both be counted.

** ARC 380D. Topics in Design and Practice.**
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

- **Topic 1: Twenty-Second-Century Materials.** Architecture 380C (Topic: Appropriate Materials) and 380D (Topic 1) may not both be counted.

** ARC 180R. Proseminar in Architecture.**
Study of theories related to design, livability, and sustainability in the built environment. Includes collaboration with other students and research. One lecture hour a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and admission to the Master of Architecture (postprofessional) degree program.
ARC 180V, 380V. Topics in Digital Technology and Fabrication.
For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 1: Creative Robotics. Architecture 380V (Topic: Creative Robots) and 380V (Topic 1) may not both be counted.

ARC 180W, 380W. Topics in Disaster Recovery.
For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

ARC 381D. Architectural Drawing.
Visual communication in media, such as freehand drawing, modeling, photography, and measured drawings. Five laboratory hours a week for one semester. Architecture 381D and 386M (Topic: Architectural Drawing) may not both be counted. Prerequisite: Graduate standing and consent of the graduate adviser.

ARC 381F. Digital Drawing and Fabrication.
Focus on advanced visual communication methodologies necessary for architectural generation, translation, and output. Five laboratory hours a week for one semester. Architecture 381F and 381R (Topic: Digital Drawing and Fabrication) may not both be counted. Prerequisite: Graduate standing and consent of the graduate adviser.

ARC 381T. Technical Communication.
Studio to provide skills in producing construction documents as they relate to the design and building process. Six laboratory hours a week for one semester. Prerequisite: Graduate standing, Architecture 694, and consent of the graduate adviser.

ARC 381W. Visual Communication Workshop.
Introductory workshop with a focus on developing graphic and basic design skills for the purpose of describing and communicating architectural ideas and form. Exposure to a diverse range of approaches involving freehand drawing, architectural graphic conventions, three-dimensional modeling of ideas, and an introduction to the design process. Five laboratory hours a week for one semester. Architecture 381R (Topic: Visual Communication Workshop) and 381W may not both be counted. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

ARC 382. Professional Practice.
Ethical, legal, economic, and administrative processes and responsibilities of the practitioner in architecture and allied fields. Topics may include preservation law, community development, participatory design, and other aspects of organizations; methods and roles in design, planning, and preservation of the built environment. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

ARC 382P. Professional Residency Program Portfolio.
Restricted to students participating in the Professional Residency Program. Under the supervision of a faculty member, students produce a portfolio based on the Professional Residency Program experience. The equivalent of three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

ARC 382R. Professional Residency Program Paper.
Restricted to students participating in the Professional Residency Program. Under the supervision of a faculty member, students produce a research paper based on the Professional Residency Program experience. The equivalent of three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

ARC 383S. Site Design.
Fundamentals of building and landscape relationships. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

ARC 383T. Site, Landscape, and Urban Studies.
Topics in the history, design, and preservation of building sites, landscapes, and rural and urban communities. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

ARC 384F. Environmental Control: Heat, Air, and Water.
Examine thermal comfort, heating, cooling, ventilation, plumbing systems, fire protection, and conveying equipment in buildings. Three lecture hours and one laboratory hour a week for one semester. Only one of the following may be counted: Architecture 384F, 384L, Architectural Interior Design 384F, and 384K. Prerequisite: Graduate standing and consent of the graduate adviser.

ARC 384G. Environmental Control: Light, Sound, and Electricity.
Examine light and color fundamentals, daylighting, artificial illumination, acoustics, and electrical and information systems for buildings. Three lecture hours and one laboratory hour a week for one semester. Only one of the following may be counted: Architecture 384K, 384G, Architectural Interior Design 384L, 384G. Prerequisite: Graduate standing and consent of the graduate adviser.

ARC 384T. Topics in Building and Environment Studies.
Topics include daylighting and the history of building technology. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

ARC 385Q. Construction.
Introduction to building construction, materials, and structures. Analyze building assemblies and envelope design. Three lecture hours and three laboratory hours a week for one semester. Architecture 385K and 385Q may not both be counted. Prerequisite: Graduate standing and consent of the graduate adviser.

ARC 385R. Structures I.
Examine theories of building construction and materials. Explore the analysis and design of structural components. Three lecture hours and three laboratory hours a week for one semester. Architecture 385R and 385T (Topic: Structures I) may not both be counted. Prerequisite: Graduate standing, Architecture 385Q with a grade of at least C, and consent of the graduate adviser.

ARC 385S. Structures II.
Continue to examine theories of building behavior and materials. Explore the analysis and design of structural systems. Three lecture hours and three laboratory hours a week for one semester. Architecture 385S and 385T (Topic: Structures II) may not both be counted. Prerequisite: Graduate standing, Architecture 385R with a grade of at least C, and consent of the graduate adviser.
ARC 385T. Topics in Building Construction and Conservation.

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**Topic 1: Architectural Conservation: Field Methods.** Architecture 385T (Topic: Materials Conserv: Field Meths) and 385T (Topic 1) may not both be counted. Additional prerequisite: Architecture 385T (Topic 2) and 385Q with a grade of at least C, or consent of instructor.

**Topic 2: Architectural Conservation: Lab Methods.** Architecture 385T (Materials Conserv: Lab Methods) and 385T (Topic 2) may not both be counted.

ARC 386C. Architectural Theory: Contemporary Issues.

Restricted to students in the architecture or architectural studies program. Examine how architectural theory has shaped, and been shaped by, architectural practice in the 20th and 21st centuries, with an emphasis on architecture of the after-Modern. Three lecture hours a week for one semester. Architecture 386M (Topic: Arch Thry: Contemp Issues) and 386C may not both be counted. Prerequisite: Graduate standing and consent of the graduate adviser.

ARC 386D. Architectural Theory: Historical Overview.

Restricted to students in the architecture or architectural studies program. Survey architectural theories since the Renaissance. Three lecture hours a week for one semester. Architecture 386D and 386M (Topic: Arch Thry: Historical Overview) may not both be counted. Prerequisite: Graduate standing and consent of the graduate adviser.

ARC 386M. Topics in Architectural Theory.

Study of critical theories and practices that affect the built environment. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**Topic 2: Architectural Criticism.** Architecture 386M (Topic: Architectural Criticism) and 386M (Topic 2) may not both be counted.

**Topic 3: Architectural Photography.** Architecture 386M (Topic: Architectural Photography) and 386M (Topic 3) may not both be counted.

**Topic 4: City as Form and Idea.** Only one of the following may be counted: Architecture 386M (Topic 4), 386M (Topic: City as Form and Idea), 388R (Topic: City as Form and Idea).

**Topic 5: Community Design Engagement.** Architecture 386M (Topic: Community Design Engagement) and 386M (Topic 5) may not both be counted.

**Topic 6: Design Firm Leadership.** Architecture 386M (Topic: Design Firm Leadership) and 386M (Topic 6) may not both be counted.

**Topic 7: Design of New Communities.** Only one of the following may be counted: Architecture 386M (Topic 7), Urban Design (U D) 388R (Topic 2), Urban Design (UDN) 388R (Topic 2).

**Topic 8: Design Process.** Architecture 386M (Topic: Design Process) and 386M (Topic 8) may not both be counted.

**Topic 9: Designing the Way We Build.** Architecture 386M (Topic: Designing the Way We Build) and 386M (Topic 9) may not both be counted.

**Topic 10: Eileen Gray and E.1027.** Architecture 386M (Topic: Eileen Gray and E.1027) and 386M (Topic 10) may not both be counted.

**Topic 12: Global Housing Challenge.** Architecture 386M (Topic: Global Housing Challenge) and 386M (Topic 12) may not both be counted.

**Topic 13: Light and Sustainable Design.** Architecture 386M (Topic: Light and Sustainable Design) and 386M (Topic 13) may not both be counted.

**Topic 14: Managing the Design Project.** Architecture 386M (Topic: Managing the Design Project) and 386M (Topic 14) may not both be counted.

**Topic 15: Place and Historical Imagination.** Architecture 386M (Topic: Place & Historical Imagination) and 386M (Topic 15) may not both be counted.

**Topic 16: Poetics of Building.** Architecture 386M (Topic: Poetics of Building) and 386M (Topic 16) may not both be counted.

**Topic 17: Advanced Theories of Architecture.** Architecture 386M (Topic: Advanced Theories of Architecture) and 386M (Topic 17) may not both be counted.

**Topic 18: Smart, Green and Just.** Architecture 386M (Topic: Smart, Green, and Just) and 386M (Topic 18) may not both be counted.

**Topic 19: Solar Geometry and Energy Flow.** Architecture 386M (Topic: Solar Geom/Energy Flow in Bldg) and 386M (Topic 19) may not both be counted.

**Topic 20: Technology/Techniques Sustainable Design.** Architecture 386M (Topic: Technol/Techniq Sustn Dsgn-Ger) and 386M (Topic 20) may not both be counted.

**Topic 21: Timber Technologies.** Architecture 386M (Topic: Timber Technologies) and 386M (Topic 21) may not both be counted.

**Topic 22: Urban Land Institute Workshop.** Only one of the following may be counted: Architecture 386M (Topic 22), Urban Design (UDN) 382M (Topic 1), Urban Design (UD) 382M (Topic 3).

**Topic 25: Preservation Law.** Architecture 386M (Topic: Preservation Law) and 386M (Topic 25) may not both be counted.

**Topic 26: Computational Design.** Explore the theory and application of computational design. Use of software programs to develop experimental projects that uncover new tactics for the design of buildings and objects. Architecture 386M (Topic: COMPUTATIONAL DESIGN) and 386M (Topic 26) may not both be counted.

**Topic 27: Research Design.** Architecture 386M (Topic: Research Design) and 386M (Topic 27) may not both be counted.

**Topic 29: Futures and Cities.** Only one of the following may be counted: Architecture 386M (Topic 29), Landscape Architecture 388 (Topic 2), Urban Design (UD) 388R (Topic 1), Urban Design (UDN) 388R (Topic 1).

**Topic 30: Race and Gender by Design.** Examine the relationship of design relative to the narratives of race, gender, and diversity. Architecture 386M (Topic: RACE AND GENDER: BY DESIGN) and 386M (Topic 30) may not both be counted.

**Topic 31: Architecture Computation.** Architecture 386M (Topic 31) and Urban Design (UD) 388R (Topic 4) may not both be counted.

**Topic 32: Composition and Architecture.** Architecture 386M (Topic: Composition and Architecture) and 386M (Topic 32) may not both be counted.

**Topic 33: Regenerative Architecture.** Architecture 386M (Topic: Regenerative Architecture) and 386M (Topic 33) may not both be counted.

**Topic 34: Sustainable Architectural Design.** Architecture 386M (Topic: Sustainable Arc Design) and 386M (Topic 34) may not both be counted.

**Topic 35: Sustainability: Why This Way.** Architecture 386M (Topic: Sustainability: Why This Way) and 386M (Topic 35) may not both be counted.

**Topic 36: Introduction to Urban Ecology.** Architecture 386M (Topic 36) and Community Regional Planning 383 (Topic 7) may not both be counted.

**Topic 37: Graphic Documentation.** Architecture 386M (Topic: Graphic Documentation) and 386M (Topic 37) may not both be counted.
Topic 38: National Register of Historic Places. Architecture 386M (Topic: Natl Reg of Hist Places Docum) and 386M (Topic 38) may not both be counted.

Topic 39: Architectural Interrogations. Architecture 386M (Topic: Two Hundred Words) and 386M (Topic 39) may not both be counted.

Topic 40: Inside Utopia. Architecture 386M (Topic: Inside Utopia) and 386M (Topic 40) may not both be counted.

Topic 41: Designing for Human Behavior. Architecture 386M (Topic: Designing for Human Behavior) and 386M (Topic 41) may not both be counted.

Topic 42: Building Matters. Architecture 386M (Topic: Building Matters) and 386M (Topic 42) may not both be counted.

Topic 43: Spatial Stories. Architecture 386M (Topic: Spatial Stories) and 386M (Topic 43) may not both be counted.

Introduction to architectural types, principles, and building technologies from prehistory to the mid-eighteenth century. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

Examination of architecture types, principles, and building technologies with special attention to cultural transfers. Three lecture hours a week for one semester. Prerequisite: Graduate standing, Architecture 387F with a grade of at least C, and consent of the graduate adviser.

ARC 388R. Topics in the History of Architecture and Historic Preservation.

Seminars and lecture/seminars on advanced topics in architectural history, historic preservation, and the history of building technology. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser; additional prerequisites vary with the topic.

Topic 2: American Architecture. Architecture 388R (Topic: American Architecture) and 388R (Topic 2) may not both be counted.

Topic 3: Brazilian Urban Theory. Architecture 388R (Topic: Brazilian Urban Theory) and 388R (Topic 3) may not both be counted.

Topic 4: History of Central European Architecture, 1648-Present. Architecture 388R (Topic: Cent European Arch, 1648-Pres) and 388R (Topic 4) may not both be counted.

Topic 5: German Modernism. Architecture 388R (Topic: German Modernism) and 388R (Topic 5) may not both be counted.

Topic 7: History of Building Technology. Architecture 388R (Topic: History of Building Technology) and 388R (Topic 7) may not both be counted.

Topic 8: Hybridity in Landscape/Architecture. Architecture 388R (Topic: Hybridity in Landscape/Architecture) and 388R (Topic 8) may not both be counted.

Topic 9: Loos and Mies. Architecture 388R (Topic: Loos and Mies) and 388R (Topic 9) may not both be counted.

Topic 10: Modern American Design. Only one of the following may be counted: Architecture 386M (Topic: Modern American Design), 388R (Topic: Modern American Design), 388R (Topic 10).

Topic 12: Romes Gardens and Landscapes. Only one of the following courses may be counted: Architecture 388R (Topic: Italian Villa and Garden), 388R (Topic 12), Landscape Architecture 388 (Topic: Italian Villa and Garden), 388 (Topic 3).

Topic 13: Modern History of Sustainable Architecture. Architecture 388R (Topic: Modern History of Sustainable Architecture - GER) and 388R (Topic 13) may not both be counted.

Topic 14: Modern European Architecture. Architecture 388R (Topic: Modern European Arch-Europe) and 388R (Topic 14) may not both be counted.

Topic 15: Methodologies in Architectural History. Architecture 388R (Topic: Methodologies in Arch History) and 388R (Topic 15) may not both be counted.

Topic 17: Preservation History and Theory. Architecture 388R (Topic: Preservation History & Theory) and 388R (Topic 17) may not both be counted.

Topic 18: Preservation Planning and Practice. Architecture 388R (Preservation Planning/Practice) and 388R (Topic 18) may not both be counted.

Topic 20: Migratory Urbanism. Only one of the following may be counted: Architecture 386M (Topic: Migratory Urbanism), 388R (Topic 20), Community Regional Planning 385C (Topic 15), 388 (Topic: Migratory Urbanism), Urban Design (UD) 386M (Topic 4), Urban Design (UDN) 383M (Topic 4).

Topic 21: Professional Design Practice: Baroque Rome. Only one of the following may be counted: Architecture 388R (Topic: Prof Dsgn Prac: Baroq Rome), 388R (Topic 21), Landscape Architecture 388 (Topic: Prof Dsgn Prac: Baroq Rome), 388R (Topic 4). Additional prerequisite: Graduate standing

Topic 22: Cultural Landscape and Ethnographic Methods. Architecture 388R (Topic: Cultl Lndscp and Ethnogr Meths) and 388R (Topic 22) may not both be counted.

Topic 23: Borderlands and Mexican Built Environment History. Architecture 388R (Topic: BorderLnds/Mexcn Lndscpes) and 388R (Topic 23) may not both be counted.

Topic 26: Thesorizing Space in the Americas. Architecture 388R (Topic: Thesorizing Space: Americas) and 388R (Topic 26) may not both be counted.

Topic 27: History of American City Building. Only one of the following may be counted: Architecture 388R (Topic: Hist of Amer City Building), 388R (Topic 27), Community and Regional Planning 389C (Topic: Hist of Amer City-Building), 392C (Topic: Hist of Amer City-Building), 392C (Topic 1), Urban Design (UD) 389R (Topic 1), Urban Design (UDN) 389R (Topic: Hist of Amer City Building), 389R (Topic 1).

ARC 389, 689. Research in Architecture.

Investigation of problems in architecture, urban design, and development selected by the student with approval of the Graduate Studies Committee. Three or six lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.
ARC 189R. Architectural Research.
Investigation of problems selected by the student with approval of the supervising faculty member. One studio hour a week for one semester. May be repeated for credit. Prerequisite: Graduate standing.

ARC 190C, 390C. Architecture Practicum.
Restricted to students in the following programs: Master of Architecture (first professional), Master of Architecture (post-professional), Master of Science in Sustainable Design, Master of Science in Urban Design, Master of Arts in Architectural History, Master of Science in Historic Preservation, Master of Science in Architectural Studies. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester, with additional hours to be arranged. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing, and written consent of the graduate adviser and chair of the Architecture Graduate Studies Committee.

ARC 690H. Master's Design Studio—Dual Degree.
Restricted to dual degree students. Advanced study in architecture, addressing complex design problems and issues related to various architectural topics. The equivalent of nine laboratory hours a week for two semesters. Prerequisite: Graduate standing and consent of the graduate adviser.

ARC 391C. Urban Design History, Theory, and Criticism.
Study of critical theories and practices that affect the built environment. Three lecture hours a week for one semester. Only one of the following may be counted: Architecture 391C, Urban Design (U D) 388, Urban Design (UDN) 388K. Prerequisite: Graduate standing and consent of the graduate adviser.

ARC 391P. Productions.
Same as Architectural Interior Design 391P. Designed to explore the relationships between the generation of form, space, experience, and atmosphere in the spatial practices of interior design, architecture, and art. Three lecture hours a week for one semester. Only one of the following may be counted: Architecture 386M (Topic: Productions), 391P, Architectural Interior Design 386M (Topic: Productions), 391P. Prerequisite: For students in the School of Architecture, graduate standing; for others, graduate standing and consent of instructor.

ARC 392D. Advanced Drawing.
Focus on personal design methodology by exploring multiple drawing methods, skills, and approaches including manual, digital, and hybrid techniques. Refines design communication skills by pairing clearly articulated design intention with compelling drawings, and expressing them via effective verbal presentations. Five laboratory hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

ARC 692K. Historic Preservation Studio.
Interdisciplinary studio integrating design and other preservation issues at scales from interiors to landscapes and urban districts. The equivalent of fifteen laboratory hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing.

ARC 392P. Prototype.
Same as Architectural Interior Design 392P. Focus on digital fabrication as a link between architecture and product design. Five laboratory hours a week for one semester. Only one of the following may be counted: Architecture 381R (Topic: Prototype), 392P Architectural Interior Design 381R (Topic: Prototype), 392P. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of the graduate adviser.

ARC 392V. Digital Visualization and the Built Environment.
Digital visualization techniques used to model three dimensional environments and motion with digital media. Includes lectures, software demonstrations, and projects that focus on the digital translation of spatial experience, including the visualization techniques associated with rendering texture, character, and environment. Five laboratory hours a week for one semester. Prerequisite: Graduate standing and consent of graduate adviser.

ARC 392W. Wood Design.
Practice on basic woodworking skills: tool sharpening, layout, millwork, joinery, gluing, sanding, and finishing. Five laboratory hours a week for one semester. Prerequisite: Graduate standing and consent of graduate adviser.

Design problems dealing with subjective and objective decision making, study and application of drawing and other communication skills for architects, investigation of physical and social contexts, and the practical requirements of sound building. The equivalent of twelve laboratory hours a week for one semester. Architecture 393 and 694 may not both be counted. Architecture 394 and 694 may not both be counted. Prerequisite: Graduate standing and consent of the graduate adviser.

ARC 394S, 694S. Horizontal Studio.
For 394S, nine laboratory hours a week for one semester; for 694S, twelve laboratory hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

ARC 395C. Mexican Architecture and Urbanism: From Pre-Columbian to Contemporary.
A survey of Mexican architecture and urbanism from its origins in pre-Columbian times to the twenty-first century. Evaluation of architecture as a cultural production intricately connected to its artistic and historical context and the landscape that supports it. Three lecture hours a week for one semester. Only one of the following may be counted: Architecture 395C, Urban Design (U D) 388R (Topic 3), Urban Design (UDN) 388R (Topic: Mex Arch: Pre-Columb-Contemp). Prerequisite: For students in the School of Architecture, graduate standing; for all others, graduate standing and consent of instructor.

ARC 395D. Frank Lloyd Wright: Design, Method, Theory.
Same as Architectural Interior Design 395D and Landscape Architecture 395D. Comprehensive study of Frank Lloyd Wright’s life and work with emphasis on the analyses of his concepts of organic architecture, design methods, and theories. Three lecture hours a week for one semester. Only one of the following may be counted: Architecture 388R (Topic: Frank Lloyd Wright: Design, Method, Theory), 395D, Architectural Interior Design 388R (Topic: Frank Lloyd Wright: Design, Method, Theory), 395D, Landscape Architecture 388 (Topic: Frank Lloyd Wright), 395D. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

ARC 395E. History and Theories of Landscape Architecture I.
Overview and chronological series of in-depth studies in the history of major garden cultures and designed landscapes of the Western and Eastern worlds. Introduction to methodological approaches to the formal, social, and cultural history of gardens and landscapes, as well as to relevant theoretical frameworks for interpreting these designed landscapes and for use in conceptualizing landscapes, architecture, and urban projects in studio design. Three lecture hours a week for one semester. Architecture 388R (Topic: History and Theories of Landscape Architecture I) and 395E may not both be counted. Prerequisite: Graduate standing and consent of the graduate adviser.
ARC 395F. History and Theories of Landscape Architecture II.
Continuation of Architecture 395E through the modern period and contemporary times. Formal and cultural history of gardens, parks, and public landscapes from 1700 to about 1990. Includes comparative material from the contemporary period, 1980 to 2010. Three lecture hours a week for one semester. Architecture 388R (Topic: History and Theories of Landscape Architecture II) and 395F may not both be counted. Prerequisite: Graduate standing and consent of the graduate adviser.

Same as Architectural Interior Design 395G and Landscape Architecture 395G. An examination of how American housing is conceived, developed, and marketed, as well as relationships between home buyers and builders. Three lecture hours a week for one semester. Only one of the following may be counted: Architecture 388R (Topic: American Home), 395G, Architectural Interior Design 388R (Topic: American Home), 395G, Landscape Architecture 388 (Topic: American Home), 395G. Offered on the letter-grade basis only. Prerequisite: For students in the School of Architecture, graduate standing; for others, graduate standing and consent of instructor.

Same as Landscape Architecture 395J. Explores the synthetic act of design and notions of originality and tradition in the arts of Baroque Rome by studying Francesco Borromini and his work through the lenses of professional design practice, the arts, contemporary Galilean science, and papal society. Three lecture hours a week for one semester. Only one of the following may be counted: Architecture 388R (Topic: Professional Design Practice: Baroque Rome), 395J, Landscape Architecture 388 (Topic: Professional Design Practice: Baroque Rome), 395J. Prerequisite: For students in the School of Architecture, graduate standing; for others, graduate standing and consent of instructor.

Same as Landscape Architecture 395K. Explores the roles of visual representation in design and professional practice from Leonardo da Vinci to the digital age. An overview of the history of techniques, media, and conventions of representation in architecture and landscape architecture and in their intersections. Includes some drawing and painting. Three lecture hours a week for one semester. Only one of the following may be counted: Architecture 388R (Topic: Representing Landscape and Architecture, 1500-2015), 395K, Landscape Architecture 388 (Topic: Representing Landscape and Architecture, 1500-2015), 395K. Prerequisite: For students in the School of Architecture, graduate standing; for others, graduate standing and consent of instructor.

ARC 695S. Advanced Architectural Design: Integrative Studio.
Advanced studio to develop skills in assimilating concepts into a feasible building design. Ten laboratory hours a week for one semester. Architecture 695 and 695S may not both be counted. Offered on the letter-grade basis only. Prerequisite: Graduate standing; Architecture 694; and consent of the Graduate Adviser.

Advanced problems in architectural design to help develop skills in areas of students’ and faculty member’s choice, including interior architecture and preservation, as well as landscape, urban, and sustainable design. The equivalent of ten laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, Architecture 694 or the equivalent, and consent of the graduate adviser.

ARC 697. Master’s Design Studio.
Forum for advanced study in architecture, addressing complex design problems and issues related to various architectural topics. The equivalent of eighteen laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

ARC 397K. Doctoral Research in Architecture.
Conference course for students preparing for the dissertation colloquium. Conference course. May be repeated for credit when the topics vary. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in architecture and consent of the graduate adviser.

ARC 698. Thesis.
For students seeking the Master of Science or Master of Arts degrees in the School of Architecture, those seeking the Master of Architecture as a postprofessional degree, and those seeking the Master of Architecture as a first professional degree who choose to complete the requirements of a concentration. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in architecture and consent of the graduate adviser; for 698B, Architecture 698A.

ARC 398D. Departmental Report.
Preparation of a degree project to fulfill the requirement for the Master of Science in Historic Preservation or other School of Architecture degree program under the departmental report option. May be taken for a single semester (similar to the Professional Report), or two semesters (similar to the Thesis). The equivalent of three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of the graduate adviser.

ARC 398R. Master’s Report.
Preparation of a report to fulfill the requirement for the master’s degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in architectural studies and consent of the graduate adviser.

ARC 398T. Supervised Teaching in Architecture.
Designed to orient the beginning teacher in effective methods of teaching architecture and related topics. Three lecture hours a week for one semester. Required for assistant instructors in architecture. Prerequisite: Graduate standing and consent of the graduate adviser.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses
ARE - Architectural Engineering

Architectural Engineering: ARE

Lower-Division Courses
ARE 102. Introduction to Architectural Engineering.
Restricted to architectural engineering and architecture majors. Introduction to architectural engineering as a career by use of case
studies. One lecture hour a week for one semester. Offered in the fall semester only.

**ARE 217. Computer-Aided Design and Graphics.**
Introduction to procedures in computer-aided design and computer graphics used in producing plans and three-dimensional electronic models associated with building design and construction. Three hours of lecture and laboratory a week for one semester. Prerequisite: Architectural Engineering 102.

Used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Civil, Architectural and Environmental Engineering. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**Upper-Division Courses**

**ARE 320K. Introduction to Design I.**
Introduction to design principles, concepts, and problem-solving approaches. Issues addressed by a series of two- and three-dimensional studies. Nine laboratory hours a week for one semester. Offered in the fall semester only. Prerequisite: Architectural Engineering 217, and credit or registration for Engineering Mechanics 319.

**ARE 320L. Introduction to Design II.**
Continuation of Architectural Engineering 320K. Focus on building design. Nine laboratory hours a week for one semester. Offered in the spring semester only. Prerequisite: Architectural Engineering 320K, and credit or registration for Civil Engineering 329.

**ARE 323K. Project Management and Economics.**
Solving economic problems related to construction and engineering; construction project management techniques; characteristics of construction organizations, equipment, and methods. Three lecture hours a week for one semester. Prerequisite: Civil Engineering 333T or Engineering Studies 333T, and Mathematics 408D or 408M.

Used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Civil, Architectural and Environmental Engineering. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**ARE 335. Materials and Methods of Building Construction.**
Elements and properties of construction materials and components; fabrication and construction technologies, methods, and processes; engineering systems characteristic of commercial buildings such as foundation, structural, and building envelope systems. Three or four lecture and discussion hours a week for one semester. Prerequisite: Civil Engineering 324P.

**ARE 345K. Masonry Engineering.**
Behavior and design of masonry with respect to architectural, economic, and structural criteria. Four and one-half hours a week for one semester, including lecture and laboratory. Prerequisite: Civil Engineering 324P.

**ARE 346N. Building Environmental Systems.**
Analysis and design of building air conditioning systems; heating and cooling load calculations, air side systems analysis, air distribution, building electrical requirements, electrical and lighting systems. Three lecture hours a week for one semester. Prerequisite: Physics 303L, 103N, and one of the following: Mechanical Engineering 310T, 316T, 320, or 326.

**ARE 346P. HVAC Design.**
Design and analysis of heating, ventilation, and cooling systems for buildings. Focus on application of fundamental energy and mass transfer principles to HVAC components. Three lecture hours a week for one semester. Prerequisite: Architectural Engineering 346N.

**ARE 358. Cost Estimating in Building Construction.**
Building construction estimating from plans and specifications, unit prices, lump sum estimates, job sites, overhead, general overhead, and bidding procedures. Estimating methods throughout the design process. Two lecture hours and three supervised laboratory hours a week for one semester. Prerequisite: Architectural Engineering 335.

**ARE 362L. Structural Design in Wood.**
Engineering properties of wood; design of glued-laminated and lumber structural members, connections, and simple systems; introduction to shear walls and diaphragms. Five hours of lecture and supervised work a week for one semester. Prerequisite: Civil Engineering 329.

**ARE 465. Integrated Design Project.**
Design of low-rise buildings, including structural and environmental systems; preparation of contract documents. Six hours a week for one semester, including lecture and laboratory. Prerequisite: Architectural Engineering 320L, 346N, credit or registration for 335, Civil Engineering 331 or 335, and 357.

**ARE 366. Contracts, Liability, and Ethics.**
Legal aspects of engineering and construction contracts; contract formation, interpretation, rights and duties, and changes; legal liabilities and professional ethics of architects, engineers, and contractors. Two lecture hours and two laboratory hours a week for one semester. Prerequisite: Architectural Engineering 323K.

**ARE 370. Design of Energy Efficient and Healthy Buildings.**
Design and analysis of sustainable buildings, envelopes and facades, and energy and resource use in energy efficient and healthy buildings. Applies building science principles used to avoid moisture problems, minimize sick-building syndrome symptoms, and reduce energy use. Three lecture hours a week for one semester. Prerequisite: Architectural Engineering 346N.

**ARE 371. Energy Simulation in Building Design.**
Fundamentals of building energy simulations, analytical models for heat transfer in buildings, general numerical methods for solving equations from the analytical models, use of energy simulation tools in building design analysis, and parametric analyses used to study various operational parameters that affect energy use in buildings. Three lecture hours a week for one semester. Prerequisite: Architectural Engineering 346N.

**ARE 372. Modeling of Air and Pollutant Flows in Buildings.**
Fundamentals of indoor airflow modeling; use of computational fluid dynamics (CFD) for air quality and thermal comfort analyses;
application of CFD for analysis of air velocity, temperature, humidity, and contaminant distributions with different ventilation systems. Three lecture hours a week for one semester. Prerequisite: Architectural Engineering 346N and Civil Engineering 319F.

Focuses on the skills and information needed to effectively use an existing Building Information Model for a building construction project. In this project-based course, students gain knowledge on the implementation of BIM concepts throughout the life cycle of a building from planning and design to construction and operations. Three lecture hours and one and one-half laboratory hours a week for one semester. Prerequisite: Architectural Engineering 320L and 323K.

Various specified topics or conference course. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester; additional hours may be required for some topics. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

Topic 7: Independent Study. Restricted to architectural engineering majors. Independent research with a tenure track faculty member in the Department of Civil, Architectural, and Environmental Engineering. Prepare a project proposal and a final report, each of which is evaluated by the faculty supervisor. ARE 177K (Topic 7) and ARE 177K (Topic: Independent Study) may not both be counted. Additional prerequisite: Consent of instructor.

ARE 177R. Internship.
The equivalent of one lecture hour a week for one semester. May be repeated for credit. Offered on the pass/fail basis only.

ARE 377S. Emerging Technology: Survey.
Restricted to students in the Cockrell School of Engineering. Survey of building design technologies in engineering, architectural, and construction firms. Three lecture hours for one semester. Only one of the following may be counted: Architectural Engineering 377K (Topic: Emerging Technol: Tech Elec-GBR), 377K (Topic: Emerging Technol:Survey-GBR), 377S, or 377T. Offered on the letter-grade basis only. Prerequisite: Consent of Instructor.

Restricted to students in the Cockrell School of Engineering. Technical design within engineering, architecture, and construction. Three lecture hours for one semester. Only one of the following may be counted: Architectural Engineering 377K (Topic: Emerging Technol: Tech Elec-GBR), 377K (Topic: Emerging Technol:Survey-GBR), 377S, or 377T. Offered on the letter-grade basis only. Prerequisite: Upper-division standing; Architectural Engineering 320K and 320L; and consent of instructor.

ARE 679H. Undergraduate Honors Thesis.
Research performed during two consecutive semesters under the supervision of an engineering faculty member; topics are selected jointly by the student and the faculty member with approval by the director of the Engineering Honors Program. The student makes an oral presentation and writes a thesis. Individual instruction for two semesters. Students pursuing both the Bachelor of Arts, Plan II, and a bachelor's degree in engineering may use this course to fulfill the thesis requirement for the Bachelor of Arts, Plan II. Prerequisite: For 679HA, enrollment in the Engineering Honors Program; for 679HB, Architectural Engineering 679HA and enrollment in the Engineering Honors Program.

Graduate Courses

ARE 381E. Design of Energy Efficient and Healthy Buildings.
Design of buildings for low energy use and optimal indoor air quality. Includes ventilation, energy efficiency, moisture problems, and prevention by design. Three lecture hours a week for one semester. Prerequisite: Graduate standing in engineering or graduate standing and consent of instructor.

Investigation of problems in building construction, selected by the student with approval of the graduate adviser. The equivalent of three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in architectural engineering and consent of the graduate adviser.

Topic 1: Construction and Project Management. Offered on the credit/no credit basis only.
Topic 2: Structures. Offered on the credit/no credit basis only.
Topic 3: Materials and Methods. Offered on the credit/no credit basis only.
Topic 4: Environmental Engineering. Offered on the credit/no credit basis only.
Topic 5: Design Principles and Procedures. Offered on the credit/no credit basis only.

Three lecture hours a week for one semester, or the equivalent in conference hours, or as stated for the topic. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

Topic 1: Construction and Project Management.
Topic 2: Structures.
Topic 3: Materials and Methods.
Topic 4: Forensic Engineering: Materials and Structures. Same as Civil Engineering 397F. Methods of forensic analysis; role of the expert witness; methods of dispute resolution; case studies; term project. Two lecture hours a week for one semester, with three laboratory hours a week for presentation of case studies.

ARE 389H. HVAC Design.
Design of heating, ventilation, and air-conditioning systems. Three lecture hours a week for one semester. Prerequisite: Graduate standing and three of the following courses: Architectural Engineering 346N, Civil Engineering 319F, Mechanical Engineering 320, 326, 330, 339.

ARE 389T. Indoor Air Quality: Transport and Control.
Transport and control of indoor pollutants. Includes particulate removal and pollutant transport into and within indoor environments. Three lecture hours a week for one semester. Prerequisite: Graduate standing in architectural or civil engineering.

ARE 389U. Energy Simulation in Building Design.
Restricted to architectural engineering or civil engineering graduate students. Fundamentals of building energy simulations including basic analytical models for heat transfer in building elements and general numerical methods for solving system of equations. Use of energy simulation tools for building design analyses including parametric studies. Three lecture hours a week for one semester. Only one of the following may be counted: Architectural Engineering 383 (Topic: Energy Simulation in Building Design), 389U, Civil Engineering 397 (Topic: Energy Simulation in Building Design). Prerequisite: Graduate standing, and
Mechanical Engineering 320 or three semester hours of equivalent upper-division coursework in thermodynamics.

