Admission and Registration

Admission

Admission to the University

For the College of Pharmacy’s Pharm.D. program, admission and readmission are the responsibility of the dean of the College as delegated by the University’s director of admissions. Students accepted to the Pharm.D. Program will be processed for admission to the University (if not already enrolled at The University of Texas at Austin).

Admission Policies of the College

Admission to the Professional Curriculum

Admission to the University in no way implies or guarantees admission to the professional curriculum. No student may begin the professional curriculum until he or she has been admitted to the professional curriculum in pharmacy by the dean, following recommendation by the Admissions Committee of the College of Pharmacy, according to the procedures outlined in this section regarding admission. All students must meet the admission requirements given in the catalog in effect at the time of application. If the number of eligible applicants to the professional curriculum exceeds the number that available facilities can accommodate, final selection is made by the college Admissions Committee and the dean.

The College of Pharmacy uses PharmCAS, the national Pharm.D. application system. All student applications must go through PharmCAS, and those accepted for enrollment in the college will be processed for direct admission to the University.

Students who are enrolled in a pharmacy program at another institution and who wish to transfer to the University should follow the normal Pharm.D. application process. Upon admission to the University and the professional curriculum, the student may request advanced standing in the pharmacy curriculum. Placement is contingent on availability of space and on transcript evaluation to determine University equivalencies for the student’s coursework.

As a condition of admission to the college, each student must sign a statement that he or she agrees to accept assignment to any one of the college’s experiential (internship) regions throughout the state. Cooperative arrangements for pharmacy education exist with academic units and health care institutions in the following internship regions: Austin/Temple/Waco, Dallas/Fort Worth, Galveston/Houston, San Antonio, and the Rio Grande Valley. Experiential regions may be added or deleted at any time based on the availability of resources.

Students assigned to San Antonio must spend the last two years of the professional program in that region. Students assigned to the other regions spend only the final year of the program (the fourth professional experiential year) in their assigned region.

Students are assigned to experiential regions through a computer-generated random assignment system that takes students’ ranked preferences into account. Since most students relocate to experiential regions outside the Austin area, region assignment occurs during the latter part of the first professional year to allow students adequate time to make personal and financial arrangements. There are no exceptions to the region assignment process. If a student fails to agree to accept assignment to any region, he or she will not be admitted to the college.

Admission to the First Professional Year

Admission to the professional curriculum is competitive. The application process is conducted via the national Pharm.D. admissions program, PharmCAS, as specified on the PharmCAS website and linked via the College of Pharmacy.

Basic Admission Criteria

a. Scholarship, as indicated by grade point average and Pharmacy College Admission Test (PCAT) scores, including writing sample scores, are submitted via PharmCAS. Scores more than three years old are not accepted.

b. Essay as specified in the PharmCAS application process.

c. Letters of recommendation submitted via PharmCAS from people who know the applicant well professionally, especially pharmacist employers.

d. Transcripts of all academic work submitted via PharmCAS.

e. A résumé submitted via PharmCAS that provides details about the applicant’s professional, organizational, volunteer, and service experience.

Additional Personal Factors

The information specified below is submitted either via PharmCAS or through the college’s supplemental application.

a. Pharmacy and other related work experience

b. Organizational, service, and volunteer activities that demonstrate community involvement and leadership potential

c. Teaching, tutoring, and mentoring experience

d. Research experience

e. Honors and awards

f. Interview. Applicants are screened for interviews based on academic record, direct work experience in the profession, special life circumstances, and any other compelling factors. If the applicant is invited for an interview, then other factors are considered; these include but are not limited to the following:

a. Knowledge of and motivation for pharmacy as a career

b. Lifelong learning strategies

c. Critical thinking skills

d. Communication skills

e. Compassion and commitment to care

f. Respect toward others

g. Organizational efficiency

h. Integrity and ethical reasoning

i. Relationship-building skills

j. Leadership skills

k. Teamwork

g. Special life circumstances; these include but are not limited to the following:

a. Single parent

b. Socioeconomic status of family

c. First generation attending college

d. Overcoming adversity

e. Resident of an underserved area of the state or an area of Texas with a health professions shortage

f. Race and ethnicity

g. Cultural background

Because the University is a public institution, preference is given to applicants who are legal residents of Texas and to applicants from states without colleges of pharmacy. Applicants are strongly encouraged...
to examine the admission statistics published by the college on its admissions website.

