

Biology, Marine Science (BSBio)

Total Hours Required: 120

Plan of Study

The Plan of Study is a suggested four-year course sequence to support academic planning and serves as a helpful guide. Currently enrolled students should meet with their academic advisor to tailor their course selections and timelines to their individual goals and circumstances.

Course	Title	Hours

Requirements

All requirements are listed below, starting with the most specialized moving to the most general. Additional requirements may follow the table, so be sure to read the entire page. Some required courses listed below may also satisfy [General Education](#) requirements, including [Core Curriculum](#).

Code	Title	Hours
Concentration		
CH 320M	Organic Chemistry I	3
MBS 326R	General Microbiology	3
INB 373	Ecology	3
MNS 101	Seminar in Marine Science	1
MNS 310	Fundamentals of Marine Science	3
MNS 320	Marine Ecology	3
MNS 120L	Laboratory Studies in Marine Ecology	1
Hours chosen from: Upper-division MNS (at least six hours of which must be completed at the Marine Science Institute in Port Aransas, Texas)		12
Hours chosen from:		6
MBS 320	Cell Biology	
INB 321L	Aquatic Entomology	
MBS 328	Introductory Plant Physiology	
MBS 344	Molecular Biology	
INB 354L	Ichthyology	
INB 361T	Comparative Animal Physiology	
INB 364	Microbial Ecology	
MBS 366	Microbial Genetics

Additional Requirements and Policy

Students in all Options must fulfill both the University's [General Requirements](#) for graduation and the [college requirements](#). They must also earn a grade of at least C- in each mathematics and science course required for the degree, and a grade point average in these courses of at least 2.00. More information about grades and the grade point average is given in the *General Information Catalog*.

To graduate under Biology Honors, students must remain in good standing in the [Dean's Scholars](#), [Health Science Scholars](#), or [Polymathic Scholars Honors Program](#), must submit an honors thesis, and present their research in an approved public forum, such as the college's annual Undergraduate Research Forum. More information about the Undergraduate Research Forum is available at <https://cns.utexas.edu/>.

Order and Choice of Work

Students begin the Bachelor of Science in Biology degree program with six hours of introductory biology for science majors (BIO 311C and BIO 311D), as well as CH 301 or CH 301C and CH 302 or CH 302C and M 408C, M 408N, or M 408R. Students should consult with academic advisors about specific concentrations within biology, about appropriate courses in mathematics and physical sciences, and about course load and the balance between laboratory and nonlaboratory work. Most students select a concentration by the end of the second year and take at least 21 hours of upper-division coursework in the major in the third and fourth years.

Additional Requirements and Policies

Students must take MBS 226L instead of either BIO 206L or INB 208L.