Same as Civil Engineering 389V. Restricted to architectural engineering or civil engineering graduate students. Fundamentals of indoor airflow modeling, use of computational fluid dynamics (CFD) for air quality and thermal comfort analyses, application of CFD for analysis of air velocity, temperature, humidity, and contaminant distributions with different ventilation systems. Three lecture hours a week for one semester. Only one of the following may be counted: Architectural Engineering 383 (Topic: Modeling of Air and Pollutant Flows in Buildings), 389V, Civil Engineering 389V, 397 (Topic: Modeling of Air and Pollutant Flows in Buildings). Prerequisite: Graduate standing; for architectural engineering and civil engineering majors, three semester hours of coursework in fluid dynamics; for others, consent of instructor.

ARE 395P. Project Automation.  
Three lecture hours a week for one semester. Some topics may require additional hours; these are identified in the Course Schedule. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**Topic 1: Advanced CAD Procedures.** Same as Civil Engineering 395P (Topic 1: Advanced CAD Procedures). Introduction to advanced CAD procedures and CAD systems, and their influence on building design and construction. Nine hours of lecture and laboratory a week for one semester. Additional prerequisite: An introductory CAD course.

**Topic 2: Introduction to Construction Automation and Integration.** Same as Civil Engineering 395P (Topic 2: Introduction to Construction Automation and Integration). Construction automation and integration activities, methods for opportunity identification and financial analysis of systems, and tools from several disciplines that are used in construction automation and integration; students prepare a project that synthesizes this information.

ARE 395Q. Project Controls.  
Three lecture hours a week for one semester. Some topics require two lecture hours and three laboratory hours a week; these are identified in the Course Schedule. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

ARE 395R. Project Information Systems.  
Three lecture hours a week for one semester, or as required by the topic. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

ARE 395S. Project Organization.  
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**Topic 4: Project Management.** Same as Civil Engineering 395S (Topic 4: Project Management). Overall aspects of project and portfolio management from inception to successful operation: project selection and feasibility, contracting methods, project scheduling, cost control systems, project communications, project scope and quality management, human resource management, partner selection and management, project leadership, project closeout, and global project management.

ARE 395T. Project Technology.  
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

ARE 395U. General Topics in Construction Engineering and Project Management.  
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**Topic 3: Advanced Legal Concepts.** Same as Civil Engineering 395U (Topic 3: Advanced Legal Concepts). Contracts, documentation requirements, claims avoidance, and settlement of claims by alternative dispute resolution. Students conduct and present in-depth studies of the most frequent causes of claims (delay, disruption, acceleration, soil conditions, and changes) and consider the way the court establishes causation and determines damages.

ARE 698. Thesis.  
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in architectural engineering and consent of the graduate adviser; for 698B, Architectural Engineering 698A.

ARE 398D. Departmental Report.  
Preparation of a report to fulfill the requirement for the Master of Science in Engineering degree under the departmental report option. Individual instruction. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in architectural engineering and consent of the supervising professor and the graduate adviser.

ARE 398R. Master’s Report.  
Preparation of a report to fulfill the requirement for the master’s degree under the Graduate School report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in architectural engineering and consent of the supervising professor and the graduate adviser.

**Professional Courses**

**ARH - Art History**

**Art History: ARH**

**Lower-Division Courses**

**ARH 301 (TCCN: ARTS 1301). Introduction to the Visual Arts.**  
A broad survey of selected traditions of art with an emphasis upon understanding their visual elements and cultural significance. Three lecture hours or two lecture hours and one discussion hour a week for one semester.

**ARH 302 (TCCN: ARTS 1303). Survey of Ancient through Medieval Art.**  
A study of selected visual works throughout the world from prehistoric time to 1400 CE. Three lecture hours or two lecture hours and one discussion hour a week for one semester.
A study of selected visual works throughout the world from 1400 CE to the present. Three lecture hours or two lecture hours and one discussion hour a week for one semester.

Restricted to art history majors. Examines the modern and contemporary history of art and visual culture in relation to a broader set of problems fundamental to visual representation throughout the history of art. Three lecture hours or two lecture hours and one discussion hour a week for one semester.

ARH 314. Mexico City: Aztec to Modern.
Explores the building of Mexico City, sited in a lake bed surrounded by active volcanoes and tectonic activity, from the time of the Aztecs to the present. Addresses art, architecture, science, and engineering, as well as the role that art and archaeological museums have played in the capital's modern, urban identity. Three lecture hours a week for one semester.

ARH 119Q, 219Q, 319Q, 419Q, 519Q, 619Q, 719Q, 819Q, 919Q. Topics in Art History.
This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Art and Art History. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

ARH 321. Problems in Art Historical Research.
Restricted to art history majors. Focus on developing research skills. Introduction to critical analysis in the context of using various resources and primary materials. Three lecture hours a week for one semester.

ARH 322. Issues in Exhibitions and Collections of Visual Arts.
Examines the histories and practices of collections and exhibitions in the visual arts. Three lecture hours a week for one semester.

ARH 325. Art and Archaeology of the Ancient Near East.
Examines various aspects of material culture, including the rise of monumentality and urbanism; media such as writing and figurative arts; and the history and politics of archaeological research in the area of the Fertile Crescent, Turkey, and Iran. Three lecture hours a week for one semester. Art History 325 and 361L (Topic: Art/Archeology of the Ancient Near East) may not both be counted.

ARH 326J. The Parthenon Through the Ages.
Examines why the Parthenon is of relevance today for a global audience. Subjects include the postantique lives of this unique monument as a Christian cathedral and pilgrimage site, a mosque, a ruin, and an archaeological icon; the various debates about its restoration and preservation; and the problem of cultural ownership. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 326J, 362 (Topic: Myth in Images in Classical Antiquity), Classical Civilization 340 (Topic: Myth in Images in Classical Antiquity).

ARH 326L. Visual Cultures of the Mediterranean Islands.
Analysis of material and visual culture and the divergent histories of archaeology and art history in Cyprus, Crete, and Sicily. Three lecture hours a week for one semester.

ARH 326M. Art and Archaeology of Greek Sanctuaries.
Examines the archaeology of Olympia, Delphi, Dodona, Delos, and Samos, their global relevance today, and the history of archaeological research. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 326M, 362 (Topic: Art and Archaeology of Greek Sanctuaries), Classical Civilization 340 (Topic: Art and Archaeology of Greek Sanctuaries).

ARH 327N. Art and Politics in Imperial Rome.
Same as Classical Civilization 340 (Topic 2). Public art of the Roman Empire from Augustus to late antiquity, ca. 31 BC to AD 350. Three lecture hours a week for one semester. Art History 327N and Classical Civilization 340 (Topic 2) may not both be counted. Prerequisite: Upper-division standing.

ARH 327R. Art in the Lives of Ordinary Romans.
Same as European Studies 347 (Topic 26). Art and architecture from the archaeological sites of Pompeii, Herculaneum, and Ostia as indices of Roman culture, 100 BC to AD 250. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 327R, European Studies 347 (Topic: Art in the Lives of Ordinary Romans), 347 (Topic 26).

ARH 327S. Art and Politics in Republican Rome.
The art and architecture of republican Rome, ca. 500-44 BCE, when the city established dominance in the Mediterranean and developed an artistic tradition that would flourish into the Empire. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 327S, 362 (Topic: Art and Politics in Republican Rome), Classical Civilization 340 (Topic: Art and Politics in Republican Rome), European Studies 347 (Topic: Art and Politics in Roman Rome).

ARH 327T. Art in the Age of Hadrian.
Examines art in Rome under the reign of emperor Hadrian (117-138), who inherited the empire at its greatest geographical extent. Three lecture hours a week for one semester.

ARH 327U. Love, Beauty, and Protection.
Same as Women's and Gender Studies 345C. Examine selected works of Greek and Roman art (sixth century B.C. to fourth century A.D.) to explore how ancients thought about themselves with regard to love, sexuality, divine and human beauty, and protection from demonic forces. Focus on social and cultural contexts, gender, and practices of daily life. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 327U, 362 (Topic: Love, Beauty, and Protection), Women's and Gender Studies 345 (Topic: Love, Beauty, and Protection), 345C.

ARH 328J. Arts of Islam, 650-1500.
Same as Religious Studies 359M. Early Islamic art and architecture, with an emphasis on interconnections between the Islamic world and Europe. Examines unique ways Islamic visual culture developed out of the classical and late antique world. Artworks will be contextualized within early Islamic history, religion, and culture. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 328J, 363 (Topic: Arts of Islam: Caliphs-Sultans), Islamic Studies
ARH 328K. Arts of Islam 1500-Present.
Same as Religious Studies 359N. Later Islamic art and architecture, beginning with the world empires of the Ottomans, Safavids, and Mughals, and extending into the modern and contemporary periods. Subjects include the social and historical context of Islamic art in these periods and its unique visual culture. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 328K, 363 (Topic: Arts of Islam, 1500-1800), 363 (Topic: Arts of Islam: 1500-Present), Islamic Studies 372 (Topic: Arts of Islam, 1500-1800), 373 (Topic: Arts of Islam: 1500-Present), Middle Eastern Languages and Cultures 321 (Arts of Islam: 1500-Present), Middle Eastern Studies 342 (Topic: Arts of Islam: 1500-Present), Religious Studies 358 (Topic 18), 359N.

ARH 328L. Medieval Middle East History in One Hundred Objects.
Same as History 339Q and Middle Eastern Studies 343 (Topic 11). Survey the history of the medieval Middle East, from the period of Late Antiquity (in the seventh century) to the rise of early modern empires of the Safavids, Ottomans, and Mughals (in the seventeenth century), through close examination of the meaning and significance of 100 objects. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 328L, 363 (Topic: Mid East Hist in 100 Objects), History 339Q, 364G (Topic: Mid East Hist in 100 Objects), Islamic Studies 373 (Topic: Mid East Hist in 100 Objects), 373 (Topic 21), Middle Eastern Studies 343 (Topic: Mid East Hist in 100 Objects), 343 (Topic 11). Prerequisite: Upper-division standing.

ARH 328M. Modern Middle East History in One Hundred Objects.
Same as History 343E and Middle Eastern Studies 343 (Topic 12). Survey the history of the medieval Middle East, from 1500 to the present, through close examination of the meaning and significance of 100 objects. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 328M, 366P (Topic: Mod Mid East In 100 Objects), History 343E, 364G (Topic: Mod Mid East In 100 Objects), Islamic Studies 373 (Topic: Mod Mid East In 100 Objects), 373 (Topic 23), Middle Eastern Studies 343 (Topic: Mod Mid East In 100 Objects), 343 (Topic 12). Prerequisite: Upper-division standing.

ARH 328N. Arabs and Vikings: Art and Culture.
Same as German, Scandinavian, and Dutch Studies 362F and Middle Eastern Studies 343 (Topic 13). Explore the art and culture of the global Middle Ages through close examination of recent films, popular and academic publications, and works of art and architecture that reveal the interconnection between the European and the Islamic worlds. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 328N, 361L (Topic: Arabs/Vikings Art Culture), German, Scandinavian, and Dutch Studies 360 (Arabs/Vikings Art Culture) 362F, Middle Eastern Studies 343 (Topic: Arabs/Vikings Art Culture), 343 (Topic 13). Prerequisite: Upper-division standing.

ARH 329J. Byzantine Art.
Same as Religious Studies 357I. Examination of the medieval art and architecture of the eastern Roman empire, including related traditions (Coptic, Armenian, Georgian, Crusader, Norman). Three lecture hours a week for one semester. Only one of the following may be counted: Art History 329J, Religious Studies 357 (Topic 2), 357I.

ARH 329N. Art and Architecture of Late Antiquity.
Examination of early Christian and late Roman art and architecture, including related traditions, such as Jewish, Coptic, Armenian, Georgian, Persian, and Syrian. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 329N, 362R (Topic: Art and Architecture of Late Antiquity), Classical Civilization 340 (Topic: Art and Architecture of Late Antiquity).

ARH 129Q, 229Q, 329Q, 429Q, 529Q, 629Q, 729Q, 829Q, 929Q. Topics in Art History.
This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Art and Art History. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

ARH 329R. Romanesque Art and Architecture.
Same as European Studies 347 (Topic 28). Form and function of religious art in twelfth-century Europe. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 329R, European Studies 347 (Topic: Romanesque Art and Architecture), 347 (Topic 28).

ARH 329T. Art in the Age of Dante and Giotto.
Same as European Studies 347 (Topic 49). Examine the art of the later Middle Ages in Italy (1200-1400), including work by Giotto, Duccio, Nicola and Giovanni Pisano, and Arnolfo de Cambio. Three lecture hours a week for one semester. Only one of the following may be counted Art History 329T, Art History 363 (Topic: Art in the Age of Dante/Giotto), European Studies 347 (Topic: Art in the Age of Dante/Giotto), European Studies 347 (Topic 49).

ARH 330G. Art at Court: The Gothic Period.
Same as European Studies 347 (Topic 48). Changing manifestations of Gothic art and architecture at selected court centers, 1140 to 1400. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 330G, European Studies 347 (Topic: Art at Court: The Gothic Period), 347 (Topic 45).

ARH 330J. Gothic Cathedral: Amiens.
Same as European Studies 347 (Topic 30) and Religious Studies 357Q. An examination of the cathedral at Amiens, its meaning, structure, political and financial contexts, and sculptural programs, as well as its influence on other buildings in France and Germany. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 330J, 374 (Topic: Gothic Cathedral: Amiens), European Studies 347 (Topic: Gothic Cathedral: Amiens), 347 (Topic 30), Religious Studies 357 (Topic 14), 357Q.

ARH 331J. Art and Experience in Central Italy.
Restricted to students admitted to the Learning Tuscany program. Art and architecture of central Italy. The equivalent of three lecture hours a week for one semester. Prerequisite: Consent of instructor.

ARH 331K. Early Italian Renaissance Art to 1470.
Same as Core Texts and Ideas 352D and European Studies 347 (Topic 29). Traces the beginnings of the ”rebirth” (renaissance) of the visual arts, from the end of the Middle Ages to the heyday of the Medici. Works of art are analyzed both in formal terms and in relation to contemporary society, religion, philosophy, economics, statecraft, gender, and other significant issues. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 331K, Core Texts and Ideas 352D, 375 (Topic: Early Italian Renaissance Art to 1470), European
ARH 331N. Later Quattrocento Art, 1470-1500.
Explores the visual arts created in the Italian peninsula during the final decades of the fifteenth century, or Quattrocento. Emphasis will be on common themes such as the revival of antiquity, the exaltation of the prince, and specific local characteristics. Three lecture hours a week for one semester.

ARH 331P. Art and the City in Renaissance Italy.
Same as Core Texts and Ideas 375 (Topic 4) and European Studies 347 (Topic 33). Art, architecture, and emerging civic identity in Florence, Siena, Venice, and other Italian Renaissance city-states. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 331P, 364 (Topic: Art and the City in Renaissance Italy), Core Texts and Ideas 375 (Topic: Art and the City in Renaissance Italy), 375 (Topic 4), European Studies 347 (Topic: Art and the City in Renaissance Italy), 347 (Topic 33), Italian Civilization 349 (Topic: Art and the City in Renaissance Italy), Western Civilization 320 (Topic: Art and the City in Renaissance Italy).

ARH 331Q. Art in Medici Florence.
Explores the social and cultural fabric of Florence before and after the rise to power of the Medici family beginning in the early fifteenth century. Three lecture hours a week for one semester.

ARH 331R. Michelangelo and His World.
Examine the work of artist Michelangelo Buonarroti (1475-1564). Three lecture hours a week for one semester. Art History 331R and 364 (Topic: Michelangelo and His World) may not both be counted.

ARH 331S. Art, Geology, and Place in Italy.
Examine the intersection of art, geology, and the geographic notion of ‘place’ in Italy, using a thematic rather than geographic approach. Three lecture hours a week for one semester. Art History 331S and 364 (Topic: Art/Geology/Place in Italy) may not both be counted.

ARH 332K. Northern Renaissance Art, 1350-1500.
Same as European Studies 347 (Topic 27) and Religious Studies 357J. Northern European art from the International Style to van Eyck and Hieronymus Bosch. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 332K, European Studies 347 (Topic: Northern Renaissance Art, 1350-1500), 347 (Topic 27), Religious Studies 357 (Topic: Northern Renaissance Art, 1350-1500), 357 (Topic 7), 357J.

ARH 332L. Northern Renaissance Art, 1500-1600.
Same as European Studies 347 (Topic 32) and Religious Studies 357K. Art and cultural development in the sixteenth century; artists include Durer, Gruenewald, Holbein, and Brueghel. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 332L, European Studies 347 (Topic: Northern Renaissance Art, 1500-1600), 347 (Topic 32), Religious Studies 357 (Topic: Northern Renaissance Art, 1500-1600), 357 (Topic 6), 357K.

ARH 333K. Italian Baroque Art.
The art of Italy in the seventeenth and eighteenth centuries; includes the sixteenth-century sources from which Roman baroque developed. Three lecture hours a week for one semester.

ARH 333L. The Age of Rembrandt and Rubens: Northern Baroque Art.
Same as European Studies 347 (Topic 31) and Religious Studies 357R. Northern European art in the seventeenth century, stressing the rise to power of the Medici family beginning in the early fifteenth century. The art of Italy in the seventeenth and eighteenth centuries; includes the sixteenth-century sources from which Roman baroque developed. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 333L, European Studies 347 (Topic: The Age of Rembrandt and Rubens: Northern Baroque Art), 347 (Topic 31), Religious Studies 357 (Topic 11), 357R.

ARH 333M. Rembrandt and Vermeer.
Examine the lives and work of Rembrandt (1606-1669) and Jan Vermeer (1632-1675) from diverse methodological perceptions. Three lecture hours a week for one semester. Art History 333M and 365 (Topic: Rembrandt and Vermeer) may not both be counted.

ARH 335F. Art and the Moral Law.
Examines the revolutionary energy of ‘Art for Art’s Sake’ in nineteenth century Europe and various artists’ challenge to the moral law, especially in Britain and France. Three lecture hours a week for one semester.

ARH 335G. Art and Landscape 1778-1908.
In Europe, the arts of landscape (painting, gardening, poetry and the novel) flourished more creatively than ever in the period covered. Exploration of these arts, their intersections with each other, and across national boundaries. Three lecture hours a week for one semester.

ARH 335H. Buddhist Traditions and Nineteenth-Century Art.
Examines the extent to which Buddhism and Buddhist art influenced artists and Western culture in the nineteenth century, especially in the development of modernism. Three lecture hours a week for one semester.

ARH 335J. Nineteenth-Century Art.
Examines European art and themes in art during the nineteenth century. Three lecture hours a week for one semester.

ARH 335N. European Art, 1789-1848.
European painting and sculpture as social and political events from the French Revolution to the revolutionary crises of midcentury. Three lecture hours a week for one semester.

ARH 335R. Burne-Jones and Friends.
Explore the works of British symbolist painter Edward Burne-Jones (1833-1898) and its place within 19th-century European culture. Three lecture hours a week for one semester. Art History 335R and Art History 366J (Topic: Burne-Jones and Friends) may not both be counted.

ARH 335T. Goya in Context.
Explore the works of Francisco Goya (1746-1828). Three lecture hours a week for one semester. Art History 335T and 366J (Topic: Goya in Context) may not both be counted.

ARH 336D. Derek Jarman: Art and Film.
The place of Derek Jarman (1942-1994) in the history of film is assured, but he was also a painter, wrote memoirs, and created a famous garden. Discussion of all his works in the context of his life, British culture, and his HIV/AIDS status. Three lecture hours a week for one semester. Art History 336D and 366N (Topic: Derek Jarman: Art/Film-Making) may not both be counted.

ARH 337K. Twentieth-Century European Art to 1940.
Same as European Studies 347 (Topic 46). Major movements in the development of modern European painting and sculpture. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 337K, European Studies 347 (Topic: Twentieth-Century European Art to 1940), 347 (Topic 46).
ARH 338J. Performing Art History.

Uses the work of one seminal performance, film, video, and installation artist as a case study for considering the history of minimalism, video, and performance in the United States and Europe from the 1960s to the present and for developing ways of writing about time-based media in general. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 338J, 359 (Topic: Performing Art History), 366P (Topic: Performing Art History), Women and Gender Studies 345 (Topic: Performing Art History). Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

ARH 338L. Art since 1930: Modernism and Mass Modernity.

Avant-garde activity, primarily painting, photography, and film, in the United States and Europe from 1930 to 1970. Three lecture hours a week for one semester.

ARH 338M. Art and Culture: 1968 and After.

Artistic and critical activity in the United States and Europe from 1968 to the present. Three lecture hours a week for one semester.

ARH 338N. Sculpture as Model in the Twentieth Century.

Examines the inherent problems in making and interpreting sculpture in the twentieth century in the United States and Europe. Three lecture hours a week for one semester.

Considers the fate of avant-garde culture globally during World War II and its immediate aftermath through the lens of View Magazine and primary research conducted in the Harry Ransom Center. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 338V, 359 (Topic: Magazine as Archive: 1940-1947), 366P (Topic: Magazine as Archive: 1940-1947). Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

ARH 339J. American Art: Colonial Era to the Civil War.

Painting, sculpture, and architecture from the early seventeenth century to 1860. Three lecture hours a week for one semester.

ARH 339K. American Art: Civil War to the Armory Show.

Painting, sculpture, and architecture from 1860 to 1913. Three lecture hours a week for one semester.

ARH 339L. Twentieth-Century American Art to the 1950s.

Art in the United States from the Armory Show through abstract expressionism. Three lecture hours a week for one semester.

Same as American Studies 339M. Survey of major movements from 1958 to 1985, from pop art to graffiti art and new expressionism. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 325 (Topic: American Art 1958-1985), 339M, Art History 339M.

ARH 339N. Painting in America to 1860.

Same as American Studies 325F. Painting in British colonial North America and the United States prior to the Civil War. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 325 (Topic 2), 325F, Art History 339N, 374 (Topic 1).

Same as American Studies 325G. Painting in the United States from the Civil War to the Armory Show. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 325 (Topic 3), 325G, Art History 339P, 374 (Topic 2).

ARH 339Q. Modernism in American Design and Architecture.

Same as American Studies 330 and Urban Studies 320M. A historical survey of artifacts, buildings, and urban environments, focusing on responses to machine-age civilization. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 330, Art History 339Q, Urban Studies 352 (Topic 5), 320M. Prerequisite: Upper-division standing.

Examines similarities and differences between the discipline of art history and the types of visual training offered by medical schools in conjunction with museums. Builds observational skills necessary for both medicine and art history while remaining grounded in the methodologies and purposes of art history. Sharpens critical thinking skills about images and texts. Cultivates interdisciplinary collaboration in consideration of select examples of European and U.S. art, including but not limited to--medical or anatomical subjects. Three lecture hours a week for one semester.

ARH 340L. History of Photography.

The history of photography, including major historic processes, influential photographers, critical debates, and the significant social, political, and economic circumstances that shaped the development of the medium and the diverse works that were created since its origins in the nineteenth century. Three lecture hours a week for one semester. Art History 340L and 366N (Topic: History of Photography) may not both be counted.

ARH 341D. Contemporary Latinx Visual and Performance Art.

Same as American Studies 374C, Mexican American Studies 323D, and Women's and Gender Studies 340 (Topic 1). Explore contemporary visual and performance art by Latinx artists working since the 1970's to the present. Examine artists who began to engage with and in civil rights discourse to intervene through their art-making practices; and to align with contemporary trends in the art world that began to expand in the 1970’s, such as performance art, installation art, video art, and, later, digital art. Three lecture hours a week for one semester. Only one of the following may be counted: American Studies 374C, Art History 341D, 361 (Topic: Latinx Visual/Performance Art), Mexican American Studies 323D, 374 (Topic: Latinx Visual/Performance Art), Women's and Gender Studies 340 (Topic 1). Prerequisite: Upper-division standing.

Art of the nineteenth century in Latin America, including Argentina, Brazil, Colombia, Chile, Mexico, Paraguay, Peru, Uruguay, Venezuela, and the Caribbean. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 341J, 361 (Topic: Reframing the Nation: Nineteenth-Century Latin American Art), Latin American Studies 327 (Topic: Reframing the Nation: Nineteenth-Century Latin American Art).

ARH 341K. Modern Art of Mexico.

Same as Latin American Studies 327 (Topic 2). Mexican visual culture from the late nineteenth century through 1968. Emphasis on the emergence of modernist avant-gardes and popular entertainment, and their ambivalent relationship to state, church, and market. Also explores how self-consciously negotiating the tension between native and international influences, artists, critics, and curators contributes to notions of Lo Mexicano, or "Mexicanness." Three lecture hours a week for one semester. Art History 341K and Latin American Studies 327 (Topic 2) may not both be counted.

ARH 341L. Chicano Art Histories and Futures.

Same as Latin American Studies 327 (Topic 1). Mexican American art since the 1960s, with an emphasis on the visual production and
exhibition of identity inside and outside the Chicano civil rights movement and the politics of U.S. multiculturalism. An introduction to a broad range of art history written to date—including recent feminist and queer interventions—as a means of envisioning a supposed “post-Chicano” or “post-racial” moment. Three lecture hours a week for one semester. Art History 341L and Latin American Studies 327 (Topic 1) may not both be counted.

**ARH 341M. Contemporary Mexican Art.**
Survey of visual culture beginning in the 1950s and 1960s, with a focus on key artists, exhibition spaces, and critical debates from the last thirty years in Mexico in light of international aesthetic currents and shifting political and economic conditions. Three lecture hours a week for one semester.

**ARH 341N. Other Modernities: Latin American Art.**
Development and sources of twentieth-century art in the Caribbean and Central and South America. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 341N, 361 (Topic: Other Modernities: Latin American Art), Latin American Studies 327 (Topic: Other Modernities: Latin American Art), Mexican American Studies 374 (Topic: Other Modernities: Latin American Art).

**ARH 341P. Contemporary Latin American Art.**
Same as Latin American Studies 327 (Topic 9). Development and sources of art in the Caribbean and Central and South America from the 1960s to the present. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 341P, 361 (Topic: Contemporary Latin Amer Art), Latin American Studies 327 (Topic: Contemporary Latin Amer Art), 327 (Topic 9).

**ARH 341Q. Women in Latin American Art.**
Development and sources of Latin American Women Artists considering feminist, gender and queer theories. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 341Q, 361 (Topic: From Modern to Conceptual: Women Artists in Latin America), Women's and Gender Studies 340 (Topic: From Modern to Conceptual: Women Artists in Latin America).

**ARH 341R. Apertures: Film and Photography Through Greater Mexico.**
Exploration of the historical and aesthetic linkages and affinities between filmmakers and photographers working in greater Mexico, including prominent visitors and Americans of Mexican descent. Considers how Mexican culture is represented but also how borders between Mexico and the wider world—as well as among media—were blurred or brought into sharfer focus by these exchanges. Three lecture hours a week for one semester. Art History 341R and 361 (Topic: Apertures: Film & Photo Mexico) may not both be counted.

**ARH 341S. Art Cinemas of the Americas.**
Same as Latin American Studies 327 (Topic 7). Examine art cinemas from the Spanish-speaking Americas from the 1950s to the present. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 341S, 361 (Topic: Art Cinemas of the Americas), Latin American Studies 327 (Topic: Art Cinemas of the Americas), 327 (Topic 7).

**ARH 342J. Introduction to Women's and Gender Studies in the Fine Arts.**
An introduction to women's studies and gender studies in relation to visual, theatrical, and musical culture in the United States and Europe. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 342J, 359 (Topic: Intro to Women's and Gender Studies in the Fine Arts), Fine Arts 350 (Topic: Intro to Women's and Gender Studies in the Fine Arts), Women's and Gender Studies 345 (Topic: Intro to Women's and Gender Studies in the Fine Arts).

**ARH 344J. Twentieth-Century African American Art.**
Same as African and African Diaspora Studies 335K. A survey of visual art produced by people of African descent in the United States with an emphasis on the twentieth century and its sociohistorical framework. Changes in modes of expression, formal concerns, pictorial themes, and the impact of the Black Arts movement, feminism, and Afrocentrism on art are explored, as well as the relationship of the work of black artists to art from West and Central Africa and the visual traditions of European and Euro-American artists. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 335K, 374F (Topic 19), Art History 344J, 366N (Topic: 20th-Cen African American Art).

**ARH 344L. Art of the Harlem Renaissance.**
Same as African and African Diaspora Studies 335M. Examine the factors which gave rise to the Harlem Renaissance, with a particular emphasis on art and artists. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 344L, 374 (Topic: Harlem Renaissance), African and African Diaspora Studies 335M, 374F (Topic: Harlem Renaissance).

**ARH 345J. Contemporary Artists of the African Diaspora.**
Same as African and African Diaspora Studies 335J. Examines a wide range of artists, practicing in different parts of the world, who are part of the African diaspora via such factors as the Atlantic slave trade and various patterns of international migration. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 335J, 374F (Topic 15), Art History 345J, 373D (Topic: Contemp Artist of Afr Diaspora), 374 (Topic: Contemp Artist of Afr Diaspora).

**ARH 345K. Contemporary British Artists of the African Diaspora.**
Same as African and African Diaspora Studies 335I. A look at a wide range of artists, practicing in Britain, who are part of the African diaspora via such factors as the Atlantic slave trade and various patterns of international migration. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 335I, 374F (Topic 14), Art History 345K, 374 (Topic: Contemp Brit Artists Afr Diaspora).

**ARH 345L. Diaspora Visions.**
Same as African and African Diaspora Studies 335G and Women's and Gender Studies 340 (Topic 48). An exploration of border crossing by cultures and groups including Yorubas, Jews, Armenians, Tibetans, Hamish, Pakistanis, and Indians and the production of images by immigrants, exiles, and nomads in alien lands. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 335G, 374F (Topic 13), Art History 345L, 373D (Topic: Diaspora Visions), 374 (Topic: Diaspora Vision), Women's and Gender Studies 340 (Topic 48).

**ARH 345M. Visual Arts of the Caribbean.**
Same as African and African Diaspora Studies 335F. A look at a wide range of artists from the countries of the Caribbean, including examples of cinema and reggae music packaging. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 335F, 374F (Topic 12), Art History 345M, 373D (Topic: Visual Arts of the Caribbean), 374 (Topic: Visual Arts of the Caribbean).
ARH 345N. Cinema of the African Diaspora.
Examine work made in the past several decades by independent film-makers from different parts of the world, including the United States, which speaks to the history, challenges, and multiple identities of people in the African Diaspora. Three lecture hours a week for one semester. Art History 345N and 373D (Topic: Cinema of African Diaspora) may not both be counted.

ARH 346K. Introduction to African Art.
Same as African and African Diaspora Studies 335E. Investigates the lives and works of several artists who have made substantial contributions to the definition, history, and interpretation of the visual arts. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 335E, 374F (Topic 11), Art History 346K, 373C (Topic: Introduction to African Art), 374 (Topic: Introduction to African Art).

ARH 346L. Africana Women's Art.
Same as African and African Diaspora Studies 335C and Women's and Gender Studies 340 (Topic 46). Analysis of the diverse modes of presentation, mediums, definitions, and influences of Africana women artists in the diaspora. Designed to use critical theory and art history found in oral and written literatures, music, films, and other formal and informal documents. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 335C, 374F (Topic: Africana Women's Art), 374F (Topic 9), Art History 346L, 373C (Topic: Africana Women's Art), Women's and Gender Studies 340 (Topic: Africana Women's Art), 340 (Topic 46). Prerequisite: Upper-division standing.

ARH 346M. Visual Cultures of Africa.
Same as African and African Diaspora Studies 335D. Painting, textiles, ceramics, sculpture, performance, mixed media, photography, films, and the aesthetic ideas behind the production of African visual cultures from the perspectives of rituals, rites of passage, celebrations, initiations, documentations, and expressions. Three lecture hours a week for one semester. Only one of the following may be counted: African and African Diaspora Studies 335D, 374F (Topic 10), Art History 346M, 373C (Topic: Visual Cultures of Africa).

ARH 347J. Preclassic Mesoamerican Art and Civilization.
Introduction to the origins and earliest developments in Mesoamerican art, architecture, and civilization, with emphasis on the social context of art and visual culture in preclassical Mesoamerica. Three lecture hours a week for one semester.

ARH 347K. Art and Archaeology of Ancient Peru.
Same as Latin American Studies 327 (Topic 6). The growth of civilization in South America from the earliest decorated textiles, pottery, and ceremonial buildings to the imperial Inca style. Three lecture hours a week for one semester. Art History 347K and Latin American Studies 327 (Topic 6) may not both be counted.

ARH 347L. Mesoamerican Art and Culture.
Same as Latin American Studies 327 (Topic 3). Mesoamerican art, architecture, and its archaeological context, with emphasis on the social function of art and visual culture in ancient Mesoamerica up to the time of European contact. Three lecture hours a week for one semester. Art History 347L and Latin American Studies 327 (Topic 3) may not both be counted.

ARH 347M. Maya Art and Architecture.
Same as Anthropology 323V, Geography 322M, and Latin American Studies 327 (Topic 5). Introduction to the artistic traditions of the ancient Maya, tracing their development up to the time of European contact. Students will examine various important themes of Maya culture including history, ritual, and cosmology as revealed in sculpture, hieroglyphs, painting, and architectural design. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 323V, 324L (Topic: Maya Art and Architecture), Art History 347M, Latin American Studies 327 (Topic 5), Geography 322M, 356T (Topic: Maya Art/Architecture).

ARH 347N. Aztec Art and Civilization.
Same as Latin American Studies 327 (Topic 11). An introduction to the art, symbolism, and visual culture of the ancient Aztecs. Subjects include the representations of history and mythology in architecture, stone monuments, and pictorial manuscripts. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 347N, 370 (Topic: Aztec Art and Civilization), Latin American Studies 327 (Topic: Aztec Art and Civilization), 327 (Topic 11).

ARH 347P. Mesoamerican Writing Systems.
Examines the scripts of ancient Mesoamerica, focusing mostly on Maya and Aztec hieroglyphic writing. Subjects include methods of decipherment, the visual encoding of language in art and script, and the cultures of literacy in precolombian Mesoamerica. Three lecture hours a week for one semester.

ARH 347R. Architecture and Sculpture in the Maya World.
Same as Anthropology 322V and Latin American Studies 327 (Topic 10). Explore the ancient world of the Maya through the lens of architecture and sculpture. Three lecture hours a week for one semester. Only one of the following may be counted: Anthropology 322V, Art History 347R, 370 (Topic: Arch/Sculpture in Maya World), Latin American Studies 327 (Topic 10).

ARH 348K. Formation of Indian Art, 1000 BCE to 1000 CE.
Examines the artistic traditions of South Asia up to the fifth century C.E., with an emphasis on social and religious factors shaping its development. Three lecture hours a week for one semester.

ARH 348L. Later Indian Art.
Examines the development of artistic and architectural traditions in South Asia from the fifth through fourteenth centuries with an emphasis on their social and religious significance. Three lecture hours a week for one semester.

ARH 348M. The Taj Mahal and the Diversity of Indian Art.
Same as Religious Studies 341E. Examination of the period when Islamic dynasties controlled much of the subcontinent and how a unique mix of forms and cultural practices shaped the development of monuments such as the Taj Mahal. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 348M, 372 (Topic: The Taj Mahal and the Diversity of Indian Art), Asian Studies 372 (Topic: The Taj Mahal and the Diversity of Indian Art), Religious Studies 341 (Topic 9), 341E. Prerequisite: Upper-division standing.

