

Accounting (BBA)

The objective of the BBA accounting curriculum is to provide students with a broad overall education, solid grounding in the common body of knowledge of business administration, and exposure to accounting in sufficient depth to help them achieve entry-level competence for pursuit of a career in industry.

The study of accounting focuses on the principles and practices of analyzing, reporting, and critically evaluating financial information for businesses and organizations. The objective of the four-year accounting degree is to provide undergraduate business students with a foundation in core principles of accounting as a part of their business education.

This degree prepares graduates for careers in industry and public service as well as master's programs outside of accounting and master's programs in accounting.

Undergraduate students can also pursue the five-year integrated approach to the Master in Professional Accounting (MPA) degree, which leads to the award of both the BBA and the MPA degrees. The integrated approach is designed for students who wish to obtain an education beyond core principles to include an accounting specialization and pursue professional designations and licensure.

Total Hours Required: 120

Plan of Study

The Plan of Study is a suggested four-year course sequence to support academic planning and serves as a helpful guide. Currently enrolled students should meet with their academic advisor to tailor their course selections and timelines to their individual goals and circumstances.

Course	Title	Hours
Year 1		
Semester 1		
B A 110G	Topics in Professional Growth I	1
M 408Q	Differential and Integral Calculus for Business	4
ECO 304K	Introduction to Microeconomics	3
RHE 306	Rhetoric and Writing	3
<u>First-Year Signature Course (090)</u>		3
Hours		14
Semester 2		
B A 111G	Topics in Professional Growth II	1
STA 301	Introduction to Data Science	3

Total Hours		57

Additional Requirements and Policies

Grade Point Average (GPA)

A grade point average of at least 2.00 in business courses is required. For more information about grade requirements and restrictions on repetition of courses, please see [school's Requirements and Policy](#) section.

In-residence Requirement

At least 24 semester hours in business must be completed in residence on the letter-grade basis at the University, of which at least 12 semester hours must be in upper-division coursework in the student's major. For additional in residence requirements, see the [University's minimum General Requirements for graduation](#).

Enrollment Requirement

Degree candidates must be enrolled in the school in the semester in which the degree is awarded.