**Application Deadlines**
The deadline to apply for admission to the college is specified on the PharmCAS website and linked via the College of Pharmacy.

**Admission Requirements**

a. The applicant must have completed at least 66 semester hours in total, and must have completed the following 45 hours in prerequisite courses prior to enrolling in the professional pharmacy curriculum:
   - Nine hours of biology, including cellular and molecular biology, structure and function of organisms, and genetics
   - Eight hours of general chemistry with laboratory
   - Three hours of freshman-level rhetoric with laboratory
   - Three hours of sophomore-level survey of American, British, or world literature
   - Three hours of calculus
   - Three hours of statistics
   - Eight hours of organic chemistry with laboratory
   - Four hours of microbiology with laboratory
   i. Four hours of physics with laboratory

   The remaining 21 semester hours should be from the Core Curriculum.

b. The applicant must remove all deficiencies in high school units by the means prescribed in the General Information Catalog before seeking admission to the professional curriculum.

**Admission Procedures**

a. All applications for the Pharm.D. program will be handled through the national Pharm.D. admissions system, PharmCAS. Students must adhere to the deadlines for admission specified. The PharmCAS application process will include a supplementary application to the college (with a nonrefundable supplementary application fee) necessary to acquire additional academic information for University admission. Candidates will be notified if additional information is required.

b. Selected applicants will be asked to appear for a personal interview. The personal interview will follow a multiple-mini interview (MMI) format.

c. The applicant is considered on the basis of overall academic performance, with emphasis on grades in the required Pharm.D. prerequisite courses. In accordance with University policy, courses in which the applicant earned a grade of D+, D, D-, or F at another institution are not transferable and may not be used to fulfill any degree requirements. However, courses in which the student earned a grade of D+, D, or D- are considered when the student's admissibility to the professional curriculum is determined.

d. Applicants who have been offered admission to the University and to the Pharm.D. program will be asked to pay a nonrefundable enrollment deposit to the University. If the student does enroll in the program that fall, the deposit will be applied to the semester's tuition bill.

e. All students accepted for admission in the Pharm.D. program will be processed for admission to The University of Texas using the information in the PharmCAS application. Additional materials for University admission may be required:
   - A high school transcript, if the applicant’s foreign language requirement was completed in high school. Official transcripts must be sent to the University’s Office of Admissions.

b. Scores on the Texas Higher Education Assessment (THEA) test (or an appropriate assessment test), if and only if the student is required by state law to take this test.

c. Credit earned by examination. These reports should be sent directly to the Testing and Evaluation Services—Student Testing Services at the University. This would be done if and only if the student had not previously claimed credit showing on the transcript.

d. Official transcripts for all colleges/universities attended.

e. An applicant who has been admitted to the University and to the professional curriculum but fails to enroll in either, and who wishes to enter the professional curriculum in a subsequent fall semester, must reapply both to the University and to the College of Pharmacy and must meet all requirements in force at the time of reaplication. A student who has been out of the University for a semester or more must also apply for readmission to the University.

**Technical Standards**

“Technical standards” are the observational, communication, sensory/motor, and intellectual skills, the behavioral and social attributes, and the ethical values required for the completion of the professional curriculum and for the practice of pharmacy. These standards are described on the College of Pharmacy’s website. Each applicant must attest that they have read and understand the technical standards. Any applicant who believes he or she may have difficulty meeting them should contact the college’s director of admission.

**Registration**

The General Information Catalog gives information about registration, adding and dropping courses, transfer from one division of the University to another, and auditing a course. The Course Schedule published before registration each semester and summer session, includes registration instructions, advising locations, and the times, places, and instructors of classes. The Course Schedule and General Information are published on the Office of the Registrar’s website.

Each semester the academic advisor for the college provides registration guidance that is specific to the College of Pharmacy.

**Registration as a Student-Intern**

Upon matriculation to the first professional year, each student must register as a student-intern in order to complete the academic requirements for the degree.

Additional information regarding intern registration and pharmacist licensure is given in the section Legal Requirements for Professional Practice. Requirements and regulations are subject to change by the Texas State Board of Pharmacy. Every attempt is made to inform students of changes as they occur.