ARH 348N. Buddhist Art.
Same as Asian Studies 374C and Religious Studies 341T. Explores the development of Buddhist art in South Asia, the land of its origin as well as its spread elsewhere. Focus on the question of "what is" Buddhist art. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 348N, 372 (Topic: Buddhist Art), Asian Studies 372 (Topic 24), 374C, Religious Studies 341 (Topic 8), 341T.

ARH 348P. Art in the Himalayas.
Examines developments in various Himalayan regions, such as Tibet and Nepal, by focusing on certain subjects and styles in order to comprehend
the roles of art in shaping culture and society. Three semester hours a week for one semester.

ARH 349L. Contemporary Chinese Art.
Examines Chinese art and visual culture from the early twentieth century to the present. Analyzes complex issues involving modern and contemporary art scenes in China through artworks, artists‘ lives, and sociopolitical changes in China during this period. Three lecture hours a week for one semester. Only one of the following may be counted: Art History 349L, 372 (Topic: Contemporary Chinese Art), Asian Studies 372 (Topic: Contemporary Chinese Art), 372 (Topic 45).

ARH 359. Topics in Feminism and Gender.
An introduction to feminist and gender theories in relation to issues concerning visual representation. Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

ARH 360L. Topics in the History of Photography.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

ARH 361. Topics in Latin American and Latinx Art.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

ARH 361L. Topics in Ancient Near Eastern Art.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

ARH 362. Topics in Greek and Roman Art.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

ARH 362R. Topics in the Art of Late Antiquity.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

ARH 363. Topics in Medieval Art.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

ARH 364. Topics in Renaissance Art.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

ARH 365. Topics in Baroque Art.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

ARH 366J. Topics in Nineteenth-Century Art.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

ARH 366N. Topics in Twentieth-Century Art.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

ARH 366P. Topics in Modernism.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

ARH 367. Topics in the Art of North America.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

ARH 368. Topics in Surrealism.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

ARH 370. Topics in Pre-Columbian Art.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

ARH 370J. Study in Guatemala.
Art and architecture of Guatemala. The equivalent of three lecture hours a week for one semester. Taught in Guatemala. May be repeated for credit when the topics vary. Prerequisite: Consent of instructor.

ARH 371. Topics in the Art of Asia.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

ARH 372. Topics in the Art of Asia.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

ARH 373C. Topics in Africana Art.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

ARH 373D. Topics in Diaspora Art.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

ARH 373E. Topics in African American Art.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

ARH 374. Special Topics in the History of Art.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary.

ARH 375. Theories and Methods in the History of Art.
Restricted to art history majors. Examination of the theories and methods used by art historians and the changing nature of art historical inquiry. Three lecture hours a week for one semester. Prerequisite: Upper-division standing, Art History 321 with a grade of at least C, and consent of the adviser.
ARH 376. Reading Tutorial in Art History Problems.
Individual projects to be completed under faculty supervision. The equivalent of three lecture hours a week for one semester. May be repeated for credit. Prerequisite: For majors in the Department of Art and Art History, six semester hours of upper-division art history, a grade point average of at least 3.00, and consent of instructor; for others, a grade point average of at least 3.00, and consent of instructor.

ARH 379H. Thesis Course for Departmental Honors.
Individual conference course in which student researches and writes a thesis. The equivalent of three lecture hours a week for one semester. Prerequisite: Admission to the Honors Program in Art History, and approval of the honors adviser.

Graduate Courses

ARH 381. Topics in Latin American and Latinx Art.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in art history and consent of the graduate adviser.

- Topic 1: Contemporary Brazilian Art. Same as Latin American Studies 381 (Topic 24). Examine art and activism in contemporary Brazil to explore how artists are relating to, reflecting on, and resisting the democratic erosion in the country. Only one of the following may be counted: Art History 381 (Topic: Contemporary Brazilian Art), 381 (Topic 1), Latin American Studies 381 (Topic: Contemporary Brazilian Art), 381 (Topic 24). Additional prerequisite: Graduate standing in art history and consent of the graduate adviser.

ARH 381L. Topics in Ancient Near Eastern Art.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in art history and consent of the graduate adviser.

- Topic 1: Visual Cultures in the Ancient Near East. Examine scholarly methodologies for understanding how imagery encoded messages and how viewers developed strategies for making sense of them. Only one of the following may count: Art History 381L (Topic: Visual Cults In Anc Near East), 381L (Topic 1), Middle Eastern Studies 381 (Topic: Visual Cults In Anc Near East).

ARH 382. Topics in Greek and Roman Art.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in art history and consent of the graduate adviser.

- Topic 1: Parthenon Throughout the Ages. Examine the products of ongoing preservation and restoration of the Parthenon, its history and contemporary relevance. Art History 382 (Topic: Parthenon Through The Ages) and 382 (Topic 1) may not both be counted.
- Topic 3: Pompeii and Ostia: Visual Representation and Acculturation. Examine how scholars in the past and the present have used evidence of visual representation and material culture to understand human beings living in Pompeii and Ostia. Art History 382 (Topic: Pompeii/ Ostia Vis Rep Accul) and 382 (Topic 3) may not both be counted.
- Topic 4: Art and Politics in Republican Rome. Explore the art and architecture of Republican Rome circa 500-44 B.C. and its relationship with visual culture and politics of the time. Art History 382 (Topic: Art & Polit In Republican Rome) and 382 (Topic 4) may not both be counted.

ARH 382R. Topics in the Art of Late Antiquity.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in art history and consent of the graduate adviser.

ARH 383. Topics in Medieval Art.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in art history and consent of the graduate adviser.

- Topic 1: The Islamic City. Explore the morphology, sociology, and historiography of cities in the Islamic world over time, from the medieval period to the present. Only one of the following may be counted: Art History 383 (Topic 1), 394 (Topic: The Islamic City), Medieval Studies 392M (Topic 1), Middle Eastern Studies 386 (Topic: The Islamic City).

ARH 384. Topics in Renaissance Art.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in art history and consent of the graduate adviser.

- Topic 1: Michelangelo and His World. Examine the work of Michelangelo Buonarroti (1475-1564) in the context of his patrons and the history of the period in which he worked. Only one of the following may be counted: Art History 384 (Topic: Michelangelo), 384 (Topic 1), Italian Studies 382 (Topic: Michelangelo).

ARH 385. Topics in Baroque Art.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in art history and consent of the graduate adviser.

ARH 386G. Topics in Eighteenth-Century Art.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in art history and consent of the graduate adviser.

ARH 386J. Topics in Nineteenth-Century Art.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in art history and consent of the graduate adviser.

ARH 386N. Topics in Twentieth-Century Art.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in art history and consent of the graduate adviser.

ARH 386P. Topics in Modernism.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.
Topic 1: Art Criticism, Theory, and Contemporary Art. Explore the language of art criticism and to investigate the historical origin of some of the terms that have become central to the discourse of contemporary art. Art History 386P (Topic: ART CRIT, THRY, AND CONTEM ART) and 386P (Topic 1) may not both be counted.

Topic 2: Writing About Contemporary Art. Study the special problems facing those who write about contemporary art, which does not already have an established historical record or a generally accepted canonical interpretation. Art History 386P (Topic: Writing Abt Contemp Art) and 386P (Topic 2) may not both be counted.

Topic 3: Film Cultures of the 1960s. Examine the formal, theoretical, and social circumstances of the integration of various film cultures and surrealism in Europe and the United States during the post-war period. Only one of the following may be counted: Art History 386P (Topic: Film Cultures of the 1960s), 386P (Topic 3), Women’s and Gender Studies 393 (Topic: Film Cultures of the 1960s).

Topic 4: Archives and the History of Everyday Life. Examine an overview of the work of a variety of individuals who consider history, biography, and the study of archives through the lens of the ephemeral and lived experience. Explore the relationship between writing biography and autobiography, archives and archival research and the production of knowledge, and the impact these choices have on the writing of history. Art History 386P (Topic: Archives/Hist Everyday Life) and 386P (Topic 4) may not both be counted.

Topic 5: Magazine as Archive. Examine the magazine as archive and whether its temporal and material limit-terms constitute a viable frame for the writing of history. Only one of the following may be counted: Art History 386P (Topic: View Magazine, 1940-47), 386P (Topic 5), Women’s and Gender Studies 393 (Topic: View Magazine, 1940-47).

ARH 387. Topics in the Art of North America.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in art history and consent of the graduate adviser.

ARH 390. Topics in Pre-Columbian Art.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in art history and consent of the graduate adviser.

ARH 392. Topics in the Art of East Asia.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in art history and consent of the graduate adviser.

ARH 393C. Topics in Africana Art.
The equivalent of three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in art history and consent of the graduate adviser.

ARH 393D. Topics in Diaspora Art.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in art history and consent of the graduate adviser.

Topic 1: Visualizing Slavery. Examine the work of modern and contemporary artists that touches on or explores the issue of slavery. Only one of the following may be counted: African and African Diaspora Studies 387D (Topic: Visualizing Slavery), American Studies 391 (Topic: Visualizing Slavery), Art History 393D (Topic: Visualizing Slavery), 393D (Topic 1), Women’s and Gender Studies 393 (Topic: Visualizing Slavery).

ARH 393E. Topics in African American Art.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in art history and consent of the graduate adviser.

ARH 394. Special Topics in the History of Art.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in art history and consent of the graduate adviser.

Topic 2: Administration and Development of Visual Resources Collections.

Topic 3: Poststructuralist Methods in Art History. Examine an overview of influential examples of poststructuralist theory and how such theory can be applied to interpretive issues in the visual arts. Explore the writings of Barthes, Derrida, Lacan, Benjamin, and others. Only one of the following may be counted: Art History 386P (Topic: Poststructural Meths in ARH), 394 (Topic: Poststruct Methods in Art Hist), 394 (Topic 3).

Topic 4: When Practice Encounters Theory. Study situations in which the theoretical position that guides an interpretation comes into conflict with the nature of the technical practices of the artist whose work is being interpreted. Art History 394 (Topic: When Practice Encounters Thry) and 394 (Topic 4) may not both be counted.

Topic 5: Visual Cultures in Cyberspace. Examine transatlantic computational art systems as expressive practices for computing aesthetics and interconnectivity of gendered, racial, and sexualized bodies. Only one of the following may be counted: Art History 394 (Topic: Visual Cultures in Cyberspace), 394 (Topic 5), Women’s and Gender Studies 393 (Topic: Visual Cultures in Cyberspace).

Topic 6: Issues in Museum Studies. Same as Art Education 383L. Survey major issues in the field of museum studies. Three lecture hours a week for one semester. Only one of the following may be counted: Art Education 383L, Art History 394 (Topic: Issues in Museum Studies), 394 (Topic 6). Additional prerequisite: Graduate standing and consent of the graduate adviser.

ARH 395. Art Historical Methods.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in art history and consent of the graduate adviser.

ARH 396. Advanced Reading Tutorial.
Individual instruction arranged by the student. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

ARH 196C, 396C. Reading Tutorial.
Individual instruction arranged by the student. One hour instruction per week for each hour of credit earned. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

ARH 396K. Advanced Lecture Tutorial.
Individual instruction arranged by the student. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor.

Conference course. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in art history and consent of the graduate adviser.
**ARH 396P. Qualifying Examination Preparation.**
Individual instruction arranged by the student. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

**ARH 397. Doctoral Colloquium.**
Conference course for students preparing for dissertation colloquium. Individual instruction arranged by the student. May not be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Graduate standing, admission to the doctoral program in art history, and consent of instructor.

**ARH 698. Thesis.**
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in art history and consent of the graduate adviser; for 698B, Art History 698A.

**ARH 398T. Supervised Teaching in Art History.**
Teaching under the close supervision of the course instructor for one semester; weekly group meetings with the instructor, individual consultations, and reports throughout the teaching period. Three lecture hours a week for one semester. Prerequisite: Graduate standing in art history, or graduate standing and appointment as a teaching assistant.

**ARH 399W, 699W, 999W. Dissertation.**
May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

**Professional Courses**

**ARI - Architectural Interior Design**

**Lower-Division Courses**

**ARI 310K. Design I.**
Same as Architecture 310K. Restricted to students in the School of Architecture. An introduction to the forms and methods of design for architects and interior designers, with an emphasis on inhabitation including body, light, and movement. Taught in a studio format by faculty members under the direction of a faculty coordinator. Three lecture hours and six laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Registration for Architectural Interior Design 311K or Architecture 311K.

**ARI 310L. Design II.**
Same as Architecture 310L. Restricted to students in the School of Architecture. An introduction to the forms and methods of design for architects and interior designers, with an emphasis on environment, including color, material, and texture. Taught in a studio format by faculty members under the direction of a faculty coordinator. Three lecture hours and six laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Architecture 310K and 311K or Architectural Interior Design 310K and 311K with a grade of at least C in each, and registration for Architecture 311L or Architectural Interior Design 311L.

**ARI 311K. Visual Communication I.**
Same as Architecture 311K. Restricted to students in the School of Architecture. Study and application of drawing and other communication skills for designers, including formal and spatial studies, life drawing, and perspective. Three lecture hours and three laboratory hours a week for one semester. Prerequisite: Registration for Architectural Interior Design 310K or Architecture 310K.

**ARI 311L. Visual Communication II.**
Same as Architecture 311L. Restricted to students in the School of Architecture. Study and application of drawing and other communication skills for designers, including color, light and shadow, and projections. Employs manual and digital techniques. Three lecture hours and three laboratory hours a week for one semester. Prerequisite: Architecture 310K and 311K or Architectural Interior Design 310K and 311K with a grade of at least C in each, and registration for Architecture 310L or Architectural Interior Design 310L.

**ARI 318K. Interiors and Society.**
Concepts, principles, and elements of interior design, presented in artistic, philosophical, and professional contexts. Includes a basic historical overview of the development of interior design. Three lecture hours a week for one semester. Prerequisite: For students in the School of Architecture, none; for others, consent of instructor.

**ARI 318M. Interior Design History.**
Survey of interior design from antiquity through the eighteenth century, including theoretical, social, technical, and environmental forces. Three lecture hours a week for one semester. Prerequisite: Architectural Interior Design 318K with a grade of at least C.

**Upper-Division Courses**

**ARI 320K. Design III--Interiors.**
Restricted to students in the School of Architecture. Focus on the physical and psychological needs of the inhabitants of interior space, with an emphasis on conceptual process and diagrammatic techniques. Projects deal with real building situations and introduce implications of fenestration, structure, and materials. Nine hours of lecture and studio a week for one semester. Prerequisite: The following coursework with a grade of at least C in each: Architectural Interior Design 310L and 311L, or Architecture 310L and 311L; and registration for Architectural Interior Design 221K or Architecture 221K.

**ARI 520L. Design IV--Interiors.**
Restricted to students in the School of Architecture. Explores linkages between multiple interior spaces and the study of spatial thresholds. Investigates individual spaces in relation to the body and the surrounding environment, utilizing a clearly defined program. Fifteen hours of lecture and studio a week for one semester. Prerequisite: Architectural Interior Design 320K, Architecture 415K, and Architectural Interior Design 221K or Architecture 221K, with a grade of at least C in each.

**ARI 221K. Visual Communication III.**
Same as Architecture 221K. Restricted to students in the School of Architecture. Introduction to digital modeling as well as principles of digital fabrication. Includes various modes of output such as drawings, renderings, and physical models. Three lecture hours and three laboratory hours a week for one semester. Prerequisite: The following coursework with a grade of at least C in each: Architectural Interior Design 310L and 311L, or Architecture 310L and 311L; and registration for Architectural Interior Design 320K or Architecture 320D (or 320K).

**ARI 324K. Environmental Controls I.**
Same as Architecture 324K. Restricted to students in the School of Architecture. A survey of acoustics, color, light, illumination, and electrical and information systems in architectural interiors. Includes techniques of documentation. Three lecture hours and three laboratory hours a week for one semester. Architectural Interior Design 324K and Architecture 334K may not both be counted. Prerequisite: Architectural
Interior Design 520L or Architecture 521E (or 520E) or 521G (or 520G) with a grade of at least C.

ARI 327P. Productions.
Same as Architecture 327P. Designed to explore the relationships between the generation of form, space, experience, and atmosphere in the spatial practices of interior design, architecture, and art. Three lecture hours a week for one semester. Only one of the following may be counted: Architecture 327P, 350R (Topic: Productions), Architectural Interior Design 327P. Prerequisite: For students in the School of Architecture, upper-division standing; for others, upper-division standing and consent of instructor.

ARI 328P. Prototype.
Same as Architecture 328P. Focus on digital fabrication as a link between architecture and product design. The equivalent of three lecture hours a week for one semester. Only one of the following may be counted: Architecture 328P 351R (Topic: Prototype), Architectural Interior Design 328P. Offered on the letter-grade basis only. Prerequisite: Upper-division standing and Architecture 520L with a grade of at least C, or consent of instructor.

ARI 130. Interior Design Internship.
Restricted to students in the School of Architecture. Practical application of design procedures in a professional design office. At least 250 hours of work in one semester. Prerequisite: Architectural Interior Design 530T.

ARI 530K. Design V--Interiors.
Restricted to students in the School of Architecture. Examination of the elements of interior space and scale, including specific human factors. Particular emphasis on the design, documentation, production, and placement of objects in interiors. Fifteen hours of lecture and studio a week for one semester. Prerequisite: Architectural Interior Design 520L and 434K with a grade of at least C in each.

ARI 530T. Design VI--Interiors.
Restricted to students in the School of Architecture. Capstone studio with specific design projects from current markets. Application of code issues, regulatory restraints, fire safety, and regulations for accessibility in interiors. Fifteen hours of lecture and studio a week for one semester. Prerequisite: Architectural Interior Design 324K and 530K with a grade of at least C in each.

ARI 434K. Construction II--Interior Materials and Assemblies.
Restricted to students in the School of Architecture. Core concepts in interior materials, assemblies, and systems. Includes material properties, environmental and sustainable issues, attachment, detailing, and product specifications. Projects encourage manipulation and assembly of various material systems. Case studies using material samples, and field trips to sites of fabrication. Six hours of lecture and laboratory a week for one semester. Prerequisite: Architecture 415K with a grade of at least C.

Issues of mood, privacy, perception, proxemics, and preferences applied to the design of interiors. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

ARI 350R. Topics in Interior Design Theory.
Seminar in a variety of topics. Designed to broaden the student's knowledge of interior design and to encourage critical and theoretical thinking in the discipline. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: For students in the School of Architecture, upper-division standing; for others, upper-division standing and consent of instructor.

Topic 1: Design Firm Leadership. Architectural Interior Design 350R (Topic: Design Firm Leadership) and 350R (Topic 1) may not both be counted.

Topic 2: Managing the Design Project. Architectural Interior Design 350R (Topic: Managing the Design Project) and 350R (Topic 2) may not both be counted.

ARI 560R. Advanced Interior Design.
Restricted to students in the School of Architecture. Synthesis of components covered in other interior design courses, such as human aspects, place-making, the interior envelope, transitional spaces, and conceptual processes. Ten hours of lecture and studio a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Architectural Interior Design 530T with a grade of at least C and satisfactory completion of a third-year portfolio review.

ARI 362. Interior Design Practice.
Restricted to students in the School of Architecture. Business procedures, professional practice, design project control and management, and professional ethics. Documents procedures for interior design. Three lecture hours a week for one semester. Prerequisite: Upper-division standing or consent of instructor.

ARI 368R. Interior Design History II.
Study of function and aesthetics, and decoration and use, emphasizing interiors from the nineteenth century to the present. Three lecture hours a week for one semester. Prerequisite: Architectural Interior Design 318M with a grade of at least C.

ARI 368S. Topics in the History of Architecture and Architectural Interior Design.
Seminars and lecture/seminars on advanced topics in the history of architectural interior design. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing; and for students in the School of Architecture, Architecture 318L with a grade of at least C; for others, consent of instructor.

ARI 279, 379. Interior Design Research.
Investigation of problems selected by the student with approval of the supervising instructor. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Prerequisite: Upper-division standing and consent of instructor and the dean.

Graduate Courses
ARI 281. Visual Communications.
Introduction to using digital tools for communicating design, with an emphasis on integrating digital image, CAD, and 3-D software processes with hand drawing and modeling techniques. Subjects may include the manipulation of digital images, the combination of text and image, rendered perspectives, measured drawings, an introduction to 3-D modeling, and the use of advanced visual language. Some projects are based on work done in the student's design studios. Six hours of lecture and studio a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

ARI 381D. Architectural Drawing.
Visual communication in such media as freehand drawing, modeling, photography, and measured drawings. Five laboratory hours a week for one semester. Architectural Interior Design 381D and 381R (Topic: Architectural Drawing) may not both be counted. Prerequisite: Graduate standing and consent of graduate adviser.
ARI 381R. Topics in Representation.
Topics in the fundamental components of interior design and visual communication. Five or six laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**Topic 1: Advanced Drawing.** Focus on personal design methodology by exploring multiple drawing methods, skills, and approaches including manual, digital, and hybrid techniques. Refines design communication skills by pairing clearly articulated design intention with compelling drawings, and expressing them via effective verbal presentations. Five or six laboratory hours a week for one semester.

ARI 381T. Topics in Emerging Technologies.
Examines tools, techniques, and methods used in simulating, constructing, and experiencing interior space. Studies how various emerging technologies affect interior design, from initial design to fabrication to completion. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

ARI 382. Interior Design Practice.
Business procedures, professional practice, design project control and management, and professional ethics as they relate to interior design. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

ARI 382D. Mediating Interiors.
Explore methods of media-based processes such as drawing, modeling, imaging, and coding in design, with particular emphasis on explorations which make interior space perceptually, physically, and conceptually tangible. Three lectures hours a week for one semester. Prerequisite: Graduate standing and consent of graduate advisor.

ARI 384F. Environmental Control: Heat, Air and Water.
Examine thermal comfort, heating, cooling, ventilation, plumbing systems, fire protection, and conveying equipment in buildings. Three lecture hours and one laboratory hour a week for one semester. Only one of the following may be counted: Architecture 384F, 384L, Architectural Interior Design 384F, and 384K. Prerequisite: Graduate standing and consent of the graduate adviser.

ARI 384G. Environmental Control: Light, Sound and Electricity.
Survey light and color fundamentals, daylighting, artificial illumination, acoustics, and electrical and information systems for buildings. Three lecture hours and one laboratory hour a week for one semester. Only one of the following may be counted: Architecture 384K, 384G, Architectural Interior Design 384L, 384G. Prerequisite: Graduate standing and consent of the graduate advisor.

ARI 385K. Construction I.
Restricted to students in the Master of Interior Design, first professional program. Introduction to building construction, materials, and structures. Three lecture hours and three laboratory hours a week for one semester. Prerequisite: Graduate standing and consent of graduate adviser.

ARI 385L. Construction II: Interior Materials and Assemblies.
Restricted to students in the Master of Interior Design, first professional program. Core concepts in interior materials, assemblies, and systems. Includes material properties, environmental and sustainable issues, attachment, detailing, and product specifications. Projects encourage manipulation and assembly of various material systems. Also includes case studies using material samples, and field trips to sites of fabrication. Six lecture hours and three laboratory hours a week for one semester. Prerequisite: Graduate standing and consent of graduate adviser with a grade of at least C, and consent of graduate adviser.

ARI 385T. Topics in Materials and Tectonics.
Investigates traditional interior design materials and materials emerging from new technologies. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

ARI 386K. Seminar in Interior Design.
Introductory subjects in interior design. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

ARI 386M. Topics in Interior Design Theory and Criticism.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

**Topic 1: Interiors and Society.** Architectural Interior Design 386M (Topic: Interiors and Society) and 386M (Topic 1) may not both be counted.

**Topic 2: Inside Utopia.** Architectural Interior Design 386M (Topic: Inside Utopia) and 386M (Topic 2) may not both be counted.

**Topic 3: Reimagining Design Precedent.** Architectural Interior Design 386M (Topic: Reimagining Design Precedent) and 386M (Topic 3) may not both be counted.

**Topic 4: Design Firm Leadership.** Architectural Interior Design 386M (Topic: Design Firm Leadership) and 386M (Topic 4) may not both be counted.

**Topic 5: Managing the Design Project.** Architectural Interior Design 386M (Topic: Managing the Design Project) and 386M (Topic 5) may not both be counted.

ARI 388. Designing for Human Behavior.
Restricted to students in the Master of Interior Design, first professional program. Three lecture hours a week for one semester. Architectural Interior Design 386M (Topic: Designing for Human Behavior) and 388 may not both be counted. Prerequisite: Graduate standing.

ARI 388K. Interior Design History I.
Survey of interior design from antiquity through the eighteenth century, including theoretical, social, technical, and environmental issues. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

ARI 388L. Interior Design History II.
Study of function and aesthetics, and decoration and use, emphasizing interiors from the nineteenth century to the present. Three lecture hours a week for one semester. Prerequisite: Graduate standing and Architectural Interior Design 388K with a grade of at least C.

ARI 388R. Topics in Interior Design History.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser. Additional prerequisites may vary with the topic.

ARI 389, 689. Research in Interior Design.
Investigation of problems selected by the student and approved by the graduate adviser. Three or six lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

ARI 391P. Productions.
Same as Architecture 391P. Designed to explore the relationships between the generation of form, space, experience, and atmosphere.
in the spatial practices of interior design, architecture, and art. Three lecture hours a week for one semester. Only one of the following may be counted: Architecture 386M (Topic: Productions), 391P, Architectural Interior Design 386M (Topic: Productions), 391P. Prerequisite: For students in the School of Architecture, graduate standing; for others, graduate standing and consent of instructor.

ARI 392F. Digital Drawing and Fabrication.
Focus on advanced visual communication methodologies necessary for architectural generation, translation, and output. Six laboratory hours a week for one semester. Architectural Interior Design 381R (Topic: Digital Drawing and Fabrication) and 392F may not both be counted. Prerequisite: Graduate standing and consent of the graduate adviser.

ARI 392P. Prototype.
Same as Architecture 392P. Focus on digital fabrication as a link between architecture and product design. Five laboratory hours a week for one semester. Only one of the following may be counted: Architecture 381R (Topic: Prototype), 392P Architectural Interior Design 381R (Topic: Prototype), 392P. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of the graduate adviser.

ARI 693. Master's Design Studio.
Restricted to students in the Master of Interior Design, first professional program. Advanced study in architectural interior design, addressing complex design problems and issues related to various architectural topics. The equivalent of eighteen laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of the graduate adviser.

ARI 693K. Interior Design Core Studio I.
Explores interior spaces and their sequence and adjacencies. Studies individual rooms, their locations, and their uses in such fields as hospitality, health care, and entertainment. Special emphasis on the design of transitions from public spaces to personal spaces. Fifteen hours of lecture and studio a week for one semester. Prerequisite: Graduate standing and consent of the graduate adviser.

ARI 693L. Interior Design Core Studio II.
Examination of the elements of interior space and scale, including specific human factors. Particular emphasis on the design, documentation, production, and placement of objects in interiors. Fifteen hours of lecture and studio a week for one semester. Prerequisite: Graduate standing, Architectural Interior Design 693K with a grade of at least C, and consent of the graduate adviser.

ARI 693M. Interior Design Core Studio III.
Examination of interior spaces and elements. Fifteen hours of lecture and studio a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing, Architectural Interior Design 693L with a grade of at least C, and consent of the graduate adviser.

Advanced problems in international interior design. Students help design new residential or commercial buildings, incorporating local architectural style. Includes research of local historical texts. Taught abroad in locations that vary by semester, but may include Italy and Mexico. Fifteen studio hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing, Architectural Interior Design 693K and 693L, and consent of the graduate adviser.

Comprehensive studio that focuses on combining the elements that create a thorough interior design. Fifteen studio hours a week for one semester. Prerequisite: Graduate standing, Architectural Interior Design 693K and 693L, and consent of the graduate adviser.

ARI 395D. Frank Lloyd Wright: Design, Method, Theory.
Same as Architecture 395D and Landscape Architecture 395D. Comprehensive study of Frank Lloyd Wright's life and work with emphasis on the analyses of his concepts of organic architecture, design methods, and theories. Three lecture hours a week for one semester. Only one of the following may be counted: Architecture 388R (Topic: Frank Lloyd Wright: Design, Method, Theory), 395D, Architectural Interior Design 388R (Topic: Frank Lloyd Wright: Design, Method, Theory), 395D, Landscape Architecture 388 (Topic: Frank Lloyd Wright), 395D. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

Same as Architecture 395G and Landscape Architecture 395G. An examination of how American housing is conceived, developed, and marketed, as well as relationships between home buyers and builders. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, Architectural Interior Design 693K and 693L, and consent of the graduate adviser.

ARI 696. Advanced Interior Design Studio.
Studies advanced problems in interior design and examines design strategies and different phases of design. Topics may focus on interior design as it relates to retail, education, sustainability, and health care. Fifteen studio hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, Architectural Interior Design 693K and 693L, and consent of the graduate adviser.

ARI 197. Interior Design Internship.
Practical application of design procedures in a professional design office. Sixteen to twenty hours of work a week for one semester (a total of at least 250 hours). Prerequisite: Graduate standing and consent of the graduate adviser.

ARI 698. Thesis.
For students seeking the Master of Interior Design degree. The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in interior design and consent of the graduate adviser; for 698B, Interior Design 698A.

Professional Courses

ART - Studio Art

Studio Art: ART

Lower-Division Courses

Restricted to studio art and art education majors. Introduction to the concepts, methods, and materials of print including a combination of intaglio, relief, lithography, serigraphy, and/or book arts. Six laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Studio Art 311C, 312C, 313C, and 314C with a grade of at least C in each (or two of the following three courses with a grade of at least C in each: Studio Art 301C, 302C, 303C).
ART 311C (TCCN: ARTS 1316). Core Studio: Drawing.
Restricted to art history, studio art, and art education majors. Explore techniques of drawing in a contemporary context. Focus on line, line weight, continuous line, contour line, sighting, figure, gesture, perspective (two point, three point, and isometric/orthogonal drawing), value, color, and texture. Six laboratory hours a week for one semester. Studio Art 302C and 311C may not both be counted. Offered on the letter-grade basis only.

ART 311K (TCCN: ARTS 2316). Painting I.
Restricted to studio art and art education majors. Introduction to painting techniques, composition, and exploration of personal expression. Six laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Studio Art 311C, 312C, 313C, and 314C with a grade of at least C in each (or two of the following three courses with a grade of at least C in each: Studio Art 301C, 302C, 303C).

ART 312C (TCCN: ARTS 1311). Core Studio: 2D.
Restricted to art history, studio art, and art education majors. Create planar works and explore formal principles and conceptual concerns in a contemporary context. Six laboratory hours a week for one semester. Studio Art 301C and 312C may not both be counted. Offered on the letter-grade basis only.

ART 313C (TCCN: ARTS 1312). Core Studio: 3D.
Restricted to studio art and art education majors. Create spatial works and explore formal principles and conceptual concerns in a contemporary context. Six laboratory hours a week for one semester. Studio Art 303C and 313C may not both be counted. Offered on the letter-grade basis only.

Restricted to studio art and art education majors. Introduction to the processes involved in the production of object-oriented sculpture using direct methods of hot and cold construction. Six laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Studio Art 311C, 312C, 313C, and 314C with a grade of at least C in each (or two of the following three courses with a grade of at least C in each: Studio Art 301C, 302C, 303C).

ART 314C. Core Studio: Time and Technology.
Restricted to studio art and art education majors. Explore time-based media and digital technology in a contemporary context. Six laboratory hours for one semester. Offered on the letter-grade basis only.

Restricted to studio art and art education majors. Exploration of various methods, subjects, and expressive possibilities in drawing. Six laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Studio Art 311C, 312C, 313C, and 314C with a grade of at least C in each (or two of the following three courses with a grade of at least C in each: Studio Art 301C, 302C, 303C).

ART 316K (TCCN: ARTS 2323). Beginning Life Drawing.
Restricted to studio art and art education majors. Problems in drawing and construction of the human figure in selected media. Six laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Studio Art 311C, 312C, 313C, and 314C with a grade of at least C in each (or two of the following three courses with a grade of at least C in each: Studio Art 301C, 302C, 303C).

ART 316V. Transmedia: Expanded Media I.
Introduction to video, digital, net art, and multiple media art forms with an emphasis on experimentation and a DIY approach to production. Focuses on the history, theory, and evolution of media art practices and their relation to the Internet and social media networks. Six laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Studio Art 311C, 312C, 313C, and 314C with a grade of at least C in each (or two of the following three courses with a grade of at least C in each: Studio Art 301C, 302C, 303C).

ART 317C. Transmedia: Performance Art I.
An introduction to the practice, history, and theory of performance art in a variety of contexts and spaces, including theatrical, the white cube, and the workaday world. Six laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Studio Art 311C, 312C, 313C, and 314C with a grade of at least C in each (or two of the following three courses with a grade of at least C in each: Studio Art 301C, 302C, 303C).

Restricted to studio art and art education majors. An introduction to still photography, including basic technical skills and concepts. Six laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Studio Art 311C, 312C, 313C, and 314C with a grade of at least C in each (or two of the following three courses with a grade of at least C in each: Studio Art 301C, 302C, 303C).

ART 318C. Transmedia: Digital Time-Art I.
Study in digital video, sound, and animation, with emphasis on the exploration of movement, image, and montage. Guided inquiry into pertinent conceptual, perceptual, and practical skills. Six laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Studio Art 311C, 312C, 313C, and 314C with a grade of at least C in each (or two of the following three courses with a grade of at least C in each: Studio Art 301C, 302C, 303C).

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Art and Art History. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

ART 319T. Topics in Studio Art: Laboratory.
Restricted to studio art and art education majors. Intensive study of various disciplines of studio art. Six laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Studio Art 311C, 312C, 313C, and 314C with a grade of at least C in each (or two of the following three courses with a grade of at least C in each: Studio Art 301C, 302C, 303C).

Upper-Division Courses
ART 320F. Digital Fabrication I.
Restricted to studio art and art education majors. Study of the artistic culture and techniques associated with digital visualization, three dimensional data acquisition, and various forms of digital fabrication including 3D Printing, computer numerical controlled milling, and Laser Cutting. Six laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Studio Art 311C, 312C, 313C, and 314C with a grade of at least C in each (or two of the following three courses with a grade of at least C in each: Studio Art 301C, 302C, 303C).
ART 320K. Topics in Studio Art.
Six laboratory hours a week for one semester. May not be counted toward a degree in the Department of Art and Art History. May be repeated for credit when the topics vary.

ART 320L. Topics in Studio Art.
Continuation of Studio Art 320K. Six laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and Studio Art 320K with a grade of at least C.

ART 321K. Painting II.
Restricted to studio art and art education majors. Problems in composition and exploration of personal expression. Six laboratory hours a week for one semester. May be taken twice for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Studio Art 311K with a grade of at least C.

ART 322K. Intermediate Drawing.
Restricted to studio art and art education majors. Continuation of Studio Art 315K. Six laboratory hours a week for one semester. May be taken twice for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Studio Art 315K with a grade of at least C.

ART 323K. Intermediate Sculpture.
Restricted to studio art and art education majors. Exploration of the concepts and processes involved in the production of object-oriented sculpture, with emphasis on indirect methods of mold-making and casting. Encourages individual direction. Six laboratory hours a week for one semester. May be taken twice for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Studio Art 313K with a grade of at least C.

