Bachelor of Science in Environmental Science

The Bachelor of Science in Environmental Science degree program is designed for students interested in an interdisciplinary scientific perspective on environmental and sustainability issues, analysis, and management. The degree program provides the broad foundation in physical, life, and social sciences needed for a career or graduate study in environmental science and related fields such as climate change, ecology, and conservation. Students who complete the program successfully will be able to assess environmental issues critically from multiple perspectives; to perform field, laboratory, and computer analyses; and to conduct original research. The program is designed to prepare graduates for careers in local, state, and federal government laboratories and nonprofit agencies, environmental consulting firms, environmental education and outreach agencies, and universities and other research settings. The degree is offered by the College of Natural Sciences with a major in biological sciences, by the College of Liberal Arts with a major in geographical sciences, and by the Jackson School of Geosciences with a major in geosciences. The degree programs share common prescribed work, but each degree has its own specific requirements. Students may earn only one Bachelor of Science in Environmental Science degree from the University.

The Bachelor of Science in Environmental Science degree requires 126 total semester credit hours of coursework. All students must complete the University’s Core Curriculum. The specific degree requirements consist of prescribed work, major requirements, and electives. In some cases, a course that is required for the degree may also be counted toward the core curriculum.

A course in one prescribed work area may not also be used to fulfill the requirements of another prescribed work area; the only exception to this rule is that a course that fulfills another requirement may also be used to fulfill a flag requirement unless otherwise specified.

In the process of fulfilling the core curriculum and other degree requirements, all students are expected to complete the following Skills and Experience flags:

a. Writing: three flagged courses beyond Rhetoric and Writing 306 or its equivalent; students in the College of Natural Sciences and the Jackson School of Geosciences must complete only two flagged writing courses. For students in the College of Natural Sciences and the College of Liberal Arts, at least one writing flag must be from an upper-division course.

b. Quantitative reasoning: one flagged course

c. Global cultures: one flagged course

d. Cultural diversity in the United States: one flagged course

e. Ethics: one flagged course

f. Independent inquiry: one flagged course

### Prescribed Work Common to All Majors

a. Introductory course: Environmental Science 301

b. Field experience and research methods: Environmental Science 311

c. Environment and sustainability coursework:
   ii. One geographic information systems course: Geography 460G, 462K, or Geological Sciences 327G.

iii. Two earth system courses: Geological Sciences 416W and one course chosen from Geography 330W, 301K, Geological Sciences 347D, 370E, 476K, 476M, 376S, or 377P.

d. Courses in each of the following environmental science areas:
   i. Geological Sciences: Geological Sciences 401 or 303.
   ii. Geography: Geography 412E.
   iii. Ecology: Two courses chosen from Integrative Biology 373 or Marine Science 320 and Integrative Biology 373L or Marine Science 120L. Biological sciences majors must choose Integrative Biology 373 and 373L.

e. Capstone Research Experience chosen from one of the following pairs:
   i. Environmental Science 271 and 371 or 171 and 471.
   ii. Environmental Science 172C and 472D or 272C and 372D.
v. Please note:
   • Geographical sciences majors may not use the same coursework to satisfy both requirements 3 and 11.
   • Geosciences majors may not use the same coursework to satisfy both requirements 3 and 12.
   • Students may not use the same coursework to satisfy both requirements 3 and 5.

d. Courses in each of the following environmental science areas:
   i. Environmental Science: Environmental Science 301 and 302.
   ii. Environmental Science 271C and 371 or 171 and 471.
   iii. Marine Science 320 and Integrative Biology 373L.

Please note:
   • Geographical sciences majors may not use the same coursework to satisfy both requirements 3 and 11.
   • Geosciences majors may not use the same coursework to satisfy both requirements 3 and 12.
   • Students may not use the same coursework to satisfy both requirements 3 and 5.

iii. Two earth system courses: Geological Sciences 416W and one course chosen from Geography 330W, 301K, Geological Sciences 347D, 370E, 476K, 476M, 376S, or 377P.

v. Please note:
   • Geographical sciences majors may not use the same coursework to satisfy both requirements 3 and 11.
   • Geosciences majors may not use the same coursework to satisfy both requirements 3 and 12.
   • Students may not use the same coursework to satisfy both requirements 3 and 5.

vi. Capstone Research Experience chosen from one of the following pairs:
   i. Environmental Science 271 and 371 or 171 and 471.
   ii. Environmental Science 172C and 472D or 272C and 372D.

v. Please note:
   • Geographical sciences majors may not use the same coursework to satisfy both requirements 3 and 11.
   • Geosciences majors may not use the same coursework to satisfy both requirements 3 and 12.
   • Students may not use the same coursework to satisfy both requirements 3 and 5.

Please note:
   • Geographical sciences majors may not use the same coursework to satisfy both requirements 3 and 11.
   • Geosciences majors may not use the same coursework to satisfy both requirements 3 and 12.
   • Students may not use the same coursework to satisfy both requirements 3 and 5.

6. Mathematics: Mathematics 408C, 408N and 408S, or 408K and 408L.
7. Chemistry: Chemistry 301 or 301C or 302 or 302C.
8. Physics: Physics 317K and 117M, Physics 303K and 103M, or Physics 301 and 101L.
9. Biological Sciences: Biology 311C and 311D, or 315H.
Geographical Sciences Requirements

A total of 126 semester credit hours is required.

The following 30 semester hours of coursework are required; these hours must include at least 18 hours of upper-division coursework. A grade point average of at least 2.00 in the 30 hours of geography coursework is required for the major.

j. Geography 401C

k. Twenty-six additional hours of coursework in geography, chosen from:
   - Please note:
     - See an approved list for additional topics.
     - Geographical sciences majors may not use the same coursework to satisfy both requirements 3 and 11.
     - Geographical sciences majors may not use the same coursework to satisfy both requirements 5 and 11.

Additional Prescribed Work

l. Writing and Literature: English 316L, 316M, 316N, or 316P, and three courses beyond Rhetoric and Writing 306 or the equivalent that carry a writing flag. One of these courses must be upper-division. Courses that carry a writing flag are identified in the Course Schedule. They may be used simultaneously to fulfill other requirements, unless otherwise specified.

m. Foreign language/culture: One of the following foreign language/culture choices:
   - Courses taken to attain a certain level of proficiency in a foreign language are not electives and cannot be taken on the pass/fail basis.
   - Second-semester-level proficiency, or the equivalent, in a foreign language.
   - First-semester-level proficiency, or the equivalent, in a foreign language and a three-semester-hour course in the culture of the same language area.
   - Two three-semester-hour courses in one foreign culture area chosen from a list of approved courses available in the Student Division or from the undergraduate advisor.

n. Social science: Three semester credit hours in a social science field, in addition to the course taken to satisfy the Social and Behavioral Science requirement of the Core Curriculum.

A list of approved courses is available each semester in the Student Division and on the College of Liberal Arts website.

o. Cultural expression, human experience, and thought: Three semester hours of approved coursework. The course must be in a field of study taught in the College of Liberal Arts. A course counted toward any requirement of the core curriculum may not also be counted toward this requirement.

A list of approved courses is available each semester in the Student Division and on the College of Liberal Arts website.