ART 323S. Installation Sculpture.
Restricted to studio art and art education majors. Exploration of the theories and methods involved in the production of installation sculpture through the investigation of form and space and of their function in transforming environmental, architectural, or invented sites. Six laboratory hours a week for one semester. May be taken twice for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Studio Art 313K with a grade of at least C.

ART 325G. Intermediate Print: Serigraphy.
Restricted to studio art and art education majors. Practice in the theories and techniques of multicolor serigraphy and photoserigraphy. Six laboratory hours a week for one semester. May be taken twice for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Studio Art 313K with a grade of at least C.

ART 325J. Intermediate Print: Relief.
Restricted to studio art and art education majors. Instruction in relief print processes in conjunction with digital technologies. Utilization of laser cutters, CNC routers, and large-format photo printers as well as traditional techniques to generate dynamic projects in woodcut, linocut, and more. Emphasis on contemporary print practice in the expanded field. Six laboratory hours a week for one semester. May be taken twice for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Studio Art 310P with a grade of at least C.

Restricted to studio art and art education majors. Instruction in the theories and techniques of intaglio printmaking, color, assemblage, stencil, viscosity, collography, photo process, and relief. Six laboratory hours a week for one semester. May be taken twice for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Studio Art 310P with a grade of at least C.

ART 325M. Intermediate Print: Lithography.
Restricted to studio art and art education majors. Instruction in the theories and techniques of metal plate, multicolor, and stone lithography and photolithography. Six laboratory hours a week for one semester. May be taken twice for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Studio Art 310P with a grade of at least C.

ART 325T. Intermediate Print: Monotype.
Restricted to studio art and art education majors. Explore the concepts, methods, and materials of monotype. Six laboratory hours a week for one semester. May be taken three times for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Studio Art 310P or Studio Art 311K with a grade of at least C.

ART 329Q, 229Q, 329Q, 429Q, 529Q, 629Q, 729Q, 829Q, 929Q. Topics in Studio Art.
This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Art and Art History. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

ART 330P. Advanced Print Workshop.
Restricted to studio art and art education majors. Focuses on the concepts and practice of print. Six laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Studio Art 310P with a grade of at least C, and one of the following with a grade of at least C: Studio Art 325G, 325J, 325K, 325M, or 325T.

ART 335K. Intermediate Photography.
Restricted to studio art and art education majors. Practice in still photography, including materials and processes. Six laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Studio Art 317K with a grade of at least C.

ART 336V. Transmedia: Expanded Media II.
Advanced practice of media art exploring time, space, and reality through multidimensional forms. An investigation of media technologies and networks: aesthetically, formally, theoretically or conceptually using traditional media, new media, and immaterial approaches. Six laboratory hours a week for one semester. May be taken twice for credit. May be repeated for credit. Offered on the letter-grade basis only.

ART 337C. Transmedia: Performance Art II.
Advanced workshop in performance art that focuses on the development of researched solo and collaborative projects. Six laboratory hours a week for one semester. May be taken twice for credit. May be repeated for credit. Offered on the letter-grade basis only.

ART 338C. Transmedia: Digital Time-Art II.
Study in digital video, sound, and animation, with emphasis on the exploration of cinematic time and its time-based installation. Guided inquiry into the relationship between video and video projections, and technics and technology. Six laboratory hours a week for one semester. May be taken twice for credit. May be repeated for credit. Offered on the letter-grade basis only.

ART 340F. Digital Fabrication II.
Restricted to studio art and art education majors. Advanced study of the artistic culture and techniques associated with digital visualization, three
dimensional data acquisition, and various forms of digital fabrication including 3D Printing, computer numerical controlled milling, and Laser Cutting. Six laboratory hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Studio Art 320F and twelve additional hours of studio credit, with a grade of at least C in each.

ART 341K. Painting III.
Restricted to studio art and art education majors. Continuation of Studio Art 321K. Six laboratory hours a week for one semester. May be taken twice for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Studio Art 321K with a grade of at least C.

ART 346K. Intermediate Life Drawing.
Restricted to studio art and art education majors. Advanced problems in drawing and construction of the human figure. Six laboratory hours a week for one semester. May be taken twice for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Studio Art 316K with a grade of at least C.

ART 350. Philosophy, Theory, and Criticism.
Restricted to studio art and art education majors and to students pursuing the studio art minor. Advanced exploration of philosophy, theory, and criticism from a studio art perspective. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Studio Art 311C, 312C, 313C, and 314C with a grade of at least C in each (or two of the following three courses with a grade of at least C in each: Studio Art 301C, 302C, 303C).

ART 350C. The New Color.
A study of color through the lenses of science, technology, psychology, arts, design and popular culture. Exploration of color using thought experiments, written analysis, tools for independent inquiry with creative research projects, collaborative teamwork exercises, and hands-on experiments. Three lecture hours or two lecture hours and one lab/discussion a week for one semester. Offered on the letter-grade basis only.

ART 350E. Aesthetics of Health.
Explore the intersection of art and healthcare. Six laboratory hours a week for one semester. May be taken twice for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Consent of instructor.

ART 350M. Topics in Studio Art Practice.
Six laboratory hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only.

ART 350N. Topics in Studio Art Lecture.
Three hours once a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only.

ART 350P. Professional Practices.
Restricted to students pursuing the Bachelor of Fine Arts degree with a major in studio art. Exploration of professional practices as they relate to the field of visual arts. Focus on writing an artist statement and resume, as well as learning about writing and applying for exhibition, grant, and residency opportunities. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing and Studio Art 311C, 312C, 313C, and 314C with a grade of at least C in each (or two of the following three courses with a grade of at least C in each: Studio Art 301C, 302C, 303C).

ART 352C. Painting for Nonmajors.
Restricted to students who are not majors in Studio Art or Art Education. Exploration of various methods, subjects, and expressive possibilities in painting. Six laboratory hours a week for one semester. May be taken twice for credit. May be repeated for credit. Offered on the letter-grade basis only.

ART 352D. Drawing for Nonmajors.
Restricted to students who are not majors in Studio Art or Art Education. Exploration of various methods, subjects, and expressive possibilities in drawing. Six laboratory hours a week for one semester. May be taken twice for credit. May be repeated for credit. Offered on the letter-grade basis only.

ART 352E. Figure Drawing for Nonmajors.
Restricted to non-department of art and art history majors. Exploration of the human figure in selected media. Six laboratory hours a week for one semester. May be taken twice for credit. May be repeated for credit. Offered on the letter-grade basis only.

ART 352F. Print for Nonmajors.
Restricted to students who are not majors in Studio Art or Art Education. Exploration of the concepts, methods, and materials of print. Six laboratory hours a week for one semester. May be taken twice for credit. May be repeated for credit. Offered on the letter-grade basis only.

ART 352G. Sculpture for Nonmajors.
Restricted to students who are not majors in Studio Art or Art Education. Exploration of the processes involved in the production of object-oriented sculpture. Six laboratory hours a week for one semester. May be taken twice for credit. May be repeated for credit. Offered on the letter-grade basis only.

ART 352J. Photography for Nonmajors.
Restricted to students who are not majors in Studio Art or Art Education. Exploration of still photography. Six laboratory hours a week for one semester. May be taken twice for credit. May be repeated for credit. Offered on the letter-grade basis only.

ART 352K. Transmedia for Nonmajors.
Restricted to students who are not majors in Studio Art or Art Education. Exploration of time-based media. Six laboratory hours a week for one semester. May be taken twice for credit. May be repeated for credit. Offered on the letter-grade basis only.

ART 355. Studio Projects.
Restricted to studio art and art education majors. Study of specific techniques or problems. Six laboratory hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only.

ART 356V. Transmedia: Expanded Media III.
Student-initiated research and development of complex media art and hybrid media art projects. Six laboratory hours a week for one semester. May be taken three times for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Studio Art 336V with a grade of at least C.

ART 357C. Transmedia: Performance Art III.
Advanced independent inquiry into the development of performance art projects requiring focused research and time. Six laboratory hours
a week for one semester. May be taken three times for credit. May be repeated for credit. Offered on the letter-grade basis only.

ART 358C. Transmedia: Digital Time-Art III.
Advanced study in video, sound, and animation with an emphasis on individual research reflecting students' artistic goals. Six laboratory hours a week for one semester. May be taken three times for credit. May be repeated for credit. Offered on the letter-grade basis only.

ART 361K. Painting IV.
Restricted to studio art and art education majors. Continuation of Studio Art 341K. Six laboratory hours a week for one semester. May be taken three times for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Studio Art 341K with a grade of at least C.

ART 363K. Advanced Sculpture.
Restricted to studio art and art education majors. Advanced research in the theory, technology, and methods involved in the production of sculpture, with emphasis on individual direction. Six laboratory hours a week for one semester. May be taken three times for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Studio Art 323K or 323S with a grade of at least C.

ART 366K. Advanced Life Drawing.
Restricted to studio art and art education majors. Problems in drawing and construction of the human figure. Six laboratory hours a week for one semester. May be taken three times for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Studio Art 346K with a grade of at least C.

ART 368N. Advanced Drawing.
Restricted to studio art and art education majors. Continuation of Studio Art 322K. Six laboratory hours a week for one semester. May be taken three times for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Studio Art 322K with a grade of at least C.

ART 372K. Advanced Photography.
Restricted to studio art and art education majors. Practice in photography with an emphasis on long-term photography-based projects, more advanced technical knowledge, and a deeper familiarity with uses of the medium. Six laboratory hours a week for one semester. May be taken three times for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Studio Art 322K with a grade of at least C.

ART 376. Independent Study: Studio Art.
Restricted to studio art and art education majors. Individual projects to be completed under faculty supervision. The equivalent of six laboratory hours a week for one semester. May be taken twice for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Completion of at least fifteen semester hours of upper-division coursework in studio art, a grade point average of at least 3.00 in upper-division studio art, and consent of the studio assistant chair of the department.

ART 376K. Contemporary Issues in Photography.
Restricted to studio art and art education majors. Inquiry of specific themes in photography which can include: photographic intervention, photography since 1945, photo book making, abstraction in photography, appropriation in photography, and lighting for photography. Six laboratory hours a week for one semester. May be taken three times for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Studio Art 317K and 335K with a grade of at least C in each.

ART 376P. Contemporary Issues in Print.
Restricted to studio art and art education majors. Explore advanced issues, subjects, and processes in contemporary print and the expanded field. Six laboratory hours a week for one semester. May be taken three times for credit. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Studio Art 310P with a grade of at least C.

ART 179S, 379S. Advanced Topics in Studio Art: Lecture.
Restricted to studio art and art education majors. Intensive advanced study of various disciplines of studio art. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing; Studio Art 311C, 312C, 313C, and 314C (or Studio Art 301C and 302C) with a grade of at least C in each; and twelve additional semester hours of coursework in studio art with a grade of at least C in each course.

ART 279T, 379T. Advanced Topics in Studio Art: Laboratory.
Restricted to studio art and art education majors. Intensive advanced study of various disciplines of studio art. The equivalent of three or six laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing; Studio Art 311C, 312C, 313C, and 314C (or Studio Art 301C and 302C) with a grade of at least C in each; and twelve additional semester hours of coursework in studio art with a grade of at least C in each course.

Graduate Courses

ART 380, 480. Group Critique in Studio Art.
Group critiques of student artwork organized under the leadership of the instructor, in addition to regular individual studio visits between the instructor and each student. For each semester hour of credit earned, one lecture hour a week for one semester with additional laboratory hours to be arranged. May be repeated for credit. Prerequisite: Graduate standing in studio art and consent of the graduate adviser.

ART 181, 281, 381, 481, 581, 681, 781. Graduate Committee Study.
Studio hours to be arranged. May be repeated for credit. Prerequisite: Graduate standing in studio art and consent of instructor and the graduate adviser.

ART 382. Seminar in Studio Art.
Addresses topics and issues in contemporary art. Uses lectures, readings, guest presentations, discussions, and writings to articulate and define contemporary art practices. Three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing in studio art and consent of the graduate adviser.

ART 482T. Topics Seminar in Studio Art.
Topics and issues in contemporary art. Lectures, readings, guest presentations, discussions, and writings provide an opportunity for students to discuss the production and reception of culture. Four lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing in studio art and consent of the graduate adviser.

ART 383, 483. Graduate Independent Study Outside Student's Concentration.
Studio hours to be arranged. May be repeated for credit. Prerequisite: Graduate standing and consent of instructor and the graduate adviser.

ART 384F, 484F. Master of Fine Arts First-Year Seminar.
Restricted to first-semester graduate students in studio art. Introduction to the extensive research assets of the University. Focus on critical
consultations. Three lecture hours a week for one semester. Prerequisite: Graduate standing in studio art and consent of the graduate adviser.

**ART 384S. Master of Fine Arts Assembly.**
Restricted to second-semester graduate students in studio art. Continuation of Studio Art 384F. Focuses on critiquing skills, talking and writing about artwork, and defining effective studio practices. Students work with peers and faculty from across the studio disciplines. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and Studio Art 384F with a grade of at least B.

**ART 390. Advanced Issues in Studio Art.**
Restricted to studio art majors. Intensive advanced study of various disciplines of studio art. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, consent of graduate adviser, and consent of instructor.

**Topic 1: Model, 3D Scan, and Digital Fabrication.** Explore computer modeling, 3D data acquisition, and digital fabrication. Studio Art 390 (Topic: Model, 3-D Scan & Digital Fabr) and 390 (Topic: 1) may not both be counted.

**ART 490T. Advanced Issues in Studio Art.**
Restricted to graduate students in design or studio art. Intensive advanced study of various disciplines of studio art. The equivalent of two lecture hours a week and four laboratory hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, consent of graduate adviser, and consent of instructor.

**ART 398P, 498P. Professional Practices for Fine Artists.**
Restricted to second-year studio art graduate students. Study of effective strategies for entering various aspects of the art world. Experiences may include lectures, guest specialists, field trips, and readings. For each semester hour of credit earned, one lecture hour a week for one semester. Prerequisite: Graduate standing in studio art and consent of instructor and the graduate adviser.

**ART 398R. Master’s Portfolio Report.**
Written interpretation of the artwork created in the graduate program, addressing influences on and concepts of the work, and including a digital portfolio of major works and influences. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis. Prerequisite: Graduate standing in studio art, concurrent enrollment in Studio Art 398S, and consent of the graduate adviser.

**ART 398S, 498S. Master’s Exhibition Seminar.**
Preparation for the presentation of a professional exhibition in which significant work from each student is displayed. The exhibition is curated by the instructor with all students collaborating in its execution. The students’ final sixty-hour review takes place during the exhibition and is individually conducted by faculty committee. At a later date during the exhibition, students publicly discuss and present their work in a colloquium open to the public. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in studio art, concurrent enrollment in Studio Art 398R, and consent of the graduate adviser.

**ART 398T. Teaching Methodologies in Studio Art.**
Training in teaching methods and procedures for studio art classes, including weekly group meetings with the instructor and individual consultations. Three lecture hours a week for one semester. Prerequisite: Graduate standing in studio art, or graduate standing and appointment as a teaching assistant; and consent of the graduate adviser.

**Professional Courses**

**ASE - Aerospace Engineering**

**Aerospace Engineering: ASE**

**Lower-Division Courses**

**ASE 102. Introduction to Aerospace Engineering.**
Restricted to first-year students. Introduction to aerospace engineering, including problem solving and study skills. Examines opportunities and responsibilities of careers in aerospace engineering. One lecture hour a week for one semester. May not be counted toward any engineering degree. Offered on the pass/fail basis only.

**ASE 118. Student Leadership Seminar.**
Principles of human development, strategic learning, and teaching. Small-group seminar involving reading, discussion, and written reports. One lecture hour a week for one semester. Offered on the pass/fail basis only. Prerequisite: Consent of the engineering undergraduate adviser.

**ASE 119K. Low-Speed Aerodynamics Laboratory.**
Restricted to students in the aerospace engineering major sequence. Wind tunnel and water channel experiments at subsonic speeds; use of instrumentation and written reports. One lecture hour and three laboratory hours a week for one semester. Aerospace Engineering 119K and 120K may not both be counted.

**ASE 119L. High-Speed Aerodynamics Laboratory.**
Restricted to students in the aerospace engineering major sequence. Experiments using a variable-Mach number supersonic wind tunnel and ballistics range, and an investigation of aerodynamics of blunt bodies and simple airfoils in supersonic flow. One lecture hour and three laboratory hours a week for one semester. Aerospace Engineering 119L and 162M may not both be counted.

**ASE 119M. Spacecraft Systems Laboratory.**
Restricted to students in the aerospace engineering major sequence. Overview of spacecraft subsystems, mission design tools, numerical techniques, mission planning references, mission constraints, and mission design projects. Includes written reports. One lecture hour and one and one-half laboratory hours a week for one semester. Aerospace Engineering 119M and 166M may not both be counted.

**ASE 119N. Flight Dynamics Laboratory.**
Restricted to students in the aerospace engineering major sequence. Introduction to flight testing; instrumentation and methodology; performance testing. Computer modeling and dynamic simulation of aircraft motion; aircraft sizing. Written reports. One lecture hour and three laboratory hours a week for one semester.

Used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office or the school’s International Engineering Education Programs. Credit is recorded as assigned by the study abroad adviser in the Department of Aerospace Engineering and Engineering Mechanics. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. May be repeated for credit when the topics vary. Offered on the letter-grade basis only.
Upper-Division Courses

**ASE 320. Low-Speed Aerodynamics.**
Fundamental concepts, fluid statics; integral and differential analysis; detailed analysis of inviscid, incompressible flows; aerodynamics of airfoils and wings. Three lecture hours a week for one semester. Prerequisite: Mathematics 427L, and Mechanical Engineering 310T or 320, with a grade of at least C- in each.

**ASE 120K. Low-Speed Aerodynamics Laboratory.**
Wind tunnel and water channel experiments at subsonic speeds; use of instrumentation and written reports. One lecture hour and three laboratory hours a week for one semester. Prerequisite: Credit with a grade of at least C- or registration for Aerospace Engineering 320; Credit with a grade of at least C- or registration for one of the following: Aerospace Engineering 333T, Biomedical Engineering 333T, Chemical Engineering 333T, Civil Engineering 333T, Electrical Engineering 333T, Engineering Science 333T, Mechanical Engineering 333T, or Petroleum and Geosystems Engineering 333T; and Mathematics 427L with a grade of at least C-.

**ASE 321K. Computational Methods for Structural Analysis.**
Same as Computational Engineering 321K. Matrix structural analysis of systems that can be idealized as being comprised of axial bar elements, beam elements, and frame elements. Notion of element-by-element assembly of the governing system of algebraic equations. A systematic introduction to (and use of) the fundamental idea of a weak statement of a boundary value problem, particularly as concerns the numerical treatment/approximation of such problems. Interpretation of the weak-statement in terms of the principle of virtual work. Galerkin's method as applied to structural analysis. An introduction to the classical Galerkin finite element method with application to structures and plane elasticity. Energy principles and their utility in solving problems in solid mechanics, as well as their connection to the finite element method. Three lecture hours a week for one semester, with discussion hours to be arranged. Aerospace Engineering 321K and Computational Engineering 321K may not both be counted. Prerequisite: Computational Engineering 311K (or Aerospace Engineering 211K or Computational Engineering 211K); and Engineering Mechanics 319 with a grade of at least C-.

**ASE 324L. Aerospace Materials Laboratory.**
Study of the deformation and fracture behavior of materials used in aerospace vehicles. Structure-property relations, methods of characterizing material behavior, use of properties in the design process. Case histories. Written reports. Two lecture hours and three laboratory hours a week for one semester. Prerequisite: Engineering Mechanics 319 with a grade of at least C-.

**ASE 128. Aerospace Engineering Projects Laboratory.**
Directed work on an organized student project in aerospace engineering or engineering mechanics. The equivalent of one lecture hour a week for one semester. May be repeated for credit. Offered on the pass/fail basis only. Prerequisite: At least fifteen semester hours of coursework, a University grade point average of at least 2.50, preparation of a laboratory participation log and written report, and approval by both the faculty member directing the student project and the undergraduate adviser.

**ASE 330M. Linear System Analysis.**
Explore the fundamentals of signals and systems; mathematical modeling of mechanical systems; transfer function; impulse response; Laplace transforms; response of linear, time-invariant systems; frequency response methods; time-domain analysis; introductory concepts for feedback control systems; multivariate linear dynamical systems; eigenvalues and eigenvectors; matrix exponentials. An introduction to fundamental elements of the theory of systems and signals and exposure to necessary concepts and tools required to perform modeling and analysis of linear dynamical systems. Demonstrate the theory through several simulation examples using MATLAB and Simulink relevant to applications of modern aerospace engineering systems. Three lecture hours a week for one semester. Prerequisite: Engineering Mechanics 311M, and Mathematics 427J or 427K with a grade of at least C- in each, and credit with a grade of at least C- or registration for Computational Engineering 311K (or Aerospace Engineering 211K or Computational Engineering 211K).

**ASE 333T. Engineering Communication.**
Restricted to aerospace engineering and computational engineering majors. Technical communication skills for engineers: written and oral reports; individual and collaborative composition; online and traditional research; editing techniques; document design for electronic and hard copy. Three lecture hours a week for one semester. Only one of the following may be counted: Aerospace Engineering 333T, Biomedical Engineering 333T, Communication 333T, Civil Engineering 333T, Chemical Engineering 333T, Electrical and Computer Engineering 333T, Electrical Engineering 333T, Engineering Studies 333T, Mechanical Engineering 333T, Petroleum and Geosystems Engineering 333T. Prerequisite: English 303C (or 603A) or Rhetoric and Writing 306 with a grade of at least C-.

**ASE 339. Advanced Strength of Materials.**
Same as Engineering Mechanics 339. Curved beams, shear deformation, beam columns, beams on elastic foundations; inelastic behavior of members; elementary plate bending. Three lecture hours a week for one semester. Prerequisite: Engineering Mechanics 319 with a grade of at least C-.

**ASE 346. Viscous Fluid Flow.**
Navier-Stokes equations, laminar and turbulent boundary layers, transition, effects of pressure gradients, heat transfer, and compressibility. Three lecture hours a week for one semester. Prerequisite: Aerospace Engineering 320 with a grade of at least C-.

**ASE 355. Aeroelasticity.**
Static aeroelastic phenomena; wing torsional divergence, control reversal, effect of wing sweep, flexibility effects on aircraft stability and control, and design implications; dynamic aeroelasticity; and galloping of transmission lines, flutter, and unsteady aerodynamics. Includes an introduction to experimental aeroelasticity. Three lecture hours a week for one semester. Prerequisite: Aerospace Engineering 320 and 365 with a grade of at least C-.

**ASE 357. Mechanics of Composite Materials.**
Anisotropic constitutive relationships, lamination theory, failure theories, micromechanical behavior of laminates; laminated composite plates—bending, vibration, and buckling; composite fabrication, sandwich and other composite lightweight structures. Three lecture hours a week for one semester. Prerequisite: Engineering Mechanics 319 with a grade of at least C-.

**ASE 361K. Aircraft Design I.**
Systems engineering based approach to conceptual design and analysis of an aircraft system to meet top-level mission requirements. Selected hands-on lab projects included. Three lecture hours and four laboratory hours a week for one semester. Prerequisite: Aerospace Engineering 320 with a grade of at least C- and credit with a grade of at least C- or registration for Aerospace Engineering 367K.

**ASE 361L. Aircraft Design II.**
Systems Engineering based aircraft preliminary and detail design, build, flight test, and demonstration. The overall approach is applicable to all
aircraft but the specific project is a small unmanned air system designed to meet defined mission requirements. Three lecture hours and four laboratory hours a week for one semester. Prerequisite: Aerospace Engineering 119K or 120K, and 361K with a grade of at least C- in each.

Shock and expansion waves, quasi-one-dimensional flow, converging-diverging nozzles, diffusers, linearized flow, and compressibility effects on aerodynamics of airfoils and bodies. Three lecture hours a week for one semester. Prerequisite: Aerospace Engineering 320 with a grade of at least C-.

ASE 162M. High-Speed Aerodynamics Laboratory.
Experiments using a variable-Mach number supersonic wind tunnel and shock tube. Aerodynamics of wedges, cones, spheres and diamond-shaped airfoils in supersonic flow. One-dimensional unsteady shock motion. High-speed flow measurement techniques. One lecture hour and three laboratory hours a week for one semester. Prerequisite: Aerospace Engineering 320 with a grade of at least C-.

ASE 363L. History of Space Flight.
History and principles of space flight from early Chinese rocket experiments to Apollo 17 and the Space Shuttle; technological benefits from the space program and future space projects, including commercial space activities and those related to national security. Three lecture hours a week for one semester. May not be counted as an aerospace engineering course for the Bachelor of Science in Aerospace Engineering; may not be counted as a technical elective, a technical area course, or an engineering elective for any engineering degree. Prerequisite: Upper-division standing or consent of instructor.

Detailed analysis of aerodynamics of compressible and incompressible flows about wings and airfoils; wing and airfoil parameters and force and moment coefficients; and thin-airfoil theory, lifting-line theory, panel methods, high-lift devices, delta wings, transonic flows, and supersonic flows over wings. Three lecture hours a week for one semester. Aerospace Engineering 364 and 379L (Topic: Airfoil and Wing Design Theory) may not both be counted. Prerequisite: Aerospace Engineering 362K with a grade of at least C-.

ASE 365. Structural Dynamics.
Analysis of discrete and continuous vibrating systems; deriving equations of motion; determining response; and natural frequencies and modes of vibration. Three lecture hours a week for one semester. Prerequisite: Engineering Mechanics 319 with a grade of at least C-.

ASE 366K. Spacecraft Dynamics.
Examine Newton’s gravity law, Kepler’s laws, basic orbit propagation, orbit properties, orbital elements, coordinate systems and transformations, radar observations, ground tracks, orbit maneuvers, and trajectory design principles. Three lecture hours a week for one semester. Prerequisite: Computational Engineering 311K (or Aerospace Engineering 211K or Computational Engineering 211K), Engineering Mechanics 311M, and Mathematics 427J or 427K with a grade of at least C- in each.

Selected subjects in satellite motion and satellite applications, including communication and navigation satellites, orbit selection/design for satellite applications, orbital coordinate systems, time, major perturbing forces, rendezvous and intercept, and interplanetary trajectories. Three lecture hours a week for one semester. Prerequisite: Aerospace Engineering 366K with a grade of at least C-.

ASE 166M. Spacecraft Systems Laboratory.
Overview of spacecraft subsystems, mission design program library, numerical techniques, mission planning references, mission constraints, and mission design projects. Includes written reports. One and one-half lecture hours and one and one-half laboratory hours a week for one semester. Prerequisite: Aerospace Engineering 366K with a grade of at least C-; and credit with a grade of at least C- or registration for Aerospace Engineering 374K.

ASE 367K. Flight Dynamics.
Equations of motion for rigid aircraft; aircraft performance, weight and balance, static stability and control, and dynamic stability; design implications. Three lecture hours a week for one semester. Prerequisite: Aerospace Engineering 320 with a grade of at least C-.

ASE 370C. Feedback Control Systems.
Fundamentals of linear control analysis and design for single-input, single-output systems; stability and performance measures; Routh Hurwitz analysis; root locus methods; frequency response (Bode and Nyquist); introduction to full-state feedback. Three lecture hours a week for one semester. Aerospace Engineering 370C and 370L may not both be counted. Prerequisite: Aerospace Engineering 330M with a grade of at least C-.

ASE 170P. Controls Laboratory.
Three laboratory hours a week for one semester. Prerequisite: Aerospace Engineering 370L with a grade of at least C-.

ASE 372K. Attitude Dynamics.
Examine attitude representations, rotational kinematics, rigid-body dynamics, and torque-free motion. Explore satellite’s sensors and actuators, attitude determination algorithms, and passive and active attitude control systems. Three lecture hours a week for one semester. Prerequisite: Aerospace Engineering 330M and 366K with a grade of at least C- in each.

ASE 372L. Satellite Applications.
Classical and modern orbit determination, remote sensors and their outputs, pattern recognition, image enhancement, satellite data analysis projects. Three lecture hours a week for one semester. Prerequisite: Aerospace Engineering 330M and 366K with a grade of at least C-.

ASE 372N. Satellite-Based Navigation.
Satellite-based navigation systems, with focus on the Global Positioning System (GPS), ground and space segments, receiver location estimation, astrodynamics, satellite signal coordinate/time systems, differential techniques, GPS data analysis. Three lecture hours a week for one semester. Prerequisite: Aerospace Engineering 366K with a grade of at least C-.

ASE 374K. Space Systems Engineering Design.
Introduction to systems engineering: the systems engineering process, requirements, design fundamentals, trade studies, cost and risk analyses, integration, technical reviews, case studies, and ethics. Includes written reports. Three lecture hours and four laboratory hours a week for one semester. Aerospace Engineering 374K and Computational Engineering 373 may not both be counted. Prerequisite: Aerospace Engineering 366K with a grade of at least C-.

ASE 374L. Spacecraft/Mission Design.
Spacecraft systems characteristics, mission requirements, sensors, and consumables analyses; and mission phases, request for proposal, problem definition, ideation, proposal preparation, conceptual design review, preliminary design development and review, and design report preparation. Includes written reports. Three lecture hours and four
laboratory hours a week for one semester. Prerequisite: Aerospace Engineering 166M and 374K with a grade of at least C- in each.

**ASE 375. Electromechanical Systems.**

Restricted to aerospace engineering and computational engineering majors. Subjects include basic electronic circuits, operational amplifiers, concepts of impedance and feedback, sensors to measure temperature, displacement, strain, force and acceleration, impulse testing, shake testing, and triggered data acquisition. These concepts will be implemented via experiments that illustrate interesting phenomena in solids and structures. Two lecture hours and three laboratory hours a week for one semester. Aerospace Engineering 375 and Mechanical Engineering 340 may not both be counted. Prerequisite: Engineering Mechanics 319 and Physics 303L with a grade of at least C- in each.

**ASE 376C. Rocket Engineering Practicum I.**

An introduction to rocket engineering. Explore a high-level overview of the principles, systems, and design methodologies required to design a vehicle capable of going to space. Participate in project-based work embedded within actual systems of the Texas Rocket Engineering Laboratory. Three lecture hours a week for one semester. Aerospace Engineering 376C and 379L (Topic: Rocket Engineering Practicum) may not both be counted.

**ASE 376D. Rocket Engineering Practicum II.**

Explore the industry-relevant design and production environment encountered when working on a rocket subsystem in depth. Participate in project work embedded within systems of the Texas Rocket Engineering Laboratory. Three lecture hours a week for one semester. Aerospace Engineering 376D and 379L (Topic: Rocket Engr Practicum II) may not both be counted. Prerequisite: Aerospace Engineering 376C with a grade of at least C-.

**ASE 376K. Propulsion.**

Review of control volume analysis and quasi-one-dimensional compressible flow. Simple propeller theory. Analysis and design of rocket nozzles and air-breathing engines, including performance and cycle analysis; flow in nozzles, diffusers, compressor, and turbine stages; combustion chamber processes and propellants. Includes an introduction to chemical rocket propulsion. Three lecture hours a week for one semester. Prerequisite: Aerospace Engineering 362K with a grade of at least C-.

**ASE 679H. Undergraduate Honors Thesis.**

Research performed during two consecutive semesters under the supervision of an engineering faculty member; topics are selected jointly by the student and the faculty member with approval by the director of the Engineering Honors Program. The student makes an oral presentation and writes a thesis. Individual instruction for two semesters. Students pursuing both the Bachelor of Arts, Plan II, and a Bachelor of Science in Engineering may use this course to fulfill the thesis requirement for the Bachelor of Arts, Plan II. Prerequisite: For 679HA, enrollment in the Engineering Honors Program; for 679HB, Aerospace Engineering 679HA and enrollment in the Engineering Honors Program.

**ASE 179K, 279K, 379K. Research in Aerospace Engineering.**

Restricted to aerospace engineering majors. Directed study or research in a selected area of aerospace engineering. One, two, or three lecture hours a week for one semester. May be repeated for credit. Prerequisite: Upper-division standing, a University grade point average of at least 3.00, selection of project, and consent of the faculty member directing project and the undergraduate adviser.

**ASE 379L. Studies in Aerospace Engineering.**

Current topics in aerospace engineering. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

- Topic 1: Analytical Methods I. Introduction to modern mathematics, real analysis of functions of one variable, linear algebra, elements of real analysis of functions of many variables, calculus of variations. Aerospace Engineering 380P (Topic 1) and Engineering Mechanics 386K may not both be counted.
- Topic 2: Analytical Methods II. Elements of complex analysis, Fourier and Laplace transforms, ordinary and partial differential equations, perturbation methods. Only one of the following may be counted: Aerospace Engineering 380P (Topic 2), Computational Science, Engineering, and Mathematics 386L, Engineering Mechanics 386L.

**ASE 381P. System Theory.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

Used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office or the school's International Engineering Education Programs. Credit is recorded as assigned by the study abroad adviser in the Department of Aerospace Engineering and Engineering Mechanics. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. May be repeated for credit when the topics vary. Offered on the letter-grade basis only.

**ASE 479W. Aerial Robotics.**

Comprehensive introduction to robotic aircraft. Examine rotorcraft dynamics modeling, feedback control, sensing, state estimation, path planning, machine vision, and decision-making under uncertainty. Design an automation protocol, written in C++, that commands a squad of quadcopters competing in a game. Three lecture hours and three laboratory hours a week for one semester. Aerospace Engineering 379L (Topic: Aerial Robotics) and 479W may not both be counted. Prerequisite: Aerospace Engineering 330M with a grade of at least C-.

**Graduate Courses**

**ASE 380P. Mathematical Analysis for Aerospace Engineers.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

- Topic 1: Analytical Methods I. Introduction to modern mathematics, real analysis of functions of one variable, linear algebra, elements of real analysis of functions of many variables, calculus of variations. Aerospace Engineering 380P (Topic 1) and Engineering Mechanics 386K may not both be counted.
- Topic 2: Analytical Methods II. Elements of complex analysis, Fourier and Laplace transforms, ordinary and partial differential equations, perturbation methods. Only one of the following may be counted: Aerospace Engineering 380P (Topic 2), Computational Science, Engineering, and Mathematics 386L, Engineering Mechanics 386L.
**Topic 1: Linear Systems Analysis.** Linear dynamical systems; controllability and observability; stability; realization theory; state-feedback and observers.

**Topic 2: Multivariable Control Systems.** Multivariable feedback systems; factorizations and controller parameterization; limitations and trade-offs of feedback; robust stability and performance; robust H2 and H-infinity control methods. Additional prerequisite: Aerospace Engineering 381P (Topic 1) or the equivalent.

**Topic 3: Optimal Control Theory.** Unconstrained and constrained finite-dimensional optimization, introduction to calculus of variations and optimal control, necessary and sufficient conditions for optimality, Pontryagin’s Maximum Principle, minimum-time control, linear quadratic optimal control theory, introduction to dynamic programming, Hamilton-Jacobi-Bellman equation.

**Topic 6: Statistical Estimation Theory.** Modeling static and dynamic systems, linear and nonlinear estimation, Bayesian estimation, batch least squares, Kalman filtering, square-root and information filtering, introduction to advanced estimation methods.

**Topic 9: Human Centered Robotics.** Aerospace Engineering 381P (Topic 9) and 381P (Topic 13) may not both be counted.

**Topic 10: Learning for Dynamics and Controls.** Aerospace Engineering 389 (Topic: Learning for Dynamics/Controls) and Aerospace Engineering 381P (Topic 10) may not both be counted.

**Topic 11: Nonlinear Dynamics and Control.** Analysis and synthesis of nonlinear control systems. Stability theory; Center manifold analysis, feedback linearization, backstepping, time-scale separations, nonlinear observers, Aeromechanical system applications. Aerospace Engineering 381P (Topic 11) and 396 (Topic: Nonlinear Dynamics and Control) may not both be counted. Additional prerequisite: Aerospace Engineering 381P (Topic 1) or the equivalent, and consent of instructor.

**Topic 14: System ID and Adaptive Control.** System identification, persistence of excitation, model reference adaptive control, projection operators, immersion and invariance techniques, applications to aeromechanical systems. Aerospace Engineering 381P (Topic 14) and 396 (Topic: System ID and Adaptive Control) may not both be counted. Additional prerequisite: Aerospace Engineering 381P (Topic 1) or the equivalent.

**Topic 15: Formal Methods for Robotics.** Aerospace Engineering 381P (Topic 15) and 389 (Topic: Ver/Synth Cybrphysl Systm) may not both be counted.

**ASE 382Q. Fluid Mechanics.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**Topic 1: Foundations of Fluid Mechanics.** Fundamental equations; constitutive equations for Newtonian fluids; inviscid, incompressible potential flow; viscous flow including exact solutions and boundary layer theory; compressible flow.

**Topic 7: Advanced Problems in Compressible Flow.** Physics and modeling of compressible fluids; types and structure of shock waves; heat conduction and secondary viscosity effects; exact nonlinear flow models.

**Topic 8: Lagrangian Methods in Computational Fluid Dynamics.** Particle-based methods of computational fluid dynamics: molecular dynamics, direct simulation Monte Carlo, cellular automata, lattice Boltzmann, particle in cell, point vortex, immersed boundary.

**Topic 9: Turbulent Mixing.** Fundamentals of turbulent scalar mixing relevant to turbulent combustion. Includes governing equations, mass diffusion, scalar transport, kinematics, chaotic advection, vortex dynamics, small-scale structure of vorticity and dissipative fields, scalar dissipation rate, scaling laws for canonical flows, heat release effects, and turbulent jet flame structure.

**Topic 10: Plasmas and Reactive Flows.** Fundamental description of plasmas and reactive flows. Includes derivation of common governing transport equations for a broad class of electrically conducting and nonconducting reactive gases, and electromagnetic field interactions with gases, gas-phase and surface kinetics, transport properties, and applications.

**Topic 11: Foundations of Computational Fluid Dynamics.** Higher-order numerical methods for solving partial differential equations and ordinary differential equations. Focus on the numerical computation of fluid flows, with a variety of scientific applications. Aerospace Engineering 382Q (Topic 11) and Aerospace Engineering 396 (Topic: Foundations of Computational Fluid Dynamics) may not both be counted.

**ASE 382R. Aerodynamics.**

Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**Topic 3: Hypersonic Aerodynamics.** Characteristics and assumptions of hypersonic flow; hypersonic similitude; Newtonian theory; constant density solutions.

**Topic 5: Advanced Computational Methods.** Development and implementation of numerical methods for solution of transport equations; computational grid generation; applications to fluid flows, including shock waves.

**ASE 384P. Structural and Solid Mechanics.**

Three lecture hours or two lecture hours and three laboratory hours a week for one semester, depending on the topic. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**Topic 2: Solid Mechanics II.** Same as Engineering Mechanics 388L. Continuation of Engineering Mechanics 388. Additional topics in elasticity, plasticity, viscoelasticity, variational methods, and other areas of solid mechanics. Three lecture hours a week for one semester. Prerequisite: Graduate standing. Engineering Mechanics 388 or Aerospace Engineering 384P (Topic 1), and consent of instructor.

**Topic 3: Structural Dynamics.** Same as Engineering Mechanics 384L. Free and forced vibration of single-degree-of-freedom, multiple-degree-of-freedom, and continuous systems. Lagrange’s equations and Hamilton's principle; discretization of continuous systems; numerical
methods for response and algebraic eigenvalue problems. Three
lecture hours a week for one semester.

**Topic 4: Finite Element Methods.** Same as Computational Science,
Engineering, and Mathematics 393F and Engineering Mechanics
394F. Derivation and implementation of the finite element method;
basic coding techniques; application to problems of stress and
diffusion. Three lecture hours a week for one semester. Only one of
the following may be counted: Aerospace Engineering 384P (Topic
4), Computational Science, Engineering, and Mathematics 393F;
Engineering Mechanics 394F. Additional prerequisite: Graduate
standing and consent of instructor.

**Topic 6: Advanced Structural Dynamics.** Analysis of complex flexible
systems; discretization of complex structures by the finite element
method; advanced computational methods for large finite element
models. Three lecture hours a week for one semester. Additional
prerequisite: Aerospace Engineering 384P (Topic 3) or Engineering
Mechanics 384L or the equivalent.

**Topic 8: Selected Topics in Aeroelasticity.** Classical and
contemporary topics in aeroelasticity; general introduction to
aeroelastic phenomena, including flutter, divergence, control reversal,
and flexibility effects on stability and control; aeroelastic tailoring;
active control concepts; unsteady aerodynamic theories for lifting
surfaces and bodies; aeroelastic system identification, including
nonlinear systems (theory and laboratory applications). Three lecture
hours a week for one semester.

**Topic 11: Mechanics of Composite Materials.** Constitutive equations;
micromechanical and macromechanical behavior of lamina; strength
and stiffness in tension and compression, theory of laminated plates;
strength of laminates; delamination. Three lecture hours a week for
one semester.

**ASE 387P. Flight Mechanics, Guidance, Navigation, and
Control.**

Three lecture hours a week for one semester. May be repeated for credit
when the topics vary. Prerequisite: Graduate standing and consent of
instructor.

**Topic 2: Mission Analysis and Design.** Mission design and mission
constraints, launch windows; rendezvous analysis; orbital design
interactions with thermal and structural analysis; design of a typical
mission.

**Topic 6: Optimal Spacecraft Trajectories.** Optimal control of
spacecraft; primer vector theory; impulsive maneuvers; finite
burn high/low thrust maneuvers; solar sails; numerical methods;
applications to contemporary trajectory problems using single or
multiple spacecraft.

**Topic 7: Sensors and Actuators.** Students use LabVIEW to study
aerospace devices such as inertial navigation systems, control-
moment gyroscopes, optical navigation systems, torque coils and
magnetometers, robots, and integrated satellites.

**ASE 388P. Celestial Mechanics.**

Three lecture hours a week for one semester. May be repeated for credit
when the topics vary. Prerequisite: Graduate standing and consent of
instructor.

**Topic 2: Celestial Mechanics I.** N-body problem; three-body problem;
restricted three-body problem; Jacobian integral; zero-velocity
curves; equilibrium points; stability; linearized solutions; variational
equations; periodic orbits; the two-body problem; variation of
parameters; Lagrange’s planetary equations; applications to near-
earth and deep-space trajectories; numerical methods.

**Topic 3: Celestial Mechanics II.** Hamiltonian mechanics; dynamical
systems; canonical transformations; invariant manifolds; Poincaré
surfaces of section; applications to restricted n-body problems;
aplications to sun-earth-moon or sun-planet-moon particle trajectory
problems. Additional prerequisite: Aerospace Engineering 388P (Topic
2).

**ASE 189, 289, 389, 489, 589, 689. Topics in Aerospace
Engineering.** For each semester hour of credit earned, one lecture hour a week for one
semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**ASE 389P. Satellite Applications.**

Three lecture hours a week for one semester. May be repeated for credit
when the topics vary. Prerequisite: Graduate standing and consent of
instructor.

**Topic 1: Determination of Time.** Concepts of time; fundamental
reference system; polar motion; practical methods in time
determination and dissemination; historical and present-day time
scales; atomic clocks; time transfer via satellite.

**Topic 2: Satellite Geodesy.** Explore theory of the gravitational
potential, including its time-variations; spherical harmonics and other
representations; space-based remote sensing of the geopotential and
its gradients; mass flux variability and its applications.

**Topic 4: Methods in Orbit Determination.** Variational methods of the
orbit determination, Orbit parameter estimation, satellite tracking
techniques and observables, modern precision orbit determination.
Three lecture hours a week for one semester. Aerospace engineering
389P (Topic 4) and 396 (Topic: Orbit Determination) may not both be
counted. Additional prerequisite: Aerospace Engineering 381P (Topic
6) or equivalent.

**Topic 7: Global Navigation Satellite System Signal Processing.**
Comprehensive review of the theory and applications of the Global
Positioning System (GPS), including the space segment, the
control segment, the user segment, dilution of precision, GPS time,
antispoofing, selected availability, differential/kinematic/dynamic
techniques, field procedures, and GPS data collection and analysis.
Applications of ground-based, aircraft-based, and satellite-based GPS
receivers.

**Topic 8: Satellite Control Systems.** Spacecraft equations of motion;
linearization and stability, classical control methods; digital and
sampled data systems; multivariable control; attitude determination
and control; momentum management; coupled modes; and case
studies in satellite control.

**Topic 9: Synthetic Aperture Radar: Principles and Applications.**
Synthetic Aperture Radar (SAR) imaging for Earth remote sensing,
including image formation concepts and interpretation, radar
interferometry processing and strategies, surface deformation,
topographic mapping, and polarimetric applications.

**Topic 10: Fundamentals and Geophysical Application of Imaging
Radar Systems.** Exploration of how radar images are formed and
manipulated, as well as applications of the systems to problems such
as measurement of the Earth crustal deformation. Focus on radar as a
signal processing problem, radar image formation, polarimetric radars,
and radar interferometry. Subjects include system design, scattering
from natural surfaces, range and azimuth processing algorithms,
and processor design. Additional prerequisite: Knowledge of Fourier
Transform and at least one programming language (MATLAB, C or
Fortran).

**Topic 11: Advanced Satellite Geodesy.** Examine kinematics and
dynamics of displacement and Earth orientation. Investigate the
determination of time and reference frames. Explore deformations of
the Earth due to tides and mass loading. Study modern space
goedic applications. Additional prerequisite: Aerospace Engineering
389P (Topic 2).
ASE 397. Graduate Seminar.
Student, faculty, and visitor presentations of current research topics. Three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

ASE 698. Thesis.
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in aerospace engineering and consent of the graduate adviser; for 698B, Aerospace Engineering 698A.

ASE 398R. Master’s Report.
Preparation of a report to fulfill the requirement for the master’s degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in aerospace engineering and consent of the graduate adviser.

ASE 398T. Supervised Teaching in Aerospace Engineering.
Teaching methods and objectives, criteria for evaluating teaching effectiveness, procedural rules and regulations, laboratory teaching. Three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and appointment as a teaching assistant.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses

ASL - American Sign Language

American Sign Language: ASL

Lower-Division Courses

ASL 601C. Accelerated First-Year American Sign Language.
Introduction to American Sign Language and its vocabulary and sentence structure. A six-hour course comparable to American Sign Language 506 and 507. Six lecture hours a week for one semester. Only one of the following may be counted: American Sign Language 601C, 601D, 506. American Sign Language 601C and 507 may not both be counted. Offered on the letter-grade basis only.

ASL 601D. American Sign Language I: Beginning.
This course focuses on the development of beginner-level comprehension and production skills in American Sign Language. Students learn how to attend to visual language and use their hands and body for producing ASL constructions. Elementary vocabulary and grammar is covered, along with information about Deaf culture. Six lecture hours a week for one semester. Only one of the following may be counted: American Sign Language 601C, 601D, 506. American Sign Language 601D and 507 may not both be counted. Offered on the letter-grade basis only.

ASL 610D. American Sign Language II: Beginning.
Focuses on the development of intermediate-level proficiency in ASL. An introduction to more complex grammatical constructions with the goal of engaging in conversations in ASL on a variety of topics. Examines the historical aspects of the Deaf community and related themes. Six lecture hours a week for one semester. Only one of the following may be counted: American Sign Language 610D, 611C, 312K. American Sign Language 507 and 610D may not both be counted. Offered on the letter-grade basis only. Prerequisite: American Sign Language 601D or 507 with a grade of at least C.

Focuses on maintaining and building upon a student's intermediate ASL skills. Grammar coverage includes complex constructions that involve the signing space, and vocabulary building includes comparisons between English words and ASL signs in order for the learner to make appropriate vocabulary choices in their ASL production. Complex questions facing the contemporary Deaf community are discussed. Three lecture hours a week for one semester. American Sign Language 311D and 312L may not both be counted. American Sign Language 611C and 311D may not both be counted. Offered on the letter-grade basis only. Prerequisite: American Sign Language 601C, 610D, or 312K with a grade of at least C.

Upper-Division Courses

Advanced development of conversational skills in American Sign Language, with a focus on sophisticated linguistic structures and important issues in Deaf studies. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: American Sign Language 311D or 312L with a grade of at least C.

ASL 326. Sign Languages and Signing Communities.
Same as Linguistics 350 (Topic 3: Sign Languages and Signing Communities). Examines the grammar of signed languages, their use in signing communities, and the acquisition of signed languages as first languages. No knowledge of American Sign Language is required. Three lecture hours a week for one semester. May not be counted toward fulfillment of the foreign language requirement for any bachelor's degree. Prerequisite: Upper-division standing.

ASL 336. Introduction to Sign Interpreting.
Introduction to sign interpreting from American Sign Language into English and from English into American Sign Language. Topics include the ethics of interpreting and the problems that arise in interpreting in different social and professional situations. Three lecture hours a week for one semester. Prerequisite: American Sign Language 311D or 312L with a grade of at least C.

ASL 350. Topics in American Sign Language, Deaf Studies, and Interpreting.
Three lecture hours a week for one semester. Additional hours may be required for some topics. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

Topic 1: American Sign Language Literature. Examines American Sign Language literature; includes narratives, language games, and poetry. Three lecture hours a week for one semester. American Sign Language 350 (Topic: American Sign Language Literature) and 350 (Topic 1) may not both be counted. Additional prerequisite: American Sign Language 610D with a grade of at least C, or credit or registration in American Sign Language 311D or 312L.
For nonscience majors. Hands-on projects in observational astronomy AST 101L. Astronomy Discovery Laboratory. Natural Sciences. 301, 302, 303, 307. May not be counted toward a degree in the College of one semester. Only one of the following may be counted: Astronomy 301, 302, 303, 307. May not be counted toward a degree in the College of Natural Sciences.

Astronomy: AST

Lower-Division Courses

AST 301 (TCCN: ASTR 1303, PHYS 1303). Introduction to Astronomy. General introduction to astronomy for nonscience majors. The solar system, stars, galaxies, and cosmology. Three lecture hours a week for one semester. Only one of the following may be counted: Astronomy 301, 302, 303, 307. May not be counted toward a degree in the College of Natural Sciences.

AST 101L. Astronomy Discovery Laboratory. For nonscience majors. Hands-on projects in observational astronomy and related laboratory disciplines. Three laboratory hours a week for one semester. May not be counted by students with credit for Astronomy 103L. Prerequisite: Credit or registration for Astronomy 301.

AST 302. Self-Paced Introduction to Astronomy. General, self-paced introduction to astronomy for nonscience majors. The solar system, stars, galaxies, and cosmology. Self-paced. Only one of the following may be counted: Astronomy 301, 302, 303, 307. May not be counted toward a degree in the College of Natural Sciences.

AST 303. Introduction to Astronomy with Celestial Observations. General introduction to astronomy for nonscience majors. The solar system, stars, galaxies, and cosmology. Introduces students to the night sky and includes some observational activities. Three lecture hours a week for one semester. Only one of the following may be counted: Astronomy 301, 302, 303, 307. May not be counted toward a degree in the College of Natural Sciences.

AST 103L (TCCN: ASTR 1103, PHYS 1103). Astronomical Observations. For nonscience majors. Observations of the night sky with the naked eye and small telescopes; indoor laboratory activities. Two laboratory hours a week for one semester. May not be counted by students with credit for Astronomy 101L, 302, or 303. Prerequisite: Credit or registration for Astronomy 301 or 307.

AST 104. Undergraduate Astronomy Seminar. Designed for astronomy majors. Discussions about current astronomical research, with different topics emphasized each semester. One lecture hour a week for one semester. May be repeated twice for credit when the topics vary. Offered on the pass/fail basis only.

AST 307. Introductory Astronomy. Introduction to astronomy for science and engineering students. The solar system, stars, galaxies, and cosmology. Three lecture hours a week for one semester. Only one of the following may be counted: Astronomy 301, 302, 303, 307. Prerequisite: Mathematics 305G or the equivalent or consent of instructor; high school trigonometry and physics are recommended.

AST 309. Topics in Astronomy for Nonscience Students. Selected topics in modern astronomy: solar system, peculiar stars, cosmology, and others. Three lecture hours a week for one semester. May not be counted toward a degree in the College of Natural Sciences. May be repeated for credit when the topics vary.

Topic 1: Popular Astronomy. Survey of topics of greatest interest to the public and the media, including new planets, black holes, dark matter, dark energy, and the origin of the Universe.

AST 309C. Birth of Stars and Planets. Study of how stars and planets form, including discussions on the implications for the formation of our own solar system. Designed for non-College of Natural Sciences majors. Three lecture hours a week for one semester. Astronomy 309 (Topic: Birth of Stars and Planets) and 309C may not both be counted. May not be counted toward a degree in the College of Natural Sciences.

AST 309G. Popular Astronomy for Nonscience Students. Subjects include new planets, neutron stars, supernovae, gamma-ray bursts, black holes, dark matter, dark energy, and the origin of the universe. Designed for non-College of Natural Sciences majors. Three lecture hours a week for one semester. Astronomy 309 (Topic 1: Popular Astronomy) and 309G may not both be counted. May not be counted toward a degree in the College of Natural Sciences.
AST 309L. Search for Extraterrestrial Life.
Origin of life in the solar system, existence of other planetary systems, possibilities and techniques for detection of and communication with other intelligences. Designed for non-College of Natural Sciences majors. Three lecture hours a week for one semester. May not be counted toward a degree in the College of Natural Sciences.

AST 309N. Lives and Deaths of Stars.
How stars live and die; extremes of stars and their life cycles. Exotic objects such as white dwarfs, supernovae, neutron stars, pulsars, and black holes. Specific subjects may vary with instructor. Designed for non-College of Natural Sciences majors. Three lecture hours a week for one semester. May not be counted toward a degree in the College of Natural Sciences.

AST 309P. Astronomy in Science Fiction.
The use of astronomy and other sciences in science fiction literature. Critical analysis of selected novels as to the validity of the astronomy used. Designed for non-College of Natural Sciences majors. Three lecture hours a week for one semester.

AST 309Q. Time and the Cosmos.
From the beginning of time in the Big Bang to the end of time in the black hole. Includes the early universe, the formation and evolution of single and double stars, and the supercompact objects they eventually become: white dwarfs, pulsars, and black holes. Designed for non-College of Natural Sciences majors. Three lecture hours a week for one semester. May not be counted toward a degree in the College of Natural Sciences.

AST 309R. Galaxies, Quasars, and the Universe.
Galaxies, quasars, giant black holes; cosmic evolution; the origin and future of the universe. Designed for non-College of Natural Sciences majors. Three lecture hours a week for one semester. May not be counted toward a degree in the College of Natural Sciences.

The nature, origin, and evolution of our solar system, including planets, moons, and other bodies. Designed for non-College of Natural Sciences majors. Three lecture hours a week for one semester. May not be counted toward a degree in the College of Natural Sciences.

AST 309T. The Milky Way Galaxy.
Our spiral system of stars, gas, and dust; star formation. Designed for non-College of Natural Sciences majors. Three lecture hours a week for one semester.

AST 110C, 210C, 310C. Conference Course in Astronomy.
Restricted enrollment; contact the department for permission to register. Independent research course with supervision by astronomy faculty member or research scientist. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester; hours to be arranged. May be repeated for credit.

AST 110K, 210K, 310K. Topics in Astronomy Research.
Designed for science and engineering majors. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester; hours to be arranged. May be repeated for credit when the topics vary. Prerequisite: Consent of instructor or adviser.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Astronomy. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

For nonscience majors. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing; and Astronomy 301, 302, 303, or consent of instructor.

For nonscience majors. Cosmic origins from the Big Bang to life, and the connections among the origins of stars, planets, and life. Three lecture hours a week for one semester. Prerequisite: Upper-division standing; and Astronomy 301, 302, 303, or consent of instructor.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Astronomy. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

AST 350L. History and Philosophy of Astronomy.
Historical influence of astronomical concepts on social, economic, literary, and scientific life; the place of astronomy in society. Three lecture hours a week for one semester. Prerequisite: Upper-division standing; and Astronomy 301, 302, 303, or consent of instructor.

AST 351. Astronomical Instrumentation.
A hands-on course in computer-controlled optical instrumentation. Intended for natural science and engineering students interested in the practical aspects of instrument design and construction. Includes optics and optical design, electronics, machining and mechanical design, and computer interfacing. Students work in groups and as teams to design a computer-controlled optical instrument. The equivalent of three lecture hours a week for one semester. Prerequisite: Upper-division standing in the College of Natural Sciences or the Cockrell School of Engineering, or consent of instructor.

AST 352K. Stellar Astronomy.
Properties of stars and starlight: principles of radiation; interpretation of stellar spectra. Observational techniques such as photometry, spectroscopy, and telescopes and detectors; variable stars; binary stars. Three lecture hours a week for one semester. Prerequisite: Upper-division standing, and one of the following: Physics 301 and 303L; 301 and 316; 303K and 303L; or 303K and 316.

AST 352L. Positional, Dynamical, and Kinematical Astronomy.
Coordinate systems and time; stellar positions and motions; the kinematics and dynamics of star clusters and galaxies. Three lecture hours a week for one semester. Prerequisite: Credit or registration for Mathematics 427K.

AST 152M. Stellar Astronomy Laboratory.
An introduction to practical observational techniques in astronomy, designed for astronomy majors or advanced students in a physical science. Exercises on the spectroscopy, photometry, and positions of stars using a sixteen-inch telescope on campus. Three laboratory hours a week for one semester. With consent of instructor, may be repeated
for credit. Prerequisite: Physics 316 and 116L; credit or registration for Astronomy 352K is recommended.

**AST 353. Astrophysics.**
Survey of the physics of stellar and nonstellar radiation laws, stellar atmospheres and interiors; high-energy astrophysics. Designed for science and engineering majors. Three lecture hours a week for one semester. Prerequisite: One of the following: Physics 301 and 303L; 301 and 316; 303K and 303L; or 303K and 316.

**AST 358. Galaxies and the Universe.**
Our galaxy and its constituents; stars and interstellar matter. Properties of other galaxies; galaxy interactions and mergers; expansion and evolution of the universe. Designed for science and engineering majors. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and consent of instructor.

**AST 364P. Planetary Systems.**
Modern studies of the solar system, including properties of the planets and smaller bodies, and the origin of planetary systems. Three lecture hours a week for one semester. Prerequisite: Upper-division standing and one of the following: Physics 301 and 303L; 301 and 316; 303K and 303L; or 303K and 316.

**AST 367M. Physical Science: Methods of Astronomy.**
Same as Physical Science 367M. An introductory, self-paced course in the methods of astronomy that emphasizes learning astronomical principles through observations. Six laboratory hours a week for one semester. May not be counted toward the Bachelor of Arts, Plan I, degree with a major in astronomy. Prerequisite: Upper-division standing and nine semester hours of coursework in mathematics and/or science, including one of the following: Physical Science 303, 304, Astronomy 301, 302, 303. Equivalent preparation in mathematics, physics, chemistry, or earth sciences may be substituted with written approval of the instructor.

**AST 175, 275, 375. Topics in Astronomy Research.**
Designed for science and engineering majors. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester; hours to be arranged. May be repeated for credit when the topics vary. Prerequisite: Consent of instructor or adviser.

**AST 175C, 275C, 375C. Conference Course in Astronomy.**
Restricted enrollment; contact the department for permission to register. Independent research course with astronomy faculty member or research scientist. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester; hours to be arranged. May be repeated for credit.

**AST 376. Special Topics in Advanced Astronomy.**
Designed for science majors. Three lecture hours a week for one semester. Up to six semester hours may be counted toward the major requirement for the Bachelor of Arts with a major in astronomy. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and consent of instructor.

**AST 376C. Cosmology.**
The laws of physics applied to the Universe at large: its featureless beginning in the Big Bang, its fundamental constituents including radiation, atoms, and dark matter; the discoveries of universal expansion and dark energy, and a structure reflected in the web of galaxies. Designed for science and engineering majors. Three lecture hours a week for one semester. Prerequisite: Upper-division standing, and one of the following: Physics 301 and 303L; 301 and 316; 303K and 303L; or 303K and 316.

**AST 376R. A Practical Introduction to Research Methods.**
Restricted to science and engineering majors. Practical exercises including analysis of imaging data, visualization, programming exercises with Python, IDL or other languages, statistical analyses, and training for papers and oral presentations. Three lecture hours a week for one semester. Prerequisite: Mathematics 305G or the equivalent; prior computing experience and an introductory astronomy course are recommended.

**AST 379H. Honors Tutorial Course.**
Restricted to science majors approved to graduate with honors. Research project and thesis for students electing to take the honors program in astronomy. Conference course. May be repeated once for credit. Prerequisite: Consent of the departmental honors adviser.

**Graduate Courses**

**AST 380E. Radiative Processes and Radiative Transfer.**
Classical and quantum radiative processes relevant to astrophysics; basic radiative transfer. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

**AST 381. Topics in Theoretical Astrophysics.**
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

**AST 381C. Gravitational Dynamics.**
Orbital, collective, and tidal effects of astronomical objects, such as planets, stars, galaxies, and interstellar medium, under the influence of a gravitational field. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

**AST 381S. Seminar in Theoretical Astrophysics.**
Topics to be announced. Three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

**AST 382C. Astrophysical Gas Dynamics.**
The basic principles of compressible gas dynamics and magnetohydrodynamics, developed and applied in an astrophysical context to a wide range of astronomical phenomena. Three lecture hours a week for one semester. Prerequisite: Graduate standing in astronomy or physics, or graduate standing and consent of instructor.

**AST 382D. Astronomical Data Analysis.**
Restricted to Astronomy majors. Apply statistical analysis techniques to astronomical data. Examine probability theory, parameter estimation, Bayesian statistics, Markov Chain Monte Carlo methods, and model fitting. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of department.
AST 383. Topics in Stellar Astronomy.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing.

AST 383C. Stellar Atmospheres.
Observational properties of stellar atmospheres; theoretical calculations of stellar atmospheres and stellar spectra. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

AST 383D. Stellar Structure and Evolution.
Theoretical calculations of the structure and evolution of stars. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

AST 383L. Seminar in Planets and Life.
Discussions concerning the solar system; the detection, formation, and evolution of planets; planetary atmospheres, climates, and meteorology; and various aspects of life in the universe. Three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

Three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

AST 384C. Computational Astrophysics.
Restricted to astronomy majors. Investigate, compare, and implement computational techniques for numerical modeling of astrophysical systems. Three lecture hours a week for one semester. Astronomy 381 (Topic: Computational Astrophysics) and 384C may not both be counted. Prerequisite: Graduate standing and consent of department.

AST 384T. Current Studies in Astronomy for Teachers.
Lectures and laboratory work in astronomy for elementary and secondary school teachers of earth science, physical science, or astronomy. Three lecture hours and twelve laboratory hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

AST 385. Conference Course.
Three conference hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

AST 185C. Conference on Modern Astronomy.
A broad introduction to the research being conducted by the faculty and research staff in astronomy. One lecture hour a week for one semester. Prerequisite: Graduate standing and consent of instructor.

AST 386. Extragalactic Astronomy.
Topics include classification of galaxies, distance indicators, luminosities, dimensions, colors, spectra, polarization, radio emission, rotation, masses; formation and evolution; pairs, groups, clusters, superclusters, large-scale distribution, redshifts, cosmology. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

AST 386C. Properties of Galaxies.
Observational properties of galaxies and their interpretation; includes a discussion of the Milky Way galaxy. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

AST 386S. Seminar in Extragalactic Astronomy.
Topics to be announced. Three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

AST 389. Dynamical Astronomy.
Topics include planetary and stellar motions, asymptotic representations of quasi integrals, galactic dynamics. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

Restricted to astronomy majors. Present and discuss current research broadly related to stars, planets in the Solar System, extrasolar planets, and interstellar matter. Three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of department.

AST 390G. Galaxies and Cosmology Seminar.
Restricted to astronomy majors. Present and discuss current research on properties of galaxies, galaxy evolution, cosmology, and related subjects. Three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of department.

AST 391. Graduate Research in Astronomy.
Three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in astronomy and consent of instructor.

AST 392D. Mathematical Methods of Astrophysics.
Statistics, error theory, least squares and curve fitting, numerical methods, approximation theory, Fourier transforms, sampling theory, time-series analysis. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.

AST 392E. Optical Techniques in Astronomy.
Topics include photometry, spectroscopy, direct imaging, interferometry and polarimetry at ultraviolet, visual, and infrared wavelengths. Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

AST 392G. Observing Techniques in Astronomy.
Survey of techniques used at the McDonald Observatory. Includes workshop at the observatory. Three lecture hours a week for one semester. Offered in the summer session only. Prerequisite: Graduate standing and consent of instructor.

AST 392J. Astronomical Instrumentation.
A hands-on course in instrument development, including mechanical design and machining, electronics design, optical design and optics, computer interfacing, and project planning. Students use CAD programs in each area and design and build a computer-controlled instrument. Learning activities are carried out in groups and teams. One lecture hour and five laboratory hours a week for one semester. Prerequisite: Graduate standing.

AST 393F. Survey of the Interstellar Medium.
A broad introduction to the processes and properties of the interstellar medium. Topics include H I regions, H II regions, molecular clouds, interstellar dust, and the distribution of the interstellar medium in our galaxy. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor.
AST 393S. Seminar in Interstellar Matter.
Topics to be announced. Three lecture hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

AST 394F. Formation of Galaxies and Large-Scale Structure.
Restricted to astronomy majors. Investigate formation and evolution of galaxies and larger structures in their cosmological context, including dark matter, dark energy, and the intergalactic medium. Three lecture hours a week for one semester. Astronomy 381 (Topic: Frmtn Galax/Lrg-Scale Strct) and 394F may not both be counted. Prerequisite: Graduate standing and consent of department.

AST 394P. Planetary Astrophysics.
Restricted to Astronomy majors. Discuss exoplanet detection methods; demographics, architecture, formation and evolution of planetary systems; planetary interiors, atmospheres and habitability. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of instructor. May be repeated for credit. Offered on the credit/no credit basis only.

AST 395H. High Redshift Galaxies.
Restricted to astronomy majors. Examine galaxy evolution, emphasizing first galaxies to the cosmic star formation peak at redshift z=2. Interpret relevant observations and simulations. Three lecture hours a week for one semester. Astronomy 386 (Topic: Galaxy Evol at High Redshift) and 395H may not both be counted. Prerequisite: Graduate standing and consent of department.

AST 396C. Elements of Cosmology.
A theoretical discussion of the origin and evolution of the universe; includes a brief review of general relativity. Three lecture hours a week for one semester. Prerequisite: Grad standing and consent of instructor.

AST 697. Graduate Research Project.
Two-semester graduate research project in astronomy. The equivalent of three hours of work a week for two semesters. Prerequisite: For 697A, graduate standing and consent of instructor; for 697B, Astronomy 697A.

AST 698. Thesis.
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in astronomy and consent of the graduate adviser; for 698B, Astronomy 698A.

AST 398R. Master’s Report.
Preparation of a report to fulfill the requirement for the master’s degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in astronomy and consent of the graduate adviser.

AST 398T. Supervised Teaching in Astronomy.
Effective astronomy teaching: course design, instructional materials, test design, other methods. In-class practice teaching. Projects in astronomy education. Three lecture hours a week for one semester. Prerequisite: Graduate standing and consent of the instructor or consent of the graduate advisor.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses

B A - Business Administration

Business Administration: B A

Lower-Division Courses

B A 001F. First-Year Interest Group Seminar.
Restricted to students in the First-Year Interest Group Program. Basic issues in various McCombs School of Business disciplines. One lecture hour a week for one semester.

Restricted to students admitted to the McCombs School of Business Honors Program. Professional development issues including self-assessment, identification of personal life goals, identification of business majors and exploration of potential career fields for each major, and analysis and discussion of the academic planning process and how it relates to professional development and career planning. One-and-one-half lecture hours a week for one semester. Only one of the following may be counted: Business Administration 101H, 101S, 101T. Offered on the letter-grade basis only.

B A 101S. Professional Development and Career Planning.
Restricted to freshmen students in the McCombs School of Business. Discussion of issues surrounding career planning, implementation, and evaluation in order to establish career goals. Strategies for executing a successful job search, including interviewing techniques, resumes, networking, and job search ethics. Focus on career management as a lifelong process. One-and-one-half lecture hours a week for one semester. Only one of the following may be counted: Business Administration 101H, 101S, 101T. Offered on the letter-grade basis only.

B A 101T. Professional Development and Career Planning.
Restricted to transfer students in the McCombs School of Business. Discussion of issues surrounding career planning, implementation, and evaluation. One-and-one-half lecture hours a week for one semester. Only one of the following may be counted: Business Administration 101H, 101S, 101T. Offered on the letter-grade basis only.

B A 105, 205, 305. Topics in Business Administration Leadership.
Restricted to students in the McCombs School of Business. Explores current theory and research related to peer mentoring and leadership with higher education and business. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

B A 018H. Business Honors Program Seminar.
Restricted to students admitted to the McCombs School of Business Honors Program. Basic issues in various interdisciplinary and business fields of study. One lecture hour a week for one semester. Fulfills the criteria for a 360 Connection. May not be counted toward the Bachelor of Business Administration degree. May be repeated for credit.

Discussion of various issues related to the academic, cultural, and personal aspects of completing academic work in international locations. For each semester hour of credit earned, one lecture hour a week for one semester. Business Administration 119, 219, 319, 419, 519, 619 and Undergraduate Studies 119 may not both be counted unless the topics vary. May be repeated for credit when the topics vary.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office or the school's BBA Exchange Programs. Credit is recorded as assigned by the Bachelor of Business Administration's study abroad director in the McCombs School of Business. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

B A 320F. Foundations of Entrepreneurship.

Restricted to non-McCombs School of Business majors. Introduction to the mechanics and strategies for starting a business. Three lecture hours a week for one semester. Prerequisite: Forty-five semester hours of college coursework.

B A 321L. Contemporary Leadership Issues.

Focuses on leadership topics such as ethics, diversity, and sustainability. Three lecture hours a week for one semester. Prerequisite: Upper-division standing.

Restricted to students in the McCombs School of Business. Theory and practice of effective communication, using models from business situations. Students practice what they learn with a variety of in-class activities, written assignments, and oral presentations. Teamwork and use of interpersonal skills are included. Three lecture hours a week for one semester. Only one of the following may be counted: Communication 324M, Communication 324C, Communication 324H, Business Administration 324, and Business Administration 324H. Offered on the letter-grade basis only. Prerequisite: English 303C or 603A, or Rhetoric and Writing 306, 306Q, 309J (or 309K), or Tutorial Course 303C or 603A; and credit or registration for Business Administration 101H or 101S or 101T.

Restricted to students admitted to the McCombs School of Business Honors Program. Theory and practice of effective communication, using models from business situations. Students practice what they learn with a variety of in-class activities, written assignments, and oral presentations. Teamwork and use of interpersonal skills are included. Three lecture hours a week for one semester. Only one of the following may be counted: Communication 324M, 324C, 324H, Business Administration 324, 324H. Offered on the letter-grade basis only. Prerequisite: English 303C or 603A, Rhetoric and Writing 306, 306Q, 309J (or 309K), or Tutorial Course 303C or 603A; and credit or registration for Business Administration 101H or 101S or 101T.

B A 352F. Internship in Foundations of Business Administration.

Restricted to non-McCombs School of Business majors. Focuses on students’ career goals through academic discussion and evaluations, while students are working in professional internships with public and private enterprises. Internship to be arranged by the student and approved by the director of the Business Foundations Program. Internship and discussion hours to be arranged. Offered on the pass/fail basis only. Prerequisite: Completion of at least forty-five semester hours of coursework; Accounting 310F with a grade of at least C, and consent of the director of the Business Foundations Program.

B A 151H. Honors Lyceum in Business Administration.

Restricted to students admitted to the McCombs School of Business Honors Program. Presentations by professionals from various fields of business. One lecture hour a week for one semester. May be repeated for credit. Prerequisite: Business Administration 101H or 101S, or credit or registration for Business Administration 101T.

Discussion of various issues related to the academic, cultural, and personal aspects of completing academic work in international locations. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Business Administration 149, 249, 349, 449, 549, 649 and Undergraduate Studies 119 may not both be counted unless the topics vary. May be repeated for credit when the topics vary.

B A 153, 253, 353, 653. Internship in Business Administration.

Restricted to students in the McCombs School of Business. Provides a format for reflection during a professional internship, resulting in improved ability to both articulate preferences and skills, and to match them with appropriate career-related choices. Internship and discussion hours to be arranged. Only one of the following may be counted toward the Bachelor of Business Administration: Accounting 353J, Business Administration 153, 253, 353, 653, 353H, Finance 353, Management 353, Management Information Systems 353, Marketing 353, Operations Management 353. May not be counted toward the student’s major requirement. Offered on the pass/fail basis only. Prerequisite: Completion of forty-five semester hours of college coursework; Business Administration 324 or 324H; and consent of the BBA Internship Director.

B A 366F. Foundations of Business Administration Practicum.

Restricted to non-McCombs School of Business majors. Students apply skills related to the Business Foundations certificate program curriculum and focus on additional project management skills through group projects conducted in a professional setting. Students may work with a private or a public enterprise. The equivalent of three lecture hours a week for one semester. Prerequisite: Upper-division standing and completion of at least forty-five semester hours of coursework.

B A 366P. Business Administration Practicum.

Restricted to students in a business major. Apply business skills through group projects conducted in a professional setting. Work with a private or a public enterprise. The equivalent of three lecture hours a week for one semester. Prerequisite: Forty-five semester hours of college coursework.

B A 176C, 276C, 376C. Advanced Topics in Finance and Accounting.

Restricted to students admitted to courses offered through Texas Executive Education. Rigorous introduction into the topics and
processes of accounting and finance in business. Focus on how to apply analytical skills to make better business decisions. Taught by faculty from the McCombs School of Business. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May not be counted toward the Bachelor of Business Administration degree. May be repeated for credit when the topics vary.

B A 176D, 276D, 376D. Advanced Topics in Marketing.
Restricted to students admitted to courses offered through Texas Executive Education. Explores marketing strategies and practices that are applicable to multiple departments across organizations. Discussion of marketing tactics and the impact of marketing on business operations. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May not be counted toward the Bachelor of Business Administration degree. May be repeated for credit when the topics vary.

B A 176E, 276E, 376E. Advanced Topics in Leadership and Management.
Restricted to students admitted to courses offered through Texas Executive Education. Discussion of strategies to foster highly effective communication and collaboration in order to become more successful and valuable as a leader. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May not be counted toward the Bachelor of Business Administration degree. May be repeated for credit when the topics vary.

B A 176F, 276F, 376F. Advanced Topics in Business Analytics.
Restricted to students admitted to courses offered through Texas Executive Education. Introduction to the leading edge of big data and data analytics. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May not be counted toward the Bachelor of Business Administration degree. May be repeated for credit when the topics vary.

Restricted to students admitted to courses offered through Texas Executive Education. Explores the tools and ideas that help shape and define the various components of value creation. Dive into the process and strategies behind acquiring, producing and delivering goods and services, whether domestically or globally. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May not be counted toward the Bachelor of Business Administration degree. May be repeated for credit when the topics vary.

Restricted to students admitted to courses offered through Texas Executive Education. Focus on the economics, strategy, business valuation and finance specific to the energy industry. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May not be counted toward the Bachelor of Business Administration degree. May be repeated for credit when the topics vary.

Restricted to students admitted to courses offered through Texas Executive Education. Focus on developing the knowledge and thought processes necessary to make high-impact decisions within an organization. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May not be counted toward the Bachelor of Business Administration degree. May be repeated for credit when the topics vary.

B A 176L, 276L, 376L. Advanced Topics in Strategic Decision Making and Risk Management.
Restricted to students admitted to courses offered through Texas Executive Education. Explores techniques to recognize risks from stakeholders’ perspectives. Discussion of how to frame strategic choices, generate alternatives, and create models that answer executives’ questions, produce compelling analyses, and ultimately gain commitment. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May not be counted toward the Bachelor of Business Administration degree. May be repeated for credit when the topics vary.

B A 176N, 276N, 376N. Advanced Topics in Business.
Restricted to students admitted to courses offered through Texas Executive Education. Explores the skill set needed to move from a functional area to a cross functional management role. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May not be counted toward the Bachelor of Business Administration degree. May be repeated for credit when the topics vary.

Restricted to non-McCombs School of Business majors. Conference course. Prerequisite: Upper-division standing. Accounting 310F with a grade of at least C, consent of instructor, and written approval before the first meeting of the course on a form provided for that purpose from the director of the Business Foundations Program.

Graduate Courses

Restricted to students in the MBA program. A discussion of technical architecture, including hardware/software platforms, operating systems, networking and the Internet; development strategies; and management issues for the introduction of new technology. For each semester hour of credit earned, one lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and admission to the McCombs School of Business.

B A 380F. Accounting Information for Managerial Decision Making.
Restricted to second-year students in the MBA program. Financial information regarding revenue, cost, and assets, with an emphasis on the interpretation of numbers to derive well-informed management decisions. Covers the role of taxes in business strategy. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

B A 180G. Executive Seminar.
Restricted to students in the Executive MBA Program. Examine the integration of business executive and real-world problem solving, career preparation, and professional growth. One lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

B A 380M. Management Science.
Introduction to the structure and use of mathematical models and methods for analyzing managerial decision problems. Development and application of modeling concepts and skills underlying the analytical techniques used to solve such problems. Introduction to a range of computers, and use of the latest in computer-based decision support systems. Three lecture hours a week for one semester. Prerequisite: Admission to the McCombs School of Business.
An introduction to the issues and decisions involved in the production of goods and services. Focuses on designing, operating, controlling, and improving the systems that accomplish production. For 180N, one lecture hour a week for one semester; for 280N, four lecture hours a week for half a semester; for 380N, three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and admission to the McCombs School of Business.

B A 180P. Project Management.
An introduction to the techniques used in managing complex projects, with a central theme of managing risk and variability. Examine the progressive elaboration of cost and schedule estimates in the presence of significant uncertainty. One lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

B A 180S, 280S, 380S. Managerial Economics.
Microeconomic and macroeconomic forces that influence an organization’s decisions: interest rates, business cycles, financial systems, input demand and supply, industry factors, market structure, and externalities. For each semester hour of credit earned, one lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and admission to the McCombs School of Business.

B A 181C. Strategic Career Planning.
Restricted to first-year students in the MBA program. Issues surrounding career planning, including exploration and implementation. Professional development issues, including self-assessment. One and one-half lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing.

B A 281M. Marketing Management for Executives.
Restricted to students in the Executive MBA Program. Study the marketing function in modern organizations, focusing on understanding consumer behavior, development of an organization’s value proposition, competitive positioning, and the major tactical decisions regarding product planning, marketing communications, pricing, and distribution. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

An introduction to the marketing perspective on strategy development and to the elements of marketing analysis. Includes the functional decision areas of the marketing manager, such as products and product lines, pricing policies, branding, promotion and advertising, and channels of distribution, and how organizations use these components to create, capture, and sustain value for the firm. For 181T, one lecture hour a week for one semester; for 281T, four lecture hours a week for half a semester; for 381T, three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and admission to the McCombs School of Business.

B A 182T, 282T, 382T. Managerial Accounting.
An investigation of the conceptual and operational relationship of planning and control with management and accounting information systems. Topics include data collection and analysis for short-range and long-range organizational decisions. For each semester hour of credit earned, one lecture hour a week for one semester. Only one of the following may be counted: Accounting 329, 359, 287 (Topic 1), 287 (Topic 5), 387 (Topic 1), 387 (Topic 5) Business Administration 182T, 282T, 382T. Offered on the letter-grade basis only. Prerequisite: Graduate standing and admission to the McCombs School of Business.

Restricted to students in the Executive MBA Program. Examine the strengths and weaknesses of the information produced in financial reports, the pressures faced by management and auditors as they prepare financial statements, the difficulties involved in evaluating decisions after outcomes are known, and the impact of accounting information on strategic decisions. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

B A 184S, 284S, 384S. Economics for Business.
Restricted to students in the McCombs School of Business. Microeconomic and macroeconomic forces that influence an organization’s decisions, such as interest rates, business cycles, financial systems, input demand and supply, industry factors, market structure, and externalities. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

Restricted to students in the Executive MBA Program. Explore both microeconomics and macroeconomics, with a special emphasis on global macro phenomena. Offered on the letter-grade basis only.

An examination of the information needs of capital market participants in a dynamic and complex socioeconomic system; emphasis on interpretation, measurement, and disclosure of economic events. For 184T, one lecture hour a week for one semester; for 284T, four lecture hours a week for half a semester; for 384T, three lecture hours a week for one semester. Accounting 381 and Business Administration 184T, 284T, 384T may not both be counted. Offered on the letter-grade basis only. Prerequisite: Graduate standing and admission to the McCombs School of Business.

Restricted to students in the Executive MBA Program. Examine the core concepts underlying financial management. Explore organizational forms of business, the time value of money, debt and equity markets, agency theory, risk and return, value creation, capital budgeting, firm valuation, and the fundamentals of risk-management. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and admission to the McCombs School of Business.

An exploration of concepts and techniques employed in investment decision making, working capital management, and financing the activities of a business. For 185T, one lecture hour a week for one semester; for 285T, four lecture hours a week for half a semester; for 385T, three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and admission to the McCombs School of Business.
B A 286S. Statistics for Executives.
Restricted to students in the Executive MBA Program. Explore regression as a universal model for linking data to outcomes. Discuss how to set up and run a regression model, evaluate when the model is correct, and interpret the results. Examine illustrative case studies that use regression models to forecast a firm’s future sales, determine if apartments and homes are overpriced, evaluate the relative riskiness of owning shares of a stock, develop an optimal bidding strategy, estimate the value of a physical asset, and value a contingent contract offer in a negotiation. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

A unified approach to basic concepts in collection, analysis, and interpretation of data, emphasizing capabilities of different statistical methods and business applications. Students use statistical software packages. For 186T, one lecture hour a week for one semester; for 286T, four lecture hours a week for half a semester; for 386T, three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and admission to the McCombs School of Business.

B A 287T. Legal and Regulatory Environment of Business.
Examination of relationships between public and private institutions, with emphasis on the legal constraints on managerial decision making. Two lecture hours a week for one semester. Prerequisite: Admission to the McCombs School of Business.

Restricted to students in the Executive MBA Program. Explore the foundations of strategy at the top management level, specifically, the antecedents, formulations, and effects of firm strategies. Two lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

Designed to help students develop a general management orientation. Subjects include the role of the general manager, formulating business and corporate-level strategy, managing strategic change, strategy implementation, and developing general managers. For each semester hour of credit earned, one lecture hour a week for one semester. Business Administration 188T, 288T, 388T and Management 385 (Topic 49: Strategic Management) may not both be counted. Offered on the letter-grade basis only. Prerequisite: Graduate standing and admission to the McCombs School of Business.

Conference course. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

Restrict to McCombs graduate students. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Conference course. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

Restrict to McCombs graduate students. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Conference course. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

B A 190D, 290D, 390D. Management Information Systems.
The use of decision support systems and database management concepts in an organization for information management and processing by mainframe and personal computer. For each semester hour of credit earned, one lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and admission to the McCombs School of Business.

B A 390F. Information Systems Design and Implementation.
Specification, design, implementation, and testing of information systems. Three lecture hours a week for one semester. Prerequisite: Admission to the McCombs School of Business.

B A 390H. Managing Information.
Management and use of information in organizations, including database management, analytical approaches for effective information management, and organizational issues. Three lecture hours a week for one semester. Prerequisite: Graduate standing and admission to the McCombs School of Business.

B A 390J. Data Communications, Networks, and Distributed Processing.
Functional aspects of data communications, computer networks, and distributed information systems, using campus computers and the network systems available in the classroom. Three lecture hours a week for one semester. Prerequisite: Admission to the McCombs School of Business.

Restricted to McCombs graduate students. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Conference course. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

Restricted to McCombs graduate students. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Conference course. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.
Restricted to McCombs graduate students. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Conference course. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

Restricted to McCombs graduate students. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Conference course. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

Restricted to McCombs graduate students. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Conference course. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

Restricted to McCombs graduate students. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Conference course. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

Restricted to McCombs graduate students. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Conference course. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

Restricted to McCombs graduate students. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Conference course. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

Restricted to McCombs graduate students. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Conference course. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

Restricted to McCombs graduate students. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Conference course. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

Restricted to McCombs graduate students. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Conference course. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

Restricted to McCombs graduate students. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Conference course. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

Restricted to McCombs graduate students. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Conference course. May be repeated for credit. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

Restricted to McCombs graduate students. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Conference course. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

Restricted to McCombs graduate students. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Conference course. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

Restricted to McCombs graduate students. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. Conference course. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of instructor.

Designed to provide students at the high-intermediate level of English proficiency with communication skills beyond pronunciation and grammatical accuracy. Three lecture hours a week for one semester. Prerequisite: Graduate standing, admission to a doctoral program in the McCombs School of Business, and consent of instructor.

B A 198L. Written and Oral Communication for International Students.
Preparation of a report to fulfill the requirement for the master’s degree under the report option. The equivalent of three lecture hours a week for one semester. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in business administration, completion of the core courses for the degree, and consent of the supervising professor and the graduate adviser.

B A 198T. Supervised Teaching in Business Administration.
Teaching in the McCombs School of Business for two semesters under the close direction of the course instructor or supervisor; weekly group meetings with the instructor, individual consultations, and reports throughout the teaching period. Three lecture hours a week for one
semester. Prerequisite: Graduate standing, approval of the department chair and the dean, and appointment as a teaching assistant.

Professional Courses

BAX - Business Analytics

Business Analytics: BAX

Lower-Division Courses

BAX 304. Introduction to Problem Solving and Programming.
Same as Management Information Systems 304. Restricted to students in the McCombs School of Business. Programming skills for creating easy-to-maintain systems for business applications. Object-oriented and structured methodologies with Python. Three lecture hours a week for one semester. Only one of the following may be counted: Business Analytics 304, 305, or Management Information Systems 304. Offered on the letter-grade basis only.

BAX 305. Programming for Data Analytics.
Restricted to students in the McCombs School of Business Examine general principles of computer languages and basic object-oriented programming principles. Translate business problems from English into programs written using the Python language. Explore automatic function optimization needed for decision-making. Utilize Python for hands-on work. Three lecture hours a week for one semester. Only one of the following may be counted: Business Analytics 304, 305, or Management Information Systems 304.

Topics in Business Analytics.
This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad advisor in the academic unit. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

Upper-Division Courses

BAX 325. Database Management.
Same as Management Information Systems 325. Restricted to students in the McCombs School of Business. Beginning and intermediate topics in data modeling for relational database management systems. Three lecture hours a week for one semester. Only one of the following may be counted: Business Analytics 325, 327, or Management Information Systems 325. Offered on the letter-grade basis only.

BAX 327. Data Management.
Restricted to students in the McCombs School of Business Explore how to tailor data strategy to business strategy and the technical skills related to understanding data sources, acquiring data, storing data efficiently, and processing the data in preparation for analysis. Learn how to engineer and manage data pipelines, create data stores for analytics, and use data management specific APIs (application programming interfaces). Examine the importance of implementing data governance, understanding data limitations, and assessing the fairness of data collection and usage. Three lecture hours a week for one semester. Only one of the following may be counted: Business Analytics 325, 327, Management Information Systems 325.

Topics in Business Analytics.
This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad advisor in the academic unit. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

BAX 337. Predictive Analytics.
Restricted to students in the McCombs School of Business Examine decision-making in deterministic settings. Discuss optimization and planning in various contexts including portfolio selection, production planning, marketing allocations, revenue management and pricing. Explore linear, quadratic, nonlinear, and integer programming. Utilize Python for hands-on work. Three lecture hours a week for one semester. Only one of the following may be counted: Business Analytics 337, 372 (Topic 2), Management Information Systems 373 (Topic 17), Marketing 372 (Topic: Predictive Analytics and Data Mining), 372 (Topic 22). Offered on the letter-grade basis only. Prerequisite: Upper-division standing; Statistics 301, 301H, 309, or 309H; and Business Analytics 304, 305, or Management Information Systems 304.

BAX 358. Optimization Methods and Decision Making.
Restricted to students in the McCombs School of Business Examine decision-making in deterministic settings. Discuss optimization and planning in various contexts including portfolio selection, production planning, marketing allocations, revenue management and pricing. Explore linear, quadratic, nonlinear, and integer programming. Utilize Python for hands-on work. Three lecture hours a week for one semester. Only one of the following may be counted: Business Analytics 358, 372 (Topic 2), Management Information Systems 373 (Topic 17), Marketing 372 (Topic: Predictive Analytics and Data Mining), 372 (Topic 22). Offered on the letter-grade basis only. Prerequisite: Upper-division standing; Business Analytics 304, 305, or Management Information Systems 304; and one of the following: Statistics 235 and Decision Sciences 235, or Statistics 371G, or Statistics 371H.

BAX 360, 460. Information and Analysis.
Same as Marketing 360. Same as Marketing 460. Restricted to students in a business major. The development and analysis of information for marketing management sources. For each semester hour of credit earned, one lecture hour a week for one semester. Marketing 360, 460 and Business Analytics 360, 460 may not both be counted. Prerequisite: Marketing 337 or 337H, and Statistics 301, 301H, 309 or 309H.

BAX 362. Auditing and Control.
Same as Accounting 362. Restricted to students in a business major. Professional practice standards and procedures of auditing: ethics, legal liability, sampling methods, control systems, control design, and control evaluation. Three lecture hours a week for one semester. Only one of the following may be counted: Accounting 358C, 362, 380K (Topic 4), Business Analytics 362. Prerequisite: Accounting 311 or 311H, and 312 or 312H, with a grade of at least C- in each.

BAX 365. Ethics of Business Analytics.
Restricted to students in a business major. Analyze the ethical questions and implications of applying data science to business problems.
Examine ethical, policy, and legal terminology used to conceptualize challenges. Explore technical approaches to characterize ethical problems, and historical cases and recent controversies involving data science ethics. Discuss data as abstraction and representations, data collection, consent and privacy, bias in predictive modeling, and algorithms as actors and feedback loops. Three lecture hours a week for one semester.

BAX 366. Advanced Programming for Data Analytics.
Restricted to students in a business major. Study exploratory data analysis in-depth. Examine machine learning approaches such as classification and clustering, with a focus on practical implementation of machine learning projects. Explore tools for extraction of structured data and methods for analyzing data networks. Utilize Python for hands-on work. Three lecture hours a week for one semester. Prerequisite: Varies with the topic.

BAX 372. Topics in Business Analytics.
Utilize Python for hands-on work. Three lecture hours a week for one semester.

BAX 366P. Business Analytics Practicum.
Restricted to students in a business major. Apply skills in a major area and focus on additional business analytics skills through group projects conducted in a professional setting. Work with a private or a public enterprise. Three lecture hours a week for one semester. Prerequisite: A minimum of forty-five semester hours of college coursework.

BAX 367. Advanced Predictive Analytics.
Restricted to students in a business major. Explore problem formulation, data understanding and preparation, and class imbalance and biases in observed and unobserved information. Examine predictive frameworks such as network and graph data analysis, unstructured data analysis, and subjects related to deep neural network architectures and their business applications. Three lecture hours a week for one semester.

BAX 368. Advanced Optimization Methods and Decision Making.
Restricted to students in a business major. Examine decision-making under uncertainty. Discuss optimization and planning in various contexts including queueing, resource allocation, pricing, inventory management, and artificial intelligence. Explore stochastic optimization, sample average approximations, simulation, and sequential decision making. Utilize Python for hands-on work. Three lecture hours a week for one semester.

BAX 372. Topics in Business Analytics.
Three lecture hours a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 1: Advanced Analytics Programming**. Restricted to students in a business major. Focuses hands-on data analysis using the Python programming language. Subjects include machine learning tasks such as classification and clustering. Only one of the following may be counted: Management Information Systems 373 (Topic: Advanced Analytics Programming), 373 (Topic 11), Business Analytics 372 (Topic 1). Additional prerequisite: Business Analytics 304, 305, or Management Information Systems 304 with a grade of at least C-.

**Topic 2: Predictive Analytics and Data Mining**. Introduces the data mining process and primary data mining techniques employed to extract intelligence from data and evaluates the strengths and weaknesses of data mining techniques applied to challenges in various business domains. Only one of the following may be counted: Business Analytics 357, 372 (Topic 2), Management Information Systems 373 (Topic 17), Marketing 372 (Topic: Predictive Analytics and Data Mining), 372 (Topic 22). Additional prerequisite: Statistics 301, 301H, 309 or 309H.

**Topic 4: User Generated Content Analytics**. Restricted to students in a business major. Designed to showcase the virtually unlimited opportunities that exist today to leverage the power of user generated content analytics. Focuses on a gamut of questions ranging from strategic to operational. Only one of the following may be counted: Management Information Systems 373 (Topic: User Generated Content Analytics), 373 (Topic 25), Business Analytics 372 (Topic 4).

**Topic 5: Financial Technology**. Restricted to business majors. Explore an overview of the most recent technological advances that are changing the financial services industry and how these technological breakthroughs offer new ways for people to save, invest, borrow, and transact. Analyze how new technologies create value in the financial industry, from reducing unit cost, increasing transparency, increasing competition, creating network effects, leveraging economies of scale, and lowering asymmetric information. Examine the competitive landscape and the market opportunities and threats for incumbents and new entrants. Only one of the following may be counted: Finance 372 (Topic: Financial Technology), 372 (Topic 5), Business Analytics 372 (Topic 5).

**Topic 6: Optimization Method in Finance**. Same as Decision Science 372 (Topic 6). Explore quantitative methods and techniques in optimization and simulation, and their use in financial decision making. Discuss theory and application in portfolio selection, options and other derivative pricing, index tracking, risk measures, volatility estimating. Examine linear, quadratic, nonlinear, and integer programming; dynamic programming; robust optimization; Monte Carlo methods and variance reduction techniques. Emphasis will be placed on problem solving with advanced computational programming languages. Only one of the following may be counted: Finance 372 (Topic: Optimization Method in Finance), 372 (Topic 6), Statistics 372 (Topic 6), Business Analytics 372 (Topic 6), Decision Science 372 (Topic 6).

**Topic 7: People Analytics**. Restricted to students in a business major. Explore the use of analytics in the creation and management of human capital. Examine the recruiting, selecting, deploying, developing and managing performance of employees. Only one of the following may be counted: Management 337 (Topic: People Analytics), 373 (Topic 7), Business Analytics 372 (Topic 7).

**Topic 8: Pricing and Channels**. Restricted to students in a business major. Explore the concepts, theory and latest thinking bearing on the key issues in pricing and channels, taking the perspective of the marketing manager. Apply concepts and theory, through extensive case analyses and multiple assignments, to the solution of pricing and channel problems in realistic business settings. Only one of the following may be counted: Marketing 372 (Topic: Pricing and Channels), 372 (Topic 14), Business Analytics (Topic 8).

**Topic 9: Data Analytics for Marketing**. Introduction to the world of making more effective marketing decisions through the use of data. Examine sources of data, methods of collecting and cleaning the data, analyzing the data, and finally presenting the data in meaningful and impactful ways. Use real-world data and applications from a variety of industries, the objective is to assist in familiarizing with the empirical and analytical tools needed to make effective marketing decisions in the age of large and plentiful datasets. Only one of the following may be counted: Marketing 372 (Topic: Data Analytics for Marketing), 372 (Topic 23), Business Analytics 372 (Topic 9).

**Topic 10: Data Driven Marketing**. Explore marketing research analytics using various types of data analytics and statistical learning models. Only one of the following may be counted: Marketing 372 (Topic: Data Driven Marketing), 372 (Topic 25), Business Analytics 372 (Topic 10).

**Topic 14: Quantitative Investment Management**. Restricted to students in a business major. Examine the economic, statistical, and computing frameworks behind quantitative approaches to evaluating and implementing investment strategies, as well as the empirical evidence on their performance in multiple asset classes. Apply the quantitative big-data approach by developing, pitching, and backtesting an original trading strategy. Only one of the following

**Topic 16: Supply Chain Analytics.** Restricted to students in a business major. Study dynamic demand forecasting models based on both data aggregation as well as hierarchical aggregation of point-of-sale predictive analytics. Explore the use of developed predictive dynamic models for operations planning and operations decision making. Only one of the following may be counted: Operations Management 337 (Topic: Supply Chain Analytics), 337 (Topic 6), Business Analytics 372 (Topic 16). Additional prerequisite: Credit or registration for Operations Management 334M, 235 or 235H.

**Topic 17: Health Care Analytics.** Restricted to students in a business major. Explore key management challenges and how data may be leveraged to guide decisions and improve operations, with the unifying theme of providing healthcare services in a manner that leads to lower cost and higher quality. Only one of the following may be counted: Management Information Systems 373 (Topic: Healthcare Analytics), 373 (Topic 26), Operations Management 337 (Topic: Healthcare Analytics), 337 (Topic 8), Business Analytics 372 (Topic 17).

**Topic 21: Time Series Forecasting.** Restricted to students in the McCombs School of Business. Examine statistical forecasting methods used in business. Discuss Box-Jenkins models; exponential smoothing models; AR/CH/GARCH models for varying volatility in financial returns; seasonal adjustment of time series; tests for nonstationarity of time series; and modeling multiple time series. Only one of the following may be counted: Statistics 372 (Topic 5), 372 (Topic 8), 372 (Topic 9), Business Analytics 372 (Topic 20), or 372 (Topic 21). Additional prerequisite: Statistics 235, 235H, 371G, 371H or Statistics and Data Sciences 358 or Economics 341K; or other course with basic knowledge about regression.

**Topic 23: Social Media Analytics.** Restricted to students in a business major. Introduction to social network analysis for business value using statistical optimization and decision theory; and foundation for analyzing online search and conversation data for market sensing, sentiments, product quality, reputation, recommendations, and brand awareness. Management Information Systems 373 (Topic 23) and Business Analytics 372 (Topic 23) may not both be counted.

**Graduate Courses**

**Professional Courses**

**BCH - Biochemistry**

**Biochemistry: BCH**

**Lower-Division Courses**

**BCH 206K. Undergraduate Research.**

Introduction to research practices; supervised individual undergraduate research in biochemistry. Six to ten laboratory hours a week for one semester. May be taken for a letter grade no more than twice. No more than six semester hours may be counted toward a degree in biochemistry. May be repeated for credit.

**BCH 115T, 215T, 315T, 415T, 515T, 615T, 715T, 815T, 915T. Special Topics in Biotechnology.**

Explore recent development and research methods in biotechnology and biomanufacturing. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary.

**BCH 219L. Introduction to Biochemical Laboratory Practices and Skills.**

Explore basic skills used by biochemists and an introduction to future career options. Examine basic biochemical concepts and laboratory, computational, and professional skills. Four laboratory hours and one lecture hour a week for one semester. Prerequisite: Biology 311D and Chemistry 302 with a grade of at least C- and credit or registration for Chemistry 204.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Chemistry and Biochemistry. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**Upper-Division Courses**

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Chemistry and Biochemistry. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**BCH 339F. Foundations of Biochemistry.**

Restricted to biochemistry majors. Metabolism of carbohydrates, lipids, amino acids, and nucleotides; structure and function of proteins. Three lecture hours a week for one semester. Only one of the following may be counted: Biochemistry 339F, 369, Biology 337 (Topic: Foundations of Biochemistry), Chemistry 339K, 369. Prerequisite: One of the following with a grade of at least C-: Chemistry 310M, 318M, 320M, 328C, or 328M.

**BCH 339J. Chemical and Synthetic Biology.**

Topics include enzymatic reaction mechanisms and how they can be manipulated using tools from both chemistry and molecular biology. Also, for students pursuing pharmaceutical and biotechnology careers. Three lecture hours a week for one semester. Only one of the following may be counted: Biochemistry 339J, Chemistry 339J, Systems and Synthetic Biology 339J. Prerequisite: Biology 344 and Biochemistry 339F with a grade of at least C-.

**BCH 339M. Structure and Function of Molecular Machines.**

Function of proteins and protein complexes as machines in the cell, including the interaction of proteins with nucleic acids, synthesis of proteins, and degradation of proteins. Three lecture hours per week for
one semester. Prerequisite: Biochemistry 339F, 370, and Biology 344 with a grade of at least C-.

**BCH 339N. Systems Biology and Bioinformatics.**

Understanding how the cell works as a system with emphasis on the methods used to gather and analyze data and develop/test models of systems level data. Three lecture hours a week for one semester. Biochemistry 339N and 364C may not both be counted. Prerequisite: Biology 344, Biochemistry 339F, Statistics and Data Sciences 320E, and Computer Science 303E with a grade of at least C; or equivalent programming experience with approval of instructor.

**BCH 147, 247, 347, 447. Topics in Biochemistry.**

Explore recent developments and research methods in biochemistry. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Biochemistry 339F with a grade of at least C; additional prerequisites vary with the topic.

**BCH 364C. Bioinformatics.**

Examine typical data, data analysis, and algorithms encountered in computational biology. Includes introductory probability and statistics, basics of programming, protein and nucleic acid sequence analysis, genome sequencing and assembly, synthetic biology, analysis of large-scale gene expression data, data clustering, biological pattern recognition, and biological networks. Three lecture hours a week for one semester. Biochemistry 339N and 364C may not both be counted. Prerequisite: Biochemistry 339F with a grade of at least B; Computer Science 303E or the equivalent; Statistics and Data Sciences 328M or 320E and 348 or 322E with a grade of at least B; and consent of the instructor.

**BCH 364D. Macromolecular Structure Determination.**

Restricted to biochemistry majors. Theory of physical methods used in biochemistry and molecular biology, with a strong emphasis on macromolecular structure determination by X-ray crystallography and cryo-electron microscopy. Includes surface plasmon resonance, isothermal titration calorimetry, and biolayer interferometry. Three lecture hours a week for one semester. Biochemistry 364D and Chemistry 364D may not both be counted. Prerequisite: Biochemistry 339F with a grade of at least B; Computer Science 303E or the equivalent; Statistics and Data Sciences 328M or 320E and 348 or 322E with a grade of at least B; and consent of the instructor.

**BCH 364E. Systems Biology.**

Restricted to biochemistry majors. Survey of current high-throughput technologies and computational methods for generating data and integrating information at all levels of biological organization. Emphasis on how hypotheses can be generated and tested with these techniques to better understand how model organisms function and evolve. Three lecture hours a week for one semester. Biochemistry 364E and Chemistry 364E may not both be counted. Prerequisite: Biochemistry 339F and 370 with a grade of at least B and consent of instructor.

**BCH 364F. Astrobiology.**

Restricted to biochemistry majors. An overview of the science used in the search for extraterrestrial life, life origins, earth history, evolution, metabolism of extremophiles, biochemistry, and astronomy. Three lecture hours a week for one semester. Prerequisite: Biochemistry 339F with a grade of at least B.

**BCH 365D. Structure and Function of Proteins and Nucleic Acids.**

Restricted to biochemistry majors. Exploration of the structures and functions of proteins and nucleic acids, utilizing quantitative methods to evaluate the roles of structural features in function, and developing new ways of thinking about the dynamics of macromolecules. Three lecture hours a week for one semester. Biochemistry 365D and Chemistry 365D may not both be counted. Prerequisite: Biochemistry 339F and 370 with a grade of at least B.

**BCH 168C, 268C, 368C, 468C. Topics in Biochemistry.**

Supervised study of selected topics in Biochemistry by individual arrangement with the instructor. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Biochemistry 339F with a grade of at least B and consent of instructor.

**BCH 368R. Supervised Capstone Research.**

Perform supervised independent research and write a capstone thesis on a selected subject in Biochemistry by individual arrangement with the instructor. Three lecture hours a week for one semester. Prerequisite: Biochemistry 370 with a grade of at least C, concurrent registration in Biochemistry 175C, consent of instructor, and consent of the capstone thesis advisor.

**BCH 368W. Supervised Literature Review.**

Perform a supervised literature review and write a capstone thesis on a selected subject in Biochemistry by individual arrangement with the instructor. Three lecture hours a week for one semester. Prerequisite: Biochemistry 370 with a grade of at least C, concurrent registration in Biochemistry 175C, consent of instructor, and consent of the capstone thesis advisor.

**BCH 369. Fundamentals of Biochemistry.**

The basics of protein structure and function, carbon and nitrogen metabolism, and molecular biology of macromolecules. Three lecture hours a week for one semester. Only one of the following may be counted: Biochemistry 339F, 369, Biology 337 (Topic: Foundations of Biochemistry), Chemistry 339K, 369. May not be counted toward a degree in biochemistry. Prerequisite: One of the following with a grade of at least C: Chemistry 310M, 318M, 328C, 320M, or 328M.

**BCH 369K. Techniques of Research.**

Advanced laboratory practice and introduction to research. One lecture hour and six laboratory hours a week for one semester. May be taken for a letter grade no more than twice. No more than six semester hours may be counted toward a degree in biochemistry. May be repeated for credit. Prerequisite: Six semester hours of upper-division coursework in biochemistry or chemistry, or five semester hours of coursework in organic chemistry, or consent of the undergraduate faculty adviser in biochemistry.

**BCH 369L. Biochemistry Laboratory.**

An introduction to modem fundamental techniques of biochemistry. Two lecture hours and seven laboratory hours a week for one semester. Biochemistry 369L and Chemistry 369L may not both be counted. Prerequisite: Biochemistry 339F with a grade of at least C-.

**BCH 369T. Biotechnology Laboratory.**

Advanced techniques in biotechnology. Nine laboratory hours a week for one semester. Biochemistry 369T and Chemistry 369T may not both be counted. Prerequisite: Consent of instructor.

**BCH 370. Physical Methods of Biochemistry.**

Theory of electrophoresis, ultracentrifugation, spectroscopy, electron microscopy, and diffraction as applied to biological macromolecules. Three lecture hours a week for one semester. Biochemistry 370 and Chemistry 370 may not both be counted. Prerequisite: Biochemistry 339F with a grade of at least C-.
BCH 175C. Biochemistry Capstone Seminar.
Receive guidance during capstone experience. Document and reflect on the experience, present capstone work in a professional venue, and discuss plans for transitioning to post-graduation careers. The equivalent of one lecture hour for one semester. Prerequisite: Concurrent registration in Biochemistry 368R or 368W.

BCH 379H, 679H. Biochemistry Honors Tutorial Course.
Laboratory research project in a specific field of biochemistry under the supervision of one or more faculty members. Conference course. May be repeated once for credit. Must be taken in addition to the required hours for a degree in biochemistry. Students must enroll no later than the first semester of the year of graduation. May be repeated for credit. Prerequisite: Consent of the research supervisor and the departmental honors adviser.

Graduate Courses

BCH 080M. Dual MD/PhD Program with UT Medical Branch.
Preclinical medical study at the University of Texas Medical Branch at Galveston. May not be taken concurrently with another course at the University of Texas at Austin. Prerequisite: Graduate standing and admission to the MD/PhD dual degree program in biochemistry.

BCH 387D. Physical Methods in Biochemistry and Molecular Biology.
Theory of physical methods used in biochemistry and molecular biology. Three lecture hours a week for one semester. Prerequisite: Graduate standing, an undergraduate course in physical chemistry, and an undergraduate course in biochemistry.

BCH 190C, 290C. Topics in Biochemistry.
Discuss current topics in biochemistry. For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

Explores the structures and functions of proteins and nucleic acids. Emphasis is placed on qualitative methods used to evaluate the roles of structural features in function and in developing new ways of thinking about the dynamics of macromolecules. Three lecture hours a week for one semester. Biochemistry 394 and Chemistry 394 may not both be counted. Prerequisite: Graduate standing.

BCH 394P. Bioinformatics.
Examine typical data, data analysis, and algorithms encountered in computational biology. Includes introductory probability and statistics, basics of programming, protein and nucleic acid sequence analysis, genome sequencing and assembly, synthetic biology, analysis of large-scale gene expression data, data clustering, biological pattern recognition, and biological networks. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

BCH 395F. Advanced Biochemistry.
Same as Biology 395I and Molecular Biology 395I. Explore advanced biochemistry concepts and the scientific process. Consider the structure and function of proteins, carbohydrates, lipids and nucleic acids, and discuss enzyme mechanisms and kinetics. Three lecture hours a week for one semester. Only one of the following may be counted: Biochemistry 395F, 395G, Biology 395I, 395G, Molecular Biology 395I, 395G. Prerequisite: Graduate standing; a one-year undergraduate sequence in biochemistry is strongly recommended.

BCH 395G. Structure and Function of Proteins and Membranes.
Same as Biology 395G and Molecular Biology 395G. Explore advanced biochemistry concepts and the scientific process. Examine a detailed consideration of the structure and function of proteins, carbohydrates, lipids and nucleic acids, as well as discussion of enzyme mechanisms and kinetics. Three lecture hours a week for one semester. Only one of the following may be counted: Biochemistry 395F, 395G, Biology 395I, 395G, Molecular Biology 395I, 395G. Prerequisite: Graduate standing; a one-year undergraduate sequence in biochemistry is strongly recommended.

BCH 395J. Genes, Genomes, and Gene Expression.
Same as Biology 395J and Molecular Biology 395J. Detailed consideration of prokaryotic and eukaryotic mechanisms of DNA replication and transcription; posttranscriptional processing of transcription products; and mechanism and regulation of the translation of messenger RNAs. Three lecture hours a week for one semester. Only one of the following may be counted: Biochemistry 395J, Biology 395J, Molecular Biology 395J. Prerequisite: Graduate standing; and Biology 395F and 395G, or Chemistry 395F and 395G, or Molecular Biology 395F and 395G, or consent of instructor.

BCH 396S. Synthetic Biology.
Survey of current high-throughput technologies and computational methods for generating data and integrating information at all levels of biological organization. Emphasis on how hypotheses are generated and tested with these techniques to better understand how model organisms function and evolve. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

For each semester hour of credit earned, the equivalent of one-and-one-half laboratory hours a week for one semester. May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Graduate standing and consent of graduate adviser.

BCH 698. Thesis.
The equivalent of three lecture hours a week for two semesters. Offered on the credit/no credit basis only. Prerequisite: For 698A, graduate standing in biochemistry and consent of the graduate adviser; for 698B, Biochemistry 698A.

BCH 398T. Professional Development for Graduate Students in Biochemistry.
Restricted to graduate students in biochemistry. Provides professional development skills to graduate students in biochemistry. Subjects include excellence in teaching, scientific communication, grantsmanship, ethics, and career planning. Three lecture hours a week for one semester. Biochemistry 398T and Chemistry 398T may not both be counted. Offered on the credit/no credit basis only. Prerequisite: Graduate standing in biochemistry.

May be repeated for credit. Offered on the credit/no credit basis only. Prerequisite: Admission to candidacy for the doctoral degree.

Professional Courses
BDP - Bridging Disciplines

Bridging Disciplines: BDP

Lower-Division Courses

BDP 101, 201, 301. Forum Seminar Series.

Restricted to freshmen and sophomores, and to students in the Bridging Disciplines Programs. For 101, two lecture hours a week for eight weeks; for 201, two lecture hours a week for one semester; for 301, three lecture hours a week for one semester. May be repeated for credit when the topics vary. Offered on the letter-grade basis only. Prerequisite: Varies with the topic.

**Topic 1: Children and Society.** Discuss various contemporary issues in children and society, with an emphasis on interdisciplinary perspectives and critical discourse. Bridging Disciplines 101 (Topic: Children and Society) and 101 (Topic 1) may not both be counted. Offered on the letter-grade basis only.

**Topic 2: Environmental Change and Sustainability.** Discuss various contemporary issues in environmental change and sustainability, with an emphasis on interdisciplinary perspectives and critical discourse. Bridging Disciplines 101 (Topic: Envir Change & Sustainability) and 101 (Topic 2) may not both be counted. Offered on the letter-grade basis only.

**Topic 3: Exploring Digital Arts and Media.** Discuss various contemporary issues in digital arts and media, with an emphasis on interdisciplinary perspectives and critical discourse. Bridging Disciplines 101 (Topic: Exploring Digital Art & Media) and 101 (Topic 3) may not both be counted. Offered on the letter-grade basis only.

**Topic 4: Health Inequality in Childhood and Adolescence.** Discuss various contemporary issues in health inequality in childhood and adolescence, with an emphasis on interdisciplinary perspectives and critical discourse. Bridging Disciplines 101 (Topic: Hlth Inequality Childhd/Adol) and 101 (Topic 4) may not both be counted. Offered on the letter-grade basis only.

**Topic 5: Human Rights and Social Justice.** Discuss various contemporary issues in human rights and social justice, with an emphasis on interdisciplinary perspectives and critical discourse. Bridging Disciplines 101 (Topic: Human Rights & Social Justice) and 101 (Topic 5) may not both be counted. Offered on the letter-grade basis only.

**Topic 6: Introduction to Conflict Resolution and Peace Studies.** Discuss various contemporary issues in conflict resolution and peace studies, with an emphasis on interdisciplinary perspectives and critical discourse. Bridging Disciplines 101 (Topic: Intro Confl Res/ Peace Studies) and 101 (Topic 6) may not both be counted. Offered on the letter-grade basis only.

**Topic 7: Introduction to the Non-Profit World.** Discuss various contemporary issues in non-profits and social entrepreneurship, with an emphasis on interdisciplinary perspectives and critical discourse. Bridging Disciplines 101 (Topic: Intro to the Nonprofit World) and 101 (Topic 7) may not both be counted. Offered on the letter-grade basis only.

**Topic 8: Introduction to Museum Studies.** Discuss various contemporary issues in museum studies, with an emphasis on interdisciplinary perspectives and critical discourse. Bridging Disciplines 101 (Topic: Intro to Museum Studies) and 101 (Topic 8) may not both be counted. Offered on the letter-grade basis only.

**Topic 9: Introduction to Public Policy.** Discuss various contemporary issues in public policy, with an emphasis on interdisciplinary perspectives and critical discourse. Bridging Disciplines 101 (Topic: Intro to Public Policy) and 101 (Topic 9) may not both be counted. Offered on the letter-grade basis only.

**Topic 10: Introduction to Smart Cities.** Discuss various contemporary issues relevant to smart cities, with an emphasis on interdisciplinary perspectives and critical discourse. Bridging Disciplines 101 (Topic: Intro to Smart Cities) and 101 (Topic 10) may not both be counted. Offered on the letter-grade basis only.

**Topic 11: Patients, Practitioners, and Cultures of Care.** Discuss various contemporary issues relevant to patients, practitioners, and cultures of care, with an emphasis on interdisciplinary perspectives and critical discourse. Bridging Disciplines 101 (Topic: Patients/Prac/Cul of Care) and 101 (Topic 11) may not both be counted. Offered on the letter-grade basis only.

**Topic 12: Professional Ethics in Law, Business, and Medicine.** Discuss various contemporary issues in professional ethics, with an emphasis on interdisciplinary perspectives and critical discourse. Bridging Disciplines 101 (Topic: Prof Ethics: Law/Bush/Med) and 101 (Topic 12) may not both be counted. Offered on the letter-grade basis only.

**Topic 13: Social Inequality, Health, and Policy.** Discuss various contemporary issues in social inequality, health, and policy, with an emphasis on interdisciplinary perspectives and critical discourse. Bridging Disciplines 101 (Topic: Social Inequal, Hlth, & Policy) and 101 (Topic 13) may not both be counted. Offered on the letter-grade basis only.

**Topic 14: Narrative Leadership.** Discuss various contemporary issues in leadership and ethics, with an emphasis on interdisciplinary perspectives and critical discourse. Bridging Disciplines 101 (Topic: Narrative Leadership) and 101 (Topic 14) may not both be counted. Offered on the letter-grade basis only.

**BDP 306. Fundamentals of Ethical Leadership.**

Restricted to freshmen and sophomores, and to students in the Bridging Disciplines Programs. Discussion of various contemporary issues related to ethical leadership, with an emphasis on interdisciplinary perspectives and critical discourse. Three lecture hours a week for one semester. Offered on the letter-grade basis only.

**BDP 306C. Principles of Business.**

Restricted to nonbusiness students. Interdisciplinary examination of how businesses function in the Western world. Discusses the development of the corporation in the United States, ethical issues, and the primary areas of business. Three lecture hours a week for one semester. Bridging Disciplines 301 (Topic: Principles of Business) and 306C may not both be counted. Offered on the letter-grade basis only.

**BDP 111, 211, 311. Connecting Internship Experience.**

Restricted to students in the Bridging Disciplines Programs. Supervised internship experience related to the interdisciplinary themes of a Bridging Disciplines Program. Internships may be paid or unpaid, and may include work with nonprofit agencies, government offices, or private corporations. For 111, three hours of fieldwork a week for one semester; for 211, six hours of fieldwork a week for one semester; for 311, ten hours of fieldwork a week for one semester. With consent of the Bridging Disciplines research coordinator, may be repeated once for credit. Prerequisite: Consent of the Bridging Disciplines research coordinator.

**BDP 119, 219, 319. Specialized Forum Seminar Series.**

For 119, two lecture hours a week for eight weeks or one lecture hour a week for one semester; for 219, two lecture hours a week for one semester; for 319, three lecture hours a week for one semester; additional hours may be required for some topics. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 1: Human Rights: Theories and Practice.** Discuss various contemporary issues in human rights, with an emphasis on multidisciplinary perspectives and critical discourse. Bridging
Disciplines 319 (Topic: Human Rights: Theories/Prac) and 319 (Topic 1) may not both be counted.

**Topic 2: Museum Studies.** Discuss various contemporary issues in museum studies, with an emphasis on multidisciplinary perspectives and critical discourse. Bridging Disciplines 319 (Topic: Museum Studies) and 319 (Topic 2) may not both be counted.

**Topic 3: Smart Cities.** Discuss various contemporary issues relevant to smart cities, with an emphasis on multidisciplinary perspectives and critical discourse. Bridging Disciplines 319 (Topic: Smart Cities) and 319 (Topic 3) may not both be counted.

**BDP 319D. Introduction to Digital Media Production.**

Introduction to digital media production, including the fundamentals of software programs used for digital design, web production, animation, and other functions. Three lecture hours a week for one semester. Bridging Disciplines 319 (Topic: Introduction to Digital Media Production) and 319D may not both be counted.

**Upper-Division Courses**

**BDP 120K, 220K, 320K. Connecting Research Experience.**

Restricted to students in the Bridging Disciplines Programs. For each semester hour of credit earned, the equivalent of one lecture hour a week for one semester. May be repeated for credit.

**BDP 320L. Connecting Research Experience.**

Restricted to students in the Bridging Disciplines Programs. Supervised research with a faculty member, related to the interdisciplinary themes of a Bridging Disciplines Program. Research may consist of an individual project and must meet the criteria for the independent inquiry flag. The equivalent of three lecture hours a week for one semester. May be repeated for credit.

**BDP 320M. Connecting Research Experience: Service Learning.**

Restricted to students in the Bridging Disciplines Programs. Supervised research with a faculty member, related to the interdisciplinary themes of a Bridging Disciplines Program and including an academic service-learning component. Research may consist of an individual project involving service to the community or assisting a faculty research project with a community service component. Individual instruction. May be repeated for credit. Prerequisite: Upper-division standing and consent of the Bridging Disciplines Programs.

**BDP 321M. Connecting Internship Experience: Service Learning.**

Restricted to students in the Bridging Disciplines Programs. Supervised internship experience related to the interdisciplinary themes of a Bridging Disciplines Program and including an academic service-learning component. Internships must be unpaid and may include work with nonprofit organizations or other organized community service entities. Ten hours of fieldwork a week for one semester. With consent of the Bridging Disciplines Research Programs, may be repeated once for credit. Prerequisite: Upper-division standing and consent of the Bridging Disciplines research coordinator.

**BDP 322K. Team-Based Research Experience.**

Collaborative or team-based research or creative project, under the supervision of a faculty member. Topics are related to the interdisciplinary themes of the Bridging Disciplines Programs. Individual instruction. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing and consent of the Bridging Disciplines Programs; additional prerequisites may vary with the topic.

**BDP 125K, 225K, 325K. Connecting Internship Experience.**

Restricted to students in the Bridging Disciplines Programs. Supervised internship experience related to the interdisciplinary themes of a Bridging Disciplines Program. Requires completion of a minimum of fifty hours of work for an internship site per credit hour earned. May be repeated for credit. Prerequisite: Consent of the Bridging Disciplines Programs.

**BDP 126, 226, 326. Advanced Forum Seminar Series.**

Discussion of contemporary issues related to the topics of a Bridging Disciplines Program, with an emphasis on interdisciplinary perspectives and critical discourse. For 126, two lecture hours a week for eight weeks or one lecture hour a week for one semester; for 226, two lecture hours a week for one semester; for 326, three lecture hours a week for one semester; additional hours may be required for some topics. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing; additional prerequisites may vary with the topic.

**BDP 129, 229, 329. Specialized Advanced Forum Seminar Series.**

Discussion of contemporary issues related to the topics of a Bridging Disciplines Program, with an emphasis on interdisciplinary perspectives, research, and critical discourse. For 129, two lecture hours a week for eight weeks or one lecture hour a week for one semester; for 229, two lecture hours a week for one semester; for 329, three lecture hours a week for one semester; additional hours may be required for some topics. May be repeated for credit when the topics vary. Prerequisite: Upper-division standing; additional prerequisites may vary with the topic.

**Topic 1: Race and Medicine in American Life.** Discuss contemporary issues related to race and medicine in American life, with an emphasis on interdisciplinary perspectives, research, and critical discourse. Bridging Disciplines 329 (Topic: Race/Medicine in Amer Life) and 329 (Topic 1) may not both be counted.

**Graduate Courses**

**Professional Courses**

**BEN - Bengali**

**Bengali: BEN**

**Lower-Division Courses**

**BEN 506. First-Year Bengali I.**

Not open to native speakers of Bengali. Five class hours a week for one semester.

**BEN 507. First-Year Bengali II.**

Not open to native speakers of Bengali. Continuation of Bengali 506. Five class hours a week for one semester. Prerequisite: Bengali 506 with a grade of at least C.

**BEN 312K. Second-Year Bengali I.**

Not open to native speakers of Bengali. Three class hours a week for one semester. Prerequisite: Bengali 507 with a grade of at least C.

**BEN 312L. Second-Year Bengali II.**

Not open to native speakers of Bengali. Continuation of Bengali 312K. Three class hours a week for one semester. Prerequisite: Bengali 312K with a grade of at least C.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser...
in the Department of Asian Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**Upper-Division Courses**

**BEN 320K. Advanced Bengali I.**
Not open to native speakers of Bengali. Three class hours a week for one semester. Prerequisite: Bengali 312L with a grade of at least C.

**BEN 320L. Advanced Bengali II.**
Not open to native speakers of Bengali. Continuation of Bengali 320K. Three class hours a week for one semester. Prerequisite: Bengali 320K with a grade of at least C.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Department of Asian Studies. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**BEN 360. Conference Course in Bengali Language and Literature.**
Supervised individual study of selected problems in Bengali language and literature. Conference course. May be repeated for credit. Prerequisite: Upper-division standing and written consent of instructor on form obtained from the undergraduate adviser.

**Graduate Courses**

**BEN 381. Conference Course in Bengali Language and Culture.**
Supervised individual study in Bengali language or culture. The equivalent of 3 lecture hours a week for one semester. May be repeated for credit. Prerequisite: Graduate standing and written consent of instructor on form obtained from the graduate coordinator.

**Professional Courses**

**BGS - Business, Government, and Society**

**Business, Government, and Society: BGS**

**Lower-Division Courses**

**BGS 325. Social and Ethical Responsibility of Business.**
Restricted to students in a business major. Examines ethical aspects of the decision-making processes of managers and employees. Also explores responsibility of firms to society and other constituencies. Three lecture hours a week for one semester.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University's Study Abroad Office, or the school's BBA Exchange Programs. Credit is recorded as assigned by the study abroad adviser in the Department of Business, Government, and Society. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. May be repeated for credit when the topics vary.

**BGS 170, 270, 370. Topics in Business, Government, and Society.**
For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

- **Topic 1: Energy Technology and Policy.** Designed to give students an understanding of the broad context of energy production and consumption in the U.S. and the world. Discusses past energy trends and fundamentals of energy and power, including fossil fuels and renewable energy sources and technologies. Explores different energy resources, environmental impacts, and societal uses of energy, and concludes with an evaluation of future energy technology options. Additional prerequisite: Upper-division standing.
- **Topic 2: Ethics, CSR, and Service Learning.** Examines reasons that seemingly good people sometimes make unethical choices. Explores real-life ethical dilemmas, our decision-making processes, and ideal behavior for the future. An Academic Service Learning course, partnering with corporations (like Google, Inc.), the City of Austin, local non-profits, and other local universities to engage in service projects. For each semester hour of credit earned, one lecture hour a week for one semester. Business, Government, and Society 370.2 and 370 (Topic: Ethics, CSR, & Service Learning) may not both be counted. Additional prerequisite: Upper-division standing.
- **Topic 3: Business Ethics and Corporate Social Responsibility.** Focuses on the development of ethical leadership and responsibility. Learn about basic concepts relevant to business ethics, develop ethical principles in a variety of business domains, and practice discussing ethical issues with people from a variety of viewpoints and backgrounds. Business, Government, and Society 370 (Topic: Busn Ethics & Socl Responsbilty) and 370 (Topic 3) may not both be counted.
- **Topic 4: International Business and Politics.** Business, Government, and Society 370 (Topic: Internatl Busn/Politics) and 370 (Topic 4) may not both be counted.
- **Topic 5: Global Business Sustainability.** Restricted to students pursuing the Leadership in Global Sustainability minor. Explore the role of sustainability in the corporate sector; how businesses partner with others for sustainability goals; how to value sustainable business practices; and reporting on corporate sustainability. Only one of the following may be counted: Accounting 378 (Topic: Global Busn Sustainability), 378 (Topic 7), Finance 337 (Topic 3), Business, Government, and Society 370 (Topic 5).
- **Topic 6: Business and Society.** Explore the relationship between business firms and society. Only one of the following may be counted: Business, Government, Society 370 (Topic: Business and Society), 370 (Topic 6), Government 355M (Topic: Business and Society), 360N (Topic: Business and Society), 3600.
- **Topic 10: Nontechnical Exploration and Production.** Restricted enrollment; contact the Energy Management and Innovation Center for permission to register. Introduction to the oil and gas exploration and production business for nontechnical personnel. Subjects include prospect generation and leasing, drilling, production, processing, transportation, and closing out a project. Business Government and Society 370 (Topic: Oil and Gas Exploration for Nontechnical Personnel) and 170 (Topic 10), 270 (Topic 10), 370 (Topic 10) may not both be counted. Additional prerequisite: Sophomore standing.

**BGS 170S, 270S, 370S. Social and Cultural Entrepreneurship.**
Restricted to students participating in a May Term Education Abroad program. Create a business to address social problems, using social and creative means to design market-based approaches to aid a specific
cultural group. For each semester hour of credit earned, the equivalent of one lecture hour for one week for one semester. Business, Government, and Society 370 (Topic: Soci/Cultrl Entrprnrshp) and 370S may not both be counted. Offered on the letter-grade basis only. Prerequisite: Consent of instructor.

**BGS 371. Corporate Political Strategy.**

A study of how the political and regulatory environment enables and constrains business activity and how individual firms and groups of firms can ethically yet effectively lobby legislatures, negotiate with regulators, create industry associations, make campaign contributions, and engage in other political activity to gain competitive advantage. Three lecture hours a week for one semester. Only one of the following may be counted: Business, Government, and Society 371, Marketing 372 (Topic: Corporate Political Strategy), 172, 272, 372 (Topic 15). Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

**BGS 372. Strategic Corporate Social Responsibility.**

A study of how corporations can engage in corporate social responsibility and sustainable activities to improve the world with strategic considerations kept in mind. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

**BGS 373. Strategic Corporate Communication.**

Studies corporate efforts to inform, motivate, and persuade various constituencies, including investors, employees, communities, and regulators. Subjects include public relations, investor relations, and government relations. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

**BGS 374. Global Political Economy.**

Exploration of how firms can successfully integrate their traditional strategies with non-market strategy in the global arena, including how to successfully engage with international non-market actors such as foreign governments, regulators, political parties, NGOs, and the media. Examines the necessary tools to craft successful, integrated firm strategies in diverse institutional and political environments. Three lecture hours a week for one semester. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

**BGS 175, 275, 375. Business and Policy in the Age of Inequality.**

Examine inequality and its implications as managers and as citizens, and explore how to deal proactively with the consequences of this pervasive phenomenon. For each semester hour of credit earned, one lecture hour a week for one semester. Business Government and Society 370 (Topic: Bus/Pol Age Of Inequality) and 375 may not both be counted. Offered on the letter-grade basis only. Prerequisite: Upper-division standing.

**Graduate Courses**

**BGS 180, 380. Topics in Business, Government, and Society.**

For each semester hour of credit earned, one lecture hour a week for one semester. May be repeated for credit when the topics vary. Prerequisite: Graduate standing; additional prerequisites vary with the topic.

**BGS 180C, 280C, 380C. Strategic Corporate Communication.**

Studies corporate efforts to inform, motivate, and persuade various constituencies, including investors, employees, communities, and regulators. Includes public relations, investor relations, and government relations. For each semester hour of credit earned, one lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

**BGS 180D, 280D, 380D. Strategic Corporate Social Responsibility.**

Overview of corporate social responsibility (CSR) given the constraints of the business environment, with an emphasis on the conditions under which CSR can provide strategic value to firms through class discussions and group projects. For each semester hour of credit earned, one lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

**BGS 180E, 280E, 380E. Global Political Economy.**

Exploration of how firms can successfully integrate their traditional strategies with non-market strategy in the global arena, including how to successfully engage with international non-market actors such as foreign governments, regulators, political parties, NGOs, and the media. Examines the necessary tools to craft successful, integrated firm strategies in diverse institutional and political environments. For each semester hour of credit earned, one lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

**BGS 180G, 280G, 380G. Business and Policy in the Age of Inequality.**

Examine inequality and its implications as managers and as citizens, and explore how to deal proactively with the consequences of this pervasive phenomenon. For each semester hour of credit earned, one lecture hour a week for one semester. Business Government and Society 380 (Topic: Bus/Pol Age Of Inequality) and 180G, 280G, 380G may not both be counted. Offered on the letter-grade basis only. Prerequisite: Graduate standing.

**BGS 281, 381. Law, Ethics, and Corporate Social Responsibility.**

Examines corporate responsibility issues and the tools necessary to manage relationships with external stakeholders such as governments, nongovernmental organizations, and communities in legal, political, and cultural contexts. Two or three lecture hours a week for one semester. Business, Government, and Society 381 and Legal Environment of Business 380 (Topic 36: Law, Ethics, and Corporate Social Responsibility) may not both be counted. Prerequisite: Graduate standing.

**BGS 381E. Law, Ethics and Corporate Social Responsibility: Energy.**

Examines the external relations challenges facing the energy industry. Focuses on the theory and practice of corporate social responsibility and government relations for the oil, natural gas, and electricity industries in the United States and the larger world. Explores the resource curse and its implications for oil and gas companies doing business overseas, the management of environmental health and safety risk in both the developed and developing world, energy facility siting, and NIMBY challenges in the United States. Some familiarity with energy law is
BGS 381M, 281M, 381M. Social and Ethical Responsibility of Business.
Restricted to students in the Master of Business Administration program. Examines ethical aspects of the managerial decision-making process and the application of fundamental ethical principles to business, legal, and social problems. Includes ethical implications of financial markets, race and gender discrimination, employee privacy, multinational business, and health, safety, environmental, and consumer issues. For each semester hour of credit earned, one lecture hour a week for one semester. Business, Government, and Society 181M, 281M, 381M and Legal Environment of Business 380 (Topic 1) may not both be counted. Prerequisite: Graduate standing.

BGS 381N. Social and Ethical Responsibilities of Accountants.
Restricted to students admitted to the Master in Professional Accounting program. Examines ethical aspects of the managerial decision-making process and the application of fundamental ethical principles to business, legal, and social problems. Includes ethical implications of financial markets, race and gender discrimination, employee privacy, multinational business, and health, safety, environmental, and consumer issues. Three lecture hours a week for one semester. Business, Government, and Society 381L and 381N may not both be counted. Prerequisite: Graduate standing.

BGS 182, 282, 382. Corporate Political Strategy.
A study of how the political and regulatory environment enables and constrains business activity and how individual firms and groups of firms can ethically, yet effectively, lobby legislatures, negotiate with regulators, create industry associations, make campaign contributions, and engage in other political activity to gain competitive advantage. For each semester hour of credit earned, one lecture hour a week for one semester. Offered on the letter-grade basis only. Prerequisite: Graduate standing and consent of instructor.

BGS 382D. Economics of Health Care.
Explores the production and provision of health care in the United States. Includes the study of basic economic concepts, differences between health care and other goods, impact of regulatory policies, and the importance of health for economic development. May include international and ethical aspects of health care. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

BGS 382E. Energy Economics.
Studies domestic and international policy issues of energy and the environment, with a focus on market solutions to various problems and market limitations in the allocation of environmental resources. Also examines the economics of fossil fuel alternatives. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

BGS 382L. Labor Economics.
Studies the functioning of the labor market and examines determinants of wage and employment levels in perfect and imperfect labor markets. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

BGS 382R. Economic Analysis of Law.
Uses economic analysis to study law and its impact on business activity. Includes the economics of contract law, tort law, property law, securities regulation, antitrust law, intellectual property, and environmental law. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

BGS 382S. Economics of Sustainable Business.
Examines the policy and practical implications of sustainability. Topics covered may include property rights, air and water pollution, solid-waste disposal, hazardous substances, and wilderness preservation and the protection of endangered species. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

Moral theory and its application to business issues in diverse cultures. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

BGS 384. Global Macroeconomic Policy.
Practical study of global macroeconomic policy, including monetary policy, financial market regulation, and economic growth and development policies. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

Studies the relationship between business and government throughout the policy process and examines the constitutional constraints that affect businesses across different political and legal systems. Explores ethical issues of the role of business in the policy process. Three lecture hours a week for one semester. Prerequisite: Graduate standing and admission to the Master of Business Administration program.

Restricted to students in the executive Master of Business Administration program. Studies the relationship between business and government throughout the formation and implementation of public policy; includes examination from economic, political, legal, and behavioral perspectives. Focuses primarily on the political, regulatory, and legal system of the United States and addresses issues covered further in the Washington Campus event, a week-long seminar with policy makers in Washington DC that precedes the course. The equivalent of three lecture hours a week for one semester. Prerequisite: Graduate standing.

Studies industrial organization economics using game-theory to model strategic market behavior. Examines econometric methods used to test hypotheses regarding firm conduct and market performance. Explores profit-maximizing business strategies of firms with market power and strategic interactions among firms in imperfectly competitive markets. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

BGS 287. Business Integrity.
Examines how to make ethical decisions, take ethical actions, lead an ethical life, run ethical organizations, and fulfill corporate social responsibilities. Two lecture hours a week for one semester. Prerequisite: Graduate standing.

Explores and applies existing behavioral economics findings to all areas of business, and also instructs how to run studies to learn how to "nudge" people toward or away from particular behaviors. May include property rights, air and water pollution, solid-waste disposal, hazardous substances, and wilderness preservation and the protection of endangered species. For each semester hour of credit earned, one lecture hour a week for one semester. Only one of the following may be counted: Business, Government, and Society 188, 288, 388; Marketing 382 (Topic: Behavioral
Economics); 282, 382 (Topic 27). Offered on the letter-grade basis only. Prerequisite: Graduate standing.

**BGS 389. Environmental Regulation of Business.**

Examines federal and state regulation of business activities that affect the environment and the potential liability of business for environmental damage. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

**BGS 390. Behavioral and Institutional Economics.**

Uses aspects of the social sciences, including economics, psychology, and sociology to explore the evolution of economic organizations, the need for business regulation, bubbles and speculation, and economic herd behavior. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

**BGS 390E. Business in the Global Political Environment.**

Examines global business from a political science perspective. Includes the politics of international trade and investment and the regulatory expectations of national regulators and of international organizations such as the World Trade Organization and the World Bank. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

**BGS 390F. Federal Regulatory Policy.**

Studies the federal regulatory framework in the United States, including the processes through which regulations are promulgated and the stakeholders involved. Particular emphasis on cost-benefit analysis. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

**BGS 390J. Modern Political Economy.**

Studies economic theory from Adam Smith to the modern day, with a focus on the interrelationship between economic models and political behavior. Explores the development of American capitalism; includes works from Marx, Hayek, Polanyi, and Williamson. Three lecture hours a week for one semester. Prerequisite: Graduate standing.

Individual instruction. May be repeated for credit when the topics vary. Prerequisite: Graduate standing and consent of instructor.

**Professional Courses**

**BIO - Biology**

**Biology: BIO**

**Lower-Division Courses**

**BIO 101C, 301C, 401C, 601C. Topics in Biology.**

Topics in biology that are especially relevant to current issues and problems in modern society. For each semester hour of credit earned, one lecture hour a week for one semester. Some topics require one additional discussion hour or three or four additional laboratory hours a week. May not be counted toward a degree in biology. May be repeated for credit when the topics vary. Prerequisite: Varies with the topic.

**Topic 1: The Biology of Being Human.** Introductory biology course that covers human evolution, genetics and genomics, behavior, population growth and environmental issues. May not be counted toward a degree in the College of Natural Sciences.

**BIO 301E. Problems in Modern Biology.**

An introduction to major concepts in biology, with emphasis on topics, such as genetics, that are relevant to current issues in the field. Three lecture hours and one discussion hour a week for one semester. Biology 301E and 301L may not both be counted; Biology 301E and 301M may not both be counted. May not be counted toward a degree in biology. Prerequisite: Admission to the Plan II Honors Program.

**BIO 102C, 202C, 302C, 402C. Conference Course.**

Supervised study of selected subjects in biology, by individual arrangement with the instructor. Conference course. May be repeated for credit. Prerequisite: Varies with instructor.

**BIO 302D (TCCN: BIOL 1309). Science Literacy and Numeracy: Ecology and Evolution.**

Explore science literacy and numeracy skills through methods of inquiry; dealing with quantitative data; and correcting common misconceptions regarding rational and quantitative thought. Examine these skills in the context of news events that include reference to some or all of the following: Mendelian genetics; microevolution; macroevolution; population ecology; community ecology; ecosystem ecology. Three lecture hours and one discussion hour a week for one semester.

**BIO 302E (TCCN: BIOL 1308). Science Literacy and Numeracy: Genetics and Genomics.**

Explore science literacy and numeracy skills through methods of inquiry; dealing with quantitative data and correcting common misconceptions regarding rational and quantitative thought. Examine these skills in the context of news events that include reference to some or all of the following: human genetics; analysis and manipulation of DNA; genetic testing; assisted reproductive technology; human ancestry; personalized medicine; forensic genetics. Three lecture hours and one discussion hour a week per semester

**BIO 302F. Science Literacy and Numeracy: Human Health and Disease.**

Explore science literacy and numeracy skills through methods of inquiry; dealing with quantitative data and correcting common misconceptions regarding rational and quantitative thought. Examine these skills in the context of news events that include reference to some or all of the following: metabolic diseases, infectious diseases, genetic diseases - causes, prevention, and treatments. Three lecture hours and one discussion hour a week for one semester.

**BIO 302G. Science Literacy and Numeracy: Biotechnology and the Future.**

Explore science literacy and numeracy skills through methods of inquiry; dealing with quantitative data and correcting common misconceptions regarding rational and quantitative thought. Examine these skills in the context of news events that include reference to some or all of the following: climate change; genetically modified organisms; biomedal technology. Three lecture hours and one discussion hour a week for one semester.

**BIO 206L. Introductory Laboratory Experiments in Biology.**

The organizing principles of biology (such as molecular and cellular functions, reproduction, development, homeostatic mechanisms, and organismal physiology and behavior) are used within a comparative and evolutionary framework to train students in modern laboratory techniques, bioinformatics, experimental design, and interpretation of results. One lecture hour and four laboratory hours a week for one semester. Biology 106M and 206L may not both be counted. Prerequisite: Credit or registration for one of the following: Biology 311C, 311D, 315H, or 325H

**BIO 106M. Introduction to Lab Experiments in Biology.**

Explore the organizing principles of biology (such as, molecular and cellular functions, reproduction, development, homeostatic mechanisms,
and organismal physiology and behavior) and how they are used within a comparative and evolutionary framework in modern laboratory techniques, bioinformatics, experimental design, and interpretation of results. One lecture hour and three laboratory hours a week for one semester. Biology 106M and 206L may not both be counted.

**BIO 106N. Introduction to Lab Experiments in Biology II.**
One lecture hour and three laboratory hours a week for one semester. Biology 206L and 106N may not both be counted.

**BIO 208L. Field Biology.**
Field projects, laboratory exercises, field trips, and computer simulation exercises to acquaint students with the principles and applications of ecology and some of the experimental and descriptive methods of ecological investigations. One lecture hour and four laboratory hours a week for one semester. Prerequisite: Credit or registration for Biology 311D.

**BIO 311C (TCCN: BIOL 1306). Introductory Biology I.**
Introduction to biological energy transformation, cell structure and physiology, and gene expression. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Biology 301L, 211, 311C. Biology 311C and 212 may not both be counted. Prerequisite: Credit or registration for Chemistry 301, 301C, or 301H.

**BIO 311D (TCCN: BIOL 1307). Introductory Biology II.**
Introduction to mechanisms of inheritance, evolution, physiology, and species interactions. Three lecture hours and one discussion hour a week for one semester. Biology 301L and 311D may not both be counted. Biology 301M and 311D may not both be counted. Prerequisite: Biology 311C with a grade of at least C- and credit or registration for Biology 206L.

**BIO 315H. Advanced Introduction to Genetics: Honors.**
Basic principles of genetics and cell biology. Emphasis on gene structure and regulation; transmission of heritable traits; structure and function of cells; bacterial and viral genetics; and recombinant DNA technology. Three lecture hours and one discussion hour a week for one semester. Prerequisite: A score of 4 or 5 on the College Board Advanced Placement Examination in Biology and credit or registration for Chemistry 301, 301C, or 301H.

This course is used to record credit the student earns while enrolled at another institution in a program administered by the University’s Study Abroad Office. Credit is recorded as assigned by the study abroad adviser in the Biology Instructional Office. University credit is awarded for work in an exchange program; it may be counted as coursework taken in residence. Transfer credit is awarded for work in an affiliated studies program. May be repeated for credit when the topics vary.

**Upper-Division Courses**

**BIO 320. Cell Biology.**
Principles of eukaryotic cell structure and function; macromolecules, membranes, organelles, cytoskeleton, signaling, cell division, differentiation, motility, and experimental methodologies. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

**BIO 320L. Cell Biology Laboratory.**
Explores the complex structures and functions of cells through direct observation and experimentation. Subjects may include regulation of gene transcription and translation, protein sorting, organelles and membrane trafficking, cytoskeletal dynamics, and cell division. Use a combination of modern molecular biology, biochemistry, and microscopy techniques, with a strong emphasis placed on hypothesis-driven approaches, proper experimental design, and clear scientific writing and presentation. One lecture hour and five laboratory hours a week for one semester. Prerequisite: The following with a grade of at least C-: Biology 325 or 325H, and Biology 206L, 208L, 226L, or Environmental Sciences 311.

**BIO 321G. Principles of Computational Biology.**
Introduces computational methods for the analysis of nucleic acid and protein sequences, with applications towards biological problems. Performance assessment will be based on experiential learning methods. Three lecture hours and two computer laboratory hours a week for one semester. Prerequisite: The following with a grade of at least C-: Biology 325 or 325H; Statistics and Data Sciences 320E or 328M; and Mathematics 408C, 408S, or 408R.

**BIO 321L. Aquatic Entomology.**
The taxonomy of aquatic insects; the use of aquatic insects in biomonitoring. Two lecture hours and three laboratory hours a week for one semester. Only one of the following may be counted: Biology 321L, 370C (Topic: Applied Aquatic Entomology), 384K (Topic 13). Prerequisite: The following with a grade of at least C-: Biology 325 or 325H, and Biology 206L, 208L, 226L, or Environmental Science 311.

**BIO 322. Structure, Physiology, and Reproduction of Seed Plants.**
The principles of structure and functioning of higher plants; special attention to the dynamics of growth and development and reproduction. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-; Chemistry 302, 302C, or 302H; and concurrent enrollment in Biology 122L.

**BIO 122L. Structure, Physiology, and Reproduction of Seed Plants Laboratory.**
Observation of structure and reproduction in seed plants and employment of experimental techniques that demonstrate physiological processes, especially processes of growth and development. Two laboratory hours a week for one semester. Prerequisite: Concurrent enrollment in Biology 322; and the following with a grade of at least C-: Biology 325 or 325H; and Biology 206L, 208L, 226L or Environmental Sciences 311.

**BIO 324. Survey of the Plant Kingdom.**
Survey of the groups of living and fossil plants, comparing organization and reproduction to understand major shifts in the evolution of plant life. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-; and concurrent enrollment in Biology 124L.

**BIO 124L. Survey of the Plant Kingdom Laboratory.**
Hands-on exploration of major plant groups emphasizing organization, reproduction and evolution. Cultures, prepared and living material examined. Local field trips. Designed to pair with Biology 324 lectures. Two laboratory hours a week for one semester. Prerequisite: Concurrent enrollment in Biology 324; and the following with a grade of at least C-: Biology 206L, 208L, 226L or Environmental Sciences 311.

**BIO 325. Genetics.**
Basic principles of Mendelism, molecular genetics, structure and function of genes and chromosomes, populations and evolution. Three lecture hours and one discussion hour a week for one semester. Biology 325 and 325H may not both be counted. Prerequisite: Biology 311C and 311D with a grade of at least C- in each and credit or registration for Statistics and Data Sciences 320E, 321, or 302F.
BIO 325H. Genetics: Honors.
Basic principles of genetics and evolution. Emphasis on population
genetics and natural selection; structure and function of organ systems;
behavioral ecology; and mutational analysis of organismal development.
Three lecture hours and one discussion hour a week for one semester.
Biology 325 and 325H may not both be counted. Prerequisite: Biology
315H with a grade of at least C-.

BIO 325L. Laboratory Experience in Genetics.
Experimentation and direct observation in fundamental aspects of
transmission genetics. One lecture hour and four laboratory hours
a week for one semester. Prerequisite: The following with a grade
of at least C: Biology 325 or 325H, and Biology 206L, 208L, 226L, or
Environmental Sciences 311.

BIO 325T. Human Genetics.
Genomics, cancer genetics, identification and analysis of human disease
genes, and monogenic and multifactorial traits in humans. Three lecture
hours a week for one semester. Prerequisite: Biology 325 or 325H with a
grade of at least C-.

BIO 326L. General Microbiology Laboratory.
Introduction to microbiology laboratory techniques and experimental
demonstration of principles of microbiology. One lecture and three
laboratory hours a week for one semester. Prerequisite: Credit with a
grade of at least C- or registration for Biology 326M or 326R.

BIO 326M. Introductory Medical Microbiology and Immunology.
Designed primarily for nursing and prepharmacy students. Overview of
the structure, function, and genetics of bacteria, viruses, and fungi, with
emphasis on the interactions between micro-organisms and the human
host. Includes principles of microbial pathogenesis, the host’s innate and
adaptive immune responses to infection, epidemiology, laboratory
diagnosis, and antimicrobial chemotherapy and vaccines. Three lecture
hours and one discussion hour a week for one semester. Prerequisite: Biology 311C; Biology 325 or 325H with a grade of at least C-; Chemistry
301 with a grade of at least C; and one of the following with a grade of at
least C-: Mathematics 408C, 408K, 408N, 408R.

BIO 326R. General Microbiology.
Overview of the major areas of microbiological study, including cell
structure and function, genetics, host-microbe interactions, physiology,
ecology, diversity, and virology. Three lecture hours and one discussion
hour a week for one semester. Prerequisite: Credit with a grade of at least
C- or registration for Biology 325 or 325H, and Chemistry 302, 302C, or
302H with a grade of at least C-.

BIO 327D. Emerging Infectious Diseases.
Genomic and proteomic tools used to understand the causes of human
infectious diseases. Covers genome sequencing, community sequencing,
proteomics, microarrays, and human polymorphism analysis; and how
these technologies have been applied to the study of important human
viral diseases. Also includes extensive coverage of the molecular and
clinical biology of these diseases. Three lecture hours a week for one
semester. Biology 327D and 337 (Topic: Emerging Infectious Diseases)
may not both be counted. Prerequisite: Biology 325 or 325H with a grade
of at least C-.

BIO 327G. Genomics.
Genome structure, organization, and function of model organisms; theory
and methodology of genetic and physical mapping; sequencing analysis
and annotation; genome duplication and evolution; and ethics for
biotechnology and cloning. Three lecture hours a week for one semester.
Biography 327G and 337 (Topic: Genomics) may not both be counted.
Prerequisite: Biology 325 or 325H with a grade of at least C-.

BIO 328. Introductory Plant Physiology.
General principles of the mineral nutrition, water relations, metabolic
activities, growth and development of green plants. Three lecture hours a
week for one semester. Prerequisite: Biology 325 or 325H with a grade of
at least C-; and Chemistry 302, 302C, or 302H.

BIO 328D. Discovery Laboratory in Plant Biology.
Learning methods of experimental design, data gathering, data
interpretation, and data presentation, including original experiments
relating to questions of current interest in plant physiology. Five
laboratory hours a week for one semester. Biology 328D and 337
(Topic: Discovery Laboratory in Plant Biology) may not both be counted.
Prerequisite: The following with a grade of at least C: Biology 325 or 325H,
and Biology 206L, 208L, 226L, or Environmental Sciences 311.

BIO 128L. Laboratory Experiments in Plant Physiology.
Introduction to experimental techniques used in the study of the mineral
nutrition, water relations, metabolic activities, growth, and development
of green plants. Three laboratory hours a week for one semester.
Prerequisite: Credit with a grade of at least C- or registration for Biology
328; and the following with a grade of at least C: Biology 206L, 208L,
226L, or Environmental Sciences 311.

Topics in Biology.
This course is used to record credit the student earns while enrolled at
another institution in a program administered by the University's Study
Abroad Office. Credit is recorded as assigned by the study abroad adviser
in the Biology Instructional Office. University credit is awarded for work
in an exchange program; it may be counted as coursework taken in
residence. Transfer credit is awarded for work in an affiliated studies
program. May be repeated for credit when the topics vary.

Mechanisms by which viruses replicate and kill or transform cells. Three
lecture hours a week for one semester. Prerequisite: Biology 325 or 325H
with a grade of at least C-.

BIO 230L. Virology Laboratory.
Basic experimental techniques applied to selected bacteriophages and
animal viruses. Four laboratory hours and one discussion hour a week
for one semester. Prerequisite: Biology 226L with a grade of at least C,
and credit with a grade of at least C- or registration for Biology 330.

BIO 331L. Laboratory Studies in Molecular Biology.
Explores molecular biology methods, experimental design, and analyses
applicable to both research and fields such as healthcare, biotechnology,
and genetic analyses. Conducts experiments in a research project
format. One lecture hour and four and one-half laboratory hours a week
for one semester. Prerequisite: The following with a grade of at least C:
Biology 325 or 325H, and Biology 206L, 208L, 226L, or Environmental
Sciences 311.

BIO 335. Introduction to Biochemical Engineering.
Microorganisms in chemical and biochemical synthesis; genetic
manipulation of cells by classical and recombinant DNA techniques.
Enzyme technology; design of bioreactors and microbial fermentations;
separations of biological products. Three lecture hours a week for
one semester. Only one of the following may be counted: Biology 335,
Biomedical Engineering 339, Chemical Engineering 339, 379 (Topic:
Introduction to Biochemical Engineering). Prerequisite: Biochemistry 339F or 369, and Biology 311C with a grade of at least C-.

BIO 336. Tumor Biology.
Covers core aspects of cancer pathology, treatment, epidemiology, the discovery of oncogenes and tumor suppressors, and the molecular genetics underlying the characteristic features of malignant tumors (including metastatic behavior, genomic instability, angiogenesis, cell cycle regulation, and apoptosis). Strong emphasis on the biochemical functions of cancer-related proteins and enzymes and therapeutic approaches based on our understanding of these proteins. Important experimental approaches that have influenced our current understanding of cancer will also be stressed. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-; and one of the following with a grade of at least C-: Biochemistry 339F, 369, Biology 330, 360K.

BIO 137, 237, 337, 437. Selected Topics in Biology.
Recent developments and research methods in the biological sciences. For each semester hour of credit earned, one lecture hour a week for one semester. Some topics may require additional hours. May be repeated for credit when the topics vary. Prerequisite: Biology 325 or 325H with a grade of at least C-; additional prerequisites vary with the topic.

- **Topic 1: Seminar in Human Biology.** One lecture hour a week for one semester. Only offered as Biology 137. Prerequisite: Biology 346 with a grade of at least C-.
- **Topic 2: Research Methods: UTeach.** Restricted to students in the UTeach-Natural Sciences program. Students perform independent inquiries and use skills from mathematics and science to solve research problems.
- **Topic 3: Natural History of Protists.** A study of protista, a wide variety of eukaryotic organisms which are either unicellular or phylogenetically closely allied to unicellular organisms. Description of the basic taxonomic and ecological groups, and description of the natural history of the major groups of organisms.
- **Topic 4: Computational Neuroscience and Neural Networks.**
- **Topic 5: Grant Writing and Research Skills.** Explores skills required of research scientists, and specifically prepares students to submit a NSF Graduate Research Fellowship Proposal (NSF-GRFP) grant proposal during the semester (deadline for GRFP submission is typically during the last week of October). There are weekly writing milestones to complete an NSF-GRFP proposal by the submission deadline. Additional prerequisite: Upper-division standing and Statistics and Data Sciences 320E or 328M with a grade of at least C-.
- **Topic 6: Practical Ethics for Biologists.** Incorporates weekly case studies to introduce common ethical issues faced by biologists in the field and the lab. Employs the Systematic Moral Analysis framework to critically examine ethical issues in scientific inquiry in general (data integrity, who pays for science) as well as issues specific to biologists in the field and laboratory (questionable research practices, conflicts of interest, expertise vs advocacy). Explores issues of personal values, implicit bias and environmental justice.
- **Topic 9: The Emergence of Modern Biology.** Explore biology through an analysis of classic texts from the age of Darwin to the present day. Survey the theory of evolution by natural selection, genetics and the Modern Synthesis, population and community ecology, molecular biology and genomics.

BIO 339. Tumor Biology.
Examine molecular, cellular, organismal, ecological, and evolutionary biology of bacteria. Focus on a large number of bacteria, both Gram-positive and Gram-negative from four major phyla, that live and survive both as free-living microbes, in groups, and in both beneficial and pathogenic associations with eukaryotic hosts. Explore evolution of organelles and behaviors, including receiving and transducing signals that produce a variety of outcomes such as chemotaxis and motility, morphogenesis and development, secretion and virulence, quorum sensing and biofilms, bacterial warfare, and antibiotic production and tolerance. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Biology 359K or 370 with a grade of at least C-.

BIO 340L. Animal Communication.
Animal communication from a multidisciplinary perspective, with emphasis on quantitative analysis, sensory processing, and evolution of signals. Three lecture hours and three laboratory hours a week for one semester, with computer laboratory hours as required. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Statistics and Data Sciences 328M with a grade of at least C-.

BIO 344. Molecular Biology.
Molecular basis of cellular processes: gene structure and function, DNA replication, RNA and protein synthesis, viruses, molecular aspects of immunology and cancer, and recombinant DNA. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 325 or 325H, and Biochemistry 369 or 339F with a grade of at least C-.

BIO 345E. Endocrinology.
Vertebrate endocrinology (primarily mammalian), with a focus on human pathophysiology. Three lecture hours and one discussion hour a week for one semester. Biology 337 (Topic: Endocrinology) and 345E may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-.

BIO 346. Human Biology.
Introduction to human evolution, genetics, sexuality, senescence, and population growth. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Biology 301G, 309F, 346. Prerequisite: Biology 325 or 325H with a grade of at least C-.
BIO 446L. Human Microscopic and Gross Anatomy.
Designed for students preparing for biomedical research and the health professions. Focuses on microscopic and gross anatomy of human tissues and organs, with an emphasis on structure function relationships. Subjects include the effects of disease and aging in addition to normal human anatomy. Three lecture hours and four laboratory hours a week for one semester. Prerequisite: The following courses with a grade of at least C-: Biology 325 or 325H; Chemistry 301; and Mathematics 408C, 408K, 408N, or 408R.

BIO 448L. Invertebrate Biology.
A study of the diversity and evolution of multicellular invertebrate animals, with emphasis on common themes in animal body construction and function. Three lecture hours and three laboratory hours a week for one semester. Prerequisite: The following with a grade of at least C-: Biology 325 or 325H, and Biology 206L, 208L, 226L, or Environmental Science 311.

BIO 453L. Entomology.
Characteristics, importance, and biology of the major groups of insects. Two lecture hours and three laboratory hours a week for one semester, with additional fieldwork hours to be arranged. Prerequisite: The following with a grade of at least C-: Biology 325 or 325H, and Biology 206L, 208L, 226L, or Environmental Science 311.

BIO 353S. Sleep Science.
Explore the basics of sleep science. Examine current research questions and novel approaches. Discuss the range of sleep disorders and their diagnoses. Three lecture hours a week for one semester. Biology 337 (Topic 7) and 353S may not both be counted. Prerequisite: For Neuroscience majors, Biology 325 or 325H and Neuroscience 335; for others, Biology 325 or 325H and Psychology 332.

Explores the link between basic cell biology, human genetics, and human birth defects using current scientific literature exposing students to critical thinking and the scientific method, as well as the application of these tools to the study of biology. Three lecture hours a week for one semester. Biology 337 (Topic: Developing Biology) and Biology 354C may not both be counted. Prerequisite: Biology 349 with a grade of at least C-.

BIO 353S. Sleep Science.
Explore the basics of sleep science. Examine current research questions and novel approaches. Discuss the range of sleep disorders and their diagnoses. Three lecture hours a week for one semester. Biology 337 (Topic 7) and 353S may not both be counted. Prerequisite: For Neuroscience majors, Biology 325 or 325H and Neuroscience 335; for others, Biology 325 or 325H and Psychology 332.

BIO 453L. Entomology.
Characteristics, importance, and biology of the major groups of insects. Two lecture hours and three laboratory hours a week for one semester, with additional fieldwork hours to be arranged. Prerequisite: The following with a grade of at least C-: Biology 325 or 325H, and Biology 206L, 208L, 226L, or Environmental Science 311.

BIO 353S. Sleep Science.
Explore the basics of sleep science. Examine current research questions and novel approaches. Discuss the range of sleep disorders and their diagnoses. Three lecture hours a week for one semester. Biology 337 (Topic 7) and 353S may not both be counted. Prerequisite: For Neuroscience majors, Biology 325 or 325H and Neuroscience 335; for others, Biology 325 or 325H and Psychology 332.

Explores the link between basic cell biology, human genetics, and human birth defects using current scientific literature exposing students to critical thinking and the scientific method, as well as the application of these tools to the study of biology. Three lecture hours a week for one semester. Biology 337 (Topic: Developing Biology) and Biology 354C may not both be counted. Prerequisite: Biology 349 with a grade of at least C-.

BIO 353S. Sleep Science.
Explore the basics of sleep science. Examine current research questions and novel approaches. Discuss the range of sleep disorders and their diagnoses. Three lecture hours a week for one semester. Biology 337 (Topic 7) and 353S may not both be counted. Prerequisite: For Neuroscience majors, Biology 325 or 325H and Neuroscience 335; for others, Biology 325 or 325H and Psychology 332.

BIO 353S. Sleep Science.
Explore the basics of sleep science. Examine current research questions and novel approaches. Discuss the range of sleep disorders and their diagnoses. Three lecture hours a week for one semester. Biology 337 (Topic 7) and 353S may not both be counted. Prerequisite: For Neuroscience majors, Biology 325 or 325H and Neuroscience 335; for others, Biology 325 or 325H and Psychology 332.
BIO 357. Evolutionary Ecology.
Principles of modern ecology, particularly as they relate to natural selection and evolutionary theory. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

BIO 359J. Behavioral Ecology.
Advanced topics in behavioral ecology, with detailed consideration of animal communication, altruism, sexual selection, plant-animal interactions. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Biology 359K or 370 with a grade of at least C-.

An introduction to the study of animal behavior: descriptive analysis of behavior; physiological basis of behavior; development of behavior; adaptive significance and evolution of behavior; communication and social behavior. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

BIO 359R. Animal Sexuality.
The biology of sexuality, including genetics, morphology, physiology, and psychology of sex. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

BIO 360K. Immunology.
The basic concepts of humoral and cell-associated immune phenomena, including innate immunity, the molecular basis of T cell and B cell antigen recognition, hematopoiesis and the development of lymphocytes, cellular and humoral immune responses and the basics of immunodeficiency, autoimmunity, immunotherapy and vaccination. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

BIO 360L. Immunology Laboratory.
Current techniques in experimental cellular and humoral immunology. One hour lecture and four laboratory hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-; Biology 206L, 208L, 226L, or Environmental Science 311 with a grade of at least C-; and credit or registration for Biology 360K.

BIO 361. Human Infectious Diseases.
Etiology, pathogenesis, diagnosis, and immunobiology of the major microbial diseases, with emphasis on their prevention. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H, and Biology 326M or 326R with a grade of at least C- in each.

BIO 361L. Clinical Bacteriology Laboratory.
Training in techniques required for independent work in diagnostic and epidemiological bacteriology. Two lecture hours and five laboratory hours a week for one semester. Prerequisite: The following with a grade of at least C- in each: Biology 325 or 325H; 226L; and 326R or 326M.

BIO 361T. Comparative Animal Physiology.
Examine the physiology of organ systems in animal phyla, with special emphasis on the neural and behavioral adaptations of organisms to their environment. Three lecture hours and one discussion hour a week for one semester. Only one of the following may be counted: Biology 361T, Neuroscience 361T, 337 (Topic: Comparative Animal Physiology). Prerequisite: Biology 325 or 325H with a grade of at least C-.

BIO 363L. Plant Systematics.
Principles of plant classification, phylology, and diversity as exemplified by families and species of flowering plants found seasonally in Texas with an emphasis on the local flora. Two lecture hours and three laboratory hours a week for one semester, with additional field trips to be arranged. Biology 262 and 262L, and 463L may not both be counted. Prerequisite: The following with grades of at least C-: Biology 325 or 325H; and Biology 206L, 208L, 226L, or Environmental Science 311.

BIO 364. Microbial Ecology.
Population, community, and ecosystem ecology of microbes and microbiomes. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

BIO 365S. Human Systems Physiology.
Overview of human physiology, including the cardiovascular, respiratory, and renal systems, with an emphasis on critical thinking, integration, and application. Additional subjects include membrane movement, osmolarity and tonicity, endocrinology, and neurophysiology. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 311C; Biology 325 or 325H, and Chemistry 301, 301C, or 301H with a grade of at least C- in each; and one of the following with a grade of at least C-: Mathematics 408C, 408K, 408N, 408R, or Statistics and Data Sciences 302.

BIO 165U. Human Systems Physiology Laboratory.
Offers hands-on experience in human physiology and encourages critical thinking via case study application. Explores the scientific method through the reading of scientific journal articles; writing protocols for basic physiological experiments; and collecting, analyzing, and presenting data. Three laboratory hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and credit or registration for Biology 365S.

BIO 366. Microbial Genetics.
Molecular biology of nucleic acids; biosynthesis of macromolecules, transfer of genetic material from cell to cell, recombination, mutagenesis, and regulatory mechanisms. Three lecture hours a week for one semester. Biology 366 and 391S may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Biology 326R with a grade of at least C-.

BIO 366R. Molecular Genetics and Medicine.
Implementation of molecular genetics techniques in medicine. Includes application of diagnostic and therapeutic techniques for several genetic disorders and infectious diseases. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

BIO 367C. Cellular and Molecular Bases of Neural Development.
An introduction to the principles by which the neural tube (brain and spinal cord) forms during embryonic development. Subjects include the cellular and molecular mechanisms underlying the formation of a three-dimensional neural tube and its division into forebrain, midbrain, hindbrain, and spinal cord. Three lecture hours a week for one semester. Biology 365N and BIO 367C may not both be counted. Prerequisite: One of the following with a grade of at least C-: Biology 325, Neuroscience 330, 365R.

BIO 068. Peer Assistant.
May be repeated for credit. Offered on the pass/fail basis only.

BIO 369F. Field Herpetology.
Species identification by sight and sound, and research techniques such as sampling populations, data collection, and analysis. One lecture hour
and five laboratory hours a week for one semester, with additional field hours to be arranged. Prerequisite: The following with a grade of at least C-: Biology 325 or 325H, and Biology 206L, 208L, 226L, or Environmental Science 311.

**BIO 369L. Herpetology.**

Biology of amphibians and reptiles, including evolution, ecology, behavior, physiology, life history, and identification. Three lecture hours and three laboratory hours a week for one semester. Prerequisite: The following with a grade of at least C-: Biology 325 or 325H, and Biology 206L, 208L, 226L, or Environmental Science 311.

**BIO 370. Evolution.**

Introduction to modern evolutionary biology, focusing on the evolution of molecular, developmental, morphological, and behavioral traits. Genetic and ecological bases of evolutionary changes within populations and of evolutionary divergence in animals and plants. Three lecture hours and one discussion hour a week for one semester. Biology 370 and 385K (Topic 2: Evolution) may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-.

**BIO 170C, 270C, 370C, 470C. Conference Course.**

Supervised study of selected topics in biology, by individual arrangement with the instructor. Conference course. May be repeated for credit when the topics vary. Prerequisite: Biology 325 or 325H with a grade of at least C-; additional prerequisites vary with the topic.

**BIO 471. Introduction to Systematics.**

Study of diversification of living and fossil organisms, including speciation, biogeography, taxonomy, and phylogeny of genes, species, and higher taxa. The lecture and laboratory include a significant amount of computational molecular phylogenetics. Three lecture hours and three laboratory hours a week for one semester. Prerequisite: Biology 325 or 325H, and 370 with a grade of at least C-.

**BIO 471G. Natural History Museum Science.**

An introduction to curatorial practices in natural history museums. Three lecture hours and one discussion hour a week for one semester; students also complete a twenty- to thirty-hour curatorial project. Prerequisite: Biology 325 or 325H with a grade of at least C-.

**BIO 371L. Experimental Physiology.**

Experimental approach to physiological mechanisms by which animals adapt to their environment. One lecture hour, four laboratory hours, and two hours of computer work a week for one semester. Prerequisite: The following with a grade of at least C-: Biology 325 or 325H, and Biology 206L, 208L, 226L, or Environmental Science 311.

**BIO 372C. Biology Peer Mentors in Research/Teaching.**

Students work as peer mentors and assistants in the teaching of biology, with emphasis on developing instructional materials that teach fundamental biology with real world data. Students mentor students for at least three hours a week in addition to other weekly meetings. Biology 372C and Chemistry 372C may not both be counted. Prerequisite: Biology 311C, 311D, and 325, or Biology 315H and 325H, with a grade of at least B in each; and consent of the undergraduate adviser.

**BIO 373. Ecology.**

An introduction to ecology, the study of relationships among organisms and between organisms and their environment; adaptations, population, communities, and ecosystems. Includes both plants and animals and both terrestrial and aquatic ecosystems. Three lecture hours and one discussion hour a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-.

**BIO 373L. Ecology Laboratory.**

Intensive field ecology. Includes group field experiment and observation, independent projects, and field trips to other vegetation zones. Students complete weekly write-ups of observation and data analysis, reports of independent projects, and an oral presentation on an independent project. Four laboratory hours and two workshop/lecture hours a week for one semester. Prerequisite: Credit with a grade of at least C- or registration for Biology 373; and the following with a grade of at least C-: Biology 206L, 208L, 226L, or Environmental Science 311.

**BIO 374. Plant Anatomy with Histological Techniques.**

Tissue organization and cellular details of stems, roots, and leaves of seed plants, with emphasis on development and function. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-; and concurrent enrollment in Biology 174L.

**BIO 174L. Laboratory in Plant Anatomy and Histological Techniques.**

Demonstration of cellular details and tissue systems of plant organs; instruction in the preparation of plant materials for histological examination. Three laboratory hours a week for one semester. Prerequisite: Credit with a grade of at least C- or registration for Biology 374; and the following with a grade of at least C-: 206L, 208L, 226L, or Environmental Sciences 311.

**BIO 375. Conservation Biology.**

Application of principles of ecology to the preservation of wild plant and animal species and to the preservation, management, and restoration of natural and semi-natural ecosystems. Emphasis on scientific, biological aspects of issues such as endangered species protection, preserve design, and forest management. Three lecture hours a week for one semester. Prerequisite: Biology 325 or 325H with a grade of at least C-, and Biology 357, 359J, or 373 with a grade of at least C-.

**BIO 177, 277, 377. Undergraduate Research.**

Laboratory or field research in the various fields of biological science under the supervision of one or more faculty members. Supervised individual research. Up to three semester hours may be counted toward the major requirement for the Bachelor of Arts degree with a major in biology. May be repeated for credit. Prerequisite: Biology 325 or 325H with a grade of at least C-, and written consent of instructor.

**BIO 478L. Comparative Vertebrate Anatomy.**

Study of vertebrate morphology from developmental anatomy to the function, biomechanics, and phylogenetick relationships of living and fossil taxa. Three lecture hours and four laboratory hours a week for one semester. Biology 478L and Kinesiology 324K, 424K may not both be counted. Prerequisite: Biology 325 or 325H with a grade of at least C-.

**BIO 379H, 679H. Honors Tutorial Course.**

Original laboratory or field research project under the direction of a faculty mentor, leading to a thesis or research presentation for students in the honors program in biology. The equivalent of three or six lecture hours a week for one semester. May be repeated for credit, but no more than six hours may be counted toward a degree in biology. Prerequisite: Consent of the student's research supervisor and the departmental honors adviser.

**Graduate Courses**

**BIO 380C. Advanced Conservation Biology.**

Application of principles and concepts of ecology to the preservation of wild plant and animal species and to the preservation, management, and restoration of natural and semi-natural ecosystems. Emphasis on biological aspects of issues such as endangered species protection,
invasive species, preserve design, and forest management, via a set of case studies. Three lecture hours a week for one semester. Biology 380C and 384K (Topic: Advanced Topics in Conservation Biology) may not both be counted. Prerequisite: Graduate standing.

**BIO 380E. Advanced Microbial Ecology.**

Examines microbial population, community, and ecosystem ecology. Three lecture hours a week for one semester. Only one of the following may be counted: Biology 380E, 384K (Topic 22), and 384K (Topic: Advanced Topics in Microbial Ecology). Prerequisite: Graduate standing.

**BIO 380F. Biology of Birds.**

Anatomy, physiology, classification, and ecology of birds. Three lecture and two laboratory hours a week for one semester. Includes optional weekly, half-day field trips and two optional full-weekend trips. Biology 384K (Topic: Biology of Birds) and 380F may not both be counted.

**BIO 380G. Methods in Ecological Genomics.**

Explores state-of-the-art methodologies for: genomics-based demographic and population structure analysis; detection of genomic signatures of natural selection; analyzing gene expression in the ecology, evolution, and behavior context; quantification of complex communities using metabarcoding. Three lecture hours a week for one semester. Biology 380G and 384K (Topic: Methods in Ecological Genomics) may not both be counted. Prerequisite: Graduate standing.

**BIO 380H. Biophysics.**

Irritability of living systems and the principles of energy transformation and transfer in organisms; biological concepts. Three lecture hours a week for one semester. With consent of instructor, may be repeated for credit when the topics vary. Prerequisite: Graduate standing, consent of instructor, and consent of instructor and the graduate adviser.

**BIO 380I. Brain, Behavior, and Evolution.**

Same as Neuroscience 380I. Integrative approaches to study brain and behavior within an evolutionary and comparative framework. Specifically, the integration of neuroscience, organismal behavior and physiology, behavioral ecology, evolutionary development, experimental evolution, molecular biology, genetics, genomics, systems biology, and bioinformatics. Three lecture hours a week for one semester. Only one of the following may be counted: Biology 380I, 384K (Topic: Brain, Behavior, and Evolution), Neuroscience 380I, 385L (Topic: Brain, Behavior, and Evolution). Prerequisite: Graduate standing, and consent of instructor and the graduate adviser.

**BIO 380J. Current Concepts in Biology.**

Designed for beginning graduate students seeking a review of modern biological concepts. Three lecture hours a week for one semester. With consent of instructor, may be repeated for credit when the topics vary. Prerequisite: Graduate standing in the School of Biological Sciences, and consent of instructor and the graduate adviser.

**BIO 380K. Topics in Microbial Ecology.**

Examines microbial population, community, and ecosystem ecology. Three lecture hours a week for one semester. Only one of the following may be counted: Biology 380E, 384K (Topic 22), and 384K (Topic: Advanced Topics in Microbial Ecology). Prerequisite: Graduate standing.

**BIO 380L. Advanced Systematics.**

Explores biodiversity, phylogeny, species concepts, historical biogeography, phylogeography, molecular clocks, phylogenomics, comparative methods, fossils, morphometrics, taxonomy, ontogeny, homology, computational methods, and phylogenetic statistics. Three lecture hours and three laboratory hours a week for one semester. Biology 384K (Topic 14) and 380L may not both be counted. Prerequisite: Graduate standing.

**BIO 380M. Topics in Biology (Cooperative Programs).**

Formal, organized courses taught at institutions other than the University of Texas at Austin. Three lecture hours a week for one semester. Not all topics are offered every year. May be repeated for credit when the topics vary. Prerequisite: Graduate standing, consent of the student’s graduate adviser or department chair and the University’s graduate dean, and consent of the graduate dean at the host institution; additional prerequisites vary with the topic.

**BIO 380P. Population Genetics.**

Introduces students to population genetics. The emphasis is on a quantitative understanding of evolutionary change caused by selection, drift, mutation, and migration. Both phenotypic and molecular evolution will be covered. Three lecture hours a week for one semester. Biology 380P and 385K (Topic 4) may not both be counted.

**BIO 180R, 280R, 380R. Advanced Readings in the Biological Sciences.**

For each semester hour of credit earned, the equivalent of one class hour a week for one semester. Prerequisite: Graduate standing, and consent of instructor and the graduate adviser.

**BIO 380S. Animal Sexuality.**

Examines how hormones shape the development of the body, regulate physiological processes, and influence how individuals behave. Three lecture hours a week for one semester. Meets requirements for non-seminar graduate courses in the Ecology, Evolution, and Behavior Graduate Program. Only one of the following may be counted: Biology 380S, 383K (Topic: Animal Sexuality), 383K (Topic: Studies in Animal Sexuality). Prerequisite: Graduate standing.

**BIO 380T. Current Concepts in Biology.**

Designed for beginning graduate students seeking a review of modern biological concepts. Three lecture hours a week for one semester. With consent of instructor, may be repeated for credit when the topics vary. Prerequisite: Graduate standing in the School of Biological Sciences, and consent of instructor and the graduate adviser.

**BIO 380U. Brain, Behavior, and Evolution.**

Same as Neuroscience 380U. Integrative approaches to study brain and behavior within an evolutionary and comparative framework. Specifically, the integration of neuroscience, organismal behavior and physiology, behavioral ecology, evolutionary development, experimental evolution, molecular biology, genetics, genomics, systems biology, and bioinformatics. Three lecture hours a week for one semester. Only one of the following may be counted: Biology 380U, 384K (Topic: Brain, Behavior, and Evolution), Neuroscience 380U, 385L (Topic: Brain, Behavior, and Evolution). Prerequisite: Graduate standing, and consent of instructor and the graduate adviser.

**BIO 380V. Biological Foundations of Decision Making.**
